Improving services for children.

The bill was read the second time.

MOTION

Senator Roach moved that the following Children and Family Services amendment be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. **Sec. 1.** The department of social and health services shall conduct an assessment of the children in its care to determine the appropriate level of residential and treatment services required by these children. Prior to performing the assessment, the department shall, in conjunction with the private sector, develop a comprehensive, multidisciplinary diagnostic/assessment tool to be used in conducting the assessment. Any such assessment shall be based on a statistically valid sample of all children in the department's care. The department shall report the results of the assessment to the appropriate standing committees of the legislature by September 15, 1992. The department shall submit recommendations to the appropriate standing committees of the legislature on reallocating funds for children's services by December 1, 1992.

NEW SECTION. **Sec. 2.** A new section is added to chapter 74.13 RCW to read as follows:

The department of social and health services may implement a therapeutic family home program for up to fifteen youth in the custody of the department under chapter 13.34 RCW. The program shall strive to develop and maintain a mutually reinforcing relationship between the youth and the therapeutic staff associated with the program.

NEW SECTION. **Sec. 3.** The legislature finds that a destructive lifestyle of drug and street gang activity is rapidly becoming prevalent among some of the state's youths. A significant portion of these gang and drug-involved youths are African American youths as well as the youths of other ethnic and cultural minority groups. Gang and drug-involved youths are more likely to become addicted to drugs or alcohol, live in poverty, experience high unemployment, be incarcerated, and die of violence than other youths.

NEW SECTION. **Sec. 4.** A new section is added to chapter 13.40 RCW to read as follows:

(1) The department of social and health services may contract with a community-based nonprofit organization to establish a three-step transitional treatment program for gang and drug-involved juvenile offenders committed to the custody of the department under chapter 13.40 RCW. Any such program shall provide six to twenty-four months

of treatment. The program shall emphasize the principles of self-determination, unity, collective work and responsibility, cooperative economics, and creativity. The program shall be culturally relevant and appropriate and shall include:

(a) A culturally relevant and appropriate institution-based program that provides comprehensive drug and alcohol services, individual and family counseling, and a wilderness experience of constructive group living, rigorous physical exercise, and academic studies;

(b) A culturally relevant and appropriate community-based structured group living program that focuses on individual goals, positive community involvement, coordinated drug and alcohol treatment, coordinated individual and family counseling, academic and vocational training, and employment in apprenticeship, internship, and entrepreneurial programs; and

(c) A culturally relevant and appropriate transitional group living program that provides support services, academic services, and coordinated individual and family counseling.

(2) Participation in any such program shall be on a voluntary basis.

(3) The department shall adopt rules as necessary to implement any such program.

NEW SECTION. Sec. 5. (1) The department of social and health services may contract with an independent research organization to conduct an evaluation of any program that is established under section 4 of this act. The evaluation shall include an analysis of the race and ethnicity of juvenile offenders served, the offenses for which the youths were committed, the services provided, the effects of the program on educational and vocational achievement, and the rate of recidivism for these youth.

(2) Any organization selected shall provide a preliminary report on the program to appropriate standing committees of the senate and house of representatives by September 15, 1992. Any final report shall be submitted to appropriate standing committees of the senate and house of representatives by January 15, 1993.

Sec. 6. RCW 13.34.030 and 1988 c 176 s 901 are each amended to read as follows:

For purposes of this chapter:

(1) "Child" and "juvenile" means any individual under the age of eighteen years;

(2) "Dependent child" means any child:

(a) Who has been abandoned; that is, where the child's parent, guardian, or other custodian has evidenced either by statement or conduct, a settled intent to forego, for an extended period, all parental rights or all parental responsibilities despite an ability to do so;

(b) Who is abused or neglected as defined in chapter 26.44 RCW by a person legally responsible for the care of the child;

(c) Who has no parent, guardian, or custodian capable of adequately caring for the child, such that the child is in circumstances which constitute a danger of substantial damage to the child's psychological or physical development; or

(d) Who has a developmental disability, as defined in RCW 71A.10.020 and whose parent, guardian, or legal custodian together with the department determines that services appropriate to the child's needs can not be provided in the home. However, (a), (b), and (c) of this subsection may still be applied if other reasons for removal of the child from the home exist.

(3) "Permanency planning" means the process by which a child is diagnostically assessed and provided treatment services based on his or her unique individual and developmental needs to facilitate the attainment of successful maturity as an adult. Permanency planning should occur in the least restrictive setting appropriate and available and with minimum placement disruption.

(4) "Transitional living programs" means programs that provide shelter and services designed to promote transition to self-sufficient living, development of

independent living skills, and to minimize the incidence of long-term dependency on social services.

NEW SECTION. Sec. 7. Out-of-home placement services become necessary whenever voluntary or court-ordered out-of-home placement of a child is imminent or has already occurred. In striving to meet the objective of permanency for every child, a continuum of services must encompass the full range of possible alternatives. A variety of services are available to prevent out-of-home placement or address the needs of the child and family when out-of-home placement becomes necessary, however, the continuum of care is severely lacking in providing transitional living services for older youth.

NEW SECTION. Sec. 8. A new section is added to chapter 13.34 RCW to read as follows:

The department of social and health services shall contract, using the request for proposal process, with independent qualified agencies to provide transitional living services to minors.

Persons sixteen to eighteen years old or sixteen years old until emancipation are eligible for transitional living services. The population eligible for transitional living services are those for whom returning to their parents' or guardians' home is not possible and for whom foster care or adoption is not likely or appropriate. An assessment shall be done of each minor, including the minor's family situation, before receiving transitional living services. The assessment shall include input from the agency that would be providing the transitional living services to the minor, the agency currently providing services to the minor, and the caseworker for the minor. The assessment shall seek to determine whether the most appropriate plan for the minor is preparation for emancipation. The assessment shall also determine whether the minor is motivated to participate in a transitional living program that requires significant commitment from the minor. A primary goal of transitional living services shall be the acquisition by the youth of basic educational and/or vocational skills that are compatible with the individual's treatment plan. If a youth demonstrates a consistent unwillingness to participate in the acquisition of such skills, a reassessment shall be done of the youth's appropriateness for the program.

NEW SECTION. Sec. 9. A new section is added to chapter 13.34 RCW to read as follows:

Transitional living services should be tailored to meet the needs of the particular minor. A transitional living program should include, but is not limited to, the following:

(1) Educational services, including basic literacy and computational skills training, either in local alternative or public high schools or in a high school equivalency program that leads to obtaining a high school equivalency degree;

(2) Assistance and counseling related to obtaining vocational training or higher education, job readiness, job search assistance, and placement programs;

(3) Health services including pre and post-natal care;

(4) Counseling and instruction in life skills such as money management, home management, consumer skills, parenting, health care, access to community resources, and transportation and housing options;

(5) Individual and group counseling with emphasis on issues of avoiding abuse, sexual abuse, prostitution, drug and alcohol abuse, depression, motivation, self-esteem, and interpersonal and social skills training and development;

(6) Recognizing and facilitating long-term relationships with significant adults; and

(7) Establishing networks with federal agencies and state and local organizations such as the department of labor, employment and training administration programs including the job training partnership act which administers private industry councils and the job corps; vocational rehabilitation; and volunteer programs.

NEW SECTION. Sec. 10. If specific funding for the purposes of sections 6 through 9 of this act, referencing this act by bill and section number, is not provided by June 30, 1991, in the omnibus appropriations act, sections 6 through 9 of this act shall be null and void.

Clarifying provisions relating to registration of sex offenders.

The bill was read the second time.

MOTIONS

On motion of Senator McDonald, the following Committee on Ways and Means amendment was adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that sex offender registration has assisted law enforcement agencies in protecting their communities. This act is intended to clarify and amend the deadlines for sex offenders to register. This act's clarification or amendment of RCW 9A.44.130 does not relieve the obligation of sex offenders to comply with the registration requirements of RCW 9A.44.130 as that statute exists before the effective date of this act.

Sec. 2. RCW 9A.44.130 and 1990 c 3 s 402 are each amended to read as follows:

(1) Any adult or juvenile residing in this state who has been found to have committed or has been convicted of any sex offense shall register with the county sheriff for the county of the person's residence.

(2) The person shall ~~((, within forty five days of establishing residence in Washington, or if a current resident within thirty days of release from confinement, if any,))~~ provide the county sheriff with the following information when registering: (a) Name; (b) address; (c) date and place of birth; (d) place of employment; ~~((d))~~ (e) crime for which convicted; ~~((e))~~ (f) date and place of conviction; ~~((f))~~ (g) aliases used; and ~~((g))~~ (h) social security number.

(3) (a) Sex offenders shall register within the following deadlines. For purposes of this section the term "conviction" refers to adult convictions and juvenile adjudications for sex offenses:

(i) SEX OFFENDERS IN CUSTODY. Sex offenders who committed a sex offense on, before, or after February 28, 1990, and who, on or after the effective date of this act, are in custody, as a result of that offense, of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility, must register within twenty-four hours from the time of release with the county sheriff for the county of the person's residence. The agency that has jurisdiction over the offender shall provide notice to the sex offender of the duty to register. Failure to register within twenty-four hours of release constitutes a violation of this section and is punishable as provided in subsection (7) of this section.

(ii) SEX OFFENDERS NOT IN CUSTODY BUT UNDER STATE OR LOCAL JURISDICTION. Sex offenders, who, on the effective date of this act, are not in custody but are under the jurisdiction of the indeterminate sentence review board or under the active supervision of the state department of corrections, the state department

of social and health services, or a local division of youth services, for sex offenses committed before, on, or after February 28, 1990, must register within ten days of the effective date of this act.

(iii) SEX OFFENDERS WHO ARE CONVICTED BUT NOT CONFINED. Sex offenders who are convicted of a sex offense on or after the effective date of this act for a sex offense that was committed on or after February 28, 1990, but who are not sentenced to serve a term of confinement immediately upon sentencing, shall report to the county sheriff to register immediately upon completion of being sentenced.

(iv) SEX OFFENDERS WHO ARE NEW RESIDENTS OR RETURNING WASHINGTON RESIDENTS. Sex offenders who move to Washington state from another state that are not under the jurisdiction of the state department of corrections, the indeterminate sentence review board, or the state department of social and health services at the time of moving to Washington, must register within thirty days of establishing residence or reestablishing residence if the person is a former Washington resident. The duty to register under this subsection applies to sex offenders convicted under the laws of another state, federal statutes, or Washington state for offenses committed on or after February 28, 1990. Sex offenders from other states who, when they move to Washington, are under the jurisdiction of the department of corrections, the indeterminate sentence review board, or the department of social and health services must register within twenty-four hours of moving to Washington. The agency that has jurisdiction over the offender shall notify the offender of the registration requirements before the offender moves to Washington.

(b) Failure to register within the time required under this section constitutes a per se violation of this section and is punishable as provided in subsection (7) of this section. The county sheriff shall not be required to determine whether the person is living within the county.

(c) An arrest on charges of failure to register, service of an information, or a complaint for a violation of this section, or arraignment on charges for a violation of this section, constitutes actual notice of the duty to register. Any person charged with the crime of failure to register under this section who asserts as a defense the lack of notice of the duty to register shall register immediately following actual notice of the duty through arrest, service, or arraignment. Failure to register as required under this subsection (c) constitutes grounds for filing another charge of failing to register. Registering following arrest, service, or arraignment on charges shall not relieve the offender from criminal liability for failure to register prior to the filing of the original charge.

(d) The deadlines for the duty to register under this section do not relieve any sex offender of the duty to register under this section as it existed prior to the effective date of this act.

(4) If any person required to register pursuant to this section changes his or her residence address within the same county, the person must send written notice of the change of address to the county sheriff within ten days of establishing the new residence. If any person required to register pursuant to this section moves to a new county, the person must register with the county sheriff in the new county within ten days of establishing the new residence. The person must also send written notice within ten days of the change of address in the new county to the county sheriff with whom the person last registered.

((4)) (5) The county sheriff shall obtain a photograph of the individual and shall obtain a copy of the individual's fingerprints.

((5)) (6) "Sex offense" for the purpose of RCW 9A.44.130, 10.01.200, 43.43.540, 70.48.470, and 72.09.330 means any offense defined as a sex offense by RCW 9.94A.030(;

(a) Committed on or after February 28, 1990; or

~~(b) Committed prior to February 28, 1990, if the person, as a result of the offense, is under the custody or active supervision of the department of corrections or the department of social and health services on or after February 28, 1990).~~

((6)) (7) A person who knowingly fails to register as required by this section is guilty of a class C felony if the crime for which the individual was convicted was a class A felony or a federal or out-of-state conviction for an offense that under the laws of this state would be a class A felony. If the crime was other than a class A felony or a federal or out-of-state conviction for an offense that under the laws of this state would be a class A felony, violation of this section is a gross misdemeanor.

Sec. 3. RCW 9A.44.140 and 1990 c 3 s 408 are each amended to read as follows:

(1) The duty to register under RCW 9A.44.130 shall end:

(a) For a person convicted of a class A felony: Such person may only be relieved of the duty to register under subsection (2) or (3) of this section.

(b) For a person convicted of a class B felony: Fifteen years after the last date of release from confinement, if any, (including full-time residential treatment) pursuant to the conviction, or entry of the judgment and sentence, if the person has spent fifteen consecutive years in the community without being convicted of any new offenses.

(c) For a person convicted of a class C felony: Ten years after the last date of release from confinement, if any, (including full-time residential treatment) pursuant to the conviction, or entry of the judgment and sentence, if the person has spent ten consecutive years in the community without being convicted of any new offenses.

(2) Any person having a duty to register under RCW 9A.44.130 may petition the superior court to be relieved of that duty. The petition shall be made to the court in which the petitioner was convicted of the offense that subjects him or her to the duty to register, or, in the case of convictions in other states, to the court in Thurston county. The prosecuting attorney of the county shall be named and served as the respondent in any such petition. The court shall consider the nature of the registrable offense committed, and the criminal and relevant noncriminal behavior of the petitioner both before and after conviction, and may consider other factors. Except as provided in subsection (3) of this section, the court may relieve the petitioner of the duty to register only if the petitioner shows, with clear and convincing evidence, that future registration of the petitioner will not serve the purposes of RCW 9A.44.130, 10.01.200, 43.43.540, 46.20.187, 70.48.470, and 72.09.330.

(3) An offender having a duty to register under RCW 9A.44.130 for a sex offense committed when the offender was a juvenile may petition the superior court to be relieved of that duty. The court shall consider the nature of the registrable offense committed, and the criminal and relevant noncriminal behavior of the petitioner both before and after adjudication, and may consider other factors. The court may relieve the petitioner of the duty to register for a sex offense that was committed while the petitioner was fifteen years of age or older only if the petitioner shows, with clear and convincing evidence, that future registration of the petitioner will not serve the purposes of RCW 9A.44.130, 10.01.200, 43.43.540, 46.20.187, 70.48.470, and 72.09.330. The court may relieve the petitioner of the duty to register for a sex offense that was committed while the petitioner was under the age of fifteen if the petitioner (a) has not been adjudicated of any additional sex offenses during the twenty-four months following the adjudication for the sex offense giving rise to the duty to register, and (b) the petitioner proves by a preponderance of the evidence that future registration of the petitioner will not serve the purposes of RCW 9A.44.130, 10.01.200, 43.43.540, 46.20.187, 70.48.470, and 72.09.330.

(4) Unless relieved of the duty to register pursuant to this section, a violation of RCW 9A.44.130 is an ongoing offense for purposes of the statute of limitations under RCW 9A.04.080.

((4)) (5) Nothing in RCW 9.94A.220 relating to discharge of an offender shall be construed as operating to relieve the offender of his or her duty to register pursuant to RCW 9A.44.130.

NEW SECTION. Sec. 4. If specific funding for the purposes of this act, referencing this act by bill number, is not provided by June 30, 1991, in the omnibus appropriations act, this act shall be null and void.

Where a person makes an acquisition under lease or comparable arrangement, or through donation, which would have required review if the acquisition had been made by purchase, such expenditure shall be deemed a capital expenditure. Capital expenditures include donations of equipment or facilities to a nursing home facility which if acquired directly by such facility would be subject to certificate of need review under the provisions of this chapter and transfer of equipment or facilities for less than fair market value if a transfer of the equipment or facilities at fair market value would be subject to such review. The cost of any studies, surveys, designs, plans, working drawings, specifications, and other activities essential to the acquisition, improvement, expansion, or replacement of any plant or equipment with respect to which such expenditure is made shall be included in determining the amount of the expenditure.

(~~In addition, the term does not include a continuing care retirement community which: (i) Offers services only to contractual members; and (ii) provides its members a~~

~~contractually guaranteed range of services from independent living through skilled nursing, including some form of assistance with activities of daily living; and (iii) contractually assumes responsibility for costs of services exceeding the member's financial responsibility as stated in contract, so that, with the exception of insurance purchased by the retirement community or its members, no third party, including the medicaid program, is liable for costs of care even if the member depletes his or her personal resources; and (iv) has offered continuing care contracts and operated a nursing home continuously since January 1, 1988, or has obtained a certificate of need to establish a nursing home; and (v) maintains a binding agreement with the department of social and health services assuring that financial liability for services to members, including nursing home services, shall not fall upon the department of social and health services; and (vi) does not operate, and has not undertaken, a project which would result in a number of nursing home beds in excess of one for every four living units operated by the continuing care retirement community, exclusive of nursing home beds; and (vii) has undertaken no increase in the total number of nursing home beds after January 1, 1988, unless a professional review of pricing and long term solvency was obtained by the retirement community within the prior five years and fully disclosed to members.))~~

(2) A health maintenance organization, combination of health maintenance organizations, or health care facility shall not be exempt under subsection (1) of this section from obtaining a certificate of need before offering a tertiary health service unless:

(b) The application contains such information respecting the organization, combination, or facility and the proposed offering or obligation by a nursing home as the department may require to determine if the organization or combination meets the requirements of subsection (1) of this section or the facility meets or will meet such requirements; and

In the case of a proposed health care facility (or portion thereof) which has not begun to provide tertiary health services on the date an application is submitted under this subsection with respect to such facility (or portion), the facility (or portion)

(4) In the case of a health maintenance organization, an ambulatory care facility, or a health care facility, which ambulatory or health care facility is controlled, directly or indirectly, by a health maintenance organization or a combination of health maintenance organizations, the department may under the program apply its certificate of need requirements only to the offering of inpatient tertiary health services and then only to the extent that such offering is not exempt under the provisions of this section.

(ii) Provides its members a contractually guaranteed range of services from independent living through skilled nursing, including some assistance with daily living activities;

(iv) Has offered continuing care contracts and operated a nursing home continuously since January 1, 1988, or has obtained a certificate of need to establish a nursing home;

(vii) Has obtained a professional review of pricing and long-term solvency within the prior five years which was fully disclosed to members.

(b) A continuing care retirement community shall not be exempt under this subsection from obtaining a certificate of need unless:

(i) It has submitted an application for exemption at least thirty days prior to commencing construction of, is submitting an application for the licensure of, or is commencing operation of a nursing home, whichever comes first; and

On page 7, after line 14, insert the following:

NEW SECTION. Sec. 4. A new section is added to chapter 28B.10 RCW to read as follows:

(1) The boards of regents or trustees of each state college, university, and community college shall establish sick leave regulations for all officers, administrative personnel, librarians, counselors, and academic personnel, including teaching and research faculty, who are exempted from the provisions of chapters 41.06 and 28B.16 RCW.

(2) Each state college, university, and community college shall maintain complete and accurate sick leave records for all officers, administrative personnel, librarians, counselors, and academic personnel, including teaching and research faculty.

(3) For all officers, administrative personnel, librarians, counselors, and academic personnel, including teaching and research faculty, originally hired after June 30, 1991, the provisions of the sick leave regulations adopted under subsection (1) of this section regarding the amount of sick leave that may be allowed to and accrued by such employees shall be consistent with provisions for employees in the state personnel system and higher education personnel system established under chapters 41.06 and 28B.16 RCW.

Sec. 5. RCW 41.04.340 and 1990 c 162 s 1 are each amended to read as follows:

As used in this section the term "eligible employee" means any employee of the state, other than teaching and research faculty originally hired before July 1, 1991, at the state and regional universities and The Evergreen State College, entitled to accumulate sick leave and for whom accurate sick leave records have been maintained. No employee may receive compensation under this section for any portion of sick leave accumulated at a rate in excess of one day per month. The state and regional universities and The Evergreen State College shall maintain complete and accurate sick leave records for all teaching and research faculty.

An attendance incentive program is established for all eligible employees. In January of the year following any year in which a minimum of sixty days of sick leave is accrued, and each January thereafter, any eligible employee may receive remuneration for unused sick leave accumulated in the previous year at a rate equal to one day's monetary compensation of the employee for each four full days of accrued sick leave in excess of sixty days. Sick leave for which compensation has been received shall be deducted from accrued sick leave at the rate of four days for every one day's monetary compensation.

At the time of separation from state service due to retirement or death, an eligible employee or the employee's estate shall receive remuneration at a rate equal to one

day's current monetary compensation of the employee for each four full days of accrued sick leave: PROVIDED, That community college districts may delay until July 1, 1981, payment due any eligible employee or employee's estate: PROVIDED FURTHER, That there shall be added to any such delayed payment interest at the rate of eight percent per year.

Moneys received under this section shall not be included for the purpose of computing a retirement allowance under any public retirement system in this state.

This section shall be administered, and rules shall be promulgated to carry out its purposes, by the state personnel board and the higher education personnel board for persons subject to chapters 41.06 and 28B.16 RCW, respectively, and by their respective personnel authorities for other eligible employees: PROVIDED, That determination of classes of eligible employees shall be subject to approval by the office of financial management.

Should the legislature revoke any benefits granted under this section, no affected employee shall be entitled thereafter to receive such benefits as a matter of contractual right.

NEW SECTION. Sec. 6. Sections 4 and 5 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1991.

Debate ensued.

POINT OF ORDER

Senator Skratek: "Mr. President, I rise to a point of order. I question the scope and object appropriateness of this particular amendment. The amendment is dealing with a sick leave provision and yet the bill itself is talking about authorizing honorary degrees. Somehow, the little bit I've been listening here over the last several weeks, I've gotten the impression that when we propose amendments, they are supposed to be in line with the title of the bill that is before us. Therefore, I raise that objection."

Further debate ensued.

There being no objection, the Vice President Pro Tempore deferred further consideration of the amendment by Senators Saling, Bauer, Jesernig and Stratton on page 7, after line 14, to House Bill No. 1143.

MOTION

Senator Saling moved that the following amendment by Senators Saling, Jesernig, Skratek, Bauer, Patterson and Stratton be adopted:

On page 7, after line 14, insert the following:

NEW SECTION. Sec. 4. The legislature finds that the large number of international graduate students has highlighted the need for state institutions of higher education to give careful attention to the issues of language proficiency, sensitivity to cultural differences, and pedagogical skills when making graduate service appointments. The legislature also finds that the quality of the undergraduate learning experience at many state institutions of higher education is directly affected by graduate teaching assistants who are responsible for a significant percentage of class sections taught in lower-division courses. The legislature recognizes that over the years it has received reports about the problems some students experience in understanding the English language as spoken by some of the graduate teaching assistants employed as instructors at our state institutions. It is the intent of the legislature to assure students and parents

that graduate teaching assistants at our state institutions of higher education are proficient in writing and speaking the English language.

NEW SECTION. Sec. 5. A new section is added to chapter 28B.10 RCW to read as follows:

(1) A person who has received a graduate assistant appointment in which that person will be providing classroom instruction, or will work with students in participatory and activity courses such as clinics, studios, seminars, and laboratories, shall be fluent in both written and spoken English language.

(2) A person who has received a graduate assistant appointment in which the classroom instruction to be provided is specifically designed to be taught primarily in a foreign language is exempt from subsection (1) of this section.

NEW SECTION. Sec. 6. A new section is added to chapter 28B.10 RCW to read as follows:

(1) Each state institution of higher education shall provide for all international teaching assistants orientation programs that include at least twenty hours of instruction emphasizing pedagogical skills appropriate to a Washington institution of higher education; intercultural competency; and English language proficiency for instructional purposes.

(2) Each state institution of higher education shall evaluate its graduate assistants for fluency in English as such fluency pertains to the classroom, laboratory, studio, and seminar setting. Fluency shall be evaluated using varied and appropriate criteria including, but not limited to, personal interviews; student observations and evaluations; and tests.

(3) A committee composed of faculty and at least two students shall review procedures affecting teaching assistants and act as a resource for any student who is concerned about the proficiency of teaching assistants. Graduate assistants whose assignments include instruction specifically designed to be provided primarily in a foreign language are exempt from this subsection.

(4) By August 1, 1991, each state institution of higher education shall submit to the higher education coordinating board a plan for certifying the instructional proficiencies of international teaching assistants. The certification process shall provide for student participation. The certification shall state that the graduate teaching assistants hired either after the effective date of this section or hired subsequent to the last annual certification are fluent in the English language as provided in section 5 of this act.

NEW SECTION. Sec. 7. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

POINT OF ORDER

Senator Niemi: "Mr. President, a point of order. I would challenge this amendment on the basis of scope and object. The bill is about honorary degrees; the amendment, as was explained by Senator Saling, is about assistance with English language proficiency. I can understand the frustrations of those who are taught by an assistant who cannot speak English, but I would suggest that possibly the institutions have gotten the message from the passage of this bill through the Senate once and they should have an opportunity to do something themselves without impeding whatever value there is for those who would not be able to pass an exam."

There being no objection, the Vice President deferred further consideration of House Bill No. 1143.

MOTION FOR RECONSIDERATION

Having served prior notice, Senator Saling moved to now reconsider the vote by which House Bill No. 1224 failed to pass the Senate earlier today.

REPLY BY THE VICE PRESIDENT PRO TEMPORE

Vice President Pro Tempore Bluechel: "Sixth order."

Senator Vognild: "I don't believe the motion is in order under the sixth order of business. This is not an immediate reconsideration; this is a motion to reconsider. I believe it would only be in order under the ninth order of business."

On motion of Senator Newhouse, the Senate advanced to the ninth order of business.

The Vice President Pro Tempore declared the question before the Senate to be the roll call on the final passage of House Bill No. 1224, on reconsideration.

Debate ensued.

POINT OF INQUIRY

Senator Roach: "Senator Rinehart, the question is, is this limited just to the purchasing of school buses?"

Senator Rinehart: "The additional language is for school buses. Currently, under this debt limit, they can use it for portables or for other things, but the additional language in this bill is for school buses only."

Senator Roach: "To clarify then, they would not be able to use the money for personal property purchases like athletic equipment?"

Senator Rinehart: "My understanding, Senator Roach, is the proceeds of the nonvoter approved bonds, authorized in the legislation, may be used for school buses. The proceeds may also be used for any legal purpose for which the school district incurs debt and is within the debt limit. The proceeds are deposited in the school district's capital fund, general fund or transportation fund."

ROLL CALL

The Secretary called the roll on the final passage of House Bill No. 1224, on reconsideration, and the bill passed the Senate by the following vote: Yeas, 29; Nays, 19; Absent, 0; Excused, 1.

Senator Snyder moved that the following amendments by Senators Sutherland, Snyder, McCaslin, Oke and von Reichbauer be considered simultaneously and be adopted:

SENATE RESOLUTION 1991-8644

By Senators Thorsness, Nelson, Rasmussen and Oke

Making various changes in sewer and water district law.

The bill was read the second time.

MOTION

Senator Thorsness moved that the following Committee on Energy and Utilities amendment be adopted:

Strike everything after the enacting clause and insert the following:

Sec. 1. RCW 56.08.100 and 1981 c 190 s 5 are each amended to read as follows:

A sewer district, by a majority vote of its board of commissioners, may enter into contracts to provide health care services and/or group insurance and/or term life insurance and/or social security insurance for the benefit of its employees and may pay all or any part of the cost thereof. Any two or more sewer districts or one or more sewer districts and one or more water districts, by a majority vote of their respective boards of commissioners, may, if deemed expedient, join in the procuring of such health care services and/or group insurance and/or term life insurance, and the board of commissioners of each participating sewer and/or water district may by appropriate resolution authorize their respective district to pay all or any portion of the cost thereof.

A sewer district with five thousand or more customers providing health, group, or life insurance to its employees may provide its commissioners with the same coverage: PROVIDED, That the per person amounts for such insurance paid by the district shall not exceed the per person amounts paid by the district for its employees.

Sec. 2. RCW 56.08.140 and 1967 c 178 s 3 are each amended to read as follows:

No such lease shall be made unless secured by a bond conditioned on the performance of the terms of the lease, with surety satisfactory to the commissioners, in a penalty of not less than one-sixth of the term of the lease or for one year's rental, whichever is greater; and no such lease shall be made for a term longer than twenty-

five years. However, the board of commissioners may require a reasonable security deposit in lieu of a bond on leased real property owned by the water or sewer district.

Sec. 3. RCW 57.08.010 and 1989 c 389 s 9 and 1989 c 308 s 2 are each reenacted and amended to read as follows:

(1) (a) A water district may acquire by purchase or condemnation, or both, all property and property rights and all water and water rights, both within and without the district, necessary for its purposes.

(b) A water district may lease real or personal property necessary for its purposes for a term of years for which such leased property may reasonably be needed where in the opinion of the board of water commissioners such property may not be needed permanently or substantial savings to the district can be effected thereby.

(c) The right of eminent domain shall be exercised in the same manner and by the same procedure as provided for cities of the third class, insofar as consistent with the provisions of this title, except that all assessment rolls to be prepared and filed by eminent domain commissioners or commissioners appointed by the court shall be prepared and filed by the water district, and the duties devolving upon the city treasurer are hereby imposed upon the county treasurer.

(d) A water district may construct, condemn and purchase, purchase, add to, maintain, and supply waterworks to furnish the district and inhabitants thereof, and any city or town therein and any other persons, both within and without the district, with an ample supply of water for all uses and purposes public and private with full authority to regulate and control the use, content, distribution, and price thereof in such a manner as is not in conflict with general law and may construct, acquire, or own buildings and other necessary district facilities.

(e) A water district contiguous to Canada may contract with a Canadian corporation for the purchase of water and for the construction, purchase, maintenance, and supply of waterworks to furnish the district and inhabitants thereof and residents of Canada with an ample supply of water under terms approved by the board of commissioners. Such waterworks may include facilities which result in combined water supply and electric generation, provided that the electricity generated thereby is a byproduct of the water supply system.

(f) Such electricity may be used by the water district or sold to any entity authorized by law to distribute electricity. Such electricity is a byproduct when the electrical generation is subordinate to the primary purpose of water supply.

(g) For such purposes, a water district may take, condemn and purchase, purchase, acquire, and retain water from any public or navigable lake, river, or watercourse, or any underflowing water and, by means of aqueducts or pipe line conduct the same throughout such water district and any city or town therein and carry it along and upon public highways, roads, and streets, within and without such district.

(h) For the purpose of constructing or laying aqueducts or pipe lines, dams, or waterworks or other necessary structures in storing and retaining water or for any other lawful purpose such water district may occupy the beds and shores up to the high water mark of any such lake, river, or other watercourse, and may acquire by purchase or condemnation such property or property rights or privileges as may be necessary to protect its water supply from pollution.

(i) For the purposes of waterworks which include facilities for the generation of electricity as a byproduct, nothing in this section may be construed to authorize a water district to condemn electric generating, transmission, or distribution rights or facilities of entities authorized by law to distribute electricity, or to acquire such rights or facilities without the consent of the owner.

(2) A water district may purchase and take water from any municipal corporation.

(3) A water district may fix rates and charges for water supplied and may charge property owners seeking to connect to the district's water supply system, as a condition to granting the right to so connect, in addition to the cost of such connection, such

reasonable connection charge as the board of commissioners shall determine to be proper in order that such property owners shall bear their equitable share of the cost of such system.

(a) For purposes of calculating a connection charge, the board of commissioners shall determine the pro rata share of the cost of existing facilities and facilities planned for construction within the next ten years and contained in an adopted comprehensive plan and other costs borne by the district which are directly attributable to the improvements required by property owners seeking to connect to the system. The cost of existing facilities shall not include those portions of the system which have been donated or which have been paid for by grants.

(b) The connection charge may include interest charges applied from the date of construction of the water system until the connection, or for a period not to exceed ten years, whichever is shorter, at a rate commensurate with the rate of interest applicable to the district at the time of construction or major rehabilitation of the water system, or at the time of installation of the water lines to which the property owner is seeking to connect.

(4) (a) A district may permit payment of the cost of connection and the reasonable connection charge to be paid with interest in installments over a period not exceeding fifteen years. The county treasurer may charge and collect a fee of three dollars for each year for the treasurer's services. Such fees shall be a charge to be included as part of each annual installment, and shall be credited to the county current expense fund by the county treasurer.

(b) Revenues from connection charges excluding permit fees are to be considered payments in aid of construction as defined by department of revenue rule.

(5) A district may operate and maintain a park or recreational facilities on real property that it owns or in which it has an interest that is not immediately necessary for its purposes.

Sec. 4. RCW 57.08.100 and 1981 c 190 s 6 are each amended to read as follows:

A water district, by a majority vote of its board of commissioners, may enter into contracts to provide health care services and/or group insurance and/or term life insurance and/or social security insurance for the benefit of its employees and may pay all or any part of the cost thereof. Any two or more water districts or any one or more water districts and one or more sewer districts, by a majority vote of their respective boards of commissioners, may, if deemed expedient, join in the procuring of such health care services and/or group insurance and/or term life insurance, and the board of commissioners of each participating sewer and/or water district may by appropriate resolution authorize their respective district to pay all or any portion of the cost thereof.

A water district with five thousand or more customers providing health, group, or life insurance to its employees may provide its commissioners with the same coverage: PROVIDED, That the per person amounts for such insurance paid by the district shall not exceed the per person amounts paid by the district for its employees.

Sec. 5. RCW 57.08.120 and 1967 ex.s. c 135 s 1 are each amended to read as follows:

A water district may lease out real property which it owns or in which it has an interest and which is not immediately necessary for its purposes upon such terms as the board of water commissioners deems proper: PROVIDED, That no such lease shall be made until the water district has first caused notice thereof to be published twice in a newspaper in general circulation in the water district, the first publication to be at least fifteen days and the second at least seven days prior to the making of such lease, which notice shall describe the property proposed to be leased out, to whom, for what purpose, and the rental to be charged therefor. A hearing shall be

held pursuant to the terms of the said notice, at which time any and all persons who may be interested shall have the right to appear and to be heard.

No such lease shall be for a period longer than twenty-five years, and each lease of real property shall be secured by a bond conditioned to perform the terms of such lease with surety satisfactory to the commissioners, in a penalty not less than the rental for one-sixth of the term: PROVIDED, That the penalty shall not be less than the rental for one year where the term is one year or more. In a lease, the term of which exceeds five years, and when at the option of the commissioners, it is so stipulated in the lease, the commission shall accept, with surety satisfactory to it, a bond conditioned to perform the terms of the lease for some part of the term, in no event less than five years (unless the remainder of the unexpired term is less than five years, in which case for the full remainder) and in every such case the commissioners shall require of the lessee, another or other like bond to be delivered within two years, and not less than one year prior to the expiration of the period covered by the existing bond, covering an additional part of the term in accordance with the foregoing provisions in respect to the original bond, and so on until the end of the term so that there will always be in force a bond securing the performance of the lease, and the penalty in each bond shall be not less than the rental for one-half the period covered thereby, but no bond shall be construed to secure the furnishing of any other bond. However, the board of commissioners may require a reasonable security deposit in lieu of a bond on leased real property owned by a water district.

The commissioners may accept as surety on any bond required by this section, either an approved surety company or one or more persons satisfactory to the commissioners, or in lieu of such bond may accept a deposit as security of such property or collateral or the giving of such other form of security as may be satisfactory to the commissioners.

NEW SECTION. Sec. 6. A new section is added to chapter 57.08 RCW to read as follows: A water district may adopt a water conservation plan and emergency water use restrictions. The district may enforce a water conservation plan and emergency water use restrictions by imposing a fine as provided by resolution for failure to comply with any such plan or restrictions. The commissioners may provide by resolution that if a fine for failure to comply with the water conservation plan or emergency water use restrictions is delinquent for a specified period of time, the district shall certify the delinquency to the treasurer of the county in which the real property is located and serve notice of the delinquency on the subscribing water customer who fails to comply, and the fine is then a separate item for inclusion on the bill of the party failing to comply with the water conservation plan or emergency water use restrictions.

On motion of Senator Madsen, the following amendment by Senator Madsen and Thorsness to the Committee on Energy and Utilities striking amendment was adopted:

On page 2, after line 8, add a new section to read as follows:

NEW SECTION. Sec. 3. There is added to chapter 56.08 RCW a new section to read as follows:

A district may operate and maintain a park or recreational facilities on real property that it owns or in which it has an interest that is not immediately necessary for its purposes.

If such park or recreational facilities are operated by a person other than the district, including a corporation, partnership, or other business enterprise, the person shall indemnify and hold harmless the district for any injury or damage caused by the action of the person.

MOTION

Senator Anderson moved that the following amendment to the Committee on Energy and Utilities striking amendment be adopted:

On page 3, line 6, after "facilities." insert "A district's authority to regulate and control the use, content, distribution, and price thereof includes the authority to charge a flat rate for water supplied to a customer connected to the district's system, regardless of the amount of water used by the customer, where individually metering the water is not economically feasible, and where the flat rate does not encourage waste."

POINT OF INQUIRY

Senator Madsen: "Senator Anderson, as I read this, if you have three people on a water district--or five people on a water district--and given the average which is eight hundred gallons a day per residential area, if four of those people use from five to eight hundred gallons and one person uses six thousand gallons a day, that they would all be charged the same rate. Is that what this amendment does?"

Senator Anderson: "Senator Madsen, that was certainly not the intent of the situation that we are trying to correct here. What we are trying to correct is people that have the available use of water and are using it and not paying for it. What we are trying to correct here is that the smaller ones that do not have the capability of metering, then could charge a flat rate."

Senator Madsen: "I guess one other question. Where in the law does it say that a water district cannot charge a flat rate?"

Senator Anderson: "I don't know the answer to that one."

Further debate ensued.

MOTION

On motion of Senator Newhouse, further consideration of Engrossed Substitute House Bill No. 1031 was deferred.

MOTIONS

Senator West moved that the following Committee on Health and Long-Term Care amendment be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. Unless the context clearly requires otherwise, the definitions in this section apply throughout sections 2 through 7 of this act.

(1) "Accepted standards" means those standards of practice, skill, and treatment that are recognized by a reasonably prudent chiropractor as being acceptable under similar conditions and circumstances.

(2) "Appropriate chiropractic treatment" means treatment and other services performed or ordered, in connection with a substantiated and properly documented condition, which would appear to a reasonably prudent chiropractor to be consistent with the diagnosis or analysis presented.

(3) "Excessive" fees or costs means charges above the usual and customary charges in that service area as paid by public and private third-party payors.

(4) "Patient" means an individual who receives chiropractic evaluation or treatment, or both.

(5) "Peer review committee" means the committee established under section 2 of this act.

(6) "Peer review proceeding" or "peer review" means an evaluation, based on accepted standards, by the peer review committee, of the appropriateness, quality, utilization, and cost of health services provided to a patient. Peer review does not include matters related to the licensing, discipline, or scope of practice of any health care profession.

(7) "Properly utilized services" means appropriate services rendered or ordered, including the frequency and duration of such services, which are documented as being necessary and reasonable by clinical records and reports or by other facts, presentations, or evidence reviewed by the peer review committee.

(8) "Services rendered" means all services provided to a patient.

NEW SECTION. Sec. 2. (1) The board shall appoint the peer review committee, which shall be constituted as follows: The chair of the peer review committee shall be a member of the board and shall not vote except to break a tie; one chiropractor from each congressional district; one independent member representative of the health insurance industry; and one representative from the department of labor and industries. The term of appointment of peer review committee members shall be one year, and no member shall serve more than two consecutive terms. The board may appoint additional pro tem members as necessary. Chiropractor members shall have at least five years of active practice in this state. The board shall adopt rules establishing other qualifications for appointment of the chiropractic members to the peer review committee, including rules to avoid conflict of interest or the appearance of conflict of interest.

(2) The peer review committee may be compensated in accordance with RCW 43.03.240 and may be paid travel expenses while engaged in the business of the committee in accordance with RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 3. (1) A patient, a patient's representative, an insurer, an agency of the state of Washington, or a chiropractor may request a peer review proceeding by submitting an inquiry about services rendered to a patient by a chiropractor. The board shall, in its discretion, determine whether the inquiry should be reviewed as a peer review proceeding, as a matter for possible voluntary mediation, or as a disciplinary proceeding. Peer review shall not be used to replace the independent medical/chiropractic examination.

(2) Request for peer review constitutes consent to submission by the requesting party of all necessary records and other information concerning the chiropractic services rendered. Chiropractors licensed under this chapter who are a party to the peer review are required to submit all necessary records and other information concerning services rendered by the chiropractor.

(3) All costs associated with conducting peer review under this chapter shall be borne by the chiropractic profession as part of the licensing fees. Notwithstanding, the board shall assess a fee to cover the costs of the review when the requesting party is a chiropractor or a third-party payor.

NEW SECTION. Sec. 4. (1) The peer review committee may review matters regarding the appropriateness, quality, utilization, or cost of chiropractic services rendered. The peer review committee on each review shall include in its findings a determination whether appropriate chiropractic treatment was rendered, whether the services rendered were properly utilized services, whether treatment or services rendered or ordered were appropriate in accordance with accepted standards, and whether the fees charged were excessive or not.

(2) The committee may appoint subcommittees to assist it in conducting peer review. All activities of the subcommittees shall be reviewed and approved or disapproved by the committee.

(3) The peer review committee shall submit to all parties and to the board a decision setting forth the committee's findings and recommendations.

(4) Any party may appeal the decision to the board. The board, on the record of the peer review committee, may return the proceeding with recommendations to the committee for reconsideration, may initiate disciplinary proceedings, or may approve the decision of the peer review committee, or may take any combination of the above actions.

NEW SECTION. Sec. 5. The peer review committee shall file with the board a complaint against a chiropractor if the committee determines that reasonable cause exists to believe the chiropractor has committed unprofessional conduct. The peer review committee shall transmit all information pertinent to the complaint to the board. Such information shall be confidential and shall be used solely for disciplinary purposes.

NEW SECTION. Sec. 6. The board shall prepare a biennial report summarizing its peer review decisions and shall include such report as part of the board's report requirements under RCW 18.130.310. The published summary of peer review decisions shall not be used and shall not serve as the basis for establishing appropriate fee schedules or treatment regimes for the profession.

NEW SECTION. Sec. 7. No findings or decisions of the peer review committee shall have any effect on or be admissible in any court proceeding or administrative proceedings conducted under another chapter of the Revised Code of Washington.

NEW SECTION. Sec. 8. The senate ways and means committee and the house of representatives appropriations committee shall contract for a study to be conducted on chiropractic care. The study shall examine at least the following: (1) The extent to which chiropractic care services are provided for the treatment of acute care conditions versus maintenance care conditions, and (2) the extent to which possible expansion of the scope of practice of the chiropractic profession to include manipulations or mobilization of extremities will increase utilization of chiropractic services and the anticipated resulting effect on the costs of chiropractic services to payors of such services. The study shall be presented to the legislature by January 1, 1992.

Sec. 9. RCW 18.25.040 and 1991 c 3 s 39 are each amended to read as follows: Persons licensed to practice chiropractic under the laws of any other state, territory of the United States, the District of Columbia, Puerto Rico, or province of Canada, having ~~((equal requirements of))~~ qualifications substantially equivalent to those required by this chapter, may, in the discretion of the board of chiropractic examiners, and after such examination ~~((by the board in principles of chiropractic, x ray, and adjusting, as taught by chiropractic schools and colleges))~~ as may be required by rule of the board, be issued a license to practice in this state without further examination, upon payment of a fee determined by the secretary as provided in RCW 43.70.250.

Nothing in this chapter shall be held to apply to or to regulate any kind of treatment by prayer.

However, the chiropractor shall not establish a practice open to the general public and shall not engage in temporary practice under this section for a period longer than thirty days. The chiropractor shall register his or her intention to engage in the temporary practice of chiropractic in this state with the board of chiropractic examiners before engaging in the practice of chiropractic, and shall agree to be bound by such conditions as may be prescribed by rule by the board.

(2) The practice of chiropractic, except the administration of a chiropractic adjustment, by a person who is a regular senior student in an accredited school of chiropractic approved by the board if the practice is part of a regular course of instruction offered by the school and the student is under the direct supervision and control of a chiropractor duly licensed pursuant to this chapter and approved by the board.

(4) The practice of chiropractic by a person who is eligible and has applied to take the next available examination for licensing offered by the board of chiropractic examiners, except that the unlicensed chiropractor must provide all services under the direct control and supervision of a licensed chiropractor approved by the board. The unlicensed chiropractor may continue to practice as provided by this subsection until the results of the next available examination are published, but in no case for a period longer than six months. The board shall adopt rules necessary to effectuate the intent of this subsection.

Any provision of chiropractic services by any individual under subsection (1), (2), (3), or (4) of this section shall be subject to the jurisdiction of the chiropractic disciplinary board as provided in chapters 18.26 and 18.130 RCW.

NEW SECTION. Sec. 12. The board may adopt rules necessary and appropriate to implement sections 1 through 7 of this act.

NEW SECTION. Sec. 13. Sections 1 through 7 of this act are each added to chapter 18.26 RCW.

(1) "Cogeneration" means the sequential generation of two or more forms of energy from a common fuel or energy source. If these forms are electricity and thermal energy, then the operating and efficiency standards established by 18 C.F.R. Sec. 292.205 and the definitions established by 18 C.F.R. Sec. 292.202 (c) through (m) apply.

(2) "Conservation" means reduced energy consumption or energy cost, or increased efficiency in the use of energy, and activities, measures, or equipment designed to achieve such results, but does not include thermal or electric energy production from cogeneration.

(3) "Cost-effective" means that the present value to a state agency or school district of the energy reasonably expected to be saved or produced by a facility, activity, measure, or piece of equipment over its useful life, including any compensation received from a utility or the bonneville power administration, is greater than the net present value of the costs of implementing, maintaining, and operating such facility, activity, measure, or piece of equipment over its useful life, when discounted at the cost of public borrowing.

(4) "Energy" means energy as defined in RCW 43.21F.025(1).

(5) "Energy efficiency project" means a conservation or cogeneration project.

(6) "Energy efficiency services" means assistance furnished by the energy office to state agencies and school districts in identifying, evaluating, and implementing energy efficiency projects.

(7) "Energy office" means the Washington state energy office.

(8) "Performance-based contracting" means contracts for which payment is conditional on achieving contractually specified energy savings.

(9) "Public facility" means a building or structure, or a group of buildings or structures at a single site, owned by a state agency or school district.

(10) "State agency" means every state office or department, whether elective or appointive, state institutions of higher education, and all boards, commissions, or divisions of state government, however designated.

(11) "State facility" means a building or structure, or a group of buildings or structures at a single site, owned by a state agency.

(12) "Utility" means privately or publicly owned electric and gas utilities, electric cooperatives and mutuals, whether located within or without Washington state.

(13) "Local utility" means the utility or utilities in whose service territory a public facility is located.

NEW SECTION. Sec. 3. CONSERVATION PROJECTS: ROLES AND RESPONSIBILITIES. (1) Each state agency and school district shall implement cost-effective conservation improvements and maintain efficient operation of its facilities in order to minimize energy consumption and related environmental impacts and reduce operating costs.

(2) The energy office shall assist state agencies and school districts in identifying, evaluating, and implementing cost-effective conservation projects at their facilities. The assistance shall include the following:

(a) Notifying state agencies and school districts of their responsibilities under this chapter;

(b) Apprising state agencies and school districts of opportunities to develop and finance such projects;

(c) Providing technical and analytical support, including procurement of performance-based contracting services;

(d) Reviewing verification procedures for energy savings; and

(e) Assisting in the structuring and arranging of financing for cost-effective conservation projects.

(3) Conservation projects implemented under this chapter shall have appropriate levels of monitoring to verify the performance and measure the energy savings over the life of the project. The energy office shall solicit involvement in program planning and implementation from utilities and other energy conservation suppliers, especially those that have demonstrated experience in performance-based energy programs.

(4) The energy office shall comply with the requirements of chapter 39.80 RCW when contracting for architectural or engineering services.

(5) The energy office shall recover any costs and expenses it incurs in providing assistance pursuant to this section, including reimbursement from third parties participating in conservation projects. The energy office shall enter into a written agreement with the state agency or school district for the recovery of costs.

NEW SECTION. Sec. 4. COORDINATION OF CONSERVATION DEVELOPMENT WITH UTILITIES. (1) The energy office shall consult with the local utilities to develop priorities for energy conservation projects pursuant to this chapter, cooperate where possible with existing utility programs, and consult with the local utilities prior to implementing projects in their service territory.

(2) A local utility shall be offered the initial opportunity to participate in the development of conservation projects in the following manner:

(a) Before initiating projects in a local utility service territory, the energy office shall notify the local utility in writing, on an annual basis, of public facilities in the local utility's service territory at which the energy office anticipates cost-effective conservation projects will be developed.

(b) Within sixty days of receipt of this notification, the local utility may express interest in these projects by submitting to the energy office a written description of the role the local utility is willing to perform in developing and acquiring the conservation at these facilities. This role may include any local utility conservation programs which would be available to the public facility, any competitive bidding or solicitation process which the local utility will be undertaking in accordance with the rules of the utilities and transportation commission or the public utility district, municipal utility, cooperative, or mutual governing body for which the public facility would be eligible, or any other role the local utility may be willing to perform.

(c) Upon receipt of the written description from the local utility, the energy office shall, through discussions with the local utility, and with involvement from state agencies and school districts responsible for the public facilities, develop a plan for coordinated delivery of conservation services and financing or make a determination of whether to participate in the local utility's competitive bidding or solicitation process. The plan shall identify the local utility in roles that the local utility is willing to perform and that are consistent with the provisions of section 5(2) (d) and (e) of this act.

NEW SECTION. Sec. 5. SALE OF CONSERVED ENERGY. (1) It is the intent of this chapter that the state, state agencies, and school districts are compensated fairly for the energy savings provided to utilities and be allowed to participate on an equal basis in any utility conservation program, bidding, or solicitation process. State agencies and school districts shall not receive preferential treatment. For the purposes of this section, any type of compensation from a utility or the bonneville power administration intended to achieve reductions or efficiencies in energy use which are cost-effective to the utility or the bonneville power administration shall be regarded as a sale of energy savings. Such compensation may include credits to the energy bill, low or no interest loans, rebates, or payment per unit of energy saved. The energy office shall, in coordination with utilities, the bonneville power administration, state agencies, and school districts, facilitate the sale of energy savings at public facilities including participation in any competitive bidding or solicitation which has been agreed to by the state agency or school district. Energy savings may only be sold to local utilities or, under conditions specified in this section, to the bonneville power administration. The energy office shall not attempt to sell energy savings occurring in one utility service territory to a different utility. Nothing in this chapter mandates that utilities purchase the energy savings.

(2) To ensure an equitable allocation of benefits to the state, state agencies, and school districts, the following conditions shall apply to transactions between utilities or the bonneville power administration and state agencies or school districts for sales of energy savings:

(a) A transaction shall be approved by both the energy office and the state agency or school district.

(b) The energy office and the state agency or school district shall work together throughout the planning and negotiation process for such transactions unless the energy office determines that its participation will not further the purposes of this section.

(c) Before making a decision under (d) of this subsection, the energy office shall review the proposed transaction for its technical and economic feasibility, the adequacy and reasonableness of procedures proposed for verification of project or program performance, the degree of certainty of benefits to the state, state agency, or school district, the degree of risk assumed by the state or school district, the benefits offered

to the state, state agency, or school district and such other factors as the energy office determines to be prudent.

(d) The energy office shall approve a transaction unless it finds, pursuant to the review in (c) of this subsection, that the transaction would not result in an equitable allocation of costs and benefits to the state, state agency, or school district, in which case the transaction shall be disapproved.

(e) In addition to the requirements of (c) and (d) of this subsection, in areas in which the bonneville power administration has a program for the purchase of energy savings at public facilities, the energy office shall approve the transaction unless the local utility cannot offer a benefit substantially equivalent to that offered by the bonneville power administration, in which case the transaction shall be disapproved. In determining whether the local utility can offer a substantially equivalent benefit, the energy office shall consider the net present value of the payment for energy savings; any goods, services, or financial assistance provided by the local utility; and any risks borne by the local utility. Any direct negative financial impact on a nongrowing, local utility shall be considered.

(3) Any party to a potential transaction may, within thirty days of any decision to disapprove a transaction made pursuant to subsection (2) (c), (d), or (e) of this section, request an independent reviewer who is mutually agreeable to all parties to the transaction to review the decision. The parties shall within thirty days of selection submit to the independent reviewer documentation supporting their positions. The independent reviewer shall render advice regarding the validity of the disapproval within an additional thirty days.

NEW SECTION. Sec. 6. AUTHORITIES OF STATE AGENCIES AND SCHOOL DISTRICTS TO IMPLEMENT CONSERVATION. In addition to any other authorities conferred by law:

(1) The energy office, with the consent of the state agency or school district responsible for a facility, a state or regional university acting independently, and any other state agency acting through the department of general administration or as otherwise authorized by law, may:

(a) Develop and finance conservation at public facilities in accordance with express provisions of this chapter;

(b) Contract for energy services, including performance-based contracts; and

(c) Contract to sell energy savings from a conservation project at public facilities to local utilities or the bonneville power administration.

(2) A state or regional university acting independently, and any other state agency acting through the department of general administration or as otherwise authorized by law, may undertake procurements for third-party development of conservation at its facilities.

(3) A school district may:

(a) Develop and finance conservation at school district facilities;

(b) Contract for energy services, including performance-based contracts at school district facilities; and

(c) Contract to sell energy savings from energy conservation projects at school district facilities to local utilities or the bonneville power administration directly or to local utilities or the bonneville power administration through third parties.

(4) In exercising the authority granted by subsections (1), (2), and (3) of this section, a school district or state agency must comply with the provisions of section 5 of this act.

NEW SECTION. Sec. 7. AUTHORITY TO FINANCE CONSERVATION IN SCHOOL DISTRICTS AND STATE AGENCIES. (1) The energy office, in accordance with RCW 43.21F.060(2) may use appropriated moneys to make loans to school districts to provide all or part of the financing for conservation projects. The energy office shall determine the eligibility of such projects for conservation loans and the

terms of such loans. If loans are from moneys appropriated from bond proceeds, the repayments of the loans shall be sufficient to pay, when due, the principal and interest on the bonds and shall be paid to the energy efficiency construction account established in section 11 of this act. To the extent that a school district applies the proceeds of such loans to a modernization or new construction project, such proceeds shall be considered a portion of the school district's share of the costs of such project.

(2) State agencies may use financing contracts under chapter 39.94 RCW to provide all or part of the funding for conservation projects. The energy office shall determine the eligibility of such projects for financing contracts. The repayments of the financing contracts shall be sufficient to pay, when due, the principal and interest on the contracts.

NEW SECTION. Sec. 8. ROLES AND RESPONSIBILITIES OF COGENERATION PROJECTS WITH UTILITIES AND PRIVATE DEVELOPERS.

(1) Consistent with the region's need to develop cost-effective, high efficiency electric energy resources, the state shall investigate and, if appropriate, pursue development of cost-effective opportunities for cogeneration in existing or new state facilities.

(2) To assist state agencies in identifying, evaluating, and developing potential cogeneration projects at their facilities, the energy office shall notify state agencies of their responsibilities under this chapter; apprise them of opportunities to develop and finance such projects; and provide technical and analytical support. The energy office shall recover costs for such assistance through written agreements, including reimbursement from third parties participating in such projects, for any costs and expenses incurred in providing such assistance.

(3)(a) The energy office shall identify priorities for cogeneration projects at state facilities, and, where such projects are initially deemed desirable by the energy office and the appropriate state agency, the energy office shall notify the local utility serving the state facility of its intent to conduct a feasibility study at such facility. The energy office shall consult with the local utility and provide the local utility an opportunity to participate in the development of the feasibility study for the state facility it serves.

(b) If the local utility has an interest in participating in the feasibility study, it shall notify the energy office and the state agency whose facility or facilities it serves within sixty days of receipt of notification pursuant to (a) of this subsection as to the nature and scope of its desired participation. The energy office, state agency, and local utility shall negotiate the responsibilities, if any, of each in conducting the feasibility study, and these responsibilities shall be specified in a written agreement.

(c) If a local utility identifies a potential cogeneration project at a state facility for which it intends to conduct a feasibility study, it shall notify the energy office and the appropriate state agency. The energy office, state agency, and local utility shall negotiate the responsibilities, if any, of each in conducting the feasibility study, and these responsibilities shall be specified in a written agreement. Nothing in this section shall preclude a local utility from conducting an independent assessment of a potential cogeneration project at a state facility.

(d) Agreements written pursuant to (a) and (b) of this subsection shall include a provision for the recovery of costs incurred by a local utility in performing a feasibility study in the event such utility does not participate in the development of the cogeneration project. If the local utility does participate in the cogeneration project through energy purchase, project development or ownership, recovery of the utility's costs may be deferred or provided for through negotiation on agreements for energy purchase, project development or ownership.

(e) If the local utility declines participation in the feasibility study, the energy office and the state agency may receive and solicit proposals to conduct the feasibility study from other parties. Participation of these other parties shall also be secured and

defined by a written agreement which may include the provision for reimbursement of costs incurred in the formulation of the feasibility study.

(4) The feasibility study shall include consideration of regional and local utility needs for power, the consistency of the proposed cogeneration project with the state energy strategy, the cost and certainty of fuel supplies, the value of electricity produced, the capability of the state agency to own and/or operate such facilities, the capability of utilities or third parties to own and/or operate such facilities, requirements for and costs of standby sources of power, costs associated with interconnection with the local electric utility's transmission system, the capability of the local electric utility to wheel electricity generated by the facility, costs associated with obtaining wheeling services, potential financial risks and losses to the state and/or state agency, measures to mitigate the financial risk to the state and/or state agency, and benefits to the state and to the state agency from a range of design configurations, ownership, and operation options.

(5) Based upon the findings of the feasibility study, the energy office and the state agency shall determine whether a cogeneration project will be cost-effective and whether development of a cogeneration project should be pursued. This determination shall be made in consultation with the local utility or, if the local utility had not participated in the development of the feasibility study, with any third party that may have participated in the development of the feasibility study.

(a) Recognizing the local utility's expertise, knowledge, and ownership and operation of the local utility systems, the energy office and the state agency shall have the authority to negotiate directly with the local utility for the purpose of entering into a sole source contract to develop, own, and/or operate the cogeneration facility. The contract may also include provisions for the purchase of electricity or thermal energy from the cogeneration facility, the acquisition of a fuel source, and any financial considerations which may accrue to the state from ownership and/or operation of the cogeneration facility by the local utility.

(b) The energy office may enter into contracts through competitive negotiation under this subsection for the development, ownership, and/or operation of a cogeneration facility. In determining an acceptable bid, the energy office and the state agency may consider such factors as technical knowledge, experience, management, staff, or schedule, as may be necessary to achieve economical construction or operation of the project. The selection of a developer or operator of a cogeneration facility shall be made in accordance with procedures for competitive bidding under chapter 43.19 RCW.

(c) The energy office shall comply with the requirements of chapter 39.80 RCW when contracting for architectural or engineering services.

(6)(a) The state may own and/or operate a cogeneration project at a state facility. However, unless the cogeneration project is determined to be cost-effective, based on the findings of the feasibility study, the energy office and state agency shall not pursue development of the project as a state-owned facility. If the project is found to be cost-effective, and the energy office and the state agency agree development of the cogeneration project should be pursued as a state-owned and/or operated facility, the energy office shall assist the state agency in the preparation of a finance and development plan for the cogeneration project. Any such plan shall fully account for and specify all costs to the state for developing and/or operating the cogeneration facility.

(b) It is the general intent of this chapter that cogeneration projects developed and owned by the state will be sized to the projected thermal energy load of the state facility over the useful life of the project. The principal purpose and use of such projects is to supply thermal energy to a state facility and not primarily to develop generating capacity for the sale of electricity. For state-owned projects with electricity production in excess of projected thermal requirements, the energy office shall seek and

obtain legislative appropriation and approval for development. Nothing in this act shall be construed to authorize any state agency to sell electricity or thermal energy on a retail basis.

(7) When a cogeneration facility will be developed, owned, and/or operated by a state agency or third party other than the local serving utility, the energy office and the state agency shall negotiate a written agreement with the local utility. Elements of such an agreement shall include provisions to ensure system safety, provisions to ensure reliability of any interconnected operations equipment necessary for parallel operation and switching equipment capable of isolating the generation facility, the provision of and reimbursement for standby services, if required, and the provision of and reimbursement for wheeling electricity, if the provision of such has been agreed to by the local utility.

(8) The state may develop and own a thermal energy distribution system associated with a cogeneration project for the principal purpose of distributing thermal energy at the state facility. If thermal energy is to be sold outside the state facility, the state may only sell the thermal energy to a utility.

NEW SECTION. Sec. 9. SALE OF COGENERATED ELECTRICITY AND STEAM. It is the intention of this act that the state and its agencies are compensated fairly for the energy provided to utilities from cogeneration at state facilities. Such compensation may include revenues from sales of electricity or thermal energy to utilities, lease of state properties, and value of thermal energy provided to the facility. It is also the intent of this act that the state and its agencies be accorded the opportunity to compete on a fair and reasonable basis to fulfill a utility's new resource acquisition needs when selling the energy produced from cogeneration projects at state facilities through energy purchase agreements.

(1)(a) The energy office and state agencies may participate in any utility request for resource proposal process, as either established under the rules and regulations of the utilities and transportation commission, or by the governing board of a public utility district, municipal utility, cooperative, or mutual.

(b) If a local utility does not have a request for resource proposal pending, the energy office or a state agency may negotiate an equitable and mutually beneficial energy purchase agreement with that utility.

(2) To ensure an equitable allocation of benefits to the state and its agencies, the following conditions shall apply to energy purchase agreements negotiated between utilities and state agencies:

(a) An energy purchase agreement shall be approved by both the energy office and the affected state agency.

(b) The energy office and the state agency shall work together throughout the planning and negotiation process for energy purchase agreements, unless the energy office determines that its participation will not further the purposes of this section.

(c) Before approving an energy purchase agreement, the energy office shall review the proposed agreement for its technical and economic feasibility, the degree of certainty of benefits, the degree of financial risk assumed by the state and/or the state agency, the benefits offered to the state and/or state agency, and other such factors as the energy office deems prudent. The energy office shall approve an energy purchase agreement unless it finds that such an agreement would not result in an equitable allocation of costs and benefits, in which case the transaction shall be disapproved.

(3)(a) The state or state agency shall comply with and shall be bound by applicable avoided cost schedules, electric power wheeling charges, interconnection requirements, utility tariffs, and regulatory provisions to the same extent it would be required to comply and would be bound if it were a private citizen. The state shall neither seek regulatory advantage, nor change regulations, regulatory policy, process, or decisions to its advantage as a seller of cogenerated energy. Nothing contained in

this act shall be construed to mandate or require public or private utilities to wheel electric energy resources within or beyond their service territories. Nothing in this act authorizes any state agency or school district to make any sale of energy or waste heat as defined by RCW 80.62.020(9) beyond the explicit provisions of this act. Nothing contained in this act requires a utility to purchase energy from the state or a state agency or enter into any agreement in connection with a cogeneration facility.

(b) The state shall neither construct, nor be party to an agreement for developing a cogeneration project at a state facility for the purpose of supplying its own electrical needs, unless it can show that such an arrangement would be in the economic interest of the state taking into account the cost of (i) interconnection requirements, as specified by the local electric utility, (ii) standby charges, as may be required by the local electric utility, and (iii) the current price of electricity offered by the local electric utility. If the local electric utility can demonstrate that the cogeneration project may place an undue burden on the electric utility, the energy office or the state agency shall attempt to negotiate a mutually beneficial agreement that would minimize the burden upon the ratepayers of the local electric utility.

(4) Any party to an energy purchase agreement may, within thirty days of any decision made pursuant to subsection (2)(c) of this section to disapprove the agreement made pursuant to this section, request an independent reviewer who is mutually agreeable to all parties to review the decision. The parties shall within thirty days of selection submit to the independent reviewer documentation supporting their positions. The independent reviewer shall render advice regarding the validity of the disapproval within an additional thirty days.

NEW SECTION. Sec. 10. AUTHORITIES RELATED TO COGENERATION AT STATE AGENCIES. In addition to any other authorities conferred by law:

(1) The energy office, with the consent of the state agency responsible for a facility, a state or regional university acting independently, and any other state agency acting through the department of general administration or as otherwise authorized by law, may:

(a) Contract to sell electric energy generated at state facilities to a utility; and

(b) Contract to sell thermal energy produced at state facilities to a utility.

(2) A state or regional university acting independently, and any other state agency acting through the department of general administration or as otherwise authorized by law, may:

(a) Acquire, install, permit, construct, own, operate, and maintain cogeneration and facility heating and cooling measures or equipment, or both, at its facilities;

(b) Lease state property for the installation and operation of cogeneration and facility heating and cooling equipment at its facilities;

(c) Contract to purchase all or part of the electric or thermal output of cogeneration plants at its facilities;

(d) Contract to purchase or otherwise acquire fuel or other energy sources needed to operate cogeneration plants at its facilities; and

(e) Undertake procurements for third-party development of cogeneration projects at its facilities, with successful bidders to be selected based on the responsible bid, including nonprice elements listed in RCW 43.19.1911, that offers the greatest net achievable benefits to the state and its agencies.

(3) After the effective date of this section, a state agency shall consult with the energy office prior to exercising any authority granted by this section.

(4) In exercising the authority granted by subsections (1) and (2) of this section, a state agency must comply with the provisions of section 9 of this act.

NEW SECTION. Sec. 11. ENERGY EFFICIENCY CONSTRUCTION ACCOUNT. (1) The energy efficiency construction account is hereby created in the state treasury. Moneys in the account may be spent only after appropriation and only for the following purposes:

(a) Construction of energy efficiency projects, including project evaluation and verification of benefits, project design, project development, project construction, and project administration.

(b) Payment of principal and interest and other costs required under bond covenant on bonds issued for the purpose of (a) of this subsection.

(2) Sources for this account may include:

(a) General obligation and revenue bond proceeds appropriated by the legislature;

(b) Loan repayments under section 7 of this act sufficient to pay principal and interest obligations; and

(c) Funding from federal, state, and local agencies.

(3) The energy office shall establish criteria for approving energy efficiency projects to be financed from moneys disbursed from this account. The criteria shall include cost-effectiveness, reliability of energy systems, and environmental costs or benefits. The energy office shall ensure that the criteria are applied with professional standards for engineering and review.

NEW SECTION. Sec. 12. ENERGY EFFICIENCY SERVICES ACCOUNT. (1) The energy efficiency services account is created in the state treasury. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only (a) for the energy office to provide energy efficiency services to state agencies and school districts including review of life-cycle cost analyses and (b) for transfer by the legislature to the state general fund.

(2) All receipts from the following sources shall be deposited into the account:

(a) Project fees charged under this section and sections 3, 8, and 16 of this act;

(b) After payment of any principal and interest obligations, moneys from repayments of loans under section 7 of this act;

(c) Revenue from sales of energy generated or saved at public facilities under this chapter, except those retained by state agencies and school districts under section 13 of this act; and

(d) Payments by utilities and federal power marketing agencies under this chapter, except those retained by state agencies and school districts under section 13 of this act.

(3) The energy office may accept moneys and make deposits to the account from federal, state, or local government agencies.

(4) Within one hundred eighty days after the effective date of this act, the energy office shall adopt rules establishing criteria and procedures for setting a fee schedule, establishing working capital requirements, and receiving deposits for this account.

NEW SECTION. Sec. 13. PROJECT BENEFITS. (1) Potential benefits from energy efficiency projects at public facilities include savings in the form of reduced energy costs; revenues from lease payments, sales of energy or energy savings, or other sources; avoided capital costs; site enhancements; and additional operating and maintenance resources.

(2) To encourage these projects at state facilities, and notwithstanding any other provision of law, the following benefits from energy efficiency projects completed after the effective date of this chapter shall be apportioned as specified:

(a) As to conservation, state agencies may retain all net savings in the form of reduced energy costs, and one-half of all net revenues from any transaction with a utility, the bonneville power administration, or other entity. The net savings shall be retained by the local administrative body responsible for the public facility;

(b) As to cogeneration projects, state agencies may retain one-half of all net savings in the form of reduced energy costs and twenty percent of all net revenues generated by the project from any source except that state institutions of higher education may retain one-half of all net revenues generated by the project; and

(c) The remaining net revenues from conservation projects, and remaining net savings and revenues from cogeneration projects, shall be remitted to the state for the disposition and uses specified in subsection (4) of this section.

(3) Each state agency's share of net savings from cogeneration projects and of all net revenues shall be credited to a special local account created under section 18 of this act, the use of which shall be limited, in priority order, to ongoing operation, maintenance, and improvements of energy systems and energy efficiency measures, to other ongoing and deferred maintenance, and to other infrastructure improvements at the facility that was the site of the energy efficiency project.

(4) The state's share of net savings from cogeneration projects and of all net revenues, and any portion of the state agency's share which exceeds its needs for the purposes specified in subsection (3) of this section, shall be deposited in the energy efficiency services account established by section 12 of this act.

(5) The use by state agencies of net savings and net revenues from energy efficiency projects shall be in addition to, and shall not supplant or replace, funding from traditional sources for their normal operations and maintenance or capital budgets. It is the intent of this subsection to ensure that such institutions receive the full benefit intended by this section, and that such effect will not be diminished by budget adjustments inconsistent with this intent.

(6) Energy efficiency projects in school districts, funded in whole or in part with state assistance provided under chapter 28A.525 RCW, or with the financing mechanisms authorized by this chapter, shall be subject to the provisions of this section governing the apportionment and use of savings and revenues from energy efficiency projects.

(7) For purposes of this section, "net" savings and revenues shall mean savings and revenues remaining after payment of project capital costs, including debt service, and other payments and reserves as required by a bond resolution or loan agreement under this chapter, and payment of project operating and maintenance expenses. The energy office shall develop guidelines and procedures for determining net savings and net revenues for energy efficiency projects at public facilities by April 1, 1992.

(8) The energy office shall report annually until the year 2006 to the director of the office of financial management and the chairs of the senate ways and means committee and the appropriate house of representatives fiscal committees a full and complete financial accounting for energy efficiency projects undertaken pursuant to this act, including but not limited to a description of the project, its location and sponsoring agency or school district, date of completion or, if not completed, status of construction, the amount of investment in and expenditures on the project, the amount of revenues received from the project and estimated savings, if any, during the past year, estimated revenues, expenditures, and investments for the ensuing five years, the useful life originally estimated for the project, and the useful life of the project estimated to remain as of the date of the report, and the amount of savings and revenues from energy conservation and cogeneration retained by individual state agencies.

NEW SECTION. Sec. 8. It is the intent of the legislature to provide timely, thorough, and fair procedures for resolution of grievances of clients, foster parents, and the community resulting from decisions made by the department of social and health services. Grievances should be resolved at the lowest level possible, however, all levels of the department should be held accountable and responsible to individuals who are experiencing difficulties with their services or decisions.

NEW SECTION. Sec. 9. A new section is added to chapter 74.13 RCW to read as follows:

The department shall develop and implement, by July 1, 1991, a formal complaint resolution process to be used by clients of the department, individual complainants, and foster parents who have complaints regarding a policy of a division of the department or procedure or the application of a division policy or procedure.

After a complainant initiates the complaint resolution process, jurisdiction shall continue for thirty days unless an extension is agreed to by the complainant. After thirty days, if no extension has been agreed to, the complainant may file an application for an adjudicative proceeding under chapter 34.05 RCW.

The department shall develop procedures to assure that clients of the department and foster parents are informed of the availability of the complaint resolution process and how to access it. The department shall incorporate information regarding the complaint resolution process into the training for foster parents and caseworkers.

Any client of the department, individual complainant, or foster parent who uses the department's complaint resolution process and who is subjected to any reprisal or retaliatory action undertaken after the complainant makes his or her complaint known to the department may seek judicial review of the reprisal or retaliatory action in superior court. In such action, the reviewing court may award reasonable attorneys' fees.

The department shall compile complaint resolution data including about whom a complaint was made, by whom, and the outcome of the complaint. The department shall submit semiannual reports, due January and July of each year, beginning January 1992, to the senate children and family services committee and the house of representatives human services committee.

NEW SECTION. Sec. 10. A new section is added to chapter 74.13 RCW to read as follows:

A foster parent or relative care provider may seek review of an agency decision to remove a foster child residing in the home of the foster parent or relative, pursuant to a court order entered in a proceeding under this chapter, through use of the department's complaint resolution process. The complaint resolution process shall not be used to contest a decision to return the child home when a court order has been entered to that effect or to contest a decision regarding visitation. The foster parent or relative care provider shall initiate that process within five days of receipt of the removal decision notification. Thirty days following the initiation of the department's complaint resolution process, unless an agreed extension exists, the foster parent or relative care provider may file an application for an adjudicative proceeding under chapter 34.05 RCW. The agency shall schedule the adjudicative hearing within five days after the application is filed. A final order shall be issued by the presiding officer of the adjudicative proceeding within twenty-one days after conclusion of the hearing

or after submission of memos, briefs, or proposed findings in accordance with RCW 34.05.461(7).

The general public shall be excluded from adjudicative proceedings regarding agency removal decisions. Only parties to the adjudicative or the dependency proceeding or persons the judge finds to have a direct interest in the case shall be admitted.

NEW SECTION. Sec. 11. A new section is added to chapter 74.13 RCW to read as follows:

If a foster parent or relative care provider is using the department's complaint resolution process to review a decision to remove a child from the foster family home or from a relative home or has filed an application for an adjudicative proceeding, the foster child shall remain in the foster or relative home unless the regional administrator determines that the child's safety is in jeopardy or that other compelling reasons exist necessitating the removal.

Sec. 12. RCW 74.13.300 and 1990 c 284 s 12 are each amended to read as follows:

(1) Whenever a child has been placed in a foster family home or the home of a relative care provider by the department or a child-placing agency and the child has thereafter resided in the home for at least ninety consecutive days, the department or child-placing agency shall notify the foster family in writing of the reasons upon which the decision to move the child was based, at least five days prior to moving the child to another placement, unless:

(a) A court order has been entered requiring an immediate change in placement;

or

(b) ~~((The child is being returned home;~~

~~(c))~~ The child's safety is in jeopardy~~((; or~~

~~(d) The child is residing in a receiving home or a group home)).~~

(2) If a decision is made by the department or a child-placing agency to move a child to another placement, the foster family parent or relative care provider shall receive written notice of his or her right to request a review of the removal decision regarding a child that is residing in the home of the foster parent or relative pursuant to a court order entered in a proceeding under this chapter through the department's complaint resolution process. The notification shall also advise the foster family parent or relative care provider that if the complaint remains unresolved after use of the department's complaint resolution process, he or she may file an application for an adjudicative proceeding under chapter 34.05 RCW. Notification of the department's complaint resolution process and right to an adjudicative proceeding is not required to be provided if:

(a) A court order has been entered requiring an immediate change in placement;

or

(b) The child is being returned home and a court order has been entered to that effect.

(3) If the child has resided in a foster family home for less than ninety days or if, due to one or more of the circumstances in subsection (1) of this section, it is not possible to give five days' notification, the department or child-placing agency shall notify the foster family of proposed placement changes as soon as reasonably possible.

~~((3))~~ (4) This section is intended solely to assist in minimizing disruption to the child in changing foster care placements. Nothing in this section shall be construed to ~~((require that a court hearing be held prior to changing a child's foster care placement nor to))~~ create any substantive custody rights in the foster parents.

NEW SECTION. Sec. 13. A new section is added to chapter 74.13 RCW to read as follows:

The department shall establish rules specifying the criteria needed to be a foster-adopt parent and create a license for that category of foster parent. Specific placement

procedures regarding foster-adopt shall be incorporated into the training for caseworkers. The department shall develop a form that constitutes an agreement between the department and each foster-adopt parent. The agreement shall include, in bold-faced, capital letters, the fact that there is no guarantee that parental rights to a foster child being placed in the foster-adopt home will be terminated. The form shall include a section where the foster-adopt parents indicate what representations, if any, were made to them by the department regarding adoption. The department shall implement the foster-adopt agreement form by July 1, 1991, and report back to the legislature by September 1, 1991. If parental rights to the child in the foster-adopt home are terminated, the foster-adopt parents shall be given first consideration to adopt the foster child. If foster-adopt parents seek judicial review of a decision to remove a foster child from their care and prevail, the department shall pay court costs and attorneys' fees.

NEW SECTION. Sec. 14. A new section is added to chapter 13.34 RCW to read as follows:

If a child has resided in a foster-adopt home for a period of twelve months or more, the foster-adopt parents may file a petition seeking termination of the parent and child relationship.

Sec. 15. RCW 13.34.110 and 1983 c 311 s 4 are each amended to read as follows:

The court shall hold a fact-finding hearing on the petition and, unless the court dismisses the petition, shall make written findings of fact, stating the reasons therefor, and after it has announced its findings of fact shall hold a hearing to consider disposition of the case immediately following the fact-finding hearing or at a continued hearing within fourteen days or longer for good cause shown. The parties need not appear at the fact-finding or dispositional hearing if all are in agreement; but the court shall receive and review a social study before entering an order based on agreement. No social file or social study may be considered by the court in connection with the fact-finding hearing or prior to factual determination, except as otherwise admissible under the rules of evidence. Notice of the time and place of the continued hearing may be given in open court. If notice in open court is not given to a party, that party shall be notified by mail of the time and place of any continued hearing.

All hearings may be conducted at any time or place within the limits of the county, and such cases may not be heard in conjunction with other business of any other division of the superior court. The general public shall be excluded, and only such persons may be admitted who are found by the judge to have a direct interest in the case or in the work of the court. If a child resides in foster care or in the home of a relative pursuant to a disposition order entered under RCW 13.34.130, the court shall allow the child's foster parent or relative care provider to attend dependency review proceedings pertaining to the child for the purpose of providing information about the child to the court.

Stenographic notes or any device which accurately records the proceedings may be required as provided in other civil cases pursuant to RCW 2.32.200.

NEW SECTION. Sec. 16. A new section is added to chapter 13.34 RCW to read as follows:

If a dependent child has resided in the home of a foster parent or a relative for at least eighteen months pursuant to a court order entered in a proceeding under this chapter, the foster parent or relative may file a motion to intervene as a party in the action pertaining to the child. The motion to intervene shall be served upon the parties to the action as provided in applicable juvenile court and superior court rules.

NEW SECTION. Sec. 17. Sections 8 through 16 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

POINT OF ORDER

Senator Craswell: "A point of order, Mr. President. I would challenge this amendment on scope and object. The amendment establishes a formal grievance procedure and I believe that is beyond the scope and object of the bill which allows the department to study their assessing process and the gang and drug involvement regarding juvenile offenders and examines statutory staffing requirements. I believe this would be beyond the scope of this bill."

PERSONAL PRIVILEGE

Senator von Reichbauer: "Mr. President, I rise to a point of personal privilege. Yesterday, we had before us, House Bill No. 1487 and I had two painful experiences yesterday. One was in the cafeteria where I lost a filling while I was eating my lunch with Senator Snyder and the other was the confusion I might have caused Senator Moore on the amendment to House Bill No. 1487. Whether it was the distraction of the tooth or the confusion when the bill came up, I am disappointed in myself in not letting Senator Moore know he was going to have to carry that amendment to that particular bill. That amendment was opposed by both myself and Senator Pelz in the Senate Committee on Financial Institutions and Insurance and had I given Senator Moore more advanced warning, he might have been better prepared to deal with that and I apologize to Senator Moore."

SUBSTITUTE HOUSE BILL NO. 1743, by House Committee on Financial Institutions and Insurance (originally sponsored by Representatives Dellwo, Broback, R. Meyers, R. Johnson, Dorn, Zellinsky, Paris, Scott and Winsley)

Revising regulation of high-interest consumer loans.

The bill was read the second time.

MOTIONS

On motion of Senator von Reichbauer, the following Committee on Financial Institutions and Insurance amendment was adopted:

On page 3, line 27, after "to extend" insert "credit"

On motion of Senator von Reichbauer, the rules were suspended, Substitute House Bill No. 1743, as amended by the Senate, was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Metcalf: "Senator von Reichbauer, I am deeply concerned and have always been with the inordinate costs of consumer loans. What will be the ultimate impact? Will this raise the price to the consumer on consumer loans? One talks about a flat maximum permitted interest rate of twenty-five percent per year. To me, that doesn't sound like interest, that sounds like loan-sharking."

Senator von Reichbauer: "Senator Metcalf, yesterday Senator Talmadge also raised questions on that, in advance of today's discussion, so that we would have a chance to review that and we put together figures of one and five thousand dollar loans."

REMARKS BY PRESIDENT PRITCHARD

President Pritchard: "Just a minute. We have to have some order in the Senate here, particularly when there is a colloquy between two members. It is important; it will be a long day--a lot of bills--and we will have to hold, not only the conversation between members, but the amount of volume that you use when you talk to your offices on the phone. All right, continue."

Senator von Reichbauer: "In response, Senator Talmadge had raised this issue yesterday, concerned with the same question you raised. So, we had

the opportunity to prepare a review of typical loans that were offered. In fact, we found that it was not only a wash with the changes, but in some cases, because of the Rule 78, one that I quite frankly--after several hearings--never have been really able to understand--the Rule 78. I'm sure Senator Moore or someone else, with more experience in this area, could. It is, in fact, a wash with the average consumer.

"What we have done is delete language that is not working and we have done that by increasing fees in other areas, so that we are increasing fees proportionate to what we are decreasing on one side of the ledger. It is a wash."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Substitute House Bill No. 1743, as amended by the Senate.

MESSAGE FROM THE HOUSE

April 9, 1991

MR. PRESIDENT:

The House has passed SECOND SUBSTITUTE SENATE BILL NO. 5341 with the following amendments:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature recognizes the unique legal risks that foster parents face in taking children into their care. Third parties have filed claims against foster parents for losses and damage caused by foster children. Additionally, foster children and their parents have sued foster parents for actions occurring while the children were in foster care. The legislature finds that some potential foster parents are unwilling to subject themselves to potential liability without insurance protection. The legislature further finds that to encourage those people to serve as foster parents, it is necessary to assure that such insurance is available to them.

NEW SECTION. Sec. 2. A new section is added to chapter 74.14B RCW to read as follows:

(1) Subject to subsection (2) of this section, the secretary of social and health services shall provide liability insurance to foster parents licensed under chapter 74.15 RCW. The coverage shall be for personal injury and property damage caused by foster parents or foster children that occurred while the children were in foster care. Such insurance shall cover acts of ordinary negligence but shall not cover illegal conduct or bad faith acts taken by foster parents in providing foster care. Moneys paid from liability insurance for any claim are limited to the amount by which the claim exceeds the amount available to the claimant from any valid and collectible liability insurance.

(2) The secretary of social and health services may purchase the insurance required in subsection (1) of this section or may choose a self-insurance method. The total moneys expended pursuant to this authorization shall not exceed five hundred thousand dollars per biennium. If the secretary elects a method of self-insurance, the expenditure shall include all administrative and staff costs. If the secretary elects a method of self-insurance, he or she may, by rule, place a limit on the maximum amount to be paid on each claim.

(3) Nothing in this section or section 3 of this act is intended to modify the foster parent reimbursement plan in place on the effective date of this act.

(4) The liability insurance program shall be available by July 1, 1991.

NEW SECTION. Sec. 3. A new section is added to chapter 4.24 RCW to read as follows:

In actions for personal injury or property damage commenced by foster children or their parents against foster parents licensed pursuant to chapter 74.15 RCW, the liability of foster parents for the care and supervision of foster children shall be the same as the liability of biological and adoptive parents for the care and supervision of their children.

NEW SECTION. Sec. 4. If specific funding for the purposes of this act, referencing this act by bill number, is not provided by June 30, 1991, in the omnibus appropriations act, this act shall be null and void.

NEW SECTION. Sec. 5. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1991.

On page 1, line 1 of the title, after "parents;" strike the remainder of the title and insert "adding a new section to chapter 74.14B RCW; adding a new section to chapter 4.24 RCW; creating new sections; providing an effective date; and declaring an emergency.", and the same are herewith transmitted.

(2) Any levy authorized by this section shall be subject to the following:

(a) Any county ordinance or resolution adopted pursuant to this section shall contain, in addition to all other provisions required to conform to this chapter, a provision allowing a credit against the county tax for the full amount of any city tax imposed pursuant to this section upon the same taxable event.

(b) In the event that any county has levied the tax authorized by this section and has, prior to June 26, 1975, either pledged the tax revenues for payment of principal and interest on city revenue or general obligation bonds authorized and issued pursuant to RCW 67.28.150 through 67.28.160 or has authorized and issued revenue or general obligation bonds pursuant to the provisions of RCW 67.28.150 through 67.28.160, such county shall be exempt from the provisions of subsection (a), to the extent that the tax revenues are pledged for payment of principal and interest on bonds issued at any time and maturing before January 1, 2013, pursuant to the provisions of RCW 67.28.150 through 67.28.160: PROVIDED, That so much of such pledged tax revenues, together with any investment earnings thereon, not immediately necessary for actual payment of principal and interest on such bonds may be used: (i) In class AA counties, for repayment either of limited tax levy general obligation bonds or of any county fund or account from which a loan was made, the proceeds from the bonds or loan being used to pay for constructing, installing, improving, and equipping stadium capital improvement projects, and to pay for any engineering, planning, financial, legal and professional services incident to the development of such stadium capital improvement projects, regardless of the date the debt for such capital improvement projects was or may be incurred; or (ii) in counties other than class AA counties, for county-owned facilities for agricultural promotion.

As used in this subsection (2)(b), "capital improvement projects" may include, but not be limited to a stadium restaurant facility, restroom facilities, artificial turf system, seating facilities, parking facilities and scoreboard and information system adjacent to or within a county owned stadium, together with equipment, utilities, accessories and appurtenances necessary thereto. The stadium restaurant authorized by this subsection (2)(b) shall be operated by a private concessionaire under a contract with the county.

(c) No city within a county exempt under subsection (2)(b) of this section may levy the tax authorized by this section so long as said county is so exempt: PROVIDED, That in the event that any city in such county has levied the tax authorized by this section and has, prior to June 26, 1975, authorized and issued revenue or general obligation bonds pursuant to the provisions of RCW 67.28.150 through 67.28.160, such city may levy the tax so long as and to the extent that the tax revenues are pledged for payment of principal and interest on bonds issued pursuant to the provisions of RCW 67.28.150 through 67.28.160.

(3) Any levy authorized by this section by a county that has levied the tax authorized by this section and has, prior to June 26, 1975, either pledged the tax revenues for payment of principal and interest on city revenue or general obligation bonds authorized and issued pursuant to RCW 67.28.150 through 67.28.160 or has authorized and issued revenue or general obligation bonds pursuant to the provisions of RCW 67.28.150 through 67.28.160 shall be subject to the following:

(a) Taxes collected under this section in any calendar year in excess of five million three hundred thousand dollars shall only be used as follows:

(i) For art museums, cultural museums, heritage activities and projects, the arts, ~~((and/or))~~ and the performing arts~~((~~

~~))~~, including performing arts facilities constructed by municipalities with consideration to the proportional location of lodging facilities generating revenues under this section: Seventy-five percent from January 1, 1991, through December 31, 2000, and seventy percent from January 1, 2001, through December 31, 2012;

(ii) For stadium capital improvement projects, as defined in subsection (2)(b) of this section: Nineteen percent from January 1, 1991, through December 31, 2000, and twenty-six and five-tenths percent from January 1, 2001, through December 31, 2012; and

(iii) For tourism promotion: Six percent from January 1, 1991, through December 31, 2000, and three and five-tenths percent from January 1, 2001, through December 31, 2012.

(b) At least seventy percent of moneys spent under (a)(i) of this subsection for the period January 1, 1991, through December 31, 2000, shall be used only for the purchase, design, construction, and remodeling of performing arts, visual arts, heritage, and cultural facilities, and for the purchase of fixed assets that will benefit art, heritage, and cultural organizations. For purposes of this subsection, fixed assets are tangible objects such as machinery and other equipment intended to be held or used for ten years or more. Qualifying organizations receiving moneys under this subsection must be financially stable and have at least the following:

(vi) Evidence that there has been independent financial review of the organization.

Only qualifying organizations under this subsection and general purpose local governments are eligible to receive the remaining moneys spent under (a)(i) of this subsection.

From the taxes distributed each year under (a)(ii) of this subsection, five hundred thousand dollars shall be used by the county to fund the capital and operating costs of youth sport facilities owned and operated by a local governmental entity. No youth sport facility is eligible for funding of capital costs under this subparagraph unless (A) the local governmental entity provides matching funds equal to twenty-five percent of the total amount of funding required and (B) the local governmental entity applies the funds to expanding the use of the facilities by persons under eighteen years of age. Funds received for operating costs may also be used to extend the hours in which the facilities are open for use and may be used to provide referees and umpires for youth sports activities. As used in this subparagraph, capital costs include the design, acquisition, construction, maintenance, and improvement of fields and facilities for youth sports activities.

(c) At least nineteen and five-tenths percent of the revenues distributed pursuant to (a)(i) of this subsection for the period January 1, 2001, through December 31, 2012,

shall be deposited in an account and shall be used to establish an endowment. Principal in the account shall remain permanent and irreducible. The earnings from investments of balances in the account may only be used for the purposes of (a)(i) of this subsection.

(d) Moneys distributed to art museums, cultural museums, heritage activities and projects, the arts, and the performing arts, and moneys distributed for tourism promotion shall be in addition to and may not be used to replace or supplant any other funding by the legislative body of the county.

(e) As used in this section, "tourism promotion" includes activities intended to attract visitors for overnight stays, arts, heritage, and cultural events, and recreational, professional, and amateur sports events. Moneys allocated to tourism promotion shall be allocated to nonprofit organizations formed for the express purpose of tourism promotion in a class AA county. Such organizations shall use moneys from the taxes to promote events in all parts of the class AA county.

(f) No taxes collected under this section may be used for the operation or maintenance of a public stadium that is financed directly or indirectly by bonds to which the tax is pledged. Expenditures for operation or maintenance include all expenditures other than expenditures that directly result in new fixed assets or that directly increase the capacity, life span, or operating economy of existing fixed assets.

((e)) (g) No ad valorem property taxes may be used for debt service on bonds issued for a public stadium that is financed by bonds to which the tax is pledged, unless the taxes collected under this section are or are projected to be insufficient to meet debt service requirements on such bonds.

((d)) (h) If a substantial part of the operation and management of a public stadium that is financed directly or indirectly by bonds to which the tax is pledged is performed by a nonpublic entity or if a public stadium is sold that is financed directly or indirectly by bonds to which the tax is pledged, any bonds to which the tax is pledged shall be retired.

((e)) (i) The county shall not lease a public stadium that is financed directly or indirectly by bonds to which the tax is pledged to, or authorize the use of the public stadium by, a professional major league sports franchise unless the sports franchise gives the right of first refusal to purchase the sports franchise, upon its sale, to local government. This subsection (3)((e))(i) does not apply to contracts in existence on April 1, 1986.

If a court of competent jurisdiction declares any provision of this subsection (3) invalid, then that invalid provision shall be null and void and the remainder of this section is not affected.

NEW SECTION. Sec. 2. This act shall take effect January 1, 1992.

On motion of Senator Matson, the following amendment to the Committee on Ways and Means amendment was adopted:

On page 2, line 6, after "and" insert ", for class AA counties,"

The President declared the question before the Senate to be the adoption of the Committee on Ways and Means striking amendment, as amended, to Engrossed House Bill No. 2093.

POINT OF INQUIRY

Senator Niemi: "Senator McDonald, I have read the summary of the Senate amendment to this bill and I also have read the bill and it looks to me like any arts organization which would qualify for funding would have to have

a building. They would have to have a building; they would have to have some kind of a capital to receive any of this money and they also would have to have been in existence and operating for at least two years. If I read this right, that means that no new arts organizations, small or large, would ever be able to tap into this and it also means that arts organizations, and there are many worthwhile arts organizations, which don't have a building would not get any of these funds. Am I reading it right?"

Senator McDonald: "You know, Senator Niemi, you may have to go across the rotunda and talk with Representative Locke, because we have not changed that portion of the bill. We simply dealt with the amount that would be shifted between the county, the King Dome, the tourism promotion, the sports promotion and the arts. I think we have given a summary of that. I can't give you the particulars on that."

Further debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator McDonald, how much money of this will go to the arts?"

Senator McDonald: "Senator Rasmussen, between now and the year 2012, a hundred and seventy-three million would go to the arts. Sixty-one million dollars would go to the King Dome and nine point four million would go to tourism and sports promotion for a total of two hundred and forty-three million dollars. If you want to know between now and the year 2000, it would be thirty-two million dollars for the arts, seven point six million dollars to the King Dome and two point four million dollars to tourism."

Senator Rasmussen: "Does the city of Seattle also have the one percent fee on all construction for the arts?"

Senator McDonald: "I think that is part of state law that requires, on all public buildings, to have one percent for the arts."

Senator Rasmussen: "State law is one-half percent. Jonathan Whetzel wanted a one percent and we amended it down to one-half percent, which amounts to millions. I think Seattle went to one percent, which is a half more than the state."

Further debate ensued.

The President declared the question before the Senate to be the adoption of the Committee on Ways and Means striking amendment, as amended, to Engrossed House Bill No. 2093.

Sec. 4. RCW 74.46.481 and 1990 c 207 s 1 are each amended to read as follows:

(1) The nursing services cost center shall include all costs related to the direct provision of nursing and related care, including fringe benefits and payroll taxes for the nursing and related care personnel. For rates effective for state fiscal year 1984, the department shall adopt by administrative rule a definition of "related care" which shall incorporate, but not exceed services reimbursable as of June 30, 1983. For rates effective for state fiscal year 1985, the definition of related care shall include ancillary care. For rates effective after June 30, 1991, nursing services costs, as reimbursed within this chapter and as tested for reasonableness within this section, shall not include costs of any purchased direct nursing service in excess of the costs the facility would have incurred for regular service employees.

(2) The department shall adopt by administrative rules a method for establishing a nursing services cost center rate consistent with the principles stated in this section.

(3) Utilizing regression or other statistical technique, the department shall determine a reasonable limit on facility nursing staff taking into account facility patient characteristics. For purposes of this section, facility nursing staff refers to registered nurses, licensed practical nurses and nursing assistants employed by the facility or obtained through temporary labor contract arrangements. Effective January 1, 1988, the hours associated with the training of nursing assistants and the supervision of that training for nursing assistants shall not be included in the calculation of facility nursing staff. In selecting a measure of patient characteristics, the department shall take into account:

(a) The correlation between alternative measures and facility nursing staff; and

(b) The cost of collecting information for and computation of a measure.

If regression is used, the limit shall be set at predicted nursing staff plus 1.75 regression standard errors. If another statistical method is utilized, the limit shall be set at a level corresponding to 1.75 standard errors above predicted staffing computed according to a regression procedure.

(4) No facility shall receive reimbursement for nursing staff levels in excess of the limit, except that, if a facility was reimbursed for a nursing staff level in excess of the limit as of June 30, 1983, the facility may chose to continue to receive its June, 1983 nursing services rate plus any adjustments in rates, such as adjustments for economic trends, made available to all facilities. However, nursing staff levels established under subsection (3) of this section shall not apply to the nursing services cost center reimbursement rate for the pilot facility especially designed to meet the needs of persons living with AIDS as defined by RCW 70.24.017 and specifically authorized for this purpose under the 1989 amendment to the Washington state health plan [1989 1st ex.s. c 9]. The reasonableness limit established pursuant to this subsection shall remain in effect for the period July 1, 1983 through June 30, 1985. At that time the department may revise the measure of patient characteristics or method used to establish the limit.

(5) The department shall select an index of cost increase relevant to the nursing and related services cost area. In the absence of a more representative index, the department shall use the medical care component index as maintained by the United States bureau of labor statistics.

(6) If a facility's nursing staff level is below the limit specified in subsection (3) of this section, the department shall determine the percentage increase for all items included in the nursing services cost center between the facility's most recent cost reporting period and the next prior cost reporting period.

(a) If the percentage cost increase for a facility is below the increase in the selected index for the same time period, the facility's reimbursement rate in the nursing services cost center shall equal the facility's cost from the most recent cost reporting period plus any allowance for inflation provided by legislative appropriation.

(b) If the percentage cost increase for a facility exceeds the increase in the selected index, the department shall limit the cost used for setting the facility's rate in the nursing services cost area to a level reflecting the increase in the selected index.

(7) If the facility's nursing staff level exceeds the reasonableness limit established in subsection (3) of this section, the department shall determine the increase for all items included in the nursing services cost center between the facility's most recent cost reporting period and the next prior cost reporting period.

(a) If the percentage cost increase for a facility is below the increase in the index selected pursuant to subsection (5) of this section, the facility's reimbursement rate in the nursing cost center shall equal the facility's cost from the most recent cost reporting period adjusted downward to reflect the limit on nursing staff, plus any allowance for inflation provided by legislative appropriation subject to the provisions of subsection (4) of this section.

(b) If the percentage cost increase for a facility exceeds the increase in the selected index, the department shall limit the cost used for setting the facility's rate in the nursing services cost center to a level reflecting the nursing staff limit and the cost increase limit, subject to the provisions of subsection (4) of this section, plus any allowance for inflation provided by legislative appropriation.

(8) Prospective rates for the nursing services cost center for state fiscal year 1992 shall not be subject to the cost index lid in subsections (5), (6), and (7) of this section. The total of all rates increases for the nursing services cost center for any nursing facility, including prospective rate increases authorized pursuant to RCW 74.46.495 and 74.46.460 but excluding costs associated with new federal regulatory requirements, during this period shall not exceed fifty percent of the average rate paid during fiscal year 1991 for the nursing services cost center for that nursing facility.

(9) The department is authorized to determine on a systematic basis facilities with unmet patient care service needs. The department may increase the nursing services cost center prospective rate for a facility beyond the level determined in accordance with subsection (6) of this section if the facility's actual and reported nursing staffing

is one standard error or more below predicted staffing as determined according to the method selected pursuant to subsection (3) of this section and the facility has unmet patient care service needs: PROVIDED, That prospective rate increases authorized by this subsection shall be funded only from legislative appropriations made for this purpose and the increases shall be conditioned on specified improvements in patient care at such facilities.

~~((9))~~ (10) The department shall establish a method for identifying patients with exceptional care requirements and a method for establishing or negotiating on a consistent basis rates for such patients.

~~((10))~~ (11) The department, in consultation with interested parties, shall adopt rules to establish the criteria the department will use in reviewing any requests by a contractor for a prospective rate adjustment to be used to increase the number of nursing staff. These rules shall also specify the time period for submission and review of staffing requests: PROVIDED, That a decision on a staffing request shall not take longer than sixty days from the date the department receives such a complete request. In establishing the criteria, the department may consider, but is not limited to, the following:

- (a) Increases in acuity levels of contractors' residents;
- (b) Staffing patterns for similar facilities;
- (c) Physical plant of contractor; and
- (d) Survey, inspection of care, and department consultation results.

Sec. 5. RCW 74.46.530 and 1985 c 361 s 17 are each amended to read as follows:

(1) The department shall establish for individual facilities return on investment allowances composed of two parts: A financing allowance and a variable return allowance.

(a) The financing allowance shall be determined by multiplying the net invested funds of each facility by .11 and dividing by the contractor's total patient days. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total patient days used in computing the financing and variable return allowances shall be adjusted to the anticipated patient day level.

(b) In computing the portion of net invested funds representing the net book value of tangible fixed assets, the same assets, depreciation bases, lives, and methods referred to in RCW 74.46.330, 74.46.350, 74.46.360, and 74.46.370, including owned and leased assets, shall be utilized, except that the capitalized cost of land upon which the facility is located and such other contiguous land which is reasonable and necessary for use in the regular course of providing patient care shall also be included. In the case of leased facilities where the net invested funds are unknown or the contractor is unable to provide necessary information to determine net invested funds, the secretary shall have the authority to determine an amount for net invested funds based on an appraisal conducted according to RCW 74.46.360(1).

(c) In determining the variable return allowance:

(i) The department will first rank all facilities in numerical order from highest to lowest according to their average per diem allowable costs for the sum of the administration and operations and property cost centers for the previous cost report period.

(ii) The department shall then compute the variable return allowance by multiplying the appropriate percentage amounts, which shall not be less than one percent and not greater than four percent, by the total prospective rate for each facility, as determined in RCW 74.46.450 through 74.46.510. Beginning on July 1, 1992, the percentage amounts shall range from zero to not greater than three percent. The percentage amounts will be based on groupings of facilities according to the rankings as established in subparagraph (1)(b)(i) of this section. Those groups of facilities with

lower per diem costs shall receive higher percentage amounts than those with higher per diem costs.

(d) The sum of the financing allowance and the variable return allowance shall be the return on investment for each facility, and shall be added to the prospective rates of each contractor as determined in RCW 74.46.450 through 74.46.510.

(e) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, which continues to be leased under the same lease agreement, and for which the annualized lease payment, plus any interest and depreciation expenses associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center determined according to RCW 74.46.510, is more than the return on investment allowance determined according to subsection (1)(d) of this section, the following shall apply:

(i) The financing allowance shall be recomputed substituting the fair market value of the assets as of January 1, 1982, as determined by the department of general administration through an appraisal procedure, less accumulated depreciation on the lessor's assets since January 1, 1982, for the net book value of the assets in determining net invested funds for the facility. A determination by the department of general administration of fair market value shall be final unless the procedure used to make such determination is shown to be arbitrary and capricious.

(ii) The sum of the financing allowance computed under subsection (1)(e)(i) of this section and the variable allowance shall be compared to the annualized lease payment, plus any interest and depreciation expenses associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center rate determined according to RCW 74.46.510. The lesser of the two amounts shall be called the alternate return on investment allowance.

(iii) The return on investment allowance determined according to subsection (1)(d) of this section or the alternate return on investment allowance, whichever is greater, shall be the return on investment allowance for the facility and shall be added to the prospective rates of the contractor as determined in RCW 74.46.450 through 74.46.510.

(f) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, if the lease is renewed or extended pursuant to a provision of the lease, the treatment provided in subsection (1)(e) of this section shall be applied except that in the case of renewals or extensions made subsequent to April 1, 1985, reimbursement for the annualized lease payment shall be no greater than the reimbursement for the annualized lease payment for the last year prior to the renewal or extension of the lease.

(2) In the event that the department of health and human services disallows the application of the return on investment allowances to nonprofit facilities, the department shall modify the measurements of net invested funds used for computing individual facility return on investment allowances as follows: Net invested funds for each nonprofit facility shall be multiplied by one minus the ratio of equity funds to the net invested funds of all nonprofit facilities.

(3) Each biennium, beginning in 1985, the secretary shall review the adequacy of return on investment allowances in relation to anticipated requirements for maintaining, reducing, or expanding nursing care capacity. The secretary shall report the results of such review to the legislature and make recommendations for adjustments in the return on investment rates utilized in this section, if appropriate.

There is created in the state treasury a special account to be known as the "county sales and use tax equalization account." Into this account shall be placed a portion of all motor vehicle excise tax receipts as provided in RCW 82.44.110(6). Funds in this account shall be allocated by the state treasurer according to the following procedure:

(1) Prior to April 1st of each year the director of revenue shall inform the state treasurer of the total and the per capita levels of revenues for the unincorporated area of each county and the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties imposing the sales and use tax authorized under RCW 82.14.030(1) for the previous calendar year.

(2) At such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than one hundred fifty thousand dollars from the tax for the previous calendar year, an amount from the county sales and use tax equalization account sufficient, when added to the amount of revenues received the previous calendar year by the county, to equal one hundred fifty thousand dollars.

The department of revenue shall establish a governmental price index as provided in this subsection. The base year for the index shall be the end of the third quarter of 1982. Prior to November 1, 1983, and prior to each November 1st thereafter, the department of revenue shall establish another index figure for the third quarter of that year. The department of revenue may use the implicit price deflators for state and local government purchases of goods and services calculated by the United States department of commerce to establish the governmental price index. Beginning on January 1, 1984, and each January 1st thereafter, the one hundred fifty thousand dollar base figure in this subsection shall be adjusted in direct proportion to the percentage change in the governmental price index from 1982 until the year before the adjustment. Distributions made under this subsection for 1984 and thereafter shall use this adjusted base amount figure.

(3) Subsequent to the distributions under subsection (2) of this section and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties as determined by the department of revenue under subsection (1) of this section, an amount from the county sales and use tax equalization account sufficient, when added to the per capita level of revenues for the unincorporated area received the previous calendar year by the county, to equal seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties determined under subsection (1) of this section, subject to reduction under subsections (6) and (7) of this section. When computing distributions under this section, any distribution under subsection (2) of this section shall be considered revenues received from the tax imposed under RCW 82.14.030(1) for the previous calendar year.

(4) Subsequent to the distributions under subsection (3) of this section and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (2) of this section, a third distribution from the county sales and use tax equalization account. The distribution to each qualifying county shall be equal to the distribution to the county under subsection (2) of this section, subject to the reduction under subsections (6) and (7) of this section. To qualify for the total distribution under this subsection, the county must impose the tax under RCW 82.14.030(2) for the entire calendar year. If distributions under subsections (3) through (5) of this section cannot be made because of this limitation, then distributions under subsections (3) through (5) of this section shall be reduced ratably among the qualifying counties.

(7) If inadequate revenues exist in the county sales and use tax equalization account to make the distributions under subsections (3) through (5) of this section, then the distributions under subsections (3) through (5) of this section shall be reduced ratably among the qualifying counties. At such time during the year as additional funds accrue to the county sales and use tax equalization account, additional distributions shall be made under subsections (3) through (5) of this section to the counties.

(8) If the level of revenues in the county sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (5) of this section, then the additional revenues shall be credited and transferred to the state general fund.

(1) Prior to January 1st of each year the department of revenue shall determine the total and the per capita levels of revenues for each city and the state-wide weighted average per capita level of revenues for all cities imposing the sales and use tax authorized under RCW 82.14.030(1) for the previous calendar year.

(2) At such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each city not imposing the sales and use tax under RCW 82.14.030(2) an amount from the municipal sales and use tax equalization account equal to the amount distributed to the city under RCW 82.44.155, multiplied by thirty-five sixths.

(3) Subsequent to the distributions under subsection (2) of this section, and at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each city imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than seventy percent of the state-wide weighted average per capita level of revenues for all cities as determined by the department of revenue under subsection (1) of this section, an amount from the municipal sales and

use tax equalization account sufficient, when added to the per capita level of revenues received the previous calendar year by the city, to equal seventy percent of the state-wide weighted average per capita level of revenues for all cities determined under subsection (1) of this section, subject to reduction under subsection (6) of this section.

(4) Subsequent to the distributions under subsection (3) of this section, and at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each city imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (3) of this section, a third distribution from the municipal sales and use tax equalization account. To qualify for the distributions under this subsection, the city must impose the tax under RCW 82.14.030(2) for the entire calendar year. Cities imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(5) For a city with an official incorporation date after January 1, 1990, municipal sales and use tax equalization distributions shall be made according to the procedures in this subsection. Municipal sales and use tax equalization distributions to eligible new cities shall be made at the same time as distributions are made under subsections (3) and (4) of this section. The department of revenue shall follow the estimating procedures outlined in this subsection until the new city has received a full year's worth of revenues under RCW 82.14.030(1) as of the January municipal sales and use tax equalization distribution.

(a) Whether a newly incorporated city determined to receive funds under this subsection receives its first equalization payment at the January, April, July, or October municipal sales and use tax equalization distribution shall depend on the date the city first imposes the tax authorized under RCW 82.14.030(1).

(i) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of January 1st shall be eligible to receive funds under this subsection beginning with the April municipal sales and use tax equalization distribution of that year.

(iv) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of August 1st, September 1st, or October 1st shall be eligible to receive funds under this subsection beginning with the January municipal sales and use tax equalization distribution of the next year.

(b) For purposes of calculating the amount of funds the new city should receive under this subsection, the department of revenue shall:

(i) Estimate the per capita amount of revenues from the tax authorized under RCW 82.14.030(1) that the new city would have received had the city received revenues from the tax the entire calendar year;

(ii) Calculate the amount provided under subsection (3) of this section based on the per capita revenues determined under (b)(i) of this subsection;

(iii) Prorate the amount determined under (b)(ii) of this subsection by the number of months the tax authorized under RCW 82.14.030(1) is imposed.

(c) A new city imposing the tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution calculated under (b) of this subsection shall receive another distribution from the municipal sales and use tax equalization account. This distribution shall be equal to the calculation made under (b)(ii) of this subsection, prorated by the number of months the city imposes the tax authorized under RCW 82.14.030(2) at the full rate.

(d) The department of revenue shall advise the state treasurer of the amounts calculated under (b) and (c) of this subsection and the state treasurer shall distribute these amounts to the new city from the municipal sales and use tax equalization account subject to the limitations imposed in subsection (6) of this section.

(e) Revenues estimated under this subsection shall not affect the calculation of the state-wide weighted average per capita level of revenues for all cities made under subsection (1) of this section.

(6) If inadequate revenues exist in the municipal sales and use tax equalization account to make the distributions under subsection (3), (4), or (5) of this section, then the distributions under subsections (3), (4), and (5) of this section shall be reduced ratably among the qualifying cities. At such time during the year as additional funds accrue to the municipal sales and use tax equalization account, additional distributions shall be made under subsections (3), (4), and (5) of this section to the cities.

(7) If the level of revenues in the municipal sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (5) of this section, then the additional revenues shall be apportioned among the several cities within the state ratably on the basis of population as last determined by the office of financial management: PROVIDED, That no such distribution shall be made to those cities receiving a distribution under subsection (2) of this section.

There is created a landowner contingency forest fire suppression account ~~((which shall be a separate account))~~ in the state treasury. Moneys in the account may be spent only as provided in this section. Disbursements from the account shall be on authorization of the commissioner of public lands or the commissioner's designee. The

account is subject to the allotment procedure provided under chapter 43.88 RCW, but no appropriation is required for disbursements.

The department may expend from this account such amounts as may be available and as it considers appropriate for the payment of emergency fire costs resulting from a participating landowner fire. The department may, when moneys are available from the landowner contingency forest fire suppression account, expend moneys for summarily abating, isolating, or reducing an extreme fire hazard under RCW 76.04.660. All moneys recovered as a result of the department's actions, from the owner or person responsible, under RCW 76.04.660 shall be deposited in the landowner contingency forest fire suppression account.

When a determination is made that the fire was started by other than a landowner operation, moneys expended from this account in the suppression of such fire shall be recovered from such general fund appropriations as may be available for emergency fire suppression costs. The department shall deposit in the landowner contingency forest fire suppression account any moneys paid out of the account which are later recovered, less reasonable costs of recovery.

This account shall be established and renewed by a special forest fire suppression account assessment paid by participating landowners at a rate to be established by the department, but not to exceed fifteen cents per acre per year for such period of years as may be necessary to establish and thereafter reestablish a balance in the account of three million dollars. The department may establish a minimum assessment for ownership parcels identified in RCW 76.04.610 as paying the minimum assessment. The maximum assessment for these parcels shall not exceed the fees levied on a thirty-acre parcel. There shall be no assessment on each parcel of privately owned lands of less than two acres. The assessments may differ to equitably distribute the assessment based on emergency fire suppression cost experience necessitated by landowner operations. Amounts assessed for this account shall be a lien upon the forest lands with respect to which the assessment is made and may be collected as directed by the department in the same manner as forest protection assessments. ~~((This account shall be held by the state treasurer, who is authorized to invest so much of the account as is not necessary to meet current needs. Any interest earned on moneys from the account shall be deposited in and remain a part of the account and shall be computed as part of same in determining the balance thereof. Interfund loans to and from this account are authorized at the current rate of interest as determined by the state treasurer, provided that the effect of the loan is considered for purposes of determining the assessments.))~~ Payment of emergency costs from this account shall in no way restrict the right of the department to recover costs pursuant to RCW 76.04.495 or other laws.

When the department determines that a forest fire was started in the course of or as a result of a landowner operation, it shall notify the forest fire advisory board of the determination. The determination shall be final, unless, within ninety days of the notification, the forest fire advisory board or any interested party serves a request for a hearing before the department. The hearing shall constitute an adjudicative proceeding under chapter 34.05 RCW, the administrative procedure act, and any appeal shall be in accordance with RCW 34.05.510 through 34.05.598.

The President signed:

SECOND SUBSTITUTE SENATE BILL NO. 5341.

LETTER OF RESIGNATION

WASHINGTON STATE SENATE
SENATOR LELA KREIDLER
22nd Legislative District

April 15, 1991

Gordon Golob
Secretary of the Senate
306 Legislative Building
Olympia, Washington 98504

Dear Gordon:

Please accept this as official notification that my temporary appointment to the Washington State Senate, pursuant to RCW 73.16.041, will come to an end as of April 18, 1991.

I am very happy to report that Lieutenant Colonel Mike Kreidler has been released from active duty in the United States Army and will be resuming his duties as Senator for the 22nd Legislative District. I look forward to having our family and our lives back to "normal" once again.

However, it is with very mixed emotions that I submit this letter. I never in a million years thought I would have reservations of relinquishing the position, but have realized a greater respect and appreciation for the process and the people who dedicate their time and talent to develop public policy.

I am honored that I was given the trust and confidence of the Thurston County Democrats, the Thurston County Commissioners and the members of the Senate. This was an experience I will always cherish and feel very fortunate to have been able to do my part for the conflict known as Desert Storm.

I have learned about critical issues, made some important decisions and have encountered many wonderful people -- all of which will remain as special memories of this unique time in my life.

Sincerely,
LELA KREIDLER, State Senator

LETTER OF NOTIFICATION OF RETURNING TO SENATE

WASHINGTON STATE SENATE
SENATOR MIKE KREIDLER
22nd Legislative District

April 16, 1991

Gordon Golob
Secretary of the Senate
306 Legislative Building
Olympia, Washington 98504

Dear Gordon:

This letter is to officially notify you that I have been released from active duty in the United States Army in support of Operation Desert Storm, effective April 18, 1991.

Therefore, pursuant to Chapter 73.16 RCW, I respectfully request to be restored to the office of State Senator representing the people of the 22nd Legislative District.

The process used to assure representation to the citizens of our district during this legislative session was unprecedented. The actions of the Thurston County Democratic Central Committee, the Thurston County Board of Commissioners and the State Senate, guaranteed continuity of legislative representation to all affected constituents. I am truly grateful for all of those efforts.

I take this opportunity to publicly thank my wife, Senator Lela Kreidler, for the outstanding job she has done as a legislator, wife and mother during a very trying time. She has long been my adviser and confidant and now both of us are more aware than ever of all the pressures associated with the legislative life.

My family and I appreciate all the kind words and support we received from everyone and I thank you for your courtesy and consideration during my term of active duty.

Sincerely,
MIKE KREIDLER, State Senator

WHEREAS, Lela was a quick study on the complex issues before the Legislature, and in particular, the Senate Committees on Health and Long-Term Care, Law and Justice, and Ways and Means, and on the intricacies of the legislative process itself; and

WHEREAS, Lieutenant Colonel Kreidler might not want the members of the Washington State Senate to vote on whom they would like to retain this Senate seat; and

WHEREAS, The women of the Senate appreciated the insight of yet another woman serving in this body, will miss her presence, and regret their reduction in force;

NOW, THEREFORE, BE IT RESOLVED, By the Washington State Senate, That we congratulate Senator Lela Kreidler for her courage and outstanding service to the state of Washington, thank her for her friendship, and wish her well as she returns to "normal" family life and her position at Chinook Middle School; and

BE IT FURTHER RESOLVED, That Senator Lela Kreidler be added to the Legislative Old Timers list as a former member so that we may enjoy her company for many years to come; and

BE IT FURTHER RESOLVED, That having paused many times this session to commemorate the women and men who took part in Operation Desert Storm, we express special pride in the exemplary military service of one of our own members, Lieutenant Colonel Mike Kreidler, and welcome him back to the Washington State Senate.

Senators Gaspard and Hayner spoke to Senate Resolution 1991-8667.

MOTION

POINT OF INQUIRY

Senator Barr: "Senator Newhouse, in relation to the processor preparer lien, as it was it related to the Commission Merchant's Act in the past, could you clarify for the body how this came about and why it is needed?"

Senator Newhouse: "Mr. President, ladies and gentlemen, when we created the processor preparer lien in the 1983 legislation, I believe, we used the definition from the Commission Merchant's Act of Agricultural Products. Inadvertently, then, we left out, I think, dairy products as being a farm product and when the processor had financial difficulties last year--about six months ago--we found that the producer had no claim against that product, because we had neglected to include dairy products in the definition of farm products. Therefore, this legislation is necessary to correct what was missing in the previous law."

The President declared the question before the Senate to be the roll call on the final passage of Substitute House Bill No. 1142, as amended by the Senate.

ROLL CALL

The Secretary called the roll on the final passage of Substitute House Bill No. 1142, as amended by the Senate, and the bill passed the Senate by the following vote: Yeas, 47; Nays, 0; Absent, 1; Excused, 1.

The bill was read the second time.

MOTION

Senator Rasmussen moved that the following amendment be adopted:

On page 2, after line 18, insert the following:

Sec. 2. RCW 2.36.150 and 1987 c 202 s 105 are each amended to read as follows:

Jurors shall receive for each day's attendance, besides mileage at the rate determined under RCW 43.03.060, ~~((the following))~~ compensation(=

(1) ~~Grand jurors may receive up to twenty five dollars but in no case less than ten dollars;~~

(2) ~~Petit jurors may receive up to twenty five dollars but in no case less than ten dollars;~~

(3) ~~Coroner's jurors may receive up to twenty five dollars but in no case less than ten dollars;~~

(4) ~~District court jurors may receive up to twenty five dollars but in no case less than ten dollars: PROVIDED, That))~~ at not less than the state minimum wage. A person excused from jury service at his or her own request shall be allowed not more than a per diem and such mileage, if any, as to the court shall seem just and equitable under all circumstances(~~(= PROVIDED FURTHER, That))~~). The state shall fully reimburse the county in which trial is held for all jury fees and witness fees related to criminal cases which result from incidents occurring within an adult or juvenile correctional institution(= PROVIDED FURTHER, That)). The compensation paid jurors shall be determined by the county legislative authority and shall be uniformly applied within the county.

POINT OF ORDER

Senator Hayner: "Mr. President, I challenge the scope and object of this amendment. I really admire the tenacity of Senator Rasmussen. He never misses an opportunity to try and hang something on a bill when it will fit or he thinks it might fit. I don't believe this will fit here. This bill is to merge the voter list with the driver's license list in order to provide us with a larger group of people from whom to chose our jurors. It has nothing to do with the mileage or the pay of jurors, whatsoever, and I urge you to rule it out of scope and object."

Further debate ensued.

RULING BY THE PRESIDENT

President Pritchard: "In ruling upon the point of order raised by Senator Hayner, the President finds that Engrossed Substitute House Bill No. 1729 is a measure which directs a number of entities to prepare a plan for merging registered voter lists and licensed drivers in order to compile a jury source list.

"The amendment proposed by Senator Rasmussen would provide that jurors be paid the state minimum wage.

"The President, therefore, finds that the proposed amendment does change the scope and object of the bill and the point of order is well taken."

The amendment by Senator Rasmussen on page 2, after line 18, to Engrossed Substitute House Bill No. 1729 was ruled out of order.

MOTION

On motion of Senator Nelson, the rules were suspended, Engrossed Substitute House Bill No. 1729 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Substitute House Bill No. 1729.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute House Bill No. 1729 and the bill passed the Senate by the following vote: Yeas, 45; Nays, 0; Absent, 1; Excused, 3.

Voting yea: Senators Amondson, Anderson, Bailey, Barr, Bauer, Bluechel, Cantu, Conner, Craswell, Erwin, Gaspard, Hansen, Hayner, Jesernig, Johnson, M. Kreidler, Madsen, Matson, McCaslin, McDonald, McMullen, Metcalf, Murray, Nelson, Newhouse, Niemi, Oke, Owen, Patterson, Pelz, Rasmussen, Rinehart, Roach, Skratek, A. Smith, L. SECOND READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 2026, by House Committee on Natural Resources and Parks (originally sponsored by Representatives Fraser, Miller, Valle, Rayburn, McLean, Belcher, Jacobsen, Nealey, Paris, Winsley and Chandler) (by request of Joint Select Committee on Water Resource Policy)

Providing for comprehensive water resources management.

The bill was read the second time.

MOTIONS

On motion of Senator Barr, the following Committee on Agriculture and Water Resources amendment was adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) It is the policy of the state of Washington to recognize and preserve water rights in accordance with RCW 90.03.010.

(2) The legislature finds that:

(a) Consistent with RCW 90.54.180, conservation and water use efficiency programs, including storage, should be the preferred methods of addressing water uses because they can relieve current critical water situations, provide for presently unmet needs, and assist in meeting future water needs. Presently unmet needs or current needs includes the water required to increase the frequency of occurrence of base or minimum flow levels in streams of the state, the water necessary to satisfy existing water rights, or the water necessary to provide full supplies to existing water systems with current supply deficiencies; and

(b) The interests of the state will be served by developing programs and regional water resource plans, in cooperation with local governments, federally recognized tribal governments, appropriate federal agencies, private citizens, and the various water users and water interests in the state, that increase the overall ability to manage the state's waters in order to better satisfy both present and future needs for water.

(3) Consistent with the findings of this section, the purposes of this chapter are to:

(a) Improve the ability of the state to work with the United States, local governments, federally recognized tribal governments, water right holders, water users, and various water interests in water conservation and water use efficiency programs designed to satisfy existing rights, presently unmet needs, and future needs, both instream and out-of-stream;

(b) Establish new incentives, enhance existing incentives, and remove disincentives for efficient water use;

(c) Establish improved means to disseminate information to the public and provide technical assistance regarding ways to improve the efficiency of water use;

(d) Create a trust water rights mechanism for the acquisition of water rights on a voluntary basis to be used to meet presently unmet needs and future needs;

(e) Accelerate the adoption of water efficiency, conservation, and recycling, including water efficient plumbing fixtures, irrigation systems and methods, landscaping techniques, conservation rates, conservation plans, and wastewater reclamation and reuse;

(f) Eliminate tax disincentives to water conservation, reuse, and improved water use efficiency;

(g) Require evaluation of state facilities and property to identify cost-effective water use efficiency improvement opportunities; and

(h) Add achievement of water conservation as a factor to be considered by water supply utilities in setting water rates.

NEW SECTION. Sec. 2. A new section is added to chapter 90.54 RCW to read as follows:

(1) State funding of water resource, supply, and quality related capital programs, both current and future, shall, to the maximum extent possible within state or federal legal requirements, be directed to assist in the resolution of current conflicts and

implementation of regional water resource plans with priority given to current needs over new requirements.

(2) Consistent with RCW 90.54.180, priority shall be given, to the maximum extent possible within state or federal legal requirements, to those water conservation projects funded by the state that will result in the greatest net water savings.

Sec. 3. RCW 90.54.045 and 1990 c 295 s 3 are each amended to read as follows:

(1) In the development and implementation of the comprehensive state water resources program required in RCW 90.54.040(1), the process described therein shall involve participation of appropriate state agencies, Indian tribes, local governments, and interested parties, and shall be applied on a regional basis pursuant to subsection (2) of this section.

(2) Prior to ~~((January))~~ July 1, 1991, the department, with advice from appropriate state agencies, Indian tribes, local government, and interested parties, shall identify regions and establish regional boundaries for water resource planning and shall designate two regions in which the process shall be initiated on a pilot basis. One region shall encompass an area within the Puget Sound basin in which critical water resource issues exist. A concurrent pilot process may encompass a region east of the Cascade mountains.

(3) The department shall report to the chairs of the appropriate legislative committees prior to July 1st each year summarizing the progress of the pilot process in the two regions. The pilot process in each region shall be completed and shall produce a regional water plan by December 31, 1993.

(4) Appropriate state agencies, Indian tribes, local governments, and interested parties in regions not selected for the pilot program are strongly encouraged to commence water resource planning within their regions.

NEW SECTION. Sec. 4. (1) The legislature finds that a need exists to develop and test a means to facilitate the voluntary transfer of water and water rights, including conserved water, to provide water for presently unmet needs and emerging needs. Further, the legislature finds that water conservation activities have the potential of affecting the quantity of return flow waters to which existing water right holders have a right to and rely upon. It is the intent of the legislature that persons holding rights to water, including return flows, not be adversely affected in the implementation of the provisions of this chapter.

The purpose of this chapter is to provide the mechanism for accomplishing this in a manner that will not impair existing rights to water and to test the mechanism in two pilot planning areas.

(2) This chapter shall only be in effect in the pilot planning areas designated pursuant to RCW 90.54.045(2).

NEW SECTION. Sec. 5. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Department" means the department of ecology.

(2) "Net water savings" means the amount of water that is determined to be conserved and usable within a specified stream reach or reaches for other purposes without impairment or detriment to water rights existing at the time that a water conservation project is undertaken, reducing the ability to deliver water, or reducing the supply of water that otherwise would have been available to other existing water uses.

(3) "Trust water right" means any water right acquired by the state under this chapter for management in the state's trust water rights program.

(4) "Pilot planning areas" means the geographic areas designated under RCW 90.54.045(2).

(5) "Water conservation project" means any project or program that achieves physical or operational improvements that provide for increased water use efficiency

in existing systems of diversion, conveyance, application, or use of water under water rights existing on the effective date of this section.

NEW SECTION. Sec. 6. (1) For purposes of this chapter, the state may enter into contracts to provide moneys to assist in the financing of water conservation projects located within pilot planning areas. In consideration for the financial assistance provided, the state shall obtain public benefits defined in guidelines developed under section 8 of this act.

(2) If the public benefits to be obtained require conveyance or modification of a water right, the recipient of funds shall convey to the state the recipient's interest in that part of the water right or claim constituting all or a portion of the resulting net water savings for deposit in the trust water rights program. The amount to be conveyed shall be finitely determined by the parties, in accordance with the guidelines developed under section 8 of this act, before the expenditure of state funds. Conveyance may consist of complete transfer, lease contracts, or other legally binding agreements. When negotiating for the acquisition of conserved water or net water savings, or a portion thereof, the state may require evidence of a valid water right.

(3) As part of the contract, the water right holder and the state shall specify the amount of water the water right holder would continue to be entitled to once the water conservation project is in place.

(4) The state shall cooperate fully with the United States in the implementation of this chapter. Trust water rights may be acquired through expenditure of funds provided by the United States and shall be treated in the same manner as trust water rights resulting from the expenditure of state funds.

(5) If water is proposed to be acquired by or conveyed to the state as a trust water right by an irrigation district, evidence of the district's authority to represent the water right holders shall be submitted to and for the satisfaction of the department.

(6) The state shall not contract with any person to acquire a water right served by an irrigation district without the approval of the board of directors of the irrigation district. Disapproval by a board shall be factually based on probable adverse effects on the ability of the district to deliver water to other members or on maintenance of the financial integrity of the district.

NEW SECTION. Sec. 7. (1) All trust water rights acquired by the state shall be placed in the state trust water rights program to be managed by the department. Trust water rights acquired by the state shall be held or authorized for use by the department for instream flows, irrigation, municipal, or other beneficial uses consistent with applicable regional plans for pilot planning areas.

(2) The department shall issue a water right certificate in the name of the state of Washington for each permanent trust water right conveyed to the state indicating the reach or reaches of the stream, the quantity, and the use or uses to which it may be applied. A superseding certificate shall be issued that specifies the amount of water the water right holder would continue to be entitled to as a result of the water conservation project. The superseding certificate shall retain the same priority date as the original right. For nonpermanent conveyances, the department shall issue certificates or such other instruments as are necessary to reflect the changes in purpose or place of use or point of diversion or withdrawal. Water rights for which such nonpermanent conveyances are arranged shall not be subject to relinquishment for nonuse.

(3) A trust water right retains the same priority date as the water right from which it originated, but as between them the trust right shall be deemed to be inferior in priority unless otherwise specified by an agreement between the state and the party holding the original right.

(4) Exercise of a trust water right may be authorized only if the department first determines that neither water rights existing at the time the trust water right is established, nor the public interest will be impaired. If impairment becomes apparent

during the time a trust water right is being exercised, the department shall cease or modify the use of the trust water right to eliminate the impairment.

(5) Before any trust water right is created or modified, the department shall, at a minimum, require that a notice be published in a newspaper of general circulation published in the county or counties in which the storage, diversion, and use are to be made, and in other newspapers as the department determines is necessary, once a week for two consecutive weeks. At the same time the department shall send a notice containing pertinent information to all appropriate state agencies, potentially affected local governments and federally recognized tribal governments, and other interested parties.

(6) RCW 90.14.140 through 90.14.230 have no applicability to trust water rights held by the department under this chapter or exercised under this section.

(7) RCW 90.03.380 has no applicability to trust water rights acquired by the state through the funding of water conservation projects.

NEW SECTION. Sec. 8. The department, in cooperation with federally recognized Indian tribes, local governments, state agencies, and other interested parties, shall establish guidelines by July 1, 1992, governing the acquisition, administration, and management of trust water rights. The guidelines shall address at a minimum the following:

(1) Methods for determining the net water savings resulting from water conservation projects or programs carried out in accordance with this chapter, and other factors to be considered in determining the quantity or value of water available for potential designation as a trust water right;

(2) Criteria for determining the portion of net water savings to be conveyed to the state under this chapter;

(3) Criteria for prioritizing water conservation projects;

(4) A description of potential public benefits that will affect consideration for state financial assistance in section 6 of this act;

(5) Procedures for providing notification to potentially interested parties;

(6) Criteria for the assignment of uses of trust water rights acquired in areas of the state not addressed in a regional water resource plan or critical area agreement; and

(7) Contracting procedures and other procedures not specifically addressed in this section.

These guidelines shall be submitted to the joint select committee on water resource policy before adoption.

NEW SECTION. Sec. 9. The policies and purposes of this chapter shall not be construed as replacing or amending the policies or the purposes for which funds available under chapter 43.83B or 43.99E RCW may be used.

NEW SECTION. Sec. 10. Nothing in this chapter authorizes the involuntary impairment of any existing water rights.

NEW SECTION. Sec. 11. (1) Within the pilot planning areas, the state may acquire all or portions of existing water rights, by purchase, gift, or other appropriate means other than by condemnation, from any person or entity or combination of persons or entities. Once acquired, such rights are trust water rights.

(2) The department may enter into leases, contracts, or such other arrangements with other persons or entities as appropriate, to ensure that trust water rights acquired in accordance with this chapter may be exercised to the fullest possible extent.

(3) Trust water rights may be acquired by the state on a temporary or permanent basis.

(4) The provisions of RCW 90.03.380 and 90.03.390 apply to transfers of water rights under this section.

NEW SECTION. Sec. 12. It is the intent of the legislature that jurisdictional authorities that exist in law not be expanded, diminished, or altered in any manner whatsoever by this chapter.

NEW SECTION. Sec. 13. A new section is added to chapter 90.14 RCW to read as follows:

This chapter shall not apply to trust water rights held or exercised by the department of ecology under chapter 90.38 or 90.-- RCW (sections 1 and 4 through 12 of this act).

Sec. 14. RCW 90.03.380 and 1987 c 109 s 94 are each amended to read as follows:

The right to the use of water which has been applied to a beneficial use in the state shall be and remain appurtenant to the land or place upon which the same is used: PROVIDED, HOWEVER, That said right may be transferred to another or to others and become appurtenant to any other land or place of use without loss of priority of right theretofore established if such change can be made without detriment or injury to existing rights. The point of diversion of water for beneficial use or the purpose of use may be changed, if such change can be made without detriment or injury to existing rights. Before any transfer of such right to use water or change of the point of diversion of water or change of purpose of use can be made, any person having an interest in the transfer or change, shall file a written application therefor with the department, and said application shall not be granted until notice of said application shall be published as provided in RCW 90.03.280. If it shall appear that such transfer or such change may be made without injury or detriment to existing rights, the department shall issue to the applicant a certificate in duplicate granting the right for such transfer or for such change of point of diversion or of use. The certificate so issued shall be filed and be made a record with the department and the duplicate certificate issued to the applicant may be filed with the county auditor in like manner and with the same effect as provided in the original certificate or permit to divert water.

If an application for change proposes to transfer water rights from one irrigation district to another, the department shall, before publication of notice, receive concurrence from each of the irrigation districts that such transfer or change will not adversely affect the ability to deliver water to other land owners or impair the financial integrity of either of the districts.

A change in place of use by an individual water user or users within an irrigation district need only receive approval for the change from the board of directors of the district.

This section shall not apply to trust water rights acquired by the state through the funding of water conservation projects under chapter 90.38 RCW or RCW 90.-- through 90.-- (sections 4 through 10 of this 1991 act).

Sec. 15. RCW 19.27.170 and 1989 c 348 s 8 are each amended to read as follows:

(1) The state building code council shall adopt rules under chapter 34.05 RCW that implement and incorporate the water conservation performance standards in subsections ((3)) (4) and ((4)) (5) of this section. These standards shall apply to all new construction and all remodeling involving replacement of plumbing fixtures in all residential, hotel, motel, school, industrial, commercial use, or other occupancies determined by the council to use significant quantities of water.

(2) The legislature recognizes that a phasing-in approach to these new standards is appropriate. Therefore, standards in subsection ((3)) (4) of this section shall take effect on July 1, 1990. The standards in subsection ((4)) (5) of this section shall take effect July 1, 1993.

(3) No individual, public or private corporation, firm, political subdivision, government agency, or other legal entity may, for purposes of use in this state, distribute, sell, offer for sale, import, install, or approve for installation any plumbing fixtures unless the fixtures meet the standards as provided for in this section.

(4) Standards for water use efficiency effective July 1, 1990.

(a) Standards for waterclosets. The guideline for maximum water use allowed in gallons per flush (gpf) for any of the following waterclosets is the following:

- Tank-type toilets..... 3.5 gpf.
- Flushometer-valve toilets..... 3.5 gpf.
- Flushometer-tank toilets..... 3.5 gpf.
- Electromechanical hydraulic toilets..... 3.5 gpf.

(b) Standard for urinals. The guideline for maximum water use allowed for any urinal is 3.0 gallons per flush.

(c) Standard for showerheads. The guideline for maximum water use allowed for any showerhead is 3.0 gallons per minute.

- Bathroom faucets..... 3.0 gpm.
- Lavatory faucets..... 3.0 gpm.
- Kitchen faucets..... 3.0 gpm.
- Replacement aerators..... 3.0 gpm.

(e) Except where designed and installed for use by the physically handicapped, lavatory faucets located in restrooms intended for use by the general public must be equipped with a metering valve designed to close by spring or water pressure when left unattended (self-closing).

(f) No urinal or watercloset that operates on a continuous flow or continuous flush basis shall be permitted.

~~((4))~~ (5) Standards for water use efficiency effective July 1, 1993.

(a) Standards for waterclosets. The guideline for maximum water use allowed in gallons per flush (gpf) for any of the following waterclosets is the following:

- Tank-type toilets..... 1.6 gpf.

- Electromechanical hydraulic toilets..... 1.6 gpf.

(b) Standards for urinals. The guideline for maximum water use allowed for any urinal is 1.0 gallons per flush.

(c) Standards for showerheads. The guideline for maximum water use allowed for any showerhead is 2.5 gallons per minute.

(d) Standards for faucets. The guideline for maximum water use allowed in gallons per minute for any of the following faucets and replacement aerators is the following:

- Bathroom faucets..... 2.5 gpm.
- Lavatory faucets..... 2.5 gpm.
- Kitchen faucets..... 2.5 gpm.

(e) Except where designed and installed for use by the physically handicapped, lavatory faucets located in restrooms intended for use by the general public must be equipped with a metering valve designed to close by water pressure when unattended (self-closing).

(f) No urinal or watercloset that operates on a continuous flow or continuous basis shall be permitted.

~~((5)) The building code council shall make an assessment regarding the low-volume fixtures required under subsection (4) of this section. The assessment shall consider the availability of low-volume fixtures which are technologically feasible, will operate effectively, and are economically justified. The council shall also assess the potential impact on the necessary flow or water required to insure sewerage or septic lines and treatment plants will effectively operate.~~

~~The council shall submit a report to the chief clerk of the house of representatives and the secretary of the senate by October 30, 1992, setting forth its conclusions, and any recommendations for legislative action.)~~

(6) The building code council shall establish methods and procedures for testing and identifying fixtures that meet the standards established in subsection (5) of this section. The council shall use the testing standards designated as American national standards, written under American national standards institute procedures or other widely recognized national testing standards. The council shall either review test results from independent testing laboratories that are submitted by manufacturers of plumbing fixtures or accept data submitted to and evaluated by the international association of plumbing and mechanical officials. The council shall publish and widely distribute a current list of fixtures that meet the standards established in subsection (5) of this section.

(7) The building code council shall adopt rules for marking and labeling fixtures meeting the standards established in subsection (5) of this section.

(8) This section shall not apply to fixtures installed before the effective date of this section that are removed and relocated to another room or area of the same building after the effective date of this section, nor shall it apply to fixtures, as determined by the council, that in order to perform a specialized function, cannot meet the standards specified in this section.

(9) The water conservation performance standards shall supersede all local government codes. After July 1, 1990, cities, towns, and counties shall not amend the code revisions and standards established under subsection ~~((3)-or)~~ (4) or (5) of this section.

Sec. 16. RCW 35.67.020 and 1965 c 7 s 35.67.020 are each amended to read as follows:

Every city and town may construct, condemn and purchase, acquire, add to, maintain, conduct, and operate systems of sewerage and systems and plants for refuse collection and disposal together with additions, extensions, and betterments thereto, within and without its limits, with full jurisdiction and authority to manage, regulate, and control them and to fix, alter, regulate, and control the rates and charges for the use thereof: PROVIDED, That the rates charged must be uniform for the same class of customers or service.

In classifying customers served or service furnished by such system of sewerage, the city or town legislative body may in its discretion consider any or all of the following factors: The difference in cost of service to the various customers; the location of the various customers within and without the city or town; the difference in cost of maintenance, operation, repair, and replacement of the various parts of the system; the different character of the service furnished various customers; the quantity and quality of the sewage delivered and the time of its delivery; the achievement of water conservation goals and the discouragement of wasteful water use practices; capital contributions made to the system, including but not limited to, assessments; and any other matters which present a reasonable difference as a ground for distinction.

Sec. 17. RCW 35.92.010 and 1985 c 445 s 4 and 1985 c 444 s 2 are each reenacted and amended to read as follows:

A city or town may construct, condemn and purchase, purchase, acquire, add to, alter, maintain and operate waterworks, within or without its limits, for the purpose of furnishing the city and its inhabitants, and any other persons, with an ample supply of water for all purposes, public and private, including water power and other power derived therefrom, with full power to regulate and control the use, distribution, and price thereof: PROVIDED, That the rates charged must be uniform for the same class of customers or service. Such waterworks may include facilities for the generation of electricity as a byproduct and such electricity may be used by the city or town or sold

to an entity authorized by law to distribute electricity. Such electricity is a byproduct when the electrical generation is subordinate to the primary purpose of water supply.

In classifying customers served or service furnished, the city or town governing body may in its discretion consider any or all of the following factors: The difference in cost of service to the various customers; location of the various customers within and without the city or town; the difference in cost of maintenance, operation, repair, and replacement of the various parts of the system; the different character of the service furnished various customers; the quantity and quality of the water furnished; the time of its use; the achievement of water conservation goals and the discouragement of wasteful water use practices; capital contributions made to the system including, but not limited to, assessments; and any other matters which present a reasonable difference as a ground for distinction. No rate shall be charged that is less than the cost of the water and service to the class of customers served.

For such purposes any city or town may take, condemn and purchase, purchase, acquire, and retain water from any public or navigable lake or watercourse, surface or ground, and, by means of aqueducts or pipe lines, conduct it to the city or town; and it may erect and build dams or other works across or at the outlet of any lake or watercourse in this state for the purpose of storing and retaining water therein up to and above high water mark; and for all the purposes of erecting such aqueducts, pipe lines, dams, or waterworks or other necessary structures in storing and retaining water, or for any of the purposes provided for by this chapter, the city or town may occupy and use the beds and shores up to the high water mark of any such watercourse or lake, and acquire the right by purchase, or by condemnation and purchase, or otherwise, to any water, water rights, easements or privileges named in this chapter, or necessary for any of said purposes, and the city or town may acquire by purchase or condemnation and purchase any properties or privileges necessary to be had to protect its water supply from pollution. Should private property be necessary for any such purposes or for storing water above high water mark, the city or town may condemn and purchase, or purchase and acquire such private property. For the purposes of waterworks which include facilities for the generation of electricity as a byproduct, nothing in this section may be construed to authorize a city or town that does not own or operate an electric utility system to condemn electric generating, transmission, or distribution rights or facilities of entities authorized by law to distribute electricity, or to acquire such rights or facilities without the consent of the owner.

Sec. 18. RCW 56.16.090 and 1974 ex.s. c 58 s 3 are each amended to read as follows:

The sewer commissioners of any sewer district, in the event that such sewer revenue bonds are issued, shall provide for revenues by fixing rates and charges for the furnishing of sewerage disposal service to those to whom such service is available. Such rates and charges may be combined for the furnishing of more than one type of sewer service such as but not limited to storm or surface water and sanitary. Such rates and charges are to be fixed as deemed necessary by such sewer commissioners, so that uniform charges will be made for the same class of customer or service.

In classifying customers served or service furnished by such system of sewerage, the board of commissioners may in its discretion consider any or all of the following factors: The difference in cost of service to the various customers; the location of the various customers within and without the district; the difference in cost of maintenance, operation, repair, and replacement of the various parts of the system; the different character of the service furnished various customers; the quantity and quality of the sewage delivered and the time of its delivery; the achievement of water conservation goals and the discouragement of wasteful water use practices; capital contributions made to the system including but not limited to assessments; and any other matters which present a reasonable difference as a ground for distinction. Such rates are to be made on a monthly basis and shall produce revenues sufficient to take care of the

costs of maintenance and operation, revenue bond and warrant interest and principal amortization requirements, and all other charges necessary for efficient and proper operation of the system.

Sec. 19. RCW 57.20.020 and 1983 c 167 s 164 are each amended to read as follows:

(1) Whenever any issue or issues of water revenue bonds have been authorized in compliance with the provisions of RCW 57.16.010 through 57.16.040, said bonds shall be in bearer form or registered as to principal or interest or both, as provided in RCW 39.46.030, and may provide for conversion between registered and coupon bonds; shall be in such denominations, shall be numbered, shall bear such date, and shall be payable at such time or times up to a maximum period of not to exceed thirty years as shall be determined by the board of water commissioners of the district; shall bear interest at such rate or rates payable at such time or times as authorized by the board; shall be payable at the office of the county treasurer of the county in which the water district is located and may also be payable at such other place or places as the board of water commissioners may determine; shall be executed by the president of the board of water commissioners and attested and sealed by the secretary thereof, one of which signatures may, with the written permission of the signator whose facsimile signature is being used, be a facsimile; and may have facsimile signatures of said president or secretary imprinted on any interest coupons in lieu of original signatures.

The water district commissioners shall have power and are required to create a special fund or funds for the sole purpose of paying the interest and principal of such bonds into which special fund or funds the said water district commissioners shall obligate and bind the water district to set aside and pay a fixed proportion of the gross revenues of the water supply system or any fixed amount out of and not exceeding a fixed proportion of such revenues, or a fixed amount or amounts without regard to any fixed proportion and such bonds and the interest thereof shall be payable only out of such special fund or funds, but shall be a lien and charge against all revenues and payments received from any utility local improvement district or districts pledged to secure such bonds, subject only to operating and maintenance expenses.

In creating any such special fund or funds the water district commissioners of such water district shall have due regard to the cost of operation and maintenance of the plant or system as constructed or added to and to any proportion or part of the revenue previously pledged as a fund for the payment of bonds, warrants or other indebtedness, and shall not set aside into such special fund a greater amount or proportion of the revenue and proceeds than in their judgment will be available over and above such cost of maintenance and operation and the amount or proportion, if any, of the revenue so previously pledged. Any such bonds and interest thereon issued against any such fund as herein provided shall be a valid claim of the owner thereof only as against the said special fund and its fixed proportion or amount of the revenue pledged to such fund, and shall not constitute an indebtedness of such water district within the meaning of the constitutional provisions and limitations. Each such bond shall state upon its face that it is payable from a special fund, naming the said fund and the resolution creating it. Said bonds shall be sold in such manner, at such price and at such rate or rates of interest as the water district commissioners shall deem for the best interests of the water district, either at public or private sale, and the said commissioners may provide in any contract for the construction and acquirement of the proposed improvement (and for the refunding of outstanding local improvement district obligations, if any) that payment therefor shall be made in such bonds at par value thereof.

When any such special fund shall have been heretofore or shall be hereafter created and any such bonds shall have been heretofore or shall hereafter be issued against the same a fixed proportion or a fixed amount out of and not to exceed such fixed proportion, or a fixed amount or amounts without regard to any fixed proportion,

of revenue shall be set aside and paid into said special fund as provided in the resolution creating such fund or authorizing such bonds, and in case any water district shall fail thus to set aside and pay said fixed proportion or amount as aforesaid, the owner of any bond payable from such special fund may bring suit or action against the water district and compel such setting aside and payment.

(2) Notwithstanding subsection (1) of this section, such bonds may be issued and sold in accordance with chapter 39.46 RCW.

(3) The water district commissioners of any water district, in the event that such water revenue bonds are issued, shall provide for revenues by fixing rates and charges for the furnishing of water supply to those receiving such service, such rates and charges to be fixed as deemed necessary by such water district commissioners, so that uniform charges will be made for the same class of customer or service.

In classifying customers served or service furnished by such water supply system, the board of water commissioners may in its discretion consider any or all of the following factors: The difference in cost of service to the various customers; the location of the various customers within and without the district; the difference in cost of maintenance, operation, repair and replacement of the various parts of the system; the different character of the service furnished various customers; the quantity and quality of the water furnished; the time of its use; the achievement of water conservation goals and the discouragement of wasteful practices; capital contributions made to the system including but not limited to assessments; and any other matters which present a reasonable difference as a ground for distinction. Such rates shall be made on a monthly basis as may be deemed proper by such commissioners and as fixed by resolution and shall produce revenues sufficient to take care of the costs of maintenance and operation, revenue bond and warrant interest and principal amortization requirements and all other charges necessary for efficient and proper operation of the system.

Sec. 20. RCW 54.24.080 and 1959 c 218 s 9 are each amended to read as follows:

(1) The commission of each district which shall have revenue obligations outstanding shall have the power and shall be required to establish, maintain, and collect rates or charges for electric energy and water and other services, facilities, and commodities sold, furnished, or supplied by the district which shall be fair and nondiscriminatory and adequate to provide revenues sufficient for the payment of the principal of and interest on such revenue obligations for which the payment has not otherwise been provided and all payments which the district is obligated to set aside in any special fund or funds created for such purpose, and for the proper operation and maintenance of the public utility and all necessary repairs, replacements, and renewals thereof.

(2) In establishing rates or charges for water service, commissioners may in their discretion consider the achievement of water conservation goals and the discouragement of wasteful water use practices.

Sec. 21. RCW 80.28.010 and 1990 1st ex.s. c 1 s 5 are each amended to read as follows:

(1) All charges made, demanded or received by any gas company, electrical company or water company for gas, electricity or water, or for any service rendered or to be rendered in connection therewith, shall be just, fair, reasonable and sufficient.

(2) Every gas company, electrical company and water company shall furnish and supply such service, instrumentalities and facilities as shall be safe, adequate and efficient, and in all respects just and reasonable.

(3) All rules and regulations issued by any gas company, electrical company or water company, affecting or pertaining to the sale or distribution of its product, shall be just and reasonable.

(4) Until June 30, 1991:

(a) Utility service for residential space heating shall not be terminated between November 15 through March 15 if the customer:

(i) Notifies the utility of the inability to pay the bill, including a security deposit. This notice should be provided within five business days of receiving a payment overdue notice unless there are extenuating circumstances. If the customer fails to notify the utility within five business days and service is terminated, the customer can, by paying reconnection charges, if any, and fulfilling the requirements of this section, receive the protections of this chapter;

(ii) Provides self-certification of household income for the prior twelve months to a grantee of the department of community development which administers federally funded energy assistance programs. The grantee shall determine that the household income does not exceed the maximum allowed for eligibility under the state's plan for low-income energy assistance under 42 U.S.C. 8624 and shall provide a dollar figure that is seven percent of household income. The grantee may verify information provided in the self-certification;

(iii) Has applied for home heating assistance from applicable government and private sector organizations and certifies that any assistance received will be applied to the current bill and future utility bills;

(iv) Has applied for low-income weatherization assistance to the utility or other appropriate agency if such assistance is available for the dwelling;

(v) Agrees to a payment plan and agrees to maintain the payment plan. The plan will be designed both to pay the past due bill by the following October 15 and to pay for continued utility service. If the past due bill is not paid by the following October 15, the customer shall not be eligible for protections under this chapter until the past due bill is paid. The plan shall not require monthly payments in excess of seven percent of the customer's monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter during November 15 through March 15. A customer may agree to pay a higher percentage during this period, but shall not be in default unless payment during this period is less than seven percent of monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter. If assistance payments are received by the customer subsequent to implementation of the plan, the customer shall contact the utility to reformulate the plan; and

(vi) Agrees to pay the moneys owed even if he or she moves.

(b) The utility shall:

(i) Include in any notice that an account is delinquent and that service may be subject to termination, a description of the customer's duties in this section;

(ii) Assist the customer in fulfilling the requirements under this section;

(iii) Be authorized to transfer an account to a new residence when a customer who has established a plan under this section moves from one residence to another within the same utility service area;

(iv) Be permitted to disconnect service if the customer fails to honor the payment program. Utilities may continue to disconnect service for those practices authorized by law other than for nonpayment as provided for in this subsection. Customers who qualify for payment plans under this section who default on their payment plans and are disconnected can be reconnected and maintain the protections afforded under this chapter by paying reconnection charges, if any, and by paying all amounts that would have been due and owing under the terms of the applicable payment plan, absent default, on the date on which service is reconnected; and

(v) Advise the customer in writing at the time it disconnects service that it will restore service if the customer contacts the utility and fulfills the other requirements of this section.

(c) A payment plan implemented under this section is consistent with RCW 80.28.080.

(5) Every gas company and electrical company shall offer residential customers the option of a budget billing or equal payment plan. The budget billing or equal payment plan shall be offered low-income customers eligible under the state's plan for low-income energy assistance prepared in accordance with 42 U.S.C. 8624(C)(1) without limiting availability to certain months of the year, without regard to the length of time the customer has occupied the premises, and without regard to whether the customer is the tenant or owner of the premises occupied.

(6) Every gas company, electrical company and water company shall construct and maintain such facilities in connection with the manufacture and distribution of its product as will be efficient and safe to its employees and the public.

(7) An agreement between the customer and the utility, whether oral or written, shall not waive the protections afforded under this chapter.

(8) In establishing rates or charges for water service, water companies as defined in RCW 80.04.010 may consider the achievement of water conservation goals and the discouragement of wasteful water use practices.

Sec. 22. RCW 80.28.025 and 1980 c 149 s 2 are each amended to read as follows:

(1) In establishing rates for each gas and electric company regulated by this chapter, the commission shall adopt policies to encourage meeting or reducing energy demand through cogeneration as defined in RCW 82.35.020, measures which improve the efficiency of energy end use, and new projects which produce or generate energy from renewable resources, such as solar energy, wind energy, hydroelectric energy, geothermal energy, wood, wood waste, municipal wastes, agricultural products and wastes, and end-use waste heat. These policies shall include but are not limited to allowing a return on investment in measures to improve the efficiency of energy end use, cogeneration, or projects which produce or generate energy from renewable resources which return is established by adding an increment of two percent to the rate of return on common equity permitted on the company's other investment. Measures or projects encouraged under this section are those for which construction or installation is begun after June 12, 1980, and before January 1, 1990, and which, at the time they are placed in the rate base, are reasonably expected to save, produce, or generate energy at a total incremental system cost per unit of energy delivered to end use which is less than or equal to the incremental system cost per unit of energy delivered to end use from similarly available conventional energy resources which utilize nuclear energy or fossil fuels and which the gas or electric company could acquire to meet energy demand in the same time period. The rate of return increment shall be allowed for a period not to exceed thirty years after the measure or project is first placed in the rate base.

(2) In establishing rates for water companies regulated by this chapter, the commission may consider the achievement of water conservation goals and the discouragement of wasteful water use practices.

NEW SECTION. Sec. 23. A new section is added to chapter 82.04 RCW to read as follows:

The tax imposed by RCW 82.04.240 shall not apply to the treatment or processing of effluent water purchased for commercial use directly from a sewage treatment facility operated by any county, city, town, political subdivision, or municipal or quasi-municipal corporation of this state. This section shall expire December 31, 1993, unless extended by the legislature.

NEW SECTION. Sec. 24. A new section is added to chapter 82.12 RCW to read as follows:

This chapter shall not apply with respect to the use of treated or processed effluent water purchased for commercial use directly from a sewage treatment facility operated by any county, city, town, political subdivision, or municipal or quasi-

municipal corporation of this state. This section shall expire December 31, 1993, unless extended by the legislature.

Sec. 25. RCW 90.14.140 and 1987 c 125 s 1 are each amended to read as follows:

(1) For the purposes of RCW 90.14.130 through 90.14.180, "sufficient cause" shall be defined as the nonuse of all or a portion of the water by the owner of a water right for a period of five or more consecutive years where such nonuse occurs as a result of:

- (a) Drought, or other unavailability of water;
- (b) Active service in the armed forces of the United States during military crisis;
- (c) Nonvoluntary service in the armed forces of the United States;
- (d) The operation of legal proceedings;

(e) Federal laws imposing land or water use restrictions either directly or through the voluntary enrollment of a landowner in a federal program implementing those laws, or acreage limitations, or production quotas.

(2) Notwithstanding any other provisions of RCW 90.14.130 through 90.14.180, there shall be no relinquishment of any water right:

(a) If such right is claimed for power development purposes under chapter 90.16 RCW and annual license fees are paid in accordance with chapter 90.16 RCW, or

(b) If such right is used for a standby or reserve water supply to be used in time of drought or other low flow period so long as withdrawal or diversion facilities are maintained in good operating condition for the use of such reserve or standby water supply, or

(c) If such right is claimed for a determined future development to take place either within fifteen years of July 1, 1967, or the most recent beneficial use of the water right, whichever date is later, or

(d) If such right is claimed for municipal water supply purposes under chapter 90.03 RCW, or

(e) If such right is claimed by an irrigation district for the benefit of lands lying within such district, or

(f) If such waters are not subject to appropriation under the applicable provisions of RCW 90.40.030 as now or hereafter amended.

NEW SECTION. Sec. 26. Sections 1 and 4 through 12 of this act shall constitute a new chapter in Title 90 RCW.

MOTION

On motion of Senator Barr, the rules were suspended, Engrossed Substitute House Bill No. 2026, as amended by the Senate, was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Barr, as I read the bill, what cost is there going to be to the individual that is using water in the cities and the counties--not your irrigation water--I'm not talking about that? Is there any more cost to those people?"

Senator Barr: "The individuals that live in towns, like yourself--the bill deals with water efficiency. You would, I believe in 1993, if you were building a new home or a major construction, you would be required to have water efficient shower heads, water efficient toilets and that sort of thing. That would be the cost to the average individual. There is no other cost related with the bill except where you deal with water conservation and efficiency." Senator Rasmussen: "There is no section of the bill that allows for potty inspection for the present system? You have your bath and toilet and things in there, they are not going to come in and inspect that like they are going to inspect your septic tanks?"

Senator Barr: "Not that I know of."

Senator Rasmussen: "Not yet."

Senator Barr: "Not yet, that would take additional legislation, I hope."

Senator Rasmussen: "And they are not going to allow you a certain amount of flushes a month?"

Senator Barr: "Well, I don't know, the way controls are coming down on this state, I wouldn't be surprised for anything to happen coming from the bureaucracy."

Senator Rasmussen: "That's what I am afraid of. Thank you."

On motion of Senator Anderson, Senator Bluechel was excused.

"PART I

PARENTS' RIGHTS AND RESPONSIBILITIES"

NEW SECTION. Sec. 101. The legislature finds that parents have the primary responsibility for the welfare of their children and that the successful education of children is the product of a responsive and rigorous educational system that depends on the participation of informed and concerned parents and citizens. To this end, RCW 28A.605.020 and sections 102 through 104 of this act are intended to define certain rights of parents to be informed of, and participate in, the education of their children.

The board of directors of a school district shall develop specific policies providing for the inspection and review of any type of materials used in association with the district's educational program. The district may charge a nominal cost to cover any costs of reproduction.

(2) Districts shall inform parents annually through the report required under section 105 of this act of parents' right to inspect and review any type of materials used in association with the district's educational program.

(3) Innovation and educational reform should be encouraged in public schools. To that end, parents and the community at large should be encouraged to participate in the development and implementation of experimental or pilot education programs. Before implementation of any experimental or pilot education program, the school district shall consult and communicate with parents regarding the proposed program.

(4) No child may be placed in an experimental or pilot program in a school district without prior written notification to the parent. The notification shall include a detailed description of the program.

The days so designated shall be employee work days and shall not be subject to collective bargaining. However, employee work days beyond those scheduled for student attendance may be a subject of collective bargaining.

"PART II
SCHOOL SITE-BASED COUNCILS"

NEW SECTION. Sec. 201. The legislature finds that in order to achieve the goal of reforming the public schools, each citizen of the state must accept the commitment of developing our most important resource, our children. The legislature further finds that part of building this commitment includes having persons in the field of education form partnerships with other persons in the community. To build a learning community, and develop this commitment, the legislature intends:

(1) That school boards of directors, school administrators, teachers, employee unions, and members of the community find new ways of working collaboratively, changing existing policies and agreements where appropriate;

(2) To encourage the creation of site-based councils, where parents, teachers, and citizens will join to make decisions for our schools; and

NEW SECTION. Sec. 202. (1) A site-based council may be established at one or more schools if the school district board of directors has adopted a policy authorizing site-based councils. The school district board of directors has final authority in establishing the parameters and areas of involvement accorded to school site-based councils.

(2) The policy adopted by a school district board of directors may include but is not limited to:

(d) Delegation of authority to site-based councils to adopt their own bylaws and charter.

(3) School district boards of directors shall not delegate to site-based councils the authority to make personnel decisions regarding either instructional, administrative or classified staff.

(4) A school board shall only delegate authority over budget decisions to a site-based council if the authority is clearly defined in writing, if the authority is limited to a one-year period but may be renewed annually with the approval of the board, and if the authority of the site-based council is limited to decisions at the building level.

(5) Each school district board of directors deciding to adopt a policy authorizing site-based councils shall provide, by resolution, plans for attendance policies that are consistent with the requirements of any desegregation plan in order to promote stability for schools with site-based councils.

NEW SECTION. Sec. 203. If modifications to existing local bargaining agreements are necessary to implement school site-based councils, those modifications shall be clearly stated in the written agreement between the school district board of directors and the exclusive bargaining representative for district certificated instructional staff.

NEW SECTION. Sec. 204. (1) Schools with site-based councils may receive funds to provide resources for restructuring their educational programs. The

superintendent of public instruction shall allocate funds, as are appropriated for this purpose, to school districts to distribute to the schools with site-based councils.

(a) Benefit the education of citizens; or

(b) Promote the effective, efficient, or safe maintenance and operation of school district programs, activities, services, or practices.

The adoption of any such policy or rule shall be preceded by notice in accordance with the open public meeting law of chapter 42.30 RCW which furthermore sets forth or reasonably describes the proposed policy or regulation, plus a reasonable opportunity for public written and oral comment and consideration of the comment by the board of directors.

NEW SECTION. **Sec. 302.** A new section is added to chapter 28A.300 RCW to read as follows:

"PART IV PLANNING AND IMPLEMENTATION GRANTS FOR RESTRUCTURING"

NEW SECTION. **Sec. 401.** (1) The legislature believes that attaining the state vision for excellence in education under Senate Concurrent Resolution No. 8400 will require new state-supported opportunities for schools to implement strategies to improve student learning and skills. It is the intent of the legislature to provide additional support to schools or school districts to:

(a) Encourage students, parents, teachers, principals, classified school staff, school district personnel, the school board, and other citizens to become more active partners in the learning community of their school or district;

(b) Encourage schools or districts to select and compete against goals and educational outcomes tailored to their own learning community; and

(c) Foster improvements in instruction, curriculum, and assessment.

(2) It is the further intent of the legislature that what is learned from local projects under the reach for excellence grant program established under section 403 of this act shall be considered as a basis for the development of new goals, standards, and assessments for the state education system.

(3) The reach for excellence grant program shall be:

(a) Responsive to local educational concerns and desires;

(b) Educational, focusing on improving student learning and skills and encouraging the development of new measures to assess student performance;

(e) Home-based, tailored to the needs of each participating school.

NEW SECTION. Sec. 402. Unless the context clearly requires otherwise, the definitions in this section apply throughout sections 403 through 414 of this act.

(1) "Educational outcomes" and "target educational outcomes" mean expected levels of student performance and achievement, including student learning objectives required under RCW 28A.320.210.

(2) "Indicators" means institutional factors that may bear a relationship to student learning and can be used to help assess students' progress toward identified educational outcomes.

(3) "Context indicators" means variables that characterize the setting in which educational programs are delivered and generally are items over which schools have little control.

(4) "Process indicators" means variables that characterize how educational programs are delivered and generally are items over which schools have some control.

(6) "Award" or "reach achievement award" means state funds provided to a reach project for progress made toward target educational outcomes.

(7) "Superintendent" means the superintendent of public instruction.

NEW SECTION. Sec. 403. (1) From funds appropriated by the legislature, the state board of education shall establish the reach for excellence grant program to assist schools and school districts in local efforts to improve student learning and skills. Participation in the program shall be voluntary.

(2) Schools or districts selected to participate in the reach for excellence grant program shall be required to match the state funds under section 406(2) of this act at fifty percent. The district match may consist of funds under section 1101 of this act.

(3) The state board of education shall be responsible for final decisions regarding selection and funding levels of projects and for the manner in which reach achievement awards shall be distributed. Reach projects may be conducted for up to six years subject to funding and annual approval by the state board. No project may receive continued funding for additional planning or reach achievement awards without approval from the state board. The state board shall use the benchmark data for the target educational outcomes required under section 406(2)(f) of this act in annually assessing the progress made toward the target educational outcomes to determine project eligibility for annual reach achievement awards. In evaluating projects to determine their continuation the state board shall emphasize giving projects maximum flexibility and time to be successful.

(4) The superintendent shall be responsible for administration of the reach for excellence program once projects and funding levels have been determined by the state board.

(5) The state board shall establish a working committee to assist it with:

(a) The development of any additional grant application criteria;

(c) Determining the manner in which reach achievement awards will be distributed; and

(d) Monitoring the development and use of measures of assessing student performance in addition to standardized tests, as required under section 406 of this act.

NEW SECTION. Sec. 404. (1) The superintendent shall assure that the sum total of all funds allocated for planning grants and for reach achievement awards does not exceed the amount appropriated by the legislature for the reach for excellence grant program.

(2) The superintendent shall award funds appropriated for the reach for excellence grant program to the selected projects as follows. The initial grant shall be awarded to projects for planning activities relating to implementation of the local reach project and for initial implementation of the project. (b) Staff development and training;

(c) Purchase of instructional materials, supplies, and resources;

(d) Development of new measures to assess student performance; and

(e) Initial implementation of the reach project.

(b) School staff shall have the final authority to determine how the reach achievement awards will be used and, if applicable to the project, how much each staff member shall receive.

(4) Reach achievement awards may be used for the following purposes:

(a) Any of the purposes authorized under subsection (2) of this section;

(b) Stipends or salary and compensation increases for certificated or classified staff under RCW 28A.400.200(4). (c) Any combination of (a) and (b) of this subsection.

(5) A site-based council may use planning grant funds under subsection (2) of this section for planning, staff and community development and training, and materials and supplies: PROVIDED, That these activities are related directly to the reach project.

NEW SECTION. Sec. 405. Use of reach achievement awards for the purpose of section 404(4)(b) of this act is not an increase in salary or compensation for the purposes of RCW 28A.400.200, nor may such compensation be applied to the district's salary schedule or be provided in a manner that would increase the state's basic education funding obligation.

NEW SECTION. Sec. 406. (1) Schools or school districts interested in implementing or enhancing existing local projects for educational excellence shall submit a grant application to the state board of education. All applications shall be submitted by the district's board of directors. If possible, applicants should develop their reach projects as part of the self-study process under RCW 28A.320.200, or otherwise link the proposed reach project to the self-study results of the school or district.

(2) Grant applications shall include:

(a) Documentation that at least one public hearing was held on the proposed reach project or projects. The public hearing required under this subsection, and other public hearings as may be held, may be conducted as part of the public hearings required under chapter 28A.505 RCW;

Applicants may use evaluation and accountability procedures and activities established under the state self-study program under RCW 28A.320.200. Applicants shall identify at least one measure of assessing student performance other than standardized testing that will be developed or used as part of the reach project. Applicants are encouraged to seek information from state higher education institutions regarding potential alternatives to standardized testing;

NEW SECTION. **Sec. 505.** A new section is added to chapter 28A.230 RCW to read as follows:

Each school district shall notify the parents of each student of their child's performance on the assessments and tests conducted under this chapter.

(2) A school district shall not advance a student beyond the fourth, eighth, or eleventh grade without the student having successfully completed the respective assessment or test under this chapter, unless the school district determines that the educational interests of the student are best served by advancement to the next grade. In making this determination, the school district shall consult with the parents of the

student. If the parents, in writing, desire that the student not be advanced, the school district shall not advance the student.

(3) After October 1, 1997, no student may graduate from a high school in this state unless the student has successfully completed the assessment conducted under section 504 of this act.

**"PART VI

NEW SECTION. Sec. 603. The department of personnel, in consultation with teachers, classified employees, administrators, school directors, business, labor, parents, and legislators shall study and recommend to the legislature and the governor not later than December 1, 1991, a plan to maintain total compensation for educational employees in Washington at the levels to be established under section 602(2) of this act. NEW SECTION. Sec. 604. The definitions in this section apply throughout sections 605 through 608 of this act.

(2) "Certificated staff" means teachers and certificated administrative staff.

(3) "School building" means a discrete school operated by a school district.

NEW SECTION. Sec. 605. The superintendent of public instruction, from available funds, shall allocate to school districts funds to effectuate an optional performance-based salary enhancement program for the teachers and certificated administrative staff of the state. Funds appropriated by the legislature for optional, performance-based salary enhancements shall be separate from and in addition to funds appropriated by the legislature for salary increases for certificated staff.

Funds provided for the optional, performance-based salary enhancement program under this section shall be allocated by the superintendent of public instruction to school buildings in the state on a grant basis.

NEW SECTION. Sec. 606. (1) In order to apply for a performance-based salary enhancement grant, a majority vote by the certificated staff of the building is required.

(2) Schools, through the school district, shall submit a grant application to the superintendent of public instruction. The grant application shall include the following information:

(a) Documentation that a performance-based salary enhancement plan has been adopted by a committee established in the school building. The committee shall be a school site-based council under sections 201 through 204 of this act; and

(b) Documentation that the performance-based salary enhancement plan identifies the criteria to be used to evaluate the performance of those certificated staff participating in the program, the levels of salary enhancement that can be earned under the plan, and the person or persons responsible for evaluating the performance of participating staff to determine eligibility for a salary enhancement.

(3) The criteria under subsection (2)(b) of this section for the performance-based salary enhancement plan may include the following criteria:

(a) Demonstration of improved competency of students leaving grades four, eight, eleven, and twelve in the subject matters of reading, writing, mathematics, science, history, and geography. Prior to adoption of the plan, the committee shall present the plan in a public hearing with prior public notice.

(5) It is the intent of the legislature that the performance-based salary enhancement program reward those educators whose performance is exemplary and is not intended to result in across-the-board salary increases for all certificated staff in the school building. However, the committee under subsection (2) of this section, by a vote of at least three-fourths of its members, may adopt a performance-based salary enhancement program that results in uniform across-the-board salary increases.

NEW SECTION. Sec. 607. Performance-based salary enhancement grants for certificated staff do not constitute an increase in salary or compensation for purposes of RCW 28A.400.200, nor may such compensation be applied to the district's salary schedule or be provided in a manner that would increase the state's basic education funding obligation.

NEW SECTION. Sec. 608. Schools or districts accepting performance-based salary enhancement grant funds shall be required to match the state funds at fifty percent. The match may consist of funds under section 1101 of this act.

The limitations imposed by RCW 84.52.050 through 84.52.056, and 84.52.043 shall not prevent the levy of additional taxes by school districts, when authorized so to do by the electors of such school district in the manner and for the purposes and number of years allowable under Article VII, section 2(a) of the Constitution of this state, as amended by Amendment 79 and as thereafter amended, at a special or general election to be held in the year in which the levy is made or, in the case of a one-year levy for the purpose of school nurse programs in an amount that does not exceed the sum necessary to provide one school nurse for every two thousand full-time equivalent students in the district which sum shall not be used to determine the levy limitations under RCW 84.52.0531, or in the case of a proposition authorizing two-year levies for maintenance and operation support of a school district or authorizing two-year through six-year levies to support the construction, modernization, or remodeling of school facilities, or both, at a special or general election to be held in the year in which the first annual levy is made: PROVIDED, That once additional tax levies have been authorized for maintenance and operation support of a school district for a two year period, no further additional tax levies for maintenance and operation support of the district for that period may be authorized.

A special election may be called and the time therefor fixed by the board of school directors, by giving notice thereof by publication in the manner provided by law for giving notices of general elections, at which special election the proposition authorizing such excess levy shall be submitted in such form as to enable the voters favoring the proposition to vote "yes" and those opposed thereto to vote "no".

Sec. 1404. RCW 84.52.0531 and 1990 c 33 s 601 are each amended to read as follows:

Except as provided for in RCW 84.52.053 for one-year levies for school nurse programs, the maximum dollar amount which may be levied by or for any school district for maintenance and operation support under the provisions of RCW 84.52.053 shall be determined as follows:

(1) For the purpose of this section, the basic education allocation shall be determined pursuant to RCW 28A.150.250, 28A.150.260, and 28A.150.350: PROVIDED, That when determining the basic education allocation under subsection (4) of this section, nonresident full time equivalent pupils who are participating in a program provided for in chapter 28A.545 RCW or in any other program pursuant to an interdistrict agreement shall be included in the enrollment of the resident district and excluded from the enrollment of the serving district.

(a) The district's levy base as defined in subsection (4) of this section multiplied by the district's maximum levy percentage as defined in subsections (5) and (6) of this section; plus

(b) In the case of nonhigh school districts only, an amount equal to the total estimated amount due by the nonhigh school district to high school districts pursuant to chapter 28A.545 RCW for the school year during which collection of the levy is to commence, less the increase in the nonhigh school district's basic education allocation as computed pursuant to subsection (1) of this section due to the inclusion of pupils participating in a program provided for in chapter 28A.545 RCW in such computation; less

(c) The maximum amount of state matching funds under RCW 28A.500.010 for which the district is eligible in that tax collection year.

(vi) State-wide block grant programs; and

(c) Any other federal allocations for elementary and secondary school programs, including direct grants, other than federal impact aid funds and allocations in lieu of taxes.

(5) For levies to be collected in calendar year 1988, a district's maximum levy percentage shall be determined as follows:

(a) Multiply the district's base year levy percentage as defined in subsection (2) of this section by the district's levy base as determined in subsection (4) of this section;

(b) Reduce the amount in (a) of this subsection by the total estimated amount of any levy reduction funds as defined in subsection (7) of this section which are to be allocated to the district for the 1987-88 school year;

(c) Divide the amount in (b) of this subsection by the district's levy base to compute a new percentage; and

(7) "Levy reduction funds" shall mean increases in state funds from the prior school year for programs included under subsection (4) of this section: (a) That are not attributable to enrollment changes, compensation increases, or inflationary adjustments; and (b) that are or were specifically identified as levy reduction funds in the appropriations act. Levy reduction funds shall not include moneys received by school districts from cities or counties.

The President declared the question before the Senate to be the adoption of the Committee on Education striking amendment, as amended, to Engrossed Substitute House Bill No. 1023.

POINT OF ORDER

Senator Pelz: "Mr. President, I would just like to make a point of order which is that I think a tradition is being established where certain vocal members on the other side of the aisle are exerting their vocal cords in excess of their numbers. It just makes me wonder sometimes if these voice votes have true validity."

REPLY BY THE PRESIDENT

President Pritchard: "Senator Pelz, as the President of the Senate, I am very careful and I believe that each time I have ruled when we then have had a division, why my judgment has been maintained. I realize that can happen with some people shouting louder than others, but as I say, my guessing so far has been one hundred percent. Each time we have had a division, it is borne out even though it has been remarkably close."

Enacting the Washington taxpayers' rights and responsibilities act.

The bill was read the second time.

MOTIONS

On motion of Senator McDonald, the following Committee on Ways and Means amendment was adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. This chapter shall be known and cited as "Washington taxpayers' rights and responsibilities."

NEW SECTION. Sec. 2. (1) The legislature finds that taxes are one of the most sensitive points of contact between citizens and their government, and that there is a delicate balance between revenue collection and taxpayers' rights and responsibilities. The rights, privacy, and property of Washington taxpayers should be protected adequately during the process of the assessment and collection of taxes.

(2) The legislature further finds that the Washington tax system is based largely on voluntary compliance and that taxpayers have a responsibility to inform themselves about applicable tax laws. The legislature also finds that the rights of the taxpayers and their attendant responsibilities are best implemented where the department of revenue provides accurate tax information, instructions, forms, administrative policies, and procedures to assist taxpayers to voluntarily comply with the provisions of the revenue act, Title 82 RCW, and where taxpayers cooperate in the administration of these provisions.

NEW SECTION. Sec. 3. The department of revenue shall administer this chapter. The department of revenue shall adopt or amend rules as may be necessary to fully implement this chapter and the rights established under this chapter.

NEW SECTION. Sec. 4. The taxpayers of the state of Washington have:

(1) The right to a written explanation of the basis for any tax deficiency assessment, interest, and penalties at the time the assessments are issued;

(2) The right to rely on specific, official written advice and written tax reporting instructions from the department of revenue to that taxpayer, and to have interest, penalties, and in some instances, tax deficiency assessments waived where the taxpayer has so relied to their proven detriment;

(3) The right to redress and relief where tax laws or rules are found to be unconstitutional by the final decision of a court of record and the right to prompt administrative remedies in such cases;

(4) The right to confidentiality and protection from public inquiry regarding financial and business information in the possession of the department of revenue in accordance with the requirements of RCW 82.32.330;

(5) The right to receive, upon request, clear and current tax instructions, rules, procedures, forms, and other tax information; and

(6) The right to a prompt and independent administrative review by the department of revenue of a decision to revoke a tax registration, and to a written determination that either sustains the revocation or reinstates the registration.

NEW SECTION. Sec. 5. To ensure consistent application of the revenue laws, taxpayers have certain responsibilities under chapter 82.32 RCW, including, but not limited to, the responsibility to:

- (1) Register with the department of revenue;
- (2) Know their tax reporting obligations, and when they are uncertain about their obligations, seek instructions from the department of revenue;
- (3) Keep accurate and complete business records;
- (4) File accurate returns and pay taxes in a timely manner;
- (5) Ensure the accuracy of the information entered on their tax returns;
- (6) Substantiate claims for refund;
- (7) Timely pay all taxes after closing a business and request cancellation of registration number; and
- (8) Timely respond to communications from the department of revenue.

NEW SECTION. Sec. 6. The director of revenue shall appoint a taxpayer rights advocate. The advocate shall be responsible for directly assisting taxpayers and their representatives to assure their understanding and utilization of the policies, processes, and procedures available to them in the resolution of problems.

NEW SECTION. Sec. 7. The department of revenue shall maintain a taxpayer services program consisting of, but not limited to:

- (1) Providing taxpayer assistance in the form of information, education, and instruction in person, by telephone, or by correspondence;
- (2) Conducting tax workshops at locations most conveniently accessible to the majority of taxpayers affected; and
- (3) Publishing written bulletins, instructions, current revenue laws, rules, court decisions, and interpretive rulings of the department of revenue.

NEW SECTION. Sec. 8. Sections 1 through 7 of this act shall constitute a new chapter in Title 82 RCW.

On motion of Senator McDonald, the following title amendment was adopted:

On page 1, line 1 of the title, after "responsibilities;" strike the remainder of the title and insert "and adding a new chapter to Title 82 RCW."

MOTION

On motion of Senator Amondson, the rules were suspended, Engrossed House Bill No. 1228 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator McDonald, this is money that is owed the state. Is this a two-way street? Can the vendor charge the same rate when they are not paid within thirty days?"

Senator McDonald: "There is some provision for what we will pay them, but I don't have that at the tip of my tongue. I think it is more in the state's favor that we get more interest than we pay out."

Senator Rasmussen: "Well, that is what I am wondering, because that is quite a complaint that vendors are waiting for their money and not collecting interest on it. Maybe Senator Amondson knows more about it."

Senator McDonald: "Actually, Senator Rasmussen, if these were exactly the same people--people that owed us and the ones that we owed--then that would probably, you know, I would throw in with you. These are people who owe us and aren't necessarily the ones that we owe."

Senator Rasmussen: "Well, I understand that, but we ought to have it the same way for the vendors that are not getting paid within thirty days. Thank you."

POINT OF INQUIRY

Senator Vognild: "Senator McDonald, section one of this bill, and it is well summarized just in the summary, makes an interesting change in law and I guess I am not really against it or for it. I want to know what it is for. It says that the state may report receivables to a credit association. It strikes the word 'delinquent.' It sounds almost to me as if it is going to allow the

state to report to a credit bureau every bill that anybody owes the state. I guess I don't understand why. I'm a little concerned with it."

Senator McDonald: "Mr. President, I wonder if you could defer further consideration on this bill and I'll get the answers to both of these questions."

There being no objection, the President deferred further consideration of Engrossed House Bill No. 1228.

NEW SECTION. Sec. 1. The legislature finds there is a statistically significant difference between the number of persons under the age of twenty-one and those twenty-one and over in the number of fatal automobile accidents in which the operator of one of the motor vehicles was under twenty-one and had consumed intoxicating liquor. The legislature finds that the number of persons under twenty-one years of age involved in alcohol-related fatal accidents is twice as great as the percent of total number of licensed motor vehicle operators represented by persons under twenty-one years of age.

The legislature further finds there is rational, scientific evidence that the affect of alcohol on persons under the age of twenty-one years of age is more significant than persons of similar weight and height who are older than twenty-one.

The legislature further finds that there is a rational relationship between the need to improve the safety of all persons using the highways, roads, waterways, and airways of this state and the ability to address the special concerns caused by the use of alcohol

by persons under twenty-one years of age who are operating motor vehicles of any kind.

The legislature further recognizes the need to take special precautions to protect the health, safety, and well-being of its youth."

Renumber the remaining sections consecutively and correct internal cross-references.

There being no objection, the Senate resumed consideration of Engrossed House Bill No. 1228, deferred on third reading earlier today.

REMARKS BY SENATOR McDONALD

Senator McDonald: "Mr. President, this is the bill that Senator Rasmussen had a question on. It was a good question and the answer is that we pay one percent per month on debts. This would require that we receive one percent per month from those that owe us. I think it is a reasonable bill and that we do have bilateral symmetry there.

"To answer Senator Vognild's question, on past due accounts, receivable is apparently the same thing as receivables and accountees. Therefore, it is just kind of a technical amendment. I think this is a good bill that allows us to collect one percent per month for those who owe us money and would cause them to have some pain if they didn't and cause them to pay up as quickly as possible. Hope you would vote for it. "

The President declared the question before the Senate to be the roll call on the final passage of Engrossed House Bill No. 1228.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that:

(2) A rapid increase in the number of public water systems supplying drinking water to the citizens of this state has significantly increased the burden on both local and state government to monitor and enforce compliance by these systems with state laws that govern planning, design, construction, operation, maintenance, financing, management, and emergency response;

(3) The federal safe drinking water act imposes on state and local governments and the public water systems of this state significant new responsibilities for monitoring, testing, and treating drinking water supplies; and

Therefore, annual operating permit requirements shall be established in accordance with this chapter. The operating permit requirements shall be administered by the department and shall be used as a means to assure that public water systems provide safe and reliable drinking water to the public. The department and local government shall conduct comprehensive and systematic evaluations to assess the adequacy and financial viability of public water systems. SECOND READING

SENATE BILL NO. 5906, by Senators Rinehart, McCaslin and Talmadge

Relating to protecting persons seriously threatened by domestic violence by restricting disclosure of their names or addresses.

The bill was read the second time.

MOTION

Senator McCaslin moved that the following amendment by Senators Rinehart and McCaslin be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that persons attempting to escape from actual or threatened domestic violence frequently establish new addresses in order to prevent their assailants or probable assailants from finding them. The purpose of this chapter is to enable state and local agencies to respond to requests for public records without disclosing the location of a victim of domestic violence, to enable interagency cooperation with the secretary of state in providing address confidentiality for victims of domestic violence, and to enable state and local agencies to accept a

program participant's use of an address designated by the secretary of state as a substitute mailing address.

NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Address" means a residential street address, school address, or work address of an individual, as specified on the individual's application to be a program participant under this chapter.

(2) "Program participant" means a person certified as a program participant under section 3 of this act.

(3) "Domestic violence" means an act as defined in RCW 10.99.020 and includes a threat of such acts committed against an individual in a domestic situation, regardless of whether these acts or threats have been reported to law enforcement officers.

NEW SECTION. Sec. 3. (1) An adult person, a parent or guardian acting on behalf of a minor, or a guardian acting on behalf of an incapacitated person, as defined in RCW 11.88.010, may apply to the secretary of state to have an address designated by the secretary of state serve as the person's address or the address of the minor or incapacitated person. The secretary of state shall approve an application if it is filed in the manner and on the form prescribed by the secretary of state and if it contains:

(a) A sworn statement by the applicant that the applicant has good reason to believe (i) that the applicant, or the minor or incapacitated person on whose behalf the application is made, is a victim of domestic violence; and (ii) that the applicant fears for his or her safety or his or her children's safety, or the safety of the minor or incapacitated person on whose behalf the application is made;

(b) A designation of the secretary of state as agent for purposes of service of process and for the purpose of receipt of mail;

(c) The mailing address where the applicant can be contacted by the secretary of state, and the phone number or numbers where the applicant can be called by the secretary of state;

(d) The new address or addresses that the applicant requests not be disclosed for the reason that disclosure will increase the risk of domestic violence;

(e) The signature of the applicant and of any individual or representative of any office designated in writing under section 8 of this act who assisted in the preparation of the application, and the date on which the applicant signed the application.

(2) Applications shall be filed with the office of the secretary of state.

(3) Upon filing a properly completed application, the secretary of state shall certify the applicant as a program participant. Applicants shall be certified for four years following the date of filing unless the certification is withdrawn or invalidated before that date. The secretary of state shall by rule establish a renewal procedure.

(4) A person who falsely attests in an application that disclosure of the applicant's address would endanger the applicant's safety or the safety of the applicant's children or the minor or incapacitated person on whose behalf the application is made, or who knowingly provides false or incorrect information upon making an application, shall be punishable under RCW 40.16.030 or other applicable statutes.

NEW SECTION. Sec. 4. (1) If the program participant obtains a name change, he or she loses certification as a program participant.

(2) The secretary of state may cancel a program participant's certification if there is a change in the residential address from the one listed on the application, unless the program participant provides the secretary of state with seven days' prior notice of the change of address.

(3) The secretary of state may cancel certification of a program participant if mail forwarded by the secretary to the program participant's address is returned as nondeliverable.

(4) The secretary of state shall cancel certification of a program participant who applies using false information.

NEW SECTION. Sec. 5. (1) A program participant may request that state and local agencies use the address designated by the secretary of state as his or her address. When creating a new public record, state and local agencies shall accept the address designated by the secretary of state as a program participant's substitute address, unless the secretary of state has determined that:

(a) The agency has a bona fide statutory or administrative requirement for the use of the address which would otherwise be confidential under this chapter; and

(b) This address will be used only for those statutory and administrative purposes.

(2) A program participant may use the address designated by the secretary of state as his or her work address.

(3) The office of the secretary of state shall forward all first class mail to the appropriate program participants.

NEW SECTION. Sec. 6. (1) A program participant who is otherwise qualified to vote may apply as a service voter under RCW 29.01.155. The program participant shall automatically receive absentee ballots for all elections in the jurisdictions for which that individual resides in the same manner as absentee voters who qualify under RCW 29.36.013, except that the program participant shall not be required to reapply following January 1st of each odd-numbered year. The county auditor shall transmit the absentee ballot to the program participant at the address designated by the participant in his or her application as a service voter. Neither the name nor the address of a program participant shall be included in any list of registered voters available to the public.

(2) The county auditor may not make the participant's address contained in voter registration records available for public inspection or copying except under the following circumstances:

(a) If requested by a law enforcement agency, to the law enforcement agency; and

(b) If directed by a court order, to a person identified in the order.

NEW SECTION. Sec. 7. The secretary of state may not make a program participant's address, other than the address designated by the secretary of state, available for inspection or copying, except under the following circumstances:

(1) If requested by a law enforcement agency, to the law enforcement agency;

(2) If directed by a court order, to a person identified in the order; and

(3) If certification has been canceled.

NEW SECTION. Sec. 8. The secretary of state shall designate state and local agencies and nonprofit agencies that provide counseling and shelter services to victims of domestic violence to assist persons applying to be program participants. Any assistance and counseling rendered by the office of the secretary of state or its designees to applicants shall in no way be construed as legal advice.

NEW SECTION. Sec. 9. The secretary of state may adopt rules to facilitate the administration of this chapter by state and local agencies.

(h) Valuable formulae, designs, drawings, and research data obtained by any agency within five years of the request for disclosure when disclosure would produce private gain and public loss.

(j) Records which are relevant to a controversy to which an agency is a party but which records would not be available to another party under the rules of pretrial discovery for causes pending in the superior courts.

~~((bb) Effective April 19, 1991, the work and home addresses, other than the city of residence, of a person shall remain undisclosed or be omitted from all documents made available for public review if that person requests in writing, under oath, that these addresses be kept private because disclosure would endanger his or her life, physical safety, or property. This provision does not in any way restrict the sharing or collection of information by state and local governmental agencies required for the daily administration of their duties. The secretary of state shall administer this provision and establish the procedures and rules that are necessary for its operation. An agency that has not been furnished with a request for confidentiality of address information is not liable for damages resulting from its disclosure of the information. For purpose of service of process, the secretary of state shall serve as agent for each person who submits a request under this subsection. (2) Except for information described in subsection (1)(c)(i) of this section and confidential income data exempted from public inspection pursuant to RCW 84.40.020, the exemptions of this section are inapplicable to the extent that information, the disclosure of which would violate personal privacy or vital governmental interests, can be deleted from the specific records sought. No exemption may be construed to permit the nondisclosure of statistical information not descriptive of any readily identifiable person or persons.

(3) Inspection or copying of any specific records exempt under the provisions of this section may be permitted if the superior court in the county in which the record is maintained finds, after a hearing with notice thereof to every person in interest and the agency, that the exemption of such records is clearly unnecessary to protect any individual's right of privacy or any vital governmental function.

(1) The commission of any act involving moral turpitude, dishonesty, or corruption relating to the practice of the person's profession, whether the act constitutes a crime or not. If the act constitutes a crime, conviction in a criminal proceeding is not a condition precedent to disciplinary action. Upon such a conviction, however, the judgment and sentence is conclusive evidence at the ensuing disciplinary hearing of the guilt of the license holder or applicant of the crime described in the indictment or information, and of the person's violation of the statute on which it is based. For the purposes of this section, conviction includes all instances in which a plea of guilty or nolo contendere is the basis for the conviction and all proceedings in which the sentence has been deferred or suspended. Nothing in this section abrogates rights guaranteed under chapter 9.96A RCW;

(2) Misrepresentation or concealment of a material fact in obtaining a license or in reinstatement thereof;

(6) The possession, use, prescription for use, or distribution of controlled substances or legend drugs in any way other than for legitimate or therapeutic purposes, diversion of controlled substances or legend drugs, the violation of any drug law, or prescribing controlled substances for oneself;

(7) Violation of any state or federal statute or administrative rule regulating the profession in question, including any statute or rule defining or establishing standards of patient care or professional conduct or practice;

(8) Failure to cooperate with the disciplining authority by:

(a) Not furnishing any papers or documents;

(b) Not furnishing in writing a full and complete explanation covering the matter contained in the complaint filed with the disciplining authority; or

- (16) Promotion for personal gain of any unnecessary or inefficacious drug, device, treatment, procedure, or service;
- (17) Conviction of any gross misdemeanor or felony relating to the practice of the person's profession. For the purposes of this subsection, conviction includes all instances in which a plea of guilty or nolo contendere is the basis for conviction and all proceedings in which the sentence has been deferred or suspended. Nothing in this section abrogates rights guaranteed under chapter 9.96A RCW;
- (18) The procuring, or aiding or abetting in procuring, a criminal abortion;
- (19) The offering, undertaking, or agreeing to cure or treat disease by a secret method, procedure, treatment, or medicine, or the treating, operating, or prescribing for any health condition by a method, means, or procedure which the licensee refuses to divulge upon demand of the disciplining authority;
- (20) The willful betrayal of a practitioner-patient privilege as recognized by law;
- (21) Violation of chapter 19.68 RCW;
- (22) Interference with an investigation or disciplinary proceeding by willful misrepresentation of facts before the disciplining authority or its authorized representative, or by the use of threats or harassment against any patient or witness to prevent them from providing evidence in a disciplinary proceeding or any other legal action;
- (23) Current misuse of:
- (a) Alcohol;
 - (b) Controlled substances; or
 - (c) Legend drugs;
- (24) Abuse of a client or patient or sexual contact with a client or patient;
- (25) Acceptance of more than a nominal gratuity, hospitality, or subsidy offered by a representative or vendor of medical or health-related products or services intended for patients, in contemplation of a sale or for use in research publishable in professional journals, where a conflict of interest is presented, as defined by rules of the disciplining authority, in consultation with the department, based on recognized professional ethical standards.

PERSONAL PRIVILEGE

Senator McCaslin: "Mr. President, a point of personal privilege. Last year, I remember, you banged the gavel and I said, 'Well Mr. President,

doesn't banging the gavel mean something' and you said, 'No, Senator McCaslin, we are going to go back--'"

REPLY BY THE PRESIDENT

President Pritchard: "That's not a point of personal privilege. That's a point of order, which shows that I am not always consistent."

POINT OF ORDER

Senator McCaslin: "A point of order, Mr. President. Last year you banged the gavel--just a repeat of what I said--an instant replay."

REPLY BY THE PRESIDENT

President Pritchard: "Well, it shows what can happen. You can learn in a year.

Senator McCaslin: "The heat has been so bad in here that I have lost my nails. The color is gone; they are back to their original pinky."

PERSONAL PRIVILEGE

Senator Hayner: "Mr. President, a point of personal privilege. Beverly Vozenilek just received a call from George Sellar. He originated from his hospital room. He has sat up today. He feels much better; they expect to maybe get him up tomorrow--if you can believe that. He is doing very well."

POINT OF INQUIRY

Senator Wojahn: "I need a question answered, Mr. President, and I don't know who to ask this question of. I'll ask the question and maybe there will be a show of hands who can answer it. It seems to me that the people who are being regulated must pay for their own licensing and consequently none of this is coming out of the general fund. Can anyone answer that question for me?"

"In other words, the cosmetologists, won't they have to pay the cost for the implementation of this bill? Yes, they will, I believe. If they are paying for it, they are not going to be shelling out what they don't think is necessary. I guess I have answered my own question. This is not coming out of the general fund; it is coming out of the pockets of cosmetologists--the licensing of this bill. Thank you."

Further debate ensued.

On page 20, line 26, after "salon/shop" insert "or the home, office, or other location selected by the client for obtaining the services of a personal service operator"

PARLIAMENTARY INQUIRY

Senator Vognild: "A parliamentary inquiry, Mr. President. This amendment, in regards to the amendment that was just adopted that I submitted, is going to require simply a comma to be inserted in front of the amendment, is that something that can be done in the engrossing without a motion?"

REPLY BY THE PRESIDENT

President Pritchard: "Yes, the attorneys here were aware of it and they expected to do that, sir. A little attorney license, I guess you would call it."

On motion of Senator West, the following Committee on Health and Long-Term Care amendment was adopted:

Strike everything after the enacting clause and insert the following:

"ARTICLE I
FINDINGS AND DEFINITIONS"

NEW SECTION. **Sec. 101. LEGISLATIVE FINDINGS.** The legislature finds that:

(1) Health care information is personal and sensitive information that if improperly used or released may do significant harm to a patient's interests in privacy, health care, or other interests.

(2) Patients need access to their own health care information as a matter of fairness to enable them to make informed decisions about their health care and correct inaccurate or incomplete information about themselves.

(3) In order to retain the full trust and confidence of patients, health care providers have an interest in assuring that health care information is not improperly disclosed and in having clear and certain rules for the disclosure of health care information.

(4) Persons other than health care providers obtain, use, and disclose health record information in many different contexts and for many different purposes. It is the public policy of this state that a patient's interest in the proper use and disclosure of the patient's health care information survives even when the information is held by persons other than health care providers.

(5) The movement of patients and their health care information across state lines, access to and exchange of health care information from automated data banks, and the emergence of multistate health care providers creates a compelling need for uniform law, rules, and procedures governing the use and disclosure of health care information.

NEW SECTION. Sec. 102. DEFINITIONS. As used in this chapter, unless the context otherwise requires:

(1) "Audit" means an assessment, evaluation, determination, or investigation of a health care provider by a person not employed by or affiliated with the provider to determine compliance with:

- (a) Statutory, regulatory, fiscal, medical, or scientific standards;
- (b) A private or public program of payments to a health care provider; or
- (c) Requirements for licensing, accreditation, or certification.

(2) "Directory information" means information disclosing the presence and the general health condition of a particular patient who is a patient in a health care facility or who is currently receiving emergency health care in a health care facility.

(3) "General health condition" means the patient's health status described in terms of "critical," "poor," "fair," "good," "excellent," or terms denoting similar conditions.

(4) "Health care" means any care, service, or procedure provided by a health care provider:

- (a) To diagnose, treat, or maintain a patient's physical or mental condition; or
- (b) That affects the structure or any function of the human body.

(5) "Health care facility" means a hospital, clinic, nursing home, laboratory, office, or similar place where a health care provider provides health care to patients.

(6) "Health care information" means any information, whether oral or recorded in any form or medium, that identifies or can readily be associated with the identity of a patient and directly relates to the patient's health care. The term includes any record of disclosures of health care information.

(7) "Health care provider" means a person who is licensed, certified, registered, or otherwise authorized by the law of this state to provide health care in the ordinary course of business or practice of a profession.

(8) "Institutional review board" means any board, committee, or other group formally designated by an institution, or authorized under federal or state law, to review, approve the initiation of, or conduct periodic review of research programs to assure the protection of the rights and welfare of human research subjects.

(9) "Maintain," as related to health care information, means to hold, possess, preserve, retain, store, or control that information.

(10) "Patient" means an individual who receives or has received health care. The term includes a deceased individual who has received health care.

(11) "Person" means an individual, corporation, business trust, estate, trust, partnership, association, joint venture, government, governmental subdivision or agency, or any other legal or commercial entity.

(12) "Reasonable fee" means the charges for duplicating or searching the record specified in RCW 36.18.020 (8) or (16), respectively. However, where editing of records by a health care provider is required by statute and is done by the provider personally, the fee may be the usual and customary charge for a basic office visit.

"ARTICLE II
DISCLOSURE OF HEALTH CARE INFORMATION"

NEW SECTION. **Sec. 201. DISCLOSURE BY HEALTH CARE PROVIDER.**

Except as authorized in section 204 of this act, a health care provider, an individual who assists a health care provider in the delivery of health care, or an agent and employee of a health care provider may not disclose health care information about a patient to any other person without the patient's written authorization. A disclosure made under a patient's written authorization must conform to the authorization.

Health care providers or facilities shall chart all disclosures, except to third-party health care payors, of health care information, such chartings to become part of the health care information.

NEW SECTION. **Sec. 202. PATIENT AUTHORIZATION TO HEALTH CARE PROVIDER FOR DISCLOSURE.**

(1) A patient may authorize a health care provider to disclose the patient's health care information. A health care provider shall honor an authorization and, if requested, provide a copy of the recorded health care information unless the health care provider denies the patient access to health care information under section 302 of this act.

(2) A health care provider may charge a reasonable fee, not to exceed the health care provider's actual cost for providing the health care information, and is not required to honor an authorization until the fee is paid.

(3) To be valid, a disclosure authorization to a health care provider shall:

- (a) Be in writing, dated, and signed by the patient;
- (b) Identify the nature of the information to be disclosed;
- (c) Identify the name, address, and institutional affiliation of the person to whom the information is to be disclosed;
- (d) Identify the provider who is to make the disclosure; and
- (e) Identify the patient.

(4) Except as provided by this chapter, the signing of an authorization by a patient is not a waiver of any rights a patient has under other statutes, the rules of evidence, or common law.

(5) A health care provider shall retain each authorization or revocation in conjunction with any health care information from which disclosures are made. This requirement shall not apply to disclosures to third-party health care payors.

(6) Except for authorizations to provide information to third-party health care payors, an authorization may not permit the release of health care information relating to future health care that the patient receives more than ninety days after the authorization was signed. Patients shall be advised of the period of validity of their authorization on the disclosure authorization form.

(7) Except for authorizations to provide information to third-party health payors, an authorization in effect on the effective date of this section remains valid for six months after the effective date of this section unless an earlier date is specified or it is revoked under section 203 of this act. Health care information disclosed under such an authorization is otherwise subject to this chapter. An authorization written after the effective date of this section becomes invalid after the expiration date contained in the authorization, which may not exceed ninety days. If the authorization does not contain an expiration date, it expires ninety days after it is signed.

NEW SECTION. **Sec. 203. PATIENT'S REVOCATION OF AUTHORIZATION FOR DISCLOSURE.**

A patient may revoke in writing a disclosure authorization to a health care provider at any time unless disclosure is required to effectuate payments for health care that has been provided or other substantial action has been taken in reliance on the authorization. A patient may not maintain an action against the health care provider for disclosures made in good-faith reliance on an authorization if the health care provider had no actual notice of the revocation of the authorization.

NEW SECTION. Sec. 204. DISCLOSURE WITHOUT PATIENT'S AUTHORIZATION.

(1) A health care provider may disclose health care information about a patient without the patient's authorization to the extent a recipient needs to know the information, if the disclosure is:

(a) To a person who the provider reasonably believes is providing health care to the patient;

(b) To any other person who requires health care information for health care education, or to provide planning, quality assurance, peer review, or administrative, legal, financial, or actuarial services to the health care provider; or for assisting the health care provider in the delivery of health care and the health care provider reasonably believes that the person:

(i) Will not use or disclose the health care information for any other purpose; and

(ii) Will take appropriate steps to protect the health care information;

(c) To any other health care provider reasonably believed to have previously provided health care to the patient, to the extent necessary to provide health care to the patient, unless the patient has instructed the health care provider in writing not to make the disclosure;

(d) To any person if the health care provider reasonably believes that disclosure will avoid or minimize an imminent danger to the health or safety of the patient or any other individual, however there is no obligation under this chapter on the part of the provider to so disclose;

(e) Oral, and made to immediate family members of the patient, or any other individual with whom the patient is known to have a close personal relationship, if made in accordance with good medical or other professional practice, unless the patient has instructed the health care provider in writing not to make the disclosure;

(f) To a health care provider who is the successor in interest to the health care provider maintaining the health care information;

(g) For use in a research project that an institutional review board has determined:

(i) Is of sufficient importance to outweigh the intrusion into the privacy of the patient that would result from the disclosure;

(ii) Is impracticable without the use or disclosure of the health care information in individually identifiable form;

(iii) Contains reasonable safeguards to protect the information from redisclosure;

(iv) Contains reasonable safeguards to protect against identifying, directly or indirectly, any patient in any report of the research project; and

(v) Contains procedures to remove or destroy at the earliest opportunity, consistent with the purposes of the project, information that would enable the patient to be identified, unless an institutional review board authorizes retention of identifying information for purposes of another research project;

(h) To a person who obtains information for purposes of an audit, if that person agrees in writing to:

(i) Remove or destroy, at the earliest opportunity consistent with the purpose of the audit, information that would enable the patient to be identified; and

(ii) Not to disclose the information further, except to accomplish the audit or report unlawful or improper conduct involving fraud in payment for health care by a health care provider or patient, or other unlawful conduct by the health care provider;

(i) To an official of a penal or other custodial institution in which the patient is detained;

(j) To provide directory information, unless the patient has instructed the health care provider not to make the disclosure.

(2) A health care provider shall disclose health care information about a patient without the patient's authorization if the disclosure is:

(a) To federal, state, or local public health authorities, to the extent the health care provider is required by law to report health care information; when needed to determine compliance with state or federal licensure, certification or registration rules or laws; or when needed to protect the public health;

(b) To federal, state, or local law enforcement authorities to the extent the health care provider is required by law;

(c) Pursuant to compulsory process in accordance with section 205 of this act.

(3) All state or local agencies obtaining patient health care information pursuant to this section shall adopt rules establishing their record acquisition, retention, and security policies that are consistent with this chapter.

NEW SECTION. Sec. 205. COMPULSORY PROCESS.

(1) Before service of a discovery request or compulsory process on a health care provider for health care information, an attorney shall provide advance notice to the health care provider and the patient or the patient's attorney involved through service of process or first class mail, indicating the health care provider from whom the information is sought, what health care information is sought, and the date by which a protective order must be obtained to prevent the health care provider from complying. Such date shall give the patient and the health care provider adequate time to seek a protective order, but in no event be less than fourteen days since the date of service or delivery to the patient and the health care provider of the foregoing. Thereafter the request for discovery or compulsory process shall be served on the health care provider.

(2) Without the written consent of the patient, the health care provider may not disclose the health care information sought under subsection (1) of this section if the requestor has not complied with the requirements of subsection (1) of this section. In the absence of a protective order issued by a court of competent jurisdiction forbidding compliance, the health care provider shall disclose the information in accordance with this chapter. In the case of compliance, the request for discovery or compulsory process shall be made a part of the patient record.

(3) Production of health care information under this section, in and of itself, does not constitute a waiver of any privilege, objection, or defense existing under other law or rule of evidence or procedure.

NEW SECTION. Sec. 206. CERTIFICATION OF RECORD.

Upon the request of the person requesting the record, the health care provider or facility shall certify the record furnished and may charge for such certification in accordance with RCW 36.18.020(9). No record need be certified until the fee is paid. The certification shall be affixed to the record and disclose:

- (1) The identity of the patient;
- (2) The kind of health care information involved;
- (3) The identity of the person to whom the information is being furnished;
- (4) The identity of the health care provider or facility furnishing the information;
- (5) The number of pages of the health care information;
- (6) The date on which the health care information is furnished; and

The health care provider may charge a reasonable fee, not to exceed the health care provider's actual cost, for providing the health care information and is not required to permit examination or copying until the fee is paid.

NEW SECTION. Sec. 302. DENIAL OF EXAMINATION AND COPYING.

(1) Subject to any conflicting requirement in the public disclosure act, chapter 42.17 RCW, a health care provider may deny access to health care information by a patient if the health care provider reasonably concludes that:

(a) Knowledge of the health care information would be injurious to the health of the patient;

(b) Knowledge of the health care information could reasonably be expected to lead to the patient's identification of an individual who provided the information in confidence and under circumstances in which confidentiality was appropriate;

(c) Knowledge of the health care information could reasonably be expected to cause danger to the life or safety of any individual;

(d) The health care information was compiled and is used solely for litigation, quality assurance, peer review, or administrative purposes; or

(e) Access to the health care information is otherwise prohibited by law.

(2) If a health care provider denies a request for examination and copying under this section, the provider, to the extent possible, shall segregate health care information for which access has been denied under subsection (1) of this section from information for which access cannot be denied and permit the patient to examine or copy the disclosable information.

(3) If a health care provider denies a patient's request for examination and copying, in whole or in part, under subsection (1) (a) or (c) of this section, the provider shall permit examination and copying of the record by another health care provider, selected by the patient, who is licensed, certified, registered, or otherwise authorized under the laws of this state to treat the patient for the same condition as the health care provider denying the request. The health care provider denying the request shall inform the patient of the patient's right to select another health care provider

In cases where parental consent is required, a health care provider may rely, without incurring any civil or criminal liability for such reliance, on the representation of a parent that he or she is authorized to consent to health care for the minor patient regardless of whether:

The bill was read the second time.

MOTIONS

Senator Nelson moved that the following Committee on Transportation amendment be adopted:

Strike everything after the enacting clause and insert the following:

Sec. 1. RCW 81.104.010 and 1990 c 43 s 22 are each amended to read as follows:

Increasing congestion on Washington's roadways calls for identification and implementation of high capacity transportation system alternatives. "High capacity transportation system" means a system of public transportation services((?)) within an urbanized region operating principally on exclusive rights of way, and the supporting services and facilities necessary to implement such a system, including high occupancy vehicle lanes, which taken as a whole, provides a substantially higher level of

passenger capacity, speed, and service frequency than traditional public transportation systems operating principally ~~((on))~~ in general purpose ~~((roadway rights of way))~~ roadways. The legislature believes that local jurisdictions should coordinate and be responsible for high capacity transportation policy development, program planning, and implementation. The state should assist by working with local agencies on issues involving rights of way, partially financing projects meeting established state criteria including development and completion of the high occupancy vehicle lane system, authorizing local jurisdictions to finance high capacity transportation systems through voter-approved tax options, and providing technical assistance and information.

Sec. 2. RCW 81.104.020 and 1990 c 43 s 23 are each amended to read as follows:

The department of transportation's current policy role in transit is expanded to include other high capacity transportation development as part of a multimodal transportation system.

(1) The department of transportation shall implement a program for high capacity transportation coordination, planning, and technical studies with appropriations from the high capacity transportation account.

(2) The department shall assist local jurisdictions and ~~((metropolitan))~~ regional transportation planning organizations with high capacity transportation planning efforts.

Sec. 3. RCW 81.104.030 and 1990 c 43 s 24 are each amended to read as follows:

(1) In any ~~((class A))~~ county with a population of from two hundred ten thousand to less than one million that is not bordered by a ~~((class AA))~~ county with a population of one million or more, and in ~~((counties of the first class and smaller))~~ each county with a population of less than two hundred ten thousand, city-owned transit systems, county transportation authorities, metropolitan municipal corporations, and public transportation benefit areas may elect to establish high capacity transportation service. Such agencies shall form a regional policy committee with proportional representation based upon population distribution within the designated service area and a representative of the department of transportation.

~~((a))~~ City-owned transit systems, county transportation authorities, metropolitan municipal corporations, and public transportation benefit areas participating in joint regional policy committees shall seek voter approval within their own service boundaries of a high capacity transportation system plan and ~~((an implementation program including a))~~ financing ~~((program))~~.

~~((b))~~ An interim regional authority may be formed pursuant to RCW 81.104.040(2) and shall seek voter approval of a high capacity transportation plan and financing program within its proposed service boundaries plan.

(2) City-owned transit systems, county transportation authorities, metropolitan municipal corporations, and public transportation benefit areas in counties adjoining state or international boundaries are authorized to participate in the regional high capacity transportation programs of an adjoining state or ~~((nation))~~ Canadian province.

Sec. 4. RCW 81.104.040 and 1990 c 43 s 25 are each amended to read as follows:

(1) Agencies in ~~((a class AA))~~ each county with a population of one million or more, and in ~~((class A counties))~~ each county with a population of from two hundred ten thousand to less than one million bordering a ~~((class AA))~~ county with a population of one million or more that are currently authorized to provide high capacity transportation planning and operating services, including but not limited to city-owned transit systems, county transportation authorities, metropolitan municipal corporations, and public transportation benefit areas, must establish through interlocal agreements a joint regional policy committee with proportional representation based upon the population distribution within each agency's designated service area, as determined by the parties to the agreement.

(a) The membership of the joint regional policy committee shall consist of locally elected officials who serve on the legislative authority of the existing transit systems and a representative from the department of transportation. Nonvoting membership for elected officials from adjoining counties may be allowed at the committee's discretion.

(b) The joint regional policy committee shall be responsible for the preparation and adoption of a regional high capacity transportation implementation program, which shall include the system plan, project plans, and ((an implementation program including)) a financing ((package)) plan. This ((plan)) program shall be in conformance with the ((metropolitan)) regional transportation planning organization's regional transportation plan and consistent with RCW 81.104.080.

(c) ~~((Interlocal agreements shall be executed within two years of March 14, 1990.))~~ The joint regional policy committee shall present a high capacity transportation system plan and ((local funding program)) financing plan to the boards of directors of the transit agencies within the service area for adoption.

(d) Transit agencies shall present the adopted high capacity transportation system plan and financing ((program)) plan for voter approval within four years of the execution of the interlocal agreements. A simple majority vote is required for approval of the high capacity transportation system plan and financing ((program)) plan in any service district within each county. The implementation ((of the)) program may proceed in any service area approving the ~~((plan and program))~~ system and financing plans.

~~((If interlocal agreements have not been executed within two years from March 14, 1990, the designated metropolitan planning organization shall convene within one hundred eighty days a conference to be attended by an elected representative selected by the legislative authority of each city and county in a class AA county and in class A counties bordering a class AA county.~~

~~(a) Public notice of the conference shall occur thirty days before the date of the conference.~~

~~(b) The purpose of the conference is to evaluate the need for developing high capacity transportation service in a class AA county and in class A counties bordering a class AA county and to determine the desirability of a regional approach to developing such service.~~

~~(c) The conference may elect to continue high capacity transportation efforts on a subregional basis through existing transit planning and operating agencies.~~

~~(d) The conference may elect to pursue regional development by creating a multicounty interim regional high capacity transportation authority. Conference members shall determine the structure and composition of any interim regional authority.~~

~~(i) The interim regional authority shall propose a permanent authority or authorities for voter approval. Permanent regional authorities shall become the responsible agencies for planning, construction, operations, and funding of high capacity transportation systems within their service boundaries. Funding sources for a regional high capacity transportation authority or authorities are separate from currently authorized funding sources for city owned transit systems, county transportation authorities, metropolitan municipal authorities, or public transportation benefit areas.~~

~~(ii) State and local jurisdictions, county transportation authorities, metropolitan municipal corporations, or public transportation benefit areas shall retain responsibility for existing facilities and/or services, unless the responsibility is transferred to the high capacity transportation authority or authorities by interlocal agreement.~~

~~(3) If, within four years of the execution of the interlocal agreements, a high capacity transportation plan and financing program has been approved by a simple majority vote within a participating jurisdiction, that jurisdiction may proceed with high capacity transportation development. If within four years of the execution of the interlocal agreements, a high capacity transportation plan and program has not been~~

~~approved by a simple majority vote within one or more of the participating jurisdictions, the joint regional policy committee shall convene within one hundred eighty days, a conference to be attended by participating jurisdictions within which a plan and financing program have not been approved. Such a conference shall be for the same purpose and shall be subject to the same conditions as described in subsection (2) of this section.~~

(4)) High capacity transportation (~~(service)~~) planning, construction, operations, and funding shall be governed through the interlocal agreement process, including but not limited to provision for a cost allocation and distribution formula, service corridors, station area locations, right of way transfers, and feeder transportation systems. The interlocal agreement shall include a mechanism for resolving conflicts among parties to the agreement.

Sec. 5. RCW 81.104.050 and 1990 c 43 s 26 are each amended to read as follows:

Regional high capacity transportation service boundaries may be expanded beyond the established service district through interlocal agreements among the transit agencies and the local jurisdictions within which such expanded service is proposed.

Sec. 6. RCW 81.104.060 and 1990 c 43 s 27 are each amended to read as follows:

(1) The state's planning role in high capacity transportation development as one element of a multimodal transportation system should facilitate cooperative state and local planning efforts.

~~((4))~~ (2) The department of transportation may serve as a contractor for high capacity transportation system and project design, administer construction, and assist agencies authorized to provide service in the acquisition, preservation, and joint use of rights of way.

~~((2))~~ (3) The department and local jurisdictions shall continue to cooperate with respect to the development of ~~((park and ride))~~ high occupancy vehicle lanes and related facilities, associated roadways, transfer stations, people mover systems developed either by the public or private sector, and other related projects.

~~((3))~~ (4) The department in cooperation with local jurisdictions shall develop policies which enhance the development of high speed ~~((intercity))~~ interregional systems by both the private and the public sector. These policies may address joint use of rights of way, identification and preservation of transportation corridors, and joint development of stations and other facilities.

Sec. 7. RCW 81.104.080 and 1990 c 43 s 29 are each amended to read as follows:

~~((Regional transportation plans should be considered in adopting local land use plans.))~~ Where applicable, regional transportation plans and local ((land use)) comprehensive plans ((should)) shall address the ((impacts of)) relationship between urban growth ((on)) and an effective high capacity transportation ((planning and development)) system plan, and provide for cooperation between local jurisdictions and transit agencies.

(1) Regional high capacity transportation plans shall be included in the designated ~~((metropolitan))~~ regional transportation planning organization's regional transportation plan review and update process to facilitate development of a coordinated multimodal transportation system and to meet federal funding requirements.

(2) ~~((The state and local jurisdictions))~~ Interlocal agreements between transit authorities, cities, and counties shall ((cooperate in encouraging)) set forth conditions for assuring land uses compatible with development of high capacity transportation systems. These include developing sufficient land use densities through local actions in high capacity transportation corridors and near passenger stations, preserving transit rights of way, and protecting the region's environmental quality. The implementation program for high capacity transportation systems shall favor cities and counties with

supportive land use plans. In developing local actions intended to carry out these policies (~~(local governments)~~) cities and counties shall insure the opportunity for public comment and participation in the siting of such facilities, including stations or transfer facilities. Agencies providing high capacity transportation services, in cooperation with public and private interests, shall promote transit-compatible land uses and development which includes joint development.

(3) Interlocal agreements shall be consistent with state planning goals as set forth in chapter 36.70A RCW. Agreements shall also include plans for concentrated employment centers, mixed-use development, and housing densities that support high capacity transportation systems.

(4) Agencies providing high capacity transportation service and other transit agencies shall develop a cooperative process for the planning, development, operations, and funding of feeder transportation systems. Feeder systems may include existing and future intercity passenger systems and alternative technology people mover systems which may be developed by the private or public sector.

~~((4) Jurisdictions, working through)~~ (5) Cities and counties along corridors designated in a high capacity transportation system plan shall enter into agreements with their designated ((metropolitan) regional transportation planning organizations, ((shall manage)) for the purpose of participating in a right of way preservation review process which includes activities to promote the preservation of the high capacity transportation rights of way. The regional transportation planning organization shall serve as the coordinator of the review process.

(a) ~~((Jurisdictions))~~ Cities and counties shall forward all development proposals for projects within and adjoining to the rights of way proposed for preservation to the designated ~~((metropolitan) regional transportation planning organizations, which shall distribute the proposals for ((local and regional agency)) review by parties to the right of way preservation review process.~~

(b) The ~~((metropolitan) regional transportation planning organizations shall also review proposals for conformance with the regional transportation plan and associated regional development strategies. The designated ((metropolitan) regional transportation planning organization shall within ninety days compile local and regional agency comments and communicate the same to the originating jurisdiction and the joint regional policy committee ((or, if established, a regional high capacity transportation authority)).~~

Sec. 8. RCW 81.104.090 and 1990 c 43 s 30 are each amended to read as follows:

The department of transportation shall ~~((, upon dissolution of the rail development commission, assume responsibility))~~ be responsible for distributing amounts appropriated from the high capacity transportation account and shall prioritize funding requests based on criteria in subsection (3) of this section.

(1) The department shall establish an advisory council of policy and technical experts pursuant to RCW 47.01.091 to assist in the review of requests for high capacity transportation account funds. The council shall be comprised of one representative from each congressional district, a designee of the governor, the executive director or a designee of the transportation improvement board, the director of the Washington state transportation center, and the chair or designee of the legislative transportation committee.

(2) State high capacity transportation account funds may provide up to eighty percent matching assistance for high capacity transportation planning efforts ~~((and for support of interim regional high capacity transportation authorities)).~~

(3) Authorizations for state funding for high capacity transportation planning projects shall be subject to the following criteria:

(4) The department of transportation shall provide general review and monitoring of the system and project planning process prescribed in RCW 81.104.100.

Sec. 9. RCW 81.104.100 and 1990 c 43 s 31 are each amended to read as follows:

To assure ~~((the adoption))~~ development of an effective high capacity transportation system, local authorities shall follow the following planning process:

(1) ~~((System))~~ Regional, multimodal transportation planning is the ongoing urban transportation planning process conducted in each urbanized area by its ~~((metropolitan))~~ regional transportation planning organization. During this process, regional transportation goals are identified, travel patterns are analyzed, and future land use and travel are projected. The ~~((system planning))~~ process provides a comprehensive view of the region's transportation needs but does not select ~~((a))~~ specified modes to serve those needs. ~~((System planning))~~ The process shall identify a priority corridor or corridors for further study of high capacity transportation facilities if it is deemed feasible by local officials.

(2) ~~((a) Project))~~ High capacity transportation system planning is the detailed evaluation of a range of high capacity transportation system options, including ~~((f))~~; Do nothing, ((f)) low capital, and ((iii)) ranges of higher capital facilities. To the extent possible this evaluation shall take into account the urban mass transportation administration's requirements identified in subsection (3) of this section.

~~((b) Project))~~ High capacity transportation system planning shall proceed as follows:

~~((f))~~ (a) Organization and management. The responsible local transit agency or agencies shall define roles for various local agencies, review background information, provide for public involvement, and develop a detailed work plan for the ~~((project))~~ system planning process.

~~((iii))~~ (b) Development of options. Options to be studied shall be developed to ensure an appropriate range of technologies and service policies can be evaluated. A do-nothing option and a low capital option that maximizes the current system shall be developed. Several higher capital options that consider a range of capital expenditures for several candidate technologies shall be developed.

~~((iii))~~ (c) Analysis methods. The local transit agency shall develop reports describing the analysis and assumptions for the estimation of capital costs, operating and maintenance costs, methods for travel forecasting, a financial plan and an evaluation methodology.

~~((iv) Study of options.))~~ (d) The system plan submitted to the voters pursuant to RCW 81.04.140 shall address, but is not limited to the following issues:

(i) Identification of level and types of high capacity transportation services to be provided;

(ii) A plan of high occupancy vehicle lanes to be constructed;

(iii) Identification of route alignments and station locations with sufficient specificity to permit calculation of costs, ridership, and system impacts;

(iv) Performance characteristics of technologies in the system plan;

(v) Patronage forecasts;

(vi) A financing plan describing: Phasing of investments; capital and operating costs and expected revenues; cost-effectiveness represented by a total cost per system rider and new rider estimate; estimated ridership and the cost of service for each individual high capacity line; and identification of the operating revenue to operating expense ratio.

The financing plan shall specifically differentiate the proposed use of funds between high capacity transportation facilities, high occupancy vehicle facilities, and expanded local/feeder service;

(vii) Description of the relationship between the high capacity transportation system plan and adopted land use plans;

(viii) An assessment of social, economic, and environmental impacts; and

(ix) Mobility characteristics of the system presented, including but not limited to: Qualitative description of system/service philosophy and impacts; qualitative system reliability; travel time and number of transfers between selected residential, employment, and activity centers; and system and activity center mode splits.

(3) High capacity transportation project planning is the detailed identification of alignments, station locations, equipment and systems, construction schedules, environmental effects, and costs. High capacity transportation project planning shall proceed as follows: The local transit agency shall (use the methods described in (iii) of this subsection to) analyze and produce ((impact)) information needed for ((project evaluation and for)) the preparation of ((an)) environmental impact statements. The impact ((evaluation)) statements shall address the impact that development of such a ((project)) system will have on abutting or nearby ((residential or commercial)) property owners. The process of identification of ((corridors)) alignments and station locations shall include notification of affected property owners by normal legal publication. At minimum, such notification shall include notice on the same day for at least three weeks in at least two newspapers of general circulation in the county where such project is proposed. Special notice of hearings by the conspicuous posting of notice, in a manner designed to attract public attention, in the vicinity of areas identified for station locations or transfer sites shall also be provided.

~~((iv) Review and monitor. The department of transportation shall provide project review and monitoring in cooperation with the expert review panel identified in RCW 81.104.110. In addition, the local transit agency shall maintain a continuous public involvement program and seek involvement of other government agencies.~~

The legislature recognizes that the planning ((process)) processes described in RCW 81.104.100 provide((s)) a recognized framework for guiding high capacity

transportation studies. However, the process cannot guarantee appropriate (~~transit~~) decisions unless key study assumptions are reasonable.

To assure appropriate (~~project~~) system plan assumptions and to provide for review of (~~project~~) system plan results, (~~the department of transportation shall develop independent oversight procedures which are appropriate to the scope of any project for which high capacity transportation account funds are requested.~~) an expert review panel shall be appointed to provide independent technical review for development of any (~~project~~) system plan which is to be funded in whole or in part by the imposition of any voter-approved local option funding sources enumerated in RCW 81.104.140.

(2) The expert review panel shall be selected cooperatively by the chair of the legislative transportation committee, the secretary of the department of transportation, and the governor to assure a balance of disciplines.

(3) The chair of the expert review panel shall be designated by the appointing (~~body~~) authorities.

(4) The expert review panel shall serve without compensation but shall be reimbursed for expenses according to chapter 43.03 RCW.

(5) The panel shall carry out the duties set forth in subsections (6) and (7) of this section until the date on which an election is held to consider the high capacity transportation system and financing plans. Funds appropriated for expenses of the expert panel shall be administered by the department of transportation.

(6) The expert panel shall review all reports required in RCW 81.104.100(2)(~~(b)(vi) but~~) and shall concentrate on service modes and concepts, costs, patronage(~~s~~) and financing(~~and project~~) evaluations.

(7) The expert panel shall provide timely reviews and comments on individual (~~project~~) reports and study conclusions to the governor, the legislative transportation committee, the department of transportation, the regional transportation planning organization, the joint regional policy committee, and the submitting lead transit agency.

(8) The legislative transportation committee shall contract for consulting services for expert review panels. The amount of consultant support shall be negotiated with each expert review panel by the legislative transportation committee and shall be paid from appropriations for that purpose from the high capacity transportation account.

Sec. 11. RCW 81.104.140 and 1990 c 43 s 35 are each amended to read as follows:

(1) Agencies authorized to provide high capacity transportation service, including city-owned transit systems, county transportation authorities, metropolitan municipal corporations and public transportation benefit areas, are hereby granted dedicated funding sources for such systems. These dedicated funding sources, as set forth in RCW 81.104.150, 81.104.160, and 81.104.170, are authorized only for agencies located in (~~class AA counties, class A counties, counties of the first class which border another state, and counties which, on March 14, 1990, are of the second class and which adjoin class A counties~~) (a) each county with a population of two hundred ten thousand or more and (b) each county with a population of from one hundred twenty-five thousand to less than two hundred ten thousand except for those counties that do not border a county with a population as described under (a) of this subsection.

Sec. 12. RCW 81.104.160 and 1990 c 43 s 42 are each amended to read as follows:

Any city that operates a transit system, county transportation authority, metropolitan municipal corporation, or public transportation benefit area, solely for the purpose of providing high capacity transportation service may submit an authorizing

proposition to the voters, and if approved, may levy and collect an excise tax, at a rate approved by the voters, but not exceeding eighty one-hundredths of one percent on the value, under chapter 82.44 RCW, of every motor vehicle owned by a resident of such city, county transportation authority, metropolitan municipal corporation, or public transportation benefit area. In any county imposing a motor vehicle excise tax surcharge pursuant to RCW 81.100.060, the maximum tax rate under this section shall be reduced to a rate equal to eighty one-hundredths of one percent on the value less the equivalent motor vehicle excise tax rate of the surcharge imposed pursuant to RCW 81.100.060. ~~((This authority may be exercised only if all local agencies which are parties to an interlocal agreement or members of a regional authority under RCW 81.104.040 are imposing the tax at the same rate.))~~ This rate shall not apply to vehicles licensed under RCW 46.16.070 except vehicles with an unladen weight of six thousand pounds or less, RCW 46.16.079, 46.16.080, 46.16.085, or 46.16.090.

On motion of Senator Vognild, the following amendment by Senators Vognild and Bailey to the Committee on Transportation amendment was adopted:

On page 20, after line 2, insert the following:

Sec. 13. RCW 82.80.020 and 1990 c 42 s 206 are each amended to read as follows:

(2) The department of licensing shall administer and collect the fee. The department shall deduct a percentage amount, as provided by contract, not to exceed two percent of the taxes collected, for administration and collection expenses incurred by it. The remaining proceeds shall be remitted to the custody of the state treasurer for monthly distribution under RCW 82.80.080.

(3) The proceeds of this fee shall be used strictly for transportation purposes in accordance with RCW 82.80.070.

(4) A county imposing this fee shall delay the effective date at least six months from the date the ordinance is enacted to allow the department of licensing to implement administration and collection of the fee.

(5) The legislative authority of a county may develop and initiate a refund process of the fifteen dollar fee to the registered owners of vehicles residing within the boundaries of the county who are sixty-one years old or older at the time of payment of the fee and whose household income for the previous calendar year is eighteen thousand dollars or less or who has a physical disability and who has paid the fifteen dollar additional fee."

MOTION

On motion of Senator Nelson, the following amendment by Senators Nelson, Metcalf and Vognild to the Committee on Transportation amendment was adopted:

On page 20, after line 2 of the amendment, insert the following:

NEW SECTION. Sec. 13. The legislature recognizes that certain communities have important cultural, economic, or transportation linkages to communities in other counties. Many public services can most efficiently be delivered from public agencies located in counties other than the county within which the community is located. It is the intent of the legislature by enacting sections 14 through 16 of this act to further

more effective public transportation linkages between communities, regardless of county association, in order to better serve state citizen needs.

Sec. 14. RCW 36.57A.040 and 1983 c 65 s 2 are each amended to read as follows:

At the time of its formation no public transportation benefit area may include only a part of any city, and every city shall be either wholly included or wholly excluded from the boundaries of such area. Notwithstanding any other provision of law, if subsequent to the formation of a public transportation benefit area additional area became or will become a part of a component city by annexation, merger, or otherwise, the additional area shall be included within the boundaries of the transportation benefit area and be subject to all taxes and other liabilities and obligations of the public transportation benefit area. The component city shall be required to notify the public transportation benefit area at the time the city has added the additional area. Furthermore, notwithstanding any other provisions of law, if a city that is not a component city of the public transportation benefit area adds area to its boundaries that is within the boundaries of the public transportation benefit area, the area so added shall be deemed to be excluded from the public transportation benefit area: PROVIDED, That the public transportation benefit area shall be given notice of the city's intention to add such area.

The boundaries of any public transportation benefit area shall follow school district lines or election precinct lines, as far as practicable. Only such areas shall be included which the conference determines could reasonably benefit from the provision of public transportation services. Except as provided in RCW 36.57A.140(2), only one public transportation benefit area may be created in any county.

Sec. 15. RCW 36.57A.055 and 1983 c 65 s 4 are each amended to read as follows:

After a public transportation benefit area has been in existence for four years, members of the county legislative authority and the elected representative of each city within the boundaries of the public transportation benefit area shall review the composition of the governing body of the benefit area and change the composition of the governing body if the change is deemed appropriate. The review shall be at a meeting of the designated representatives of the component county and cities, and the majority of those present shall constitute a quorum at such meeting. Twenty days notice of the meeting shall be given by the chief administrative officer of the public transportation benefit area authority. After the initial review, a review shall be held every four years.

If an area having a population greater than fifteen percent, or areas with a combined population of greater than twenty-five percent of the population of the existing public transportation benefit area as constituted at the last review meeting, annex to the public transportation benefit area, or if an area is added under RCW 36.57A.140(2), the representatives of the component county and cities shall meet within ninety days to review and change the composition of the governing body, if the change is deemed appropriate. This meeting is in addition to the regular four-year review meeting and shall be conducted pursuant to the same notice requirement and quorum provisions of the regular review.

Sec. 16. RCW 36.57A.140 and 1983 c 65 s 5 are each amended to read as follows:

(1) An election to authorize the annexation of territory contiguous to a public transportation benefit area may be called within the area to be annexed pursuant to resolution or petition in the following manner:

(a) By resolution of a public transportation benefit area authority when it determines that the best interests and general welfare of the public transportation benefit area would be served. The authority shall consider the question of areas to be annexed to the public transportation benefit area at least once every two years.

(b) By petition calling for such an election signed by at least four percent of the qualified voters residing within the area to be annexed and filed with the auditor of the county wherein the largest portion of the public transportation benefit area is located, and notice thereof shall be given to the authority. Upon receipt of such a petition, the auditor shall examine it and certify to the sufficiency of the signatures thereon.

(c) By resolution of a public transportation benefit area authority upon request of any city for annexation thereto.

(2) If the area proposed to be annexed is located within another county, the petition or resolution for annexation as set forth in subsection (1) of this section must be approved by the legislative authority of the county if the area is unincorporated or by the legislative authority of the city or town if the area is incorporated. Any annexation under this subsection must involve contiguous areas.

(3) The resolution or petition shall describe the boundaries of the area to be annexed. It shall require that there also be submitted to the electorate of the territory sought to be annexed a proposition authorizing the inclusion of the area within the public transportation benefit area and authorizing the imposition of such taxes authorized by law to be collected by the authority.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 1452, by House Committee on Transportation (originally sponsored by Representatives R. Fisher, G. Fisher, Cole, Fraser, Phillips, Rust, Haugen, Belcher, Hine, R. Meyers, Locke, Riley, Heavey, R. Johnson, Wilson, Betrozoff, Valle, Wynne, R. King, Scott, Cooper, Pruitt, Ogden, Roland, Nelson, Spanel, Brekke and Wineberry),

Creating the high-speed ground transportation steering committee.

The bill was read the second time.

MOTIONS

On motion of Senator Nelson, the following Committee on Transportation amendment was adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature recognizes that major transportation corridors in this state are reaching unacceptable levels of congestion. Proposed improvements such as extension of the HOV-lane system or regional high-capacity systems, can, at best, only temporarily reduce the rate at which congestion increases. Further, such improvements do not address cross-state travel demands, whether north-south or east-west.

Therefore, the legislature finds that 1991 is an appropriate time for the legislature and the governor to direct that a comprehensive assessment be made of the feasibility of developing a high-speed ground transportation system within the state and that a plan be developed for implementation of potential alternatives.

Congress has set aside federal funds in the amount of five hundred thousand dollars for the state of Washington to carry out such an assessment, with the stipulation that the state provide an equal amount of state funds for the effort. If a high-speed ground transportation system is developed within the state, the legislature believes significant benefits would accrue to many segments of the private sector economy. The legislature therefore finds that equal funding support for the feasibility study provided for in section 4 of this act should come from private sector sources. This three-way partnership between the federal government, the state, and the private sector can provide the foundation for ultimate development of a high-speed ground transportation system.

NEW SECTION. Sec. 2. The high-speed ground transportation steering committee is created, consisting of fifteen members, appointed jointly by the governor, the chair of the legislative transportation committee, and the chair of the transportation

commission. The appointing authorities shall also designate the chair of the steering committee.

The committee must include representatives from the following:

- (1) Cities and counties, including both elected officials and planners, and if possible, representatives of regional transportation planning organizations;
- (2) Public transportation systems;
- (3) The United States department of transportation;
- (4) Public ports; and
- (5) The private sector, including:
 - (a) The financial community;
 - (b) The engineering and construction community;
 - (c) Railroad companies;
 - (d) Environmental interests; and
 - (e) The legal profession.

The secretary of the state department of transportation, or the secretary's designee, shall also be a member.

Members of the steering committee shall receive no compensation for their service, but shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 3. The following persons shall serve as voting liaison members to the steering committee:

- (1) The governor or a designee;
- (2) Four legislators, one from each caucus of each house, appointed by the chair of the legislative transportation committee; and
- (3) The chair of the transportation commission.

In addition to those persons, the governor shall attempt to obtain appropriate nonvoting liaison representation to the steering committee from the state of Oregon and the province of British Columbia.

NEW SECTION. Sec. 4. The steering committee shall initially address the feasibility of a high-speed ground transportation system within this state, including such issues as:

- (1) When such a system would be economically feasible;
- (2) The forecasted demand, assessing whether the focus should be on passenger travel or freight or both;
- (3) Identification of the corridors to be analyzed;
- (4) Land use and economic development implications;
- (5) Environmental considerations;
- (6) The compatibility of such a system with regional transportation plans along proposed corridors;
- (7) Impacts on and interfaces with other travel modes;
- (8) Technological options for high-speed ground transportation, both foreign and domestic;
- (9) Required specifications for speed, safety, access, and frequency;
- (10) Identification of existing highway or railroad rights of way that are suitable for high-speed travel;
- (11) Identification of additional rights of way that may be needed and the process for acquiring those rights of way;
- (12) The recommended institutional arrangement for carrying out detailed planning for such a system, for constructing it, and for operating it;
- (13) Whether financing of construction should be public or private or some combination of both;
- (14) Whether financing of operations should be public or private or some combination of both;

(15) If public sector financing for any portion of capital or operation costs is deemed necessary, which existing or new tax sources would be appropriate.

The steering committee shall coordinate its work with that of the air transportation commission established in RCW 47.86.030.

NEW SECTION. Sec. 5. The steering committee shall seek to obtain private sector contributions at least equal to the amount of state funds appropriated for this purpose in section 9 of this act. All such contributions shall be deposited in the state treasury to the credit of department of transportation, to be expended in accordance with the provisions of section 9 of this act.

NEW SECTION. Sec. 6. In order to provide technical and administrative support to the steering committee, the office of high-speed ground transportation is created within the department of transportation. That office may contract with consultants at the direction of the steering committee and shall provide other support functions as requested by the committee.

NEW SECTION. Sec. 7. The steering committee shall present a final report to the governor, the legislature, and the transportation commission by October 15, 1992. It shall present interim progress reports as appropriate. The final report must include findings of the steering committee, a recommended plan for implementation, and proposed legislation to implement the next phase of a high-speed ground transportation program.

Sec. 8. RCW 47.86.030 and 1990 c 298 s 41 are each amended to read as follows:

The commission shall conduct studies to determine Washington's long-range air transportation policy, including an assessment of intermodal needs, and to assess the impacts of increasing air traffic upon surrounding communities, including an evaluation of noise mitigation and surface transportation impacts at existing facilities, and the potential impact at new or expanded facilities.

The studies shall include, but are not limited to the following:

(1) The feasibility of acquiring the Stampede Pass rail line for use as a utility corridor, intermodal high speed transportation corridor or other transportation uses. The study shall include an examination of the ownership of the Stampede Pass rail line right of way and evaluate the advantages and disadvantages of preserving the Stampede Pass rail line corridor. It shall include interested public and private agencies when conducting the study. The commission shall encourage local communities and the private sector to financially participate in the study. The commission shall make a presentation of the feasibility findings to the legislative transportation committee on or before December 1, 1990.

(2) Recommendations to the legislature on future Washington state air transportation policy, including the expansion of existing and potential air carrier and reliever facilities and the siting of such new facilities, specifically taking into consideration intermodal needs. The commission shall consider the development of wayports in eastern Washington, taking into account similar developments in Japan and Germany, in order to reduce congestion resulting from rapid growth in the Puget Sound region. The commission shall ~~((examine high speed rail transportation systems, including but not limited to magnetic levitation trains, personal rapid transit systems, and complimentary transportation systems, using to the extent possible the existing rights of way along I 90, I 5, and the Stampede Pass rail corridor))~~ coordinate its study of airport siting policy issues with the efforts of the high-speed ground transportation steering committee.

The commission shall submit findings and recommendations to the legislative transportation committee by December 1, 1994, with an interim report to be presented to the legislative transportation committee by December 1, 1992.

NEW SECTION. Sec. 9. The sum of five hundred thousand dollars, or as much thereof as may be necessary, is appropriated from the transportation fund to the

department of transportation program T, for the biennium ending June 30, 1993, to carry out the purposes of this act. The appropriation shall be expended in accordance with the work plan developed by the high-speed ground transportation steering committee created in section 2 of this act: PROVIDED, That no more than seventy-five thousand dollars may be expended before the department of transportation receives one or more contributions from the private sector, in accordance with the provisions of section 5 of this act, totaling five hundred thousand dollars or more.

NEW SECTION. Sec. 10. Sections 1 through 7 of this act shall expire December 31, 1992.

NEW SECTION. Sec. 11. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

On motion of Senator Nelson, the following title amendment was adopted:

On line 1 of the title, after "transportation;" strike the remainder of the title and insert "amending RCW 47.86.030; creating new sections; making an appropriation; providing an expiration date; and declaring an emergency."

MOTION

On motion of Senator Nelson, the rules were suspended, Substitute House Bill No. 1452, as amended by the Senate, was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

The President declared the question before the Senate to be the roll call on the final passage of Substitute House Bill No. 1452, as amended by the Senate.

ROLL CALL

SECOND READING

SUBSTITUTE HOUSE BILL NO. 1704, by House Committee on Transportation (originally sponsored by Representatives Cooper, Betrozoff and R. Johnson) (by request of Department of Licensing)

Changing provisions relating to motor vehicles.

The bill was read the second time.

MOTION

Senator Madsen moved that the following Committee on Transportation amendment be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. A new section is added to chapter 82.36 RCW to read as follows:

(1) If the department determines that the tax reported by a motor vehicle fuel distributor is deficient, the department shall assess the deficiency on the basis of information available to it, and shall add a penalty of two percent of the amount of the deficiency.

(2) If a distributor, whether licensed or not licensed as such, fails, neglects, or refuses to file a motor vehicle fuel tax report the department shall, on the basis of information available to it, determine the tax liability of the distributor for the period during which no report was filed. The department shall add the penalty provided in subsection (1) of this section to the tax. An assessment made by the department under this subsection or subsection (1) of this section is presumed to be correct. In any case, where the validity of the assessment is questioned, the burden is on the person who challenges the assessment to establish by a fair preponderance of evidence that it is erroneous or excessive, as the case may be.

(3) If a distributor files a false or fraudulent report with intent to evade the tax imposed by this chapter, the department shall add to the amount of deficiency a penalty equal to twenty-five percent of the deficiency, in addition to the penalty provided in subsections (1) and (2) of this section and all other penalties prescribed by law.

(4) Motor vehicle fuel tax, penalties, and interest payable under this chapter bears interest at the rate of one percent per month, or fraction thereof, from the first day of the calendar month after the amount or any portion of it should have been paid until the date of payment. If a distributor establishes by a fair preponderance of evidence that the failure to pay the amount of tax due was attributable to reasonable cause and was not intentional or willful, the department may waive the penalty. The department may waive the interest when it determines the cost of processing or collection of the interest exceeds the amount of interest due.

(5) Except in the case of a fraudulent report, neglect or refusal to make a report, or failure to pay or to pay the proper amount, the department shall assess the deficiency under subsection (1) or (2) of this section within three years from the last day of the succeeding calendar month after the reporting period for which the amount is proposed to be determined or within three years after the return is filed, whichever period expires later.

(6) Except in the case of violations of filing a false or fraudulent report, if the department deems mitigation of penalties and interest to be reasonable and in the best interest of carrying out the purpose of this chapter, it may mitigate such assessments upon whatever terms the department deems proper, giving consideration to the degree and extent of the lack of records and reporting errors. The department may ascertain the facts regarding recordkeeping and payment penalties in lieu of more elaborate proceedings under this chapter.

(7) A distributor against whom an assessment is made under subsection (1) or (2) of this section may petition for a reassessment within thirty days after service upon the distributor of notice of the assessment. If the petition is not filed within the thirty-day period, the amount of the assessment becomes final at the expiration of that period.

If a petition for reassessment is filed within the thirty-day period, the department shall reconsider the assessment and, if the distributor has so requested in its petition,

shall grant the distributor an oral hearing and give the distributor twenty days' notice of the time and place of the hearing. The department may continue the hearing from time to time. The decision of the department upon a petition for reassessment becomes final thirty days after service of notice upon the distributor.

An assessment made by the department becomes due and payable when it becomes final. If it is not paid to the department when due and payable, the department shall add a penalty of ten percent of the amount of the tax.

(8) In a suit brought to enforce the rights of the state under this chapter, the assessment showing the amount of taxes, penalties, interest, and cost unpaid to the state is prima facie evidence of the facts as shown.

(9) A notice of assessment required by this section must be served personally or by mail. If it is served by mail, service shall be made by deposit of the notice in the United States mail, postage prepaid, addressed to the distributor at the most current address furnished to the department.

Sec. 2. RCW 82.36.040 and 1989 c 378 s 24 are each amended to read as follows:

If payment of any tax due is not received by the due date, there shall be assessed a penalty of two percent of the amount of the tax. ~~((If any distributor establishes by a fair preponderance of evidence that the distributor's failure to pay the amount of tax due by the due date was attributable to reasonable cause and was not intentional or willful, the department may waive the penalty imposed by this section.~~

~~Any motor vehicle fuel tax, penalties, and interest payable under the provisions of this chapter shall bear interest at the rate of one percent per month, or fraction thereof, from the first day of the calendar month after the close of the monthly period for which the amount or any portion thereof should have been paid until the date of payment. The department may waive the interest when the department determines that the cost of processing the collection of the interest exceeds the amount of interest due.~~

~~In any suit brought to enforce the rights of the state under this chapter, the certificate of the director showing the amount of taxes, penalties, interest and cost unpaid by any distributor and that the same are due and unpaid to the state shall be prima facie evidence of the facts as shown.))~~

Sec. 3. RCW 82.36.120 and 1961 c 15 s 82.36.120 are each amended to read as follows:

((In the event any)) If a distributor is delinquent in the payment of ((his excise tax hereunder, the director)) an obligation imposed under this chapter, the department may give notice of the amount ((thereof)) of the delinquency by registered or certified mail to all persons having in their possession or under their control any credits or other personal property belonging to such distributor, or owing any debts to such distributor at the time of receipt by them of such notice((, and thereafter the persons)). A person so notified shall neither transfer nor make any other disposition of such credits, ((other)) personal property, or debts((;)) until ((twenty days have elapsed from and after receipt of such notice unless the director has given his consent to a previous transfer,)) the department consents to a transfer or other disposition. All persons so notified must, within ((five)) twenty days after receipt of the notice, advise the ((director)) department of any and all such credits, ((other)) personal property, or debts in their possession, under their control or owing by them, as the case may be, and shall deliver upon demand the credits, personal property, or debts to the department or its duly authorized representative to be applied to the indebtedness involved.

If a person fails to answer the notice within the time prescribed by this section, it is lawful for the court, upon application of the department and after the time to answer the notice has expired, to render judgment by default against the person for the full amount claimed by the department in the notice to withhold and deliver, together with costs.

NEW SECTION. Sec. 4. A new section is added to chapter 82.36 RCW to read as follows:

When an assessment becomes final in accordance with this chapter, the department may file with the clerk of any county within the state a warrant in the amount of the assessment of taxes, penalties, interest, and a filing fee of five dollars. The clerk of the county in which the warrant is filed shall immediately designate a superior court cause number for the warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant the name of the distributor mentioned in the warrant, the amount of the tax, penalties, interest, and filing fee, and the date when the warrant was filed. The aggregate amount of the warrant as docketed becomes a lien upon the title to and interest in all real and personal property of the named person against whom the warrant is issued, the same as a judgment in a civil case duly docketed in the office of the clerk. The warrant so docketed is sufficient to support the issuance of writs of execution and writs of garnishment in favor of the state in the manner provided by law in the case of a civil judgment, wholly or partially unsatisfied. The clerk of the court is entitled to a filing fee of five dollars.

NEW SECTION. Sec. 5. A new section is added to chapter 46.87 RCW to read as follows:

Except in the case of violations of filing a false or fraudulent application, if the department deems mitigation of penalties and interest to be reasonable and in the best interests of carrying out the purpose of this chapter, it may mitigate such assessments upon whatever terms the department deems proper, giving consideration to the degree and extent of the lack of records and reporting errors. The department may ascertain the facts regarding recordkeeping and payment penalties in lieu of more elaborate proceedings under this chapter.

Sec. 6. RCW 82.38.090 and 1990 c 250 s 84 are each amended to read as follows:

It shall be unlawful for any person to act as a special fuel dealer, a special fuel supplier or a special fuel user in this state unless such person is the holder of an unanceled special fuel dealer's, a special fuel supplier's or a special fuel user's license issued to him by the department. A special fuel supplier's license authorizes a person to sell special fuel without collecting the special fuel tax to other suppliers and dealers holding valid special fuel licenses.

A special fuel dealer's license authorizes a person to deliver previously untaxed special fuel into the fuel supply tanks of motor vehicles, collect the special fuel tax on behalf of the state at the time of delivery, and remit the taxes collected to the state as provided herein. A licensed special fuel dealer may also deliver untaxed special fuel into bulk storage facilities of a licensed special fuel user without collecting the special fuel tax. Special fuel dealers and suppliers, when making deliveries of special fuel into bulk storage to any person not holding a valid special fuel license must collect the special fuel tax at time of delivery, unless the person to whom the delivery is made is specifically exempted from the tax as provided herein.

A special fuel user's license authorizes a person to purchase special fuel into bulk storage for use in motor vehicles either on or off the public highways of this state without payment of the special fuel tax at time of purchase. Holders of special fuel licenses are all subject to the bonding, reporting, tax payment, and record-keeping provisions of this chapter. All purchases of special fuel by a licensed special fuel user directly into the fuel supply tank of a motor vehicle are subject to the special fuel tax at time of purchase unless the purchase is made from an unattended keylock metered pump, cardrol, or such similar dispensing devices. Persons utilizing special fuel for heating purposes only are not required to be licensed.

Special fuel users operating motor vehicles in interstate commerce having two axles and a gross vehicle weight or registered gross vehicle weight not exceeding

twenty-six thousand pounds are not required to be licensed. Special fuel users operating motor vehicles in interstate commerce having two axles and a gross vehicle weight or registered gross vehicle weight exceeding twenty-six thousand pounds, or having three or more axles regardless of weight, or a combination of vehicles, when the combination exceeds twenty-six thousand pounds gross vehicle weight, must comply with the licensing and reporting requirements of this chapter. A copy of the license must be carried in each motor vehicle entering this state from another state or province.

Sec. 7. RCW 82.38.170 and 1987 c 174 s 6 are each amended to read as follows:

(1) If any special fuel dealer or special fuel user fails to pay any taxes collected or due the state of Washington by said dealer or user within the time prescribed by RCW 82.38.150 and 82.38.160, said dealer or user shall pay in addition to such tax a penalty of ten percent of the amount thereof.

(2) If it be determined by the department that the tax reported by any special fuel dealer or special fuel user is deficient it shall proceed to assess the deficiency on the basis of information available to it and there shall be added to this deficiency a penalty of ten percent of the amount of the deficiency.

(3) If any special fuel dealer or special fuel user, whether or not he or she is licensed as such, fails, neglects, or refuses to file a special fuel tax report, the department shall, on the basis of information available to it, determine the tax liability of the special fuel dealer or the special fuel user for the period during which no report was filed, and to the tax as thus determined, the department shall add the penalty and interest provided in subsection (2) of this section. An assessment made by the department pursuant to this subsection or to subsection (2) of this section shall be presumed to be correct, and in any case where the validity of the assessment is drawn in question, the burden shall be on the person who challenges the assessment to establish by a fair preponderance of the evidence that it is erroneous or excessive as the case may be.

(4) If any special fuel dealer or special fuel user shall establish by a fair preponderance of evidence that his or her failure to file a report or pay the proper amount of tax within the time prescribed was due to reasonable cause and was not intentional or willful, the department may waive the penalty prescribed in subsections (1), (2), and (3) of this section.

(5) If any special fuel dealer or special fuel user shall file a false or fraudulent report with intent to evade the tax imposed by this chapter, there shall be added to the amount of deficiency determined by the department a penalty equal to twenty-five percent of the deficiency, in addition to the penalty provided in subsection (2) of this section and all other penalties prescribed by law.

(6) Any fuel tax, penalties, and interest payable under this chapter shall bear interest at the rate of one percent per month, or fraction thereof, from the first day of the calendar month after the amount or any portion thereof should have been paid until the date of payment: PROVIDED, That the department may waive the interest when it determines that the cost of processing the collection of the interest exceeds the amount of interest due.

(7) Except in the case of violations of filing a false or fraudulent report, if the department deems mitigation of penalties and interest to be reasonable and in the best interests of carrying out the purpose of this chapter, it may mitigate such assessments upon whatever terms the department deems proper, giving consideration to the degree and extent of the lack of records and reporting errors. The department may ascertain the facts regarding recordkeeping and payment penalties in lieu of more elaborate proceedings under this chapter.

(8) Except in the case of a fraudulent report or of neglect or refusal to make a report, every deficiency shall be assessed under subsection (2) of this section within three years from the twenty-fifth day of the next succeeding calendar month following

the reporting period for which the amount is proposed to be determined or within three years after the return is filed, whichever period expires the later.

((8)) (9) Any special fuel dealer or special fuel user against whom an assessment is made under the provisions of subsections (2) or (3) of this section may petition for a reassessment thereof within thirty days after service upon the special fuel dealer or special fuel user of notice thereof. If such petition is not filed within such thirty day period, the amount of the assessment becomes final at the expiration thereof.

If a petition for reassessment is filed within the thirty day period, the department shall reconsider the assessment and, if the special fuel dealer or special fuel user has so requested in his or her petition, shall grant such special fuel dealer or special fuel user an oral hearing and give the special fuel dealer or special fuel user ten days' notice of the time and place thereof. The department may continue the hearing from time to time. The decision of the department upon a petition for reassessment shall become final thirty days after service upon the special fuel dealer or special fuel user of notice thereof.

Every assessment made by the department shall become due and payable at the time it becomes final and if not paid to the department when due and payable, there shall be added thereto a penalty of ten percent of the amount of the tax.

((9)) (10) Any notice of assessment required by this section shall be served personally or by mail; if by mail, service shall be made by depositing such notice in the United States mail, postage prepaid addressed to the special fuel dealer or special fuel user at his or her address as the same appears in the records of the department.

((10)) (11) Any licensee who has had their special fuel user license, special fuel dealer license, special fuel supplier license, or combination thereof revoked shall pay a one hundred dollar penalty prior to the issuance of a new license.

((11)) (12) Any person who, upon audit or investigation by the department, is found to have not paid special fuel taxes as required by this chapter shall be subject to cancellation of all vehicle registrations for vehicles utilizing special fuel as a means of propulsion. Any unexpired Washington tonnage on the vehicles in question may be transferred to a purchaser of the vehicles upon application to the department who shall hold such tonnage in its custody until a sale of the vehicle is made or the tonnage has expired.

NEW SECTION. Sec. 8. A new section is added to chapter 82.42 RCW to read as follows:

Except in the case of violations of filing a false or fraudulent report, if the department deems mitigation of penalties and interest to be reasonable and in the best interests of carrying out the purpose of this chapter, it may mitigate such assessments upon whatever terms the department deems proper, giving consideration to the degree and extent of the lack of records and reporting errors. The department may ascertain the facts regarding recordkeeping and payment penalties in lieu of more elaborate proceedings under this chapter.

NEW SECTION. Sec. 9. A new section is added to chapter 41.06 RCW to read as follows:

In addition to the exemptions set forth in RCW 41.06.070, the provisions of this chapter shall not apply to the department of licensing to confidential secretaries of assistant directors and currently exempt employees of the agency. Each confidential secretary must meet the minimum qualifications for the class of secretary II as determined by the state personnel board.

Sec. 10. RCW 46.20.308 and 1989 c 337 s 8 are each amended to read as follows:

(1) Any person who operates a motor vehicle within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of his or her breath or blood for the purpose of determining the alcoholic content of his or her breath or blood if arrested for any offense where, at the time of the arrest, the arresting

officer has reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor.

(2) The test or tests of breath shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor. However, in those instances where: (a) The person is incapable due to physical injury, physical incapacity, or other physical limitation, of providing a breath sample; or (b) as a result of a traffic accident the person is being treated for a medical condition in a hospital, clinic, doctor's office, or other similar facility in which a breath testing instrument is not present, a blood test shall be administered by a qualified person as provided in RCW 46.61.506(4). The officer shall inform the person of his or her right to refuse the breath or blood test, and of his or her right to have additional tests administered by any qualified person of his or her choosing as provided in RCW 46.61.506. The officer shall warn the driver that (a) his or her privilege to drive will be revoked or denied if he or she refuses to submit to the test, and (b) that his or her refusal to take the test may be used in a criminal trial.

(3) Except as provided in this section, the test administered shall be of the breath only. If an individual is unconscious or is under arrest for the crime of vehicular homicide as provided in RCW 46.61.520 or vehicular assault as provided in RCW 46.61.522, or if an individual is under arrest for the crime of driving while under the influence of intoxicating liquor or drugs as provided in RCW 46.61.502, which arrest results from an accident in which another person has been injured and there is a reasonable likelihood that such other person may die as a result of injuries sustained in the accident, a breath or blood test may be administered without the consent of the individual so arrested.

(4) Any person who is dead, unconscious, or who is otherwise in a condition rendering him or her incapable of refusal, shall be deemed not to have withdrawn the consent provided by subsection (1) of this section and the test or tests may be administered, subject to the provisions of RCW 46.61.506, and the person shall be deemed to have received the warnings required under subsection (2) of this section.

(5) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested refuses upon the request of a law enforcement officer to submit to a test or tests of his or her breath or blood, no test shall be given except as authorized under subsection (3) or (4) of this section.

(6) The department of licensing, upon the receipt of a sworn report of the law enforcement officer that the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor and that the person had refused to submit to the test or tests upon the request of the law enforcement officer after being informed that refusal would result in the revocation of the person's privilege to drive, shall revoke the person's license or permit to drive or any nonresident operating privilege.

(7) Upon revoking the license or permit to drive or the nonresident operating privilege of any person, the department shall immediately notify the person involved in writing by personal service or by certified mail of its decision and the grounds therefor, and of the person's right to a hearing, specifying the steps he or she must take to obtain a hearing. Within fifteen days after the notice has been given, the person may, in writing, request a formal hearing. Upon receipt of such request, the department shall afford the person an opportunity for a hearing as provided in RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest. For the purposes of this section, the scope of such hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state

while under the influence of intoxicating liquor, whether the person was placed under arrest, and whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's privilege to drive. The department shall order that the revocation either be rescinded or sustained. Any decision by the department revoking a person's driving privilege shall be stayed and shall not take effect while a formal hearing is pending as provided in this section or during the pendency of a subsequent appeal to superior court so long as there is no conviction for a moving violation or no finding that the person has committed a traffic infraction that is a moving violation during pendency of the hearing and appeal.

(8) If the revocation is sustained after such a hearing, the person whose license, privilege, or permit is revoked has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the manner provided in RCW 46.20.334.

(9) The department shall rescind the revocation of a person's driving privilege under this section upon notification from the court of record that, for the incident upon which the department based its administrative action:

(a)(i) The officer's grounds for believing that the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor were based solely on a nonalcohol or nondrug-related medical condition or (ii) the person's refusal or inability to submit to a breath test was based solely on a nonalcohol or nondrug-related medical condition; and

(b) The person has been found not guilty of driving or being in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug including any drug prescribed for the medical condition. Upon notification from the court of record of a not guilty finding, the department shall expunge the implied consent violation from the person's driving record.

(10) When it has been finally determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been revoked, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license.

Sec. 11. RCW 46.61.560 and 1984 c 7 s 72 are each amended to read as follows:

(1) Outside of incorporated cities and towns no person may stop, park, or leave standing any vehicle, whether attended or unattended, upon the roadway.

(2) Subsection (1) of this section and RCW 46.61.570 and 46.61.575 do not apply to the driver of any vehicle that is disabled in such manner and to such extent that it is impossible to avoid stopping and temporarily leaving the vehicle in such position. The driver shall nonetheless arrange for the prompt removal of the vehicle as required by RCW 46.61.590.

(3) Subsection (1) of this section does not apply to the driver of a public transit vehicle who temporarily stops the vehicle upon the roadway for the purpose of and while actually engaged in receiving or discharging passengers at a marked transit vehicle stop zone approved by the state department of transportation or a county upon highways under their respective jurisdictions.

(4) Subsection (1) of this section and RCW 46.61.570 and 46.61.575 do not apply to the driver of a solid waste collection company or recycling company vehicle who temporarily stops the vehicle as close as practical to the right edge of the right-hand shoulder of the roadway or right edge of the roadway if no shoulder exists for the purpose of and while actually engaged in the collection of solid waste or recyclables, or both, under chapters 81.77, 35.21, and 35A.21 RCW or by contract under RCW 36.58.030.

Sec. 12. RCW 46.87.070 and 1990 c 42 s 112 are each amended to read as follows:

(1) Washington-based trailers, semitrailers, converter gears (auxiliary axles), or pole trailers shall be ~~((fully))~~ licensed in this state under the provisions of chapter 46.16 RCW except as herein provided. If these vehicles are being operated in jurisdictions that require the registration of such vehicles, the applicable vehicles may be considered as apportionable or commercial vehicles for the purpose of registration in those jurisdictions and this state. ~~((The prorate percentage for which registration fees and taxes were paid to such jurisdictions for each nonmotor vehicle of the fleet may be credited toward the one hundred percent of registration fees and taxes due this state for full licensing of each such vehicle.))~~

(2) Trailers, semitrailers, converter gears (auxiliary axles), and pole trailers which are properly based in jurisdictions other than Washington, and which display currently registered license plates from such jurisdictions will be granted vehicle license reciprocity in this state without the need of further vehicle license registration. If converter gears (auxiliary axles) or pole trailers are not required to be licensed separately by a member jurisdiction, such vehicles may be operated in this state without displaying a current base license plate.

Sec. 13. RCW 46.87.140 and 1990 c 42 s 114 are each amended to read as follows:

(1) Any owner engaged in interstate operations of one or more fleets of apportionable or commercial vehicles may, in lieu of registration of the vehicles under chapter 46.16 RCW, register and license the vehicles of each fleet under this chapter by filing a proportional registration application for each fleet with the department. The nonmotor vehicles of Washington-based fleets which are operated in IRP jurisdictions that require registration of such vehicles may be proportionally registered for operation in those jurisdictions as herein provided. The application shall contain the following information and such other information pertinent to vehicle registration as the department may require:

(a) A description and identification of each vehicle of the fleet. Motor vehicles and nonpower units shall be placed in separate fleets.

(b) If registering under the provisions of the IRP, the registrant shall also indicate member jurisdictions in which registration is desired and furnish such other information as those member jurisdictions require.

(c) An original or renewal application shall also be accompanied by a mileage schedule for each fleet.

(2) Each application shall, at the time and in the manner required by the department, be supported by payment of a fee computed as follows:

(a) Divide the in-jurisdiction miles by the total miles and carry the answer to the nearest thousandth of a percent (three places beyond the decimal, e.g. 10.543%). This factor is known as the prorate percentage.

(b) Determine the total proratable fees and taxes required for each vehicle in the fleet for which registration is requested, based on the regular annual fees and taxes or applicable fees and taxes for the unexpired portion of the registration year under the laws of each jurisdiction for which fees or taxes are to be calculated.

Washington-based ~~((nonpower))~~ nonmotor vehicles shall normally be fully licensed ~~((, by paying full registration fees and taxes, in this state))~~ under the provisions of chapter 46.16 RCW. If these vehicles are being operated in jurisdictions that require the registration of such vehicles, the applicable vehicles may be considered as apportionable vehicles for the purpose of registration in those jurisdictions and this state. The prorate percentage for which registration fees and taxes were paid to such jurisdictions may be credited toward the one hundred percent of registration fees and taxes due this state for full licensing. Applicable fees and taxes for vehicles of Washington-based fleets are

those prescribed under RCW 46.16.070, 46.16.085, 82.38.075, and 82.44.020, as applicable.

(c) Multiply the total, proratable fees or taxes for each motor vehicle by the prorata percentage applicable to the desired jurisdiction and round the results to the nearest cent. Fees and taxes for nonmotor vehicles being prorated will be calculated as indicated in (b) of this subsection.

(d) Add the total fees and taxes determined in (~~(subsection (2))~~)(c) of this (~~(section)~~) subsection for each vehicle to the nonproratable fees required under the laws of the jurisdiction for which fees are being calculated. Nonproratable fees required for vehicles of Washington-based fleets are the administrative fee required by RCW 82.38.075, if applicable, and the vehicle transaction fee pursuant to the provisions of RCW 46.87.130.

(e) Add the total fees and taxes determined in (~~(subsection (2))~~)(d) of this (~~(section)~~) subsection for each vehicle listed on the application. Assuming the fees and taxes calculated were for Washington, this would be the amount due and payable for the application under the provisions of the Western Compact. Under the provisions of the IRP, the amount due and payable for the application would be the sum of the fees and taxes referred to in (~~(subsection (2))~~)(d) of this (~~(section)~~) subsection, calculated for each member jurisdiction in which registration of the fleet is desired.

(3) All assessments for proportional registration fees are due and payable in United States funds on the date presented or mailed to the registrant at the address listed in the proportional registration records of the department. The registrant may petition for reassessment of the fees or taxes due under this section within thirty days of the date of original service as provided for in this chapter.

Sec. 14. RCW 46.16.319 and 1990 c 250 s 6 are each amended to read as follows:

(1) The department shall issue upon payment of a fee and proof from an honorably discharged veteran, veterans with honorable military service, or military personnel on active duty in the armed service, a remembrance emblem depicting a tribute or message and the American flag.

(2) Veterans and military personnel who served in our nation's wars and conflicts can, upon request and payment of a fee and proof of service, receive a remembrance emblem depicting the campaign ribbon (~~(the veteran was)~~) they were awarded. (~~(Only)~~) The following campaign ribbon remembrance emblems will be available: World War I victory medal; Asiatic-Pacific campaign medal, WWII; European-African-Middle East campaign medal, WWII; American campaign medal, WWII; Korean service medal; Vietnam service medal; Armed Forces Expeditionary, after 1958. The director may adopt additional campaign ribbon remembrance emblems by rule.

(3) The remembrance emblem will be displayed upon vehicle license plates in the manner prescribed by the department.

(4) A veteran or military personnel requesting a remembrance emblem from the department shall provide a copy of his or her discharge papers (DD-214) or military orders indicating their military status and campaign ribbon awarded along with payment of the fee. A veteran or military personnel requesting a remembrance emblem must be a legal or registered owner of the vehicle on which remembrance emblems are to be displayed.

Sec. 15. RCW 81.80.040 and 1984 c 171 s 1 are each amended to read as follows:

The provisions of this chapter, except where specifically otherwise provided, and except the provisions providing for licenses, shall not apply to:

(1) Motor vehicles when operated in transportation exclusively within the corporate limits of any city or town of less than ten thousand population unless contiguous to a city or town of ten thousand population or over, nor between contiguous cities or towns both or all of which are less than ten thousand population;

(2) Motor vehicles when operated in transportation wholly within the corporate limits of cities or towns of ten thousand or more but less than thirty thousand population, or between such cities or towns when contiguous, as to which the commission, after investigation and the issuance of an order thereon, has determined that no substantial public interest exists which requires that such transportation be subject to regulation under this chapter;

(3) Motor vehicles when transporting exclusively the United States mail or in the transportation of newspapers or periodicals;

(4) Motor vehicles owned and operated by the United States, the state of Washington, or any county, city, town, or municipality therein, or by any department of them, or either of them;

(5) Motor vehicles specially constructed for towing disabled vehicles or wrecking and not otherwise used in transporting goods for compensation;

(6) Motor vehicles normally owned and operated by farmers in the transportation of their own farm, orchard, or dairy products, including livestock and plant or animal wastes, from point of production to market, or in the infrequent or seasonal transportation by one farmer for another farmer, if their farms are located within twenty miles of each other, of products of the farm, orchard, or dairy, including livestock and plant or animal wastes, or of supplies or commodities to be used on the farm, orchard, or dairy;

(7) Motor vehicles when transporting exclusively water in connection with construction projects only;

(8) Motor vehicles of less than 8,000 pounds gross vehicle weight when transporting exclusively legal documents, pleadings, process, correspondence, depositions, briefs, medical records, photographs, books or papers, cash or checks, when moving shipments of the documents described at the direction of an attorney as part of providing legal services;

(9) Motor vehicles used by a farmer to transport ill or injured horses to or from the farmer's own property for rehabilitation by the farmer when the transportation is incidental to the rehabilitation of the horses.

Sec. 16. RCW 82.80.010 and 1990 c 42 s 201 are each amended to read as follows:

(1) Subject to the conditions of this section, any county may levy, by approval of its legislative body and a majority of the registered voters of the county voting on the proposition at a general or special election, additional excise taxes equal to ten percent of the state-wide motor vehicle fuel tax rate under RCW 82.36.025 on each gallon of motor vehicle fuel as defined in RCW 82.36.010(2) and on each gallon of special fuel as defined in RCW 82.38.020(5)~~(, per gallon or one hundred cubic feet of compressed natural gas measured at standard temperature and pressure)~~ sold within the boundaries of the county. Vehicles paying an annual license fee under RCW 82.38.075 are exempt from the county fuel excise tax. An election held under this section must be held not more than twelve months before the date on which the proposed tax is to be levied. The ballot setting forth the proposition shall state the tax rate that is proposed. The county's authority to levy additional excise taxes under this section includes the incorporated and unincorporated areas of the county. The additional excise taxes are subject to the same exceptions and rights of refund as applicable to other motor vehicle fuel and special fuel excise taxes levied under chapters 82.36 and 82.38 RCW. The proposed tax shall not be levied less than one month from the date the election results are certified by the county election officer. The commencement date for the levy of any tax under this section shall be the first day of January, April, July, or October.

(2) Every person subject to the tax shall pay, in addition to any other taxes provided by law, an additional excise tax to the director of licensing at the rate levied by a county exercising its authority under this section.

(3) The state treasurer shall distribute monthly to the levying county and cities contained therein the proceeds of the additional excise taxes collected under this section, after the deductions for payments and expenditures as provided in RCW 46.68.090 (1) ~~((a) and (b))~~ and (2) and under the conditions and limitations provided in RCW 82.80.080.

(4) The proceeds of the additional excise taxes levied under this section shall be used strictly for transportation purposes in accordance with RCW 82.80.070.

(5) The department of licensing shall administer and collect the county fuel taxes. The department shall deduct a percentage amount, as provided by contract, for administrative, collection, refund, and audit expenses incurred. The remaining proceeds shall be remitted to the custody of the state treasurer for monthly distribution under RCW 82.80.080.

Every distributor shall on or before the twenty-fifth day of each calendar month file, on forms furnished by the director, a statement signed by the distributor or his authorized agent showing the total number of gallons of motor vehicle fuel sold, distributed, or used by such distributor within this state during the preceding calendar month and, for counties within which an additional excise tax on motor vehicle fuel has been levied by that jurisdiction under RCW 82.80.010, showing the total number of gallons of motor vehicle fuel sold, distributed (~~and sold to dealers~~), or used by the distributor (~~for sale~~) within the boundaries of the county during the preceding calendar month.

Sec. 19. RCW 82.38.150 and 1990 c 42 s 203 are each amended to read as follows:

For the purpose of determining the amount of liability for the tax herein imposed each special fuel dealer and each special fuel user shall file tax reports with the department, on forms prescribed by the department. Special fuel dealers shall file the reports at the intervals as shown in the following schedule:

Estimated Yearly Tax Liability	Reporting Frequency
\$ 0 - \$100	Yearly
\$101 - 250	Semi-yearly
\$251 - 499	Quarterly
\$500 and over	Monthly

Special fuel users whose estimated yearly tax liability is two hundred fifty dollars or less, shall file a report yearly, and special fuel users whose estimated yearly tax liability is more than two hundred fifty dollars, shall file reports quarterly.

The department shall establish the reporting frequency for each applicant at the time the special fuel license is issued. If it becomes apparent that any special fuel licensee is not reporting in accordance with the above schedule, the department shall change the licensee's reporting frequency by giving thirty days' notice to the licensee by mail to his address of record. A report shall be filed with the department even though no special fuel was used, or tax is due, for the reporting period. Each tax report shall contain a declaration by the person making the same, to the effect that the statements contained therein are true and are made under penalties of perjury, which declaration shall have the same force and effect as a verification of the report and is in lieu of such verification. The report shall show such information as the department may reasonably require for the proper administration and enforcement of this chapter: PROVIDED, That if a special fuel dealer or special fuel user is also a special fuel supplier at a location where special fuel is delivered into the supply tank of a motor vehicle, and if separate storage is provided thereat from which special fuel is delivered or placed into fuel supply tanks of motor vehicles, the tax report to the department need not include inventory control data covering bulk storage from which wholesale distribution of special fuel is made. For counties within which an additional excise tax on special fuel has been levied by that jurisdiction under RCW 82.80.010, the report must show the quantities of special fuel sold, distributed (~~and sold~~), or withdrawn from bulk storage by the reporting dealer or user within the county's boundaries and the tax liability from its levy. The special fuel dealer or special fuel user shall file the report on or before the twenty-fifth day of the next succeeding calendar month following the period to which it relates.

Subject to the written approval of the department, tax reports may cover a period ending on a day other than the last day of the calendar month. Taxpayers granted approval to file reports in this manner will file such reports on or before the twenty-fifth day following the end of the reporting period. No change to this reporting period will be made without the written authorization of the department.

If the final filing date falls on a Saturday, Sunday, or legal holiday the next secular or business day shall be the final filing date. Such reports shall be considered filed or received on the date shown by the post office cancellation mark stamped upon an envelope containing such report properly addressed to the department, or on the date it was mailed if proof satisfactory to the department is available to establish the date it was mailed.

The department, if it deems it necessary in order to insure payment of the tax imposed by this chapter, or to facilitate the administration of this chapter, has the authority to require the filing of reports and tax remittances at shorter intervals than one month if, in its opinion, an existing bond has become insufficient.

The department may permit any special fuel user whose sole use of special fuel is in motor vehicles or equipment exempt from tax as provided in RCW 82.38.075 and RCW 82.38.080 (1), (2), (3), (8), and (9), in lieu of the reports required in this section, to submit reports annually or as requested by the department, in such form as the department may require.

A special fuel user whose sole use of special fuel is for purposes other than the propulsion of motor vehicles upon the public highways of this state shall not be required to submit the reports required in this section.

POINT OF ORDER

Senator Skratek: "I rise to a point of order. I rise to challenge the scope and object of the committee amendment. Substitute House Bill No. 1704 is a bill with a very limited scope and object which merely amends the statutes governing vehicle apportionable licensing and fuel tax administration. The Transportation Committee amendment significantly expands that limited scope and object by changing the UTC statutes regarding farmers hauling horses; in certain circumstances changing the breathalyzer statutes in limited cases; authorizing garbage trucks to stop along roadsides; and reclassifying, for personnel matters, confidential secretaries of the Department of Licensing. I believe the committee amendment clearly expands the scope and object of this particular bill."

Further debate ensued.

MOTION

On motion of Senator Newhouse, further consideration of Substitute House Bill No. 1704 was deferred.

MOTION

On motion of Senator Newhouse, the Senate reverted to the first order of business.

Revising provisions for public assistance.

MOTIONS

On motion of Senator Linda Smith, the following Committee on Children and Family Services amendment was adopted:

Strike everything after the enacting clause and insert the following:

Sec. 1. RCW 74.04.005 and 1990 c 285 s 2 are each amended to read as follows:

For the purposes of this title, unless the context indicates otherwise, the following definitions shall apply:

(1) "Public assistance" or "assistance"--Public aid to persons in need thereof for any cause, including services, medical care, assistance grants, disbursing orders, work relief, general assistance and federal-aid assistance.

(2) "Department"--The department of social and health services.

(3) "County or local office"--The administrative office for one or more counties or designated service areas.

(4) "Director" or "secretary" means the secretary of social and health services.

(5) "Federal-aid assistance"--The specific categories of assistance for which provision is made in any federal law existing or hereafter passed by which payments are made from the federal government to the state in aid or in respect to payment by the state for public assistance rendered to any category of needy persons for which provision for federal funds or aid may from time to time be made, or a federally administered needs-based program.

(6)(a) "General assistance"--Aid to persons in need who:

(i) Are not eligible to receive federal-aid assistance, other than food stamps and medical assistance; however, an individual who refuses or fails to cooperate in obtaining federal-aid assistance, without good cause, is not eligible for general assistance;

(ii) Are either:

(A) Pregnant: PROVIDED, That need is based on the current income and resource requirements of the federal aid to families with dependent children program: PROVIDED FURTHER, That during any period in which an aid for dependent children employable program is not in operation, only those pregnant women who are categorically eligible for medicaid are eligible for general assistance; or

(B) Incapacitated from gainful employment by reason of bodily or mental infirmity that will likely continue for a minimum of sixty days as determined by the department. Persons who are unemployable due to alcohol or drug addiction are not eligible for general assistance. Persons receiving general assistance on July 26, 1987, or becoming eligible for such assistance thereafter, due to an alcohol or drug-related incapacity, shall be referred to appropriate assessment, treatment, shelter, or supplemental security income referral services as authorized under chapter 74.50 RCW. Referrals shall be made at the time of application or at the time of eligibility review. Alcoholic and drug addicted clients who are receiving general assistance on July 26, 1987, may remain on general assistance if they otherwise retain their eligibility until they are assessed for services under chapter 74.50 RCW. This subsection (6)(a)(ii)(B) shall not be construed to prohibit the department from granting general assistance benefits to alcoholics and drug addicts who are incapacitated due to other physical or mental conditions that meet the eligibility criteria for the general assistance program;

(iii) Are citizens or aliens lawfully admitted for permanent residence or otherwise residing in the United States under color of law; and

(iv) Have furnished the department their social security account number. If the social security account number cannot be furnished because it has not been issued or is not known, an application for a number shall be made prior to authorization of assistance, and the social security number shall be provided to the department upon receipt.

(b) Notwithstanding the provisions of subsection (6)(a)(i), (ii), and (c) of this section, general assistance shall be provided to the following recipients of federal-aid assistance:

(i) Recipients of supplemental security income whose need, as defined in this section, is not met by such supplemental security income grant because of separation from a spouse; or

(ii) To the extent authorized by the legislature in the biennial appropriations act, to recipients of aid to families with dependent children whose needs are not being met because of a temporary reduction in monthly income below the entitled benefit payment level caused by loss or reduction of wages or unemployment compensation benefits or some other unforeseen circumstances. The amount of general assistance authorized shall not exceed the difference between the entitled benefit payment level and the amount of income actually received.

(c) General assistance shall be provided only to persons who are not members of assistance units receiving federal aid assistance, except as provided in subsection (6)(a)(ii)(A) and (b) of this section, and will accept available services which can reasonably be expected to enable the person to work or reduce the need for assistance unless there is good cause to refuse. Failure to accept such services shall result in termination until the person agrees to cooperate in accepting such services and subject to the following maximum periods of ineligibility after reapplication:

(i) First failure: One week;

(ii) Second failure within six months: One month;

(iii) Third and subsequent failure within one year: Two months.

(d) The department shall adopt by rule medical criteria for general assistance eligibility to ensure that eligibility decisions are consistent with statutory requirements and are based on clear, objective medical information.

(e) The process implementing the medical criteria shall involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects uncontroverted medical opinion must set forth clear and convincing reasons for doing so.

(f) Recipients of general assistance based upon a finding of incapacity from gainful employment who remain otherwise eligible shall not have their benefits terminated absent a clear showing of material improvement in their medical or mental

condition or specific error in the prior determination that found the recipient eligible by reason of incapacitation. Recipients of general assistance based upon pregnancy who relinquish their child for adoption, remain otherwise eligible, and ((who)) are not eligible to receive benefits under the federal aid to families with dependent children program shall not have their benefits terminated until the end of the month in which the period of six weeks following the birth of the recipient's child falls. Recipients of the federal aid to families with dependent children program who lose their eligibility solely because of the birth and relinquishment of the qualifying child may receive general assistance through the end of the month in which the period of six weeks following the birth of the child falls.

(7) "Applicant"--Any person who has made a request, or on behalf of whom a request has been made, to any county or local office for assistance.

(8) "Recipient"--Any person receiving assistance and in addition those dependents whose needs are included in the recipient's assistance.

(9) "Standards of assistance"--The level of income required by an applicant or recipient to maintain a level of living specified by the department.

(10) "Resource"--Any asset, tangible or intangible, owned by or available to the applicant at the time of application, which can be applied toward meeting the applicant's need, either directly or by conversion into money or its equivalent: PROVIDED, That an applicant may retain the following described resources and not be ineligible for public assistance because of such resources.

(a) A home, which is defined as real property owned and used by an applicant or recipient as a place of residence, together with a reasonable amount of property surrounding and contiguous thereto, which is used by and useful to the applicant. Whenever a recipient shall cease to use such property for residential purposes, either for himself or his dependents, the property shall be considered as a resource which can be made available to meet need, and if the recipient or his dependents absent themselves from the home for a period of ninety consecutive days such absence, unless due to hospitalization or health reasons or a natural disaster, shall raise a rebuttable presumption of abandonment: PROVIDED, That if in the opinion of three physicians the recipient will be unable to return to the home during his lifetime, and the home is not occupied by a spouse or dependent children or disabled sons or daughters, such property shall be considered as a resource which can be made available to meet need.

(b) Household furnishings and personal effects and other personal property having great sentimental value to the applicant or recipient, as limited by the department consistent with limitations on resources and exemptions for federal aid assistance.

(c) A motor vehicle, other than a motor home, used and useful having an equity value not to exceed one thousand five hundred dollars.

(d) All other resources, including any excess of values exempted, not to exceed one thousand dollars or other limit as set by the department, to be consistent with limitations on resources and exemptions necessary for federal aid assistance.

(e) Applicants for or recipients of general assistance may retain the following described resources in addition to exemption for a motor vehicle or home and not be ineligible for public assistance because of such resources:

(i) Household furnishings, personal effects, and other personal property having great sentimental value to the applicant or recipient;

(ii) Term and burial insurance for use of the applicant or recipient;

(iii) Life insurance having a cash surrender value not exceeding one thousand five hundred dollars; and

(iv) Cash, marketable securities, and any excess of values above one thousand five hundred dollars equity in a vehicle and above one thousand five hundred dollars in cash surrender value of life insurance, not exceeding one thousand five hundred dollars for a single person or two thousand two hundred fifty dollars for a family unit

of two or more. The one thousand dollar limit in subsection (10)(d) of this section does not apply to recipients of or applicants for general assistance.

(f) If an applicant for or recipient of public assistance possesses property and belongings in excess of the ceiling value, such value shall be used in determining the need of the applicant or recipient, except that: (i) The department may exempt resources or income when the income and resources are determined necessary to the applicant's or recipient's restoration to independence, to decrease the need for public assistance, or to aid in rehabilitating the applicant or recipient or a dependent of the applicant or recipient; and (ii) the department may provide grant assistance for a period not to exceed nine months from the date the agreement is signed pursuant to this section to persons who are otherwise ineligible because of excess real property owned by such persons when they are making a good faith effort to dispose of that property(~~;~~ but the recipient must sign an agreement to dispose of the property and repay assistance payments made to the date of disposition of the property which would not have been made had the disposal occurred at the beginning of the period for which the payments of such assistance were made. In no event shall such amount due the state exceed the net proceeds otherwise available to the recipient from the disposition, unless after nine months from the date of the agreement the property has not been sold, or if the recipient's eligibility for financial assistance ceases for any other reason. In these two instances the entire amount of assistance paid during this period will be treated as an overpayment and a debt due the state, and may be recovered pursuant to RCW 43.20B.630); PROVIDED, That:

(A) The applicant or recipient signs an agreement to repay the lesser of the amount of aid received or the net proceeds of such sale;

(B) If the owner of the excess property ceases to make good faith efforts to sell the property, the entire amount of assistance may become an overpayment and a debt due the state and may be recovered pursuant to RCW 43.20B.630;

(C) Applicants and recipients are advised of their right to a fair hearing and afforded the opportunity to challenge a decision that good faith efforts to sell have ceased, prior to assessment of an overpayment under this section; and

(D) At the time assistance is authorized, the department files a lien without a sum certain on the specific property.

(11) "Income"--(a) All appreciable gains in real or personal property (cash or kind) or other assets, which are received by or become available for use and enjoyment by an applicant or recipient during the month of application or after applying for or receiving public assistance. The department may by rule and regulation exempt income received by an applicant for or recipient of public assistance which can be used by him to decrease his need for public assistance or to aid in rehabilitating him or his dependents, but such exemption shall not, unless otherwise provided in this title, exceed the exemptions of resources granted under this chapter to an applicant for public assistance. In determining the amount of assistance to which an applicant or recipient of aid to families with dependent children is entitled, the department is hereby authorized to disregard as a resource or income the earned income exemptions consistent with federal requirements. The department may permit the above exemption of earnings of a child to be retained by such child to cover the cost of special future identifiable needs even though the total exceeds the exemptions or resources granted to applicants and recipients of public assistance, but consistent with federal requirements. In formulating rules and regulations pursuant to this chapter, the department shall define income and resources and the availability thereof, consistent with federal requirements. All resources and income not specifically exempted, and any income or other economic benefit derived from the use of, or appreciation in value of, exempt resources, shall be considered in determining the need of an applicant or recipient of public assistance.

(b) If, under applicable federal requirements, the state has the option of considering property in the form of lump sum compensatory awards or related settlements received by an applicant or recipient as income or as a resource, the department shall consider such property to be a resource.

(12) "Need"--The difference between the applicant's or recipient's standards of assistance for himself and the dependent members of his family, as measured by the standards of the department, and value of all nonexempt resources and nonexempt income received by or available to the applicant or recipient and the dependent members of his family.

(13) For purposes of determining eligibility for public assistance and participation levels in the cost of medical care, the department shall exempt restitution payments made to people of Japanese and Aleut ancestry pursuant to the Civil Liberties Act of 1988 and the Aleutian and Pribilof Island Restitution Act passed by congress, P.L. 100-383, including all income and resources derived therefrom.

(14) In the construction of words and phrases used in this title, the singular number shall include the plural, the masculine gender shall include both the feminine and neuter genders and the present tense shall include the past and future tenses, unless the context thereof shall clearly indicate to the contrary.

Sec. 2. RCW 74.04.055 and 1979 c 141 s 298 are each amended to read as follows:

In furtherance of the policy of this state to cooperate with the federal government in the programs included in this title the secretary shall issue such rules and regulations as may become necessary to entitle this state to participate in federal grants-in-aid, goods, commodities and services unless the same be expressly prohibited by this title. Any section or provision of this title which may be susceptible to more than one construction shall be interpreted in favor of the construction most likely to satisfy federal laws entitling this state to receive federal matching or other funds for the various programs of public assistance. If any part of this chapter is found to be in conflict with federal requirements which are a prescribed condition to the receipts of federal funds to the state, the conflicting part of this chapter is hereby inoperative solely to the extent of the conflict with respect to the agencies directly affected, and such finding or determination shall not affect the operation of the remainder of this chapter.

Sec. 3. RCW 74.04.500 and 1979 c 141 s 322 are each amended to read as follows:

The department of social and health services is authorized to establish a food stamp program under the federal food stamp act of ((1964)) 1977, as amended.

Sec. 4. RCW 74.04.515 and 1969 ex.s. c 172 s 7 are each amended to read as follows:

In ~~((determining eligibility for purchase of))~~ administering the food stamp((s)) program, there shall be no discrimination against any ~~((household))~~ applicant or recipient by reason of age, sex, handicap, religious creed, political beliefs, race, color, or national origin.

NEW SECTION. Sec. 5. The legislature establishes as state policy the goal of economic self-sufficiency for employable recipients of public assistance, through employment, training, and education. In furtherance of this policy, the legislature intends to comply with the requirements of the federal social security act, as amended, by creating a job opportunities and basic skills training program for applicants and recipients of aid to families with dependent children. The purpose of this program is to provide recipients of aid to families with dependent children the opportunity to obtain a full range of necessary education, training, skills, and supportive services, including child care, consistent with their needs, that will help them enter or reenter gainful employment, thereby avoiding long-term welfare dependence and achieving

economic self-sufficiency. The program shall be operated by the department of social and health services in conformance with federal law and consistent with the following legislative findings:

(1) The legislature finds that the well-being of children depends not only on meeting their material needs, but also on the ability of parents to become economically self-sufficient. The job opportunities and basic skills training program is specifically directed at increasing the household earnings of aid to families with dependent children recipients, through the removal of barriers preventing them from achieving self-sufficiency. These barriers include, but are not limited to, the lack of supportive services such as affordable and reliable child care, adequate transportation, appropriate counseling, and necessary job-related tools, equipment, books, clothing, and supplies, the absence of basic literacy skills, the lack of educational attainment sufficient to meet labor market demands for career employees, and the nonavailability of useful labor market assessments.

(2) The legislature also recognizes that aid to families with dependent children recipients must be acknowledged as active participants in self-sufficiency planning under the program. The legislature finds that the department of social and health services should communicate concepts of personal empowerment, self-motivation, and self-esteem to program participants. The legislature further recognizes that informed choice is consistent with individual responsibility, and that parents should be given a range of options for available child care while participating in the program.

(3) The legislature finds that education, including, but not limited to, literacy, high school equivalency, vocational, secondary, and postsecondary, is one of the most important tools an individual needs to achieve full independence, and that this should be an important component of the program.

(4) The legislature further finds that the objectives of this program are to assure that aid to families with dependent children recipients achieve financial stability and an adequate standard of living at wages that will meet family needs.

NEW SECTION. Sec. 6. (1) The department of social and health services is authorized to contract with public and private employment and training agencies and other public service entities to provide services prescribed or allowed under the federal social security act, as amended, to carry out the purposes of the jobs training program. The department of social and health services has sole authority and responsibility to carry out the job opportunities and basic skills training program. No contracting entity shall have the authority to review, change, or disapprove any administrative decision, or otherwise substitute its judgment for that of the department of social and health services as to the application of policies and rules adopted by the department of social and health services.

(2) To the extent feasible under federal law, the department of social and health services and all entities contracting with it shall give first priority of service to individuals volunteering for program participation.

(3) The department of social and health services shall adopt rules under chapter 34.05 RCW establishing criteria constituting circumstances of good cause for an individual failing or refusing to participate in an assigned program component, or failing or refusing to accept or retain employment. MOTIONS

Senator McCaslin moves that the following Committee on Governmental Operations amendment be adopted:

Strike everything after the enacting clause and insert the following:

Sec. 1. RCW 29.18.022 and 1987 c 110 s 1 are each amended to read as follows:

The names of all candidates for partisan office, for the office of superintendent of public instruction, for port district and public utility district office, and for all judicial offices shall be rotated in each precinct in the manner specified by RCW 29.30.040, 29.30.340, and 29.30.440. The order of names of candidates for such offices on sample ballots and on absentee ballots in primaries shall be determined in the following manner:

(1) After the close of business on the last day for candidates to file for office, the officer with whom declarations of candidacy are filed shall, from among those filings made in person and by mail in accordance with RCW 29.18.045(2), determine by lot the order in which the names of those candidates shall appear on the sample and absentee ballots under the appropriate office heading. The determination shall be done publicly, and may be witnessed by the media and by any candidate desiring to do so.

(2) For the purposes of this section and RCW 29.18.045, "filing officer" means the officer with whom declarations of candidacy for an office must be filed.

Sec. 2. RCW 29.30.025 and 1990 c 59 s 80 are each amended to read as follows:

After the close of business on the last day for candidates to file for office, the filing officer shall, from among those filings made in person and by mail, determine by lot the order in which the names of those candidates will appear on all sample and absentee ballots. In the case of candidates for city, town, and district office, except for port district and public utility district office, this procedure shall also determine the order for candidate names on the official primary ballot used at the polling place. The determination shall be done publicly and may be witnessed by the media and by any candidate. If no primary is required for any nonpartisan office under RCW 29.15.150 or 29.21.015, the names shall appear on the general election ballot in the order determined by lot.

Sec. 3. RCW 29.21.010 and 1977 c 53 s 3 are each amended to read as follows: All cities and towns shall hold primary elections irrespective of type or form of government which shall be nonpartisan and held as provided in RCW 29.13.070, as now or hereafter amended. All districts, except those districts which require ownership of property within ((said)) the districts as a prerequisite to voting, shall hold primary elections which shall be nonpartisan and held as provided in RCW 29.13.070 as now or hereafter amended.

All names of candidates to be voted upon at city, town, and such district primary elections, except for port district and public utility district primary elections, shall be printed upon the official primary ballot alphabetically in groups under the designation of the respective titles of the offices for which they are candidates. The name of the person who receives the greatest number of votes and of the person who receives the next greatest number of votes for each position, shall appear in that order on the city, town, or district general election ballot concerned under the designation for each respective office. In the event there are two or more offices to be filled for the same

position, then names of candidates receiving the highest number of votes equal in number to twice the offices to be filled shall appear on the city, town, or district general election ballot so that the voter shall have a choice of two candidates for each position: PROVIDED, That no name of any candidate shall appear on the city, town, or district general election ballot unless said candidate shall receive at least five percent of the total votes cast for that office. The sequence of names of candidates printed on the city, town, or district general election ballot shall be in relation to the number of votes each candidate received at the primary. Names of candidates printed upon the city, town, or district primary and general election ballot need not be rotated.

The purpose of this section is to establish the holding of a primary election, subject to the exemptions as contained in RCW 29.21.015 as now or hereafter amended, as a uniform procedural requirement to the holding of city, town, and district elections and such provisions shall supersede any and all other statutes, whether general or special in nature, having different election requirements.

Sec. 4. RCW 29.30.040 and 1990 c 59 s 94 are each amended to read as follows:

At primaries, the names of candidates for federal, state, and county partisan offices, for the office of superintendent of public instruction, for port district and public utility district office, and for judicial offices shall, for each office or position, be arranged initially in the order determined under RCW 29.30.025. Additional sets of ballots shall be prepared in which the positions of the names of all candidates for each office or position shall be changed as many times as there are candidates in the office or position in which there are the greatest number of names. As nearly as possible an equal number of ballots shall be prepared after each change. In making the changes of position between each set of ballots, the candidates for each such office in the first position under the office heading shall be moved to the last position under that office heading, and each other name shall be moved up to the position immediately above its previous position under that office heading. The effect of this rotation of the order of the names shall be that the name of each candidate for an office or position shall appear first, second, and so forth for that office or position on the ballots of a nearly equal number of registered voters in that jurisdiction. In a precinct using voting devices, the names of the candidates for each office shall appear in only one sequence in that precinct. The names of candidates for city, town, and district office on the ballot at the primary shall not be rotated. RCW 35.02.020 and 1986 c 234 s 3 are each amended to read as follows:

A petition for incorporation must be signed by ((qualified)) registered voters resident within the limits of the proposed city or town equal in number to ten percent of the ((votes cast)) number of voters who voted at the last ((state)) general municipal election and presented to the auditor of the county in which all, or the largest portion of, the proposed city or town is located.

Sec. 5. RCW 35.02.090 and 1986 c 234 s 12 are each amended to read as follows:

The elections on the proposed incorporation and for the nomination and election of the initial elected officials shall be conducted in accordance with the general election laws of the state, except as provided in this chapter. No person is entitled to vote ((thereat)) unless he or she is a ((qualified elector)) registered voter of the county, or any of the counties in which the proposed city or town is located, and has resided within the limits of the proposed city or town for at least thirty days next preceding the date of election.

Sec. 6. RCW 35.06.020 and 1965 c 7 s 35.06.020 are each amended to read as follows:

When a petition is filed signed by ((electors)) registered voters of a city or town, in number equal to not less than one-fifth of the votes cast at the last general municipal election, seeking reorganization thereof as a city of a higher class than that

indicated by the last preceding federal or state census, the city or town council to which the petition is presented shall forthwith cause a census to be taken by one or more suitable persons of all the inhabitants of such town or city in which census the full name of each person shall be plainly written, and the names alphabetically arranged and regularly numbered in complete series. The census shall be verified before an officer authorized to administer oaths and filed with the city or town clerk.

If the census shows such city or town qualified for the class named in the petition, the same proceedings shall be had as if the census were a federal or state census.

If the census shows such city or town not qualified for the class named in the petition, no further proceedings shall be had: PROVIDED, That the city or town may be reorganized as a city or town of the class indicated by the census, upon a proper petition filed within six months from the filing of such census with the clerk, without other or further census.

Sec. 7. RCW 35.06.030 and 1965 c 7 s 35.06.030 are each amended to read as follows:

If the census prescribed in RCW 35.06.020 shows that the city or town belongs to the class named in the petition, the city or town council shall cause notice to be given as in other cases, that at the ((the)) next general election of the city or town, or at a special election to be called for that purpose, the ((electors)) voters may vote for or against the advancement, their ballots to contain the words "for advancement" and the words "against advancement."

Sec. 8. RCW 35.06.050 and 1965 c 7 s 35.06.050 are each amended to read as follows:

The clerk shall lay the certificate of election and census before the council at its next regular meeting after the same has been filed in his or her office, and if ((~~it appear that all the votes cast for the advancement are not a majority of the votes cast at the election~~)) a majority of those voting on the advancement are not in favor of advancement, no further proceedings shall be had on that petition; but this shall not bar any new proceedings for such purpose.

Sec. 9. RCW 35.24.020 and 1987 c 3 s 9 are each amended to read as follows: The government of a third class city shall be vested in a mayor, a city council of seven members, a city attorney, a clerk, a treasurer, all elective; and a chief of police, municipal judge, city engineer, street superintendent, health officer and such other appointive officers as may be provided for by statute or ordinance: PROVIDED, That the council may enact an ordinance providing for the appointment of the city clerk, city attorney, and treasurer by the mayor, which appointment shall be subject to confirmation by a majority vote of the city council. Such ordinance shall be enacted and become effective not later than thirty days prior to the first day allowed for filing declarations of candidacy for such offices when such offices are subject to an approaching city primary election. Elective incumbent city clerks, city attorneys, and city treasurers shall serve for the remainder of their unexpired term notwithstanding any appointment made pursuant to RCW 35.24.020 and 35.24.050. If a free public library and reading room is established, five library trustees shall be appointed. The city council by ordinance shall prescribe the duties and fix the compensation of all officers and employees: PROVIDED, That the provisions of any such ordinance shall not be inconsistent with any statute: PROVIDED FURTHER, That where the city council finds that the appointment of a full time city engineer is unnecessary, it may in lieu of such appointment, by resolution provide for the performance of necessary engineering services on either a part time, temporary or periodic basis by a qualified engineering firm, pursuant to any reasonable contract.

The mayor shall appoint and at his or her pleasure may remove all appointive officers except as otherwise provided herein: PROVIDED, That municipal judges shall be removed only upon conviction of misconduct or malfeasance in office, or because

of physical or mental disability rendering (~~him~~) the judge incapable of performing the duties of his or her office. Every appointment or removal must be in writing signed by the mayor and filed with the city clerk.

Sec. 10. RCW 35.24.180 and 1965 c 7 s 35.24.180 are each amended to read as follows:

The city council and mayor shall meet on the first Tuesday in January next succeeding the date of each general municipal election, and shall take the oath of office, and shall hold regular meetings at least once during each month but not to exceed one regular meeting in each week, at such times as may be fixed by ordinance.

Special meetings may be called by the mayor by written notice (~~delivered to each member of the council at least three hours before the time specified for the proposed meeting~~) as provided in RCW 42.30.080. The mayor and the mayor pro tempore shall have power to administer oaths and affirmations, take affidavits and certify them. The mayor or the mayor pro tempore when acting as mayor, shall sign all conveyances made by the city and all instruments which require the seal of the city.

Sec. 12. RCW 35.27.010 and 1965 c 7 s 35.27.010 are each amended to read as follows:

Every municipal corporation of the fourth class shall be entitled the "Town of" (naming it), and by such name shall have perpetual succession, may sue, and be sued in all courts and places, and in all proceedings whatever; shall have and use a common seal, alterable at the pleasure of the town authorities, and may purchase, lease, receive, hold, and enjoy real and personal property and control (~~and~~), lease, sublease, convey, or otherwise dispose of the same for the common benefit.

If, after a city has become a mayor-council code city, its population increases to twenty-five hundred or more inhabitants, the number of councilmanic offices in such city may increase from five to seven members upon the affirmative vote of a majority of the existing council to increase the number of councilmanic offices in the city. When the population of a mayor-council code city having five councilmanic offices increases to five thousand or more inhabitants, the number of councilmanic offices in the city shall increase from five to seven members. In the event of an increase in the number of councilmanic offices, the city council shall, by majority vote, pursuant to RCW 35A.12.050, appoint two persons to serve in these offices until the next municipal general election, at which election one person shall be elected for a two-year term and one person shall be elected for a four-year term: PROVIDED, That both persons shall be elected to a two-year term when (a) the city council has divided the city into wards pursuant to RCW 35A.12.180, and (b) the terms of office of a majority of the other councilmanic offices expire at such election. The number of inhabitants shall be determined by the most recent official state or federal census or determination by the state office of financial management. A charter adopted under the provisions of this title, incorporating the mayor-council plan of government set forth in this chapter, may provide for an uneven number of councilmen not exceeding eleven.

A noncharter code city of less than five thousand inhabitants which has elected the mayor-council plan of government and which has seven councilmanic offices may establish a five-member council in accordance with the following procedure. At least six months prior to a municipal general election, the city council shall adopt an ordinance providing for reduction in the number of councilmanic offices to five. The ordinance shall specify which two councilmanic offices, the terms of which expire at the next general election, are to be terminated. The ordinance shall provide for the renumbering of council positions and shall also provide for a two-year extension of the term of office of a retained councilmanic office, if necessary, in order to comply with RCW 35A.12.040.

In the course of such

investigation the commission or designated commissioner, or chief examiner, shall have the power to administer oaths, subpoena and require the attendance of witnesses and the production by them of books, papers, documents and accounts appertaining to the investigation and also to cause the deposition of witnesses residing within or without the state to be taken in the manner prescribed by law for like depositions in civil actions in the superior court; and the oaths administered hereunder and the subpoenas issued hereunder shall have the same force and effect as the oaths administered by a superior court judge in his or her judicial capacity; and the failure upon the part of any person so subpoenaed to comply with the provisions of this section shall be deemed a violation of this chapter, and punishable as such.

(5) All hearings and investigations before the commission, or designated commissioner, or chief examiner, shall be governed by this chapter and by rules of practice and procedure to be adopted by the commission, and in the conduct thereof neither the commission, nor designated commissioner shall be bound by the technical rules of evidence. (7) Establish and maintain in card or other suitable form a roster of officers and employees.

(8) Provide for, formulate and hold competitive tests to determine the relative qualifications of persons who seek employment in any class or position and as a result thereof establish eligible lists for the various classes of positions, and to provide that persons laid off because of curtailment of expenditures, reduction in force, and for like causes, head the list in the order of their seniority, to the end that they shall be the first to be reemployed.

(9) When a vacant position is to be filled, to certify to the appointing authority, on written request, the name of the person highest on the eligible list for the class. If there are no such lists, to authorize provisional or temporary appointment list of such class. Such temporary or provisional appointment shall not continue for a period longer than four months; nor shall any person receive more than one provisional appointment or serve more than four months as a provisional appointee in any one fiscal year.

If the petition be found to be insufficient, it shall be returned to the persons filing the same, who may amend or add names thereto for ten days, when the same shall be returned to the county auditor, who shall have an additional fifteen days to examine the same and attach his or her certificate thereto. No person having signed the petition

shall be allowed to withdraw his or her name therefrom after the filing of the same with the county auditor: PROVIDED, That each signature shall be dated and that no signature dated prior to the date on which the form of petition was submitted to the county auditor shall be valid. Whenever the petition shall be certified to as sufficient, the county auditor shall forthwith transmit the same, together with his or her certificate of sufficiency attached thereto, to the county legislative authority which shall submit the proposition to the voters of the county at the next general election in an even-numbered year occurring forty-five days after submission of the proposition to the legislative authority. The notice of the election shall state the boundaries of the proposed public utility district and the object of such election, and shall in other respects conform to the requirements of the general laws of the state of Washington, governing the time and manner of holding elections. In submitting the question to the voters for their approval or rejection, the proposition shall be expressed on the ballot substantially in the following terms:

Public Utility District No. YES ()

If upon the final hearing the county legislative authority shall find that any lands have been unjustly or improperly included within the proposed public utility district and will not be benefited by inclusion therein, it shall change and fix the boundary lines in such manner as it shall deem reasonable and just and conducive to the public welfare and convenience, and make and enter an order establishing and defining the boundary lines of the proposed public utility district: PROVIDED, That no lands shall be included within the boundaries so fixed lying outside the boundaries described in the petition, except upon the written request of the owners of those lands. Thereafter the same procedure shall be followed as prescribed in this chapter for the formation of a public utility district including an entire county, except that the petition and election shall be confined solely to the lesser public utility district.

No public utility district created after September 1, 1979, shall include any other public utility district within its boundaries: PROVIDED, That this paragraph shall not alter, amend, or modify provisions of chapter 54.32 RCW.

district by the county legislative authority on petition of ten percent of the (~~qualified electors~~) registered voters of (~~such~~) the district, based on the total vote cast in the last general county election held in an even-numbered year. Petitions shall be filed with the county auditor not less than four months before such election and the county auditor shall within thirty days examine the signatures thereof and certify to the sufficiency or insufficiency thereof. If such petition is found to be insufficient, it shall be returned to the persons filing the same, who may amend and add names thereto for ten days, when the same shall be returned to the county auditor, who shall have an additional fifteen days to examine the same and attach his or her certificate thereto. No person having signed such petition shall be allowed to withdraw his or her name therefrom after the filing of the same with the county auditor: PROVIDED, That each signature shall be dated and that no signature dated prior to the date on which the form of petition was submitted to the county auditor shall be valid. Whenever such petition shall be certified to as sufficient, the county auditor shall forthwith transmit the same, together with his or her certificate of sufficiency attached thereto, to the county legislative authority which shall submit such proposition to the voters of (~~said~~) the district at the next general election in an even-numbered year occurring forty-five days after submission of the proposition to (~~said~~) the legislative authority. The returns of the election on such proposition for dissolution shall be canvassed and the results declared in the same manner as is provided by RCW 54.08.010: PROVIDED, HOWEVER, That any such proposition to dissolve a district shall not be submitted to the (~~electors~~) voters if within five years prior to the filing of such petition or resolution such district has undertaken any material studies or material action relating to the construction or acquisition of any utility properties or if such district at the time of the submission of such proposition is actually engaged in the operation of any utility properties.

If a majority of the (~~votes cast~~) registered voters voting on the dissolution at the election favor dissolution, the commission of the district shall petition, without any filing fee, the superior court of the county in which such district is located for an order

authorizing the payment of all indebtedness of the district and directing the transfer of any surplus funds or property to the general fund of the county in which such district is organized.

Sec. 27. RCW 70.44.040 and 1990 c 259 s 39 are each amended to read as follows:

The provisions of Title 29 RCW relating to elections shall govern public hospital districts, except that: (1) The total vote cast upon the proposition to form a hospital district shall exceed forty percent of the total number of votes cast in the precincts comprising the proposed district at the preceding general and county election; and (2) in public hospital districts encompassing portions of more than one county, the total vote cast upon the proposition to form the district shall exceed forty percent of the total number of votes cast in each portion of each county lying within the proposed district at the next preceding general and county election. If the public hospital district is coextensive with the limits of a county and if the county is not operating under a home rule charter, then, at the first election of commissioners and until any change is made in the boundaries of the public hospital district commissioner districts in accordance with RCW 29.70.100, one public hospital district commissioner shall be chosen from each of the three county commissioner districts of the county in which the public hospital district is located. If the public hospital district comprises only a portion of a county or encompasses portions of more than one county, or if the public hospital district is located in a county operating under a home rule charter, then the petition for the formation of the public hospital district shall describe three public hospital district commissioner districts, numbered consecutively, having approximately equal population and boundaries, following ward and precinct lines, as far as practicable, and, at the first election of commissioners and until any change is made

in the boundaries of the public hospital district commissioner districts in accordance with RCW 29.70.100, one commissioner shall be elected from each of the public hospital district commissioner districts described in the petition. If the boundaries described in the petition for the formation of a public hospital district are changed prior to the election on the proposition for the formation of the public hospital district, then the auditor of the county in which the public hospital district is located or, if the public hospital district encompasses portions of more than one county, the auditor of the county in which the largest portion of the public hospital district is located shall redetermine the boundaries of the commissioner districts in accordance with the above provisions. Any candidate for a particular public hospital district commissioner district position must be a registered voter of that commissioner district. Public hospital district commissioners shall hold office for the term of six years and until their successors are elected and qualified, each term to commence on the first day in January following the election. NEW SECTION. Sec. 29. A new section is added to chapter 36.32 RCW to read as follows:

A county when calling for competitive bids for the procurement of road maintenance materials may award to multiple bidders for the same commodity when the bid specifications provide for the factors of haul distance to be included in the determination of which vendor is truly the lowest price to the county. The county may readvertise for additional bidders and vendors if it deems it necessary in the public interest.

Senator Nelson moved that the following amendment by Senators Nelson and Vognild to the Committee on Governmental Operations amendment be adopted:

Beginning on page 32 of the amendment, after line 13, insert the following:

NEW SECTION. Sec. 29. It is the purpose of this chapter to regulate certain adult entertainment businesses to promote the health, safety, and welfare of the citizens of the state of Washington. (2) An application for a business license must be made on a form provided by the department. The applicant shall provide: (a) The name, address, phone number, and date of birth of the applicant; (b) two passport-size color photographs of the applicant; (c) the applicant's principal occupation; (d) a description of the proposed establishment; (e) the nature of the proposed business; (f) the trade name of the proposed business; (g) location of the proposed business; (h) a list of all prior business license numbers; (i) a record of all prior criminal convictions for any offense listed under section 49(1) of this act; and (j) such other information as the department may require by rule.

(3) The department shall require the applicant to submit to fingerprinting to assist the Washington state patrol in conducting a background check under section 57 of this act.

(4) At the time of applying, the applicant shall post notice of the application at the proposed business location in a form and manner as required by the department by rule.

NEW SECTION. Sec. 33. (1) The department shall grant or refuse a business license in accordance with this chapter.

(2) Every business license shall be issued in the name of the applicant or applicants, and the holder of a license shall not allow any other person to use it.

(3) No business license may be issued to:

(a) An individual, partnership, or corporation, unless qualified to obtain a business license, as provided in this chapter;

(b) An applicant whose business is conducted by a manager or agent, unless the manager or agent possesses the same qualifications as are required of the business licensee;

(c) A corporation, unless it was created under the laws of the state of Washington or holds a certificate of authority to transact business in the state of Washington;

(f) An applicant who has proposed the location of the business within a zone where such use is prohibited by state or local authority.

(4) Upon receipt of an application for a business license, the department shall give notice of the application to the chief executive officer of the incorporated city or

town, if the application is for a business license within an incorporated city or town, or to the county legislative authority, if the application is for a business license outside the boundaries of incorporated cities or towns, or to all the appropriate executive officers in the case of a regional adult entertainment business plan. Upon the granting of a business license under this chapter the department shall send a duplicate of the license or written notification to the chief executive officer of the incorporated city or town in which the license is granted, or to the county legislative authority if the license is granted outside the boundaries of incorporated cities or towns, or to all chief executive officers of impacted cities, towns, or counties participating in a regional adult entertainment business plan.

(5)(a) Except as set forth in (b) of this subsection, the department shall not issue an initial business license covering any premises, if at the time the initial license is to be issued the premises are within a buffer zone of one thousand feet surrounding any residential zone, single or multifamily dwelling, church, park, playground, day care center, or elementary or secondary school. The one thousand feet shall be measured on a straight line between the closest points of the property on which the premises are located and the property of the residential zone, dwelling, church, park, playground, day care center, or school. For the purpose of this section, church means a building erected for and used exclusively for religious worship and schooling or other activity in connection with the worship and schooling. The department may rely on the measurements of the relevant local jurisdictions in determining the boundaries of a buffer zone.

(b) The legislative authority of a city, town, or county:

(i) May establish a buffer zone less than that established in (a) of this subsection if the legislative authority finds (A) that the adverse secondary effects of adult entertainment businesses on public health, safety, or welfare would not be greater as a result of the smaller buffer zone or (B) that failure to establish a smaller buffer zone will effectively prohibit any adult entertainment business in the city, town, or county and there is no regional agreement with neighboring cities, towns, or counties that provides adequate opportunities for such businesses; or

(ii) May establish a buffer zone greater than that established in (a) of this subsection if the legislative authority finds (A) that the adverse secondary effects of adult entertainment businesses on public health, safety, or welfare would not be reasonably and effectively mitigated without the larger buffer zone and (B) that establishing a larger buffer zone will not effectively prohibit any adult entertainment business in the city, town, or county, or that there is a regional agreement with neighboring cities, towns, or counties that provides adequate opportunities for such businesses.

(c) If the location requirements established pursuant to this chapter effectively preclude location of adult entertainment businesses within a city, town, or county, such city, town, or county shall join with neighboring cities, towns, or counties in a regional adult entertainment business location plan in order to provide reasonable opportunity for location of adult entertainment businesses in the regional area.

NEW SECTION. Sec. 34. (1) The department may, subject to the provisions of this chapter and as provided by rule, suspend or cancel a business license; and all rights of the licensee under this chapter shall be suspended or terminated, as the case may be.

(2) Upon receipt of notice of the suspension or cancellation of a business license, the licensee shall forthwith deliver the license to the department. Where the business license has been suspended only, the department shall return the license to the licensee at the expiration or termination of the period of suspension.

NEW SECTION. Sec. 35. (1) Every business license issued under this chapter is subject to all conditions and restrictions imposed by this chapter. All conditions and restrictions imposed by the department in the issuance of an individual business license

shall be listed on the face of the individual license along with the trade name, address, and expiration date.

(2) Every business licensee shall post and keep posted its license in a conspicuous place on the premises.

NEW SECTION. Sec. 36. The department shall not issue a business license to a transferee until the transferee has applied for and received a business license under this chapter.

NEW SECTION. Sec. 37. (1)(a) At the time of the original issuance of a business license, the department shall prorate the license fee charged to the new licensee according to the number of calendar quarters, or portion thereof, remaining until the first renewal of that license is required.

(b) Unless canceled sooner, every business license issued by the department shall expire at midnight of the thirtieth day of June of the fiscal year for which it was issued. However, if the department deems it feasible and desirable to do so, it may establish, by rule pursuant to chapter 34.05 RCW, a system for staggering the annual renewal dates for business licenses. If such a system of staggered annual renewal dates is established by the department, the business license fees provided by this chapter shall be appropriately prorated during the first year that the system is in effect.

(2) The adult entertainment business license fee shall be established under RCW 43.24.086, but shall be at least seven hundred fifty dollars per annum, and shall be paid at the time of application. One-half of the fee shall be refunded if the application is withdrawn prior to a denial of the license by the department.

NEW SECTION. Sec. 38. (1) The holder of a business license may not assign or transfer the license, except that a transfer may be made to the surviving spouse of a deceased licensee if the transferor and transferee were maintaining a marital community and the license was issued in the name of one or both of them.

(2) A change in an owner or operator of a licensed business or a change in the manager or agent of a business must be reported to the department within thirty days, and any new owner, operator, manager, or agent must meet the requirements of section 33 of this act. The department shall charge a fee established under RCW 43.24.086 that is at least seventy-five dollars for the processing of a change in an owner, operator, manager, or agent.

NEW SECTION. Sec. 39. The department in suspending a business license may further provide in the order of suspension that such suspension shall be vacated upon payment to the department by the licensee of a monetary penalty in an amount fixed by the department but not to exceed ten thousand dollars.

NEW SECTION. Sec. 40. (1)(a) An application for a performer's license must be made on a form provided by the department. The performer shall provide the following: (i) The performer's name, including all aliases, address, phone number, and date of birth; (ii) two passport-size color photographs of the performer; (iii) principal occupation; (iv) the name and address of any business, if known, at which the performer will perform; (v) a list of all prior performer's license numbers; (vi) a record of all prior criminal convictions for any offense listed under section 49(1) of this act; and (v) such other information as the department may require by rule.

(b) The department shall require the applicant to submit to fingerprinting to assist the Washington state patrol in conducting a background check under section 57 of this act.

(c) Identifying information provided by an applicant under this subsection is exempt from public disclosure, and the department shall not disclose such information except to the extent necessary to carry out its responsibilities under this chapter, or to comply with a request from another governmental entity, or to comply with a court order.

(2) No performer's license may be issued to:

(a) A performer who is under eighteen years of age;

(b) A performer who has failed to provide information reasonably necessary for issuance of the license or has falsely answered a question or request for information on the application form.

(3) The performer's license fee shall be established under RCW 43.24.086, but shall be at least seventy-five dollars per annum and shall be paid at the time of application. One-half of the fee shall be refunded if the application is withdrawn prior to denial of the license by the department.

(4) Every performer shall keep his or her performer's license on the premises while performing.

NEW SECTION. Sec. 41. Every business licensed under section 33 of this act shall file monthly reports with the department pursuant to rule. The reports shall include the following: (1) The name, address, date of birth, and the performer's license number for all performers appearing nude or seminude during the month; and (2) such further information as the department may require.

NEW SECTION. Sec. 42. An action, order, or decision of the department as to a denial of an application for the issuance or renewal of a business or performer's license or as to a revocation, suspension, or modification of a license is subject to the applicable provisions of chapter 34.05 RCW.

(1) An opportunity for a hearing must be provided a licensee prior to a revocation or modification of a business or performer's license and, except as provided in subsection (3) of this section, prior to the suspension of a license.

(2) No hearing shall be required until demanded by the applicant or licensee.

(3) The department may summarily suspend a business or performer's license for a period of up to thirty days without a prior hearing if it finds that public health, safety, or welfare imperatively requires emergency action, and incorporates a finding to that effect in its order; and proceedings for revocation or other action must be promptly instituted and determined.

NEW SECTION. Sec. 43. No provision in this chapter limits the authority of cities, towns, and counties from further regulating adult entertainment businesses as to hours of operation, location of premises, or manner of operation.

The provisions of this chapter relating to the licensing of any adult entertainment business shall not be exclusive and any city, town, or county within whose jurisdiction the adult entertainment business is located may require any registrations or licenses, or charge any fee for the same or similar purpose; and nothing in this chapter shall limit or abridge the authority of any city, town, or county to levy and collect a general and nondiscriminatory license fee levied upon all businesses, or to levy a tax based upon gross business conducted by any firm within the city, town, or county.

NEW SECTION. Sec. 44. The director has the following authority:

(1) To adopt, amend, or repeal such rules as are deemed necessary to carry out this chapter;

(2) To investigate all complaints or reports of conduct in violation of this chapter and to hold hearings as provided in this chapter;

(3) To issue subpoenas and administer oaths in connection with any investigation, hearing, or proceeding held under this chapter;

(4) To take or cause depositions to be taken and use other discovery procedures as needed in any investigation, hearing, or proceeding held under this chapter;

(5) To compel attendance of witnesses at hearings;

(6) To take emergency action ordering summary suspension of a business or performer's license, or restriction or limitation of the licensee's practice pending further disciplinary action under section 49 of this act;

(7) To use the office of administrative hearings as authorized in chapter 34.12 RCW to conduct hearings. However, the director or the director's designee shall make the final decision in the hearing;

(8) To enter into contracts for professional services determined to be necessary for adequate enforcement of this chapter;

(9) To grant or deny business or performer's license applications, and to impose any sanction against a license applicant or license holder provided by this chapter;

(10) To establish or increase in accordance with RCW 43.24.086 business and performer's license fees above the minimum set by this chapter;

(11) To enter into an assurance of discontinuance in lieu of issuing a statement of charges or conducting a hearing. The assurance shall consist of a statement of the law in question and an agreement not to violate the stated provision. The applicant or license holder shall not be required to admit to any violation of the law, nor shall the assurance be construed as such an admission. Violation of an assurance under this subsection is grounds for disciplinary action;

(12) To designate individuals authorized to sign subpoenas and statements of charges; and

(13) To employ such investigative, administrative, and clerical staff as necessary for the enforcement of this chapter.

NEW SECTION. Sec. 45. A person, including but not limited to a customer, licensee, corporation, organization, or state or local governmental agency, may submit a written complaint to the department charging a business or performer's license holder or applicant with a violation of this chapter. If the department determines that the complaint merits investigation, or if the department has reason to believe, without a formal complaint, that a license holder or applicant may have violated this chapter, the department may investigate to determine whether there has been a violation. A person who files a complaint under this section in good faith is immune from suit in any civil action related to the filing or contents of the complaint.

NEW SECTION. Sec. 46. (1) If the department determines, upon investigation pursuant to section 45 of this act, that there is reason to believe a violation of this chapter has occurred, a statement of charge or charges may be prepared and served upon the business or performer's license holder or applicant. The statement of charge or charges shall be accompanied by a notice that the license holder or applicant may request a hearing to contest the charge or charges. The license holder or applicant must file a request for hearing with the department within twenty days after being served the statement of charges. The failure to request a hearing constitutes a default, upon which the director or the director's designee may enter an order pursuant to RCW 34.05.440(1).

(2) If a hearing is requested, the time of the hearing shall be scheduled but the hearing shall not be held earlier than thirty days after service of the charges upon the license holder or applicant. A notice of hearing shall be issued at least twenty days prior to the hearing, specifying the time, date, and place of the hearing.

NEW SECTION. Sec. 47. The procedures governing adjudicative proceedings before agencies under chapter 34.05 RCW, the administrative procedure act, govern all hearings requested under section 46 of this act.

NEW SECTION. Sec. 48. (1) Upon a finding that a business or performer's license holder or applicant has engaged in conduct or violated conditions that are grounds for denial of a license or for disciplinary action under section 49 of this act, the director may issue an order providing for one or any combination of the following:

- (a) Revocation of the license;
- (b) Suspension of the license for a fixed or indefinite term;
- (c) Censure or reprimand;
- (d) Compliance with conditions of probation for a designated period of time;
- (e) Payment of a fine for each violation of this chapter, not to exceed one thousand dollars per violation, which shall be paid to the department;
- (f) Denial of the license request.

(2) Any of the actions under this section may be totally or partly stayed by the director. All costs associated with compliance with orders issued under this section are the obligation of the license holder or applicant.

NEW SECTION. Sec. 49. The following conduct, acts, or conditions, constitute grounds for denial of a license or for disciplinary action against any business or performer's license holder or applicant under the jurisdiction of this chapter:

(1) With respect to a license holder, commission of an act that constitutes an obscenity or pornography offense under chapter 9.68 RCW, a sexual exploitation of children offense under chapter 9.68A RCW, an assault under chapter 9A.36 RCW, a sexual offense under chapter 9A.44 RCW, a prostitution or indecent exposure offense under chapter 9A.88 RCW, a drug offense under chapter 69.41, 69.50, 69.52, or 69.53 RCW, or a substantially similar ordinance adopted by the legislative authority of a city, town, or county or other state statute. Conviction in a criminal proceeding is not a condition precedent to disciplinary action under this section. Upon a conviction, however, the judgment and sentence is conclusive evidence at an ensuing disciplinary hearing of the guilt of the license holder or applicant of the crime described in the indictment or information, and of the person's violation of the statute on which it is based. For the purposes of this section, conviction includes a plea of guilty or nolo contendere and also includes all sentence deferrals or suspensions;

(2) Misrepresentation or concealment of a material fact in obtaining a license or in license reinstatement;

(3) All advertising that is false, fraudulent, or misleading;

(4) Failure to cooperate with the department in the conduct of an investigation by:

(a) Not furnishing any requested papers or documents;

(b) Not furnishing in writing a full and complete explanation regarding the matter under investigation; or

(c) Not responding to subpoenas issued by the director, whether or not the recipient of the subpoena is the subject of the investigation;

(5) Failure to comply with an order issued by the director or an assurance of discontinuance entered into with the director;

(6) Aiding and abetting an unlicensed person to own or operate a business or to perform when a license is required;

(7) Interference with an investigation or disciplinary proceeding by willful misrepresentation of facts before the director or the director's authorized representative, or by the use of threats or harassment against any witness to prevent him or her from providing evidence in a disciplinary proceeding or any other legal action;

(8) Violating this chapter or any rule adopted pursuant to this chapter.

NEW SECTION. Sec. 50. (1) The director shall investigate complaints under this chapter concerning ownership or operation of a business without a license or performing without a license. In the investigation of the complaints, the director shall have the same authority as provided the director under section 44 of this act. The director shall issue a cease and desist order to a person after notice and hearing and upon a determination that the person has owned or operated a business without a license, or has performed without a license, in violation of this chapter. If the director makes a written finding of fact that the public interest will be irreparably harmed by delay in issuing an order, the director may issue a temporary cease and desist order before the notice and hearing. A cease and desist order does not relieve the person so owning or operating a business or performing without a license from criminal prosecution. The remedy of a cease and desist order is in addition to any criminal liability. A cease and desist order is conclusive proof of unlicensed practice and may be enforced through remedial sanctions under chapter 7.21 RCW. Enforcement of the cease and desist order under chapter 7.21 RCW may be used in addition to, or as an

alternative to, any provisions for enforcement of agency orders set out in chapter 34.05 RCW.

(2) The attorney general, a county prosecuting attorney, the department, or any person may, in accordance with the law of this state governing injunctions, maintain an action to enjoin any person owning or operating a business, or performing, without a license required by this chapter from continuing such ownership, operation, or performing until the required license is secured. However, an injunction does not relieve a person from criminal prosecution and the remedy by injunction is in addition to any criminal liability.

NEW SECTION. Sec. 51. A person or business that violates an injunction issued under this chapter shall pay a civil penalty, as determined by the court, of not more than twenty-five thousand dollars, which shall be paid to the department. For the purpose of this section, the superior court issuing any injunction shall retain jurisdiction and the cause shall be continued, and in such cases the attorney general acting in the name of the state may petition for the recovery of civil penalties.

NEW SECTION. Sec. 52. (1) The director or individuals acting on the director's behalf are immune from suit in any civil or criminal action based on any disciplinary proceedings or other official acts performed in the course of their duties in the administration and enforcement of this chapter.

(2) Legislative authorities of cities, towns, and counties are immune from suit in any civil or criminal action based on any official acts performed in the course of their duties in the administration or enforcement of this chapter.

In any challenge to location, distance, or conduct requirements imposed by the legislative authority of a city, town, or county pursuant to this chapter, the legislative authority may request that the state assume some or all of the obligation to defend the constitutionality of this chapter. The attorney general may grant or deny the request. Nothing in this chapter creates any state liability for actions of a city, town, or county.

NEW SECTION. Sec. 53. Existing adult entertainment businesses are exempt from any location restrictions imposed by this chapter until January 1, 1995.

NEW SECTION. Sec. 54. It is a gross misdemeanor for any person to permit any person under the age of eighteen on the premises of any adult entertainment business under his or her control.

NEW SECTION. Sec. 55. It is a class C felony for any person to employ or permit any person under the age of eighteen to appear nude or seminude on the premises of any adult entertainment business under his or her control.

NEW SECTION. Sec. 56. Sections 29 through 55 of this act shall constitute a new chapter in Title 18 RCW.

NEW SECTION. Sec. 57. A new section is added to chapter 43.43 RCW to read as follows:

Sec. 58. RCW 7.48A.040 and 1985 c 235 s 1 are each amended to read as follows:

(1) No person shall with knowledge maintain a moral nuisance.

(2) Upon a determination that a defendant has with knowledge maintained a moral nuisance, the court shall impose a civil fine and judgment of an amount as the court shall determine to be appropriate. In imposing the civil fine, the court shall consider the wilfulness of the defendant's conduct and the profits made by the defendant attributable to the lewd matter, lewdness, or prostitution, whichever is applicable. In no event shall the civil fine exceed the greater of ((~~twenty-five~~) fifty) thousand dollars or these profits.

NEW SECTION. Sec. 59. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 60. Sections 29 through 62 of this act shall take effect January 1, 1992. The department of licensing may take such steps before then, including the adoption of rules, as are necessary to ensure that sections 29 through 62 of this act are implemented on January 1, 1992.

NEW SECTION. Sec. 61. The municipal research council, created under chapter 43.110 RCW, in conjunction with the association of Washington cities, shall report to the legislature by January 1, 1993, regarding the implementation of the regulation of certain adult entertainment businesses as provided in sections 29 through 60 of this act. The report shall also examine the effectiveness of these provisions in reducing illegal activity on or near the adult entertainment businesses, and contain further suggested legislative enactments designed to reduce illegal activities associated with these businesses, including, but not limited to, obscenity, pornography, assaults, drug offenses, sexual offenses, and prostitution.

NEW SECTION. Sec. 62. The provisions of the open public meetings act, contained in chapter 42.30 RCW, shall apply to all meetings conducted by the governing body of a public agency regarding the regulation of adult entertainment businesses pursuant to sections 29 through 61 of this act.

POINT OF ORDER

Senator Murray: "I rise to a point of order. Mr. President, I would challenge the scope and object of this amendment. Although these are very laudable goals in this amendment, and I do support them and feel that they are something that we should put into statute, they deal primarily with regulating adult entertainment and the bill before us, as I read it, has to do with election procedures in towns and cities and I think it does not fit under the scope of this bill."

Further debate ensued.

MOTION

On motion of Senator Hayner, further consideration of Substitute House Bill No. 1275 was deferred.

SECOND READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1172, by House Committee on Education (originally sponsored by Representatives Holland, Cole, Peery, Brumsickle, G. Creating the school pathway and bus stop improvement program.

The bill was read the second time.

MOTION

Senator Bailey moved that the following Committee on Education amendment be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that the number of motor vehicles on the roads of the state has increased dramatically in recent years, and that this increase has created unsafe conditions for many of our children as they travel to and from school. The legislature further finds that responsibility to ensure safe walking conditions and bus stops for our children is fragmented, and that inadequate resources have been devoted to improving pedestrian safety.

NEW SECTION. Sec. 2. The school pathway and bus stop improvement program is hereby created. The purpose of the program is to establish a council to make recommendations about roads, streets, and bus stops that the council considers inadequate for school children as they travel to school, and develop a program for making safety improvements.

NEW SECTION. Sec. 3. The school pathway and bus stop improvement program council is established. Membership on the council shall include two members of the senate, two members of the house of representatives, and representatives from the department of transportation, the office of the superintendent of public instruction, school district administrators, school board members, counties, cities, the traffic safety commission, school bus drivers, and parents. The president of the senate shall select the senate members and the speaker of the house of representatives shall select the house of representatives members. Representatives of state agencies shall be selected by the respective agency. Other representatives shall be selected by appropriate state-wide organizations. The council shall select a chair from among its members. Staffing and administrative support shall be provided by the Washington traffic safety commission.

NEW SECTION. Sec. 4. (1) The council established in section 3 of this act shall:

(a) Formulate criteria for identifying roads and school bus stops that the council considers inadequate for elementary school students and establish recommendations for standards for making safety improvements;

(b) Based on the criteria and standards in (a) of this subsection, inventory those roads within a one-mile radius of elementary schools and those school bus stops considered inadequate by the council, and recommend priority safety improvement projects;

(c) Develop a plan by which the recommended priority safety improvement projects may be implemented, and make the plan available to applicable local jurisdictions;

(d) Based on the criteria and standards in (a) of this subsection, formulate recommended guidelines for student pedestrian safety within a one-mile radius of new elementary schools. At a minimum, the council shall develop recommended guidelines for incorporating pedestrian safety considerations into school siting decisions, constructing pedestrian safety infrastructure improvements within a specified time after new elementary schools are opened, and creating incentives and enforcement measures to ensure that the safety improvements are completed; and

(e) Estimate the cost of implementing state-wide sidewalk crossing rules.

(2) By June 30, 1993, the council shall submit its recommendations and findings required in subsection (1) of this section to the appropriate committees of the house of representatives and the senate, the governor, local governments, school districts, and other appropriate agencies and organizations. After July 1, 1992, the council shall

provide general oversight, coordination, and assistance to local governments, state agencies, and private parties in the consideration and implementation of the recommendations.

(3) The recommendations of the council are advisory only and shall not constitute proof of an actual unsafe condition.

(4) Local jurisdictions may adopt, in whole or in part, the recommendations of the council.

NEW SECTION. Sec. 5. Sections 2 through 4 of this act are each added to chapter 28A.160 RCW.

NEW SECTION. Sec. 6. If specific funding for the purposes of this act, referencing this act by bill number, is not provided by June 30, 1991, in the omnibus appropriations act, this act shall be null and void.

NEW SECTION. Sec. 7. Sections 1 through 4 of this act shall expire June 30, 1996.

POINT OF INQUIRY

Senator McCaslin: "Senator Bailey, in the bill summary, it states that they are not obligated to correct the hazardous conditions. I hope that is not in the bill. Obviously, it is pointing out that there is a hazardous condition they need not correct. I hope that language--I haven't had time to locate the bill."

Senator Bailey: "I think the summary is not quite accurate. What it does, as I stated in the provision, it includes provisions to prevent local jurisdictions from becoming more liable than what they are now."

RULING BY THE PRESIDENT

President Pritchard: "In ruling upon the point of order raised by Senator Skratek, the President finds that Substitute House Bill No. 1704 is a measure which makes changes in vehicle licensing and fuel tax administration by, among other things, providing authority to the Department of Licensing to assess fuel tax reports and recover property of debtor-distributors; providing for implementation of a collection process for the local option fuel tax and other changes relative to vehicle licensing and mitigation of penalties and assessments in the areas of aircraft fuel and special fuel.

"The committee amendment would, in addition, grant new regulatory authority to the Utilities and Transportation Commission; allow certain drivers an administrative process to seek rescission of license revocation; change the

law regarding garbage trucks and exempt certain employees of the Department of Licensing from civil service right-of-reversion status.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 2056, by House Committee on Health Care (originally sponsored by Representative Braddock) (by request of Department of Health)

Making major changes to the regulation and provision of vital statistics.

The bill was read the second time.

MOTIONS

On motion of Senator West, the following Committee on Health and Long-Term Care amendment was adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) To promote and maintain nation-wide uniformity in the system of vital statistics, the certificates required by this chapter or by the rules adopted under this chapter shall include, as a minimum, the items recommended by the federal agency responsible for national vital statistics.

(2) The state board of health by rule may require additional pertinent information relative to the birth and manner of delivery as it may deem necessary for statistical study. This information shall be placed in a confidential section of the birth certificate form and shall not be subject to the view of the public or for certification purposes except upon order of the court. The state board of health may eliminate from the forms items that it determines are not necessary for statistical study.

(3) Each certificate or other document required by this chapter shall be on a form or in a format prescribed by the state registrar.

(4) All vital records shall contain the data required for registration. No certificate may be held to be complete and correct that does not supply all items of information called for or that does not satisfactorily account for the omission of required items.

(5) Information required in certificates or documents authorized by this chapter may be filed and registered by photographic, electronic, or other means as prescribed by the state registrar.

NEW SECTION. Sec. 2. The department is authorized to prescribe by rule the schedule and system for electronic and hard copy transmission of certificates and documents required by this chapter.

NEW SECTION. Sec. 3. The department, in mutual agreement with a local health officer as defined in RCW 70.05.010, may authorize a local registrar to access the state-wide birth data base or death data base and to issue a certified copy of birth or death certificates from the respective state-wide electronic data bases. In such cases, the department may bill local registrars for only direct line charges associated with accessing birth and death data bases.

(1) The state registrar may prepare typewritten, photographic, electronic, or other reproductions of records of birth, death, fetal death, marriage, or decrees of divorce, annulment, or legal separation registered under law or that portion of the record of any birth which shows the child's full name, sex, date of birth, and date of filing of the certificate. Such reproductions, when certified by the state registrar, shall be considered for all purposes the same as the original and shall be prima facie evidence of the facts stated therein.

(2) The department may authorize by regulation the disclosure of information contained in vital records for research purposes. All research proposals must be submitted to the department and must be reviewed and approved as to scientific merit and to ensure that confidentiality safeguards are provided in accordance with department policy.

(3) Local registrars may, upon request, furnish certified copies of the records of birth, death, and fetal death, subject to all provisions of state law applicable to the state registrar. ~~((Local registrars in health districts or departments that have within their jurisdiction cities of the first class may issue certified copies only if they have an original certificate in their possession at the time of issuance of a certified copy or have a copy of the original certificate transmitted to the state registrar which was produced by a photographic or other exact reproduction method. Local registrars of all counties or districts may, upon request, furnish certified copies of the records of birth, death, and fetal death during the period that the original certificates are in their possession prior to transmittal of the original certificates to the state registrar. Certified copy forms used by local registrars furnishing certified copies while the original records are in their possession shall be supplied or approved by the state registrar and no other forms shall be used.))~~

On motion of Senator West, the following title amendment was adopted:

On page 1, line 1 of the title, after "statistics;" strike the remainder of the title and insert "amending RCW 70.58.104; adding new sections to chapter 70.58 RCW; and repealing RCW 70.58.200."

SECOND SUBSTITUTE HOUSE BILL NO. 1671, by House Committee on Transportation (originally sponsored by Representatives R. Fisher, Riley, R. Meyers, Jacobsen, Heavey, Roland, Hine, O'Brien, Rust, Betzoff, Paris, Scott, Fraser and Wineberry)

Promoting growth strategies.

The bill was read the second time.

MOTIONS

Senator Patterson moved that the following Committee on Transportation amendment be adopted:

Strike everything after the enacting clause and insert the following:

"HIGHWAY ACCESS MANAGEMENT"

NEW SECTION. Sec. 1. LEGISLATIVE FINDINGS--ACCESS. (1) The legislature finds that:

(a) Regulation of access to the state highway system is necessary in order to protect the public health, safety, and welfare, to preserve the functional integrity of the

state highway system, and to promote the safe and efficient movement of people and goods within the state;

(b) The development of an access management program, in accordance with this chapter, which coordinates land use planning decisions by local governments and investments in the state highway system, will serve to control the proliferation of connections and other access approaches to and from the state highway system. Without such a program, the health, safety, and welfare of the residents of this state are at risk, due to the fact that uncontrolled access to the state highway system is a significant contributing factor to the congestion and functional deterioration of the system; and

(c) The development of an access management program in accordance with this chapter will enhance the development of an effective transportation system and increase the traffic-carrying capacity of the state highway system and thereby reduce the incidences of traffic accidents, personal injury, and property damage or loss; mitigate environmental degradation; promote sound economic growth and the growth management goals of the state; reduce highway maintenance costs and the necessity for costly traffic operations measures; lengthen the effective life of transportation facilities in the state, thus preserving the public investment in such facilities; and shorten response time for emergency vehicles.

(2) In furtherance of these findings, all state highways are hereby declared to be controlled access facilities as defined in section 2 of this act, except those highways that are defined as limited access facilities in chapter 47.52 RCW.

(3) It is the policy of the legislature that:

(a) The access rights of an owner of property abutting the state highway system are subordinate to the public's right and interest in a safe and efficient highway system; and

(b) Every owner of property which abuts a state highway has a right to reasonable access to that highway, unless such access has been acquired pursuant to chapter 47.52 RCW, but may not have the right of a particular means of access. The right of access to the state highway may be restricted if, pursuant to local regulation, reasonable access can be provided to another public road which abuts the property.

(4) The legislature declares that it is the purpose of this chapter to provide a coordinated planning process for the permitting of access points on the state highway system to effectuate the findings and policies under this section.

(5) Nothing in this chapter shall affect the right to full compensation under section 16, Article I of the state Constitution.

NEW SECTION. Sec. 2. DEFINITIONS--ACCESS. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Controlled access facility" means a transportation facility to which access is regulated by the governmental entity having jurisdiction over the facility. Owners or occupants of abutting lands and other persons have a right of access to or from such facility at such points only and in such manner as may be determined by the governmental entity.

(2) "Connection" means approaches, driveways, turnouts, or other means of providing for the right of access to or from controlled access facilities on the state highway system.

(3) "Permitting authority" means the department for connections in unincorporated areas or a city or town within incorporated areas which are authorized to regulate access to state highways pursuant to chapter 47.24 RCW.

NEW SECTION. Sec. 3. REGULATING CONNECTIONS. (1) Vehicular access and connections to or from the state highway system shall be regulated by the permitting authority in accordance with the provisions of this chapter in order to protect the public health, safety, and welfare.

(2) The department shall by July 1, 1992, adopt administrative procedures pursuant to chapter 34.05 RCW which establish state highway access standards and rules for its issuance and modification of access permits, closing of unpermitted connections, revocation of permits, and waiver provisions in accordance with this chapter. The department shall consult with the association of Washington cities and obtain concurrence of the city design standards committee as established by RCW 35.78.030 in the development and adoption of rules for access standards for city streets designated as state highways under chapter 47.24 RCW.

(3) Cities and towns shall, no later than July 1, 1993, adopt standards for access permitting on streets designated as state highways which meet or exceed the department's standards, provided that such standards may not be inconsistent with standards adopted by the department.

NEW SECTION. Sec. 4. ACCESS PERMITS. (1) No connection to a state highway shall be constructed or altered without obtaining an access permit in accordance with this chapter in advance of such action. A permitting authority has the authority to deny access to the state highway system at the location specified in the permit until the permittee constructs or alters the connection in accordance with the permit requirements.

(2) The cost of construction or alteration of a connection shall be borne by the permittee, except for alterations which are not required by law or administrative rule, but are made at the request of and for the convenience of the permitting authority. The permittee, however, shall bear the cost of alteration of any connection which is required by the permitting authority due to increased or altered traffic flows generated by changes in the permittee's facilities or nature of business conducted at the location specified in the permit.

(3) Except as otherwise provided in this chapter, an unpermitted connection is subject to closure by the appropriate permitting authority which shall have the right to install barriers across or remove the connection. When the permitting authority determines that a connection is unpermitted and subject to closure, it shall provide reasonable notice of its impending action to the owner of property served by the connection. The permitting authority's procedures for providing notice and preventing the operation of unpermitted connections shall be adopted by rule.

NEW SECTION. Sec. 5. PERMIT FEE. The department shall establish by rule a schedule of fees for permit applications made to the department. The fee shall be nonrefundable and shall be used only to offset the costs of administering the access permit review process and the costs associated with administering the provisions of this chapter.

NEW SECTION. Sec. 6. PERMIT REVIEW PROCESS. The review process for access permit applications made by the department shall be as follows: Any person seeking an access permit shall file an application with the department. The department by rule shall establish application form and content requirements. The fee required by section 5 of this act must accompany the applications.

NEW SECTION. Sec. 7. PERMIT CONDITIONS. The permitting authority may issue a permit subject to any conditions necessary to carry out the provisions of this chapter, including, but not limited to, requiring the use of a joint-use connection. The permitting authority may revoke a permit if the applicant fails to comply with the conditions upon which the issuance of the permit was predicated.

NEW SECTION. Sec. 8. PERMIT REMOVAL. (1) Unpermitted connections to the state highway system in existence on July 1, 1990, shall not require the issuance of a permit and may continue to provide access to the state highway system, unless the permitting authority determines that such a connection does not meet minimum acceptable standards of highway safety. However, a permitting authority may require that a permit be obtained for such a connection if a significant change occurs in the use, design, or traffic flow of the connection or of the state highway to which it

provides access. If a permit is not obtained, the connection may be closed pursuant to section 4 of this act.

(2) Access permits granted prior to adoption of the permitting authorities' standards shall remain valid until modified or revoked. Access connections to state highways identified on plats and subdivisions approved prior to July 1, 1991, shall be deemed to be permitted pursuant to chapter ____, Laws of 1991 (this act). The permitting authority may, after written notification, under rules adopted in accordance with section 3 of this act, modify or revoke an access permit granted prior to adoption of the standards by requiring relocation, alteration, or closure of the connection if a significant change occurs in the use, design, or traffic flow of the connection.

(3) The permitting authority may issue a nonconforming access permit after finding that to deny an access permit would leave the property without a reasonable means of access to the public roads of this state. Every nonconforming access permit shall specify limits on the maximum vehicular use of the connection and shall be conditioned on the availability of future alternative means of access for which access permits can be obtained.

NEW SECTION. Sec. 9. ACCESS MANAGEMENT STANDARDS. (1) The department shall develop, adopt, and maintain an access control classification system for all routes on the state highway system, the purpose of which shall be to provide for the implementation and continuing applications of the provision of this chapter.

(2) The principal component of the access control classification system shall be access management standards, the purpose of which shall be to provide specific minimum standards to be adhered to in the planning for and approval of access to state highways.

(3) The control classification system shall be developed consistent with the following:

(a) The department shall, no later than January 1, 1993, adopt rules setting forth procedures governing the implementation of the access control classification system required by this chapter. The rule shall provide for input from the entities described in (b) of this subsection as well as for public meetings to discuss the access control classification system. Nothing in this chapter shall affect the validity of the department's existing or subsequently adopted rules concerning access to the state highway system. Such rules shall remain in effect until repealed or replaced by the rules required by this chapter.

(b) The access control classification system shall be developed in cooperation with counties, cities and towns, the state department of community development, regional transportation planning organizations, and other local governmental entities, and for city streets designated as state highways pursuant to chapter 47.24 RCW, adopted with the concurrence of the city design standards committee.

(c) The rule required by this section shall provide that assignment of a road segment to a specific access category be made in consideration of the following criteria:

- (i) Local land use plans and zoning, as set forth in comprehensive plans;
- (ii) The current functional classification as well as potential future functional classification of each road on the state highway system;
- (iii) Existing and projected traffic volumes;
- (iv) Existing and projected state, local, and metropolitan planning organization transportation plans and needs;
- (v) Drainage requirements;
- (vi) The character of lands adjoining the highway;
- (vii) The type and volume of traffic requiring access;
- (viii) Other operational aspects of access;
- (ix) The availability of reasonable access by way of county roads and city streets to a state highway; and

(x) The cumulative effect of existing and projected connections on the state highway system's ability to provide for the safe and efficient movement of people and goods within the state.

(d) Access management standards shall include, but not be limited to, connection location standards, safety factors, design and construction standards, desired levels of service, traffic control devices, and effective maintenance of the roads. The standards shall also contain minimum requirements for the spacing of connections, intersecting streets, roads, and highways.

(e) An access control category shall be assigned to each segment of the state highway system by July 1, 1993.

"TRANSPORTATION DEMAND MANAGEMENT"

NEW SECTION. **Sec. 10. FINDINGS--DEMAND MANAGEMENT.** The legislature finds that automotive traffic in Washington's metropolitan areas is the major source of emissions of air contaminants. This air pollution causes significant harm to public health, causes damage to trees, plants, structures, and materials and degrades the quality of the environment.

Increasing automotive traffic is also aggravating traffic congestion in Washington's metropolitan areas. This traffic congestion imposes significant costs on Washington's businesses, governmental agencies, and individuals in terms of lost working hours and delays in the delivery of goods and services. Traffic congestion worsens automobile-related air pollution, increases the consumption of fuel, and degrades the habitability of many of Washington's cities and suburban areas. The capital and environmental costs of fully accommodating the existing and projected automobile traffic on roads and highways are prohibitive. Decreasing the demand for vehicle trips is significantly less costly and at least as effective in reducing traffic congestion and its impacts as constructing new transportation facilities such as roads and bridges, to accommodate increased traffic volumes.

The legislature also finds that increasing automotive transportation is a major factor in increasing consumption of gasoline and, thereby, increasing reliance on imported sources of petroleum. Moderating the growth in automotive travel is essential to stabilizing and reducing dependence on imported petroleum and improving the nation's energy security.

The legislature further finds that reducing the number of commute trips to work made via single occupant cars and light trucks is an effective way of reducing automobile-related air pollution, traffic congestion, and energy use. Major employers have significant opportunities to encourage and facilitate reducing single occupant vehicle commuting by employees.

The intent of this chapter is to require local governments in those counties experiencing the greatest automobile-related air pollution and traffic congestion to develop and implement plans to reduce single occupant vehicle commute trips. Such plans shall require major employers and employers at major worksites to implement programs to reduce single occupant vehicle commuting by employees at major worksites. Local governments in counties experiencing significant but less severe automobile-related air pollution and traffic congestion may implement such plans. State agencies shall implement programs to reduce single occupant vehicle commuting at all major worksites throughout the state.

NEW SECTION. **Sec. 11. DEFINITIONS.** Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "A major employer" means a private or public employer that employs one hundred or more full-time employees at a single worksite who begin their regular work

day between 6:00 a.m. and 9:00 a.m. on weekdays for at least twelve continuous months during the year.

(2) "Major worksite" means a building or group of buildings that are on physically contiguous parcels of land or on parcels separated solely by private or public roadways or rights of way, and at which there are one hundred or more full-time employees of one or more employers, who begin their regular work day between 6:00 a.m. and 9:00 a.m. on weekdays, for at least twelve continuous months.

(3) "Commute trip reduction zones" mean areas, such as census tracts or combinations of census tracts, within a jurisdiction that are characterized by similar employment density, population density, level of transit service, parking availability, access to high occupancy vehicle facilities, and other factors that are determined to affect the level of single occupancy vehicle commuting.

(4) "Commute trip" means trips made from a worker's home to a worksite during the peak period of 6:00 a.m. to 9:00 a.m. on weekdays.

(5) "Proportion of single occupant vehicle commute trips" means the number of commute trips made by single occupant automobiles divided by the number of full-time employees.

(6) "Commute trip vehicle miles traveled per employee" means the sum of the individual vehicle commute trip lengths in miles over a set period divided by the number of full-time employees during that period.

(7) "Base year" means the year January 1, 1992, through December 31, 1992, on which goals for vehicle miles traveled and single occupant vehicle trips shall be based. Base year goals may be determined using the 1990 journey-to-work census data projected to the year 1992 and shall be consistent with the growth management act. The task force shall establish a method to be used by jurisdictions to determine reductions of vehicle miles traveled.

NEW SECTION. Sec. 12. REQUIREMENTS FOR COUNTIES AND CITIES.

(1) Each county with a population over one hundred fifty thousand, and each city or town within those counties containing a major employer shall, by July 1, 1992, adopt by ordinance and implement a commute trip reduction plan for all major employers. The plan shall be developed in cooperation with local transit agencies, regional transportation planning organizations as established in RCW 47.80.020, major employers, and the owners of and employers at major worksites. The plan shall be designed to achieve reductions in the proportion of single occupant vehicle commute trips and the commute trip vehicle miles traveled per employee by employees of major public and private sector employers in the jurisdiction.

(2) All other counties, and cities and towns in those counties, may adopt and implement a commute trip reduction plan.

(3) The department of ecology may, after consultation with the state energy office, as part of the state implementation plan for areas that do not attain the national ambient air quality standards for carbon monoxide or ozone, require municipalities other than those identified in subsection (1) of this section to adopt and implement commute trip reduction plans if the department determines that such plans are necessary for attainment of said standards.

(4) A commute trip reduction plan shall be consistent with the guidelines established under section 15 of this act and shall include but is not limited to (a) goals for reductions in the proportion of single occupant vehicle commute trips and the commute trip vehicle miles traveled per employee; (b) designation of commute trip reduction zones; (c) requirements for major public and private sector employers to implement commute trip reduction programs; (d) a commute trip reduction program for employees of the county, city, or town; (e) a review of local parking policies and ordinances as they relate to employers and major worksites and any revisions necessary to comply with commute trip reduction goals and guidelines; (f) an appeals process by which major employers, who as a result of special characteristics of their business or

its locations would be unable to meet the requirements of a commute trip reduction plan, may obtain waiver or modification of those requirements; and (g) means for determining base year values of the proportion of single occupant vehicle commute trips and the commute trip vehicle miles traveled per employee and progress toward meeting commute trip reduction plan goals on an annual basis. Goals which are established shall take into account existing transportation demand management efforts which are made by major employers. Each jurisdiction shall ensure that employers shall receive full credit for the results of transportation demand management efforts and commute trip reduction programs which have been implemented by major employers prior to the base year. The goals for miles traveled per employee for all major employers shall not be less than a fifteen percent reduction from the base year value of the commute trip reduction zone in which their worksite is located by January 1, 1995, twenty-five percent reduction from the base year values by January 1, 1997, and thirty-five percent reduction from the base year values by January 1, 1999.

(5) A county, city, or town may, as part of its commute trip reduction plan, require commute trip reduction programs for employers other than major employers at major worksites if the regional air pollution control board determines such programs are necessary to comply with ambient air standards for carbon monoxide and ozone.

(6) The commute trip reduction plans adopted by counties, cities, and towns under this chapter shall be consistent with and may be incorporated in applicable state or regional transportation plans and local comprehensive plans and shall be coordinated, and consistent with, the commute trip reduction plans of counties, cities, or towns with which the county, city, or town has, in part, common borders or related regional issues. Such regional issues shall include assuring consistency in the treatment of employers who have worksites subject to the requirements of this chapter in more than one jurisdiction. Counties, cities, or towns adopting commute trip reduction plans may enter into agreements through the interlocal cooperation act or by resolution or ordinance as appropriate with other jurisdictions, local transit agencies, or regional transportation planning organizations to coordinate the development and implementation of such plans. Counties, cities, or towns adopting a commute trip reduction plan shall review it annually and revise it as necessary to be consistent with applicable plans developed under RCW 36.70A.070.

(7) Each county, city, or town implementing a commute trip reduction program shall, within thirty days submit a summary of its plan along with certification of adoption to the commute trip reduction task force established under section 15 of this act.

(8) Each county, city, or town implementing a commute trip reduction program shall submit an annual progress report to the commute trip reduction task force established under section 15 of this act. The report shall be due July 1, 1994, and each July 1 thereafter through July 1, 2000. The report shall describe progress in attaining the applicable commute trip reduction goals for each commute trip reduction zone and shall highlight any problems being encountered in achieving the goals. The information shall be reported in a form established by the commute trip reduction task force.

(9) Any waivers or modifications of the requirements of a commute trip reduction plan granted by a jurisdiction shall be submitted for review to the commute trip reduction task force established under section 15 of this act. The commute trip reduction task force may not deny the granting of a waiver or modification of the requirements of a commute trip reduction plan by a jurisdiction but they may notify the jurisdiction of any comments or objections.

(10) Each county, city, or town implementing a commute trip reduction program shall count commute trips eliminated through work-at-home options or alternate work schedules as one and two-tenths vehicle trips eliminated for the purpose of meeting trip reduction goals.

(11) Plans implemented under this section shall not apply to commute trips for seasonal agricultural employees.

(12) Plans implemented under this section shall not apply to construction worksites when the expected duration of the construction project is less than two years.

NEW SECTION. Sec. 13. REQUIREMENTS FOR EMPLOYERS. (1) Not more than six months after the adoption of the commute trip reduction plan by a jurisdiction, each major employer in that jurisdiction shall develop a commute trip reduction program and shall submit a description of that program to the jurisdiction for review. The program shall be implemented not more than six months after submission to the jurisdiction.

(2) A commute trip reduction program shall consist of, at a minimum (a) designation of a transportation coordinator and the display of the name, location, and telephone number of the coordinator in a prominent manner at each affected worksite; (b) regular distribution of information to employees regarding alternatives to single occupant vehicle commuting; (c) an annual review of employee commuting and reporting of progress toward meeting the single occupant vehicle reduction goals to the county, city, or town consistent with the method established in the commute trip reduction plan; and (d) implementation of a set of measures designed to achieve the applicable commute trip reduction goals adopted by the jurisdiction. Such measures may include but are not limited to:

(i) Provision of preferential parking or reduced parking charges, or both, for high occupancy vehicles;

(ii) Instituting or increasing parking charges for single occupant vehicles;

(iii) Provision of commuter ride matching services to facilitate employee ridesharing for commute trips;

(iv) Provision of subsidies for transit fares;

(v) Provision of vans for van pools;

(vi) Provision of subsidies for car pooling or van pooling;

(vii) Permitting the use of the employer's vehicles for car pooling or van pooling;

(viii) Permitting flexible work schedules to facilitate employees' use of transit, car pools, or van pools;

(ix) Cooperation with transportation providers to provide additional regular or express service to the worksite;

(x) Construction of special loading and unloading facilities for transit, car pool, and van pool users;

(xi) Provision of bicycle parking facilities, lockers, changing areas, and showers for employees who bicycle or walk to work;

(xii) Provision of a program of parking incentives such as a rebate for employees who do not use the parking facility;

(xiii) Establishment of a program to permit employees to work part or full time at home or at an alternative worksite closer to their homes;

(xiv) Establishment of a program of alternative work schedules such as compressed work week schedules which reduce commuting; and

(xv) Implementation of other measures designed to facilitate the use of high-occupancy vehicles such as on-site day care facilities and emergency taxi services.

(3) Employers or owners of worksites may form or utilize existing transportation management associations to assist members in developing and implementing commute trip reduction programs.

NEW SECTION. Sec. 14. JURISDICTIONS' REVIEW AND PENALTIES. (1) Each jurisdiction implementing a commute trip reduction plan under this chapter or as part of a plan or ordinance developed under RCW 36.70A.070 shall review each employer's initial commute trip reduction program to determine if the program is likely to meet the applicable commute trip reduction goals. The employer shall be notified

by the jurisdiction of its findings. If the jurisdiction finds that the program is not likely to meet the applicable commute trip reduction goals, the jurisdiction will work with the employer to modify the program as necessary. The jurisdiction shall complete review of each employer's initial commute trip reduction program within three months of receipt.

(2) Each jurisdiction shall annually review each employer's progress toward meeting the applicable commute trip reduction goals. If it appears an employer is not likely to meet the applicable commute trip reduction goals, the jurisdiction shall work with the employer to make modifications to the commute trip reduction program.

(3) If an employer fails to meet the applicable commute trip reduction goals, the jurisdiction shall propose modifications to the program and direct the employer to revise its program within thirty days to incorporate those modifications or modifications which the jurisdiction determines to be equivalent.

(4) Each jurisdiction implementing a commute trip reduction plan pursuant to this chapter may impose civil penalties, in the manner provided in chapter 7.80 RCW, for failure by an employer to implement a commute trip reduction program or to modify its commute trip reduction program as required in subsection (3) of this section. No major employer shall be liable for civil penalties under this chapter if failure to achieve a commute trip reduction program goal was the result of an inability to reach agreement with a certified collective bargaining agent under applicable laws where the issue was raised by the employer and pursued in good faith.

NEW SECTION. Sec. 15. (1) A twenty-three member state commute trip reduction task force shall be established as follows:

(a) The director of the state energy office or the director's designee who shall serve as chair;

(b) The secretary of the department of transportation or the secretary's designee;

(c) The director of the department of ecology or the director's designee;

(d) The director of the department of community development or the director's designee;

(e) The director of the department of general administration or the director's designee;

(f) Three representatives from counties appointed by the governor from a list of at least six recommended by the Washington state association of counties;

(g) Three representatives from cities and towns appointed by the governor from a list of at least six recommended by the association of Washington cities;

(h) Three representatives from transit agencies appointed by the governor from a list of at least six recommended by the Washington state transit association;

(i) Six representatives of major employers in Washington appointed by the governor from a list of at least twelve recommended by the association of Washington business; and

(j) Three citizens appointed by the governor.

Members of the commute trip reduction task force shall serve without compensation but shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060. Members appointed by the governor shall be compensated in accordance with RCW 43.03.220. The task force has all powers necessary to carry out its duties as prescribed by this chapter. The task force shall be dissolved on July 1, 2000.

(2) By March 1, 1992, the commute trip reduction task force shall establish guidelines for commute trip reduction plans. The guidelines are intended to ensure consistency in commute trip reduction plans and goals among jurisdictions while fairly taking into account differences in employment and housing density, employer size, existing and anticipated levels of transit service, special employer circumstances, and other factors the task force determines to be relevant. The guidelines shall include:

(a) Criteria for establishing commute trip reduction zones;

(b) Methods and information requirements for determining base year values of the proportion of single-occupant vehicle commute trips and the commute trip vehicle miles traveled per employee and progress toward meeting commute trip reduction plan goals;

(c) Model commute trip reduction ordinances;

(d) Methods for assuring consistency in the treatment of employers who have worksites subject to the requirements of this chapter in more than one jurisdiction;

(e) An appeals process by which major employers, who as a result of special characteristics of their business or its locations would be unable to meet the requirements of a commute trip reduction plan, may obtain a waiver or modification of those requirements and criteria for determining eligibility for waiver or modification;

(f) Methods to ensure that employers shall receive full credit for the results of transportation demand management efforts and commute trip reduction programs which have been implemented by major employers prior to the base year;

(g) Alternative commute trip reduction goals for major employers which cannot meet the goals of this chapter because of the unique nature of their business; and

(h) Alternative commute trip reduction goals for major employers whose worksites change and who contribute substantially to traffic congestion in a trip reduction zone.

(3) The task force shall review progress toward implementing commute trip reduction plans and programs and the costs and benefits of commute trip reduction plans and programs and shall make recommendations to the legislature by December 1, 1995, and December 1, 1999. In assessing the costs and benefits, the task force shall consider the costs of not having implemented commute trip reduction plans and programs. The task force shall examine other transportation demand management programs nationally and incorporate its findings into its recommendations to the legislature. The recommendations shall address the need for continuation, modification, or termination or any or all requirements of this chapter. The recommendations made December 1, 1995, shall include recommendations regarding extension of the requirements of this chapter to employers with fifty or more full-time employees at a single worksite who begin their regular work day between 6:00 a.m. and 9:00 a.m. on weekdays for more than twelve continuous months.

NEW SECTION. Sec. 16. TECHNICAL ASSISTANCE TEAM. (1) A technical assistance team shall be established under the direction of the state energy office and include representatives of the departments of transportation and ecology. The team shall provide staff support to the commute trip reduction task force in carrying out the requirements of section 15 of this act and to the department of general administration in carrying out the requirements of section 19 of this act.

(2) The team shall provide technical assistance to counties, cities, and towns, the department of general administration, other state agencies, and other employers in developing and implementing commute trip reduction plans and programs. The technical assistance shall include: (a) Guidance in determining base and subsequent year values of single occupant vehicle commuting proportion and commute trip reduction vehicle miles traveled to be used in determining progress in attaining plan goals; (b) developing model plans and programs appropriate to different situations; and (c) providing consistent training and informational materials for the implementation of commute trip reduction programs. Model plans and programs, training and informational materials shall be developed in cooperation with representatives of local governments, transit agencies, and employers.

(3) In carrying out this section the state energy office and department of transportation may contract with state-wide associations representing cities, towns, and counties to assist cities, towns, and counties in implementing commute trip reduction plans and programs.

NEW SECTION. Sec. 17. USE OF FUNDS. A portion of the funds made available for the purposes of this chapter shall be used to fund the commute trip reduction task force in carrying out the responsibilities of section 16 of this act, and

the interagency technical assistance team, including the activities authorized under section 16(2) of this act, and to assist counties, cities, and towns implementing commute trip reduction plans. Funds shall be provided to the counties in proportion to the number of major employers and major worksites in each county. The counties shall provide funds to cities and towns within the county which are implementing commute trip reduction plans in proportion to the number of major employers and major worksites within the city or town.

NEW SECTION. Sec. 18. LEGISLATIVE INTENT--STATE LEADERSHIP. The legislature hereby recognizes the state's crucial leadership role in establishing and implementing effective commute trip reduction programs. Therefore, it is the policy of the state that the department of general administration and other state agencies shall aggressively develop substantive programs to reduce commute trips by state employees. Implementation of these programs will reduce energy consumption, congestion in urban areas, and air and water pollution associated with automobile travel.

NEW SECTION. Sec. 19. GENERAL ADMINISTRATION. (1) The director of general administration, with the concurrence of an interagency task force established for the purposes of this section, shall coordinate a commute trip reduction plan for state agencies which are phase 1 major employers by January 1, 1993. The task force shall include representatives of the state energy office, the departments of transportation and ecology and such other departments as the director of general administration determines to be necessary to be generally representative of state agencies. The state agency plan shall be consistent with the requirements of sections 12 and 13 of this act and shall be developed in consultation with state employees, local and regional governments, local transit agencies, the business community, and other interested groups. The plan shall consider and recommend policies applicable to all state agencies including but not limited to policies regarding parking and parking charges, employee incentives for commuting by other than single-occupant automobiles, flexible and alternative work schedules, alternative worksites, and the use of state-owned vehicles for car and van pools. The plan shall also consider the costs and benefits to state agencies of achieving commute trip reductions and consider mechanisms for funding state agency commute trip reduction programs. The department shall, within thirty days, submit a summary of its plan along with certification of adoption to the commute trip reduction task force established under section 15 of this act.

(2) Not more than three months after the adoption of the commute trip reduction plan, each state agency shall, for each facility which is a major employer, develop a commute trip reduction program. The program shall be designed to meet the goals of the commute trip reduction plan of the county, city, or town or, if there is no local commute trip reduction plan, the state. The program shall be consistent with the policies of the state commute trip reduction plan and section 13 of this act. The agency shall submit a description of that program to the local jurisdiction implementing a commute trip reduction plan or, if there is no local commute trip reduction plan, to the department of general administration. The program shall be implemented not more than three months after submission to the department. Annual reports required in section 13(2)(c) of this act shall be submitted to the local jurisdiction implementing a commute trip reduction plan and to the department of general administration. An agency which is not meeting the applicable commute trip reduction goals shall, to the extent possible, modify its program to comply with the recommendations of the local jurisdiction or the department of general administration.

(3) State agencies sharing a common location may develop and implement a joint commute trip reduction program or may delegate the development and implementation of the commute trip reduction program to the department of general administration.

(4) The department of general administration in consultation with the state technical assistance team shall review the initial commute trip reduction program of each state agency subject to the commute trip reduction plan for state agencies to

determine if the program is likely to meet the applicable commute trip reduction goals and notify the agency of any deficiencies. If it is found that the program is not likely to meet the applicable commute trip reduction goals, the team will work with the agency to modify the program as necessary.

(5) For each agency subject to the state agency commute trip reduction plan, the department of general administration in consultation with the technical assistance team shall annually review progress toward meeting the applicable commute trip reduction goals. If it appears an agency is not meeting or is not likely to meet the applicable commute trip reduction goals, the team shall work with the agency to make modifications to the commute trip reduction program.

(6) The department of general administration shall submit an annual progress report for state agencies subject to the state agency commute trip reduction plan to the commute trip reduction task force established under section 15 of this act. The report shall be due April 1, 1993, and each April 1 through 2000. The report shall report progress in attaining the applicable commute trip reduction goals for each commute trip reduction zone and shall highlight any problems being encountered in achieving the goals. The information shall be reported in a form established by the commute trip reduction task force.

NEW SECTION. Sec. 20. CODIFICATION. Sections 1 through 9 of this act shall constitute a new chapter in Title 47 RCW.

NEW SECTION. Sec. 21. CODIFICATION. Sections 10 through 19 of this act shall constitute a new chapter in Title 81 RCW.

NEW SECTION. Sec. 22. HEADINGS. Section captions and part headings as used in this act do not constitute any part of the law.

NEW SECTION. Sec. 23. TDM--NULL AND VOID. If funding for the purposes of sections 10 through 19 of this act is not provided by June 30, 1991, sections 10 through 19 and 21 of this act shall be null and void.

NEW SECTION. Sec. 24. EMERGENCY CLAUSE. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1991.

NEW SECTION. Sec. 25. SEVERABILITY CLAUSE. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 1. A new section is added to chapter 70.38 RCW to read as follows:

(1) The legislature recognizes that in this state ethnic minorities currently use nursing home care at a lower rate than the general population. The legislature also recognizes and supports the federal mandate that nursing homes receiving federal funds provide residents with a homelike environment. The legislature finds that certain ethnic minorities have special cultural, language, dietary, and other needs not generally met by existing nursing homes which are intended to serve the general population. Accordingly, the legislature further finds that there is a need to foster the development of nursing homes designed to serve the special cultural, language, dietary, and other needs of ethnic minorities.

(2) The department shall establish a separate pool of no more than two hundred fifty beds for nursing homes designed to serve the special needs of ethnic minorities. The pool shall be made up of nursing home beds that become available on or after March 15, 1991, due to:

(a) Loss of license or reduction in licensed bed capacity if the beds are not otherwise obligated for replacement; or

(b) Expiration of a certificate of need.

(3) The department shall develop procedures for the fair and efficient award of beds from the special pool. In making its decisions regarding the award of beds from the pool, the department shall consider at least the following:

(a) The relative degree to which the long-term care needs of an ethnic minority are not otherwise being met;

(b) The percentage of low-income persons who would be served by the proposed nursing home;

(c) The financial feasibility of the proposed nursing home; and

(d) The impact of the proposal on the area's total need for nursing home beds.

(4) To be eligible to apply for or receive an award of beds from the special pool, an application must be to build a new nursing home, or add beds to a nursing home, that:

(a) Will be owned and operated by a nonprofit corporation, and at least fifty percent of the board of directors of the corporation are members of the ethnic minority the nursing home is intended to serve;

(b) Will be designed, managed, and administered to serve the special cultural, language, dietary, and other needs of an ethnic minority; and

(c) Will not discriminate in admissions against persons who are not members of the ethnic minority whose special needs the nursing home is designed to serve.

(5) If a nursing home or portion of a nursing home that is built as a result of an award from the special pool is sold or leased within ten years to a party not eligible under subsection (4) of this section:

(a) The purchaser or lessee may not operate those beds as nursing home beds without first obtaining a certificate of need for new beds under this chapter; and

(b) The beds that had been awarded from the special pool shall be returned to the special pool.

(6) The department shall initially award up to one hundred beds before that number of beds are actually in the special pool, provided that the number of beds so awarded are subtracted from the total of two hundred fifty beds that can be awarded from the special pool.

NEW SECTION. Sec. 2. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

NEW SECTION. Sec. 3. If specific funding for the purposes of this act, referencing this act by bill number, is not provided by June 30, 1991, in the omnibus appropriations act, this act shall be null and void.

The home detention program may also be made available to offenders whose charges and convictions do not otherwise disqualify them if medical or health-related conditions, concerns or treatment would be better addressed under the home detention program, or where the health and welfare of the offender, other inmates, or staff would be jeopardized by the offender's incarceration. Participation in the home detention program for medical or health-related reasons is conditioned on the offender abiding by the rules of the home detention program and complying with court-ordered restitution.

NEW SECTION. Sec. 2. A new section is added to chapter 9.94A RCW to read as follows:

Participation in a work crew is conditioned upon the offender's acceptance into the program, abstinence from alcohol and controlled substances as demonstrated by urinalysis and breathalyzer monitoring, with the cost of monitoring to be paid by the offender, unless indigent; and upon compliance with the rules of the program, which

rules shall include the requirements that the offender work to the best of his or her abilities and that he or she provide the program with accurate, verified residence information. Work crew may be imposed simultaneously with electronic home detention.

Where work crew is imposed as part of a sentence of nine months or more, the offender must serve a minimum of thirty days of total confinement before being eligible for work crew.

An offender who has successfully completed four weeks of work crew at thirty-five hours per week shall thereafter receive credit toward the work crew sentence for hours worked at approved, verified employment. Such employment credit may be earned for up to twenty-four hours actual employment per week provided, however, that every such offender shall continue active participation in work crews projects according to a schedule approved by a work crew supervisor until the work crew sentence has been served.

The hours served as part of a work crew sentence may include substance abuse counseling and/or job skills training.

The civic improvement tasks performed by offenders on work crew shall be unskilled labor for the benefit of the community as determined by the head of the county executive branch or his or her designee. Civic improvement tasks shall not be done on private property unless it is owned or operated by a nonprofit entity, except that, for emergency purposes only, work crews may perform snow removal on any private property. The civic improvement tasks shall have minimal negative impact on existing private industries or the labor force in the county where the service or labor is performed. The civic improvement tasks shall not affect employment opportunities for people with developmental disabilities contracted through sheltered workshops as defined in RCW 82.04.385. In case any dispute arises as to a civic improvement task having more than minimum negative impact on existing private industries or labor force in the county where their service or labor is performed, the matter shall be referred by an interested party, as defined in RCW 39.12.010(4), for arbitration to the director of the department of labor and industries of the state.

Whenever an offender receives credit against a work crew sentence for hours of approved, verified employment, the offender shall pay to the department administering the program the monthly assessment of an amount not less than ten dollars per month nor more than fifty dollars per month. This assessment shall be considered payment of the costs of providing the work crew program to an offender. The court may exempt a person from the payment of all or any part of the assessment based upon any of the following factors:

(1) The offender has diligently attempted but has been unable to obtain employment that provided the offender sufficient income to make such payment.

(2) The offender is a student in a school, college, university, or a course of vocational or technical training designed to fit the student for gainful employment.

(3) The offender has an employment handicap, as determined by an examination acceptable to or ordered by the court.

(4) The offender is responsible for the support of dependents and the payment of the assessment constitutes an undue hardship.

(5) Other extenuating circumstances as determined by the court. RCW 9.94A.120 and 1990 c 3 s 705 are each amended to read as follows:

When a person is convicted of a felony, the court shall impose punishment as provided in this section.

(1) Except as authorized in subsections (2), (5), and (7) of this section, the court shall impose a sentence within the sentence range for the offense.

(2) The court may impose a sentence outside the standard sentence range for that offense if it finds, considering the purpose of this chapter, that there are substantial and compelling reasons justifying an exceptional sentence.

(3) Whenever a sentence outside the standard range is imposed, the court shall set forth the reasons for its decision in written findings of fact and conclusions of law. A sentence outside the standard range shall be a determinate sentence.

(4) An offender convicted of the crime of murder in the first degree shall be sentenced to a term of total confinement not less than twenty years. An offender convicted of the crime of assault in the first degree where the offender used force or means likely to result in death or intended to kill the victim shall be sentenced to a term of total confinement not less than five years. An offender convicted of the crime of rape in the first degree shall be sentenced to a term of total confinement not less than five years, and shall not be eligible for furlough, work release or other authorized leave of absence from the correctional facility during such minimum five-year term except for the purpose of commitment to an inpatient treatment facility. The foregoing minimum terms of total confinement are mandatory and shall not be varied or modified as provided in subsection (2) of this section.

(5) In sentencing a first-time offender the court may waive the imposition of a sentence within the sentence range and impose a sentence which may include up to ninety days of confinement in a facility operated or utilized under contract by the county and a requirement that the offender refrain from committing new offenses. The sentence may also include up to two years of community supervision, which, in addition to crime-related prohibitions, may include requirements that the offender perform any one or more of the following:

- (a) Devote time to a specific employment or occupation;
- (b) Undergo available outpatient treatment for up to two years, or inpatient treatment not to exceed the standard range of confinement for that offense;
- (c) Pursue a prescribed, secular course of study or vocational training;
- (d) Remain within prescribed geographical boundaries and notify the court or the community corrections officer prior to any change in the offender's address or employment;
- (e) Report as directed to the court and a community corrections officer; or
- (f) Pay all court-ordered legal financial obligations as provided in RCW 9.94A.030 and/or perform community service work.

(6) If a sentence range has not been established for the defendant's crime, the court shall impose a determinate sentence which may include not more than one year of confinement, community service work, a term of community supervision not to exceed one year, and/or other legal financial obligations. The court may impose a sentence which provides more than one year of confinement if the court finds, considering the purpose of this chapter, that there are substantial and compelling reasons justifying an exceptional sentence.

(7)(a)(i) When an offender is convicted of a sex offense other than a violation of RCW 9A.44.050 or a sex offense that is also a serious violent offense and has no prior convictions for a sex offense or any other felony sex offenses in this or any other state, the sentencing court, on its own motion or the motion of the state or the defendant, may order an examination to determine whether the defendant is amenable to treatment.

The report of the examination shall include at a minimum the following: The defendant's version of the facts and the official version of the facts, the defendant's offense history, an assessment of problems in addition to alleged deviant behaviors, the offender's social and employment situation, and other evaluation measures used. The report shall set forth the sources of the evaluator's information.

The examiner shall assess and report regarding the defendant's amenability to treatment and relative risk to the community. A proposed treatment plan shall be provided and shall include, at a minimum:

- (A) Frequency and type of contact between offender and therapist;

(B) Specific issues to be addressed in the treatment and description of planned treatment modalities;

(C) Monitoring plans, including any requirements regarding living conditions, lifestyle requirements, and monitoring by family members and others;

(D) Anticipated length of treatment; and

(E) Recommended crime-related prohibitions.

The court on its own motion may order, or on a motion by the state shall order, a second examination regarding the offender's amenability to treatment. The evaluator shall be selected by the party making the motion. The defendant shall pay the cost of any second examination ordered unless the court finds the defendant to be indigent in which case the state shall pay the cost.

(ii) After receipt of the reports, the court shall consider whether the offender and the community will benefit from use of this special sexual offender sentencing alternative and consider the victim's opinion whether the offender should receive a treatment disposition under this subsection. If the court determines that this special sex offender sentencing alternative is appropriate, the court shall then impose a sentence within the sentence range. If this sentence is less than eight years of confinement, the court may suspend the execution of the sentence and impose the following conditions of suspension:

(A) The court shall place the defendant on community supervision for the length of the suspended sentence or three years, whichever is greater; and

(B) The court shall order treatment for any period up to three years in duration. The court in its discretion shall order outpatient sex offender treatment or inpatient sex offender treatment, if available. A community mental health center may not be used for such treatment unless it has an appropriate program designed for sex offender treatment. The offender shall not change sex offender treatment providers or treatment conditions without first notifying the prosecutor, the community corrections officer, and the court, and shall not change providers without court approval after a hearing if the prosecutor or community corrections officer object to the change. In addition, as conditions of the suspended sentence, the court may impose other sentence conditions including up to six months of confinement, not to exceed the sentence range of confinement for that offense, crime-related prohibitions, and requirements that the offender perform any one or more of the following:

(I) Devote time to a specific employment or occupation;

(II) Remain within prescribed geographical boundaries and notify the court or the community corrections officer prior to any change in the offender's address or employment;

(III) Report as directed to the court and a community corrections officer;

(IV) Pay all court-ordered legal financial obligations as provided in RCW 9.94A.030, perform community service work, or any combination thereof; or

(V) Make recoupment to the victim for the cost of any counseling required as a result of the offender's crime.

(iii) The sex offender therapist shall submit quarterly reports on the defendant's progress in treatment to the court and the parties. The report shall reference the treatment plan and include at a minimum the following: Dates of attendance, defendant's compliance with requirements, treatment activities, the defendant's relative progress in treatment, and any other material as specified by the court at sentencing.

(iv) At the time of sentencing, the court shall set a treatment termination hearing for three months prior to the anticipated date for completion of treatment. Prior to the treatment termination hearing, the treatment professional and community corrections officer shall submit written reports to the court and parties regarding the defendant's compliance with treatment and monitoring requirements, and recommendations regarding termination from treatment, including proposed community supervision conditions. Either party may request and the court may order another evaluation regarding the

advisability of termination from treatment. The defendant shall pay the cost of any additional evaluation ordered unless the court finds the defendant to be indigent in which case the state shall pay the cost. At the treatment termination hearing the court may: (A) Modify conditions of community supervision, and either (B) terminate treatment, or (C) extend treatment for up to the remaining period of community supervision.

(v) The court may revoke the suspended sentence at any time during the period of community supervision and order execution of the sentence if: (A) The defendant violates the conditions of the suspended sentence, or (B) the court finds that the defendant is failing to make satisfactory progress in treatment. All confinement time served during the period of community supervision shall be credited to the offender if the suspended sentence is revoked.

(vi) After July 1, 1991, examinations and treatment ordered pursuant to this subsection shall only be conducted by sex offender treatment providers certified by the department of health pursuant to chapter 18.155 RCW.

For purposes of this subsection, "victim" means any person who has sustained emotional, psychological, physical, or financial injury to person or property as a result of the crime charged. "Victim" also means a parent or guardian of a victim who is a minor child unless the parent or guardian is the perpetrator of the offense.

(b) When an offender is convicted of any felony sex offense committed before July 1, 1987, and is sentenced to a term of confinement of more than one year but less than six years, the sentencing court may, on its own motion or on the motion of the offender or the state, order the offender committed for up to thirty days to the custody of the secretary of social and health services for evaluation and report to the court on the offender's amenability to treatment at these facilities. If the secretary of social and health services cannot begin the evaluation within thirty days of the court's order of commitment, the offender shall be transferred to the state for confinement pending an opportunity to be evaluated at the appropriate facility. The court shall review the reports and may order that the term of confinement imposed be served in the sexual offender treatment program at the location determined by the secretary of social and health services or the secretary's designee, only if the report indicates that the offender is amenable to the treatment program provided at these facilities. The offender shall be transferred to the state pending placement in the treatment program. Any offender who has escaped from the treatment program shall be referred back to the sentencing court.

If the offender does not comply with the conditions of the treatment program, the secretary of social and health services may refer the matter to the sentencing court. The sentencing court shall commit the offender to the department of corrections to serve the balance of the term of confinement.

If the offender successfully completes the treatment program before the expiration of the term of confinement, the court may convert the balance of confinement to community supervision and may place conditions on the offender including crime-related prohibitions and requirements that the offender perform any one or more of the following:

- (i) Devote time to a specific employment or occupation;
- (ii) Remain within prescribed geographical boundaries and notify the court or the community corrections officer prior to any change in the offender's address or employment;
- (iii) Report as directed to the court and a community corrections officer;
- (iv) Undergo available outpatient treatment.

If the offender violates any of the terms of community supervision, the court may order the offender to serve out the balance of the community supervision term in confinement in the custody of the department of corrections.

After June 30, 1993, this subsection (b) shall cease to have effect.

(c) When an offender commits any felony sex offense on or after July 1, 1987, and is sentenced to a term of confinement of more than one year but less than six years, the sentencing court may, on its own motion or on the motion of the offender or the state, request the department of corrections to evaluate whether the offender is amenable to treatment and the department may place the offender in a treatment program within a correctional facility operated by the department.

Except for an offender who has been convicted of a violation of RCW 9A.44.040 or 9A.44.050, if the offender completes the treatment program before the expiration of his term of confinement, the department of corrections may request the court to convert the balance of confinement to community supervision and to place conditions on the offender including crime-related prohibitions and requirements that the offender perform any one or more of the following:

(i) Devote time to a specific employment or occupation;

(ii) Remain within prescribed geographical boundaries and notify the court or the community corrections officer prior to any change in the offender's address or employment;

(iii) Report as directed to the court and a community corrections officer;

(iv) Undergo available outpatient treatment.

If the offender violates any of the terms of his community supervision, the court may order the offender to serve out the balance of his community supervision term in confinement in the custody of the department of corrections.

Nothing in (c) of this subsection shall confer eligibility for such programs for offenders convicted and sentenced for a sex offense committed prior to July 1, 1987. This subsection (c) does not apply to any crime committed after July 1, 1990.

(d) Offenders convicted and sentenced for a sex offense committed prior to July 1, 1987, may, subject to available funds, request an evaluation by the department of corrections to determine whether they are amenable to treatment. If the offender is determined to be amenable to treatment, the offender may request placement in a treatment program within a correctional facility operated by the department. Placement in such treatment program is subject to available funds.

(8)(a) When a court sentences a person to a term of total confinement to the custody of the department of corrections for an offense categorized as a sex offense or a serious violent offense committed after July 1, 1988, but before July 1, 1990, assault in the second degree, any crime against a person where it is determined in accordance with RCW 9.94A.125 that the defendant or an accomplice was armed with a deadly weapon at the time of commission, or any felony offense under chapter 69.50 or 69.52 RCW, committed on or after July 1, 1988, the court shall in addition to the other terms of the sentence, sentence the offender to a one-year term of community placement beginning either upon completion of the term of confinement or at such time as the offender is transferred to community custody in lieu of earned early release in accordance with RCW 9.94A.150 (1) and (2). When the court sentences an offender under this subsection to the statutory maximum period of confinement then the community placement portion of the sentence shall consist entirely of such community custody to which the offender may become eligible, in accordance with RCW 9.94A.150 (1) and (2). Any period of community custody actually served shall be credited against the community placement portion of the sentence.

(b) When a court sentences a person to a term of total confinement to the custody of the department of corrections for an offense categorized as a sex offense or serious violent offense committed on or after July 1, 1990, the court shall in addition to other terms of the sentence, sentence the offender to community placement for two years or up to the period of earned early release awarded pursuant to RCW 9.94A.150 (1) and (2), whichever is longer. The community placement shall begin either upon completion of the term of confinement or at such time as the offender is transferred to community custody in lieu of earned early release in accordance with

RCW 9.94A.150 (1) and (2). When the court sentences an offender under this subsection to the statutory maximum period of confinement then the community placement portion of the sentence shall consist entirely of the community custody to which the offender may become eligible, in accordance with RCW 9.94A.150 (1) and (2). Any period of community custody actually served shall be credited against the community placement portion of the sentence. Unless a condition is waived by the court, the terms of community placement for offenders sentenced pursuant to this section shall include the following conditions:

(i) The offender shall report to and be available for contact with the assigned community corrections officer as directed;

(ii) The offender shall work at department of corrections-approved education, employment, and/or community service;

(iii) The offender shall not consume controlled substances except pursuant to lawfully issued prescriptions;

(iv) An offender in community custody shall not unlawfully possess controlled substances; and

(v) The offender shall pay supervision fees as determined by the department of corrections.

(c) The court may also order any of the following special conditions:

(i) The offender shall remain within, or outside of, a specified geographical boundary;

(ii) The offender shall not have direct or indirect contact with the victim of the crime or a specified class of individuals;

(iii) The offender shall participate in crime-related treatment or counseling services;

(iv) The offender shall not consume alcohol;

(v) The residence location and living arrangements of a sex offender shall be subject to the prior approval of the department of corrections; or

(vi) The offender shall comply with any crime-related prohibitions.

(d) Prior to transfer to, or during, community placement, any conditions of community placement may be removed or modified so as not to be more restrictive by the sentencing court, upon recommendation of the department of corrections.

(9) If the court imposes a sentence requiring confinement of thirty days or less, the court may, in its discretion, specify that the sentence be served on consecutive or intermittent days. A sentence requiring more than thirty days of confinement shall be served on consecutive days. Local jail administrators may schedule court-ordered intermittent sentences as space permits.

(10) If a sentence imposed includes payment of a legal financial obligation, the sentence shall specify the total amount of the legal financial obligation owed, and shall require the offender to pay a specified monthly sum toward that legal financial obligation. Restitution to victims shall be paid prior to any other payments of monetary obligations. Any legal financial obligation that is imposed by the court may be collected by the department, which shall deliver the amount paid to the county clerk for credit. The offender's compliance with payment of legal financial obligations shall be supervised by the department. All monetary payments ordered shall be paid no later than ten years after the last date of release from confinement pursuant to a felony conviction or the date the sentence was entered. Independent of the department, the party or entity to whom the legal financial obligation is owed shall have the authority to utilize any other remedies available to the party or entity to collect the legal financial obligation. Nothing in this section makes the department, the state, or any of its employees, agents, or other persons acting on their behalf liable under any circumstances for the payment of these legal financial obligations. If an order includes restitution as one of the monetary assessments, the county clerk shall make disbursements to victims named in the order.

(11) Except as provided under RCW 9.94A.140(1) and 9.94A.142(1), a court may not impose a sentence providing for a term of confinement or community supervision or community placement which exceeds the statutory maximum for the crime as provided in chapter 9A.20 RCW.

(12) All offenders sentenced to terms involving community supervision, community service, community placement, or legal financial obligation shall be under the supervision of the secretary of the department of corrections or such person as the secretary may designate and shall follow explicitly the instructions of the secretary including reporting as directed to a community corrections officer, remaining within prescribed geographical boundaries, and notifying the community corrections officer of any change in the offender's address or employment.

(13) The sentencing court shall give the offender credit for all confinement time served before the sentencing if that confinement was solely in regard to the offense for which the offender is being sentenced.

(14) A departure from the standards in RCW 9.94A.400 (1) and (2) governing whether sentences are to be served consecutively or concurrently is an exceptional sentence subject to the limitations in subsections (2) and (3) of this section, and may be appealed by the defendant or the state as set forth in RCW 9.94A.210 (2) through (6).

(15) The court shall order restitution whenever the offender is convicted of a felony that results in injury to any person or damage to or loss of property, whether the offender is sentenced to confinement or placed under community supervision, unless extraordinary circumstances exist that make restitution inappropriate in the court's judgment. The court shall set forth the extraordinary circumstances in the record if it does not order restitution.

(16) As a part of any sentence, the court may impose and enforce an order that relates directly to the circumstances of the crime for which the offender has been convicted, prohibiting the offender from having any contact with other specified individuals or a specific class of individuals for a period not to exceed the maximum allowable sentence for the crime, regardless of the expiration of the offender's term of community supervision or community placement.

(17) In any sentence of partial confinement, the court may require the defendant to serve the partial confinement in work release ~~(or)~~, in a program of home detention, on work crew, or in a combined program of work crew and home detention.

(18) All court-ordered legal financial obligations collected by the department and remitted to the county clerk shall be credited and paid where restitution is ordered. Restitution shall be paid prior to any other payments of monetary obligations.

Sec. 3. RCW 9.94A.180 and 1988 c 154 s 4 are each amended to read as follows:

(1) An offender sentenced to a term of partial confinement shall be confined in the facility for at least eight hours per day or, if serving a work crew sentence shall comply with the conditions of that sentence as set forth in RCW 9.94A.030(23) and section 2 of this act. The offender shall be required as a condition of partial confinement to report to the facility at designated times. An offender may be required to comply with crime-related prohibitions during the period of partial confinement.

(2) An offender in a county jail ordered to serve all or part of a term of less than one year in work release, work crew, or a program of home detention who violates the rules of the work release facility, work crew, or program of home detention or fails to remain employed or enrolled in school may be transferred to the appropriate county detention facility without further court order but shall, upon request, be notified of the right to request an administrative hearing on the issue of whether or not the offender failed to comply with the order and relevant conditions. Pending such hearing, or in the absence of a request for the hearing, the offender shall serve the remainder of the term of confinement as total confinement. This subsection shall not affect transfer or

placement of offenders committed to the state department of corrections. RCW 9.94A.190 and 1988 c 154 s 5 are each amended to read as follows:

(1) A sentence that includes a term or terms of confinement totaling more than one year shall be served in a facility or institution operated, or utilized under contract, by the state. Except as provided for in subsection (3) of this section, a sentence of not more than one year of confinement shall be served in a facility operated, licensed, or utilized under contract, by the county, or if home detention or work crew has been ordered by the court, in the residence of either the defendant or a member of the defendant's immediate family.

(2) If a county uses a state partial confinement facility for the partial confinement of a person sentenced to confinement for not more than one year, the county shall reimburse the state for the use of the facility as provided for in this subsection. The office of financial management shall set the rate of reimbursement based upon the average per diem cost per offender in the facility. The office of financial management shall determine to what extent, if any, reimbursement shall be reduced or eliminated because of funds provided by the legislature to the department of corrections for the purpose of covering the cost of county use of state partial confinement facilities. The office of financial management shall reestablish reimbursement rates each even-numbered year.

(3) A person who is sentenced for a felony to a term of not more than one year, and who is committed or returned to incarceration in a state facility on another felony conviction, either under the indeterminate sentencing laws, chapter 9.95 RCW, or under this chapter shall serve all terms of confinement, including a sentence of not more than one year, in a facility or institution operated, or utilized under contract, by the state, consistent with the provisions of RCW 9.94A.400, RCW 9A.76.010 and 1979 c 155 s 35 are each amended to read as follows:

The following definitions are applicable in this chapter unless the context otherwise requires:

(1) "Custody" means restraint pursuant to a lawful arrest or an order of a court, or any period of service on a work crew: PROVIDED, That custody pursuant to chapter 13.34 RCW and RCW 74.13.020 and 74.13.031 and chapter 13.32A RCW shall not be deemed custody for purposes of this chapter;

RULING BY THE PRESIDENT

President Pritchard: "In ruling upon the point of order raised by Senator Murray to the scope and object of the amendment by Senators Nelson and Vognild to the Committee on Governmental Operations striking amendment, the President finds that Substitute House Bill No. 1275 is a broad measure dealing with local government. The bill addresses many subjects: Elections, Open Public Meetings, Public Records Exceptions, Changes in Civil Service Laws, Employee Salaries and Disposal of Public Property.

"In addition, amendments previously adopted by the Senate have further expanded the bill by: Changing the law on formation of public hospital districts; amending procedures relative to certain tax levies authorized by voter approval; allowing counties greater flexibility in awarding competitive bids for the procurement of road maintenance materials; and changing the law on incorporation elections.

"The bill, and the amendments, address local government and have the effect of increasing authority and flexibility of local governments in the administration of their respective jurisdictions.

"The amendment by Senators Nelson and Vognild to the Committee on Governmental Operations amendment would regulate adult entertainment businesses and make local governments partners with the state in this effort. The amendment would, among other things: Grant local authority to exclude these businesses through zoning; allow, under certain circumstances, towns, cities and counties to establish buffer zones; permit a city, town or county to register, license or tax these businesses; allow a local government agency to file written complaints with the state; allow county prosecuting attorneys to seek injunctive relief on the issue of business licensing; grant immunity to local governments who enforce or administer this new chapter and allow a city, town, or county to request state legal assistance if forced to defend the new law's constitutionality.

"The President believes that the amendment, while introducing yet another subject to the bill, establishes the rights and responsibilities of local government in regulating and enforcing laws on certain businesses which are, or seek to be, located within their jurisdictions.

"The President, therefore, finds the proposed amendment, to the committee amendment, does not change the scope and object of the bill and the point of order is not well taken."

The amendment by Senators Nelson and Vognild beginning on page 32, after line 13, to the Committee on Governmental Operations striking amendment to Substitute House Bill No. 1275 was ruled in order.

RULING BY THE VICE PRESIDENT PRO TEMPORE

Vice President Pro Tempore Bluechel: "In ruling on the point of order raised by Senator Craswell, the President finds that Engrossed Substitute House Bill No. 1608 is a broad measure which relates to several residential and treatment services provided by the Department of Social and Health Services for children and youth. Services include therapeutic family homes, crisis residential centers, drug and street gang activity and foster and groups care.

"The amendment by Senator Talmadge to the Committee on Children and Family Services amendment would direct the Department of Social and Health Services to establish a complaint resolution process related to foster and relative care.

"The President, therefore, finds that the proposed amendment does not change the scope and object of the bill and the point of order is not well taken."

POINT OF ORDER

Senator McMullen: "Mr. President, a point of order. We would like to ask a ruling on whether or not this amendment falls within the scope and objection of the underlying bill."

Further debate ensued.

There being no objection, the President deferred further consideration of Substitute House Bill No. 1704.

There being no objection, the Senate resumed consideration of Substitute House Bill No. 1275 and the pending Committee on Governmental Operations striking amendment, as amended, deferred earlier today.

MOTION

Senator McCaslin moved that the following amendment by Senators McCaslin and Madsen to the Committee on Governmental Operations amendment be adopted:

On page 32, after line 13, insert the following:

Sec. 29. RCW 35.14.010 and 1985 c 281 s 24 are each amended to read as follows:

Whenever unincorporated territory is annexed by a city or town pursuant to the provisions of chapter 35.13 RCW, or whenever unincorporated territory is annexed to a code city pursuant to the provisions of chapter 35A.14 RCW, community municipal corporations may be organized ((in the manner provided for in this 1967 amendatory act)) for the territory comprised of all or a part of an unincorporated area annexed to a city or town pursuant to chapter 35.13 or 35A.14 RCW, if: (1) The service area is such as would be eligible for incorporation as a city or town; or (2) the service area has a minimum population of not less than three hundred inhabitants and ten percent of the population of the annexing city or town; or (3) the service area has a minimum population of not less than one thousand inhabitants.

Whenever two or more cities are consolidated pursuant to the provisions of chapter 35.10 RCW, a community municipal corporation may be organized within one or more of the consolidating cities.

No territory shall be included in the service area of more than one community municipal corporation. Whenever a new community municipal corporation is formed embracing all of the territory of an existing community municipal corporation, the prior existing community municipal corporation shall be deemed to be dissolved on the effective date of the new corporation.

NEW SECTION. Sec. 30. A new section is added to chapter 35.10 RCW to read as follows:

Voters of one or more of the cities that are proposed to be consolidated may have a ballot proposition submitted to them authorizing the simultaneous creation of a community municipal corporation and election of community council members as provided for under chapter 35.14 RCW. The joint resolution that initiates a consolidation under RCW 35.10.410 may provide for the question of whether a community municipal corporation shall be created to be submitted to the voters of one

or more of the cities that are proposed to be consolidated as a separate ballot measure from the ballot measure authorizing the consolidation or as part of the same ballot measure authorizing the consolidation. The petitions that are signed by the voters of each of the cities that are proposed to be consolidated under RCW 35.10.420 may provide for the question of whether to create a community municipal corporation to be submitted to the voters of that city as a separate ballot measure from the ballot measure authorizing the consolidation or as part of the same ballot measure authorizing the consolidation.

The ballots shall contain the words "For consolidation and creation of community municipal corporation" and "Against consolidation and creation of community municipal corporation," or "For creation of community municipal corporation" and "Against creation of community municipal corporation," as the case may be. Approval of either optional ballot proposition shall be by simple majority vote of the voters voting on the proposition, but the consolidation must be authorized by the voters of each city proposed to be consolidated before a community municipal corporation is created.

NEW SECTION. Sec. 31. A new section is added to chapter 35A.14 RCW to read as follows:

The resolution initiating the annexation of territory under RCW 35A.14.015, and the petition initiating the annexation of territory under RCW 35A.14.020, may provide for the simultaneous creation of a community municipal corporation and election of community council members as provided for in chapter 35.14 RCW, as separate ballot measures or as part of the same ballot measure authorizing the annexation, or for the simultaneous inclusion of the annexed area into a named existing community municipal corporation operating under chapter 35.14 RCW, as separate ballot measures or as part of the same ballot measure authorizing the annexation. If the petition so provides for the creation of a community municipal corporation and election of community council members, the petition shall describe the boundaries of the proposed service area, state the number of voters residing therein as nearly as may be, and pray for the election of community council members by the voters residing in the service area.

The ballots shall contain the words "For annexation and creation of community municipal corporation" and "Against annexation and creation of community municipal corporation," or "For creation of community municipal corporation" and "Against creation of community municipal corporation," as the case may be. Approval of either optional ballot proposition shall be by simple majority vote of the voters voting on the proposition, but the annexation must be authorized before a community municipal corporation is created.

Debate ensued.

The President declared the question before the Senate to be the adoption of the amendment by Senators McCaslin and Madsen on page 32, after line 13, to the Committee on Governmental Operations striking amendment to Substitute House Bill No. 1275.

The motion by Senator McCaslin carried and the amendment to the committee amendment was adopted.

MOTIONS

On motion of Senator McCaslin, the following amendment by Senators McCaslin and Madsen to the Committee on Governmental Operations striking amendment was adopted:

On page 32, after line 13 of the amendment, insert the following:

NEW SECTION. Sec. 29. PURPOSE. Voters of the unincorporated areas of the state are authorized to establish community councils as provided in this chapter.

It is the purpose of this chapter to provide voters of unincorporated areas with direct input on the planning and zoning of their community by establishing a governmental mechanism to adopt community comprehensive plans and community zoning ordinances that are consistent with components or portions of the county comprehensive plan that the county legislative authority designates as having area-wide applicability and importance. Community comprehensive plans shall replace components or portions of the county comprehensive plan that are not designated as having area-wide applicability and importance, and the subarea plan that the county legislative authority may have adopted for the community. In addition, it is the purpose of this chapter to have community councils serve as forums for the discussion of local issues.

NEW SECTION. Sec. 30. DEFINITIONS. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Community" means a portion of the unincorporated area of a county for which a community council has been established.

(2) "Community comprehensive plan" means a comprehensive plan adopted by a community council.

(3) "Community council" means the governing body established under this chapter to adopt community comprehensive plans and community zoning ordinances for a community.

(4) "Community zoning ordinances" means the zoning ordinances adopted by a community council to implement a community comprehensive plan.

NEW SECTION. Sec. 31. MINIMUM REQUIREMENTS FOR A COMMUNITY COUNCIL. A community for which a community council is created may include only unincorporated territory located in a single county and not included within a city or town. A community council must have at least one thousand persons residing within the community when the community council is created or, where the community only includes an entire island, at least three hundred persons must reside on the island when the community council is created. Any portion of such a community that is annexed by a city or town, or is incorporated as a city or town, shall be removed from the community upon the effective date of the annexation or the official date of the incorporation.

NEW SECTION. Sec. 32. CREATION. (1) The process to create a community council shall be initiated by the filing of petitions with the county auditor of the county in which the community is located which: (a) Call for the creation of a community council; (b) set forth the boundaries for the community; (c) indicate the number of community councilmembers, which shall be five, seven, nine, or eleven; and (d) contain signatures of voters residing within the community equal in number to at least ten percent of the voters residing in the community who voted at the last state general election. The county auditor shall determine if the petitions contain a sufficient number of valid signatures and certify the sufficiency of the petitions within fifteen days of when the petitions were filed. If the petitions are certified as having sufficient valid signatures, the county auditor shall transmit the petitions and certificate to the county legislative authority.

(2) The county legislative authority shall hold a public hearing within the community on the creation of the proposed community council no later than sixty days after the petitions and certificate of sufficiency were transmitted to the county legislative authority. Notice of the public hearing shall be published in a newspaper of general circulation in the community for at least once a week for two consecutive weeks, with the last date of publication no more than ten days prior to the date of the public hearing. At least ten days before the public hearing, additional notice shall be

posted conspicuously in at least five places within the proposed community in a manner designed to attract public attention.

(3) After receiving testimony on the creation of the proposed community council, the county legislative authority may alter the boundaries of the community, but the boundaries may not be altered to reduce the number of persons living within the community by more than ten percent or below the minimum number of residents who must reside within the community at the time of the creation of the community council. If territory is added to the community, another public hearing on the proposal shall be held.

(4) The county legislative authority shall call a special election within the community to determine whether the proposed community council shall be created, and to elect the initial community councilmembers, at the next state general election occurring seventy-five or more days after the initial public hearing on the creation of the proposed community council. The community council shall be created if the ballot proposition authorizing the creation of the community is approved by a simple majority vote of the voters voting on the proposition.

NEW SECTION. Sec. 33. ELECTION OF INITIAL COMMUNITY COUNCILMEMBERS. The initial members of the community council shall be elected at the same election as the ballot proposition is submitted authorizing the creation of the community council. However, the election of the initial community councilmembers shall be null and void if the ballot proposition authorizing the creation of the community council is not approved.

No primary election shall be held to nominate candidates for initial council positions. The initial community council shall consist of the candidate for each council position who receives the greatest number of votes for that council position. Staggering of terms of office shall be accomplished by having the majority of the winning candidates who receive the greatest number of votes being elected to four-year terms of office, and the remaining winning candidates being elected to two-year terms of office, if the election was held in an even-numbered year, or the majority of the winning candidates who receive the greatest number of votes being elected to three-year terms of office, and the remaining winning candidates being elected to one-year terms of office, if the election was held in an odd-numbered year, with the term computed from the first day of January in the year following the election. Initial councilmembers shall take office immediately when qualified in accordance with RCW 29.01.135.

However, where the county operates under a charter providing for the election of members of the county legislative authority in odd-numbered years, the terms of office of the initial councilmembers shall be four years and two years, if the election of the initial councilmembers was held on an odd-numbered year, or three years and one year, if the election of the initial councilmembers was held on an even-numbered year.

NEW SECTION. Sec. 34. COMMUNITY COUNCILMEMBERS. Community councilmembers shall be elected to staggered four-year terms until their successors are elected and qualified. Each council position shall be numbered separately. Candidates shall run for specific council positions. The number of council positions shall be five, seven, nine, or eleven, as specified in the petition calling for the creation of the community council.

Community councilmembers shall be nominated and elected at nonpartisan elections pursuant to general election laws, except the elections shall be held in even-numbered years, unless the county operates under a charter and members of the county legislative authority are elected in odd-numbered years, in which case, community councilmembers shall be elected in odd-numbered years.

The provisions of this section apply to the election and terms of office of the initial community councilmembers, except as provided in section 33 of this act.

A councilmember shall lose his or her council position if his or her primary residence no longer is located within the community. Vacancies on a community council shall be filled by action of the remaining councilmembers.

NEW SECTION. Sec. 35. RESPONSIBILITY OF COUNTY LEGISLATIVE AUTHORITY. (1) Within ninety days of the election at which a community council is created, the county legislative authority shall adopt an ordinance designating those portions or components of the county comprehensive plan having area-wide applicability and importance throughout the unincorporated area of the county that shall serve as an overall guide for the development of community comprehensive plans and community zoning ordinances.

(2) Community comprehensive plans and community zoning ordinances that are adopted by a community council shall be submitted to the county legislative authority for its review of the consistency of these plans and ordinances with the portions or components of the county comprehensive plan designated as having area-wide applicability and importance under subsection (1) of this section. The county legislative authority shall either approve the plans and ordinances as adopted, or refer the plans and ordinances back to the community council with written findings of noncompliance specifying the reasons for noncompliance, within ninety days after they are submitted. The county comprehensive plan, or subarea plan and comprehensive plan, and zoning ordinances shall remain in effect in the community until the community comprehensive plans and community zoning ordinances have been approved.

(3) Each amendment to community comprehensive plans or community zoning ordinances that is adopted by a community council shall be submitted to the county legislative authority for its review of the consistency of the amendment with the portions or components of the county comprehensive plan designated as having area-wide applicability and importance under subsection (1) of this section. The county legislative authority shall either approve the amendment as adopted or refer the amendment back to the community council with written findings of noncompliance specifying the reasons for noncompliance within ninety days after it is submitted. The unamended community comprehensive plans and unamended community zoning ordinances shall remain in effect in the community until the amendment has been approved.

(4) A community council shall be given at least one hundred twenty days to amend its community comprehensive plans and community zoning ordinances after the county legislative authority amends the ordinance it adopted under subsection (1) of this section designating those portions or components of the county comprehensive plan having area-wide applicability and importance throughout the unincorporated area of the county that shall serve as an overall guide for the development of community comprehensive plans and community zoning ordinances. The county legislative authority may amend the community comprehensive plans and community zoning ordinances to achieve consistency with this amended ordinance if the community council fails to obtain approval of the community comprehensive plans and community zoning ordinances within this time period. Nothing in this subsection shall preclude a community council from subsequently obtaining approval of its community comprehensive plans and community zoning ordinances.

(5) Approved community comprehensive plans and community zoning ordinances shall be enforced by the county as if they had been adopted by the county legislative authority. All quasi-judicial actions and permits relating to these plans and ordinances shall be made and decided by the county legislative authority or otherwise as provided by the county legislative authority.

(6) The county shall be responsible for financing the activities of, and providing administrative and staff support for, each community council within its boundaries.

NEW SECTION. Sec. 36. POWERS OF A COMMUNITY COUNCIL. A community council shall adopt community comprehensive plans and community zoning

ordinances as provided in section 35 of this act. Community councils shall not have the authority to take quasi-judicial actions or to decide permit applications. In addition, a community council shall serve as a forum for the discussion of local issues.

Community councils are subject to chapter 42.30 RCW, the open public meetings act.

NEW SECTION. Sec. 37. ANNEXATION. A community council may provide for the annexation of adjacent unincorporated areas to the community that are not included within another community for which a community council has been established. Annexations shall be initiated by either resolution of the community council proposing the annexation or petition of voters residing in the adjacent area, which petition: (a) Requests the annexation; (b) sets forth the boundaries of the area proposed to be annexed; and (c) contains signatures of voters residing within the area that is proposed to be annexed equal in number to at least ten percent of the voters residing in that area who voted at the last state general election. Annexation petitions shall be filed with the county auditor who shall determine if the petitions contain a sufficient number of valid signatures, certify the sufficiency of the petitions, and notify the community council of the sufficiency of the petitions within fifteen days of when the petitions are submitted.

A ballot proposition authorizing the annexation shall be submitted to the voters of the area that is proposed to be annexed at a primary or general election in either an odd-numbered or even-numbered year, if the community council initiated the annexation by resolution or if the community council concurs in an annexation that was initiated by the submission of annexation petitions containing sufficient valid signatures. The annexation shall occur if the ballot proposition authorizing the creation of the community is approved by a simple majority vote of the voters voting on the proposition. The county's comprehensive plan, and where applicable to the county's subarea plan, and zoning ordinances shall continue in effect in the annexed area until amendments to the community comprehensive plans and community zoning ordinance have been approved that apply to the annexed area.

NEW SECTION. Sec. 38. DISSOLUTION. A community council shall be dissolved if the population of the community is reduced to less than five hundred persons, or less than two hundred persons if the community only includes an entire island.

In addition, a community council shall be dissolved by voters of the community approving a ballot proposition to dissolve the community council that has been placed upon the ballot in a primary or general election held in either an odd-numbered or even-numbered year as the result of the community council adopting a resolution placing this matter on the ballot or by petition calling for the dissolution of the community council that has been certified by the county auditor as having valid signatures of voters residing within the community equal in number to at least ten percent of the voters residing in the community who voted at the last state general election. Petitions calling for the dissolution of a community council shall be filed with the county auditor and their sufficiency certified by the county auditor in the same manner as an annexation petition. The community council shall be dissolved if the ballot proposition dissolving the community council is approved by a simple majority vote of the voters voting on the proposition.

NEW SECTION. Sec. 39. The following acts or parts of acts are each repealed:

(1) RCW 36.32.500 and 1984 c 203 s 6; and

(2) RCW 36.32.505 and 1984 c 203 s 7.

NEW SECTION. Sec. 40. Sections 29 through 38 of this act shall constitute a new chapter in Title 36 RCW.

NEW SECTION. Sec. 41. Section headings as used in this act do not constitute any part of the law.

NEW SECTION. **Sec. 48.** The motor vehicle fund revenues are received at a relatively even flow throughout the year. Expenditures exceed the revenue during the accelerated summer and fall highway construction season, creating a negative cash balance during the heavy construction season. Negative cash balances also may result from the use of state funds to finance federal advance construction projects prior to conversion to federal funding. The legislature recognizes that the department of transportation may require interfund loans or other short-term financing to meet temporary seasonal cash requirements and additional cash requirements to fund federal advance construction projects.

NEW SECTION. **Sec. 49.** The legislature recognizes the economic importance to the state of attracting new industrial development, and that the availability of transportation services is a significant factor in attracting such industries. The transportation commission and the department of transportation may consider these unique circumstances in determining priorities for capital expenditures.

NEW SECTION. **Sec. 50.** In addition to such other appropriations as are made by this act, there is appropriated to the department of transportation from legally available bond proceeds in the respective construction or building accounts such

amounts as are necessary to pay the expenses incurred by the state finance committee in the issuance and sale of the subject bonds.

NEW SECTION. Sec. 51. FOR THE DEPARTMENT OF TRANSPORTATION--TRANSFER

Motor Vehicle Fund--Highway Construction

Stabilization Account Transfer: For transfer to the Motor Vehicle Fund. \$ 100,000,000

The appropriation transfer in this section is provided for expenditures pursuant to RCW 46.68.200.

NEW SECTION. Sec. 52. The department of transportation is authorized to undertake federal advance construction projects under the provisions of 23 U.S.C. Sec. 115 in order to maintain progress in meeting approved highway construction and preservation objectives. The legislature recognizes that the use of state funds may be required to temporarily fund expenditures of the federal appropriations for the highway construction and preservation programs for federal advance construction projects prior to conversion to federal funding.

NEW SECTION. Sec. 53. (1) Any public agency including but not limited to transit agencies, cities, counties, and the state department of transportation, awarded contracts from counties or transit agencies for the construction of high occupancy vehicle lanes and related facilities shall use such moneys in addition to, and not as a substitute for, moneys currently used, or planned to be used, for high occupancy vehicle lanes by the public agency receiving the award.

(2) Cities, counties, transit agencies, and the state department of transportation having within their boundaries a portion of the existing or planned high occupancy vehicle system contained in the document dated March 1991, entitled "Puget Sound HOV Core Lane Needs: 2000", shall coordinate programming and operational decisions affecting the high occupancy vehicle system.

NEW SECTION. Sec. 54. To maximize the use of motor vehicle fund revenues, it is the intent of the legislature to encourage sharing of technology, information, and systems where appropriate between transportation agencies.

To facilitate this exchange, the Washington state department of transportation assistant secretary for finance and budget management; Washington state department of transportation chief for management information systems; the Washington state patrol deputy chief, chief of staff; Washington state patrol manager of the computer services division; the department of licensing deputy director and department of licensing assistant director for information systems will meet quarterly to share plans, discuss progress of key projects and to coordinate activities for the common good. Minutes of these meetings will be distributed to the respective agency heads and the legislative transportation committee. Washington state department of transportation will provide staff support and meeting coordination.

NEW SECTION. Sec. 55. Agencies shall comply with the following requirements regarding information technology projects if directed to do so by specific appropriation proviso within this act. In addition to these provisos agencies shall comply with all department of information services requirements.

It is the intent of the legislature that information technology projects in state government be managed and completed successfully. Information technology projects should be divided into distinct phases. Each phase of a project should be successfully completed before subsequent phases are commenced, unless an alternative plan is approved by the department of information services, office of financial management, and legislative transportation committee. In addition to the post-implementation review, reviews using oversight and quality assurance measures are to be conducted throughout the project.

The legislature, with recommendations from department of information services and office of financial management, should evaluate each project's scope, duration, and

risk in determining whether appropriations should be for a fiscal year or a biennium, and whether specific phases or the entire project can be accomplished within a specified time period.

Work shall not commence on any task in a subsequent phase of a project until the status report for the preceding key decision point has been approved by the department of information services, the office of financial management, and the legislative transportation committee as appropriate.

(1) Scoping process phase. Prior to requesting moneys from the legislature, or as a condition of receiving an appropriation for planning or development of information technology projects, an agency shall complete a project scoping process. The scoping process shall detail the key issues to be addressed by the information technology project. The scoping process shall precede the feasibility study.

The scoping process must define the project's scope; key issues, including business, management, technical and other issues; major objectives; project justifications; project approach; and answer by a test of reasonableness that the project is feasible. The purpose of the scoping process is to provide the legislature, office of financial management, and the department of information services with the high level information that is needed to grant approval to proceed with the project.

(2) The agency shall produce a feasibility study for each information systems project in accordance with published department of information services instructions. In addition to department of information services requirements such studies shall examine and evaluate the costs and benefits of maintaining the status quo, and of the proposed project. The study shall identify if and in what amounts any fiscal savings, costs, and benefits will occur, and what programs or fund sources will be affected. Benefits of information technology projects shall not be limited to fiscal savings, but may include improvements in service delivery by the agency to the citizens of the state. The feasibility study in this section shall be accompanied by the project management plan described in subsection (3) of this section.

(3) The project management plan shall document how the agency will manage the project identified in the feasibility study. The plan shall be an evolving document. Each subsequent phase of the project shall have an updated project management plan submitted as a prerequisite for approval to begin the next phase.

The project management plan shall cover all factors critical to the entire project and shall specifically address management plans for successfully completing the subsequent phase. The project management plan shall address all factors critical to the overall project, including, but not limited to, the following elements:

(a) Project organization: Define agency executive personnel accountable for project success; define oversight and management committee structures; identify key personnel including key positions that are not yet filled; address staffing requirements, including backfilling requirements; and other key resources needed for successful project implementation.

(b) A description of scope change and cost control procedures.

(c) A risk assessment and risk mitigation plan.

(d) A description of project oversight monitoring and quality assurance procedures.

(e) A project workplan: Explaining the appropriately defined phases, key management decision points, scheduling of other activities, and estimated costs for the next phase or phases to be conducted in a specified time period.

(4) Prior to reaching key decision points identified in the relevant project management plan a project status report shall be submitted to the department of information services, the office of financial management, and the legislative transportation committee for each project. Project status reports shall examine and evaluate project management, accomplishments, budget, action to address variances, risk

management, cost and benefits analysis, and other aspects critical to completion of a project.

(5) In instances where a project review is requested in accordance with department of information services policies, the reviews shall examine and evaluate: System requirements specifications; scope; system architecture; change controls; documentation; user involvement; training; availability and capability of resources; programming languages and techniques; system inputs and outputs; plans for testing, conversion, implementation, and post-implementation; and other aspects critical to successful construction, integration, and implementation of information technology projects. Copies of written project review reports shall be forwarded to the office of financial management and the legislative transportation committee by the agency.

(6) The agency and the department of information services shall provide the legislative transportation committee and the office of financial management with a written bi-monthly project oversight and risk assessment report for each project that has a specific proviso under this section. The report shall include, but not be limited to, the following: Project name, agency undertaking the project, a description of the project, key project activities during the next sixty to ninety days, base-line cost data, costs to date, schedule to date, risk assessments, risk management, and recommendations.

(7) A written post-implementation review report shall be prepared by the agency for each information systems project in accordance with published department of information services instructions. In addition to the information requested pursuant to the department of information services instructions, post-implementation reports shall evaluate the degree to which a project accomplished its major objectives including, but not limited to, a comparison of original cost and benefit estimates to actual costs and benefits achieved. Copies of post-implementation review reports shall be provided to the department of information services, the office of financial management, and the legislative transportation committee.

Where major variances in project scope, cost, or risk occur, the sponsoring agency shall inform the department of information services of the change. The director of the sponsoring agency and the director of the department of information services shall jointly report such findings in writing to the legislative transportation committee and office of financial management. A major variance is defined as a budget change in excess of \$1,000,000 or ten percent, whichever is lower; an increase in risk category to high; or a change in scope that could result in major change in budget or risk.

NEW SECTION. Sec. 56. The department of transportation shall consolidate all growth management functions within a growth management project office. This office shall cease to exist on June 30, 1995.

NEW SECTION. Sec. 57. The attorney general shall prepare by December 31 of each year, a report to the legislative transportation committee comprising a comprehensive summary of all cases involving tort claims against the department of transportation involving highways that were concluded and closed in the previous calendar year. The report shall include for each case closed:

- (1) A summary of the factual background of the case;
- (2) Identification of the attorneys representing the state and the opposing parties;
- (3) A synopsis of the legal theories asserted and the defenses presented;
- (4) Whether the case was tried, settled, or dismissed, and in whose favor;
- (5) The amount of any settlement or verdict reached, and the terms for payment;
- (6) A summary of all settlement offers made by the parties where a verdict was returned against the state;
- (7) The approximate number of attorney hours expended by the state on the case, together with the corresponding dollar amount billed therefore; and
- (8) Such other matters relating to the case as the attorney general deems relevant or appropriate, especially including any comments or recommendations for changes in

"I.

PUBLIC POLICY, FINDINGS, AND INTENT"

NEW SECTION. Sec. 101. The legislature finds that ambient air pollution is the most serious environmental threat in Washington state. Air pollution causes significant harm to human health; damages the environment, including trees, crops, and animals; causes deterioration of equipment and materials; contributes to water pollution; and degrades the quality of life.

Over three million residents of Washington state live where air pollution levels are considered unhealthful. Of all toxic chemicals released into the environment more than half enter our breathing air. Citizens of Washington state spend hundreds of millions of dollars annually to offset health, environmental, and material damage caused by air pollution. The legislature considers such air pollution levels, costs, and damages to be unacceptable.

The department of ecology and local air pollution control authorities shall preempt actions of other state agencies or local governments for the purposes of controlling air pollution in Washington state, except where provided in this act.

Sec. 102. RCW 70.94.011 and 1973 1st ex.s. c 193 s 1 are each amended to read as follows:

It is declared to be the public policy ((of the state)) to preserve, protect, and enhance the air quality for current and future generations. Air is an essential resource that must be protected from harmful levels of pollution. Improving air quality is a matter of state-wide concern and is in the public interest. It is the intent of this chapter to secure and maintain ((such)) levels of air quality ((as will)) that protect human health and safety ((and)), including the most sensitive members of the population, to comply with the requirements of the federal clean air act, ((and)) to ((the greatest degree practicable)) prevent injury to plant ((and)), animal life, and property, to foster the comfort and convenience of ((its)) Washington's inhabitants, to promote the economic and social development of the state, and to facilitate the enjoyment of the natural attractions of the state. ((The problems and effects of air pollution are frequently regional and interjurisdictional in nature, and are dependent upon the existence of urbanization and industrialization in areas having common topography and recurring weather conditions conducive to the buildup of air contaminants))

It is further the intent of this chapter to protect the public welfare, to preserve visibility, to protect scenic, aesthetic, historic, and cultural values, and to prevent air pollution problems that interfere with the enjoyment of life, property, or natural attractions.

Because of the extent of the air pollution problem the legislature finds it necessary to return areas with poor air quality to levels adequate to protect health and the environment as expeditiously as possible but no later than December 31, 1995. Further, it is the intent of this chapter to prevent any areas of the state with acceptable air quality from reaching air contaminant levels that are not protective of human health and the environment.

The legislature recognizes that air pollution control projects may affect other environmental media. In selecting air pollution control strategies state and local

agencies shall support those strategies that lessen the negative environmental impact of the project on all environmental media, including air, water, and land.

The legislature further recognizes that energy efficiency and energy conservation can help to reduce air pollution and shall therefore be considered when making decisions on air pollution control strategies and projects.

It is the policy of the state that the costs of protecting the air resource and operating state and local air pollution control programs shall be shared as equitably as possible among all sources whose emissions cause air pollution.

It is also declared as public policy that regional air pollution control programs are to be encouraged and supported to the extent practicable as essential instruments for the securing and maintenance of appropriate levels of air quality.

~~(It is also declared to be the public policy of the state to provide for the people of the populous metropolitan regions in the state the means of obtaining air pollution control not adequately provided by existing agencies of local government. For reasons of the present and potential dramatic growth in population, urbanization, and industrialization, the special problem of air resource management, encompassing both corrective and preventive measures for the control of air pollution cannot be adequately met by the individual towns, cities, and counties of many metropolitan regions.~~

~~In addition, the state is divided into two major areas, each having unique characteristics as to natural climatic and topographic features which may result in the different potentials for the accumulation and buildup of air contaminant concentrations. These two major areas are the area lying west of the Cascade Mountain crest and the area lying east of the Cascade Mountain crest. Within each of these major areas are regions which, because of the climate and topography and present and potential urbanization and industrial development may, through definitive evaluation be classed as regional air pollution areas.)~~

To these ends it is the purpose of this chapter to ~~((provide for a))~~ safeguard the public interest through an intensive, progressive, and coordinated state-wide program of air pollution prevention and control, to provide for an appropriate distribution of responsibilities, and to encourage coordination and cooperation between the state, regional, and local units of government, ((and for cooperation across jurisdictional lines in dealing with problems of air pollution)) to improve cooperation between state and federal government, public and private organizations, and the concerned individual, as well as to provide for the use of all known, available, and reasonable methods to reduce, prevent, and control air pollution.

The legislature recognizes that the problems and effects of air pollution cross political boundaries, are frequently regional or interjurisdictional in nature, and are dependent upon the existence of human activity in areas having common topography and weather conditions conducive to the buildup of air contaminants. In addition, the legislature recognizes that air pollution levels are aggravated and compounded by increased population, and its consequences. These changes often result in increasingly serious problems for the public and the environment.

The legislature further recognizes that air emissions from thousands of small individual sources are major contributors to air pollution in many regions of the state. As the population of a region grows, small sources may contribute an increasing proportion of that region's total air emissions. It is declared to be the policy of the state to achieve significant reductions in emissions from those small sources whose aggregate emissions constitute a significant contribution to air pollution in a particular region.

It is the intent of the legislature that air pollution goals be incorporated in the missions and actions of state agencies.

NEW SECTION. Sec. 204. (1) A task force is established for the purposes of recommending a program to assist persons with vehicles failing to comply with emission standards under RCW 70.120.120. The task force shall be appointed by the speaker of house of representatives and the president of the senate and shall consist of:

(a) Two members from the house committee on environmental affairs;

(b) Two members from the senate committee on environment and natural resources; and

(c) Two members from the legislative committee on transportation.

(2) In developing recommendations, the task force shall consult with representatives from the departments of ecology, licensing, social and health services, and revenue, the Washington state patrol, vehicle dealers and manufacturers, automobile associations, auto wreckers, and advocates for low-income persons and senior citizens.

(3) By November 1, 1991, the task force shall report to the appropriate standing committees of the legislature. The report shall recommend methods to:

(a) Use public and private funds to provide credit toward purchasing vehicles ten years or older from persons with vehicles not meeting the emission standards under RCW 70.120.120 for the purpose of permanently removing such vehicles from the road;

(b) Identify persons needing assistance with the provisions of RCW 70.120.120. In identifying such persons, the task force shall give first consideration to persons with an income of less than one hundred fifty percent of the federal poverty level;

(c) Prevent fraud or abuse of the program developed under this section; and

(d) Share the cost of the program with new and used car dealers licensed under chapter 46.70 RCW.

In the event that the task force determines a program to provide credit toward the purchase of older, polluting vehicles, as described under (a) of this subsection, does not provide an adequate benefit to low-income persons, the task force shall include recommendations to provide public funds for the repair of such vehicles.

Sec. 205. RCW 70.120.080 and 1979 ex.s. c 163 s 8 are each amended to read as follows:

The director may authorize an owner or lessee of a fleet of motor vehicles, or the owner's or lessee's agent, to inspect the vehicles in the fleet and issue certificates of compliance for the vehicles in the fleet if the director determines that: (1) The director's ~~((emission-and))~~ inspection ~~((standards))~~ procedures will be complied with; and (2) certificates will be issued only to vehicles in the fleet that meet emission and equipment standards adopted under RCW 70.120.150 and only when appropriate.

In addition, the director may authorize an owner or lessee of one or more diesel motor vehicles with a gross vehicle weight rating in excess of eight thousand five hundred pounds, or the owner's or lessee's agent, to inspect the vehicles and issue certificates of compliance for the vehicles. The inspections shall be conducted in compliance with inspection procedures adopted by the department and certificates of compliance shall only be issued to vehicles that meet emission and equipment standards adopted under RCW 70.120.150.

The director shall establish by rule the fee for fleet or diesel inspections provided for in this section. The fee shall be set at an amount necessary to offset the

department's cost to administer the fleet and diesel inspection program authorized by this section.

Owners, leaseholders, or their agents conducting inspections under this section shall pay only the fee established in this section and not be subject to fees under RCW 70.120.170(4).

Sec. 206. RCW 70.120.120 and 1989 c 240 s 8 are each amended to read as follows:

The director shall adopt rules implementing and enforcing this chapter (~~and RCW 46.16.015(2)(g))~~ in accordance with chapter 34.05 RCW. (~~Notwithstanding the provisions of chapter 34.05 RCW, any rule implementing and enforcing RCW 70.120.150(5) may not be adopted until it has been submitted to the standing committees on ecology of the house of representatives and senate for review and approval.~~) The (~~standing committees~~) department shall take into account when considering proposed modifications of emission contributing boundaries, as provided for in RCW 70.120.150(~~(5)~~) (6), alternative (~~plans for traffic rerouting and traffic bans~~) transportation control and motor vehicle emission reduction measures that (~~may have been prepared~~) are required by local municipal corporations for the purpose of satisfying federal emission guidelines.

Sec. 207. RCW 70.120.150 and 1989 c 240 s 2 are each amended to read as follows:

The director:

(1) Shall adopt motor vehicle emission and equipment standards to: Ensure that no less than seventy percent of the vehicles tested comply with the standards on the first inspection conducted, meet federal clean air act requirements, and protect human health and the environment.

(2) Shall adopt rules implementing the smoke opacity testing requirement for diesel vehicles that ensure that such test is objective and repeatable and that properly maintained engines that otherwise would meet the applicable federal emission standards, as measured by the new engine certification test, would not fail the smoke opacity test.

(3) Shall designate a geographic area as being a "noncompliance area" for motor vehicle emissions if (a) the department's analysis of (~~the~~) emission and ambient air quality data, (recorded for) covering a period of no less than one year, (~~at the monitoring sites~~) indicates that the standard has or will probably be exceeded, and (b) the department determines that the primary source of the air contaminant (~~being monitored at the sites~~) is motor vehicle emissions.

(~~(3)~~) (4) Shall reevaluate noncompliance areas if the United States environmental protection agency modifies the relevant air quality standards, and shall discontinue the program if compliance is indicated and if the department determines that the area would continue to be in compliance after the program is discontinued. The director shall notify persons residing in noncompliance areas of the reevaluation.

(~~(4)~~) (5) Shall analyze information regarding the motor vehicle traffic in a noncompliance area to determine the smallest land area within whose boundaries are present registered motor vehicles that contribute significantly to the violation of motor vehicle-related air quality standards in the noncompliance area. The director shall declare the area to be an "emission contributing area." An emission contributing area established for a carbon monoxide or oxides of nitrogen noncompliance area must contain the noncompliance area within its boundaries. An emission contributing area established for an ozone noncompliance area located in this state need not contain the ozone noncompliance area within its boundaries if it can be proven that vehicles registered in the area contribute significantly to violations of the ozone air quality standard in the noncompliance area. An emission contributing area may be established in this state for violations of federal air quality standards for ozone in an adjacent state if (a) the United States environmental protection agency designates an area to be a "nonattainment area for ozone" under the provisions of the federal Clean Air Act (42

U.S.C. 7401 et. seq.), and (b) ~~((the nonattainment area encompasses portions of both Washington and the adjacent state, and (c)))~~ it can be proven that vehicles registered in this state contribute significantly to the violation of the federal air quality standards for ozone in the adjacent state's ~~((portion of the))~~ nonattainment area.

~~((5))~~ (6) Shall, after consultation with the appropriate local government entities, designate areas as being noncompliance areas or emission contributing areas, and shall establish the boundaries of such areas by rule. The director may also modify boundaries. In establishing the external boundaries of an emission contributing area, the director shall use the boundaries established for ZIP code service areas by the United States postal service.

~~((6))~~ (7) May make grants to units of government in support of planning efforts to reduce motor vehicle emissions ~~((in areas where emission control inspections are not required))~~.

Sec. 208. RCW 70.120.170 and 1989 c 240 s 4 are each amended to read as follows:

(1) The department shall administer a system for ~~((biennial))~~ emission inspections ~~((of emissions))~~ of all motor vehicles registered within the boundaries of each emission contributing area. ~~((Persons residing within the boundaries of an emission contributing area shall register their motor vehicle within that area, unless business reasons require registration outside the area. Requests for exemption from inspection for business reasons shall be reviewed and approved by the director))~~ Under such system a motor vehicle shall be inspected biennially except where an annual program would be required to meet federal law and prevent federal sanctions. In addition, motor vehicles shall be inspected at each change of registered owner.

(2) The director shall:

(a) Adopt procedures for conducting emission ~~((tests for))~~ inspections of motor vehicles. The ~~((tests shall))~~ inspections may include idle and high revolution per minute emission tests. The emission test for diesel vehicles shall consist solely of a smoke opacity test.

(b) Adopt criteria for calibrating emission testing equipment. Electronic equipment used to test for emissions standards provided for in this chapter shall be properly calibrated. The department shall examine frequently the calibration of the emission testing equipment used at the stations.

(c) Authorize, through contracts, the establishment and operation of inspection stations for conducting ~~((the))~~ vehicle emission ~~((tests))~~ inspections authorized in this chapter. No person contracted to inspect motor vehicles may perform for compensation repairs on any vehicles. No public body may establish or operate contracted inspection stations. Any contracts must be let in accordance with the procedures established for competitive bids in chapter 43.19 RCW.

(3) Subsection (2)(c) of this section does not apply to volunteer motor vehicle inspections under RCW 70.120.020(1)~~((a))~~ if the inspections are conducted for the following purposes:

(a) Auditing;

(b) Contractor evaluation;

(c) Collection of data for establishing calibration and performance standards; or

(d) Public information and education.

(4)(a) The director shall establish by rule the fee to be charged for emission inspections. The inspection fee shall be a standard fee applicable state-wide or throughout an emission contributing area and shall be no greater than eighteen dollars. Surplus moneys collected from fees over the amount due the contractor shall be paid to the state and deposited in the general fund. Fees shall be set at the minimum whole dollar amount required to (i) compensate the contractor or inspection facility owner, and (ii) offset the general fund appropriation to the department to cover the administrative costs of the motor vehicle emission inspection program.

(b) Before each inspection, a person whose motor vehicle is to be inspected shall pay to the inspection station the fee established under this section. The person whose motor vehicle is inspected shall receive the results of the inspection (~~((test))~~). If the inspected (~~((vehicle's emissions comply))~~) vehicle complies with the standards established by the director, the person shall receive a dated certificate of compliance. If the inspected (~~((vehicle's emissions do))~~) vehicle does not comply with those standards, one (~~((retest of the vehicle's emission))~~) reinspection of the vehicle shall be afforded without charge.

(5) All units of local government and agencies of the state with motor vehicles garaged or regularly operated in an emissions contributing area shall test the emissions of those vehicles (~~((biennially))~~) annually to ensure that the vehicle's emissions comply with the emission standards established by the director. All state agencies outside of emission contributing areas with more than twenty motor vehicles housed at a single facility or contiguous facilities shall test the emissions of those vehicles annually to ensure that the vehicles' emissions comply with standards established by the director. A report of the results of the tests shall be submitted to the department.

Sec. 209. RCW 46.16.015 and 1990 c 42 s 318 are each amended to read as follows:

(1) Neither the department of licensing nor its agents may issue or renew a motor vehicle license for any vehicle (~~((registered in an emission contributing area, as that area is established under chapter 70.120 RCW))~~) or change the registered owner, for any (~~((year in which the))~~) vehicle that is required to be ((tested)) inspected under chapter 70.120 RCW, unless the application for issuance or renewal is: (a) Accompanied by a valid certificate of compliance or a valid certificate of acceptance issued pursuant to chapter 70.120 RCW; or (b) exempted from this requirement pursuant to subsection (2) of this section. The certificates must have a date of validation which is within (~~((ninety days))~~) six months of the date of application for the vehicle license or license renewal. Certificates for fleet or owner tested diesel vehicles may have a date of validation which is within twelve months of the assigned license renewal date.

(2) Subsection (1) of this section does not apply to the following vehicles:

(a) New motor vehicles whose equitable or legal title has never been transferred to a person who in good faith purchases the vehicle for purposes other than resale;

(b) Motor vehicles with a model year of 1967 or earlier;

(c) Motor vehicles that use propulsion units powered exclusively by electricity;

(d) Motor vehicles fueled (~~((exclusively))~~) by propane, compressed natural gas, or liquid petroleum gas, unless it is determined that federal sanctions will be imposed as a result of this exemption;

~~((h)))~~ (g) Used vehicles which are offered for sale by a motor vehicle dealer licensed under chapter 46.70 RCW; or

~~((i)))~~ (h) Motor vehicles exempted by the director of the department of ecology.

The provisions of subparagraph (a) of this subsection may not be construed as exempting from the provisions of subsection (1) of this section applications for the renewal of licenses for motor vehicles that are or have been leased.

(3) (~~((The department of licensing shall mail to each owner of a vehicle registered within an emission contributing area a notice regarding the boundaries of the area and restrictions established under this section that apply to vehicles registered in such areas. The information for the notice shall be supplied to the department of licensing by the department of ecology.))~~) The department of ecology shall provide

information to motor vehicle owners regarding the boundaries of emission contributing areas and restrictions established under this section that apply to vehicles registered in such areas. In addition the department of ecology shall provide information to motor vehicle owners on the relationship between motor vehicles and air pollution and steps motor vehicle owners should take to reduce motor vehicle related air pollution. The department of licensing shall send to all registered motor vehicle owners (~~who reside within the emissions area~~) affected by the emission testing program notice that they must have an emission test to renew their registration.

NEW SECTION. Sec. 210. A new section is added to chapter 70.120 RCW to read as follows:

(1) Motor vehicle dealers selling a used vehicle not under a new vehicle warranty shall include a notice in each vehicle purchase order form that reads as follows: "The owner of a vehicle may be required to spend up to four hundred fifty dollars for repairs if the vehicle does not meet the vehicle emission standards under this chapter. Unless expressly warranted by the motor vehicle dealer, the dealer is not warranting that this vehicle will pass any emission tests required by federal or state law."

(2) The signature of the purchaser on the notice required under subsection (1) of this section shall constitute a valid disclaimer of any implied warranty by the dealer as to a vehicle's compliance with any emission standards.

(3) The disclosure requirement of subsection (1) of this section applies to all motor vehicle dealers located in counties where state emission inspections are required.

NEW SECTION. Sec. 211. A new section is added to chapter 70.120 RCW to read as follows:

Engine manufacturers shall certify that new engines conform with current exhaust emission standards of the federal environmental protection agency.

NEW SECTION. Sec. 212. A new section is added to chapter 70.120 RCW to read as follows:

By July 1, 1992, the department shall develop, in cooperation with the departments of general administration and transportation, and the state energy office, aggressive clean-fuel performance and clean-fuel vehicle emissions specifications including clean-fuel vehicle conversion equipment. To the extent possible, such specifications shall be equivalent for all fuel types. In developing such specifications the department shall consider the requirements of the clean air act and the findings of the environmental protection agency, other states, the American petroleum institute, the gas research institute, and the motor vehicles manufacturers association.

NEW SECTION. Sec. 213. A new section is added to chapter 43.19 RCW to read as follows:

(1) At least thirty percent of all new vehicles purchased through a state contract shall be clean-fuel vehicles.

(2) The percentage of clean-fuel vehicles purchased through a state contract shall increase at the rate of five percent each year.

(3) In meeting the procurement requirement established in this section, preference shall be given to vehicles designed to operate exclusively on clean fuels. Clean-fuel vehicles capable of operating on other than clean fuels shall be considered equivalent to one-half of a clean-fuel vehicle for the purposes of meeting the procurement requirements of this section, except that such vehicles shall be considered equivalent to vehicles designed to operate exclusively on clean fuel in the event that vehicles designed to operate exclusively on clean fuels are not available.

(4) Fuel purchased through a state contract shall be a clean fuel when the fuel is purchased for the operation of a clean-fuel vehicle.

(5)(a) Weight classes are established by the following motor vehicle types:

(i) Passenger cars;

(ii) Light duty trucks, trucks with a gross vehicle weight rating by the vehicle manufacturer of less than eight thousand five hundred pounds;

(iii) Heavy duty trucks, trucks with a gross vehicle weight rating by the vehicle manufacturer of eight thousand five hundred pounds or more.

(b) This subsection does not place an obligation upon the state or its political subdivisions to purchase vehicles in any number or weight class other than to meet the percent procurement requirement.

(6) For the purposes of this section, "clean fuels" and "clean-fuel vehicles" shall be those fuels and vehicles meeting the specifications provided for in section 212 of this act.

NEW SECTION. Sec. 214. The Washington state energy office, and selected local school districts that are using or considering the use of compressed natural gas, shall analyze and report on the potential benefits, costs, and safety risks associated with increasing the use of compressed natural gas as a fuel for school buses.

The report shall address:

(1) The anticipated actual operation and maintenance costs of using compressed natural gas buses versus diesel fuel or gasoline buses;

(2) Factors affecting the safety of passengers, drivers, mechanics, and other persons in using compressed natural gas buses versus diesel fuel and gasoline buses;

(3) Capital costs, including:

(a) The availability and capital cost of purchasing new compressed natural gas buses;

(b) The feasibility and capital cost of retrofitting diesel and gasoline buses; and

(c) Capital costs associated with fuel storage and refueling;

(4) Other considerations, including air quality benefits, necessary to determine the overall costs, problems, and benefits of increasing the use of compressed natural gas as a fuel for school buses.

The report shall be submitted to the environmental affairs committee of the house of representatives and the environment and natural resources committee of the senate by December 15, 1991.

NEW SECTION. Sec. 215. A new section is added to chapter 70.120 RCW to read as follows:

The department, in cooperation with the departments of general administration and transportation, the utilities and transportation commission, and the state energy office, shall biennially prepare a report to the legislature starting July 1, 1992, on:

(1) Progress of clean fuel and clean-fuel vehicle programs in reducing automotive emissions;

(2) Recommendations for enhancing clean-fuel distribution systems;

(3) Efforts of the state, units of local government, and the private sector to evaluate and utilize "clean fuel" or "clean-fuel vehicles"; and

(4) Recommendations for changes in the existing program to make it more effective and, if warranted, for expansion of the program.

NEW SECTION. Sec. 216. A new section is added to chapter 80.28 RCW to read as follows:

The legislature finds that compressed natural gas offers significant potential to reduce vehicle emissions and to significantly decrease dependence on petroleum-based fuels. The legislature also finds that well-developed and convenient refueling systems are imperative if compressed natural gas is to be widely used by the public. The legislature declares that the development of compressed natural gas refueling stations are in the public interest.

NEW SECTION. Sec. 217. A new section is added to chapter 80.28 RCW to read as follows:

The commission shall identify barriers to the development of refueling stations for vehicles operating on compressed natural gas, and shall develop policies to remove

such barriers. In developing such policies, the commission shall consider providing rate incentives to encourage natural gas companies to invest in the infrastructure required by such refueling stations.

NEW SECTION. Sec. 218. A new section is added to chapter 70.94 RCW to read as follows:

The department may disburse matching grants from funds provided by the legislature from the air pollution control account, created in section 239 of this act, to units of local government to partially offset the additional cost of purchasing "clean fuel" and/or operating "clean-fuel vehicles" provided that such vehicles are used for public transit. Publicly owned school buses are considered public transit for the purposes of this section. The department may also disburse grants to vocational-technical institutes for the purpose of establishing programs to certify clean-fuel vehicle mechanics. The department may also distribute grants to the state energy office for the purpose of furthering the establishment of clean fuel refueling infrastructure.

NEW SECTION. Sec. 219. A new section is added to chapter 70.94 RCW to read as follows:

No state agency, metropolitan planning organization, or local government shall approve or fund a transportation plan, program, or project unless a determination has been made that the plan, program, or project conforms with the state implementation plan for air quality.

(1) "Conformity to the state implementation plan" means:

(a) Conformity to the state implementation plan's purpose of eliminating or reducing the severity and number of violations of the national ambient air quality standards and achieving expeditious attainment of such standards; and

(b) Ensuring that a proposed transportation plan, program, or project will not:

(i) Cause or contribute to any new violation of any standard in any area;

(ii) Increase the frequency or severity of any existing violation of any standard in any area; or

(iii) Delay timely attainment of any standard or any required interim emission reductions or other milestones in any area.

Conformity determination shall be made by the state or local government or metropolitan planning organization administering or developing the plan, program, or project. The determination of conformity shall be based on the most recent estimates of emissions, and such estimates shall be determined from the most recent population, employment, travel, and congestion estimates as determined by the metropolitan planning organization or other agency authorized to make such estimates.

(2) Plans and programs conform if:

(a) Emissions resulting from such plans and programs are consistent with baseline emission inventories and emission reduction projections and schedules assigned to those plans and programs in the state implementation plan; and

(b) The plans and programs provide for the timely implementation of the transportation provisions in the approved or promulgated state implementation plan.

(3) A project conforms if:

(a) It is a control measure from the state implementation plan; or

(b) It comes from a conforming plan and program, and the design and scope of such project has not changed significantly since the plan and program from which the project derived was found to conform.

(c) A project other than one referred to in (a) and (b) of this subsection conforms if it is demonstrated that the project either does not contribute to increased emissions in the nonattainment area, or that offsetting emission reductions for the project are specifically provided for in the transportation plan and program, or are otherwise enforceable through the state implementation plan, before the project is approved.

(d) No later than eighteen months after the effective date of this section, the director of the department of ecology and the secretary of transportation, in consultation with other state, regional, and local agencies as appropriate, shall adopt by rule criteria and guidance for demonstrating and assuring conformity of plans, programs, and projects.

(4) A project with a scope that is limited to preservation or maintenance, or both, shall be exempted from a conformity determination requirement.

NEW SECTION. Sec. 220. FINDINGS--DEMAND MANAGEMENT. The legislature finds that automotive traffic in Washington's metropolitan areas is the major source of emissions of air contaminants. This air pollution causes significant harm to public health, causes damage to trees, plants, structures, and materials and degrades the quality of the environment.

Increasing automotive traffic is also aggravating traffic congestion in Washington's metropolitan areas. This traffic congestion imposes significant costs on Washington's businesses, governmental agencies, and individuals in terms of lost working hours and delays in the delivery of goods and services. Traffic congestion worsens automobile-related air pollution, increases the consumption of fuel, and degrades the habitability of many of Washington's cities and suburban areas. The capital and environmental costs of fully accommodating the existing and projected automobile traffic on roads and highways are prohibitive. Decreasing the demand for vehicle trips is significantly less costly and at least as effective in reducing traffic congestion and its impacts as constructing new transportation facilities such as roads and bridges, to accommodate increased traffic volumes.

The legislature also finds that increasing automotive transportation is a major factor in increasing consumption of gasoline and, thereby, increasing reliance on imported sources of petroleum. Moderating the growth in automotive travel is essential to stabilizing and reducing dependence on imported petroleum and improving the nation's energy security.

The legislature further finds that reducing the number of commute trips to work made via single occupant cars and light trucks is an effective way of reducing automobile-related air pollution, traffic congestion, and energy use. Major employers have significant opportunities to encourage and facilitate reducing single occupant vehicle commuting by employees.

The intent of this chapter is to require local governments in those counties experiencing the greatest automobile-related air pollution and traffic congestion to develop and implement plans to reduce single occupant vehicle commute trips. Such plans shall require major employers and employers at major worksites to implement programs to reduce single occupant vehicle commuting by employees at major worksites. Local governments in counties experiencing significant but less severe automobile-related air pollution and traffic congestion may implement such plans. State agencies shall implement programs to reduce single occupant vehicle commuting at all major worksites throughout the state.

NEW SECTION. Sec. 221. DEFINITIONS. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "A major employer" means a private or public employer that employs one hundred or more full-time employees at a single worksite who begin their regular work day between 6:00 a.m. and 9:00 a.m. on weekdays for at least twelve continuous months during the year.

(2) "Major worksite" means a building or group of buildings that are on physically contiguous parcels of land or on parcels separated solely by private or public roadways or rights of way, and at which there are one hundred or more full-time employees of one or more employers, who begin their regular work day between 6:00 a.m. and 9:00 a.m. on weekdays, for at least twelve continuous months.

(3) "Commute trip reduction zones" mean areas, such as census tracts or combinations of census tracts, within a jurisdiction that are characterized by similar employment density, population density, level of transit service, parking availability, access to high occupancy vehicle facilities, and other factors that are determined to affect the level of single occupancy vehicle commuting.

(4) "Commute trip" means trips made from a worker's home to a worksite during the peak period of 6:00 a.m. to 9:00 a.m. on weekdays.

(5) "Proportion of single occupant vehicle commute trips" means the number of commute trips made by single occupant automobiles divided by the number of full-time employees.

(6) "Commute trip vehicle miles traveled per employee" means the sum of the individual vehicle commute trip lengths in miles over a set period divided by the number of full-time employees during that period.

(7) "Base year" means the year January 1, 1992, through December 31, 1992, on which goals for vehicle miles traveled and single occupant vehicle trips shall be based. Base year goals may be determined using the 1990 journey-to-work census data projected to the year 1992 and shall be consistent with the growth management act. The task force shall establish a method to be used by jurisdictions to determine reductions of vehicle miles traveled.

NEW SECTION. **Sec. 222. REQUIREMENTS FOR COUNTIES AND CITIES.**

(1) Each county with a population over one hundred fifty thousand, and each city or town within those counties containing a major employer shall, by July 1, 1992, adopt by ordinance and implement a commute trip reduction plan for all major employers. The plan shall be developed in cooperation with local transit agencies, regional transportation planning organizations as established in RCW 47.80.020, major employers, and the owners of and employers at major worksites. The plan shall be designed to achieve reductions in the proportion of single occupant vehicle commute trips and the commute trip vehicle miles traveled per employee by employees of major public and private sector employers in the jurisdiction.

(2) All other counties, and cities and towns in those counties, may adopt and implement a commute trip reduction plan.

(3) The department of ecology may, after consultation with the state energy office, as part of the state implementation plan for areas that do not attain the national ambient air quality standards for carbon monoxide or ozone, require municipalities other than those identified in subsection (1) of this section to adopt and implement commute trip reduction plans if the department determines that such plans are necessary for attainment of said standards.

(4) A commute trip reduction plan shall be consistent with the guidelines established under section 225 of this act and shall include but is not limited to (a) goals for reductions in the proportion of single occupant vehicle commute trips and the commute trip vehicle miles traveled per employee; (b) designation of commute trip reduction zones; (c) requirements for major public and private sector employers to implement commute trip reduction programs; (d) a commute trip reduction program for employees of the county, city, or town; (e) a review of local parking policies and ordinances as they relate to employers and major worksites and any revisions necessary to comply with commute trip reduction goals and guidelines; (f) an appeals process by which major employers, who as a result of special characteristics of their business or its locations would be unable to meet the requirements of a commute trip reduction plan, may obtain waiver or modification of those requirements; and (g) means for determining base year values of the proportion of single occupant vehicle commute trips and the commute trip vehicle miles traveled per employee and progress toward meeting commute trip reduction plan goals on an annual basis. Goals that are established shall take into account existing transportation demand management efforts that are made by major employers. Each jurisdiction shall ensure that employers shall

receive full credit for the results of transportation demand management efforts and commute trip reduction programs which have been implemented by major employers prior to the base year. The goals for miles traveled per employee for all major employers shall not be less than a fifteen percent reduction from the base year value of the commute trip reduction zone in which their worksite is located by January 1, 1995, twenty-five percent reduction from the base year values by January 1, 1997, and thirty-five percent reduction from the base year values by January 1, 1999.

(5) A county, city, or town may, as part of its commute trip reduction plan, require commute trip reduction programs for employers other than major employers at major worksites if the regional air pollution control board determines such programs are necessary to comply with ambient air standards for carbon monoxide and ozone.

(6) The commute trip reduction plans adopted by counties, cities, and towns under this chapter shall be consistent with and may be incorporated in applicable state or regional transportation plans and local comprehensive plans and shall be coordinated, and consistent with, the commute trip reduction plans of counties, cities, or towns with which the county, city, or town has, in part, common borders or related regional issues. Such regional issues shall include assuring consistency in the treatment of employers who have worksites subject to the requirements of this chapter in more than one jurisdiction. Counties, cities, or towns adopting commute trip reduction plans may enter into agreements through the interlocal cooperation act or by resolution or ordinance as appropriate with other jurisdictions, local transit agencies, or regional transportation planning organizations to coordinate the development and implementation of such plans. Counties, cities, or towns adopting a commute trip reduction plan shall review it annually and revise it as necessary to be consistent with applicable plans developed under RCW 36.70A.070.

(7) Each county, city, or town implementing a commute trip reduction program shall, within thirty days submit a summary of its plan along with certification of adoption to the commute trip reduction task force established under section 225 of this act.

(8) Each county, city, or town implementing a commute trip reduction program shall submit an annual progress report to the commute trip reduction task force established under section 225 of this act. The report shall be due July 1, 1994, and each July 1 thereafter through July 1, 2000. The report shall describe progress in attaining the applicable commute trip reduction goals for each commute trip reduction zone and shall highlight any problems being encountered in achieving the goals. The information shall be reported in a form established by the commute trip reduction task force.

(9) Any waivers or modifications of the requirements of a commute trip reduction plan granted by a jurisdiction shall be submitted for review to the commute trip reduction task force established under section 225 of this act. The commute trip reduction task force may not deny the granting of a waiver or modification of the requirements of a commute trip reduction plan by a jurisdiction but they may notify the jurisdiction of any comments or objections.

(10) Each county, city, or town implementing a commute trip reduction program shall count commute trips eliminated through work-at-home options or alternate work schedules as one and two-tenths vehicle trips eliminated for the purpose of meeting trip reduction goals.

(11) Plans implemented under this section shall not apply to commute trips for seasonal agricultural employees.

(12) Plans implemented under this section shall not apply to construction worksites when the expected duration of the construction project is less than two years.

NEW SECTION. Sec. 223. REQUIREMENTS FOR EMPLOYERS. (1) Not more than six months after the adoption of the commute trip reduction plan by a

jurisdiction, each major employer in that jurisdiction shall develop a commute trip reduction program and shall submit a description of that program to the jurisdiction for review. The program shall be implemented not more than six months after submission to the jurisdiction.

(2) A commute trip reduction program shall consist of, at a minimum (a) designation of a transportation coordinator and the display of the name, location, and telephone number of the coordinator in a prominent manner at each affected worksite; (b) regular distribution of information to employees regarding alternatives to single occupant vehicle commuting; (c) an annual review of employee commuting and reporting of progress toward meeting the single occupant vehicle reduction goals to the county, city, or town consistent with the method established in the commute trip reduction plan; and (d) implementation of a set of measures designed to achieve the applicable commute trip reduction goals adopted by the jurisdiction. Such measures may include but are not limited to:

(i) Provision of preferential parking or reduced parking charges, or both, for high occupancy vehicles;

(ii) Instituting or increasing parking charges for single occupant vehicles;

(iii) Provision of commuter ride matching services to facilitate employee ridesharing for commute trips;

(iv) Provision of subsidies for transit fares;

(v) Provision of vans for van pools;

(vi) Provision of subsidies for car pooling or van pooling;

(vii) Permitting the use of the employer's vehicles for car pooling or van pooling;

(viii) Permitting flexible work schedules to facilitate employees' use of transit, car pools, or van pools;

(ix) Cooperation with transportation providers to provide additional regular or express service to the worksite;

(x) Construction of special loading and unloading facilities for transit, car pool, and van pool users;

(xi) Provision of bicycle parking facilities, lockers, changing areas, and showers for employees who bicycle or walk to work;

(xii) Provision of a program of parking incentives such as a rebate for employees who do not use the parking facility;

(xiii) Establishment of a program to permit employees to work part or full time at home or at an alternative worksite closer to their homes;

(xiv) Establishment of a program of alternative work schedules such as compressed work week schedules which reduce commuting; and

(xv) Implementation of other measures designed to facilitate the use of high-occupancy vehicles such as on-site day care facilities and emergency taxi services.

(3) Employers or owners of worksites may form or utilize existing transportation management associations to assist members in developing and implementing commute trip reduction programs.

NEW SECTION. Sec. 224. JURISDICTIONS' REVIEW AND PENALTIES.

(1) Each jurisdiction implementing a commute trip reduction plan under this chapter or as part of a plan or ordinance developed under RCW 36.70A.070 shall review each employer's initial commute trip reduction program to determine if the program is likely to meet the applicable commute trip reduction goals. The employer shall be notified by the jurisdiction of its findings. If the jurisdiction finds that the program is not likely to meet the applicable commute trip reduction goals, the jurisdiction will work with the employer to modify the program as necessary. The jurisdiction shall complete review of each employer's initial commute trip reduction program within three months of receipt.

(2) Each jurisdiction shall annually review each employer's progress toward meeting the applicable commute trip reduction goals. If it appears an employer is not likely to meet the applicable commute trip reduction goals, the jurisdiction shall work with the employer to make modifications to the commute trip reduction program.

(3) If an employer fails to meet the applicable commute trip reduction goals, the jurisdiction shall propose modifications to the program and direct the employer to revise its program within thirty days to incorporate those modifications or modifications which the jurisdiction determines to be equivalent.

(4) Each jurisdiction implementing a commute trip reduction plan pursuant to this chapter may impose civil penalties, in the manner provided in chapter 7.80 RCW, for failure by an employer to implement a commute trip reduction program or to modify its commute trip reduction program as required in subsection (3) of this section. No major employer shall be liable for civil penalties under this chapter if failure to achieve a commute trip reduction program goal was the result of an inability to reach agreement with a certified collective bargaining agent under applicable laws where the issue was raised by the employer and pursued in good faith.

NEW SECTION. Sec. 225. (1) A twenty-three member state commute trip reduction task force shall be established as follows:

(a) The director of the state energy office or the director's designee who shall serve as chair;

(b) The secretary of the department of transportation or the secretary's designee;

(c) The director of the department of ecology or the director's designee;

(d) The director of the department of community development or the director's designee;

(e) The director of the department of general administration or the director's designee;

(f) Three representatives from counties appointed by the governor from a list of at least six recommended by the Washington state association of counties;

(g) Three representatives from cities and towns appointed by the governor from a list of at least six recommended by the association of Washington cities;

(h) Three representatives from transit agencies appointed by the governor from a list of at least six recommended by the Washington state transit association;

(i) Six representatives of major employers in Washington appointed by the governor from a list of at least twelve recommended by the association of Washington business; and

(j) Three citizens appointed by the governor.

Members of the commute trip reduction task force shall serve without compensation but shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060. Members appointed by the governor shall be compensated in accordance with RCW 43.03.220. The task force has all powers necessary to carry out its duties as prescribed by this chapter. The task force shall be dissolved on July 1, 2000.

(2) By March 1, 1992, the commute trip reduction task force shall establish guidelines for commute trip reduction plans. The guidelines are intended to ensure consistency in commute trip reduction plans and goals among jurisdictions while fairly taking into account differences in employment and housing density, employer size, existing and anticipated levels of transit service, special employer circumstances, and other factors the task force determines to be relevant. The guidelines shall include:

(a) Criteria for establishing commute trip reduction zones;

(b) Methods and information requirements for determining base year values of the proportion of single-occupant vehicle commute trips and the commute trip vehicle miles traveled per employee and progress toward meeting commute trip reduction plan goals;

(c) Model commute trip reduction ordinances;

(d) Methods for assuring consistency in the treatment of employers who have worksites subject to the requirements of this chapter in more than one jurisdiction;

(e) An appeals process by which major employers, who as a result of special characteristics of their business or its locations would be unable to meet the requirements of a commute trip reduction plan, may obtain a waiver or modification of those requirements and criteria for determining eligibility for waiver or modification;

(f) Methods to ensure that employers shall receive full credit for the results of transportation demand management efforts and commute trip reduction programs which have been implemented by major employers prior to the base year;

(g) Alternative commute trip reduction goals for major employers which cannot meet the goals of this chapter because of the unique nature of their business; and

(h) Alternative commute trip reduction goals for major employers whose worksites change and who contribute substantially to traffic congestion in a trip reduction zone.

(3) The task force shall review progress toward implementing commute trip reduction plans and programs and the costs and benefits of commute trip reduction plans and programs and shall make recommendations to the legislature by December 1, 1995, and December 1, 1999. In assessing the costs and benefits, the task force shall consider the costs of not having implemented commute trip reduction plans and programs. The task force shall examine other transportation demand management programs nationally and incorporate its findings into its recommendations to the legislature. The recommendations shall address the need for continuation, modification, or termination or any or all requirements of this chapter. The recommendations made December 1, 1995, shall include recommendations regarding extension of the requirements of this chapter to employers with fifty or more full-time employees at a single worksite who begin their regular work day between 6:00 a.m. and 9:00 a.m. on weekdays for more than twelve continuous months.

NEW SECTION. Sec. 226. TECHNICAL ASSISTANCE TEAM. (1) A technical assistance team shall be established under the direction of the state energy office and include representatives of the departments of transportation and ecology. The team shall provide staff support to the commute trip reduction task force in carrying out the requirements of section 225 of this act and to the department of general administration in carrying out the requirements of section 229 of this act.

(2) The team shall provide technical assistance to counties, cities, and towns, the department of general administration, other state agencies, and other employers in developing and implementing commute trip reduction plans and programs. The technical assistance shall include: (a) Guidance in determining base and subsequent year values of single occupant vehicle commuting proportion and commute trip reduction vehicle miles traveled to be used in determining progress in attaining plan goals; (b) developing model plans and programs appropriate to different situations; and (c) providing consistent training and informational materials for the implementation of commute trip reduction programs. Model plans and programs, training and informational materials shall be developed in cooperation with representatives of local governments, transit agencies, and employers.

(3) In carrying out this section the state energy office and department of transportation may contract with state-wide associations representing cities, towns, and counties to assist cities, towns, and counties in implementing commute trip reduction plans and programs.

NEW SECTION. Sec. 227. USE OF FUNDS. A portion of the funds made available for the purposes of this chapter shall be used to fund the commute trip reduction task force in carrying out the responsibilities of section 226 of this act, and the interagency technical assistance team, including the activities authorized under section 226(2) of this act, and to assist counties, cities, and towns implementing commute trip reduction plans. Funds shall be provided to the counties in proportion

to the number of major employers and major worksites in each county. The counties shall provide funds to cities and towns within the county which are implementing commute trip reduction plans in proportion to the number of major employers and major worksites within the city or town.

NEW SECTION. Sec. 228. LEGISLATIVE INTENT--STATE LEADERSHIP. The legislature hereby recognizes the state's crucial leadership role in establishing and implementing effective commute trip reduction programs. Therefore, it is the policy of the state that the department of general administration and other state agencies shall aggressively develop substantive programs to reduce commute trips by state employees. Implementation of these programs will reduce energy consumption, congestion in urban areas, and air and water pollution associated with automobile travel.

NEW SECTION. Sec. 229. GENERAL ADMINISTRATION. (1) The director of general administration, with the concurrence of an interagency task force established for the purposes of this section, shall coordinate a commute trip reduction plan for state agencies which are phase 1 major employers by January 1, 1993. The task force shall include representatives of the state energy office, the departments of transportation and ecology and such other departments as the director of general administration determines to be necessary to be generally representative of state agencies. The state agency plan shall be consistent with the requirements of sections 222 and 223 of this act and shall be developed in consultation with state employees, local and regional governments, local transit agencies, the business community, and other interested groups. The plan shall consider and recommend policies applicable to all state agencies including but not limited to policies regarding parking and parking charges, employee incentives for commuting by other than single-occupant automobiles, flexible and alternative work schedules, alternative worksites, and the use of state-owned vehicles for car and van pools. The plan shall also consider the costs and benefits to state agencies of achieving commute trip reductions and consider mechanisms for funding state agency commute trip reduction programs. The department shall, within thirty days, submit a summary of its plan along with certification of adoption to the commute trip reduction task force established under section 225 of this act.

(2) Not more than three months after the adoption of the commute trip reduction plan, each state agency shall, for each facility which is a major employer, develop a commute trip reduction program. The program shall be designed to meet the goals of the commute trip reduction plan of the county, city, or town or, if there is no local commute trip reduction plan, the state. The program shall be consistent with the policies of the state commute trip reduction plan and section 223 of this act. The agency shall submit a description of that program to the local jurisdiction implementing a commute trip reduction plan or, if there is no local commute trip reduction plan, to the department of general administration. The program shall be implemented not more than three months after submission to the department. Annual reports required in section 223(2)(c) of this act shall be submitted to the local jurisdiction implementing a commute trip reduction plan and to the department of general administration. An agency which is not meeting the applicable commute trip reduction goals shall, to the extent possible, modify its program to comply with the recommendations of the local jurisdiction or the department of general administration.

(3) State agencies sharing a common location may develop and implement a joint commute trip reduction program or may delegate the development and implementation of the commute trip reduction program to the department of general administration.

(4) The department of general administration in consultation with the state technical assistance team shall review the initial commute trip reduction program of each state agency subject to the commute trip reduction plan for state agencies to determine if the program is likely to meet the applicable commute trip reduction goals and notify the agency of any deficiencies. If it is found that the program is not likely

to meet the applicable commute trip reduction goals, the team will work with the agency to modify the program as necessary.

(5) For each agency subject to the state agency commute trip reduction plan, the department of general administration in consultation with the technical assistance team shall annually review progress toward meeting the applicable commute trip reduction goals. If it appears an agency is not meeting or is not likely to meet the applicable commute trip reduction goals, the team shall work with the agency to make modifications to the commute trip reduction program.

(6) The department of general administration shall submit an annual progress report for state agencies subject to the state agency commute trip reduction plan to the commute trip reduction task force established under section 225 of this act. The report shall be due April 1, 1993, and each April 1 through 2000. The report shall report progress in attaining the applicable commute trip reduction goals for each commute trip reduction zone and shall highlight any problems being encountered in achieving the goals. The information shall be reported in a form established by the commute trip reduction task force.

NEW SECTION. Sec. 230. CODIFICATION. Sections 220 through 229 of this act shall constitute a new chapter in Title 81 RCW.

Sec. 231. RCW 82.44.020 and 1990 c 42 s 302 are each amended to read as follows:

(1) An excise tax is imposed for the privilege of using in the state any motor vehicle, except those operated under reciprocal agreements, the provisions of RCW 46.16.160 as now or hereafter amended, or dealer's licenses. The annual amount of such excise tax shall be two percent of the value of such vehicle.

(2) An additional excise tax is imposed, in addition to any other tax imposed by this section, for the privilege of using in the state any such motor vehicle, and the annual amount of such additional excise shall be two-tenths of one percent of the value of such vehicle.

(3) Effective with October 1992 motor vehicle registration expirations, a clean air excise tax is imposed in addition to any other tax imposed by this section for the privilege of using in the state any motor vehicle as defined in RCW 82.44.010, except that the following shall not be subject to the tax imposed by this subsection: (a) Trailers as defined in RCW 46.04.620; (b) semitrailers as defined in RCW 46.04.530; and (c) farm vehicles as defined in RCW 46.04.181. The annual amount of the additional excise tax shall be two dollars and twenty-five cents. Effective with July 1994 motor vehicle registration expirations, the annual amount of additional excise tax shall be two dollars.

(4) In no case shall the total tax be less than two dollars except for proportionally registered vehicles.

~~((4))~~ (5) Washington residents, as defined in RCW 46.16.028, who license motor vehicles in another state or foreign country and avoid Washington motor vehicle excise taxes are liable for such unpaid excise taxes. The department of revenue may assess and collect the unpaid excise taxes under chapter 82.32 RCW, including the penalties and interest provided therein.

Sec. 232. RCW 82.44.110 and 1990 2nd ex.s. c 1 s 801 are each amended to read as follows:

The county auditor shall regularly, when remitting license fee receipts, pay over and account to the director of licensing for the excise taxes collected under the provisions of this chapter. The director shall forthwith transmit the excise taxes to the state treasurer.

(1) The state treasurer shall deposit the excise taxes collected under RCW 82.44.020(1) as follows:

~~((1))~~ (a) 1.60 percent into the motor vehicle fund to defray administrative and other expenses incurred by the department in the collection of the excise tax.

~~((2))~~ (b) 8.15 percent into the Puget Sound capital construction account in the motor vehicle fund.

~~((3))~~ (c) 4.07 percent into the Puget Sound ferry operations account in the motor vehicle fund.

~~((4))~~ (d) 8.83 percent into the general fund to be distributed under RCW 82.44.155.

~~((5))~~ (e) 4.75 percent into the municipal sales and use tax equalization account in the general fund created in RCW 82.14.210.

~~((9))~~ (i) 5.9686 percent into the county criminal justice assistance account created in RCW 82.14.310 through December 31, 1993.

~~((10))~~ (j) 1.1937 percent into the municipal criminal justice assistance account for distribution under RCW 82.14.320 through December 31, 1993.

~~((11))~~ (k) 1.1937 percent into the municipal criminal justice assistance account for distribution under RCW 82.14.330 through December 31, 1993.

(2) The state treasurer shall deposit the excise taxes collected under RCW 82.44.020(2) into the transportation fund.

(3) The state treasurer shall deposit the excise tax imposed by RCW 82.44.020(3) into the air pollution control account created by section 239 of this act.

Sec. 233. RCW 82.44.150 and 1990 c 42 s 308 are each amended to read as follows:

(1) The director of licensing shall, on the twenty-fifth day of February, May, August, and November of each year, advise the state treasurer of the total amount of motor vehicle excise taxes imposed by RCW 82.44.020 (1) and (2) remitted to the department during the preceding calendar quarter ending on the last day of March, June, September, and December, respectively, except for those payable under RCW 82.44.030, from motor vehicle owners residing within each municipality which has levied a tax under RCW 35.58.273, which amount of excise taxes shall be determined by the director as follows:

The total amount of motor vehicle excise taxes remitted to the department, except those payable under RCW 82.44.020(3) and 82.44.030, from each county shall be multiplied by a fraction, the numerator of which is the population of the municipality residing in such county, and the denominator of which is the total population of the county in which such municipality or portion thereof is located. The product of this computation shall be the amount of excise taxes from motor vehicle owners residing within such municipality or portion thereof. Where the municipality levying a tax under RCW 35.58.273 is located in more than one county, the above computation shall be made by county, and the combined products shall provide the total amount of motor vehicle excise taxes from motor vehicle owners residing in the municipality as a whole. Population figures required for these computations shall be supplied to the director by the office of financial management, who shall adjust the fraction annually.

(2) On the first day of the months of January, April, July, and October of each year, the state treasurer based upon information provided by the department shall, from motor vehicle excise taxes deposited in the general fund, under RCW 82.44.110(7), make the following deposits:

(a) To the high capacity transportation account created in RCW 47.78.010, a sum equal to four and five-tenths percent of the special excise tax levied under RCW

35.58.273 by those municipalities authorized to levy a special excise tax within a class AA county, or within a class A county contiguous to a class AA county, or within a second class county contiguous to a class A county that is contiguous to a class AA county;

(b) To the central Puget Sound public transportation account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within a class AA county or within a class A county contiguous to a class AA county, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(b) applies; however, any transfer under this subsection (2)(b) must be greater than zero;

(c) To the public transportation systems account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within counties not described in (b) of this subsection, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(c) applies; however, any transfer under this subsection (2)(c) must be greater than zero; and

(d) To the transportation fund created in RCW 82.44.180, for revenues distributed after June 30, 1991, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent notwithstanding the requirements set forth in subsections (3) through (6) of this section, reduced by an amount equal to distributions made under (a), (b), and (c) of this subsection.

(3) On the first day of the months of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, shall remit motor vehicle excise tax revenues imposed and collected under RCW 35.58.273 as follows:

(a) The amount required to be remitted by the state treasurer to the treasurer of any municipality levying the tax shall not exceed in any calendar year the amount of locally-generated tax revenues, excluding the excise tax imposed under RCW 35.58.273 for the purposes of this section, which shall have been budgeted by the municipality to be collected in such calendar year for any public transportation purposes including but not limited to operating costs, capital costs, and debt service on general obligation or revenue bonds issued for these purposes; and

(b) In no event may the amount remitted in a single calendar quarter exceed the amount collected on behalf of the municipality under RCW 35.58.273 during the calendar quarter next preceding the immediately preceding quarter.

(4) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (3) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year's budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (3) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (3) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year. At the time of the next fiscal audit of each municipality, the state auditor shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

(5) The motor vehicle excise taxes imposed under RCW 35.58.273 and required to be remitted under this section shall be remitted without legislative appropriation.

(6) Any municipality levying and collecting a tax under RCW 35.58.273 which does not have an operating, public transit system or a contract for public transportation services in effect within one year from the initial effective date of the tax shall return to the state treasurer all motor vehicle excise taxes received under subsection (3) of this section.

Sec. 234. RCW 82.44.155 and 1990 c 42 s 309 are each amended to read as follows:

When distributions are made under RCW 82.44.150, the state treasurer shall apportion and distribute the motor vehicle excise taxes deposited into the general fund under RCW 82.44.110(4) to the cities and towns ratably on the basis of population as last determined by the office of financial management. When so apportioned, the amount payable to each such city and town shall be transmitted to the city treasurer thereof, and shall be used by the city or town for the purposes of police and fire protection and the preservation of the public health in the city or town, and not otherwise. If it is adjudged that revenue derived from the excise (~~(tax)~~ taxes imposed by ~~((this chapter))~~ RCW 82.44.020 (1) and (2) cannot lawfully be apportioned or distributed to cities or towns, all moneys directed by this section to be apportioned and distributed to cities and towns shall be credited and transferred to the state general fund.

Sec. 235. RCW 82.44.180 and 1990 c 42 s 312 are each amended to read as follows:

(1) The transportation fund is created in the state treasury. Revenues under RCW 82.44.020 (1) and (2), 82.44.110, 82.44.150, and the surcharge under RCW 82.50.510 shall be deposited into the fund as provided in those sections.

Moneys in the fund may be spent only after appropriation. Expenditures from the fund may be used only for transportation purposes.

(2) There is hereby created the central Puget Sound public transportation account within the transportation fund. Moneys deposited into the account under RCW 82.44.150(2)(b) shall be expended within the three county region from which the funds are derived, solely for:

(a) Development of high capacity transportation systems as defined in RCW 81.104.010;

(b) Development of high occupancy vehicle lanes and related facilities as defined in RCW 81.100.020; and

(c) Public transportation system contributions required to fund projects approved by the transportation improvement board.

(3) There is hereby created the public transportation systems account within the transportation fund. Moneys deposited into the account under RCW 82.44.150(2)(c) shall be available to the public transportation system from which the funds are derived, solely for:

(a) Development of high capacity transportation systems as defined in RCW 81.104.010;

(b) Development of high occupancy vehicle lanes and related facilities as defined in RCW 81.100.020;

(c) Other public transportation system-related roadway projects on state highways, county roads, or city streets; and

(d) Public transportation system contributions required to fund projects approved by the transportation improvement board.

Sec. 236. RCW 82.50.410 and 1990 c 42 s 321 are each amended to read as follows:

The rate and measure of tax imposed by ~~((this chapter))~~ RCW 82.50.400 for each registration year shall be one percent, and a surcharge of one-tenth of one percent, of the value of the travel trailer or camper, as determined in the manner provided in this chapter: PROVIDED, That the excise tax upon a travel trailer or camper licensed for the first time in this state after the last day of any registration month may only be levied for the remaining months of the registration year including the month in which the travel trailer or camper is first licensed: PROVIDED FURTHER, That the minimum amount of tax payable shall be two dollars: PROVIDED FURTHER, That every dealer in mobile homes or travel trailers, for the privilege of using any mobile home or travel trailer eligible to be used under a dealer's license plate, shall pay an excise tax of two dollars, and such tax shall be collected upon the issuance of each original dealer's license plate, and also a similar tax shall be collected upon the issuance of each dealer's duplicate license plate, which taxes shall be in addition to any tax otherwise payable under this chapter.

A travel trailer or camper shall be deemed licensed for the first time in this state when such vehicle was not previously licensed by this state for the registration year or any part thereof immediately preceding the registration year in which application for license is made or when it has been registered in another jurisdiction subsequent to any prior registration in this state.

NEW SECTION. Sec. 237. A new section is added to chapter 82.50 RCW to read as follows:

Effective with October 1992 motor vehicle registration expirations, an additional annual clean air and water excise tax of four dollars and twenty-five cents is imposed on the owner of any travel trailer or camper for the privilege of using such travel trailer or camper in this state. Effective with July 1994 motor vehicle registration expirations, the annual amount of additional excise tax shall be four dollars. The excise tax hereby imposed shall be due and payable to the department of licensing or its agents at the time of registration of a travel trailer or camper. Whenever an application is made to the department of licensing or its agents for a license for a travel trailer or camper there shall be collected, in addition to the amount of the license fee or renewal license fee, the amount of the excise tax imposed by this chapter, and no license or license plates for a travel trailer or camper may be issued unless such tax is paid in full. No additional tax shall be imposed under this chapter upon any travel trailer or camper upon the transfer of ownership thereof, if the tax imposed by this chapter with respect to such travel trailer or camper has already been paid for the registration year or fractional part thereof in which such transfer occurs. Receipts from

the tax levied in this section shall be deposited in the air pollution control account created by section 239 of this act.

Sec. 238. RCW 82.50.510 and 1990 c 42 s 322 are each amended to read as follows:

The county auditor shall regularly, when remitting motor vehicle excise taxes, pay to the state treasurer the excise taxes (~~collected under this chapter~~) imposed by RCW 82.50.400. The treasurer shall then distribute such funds quarterly on the first day of the month of January, April, July and October of each year in the following amount: (1) For the one percent tax imposed under RCW 82.50.410, fifteen percent to cities and towns for the use thereof apportioned ratably among such cities and towns on the basis of population; fifteen percent to counties for the use thereof to be apportioned ratably among such counties on the basis of moneys collected in such counties from the excise taxes imposed under this chapter; and seventy percent for schools to be deposited in the state general fund; and (2) for the one-tenth of one percent surcharge imposed under RCW 82.50.410, one hundred percent to the transportation fund created in RCW 82.44.180.

NEW SECTION. Sec. 239. (1) The air pollution control account is established in the state treasury. All receipts from RCW 70.94.650, 70.94.660, 82.44.020(3), and section 237 of this act shall be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only to develop and implement the provisions of this act and chapters 70.94 and 70.120 RCW.

(2) The amounts collected and allocated in accordance with this section shall be expended upon appropriation except as otherwise provided in this section and in accordance with the following limitations:

Portions of moneys received by the department of ecology from the air pollution control account shall be distributed by the department to local authorities based on:

(a) The level and extent of air quality problems within such authority's jurisdiction;

(b) The costs associated with implementing air pollution regulatory programs by such authority; and

(c) The amount of funding available to such authority from other sources, whether state, federal, or local, that could be used to implement such programs.

(3) The air operating permit account is created in the custody of the state treasurer. All receipts paid to the department of revenue under section 301 of this act shall be deposited into the account. Expenditures from the account may be used only for the direct and indirect costs of implementing the air operating permit program under section 301 of this act. Only the director of the department of ecology or the director's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but no appropriation is required for such expenditures.

NEW SECTION. Sec. 240. A new section is added to chapter 70.120 RCW to read as follows:

(1) It is the intent of the legislature that the state take advantage of the best emission control systems available on new motor vehicles. The department shall conduct a study to determine if requiring new vehicles sold in the state to meet California vehicle emission standards will provide a significant benefit to attainment of ambient air quality standards in this state. The department shall report the findings of its study and its recommendations to the appropriate standing committees of the legislature. The department shall not adopt the California vehicle emission standards unless authorized by the legislature.

(2) In the event that California vehicle emission standards are adopted, the department shall not include a program for in-use testing and recall of vehicles required to meet California emission standards.

NEW SECTION. **Sec. 241.** The department of ecology shall contract with Western Washington University for the biennium ending June 30, 1993, for research and development of alternative fuel and solar powered vehicles. A report on the progress of such research shall be presented to the standing environmental committees and the department by January 1, 1994.

NEW SECTION. **Sec. 242.** A new section is added to chapter 19.112 RCW to read as follows:

The directors of the departments of ecology and agriculture may grant a variance from ASTM motor fuel specifications if necessary to produce lower emission motor fuels.

"III.

INDUSTRIAL AND COMMERCIAL SOURCES"

NEW SECTION. **Sec. 301.** A new section is added to chapter 70.94 RCW to read as follows:

The department of ecology, or board of an authority, shall require renewable permits for the operation of air contaminant sources subject to the following conditions and limitations:

(1) Unless a different meaning is plainly required by the context, the following words and phrases shall have the following meanings:

(a) "Lowest achievable emission rate" (LAER) means for any source that rate of emissions which reflects:

(i) The most stringent emission limitation that is contained in the implementation plan of any state for such class or category of source, unless the owner or operator of the proposed new or modified source demonstrates that such limitations are not achievable; or

(ii) The most stringent emission limitation that is achieved in practice by such class or category of source, whichever is more stringent.

In no event shall the application of this term permit a proposed new or modified source to emit any pollutant in excess of the amount allowable under applicable new source performance standards.

(b) "Best available control technology" (BACT) means technology that will result in an emission limitation, including a visible emission standard, based on the maximum degree of reduction for each air pollutant subject to this regulation that would be emitted from any proposed new or modified source that the permitting authority, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such sources or modification through application of production processes, available methods, systems, and techniques, including fuel cleaning or treatment or innovative fuel combustion techniques for control of such air pollutant. In no event shall application of the best available technology result in emissions of any air pollutant that would exceed the emissions allowed by any applicable standard under 40 C.F.R. Part 60 and Part 61. If the reviewing agency determines that technological or economic limitations on the application of measurement methodology to a particular class of sources would make the imposition of an emission standard infeasible, it may instead prescribe a design, equipment, work practice, or operational standard, or combination thereof, to meet the requirement of best available control technology. Such standard shall, to the degree possible, set forth the emission reduction achievable by implementation of such design, equipment, work practice, or operation and shall provide for compliance by means that achieve equivalent results. The term "all known available and reasonable methods of emission control" is interpreted to mean the same as best available control technology.

(c) "Reasonably available control technology" (RACT) means the lowest emission limit that a particular source or source category is capable of meeting by the

application of control technology that is reasonably available considering technological and economic feasibility. RACT is determined on a case-by-case basis for an individual source or source category taking into account the impact of the source upon air quality, the availability of additional controls, the emission reduction to be achieved by additional controls, the impact of additional controls on air quality, and the capital and operating costs of the additional controls. RACT requirements for any source or source category shall be adopted only after notice and opportunity for comment are afforded.

(d) "Source" means all of the emissions units including quantifiable fugitive emissions, that are located on one or more contiguous or adjacent properties, and are under the control of the same person, or persons under common control, whose activities are ancillary to the production of a single product or functionally related group of products.

(e) "New source" means (i) the construction or modification of a stationary source that increases the amount of any air contaminant emitted by such source or that results in the emission of any air contaminant not previously emitted, and (ii) any other project that constitutes a new source under the federal clean air act.

(f) "Stationary source" means any building, structure, facility, or installation that emits or may emit any air contaminant.

(g) "Modification" means any physical change in, or change in the method of operation of, a stationary source that increases the amount of any air contaminant emitted by such source or that results in the emission of any air contaminant not previously emitted. The term modification shall be construed consistent with the definition of modification in Section 7411, Title 42, United States Code, and with rules implementing that section.

(2) Permits shall be issued for a term of five years. A permit may be modified or amended during its term at the request of the permittee, or for any reason allowed by the federal clean air act. The rules adopted pursuant to subsection (3) of this section shall include rules for permit amendments and modifications.

(3)(a) Rules establishing the elements for a state-wide operating permit program and the process for permit application and renewal consistent with federal requirements shall be established by the department by January 1, 1993. The rules shall provide that every proposed permit must be reviewed prior to issuance by a professional engineer or staff under the direct supervision of a professional engineer in the employ of the permitting authority. The permit program established by these rules shall be administered by the department and delegated local air authorities. Rules developed under this subsection shall not preclude a delegated local air authority from including in a permit its own more stringent emission standards and operating restrictions.

(b) The board of any local air pollution control authority may apply to the department of ecology for a delegation order authorizing the local authority to administer the operating permit program for sources under that authority's jurisdiction. The department shall, by order, approve such delegation, if the department finds that the local authority has the technical and financial resources, to discharge the responsibilities of a permitting authority under the federal clean air act. A delegation request shall include adequate information about the local authority's resources to enable the department to make the findings required by this subsection; provided, any delegation order issued under this subsection shall take effect ninety days after the environmental protection agency authorizes the local authority to issue operating permits under the federal clean air act.

(c) Except for the authority granted the energy facility site evaluation council to issue permits for the new construction, reconstruction, or enlargement or operation of new energy facilities under chapter 80.50 RCW, the department may exercise the authority, as delegated by the environmental protection agency, to administer Title IV

of the federal clean air act as amended and to delegate such administration to local authorities as applicable pursuant to (b) of this subsection.

(4) "Best available control technology" (BACT) is required for new sources except where LAER is required.

"Lowest achievable emission rate" (LAER) is required for those sources required by the federal clean air act.

Except as otherwise provided in RCW 70.94.331(9), "reasonably available control technology" (RACT) is required for existing sources.

In establishing technical standards, defined in subsection (2) of this section, the permitting authority shall consider and, if found to be appropriate, give credit for waste reduction within the process.

(5) Operating permits shall apply to all sources (a) where required by the federal clean air act, and (b) for any source that may cause or contribute to air pollution in such quantity as can reasonably be demonstrated by the department or board of any authority to create a threat to the public health or welfare. Subsection (5)(b) of this section applies only to stationary sources in an area which are emitting a significant portion of substances for which the area is exceeding or threatening to exceed federal or state air quality standards. For purposes of this section areas threatening to exceed air quality standards shall mean areas projected by the department to exceed such standards within five years. Prior to identifying threatened areas the department shall hold a public hearing or hearings within the proposed areas. The intent of this subsection is not to require common small businesses to obtain a permit unless the department can present clear and convincing evidence that requiring small businesses to have a permit under this subsection is essential to meeting federal air quality standards.

(6) Sources operated by government agencies are not exempt under this section.

(7) By October 1, 1993, or ninety days after the United States environmental protection agency approves the state operating permit program, whichever is later, any person required to have a permit shall submit to the permitting agency a compliance plan and permit application, signed by a responsible official, certifying the accuracy of the information submitted. Until permits are issued, existing sources shall be allowed to operate under presently applicable standards and conditions provided that such sources submit complete and timely permit applications.

(8) All proposed permits shall be subject to public notice and comment. The rules adopted pursuant to subsection (3) of this section shall specify procedures for public notice and comment. Such procedures shall provide the permitting agency with an opportunity to respond to comments received from interested parties prior to the time that the proposed permit is submitted to the environmental protection agency for review pursuant to section 505(a) of the federal clean air act. In the event that the environmental protection agency objects to a proposed permit pursuant to section 505(b) of the federal clean air act, the permitting authority shall not issue the permit, unless the permittee consents to the changes required by the environmental protection agency.

(9) The procedures contained in chapter 43.21B RCW shall apply to permit appeals. The pollution control hearings board may stay the effectiveness of any permit issued under this section during the pendency of an appeal filed by the permittee, if the permittee demonstrates that compliance with the permit during the pendency of the appeal would require significant expenditures that would not be necessary in the event that the permittee prevailed on the merits of the appeal.

(10) After the effective date of any permit program promulgated under this section, it shall be unlawful for any person to: (a) Operate a permitted source in violation of any requirement of a permit issued under this section; or (b) fail to submit a permit application at the time required by rules adopted under subsection (3) of this section.

(11) Each air operating permit shall state the origin of and specific legal authority for each requirement included therein. Every requirement in an operating permit shall be based upon the most stringent of the following requirements:

- (a) The federal clean air act and rules implementing that act, including provision of an approved state implementation plan;
- (b) This chapter and rules adopted thereunder; and
- (c) In permits issued by a local air pollution control authority or any order or regulation adopted by that authority.

(12) Consistent with the provisions of the federal clean air act, the permitting authority may issue general permits covering categories of permitted sources, and temporary permits authorizing emissions from similar operations at multiple temporary locations.

(13) Permitted sources within the territorial jurisdiction of an authority delegated the operating permit program shall file their permit applications with that authority, except that permit applications for sources regulated on a state-wide basis pursuant to RCW 70.94.395 shall be filed with the department. Permitted sources outside the territorial jurisdiction of a delegated authority shall file their applications with the department.

(14) When issuing operating permits to coal fired electric generating plants, the permitting authority shall give consideration to the federal time lines for the implementation of required control technology.

(15)(a) Each source emitting one hundred tons or more per year of a regulated pollutant shall pay an interim assessment of ten dollars per ton multiplied by the annual process-related emissions of each regulated pollutant emitted during calendar years 1990 and 1991. "Regulated pollutant" shall have the same meaning as defined in section 502(b) of the federal clean air act amendments of 1990.

(b) Fees collected under (a) of this subsection shall be distributed as follows: Eighty percent to the department and twenty percent to local air authorities.

(c) The fees assessed to a source under (a) of this subsection shall not exceed seventy-five thousand dollars per regulated pollutant per year.

(16) On or before November 1, 1992, the department, in consultation with the department of revenue, shall report to the appropriate standing committees of the legislature recommendations on air operating permit fees. The department shall recommend a level of fees to cover the direct and indirect costs of implementing the operating permit program required under the 1990 federal clean air act. In making such recommendations, the department shall address:

(a) The costs of the permit program elements as identified in regulations promulgated by the United States environmental protection agency, including, as applicable:

- (i) Oversight of a delegated local air authority;
- (ii) Ambient air monitoring, modeling, and reporting;
- (iii) Training;
- (iv) Data management and quality assurance;
- (v) Development of state implementation plans;
- (vi) Emission inventories;
- (vii) Technical assistance;
- (viii) Rule making and guidelines; and
- (ix) Any other activities, consistent with the federal clean air act, that may be identified by the department;

- (b) The appropriate division of fees with delegated local air authorities;
- (c) A methodology for tracking revenues and expenditures from fees paid under this chapter; and
- (d) Assess the methods of collection and accountability for fees.

(17) The department shall determine the persons liable for the fee imposed by subsection (15) of this section, compute the fee, and provide by November 1 of 1991 and 1992, the identity of the fee payer with the computation of the fee to the department of revenue for collection. The department of revenue shall collect the fee computed by the department from the fee payers identified by the department. The administrative, collection, and penalty provisions of chapter 82.32 RCW shall apply to the collection of the fee by the department of revenue. The department shall provide technical assistance to the department of revenue for decisions made by the department of revenue pursuant to RCW 82.32.160 and 82.32.170. All fees collected shall be deposited in the air operating permit account.

All fees identified in this section shall be due and payable on March 1 of 1992 and 1993.

(18) For sources or source categories not required to obtain permits under subsection (5) of this section, the department or local authority may establish by rule control technology requirements. If control technology rule revisions are made by the department or local authority under this subsection, the department or local authority shall consider the remaining useful life of control equipment previously installed on existing sources before requiring technology changes. The department or any local air authority may issue a general permit, as authorized under the federal clean air act, for such sources.

(19) RCW 70.94.151 shall not apply to any source for which a permit under this section has been issued.

Sec. 302. RCW 70.94.152 and 1973 1st ex.s. c 193 s 2 are each amended to read as follows:

(1) The department of ecology or board of any authority may require notice of the ~~((construction, installation, or))~~ establishment of any proposed new ~~((air contaminant))~~ sources except single family and duplex dwellings. The department of ecology or board may require such notice to be accompanied by a fee and determine the amount of such fee: PROVIDED, That the amount of the fee may not exceed the cost of reviewing the plans, specifications, and other information and administering such notice: PROVIDED FURTHER, That any such notice given or notice of construction application submitted to either the board or to the department of ecology shall preclude a further ~~((notice))~~ submittal of a duplicate application to ~~((be given to))~~ any ~~((other))~~ board or to the department of ecology. Within thirty days of ~~((its))~~ receipt of ~~((such notice))~~ a notice of construction application, the department of ecology or board may require, as a condition precedent to the ~~((construction, installation, or))~~ establishment of the ~~((air contaminant))~~ new source or sources covered thereby, the submission of plans, specifications, and such other information as it deems necessary ~~((in order))~~ to determine whether the proposed ~~((construction, installation, or establishment))~~ new source will be in accord with applicable rules and regulations in force ~~((pursuant to))~~ under this chapter~~((, and will provide all known available and reasonable methods of emission control))~~. If on the basis of plans, specifications, or other information required ~~((pursuant to))~~ under this section the department of ecology or board determines that the proposed ~~((construction, installation, or establishment))~~ new source will not be in accord with this chapter or the applicable ordinances, resolutions, rules, and regulations adopted ~~((pursuant thereto, or will not provide all known available and reasonable means of emission control))~~ under this chapter, it shall issue an order ~~((for the prevention of the construction, installation, or establishment of the air contaminant source or sources))~~ denying permission to establish the new source. If on the basis of plans, specifications, or other information required ~~((pursuant to))~~ under this section, the department of ecology or board determines that the proposed ~~((construction, installation, or establishment))~~ new source will be in accord with this chapter, and the applicable ~~((ordinances, resolutions,))~~ rules~~((,))~~ and regulations adopted ~~((pursuant thereto and will provide all known available and reasonable methods of emission control))~~

~~control)) under this chapter, it shall issue an order of approval ((ef)) for the ((construction, installation, and)) establishment of the ((air contaminant)) new source or sources, which order may provide such conditions ((of operation)) as are reasonably necessary to assure the maintenance of compliance with this chapter and the applicable ((ordinances, resolutions,)) rules((;)) and regulations adopted ((pursuant thereto)) under this chapter. Every order of approval under this chapter must be reviewed prior to issuance by a professional engineer or staff under the supervision of a professional engineer in the employ of the department of ecology or board.~~

~~(2) ((For the purposes of this chapter, addition to or enlargement or replacement of an air contaminant source, or any major alteration therein, shall be construed as construction or installation or establishment of a new air contaminant source.)) The determination((;)) required under subsection (1) of this section((, of whether a proposed construction, installation, or establishment will be in accord with this chapter and the applicable ordinances, resolutions, rules, and regulations adopted pursuant thereto)) shall include a determination of whether the operation of the new air contaminant source at the location proposed will cause any ambient air quality standard to be exceeded.~~

~~(3) New source review of a modification shall be limited to the emission unit or units proposed to be modified and the air contaminants whose emissions would increase as a result of the modification.~~

~~(4) Nothing in this section shall be construed to authorize the department of ecology or board to require the use of emission control equipment or other equipment, machinery, or devices of any particular type, from any particular supplier, or produced by any particular manufacturer.~~

~~((4)) (5) Any features, machines, and devices constituting parts of or called for by plans, specifications, or other information submitted pursuant to subsection (1) ((hereof)) of this section shall be maintained and operate in good working order.~~

~~((5)) (6) The absence of an ordinance, resolution, rule, or regulation, or the failure to issue an order pursuant to this section shall not relieve any person from his or her obligation to comply with ((any)) applicable emission control requirements or with any other provision of law.~~

~~(7) Within thirty days of receipt of a notice of construction application the department of ecology or board shall either notify the applicant in writing that the application is complete or notify the applicant in writing of all additional information necessary to complete the application. Within sixty days of receipt of a complete application the department or board shall either (a) issue a final decision on the application, or (b) for those projects subject to public notice, initiate notice and comment on a proposed decision, followed as promptly as possible by a final decision.~~

NEW SECTION. Sec. 303. A new section is added to chapter 70.94 RCW to read as follows:

Any person proposing to replace or substantially alter the emission control technology installed on an existing stationary source emission unit shall file a notice of construction application with the jurisdictional permitting authority. For projects not otherwise reviewable under RCW 70.94.152, the permitting authority may (1) require that the owner or operator employ reasonably available control technology for the affected emission unit and (2) may prescribe reasonable operation and maintenance conditions for the control equipment. Within thirty days of receipt of an application for notice of construction under this section the permitting authority shall either notify the applicant in writing that the application is complete or notify the applicant in writing of all additional information necessary to complete the application. Within thirty days of receipt of a complete application the permitting authority shall either issue an order of approval or a proposed RACT determination for the proposed project. Construction shall not commence on a project subject to review under this section until the permitting authority issues a final order of approval. However, any notice of

construction application filed under this section shall be deemed to be approved without conditions if the permitting authority takes no action within thirty days of receipt of a complete application for a notice of construction.

NEW SECTION. Sec. 304. A new section is added to chapter 70.94 RCW to read as follows:

The department shall prepare recommendations to reduce air emissions for source categories not generally required to have a permit under section 301 of this act. Such recommendations shall not require any action by the owner or operator of a source and shall be consistent with rules adopted under chapter 70.95C RCW. The recommendations shall include but not be limited to: Process changes, product substitution, equipment modifications, hazardous substance use reduction, recycling, and energy efficiency.

Sec. 305. RCW 70.94.155 and 1981 c 224 s 1 are each amended to read as follows:

(1) As used in subsection (3) of this section, the term "bubble" means an air pollution control system which permits aggregate measurements of allowable emissions, for a single category of pollutant, for emissions points from a specified emissions-generating facility or facilities. Individual point source emissions levels from such specified facility or facilities may be modified provided that the aggregate limit for the specified sources is not exceeded.

(2) Whenever any regulation relating to emission standards or other requirements for the control of emissions is adopted which provides for compliance with such standards or requirements no later than a specified time after the date of adoption of the regulation, the appropriate activated air pollution control authority or, if there be none, the department of ecology shall, by permit or regulatory order, issue to air contaminant sources subject to the standards or requirements, schedules of compliance setting forth timetables for the achievement of compliance as expeditiously as practicable, but in no case later than the time specified in the regulation. Interim dates in such schedules for the completion of steps of progress toward compliance shall be as enforceable as the final date for full compliance therein.

(3) Wherever requirements necessary for the attainment of air quality standards or, where such standards are not exceeded, for the maintenance of air quality can be achieved through the use of a control program involving the bubble concept, such program may be authorized by a regulatory order or orders or permit issued to the air contaminant source or sources involved. Such order or permit shall only be authorized after the control program involving the bubble concept is accepted by United States environmental protection agency as part of an approved state implementation plan. Any such order or permit provision shall restrict total emissions within the bubble to no more than would otherwise be allowed in the aggregate for all emitting processes covered. The orders or permits provided for by this subsection shall be issued by the department or the authority with jurisdiction. If the bubble involves interjurisdictional approval, concurrence in the total program must be secured from each regulatory entity concerned.

Sec. 306. RCW 70.94.181 and 1983 c 3 s 176 are each amended to read as follows:

(1) Any person who owns or is in control of any plant, building, structure, establishment, process or equipment may apply to the department of ecology (~~where it has regulatory authority under RCW 70.94.390, 70.94.395, 70.94.410, and 70.94.420,)~~ or appropriate local authority board for a variance from rules or regulations governing the quality, nature, duration or extent of discharges of air contaminants. The application shall be accompanied by such information and data as the department of ecology or board may require. The department of ecology or board may grant such variance, provided that variances to state rules shall require the department's approval prior to being issued by a local authority board. The total time period for a variance

and renewal of such variance shall not exceed one year. Variances may be issued by either the department or a local board but only after public hearing or due notice, if ((#)) the department or board finds that:

(a) The emissions occurring or proposed to occur do not endanger public health or safety or the environment; and

(b) Compliance with the rules or regulations from which variance is sought would produce serious hardship without equal or greater benefits to the public.

(2) No variance shall be granted pursuant to this section until the department of ecology or board has considered the relative interests of the applicant, other owners of property likely to be affected by the discharges, and the general public.

(3) Any variance or renewal thereof shall be granted within the requirements of subsection (1) ~~((and for time periods))~~ of this section and under conditions consistent with the reasons therefor, and within the following limitations:

(a) If the variance is granted on the ground that there is no practicable means known or available for the adequate prevention, abatement or control of the pollution involved, it shall be only until the necessary means for prevention, abatement or control become known and available, and subject to the taking of any substitute or alternate measures that the department of ecology or board may prescribe.

~~(b) ((If the application for variance shows that there is no automobile fragmentizer within a reasonable distance of the wrecking yard for which the variance is sought, a variance will be granted for a period not to exceed three years for commercial burning of automobile hulks, subject to such conditions as the department of ecology may impose as to climatic conditions and hours during which burning of such hulks may be carried out. PROVIDED, HOWEVER, That any variance granted hereunder shall be of no force and effect after July 1, 1970.~~

~~(e))~~ If the variance is granted on the ground that compliance with the particular requirement or requirements from which variance is sought will require the taking of measures which, because of their extent or cost, must be spread over a considerable period of time, it shall be for a period not to exceed such reasonable time as, in the view of the department of ecology or board is requisite for the taking of the necessary measures. A variance granted on the ground specified herein shall contain a timetable for the taking of action in an expeditious manner and shall be conditioned on adherence to such timetable.

~~((#))~~ ~~(c)~~ If the variance is granted on the ground that it is justified to relieve or prevent hardship of a kind other than that provided for in ~~((item))~~ ~~(a)~~ ~~((b))~~ and ~~((e))~~ ~~(b)~~ ~~of this ((subparagraph)) subsection~~, it shall be for not more than one year.

(4) Any variance granted pursuant to this section may be renewed on terms and conditions and for periods which would be appropriate on initial granting of a variance. If complaint is made to the department of ecology or board on account of the variance, no renewal thereof shall be granted unless following a public hearing on the complaint on due notice the ~~((state board))~~ department or board finds that renewal is justified. No renewal shall be granted except on application therefor. Any such application shall be made at least sixty days prior to the expiration of the variance. Immediately upon receipt of an application for renewal, the department of ecology or board shall give public notice of such application in accordance with rules ~~((and regulations))~~ of the department of ecology or board.

(5) A variance or renewal shall not be a right of the applicant or holder thereof but shall be granted at the discretion of the department of ecology or board. However, any applicant adversely affected by the denial or the terms and conditions of the granting of an application for a variance or renewal of a variance by the department of ecology or board may obtain judicial review thereof under the provisions of chapter 34.05 RCW as now or hereafter amended.

(6) Nothing in this section and no variance or renewal granted pursuant hereto shall be construed to prevent or limit the application of the emergency provisions and procedures of RCW 70.94.710 through 70.94.730 to any person or his or her property.

(7) An application for a variance, or for the renewal thereof, submitted to the department of ecology or board pursuant to this section shall be approved or disapproved by the department or board within sixty-five days of receipt unless the applicant and the department of ecology or board agree to a continuance.

(8) Variances approved under this section shall not be included in orders or permits provided for in section 301 of this act or RCW 70.94.152 until such time as the variance has been accepted by the United States environmental protection agency as part of an approved state implementation plan.

Sec. 307. RCW 70.94.205 and 1973 1st ex.s. c 193 s 4 are each amended to read as follows:

Whenever any records or other information, other than ambient air quality data or emission data, furnished to or obtained by the department of ecology or the board of any authority (~~pursuant to any sections in chapter 70.94 RCW~~) under this chapter, relate to processes or production unique to the owner or operator, or is likely to affect adversely the competitive position of such owner or operator if released to the public or to a competitor, and the owner or operator of such processes or production so certifies, such records or information shall be only for the confidential use of the department of ecology or board. Nothing herein shall be construed to prevent the use of records or information by the department of ecology or board in compiling or publishing analyses or summaries relating to the general condition of the outdoor atmosphere: PROVIDED, That such analyses or summaries do not reveal any information otherwise confidential under the provisions of this section: PROVIDED FURTHER, That emission data furnished to or obtained by the department of ecology or board shall be correlated with applicable emission limitations and other control measures and shall be available for public inspection during normal business hours at offices of the department of ecology or board.

NEW SECTION. **Sec. 308.** A new section is added to chapter 70.94 RCW to read as follows:

The department shall establish a technical assistance unit within its air quality program, consistent with the federal clean air act, to provide the regulated community, especially small businesses with:

- (1) Information on air pollution laws, rules, compliance methods, and technologies;
- (2) Information on air pollution prevention methods and technologies, and prevention of accidental releases;
- (3) Assistance in obtaining permits and developing emission reduction plans;
- (4) Information on the health and environmental effects of air pollution.

No representatives of the department designated as part of the technical assistance unit created in this section may have any enforcement authority. Staff of the technical assistance unit who provide on-site consultation at an industrial or commercial facility and who observe violations of air quality rules shall immediately inform the owner or operator of the facility of such violations. On-site consultation visits shall not be regarded as an inspection or investigation and no notices or citations may be issued or civil penalties assessed during such a visit. However, violations shall be reported to the appropriate enforcement agency and the facility owner or operator shall be notified that the violations will be reported. No enforcement action shall be taken by the enforcement agency for violations reported by technical assistance unit staff unless and until the facility owner or operator has been provided reasonable time to correct the violation. Violations that place any person in imminent danger of death or substantial bodily harm or cause physical damage to the property of another in an

amount exceeding one thousand dollars may result in immediate enforcement action by the appropriate enforcement agency.

Sec. 309. RCW 70.94.211 and 1974 ex.s. c 69 s 4 are each amended to read as follows:

~~((Whenever the board or the control officer has reason to believe that any provision of this chapter or any ordinance, resolution, rule or regulation relating to the control or prevention of air pollution has been violated, such board or control officer may))~~ At least thirty days prior to the commencement of any formal enforcement action under RCW 70.94.430 or 70.94.431 a local air authority shall cause written notice to be served upon the alleged violator or violators. The notice shall specify the provision of this chapter or the ordinance, resolution, rule or regulation alleged to be violated, and the facts alleged to constitute a violation thereof, and may include an order directing that necessary corrective action be taken within a reasonable time. In lieu of an order, the board or the control officer may require that the alleged violator or violators appear before the board for a hearing~~((or in addition to or in place of an order or hearing, the board may initiate action pursuant to RCW 70.94.425, 70.94.430, and 70.94.435)).~~ Every notice of violation shall offer to the alleged violator an opportunity to meet with the board prior to the commencement of enforcement action.

Sec. 310. RCW 70.94.430 and 1984 c 255 s 1 are each amended to read as follows:

(1) Any person who knowingly violates any of the provisions of ~~((this))~~ chapter 70.94 or 70.120 RCW, or any ordinance, resolution, ~~((rule))~~ or regulation in force pursuant thereto shall be guilty of a ~~((misdemeanor))~~ crime and upon conviction thereof shall be punished by a fine of not more than ~~((one))~~ ten thousand dollars, or by imprisonment in the county jail for not more than ~~((ninety days))~~ one year, or by both ~~((fine and imprisonment))~~ for each separate violation.

~~((Any person who wilfully violates any of the provisions of this chapter or any ordinance, resolution, rule or regulation in force pursuant thereto shall be guilty of a gross misdemeanor. Upon conviction the offender shall be punished by a fine of not less than one hundred dollars for each offense or by imprisonment for a term of not more than one year or by both fine and imprisonment.~~

~~In case of a continuing violation, whether or not wilfully committed, each day's continuance shall be a separate and distinct violation.))~~

(2) Any person who negligently releases into the ambient air any substance listed by the department of ecology as a hazardous air pollutant, other than in compliance with the terms of an applicable permit or emission limit, and who at the time negligently places another person in imminent danger of death or substantial bodily harm shall be guilty of a crime and shall, upon conviction, be punished by a fine of not more than ten thousand dollars, or by imprisonment for not more than one year, or both.

(3) Any person who knowingly releases into the ambient air any substance listed by the department of ecology as a hazardous air pollutant, other than in compliance with the terms of an applicable permit or emission limit, and who knows at the time that he or she thereby places another person in imminent danger of death or substantial bodily harm, shall be guilty of a crime and shall, upon conviction, be punished by a fine of not less than fifty thousand dollars, or by imprisonment for not more than five years, or both.

(4) Any person who knowingly fails to disclose a potential conflict of interest under RCW 70.94.100 shall be guilty of a gross misdemeanor, and upon conviction thereof shall be punished by a fine or not more than five thousand dollars.

Sec. 311. RCW 70.94.431 and 1990 c 157 s 1 are each amended to read as follows:

(1) In addition to or as an alternate to any other penalty provided by law, any person who violates any of the provisions of chapter 70.94 RCW, chapter 70.120 RCW,

or any of the rules ((and regulations of the department or the board shall)) in force under such chapters may incur a civil penalty in an amount not to exceed ((one)) ten thousand dollars ((per day)) for each day of violation. Each such violation shall be a separate and distinct offense, and in case of a continuing violation, each day's continuance shall be a separate and distinct violation. ((For the purposes of this subsection, the maximum daily fine imposed by a local board for violations of standards by a specific emissions unit is one thousand dollars.))

Any person who fails to take action as specified by an order issued pursuant to this chapter shall be liable for a civil penalty of not more than ten thousand dollars for each day of continued noncompliance. (2) Penalties incurred but not paid shall accrue interest, beginning on the ninety-first day following the date that the penalty becomes due and payable, at the highest rate allowed by RCW 19.52.020 on the date that the penalty becomes due and payable. If violations or penalties are appealed, interest shall not begin to accrue until the thirty-first day following final resolution of the appeal.

The maximum penalty amounts established in this section may be increased annually to account for inflation as determined by the state office of the economic and revenue forecast council.

((2) Further, the person is subject to a fine of up to five thousand dollars to be levied by the director of the department of ecology if requested by the board of a local authority or if the director determines that the penalty is needed for effective enforcement of this chapter. A local board shall not make such a request until notice of violation and compliance order procedures have been exhausted, if such procedures are applicable. For the purposes of this subsection, the maximum daily fine imposed by the department of ecology for violations of standards by a specific emissions unit is five thousand dollars.))

(3) Each act of commission or omission which procures, aids or abets in the violation shall be considered a violation under the provisions of this section and subject to the same penalty. The penalties provided in this section shall be imposed pursuant to RCW 43.21B.300.

(4) All penalties recovered under this section by the department shall be paid into the state treasury and credited to the ((general fund)) air pollution control account established in section 239 of this act or, if recovered by the authority, shall be paid into the treasury of the authority and credited to its funds. If a prior penalty for the same violation has been paid to a local authority, the penalty imposed by the department under subsection ((2)) (1) of this section shall be reduced by the amount of the payment. ((Notwithstanding any other provisions of this chapter, no penalty may be levied for the violation of any opacity standard in an amount exceeding four hundred dollars per day.))

(5) To secure the penalty incurred under this section, the state or the authority shall have a lien on any vessel used or operated in violation of this chapter which shall be enforced as provided in RCW 60.36.050.

(6) Public or private entities that are recipients or potential recipients of department grants, whether for air quality related activities or not, may have such grants rescinded or withheld by the department for failure to comply with provisions of this chapter.

(7) In addition to other penalties provided by this chapter, persons knowingly under-reporting emissions or other information used to set fees, or persons required to pay emission or permit fees who are more than ninety days late with such payments may be subject to a penalty equal to three times the amount of the original fee owed.

(8) An exceedance of an emission limit resulting from an upset, malfunction, or Act of God is not a violation of this chapter, provided that the operator of the source took all reasonable measures to prevent the exceedance and to minimize its duration and severity, and that the exceedance did not cause a violation of an ambient

air quality standard. In any enforcement proceeding the person seeking to establish the occurrence of an upset, malfunction, or Act of God has the burden of proof as to all elements of the defense.

Sec. 312. RCW 70.94.860 and 1984 c 164 s 2 are each amended to read as follows:

The department of ecology may accept delegation of ~~((the prevention of significant deterioration program pursuant to Part C, Subpart 1 of))~~ programs as provided for in the federal clean air act. Subject to federal approval, the department may, in turn, delegate ((this)) such programs to the local authority with jurisdiction in a given area.

Sec. 313. RCW 70.94.875 and 1985 c 456 s 3 are each amended to read as follows:

The department of ecology, in consultation with the ~~((joint legislative committee on science and technology or the))~~ appropriate committees of the house of representatives and of the senate, shall:

- (1) Continue evaluation of information and research on acid deposition in the Pacific Northwest region;
- (2) Establish critical levels of acid deposition and lake, stream, and soil acidification; and
- (3) Notify the legislature if acid deposition or lake, stream, and soil acidification reaches the levels established under subsection (2) of this section.

NEW SECTION. Sec. 314. A new section is added to chapter 70.94 RCW to read as follows:

(1) The science advisory board is hereby created to advise the department on procedures for assessing and managing the risks associated with air contaminant emissions. The board shall consist of five members knowledgeable in the fields of risk assessment or risk management. Members shall be appointed by the director of the department. The board shall be staffed by the department.

(2) The board shall:

- (a) Advise the department on the most appropriate methods for identifying and measuring cancer risks or other chronic health effects resulting from exposure to air contaminant emissions; and
- (b) Identify, evaluate, and recommend procedures relating to managing the risks associated with exposure to air contaminant emissions.

(3) In fulfilling its duties under subsection (2) of this section, the board shall consider all appropriate studies and reports relating to risk assessment or risk management including but not limited to reports authorized by the federal clean air act from the national academy of sciences and the risk assessment and risk management commission.

(4) Members shall be compensated as provided in RCW 43.03.250 and shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

(5) The duties of the board shall terminate on July 1, 1996.

NEW SECTION. Sec. 315. A new section is added to chapter 70.94 RCW to read as follows:

Nothing in this chapter shall be construed to authorize the department or local air authority to adopt or enforce emission control requirements for gasoline vapor control except as required pursuant to section 182 (b) through (e) of the federal clean air act as amended.

"IV. OUTDOOR BURNING"

Sec. 401. RCW 70.94.745 and 1972 ex.s. c 136 s 2' are each amended to read as follows:

It shall be the responsibility and duty of the department of natural resources, department of ecology, department of agriculture, fire districts, and local air pollution control authorities to establish, through regulations, ordinances, or policy, a limited burning program for the people of this state, consisting of a one-permit system, until such time as ~~((an))~~ alternate technology or methods of disposing of the organic refuse ~~((described in this chapter shall))~~ have been developed ~~((which is))~~ that are reasonably economical and less harmful to the environment. It is the policy of this state to ~~((encourage the fostering and development of such))~~ foster and encourage development of alternate methods or technology for disposing of or reducing the amount of organic refuse.

NEW SECTION. Sec. 402. A new section is added to chapter 70.94 RCW to read as follows:

(1) Consistent with the policy of the state to reduce outdoor burning to the greatest extent practical:

(a) Outdoor burning shall not be allowed in any area of the state where federal or state ambient air quality standards are exceeded for pollutants emitted by outdoor burning.

(b) Outdoor burning shall not be allowed in any urban growth area as defined by RCW 36.70A.030, or any city of the state having a population greater than ten thousand people if such cities are threatened to exceed state or federal air quality standards, and alternative disposal practices consistent with good solid waste management are reasonably available or practices eliminating production of organic refuse are reasonably available. In no event shall such burning be allowed after December 31, 2000.

(2) "Outdoor burning" means the combustion of material of any type in an open fire or in an outdoor container without providing for the control of combustion or the control of emissions from the combustion.

(3) This section shall not apply to silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas.

NEW SECTION. Sec. 403. A new section is added to chapter 70.94 RCW to read as follows:

(1) The department of natural resources shall administer a program to reduce state-wide emissions from silvicultural forest burning so as to achieve the following minimum objectives:

(a) Twenty percent reduction by December 31, 1994 providing a ceiling for emissions until December 31, 2000; and

(b) Fifty percent reduction by December 31, 2000 providing a ceiling for emissions thereafter.

Reductions shall be calculated from the average annual emissions level from calendar years 1985 to 1989, using the same methodology for both reduction and base year calculations.

(2) The department of natural resources, within twelve months after the effective date of this section, shall develop a plan, based upon the existing smoke management agreement to carry out the programs as described in this section in the most efficient, cost-effective manner possible. The plan shall be developed in consultation with the department of ecology, public and private landowners engaged in silvicultural forest burning, and representatives of the public.

The plan shall recognize the variations in silvicultural forest burning including, but not limited to, a landowner's responsibility to abate an extreme fire hazard under chapter 76.04 RCW and other objectives of burning, including abating and preventing a fire hazard, geographic region, climate, elevation and slope, proximity to populated areas, and diversity of land ownership. The plan shall establish priorities that the

department of natural resources shall use to allocate allowable emissions, including but not limited to, silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas. The plan shall also recognize the real costs of the emissions program and recommend equitable fees to cover the costs of the program.

The emission reductions in this section are to apply to all forest lands including those owned and managed by the United States. If the United States does not participate in implementing the plan, the departments of natural resources and ecology shall use all appropriate and available methods or enforcement powers to ensure participation.

The plan shall include a tracking system designed to measure the degree of progress toward the emission reductions goals set in this section. The department of natural resources shall report annually to the department of ecology and the legislature on the status of the plan, emission reductions and progress toward meeting the objectives specified in this section, and the goals of this chapter and chapter 76.04 RCW.

(3) If the December 31, 1994, emission reductions targets in this section are not met, the department of natural resources, in consultation with the department of ecology, shall use its authority granted in this chapter and chapter 76.04 RCW to immediately limit emissions from such burning to the 1994 target levels and limit silvicultural forest burning in subsequent years to achieve equal annual incremental reductions so as to achieve the December 31, 2000, target level. If, as a result of the program established in this section, the emission reductions are met in 1994, but are not met by December 31, 2000, the department of natural resources in consultation with the department of ecology shall immediately limit silvicultural forest burning to reduce emissions from such burning to the December 31, 2000, target level in all subsequent years.

Sec. 404. RCW 70.94.660 and 1971 ex.s. c 232 s 2 are each amended to read as follows:

(1) The department of natural resources shall have the responsibility for issuing and regulating burning permits required by it relating to the following activities ~~((declared to be))~~ for the protection of life or property and/or ~~((in))~~ for the public health, safety, and welfare:

~~((1))~~ (a) Abating a forest fire hazard;

~~((2))~~ (b) Prevention of a fire hazard;

~~((3))~~ (c) Instruction of public officials in methods of forest fire fighting; ~~((and~~

~~(4))~~ (d) Any silvicultural operation to improve the forest lands of the state; and

(e) Silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas.

(2) The department of natural resources shall not retain such authority, but it shall be the responsibility of the appropriate fire protection agency for permitting and regulating outdoor burning on lands where the department of natural resources does not have fire protection responsibility.

(3) Permit fees shall be assessed for silvicultural burning under the jurisdiction of the department of natural resources and collected by the department of natural resources as provided for in this section. All fees shall be deposited in the air pollution control account, created in section 239 of this act. The legislature shall appropriate to the department of natural resources funds from the air pollution control account to enforce and administer the program under section 403 of this act and RCW 70.94.660, 70.94.670, and 70.94.690. Fees shall be set by rule by the department of natural resources at the level necessary to cover the costs of the program after

receiving recommendations on such fees from the forest fire advisory board established by RCW 76.04.145.

Sec. 405. RCW 70.94.670 and 1971 ex.s. c 232 s 3 are each amended to read as follows:

The department of natural resources in granting burning permits for fires for the purposes set forth in RCW 70.94.660 shall condition the issuance and use of such permits to comply with air quality standards established by the department of ecology after full consultation with the department of natural resources. Such burning shall not cause the state air quality standards (~~for suspended particulate matter~~) to be exceeded in the ambient air up to two thousand feet above ground level over critical areas designated by the department of ecology, otherwise subject to air pollution from other sources. Air quality standards (~~for suspended particulate matter~~) shall be established and published by the department of ecology which shall also establish a procedure for advising the department of natural resources when ~~(the)~~ and where air contaminant levels exceed((s)) or threaten((s)) to exceed the ambient air standards over such critical areas. The ~~((suspended particulate matter))~~ air quality shall be quantitatively measured by the department of ecology or the appropriate local air pollution control authority at established ((primary air mass stations or primary ground level)) monitoring stations over such designated areas. Further, such permitted burning shall not cause damage to public health or the environment. All permits issued under this section shall be subject to all applicable fees, permitting, penalty, and enforcement provisions of this chapter. The department of natural resources shall set forth smoke dispersal objectives designed consistent with this section to minimize any air pollution (~~from smoke~~) from such burning and the procedures necessary to meet those objectives.

The department of natural resources shall encourage more intense utilization in logging and alternative silviculture practices to reduce ~~((forest fire hazards and shall encourage development and use of procedures and equipment to burn forest debris in a manner that will produce less smoke))~~ the need for burning. The department of natural resources shall, whenever practical, encourage ~~((development))~~ landowners to develop and use ((of) alternative acceptable disposal methods subject to the following priorities: (1) Slash production minimization, (2) slash utilization, (3) nonburning disposal, (4) silvicultural burning. Such alternative methods shall be evaluated as to the relative impact on air, water, and land pollution, public health, and their financial feasibility.

The department of natural resources shall not issue burning permits and shall revoke previously issued permits at any time in any area where the department of ecology or local board has declared a stage of impaired air quality as defined in RCW 70.94.473.

Sec. 406. RCW 70.94.690 and 1971 ex.s. c 232 s 5 are each amended to read as follows:

In the regulation of outdoor burning not included in RCW 70.94.660 requiring permits from the department of natural resources, said department and the state, local, or regional air pollution control authorities will cooperate in regulating such burning so as to minimize insofar as possible duplicate inspections and separate permits while still accomplishing the objectives and responsibilities of the respective agencies. The department of natural resources shall include any local authority's burning regulations with permits issued where applicable pursuant to RCW 70.94.740 through 70.94.775. The department shall develop agreements with all local authorities to coordinate regulations.

Permits shall be withheld by the department of natural resources when so requested by the department of ecology if a forecast, alert, warning, or emergency condition exists as defined in the episode criteria of the department of ecology.

NEW SECTION. Sec. 407. A new section is added to chapter 70.94 RCW to read as follows:

Nothing contained in this chapter shall prohibit fires necessary: (1) To promote the regeneration of rare and endangered plants found within natural area preserves as identified under chapter 79.70 RCW; and (2) for Indian ceremonies or for the sending of smoke signals if part of a religious ritual. Permits issued for burning under this section shall be drafted to minimize emissions including denial of permission to burn during periods of adverse meteorological conditions.

Sec. 408. RCW 70.94.650 and 1971 ex.s. c 232 s 1 are each amended to read as follows:

(1) Any person who proposes to set fires in the course of ~~((the following: (1)) (a) weed abatement, ((2)) (b) instruction in methods of fire fighting (except forest fires), or ((3) Disease prevention relating to)) (c) agricultural activities, shall, prior to carrying out the same, obtain a permit from an air pollution control authority or the department of ecology, as appropriate. Each such authority and the department of ecology shall, by rule or ordinance, establish a permit system to carry out the provisions of this section except as provided in RCW 70.94.660. General criteria of state-wide applicability for ruling on such permits shall be established by the department, by rule ~~((or regulation)),~~ after consultation with the various air pollution control authorities. Permits shall be issued under this section based on seasonal operations or by individual operations, or both~~((: PROVIDED, That))~~. All permits so issued shall be conditioned to insure that the public interest in air, water, and land pollution and safety to life and property is fully considered. In addition to any other requirements established by the department to protect air quality pursuant to other laws, applicants for permits must show that the setting of fires as requested is the most reasonable procedure to follow in safeguarding life or property under all circumstances or is otherwise reasonably necessary to successfully carry out the enterprise in which the applicant is engaged ((in)), or both. All burning permits will be designed to minimize air pollution insofar as practical. Nothing in this section shall relieve the applicant from obtaining permits, licenses, or other approvals required by any other law~~((: PROVIDED FURTHER, That))~~. An application for a permit to set fires in the course of agricultural burning for controlling diseases, insects, ~~((and)) weed abatement or development of physiological conditions conducive to increased crop yield, shall be ((granted)) acted upon within ((fourteen)) seven days from the date such application is filed((: PROVIDED, That nothing herein shall prevent a householder from setting fire in the course of burning leaves, clippings or trash when otherwise permitted locally. Nothing contained herein shall prohibit Indian campfires or the sending of smoke signals if part of a religious ritual)).~~~~

(2) Except as provided in RCW 70.94.780 permit fees shall be assessed for outdoor burning under this section and shall be collected by the department of ecology or the appropriate local air authority at the time the permit is issued. All fees collected shall be deposited in the air pollution control account created in section 239 of this act. Fees shall be set by rule by the permitting agency at the level determined by the task force created by subsection (4) of this section, but shall not exceed two dollars and fifty cents per acre to be burned. After fees are established by rule, any increases in such fees shall be limited to annual inflation adjustments as determined by the state office of the economic and revenue forecast council.

(3) Conservation districts and the Washington State University agricultural extension program in conjunction with the department shall develop public education material for the agricultural community identifying the health and environmental affects of agricultural outdoor burning and providing technical assistance in alternatives to agricultural outdoor burning.

(4) An agricultural burning practices and research task force shall be established under the direction of the department. The task force shall be composed of a representative from the department who shall serve as chair; one representative of

eastern Washington local air authorities; three representatives of the agricultural community from different agricultural pursuits; one representative of the department of agriculture; two representatives from universities or colleges knowledgeable in agricultural issues; one representative of the public health or medical community; and one representative of the conservation districts. The task force shall identify best management practices for reducing air contaminant emissions from agricultural activities and provide such information to the department and local air authorities. The task force shall determine the level of fees to be assessed by the permitting agency pursuant to subsection (2) of this section, based upon the level necessary to cover the costs of administering and enforcing the permit programs, to provide funds for research into alternative methods to reduce emissions from such burning, and to the extent possible be consistent with fees charged for such burning permits in neighboring states. The fee level shall provide, to the extent possible, for lesser fees for permittees who use best management practices to minimize air contaminant emissions. The task force shall identify research needs related to minimizing emissions from agricultural burning and alternatives to such burning. Further, the task force shall make recommendations to the department on priorities for spending funds provided through this chapter for research into alternative methods to reduce emissions from agricultural burning.

Sec. 409. RCW 70.94.654 and 1973 1st ex.s. c 193 s 6 are each amended to read as follows:

Whenever the department of ecology shall find that any fire protection agency, county, or conservation district which is outside the jurisdictional boundaries of an activated air pollution control authority is capable of effectively administering the issuance and enforcement of permits for any or all of the kinds of burning identified in RCW 70.94.650 ~~((1) and (3))~~ and desirous of doing so, the department of ecology may delegate ~~((all))~~ powers necessary for the issuance ~~((and))~~ or enforcement, or both, of permits for any or all of the kinds of burning to the fire protection agency, county, or conservation district. Such delegation may be withdrawn by the department of ecology upon ~~((a))~~ its finding that the fire protection agency, county, or conservation district is not effectively administering the permit program.

Sec. 410. RCW 70.94.775 and 1974 ex.s. c 164 s 1 are each amended to read as follows:

No person shall cause or allow any outdoor fire:

(1) Containing garbage, dead animals, asphalt, petroleum products, paints, rubber products, plastics, or any substance other than natural vegetation ~~((which))~~ that normally emits dense smoke or obnoxious odors ~~((except as provided in RCW 70.94.650: PROVIDED, That))~~. Agricultural heating devices ~~((which))~~ that otherwise meet the requirements of this chapter shall not be considered outdoor fires under this section;

(2) During a forecast, alert, warning or emergency condition as defined in RCW 70.94.715 or impaired air quality condition as defined in RCW 70.94.473;

(3) In any area which has been designated by the department of ecology or board of an activated authority as an area exceeding or threatening to exceed state or federal ambient air quality standards ~~((, or after July 1, 1976, state ambient air quality goals for particulates))~~, except instructional fires permitted by RCW 70.94.650(2).

Sec. 411. RCW 70.94.780 and 1973 1st ex.s. c 193 s 10 are each amended to read as follows:

In addition to any other powers granted to them by law, the fire protection agency ~~((authorized to issue)), county, or conservation district issuing~~ burning permits ~~((may))~~ shall regulate or prohibit outdoor burning ~~((in order))~~ as necessary to prevent or abate the nuisances caused by such burning. No fire protection agency, county, or conservation district may issue a burning permit in an area where the department or local board has declared any stage of impaired air quality per RCW 70.94.473 or any stage of an air pollution episode. All burning permits issued shall be subject to all

applicable fee, permitting, penalty, and enforcement provisions of this chapter. The permitted burning shall not cause damage to public health or the environment.

Any entity issuing a permit under this section may charge a fee at the level necessary to recover the costs of administering and enforcing the permit program.

Sec. 412. RCW 70.94.750 and 1972 ex.s. c 136 s 3 are each amended to read as follows:

The following outdoor fires described in this section may be burned subject to the provisions of ~~((the program established pursuant to RCW 70.94.755 for any area))~~ this chapter and also subject to city ordinances, county resolutions, ~~((and))~~ rules ~~((and regulations))~~ of fire districts and laws, and rules ~~((and regulations))~~ enforced by the department of natural resources if a permit has been issued by a fire protection agency, county, or conservation district:

(1) Fires consisting of leaves, clippings, prunings and other yard and gardening refuse originating on lands immediately adjacent and in close proximity to a human dwelling and burned on such lands by the property owner or his or her designee.

(2) Fires consisting of residue of a natural character such as trees, stumps, shrubbery or other natural vegetation arising from land clearing projects or agricultural pursuits for pest or disease control; provided the fires described in this subsection may be prohibited in those areas having a general population density of one thousand or more persons per square mile.

"V.

WOODSTOVES AND FIREPLACES"

Sec. 501. RCW 70.94.457 and 1987 c 405 s 4 are each amended to read as follows:

~~((Before January 1, 1988,))~~ The department of ecology shall establish by rule under chapter 34.05 RCW:

(1) State-wide emission performance standards for new ~~((wood stoves))~~ solid fuel burning devices. Notwithstanding any other provision of this chapter which allows an authority to adopt more stringent emission standards, no authority shall adopt any emission standard for new ~~((wood stoves))~~ solid fuel burning devices other than the state-wide standard adopted by the department under this section.

(a) ~~((For new wood stoves sold after July 1, 1988, the state wide performance standard, by rule, shall be the equivalent of and consistent with state wide emission standards in effect in bordering states on or before January 1, 1987. For solid fuel burning devices for which bordering states have not established emission standards, the department may temporarily exempt or establish, by rule, state wide standards including emission levels and test procedures for such devices and such emission levels and test procedures shall be equivalent to emission levels per pound per hour burned for other new wood stoves regulated by this subsection))~~ After January 1, 1995, no solid fuel burning device shall be offered for sale that has particulate air contaminant emissions exceeding four and one-half grams per hour, except that catalytic wood stoves shall not have contaminant emissions exceeding two and one-half grams per hour. The appropriate standing committees of the legislature shall review the standard under this subsection (a) during the regular session beginning in January 1998.

(b) If the United States environmental protection agency adopts emission standards for solid fuel burning devices after January 1, 1991, then the department shall adopt, by rule, emission limits equivalent to those provided by (a) of this subsection by using the same testing methodology adopted after January 1, 1991, by the United States environmental protection agency for new solid fuel burning devices. The emission limits adopted by the department shall not exceed the emission limits adopted after January 1, 1991, by the United States environmental protection agency. For purposes of this subsection, "equivalent" shall mean the emissions limits specified in

(a) of this subsection multiplied by a statistically reliable conversion factor determined by the department which compares the difference between the emission test methodology established by the United States environmental protection agency prior to January 1, 1991, with the test methodology established by the agency after January 1, 1991.

(c) After January 1, 1997, no fireplace, except masonry fireplaces and factory-built fireplaces, shall be offered for sale unless such fireplace meets the 1990 United States environmental protection agency standards for wood stoves or equivalent standard which may be established by the legislature pursuant to recommendations by the fireplace advisory committee.

(d) Subsection (1)(a) of this section shall not apply to fireplaces.

~~((b))~~ (e) Notwithstanding (a) of this subsection, the department is authorized to adopt, by rule, emission standards adopted by the United States environmental protection agency for new wood stoves sold at retail. For solid fuel burning devices for which the United States environmental protection agency has not established emission standards, the department may ((temporarily)) exempt or establish, by rule, state-wide standards including emission levels and test procedures for such devices and such emission levels and test procedures shall be equivalent to emission levels per pound per hour burned for other new wood stoves and fireplaces regulated under this subsection.

(2) A program to:

(a) Determine whether a new ~~((wood stove))~~ solid fuel burning device complies with the state-wide emission performance standards established in subsection (1) of this section; and

(b) Approve the sale of ~~((stoves))~~ devices that comply with the state-wide emission performance standards.

Sec. 502. RCW 70.94.470 and 1987 c 405 s 5 are each amended to read as follows:

~~(1) ((Before January 1, 1988,)) The department shall establish, by rule under chapter 34.05 RCW, ((state wide opacity levels for residential solid fuel burning devices as follows:~~

~~(a) A state wide opacity level of twenty percent for the purpose of public education;~~

~~(b) Until July 1, 1990, a state wide opacity level of forty percent for the purpose of enforcement on a complaint basis; and~~

~~(c) After July 1, 1990, a) (a) a state-wide opacity level of twenty percent for residential solid fuel burning devices for the purpose of enforcement on a complaint basis and (b) a state-wide opacity of ten percent for purposes of public education.~~

(2) Notwithstanding any other provision of this chapter which may allow an authority to adopt a more stringent opacity level, no authority shall adopt or enforce an opacity level((:

~~(a) Lower than forty percent until July 1, 1990; and~~

~~(b) Lower than twenty percent after July 1, 1990)) for solid fuel burning devices other than established in this section.~~

NEW SECTION. Sec. 503. A new section is added to chapter 70.94 RCW to read as follows:

After January 1, 1992, no used solid fuel burning device shall be installed in new or existing buildings unless such device is either Oregon department of environmental quality phase II or United States environmental protection agency certified or a pellet stove either certified or exempt from certification by the United States environmental protection agency.

(1) By July 1, 1992, the state building code council shall adopt rules requiring an adequate source of heat other than woodstoves in all new and substantially remodeled residential and commercial construction. This rule shall apply (a) to areas

designated by a county to be an urban growth area under chapter 36.70A RCW; and (b) to areas designated by the environmental protection agency as being in nonattainment for particulate matter.

(2) For purposes of this section, "substantially remodeled" means any alteration or restoration of a building exceeding sixty percent of the appraised value of such building within a twelve-month period.

Sec. 504. RCW 70.94.473 and 1990 c 128 s 2 are each amended to read as follows:

(1) Any person in a residence or commercial establishment which has an adequate source of heat without burning wood shall:

(a) Not burn wood in any solid fuel burning device whenever the department has determined under RCW 70.94.715 that any air pollution episode exists in that area;

(b) Not burn wood in any solid fuel burning device except those which ~~((meet the standards set forth in RCW 70.94.457,))~~ are either Oregon department of environmental quality phase II or United States environmental protection agency certified or certified by the department under RCW 70.94.457(1) or a pellet stove either certified or issued an exemption ((certificate)) by the United States environmental protection agency in accordance with Title 40, Part 60 of the code of federal regulations, in the geographical area and for the period of time that a first stage of impaired air quality has been determined, by the department or any authority, for that area. A first stage of impaired air quality is reached when particulates ten microns and smaller in diameter are at an ambient level of seventy-five micrograms per cubic meter measured on a twenty-four hour average or when carbon monoxide is at an ambient level of eight parts of contaminant per million parts of air by volume measured on an eight-hour average; and

(c) Not burn wood in any solid fuel burning device ~~((including those which meet the standards set forth in RCW 70.94.457,))~~ in a geographical area and for the period of time that a second stage of impaired air quality has been determined by the department or any authority, for that area. A second stage of impaired air quality is reached when particulates ten microns and smaller in diameter are at an ambient level of one hundred five micrograms per cubic meter measured on a twenty-four hour average. This subsection shall not apply to any solid fuel burning device meeting the emission performance standards established by either the Oregon department of environmental quality phase II, the United States environmental protection agency, or certified by the department under RCW 70.94.457, or a pellet stove either certified or issued an exemption by the United States environmental protection agency in accordance with Title 40, Part 60 of the code of federal regulations if such wood stoves are operated in the unincorporated area of a county that has not been designated as an urban growth area under chapter 36.70A RCW.

(2) ~~((When))~~ If a local air authority exercises the limitation on solid fuel burning devices specified under RCW 70.94.477(2), a single stage of impaired air quality applies in the geographical area defined by the authority in accordance with RCW 70.94.477(2) and is reached when particulates ten microns and smaller in diameter are at an ambient level of ninety micrograms per cubic meter measured on a twenty-four hour average or when carbon monoxide is at an ambient level of eight parts of contaminant per million parts of air by volume measured on an eight-hour average.

~~((When))~~ If this single stage of impaired air quality is reached, no person in a residence or commercial establishment ~~((which))~~ that has an adequate source of heat without burning wood shall burn wood in any solid fuel burning device, including those which meet the standards set forth in RCW 70.94.457.

Sec. 505. RCW 70.94.483 and 1990 c 128 s 5 are each amended to read as follows:

(1) The wood stove education and enforcement account is hereby created in the general fund. Money placed in the account shall include all money received under subsection (2) of this section and any other money appropriated by the legislature. Money in the account shall be spent for the purposes of the wood stove education program established under RCW 70.94.480 and for enforcement of the wood stove program, and shall be subject to legislative appropriation.

(2) The department of ecology, with the advice of the advisory committee, shall set a flat fee (~~(, not to exceed fifteen)~~) of thirty dollars, on the retail sale, as defined in RCW 82.04.050, of each solid fuel burning device (~~(, excepting masonry fireplaces,)~~) after January 1, (~~(1988)~~) 1992. The fee shall be imposed upon the consumer and shall not be subject to the retail sales tax provisions of chapters 82.08 and 82.12 RCW. The fee may be adjusted annually above (~~(fifteen)~~) thirty dollars (~~(according to changes in the consumer price index after January 1, 1989)~~) to account for inflation as determined by the state office of the economic and revenue forecast council. The fee shall be collected by the department of revenue in conjunction with the retail sales tax under chapter 82.08 RCW. If the seller fails to collect the fee herein imposed or fails to remit the fee to the department of revenue in the manner prescribed in chapter 82.08 RCW, the seller shall be personally liable to the state for the amount of the fee. The collection provisions of chapter 82.32 RCW shall apply. The department of revenue shall deposit fees collected under this section in the wood stove education and enforcement account.

NEW SECTION. Sec. 506. A new section is added to chapter 70.94 RCW to read as follows:

(1) A fireplace advisory committee is established for the purposes of:

- (a) Recommending fireplace emission standards either equivalent or more stringent than federal standards;
- (b) Educating the public on proper installation and maintenance of zero-clearance and masonry fireplaces;
- (c) Developing public information activities on how to reduce emissions through proper use of fireplaces.

(2) The advisory committee shall include the following representatives:

- (a) One representative from the house of representatives environmental affairs committee appointed by the speaker of the house of representatives and one representative from the senate environment and natural resources committee to be appointed by the president of the senate;
- (b) One representative each from the following state agencies appointed by their directors: The departments of ecology and health and the state energy office;
- (c) A representative from a local air pollution control authority;
- (d) One representative each from the masonry fireplace builders and the zero-clearance fireplace manufacturers; and
- (e) One representative each from an environmental organization and public health interest organizations.

(3) Advisory committee representatives from subsection (2) (c), (d), and (e) of this section shall be appointed by the director of the department of ecology.

(4) The advisory committee shall be administered by the department of ecology. The committee shall submit a report to the appropriate committees of the legislature on or before January 1, 1994.

(5) This section shall expire January 1, 1994.

Sec. 507. RCW 70.94.041 and 1983 c 3 s 175 are each amended to read as follows:

Except as otherwise provided in this section, any building or structure listed on the national register of historic sites, structures, or buildings established pursuant to 80 Stat. 915, 16 U.S.C. Sec. 470a, or on the state register established pursuant to RCW (~~(43.51A.080)~~) 27.34.220, shall be permitted to burn wood as it would have when it

was a functioning facility as an authorized exception to the provisions of this chapter. Such burning of wood shall not be exempted from the provisions of RCW 70.94.710 through 70.94.730.

Sec. 508. RCW 70.94.656 and 1990 c 113 s 1 are each amended to read as follows:

It is hereby declared to be the policy of this state that strong efforts should be made to minimize adverse effects on air quality from the open burning of field and turf grasses grown for seed. To such end this section is intended to promote the development of economical and practical alternate agricultural practices to such burning, and to provide for interim regulation of such burning until practical alternates are found.

(1) The department shall approve of a study or studies for the exploration and identification of economical and practical alternate agricultural practices to the open burning of field and turf grasses grown for seed. Prior to the issuance of any permit for such burning under RCW 70.94.650, there shall be collected a fee not to exceed one dollar per acre of crop to be burned. Any such fees received by any authority shall be transferred to the department of ecology. The department of ecology shall deposit all such acreage fees in a special grass seed burning research account, hereby created, in the state treasury. All earnings of investments of balances in the special grass seed burning research account shall be credited to the general fund. The department shall allocate moneys annually from this account for the support of any approved study or studies as provided for in this subsection. For the conduct of any such study or studies, the department may contract with public or private entities: PROVIDED, That whenever the department of ecology shall conclude that sufficient reasonably available alternates to open burning have been developed, and at such time as all costs of any studies have been paid, the grass seed burning research account shall be dissolved, and any money remaining therein shall revert to the general fund.

The fee collected under this subsection shall constitute the research portion of fees required under RCW 70.94.650 for open burning of grass grown for seed.

(2) Whenever on the basis of information available to it, the department after public hearings have been conducted wherein testimony will be received and considered from interested parties wishing to testify shall conclude that any procedure, program, technique, or device constitutes a practical alternate agricultural practice to the open burning of field or turf grasses grown for seed, the department shall, by order, certify approval of such alternate. Thereafter, in any case which any such approved alternate is reasonably available, the open burning of field and turf grasses grown for seed shall be disallowed and no permit shall issue therefor.

(3) Until approved alternates become available, the department or the authority may limit the number of acres on a pro rata basis among those affected for which permits to burn will be issued in order to effectively control emissions from this source.

(4) Permits issued for burning of field and turf grasses may be conditioned to minimize emissions insofar as practical, including denial of permission to burn during periods of adverse meteorological conditions.

NEW SECTION. Sec. 509. A new section is added to chapter 70.94 RCW to read as follows:

(1) A task force is established for the purposes of recommending programs to:

(a) Encourage persons with wood stoves not meeting the requirements of RCW 70.94.457 or United States environmental protection agency certificate requirements to remove such wood stoves and install a less polluting certified wood stove or other source of heat; and

(b) Educate the public on wood stove emissions and methods to reduce such emissions.

(2) The task force shall be appointed by the speaker of the house of representatives and the president of the senate and shall consist of:

(a) Two members from the house of representatives committee on environmental affairs;

(b) Two members from the senate committee on environment and natural resources;

(c) Two members from the house of representatives committee on energy and utilities; and

(d) Two members from the senate committee on energy and utilities.

(3) In developing recommendations, the task force shall consult with representatives from the department of ecology, local air authorities, wood stove dealers, wood stove manufacturers, public and investor owned utilities, citizen organizations, environmental organizations, and public health organizations.

(4) By November 1, 1991, the task force shall report to the appropriate standing committees of the legislature. The report shall recommend methods to:

(a) Use public and private funds to provide credit toward purchasing old wood stoves not certified under RCW 70.94.457;

(b) Use public and private funds to implement public education programs designed to reduce emissions from wood stoves;

(c) Prevent fraud or abuse of the programs developed under this section; and

(d) Develop emissions' data collection and monitoring systems.

(5) The task force created in subsection (1) of this section shall terminate on July 1, 1995.

"VI.

GLOBAL WARMING AND OZONE DEPLETION"

NEW SECTION. Sec. 601. The legislature finds that:

(1) The release of chlorofluorocarbons and other ozone-depleting chemicals into the atmosphere contributes to the destruction of stratospheric ozone and threatens plant and animal life with harmful overexposure to ultraviolet radiation;

(2) The technology and equipment to extract and recover chlorofluorocarbons and other ozone-depleting chemicals from air conditioners, refrigerators, and other appliances are available;

(3) A number of nonessential consumer products contain ozone-depleting chemicals; and

(4) Unnecessary releases of chlorofluorocarbons and other ozone-depleting chemicals from these sources should be eliminated.

NEW SECTION. Sec. 602. A new section is added to chapter 70.94 RCW to read as follows:

(1) Regulated refrigerant means a class I or class II substance as listed in Title VI of section 602 of the federal clean air act amendments of November 15, 1990.

(2) A person who services or repairs or disposes of a motor vehicle air conditioning system; commercial or industrial air conditioning, heating, or refrigeration system; or consumer appliance shall use refrigerant extraction equipment to recover regulated refrigerant that would otherwise be released into the atmosphere. This subsection does not apply to off-road commercial equipment.

(3) Upon request, the department shall provide information and assistance to persons interested in collecting, transporting, or recycling regulated refrigerants.

(4) The willful release of regulated refrigerant from a source listed in subsection (2) of this section is prohibited.

NEW SECTION. Sec. 603. A new section is added to chapter 70.94 RCW to read as follows:

No person may sell, offer for sale, or purchase any of the following:

(1) A regulated refrigerant in a container designed for consumer recharge of a motor vehicle air conditioning system or consumer appliance during repair or service. This subsection does not apply to a regulated refrigerant purchased for the recharge of the air conditioning system of off-road commercial or agricultural equipment and sold or offered for sale at an establishment which specializes in the sale of off-road commercial or agricultural equipment or parts or service for such equipment;

(2) Nonessential consumer products that contain chlorofluorocarbons or other ozone-depleting chemicals, and for which substitutes are readily available. Products affected under this subsection shall include, but are not limited to, party streamers, tire inflators, air horns, noise makers, and chlorofluorocarbon-containing cleaning sprays designed for noncommercial or nonindustrial cleaning of electronic or photographic equipment.

NEW SECTION. **Sec. 604.** A new section is added to chapter 70.94 RCW to read as follows:

The department shall adopt rules to implement sections 602 and 603 of this act. Rules shall include but not be limited to minimum performance specifications for refrigerant extraction equipment, as well as procedures for enforcing sections 602 and 603 of this act.

Enforcement provisions adopted by the department shall not include penalties or fines in areas where equipment to collect or recycle regulated refrigerants is not readily available.

"VII. MISCELLANEOUS SECTIONS"

Sec. 701. RCW 70.94.053 and 1987 c 505 s 60 and 1987 c 109 s 34 are each reenacted and amended to read as follows:

(1) In each county of the state there is hereby created an air pollution control authority, which shall bear the name of the county within which it is located. The boundaries of each authority shall be coextensive with the boundaries of the county within which it is located. An authority shall include all incorporated and unincorporated areas of the county within which it is located.

(2) All authorities which are presently (~~or may hereafter be within counties of the first class, class A or class AA, are hereby designated as~~) activated authorities (~~and~~) shall carry out the duties and exercise the powers provided in this chapter. Those activated authorities (~~hereby activated~~) which encompass contiguous counties (~~located in one or the other of the two major areas determined in RCW 70.94.011~~) are declared to be and directed to function as a multicounty authority.

(3) Except as provided in RCW 70.94.232, all other air pollution control authorities are hereby designated as inactive authorities.

(4) The boards of those authorities designated as activated authorities by this chapter shall be comprised of such appointees and/or county commissioners or other officers as is provided in RCW 70.94.100. (~~The first meeting of the boards of these authorities designated as activated authorities by this chapter shall be on or before sixty days after June 8, 1967.~~)

(5) ~~The department is directed to conduct the necessary evaluations and delineate appropriate air pollution regions throughout the state, taking into consideration:~~

(a) ~~The natural climatic and topographic features affecting the potential for buildup of air contaminant concentrations.~~

(b) ~~The degree of urbanization and industrialization and the existence of activities which are likely to cause air pollution.~~

(c) ~~The county boundaries as related to the air pollution regions and the practicality of administering air pollution control programs.)~~

NEW SECTION. **Sec. 702.** A new section is added to chapter 70.94 RCW to read as follows:

(1) Any county of the first class in which seventy-five percent or more of its boundary lies on water and not land, and that is a part of a multicounty authority pursuant to RCW 70.94.053, shall be subject to the requirements of this section. After January 1, 1992, any such county shall operate an individual county air pollution control authority under this chapter, unless prior to such date, the legislative authority of such county determines to take one of the following actions:

(a) To continue its participation in an existing multicounty authority;

(b) To join another existing multicounty authority by consent of the governing board of such authority; or

(c) To join with one or more contiguous counties to operate as a new multicounty authority, pursuant to the procedures of RCW 70.94.057.

(2) Prior to making a determination under subsection (1) of this section the county shall obtain public comment through hearings and written comments.

(3) Where a county subject to the requirements of this section does not elect to participate in a multicounty authority after January 1, 1992, the rules adopted by a multicounty authority in effect within such county shall remain in effect until superseded by the adoption of rules, resolutions, or ordinances by the county acting as an individual county authority under this chapter, but in no event shall such rules remain in effect after July 1, 1992.

Sec. 703. RCW 70.94.055 and 1967 c 238 s 5 are each amended to read as follows:

The board of county commissioners of any county (~~other than a first class, class A or class AA county~~) may activate an air pollution control authority following a public hearing on its own motion, or upon a filing of a petition signed by one hundred property owners within the county. If the board of county commissioners determines as a result of the public hearing that:

(1) Air pollution exists or is likely to occur; and

(2) The city or town ordinances, or county resolutions, or their enforcement, are inadequate to prevent or control air pollution, they (~~shall~~) may by resolution activate an air pollution control authority or combine with a contiguous county or counties to form a multicounty air pollution control authority.

Sec. 704. RCW 70.94.092 and 1975 1st ex.s. c 106 s 1 are each amended to read as follows:

Notwithstanding the provisions of RCW 1.16.030, the budget year of each activated authority shall be the fiscal year beginning July 1st and ending on the following June 30th. (~~The current budget year shall be terminated June 30, 1975, and a budget for the fiscal year beginning July 1, 1975, shall be adopted pursuant to this section as now or hereafter amended.~~) On or before the fourth Monday in June of each year, each activated authority shall adopt a budget for the following fiscal year. The activated authority budget shall contain adequate funding and provide for staff sufficient to carry out the provisions of all applicable ordinances, resolutions, and local regulations related to the reduction, prevention, and control of air pollution. The legislature acknowledges the need for the state to provide reasonable funding to local authorities to carry out the requirements of this chapter. The budget shall contain an estimate of all revenues to be collected during the following budget year, including any surplus funds remaining unexpended from the preceding year. The remaining funds required to meet budget expenditures, if any, shall be designated as "supplemental income" and shall be obtained from the component cities, towns, and counties in the manner provided in this chapter. The affirmative vote of three-fourths of all members of the board shall be required to authorize emergency expenditures.

Sec. 705. RCW 70.94.100 and 1989 c 150 s 1 are each amended to read as follows:

(1) The governing body of each authority shall be known as the board of directors.

(2) In the case of an authority comprised of one county the board shall be comprised of two appointees of the city selection committee (~~as hereinafter provided~~), at least one of whom shall represent the city having the most population in the county, and two representatives to be designated by the board of county commissioners. In the case of an authority comprised of two (~~or~~), three, four, or five counties, the board shall be comprised of one appointee (~~of the city selection committee of~~) from each county (~~as hereinafter provided~~), who shall represent the city having the most population in such county, to be designated by the mayor and city council of such city, and one representative from each county to be designated by the board of county commissioners of each county making up the authority. (~~In the case of an authority comprised of four or five counties, the board shall be comprised of one appointee of the city selection committee of each county as hereinafter provided who shall represent the city having the most population in such county, and one representative from each county to be designated by the board of county commissioners of each county making up the authority.~~) In the case of an authority comprised of six or more counties, the board shall be comprised of one representative from each county to be designated by the board of county commissioners of each county making up the authority, and (~~one~~) three appointees, one each from (~~each city with over one hundred thousand population~~) the three largest cities within the local authority's jurisdiction to be appointed by the mayor and city council of such city.

(3) If the board of an authority otherwise would consist of an even number, the members selected as above provided shall agree upon and elect an additional member who shall be either a member of the governing body of one of the towns, cities or counties comprising the authority, or a private citizen residing in the authority. (~~All board members shall hold office at the pleasure of the appointing body.~~)

(4) The terms of office of board members shall be four years.

(5) Wherever a member of a board has a potential conflict of interest in an action before the board, the member shall declare to the board the nature of the potential conflict prior to participating in the action review. The board shall, if the potential conflict of interest, in the judgment of a majority of the board, may prevent the member from a fair and objective review of the case, remove the member from participation in the action.

Sec. 706. RCW 70.94.130 and 1969 ex.s. c 168 s 15 are each amended to read as follows:

The board shall exercise all powers of the authority except as otherwise provided. The board shall conduct its first meeting within thirty days after all of its members have been appointed or designated as provided in RCW 70.94.100. The board shall meet at least ten times per year. All meetings shall be publicly announced prior to their occurrence. All meetings shall be open to the public. A majority of the board shall constitute a quorum for the transaction of business and shall be necessary for any action taken by the board. The board shall elect from its members a (~~chairman~~) chair and such other officers as may be necessary. Any member of the board may designate a regular alternate to serve on the board in his or her place with the same authority as the member when he or she is unable to attend. Each member of the board, or his or her representative, shall receive from the authority (~~twenty-five dollars per day~~) compensation consistent with such authority's rates (but not to exceed one thousand dollars per year) for (~~each full day~~) time spent in the performance of (~~his~~) duties under this chapter, plus the actual and necessary expenses incurred by (~~him~~) the member in such performance. The board may appoint (~~an executive director~~) a control officer, and any other personnel, and shall determine their salaries, and pay same, together with any other proper indebtedness, from authority funds.

Sec. 707. RCW 70.94.141 and 1970 ex.s. c 62 s 56 are each amended to read as follows:

The board of any activated authority in addition to any other powers vested in them by law, shall have power to:

(1) Adopt, amend and repeal its own (~~ordinances, resolutions, or~~) rules and regulations, (~~as the case may be,~~) implementing this chapter and consistent with it, after consideration at a public hearing held in accordance with chapter (~~42.32~~) 42.30 RCW. Rules and regulations shall also be adopted in accordance with the notice and adoption procedures set forth in RCW 34.05.320, those provisions of RCW 34.05.325 that are not in conflict with chapter 42.30 RCW, and with the procedures of RCW 34.05.340, 34.05.355 through 34.05.380, and with chapter 34.08 RCW, except that rules shall not be published in the Washington Administrative Code. Judicial review of rules adopted by an authority shall be in accordance with Part V of chapter 34.05 RCW. An air pollution control authority shall not be deemed to be a state agency.

(2) Hold hearings relating to any aspect of or matter in the administration of this chapter not prohibited by the provisions of chapter 62, Laws of 1970 ex. sess. and in connection therewith issue subpoenas to compel the attendance of witnesses and the production of evidence, administer oaths and take the testimony of any person under oath.

(3) Issue such orders as may be necessary to effectuate the purposes of this chapter and enforce the same by all appropriate administrative and judicial proceedings subject to the rights of appeal as provided in chapter 62, Laws of 1970 ex. sess.

(4) Require access to records, books, files and other information specific to the control, recovery or release of air contaminants into the atmosphere.

(5) Secure necessary scientific, technical, administrative and operational services, including laboratory facilities, by contract or otherwise.

(6) Prepare and develop a comprehensive plan or plans for the prevention, abatement and control of air pollution within its jurisdiction.

(7) Encourage voluntary cooperation by persons or affected groups to achieve the purposes of this chapter.

(8) Encourage and conduct studies, investigation and research relating to air pollution and its causes, effects, prevention, abatement and control.

(9) Collect and disseminate information and conduct educational and training programs relating to air pollution.

(10) Advise, consult, cooperate and contract with agencies and departments and the educational institutions of the state, other political subdivisions, industries, other states, interstate or interlocal agencies, and the United States government, and with interested persons or groups.

(11) Consult, upon request, with any person proposing to construct, install, or otherwise acquire an air contaminant source or device or system for the control thereof, concerning the efficacy of such device or system, or the air pollution problems which may be related to the source, device or system. Nothing in any such consultation shall be construed to relieve any person from compliance with this chapter, ordinances, resolutions, rules and regulations in force pursuant thereto, or any other provision of law.

(12) Accept, receive, disburse and administer grants or other funds or gifts from any source, including public and private agencies and the United States government for the purpose of carrying out any of the functions of this chapter.

Sec. 708. RCW 70.94.170 and 1969 ex.s. c 168 s 21 are each amended to read as follows:

Any activated authority which has adopted an ordinance, resolution, or valid rules and regulations as provided herein for the control and prevention of air pollution shall appoint a full time control officer, (~~who~~) whose sole responsibility shall be to observe and enforce the provisions of this chapter and all orders, ordinances,

resolutions, or rules and regulations of such activated authority pertaining to the control and prevention of air pollution.

Sec. 709. RCW 70.94.231 and 1969 ex.s. c 168 s 29 are each amended to read as follows:

Upon the date that an authority begins to exercise its powers and functions, all ~~((districts formed as a district under chapter 70.94 RCW prior to June 8, 1967 which previously were wholly or partially composed of one or more cities or towns located within such activated authority shall be considered to be dissolved but its))~~ rules and regulations in force on such date shall remain in effect until superseded by the rules and regulations of the authority as provided in RCW 70.94.230. ~~((In such event, the board of any such district shall proceed to wind up the affairs of the district in the same manner as if the district were dissolved as provided in RCW 70.94.260.))~~

Sec. 710. RCW 70.94.240 and 1969 ex.s. c 168 s 30 are each amended to read as follows:

The board of any authority ~~((shall))~~ may appoint an air pollution control advisory council to advise and consult with such board, and the control officer in effectuating the purposes of this chapter. The council shall consist of at least five appointed members who are residents of the authority and who are preferably skilled and experienced in the field of air pollution control, ~~((two))~~ chemistry, meteorology, public health, or a related field, at least one of whom shall serve as a representative((s)) of industry and one of whom shall serve as a representative of the environmental community. The ~~((chairman))~~ chair of the board of any such authority shall serve as ex officio member of the council and be its ~~((chairman))~~ chair. Each member of the council shall receive from the authority per diem and travel expenses in an amount not to exceed that provided for the state board in this chapter (but not to exceed one thousand dollars per year) for each full day spent in the performance of his or her duties under this chapter.

Sec. 711. RCW 70.94.331 and 1988 c 106 s 1 are each amended to read as follows:

(1) The department shall have all the powers as provided in RCW 70.94.141.

(2) The department, in addition to any other powers vested in it by law after consideration at a public hearing held in accordance with chapters 42.30 ~~((RCW))~~ and ~~((chapter))~~ 34.05 RCW shall:

(a) Adopt rules ~~((and regulations))~~ establishing air quality objectives and air quality standards;

(b) Adopt emission standards which shall constitute minimum emission standards throughout the state. An authority may enact more stringent emission standards, except for emission performance standards for new wood stoves and opacity levels for residential solid fuel burning devices which shall be state-wide, but in no event may less stringent standards be enacted by an authority without the prior approval of the department after public hearing and due notice to interested parties;

(c) Adopt by rule ~~((and regulation))~~ air quality standards and emission standards for the control or prohibition of emissions to the outdoor atmosphere of radionuclides, dust, fumes, mist, smoke, other particulate matter, vapor, gas, odorous substances, or any combination thereof. Such requirements may be based upon a system of classification by types of emissions or types of sources of emissions, or combinations thereof, which it determines most feasible for the purposes of this chapter. However, an industry, or the air pollution control authority having jurisdiction, can choose, subject to the submittal of appropriate data that the industry has quantified, to have any limit on the opacity of emissions from a source whose emission standard is stated in terms of a weight of particulate per unit volume of air (e.g., grains per dry standard cubic foot) be based on the applicable particulate emission standard for that source, such that any violation of the opacity limit accurately indicates a violation of the applicable particulate emission standard. Any alternative opacity limit provided by this

section that would result in increasing air contaminants emissions in any nonattainment area shall only be granted if equal or greater emission reductions are provided for by the same source obtaining the revised opacity limit. A reasonable fee may be assessed to the industry to which the alternate opacity standard would apply. The fee shall cover only those costs to the air pollution control authority which are directly related to the determination on the acceptability of the alternate opacity standard, including testing, oversight and review of data.

(3) The air quality standards and emission standards may be for the state as a whole or may vary from area to area or source to source, except that emission performance standards for new wood stoves and opacity levels for residential solid fuel burning devices shall be state-wide, as may be appropriate to facilitate the accomplishment of the objectives of this chapter and to take necessary or desirable account of varying local conditions of population concentration, the existence of actual or (~~reasonable~~) reasonably foreseeable air pollution, topographic and meteorologic conditions and other pertinent variables.

(4) The department is directed to cooperate with the appropriate agencies of the United States or other states or any interstate agencies or international agencies with respect to the control of air pollution and air contamination, or for the formulation for the submission to the legislature of interstate air pollution control compacts or agreements.

(5) The department is directed to conduct or cause to be conducted a continuous surveillance program to monitor the quality of the ambient atmosphere as to concentrations and movements of air contaminants and conduct or cause to be conducted a program to determine the quantity of emissions to the atmosphere.

(6) The department shall enforce the air quality standards and emission standards throughout the state except where a local authority is enforcing the state regulations or its own regulations which are more stringent than those of the state.

(7) The department shall encourage local units of government to handle air pollution problems within their respective jurisdictions; and, on a cooperative basis provide technical and consultative assistance therefor.

(8) The department shall have the power to require the addition to or deletion of a county or counties from an existing authority in order to carry out the purposes of this chapter (~~:- PROVIDED, HOWEVER, That~~). No such addition or deletion shall be made without the concurrence of any existing authority involved. Such action shall only be taken after a public hearing held pursuant to the provisions of chapter 34.05 RCW.

(9) The department shall establish rules requiring sources or source categories to apply reasonable and available control methods. Such rules shall apply to those sources or source categories that individually or collectively contribute the majority of state-wide air emissions of each regulated pollutant. The department shall review, and if necessary, update its rules every five years to ensure consistency with current reasonable and available control methods. The department shall have adopted rules required under this subsection for all sources by July 1, 1996.

For the purposes of this section, "reasonable and available control methods" shall include but not be limited to, changes in technology, processes, or other control strategies.

Sec. 712. RCW 70.94.332 and 1987 c 109 s 18 are each amended to read as follows:

(Whenever the department of ecology has reason to believe that any provision of this chapter or any rule or regulation adopted by it or being enforced by it under RCW 70.94.410 relating to the control or prevention of air pollution has been violated, it may) At least thirty days prior to the commencement of any formal enforcement action under RCW 70.94.430 and 70.94.431, the department of ecology shall cause written notice to be served upon the alleged violator or violators. The notice shall

specify the provision of this chapter or the rule or regulation alleged to be violated, and the facts alleged to constitute a violation thereof, and may include an order that necessary corrective action be taken within a reasonable time. In lieu of an order, the department may require that the alleged violator or violators appear before it for the purpose of providing the department information pertaining to the violation or the charges complained of. ~~((In addition to or in place of an order or hearing, the department may initiate action pursuant to RCW 70.94.425, 70.94.430, and 70.94.435))~~ Every notice of violation shall offer to the alleged violator an opportunity to meet with the department prior to the commencement of enforcement action.

Sec. 713. RCW 70.94.385 and 1987 c 109 s 41 are each amended to read as follows:

(1) Any authority may apply to the department for state financial aid. The department shall ~~((by rule and regulation))~~ annually establish the ~~((ratio))~~ amount of state funds ~~((to))~~ available for the local ~~((funds))~~ authorities taking into consideration available federal and state funds. The establishment of funding amounts shall be consistent with federal requirements and local maintenance of effort necessary to carry out the provisions of this chapter. Any such aid shall be expended from the general fund or from ~~((such))~~ other appropriations as the legislature may provide for this purpose: PROVIDED, That federal funds shall be utilized to the maximum unless otherwise approved by the department: PROVIDED FURTHER, That the ~~((ratio))~~ amount of state funds provided to local ~~((funds of))~~ authorities during the previous year shall not be ~~((changed))~~ reduced without a public notice or public hearing held by the department if requested by the affected local authority, unless such changes are the direct result of a reduction in the available federal funds for air pollution control programs.

(2) Before any such application is approved and financial aid is given or approved by the department, the authority shall demonstrate to the satisfaction of the department that it is fulfilling the requirements of ~~((RCW 70.94.380, or,))~~ this chapter. If the department has not adopted ambient air quality standards and objectives as permitted by RCW 70.94.331, the authority shall demonstrate to the satisfaction of the department that it is acting in good faith and doing all that is possible and reasonable to control and prevent air pollution within its jurisdictional boundaries and to carry out the purposes of this chapter.

(3) The department shall adopt rules ~~((and regulations))~~ requiring the submission of such information by each authority including the submission of its proposed budget and a description of its program in support of the application for state financial aid as necessary to enable the department to determine the need for state aid.

Sec. 714. RCW 70.94.395 and 1987 c 109 s 43 are each amended to read as follows:

If the department finds, after public hearing upon due notice to all interested parties, that the emissions from a particular type or class of air contaminant source should be regulated on a state-wide basis in the public interest and for the protection of the welfare of the citizens of the state, it may adopt and enforce rules ~~((and regulations))~~ to control and/or prevent the emission of air contaminants from such source ~~((= PROVIDED, That)).~~ An authority may, after public hearing and a finding by the board of a need for more stringent rules ((and regulations)) than those adopted by the department under this section, propose the adoption of such rules ((and regulations)) by the department for the control of emissions from the particular type or class ((or)) of air contaminant source within the geographical area of the authority. The department shall hold a public hearing and shall adopt the proposed rules ((and regulations)) within the area of the requesting authority, unless it finds that the proposed rules ((and regulations)) are inconsistent with the rules ((and regulations)) adopted by the department under this section((= PROVIDED, FURTHER, That)). When such standards are adopted by the department it shall delegate solely to the

requesting authority all powers necessary for their enforcement at the request of the authority(~~(: PROVIDED, That the department may delegate the responsibility for the enforcement of such rules and regulations to any authority which it deems capable of enforcing such regulations: PROVIDED FURTHER, That))~~. If after public hearing the department finds that the regulation on a state-wide basis of a particular type (~~(ef)~~) or class of air contaminant source is no longer required for the public interest and the protection of the welfare of the citizens of the state, the department may relinquish exclusive jurisdiction over such source.

Sec. 715. RCW 70.94.405 and 1987 c 109 s 45 are each amended to read as follows:

At any time after an authority has been activated for no less than one year, the department may, on its own motion, conduct a hearing held in accordance with chapters 42.30 (~~(RCW)~~) and (~~(chapter)~~) 34.05 RCW, (~~(as now or hereafter amended)~~) to determine whether or not the air pollution prevention and control program of such authority is being carried out in good faith and is as effective as possible (~~(under the circumstances)~~). If at such hearing the department finds that such authority is not carrying out its air pollution control or prevention program in good faith, (~~(ef)~~) is not doing all that is possible and reasonable to control and/or prevent air pollution within the geographical area over which it has jurisdiction, or is not carrying out the provisions of this chapter, it shall set forth in a report or order to the appropriate authority: (1) Its recommendations as to how air pollution prevention and/or control might be more effectively accomplished; and (2) guidelines which will assist the authority in carrying out the recommendations of the department.

Sec. 716. RCW 70.94.410 and 1987 c 109 s 46 are each amended to read as follows:

(1) If, after thirty days from the time that the department issues a report or order to an authority under RCW 70.94.400 and 70.94.405, such authority has not taken (~~(any)~~) action which indicates that it is attempting in good faith to implement the recommendations or actions of the department as set forth in the report or order, the department may, by order, declare as null and void any or all ordinances, resolutions, rules or regulations of such authority relating to the control and/or prevention of air pollution, and at such time the department shall become the sole body with authority to make and enforce rules and regulations for the control and/or prevention of air pollution within the geographical area of such authority. (~~(In)~~) If this (~~(connection)~~) occurs, the department may assume all those powers which are given to it by law to effectuate the purposes of this chapter. The department may, by order, continue in effect and enforce (~~(these)~~) provisions of the ordinances, resolutions, or rules (~~(and regulations)~~) of such authority which are not less stringent than those requirements which the department may have found applicable to the area under RCW 70.94.331, until such time as the department adopts its own rules (~~(and regulations)~~). Any rules (~~(and regulations)~~) promulgated by the department shall be subject to the provisions of chapter 34.05 RCW (~~(as it now appears or may hereinafter be amended)~~). Any enforcement actions shall be subject to RCW 43.21B.300 or 43.21B.310.

(2) No provision of this chapter is intended to prohibit any authority from reestablishing its air pollution control program which meets with the approval of the department and which complies with the purposes of this chapter and with applicable rules (~~(and regulations)~~) and orders of the department.

(3) Nothing in this chapter shall prevent the department from withdrawing the exercise of its jurisdiction over an authority upon its own motion(~~(: PROVIDED, That)~~) if the department has found at a hearing held in accordance with chapters 42.30 (~~(RCW)~~) and (~~(chapter)~~) 34.05 RCW (~~(as now or hereafter amended)~~), that the air pollution prevention and control program of such authority will be carried out in good faith (~~(ef)~~), that such program will do all that is possible and reasonable to control and/or prevent air pollution within the geographical area over which it has jurisdiction,

and that the program complies with the provisions of this chapter. Upon the withdrawal of the department, the department shall prescribe certain recommendations as to how air pollution prevention and/or control is to be effectively accomplished and guidelines which will assist the authority in carrying out the recommendations of the department.

Sec. 717. RCW 70.94.420 and 1987 c 109 s 47 are each amended to read as follows:

((4)) It is declared to be the intent of the legislature of the state of Washington that any state department or agency having jurisdiction over any building, installation, ~~((or))~~ other property, or other activity creating or likely to create significant air pollution shall cooperate with the department and with air pollution control agencies in preventing and/or controlling the pollution of the air in any area insofar as the discharge of ~~((the matter))~~ air contaminants from or by such building, installation, ~~((or))~~ other property, or activity may cause or contribute to pollution of the air in such area. Such state department or agency shall comply with the provisions of this chapter and with any ordinance, resolution, rule or regulation issued hereunder in the same manner as any other person subject to such laws ~~((;))~~ or rules ~~((or regulations))~~.

~~((2)) In addition to its other powers and duties prescribed by law, the department may establish classes of potential pollution sources for which any state department or agency having jurisdiction over any building, installation, or other property, which is not located within the geographical boundaries of any authority which has an air pollution control and/or prevention program in effect, shall, before discharging any matter into the air, obtain a permit from the department for such discharge, such permits to be issued for a specified period of time to be determined by the department and subject to revocation if the department finds that such discharge is endangering the health and welfare of any persons. Such permits may also be required for any such building, installation, or other property which is located within the geographical boundaries of any authority which has an air pollution control and prevention program in effect if the standards set by the department for state departments and agencies are more stringent than those of the authority. In connection with the issuance of any permits under this section, there shall be submitted to the department such plans, specifications, and other information as it deems relevant thereto and under such other conditions as it may prescribe.))~~

NEW SECTION. **Sec. 718.** A new section is added to chapter 90.48 RCW to read as follows:

(1) The legislature finds that scientifically valid and technically achievable effluent limitations on the pulp and paper industry are necessary for the protection of the waters of the state of Washington. The legislature also finds that the United States environmental protection agency is in the process of developing national effluent guidelines for pulp and paper mills limiting discharge of chlorinated organics. In order to conserve limited economic resources, the legislature finds that the department of ecology should not duplicate ongoing federal efforts.

(2) The department shall issue no permit establishing limits for the discharge of chlorinated organic compounds by pulp mills and paper mills under RCW 90.48.160 or 90.48.260 until the United States environmental protection agency issues final effluent guidelines; then the department may issue permits containing chlorinated organics discharge limitations consistent with the national guidelines.

(3) Nothing in this section shall apply to dioxin compounds.

NEW SECTION. **Sec. 719.** Sections 602 and 603 of this act shall take effect July 1, 1992. Sections 202 through 209 of this act shall take effect January 1, 1993. Section 210 of this act shall take effect January 1, 1992.

The remainder of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

NEW SECTION. **Sec. 720.** The following acts or parts of acts are each repealed:

NEW SECTION. **Sec. 724.** A new section is added to chapter 70.94 RCW to read as follows:

This chapter shall be known and may be cited as the clean air Washington act.

The President declared the question before the Senate to be the motion by Senator Anderson to not adopt the Committee on Ways and Means striking amendment to Engrossed Substitute House Bill No. 1028.

The motion by Senator Anderson carried and the Senate did not adopt the Committee on Ways and Means striking amendment to Engrossed Substitute House Bill No. 1028.

MOTION

Senator Anderson moved that the following amendment by Senators Anderson and Sutherland be adopted:

Strike everything after the enacting clause and insert the following:

"I.

PUBLIC POLICY, FINDINGS, AND INTENT"

NEW SECTION. **Sec. 101.** The legislature finds that ambient air pollution is the most serious environmental threat in Washington state. Air pollution causes significant harm to human health; damages the environment, including trees, crops, and animals; causes deterioration of equipment and materials; contributes to water pollution; and degrades the quality of life.

Over three million residents of Washington state live where air pollution levels are considered unhealthy. Of all toxic chemicals released into the environment more than half enter our breathing air. Citizens of Washington state spend hundreds of millions of dollars annually to offset health, environmental, and material damage caused

by air pollution. The legislature considers such air pollution levels, costs, and damages to be unacceptable.

It is the intent of this act that the implementation of programs and regulations to control air pollution shall be the primary responsibility of the department of ecology and local air pollution control authorities.

Sec. 102. RCW 70.94.011 and 1973 1st ex.s. c 193 s 1 are each amended to read as follows:

It is declared to be the public policy ~~((of the state))~~ to preserve, protect, and enhance the air quality for current and future generations. Air is an essential resource that must be protected from harmful levels of pollution. Improving air quality is a matter of state-wide concern and is in the public interest. It is the intent of this chapter to secure and maintain ~~((such))~~ levels of air quality ~~((as will))~~ that protect human health and safety ~~((and))~~, including the most sensitive members of the population, to comply with the requirements of the federal clean air act, ~~((and))~~ to ~~((the greatest degree practicable,))~~ prevent injury to plant ~~((and))~~, animal life, and property, to foster the comfort and convenience of ~~((its))~~ Washington's inhabitants, to promote the economic and social development of the state, and to facilitate the enjoyment of the natural attractions of the state. ~~((The problems and effects of air pollution are frequently regional and interjurisdictional in nature, and are dependent upon the existence of urbanization and industrialization in areas having common topography and recurring weather conditions conducive to the buildup of air contaminants))~~

It is further the intent of this chapter to protect the public welfare, to preserve visibility, to protect scenic, aesthetic, historic, and cultural values, and to prevent air pollution problems that interfere with the enjoyment of life, property, or natural attractions.

Because of the extent of the air pollution problem the legislature finds it necessary to return areas with poor air quality to levels adequate to protect health and the environment as expeditiously as possible but no later than December 31, 1995. Further, it is the intent of this chapter to prevent any areas of the state with acceptable air quality from reaching air contaminant levels that are not protective of human health and the environment.

The legislature recognizes that air pollution control projects may affect other environmental media. In selecting air pollution control strategies state and local agencies shall support those strategies that lessen the negative environmental impact of the project on all environmental media, including air, water, and land.

The legislature further recognizes that energy efficiency and energy conservation can help to reduce air pollution and shall therefore be considered when making decisions on air pollution control strategies and projects.

It is the policy of the state that the costs of protecting the air resource and operating state and local air pollution control programs shall be shared as equitably as possible among all sources whose emissions cause air pollution.

It is also declared as public policy that regional air pollution control programs are to be encouraged and supported to the extent practicable as essential instruments for the securing and maintenance of appropriate levels of air quality.

~~((It is also declared to be the public policy of the state to provide for the people of the populous metropolitan regions in the state the means of obtaining air pollution control not adequately provided by existing agencies of local government. For reasons of the present and potential dramatic growth in population, urbanization, and industrialization, the special problem of air resource management, encompassing both corrective and preventive measures for the control of air pollution cannot be adequately met by the individual towns, cities, and counties of many metropolitan regions.~~

~~In addition, the state is divided into two major areas, each having unique characteristics as to natural climatic and topographic features which may result in the different potentials for the accumulation and buildup of air contaminant concentrations. These two major areas are the area lying west of the Cascade Mountain crest and the area lying east of the Cascade Mountain crest. Within each of these major areas are regions which, because of the climate and topography and present and potential urbanization and industrial development may, through definitive evaluation be classed as regional air pollution areas.))~~

To these ends it is the purpose of this chapter to ~~((provide for a))~~ safeguard the public interest through an intensive, progressive, and coordinated state-wide program of air pollution prevention and control, to provide for an appropriate distribution of responsibilities, and to encourage coordination and cooperation between the state, regional, and local units of government, ((and for cooperation across jurisdictional lines in dealing with problems of air pollution)) to improve cooperation between state and federal government, public and private organizations, and the concerned individual, as well as to provide for the use of all known, available, and reasonable methods to reduce, prevent, and control air pollution.

The legislature recognizes that the problems and effects of air pollution cross political boundaries, are frequently regional or interjurisdictional in nature, and are dependent upon the existence of human activity in areas having common topography and weather conditions conducive to the buildup of air contaminants. In addition, the legislature recognizes that air pollution levels are aggravated and compounded by increased population, and its consequences. These changes often result in increasingly serious problems for the public and the environment.

The legislature further recognizes that air emissions from thousands of small individual sources are major contributors to air pollution in many regions of the state. As the population of a region grows, small sources may contribute an increasing proportion of that region's total air emissions. It is declared to be the policy of the state to achieve significant reductions in emissions from those small sources whose aggregate emissions constitute a significant contribution to air pollution in a particular region.

It is the intent of the legislature that air pollution goals be incorporated in the missions and actions of state agencies.

Sec. 201. RCW 70.120.010 and 1979 ex.s. c 163 s 1 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Department" means the department of ecology.

(2) "Director" means the director of the department of ecology.

(3) "Fleet" means ~~((a group of twenty five or more motor vehicles owned or leased concurrently by one person))~~ a group of fifteen or more motor vehicles registered in the same name and whose owner has been assigned a fleet identifier code by the department of licensing.

Sec. 202. RCW 70.120.020 and 1989 c 240 s 5 are each amended to read as follows:

(1) The department shall conduct ~~((the following programs in a manner that will enhance the successful implementation of the air pollution control system established for motor vehicles by this chapter:~~

~~(a) A voluntary motor vehicle emissions inspection program;~~

~~(b)) a public educational program regarding the health effects of air pollution emitted by motor vehicles; the purpose, operation, and effect of emission control devices and systems; and the effect that proper maintenance of motor vehicle engines has on fuel economy and air pollution emission((; and~~

~~(c)) and a public notification program identifying the geographic areas of the state that are designated as being noncompliance areas and emission contributing areas and describing the requirements imposed under this chapter for those areas.~~

~~(2)(a) The department((; the superintendent of public instruction, and the state board for community college education shall develop cooperatively, after consultation with automotive trades joint apprenticeship committees approved in accordance with RCW 49.04.040, a program for granting)) shall grant certificates of instruction to persons who successfully complete a course of study, under general requirements established by the director, in the maintenance of motor vehicle engines, the use of engine and exhaust analysis equipment, and the repair and maintenance of emission control devices. The director may establish and implement procedures for granting certification to persons who successfully complete other training programs or who have received certification from public and private organizations which meet the requirements established in this subsection, including programs on clean fuel technology and maintenance.~~

~~(b) The department shall make available to the public a list of those persons who have received certificates of instruction under subsection (2)(a) of this section.~~

Sec. 203. RCW 70.120.070 and 1989 c 240 c 6 are each amended to read as follows:

(1) Any person:

(a) Whose motor vehicle is tested pursuant to this chapter and fails to comply with the emission standards established for the vehicle; and

(b) Who, following such a test, expends more than ~~((fifty))~~ one hundred dollars on a 1980 or earlier model year motor vehicle or expends more than one hundred fifty dollars on a 1981 or later model year motor vehicle for repairs solely devoted to meeting the emission standards and that are performed by a certified emission specialist authorized by RCW 70.120.020(2)(a); and

(c) Whose vehicle fails a retest, may be issued a certificate of acceptance if (i) the vehicle has been in use for more than five years or fifty thousand miles, and (ii) any component of the vehicle installed by the manufacturer for the purpose of reducing emissions, or its appropriate replacement, is installed and operative.

~~((c))~~ To receive the certificate, the person must document compliance with (b) and (c) of this subsection to the satisfaction of the department.

Should any provision of (b) of this subsection be disapproved by the administrator of the United States environmental protection agency, all vehicles shall be required to expend at least four hundred fifty dollars to qualify for a certificate of acceptance.

(2) Persons who fail the initial tests shall be provided with information regarding the availability of federal warranties and certified emission specialists.

NEW SECTION. Sec. 204. (1) A task force is established for the purposes of recommending a program to assist persons with vehicles failing to comply with emission standards under RCW 70.120.120. The task force shall be appointed by the speaker of house of representatives and the president of the senate and shall consist of:

(a) Two members from the house committee on environmental affairs;

(b) Two members from the senate committee on environment and natural resources; and

(c) Two members from the legislative committee on transportation.

(2) In developing recommendations, the task force shall consult with representatives from the departments of ecology, licensing, social and health services,

and revenue, the Washington state patrol, vehicle dealers and manufacturers, automobile associations, auto wreckers, and advocates for low-income persons and senior citizens.

(3) By November 1, 1991, the task force shall report to the appropriate standing committees of the legislature. The report shall recommend methods to:

(a) Use public and private funds to provide credit toward purchasing vehicles ten years or older from persons with vehicles not meeting the emission standards under RCW 70.120.120 for the purpose of permanently removing such vehicles from the road;

(b) Identify persons needing assistance with the provisions of RCW 70.120.120. In identifying such persons, the task force shall give first consideration to persons with an income of less than one hundred fifty percent of the federal poverty level;

(c) Prevent fraud or abuse of the program developed under this section; and

(d) Share the cost of the program with new and used car dealers licensed under chapter 46.70 RCW.

In the event that the task force determines a program to provide credit toward the purchase of older, polluting vehicles, as described under (a) of this subsection, does not provide an adequate benefit to low-income persons, the task force shall include recommendations to provide public funds for the repair of such vehicles.

Sec. 205. RCW 70.120.080 and 1979 ex.s. c 163 s 8 are each amended to read as follows:

The director may authorize an owner or lessee of a fleet of motor vehicles, or the owner's or lessee's agent, to inspect the vehicles in the fleet and issue certificates of compliance for the vehicles in the fleet if the director determines that: (1) The director's ~~((emission and))~~ inspection ~~((standards))~~ procedures will be complied with; and (2) certificates will be issued only to vehicles in the fleet that meet emission and equipment standards adopted under RCW 70.120.150 and only when appropriate.

In addition, the director may authorize an owner or lessee of one or more diesel motor vehicles with a gross vehicle weight rating in excess of eight thousand five hundred pounds, or the owner's or lessee's agent, to inspect the vehicles and issue certificates of compliance for the vehicles. The inspections shall be conducted in compliance with inspection procedures adopted by the department and certificates of compliance shall only be issued to vehicles that meet emission and equipment standards adopted under RCW 70.120.150.

The director shall establish by rule the fee for fleet or diesel inspections provided for in this section. The fee shall be set at an amount necessary to offset the department's cost to administer the fleet and diesel inspection program authorized by this section.

Owners, leaseholders, or their agents conducting inspections under this section shall pay only the fee established in this section and not be subject to fees under RCW 70.120.170(4).

Sec. 206. RCW 70.120.120 and 1989 c 240 s 8 are each amended to read as follows:

The director shall adopt rules implementing and enforcing this chapter ~~((and RCW 46.16.015(2)(g)))~~ in accordance with chapter 34.05 RCW. ~~((Notwithstanding the provisions of chapter 34.05 RCW, any rule implementing and enforcing RCW 70.120.150(5) may not be adopted until it has been submitted to the standing committees on ecology of the house of representatives and senate for review and approval.))~~ The ~~((standing committees))~~ department shall take into account when considering proposed modifications of emission contributing boundaries, as provided for in RCW 70.120.150~~((5))~~ (6), alternative ~~((plans for traffic rerouting and traffic bans))~~ transportation control and motor vehicle emission reduction measures that ~~((may have been prepared))~~ are required by local municipal corporations for the purpose of satisfying federal emission guidelines.

Sec. 207. RCW 70.120.150 and 1989 c 240 s 2 are each amended to read as follows:

The director:

(1) Shall adopt motor vehicle emission and equipment standards to: Ensure that no less than seventy percent of the vehicles tested comply with the standards on the first inspection conducted, meet federal clean air act requirements, and protect human health and the environment.

(2) Shall adopt rules implementing the smoke opacity testing requirement for diesel vehicles that ensure that such test is objective and repeatable and that properly maintained engines that otherwise would meet the applicable federal emission standards, as measured by the new engine certification test, would not fail the smoke opacity test.

(3) Shall designate a geographic area as being a "noncompliance area" for motor vehicle emissions if (a) the department's analysis of ~~((the))~~ emission and ambient air quality data, ((recorded for)) covering a period of no less than one year, ~~((at the monitoring sites))~~ indicates that the standard has or will probably be exceeded, and (b) the department determines that the primary source of the air contaminant ~~((being monitored at the sites))~~ is motor vehicle emissions.

~~((3))~~ (4) Shall reevaluate noncompliance areas if the United States environmental protection agency modifies the relevant air quality standards, and shall discontinue the program if compliance is indicated and if the department determines that the area would continue to be in compliance after the program is discontinued. The director shall notify persons residing in noncompliance areas of the reevaluation.

~~((4))~~ (5) Shall analyze information regarding the motor vehicle traffic in a noncompliance area to determine the smallest land area within whose boundaries are present registered motor vehicles that contribute significantly to the violation of motor vehicle-related air quality standards in the noncompliance area. The director shall declare the area to be an "emission contributing area." An emission contributing area established for a carbon monoxide or oxides of nitrogen noncompliance area must contain the noncompliance area within its boundaries. An emission contributing area established for an ozone noncompliance area located in this state need not contain the ozone noncompliance area within its boundaries if it can be proven that vehicles registered in the area contribute significantly to violations of the ozone air quality standard in the noncompliance area. An emission contributing area may be established in this state for violations of federal air quality standards for ozone in an adjacent state if (a) the United States environmental protection agency designates an area to be a "nonattainment area for ozone" under the provisions of the federal Clean Air Act (42 U.S.C. 7401 et. seq.), and (b) ((the nonattainment area encompasses portions of both Washington and the adjacent state, and (c)) it can be proven that vehicles registered in this state contribute significantly to the violation of the federal air quality standards for ozone in the adjacent state's ~~((portion of the))~~ nonattainment area.

~~((5))~~ (6) Shall, after consultation with the appropriate local government entities, designate areas as being noncompliance areas or emission contributing areas, and shall establish the boundaries of such areas by rule. The director may also modify boundaries. In establishing the external boundaries of an emission contributing area, the director shall use the boundaries established for ZIP code service areas by the United States postal service.

~~((6))~~ (7) May make grants to units of government in support of planning efforts to reduce motor vehicle emissions ~~((in areas where emission control inspections are not required))~~.

Sec. 208. RCW 70.120.170 and 1989 c 240 s 4 are each amended to read as follows:

(1) The department shall administer a system for ~~((biennial))~~ emission inspections ((of emissions)) of all motor vehicles registered within the boundaries of each emission contributing area. ~~((Persons residing within the boundaries of an emission contributing area shall register their motor vehicle within that area, unless business reasons require registration outside the area. Requests for exemption from~~

~~inspection for business reasons shall be reviewed and approved by the director)~~ Under such system a motor vehicle shall be inspected biennially except where an annual program would be required to meet federal law and prevent federal sanctions. In addition, motor vehicles shall be inspected at each change of registered owner of a licensed vehicle.

(2) The director shall:

(a) Adopt procedures for conducting emission ~~((tests for))~~ inspections of motor vehicles. The ~~((tests shall))~~ inspections may include idle and high revolution per minute emission tests. The emission test for diesel vehicles shall consist solely of a smoke opacity test.

(b) Adopt criteria for calibrating emission testing equipment. Electronic equipment used to test for emissions standards provided for in this chapter shall be properly calibrated. The department shall examine frequently the calibration of the emission testing equipment used at the stations.

(c) Authorize, through contracts, the establishment and operation of inspection stations for conducting ~~((the))~~ vehicle emission ~~((tests))~~ inspections authorized in this chapter. No person contracted to inspect motor vehicles may perform for compensation repairs on any vehicles. No public body may establish or operate contracted inspection stations. Any contracts must be let in accordance with the procedures established for competitive bids in chapter 43.19 RCW.

(3) Subsection (2)(c) of this section does not apply to volunteer motor vehicle inspections under RCW 70.120.020(1)~~((a))~~ if the inspections are conducted for the following purposes:

(a) Auditing;

(b) Contractor evaluation;

(c) Collection of data for establishing calibration and performance standards; or

(d) Public information and education.

(4)(a) The director shall establish by rule the fee to be charged for emission inspections. The inspection fee shall be a standard fee applicable state-wide or throughout an emission contributing area and shall be no greater than eighteen dollars. Surplus moneys collected from fees over the amount due the contractor shall be paid to the state and deposited in the general fund. Fees shall be set at the minimum whole dollar amount required to (i) compensate the contractor or inspection facility owner, and (ii) offset the general fund appropriation to the department to cover the administrative costs of the motor vehicle emission inspection program.

(b) Before each inspection, a person whose motor vehicle is to be inspected shall pay to the inspection station the fee established under this section. The person whose motor vehicle is inspected shall receive the results of the inspection ~~((test))~~. If the inspected ~~((vehicle's emissions comply))~~ vehicle complies with the standards established by the director, the person shall receive a dated certificate of compliance. If the inspected ~~((vehicle's emissions do))~~ vehicle does not comply with those standards, one ~~((retest of the vehicle's emission))~~ reinspection of the vehicle shall be afforded without charge.

(5) All units of local government and agencies of the state with motor vehicles garaged or regularly operated in an emissions contributing area shall test the emissions of those vehicles ~~((biennially))~~ annually to ensure that the vehicle's emissions comply with the emission standards established by the director. All state agencies outside of emission contributing areas with more than twenty motor vehicles housed at a single facility or contiguous facilities shall test the emissions of those vehicles annually to ensure that the vehicles' emissions comply with standards established by the director.

A report of the results of the tests shall be submitted to the department.

Sec. 209. RCW 46.16.015 and 1990 c 42 s 318 are each amended to read as follows:

NEW SECTION. Sec. 212. A new section is added to chapter 70.120 RCW to read as follows:

By July 1, 1992, the department shall develop, in cooperation with the departments of general administration and transportation, and the state energy office, aggressive clean-fuel performance and clean-fuel vehicle emissions specifications including clean-fuel vehicle conversion equipment. To the extent possible, such specifications shall be equivalent for all fuel types. In developing such specifications the department shall consider the requirements of the clean air act and the findings of the environmental protection agency, other states, the American petroleum institute, the gas research institute, and the motor vehicles manufacturers association.

(1) At least thirty percent of all new vehicles purchased through a state contract shall be clean-fuel vehicles.

(2) The percentage of clean-fuel vehicles purchased through a state contract shall increase at the rate of five percent each year.

(3) In meeting the procurement requirement established in this section, preference shall be given to vehicles designed to operate exclusively on clean fuels. In the event that vehicles designed to operate exclusively on clean fuels are not available or would not meet the operational requirements for which a vehicle is to be procured, conventionally powered vehicles may be converted to clean fuel or dual fuel use to meet the requirements of this section.

(4) Fuel purchased through a state contract shall be a clean fuel when the fuel is purchased for the operation of a clean-fuel vehicle.

(5)(a) Weight classes are established by the following motor vehicle types:

(i) Passenger cars;

(ii) Light duty trucks, trucks with a gross vehicle weight rating by the vehicle manufacturer of less than eight thousand five hundred pounds;

(iii) Heavy duty trucks, trucks with a gross vehicle weight rating by the vehicle manufacturer of eight thousand five hundred pounds or more.

(b) This subsection does not place an obligation upon the state or its political subdivisions to purchase vehicles in any number or weight class other than to meet the percent procurement requirement.

(b) Factors affecting the safety of passengers, drivers, mechanics, and other persons using compressed natural gas school buses in comparison to diesel fuel and gasoline school buses;

(c) Capital costs, including:

(i) The availability and capital cost of retrofitting diesel and gasoline school buses;

(2) Recommendations for enhancing clean-fuel distribution systems;

(3) Efforts of the state, units of local government, and the private sector to evaluate and utilize "clean fuel" or "clean-fuel vehicles"; and

(4) Recommendations for changes in the existing program to make it more effective and, if warranted, for expansion of the program.

NEW SECTION. Sec. 216. A new section is added to chapter 80.28 RCW to read as follows:

The legislature finds that compressed natural gas offers significant potential to reduce vehicle emissions and to significantly decrease dependence on petroleum-based fuels. The legislature also finds that well-developed and convenient refueling systems are imperative if compressed natural gas is to be widely used by the public. The legislature declares that the development of compressed natural gas refueling stations are in the public interest. Nothing in this section and section 217 of this act is intended to alter the regulatory practices of the commission or allow the subsidization of one ratepayer class by another.

NEW SECTION. Sec. 217. A new section is added to chapter 80.28 RCW to read as follows:

The commission shall identify barriers to the development of refueling stations for vehicles operating on compressed natural gas, and shall develop policies to remove such barriers. In developing such policies, the commission shall consider providing rate incentives to encourage natural gas companies to invest in the infrastructure required by such refueling stations.

NEW SECTION. Sec. 218. A new section is added to chapter 70.94 RCW to read as follows:

The department may disburse matching grants from funds provided by the legislature from the air pollution control account, created in section 228 of this act, to units of local government to partially offset the additional cost of purchasing "clean fuel" and/or operating "clean-fuel vehicles" provided that such vehicles are used for public transit. Publicly owned school buses are considered public transit for the purposes of this section. The department may also disburse grants to vocational-technical institutes for the purpose of establishing programs to certify clean-fuel-vehicle mechanics. The department may also distribute grants to the state energy office for the purpose of furthering the establishment of clean fuel refueling infrastructure.

NEW SECTION. Sec. 219. A new section is added to chapter 70.94 RCW to read as follows:

In areas subject to a state implementation plan, no state agency, metropolitan planning organization, or local government shall approve or fund a transportation plan, program, or project within or that affects a nonattainment area unless a determination has been made that the plan, program, or project conforms with the state implementation plan for air quality as required by the federal clean air act.

Conformity determination shall be made by the state or local government or metropolitan planning organization administering or developing the plan, program, or project.

No later than eighteen months after the effective date of this section, the director of the department of ecology and the secretary of transportation, in consultation with other state, regional, and local agencies as appropriate, shall adopt by rule criteria and guidance for demonstrating and assuring conformity of plans, programs, and projects that are wholly or partially federally funded.

A project with a scope that is limited to preservation or maintenance, or both, shall be exempted from a conformity determination requirement.

Sec. 220. RCW 82.44.020 and 1990 c 42 s 302 are each amended to read as follows:

Sec. 222. RCW 82.44.150 and 1990 c 42 s 308 are each amended to read as follows:

(1) The director of licensing shall, on the twenty-fifth day of February, May, August, and November of each year, advise the state treasurer of the total amount of motor vehicle excise taxes imposed by RCW 82.44.020 (1) and (2) remitted to the department during the preceding calendar quarter ending on the last day of March, June, September, and December, respectively, except for those payable under RCW 82.44.030, from motor vehicle owners residing within each municipality which has levied a tax under RCW 35.58.273, which amount of excise taxes shall be determined by the director as follows:

The total amount of motor vehicle excise taxes remitted to the department, except those payable under RCW 82.44.020(3) and 82.44.030, from each county shall be multiplied by a fraction, the numerator of which is the population of the municipality residing in such county, and the denominator of which is the total population of the county in which such municipality or portion thereof is located. The product of this computation shall be the amount of excise taxes from motor vehicle

owners residing within such municipality or portion thereof. Where the municipality levying a tax under RCW 35.58.273 is located in more than one county, the above computation shall be made by county, and the combined products shall provide the total amount of motor vehicle excise taxes from motor vehicle owners residing in the municipality as a whole. Population figures required for these computations shall be supplied to the director by the office of financial management, who shall adjust the fraction annually.

(2) On the first day of the months of January, April, July, and October of each year, the state treasurer based upon information provided by the department shall, from motor vehicle excise taxes deposited in the general fund, under RCW 82.44.110(7), make the following deposits:

(a) To the high capacity transportation account created in RCW 47.78.010, a sum equal to four and five-tenths percent of the special excise tax levied under RCW 35.58.273 by those municipalities authorized to levy a special excise tax within a class AA county, or within a class A county contiguous to a class AA county, or within a second class county contiguous to a class A county that is contiguous to a class AA county;

(b) To the central Puget Sound public transportation account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within a class AA county or within a class A county contiguous to a class AA county, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(b) applies; however, any transfer under this subsection (2)(b) must be greater than zero;

(c) To the public transportation systems account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within counties not described in (b) of this subsection, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(c) applies; however, any transfer under this subsection (2)(c) must be greater than zero; and

(d) To the transportation fund created in RCW 82.44.180, for revenues distributed after June 30, 1991, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent notwithstanding the requirements set forth in subsections (3) through (6) of this section, reduced by an amount equal to distributions made under (a), (b), and (c) of this subsection.

(3) On the first day of the months of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, shall remit

motor vehicle excise tax revenues imposed and collected under RCW 35.58.273 as follows:

(a) The amount required to be remitted by the state treasurer to the treasurer of any municipality levying the tax shall not exceed in any calendar year the amount of locally-generated tax revenues, excluding the excise tax imposed under RCW 35.58.273 for the purposes of this section, which shall have been budgeted by the municipality to be collected in such calendar year for any public transportation purposes including but not limited to operating costs, capital costs, and debt service on general obligation or revenue bonds issued for these purposes; and

(b) In no event may the amount remitted in a single calendar quarter exceed the amount collected on behalf of the municipality under RCW 35.58.273 during the calendar quarter next preceding the immediately preceding quarter.

(4) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (3) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year's budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (3) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (3) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year. At the time of the next fiscal audit of each municipality, the state auditor shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

(5) The motor vehicle excise taxes imposed under RCW 35.58.273 and required to be remitted under this section shall be remitted without legislative appropriation.

(6) Any municipality levying and collecting a tax under RCW 35.58.273 which does not have an operating, public transit system or a contract for public transportation services in effect within one year from the initial effective date of the tax shall return to the state treasurer all motor vehicle excise taxes received under subsection (3) of this section.

When so apportioned, the amount payable to each such city and town shall be transmitted to the city treasurer thereof, and shall be used by the city or town for the purposes of police and fire protection and the preservation of the public health in the city or town, and not otherwise. If it is adjudged that revenue derived from the excise (~~tax~~) taxes imposed by ~~((this chapter))~~ RCW 82.44.020 (1) and (2) cannot lawfully be apportioned or distributed to cities or towns, all moneys directed by this section to be apportioned and distributed to cities and towns shall be credited and transferred to the state general fund.

Sec. 224. RCW 82.44.180 and 1990 c 42 s 312 are each amended to read as follows:

Moneys in the fund may be spent only after appropriation. Expenditures from the fund may be used only for transportation purposes.

(2) There is hereby created the central Puget Sound public transportation account within the transportation fund. Moneys deposited into the account under RCW 82.44.150(2)(b) shall be expended within the three county region from which the funds are derived, solely for:

(a) Development of high capacity transportation systems as defined in RCW 81.104.010;

(b) Development of high occupancy vehicle lanes and related facilities as defined in RCW 81.100.020; and

(c) Public transportation system contributions required to fund projects approved by the transportation improvement board.

The rate and measure of tax imposed by ~~((this chapter))~~ RCW 82.50.400 for each registration year shall be one percent, and a surcharge of one-tenth of one percent, of the value of the travel trailer or camper, as determined in the manner provided in this chapter: PROVIDED, That the excise tax upon a travel trailer or camper licensed for the first time in this state after the last day of any registration month may only be levied for the remaining months of the registration year including the month in which the travel trailer or camper is first licensed: PROVIDED FURTHER, That the minimum amount of tax payable shall be two dollars: PROVIDED FURTHER, That every dealer in mobile homes or travel trailers, for the privilege of using any mobile home or travel trailer eligible to be used under a dealer's license plate, shall pay an excise tax of two dollars, and such tax shall be collected upon the issuance of each original dealer's license plate, and also a similar tax shall be collected upon the issuance of each dealer's duplicate license plate, which taxes shall be in addition to any tax otherwise payable under this chapter.

A travel trailer or camper shall be deemed licensed for the first time in this state when such vehicle was not previously licensed by this state for the registration year or any part thereof immediately preceding the registration year in which application for license is made or when it has been registered in another jurisdiction subsequent to any prior registration in this state.

NEW SECTION. Sec. 226. A new section is added to chapter 82.50 RCW to read as follows:

Effective with October 1992 motor vehicle registration expirations, an additional annual clean air excise tax of two dollars and twenty-five cents is imposed on the owner of any travel trailer or camper for the privilege of using such travel trailer or camper in this state. Effective with July 1994 motor vehicle registration expirations,

the annual amount of additional excise tax shall be two dollars. The excise tax hereby imposed shall be due and payable to the department of licensing or its agents at the time of registration of a travel trailer or camper. (c) The amount of funding available to such authority from other sources, whether state, federal, or local, that could be used to implement such programs.

(3) The air operating permit account is created in the custody of the state treasurer. All receipts paid to the department of revenue under section 301 of this act shall be deposited into the account. Expenditures from the account may be used only for the direct and indirect costs of implementing the air operating permit program under section 301 of this act. NEW SECTION. Sec. 229. A new section is added to chapter 70.120 RCW to read as follows:

(1) It is the intent of the legislature that the state take advantage of the best emission control systems available on new motor vehicles. The department shall conduct a study to determine if requiring new vehicles sold in the state to meet California vehicle emission standards will provide a significant benefit to attainment of ambient air quality standards in this state. The department shall report the findings of its study and its recommendations to the appropriate standing committees of the legislature. The department shall not adopt the California vehicle emission standards unless authorized by the legislature.

(2) In the event that California vehicle emission standards are adopted, the department shall not include a program for in-use testing and recall of vehicles required to meet California emission standards.

NEW SECTION. Sec. 230. The department of ecology shall contract with Western Washington University for the biennium ending June 30, 1993, for research and development of alternative fuel and solar powered vehicles. A report on the progress of such research shall be presented to the standing environmental committees and the department by January 1, 1994.

NEW SECTION. Sec. 231. A new section is added to chapter 19.112 RCW to read as follows:

The directors of the departments of ecology and agriculture may grant a variance from ASTM motor fuel specifications if necessary to produce lower emission motor fuels.

"III.

INDUSTRIAL AND COMMERCIAL SOURCES"

NEW SECTION. Sec. 301. A new section is added to chapter 70.94 RCW to read as follows:

The department of ecology, or board of an authority, shall require renewable permits for the operation of air contaminant sources subject to the following conditions and limitations:

(1) Unless a different meaning is plainly required by the context, the following words and phrases shall have the following meanings:

(a) "Lowest achievable emission rate" (LAER) means for any source that rate of emissions which reflects:

(i) The most stringent emission limitation that is contained in the implementation plan of any state for such class or category of source, unless the owner or operator of the proposed new or modified source demonstrates that such limitations are not achievable; or

(ii) The most stringent emission limitation that is achieved in practice by such class or category of source, whichever is more stringent.

In no event shall the application of this term permit a proposed new or modified source to emit any pollutant in excess of the amount allowable under applicable new source performance standards.

(b) "Best available control technology" (BACT) means technology that will result in an emission limitation, including a visible emission standard, based on the maximum degree of reduction for each air pollutant subject to this regulation that would be emitted from any proposed new or modified source that the permitting authority, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such sources or modification through application of production processes, available methods, systems, and techniques, including fuel cleaning or treatment or innovative fuel combustion techniques for control of such air pollutant. In no event shall application of the best available technology result in emissions of any air pollutant that would exceed the

emissions allowed by any applicable standard under 40 C.F.R. Part 60 and Part 61. If the reviewing agency determines that technological or economic limitations on the application of measurement methodology to a particular class of sources would make the imposition of an emission standard infeasible, it may instead prescribe a design, equipment, work practice, or operational standard, or combination thereof, to meet the requirement of best available control technology. Such standard shall, to the degree possible, set forth the emission reduction achievable by implementation of such design, equipment, work practice, or operation and shall provide for compliance by means that achieve equivalent results. The term "all known available and reasonable methods of emission control" is interpreted to mean the same as best available control technology.

(c) "Reasonably available control technology" (RACT) means the lowest emission limit that a particular source or source category is capable of meeting by the application of control technology that is reasonably available considering technological and economic feasibility. RACT is determined on a case-by-case basis for an individual source or source category taking into account the impact of the source upon air quality, the availability of additional controls, the emission reduction to be achieved by additional controls, the impact of additional controls on air quality, and the capital and operating costs of the additional controls. RACT requirements for any source or source category shall be adopted only after notice and opportunity for comment are afforded.

(d) "Source" means all of the emissions units including quantifiable fugitive emissions, that are located on one or more contiguous or adjacent properties, and are under the control of the same person, or persons under common control, whose activities are ancillary to the production of a single product or functionally related group of products.

(e) "New source" means (i) the construction or modification of a stationary source that increases the amount of any air contaminant emitted by such source or that results in the emission of any air contaminant not previously emitted, and (ii) any other project that constitutes a new source under the federal clean air act.

(f) "Stationary source" means any building, structure, facility, or installation that emits or may emit any air contaminant.

(g) "Modification" means any physical change in, or change in the method of operation of, a stationary source that increases the amount of any air contaminant emitted by such source or that results in the emission of any air contaminant not previously emitted. The term modification shall be construed consistent with the definition of modification in Section 7411, Title 42, United States Code, and with rules implementing that section.

(2) Permits shall be issued for a term of five years. A permit may be modified or amended during its term at the request of the permittee, or for any reason allowed by the federal clean air act. The rules adopted pursuant to subsection (3) of this section shall include rules for permit amendments and modifications.

(3)(a) Rules establishing the elements for a state-wide operating permit program and the process for permit application and renewal consistent with federal requirements shall be established by the department by January 1, 1993. The rules shall provide that every proposed permit must be reviewed prior to issuance by a professional engineer or staff under the direct supervision of a professional engineer in the employ of the permitting authority. The permit program established by these rules shall be administered by the department and delegated local air authorities. Rules developed under this subsection shall not preclude a delegated local air authority from including in a permit its own more stringent emission standards and operating restrictions.

(b) The board of any local air pollution control authority may apply to the department of ecology for a delegation order authorizing the local authority to administer the operating permit program for sources under that authority's jurisdiction. The department shall, by order, approve such delegation, if the department finds that

the local authority has the technical and financial resources, to discharge the responsibilities of a permitting authority under the federal clean air act. A delegation request shall include adequate information about the local authority's resources to enable the department to make the findings required by this subsection; provided, any delegation order issued under this subsection shall take effect ninety days after the environmental protection agency authorizes the local authority to issue operating permits under the federal clean air act.

(c) Except for the authority granted the energy facility site evaluation council to issue permits for the new construction, reconstruction, or enlargement or operation of new energy facilities under chapter 80.50 RCW, the department may exercise the authority, as delegated by the environmental protection agency, to administer Title IV of the federal clean air act as amended and to delegate such administration to local authorities as applicable pursuant to (b) of this subsection.

(4) "Best available control technology" (BACT) is required for new sources except where LAER is required.

Until July 1, 1993, "lowest achievable emission rate" (LAER) is required solely for those sources required by the federal clean air act. By December 1, 1992, the department shall recommend control technology requirements for new sources to the appropriate standing committees of the legislature.

Except as otherwise provided in RCW 70.94.331(9), "reasonably available control technology" (RACT) is required for existing sources.

In establishing technical standards, defined in subsection (2) of this section, the permitting authority shall consider and, if found to be appropriate, give credit for waste reduction within the process.

(5) Operating permits shall apply to all sources (a) where required by the federal clean air act, and (b) for any source that may cause or contribute to air pollution in such quantity as to create a threat to the public health or welfare. Subsection (b) of this subsection is not intended to apply to small businesses except when both of the following limitations are satisfied: (i) The source is in an area exceeding or threatening to exceed federal or state air quality standards; and (ii) the department provides a reasonable justification that requiring a source to have a permit is necessary to meet a federal or state air quality standard, or to prevent exceeding a standard in an area threatening to exceed the standard. For purposes of this subsection "areas threatening to exceed air quality standards" shall mean areas projected by the department to exceed such standards within five years. Prior to identifying threatened areas the department shall hold a public hearing or hearings within the proposed areas.

(6) Sources operated by government agencies are not exempt under this section.

(7) By October 1, 1993, or ninety days after the United States environmental protection agency approves the state operating permit program, whichever is later, any person required to have a permit shall submit to the permitting agency a compliance plan and permit application, signed by a responsible official, certifying the accuracy of the information submitted. Until permits are issued, existing sources shall be allowed to operate under presently applicable standards and conditions provided that such sources submit complete and timely permit applications.

(8) All proposed permits shall be subject to public notice and comment. The rules adopted pursuant to subsection (3) of this section shall specify procedures for public notice and comment. Such procedures shall provide the permitting agency with an opportunity to respond to comments received from interested parties prior to the time that the proposed permit is submitted to the environmental protection agency for review pursuant to section 505(a) of the federal clean air act. In the event that the environmental protection agency objects to a proposed permit pursuant to section 505(b) of the federal clean air act, the permitting authority shall not issue the permit, unless the permittee consents to the changes required by the environmental protection agency.

(9) The procedures contained in chapter 43.21B RCW shall apply to permit appeals. The pollution control hearings board may stay the effectiveness of any permit issued under this section during the pendency of an appeal filed by the permittee, if the permittee demonstrates that compliance with the permit during the pendency of the appeal would require significant expenditures that would not be necessary in the event that the permittee prevailed on the merits of the appeal.

(10) After the effective date of any permit program promulgated under this section, it shall be unlawful for any person to: (a) Operate a permitted source in violation of any requirement of a permit issued under this section; or (b) fail to submit a permit application at the time required by rules adopted under subsection (3) of this section.

(11) Each air operating permit shall state the origin of and specific legal authority for each requirement included therein. Every requirement in an operating permit shall be based upon the most stringent of the following requirements:

(a) The federal clean air act and rules implementing that act, including provision of the approved state implementation plan;

(b) This chapter and rules adopted thereunder; and

(c) In permits issued by a local air pollution control authority, the requirements of any order or regulation adopted by that authority.

(12) Consistent with the provisions of the federal clean air act, the permitting authority may issue general permits covering categories of permitted sources, and temporary permits authorizing emissions from similar operations at multiple temporary locations.

(13) Permitted sources within the territorial jurisdiction of an authority delegated the operating permit program shall file their permit applications with that authority, except that permit applications for sources regulated on a state-wide basis pursuant to RCW 70.94.395 shall be filed with the department. Permitted sources outside the territorial jurisdiction of a delegated authority shall file their applications with the department.

(14) When issuing operating permits to coal fired electric generating plants, the permitting authority shall give consideration to the federal time lines for the implementation of required control technology.

(15)(a) Each source emitting one hundred tons or more per year of a regulated pollutant shall pay an interim assessment of ten dollars per ton multiplied by the annual process-related emissions of each regulated pollutant emitted during calendar years 1990 and 1991. "Regulated pollutant" shall have the same meaning as defined in section 502(b) of the federal clean air act amendments of 1990.

(b) Fees collected under (a) of this subsection shall be distributed as follows: Eighty percent to the department and twenty percent to local air authorities.

(c) The fees assessed to a source under (a) of this subsection and any fees enacted under subsection (16) of this section shall be limited to the first seven thousand five hundred tons for each regulated pollutant per year.

(16) On or before November 1, 1992, the department, in consultation with the department of revenue, shall report to the appropriate standing committees of the legislature recommendations on air operating permit fees. The department shall recommend a level of fees to cover the direct and indirect costs of implementing the operating permit program required under the 1990 federal clean air act. In making such recommendations, the department shall address:

(a) The costs of the permit program elements as identified in regulations promulgated by the United States environmental protection agency, including, as applicable:

(i) Oversight of a delegated local air authority;

(ii) Ambient air monitoring, modeling, and reporting;

(iii) Training;

- (iv) Data management and quality assurance;
- (v) Development of state implementation plans;
- (vi) Emission inventories;
- (vii) Technical assistance;
- (viii) Rule making and guidelines; and
- (ix) Any other activities, consistent with the federal clean air act, that may be identified by the department;
- (b) The appropriate division of fees with delegated local air authorities; and
- (c) A methodology for tracking revenues and expenditures from fees paid under this chapter.

(17) The department shall determine the persons liable for the fee imposed by subsection (15) of this section, compute the fee, and provide by November 1 of 1991 and 1992, the identity of the fee payer with the computation of the fee to the department of revenue for collection. The department of revenue shall collect the fee computed by the department from the fee payers identified by the department. The administrative, collection, and penalty provisions of chapter 82.32 RCW shall apply to the collection of the fee by the department of revenue. The department shall provide technical assistance to the department of revenue for decisions made by the department of revenue pursuant to RCW 82.32.160 and 82.32.170. All fees collected shall be deposited in the air operating permit account.

All fees identified in this section shall be due and payable on March 1 of 1992 and 1993.

(18) For sources or source categories not required to obtain permits under subsection (5) of this section, the department or local authority may establish by rule control technology requirements. If control technology rule revisions are made by the department or local authority under this subsection, the department or local authority shall consider the remaining useful life of control equipment previously installed on existing sources before requiring technology changes. The department or any local air authority may issue a general permit, as authorized under the federal clean air act, for such sources.

(19) RCW 70.94.151 shall not apply to any source for which a permit under this section has been issued.

Sec. 302. RCW 70.94.152 and 1973 1st ex.s. c 193 s 2 are each amended to read as follows:

(1) The department of ecology or board of any authority may require notice of the ~~((construction, installation, or))~~ establishment of any proposed new ~~((air contaminant))~~ sources except single family and duplex dwellings. The department of ecology or board may require such notice to be accompanied by a fee and determine the amount of such fee: PROVIDED, That the amount of the fee may not exceed the cost of reviewing the plans, specifications, and other information and administering such notice: PROVIDED FURTHER, That any such notice given or notice of construction application submitted to either the board or to the department of ecology shall preclude a further ~~((notice))~~ submittal of a duplicate application to ~~((be given to))~~ any ~~((other))~~ board or to the department of ecology. Within thirty days of ~~((its))~~ receipt of ~~((such notice))~~ a notice of construction application, the department of ecology or board may require, as a condition precedent to the ~~((construction, installation, or))~~ establishment of the ~~((air contaminant))~~ new source or sources covered thereby, the submission of plans, specifications, and such other information as it deems necessary ~~((in order))~~ to determine whether the proposed ~~((construction, installation, or establishment))~~ new source will be in accord with applicable rules and regulations in force ~~((pursuant to))~~ under this chapter ~~((, and will provide all known available and reasonable methods of emission control))~~. If on the basis of plans, specifications, or other information required ~~((pursuant to))~~ under this section the department of ecology or board determines that the proposed ~~((construction, installation, or establishment))~~ new source

will not be in accord with this chapter or the applicable ordinances, resolutions, rules, and regulations adopted ~~((pursuant thereto, or will not provide all known available and reasonable means of emission control))~~ under this chapter, it shall issue an order ((for the prevention of the construction, installation, or establishment of the air contaminant source or sources)) denying permission to establish the new source. If on the basis of plans, specifications, or other information required ~~((pursuant to))~~ under this section, the department of ecology or board determines that the proposed ((construction, installation, or establishment)) new source will be in accord with this chapter, and the applicable ((ordinances, resolutions,)) rules((;)) and regulations adopted ((pursuant thereto)) and will provide all known available and reasonable methods of emission control)) under this chapter, it shall issue an order of approval ((of)) for the ((construction, installation, and)) establishment of the ((air contaminant)) new source or sources, which order may provide such conditions ((of operation)) as are reasonably necessary to assure the maintenance of compliance with this chapter and the applicable ((ordinances, resolutions,)) rules((;)) and regulations adopted ((pursuant thereto)) under this chapter. Every order of approval under this chapter must be reviewed prior to issuance by a professional engineer or staff under the supervision of a professional engineer in the employ of the department of ecology or board.

(2) ~~((For the purposes of this chapter, addition to or enlargement or replacement of an air contaminant source, or any major alteration therein, shall be construed as construction or installation or establishment of a new air contaminant source.))~~ The determination~~((;))~~ required under subsection (1) of this section((, of whether a proposed construction, installation, or establishment will be in accord with this chapter and the applicable ordinances, resolutions, rules, and regulations adopted pursuant thereto)) shall include a determination of whether the operation of the new air contaminant source at the location proposed will cause any ambient air quality standard to be exceeded.

(3) New source review of a modification shall be limited to the emission unit or units proposed to be modified and the air contaminants whose emissions would increase as a result of the modification.

(4) Nothing in this section shall be construed to authorize the department of ecology or board to require the use of emission control equipment or other equipment, machinery, or devices of any particular type, from any particular supplier, or produced by any particular manufacturer.

~~((4))~~ (5) Any features, machines, and devices constituting parts of or called for by plans, specifications, or other information submitted pursuant to subsection (1) ~~((hereof))~~ of this section shall be maintained and operate in good working order.

~~((5))~~ (6) The absence of an ordinance, resolution, rule, or regulation, or the failure to issue an order pursuant to this section shall not relieve any person from his or her obligation to comply with ~~((any))~~ applicable emission control requirements or with any other provision of law.

(7) Within thirty days of receipt of a notice of construction application the department of ecology or board shall either notify the applicant in writing that the application is complete or notify the applicant in writing of all additional information necessary to complete the application. Within sixty days of receipt of a complete application the department or board shall either (a) issue a final decision on the application, or (b) for those projects subject to public notice, initiate notice and comment on a proposed decision, followed as promptly as possible by a final decision.

NEW SECTION. Sec. 303. A new section is added to chapter 70.94 RCW to read as follows:

Any person proposing to replace or substantially alter the emission control technology installed on an existing stationary source emission unit shall file a notice of construction application with the jurisdictional permitting authority. For projects not otherwise reviewable under RCW 70.94.152, the permitting authority may (1) require

that the owner or operator employ reasonably available control technology for the affected emission unit and (2) may prescribe reasonable operation and maintenance conditions for the control equipment. Within thirty days of receipt of an application for notice of construction under this section the permitting authority shall either notify the applicant in writing that the application is complete or notify the applicant in writing of all additional information necessary to complete the application. Within thirty days of receipt of a complete application the permitting authority shall either issue an order of approval or a proposed RACT determination for the proposed project. Construction shall not commence on a project subject to review under this section until the permitting authority issues a final order of approval. However, any notice of construction application filed under this section shall be deemed to be approved without conditions if the permitting authority takes no action within thirty days of receipt of a complete application for a notice of construction.

NEW SECTION. Sec. 304. A new section is added to chapter 70.94 RCW to read as follows:

The department shall prepare recommendations to reduce air emissions for source categories not generally required to have a permit under section 301 of this act. Such recommendations shall not require any action by the owner or operator of a source and shall be consistent with rules adopted under chapter 70.95C RCW. The recommendations shall include but not be limited to: Process changes, product substitution, equipment modifications, hazardous substance use reduction, recycling, and energy efficiency.

Sec. 305. RCW 70.94.155 and 1981 c 224 s 1 are each amended to read as follows:

(1) As used in subsection (3) of this section, the term "bubble" means an air pollution control system which permits aggregate measurements of allowable emissions, for a single category of pollutant, for emissions points from a specified emissions-generating facility or facilities. Individual point source emissions levels from such specified facility or facilities may be modified provided that the aggregate limit for the specified sources is not exceeded.

(2) Whenever any regulation relating to emission standards or other requirements for the control of emissions is adopted which provides for compliance with such standards or requirements no later than a specified time after the date of adoption of the regulation, the appropriate activated air pollution control authority or, if there be none, the department of ecology shall, by permit or regulatory order, issue to air contaminant sources subject to the standards or requirements, schedules of compliance setting forth timetables for the achievement of compliance as expeditiously as practicable, but in no case later than the time specified in the regulation. Interim dates in such schedules for the completion of steps of progress toward compliance shall be as enforceable as the final date for full compliance therein.

(3) Wherever requirements necessary for the attainment of air quality standards or, where such standards are not exceeded, for the maintenance of air quality can be achieved through the use of a control program involving the bubble concept, such program may be authorized by a regulatory order or orders or permit issued to the air contaminant source or sources involved. Such order or permit shall only be authorized after the control program involving the bubble concept is accepted by United States environmental protection agency as part of an approved state implementation plan. Any such order or permit provision shall restrict total emissions within the bubble to no more than would otherwise be allowed in the aggregate for all emitting processes covered. The orders or permits provided for by this subsection shall be issued by the department or the authority with jurisdiction. If the bubble involves interjurisdictional approval, concurrence in the total program must be secured from each regulatory entity concerned.

Sec. 306. RCW 70.94.181 and 1983 c 3 s 176 are each amended to read as follows:

(1) Any person who owns or is in control of any plant, building, structure, establishment, process or equipment may apply to the department of ecology (~~where it has regulatory authority under RCW 70.94.390, 70.94.395, 70.94.410, and 70.94.420,~~) or appropriate local authority board for a variance from rules or regulations governing the quality, nature, duration or extent of discharges of air contaminants. The application shall be accompanied by such information and data as the department of ecology or board may require. The department of ecology or board may grant such variance, provided that variances to state rules shall require the department's approval prior to being issued by a local authority board. The total time period for a variance and renewal of such variance shall not exceed one year. Variances may be issued by either the department or a local board but only after public hearing or due notice, if ~~((it))~~ the department or board finds that:

(a) The emissions occurring or proposed to occur do not endanger public health or safety or the environment; and

(b) Compliance with the rules or regulations from which variance is sought would produce serious hardship without equal or greater benefits to the public.

(2) No variance shall be granted pursuant to this section until the department of ecology or board has considered the relative interests of the applicant, other owners of property likely to be affected by the discharges, and the general public.

(3) Any variance or renewal thereof shall be granted within the requirements of subsection (1) ~~((and for time periods))~~ of this section and under conditions consistent with the reasons therefor, and within the following limitations:

(a) If the variance is granted on the ground that there is no practicable means known or available for the adequate prevention, abatement or control of the pollution involved, it shall be only until the necessary means for prevention, abatement or control become known and available, and subject to the taking of any substitute or alternate measures that the department of ecology or board may prescribe.

~~(b) ((If the application for variance shows that there is no automobile fragmentizer within a reasonable distance of the wrecking yard for which the variance is sought, a variance will be granted for a period not to exceed three years for commercial burning of automobile hulks, subject to such conditions as the department of ecology may impose as to climatic conditions and hours during which burning of such hulks may be carried out: PROVIDED, HOWEVER, That any variance granted hereunder shall be of no force and effect after July 1, 1970.~~

~~(e))~~ If the variance is granted on the ground that compliance with the particular requirement or requirements from which variance is sought will require the taking of measures which, because of their extent or cost, must be spread over a considerable period of time, it shall be for a period not to exceed such reasonable time as, in the view of the department of ecology or board is requisite for the taking of the necessary measures. A variance granted on the ground specified herein shall contain a timetable for the taking of action in an expeditious manner and shall be conditioned on adherence to such timetable.

~~((d))~~ (c) If the variance is granted on the ground that it is justified to relieve or prevent hardship of a kind other than that provided for in ~~((item))~~ (a) ~~((b))~~ and ~~((e))~~ (b) of this ~~((subparagraph))~~ subsection, it shall be for not more than one year.

(4) Any variance granted pursuant to this section may be renewed on terms and conditions and for periods which would be appropriate on initial granting of a variance. If complaint is made to the department of ecology or board on account of the variance, no renewal thereof shall be granted unless following a public hearing on the complaint on due notice the ~~((state board))~~ department or board finds that renewal is justified. No renewal shall be granted except on application therefor. Any such application shall be made at least sixty days prior to the expiration of the variance. Immediately upon

receipt of an application for renewal, the department of ecology or board shall give public notice of such application in accordance with rules (~~and regulations~~) of the department of ecology or board.

(5) A variance or renewal shall not be a right of the applicant or holder thereof but shall be granted at the discretion of the department of ecology or board. However, any applicant adversely affected by the denial or the terms and conditions of the granting of an application for a variance or renewal of a variance by the department of ecology or board may obtain judicial review thereof under the provisions of chapter 34.05 RCW as now or hereafter amended.

(6) Nothing in this section and no variance or renewal granted pursuant hereto shall be construed to prevent or limit the application of the emergency provisions and procedures of RCW 70.94.710 through 70.94.730 to any person or his or her property.

(7) An application for a variance, or for the renewal thereof, submitted to the department of ecology or board pursuant to this section shall be approved or disapproved by the department or board within sixty-five days of receipt unless the applicant and the department of ecology or board agree to a continuance.

(8) Variances approved under this section shall not be included in orders or permits provided for in section 301 of this act or RCW 70.94.152 until such time as the variance has been accepted by the United States environmental protection agency as part of an approved state implementation plan.

Sec. 307. RCW 70.94.205 and 1973 1st ex.s. c 193 s 4 are each amended to read as follows:

Whenever any records or other information, other than ambient air quality data or emission data, furnished to or obtained by the department of ecology or the board of any authority (~~(pursuant to any sections in chapter 70.94 RCW)~~ under this chapter, relate to processes or production unique to the owner or operator, or is likely to affect adversely the competitive position of such owner or operator if released to the public or to a competitor, and the owner or operator of such processes or production so certifies, such records or information shall be only for the confidential use of the department of ecology or board. Nothing herein shall be construed to prevent the use of records or information by the department of ecology or board in compiling or publishing analyses or summaries relating to the general condition of the outdoor atmosphere: PROVIDED, That such analyses or summaries do not reveal any information otherwise confidential under the provisions of this section: PROVIDED FURTHER, That emission data furnished to or obtained by the department of ecology or board shall be correlated with applicable emission limitations and other control measures and shall be available for public inspection during normal business hours at offices of the department of ecology or board.

NEW SECTION. **Sec. 308.** A new section is added to chapter 70.94 RCW to read as follows:

The department shall establish a technical assistance unit within its air quality program, consistent with the federal clean air act, to provide the regulated community, especially small businesses with:

(1) Information on air pollution laws, rules, compliance methods, and technologies;

(2) Information on air pollution prevention methods and technologies, and prevention of accidental releases;

(3) Assistance in obtaining permits and developing emission reduction plans;

(4) Information on the health and environmental effects of air pollution.

No representatives of the department designated as part of the technical assistance unit created in this section may have any enforcement authority. Staff of the technical assistance unit who provide on-site consultation at an industrial or commercial facility and who observe violations of air quality rules shall immediately inform the owner or operator of the facility of such violations. On-site consultation

visits shall not be regarded as an inspection or investigation and no notices or citations may be issued or civil penalties assessed during such a visit. However, violations shall be reported to the appropriate enforcement agency and the facility owner or operator shall be notified that the violations will be reported. No enforcement action shall be taken by the enforcement agency for violations reported by technical assistance unit staff unless and until the facility owner or operator has been provided reasonable time to correct the violation. Violations that place any person in imminent danger of death or substantial bodily harm or cause physical damage to the property of another in an amount exceeding one thousand dollars may result in immediate enforcement action by the appropriate enforcement agency.

Sec. 309. RCW 70.94.211 and 1974 ex.s. c 69 s 4 are each amended to read as follows:

~~((Whenever the board or the control officer has reason to believe that any provision of this chapter or any ordinance, resolution, rule or regulation relating to the control or prevention of air pollution has been violated, such board or control officer may))~~ At least thirty days prior to the commencement of any formal enforcement action under RCW 70.94.430 or 70.94.431 a local air authority shall cause written notice to be served upon the alleged violator or violators. The notice shall specify the provision of this chapter or the ((ordinance, resolution,)) rule or regulation alleged to be violated, and the facts alleged to constitute a violation thereof, and may include an order directing that necessary corrective action be taken within a reasonable time. In lieu of an order, the board or the control officer may require that the alleged violator or violators appear before the board for a hearing((, or in addition to or in place of an order or hearing, the board may initiate action pursuant to RCW 70.94.425, 70.94.430, and 70.94.435)). Every notice of violation shall offer to the alleged violator an opportunity to meet with the local air authority prior to the commencement of enforcement action.

Sec. 310. RCW 70.94.430 and 1984 c 255 s 1 are each amended to read as follows:

(1) Any person who knowingly violates any of the provisions of ~~((this))~~ chapter 70.94 or 70.120 RCW, or any ordinance, resolution, ~~((rule))~~ or regulation in force pursuant thereto shall be guilty of a ~~((misdemeanor))~~ crime and upon conviction thereof shall be punished by a fine of not more than ~~((one))~~ ten thousand dollars, or by imprisonment in the county jail for not more than ~~((ninety days))~~ one year, or by both ~~((fine and imprisonment))~~ for each separate violation.

~~((Any person who wilfully violates any of the provisions of this chapter or any ordinance, resolution, rule or regulation in force pursuant thereto shall be guilty of a gross misdemeanor. Upon conviction the offender shall be punished by a fine of not less than one hundred dollars for each offense or by imprisonment for a term of not more than one year or by both fine and imprisonment.~~

~~In case of a continuing violation, whether or not wilfully committed, each day's continuance shall be a separate and distinct violation.))~~

(2) Any person who negligently releases into the ambient air any substance listed by the department of ecology as a hazardous air pollutant, other than in compliance with the terms of an applicable permit or emission limit, and who at the time negligently places another person in imminent danger of death or substantial bodily harm shall be guilty of a crime and shall, upon conviction, be punished by a fine of not more than ten thousand dollars, or by imprisonment for not more than one year, or both.

(3) Any person who knowingly releases into the ambient air any substance listed by the department of ecology as a hazardous air pollutant, other than in compliance with the terms of an applicable permit or emission limit, and who knows at the time that he or she thereby places another person in imminent danger of death or substantial bodily harm, shall be guilty of a crime and shall, upon conviction, be

punished by a fine of not less than fifty thousand dollars, or by imprisonment for not more than five years, or both.

(4) Any person who knowingly fails to disclose a potential conflict of interest under RCW 70.94.100 shall be guilty of a gross misdemeanor, and upon conviction thereof shall be punished by a fine or not more than five thousand dollars.

Sec. 311. RCW 70.94.431 and 1990 c 157 s 1 are each amended to read as follows:

(1) In addition to or as an alternate to any other penalty provided by law, any person who violates any of the provisions of chapter 70.94 RCW, chapter 70.120 RCW, or any of the rules ~~((and regulations of the department or the board shall))~~ in force under such chapters may incur a civil penalty in an amount not to exceed ~~((one))~~ ten thousand dollars per day for each violation. Each such violation shall be a separate and distinct offense, and in case of a continuing violation, each day's continuance shall be a separate and distinct violation. ~~((For the purposes of this subsection, the maximum daily fine imposed by a local board for violations of standards by a specific emissions unit is one thousand dollars.))~~

Any person who fails to take action as specified by an order issued pursuant to this chapter shall be liable for a civil penalty of not more than ten thousand dollars for each day of continued noncompliance. (2) Penalties incurred but not paid shall accrue interest, beginning on the ninety-first day following the date that the penalty becomes due and payable, at the highest rate allowed by RCW 19.52.020 on the date that the penalty becomes due and payable. If violations or penalties are appealed, interest shall not begin to accrue until the thirty-first day following final resolution of the appeal.

The maximum penalty amounts established in this section may be increased annually to account for inflation as determined by the state office of the economic and revenue forecast council.

~~((2) Further, the person is subject to a fine of up to five thousand dollars to be levied by the director of the department of ecology if requested by the board of a local authority or if the director determines that the penalty is needed for effective enforcement of this chapter. A local board shall not make such a request until notice of violation and compliance order procedures have been exhausted, if such procedures are applicable. For the purposes of this subsection, the maximum daily fine imposed by the department of ecology for violations of standards by a specific emissions unit is five thousand dollars.))~~

(3) Each act of commission or omission which procures, aids or abets in the violation shall be considered a violation under the provisions of this section and subject to the same penalty. The penalties provided in this section shall be imposed pursuant to RCW 43.21B.300.

(4) All penalties recovered under this section by the department shall be paid into the state treasury and credited to the ~~((general fund))~~ air pollution control account established in section 228 of this act or, if recovered by the authority, shall be paid into the treasury of the authority and credited to its funds. If a prior penalty for the same violation has been paid to a local authority, the penalty imposed by the department under subsection ~~((2))~~ (1) of this section shall be reduced by the amount of the payment. ~~((Notwithstanding any other provisions of this chapter, no penalty may be levied for the violation of any opacity standard in an amount exceeding four hundred dollars per day.))~~

(5) To secure the penalty incurred under this section, the state or the authority shall have a lien on any vessel used or operated in violation of this chapter which shall be enforced as provided in RCW 60.36.050.

(6) Public or private entities that are recipients or potential recipients of department grants, whether for air quality related activities or not, may have such

grants rescinded or withheld by the department for failure to comply with provisions of this chapter.

(7) In addition to other penalties provided by this chapter, persons knowingly under-reporting emissions or other information used to set fees, or persons required to pay emission or permit fees who are more than ninety days late with such payments may be subject to a penalty equal to three times the amount of the original fee owed.

(8) By January 1, 1992, the department shall develop rules for excusing excess emissions from enforcement action if such excess emissions are unavoidable. The rules shall specify the criteria and procedures for the department and local air authorities to determine whether a period of excess emissions is excusable in accordance with the state implementation plan.

Sec. 312. RCW 70.94.860 and 1984 c 164 s 2 are each amended to read as follows:

The department of ecology may accept delegation of ~~((the prevention of significant deterioration program pursuant to Part C, Subpart 1 of))~~ programs as provided for in the federal clean air act. Subject to federal approval, the department may, in turn, delegate ((this)) such programs to the local authority with jurisdiction in a given area.

Sec. 313. RCW 70.94.875 and 1985 c 456 s 3 are each amended to read as follows:

The department of ecology, in consultation with the ~~((joint legislative committee on science and technology or the))~~ appropriate committees of the house of representatives and of the senate, shall:

- (1) Continue evaluation of information and research on acid deposition in the Pacific Northwest region;
- (2) Establish critical levels of acid deposition and lake, stream, and soil acidification; and
- (3) Notify the legislature if acid deposition or lake, stream, and soil acidification reaches the levels established under subsection (2) of this section.

NEW SECTION. Sec. 314. A new section is added to chapter 70.94 RCW to read as follows:

(1) The science advisory board is hereby created to advise the department on procedures for assessing and managing the risks associated with air contaminant emissions. The board shall consist of five members knowledgeable in the fields of risk assessment or risk management. Members shall be appointed by the director of the department. The board shall be staffed by the department.

(2) The board shall:

(a) Advise the department on the most appropriate methods for identifying and measuring cancer risks or other chronic health effects resulting from exposure to air contaminant emissions; and

(b) Identify, evaluate, and recommend procedures relating to managing the risks associated with exposure to air contaminant emissions.

(3) In fulfilling its duties under subsection (2) of this section, the board shall consider all appropriate studies and reports relating to risk assessment or risk management including but not limited to reports authorized by the federal clean air act from the national academy of sciences and the risk assessment and risk management commission.

(4) Members shall be compensated as provided in RCW 43.03.250 and shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

(5) The duties of the board shall terminate on July 1, 1996.

NEW SECTION. Sec. 315. A new section is added to chapter 70.94 RCW to read as follows:

The department and local air pollution control authorities shall preempt the application of chapter 9 of the uniform building code and article 80 of the uniform

fire code by other state agencies and local governments for the purposes of controlling outdoor air pollution from industrial and commercial sources, except where authorized by this act. Actions by other state agencies and local governments under article 80 of the uniform fire code to take immediate action in response to an emission that presents a physical hazard or imminent health hazard are not preempted.

"IV.
OUTDOOR BURNING"

Sec. 401. RCW 70.94.745 and 1972 ex.s. c 136 s 2 are each amended to read as follows:

It shall be the responsibility and duty of the department of natural resources, department of ecology, department of agriculture, fire districts, and local air pollution control authorities to establish, through regulations, ordinances, or policy, a limited burning program for the people of this state, consisting of a one-permit system, until such time as ~~((an))~~ alternate technology or methods of disposing of the organic refuse ~~((described in this chapter shall))~~ have been developed ((which is)) that are reasonably economical and less harmful to the environment. It is the policy of this state to ~~((encourage the fostering and development of such))~~ foster and encourage development of alternate methods or technology for disposing of or reducing the amount of organic refuse.

NEW SECTION. Sec. 402. A new section is added to chapter 70.94 RCW to read as follows:

(1) Consistent with the policy of the state to reduce outdoor burning to the greatest extent practical:

(a) Outdoor burning shall not be allowed in any area of the state where federal or state ambient air quality standards are exceeded for pollutants emitted by outdoor burning.

(b) Outdoor burning shall not be allowed in any urban growth area as defined by RCW 36.70A.030, or any city of the state having a population greater than ten thousand people if such cities are threatened to exceed state or federal air quality standards, and alternative disposal practices consistent with good solid waste management are reasonably available or practices eliminating production of organic refuse are reasonably available. In no event shall such burning be allowed after December 31, 2000.

(2) "Outdoor burning" means the combustion of material of any type in an open fire or in an outdoor container without providing for the control of combustion or the control of emissions from the combustion.

(3) This section shall not apply to silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas.

NEW SECTION. Sec. 403. A new section is added to chapter 70.94 RCW to read as follows:

(1) The department of natural resources shall administer a program to reduce state-wide emissions from silvicultural forest burning so as to achieve the following minimum objectives:

(a) Twenty percent reduction by December 31, 1994 providing a ceiling for emissions until December 31, 2000; and

(b) Fifty percent reduction by December 31, 2000 providing a ceiling for emissions thereafter.

Reductions shall be calculated from the average annual emissions level from calendar years 1985 to 1989, using the same methodology for both reduction and base year calculations.

(2) The department of natural resources, within twelve months after the effective date of this section, shall develop a plan, based upon the existing smoke management agreement to carry out the programs as described in this section in the most efficient, cost-effective manner possible. The plan shall be developed in consultation with the department of ecology, public and private landowners engaged in silvicultural forest burning, and representatives of the public.

The plan shall recognize the variations in silvicultural forest burning including, but not limited to, a landowner's responsibility to abate an extreme fire hazard under chapter 76.04 RCW and other objectives of burning, including abating and preventing a fire hazard, geographic region, climate, elevation and slope, proximity to populated areas, and diversity of land ownership. The plan shall establish priorities that the department of natural resources shall use to allocate allowable emissions, including but not limited to, silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas. The plan shall also recognize the real costs of the emissions program and recommend equitable fees to cover the costs of the program.

The emission reductions in this section are to apply to all forest lands including those owned and managed by the United States. If the United States does not participate in implementing the plan, the departments of natural resources and ecology shall use all appropriate and available methods or enforcement powers to ensure participation.

The plan shall include a tracking system designed to measure the degree of progress toward the emission reductions goals set in this section. The department of natural resources shall report annually to the department of ecology and the legislature on the status of the plan, emission reductions and progress toward meeting the objectives specified in this section, and the goals of this chapter and chapter 76.04 RCW.

(3) If the December 31, 1994, emission reductions targets in this section are not met, the department of natural resources, in consultation with the department of ecology, shall use its authority granted in this chapter and chapter 76.04 RCW to immediately limit emissions from such burning to the 1994 target levels and limit silvicultural forest burning in subsequent years to achieve equal annual incremental reductions so as to achieve the December 31, 2000, target level. If, as a result of the program established in this section, the emission reductions are met in 1994, but are not met by December 31, 2000, the department of natural resources in consultation with the department of ecology shall immediately limit silvicultural forest burning to reduce emissions from such burning to the December 31, 2000, target level in all subsequent years.

Sec. 404. RCW 70.94.660 and 1971 ex.s. c 232 s 2 are each amended to read as follows:

(1) The department of natural resources shall have the responsibility for issuing and regulating burning permits required by it relating to the following activities ~~((declared to be))~~ for the protection of life or property and/or ~~((it))~~ for the public health, safety, and welfare:

~~((1))~~ (a) Abating a forest fire hazard;

~~((2))~~ (b) Prevention of a fire hazard;

~~((3))~~ (c) Instruction of public officials in methods of forest fire fighting; ~~((and~~

~~(4))~~ (d) Any silvicultural operation to improve the forest lands of the state; and

(e) Silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas.

(2) The department of natural resources shall not retain such authority, but it shall be the responsibility of the appropriate fire protection agency for permitting and

regulating outdoor burning on lands where the department of natural resources does not have fire protection responsibility.

(3) Permit fees shall be assessed for silvicultural burning under the jurisdiction of the department of natural resources and collected by the department of natural resources as provided for in this section. All fees shall be deposited in the air pollution control account, created in section 228 of this act. The legislature shall appropriate to the department of natural resources funds from the air pollution control account to enforce and administer the program under section 403 of this act and RCW 70.94.660, 70.94.670, and 70.94.690. Fees shall be set by rule by the department of natural resources at the level necessary to cover the costs of the program after receiving recommendations on such fees from the public and the forest fire advisory board established by RCW 76.04.145.

Sec. 405. RCW 70.94.670 and 1971 ex.s. c 232 s 3 are each amended to read as follows:

The department of natural resources in granting burning permits for fires for the purposes set forth in RCW 70.94.660 shall condition the issuance and use of such permits to comply with air quality standards established by the department of ecology after full consultation with the department of natural resources. Such burning shall not cause the state air quality standards (~~for suspended particulate matter~~) to be exceeded in the ambient air up to two thousand feet above ground level over critical areas designated by the department of ecology, otherwise subject to air pollution from other sources. Air quality standards (~~for suspended particulate matter~~) shall be established and published by the department of ecology which shall also establish a procedure for advising the department of natural resources when ~~(the)~~ and where air contaminant levels exceed(s) or threaten(s) to exceed the ambient air standards over such critical areas. The (~~suspended particulate matter~~) air quality shall be quantitatively measured by the department of ecology or the appropriate local air pollution control authority at established (~~primary air mass stations or primary ground level~~) monitoring stations over such designated areas. Further, such permitted burning shall not cause damage to public health or the environment. All permits issued under this section shall be subject to all applicable fees, permitting, penalty, and enforcement provisions of this chapter. The department of natural resources shall set forth smoke dispersal objectives designed consistent with this section to minimize any air pollution (~~from smoke~~) from such burning and the procedures necessary to meet those objectives.

The department of natural resources shall encourage more intense utilization in logging and alternative silviculture practices to reduce (~~forest fire hazards and shall encourage development and use of procedures and equipment to burn forest debris in a manner that will produce less smoke~~) the need for burning. The department of natural resources shall, whenever practical, encourage ~~(development)~~ landowners to develop and use (of) alternative acceptable disposal methods subject to the following priorities: (1) Slash production minimization, (2) slash utilization, (3) nonburning disposal, (4) silvicultural burning. Such alternative methods shall be evaluated as to the relative impact on air, water, and land pollution, public health, and their financial feasibility.

The department of natural resources shall not issue burning permits and shall revoke previously issued permits at any time in any area where the department of ecology or local board has declared a stage of impaired air quality as defined in RCW 70.94.473.

Sec. 406. RCW 70.94.690 and 1971 ex.s. c 232 s 5 are each amended to read as follows:

In the regulation of outdoor burning not included in RCW 70.94.660 requiring permits from the department of natural resources, said department and the state, local, or regional air pollution control authorities will cooperate in regulating such burning so as to minimize insofar as possible duplicate inspections and separate permits while

still accomplishing the objectives and responsibilities of the respective agencies. The department of natural resources shall include any local authority's burning regulations with permits issued where applicable pursuant to RCW 70.94.740 through 70.94.775. The department shall develop agreements with all local authorities to coordinate regulations.

Permits shall be withheld by the department of natural resources when so requested by the department of ecology if a forecast, alert, warning, or emergency condition exists as defined in the episode criteria of the department of ecology.

NEW SECTION. Sec. 407. A new section is added to chapter 70.94 RCW to read as follows:

Nothing contained in this chapter shall prohibit fires necessary: (1) To promote the regeneration of rare and endangered plants found within natural area preserves as identified under chapter 79.70 RCW; and (2) for Indian ceremonies or for the sending of smoke signals if part of a religious ritual. Permits issued for burning under this section shall be drafted to minimize emissions including denial of permission to burn during periods of adverse meteorological conditions.

Sec. 408. RCW 70.94.650 and 1971 ex.s. c 232 s 1 are each amended to read as follows:

(1) Any person who proposes to set fires in the course of ~~((the following: (1) (a) weed abatement, ((2)) (b) instruction in methods of fire fighting (except forest fires), or ((3) Disease prevention relating to)) (c) agricultural activities, shall, prior to carrying out the same, obtain a permit from an air pollution control authority or the department of ecology, as appropriate. Each such authority and the department of ecology shall, by rule or ordinance, establish a permit system to carry out the provisions of this section except as provided in RCW 70.94.660. General criteria of state-wide applicability for ruling on such permits shall be established by the department, by rule ~~((or regulation)), after consultation with the various air pollution control authorities. Permits shall be issued under this section based on seasonal operations or by individual operations, or both ~~((PROVIDED, That))~~. All permits so issued shall be conditioned to insure that the public interest in air, water, and land pollution and safety to life and property is fully considered. In addition to any other requirements established by the department to protect air quality pursuant to other laws, applicants for permits must show that the setting of fires as requested is the most reasonable procedure to follow in safeguarding life or property under all circumstances or is otherwise reasonably necessary to successfully carry out the enterprise in which the applicant is engaged ~~((in)), or both. All burning permits will be designed to minimize air pollution insofar as practical. Nothing in this section shall relieve the applicant from obtaining permits, licenses, or other approvals required by any other law ~~((PROVIDED FURTHER, That))~~. An application for a permit to set fires in the course of agricultural burning for controlling diseases, insects, ~~((and)) weed abatement or development of physiological conditions conducive to increased crop yield, shall be ~~((granted))~~ acted upon within ~~((fourteen))~~ seven days from the date such application is filed ~~((PROVIDED, That nothing herein shall prevent a householder from setting fire in the course of burning leaves, clippings or trash when otherwise permitted locally. Nothing contained herein shall prohibit Indian campfires or the sending of smoke signals if part of a religious ritual))~~.~~~~~~~~

(2) Except as provided in RCW 70.94.780 permit fees shall be assessed for outdoor burning under this section and shall be collected by the department of ecology or the appropriate local air authority at the time the permit is issued. All fees collected shall be deposited in the air pollution control account created in section 228 of this act. Fees shall be set by rule by the permitting agency at the level determined by the task force created by subsection (4) of this section, but shall not exceed two dollars and fifty cents per acre to be burned. After fees are established by rule, any increases in

such fees shall be limited to annual inflation adjustments as determined by the state office of the economic and revenue forecast council.

(3) Conservation districts and the Washington State University agricultural extension program in conjunction with the department shall develop public education material for the agricultural community identifying the health and environmental affects of agricultural outdoor burning and providing technical assistance in alternatives to agricultural outdoor burning.

(4) An agricultural burning practices and research task force shall be established under the direction of the department. The task force shall be composed of a representative from the department who shall serve as chair; one representative of eastern Washington local air authorities; three representatives of the agricultural community from different agricultural pursuits; one representative of the department of agriculture; two representatives from universities or colleges knowledgeable in agricultural issues; one representative of the public health or medical community; and one representative of the conservation districts. The task force shall identify best management practices for reducing air contaminant emissions from agricultural activities and provide such information to the department and local air authorities. The task force shall determine the level of fees to be assessed by the permitting agency pursuant to subsection (2) of this section, based upon the level necessary to cover the costs of administering and enforcing the permit programs, to provide funds for research into alternative methods to reduce emissions from such burning, and to the extent possible be consistent with fees charged for such burning permits in neighboring states. The fee level shall provide, to the extent possible, for lesser fees for permittees who use best management practices to minimize air contaminant emissions. The task force shall identify research needs related to minimizing emissions from agricultural burning and alternatives to such burning. Further, the task force shall make recommendations to the department on priorities for spending funds provided through this chapter for research into alternative methods to reduce emissions from agricultural burning.

Sec. 409. RCW 70.94.654 and 1973 1st ex.s. c 193 s 6 are each amended to read as follows:

Whenever the department of ecology shall find that any fire protection agency, county, or conservation district which is outside the jurisdictional boundaries of an activated air pollution control authority is capable of effectively administering the issuance and enforcement of permits for any or all of the kinds of burning identified in RCW 70.94.650 ~~((1) and (3))~~ and desirous of doing so, the department of ecology may delegate ~~((all))~~ powers necessary for the issuance ~~((and))~~ or enforcement, or both, of permits for any or all of the kinds of burning to the fire protection agency, county ~~(: PROVIDED, That))~~, or conservation district. Such delegation may be withdrawn by the department of ecology upon ~~((a))~~ its finding that the fire protection agency, county, or conservation district is not effectively administering the permit program.

Sec. 410. RCW 70.94.775 and 1974 ex.s. c 164 s 1 are each amended to read as follows:

No person shall cause or allow any outdoor fire:

(1) Containing garbage, dead animals, asphalt, petroleum products, paints, rubber products, plastics, or any substance other than natural vegetation ~~((which))~~ that normally emits dense smoke or obnoxious odors ~~((except as provided in RCW 70.94.650: PROVIDED, That))~~. Agricultural heating devices ~~((which))~~ that otherwise meet the requirements of this chapter shall not be considered outdoor fires under this section;

(2) During a forecast, alert, warning or emergency condition as defined in RCW 70.94.715~~(;~~

~~(3) In any area which has been designated by the department of ecology or board of an activated authority as an area exceeding or threatening to exceed state or federal ambient air quality standards, or after July 1, 1976, state ambient air quality~~

~~goals for particulates, except instructional fires permitted by RCW 70.94.650(2)) or impaired air quality condition as defined in RCW 70.94.473.~~

Sec. 411. RCW 70.94.780 and 1973 1st ex.s. c 193 s 10 are each amended to read as follows:

In addition to any other powers granted to them by law, the fire protection agency (~~(authorized to issue)~~), county, or conservation district issuing burning permits (~~(may)~~) shall regulate or prohibit outdoor burning (~~(in order)~~) as necessary to prevent or abate the nuisances caused by such burning. No fire protection agency, county, or conservation district may issue a burning permit in an area where the department or local board has declared any stage of impaired air quality per RCW 70.94.473 or any stage of an air pollution episode. All burning permits issued shall be subject to all applicable fee, permitting, penalty, and enforcement provisions of this chapter. The permitted burning shall not cause damage to public health or the environment.

Any entity issuing a permit under this section may charge a fee at the level necessary to recover the costs of administering and enforcing the permit program.

Sec. 412. RCW 70.94.750 and 1972 ex.s. c 136 s 3 are each amended to read as follows:

The following outdoor fires described in this section may be burned subject to the provisions of (~~(the program established pursuant to RCW 70.94.755 for any area)~~) this chapter and also subject to city ordinances, county resolutions, (~~(and)~~) rules (~~(and regulations)~~) of fire districts and laws, and rules (~~(and regulations)~~) enforced by the department of natural resources if a permit has been issued by a fire protection agency, county, or conservation district:

(1) Fires consisting of leaves, clippings, prunings and other yard and gardening refuse originating on lands immediately adjacent and in close proximity to a human dwelling and burned on such lands by the property owner or his or her designee.

(2) Fires consisting of residue of a natural character such as trees, stumps, shrubbery or other natural vegetation arising from land clearing projects or agricultural pursuits for pest or disease control; provided the fires described in this subsection may be prohibited in those areas having a general population density of one thousand or more persons per square mile.

Sec. 413. RCW 70.94.656 and 1990 c 113 s 1 are each amended to read as follows:

It is hereby declared to be the policy of this state that strong efforts should be made to minimize adverse effects on air quality from the open burning of field and turf grasses grown for seed. To such end this section is intended to promote the development of economical and practical alternate agricultural practices to such burning, and to provide for interim regulation of such burning until practical alternates are found.

(1) The department shall approve of a study or studies for the exploration and identification of economical and practical alternate agricultural practices to the open burning of field and turf grasses grown for seed. Prior to the issuance of any permit for such burning under RCW 70.94.650, there shall be collected a fee not to exceed one dollar per acre of crop to be burned. Any such fees received by any authority shall be transferred to the department of ecology. The department of ecology shall deposit all such acreage fees in a special grass seed burning research account, hereby created, in the state treasury. All earnings of investments of balances in the special grass seed burning research account shall be credited to the general fund. The department shall allocate moneys annually from this account for the support of any approved study or studies as provided for in this subsection. For the conduct of any such study or studies, the department may contract with public or private entities: PROVIDED, That whenever the department of ecology shall conclude that sufficient reasonably available alternates to open burning have been developed, and at such time

as all costs of any studies have been paid, the grass seed burning research account shall be dissolved, and any money remaining therein shall revert to the general fund.

The fee collected under this subsection shall constitute the research portion of fees required under RCW 70.94.650 for open burning of grass grown for seed.

(2) Whenever on the basis of information available to it, the department after public hearings have been conducted wherein testimony will be received and considered from interested parties wishing to testify shall conclude that any procedure, program, technique, or device constitutes a practical alternate agricultural practice to the open burning of field or turf grasses grown for seed, the department shall, by order, certify approval of such alternate. Thereafter, in any case which any such approved alternate is reasonably available, the open burning of field and turf grasses grown for seed shall be disallowed and no permit shall issue therefor.

(3) Until approved alternates become available, the department or the authority may limit the number of acres on a pro rata basis among those affected for which permits to burn will be issued in order to effectively control emissions from this source.

(4) Permits issued for burning of field and turf grasses may be conditioned to minimize emissions insofar as practical, including denial of permission to burn during periods of adverse meteorological conditions.

"V.

WOODSTOVES AND FIREPLACES"

Sec. 501. RCW 70.94.457 and 1987 c 405 s 4 are each amended to read as follows:

~~((Before January 1, 1988,))~~ The department of ecology shall establish by rule under chapter 34.05 RCW:

(1) State-wide emission performance standards for new ~~((wood stoves))~~ solid fuel burning devices. Notwithstanding any other provision of this chapter which allows an authority to adopt more stringent emission standards, no authority shall adopt any emission standard for new ~~((wood stoves))~~ solid fuel burning devices other than the state-wide standard adopted by the department under this section.

~~(a) ((For new wood stoves sold after July 1, 1988, the state wide performance standard, by rule, shall be the equivalent of and consistent with state wide emission standards in effect in bordering states on or before January 1, 1987. For solid fuel burning devices for which bordering states have not established emission standards, the department may temporarily exempt or establish, by rule, state wide standards including emission levels and test procedures for such devices and such emission levels and test procedures shall be equivalent to emission levels per pound per hour burned for other new wood stoves regulated by this subsection))~~ After January 1, 1995, no solid fuel burning device shall be offered for sale that does not meet the following particulate air contaminant emission standards under the test methodology of the United States environmental protection agency in effect on January 1, 1991, or an equivalent standard under any test methodology adopted by the United States environmental protection agency subsequent to such date: (i) Two and one-half grams per hour for catalytic wood stoves; and (ii) four and one-half grams per hour for all other solid fuel burning devices. For purposes of this subsection, "equivalent" shall mean the emissions limits specified in this subsection multiplied by a statistically reliable conversion factor determined by the department that compares the difference between the emission test methodology established by the United States environmental protection agency prior to the effective date of this section, with the test methodology adopted subsequently by the agency. Subsection (a) of this subsection does not apply to fireplaces.

(b) After January 1, 1997, no fireplace, except masonry fireplaces, shall be offered for sale unless such fireplace meets the 1990 United States environmental

protection agency standards for wood stoves or equivalent standard that may be established by the state building code council by rule. Prior to January 1, 1997, the state building code council shall establish by rule a methodology for the testing of factory-built fireplaces. The methodology shall be designed to achieve a particulate air emission standard equivalent to the 1990 United States environmental protection agency standard for wood stoves. In developing the rules, the council shall include on the technical advisory committee at least one representative from the masonry fireplace builders and at least one representative of the factory-built fireplace manufacturers.

(c) Prior to January 1, 1997, the state building code council shall establish by rule design standards for the construction of new masonry fireplaces in Washington state. In developing the rules, the council shall include on the technical advisory committee at least one representative from the masonry fireplace builders and at least one representative of the factory-built fireplace manufacturers. It shall be the goal of the council to develop design standards that generally achieve reductions in particulate air contaminant emissions commensurate with the reductions being achieved by factory-built fireplaces at the time the standard is established.

(d) Actions of the department and local air pollution control authorities under this section shall preempt actions of other state agencies and local governments for the purposes of controlling air pollution from solid fuel burning devices, except where authorized by this act.

(e) Subsection (1)(a) of this section shall not apply to fireplaces.

~~((b))~~ (f) Notwithstanding (a) of this subsection, the department is authorized to adopt, by rule, emission standards adopted by the United States environmental protection agency for new wood stoves sold at retail. For solid fuel burning devices for which the United States environmental protection agency has not established emission standards, the department may ~~((temporarily))~~ exempt or establish, by rule, state-wide standards including emission levels and test procedures for such devices and such emission levels and test procedures shall be equivalent to emission levels per pound per hour burned for other new wood stoves and fireplaces regulated under this subsection.

(2) A program to:

(a) Determine whether a new ~~((wood stove))~~ solid fuel burning device complies with the state-wide emission performance standards established in subsection (1) of this section; and

(b) Approve the sale of ~~((stoves))~~ devices that comply with the state-wide emission performance standards.

Sec. 502. RCW 70.94.470 and 1987 c 405 s 5 are each amended to read as follows:

~~(1) ((Before January 1, 1988,))~~ The department shall establish, by rule under chapter 34.05 RCW, ~~((state wide opacity levels for residential solid fuel burning devices as follows:~~

~~(a) A state wide opacity level of twenty percent for the purpose of public education;~~

~~(b) Until July 1, 1990, a state wide opacity level of forty percent for the purpose of enforcement on a complaint basis; and~~

~~(c) After July 1, 1990, a)~~ (a) a state-wide opacity level of twenty percent for residential solid fuel burning devices for the purpose of enforcement on a complaint basis and (b) a state-wide opacity of ten percent for purposes of public education.

(2) Notwithstanding any other provision of this chapter which may allow an authority to adopt a more stringent opacity level, no authority shall adopt or enforce an opacity level~~((:~~

~~(a) Lower than forty percent until July 1, 1990; and~~

~~(b) Lower than twenty percent after July 1, 1990))~~ for solid fuel burning devices other than established in this section.

(3) Actions of the department and local air pollution control authorities under this section shall preempt actions of other state agencies and local governments for the purposes of controlling air pollution from solid fuel burning devices, except where authorized by this act.

NEW SECTION. **Sec. 503.** A new section is added to chapter 70.94 RCW to read as follows:

After January 1, 1992, no used solid fuel burning device shall be installed in new or existing buildings unless such device is either Oregon department of environmental quality phase II or United States environmental protection agency certified or a pellet stove either certified or exempt from certification by the United States environmental protection agency.

(1) By July 1, 1992, the state building code council shall adopt rules requiring an adequate source of heat other than woodstoves in all new and substantially remodeled residential and commercial construction. This rule shall apply (a) to areas designated by a county to be an urban growth area under chapter 36.70A RCW; and (b) to areas designated by the environmental protection agency as being in nonattainment for particulate matter.

Sec. 504. RCW 70.94.473 and 1990 c 128 s 2 are each amended to read as follows:

(1) Any person in a residence or commercial establishment which has an adequate source of heat without burning wood shall:

(a) Not burn wood in any solid fuel burning device whenever the department has determined under RCW 70.94.715 that any air pollution episode exists in that area;

(b) Not burn wood in any solid fuel burning device except those which ~~((meet the standards set forth in RCW 70.94.457,))~~ are either Oregon department of environmental quality phase II or United States environmental protection agency certified or certified by the department under RCW 70.94.457(1) or a pellet stove either certified or issued an exemption ((certificate)) by the United States environmental protection agency in accordance with Title 40, Part 60 of the code of federal regulations, in the geographical area and for the period of time that a first stage of impaired air quality has been determined, by the department or any authority, for that area. A first stage of impaired air quality is reached when particulates ten microns and smaller in diameter are at an ambient level of seventy-five micrograms per cubic meter measured on a twenty-four hour average or when carbon monoxide is at an ambient level of eight parts of contaminant per million parts of air by volume measured on an eight-hour average; and

(c) Not burn wood in any solid fuel burning device ~~((, including those which meet the standards set forth in RCW 70.94.457,))~~ in a geographical area and for the period of time that a second stage of impaired air quality has been determined by the department or any authority, for that area. A second stage of impaired air quality is reached when particulates ten microns and smaller in diameter are at an ambient level of one hundred five micrograms per cubic meter measured on a twenty-four hour average.

(2) ~~((When))~~ If a local air authority exercises the limitation on solid fuel burning devices specified under RCW 70.94.477(2), a single stage of impaired air quality applies in the geographical area defined by the authority in accordance with RCW 70.94.477(2) and is reached when particulates ten microns and smaller in diameter are at an ambient level of ninety micrograms per cubic meter measured on a twenty-four hour average or when carbon monoxide is at an ambient level of eight parts of contaminant per million parts of air by volume measured on an eight-hour average.

~~(When)~~ If this single stage of impaired air quality is reached, no person in a residence or commercial establishment ~~((which))~~ that has an adequate source of heat without burning wood shall burn wood in any solid fuel burning device, including those which meet the standards set forth in RCW 70.94.457.

(3) Actions of the department and local air pollution control authorities under this section shall preempt actions of other state agencies and local governments for the purposes of controlling air pollution from solid fuel burning devices, except where authorized by this act.

Money placed in the account shall include all money received under subsection (2) of this section and any other money appropriated by the legislature. Money in the account shall be spent for the purposes of the wood stove education program established under RCW 70.94.480 and for enforcement of the wood stove program, and shall be subject to legislative appropriation.

(2) The department of ecology, with the advice of the advisory committee, shall set a flat fee~~((not to exceed fifteen))~~ of thirty dollars, on the retail sale, as defined in RCW 82.04.050, of each solid fuel burning device~~((excepting masonry fireplaces,))~~ after January 1, ~~((1988))~~ 1992. The fee shall be imposed upon the consumer and shall not be subject to the retail sales tax provisions of chapters 82.08 and 82.12 RCW. The fee may be adjusted annually above ~~((fifteen))~~ thirty dollars ~~((according to changes in the consumer price index after January 1, 1989))~~ to account for inflation as determined by the state office of the economic and revenue forecast council. The fee shall be collected by the department of revenue in conjunction with the retail sales tax under chapter 82.08 RCW. If the seller fails to collect the fee herein imposed or fails to remit the fee to the department of revenue in the manner prescribed in chapter 82.08 RCW, the seller shall be personally liable to the state for the amount of the fee. The collection provisions of chapter 82.32 RCW shall apply. The department of revenue shall deposit fees collected under this section in the wood stove education and enforcement account.

Sec. 506. RCW 70.94.041 and 1983 c 3 s 175 are each amended to read as follows:

Except as otherwise provided in this section, any building or structure listed on the national register of historic sites, structures, or buildings established pursuant to 80 Stat. 915, 16 U.S.C. Sec. 470a, or on the state register established pursuant to RCW ~~((43.51A.080))~~ 27.34.220, shall be permitted to burn wood as it would have when it was a functioning facility as an authorized exception to the provisions of this chapter. Such burning of wood shall not be exempted from the provisions of RCW 70.94.710 through 70.94.730.

NEW SECTION. Sec. 507. A new section is added to chapter 70.94 RCW to read as follows:

(1) A task force is established for the purposes of recommending programs to:

(a) Encourage persons with wood stoves not meeting the requirements of RCW 70.94.457 or United States environmental protection agency certificate requirements to remove such wood stoves and install a less polluting certified wood stove or other source of heat; and

(b) Educate the public on wood stove emissions and methods to reduce such emissions.

(2) The task force shall be appointed by the speaker of the house of representatives and the president of the senate and shall consist of:

(a) Use public and private funds to provide credit toward purchasing old wood stoves not certified under RCW 70.94.457;

(b) Use public and private funds to implement public education programs designed to reduce emissions from wood stoves;

(c) Prevent fraud or abuse of the programs developed under this section; and

"VI.

GLOBAL WARMING AND OZONE DEPLETION"

NEW SECTION. **Sec. 601.** The legislature finds that:

(1) The release of chlorofluorocarbons and other ozone-depleting chemicals into the atmosphere contributes to the destruction of stratospheric ozone and threatens plant and animal life with harmful overexposure to ultraviolet radiation;

(2) The technology and equipment to extract and recover chlorofluorocarbons and other ozone-depleting chemicals from air conditioners, refrigerators, and other appliances are available;

(3) A number of nonessential consumer products contain ozone-depleting chemicals; and

NEW SECTION. **Sec. 602.** A new section is added to chapter 70.94 RCW to read as follows:

(1) Regulated refrigerant means a class I or class II substance as listed in Title VI of section 602 of the federal clean air act amendments of November 15, 1990.

(2) A person who services or repairs or disposes of a motor vehicle air conditioning system; commercial or industrial air conditioning, heating, or refrigeration system; or consumer appliance shall use refrigerant extraction equipment to recover regulated refrigerant that would otherwise be released into the atmosphere. This subsection does not apply to off-road commercial equipment.

(3) Upon request, the department shall provide information and assistance to persons interested in collecting, transporting, or recycling regulated refrigerants.

(4) The willful release of regulated refrigerant from a source listed in subsection (2) of this section is prohibited.

No person may sell, offer for sale, or purchase any of the following:

(1) A regulated refrigerant in a container designed for consumer recharge of a motor vehicle air conditioning system or consumer appliance during repair or service. This subsection does not apply to a regulated refrigerant purchased for the recharge of

the air conditioning system of off-road commercial or agricultural equipment and sold or offered for sale at an establishment which specializes in the sale of off-road commercial or agricultural equipment or parts or service for such equipment;

(2) Nonessential consumer products that contain chlorofluorocarbons or other ozone-depleting chemicals, and for which substitutes are readily available. Products affected under this subsection shall include, but are not limited to, party streamers, tire inflators, air horns, noise makers, and chlorofluorocarbon-containing cleaning sprays designed for noncommercial or nonindustrial cleaning of electronic or photographic equipment.

NEW SECTION. **Sec. 604.** A new section is added to chapter 70.94 RCW to read as follows:

The department shall adopt rules to implement sections 602 and 603 of this act. Rules shall include but not be limited to minimum performance specifications for refrigerant extraction equipment, as well as procedures for enforcing sections 602 and 603 of this act.

Enforcement provisions adopted by the department shall not include penalties or fines in areas where equipment to collect or recycle regulated refrigerants is not readily available.

"VII. MISCELLANEOUS SECTIONS"

Sec. 701. RCW 70.94.053 and 1987 c 505 s 60 and 1987 c 109 s 34 are each reenacted and amended to read as follows:

(1) In each county of the state there is hereby created an air pollution control authority, which shall bear the name of the county within which it is located. The boundaries of each authority shall be coextensive with the boundaries of the county within which it is located. An authority shall include all incorporated and unincorporated areas of the county within which it is located.

(2) All authorities which are presently (~~or may hereafter be within counties of the first class, class A or class AA, are hereby designated as~~) activated authorities (~~and~~) shall carry out the duties and exercise the powers provided in this chapter. Those activated authorities (~~herby activated~~) which encompass contiguous counties (~~located in one or the other of the two major areas determined in RCW 70.94.011~~) are declared to be and directed to function as a multicounty authority.

(3) Except as provided in RCW 70.94.232, all other air pollution control authorities are hereby designated as inactive authorities.

(4) The boards of those authorities designated as activated authorities by this chapter shall be comprised of such appointees and/or county commissioners or other officers as is provided in RCW 70.94.100. (~~The first meeting of the boards of those authorities designated as activated authorities by this chapter shall be on or before sixty days after June 8, 1967.~~

(5) ~~The department is directed to conduct the necessary evaluations and delineate appropriate air pollution regions throughout the state, taking into consideration:~~

(a) ~~The natural climatic and topographic features affecting the potential for buildup of air contaminant concentrations.~~

(b) ~~The degree of urbanization and industrialization and the existence of activities which are likely to cause air pollution.~~

(c) ~~The county boundaries as related to the air pollution regions and the practicality of administering air pollution control programs.)~~

Sec. 702. RCW 70.94.055 and 1967 c 238 s 5 are each amended to read as follows:

The board of county commissioners of any county (~~either than a first class, class A or class AA county~~) may activate an air pollution control authority following a public hearing on its own motion, or upon a filing of a petition signed by one hundred property owners within the county. If the board of county commissioners determines as a result of the public hearing that:

(1) Air pollution exists or is likely to occur; and

(2) The city or town ordinances, or county resolutions, or their enforcement, are inadequate to prevent or control air pollution, they (~~shall~~) may by resolution activate an air pollution control authority or combine with a contiguous county or counties to form a multicounty air pollution control authority.

Sec. 703. RCW 70.94.092 and 1975 1st ex.s. c 106 s 1 are each amended to read as follows:

Notwithstanding the provisions of RCW 1.16.030, the budget year of each activated authority shall be the fiscal year beginning July 1st and ending on the following June 30th. (~~The current budget year shall be terminated June 30, 1975, and a budget for the fiscal year beginning July 1, 1975, shall be adopted pursuant to this section as now or hereafter amended.~~) On or before the fourth Monday in June of each year, each activated authority shall adopt a budget for the following fiscal year. The activated authority budget shall contain adequate funding and provide for staff sufficient to carry out the provisions of all applicable ordinances, resolutions, and local regulations related to the reduction, prevention, and control of air pollution. The legislature acknowledges the need for the state to provide reasonable funding to local authorities to carry out the requirements of this chapter. The budget shall contain an estimate of all revenues to be collected during the following budget year, including any surplus funds remaining unexpended from the preceding year. The remaining funds required to meet budget expenditures, if any, shall be designated as "supplemental income" and shall be obtained from the component cities, towns, and counties in the manner provided in this chapter. The affirmative vote of three-fourths of all members of the board shall be required to authorize emergency expenditures.

Sec. 704. RCW 70.94.100 and 1989 c 150 s 1 are each amended to read as follows:

In the case of an authority comprised of two (~~or~~), three, four, or five counties, the board shall be comprised of one appointee (~~of the city selection committee of~~) from each county (~~as hereinafter provided~~), who shall represent the city having the most population in such county, to be designated by the mayor and city council of such city, and one representative from each county to be designated by the board of county commissioners of each county making up the authority. (~~In the case of an authority comprised of four or five counties, the board shall be comprised of one appointee of the city selection committee of each county as hereinafter provided who shall represent the city having the most population in such county, and one representative from each county to be designated by the board of county commissioners of each county making up the authority.~~) In the case of an authority comprised of six or more counties, the board shall be comprised of one representative from each county to be designated by the board of county commissioners of each county making up the authority, and (~~one~~) three appointees, one each from (~~each city with over one hundred thousand population~~) the three largest cities within the local authority's jurisdiction to be appointed by the mayor and city council of such city.

(3) If the board of an authority otherwise would consist of an even number, the members selected as above provided shall agree upon and elect an additional member who shall be either a member of the governing body of one of the towns, cities or counties comprising the authority, or a private citizen residing in the authority. ~~((All board members shall hold office at the pleasure of the appointing body.))~~

(4) The terms of office of board members shall be four years.

(5) Wherever a member of a board has a potential conflict of interest in an action before the board, the member shall declare to the board the nature of the potential conflict prior to participating in the action review. The board shall, if the potential conflict of interest, in the judgment of a majority of the board, may prevent the member from a fair and objective review of the case, remove the member from participation in the action.

All meetings shall be publicly announced prior to their occurrence. All meetings shall be open to the public. A majority of the board shall constitute a quorum for the transaction of business and shall be necessary for any action taken by the board. The board shall elect from its members a ~~((chairman))~~ chair and such other officers as may be necessary. Any member of the board may designate a regular alternate to serve on the board in his or her place with the same authority as the member when he or she is unable to attend. Each member of the board, or his or her representative, shall receive from the authority ~~((twenty-five dollars per day))~~ compensation consistent with such authority's rates (but not to exceed one thousand dollars per year) for ~~((each full day))~~ time spent in the performance of ~~((his))~~ duties under this chapter, plus the actual and necessary expenses incurred by ~~((him))~~ the member in such performance. The board may appoint ~~((an executive director))~~ a control officer, and any other personnel, and shall determine their salaries, and pay same, together with any other proper indebtedness, from authority funds.

The board of any activated authority in addition to any other powers vested in them by law, shall have power to:

(1) Adopt, amend and repeal its own ~~((ordinances, resolutions, or))~~ rules and regulations, ~~((as the case may be,))~~ implementing this chapter and consistent with it, after consideration at a public hearing held in accordance with chapter ~~((42.32))~~ 42.30 RCW. Rules and regulations shall also be adopted in accordance with the notice and adoption procedures set forth in RCW 34.05.320, those provisions of RCW 34.05.325 that are not in conflict with chapter 42.30 RCW, and with the procedures of RCW 34.05.340, 34.05.355 through 34.05.380, and with chapter 34.08 RCW, except that rules shall not be published in the Washington Administrative Code. (2) Hold hearings relating to any aspect of or matter in the administration of this chapter not prohibited by the provisions of chapter 62, Laws of 1970 ex. sess. and in connection therewith issue subpoenas to compel the attendance of witnesses and the production of evidence, administer oaths and take the testimony of any person under oath.

(3) Issue such orders as may be necessary to effectuate the purposes of this chapter and enforce the same by all appropriate administrative and judicial proceedings subject to the rights of appeal as provided in chapter 62, Laws of 1970 ex. sess.

(9) Collect and disseminate information and conduct educational and training programs relating to air pollution.

(10) Advise, consult, cooperate and contract with agencies and departments and the educational institutions of the state, other political subdivisions, industries, other states, interstate or interlocal agencies, and the United States government, and with interested persons or groups.

(11) Consult, upon request, with any person proposing to construct, install, or otherwise acquire an air contaminant source or device or system for the control thereof, concerning the efficacy of such device or system, or the air pollution problems which may be related to the source, device or system. Nothing in any such consultation shall be construed to relieve any person from compliance with this chapter, ordinances, resolutions, rules and regulations in force pursuant thereto, or any other provision of law.

(12) Accept, receive, disburse and administer grants or other funds or gifts from any source, including public and private agencies and the United States government for the purpose of carrying out any of the functions of this chapter.

Sec. 707. RCW 70.94.170 and 1969 ex.s. c 168 s 21 are each amended to read as follows:

Any activated authority which has adopted an ordinance, resolution, or valid rules and regulations as provided herein for the control and prevention of air pollution shall appoint a full time control officer, ((who)) whose sole responsibility shall be to observe and enforce the provisions of this chapter and all orders, ordinances, resolutions, or rules and regulations of such activated authority pertaining to the control and prevention of air pollution.

Sec. 708. RCW 70.94.231 and 1969 ex.s. c 168 s 29 are each amended to read as follows:

Upon the date that an authority begins to exercise its powers and functions, all ~~((districts formed as a district under chapter 70.94 RCW prior to June 8, 1967 which previously were wholly or partially composed of one or more cities or towns located within such activated authority shall be considered to be dissolved but its))~~ rules and regulations in force on such date shall remain in effect until superseded by the rules and regulations of the authority as provided in RCW 70.94.230. ~~((In such event, the board of any such district shall proceed to wind up the affairs of the district in the same manner as if the district were dissolved as provided in RCW 70.94.260.))~~

Sec. 709. RCW 70.94.240 and 1969 ex.s. c 168 s 30 are each amended to read as follows:

The board of any authority ~~((shall))~~ may appoint an air pollution control advisory council to advise and consult with such board, and the control officer in effectuating the purposes of this chapter. The council shall consist of at least five appointed members who are residents of the authority and who are preferably skilled and experienced in the field of air pollution control, ((two)) chemistry, meteorology, public health, or a related field, at least one of whom shall serve as a representative((s)) of industry and one of whom shall serve as a representative of the environmental community. The ~~((chairman))~~ chair of the board of any such authority

shall serve as ex officio member of the council and be its ~~((chairman))~~ chair. Each member of the council shall receive from the authority per diem and travel expenses in an amount not to exceed that provided for the state board in this chapter (but not to exceed one thousand dollars per year) for each full day spent in the performance of his or her duties under this chapter.

Sec. 710. RCW 70.94.331 and 1988 c 106 s 1 are each amended to read as follows:

(1) The department shall have all the powers as provided in RCW 70.94.141.

(2) The department, in addition to any other powers vested in it by law after consideration at a public hearing held in accordance with chapters 42.30 ~~((RCW))~~ and ~~((chapter))~~ 34.05 RCW shall:

(a) Adopt rules ~~((and regulations))~~ establishing air quality objectives and air quality standards;

(b) Adopt emission standards which shall constitute minimum emission standards throughout the state. An authority may enact more stringent emission standards, except for emission performance standards for new wood stoves and opacity levels for residential solid fuel burning devices which shall be state-wide, but in no event may less stringent standards be enacted by an authority without the prior approval of the department after public hearing and due notice to interested parties;

(c) Adopt by rule ~~((and regulation))~~ air quality standards and emission standards for the control or prohibition of emissions to the outdoor atmosphere of radionuclides, dust, fumes, mist, smoke, other particulate matter, vapor, gas, odorous substances, or any combination thereof. Such requirements may be based upon a system of classification by types of emissions or types of sources of emissions, or combinations thereof, which it determines most feasible for the purposes of this chapter. However, an industry, or the air pollution control authority having jurisdiction, can choose, subject to the submittal of appropriate data that the industry has quantified, to have any limit on the opacity of emissions from a source whose emission standard is stated in terms of a weight of particulate per unit volume of air (e.g., grains per dry standard cubic foot) be based on the applicable particulate emission standard for that source, such that any violation of the opacity limit accurately indicates a violation of the applicable particulate emission standard. Any alternative opacity limit provided by this section that would result in increasing air contaminants emissions in any nonattainment area shall only be granted if equal or greater emission reductions are provided for by the same source obtaining the revised opacity limit. A reasonable fee may be assessed to the industry to which the alternate opacity standard would apply. The fee shall cover only those costs to the air pollution control authority which are directly related to the determination on the acceptability of the alternate opacity standard, including testing, oversight and review of data.

(3) The air quality standards and emission standards may be for the state as a whole or may vary from area to area or source to source, except that emission performance standards for new wood stoves and opacity levels for residential solid fuel burning devices shall be state-wide, as may be appropriate to facilitate the accomplishment of the objectives of this chapter and to take necessary or desirable account of varying local conditions of population concentration, the existence of actual or ~~((reasonable))~~ reasonably foreseeable air pollution, topographic and meteorologic conditions and other pertinent variables.

(4) The department is directed to cooperate with the appropriate agencies of the United States or other states or any interstate agencies or international agencies with respect to the control of air pollution and air contamination, or for the formulation for the submission to the legislature of interstate air pollution control compacts or agreements.

(5) The department is directed to conduct or cause to be conducted a continuous surveillance program to monitor the quality of the ambient atmosphere as

to concentrations and movements of air contaminants and conduct or cause to be conducted a program to determine the quantity of emissions to the atmosphere.

(6) The department shall enforce the air quality standards and emission standards throughout the state except where a local authority is enforcing the state regulations or its own regulations which are more stringent than those of the state.

(7) The department shall encourage local units of government to handle air pollution problems within their respective jurisdictions; and, on a cooperative basis provide technical and consultative assistance therefor.

(8) The department shall have the power to require the addition to or deletion of a county or counties from an existing authority in order to carry out the purposes of this chapter ~~((: PROVIDED, HOWEVER, That))~~. No such addition or deletion shall be made without the concurrence of any existing authority involved. Such action shall only be taken after a public hearing held pursuant to the provisions of chapter 34.05 RCW.

(9) The department shall establish rules requiring sources or source categories to apply reasonable and available control methods. Such rules shall apply to those sources or source categories that individually or collectively contribute the majority of state-wide air emissions of each regulated pollutant. The department shall review, and if necessary, update its rules every five years to ensure consistency with current reasonable and available control methods. The department shall have adopted rules required under this subsection for all sources by July 1, 1996.

For the purposes of this section, "reasonable and available control methods" shall include but not be limited to, changes in technology, processes, or other control strategies.

Sec. 711. RCW 70.94.332 and 1987 c 109 s 18 are each amended to read as follows:

~~((Whenever the department of ecology has reason to believe that any provision of this chapter or any rule or regulation adopted by it or being enforced by it under RCW 70.94.410 relating to the control or prevention of air pollution has been violated, it may))~~ At least thirty days prior to the commencement of any formal enforcement action under RCW 70.94.430 and 70.94.431, the department of ecology shall cause written notice to be served upon the alleged violator or violators. The notice shall specify the provision of this chapter or the rule or regulation alleged to be violated, and the facts alleged to constitute a violation thereof, and may include an order that necessary corrective action be taken within a reasonable time. In lieu of an order, the department may require that the alleged violator or violators appear before it for the purpose of providing the department information pertaining to the violation or the charges complained of. ((In addition to or in place of an order or hearing, the department may initiate action pursuant to RCW 70.94.425, 70.94.430, and 70.94.435)) Every notice of violation shall offer to the alleged violator an opportunity to meet with the department prior to the commencement of enforcement action.

(1) Any authority may apply to the department for state financial aid. The department shall ~~((by rule and regulation))~~ annually establish the ((ratio)) amount of state funds ((to)) available for the local ((funds)) authorities taking into consideration available federal and state funds. The establishment of funding amounts shall be consistent with federal requirements and local maintenance of effort necessary to carry out the provisions of this chapter. Any such aid shall be expended from the general fund or from ((such)) other appropriations as the legislature may provide for this purpose: PROVIDED, That federal funds shall be utilized to the maximum unless otherwise approved by the department: PROVIDED FURTHER, That the ((ratio)) amount of state funds provided to local ((funds of)) authorities during the previous year shall not be ((changed)) reduced without a public notice or public hearing held by the

department if requested by the affected local authority, unless such changes are the direct result of a reduction in the available federal funds for air pollution control programs.

(2) Before any such application is approved and financial aid is given or approved by the department, the authority shall demonstrate to the satisfaction of the department that it is fulfilling the requirements of ~~((RCW 70.94.380, or,))~~ this chapter. If the department has not adopted ambient air quality standards and objectives as permitted by RCW 70.94.331, the authority shall demonstrate to the satisfaction of the department that it is acting in good faith and doing all that is possible and reasonable to control and prevent air pollution within its jurisdictional boundaries and to carry out the purposes of this chapter.

(3) The department shall adopt rules ~~((and regulations))~~ requiring the submission of such information by each authority including the submission of its proposed budget and a description of its program in support of the application for state financial aid as necessary to enable the department to determine the need for state aid.

Sec. 713. RCW 70.94.395 and 1987 c 109 s 43 are each amended to read as follows:

If the department finds, after public hearing upon due notice to all interested parties, that the emissions from a particular type or class of air contaminant source should be regulated on a state-wide basis in the public interest and for the protection of the welfare of the citizens of the state, it may adopt and enforce rules ~~((and regulations))~~ to control and/or prevent the emission of air contaminants from such source ~~((: PROVIDED, That)).~~ An authority may, after public hearing and a finding by the board of a need for more stringent rules ~~((and regulations))~~ than those adopted by the department under this section, propose the adoption of such rules ~~((and regulations))~~ by the department for the control of emissions from the particular type or class ~~((of))~~ of air contaminant source within the geographical area of the authority. The department shall hold a public hearing and shall adopt the proposed rules ~~((and regulations))~~ within the area of the requesting authority, unless it finds that the proposed rules ~~((and regulations))~~ are inconsistent with the rules ~~((and regulations))~~ adopted by the department under this section ~~((: PROVIDED, FURTHER, That)).~~ When such standards are adopted by the department it shall delegate solely to the requesting authority all powers necessary for their enforcement at the request of the authority ~~((: PROVIDED, That the department may delegate the responsibility for the enforcement of such rules and regulations to any authority which it deems capable of enforcing such regulations: PROVIDED FURTHER, That)).~~ If after public hearing the department finds that the regulation on a state-wide basis of a particular type ~~((of))~~ or class of air contaminant source is no longer required for the public interest and the protection of the welfare of the citizens of the state, the department may relinquish exclusive jurisdiction over such source.

Sec. 714. RCW 70.94.405 and 1987 c 109 s 45 are each amended to read as follows:

At any time after an authority has been activated for no less than one year, the department may, on its own motion, conduct a hearing held in accordance with chapters 42.30 ~~((RCW))~~ and ~~((chapter))~~ 34.05 RCW, ~~((as now or hereafter amended))~~ to determine whether or not the air pollution prevention and control program of such authority is being carried out in good faith and is as effective as possible ~~((under the circumstances)).~~ If at such hearing the department finds that such authority is not carrying out its air pollution control or prevention program in good faith, ~~((of))~~ is not doing all that is possible and reasonable to control and/or prevent air pollution within the geographical area over which it has jurisdiction, or is not carrying out the provisions of this chapter, it shall set forth in a report or order to the appropriate authority: (1) Its recommendations as to how air pollution prevention and/or control

might be more effectively accomplished; and (2) guidelines which will assist the authority in carrying out the recommendations of the department.

Sec. 715. RCW 70.94.410 and 1987 c 109 s 46 are each amended to read as follows:

(1) If, after thirty days from the time that the department issues a report or order to an authority under RCW 70.94.400 and 70.94.405, such authority has not taken ~~((any))~~ action which indicates that it is attempting in good faith to implement the recommendations or actions of the department as set forth in the report or order, the department may, by order, declare as null and void any or all ordinances, resolutions, rules or regulations of such authority relating to the control and/or prevention of air pollution, and at such time the department shall become the sole body with authority to make and enforce rules and regulations for the control and/or prevention of air pollution within the geographical area of such authority. ~~((In))~~ If this ~~((connection))~~ occurs, the department may assume all those powers which are given to it by law to effectuate the purposes of this chapter. The department may, by order, continue in effect and enforce ~~((those))~~ provisions of the ordinances, resolutions, or rules ~~((and regulations))~~ of such authority which are not less stringent than those requirements which the department may have found applicable to the area under RCW 70.94.331, until such time as the department adopts its own rules ~~((and regulations))~~. Any rules ~~((and regulations))~~ promulgated by the department shall be subject to the provisions of chapter 34.05 RCW ~~((as it now appears or may hereinafter be amended))~~. Any enforcement actions shall be subject to RCW 43.21B.300 or 43.21B.310.

(2) No provision of this chapter is intended to prohibit any authority from reestablishing its air pollution control program which meets with the approval of the department and which complies with the purposes of this chapter and with applicable rules ~~((and regulations))~~ and orders of the department.

(3) Nothing in this chapter shall prevent the department from withdrawing the exercise of its jurisdiction over an authority upon its own motion ~~((: PROVIDED, That))~~ if the department has found at a hearing held in accordance with chapters 42.30 ((RCW)) and ((chapter)) 34.05 RCW ~~((as now or hereafter amended))~~, that the air pollution prevention and control program of such authority will be carried out in good faith ~~((or))~~, that such program will do all that is possible and reasonable to control and/or prevent air pollution within the geographical area over which it has jurisdiction, and that the program complies with the provisions of this chapter. Upon the withdrawal of the department, the department shall prescribe certain recommendations as to how air pollution prevention and/or control is to be effectively accomplished and guidelines which will assist the authority in carrying out the recommendations of the department.

Sec. 716. RCW 70.94.420 and 1987 c 109 s 47 are each amended to read as follows:

Such state department or agency shall comply with the provisions of this chapter and with any ordinance, resolution, rule or regulation issued hereunder in the same manner as any other person subject to such laws ~~((;))~~ or rules ~~((or regulations))~~.

Such permits may also be required for any such building, installation, or other property which is located within the geographical boundaries of any authority which has an air pollution control and prevention program in effect if the standards set by the department for state departments and agencies are more stringent than those of the authority. Debate ensued.

POINT OF INQUIRY

Senator Anderson: "I note changes in Sections 216 and 217, language which refers to the role of the Utilities and Transportation Commission in furthering the development of compressed natural gas refueling stations. Could you please tell me the intent of these changes?"

Senator Anderson: "Certainly. The change to which you refer is to clarify the legislative intent that these sections are not meant to force the UTC to change any regulatory practices or to allow the subsidization of the CNG refueling stations by any other class of ratepayers. We expect the UTC to develop rules and approve tariffs which will ensure that users of compressed natural gas for vehicle fuel pay the costs associated with developing and providing service to them. Examples of such rules and tariffs are those which ensure that ratepayers in communities which require electrical undergrounding are not subsidized by ratepayers in communities which do not and which ensure that residential ratepayers do not subsidize the cost of service to industrial customers or vice versa."

Senator Sutherland: "Thank you. It's clear to me that nothing in these sections allows the subsidization of one ratepayer class by another."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Substitute House Bill No. 1028, as amended by the Senate.

SECOND READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1884, by House Committee on Judiciary (originally sponsored by Representatives Ebersole, Forner, Belcher, Locke, Spanel, Peery, Phillips, H. Myers, Riley, R. Johnson, Paris, Wineberry, Ogden, Ludwig, Edmondson, Zellinsky, Brough, Jacobsen, Nelson, Miller, Holland, Winsley, Roland, Hine, Brekke, Rasmussen, Fraser, Mitchell and Orr)

Providing for domestic violence programs and community response.

The bill was read the second time.

MOTIONS

Senator Nelson moved that the following Committee on Ways and Means amendment be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that:

The collective costs to the community for domestic violence include the systematic destruction of individuals and their families, lost lives, lost productivity, and increased health care, criminal justice, and social service costs.

Children growing up in violent homes are deeply affected by the violence as it happens and could be the next generation of batterers and victims.

Many communities have made headway in addressing the effects of domestic violence and have devoted energy and resources to stopping this violence. However, the process for breaking the cycle of abuse is lengthy. No single system intervention is enough in itself.

An integrated system has not been adequately funded and structured to assure access to a wide range of services, including those of the law/safety/justice system, human service system, and health care system. These services need to be coordinated and multidisciplinary in approach and address the needs of victims, batterers, and children from violent homes.

Given the lethal nature of domestic violence and its effect on all within its range, the community has a vested interest in the methods used to stop and prevent future violence. Clear standards of quality are needed so that perpetrator treatment programs receiving public funds or court-ordered referrals can be required to comply with these standards.

While incidents of domestic violence are not caused by perpetrator's use of alcohol and illegal substances, substance abuse may be a contributing factor to domestic violence and the injuries and deaths that result from it.

There is a need for consistent training of professionals who deal frequently with domestic violence or are in a position to identify domestic violence and provide support and information.

Much has been learned about effective interventions in domestic violence situations; however, much is not yet known and further study is required to know how to best stop this violence. RCW 7.68.070 and 1990 c 3 s 502 are each amended to read as follows:

The right to benefits under this chapter and the amount thereof will be governed insofar as is applicable by the provisions contained in chapter 51.32 RCW as now or hereafter amended except as provided in this section:

(1) The provisions contained in RCW 51.32.015, 51.32.030, 51.32.072, 51.32.073, 51.32.180, 51.32.190, and 51.32.200 as now or hereafter amended are not applicable to this chapter.

(2) Each victim injured as a result of a criminal act, including criminal acts committed between July 1, 1981, and January 1, 1983, or the victim's family or dependents in case of death of the victim, are entitled to benefits in accordance with this chapter, subject to the limitations under RCW 7.68.015. The rights, duties, responsibilities, limitations, and procedures applicable to a worker as contained in RCW 51.32.010 as now or hereafter amended are applicable to this chapter.

(3) The limitations contained in RCW 51.32.020 as now or hereafter amended are applicable to claims under this chapter. In addition thereto, no person or spouse, child, or dependent of such person is entitled to benefits under this chapter when the injury for which benefits are sought, was:

(a) The result of consent, provocation, or incitement by the victim, as determined by a reasonable review of the police report and, in cases of domestic violence, an assessment that takes into consideration the primary physical aggressor criteria set forth in RCW 10.31.100(2)(b);

(b) Sustained while the crime victim was engaged in the attempt to commit, or the commission of, a felony; or

(c) Sustained while the victim was confined in any county or city jail, federal jail or prison or in any other federal institution, or any state correctional institution maintained and operated by the department of social and health services or the department of corrections, prior to release from lawful custody; or confined or living in any other institution maintained and operated by the department of social and health services or the department of corrections.

 - Shall waive any requirement that the victim's location be disclosed to any person, other than the attorney of a criminal defendant, upon a showing that there is a possibility of further violence: PROVIDED, That the court may order a criminal defense attorney not to disclose to his client the victim's location; and

The jurisdiction authorizing the release shall determine whether that person should be prohibited from having any contact with the victim. If there is no outstanding restraining or protective order prohibiting that person from having contact with the victim, the court authorizing release may issue, by telephone, a no-contact order prohibiting the person charged or arrested from having contact with the victim. The no-contact order shall also be issued in writing as soon as possible. If the court has probable cause to believe that the person charged or arrested is likely to use or display or threaten to use a deadly weapon as defined in RCW 9A.04.110 in any further acts of violence, the court may also require that person to surrender any deadly weapon in that person's immediate possession or control, or subject to that person's immediate possession or control, to the sheriff of the county or chief of police of the municipality in which that person resides or to the defendant's counsel for safekeeping.

A certified copy of the order shall be provided to the victim. If a no-contact order has been issued prior to charging, that order shall expire at arraignment or within seventy-two hours if charges are not filed. Such orders need not be entered into the computer information system in this state which is used by law enforcement agencies to list outstanding warrants.

(5) Whenever an order prohibiting contact is issued, modified, or terminated under subsection (2) or (3) of this section, the clerk of the court shall forward a copy of the order on or before the next judicial day to the appropriate law enforcement agency specified in the order. (3) Whenever an order prohibiting contact is issued pursuant to this section, the clerk of the court shall forward a copy of the order on or before the next judicial day to the appropriate law enforcement agency specified in the order. Upon receipt of the copy of the order the law enforcement agency shall forthwith enter the order for one year into any computer-based criminal intelligence information system available in this state used by law enforcement agencies to list outstanding warrants. (5) Upon the filing of an affidavit by the petitioner or any peace officer alleging that the respondent has violated an order for protection granted under this chapter, the court may issue an order to the respondent, requiring the respondent to appear and show cause within fourteen days why the respondent should not be found in contempt of court and punished accordingly. The hearing may be held in the court of any county or municipality in which the petitioner or respondent temporarily or permanently resides at the time of the alleged violation.

NEW SECTION. Sec. 6. The department of social and health services shall adopt rules for standards of approval of domestic violence perpetrator programs that accept perpetrators of domestic violence into treatment to satisfy court orders or that represent the programs as ones that treat domestic violence perpetrators. The treatment must meet the following minimum qualifications:

(1) All treatment must be based upon a full, complete clinical intake including: Current and past violence history; a lethality risk assessment; a complete diagnostic evaluation; a substance abuse assessment; criminal history; assessment of cultural issues, learning disabilities, literacy, and special language needs; and a treatment plan that adequately and appropriately addresses the treatment needs of the individual.

The weekly treatment sessions must be in a group unless there is a documented, clinical reason for another modality. Any other therapies, such as individual, marital, or family therapy, substance abuse evaluations or therapy, medication reviews, or psychiatric interviews, may be concomitant with the weekly group treatment sessions described in this section but not a substitute for it.

(4) The treatment must focus primarily on ending the violence, holding the perpetrator accountable for his or her violence, and changing his or her behavior. The treatment must be based on nonvictim-blaming strategies and philosophies and shall include education about the individual, family, and cultural dynamics of domestic violence.

(5) Satisfactory completion of treatment must be contingent upon the perpetrator meeting specific criteria, defined by rule by the secretary of the department, and not just upon the end of a certain period of time or a certain number of sessions.

(6) The program must have policies and procedures for dealing with reoffenses and noncompliance.

(7) All evaluation and treatment services must be provided by, or under the supervision of, qualified personnel.

NEW SECTION. **Sec. 1.** The legislature finds that a state-wide emergency communications network of enhanced 911 telephone service, which allows an immediate display of a caller's identification and location, would serve to further the safety, health, and welfare of the state's citizens, and would save lives. The legislature, after reviewing the study outlined in section 1, chapter 260, Laws of 1990, further finds that state-wide implementation of enhanced 911 telephone service is feasible and should be accomplished as soon as practicable.

Sec. 2. RCW 38.52.030 and 1986 c 266 s 25 are each amended to read as follows:

(1) The director may employ such personnel and may make such expenditures within the appropriation therefor, or from other funds made available for purposes of emergency management, as may be necessary to carry out the purposes of this chapter.

(2) The director, subject to the direction and control of the governor, shall be responsible to the governor for carrying out the program for emergency management of this state. The director shall coordinate the activities of all organizations for emergency management within the state, and shall maintain liaison with and cooperate with emergency management agencies and organizations of other states and of the federal government, and shall have such additional authority, duties, and responsibilities authorized by this chapter, as may be prescribed by the governor.

(3) The director shall develop and maintain a comprehensive, all-hazard emergency plan for the state which shall include an analysis of the natural and man-caused hazards which could affect the state of Washington, and shall include the procedures to be used during emergencies for coordinating local resources, as necessary, and the resources of all state agencies, departments, commissions, and boards. The comprehensive, all-hazard emergency plan authorized under this subsection may not include preparation for emergency evacuation or relocation of residents in anticipation of nuclear attack. This plan shall be known as the comprehensive emergency management plan.

(4) In accordance with the comprehensive emergency management plans and the programs for the emergency management of this state, the director shall procure supplies and equipment, institute training programs and public information programs, and shall take all other preparatory steps, including the partial or full mobilization of emergency management organizations in advance of actual disaster, to insure the furnishing of adequately trained and equipped forces of emergency management personnel in time of need.

(5) The director shall make such studies and surveys of the industries, resources, and facilities in this state as may be necessary to ascertain the capabilities of the state for emergency management, and shall plan for the most efficient emergency use thereof.

(6) The director may appoint a communications coordinating committee consisting of six to eight persons with the director, or his or her designee, as chairman thereof. Three of the members shall be appointed from qualified, trained and experienced telephone communications administrators or engineers actively engaged in such work within the state of Washington at the time of appointment, and three of the members shall be appointed from qualified, trained and experienced radio communication administrators or engineers actively engaged in such work within the state of Washington at the time of appointment. This committee shall advise the director on all aspects of the communications and warning systems and facilities operated or controlled under the provisions of this chapter.

(7) The director, through the state enhanced 911 coordinator, shall coordinate and facilitate implementation and operation of a state-wide enhanced 911 emergency communications network.

~~((8))~~ (9) The director, subject to the direction and control of the governor, shall prepare and administer a state program for emergency assistance to individuals within the state who are victims of a natural or man-made disaster, as defined by RCW 38.52.010(6). Such program may be integrated into and coordinated with disaster assistance plans and programs of the federal government which provide to the state, or through the state to any political subdivision thereof, services, equipment, supplies, materials, or funds by way of gift, grant, or loan for purposes of assistance to individuals affected by a disaster. Further, such program may include, but shall not be limited to, grants, loans, or gifts of services, equipment, supplies, materials, or funds of the state, or any political subdivision thereof, to individuals who, as a result of a disaster, are in need of assistance and who meet standards of eligibility for disaster assistance established by the department of social and health services: PROVIDED, HOWEVER, That nothing herein shall be construed in any manner inconsistent with the provisions of Article VIII, section 5 or section 7 of the Washington state Constitution.

~~((9))~~ (10) The director shall appoint a state coordinator for radioactive and hazardous waste emergency response programs. There being no objection, the Senate resumed consideration of Substitute House Bill No. 1704 and the pending amendment by Senator Nelson and Hansen on page 24, after line 8, deferred earlier today.

RULING BY THE PRESIDENT

President Pritchard: "In ruling upon the point of order raised by Senator McMullen, the President finds that Substitute House Bill No. 1704 is a measure which makes changes in vehicle licensing and fuel tax administration by, among other things, providing authority to the Department of Licensing to assess fuel tax reports and recover property of debtor-distributors; providing for implementation of a collection process for the local option fuel tax and other changes relative to vehicle licensing and mitigation of penalties and assessments in the areas of aircraft fuel and special fuel.

"The amendment by Senators Nelson and Hansen would, among other things, revise fees for motor vehicle wreckers; require certain records be available for inspection during defined business hours; and provide a mechanism for cease and desist orders.

"The President, therefore, finds that the proposed amendment does change the scope and object of the bill and that the point of order is well taken."

The amendment by Senators Nelson and Hansen on page 24, after line 8, to Substitute House Bill No. 1704 was ruled out of order.

MOTION

On motion of Senator Madsen, the rules were suspended, Substitute House Bill No. 1704, as amended by the Senate, was advanced to third

There being no objection, the Senate resumed consideration of the point of order raised by Senator Talmadge on the motion by Senator Newhouse to move Engrossed Substitute House Bill No. 1777 from the desk and to place the bill on the second reading calendar.

RULING BY THE PRESIDENT

President Pritchard: "For many years the Senate has referred to budgets which have passed one House or another in an effort to determine whether a particular bill is necessary to implement a budget.

"Engrossed Substitute House Bill No. 1777 is, apparently, necessary to implement the capital budget as it passed the House and was sent to the Senate.

"According to the cutoff resolution, the committee deadline does not apply to such bills and the bill is properly before the Senate until 5 p.m. this evening."

Engrossed Substitute House Bill No. 1777 was ruled to be properly before the Senate and was placed on the second reading calendar.

PARLIAMENTARY INQUIRY

Senator Talmadge: "Mr. President, a point of parliamentary inquiry. To make clear that ruling, your ruling is that if a bill that is referenced in a budget--capital budget, transportation budget, or general fund budget--has passed one of the houses of the Legislature, that it would comply with the provisions of the cutoff resolution?"

REPLY BY THE PRESIDENT

President Pritchard: "That has been the rulings and the practice of the Senate for many, many years and I am staying with that precedent."

Senator Talmadge: "Thank you, Mr. President. It would perhaps be useful if it would be acceptable, Mr. President, to have that ruling transcribed and distributed to members for future reference."

President Pritchard: "It will be in the Journal."

MOTION

Senator Snyder moved that the following Committee on Commerce and Labor amendment not be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. FINDINGS AND INTENT. The legislature finds that:

(1) The economic health and well-being of timber-dependent communities is of substantial public concern. The significant reduction in annual timber harvest levels likely will result in reduced economic activity and persistent unemployment and underemployment over time, which would be a serious threat to the safety, health, and welfare of residents of the timber-dependent communities, decreasing the value of private investments and jeopardizing the sources of public revenue.

(2) The state is experiencing a dual economy, where growth is occurring rapidly in some areas and is occurring slowly or not at all in other areas. This uneven growth rate across the state is causing some areas to suffer negative impacts from too much growth while other areas experience difficulty in creating adequate economic development. Inadequate economic development is a serious threat to the public safety, health, and welfare of a community. The state has an interest in encouraging growth state-wide, which reduces the negative impacts of growth in rapidly growing areas and assists areas of the state in need of economic development.

(3) Timber-dependent communities are most often located in areas that are experiencing little or no economic growth, creating an even greater risk to the health, safety, and welfare of these communities. The ability to remedy problems caused by the substantial reduction in harvest activity is beyond the power and control of the regulatory process and influence of the state, and the ordinary operations of private enterprise without additional governmental assistance are insufficient to adequately remedy the resulting problems of poverty and unemployment.

(4) The revitalization and diversification of the economies of timber-dependent communities require the stimulation of private investment, the development of new business ventures, the provision of capital to ventures sponsored by local organizations and capable of growth in the business markets, and assistance to viable, but under-financed, small businesses in order to create and preserve jobs that are sustainable in the local economy. Therefore, the legislature declares there to be a substantial public purpose in providing capital to promote economic development and job creation in distressed areas in general and timber-dependent communities in particular. To accomplish this purpose, it is the intent of the legislature to:

(a) Increase the public financing of infrastructure necessary for economic development and make such financing more flexible;

(b) Increase and target the amount of public financing available to businesses to better create or preserve jobs through formation or expansion of viable enterprises;

(c) Provide technical and financial assistance to businesses to increase the export of products from timber-dependent communities;

(d) Increase the resources available to associated development organizations to provide economic and community development services in timber-dependent communities and to provide resource and referral services to the community regarding state and local economic and community development services;

(e) Increase training and retraining services accessible to timber-dependent communities; and

(f) Provide for coordination of noneconomic development services in timber-dependent communities as economic development efforts will not succeed unless social, housing, health, and other needs are addressed.

Sec. 2. RCW 43.160.010 and 1989 c 431 s 61 are each amended to read as follows:

INFRASTRUCTURE FINANCING--CERB--INTENT. (1) The legislature finds that it is the public policy of the state of Washington to direct financial resources toward the fostering of economic development through the stimulation of investment and job opportunities and the retention of sustainable existing employment for the general welfare of the inhabitants of the state. Reducing unemployment and reducing the time citizens remain jobless is important for the economic welfare of the state. A valuable means of fostering economic development is the construction of public facilities which contribute to the stability and growth of the state's economic base. Strengthening the economic base through issuance of industrial development bonds, whether single or umbrella, further serves to reduce unemployment. Consolidating issues of industrial development bonds when feasible to reduce costs additionally advances the state's purpose to improve economic vitality. Expenditures made for these purposes as authorized in this chapter are declared to be in the public interest, and constitute a proper use of public funds. A community economic revitalization board is needed which shall aid the development of economic opportunities. The general objectives of the board should include:

(a) Strengthening the economies of areas of the state which have experienced or are expected to experience chronically high unemployment rates or below average growth in their economies;

(b) Encouraging the diversification of the economies of the state and regions within the state in order to provide greater seasonal and cyclical stability of income and employment;

(c) Encouraging wider access to financial resources for both large and small industrial development projects;

(d) Encouraging new economic development or expansions to maximize employment;

(e) Encouraging the retention of viable existing firms and employment; and

(f) Providing incentives for expansion of employment opportunities for groups of state residents that have been less successful relative to other groups in efforts to gain permanent employment.

(2) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to improve state highways in the vicinity of new industries considering locating in this state or existing industries that are considering significant expansion.

(a) The legislature finds it desirable to provide a process whereby the need for diverse public works improvements necessitated by planned economic development can

be addressed in a timely fashion and with coordination among all responsible governmental entities.

(b) It is the intent of the legislature to create an economic development account within the motor vehicle fund from which expenditures can be made by the department of transportation for state highway improvements necessitated by planned economic development. All such improvements must first be approved by the state transportation commission and the community economic revitalization board in accordance with the procedures established by RCW 43.160.074 and 47.01.280. It is further the intent of the legislature that such improvements not jeopardize any other planned highway construction projects. The improvements are intended to be of limited size and cost, and to include such items as additional turn lanes, signalization, illumination, and safety improvements.

(3) The legislature also finds that the state's economic development efforts can be enhanced by providing funds to improve markets for those recyclable materials representing a large fraction of the waste stream. The legislature finds that public facilities which result in private construction of processing or remanufacturing facilities for recyclable materials are eligible for consideration from the board.

(4) The legislature finds that sharing economic growth state-wide is important to the welfare of the state. Distressed areas and timber-dependent communities do not share in the economic vitality of the Puget Sound region. Infrastructure is one of several ingredients that are critical for economic development. Distressed areas and timber-dependent communities generally lack the infrastructure necessary to diversify and revitalize their economies. It is, therefore, the intent of the legislature to increase the availability of funds to help provide infrastructure to distressed areas and timber-dependent communities.

INCREASING EXPORTS FROM TIMBER-DEPENDENT COMMUNITIES.

The motion by Senator Snyder carried and the Committee on Commerce and Labor striking amendment was not adopted.

MOTION

Senator Owen moved that the following amendment by Senators Owen, Snyder, Conner, Amondson, McDonald, Matson and McMullen be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that:

(1) Cutbacks in allowable sales of old growth timber in Washington state pose a substantial threat to the region and the state with massive layoffs, loss of personal income, and declines in state revenues;

(2) The timber-impacted communities are of critical significance to the state because of their leading role in the overall economic well-being of the state and their importance to the quality of life to all residents of Washington, and that this region requires a special state effort to diversify the local economy;

(3) There are key opportunities to broaden the economic base in the timber-impacted communities including agriculture, high-technology, tourism, and regional exports; and

(4) A coordinated state, local, and private sector effort offers the greatest potential to promote economic diversification and to provide support for new projects within the region.

The legislature further finds that if a special state effort does not take place the decline in allowable timber sales may result in a loss of six thousand logging and milling jobs; two hundred million dollars in direct wages and benefits; twelve thousand indirect jobs; and three hundred million dollars in indirect wages and benefits.

It is the intent of the legislature to develop comprehensive programs to provide diversified economic development and promote job creation and employment opportunities for the citizens of the timber-impacted communities.

NEW SECTION. Sec. 2. For the purposes of sections 1 through 13 of this act:

(1) "Department" means the department of trade and economic development;

(2) "Board" means the economic recovery coordination board;

(3) "Timber impact area" means a county or city or town located within a county meeting two of the following three criteria for the most recent year such data is available: (a) A lumber and wood products employment location quotient at or above the state average; (b) a direct lumber and wood products job loss of one hundred positions or more; or (c) an annual unemployment rate twenty percent above the state average.

(4) "Forest products worker" means any worker whose dislocation results from the reduction of forest fibre enhancement, transportation, or production. The Washington employment security department shall certify as to whether or not an individual works in an industry that meets this definition. It shall include workers employed in industries defined by SIC codes 24 and 26 and those who are involved in the harvesting and management of logs, transportation of logs and wood products, and processing of wood products, as well as the manufacturing and distribution of wood processing and logging equipment. The commissioner may adopt rules further interpreting these definitions.

(c) Ensure that state programs directed to timber-dependent communities are effective and meet the intent of the legislature.

(d) Coordinate the state's position and response to federal land management and regulatory issues affecting timber and other rural communities.

(e) Respond to the needs and concerns of citizens at the local level.

(f) Develop a strategic plan for the economic recovery of timber communities.

(g) Provide recommendations and technical assistance on proposals for the diversification of timber-dependent communities.

(h) Provide recommendations to the governor, the legislature, and congress on land management and economic and regulatory policies that impact timber-dependent communities.

(i) Recommend to the legislature any changes or improvements in existing programs designed to benefit timber communities.

(j) Coordinate the social service timber task forces administered by the department of social and health services in cooperation with county governments.

(k) Coordinate the associate development organizations in timber-dependent counties.

(l) Report to the legislature on the progress of the economic recovery of timber communities in January 1992 to evaluate the success of the program.

(3) The coordinator may determine that other economic situations affecting other communities, not involving timber recovery, are adversely affecting the state's economy and may exercise all of the coordinator's powers to promote economic recovery in such areas.

(4) This section shall expire June 30, 1993.

NEW SECTION. Sec. 4. (1) There is established the agency timber task force. The task force shall be chaired by the timber recovery coordinator, who shall be responsible for all activities of the task force and who shall have executive authority over all agencies represented in the task force with regard to programs created in this act. In pursuing efforts to stimulate the growth of timber enterprises and to strengthen the timber economy, the state should identify opportunities to learn from and/or work with other states and provinces. A regional working session on value-added timber products, jointly sponsored by the Pacific Northwest economic region and the Northwest policy center, shall be held in 1991. Washington state and its appropriate agencies are encouraged to participate in this working session.

NEW SECTION. Sec. 11. (1) The department shall develop an implementation plan for a forest products development center to be located in Forks, Washington, as a model public/private manufacturing partnership. The center plan shall determine methods to:

The commission shall consider airport facilities currently in use in Grays Harbor county, the property set aside at the uncompleted Satsop nuclear site, the distance from

operating port facilities, the desires of the community, and linkage with the Interstate 5 corridor by rapid transit rail service.

NEW SECTION. Sec. 13. (1) Through an interagency agreement with the department, the employment security department shall provide enhanced retraining, support services, and job search assistance, including an out-of-area job search and relocation component, if needed, for dislocated workers in the timber-impacted areas. For the purpose of this section "dislocated workers" means workers in the timber-impacted areas who (a) have been terminated or laid off, or received a notice of termination or layoff from employment and are eligible for or have exhausted their entitlement to benefits under Title 50 RCW; (b) have been terminated as a result of any permanent plant closure; (c) are long-term unemployed and are unlikely to return to employment in the individual's principal occupation or previous industry because of a diminishing demand for their skills in that occupation or industry; or (d) are farmers or other self-employed individuals who have been displaced due to economic conditions or natural disasters. (2) The employment security department shall consult with and may subcontract with local educational institutions, local businesses, local labor organizations, local associate development organizations, local private industry councils, local social service organizations, and local governments in carrying out this program of training and services for dislocated workers in the timber-impacted areas.

(5) Persons eligible under subsections (1) and (4) of this section who are either enrolled in a training course that has been approved by the commissioner or have applied to and are waiting for admission into an approved training course are eligible for extended benefits for an additional twenty-six weeks. Total unemployment compensation benefits may not exceed fifty-two times the eligible person's weekly benefit amount reduced by other state or federal unemployment benefits available for the same weeks of unemployment.

(6) Benefits paid pursuant to this section shall be paid under the same terms and conditions as extended benefits and shall not be charged to the experience rating accounts of individual employers.

(7) The commissioner shall adopt rules as necessary to implement this section.

NEW SECTION. Sec. 22. A new section is added to chapter 28B.15 RCW to read as follows:

A tuition waiver is limited to a maximum of six academic quarters, four semesters, or the equivalent of two academic years of full-time study.

This section shall expire on June 30, 1996.

Sec. 23. RCW 28B.15.740 and 1989 c 340 s 2 are each amended to read as follows:

(1) The boards of trustees or regents of each of the state's regional universities, The Evergreen State College, or state universities, and the various community colleges, consistent with regulations and procedures established by the state board for community college education, may waive, in whole or in part, tuition and services and activities fees subject to the limitations set forth in subsections (2) and (3) of this section.

(2) Except as provided in subsection (3) of this section, the total dollar amount of tuition and fee waivers awarded by any state university, regional university, or state college, shall not exceed four percent, and for the community colleges considered as a whole, such amount shall not exceed three percent of an amount determined by estimating the total collections from tuition and services and activities fees had no such waivers been made and deducting the portion of that total amount which is attributable to the difference between resident and nonresident fees: PROVIDED, That at least three-fourths of the dollars waived shall be for needy students who are eligible for resident tuition and fee rates pursuant to RCW 28B.15.012 through 28B.15.015: PROVIDED FURTHER, That the remainder of the dollars waived, not to exceed one-fourth of the total, may be applied to other students at the discretion of the board of trustees or regents, except on the basis of participation in intercollegiate athletic programs: PROVIDED FURTHER, That the waivers for undergraduate and graduate students of foreign nations under RCW 28B.15.556 and the waivers under section 22 of this act for unemployed forest products workers or workers who reside in timber-impacted areas defined in section 2 of this act are not subject to the limitation under this section.

(3) In addition to the tuition and fee waivers provided in subsection (2) of this section and subject to the provisions of RCW 28B.15.455 and 28B.15.460, a total dollar amount of tuition and fee waivers awarded by any state university, regional university, or state college, not to exceed one percent, as calculated in subsection (2) of this section, may be used for the purpose of achieving or maintaining gender equity in intercollegiate athletic programs. At any institution that has an underrepresented gender class in intercollegiate athletics, any such waivers shall be awarded:

(a) First, to members of the underrepresented gender class who participate in intercollegiate athletics, where such waivers result in saved or displaced money that can be used for athletic programs for the underrepresented gender class. Such saved or displaced money shall be used for programs for the underrepresented gender class; and

(b) Second, (i) to nonmembers of the underrepresented gender class who participate in intercollegiate athletics, where such waivers result in saved or displaced money that can be used for athletic programs for members of the underrepresented gender class. Such saved or displaced money shall be used for programs for the underrepresented gender class; or (ii) to members of the underrepresented gender class who participate in intercollegiate athletics, where such waivers do not result in any saved or displaced money that can be used for athletic programs for members of the underrepresented gender class.

Sec. 24. RCW 70.47.010 and 1987 1st ex.s. c 5 s 3 are each amended to read as follows:

(1) The legislature finds that:

(a) A significant percentage of the population of this state does not have reasonably available insurance or other coverage of the costs of necessary basic health care services;

(b) This lack of basic health care coverage is detrimental to the health of the individuals lacking coverage and to the public welfare, and results in substantial expenditures for emergency and remedial health care, often at the expense of health

care providers, health care facilities, and all purchasers of health care, including the state; and

(c) The use of managed health care systems has significant potential to reduce the growth of health care costs incurred by the people of this state generally, and by low-income pregnant women who are an especially vulnerable population, along with their children, and who need greater access to managed health care.

(2) The purpose of this chapter is to provide necessary basic health care services in an appropriate setting to working persons and others who lack coverage, at a cost to these persons that does not create barriers to the utilization of necessary health care services. To that end, this chapter establishes a program to be made available to those residents under sixty-five years of age not otherwise eligible for medicare with gross family income at or below two hundred percent of the federal poverty guidelines or a dislocated worker as defined in RCW 70.47.020 who share in the cost of receiving basic health care services from a managed health care system.

(3) It is not the intent of this chapter to provide health care services for those persons who are presently covered through private employer-based health plans, nor to replace employer-based health plans. Further, it is the intent of the legislature to expand, wherever possible, the availability of private health care coverage and to discourage the decline of employer-based coverage.

(4) The program authorized under this chapter is strictly limited in respect to the total number of individuals who may be allowed to participate and the specific areas within the state where it may be established. All such restrictions or limitations shall remain in full force and effect until quantifiable evidence based upon the actual operation of the program, including detailed cost benefit analysis, has been presented to the legislature and the legislature, by specific act at that time, may then modify such limitations.

Sec. 25. RCW 70.47.020 and 1987 1st ex.s. c 5 s 4 are each amended to read as follows:

As used in this chapter:

(1) "Washington basic health plan" or "plan" means the system of enrollment and payment on a prepaid capitated basis for basic health care services, administered by the plan administrator through participating managed health care systems, created by this chapter.

(2) "Administrator" means the Washington basic health plan administrator.

(3) "Managed health care system" means any health care organization, including health care providers, insurers, health care service contractors, health maintenance organizations, or any combination thereof, that provides directly or by contract basic health care services, as defined by the administrator and rendered by duly licensed providers, on a prepaid capitated basis to a defined patient population enrolled in the plan and in the managed health care system.

(4) "Enrollee" means an individual, or an individual plus the individual's spouse and/or dependent children, all under the age of sixty-five and not otherwise eligible for medicare, who resides in an area of the state served by a managed health care system participating in the plan, whose gross family income at the time of enrollment does not exceed twice the federal poverty level as adjusted for family size and determined annually by the federal department of health and human services, or a dislocated worker as defined in this section who chooses to obtain basic health care coverage from a particular managed health care system in return for periodic payments to the plan.

(5) "Subsidy" means the difference between the amount of periodic payment the administrator makes, from funds appropriated from the basic health plan trust account, to a managed health care system on behalf of an enrollee and the amount determined to be the enrollee's responsibility under RCW 70.47.060(2).

(6) "Premium" means a periodic payment, based upon gross family income and determined under RCW 70.47.060(2), which an enrollee makes to the plan as consideration for enrollment in the plan.

(7) "Rate" means the per capita amount, negotiated by the administrator with and paid to a participating managed health care system, that is based upon the enrollment of enrollees in the plan and in that system.

(8) "Dislocated workers" means workers in timber-impacted areas who (a) have been terminated or laid off, or received a notice of termination or layoff from employment and are eligible for or have exhausted their entitlement to benefits under Title 50 RCW; (b) have been terminated as a result of any permanent plant closure; (c) are long-term unemployed and are unlikely to return to employment in the individual's principal occupation or previous industry because of a diminishing demand for their skills in that occupation or industry; or (d) are farmers or other self-employed individuals who have been displaced due to economic conditions or natural disasters.

Sec. 26. RCW 70.47.060 and 1991 c 3 s 339 are each amended to read as follows:

The administrator has the following powers and duties:

(1) To design and from time to time revise a schedule of covered basic health care services, including physician services, inpatient and outpatient hospital services, and other services that may be necessary for basic health care, which enrollees in any participating managed health care system under the Washington basic health plan shall be entitled to receive in return for premium payments to the plan. The schedule of services shall emphasize proven preventive and primary health care, shall include all services necessary for prenatal, postnatal, and well-child care, and shall include a separate schedule of basic health care services for children, eighteen years of age and younger, for those enrollees who choose to secure basic coverage through the plan only for their dependent children. In designing and revising the schedule of services, the administrator shall consider the guidelines for assessing health services under the mandated benefits act of 1984, RCW 48.42.080, and such other factors as the administrator deems appropriate.

(2) To design and implement a structure of periodic premiums due the administrator from enrollees that is based upon gross family income, giving appropriate consideration to family size as well as the ages of all family members. The enrollment of children shall not require the enrollment of their parent or parents who are eligible for the plan.

(3) To design and implement a structure of nominal copayments due a managed health care system from enrollees. The structure shall discourage inappropriate enrollee utilization of health care services, but shall not be so costly to enrollees as to constitute a barrier to appropriate utilization of necessary health care services.

(4) To design and implement, in concert with a sufficient number of potential providers in a discrete area, an enrollee financial participation structure, separate from that otherwise established under this chapter, that has the following characteristics:

(a) Nominal premiums that are based upon ability to pay, but not set at a level that would discourage enrollment;

(b) A modified fee-for-services payment schedule for providers;

(c) Coinsurance rates that are established based on specific service and procedure costs and the enrollee's ability to pay for the care. However, coinsurance rates for families with incomes below one hundred twenty percent of the federal poverty level shall be nominal. No coinsurance shall be required for specific proven prevention programs, such as prenatal care. The coinsurance rate levels shall not have a measurable negative effect upon the enrollee's health status; and

(d) A case management system that fosters a provider-enrollee relationship whereby, in an effort to control cost, maintain or improve the health status of the enrollee, and maximize patient involvement in her or his health care decision-making

process, every effort is made by the provider to inform the enrollee of the cost of the specific services and procedures and related health benefits.

The potential financial liability of the plan to any such providers shall not exceed in the aggregate an amount greater than that which might otherwise have been incurred by the plan on the basis of the number of enrollees multiplied by the average of the prepaid capitated rates negotiated with participating managed health care systems under RCW 70.47.100 and reduced by any sums charged enrollees on the basis of the coinsurance rates that are established under this subsection.

(5) To limit enrollment of persons who qualify for subsidies so as to prevent an overexpenditure of appropriations for such purposes. Whenever the administrator finds that there is danger of such an overexpenditure, the administrator shall close enrollment until the administrator finds the danger no longer exists.

(6) To adopt a schedule for the orderly development of the delivery of services and availability of the plan to residents of the state, subject to the limitations contained in RCW 70.47.080.

In the selection of any area of the state for the initial operation of the plan, the administrator shall take into account the levels and rates of unemployment in different areas of the state, the need to provide basic health care coverage to a population reasonably representative of the portion of the state's population that lacks such coverage, and the need for geographic, demographic, and economic diversity.

Before July 1, 1988, the administrator shall endeavor to secure participation contracts with managed health care systems in discrete geographic areas within at least five congressional districts.

(7) To solicit and accept applications from managed health care systems, as defined in this chapter, for inclusion as eligible basic health care providers under the plan. The administrator shall endeavor to assure that covered basic health care services are available to any enrollee of the plan from among a selection of two or more participating managed health care systems. In adopting any rules or procedures applicable to managed health care systems and in its dealings with such systems, the administrator shall consider and make suitable allowance for the need for health care services and the differences in local availability of health care resources, along with other resources, within and among the several areas of the state.

(8) To receive periodic premiums from enrollees and employers, deposit them in the basic health plan operating account, keep records of enrollee status, and authorize periodic payments to managed health care systems on the basis of the number of enrollees participating in the respective managed health care systems.

(9) To accept applications from individuals residing in areas served by the plan, on behalf of themselves and their spouses and dependent children, for enrollment in the Washington basic health plan, to establish appropriate minimum-enrollment periods for enrollees as may be necessary, and to determine, upon application and at least annually thereafter, or at the request of any enrollee, eligibility due to current gross family income for sliding scale premiums or status as a dislocated worker. An enrollee who remains current in payment of the sliding-scale premium, as determined under subsection (2) of this section, and whose gross family income has risen above twice the federal poverty level or whose status as a dislocated worker has changed, may continue enrollment unless and until the enrollee's gross family income has remained above twice the poverty level for six consecutive months, by making payment at the unsubsidized rate required for the managed health care system in which he or she may be enrolled. No subsidy may be paid with respect to any enrollee whose current gross family income exceeds twice the federal poverty level, who is a dislocated worker, or, subject to RCW 70.47.110, who is a recipient of medical assistance or medical care services under chapter 74.09 RCW. If a number of enrollees drop their enrollment for no apparent good cause, the administrator may establish appropriate rules or

requirements that are applicable to such individuals before they will be allowed to re-enroll in the plan.

(10) To require that prospective enrollees who may be eligible for categorically needy medical coverage under RCW 74.09.510 or whose income does not exceed the medically needy income level under RCW 74.09.700 apply for such coverage, but the administrator shall enroll the individuals in the plan pending the determination of eligibility under chapter 74.09 RCW.

(11) To determine the rate to be paid to each participating managed health care system in return for the provision of covered basic health care services to enrollees in the system. Although the schedule of covered basic health care services will be the same for similar enrollees, the rates negotiated with participating managed health care systems may vary among the systems. In negotiating rates with participating systems, the administrator shall consider the characteristics of the populations served by the respective systems, economic circumstances of the local area, the need to conserve the resources of the basic health plan trust account, and other factors the administrator finds relevant.

(12) To monitor the provision of covered services to enrollees by participating managed health care systems in order to assure enrollee access to good quality basic health care, to require periodic data reports concerning the utilization of health care services rendered to enrollees in order to provide adequate information for evaluation, and to inspect the books and records of participating managed health care systems to assure compliance with the purposes of this chapter. In requiring reports from participating managed health care systems, including data on services rendered enrollees, the administrator shall endeavor to minimize costs, both to the managed health care systems and to the administrator. The administrator shall coordinate any such reporting requirements with other state agencies, such as the insurance commissioner and the department of health, to minimize duplication of effort.

(13) To monitor the access that state residents have to adequate and necessary health care services, determine the extent of any unmet needs for such services or lack of access that may exist from time to time, and make such reports and recommendations to the legislature as the administrator deems appropriate.

(14) To evaluate the effects this chapter has on private employer-based health care coverage and to take appropriate measures consistent with state and federal statutes that will discourage the reduction of such coverage in the state.

(15) To develop a program of proven preventive health measures and to integrate it into the plan wherever possible and consistent with this chapter.

(16) To provide, consistent with available resources, technical assistance for rural health activities that endeavor to develop needed health care services in rural parts of the state.

Sec. 27. RCW 70.47.080 and 1987 1st ex.s. c 5 s 10 are each amended to read as follows:

On and after July 1, 1988, the administrator shall accept for enrollment applicants eligible to receive covered basic health care services from the respective managed health care systems which are then participating in the plan. The administrator shall not allow the total enrollment of those eligible for subsidies to exceed thirty thousand.

Thereafter, total enrollment shall not exceed the number established by the legislature in any act appropriating funds to the plan.

Before July 1, 1988, the administrator shall endeavor to secure participation contracts from managed health care systems in discrete geographic areas within at least five congressional districts of the state and in such manner as to allow residents of both urban and rural areas access to enrollment in the plan. The administrator shall make a special effort to secure agreements with health care providers in one such area that meets the requirements set forth in RCW 70.47.060(4).

The administrator shall at all times closely monitor growth patterns of enrollment so as not to exceed that consistent with the orderly development of the plan as a whole, in any area of the state or in any participating managed health care system.

This section shall not apply to those areas where there are enrollees designated as dislocated workers.

As close to ninety percent as possible of each year's new cadre of clients must have gross annual revenues of less than five million dollars at the time of their initial contract. Counseling may include, but not be limited to, helping clients obtain debt or equity financing, in constructing competent proposals, and assessing federal guarantee and/or insurance programs that underwrite exporting risk; assisting clients in evaluating their international marketplace by developing marketing materials, assessing and selecting targeted markets; assisting firms in finding foreign customers by conducting foreign market research, evaluating distribution systems, selecting and assisting in identification of and/or negotiations with foreign agents, distributors, retailers, and by promoting products through attending trade shows abroad; advising companies on their products, guarantees, and after sales service requirements necessary to compete effectively in a foreign market; designing a competitive strategy for a firm's products in targeted markets and methods of minimizing their commercial and political risks; securing for clients specific assistance as needed, outside the center's field of expertise, by referrals to other public or private organizations. (c) Sign three-year counseling agreements with its clients that provide for termination if adequate funding for the Pacific Northwest export assistance project is

not provided in future appropriations. Counseling agreements shall not be renewed unless there are compelling reasons to do so, and under no circumstances shall they be renewed for more than two additional years. A counseling agreement may not be renewed more than once. The counseling agreements shall have mutual performance clauses, that if not met, will be grounds for releasing each party, without penalty, from the provisions of the agreement. Clients shall be immediately released from a counseling agreement with the Pacific Northwest export assistance project, without penalty, if a client wishes to switch to a private export management service and produces a valid contract signed with a private export management service, or if the president of the small business export finance assistance center determines there are compelling reasons to release a client from the provisions of the counseling agreement;

(d) May contract with private or public international trade education services to provide Pacific Northwest export assistance project clients with training in international business. The president and board of directors shall decide the amount of funding allocated for trade fair assistance based on the availability of resources in the operating budget of the Pacific Northwest export assistance project;

(f) Provide biennial assessments of its performance. The Pacific Northwest export assistance project is an innovative program for the promotion of international trade. As such, the project personnel shall work with the department of revenue and employment security department to confidentially track the performance of the project's clients in increasing tax revenues to the state, increasing gross sales revenues and volume of products destined to foreign clients, and in creating new jobs for Washington citizens. A biennial report shall be prepared for the governor and legislature to assess the costs and benefits to the state from creating the project. The president of the small business export finance assistance center shall design an appropriate methodology for biennial assessments in consultation with the director of the department of trade and economic development and the director of the Washington state department of agriculture. The department of revenue and the employment security department shall provide data necessary to complete this biennial evaluation, if the data being requested is available from existing data bases. Client-specific information generated from the files of the department of revenue and the employment security department for the purposes of this evaluation shall be kept strictly confidential by each department and the small business export finance assistance center;

(g) Take whatever action may be necessary to accomplish the purposes set forth in sections 28 through 31 of this act; and

(h) Limit its assistance to promoting the exportation of value-added manufactured goods. The project shall not provide counseling or assistance, under any circumstances, for the importation of foreign made goods into the United States.

(2) The Pacific Northwest export assistance project shall not, under any circumstances, assume ownership or take title to the goods of its clients.

(3) The Pacific Northwest export assistance project may not use any Washington state funds which come from the public treasury of the state of Washington to make loans or to make any payment under a loan guarantee agreement. Under no circumstances may the center use any funds received under RCW 43.210.050 to make or assist in making any loan or to pay or assist in paying any amount under a loan guarantee agreement. Debts of the center shall be center debts only and may be satisfied only from the resources of the center. The state of Washington shall not in any way be liable for such debts.

Temporary services and fees may be negotiated by the small business export finance assistance center's president subject to approval of the board of directors. The president of the small business export finance assistance center may enter into negotiations with neighboring states to contract for delivery of the project's services. Final contracts for providing the project's counseling and services outside of the state of Washington on a permanent basis shall be subject to approval of the governor, appropriate legislative oversight committees, and the small business export finance assistance center's board of directors.

(6) The small business export finance assistance center may receive such gifts, grants, and endowments from public or private sources as may be made from time to time, in trust or otherwise, for the use and benefit of the purposes of the Pacific Northwest export assistance project and expend the same or any income therefrom according to the terms of the gifts, grants, or endowments.

(7) The president of the small business export finance assistance center, in consultation with the board of directors, may use the following formula in determining the number of clients that can be reasonably served by the Pacific Northwest export assistance project relative to its appropriation. Divide the amount appropriated for administration of the Pacific Northwest export assistance project by the marginal cost of adding each additional Pacific Northwest export assistance project client. For the purposes of this calculation, and only for the first biennium of operation, the biennial marginal cost of adding each additional Pacific Northwest export assistance project client shall be fifty-seven thousand ninety-five dollars. The biennial marginal cost of adding each additional client after the first biennium of operation shall be established from the actual operating experience of the Pacific Northwest export assistance project.

(8) All receipts from the Pacific Northwest export assistance project shall be deposited into the general fund.

(4) The legislature finds and declares that there are many benefits associated with the creation of second-family residential units on existing single-family lots, which include:

Sec. 57. RCW 43.160.010 and 1989 c 431 s 61 are each amended to read as follows:

(1) The legislature finds that it is the public policy of the state of Washington to direct financial resources toward the fostering of economic development through the stimulation of investment and job opportunities and the retention of sustainable existing employment for the general welfare of the inhabitants of the state. Reducing unemployment and reducing the time citizens remain jobless is important for the economic welfare of the state. A valuable means of fostering economic development is the construction of public facilities which contribute to the stability and growth of the state's economic base. Strengthening the economic base through issuance of industrial development bonds, whether single or umbrella, further serves to reduce unemployment. Consolidating issues of industrial development bonds when feasible to reduce costs additionally advances the state's purpose to improve economic vitality. Expenditures made for these purposes as authorized in this chapter are declared to be in the public interest, and constitute a proper use of public funds. A community economic revitalization board is needed which shall aid the development of economic opportunities. The general objectives of the board should include:

(a) Strengthening the economies of areas of the state which have experienced or are expected to experience chronically high unemployment rates or below average growth in their economies;

(b) Encouraging the diversification of the economies of the state and regions within the state in order to provide greater seasonal and cyclical stability of income and employment;

(c) Encouraging wider access to financial resources for both large and small industrial development projects;

(d) Encouraging new economic development or expansions to maximize employment;

(e) Encouraging the retention of viable existing firms and employment; and

(f) Providing incentives for expansion of employment opportunities for groups of state residents that have been less successful relative to other groups in efforts to gain permanent employment.

(2) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to improve state highways in the vicinity of new industries considering locating in this state or existing industries that are considering significant expansion.

(a) The legislature finds it desirable to provide a process whereby the need for diverse public works improvements necessitated by planned economic development can be addressed in a timely fashion and with coordination among all responsible governmental entities.

(b) It is the intent of the legislature to create an economic development account within the motor vehicle fund from which expenditures can be made by the department of transportation for state highway improvements necessitated by planned economic development. All such improvements must first be approved by the state transportation commission and the community economic revitalization board in accordance with the procedures established by RCW 43.160.074 and 47.01.280. It is further the intent of the legislature that such improvements not jeopardize any other planned highway construction projects. The improvements are intended to be of limited size and cost, and to include such items as additional turn lanes, signalization, illumination, and safety improvements.

(3) The legislature also finds that the state's economic development efforts can be enhanced by providing funds to improve markets for those recyclable materials representing a large fraction of the waste stream. The legislature finds that public facilities which result in private construction of processing or remanufacturing facilities for recyclable materials are eligible for consideration from the board.

(4) The legislature finds that sharing economic growth state-wide is important to the welfare of the state. Distressed areas and timber-dependent counties do not share in the economic vitality of the Puget Sound region. Infrastructure is one of several ingredients that are critical for economic development. Distressed areas and timber-dependent counties generally lack the infrastructure necessary to diversify and revitalize their economies. It is, therefore, the intent of the legislature to increase the availability of funds to help provide infrastructure to distressed areas and timber-dependent counties.

NEW SECTION. Sec. 59. A new section is added to chapter 43.160 RCW to read as follows:

(1) The economic development account is created within the public facilities construction loan revolving fund under RCW 43.160.080. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for the purposes of RCW 43.160.010(4) and this section. The account is subject to allotment procedures under chapter 43.88 RCW.

(2) Applications under this section for assistance from the economic development account are subject to all of the applicable criteria set forth under this chapter, as well as procedures and criteria established by the board, except as otherwise provided.

(3) Eligible applicants under this section are limited to political subdivisions of the state in timber impact areas that demonstrate, to the satisfaction of the board, the local economy's dependence on the forest products industry.

(4) Applicants must demonstrate that their request is part of an economic development plan consistent with applicable state planning requirements. Applicants must demonstrate that small scale tourism projects have been approved by the local government and are part of a regional tourism plan approved by the local and regional tourism organizations. Industrial projects must be approved by the local government and the associate development organization.

(9) The board shall develop guidelines for allowable local match and feasibility studies.

(10) Applications under this section need not demonstrate evidence that specific private development or expansion is ready to occur or will occur if funds are provided.

NEW SECTION. Sec. 60. A new section is added to chapter 43.160 RCW to read as follows:

The board shall establish guidelines for making grants and loans to ensure that the requirements of this chapter are complied with. The guidelines shall include:

(1) A process to equitably compare and evaluate applications from competing communities.

(2) Criteria to ensure that approved projects will have a high probability of success and are likely to provide long-term economic benefits to the community. The criteria shall include: (a) A minimum amount of local participation, determined by the board per application, to verify community support for the project; (b) an analysis that establishes the project is feasible using standard economic principles; and (c) an explanation from the applicant regarding how the project is consistent with the communities', economic strategy and goals.

(3) A method of evaluating the impact of the loans or grants on the economy of the community and whether the loans or grants achieved their purpose.

Sec. 61. RCW 43.160.076 and 1985 c 446 s 6 are each amended to read as follows:

(1) Except as authorized to the contrary under subsection (2) of this section, from all funds available to the board for loans and grants, the board shall spend at least ~~((twenty))~~ fifty percent for grants and loans for projects in distressed counties or timber impact areas. For purposes of this section, the term "distressed counties" includes any county, in which the average level of unemployment for the three years before the year in which an application for a loan or grant is filed, exceeds the average state employment for those years by twenty percent or timber impact areas.

(2) If at any time during the last six months of a biennium the board finds that the actual and anticipated applications for qualified projects in distressed counties or timber impact areas are clearly insufficient to use up the ~~((twenty))~~ fifty percent allocation, then the board shall estimate the amount of the insufficiency and during the remainder of the biennium may use that amount of the allocation for loans and grants for projects not located in distressed counties or timber impact areas.

NEW SECTION. Sec. 62. (1) For the period beginning July 1, 1991, and ending June 30, 1993, in those areas designated by the department of community development as timber impact areas under section 2 of this act, the public works board may award low-interest or interest-free loans to local governments for construction of new public works facilities that stimulate economic growth or diversification.

(2) For the purposes of this section and section 63 of this act, "public facilities" means bridge, road and street, domestic water, sanitary sewer, and storm sewer systems.

(3) The loans may have a deferred payment of up to five years but shall be repaid within twenty years. The community economic revitalization board may require other terms and conditions and may charge such rates of interest on its loans as it

deems appropriate to carry out the purposes of this section. Repayments shall be made to the public works assistance account.

(4) The board may make such loans irrespective of the annual loan cycle and reporting required in RCW 43.155.070.

NEW SECTION. Sec. 63. (1) As authorized by section 62 of this act, the board shall establish criteria for awarding loans to local governments including, but not limited to, the following:

(a) If a county or city, the local government must be imposing the tax authorized by chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have in place a capital improvement plan meeting standards established by the board and an economic development plan meeting standards established by the department;

(c) The local economy must have experienced or be about to experience employment losses due to the timber economy;

(e) The local government must provide reasonable assurances of its ability to repay the debt; and

(f) The local government must meet any additional guidelines and criteria established by the board for awarding loan funds.

(2) Existing debt or other financial obligations of the local government shall not be refinanced under this section and section 62 of this act.

(3) The board shall award loans only to those projects that meet the criteria and will fulfill the purpose of this section and section 62 of this act. Any funds not obligated at the close of the biennium shall be returned to the public works assistance account.

(a) Seek to increase the utilization of existing federal, state, and local programs for agricultural development, diversification, marketing, and processing in the timber-impacted regions;

(b) Seek to increase the coordination and effectiveness of existing federal, state, and local programs for agricultural development, diversification, marketing, and processing in the timber-impacted areas; and

(c) Undertake efforts to promote and further the existing strengths of the timber-impacted areas in the value-added program. To accomplish this the department shall provide a targeted industry strategy to increase the amount of value added to each board foot of timber harvested. The department shall provide technical assistance, plant-specific feasibility studies, additional industrial extension and outreach efforts, plus market development.

No contract may be entered into under this section until the department has consulted with the board.

For the purpose of this section, enrollment restrictions shall not apply in the community colleges in timber-impacted communities.

NEW SECTION. **Sec. 66.** To the extent that funds are specifically appropriated therefor, the department of community development shall develop a community assistance program to enable communities to build local capacity for sustainable economic development efforts. The focus of this effort is to provide resources and technical assistance to local community leaders to carry out locally determined economic development projects.

NEW SECTION. **Sec. 67.** To the extent that funds are specifically appropriated therefor, the employment security department shall establish and maintain a job service message center for displaced workers without phone service. Myers, Anderson, Riley, Heavey, Inslee, R. Meyers, Dorn, Cooper, G. Creating a community mobilization program for teens.

The bill was read the second time.

MOTIONS

Senator Roach moved that the following Committee on Children and Family Services amendment be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) The legislature finds that the population of teens in Washington state will be increasing through the mid-1990's, and that, in light of this increasing population, our state has a growing need for highly skilled and motivated workers that are members of healthy families. Therefore, Washington state cannot afford to lose any teens to substance abuse, teen pregnancy, juvenile crime, or dropping out of school. The legislature further finds that teens who drop out of school are two to three times more likely to live in poverty as adults. Teen mothers are less likely to finish high school, more likely to be separated or divorced, and more likely to live in poverty. Their children are more likely to exhibit lower academic achievement and to show a tendency to repeat their mother's pattern of early childbearing. Teens who

abuse drugs and alcohol are more likely to be school drop outs and engage in criminal behavior.

(2) The legislature further finds that the most effective strategy to comprehensively meet the diverse needs of teens is through collaborative efforts of government agencies, youth service organizations, businesses, schools, parents, and teens to plan and provide services to teens.

(3) The legislature further finds that local communities are best able to determine the most appropriate design and location of programs to comprehensively and cooperatively support teens in their community.

(4) The purpose of this chapter is to equip teens with the resources, skills, knowledge, and motivation necessary to maintain a healthy lifestyle and successfully enter the job market or pursue higher education, through the establishment of community mobilization projects for teens in six pilot sites geographically distributed throughout the state.

NEW SECTION. Sec. 2. Definitions.

(1) "Department" means the department of social and health services.

(2) "Secretary" means the secretary of the department of social and health services.

(3) "Community" means an individual political subdivision of the state, a group of such political subdivisions, or a geographic area within a political subdivision.

NEW SECTION. Sec. 3. (1) There is established in the department a community mobilization program for teens, which may fund and coordinate up to six community-based projects to develop targeted and coordinated strategies to meet the needs of teens.

(2) Applications for project funding under this chapter shall:

(a) Define the community requesting funding;

(b) Contain evidence of the active participation of public and private entities in the community, including the various communities of color, that are now providing, or might appropriately provide, services to teens, including, at a minimum, schools, law enforcement, local government, libraries, youth services agencies and organizations, job training organizations, mental health, and health care providers;

(c) Demonstrate establishment of a project advisory board composed of teens, parents, and representatives of a broad cross-section of other community members who have an interest in meeting the needs of teens, and assure that the advisory board has been consulted in development of the application;

(d) Designate a lead agency or organization for the project, and provide evidence of written interagency agreements with existing youth service organizations to carry out project activities. The agency or organization designated as lead agency shall have demonstrated sensitivity and responsiveness to the plurality of community values and the cultural and ethnic heritage of community members;

(e) Identify a project site that is accessible to teens during evenings and weekends, from which services and activities can be provided or referrals made;

(f) Describe the services and activities that will be undertaken by the project, including identification of specific services and activities for which funding is requested. Core services provided at each project site shall include, at a minimum: Health screening and referrals; employment search and job training; mental health counseling; substance abuse treatment; and family counseling. Health screening and referrals shall not include the dispensing of contraceptives. Referrals of pregnant teens for health care services shall be to persons, agencies, or organizations with maternity care services practices that primarily emphasize healthy birth outcomes. Projects may address other local service needs such as drop-out prevention, substance abuse prevention, inpatient substance abuse treatment, additional support services for teen parents, literacy programs, and recreational activities, by offering those services at the project site or through referrals to community organizations;

(g) Describe the coordinated system for meeting the needs of teens that the community will develop, including a description of how the proposed system will build upon existing services and existing community efforts to coordinate the delivery of services to teens;

(h) Identify community matching funds, as provided in section 4 of this act, that have been committed to the project; and

(i) Provide assurances that the project will cooperate, through the provision of requested data and information, with the evaluation provided for in section 6 of this act.

NEW SECTION. Sec. 4. (1) The secretary may issue grants for community mobilization projects for teens. Grants shall be made competitively based upon information provided in applications for funding. To the greatest extent practicable, grants shall be geographically distributed throughout the state.

(2) The department shall provide a staff person to administer and coordinate the program established under this chapter, and shall provide technical assistance to communities applying for or receiving funds under this chapter.

(3) Technical assistance provided by the department shall include the identification of means to creatively blend categorical funds, to the extent not prohibited by federal law, in a manner that allows teens' needs to determine the services they will receive.

(4) Twenty-five percent of the funding for projects under this chapter shall be community matching funds provided by private or public entities in the communities requesting funding. Contributions of materials, supplies, or physical facilities may be considered as all or part of the funding provided by the communities.

(5) Funds provided for this chapter shall not be expended for abortion services or referrals or contraceptive services or referrals.

NEW SECTION. Sec. 5. Community mobilization projects for teens shall have an initial duration of two years. To the extent funding is available, projects may be renewed for an additional two-year period by the department.

NEW SECTION. Sec. 6. The department shall contract with an independent entity to evaluate the effectiveness of the program established in this chapter. The evaluation shall develop standards for measuring the success of community mobilization projects, considering factors such as school completion, employment, and teen pregnancy rates. The department shall submit an evaluation report to appropriate committees of the legislature by December 1, 1994, and biennially thereafter.

NEW SECTION. Sec. 7. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 8. If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. The rules under this act shall meet federal requirements that are a necessary condition to the receipt of federal funds by the state.

NEW SECTION. Sec. 9. Sections 1 through 6 of this act shall constitute a new chapter in Title 74 RCW.

NEW SECTION. Sec. 10. If by June 30, 1991, the omnibus operating budget appropriations act for the 1991-93 biennium does not provide specific funding for this act, referencing this act by bill number, this act is null and void.

On motion of Senator Roach, the following amendment to the Committee on Children and Family Services striking amendment was adopted:

On page 3, line 11 of the amendment, after "made" insert ". No project site shall be located in a public school building that is currently in use as a public school."

MOTION

Senator Niemi moved that the following amendment by Senators Niemi, Rinehart, Skratek, Murray and Wojahn to the Committee on Children and Family Services striking amendment be adopted:

On page 4, line 24, strike all of subsection (5).

MOTION

On motion of Senator Newhouse, further consideration of Engrossed Substitute House Bill No. 1390 was deferred.

There being no objection, the Senate resumed consideration of the point of order by Senator Talmadge as to whether Substitute House Bill No. 1649 is properly before the Senate.

RULING BY THE PRESIDENT

President Pritchard: "In ruling on the point of order raised by Senator Talmadge, the President finds that Substitute House Bill 1649 is necessary to implement the biennial budget as passed by the Senate. The cutoff resolution exempts the bill from the committee deadline, so the bill is properly before the Senate."

Substitute House Bill No. 1649 was ruled to be properly before the Senate.

PARLIAMENTARY INQUIRY

Senator Talmadge: "Mr. President, a point of parliamentary inquiry. The point of order that I raised actually was the fact that the bill was reported out of committee on the seventeenth of April. The bill was reported out, I believe, after a proceeding in the conference room or conference rooms over in the Cherberg building. I am wondering under the cutoff resolution, at least the cutoff resolution that has passed both houses at this point, whether the fact that it was reported out of committee on the seventeenth of April--only a couple of days ago--was adequate to preserve it as something that was properly before the Senate. If it was necessary to implement the budget, I thought it had to emerge from the Ways and Means Committee or the appropriate originating committee at an earlier date."

REPLY BY THE PRESIDENT

President Pritchard: "I think the custom and the rulings in the past have been that if it is necessary for the implementation of the budget, then it is alive until the cutoff of the budget itself. The committee cutoff is not

applicable to those measures which are necessary to implement the budget--until 5 p.m. tonight."

The county treasurer shall then notify the department of revenue of the taxes due the state from the assessments which did not appear on the assessment list certified by the county board of equalization to the ~~((state board))~~ department of ~~((equalization))~~ revenue. The county treasurer shall make proper accounting of all sums collected as either advance tax, compensating or additional tax, or supplemental or omitted tax and shall notify the department of revenue of the amounts due the various state funds according to the levy used in extending such tax, and those amounts shall immediately become due and owing to the various state funds, to be paid to the state treasurer in the same manner as taxes extended on the regular tax roll.

Sec. 39. RCW 84.69.070 and 1973 2nd ex.s. c 5 s 3 are each amended to read as follows:

Refunds ordered with respect to taxing districts shall be paid by checks drawn by the county treasurer upon such available funds, if any, as the taxing districts may have on deposit in the county treasury, or in the event such funds are insufficient, then out of funds subsequently accruing to such taxing district and on deposit in the county treasury. When such refunds are made as a result of taxes paid under levies or statutes adjudicated to be illegal or unconstitutional all administrative costs including interest paid on the refunds incurred by the county treasurer in making such refunds shall be a charge against the funds of such districts and/or the state on a pro rata basis until the county current expense fund is fully reimbursed for the administrative expenses incurred in making such refund: PROVIDED, That whenever orders for refunds of ad valorem taxes promulgated by (~~boards of county commissioners~~) the county treasurer or county legislative authority and unpaid checks shall expire and become void as provided in RCW 84.69.110, then any moneys remaining in a refund account established by the county treasurer for any taxing district may be transferred by the county treasurer from such refund account to the county current expense fund to reimburse the county for the administrative expense incurred in making refunds as prescribed herein. Any excess then remaining in the taxing district refund account may then be transferred by the county treasurer to the current expense fund of the taxing district for which the tax was originally levied and collected.

Sec. 40. RCW 84.69.110 and 1961 c 15 s 84.69.110 are each amended to read as follows:

Every order for refund of ad valorem taxes promulgated by the (~~board of county commissioners~~) county treasurer or county legislative authority under authority of this chapter as hereafter amended shall expire and be void three years from the date of the order and all unpaid checks shall become void.

Sec. 41. RCW 84.69.120 and 1989 c 378 s 33 are each amended to read as follows:

If the county (~~legislative authority~~) treasurer rejects a claim or fails to act within six months from the date of filing of a claim for refund in whole or in part, the person who paid the taxes, the person's guardian, executor, or administrator may within one year after the date of the filing of the claim commence an action in the superior court against the county to recover the taxes which the county (~~legislative authority~~) treasurer has refused to refund.

Strike everything after the enacting clause and insert the following:

**"PART I
GENERAL PROVISIONS"**

Sec. 101. 1990 c 116 s 1 (uncodified) is amended to read as follows:

(1) The legislature (~~((finds))~~) declares that the increasing reliance on water borne transportation as a source of supply for oil and hazardous substances poses special

concern for the state of Washington. Each year billions of gallons of crude oil and refined petroleum products are transported by vessel on the navigable waters of the state. These shipments are expected to increase in the coming years. Vessels transporting oil into Washington travel on some of the most unique and special marine environments in the United States. These marine environments are a source of natural beauty, recreation, and economic livelihood for many residents of this state. As a result, the state has an obligation to assure the citizens of the state that the waters of the state ~~((used for water borne transportation))~~ will be protected from oil spills. ~~((The legislature declares that this act is the first step in developing a comprehensive approach to protecting this important and unique resource by developing a set of procedures to respond to spills of oil and hazardous substances into the state's waters.))~~

(2) The legislature ((also)) finds that prevention is the best method to protect the unique and special marine environments in this state. The technology for containing and cleaning up a spill of oil or hazardous substances is in the early stages of development. Preventing spills is more protective of the environment and more cost-effective when all the costs associated with responding to a spill are considered. ((The legislature declares that it will continue to develop this first step in a comprehensive approach to protecting our unique and special marine environment by adopting measures in future sessions of the legislature to reduce the likelihood that a spill of oil or hazardous substances will occur.))

(3) The legislature also finds that:

(a) Recent accidents in Washington, Alaska, southern California, Texas, and other parts of the nation have shown that the transportation, transfer, and storage of oil have caused significant damage to the marine environment;

(b) Even with the best efforts, it is nearly impossible to remove all oil that is spilled into the water;

(c) Washington's navigable waters are treasured environmental and economic resources that the state cannot afford to place at undue risk from an oil spill; and

(d) The state has a fundamental responsibility, as the trustee of the state's natural resources and the protector of public health and the environment to prevent the spill of oil.

(4) In order to establish a comprehensive prevention and response program to protect Washington's waters and natural resources from spills of oil, it is the purpose of this chapter:

(a) To establish state agency expertise in marine safety and to centralize state activities in spill prevention and response activities;

(b) To prevent spills of oil and to promote programs that reduce the risk of both catastrophic and small chronic spills;

(c) To ensure that responsible parties are liable, and have the resources and ability, to respond to spills and provide compensation for all costs and damages;

(d) To provide for state spill response and wildlife rescue planning and implementation;

(e) To support and complement the federal oil pollution act of 1990 and other federal law, especially those provisions relating to the national contingency plan for cleanup of oil spills and discharges, including provisions relating to the responsibilities of state agencies designated as natural resource trustees. The legislature intends this chapter to be interpreted and implemented in a manner consistent with federal law;

(f) To provide broad powers of regulation to the department of ecology relating to spill prevention and response;

(g) To provide for an independent oversight board to review the adequacy of spill prevention and response activities in this state; and

(h) To provide an adequate funding source for state response and prevention programs.

Sec. 102. RCW 90.48.315 and 1990 c 116 s 2 are each amended to read as follows:

(1) The Washington sea grant program, in consultation with the department, shall develop and conduct a voluntary spill prevention education program that targets small spills from commercial fishing vessels, ferries, cruise ships, ports, and marinas. Washington sea grant shall coordinate the spill prevention education program with recreational boater education performed by the state parks and recreation commission.

(2) The spill prevention education program shall illustrate ways to reduce oil contamination of bilge water, accidental spills of hydraulic fluid during routine maintenance, and reduce spillage during refueling. The program shall illustrate proper disposal of oil and promote strategies to meet shoreside oil handling, and disposal needs of the targeted groups. The program shall include a series of training workshops and the development of educational materials.

"PART II FACILITY PLANS"

NEW SECTION. Sec. 201. PREVENTION PLANS. (1) The owner or operator for each onshore and offshore facility shall prepare and submit to the department an oil spill prevention plan in conformance with the requirements of this chapter. The plans shall be submitted to the department in the time and manner directed by the department, but not later than January 1, 1993. The spill prevention plan may be consolidated with a spill contingency plan submitted pursuant to RCW 90.48.371 as recodified by this act. The department may accept plans prepared to comply with other state or federal law as spill prevention plans to the extent those plans comply with the requirements of this chapter. The department, by rule, shall establish standards for spill prevention plans. The rules shall be adopted not later than July 1, 1992.

(2) The spill prevention plan for an onshore or offshore facility shall:

(a) Establish compliance with the federal oil pollution act of 1990, if applicable, and financial responsibility requirements under federal and state law;

(j) Provide for the incorporation into the facility during the period covered by the plan of those measures that will provide the best achievable protection for the public health and the environment; and

(k) Include any other information reasonably necessary to carry out the purposes of this chapter required by rules adopted by the department.

(3) The department shall only approve a prevention plan if it provides the best achievable protection from damages caused by the discharge of oil into the waters of the state and if it determines that the plan meets the requirements of this section and rules adopted by the department.

(4) Upon approval of a prevention plan, the department shall provide to the person submitting the plan a statement indicating that the plan has been approved, the facilities covered by the plan, and other information the department determines should be included.

(5) The approval of a prevention plan shall be valid for five years. An owner or operator of a facility shall notify the department in writing immediately of any significant change of which it is aware affecting its prevention plan, including changes in any factor set forth in this section or in rules adopted by the department. (6) The department by rule shall require prevention plans to be reviewed, updated, if necessary, and resubmitted to the department at least once every five years.

(7) Approval of a prevention plan by the department does not constitute an express assurance regarding the adequacy of the plan nor constitute a defense to liability imposed under this chapter or other state law.

(8) This section does not authorize the department to modify the terms of a collective bargaining agreement.

Sec. 202. RCW 90.48.371 and 1990 c 116 s 3 are each amended to read as follows:

The director shall prohibit or restrict the use of any chemicals or other dispersant or treatment materials proposed for use under this section whenever it appears to ~~((him))~~ the director that use thereof would be detrimental to the public interest.

NEW SECTION. Sec. 304. (1)(a) Notwithstanding any other provision of law, a person is not liable for removal costs or damages that result from actions taken or omitted to be taken in the course of rendering care, assistance, or advice consistent with the national contingency plan or as otherwise directed by the federal on-scene coordinator or by the official within the department with responsibility for oil spill response. This subsection (1)(a) does not apply:

(b) A responsible party is liable for any removal costs and damages that another person is relieved of under (a) of this subsection.

(c) Nothing in this section affects the liability of a responsible party for oil spill response under state law.

(2) For the purposes of this section:

(a) "Damages" means damages of any kind for which liability may exist under the laws of this state resulting from, arising out of, or related to the discharge or threatened discharge of oil.

Sec. 305. RCW 90.48.340 and 1987 c 109 s 148 are each amended to read as follows:

The department shall investigate each activity or project conducted under RCW 90.48.330 as recodified by this 1991 act to determine, if possible, the circumstances surrounding the entry of oil into waters of the state and the person or persons allowing said entry or responsible for the act or acts which result in said entry. Whenever it appears to the department, after investigation, that a specific person or persons are responsible for the necessary expenses incurred by the state pertaining to a project or activity as specified in RCW 90.48.335 as recodified by this 1991 act, the department shall notify said person or persons by appropriate order (~~:(--PROVIDED, That no order may be issued).~~ The department may not issue an order pertaining to a project or activity which was completed more than five years prior to the date of the proposed issuance of the order. ~~((Said))~~ The order shall state the findings of the department, the amount of necessary expenses incurred ((by the department)) in conducting the project or activity, and a notice that said amount is due and payable immediately upon receipt of said order. The department may, upon application from the recipient of an order received within thirty days from the receipt of the order, reduce or set aside in its entirety the amount due and payable, when it appears from the application, and from any further investigation the department may desire to undertake, that a reduction or setting aside is just and fair under all the circumstances. If the amount specified in the order issued by the department notifying said person or persons is not paid within thirty days after receipt of notice imposing the same, or if an application has been made within thirty days as herein provided and the amount provided in the order issued by the department subsequent to such application is not paid within fifteen days after receipt thereof, the attorney general, upon request of the department, shall bring an action on behalf of the state in the superior court of Thurston county or any county in which the person to which the order is directed does business, or in any other court of competent jurisdiction, to recover the amount specified in the final order of the department. No order issued under this section shall be construed as an order within the meaning of RCW 43.21B.310 and shall not be appealable to the hearings board. In any action to recover necessary expenses as herein provided said person shall be relieved from liability for necessary expenses if ((he)) the person can prove that the oil to which the necessary expenses relate entered the waters of the state by causes set forth in RCW ((90.48.320(3))) 90.48.320(2) as recodified by this 1991 act.

Sec. 306. RCW 90.48.350 and 1990 c 116 s 20 are each amended to read as follows:

(1) Except as otherwise provided in RCW 90.48.383, any person who negligently discharges oil, or causes or permits the entry of the same, shall incur, in addition to any other penalty as provided by law, a penalty in an amount of up to

twenty thousand dollars for every such violation, and for each day the spill poses risks to the environment as determined by the director. This subsection shall not apply to an employee of the owner or operator of an offshore or onshore facility or covered vessel who is not in a supervisory capacity.

(2) Any person who intentionally or recklessly discharges or causes or permits the entry of oil into the waters of the state shall incur, in addition to any other penalty authorized by law, a penalty of up to one hundred thousand dollars for every such violation and for each day the spill poses risks to the environment as determined by the director.

(3) The amount of the penalty shall be determined by the director after taking into consideration the gravity of the violation, the previous record of the violator in complying, or failing to comply, with the provisions of chapter 90.48 RCW, the speed and thoroughness of the collection and removal of the oil, and such other considerations as the director deems appropriate. Every act of commission or omission which procures, aids or abets in the violation shall be considered a violation under the provisions of this section and subject to the penalty herein provided for. The penalty herein provided for shall be imposed pursuant to RCW 43.21B.300.

"PART IV OFFICE OF MARINE SAFETY"

NEW SECTION. Sec. 401. The legislature declares that Washington's waters have irreplaceable value for the citizens of the state. These waters are vital habitat for numerous and diverse marine life and wildlife and the source of recreation, aesthetic pleasure, and pride for Washington's citizens. These waters are also vital for much of Washington's economic vitality.

The legislature finds that the transportation of oil on these waters creates a great potential hazard to these important natural resources. The legislature also finds that there is no state agency responsible for maritime safety to ensure this state's interest in preserving these resources.

The legislature therefore finds that in order to protect these waters it is necessary to establish an office of marine safety which will have the responsibility to promote the safety of marine transportation in Washington.

NEW SECTION. Sec. 402. (1) There is hereby created an agency of state government to be known as the office of marine safety. The office shall be vested with all powers and duties transferred to it and such other powers and duties as may be authorized by law. The main administrative office of the office shall be located in the city of Olympia. The administrator may establish administrative facilities in other locations, if deemed necessary for the efficient operation of the office, and if consistent with the principles set forth in subsection (2) of this section.

(2) The office of marine safety shall be organized consistent with the goals of providing state government with a focus in marine transportation and serving the people of this state. The legislature recognizes that the administrator needs sufficient organizational flexibility to carry out the office's various duties. To the extent practical, the administrator shall consider the following organizational principles:

(a) Clear lines of authority which avoid functional duplication within and between subelements of the office;

(2) The office shall review the tank vessel inspection programs conducted by the United States coast guard and other federal agencies to determine if the programs as actually operated by those agencies provide the best achievable protection to the waters of the state. If the office determines that the tank vessel inspection programs

conducted by these agencies are not adequate to protect the state's waters, it shall adopt rules for a state tank vessel inspection program. The office shall adopt rules providing for a random review of individual tank vessel inspections conducted by federal agencies. (7) The approval of the contingency plan shall be valid for five years. Upon approval of a contingency plan, the office shall provide to the person submitting the plan a statement indicating that the plan has been approved, the vessels covered by the plan, and other information the office determines should be included.

(8) An owner or operator of a covered vessel shall notify the office in writing immediately of any significant change of which it is aware affecting its contingency plan, including changes in any factor set forth in this section or in rules adopted by the office. (b) A contingency plan and prevention plan has been submitted to the office as required by this chapter and rules adopted by the office and the office is reviewing the plan and has not denied approval; or

(c) The covered vessel has entered state waters after the United States coast guard has determined that the vessel is in distress.

(5) Any person may rely on a copy of the statement issued by the office to section 419 of this act as evidence that the vessel has an approved contingency plan and the statement issued pursuant to section 417 of this act as evidence that the vessel has an approved spill prevention plan.

NEW SECTION. Sec. 423. NOTIFICATION OF ACCIDENTS AND NEAR MISS INCIDENTS.

(1) In order to assist the state in identifying areas of the navigable waters of the state needing special attention, the owner or operator of a covered vessel shall notify the coast guard within one hour:

(a) Of the disability of the covered vessel if the disabled vessel is within twelve miles of the shore of the state; and

(b) Of a collision or a near miss incident within twelve miles of the shore of the state.

(2) The division of emergency management of the department of community development and the office shall request the coast guard to notify the division of emergency management as soon as possible after the coast guard receives notice of a disabled covered vessel or of a collision or near miss incident within twelve miles of the shore of the state. The office shall negotiate an agreement with the coast guard governing procedures for coast guard notification to the state regarding disabled covered vessels and collisions and near miss incidents.

(3) The office shall prepare a summary of the information collected under this section and provide the summary to the regional marine safety committees, the coast guard, and others in order to identify problems with the marine transportation system.

(4) For the purposes of this section:

(a) A tank vessel or cargo vessel is considered disabled if any of the following occur:

(i) Any accidental or intentional grounding;

(ii) The total or partial failure of the main propulsion or primary steering or any component or control system that causes a reduction in the maneuvering capabilities of the vessel;

(iii) An occurrence materially and adversely affecting the vessel's seaworthiness or fitness for service, including but not limited to, fire, flooding, or collision with another vessel;

(iv) Any other occurrence that creates the serious possibility of an oil spill or an occurrence that may result in such a spill.

(b) A barge is considered disabled if any of the following occur:

(i) The towing mechanism becomes disabled;

(ii) The towboat towing the barge becomes disabled through occurrences defined in (a) of this subsection.

(c) A near miss incident is an incident that requires the pilot or master of a covered vessel to take evasive actions or make significant course corrections in order to avoid a collision with another ship or to avoid a grounding as required by the international rules of the road.

(5) Failure of any person to make a report under this section shall not be used as the basis for the imposition of any fine or penalty.

NEW SECTION. Sec. 424. REGIONAL MARINE SAFETY COMMITTEES.

(1) The office shall establish regional marine safety committees at least for the Strait of Juan de Fuca/Northern Puget Sound, Southern Puget Sound, and Grays Harbor/Pacific coast. (4) Each regional committee shall be responsible for planning for the safe navigation and operation of tankers, barges, and other vessels within each region. Each committee shall prepare a regional marine safety plan, encompassing all vessel traffic within the region. The coast guard, the federal environmental protection agency, the army corps of engineers, and the navy shall be invited to attend the meetings of each marine regional safety committee.

(5) The administrator shall adopt rules and guidelines for regional marine safety plans in consultation with affected parties. The rules shall require the committees to establish subcommittees to involve all interested parties in the development of the plans and to require the committees to include a summary of public comments and any minority reports with recommendations submitted to the administrator. The rules shall also require the plans to consider all of the following:

(a) Requirements for tug escorts of tankers and other commercial vessels, and speed limits for tankers and other vessels in addition to the requirements imposed by statute;

(b) A review and evaluation of the adequacy of and any changes needed in:

(i) Anchorage designations and sounding checks;

It is the responsibility of the person providing bunkering, refueling, or lightering services to provide any containment or recovery equipment required under this section. This section does not apply to a person operating a ship for personal pleasure or for recreational purposes.

"PART V MARINE OVERSIGHT BOARD"

NEW SECTION. Sec. 501. MARINE OVERSIGHT BOARD. (1) The oil marine oversight board is established to provide independent oversight of the actions of the federal government, industry, the department, the office, and other state agencies with respect to oil spill prevention and response.

(2)(a) The board may, at its own discretion, study any aspect of oil spill prevention and response in the state. The board shall report to the governor and make recommendations to the department and the office on activities of the federal government and industry with respect to oil spill prevention and response, including recommendations for the state's response to those actions. The board shall specifically review the need for, and the structure and design of an emergency response system for the Strait of Juan de Fuca and the Pacific coast. The board shall also make recommendations to the legislature and other state agencies on any provision of this chapter, other state laws, and rules, policies, and guidelines adopted by the department, the office, or, other state agencies relating to the prevention and cleanup of oil spills into the waters of the state.

(b) To minimize duplication of effort, reviews conducted by the board shall be coordinated with related activities of the federal government, the department, the office, and other appropriate state and international entities.

"PART VI TANKER REQUIREMENTS"

Sec. 601. RCW 88.16.170 and 1975 1st ex.s. c 125 s 1 are each amended to read as follows:

Because of the danger of spills, the legislature finds that the transportation of crude oil and refined petroleum products by tankers on the Columbia river and on Puget Sound and adjacent waters creates a great potential hazard to important natural resources of the state and to jobs and incomes dependent on these resources.

The legislature recognizes that the Columbia river has many natural obstacles to navigation and shifting navigation channels that create the risk of an oil spill. The legislature also recognizes Puget Sound and adjacent waters are a relatively confined salt water environment with irregular shorelines and therefore there is a greater than usual likelihood of long-term damage from any large oil spill.

The legislature further recognizes that certain areas of the Columbia river and Puget Sound and adjacent waters have limited space for maneuvering a large oil tanker and that these waters contain many natural navigational obstacles as well as a high density of commercial and pleasure boat traffic.

For these reasons, it is important that large oil tankers be piloted by highly skilled persons who are familiar with local waters and that such tankers have sufficient capability for rapid maneuvering responses.

It is therefore the intent and purpose of RCW 88.16.180 and 88.16.190 to decrease the likelihood of oil spills on the Columbia river and on Puget Sound and its shorelines by requiring all oil tankers above a certain size to employ (~~Washington state~~) licensed pilots and(~~, if lacking certain safety and maneuvering capability requirements,~~) to be escorted by a tug or tugs while navigating on certain areas of Puget Sound and adjacent waters.

Sec. 602. RCW 88.16.180 and 1983 c 3 s 231 are each amended to read as follows:

Notwithstanding the provisions of RCW 88.16.070, any registered oil tanker(~~, whether enrolled or registered,~~) of (~~fifty~~) five thousand (~~deadweight~~) gross tons or greater, shall be required:

(1) To take a Washington state licensed pilot while navigating Puget Sound and adjacent waters and shall be liable for and pay pilotage rates pursuant to RCW 88.16.035; and

(2) To take a licensed pilot while navigating the Columbia river.

Sec. 603. RCW 88.16.200 and 1977 ex.s. c 337 s 16 are each amended to read as follows:

Any vessel designed for the purpose of carrying as its cargo liquefied natural or propane gas shall adhere to the provisions of RCW 88.16.190(2) as though it ~~was~~ were an oil tanker.

NEW SECTION. Sec. 604. OPERATION OF A VESSEL WHILE UNDER INFLUENCE OF LIQUOR OR DRUGS. (1) A person is guilty of operating a vessel while under the influence of intoxicating liquor or drugs if the person operates a covered vessel within this state while:

(a) The person has 0.06 grams or more of alcohol per two hundred ten liters of breath, as shown by analysis of the person's breath made under section 605 of this act; or

(b) The person has 0.06 percent or more by weight of alcohol in the person's blood as shown by analysis of the person's blood made under section 605 of this act; or

(c) The person is under the influence of or affected by intoxicating liquor or drugs; or

(d) The person is under the combined influence of or affected by intoxicating liquor or drugs.

(2) The fact that any person charged with a violation of this section is or has been entitled to use such drug under the laws of this state shall not constitute a defense against any charge of violating this section.

(3) Operating a vessel while intoxicated is a class C felony under chapter 9A.20 RCW.

NEW SECTION. Sec. 605. BREATH OR BLOOD ANALYSIS. (1) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by a person while operating a vessel while under the influence of intoxicating liquor or drugs, if the amount of alcohol in the person's blood or breath at the time alleged as shown by analysis of his blood or breath is less than 0.06 percent by weight of alcohol in his blood or 0.06 grams of alcohol per two hundred ten liters of the person's breath, it is evidence that may be considered with other competent evidence in determining whether the person was under the influence of intoxicating liquor or drugs.

(2) The breath analysis shall be based upon grams of alcohol per two hundred ten liters of breath. The foregoing provisions of this section shall not be construed as limiting the introduction of any other competent evidence bearing upon the question whether the person was under the influence of intoxicating liquor or any drug.

(3) Analysis of the person's blood or breath to be considered valid under this section shall have been performed according to methods approved by the state toxicologist and by an individual possessing a valid permit issued by the state toxicologist for this purpose. The state toxicologist shall approve satisfactory techniques or methods, to supervise the examination of individuals to ascertain their qualifications and competence to conduct such analyses, and to issue permits that are subject to termination or revocation at the discretion of the state toxicologist.

(4) If a blood test is administered under this section, the withdrawal of blood for the purpose of determining its alcoholic content may be performed only by a physician, a registered nurse, or a qualified technician. This limitation shall not apply to the taking of breath specimens.

(5) The person tested may have a physician, or a qualified technician, chemist, registered nurse, or other qualified person of his or her own choosing administer one or more tests in addition to any administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person shall not preclude the admission of evidence relating to the test or tests taken at the direction of a law enforcement officer.

(6) Upon the request of the person who submits to a test or tests at the request of a law enforcement officer, full information concerning the test or tests shall be made available to the person or his or her attorney.

NEW SECTION. Sec. 606. LIMITED IMMUNITY FOR BLOOD WITHDRAWAL. No physician, registered nurse, qualified technician, or hospital, or duly licensed clinical laboratory employing or using services of the physician, registered nurse, or qualified technician, may incur any civil or criminal liability as a result of the act of withdrawing blood from any person when directed by a law enforcement officer to do so for the purpose of a blood test under section 605 of this act. This section shall not relieve any physician, registered nurse, qualified technician, or hospital or duly licensed clinical laboratory from civil liability arising from the use of improper procedures or failing to exercise the required standard of care.

(7) "Petroleum product" means any liquid hydrocarbons at atmospheric temperature and pressure that are the product of the fractionation, distillation, or other refining or processing of crude oil, and that are used as, useable as, or may be refined as a fuel or fuel blendstock, including but not limited to, gasoline, diesel fuel, aviation fuel, bunker fuel, and fuels containing a blend of alcohol and petroleum.

(8) "Taxpayer" means the person owning crude oil or petroleum products immediately before the same are off-loaded at a marine terminal in this state and who is liable for the taxes imposed by this chapter.

(9) "Waterborne vessel or barge" means any ship, barge, or other watercraft capable of travelling on the navigable waters of this state and capable of transporting any crude oil or petroleum product in quantities of ten thousand gallons or more for purposes other than providing fuel for its motor or engine.

NEW SECTION. **Sec. 802.** (1) An oil spill response tax is imposed on the privilege of off-loading crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately before off-loading begins at the rate of two cents per barrel of crude oil or petroleum product off-loaded.

(2) In addition to the tax imposed in subsection (1) of this section, an oil spill administration tax is imposed on the privilege of off-loading crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately before off-loading begins at the rate of three cents per barrel of crude oil or petroleum product off-loaded.

(3) The taxes imposed by this chapter shall be collected by the marine terminal operator from the owner of the crude oil or petroleum products off-loaded at the marine terminal. If any person charged with collecting the taxes fails to bill the taxpayer for the taxes, or in the alternative has not notified the taxpayer in writing of the imposition of the taxes, or having collected the taxes, fails to pay them to the department in the manner prescribed by this chapter, whether such failure is the result of the person's own acts or the result of acts or conditions beyond the person's control, he or she shall, nevertheless, be personally liable to the state for the amount of the taxes. Payment of the taxes by the owner to a marine terminal operator shall relieve the owner from further liability for the taxes.

(4) Taxes collected under this chapter shall be held in trust until paid to the department. Any person collecting the taxes who appropriates or converts the taxes collected shall be guilty of a gross misdemeanor if the money required to be collected is not available for payment on the date payment is due. The taxes required by this chapter to be collected shall be stated separately from other charges made by the marine terminal operator in any invoice or other statement of account provided to the taxpayer.

(5) If a taxpayer fails to pay the taxes imposed by this chapter to the person charged with collection of the taxes and the person charged with collection fails to pay the taxes to the department, the department may, in its discretion, proceed directly against the taxpayer for collection of the taxes.

(6) The taxes shall be due from the marine terminal operator, along with reports and returns on forms prescribed by the department, within twenty-five days after the end of the month in which the taxable activity occurs.

(7) The amount of taxes, until paid by the taxpayer to the marine terminal operator or to the department, shall constitute a debt from the taxpayer to the marine terminal operator. Any person required to collect the taxes under this chapter who, with intent to violate the provisions of this chapter, fails or refuses to do so as required and any taxpayer who refuses to pay any taxes due under this chapter, shall be guilty of a misdemeanor as provided in chapter 9A.20 RCW.

(8) Upon prior approval of the department, the owner of crude oil or petroleum products off-loaded in this state may pay the taxes imposed by this chapter directly to the department. The department shall give its approval for direct payment under this section whenever it appears, in the department's judgment, that direct payment will enhance the administration of the taxes imposed under this chapter. The department shall provide by rule for the issuance of a direct payment certificate to any taxpayer qualifying for direct payment of the taxes. Good faith acceptance of a direct payment certificate by a terminal operator shall relieve the marine terminal operator from any liability for the collection or payment of the taxes imposed under this chapter.

(9) All receipts from the tax imposed in subsection (1) of this section shall be deposited into the state oil spill response account. All receipts from the tax imposed

in subsection (2) of this section shall be deposited into the state oil spill administration account.

(10) Within forty-five days after the end of each calendar quarter, the office of financial management shall determine the balance of the oil spill response account as of the last day of that calendar quarter. Balance determinations by the office of financial management under this section are final and shall not be used to challenge the validity of any tax imposed under this chapter. The office of financial management shall promptly notify the departments of revenue and ecology of the account balance once a determination is made. For each subsequent calendar quarter, the tax imposed by subsection (1) of this section shall be imposed during the entire calendar quarter unless:

(a) Tax was imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than twenty-five million dollars; or

(b) Tax was not imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than fifteen million dollars.

(11) The office of marine safety, the department of revenue, and the department of trade and economic development shall study tax credits for taxpayers employing vessels with the best achievable technology and the best available protection to reduce the risk of oil spills to the navigable waters of the state and submit the study to the appropriate standing committees of the legislature by December 1, 1992.

NEW SECTION. Sec. 803. The taxes imposed under this chapter shall only apply to the first off-loading of crude oil or petroleum products at a marine terminal in this state and not to the later transporting and subsequent off-loading of the same oil or petroleum product, whether in the form originally off-loaded in this state or after refining or other processing.

NEW SECTION. Sec. 804. Credit shall be allowed against the taxes imposed under this chapter for any crude oil or petroleum products off-loaded at a marine terminal and subsequently exported from or sold for export from the state.

NEW SECTION. Sec. 805. The state oil spill response account is created in the state treasury. All receipts from section 802(1) of this act shall be deposited in the account. All costs reimbursed to the state by a responsible party or any other person for responding to a spill of oil shall also be deposited in the account. Moneys in the account shall be spent only after appropriation. The account is subject to allotment procedures under chapter 43.88 RCW. The account shall be used exclusively to pay for the costs associated with the response to spills of crude oil or petroleum products into the navigable waters of the state. Payment of response costs under this section shall be limited to spills which the director has determined are likely to exceed fifty thousand dollars. Before expending moneys from the account, the director shall make reasonable efforts to obtain funding for response costs from the person responsible for the spill and from other sources, including the federal government. Reimbursement for response costs shall be allowed only for costs which are not covered by funds appropriated to the agencies responsible for response activities. Costs associated with the response to spills of crude oil or petroleum products shall include:

(1) Natural resource damage assessment and related activities;

(2) Spill related response, containment, wildlife rescue, cleanup, disposal, and associated costs;

(3) Interagency coordination and public information related to a response; and

(4) Appropriate travel, goods and services, contracts, and equipment.

NEW SECTION. Sec. 806. The state oil spill administration account is created in the state treasury. All receipts from section 802(2) of this act shall be deposited in the account. Moneys from the account may be spent only after appropriation. The account is subject to allotment procedures under chapter 43.88

RCW. On July 1 of each odd-numbered year, if receipts deposited in the account from the tax imposed by section 802(2) of this act for the previous fiscal biennium exceed the amount appropriated from the account for the previous fiscal biennium, the state treasurer shall transfer the amount of receipts exceeding the appropriation to the oil spill response account. If, on the first day of any calendar month, the balance of the spill response account is greater than twenty-five million dollars and the balance of the administration account exceeds the unexpended appropriation for the current biennium, then the tax under section 802(2) of this act shall be suspended on the first day of the next calendar month until the beginning of the following biennium, provided that the tax shall not be suspended during the last six months of the biennium. If the tax imposed under section 802(2) of this act is suspended during two consecutive biennia, the department shall by November 1st after the end of the second biennium, recommend to the appropriate standing committees an adjustment in the tax rate. For the period 1991-93 the state treasurer may transfer funds from the oil spill response account to the oil spill administration account in amounts necessary to support appropriations made from the oil spill administration account in the omnibus appropriations act. Expenditures from the oil spill administration account shall be used exclusively for the administrative costs related to the purposes of this chapter, and chapters 90.48, 88.40, and 88.-- (sections 414 through 432 of this act) RCW. Costs of administration include the costs of:

- (1) Routine responses not covered under section 805 of this act;
- (2) Management and staff development activities;
- (3) Development of rules and policies and the state-wide plan provided for in RCW 90.48.378 as recodified by this act;
- (4) Facility and vessel plan review and approval, drills, inspections, investigations, enforcement, and litigation;
- (5) Interagency coordination and public outreach and education;
- (6) Collection and administration of the tax provided for in chapter 82.-- RCW (sections 801 through 804, 808, and 809 of this act); and
- (7) Appropriate travel, goods and services, contracts, and equipment.

NEW SECTION. Sec. 807. The director of the department of ecology shall submit a report to the appropriate standing committees of the legislature by November 1 of each even-numbered year showing detailed information regarding expenditures authorized by the director under section 805 of this act. The report shall include, but not be limited to:

- (1) The total amount spent for each response for which the director has approved expenditures and the amount paid for from the spill prevention and response account;
- (2) The amount recovered from a responsible party for each spill;
- (3) The amount of time between a spill and the time a responsible party assumes responsibility for the response costs related to a spill;
- (4) The number of incidents for which the director has determined that the responsible party or another source was available to pay for the response; and
- (5) A recommendation concerning the need to continue collecting the tax under section 802(1) of this act.

This section shall expire December 31, 1996.

NEW SECTION. Sec. 808. The department shall adopt such rules as may be necessary to enforce and administer the provisions of this chapter. Chapter 82.32 RCW applies to the administration, collection, and enforcement of the taxes levied under this chapter.

NEW SECTION. Sec. 809. The taxes imposed in this chapter shall take effect October 1, 1991.

Sec. 810. RCW 90.48.142 and 1989 c 262 s 2 are each amended to read as follows:

(1) Any person who:

(a)(i) Violates any of the provisions of this chapter((;)) or chapter 90.56 RCW;

(ii) Fails to perform any duty imposed by this chapter((;)) or chapter 90.56

RCW;

(iii) Violates an order or other determination of the department or the director made pursuant to the provisions of this chapter((, including)) or chapter 90.56 RCW;

(iv) Violates the conditions of a waste discharge permit issued pursuant to RCW 90.48.160((, and in the course thereof causes the death of, or injury to, fish, animals, vegetation or other resources of the state,)); or

(v) Otherwise causes a reduction in the quality of the state's waters below the standards set by the department or, if no standards have been set, causes significant degradation of water quality, thereby damaging the same((;)); and

(b) Causes the death of, or injury to, fish, animals, vegetation, or other resources of the state;

shall be liable to pay the state and affected counties and cities damages in an amount ((equal to the sum of money necessary to: (a) Restore any damaged resource to its condition prior to the injury, to the extent technically feasible, and compensate for the lost value incurred during the period between injury and restoration; or (b) compensate for the lost value throughout the duration of the injury that the resource previously provided if restoration is not technically feasible and, when only partial restoration is technically feasible, compensate for the remaining lost value. "Technical feasibility" or "technically feasible" shall mean for the purposes of this subsection, that given available technology, a restoration or enhancement project can be successfully completed at a cost that is not disproportionate to the value of the resource prior to the injury.

~~(2) Restoration shall include the cost to restock such waters, replenish or replace such resources, and otherwise restore the stream, lake or other waters of the state, including any estuary, ocean area, submerged lands, shoreline, bank, or other lands adjoining such waters to its condition prior to the injury, as such condition is determined by the department. The lost value of a damaged resource shall be equal to the sum of consumptive, nonconsumptive, and indirect use values, as well as lost taxation, leasing, and licensing revenues. Indirect use values may include existence, bequest, option, and aesthetic values. Damages shall be determined by generally accepted and cost effective procedures.~~

~~(3) Such damages shall be recoverable in an action brought by the attorney general on behalf of the people of the state of Washington in the superior court of Thurston county or the county in which such damages occurred: PROVIDED, That if damages occurred in more than one county the attorney general may bring action in any of the counties where the damages occurred. Any money so recovered by the attorney general shall be transferred to the coastal protection fund established under RCW 90.48.390. A steering committee consisting of representatives of the departments of ecology, fisheries, wildlife, natural resources, and the parks and recreation commission shall authorize the expenditure of the moneys collected under this section after consulting impacted local agencies and local and tribal governments. The department shall chair the steering committee. The moneys collected under this section shall only be used for the following purposes: (a) Environmental restoration and enhancement projects intended to restore or enhance environmental, recreational, or aesthetic resources for the benefit of Washington's citizens; (b) investigations of the long term effects of discharges, including sewer sludge, on state resources; and (c) reimbursement of agencies for reasonable reconnaissance and damage assessment costs under this chapter. Agencies may not be reimbursed under this section for the salaries and benefits of permanent employees for routine operational support. Agencies may only be reimbursed under this section if money for reconnaissance and damage assessment activities is unavailable from other sources. In authorizing restoration or~~

~~enhancement projects, preference shall be given to projects within counties where the injury occurred)) determined pursuant to RCW 90.48.367.~~

(2) No action shall be authorized under this section against any person operating in compliance with the conditions of a waste discharge permit issued pursuant to RCW 90.48.160.

NEW SECTION. Sec. 811. A new section is added to chapter 90.48 RCW to read as follows:

For the purposes of this chapter, "technical feasibility" or "technically feasible" means that given available technology, a restoration or enhancement project can be successfully completed at a cost that is not disproportionate to the value of the resource before the injury.

Sec. 812. RCW 90.48.366 and 1989 c 388 s 2 are each amended to read as follows:

By July 1, 1991, the department, in consultation with the departments of fisheries, wildlife, and natural resources, and the parks and recreation commission, shall adopt rules establishing a compensation schedule for the discharge of oil in violation of ~~((RCW 90.48.320, by persons liable under RCW 90.48.336))~~ this chapter and chapter 90.56 RCW. The department shall establish a scientific advisory board to assist in establishing the compensation schedule. The amount of compensation assessed under this schedule shall be no less than one dollar per gallon of oil spilled and no greater than fifty dollars per gallon of oil spilled. The compensation schedule shall reflect adequate compensation for unquantifiable damages or for damages not quantifiable at reasonable cost for any adverse environmental, recreational, aesthetic, or other effects caused by the ~~((oil))~~ spill and shall take into account:

(1) Characteristics of ~~((the))~~ any oil spilled, such as toxicity, dispersibility, solubility, and persistence, that may affect the severity of the effects on the receiving environment, living organisms, and recreational and aesthetic resources;

(2) The sensitivity of the affected area as determined by such factors as: (a) The location of the spill; (b) habitat and living resource sensitivity; (c) seasonal distribution or sensitivity of living resources; (d) areas of recreational use or aesthetic importance; (e) the proximity of the spill to important habitats for birds, aquatic mammals, fish, or to species listed as threatened or endangered under state or federal law; and (f) other areas of special ecological or recreational importance, as determined by the department; and

(3) Actions taken by the party who spilled ~~((the))~~ oil or any party liable for the spill that: (a) Demonstrate a recognition and affirmative acceptance of responsibility for the spill, such as the immediate removal of oil and the amount of oil removed from the environment; or (b) enhance or impede the detection of the spill, the determination of the ~~((number of gallons))~~ quantity of oil spilled, or the extent of damage, including the unauthorized removal of evidence such as ~~((oiled))~~ injured fish or wildlife.

Sec. 813. RCW 90.48.367 and 1989 c 388 s 3 are each amended to read as follows:

(1) ~~((Prior to assessing compensation under RCW 90.48.366))~~ After a spill or other incident causing damages to the natural resources of the state, the department shall conduct a formal preassessment screening as provided in RCW 90.48.368.

(2) The department shall use the compensation schedule established under RCW 90.48.366 to determine the amount of damages if the preassessment screening committee determines that: (a) Restoration or enhancement of the injured resources is not technically feasible; (b) damages are not quantifiable at a reasonable cost; and (c) the restoration and enhancement projects or studies proposed by the liable parties are insufficient to adequately compensate the people of the state for damages ~~((sustained as a result of the oil spill.~~

~~((2) Compensation shall not be assessed under this section for oil spills for which damages have been or will be assessed under RCW 90.48.142)).~~

(3) If the preassessment screening committee determines that the compensation schedule should not be used, compensation shall be assessed for the amount of money necessary to restore any damaged resource to its condition before the injury, to the extent technically feasible, and compensate for the lost value incurred during the period between injury and restoration.

(4) Restoration shall include the cost to restock such waters, replenish or replace such resources, and otherwise restore the stream, lake, or other waters of the state, including any estuary, ocean area, submerged lands, shoreline, bank, or other lands adjoining such waters to its condition before the injury, as such condition is determined by the department. The lost value of a damaged resource shall be equal to the sum of consumptive, nonconsumptive, and indirect use values, as well as lost taxation, leasing, and licensing revenues. Indirect use values may include existence, bequest, option, and aesthetic values. Damages shall be determined by generally accepted and cost-effective procedures, including, but not limited to, contingent valuation method studies.

(5) Compensation assessed under this section shall be recoverable in an action brought by the attorney general on behalf of the people of the state of Washington and affected counties and cities in the superior court of Thurston county or any county in which damages occurred. Moneys recovered by the attorney general under this section shall be deposited in the coastal protection fund established under RCW 90.48.390, and shall only be used for the purposes stated in RCW 90.48.400.

((4)) (6) Compensation assessed under this section ((for a particular oil spill)) shall preclude claims under this chapter by local governments for compensation for damages to publicly owned resources resulting from the same ((spill)) incident.

Sec. 814. RCW 90.48.368 and 1989 c 388 s 4 are each amended to read as follows:

(1) The department shall adopt rules establishing a formal process for preassessment screening of damages resulting from ((oil)) spills to the waters of the state causing the death of, or injury to, fish, animals, vegetation, or other resources of the state. The rules shall specify the conditions under which the department shall convene a preassessment screening committee. The preassessment screening process shall occur concurrently with reconnaissance activities. The committee shall use information obtained from ((oil spill)) reconnaissance activities as well as any other relevant resource and resource use information. For each ((oil spill)) incident, the committee shall determine whether a damage assessment investigation should be conducted ((under RCW 90.48.142)), or ((alternatively)), whether the compensation schedule authorized under RCW 90.48.366 and 90.48.367 should be used to assess damages. The committee may accept restoration or enhancement projects or studies proposed by the liable parties in lieu of some or all of: (a) the compensation schedule authorized under ((this chapter)) RCW 90.48.366 and 90.48.367; or (b) the claims from damage assessment studies authorized under RCW 90.48.142.

(2) A preassessment screening committee may consist of representatives of the departments of ecology, fisheries, wildlife, natural resources, social and health services, and emergency management, the parks and recreation commission, as well as other federal, state, and local agencies, and tribal and local governments whose presence would enhance the reconnaissance or damage assessment aspects of ((oil)) spill response. The department shall chair the committee and determine which representatives will be needed on a spill-by-spill basis.

(3) The committee shall consider the following factors when determining whether a damage assessment study authorized under RCW ((90.48.142)) 90.48.367 should be conducted: (a) Whether evidence from reconnaissance investigations suggests that injury has occurred or is likely to occur to publicly owned resources; (b) the potential loss in services provided by resources injured or likely to be injured and the expected value of the potential loss; (c) whether a restoration project to return lost

services is technically feasible; (d) the accuracy of damage quantification methods that could be used and the anticipated cost-effectiveness of applying each method; (e) the extent to which likely injury to resources can be verified with available quantification methods; and (f) whether the injury, once quantified, can be translated into monetary values with sufficient precision or accuracy.

(4) When a resource damage assessment is required for an oil spill in the navigable waters of the state, as defined in RCW 90.48.315 as recodified by this 1991 act, the state trustee agency responsible for the resource and habitat damaged shall conduct the damage assessment and pursue all appropriate remedies with the responsible party.

(5) Oil spill damage assessment studies authorized under RCW ~~((90.48.142))~~ 90.48.367 may only be conducted if the committee, after considering the factors enumerated in subsection (3) of this section, determines that the damages to be investigated are quantifiable at a reasonable cost and that proposed assessment studies are clearly linked to quantification of the damages incurred.

~~((5))~~ (6) As new information becomes available, the committee may reevaluate the scope of damage assessment using the factors listed in subsection (3) of this section and may reduce or expand the scope of damage assessment as appropriate.

~~((6))~~ (7) The preassessment screening process shall provide for the ongoing involvement of persons who may be liable for damages resulting from an oil spill. The department may negotiate with a potentially liable party to perform restoration and enhancement projects or studies which may substitute for all or part of the compensation authorized under RCW 90.48.366 and 90.48.367 or the damage assessment studies authorized under RCW ~~((90.48.142))~~ 90.48.367.

~~((7))~~ (8) For the purposes of this section and RCW 90.48.367, the cost of a damage assessment shall be considered "reasonable" when the anticipated cost of the damage assessment is expected to be less than the anticipated damage that may have occurred or may occur.

Sec. 815. RCW 90.48.390 and 1989 c 388 s 7 and 1989 c 262 s 3 are each reenacted and amended to read as follows:

The coastal protection fund is established to be used by the department as a revolving fund for carrying out the purposes of restoration of natural resources under this chapter and chapter 90.56 RCW ~~((90.48.315 through 90.48.365, 78.52.020, 78.52.125, 82.36.330, 90.48.142, 90.48.315, 90.48.370 through 90.48.410, 90.48.903, 90.48.906 and 90.48.907, and 90.48.366 through 90.48.368))~~. Two of ((said)) the appointed commissioners shall be actively engaged in the ownership, operation, or management of deep sea cargo and/or passenger carrying vessels for at least three years immediately preceding the time of appointment and while serving on the board. One of said shipping commissioners shall be a representative of American and one of foreign shipping. One of the commissioners shall be a representative from a recognized environmental organization concerned with marine waters. The remaining commissioners shall be persons interested in and concerned with pilotage, maritime safety, and marine affairs, with broad experience related to the maritime industry exclusive of experience as either a state licensed pilot or as a shipping representative.

(2) Any vacancy in an appointed position on the board shall be filled by the governor for the remainder of the unfilled term, subject to confirmation by the senate.

(3) Four members of the board shall constitute a quorum. At least one pilot, one shipping representative, and one public member must be present at every meeting. All commissioners and the chairperson shall have a vote.

Sec. 1002. RCW 88.16.090 and 1990 c 116 s 27 and 1990 c 112 s 1 are each reenacted and amended to read as follows:

(1) A person may pilot any vessel subject to the provisions of this chapter on waters covered by this chapter only if appointed and licensed to pilot such vessels on said waters under and pursuant to the provisions of this chapter.

(2) A person is eligible to be appointed a pilot if the person is a citizen of the United States, over the age of twenty-five years and under the age of seventy years, a resident of the state of Washington at the time of appointment and only if the pilot applicant holds as a minimum, a United States government license as a master of ocean or near coastal steam or motor vessels of not more than one thousand six hundred gross tons or as a master of inland steam or motor vessels of not more than one thousand six hundred gross tons, such license to have been held by the applicant for a period of at least two years prior such license to have been held by the applicant for a period of at least two years prior to taking the Washington state pilotage examination and a first class United States endorsement without restrictions on that license to pilot in the pilotage districts for which the pilot applicant desires to be licensed, and if the pilot applicant meets such other qualifications as may be required by the board. A person applying for a license under this section shall not have been convicted of an offense involving drugs or the personal consumption of alcohol in the twelve months prior to the date of application. This restriction does not apply to license renewals under this section.

(3) Pilots shall be licensed hereunder for a term of five years from and after the date of the issuance of their respective state licenses. Such licenses shall thereafter be renewed as of course, unless the board shall withhold same for good cause. Each pilot shall pay to the state treasurer an annual license fee established by the board of pilotage commissioners pursuant to chapter 34.05 RCW, but not to exceed one thousand five hundred dollars, to be placed in the state treasury to the credit of the pilotage account. The board may assess partially active or inactive pilots a reduced fee.

(4) Pilot applicants shall be required to pass a written and oral examination administered and graded by the board which shall test such applicants on this chapter, the rules of the board, local harbor ordinances, and such other matters as may be required to compliment the United States examinations and qualifications. The board

shall ~~((conduct the examination on a regular date, as prescribed by rule, at least once every two years))~~ hold examinations at such times as will, in the judgment of the board, ensure the maintenance of an efficient and competent pilotage service. An examination shall be scheduled for the Puget Sound pilotage district if there are three or fewer successful candidates from the previous examination who are waiting to become pilots in that district.

(5) The board shall ~~((have developed five examinations and grading sheets for the Puget Sound pilotage district, and two for each other))~~ develop an examination and grading sheet for each pilotage district, for the testing and grading of pilot applicants. The examinations shall be administered to pilot applicants ((on a random basis)) and shall be updated as required to reflect changes in law, rules, policies, or procedures. The board may appoint a special independent examination committee or may contract with a firm knowledgeable and experienced in the development of professional tests for development of said examinations. Active licensed state pilots may be consulted for the general development of examinations but shall have no knowledge of the specific questions. The pilot members of the board may participate in the grading of examinations. If the board does appoint a special examination development committee it is authorized to pay the members of said committee the same compensation and travel expenses as received by members of the board. When grading examinations the board shall carefully follow the grading sheet prepared for that examination. The board shall develop a "sample examination" which would tend to indicate to an applicant the general types of questions on pilot examinations, but such sample questions shall not appear on any actual examinations. Any person who willfully gives advance knowledge of information contained on a pilot examination is guilty of a gross misdemeanor.

(6) All pilots and applicants are subject to an annual physical examination by a physician chosen by the board. The physician shall examine the applicant's heart, blood pressure, circulatory system, lungs and respiratory system, eyesight, hearing, and such other items as may be prescribed by the board. After consultation with a physician and the United States coast guard, the board shall establish minimum health standards to ensure that pilots licensed by the state are able to perform their duties. Within ninety days of the date of each annual physical examination, and after review of the physician's report, the board shall make a determination of whether the pilot or candidate is fully able to carry out the duties of a pilot under this chapter. The board may in its discretion check with the appropriate authority for any convictions of offenses involving drugs or the personal consumption of alcohol in the prior twelve months.

(7) The board shall prescribe, pursuant to chapter 34.05 RCW, a number of familiarization trips, between a minimum number of twenty-five and a maximum of one hundred, which pilot applicants must make in the pilotage district for which they desire to be licensed. Familiarization trips any particular applicant must make are to be based upon the applicant's vessel handling experience.

(8) The board may ~~((prescribe))~~ require vessel simulator training for a pilot applicant~~((, or))~~ and shall require vessel simulator training for a pilot subject to RCW 88.16.105((, as it deems appropriate, taking into consideration the economic cost of such training, to enhance that person's ability to perform pilotage duties under this chapter)). The board shall also require vessel simulator training in the first year of active duty for a new pilot and at least once every five years for all active pilots.

(9) The board shall prescribe, pursuant to chapter 34.05 RCW, such reporting requirements and review procedures as may be necessary to assure the accuracy and validity of license and service claims, and records of familiarization trips of pilot candidates. Willful misrepresentation of such required information by a pilot candidate shall result in disqualification of the candidate.

(10) The board shall adopt rules to establish time periods and procedures for additional training trips and retesting as necessary for pilots who at the time of their licensing are unable to become active pilots.

Sec. 1003. RCW 88.16.105 and 1987 c 264 s 3 are each amended to read as follows:

The board shall prescribe, pursuant to chapter 34.05 RCW, rules governing the size and type of vessels which a newly licensed pilot may be assigned to pilot on the waters of this state and whether the assignment involves docking or undocking a vessel. The rules shall also prescribe required familiarization trips before a newly licensed pilot may pilot a larger or different type of vessel. Such rules shall be for the first ~~((three))~~ five-year period in which pilots are actually employed.

Sec. 1004. RCW 88.16.110 and 1935 c 18 s 7 are each amended to read as follows:

(1) Every pilot licensed under this chapter shall file with the board not later than the tenth day of January, April, July and October of each year a report for the preceding quarter. Said report shall contain an account of all moneys received for pilotage by him or her or by any other person for ~~((him))~~ the pilot or on ~~((his))~~ the pilot's account or for his or her benefit. Said report shall state the name of each vessel piloted, the amount charged to and/or collected from each vessel, the port of registry of such vessel, its dead weight tonnage, whether it was inward or outward bound, whether the amount so received, collected or charged is in full payment of pilotage and such other information as the board shall by regulation prescribe.

(2) The report shall include information for each vessel that suffers a grounding, collision, or other major marine casualty that occurred while the pilot was on duty during the reporting period. The report shall also include information on near miss incidents as defined in section 423 of this 1991 act. Information concerning near miss incidents provided pursuant to this section shall not be used for imposing any sanctions or penalties. The board shall forward information provided under this subsection to the office of marine safety for inclusion in the collision reporting system established under section 423 of this 1991 act.

Sec. 1005. RCW 88.16.155 and 1977 ex.s. c 337 s 11 are each amended to read as follows:

(3) If the master of a vessel which employs a Washington licensed pilot cannot certify that the vessel complies with subsection (1) of this section and the rules of the board adopted pursuant to subsection (1) of this section, the master shall certify that:

(a) The vessel will comply with subsection (1) of this section before the time the vessel is scheduled to leave the waters of Washington state; and

(b) The coast guard captain of the port was notified of the noncomplying items when they were determined; and

(c) The coast guard captain of the port has authorized the vessel to proceed under such conditions as prescribed by the coast guard pursuant to its authority under federal statutes and regulations.

(7) This section shall not apply to the movement of dead ships. The board shall prescribe pursuant to chapter 34.05 RCW, after consultation with the coast guard and interested persons, for the movement of dead ships and the certification process thereon.

The motion by Senator Amondson carried and the committee striking amendment was not adopted.

MOTION

Senator Amondson moved that the following amendment be adopted:
Strike everything after the enacting clause and insert the following:

"PART I GENERAL PROVISIONS"

Sec. 101. 1990 c 116 s 1 (uncodified) is amended to read as follows:

(1) The legislature ((finds)) declares that the increasing reliance on water borne transportation as a source of supply for oil and hazardous substances poses special concern for the state of Washington. Each year billions of gallons of crude oil and refined petroleum products are transported by vessel on the navigable waters of the state. These shipments are expected to increase in the coming years. Vessels transporting oil into Washington travel on some of the most unique and special marine environments in the United States. These marine environments are a source of natural beauty, recreation, and economic livelihood for many residents of this state. As a result, the state has an obligation to assure the citizens of the state that the waters of the state ((used for water borne transportation)) will be protected from oil spills. ((The legislature declares that this act is the first step in developing a comprehensive approach to protecting this important and unique resource by developing a set of procedures to respond to spills of oil and hazardous substances into the state's waters.))

(2) The legislature ((also)) finds that prevention is the best method to protect the unique and special marine environments in this state. The technology for containing and cleaning up a spill of oil or hazardous substances is in the early stages of development. Preventing spills is more protective of the environment and more cost-effective when all the costs associated with responding to a spill are considered. ~~((The legislature declares that it will continue to develop this first step in a comprehensive approach to protecting our unique and special marine environment by adopting measures in future sessions of the legislature to reduce the likelihood that a spill of oil or hazardous substances will occur.))~~

(3) The legislature also finds that:

(a) Recent accidents in Washington, Alaska, southern California, Texas, and other parts of the nation have shown that the transportation, transfer, and storage of oil have caused significant damage to the marine environment;

(b) Even with the best efforts, it is nearly impossible to remove all oil that is spilled into the water;

(c) Washington's navigable waters are treasured environmental and economic resources that the state cannot afford to place at undue risk from an oil spill; and

(d) The state has a fundamental responsibility, as the trustee of the state's natural resources and the protector of public health and the environment to prevent the spill of oil.

(4) In order to establish a comprehensive prevention and response program to protect Washington's waters and natural resources from spills of oil, it is the purpose of this chapter:

(a) To establish state agency expertise in marine safety and to centralize state activities in spill prevention and response activities;

(b) To prevent spills of oil and to promote programs that reduce the risk of both catastrophic and small chronic spills;

(c) To ensure that responsible parties are liable, and have the resources and ability, to respond to spills and provide compensation for all costs and damages;

(d) To provide for state spill response and wildlife rescue planning and implementation;

(e) To support and complement the federal oil pollution act of 1990 and other federal law, especially those provisions relating to the national contingency plan for cleanup of oil spills and discharges, including provisions relating to the responsibilities of state agencies designated as natural resource trustees. The legislature intends this chapter to be interpreted and implemented in a manner consistent with federal law;

(f) To provide broad powers of regulation to the department of ecology relating to spill prevention and response;

(g) To provide for an independent oversight board to review the adequacy of spill prevention and response activities in this state; and

(h) To provide an adequate funding source for state response and prevention programs.

Sec. 102. RCW 90.48.315 and 1990 c 116 s 2 are each amended to read as follows:

Every act of commission or omission which procures, aids or abets in the violation shall be considered a violation under the provisions of this section and subject to the penalty herein provided for. The penalty herein provided for shall be imposed pursuant to RCW 43.21B.300.

"PART IV OFFICE OF MARINE SAFETY"

NEW SECTION. Sec. 401. The legislature declares that Washington's waters have irreplaceable value for the citizens of the state. These waters are vital habitat for numerous and diverse marine life and wildlife and the source of recreation, aesthetic pleasure, and pride for Washington's citizens. These waters are also vital for much of Washington's economic vitality.

The legislature finds that the transportation of oil on these waters creates a great potential hazard to these important natural resources. The legislature also finds that there is no state agency responsible for maritime safety to ensure this state's interest in preserving these resources.

The legislature therefore finds that in order to protect these waters it is necessary to establish an office of marine safety which will have the responsibility to promote the safety of marine transportation in Washington.

NEW SECTION. Sec. 402. (1) There is hereby created an agency of state government to be known as the office of marine safety. The office shall be vested with all powers and duties transferred to it and such other powers and duties as may be authorized by law. The main administrative office of the office shall be located in the city of Olympia. The administrator may establish administrative facilities in other locations, if deemed necessary for the efficient operation of the office, and if consistent with the principles set forth in subsection (2) of this section.

(2) The office of marine safety shall be organized consistent with the goals of providing state government with a focus in marine transportation and serving the people of this state. The legislature recognizes that the administrator needs sufficient

organizational flexibility to carry out the office's various duties. To the extent practical, the administrator shall consider the following organizational principles:

(a) Clear lines of authority which avoid functional duplication within and between subelements of the office;

(b) A clear and simplified organizational design promoting accessibility, responsiveness, and accountability to the legislature, the consumer, and the general public; and

(c) Maximum span of control without jeopardizing adequate supervision.

(3) The office shall provide leadership and coordination in identifying and resolving threats to the safety of marine transportation and the impact of marine transportation on the environment:

(a) Working with other state agencies and local governments to strengthen the state and local governmental partnership in providing public protection;

(b) Providing expert advice to the executive and legislative branches of state government;

(c) Providing active and fair enforcement of rules;

(d) Working with other federal, state, and local agencies and facilitating their involvement in planning and implementing marine safety measures;

(e) Providing information to the public; and

(f) Carrying out such other related actions as may be appropriate to this purpose.

(4) In accordance with the administrative procedure act, chapter 34.05 RCW, the office shall ensure an opportunity for consultation, review, and comment before the adoption of standards, guidelines, and rules.

(5) Consistent with the principles set forth in subsection (2) of this section, the administrator may create such administrative divisions, offices, bureaus, and programs within the office as the administrator deems necessary. The administrator shall have complete charge of and supervisory powers over the office, except where the administrator's authority is specifically limited by law.

(6) The administrator shall appoint such personnel as are necessary to carry out the duties of the office in accordance with chapter 41.06 RCW.

NEW SECTION. Sec. 403. The executive head and appointing authority of the office shall be the administrator of marine safety. The administrator shall be appointed by, and serve at the pleasure of, the governor in accordance with RCW 43.17.020. The administrator shall be paid a salary to be fixed by the governor in accordance with RCW 43.03.040.

(2) The office shall review the tank vessel inspection programs conducted by the United States coast guard and other federal agencies to determine if the programs as actually operated by those agencies provide the best achievable protection to the waters of the state. If the office determines that the tank vessel inspection programs conducted by these agencies are not adequate to protect the state's waters, it shall adopt rules for a state tank vessel inspection program. The office shall adopt rules providing for a random review of individual tank vessel inspections conducted by federal agencies. The office may accept a tank vessel inspection report issued by another state if that state's tank vessel inspection program is determined by the office to be at least as protective of the public health and the environment as the program adopted by the office.

The spill prevention plan may be consolidated with a spill contingency plan submitted pursuant to section 419 of this act. The office may accept plans prepared to comply with other state or federal law as spill prevention plans to the extent those plans comply with the requirements of this chapter. The office, by rule, shall establish standards for spill prevention plans. The rules shall be adopted not later than July 1, 1992.

(2) The spill prevention plan for a tank vessel or a fleet of tank vessels operated by the same operator shall:

(i) The towing mechanism becomes disabled;

(ii) The towboat towing the barge becomes disabled through occurrences defined in (a) of this subsection.

(c) A near miss incident is an incident that requires the pilot or master of a covered vessel to take evasive actions or make significant course corrections in order to avoid a collision with another ship or to avoid a grounding as required by the international rules of the road.

(5) Failure of any person to make a report under this section shall not be used as the basis for the imposition of any fine or penalty.

NEW SECTION. Sec. 424. REGIONAL MARINE SAFETY COMMITTEES.

(1) The office shall establish regional marine safety committees at least for the Strait of Juan de Fuca/Northern Puget Sound, Southern Puget Sound, and Grays Harbor/Pacific coast. It is the intent of the legislature that the office also establish a regional marine safety committee jointly with the state of Oregon for the Columbia river. The office by rule shall establish the boundaries of the committees.

(2) The administrator shall appoint to each regional committee for a term of three years six persons representing a cross section of interests and the public with an interest in maritime transportation and environmental issues.

(3) The administrator or his or her designee shall chair each of the regional committees. Each member of the committee shall be reimbursed for actual and necessary expenses incurred in the performance of committee duties in accordance with RCW 43.03.250.

(4) Each regional committee shall be responsible for planning for the safe navigation and operation of tankers, barges, and other vessels within each region. Each committee shall prepare a regional marine safety plan, encompassing all vessel traffic within the region. The coast guard, the federal environmental protection agency, the army corps of engineers, and the navy shall be invited to attend the meetings of each marine regional safety committee.

(5) The administrator shall adopt rules and guidelines for regional marine safety plans in consultation with affected parties. The rules shall require the committees to establish subcommittees to involve all interested parties in the development of the plans and to require the committees to include a summary of public comments and any minority reports with recommendations submitted to the administrator. The rules shall also require the plans to consider all of the following:

(a) Requirements for tug escorts of tankers and other commercial vessels, and speed limits for tankers and other vessels in addition to the requirements imposed by statute;

(b) A review and evaluation of the adequacy of and any changes needed in:

(i) Anchorage designations and sounding checks;

(ii) Communications systems;

(iii) Commercial and recreational fishing, recreational boaters, and other small vessel congestion in shipping lanes; and

(iv) Placement and effectiveness of navigational aids, channel design plans, and the traffic and routings from port construction and dredging projects;

(d) Management requirements for control bridges;

(e) Special protection for environmentally sensitive areas;

(f) Suggested mechanisms to ensure that the provisions of the plan are fully and regularly enforced; and

(g) A recommendation as to whether establishing or expanding vessel traffic safety systems within the regions is desirable.

(6) Each regional marine safety plan shall be submitted to the office for approval within one year after the regional marine safety committee is established. The office shall review the plans for consistency with the rules and guidelines and shall approve the plans or give reasons for their disapproval. If a regional marine safety committee does not submit a regional marine safety plan to the office within one year after the committee is established, the office, after consulting with affected interests, may adopt a plan for the region that meets the requirements of subsection (5) of this section.

(7) Upon approval of a plan, the office shall implement those elements of the plan over which the state has authority. If federal authority or action is required, the office shall petition the appropriate agency or congress.

(8) Not later than July 1st of each even-numbered year each regional marine safety committee shall report its findings and recommendations to the marine oversight board established in section 501 of this act and the office concerning vessel traffic safety in its region and any recommendations for improving tanker, barge, and other vessel safety in the region by amending the regional marine safety plan. The regional committees shall also provide technical assistance to the marine oversight board.

NEW SECTION. Sec. 435. If apportionments of budgeted funds are required because of the transfers directed by sections 431 through 434 of this act, the director of financial management shall certify the apportionments to the agencies affected, the state auditor, and the state treasurer. Each of these shall make the appropriate transfer and adjustments in funds and appropriation accounts and equipment records in accordance with the certification.

NEW SECTION. Sec. 436. Nothing contained in sections 430 through 435 of this act may be construed to alter any existing collective bargaining unit or the provisions of any existing collective bargaining agreement until the agreement has expired or until the bargaining unit has been modified by action of the personnel board as provided by law.

The committees shall review standards ((shall address but are not limited to)) for: Wire rope specifications, catenary, the design of related on-board equipment, number of cables, ((and)) back-up or barge retrieval systems in case of cable break, and the operation, maintenance, and inspection of cables and other tow equipment.

~~((The department shall seek voluntary compliance with such standards.~~

~~Finally, the department shall study state jurisdiction over and liability of mandatory compliance with such standards. The department shall report to the appropriate standing committees of the legislature by July 1, 1991, recommendations regarding mandatory compliance with such standards.))~~

The committees shall submit their report to the office within one year after the committees are established. The rules shall include standards for the circumstances under which containment equipment should be deployed. An onshore or offshore facility shall include the procedures used to contain and recover discharges in the facility's contingency plan. It is the responsibility of the person providing bunkering, refueling, or lightering services to provide any containment or recovery equipment required under this section. This section does not apply to a person operating a ship for personal pleasure or for recreational purposes.

"PART V MARINE OVERSIGHT BOARD"

NEW SECTION. Sec. 501. MARINE OVERSIGHT BOARD. (1) The oil marine oversight board is established to provide independent oversight of the actions of the federal government, industry, the department, the office, and other state agencies with respect to oil spill prevention and response for covered vessels and onshore and offshore facilities.

(2)(a) The board may, at its own discretion, study any aspect of oil spill prevention and response for covered vessels and onshore and offshore facilities in the state. The board shall report to the governor and make recommendations to the department and the office on activities of the federal government and industry with respect to oil spill prevention and response for covered vessels and onshore and offshore facilities, including recommendations for the state's response to those actions. The board shall specifically review the need for, and the structure and design of an emergency response system for the Strait of Juan de Fuca and the Pacific coast. The board shall also make recommendations to the legislature and other state agencies on any provision of this chapter, other state laws, and rules, policies, and guidelines adopted by the department, the office, or, other state agencies relating to the prevention and cleanup of oil spills into the waters of the state from covered vessels and onshore and offshore facilities.

(b) To minimize duplication of effort, reviews conducted by the board shall be coordinated with related activities of the federal government, the department, the office, and other appropriate state and international entities. The Puget Sound water quality authority shall ensure that studies and recommendations by the board shall not be duplicated by any recommendations prepared and adopted pursuant to chapter 90.70 RCW after the effective date of this section.

(c) The board shall evaluate and report at least annually to the governor and the appropriate standing committees of the legislature on oil spill prevention, response, and preparedness programs within the state for covered vessels and onshore and offshore facilities.

(3) There shall be five members of the board appointed by the governor for terms of five years. Members' terms shall be staggered. The members of the board shall be representative of the public and shall have demonstrable knowledge of environmental protection and the study of marine ecosystems, or have familiarity with marine transportation systems.

(4) A chair shall be selected by majority vote of the board. The board shall meet as often as required, but at least four times per year. Members shall be

reimbursed for travel and expenses for attending meetings as provided in RCW 43.03.050 and 43.03.060.

(5) The chair may hire staff as necessary for the board to fulfill its responsibilities.

NEW SECTION. Sec. 502. A new section is added to chapter 90.70 RCW to read as follows:

Authority recommendations for oil spill prevention and response shall not be duplicative of those responsibilities given to the marine oversight board under section 501 of this act. The authority may incorporate the findings and recommendations of the marine oversight board into the plan or revisions of the plan submitted to the United States environmental protection agency pursuant to the federal clean water act, 33 U.S.C. Sec. 1330.

"PART VI TANKER REQUIREMENTS"

Sec. 601. RCW 88.16.170 and 1975 1st ex.s. c 125 s 1 are each amended to read as follows:

Because of the danger of spills, the legislature finds that the transportation of crude oil and refined petroleum products by tankers on the Columbia river and on Puget Sound and adjacent waters creates a great potential hazard to important natural resources of the state and to jobs and incomes dependent on these resources.

The legislature recognizes that the Columbia river has many natural obstacles to navigation and shifting navigation channels that create the risk of an oil spill. The legislature also recognizes Puget Sound and adjacent waters are a relatively confined salt water environment with irregular shorelines and therefore there is a greater than usual likelihood of long-term damage from any large oil spill.

The legislature further recognizes that certain areas of the Columbia river and Puget Sound and adjacent waters have limited space for maneuvering a large oil tanker and that these waters contain many natural navigational obstacles as well as a high density of commercial and pleasure boat traffic.

For these reasons, it is important that large oil tankers be piloted by highly skilled persons who are familiar with local waters and that such tankers have sufficient capability for rapid maneuvering responses.

It is therefore the intent and purpose of RCW 88.16.180 and 88.16.190 to decrease the likelihood of oil spills on the Columbia river and on Puget Sound and its shorelines by requiring all oil tankers above a certain size to employ ((Washington state)) licensed pilots and ~~((if lacking certain safety and maneuvering capability requirements,))~~ to be escorted by a tug or tugs while navigating on certain areas of Puget Sound and adjacent waters.

Sec. 602. RCW 88.16.180 and 1983 c 3 s 231 are each amended to read as follows:

Notwithstanding the provisions of RCW 88.16.070, any registered oil tanker ~~((whether enrolled or registered,))~~ of ~~((fifty))~~ five thousand ~~((deadweight))~~ gross tons or greater, shall be required:

(1) To take a Washington state licensed pilot while navigating Puget Sound and adjacent waters and shall be liable for and pay pilotage rates pursuant to RCW 88.16.035; and

(2) To take a licensed pilot while navigating the Columbia river.

Sec. 603. RCW 88.16.200 and 1977 ex.s. c 337 s 16 are each amended to read as follows:

Any vessel designed for the purpose of carrying as its cargo liquefied natural or propane gas shall adhere to the provisions of RCW 88.16.190(2) as though it ~~((was))~~ were an oil tanker.

NEW SECTION. Sec. 604. RECKLESS OPERATION OF A VESSEL. (1) A person commits the crime of reckless operation of a tank vessel if, while (a) navigating a tank vessel, (b) piloting a tank vessel, or (c) on the vessel control bridge and in control of the motion, direction, or speed of a tank vessel, the person, with recklessness as defined in RCW 9A.08.010, causes a release of oil.

(2) Reckless operation of a tank vessel is a class C felony under chapter 9A.20 RCW.

NEW SECTION. Sec. 605. OPERATION OF A VESSEL WHILE UNDER INFLUENCE OF LIQUOR OR DRUGS. (1) A person is guilty of operating a vessel while under the influence of intoxicating liquor or drugs if the person operates a covered vessel within this state while:

(a) The person has 0.06 grams or more of alcohol per two hundred ten liters of breath, as shown by analysis of the person's breath made under section 606 of this act; or

(b) The person has 0.06 percent or more by weight of alcohol in the person's blood as shown by analysis of the person's blood made under section 606 of this act; or

(c) The person is under the influence of or affected by intoxicating liquor or drugs; or

(d) The person is under the combined influence of or affected by intoxicating liquor or drugs.

(2) The fact that any person charged with a violation of this section is or has been entitled to use such drug under the laws of this state shall not constitute a defense against any charge of violating this section.

(3) Operating a vessel while intoxicated is a class C felony under chapter 9A.20 RCW.

NEW SECTION. Sec. 606. BREATH OR BLOOD ANALYSIS. (1) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by a person while operating a vessel while under the influence of intoxicating liquor or drugs, if the amount of alcohol in the person's blood or breath at the time alleged as shown by analysis of his blood or breath is less than 0.06 percent by weight of alcohol in his blood or 0.06 grams of alcohol per two hundred ten liters of the person's breath, it is evidence that may be considered with other competent evidence in determining whether the person was under the influence of intoxicating liquor or drugs.

(2) The breath analysis shall be based upon grams of alcohol per two hundred ten liters of breath. The foregoing provisions of this section shall not be construed as limiting the introduction of any other competent evidence bearing upon the question whether the person was under the influence of intoxicating liquor or any drug.

(3) Analysis of the person's blood or breath to be considered valid under this section shall have been performed according to methods approved by the state toxicologist and by an individual possessing a valid permit issued by the state toxicologist for this purpose. The state toxicologist shall approve satisfactory techniques or methods, to supervise the examination of individuals to ascertain their qualifications and competence to conduct such analyses, and to issue permits that are subject to termination or revocation at the discretion of the state toxicologist.

(4) If a blood test is administered under this section, the withdrawal of blood for the purpose of determining its alcoholic content may be performed only by a physician, a registered nurse, or a qualified technician. This limitation shall not apply to the taking of breath specimens.

(5) The person tested may have a physician, or a qualified technician, chemist, registered nurse, or other qualified person of his or her own choosing administer one or more tests in addition to any administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person shall not

preclude the admission of evidence relating to the test or tests taken at the direction of a law enforcement officer.

(6) Upon the request of the person who submits to a test or tests at the request of a law enforcement officer, full information concerning the test or tests shall be made available to the person or his or her attorney.

NEW SECTION. Sec. 607. LIMITED IMMUNITY FOR BLOOD WITHDRAWAL. No physician, registered nurse, qualified technician, or hospital, or duly licensed clinical laboratory employing or using services of the physician, registered nurse, or qualified technician, may incur any civil or criminal liability as a result of the act of withdrawing blood from any person when directed by a law enforcement officer to do so for the purpose of a blood test under section 606 of this act. This section shall not relieve any physician, registered nurse, qualified technician, or hospital or duly licensed clinical laboratory from civil liability arising from the use of improper procedures or failing to exercise the required standard of care.

NEW SECTION. Sec. 704. An onshore or offshore facility shall demonstrate financial responsibility in an amount determined by the department as necessary to compensate the state and affected counties and cities for damages that might occur during a reasonable worst case spill of oil from that facility into the navigable waters of the state. The department shall consider such matters as the amount of oil that could be spilled into the navigable waters from the facility, the cost of cleaning up the spilled oil, the frequency of operations at the facility, the damages that could result from the spill and the commercial availability and affordability of financial responsibility. A covered vessel is not required to file documentation of financial responsibility twenty-four hours before entry of the vessel into the navigable waters of the state, if the vessel has filed documentation of financial responsibility with the federal government, and the level of financial responsibility required by the federal government is the same as or exceeds state requirements. The owner or operator of the vessel may file with the office a certificate evidencing compliance with the requirements of another state's or federal financial responsibility requirements if the state or federal government requires a level of financial responsibility the same as or greater than that required under this chapter.

Sec. 706. RCW 88.40.040 and 1989 1st ex.s. c 2 s 5 are each amended to read as follows:

(4) "Marine terminal" means a facility of any kind, other than a waterborne vessel, that is used for transferring crude oil or petroleum products to or from a waterborne vessel or barge.

(5) "Navigable waters" means those waters of the state and their adjoining shorelines that are subject to the ebb and flow of the tide, including the Columbia and Snake rivers.

(6) "Person" has the meaning provided in RCW 82.04.030.

(7) "Petroleum product" means any liquid hydrocarbons at atmospheric temperature and pressure that are the product of the fractionation, distillation, or other refining or processing of crude oil, and that are used as, useable as, or may be refined as a fuel or fuel blendstock, including but not limited to, gasoline, diesel fuel, aviation fuel, bunker fuel, and fuels containing a blend of alcohol and petroleum.

(8) "Taxpayer" means the person owning crude oil or petroleum products immediately before the same are off-loaded at a marine terminal in this state and who is liable for the taxes imposed by this chapter.

(9) "Waterborne vessel or barge" means any ship, barge, or other watercraft capable of travelling on the navigable waters of this state and capable of transporting any crude oil or petroleum product in quantities of ten thousand gallons or more for purposes other than providing fuel for its motor or engine.

NEW SECTION. Sec. 802. (1) An oil spill response tax is imposed on the privilege of off-loading crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately before off-loading begins at the rate of two cents per barrel of crude oil or petroleum product off-loaded.

(2) In addition to the tax imposed in subsection (1) of this section, an oil spill administration tax is imposed on the privilege of off-loading crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately before off-loading begins at the rate of three cents per barrel of crude oil or petroleum product off-loaded.

(3) The taxes imposed by this chapter shall be collected by the marine terminal operator from the owner of the crude oil or petroleum products off-loaded at the marine terminal. If any person charged with collecting the taxes fails to bill the taxpayer for the taxes, or in the alternative has not notified the taxpayer in writing of the imposition of the taxes, or having collected the taxes, fails to pay them to the department in the manner prescribed by this chapter, whether such failure is the result of the person's own acts or the result of acts or conditions beyond the person's control, he or she shall, nevertheless, be personally liable to the state for the amount of the taxes. Payment of the taxes by the owner to a marine terminal operator shall relieve the owner from further liability for the taxes.

(4) Taxes collected under this chapter shall be held in trust until paid to the department. Any person collecting the taxes who appropriates or converts the taxes collected shall be guilty of a gross misdemeanor if the money required to be collected is not available for payment on the date payment is due. The taxes required by this chapter to be collected shall be stated separately from other charges made by the marine terminal operator in any invoice or other statement of account provided to the taxpayer.

(5) If a taxpayer fails to pay the taxes imposed by this chapter to the person charged with collection of the taxes and the person charged with collection fails to pay the taxes to the department, the department may, in its discretion, proceed directly against the taxpayer for collection of the taxes.

(6) The taxes shall be due from the marine terminal operator, along with reports and returns on forms prescribed by the department, within twenty-five days after the end of the month in which the taxable activity occurs.

(7) The amount of taxes, until paid by the taxpayer to the marine terminal operator or to the department, shall constitute a debt from the taxpayer to the marine terminal operator. Any person required to collect the taxes under this chapter who, with intent to violate the provisions of this chapter, fails or refuses to do so as required and any taxpayer who refuses to pay any taxes due under this chapter, shall be guilty of a misdemeanor as provided in chapter 9A.20 RCW.

(8) Upon prior approval of the department, the owner of crude oil or petroleum products off-loaded in this state may pay the taxes imposed by this chapter directly to the department. The department shall give its approval for direct payment under this section whenever it appears, in the department's judgment, that direct payment will

enhance the administration of the taxes imposed under this chapter. The department shall provide by rule for the issuance of a direct payment certificate to any taxpayer qualifying for direct payment of the taxes. Good faith acceptance of a direct payment certificate by a terminal operator shall relieve the marine terminal operator from any liability for the collection or payment of the taxes imposed under this chapter.

(9) All receipts from the tax imposed in subsection (1) of this section shall be deposited into the state oil spill response account. All receipts from the tax imposed in subsection (2) of this section shall be deposited into the state oil spill administration account.

(10) Within forty-five days after the end of each calendar quarter, the office of financial management shall determine the balance of the oil spill response account as of the last day of that calendar quarter. Balance determinations by the office of financial management under this section are final and shall not be used to challenge the validity of any tax imposed under this chapter. The office of financial management shall promptly notify the departments of revenue and ecology of the account balance once a determination is made. For each subsequent calendar quarter, the tax imposed by subsection (1) of this section shall be imposed during the entire calendar quarter unless:

(a) Tax was imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than twenty-five million dollars; or

(b) Tax was not imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than fifteen million dollars.

(11) The office of marine safety, the department of revenue, and the department of trade and economic development shall study tax credits for taxpayers employing vessels with the best achievable technology and the best available protection to reduce the risk of oil spills to the navigable waters of the state and submit the study to the appropriate standing committees of the legislature by December 1, 1992.

NEW SECTION. Sec. 803. The taxes imposed under this chapter shall only apply to the first off-loading of crude oil or petroleum products at a marine terminal in this state and not to the later transporting and subsequent off-loading of the same oil or petroleum product, whether in the form originally off-loaded in this state or after refining or other processing.

NEW SECTION. Sec. 804. Credit shall be allowed against the taxes imposed under this chapter for any crude oil or petroleum products off-loaded at a marine terminal and subsequently exported from or sold for export from the state.

NEW SECTION. Sec. 805. The state oil spill response account is created in the state treasury. All receipts from section 802(1) of this act shall be deposited in the account. All costs reimbursed to the state by a responsible party or any other person for responding to a spill of oil shall also be deposited in the account. Moneys in the account shall be spent only after appropriation. The account is subject to allotment procedures under chapter 43.88 RCW. The account shall be used exclusively to pay for the costs associated with the response to spills of crude oil or petroleum products into the navigable waters of the state. Payment of response costs under this section shall be limited to spills which the director has determined are likely to exceed fifty thousand dollars. Before expending moneys from the account, the director shall make reasonable efforts to obtain funding for response costs from the person responsible for the spill and from other sources, including the federal government. Reimbursement for response costs shall be allowed only for costs which are not covered by funds appropriated to the agencies responsible for response activities. Costs associated with the response to spills of crude oil or petroleum products shall include:

(1) Natural resource damage assessment and related activities;

(2) Spill related response, containment, wildlife rescue, cleanup, disposal, and associated costs;

(3) Interagency coordination and public information related to a response; and
 (4) Appropriate travel, goods and services, contract, and equipment.

NEW SECTION. Sec. 806. The state oil spill administration account is created in the state treasury. All receipts from section 802(2) of this act shall be deposited in the account. Moneys from the account may be spent only after appropriation. The account is subject to allotment procedures under chapter 43.88 RCW. On July 1 of each odd-numbered year, if receipts deposited in the account from the tax imposed by section 802(2) of this act for the previous fiscal biennium exceed the amount appropriated from the account for the previous fiscal biennium, the state treasurer shall transfer the amount of receipts exceeding the appropriation to the oil spill response account. If, on the first day of any calendar month, the balance of the spill response account is greater than twenty-five million dollars and the balance of the administration account exceeds the unexpended appropriation for the current biennium, then the tax under section 802(2) of this act shall be suspended on the first day of the next calendar month until the beginning of the following biennium, provided that the tax shall not be suspended during the last six months of the biennium. If the tax imposed under section 802(2) of this act is suspended during two consecutive biennia, the department shall by November 1st after the end of the second biennium, recommend to the appropriate standing committees an adjustment in the tax rate. For the period 1991-93 the state treasurer may transfer funds from the oil spill response account to the oil spill administration account in amounts necessary to support appropriations made from the oil spill administration account in the omnibus appropriations act. Expenditures from the oil spill administration account shall be used exclusively for the administrative costs related to the purposes of this chapter, and chapters 90.48, 88.40, and 88.-- (sections 414 through 436 of this act) RCW. Costs of administration include the costs of:

(1) Routine responses not covered under section 805 of this act;

(2) Management and staff development activities;

(3) Development of rules and policies and the state-wide plan provided for in RCW 90.48.378 as recodified by this act;

(4) Facility and vessel plan review and approval, drills, inspections, investigations, enforcement, and litigation;

(5) Interagency coordination and public outreach and education;

(6) Collection and administration of the tax provided for in chapter 82.-- RCW (sections 801 through 804, 808, and 809 of this act); and

(7) Appropriate travel, goods and services, contracts, and equipment.

NEW SECTION. Sec. 807. The director of the department of ecology shall submit a report to the appropriate standing committees of the legislature by November 1 of each even-numbered year showing detailed information regarding expenditures authorized by the director under section 805 of this act. The report shall include, but not be limited to:

(1) The total amount spent for each response for which the director has approved expenditures and the amount paid for from the spill prevention and response account;

(2) The amount recovered from a responsible party for each spill;

(3) The amount of time between a spill and the time a responsible party assumes responsibility for the response costs related to a spill;

(4) The number of incidents for which the director has determined that the responsible party or another source was available to pay for the response; and

(5) A recommendation concerning the need to continue collecting the tax under section 802(1) of this act.

This section shall expire December 31, 1996.

NEW SECTION. **Sec. 808.** The department shall adopt such rules as may be necessary to enforce and administer the provisions of this chapter. Chapter 82.32 RCW applies to the administration, collection, and enforcement of the taxes levied under this chapter.

NEW SECTION. **Sec. 809.** The taxes imposed in this chapter shall take effect October 1, 1991.

Sec. 810. RCW 90.48.142 and 1989 c 262 s 2 are each amended to read as follows:

(1) Any person who:

(a)(i) Violates any of the provisions of this chapter((;)) or chapter 90.56 RCW;

(ii) Fails to perform any duty imposed by this chapter((;)) or chapter 90.56

RCW;

(iii) Violates an order or other determination of the department or the director made pursuant to the provisions of this chapter((--including)) or chapter 90.56 RCW;

(iv) Violates the conditions of a waste discharge permit issued pursuant to RCW 90.48.160((; and in the course thereof causes the death of, or injury to, fish, animals, vegetation or other resources of the state,)); or

(v) Otherwise causes a reduction in the quality of the state's waters below the standards set by the department or, if no standards have been set, causes significant degradation of water quality, thereby damaging the same((;)); and

(b) Causes the death of, or injury to, fish, animals, vegetation, or other resources of the state; shall be liable to pay the state and affected counties and cities damages in an amount ((equal to the sum of money necessary to: (a) Restore any damaged resource to its condition prior to the injury, to the extent technically feasible, and compensate for the lost value incurred during the period between injury and restoration; or (b) compensate for the lost value throughout the duration of the injury that the resource previously provided if restoration is not technically feasible and, when only partial restoration is technically feasible, compensate for the remaining lost value. "Technical feasibility" or "technically feasible" shall mean for the purposes of this subsection, that given available technology, a restoration or enhancement project can be successfully completed at a cost that is not disproportionate to the value of the resource prior to the injury.

~~(2) Restoration shall include the cost to restock such waters, replenish or replace such resources, and otherwise restore the stream, lake or other waters of the state, including any estuary, ocean area, submerged lands, shoreline, bank, or other lands adjoining such waters to its condition prior to the injury, as such condition is determined by the department. The lost value of a damaged resource shall be equal to the sum of consumptive, nonconsumptive, and indirect use values, as well as lost taxation, leasing, and licensing revenues. Indirect use values may include existence, bequest, option, and aesthetic values. Damages shall be determined by generally accepted and cost effective procedures.~~

~~(3) Such damages shall be recoverable in an action brought by the attorney general on behalf of the people of the state of Washington in the superior court of Thurston county or the county in which such damages occurred: PROVIDED, That if damages occurred in more than one county the attorney general may bring action in any of the counties where the damages occurred. Any money so recovered by the attorney general shall be transferred to the coastal protection fund established under RCW 90.48.390. A steering committee consisting of representatives of the departments of ecology, fisheries, wildlife, natural resources, and the parks and recreation commission shall authorize the expenditure of the moneys collected under this section after consulting impacted local agencies and local and tribal governments. The department shall chair the steering committee. The moneys collected under this section shall only be used for the following purposes: (a) Environmental restoration and enhancement projects intended to restore or enhance environmental, recreational, or~~

~~aesthetic resources for the benefit of Washington's citizens; (b) investigations of the long term effects of discharges, including sewer sludge, on state resources; and (c) reimbursement of agencies for reasonable reconnaissance and damage assessment costs under this chapter. Agencies may not be reimbursed under this section for the salaries and benefits of permanent employees for routine operational support. Agencies may only be reimbursed under this section if money for reconnaissance and damage assessment activities is unavailable from other sources. In authorizing restoration or enhancement projects, preference shall be given to projects within counties where the injury occurred)) determined pursuant to RCW 90.48.367.~~

(2) No action shall be authorized under this section against any person operating in compliance with the conditions of a waste discharge permit issued pursuant to RCW 90.48.160.

NEW SECTION. **Sec. 811.** A new section is added to chapter 90.48 RCW to read as follows:

For the purposes of this chapter, "technical feasibility" or "technically feasible" means that given available technology, a restoration or enhancement project can be successfully completed at a cost that is not disproportionate to the value of the resource before the injury.

Sec. 812. RCW 90.48.366 and 1989 c 388 s 2 are each amended to read as follows:

By July 1, 1991, the department, in consultation with the departments of fisheries, wildlife, and natural resources, and the parks and recreation commission, shall adopt rules establishing a compensation schedule for the discharge of oil in violation of ~~((RCW 90.48.320, by persons liable under RCW 90.48.336))~~ this chapter and chapter 90.56 RCW. The department shall establish a scientific advisory board to assist in establishing the compensation schedule. The amount of compensation assessed under this schedule shall be no less than one dollar per gallon of oil spilled and no greater than fifty dollars per gallon of oil spilled. The compensation schedule shall reflect adequate compensation for unquantifiable damages or for damages not quantifiable at reasonable cost for any adverse environmental, recreational, aesthetic, or other effects caused by the ~~((oil))~~ spill and shall take into account:

(1) Characteristics of ~~((the))~~ any oil spilled, such as toxicity, dispersibility, solubility, and persistence, that may affect the severity of the effects on the receiving environment, living organisms, and recreational and aesthetic resources;

(2) The sensitivity of the affected area as determined by such factors as: (a) The location of the spill; (b) habitat and living resource sensitivity; (c) seasonal distribution or sensitivity of living resources; (d) areas of recreational use or aesthetic importance; (e) the proximity of the spill to important habitats for birds, aquatic mammals, fish, or to species listed as threatened or endangered under state or federal law; and (f) other areas of special ecological or recreational importance, as determined by the department; and

(3) Actions taken by the party who spilled ~~((the))~~ oil or any party liable for the spill that: (a) Demonstrate a recognition and affirmative acceptance of responsibility for the spill, such as the immediate removal of oil and the amount of oil removed from the environment; or (b) enhance or impede the detection of the spill, the determination of the ~~((number of gallons))~~ quantity of oil spilled, or the extent of damage, including the unauthorized removal of evidence such as ~~((oiled))~~ injured fish or wildlife.

Sec. 813. RCW 90.48.367 and 1989 c 388 s 3 are each amended to read as follows:

(1) ~~((Prior to assessing compensation under RCW 90.48.366))~~ After a spill or other incident causing damages to the natural resources of the state, the department shall conduct a formal preassessment screening as provided in RCW 90.48.368.

(2) The department shall use the compensation schedule established under RCW 90.48.366 to determine the amount of damages if the preassessment screening committee determines that: (a) Restoration or enhancement of the injured resources is not technically feasible; (b) damages are not quantifiable at a reasonable cost; and (c) the restoration and enhancement projects or studies proposed by the liable parties are insufficient to adequately compensate the people of the state for damages ~~((sustained as a result of the oil spill.~~

~~(2) Compensation shall not be assessed under this section for oil spills for which damages have been or will be assessed under RCW 90.48.142).~~

(3) If the preassessment screening committee determines that the compensation schedule should not be used, compensation shall be assessed for the amount of money necessary to restore any damaged resource to its condition before the injury, to the extent technically feasible, and compensate for the lost value incurred during the period between injury and restoration.

(4) Restoration shall include the cost to restock such waters, replenish or replace such resources, and otherwise restore the stream, lake, or other waters of the state, including any estuary, ocean area, submerged lands, shoreline, bank, or other lands adjoining such waters to its condition before the injury, as such condition is determined by the department. The lost value of a damaged resource shall be equal to the sum of consumptive, nonconsumptive, and indirect use values, as well as lost taxation, leasing, and licensing revenues. Indirect use values may include existence, bequest, option, and aesthetic values. Damages shall be determined by generally accepted and cost-effective procedures, including, but not limited to, contingent valuation method studies.

(5) Compensation assessed under this section shall be recoverable in an action brought by the attorney general on behalf of the people of the state of Washington and affected counties and cities in the superior court of Thurston county or any county in which damages occurred. Moneys recovered by the attorney general under this section shall be deposited in the coastal protection fund established under RCW 90.48.390, and shall only be used for the purposes stated in RCW 90.48.400.

~~((4))~~ (6) Compensation assessed under this section ~~((for a particular oil spill))~~ shall preclude claims under this chapter by local governments for compensation for damages to publicly owned resources resulting from the same ~~((spill))~~ incident.

Sec. 814. RCW 90.48.368 and 1989 c 388 s 4 are each amended to read as follows:

(1) The department shall adopt rules establishing a formal process for preassessment screening of damages resulting from ~~((oil))~~ spills to the waters of the state causing the death of, or injury to, fish, animals, vegetation, or other resources of the state. The rules shall specify the conditions under which the department shall convene a preassessment screening committee. The preassessment screening process shall occur concurrently with reconnaissance activities. The committee shall use information obtained from ~~((oil spill))~~ reconnaissance activities as well as any other relevant resource and resource use information. For each ~~((oil spill))~~ incident, the committee shall determine whether a damage assessment investigation should be conducted ~~((under RCW 90.48.142)),~~ or ~~((alternatively)),~~ whether the compensation schedule authorized under RCW 90.48.366 and 90.48.367 should be used to assess damages. The committee may accept restoration or enhancement projects or studies proposed by the liable parties in lieu of some or all of: (a) The compensation schedule authorized under ~~((this chapter))~~ RCW 90.48.366 and 90.48.367; or (b) the claims from damage assessment studies authorized under RCW 90.48.142.

(2) A preassessment screening committee may consist of representatives of the departments of ecology, fisheries, wildlife, natural resources, social and health services, and emergency management, the parks and recreation commission, as well as other federal, state, and local agencies, and tribal and local governments whose presence

would enhance the reconnaissance or damage assessment aspects of ~~((oil))~~ spill response. The department shall chair the committee and determine which representatives will be needed on a spill-by-spill basis.

(3) The committee shall consider the following factors when determining whether a damage assessment study authorized under RCW ~~((90.48.142))~~ 90.48.367 should be conducted: (a) Whether evidence from reconnaissance investigations suggests that injury has occurred or is likely to occur to publicly owned resources; (b) the potential loss in services provided by resources injured or likely to be injured and the expected value of the potential loss; (c) whether a restoration project to return lost services is technically feasible; (d) the accuracy of damage quantification methods that could be used and the anticipated cost-effectiveness of applying each method; (e) the extent to which likely injury to resources can be verified with available quantification methods; and (f) whether the injury, once quantified, can be translated into monetary values with sufficient precision or accuracy.

(4) When a resource damage assessment is required for an oil spill in the navigable waters of the state, as defined in RCW 90.48.315 as recodified by this 1991 act, the state trustee agency responsible for the resource and habitat damaged shall conduct the damage assessment and pursue all appropriate remedies with the responsible party.

(5) Oil spill damage assessment studies authorized under RCW ~~((90.48.142))~~ 90.48.367 may only be conducted if the committee, after considering the factors enumerated in subsection (3) of this section, determines that the damages to be investigated are quantifiable at a reasonable cost and that proposed assessment studies are clearly linked to quantification of the damages incurred.

~~((5))~~ (6) As new information becomes available, the committee may reevaluate the scope of damage assessment using the factors listed in subsection (3) of this section and may reduce or expand the scope of damage assessment as appropriate.

~~((6))~~ (7) The preassessment screening process shall provide for the ongoing involvement of persons who may be liable for damages resulting from an oil spill. The department may negotiate with a potentially liable party to perform restoration and enhancement projects or studies which may substitute for all or part of the compensation authorized under RCW 90.48.366 and 90.48.367 or the damage assessment studies authorized under RCW ~~((90.48.142))~~ 90.48.367.

~~((7))~~ (8) For the purposes of this section and RCW 90.48.367, the cost of a damage assessment shall be considered "reasonable" when the anticipated cost of the damage assessment is expected to be less than the anticipated damage that may have occurred or may occur.

Sec. 815. RCW 90.48.390 and 1989 c 388 s 7 and 1989 c 262 s 3 are each reenacted and amended to read as follows:

The coastal protection fund is established to be used by the department as a revolving fund for carrying out the purposes of restoration of natural resources under this chapter and chapter 90.56 RCW ~~((90.48.315 through 90.48.365, 78.52.020, 78.52.125, 82.36.330, 90.48.142, 90.48.315, 90.48.370 through 90.48.410, 90.48.903, 90.48.906 and 90.48.907, and 90.48.366 through 90.48.368))~~. The remaining commissioners shall be persons interested in and concerned with pilotage, maritime safety, and marine affairs, with broad experience related to the maritime industry exclusive of experience as either a state licensed pilot or as a shipping representative.

(2) Any vacancy in an appointed position on the board shall be filled by the governor for the remainder of the unfilled term, subject to confirmation by the senate.

(3) ~~((Four))~~ Five members of the board shall constitute a quorum. At least one pilot, one shipping representative, and one public member must be present at every meeting. All commissioners and the chairperson shall have a vote.

Sec. 1002. RCW 88.16.090 and 1990 c 116 s 27 and 1990 c 112 s 1 are each reenacted and amended to read as follows:

(1) A person may pilot any vessel subject to the provisions of this chapter on waters covered by this chapter only if appointed and licensed to pilot such vessels on said waters under and pursuant to the provisions of this chapter.

(2) A person is eligible to be appointed a pilot if the person is a citizen of the United States, over the age of twenty-five years and under the age of seventy years, a resident of the state of Washington at the time of appointment and only if the pilot applicant holds as a minimum, a United States government license as a master of ocean or near coastal steam or motor vessels of not more than one thousand six hundred gross tons or as a master of inland steam or motor vessels of not more than one thousand six hundred gross tons, such license to have been held by the applicant for a period of at least two years prior such license to have been held by the applicant for a period of at least two years prior to taking the Washington state pilotage examination and a first class United States endorsement without restrictions on that license to pilot in the pilotage districts for which the pilot applicant desires to be

licensed, and if the pilot applicant meets such other qualifications as may be required by the board. A person applying for a license under this section shall not have been convicted of an offense involving drugs or the personal consumption of alcohol in the twelve months prior to the date of application. This restriction does not apply to license renewals under this section.

(3) Pilots shall be licensed hereunder for a term of five years from and after the date of the issuance of their respective state licenses. Such licenses shall thereafter be renewed as of course, unless the board shall withhold same for good cause. Each pilot shall pay to the state treasurer an annual license fee established by the board of pilotage commissioners pursuant to chapter 34.05 RCW, but not to exceed one thousand five hundred dollars, to be placed in the state treasury to the credit of the pilotage account. The board may assess partially active or inactive pilots a reduced fee.

(4) Pilot applicants shall be required to pass a written and oral examination administered and graded by the board which shall test such applicants on this chapter, the rules of the board, local harbor ordinances, and such other matters as may be required to complement the United States examinations and qualifications. The board shall ~~((conduct the examination on a regular date, as prescribed by rule, at least once every two years))~~ hold examinations at such times as will, in the judgment of the board, ensure the maintenance of an efficient and competent pilotage service. An examination shall be scheduled for the Puget Sound pilotage district if there are three or fewer successful candidates from the previous examination who are waiting to become pilots in that district.

(5) The board shall ~~((have developed five examinations and grading sheets for the Puget Sound pilotage district, and two for each other))~~ develop an examination and grading sheet for each pilotage district, for the testing and grading of pilot applicants. The examinations shall be administered to pilot applicants ~~((on a random basis))~~ and shall be updated as required to reflect changes in law, rules, policies, or procedures. The board may appoint a special independent examination committee or may contract with a firm knowledgeable and experienced in the development of professional tests for development of said examinations. Active licensed state pilots may be consulted for the general development of examinations but shall have no knowledge of the specific questions. The pilot members of the board may participate in the grading of examinations. If the board does appoint a special examination development committee it is authorized to pay the members of said committee the same compensation and travel expenses as received by members of the board. When grading examinations the board shall carefully follow the grading sheet prepared for that examination. The board shall develop a "sample examination" which would tend to indicate to an applicant the general types of questions on pilot examinations, but such sample questions shall not appear on any actual examinations. Any person who willfully gives advance knowledge of information contained on a pilot examination is guilty of a gross misdemeanor.

(6) All pilots and applicants are subject to an annual physical examination by a physician chosen by the board. The physician shall examine the applicant's heart, blood pressure, circulatory system, lungs and respiratory system, eyesight, hearing, and such other items as may be prescribed by the board. After consultation with a physician and the United States coast guard, the board shall establish minimum health standards to ensure that pilots licensed by the state are able to perform their duties. Within ninety days of the date of each annual physical examination, and after review of the physician's report, the board shall make a determination of whether the pilot or candidate is fully able to carry out the duties of a pilot under this chapter. The board may in its discretion check with the appropriate authority for any convictions of offenses involving drugs or the personal consumption of alcohol in the prior twelve months.

(7) The board shall prescribe, pursuant to chapter 34.05 RCW, a number of familiarization trips, between a minimum number of twenty-five and a maximum of one hundred, which pilot applicants must make in the pilotage district for which they desire to be licensed. Familiarization trips any particular applicant must make are to be based upon the applicant's vessel handling experience.

(8) The board may (~~prescribe~~) require vessel simulator training for a pilot applicant(~~, or~~) and shall require vessel simulator training for a pilot subject to RCW 88.16.105(~~, as it deems appropriate, taking into consideration the economic cost of such training, to enhance that person's ability to perform pilotage duties under this chapter~~). The board shall also require vessel simulator training in the first year of active duty for a new pilot and at least once every five years for all active pilots.

(9) The board shall prescribe, pursuant to chapter 34.05 RCW, such reporting requirements and review procedures as may be necessary to assure the accuracy and validity of license and service claims, and records of familiarization trips of pilot candidates. Willful misrepresentation of such required information by a pilot candidate shall result in disqualification of the candidate.

(10) The board shall adopt rules to establish time periods and procedures for additional training trips and retesting as necessary for pilots who at the time of their licensing are unable to become active pilots.

Sec. 1003. RCW 88.16.105 and 1987 c 264 s 3 are each amended to read as follows:

The board shall prescribe, pursuant to chapter 34.05 RCW, rules governing the size and type of vessels which a newly licensed pilot may be assigned to pilot on the waters of this state and whether the assignment involves docking or undocking a vessel. The rules shall also prescribe required familiarization trips before a newly licensed pilot may pilot a larger or different type of vessel. Such rules shall be for the first (~~three~~) five-year period in which pilots are actually employed.

Sec. 1004. RCW 88.16.110 and 1935 c 18 s 7 are each amended to read as follows:

Said report shall contain an account of all moneys received for pilotage by him or her or by any other person for (~~him~~) the pilot or on (~~his~~) the pilot's account or for his or her benefit. Said report shall state the name of each vessel piloted, the amount charged to and/or collected from each vessel, the port of registry of such vessel, its dead weight tonnage, whether it was inward or outward bound, whether the amount so received, collected or charged is in full payment of pilotage and such other information as the board shall by regulation prescribe.

(2) The report shall include information for each vessel that suffers a grounding, collision, or other major marine casualty that occurred while the pilot was on duty during the reporting period. The report shall also include information on near miss incidents as defined in section 423 of this 1991 act. Information concerning near miss incidents provided pursuant to this section shall not be used for imposing any sanctions or penalties. The board shall forward information provided under this subsection to the office of marine safety for inclusion in the collision reporting system established under section 423 of this 1991 act.

Sec. 1005. RCW 88.16.155 and 1977 ex.s. c 337 s 11 are each amended to read as follows:

(3) If the master of a vessel which employs a Washington licensed pilot cannot certify that the vessel complies with subsection (1) of this section and the rules of the board adopted pursuant to subsection (1) of this section, the master shall certify that:

(a) The vessel will comply with subsection (1) of this section before the time the vessel is scheduled to leave the waters of Washington state; and

(b) The coast guard captain of the port was notified of the noncomplying items when they were determined; and

(c) The coast guard captain of the port has authorized the vessel to proceed under such conditions as prescribed by the coast guard pursuant to its authority under federal statutes and regulations.

(4) ~~((After the board has prescribed the form required under subsection (1) of this section,))~~ No Washington licensed pilot shall offer pilotage services to any vessel on which the master has failed to make a certification required by this section.
