Overview.

These rules establish a performance-based preparation system for educators that supports the Improvement of Student Achievement Act of 1993 (1209) which will enable educators to implement the Washington state student learning goals and essential academic learning requirements. These rules also provide a framework for consistency and quality preparation of career and technical education teacher certification candidates using industry or business work experience.

Specifically, this chapter describes the procedures and standards for colleges/universities and other agencies or institutions to be approved as providers of preparation programs for career and technical education teacher certification based on business and industry work experience. In addition to colleges and universities, programs may be provided by community and technical colleges, school districts, educational service districts, or any combination of the above.

Finally, this chapter identifies the general standards which must be demonstrated by all successful applicants for career and technical education teacher certification based on business and industry work experience and the specific standards which will be demonstrated by those applying for certification in specialty areas.
