

Recap of Study Objectives and Progress to Date.

Information Technology Workgroup

**The Office of Program Research
Senate Committee Services**

November 1, 2007

The Work Group was directed to study the following issues...

- **A statewide information services strategy;**
 - **The approval and oversight process of information technology projects;**
 - **Leveraging the expertise and purchasing power of the DIS;**
 - **Strengthening the role of the ISB in enhancing the utilization of services offered by DIS;**
 - **Opportunities to provide cost efficient and equitable access to digital resources, including online databases, for faculty and students at public institutions of higher education, state employees, and the public.**
 - **In conducting its review, the Work Group must consider approaches used in other states.**
-
