(b) As part of any sentence under this section, the court shall also require the offender to comply with any conditions imposed by the board under sections 304 and 306 through 309 of this act.

NEW SECTION.  Sec. 304. A new section is added to chapter 9.94A RCW to read as follows:

(1) When an offender is sentenced under section 303 of this act, the department shall assess the offender's risk of recidivism and shall recommend to the board any additional or modified conditions of the offender's community custody based upon the risk to community safety. In addition, the department shall make a recommendation with regard to, and the board may require the offender to participate in, rehabilitative programs, or otherwise perform affirmative conduct, and obey all laws. The board must consider and may impose department-recommended conditions.

(2) The department may not recommend and the board may not impose conditions that are contrary to those ordered by the court and may not contravene or decrease court-imposed conditions. The board shall notify the offender in writing of any such conditions or modifications.

(3) In setting, modifying, and enforcing conditions of community custody, the department shall be deemed to be performing a quasi-judicial function.

(4) If an offender violates conditions imposed by the court, the department, or the board during community custody, the board or the department may transfer the offender to a more restrictive confinement status and impose other available sanctions as provided in section 309 of this act.

(5) By the close of the next business day, after receiving notice of a condition imposed by the board or the department, an offender may request an administrative hearing under rules adopted by the board. The condition shall remain in effect unless the hearing examiner finds that it is not reasonably related to any of the following:

(a) The crime of conviction;
(b) The offender's risk of reoffending; or
(c) The safety of the community.
(6) An offender released by the board under section 306 of this act shall be subject to the supervision of the department until the expiration of the maximum term of the sentence. The department shall monitor the offender's compliance with conditions of community custody imposed by the court, department, or board, and promptly report any violations to the board. Any violation of conditions of community custody established or modified by the board shall be subject to the provisions of sections 307 through 310 of this act.

(7) If the department finds that an emergency exists requiring the immediate imposition of conditions of release in addition to those set by the board under section 306 of this act and subsection (1) of this section in order to prevent the offender from committing a crime, the department may impose additional conditions. The department may not impose conditions that are contrary to those set by the board or the court and may not contravene or decrease court-imposed or board-imposed conditions. Conditions imposed under this subsection shall take effect immediately after notice to the offender by personal service, but shall not remain in effect longer than seven working days unless approved by the board under subsection (1) of this section within seven working days.

NEW SECTION. Sec. 305. A new section is added to chapter 72.09 RCW to read as follows: The department shall provide offenders sentenced under section 303 of this act with the opportunity for sex offender treatment during incarceration.

NEW SECTION. Sec. 306. A new section is added to chapter 9.95 RCW to read as follows:
(1)(a) Before the expiration of the minimum term, as part of the end of sentence review process under RCW 72.09.340, 72.09.345, and where appropriate, 72.09.370, the department shall conduct, and the offender shall participate in, an examination of the offender, incorporating methodologies that are recognized by experts in the prediction of sexual dangerousness, and including a prediction of the probability that the offender will engage in sex offenses if released.

(b) The board may contract for an additional, independent examination, subject to the standards in this section.

(2) The board shall impose the conditions and instructions provided for in RCW 9.94A.720. The board shall consider the department's recommendations and may impose conditions in addition to those recommended by the department. The board may impose or modify conditions of community custody following notice to the offender.

(3) No later than ninety days before expiration of the minimum term, but after the board receives the results from the end of sentence review process and the recommendations for additional or modified conditions of community custody from the department, the board shall conduct a hearing to determine whether it is more likely than not that the offender will engage in sex offenses if released on conditions to be set by the board. The board may consider an offender's failure to participate in an evaluation under subsection (1) of this section in determining whether to release the offender. The board shall order the offender released, under such affirmative and other conditions as the board determines appropriate, unless the board determines by a preponderance of the evidence that, despite such conditions, it is more likely than not that the offender will commit sex offenses if released. If the board does not order the offender released, the board shall establish a new minimum term, not to exceed an additional two years.

NEW SECTION. Sec. 307. A new section is added to chapter 9.95 RCW to read as follows:
(1) Whenever the board or a community corrections officer of this state has reason to believe an offender released under section 306 of this act has violated a condition of community custody or the laws of this state, any community corrections officer may arrest or cause the arrest and detention of the offender pending a determination by the board whether sanctions should be imposed or the offender's community custody should be revoked. The community corrections officer shall report all facts and circumstances surrounding the alleged violation to the board, with recommendations.

(2) If the board or the department causes the arrest or detention of an offender for a violation that does not amount to a new crime and the offender is arrested or detained by local law enforcement or in a local jail, the board or department, whichever caused the arrest or detention, shall be financially responsible for local costs.
Jail bed costs shall be allocated at the rate established under RCW 9.94A.207(3).

NEW SECTION. Sec. 308. A new section is added to chapter 9.95 RCW to read as follows:

Any offender released under section 306 of this act who is arrested and detained in physical custody by the authority of a community corrections officer, or upon the written order of the board, shall not be released from custody on bail or personal recognizance, except upon approval of the board and the issuance by the board of an order reinstating the offender's release on the same or modified conditions. All chiefs of police, marshals of cities and towns, sheriffs of counties, and all police, prison, and peace officers and constables shall execute any such order in the same manner as any ordinary criminal process.

NEW SECTION. Sec. 309. A new section is added to chapter 9.95 RCW to read as follows:

(1) If an offender released by the board under section 306 of this act violates any condition or requirement of community custody, the board may transfer the offender to a more restrictive confinement status to serve up to the remaining portion of the sentence, less credit for any period actually spent in community custody or in detention awaiting disposition of an alleged violation and subject to the limitations of subsection (2) of this section.

(2) Following the hearing specified in subsection (3) of this section, the board may impose sanctions such as work release, home detention with electronic monitoring, work crew, community service, inpatient treatment, daily reporting, curfew, educational or counseling sessions, supervision enhanced through electronic monitoring, or any other sanctions available in the community, or may suspend or revoke the release to community custody whenever an offender released by the board under section 306 of this act violates any condition or requirement of community custody.

(3) If an offender released by the board under section 306 of this act is accused of violating any condition or requirement of community custody, he or she is entitled to a hearing before the board prior to the imposition of sanctions. The hearing shall be considered as offender disciplinary proceedings and shall not be subject to chapter 34.05 RCW. The board shall develop hearing procedures and a structure of graduated sanctions consistent with the hearing procedures and graduated sanctions developed pursuant to RCW 9.94A.205. The board may suspend the offender's release to community custody and confine the offender in a correctional institution owned, operated by, or operated under contract with the state prior to the hearing unless the offender has been arrested and confined for a new criminal offense.

(4) The hearing procedures required under subsection (3) of this section shall be developed by rule and include the following:

(a) Hearings shall be conducted by members of the board unless the board enters into an agreement with the department to use the hearing officers established under RCW 9.94A.205;

(b) The board shall provide the offender with written notice of the violation, the evidence relied upon, and the reasons the particular sanction was imposed. The notice shall include a statement of the rights specified in this subsection, and the offender's right to file a personal restraint petition under court rules after the final decision of the board;

(c) The hearing shall be held unless waived by the offender, and shall be electronically recorded. For offenders not in total confinement, the hearing shall be held within fifteen working days, but not less than twenty-four hours after notice of the violation. For offenders in total confinement, the hearing shall be held within five working days, but not less than twenty-four hours after notice of the violation;

(d) The offender shall have the right to: (i) Be present at the hearing; (ii) have the assistance of a person qualified to assist the offender in the hearing, appointed by the hearing examiner if the offender has a language or communications barrier; (iii) testify or remain silent; (iv) call witnesses and present documentary evidence; (v) question witnesses who appear and testify; and (vi) be represented by counsel if revocation of the release to community custody is a possible sanction for the violation; and

(e) The sanction shall take effect if affirmed by the hearing examiner. Within seven days after the hearing examiner's decision, the offender may appeal the decision to a panel of three reviewing examiners designated by the chair of the board or by the chair's designee. The sanction shall be reversed or modified if a majority of the panel finds that the sanction was not reasonably related to any of the following: (i) The crime of conviction; (ii)
the violation committed; (iii) the offender's risk of reoffending; or (iv) the safety of the community.

(5) For purposes of this section, no finding of a violation of conditions may be based on unconfirmed or unconfirmable allegations.

NEW SECTION.  Sec. 310. A new section is added to chapter 9.95 RCW to read as follows:

In the event the board suspends release status of an offender released under section 306 of this act by reason of an alleged violation of a condition of release, or pending disposition of a new criminal charge, the board may nullify the suspension order and reinstate release under previous conditions or any new conditions the board determines advisable. Before the board may nullify a suspension order and reinstate release, it shall determine that the best interests of society and the offender shall be served by such reinstatement rather than return to confinement.

Sec. 311. RCW 9.94A.060 and 1996 c 232 s 3 are each amended to read as follows:

(1) The commission consists of twenty voting members, one of whom the governor shall designate as chairperson. With the exception of ex officio voting members, the voting members of the commission shall be appointed by the governor, subject to confirmation by the senate.

(2) The voting membership consists of the following:

(a) The head of the state agency having general responsibility for adult correction programs, as an ex officio member;
(b) The director of financial management or designee, as an ex officio member;
(c) The chair of the indeterminate sentence review board, as an ex officio member;
(d) The head of the state agency, or the agency head's designee, having responsibility for juvenile corrections programs, as an ex officio member;
(e) Two prosecuting attorneys;
(f) Two attorneys with particular expertise in defense work;
(g) Four persons who are superior court judges;
(h) One person who is the chief law enforcement officer of a county or city;

(j) One person who is an elected official of a county government, other than a prosecuting attorney or sheriff;
(k) One person who is an elected official of a city government;
(l) One person who is an administrator of juvenile court services.

In making the appointments, the governor shall endeavor to assure that the commission membership includes adequate representation and expertise relating to both the adult criminal justice system and the juvenile justice system. In making the appointments, the governor shall seek the recommendations of Washington prosecutors in respect to the prosecuting attorney members, of the Washington state bar association in respect to the defense attorney members, of the association of superior court judges in respect to the members who are judges, of the Washington association of sheriffs and police chiefs in respect to the member who is a law enforcement officer, of the Washington state association of counties in respect to the member who is a county official, of the association of Washington cities in respect to the member who is a city official, of the office of crime victims advocacy and other organizations of crime victims in respect to the member who is a victim of crime or a crime victims' advocate, and of the Washington association of juvenile court administrators in respect to the member who is an administrator of juvenile court services.

(3)(a) All voting members of the commission, except ex officio voting members, shall serve terms of three years and until their successors are appointed and confirmed.

(b) The governor shall stagger the terms of the members appointed under subsection (2)(j), (k), and (l) of this section by appointing one of them for a term of one year, one for a term of two years, and one for a term of three years.

(4) The speaker of the house of representatives and the president of the senate may each appoint two
nonvoting members to the commission, one from each of the two largest caucuses in each house. The members
so appointed shall serve two-year terms, or until they cease to be members of the house from which they were
appointed, whichever occurs first.

(5) The members of the commission shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060. Legislative members shall be reimbursed by their respective houses as provided under RCW 44.04.120( as now existing or hereafter amended). Members shall be compensated in accordance with RCW 43.03.250.

Sec. 312. RCW 9.94A.120 and 2001 c 10 s 2 are each amended to read as follows:

(1) When a person is convicted of a felony, the court shall impose punishment as provided in this chapter.

(2)(a) The court shall impose a sentence as provided in the following sections and as applicable in the
case:

(i) Unless another term of confinement applies, the court shall impose a sentence within the standard
sentence range established in RCW 9.94A.310;

(ii) RCW 9.94A.700 and 9.94A.705, relating to community placement;

(iii) RCW 9.94A.710 and 9.94A.715, relating to community custody;

(iv) RCW 9.94A.383, relating to community custody for offenders whose term of confinement is one year
or less;

(v) RCW 9.94A.560, relating to persistent offenders;

(vi) RCW 9.94A.590, relating to mandatory minimum terms;

(vii) RCW 9.94A.650, relating to the first-time offender waiver;

(viii) RCW 9.94A.660, relating to the drug offender sentencing alternative;

(ix) RCW 9.94A.670, relating to the special sex offender sentencing alternative;

(x) Section 303 of this act, relating to certain sex offenses;

(xi) RCW 9.94A.390, relating to exceptional sentences;

((xii)) (xii) RCW 9.94A.400, relating to consecutive and concurrent sentences.

(b) If a standard sentence range has not been established for the offender's crime, the court shall impose a
determinate sentence which may include not more than one year of confinement; community service work; until
July 1, 2000, a term of community supervision not to exceed one year and on and after July 1, 2000, a term of
community custody not to exceed one year, subject to conditions and sanctions as authorized in RCW 9.94A.710
(2) and (3); and/or other legal financial obligations. The court may impose a sentence which provides more than
one year of confinement if the court finds reasons justifying an exceptional sentence as provided in RCW
9.94A.390.

(3) If the court imposes a sentence requiring confinement of thirty days or less, the court may, in its
discretion, specify that the sentence be served on consecutive or intermittent days. A sentence requiring more
than thirty days of confinement shall be served on consecutive days. Local jail administrators may schedule
court-ordered intermittent sentences as space permits.

(4) If a sentence imposed includes payment of a legal financial obligation, it shall be imposed as provided
in RCW 9.94A.140, 9.94A.142, and 9.94A.145.

(5) Except as provided under RCW 9.94A.140(4) and 9.94A.142(4), a court may not impose a sentence
providing for a term of confinement or community supervision, community placement, or community custody
which exceeds the statutory maximum for the crime as provided in chapter 9A.20 RCW.

(6) The sentencing court shall give the offender credit for all confinement time served before the
sentencing if that confinement was solely in regard to the offense for which the offender is being sentenced.

(7) The court shall order restitution as provided in RCW 9.94A.140 and 9.94A.142.

(8) As a part of any sentence, the court may impose and enforce crime-related prohibitions and affirmative
conditions as provided in this chapter.

(9) The court may order an offender whose sentence includes community placement or community
supervision to undergo a mental status evaluation and to participate in available outpatient mental health
treatment, if the court finds that reasonable grounds exist to believe that the offender is a mentally ill person as
defined in RCW 71.24.025, and that this condition is likely to have influenced the offense. An order requiring
mental status evaluation or treatment must be based on a presentence report and, if applicable, mental status
evaluations that have been filed with the court to determine the offender's competency or eligibility for a defense
of insanity. The court may order additional evaluations at a later date if deemed appropriate.

(10) In any sentence of partial confinement, the court may require the offender to serve the partial
confinement in work release, in a program of home detention, on work crew, or in a combined program of work
crew and home detention.

(11) In sentencing an offender convicted of a crime of domestic violence, as defined in RCW 10.99.020, if
the offender has a minor child, or if the victim of the offense for which the offender was convicted has a minor
child, the court may, as part of any term of community supervision, community placement, or community custody,
order the offender to participate in a domestic violence perpetrator program approved under RCW 26.50.150.

Sec. 313. RCW 9.94A.190 and 2000 c 28 s 4 are each amended to read as follows:

(1) A sentence that includes a term or terms of confinement totaling more than one year shall be served in
a facility or institution operated, or utilized under contract by the state. Except as provided in subsection (3) or
(5) of this section, a sentence of not more than one year of confinement shall be served in a facility operated,
licensed, or utilized under contract by the county, or if home detention or work crew has been ordered by the
court, in the residence of either the offender or a member of the offender's immediate family.

(2) If a county uses a state partial confinement facility for the partial confinement of a person sentenced to
confinement for not more than one year, the county shall reimburse the state for the use of the facility as provided
in this subsection. The office of financial management shall set the rate of reimbursement based upon the
average per diem cost per offender in the facility. The office of financial management shall determine to what
extent, if any, reimbursement shall be reduced or eliminated because of funds provided by the legislature to the
department for the purpose of covering the cost of county use of state partial confinement facilities. The office of
financial management shall reestablish reimbursement rates each even-numbered year.

(3) A person who is sentenced for a felony to a term of not more than one year, and who is committed or
returned to incarceration in a state facility on another felony conviction, either under the indeterminate sentencing
laws, chapter 9.95 RCW, or under this chapter shall serve all terms of confinement, including a sentence of not
more than one year, in a facility or institution operated, or utilized under contract by the state, consistent with the
provisions of RCW 9.94A.400.

(4) Notwithstanding any other provision of this section, a sentence imposed pursuant to RCW 9.94A.660
which has a standard sentence range of over one year, regardless of length, shall be served in a facility or
institution operated, or utilized under contract by the state.

(5) Sentences imposed pursuant to section 303 of this act shall be served in a facility or institution
operated, or utilized under contract by the state.

Sec. 314. RCW 9.94A.390 and 2000 c 28 s 8 are each amended to read as follows:
The court may impose a sentence outside the standard sentence range for an offense if it finds, considering
the purpose of this chapter, that there are substantial and compelling reasons justifying an exceptional sentence.
Whenever a sentence outside the standard sentence range is imposed, the court shall set forth the reasons for its
decision in written findings of fact and conclusions of law. A sentence outside the standard sentence range shall
be a determinate sentence unless it is imposed on an offender sentenced under section 303 of this act. An
exceptional sentence imposed on an offender sentenced under section 303 of this act shall be to a minimum term
set by the court and a maximum term equal to the statutory maximum sentence for the offense of conviction under
chapter 9A.20 RCW.

If the sentencing court finds that an exceptional sentence outside the standard sentence range should be
imposed, the sentence is subject to review only as provided for in RCW 9.94A.210(4).

A departure from the standards in RCW 9.94A.400 (1) and (2) governing whether sentences are to be
served consecutively or concurrently is an exceptional sentence subject to the limitations in this section, and may
be appealed by the offender or the state as set forth in RCW 9.94A.210 (2) through (6).

The following are illustrative factors which the court may consider in the exercise of its discretion to
impose an exceptional sentence. The following are illustrative only and are not intended to be exclusive reasons
for exceptional sentences.

(1) Mitigating Circumstances
   (a) To a significant degree, the victim was an initiator, willing participant, aggressor, or provocateur of the incident.
   (b) Before detection, the defendant compensated, or made a good faith effort to compensate, the victim of the criminal conduct for any damage or injury sustained.
   (c) The defendant committed the crime under duress, coercion, threat, or compulsion insufficient to constitute a complete defense but which significantly affected his or her conduct.
   (d) The defendant, with no apparent predisposition to do so, was induced by others to participate in the crime.
   (e) The defendant's capacity to appreciate the wrongfulness of his or her conduct, or to conform his or her conduct to the requirements of the law, was significantly impaired. Voluntary use of drugs or alcohol is excluded.
   (f) The offense was principally accomplished by another person and the defendant manifested extreme caution or sincere concern for the safety or well-being of the victim.
   (g) The operation of the multiple offense policy of RCW 9.94A.400 results in a presumptive sentence that is clearly excessive in light of the purpose of this chapter, as expressed in RCW 9.94A.010.
   (h) The defendant or the defendant's children suffered a continuing pattern of physical or sexual abuse by the victim of the offense and the offense is a response to that abuse.

(2) Aggravating Circumstances
   (a) The defendant's conduct during the commission of the current offense manifested deliberate cruelty to the victim.
   (b) The defendant knew or should have known that the victim of the current offense was particularly vulnerable or incapable of resistance due to extreme youth, advanced age, disability, or ill health.
   (c) The current offense was a violent offense, and the defendant knew that the victim of the current offense was pregnant.
   (d) The current offense was a major economic offense or series of offenses, so identified by a consideration of any of the following factors:
      (i) The current offense involved multiple victims or multiple incidents per victim;
      (ii) The current offense involved attempted or actual monetary loss substantially greater than typical for the offense;
      (iii) The current offense involved a high degree of sophistication or planning or occurred over a lengthy period of time; or
      (iv) The defendant used his or her position of trust, confidence, or fiduciary responsibility to facilitate the commission of the current offense.
   (e) The current offense was a major violation of the Uniform Controlled Substances Act, chapter 69.50 RCW (VUCSA), related to trafficking in controlled substances, which was more onerous than the typical offense of its statutory definition: The presence of ANY of the following may identify a current offense as a major VUCSA:
      (i) The current offense involved at least three separate transactions in which controlled substances were sold, transferred, or possessed with intent to do so;
      (ii) The current offense involved an attempted or actual sale or transfer of controlled substances in quantities substantially larger than for personal use;
      (iii) The current offense involved the manufacture of controlled substances for use by other parties;
      (iv) The circumstances of the current offense reveal the offender to have occupied a high position in the drug distribution hierarchy;
      (v) The current offense involved a high degree of sophistication or planning, occurred over a lengthy period of time, or involved a broad geographic area of disbursement; or
      (vi) The offender used his or her position or status to facilitate the commission of the current offense, including positions of trust, confidence or fiduciary responsibility (e.g., pharmacist, physician, or other medical professional).
(f) The current offense included a finding of sexual motivation pursuant to RCW 9.94A.127.

(g) The offense was part of an ongoing pattern of sexual abuse of the same victim under the age of eighteen years manifested by multiple incidents over a prolonged period of time.

(h) The current offense involved domestic violence, as defined in RCW 10.99.020, and one or more of the following was present:
   (i) The offense was part of an ongoing pattern of psychological, physical, or sexual abuse of the victim manifested by multiple incidents over a prolonged period of time;
   (ii) The offense occurred within sight or sound of the victim's or the offender's minor children under the age of eighteen years; or
   (iii) The offender's conduct during the commission of the current offense manifested deliberate cruelty or intimidation of the victim.

(i) The operation of the multiple offense policy of RCW 9.94A.400 results in a presumptive sentence that is clearly too lenient in light of the purpose of this chapter, as expressed in RCW 9.94A.010.

(j) The defendant's prior unscored misdemeanor or prior unscored foreign criminal history results in a presumptive sentence that is clearly too lenient in light of the purpose of this chapter, as expressed in RCW 9.94A.010.

(k) The offense resulted in the pregnancy of a child victim of rape.

(l) The defendant knew that the victim of the current offense was a youth who was not residing with a legal custodian and the defendant established or promoted the relationship for the primary purpose of victimization.

Sec. 315. RCW 9.94A.590 and 2000 c 28 s 7 are each amended to read as follows:

(1) The following minimum terms of total confinement are mandatory and shall not be varied or modified under RCW 9.94A.390:
   (a) An offender convicted of the crime of murder in the first degree shall be sentenced to a term of total confinement not less than twenty years.
   (b) An offender convicted of the crime of assault in the first degree or assault of a child in the first degree where the offender used force or means likely to result in death or intended to kill the victim shall be sentenced to a term of total confinement not less than five years.
   (c) An offender convicted of the crime of rape in the first degree shall be sentenced to a term of total confinement not less than five years.
   (d) An offender convicted of the crime of sexually violent predator escape shall be sentenced to a minimum term of total confinement not less than sixty months.

(2) During such minimum terms of total confinement, no offender subject to the provisions of this section is eligible for community custody, earned release time, furlough, home detention, partial confinement, work crew, work release, or any other form of early release authorized under RCW 9.94A.150, or any other form of authorized leave of absence from the correctional facility while not in the direct custody of a corrections officer. The provisions of this subsection shall not apply: (a) In the case of an offender in need of emergency medical treatment; (b) for the purpose of commitment to an inpatient treatment facility in the case of an offender convicted of the crime of rape in the first degree; or (c) for an extraordinary medical placement when authorized under RCW 9.94A.150(4).

Sec. 316. RCW 9.94A.670 and 2000 c 28 s 20 are each amended to read as follows:

(1) Unless the context clearly requires otherwise, the definitions in this subsection apply to this section only.
   (a) "Sex offender treatment provider" or "treatment provider" means a certified sex offender treatment provider as defined in RCW 18.155.020.
   (b) "Victim" means any person who has sustained emotional, psychological, physical, or financial injury to person or property as a result of the crime charged. "Victim" also means a parent or guardian of a victim who is a minor child unless the parent or guardian is the perpetrator of the offense.

(2) An offender is eligible for the special sex offender sentencing alternative if:
(a) The offender has been convicted of a sex offense other than a violation of RCW 9A.44.050 or a sex offense that is also a serious violent offense;
(b) The offender has no prior convictions for a sex offense as defined in RCW 9.94A.030 or any other felony sex offenses in this or any other state; and
(c) The offender's standard sentence range for the offense includes the possibility of confinement for less than eleven years.

(3) If the court finds the offender is eligible for this alternative, the court, on its own motion or the motion of the state or the offender, may order an examination to determine whether the offender is amenable to treatment.

(a) The report of the examination shall include at a minimum the following:
   (i) The offender's version of the facts and the official version of the facts;
   (ii) The offender's offense history;
   (iii) An assessment of problems in addition to alleged deviant behaviors;
   (iv) The offender's social and employment situation; and
   (v) Other evaluation measures used.

(b) The examiner shall assess and report regarding the offender's amenability to treatment and relative risk to the community. A proposed treatment plan shall be provided and shall include, at a minimum:
   (i) Frequency and type of contact between offender and therapist;
   (ii) Specific issues to be addressed in the treatment and description of planned treatment modalities;
   (iii) Monitoring plans, including any requirements regarding living conditions, lifestyle requirements, and monitoring by family members and others;
   (iv) Anticipated length of treatment; and
   (v) Recommended crime-related prohibitions.

(c) The court on its own motion may order, or on a motion by the state shall order, a second examination regarding the offender's amenability to treatment. The examiner shall be selected by the party making the motion. The offender shall pay the cost of any second examination ordered unless the court finds the defendant to be indigent in which case the state shall pay the cost.

(4) After receipt of the reports, the court shall consider whether the offender and the community will benefit from use of this alternative and consider the victim's opinion whether the offender should receive a treatment disposition under this section. If the court determines that this alternative is appropriate, the court shall then impose a sentence or, pursuant to section 303 of this act, a minimum term of sentence, within the standard sentence range. If the sentence imposed is less than eleven years of confinement, the court may suspend the execution of the sentence and impose the following conditions of suspension:

   (a) The court shall place the offender on community custody for the length of the suspended sentence, the length of the maximum term imposed pursuant to section 303 of this act, or three years, whichever is greater, and require the offender to comply with any conditions imposed by the department under RCW 9.94A.720.

   (b) The court shall order treatment for any period up to three years in duration. The court, in its discretion, shall order outpatient sex offender treatment or inpatient sex offender treatment, if available. A community mental health center may not be used for such treatment unless it has an appropriate program designed for sex offender treatment. The offender shall not change sex offender treatment providers or treatment conditions without first notifying the prosecutor, the community corrections officer, and the court. If any party or the court objects to a proposed change, the offender shall not change providers or conditions without court approval after a hearing.

   (5) As conditions of the suspended sentence, the court may impose one or more of the following:
   (a) Up to six months of confinement, not to exceed the sentence range of confinement for that offense;
   (b) Crime-related prohibitions;
   (c) Require the offender to devote time to a specific employment or occupation;
   (d) Remain within prescribed geographical boundaries and notify the court or the community corrections officer prior to any change in the offender's address or employment;
   (e) Report as directed to the court and a community corrections officer;
   (f) Pay all court-ordered legal financial obligations as provided in RCW 9.94A.030;
(g) Perform community service work; or
(h) Reimburse the victim for the cost of any counseling required as a result of the offender's crime.
(6) At the time of sentencing, the court shall set a treatment termination hearing for three months prior to the anticipated date for completion of treatment.
(7) The sex offender treatment provider shall submit quarterly reports on the offender's progress in treatment to the court and the parties. The report shall reference the treatment plan and include at a minimum the following: Dates of attendance, offender's compliance with requirements, treatment activities, the offender's relative progress in treatment, and any other material specified by the court at sentencing.
(8) Prior to the treatment termination hearing, the treatment provider and community corrections officer shall submit written reports to the court and parties regarding the offender's compliance with treatment and monitoring requirements, and recommendations regarding termination from treatment, including proposed community custody conditions. Either party may request, and the court may order, another evaluation regarding the advisability of termination from treatment. The offender shall pay the cost of any additional evaluation ordered unless the court finds the offender to be indigent in which case the state shall pay the cost. At the treatment termination hearing the court may: (a) Modify conditions of community custody, and either (b) terminate treatment, or (c) extend treatment for up to the remaining period of community custody.
(9) If a violation of conditions occurs during community custody, the department shall either impose sanctions as provided for in RCW 9.94A.205(2)(a) or refer the violation to the court and recommend revocation of the suspended sentence as provided for in subsections (6) and (8) of this section.
(10) The court may revoke the suspended sentence at any time during the period of community custody and order execution of the sentence if: (a) The offender violates the conditions of the suspended sentence, or (b) the court finds that the offender is failing to make satisfactory progress in treatment. All confinement time served during the period of community custody shall be credited to the offender if the suspended sentence is revoked.
(11) Examinations and treatment ordered pursuant to this subsection shall only be conducted by sex offender treatment providers certified by the department of health pursuant to chapter 18.155 RCW unless the offender is less than eighteen years of age when the charge is filed, the state shall pay for the cost of initial evaluation and treatment.

NEW SECTION. Sec. 317. A new section is added to chapter 9.95 RCW to read as follows:
(1) "Board" means the indeterminate sentence review board.
(2) "Community custody" means that portion of an offender's sentence subject to controls including crime-related prohibitions and affirmative conditions from the court, the board, or the department of corrections based on risk to community safety, that is served under supervision in the community, and which may be modified or revoked for violations of release conditions.
(3) "Crime-related prohibition" has the meaning defined in RCW 9.94A.030.
(4) "Department" means the department of corrections.
(5) "Parole" means that portion of a person's sentence for a crime committed before July 1, 1984, served on conditional release in the community subject to board controls and revocation and under supervision of the department.
(6) "Secretary" means the secretary of the department of corrections or his or her designee.

Sec. 318. RCW 9.95.005 and 1986 c 224 s 4 are each amended to read as follows: The board shall meet at such times as may be necessary for a full and complete study of the cases of all convicted persons whose durations
of confinement are to be determined by it (or); whose community custody supervision is under the board’s authority; or whose applications for parole come before it. Other times and places of meetings may also be fixed by the board.

The superintendents of the different institutions shall provide suitable quarters for the board and assistants while in the discharge of their duties.

Sec. 319. RCW 9.95.010 and 1955 c 133 s 2 are each amended to read as follows:

When a person whose crime was committed before July 1, 1984, is convicted of any felony, except treason, murder in the first degree, or carnal knowledge of a child under ten years, and a new trial is not granted, the court shall sentence such person to the penitentiary, or, if the law allows and the court sees fit to exercise such discretion, to the reformatory, and shall fix the maximum term of such person's sentence only.

The maximum term to be fixed by the court shall be the maximum provided by law for the crime of which such person was convicted, if the law provides for a maximum term. If the law does not provide a maximum term for the crime of which such person was convicted the court shall fix such maximum term, which may be for any number of years up to and including life imprisonment but in any case where the maximum term is fixed by the court it shall be fixed at not less than twenty years.

Sec. 320. RCW 9.95.011 and 1993 c 144 s 3 are each amended to read as follows:

(1) When the court commits a convicted person to the department of corrections on or after July 1, 1986, for an offense committed before July 1, 1984, the court shall, at the time of sentencing or revocation of probation, fix the minimum term. The term so fixed shall not exceed the maximum sentence provided by law for the offense of which the person is convicted.

The court shall attempt to set the minimum term reasonably consistent with the purposes, standards, and sentencing ranges adopted under RCW 9.94A.040, but the court is subject to the same limitations as those placed on the board under RCW 9.92.090, 9.95.040 (1) through (4), 9.95.115, 9A.32.040, 9A.44.045, and chapter 69.50 RCW. The court's minimum term decision is subject to review to the same extent as a minimum term decision by the parole board before July 1, 1986.

Thereafter, the expiration of the minimum term set by the court minus any time credits earned under RCW 9.95.070 and 9.95.110 constitutes the parole eligibility review date, at which time the board may consider the convicted person for parole under RCW 9.95.100 and 9.95.110 and chapter 72.04A RCW. Nothing in this section affects the board's authority to reduce or increase the minimum term, once set by the court, under RCW 9.95.040, 9.95.052, 9.95.055, 9.95.070, 9.95.080, 9.95.100, 9.95.115, 9.95.125, or 9.95.047.

(2) Not less than ninety days prior to the expiration of the minimum term of a person sentenced under section 303 of this act, for a sex offense committed on or after July 1, 2001, less any time credits permitted by statute, the board shall review the person for conditional release to community custody as provided in section 306 of this act. If the board does not release the person, it shall set a new minimum term not to exceed an additional two years. The board shall review the person again not less than ninety days prior to the expiration of the new minimum term.

Sec. 321. RCW 9.95.017 and 1986 c 224 s 11 are each amended to read as follows:

(1) The board shall cause to be prepared criteria for duration of confinement, release on parole, and length of parole for persons committed to prison for crimes committed before July 1, 1984.

The proposed criteria should take into consideration RCW 9.95.009(2). Before submission to the governor, the board shall solicit comments and review on their proposed criteria for parole release. These proposed criteria shall be submitted for consideration by the 1987 legislature.

(2) Persons committed to the department of corrections and who are under the authority of the board for crimes committed on or after July 1, 2001, are subject to the provisions for duration of confinement, release to community custody, and length of community custody established in sections 303 through 310 of this act.

Sec. 322. RCW 9.95.020 and 1955 c 133 s 3 are each amended to read as follows:

If the sentence of a person so convicted is not suspended by the court, the superintendent of the...
a major state correctional institution shall receive such person, if committed to his or her institution, and imprison (him) the person until released under the provisions of this chapter, under section 306 of this act, upon the completion of the statutory maximum sentence, or through the action of the governor.

**Sec. 323.** RCW 9.95.032 and 1984 c 114 s 3 are each amended to read as follows:
Such statement shall be signed by the prosecuting attorney and approved by the judge by whom the judgment was rendered and shall be delivered to the sheriff, traveling guard, department of corrections personnel, or other officer executing the sentence, and a copy of such statement shall be furnished to the defendant or his or her attorney. Such officer shall deliver the statement, at the time of the prisoner's commitment, to the superintendent of the institution to which such prisoner has been (sentenced and) committed. The superintendent shall make such statement available for use by the board (of prison terms and paroles).

**Sec. 324.** RCW 9.95.052 and 1986 c 224 s 10 are each amended to read as follows:
At any time after the board (or the court after July 1, 1986) has determined the minimum term of confinement of any person subject to confinement in a state correctional institution for a crime committed before July 1, 1984, the board may request the superintendent of such correctional institution to conduct a full review of such person's prospects for rehabilitation and report to the board the facts of such review and the resulting findings. Upon the basis of such report and such other information and investigation that the board deems appropriate, the board may redetermine and refix such convicted person's minimum term of confinement whether the term was set by the board or the court.

The board shall not reduce a person's minimum term of confinement unless the board has received from the department of corrections all institutional conduct reports relating to the person.

**Sec. 325.** RCW 9.95.055 and 1992 c 7 s 25 are each amended to read as follows:
The indeterminate sentence review board is hereby granted authority, in the event of a declaration by the governor that a war emergency exists, including a general mobilization, and for the duration thereof only, to reduce downward the minimum term, as set by the board, of any inmate under the jurisdiction of the board confined in a state correctional facility, who will be accepted by and inducted into the armed services: PROVIDED, That a reduction downward shall not be made under this section for those inmates who are confined for treason, murder in the first degree or carnal knowledge of a female child under ten years: AND PROVIDED FURTHER, That no such inmate shall be released under this section who is (found to be a sexual psychopath under the provisions of and as defined by chapter 71.12 RCW) being considered for civil commitment as a sexually violent predator under chapter 71.09 RCW or was sentenced under section 303 of this act for a crime committed on or after July 1, 2001.

**Sec. 326.** RCW 9.95.064 and 1989 c 276 s 4 are each amended to read as follows:
(1) In order to minimize the trauma to the victim, the court may attach conditions on release of (a defendant) an offender under RCW 9.95.062, convicted of a crime committed before July 1, 1984, regarding the whereabouts of the defendant, contact with the victim, or other conditions.
(2) Offenders released under section 306 of this act are subject to crime-related prohibitions and affirmative conditions established by the court, the department of corrections, or the board pursuant to RCW 9.94A.715 and sections 303 through 310 of this act.

**Sec. 327.** RCW 9.95.070 and 1999 c 143 s 19 are each amended to read as follows:
(1) Every prisoner, convicted of a crime committed before July 1, 1984, who has a favorable record of conduct at the penitentiary or the reformatory, and who performs in a faithful, diligent, industrious, orderly and peaceable manner the work, duties, and tasks assigned to him or her to the satisfaction of the superintendent of the penitentiary or reformatory, and in whose behalf the superintendent of the penitentiary or reformatory files a report certifying that his or her conduct and work have been meritorious and recommending allowance of time credits to him or her, shall upon, but not until, the adoption of such recommendation by the indeterminate sentence
review board, be allowed time credit reductions from the term of imprisonment fixed by the board.

(2) Offenders sentenced under section 303 of this act for a crime committed on or after July 1, 2001, are subject to the earned release provisions for sex offenders established in RCW 9.94A.150.

Sec. 328. RCW 9.95.080 and 1992 c 7 s 26 are each amended to read as follows:
   In case any ((convicted)) person convicted of a crime committed before July 1, 1984, and under the jurisdiction of the indeterminate sentence review board undergoing sentence in a state correctional ((facility)) institution commits any infractions of the rules and regulations of the institution, the board may revoke any order theretofore made determining the length of time such convicted person shall be imprisoned, including the forfeiture of all or a portion of credits earned or to be earned, pursuant to the provisions of RCW 9.95.110, and make a new order determining the length of time the person shall serve, not exceeding the maximum penalty provided by law for the crime for which the person was convicted, or the maximum fixed by the court. Such revocation and redetermination shall not be had except upon a hearing before the indeterminate sentence review board. At such hearing the convicted person shall be present and entitled to be heard and may present evidence and witnesses in his or her behalf.

Sec. 329. RCW 9.95.090 and 1999 c 143 s 20 are each amended to read as follows:
   (1) The board shall require of every able bodied ((convicted person imprisoned in the penitentiary or the reformatory)) offender confined in a state correctional institution for a crime committed before July 1, 1984, as many hours of faithful labor in each and every day during his or her term of imprisonment as shall be prescribed by the rules and regulations of the institution in which he or she is confined.

   (2) Offenders sentenced under section 303 of this act for crimes committed on or after July 1, 2001, shall perform work or other programming as required by the department of corrections during their term of confinement.

Sec. 330. RCW 9.95.100 and 1955 c 133 s 11 are each amended to read as follows:
   Any ((convicted)) person convicted of a felony committed before July 1, 1984, and undergoing sentence in ((the penitentiary or the reformatory)) a state correctional institution, not sooner released under the provisions of this chapter, shall, in accordance with the provisions of law, be discharged from custody on serving the maximum punishment provided by law for the offense of which such person was convicted, or the maximum term fixed by the court where the law does not provide for a maximum term. The board shall not, however, until his or her maximum term expires, release a prisoner, unless in its opinion his or her rehabilitation has been complete and he or she is a fit subject for release.

Sec. 331. RCW 9.95.110 and 1999 c 143 s 21 are each amended to read as follows:
   (1) The board may permit ((a convicted person)) an offender convicted of a crime committed before July 1, 1984, to leave the buildings and enclosures of ((the penitentiary or the reformatory)) a state correctional institution on parole, after such convicted person has served the period of confinement fixed for him or her by the board, less time credits for good behavior and diligence in work: PROVIDED, That in no case shall an inmate be credited with more than one-third of his or her sentence as fixed by the board.
   The board may establish rules and regulations under which ((a convicted person)) an offender may be allowed to leave the confines of ((the penitentiary or the reformatory)) a state correctional institution on parole, and may return such person to the confines of the institution from which he or she was paroled, at its discretion.

   (2) The board may permit an offender convicted of a crime committed on or after July 1, 2001, and sentenced under section 303 of this act, to leave a state correctional institution on community custody according to the provisions of sections 303 through 310 of this act. The person may be returned to the institution following a violation of his or her conditions of release to community custody pursuant to the hearing provisions of section 309 of this act.

Sec. 332. RCW 9.95.115 and 1989 c 259 s 3 are each amended to read as follows:
   The indeterminate sentence review board is hereby granted authority to parole any person sentenced to the
custody of the department of corrections, under a mandatory life sentence for a crime committed (prior to) before July 1, 1984, except those persons sentenced to life without the possibility of parole. No such person shall be granted parole unless the person has been continuously confined therein for a period of twenty consecutive years less earned good time: PROVIDED, That no such person shall be released under parole who is (found to be a sexual psychopath under the provisions of and as defined by chapter 71.06 RCW) subject to civil commitment as a sexually violent predator under chapter 71.09 RCW.

Sec. 333. RCW 9.95.120 and 1999 c 143 s 22 are each amended to read as follows:
Whenever the board or a (community corrections) officer of this state has reason to believe a (convicted) person convicted of a crime committed before July 1, 1984, has breached a condition of his or her parole or violated the law of any state where he or she may then be or the rules and regulations of the board, any (community corrections) officer of this state may arrest or cause the arrest and detention and suspension of parole of such convicted person pending a determination by the board whether the parole of such convicted person shall be revoked. All facts and circumstances surrounding the violation by such convicted person shall be reported to the board by the (community corrections) officer, with recommendations. The board, after consultation with the secretary of corrections, shall make all rules and regulations concerning procedural matters, which shall include the time when state (community corrections) officers shall file with the board reports required by this section, procedures pertaining thereto and the filing of such information as may be necessary to enable the board to perform its functions under this section. On the basis of the report by the (community corrections) officer, or at any time upon its own discretion, the board may revise or modify the conditions of parole or order the suspension of parole by the issuance of a written order bearing its seal, which order shall be sufficient warrant for all peace officers to take into custody any convicted person who may be on parole and retain such person in their custody until arrangements can be made by the board for his or her return to a state correctional institution for convicted felons. Any such revision or modification of the conditions of parole or the order suspending parole shall be personally served upon the parolee.

Any parolee arrested and detained in physical custody by the authority of a state (community corrections) officer, or upon the written order of the board, shall not be released from custody on bail or personal recognizance, except upon approval of the board and the issuance by the board of an order of reinstatement on parole on the same or modified conditions of parole.

All chiefs of police, marshals of cities and towns, sheriffs of counties, and all police, prison, and peace officers and constables shall execute any such order in the same manner as any ordinary criminal process.

Whenever a paroled prisoner is accused of a violation of his or her parole, other than the commission of, and conviction for, a felony or misdemeanor under the laws of this state or the laws of any state where he or she may then be, he or she shall be entitled to a fair and impartial hearing of such charges within thirty days from the time that he or she is served with charges of the violation of conditions of ((his)) parole after his or her arrest and detention. The hearing shall be held before one or more members of the board at a place or places, within this state, reasonably near the site of the alleged violation or violations of parole.

In the event that the board suspends a parole by reason of an alleged parole violation or in the event that a parole is suspended pending the disposition of a new criminal charge, the board shall have the power to nullify the order of suspension and reinstate the individual to parole under previous conditions or any new conditions that the board may determine advisable. Before the board shall nullify an order of suspension and reinstate a parole they shall have determined that the best interests of society and the individual shall best be served by such reinstatement rather than a return to a penal institution.

Sec. 334. RCW 9.95.121 and 1981 c 136 s 38 are each amended to read as follows:
(1) For offenders convicted of crimes committed before July 1, 1984, within fifteen days from the date of notice to the department of corrections of the arrest and detention of the alleged parole violator, he or she shall be personally served by a state (community corrections) officer with a copy of the factual allegations of the violation of the conditions of parole, and, at the same time shall be advised of his or her right to an on-site parole revocation hearing and of his or her rights and privileges as provided in RCW 9.95.120 through
9.95.126. The alleged parole violator, after service of the allegations of violations of the conditions of parole and the advice of rights may waive the on-site parole revocation hearing as provided in RCW 9.95.120, and admit one or more of the alleged violations of the conditions of parole. If the board accepts the waiver it shall either, (1) reinstate the parolee on parole under the same or modified conditions, or (2) revoke the parole of the parolee and enter an order of parole revocation and return to state custody. A determination of a new minimum sentence shall be made within thirty days of return to state custody which shall not exceed the maximum sentence as provided by law for the crime of which the parolee was originally convicted or the maximum fixed by the court.

If the waiver made by the parolee is rejected by the board it shall hold an on-site parole revocation hearing under the provisions of RCW 9.95.120 through 9.95.126.

(2) Offenders sentenced under section 303 of this act are subject to the violation hearing process established in section 309 of this act.

Sec. 335. RCW 9.95.122 and 1999 c 143 s 23 are each amended to read as follows:

(1) At any on-site parole revocation hearing for a person convicted of a crime committed before July 1, 1984, the alleged parole violator shall be entitled to be represented by an attorney of his or her own choosing and at his or her own expense, except, upon the presentation of satisfactory evidence of indigency and the request for the appointment of an attorney by the alleged parole violator, the board may cause the appointment of an attorney to represent the alleged parole violator to be paid for at state expense, and, in addition, the board may assume all or such other expenses in the presentation of evidence on behalf of the alleged parole violator as it may have authorized: PROVIDED, That funds are available for the payment of attorneys’ fees and expenses. Attorneys for the representation of alleged parole violators in on-site hearings shall be appointed by the superior courts for the counties wherein the on-site parole revocation hearing is to be held and such attorneys shall be compensated in such manner and in such amount as shall be fixed in a schedule of fees adopted by rule of the board.

(2) The rights of offenders sentenced under section 303 of this act are defined in section 309 of this act.

Sec. 336. RCW 9.95.123 and 1999 c 143 s 24 are each amended to read as follows:

In conducting on-site parole or community custody revocation hearings or community custody violations hearings, the board shall have the authority to administer oaths and affirmations, examine witnesses, receive evidence, and issue subpoenas for the compulsory attendance of witnesses and the production of evidence for presentation at such hearings. Subpoenas issued by the board shall be effective throughout the state. Witnesses in attendance at any on-site parole or community custody revocation hearing shall be paid the same fees and allowances, in the same manner and under the same conditions as provided for witnesses in the courts of the state in accordance with chapter 2.40 RCW ((as now or hereafter amended)). If any person fails or refuses to obey a subpoena issued by the board, or obeys the subpoena but refuses to testify concerning any matter under examination at the hearing, the board may petition the superior court of the county where the hearing is being conducted for enforcement of the subpoena: PROVIDED, That an offer to pay statutory fees and mileage has been made to the witness at the time of the service of the subpoena. The petition shall be accompanied by a copy of the subpoena and proof of service, and shall set forth in what specific manner the subpoena has not been complied with, and shall ask an order of the court to compel the witness to appear and testify before the board. The court, upon such petition, shall enter an order directing the witness to appear before the court at a time and place to be fixed in such order and then and there to show cause why he or she has not responded to the subpoena or has refused to testify. A copy of the order shall be served upon the witness. If it appears to the court that the subpoena was properly issued and that the particular questions which the witness refuses to answer are reasonable and relevant, the court shall enter an order that the witness appear at the time and place fixed in the order and testify or produce the required papers, and on failing to obey ((said)) the order, the witness shall be dealt with as for contempt of court.

Sec. 337. RCW 9.95.124 and 1999 c 143 s 25 are each amended to read as follows:

At all on-site parole revocation hearings for offenders convicted of crimes committed before July 1, 1984, the community corrections officers of the department of corrections, having made the allegations of the violations of the conditions of parole, may be represented by the attorney general. The attorney
general may make independent recommendations to the board about whether the violations constitute sufficient cause for the revocation of the parole and the return of the parolee to a state correctional institution for convicted felons. The hearings shall be open to the public unless the board for specifically stated reasons closes the hearing in whole or in part. The hearings shall be recorded either manually or by a mechanical recording device. An alleged parole violator may be requested to testify and any such testimony shall not be used against him or her in any criminal prosecution. The board shall adopt rules governing the formal and informal procedures authorized by this chapter and make rules of practice before the board in on-site parole revocation hearings, together with forms and instructions.

**Sec. 338.** RCW 9.95.125 and 1993 c 140 s 2 are each amended to read as follows:

After the on-site parole revocation hearing for a person convicted of a crime committed before July 1, 1984, has been concluded, the members of the board having heard the matter shall enter their decision of record within ten days, and make findings and conclusions upon the allegations of the violations of the conditions of parole. If the member, or members having heard the matter, should conclude that the allegations of violation of the conditions of parole have not been proven by a preponderance of the evidence, or, those which have been proven by a preponderance of the evidence are not sufficient cause for the revocation of parole, then the parolee shall be reinstated on parole on the same or modified conditions of parole. For parole violations not resulting in new convictions, modified conditions of parole may include sanctions according to an administrative sanction grid. If the member or members having heard the matter should conclude that the allegations of violation of the conditions of parole have been proven by a preponderance of the evidence and constitute sufficient cause for the revocation of parole, then such member or members shall enter an order of parole revocation and return the parole violator to state custody. Within thirty days of the return of such parole violator to a state correctional institution (for convicted felons) the board shall enter an order determining a new minimum term not exceeding the maximum penalty provided by law for the crime for which the parole violator was originally convicted or the maximum fixed by the court.

**Sec. 339.** RCW 9.95.126 and 1969 c 98 s 8 are each amended to read as follows:

All officers and employees of the state, counties, cities and political subdivisions of this state shall cooperate with the board (of prison terms and paroles) in making available suitable facilities for conducting parole or community custody revocation hearings.

**Sec. 340.** RCW 9.95.130 and 1993 c 140 s 3 are each amended to read as follows:

From and after the suspension, cancellation, or revocation of the parole of any (convicted person) offender convicted of a crime committed before July 1, 1984, and until his or her return to custody the (convicted person) offender shall be deemed an escapee and a fugitive from justice. The indeterminate sentence review board may deny credit against the maximum sentence any time during which he or she is an escapee and fugitive from justice.

**Sec. 341.** RCW 9.95.140 and 1992 c 7 s 27 are each amended to read as follows:

(1) The (indeterminate sentence review) board shall cause a complete record to be kept of every prisoner under the jurisdiction of the board released on parole or community custody. Such records shall be organized in accordance with the most modern methods of filing and indexing so that there will be always immediately available complete information about each such prisoner. Subject to information sharing provisions related to mentally ill offenders, the end of sentence review committee, and the department of corrections, the board may make rules as to the privacy of such records and their use by others than the board and its staff. (In determining the rules regarding dissemination of information regarding convicted) Sex offenders convicted of crimes committed before July 1, 1984, who are under the board's jurisdiction((s)) shall be subject to the determinations of the end of sentence review committee regarding risk level and subject to sex offender registration and community notification. The board (shall consider the provisions of section 116, chapter 3, Laws of 1990 and RCW 4.24.550 and) shall be immune from liability for the release of information concerning sex offenders as provided in RCW 4.24.550.
The superintendents of state correctional facilities and all officers and employees thereof and all other public officials shall at all times cooperate with the board and furnish to the board, its officers, and employees such information as may be necessary to enable it to perform its functions, and such superintendents and other employees shall at all times give the members of the board, its officers, and employees free access to all prisoners confined in the state correctional facilities.

(2) Offenders sentenced under section 303 of this act shall be subject to the determinations of the end of sentence review committee regarding risk level and subject to sex offender registration and community notification.

(3) The end of sentence review committee shall make law enforcement notifications for offenders under board jurisdiction on the same basis that it notifies law enforcement regarding offenders sentenced under chapter 9.94A RCW for crimes committed after July 1, 1984.

Sec. 342. RCW 9.95.190 and 1992 c 7 s 28 are each amended to read as follows:
The provisions of RCW 9.95.010 through 9.95.170, inclusive, shall apply to all convicted persons serving time in a state correctional facility for crimes committed before July 1, 1984, to the end that at all times the same provisions relating to sentences, imprisonments, and paroles of prisoners shall apply to all inmates thereof.

(1) The secretary shall identify offenders in confinement or partial confinement who: (a) Are reasonably believed to be dangerous to themselves or others; and (b) have a mental disorder. In determining an offender's dangerousness, the secretary shall consider behavior known to the department and factors, based on research, that are linked to an increased risk for dangerousness of mentally ill offenders and shall include consideration of an offender's chemical dependency or abuse.

(2) Prior to release of an offender identified under this section, a team consisting of representatives of the department of corrections, the division of mental health, and, as necessary, the indeterminate sentence review board, other divisions or administrations within the department of social and health services, specifically including the division of alcohol and substance abuse and the division of developmental disabilities, the appropriate regional support network, and the providers, as appropriate, shall develop a plan, as determined necessary by the team, for delivery of treatment and support services to the offender upon release. The team may include a school district representative for offenders under the age of twenty-one. The team shall consult with the offender's counsel, if any, and, as appropriate, the offender's family and community. The team shall notify the crime victim/witness program, which shall provide notice to all people registered to receive notice under RCW 9.94A.155 of the proposed release plan developed by the team. Victims, witnesses, and other interested people notified by the department may provide information and comments to the department on potential safety risk to specific individuals or classes of individuals posed by the specific offender. The team may recommend: (a) That the offender be evaluated by the county designated mental health professional, as defined in chapter 71.05 RCW; (b) department-supervised community treatment; or (c) voluntary community mental health or chemical dependency or abuse treatment.

(3) Prior to release of an offender identified under this section, the team shall determine whether or not an evaluation by a county designated mental health professional is needed. If an evaluation is recommended, the supporting documentation shall be immediately forwarded to the appropriate county designated mental health professional. The supporting documentation shall include the offender's criminal history, history of judicially required or administratively ordered involuntary antipsychotic medication while in confinement, and any known history of involuntary civil commitment.

(4) If an evaluation by a county designated mental health professional is recommended by the team, such evaluation shall occur not more than ten days, nor less than five days, prior to release.

(5) A second evaluation by a county designated mental health professional shall occur on the day of
release if requested by the team, based upon new information or a change in the offender's mental condition, and
the initial evaluation did not result in an emergency detention or a summons under chapter 71.05 RCW.

(6) If the county designated mental health professional determines an emergency detention under chapter
71.05 RCW is necessary, the department shall release the offender only to a state hospital or to a consenting
evaluation and treatment facility. The department shall arrange transportation of the offender to the hospital or
facility.

(7) If the county designated mental health professional believes that a less restrictive alternative treatment
is appropriate, he or she shall seek a summons, pursuant to the provisions of chapter 71.05 RCW, to require the
offender to appear at an evaluation and treatment facility. If a summons is issued, the offender shall remain
within the corrections facility until completion of his or her term of confinement and be transported by corrections
personnel on the day of completion, directly to the identified evaluation and treatment facility.

(8) The secretary shall adopt rules to implement this section.

NEW SECTION. Sec. 361. A new section is added to chapter 9.95 RCW to read as follows:
The indeterminate sentence review board, in fulfilling its duties under the provisions of this act, shall be

The list may be updated as needed. In preparing this list, the department shall make substantial efforts to provide for the equitable distribution of community facilities among counties. The department shall give great weight to the following factors in determining equitable distribution:

(a) The locations of existing residential facilities owned or operated by, or operated under contract with, the department in each county;
(b) The locations of other projected residential facilities owned or operated by, or operated under contract with, the department in each county;
(c) The number of juvenile registered sex offenders classified as level II or III and juvenile sex offenders registered as homeless per thousand persons residing in the county;
(d) The number of juvenile violent offenders under parole or probation per thousand persons residing in the county; and
(e) The number of juvenile offenders sentenced or adjudicated in the county per thousand persons residing in the county.

(2)(a) In preparing the list required under subsection (1) of this section, the department shall:
(i) Give great weight to the factors identified in subsection (1) of this section;

(3) In identifying potential sites within a county for the location of a community facility, the department shall work with local governments to provide for the equitable distribution of such facilities among the jurisdictions and neighborhoods within the county. The department and local governments shall give great weight to the following factors in determining equitable distribution:

(a) The locations of existing residential facilities owned or operated by, or operated under contract with, the department in each jurisdiction or neighborhood in the county;
(b) The locations of other projected residential facilities owned or operated by, or operated under contract with, the department in each jurisdiction or neighborhood in the county;

(4) To carry out the purposes of subsections (1) and (3) of this section, the department shall, no later than January 1, 2002, develop a mapping system to identify the locations of existing and projected facilities identified in subsections (1) and (3) of this section. The department also shall maintain a list of the number of offenders identified in subsections (1) and (3) of this section and shall annually publish a report including the map and offender rates for the counties and jurisdictions of the state.

(5) The department shall by rule, adopt facility criteria and shall consult with local governments in such rule making.

(6) As used in this section, the term "jurisdiction" means a city, town, or unincorporated area of a county.

(1) Whenever the department operates, or the secretary enters a contract to operate, a community facility, the community facility may be operated only after the public notification and opportunities for review and comment as required by this section.

(2) The secretary shall establish a process for early and continuous public participation in establishing or
relocating community facilities. The process shall include, at a minimum, public meetings in the local communities affected, as well as opportunities for written and oral comments, in the following manner:

(a) If there are more than three sites initially selected as potential locations and the selection process by the secretary or a service provider reduces the number of possible sites for a community facility to no fewer than three, the secretary or the chief operating officer of the service provider shall notify the public of the possible siting and hold at least two public hearings in each community where a community facility may be sited at least forty-five days before a final selection is made.

(b) When the secretary or service provider has determined the community facility's location, the secretary or the chief operating officer of the service provider shall hold at least one additional public hearing in the community where the community facility will be sited.

(c) When the secretary has entered negotiations with a service provider and only one site is under consideration, then at least two public hearings shall be held.

(d) To provide adequate notice and opportunity for interested persons to comment on a proposed location, the secretary or the chief operating officer of the service provider shall provide at least fourteen days' advance notice of the public hearings to at least the following:

(i) The affected counties, cities, and towns;
(ii) Local government planning agencies in the affected communities;
(iii) All newspapers of general circulation in the local area and all radio stations and television stations generally available to persons in the community where the potential site is located;
(iv) Any school district, private school, or kindergarten in which the community facility would be sited or whose boundary is within two miles of a proposed community facility, and institutions of higher education, any library district, local business or fraternal organizations that request notification from the secretary or agency, and any person or property owner within a one-half mile radius of the proposed community facility, and all other local government offices within a one-half mile radius of the proposed site or sites;
(v) The local chamber of commerce, local economic development agencies, and any other local organizations that request such notification from the department; and
(vi) Written notification to all residents and property owners within a one-half mile radius of the proposed site or sites.

(3) The notice required under subsection (2) of this section must also inform the public that any interested person or entity, including a local government entity, is invited to submit written comments regarding a proposed location, including comments regarding whether the site meets the equitable distribution and other statutory requirements for the facility. Written comments must be submitted not later than thirty days following the date notice is issued pursuant to subsection (2) of this section.

(4) The department must consider the testimony received at the public hearings and any written comments submitted before making a final selection of the site for the location or relocation of a community facility. The department shall issue a written analysis of the final selection, including how the selection was consistent with the requirements of section 2 of this act.

(5) Before initiating the process in subsection (2) of this section, the department shall contact local government planning agencies in the communities containing the proposed community facility. The department shall coordinate with local government agencies to ensure that opportunities are provided for effective citizen input and to reduce the duplication of notice and meetings.

(6) The secretary shall not issue a license to any service provider until the service provider submits proof that the requirements of this section have been met.

(7) If local government land use regulations require that a special use or conditional use permit be submitted and approved before a community facility can be sited, and the process for obtaining such a permit includes public notice and hearing requirements similar to those required under this section, the requirements of this section shall not apply to the extent they would duplicate requirements under the local land use regulations.

(8) This section shall apply only to community facilities sited after September 1, 1998.

POINT OF INQUIRY

SPEAKERS' RULING

The Speaker (Representative Ogden presiding): "In ruling upon the point of inquiry by Representative Bush concerning the number of votes necessary to pass Engrossed Substitute Senate Bill No. 5407, the Speakers first note that an informal opinion of the Attorney General's Office finds that parimutuel wagering in connection with simulcast horse racing is allowed under current law, and that the bill would not authorize any form of gambling not already authorized under existing law.

"The Speakers also note that the President of the Senate, in ruling upon the same point of inquiry concerning the number of votes necessary to pass the bill, found that the measure would remove restrictions on the number of simulcast races that may be imported by horse racing associations on live race days. Because the measure would permit increased occurrences of gambling, the President ruled that a 60 percent vote is required on final passage in accordance with Article II, Section 24 of the State Constitution."
"The Speakers also rule that a 60 percent vote (59) votes is required for final passage."

There being no objection, the rules were suspended, the second reading considered the third and the bill was placed on final passage.

Representatives Wood, Clements, and Eickmeyer spoke in favor of passage of the bill.

Representatives Pennington and Bush spoke against passage of the bill.

The Speaker (Representative Ogden presiding) stated the question before the House to be the final passage of Engrossed Substitute Senate Bill No. 5407.

(1) Contractors shall be required to submit with each annual nursing facility cost report a proposed settlement report showing underspending or overspending in each component rate during the cost report year on a per-resident day basis. The department shall accept or reject the proposed settlement report, explain any adjustments, and issue a revised settlement report if needed.

(2) Contractors shall not be required to refund payments made in the operations, variable return, property, and ((return on investment)) financing allowance component rates in excess of the adjusted costs of providing services corresponding to these components.

(3) The facility will return to the department any overpayment amounts in each of the direct care, therapy care, and support services rate components that the department identifies following the audit and settlement
procedures as described in this chapter, provided that the contractor may retain any overpayment that does not exceed 1.0% of the facility's direct care, therapy care, and support services component rate. However, no overpayments may be retained in a cost center to which savings have been shifted to cover a deficit, as provided in subsection (4) of this section. Facilities that are not in substantial compliance for more than ninety days, and facilities that provide substandard quality of care at any time, during the period for which settlement is being calculated, will not be allowed to retain any amount of overpayment in the facility's direct care, therapy care, and support services component rate. The terms "not in substantial compliance" and "substandard quality of care" shall be defined by federal survey regulations.

(4) Determination of unused rate funds, including the amounts of direct care, therapy care, and support services to be recovered, shall be done separately for each component rate, and, except as otherwise provided in this subsection, neither costs nor rate payments shall be shifted from one component rate or corresponding service area to another in determining the degree of underspending or recovery, if any. In computing a preliminary or final settlement, savings in the support services cost center shall be shifted to cover a deficit in the direct care or therapy cost centers up to the amount of any savings. In computing a preliminary or final settlement, savings in direct care and therapy care may be shifted to cover a deficit in these two cost centers up to the amount of savings in each, regardless of the percentage of either component rate shifted. Contractor-retained overpayments up to one percent of direct care, therapy care, and support services component rates, as authorized in subsection (3) of this section, shall be calculated and applied after all shifting is completed.

(5) Total and component payment rates assigned to a nursing facility, as calculated and revised, if needed, under the provisions of this chapter and those rules as the department may adopt, shall represent the maximum payment for nursing facility services rendered to medicaid recipients for the period the rates are in effect. No increase in payment to a contractor shall result from spending above the total payment rate or in any rate component.

(6) RCW 74.46.150 through 74.46.180, and rules adopted by the department prior to July 1, 1998, shall continue to govern the medicaid settlement process for periods prior to October 1, 1998, as if these statutes and rules remained in full force and effect.

Sec. 4. RCW 74.46.421 and 1999 c 353 s 3 are each amended to read as follows:

(1) The purpose of part E of this chapter is to determine nursing facility medicaid payment rates that, in the aggregate for all participating nursing facilities, are in accordance with the biennial appropriations act.

(2)(a) The department shall use the nursing facility medicaid payment rate methodologies described in this chapter to determine initial component rate allocations for each medicaid nursing facility.

(b) The initial component rate allocations shall be subject to adjustment as provided in this section in order to assure that the statewide average payment rate to nursing facilities is less than or equal to the statewide average payment rate specified in the biennial appropriations act.

(3) Nothing in this chapter shall be construed as creating a legal right or entitlement to any payment that (a) has not been adjusted under this section or (b) would cause the statewide average payment rate to exceed the statewide average payment rate specified in the biennial appropriations act.

(4)(a) The statewide average payment rate for the capital portion of the rate for any state fiscal year under the nursing facility medicaid payment system, weighted by patient days, shall not exceed the annual statewide weighted average nursing facility payment rate for the capital portion of the rate identified for that fiscal
data from 1996 will be used for October 1, 1998, through June 30, 2001, to establish and adjust each of these components, as provided in RCW 74.46.431 and 1999 c 353 s 4.

(b) If the department determines that the weighted average nursing facility payment rate for the capital portion of the rate calculated in accordance with this chapter is likely to exceed the weighted average nursing facility payment rate for the capital portion of the rate identified in the biennial appropriations act, then the department shall adjust all nursing facility property and financing allowance payment rates proportional to the amount by which the weighted average rate allocations would otherwise exceed the budgeted capital portion of the rate amount. Any such adjustments shall only be made prospectively, not retrospectively, and shall be applied proportionately to each component rate allocation for each facility.

Sec. 5. RCW 74.46.431 and 1999 c 353 s 4 are each amended to read as follows:

1. Effective July 1, 1999, nursing facility medicaid payment rate allocations shall be facility-specific and shall have seven components: Direct care, therapy care, support services, operations, property, financing allowance, and variable return. The department shall establish and adjust each of these components, as provided in this section and elsewhere in this chapter, for each medicaid nursing facility in this state.

2. All component rate allocations for essential community providers as defined in this chapter shall be based upon a minimum facility occupancy of eighty-five percent of licensed beds, regardless of how many beds are set up or in use. For all facilities other than essential community providers, effective July 1, 2001, component rate allocations in direct care, therapy care, support services, variable return, operations, property, and financing allowance shall continue to be based upon a minimum facility occupancy of eighty-five percent of licensed beds. For all facilities other than essential community providers, effective July 1, 2002, the component rate allocations in operations, property, and financing allowance shall be based upon a minimum facility occupancy of ninety percent of licensed beds, regardless of how many beds are set up or in use.

3. Information and data sources used in determining medicaid payment rate allocations, including formulas, procedures, cost report periods, resident assessment instrument formats, resident assessment methodologies, and resident classification and case mix weighting methodologies, may be substituted or altered from time to time as determined by the department.

4. (a) Direct care component rate allocations shall be established using adjusted cost report data covering at least six months. Adjusted cost report data from 1996 will be used for October 1, 1998, through June 30, 2001, direct care component rate allocations; adjusted cost report data from 1999 will be used for July 1, 2001, through June 30, 2004, direct care component rate allocations.

(b) Direct care component rate allocations based on 1996 cost report data shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act. A different economic trends and conditions adjustment factor or factors may be defined in the biennial appropriations act for facilities whose direct care component rate is set equal to their adjusted June 30, 1998, rate, as provided in RCW 74.46.506(5)((d)) (i).

(c) Direct care component rate allocations based on 1999 cost report data shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act. A different economic trends and conditions adjustment factor or factors may be defined in the biennial appropriations act for facilities whose direct care component rate is set equal to their adjusted June 30, 1998, rate, as provided in RCW
(5)(a) Therapy care component rate allocations shall be established using adjusted cost report data covering at least six months. Adjusted cost report data from 1996 will be used for October 1, 1998, through June 30, 2001, therapy care component rate allocations; adjusted cost report data from 1999 will be used for July 1, 2001, through June 30, 2004, therapy care component rate allocations.

(b) Therapy care component rate allocations shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act.

(6)(a) Support services component rate allocations shall be established using adjusted cost report data covering at least six months. Adjusted cost report data from 1996 shall be used for October 1, 1998, through June 30, 2001, support services component rate allocations; adjusted cost report data from 1999 shall be used for July 1, 2001, through June 30, 2004, support services component rate allocations.

(b) Support services component rate allocations shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act.

(7)(a) Operations component rate allocations shall be established using adjusted cost report data covering at least six months. Adjusted cost report data from 1996 shall be used for October 1, 1998, through June 30, 2001, operations component rate allocations; adjusted cost report data from 1999 shall be used for July 1, 2001, through June 30, 2004, operations component rate allocations.

(b) Operations component rate allocations shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act.

(8) For July 1, 1998, through September 30, 1998, a facility's property and return on investment component rates shall be the facility's June 30, 1998, property and return on investment component rates, without increase. For October 1, 1998, through June 30, 1999, a facility's property and return on investment component rates shall be rebased utilizing 1997 adjusted cost report data covering at least six months of data.

(9) Total payment rates under the nursing facility medicaid payment system shall not exceed facility rates charged to the general public for comparable services.

(10) Medicaid contractors shall pay to all facility staff a minimum wage of the greater of ((five dollars and fifteen cents per hour)) the state minimum wage or the federal minimum wage.

(11) The department shall establish in rule procedures, principles, and conditions for determining component rate allocations for facilities in circumstances not directly addressed by this chapter, including but not limited to: The need to prorate inflation for partial-period cost report data, newly constructed facilities, existing facilities entering the medicaid program for the first time or after a period of absence from the program, existing facilities with expanded new bed capacity, existing medicaid facilities following a change of ownership of the nursing facility business, facilities banking beds or converting beds back into service, facilities temporarily reducing the number of set-up beds during a remodel, facilities having less than six months of either resident assessment, cost report data, or both, under the current contractor prior to rate setting, and other circumstances.

(12) The department shall establish in rule procedures, principles, and conditions, including necessary threshold costs, for adjusting rates to reflect capital improvements or new requirements imposed by the department or the federal government. Any such rate adjustments are subject to the provisions of RCW 74.46.421.

(13) Effective July 1, 2001, medicaid rates shall continue to be revised downward in all components, in accordance with department rules, for facilities converting banked beds to active service under chapter 70.38 RCW by using the facility's increased licensed bed capacity to recalculate minimum occupancy for rate setting. However, for facilities other than essential community providers which bank beds under chapter 70.38 RCW, after April 1, 2001, medicaid rates shall be revised upward, in accordance with department rules, in direct care, therapy care, support services, and variable return components only by using the facility's decreased licensed bed capacity to recalculate minimum occupancy for rate setting, but no upward revision shall be made to operations, property, or financing allowance component rates.
(14) Facilities obtaining a certificate of need or a certificate of need exemption under chapter 70.38 RCW after June 30, 2001, must have a certificate of capital authorization in order for (a) the depreciation resulting from the capitalized addition to be included in calculation of the facility's property component rate allocation; and (b) the net invested funds associated with the capitalized addition to be included in calculation of the facility's financing allowance rate allocation.

Sec. 6. RCW 74.46.433 and 1999 c 353 s 9 are each amended to read as follows:

(1) The department shall establish for each medicaid nursing facility a variable return component rate allocation. In determining the variable return allowance:

(a) The variable return array and percentage (assigned at the October 1, 1998, rate setting shall remain in effect until June 30, 2001) shall be assigned whenever rebasing of noncapital rate allocations is scheduled under RCW 46.46.431 (4), (5), (6), and (7).

(b) To calculate the array of facilities for the July 1, 2001, rate setting, the department, without using peer groups, shall first rank all facilities in numerical order from highest to lowest according to each facility's examined and documented, but unlidded, combined direct care, therapy care, support services, and operations per resident day cost from the 1999 cost report period. However, before being combined with other per resident day costs and ranked, a facility's direct care cost per resident day shall be adjusted to reflect its facility average case mix index, to be averaged from the four calendar quarters of 1999, weighted by the facility's resident days from each quarter, under RCW 74.46.501(7)(b)(ii). The array shall then be divided into four quartiles, each containing, as nearly as possible, an equal number of facilities, and four percent shall be assigned to facilities in the lowest quartile, three percent to facilities in the next lowest quartile, two percent to facilities in the next highest quartile, and one percent to facilities in the highest quartile.

(c) The department shall (then), subject to (d) of this subsection, compute the variable return allowance by multiplying (the appropriate) a facility's assigned percentage (amounts, which shall not be less than one percent and not greater than four percent) by the sum of the facility's direct care, therapy care, support services, and operations (rate components. The percentage amounts will be based on groupings of facilities according to the rankings prescribed in (a) of this subsection, as applicable. Those groups of facilities with lower per diem costs shall receive higher percentage amounts than those with higher per diem costs) component rates determined in accordance with this chapter and rules adopted by the department.

(d) Effective July 1, 2001, if a facility's examined and documented direct care cost per resident day for the preceding report year is lower than its average direct care component rate weighted by medicaid resident days for the same year, the facility's direct care cost shall be substituted for its July 1, 2001, direct care component rate, and its variable return component rate shall be determined or adjusted each July 1st by multiplying the facility's assigned percentage by the sum of the facility's July 1, 2001, therapy care, support services, and operations component rates, and its direct care cost per resident day for the preceding year.

(2) The variable return rate allocation calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

Sec. 7. RCW 74.46.435 and 1999 c 353 s 10 are each amended to read as follows:

(1) Effective July 1, 2001, the property component rate allocation for each facility shall be determined by dividing the sum of the reported allowable prior period actual depreciation, subject to RCW 74.46.310 through 74.46.380, adjusted for any capitalized additions or replacements approved by the department, and the retained savings from such cost center by the greater of a facility's total resident days for the facility in the prior period or resident days as calculated on eighty-five percent facility occupancy. Effective July 1, 2002, the property component rate allocation for all facilities, except essential community providers, shall be set by using the greater of a facility's total resident days from the most recent cost report period or resident days calculated at ninety percent facility occupancy. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total resident days used in computing the property component rate shall be adjusted to anticipated resident day level.

(2) A nursing facility's property component rate allocation shall be rebased annually, effective July 1st (October 1st as applicable), in accordance with this section and this chapter.
(3) When a certificate of need for a new facility is requested, the department, in reaching its decision, shall take into consideration per-bed land and building construction costs for the facility which shall not exceed a maximum to be established by the secretary.

(4) Effective July 1, 2001, for the purpose of calculating a nursing facility's property component rate, if a contractor ((elects)) has elected to bank licensed beds prior to April 1, 2001, or elects to convert banked beds to active service at any time, under chapter 70.38 RCW, the department shall use the facility's ((anticipated resident-occupancy level subsequent to the decrease or increase in licensed bed capacity)) new licensed bed capacity to recalculate minimum occupancy for rate setting and revise the property component rate, as needed, effective as of the date the beds are banked or converted to active service. However, in no case shall the department use less than eighty-five percent occupancy of the facility's licensed bed capacity after banking or conversion. Effective July 1, 2002, in no case, other than essential community providers, shall the department use less than ninety percent occupancy of the facility's licensed bed capacity after conversion.

(5) The property component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

**Sec. 8.** RCW 74.46.437 and 1999 c 353 s 11 are each amended to read as follows:

(1) Beginning July 1, 1999, the department shall establish for each medicaid nursing facility a financing allowance component rate allocation. The financing allowance component rate shall be rebased annually, effective July 1st, in accordance with the provisions of this section and this chapter.

(2) Effective July 1, 2001, the financing allowance shall be determined by multiplying the net invested funds of each facility by .10, and dividing by the greater of a nursing facility's total resident days from the most recent cost report period or resident days calculated on eighty-five percent facility occupancy. Effective July 1, 2002, the financing allowance component rate allocation for all facilities, other than essential community providers, shall be set by using the greater of a facility's total resident days from the most recent cost report period or resident days calculated at ninety percent facility occupancy. However, assets acquired on or after May 17, 1999, shall be grouped in a separate financing allowance calculation that shall be multiplied by .085. The financing allowance factor of .085 shall not be applied to the net invested funds pertaining to new construction or major renovations receiving certificate of need approval or an exemption from certificate of need requirements under chapter 70.38 RCW, or to working drawings that have been submitted to the department of health for construction review approval, prior to May 17, 1999. If a capitalized addition, renovation, replacement, or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total resident days used in computing the financing allowance shall be adjusted to the greater of the anticipated resident day level or eighty-five percent of the new licensed bed capacity. Effective July 1, 2002, for all facilities, other than essential community providers, the total resident days used to compute the financing allowance after a capitalized addition, renovation, replacement, or retirement of an asset shall be set by using the greater of a facility's total resident days from the most recent cost report period or resident days calculated at ninety percent facility occupancy.

(3) In computing the portion of net invested funds representing the net book value of tangible fixed assets, the same assets, depreciation bases, lives, and methods referred to in RCW 74.46.330, 74.46.350, 74.46.360, 74.46.370, and 74.46.380, including owned and leased assets, shall be utilized, except that the capitalized cost of land upon which the facility is located and such other contiguous land which is reasonable and necessary for use in the regular course of providing resident care shall also be included. Subject to provisions and limitations contained in this chapter, for land purchased by owners or lessors before July 18, 1984, capitalized cost of land shall be the buyer's capitalized cost. For all partial or whole rate periods after July 17, 1984, if the land is purchased after July 17, 1984, capitalized cost shall be that of the owner of record on July 17, 1984, or buyer's capitalized cost, whichever is lower. In the case of leased facilities where the net invested funds are unknown or the contractor is unable to provide necessary information to determine net invested funds, the secretary shall have the authority to determine an amount for net invested funds based on an appraisal conducted according to RCW 74.46.360(1).

(4) Effective July 1, 2001, for the purpose of calculating a nursing facility's financing allowance component rate, if a contractor ((elects)) has elected to bank licensed beds prior to April 1, 2001, or elects to
convert banked beds to active service at any time, under chapter 70.38 RCW, the department shall use the facility's anticipated resident occupancy level subsequent to the decrease or increase in licensed bed capacity) new licensed bed capacity to recalculate minimum occupancy for rate setting and revise the financing allowance component rate, as needed, effective as of the date the beds are banked or converted to active service. However, in no case shall the department use less than eighty-five percent occupancy of the facility's licensed bed capacity after banking or conversion. Effective July 1, 2002, in no case, other than for essential community providers, shall the department use less than ninety percent occupancy of the facility's licensed bed capacity after conversion.

(5) The financing allowance rate allocation calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

Sec. 9. RCW 74.46.501 and 1998 c 322 s 24 are each amended to read as follows:

(1) From individual case mix weights for the applicable quarter, the department shall determine two average case mix indexes for each medicaid nursing facility, one for all residents in the facility, known as the facility average case mix index, and one for medicaid residents, known as the medicaid average case mix index.

(2)(a) In calculating a facility's two average case mix indexes for each quarter, the department shall include all residents or medicaid residents, as applicable, who were physically in the facility during the quarter in question (January 1st through March 31st, April 1st through June 30th, July 1st through September 30th, or October 1st through December 31st).

(b) The facility average case mix index shall exclude all default cases as defined in this chapter. However, the medicaid average case mix index shall include all default cases.

(3) Both the facility average and the medicaid average case mix indexes shall be determined by multiplying the case mix weight of each resident, or each medicaid resident, as applicable by the number of days, as defined in this section and as applicable, the resident was at each particular case mix classification or group, and then averaging.

(4)(a) In determining the number of days a resident is classified into a particular case mix group, the department shall determine a start date for calculating case mix grouping periods as follows:

(i) If a resident's initial assessment for a first stay or a return stay in the nursing facility is timely completed and transmitted to the department by the cutoff date under state and federal requirements and as described in subsection (5) of this section, the start date shall be the later of either the first day of the quarter or the resident's facility admission or readmission date;

(ii) If a resident's significant change, quarterly, or annual assessment is timely completed and transmitted to the department by the cutoff date under state and federal requirements and as described in subsection (5) of this section, the start date shall be the date the assessment is completed;

(iii) If a resident's significant change, quarterly, or annual assessment is not timely completed and transmitted to the department by the cutoff date under state and federal requirements and as described in subsection (5) of this section, the start date shall be the due date for the assessment.

(b) If state or federal rules require more frequent assessment, the same principles for determining the start date of a resident's classification in a particular case mix group set forth in subsection (4)(a) of this section shall apply.

(c) In calculating the number of days a resident is classified into a particular case mix group, the department shall determine an end date for calculating case mix grouping periods as follows:

(i) If a resident is discharged before the end of the applicable quarter, the end date shall be the day before discharge;

(ii) If a resident is not discharged before the end of the applicable quarter, the end date shall be the last day of the quarter;

(iii) If a new assessment is due for a resident or a new assessment is completed and transmitted to the department, the end date of the previous assessment shall be the earlier of either the day before the assessment is due or the day before the assessment is completed by the nursing facility.

(5) The cutoff date for the department to use resident assessment data, for the purposes of calculating both the facility average and the medicaid average case mix indexes, and for establishing and updating a facility's direct care component rate, shall be one month and one day after the end of the quarter for which the resident assessment
A threshold of ninety percent, as described and calculated in this subsection, shall be used to determine the case mix index each quarter. The threshold shall also be used to determine which facilities' costs per case mix unit are included in determining the ceiling, floor, and price. If the facility does not meet the ninety percent threshold, the department may use an alternate case mix index to determine the facility average and medicaid average case mix indexes for the quarter. The threshold is a count of unique minimum data set assessments, and it shall include resident assessment instrument tracking forms for residents discharged prior to completing an initial assessment. The threshold is calculated by dividing the facility's count of residents being assessed by the average census for the facility. A daily census shall be reported by each nursing facility as it transmits assessment data to the department. The department shall compute a quarterly average census based on the daily census. If no census has been reported by a facility during a specified quarter, then the department shall use the facility's licensed beds as the denominator in computing the threshold.

(7)(a) Although the facility average and the medicaid average case mix indexes shall both be calculated quarterly, the facility average case mix index will be used only every three years in combination with cost report data as specified by RCW 74.46.431 and 74.46.506, to establish a facility's allowable cost per case mix unit. A facility's medicaid average case mix index shall be used to update a nursing facility's direct care component rate quarterly.

(i) For October 1, 1998, direct care component rates, the department shall use an average of facility average case mix indexes from the four calendar quarters of 1997.

(ii) For July 1, 2001, direct care component rates, the department shall use an average of facility average case mix indexes from the four calendar quarters of 1999.

(c) The medicaid average case mix index used to update or recalibrate a nursing facility's direct care component rate quarterly shall be from the calendar quarter commencing six months prior to the effective date of the quarterly rate. For example, October 1, 1998, through December 31, 1998, direct care component rates shall utilize case mix averages from the April 1, 1998, through June 30, 1998, calendar quarter, and so forth.

Sec. 10. RCW 74.46.506 and 1999 c 353 s 5 and 1999 c 181 s 1 are each reenacted and amended to read as follows:

(1) The direct care component rate allocation corresponds to the provision of nursing care for one resident of a nursing facility for one day, including direct care supplies. Therapy services and supplies, which correspond to the therapy care component rate, shall be excluded. The direct care component rate includes elements of case mix determined consistent with the principles of this section and other applicable provisions of this chapter.

(2) Beginning October 1, 1998, the department shall determine and update quarterly for each nursing facility serving medicaid residents a facility-specific per-resident day direct care component rate allocation, to be effective on the first day of each calendar quarter. In determining direct care component rates the department shall utilize, as specified in this section, minimum data set resident assessment data for each resident of the facility, as transmitted to, and if necessary corrected by, the department in the resident assessment instrument format approved by federal authorities for use in this state.

(3) The department may question the accuracy of assessment data for any resident and utilize corrected or substitute information, however derived, in determining direct care component rates. The department is authorized to impose civil fines and to take adverse rate actions against a contractor, as specified by the department in rule, in order to obtain compliance with resident assessment and data transmission requirements and to ensure accuracy.

(4) Cost report data used in setting direct care component rate allocations shall be 1996 and 1999, for rate periods as specified in RCW 74.46.431(4)(a).

(5) Beginning October 1, 1998, the department shall rebase each nursing facility's direct care component rate allocation as described in RCW 74.46.431, adjust its direct care component rate allocation for economic trends and conditions as described in RCW 74.46.431, and update its medicaid average case mix index, consistent
with the following:

(a) Reduce total direct care costs reported by each nursing facility for the applicable cost report period specified in RCW 74.46.431(4)(a) to reflect any department adjustments, and to eliminate reported resident therapy costs and adjustments, in order to derive the facility's total allowable direct care cost;

(b) Divide each facility's total allowable direct care cost by its adjusted resident days for the same report period, increased if necessary to a minimum occupancy of eighty-five percent; that is, the greater of actual or imputed occupancy at eighty-five percent of licensed beds, to derive the facility's allowable direct care cost per resident day;

(c) Adjust the facility's per resident day direct care cost by the applicable factor specified in RCW 74.46.431(4) (b) and (c) to derive its adjusted allowable direct care cost per resident day;

(d) Divide each facility's adjusted allowable direct care cost per resident day by the facility average case mix index for the applicable quarters specified by RCW 74.46.501(7)(b) to derive the facility's allowable direct care cost per case mix unit;

(e) Effective for July 1, 2001, rate setting, divide nursing facilities into at least two and, if applicable, three peer groups: Those located in metropolitan statistical areas as determined and defined by the United States- office of management and budget or other appropriate agency or office of the federal government, and those not located in a metropolitan statistical area, nonurban counties; those located in high labor-cost counties, if any; and those located in other urban counties;

(f) Array separately the allowable direct care cost per case mix unit for all facilities in nonurban counties, for all facilities in high labor-cost counties, if applicable; and for all facilities in other urban counties, and determine the median allowable direct care cost per case mix unit for each peer group;

(g) Except as provided in ((k)) (i) of this subsection, from October 1, 1998, through June 30, 2000, determine each facility's quarterly direct care component rate as follows:

(i) Any facility whose allowable cost per case mix unit is less than eighty-five percent of the facility's peer group median established under (f) of this subsection shall be assigned a cost per case mix unit equal to eighty-five percent of the facility's peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(ii) Any facility whose allowable cost per case mix unit is greater than one hundred fifteen percent of the peer group median established under (f) of this subsection shall be assigned a cost per case mix unit equal to one hundred fifteen percent of the peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(iii) Any facility whose allowable cost per case mix unit is between eighty-five and one hundred fifteen percent of the peer group median established under (f) of this subsection shall have a direct care component rate allocation equal to the facility's allowable cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(h) Except as provided in ((k)) (i) of this subsection, from July 1, 2000, (through June 30, 2002)) forward, and for all future rate setting, determine each facility's quarterly direct care component rate as follows:

(i) Any facility whose allowable cost per case mix unit is less than ninety percent of the facility's peer group median established under (f) of this subsection shall be assigned a cost per case mix unit equal to ninety percent of the facility's peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(ii) Any facility whose allowable cost per case mix unit is greater than one hundred ten percent of the peer group median established under (f) of this subsection shall be assigned a cost per case mix unit equal to one hundred ten percent of the peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(iii) Any facility whose allowable cost per case mix unit is between ninety and one hundred ten percent of
the peer group median established under (f) of this subsection shall have a direct care component rate allocation equal to the facility's allowable cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(i) (From July 1, 2002, through June 30, 2004, determine each facility's quarterly direct care component rate as follows:

—— (i) Any facility whose allowable cost per case mix unit is less than ninety-five percent of the facility's peer group median established under (f) of this subsection shall be assigned a cost per case mix unit equal to ninety-five percent of the facility's peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

—— (ii) Any facility whose allowable cost per case mix unit is greater than one hundred five percent of the peer group median established under (f) of this subsection shall be assigned a cost per case mix unit equal to one hundred five percent of the peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

—— (iii) Any facility whose allowable cost per case mix unit is between ninety-five and one hundred five percent of the peer group median established under (f) of this subsection shall have a direct care component rate allocation equal to the facility's allowable cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

—— (j) Beginning July 1, 2004, determine each facility's quarterly direct care component rate by multiplying the facility's peer group median allowable direct care cost per case mix unit by that facility's medicaid average case mix index from the applicable quarter as specified in RCW 74.46.501(7)(c).

—— (k)(i) Between October 1, 1998, and June 30, 2000, the department shall compare each facility's direct care component rate allocation calculated under (g) of this subsection with the facility's nursing services component rate in effect on September 30, 1998, less therapy costs, plus any exceptional care offsets as reported on the cost report, adjusted for economic trends and conditions as provided in RCW 74.46.431. A facility shall receive the higher of the two rates;

(ii) Between July 1, 2000, and June 30, 2002, the department shall compare each facility's direct care component rate allocation calculated under (h) of this subsection with the facility's direct care component rate in effect on June 30, 2000. A facility shall receive the higher of the two rates. Between July 1, 2001, and June 30, 2002, if during any quarter a facility whose rate paid under (h) of this subsection is greater than either the direct care rate in effect on June 30, 2000, or than that facility's allowable direct care cost per case mix unit calculated in (d) of this subsection multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c), the facility shall be paid in that and each subsequent quarter pursuant to (h) of this subsection and shall not be entitled to the greater of the two rates.

(iii) Effective July 1, 2002, all direct care component rate allocations shall be as determined under (h) of this subsection.

(6) The direct care component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

(7) Payments resulting from increases in direct care component rates, granted under authority of RCW 74.46.508(1) for a facility's exceptional care residents, shall be offset against the facility's examined, allowable direct care costs, for each report year or partial period such increases are paid. Such reductions in allowable direct care costs shall be for rate setting, settlement, and other purposes deemed appropriate by the department.

Sec. 11. RCW 74.46.511 and 1999 c 353 s 6 and 1999 c 181 s 3 are each reenacted and amended to read as follows:

(1) The therapy care component rate allocation corresponds to the provision of medicaid one-on-one therapy provided by a qualified therapist as defined in this chapter, including therapy supplies and therapy consultation, for one day for one medicaid resident of a nursing facility. The therapy care component rate allocation for October 1, 1998, through June 30, 2001, shall be based on adjusted therapy costs and days from calendar year 1996. The therapy component rate allocation for July 1, 2001, through June 30, 2004, shall be...
based on adjusted therapy costs and days from calendar year 1999. The therapy care component rate shall be adjusted for economic trends and conditions as specified in RCW 74.46.431(5)(b), and shall be determined in accordance with this section.

(2) In rebasing, as provided in RCW 74.46.431(5)(a), the department shall take from the cost reports of facilities the following reported information:

(a) Direct one-on-one therapy charges for all residents by payer including charges for supplies;
(b) The total units or modules of therapy care for all residents by type of therapy provided, for example, speech or physical. A unit or module of therapy care is considered to be fifteen minutes of one-on-one therapy provided by a qualified therapist or support personnel; and
(c) Therapy consulting expenses for all residents.

(3) The department shall determine for all residents the total cost per unit of therapy for each type of therapy by dividing the total adjusted one-on-one therapy expense for each type by the total units provided for that therapy type.

(4) The department shall divide medicaid nursing facilities in this state into two peer groups:
(a) Those facilities located within ((a metropolitan statistical area)) urban counties; and
(b) Those ((not)) located ((in a metropolitan statistical area)) within nonurban counties.

The department shall array the facilities in each peer group from highest to lowest based on their total cost per unit of therapy for each therapy type. The department shall determine the median total cost per unit of therapy for each therapy type and add ten percent of median total cost per unit of therapy. The cost per unit of therapy for each therapy type at a nursing facility shall be the lesser of its cost per unit of therapy for each therapy type or the median total cost per unit plus ten percent for each therapy type for its peer group.

(5) The department shall calculate each nursing facility's therapy care component rate allocation as follows:

(a) To determine the allowable total therapy cost for each therapy type, the allowable cost per unit of therapy for each type of therapy shall be multiplied by the total therapy units for each type of therapy;
(b) The medicaid allowable one-on-one therapy expense shall be calculated taking the allowable total therapy cost for each therapy type times the medicaid percent of total therapy charges for each therapy type;
(c) The medicaid allowable one-on-one therapy expense for each therapy type shall be divided by total adjusted medicaid days to arrive at the medicaid one-on-one therapy cost per patient day for each therapy type;
(d) The medicaid one-on-one therapy cost per patient day for each therapy type shall be multiplied by total adjusted patient days for all residents to calculate the total allowable one-on-one therapy expense. The lesser of the total allowable therapy consultant expense for the therapy type or a reasonable percentage of allowable therapy consultant expense for each therapy type, as established in rule by the department, shall be added to the total allowable one-on-one therapy expense to determine the allowable therapy cost for each therapy type;
(e) The allowable therapy cost for each therapy type shall be added together, the sum of which shall be the total allowable therapy expense for the nursing facility;
(f) The total allowable therapy expense will be divided by the greater of adjusted total patient days from the cost report on which the therapy expenses were reported, or patient days at eighty-five percent occupancy of licensed beds. The outcome shall be the nursing facility's therapy care component rate allocation.

(6) The therapy care component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

(7) The therapy care component rate shall be suspended for medicaid residents in qualified nursing facilities designated by the department who are receiving therapy paid by the department outside the facility daily rate under RCW 74.46.508(2).

Sec. 12. RCW 74.46.515 and 1999 c 353 s 7 are each amended to read as follows:

(1) The support services component rate allocation corresponds to the provision of food, food preparation, dietary, housekeeping, and laundry services for one resident for one day.

(2) Beginning October 1, 1998, the department shall determine each medicaid nursing facility's support
THIRTIETH DAY, MAY 24, 2001

services component rate allocation using cost report data specified by RCW 74.46.431(6).

(3) To determine each facility's support services component rate allocation, the department shall:
   (a) Array facilities' adjusted support services costs per adjusted resident day for each facility from facilities' cost reports from the applicable report year, for facilities located within ((a metropolitan statistical area)) urban counties, and for those ((not)) located ((in any metropolitan statistical area)) within nonurban counties and determine the median adjusted cost for each peer group;
   (b) Set each facility's support services component rate at the lower of the facility's per resident day adjusted support services costs from the applicable cost report period or the adjusted median per resident day support services cost for that facility's peer group, either ((metropolitan statistical area)) urban counties or ((nonmetropolitan statistical area)) nonurban counties, plus ten percent; and
   (c) Adjust each facility's support services component rate for economic trends and conditions as provided in RCW 74.46.431(6).

(4) The support services component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

Sec. 13. RCW 74.46.521 and 1999 c 353 s 8 are each amended to read as follows:

(1) The operations component rate allocation corresponds to the general operation of a nursing facility for one resident for one day, including but not limited to management, administration, utilities, office supplies, accounting and bookkeeping, minor building maintenance, minor equipment repairs and replacements, and other supplies and services, exclusive of direct care, therapy care, support services, property, financing allowance, and variable return.

(2) Beginning October 1, 1998, the department shall determine each medicaid nursing facility's operations component rate allocation using cost report data specified by RCW 74.46.431(7)(a). Effective July 1, 2002, operations component rates for all facilities except essential community providers shall be based upon a minimum occupancy of ninety percent of licensed beds, and no operations component rate shall be revised in response to beds banked on or after April 1, 2001, under chapter 70.38 RCW.

(3) To determine each facility's operations component rate the department shall:
   (a) Array facilities' adjusted general operations costs per adjusted resident day for each facility from facilities' cost reports from the applicable report year, for facilities located within ((a metropolitan statistical area)) urban counties and for those ((not)) located ((in a metropolitan statistical area)) within nonurban counties and determine the median adjusted cost for each peer group;
   (b) Set each facility's operations component rate at the lower of:
      (i) The facility's per resident day adjusted operations costs from the applicable cost report period adjusted if necessary to a minimum occupancy of eighty-five percent of licensed beds before July 1, 2002, and ninety percent effective July 1, 2002; or
      (ii) The adjusted median per resident day general operations cost for that facility's peer group, ((metropolitan statistical area)) urban counties or ((nonmetropolitan statistical area)) nonurban counties; and
   (c) Adjust each facility's operations component rate for economic trends and conditions as provided in RCW 74.46.431(7)(b).

(4) The operations component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

Sec. 14. RCW 74.46.711 and 1995 1st sp.s. c 18 s 69 are each amended to read as follows:

Upon the death of a resident with a personal fund deposited with the facility, the facility must convey within ((forty-five)) thirty days the resident's funds, and a final accounting of those funds, to the individual or probate jurisdiction administering the resident's estate; but in the case of a resident who received long-term care services paid in whole or in part by the department, the funds and accounting shall be sent to the state of Washington, department of social and health services, office of financial recovery. The department shall establish a release procedure for use for burial expenses.

NEW SECTION. Sec. 15. A new section is added to chapter 74.46 RCW to read as follows:
The total capital authorization available for any biennial period shall be specified in the biennial appropriations act and shall be calculated on an annual basis. When setting the capital authorization level, the legislature shall consider both the need for, and the cost of, new and replacement beds.

**NEW SECTION. Sec. 16.** A new section is added to chapter 74.46 RCW to read as follows:

The department shall establish rules for issuing a certificate of capital authorization. Applications for a certificate of capital authorization shall be submitted and approved on a biennial basis. The rules for a certificate of capital authorization shall be consistent with the following principles:

1. The certificate of capital authorization shall be approved on a first-come, first-served basis.
2. Those projects that do not receive approval in one authorization period shall have priority the following biennium should the project be resubmitted.

4. This section expires December 31, 2003.

**Sec. 18.** 1998 c 322 s 47 (uncodified) is amended to read as follows:

1. By December 1, 1998, the department of social and health services shall study and provide recommendations to the chairs of the house of representatives appropriations and health care committees, and the senate ways and means and health and long-term care committees, concerning options for changing the method for paying facilities for capital and property related expenses.
2. The department of social and health services shall contract with an independent and recognized organization to study and evaluate the impacts of chapter 74.46 RCW implementation on access, quality of care, quality of life for nursing facility residents, and the wage and benefit levels of all nursing facility employees. The contractor shall submit a preliminary report of findings, and recommendations for further study, to the joint legislative task force on nursing homes by December 1, 2001. The department and contractor shall incorporate the task force's recommendations into the final evaluation plan, and submit interim reports on findings and
recommendations to the task force by October 1, 2002, and July 1, 2003. The department ((shall require)) and the contractor shall submit((i)) a final report with the results of this study and evaluation, including their findings and recommendations, to the governor and legislature by ((December)) October 1, 2003.

(3) The department of social and health services shall study and, as needed, specify additional case mix groups and appropriate case mix weights to reflect the resource utilization of residents whose care needs are not adequately identified or reflected in the resource utilization group III grouper version 5.10. At a minimum, the department shall study the adequacy of the resource utilization group III grouper version 5.10, including the minimum data set, for capturing the care and resource utilization needs of residents with AIDS, residents with traumatic brain injury, and residents who are behaviorally challenged. The department shall report its findings to the ((chairs of the house of representatives health care committee and the senate health and long term care committee)) joint legislative task force on nursing homes by December 12, 2002.

(4) By ((December 12)) July 1, 2002, the department of social and health services shall report to the ((legislature)) joint legislative task force on nursing homes and provide an evaluation of the fiscal impact of rebasing future payments at different intervals, including the impact of averaging two years' cost data as the basis for rebasing. This report shall include the fiscal impact to the state and the fiscal impact to nursing facility providers.

(5) By December 1, 2001, the department of social and health services shall report to the joint legislative task force on nursing homes on alternative approaches for using client acuity to establish direct care rates. The alternatives shall link acuity, as measured by case mix, to the number of hours of service estimated to be provided for each client, and shall multiply those estimated service hours by standard wage and benefit rates which account for differences in direct care labor costs in various areas of the state. The alternatives reviewed shall provide cost controls and incentives at least equal to the current rate-setting system, and shall not contain automatic cost increases, automatic indexing, hold harmless provisions, or mandatory future rebasing of costs.

Sec. 19. RCW 70.38.115 and 1996 c 178 s 22 are each amended to read as follows:

(1) Certificates of need shall be issued, denied, suspended, or revoked by the designee of the secretary in accord with the provisions of this chapter and rules of the department which establish review procedures and criteria for the certificate of need program.

(2) Criteria for the review of certificate of need applications, except as provided in subsection (3) of this section for health maintenance organizations, shall include but not be limited to consideration of the following:

(a) The need that the population served or to be served by such services has for such services;

(b) The availability of less costly or more effective alternative methods of providing such services;

(c) The financial feasibility and the probable impact of the proposal on the cost of and charges for providing health services in the community to be served;

(d) In the case of health services to be provided, (i) the availability of alternative uses of project resources for the provision of other health services, (ii) the extent to which such proposed services will be accessible to all residents of the area to be served, and (iii) the need for and the availability in the community of services and facilities for osteopathic physicians and surgeons and allopathic physicians and their patients. The department shall consider the application in terms of its impact on existing and proposed institutional training programs for doctors of osteopathic medicine and surgery and medicine at the student, internship, and residency training levels;

(e) In the case of a construction project, the costs and methods of the proposed construction, including the cost and methods of energy provision, and the probable impact of the construction project reviewed (i) on the cost of providing health services by the person proposing such construction project and (ii) on the cost and charges to the public of providing health services by other persons;

(f) The special needs and circumstances of osteopathic hospitals, nonallopathic services and children's hospitals;

(g) Improvements or innovations in the financing and delivery of health services which foster cost containment and serve to promote quality assurance and cost-effectiveness;

(h) In the case of health services proposed to be provided, the efficiency and appropriateness of the use of existing services and facilities similar to those proposed;

(i) In the case of existing services or facilities, the quality of care provided by such services or facilities in
the past;

(j) In the case of hospital certificate of need applications, whether the hospital meets or exceeds the regional average level of charity care, as determined by the secretary; and

(k) In the case of nursing home applications:
   (i) The availability of other nursing home beds in the planning area to be served; and
   (ii) The availability of other services in the community to be served.  Data used to determine the availability of other services will include but not be limited to data provided by the department of social and health services.

(3) A certificate of need application of a health maintenance organization or a health care facility which is controlled, directly or indirectly by a health maintenance organization, shall be approved by the department if the department finds:

(a) Approval of such application is required to meet the needs of the members of the health maintenance organization and of the new members which such organization can reasonably be expected to enroll; and

(b) The health maintenance organization is unable to provide, through services or facilities which can reasonably be expected to be available to the organization, its health services in a reasonable and cost-effective manner which is consistent with the basic method of operation of the organization and which makes such services available on a long-term basis through physicians and other health professionals associated with it.

A health care facility, or any part thereof, with respect to which a certificate of need was issued under this subsection may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired unless the department issues a certificate of need approving the sale, acquisition, or lease.

(4) Until the final expiration of the state health plan as provided under RCW 70.38.919, the decision of the department on a certificate of need application shall be consistent with the state health plan in effect, except in emergency circumstances which pose a threat to the public health.  The department in making its final decision may issue a conditional certificate of need if it finds that the project is justified only under specific circumstances.  The conditions shall directly relate to the project being reviewed.  The conditions may be released if it can be substantiated that the conditions are no longer valid and the release of such conditions would be consistent with the purposes of this chapter.

(5) Criteria adopted for review in accordance with subsection (2) of this section may vary according to the purpose for which the particular review is being conducted or the type of health service reviewed.

(6) The department shall specify information to be required for certificate of need applications.  Within fifteen days of receipt of the application, the department shall request additional information considered necessary to the application or start the review process.  Applicants may decline to submit requested information through written notice to the department, in which case review starts on the date of receipt of the notice.  Applications may be denied or limited because of failure to submit required and necessary information.

(7) Concurrent review is for the purpose of comparative analysis and evaluation of competing or similar projects in order to determine which of the projects may best meet identified needs.  Categories of projects subject to concurrent review include at least new health care facilities, new services, and expansion of existing health care facilities.  The department shall specify time periods for the submission of applications for certificates of need subject to concurrent review, which shall not exceed ninety days.  Review of concurrent applications shall start fifteen days after the conclusion of the time period for submission of applications subject to concurrent review.  Concurrent review periods shall be limited to one hundred fifty days, except as provided for in rules adopted by the department authorizing and limiting amendment during the course of the review, or for an unresolved pivotal issue declared by the department.

(8) Review periods for certificate of need applications other than those subject to concurrent review shall be limited to ninety days.  Review periods may be extended up to thirty days if needed by a review agency, and for unresolved pivotal issues the department may extend up to an additional thirty days.  A review may be extended in any case if the applicant agrees to the extension.

(9) The department or its designee, shall conduct a public hearing on a certificate of need application if requested unless the review is expedited or subject to emergency review.  The department by rule shall specify the period of time within which a public hearing must be requested and requirements related to public notice of the hearing, procedures, recordkeeping and related matters.
(10)(a) Any applicant denied a certificate of need or whose certificate of need has been suspended or revoked has the right to an adjudicative proceeding. The proceeding is governed by chapter 34.05 RCW, the Administrative Procedure Act.

(b) Any health care facility or health maintenance organization that: (i) Provides services similar to the services provided by the applicant and under review pursuant to this subsection; (ii) is located within the applicant's health service area; and (iii) testified or submitted evidence at a public hearing held pursuant to subsection (9) of this section, shall be provided an opportunity to present oral or written testimony and argument in a proceeding under this subsection: PROVIDED, That the health care facility or health maintenance organization had, in writing, requested to be informed of the department's decisions.

(c) If the department desires to settle with the applicant prior to the conclusion of the adjudicative proceeding, the department shall so inform the health care facility or health maintenance organization and afford them an opportunity to comment, in advance, on the proposed settlement.

(11) An amended certificate of need shall be required for the following modifications of an approved project:

(a) A new service requiring review under this chapter;  
(b) An expansion of a service subject to review beyond that originally approved;  
(c) An increase in bed capacity;  
(d) A significant reduction in the scope of a nursing home project without a commensurate reduction in the cost of the nursing home project, or a cost increase (as represented in bids on a nursing home construction project or final cost estimates acceptable to the person to whom the certificate of need was issued) if the total of such increases exceeds twelve percent or fifty thousand dollars, whichever is greater, over the maximum capital expenditure approved. The review of reductions or cost increases shall be restricted to the continued conformance of the nursing home project with the review criteria pertaining to financial feasibility and cost containment.

(12) An application for a certificate of need for a nursing home capital expenditure which is determined by the department to be required to eliminate or prevent imminent safety hazards or correct violations of applicable licensure and accreditation standards shall be approved.

(13)(a) Replacement of existing nursing home beds in the same planning area by an existing licensee who has operated the beds for at least one year shall not require a certificate of need under this chapter. The licensee shall give written notice of its intent to replace the existing nursing home beds to the department and shall provide the department with information as may be required pursuant to rule. Replacement of the beds by a party other than the licensee is subject to certificate of need review under this chapter, except as otherwise permitted by subsection (14) of this section.

(b) When an entire nursing home ceases operation, the licensee or any other party who has secured an interest in the beds may reserve his or her interest in the beds for eight years or until a certificate of need to replace them is issued, whichever occurs first. However, the nursing home, licensee, or any other party who has secured an interest in the beds must give notice of its intent to retain the beds to the department of health no later than thirty days after the effective date of the facility's closure. Certificate of need review shall be required for any party who has reserved the nursing home beds except that the need criteria shall be deemed met when the applicant is the licensee who had operated the beds for at least one year, who has operated the beds for at least one year immediately preceding the reservation of the beds, and who is replacing the beds in the same planning area.

(14) In the event that a licensee, who has provided the department with notice of his or her intent to replace nursing home beds under subsection (13)(a) of this section, engages in unprofessional conduct or becomes unable to practice with reasonable skill and safety by reason of mental or physical condition, pursuant to chapter 18.130 RCW, ((or)) dies, or under state or federal law files for bankruptcy, the building owner shall be permitted to complete the nursing home bed replacement project, provided the building owner has secured an interest in the beds.

NEW SECTION. Sec. 20. RCW 74.46.908 (Repealer) and 1999 c 353 s 17 are each repealed.

NEW SECTION. Sec. 21. If any provision of this act or its application to any person or circumstance is
held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

1) The committee shall consist of eleven members. The department shall appoint six academic scholars
from the fields of economics, taxation, business administration, public administration, public policy, and other
relevant disciplines as determined by the department, after consulting with the majority and minority leaders in the
senate, the co-speakers in the house of representatives, the chair of the ways and means committee in the senate,
and the co-chairs of the finance committee in the house of representatives. The governor and the chairs of the
majority and minority caucuses in each house of the legislature shall each appoint one member to the committee.

be changed to better serve the citizens of the state in the twenty-first century. In reviewing options for changes to
the tax system, the committee shall develop multiple alternatives to the existing tax system. To the extent
possible, the alternatives shall be designed to increase the harmony between the tax system of this state and the
surrounding states, encourage commerce and business creation, and encourage home ownership. In developing
alternatives, the committee shall examine and consider the effects of tax incentives, including exemptions,
deferrals, and credits. The alternatives shall range from incremental improvements in the current tax structure to
complete replacement of the tax structure. In conducting the study, the committee shall examine the tax
structures of other states and review previous studies regarding tax reform in this state. In developing
alternatives, the committee shall be guided by administrative simplicity, economic neutrality, fairness, stability,
and transparency. Most of the alternatives presented by the committee to the legislature shall be revenue neutral
and contain no income tax.

3) The department shall create an advisory group to include, but not be limited to, representatives of
business, state agencies, local governments, labor, taxpayers, and other advocacy groups. The group shall
provide advice and assistance to the committee.

HUMAN SERVICES

NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.
(1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose, except as expressly provided in subsection (3) of this section.

(2) The department of social and health services shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.
(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(2) $685,000 of the general fund--state fiscal year 2002 appropriation and $701,000 of the general fund--state fiscal year 2003 appropriation are provided to contract for the operation of one pediatric interim care facility. The facility shall provide residential care for up to thirteen children through two years of age. Seventy-five percent of the children served by the facility must be in need of special care as a result of substance abuse by their mothers. The facility shall also provide on-site training to biological, adoptive, or foster parents. The facility shall provide at least three months of consultation and support to parents accepting placement of children from the facility. The facility may recruit new and current foster and adoptive parents for infants served by the facility. The department shall not require case management as a condition of the contract.

(3) $524,000 of the general fund--state fiscal year 2002 appropriation and $536,000 of the general fund--state fiscal year 2003 appropriation are provided for up to three nonfacility-based programs for the training, consultation, support, and recruitment of biological, foster, and adoptive parents of children through age three in need of special care as a result of substance abuse by their mothers, except that each program may serve up to three medically fragile nonsubstance-abuse-affected children. In selecting nonfacility-based programs, preference shall be given to programs whose federal or private funding sources have expired or that have successfully performed under the existing pediatric interim care program.

(4) $1,260,000 of the fiscal year 2002 general fund--state appropriation, $1,248,000 of the fiscal year 2003 general fund--state appropriation, and $4,196,000 of the violence reduction and drug enforcement account appropriation are provided solely for the family policy council and community public health and safety networks. Funding levels shall be reduced 25 percent for both the family policy council and network grants. Reductions to network grants shall be allocated so as to maintain current funding levels, to the greatest extent possible, for projects with the strongest evidence of positive outcomes and for networks with substantial compliance with contracts for network grants.

(5) $2,215,000 of the fiscal year 2002 general fund--state appropriation, $4,394,000 of the fiscal year 2003 general fund--state appropriation, and $5,604,000 of the general fund--federal appropriation are provided solely for reducing the average caseload level per case-carrying social worker. Average caseload reductions are intended to increase the amount of time social workers spend in direct contact with the children, families, and foster parents involved with their open cases. The department shall use some of the funds provided in several local offices to increase staff that support case-carrying social workers in ways that will allow social workers to
increase direct contact time with children, families, and foster parents. To achieve the goal of reaching an average caseload ratio of 1:24 by the end of fiscal year 2003, the department shall develop a plan for redeploying 30 FTEs to case-carrying social worker and support positions from other areas in the children and family services budget. The FTE redeployment plan shall be submitted to the fiscal committees of the legislature by December 1, 2001.

These funds shall be used for extraordinary costs incurred by relatives at the time of placement, or for extraordinary costs incurred by relatives after placement if such costs would likely cause a disruption in the kinship care placement. $50,000 of the funds provided shall be contracted to the Washington institute for public policy to conduct a study of kinship care placements. The study shall examine the prevalence and needs of families who are raising related children and shall compare services and policies of Washington state with other states that have a higher rate of kinship care placements in lieu of foster care placements. The study shall identify possible changes in services and policies that are likely to increase appropriate kinship care placements.

(8) $3,386,000 of the fiscal year 2002 general fund--state appropriation, $7,671,000 of the fiscal year 2003 general fund--state appropriation, and $20,819,000 of the general fund--federal appropriation are provided solely for increases in the cost per case for foster care and adoption support. $16,000,000 of the general fund--federal amount shall remain unallotted until the office of financial management approves a plan submitted by the department to achieve a higher rate of federal earnings in the foster care program. That plan shall also be submitted to the fiscal committees of the legislature and shall indicate projected federal revenue compared to actual fiscal year 2001 levels. Within the amounts provided for foster care, the department shall increase the basic rate for foster care to an average of $420 per month on July 1, 2001, and to an average of $440 per month on July 1, 2002. The department shall use the remaining funds provided in this subsection to pay for increases in the cost per case for foster care and adoption support. The department shall seek to control rate increases and reimbursement decisions for foster care and adoption support cases such that the cost per case for family foster care, group care, receiving homes, and adoption support does not exceed the amount assumed in the projected caseload expenditures plus the amounts provided in this subsection.

(9) $1,767,000 of the general fund--state appropriation for fiscal year 2002, $2,461,000 of the general fund--state appropriation for fiscal year 2003, and $1,485,000 of the general fund--federal appropriation are provided solely for rate and capacity increases for child placing agencies. (1) COMMUNITY SERVICES/REGIONAL SUPPORT NETWORKS

General Fund--State Appropriation (FY 2002)...$191,089,000
General Fund--State Appropriation (FY 2003)...$194,884,000
General Fund--Federal Appropriation...$339,077,000
General Fund--Local Appropriation...$4,363,000
Health Services Account--State Appropriation...$2,450,000

.................................................................TOTAL APPROPRIATION $731,893,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Regional support networks shall use portions of the general fund--state appropriation for implementation of working agreements with the vocational rehabilitation program which will maximize the use of federal funding for vocational programs.

(b) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and adult services program for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(c) $388,000 of the general fund--state appropriation for fiscal year 2002, $1,927,000 of the general fund--state appropriation for fiscal year 2003, and $2,349,000 of the general fund--federal appropriation are provided solely for development and operation of community residential and support services for persons whose treatment needs constitute substantial barriers to community placement and who no longer require active psychiatric treatment at an inpatient hospital level of care, no longer meet the criteria for inpatient involuntary commitment, and who are clinically ready for discharge from a state psychiatric hospital. In the event that enough patients are not transitioned or diverted from the state hospitals to close at least two hospital wards by July 2002, and two additional wards by April 2003, a proportional share of these funds shall be transferred to the appropriations in subsection (2) of this section to support continued care of the patients in the state hospitals.

Primary responsibility and accountability for provision of appropriate community support for persons placed with these funds shall reside with the mental health program and the regional support networks, with partnership and active support from the alcohol and substance abuse and from the aging and adult services programs. The department shall negotiate performance-based incentive contracts with those regional support networks which have the most viable plans for providing appropriate community support services for significant numbers of persons from their area who would otherwise be served in the state hospitals. The funds appropriated in this subsection shall not be considered "available resources" as defined in RCW 71.24.025 and are not subject to the standard allocation formula applied in accordance with RCW 71.24.035(13)(a).

(d) At least $1,000,000 of the federal block grant funding appropriated in this subsection shall be used for (i) initial development, training, and operation of the community support teams which will work with long-term state hospital residents prior and subsequent to their return to the community; and (ii) development of support strategies which will reduce the unnecessary and excessive use of state and local hospitals for short-term crisis stabilization services. Such strategies may include training and technical assistance to community long-term care and substance abuse providers; the development of diversion beds and stabilization support teams; examination of state hospital policies regarding admissions; and the development of new contractual standards to assure that the statutory requirement that 85 percent of short-term detentions be managed locally is being fulfilled. The department shall report to the fiscal and policy committees of the legislature on the results of these efforts by November 1, 2001, and again by November 1, 2002.
(e) The department is authorized to implement a new formula for allocating available resources among the regional support networks. The distribution formula shall use the number of persons eligible for the state medical programs funded under chapter 74.09 RCW as the measure of the requirement for the number of acutely mentally ill, chronically mentally ill, severely emotionally disturbed children, and seriously disturbed in accordance with RCW 71.24.035(13)(a). The new formula shall be phased in over a period of no less than six years. Furthermore, the department shall increase the medicaid capitation rates which a regional support network would otherwise receive under the formula by an amount sufficient to assure that total funding allocated to the regional support network in fiscal year 2002 increases by up to 2.1 percent over the amount actually paid to that regional support network in fiscal year 2001, and by up to an additional 2.3 percent in fiscal year 2003, if total funding to the regional support network would otherwise increase by less than those percentages under the new formula, and provided that the nonfederal share of the higher medicaid payment rate is provided by the regional support network from local funds.

(f) Within funds appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services are to be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the department with (i) periodic reports on project service levels, methods, and outcomes; and (ii) an intergovernmental transfer equal to the state share of the increased medicaid payment provided for operation of this project.

(g) The health services account appropriation is provided solely for implementation of strategies which the department and the affected regional support networks conclude will best assure continued availability of community-based inpatient psychiatric services in all areas of the state. Such strategies may include, but are not limited to, emergency contracts for continued operation of inpatient facilities otherwise at risk of closure because of demonstrated uncompensated care; start-up grants for development of evaluation and treatment facilities; and increases in the rate paid for inpatient psychiatric services for medically indigent and/or general assistance for the unemployed patients. The funds provided in this subsection must be: (i) Prioritized for use in those areas of the state which are at greatest risk of lacking sufficient inpatient psychiatric treatment capacity, rather than being distributed on a formula basis; (ii) prioritized for use by those hospitals which do not receive low-income disproportionate share hospital payments as of the date of application for funding; and (iii) matched on a one-quarter local, three-quarters state basis by funding from the regional support network or networks in the area in which the funds are expended. Payments from the amount provided in this subsection shall not be made to any provider that has not agreed that, except for prospective rate increases, the payment shall offset, on a dollar-for-dollar basis, any liability that may be established against, or any settlement that may be agreed to by the state, regarding the rate of state reimbursement for inpatient psychiatric care. The funds provided in this subsection shall not be considered "available resources" as defined in RCW 71.24.025 and are not subject to the distribution formula established pursuant to RCW 71.24.035.

(7) Within funds appropriated in this section and in section 204 of this act, the aging and adult services program shall devise and implement strategies in partnership with the mental health program and the regional support networks to reduce the use of state and local psychiatric hospitals for the short-term stabilization of persons with dementia and traumatic brain injuries. Such strategies may include training and technical assistance

The aging and adult services program shall report to the health care and fiscal committees of the legislature by November 1, 2001, and by November 1, 2002, on the actions it has taken to achieve this objective.

(c) The department shall identify the number of medically needy nursing home residents, and enrollment and expenditures on each of the two medically needy waivers, on monthly management reports.

(d) The department shall track and report to health care and fiscal committees of the legislature by November 15, 2002, on the types of long-term care support a sample of waiver participants were receiving prior to their enrollment in the waiver, how those services were being paid for, and an assessment of their adequacy.

Payments to individual home care providers are to be increased from $7.18 per hour to $7.68 per hour on July 1, 2001. Payments to agency providers are to be increased to $13.30 per hour on July 1, 2001, and to $13.44 per hour on July 1, 2002. Valid outcome measures of job retention and wage progression shall be developed and reported quarterly to appropriate fiscal and policy committees of the legislature for families who leave assistance, measured after 12 months, 24 months, and 36 months. An increased attention to job retention and wage progression is necessary to emphasize the legislature's goal that the WorkFirst program succeed in helping recipients gain long-term economic independence and not cycle on and off public assistance. The wage progression measure shall report the median percentage increase in quarterly earnings and hourly wage after 12 months, 24 months, and 36 months. For purposes of documenting a district's staff ratio under this section, funds used by the district to employ additional classified instructional assistants shall be converted to a certificated staff equivalent and added to the district's actual certificated instructional staff ratio. Additional classified instructional assistants, for the purposes of this subsection, shall be determined using the 1989-90 school year as the base year;

(C) Any district maintaining a ratio equal to or greater than 55.4 certificated instructional staff per thousand full-time equivalent students in grades K-4 may use allocations generated under this subsection (2)(a)(iv) and (v) in excess of that required to maintain the minimum ratio established under RCW 28A.150.260(2)(b) to employ additional basic education certificated instructional staff or classified instructional assistants in grades 5-6. Funds allocated under this subsection (2)(a)(iv) and (v) shall only be expended to reduce class size in grades K-6. No more than 1.3 of the certificated instructional funding ratio amount may be expended for provision of classified instructional assistants;

(b) For school districts with a minimum enrollment of 250 full-time equivalent students whose full-time equivalent student enrollment count in a given month exceeds the first of the month full-time equivalent enrollment count by 5 percent, an additional state allocation of 110 percent of the share that such increased enrollment would have generated had such additional full-time equivalent students been included in the normal enrollment count for that particular month;

(c)(i) On the basis of full-time equivalent enrollment in:

(A) Vocational education programs approved by the superintendent of public instruction, a maximum of 0.92 certificated instructional staff units and 0.08 certificated administrative staff units for each 19.5 full-time equivalent vocational students; and

(B) Skills center programs meeting the standards for skills center funding established in January 1999 by the superintendent of public instruction, 0.92 certificated instructional staff units and 0.08 certificated administrative units for each 16.67 full-time equivalent vocational students; and

(ii) Vocational full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported vocational enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support;

(d) For districts enrolling not more than twenty-five average annual full-time equivalent students in grades K-8, and for small school plants within any school district which have been judged to be remote and necessary by the state board of education and enroll not more than twenty-five average annual full-time equivalent students in grades K-8:

(i) For those enrolling no students in grades 7 and 8, 1.76 certificated instructional staff units and 0.24
certificated administrative staff units for enrollment of not more than five students, plus one-twentieth of a
certificated instructional staff unit for each additional student enrolled; and

(ii) For those enrolling students in grades 7 or 8, 1.68 certificated instructional staff units and 0.32
certificated administrative staff units for enrollment of not more than five students, plus one-tenth of a certificated
instructional staff unit for each additional student enrolled;

(e) For specified enrollments in districts enrolling more than twenty-five but not more than one hundred
average annual full-time equivalent students in grades K-8, and for small school plants within any school district
which enroll more than twenty-five average annual full-time equivalent students in grades K-8 and have been
judged to be remote and necessary by the state board of education:

(i) For enrollment of up to sixty annual average full-time equivalent students in grades K-6, 2.76
certificated instructional staff units and 0.24 certificated administrative staff units; and

(ii) For enrollment of up to twenty annual average full-time equivalent students in grades 7 and 8, 0.92
certificated instructional staff units and 0.08 certificated administrative staff units;

(f) For districts operating no more than two high schools with enrollments of less than three hundred
average annual full-time equivalent students, for enrollment in grades 9-12 in each such school, other than
alternative schools:

(i) For remote and necessary schools enrolling students in any grades 9-12 but no more than twenty-five
average annual full-time equivalent students in grades K-12, four and one-half certificated instructional staff units
and one-quarter of a certificated administrative staff unit;

(ii) For all other small high schools under this subsection, nine certificated instructional staff units and
one-half of a certificated administrative staff unit for the first sixty average annual full time equivalent students,
and additional staff units based on a ratio of 0.8732 certificated instructional staff units and 0.1268 certificated
administrative staff units per each additional forty-three and one-half average annual full time equivalent students.

Units calculated under (f)(ii) of this subsection shall be reduced by certificated staff units at the rate of
forty-six certificated instructional staff units and four certificated administrative staff units per thousand
vocational full-time equivalent students.

(g) For each nonhigh school district having an enrollment of more than seventy annual average full-time
students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8
program, an additional one-half of a certificated instructional staff unit; and

(h) For each nonhigh school district having an enrollment of more than fifty annual average full-time
equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6
program, an additional one-half of a certificated instructional staff unit.

(3) Allocations for classified salaries for the 2001-02 and 2002-03 school years shall be calculated using
formula-generated classified staff units determined as follows:

(a) For enrollments generating certificated staff unit allocations under subsection (2)(d) through (h) of this
section, one classified staff unit for each three certificated staff units allocated under such subsections;

(b) For all other enrollment in grades K-12, including vocational full-time equivalent enrollments, one
classified staff unit for each sixty average annual full-time equivalent students;

(c) For each nonhigh school district with an enrollment of more than fifty annual average full-time
equivalent students and less than one hundred eighty students, an additional one-half of a classified staff unit.

(4) Fringe benefit allocations shall be calculated at a rate of 11.27 percent in the 2001-02 school year and
11.27 percent in the 2002-03 school year for certificated salary allocations provided under subsection (2) of this
section, and a rate of 12.92 percent in the 2001-02 school year and 12.92 percent in the 2002-03 school year for
classified salary allocations provided under subsection (3) of this section.

(5) Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504(3) of
this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152.
This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time
equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual
employee counted as more than one full-time equivalent.
(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of $8,519 per certificated staff unit in the 2001-02 school year and a maximum of $8,715 per certificated staff unit in the 2002-03 school year.

(b) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(A) of this section, there shall be provided a maximum of $20,920 per certificated staff unit in the 2001-02 school year and a maximum of $21,401 per certificated staff unit in the 2002-03 school year.

(c) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(B) of this section, there shall be provided a maximum of $16,233 per certificated staff unit in the 2001-02 school year and a maximum of $16,606 per certificated staff unit in the 2002-03 school year.

(7) Allocations for substitute costs for classroom teachers shall be distributed at a maintenance rate of $494.34 for the 2001-02 and 2002-03 school years per allocated classroom teachers exclusive of salary increase amounts provided in section 504 of this act. Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported statewide for the prior school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district’s financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(9) The superintendent may distribute a maximum of $6,510,000 outside the basic education formula during fiscal years 2002 and 2003 as follows:

(a) For fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW, a maximum of $480,000 may be expended in fiscal year 2002 and a maximum of $491,000 may be expended in fiscal year 2003;

(b) For summer vocational programs at skills centers, a maximum of $2,098,000 may be expended each fiscal year;

(c) A maximum of $343,000 may be expended for school district emergencies; and

(d) A maximum of $500,000 per fiscal year may be expended for programs providing skills training for secondary students who are enrolled in extended day school-to-work programs, as approved by the superintendent of public instruction. The funds shall be allocated at a rate not to exceed $500 per full-time equivalent student enrolled in those programs.

(10) For purposes of RCW 84.52.0531, the increase per full-time equivalent student in state basic education appropriations provided under this act, including appropriations for salary and benefits increases, is 2.5 percent from the 2000-01 school year to the 2001-02 school year, and 3.3 percent from the 2000-01 school year to the 2002-03 school year.

(11) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (2)(b) through (h) of this section, the following shall apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (2)(a) through (h) of this section shall be reduced in increments of twenty percent per year.

NEW SECTION.  Sec. 503. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--BASIC EDUCATION EMPLOYEE COMPENSATION.  (1) The following calculations determine the salaries used in the general fund allocations for certificated instructional, certificated administrative,
and classified staff units under section 502 of this act:

(a) Salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional total base salary shown on LEAP Document 12E for the appropriate year by the district's average staff mix factor for basic education and special education certificated instructional staff in that school year, computed using LEAP Document 1S; and

(b) Salary allocations for certificated administrative staff units and classified staff units for each district shall be based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 12E for the appropriate year.

(2) For the purposes of this section:

(a) "Basic education certificated instructional staff" is defined as provided in RCW 28A.150.100 and "special education certificated staff" means staff assigned to the state-supported special education program pursuant to chapter 28A.155 RCW in positions requiring a certificate;

(b) "LEAP Document 1S" means the computerized tabulation establishing staff mix factors for certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on March 25, 1999, at 16:55 hours; and

(c) "LEAP Document 12E" means the computerized tabulation of 2001-02 and 2002-03 school year salary allocations for certificated administrative staff and classified staff and derived and total base salaries for certificated instructional staff as developed by the legislative evaluation and accountability program committee on March 13, 2001, at 16:32 hours.

(3) Incremental fringe benefit factors shall be applied to salary adjustments at a rate of 10.63 percent for school years 2001-02 and 2002-03 for certificated staff and 9.42 percent for school years 2001-02 and 2002-03 for classified staff.

(4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary allocation schedules for certificated instructional staff are established for basic education salary allocations:

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and
(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.
(b) "MA" means a masters degree.
(c) "PHD" means a doctorate degree.
(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or
(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 12E and the salary schedules in subsection (4)(a) of this section include three learning improvement days originally added in the 1999-00 school year. A school district is eligible for the learning improvement day funds for school years 2001-02 and 2002-03, only if three days have been added to the base contract in effect for the 1998-99 school year. If fewer than three days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be for activities related to improving student learning consistent with education reform implementation. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

NEW SECTION. Sec. 504. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL EMPLOYEE COMPENSATION ADJUSTMENTS

General Fund--State Appropriation (FY 2002) ................................................................. $ 124,130,000
General Fund--State Appropriation (FY 2003) ................................................................. $ 274,529,000
.................................................................................................................. TOTAL APPROPRIATION $ 398,659,000

The appropriations in this section are subject to the following conditions and limitations:

(1) $318,024,000 is provided for a cost of living adjustment for state formula staff units of 3.7 percent effective September 1, 2001, and another salary adjustment effective on September 1, 2002, in a percentage amount to be determined by the 2002 legislature consistent with the provisions of chapter 4, Laws of 2001 (Initiative Measure No. 732). The appropriations include associated incremental fringe benefit allocations at rates of 10.63 percent for school years 2001-02 and 2002-03 for certificated staff and 9.42 percent for school years 2001-02 and 2002-03 for classified staff.
(a) The appropriations in this section include the increased portion of salaries and incremental fringe benefits for all relevant state-funded school programs in part V of this act, in accordance with chapter 4, Laws of 2001 (Initiative Measure No. 732). Salary adjustments for state employees in the office of superintendent of public instruction and the education reform program are provided in part VII of this act. Increases for general apportionment (basic education) are based on the salary allocation schedules and methodology in section 502 of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in section 502 of this act.

(b) The appropriations in this section provide cost-of-living and incremental fringe benefit allocations based on formula adjustments as follows:

(2) This act appropriates general fund--state funds for the purpose of providing the annual salary cost-of-living increase required by section 2, chapter 4, Laws of 2001 (Initiative Measure No. 732) for teachers and other school district employees in the state-funded salary base. For employees not included in the state-funded salary base, the annual salary cost-of-living increase may be provided by school districts from the federal funds appropriated in this act and local revenues, including the adjusted levy base as provided in RCW 84.52.053 and section 502 of this act, and state discretionary funds provided under this act.

The appropriations in this section are subject to the following conditions and limitations:

1. Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

2. Effective with the 2001-02 school year, the superintendent of public instruction shall change the S-275 personnel reporting system and all related accounting requirements to ensure that:
   i. Special education students are basic education students first;
   ii. As a class, special education students are entitled to the full basic education allocation; and
   iii. Special education students are basic education students for the entire school day.

3. Effective with the 2001-02 school year, the S-275 and accounting changes shall supercede any prior excess cost methodologies and shall be required of all school districts.

4. Each general fund--state fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

4. The superintendent of public instruction shall distribute state funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.

5. For the 2001-02 and 2002-03 school years, the superintendent shall distribute state funds to each district based on the sum of:
(i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment. For the 2001-02 and the 2002-03 school years, each district's funded enrollment percent shall be the lesser of the district's actual enrollment percent for the school year for which the allocation is being determined or 12.7 percent for the 2001-02 school year or 13.0 percent for the 2002-03 school year.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be 12.7 percent for the 2001-02 school year and 13.0 percent for the 2002-03 school year, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) A maximum of $12,000,000 of the general fund--state appropriation for fiscal year 2002 and a maximum of $10,623,000 of the general fund--state appropriation for fiscal year 2003 are provided as safety net funding for districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (5) of this section. Safety net funding shall be awarded by the state safety net oversight committee.

(a) The safety net oversight committee shall first consider the needs of districts adversely affected by the 1995 change in the special education funding formula. Awards shall be based on the lesser of the amount required to maintain the 1994-95 state special education excess cost allocation to the school district in aggregate or on a dollar per funded student basis.

(b) The committee shall then consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal and local sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) The superintendent may expend up to $120,000 per year of the amounts provided in this subsection to provide staff assistance to the committee in analyzing applications for safety net funds received by the committee.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist
of:

(a) One staff from the office of superintendent of public instruction;
(b) Staff of the office of the state auditor;
(c) Staff of the office of the financial management; and
(d) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) To the extent necessary, $5,500,000 of the general fund--federal appropriation shall be expended for safety net funding to meet the extraordinary needs of one or more individual special education students. If safety net awards to meet the extraordinary needs exceed $5,500,000 of the general fund--federal appropriation, the superintendent shall expend all available federal discretionary funds necessary to meet this need. General fund--state funds shall not be expended for this purpose.

(12) A maximum of $678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) $1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(14) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(15) A maximum of $1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services. The superintendent shall prepare an information database on laws, best practices, examples of programs, and recommended resources. The information may be disseminated in a variety of ways, including workshops and other staff development activities.

(16) A school district may carry over from one year to the next year up to 10 percent of general fund--state funds allocated under this program; however, carry over funds shall be expended in the special education program.

Pursuant to RCW 43.88.037, moneys disbursed from the treasury on the basis of a formal loan agreement shall be recorded as loans receivable and not as expenditures for accounting purposes. To the extent that moneys are disbursed on a loan basis, the corresponding appropriation shall be reduced by the amount of loan moneys disbursed from the treasury during the 1999-01 biennium.

**NEW SECTION.** Sec. 902. INFORMATION SYSTEMS PROJECTS. Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

1. Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

2. Agencies shall use their information technology portfolios in making decisions on matters related to the following:
   a. System refurbishment, acquisitions, and development efforts;
   b. Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
   c. Assessment of overall information processing performance, resources, and capabilities;
(d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
(e) Progress toward enabling electronic access to public information.

(3) Each project will be planned and designed to take optimal advantage of Internet technologies and protocols. Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of digital government as maintained by the information services board.

(4) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and statewide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(5) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(6) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(7) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

POINT OF ORDER

Representative Gombosky requested a scope and object ruling on amendment (326) to the striking amendment (262) to Engrossed Substitute Senate Bill No. 6153.

SPEAKERS' RULING

Speaker Chopp: "As noted in the ruling on amendment #326, the bill before us is the operating budget. The scope and object of a budget bill does not extend to permanent changes in "substantive law." One of the factors to be considered in determining whether a provision is substantive law is whether it modifies statutory rights or obligations.

Amendment #326 attempts to require a new public vote on the regional transit authority's system and financing plan, in addition to the vote already held in compliance with the governing statutes. It, therefore, is beyond the scope and object of the budget bill.

Representative Gombosky, the point of order is well taken. Speaker Ballard concurs in this ruling."

Representative Linville moved the adoption of the following amendment (288) to the striking amendment (262):

On page 210, after line 33 insert the following:

The center may be funded through grants and voluntary cash and in-kind contributions."

Renumber sections accordingly.
POINT OF ORDER

Representative Benson requested a scope and object ruling on amendment (288) to the striking amendment (262) to Engrossed Substitute Senate Bill No. 6153.

SPEAKERS' RULING

Speaker Chopp: "As has been noted earlier, the underlying bill is the operating budget for the next biennium. Amendment 288 seeks to authorize the establishment of an independent, nonprofit organization to serve as a clearinghouse for all climate change activities in the state.

Since any person or entity in the state could create such an entity at any time without the authorization of the state, it is not clear exactly what the amendment would actually add to the law if it were to pass, but most importantly, since no state funds are appropriated to this new entity, should such an entity be formed, it appears that the amendment is beyond the scope and object of the bill.

Representative Benson, your point of order is well taken. Speaker Ballard concurs in this ruling."

There being no objection, the House deferred action on amendment (351) to the striking amendment (262) to Engrossed Substitute Senate Bill No. 6153.

(5) Grant franchises and easements for any legitimate purpose on parks or parkways, for such terms and subject to such conditions and considerations as the commission shall specify;

POINT OF INQUIRY

Representative Buck requested a ruling on "private interest" in regard to amendment (321) to the striking amendment (262) to Engrossed Substitute Senate Bill No. 6153.

SPEAKERS' RULING

Speaker Chopp: "Representative Buck has asked the Speakers if he must refrain from voting on this amendment because his spouse might benefit from its adoption.

The Washington State Constitution, article 2, section 30, provides that, "A member who has a private interest in any bill or measure proposed or pending before the legislature, shall disclose the fact to the house of which he or she is a member, and shall not vote thereon.

House Rule 19(d) provides that, "No member shall vote on any question which affects that member privately and particularly. A member who has a private interest in any bill or measure proposed or pending before the legislature shall disclose the fact to the house of which he is a member, and shall not vote thereon.

Therefore, a legislator shall not vote on legislation where he or she has a private or personal interest which is in conflict with the proper discharge of his or her duties.

The "personal interest" prohibited exists when a legislator has a personal interest which is in conflict with the proper discharge of his or her duties if he or she has reason to believe or suspect that he or she will derive a direct monetary gain or suffer a direct monetary loss by reason of his or her official activity.

NEW SECTION. Sec. 415. FOR THE DEPARTMENT OF NATURAL RESOURCES
Trust Land Transfer Program (02-2-010)

The state building construction account appropriation in this section is subject to the following conditions and limitations:

(1) The total appropriation is provided to the department solely to transfer from trust status or enter into thirty-year timber harvest restrictive easements for certain trust lands of state-wide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, or recreation purposes.

(2) Property transferred under this section shall be appraised and transferred at fair market value. The value of the timber transferred shall be deposited by the department to the common school construction account in the same manner as timber revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040. The value of the land transferred shall be deposited in the natural resources real property replacement account. These funds shall be expended by the department for the exclusive purpose of acquiring real property of equal value to be managed as common school trust land.

(3) Property subject to easement agreements under this section shall be appraised at fair market value both with and without the imposition of the easement. The entire difference in appraised value shall be deposited by the department to the common school construction fund in the same manner as lease revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040.

(4) All reasonable costs incurred by the department to implement this section are authorized to be paid out of this appropriation. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs.

(5) Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section for a minimum period of thirty years. The department of natural resources, in consultation with the receiving state agencies, shall develop policy to address requests to...
replace transferred properties subject to the recorded property instrument that are no longer deemed appropriate for the purposes identified in subsection (1) of this section.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) The department may execute trust land transfers and easements such that 80 percent of the appropriation in this section is deposited in the common school construction fund. To achieve the 80:20 ratio, the department may offset transfers of property with low timber-to-land ratios with easements on other properties.

(9) On June 30, 2003, the state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction fund and the appropriation in this section shall be reduced by an equivalent amount.

(10) The appropriation in this section is provided for a list of projects in LEAP capital document No. 2001-42, as developed on June 7, 2001.

NEW SECTION.  Sec. 914. Any capital improvements or capital projects involving construction or major expansion of a state office facility, including, but not limited to, district headquarters, detachment offices, and off-campus faculty offices, shall be reviewed by the department of general administration for possible consolidation, collocation, and compliance with state office standards before allotment of funds. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

NEW SECTION.  Sec. 915. The governor, through the office of financial management, may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes which govern the grants.

For purposes of this section, the governor may find that an amount is in excess of the amount required for the completion of a project only if: (1) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (2) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

A report of any transfer effected under this section, except emergency projects or any transfer under $250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION.  Sec. 916. NONTAXABLE AND TAXABLE BOND PROCEEDS. Portions of the appropriation authority granted by this act from the state building construction account may be transferred to the state taxable building construction account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. The state treasurer shall submit written notification to the director of financial management if it is determined that a
shift of appropriation authority from the state building construction account to the state taxable building construction account is necessary.

NEW SECTION.  Sec. 917.  The joint legislative audit and review committee shall study the following topics and shall submit a preliminary report to the appropriate legislative committees by December 1, 2001, and a final report, including recommendations by September 15, 2002:

(1) FTEs funded by the capital budget.  There appears to be over four hundred fifty FTEs funded in the capital budget, many of these not directly related to specific capital projects, and many funded with state general obligation bonds.  The committee, with assistance from the office of financial management, shall:  (a) Estimate the number of FTEs funded in the capital budget by agency, including those who are partially funded by the capital budget, whether they are paid for through bonds or other sources, what their function is related to capital projects, and whether they work directly or indirectly on capital projects; and (b) estimate the extent to which overhead and administrative costs are paid for through the capital budget, and the extent to which other indirect costs such as rent are funded through the capital budget.  The committee shall make recommendations regarding how these FTEs and indirect costs can be better accounted for in the budgeting process, and regarding the policy implications of funding personnel and indirect costs in the capital budget; and

(2) Deferred renewal in higher education institutions.  According to higher education institutions, deferred renewal of their facilities, such as capital maintenance and minor works preservation projects needed but not done, runs in the hundreds of millions of dollars statewide.  The committee shall:  (a) Study the reasons for this extensive deferred renewal of facilities; (b) estimate, with the assistance of the office of financial management and the higher education coordinating board, the deferred renewal for each four year institution and for the community and technical college system, and to what extent this deferred renewal poses a health and safety threat to persons using the campus; (c) review how other states approach higher education facility capital maintenance; (d) make recommendations regarding how this deferred renewal problem could be addressed; and (e) develop options to better coordinate facility maintenance with the operating budget and other options to increase the useful life of these facilities.

NEW SECTION.  Sec. 918.  The office of financial management, in consultation with the department of general administration, shall identify capital projects that may benefit from an energy analysis to determine whether there are alternate, more economical, and energy efficient means of completing the work.  The office of financial management shall hold appropriations in allotment reserve on the following types of capital projects until this analysis can be completed:  Heating, ventilation, and air conditioning modifications, chiller plants, steam plants, boilers, chilled water or steam lines, building control systems, lighting improvements, or other major energy using systems that may warrant additional analysis.  Agencies receiving appropriations for such projects are encouraged to utilize energy performance contracts or alternative financing for equipment in lieu of state appropriated funds.  The office of financial management may transfer funds remaining in allotment reserve to infrastructure savings projects within the agency that has realized savings from energy efficiency alternatives.

NEW SECTION.  Sec. 919.  State contracts for the legislative building renovation, Nisqually earthquake repair, and future earthquake mitigation shall conform to all rules, regulations, and requirements of the federal emergency management agency.

NEW SECTION.  Sec. 920. FOR THE STATE TREASURER--TRANSFER

Public Works Assistance Account:  For transfer to the parks renewal/stewardship account on or before December 31, 2001, for the purpose of providing funds for the coastal facility relocation project in section 324 of this act... $ 5,700,000

NEW SECTION.  Sec. 921.  If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.
NEW SECTION. Sec. 922. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

HOUSE BILL NO. 2230, By Representatives Cody, Pflug, Linville, G. Chandler, Quall and Morris

Revising state health and employment support benefits for incapacitated or disabled individuals.

The bill was read the second time.

Representative Cody moved the adoption of the following amendment (282):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that individuals with disabilities face many barriers and disincentives to employment. Individuals with disabilities are often unable to obtain health insurance that provides the services and supports necessary to allow them to live independently and enter or rejoin the work force. The legislature finds that there is a compelling public interest in eliminating barriers to work by continuing needed health care coverage for individuals with disabilities who enter and maintain employment.

The legislature intends to strengthen the state's policy of supporting individuals with disabilities in leading fully productive lives by supporting the implementation of the federal ticket to work and work incentives improvement act of 1999, Public Law 106-170. This shall include improving incentives to work by continuing coverage for health care and support services by seeking federal funding for innovative programs, and by exploring options which provide individuals with disabilities a choice in receiving services needed to obtain and maintain employment.

NEW SECTION. Sec. 2. A new section is added to chapter 74.09 RCW to read as follows:

(1) It is the intent of the legislature to remove barriers to employment for individuals with disabilities by providing medical assistance to the working disabled through a buy-in program in accordance with section 1902(a)(10)(A)(ii) of the social security act and eligibility and cost-sharing requirements established by the department."
(2) The department shall establish income, resource, and cost-sharing requirements for the buy-in program in accordance with federal law and any conditions or limitations specified in the omnibus appropriations act. The department shall establish and modify eligibility and cost-sharing requirements in order to administer the program within available funds. The department shall make every effort to coordinate benefits with employer-sponsored coverage available to the working disabled receiving benefits under this chapter.

Sec. 3. RCW 74.09.510 and 1997 c 58 s 201 and 1997 c 59 s 14 are each reenacted and amended to read as follows:

Medical assistance may be provided in accordance with eligibility requirements established by the department, as defined in the social security Title XIX state plan for mandatory categorically needy persons and:
(1) Individuals who would be eligible for cash assistance except for their institutional status; (2) individuals who are under twenty-one years of age, who would be eligible for temporary assistance for needy families, but do not qualify as dependent children and who are in (a) foster care, (b) subsidized adoption, (c) a nursing facility or an intermediate care facility for the mentally retarded, or (d) inpatient psychiatric facilities; (3) the aged, blind, and disabled who: (a) Receive only a state supplement, or (b) would not be eligible for cash assistance if they were not institutionalized; (4) categorically eligible individuals who meet the income and resource requirements of the cash assistance programs; (5) individuals who are enrolled in managed health care systems, who have otherwise lost eligibility for medical assistance, but who have not completed a current six-month enrollment in a managed health care system, and who are eligible for federal financial participation under Title XIX of the social security act; (6) children and pregnant women allowed by federal statute for whom funding is appropriated; (7) working individuals with disabilities authorized under section 1902(a)(10)(A)(ii) of the social security act for whom funding is appropriated; (8) other individuals eligible for medical services under RCW 74.09.035 and 74.09.700 for whom federal financial participation is available under Title XIX of the social security act; and ((8)) (9) persons allowed by section 1931 of the social security act for whom funding is appropriated.

NEW SECTION. Sec. 4. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2001, in the omnibus appropriations act, this act is null and void."

Sec. 4. RCW 89.08.400 and 1992 c 70 s 1 are each amended to read as follows:

For those districts that have chosen to conduct elections of supervisors pursuant to this chapter:

(1) Special assessments are authorized to be imposed for conservation districts as provided in this section. Activities and programs to conserve natural resources, including soil and water, are declared to be of special benefit to lands and may be used as the basis upon which special assessments are imposed.

(2)(a) Special assessments to finance the activities of a conservation district may be imposed by the county legislative authority of the county in which the conservation district is located for a period or periods each not to exceed ten years in duration.

The supervisors of a conservation district shall hold a public hearing on a proposed system of assessments prior to the first day of August in the year prior to which it is proposed that the initial special assessments be collected. At that public hearing, the supervisors shall gather information and shall alter the proposed system of assessments when appropriate, including the number of years during which it is proposed that the special assessments be imposed.

(b) On or before the first day of August in that year, the supervisors of a conservation district shall file the proposed system of assessments, indicating the years during which it is proposed that the special assessments shall be imposed, and a proposed budget for the succeeding year with the county legislative authority of the county within which the conservation district is located. The county legislative authority shall hold a public hearing on the proposed system of assessments. After the hearing, the county legislative authority may accept, or modify and accept, the proposed system of assessments, including the number of years during which the special assessments shall be imposed, if it finds that both the public interest will be served by the imposition of the special assessments and that the special assessments to be imposed on any land will not exceed the special benefit that the land receives or will receive from the activities of the conservation district. The findings of the county legislative authority shall be final and conclusive.

(c) Special assessments may be altered during this period on individual parcels in accordance with the system of assessments if land is divided or land uses or other factors change.

(d) Notice of the public hearings held by the supervisors and the county legislative authority shall be posted conspicuously in at least five places throughout the conservation district, and published once a week for two consecutive weeks in a newspaper in general circulation throughout the conservation district, with the date of the last publication at least five days prior to the public hearing.

(3) A system of assessments shall classify lands in the conservation district into suitable classifications
EIGHTEENTH DAY, JUNE 21, 2001

according to benefits conferred or to be conferred by the activities of the conservation district, determine an annual per acre rate of assessment for each classification of land, and indicate the total amount of special assessments proposed to be obtained from each classification of lands. Lands deemed not to receive benefit from the activities of the conservation district shall be placed into a separate classification and shall not be subject to the special assessments. An annual assessment rate shall be stated as either uniform annual per acre amount, or an annual flat rate per parcel plus a uniform annual rate per acre amount, for each classification of land. The maximum annual per acre special assessment rate shall not exceed ten cents per acre. The maximum annual per parcel rate shall not exceed five dollars.

Public land, including lands owned or held by the state, shall be subject to special assessments to the same extent as privately owned lands. The procedures provided in chapter 79.44 RCW shall be followed if lands owned or held by the state are subject to the special assessments of a conservation district.

Forest lands used solely for the planting, growing, or harvesting of trees may be subject to special assessments if such lands benefit from the activities of the conservation district, but the per acre rate of special assessment on benefited forest lands shall not exceed one-tenth of the weighted average per acre assessment on all other lands within the conservation district that are subject to its special assessments. The calculation of the weighted average per acre special assessment shall be a ratio calculated as follows: (a) The numerator shall be the total amount of money estimated to be derived from the imposition of per acre special assessments on the nonforest lands in the conservation district; and (b) the denominator shall be the total number of nonforest land acres in the conservation district that receive benefit from the activities of the conservation district and which are subject to the special assessments of the conservation district. No more than ten thousand acres of such forest lands that is both owned by the same person or entity and is located in the same conservation district may be subject to the special assessments that are imposed for that conservation district in any year. Per parcel charges shall not be imposed on forest land parcels. However, in lieu of a per parcel charge, a charge of up to three dollars per forest landowner may be imposed on each owner of forest lands whose forest lands are subject to a per acre rate of assessment.

(4) A conservation district shall prepare an assessment roll that implements the system of assessments approved by the county legislative authority. The special assessments from the assessment roll shall be spread by the county assessor as a separate item on the tax rolls and shall be collected and accounted for with property taxes by the county treasurer. The amount of a special assessment shall constitute a lien against the land that shall be subject to the same conditions as a tax lien, collected by the treasurer in the same manner as delinquent real property taxes, and subject to the same interest rate and penalty as for delinquent property taxes. The county treasurer shall deduct an amount, as established by the county legislative authority, from the collected special assessments((...as established by the county legislative authority,...)) to cover the costs incurred by the county assessor and county treasurer in spreading and collecting the special assessments, but not to exceed the actual costs of such work.

(5) The special assessments for a conservation district shall not be spread on the tax rolls and shall not be collected with property tax collections in the following year if, after the system of assessments has been approved by the county legislative authority but prior to the fifteenth day of December in that year, a petition has been filed with the county legislative authority objecting to the imposition of such special assessments, which petition has been signed by at least twenty percent of the owners of land that would be subject to the special assessments to be imposed for a conservation district.

NEW SECTION. Sec. 5. A new section is added to chapter 89.08 RCW to read as follows:

For those districts that have chosen to conduct elections of supervisors pursuant to Title 29 RCW:

(1) Special assessments are authorized to be imposed for conservation districts as provided in this section. (b) After the public hearing, if the board of supervisors finds that both the public interest will be served by the imposition of the special assessments and that the special assessments to be imposed on any land will not exceed the special benefit that the land receives or will receive from the activities of the conservation district, the board of supervisors shall impose the assessments.

(c) Special assessments may be altered during this period on individual parcels in accordance with the system of assessments if land is divided or land uses or other factors change.

(d) Notice of the public hearings held by the supervisors shall be posted conspicuously in at least five places throughout the conservation district, and published once a week for two consecutive weeks in a newspaper in general circulation throughout the conservation district, with the date of the last publication at least five days prior to the public hearing.

(3) A system of assessments shall classify lands in the conservation district into suitable classifications according to benefits conferred or to be conferred by the activities of the conservation district, determine an annual per acre rate of assessment for each classification of land, and indicate the total amount of special assessments proposed to be obtained from each classification of lands. No more than ten thousand acres of such forest lands that is both owned by the same person or entity and is located in the same conservation district may be subject to the special assessments that are imposed for that conservation district in any year. PROVISIONS NECESSARY TO IMPLEMENT APPROPRIATIONS
Sec. 601. RCW 47.04.210 and 1997 c 94 s 1 are each amended to read as follows:
Federal funds that are administered by the department of transportation and are passed through to municipal corporations or political subdivisions of the state and moneys that are received as total reimbursement for goods, services, or projects constructed by the department of transportation are removed from the transportation budget. To process and account for these expenditures a new treasury trust account is created to be used for all department of transportation one hundred percent federal and local reimbursable transportation expenditures. This new account is nonbudgeted and nonappropriated. At the same time, federal and private local appropriations and full-time equivalents in subprograms R2, R3, T6, Y6, and Z2 processed through this new account are removed from the department of transportation's 1997-99 budget.
The department of transportation may make expenditures from the account before receiving federal and local reimbursements. However, at the end of each biennium, the account must maintain a zero or positive cash balance. In the twenty-fourth month of each biennium the department of transportation shall calculate and transfer sufficient cash from either the motor vehicle fund or the multimodal transportation account to cover any negative cash balances. The amount transferred is calculated based on expenditures from each fund. In addition, any interest charges accruing to the new account must be distributed to the motor vehicle fund and the multimodal transportation account.

The department of transportation shall provide an annual report to the legislative transportation committee and the office of financial management on expenditures and full-time equivalents processed through the new account. The report must also include recommendations for process changes, if needed.

(5) Only the secretary of transportation or the secretary's designee may authorize expenditures from the account.
(6) It is the intent of the legislature that this account maintain a zero or positive cash balance at the end of each biennium. Before the end of the biennium, the department shall transfer sufficient cash to cover any negative cash balances from the motor vehicle fund and the multimodal transportation account to the miscellaneous transportation programs account for unrecovered reimbursements. The department shall calculate the distribution of this transfer based on expenditures. In the ensuing biennium the department shall transfer the reimbursements received in the miscellaneous transportation programs account back to the motor vehicle fund and the multimodal transportation account to the extent of the cash transferred at biennium end. The department shall also distribute any interest charges accruing to the miscellaneous transportation programs account to the motor vehicle fund and the multimodal transportation account. Adjustments for any indirect cost recoveries may also be made at this time.

House Resolution No. 4670 was adopted.

WHEREAS, The members of the Washington State House of Representatives in great measure rely and depend on the unflagging spirit and the elite commitment of dedicated, professional staff in the Office of Program Research; and

WHEREAS, Just as surely, the Office of Program Research — hereinafter called OPR — in turn relies and
depends on the untiring, inexhaustible men and women who make their life's career the betterment of their state's life; and

WHEREAS, After more than twenty-seven years of untiring committee-staff service, one such inexhaustible gentleman, Steve Lundin, has chosen the year 2001 to amend his final amendment, to revise his final Revised Code of Washington — and, yes, to upbraid his final computer-system upgrade; and

WHEREAS, The calm, estimable, and meritorious deportment of Steve Lundin repeals every bad-attorney joke in the book; and

WHEREAS, This gentleman — our counsel, confidant, and colleague — has most recently invested his substantial expertise and considerable patience in working, among other legislative matters, the primary-election-reform issue with and for the members of the Washington State House Select Committee on Elections; and

WHEREAS, As an intern from the University of Washington School of Law, Mr. Lundin came to the House of Representatives in 1973, assigned to the old Legislative Council; and

WHEREAS, The Office of Program Research, established that very year, made Mr. Lundin one of its first-then and still-tops-now staff members, looking, as legend tells it, to an historic coin-flip to assign the young counsel to the House Local Government Committee; and

WHEREAS, His omnibus, encyclopedic knowledge of local government law and policy has made Steve Lundin one of the premiere, indeed archetypical authorities on issues as diverse as bond financing, special purpose districts, land use, public works contracting, and state constitutional law; and

WHEREAS, Steve Lundin has been a source not only of knowledge and wisdom, but also of great merriment and entertainment as well — his impromptu expository enthusiasms are legendary; and

WHEREAS, Steve Lundin is above all a gentle and kind-hearted friend — universally and deservedly loved by his colleagues;

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives of the State of Washington, salute the expansive career of Steve Lundin; and

BE IT FURTHER RESOLVED, That copies of this resolution be immediately transmitted by the Chief Clerks of the House of Representatives to the family of Steve Lundin.

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute House Bill No. 1019 entitled:

"AN ACT Relating to the fish and wildlife commission;"

The Fish and Wildlife Commission has nine members, three from the east side of the summit of the Cascade mountains, three from the west side of the summit, and three at-large. Substitute House Bill No. 1019 would have required that six of the nine commissioners be appointed to represent each of the six administrative regions of the Department of Fish and Wildlife. The three at-large positions would have remained unchanged.

RCW 77.04 already requires that the governor appoint, with the advice and consent of the senate, three members from the east side of the state and three members from the west side, with no two members being from the same county. The statute, passed in part by referendum of the people, also provides that Commission members have general knowledge of the habits and distribution of fish and wildlife and shall not hold another government office. The governor is also required to seek to maintain a balance reflecting all aspects of fish and wildlife, including representation by organized groups of sportfishers, commercial fishers, hunters, private landowners and environmentalists. I take this charge very seriously and work hard to provide the Commission with a well-balanced group of highly skilled and experienced people.

As written, Substitute House Bill No. 1019 would limit my ability to find the best possible individuals, who must not only reflect these existing statutory requirements, but who must also be willing to fulfill the rigorous demands that are required -- both in terms of time commitment and in terms of formulating policies that guide the Department on very complex issues. I am also concerned that designating commissioners by agency region may limit the flexibility of the Department to make administrative changes. For example, if the Department were to decide it needed to consolidate its regions, it would be hampered from doing so if six of the commission appointments must come from the agency's regions, as they exist today.

While I have vetoed Substitute House Bill No. 1019 in its entirety for the reasons mentioned above, I would be willing to discuss with legislative leaders other possible appointment configurations to the Fish and Wildlife Commission that achieve the regional balance intended by this legislation.

For these reasons I have vetoed Substitute House Bill No. 1019 in its entirety.

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute House Bill No. 1091 entitled:

"AN ACT Relating to sexual misconduct with a minor;"

Substitute House Bill No. 1091 would have made it a felony for any school employee to engage in sexual conduct with a student between 16 and 18 years old. Such conduct is already a felony if the perpetrator is at least five years older and abuses a supervisory position, such as that of a teacher or coach, by making threats or promises to the victim. The bill was intended to remove the requirement that threats or promises be made.

However, the bill is overly broad. It would allow felony prosecution even if both parties were teenagers, as long as one of them is a school employee. The term "employee" could include a student who is a part-time tutor, food service or maintenance worker. For example, there are high school students who are Washington Reading Corps tutors and are paid by their local school districts. Those students could be subject to prosecution if they have consensual sex with a
To the Honorable Speakers and Members,

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 2 and 5, House Bill No. 1102 entitled:

"AN ACT Relating to foster parents’ rights;"

House Bill No. 1102 states the rights foster parents have to be free from coercion, discrimination, reprisal and retaliation in serving foster children. It also confirms that the Department of Social and Health Services (DSHS) must share information about a foster child and the child's family with foster parents, and prevents children from being placed in homes where a foster parent may have a conflict of interest.

Section 2 of the bill would have expressly prohibited DSHS from retaliating or discriminating against a foster parent because of a complaint he or she may have made against DSHS, as well as several other foster parent protections. While it is an excellent idea to articulate foster parents' rights and responsibilities, section 2 was flawed. The section was unclear, and may have created unintended broad new liabilities for the state. DSHS would have been placed in a no-win position where any action it might have taken involving a foster parent who has complained could result in a lawsuit.

Other states have enacted comprehensive laws establishing the rights of foster parents, and the Child Welfare League of America has a model foster parent rights and responsibilities document. Many of these states' statutes and the Child Welfare League of America document would provide a model for developing strong, workable foster parent laws in Washington.

Section 5 of the bill was designed to enforce section 2, and is unnecessary after the veto of section 2.

To help ensure that there is no retaliation against foster parents in our state, I will direct the Secretary of DSHS to heighten his oversight of this issue.

For these reasons, I have vetoed sections 2 and 5 of House Bill No. 1102.

With the exception of sections 2 and 5, House Bill No. 1102 is approved.

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, House Bill No. 1126 entitled:

"AN ACT Increasing the license surcharge for the impaired physician;"

House Bill No. 1126 would have authorized changes in the license surcharge for the impaired physician program to any amount not less than twenty-five dollars and not more than thirty-five dollars.

Senate Bill No. 5903 which was signed into law on April 19, 2001, is identical to Substitute House Bill No. 1093. Substitute House Bill No. 1093 is not needed, as it would create a double amendment to state statutes.

For this reason I have vetoed Substitute House Bill No. 1093 in its entirety.

April 30, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I do not condone sexual activity among teenagers, but this bill is simply too broad.

As a legislator, I worked to strengthen our laws dealing with sex offenses against minors. This bill should be written to permit prosecution only of those 18 years or older and who are not students in the same school. Accordingly, I have forwarded suggested legislation to the prime sponsor of this bill.

For these reasons I have vetoed Substitute House Bill No. 1091 in its entirety.

I am returning herewith, without my approval, House Bill No. 1126 entitled:
"AN ACT Relating to collection of business to business debts;"

House Bill No. 1126 would have, in the case of commercial claims, authorized collection agencies to recover the collection costs and fees agreed to between a debtor and creditor, in addition to the underlying claim.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 6, Engrossed Substitute House Bill No. 1286 entitled:

"AN ACT Relating to the use of viable salmon eggs;"

Engrossed Substitute House Bill No. 1286 provides direction and priorities to the Department of Fish and Wildlife (WDFW) and the Fish and Wildlife Commission regarding the use of surplus salmon eggs.

Although I have approved the majority of this bill, I do have concerns about how it may be implemented.

Section 4 of the bill directs the Commission to issue rules allowing more hatchery salmon to spawn naturally in the state’s watersheds. In view of the significant concerns and uncertainties surrounding the interaction between hatchery and wild salmon, the Commission should take into account the recommendations of the federal agencies with jurisdiction over this issue, namely the National Marine Fisheries Service and the U.S. Fish and Wildlife Service.

Nothing in this legislation infringes on WDFW’s co-management responsibilities with the tribes. I anticipate that any rules will comply with WDFW’s Hatchery Genetic Management Plans, satisfying the requirements of the Endangered Species Act and the goal of wild fish recovery. I also expect the state and tribes to continue to improve hatchery practices and to develop recommendations consistent with the findings of the Hatchery Scientific Review Group.

Although hatcheries currently, and in the future, will play an important role in the recovery of wild salmon populations, they are not a substitute for the protection and restoration of habitat and reform of our state water code. Wild salmon will not recover without our addressing habitat, hatcheries, harvest and hydropower.

I also note that there is a technical conflict in the priorities for the distribution of surplus eggs in section 1 of the bill and existing law (RCW 77.100.060(3)). I ask that the WDFW work with the legislature to address this issue.

Section 6 of this bill is an emergency clause. My discussions with WDFW indicate that this provision is not necessary and that the development of the appropriate rule package will take some time.

For these reasons, I have vetoed section 6 of Engrossed Substitute House Bill No. 1286.

With the exception of section 6, Engrossed Substitute House Bill No. 1286 is approved.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 11, 12 and 15, Substitute House Bill No. 1320 entitled:

"AN ACT Relating to adult family homes;"

Substitute House Bill No. 1320 strengthens and improves the training, licensing and inspection processes for adult family homes. Adult family homes are an integral part of our long-term care system. I support the efforts to balance the need of the Department of Social and Health Services (DSHS) to ensure a high quality of care, and the need of providers for certainty in the licensing and inspection processes.

Section 11 of the bill would have eliminated the requirement that employees in adult family homes have food handler permits from the Department of Health (DOH). Instead, DSHS would have been required to include food safety training in its regular training and continuing education curricula. Asking DSHS to provide education on food safety and to enforce DOH rules is not efficient or effective. In addition, under current law food handler permits must be obtained
within fourteen days of employment. The DSHS training must be obtained with six months of the date of employment. Food safety is too important to delay the training in this manner.

Section 12 of the bill would have required DSHS to work with providers and resident communities to develop opportunities for its staff to become familiar with the routines of adult family homes. This language is vague and unenforceable. It is also insulting to the agency staff, because it implies that DSHS employees are unfamiliar with the industry they are regulating. Opportunities for exchanges of information and experience can be developed without a statutory requirement. I encourage DSHS to take these steps but it need not be mandated by statute.

Section 15 is unnecessary because it sets the implementation date for section 11.

For these reasons, I have vetoed sections 11, 12 and 15 of Substitute House Bill No. 1320.

With the exception of sections 11, 12 and 15, Substitute House Bill No. 1320 is approved.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 19, House Bill No. 1361 entitled: "AN ACT Relating to simplifying excise tax application and administration;"

House Bill No. 1361 was introduced as the Department of Revenue's annual housekeeping bill. It makes several technical corrections and clarifications to the law implemented by the Department. However, it was amended to include sections 18 and 19, provisions that affect the Business & Occupation (B&O) tax treatment of money earned from investments by businesses other than banks, loan, security or other financial businesses.

Section 19 of the bill would have implemented the intent expressed in section 18, which is to delay any change in the manner or extent of taxation of certain investment income as a result of the recent Washington Supreme Court decision, Simpson Investment Co. v. Department of Revenue. However, parties on both sides of the discussion agree that section 19 is clearly unconstitutional. Section 19 would require the Department to treat similarly situated taxpayers differently, contrary to principles of sound tax administration and the equal protection clauses of the state and federal constitutions. Also, the fiscal cost of a successful challenge would be much greater than the legislature assumed when it enacted this bill.

I fully support the goals inherent in section 19 of this bill. However, we should not make tax policy or administrative changes until there has been a thorough evaluation of the implications of the Washington Supreme Court's ruling on the affected parties.

I have directed the Department to adhere to the spirit of section 19 and to not change or expand the application of the law to include activities that heretofore have not been made subject to the tax. The Department will continue to apply pre-Simpson Investment Co. policies and interpretations with respect to RCW 82.04.4281. I have further directed the Department to work closely with all affected parties to develop a suitable, constitutional proposal that can be considered by the legislature in 2002.

The Director has formed a task force including representatives of Frank Russell Co., Microsoft, Washington Mutual Bank, Safeco, Allied Daily Newspapers, and Eagle River Partners, as well as Arthur Anderson, Perkins Coie, Davis Wright Tremaine, Stoel Rives, the Association of Washington Business and the Washington State Bar Association on behalf of clients and general interests. I fully anticipate that this group, working cooperatively with the Department, will be able to reach a consensus.

It is important that actions of the legislative and executive branches of government not result in actual or perceived damage to our business climate. The business community is understandably concerned about the implications of the Simpson Investment Co. case. However, I cannot in good conscience sign into a law a provision that is clearly unconstitutional and unfair to some businesses. Additionally, I reiterate that the Department will continue to apply only pre-Simpson Investment Co. policies and interpretations with respect to RCW 82.04.4281.

For these reasons, I have vetoed section 19 of House Bill No. 1361.

With the exception of section 19, House Bill No. 1361 is approved.

May 15, 2001

To the Honorable Speakers and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, House Bill No. 1422 entitled:

"AN ACT Relating to increasing the size of the state investment board;"

This bill would have added two members to the State Investment Board: a representative of local government appointed by the Governor for a two-year term, and an active member of the School Employees Retirement System (SERS) appointed by the Superintendent of Public Instruction for a three-year term.

I do not dispute that local governments and school employees have a valid interest in State Investment Board decisions. However, I am concerned that House Bill No. 1422 does not address the equally valid interests of the many other groups whose funds are managed by the Board but who would continue to be excluded.

Rather than increasing the size of the Board by granting membership to selected individual stakeholders to the exclusion of others, a better approach would be to restructure the Board to allot seats to classes of stakeholders, without increasing the number of Board members. I would be pleased to work with the Legislature and stakeholders to develop legislation toward this end.

For these reasons I have vetoed House Bill No. 1422 in its entirety.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 3 and 4, Second Substitute House Bill No. 1445 entitled:

"AN ACT Relating to the time certificate of deposit investment program;"

Second Substitute House Bill No. 1445 continues the state's Linked Deposit Program, under which low-interest loans are made available for women and minority-owned businesses beyond its June 30, 2001 sunset date. This is an important program that aids in the creation and expansion of many businesses. Additionally, the program has spurred economic development in distressed areas of our state.

Section 3 of the bill was an amendment to the original bill and would have directed the program to socially and economically disadvantaged business enterprises, deleting all references to women or minority-owned businesses. As such, several legislators who supported the bill believe section 3 would have significantly diluted the Linked Deposit Program, making it inconsistent with the original legislative intent.

Section 4 also references socially and economically disadvantaged business enterprises, and it would create confusion if section 3 were vetoed alone.

For these reasons, I have vetoed sections 3 and 4 of Second Substitute House Bill No. 1445.

With the exception of sections 3 and 4, Second Substitute House Bill No. 1445 is approved.

May 11, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, House Bill No. 1568 entitled:

"AN ACT Relating to suspension, revocation, and denial of driver training school instructor licenses;"

House Bill No. 1568 would have specified in statute that the Department of Licensing has the authority to suspend the license of a driving school instructor, if that instructor no longer meets the initial requirements to obtain an instructor's license.

Although well intentioned, this legislation is not necessary. After careful review of RCW Chapter 46.82, and RCW 46.82.330 and 46.82.350(1)(c) in particular, I believe the Department of Licensing already has the authority to apply the requirements that a person must satisfy to obtain an instructor's license to suspension, revocation or renewal of that same license. Given the current language of the statutes, it is disingenuous to argue, for example, that a person may not be granted an instructor's license if he or she has had alcohol-related traffic violations within the preceding three years, but is eligible to renew his or her license with recent alcohol-related traffic violations on his or her record.
I encourage the Department of Licensing to proceed with any steps necessary to amend and clarify its standards, rules, and procedures regarding the suspension, revocation and renewal of driving school instructor licenses consistent with this letter.

For these reasons I have vetoed House Bill No. 1568 in its entirety.

July 13, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 3, Substitute House Bill No. 1624 entitled:

"AN ACT Relating to the business and occupation tax deduction for health or social welfare services as applied to government-funded health benefits paid through managed care organizations;"

Substitute House Bill No. 1624 authorizes a business and occupation (B&O) tax deduction for amounts received by a health or social welfare organization that is a non-profit hospital or a public hospital, from a managed care organization or other entity that is under contract with the federal or state government to manage certain health care benefits. The deduction is equal to the amount of payments the entity receives for health benefits for Medicare; medical assistance, children's health, or other programs authorized pursuant to RCW 74.09; or the Washington Basic Health Plan. The credit amount is limited to the extent these payments are received as compensation for health care services within the scope of benefits covered by the pertinent government health care program.

Section 3 of this bill would have applied the deduction to taxes collected in the future, on reporting periods prior to the effective date of this act. The retroactive nature of the provision is not fair to taxpayers who have timely reported and remitted their taxes. Taxpayers who failed to pay their taxes due before the effective date of this bill would have been rewarded for being delinquent, while those who paid on time would not receive a refund (such refunds are prohibited by Article VIII, Section 7 of the Washington Constitution as interpreted by the Washington Supreme Court).

For this reason, I have vetoed section 3 of Substitute House Bill No. 1624.

With the exception of section 3, Substitute House Bill No. 1624 is approved.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 5, 6, 7, and 20, Substitute House Bill No. 1650 entitled:

"AN ACT Relating to community mental health services;"

Substitute House Bill No. 1650 implements several recommendations of a recent performance audit of the community mental health system by the Joint Legislative Audit and Review Committee (JLARC). I support those recommendations relating to funding flexibility, performance measurement, and other improvements. I also support the bill’s goal of minimizing administrative expenses at all levels of the mental health system.

Section 5 of the bill would have required the Department of Social and Health Services (DSHS), to collaborate with others, including Regional Support Networks and community treatment providers, to develop performance measures for use in evaluating and managing the mental health system. I strongly support this recommendation. However, developing these measures and designing the data system they will require would cost over $1 million. The budget adopted by the House includes this funding, but the Senate budget does not. Without assurance of funding, I am unwilling to let this requirement become law.

Sections 6 and 7 of the bill would have required use of the performance measures in section 5 to evaluate programs and make reports to the legislature. Without section 5, sections 6 and 7 have no meaning.

If, during the special session, the legislature chooses to enact sections 5, 6, and 7, with funding assured, I will gladly sign those sections because I support their intent.

Section 20 of the bill would have required DSHS to develop a plan to reduce mental health system administrative expenses, including in the Regional Support Networks and community-based treatment providers, to ten percent of
available funds, and submit the plan to the legislature by December 15, 2001, with an assumed implementation date of July 1, 2003.

Minimizing administrative costs is an important goal for any program. But the Secretary of DSHS advises me that developing a realistic plan to achieve that goal for the mental health system as a whole will take longer than seven months, in part because it requires the active participation of mental health providers and Regional Support Networks.

The legislature's intent to see a plan implemented in July 2003 allows enough time to develop such a plan properly. Therefore, I have vetoed section 20 and direct DSHS to work with appropriate stakeholders to complete the plan, and make recommendations to me and to the legislature by October 1, 2002.

For these reasons, I have vetoed sections 5, 6, 7, and 20 of Substitute House Bill No. 1650.

With the exception of sections 5, 6, 7, and 20, Substitute House Bill No. 1650 is approved.

May 7, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 9, Substitute House Bill No. 1678 entitled:

"AN ACT Relating to advance right-of-way acquisition;"

Substitute House Bill No. 1678 creates the city and county advance right of way revolving fund. This account was recommended by the Blue Ribbon Commission on Transportation, and will allow local governments to acquire land in advance of construction, as funds become available. This has proved to be a very effective tool at the state level, allowing construction to start as soon as construction funding is available.

Section 9 of the bill would have rendered the fund null and void if there is no appropriation for the fund in this year's biennial transportation budget. I strongly support the revolving fund, and have recommended an appropriation in my transportation budget proposal. I urge the legislature to do the same. Clearly, the merits of this bill extend beyond June 30th of this year.

For these reasons I have vetoed section 9 of Substitute House Bill No. 1678.

With the exception of section 9, Substitute House Bill No. 1678 is approved.

May 11, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Engrossed House Bill No. 1745 entitled:

"AN ACT Relating to child support technical amendments regarding medical support;"

Engrossed House Bill No. 1745 was intended to make changes to state laws regarding National Medical Support Notice requirements. However, each of the bill's two sections contains unacceptable provisions.

Section 1 of the bill would have required the Division of Child Support within the Department of Social and Health Services (DSHS), where appropriate, to comply with a federal law requiring that a National Medical Support Notice be sent with payroll deduction notices or income withholding orders within two days of receiving new hire reporting information. DSHS can and must comply with the federal law without a state statute directing it to do so. Therefore, section 1 is unnecessary.

Section 2 would have placed unrealistic and inappropriate limits on the authority of the Division of Child Support to make new rules. It also would have changed the burden of proof in court proceedings for certain agency actions, reversing a long-standing legal principle governing the validity of agency actions. Additionally, section 2 would have limited the agency's authority to implement the law to circumstances and behaviors known at the time of the bill's enactment, subjecting the agency to an uncertain and ambiguous standard and inviting litigation.

These restrictions are different from the requirements and standards of the Administrative Procedure Act (APA), and would have subjected rules and actions adopted under this act to different, inconsistent standards. APA standards apply uniformly to all other rules adopted by the DSHS, and every other agency and division in state government. It is important that rules and actions of state agencies be implemented and enforced uniformly. It is also important that the
APA not be amended in a piecemeal way. To do so would create administrative confusion, make rules harder for the public to understand, and invite litigation.

For these reasons I have vetoed Engrossed House Bill No. 1745 in its entirety.

April 17, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 6, Engrossed House Bill No. 1864 entitled:

"AN ACT Relating to information requirements in family law court files;"

Engrossed House Bill No. 1864 provides valuable privacy protections for people involved in family court actions. It will help limit cases of identity theft and misuse of private information, particularly as court filings are made accessible on the Internet.

However, section 6 of EHB 1864 would place unrealistic and inappropriate limits on the authority of the DSHS Division of Child Support to make rules implementing the new privacy protection standards for administrative orders granted pursuant to section 3 of the bill. These restrictions are inconsistent with the requirements and standards of Chapter 34.05 RCW, the Administrative Procedure Act (APA). APA standards apply uniformly to all other rules adopted by the DSHS, and every other agency and division in state government. The requirements in section 6 of this bill would have subjected rules and actions adopted under this act to different, inconsistent standards.

It is important that rules and actions of state agencies be implemented and enforced uniformly. It is also important that the APA not be amended in a piecemeal way. To do so would create administrative confusion, make rules harder for the public to understand, and invite litigation.

Additionally, section 6 of EHB 1864 would have changed the burden of proof in court proceedings for certain agency actions. This would have reversed a long-standing legal principle governing the validity of agency actions, and could have created significant legal impediments for implementation of the program covered by the bill.

Section 6 also would have limited the agency's authority to implement the law to circumstances and behaviors known at the time of the bill's enactment. That would also subject the agency to an uncertain and ambiguous standard and invite litigation.

For these reasons, I have vetoed section 6 of Engrossed House Bill No. 1864. With the exception of section 6, Engrossed House Bill No. 1864 is approved.

May 14, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 9 and 10, Substitute House Bill No. 1892 entitled:

"AN ACT Relating to agricultural commodity board and commissions;"

Substitute House Bill No. 1892 expands the powers of certain commodity boards and commissions so that they may be more effective in promoting Washington's products.

Sections 9 and 10 of the bill would have allowed members and staff of commodity boards and commissions to be reimbursed for the full amount of their actual travel expenses, rather than being limited by the Office of Financial Management regulations on reimbursement rates. Because international travel can be quite expensive and these boards and commissions are self-supporting, I support this goal. Unfortunately, sections 9 and 10 were mechanically flawed. They would have exempted individuals from compliance with RCW 43.03.050 and 43.03.060, which create the statewide system for travel reimbursement. However, this bill does not also amend RCW 15.65.270 or 15.66.130, both of which deal with travel reimbursement for commodity board or commission members. By changing only part of the applicable statutes, sections 9 and 10 would have created an internal inconsistency in the law.

Several bills were passed this year dealing with travel reimbursement for commodity boards and commissions. I encourage the interested parties to combine their efforts next year to put forward a single effort that consistently amends the expense reimbursement statutes for all of our state's self-supporting commodity boards and commissions.

For these reasons, I have vetoed sections 9 and 10 of Substitute House Bill No. 1892.
With the exception of sections 9 and 10, Substitute House Bill No. 1892 is approved.

July 13, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 2, Substitute House Bill No. 1906 entitled:

"AN ACT Relating to the exemption of machinery and equipment used in farming operations from the state property tax and preventing a shift of property taxes;"

Substitute House Bill No. 1906 authorizes an exemption from the state property tax for machinery and equipment owned by a farmer and used exclusively to grow agricultural products. Under the bill, farmers will continue to pay local property taxes on the machinery and equipment.

Section 2 of the bill would have required the state levy to be recalculated so that the exemption would not increase the rate of the state property tax levy, shifting the property tax burden to other property tax payers. The result would have been to permanently reduce revenues going into the state General Fund.

In the 2003-2005 biennium, section 2 would have caused a reduction in General Fund revenues of almost seven million dollars. The recently passed operating budget already leaves an uncomfortably small reserve for the future. My veto of section 2 will preserve revenue for the state General Fund and increase the reserves available for the state school levy.

For these reasons, I have vetoed section 2 of Substitute House Bill No. 1906.

With the exception of section 2, Substitute House Bill No. 1906 is approved.

May 7, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 4, Engrossed Substitute House Bill No. 1995 entitled:

"AN ACT Relating to civil forfeitures of property;"

Engrossed Substitute House Bill No. 1995 provides needed reform to our civil forfeiture laws. This bill will provide greater protection to citizens whose property is subject to seizure by law enforcement agencies. Drug dealers should not be allowed to benefit from their illegally gotten wealth, but we must not sacrifice citizens' rights in our efforts to fight drug trafficking.

Section 4 of the bill establishes a workgroup of the Senate and House Judiciary Committees, including legislative and non-legislative members, to evaluate Washington's civil forfeiture laws and practices, and report back to the legislative committees by December 1, 2001. I believe such a workgroup will be very useful and can continue examining the issues involved in the forfeiture laws. However, there is simply no need to establish the workgroup in statute. I urge the committees to use their inherent power to establish this workgroup, so that it can perform its intended functions within the intended time period, without enactment of a statute.

For these reasons, I have vetoed section 4 of Engrossed Substitute House Bill No. 1995.

With the exception of section 4, Engrossed Substitute House Bill No. 1995 is approved.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 10 and 14, Substitute House Bill No. 2046 entitled:

"AN ACT Relating to validating trusts created for the benefit of nonhuman animals;"

Substitute House Bill No. 2046 will allow trusts created for the benefit of vertebrate animals to be legally recognized and enforceable. This change in the law will allow people to ensure that their pets will be cared for after their owner's death.
Sections 10 and 14 of the bill were intended to address contingencies that could be caused by the rule against perpetuities. However, those issues were resolved with Senate Bill No. 5054, which I signed on April 18, 2001. For these reasons, I have vetoed sections 10 and 14 of Substitute House Bill No. 2046. With the exception of sections 10 and 14, Substitute House Bill No. 2046 is approved.

May 11, 2001

To the Honorable Speakers and Members,  
The House of Representatives of the State of Washington  
Ladies and Gentlemen:

I am returning herewith, without my approval, House Bill No 2095 entitled: "AN ACT Relating to procurement of architectural and engineering services;"

House Bill No. 2095 would have required that when state and local government agencies procure architectural and engineering services, they must encourage firms providing these services to submit their qualification and performance data no less than biennially. Current law encourages annual submittal. I understand that at least one local government agency believes that annual submittal and review of this data results in unnecessary cost impacts, which could be lessened if review were to occur on a biennial basis. However, since under current law annual submittals clearly are only encouraged, not required, I believe that government agencies already have sufficient flexibility under the law to accept the data biennially, particularly if annual submittal results in unreasonable financial burdens. Therefore, the change proposed by the bill is not necessary.

For these reasons I have vetoed House Bill No. 2095 in its entirety.

May 11, 2001

To the Honorable Speakers and Members,  
The House of Representatives of the State of Washington  
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 4, Engrossed Substitute House Bill No. 2172 entitled: "AN ACT Relating to the repair and maintenance of backflow prevention assemblies;"

Engrossed Substitute House Bill No. 2172 creates a specialty plumber's certificate of competency for the maintenance and repair of backflow prevention assemblies. This bill will make it easier and more cost effective to conduct annual inspections of backflow prevention assemblies by increasing the number of available inspectors.

Section 4 of the bill would have repealed the requirement that backflow prevention devices in residential dwellings be annually inspected. Such action would compromise the health and safety of Washington residents and the integrity of our state's potable water. Without a state inspection requirement, local governments would likely impose their own requirements, resulting in a multitude of differing standards.

For these reasons I have vetoed section 4 of Engrossed Substitute House Bill No. 2172.

With the exception of section 4, Engrossed Substitute House Bill No. 2172 is approved.

July 11, 2001

To the Honorable Speakers and Members,  
The House of Representatives of the State of Washington  
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 4, Engrossed House Bill No. 2230 entitled: "AN ACT Relating to state health and employment support benefits for incapacitated or disabled individuals;"

Engrossed House Bill No. 2230 changes state law as necessary to comply with the federal Ticket to Work and Work Incentives Improvement Act of 1999. It will allow the Department of Social and Health Services to continue medical coverage for individuals with disabilities who go to work.

However, section 4 of the bill would have rendered the entire act null and void unless specific funding, referencing the act by bill or chapter number, was included in the omnibus appropriations act. The omnibus appropriations act contains the necessary funding, but without a specific reference to the bill. Without a veto of section 4, the bill would have been rendered null and void.

For these reasons, I have vetoed section 4 of Engrossed House Bill No. 2230.
June 11, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 19, Substitute House Bill No. 2242 entitled:
"AN ACT Relating to Medicaid nursing home rates;"

Substitute House Bill No. 2242 modifies the current nursing home reimbursement formula, directs the Department of Social and Health Services to convene a study regarding issues related to nursing homes rates, and establishes a joint legislative task force to monitor and evaluate this issue and submit a report to the Legislature by December 1, 2003.

Section 19 of the bill would have allowed transfers of nursing home Certificates of Need (CONs) via bankruptcy without a review of whether subsequent operators meet CON criteria. Without a CON review, there would be no assurances that the new operator has the expertise or financial wherewithal to provide adequate resident care.

Over past several years, as a policy objective to help move nursing home residents toward housing more integrated in our communities, the Legislature has directed the Department of Health to reduce the number of nursing home beds approved through the CON process. Currently, a bankruptcy means that the Department of Health has an opportunity to reconsider its issuance of a CON. Section 19 would have allowed construction of nursing home beds to continue, without affording the Department the opportunity to reevaluate the need for the beds.

For these reasons, I have vetoed section 19 of Substitute House Bill No. 2242.

With the exception of section 19, Substitute House Bill No. 2242 is approved.
