## Notes

---

The brief descriptions and digest paragraphs in this digest were prepared by the employees of the legislature as a guide to interested persons concerned with the various measures pending before the legislature. Brief descriptions and digest paragraphs are not offered in substitution of or supplementary to the official titles and official text of the legislative measures. The brief descriptions and digest paragraphs are not intended to constitute any part of the law, are not in any manner adopted or acted upon by the legislature, and are in no way evidence of the intent of the legislature.

---

---

If the only action on a bill for a session is "By resolution, reintroduced and retained in present status." and no action other than "By resolution, reintroduced and retained in present status." occurs in subsequent sessions in the two-year legislative cycle for that bill, the history for those sessions will not be printed in this publication.

---

---

Companion bills are shown for original bills only.

---

---

The brief description for each bill family shows only once on the original bill unless there is a change in the brief description for a later version of the bill.

# HOW TO USE THE "LEGISLATIVE DIGEST AND HISTORY OF BILLS"

The *Legislative Digest and History of Bills* is a joint legislative publication which is published after the final legislative session each year.

During the legislative session, a daily *Legislative Digest* is available. Use the daily *Legislative Digest* to keep up with the new introductions (including substitute bills) and the amendments to the various measures in between publications of the *Legislative Digest and History of Bills*. (A "-S" or "-S2" following the bill number indicates a substitute, e.g., SB 5009-S, HB 1071-S2.) The latest legislative history on the measures is also provided in the *Legislative Digest* publication.

This publication consists of three parts:

- (1) Digest paragraphs and legislative actions on all measures (bills);
- (2) RCW - Bill Table;
- (3) Topical Index; and
- (4) Session Law Chapter to Bill Table

## DIGEST PARAGRAPHS AND LEGISLATIVE ACTIONS

This portion consists of the following:

- (1) The summary digest paragraphs and legislative actions on all bills, joint memorials, joint resolutions, concurrent resolutions, and floor resolutions considered by the House or Senate during the legislative session;
- (2) Summary paragraph and legislative actions on gubernatorial appointments submitted to and being considered by the Senate;
- (3) The listing of the bills a member has sponsored along with an indication of prime sponsorship; and
- (4) The special status of legislation reports for the Senate and the House.

The bulk of the *Legislative Digest and History of Bills* is formed by an in-sequence listing of measures. In this listing are included the measure number, the legislative and "by-request" sponsors, the latest digest paragraphs, and the bill histories. This portion of the publication is divided into two sections: Senate measures and House measures. Initiatives, bills, joint memorials, joint resolutions, concurrent resolutions, floor resolutions, and gubernatorial appointments are included as measures.

Reports on the special status of legislation follow the Senate and House digest history portion of the book. The reports are listed as they become available as legislation progresses down the path toward enactment. A full listing of the reports available in a particular *Legislative Digest and History of Bills* is found on the Index Page of the *Legislative Digest and History of Bills* beginning on page one. Several examples of these reports are:

- (1) Senate Bills Introduced by Members  
(Prime sponsorship is noted by a bullet (large dot) before the bill number;)
- (2) Senate Bills Introduced by Request;
- (3) Senate Bills Passed by the Senate;
- (4) Senate Bills Passed by the Senate and House;
- (5) Senate Bills Failed to Pass the House;
- (6) Senate Bills Passed Both Houses Showing Executive Action; and
- (7) Governor's Messages on Bills Vetoed or Partially Vetoed  
VO - Veto overridden  
PV - Partial Veto  
V - Veto

Comparable reports are supplied for the House Bills. (See Table of Contents for page numbers.)

## RCW - BILL TABLE

The *Legislative Digest and History of Bills* contains a table which lists the statutes being affected by the current bills. This table is widely used by legislative drafters as well as all other attorneys concerned with the legislative process. The "S" found preceding the bill numbers in this table means that the bill being referred to is the substitute version. All first substitutes are noted by an "S" preceding the bill number; second, third, etc., are noted by 2S, 3S, etc.; e.g.,

38.03.030	AMD	SHB	1301*
38.03.040	AMD	SHB	1375+
39.07.060	REP	2SSB	5111

The "RCW (Statute Number) to Bill Number Table" lists in code section number order the sections in the Revised Code of Washington (RCW) that are the subject matter of current legislation. The action the bill takes on the section is listed with the following abbreviations: ADD (adding a new section or section to a code chapter or code title), AMD (amending), DECD (decodifying), RECD (recodifying), REMD (reenacting and amending), REEN (reenacting), and REP (repealing). It is especially useful in the closing days of the session to determine whether a code section currently under consideration by the legislature may already have been repealed or amended during the session, in which event the earlier action must be taken in cognizance. In addition to being included in the *Legislative Digest and History of Bills*, an electronic version of this table is available at Washington State Legislative website. The URL to the website is <http://www.leg.wa.gov>, choose Bill Info and then RCW to Bill Table.

The symbols on the table indicate whether the amended section or the new section has passed the legislature or has been signed into law or vetoed by the Governor. A "p" following the bill number means that the legislature has passed the bill. An asterisk ("\*") means that executive action or inaction has been recorded upon the bill during the first year of the two-year legislative cycle. A plus sign ("+") means that executive action or inaction has been recorded upon the bill during the second year of the two-year legislative cycle. Generally, the "\*" and "+" mean that the Governor has signed the bill into law with or without a partial veto.

## TOPICAL INDEX

The Topical Index is at the end of the *Legislative Digest and History of Bills*. The Topical Index entries are entered soon after the bills are introduced on the floor, so that researchers can search the text of the index for measures related to their issue. Various symbols are found in the index which aid in determining the type of measures to which the index entry refers. The table of abbreviated symbols for the Topical Index is found on the page beginning the Topical Index section.

## OTHER PUBLICATIONS

The Session Laws published after each session can be used to refer to the following:

- (1) Table of Contents (List of Acts in Chapter Order)
- (2) Text of new acts (Session Laws)
- (3) Bill Number to Chapter Number Table
- (4) RCW to Chapter Number
- (5) Uncodified Session Law Sections affected by Current Statutes
- (6) Topical Index of Statutes

The Legislative Report final edition contains:

- (1) Statistical Summary
- (2) Topical Index and Numerical Index
- (3) Analyses of Bills which passed the Legislature
- (4) Gubernatorial Veto Messages
- (5) Budget Data
- (6) Session Law Citations
- (7) Session Law Citations
- (8) List of Legislative Officers and Legislative Members by District
- (9) Standing and Interim Committee Assignments

Provides that in any action or arbitration for damages for injury or death occurring as a result of health care or related services, or the arranging for the provision of health care or related services, whether brought under chapter 7.70 RCW, RCW 4.20.010, 4.20.020, 4.20.046, 4.20.060, 4.24.010, or 48.43.545 (1), any other applicable law, or any combination thereof, that is based upon the alleged wrongful acts or omissions of one or more health care professionals, whether or not those health care professionals are named as defendants, the total combined civil liability for noneconomic damages for all health care professionals, all persons, entities, and health care institutions for whose conduct the health care professionals could be held liable, and all persons, entities, and health care institutions that could be held liable for the conduct of any health care professionals, shall not exceed three hundred fifty thousand dollars for each claimant, regardless of the number of health care professionals, health care providers, or health care institutions against whom the claim for injury or death is or could have been asserted or the number of separate causes of action on which the claim is based.

Provides that an attorney may not contract for or collect a contingency fee for representing a person in connection with an action for damages for injury or death occurring as a result of health care or related services, or the arranging for the provision of health care or related services, in excess of the following limits: (1) Forty percent of the first fifty thousand dollars recovered;

(2) Thirty-three and one-third percent of the next fifty thousand dollars recovered;

(3) Twenty-five percent of the next five hundred thousand dollars recovered;

(4) Fifteen percent of any amount in which the recovery exceeds six hundred thousand dollars.

Declares that the limitations in this provision apply regardless of whether the recovery is by judgment, settlement, arbitration, mediation, or other form of alternative dispute resolution.

Provides that, in no event may an action be commenced more than three years after the act or omission alleged to have caused the injury or condition except: (1) Upon proof of fraud, intentional concealment, or the presence of a foreign body not intended to have a therapeutic or diagnostic purpose or effect, in which case the patient or the patient's representative has one year from the date the patient or the patient's representative or custodial parent or guardian has actual knowledge of the act of fraud or concealment or of the presence of the foreign body within which to commence a civil action for damages.

(2) In the case of a minor, upon proof that the minor's custodial parent or guardian and the defendant or the defendant's insurer have committed fraud or collusion in the failure to bring an action on behalf of the minor, in which case the patient or the patient's representative has one year from the date the patient or the patient's representative other than the custodial parent or guardian who committed the fraud or collusion has actual knowledge of the fraud or collusion, or one year from the date of the minor's eighteenth birthday, whichever provides a longer period.

(3) In the case of a minor under the full age of six years, in which case the action on behalf of the minor must be commenced within three years, or prior to the minor's eighth birthday, whichever provides a longer period.

Provides that a contract for health care or related services that contains a provision for arbitration of a dispute as to professional negligence of a health care provider as defined in RCW 7.70.020, whether brought under chapter 7.70 RCW, RCW 4.20.010, 4.20.020, 4.20.046, 4.20.060, or 4.24.010, any other applicable law, or any combination thereof, must have the provision as the first article of the contract and the provision must be expressed in the following language:

"It is understood that any dispute as to medical malpractice that is as to whether any health care or related services rendered under this contract were unnecessary or unauthorized or were improperly, negligently, or incompetently rendered, will be

determined by submission to arbitration as provided by Washington law, and not by a lawsuit or resort to court process except as Washington law provides for judicial review of arbitration proceedings. Both parties to this contract, by entering into it, are giving up their constitutional right to have such a dispute decided in a court of law before a jury, and instead are accepting the use of arbitration."

Declares that a public or private hospital shall be liable for an act or omission of a health care provider granted privileges to provide health care at the hospital only if the health care provider is an actual agent or employee of the hospital and the act or omission of the health care provider occurred while the health care provider was acting within the course and scope of the health care provider's agency or employment with the hospital.

Declares that a person who is a health care provider under RCW 7.70.020 (1) or (2) shall not be personally liable for any act or omission of any other health care provider who was not the person's actual agent or employee or who was not acting under the person's direct supervision and control at the time of the act or omission.

Finds that increases in rate filings in insurance have widespread impact in the availability and affordability of medical malpractice liability insurance. In some cases, excessive rate increases result in limiting the availability of affordable insurance in markets, which in turn threatens the viability of the services or products that are to be insured.

Finds that there are several contributing causes to the current medical liability problem, and addressing these causes requires reducing medical errors while increasing patient safety and information and reducing the cost of our medical liability system.

Declares that it is in the public interest to maintain an efficient and expeditious regulatory environment in which to conduct the business of insurance. This interest must be balanced by the equally important public interest in promoting a greater range of medical liability insurance options to increase accessibility and affordability of this insurance and increase transparency when excessive rate filings impact the very health care practices and businesses that are to be insured.

Declares an intent to increase consumer access to information regarding medical malpractice liability and insurance and to reduce costs by increasing patient safety and information.

Creates a supplemental malpractice insurance program to provide an excess layer of liability coverage for medical malpractice claims.

Provides that a board of governors will oversee the operations of the program. The management and operations of the program are subject to the supervision and approval of the board.

Provides that the program must charge an annual premium to health care facilities and providers who decide to buy excess medical malpractice liability coverage from the program. The program must use this money to pay claims, administrative costs, and other expenses of the program.

Requires the program to file an annual statement with the commissioner by March 1st of each year. The statement must contain information about the program's transactions, financial condition, and operations during the past calendar year. The commissioner may establish rules for the form and content of this statement.

Provides that, if a health care facility or provider buys insurance to establish proof of financial responsibility, the insuring entity that provides underlying coverage must certify in writing to the program that the facility or provider has medical malpractice coverage with limits of liability as specified in this act. The limits set forth in this act apply to any joint liability of a provider and his or her corporation or partnership.

Declares that the minimum retained limits of liability are: (1) For health care providers: (a) Two hundred fifty thousand dollars per claim; and (b) annual aggregate limits of seven hundred fifty thousand dollars;

(2) For facilities with fewer than twenty-five employees that do not provide surgical services: (a) Two hundred fifty thousand dollars per claim; and (b) annual aggregate limits of one million two hundred fifty thousand dollars;

(3) For hospitals with a capacity of less than one hundred beds: (a) Five hundred thousand dollars per claim; and (b) annual aggregate limits of five million dollars;

(4) For hospitals with a capacity of one hundred or more beds: (a) Five hundred thousand dollars per claim; and (b) annual aggregate limits of eight million dollars;

(5) For health maintenance organizations that do not provide hospital services: (a) Five hundred thousand dollars per claim; and (b) annual aggregate limits of five million dollars;

(6) For health maintenance organizations that provide hospital services: (a) Five hundred thousand dollars per claim; and (b) annual aggregate limits of eight million dollars;

(7) For all other types of health care facilities: (a) Five hundred thousand dollars per claim; and (b) annual aggregate limits of three million dollars.

Provides that, beginning in 2007, the commissioner must prepare an annual report by June 30th that summarizes and analyzes the closed claim reports for medical malpractice filed under section 126 of this act and the annual financial reports filed by insurers writing medical malpractice insurance in this state.

Declares that the legislature may appropriate for the biennium ending June 30, 2007, any sum of money it deems necessary to the department of health to: (1) Provide capital and surplus to the supplemental malpractice insurance program; and

(2) Pay administrative expenses incurred to establish the supplemental malpractice insurance program.

Declares that no person who has been found to have within a ten-year period committed three or more incidents of medical malpractice shall be licensed or continue to be licensed by the commission to practice medicine.

Provides that nothing in this act limits the authority of the disciplining authority to revoke a license or take other disciplinary action when the license holder has committed only one or two acts of unprofessional conduct.

Provides that, upon receipt of a written request from a patient or an immediate family member of a deceased or disabled family member to examine or copy records made or received in the course of business by a health care facility or provider relating to any adverse medical incident, the health care facility or provider, as promptly as required by the circumstances, but not later than fifteen working days after receiving the request, shall: (1) Make the information available for examination during regular business hours and provide a copy, if requested, to the patient or an immediate family member of a deceased or disabled family member. In providing such access, the identity of patients involved in the incidents shall not be disclosed, and any privacy restrictions imposed by federal law shall be maintained; or

(2) Inform the patient or an immediate family member of a deceased or disabled patient if the information does not exist or cannot be found.

Declares that, in any action under chapter 7.70 RCW, each side shall presumptively be entitled to only two expert witnesses on an issue, except upon a showing of necessity. Where there are multiple parties on a side and the parties cannot agree as to which experts will be called on an issue, the court, upon a showing of necessity, shall allow additional experts on an issue to be called as the court deems appropriate.

Provides that, in any action under this act, an attorney that has drafted, or assisted in drafting and filing an action, counterclaim, cross-claim, third-party claim, or a defense to a claim, upon signature and filing, certifies that to the best of the party's or attorney's knowledge, information, and belief, formed after reasonable inquiry it is not frivolous, and is well grounded in fact and is warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law, and that it is not interposed for any improper purpose, such as to harass or to cause frivolous litigation.

Declares that, if an action is signed and filed in violation of this rule, the court, upon motion or upon its own initiative, may impose upon the person who signed it, a represented party, or both, an appropriate sanction, which may include an order to pay to the other party or parties the amount of the reasonable expenses incurred because of the filing of the action, counterclaim, cross-claim, third-party claim, or a defense to a claim, including a reasonable attorney fee. The procedures governing the enforcement of RCW 4.84.185 shall apply to this provision.

Requires that, within one hundred twenty days after filing a lawsuit under this chapter, the attorney of record, or the plaintiff if pro se, must file a certificate of merit. The certificate must state that the attorney or pro se plaintiff has consulted with a qualified expert who believes on a more probable than not basis that the claim set forth satisfies at least one of the basis for recovery under this chapter. Upon a showing of good cause, a court may extend the time frame for filing the certificate for a period not to exceed sixty days.

**HB 1003** by Representatives Hinkle, B. Sullivan, Curtis, Campbell, Blake, Dunn, and Condotta

Allowing off-road vehicles on nonhighway roads.

(DIGEST AS ENACTED)

Finds that the limited amount of ORV recreation areas presents a challenge for ORV recreational users, natural resource land managers, and private landowners.

Finds that local, state, and federal jurisdictions should be given the flexibility to allow ORV use on nonhighway roads they own and manage or for which they are authorized to allow public ORV use under an easement granted by the owner. Nothing in this act authorizes trespass on private property.

Declares that it is lawful to operate an off-road vehicle upon a nonhighway road and in parking areas serving designated off-road vehicle areas when the responsible governing body, including state, federal, or local authorities, authorizes the use of off-road vehicles.

Provides that an off-road vehicle operated on a nonhighway road under this section is exempt from licensing requirements of RCW 46.16.010 and vehicle lighting and equipment requirements of chapter 46.37 RCW.

Provides that, except as specified in this act, no person under thirteen years of age may operate an off-road vehicle on or across a highway or nonhighway road in this state.

Provides that persons under thirteen years of age may operate an off-road vehicle on a nonhighway road designated for off-road vehicle use under the direct supervision of a person eighteen years of age or older possessing a valid license to operate a motor vehicle under chapter 46.20 RCW.

VETO MESSAGE ON HB 1003

April 28, 2005

To the Honorable Speaker and Members,  
 The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 8, Engrossed House Bill No. 1003 entitled:

Sections 1 through 7 and 9 of Engrossed House Bill 1003 provide for increased flexibility and improved safety requirements when operating an off-road vehicle. Specifically, no person under the age of thirteen (13) years may operate an off-road vehicle unless directly supervised by a person over the age of eighteen (18). Any person operating an off-road vehicle must wear an approved helmet unless the vehicle is equipped with seat belts, roll bars or an enclosed passenger compartment. Engrossed House Bill 1003 provides further flexibility for off-road vehicle users by permitting, in certain circumstances, the operation of the vehicle on non-highway roads to facilitate greater access to off-road vehicle specific trails.

Section 8 of Engrossed House Bill 1003 creates a task force for the purpose of studying and making recommendations regarding off-road vehicle noise. I am vetoing Section 8 because the task force created in that section is identical to the task force created in

Engrossed Substitute House Bill 5089 (Sec. 1), which I signed April 22, 2005.

For these reasons, I have vetoed Section 8 of Engrossed House Bill 1003.

With the exception of Section 8, Engrossed House Bill 1003 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

Companion Bill: 5753

Creating a consumer or advocate-run mental health service delivery system.

Finds that the involvement of persons with mental illness, their family members, and advocates in designing, implementing,

and delivering mental health services reduces unnecessary hospitalizations and incarceration and promotes the recovery and employment of persons with mental illness.

Declares that regional support networks shall assume all duties assigned to county authorities by chapter 71.24 RCW and chapter 71.05 RCW. The regional support networks, or its designee, shall provide consumer or advocate-run services.

Provides that the department shall not require a consumer or advocate-run service to maintain licensure under chapter 71.24 RCW if the service is nonclinical. If a service is clinical, the service shall comply with the requirements for licensed services in this chapter.

Declares that consumer or advocate-run services may include, but are not limited to: (1) Consumer and/or advocate-operated businesses;

(2) Clubhouses, including but not limited to the Fountain House model as certified by the International Center for Clubhouse Development;

(3) Crisis services;

(4) Advocacy and referral services;

(5) Vocational and employment services;

(6) Self-help and peer counseling and support groups;

(7) Community presence in state hospitals; and

(8) Mental health advance directive training.

Appropriates the sum of five million dollars, or as much thereof as may be necessary, for the biennium ending June 30, 2007, from the general fund to the department of social and health services for the purposes of this act.

Authorizing Clark College license plates.

Directs the department, the Washington state patrol, and Clark College to work cooperatively to create and design a special Clark College license plate. The special Clark College license plate may be used in lieu of regular or personalized license plates for motor vehicles required to display two motor vehicle license plates, excluding vehicles registered under chapter 46.87 RCW, upon terms and conditions established by the department.

Creates the Clark College license plate account in the state treasury. All receipts from the Clark College license plate fees, less the administration and collection costs incurred by the department as provided for under RCW 46.16.313 (12) and (13), must be deposited into the account. Expenditures from the account should be used primarily for student scholarships but may also be used for advertising and promotional activities designed to increase the sale of the Clark College license plate.

Requires all expenditures from this account to be approved by the Clark College foundation scholarship committee. Moneys in the account may only be spent after appropriation.

Allowing electronic payment of utility bills.

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires public entities that provide electric, natural gas, water, or sewer services to retail customers to offer an electronic payment option that its customers may use for payment of bills for service provided through the utility by July 1, 2005.

Requires electronic payment options to be provided without additional fees or costs charged to the customer.

**HB 1009-S** by House Committee on Technology, Energy & Communications (originally sponsored by Representatives Morris, Upthegrove, Conway, Hudgins, Morrell, Kenney, P. Sullivan, B. Sullivan, Dunn, McCoy, Wallace, and Chase)

(AS OF HOUSE 2ND READING 2/28/05)

Provides that, by July 1, 2008, a city or town that provides electric, natural gas, water, or sewer services to retail customers must offer an electronic payment option that its customers may use for payment of bills for service provided through the utility. Additional fees or costs charged to the customer may not exceed the actual cost of providing an electronic payment option.

Declares that the requirement under this act to provide an electronic payment option by July 1, 2008, does not apply to a city or town that provides electric, natural gas, water, or sewer services to less than five thousand retail customer accounts.

Concerning energy efficiency and renewable energy standards.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares an intent to establish a goal of encouraging the construction and development of renewable energy in the state of Washington to meet increasing demands for affordable and reliable electricity. Since electricity supply may lag behind electricity demand, the result may be a sharp increase in electricity prices.

Finds that it is desirable to shorten the time it takes to bring new electricity generation to market.

Requires each electric utility to develop an integrated resource plan consistent with the provisions of this act. Such a plan shall be updated on a regular basis.

Requires investor-owned utilities to submit integrated resource plans to the commission. The commission shall establish by rule the requirements for preparation and submission of integrated resource plans.

Requires each consumer-owned utility to develop and publish a work schedule for the preparation of an integrated resource plan. The work schedule shall set forth the proposed content of the integrated resource plan, the proposed schedule of preparation, and provisions for public involvement in the preparation and review of the plan.

Directs each consumer-owned utility to transmit a copy of its integrated resource plan to the department by July 31, 2006, and transmit subsequent plans every two years thereafter.

Authorizes consumer-owned utilities to develop integrated resource plans jointly with other consumer-owned utilities. Data and assessments included in joint reports must be identifiable to each individual utility.

Requires the department to review the integrated resource plans of consumer-owned utilities and prepare a report to the legislature assessing the utilities' conformance with this act. The report shall include a statewide summary of utility load forecasts, load/resource balance, and utility plans for the development of thermal generation, renewable resources, and efficiency resources. The commission shall provide the department with data summarizing activities of investor-owned utilities for use in the department's statewide summary.

Requires the department to submit the initial report by December 1, 2006, and subsequent reports every two years thereafter. Where appropriate, the department may include reports required by this act within the biennial report required under RCW 43.21F.045.

**HB 1010-S** by House Committee on Technology, Energy & Communications (originally sponsored by Representatives Morris, Hudgins, Morrell, Linville, B. Sullivan, McCoy, and Chase)

Concerning energy efficiency and renewable energy standards. (REVISED FOR PASSED LEGISLATURE: Concerning electric utility planning.)

(DIGEST AS ENACTED)

Declares an intent to encourage the development of new safe, clean, and reliable energy resources to meet demand in Washington for affordable and reliable electricity. To achieve this end, the legislature finds it essential that electric utilities in Washington develop comprehensive resource plans that explain the mix of generation and demand-side resources they plan to use to meet their customers' electricity needs in both the short term and the long term. The legislature intends that information obtained from integrated resource planning under this chapter will be used to assist in identifying and developing new energy generation, conservation and efficiency resources, and related infrastructure to meet the state's electricity needs.

Provides that utilities with more than twenty-five thousand customers that are not full requirements customers shall develop or update an integrated resource plan by September 1, 2008. At a minimum, progress reports reflecting changing conditions and the progress of the integrated resource plan must be produced every two years thereafter. An updated integrated resource plan must be developed at least every four years subsequent to the 2008 integrated resource plan.

Provides that the governing body of a consumer-owned utility that develops a plan under this chapter shall encourage participation of its consumers in development of the plans and progress reports and approve the plans and progress reports after it has provided public notice and hearing.

Requires the department to review the plans of consumer-owned utilities and investor-owned utilities, and data available from other state, regional, and national sources, and prepare an electronic report to the legislature aggregating the data and assessing the overall adequacy of Washington's electricity supply. The report shall include a statewide summary of utility load forecasts, load/resource balance, and utility plans for the development of thermal generation, renewable resources, and conservation and efficiency resources. The commission shall provide the department with data summarizing the plans of investor-owned utilities for use in the department's statewide summary. The department may submit its report within the biennial report required under RCW 43.21F.045.

Regulating computer spyware.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that a person or entity that is not an authorized user shall not, with actual knowledge, with conscious avoidance of actual knowledge, or willfully, cause computer software to be copied onto the computer of a consumer in this state and use the software to do any of the following: (1) Modify, through intentionally deceptive means, any of the following settings related to the computer's access to, or use of, the internet: (a) The page that appears when an authorized user launches an internet browser or similar software program used to access and navigate the internet; (b) the default provider or web proxy the authorized user uses to access or search the internet; and (c) the authorized user's list of bookmarks used to access web pages;

(2) Collect, through intentionally deceptive means, personally identifiable information that meets any of the designated criteria;

(3) Prevent, without the authorization of an authorized user, through intentionally deceptive means, an authorized user's reasonable efforts to block the installation of, or to disable, software by causing software that the authorized user has properly removed or disabled to automatically reinstall or reactivate on the computer without the authorization of an authorized user;

(4) Intentionally misrepresent that software will be uninstalled or disabled by an authorized user's action, with knowledge that the software will not be uninstalled or disabled; and

(5) Through intentionally deceptive means, remove, disable, or render inoperative security, antispyware, or antivirus software installed on the computer.

Declares an intent that this act is a matter of statewide concern. This act supersedes and preempts all rules, regulations, codes, ordinances, and other laws adopted by a city, county, city and county, municipality, or local agency regarding spyware and notices to consumers from computer software providers regarding information collection.

Finds that the practices covered by this act are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. A violation of this act is not reasonable in relation to the development and preservation of business and is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW.

**HB 1012-S** by House Committee on Technology, Energy & Communications (originally sponsored by Representatives Morris, Hudgins, Simpson, Nixon, Anderson, Morrell, Linville, B. Sullivan, and Ormsby)

(DIGEST AS ENACTED)

Declares that it is unlawful for a person who is not an owner or operator to transmit computer software to the owner or operator's computer with actual knowledge or with conscious avoidance of actual knowledge and to use such software to do any of the following: (1) Modify, through intentionally deceptive means, settings that control any of the following: (a) The page that appears when an owner or operator launches an internet browser or similar computer software used to access and navigate the internet; (b) the default provider or web proxy the owner or operator uses to access or search the internet; and (c) the owner or operator's list of bookmarks used to access web pages;

(2) Collect, through intentionally deceptive means, personally identifiable information: (a) Through the use of a keystroke-

logging function that records all keystrokes made by an owner or operator and transfers that information from the computer to another person; (b) in a manner that correlates such information with data respecting all or substantially all of the web sites visited by an owner or operator, other than web sites operated by the person collecting such information; and (c) described in section 1(10) (d), (e), or (f)(i) or (ii) of this act by extracting the information from the owner or operator's hard drive;

(3) Prevent, through intentionally deceptive means, an owner or operator's reasonable efforts to block the installation or execution of, or to disable, computer software by causing the software that the owner or operator has properly removed or disabled automatically to reinstall or reactivate on the computer;

(4) Intentionally misrepresent that computer software will be uninstalled or disabled by an owner or operator's action; and

(5) Through intentionally deceptive means, remove, disable, or render inoperative security, antispyware, or antivirus computer software installed on the computer.

Declares that it is unlawful for a person who is not an owner or operator to transmit computer software to the owner or operator's computer with actual knowledge or with conscious avoidance of actual knowledge and to use the software to do any of the following: (1) Take control of the computer by: (a) Accessing or using the modem or internet service for such computer to cause damage to the computer or cause an owner or operator to incur financial charges for a service that is not authorized by the owner or operator; (b) opening multiple, sequential, stand-alone advertisements in the owner or operator's internet browser without the authorization of an owner or operator and that a reasonable computer user cannot close without turning off the computer or closing the internet browser;

(2) Modify any of the following settings related to the computer's access to, or use of, the internet: (a) Settings that protect information about the owner or operator in order to steal the owner or operator's personally identifiable information; and (b) security settings in order to cause damage to a computer; and

(3) Prevent an owner or operator's reasonable efforts to block the installation of, or to disable, computer software by doing any of the following: (a) Presenting the owner or operator with an option to decline installation of computer software with knowledge that, when the option is selected, the installation nevertheless proceeds; and (b) falsely representing that computer software has been disabled.

Declares that it is unlawful for a person who is not an owner or operator to do any of the following with regard to the owner or operator's computer: (1) Induce an owner or operator to install a computer software component onto the computer by intentionally misrepresenting the extent to which installing the software is necessary for security or privacy reasons or in order to open, view, or play a particular type of content; and

(2) Deceptively cause the execution on the computer of a computer software component with the intent of causing an owner or operator to use the component in a manner that violates any other provision of this act.

Authorizes a person who is injured under this act to bring a civil action in the superior court to enjoin further violations, or to seek up to one thousand dollars per violation, or actual damages, whichever is greater. The injured individuals may not bring their cause of action as a class action. Nothing in this section prohibits the attorney general from bringing a class action suit under chapter 19.86 RCW.

Provides that, in an action under this act, a court may increase the damages up to three times the damages allowed if the defendant has engaged in a pattern and practice of violating this act. The court may also award costs and reasonable attorneys' fees to the prevailing party.

Declares an intent that this act is a matter of statewide concern. This act supersedes and preempts all rules, regulations, codes, ordinances, and other laws adopted by a city, county, city and county, municipality, or local agency regarding spyware and notices to consumers from computer software providers regarding information collection.

**HB 1015** by Representatives Campbell, Morrell, Skinner, Hankins, Simpson, Schindler, and Chase

Requiring reporting of infections acquired in health care facilities.

(SUBSTITUTED FOR - SEE 2ND SUB)

Directs the department to: (1) Adopt guidelines and rules for the collection, reporting, analysis, and release of information related to hospital-acquired infection rates at hospitals. In adopting these guidelines and rules, the department shall consider the recommendations of the advisory committee established in this act as well as the definitions, methodologies, and practices of the United States centers for disease control related to hospital-acquired infections; and

(2) Publish an annual report that compares the hospital-acquired infection rates at each individual hospital in the state.

Requires each hospital to: (1) Collect information regarding hospital-acquired infection rates for the specific clinical procedures and categories identified by the department; and

(2) Prepare a report every three months and submit the reports to the department. The collection and reporting of information shall be performed in accordance with the guidelines and rules of the department.

Declares that neither the reports submitted by hospitals to the department under this act, nor any of the data contained in them are subject to discovery by subpoena or admissible as evidence in a civil proceeding.

Declares that the reports submitted by hospitals to the department of health under this act and the data contained in them are exempt from disclosure under chapter 42.17 RCW.

Takes effect August 1, 2005.

**HB 1015-S** by House Committee on Health Care (originally sponsored by Representatives Campbell, Morrell, Skinner, Hankins, Simpson, Schindler, and Chase)

Requiring reporting of hospital-acquired infections in health care facilities.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that hospitals should be implementing evidence-based measures to reduce hospital-acquired infections. The legislature further finds the public should have access to data on outcome measures regarding hospital-acquired infections. Data reporting should be consistent with national hospital reporting standards.

Provides that the department shall adopt guidelines and rules for the identification, tracking, reporting, and release of information related to outcome measures as related to health care-associated infections acquired in hospitals.

Requires the guidelines and rules to consider outcome measures, for an entire hospital or specified units, in the following categories: (1) Surgical site infections for selected procedures;

(2) Surgical antimicrobial prophylaxis;

(3) Outcome measures on ventilator-associated pneumonia;

(4) Central line-associated, laboratory-confirmed bloodstream infections in the intensive care unit; and

(5) Other categories for which there are established measures and the department determines are necessary to protect public health and safety as provided in this act.

Requires the department to publish an annual report on the department's web site that compares the hospital-acquired infection outcomes described in this act at each individual hospital in the state. Comparisons among hospitals shall be adjusted to consider patient mix and other relevant risk factors and control for provider peer groups, when appropriate. The annual report shall disclose data in a format so that no health information about any individual patient is released. The department may respond to requests for data and other information, at the requestor's expense, for special studies and analysis consistent with requirements for confidentiality of patient records and quality improvement information.

Requires the department to establish an advisory committee to make recommendations to the department in the development of guidelines and rules for the collection, reporting, and release of

information related to hospital-acquired infections and to provide advice and recommendations to the department regarding the report in this act to expand the program to ambulatory surgical centers and outpatient surgical centers.

Directs the advisory committee to meet as often as necessary to complete its duties, but not less than three times per year and report to the legislature in November 2008 regarding the activities of United States centers for disease control, centers for medicare and medicaid services, joint commission for the accreditation of health care organizations, and the institute for health care improvement related to reporting hospital-acquired infections.

Requires the department, with the advice and recommendations of the advisory committee created in this act, to issue a report by December 1, 2006, that establishes a plan and timetable for expanding the health care-associated infection identification, tracking, reporting, and analysis program established under this act to include ambulatory surgical centers and outpatient surgical centers.

Provides that neither the reports submitted by hospitals, ambulatory surgical centers, or outpatient surgical centers to the department under this subsection, nor any of the data contained in them are subject to discovery by subpoena or admissible as evidence in a civil proceeding.

Limiting when the presence of a dog may affect the availability of homeowner's insurance.

(AS OF HOUSE 2ND READING 3/14/05)

Provides that an insurer licensed to write liability insurance, such as homeowner's insurance, in this state may not deny an application for a homeowner's insurance policy, or cancel, refuse to renew, or modify an existing homeowner's insurance policy, on the basis that the applicant or insured owns or harbors a specific breed of dog on the real property, unless the dog is a dangerous dog as defined in RCW 16.08.070.

Provides that an insurer may require that the insured provide: (1) Written certification from the insured that the dog provides little risk based on the dog's nature and history; and

(2) Written certification that the dog provides little risk based on the dog's nature and history in the form of: (a) A written statement from a licensed veterinarian who may be familiar with the dog in question; or (b) a written statement from a licensed dog trainer from a canine obedience school; or (c) a canine good citizen certificate from the American kennel club.

**HB 1020** by Representatives Morris and B. Sullivan

Regarding electrical transmission.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that, on or after July 1, 2007, for applications to site electrical transmission facilities under RCW 80.50.060(3), the council must approve applications for siting of electrical transmission facilities in corridors designated for this purpose by a county or city under chapter 36.70A RCW where the county or city has: (1) Identified electrical transmission facility corridors as part of its comprehensive plan under chapter 36.70A RCW and has adopted policies and maps that guide the siting of electrical transmission facilities;

(2) Adopted development regulations under chapter 36.70A RCW that implement the siting of electrical transmission facilities; and

(3) Coordinated its applicable plan and regulations with those jurisdictions that have common borders or related regional electrical transmission facility siting issues.

Declares that the provisions of this act are intended to limit the council's authority to certify the location of electrical transmission facilities but not the regulation, construction, and operational conditions of the electrical transmission facilities.

**HB 1020-S** by House Committee on Technology, Energy &  
 Communications (originally sponsored by  
 Representatives Morris and B. Sullivan)

(DIGEST AS ENACTED)

Finds that section 1221 of the national energy policy act also authorizes a state siting authority, in those instances where applicants seek a federal construction permit otherwise authorized pursuant to section 1221 of the act, to assert jurisdiction on the basis of existing state regulatory authority.

Finds that section 1221 of the national energy policy act further authorizes a state siting authority to approve the siting of

facilities or consider the interstate benefits to be achieved by proposed construction or modification as provided for in section 1221(b)(1)(A)(i)-(ii) of the act or other provisions of the act, or rules and regulations implementing the act, and to convey the views and recommendations regarding the need for and impact of a transmission facility where the federal energy regulatory commission is determined to have jurisdiction.

Declares that the council is designated as the state authority for purposes of siting transmission facilities under the national energy policy act of 2005 and for purposes of other such rules or regulations that may be adopted by the secretary. The council's authority regarding transmission facilities is limited to those transmission facilities that are the subject of section 1221 of the national energy policy act and chapter 80.50 RCW.

Providing small wind permitting standards.

Finds that: (1) Wind energy is an abundant, renewable, and nonpolluting energy resource;

(2) When converted to electricity, wind energy reduces dependence on nonrenewable energy resources and reduces air and water pollution that result from conventional sources;

(3) Distributed small wind energy systems also enhance the reliability and power quality of the power grid, reduce peak power demands, increase in-state electricity generation, diversify the state's energy supply portfolio, and make the electricity supply market more competitive by promoting consumer choice; and

(4) Small wind energy systems, designed for on-site home, farm, and small commercial use, are an excellent technology to help achieve the goals of increased in-state electricity generation, reduced demand on the state electric grid, increased consumer energy independence, and nonpolluting electricity generation.

Authorizes a local agency to, by ordinance, provide for the installation of small wind energy systems on parcels of land of at least one acre in its jurisdiction. The local agency may establish a process for the issuance of a conditional use permit for small wind energy systems.

**HB 1025** by Representatives Morris, Upthegrove, Simpson, Nixon, Anderson, Morrell, Linville, B. Sullivan, Wallace, and Ormsby

Enhancing integrity of voting systems.

Requires the manufacturer or distributor of a voting system or component of a voting system to provide the secretary of state access to the source code of the voting system or component at the time the system is submitted for an examination and anytime following certification. Following certification of a voting system or component of a voting system, the manufacturer or distributor must notify the secretary of state each time the source code is modified, and provide the secretary of state access to the modified version. The source code is exempt from public disclosure under RCW 42.17.310(1)(h).

Declares that no modification, change, redesign, or improvement may be made to any voting system or component of a system related to vote tallying, casting, counting, and storage, other than hardware replacement, without notification of the secretary of state for reexamination or reapproval by the secretary of state under this act.

Requires that reexamination or reapproval of voting systems under RCW 29A.12.050 must be performed in the following manner: (1) The modification must be reviewed and approved by an appropriate independent testing authority approved by the

federal election assistance commission before submission to the secretary of state for approval.

(2) The submission must include: (a) The purpose and effect of the modification; (b) clear and complete documentation of the change including a description, an affected code, affected systems, and a before and after depiction of the change; (c) a statement from the vendor declaring the completeness of the submission, sworn under penalty of perjury and loss of system certification.

Authorizes the secretary of state to review and test the change before issuing or denying an emergency approval for use only in the subsequent election.

Provides that, after January 1, 2007, no voting device or machine may be used to conduct a primary or general or special election that uses punched holes to record the voter's choices.

Declares that the secretary of state may not certify under Title 29A RCW any voting device or machine for use in conducting a primary or general or special election that uses punched holes to record the voter's choices.

Authorizes the secretary of state to withdraw the certification of any voting system hardware, software, or system component for cause. Before withdrawing a certification the secretary of state shall conduct a public hearing intended to document and allow input from affected system users and vendors before rendering a decision. The secretary of state shall post the report of withdrawal of certification to a publicly available electronic medium and transmit notice of withdrawal of certification under this section to each county auditor within five days after completing the examination.

Requires that, before each state primary or general election logic and accuracy testing of poll site based systems or electronic voting devices must be performed by the county under the observation of the office of the secretary of state during the process of final preparation before system distribution to each poll site.

Requires that, after all tests are performed and the machine is ready for distribution, the machine must be sealed and the seal number recorded. The procedure described in this provision will serve as the official logic and accuracy test of these devices.

Provides that a log must be created during the testing of poll site based ballot counters and electronic voting devices. The log must record the time and place of each test, the precinct number, seal number, and machine number of each ballot counter or voting device, and the initials of each person testing and observing the test for each machine. This log must be included in the official logic and accuracy test materials. The processes described in this act must be open to observation and subject to all notices and observers under rules adopted by the secretary of state.

Requires the secretary of state to empanel a task force of elections and computer security experts to be known as the "Washington Voting Systems Board" to study and determine the potential for election fraud.

Requires that, if a poll site based electronic voting device produces an individual paper record at the time of voting, the device must allow the paper record to be reviewed by the voter before finalizing his or her vote.

Provides that, if a poll site based electronic voting device provides an alternative method for the voter to verify his or her vote, the alternative method must maintain privacy in the act of voting while allowing a voter to verify that his or her votes were cast and recorded as intended, in a technology separate and distinct from the poll site based electronic voting device.

Declares that any paper records produced by poll site based electronic voting devices are subject to all of the requirements of chapter 29A.44 and chapter 29A.60 RCW for ballot handling, preservation, reconciliation, transit to the counting center, and storage. The paper records must be preserved in the same manner and for the same period of time as ballots.

Provides that the electronic record produced and counted by poll site electronic voting devices is the official record of each vote for election purposes. However, any paper records produced under this act must be stored and used as the official record of each vote for election purposes in the following specified circumstances only: (1) In the event of a mandatory manual recount of votes under RCW 29A.64.021;

(2) In the event of a requested recount under RCW 29A.64.011;

(3) By order of the county canvassing board;

(4) By order of the superior court of a county; or

(5) For use in the four percent random audit of results required by this act.

Provides that a voter voting on a poll site based electronic voting system may not leave the device during the voting process except to verify his or her ballot, or to request assistance from the precinct election officers, until the voting process is completed.

Requires ballot counting systems to be secured physically and electronically against unauthorized access. Ballot counting systems must not be connected to, or operated on, any electronic network including internal office networks, the Internet, or the World Wide Web.

Provides that, before the close of business on the day after election day, the county auditor shall conduct an audit of results of votes cast on the poll site based electronic voting devices used in the county. This audit must be conducted by randomly selecting four percent of the poll site based electronic voting devices, and comparing the results recorded by each device with those recorded on either the paper records or alternative voter-verified technology for three randomly selected races or issues on each device. This audit procedure must be subject to observation by political party representatives if representatives have been appointed and are present at the time of the audit.

Declares that anyone who removes a paper record or alternative voter-verified technology produced by a poll site based electronic voting device from a polling place without authorization is guilty of a class C felony punishable under RCW 9A.20.021.

Declares that all voting system and voting device purchases made after July 1, 2005, are subject to the requirements of this act. All existing voting system and voting device approval and certifications for electronic voting systems and devices are in effect until January 1, 2007.

Requires the secretary of state, in consultation with the information services board, to establish procedures for the procurement of certified voting systems through master contracts. County auditors, using funding disbursed through the election account established in the state treasury by section 1, chapter 48, Laws of 2003, for the procurement of voting systems, must consider the use of master contracts approved by the secretary of state.

Declares that nothing in this act prevents the state of Washington, its counties, or its voters from participating in the Secure Electronic Registration and Voting Experiment (SERVE) as authorized by PL 107-107, Title 16, section 1604 and chapter 17, Laws of 2003 1st sp. sess. including system certification, voter registration, and voting.

Regulating ATVs.

(SEE ALSO PROPOSED 2ND SUB)

Requires the department to adopt standards for and implement a comprehensive all-terrain vehicle safety education and training program. The program must provide for the hands-on training of all-terrain vehicle operators, and for the issuance of all-terrain vehicle safety certificates to operators who successfully complete the training. Course content must be adopted from a curriculum developed by a nationally recognized safety organization, such as the All-Terrain Vehicle Safety Institute.

Provides that the department may authorize persons, clubs, associations, municipalities, or other political subdivisions of the state to conduct classes and issue all-terrain vehicle safety certificates in the director's name. Any authorized person, club, association, municipality, or political subdivision may charge a reasonable fee, subject to department approval, for the training course.

Requires that, beginning July 1, 2006, to operate an ATV on public land a person must possess a safety certificate issued by the director or by another state or Canadian province. A nonresident who does not possess a safety certificate may operate an ATV on public land for five days in a calendar year.

Declares that all-terrain vehicles with engine capacity of seventy cubic centimeter displacement ("cc") up to and including ninety cc may be operated on public land only by those aged twelve years and older.

Declares that all-terrain vehicles with engine capacity greater than ninety cc may be operated on public land only by those aged sixteen years and older.

Requires persons under age sixteen to be under continuous adult supervision while operating an ATV on public land.

Adopting the interstate insurance product regulation compact.

(DIGEST AS ENACTED)

Declares that, under the terms and conditions of this act, the state of Washington seeks to join with other states and establish the interstate insurance product regulation compact and thus become a member of the interstate insurance product regulation commission.

Declares that the purposes of the compact under this act are, through means of joint and cooperative action among the compacting states: (1) To promote and protect the interest of consumers of individual and group annuity, life insurance, disability income, and long-term care insurance products;

(2) To develop uniform standards for insurance products covered under the compact;

(3) To establish a central clearinghouse to receive and provide prompt review of insurance products covered under the compact and, in certain cases, advertisements related thereto, submitted by insurers authorized to do business in one or more compacting states;

(4) To give appropriate regulatory approval to those product filings and advertisements satisfying the applicable uniform standard;

(5) To improve coordination of regulatory resources and expertise between state insurance departments regarding the setting of uniform standards and review of insurance products covered under the compact;

(6) To create the interstate insurance product regulation commission; and

(7) To perform these and such other related functions as may be consistent with the state regulation of the business of insurance.

Creating a general fund working capital designation.

Creates the ready reserve account in the state treasury. Beginning with fiscal year 2006, at the end of each fiscal year, the state treasurer shall deposit in the ready reserve account all general fund-state revenues in excess of the expenditures from general fund-state appropriations for that fiscal year, up to the state expenditure limit for that fiscal year.

Directs the office of financial management to determine the amount that is in excess of the expenditures from the general fund-state appropriation for that fiscal year and inform the state treasurer.

Provides that the ready reserve account fund balance shall not exceed five percent of annual general fund-state revenues. Any balance in excess of five percent shall be transferred upon notice by the office of financial management, but no less than once per fiscal year by the state treasurer, to the emergency reserve fund.

Authorizes the legislature to appropriate moneys from the ready reserve account with a simple majority vote of both houses of the legislature.

Moving the early childhood education and assistance program into the department of social and health services.

Declares that the early childhood education and assistance program is a comprehensive preschool program designed to aid at-risk children, and to enhance readiness for success in school and life. The needs of the children and their families will be best served if it is consolidated with other early childhood services.

Finds that administering similar programs from the same agency will have the benefit of improving connections with social supports, better connection between the child care programs and the preschool program for both the families and the providers, and greater administrative efficiencies.

Creates a nine-member steering committee, which committee shall advise the department on the ongoing promotion and operation of the early childhood education and assistance program. This advice shall include: (1) Program standards, which shall be guided by appropriate research;

(2) Development of partnerships among providers of early learning programs;

(3) Development of opportunities for professional development; and

(4) Identifying opportunities to build upon existing programs and resources by increasing program quality, connecting related services, and simplifying program administration.

- HB 1047** by Representatives Hudgins, Conway, McIntire, Chase, and Uptegrove  
 Concerning energy resource planning and renewable energy standards.  
 Declares an intent to establish a goal of encouraging the construction and development of renewable energy in the state of Washington to meet increasing demands for affordable and reliable electricity. Since electricity supply may lag behind electricity demand, the result may be a sharp increase in electricity prices.  
 Finds that it is desirable to shorten the time it takes to bring new electricity generation to market. Washington is a leader in the development of renewable energy technologies and the legislature acknowledges that encouraging the development of renewable technologies in meeting increased electricity demand will create jobs for Washington's citizens.  
 Requires the department to review the integrated resource plans of consumer-owned utilities and prepare a report to the legislature. The report shall include a statewide summary of utility load forecasts, load/resource balance, and utility plans for the development of thermal generation, renewable resources, and efficiency resources. The commission shall provide the department with data summarizing activities of investor-owned utilities for use in the department's statewide summary.

Directs the department to submit the initial report by December 1, 2006, and subsequent reports every two years thereafter. Where appropriate, the department may include reports required by this section within the biennial report required under RCW 43.21F.045.

Creating a foster care endowed scholarship program.

(SUBSTITUTED FOR - SEE 2ND SUB)

Declares that the purpose of the program is to help students who were in foster care attend an institution of higher education in the state of Washington. The foster care endowed scholarship program shall be administered by the higher education coordinating board.

Creates the foster care endowed scholarship advisory board.

Authorizes the higher education coordinating board to deposit twenty-five thousand dollars of state matching funds into the foster care scholarship endowment fund when the board can match state funds with an equal amount of private cash donations.

Provides that, after the initial match of twenty-five thousand dollars, state matching funds from the foster care endowed scholarship trust fund shall be released to the foster care scholarship endowment fund semiannually so long as there are funds available in the foster care endowed scholarship trust fund.

Appropriates the sum of one hundred fifty thousand dollars, or as much thereof as may be necessary, from the general fund to the higher education coordinating board for the fiscal year ending June 30, 2006, to carry out the purposes of this act.

VETO MESSAGE ON HB 1050-S2

April 28, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 9, Second Substitute House Bill 1050 entitled:

This bill and the Board creates scholarships for foster youth. I am vetoing Section 9, however, as it would limit the administrative support for the foster youth scholarship program to one-quarter full-time equivalent employee (FTE). Any money allocated for the foster youth scholarship program should go directly to that purpose. But FTE targets or limitations are properly addressed through the budget process.

For these reasons, I have vetoed Section 9 of Second Substitute House Bill 1050.

With the exception of sections Section 9, Second Substitute House Bill 1050 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

Companion Bill: 5047

Creating the prevention quality council.

Requires the council to meet at least annually to: (1) Identify state agencies operating or funding prevention programs;

(2) Review research findings and recommendations of the institute;

(3) Identify gaps in available research and make recommendations to the legislature regarding areas that should be prioritized for future research investments;

(4) Certify, by affirmative vote of at least six members, evidence-based prevention programs for state funding; and

(5) Recommend legislation modifying duties and services of state agencies as necessary to achieve the purposes of this act.

Requires state agencies identified by the council as operating or funding prevention programs to: (1) Submit biennial reports to the council containing: (a) A description of each prevention program on which the agency expends state funds, including but not limited to whether the program is an evidence-based program; and (b) the percentage of state funds the agency receives for prevention programs that is being expended on evidence-based programs; and

(2) Spend not less than the percentages of state funds specified in this act on certified evidence-based programs in the fiscal years specified: (a) Fifty percent in fiscal year 2007; (b) sixty percent in fiscal year 2008; and (c) seventy percent in fiscal year 2009 and thereafter.

Revising provisions relating to mental health treatment for minors.

(SUBSTITUTED FOR - SEE 1ST SUB)

Authorizes an evaluation and treatment facility to admit for evaluation, diagnosis, or treatment any minor under thirteen years of age for whom application is made by the minor's parent or guardian. The consent of the minor under the age of thirteen is not required.

**HB 1058-S** by House Committee on Juvenile Justice & Family Law (originally sponsored by Representatives Dickerson, Hinkle, Moeller, Kenney, and Darneille)

(DIGEST AS ENACTED)

Finds that, despite explicit statements in statute that the consent of a minor child is not required for a parent-initiated admission to inpatient or outpatient mental health treatment, treatment providers consistently refuse to accept a minor aged thirteen or over if the minor does not also consent to treatment. The legislature intends that the parent-initiated treatment provisions, with their accompanying due process provisions for the minor, be made fully available to parents.

Provides that parental authorization is required for inpatient treatment of a minor under the age of thirteen.

Declares that a minor child shall have no cause of action against an evaluation and treatment facility, inpatient facility, or provider of outpatient mental health treatment for admitting or accepting the minor in good faith for evaluation or treatment under RCW 71.34.052 or 71.34.054 based solely upon the fact that the minor did not consent to evaluation or treatment if the minor's parent has consented to the evaluation or treatment.

**HB 1062** by Representatives Morris, Hudgins, and Chase; by  
request of Governor Locke

Finds that: (1) Efficiency standards for certain products sold or installed in the state assure consumers and businesses that such products meet minimum efficiency performance levels thus saving money on utility bills.

(2) Efficiency standards save energy and reduce pollution including global warming emissions and other environmental impacts associated with the production, distribution, and use of electricity and natural gas.

(3) Efficiency standards contribute to the economy of Washington by helping to better balance energy supply and demand, thus reducing pressure for higher natural gas and electricity prices. By saving consumers and businesses money on energy bills, efficiency standards help the state and local economy, since energy bill savings can be spent on local goods and services.

(4) Efficiency standards can make electricity systems more reliable by reducing the strain on the electricity grid during peak demand periods. Furthermore, improved energy efficiency can reduce or delay the need for new power plants, power transmission lines, and power distribution system upgrades.

**HB 1062-S** by House Committee on Technology, Energy &  
Communications (originally sponsored by  
Representatives Morris, Hudgins, and Chase; by request of  
Governor Locke)

(DIGEST AS ENACTED)

Finds that: (1) According to estimates of the department of community, trade, and economic development, the efficiency standards set forth in this act will save nine hundred thousand megawatt-hours of electricity, thirteen million therms of natural gas, and one billion seven hundred million gallons of water in the year 2020, fourteen years after the standards have become effective, with a total net present value to buyers of four hundred ninety million dollars in 2020.

(2) Efficiency standards for certain products sold or installed in the state assure consumers and businesses that such products meet minimum efficiency performance levels thus saving money on utility bills.

(3) Efficiency standards save energy and reduce pollution including global warming emissions and other environmental impacts associated with the production, distribution, and use of electricity and natural gas.

Improving government performance and accountability.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that: (1) Citizens demand and deserve accountability of public programs. Public programs must continuously improve in quality, efficiency, and effectiveness in order to increase public trust;

(2) Washington state government and other entities that receive tax dollars must continuously improve the way they operate and deliver services so citizens receive maximum value for their tax dollars;

(3) An independent citizen oversight board is necessary to establish an annual assessment and performance grading program to ensure that government services, customer satisfaction, program efficiency, and management systems are world class in performance; and

(4) Fair, independent, professional performance audits of state agencies by the state auditor are essential to improving the efficiency and effectiveness of government.

VETO MESSAGE ON HB 1064-S

May 11, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 4, Engrossed Substitute House Bill No. 1064 entitled:

This bill is an important step in strengthening accountability in state government agencies. Alongside the Government Management, Accountability, and Performance program (GMAP), the statewide performance audits contemplated in this bill usher in a new era of responsible state governance.

In discussion with our State Auditor, I have decided to veto Section 4 of this bill due to funding considerations. Section 4 establishes an assessment and grading program, and authorizes the citizen advisory board to contract each year for an assessment and grading of all agency management systems, as well as all agency technology, procurement, compliance monitoring, on-line contracting and internal audit systems. The performance assessment and grading program, if implemented in all agencies every year in a meaningful way, is likely to quickly exhaust the appropriated funding for performance audits.

In addition, with the passage of House Bill 1970, all agencies will be required to apply for an independent assessment of their management systems every three years. The assessments that would result will identify strengths and weaknesses in each agency's management systems, and will give agencies more actionable feedback on a regular basis. Section 4 of Engrossed Substitute House Bill No. 1064 therefore duplicates efforts that will be accomplished more cost-effectively under House Bill 1970.

For these reasons, I have vetoed Section 4 of Engrossed Substitute House Bill No. 1064.

With the exception of Section 4, Engrossed Substitute House Bill No. 1064 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Revises the powers, duties, and membership of the state board  
of education and the Washington professional educator standards  
board and eliminates the academic achievement and  
accountability commission.

Establishes the education governance task force to review and  
evaluate the appropriate agency to adopt rules for and implement  
state education responsibilities that fall under the jurisdiction of  
the superintendent of public instruction, the academic  
achievement and accountability commission, and the state board  
of education as reconstituted under this act. The task force shall  
examine the possible elimination of the academic achievement  
and accountability commission and the reassignment or repeal of  
its duties.

Provides that, by December 15, 2005, the task force shall  
report to the governor, the superintendent of public instruction,  
the academic achievement and accountability commission, the  
state board of education, the legislative committees on education  
policy, and other interested parties with its recommendations,  
including proposed legislation, on the appropriate state-level  
agencies to adopt rules for and implement various statutory  
education responsibilities.

Companion Bill: 5071

Eliminating mandatory norm-referenced student assessments.

(DIGEST AS ENACTED)

Finds that the mandatory norm-referenced student  
assessments eliminated under this act provide information that  
teachers and parents use to improve student learning. The  
legislature intends to permit school districts to offer norm-  
referenced assessments at the districts' own expense and make  
diagnostic tools available that provide information that is at least  
as valuable as the information eliminated under this act.

Authorizes school districts to, at their own expense,  
administer norm-referenced assessments to students.

Provides that, by September 1, 2005, subject to available  
funds, the office of the superintendent of public instruction shall  
post on its web site for voluntary use by school districts, a guide  
of diagnostic assessments.

Provides that, by September 1, 2006, subject to the  
availability of amounts appropriated for this specific purpose, the  
office of the superintendent of public instruction shall make  
available to school districts diagnostic assessments that help  
improve student learning. To the greatest extent possible, the  
assessments shall be: (1) Aligned to the state's grade level  
expectations;

(2) Individualized to each student's performance level;

(3) Administered efficiently to provide results either  
immediately or within two weeks;

(4) Capable of measuring individual student growth over  
time; and

(5) Cost-effective.

Encourages the office of the superintendent of public instruction to offer at their statewide and regional staff development activities training opportunities that would assist practitioners in: (1) The interpretation of diagnostic assessments; and

(2) Application of instructional strategies that will increase student learning based on diagnostic assessment data.

Repeals RCW 28A.230.190, 28A.230.193, 28A.230.230, and 28A.230.260.

Requiring performance audits for tax preferences.

(DIGEST AS ENACTED)

Recognizes that tax preferences are enacted to meet objectives which are determined to be in the public interest. However, some tax preferences may not be efficient or equitable tools for the achievement of current public policy objectives.

Finds that, given the changing nature of the economy and tax structures of other states, periodic performance audits of tax

preferences are needed to determine if their continued existence will serve the public interest.

Directs the citizen commission for performance measurement of tax preferences to develop a schedule to accomplish an orderly review of tax preferences at least once every ten years.

Requires the joint legislative audit and review committee to report its findings and recommendations for scheduled tax preferences to the citizen commission for performance measurement of tax preferences by August 30th of each year.

Concerning the uniform disciplinary act for health professions.

(SUBSTITUTED FOR - SEE 2ND SUB)

Requires the secretary of health to establish a work group to review the complaint processing and sanction determination phases of the health professions disciplinary process. At the secretary of health's discretion, the work group may include representatives of different health profession boards and commissions, professional associations, and other interested parties. The work group shall submit a report to the legislature by December 1, 2005, with recommendations for creating: (1) Greater efficiencies between the health professions boards and commissions and the secretary of health in processing complaints against license holders; and

(2) More consistent sanction determinations that balance the protection of the public's health and the rights of health care providers among the different health professions, including recommendations for specific ranges of sanctions for each act of unprofessional conduct and the effect of any aggravating and mitigating factors that may apply to each.

Requires the disciplining authority to revoke the license of a license holder who is found to have committed three acts of unprofessional conduct from the designated list in any combination within a ten-year period.

Declares that nothing in this act limits the authority of the disciplining authority to revoke a license or take other disciplinary action when the license holder has committed only one or two acts of unprofessional conduct instead of three.

**HB 1071-S** by House Committee on Health Care (originally sponsored by Representatives Campbell and Morrell)

(SUBSTITUTED FOR - SEE 2ND SUB)

Requires the secretary of health to establish a work group to review the complaint processing and sanction determination phases of the health professions disciplinary process. At the secretary of health's discretion, the work group may include representatives of different health profession boards and commissions, professional associations, and other interested parties. The work group shall submit a report to the legislature by December 1, 2005, with recommendations for creating: (1) Greater efficiencies between the health professions boards and commissions and the secretary of health in processing complaints against license holders; and

Requires the disciplining authority to revoke the license of a license holder who is found, in three unrelated orders under RCW 18.130.110 in a ten-year period, to have engaged in three separate courses of unprofessional conduct based upon any combination of the designated act.

Declares that nothing in this act limits the ability of the disciplining authority to impose any sanction, including revocation, for a single violation of any subsection of RCW 18.130.180.

Provides that, notwithstanding RCW 9.96A.020(1), revocation of a license under this act is not subject to a petition for reinstatement under RCW 18.130.150.

Requires the secretary of health to establish a work group to review the complaint processing and sanction determination phases of the health professions disciplinary process. At the secretary of health's discretion, the work group may include representatives of different health profession boards and commissions, professional associations, and other interested parties. The work group shall submit a report to the legislature by December 1, 2005, with recommendations for creating: (1) Greater efficiencies between the health professions boards and commissions and the secretary of health in processing complaints against license holders; and

(2) More consistent sanction determinations that balance the protection of the public's health and the rights of health care providers among the different health professions, including recommendations for specific ranges of sanctions for each act of unprofessional conduct and the effect of any aggravating and mitigating factors that may apply to each.

Requires the disciplining authority to revoke the license of a license holder who is found, in three unrelated orders under RCW 18.130.110 in a ten-year period, to have engaged in three separate courses of unprofessional conduct based upon any combination of the designated act.

Declares that nothing in this act limits the ability of the disciplining authority to impose any sanction, including revocation, for a single violation of any subsection of RCW 18.130.180.

Provides that, notwithstanding RCW 9.96A.020(1), revocation of a license under this act is not subject to a petition for reinstatement under RCW 18.130.150.

Companion Bill: 5076

Establishing the college in the high school program.

(SEE ALSO PROPOSED 1ST SUB)

Finds that: (1) Many high school students who wish to earn college credits are unable to participate in the running start program because they live in areas that do not have local colleges; and some students who would like to earn college credits while in high school do not participate in running start because they do not want to leave their high school campus in order to do so.

(2) Some high schools are currently working with colleges to offer dual credit courses on high school campuses to serve those students. However, there is no established statewide program or funding provided, so rules governing these programs vary and high school students pay varying amounts to cover the colleges' costs of working with high schools to offer the classes.

Declares an intent to establish the college in the high school program as a statewide option for high school students.

Requires the superintendent of public instruction, the state board for community and technical colleges, and the higher education coordinating board to jointly develop and adopt rules governing the college in the high school program. The rules shall be written to encourage the maximum use of the program and shall not narrow or limit the enrollment options.

**HB 1076-S** by House Committee on Higher Education & Workforce Education (originally sponsored by Representatives Kenney, Rodne, Sells, Quall, Dickerson, and Morrell; by request of Governor Locke)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that: (1) Many high school students who wish to earn college credits are unable to participate in the running start program because they live in areas that do not have local colleges; and some students who would like to earn college credits while in high school do not participate in running start because they do not want to leave their high school campus in order to do so.

(2) Some high schools are currently working with colleges to offer dual credit courses on high school campuses to serve those students. However, there is no established statewide program or funding provided, so rules governing these programs vary and high school students pay varying amounts to cover the colleges' costs of working with high schools to offer the classes.

Declares an intent to authorize the college in the high school pilot program to study its viability for expanding dual enrollment options for Washington state high school students.

Directs the superintendent of public instruction, the state board for community and technical colleges, and the higher education coordinating board to, in consultation with the institutions of higher education, and consistent with national standards, jointly develop and adopt rules governing the college in the high school pilot program. The rules shall allow for selection of up to six pilot sites where college in the high school program courses will be offered for three consecutive academic years beginning not later than the 2006-07 academic year. At least four of the pilot sites shall be in rural school districts where students have limited or no options for participation in the running start program.

Provides that, by December 1, 2009, the superintendent of public instruction, the state board for community and technical colleges, and the higher education coordinating board shall report to the legislature regarding the college in the high school pilot program.

Establishing a foster youth postsecondary education and training coordination committee.

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires the department to establish a foster youth postsecondary education and training coordination committee.

Provides that the duties of the coordination committee shall include, but are not limited to: (1) Assessing the scope and nature of statewide need among current and former foster youth for assistance to pursue and participate in postsecondary education or training opportunities;

(2) Identifying available sources of funding available in the state for services to former foster youth to pursue and participate in postsecondary education or training opportunities;

(3) Reviewing the effectiveness of activities in the state to support former foster youth to pursue and participate in postsecondary education or training opportunities;

(4) Identifying new activities, or existing activities that should be modified or expanded, to best meet statewide needs;

(5) Reviewing on an ongoing basis the progress toward improving educational and vocational outcomes for foster youth. Expires June 30, 2011.

**HB 1079-S** by House Committee on Higher Education & Workforce Education (originally sponsored by Representatives Kagi, Kenney, Chase, Dickerson, and Schual-Berke; by request of Governor Locke)

Regarding postsecondary education and training support for foster youth.

(DIGEST AS ENACTED)

Declares an intent to encourage and support foster youth to pursue postsecondary education or training opportunities. A coordination committee that provides statewide planning and oversight of related efforts will improve the effectiveness of both current and future initiatives to improve postsecondary educational outcomes for foster youth. In addition, the state can provide financial support to former foster youth pursuing higher education or training by setting aside portions of the state need grant and the state work study programs specifically for foster youth.

Provides that the duties of the oversight committee shall include, but are not limited to: (1) Assessing the scope and nature of statewide need among current and former foster youth for assistance to pursue and participate in postsecondary education or training opportunities;

(2) Identifying available sources of funding available in the state for services to former foster youth to pursue and participate in postsecondary education or training opportunities;

(3) Reviewing the effectiveness of activities in the state to support former foster youth to pursue and participate in postsecondary education or training opportunities;

(4) Identifying new activities, or existing activities that should be modified or expanded, to best meet statewide needs;

(5) Reviewing on an ongoing basis the progress toward improving educational and vocational outcomes for foster youth.

Declares that, as used in this act, "former foster youth" means a person who is at least eighteen years of age, but not more than twenty-four years of age, who was a dependent of the department of social and health services at the time he or she attained the age of eighteen.

Companion Bill: 5095

Improving the efficiency and predictability of the hydraulic  
 project approval program.

(SEE ALSO PROPOSED 1ST SUB)

Declares an intent to improve the process of regulating  
 construction in state waters with policy measures that improve  
 predictability for entities that work in state waters, and make the  
 best use of limited state resources by ensuring that regulatory  
 reviews of in-water construction are made in an efficient manner.

Requires the department to develop procedures to ensure  
 consistency of application of hydraulic project approval  
 conditions, to include the following: (1) Common technical  
 conditions for saltwater and freshwater projects. These common  
 technical conditions must, at a minimum, address allowable in-  
 water work periods, and must recognize the need to maintain an  
 economically competitive waterfront business and port  
 community, and must meet the needs of infrastructure  
 development as defined in RCW 90.74.010;

(2) Internal departmental permit review procedures that  
 promote consistency within and between regions; and

(3) Habitat protection guidance for regional staff that result in  
 predictable permit conditions for project applicants.

Establishes an expedited dispute resolution process to resolve  
 disputes regarding hydraulic project approvals issued under this  
 act.

Requires the department to, at the request of any person or  
 government agency, develop a renewable five-year maintenance  
 approval agreement or a hydraulic project approval mitigation  
 agreement to allow for work on public and private property for  
 bank stabilization, bridge repair, removal of sandbars and debris,  
 channel maintenance, and other flood damage repair and  
 reduction activity under reasonable agreed-upon conditions and  
 times without obtaining permits for specific projects.

Concerning the hydraulic project approval program.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that the hydraulic project approval provides critical protections for fish and fish habitat and is a key component of the state's approach to salmon recovery.

Finds that the hydraulic project approval is the only state permit solely intended to protect fish life.

Finds that the hydraulic project approval program needs to be redesigned to provide better customer service, improved consistency, and enhanced compliance and effectiveness monitoring.

Declares an intent to clarify the department of fish and wildlife's authority under chapter 77.55 RCW, streamline the application process to provide consistency and predictability for permit applicants, and ensure that those hydraulic projects with the highest potential risk to fish and fish habitat receive the highest priority.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Authorizes limited recreational activities, playing fields, and supporting facilities existing before January 1, 2004, on designated recreational lands in jurisdictions planning under RCW 36.70A.040.

Recognizes the need for playing fields and supporting facilities for sports played on grass as well as the need to preserve agricultural land of long-term commercial significance. With thoughtful and deliberate planning, and adherence to the goals and requirements of the growth management act, both needs can be met.

Acknowledges the state's interest in preserving the agricultural industry and family farms, and recognizes that the state's rich and productive lands enable agricultural production. Because of its unique qualities and limited quantities, designated agricultural land of long-term commercial significance is best suited for agricultural and farm uses, not recreational uses.

Acknowledges also that certain local governments have either failed or neglected to properly plan for population growth and the sufficient number of playing fields and supporting facilities needed to accommodate this growth.

Recognizes also that many local governments face difficult choices when determining whether to adequately fund needed services or to provide outdoor recreational facilities that enhance the health and quality of life of its citizenry.

Declares an intent to establish a study committee on outdoor recreation to examine relevant issues and seek long-term solutions for local governments as they respond to growing needs for recreational facilities.

Establishing reporting requirements to monitor the effectiveness of tax incentives.

(SEE ALSO PROPOSED 1ST SUB)

Declares that, in order to improve the effectiveness of tax incentives for supporting private enterprise and to ensure that they achieve the goal of raising living standards for working families and strengthening the Washington state economy, the legislature finds it necessary to collect, analyze, and make publicly available information regarding those tax incentives.

**HB 1094-S** by House Committee on Finance (originally sponsored by Representatives Santos, Hasegawa, Conway, Darneille, Chase, Hudgins, Dickerson, Schual-Berke, Morrell, Wood, and McCoy)

Modifying tax incentive reporting requirements.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares an intent to require businesses benefitting from certain tax incentives to complete annual surveys to provide information necessary to measure the state's return on investment in tax incentives through an evaluation of the quantity and quality of employment offered by such persons, the expansion and diversification of the state's economy, and business growth and retention.

Intends that annual surveys not unduly increase the administrative burden on business, and therefore, annual surveys should borrow from other state and federal definitions and reporting requirements to the maximum extent possible.

Companion Bill: 5120

Managing water resources for the mainstem of the Columbia river.

Declares an intent to establish a new state water resource management program for the mainstem of the Columbia river in order to meet the water supply needs of growing communities and the local economies on which they depend, and to do so in a manner that protects and enhances the quality of the natural environment, including streamflows necessary for the preservation of environmental values.

Establishes the Columbia river mainstem water management program. The goals of this water management program are to: (1) Meet the water supply needs of growing communities and the local economies on which they depend by providing a timely and affordable supply of water that will allow for new and reliable uses of water from the Columbia river mainstem; and

(2) Manage water to protect and enhance the quality of the natural environment, including streamflows necessary for the preservation of environmental values by securing and dedicating water to improve streamflows in the river mainstem.

Declares that the objectives of the program are to: (1) Improve the reliability of water rights issued by the department between 1980 and 2003 that are subject to minimum instream flows or other mitigation conditions to protect streamflows;

(2) Improve streamflows during the primary period of fish optimization on the mainstem; and

(3) Mitigate for the streamflow impacts of future water right permits as provided by the program.

Requires the department to prepare a biennial report on the status of the program. The report shall be transmitted to the appropriate standing committees of the legislature and the governor by December 31st of even-numbered years.

Provides that, ten years after the effective date of this act, and every ten years thereafter, the department shall conduct a formal review of the effectiveness of the program. The review shall include independent evaluations of the economic and scientific information that provide the premises of the program.

Provides that, as part of the biennial report required by this act, the department shall notify the governor and legislature of the timing and proposed process for the formal review and shall request funding to conduct the necessary independent reviews as part of their biennial budget request to the governor. Upon completion of the review, the department shall prepare and transmit a report of the findings of the review, including any recommendations for legislative changes to the program.

Regulating petition signature gatherers.

Finds that paying workers who gather signatures for initiatives and referendum petitions on the basis of the number of signatures the worker secures increases the possibility of fraud in the signature gathering process. This practice may encourage the signature gatherer to misrepresent the ballot measure, to apply undue pressure on a person to sign a petition that the person is not qualified to sign, to encourage signing even if the person has previously signed, or to invite forgery.

Provides that a person who solicits or collects signatures on a statewide initiative or referendum petition must be a resident of Washington and must be at least eighteen years of age.

Provides that a person who pays another for soliciting or collecting signatures on an initiative or referendum petition must pay wages at an hourly rate or salary equal to or more than the minimum wage established under RCW 49.46.020. The department of labor and industries must enforce this provision in a manner consistent with Title 49 RCW.

Companion Bill: 5141

Providing for early intervention services for children with disabilities.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds an urgent and substantial need to enhance the development of all infants and toddlers with disabilities in Washington in order to minimize developmental delays and to maximize individual potential for learning and functioning.

Requires that, by September 1, 2008, each school district shall provide or contract for early intervention services to all eligible children with disabilities from birth to three years of age. Eligibility shall be determined according to Part C of the federal individuals with disabilities education act and as specified in the Washington Administrative Code.

Establishes a birth-to-three task force to make recommendations concerning policies, procedures, and regulations in order to ensure implementation of an equitable statewide comprehensive system for all eligible children with disabilities from birth to three years of age.

Requires the birth-to-three task force to submit a report to the governor and the superintendent of public instruction by December 1, 2006, outlining their recommendations.

(DIGEST AS ENACTED)

Finds an urgent and substantial need to enhance the development of all infants and toddlers with disabilities in Washington in order to minimize developmental delays and to maximize individual potential for learning and functioning.

Requires that, by September 1, 2009, each school district shall provide or contract for early intervention services to all eligible children with disabilities from birth to three years of age. Eligibility shall be determined according to Part C of the federal individuals with disabilities education act and as specified in the Washington Administrative Code.

Provides that school districts shall provide or contract for early intervention services in partnership with local birth-to-three lead agencies and birth-to-three providers. Services provided under this act shall not supplant services or funding currently provided in the state for early intervention services to eligible children with disabilities from birth to three years of age. The state-designated birth-to-three lead agency shall be payor of last resort for birth-to-three early intervention services provided under this act.

Declares that the services in this act are not part of the state's program of basic education pursuant to Article IX of the state Constitution.

**HB 1108** by Representatives Grant, Walsh, Wallace, Rodne, Wood, Morrell, Lovick, Williams, Jarrett, Kilmer, Simpson, Kessler, Chase, and Dickerson

Providing additional limitations for vehicles passing pedestrians or bicyclists.

(DIGEST AS ENACTED)

Provides that the driver of a vehicle approaching a pedestrian or bicycle that is on the roadway or on the right-hand shoulder or bicycle lane of the roadway shall pass to the left at a safe distance to clearly avoid coming into contact with the pedestrian or bicyclist, and shall not again drive to the right side of the roadway until safely clear of the overtaken pedestrian or bicyclist.

Provides that no vehicle shall be driven on the left side of the roadway when a bicycle or pedestrian is within view of the driver and is approaching from the opposite direction, or is present, in the roadway, shoulder, or bicycle lane within a distance unsafe to the bicyclist or pedestrian due to the width or condition of the roadway, shoulder, or bicycle lane.

Declares that nothing in RCW 46.61.110, 46.61.120, or 46.61.125 relieves pedestrians and bicyclists of their legal duties while traveling on public highways.

**HB 1113-S** by House Committee on Criminal Justice & Corrections (originally sponsored by Representatives Wallace, Jarrett, Fromhold, Armstrong, Moeller, Lovick, Morrell, Kilmer, Dickerson, Appleton, Wood, Ormsby, Sells, and Chase)

(DIGEST AS ENACTED)

Declares that "signal preemption device" means a device that is capable of altering the normal operation of a traffic control signal. Any such device manufactured by a vehicle manufacturer is not a signal preemption device for purposes of this section if the primary purpose of the device is any purpose other than the preemption of traffic signals and the device's ability to alter traffic signals is unintended and incidental to the device's primary purpose.

Provides that signal preemption devices shall not be installed or used on or with any vehicle other than an emergency vehicle authorized by the state patrol, a publicly owned law enforcement or emergency vehicle, a department of transportation, city, or county maintenance vehicle, or a public transit vehicle.

Provides that it is unlawful to possess a signal preemption device except as authorized in this act.

Declares that a person who violates this provision is guilty of a misdemeanor.

Provides that it is unlawful to: (1) Use a signal preemption device except as authorized in this act;

(2) Sell a signal preemption device to a person other than a person described in this act; or

(3) Purchase a signal preemption device for use other than a duty as described in this act.

Increasing the highway weight limit for the movement of certain farm implements.

(SUBSTITUTED FOR - SEE 1ST SUB)

Amends RCW 46.44.130 to state that the limitations of RCW 46.44.010, 46.44.020, 46.44.030, and 46.44.041 shall not apply to the movement of farm implements of less than one hundred sixty thousand pounds gross weight for farm implements transporting dairy nutrients that comply with the provisions of chapter 90.64 RCW or forty-five thousand pounds gross weight for all other farm implements.

**HB 1117-S** by House Committee on Transportation (originally sponsored by Representatives Ericksen, Linville, Newhouse, Buri, Strow, and B. Sullivan)

Modifying provisions for the transport of farm implements on highways.

(DIGEST AS ENACTED)

Directs the Washington state department of transportation to study the issue of enabling Washington state farms to operate in an economically feasible manner while following federal and state laws, including laws regarding livestock nutrient management, and protecting state roads and highways. The department shall work with the United States department of transportation, local transportation authorities, transportation agencies in other states, and legislative members and/or staff. By December 1, 2005, the department shall report its findings and recommendations to the transportation committees of the legislature.

VETO MESSAGE ON HB 1117-S

April 20, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 2, Substitute House Bill 1117 entitled:

This legislation requires the Washington state Department of Transportation to study the issue of enabling Washington state farms to operate in an economically feasible manner while following federal and state laws and protecting state roads and highways.

The bill also permits overweight farm implements transporting dairy nutrients, in order to comply with the Dairy Nutrient Management Act, to travel over city and county roads. Cities and counties may enact restrictions on the movement of these farm implements.

Farming and the maintenance of our streets and roads are both vital economic interests in our state. I recognize that our farmers are faced with many challenges as they try to operate efficiently and profitably, while complying with environmental and transportation regulations. The economic impact of stricter transportation regulations on our farmers is an issue that needs to be resolved. I am vetoing, therefore, only the emergency clause in the bill (Section 2) to give our local jurisdictions time to take whatever actions they deem necessary to best protect their streets and roads. I view this legislation as a temporary solution. I fully expect the Department's study and subsequent recommendations to result in legislation next session that will resolve this issue for both our farmers and local jurisdictions.

We cannot afford to lose our farms; but we also cannot afford to damage our roads and streets in this time of very limited revenue.

For these reasons, I have signed Section 1 and vetoed Section 2 of Substitute House Bill 1117.

Respectfully submitted,  
Christine O. Gregoire  
Governor

**HB 1118** by Representatives Ericksen, DeBolt, Sump, Kristiansen, Holmquist, Roach, Newhouse, and Pearson

Concerning the removal of gravel from waterways to reduce flooding.

Provides that the legislative authority of any county may remove gravel from streams or other watercourses when the gravel removal is deemed by the county legislative authority to be beneficial in reducing the impact of potential flooding.

Provides that, prior to removing gravel, the county legislative authority must first contact the department of fish and wildlife for a suggestion of when gravel removal would have the minimum impact on aquatic life. Except in an emergency situation, the actual removal of gravel should occur as close as possible to the dates provided by the department of fish and wildlife.

Provides that the legislative authority of a county may only exercise the authority granted under this act to remove gravel from streams or other watercourses if the area of the county from which the gravel is to be removed is not within the jurisdiction of an active diking district organized under chapter 85.05 RCW or an active flood control district organized under chapter 86.09 RCW.

Applies also to flood control districts and diking districts.

Declares that the department may not prohibit, penalize, or condition a flood control district operating under this act, a diking district operating under this act, or a county legislative authority operating under RCW 36.32.290 when removing gravel from streams or other watercourses for flood control or flood impact reduction purposes.

Provides that, however, the department shall, when requested by a flood control district, diking district, or county, provide a range of suggested dates when gravel removal will have the minimum impact to aquatic life.

Companion Bill: 5029

Requiring safe drinking water in schools.

Finds that although water delivered from the community's public water system must meet federal and state standards for lead and other contaminants, a school building may still have unacceptable drinking water contamination levels due to pipes, plumbing materials, and water use patterns within the school facility.

Finds that the best way to ensure that drinking water is safe in a particular school building is to test drinking and cooking water outlets such as taps, bubblers, and fountains, and to promptly correct problems where contaminant concentrations are found to exceed safe levels.

Requires the board to adopt, by rule, drinking water quality standards for lead, copper, cadmium, and corrosion within school facilities.

Authorizes the board to adopt, by rule, school drinking water quality standards for other contaminants if the board determines that: (1) The presence of such contaminants is not due to insufficient implementation of public water system standards or corrosion treatment protocols; and

(2) Setting school drinking water standards for such contaminants is necessary to protect public health and safety.

Requires the department to examine compliance with adopted standards and rules and provide a report to the appropriate committees of the legislature biennially, beginning December 1, 2007. In the report due December 1, 2011, the department shall report on the status of testing, disclosure of test results, and corrective actions taken at school facilities across the state.

Requires this report to include any recommendations, in bill form, for legislation that would improve compliance with, or facilitate the enforcement or achievement of, school safe drinking water standards established under this act, including any needed compliance enforcement authority to be added to this act.

Does not apply to schools that are regulated as nontransient noncommunity systems under chapter 246-290 WAC.

Companion Bill: 5231

Modifying the definition of "conviction" for chapter 77.15 RCW.  
 (REVISED FOR PASSED LEGISLATURE: Concerning the  
 revocation and suspension of hunting and fishing privileges.)

(DIGEST AS ENACTED)

Provides that, if a person is convicted of an offense, has an  
 uncontested notice of infraction, fails to appear at a hearing to  
 contest an infraction, or is found to have committed an infraction  
 three times in ten years involving any violation of recreational  
 hunting or fishing laws or rules, the department shall order a  
 revocation and suspension of all recreational hunting and fishing  
 privileges for two years.

Declares that a violation punishable as an infraction counts  
 towards the revocation and suspension of recreational hunting and  
 fishing privileges only where that violation is: (1) Punishable as a  
 crime on the effective date of this act and is subsequently  
 decriminalized; or

(2) One of the following violations, as they exist on the  
 effective date of this act: RCW 77.15.160 (1) or (2); WAC 220-  
 56-116; WAC 220-56-315(11); or WAC 220-56-355 (1) through  
 (4).

Authorizes the commission to, by rule, designate additional  
 infractions that do not count towards the revocation and  
 suspension of recreational hunting and fishing privileges.

Provides that neither the commission nor the director have the  
 authority to adopt a rule providing that a violation punishable as  
 an infraction shall be a crime.

Creating an open government ombudsman.

(SEE ALSO PROPOSED 1ST SUB)

Creates the office of the open government ombudsman within the office of the state auditor to provide information on public records and open public meetings to state and local agencies and the public, represent the public in obtaining public records from state and local agencies, and maintain a web site to assist the public in obtaining information and public records under this chapter.

Provides that the office of the open government ombudsman shall perform the following duties: (1) Provide training and legal advice to state and local agencies and the public on the rights and responsibilities of individuals requesting public records, on the procedures for obtaining public records, and on the responsibilities of state and local agencies to release records;

(2) Upon receipt of a legally sufficient complaint, investigate the refusal of an agency to disclose public records and provide legal representation for individuals alleging: (a) They have a legal claim of access to public records; (b) the agency has redacted information that should be disclosed; or (c) there has been a delay in disclosing records;

(3) Provide training to state and local agencies on agency responsibilities relating to open public meetings;

(4) Submit annually by November 1st to the auditor and appropriate committees of the legislature a report analyzing the work of the office of the open government ombudsman;

(5) Establish and maintain a public records clearinghouse and informational web site; and

(6) Adopt rules necessary to implement this act.

Companion Bill: 5165

Expanding the DNA identification system.

Provides that, beginning January 1, 2006, it is the duty of the sheriff or director of public safety of every county, and the chief of police of every city or town, and of every chief officer of other law enforcement agencies duly operating within this state, to cause the collection of biological samples for DNA identification analysis from all adults and juveniles lawfully arrested for the commission of any criminal offense constituting a felony, gross misdemeanor, or patronizing a prostitute under RCW 9A.88.110.

Declares that biological samples collected under this provision shall be: (1) Collected using the same technique biological samples are collected under RCW 43.43.754;

(2) Forwarded to the forensic laboratory services bureau of the Washington state patrol for inclusion in the DNA identification system established under RCW 43.43.752 through 43.43.759; and

(3) Used solely for the purposes of inclusion in the DNA identification system established under RCW 43.43.752 through 43.43.759.

Applies to all adults and juveniles who are arrested on or after January 1, 2006.

Does not apply unless local law enforcement agencies are reimbursed for biological sample collection costs as provided for under RCW 43.43.7532.

Ordering a study of electronic monitoring systems.

(DIGEST AS ENACTED)

Requires the Washington association of sheriffs and police chiefs to conduct a comprehensive study on electronic monitoring in every state. The study shall review and analyze each state's activity regarding electronic monitoring. Specifically, the study shall include: (1) How often electronic monitoring is used;

(2) A description of laws and circumstances of when an offender is placed on electronic monitoring;

(3) The discovery and analysis of specific programs used to promote electronic monitoring and how they are operated;

(4) The type of electronic monitoring technology used;

(5) Evaluation of offender pay programs and the amount of money recovered from these programs;

(6) Overall perceptions of electronic monitoring from the criminal justice community, and any real or perceived problems or concerns with electronic monitoring;

(7) Estimates on savings realized by utilizing electronic monitoring.

Requires the findings and any recommendations from the study to be placed into a final report and presented to the legislature no later than December 31, 2005.

Directs the department to work with the Washington association of sheriffs and police chiefs to establish and operate an electronic monitoring program for low-risk offenders who violate the terms of their community custody. Between January 1, 2006, and December 31, 2006, the department shall endeavor to place at least one hundred low-risk community custody violators on the electronic monitoring program per day if there are at least that many low-risk offenders who qualify for the electronic monitoring program.

Provides that local governments, their subdivisions and employees, the department and its employees, and the Washington association of sheriffs and police chiefs and its employees shall be immune from civil liability for damages arising from incidents involving low-risk offenders who are placed on electronic monitoring unless it is shown that an employee acted with gross negligence or bad faith.

Provides that the act shall be null and void if appropriations are not approved.

VETO MESSAGE ON HB 1136

May 13, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 4, House Bill No. 1136 entitled:

Section 3 of the bill requires the Department of Corrections to operate an electronic monitoring program beginning on January 1, 2006. In its entirety, Section 4 states: "This act expires December 31, 2005." Section 4 was apparently left in the bill inadvertently after Section 3 was added. Section 3 cannot be effective if Section 4 remains in the bill.

For these reasons, I have vetoed Section 4 of House Bill No. 1136.

With the exception of Section 4, House Bill No. 1136 is approved.

Respectfully submitted,

Christine O. Gregoire  
Governor

Modifying the scope of care provided by physical therapists.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares that it is the purpose of this act to protect the public health, safety, and welfare, and to provide for state administrative control, supervision, licensure, and regulation of the practice of physical therapy.

Declares an intent that only individuals who meet and maintain prescribed standards of competence and conduct be allowed to engage in the practice of physical therapy as defined and authorized by chapter 18.74 RCW.

Declares that physical therapists are responsible for patient care given by assistive personnel under their supervision. A physical therapist may delegate to assistive personnel and supervise selected acts, tasks, or procedures that fall within the scope of physical therapy practice but do not exceed the education or training of the assistive personnel.

Declares that nothing in this act may be construed to prohibit other licensed health care providers from using the services of physical therapist assistants, physical therapist aides, or other assistive personnel as long as the licensed health care provider is responsible for the activities of such assistants, aides, and other personnel and provides appropriate supervision.

(DIGEST AS ENACTED)

Declares that it is the purpose of this act to protect the public health, safety, and welfare, and to provide for state administrative control, supervision, licensure, and regulation of the practice of physical therapy.

Declares an intent that only individuals who meet and maintain prescribed standards of competence and conduct be allowed to engage in the practice of physical therapy as defined and authorized by chapter 18.74 RCW.

Declares that it is unlawful for any person to practice or in any manner hold himself or herself out to practice physical therapy or designate himself or herself as a physical therapist, unless he or she is licensed in accordance with this act.

Requires a physical therapist to refer persons under his or her care to appropriate health care practitioners if the physical therapist has reasonable cause to believe symptoms or conditions are present that require services beyond the scope of practice under this chapter or when physical therapy is contraindicated.

Provides that a physical therapist may perform electroneuromyographic examinations for the purpose of testing neuromuscular function only by referral from an authorized health care practitioner and only upon demonstration of further education and training in electroneuromyographic examinations as established by rule. Within two years after July 1, 2005, the secretary shall waive the requirement for further education and training for those physical therapists licensed under this chapter who perform electroneuromyographic examinations.

Declares that physical therapists are responsible for patient care given by assistive personnel under their supervision. A physical therapist may delegate to assistive personnel and supervise selected acts, tasks, or procedures that fall within the scope of physical therapy practice but do not exceed the education or training of the assistive personnel.

Declares that nothing in this act may be construed to prohibit other licensed health care providers from using the services of physical therapist assistants, physical therapist aides, or other assistive personnel as long as the licensed health care provider is responsible for the activities of such assistants, aides, and other personnel and provides appropriate supervision.

**HB 1144** by Representatives Haigh, Nixon, McDermott, Morrell, and Schual-Berke; by request of Public Disclosure Commission

Companion Bill: 5034

Making restrictions on campaign funding.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that: (1) Timely disclosure to voters of the identity and sources of funding for electioneering communications is vitally important to the integrity of state, local, and judicial elections.

(2) Electioneering communications that identify political candidates for state, local, or judicial office and that are distributed sixty days before an election for those offices are intended to influence voters and the outcome of those elections.

(3) The state has a compelling interest in providing voters information about electioneering communications in political campaigns concerning candidates for state, local, or judicial office so that voters can be fully informed as to the: (a) Source of support or opposition to those candidates; and (b) identity of persons attempting to influence the outcome of state, local, and judicial candidate elections.

(4) Nondisclosure of financial information about advertising that masquerades as relating only to issues and not to candidate campaigns fosters corruption or the appearance of corruption. These consequences can be substantially avoided by full disclosure of the identity and funding of those persons paying for such advertising.

(5) The United States supreme court held in *McConnell et al. v. Federal Elections Commission*, 540 U.S. 93, 124 S.Ct. 619, 157 L.Ed.2d 491 (2003) that speakers seeking to influence elections do not possess an inviolable free speech right to engage in electioneering communications regarding elections, including

when issue advocacy is the functional equivalent of express advocacy. Therefore, such election campaign communications can be regulated and the source of funding disclosed.

(6) The state also has a sufficiently compelling interest in preventing corruption in political campaigns to justify and restore contribution limits and restrictions on the use of soft money in RCW 42.17.640. Those interests include restoring restrictions on the use of such funds for electioneering communications, as well as the laws preventing circumvention of those limits and restrictions.

Declares that, based upon the findings, this act is narrowly tailored to accomplish the following and is intended to: (1) Improve the disclosure to voters of information concerning persons and entities seeking to influence state, local, and judicial campaigns through reasonable and effective mechanisms, including improving disclosure of the source, identity, and funding of electioneering communications concerning state, local, and judicial candidate campaigns;

(2) Regulate electioneering communications that mention state, local, and judicial candidates and that are broadcast, mailed, erected, distributed, or otherwise published right before the election so that the public knows who is paying for such communications;

(3) Reenact and amend the contribution limits in RCW 42.17.640 (6) and (14) and the restrictions on the use of soft money, including as applied to electioneering communications, as those limits and restrictions were in effect following the passage of chapter 2, Laws of 1993 (Initiative No. 134) and before the state supreme court decision in *Washington State Republican Party v. Washington State Public Disclosure Commission*, 141 Wn.2d 245, 4 P.3d 808 (2000). The commission is authorized to fully restore the implementation of the limits and restrictions of RCW 42.17.640 (6) and (14) in light of *McConnell et al. v. Federal Elections Commission*, 540 U.S. 93, 124 S.Ct. 619, 157 L.Ed.2d 491 (2003). The United States supreme court upheld the disclosure and regulation of electioneering communications in political campaigns, including but not limited to issue advocacy that is the functional equivalent of express advocacy;

(4) Authorize the commission to adopt rules to implement this act.

**HB 1144-S** by House Committee on State Government Operations & Accountability (originally sponsored by Representatives Haigh, Nixon, McDermott, Morrell, and Schual-Berke; by request of Public Disclosure Commission)

(AS OF HOUSE 2ND READING 3/08/05)

Finds that: (1) Timely disclosure to voters of the identity and sources of funding for electioneering communications is vitally important to the integrity of state, local, and judicial elections.

(2) Electioneering communications that identify political candidates for state, local, or judicial office and that are distributed sixty days before an election for those offices are intended to influence voters and the outcome of those elections.

(3) The state has a compelling interest in providing voters information about electioneering communications in political campaigns concerning candidates for state, local, or judicial office so that voters can be fully informed as to the: (a) Source of support or opposition to those candidates; and (b) identity of persons attempting to influence the outcome of state, local, and judicial candidate elections.

(4) Nondisclosure of financial information about advertising that masquerades as relating only to issues and not to candidate campaigns fosters corruption or the appearance of corruption. These consequences can be substantially avoided by full disclosure of the identity and funding of those persons paying for such advertising.

(5) The United States supreme court held in *McConnell et al. v. Federal Elections Commission*, 540 U.S. 93, 124 S.Ct. 619, 157 L.Ed.2d 491 (2003) that speakers seeking to influence elections do not possess an inviolable free speech right to engage in electioneering communications regarding elections, including when issue advocacy is the functional equivalent of express

advocacy. Therefore, such election campaign communications can be regulated and the source of funding disclosed.

(6) The state also has a sufficiently compelling interest in preventing corruption in political campaigns to justify and restore contribution limits and restrictions on the use of soft money in RCW 42.17.640. Those interests include restoring restrictions on the use of such funds for electioneering communications, as well as the laws preventing circumvention of those limits and restrictions.

Declares that, based upon the findings, this act is narrowly tailored to accomplish the following and is intended to: (1) Improve the disclosure to voters of information concerning persons and entities seeking to influence state, local, and judicial campaigns through reasonable and effective mechanisms, including improving disclosure of the source, identity, and funding of electioneering communications concerning state, local, and judicial candidate campaigns;

(2) Regulate electioneering communications that mention state, local, and judicial candidates and that are broadcast, mailed, erected, distributed, or otherwise published right before the election so that the public knows who is paying for such communications;

(3) Reenact and amend the contribution limits in RCW 42.17.640 (6) and (14) and the restrictions on the use of soft money, including as applied to electioneering communications, as those limits and restrictions were in effect following the passage of chapter 2, Laws of 1993 (Initiative No. 134) and before the state supreme court decision in *Washington State Republican Party v. Washington State Public Disclosure Commission*, 141 Wn.2d 245, 4 P.3d 808 (2000). The commission is authorized to fully restore the implementation of the limits and restrictions of RCW 42.17.640 (6) and (14) in light of *McConnell et al. v. Federal Elections Commission*, 540 U.S. 93, 124 S.Ct. 619, 157 L.Ed.2d 491 (2003). The United States supreme court upheld the disclosure and regulation of electioneering communications in political campaigns, including but not limited to issue advocacy that is the functional equivalent of express advocacy;

(4) Authorize the commission to adopt rules to implement this act.

Protecting communities from sex offenders through the establishment of community protection zones.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides for the protection of communities from sex offenders through the establishment of community protection zones.

Provides that, within two years of the effective date of this act, each school district shall conduct at least one public hearing regarding the question of whether the district should adopt a written policy on notifying parents and guardians of students attending a school when the school receives a sex offender community notification under RCW 4.24.550.

Provides that, in order to provide adequate notice to the public of the meeting, the district shall make a good faith effort to provide at least fourteen days' advance notice of the meeting to:

- (1) All newspapers of general circulation in the community;
- (2) All local radio and television stations generally available to persons in the community; and
- (3) All parents and guardians of students attending schools in the district.

Declares that nothing in this provision shall be interpreted to impose a duty on behalf of the school district to adopt such a policy.

**HB 1147-S** by House Committee on Criminal Justice & Corrections (originally sponsored by Representatives Clements, O'Brien, Skinner, Woods, Pearson, Simpson, Lovick, Tom, and B. Sullivan)

(DIGEST AS ENACTED)

Provides for the protection of communities from sex offenders through the establishment of community protection zones.

Declares that "community protection zone" means the area within eight hundred eighty feet of the facilities and grounds of a public or private school.

Provides that, if the offense that caused the offender to be sentenced under this section was an offense listed in this act and the victim of the offense was under eighteen years of age at the time of the offense, the court shall, as a condition of community custody, prohibit the offender from residing in a community protection zone.

Provides that, for any offender prohibited from living in a community protection zone under RCW 9.94A.712(6)(a)(ii), the

department may not approve a residence location if the proposed residence is in a community protection zone.

Establishes the joint task force on sex offender management to examine issues of community safety and the management of sex offenders in the community and shall work in collaboration with the partnership for community safety.

Requires the task force to make recommendations to the governor and the legislature not later than December 1, 2005, on the following subjects: (1) The effectiveness of community protection zones and other strategies to promote community safety, including recommendations on proactive and reactive approaches to sex offender residence locations and any statutory, constitutional, or practical limitations on the state's ability to address sex offender housing requirements;

(2) Standardization of the community sex offender notification process;

(3) Applicability of the public disclosure act to sex offender information sharing;

(4) The training needs of law enforcement, criminal justice staff, and school personnel to increase community safety in relationship to sex offender notification and management strategies; and

(5) The impact and advisability of prenotification of local government officials related to sex offender residence location.

Provides that law enforcement agencies and the department of corrections are immune from civil liability for damages from discretionary decisions made under this act if they make a good faith effort to comply with this act.

Regulating the keeping of dangerous wild animals.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that a person shall not own, possess, keep, harbor, bring into the state, or have custody or control of a potentially dangerous wild animal, except as provided in this act.

Declares that a person shall not breed a potentially dangerous wild animal.

Provides that a person in legal possession of a potentially dangerous wild animal prior to the effective date of this act and who is the legal possessor of the animal may keep possession of the animal until July 1, 2010.

Provides that the animal control authority or a law enforcement officer may immediately confiscate a potentially dangerous wild animal if: (1) The animal is possessed after July 1, 2010, and the possessor has not been granted permission to maintain possession after July 1, 2010, as allowed under this act;

(2) The animal control authority or law enforcement officer has probable cause to believe that the animal was acquired after the effective date of this act in violation of this act; or

(3) The animal poses a public safety or health risk.

Authorizes a city or county to adopt an ordinance governing potentially dangerous wild animals that is more restrictive than this act. However, nothing in this act requires a city or county to adopt an ordinance to be in compliance with this act.

Declares that a person who acquires possession of a potentially dangerous wild animal after the effective date of this act, or who possesses a potentially dangerous wild animal after July 1, 2010, in violation of this act, is liable for a civil penalty of not less than two hundred dollars and not more than two thousand dollars for each animal with respect to which there is a violation and for each day the violation continues.

Provides that the animal control authority and its staff and agents, local law enforcement agents, and county sheriffs are authorized and empowered to enforce the provisions of this act.

Provides that, if a locality does not have a local animal control authority, the department of fish and wildlife shall enforce the provisions of this act.

(AS OF HOUSE 2ND READING 1/18/06)

Provides that a person shall not own, possess, keep, harbor, bring into the state, or have custody or control of a potentially dangerous wild animal, except as provided in this act.

Declares that a person shall not breed a potentially dangerous wild animal.

Provides that a person in legal possession of a potentially dangerous wild animal prior to the effective date of this act and who is the legal possessor of the animal may keep possession of the animal for the remainder of the animal's life. The person must maintain veterinary records, acquisition papers for the animal, if available, or other documents or records that establish that the person possessed the animal prior to the effective date of this act. The person shall have the burden of proving that he or she possessed the animal prior to the effective date of this act.

Provides that the animal control authority or a law enforcement officer may immediately confiscate a potentially dangerous wild animal if: (1) The animal control authority or law enforcement officer has probable cause to believe that the animal was acquired after the effective date of this act in violation of this act; or

(2) The animal poses a public safety or health risk.

Authorizes a city or county to adopt an ordinance governing potentially dangerous wild animals that is more restrictive than this act. However, nothing in this act requires a city or county to adopt an ordinance to be in compliance with this act.

Provides that a person who violates section 4 of this act is liable for a civil penalty of not less than two hundred dollars and not more than two thousand dollars for each animal with respect to which there is a violation and for each day the violation continues.

Provides that the animal control authority and its staff and agents, local law enforcement agents, and county sheriffs are authorized and empowered to enforce the provisions of this act.

Creating a Washington early learning council.

(SUBSTITUTED FOR - SEE 2ND SUB)

Declares an intent to build on the efforts of communities across the state to improve the quality of early learning environments available to children and their families, as well as the information available to families relating to those early learning environments.

Recognizes that efforts to improve early learning must build upon existing partnerships between the public and private sectors. The experiences and resources of both public and private entities are essential to making meaningful and lasting improvements in the quality of early learning environments across the state. Statewide leadership is needed to guide and support the efforts of the private and public sectors working together to make systemwide improvements in the quality, affordability, and accessibility of early learning opportunities.

Declares an intent to establish an effective oversight body, composed of representation from the public and private sectors, to provide leadership and vision to strengthen the quality of early learning services and programs for all children and families in the state.

Repeals RCW 74.13.090 and 74.13.0901.

(SUBSTITUTED FOR - SEE 2ND SUB)

Declares an intent to build on the efforts of communities across the state to improve the quality of early learning environments available to children and their families, as well as the information available to families relating to those early learning environments.

Recognizes that efforts to improve early learning must build upon existing partnerships between the public and private sectors. Statewide leadership is needed to guide and support the efforts of the private and public sectors working together to make systemwide improvements in the quality, affordability, and accessibility of early learning opportunities.

Declares an intent to establish an effective oversight body, composed of representation from the public and private sectors, to provide leadership and vision to strengthen the quality of early learning services and programs for all children and families in the state.

Establishes the Washington early learning council in the governor's office. The purpose of the council is to provide vision, leadership, and direction to the improvement, realignment, and expansion of early learning programs and services for children birth to five years of age in order to better meet the early learning needs of children and their families. The goal of the council is to build upon existing efforts and recommend new initiatives, as necessary, to create an adequately financed, high-quality, accessible, and comprehensive early learning system that benefits all young children whose parents choose it.

Requires the council to develop a voluntary, quality-based, graduated rating system consisting of levels of quality to be achieved by licensed child care providers serving children and families in the state. The purpose of the rating system is to provide families with vital information about the quality of early learning programs available to them and to increase the quality of early learning programs operating throughout the state. In developing the voluntary rating system, the council shall seek to build upon existing partnerships and initiate new partnerships between the public and private sectors.

Declares that implementation of the voluntary rating system shall initially consist of two pilot sites in different geographic regions of the state with demonstrated public-private partnerships to support implementation. In developing the voluntary rating system, the council shall make recommendations concerning both initial and subsequent statewide implementation of the rating system, including the following: (1) Potential implementing entities;

(2) Sources of funding for implementation;

(3) Necessary infrastructure for facilitating and supporting participation in the rating system, including assistance necessary to help providers progress up the tiers; and

(4) Strategies for raising public awareness of the rating system.

Directs the council to complete initial development of the voluntary rating system by December 1, 2005, and begin initial implementation of the two pilot sites by March 30, 2006.

Directs the council to develop a tiered-reimbursement system that provides higher rates of reimbursement for state-subsidized child care for licensed child care providers that achieve one or more levels of quality above basic licensing requirements in accordance with the voluntary quality-based graduated rating system developed pursuant to this act.

Requires the council to complete development of the tiered-reimbursement system by December 1, 2005.

Repeals RCW 74.13.090 and 74.13.0901.

In developing the voluntary rating system, the council shall seek to build upon existing partnerships and initiate new partnerships between the public and private sectors.

Directs the council to complete initial development of the voluntary rating system by December 1, 2005, and begin initial implementation of the two pilot sites by March 30, 2006.

Directs the council to develop a tiered-reimbursement system that provides higher rates of reimbursement for state-subsidized child care for licensed child care providers that achieve one or more levels of quality above basic licensing requirements in accordance with the voluntary quality-based graduated rating system developed pursuant to this act.

Requires the council to complete development of the tiered-reimbursement system by December 1, 2005, and begin initial implementation of the two pilot sites by March 30, 2006.

Repeals RCW 74.13.090 and 74.13.0901.

Provides that the act shall be null and void if appropriations are not approved.

**HB 1153** by Representatives Springer, Nixon, Clibborn, Jarrett, Simpson, P. Sullivan, Shabro, and B. Sullivan

Equalizing the costs of providing municipal services to newly annexed areas.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that a voter-approved temporary annexation surtax on utility services would provide the revenues needed to provide vital municipal services paid for by the residents of the annexation area. Because utility taxes are paid by property owners and renters alike, the temporary surtax will spread the burden upon all residents in annexation areas.

Declares that, because it is temporary, it will provide revenue during a transition period necessary to establish those municipal services needed in the newly annexed area.

Declares an intent of this act to provide an additional tool to enable cities to annex unincorporated areas that lie within designated urban growth areas when the residents of those annexation areas vote to approve the annexation.

Companion Bill: 5706

Concerning the licensing of certain dental health care providers.

Provides that dental hygienists licensed under chapter 18.29 RCW with two years' practical clinical experience with a licensed dentist within the preceding five years may perform all dental operations and services authorized under RCW 18.29.050 without dental supervision. However, the administration of local anesthetic and nitrous oxide may only be performed under the close supervision of a licensed dentist or physician.

Creates the board of dental hygiene.

Provides that in addition to other duties specified in chapter 18.29 RCW, the board of dental hygiene has the following powers and duties: (1) To develop and administer, or approve, or both, examinations to applicants for licensure under this chapter;

(2) To establish the qualifications of persons applying for licensure as a dental hygienist under this chapter and to certify to the secretary duly qualified applicants;

(3) To adopt rules not inconsistent with the laws of this state as may be deemed necessary or proper to carry out the purposes of this chapter;

(4) To establish and administer requirements for continuing competency, which shall be a prerequisite to renewing a license under this chapter;

(5) To keep an official record of all board of dental hygiene proceedings. The record is evidence of all proceedings of the board of dental hygiene that are set forth in the official record;

(6) When appropriate, to adopt rules not inconsistent with the laws of this state in response to questions put to it by professional dental-related associations, dental hygienists, and consumers in this state concerning the authority of dental hygienists to perform certain acts; and

(7) When appropriate, to consult with the dental quality assurance commission.

Eliminating basic health plan eligibility of persons holding student visas.

(DIGEST AS ENACTED)

Finds that the basic health plan is a valuable means of providing access to affordable health insurance coverage for low-income families and individuals in Washington state.

Finds that persons studying in the United States as full-time students under temporary visas must show, as a condition of receiving their temporary visa, that they have sufficient funds available for self-support during their entire proposed course of study. For this reason, the legislature finds that it is not appropriate to provide subsidized basic health plan coverage to this group of students.

Companion Bill: 5069

Establishing family leave insurance.

(SEE ALSO PROPOSED 1ST SUB)

Declares it to be in the public interest to establish a program that: (1) Allows parents to bond with a newborn or newly placed child, and workers to care for seriously ill family members or recover from their own serious health condition;

(2) Is in addition to those programs offered by employers;

(3) Provides limited income support for a reasonable period while an individual is away from work on family leave; and

(4) Reduces the impact on state income support programs by increasing an individual's ability to provide caregiving services for family members while maintaining an employment relationship.

Requires that, beginning July 1, 2007, the department shall report to the legislature by July 1st of each year on projected and actual program participation, premium rates, fund balances, and outreach efforts.

Changing veterans' tuition waiver provisions.

(SUBSTITUTED FOR - SEE 1ST SUB)

Revises veterans' tuition waiver provisions.

Provides that, subject to the limitations in RCW 28B.15.910, the governing boards of the state universities, the regional universities, The Evergreen State College, and the community colleges, may waive all or a portion of tuition and fees for the following persons: (1) An eligible veteran or national guard member;

(2) A child and the spouse of an eligible veteran or national guard member who became totally disabled as defined in RCW 28B.15.385 while engaged in active federal military or naval service, or who is determined by the federal government to be a prisoner of war or missing in action;

(3) A child and the surviving spouse of an eligible veteran or national guard member who lost his or her life while engaged in active federal military or naval service. However, upon remarriage, the surviving spouse of an eligible veteran or national guard member is ineligible for a waiver under this act.

Repeals RCW 28B.10.265, 28B.15.620, 28B.15.625, 28B.15.628, and 28B.15.629.

Companion Bill: 5201

Authorizing a pilot project for high-occupancy toll lanes.

(SUBSTITUTED FOR - SEE 1ST SUB)

Recognizes that the Puget Sound region is faced with growing traffic congestion and has limited ability to expand freeway capacity due to financial, environmental, and physical constraints. Freeway high-occupancy vehicle lanes have been an effective means of providing transit, vanpools, and carpools with a fast trip on congested freeway corridors, but in many cases, these lanes are themselves getting crowded during the peak commute times, while some are being underused at off-peak times.

Declares an intent to maximize the effectiveness and efficiency of the freeway system. To evaluate methods to accomplish this, it is beneficial to evaluate alternative approaches to managing the use of freeway high-occupancy vehicle lanes, including pilot projects to determine and demonstrate the effectiveness and benefits of implementing high-occupancy toll lanes.

Declares an intent of this act is to direct that the department of transportation, as a pilot project, develop and operate a high-occupancy toll lane on state route 167 in King county and to conduct an evaluation of that project to determine impacts on freeway efficiency, effectiveness for transit, feasibility of financing improvements through tolls, and the impacts on freeway users.

**HB 1179-S** by House Committee on Transportation (originally sponsored by Representatives Murray, Shabro, Wallace, Woods, Jarrett, Simpson, Springer, Dickerson, Quall, Armstrong, Kenney, Clibborn, and McIntire; by request of Department of Transportation)

Freeway high-occupancy vehicle lanes have been an effective means of providing transit, vanpools, and carpools with a fast trip on congested freeway corridors, but in many cases, these lanes are themselves getting crowded during the peak commute times, while some are being underused at off-peak times.

To evaluate methods to accomplish this, it is beneficial to evaluate alternative approaches to managing the use of freeway high-occupancy vehicle lanes, including pilot projects to determine and demonstrate the effectiveness and benefits of implementing high-occupancy toll lanes.

Acknowledges that state route 167 provides an ideal test of the high-occupancy toll lane concept because it is a congested corridor, it has underused capacity in the high-occupancy vehicle lane, and it has adequate right of way for improvements needed to test the concept.

Declares an intent of this act is to direct that the department of transportation, as a pilot project, develop and operate a high-occupancy toll lane on state route 167 in King county and to conduct an evaluation of that project to determine impacts on freeway efficiency, effectiveness for transit, feasibility of financing improvements through tolls, and the impacts on freeway users.

Companion Bill: 5200

Facilitating sealed ocean-going container movement.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that the creation of a heavy haul industrial corridor within port district property would dramatically improve the economy and efficiency of moving sealed ocean-going containers by allowing for permitted moves in excess of legal weight limits over relatively short distances.

Finds that the department of transportation has the expertise to analyze vehicle size and weight impacts on the infrastructure and determine the suitability of state highway segments to be heavy haul industrial corridors, set permitted weight limits within established parameters, and manage multijurisdictional agreements for maintenance and repair of the identified corridors.

Declares that the purpose of a heavy haul industrial corridor is to accommodate the movement of overweight sealed ocean-going containers over relatively short distances to complete transfer between ocean marine terminals and railheads.

**HB 1181-S** by House Committee on Transportation (originally sponsored by Representatives Flannigan, Ericksen, Wallace, Woods, Chase, and Kilmer; by request of Department of Transportation)

(DIGEST AS ENACTED)

Authorizes the department of transportation, with respect to state highways maintained within port district property, to, at the request of a port commission, make and enter into agreements with port districts and adjacent jurisdictions or agencies of the districts, for the purpose of identifying, managing, and maintaining short heavy haul industrial corridors within port district property for the movement of overweight sealed containers used in international trade.

Authorizes the department to issue special permits to vehicles operating in the heavy haul industrial corridor to carry weight in excess of weight limits established in RCW 46.44.041. However, the excess weight on a single axle, tandem axle, or any axle group must not exceed that allowed by RCW 46.44.091 (1) and (2), weight per tire must not exceed six hundred pounds per inch width of tire, and gross vehicle weight must not exceed one hundred five thousand five hundred pounds.

Provides that any agreement entered into by the department as authorized under this act with a port district adjacent to Puget Sound and located within a county that has a population of more than seven hundred thousand, but less than one million, must limit the applicability of any established heavy haul corridor to that portion of state route no. 509 beginning at milepost 0.25 in the vicinity of East 'D' Street and ending at milepost 3.88 in the vicinity of Taylor Way.

Eliminating mandatory minimum sentences for youthful offenders tried as adults. (REVISED FOR PASSED

LEGISLATURE: Eliminating mandatory minimum sentences for certain youthful offenders tried as adults.)

(DIGEST AS ENACTED)

Finds that emerging research on brain development indicates that adolescent brains, and thus adolescent intellectual and emotional capabilities, differ significantly from those of mature adults. It is appropriate to take these differences into consideration when sentencing juveniles tried as adults.

Finds that applying mandatory minimum sentences for juveniles tried as adults prevents trial court judges from taking these differences into consideration in appropriate circumstances.

Intends to eliminate the application of mandatory minimum sentences under RCW 9.94A.540 to juveniles tried as adults, and to continue to apply all other adult sentencing provisions to juveniles tried as adults.

**HB 1189-S** by House Committee on Local Government (originally sponsored by Representatives Moeller, Bailey, McCoy, Armstrong, Williams, Newhouse, Fromhold, Springer, Ericks, Flannigan, Curtis, Cody, Condotta, Appleton, Hinkle, Morrell, Campbell, Pearson, Chase, Dickerson, Linville, Woods, Kenney, O'Brien, Conway, Lantz, Sells, Kagi, Ormsby, Haigh, Upthegrove, Hasegawa, and Kilmer)

(DIGEST AS ENACTED)

Declares an intent for each county to establish a veterans' advisory board responsible for advising the county legislative authority on needed and appropriate assistance programs for local indigent veterans and their families. Recognizing the valuable insight and perspectives that veterans offer, it is the intent of the legislature that each board be comprised entirely of veterans.

Recognizes that counties respond to the needs of indigent veterans and family members in the manner most appropriate to the needs and resources of the county. The legislature intends for the provisions of this act to facilitate the effective use of assistance funds through efficient model programs that benefit veterans and family members experiencing financial hardships.

Declares it is the policy of the state of Washington that bias shall not play a role in the distribution of the veterans' assistance fund.

Requires the legislative authority for each county to establish a veterans' advisory board to advise the county legislative authority on the needs of local indigent veterans, the resources available to local indigent veterans, and potential programs that

could serve the needs of local indigent veterans and their families.

Repeals RCW 73.08.030, 73.08.040, and 73.08.050.

VETO MESSAGE ON HB 1197-S

April 28, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 26-30, Substitute House Bill No. 1197 entitled:

Sections 26-30 of Substitute House Bill No. 1197, which concern Medicare supplemental insurance, are redundant and already covered in Senate Bill 5198 (Implementing changes to Medicare supplemental insurance requirements as mandated by the Medicare Modernization Act of 2003 and other federal requirements). I signed Senate Bill 5198 on April 13, 2005.

For these reasons, I have vetoed Sections 26-30 of Substitute House Bill No. 1197.

With the exception of Sections 26-30, Substitute House Bill No. 1197 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

**HB 1199** by Representatives Pearson, O'Brien, Lovick, Kristiansen, Ahern, Rodne, Walsh, Buri, McDonald, Strow, Holmquist, Condotta, and Priest

Modifying the collection of blood alcohol content evidence.

Finds and declares that: (1) The state has a compelling interest in preventing fatal vehicle accidents in this state;

(2) In order to prevent fatal vehicle accidents, it is necessary to analyze and understand the causes of such accidents, including the role played by alcohol;

(3) The state's compelling interest in preventing fatal vehicle accidents therefore creates a special need beyond normal law enforcement for the collection of evidence of blood alcohol content from drivers involved in fatal vehicle accidents; and

(4) Because evidence of blood alcohol content diminishes over time, requiring a warrant before that evidence can be collected would be impracticable and would frustrate the state's interest in collecting the information.

Provides that, in order to foster the prevention of fatal vehicle accidents, it is the intent of the legislature to: (1) Allow law enforcement officers to collect evidence of blood alcohol content from operators in fatal vehicle accidents; and

(2) Require hospitals to disclose evidence of blood alcohol content that they have collected from operators involved in fatal vehicle accidents to law enforcement.

Declares that a person who operates a vehicle within this state is deemed to have given consent, subject to RCW 46.61.506, to a test of his or her breath for the purpose of determining the alcohol concentration in his or her breath if the person is involved in a vehicle accident in which there has been a fatality.

**HB 1200** by Representatives Pearson, O'Brien, Lovick, Kristiansen, Rodne, McDonald, Walsh, Ahern, Buri, Strow, Holmquist, Condotta, and Hinkle

Establishing standardized chemical dependency assessment protocols.

(SEE ALSO PROPOSED 1ST SUB)

Finds that standardized chemical dependency assessment protocols should be required in court-involved chemical dependency cases to ensure accurate assessments and treatment plans. Assessment protocols should require that collateral background information be obtained along with a drug screen urinalysis obtained at time of assessment for all assessments with an initial finding of other than substance dependence, and that a

standardized assessment summary should be required in all court-involved assessments.

Provides that court-involved assessments are limited to persons who have been arrested for a violation of driving while under the influence of intoxicating liquor or any drug under RCW 46.61.502 or being in actual physical control of a vehicle while under the influence of any intoxicating liquor or any drug under RCW 46.61.504.

Requires a chemical dependency professional under chapter 246-811 WAC, a trainee supervised by an approved supervisor under chapter 246-810 WAC, or a probation assessment officer under chapter 388-805 WAC, to conduct each client assessment.

**HB 1200-S** by House Committee on Judiciary (originally sponsored by Representatives Pearson, O'Brien, Lovick, Kristiansen, Rodne, McDonald, Walsh, Ahern, Buri, Strow, Holmquist, Condotta, and Hinkle)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Applies to alcohol and drug assessments conducted on persons convicted of a violation of RCW 46.61.502 or 46.61.504 as well as persons charged with a violation of those provisions who are petitioning for a deferred prosecution under RCW 10.05.020. All such alcohol and drug assessments shall be performed in accordance with this act.

Requires every assessment to be conducted by a chemical dependency professional certified by the department of health under chapter 18.205 RCW, by a chemical dependency professional trainee who is directly supervised by a supervisor approved under department of health rules, or by a probation assessment officer qualified under department of social and health services rules pursuant to RCW 46.61.516.

Requires an evaluation to be made of a copy of the analysis of the client's blood alcohol level and other drug levels at the time of arrest, if available, and the client's self-reported driving record and a copy of the client's abstract of driving record.

Tracking school status of sex offenders.

Provides that any person who is attending, or is planning to attend, a public or private school regulated under Title 28A RCW shall provide the name and address of his or her school when registering.

Provides that, if a person required to register under RCW 9A.44.130 enrolls in a new public or private school regulated under Title 28A RCW within the same county in which he or she is registered, graduates from high school, or ceases to attend school, the person must send written notice of the new enrollment, graduation, or cessation of schooling to the county sheriff within seventy-two hours of the enrollment, graduation, or cessation.

Requires that, if a person required to register under this section enrolls in a new public or private school regulated under Title 28A RCW in a different county than the county in which he or she is registered, the person must send notice of the new enrollment to the county sheriff in the new county within fourteen days of the enrollment.

Requires the county sheriff to maintain a list of public and private schools regulated under Title 28A RCW where registered sex offenders are enrolled in the county. The list must contain the names of the registered sex offenders in each school organized by school. The county sheriff shall update the list at least once per month. The county sheriff shall provide the list to persons who request it, but may not otherwise publish or disseminate the list.

Companion Bill: 5471

Authorizing a prescription drug purchasing consortium.

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires the administrator of the state health care authority  
to, directly or by contract, adopt policies necessary for  
establishment of a prescription drug purchasing consortium. The  
consortium's purchasing activities shall be based upon the  
evidence-based prescription drug program established under  
RCW 70.14.050.

Provides that state purchased health care programs shall  
purchase prescription drugs through the consortium for those  
prescription drugs that are purchased directly by the state and  
those that are purchased through reimbursement of pharmacies,  
unless exempted under this act.

Directs the administrator to explore joint purchasing  
opportunities with other states.

Provides that participation in the purchasing consortium shall  
be offered as an option beginning January 1, 2006.

Creates the prescription drug consortium advisory committee  
within the authority. The function of the prescription drug  
advisory committee is to advise the administrator of the state  
health care authority on the implementation of the prescription  
drug purchasing consortium.

(AS OF HOUSE 2ND READING 2/18/05)

Requires the administrator of the state health care authority  
to, directly or by contract, adopt policies necessary for  
establishment of a prescription drug purchasing consortium. The  
consortium's purchasing activities shall be based upon the  
evidence-based prescription drug program established under  
RCW 70.14.050.

Provides that state purchased health care programs, as defined  
in RCW 41.05.011(2), shall purchase prescription drugs through  
the consortium for those prescription drugs that are purchased  
directly by the state and those that are purchased through  
reimbursement of pharmacies, unless exempted under this act.

Provides that the administrator shall not require that any  
supplemental rebate offered by a pharmaceutical manufacturer for  
prescription drugs purchased for medical assistance program  
clients under chapter 74.09 RCW be extended to state purchased  
health care programs other than medical assistance, or to  
individuals or entities participating in the consortium. The  
administrator shall explore joint purchasing opportunities with  
other states.

Provides that participation in the purchasing consortium shall  
be offered as an option beginning January 1, 2006. Participation  
in the consortium is purely voluntary for units of local government,  
private entities, labor organizations, and for individuals who lack  
or are underinsured for prescription drug coverage. The  
provisions of RCW 69.41.190 shall apply to prescriptions filled  
for all voluntary participants in the purchasing consortium. The  
administrator may set reasonable fees, including enrollment fees,  
to cover administrative costs attributable to participation in the  
prescription drug consortium.

Creates the prescription drug consortium advisory committee  
within the authority.

Underwriting medical malpractice coverage.

(SEE ALSO PROPOSED 1ST SUB)

Requires each medical malpractice insurer to file its underwriting rules, guidelines, criteria, standards, or other information the insurer uses to underwrite medical malpractice coverage. However, an insurer is excluded from this requirement if the insurer is ordered into rehabilitation under chapter 48.31 or 48.99 RCW.

Requires every filing of underwriting information to identify and explain: (1) The class, type, and extent of coverage provided by the insurer;

(2) Any changes that have occurred to the underwriting standards; and

(3) How underwriting changes are expected to affect future losses.

**HB 1227** by Representatives Morrell, Strow, and Bailey

Providing excise tax exemptions for water services provided by small water systems.

Finds that accountability and effectiveness are important aspects of setting tax policy. In order to make policy choices regarding the best use of limited state resources, the legislature needs information to evaluate whether the stated goals of legislation were achieved.

Declares that the goals of the small public water system excise tax exemptions are: (1) To provide assistance to small public water systems, that are most in need, to make necessary and immediate repairs to their infrastructural needs; and

(2) To allow these small systems to comply with state and federal mandates necessary for safe drinking water for citizens served by these systems.

Requires a person who receives the benefit of a tax exemption under this act to make an annual report to the department detailing the specific capital improvements that were made to their respective systems by utilizing the money made available by these exemptions.

Requires that, by December 1, 2010, the fiscal committees of the house of representatives and the senate, in consultation with the department, shall report to the legislature on the effectiveness of the tax exemptions under this act.

**HB 1228** by Representatives P. Sullivan, Schindler, Clibborn, Upthegrove, Simpson, and Chase

Companion Bill: 5372

Requiring notice to water and sewer districts of changes that require relocating facilities.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that, notwithstanding any contrary provision of law or of any existing or future franchise and except in the event of emergencies, cities and towns shall give public utilities operating water and sewer systems not less than one hundred eighty days' notice of changes to rights of way that will require relocations of water or sewer system facilities. The notice shall be accompanied by proposed construction plans.

Authorizes the public utilities to respond within thirty days with suggested changes to the construction plans to reduce the extent and cost of the relocations. Cities and towns shall consider such suggestions in good faith, require only such relocations as are reasonably necessary based on sound engineering practices, and adjust the construction plans accordingly.

VETO MESSAGE ON HB 1232

April 22, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval, House Bill No. 1232 entitled:

The Senate forwarded an identical companion bill, Senate Bill 5267, to the Governor's Office on April 15, 2005. I signed that bill into law on April 21, 2005. House Bill 1232, therefore, must be vetoed.

For these reasons, I have vetoed House Bill No. 1232 in its entirety.

Respectfully submitted,  
Christine O. Gregoire  
Governor

**HB 1233** by Representatives O'Brien, Pearson, Lantz, Talcott, Kilmer, Lovick, Simpson, Tom, Campbell, and Wallace

Requiring offenders convicted of luring to register with local law enforcement.

Provides that luring offenders who on or after August 1, 2005, are in custody of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility, must register at the time of release from custody with an official designated by the agency that has jurisdiction over the offender.

Provides that luring offenders who, on August 1, 2005, are not in custody but are under the jurisdiction of the indeterminate sentence review board or under the department of corrections' active supervision, as defined by the department of corrections, the state department of social and health services, or a local division of youth services, for luring offenses committed before,

on, or after August 1, 2005, must register within ten days of August 1, 2005.

Provides that luring offenders who, on August 1, 2005, are not in custody but are under the jurisdiction of the United States bureau of prisons, United States courts, United States parole commission, or military parole board for luring offenses committed before, on, or after August 1, 2005, must register within ten days of August 1, 2005.

Provides that any adult or juvenile who has been found not guilty by reason of insanity of committing a luring offense but who was released before August 1, 2005, shall be required to register within twenty-four hours of receiving notice of this registration requirement.

Declares that "luring" means any offense as defined under RCW 9A.40.090.

Provides that a person who knowingly fails to register or who moves within the state without notifying the county sheriff as required by this act is guilty of a class C felony if the crime for which the individual was convicted was a felony luring offense as defined in this act or a federal or out-of-state conviction for an offense that under the laws of this state would be a felony luring offense as defined in this act.

Provides that, if the crime for which the individual was convicted was other than a felony or a federal or out-of-state conviction for an offense that under the laws of this state would be other than a felony, violation of this act is a gross misdemeanor.

Companion Bill: 5281

Funding the development of an automated system to process real estate excise taxes.

(SUBSTITUTED FOR - SEE 2ND SUB)

Creates the real estate excise tax electronic technology account in the custody of the state treasurer. An appropriation is not required for expenditure and the account is not subject to allotment procedures under chapter 43.88 RCW.

Directs the county treasurer to collect an additional five-dollar fee on all taxable transactions required by chapter 82.45 RCW. The county treasurer shall remit this fee to the state treasurer at the same time the county treasurer remits funds to the state under RCW 84.56.280. The state treasurer shall place money from this fee in the real estate excise tax electronic technology account.

Requires that, when received by the county treasurer, the funds shall be placed in a special real estate excise tax electronic technology fund held by the county treasurer to be used exclusively for the development, implementation, and maintenance of an electronic processing and reporting system for real estate excise tax affidavits. Funds may be expended to make the system compatible with the automated real estate excise tax system developed by the department of revenue and compatible with the processes used in the offices of the county assessor and county auditor. Any funds held in the account that are not expended by July 1, 2015, revert to the county capital improvements fund.

Takes effect August 1, 2005.

Focusing the state budgeting process on outcomes and priorities.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that agency missions, goals, and objectives should focus on statewide results.

Declares an intent to focus the biennial budget on how state agencies produce real results that reflect the goals of statutory programs. Specifically, budget managers and the legislature must have the data to move toward better statewide results that produce the intended public benefit. This data must be supplied in an impartial, quantifiable form, and demonstrate progress toward statewide results.

Declares that, with a renewed focus on achieving true results, state agencies, the office of financial management, and the legislature will be able to prioritize state resources.

Provides that the act shall be null and void if appropriations are not approved.

Increasing patient safety through disclosure and analysis of adverse events.

(SEE ALSO PROPOSED 1ST SUB)

Finds that our health care and medical liability systems are not structured to promote disclosure and analysis of medical

errors, whether they result in patient harm or not. Each medical error provides an opportunity to learn how to avoid future errors.

Declares an intent to promote full disclosure of medical errors and adverse health events, and to use the experience and knowledge gained from analysis of those events to advance patient safety in a nonpunitive manner.

Declares a further intent to promote full disclosure of medical errors to patients by substantially reducing the risk of liability exposure associated with such disclosure.

Requires the department to report no later than January 1, 2007, and annually thereafter to the governor and the legislature on the department's activities under this act in the preceding year. The report shall include: (1) The number of serious events and incidents reported by medical facilities on a geographical basis and their outcomes;

(2) The information derived from the data collected including any recognized trends concerning patient safety; and

(3) Recommendations for statutory or regulatory changes that may help improve patient safety in the state.

Requires the annual report to be made available for public inspection and shall be posted on the department's web site.

Provides that when a report of a serious event or incident under this act is made by or through a coordinated quality improvement program under RCW 43.70.510 or 70.41.200, or by a peer review committee under RCW 4.24.250, the confidentiality protections of those laws and RCW 42.17.310(1)(hh) apply fully to any documents, materials, or information prepared or created for the purpose of complying with this act.

Provides that, when a report of a serious event or incident under this act is not made by or through a coordinated quality improvement program under RCW 43.70.510 or 70.41.200, or by a peer review committee under RCW 4.24.250, any information, documents, and materials created specifically for the purpose of submitting a report of a serious event or incident are not subject to discovery or introduction into evidence in any civil action, and no person who participated in the creation, collection, or maintenance of information or documents specifically for the purpose of submitting a report of a serious event or incident shall be permitted or required to testify in any civil action as to the content of such documents.

Declares an intent to promote full disclosure of medical errors and adverse health events, and to use the experience and knowledge gained from analysis of those events to advance patient safety in a nonpunitive manner.

Declares a further intent to promote full disclosure of medical errors to patients by substantially reducing the risk of liability exposure associated with such disclosure.

Requires each medical facility to report to the department the occurrence of any adverse event. The report must be submitted to the department within forty-five days after occurrence of the event has been confirmed.

Provides that if, in the course of investigating a complaint received from an employee of a licensed medical facility, the department determines that the facility has not undertaken efforts to investigate the occurrence of an adverse event, the department shall direct the facility to undertake an investigation of the event. If a complaint related to a potential adverse event involves care provided in an ambulatory surgical facility, the department shall notify the facility and request that they undertake an investigation of the event. The protections of RCW 43.70.075 apply to complaints related to adverse events or incidents that are submitted in good faith by employees of medical facilities.

Provides that medical facilities licensed by the department shall have in place policies to assure that, when appropriate, information about unanticipated outcomes is provided to patients or their families or any surrogate decision makers identified pursuant to RCW 7.70.065. Notifications of unanticipated outcomes under this section do not constitute an acknowledgment or admission of liability, nor can the fact of notification or the content disclosed be introduced as evidence in a civil action.

Provides that, beginning January 1, 2006, the department shall, during the annual survey of a licensed medical facility, ensure that the policy required in subsection (1) of this section is in place.

Provides that, when a report of an adverse event or incident under this act is made by or through a coordinated quality improvement program under RCW 43.70.510 or 70.41.200, or by a peer review committee under RCW 4.24.250, information and documents, including complaints and incident reports, created specifically for and collected and maintained by a quality improvement committee for the purpose of preparing a report of an adverse event or incident shall be subject to the confidentiality protections of those laws and RCW 42.17.310(1)(hh).

Improving opportunities to develop outdoor recreational ballfields on agricultural land.

Finds that the supreme court, in *King County v. Central Puget Sound Growth Mgmt. Hearings Bd.*, 142 Wn.2d 543, 14 P.3d 133 (2000), held that lands designated as agricultural may not be used for recreational facilities.

Finds that this decision and the absence of an enacted legislative response have illustrated the urgent need for a legislative remedy addressing the growing and interrelated challenges of population growth, the need for outdoor recreational facilities, and the conservation of agricultural lands.

Provides that the development regulations of a county or city planning under RCW 36.70A.040 may permit agricultural lands designated pursuant to RCW 36.70A.170 that are not being used for the commercial production of food or other agricultural products to be used for recreational activities, including, but not limited to, playing fields for sports played on grass.

Declares that counties and cities planning under RCW 36.70A.040 that permit agricultural land to be used for recreational activities may not allow permanent structures to be erected on the land, but may permit removable structures and playing fields constructed before June 1, 2004, that support the use of the land for recreational activities.

Establishes a study committee on outdoor recreation.

Requires the study committee to report its findings and recommendations to the appropriate committees of the house of representatives and the senate by January 1, 2006.

(DIGEST AS ENACTED)

Provides that all vehicle sound system components, including any supplemental speaker systems or components, must be securely attached to the vehicle regardless of where the components are located, so that the components cannot become dislodged or loose during operation of the vehicle.

Declares that enforcement of this act by law enforcement officers may be accomplished only as a secondary action when a driver of a vehicle has been detained for a suspected violation of Title 46 RCW or an equivalent local ordinance or some other offense.

Requires the Washington state traffic safety commission to create and implement a statewide educational program regarding the safety risks of unsecured vehicle sound system components, including supplemental speaker systems or components. The educational program shall include information regarding securely attaching sound system components to the vehicle, regardless of where the components are located, so that the components do not become dislodged or loose during the operation of the vehicle. The commission shall create and implement this program within the commission's existing budget.

Regulating tax refund anticipation loans.

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires that, at the time a borrower applies for a refund anticipation loan, a facilitator shall clearly disclose to the borrower, separately from the loan application: (1) The refund anticipation loan fee schedule;

(2) A written statement containing the following elements: (a) That a refund anticipation loan is a loan, and is not the borrower's actual income tax refund; (b) that the taxpayer can file an income tax return electronically without applying for a refund anticipation loan; (c) the average times according to the internal revenue service within which a taxpayer who does not obtain a refund anticipation loan can expect to receive a refund if the taxpayer's return is (i) filed electronically and the refund is directly deposited to the taxpayer's bank account or mailed to the taxpayer, and (ii) mailed to the internal revenue service and the refund is directly deposited to the taxpayer's bank account or mailed to the taxpayer; (d) that the internal revenue service does not guarantee

that it will pay the full amount of the anticipated refund and it does not guarantee a specific date that a refund will be deposited into a taxpayer's financial institution account or mailed to a taxpayer; (e) that the borrower is responsible for repayment of the loan and related fees in the event that the tax refund is not paid or paid in full; (f) the estimated time within which the loan proceeds will be paid to the borrower if the loan is approved; and (g) the fee that will be charged, if any, if the borrower's loan is not approved.

Declares that any person who knowingly and willfully violates this act is guilty of a misdemeanor and shall be fined up to five hundred dollars for each offense.

Declares that this act shall preempt and be exclusive of all local acts, statutes, ordinances, and regulations relating to refund anticipation loans. This act shall be given retroactive and prospective effect.

**HB 1251-S** by House Committee on Financial Institutions & Insurance (originally sponsored by Representatives Santos, Roach, Kirby, Morrell, Simpson, Hasegawa, P. Sullivan, and McIntire)

(AS OF HOUSE 2ND READING 3/14/05)

Provides that no person may individually, or in conjunction or cooperation with another person, solicit the execution of, process, receive, or accept an application or agreement for, a refund anticipation loan without first being licensed with the director as a facilitator.

Does not apply to a person doing business as a bank, thrift, industrial bank, savings and loan association, or credit union, under the laws of the United States or of this state.

Declares that this act shall preempt and be exclusive of all local acts, statutes, ordinances, and regulations relating to refund anticipation loans. This act shall be given retroactive and prospective effect.

Requires that, for all refund anticipation loans, a facilitator must provide a clear disclosure statement to the borrower, prior to the borrower's completion of the application. The disclosure statement required under this subsection must be printed in a minimum of ten-point type. Further, the disclosure statement must contain the following: (1) The refund anticipation loan fee schedule; and

(2) A written statement containing the following elements: (a) That a refund anticipation loan is a loan, and is not the borrower's actual income tax refund; (b) that the taxpayer can file an income tax return electronically without applying for a refund anticipation loan; (c) the average times according to the internal revenue service within which a taxpayer who does not obtain a refund anticipation loan can expect to receive a refund if the taxpayer's return is (1) filed electronically and the refund is directly deposited to the taxpayer's bank account or mailed to the taxpayer, and (2) mailed to the internal revenue service and the refund is directly deposited to the taxpayer's bank account or mailed to the taxpayer; (d) that the internal revenue service does not guarantee that it will pay the full amount of the anticipated refund and it does not guarantee a specific date that a refund will be deposited into a taxpayer's financial institution account or mailed to a taxpayer; (e) that the borrower is responsible for repayment of the loan and related fees in the event that the tax refund is not paid or paid in full; (f) the estimated time within which the loan proceeds will be paid to the borrower if the loan is approved; and (g) the fee that will be charged, if any, if the borrower's loan is not approved.

Provides that a borrower may rescind a loan, on or before the close of business on the next day of business at the location where the loan was originated, by returning the principal in cash or the original check disbursed by the facilitator to fund the refund anticipation loan.

Provides that it is unlawful for a facilitator of a refund anticipation loan to engage in any of the following activities: (1) Misrepresent a material factor or condition of a refund anticipation loan;

(2) Fail to process the application for a refund anticipation loan promptly after the consumer applies for the loan;

(3) Engage in any dishonest, fraudulent, unfair, unconscionable, or unethical practice or conduct in connection with a refund anticipation loan;

(4) Arrange for a creditor to take a security interest in any property of the consumer other than the proceeds of the consumer's tax refund to secure payment of the loan;

(5) Impose charges, fees, or other consideration for a refund anticipation loan. This does not preclude any charge, fee, or other consideration usually imposed by the facilitator in the ordinary course of business for nonloan services, such as fees for tax return preparation and fees for electronic filing of tax returns;

(6) Offer a refund anticipation loan that exceeds the amount of the anticipated tax refund less any refund anticipation loan fees; and

(7) Act as a facilitator unless they are authorized as an electronic return originator by the internal revenue service at the time.

Declares that any person who knowingly and willfully violates this act is guilty of a misdemeanor and shall be fined up to five hundred dollars for each offense.

Companion Bill: 5264

Allowing reciprocal waiver of driver's license exams.

(DIGEST AS ENACTED)

Recognizes that more than twenty other states have entered into informal reciprocal agreements with other nations to waive driver's license testing requirements in order to ease the transition of personnel to and from those states. By removing an unnecessary barrier to efficient personnel mobility it is the intent of the legislature to strengthen and diversify Washington's economy.

Authorizes the department to enter into an informal agreement with one or more other licensing jurisdictions to waive the requirement for the examination involving operating a motor vehicle by licensed drivers, age eighteen years or older, from that jurisdiction.

Provides that the department may only enter into an agreement with a jurisdiction if: (1) The jurisdiction has procedures in place to verify the validity of the drivers' licenses it issues; and

(2) The jurisdiction has agreed to waive all or any part of the driver's license examination requirements for Washington licensed drivers applying for a driver's license in that jurisdiction.

**HB 1263** by Representatives Upthegrove, Hunt, Williams, Dickerson, Dunshee, McCoy, Simpson, and Chase

Concerning hydraulic project approvals.

Requires the department of fish and wildlife to, whenever practical, integrate the rules and programs developed under chapter 77.55 RCW with the rules and programs developed by the department of natural resources governing forest practices under chapter 76.09 RCW.

Authorizes the department of fish and wildlife to conduct a pilot project testing the applicability and enforceability of using general permits to satisfy the requirements of chapter 77.55 RCW as they relate to approvals for hydraulic projects.

Provides that, under the pilot project, the department of fish and wildlife may only develop general permits for activities determined by the department to be common and routine and to have a low level of environmental impact. The general permits must be designed to improve the predictability and efficiency of the hydraulic project approval program, while still containing provisions necessary to protect aquatic life.

Declares that compliance with the terms of these general permits by the project applicant is considered to be approval under chapter 77.55 RCW for a hydraulic project.

Declares that any violation of the terms or requirements of a general permit may be punished as a natural resource infraction under chapter 7.84 RCW or as a gross misdemeanor under RCW 77.15.300.

Declares that authority to conduct the pilot project authorized by this act ends December 31, 2008, on which date the department of fish and wildlife must report to the appropriate committees of the legislature either why they decided not to conduct a pilot project, or what outcomes, suggestions, and lessons arose from the pilot project.

Provides that, if any person or government agency fails to follow the requirements of obtaining hydraulic project approval under chapter 77.55 RCW, or fails to carry out any of the requirements or conditions of a hydraulic project approval issued under this chapter, the department may issue an order to that person or government agency. The order may require the person or government agency to stop work on any or all of the activities subject to the hydraulic project approval, to correct or to restore the nonconforming site, or to both stop work and to correct or to restore the nonconforming site.

Repeals RCW 77.55.140.

Companion Bill: 5262

Providing administrative review before the suspension of driving privileges.

Finds that the safety of the highways of this state is materially affected by the degree of compliance with state laws and local ordinances relating to the operation of motor vehicles. Drivers who commit traffic violations, ignore notices from courts, and fail to resolve notices of traffic infraction and citations all show their disrespect for traffic laws that exist to ensure safety on the highways.

Declares that an essential mechanism for ensuring that drivers comply with the traffic laws of this state is the swift and certain suspension of the driving privileges of a driver who fails to respond to a notice of traffic infraction, fails to appear at a requested hearing, violates a written promise to appear in court, fails to pay a fine or monetary penalty imposed as the result of a traffic violation, or otherwise fails to comply with the terms of a notice of traffic infraction or citation.

Declares that license suspension ensures that drivers comply with the traffic laws by deterring violations, and ensures that the use of the state highways will be afforded only to those who are willing to comply with the traffic laws.

Declares that there is a compelling state interest in having a mechanism to withhold driving privileges which also provides necessary due process protections as economically and expeditiously as possible.

Finds that this compelling state interest can best be served by having any necessary administrative review conducted by the department of licensing in a manner that provides due process, while maximizing the use of documentary evidence to simplify and expedite those proceedings.

(SUBSTITUTED FOR - SEE 1ST SUB)

Updates laws on drugs and alcohol use by commercial drivers.

**HB 1266-S** by House Committee on Transportation (originally sponsored by Representatives Murray, Woods, and Kenney; by request of Department of Licensing)

(DIGEST AS ENACTED)

Updates laws on drugs and alcohol use by commercial drivers.

Declares an intent to promote the safety of drivers and passengers on Washington roads and public transportation systems. To this end, Washington has established a reporting requirement for employers of commercial drivers who test positive for unlawful substances.

Recognizes that transit operators and their employers are an asset to the public transportation system and continuously strive to provide a safe and efficient mode of travel. In light of this, the legislature further intends that the inclusion of transit employers in the reporting requirements serve only to enhance the current efforts of these dedicated employers and employees as they continue to provide a safe public transportation system to the citizens of Washington.

Companion Bill: 5411

Authorizing branch campuses to offer lower-division courses.

Finds that the University of Washington Bothell, University of Washington Tacoma, Washington State University Tri-Cities, and Washington State University Vancouver have each conducted a thorough review of the campus mission and model of educational services and made recommendations to the legislature for the future evolution of the campus.

Declares an intent to authorize each campus to expand its educational offerings to include lower-division courses.

Regulating stem cell research.

(AS OF HOUSE 2ND READING 3/15/05)

Finds that several states have supported policies and institutions in partnership with the biomedical research industry to promote and advance embryonic stem cell research. Washington state must demonstrate a similar commitment to these initiatives in order to reaffirm itself as a leader in this area of biomedical research.

Declares that stem cell research, including the use of embryonic stem cells for medical research, raises significant ethical concerns that must be balanced with medical considerations.

Finds that, while therapeutic cloning stem cell research holds enormous potential for treating or even curing some diseases, the reproductive cloning of human beings is morally and ethically unacceptable. Furthermore, the reproductive cloning of human beings poses grave health risks to any child who may be produced in this manner.

Declares that any attempt to clone a human being is in direct conflict with the policies of this state.

Creates the human stem cell research advisory committee.

Directs the advisory committee to develop guidelines for research involving the derivation or use of human embryonic stem cells in Washington by January 1, 2006.

Provides that a health care provider delivering fertility treatment must provide his or her patient with timely, relevant, and appropriate information to allow the patient to make an informed and voluntary choice about the disposition of any human blastocysts remaining following the fertility treatment.

Provides that any person to whom information is provided pursuant to this act must be presented with the option of storing any unused blastocysts, donating unused blastocysts to another individual, discarding unused blastocysts, or donating unused blastocysts for research.

Declares that no person may knowingly engage or assist in reproductive cloning of a human being or attempting reproductive cloning of a human being.

Authorizes the attorney general to bring an action to enjoin any person from violating this restriction.

Provides that any person who violates this act is subject to a civil penalty not to exceed one hundred thousand dollars for each violation. Civil penalties authorized by this provision may be imposed in any civil action brought by the attorney general.

Declares that nothing in this provision shall be construed to restrict areas of biomedical, agricultural, and scientific research not specifically prohibited by this provision, including somatic cell nuclear transfer or other cloning technologies to clone molecules, DNA, cells, and tissues.

Provides that a person may donate human embryonic tissue or human cadaveric fetal tissue for research purposes.

Provides that a person may not knowingly, for valuable consideration, purchase or sell human embryonic tissue or human cadaveric fetal tissue for research purposes.

Declares that a person who violates this act is guilty of a class B felony and upon conviction is subject to a fine not to exceed twenty thousand dollars or imprisonment not to exceed ten years.

Provides that no person may use human eggs or human sperm that have been donated for purposes of assisted reproduction as defined in chapter 26.26 RCW, to create human embryonic stem cells for use in research, without the written consent of the donor to use the eggs or sperm for research purposes after receiving the information specified in this act.

VETO MESSAGE ON HB 1270

May 10, 2005

To the Honorable Speaker and Members,  
 The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 4, House Bill No. 1270 entitled:

This bill allows members of the Law Enforcement Officers and Fire Fighters Retirement System Plan 2 (LEOFF 2) to work at another state job and either earn pension credit at the new job while their original pension credits are suspended, or to continue receiving their old pension but not earn pension credit in the new system. Because law enforcement officers and fire fighters can retire earlier under the LEOFF 2 than in other pension plans, and move to another profession, this bill allows them important pension and professional flexibility.

I am vetoing Section 4 of this bill, the emergency clause, as the issues addressed in this important legislation do not rise to the level an emergency that requires the immediate revision of state laws.

For these reasons, I have vetoed Section 4 of House Bill No. 1270.

With the exception of Section 4, House Bill No. 1270 is approved.

Respectfully submitted,  
 Christine O. Gregoire  
 Governor

Companion Bill: 5509

Requiring public buildings to be built using high-performance green building standards.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that public buildings can be built and renovated using high-performance methods that save money, improve school performance, and make workers more productive. High-performance green buildings are proven to increase student test scores, reduce worker absenteeism, and cut energy and utility costs.

Declares an intent that state-owned buildings and schools be improved by adopting nationally recognized standards for high-performance green buildings and allowing flexible methods and choices in how to achieve those standards.

Declares an intent that independent performance audits be used to monitor this program and ensure that our economic, community, and environmental goals are achieved each year.

Requires that all major facility projects of public agencies receiving any funding in a state capital budget shall be designed, constructed, and certified to at least the LEED silver standard.

Requires public agencies and public school districts to monitor and document ongoing operating savings resulting from major facility projects designed, constructed, and certified as required under this act.

Provides that public agencies shall report annually to the department on its major facility projects and operating savings, while public school districts shall report annually to the office of the superintendent of public instruction.

Directs the department to create a high-performance buildings advisory committee comprised of affected public agencies, the state board of education, the office of the superintendent of public instruction, and others at the department's discretion to provide advice on implementing this act.

Provides that, among other things, the advisory committee shall make recommendations regarding an education and training process and an ongoing evaluation or feedback process to help the department and the state board of education implement this act.

Provides that, notwithstanding any other provision in chapter 39.04 RCW, public works project requests for proposals or bids on major facility projects required to be high-performance green buildings under chapter 39.-- RCW (sections 1 through 4 of this act) shall provide for performance-based contracting, building commissioning, or responsible bidding as necessary to design, construct, and certify the major facility project to meet the LEED silver standard.

Companion Bill: 5455

Promoting economic revitalization.

(SEE ALSO PROPOSED 1ST SUB)

Finds: (1) The continued economic vitality of downtown and neighborhood commercial districts in our state's cities is essential to community preservation, social cohesion, and economic growth;

(2) In recent years there has been a deterioration of downtown and neighborhood commercial districts in both rural and urban communities due to a shifting population base, changes in the marketplace, and greater competition from suburban shopping

malls, discount centers, and business transacted through the internet;

(3) This decline has eroded the ability of businesses and property owners to renovate and enhance their commercial and residential properties; and

(4) Business owners in these districts need to maintain their local economies in order to provide goods and services to adjacent residents, to provide employment opportunities, to avoid disinvestment and economic dislocations, and to develop and sustain downtown and neighborhood commercial district revitalization programs to address these problems.

Declares an intent to establish a program to: (1) Work in partnership with these organizations;

(2) Provide technical assistance and training to local governments, business organizations, downtown and neighborhood commercial district organizations, and business and property owners to accomplish community and economic revitalization and development of business districts; and

(3) Certify a downtown or neighborhood commercial district organization's use of available tax incentives.

(DIGEST AS ENACTED)

Extends the kinship care oversight committee and its duties.

Provides that the oversight committee must consist of a minimum of thirty percent kinship caregivers, who shall represent a diversity of kinship families. Statewide representation with geographic, ethnic, and gender diversity is required.

Provides that other members shall include representatives of the department, representatives of relevant state agencies, representatives of the private nonprofit and business sectors, child advocates, representatives of Washington state Indian tribes as defined under the federal Indian welfare act (25 U.S.C. Sec. 1901 et seq.), and representatives of the legal or judicial field. Birth parents, foster parents, and others who have an interest in these issues may also be included.

Requires the kinship care oversight committee to update the legislature and governor annually on committee activities, with the first update due by January 1, 2006.

Expires January 1, 2010.

Adding to the list of persons who may give informed consent to medical care for minors and providing immunity to health care providers and facilities when they rely upon the representation of a person claiming to be responsible for the care of the minor.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares an intent to assist children in the care of kin to access appropriate medical services.

Finds that children being raised by kin have faced barriers to medical care because their kinship caregivers have not been able to verify that they are the identified primary caregivers of these children. Such barriers pose an especially significant challenge to kinship caregivers in dealing with health professionals when children are left in their care.

Declares an intent to assist kinship caregivers in accessing appropriate medical care to meet the needs of a child in their care by permitting such responsible adults who are providing care to a child to give informed consent to medical care.

Companion Bill: 5306

Regarding sexual health education.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares that the state has a duty to ensure that young people are equipped with the comprehensive, medically accurate, age-appropriate information that they need to protect themselves from unintended pregnancy and sexually transmitted diseases, including HIV infection. The best approach to protecting youth in this environment is to support the resources that they trust and to ensure that young people have as much accurate, objective information about sexual health as possible.

Requires every school district that offers sexual health education to incorporate the January 2005 guidelines for sexual health information and disease prevention of the department of health and the office of the superintendent of public instruction.

Provides that every school district that offers sexual health education must emphasize abstinence, as required by RCW 70.24.210, except that abstinence may not be taught to the exclusion of other methods of preventing teenage pregnancy and sexually transmitted diseases, including HIV infection. In addition to abstinence, sexual health education must teach medically accurate information about the effectiveness of contraceptives and other family planning options in a comprehensive manner.

VETO MESSAGE ON HB 1290-S2

May 17, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 5, Engrossed Second Substitute House Bill No. 1290 entitled:

Section 5 specifies that there should be a minimum of eight and a maximum of fourteen community mental health Regional Support Networks. This section is also included in Section 805 of Engrossed Second Substitute Senate Bill 5763. It is not necessary to include the same language in both bills.

Sections 12 and 13 of Engrossed Second Substitute House Bill No. 1290 require the Department of Social and Health Services (DSHS) to establish new rules and policies. Those rules and policies concern expediting new applications or reinstating Medicaid benefits for persons with mental health disorders discharged from an institutional setting such as jails, state correction facilities, or state hospitals. The 2005-2007 state operating budget passed by the Legislature may not have provided sufficient funding to implement sections 12 and 13. Rather than veto these sections due to insufficient funding, I am directing the DSHS to phase in the new procedures on a statewide basis and continue to evaluate the funding needs as the program is implemented.

For these reasons, I have vetoed Section 5 of Engrossed Second Substitute House Bill No. 1290. With the exception of Section 5, Engrossed Second Substitute House Bill No. 1290 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

Companion Bill: 5318

Improving patient safety practices.

(SUBSTITUTED FOR - SEE 2ND SUB)

Declares that implementation of proven patient safety strategies can reduce medical errors, and thereby potentially reduce the need for disciplinary actions against licensed health care professionals and facilities, and the frequency and severity of medical malpractice claims.

Declares that health care providers, health care facilities, and health carriers can and should be supported in their efforts to improve patient safety and reduce medical errors by encouraging health care facilities and providers to communicate openly with patients regarding medical errors that have occurred and steps that can be taken to prevent errors from occurring in the future, encouraging health care facilities and providers to work cooperatively in their patient safety efforts, and increasing funding available to implement proven patient safety strategies.

Declares an intent to positively influence the safety and quality of care provided in Washington state's health care system.

Requires the secretary to increase the licensing fee established under RCW 43.70.110 by two dollars for the health care professionals designated in this act and by two dollars per licensed bed for the health care facilities designated in this act.

Requires proceeds of the patient safety fee to be deposited into the patient safety account in this act and dedicated to patient safety and medical error reduction efforts that have been proven to improve, or have a substantial likelihood of improving the quality of care provided by health care professionals and facilities.

Provides that one percent of any attorney contingency fee as contracted with a prevailing plaintiff in any action for damages based upon injuries resulting from health care shall be deducted from the contingency fee as a patient safety set aside.

Requires a patient safety set aside to be transmitted to the secretary of the department of health by the person or entity paying the claim, settlement, or verdict for deposit into the patient safety account established in this act.

Provides that patient safety fee and set aside proceeds shall be administered by the department, after seeking input from health care providers engaged in direct patient care activities, health care facilities, health care provider organizations, and other interested parties.

Provides that, by December 1, 2008, the department shall report the following information to the governor and the health policy and fiscal committees of the legislature: (1) The amount of patient safety fees and set asides deposited to date in the patient safety account;

(2) The criteria for distribution of grants, loans, or other appropriate arrangements under this act; and

(3) A description of the medical error reduction and patient safety grants and loans distributed to date, including the stated performance measures, activities, timelines, and detailed information regarding outcomes for each project.

**HB 1291-S2** by House Committee on Appropriations (originally sponsored by Representatives Cody, Bailey, Morrell, Hinkle, Green, Moeller, Kessler, Haigh, Linville, Kagi, Santos, and Ormsby)

Improving health care professional and health care facility patient safety practices.

(AS OF HOUSE 2ND READING 1/23/06)

Finds that: (1) Thousands of patients are injured each year in the United States as a result of medical errors, and that a comprehensive approach is needed to effectively reduce the incidence of medical errors in our health care system. Implementation of proven patient safety strategies can reduce medical errors, and thereby potentially reduce the need for disciplinary actions against licensed health care professionals and facilities, and the frequency and severity of medical malpractice claims; and

(2) Health care providers, health care facilities, and health carriers can and should be supported in their efforts to improve patient safety and reduce medical errors by encouraging health care facilities and providers to communicate openly with patients regarding medical errors that have occurred and steps that can be taken to prevent errors from occurring in the future, encouraging health care facilities and providers to work cooperatively in their patient safety efforts, and increasing funding available to implement proven patient safety strategies.

Requires the secretary to increase the licensing fee established under RCW 43.70.110 by two dollars for the health care professionals designated in this act and by two dollars per licensed bed for the health care facilities designated. Proceeds of the patient safety fee must be deposited into the patient safety account in this act and dedicated to patient safety and medical error reduction efforts that have been proven to improve, or have a substantial likelihood of improving the quality of care provided by health care professionals and facilities.

Provides that one percent of all attorneys' fees received for representation of claimants or defendants in actions brought under chapter 7.70 RCW that result in payment to a claimant shall be paid as a patient safety set aside. Proceeds of the patient safety set aside will be distributed by the department of health in the form of grants, loans, or other appropriate arrangements to support strategies that have been proven to reduce medical errors and enhance patient safety, or have a substantial likelihood of reducing medical errors and enhancing patient safety, as provided in this act.

Provides that patient safety fee and set aside proceeds shall be administered by the department, after seeking input from health care providers engaged in direct patient care activities, health care facilities, health care provider organizations, and other interested parties.

Provides that, by December 1, 2009, the department shall report the following information to the governor and the health policy and fiscal committees of the legislature: (1) The amount of patient safety fees and set asides deposited to date in the patient safety account;

(2) The criteria for distribution of grants, loans, or other appropriate arrangements under this act; and

(3) A description of the medical error reduction and patient safety grants and loans distributed to date, including the stated performance measures, activities, timelines, and detailed information regarding outcomes for each project.

**HB 1292** by Representatives Haigh and Nixon

Providing compensation after all bids for a public works contract are rejected.

Recognizes that fair and open competition is a basic tenet of public works procurement, that such competition reduces the appearance of and opportunity for favoritism and inspires public confidence that contracts are awarded equitably and economically. Preservation of the integrity of the competitive bid system for both the bidder and the public owner dictates that the contract should be awarded to the lowest responsible bidder who prepares and submits the lowest responsive bid, unless good cause is shown.

Provides that, after bids for a public work have been opened by the state, a municipality, or an institution of higher education as defined in RCW 28B.10.016, award must be made to the responsible bidder who submitted the lowest responsive bid unless it is determined in writing by the state, municipality, or institution of higher education that there is good cause to reject all bids and cancel the invitation.

Provides that any decision to reject all bids and cancel the invitation shall result in the payment of ten thousand dollars or five percent of the project cost estimate, whichever amount is less, to the contractor that otherwise would have been awarded the contract as the responsible bidder who submitted the lowest responsive bid.

(DIGEST AS ENACTED)

Declares that a person is guilty of animal cruelty in the first degree when, except as authorized by law, he or she, with criminal negligence, starves, dehydrates, or suffocates an animal and as a result causes: (a) Substantial and unjustifiable physical pain that extends for a period sufficient to cause considerable suffering; or (b) death.

Declares that animal cruelty in the first degree is a class C felony.

Provides that a person commits the crime of animal fighting if the person knowingly does any of the following: (1) Owns, possesses, keeps, breeds, trains, buys, sells, or advertises or offers for sale any animal with the intent that the animal shall be engaged in an exhibition of fighting with another animal;

(2) Promotes, organizes, conducts, participates in, advertises, or performs any service in the furtherance of an exhibition of animal fighting, transports spectators to an animal fight, or provides or serves as a stakeholder for any money wagered on an animal fight;

(3) Keeps or uses any place for the purpose of animal fighting, or manages or accepts payment of admission to any place kept or used for the purpose of animal fighting;

(4) Suffers or permits any place over which the person has possession or control to be occupied, kept, or used for the purpose of an exhibition of animal fighting; or

(5) Takes, leads away, possesses, confines, sells, transfers, or receives a stray animal or a pet animal, with the intent to deprive the owner of the pet animal, and with the intent of using the stray animal or pet animal for animal fighting, or for training or baiting for the purpose of animal fighting.

Declares that a person who violates this act is guilty of a class C felony punishable under RCW 9A.20.021.

Requiring the parks and recreation commission to have a record  
check performed on certain job applicants. (REVISED FOR  
PASSED LEGISLATURE: Concerning background checks and  
fingerprint identification.)

(DIGEST AS ENACTED)

Requires the adoption of rules that may require a criminal  
history record information search and fingerprinting for the  
following: Job applicants, volunteers, and independent  
contractors who have unsupervised access to children or  
vulnerable adults, or who will be responsible for collecting or

patrol criminal identification system and may include the federal  
bureau of investigation. A permanent employee of the  
commission, employed as of the effective date of this act, is  
exempt from the provisions of this act.

Provides that the local law enforcement agency shall be able  
to transmit a tenprint record to the state system through any

available protocol which meets accepted industry standards, and the state system must be able to accept tenprint records which comply with those requirements. When industry transmission protocols change, the Washington state patrol shall incorporate these new standards as funding and reasonable system engineering practices permit. The tenprint transmission from any local law enforcement agency must be in accordance with the current version of the state electronic fingerprint transmission specification.

Requires that, no later than January 1, 2007, the Washington state patrol's automatic fingerprint identification system shall be capable of instantly accepting electronic latent search records from any Washington state local law enforcement agency. If specific funding for the purposes of this provision is not provided by June 30, 2006, in the omnibus appropriations act, or if funding is not obtained from another source by June 30, 2006, this subsection is null and void.

(DIGEST AS ENACTED)

Provides that the party filing the first or initial petition for dissolution, legal separation, or declaration concerning the validity of marriage shall pay, at the time and in addition to the filing fee required under RCW 36.18.020, a fee of thirty dollars. The clerk of the superior court shall transmit monthly twenty-four dollars of the thirty-dollar fee collected under this provision to the state treasury for deposit in the domestic violence prevention account. The remaining six dollars shall be retained by the county for the purpose of supporting community-based services within the county for victims of domestic violence, except for five percent of the six dollars, which may be retained by the court for administrative purposes.

Requires the department to administer funds available from the domestic violence prevention account under this act and establish minimum standards for preventive, nonshelter community-based services receiving funds administered by the department. Preventive, nonshelter community-based services include services for victims of domestic violence from communities that have been traditionally underserved or unserved and services for children who have witnessed domestic violence.

Providing a life insurance policy for national guard members  
 called to active duty.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that every member of the national guard called into  
 active duty shall be issued a life insurance policy with a benefit of  
 two hundred fifty thousand dollars. The premium for the policy  
 shall be paid out of the general fund of Washington for the period  
 of time that the member of the national guard is on active duty.

Declares that, under this act, "active duty" means active state  
 service, active training duty, and federal service.

**HB 1343-S** by House Committee on State Government  
 Operations & Accountability (originally  
 sponsored by Representatives P. Sullivan, Walsh, Simpson,  
 Green, Buri, Kessler, Haler, Morrell, McCoy, Williams, Linville,  
 Hasegawa, Roberts, Sells, McDermott, Chase, and Ormsby)

(AS OF HOUSE 2ND READING 1/25/06)

Directs the military department to reimburse active duty  
 national guard members the cost of life insurance premiums for  
 insurance purchased through the federal service members' group  
 life insurance program. Reimbursements shall be made for  
 premiums up to four hundred thousand dollars in coverage and  
 shall be made only when national guard members are on active  
 duty. Under this provision, "active duty" means deployed outside  
 the United States.

Provides that the act shall be null and void if appropriations  
 are not approved.

**HB 1344** by Representatives P. Sullivan, Simpson, and Dunn  
 Requiring information on fugitives to be posted on the internet.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that some offenders, often known as escapees or  
 fugitives, willfully discontinue to make themselves available to  
 the department of corrections for supervision by making their  
 whereabouts unknown or by failing to maintain contact with the  
 department as required by their community custody officers.

Requires the department of corrections to, within available  
 resources, establish a public list, on the department's available  
 web site, of all persons deemed escapees or fugitives from the  
 department. The department shall focus the web site on those  
 escapees and fugitives considered high risk offenders. The  
 department shall submit a report to the legislature by December  
 31, 2005, on the progress of the web site.

Provides that the act shall be null and void if appropriations  
 are not approved.

**HB 1344-S** by House Committee on Appropriations  
 (originally sponsored by Representatives P.

Requiring the department of corrections to post on its web site  
 information on escapees.

(AS OF HOUSE 2ND READING 3/11/05)

Directs the department of corrections to, within available  
 resources, establish a public list, on the department's web site, of  
 all high-risk inmates who have escaped from correctional  
 institutions and facilities operated or contracted by the  
 department.

 Moeller, Appleton, Morrell, McCoy, Dunn, Kagi, McDermott,  
 Santos, and Chase

Allowing state financial aid for part-time students.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that due in part to the high cost of attending college, a  
 significant number of students attend higher education part time.

Finds that more than one-quarter of students cannot qualify  
 for financial aid due solely to their part-time status.

Declares an intent to expand eligibility for the state need  
 grant to include some students who are enrolled on less than a  
 half-time basis.

(DIGEST AS ENACTED)

Directs the higher education coordinating board to develop a  
 pilot project for the 2005-2007 biennium to assess the need for  
 and funding requirements that would be necessary to expand  
 student eligibility for the state need grant program to include  
 students enrolled in four or five quarter hours or equivalent  
 enrollment. Under the pilot project, students attending  
 participating higher education institutions and enrolled in four or  
 five quarter hours or equivalent enrollment shall be eligible for  
 the state need grant as long as they also meet the other eligibility  
 criteria for the program.

Requires the higher education coordinating board to select up  
 to ten colleges and universities to participate in the pilot project  
 developed under this act.

Requires the higher education coordinating board to report to  
 the higher education committees of the legislature by December  
 2006, on the results of the pilot project.

Provides that the pilot project shall begin in the fall 2005  
 academic term and expire June 30, 2007.

**HB 1346** by Representatives Buck, B. Sullivan, Kretz,  
 DeBolt, Blake, Eickmeyer, and Takko

Improving the efficiency and predictability of the hydraulic  
 project approval program.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that the state has acted to plan for the protection and  
 preservation of fish life by establishing policies that affect the  
 protection of marine and freshwater habitat in the growth  
 management act, the shorelines management act, the forest and  
 fish plan, and the habitat conservation plan.

Finds that the state requires the examination of the  
 environmental impacts of construction projects and work in  
 Washington to minimize and mitigate the impact of those projects  
 through the state environmental policy act.

Finds that while these various acts regulate the planning and  
 design of upland projects, it is necessary to call on the expertise  
 of the department of fish and wildlife to implement rules  
 governing construction or work activities that occur below the  
 ordinary high water line or other work specifically designated by  
 the legislature in such a manner so as to protect fish life.

Recognizes that all such construction and work is to be  
 permitted in a timely and efficient fashion with an aim toward  
 preserving existing public and private property, preventing  
 damage to the environment, protecting fish life, and permitting  
 the efficient construction of new facilities.

Repeals RCW 77.55.100, 77.55.110, 77.55.190, and  
 77.55.370.

**HB 1346-S** by House Committee on Natural Resources,  
 Ecology & Parks (originally sponsored by  
 Representatives Buck, B. Sullivan, Kretz, DeBolt, Blake,  
 Eickmeyer, and Takko)

Concerning the hydraulic project approval program.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that the hydraulic project approval provides critical protections for fish and fish habitat and is a key component of the state's approach to salmon recovery.

Finds that the hydraulic project approval is the only state permit solely intended to protect fish life.

Finds that the hydraulic project approval program needs to be redesigned to provide better customer service, improved consistency, and enhanced compliance and effectiveness monitoring.

Declares an intent to clarify the department of fish and wildlife's authority under chapter 77.55 RCW, streamline the application process to provide consistency and predictability for permit applicants, and ensure that those hydraulic projects with the highest potential risk to fish and fish habitat receive the highest priority.

**HB 1346-S2** by House Committee on Appropriations (originally sponsored by Representatives Buck, B. Sullivan, Kretz, DeBolt, Blake, Eickmeyer, and Takko)

Improving the efficiency and predictability of the hydraulic project approval program.

(DIGEST AS ENACTED)

Improves the efficiency and predictability of the hydraulic project approval program.

Repeals RCW 77.55.100, 77.55.110, 77.55.190, 77.55.250, and 77.55.370.

**HB 1347-S** by House Committee on Judiciary (originally sponsored by Representatives Lantz, Williams, and Newhouse)

(DIGEST AS ENACTED)

Finds that the legislature has directed the financial literacy public-private partnership to complete certain tasks to support efforts to increase the level of financial literacy in the common schools. In order to promote a greater understanding by students of the consequences of a dishonored check, the legislature intends to extend by one year the date by which the financial literacy public-private partnership must identify strategies to increase the financial literacy of public school students in Washington.

**HB 1350** by Representatives Nixon, Miloscia, and Anderson

Regarding disclosure of public records.

Declares an intent to restore the law relating to the release of public records largely to that which existed before the Washington supreme court decision in *Hangartner v. City of Seattle*, 151 Wn.2d 439, 90 P.3d 26 (2004).

Declares that the intent of this act is to make clear that: (1) Agencies possessing records must take every available step to assist and facilitate the identification and disclosure of requested records to the public and may not simply ignore or reject requests for disclosure on the basis they are "overly broad," and

(2) Agencies having public records and seeking to exempt disclosure on the basis of the attorney-client privilege may rely only on the exemption in RCW 42.17.310(1)(j) and not the testimonial privilege in RCW 5.60.060(2).

Declares an intent to clarify certain public records provisions to assist agencies in discharging their duty to maintain open governance and to assist citizens in exercising their right to request and examine the recorded workings of their government.

Authorizing a job creation business and occupation tax credit.

(SEE ALSO PROPOSED 1ST SUB)

Provides that, in computing the tax imposed under chapter 82.04 RCW, an eligible person is allowed a credit against the tax due. The credit is equal to five hundred dollars per year for each qualified employment position created after the effective date of this act and maintained for a period of three consecutive years.

Declares that credit may not be taken for hiring of persons into positions that exist on the effective date of this act. Credit is authorized for new employees hired for new positions created on or after the effective date of this act.

Provides that the department shall use the information from this act to study the tax credit program authorized under this act. The department shall report to the appropriate committees of the legislature on the effectiveness of this tax credit in job creation, net jobs created for Washington residents, and company growth by December 1, 2011.

Providing for a central resource center for the nursing work force.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares that Washington state is experiencing a critical shortage of registered nurses. To safeguard and promote patient safety and quality of care, the legislature finds that a central resource center for the nursing work force is critical and essential in addressing the nursing shortage and ensuring that the public continue to receive safe, quality care.

Provides that, in addition to the licensing fee for registered nurses and licensed practical nurses licensed under chapter 18.79

RCW, the department shall impose an additional surcharge of five dollars per year on all initial licenses and renewal licenses for registered nurses and licensed practical nurses issued under this chapter. Advanced registered nurse practitioners are only required to pay the surcharge on their registered nurse licenses.

Directs the department, in consultation with the commission, to use the proceeds from the surcharge imposed under this act to provide grants to a central nursing resource center.

Requires the central nursing resource center to submit a report of all progress, collaboration with other organizations and government entities, and activities conducted by the center to the relevant committees of the legislature by November 30, 2008.

## House Rules "X" file.

**HB 1354** by Representatives Pearson and Kristiansen

Authorizing a pilot program for flood control.

Finds that: (1) The prevention of flood damage to public and private property is a matter of public concern;

(2) Projects that prevent and minimize flood damage may be planned and approved in advance of the time that a flood occurs. However, there are also emergencies requiring immediate project approval; and

(3) Many projects designed to protect public and private property from flood damage are not approved due to conflicts with existing permitting and regulatory requirements.

Declares that a pilot program must be developed for projects in select water resource inventory areas to demonstrate and evaluate methods for authorizing flood control projects that protect public and private property, protect or enhance habitat, and protect fish life.

Companion Bill: 5339

Regarding recidivism reduction through discharge of convicted felons.

(SEE ALSO PROPOSED 1ST SUB)

Finds that: (1) Record numbers of our citizens have been sentenced to prison over the past two decades, more than ninety percent of whom will be reentering society.

(2) The successful reentry and reintegration of previously incarcerated men and women is important to the public safety of the state of Washington, to the health of our communities, and to the reduction of the growing costs of the criminal justice system.

(3) A comprehensive reentry program, including the removal of unreasonable barriers to reentry, offers the best opportunity for released persons to become productive citizens.

(4) Receipt of a certificate of discharge is critical to a released person's ultimate reintegration into society and avoidance of recidivism, including better employability, housing, and the exercise of civil rights.

(5) It is in the public interest that a person who has satisfied all incarceration and supervision requirements of his or her sentence receive a certificate of discharge if he or she has made a good faith effort to satisfy all legal financial obligations, according to his or her means, and the legal financial obligations remain enforceable by all parties as a civil judgment.

Protecting ancestral trees.

(SEE ALSO PROPOSED 1ST SUB)

Declares that "ancestral trees" means trees that are one hundred fifty years old or older and that exist in a forest community that is characterized with large standing trees, large snags, large logs on the land, and, if applicable, large logs in streams.

Provides that, unless specifically authorized by the board prior to sale or harvest, the department may not offer for sale, sell, or harvest any ancestral trees located on public lands.

Provides that the board may only authorize the sale or harvest of an ancestral tree located on public lands after making a formal finding that the harvest of the tree is necessary to preserve the health and safety of other ancestral trees in the immediate area.

**HB 1360-S** by House Committee on Natural Resources, Ecology & Parks (originally sponsored by Representatives Hunt, Chase, Upthegrove, Dunshee, Dickerson, Hasegawa, McDermott, B. Sullivan, Appleton, Williams, Morrell, Murray, Simpson, Linville, Roberts, Ormsby, McCoy, and Kagi)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares that "ancestral trees" means a contiguous group of trees of similar characteristics that: (1) Is twenty acres or larger in size;

(2) Is composed of mixed conifer species with: (a) More than eight dominant trees per acre that are greater than thirty inches in diameter at breast height; (b) four or more conifer snags per acre that are greater than twenty inches in diameter at breast height and are greater than fifteen feet tall; and (c) down logs greater than fifteen tons per acre, including four pieces per acre greater than twenty-four inches at the widest point and greater than fifty feet long;

(3) Is greater than one hundred sixty years old, as determined by computing an arithmetic mean from department inventory on plots in the stand; and

(4) Was not purposefully planted as part of a reforestation effort following a commercial harvest or natural forest disturbance.

Provides that unless specifically authorized by the board prior to sale or harvest, the department may not offer for sale, sell, or harvest any ancestral trees located on public lands west of the crest of the Cascade mountains.

Declares that the board may only authorize the sale or harvest of ancestral trees located on public lands after making a formal finding that some harvest is necessary to preserve the health and safety of other ancestral trees in the immediate area, to protect public safety, or to enhance overall forest health in the stand containing the ancestral trees.

Provides that, by September 1, 2005, the board shall expand operations in at least twenty state-operated retail stores to include Sundays. The board shall select the stores that are expected to gross the most revenues on Sunday by considering factors including, but not limited to, population density, proximity to shopping centers, and proximity to other businesses that are open

on Sunday. The selected stores shall be open for retail business a minimum of five hours on Sunday.

Requires the board to track gross sales and expenses of the selected stores and compare them to previous years' sales and projected sales and expenses before opening on Sunday. The board shall also examine the sales of state and contract liquor stores in proximity to those stores opened on Sundays to determine whether Sunday openings has reduced the sales of other state and contract liquor stores that are not open on Sundays. The board shall present this information to the appropriate policy and fiscal committees of the legislature by January 31, 2007.

Provides that employees in state liquor stores, including agency vendor liquor stores, may not be required to work on their Sabbath for the purpose of selling liquor if doing so would violate their religious beliefs.

Provides that a person shall not raise or lower the height of a motor vehicle by mechanical means while the motor vehicle is in motion on a public roadway with a posted speed limit of twenty-five miles per hour or greater and with the vehicle speed in excess of fifteen miles per hour.

Provides that at no time shall any portion of any tire leave the surface of the roadway or any component of the hydraulic system cause or emit sparks. An operator receiving three or more citations for violating this act will be required to remove all hydraulics from the vehicle.

**HB 1381-S** by House Committee on Transportation (originally sponsored by Representatives Clements, Kenney, and Skinner)

(DIGEST AS PASSED LEGISLATURE)

Provides that motor vehicles that have aftermarket hydraulic or mechanical systems that raise or lower the height of the vehicle are prohibited while the motor vehicle is in motion on a public roadway with a posted speed limit of twenty-five miles per hour or greater and with the vehicle speed in excess of fifteen miles per hour, except when lawfully participating in a parade permitted by a local jurisdiction.

Provides that at no time shall any portion of any tire leave the surface of the roadway or any component of the hydraulic system cause or emit sparks. An operator receiving three or more citations for violating this act will be required to remove all hydraulics from the vehicle.

Declares that nothing in this act prohibits a county or city from enacting stricter regulations for aftermarket vehicle hydraulics on a public roadway.

VETO MESSAGE ON 1381-S

May 13, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval, Substitute House Bill No. 1381 entitled:

As drafted, Substitute House Bill 1381 would completely prohibit vehicles having aftermarket hydraulic or mechanical systems that raise or lower the height of the vehicle from use on public roadway except when:

&#8226;The posted speed limit is twenty five miles per hour or less, and;  
&#8226;The vehicle speed is fifteen miles per hour or less, or;  
&#8226;When participating in a parade permitted by a local jurisdiction.

This is not what the legislature intended. I agree with the intended purpose of the bill; that is, to allow the activation of hydraulic or mechanical systems in limited circumstances. The bill, however, does not accomplish this by what amounts to a complete prohibition.

While I am vetoing this bill, I am directing the Chief of the Washington State Patrol, pursuant to the State Patrol's rule-making authority, to examine this issue and to modify WAC 204-90-120 to implement the intent of this legislation.

For these reasons, I have vetoed Substitute House Bill No. 1381 in its entirety.

Respectfully submitted,  
Christine O. Gregoire  
Governor

**HB 1387** by Representatives Nixon, Flannigan, Dickerson, Shabro, Wood, Springer, Appleton, Murray, Hudgins, Upthegrove, Schual-Berke, Moeller, Campbell, Hunter, Kagi, Clibborn, and Darneille

Providing investigative and corrective action procedures for state patrol officers involved in vehicle accidents.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares an intent that serious vehicle accidents involving state patrol officers are independently investigated to ensure independence and objectivity, along with the perception of independence and objectivity during the investigation.

Declares an intent to have corrective actions in place to prevent future vehicle accidents. There shall be a tracking process implemented to identify vehicle accident trends and provide corrective action to prevent future vehicle accidents.

Requires that, when a Washington state patrol officer is off duty, the officer will follow the same traffic laws and enforcement policies as any other person using the public roadways.

**HB 1387-S** by House Committee on Transportation (originally sponsored by Representatives Nixon, Flannigan, Dickerson, Shabro, Wood, Springer, Appleton, Murray, Hudgins, Upthegrove, Schual-Berke, Moeller, Campbell, Hunter, Kagi, Clibborn, and Darneille)

(DIGEST AS ENACTED)

Declares an intent that accidents involving Washington state patrol officers follow a process that provides a high degree of integrity and credibility both within the investigation of the accident and the perception of the investigation from persons outside the investigation.

Declares an intent to have a communication process in place for the Washington state patrol to communicate accident information to the persons and their families who are involved in the vehicle accidents.

Declares an intent to have early detections in place to reduce future vehicle accidents.

Provides that, before the legislative committee assembly in September 2005, the Washington state patrol shall have an outside entity that has a reputation for and has proven experience in law enforcement management and reviewing law enforcement and criminal justice policies and procedures review the agency's proposed law enforcement vehicle accident policies and procedures where a law enforcement officer is involved.

Requires the agency to present the proposed policies and procedures to the legislature and finalize the policies and

procedures based on input from the legislature. The Washington state patrol shall report to the house and senate transportation committees by November 30, 2005, on the updated policies, processes, and procedures. Once the policies and procedures are completed, other law enforcement agencies may adopt the policies and procedures for their agencies.

Companion Bill: 5121

Creating the airport siting council.

Intends the airport siting council to site airports that will ensure the long-term air transportation needs of Washington state are met and are in compliance with applicable public health, environmental, and land use laws.

Provides that if the transportation commission finds that all of the following have occurred, it shall declare an impasse and refer the issue to the airport siting council: (1) A regional transportation plan does not satisfactorily address the state's interest as defined in RCW 47.06.040 with respect to planning for transportation needs through siting of an airport;

(2) There has been ample time to address siting of an airport in the regional transportation plan and local comprehensive plans, but either no decision has been reached or the process has resulted in a decision that will not address the state's transportation needs as set forth in RCW 47.06.040;

(3) The department of transportation has sought by all reasonable means to encourage local governments and regional bodies to cooperate in a planning and decision-making process that addresses in a timely manner statewide airport siting needs;

(4) The transportation commission has notified the local governments and regional bodies responsible for the regional transportation plan of its intent to declare an impasse; and

(5) The local governments and regional bodies responsible for the regional transportation plan have failed to show cause within thirty days of such notification that an impasse should not be declared.

Directs the transportation commission to declare an impasse by August 1, 2005, regarding the search for a supplemental airport in the Puget Sound region or replacement for Seattle-Tacoma International Airport.

Requires the airport siting council to convene to make recommendations to the governor whenever the transportation commission passes a resolution declaring that an impasse exists in the siting of an airport of statewide significance, as provided in this act.

Declares that this act supersedes other laws for establishing the location of airports of statewide significance or rules adopted under state law for establishing the location of airports of statewide significance.

Declares that the requirements of this act and rules adopted under it do not supersede the State Environmental Policy Act, the State Clean Air Act, the State Clean Water Act, the Shoreline Management Act, the laws relating to solid and hazardous waste management, and all the related portions of the Washington Administrative Code that implement these environmental laws.

Appropriates the sum of five hundred thousand dollars, or as much thereof as may be necessary, for the biennium ending June 30, 2007, from the multimodal fund to the department of transportation for the purposes of this act.

Regulating movement of older mobile homes.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that, for mobile homes constructed before 1976 a certificate from the department of labor and industries is required that the mobile home complies with the safety rules adopted by the department of licensing under RCW 43.22.340 and 43.22.432, or a copy of the certificate of ownership together with an affidavit signed under penalty of perjury by the certified owner stating that the mobile home is being transferred to a wrecking yard or similar facility for disposal.

**HB 1393-S** by House Committee on Housing (originally sponsored by Representatives Buri, Grant, Cox, B. Sullivan, Condotta, Dunshee, and Chase)

(DIGEST AS ENACTED)

Requires, for mobile homes constructed before June 15, 1976, and already situated in the state: (1) A certification from the department of labor and industries that the mobile home was inspected for fire safety; or

(2) An affidavit in the form prescribed by the department of community, trade, and economic development signed by the owner stating that the mobile home is being moved by the owner for his or her continued occupation or use; or

(3) A copy of the certificate of ownership together with an affidavit signed under penalty of perjury by the certified owner stating that the mobile home is being transferred to a wrecking yard or similar facility for disposal. In addition, the destroyed mobile home must be removed from the assessment rolls of the county and any outstanding taxes on the destroyed mobile home must be removed by the county treasurer.

Provides that, by January 1, 2006, the department of labor and industries shall also adopt procedures for notifying destination local jurisdictions concerning the arrival of mobile homes that failed safety inspections.

Requires that, if the mobile home was manufactured prior to June 15, 1976, the registered owner must sign an affidavit in the form prescribed by the department of licensing that notice was provided to the purchaser of the mobile home that failure of the mobile home to meet federal housing and urban development standards or failure of the mobile home to meet a fire and safety inspection by the department of labor and industries may result in denial by a local jurisdiction of a permit to site the mobile home.

Companion Bill: 5397

Changing vehicle emission standards provisions.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that, pursuant to the federal clean air act, the legislature adopts the California motor vehicle emission standards in Title 13 of the California Code of Regulations, effective January 1, 2005.

Provides that, by December 31, 2005, the department of ecology shall adopt rules to implement the emission standards of the state of California for passenger cars, light duty trucks, and medium duty passenger vehicles, and shall amend the rules from time to time, to conform to the requirements of the federal clean air act. Rules shall be applicable to motor vehicles with a model year 2009 and later.

Does not limit the department of ecology's authority to regulate motor vehicle emissions for any other class of vehicle.

Provides that, after adoption of rules specified in this act, no vehicle shall be registered in the state for model year 2009 or later unless the vehicle: (1) Is consistent with the vehicle emission standards adopted by the department of ecology; or

(2) Has seven thousand five hundred miles or more. The department of licensing, in consultation with the department of ecology, may adopt rules necessary to implement this act.

Repeals RCW 70.120.200, and 1991 c 199 s 229 (uncodified).

**HB 1397-S** by House Committee on Transportation (originally sponsored by Representatives Murray, Jarrett, Morris, B. Sullivan, Anderson, Appleton, Wallace, P. Sullivan, Kenney, Campbell, Rodne, Hunt, Priest, Springer, Tom, Lovick, Quall, Pettigrew, Kirby, Clibborn, Kilmer, Dunshee, Dickerson, Ericks, Green, Sells, Hasegawa, Upthegrove, Williams, Moeller, McIntire, Chase, Simpson, McDermott, Hudgins, and Wood)

(DIGEST AS ENACTED)

Provides that, pursuant to the federal clean air act, the legislature adopts the California motor vehicle emission standards in Title 13 of the California Code of Regulations, effective January 1, 2005.

Requires the department of ecology to adopt rules to implement the emission standards of the state of California for passenger cars, light duty trucks, and medium duty passenger vehicles, and shall amend the rules from time to time, to maintain consistency with the California motor vehicle emission standards and 42 U.S.C. Sec. 7507 (section 177 of the federal clean air act). Notwithstanding other provisions of this act, the department of ecology shall not adopt the zero emission vehicle program regulations contained in Title 13 section 1962 of the California Code of Regulations effective January 1, 2005. During rule development, the department of ecology shall convene an advisory group composed of industry and consumer group representatives. Any proposed rules or changes to rules shall be subject to review and comment by the advisory group, prior to rule adoption. The order of adoption for the rules required in this section shall include the signature of the governor. The rules shall be effective only for those model years for which the state of Oregon has adopted the California motor vehicle emission standards. This act does not limit the department of ecology's authority to regulate motor vehicle emissions for any other class of vehicle.

Provides that, after adoption of rules specified in this act, no vehicle shall be registered, leased, rented, or sold for use in the state starting with the model year as provided in section 2 of this act unless the vehicle: (1)(a) Is consistent with the vehicle emission standards as adopted by the department of ecology; (b) is consistent with the carbon dioxide equivalent emission standards as adopted by the department of ecology; and (c) has a California certification label for (i) all emission standards, and (ii) carbon dioxide equivalent emission standards necessary to meet fleet average requirements; or

(2) Has seven thousand five hundred miles or more.

Directs the office of financial management to provide an annual progress report to the appropriate committees of the legislature. The office of financial management, in conjunction with the departments of licensing, revenue, and ecology, shall report on the availability of vehicles meeting the standards, the progress of automobile industries in meeting the requirements of the standards, and any other matters relevant to the success of auto-related industries in implementing these requirements.

Repeals RCW 70.120.200, and 1991 c 199 s 229 (uncodified).

**HB 1401** by Representatives Simpson, Hankins, O'Brien, Ormsby, and Chase

Requiring certain buildings to add automatic sprinkler systems.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that the director of fire protection shall require all applicants for alcoholic beverages licenses to submit a valid certificate of inspection, as provided in the state building code, issued by a local inspector and signed by the head of the fire department for the city, town, or district in which the applicant intends to sell alcoholic beverages to be consumed on the premises.

Requires the certificate of inspection to attest to the safety of the building or structure in which the applicant intends to sell alcoholic beverages to be consumed on the premises and that the building or structure meets or exceeds the requirements of the state building code.

Provides that the state building code council shall require the owner of any building or structure or portion thereof, that includes a place of business designed or used for occupancy as a nightclub, dance hall, discotheque, bar, or for similar entertainment purposes, with a capacity of one hundred persons or more, to install an adequate system of automatic sprinklers throughout the building including, but not limited to, residential dwellings and in any common areas connected thereto, in accordance with the state building code.

Provides that any owner, occupant, lessee, or other person having control or supervision of any assembly use group building and who causes or permits a dangerous condition to exist on the premises at anytime shall be punished by a fine of not more than five thousand dollars or by imprisonment for not more than two and one-half years, or both.

**HB 1401-S** by House Committee on Local Government (originally sponsored by Representatives Simpson, Hankins, O'Brien, Ormsby, and Chase)

Regulating fire safety.

(DIGEST AS ENACTED)

Requires the building code council to adopt rules by December 1, 2005, requiring that all nightclubs be provided with an automatic sprinkler system. Rules adopted by the council shall consider applicable nationally recognized fire and building code standards and local conditions.

Provides that, by December 15, 2005, the council shall transmit to the fire protection policy board copies of the rules as adopted. The fire protection policy board shall respond to the council by February 15, 2006. If changes are recommended by the fire protection policy board the council shall immediately consider those changes to the rules through its rule-making procedures. The rules shall be effective December 1, 2007.

Provides that, prior to installation of an automatic sprinkler system under this act, an owner of property may apply to the assessor of the county in which the property is located for a special property tax exemption.

Declares that, as used in this act, "special property tax exemption" means the determination of the assessed value of the property subtracting, for ten years, the increase in value attributable to the installation of an automatic sprinkler system under this act.

Provides that the county assessor shall, for ten consecutive assessment years following the calendar year in which application is made, place a special property tax exemption on property classified as eligible.

Companion Bill: 5375

Regulating supervision of offenders who travel or transfer to or from another state.

(SUBSTITUTED FOR - SEE 1ST SUB)

Authorizes the department to supervise nonfelony offenders transferred to Washington pursuant to RCW 9.94A.745, the interstate compact for adult offender supervision, and shall supervise these offenders according to the provisions of that chapter.

Directs the department to process applications for interstate transfer of felony and nonfelony offenders pursuant to RCW 9.94A.745, the interstate compact for adult offender supervision, and may charge offenders a reasonable fee for processing the application.

Provides that if a misdemeanor probationer requests permission to travel or transfer to another state, the assigned

probation officer employed or contracted for by the county shall determine whether such request is subject to RCW 9.94A.745, the interstate compact for adult offender supervision. If such request is subject to the compact, the probation officer shall: (1) Notify the department of corrections of the probationer's request;

(2) Provide the department of corrections with the supporting documentation it requests for processing an application for transfer;

(3) Notify the probationer of the fee due to the department of corrections for processing an application under the compact;

(4) Cease supervision of the probationer while another state supervises the probationer pursuant to the compact;

(5) Resume supervision if the probationer returns to this state before the term of probation expires.

Provides that the probationer shall receive credit for time served while being supervised by another state.

Companion Bill: 5469

Creating an individual development account program.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that economic well-being encompasses not only income, spending, and consumption, but also savings, investment, and asset-building. The building of assets, in particular, can improve individuals' economic independence and stability.

Finds that it is appropriate for the state to institute an asset-based strategy to assist low-income families. It is the purpose of this act to promote job training, home ownership, and business development among low-income individuals and to provide assistance in meeting the financial goals of low-income individuals.

Establishes an individual development account program within the department for the purpose of facilitating the creation by sponsoring organizations of individual development accounts for low-income individuals.

Establishes a foster youth individual development account program within the individual development account program established pursuant to this act for the purpose of facilitating the creation by sponsoring organizations of individual development accounts for foster youth.

Creates an account in the custody of the state treasurer to be known as the individual development account program account.

Appropriates the sum of three million dollars, or as much thereof as may be necessary, from the general fund to the individual development account program account for the biennium ending June 30, 2007, to carry out the purposes of this act.

Regarding a policy on training on the use of force and physical restraint in the common schools.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that, by March 30, 2006, the superintendent of public instruction shall, in consultation with the Washington state school safety center advisory committee and the criminal justice training commission, develop a model policy and training standards and requirements for school building administrators and other school security personnel relative to the use of force and physical restraint in the common schools. The superintendent shall report to the appropriate committees of the legislature regarding the model training standards and requirements for school building administrators and other school security personnel relative to the use of force and physical restraint.

Requires that, by March 30, 2006, the model policy and training standards and requirements developed under this act shall be made available to serve as guidance to school districts and educational service districts and shall be posted on the superintendent of public instruction's web site.

Requires that, by March 30, 2006, the superintendent of public instruction and the criminal justice training commission, in consultation with the school safety advisory committee, shall disseminate a schedule of regional training sessions, addressing the training standards developed under this act. Training sessions shall be made available to school safety and security personnel from May 1, 2006, through December 31, 2006.

Requires that, by September 1, 2007, each school district board of directors shall adopt a policy and identify district personnel in need of training regarding the use of force and physical restraint.

Provides that, beginning in the 2005-06 school year, each school district board of directors in which one or more schools employs an independent contractor to meet its security and safety needs shall, in collaboration with the appropriate building administrator, inquire and be informed about an independent contractor's policy regarding the use of force and physical restraint in the school building in which the contractor provides services.

Provides that the act shall be null and void if appropriations are not approved.

**HB 1415** by Representatives Dickerson, B. Sullivan, Dunshee, Williams, Hunt, Eickmeyer, Chase, Sells, and Hasegawa

Managing impacts of commercial passenger vessels on marine waters.

(SUBSTITUTED FOR - SEE 2ND SUB)

Declares that except as otherwise provided in this act, a person may not, regardless of intent, release sewage sludge, oily bilge water, solid waste, biomedical waste, hazardous waste, graywater, or untreated blackwater from a commercial passenger vessel into any vessel-accessible waters.

Does not apply to releases made for the purpose of securing the safety of a commercial passenger vessel or saving life at sea if all reasonable precautions have been taken to prevent or minimize the release.

Declares that, except as provided in this act, a person may not release blackwater into any vessel-accessible waters from a commercial passenger vessel that calls on a public port in Washington unless the owner or operator of the commercial passenger vessel has been approved for blackwater releases by the department for the vessel in question and satisfies the requirements of this act.

Provides that a person may release treated blackwater from a commercial passenger vessel that has been approved for releases under this act and is at least more than one nautical mile from its berth at a public port in Washington and is traveling at least six knots if the owner or operator of the commercial passenger vessel agrees with the department to comply with designated requirements.

Provides that, by November 30, 2007, the department shall submit to the appropriate committees of the legislature a report that concludes if the limitations on the release of treated blackwater from commercial passenger vessels under chapter 90.48 RCW are adequate for protecting water quality. At a minimum, the report must make findings as to whether commercial passenger vessels are releasing treated blackwater in the same locations, and if so, whether the cumulative effects of these releases degrade the water quality in those areas.

Requires that, for each year from 2005 until 2010, the department shall analyze all water quality data received from commercial passenger vessels and make available to the public by December 31st of each year a report that summarizes all data collected in lay terms.

**HB 1415-S** by House Committee on Natural Resources, Ecology & Parks (originally sponsored by Representatives Dickerson, B. Sullivan, Dunshee, Williams, Hunt, Eickmeyer, Chase, Sells, and Hasegawa)

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that large vessels specifically designed for the housing of people upon the seas, unlike vessels designed to transport cargo or petroleum that carry crew as an ancillary function of cargo transport, function primarily as a temporary residential facility, especially while these vessels are stationary at their port of call. The primary function of these vessels is more akin to a floating hotel or a houseboat than it is to a transportation vessel.

Declares an intent to ensure that the blackwater, graywater, and other wastes eventually released by the owners and operators of commercial passenger vessels satisfies the state's standards for protecting the quality of its waters. It is the traditional and long-standing role of the state to ensure that any substances being released into its waters will not, given the unique nature of the state's local waters, adversely impact either the state's economic or environmental interests.

Declares that except as otherwise provided in this act, a person may not, regardless of intent, release sewage sludge, solid waste, biomedical waste, dangerous waste, untreated graywater, or untreated blackwater from a commercial passenger vessel into any waters of the state.

Provides that except as otherwise provided in this act, a person may not, regardless of intent, release oily bilge water into any waters of the state if not in compliance with applicable federal law.

Does not apply to releases made for the purpose of securing the safety of a commercial passenger vessel or saving life at sea if all reasonable precautions have been taken to prevent or minimize the release.

Declares that, except as provided in this act, a person may not release blackwater into waters of the state from a commercial passenger vessel that calls on a public port in Washington unless the owner or operator of the commercial passenger vessel has been approved for blackwater releases by the department for the vessel in question and satisfies the requirements of this act.

Provides that the department shall approve blackwater releases from a commercial passenger vessel if the owner or

operator of the commercial passenger vessel: (1) Can demonstrate to the department's satisfaction, based on effluent limits and requirements for sampling and reporting established by the department, that the blackwater to be released from the vessel will receive an adequate level of treatment to protect the quality of the water receiving the release; and

(2) Has paid the mandatory annual operating fee established in this act.

Provides that the owner or operator of a commercial passenger vessel that is operating under the presumption of adequate blackwater treatment granted in this act may only maintain the presumption of adequacy if the owner or operator agrees with the department to do all of the following when the vessel is at least more than one nautical mile from its berth at a public port in Washington and is traveling at least six knots or more: (1) Sample the quality of the treated blackwater released from the commercial passenger vessel while at berth at a Washington public port at least once during each month that the commercial passenger vessel calls on a public port in Washington;

(2) Share all effluent samples with the department, when requested in writing, for all samples taken in waters of the state;

(3) Conduct a whole effluent toxicity test, or WET test, at least once every two years unless the department provides notification in writing that such testing is unnecessary;

(4) Provide the department, when requested in writing, with duplicate results of tests performed on the commercial passenger vessel's wastewater treatment system in other jurisdictions;

(5) Notify the department at least one week before sampling in waters of the state is to occur, and allow department staff to observe the sampling events when requested;

(6) Immediately report to the department any unauthorized discharges;

(7) Allow the department to conduct a minimum of one inspection of the commercial passenger vessel, if requested in writing, to verify the operating conditions of the wastewater treatment system; and

(8) Notify the department if material changes are made to the wastewater treatment system approved under this act.

Requires that, by November 30, 2007, the department shall submit to the appropriate committees of the legislature a report describing how the management and releases of treated blackwater and graywater from commercial passenger vessels under this act are or are not adequate for protecting water quality and public health. At a minimum, the report must make findings as to whether commercial passenger vessels are releasing treated blackwater and graywater in the same locations, and if so, whether the cumulative effects of these releases degrade the water quality in those areas. The report must also address the dilution and dispersion of viruses in the treated blackwater and the impact on shellfish for human consumption.

Provides that for each year from 2005 until 2010, the department shall analyze all water quality data received from commercial passenger vessels and make available to the public, using the agency's web site, by December 31st of each year a report that summarizes all data collected in lay terms.

**HB 1420** by Representatives Ericksen, Serben, Kretz, and Holmquist

Creating a competitive industrial insurance system.

Finds that most states use competition to maximize efficiency in their workers' compensation programs. Private sector competition in providing workers' compensation insurance has been effective in reducing premium costs, maximizing program efficiency, and creating innovative safety programs to protect all workers.

Declares that the purposes of this act are to: (1) Create an efficient and cost-effective industrial insurance system for the benefit of both employers and workers by introducing competition into the system through a choice of insurance carriers from whom employers may purchase industrial insurance;

(2) Provide workers the benefits of safety systems developed by both private enterprise and by government;

(3) Improve the state's economic climate by providing the private sector with the opportunity to engage in the industrial insurance business under government regulation;

(4) Eliminate a government monopoly with respect to choices for small employers; and

(5) Eliminate Washington's state-run industrial insurance fund.

Provides that, by December 1, 2005, the insurance commissioner must prepare, and report to the appropriate committees of the legislature, a plan for the sale of the industrial insurance state fund to a private sector, for-profit or nonprofit entity by July 1, 2007.

Concerning small scale prospecting and placer mining.

Declares that, for the purposes of chapter 77.55 RCW, "small scale prospecting and placer mining" means only the use of the following methods for the discovery and recovery of minerals: (1) Pans, either motorized or nonmotorized;

- (2) Motorized and nonmotorized sluice boxes, concentrators, and rocker boxes;
- (3) Motorized suction dredges;
- (4) Nonmotorized equipment and hand tools used in the collecting of mineral samples;
- (5) Motorized power sluice and combination suction dredges and power sluice; and
- (6) Nonmotorized equipment used for crevice cleaning.

Controlling invasive knotweed.

(SEE ALSO PROPOSED 1ST SUB)

Finds that the presence of invasive knotweed on public and private land threatens wildlife habitat, agricultural production, and environmental quality statewide.

Finds that invasive knotweed found on private lands is a source of renewed infestation on public lands.

Finds that it is in the public interest to protect public resources by making concerted efforts to control or contain invasive knotweed on both public and private lands statewide.

Provides that subject to the availability of amounts appropriated for this specific purpose, the state department of agriculture, in consultation with the state noxious weed control board, shall establish a program for the control or containment of invasive knotweed statewide.

Appropriates the sum of two million dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2006, from the general fund to the department of agriculture for the purposes of this act.

Appropriates the sum of two million dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2007, from the general fund to the department of agriculture for the purposes of this act.

Provides that, within the dollars available for administration as specified in this act, by December 1, 2006, the department of agriculture shall prepare and submit a report to the legislature documenting progress made and future recommendations for containing and controlling invasive knotweed under this program.

**HB 1423-S** by House Committee on Economic Development, Agriculture & Trade (originally sponsored by Representatives Curtis, Linville, Clibborn, and Chase)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that the presence of invasive knotweed on public and private land threatens wildlife habitat, agricultural production, and environmental quality statewide.

Finds that invasive knotweed found on private lands is a source of renewed infestation on public lands.

Finds that it is in the public interest to protect public resources by making concerted efforts to control or contain invasive knotweed on both public and private lands statewide.

Provides that subject to the availability of amounts appropriated for this specific purpose, the state department of agriculture, in consultation with the state noxious weed control board, shall establish a program for the control or containment of invasive knotweed statewide.

Appropriates the sum of five hundred thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2006, from the general fund to the department of agriculture for the purposes of this act.

Appropriates the sum of five hundred thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2007, from the general fund to the department of agriculture for the purposes of this act.

Provides that the department of agriculture may use no more than five percent of the appropriated funds for agency administrative costs.

Declares an intent that this appropriation represents an ongoing commitment to a program to control and contain invasive knotweed and that appropriations for it will continue in the future.

Provides that, within the dollars available for administration as specified in this act, by December 1, 2006, the department of agriculture shall prepare and submit a report to the legislature documenting progress made and future recommendations for containing and controlling invasive knotweed under this program.

Companion Bill: 5868

Implementing a strategic direction for higher education.

Declares an intent to articulate a strategic direction for public higher education on issues of access, affordability, service delivery, and accountability that will guide coordinated decision making on policies, operating budgets, and capital plans.

Declares an intent to provide the management tools and resources necessary to implement the strategic direction. Additional investment in higher education is needed, but the public deserves assurance that such an investment is based on a clear plan and will be carefully managed with specific expectations and measurable outcomes.

Declares that it is the strategic direction and intent of the legislature, by the year 2012, to: (1) Increase capacity in higher education by thirty thousand enrollment slots, with fourteen thousand enrollment slots dedicated to expanding work force training;

(2) Graduate three thousand eight hundred additional baccalaureate degrees per year by focusing degree production at the regional universities in partnership with community and technical colleges;

(3) Expand programs and enrollments targeted toward high demand fields by twelve thousand five hundred enrollment slots;

(4) Maintain the market responsiveness and multiple missions of the community and technical college system, including transfer preparation, adult remedial education, work force training, and life-long learning;

(5) Assure that the cost of attendance for all students is less than thirty percent of family income;

(6) Through the strategic master plan for higher education, create specific targets for enrollments and degree production through analysis of statewide and regional demographics and economic needs and comparison to peer institutions and national benchmarks;

VETO MESSAGE ON HB 1439

March 30, 2006

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 4, 5 and 6, House Bill No. 1439 entitled:

The Department of General Administration (Department) generally awards contracts through a competitive, formal, sealed bid process. Under House Bill No. 1439 the Department would be allowed to receive bids electronically or through the web. This is a step in the right direction. I support changes that will make the existing, complicated procurement process easier to manage and use.

However, Sections 4, 5, and 6 of the bill restrict cancellation of the bidding process and re-bidding on public works, personal service, and information technology related contracts. This bill takes cancellation language related to purchased goods and services contract bidding procedures and tries to apply it to other types of contracts, like public works contracts. Yet, there are significant differences between these contracting procedures. While the sealed bid process for purchased goods and services contracts focuses primarily on price, public works and personal service contracts address several factors including price, ability to do the work, vendor qualifications, and prior vendor experience. I am therefore concerned about the impact of Sections 4, 5 and 6.

I do not look favorably on agencies irresponsibly canceling all bids after bid opening and commencing a re-bidding process. Contractors spend too much time and effort on preparing bids to have them cancelled simply because an agency is trying to "price" a project. This is too important an issue to be addressed through language that does not comprehensively address the complex differences between our contracting processes.

As such, I am vetoing Sections 4, 5, and 6. I urge the Legislature to revisit this issue with input from all stakeholders, cities, counties, and the business community, and to propose cancellation language appropriate for our state's contracting system.

For these reasons, I have vetoed Sections 4, 5 and 6 of House Bill No. 1439.

With the exception of Sections 4, 5 and 6 of House Bill No. 1439 is approved.

Respectfully submitted,  
Christine O. Gregoire

Providing access to health insurance for children.

(SUBSTITUTED FOR - SEE 2ND SUB)

Provides access to health insurance for children.

Declares that, to the extent funding is provided in the biennial operating budget, the department may contract with local public health entities, community organizations, and health care providers to conduct outreach and enrollment assistance activities for low-income families who do not have access to affordable health insurance coverage. Every effort shall be made to obtain private, federal Title XIX matching funds and federal Title XXI matching funds for these activities.

Sullivan, Santos, Takko, Green, Wood, Simpson, Hasegawa, and Dickerson)

(SUBSTITUTED FOR - SEE 2ND SUB)

Provides access to health insurance for children.

Provides that the department shall not establish premium requirements for children or pregnant women eligible for medical assistance as defined in RCW 74.09.510 or the children's health program as defined in RCW 74.09.415.

Provides that in the event that available funding is not sufficient to provide the amount, duration, and scope of services provided to children under medical assistance, the department shall make every effort to define covered services in a manner that provides coverage for clinically proven preventive services and meets the needs of children with special health care needs.

Declares that enrollment in the children's health program shall not result in expenditures that exceed the amount that has been appropriated for the program in the operating budget. If it appears that continued enrollment will result in expenditures exceeding the appropriated level for a particular fiscal year, the department may freeze new enrollment in the program for that year.

**HB 1441-S2** by House Committee on Appropriations (originally sponsored by Representatives Clibborn, Morrell, Campbell, Cody, Tom, Moeller, Schual-Berke, Wallace, Grant, Williams, Lovick, Ormsby, Chase, Kessler, Kagi, Hunt, Appleton, Darneille, Upthegrove, Sells, Roberts, Conway, Miloscia, Fromhold, P. Sullivan, Santos, Takko, Green, Wood, Simpson, Hasegawa, and Dickerson)

(DIGEST AS ENACTED)

Declares an intent that all children in the state of Washington have health care coverage by 2010. This should be accomplished by building upon and strengthening the successes of employer-sponsored health insurance coverage, other sources of private coverage, and publicly supported children's health insurance programs in Washington state. Access to coverage should be streamlined and efficient, with reductions in unnecessary administrative costs and mechanisms to expeditiously link children with a medical home.

Finds that the children's health program is a more appropriate mechanism for providing health services to poor children who are not otherwise eligible for medical assistance than grants to community clinics to offset uncompensated care or coverage through the Washington basic health plan.

Provides that enrollment in the children's health program shall not result in expenditures that exceed the amount that has been appropriated for the program in the operating budget. If it appears that continued enrollment will result in expenditures exceeding the appropriated level for a particular fiscal year, the department may freeze new enrollment in the program for that year.

VETO MESSAGE ON HB 1441-S2

May 4, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 3, Engrossed Second Substitute House Bill No. 1441 entitled:

This bill reinstates the Children's Health Program for children up to 100 percent of the federal poverty level who are not otherwise eligible for Medicaid. Section 3 of the bill, the emergency clause that contains the effective date of July 1, 2005, is not needed for funding purposes and could set unreasonable expectations regarding the timing of implementation. The Department of Social and Health Services' (the "Department") operating budget appropriation for 2005-07 becomes effective on July 1, 2005. The Department estimates it will take six months to make the systems changes necessary to start enrolling children in this program by January 2006. I do not want to create false expectation that the Department will start enrolling children on July 1, 2005.

For these reasons I have vetoed Section 3 of Engrossed Second Substitute House Bill No. 1441.

With the exception of Section 3, Engrossed Second Substitute House Bill No. 1441 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

Modifying state regulatory provisions for small businesses.

(SEE ALSO PROPOSED 1ST SUB)

Finds that: (1) A vibrant and growing small business sector is critical to creating jobs in a dynamic economy;

(2) Small businesses bear a disproportionate share of regulatory costs and burdens;

(3) Fundamental changes that are needed in the regulatory and enforcement culture of state agencies to make them more responsive to small business can be made without compromising the statutory missions of the agencies;

(4) When adopting rules to protect the health, safety, and economic welfare of Washington, state agencies should seek to achieve statutory goals as effectively and efficiently as possible without imposing unnecessary burdens on small employers;

(5) Uniform regulatory and reporting requirements can impose unnecessary and disproportionately burdensome demands including legal, accounting, and consulting costs upon small businesses with limited resources;

(6) The failure to recognize differences in the scale and resources of regulated businesses can adversely affect competition in the marketplace, discourage innovation, and restrict improvements in productivity;

(7) Unnecessary regulations create entry barriers in many industries and discourage potential entrepreneurs from introducing beneficial products and processes;

(8) The practice of treating all regulated businesses the same leads to inefficient use of regulatory agency resources, enforcement problems, and, in some cases, to actions inconsistent with the legislative intent of health, safety, environmental, and economic welfare legislation;

(9) Alternative regulatory approaches which do not conflict with the state objective of applicable statutes may be available to minimize the significant economic impact of rules on small businesses; and

(10) The process by which state rules are developed and adopted should be reformed to require agencies to solicit the ideas and comments of small businesses, to examine the impact of proposed and existing rules on such businesses, and to review the continued need for existing rules.

Provides that, prior to the adoption of any proposed rule that may have an adverse impact on small businesses, each agency shall prepare a small business economic impact statement.

Provides that prior to the adoption of any proposed rule on and after July 1, 2005, each agency shall prepare a regulatory flexibility analysis in which the agency shall, where consistent with health, safety, and environmental and economic welfare, consider utilizing regulatory methods that will accomplish the objectives of applicable statutes while minimizing adverse impact on small businesses.

Establishing a pilot project to examine the use of instant runoff voting for nonpartisan offices.

(DIGEST AS ENACTED)

Finds that it is in the public interest to examine the use of a voting system that requires all victorious candidates to be elected with a majority vote rather than a plurality of effective votes, and

that allows voters to designate secondary and other preferences for potential tabulation if their first choice candidate does not receive a majority of the votes cast.

Recognizes that the system known as instant runoff voting achieves these purposes.

Declares that it is in the interest of participatory democracy for voters to be given the opportunity to vote for their first choice candidate while still making effective secondary choices among the remaining candidates.

Declares an intent to authorize a limited pilot project to study the effects of using instant runoff voting as a local option for nonpartisan offices in any qualifying city.

Revising procedures for transfer of territory between school districts.

Finds that the citizens of Washington have long enjoyed the right to petition for a transfer of territory between one school district and another and to have their petition decided upon by a neutral body separate from either school district.

Declares that recent legislation intended to encourage decisions about school boundaries to be made at the local level by the affected school boards was not intended to abrogate the right of citizens to have their petition heard and decided by the educational service district regional committee.

 Companion Bill: 5431

Concerning the management of on-site sewage systems in marine areas.

(SUBSTITUTED FOR - SEE 3RD SUB)

Finds that improperly functioning on-site sewage systems in marine areas may contaminate ground water and surface water, threatening public health and the environment.

Finds that in these areas enhanced on-site sewage system certification programs must be established to ensure systems are properly functioning to protect public and environmental health.

Requires the department of ecology to designate a marine area of special concern in counties with shorelines adjacent to Puget Sound in areas where concentrations of on-site sewage disposal systems are a significant factor contributing to public health and environmental concerns.

Requires the local board of health with jurisdiction over the area to submit an enhanced on-site sewage system certification program to the department within eighteen months of designation of a marine area of special concern within the county.

Requires the local board of health with jurisdiction over the area to conduct quality assurance of the enhanced on-site sewage system certification program including: (1) Inspection of at least ten percent of certificated on-site sewage disposal systems every three years to determine if the systems are properly functioning and in compliance with this chapter and RCW 43.20.050; and

(2) Follow-up inspections of all new on-site sewage disposal systems within one year of installation to ensure that the system is properly functioning and to provide educational materials to the owner or operator of the system.

Provides that, in areas with shorelines adjacent to Puget Sound where an enhanced on-site sewage system certification program is not required, the owner of an on-site sewage disposal system is responsible for operating, monitoring, and maintaining the system to minimize the risk of failure. In order to accomplish this, the owner shall ensure a complete evaluation of the system's components to determine functionality, maintenance needs, and compliance with regulations and permits as follows: (1) At least once every three years for a conventional on-site sewage disposal system; or

(2) Annually for a complex on-site sewage disposal system.

**HB 1458-S** by House Committee on Natural Resources, Ecology & Parks (originally sponsored by Representatives Hunt, Dickerson, McCoy, B. Sullivan, Williams, Haigh, Appleton, Linville, Chase, Dunshee, Simpson, Upthegrove, Moeller, and McDermott)

Concerning the management of on-site sewage disposal systems in marine areas.

(SUBSTITUTED FOR - SEE 3RD SUB)

Finds that improperly functioning on-site sewage systems in marine areas may contaminate ground water and surface water, threatening public health and the environment.

Finds that in these areas enhanced on-site sewage system certification programs must be established to ensure systems are properly functioning to protect public and environmental health.

Finds that local programs designed to identify and correct failing on-site sewage disposal systems have proven effective in reducing and eliminating public health and environmental hazards, improving water quality, and reopening previously closed shellfish areas.

Finds that a partnership is necessary among the state, local, and private sector to develop successful local programs with adequate funding and the tools to identify and repair failing on-site sewage disposal systems.

Finds that local programs must be established in marine areas of special concern to inventory existing on-site sewage disposal systems, identify and repair failing systems, develop data bases capable of sharing information regarding on-site sewage disposal

systems, and monitor results to demonstrate programs are working and public health and the environment are protected.

Requires that, by July 1, 2007, and thereafter, the local health officers of health jurisdictions in the twelve counties bordering Puget Sound where a marine area of special concern has been designated under this act shall each develop and approve an on-site sewage disposal system program implementation plan that will guide the local health jurisdiction in the development and management of all on-site sewage disposal systems within the marine areas of special concern within its jurisdiction.

Declares that, for purposes of this act, the local health jurisdictions in counties bordering Puget Sound are Clallam, Island, Kitsap, Jefferson, Mason, San Juan, Seattle-King, Skagit, Snohomish, Tacoma-Pierce, Thurston, and Whatcom.

Requires the department to review an on-site sewage disposal system program implementation plan submitted by the local health officer to ensure all the elements of the plan, including designation of any marine area of special concern, have been addressed. The board may adopt additional criteria for plan approval by rule.

Requires the department to enter into a contract with each of the counties subject to this chapter to implement the approved on-site sewage disposal system program implementation plan developed under act, and to develop or enhance the data management system required by this act with funds appropriated to the department for those purposes.

Provides that the contract shall require, at a minimum, that within the marine area of special concern, the local health jurisdiction: (1) Show progressive improvement in finding failing systems;

(2) Show progressive improvement in working with on-site sewage disposal system owners to make needed system repairs;

(3) Is actively undertaking steps to find previously unknown on-site sewage disposal systems and ensure they are inspected as required and repaired if necessary;

(4) Show progressive improvement in the percentage of on-site sewage disposal systems that are included in an electronic data system; and

(5) Of those on-site sewage disposal systems in the electronic data system, show progressive improvement in the percentage that have had required inspections.

(DIGEST AS ENACTED)

Finds that: (1) Hood Canal and other marine waters in Puget Sound are at risk of severe loss of marine life from low-dissolved oxygen. The increased input of human-influenced nutrients, especially nitrogen, is a factor causing this low-dissolved oxygen condition in some of Puget Sound's waters, in addition to such natural factors as poor overall water circulation and stratification that discourages mixing of surface-to-deeper waters;

(2) A significant portion of the state's residents live in homes served by on-site sewage disposal systems, and many new residences will be served by these systems;

(3) Properly functioning on-site sewage disposal systems largely protect water quality. However, improperly functioning on-site sewage disposal systems in marine recovery areas may contaminate surface water, causing public health problems;

(4) Local programs designed to identify and correct failing on-site sewage disposal systems have proven effective in reducing and eliminating public health hazards, improving water quality, and reopening previously closed shellfish areas; and

(5) State water quality monitoring data and analysis can help to focus these enhanced local programs on specific geographic areas that are sources of pollutants degrading Puget Sound waters.

Declares it is the purpose of this act to authorize enhanced local programs in marine recovery areas to inventory existing on-site sewage disposal systems, to identify the location of all on-site sewage disposal systems in marine recovery areas, to require inspection of on-site sewage disposal systems and repairs to failing systems, to develop electronic data systems capable of sharing information regarding on-site sewage disposal systems, and to monitor these programs to ensure that they are working to protect public health and Puget Sound water quality.

Provides that, by July 1, 2007, the local health officers of health jurisdictions in the twelve counties bordering Puget Sound shall develop a written on-site program management plan to provide guidance to the local health jurisdiction.

Provides that, after July 1, 2007, the local health officer may designate additional marine recovery areas meeting the criteria of this act, according to new information. Where the department recommends the designation of a marine recovery area or expansion of a designated marine recovery area, the local health officer shall notify the department of its decision concerning the recommendation within ninety days of receipt of the recommendation.

Provides that, in a marine recovery area, each local health officer shall: (1) Require that on-site sewage disposal system maintenance specialists, septic tank pumpers, or others performing on-site sewage disposal system inspections submit reports or inspection results to the local health jurisdiction regarding any failing system; and

(2) Develop and maintain an electronic data system of all on-site sewage disposal systems within a marine recovery area to enable the local health jurisdiction to actively manage on-site sewage disposal systems. In assisting development of electronic data systems, the department shall work with local health jurisdictions with marine recovery areas and the on-site sewage disposal system industry to develop common forms and protocols to facilitate sharing of data. A marine recovery area on-site sewage disposal electronic data system must be compatible with all on-site sewage disposal electronic data systems used throughout a local health jurisdiction.

Requires the on-site program management plans of local health jurisdictions required under this act to be submitted to the department by July 1, 2007, and be reviewed to determine if they contain all necessary elements. The department shall provide in writing to the local board of health its review of the completeness of the plan. The board may adopt additional criteria by rule for approving plans.

Requires the department to offer financial and technical assistance to local governments and tribal entities in Puget Sound counties to establish or expand on-site sewage disposal system repair and replacement through local loan and grant programs. The programs must give priority to low-income and financially distressed homeowners.

Directs the department of health to report to the appropriate committees of the senate and house of representatives by December 31, 2008, on progress in designating marine recovery areas and developing and implementing on-site strategies for such marine recovery areas.

Companion Bill: 5432

Creating the oil spill monitoring and oversight council.

Declares that, in section 5002 of the federal oil pollution act of 1990, the United States congress found that complacency on

the part of industry and government was one of the contributing factors to the Exxon Valdez spill and, further, that one method to combat this complacency is to involve local citizens in the monitoring and oversight of oil spill plans. Moreover, congress concluded that, in addition to Alaska, a program of citizen monitoring and oversight should be established in other major crude oil terminals in the United States because recent oil spills indicate that the safe transportation of oil is a national problem.

Establishes in the office of the governor the oil spill monitoring and oversight council. The primary purpose of the council is to maintain the state's vigilance in the prevention of oil spills, while recognizing the importance of also improving preparedness and response.

Provides that, by December 1st of each year, the council shall make recommendations for the continuing improvement of the state's oil spill prevention, preparedness, and response through a report to the governor and the appropriate committees of the senate and house of representatives.

Requires the director to prepare a response to the annual report within ninety days of its submittal to the governor and the legislature, including a description of recommended improvements the department will adopt and the reasons established for rejecting the adoption of or for significantly modifying any recommended improvement.

Requiring schools to provide information on meningococcal immunization.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that every public and private school in the state shall provide parents and guardians with information about meningococcal disease and its vaccine at the beginning of every school year. The information about meningococcal disease shall include: (1) Its causes and symptoms, how meningococcal disease is spread, and the places where parents and guardians may obtain additional information and vaccinations for their children; and

(2) Current recommendations from the United States centers for disease control and prevention regarding the receipt of vaccines for meningococcal disease and where the vaccination can be received.

Declares that this provision shall not be construed to require the department of health or the school to provide meningococcal vaccination to students.

Does not create a private right of action.

Directs the superintendent of public instruction to adopt rules to implement the requirements of this act and shall annually attest that the program has been implemented.

VETO MESSAGE ON HB 1463-S

May 11, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 2, Substitute House Bill No. 1463 entitled:

This bill requires that public and private schools provide parents or guardians of students in 6th grade and above with information on meningococcal disease every school year. It is an important bill that is consistent with our ongoing public health efforts.

Section 2 of the bill inserts an emergency clause that is not necessary for this type of legislation. It is reasonable to give the Department of Health and Office of the Superintendent of Public Instruction time over the summer to develop the informational materials that will be distributed in schools.

For these reasons, I have vetoed Section 2 of Substitute House Bill No. 1463.

With the exception of sections Section 2, Substitute House Bill No. 1463 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

Allowing motorcycles to stop and proceed through traffic signals. (REVISED FOR ENGROSSED: Allowing street legal motorcycles to stop and proceed through traffic signals that fail to operate because of the motorcycle's size.)

(AS OF HOUSE 2ND READING 1/18/06)

Provides that, notwithstanding any provision of law to the contrary, the operator of a street legal motorcycle approaching a left turn intersection that is controlled by a triggered traffic control signal using a vehicle detection device that is inoperative due to the size of the street legal motorcycle shall come to a full and complete stop at the intersection. If the left turn signal fails to operate after one cycle of the traffic signal, the operator may, after exercising due care, proceed to turn left.

Provides that it is not a defense to a violation of RCW 46.61.050 that the driver of a motorcycle proceeded under the belief that a traffic control signal used a vehicle detection device or was inoperative due to the size of the motorcycle when the signal did not use a vehicle detection device or that any such device was not in fact inoperative due to the size of the motorcycle.

Requiring mandatory reporting of abuse or neglect of a child when discovered by a person connected with specified nonprofit entities.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that, when any person who is an employee, contractor, or volunteer of a nonprofit entity as defined in RCW 84.36.800 has reasonable cause to believe that a child has suffered abuse or neglect, and the alleged perpetrator is an employee, contractor, or volunteer of the same nonprofit entity, he or she shall report such incident, or cause a report to be made, to the proper law enforcement agency or to the department as provided in RCW 26.44.040.

**HB 1467-S** by House Committee on Children & Family Services (originally sponsored by Representatives Dickerson, Wallace, P. Sullivan, Kagi, Roberts, Simpson, Appleton, Moeller, Green, Ericks, Takko, and Chase)

(AS OF HOUSE 2ND READING 3/08/05)

Provides that, when any person who is an employee or regular-service volunteer of a nonprofit entity as defined in RCW 84.36.800 has reasonable cause to believe that a child has suffered abuse or neglect, and the alleged perpetrator is an employee, contractor, or volunteer of the same nonprofit entity, he or she shall report such incident, or cause a report to be made, to the proper law enforcement agency or to the department as provided in RCW 26.44.040.

Declares that the reporting requirement of this act does not apply to a member of the clergy with regard to information obtained by the member of the clergy in his or her professional character as a religious or spiritual advisor when the information is obtained solely as a result of a confession made pursuant to the clergy-penitent privilege as provided in RCW 5.60.060(3), and the member of the clergy is authorized to hear such confession, and has a duty under the discipline, tenets, doctrine, or custom of his or her church, religious denomination, religious body, spiritual community, or sect to keep the confession secret.

**HB 1468** by Representatives Roach and Kirby

Placing limitations on the release of consumer information by consumer reporting agencies.

Authorizes a consumer to elect to place a security freeze on his or her credit report by making a request in writing by certified mail to a consumer reporting agency. If a security freeze is in place, information from a consumer's credit report may not be released to a third party without prior express authorization from the consumer.

Does not prohibit a consumer reporting agency from advising a third party that a security freeze is in effect with respect to the consumer's credit report.

Requires a consumer reporting agency to place a security freeze on a consumer's credit report no later than five business days after receiving a written request from the consumer.

Provides that, if a security freeze is in place, a consumer reporting agency shall not change any of the following official information in a consumer report without sending a written confirmation of the change to the consumer within thirty days of the change being posted to the consumer's file: Name, date of birth, social security number, and address.

Declares that the following entities are not required to place a security freeze on a consumer report: (1) A check services or fraud prevention services company, which issues reports on incidents of fraud or authorizations for the purpose of approving or processing negotiable instruments, electronic funds transfers, or similar methods of payments; or

(2) A demand deposit account information service company, which issues reports regarding account closures due to fraud, substantial overdrafts, ATM abuse, or similar negative information regarding a consumer, to inquiring banks or other financial institutions for use only in reviewing a consumer request for a demand deposit account at the inquiring bank or financial institution.

Provides that any consumer who suffers damages as a result of a violation of this act by any person may bring an action in a court of appropriate jurisdiction against that person to recover the following: (1) In the case of a negligent violation, actual damages, including court costs, loss of wages, attorneys' fees and, when applicable, pain and suffering.

(2) In the case of a willful violation: (a) Actual damages; (b) punitive damages of not less than one hundred dollars nor more

than five thousand dollars for each violation; and (c) any other relief that the court deems proper.

Companion Bill: 5445  
Clarifying Initiative 297.

Declares that the cleanup priority act makes the cleanup of contamination the top priority at sites with hazardous or mixed waste contamination that threatens our rivers, ground water, environment, and health.

Finds that adding more wastes to sites with mixed radioactive and hazardous wastes where there have been releases into the environment detracts from cleanup, and from the work needed to bring wastes into compliance. The cleanup priority act should be interpreted by the courts consistent with the clear intent of the voters, and the findings and clarifications in this act.

Declares that because court action has prevented the normal role of the department of ecology from issuing defining or interpretive rules, the legislature finds that adoption of the amendments to the cleanup priority act will ensure that the intent of the cleanup priority act is understood and clarified for the courts as well as for businesses or cleanup operations without delay.

**HB 1476** by Representatives Kagi, O'Brien, and Simpson

Altering the amount of earned release time available for certain jail inmates.

(SEE ALSO PROPOSED 1ST SUB)

Revises the amount of earned release time available for certain jail inmates.

Declares that the changes to the maximum percentages of earned release time in this act do not create any expectation that the percentage of earned release time cannot be revised and offenders have no reason to conclude that the maximum percentage of earned release time is an entitlement or creates any liberty interest.

Declares that the legislature retains full control over the right to revise the percentages of earned release time available to offenders at any time.

Applies to persons convicted on or after the effective date of this act.

Changing regulations for homeowners' associations.

(SEE ALSO PROPOSED 1ST SUB)

Revises regulations for homeowners' associations.

Declares that the provisions of chapter 64.38 RCW apply to all homeowners' associations, however organized. In the event of a conflict between the provisions of this chapter and the provisions of law under which the homeowners' association is organized, the provisions of this chapter control.

**HB 1477-S** by House Committee on Judiciary (originally sponsored by Representatives Kagi and Chase)

Creating a committee to review homeowners' associations.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Creates the homeowners' association act committee. The purpose of the committee is to review the homeowners' association act, chapter 64.38 RCW, the uniform common interest ownership act, and current issues concerning homeowners' associations as defined in RCW 64.38.010 including, without limitation, the method and manner of amending restrictive covenants, voting, communications between homeowners' association boards and association members, the budget ratification process, and potential conflicts between the homeowners' association act and other laws that may be applicable to the organizational form of the association.

Requires the committee to deliver a report of its findings and conclusions and any proposed implementing legislation to the appropriate committees of the senate and house of representatives not later than December 31, 2005.

**HB 1482** by Representatives Dickerson, Kagi, Simpson, Appleton, Morrell, Ormsby, Moeller, Kenney, McDermott, O'Brien, McIntire, and Chase

Revising provisions on child abuse and neglect.

(SEE ALSO PROPOSED 1ST SUB)

Provides that, upon investigation of a report that a child has been abused or neglected, or upon receiving custody of a child from a law enforcement officer, a hospital administrator, or licensed physician pursuant to this chapter, the department may file a dependency petition pursuant to chapter 13.34 RCW if it determines that such action is necessary to protect the child from abuse and neglect or safeguard the child from future abuse and neglect.

Provides that, if the department determines that the child's parents, guardians, or legal custodians are available and willing to participate on a voluntary basis in services and treatment as may be needed to ameliorate the conditions that caused the abuse or neglect or that place the child at risk of future abuse or neglect, the department may agree that the child remain in the home pending the completion of such services and treatment.

**HB 1482-S** by House Committee on Children & Family Services (originally sponsored by Representatives Dickerson, Kagi, Simpson, Appleton, Morrell, Ormsby, Moeller, Kenney, McDermott, O'Brien, McIntire, and Chase)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares an intent that the department of social and health services be permitted to intervene in cases of chronic neglect where the well-being of the child is at risk. One incident of neglect may not rise to the level requiring state intervention; however, a pattern of neglect has been shown to cause damage to the health and well-being of the child subject to the neglect.

Declares an intent that when chronic neglect has been found to exist in a family, the legal system reinforce the need for the parent to engage in services that will decrease the likelihood of future neglect. However, if the parents fail to comply with the necessary services, the state must intervene to protect the children who are at risk.

Provides that, in any case in which the court orders that a dependent child may be returned to or remain in the child's home, the in-home placement shall be contingent upon the following:

- (1) The cooperation by the parents with the agency case plan;
- (2) The compliance of the parents with court orders related to the care and supervision of the child; and
- (3) The continued participation of the parents in remedial services.

Provides that, if the department, upon investigation of a report that a child has been abused or neglected as defined in chapter 26.44 RCW, determines that the child has been subject to or is at risk of negligent treatment or maltreatment, the department may offer services to the child's parents, guardians, or legal custodians (1) to ameliorate the conditions that endangered the welfare of the child or that place the child at risk of future abuse or neglect, or (2) to address or treat the effects of mistreatment or neglect upon the child.

Provides that if the child's parents, guardians, or legal custodians are available and willing to participate on a voluntary basis in in-home services, and the department determines that in-home services on a voluntary basis are appropriate for the family, the department may offer such services.

Declares that nothing in this act precludes the department from filing a dependency petition as provided in chapter 13.34 RCW if it determines that such action is necessary to protect the child from abuse or neglect or safeguard the child from future abuse or neglect.

Declares that nothing in this act shall be construed to create in any person an entitlement to services or financial assistance in paying for services or to create judicial authority to order the

provision of services to any person or family if the services are unavailable or unsuitable or if the child or family is not eligible for such services.

Recognizes that the fiscal and workload impact of this act may not be fully determined until after it is implemented and that such impact may further be affected by the funding or availability of community-based prevention and remedial services. For that reason, the department of social and health services shall report on the implementation of this act to the appropriate legislative committees and the governor by December 1, 2006.

Requires the report to include information regarding any change over previous years in the number and type of child abuse and neglect referrals received and investigations conducted, any change in in-home and out-of-home dependency placements and/or filings, any increased service costs, barriers to implementation, and an assessment of the fiscal and workload impact on the department. Such information shall be reviewed by the legislature for possible amendment of this act or additional allocation of resources to the department for implementation purposes.

Takes effect January 1, 2006.

Companion Bill: 5567

Creating an "investing in youth program."

(SUBSTITUTED FOR - SEE 4TH SUB)

Declares an intent to create incentives for local government investments in cost-effective intervention services that reduce crime by reimbursing local governments with a portion of the cost savings that accrue to the state as the result of local investments in such services.

Directs the department of community, trade, and economic development to establish a reinvesting in youth program that awards grants to counties for implementing research-based early intervention services that target juvenile justice-involved youth and reduce crime, subject to the availability of amounts appropriated for this specific purpose.

Provides that, effective July 1, 2005, and continuing through June 30, 2007, a reinvesting in youth pilot program shall be established. The pilot program will test methods for reinvestment of state savings that result from local investments in evidenced-based services for juvenile justice-involved youth.

Provides that participation in the pilot program shall be limited to three counties or groups of counties including at least one charter county with a population of over five hundred thousand residents and at least one county or group of counties with a combined population of three hundred thousand residents or less. Effective July 1, 2007, all counties shall become eligible to apply for participation in the program.

Provides that the department of community, trade, and economic development shall contract with the department of social and health services juvenile rehabilitation administration for the establishment of a state quality assurance program. The juvenile rehabilitation administration shall monitor the implementation of intervention programs reimbursed pursuant to this act and shall evaluate adherence to program design. The juvenile rehabilitation administration shall report any failures to comply with its quality assurance standards to the department of community, trade, and economic development.

Requires the Washington state institute for public policy to estimate the costs and benefits resulting from the implementation

of the reinvesting in youth program and provide a report to the appropriate committees of the legislature, the governor, and to the department of community, trade, and economic development on December 1, 2007, and every four years thereafter.

Establishing a reinvesting in youth program.

(SUBSTITUTED FOR - SEE 4TH SUB)

Declares an intent to create incentives for local government investments in cost-effective intervention services that reduce crime by reimbursing local governments with a portion of the cost savings that accrue to the state as the result of local investments in such services.

Directs the department of social and health services juvenile rehabilitation administration to establish a reinvesting in youth program that awards grants to counties for implementing research-based early intervention services that target juvenile justice-involved youth and reduce crime, subject to the availability of amounts appropriated for this specific purpose.

Provides that, effective July 1, 2005, and continuing through June 30, 2007, a reinvesting in youth pilot program shall be established. The pilot program will test methods for reinvestment

of state savings that result from local investments in evidenced-based services for juvenile justice-involved youth.

Provides that participation in the pilot program shall be limited to three counties or groups of counties including at least one charter county with a population of over eight hundred thousand residents and at least one county or group of counties with a combined population of three hundred thousand residents or less. Effective July 1, 2007, all counties shall become eligible to apply for participation in the program.

Provides that counties that participate in the pilot program shall have a portion of their costs of serving youth through the intervention service models paid for with moneys from the reinvesting in youth account established pursuant to this act. Distribution of funds from the account to the charter county with a population of over eight hundred thousand residents shall be based upon the number of youth that are expected to be served by the intervention service model, up to six hundred fifty-two thousand dollars for the 2005-2007 biennium. The department may distribute the remaining grant moneys to the other counties selected to participate in the pilot program. The total amount allocated for pilot programs grants established in this act is limited to amounts appropriated for this specific purpose and shall not exceed nine hundred ninety-seven thousand dollars from state sources.

Requires the department of social and health services juvenile rehabilitation administration to provide a report to the legislature on the initial cost savings calculation methodology and distribution formula on or before October 1, 2006.

Requires the department of social and health services juvenile rehabilitation administration to establish a state quality assurance program. The juvenile rehabilitation administration shall monitor the implementation of intervention services funded pursuant to this act and shall evaluate adherence to service model design and service completion rate.

Provides that the act shall be null and void if appropriations are not approved.

**HB 1483-S3** by House Committee on Juvenile Justice & Family Law (originally sponsored by Representatives Dickerson, McDonald, Moeller, Darneille, Jarrett, Simpson, Morrell, Sommers, Kenney, McDermott, Kagi, Chase, and Clibborn)

(SUBSTITUTED FOR - SEE 4TH SUB)

Declares an intent to create incentives for local government investments in cost-effective intervention services that reduce crime by reimbursing local governments with a portion of the cost savings that accrue to the state as the result of local investments in such services.

Directs the department of social and health services juvenile rehabilitation administration to establish a reinvesting in youth program that awards grants to counties for implementing research-based early intervention services that target juvenile justice-involved youth and reduce crime, subject to the availability of amounts appropriated for this specific purpose.

Provides that, effective July 1, 2007, any county or group of counties may apply for participation in the reinvesting in youth program.

Requires the department of social and health services juvenile rehabilitation administration to review county applications for funding through the reinvesting in youth program and shall select the counties that will be awarded grants with funds appropriated to implement this program. The department, in consultation with the Washington state institute for public policy, shall develop guidelines to determine which counties will be awarded funding in accordance with the reinvesting in youth program. At a minimum, counties must meet the following criteria in order to participate in the reinvesting in youth program: (1) Counties must match state moneys awarded for research-based early intervention services with nonstate resources that are at least proportional to the expected local government share of state and local government cost avoidance that would result from the implementation of such services;

(2) Counties must demonstrate that state funds allocated pursuant to this section are used only for the intervention service models authorized pursuant to this act;

(3) Counties must participate fully in the state quality assurance program established in this act to ensure fidelity of program implementation. If no state quality assurance program is in effect for a particular selected research-based service, the county must submit a quality assurance plan for state approval with its grant application. Failure to demonstrate continuing compliance with quality assurance plans shall be grounds for termination of state funding; and

(4) Counties that submit joint applications must submit for approval by the department of social and health services juvenile rehabilitation administration multicounty plans for efficient program delivery.

Provides that, every four years, beginning in calendar year 2006, for use in fiscal year 2008, the Washington state institute for public policy shall review and update the methodology for calculating cost savings resulting from the implementation of this program. The institute shall use the technical advisory committee established in this act to review and provide comments on its methodology and cost calculations.

Provides that, every four years, beginning in calendar year 2006, for use in fiscal year 2008, the department of social and health services juvenile rehabilitation administration shall establish a distribution formula to provide funding local governments that implement research-based intervention services pursuant to this program.

Directs the department of social and health services juvenile rehabilitation administration to provide a report to the legislature on the initial cost savings calculation methodology and distribution formula by October 1, 2006.

Provides that the act shall be null and void if appropriations are not approved.

Companion Bill: 5786

Authorizing voter approved regular property tax levies for school purposes.

(SUBSTITUTED FOR - SEE 3RD SUB)

Declares an intent that additional funding provided under this act be used by school districts to provide regional cost-of-living salary supplements to school district employees, as determined through collective bargaining, and to provide local funds to support the purposes defined in RCW 28A.505.210(1) (c) and (d) (Initiative 728).

Provides that a county may impose a regular property tax levy for the maintenance and operation of schools within the county in accordance with this act.

Provides that, upon receiving resolutions requesting a levy under this act from the board of directors of school districts within the county where the petitioning school districts represent a majority of the students within the county, the county legislative authority shall submit an authorizing proposition to the county voters.

Provides that, if the proposition is approved by a majority of the voters voting on the proposition, the county shall impose a levy not to exceed seventy-five cents per thousand dollars of assessed value.

Requires ballot propositions to conform with RCW 29A.36.210.

Declares that any tax imposed under this act shall be used only for the maintenance and operation of schools. The county shall distribute levy proceeds to each school district within the

county based on the district's full-time equivalent student enrollment in the prior school year.

**HB 1484-S** by House Committee on Education (originally sponsored by Representatives Hunter, Jarrett, Haigh, Tom, McDermott, McIntire, Simpson, P. Sullivan, Kagi, and Chase)

Requiring applicants for state purchased health care benefits or uncompensated hospital care to identify the employer of the proposed beneficiary of the benefits or care.

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires applicants for state purchased health care benefits or uncompensated hospital care to identify the employer of the proposed beneficiary of the benefits or care.

Provides that, on or before February 1st of each year, the department of social and health services and the health care authority shall provide the appropriate committees of the senate and house of representatives a report listing all employers identified through the application requirements of this act.

Provides that, on or before February 1st of each year, the department shall provide the appropriate committees of the senate and house of representatives a report listing all employers identified under this act. The report must include each company name, location, and the total number of their employees and dependents who requested uncompensated care at a hospital. No other information regarding persons seeking uncompensated care in a hospital may be included in this report. The report must also be made available to the public.

**HB 1486-S** by House Committee on Health Care (originally sponsored by Representatives Conway, Wood, and Sells)

Concerning health care services.

(DIGEST AS PASSED LEGISLATURE)

Provides that the health care authority and the department of social and health services in coordination with the department of social and health services and the employment security department, shall prepare a report on the employment status of basic health plan enrollees under this act. The report shall include the following composite information: (1) The number of employees by employer;

(2) The employee size of the employer;

(3) The number of employees by industry type;

(4) The number of hours worked by employees;  
 (5) The number of employees with multiple employers;  
 (6) The number of employees who chose the basic health plan instead of insurance coverage offered by their employer, and why they did so; and

(7) The number of employees referred to the basic health plan by their employer and the number referred by others, including public agencies, relatives, or friends.

Requires the report to be structured so as to identify seasonal variations that may impact the composite information in the report.

Requires the report to be delivered electronically to appropriate committees of the senate and house of representatives annually, commencing no later than November 15, 2005.

#### VETO MESSAGE ON 1486-S

May 13, 2005

To the Honorable Speaker and Members,  
 The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval, Substitute House Bill No. 1486 entitled:

I strongly support the intent of this bill and believe that collecting data on who is relying on state-subsidized programs and why it is important to our understanding of the overall health care system. I am vetoing this bill for two reasons. First, the Legislature did not appropriate funding to implement the bill, and the bill requires the collection of data elements that are particularly resource-intensive. Second, the bill raises significant privacy and state public disclosure concerns regarding the release of employer-specific information.

In recognition of the intent of the bill, I direct the Health Care Authority and the Department of Social and Health Services to develop a report contemplated by the bill that is consistent with federal and state law. I look forward to working with the Legislature during the next session to develop legislation that meets our reporting needs, that can be implemented with appropriated funds, and that is consistent with existing laws and regulations.

For these reasons, I have vetoed Substitute House Bill No. 1486 in its entirety.

Respectfully submitted,  
 Christine O. Gregoire  
 Governor

Companion Bill: 5515

Prohibiting the sale of products that contain polybrominated diphenyl ethers.

#### (SUBSTITUTED FOR - SEE 2ND SUB)

Prohibits the sale of products that contain polybrominated diphenyl ethers.

Provides that, subject to available funding, the department of general administration and the department of health shall conduct a stakeholder process to develop a proposal for a ban on the use of decabromodiphenylether in transportation vehicles, and a proposal for the ban or management of used and recycled products containing polybrominated diphenyl ethers.

Requires the department and the department of health to report the findings and recommendations of the stakeholder process to the appropriate committees of the legislature by December 15, 2005. The preparation of the reports required in this provision is subject to available funding.

Provides that, by January 1, 2006, the department of general administration shall: (1) Give priority and preference to the purchase of equipment, supplies, and other products that do not contain polybrominated diphenyl ethers; and

(2) Make available for purchase and use by all state agencies only equipment, supplies, and other products that do not contain polybrominated diphenyl ethers.

Directs the department of general administration to, by January 1, 2006, revise its rules, policies, and guidelines to implement the purposes of this act.

Declares that a violation of this act is punishable by a civil penalty not to exceed one thousand dollars for each violation in the case of a first offense. Repeat violators are liable for a civil penalty not to exceed five thousand dollars for each repeat offense. Penalties collected under this provision must be deposited in the state toxics control account created in RCW 70.105D.070.

(SUBSTITUTED FOR - SEE 2ND SUB)

Provides that a manufacturer of products containing a polybrominated diphenyl ether that has been restricted under this act must, once the restriction takes effect, notify persons that sell the manufacturer's products about the provisions of this act.

Does not apply to: (1) The manufacture, sale, repair, or distribution of any raw material or component part used in a transportation vehicle or any new transportation vehicle with component parts, including original parts and spare parts, containing decabromodiphenylether;

(2) The sale or distribution of any used transportation vehicle with component parts containing polybrominated diphenyl ethers;

(3) The sale of any used transportation vehicle replacement parts that contain polybrominated diphenyl ethers;

(4) The use of decabromodiphenylether in the maintenance, refurbishment, or modification of transportation equipment;

(5) The manufacture, sale, distribution, maintenance, refurbishment, or modification of equipment containing polybrominated diphenyl ethers and used primarily for military or federally funded space program applications. This exemption does not cover consumer-based goods with broad applicability;

(6) The sale by a business, charity, or private party of any used product containing polybrominated diphenyl ethers; or

(7) The manufacture, sale, or distribution of any new product or product component consisting of recycled or used materials containing decabromodiphenylether. Products containing any new polybrominated diphenyl ethers do not qualify for this exemption.

Authorizes the governor to, by executive order, allow for the manufacture, sale, and distribution of products containing the polybrominated diphenyl ether deca-bde between July 1, 2006, and July 1, 2008, if the governor finds that a technically feasible alternative to the use of decabromodiphenylether is not available at reasonable cost or that the potential harm to public health and the environment directly posed by a technically feasible and available alternative is greater than the potential harm posed by decabromodiphenylether.

Provides that, subject to available funding, the department and the department of health shall conduct two separate stakeholder processes to develop a proposal for a ban on the use of decabromodiphenylether in transportation vehicles, and to develop a proposal for the ban or management of used and recycled products containing polybrominated diphenyl ethers.

Directs the department and the department of health to report the findings and recommendations of the stakeholder process regarding the ban on the use of decabromodiphenylether and the education and assistance for retailers to the appropriate committees of the legislature by December 15, 2005.

Directs the department and the department of health to report the findings and recommendations of the stakeholder process regarding the ban or management of used and recycled products to the appropriate committees of the legislature by June 30, 2006. The preparation of the reports required in this provision is subject to available funding.

Requires the department and the department of health to conduct a review of the issues and the potential timeline for a requirement to label brominated flame retardants sold in Washington. The review shall include the type of information required on the label, including guidance on proper waste management of the product in accordance with state and federal law. The department and the department of health shall report the findings and recommendations to the appropriate committees of the legislature by December 15, 2006.

Provides that a manufacturer of products containing polybrominated diphenyl ethers in violation of this act is punishable by a civil penalty not to exceed one thousand dollars for each violation in the case of a first offense. Manufacturers who are repeat violators are liable for a civil penalty not to exceed five thousand dollars for each repeat offense. Penalties collected under this act must be deposited in the state toxics control account created in RCW 70.105D.070.

(AS OF HOUSE 2ND READING 2/14/06)

Provides that after January 1, 2007, no person may manufacture, knowingly sell, offer for sale, distribute for sale, or distribute for use in this state noncombustible products containing more than one percent of pentabromodiphenylether or octabromodiphenylether.

Provides that a manufacturer or user of safety systems required by the federal aviation administration may apply for an exemption for a specific use of penta-bde or octa-bde by filing a written petition with the department. The exemption may be granted for a term not to exceed eighteen months and may be renewed upon written application if the department finds that the specific use of penta-bde or octa-bde continues to meet the criteria of this act and the manufacturer or other persons comply with the conditions of its original approval. The department may grant an exemption for a specified use of penta-bde or octa-bde with or without conditions upon finding that the petitioner has demonstrated that: (1) A technically feasible alternative to the use of penta-bde or octa-bde is not available at reasonable cost; or

(2) The potential harm to public health and the environment directly posed by a technically feasible and available alternative is greater than the potential harm posed by penta-bde or octa-bde.

Requires that, on or about December 15, 2007, the department and the department of health shall submit to the appropriate committees of the legislature a report that reviews and updates the available scientific research on deca-bde, including relevant risk assessments and relevant findings and rulings by the United States environmental protection agency and the European commission, to address the following issues: (1) The use of deca-bde in products sold in the state;

(2) What human health effects could result from exposure to deca-bde, and are current levels of exposure at levels that could produce these effects;

(3) Any data available on the human body burden or environmental occurrence of deca-bde;

(4) Whether deca-bde breaks down into other chemicals that could pose public health concerns;

(5) The availability of safer, technically feasible alternatives for deca-bde.

Directs the department to develop a program to assist retailers in identifying potential products containing penta-bde and octa-bde in their inventory.

Declares that a manufacturer of products containing penta-bde and octa-bde in violation of this act is punishable by a civil penalty not to exceed one thousand dollars for each violation in the case of a first offense. Manufacturers who are repeat violators are liable for a civil penalty not to exceed five thousand dollars for each repeat offense. Penalties collected under this act must be deposited in the state toxics control account created in RCW 70.105D.070.

VETO MESSAGE ON SHB 1491

April 22, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to section 210, Substitute House Bill No. 1491 entitled:

Substitute House Bill 1491 recodifies the state's aquatic lands management statutes without substantive change. Section 210 of the bill makes non-substantive changes to RCW 79.91.100, a section of state law that was substantively amended by Substitute House Bill 1657, relating to bridges and trestles. I signed Substitute House Bill 1657 into law earlier this session, on April 14, 2005. If Section 210 of Substitute House Bill 1491 is also signed into law, it may conflict with the substantive changes made by Substitute House Bill 1657. For this reason, I have vetoed Section 210 of Substitute House Bill 1491.

With the exception of Section 210, Substitute House Bill 1491 is approved.

Companion Bill: 5273

Developing a single pilot mitigation bank on state-owned aquatic lands.

(SEE ALSO PROPOSED 2ND SUB)

Finds that the existing state and federal regulatory framework for wetland and aquatic resource mitigation is an important tool used to offset impacts to aquatic lands.

Finds that because impacts to wetlands and aquatic resources often affect state-owned aquatic lands, the department should work within established state and federal regulatory mitigation processes to develop a single pilot mitigation bank on state-owned aquatic lands.

Declares an intent to establish the proprietary mechanisms for the department to develop, implement, and manage a single pilot mitigation bank on state-owned aquatic lands. Additional authority will be needed if the department seeks to establish more than one mitigation bank.

Requires that, by December 31, 2010, the department must provide a report to the appropriate committees of the senate and house of representatives that provides the status of the pilot mitigation bank in regards to regulatory certification, management plan development, service area determination, credit determination, valuation, and sale, and endowment fund creation and expenditure.

(SEE ALSO PROPOSED 2ND SUB)

Finds that the existing state and federal regulatory framework for wetland and aquatic resource mitigation is an important tool used to offset impacts to aquatic lands.

Finds that because impacts to wetlands and aquatic resources often affect state-owned aquatic lands, the department should work within established state and federal regulatory mitigation

processes to develop a single pilot mitigation bank on state-owned aquatic lands.

Declares an intent to establish the proprietary mechanisms for the department to develop, implement, and manage a single pilot mitigation bank on state-owned aquatic lands. Additional authority will be needed if the department seeks to establish more than one mitigation bank.

Requires that, by December 31, 2010, the department must provide a report to the appropriate committees of the senate and house of representatives that provides the status of the pilot mitigation bank in regards to regulatory certification, management plan development, service area determination, credit determination, valuation, and sale, and endowment fund creation and expenditure.

**HB 1493** by Representatives B. Sullivan, Upthegrove, Buck, Orcutt, and Eickmeyer; by request of Commissioner of Public Lands

Companion Bill: 5271

Allowing certain state-owned filled tidelands and shorelands to be designated as aquatic investment properties.

(SEE ALSO PROPOSED 1ST SUB)

Finds that a high percentage of state-owned tidelands and shorelands were sold into private ownership as part of the state legislature's earliest efforts to foster Washington's economic expansion. The remaining state-owned tideland and shoreland ownership is fragmented and some state-owned tidelands and shorelands have been altered by fill to such a degree that they have the characteristics of uplands.

Declares that these filled lands may no longer provide public benefits as aquatic lands as described in RCW 79.90.450 and 79.90.455 and remain underutilized as dry land because they are subject to a management philosophy dedicated to the protection of submerged lands.

Recognizes that certain state-owned filled tidelands and filled shorelands should be designated as aquatic investment properties and commercially managed in order to generate funding for the acquisition, protection, and management of functioning aquatic lands.

Declares an intent to authorize the department of natural resources to buy and sell certain filled tidelands and shorelands which, if bought or sold, would not cause the loss of aquatic ecological functions, public access opportunities, or interfere with water-dependent activities and businesses.

Appropriates the sum of five hundred thousand dollars, or as much thereof as may be necessary, for the biennium ending June 30, 2007, from the aquatic sustaining investment account to the department of natural resources for the purposes described in this act.

Repeals RCW 79.90.250.

Improving the delivery of health care services to school children.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that additional school nurses with the appropriate expertise are needed in our schools to play a pivotal role in improving the health and educational success of the school-age child.

Provides that, beginning with the 2006-07 school year, each class I school district shall maintain a ratio of at least one school nurse for every two thousand full-time equivalent students. Beginning in the 2008-09 school year, each class I school district shall maintain a ratio of at least one school nurse for every one thousand five hundred full-time equivalent students.

Provides that, by December 31, 2008, the superintendent of public instruction shall submit a report to the legislature on the implementation of this act and the impact of the services provided. The report shall include recommendations about whether funding for school nurses should be an ongoing responsibility of the state and part of basic education.

Declares that the office of the superintendent of public instruction may receive gifts, grants, or endowments from public or private sources that are made from time to time, in trust or otherwise, for the use and benefit of the purposes of this act and spend gifts, grants, or endowments or income from the public or private sources to support the ratios provided for in this act, unless the receipt of the gifts, grants, or endowments violates RCW 42.17.710.

Expires December 31, 2008.

Appropriates the sum of . . . . ., or as much thereof as may be necessary, for the fiscal year ending June 30, 2006, from the general fund to the office of the superintendent of public instruction for the purposes of this act.

Requiring a work group to assess school nursing services in class I school districts.

(AS OF HOUSE 2ND READING 3/09/05)

Requires the office of superintendent of public instruction and the department of health to collaborate and develop a work group to assess school nursing services in class I school districts. The work group may consult with representatives from the following groups: School nurses, schools, students, parents, teachers, health officials, and administrators.

Requires the office of superintendent of public instruction to report its findings and plans for implementation to the legislature by February 1, 2006.

Expires June 30, 2006.

Provides that the act shall be null and void if appropriations are not approved.

Companion Bill: 5655

Requiring that Washington's tribal history be taught in the common schools.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that, by January 1, 2015, or when a school district reviews or adopts its social studies curriculum, whichever is sooner, the school district must incorporate into its history and social studies curricula for each grade in which the district offers instruction on Washington state and United States history, the tribally and district-approved history and culture curriculum of a federally recognized Indian tribe whose reservation in whole or in part sits within the boundaries of the school district.

Provides that, if a district has no portion of a tribal reservation located within its boundaries, the district must incorporate into its curricula the tribally and district-approved history and culture curriculum of the federally recognized Indian tribes whose traditional lands and territories are within a one hundred mile radius of the school district.

Requires the program of Indian education within the office of the superintendent of public instruction to assist school districts in determining the location of tribal reservations and traditional lands and territories.

Provides that the tribal history and culture curriculum required under this section may be taught only by a teacher who has completed that tribe's first people's language and culture teacher certification program, or by a teacher who has been approved by the respective tribe whose curriculum is to be taught.

**HB 1495-S** by House Committee on Education (originally sponsored by Representatives McCoy, Roach, Simpson, P. Sullivan, McDermott, Santos, Appleton, Darneille, Williams, Hunt, Haigh, Chase, Sells, Conway, Kenney, Kagi, Moeller, Ormsby, and Blake)

Requiring that tribal history be taught in the common schools. (REVISED FOR PASSED LEGISLATURE: Encouraging tribal history to be included in the common school curriculum.)

(DIGEST AS ENACTED)

Finds there is a need to establish collaborative government-to-government relationships between elected school boards and tribal councils to create local and/or regional curricula about tribal history and culture, and to promote dialogue and cultural exchanges that can help tribal leaders and school leaders implement strategies to close the achievement gap.

Provides that, beginning in 2006, and at least once annually through 2010, the Washington state school directors' association is encouraged to schedule regional meetings and invite the

respective tribal councils from the region for the purpose of establishing government-to-government relationships and dialogue between tribal councils and school district boards of directors. Participants in these meetings should discuss issues of mutual concern, and should work to: (1) Identify the extent and nature of the achievement gap and strategies necessary to close it;

(2) Increase mutual awareness and understanding of the importance of accurate, high-quality curriculum materials about the history, culture, and government of local tribes; and

(3) Encourage school boards to identify and adopt curriculum that includes tribal experiences and perspectives, so that Indian students are more engaged and learn more successfully, and so that all students learn about the history, culture, government, and experiences of their Indian peers and neighbors.

Provides that, by December 1, 2008, and every two years thereafter through 2012, the school directors' association shall report to the education committees of the legislature regarding the progress made in the development of effective government-to-government relations, the narrowing of the achievement gap, and the identification and adoption of curriculum regarding tribal history, culture, and government. The report shall include information about any obstacles encountered, and any strategies under development to overcome them.

Establishing procedures for forming new counties.

Declares that the purpose of this act is to establish procedures for the orderly formation of new counties and to provide for an equitable apportionment of the debts, liabilities, and assets of the parent county or counties between the new county and the remaining portions or portions of each parent county.

Requires the proponent or proponents of a proposed new county to, before the circulation of a petition in support of the formation of that new county, file with the secretary of state a statement designating the name of the proposed county and containing the legal description of the proposed county, together with an affidavit from each proponent that he or she is a registered voter within the territory of the proposed county. If there are two or more proponents, one of them must be designated as the principal proponent for the purpose of receiving notices and communications required by law.

Provides that, upon receipt of the legal description and affidavit of sponsorship for a proposed new county, the secretary of state shall forward a copy of the legal description to the office of financial management.

Provides that, within thirty days of receipt of this request from the secretary of state, the director of the office of financial management shall determine if the legal description is consistent and the territory described is a single, contiguous area. If the legal description is defective, the director shall notify the secretary of state and the principal proponent of the nature and extent of the defect.

Provides that, if the legal description is not defective, the director shall also determine the population of the proposed new county and the population of the remaining portion or portions of each parent county, using the most current data available. The director shall certify these populations to the secretary of state and the principal proponent of the new county within thirty days of receipt of the request from the secretary of state.

Requires that a petition proposing the creation of a new county must be signed by at least fifty percent of the registered voters residing in the combined portions of each parent county from which territory is proposed to be stricken and included in the new county.

Declares that every person who signs a petition requesting the creation of a new county with any other than his or her true name is guilty of a class C felony punishable under chapter 9A.20 RCW.

Provides that every person who: (1) Knowingly signs more than one petition for the same effort to create a new county;

(2) Signs a petition requesting the creation of a new county knowing that he or she is not a legal voter; or

(3) Makes a false statement as to his or her residence on any petition requesting the creation of a new county, is guilty of a gross misdemeanor punishable under chapter 9A.20 RCW.

Increasing access to health services for children through the "kids get care" service delivery model.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that "kids get care" assures that integrated preventive medical, oral, and developmental health services are provided to young children. Improving the delivery of well child visits, preventive oral health services, and developmental screening can reduce the need for hospitalization, caries treatment, and developmental interventions.

Provides that "kids get care" expands the use of evidence-based preventive measures in community health centers and private medical practices that treat many low-income children. "Kids get care" also strengthens the connections between social service agencies working with low-income families and local health care providers.

Declares an intent to facilitate low-income children's access to appropriate preventive and well-child services and to other necessary health, mental health, and dental services by supporting the extension of the successful "kids get care" model for delivering health services to children.

Provides that \$435,000 of the general fund--state appropriation for fiscal year 2006 and \$760,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to the department of health to develop and implement best practices in preventive health care for children statewide.

Creating a developmental disabilities community trust account.

Declares that the December 4, 2002, capital study of the division of developmental disabilities residential habilitation centers by the joint legislative audit and review committee identifies options to dispose of excess property at Lakeland Village, Rainier School, and Yakima Valley School that would not impact current residential habilitation center operations.

Recognizes the importance of serving individuals with developmental disabilities in the communities in which they reside.

Finds that using these excess properties to provide services in the community will promote the integration and independence of individuals with developmental disabilities and will enable these individuals to avoid reliance on institutional services.

Declares an intent to allow use of these excess capital properties at residential habilitation centers for persons with developmental disabilities and to place the proceeds from their use into a perpetual trust account for unserved persons with developmental disabilities waiting for community-based developmental disability services.

Provides that excess property identified in the 2002 joint legislative audit and review committee capital study of the division of developmental disabilities residential habilitation centers must be managed to provide as much income as feasible and this income deposited into the developmental disabilities community trust account created in this act. Income may come from the sale or lease of the land, conservation easements, sale of timber, or other activities.

Requires the department to report on its efforts and strategies to provide income to the developmental disabilities community trust account from the excess property identified in this act from the sale or lease of the property, sale of timber, or other activities. The department shall report by June 30, 2006.

Regulating campaign finances.

Provides that a state contractor may not make, either directly or indirectly, any contribution or expenditure of money or other thing of value, or promise to make any such contribution or expenditure to any political party, committee, or candidate for statewide office or state legislative office or to any person for any political purpose or use.

Prohibits a person from knowingly soliciting any such contribution from a state contractor.

Declares that for purposes of this act, "state contractor" means a person who: (1) Enters into any contract with the state or any department or agency of the state for: (a) The rendition of personal services; (b) furnishing any material, supplies, or equipment; or (c) selling any land or buildings; and

(2) Receives as payment for the performance of the contract funds appropriated by the legislature.

Provides that a candidate for public office may not accept more than one thousand dollars in the aggregate from political action committees for each election in which the candidate is on the ballot or appears as a write-in candidate.

Requiring living wages on public contracts.

Finds that the state annually awards service contracts to private contractors and vendors to provide services on behalf of the state, and that such expenditures should be spent in a manner that promotes the creation of jobs that allow residents to support themselves and their families with dignity.

Finds that the present federal and state minimum wages generate income at a level below the amount required to support a family at a basic level and that jobs that do not pay living wages result in families who have greater need of social services provided by the state and paid for by state taxpayers.

Declares that the payment of adequate wages to workers for those hours performing services on behalf of the state will promote stability and reduced turnover, resulting in a higher quality of service.

Limiting the waiver of counsel in juvenile proceedings.

(SEE ALSO PROPOSED 1ST SUB)

Provides that, in any proceeding in which a child has a right to  
 the assistance of counsel under constitutional, statutory, or  
 common law, or by court rule, the child may not waive this right  
 except as provided in this act.

Declares that a parent, guardian, or custodian of a child may

Provides that, in any proceeding in which a child has a right to  
 the assistance of counsel under constitutional, statutory, or  
 common law, or by court rule, and the child indicates a desire to  
 waive that right, the court may not accept the waiver unless the  
 designated conditions are met.

Declares that, in making its judgment, the court should  
 consider evidence of the child's school performance and any  
 testing which the school may have conducted.

Provides that, unless the court dismisses the case, if a child  
 appears without counsel for any hearing, including a waiver  
 hearing, and the child has not previously waived the right to the

assistance of counsel in accordance with this act, the court shall  
 continue and the clerk shall reschedule the hearing, and the clerk

Establishing an arthritis pilot project.

Declares that the purposes of this act are: (1) To create and  
 foster a statewide pilot project that promotes public awareness and  
 increases knowledge about the causes of arthritis, the importance  
 of early diagnosis and appropriate management, effective  
 prevention strategies, and pain prevention and management;

(2) To develop knowledge and enhance understanding of  
 arthritis by disseminating underutilized but available educational  
 materials and resources, information on research results,  
 programs and services provided, and strategies for prevention and  
 control to patients, health professionals, and the public;

(3) To implement and coordinate state and local pilot projects  
 and services to reduce the public health burden of arthritis; and

(4) To provide lasting improvements in the delivery of health  
 care for individuals with arthritis and their families, thus  
 improving their quality of life while also containing health care  
 costs.

Directs the department of health to contract with the arthritis foundation Washington/Alaska chapter to establish a two-year pilot project that would help reduce and prevent disability associated with arthritis by consolidating and disseminating underutilized educational materials and resources to raise public awareness, educate consumers, educate and train health professionals, teachers, and human services providers, and for other purposes.

Provides that the secretary of health shall accept grants, services, and property from the federal government, foundations, organizations, medical schools, and other entities as are available for the purposes of fulfilling the obligations of this act.

Directs the secretary of health to seek any federal waiver or waivers that are necessary to maximize funds from the federal government to implement this act.

Finds that the public-private initiatives act created under chapter 47.46 RCW has not met the needs and expectations of the public or private sectors for the development of transportation projects.

Declares an intent to phase out chapter 47.46 RCW coincident with the completion of the Tacoma Narrows Bridge - SR 16 public-private partnership. From the effective date of this act, this chapter will provide a more desirable and effective approach to developing transportation projects in partnership with the private sector by applying lessons learned from other states and from this state's ten-year experience with chapter 47.46 RCW.

Creates the Transportation Innovative Partnerships Act for the planning, acquisition, financing, development, design, construction, reconstruction, replacement, improvement, maintenance, preservation, management, repair, and operation of transportation projects. The goals of this act are to: (1) Reduce the cost of transportation project delivery;

- (2) Recover transportation investment costs;
- (3) Develop an expedited project delivery process;
- (4) Encourage business investment in public infrastructure;
- (5) Use any fund source outside the state treasury, where financially advantageous and in the public interest;
- (6) Maximize innovation; and
- (7) Develop partnerships between private entities and units of government.

Declares that a transportation project may be financed in whole or in part with: (1) The proceeds of grant anticipation revenue bonds authorized by 23 U.S.C. Sec. 122 and applicable state law. Legislative authorization and appropriation is required in order to use this source of financing;

(2) Grants, loans, loan guarantees, lines of credit, revolving lines of credit, or other financing arrangements available under the Transportation Infrastructure Finance and Innovation Act under 23 U.S.C. Sec. 181 et seq., or any other applicable federal law;

(3) Infrastructure loans or assistance from the state infrastructure bank established by RCW 82.44.195;

(4) Federal, state, or local revenues, subject to appropriation by the applicable legislative authority;

(5) User fees, tolls, fares, lease proceeds, rents, gross or net receipts from sales, proceeds from the sale of development rights, franchise fees, rents, or any other lawful form of consideration.

Provides that, for projects with costs, including financing costs, of fifty million dollars or greater, advisory committees are required.

(DIGEST AS ENACTED)

Finds that the public-private initiatives act created under chapter 47.46 RCW has not met the needs and expectations of the public or private sectors for the development of transportation projects.

Declares an intent to phase out chapter 47.46 RCW coincident with the completion of the Tacoma Narrows Bridge - SR 16 public-private partnership. From the effective date of this act, this chapter will provide a more desirable and effective approach to developing transportation projects in partnership with the private sector by applying lessons learned from other states and from this state's ten-year experience with chapter 47.46 RCW.

Declares an intent to achieve the following goals through the creation of this new approach to public-private partnerships: (1) To provide a well-defined mechanism to facilitate the collaboration between public and private entities in transportation;

(2) To bring innovative thinking from the private sector and other states to bear on public projects within the state;

(3) To provide greater flexibility in achieving the transportation projects; and

(4) To allow for creative cost and risk sharing between the public and private partners.

Declares an intent that the commission shall be responsible for receiving, reviewing, and approving proposals with technical support of the department; rule making; and for oversight of contract execution. The department shall be responsible for evaluating proposals and negotiating contracts.

Creates the Transportation Innovative Partnerships Act for the planning, acquisition, financing, development, design, construction, reconstruction, replacement, improvement, maintenance, preservation, management, repair, and operation of transportation projects. The goals of this act are to: (1) Reduce the cost of transportation project delivery;

(2) Recover transportation investment costs;

(3) Develop an expedited project delivery process;

(4) Encourage business investment in public infrastructure;

(5) Use any fund source outside the state treasury, where financially advantageous and in the public interest;

(6) Maximize innovation;

(7) Develop partnerships between private entities and units of government;

(8) Create synergies between and among public sector entities to develop projects that serve both transportation and other important public purposes; and

(9) Access specialized construction management and project management services and techniques available in the private sector.

Declares that a transportation project may be financed in whole or in part with: (1) The proceeds of grant anticipation revenue bonds authorized by 23 U.S.C. Sec. 122 and applicable state law. Legislative authorization and appropriation is required in order to use this source of financing;

(2) Grants, loans, loan guarantees, lines of credit, revolving lines of credit, or other financing arrangements available under the Transportation Infrastructure Finance and Innovation Act under 23 U.S.C. Sec. 181 et seq., or any other applicable federal law;

(3) Infrastructure loans or assistance from the state infrastructure bank established by RCW 82.44.195;

(4) Federal, state, or local revenues, subject to appropriation by the applicable legislative authority;

(5) User fees, tolls, fares, lease proceeds, rents, gross or net receipts from sales, proceeds from the sale of development rights, franchise fees, rents, or any other lawful form of consideration.

Provides that, before final approval, agreements entered into under this act must include a process that provides for public involvement and participation with respect to the development of the projects. This plan must be submitted along with the proposed agreement, and both must be approved under this act before the state may enter a binding agreement.

Provides that, for projects with costs, including financing costs, of three hundred million dollars or greater, advisory committees are required.

Directs the department to work with the providers and resident communities to develop opportunities for licensing and quality assurance staff to become familiar with the actual environment and the daily hands-on routine of care and services in an adult family home.

**HB 1545-S** by House Committee on Health Care (originally sponsored by Representatives Curtis, Cody, Bailey, Clibborn, Skinner, and Schual-Berke)

(AS OF HOUSE 2ND READING 3/08/05)

Requires the department to implement, as part of the required training and continuing education, food safety training and testing integrated into the curriculum that meets the standards established by the state board of health pursuant to chapter 69.06 RCW. Individual food handler permits are not required for persons who begin working in an adult family home after June 30, 2005, and successfully complete the basic and modified-basic caregiver training, provided they receive information or training regarding safe food handling practices from the employer prior to providing food handling or service for the clients. Documentation that the information or training has been provided to the individual must be kept on file by the employer.

Provides that licensed adult family home providers or employees who hold individual food handler permits prior to June 30, 2005, will be required to maintain continuing education of .5 hours per year in order to maintain food handling and safety training.

Provides that, except for the food safety training standards adopted by the state board of health under RCW 69.06.010, the provisions of chapter 69.06 RCW do not apply to persons who work in adult family homes and successfully complete training and continuing education as required by this act.

**HB 1563** by Representatives Hinkle, Schindler, Sump, Miloscia, Curtis, Haler, Ericksen, Serben, Kristiansen, Ahern, and Dunn

Prohibiting the sale of fetal body parts.

Declares that the body, including the body parts, body organs, body tissue, and body fluids, of a fetus whose death is the result of the application of any abortion procedure or technique may not be sold, donated, or otherwise transferred, with or without valuable consideration, for any use, but shall be disposed of as human remains by burial or cremation in accordance with the requirements of chapter 9.02 RCW and chapter 70.58 RCW.

Declares that this act is not intended, and may not be construed, to prevent a coroner, medical examiner, physician of the mother of the fetus, or prosecuting attorney from using that part of the body of a fetus whose death is the result of the application of any abortion procedure or technique that is necessary for the sole and exclusive purpose of diagnosing or determining: (1) A disease or condition or cause of death of the mother of the fetus if the abortion was performed because of such disease or condition of the mother of the fetus, or

(2) Cause of death of the fetus, if in either case no other reasonable means of making the diagnosis or determination is available without such use.

Provides that provisions of this act and RCW 68.50.610(3) are not intended, and may not be construed, to apply to the donation for medical research or use of any part of the body of a fetus whose death is the result of a miscarriage, stillbirth, ectopic pregnancy, sickness, disease, accident, or crime caused to the fetus or the mother by a third party without the knowledge and consent of the mother. However, the donation may only be made if a parent or guardian knows of and approves the donation for such medical research or use.

Addressing transportation concurrency strategies.

(SUBSTITUTED FOR - SEE 2ND SUB)

Declares that the transportation element required by RCW 36.70A.070 for counties and cities planning under RCW 36.70A.040 may include, in addition to those specified in RCW 36.70A.070(6)(b), multimodal transportation improvements or strategies concurrent with the development to satisfy the concurrency requirements of this chapter. Such improvements or strategies may include, but are not limited to, measures implementing or evaluating: (1) Multiple modes of transportation with peak and nonpeak hour capacity performance standards on locally owned transportation facilities; and

(2) Modal performance standards meeting the peak and nonpeak hour capacity performance standards.

Provides that jurisdictions implementing new transportation improvements or strategies in accordance with the provisions of this act or RCW 36.70A.070(6)(b) after December 31, 2005, shall prepare and submit to the department annual performance reports that include, at a minimum, an evaluation of the effectiveness of the improvements or strategies.

**HB 1565-S** by House Committee on Local Government (originally sponsored by Representatives Jarrett, Moeller, Tom, Simpson, Appleton, Linville, Sommers, Lantz, and Dunshee)

(SUBSTITUTED FOR - SEE 2ND SUB)

Declares that the transportation element required by RCW 36.70A.070 for counties and cities planning under RCW 36.70A.040 may include, in addition to those specified in RCW 36.70A.070(6)(b), multimodal transportation improvements or strategies concurrent with the development to satisfy the concurrency requirements of this chapter. Provides that jurisdictions implementing new transportation improvements or strategies in accordance with the provisions of this act or RCW 36.70A.070(6)(b) after December 31, 2005, shall prepare and submit to the department annual performance reports that include, at a minimum, an evaluation of the effectiveness of the improvements or strategies.

Requires the department of community, trade, and economic development to administer a study to examine multimodal transportation improvements and strategies to comply with the concurrency requirements of RCW 36.70A.070(6), subject to the availability of amounts appropriated for this specific purpose. The study shall be completed by one or more regional transportation planning organizations established under chapter 47.80 RCW electing to participate in the study.

Provides that the study shall, at a minimum, include: (1) An assessment and comprehensive summary of studies or reports examining concurrency requirements and practices in Washington;

(2) An examination of existing or proposed multimodal transportation improvements or strategies employed by a city in a county with a population of one million or more residents;

(3) Recommendations for statutory and administrative rule changes that will further the promotion of effective multimodal transportation improvements and strategies that are consistent with the provisions of RCW 36.70A.070 and 36.70A.020(3);

(4) Recommendations for improving the coordination of concurrency practices in jurisdictions subject to RCW 36.70A.215;

(5) An identification of effective multimodal transportation improvements and strategies employed by jurisdictions subject to RCW 36.70A.215; and

(6) Recommendations for model multimodal transportation improvements and strategies that may be employed by counties and cities.

Requires the department of community, trade, and economic development to, in coordination with participating regional transportation planning organizations completing the study established by this act, submit a report of findings and recommendations to the appropriate committees of the legislature by December 31, 2006.

**HB 1565-S2** by House Committee on Transportation (originally sponsored by Representatives Jarrett, Moeller, Tom, Simpson, Appleton, Linville, Sommers, Lantz, and Dunshee)

(DIGEST AS ENACTED)

Declares that the transportation element required by RCW 36.70A.070 may include, in addition to improvements or strategies to accommodate the impacts of development authorized under RCW 36.70A.070(6)(b), multimodal transportation improvements or strategies that are made concurrent with the development. Such improvements or strategies may include, but are not limited to, measures implementing or evaluating: (1) Multiple modes of transportation with peak and nonpeak hour capacity performance standards on locally owned transportation facilities; and

(2) Modal performance standards meeting the peak and nonpeak hour capacity performance standards.

Requires the department of transportation to administer a study to examine multimodal transportation improvements and strategies to comply with the concurrency requirements of RCW 36.70A.070(6), subject to the availability of amounts appropriated for this specific purpose. The study shall be completed by one or more regional transportation planning organizations established under chapter 47.80 RCW electing to participate in the study.

Provides that the study shall, at a minimum, include: (1) An assessment and comprehensive summary of studies or reports examining concurrency requirements and practices in Washington;

(2) An examination of existing or proposed multimodal transportation improvements or strategies employed by a city in a county with a population of one million or more residents;

(3) An examination of transit services and how these services promote multimodal transportation improvements or strategies for jurisdictions planning under RCW 36.70A.070(6)(b);

(4) Recommendations for statutory and administrative rule changes that will further the promotion of effective multimodal transportation improvements and strategies that are consistent with the provisions of RCW 36.70A.070 and 36.70A.020(3);

(5) Recommendations for improving the coordination of concurrency practices in jurisdictions subject to RCW 36.70A.215;

(6) Recommendations for statutory and administrative rule changes that will further the promotion of effective multimodal transportation improvements and strategies that are consistent with the provisions of RCW 36.70A.070 and 36.70A.020(3);

(7) Recommendations for improving the coordination of concurrency practices in jurisdictions subject to RCW 36.70A.215;

(8) Recommendations on a methodology that jurisdictions may use to evaluate the effectiveness of multimodal concurrency strategies in jurisdictions subject to the provisions of RCW 36.70A.070 and 36.70A.020(3);

(9) An identification of effective multimodal transportation improvements and strategies employed by jurisdictions subject to RCW 36.70A.215;

(10) Recommendations for model multimodal transportation improvements and strategies that may be employed by counties and cities; and

(11) An examination of multimodal infrastructure needs, such as bus pull outs and pedestrian crosswalks and overpasses, and

how these needs can be better identified in the plans required by RCW 36.70A.070(6).

Requires the department of community, trade, and economic development to, in coordination with participating regional transportation planning organizations completing the study established by this act, submit a report of findings and recommendations to the appropriate committees of the legislature by December 31, 2006.

**HB 1566** by Representatives Jarrett, Linville, Alexander, Hunter, Nixon, Sommers, Priest, P. Sullivan, Anderson, Chase, and Buck  
Auditing state government.

Requires the governor and the governor's executive cabinet to develop a performance measurement system and conduct

coordinated quarterly and annual management reviews of state agencies, departments, programs, and activities as related to the priorities of government using that system. The reviews shall include, but are not limited to, an assessment of cost measures, including unit cost where appropriate, quality measures, productivity measures, outcome measures, efficiency measures, timeliness of delivery of services, and comparative benchmarks.

Requires the governor to forward these management reviews to the legislative fiscal committees and the joint legislative audit and review committee and the appropriate sections of the reviews to the relevant policy committees of the legislature by January 1st of each year.

Provides that all fiscal and policy committees of the legislature and the joint legislative audit and review committee shall receive copies of the quarterly and annual management review reports issued by the governor and the office of financial management under RCW 43.88.090. The fiscal committees of the legislature shall consider these management review reports when developing the operating, capital, and transportation budgets, and when developing revenue strategies.

Requires the policy committees of the legislature to consider the relevant sections of these management review reports when developing policy for the state and make recommendations to the fiscal committees for appropriation of state funds that are consistent with state policy priorities. These recommendations shall focus on the integration of capital and operating expenditures and the alignment of appropriations with the state policy priorities.

Expanding the crime of animal fighting.

Declares that a person commits the crime of animal fighting if the person knowingly does any of the following: (1) Owns, possesses, keeps, breeds, trains, buys, sells, or advertises or offers for sale any animal with the intent that the animal shall be engaged in an exhibition of fighting with another animal;

(2) Promotes, organizes, conducts, participates in, advertises, or performs any service in the furtherance of an exhibition of animal fighting, transports spectators to an animal fight, or provides or serves as a stakeholder for any money wagered on an animal fight;

(3) Keeps or uses any place for the purpose of animal fighting, or manages or accepts payment of admission to any place kept or used for the purpose of animal fighting;

(4) Suffers or permits any place over which the person has possession or control to be occupied, kept, or used for the purpose of an exhibition of animal fighting; or

(5) Takes, leads away, possesses, confines, sells, transfers, or receives a stray animal or a pet animal, with the intent to deprive the owner of the pet animal, and with the intent of using the stray animal or pet animal for animal fighting, or for training or baiting for the purpose of animal fighting.

Regulating stun guns.

Provides that no person or business may sell a projectile stun gun in the state of Washington unless the projectile stun gun: (1) Has a maximum charge of less than one hundred thousand volts;

(2) Has a maximum of less than nine joules of energy per pulse;

(3) Has an identification and tracking system which, upon deployment of remote electrodes, disperses coded material traceable to the purchaser through records kept by the manufacturer on all projectile stun guns and all individual cartridges sold, which information shall be made available to any law enforcement agency upon request; and

(4) Is manufactured by a company that offers a training program.

Requires a person selling a projectile stun gun to register the identity of the purchaser with the manufacturer of the projectile stun gun. Such identification shall be verified with a government-issued identification, or by verifying the social security number and address of the purchaser.

Provides that no person or business may sell or give a projectile stun gun to any person who has been convicted of a felony. It is the responsibility of the person selling or giving the projectile stun gun to complete a national criminal history background check to determine if the person purchasing or receiving the projectile stun gun is a felon.

Declares that a person who violates this act is guilty of a misdemeanor.

Declares that any person who knowingly uses a projectile stun gun against a law enforcement officer is guilty of a class B felony.

Declares that the state of Washington fully occupies and preempts the entire field of regulation of projectile stun guns.

Authorizing standards for housing for persons who are temporarily homeless.

Finds that, due to lack of a permanent address or other contact information, lack of skills and training, lack of reliable personal transportation, frequent health challenges, or other circumstances, homeless persons are vulnerable to exploitation as low-wage laborers.

Declares that, in 1995, the legislature recognized that the circumstances of another group of exploited low-wage laborers, migrant agricultural workers, necessitated the creation of standards for temporary worker housing to prevent those workers from being forced to obtain housing that is unsafe and unsanitary; those standards are reflected in chapter 70.114A RCW.

Finds that, due to their poverty, extreme need, and dire circumstances, similar exploitation of the labor of homeless persons also exists, and that, due to an inadequate supply of affordable housing and of space in permanent shelters for the homeless, they are likewise being forced to seek shelter in unsafe and unsanitary conditions.

Declares an intent to encourage temporary housing for homeless persons to be safe and sanitary by establishing a clear and concise set of regulations for temporary housing and encampments for homeless persons, substantially equivalent to those provided for temporary worker housing.

Permitting a college or university to maintain a diverse student population by considering race, color, ethnicity, or national origin in the admission and transfer process without using quotas, predetermined points, or set asides.

Declares an intent to give universities and colleges some flexibility in considering race, color, ethnicity, or national origin as positive factors in their admission and transfer policies to promote diversity by enrolling meaningful numbers of students from groups that would not otherwise be so represented. To ensure the highest quality of education is provided at our universities and colleges, they must have the ability to engage in a holistic review of each applicant that includes all the positive qualities and experiences that an applicant possesses.

Declares it is not the intent to allow any form of quota or set aside system to be implemented by a university or college to insulate an applicant from comparison with all other candidates solely because of his or her racial status.

(DIGEST AS ENACTED)

Requires the department of health, the department, and the building code council to develop standards for small boarding homes between seven and sixteen beds that address at least the designated issues.

Requires that, based on the standards developed under this act, the department of health and the building code council shall study the risks and benefits of modifying and simplifying construction and equipment standards for boarding homes with a capacity of seven to sixteen persons. The study shall include coordination with the department. The department of health shall report its findings and recommendations to appropriate committees of the legislature no later than December 1, 2005.

Requires the department to implement, as part of the required training and continuing education, food safety training and testing integrated into the curriculum that meets the standards established by the state board of health pursuant to chapter 69.06 RCW.

VETO MESSAGE ON HB 1591-S

May 17, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 3, 4, and 5, Substitute House Bill No. 1591 entitled:

Sections 3, 4, and 5 of this bill authorize licensure of a new category of larger adult family homes, known as special capacity adult family homes, which may serve seven or eight residents instead of up to only six residents. Adult family homes are an important component of our state's long-term care continuum and are favored by many families seeking a home-like, but safe living

environment for an elderly or disabled family member. The intent behind this proposal is to make operating one of these facilities more economically viable. Expanding the size of these facilities, however, may make them less safe, less homelike, and more intrusive in neighborhood settings. Larger facilities would also likely incur higher staff and service costs. It is not clear that expanding their size would make them more economically viable. The idea of authorizing the expansion of adult family homes should be considered by the Long Term Care Task Force. The task force was created under Substitute House Bill No. 1220 this year, and will be considering both financial and capacity issues in our long-term care system over this next year.

For these reasons, I have vetoed Sections 3, 4, and 5 of Substitute House Bill No. 1591.

With the exception of Sections 3, 4, and 5, Substitute House Bill No. 1591 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

Directing the state investment board to invest in start-up and expanding businesses within the state of Washington.

Finds that prudent targeted private equity investment by the state investment board would strengthen the local venture capital infrastructure, increase access to capital for local companies, support emerging businesses, create jobs for Washington citizens, and maximize the investment returns of pension funds.

Requires the state investment board to establish a fund of no less than five hundred million dollars of the board's investment portfolio in the Washington growing business fund, an account that shall be maintained separately and apart from other money invested by the board. Investments from the account may be made in start-up and expanding businesses based in Washington with a substantial employment base located in the state.

Declares that the purpose of the Washington growing business fund is to: (1) Increase the capital funds available to minority and women-owned business enterprises based in Washington; and

(2) Create jobs and economic opportunities within Washington.

Requires the board and its designees to include in their statement of investment principles: The extent, if at all, to which social, environmental, or ethical considerations are taken into account in their selection, retention, and realization of investments; and their policy, if any, in relation to the exercise of rights, including voting rights, attaching to investments.

Companion Bill: 5585

Allowing port districts to lease land acquired from a commercial waterway district.

(SEE ALSO PROPOSED 2ND SUB)

Authorizes a district to lease all lands, wharves, docks, and real and personal property it owns and controls that have been acquired from commercial waterway districts, for such purposes and upon such terms as the port commission deems proper. These properties are subject to all other statutes governing district leases.

Authorizes a port commission to, by resolution, authorize the managing official of a port district to sell and convey port district property obtained by the district from a commercial waterway district. The district shall sell and convey such property in accordance with all applicable statutes governing the sale of district property.

**HB 1595-S** by House Committee on Local Government (originally sponsored by Representatives McDermott, Woods, Cody, Jarrett, Clibborn, and Dunn)

(SEE ALSO PROPOSED 2ND SUB)

Provides that, by December 1, 2005, a port district to which the property of a former commercial waterway district was transferred shall report to the chairs of the legislative committees with jurisdiction regarding port property formerly owned by the waterway district. The report shall, to the extent practicable, include the following information: (1) Existing uses of the port property by those using former waterway district property;

(2) A general outline of potential future uses of the public property owned by the port district;

(3) The status of the environmental mitigation and cleanup of the waterway that is required by federal and state law;

(4) The status of the port district's communication to, and work with, those using former waterway district property as of January 1, 2005; and

(5) General terms and conditions of leases the port believes are necessary to give the port adequate control over its property and the general terms and conditions that the port believes will give the current users of the public property continued access to the waterway.

Expires December 31, 2005.

**HB 1595-S2** by House Committee on Local Government (originally sponsored by Representatives McDermott, Woods, Cody, Jarrett, Clibborn, and Dunn)

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Provides that a district may manage all lands, wharves, docks, and real and personal property it owns and controls that have been acquired from commercial waterway districts, for such purposes and upon such terms as the port commission deems proper. A district's management authority includes granting licenses, leases, and easements for such former commercial waterway district property. These properties are subject to all other statutes governing port district property.

Provides that a port commission may, by resolution, authorize the managing official of a port district to sell and convey port district property obtained by the district from a commercial waterway district. The district shall sell and convey such property in accordance with all applicable statutes governing the sale of port district property.

Companion Bill: 5662

Establishing funding for freight mobility.

Recognizes the importance of placing a greater emphasis on  
 the movement of freight in Washington state. A strong  
 programmatic commitment is needed to focus current resources  
 and direct new, ongoing funding toward freight corridor priorities  
 and projects that expedite the movement of cargo.

Declares that, when created, the freight mobility strategic  
 investment board had dedicated funding which was lost through  
 passage of Initiative 695.

Declares that the establishment of a dedicated fund is critical  
 to providing a repository for private and public funds for capital  
 projects selected through the board's selection process, and to  
 communicate the commitment of the state to improve freight  
 movement within Washington's borders as well as provide a more  
 cost-efficient way to advance capital projects. A predictable level  
 of support will remove uncertainty in project development and  
 will deliver projects in a more timely manner.

Declares an intent to attract new funding as part of the  
 transportation equity act for the 21st Century (TEA-21) extension  
 or reauthorization.

Creates the freight mobility strategic investment account in

Protecting children from area-wide soil contamination.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that emissions from metal smelters, the use of lead arsenate pesticides, the combustion of leaded gasoline, and other sources have contributed to arsenic and lead soil contamination covering dispersed areas in the state.

Finds it in the public interest to expedite measures to protect children's health by increasing awareness of the potential for elevated levels of arsenic and lead contamination, conduct soil testing at schools and child care facilities, and provide technical and financial assistance to implement mitigation measures that reduce the risk of exposure.

Directs the department of ecology, in cooperation with the department of social and health services and the department of health, to establish an area-wide soil contamination school and child care facility certification program for schools and child care facilities within area-wide soil contamination zones to reduce the potential for children's exposure to area-wide soil contamination.

Provides that, if the superintendent or the board of directors of a school does not comply with the provisions of this act, any citizen in the school district or parent or guardian of a student in a school within an area-wide soil contamination zone has standing to seek enforcement of the requirements of this act in the superior court of the state of Washington in the county where the school is located.

Authorizes the department to enforce this act through remedial action orders under chapter 70.105D RCW.

**HB 1605-S** by House Committee on Natural Resources, Ecology & Parks (originally sponsored by Representatives Upthegrove, Dickerson, Schual-Berke, Cody, McDermott, Hunter, B. Sullivan, Simpson, Morrell, Murray, Chase, Roberts, Kenney, and Santos)

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that emissions from metal smelters, the use of lead arsenate pesticides, the combustion of leaded gasoline, and other sources have contributed to arsenic and lead soil contamination covering dispersed areas in the state.

Finds it in the public interest to expedite measures to protect children's health by increasing awareness of the potential for elevated levels of arsenic and lead contamination, conduct soil testing at schools and child care facilities, and provide technical and financial assistance to implement mitigation measures that reduce the risk of exposure.

Directs the department, in cooperation with the department of social and health services and the department of health, to assist schools and child care facilities within child use prioritization areas to reduce the potential for children's exposure to area-wide soil contamination.

Requires the department to: (1) Define child use prioritization areas based on available information;

(2) Conduct qualitative evaluations to determine the potential for children's exposure to area-wide soil contamination by December 31, 2006;

(3) If the qualitative evaluation determines that children may be routinely exposed to area-wide soil contamination at a property, conduct soil samples at that property by December 31, 2008; and

(4) If soil sample results confirm the presence of area-wide soil contamination, notify schools and child care facilities regarding the test results and the steps necessary for implementing a property specific public health plan.

Provides that, if a school or a child care facility with area-wide soil contamination does not implement a property specific public health plan within six months of receiving written notification from the department, the superintendent or board of directors of a school or the owner or operator of a child care facility must notify parents and guardians in writing of the results

of soil tests. The written notice shall be prepared by the department.

Directs the department to assist schools and owners and operators of child care facilities in area-wide soil contamination zones.

Authorizes the department, within available funds, to provide grants to schools and child care facilities for the purpose of implementing property specific public health plans using best management practices.

Authorizes the department, within available funds, to provide financial assistance to the department of health and the department of social and health services to implement this act.

**HB 1605-S2** by House Committee on Appropriations (originally sponsored by Representatives Upthegrove, Dickerson, Schual-Berke, Cody, McDermott, Hunter, B. Sullivan, Simpson, Morrell, Murray, Chase, Roberts, Kenney, and Santos)

(DIGEST AS ENACTED)

Finds that state and local agencies are currently implementing actions to reduce children's exposure to soils that contain hazardous substances. The legislature further finds that it is in the public interest to enhance those efforts in western Washington in areas located within the central Puget Sound smelter plume.

Directs the department, in cooperation with the department of social and health services, the department of health, the office of the superintendent of public instruction, and local health districts, to assist schools and child care facilities west of the crest of the Cascade mountains to reduce the potential for children's exposure to area-wide soil contamination.

Requires the department to: (1) Identify schools and child care facilities that are located within the central Puget Sound smelter plume based on available information;

(2) Conduct qualitative evaluations to determine the potential for children's exposure to area-wide soil contamination;

(3) If the qualitative evaluation determines that children may be routinely exposed to area-wide soil contamination at a property, conduct soil samples at that property by December 31, 2009; and

(4) If soil sample results confirm the presence of area-wide soil contamination, notify schools and child care facilities regarding the test results and the steps necessary for implementing best management practices.

Authorizes the department to recognize schools and child care facilities that successfully implement best management practices with a voluntary certification letter confirming that the facility has successfully implemented best management practices.

Requires the department to evaluate actions to reduce child exposure to contaminated soils and submit progress reports to the governor and to the appropriate committees of the legislature by December 31, 2006, and December 31, 2008.

Provides that the act shall be null and void if appropriations are not approved.

Mar 14	First reading, referred to Water, Energy & Environment.	Section 2 of this bill would create new statutory language regarding the state's nursing home informal dispute resolution process. The Department of Social and Health Services currently offers an informal dispute resolution process for all licensed nursing homes that is in compliance with federal regulations for Medicaid and Medicare-certified nursing homes. Section 2 of the bill would require modification of the current informal dispute resolution process to allow nursing home residents or their representatives to provide input. Nursing home residents currently have extensive input during the complaint investigations and licensing and certification surveys. The presence of residents or their representatives during informal dispute resolution sessions might have a chilling effect upon candid discussions regarding resident care issues and might limit the effectiveness of this tool for addressing resident care concerns quickly and less contentiously. The enacted 2005-2007 state operating budget does not include additional funding or staff to implement this program.

Companion Bill: 5602

Managing livestock nutrients.

(SEE ALSO PROPOSED 1ST SUB)

Applies to all operations that meet the definition of an animal feeding operation.

Creates specific permit requirements consistent with the federal CAFO rule for all defined or designated concentrated animal feeding operations.

Provides that all dairies are required to implement nutrient management plans and perform certain reporting.

Declares that AFOs that are not CAFOs or dairies are not required to obtain permit coverage or have a plan under this act. However, no AFO is allowed to pollute waters of the state, and all AFOs may be inspected by the department under this act.

Authorizes the department to coordinate with Washington State University, the conservation commission, conservation districts, the department of ecology, other federal, state, and local agencies, and private organizations and individuals in implementing an education program for improvement of nutrient management by dairies, AFOs, and CAFOs and to prevent livestock nutrients from degrading the quality of waters of the state. The department may refer livestock producers to conservation districts, Washington State University, and other entities for educational programs, technical assistance, or financial assistance.

Provides that conservation districts may, at the request of a livestock producer, provide technical or financial assistance in developing or revising and implementing the producer's livestock nutrient management plan.

Requires the director to establish a livestock nutrient management program advisory committee including members representing the livestock industry; the environmental community; local, state, and federal agencies; and other entities as deemed appropriate.

Declares that it is unlawful for any person regulated by this act to throw, drain, run, or otherwise discharge into any of the waters of this state, or to cause, permit, or suffer to be thrown, run, drained, allowed to seep, or otherwise discharged into such waters any organic or inorganic matter, including livestock nutrients, that shall cause or tend to cause pollution of such waters according to the determination of the department, as provided for in this act.

Provides that the department, with the assistance of the attorney general, is authorized to bring any appropriate action at law or in equity, including action for injunctive relief, in the name of the people of the state of Washington as may be necessary to carry out this act.

Repeals RCW 90.64.015, 90.64.017, 90.64.070, 90.64.080, 90.64.130, 90.64.140, 90.64.160, and 90.64.800.

Companion Bill: 5581

Establishing the life sciences discovery fund.

(SEE ALSO PROPOSED 2ND SUB)

Declares it to be a clear public purpose and governmental function to promote life sciences research to foster the next generation of health-related innovations, to enhance the competitive position of Washington state in this vital sector of the economy, and to improve the quality and delivery of health care for the people of Washington.

Declares that the purpose of this act is to establish a life sciences discovery fund authority, to grant that authority the power to contract with the state to receive revenues under the master settlement agreement, and to contract with other entities to receive other funds, and to disburse those funds consistent with the purpose of this act.

Declares that the life sciences discovery fund is intended to promote the best available research in life sciences disciplines through diverse Washington institutions and to foster improved health care outcomes across this state and the world. The research investments of the life sciences discovery fund are intended to further the goals of the "Bio 21" report and to support future statewide, comprehensive strategies to lead the nation in life sciences-related research and employment.

**HB 1623-S** by House Committee on Technology, Energy & Communications (originally sponsored by Representatives Sommers, Anderson, Morris, Armstrong, Hinkle, Kenney, Priest, Linville, Kessler, Hunt, Williams, Chase, Kilmer, Hunter, and Hudgins; by request of Governor Gregoire)

(SEE ALSO PROPOSED 2ND SUB)

Declares it to be a clear public purpose and governmental function to promote life sciences research to foster a preventive and predictive vision of the next generation of health-related innovations, to enhance the competitive position of Washington state in this vital sector of the economy, and to improve the quality and delivery of health care for the people of Washington.

Finds it is appropriate and consistent with the intent of the master settlement agreement between the state and tobacco product manufacturers to invest a portion of the revenues derived therefrom by the state in life sciences research, to leverage the revenues with other funds, and to encourage cooperation and innovation among public and private institutions involved in life sciences research.

Declares that the purpose of this act is to establish a life sciences discovery fund authority, to grant that authority the power to contract with the state to receive revenues under the master settlement agreement, and to contract with other entities to receive other funds, and to disburse those funds consistent with the purpose of this chapter. The life sciences discovery fund is intended to promote the best available research in life sciences disciplines through diverse Washington institutions and to foster improved health care outcomes across this state and the world. The research investments of the life sciences discovery fund are intended to further the goals of the "Bio 21" report and to support future statewide, comprehensive strategies to lead the nation in life sciences-related research and employment.

Creating the life sciences discovery authority.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Declares it to be a clear public purpose and governmental function to promote life sciences research to foster a preventive and predictive vision of the next generation of health-related innovations, to enhance the competitive position of Washington state in this vital sector of the economy, and to improve the quality and delivery of health care for the people of Washington.

Finds it is appropriate and consistent with the intent of the master settlement agreement between the state and tobacco product manufacturers to invest a portion of the revenues derived therefrom by the state in life sciences research, to leverage the revenues with other funds, and to encourage cooperation and innovation among public and private institutions involved in life sciences research.

Declares that the purpose of this act is to establish a life sciences discovery authority; to permit the authority to receive certain revenues from the master settlement, pursuant to appropriation; to permit the authority to solicit and receive contributions from nonstate public and private sources; and to disburse those moneys as grants for life science research consistent with the purpose of this act. The life sciences discovery authority is intended to promote the best available research in life sciences disciplines through diverse Washington institutions and to foster improved health care outcomes across this state and the world. The research investments of the life sciences discovery account are intended to further the goals of the "Bio 21" report and to support future statewide, comprehensive strategies to lead the nation in life sciences-related research and employment.

Improving children's health services.

Finds that due to the growing complexity of student health needs, the delegation of nursing tasks to unlicensed and untrained school personnel compromises the health and safety of students, creates the potential for errors with life-threatening consequences, and exposes school districts to legal liability.

Acknowledges that the department of health, in its 2001 sunrise review of school health aides, recommended the state regulation of registered school health aides according to established nursing practice standards and the state's uniform professional accountability processes.

Declares that the training of registered school health aides is in the interest of public health and safety.

Declares an intent to undertake a more comprehensive examination of overall student health care needs in the school setting to determine how school nursing services can be best integrated into existing efforts to raising student academic achievement.

Creates the joint legislative task force on student health.

Provides that the task force, in consultation with the department of health and the office of the superintendent of public instruction, shall investigate the need for additional school nursing services by gathering data about current school nurse-to-student ratios, and assessing the demand for school nursing services by acuity levels and the necessary skills to meet those demands. The task force also shall recommend to the legislature best practices in school nursing services, including a dedicated, sustainable funding model that would best meet the current and future needs of Washington's schools and contribute to greater academic success of all students.

Requires the task force to report its findings and recommendations to the appropriate committees of the legislature by December 1, 2005.

Encourages school building administrators and school district boards of directors to provide ample opportunities for all school employees to receive training in emergency first aid and cardiopulmonary resuscitation, and to periodically attend refresher courses in these vital areas of preparedness necessary to provide assistance to students and other employees in emergency situations.

Appropriates the sum of forty-five thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2006, from the general fund to the office of the superintendent of public instruction for the purpose of funding a position to pursue grants and obtain funds for the school nurse account.

Modifying employer disclosure of employee information.

(DIGEST AS ENACTED)

Provides that an employer who discloses information about a former or current employee to a prospective employer, or employment agency as defined by RCW 49.60.040, at the specific request of that individual employer or employment agency, is presumed to be acting in good faith and is immune from civil and criminal liability for such disclosure or its consequences if the disclosed information relates to: (1) The employee's ability to perform his or her job; (2) The diligence, skill, or reliability with which the employee carried out the duties of his or her job; or (3) Any illegal or wrongful act committed by the employee when related to the duties of his or her job.

Declares that, for the purposes of this act, the presumption of good faith may only be rebutted upon a showing by clear and convincing evidence that the information disclosed by the employer was knowingly false, deliberately misleading, or made with reckless disregard for the truth.

**(DIGEST AS ENACTED)**

Finds that conservation futures are a useful tool for counties to preserve lands of public interest for future generations. Counties are encouraged to use some conservation futures as one tool for salmon restoration purposes.

Provides that any rights or interests in real property acquired under this act after the effective date of this act must be located within the assessing county. Further, the county must determine if the rights or interests in real property acquired with these funds would reduce the capacity of land suitable for development necessary to accommodate the allocated housing and employment growth, as adopted in the countywide planning policies. When actions are taken that reduce capacity to accommodate planned growth, the jurisdiction shall adopt reasonable measures to increase the capacity lost by such actions.

Provides that the amount of revenue used for maintenance and operations of parks and recreational facilities may not exceed fifteen percent of the total amount collected from the tax levied under RCW 84.34.230 in the preceding calendar year. Revenues from this tax may not be used to supplant existing maintenance and operation funding. Any rights or interests in real property acquired under this act must be located within the assessing county.

Regulating beer and wine sampling.

Provides that licensees under RCW 66.24.360 may provide, free or for a charge, single-serving samples of two ounces or less, but no more than a total of eight ounces, to customers for the purpose of sales promotion if the licensees operate fully enclosed retail areas encompassing at least twenty thousand square feet. Sampling activities of licensees under this act are subject to RCW 66.28.010 and 66.28.040.

Requires the service area and facilities to be located within the licensee's fully enclosed retail area, and must be of a size and design such that the licensee can observe and control persons in the area to ensure that persons under twenty-one years of age and apparently intoxicated persons cannot possess or consume alcohol. Customers must remain in the service area while consuming samples.

Provides that domestic breweries, microbreweries, and certificate of approval holders may bear both the direct and the indirect costs of providing samples of their own brands of beer. Domestic wineries may bear only the indirect costs of providing samples of their own brands of wine.

Declares that, with respect to sampling activities under RCW 66.24.360 and 66.24.371, this act does not prohibit: (1) A domestic brewery, microbrewery, or certificate of approval holder from furnishing its own brands of beer to a licensee; or

(2) A domestic brewery, microbrewery, domestic winery, or certificate of approval holder from pouring or dispensing samples of its own brands of beer or wine for a licensee's customers. Such sampling activities, however, may occur no more than eight times per calendar year, no longer than two consecutive days, and no more frequently than once every four weeks.

(4) An assessment of each student's progress at least annually using, for full-time students, the state assessment for the student's grade level and any other annual assessment required by the school district. Part-time students shall also be assessed at least annually. Part-time students who are either receiving home-based instruction under chapter 28A.200 RCW or who are enrolled in an approved private school under chapter 28A.195 RCW are not required to participate in the state assessments required under chapter 28A.655 RCW.

Requires the office of the superintendent of public instruction to adopt rules for the implementation of this act, including program implementation standards and enrollment documentation and reporting as follows: (1) Each school district shall receive apportionment generated in accordance with chapter 28A.150 RCW based upon the student full-time equivalent enrollment reported for this program;

(2) For funding purposes, enrollment shall be determined based upon the learning activities specified in the digital course objectives, including the estimated average weekly hours spent by each individual student participating in a digital program; and

(3) Enrollment of part-time students shall be subject to the provisions of RCW 28A.150.350, and shall generate the pro rata share of full-time funding.

Companion Bill: 5624

Authorizing local government funding of ambulance and emergency services.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares an intent to explicitly recognize local jurisdictions' ability and authority to collect utility service charges to fund ambulance and emergency medical service systems that are based, at least in some part, upon a charge for the availability of these services. In fact, notwithstanding some of the discussion in the Washington State Supreme Court's *Arborwood Idaho LLC vs. City of Kennewick* decision, the legislature finds that reliance on a funding policy which is based only on actual use of these services would be inequitable, would lead to disproportionate impacts on sick and injured persons, and could impede the likelihood that persons would seek ambulance or emergency medical service assistance in their time of need.

Finds that without a funding mechanism, local governments would no longer be able to operate or contract for ambulance and emergency medical services, thereby threatening the health, safety, and welfare of the people.

Declares an intent to ensure and promote the health, safety, and welfare of the people by clarifying cities' and towns' authority to operate ambulance and emergency medical services as a public utility, to contract for these services, and to fix rates and charges for both the availability and the actual use of ambulance and emergency medical services.

**HB 1635-S** by House Committee on Local Government (originally sponsored by Representatives Kessler, Haler, Clibborn, Jarrett, O'Brien, Hankins, Ericks, Grant, Buck, Chase, and Kenney)

Modifying local emergency medical service funding provisions.

(DIGEST AS ENACTED)

Declares an intent to explicitly recognize local jurisdictions' ability and authority to collect utility service charges to fund ambulance and emergency medical service systems that are based, at least in some part, upon a charge for the availability of these services.

Authorizes the legislative authority of any city or town to establish an ambulance service to be operated as a public utility. However, the legislative authority of the city or town shall not provide for the establishment of an ambulance service that would compete with any existing private ambulance service, unless the legislative authority of the city or town determines that the city or town, or a substantial portion of the city or town, is not adequately served by an existing private ambulance service, and the existing private ambulance service cannot be encouraged to expand its service by contract entered into between the parties. In determining the adequacy of an existing private ambulance service, the legislative authority of the city or town shall take into consideration objective generally accepted medical standards and reasonable levels of service which shall be published by the city or town legislative authority.

Requires the joint legislative audit and review committee to study and review ambulance utilities established and operated by cities under this act. The committee shall examine, but not be limited to, the following factors: The number and operational status of utilities established under this act; whether the utility rate structures and user classifications used by cities were established in accordance with generally accepted utility rate-making practices; and rates charged by the utility to the user classifications. The committee shall provide a final report on this review by December 2007.

Companion Bill: 5684

Adopting a wage ladder for child care workers.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares an intent to increase wages to child care workers through establishing a child care career and wage ladder that provides increased wages for child care workers based on their work experience, level of responsibility, and education. To the extent practicable within available funds, this child care career and wage ladder shall mirror the successful child care career and wage ladder pilot project operated by the state between 2000 and 2003.

Declares that, while it is the intent to establish the vision of a statewide child care career and wage ladder that will enhance employment quality and stability for child care workers, the legislature also recognizes that funding allocations will determine the extent of statewide implementation of a child care career and wage ladder.

Requires the division of child care and early learning in the department of social and health services to establish a child care career and wage ladder in licensed child care centers that meet the following criteria: (1) At least ten percent of child care slots are dedicated to children whose care is subsidized by the state or any political subdivision thereof or any local government;

(2) The center agrees to adopt the child care career and wage ladder, which, at a minimum, shall be at the same pay schedule as existed in the previous child care career and wage ladder pilot project; and

(3) The center meets further program standards as established by rule pursuant to this act.

Appropriates the sum of five million dollars, or as much thereof as may be necessary, from the general fund to the department of social and health services for the fiscal year ending June 30, 2006, to carry out the purposes of this act.

VETO MESSAGE ON HB 1636-S

May 17, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 4, Substitute House Bill No. 1636 entitled:

This bill establishes a childcare career and wage ladder in the Department of Social and Health Services (DSHS), and requires it to be implemented only if funds are appropriated for this purpose. Funds were not appropriated. Childcare career and wage ladders effectively increase the salary and benefits of childcare

workers. The DSHS had a childcare career and wage ladder pilot project in place a few years ago but eliminated it when the WorkFirst Program faced a budget shortfall.

Section 4 would require the DSHS to establish program standards, study the impact of the childcare career and wage ladder on the quality of childcare and the childcare workforce, and report its findings to the Legislature by December 1, 2006. Section 4 is not subject to the "within funds specifically appropriated for this purpose" clause in the bill. Section 4 should be vetoed; it makes no sense for the DSHS to take the time to create a report for a program that does not exist.

For these reasons, I have vetoed Section 4 of Substitute House Bill No. 1636.

With the exception of Section 4, Substitute House Bill No. 1636 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

Companion Bill: 5620

Providing for priority consideration of voluntary buffers in open space plans and public benefit rating systems.

(SEE ALSO PROPOSED 1ST SUB)

Provides that county legislative authorities, in adopting open space plans, public benefit rating systems, and assessed valuation schedules, shall give priority consideration to lands used for buffers that: (1) Are not required by law; and

(2) Are planted with or primarily contain native vegetation.

Declares that "priority consideration" as used in this act may include, but is not limited to, establishing classification eligibility and maintenance criteria for buffers meeting the requirements of this act.

**HB 1637-S** by House Committee on Local Government (originally sponsored by Representatives Upthegrove, Dickerson, Moeller, Dunshee, McCoy, B. Sullivan, Chase, Williams, Sells, Simpson, Lantz, Hunt, O'Brien, and Kagi)

Providing for priority consideration of lands used as buffers in planning decisions.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that county legislative authorities, in adopting open space plans, public benefit rating systems, and assessed valuation schedules, shall give priority consideration to lands used for buffers that: (1) Are not required by law; and

(2) Are planted with or primarily contain native vegetation.

Declares that "priority consideration" as used in this act may include, but is not limited to, establishing classification eligibility and maintenance criteria for buffers meeting the requirements of this act.

Requires county legislative authorities to meet the requirements of this act no later than July 1, 2006, unless buffers already receive priority consideration in the existing open space plans, public benefit rating systems, and assessed valuation schedules.

Companion Bill: 5619

Requiring consideration of water quality during growth management planning.

(SEE ALSO PROPOSED 1ST SUB)

Finds that, while substantial progress has been made in protecting Washington's environment, more is now known about the significant effects of development along the state's shorelines.

Declares an intent to provide the tools necessary to address the evolving understanding of measures needed to maintain and, when required, enhance water quality for Washington's marine shorelines while accommodating appropriate development consistent with city and county comprehensive plans.

Finds the approach taken in the growth management act will protect our marine waters and assist counties, cities, and the public.

Declares an intent that the provisions of this act be implemented by counties and cities according to the schedule specified in RCW 36.70A.130.

Requires cities and counties to consider the following when preparing comprehensive plans and development regulations according to this act and when reviewing comprehensive plans and development regulations according to RCW 36.70A.130: (1) Measures to maintain or improve water quality and habitat;

(2) Effects of proposed land use patterns on basic hydrologic functions and on surface and ground water quality, including downstream water bodies;

(3) Land use measures to maintain and, when required, enhance existing hydrologic functions, considering the entire river or stream basin, and to maintain surface and ground water quality, surface water quantity, and ground waters used for potable water or irrigation; and

(4) Measures to maintain and, when required, enhance existing hydrologic functions, including consideration of predevelopment peak flows and summer and fall surface and ground water flows.

**HB 1639-S** by House Committee on Local Government (originally sponsored by Representatives Upthegrove, Dickerson, Moeller, Dunshee, Sells, B. Sullivan, Simpson, Lantz, Williams, O'Brien, Hunt, and Chase)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that, while substantial progress has been made in protecting Washington's environment, more is now known about the significant effects of development along the state's shorelines.

Declares an intent to provide the tools necessary to address the evolving understanding of measures needed to maintain and, when required, enhance water quality for Washington's marine shorelines while accommodating appropriate development consistent with city and county comprehensive plans.

Recognizes the state's growth management act includes a goal and general requirements to protect water quality as well as the state's surface and ground waters, including Puget Sound. The legislature also recognizes these provisions are codified at RCW 36.70A.020(10), 36.70A.030(14)(g), and 36.70A.070 (1) and (5) (c)(iv). The legislature further recognizes the growth management act defines this goal and these requirements and gives additional guidance for local governments and the public while allowing for local choices and solutions.

Finds the approach taken in the growth management act will protect our marine waters and assist counties, cities, and the public.

Declares an intent that the provisions of this act be implemented by counties and cities according to the schedule specified in RCW 36.70A.130.

Declares that nothing in this act affects the settlement that led to the adoption of the current shoreline master program guidelines.

Declares that nothing in this act is intended to affect the requirements or provisions of the state's water pollution control laws, chapter 90.48 RCW, or the federal clean water act, 33 U.S.C. Sec. 1251 et seq.

Declares that nothing in this act shall create a new cause of action before the growth management hearings boards for any plans or programs not adopted under chapter 36.70A RCW.

Companion Bill: 5660

Providing a dispute mechanism for manufactured/mobile home landlord and tenant disputes.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that taking legal action against a park owner for violations of the manufactured/mobile home landlord-tenant act can be a costly and lengthy process, and that many people cannot afford to pursue a court process to vindicate statutory rights. Park owners similarly are benefited by having access to a process that resolves disputes quickly and efficiently.

Declares an intent to provide a less costly and more efficient way for manufactured/mobile homeowners and park owners to resolve disputes, and to provide a mechanism for state authorities to quickly locate owners of manufactured housing communities.

Declares an intent to authorize the department of community, trade, and economic development to register mobile home parks or manufactured housing communities, conduct investigations, issue citations, issue cease and desist orders, and impose fines for violations of the manufactured/mobile home landlord-tenant act.

**HB 1640-S** by House Committee on Housing (originally sponsored by Representatives Morrell, Chase, Dunn, McCoy, O'Brien, Appleton, and Lantz)

(DIGEST AS ENACTED)

Finds that taking legal action against a park owner for violations of the manufactured/mobile home landlord-tenant act can be a costly and lengthy process, and that many people cannot afford to pursue a court process to vindicate statutory rights. Park owners similarly are benefited by having access to a process that resolves disputes quickly and efficiently.

Declares an intent to authorize the department of community, trade, and economic development to: (1) Register mobile home parks or manufactured housing communities and report upon data to the appropriate committees of the legislature by December 31, 2005;

(2) Expand its current ombudsman program by hiring or contracting with additional persons to conduct a greater number of investigations of alleged violations of the manufactured/mobile home landlord-tenant act; and

(3) Collect and report upon data related to conflicts and violations to the appropriate committees of the legislature by December 31, 2005.

Declares that, if after receiving the reports under this act, the legislature finds that the provisions of this act authorizing the department to register mobile/manufactured home communities,

investigate complaints, clarify existing law, and work to resolve disputes in good faith voluntarily prove insufficient to adequately protect the rights and responsibilities of mobile home park tenants and owners, it is the intent of the legislature to find other methods for resolution in the future.

Provides that, by December 31, 2005, the department shall submit a summary report of its activities under this act during the period after the effective date of this act, through December 31, 2005, to the house of representatives housing committee and the senate committee on financial institutions, housing and consumer protection, including: (1) The number of complaints received;

(2) The nature and extent of the complaints received;

(3) The actions taken on each complaint by the department;

(4) Recommendations on what further changes in law are necessary to resolve disputes;

(5) Recommendations on changes to the department's ombudsman and investigative programs;

(6) Recommendations on resources necessary to retain or improve the program; and

(7) Recommendations on whether a formal mobile/manufactured home landlord-tenant act enforcement and administrative hearing process should be adopted and how such a process should be structured.

Provides that the department must: (1) Compile the most accurate list possible of all the mobile home parks or manufactured housing communities in the state, the number of lots subject to chapter 59.20 RCW located in each mobile home park or manufactured housing community, and the names and addresses of the owners of these parks. The department shall present this list to the house of representatives housing committee and the senate committee on financial institutions, housing and consumer protection by December 31, 2005. The department is encouraged to work with groups including, but not limited to: The office of community development, mobile homeowners' associations, tenant advocacy groups, park owners' associations, and county assessors to generate the list;

(2) Send out notifications to all known mobile home park owners or manufactured housing community owners regarding the due date of the assessment pursuant to this act. These notifications must include information about late fees, liens, and passing costs on to tenants; and

(3) Collect the registration assessment due from all mobile home park owners or manufactured housing community owners, and allow ninety days to pass before late fees and lien notices are sent to noncomplying owners as provided in this act.

Requires the owner of each mobile home park or manufactured housing community to pay to the department a registration assessment of five dollars for each mobile home or manufactured home that is subject to chapter 59.20 RCW within a park or community to fund the costs associated with administering this act. Manufactured housing community owners or mobile home park owners may pass on no more than two dollars and fifty cents of this assessment to tenants.

Provides that, in January 2006, the state treasurer shall transfer any funds remaining in the manufactured/mobile home investigations account under this act to the mobile home affairs account under RCW 59.22.070 for the purposes under RCW 59.22.050.

Companion Bill: 5513

Restructuring certain transportation agencies.

Finds that it is in the interest of the state to restructure the  
 roles and responsibilities of the state's transportation agencies in  
 order to improve efficiency and accountability.

Finds that continued citizen oversight of the state's  
 transportation system remains an important priority. To achieve  
 these purposes, the legislature intends to provide direct  
 accountability of the department of transportation to the  
 governor, in his or her role as chief executive officer of state  
 government, by making the secretary of transportation a cabinet-  
 level official.

Declares that it is essential to clearly delineate between the  
 separate and distinct roles and responsibilities of the  
 transportation commission and the department of transportation.  
 Finally, consolidating the research and audit functions of the  
 state's transportation agencies under a single citizen-governed  
 entity, the transportation commission, will better serve the state.

Changing the law pertaining to waiver of rights by a juvenile.

(SEE ALSO PROPOSED 1ST SUB)

Revises the law pertaining to waiver of rights by a juvenile.

**HB 1644-S** by House Committee on Juvenile Justice & Family Law (originally sponsored by Representative B. Sullivan)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Revises the law pertaining to waiver of rights by a juvenile.

Declares that parents have a fundamental interest in knowing if their child has been taken into police custody for questioning and where their child is being held. Because a parent or guardian is most often in a position to provide a juvenile with guidance in matters of great importance to a juvenile, it is the intent of the legislature to assist parents in their ability to aid and guide their children when making important legal decisions, including the decision to waive legal rights during custodial interrogations.

Declares an intent to provide children in police custody the opportunity to seek and receive consultation with his or her parents.

Provides that, when a law enforcement officer takes a juvenile into custody, the officer must make reasonable attempts to notify a parent, guardian, or custodian that the juvenile is in custody and where the juvenile is being held.

Provides that when a parent, guardian, or custodian requests to consult with a juvenile in custody and makes himself or herself immediately available, he or she shall be permitted to consult with the juvenile immediately upon his or her request, unless: (1) The juvenile objects to the consultation while in the presence of the parent, guardian, or custodian; or

(2) The parent, guardian, or custodian is a codefendant or victim of the juvenile.

Requires that, prior to questioning a juvenile in custody, a juvenile must be advised of his or her rights in substantially the following language: (1) That the juvenile has a right to remain silent;

(2) That any statement the juvenile makes can be and may be used against the juvenile;

(3) That the juvenile has a right to consult with an attorney; and

(4) That the juvenile has a right to consult with his or her parent, guardian, or custodian prior to questioning.

Companion Bill: 5608

Limiting the authority to condemn property outside the boundaries of the condemning entity.

Finds that condemnation of property for essential public facilities concerns the public health, safety, and welfare in the jurisdiction in which the proposed facility is to be located.

Provides that, when the state grants local governments and special districts the power of eminent domain outside their jurisdictional boundaries, therefore, the state must also assure that exercise of this power includes meaningful measures to consider and protect the public health, safety, and welfare in the jurisdiction in which the property that is proposed to be condemned for an essential public facility is located.

Provides that a metropolitan municipal corporation shall not condemn lands for an essential public facility, provided for in RCW 36.70A.200, at a location outside its component county boundaries without first completing the city or county siting process for an essential public facility where the proposed facility is to be located, consistent with RCW 36.70A.200.

Companion Bill: 5643

Exempting community notification and release of sex offender information from public disclosure.

Declares that it is and has been the intent of the legislature that information regarding sex offenders be shared between state agencies and with local law enforcement, and that public disclosure of sex offender information that is accurate, relevant, and necessary to protect the public be managed by and controlled through the community notification statute, RCW 4.24.550.

Finds that law enforcement has been, and continues to be, the most reliable means of ensuring that the information released protects the public, protects the confidentiality of victims, protects ongoing criminal investigations, and complies with the confidentiality provisions of other federal and state laws.

Finds that to accomplish its penological duties, the department of corrections must receive and use protected information to appropriately confine, supervise, treat, and assess the risk of offenders. To further this intent, the legislature has authorized the end of sentence review committee to access and consider information that otherwise may be confidential for the specific reason of determining if the offender should be referred for civil commitment as a sexually violent predator under chapter 71.09 RCW.

Finds that it is appropriate for the department to share information, beyond what is publicly disclosable, with law enforcement agencies for the appropriate supervision of offenders in the community or for the investigation of criminal acts.

Does not intend that law enforcement bulletins or notes, comments, and assessments of the end of sentence review committee to assess the risk, or plan the transition of sex offenders to the community, be available for public inspection through public disclosure due to the risk that providing the information in such a manner would pose to the state's community notification program and the risk that the information would unnecessarily traumatize the victims of the offenders' previous offenses.

Puget Sound, may also establish or participate in the provision of health clinic services.

VETO MESSAGE ON HB 1652-S

May 4, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 2, Substitute House Bill No. 1652 entitled:

This bill authorizes one additional fire protection district to operate a health clinic in Kitsap County. Section 2 of the bill directs the Department of Health to conduct a study to evaluate the merits of allowing fire protection districts to establish or participate in the provision of health care services. The study must consider the scope of services that might be provided, the interest among Washington's fire districts in providing these services, the need for having them do so, and the impact on health expenditures and potential government liability. Section 2 also includes the appointment of an advisory group to assist in the study and a final report by September 1, 2006. The Legislature did not, however, appropriate funds for the study.

For these reasons, I have vetoed Section 2 of Substitute House Bill No. 1652.

With the exception of Section 2, Substitute House Bill No. 1652 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

Assessing environmental lead paint hazards.

(SEE ALSO PROPOSED 1ST SUB)

Finds that it is in the public interest to assess the risks to children's health caused by exposure to lead in paint and educate property owners about the potential dangers to children from exposure to lead in paint.

Directs the department and the department of health to jointly assess housing stock in Washington state to identify areas of potentially high risk for child lead exposure. In assessing the housing stock, the department and the department of health may use existing data and targeted testing for child lead exposure. The department and the department of health shall report their findings to the appropriate committees of the legislature by December 31, 2005.

Requires the department, in conjunction with the department of health and the department of ecology, to establish a lead paint hazard education and awareness strategy to notify owners of affected property and tenants about the risks of exposure from lead paint.

Companion Bill: 5851

Regarding health care provider right of conscience.

Declares that no physician or health care personnel shall be civilly or criminally liable to any person, estate, public or private entity, or public official by reason of his or her refusal to perform, assist, counsel, suggest, recommend, refer, or participate in any way in any particular form of health care service that is contrary to the conscience of such physician or health care personnel.

Provides that it is unlawful for any person, public or private institution, or public official to discriminate against any person in any manner, including but not limited to, licensing, hiring, promotion, transfer, staff appointment, hospital, managed care entity, or any other privileges, because of such person's conscientious refusal to receive, obtain, accept, perform, assist, counsel, suggest, recommend, refer, or participate in any way in any particular form of health care services contrary to his or her conscience.

Companion Bill: 5938

Creating the joint select committee on equitable opportunity for all.

(SEE ALSO PROPOSED 1ST SUB)

Recognizes that research from the office of the superintendent of public instruction concludes that low-income and minority students encounter fewer opportunities to learn, inadequate instruction and support, and lower expectations from their schools and teachers, and that schools are not sufficiently inclusive of all cultures represented in the state's public schools.

Finds that the academic achievement gap is the result of many factors, including poverty, educational opportunity of parents, recent immigration, family mobility, societal and institutional bias, and the fact that English is not the primary language in many homes.

Finds that in order to close the achievement gap, the educational system will need to change how it approaches learning and teaching through a greater understanding of the impact of language, culture, race, and poverty on student achievement.

Declares that closing the achievement gap will require a comprehensive and coordinated approach designed to: (1) Create more learning environments that are intolerant of racism and exclusion and in which high expectations are held for all students;

(2) Develop curricula and teaching practices that recognize the differences in ethnicity, language, and culture; and

(3) Require that teacher training and professional development programs include opportunities to learn cultural responsiveness skills and effective instructional strategies that are successful in raising the academic achievement of traditionally underachieving students.

Creates the joint select committee on equitable opportunity for all.

Requires the joint select committee to report its findings and recommendations, including a reasonable timeline for implementation that is prioritized based on existing efforts already under way and the resources necessary to fully implement the action item, by September 1, 2006, to the senate committee on early learning, K-12 and higher education and the house of representatives committee on education. The report shall include a determination of the actions and resources necessary to complete the action steps in this act, including whether existing basic education moneys can be used and the amount of additional funding needed.

Repeals and narrows tax incentives for machinery and equipment used to reduce agricultural burning of cereal grains and grass grown for seed for air quality purposes.

Finds that rules enacted to improve air quality in selected parts of eastern Washington created a financial hardship for some growers of cereal grains and grass grown for seed. The legislature

provided tax incentives in 2000 to assist such growers transition to alternative management systems while further improving air quality. Because those incentives have been difficult to administer, the legislature finds that it is necessary to refine and narrow those incentives.

VETO MESSAGE ON HB 1668

May 4, 2005

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 18, House Bill No. 1668 entitled:

Section 18, which amends RCW 9.94A.660, presents an irreconcilable conflict with the provisions of Engrossed Second Substitute House Bill No. 2015. Section 18 is rendered moot by language changes in Engrossed Second Substitute House Bill No. 2015, and has no substantive effect on either bill.

For these reasons, I have vetoed Section 18 of House Bill No. 1668.

With the exception of Section 18, House Bill No. 1668 is approved.

Respectfully submitted,  
 Christine O. Gregoire  
 Governor

Revising regulation of indoor smoking for the purpose of protecting minors and public health.

Provides that, where a designated smoking area, including a lounge or lounge area, is provided for in a place where bingo is conducted for a bona fide charitable or nonprofit organization as authorized under chapter 9.46 RCW, private facility, restaurant, bowling center, or card room or enhanced card room as authorized by this chapter, the area shall be either an enclosed area or the area shall have sufficient negative air pressure between the smoking and nonsmoking areas, which shall be separated by solid walls or windows, exclusive of doors or passageways that extend from the floor to a minimum of five feet in height between the smoking and nonsmoking area, so that environmental tobacco smoke is not permitted to flow into the nonsmoking area from the smoking area at all times.

Requires employers to disclose to a prospective employee that all or a portion of the facility that the prospective employee would work is a designated smoking area.

Provides that employees under the age of eighteen shall not be permitted to enter designated smoking areas at any time.

Declares that the state of Washington fully occupies and preempts the entire field of indoor smoking regulation within the boundaries of the state. Local laws and ordinances that regulate indoor smoking are preempted and repealed.

Provides that, for facilities that possess an occupancy permit from the applicable building official as of June 1, 2005, the requirements of this act apply January 1, 2007. Requiring hospitals to establish a safe patient handling committee.

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires each hospital to establish a written patient care activities program that addresses patient handling with input from the safe patient handling committee to prevent musculoskeletal disorders among health care workers and injuries to patients. As part of this program, a hospital must: (1) Implement a no manual lift policy for all shifts and units of the hospital;

(2) Conduct a patient handling hazard assessment. This assessment should consider such variables as patient-handling tasks, types of nursing units, patient populations, and the physical environment of patient care areas;

(3) Develop a process to identify patients that require the appropriate use of the no manual lift policy;

(4) Train staff on policies and equipment and devices before implementation and at least annually or as changes are made to the patient care activities program or type or make of equipment being used; and

(5) Conduct an annual performance evaluation of the program to prevent musculoskeletal disorders to determine the program's effectiveness according to the reduction of musculoskeletal disorder claims and days of lost work for musculoskeletal disorder purposes and make recommendations to increase the program's effectiveness.

Provides that a hospital employee who refuses a patient care activity due to concerns about either employee or patient safety or the lack of trained lift team personnel or equipment may not, based upon the refusal, be the subject of disciplinary action by the hospital or hospital managers or employees.

Takes effect July 1, 2006.

**HB 1672-S** by House Committee on Commerce & Labor (originally sponsored by Representatives Conway, Hudgins, Green, Cody, Appleton, Morrell, Wood, McCoy, Kenney, Moeller, and Chase)

(DIGEST AS ENACTED)

Provides that, by February 1, 2007, each hospital must establish a safe patient handling committee either by creating a new committee or assigning the functions of a safe patient handling committee to an existing committee. The purpose of the committee is to design and recommend the process for implementing a safe patient handling program. At least half of the members of the safe patient handling committee shall be frontline nonmanagerial employees who provide direct care to patients unless doing so will adversely affect patient care.

Provides that, by December 1, 2007, each hospital must establish a safe patient handling program. As part of this program, a hospital must: (1) Implement a safe patient handling policy for all shifts and units of the hospital. Implementation of the safe patient handling policy may be phased-in with the acquisition of equipment under this act;

(2) Conduct a patient handling hazard assessment. This assessment should consider such variables as patient-handling tasks, types of nursing units, patient populations, and the physical environment of patient care areas;

(3) Develop a process to identify the appropriate use of the safe patient handling policy based on the patient's physical and medical condition and the availability of lifting equipment or lift teams. The policy shall include a means to address circumstances under which it would be medically contraindicated to use lifting or transfer aids or assistive devices for particular patients;

(4) Conduct an annual performance evaluation of the program to determine its effectiveness, with the results of the evaluation reported to the safe patient handling committee. The evaluation shall determine the extent to which implementation of the program has resulted in a reduction in musculoskeletal disorder claims and days of lost work attributable to musculoskeletal disorder caused by patient handling, and include recommendations to increase the program's effectiveness; and

(5) When developing architectural plans for constructing or remodeling a hospital or a unit of a hospital in which patient handling and movement occurs, consider the feasibility of incorporating patient handling equipment or the physical space and construction design needed to incorporate that equipment at a later date.

Provides that a hospital shall develop procedures for hospital employees to refuse to perform or be involved in patient handling or movement that the hospital employee believes in good faith will expose a patient or a hospital employee to an unacceptable risk of injury. A hospital employee who in good faith follows the procedure developed by the hospital in accordance with this provision shall not be the subject of disciplinary action by the hospital for the refusal to perform or be involved in the patient handling or movement.

Provides that, by January 1, 2007, the department shall develop rules to provide a reduced workers' compensation premium for hospitals that implement a safe patient handling program. The rules shall include any requirements for obtaining the reduced premium that must be met by hospitals.

Requires the department to complete an evaluation of the results of the reduced premium, including changes in claim

frequency and costs, and shall report to the appropriate committees of the legislature by December 1, 2010, and 2012.

Reducing the regulatory burden for Washington businesses.

Finds that: (1) There is an alarming increase of rules that duplicate or contradict each other, are outdated, or do more harm than good;

(2) The central function and purpose of government is to protect the basic freedoms of its citizens;

(3) One of the most pressing public issues is the ever-expanding scope and burden of government regulations, and the implications this trend has for the people's economic liberties; and

(4) The development, proposal, and adoption of rules, as well as the existing rules, in this state are in need of careful examination in order to assure that they faithfully execute the laws of the state without unduly burdening the state's economy and imposing needless costs and requirements on the businesses, local governments, and citizens of this state.

Declares an intent to: (1) Direct agencies to analyze the costs and benefits of their rules and to consider using regulatory approaches designed to avoid undue deleterious or overly burdensome impacts on regulated parties, the economy, and the

administration of state and local governmental agencies, to the extent consistent with the objectives of applicable statutes; and

(2) Create a permanent office of regulatory reform within the executive branch to review all state rules and determine which rules duplicate or contradict each other, are no longer needed, or do more harm than good to the public interest.

The orders issued under this act may include, but are not limited to, restraining orders or prohibitions or taking such other actions, including the acceptance of satisfactory performance bonds, or other restraints as the court deems proper. The orders may also include attachment, receivership, the appointment of custodians, accountants, or trustees, or any other action to ensure the maintenance and preservation of the real property subject to forfeiture under RCW 69.50.505.

Provides that the court may issue an order under this act when it determines that: (1) There is a substantial probability that the seizing agency will prevail on the issue of forfeiture and that failure to enter the order would likely result in the property being damaged, subject to foreclosure, or otherwise be unavailable for forfeiture; and

(2) The need to preserve the availability of the property through the issuance of the court order outweighs the hardship on any party against whom the order may operate.

Companion Bill: 5982

Providing access to health insurance for small employers and their employees.

Provides access to health insurance for small employers and their employees.

-- 2005 REGULAR SESSION --

- Feb 1 First reading, referred to Health Care.

**HB 1685** by Representatives Bailey, Curtis, Skinner, Orcutt, Armstrong, Shabro, Strow, Serben, Roach, Rodne, Schindler, and Condotta

Concerning health insurance policy mandates.

(SEE ALSO PROPOSED 1ST SUB)

Provides that, after the effective date of this act, no health carrier may deliver, issue, or renew a health insurance policy that includes any additional coverage mandates, beyond those mandates in effect on the effective date of this act.

**HB 1685-S** by House Committee on Health Care (originally sponsored by Representatives Bailey, Curtis, Skinner, Orcutt, Armstrong, Shabro, Strow, Serben, Roach, Rodne, Schindler, and Condotta)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Directs the office of the insurance commissioner to contract for an independent health care actuarial review of all existing

health care coverage statutory requirements. The review shall determine the cost of including the statutory requirements in a health plan, including the premium cost per member per month; an assessment of the cost-benefit ratio of the statutory requirement and whether the statutory requirement can be correlated to savings in other services; and an assessment of whether market demand has already resulted in inclusion of current statutory requirements in a significant number of health benefit plans in states that do not have such statutory requirements.

Requires an interim report to appropriate committees of the legislature on December 1, 2005, and a final report submitted by December 1, 2006.

Implementing health coverage cost reduction and consumer choice.

Finds that: (1) The cost of health care, along with the number of uninsured persons, is continuing to rise;

(2) Many individuals are uninsured because employers are not given adequate health insurance options that they and their employees can afford;

(3) Due to the increasing number of mandated health benefits, willing small employers are financially unable to provide affordable health insurance to their employees that meets the employees' individual needs;

(4) The purchaser and recipient of health care should have more control over the services and products they purchase; and

(5) It is in the best interest of the people of the state of Washington to contain the significantly increasing costs of malpractice insurance for licensed health care professionals and institutions and noninstitutional care providers in order to ensure the continued availability and affordability of health care services in this state by enacting further reforms to the health care tort liability system.

Declares an intent to: (1) Provide employees with more options in choosing a quality health care plan that meets their individual needs;

(2) Create a moratorium on new mandated health benefits, and require an independent cost-benefit analysis of all current health benefit mandates;

(3) Direct the public employees' benefits board to offer a health savings account option to public employees; and

(4) Enact medical malpractice reforms to stabilize the health care professional liability insurance market, maintain access to affordable quality health care services, and avert the kind of crisis now facing the residents of Washington.

Revising provisions concerning possession of firearms by persons found not guilty by reason of insanity.

(SUBSTITUTED FOR - SEE 1ST SUB)

Revises provisions concerning possession of firearms by persons found not guilty by reason of insanity.

Provides that, if a preponderance of the evidence in the record supports a finding that the person petitioning the court has engaged in violence and that it is more likely than not that the person will engage in violence after his or her right to possess a firearm is restored, the person shall bear the burden of proving by clear, cogent, and convincing evidence that he or she does not present a substantial danger to the safety of others.

Provides that no person who has been found not guilty by reason of insanity may petition a court for restoration of the right to possess a firearm unless the person meets the requirements for the restoration of the right to possess a firearm that would have applied under RCW 9.41.040(4) if the person had been found guilty of the crime.

Creating a task force to review the certificate of need program and the health care facilities bonding program.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that: (1) Since the enactment of certificate of need legislation in 1979, the development of new health care technologies has resulted in significant advancements in the diagnosis and treatment of disease, and has enabled substantial expansion of sites where complex care and surgery can be performed;

(2) New technologies drive substantial health care expenditures. Yet, evidence related to their effectiveness is not routinely or systematically considered in decision making regarding adoption of new technologies. The principles of evidence-based medicine call for comprehensive review of data and studies related to a particular health care service or device, with emphasis given to high quality, objective studies. Findings regarding the effectiveness of these health services or devices are then applied to increase the likelihood that they will be used appropriately;

(3) The standards governing whether a certificate of need should be granted in RCW 70.38.115 focus largely on broad concepts of access to and availability of health services, with only limited consideration of cost-effectiveness. The standards governing whether bonds should be issued to finance development and acquisition of health care facilities and equipment in RCW 70.37.050 are limited to broad concepts of need and feasibility; and

(4) The certificate of need statute and the health care facilities authority bonding program statute should be reexamined and updated to reflect changes in health care delivery and financing since their enactment.

Creates a task force to study and prepare recommendations to the governor and the legislature related to improving and updating the certificate of need program in chapter 70.38 RCW, and the health care facilities bonding program administered by the health care facilities authority in chapter 70.37 RCW. The report must be submitted to the governor and appropriate committees of the legislature by October 1, 2006.

Provides that the department may not issue a certificate of need for any application that was submitted on or after January 1, 2005. This moratorium on the issuance of certificates of need remains in effect until January 1, 2007.

Expires January 1, 2007.

Provides that the authority may not issue bonds for any request submitted on or after January 1, 2005. This moratorium on the issuance of bonds remains in effect until January 1, 2007.

Creating a task force to review health care facilities and services supply issues. (REVISED FOR ENGROSSED: Studying and preparing recommendations to improve and update the certificate of need program.)

(DIGEST AS ENACTED)

Finds that: (1) Since the enactment of certificate of need legislation in 1979, the development of new health care technologies has resulted in significant advancements in the diagnosis and treatment of disease, and has enabled substantial expansion of sites where complex care and surgery can be performed;

(2) New and existing technologies, supply sensitive health services, and demographics have a substantial effect on health care expenditures. Yet, evidence related to their effectiveness is not routinely or systematically considered in decision making regarding widespread adoption of these technologies and services. The principles of evidence-based medicine call for comprehensive review of data and studies related to a particular health care service or device, with emphasis given to high quality, objective studies. Findings regarding the effectiveness of these health services or devices should then be applied to increase the likelihood that they will be used appropriately;

(3) The standards governing whether a certificate of need should be granted in RCW 70.38.115 focus largely on broad concepts of access to and availability of health services, with only limited consideration of cost-effectiveness. Moreover, the standards do not provide explicit guidance for decision making or evaluating competing certificate of need applications; and

(4) The certificate of need statute plays a vital role and should be reexamined and strengthened to reflect changes in health care delivery and financing since its enactment.

Creates a task force to study and prepare recommendations to the governor and the legislature related to improving and updating the certificate of need program in chapter 70.38 RCW. The report must be submitted to the governor and appropriate committees of the legislature by November 1, 2006.

Provides that the act shall be null and void if appropriations are not approved.

**HB 1689** by Representatives Cody, Moeller, Appleton, Morrell, Clibborn, Green, Kenney, Murray, Schual-Berke, and Chase

Concerning dental health services.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares that the following practice, act, and operation is excepted from the operation of the provisions of this chapter: The practice of dentistry by individuals in a postdoctoral dental residency program as provided under RCW 18.32.040 for the duration of the program.

Provides that the commission may accept, in lieu of all or part of the written examination required in this act, a certificate granted by a national or regional testing organization approved by the commission.

Authorizes the commission to accept, in lieu of the practical examination required in this act, proof that an applicant has satisfactorily completed a postdoctoral dental residency program

approved by the commission, of at least one year's duration, in a community health clinic that serves predominantly low-income patients or is located in a dental care health professional shortage area in this state. The commission shall, with the recommendations of the University of Washington dental school, develop criteria for community clinics to use when sponsoring students in a residency program under this subsection, including guidelines for the proper supervision of the resident and measuring the resident's competence to practice dentistry.

**HB 1692** by Representatives Orcutt, Blake, Kretz, DeBolt, Schindler, Condotta, Buck, and Takko

Concerning the management of forest lands by counties.

Provides that land acquired by the state under RCW 79.22.040 and 79.22.100 must be deeded back to the original county by the department when requested to do so by the legislative authority of the county under this act during the time periods established by the department under RCW 79.22.040. Land deeded back to the county is no longer part of the state forest lands, and includes all valuable materials, oils, gases, coals, minerals, or fossils associated with the land.

Provides that the legislative authority of any county that has deeded land to the department of natural resources under RCW 79.22.040 or 79.22.100 may request the department of natural resources to deed that land back to the county during the time periods established for such requests by the department under RCW 79.22.040. If the original land deeded to the department of natural resources has been transferred for other land within the same county, then the county may request the deed of the acquired property to be transferred to the county.

Declares that the county assumes full legal and equitable title to all lands deeded to the county under this act. The lands must be managed for maximum sustained profit as a working forest and be forever reserved from sale.

Provides that any moneys derived from the lease of lands obtained under this act, or from the sale of oils, gases, coal, minerals, fossils, or other valuable materials, as that term is defined in RCW 79.02.010, shall be paid, distributed, and prorated to the various funds in the same manner as general taxes are paid and distributed, except that no distribution may be made to the state general fund. Revenues that would otherwise be dedicated to the state general fund must be redistributed proportionally among the other funds receiving general tax revenue.

Provides that once a county has had land deeded back to it from the department of natural resources under this act, that county may deny any requests made by the department of natural resources under RCW 79.22.040 to have any qualifying lands deeded to the department of natural resources.

Companion Bill: 5673

Changing provisions relating to the high technology business and occupation tax credit.

Provides that, if the department finds that the failure of a taxpayer to file an annual survey under RCW 82.04.4452 by the due date was the result of circumstances beyond the control of the taxpayer, the department shall extend the time for filing the survey. Such extension shall be for a period of thirty days from the date the department issues its written notification to the taxpayer that it qualifies for an extension under this section. The department may grant additional extensions as it deems proper.

Provides that, in making a determination whether the failure of a taxpayer to file an annual survey by the due date was the result of circumstances beyond the control of the taxpayer, the department shall be guided by WAC 458-20-228 relating to the waiver or cancellation of penalties when the underpayment or untimely payment of any tax was due to circumstances beyond the control of the taxpayer.

Declares that persons required to file surveys under RCW 82.04.4452 must electronically file with the department all surveys, returns, and any other forms or information the department requires in an electronic format as provided or

approved by the department, unless the department grants relief under this act.

Provides that, upon request, the department may relieve a person of the obligations in this act if the person's taxes have been reduced a cumulative total of less than one thousand dollars from all of the credits, exemptions, or preferential business and occupation tax rates, for which a person is required to file an annual survey under RCW 82.04.4452, 82.04.4483, 82.04.4484, 82.32.535, 82.32.545, 82.32.570, 82.32.560, 82.60.070, 82.62.050, or 82.63.020.

Provides that a person who owes additional tax as a result of section 3(9)(a), chapter ..., Laws of 2005 (section 3(9)(a) of this act) is liable for interest, but not penalties as provided in RCW 82.32.090 (1) and (2), if the entire additional tax liability is paid in full to the department of revenue before January 1, 2006. Interest shall be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the credit was claimed, and shall accrue until the additional tax is repaid.

Declares that persons who fail to repay the full amount of additional tax owed as a result of section 3(9)(a), chapter ..., Laws of 2005 (section 3(9)(a) of this act) before January 1, 2006, are subject to all applicable penalties and interest as provided in chapter 82.32 RCW on the additional tax owing after December 31, 2005.

Expires December 31, 2010.

Increasing penalties for the violation of certain fish and wildlife provisions.

(SUBSTITUTED FOR - SEE 1ST SUB)

Increases penalties for the violation of certain fish and wildlife provisions.

Creates the fish and wildlife enforcement reward account in the custody of the state treasurer. All receipts from criminal wildlife penalty assessments under RCW 77.15.420 must be deposited into the account.

Provides that expenditures from the account may be used only for investigation and prosecution of fish and wildlife offenses, to

provide rewards to persons informing the department about violations of Title 77 RCW and rules adopted under Title 77 RCW, and for other valid enforcement uses as determined by the commission. Only the director or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

Companion Bill: 5637

Creating the "Health Care Responsibility Act" to expand access to health insurance coverage.

Declares an intent to: (1) Expand access to health care by increasing the number of large employers who provide health benefits to their employees and imposing a fee on large employers who do not offer such benefits. Fee revenues will be used to fund basic health plan coverage for as many employees of employers paying the fee as the fee revenues can support. However, consistent with this act, large employers can reduce or eliminate their fee through expenditures on health services for their employees;

(2) Maintain existing protections in law for persons eligible for medical assistance programs, the state children's health insurance program, and the basic health plan.

Declares it is not the intent to influence the content or administration of employee benefit plans, and the legislature is neutral as to whether large employers choose to pay the tax or provide health services to their employees and dependents.

Regarding medical assistance and physician recruitment.

Declares an intent to preserve the number of private medical practitioners providing essential safety net care to uninsured and medicaid patients by addressing barriers to private practice participation. Private practitioners are critical to preserving health care access for lower-income patients.

Declares an intent to provide targeted economic incentives for private provider participation in safety net care and calls for the streamlining of medicaid administrative procedures and a reduction of the administrative burden on private medical providers.

Requires the department to reverify eligibility for medical assistance on an annual basis.

Provides that the department shall not charge copremiums for medical and dental coverage of children.

Requires the department to upgrade the medicaid management information system and participate in a single secure eligibility verification system used by carriers and health care providers.

Provides that the department shall require health care contractors to develop policies and practices to support collaborative efforts to promote a new model of chronic disease management.

Requires the department to provide retroactive payment to health care providers when patient medicaid eligibility and health contractor verification is not available at the time of service.

Provides that the department shall require health care contractors to have primary care and specialty care networks in place and shall verify the integrity of their primary care and specialty care networks, that those networks are geographically within the service area, and that the providers are actually open to accepting referrals before the department signs or extends contracts. If an out-of-county specialist is needed for a medicaid client because of an inadequate specialist network within the county, written documentation is not required.

Directs the department to develop a grant program to reimburse providers who serve individuals who are medically indigent.

Provides that the department of health shall develop, in consultation with the department of revenue, a program to provide business and occupation tax credits for physicians who serve uninsured and medicaid patients in a private practice or a reduced fee access program for the uninsured and shall submit proposed legislation to the legislature by December 15, 2005.

Regarding dropout prevention.

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires the superintendent of public instruction to review and evaluate promising programs for dropout prevention.

Requires the superintendent to report to the legislature by December 1, 2005, and recommend: (1) The two most promising comprehensive dropout prevention programs that encompass school-wide or district-wide restructuring of the delivery of educational services; and

(2) The two most promising targeted dropout prevention programs designed to provide social and other services in coordination with educational services to students who are at risk of dropping out due to the presence of family, personal, economic, or cultural circumstances.

Directs the superintendent of public instruction to establish school and school district goals addressing high school graduation rates and dropout reduction goals for students in grades seven through twelve. Goals under this section shall require annual uniform incremental growth in graduation rates from all schools and districts beginning in the 2005-06 school year and shall meet or exceed the high school graduation rate requirements under the federal no child left behind act of 2001.

(2) The most promising targeted dropout prevention programs designed to provide social and other services in coordination with educational services to students who are at risk of dropping out due to the presence of family, personal, economic, or cultural circumstances; and

(3) Policy and other changes to enhance the ability of career and technical education and skills center programs to further contribute to dropout prevention efforts.

Finds that the dropout rate of the state's Native American students is the highest in the state. Approximately one-half of all Native American high school students drop out before graduating with a diploma.

Finds that culturally relevant educational opportunities are important contributors to other efforts to increase the rates of high school graduation for Native American students.

Finds that the higher education participation rate for Native American students is the lowest in the state, and that more can be done to encourage Native American students to pursue higher educational opportunities.

Declares an intent to authorize accredited public tribal colleges to participate in the running start program for the purposes of reducing the dropout rate of Native American students and encouraging greater participation rates in higher education.

VETO MESSAGE ON HB 1708-S

April 28, 2005

To the Honorable Speaker and Members,  
 The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 2, Substitute House Bill No. 1708 entitled:

This bill encompasses four activities related to school dropouts: a study of effective school prevention programs and practices, a study of Becca bill issues, changes in enrollment and dropout data collection, and, authorization of accredited public tribal colleges to participate in the Running Start Program.

Section 2 of this bill provides for the Office of the Superintendent of Public Instruction (OSPI), in conjunction with the administrative offices of the courts, to convene a work group to evaluate four items: (1) the implementation of the Becca bill and other school attendance measures with regard consistent implementation and conformance with state law; (2) the definition of excused and unexcused absences; (3) the creation of incentives for school districts to improve student attendance; and (4) data collection requirements related to graduation, dropouts, student transfer and school attendance issues.

Section 2 specifically states that it should be implemented to the extent funds are appropriated. Unfortunately, funding was not appropriated in this legislation or in the 2005-07 appropriations act to carry out the provisions of Substitute House Bill No. 1708. Therefore, I must carefully weigh whether the activities of the bill should be authorized at this time, knowing that resources are scarce.

For these reasons, I have vetoed Section 2 of Substitute House Bill 1708.

With the exception of Section 2, Substitute House Bill No. 1708 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

VETO MESSAGE ON HB 1711-S

May 11, 2005

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 6, Substitute House Bill No. 1711 entitled:

Statutes relating to persons with disabilities are updated to use respectful language and consistency. The term "veteran with disability" in this bill is not consistent with the term "disabled veteran" used in federal law. Therefore, in order to avoid any unintended negative consequences, I am vetoing Section 6 of Substitute House Bill No. 1711.

For these reasons, I have vetoed Section 6 of Substitute House Bill No. 1711.

With the exception of Section 6, Substitute House Bill No. 1711 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

Companion Bill: 5592

Prohibiting smoking in public places.

Recognizes the increasing evidence that tobacco secondhand smoke creates a danger to the health of the citizens of this state. In order to protect the health and welfare of those citizens, it is necessary to prohibit smoking in public places.

Provides that a person who violates RCW 70.160.050 is guilty of an infraction punishable by: (1) A warning to the owner or person in charge for the first violation that occurs within a calendar year;

(2) A fine not exceeding one hundred dollars for a second violation that occurs within a calendar year; and

(3) A fine not exceeding five hundred dollars for each additional violation that occurs within a calendar year.

Declares that nothing in chapter 70.160 RCW prevents a city, town, or county from adopting ordinances more restrictive than this chapter or regulations adopted under this chapter that restrict or prohibit smoking in public places situated within its jurisdiction.

Repeals RCW 70.160.040 and 70.160.060.

Clarifying city monorail transportation authority.

Clarifies city monorail transportation authority.

Provides that an authority may establish, by resolution, a schedule of fines and penalties for civil infractions established in this act. Fines established by a city transportation authority may not exceed those imposed for class 1 civil infractions under RCW 7.80.120.

Provides that persons traveling on monorail trains operated by an authority shall pay the fare established by the authority. They shall produce proof of payment when requested by a person designated to monitor fare payment.

Declares that the following are civil infractions punishable according to the schedule of fines and penalties established by the authority under this act: (1) Failure to pay or attempting to evade payment of the required fare;

(2) Failure to display proof of payment when requested to do so by a person designated to monitor fare payment; and

(3) Failure to leave the monorail train or station when requested to do so by a person designated to monitor fare payment.

Declares that nothing in this act prevents law enforcement authorities from prosecuting for theft, trespass, or other criminal charge a person who: (1) Fails to pay or attempts to evade payment of the required fare on more than one occasion within a twelve-month period;

(2) Fails to sign a notice of civil infraction;

(3) Fails to leave the monorail train or station when requested to do so by a person designated to monitor fare payment; or

(4) Acts or fails to act in violation of law.

Provides that the maximum term of any general obligation or revenue bond issue is the greater of forty years or the maximum period of time permitted by the Internal Revenue Code at the time of financing for tax-exempt financing of the assets being acquired or constructed with the proceeds of the bonds.

Provides that, in order to obtain or renew a vehicle license, an applicant must satisfy all special motor vehicle excise tax obligations with respect to any taxing district in which the applicant primarily resides. If the department or its agents have a reasonable basis to believe that a vehicle registered at an address outside any taxing district is owned by a person whose primary residence address is in that taxing district, then the renewal application may be processed by the department or its agents only if the applicant: (1) Presents evidence reasonably satisfactory to the department or its agents that the applicant's primary residence is not in the taxing district;

(2) Establishes eligibility of the applicant for an exemption from the special motor vehicle excise tax; or

(3) Tenders payment of the applicable special motor vehicle excise tax, including, but not limited to, any such tax that should have been paid with respect to previous renewal periods, files a change of address under RCW 46.20.205, and pays a surcharge of fifteen dollars.

Simplifying the concurrent taxing jurisdictions of the tribal municipalities and the state.

(AS OF HOUSE 2ND READING 3/09/05)

Recognizes that state and tribal jurisdiction to tax the same transaction results in confusion regarding the imposition and collection of tax.

Declares an intent to allow tribal municipalities to contract with the department of revenue for the distribution of tax in the same manner as other cities and towns within the state of Washington.

Declares an intent that the tribal municipal tax be treated the same as a tax imposed by a city or town tax insofar as calculating the percentage of tax to be shared between the county and the city or town.

Provides that, as a pilot project, the department may enter into an interlocal cooperation agreement pursuant to chapter 39.34 RCW with any Indian tribe that has a city, as that term is used in this act, to administer and collect tax under the provisions of RCW 82.14.050 to be levied on activities occurring on federal Indian trust or restricted fee lands within the boundaries of the city as the boundaries are defined by the charter of the city.

Provides that the agreement may also cover additional areas of tax administration, including audit and compliance, and other administrative provisions of chapters 82.03, 82.08, 82.12, and 82.32 RCW, as may be required to simplify tax administration and tax reporting.

Requires the department to report to the legislature by December 1, 2006, regarding the agreement. The report shall contain information on the fiscal impact of the agreement, administrative issues encountered during implementation, any legal issues that need to be addressed in state law, and any other matter significant to the agreement. The report shall contain a recommendation on the feasibility of extending this pilot project.

Preventing and controlling aquatic invasive species and algae.

(SEE ALSO PROPOSED 1ST SUB)

Finds that aquatic invasive species and freshwater aquatic algae are causing economic, environmental, and public health problems that affect the citizens and aquatic resources of our state. Many highly destructive species, such as the zebra mussel, are currently not found in Washington's waters and efforts should be made to prevent the introduction or spread of these aquatic invasive species into our state waters. Preventing new introductions is significantly less expensive and causes far less ecological damage than trying to control new infestations.

Finds that freshwater algae, particularly blue-green algae, are also seriously degrading the water quality and recreational value of a number of our lakes. Blue-green algae can produce toxins that inhibit recreational uses and pose a threat to humans and pets.

Declares an intent to clarify the roles of the different state agencies involved in these issues in order to address the threat of aquatic invasive species and the problem caused by aquatic freshwater algae, and to provide a dedicated fund source to prevent and control further impacts.

Creates the aquatic invasive species prevention account in the state treasury.

Declares that funds in the aquatic invasive species prevention account may be appropriated to the department to develop an aquatic invasive species prevention program for recreational watercraft. Funds must be expended as follows: (1) To inspect watercraft, watercraft trailers, and outboard motors at selected boat launching sites;

(2) To educate general law enforcement officers on how to enforce state laws relating to preventing the spread of aquatic invasive species;

(3) To evaluate and survey the risk posed by marine recreational watercraft in spreading aquatic invasive species into Washington state waters;

(4) To evaluate the risk posed by float planes in spreading aquatic invasive species into Washington state waters; and

(5) To implement an aquatic invasive species early detection and rapid response plan.

Requires the department to submit a biennial report to the appropriate legislative committees describing the actions taken to implement this section along with suggestions on how to better fulfill the intent of this act. The first report is due December 1, 2007.

Creates the freshwater aquatic algae control account in the state treasury.

Provides that funds in the freshwater aquatic algae control account may be appropriated to the department to develop a freshwater aquatic algae control program. Funds must be expended as follows: (1) As grants to cities, counties, tribes, special purpose districts, and state agencies to manage excessive freshwater algae; and

(2) To provide technical assistance to applicants and the public about aquatic algae control.

Requires the department to submit a biennial report to the appropriate legislative committees describing the actions taken to implement this act along with suggestions on how to better fulfill the intent of this act. The first report is due December 1, 2007.

Creates the aquatic invasive species enforcement account in the state treasury.

Provides that funds in the aquatic invasive species enforcement account may be appropriated to the Washington state patrol to develop an aquatic invasive species enforcement program for recreational watercraft. Funds must be expended as follows: (1) To inspect recreational watercraft that are required to stop at port of entry weigh stations managed by the Washington state patrol. The watercraft must be inspected for the presence of zebra mussels and other aquatic invasive species; and

(2) To establish random check stations, in conjunction with the department of fish and wildlife, to inspect watercraft in areas of high boating activity.

Requires the Washington state patrol to submit a biennial report to the appropriate legislative committees describing the actions taken to implement this act along with suggestions on how to better fulfill the intent of this act. The first report is due December 1, 2007.

Requires the department to submit a biennial report to the appropriate legislative committees describing the actions taken to implement this section along with suggestions on how to better fulfill the intent of this act. The first report is due December 1, 2007.

Creates the freshwater aquatic algae control account in the state treasury.

Provides that funds in the freshwater aquatic algae control account may be appropriated to the department to develop a freshwater aquatic algae control program. Funds must be expended as follows: (1) As grants to cities, counties, tribes, special purpose districts, and state agencies to manage excessive freshwater algae; and

(2) To provide technical assistance to applicants and the public about aquatic algae control.

Requires the department to submit a biennial report to the appropriate legislative committees describing the actions taken to implement this act along with suggestions on how to better fulfill the intent of this act. The first report is due December 1, 2007.

Creates the aquatic invasive species enforcement account in the state treasury.

Provides that funds in the aquatic invasive species enforcement account may be appropriated to the Washington state patrol to develop an aquatic invasive species enforcement program for recreational watercraft. Funds must be expended as follows: (1) To inspect recreational watercraft that are required to stop at port of entry weigh stations managed by the Washington state patrol. The watercraft must be inspected for the presence of zebra mussels and other aquatic invasive species; and

(2) To establish random check stations, in conjunction with the department of fish and wildlife, to inspect watercraft in areas of high boating activity.

Requires the Washington state patrol to submit a biennial report to the appropriate legislative committees describing the actions taken to implement this act along with suggestions on how to better fulfill the intent of this act. The first report is due December 1, 2007.

Companion Bill: 5710

Requiring the removal of mercury components from end-of-life motor vehicles.

(SEE ALSO PROPOSED 2ND SUB)

Declares an intent to reduce the quantity of mercury released into the environment by: (1) Removing mercury containing light switches and antilock brake sensors from end-of-life vehicles in the state of Washington; and

(2) Creating a collection and recovery program for mercury-added components removed from vehicles in the state of Washington.

Requires manufacturers to, individually or as part of a group, submit to the department for review and approval a plan to remove, collect, and recover mercury-added components before crushing or shredding motor vehicles. Manufacturers are responsible for ensuring that mercury-added components are properly removed, collected, and recovered from end-of-life vehicles.

Requires every effort to be made by vehicle manufacturers to ensure that mercury-added components are removed from vehicles before they are crushed or shredded.

Requires every manufacturer of motor vehicles sold in this state to, individually or as part of a group, submit a plan to the department, within ninety days of the effective date of this act, describing a program meeting the requirements established in this act.

Provides that a manufacturer subject to this act shall, individually or as part of a group, annually report to the department concerning the performance of the manufacturer's plan. The report must include, but is not limited to: (1) A detailed description and documentation of the capture rate achieved and how and where the mercury was recycled or otherwise appropriately managed;

(2) A plan to implement additional or alternative actions, if necessary, to improve the capture rate.

Declares that a violation of this act is punishable by a civil penalty not to exceed one thousand dollars per violation per day. Penalties collected under this provision must be deposited in the state toxics control account created in RCW 70.105D.070. The civil penalties are in addition to any other penalties authorized under other state or local laws governing the use of mercury in motor vehicles.

**HB 1732** by Representatives Conway, McCoy, Wood, Chase, Campbell, and Santos

Allowing additional industrial insurance benefits when social security benefits are reduced.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that, in cases where a reduction in the federal social security disability benefit entitlement is made retroactively for periods of temporary total or temporary partial disability for which the department also reduced benefit amounts in accordance with this act, changes in the department's calculations, when appropriate, shall be made and additional benefits shall be paid to the worker.

Provides that such additional benefits require a request from the worker and documentation of an overpayment assessment by the social security administration and are paid without interest and without regard to whether the worker's claim with the department is closed.

Applies to all requests for such adjustments which are received, or for which final and binding determinations in response to requests have not been made, by the effective date of this act.

**HB 1732-S** by House Committee on Commerce & Labor (originally sponsored by Representatives Conway, McCoy, Wood, Chase, Campbell, and Santos)

(DIGEST AS ENACTED)

Provides that, if the federal social security administration makes a retroactive reduction in the federal social security disability benefit entitlement of a worker for periods of temporary total, temporary partial, or total permanent disability for which the department or self-insurer also reduced the worker's benefit amounts under this section, the department or self-insurer, as the case may be, shall make adjustments in the calculation of benefits and pay the additional benefits to the worker as appropriate. However, the department or self-insurer shall not make changes in the calculation or pay additional benefits unless the worker submits a written request, along with documentation satisfactory to the director of an overpayment assessment by the social security administration, to the department or self-insurer, as the case may be.

Provides that, by December 1, 2006, the department must report to the appropriate committees of the legislature concerning the benefit adjustments authorized in this act and must include information about similar benefit adjustments, if any, authorized in other states with social security disability benefit offset requirements. The report must include recommendations on whether additional statutory changes might be warranted in light of the actions of the federal social security administration.

Companion Bill: 5802

Requiring pay equity for community and technical college part-time faculty.

(SEE ALSO PROPOSED 1ST SUB)

Finds that Washington's community and technical college system is among the most successful in the nation, enrolling more than sixty percent of postsecondary students and geographically dispersed across the state to offer maximum opportunity for residents to pursue basic skills, academic transfer, work force training, and personal enrichment.

Finds that part-time and adjunct faculty play a significant role in the success of the colleges, teaching nearly half of the overall instructional workload.

Recognizes that in 1996, the legislature directed the state board for community and technical colleges to conduct a best practices audit on compensation practices and working conditions for part-time faculty. The best practices task force developed a ten-year plan to improve the salaries, benefits, working conditions, and ratios of part-time to full-time faculty in the college system. Among the goals of the plan was to reach, at the end of ten years, a level of pay equity for part-time faculty. Although state investments have been made in the intervening years, the goal has not been met.

Declares that, as the ten-year anniversary of the best practices task force approaches, the legislature reaffirms its commitment to part-time faculty at community and technical colleges and to the goals of the best practices task force.

Requires that, in the 2005-07 biennial appropriations act and thereafter, the legislature shall appropriate sufficient funds for allocation to the community and technical colleges for the colleges to implement and maintain pay equity for part-time faculty as described in the final recommendations of the best practices task force convened under RCW 28B.50.4892.

**HB 1733-S** by House Committee on Higher Education & Workforce Education (originally sponsored by Representatives Sells, Dunn, Campbell, Kenney, Fromhold,

Exempting limited water storage facilities from permit requirements.

(SEE ALSO PROPOSED 2ND SUB)

Declares that RCW 90.03.250 and 90.03.370 do not apply to rain barrels, cisterns, and other similar facilities for capturing runoff from roofs, paved areas, and other hard surfaces on a single residential, commercial, or industrial property or public facility when the: (1) Total amount of water storage does not exceed ten thousand gallons; and

(2) Water is intended to be put to beneficial use on the property where the rainwater is collected.

Directs the department to consult with local building permit agencies to monitor the installation of very large capacity rainwater collection systems for any cumulative effect that the systems have on ground water recharge rates and potential impacts upon other well users from the same ground water source.

**HB 1735-S** by House Committee on Economic Development, Agriculture & Trade (originally sponsored by Representatives Hunt, Buck, Williams, Linville, Kenney, Walsh, Wallace, B. Sullivan, Dickerson, McCoy, Chase, Simpson, and Roach)

(SEE ALSO PROPOSED 2ND SUB)

Declares that RCW 90.03.250 and 90.03.370 do not apply to rain barrels, cisterns, and other similar facilities for capturing runoff from roofs, paved areas, and other hard surfaces on a single residential, commercial, or industrial property or public facility when the: (1) Total amount of water storage does not exceed five thousand gallons; and

(2) Water is intended to be put to beneficial use on the property where the rainwater is collected.

Directs the department to consult with local building permit agencies to monitor the installation of very large capacity rainwater collection systems for any cumulative effect that the systems have on ground water recharge rates and potential impacts upon other well users from the same ground water source.

**HB 1735-S2** by House Committee on Economic Development, Agriculture & Trade (originally sponsored by Representatives Hunt, Buck, Williams, Linville, Kenney, Walsh, Wallace, B. Sullivan, Dickerson, McCoy, Chase, Simpson, and Roach)

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Declares that RCW 90.03.250 and 90.03.370 do not apply to rain barrels, cisterns, and other similar facilities for capturing runoff from roofs, paved areas, and other hard surfaces on a single residential, commercial, or industrial property or public facility.

Provides that, in order to qualify for the exemptions created in RCW 90.03.250 and 90.03.370, the owner of a rain barrel, cistern, or other similar water storage facility that has a storage capacity of less than one thousand gallons must intend to put the stored water to beneficial use on the property where the rainwater was collected.

Provides that, in order to qualify for the exemptions created in RCW 90.03.250 and 90.03.370, the owner of a rain barrel, cistern, or other similar water storage facility that has a storage capacity of greater than one thousand gallons must intend to put the stored water to beneficial use on the property where the rainwater was collected and manage the water stored in the facility in compliance with rules developed by the department under this act.

Directs the department to work with the representatives of a broad group of interested parties, individuals with technical expertise, and proponents of rainwater capture and use systems to adopt rules, consistent with chapter 34.05 RCW, that allow for pilot areas to use rainwater collection and use systems with a capacity greater than one thousand gallons, including one pilot area where the use of rainwater collection and use systems is a proposed means of contributing to storm water runoff control and one pilot area located on an island where ground water and surface water availability is limited due to saltwater intrusion. The intent of the pilot areas is to gauge the feasibility of adopting area-specific permits by rule and the impact of rainwater storage and use facilities on the natural hydrologic system.

Requires the department of ecology to report to the appropriate committees of the legislature no later than December 31, 2007, regarding the implementation of this act. After June 1, 2008, the department of ecology shall proceed with permanent rule making to establish exemptions by rule for rainwater systems

consistent with this act unless the legislature acts to direct otherwise.

Companion Bill: 5715

Establishing the joint public health financing committee.

(SEE ALSO PROPOSED 1ST SUB)

Establishes the joint public health financing committee.  
Provides that the committee shall: (1) Analyze the costs and benefits to state government, to private businesses, and to state residents from fully implementing the standards for public health contained in the 2004 public health improvement plan;

(2) Recommend strategies and a schedule for improving public health programs throughout the state according to that plan, including the timing of increased funding for public health services linked to not more than a six-year schedule for full implementation of recommended improvements;

(3) Recommend a source and level of dedicated funding the legislature should provide for public health services. The recommendation shall include methods to ensure that such

funding does not supplant existing federal, state, and local funds received by any element of the public health system; and

(4) Conduct a review of the public health improvement plan as presently authorized in state law and recommend how its needed functions might most efficiently be integrated in the regular functioning of the public health system, and make recommendations about the need to continue requiring a public health improvement plan.

Directs the committee to complete an interim report to the governor and the legislature by December 1, 2005, and a final report by December 1, 2006.

Companion Bill: 5714

Establishing an early detection breast and cervical cancer screening program.

(SEE ALSO PROPOSED 1ST SUB)

Declares an intent to establish an early detection breast and cervical cancer screening program as a voluntary screening program directed at reducing mortalities through early detection to be offered to eligible women only as funds are available.

Requires the department to establish a medical advisory committee composed of interested medical professionals and consumer liaisons with expertise in a variety of areas relevant to breast and cervical health to provide expert medical advice and guidance. The medical advisory committee shall address national, state, and local concerns regarding best practices in the field of early prevention and detection for breast and cervical cancer and assist the early detection breast and cervical cancer screening program in implementing program policy that follows the best practices of high quality health care for clinical, diagnostic, pathologic, radiological, and oncology services.

Modifying senior citizen property tax provisions.

Revises senior citizen property tax provisions.

Provides that the valuation of a residence determined under RCW 84.36.381(7) shall apply for the levies of all taxing districts, unless the legislative authority of a county adopts an ordinance or resolution providing that valuations under RCW 84.36.381(7) do not apply within the county. If such an ordinance or resolution is adopted, valuations under RCW 84.36.381(7) shall not apply to the levy of any taxing district upon property within the county, except the levy by the state. If the ordinance or resolution is repealed, valuation of a residence determined under RCW 84.36.381(7) shall apply for the levies of all taxing districts upon property within the county.

Provides that the levy for a taxing district in any year shall be reduced as necessary to prevent exemptions under RCW 84.36.381(7) from resulting in a higher tax rate than would have occurred in the absence of the exemptions under RCW 84.36.381(7).

**HB 1744** by Representatives Santos, Nixon, P. Sullivan, Appleton, Darneille, Hunt, Ormsby, McCoy, Simpson, Miloscia, Hasegawa, Schual-Berke, and Springer

Providing property tax relief.

Finds and declares that it is in the public interest of the people of the state of Washington to encourage home ownership. To achieve this purpose, this act provides a property tax homestead exemption to help offset the tax impact of rising property values, and thus make home ownership more affordable to low-income and middle-income households.

Declares that it is the clear and unambiguous intent of the legislature that such property as described within this measure be exempt from taxation, as authorized by Article VII, section 1 of the Washington state Constitution.

Providing a financing mechanism to promote economic development.

Provides a financing mechanism to promote economic development.

Declares that bonds issued under RCW 39.89.080 shall be authorized by ordinance of the local governing body and may be issued in one or more series and shall bear such date or dates, be payable upon demand or mature at such time or times, bear interest at such rate or rates, be in such denomination or denominations, be in such form either coupon or registered as provided in RCW 39.46.030, carry such conversion or registration privileges, have such rank or priority, be executed in such manner, be payable in such medium of payment, at such place or places, and be subject to such terms of redemption with or without premium, be secured in such manner, and have such other characteristics, as may be provided by such ordinance or trust indenture or mortgage issued pursuant thereto.

Authorizes the local government to annually pay into a fund to be established for the benefit of bonds issued under this section a fixed proportion or a fixed amount of any tax allocation revenues derived from property or business activity within the increment area containing the public improvements funded by the bonds, such payment to continue until all bonds payable from the fund are paid in full.

Provides that, in case any of the public officials of the local government whose signatures appear on any bonds or any coupons issued under chapter 39.89 RCW shall cease to be such officials before the delivery of such bonds, such signatures shall, nevertheless, be valid and sufficient for all purposes, the same as if such officials had remained in office until such delivery. Any provision of any law to the contrary notwithstanding, any bonds issued under this chapter are fully negotiable.

Declares that a local government that issues bonds under RCW 39.89.080 to finance public improvements may pledge for the payment of such bonds all or part of any tax allocation revenues derived from the public improvements.

Improving procedures for ballot processing and canvassing.

(SEE ALSO PROPOSED 2ND SUB)

Provides for standards that require provisional ballots to be distinguishable from the other ballots and incapable of being tabulated by the poll-site ballot counting device.

Declares that a voter's signature on an absentee or provisional ballot is considered a match if at least three of the following criteria are met: (1) The capital letters match;

- (2) Letters tail off alike;
- (3) Letter spacing is the same;
- (4) The space between the signature and the line is the same;
- (5) The beginning and ending of the signature and the slant are consistent;
- (6) Unique letters in the signature match;
- (7) The overall appearances match.

Provides that, in determining whether a signature on an absentee or provisional ballot matches the signature on the registration file, the age of the voter and the date of the signature on the registration file may also be considered.

Provides that if the voter neglects to sign the outside envelope of an absentee or provisional ballot, the auditor shall notify the voter, either by telephone or by first class mail, and advise the voter of the correct procedures for completing the unsigned affidavit. In order for the ballot to be counted, the voter must either: (1) Appear in person and sign the envelope no later than the day before the certification of the primary or election; or

(2) Sign a copy of the envelope provided by the auditor, and return it to the auditor no later than the day before the certification of the primary or election.

Provides that each poll site ballot that was not tabulated at the poll site, each mail ballot, and each provisional ballot must be manually inspected. Inspection must include both sides of the ballot and each voter response on the ballot.

Provides that only the canvassing board has authority to reject a ballot, or a vote for an office or issue on a ballot, as invalid. The canvassing board may not delegate this authority.

Provides that, as soon as the returns have been received from all the counties of the state, but not later than the thirtieth day after the election, the secretary of state shall canvass and certify the returns of the general election as to candidates for state offices, the United States senate, congress, and all other candidates whose districts extend beyond the limits of a single county. The secretary of state shall transmit a copy of the certification to the governor, president of the senate, and speaker of the house of representatives.

Establishing objectives for certain fire department services.

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires every fire department to include service delivery objectives in the written statement or policy required under this act. These objectives shall include specific response time objectives for the following major service components, if appropriate: (1) Fire suppression;

- (2) Emergency management services;
- (3) Special operations;
- (4) Aircraft rescue and fire fighting;
- (5) Marine rescue and fire fighting; and
- (6) Wild land fire fighting.

Requires every fire department, in order to measure the ability to arrive and begin mitigation operations before the critical events of brain death or flash-over, to establish time objectives for the following measurements: (1) Turnout time;

(2) Response time for the arrival of the first arriving engine company at a fire suppression incident and response time for the deployment of a full first alarm assignment at a fire suppression incident;

(3) Response time for the arrival of a unit with first responder or higher level capability at an emergency medical incident; and  
(4) Response time for the arrival of an advanced life support unit at an emergency medical incident, where this service is provided by the fire department.

Directs every fire department to evaluate its level of service and deployment delivery and response time objectives on an annual basis. The evaluations shall be based on data relating to level of service, deployment, and the achievement of each response time objective in each geographic area within the jurisdiction of the fire department.

Provides that, beginning in 2007, every fire department shall issue an annual written report which shall be based on the annual evaluations required by this act.

**HB 1756-S** by House Committee on Commerce & Labor (originally sponsored by Representatives P. Sullivan, B. Sullivan, Miloscia, Simpson, Nixon, Curtis, Conway, and Wood)

(DIGEST AS ENACTED)

Declares an intent to set standards for addressing the reporting and accountability of substantially career fire departments, and to specify performance measures applicable to response time objectives for certain major services.

Acknowledges the efforts of the international city/county management association, the international association of fire chiefs, and the national fire protection association for the organization and deployment of resources for fire departments.

The arrival of first responders with automatic external defibrillator capability before the onset of brain death, and the arrival of adequate fire suppression resources before flash-over is a critical event during the mitigation of an emergency, and is in the public's best interest. For these reasons, this act contains performance measures, comparable to that research, relating to the organization and deployment of fire suppression operations, emergency medical operations, and special operations by substantially career fire departments. This act does not, and is not intended to, in any way modify or limit the authority of cities and towns to set levels of service.

Companion Bill: 5111

Providing tax incentives for solar energy systems.

Declares that it is of great concern that businesses in this industry have been increasingly expanding and relocating their operations elsewhere. The report indicates that additional incentives for the solar electric industry are needed in recognition of the unique forces and issues involved in business decisions in this industry.

Declares an intent to enact comprehensive tax incentives for the solar electric industry that address activities of the manufacture of these products and to encourage these industries to locate in counties with high unemployment.

Requires that, by November 1, 2010, and November 1, 2013, the joint legislative audit and review committee, in consultation with the department, shall report to the legislature on the effectiveness of this act in regard to keeping Washington competitive.

Requires the report to measure the effect of this act on job retention, net jobs created for Washington residents, company growth, diversification of the state's economy, and other factors as the committee selects. The reports shall include a discussion of principles to apply in evaluating whether the legislature should extend any or all of the tax preferences in this act.

Providing incentives to support renewable energy.

Finds that the use of renewable energy resources generated from local sources such as solar and wind power benefit our state by reducing the load on the state's electric energy grid, by providing nonpolluting sources of electricity generation, and by the creation of jobs for local industries that develop and sell renewable energy products and technologies.

Finds that the state's economy can be enhanced through the creation of incentives to develop additional renewable energy industries in the state.

Declares an intent to provide incentives for the greater use of locally created renewable energy technologies, support and retain existing local industries, and create new opportunities for renewable energy industries to develop in Washington state.

Regarding teacher certification.

Finds that teachers spend four to six or more years in college preparing to enter the classroom. Many teachers enter the profession with master's degrees. In addition to having baccalaureate or advanced degrees, by law new teachers and experienced teachers from out-of-state are required to pass a basic skills test.

Finds that the basic skills testing requirement is duplicative, meaningless, a waste of time, a needless expense, and a barrier to the recruitment of good educators.

Authorizing additional funding for minor league baseball facilities.

Creates the minor league baseball account in the state treasury. During each fiscal year the state treasurer shall deposit in the minor league baseball account all receipts from the state lottery designated for this account under RCW 67.70.240.

Provides that money in the minor league baseball account shall be distributed annually to a governmental agency responsible for the operation of a minor league baseball stadium as defined in this act. Money shall be distributed on a per capita basis based on the population of the city in which the minor league baseball stadium is located as determined by the office of financial management on the effective date of this act.

Declares that money distributed from the minor league baseball account shall be used solely for the purpose of paying for the operation, maintenance, repair, rehabilitation, financing, equipping, and reequipping of a minor league baseball stadium and associated parking facilities.

Declares that three million dollars shall be distributed under this act during the calendar year 2006. During subsequent years, the distribution shall equal the prior year's distributions increased by four percent.

Provides that distributions under this act shall cease at the latter of: The date when distributions cease under RCW 67.70.240(4) or fifteen years from the effective date of this act.

Authorizes the legislative authority of a county in which a minor league baseball team plays in an existing minor league baseball stadium to impose a special stadium sales and use tax upon retail car rentals within the county that are taxable by the state under chapters 82.08 and 82.12 RCW.

Authorizes the legislative authority of a city or town in which a minor league baseball team plays in an existing minor league baseball stadium to impose a tax of up to one cent on twenty cents or fraction thereof to be paid by the person who pays an admission charge to the events in the minor league baseball stadium. The tax authorized in this provision may also be imposed on any parking charges or fees imposed in parking facilities associated with the minor league baseball stadium.

**HB 1777** by Representatives Schual-Berke, Cody, Darneille, Ormsby, Morrell, Green, and Springer

Creating a task force to study alternatives for resolving disputes related to injuries resulting from health care.

Finds that there has been significant controversy regarding the most appropriate means to resolve disputes related to injuries occurring as a result of health care, and that an impartial examination of all of the issues surrounding resolution of these disputes is needed.

Declares that, through the establishment of a joint task force, the legislature intends to provide for an impartial examination of issues surrounding resolution of disputes related to injuries occurring as a result of health care, with the goal of developing recommendations for prompt resolution of these disputes that provides equitable results for all of the individuals and entities involved.

Requires the task force to submit its report to the governor and appropriate committees of the legislature no later than November 1, 2006.

**HB 1781** by Representatives Schual-Berke, Morrell, and Green

Creating an alternative disciplinary process for physicians and physician assistants.

Finds that professional discipline is a critical function of ensuring quality health care for the people of the state of Washington, and that an alternative disciplinary process for some professions will strengthen that process.

Provides that, for license holders and applicants under chapter 18.71 or 18.71A RCW, the disciplining authority shall file the statement of charges with the superior court in the county in which the license holder provided the care or committed the act that is the subject of the complaint.

Authorizes a complainant dissatisfied with the decision of the disciplining authority regarding a license holder or applicant under chapter 18.71 or 18.71A RCW to appeal that decision to the prosecuting attorney in the county in which the license holder provided the care or committed the act that is the subject of the complaint.

Provides that, if the prosecuting attorney determines, upon investigation, that there is reason to believe a violation of RCW 18.130.180 has occurred, a statement of charge or charges shall be prepared and served upon the license holder or applicant at the earliest practical time.

Declares that the decision of the prosecuting attorney as to filing charges is final and may not be appealed by the complainant or disciplining authority in any forum.

Directs the prosecuting attorney to file the statement of charges with the superior court.

Provides that, if a disciplinary authority under RCW 18.130.090 or a prosecuting attorney under this act files a statement of charges in superior court, the superior court shall serve as the disciplinary authority for purposes of RCW 18.130.160 and shall serve as the hearing authority for purposes of RCW 18.130.170(1).

Provides that the superior court shall hold hearings requested under RCW 18.130.090 or section 3 of this act in accordance with the civil and related rules of the superior courts.

Directs the superior court to grant an expedited hearing upon a petition filed by: (1) The disciplinary authority or county prosecutor on the grounds of jeopardy to the health and safety of patients caused by delay; or

(2) The license holder on the grounds of undue prejudice caused by delay.

Provides that appeals from the decision of the superior court are governed by the court rules governing appeals in civil matters from the superior courts.

Setting a competitive minimum wage rate.

Provides that the adjusted minimum wage rate may not exceed seven dollars and thirty-five cents or one hundred twenty-five percent of the average state minimum wage rate, whichever is greater. However, in no case shall the adjusted minimum wage rate be less than seven dollars and thirty-five cents.

Declares that "average state minimum wage rate" means the sum of the minimum wage rates set pursuant to state law and in effect on each September 1st in each of the fifty states divided by fifty. If there is not a minimum wage rate set pursuant to state law in one or more states, the average rate is calculated using the minimum wage rate set pursuant to section (6)(a)(1) of the fair labor standards act of 1938, as amended (29 U.S.C. Sec. 206(a)(1)), in place of a minimum wage rate set pursuant to state law in each of those states.

Creating a developmental disabilities community trust account.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares that the December 4, 2002, capital study of the division of developmental disabilities residential habilitation centers by the joint legislative audit and review committee identifies options to dispose of excess property at Lakeland Village, Rainier School, and Yakima Valley School that would not impact current residential habilitation center operations.

Declares an intent to allow use of these excess capital properties at residential habilitation centers for persons with developmental disabilities and to place the proceeds from their use into a perpetual trust account for unserved persons with developmental disabilities waiting for community-based developmental disability services.

Provides that excess property identified in the 2002 joint legislative audit and review committee capital study of the division of developmental disabilities residential habilitation centers must be managed to provide as much income as feasible and this income deposited into the developmental disabilities community trust account created in this act. Income may come from lease of the land, conservation easements, sale of timber, or other activities short of sale of the property.

Requires the department to report on its efforts and strategies to provide income to the developmental disabilities community trust account from the excess property identified in this act from the lease of the property, sale of timber, or other activity short of sale of the property. The department shall report by June 30, 2006.

Creates the developmental disabilities community trust account in the state treasury. All income from the use of excess property identified in the 2002 joint legislative audit and review committee capital study of the division of developmental disabilities residential habilitation centers, any building, facility, or tract of land not held in trust at any of the residential habilitation centers identified in this chapter, or sale of timber on these excess lands, must be deposited into this account.

Defining the parameters of the use of force and physical restraint in the common schools.

Finds that preserving a safe and beneficial learning environment for all students requires the establishment and enforcement of appropriate student discipline policies.

Acknowledges that school district boards of directors may find it necessary to employ school security personnel or to rely upon school resource officers in order to preserve a safe and beneficial learning environment within certain schools.

Encourages schools and districts to consider school discipline and security models in which counselors and prevention/intervention specialists, along with school building administrators and other school security personnel, if employed, and school resource officers, if present, are trained and work as teams of experts in diffusing anger, de-escalating conflict, and reducing violent behavior within their schools.

Declares that, except as provided in this act, the use of physical restraint in the public schools is limited to the use of reasonable force under the following circumstances only: (1) The person's behavior poses a threat of imminent, serious, physical harm to self or to others; and

(2) Nonphysical interventions would not be effective in removing the imminent threat of harm.

Provides that the use of physical restraint in the common schools is prohibited in the following circumstances: (1) As a means of punishment; or

(2) As a disciplinary response to destruction of school property, disruption of school or classroom order, noncompliance

with a school rule or staff directive, or communication of a verbal threat that does not constitute a threat of imminent, serious, physical harm.

Does not prohibit: (1) The use of physical restraint when such use is permitted or required by and is consistent with a student's 504 plan or individual education plan;

(2) The right of any individual to report to appropriate authorities a crime committed by a student or other individual; or

(3) Commissioned law enforcement officers, including school resource officers, or judicial authorities from exercising their authority or executing their responsibilities, including the physical detainment of a student or other person.

Expanding access to baccalaureate degree programs.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that, the higher education coordinating board has developed a strategic master plan for higher education that sets a goal of increasing the number of students who earn college degrees at all levels: Associate, baccalaureate, and graduate. The strategic master plan also sets a goal to increase the higher education system's responsiveness to the state's economic needs.

Finds that to meet both of the master plan's goals and to provide adequate educational opportunities for Washington's citizens, additional access is needed to baccalaureate degree programs. Expansion of the four campuses is one strategy for achieving the desired outcomes of the master plan. Other strategies must also be implemented through service delivery

models that reflect both regional demands and statewide priorities.

Declares an intent to increase baccalaureate access and encourage economic development through overall expansion of upper division capacity, continued development of two plus two programs in some areas of the state, authorization of four-year university programs in other areas of the state, and creation of new types of baccalaureate programs on a pilot basis. These steps will make significant progress toward achieving the master plan goals, but the legislature will also continue to monitor the development of the higher education system and evaluate what additional changes or expansion may be necessary.

Finds that access to baccalaureate and graduate degree programs continues to be limited for residents of North Snohomish, Island, and Skagit counties. Studies conducted by the state board for community and technical colleges, the higher education coordinating board, and the council of presidents confirm that enrollment in higher education in this geographic region lags enrollment in other parts of the state, particularly for upper division courses leading to advanced degrees.

Declares an intent to refocus the consortium by assigning management and leadership responsibility for consortium operations to Everett Community College. Everett Community College shall collaborate with community and business leaders, other local community colleges, the regional universities, and The Evergreen State College to develop an educational plan for the North Snohomish, Island, and Skagit county region based on the university center model. The plan should provide for coordinated delivery of lower and upper division courses, expanded availability of high demand degree and certificate programs in the region, and a timeline and cost estimates for moving the physical location of the consortium to the college campus. The college shall submit preliminary recommendations to the higher education and fiscal committees of the legislature by December 1, 2005.

Requires the higher education coordinating board to define potential outcomes resulting from this act and develop performance measures for those outcomes, including but not limited to increased numbers of baccalaureate degrees awarded; expansion of upper division and graduate capacity at the University of Washington Bothell and Tacoma and Washington State University Tri-Cities and Vancouver; enhanced regional access to baccalaureate programs; and creation and award of applied baccalaureate degrees. The board shall provide a progress report on the outcomes to the higher education committees of the senate and the house of representatives by December 1, 2008.

Companion Bill: 5774

Modifying employee wage and benefit provisions.

Requires employers to determine the average tipped wage rate for each tipped employee for the previous calendar month. If the average tipped wage rate does not equal or exceed the adjusted minimum wage rate under RCW 49.46.020(4)(b) for any tipped employee, the employer shall pay the tipped employee an amount equal to the number of hours worked for the previous calendar month multiplied by the adjusted minimum wage rate under RCW 49.46.020(4)(b) less the average tipped wage rate for the tipped employee for the previous calendar month. Employers shall pay the tipped employee this amount at any time during the month subsequent to the month used for the calculation under this provision.

Requires employers to contribute monthly, an amount equal to fifty percent of the adjusted minimum tipped wage rate under RCW 49.46.020(4)(c) multiplied by the total number of hours

worked during the previous calendar month by all tipped employees, for the provision of one or more of the following employee benefits: (1) Health care benefits for all employees;

(2) Wages in excess of the adjusted minimum wage rate for nontipped employees; or

(3) Employee meals, paid vacation leave, paid sick leave, and any other nonwage benefits deemed appropriate as provided in rule by the director.

Applies only to employers paying tipped employees the wage rate established in RCW 49.46.020(4)(c).

Modifying motorist information sign panel regulatory provisions.

(DIGEST AS ENACTED)

Provides that the department of transportation shall not include the logo "RV" under RCW 47.36.310 and 47.36.320 unless a business or destination requests an "RV" logo and the department determines that the gas, food, or lodging business or the camping or tourist activity destination provides parking spaces, overhang clearances, and entrances and exits designed to accommodate recreational or other large vehicles.

Authorizes the department to charge a reasonable fee in accordance with RCW 47.36.310 or 47.36.320 to defray the costs associated with the installation and maintenance of signs with "RV" logos.

Requires the department of transportation to submit an electronic report by December 15, 2005, to the house of representatives and senate transportation committees detailing revenues and expenditures of the motorist information sign program. The report shall also include a detailed explanation of the methodology and calculation of costs charged to businesses using the program.

Concerning park rangers employed by the parks and recreation commission.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares that park rangers vested with police powers by the commission shall enforce Title 79A RCW, rules of the commission, and other statutes as prescribed by the legislature. When prescribed by the commission, park rangers shall have and exercise, throughout the state, such police powers and duties as are vested in sheriffs and peace officers generally.

Requires an applicant for a park ranger position to be a citizen of the United States of America who can read and write the English language. All park rangers hired after the effective date of this act are law enforcement personnel as defined in RCW 43.101.010(4).

Requires such park rangers to successfully complete the basic law enforcement academy course, known as the basic course, sponsored by the criminal justice training commission, or the basic law enforcement equivalency certification, known as the equivalency course, provided by the criminal justice training commission.

Declares that nothing in this act or RCW 10.93.020 confers membership to such officers in the Washington law enforcement officers' and fire fighters' retirement system under chapter 41.26 RCW.

Provides that park rangers may serve and execute warrants and processes issued by the courts.

**HB 1799-S** by House Committee on Criminal Justice & Corrections (originally sponsored by Representatives B. Sullivan and Upthegrove)

Creating a task force on public recreational lands and public safety. (REVISED FOR PASSED LEGISLATURE: Creating a task force on state public recreational lands and public safety.)

(DIGEST AS ENACTED)

Creates the task force on state public recreational lands and public safety.

Requires the task force to conduct a comprehensive review of law enforcement issues in and around state parks and lands, including but not limited to: (1) The extent to which illegal activity in and around state parks and lands threatens public safety and natural resources; and

(2) The ability of the current state and local law enforcement to respond to illegal activity on or near public recreational lands.

Provides that, by December 15, 2005, the task force shall provide a final report of its recommendations, including any draft legislation to implement the recommendations. The report shall be submitted to the chief clerk of the house of representatives and the secretary of the senate.

VETO MESSAGE ON HB 1799-S

May 11, 2005

To the Honorable Speaker and Members,  
 The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 1, Engrossed Substitute House Bill No. 1799 entitled:

Section 1 of Engrossed Substitute House Bill No. 1799 states the Legislature's finding that "law enforcement functions at state parks and lands are insufficient to adequately protect the public and our natural resources." I agree that the safety of people, property, and natural resources on our public lands is important, and that more can be done to improve safety. But I have high regard for our park rangers and others who enforce the laws and protect our public lands, and do not believe the Legislature's conclusion is warranted. I am also concerned such language, while not so intended, could be misused to increase taxpayers' liability for harm that should be the responsibility of those who violate our laws.

For these reasons, I have vetoed Section 1 of Engrossed Substitute House Bill No. 1799.

With the exception of Section 1, Engrossed Substitute House Bill No. 1799 is approved.

Respectfully submitted,  
 Christine O. Gregoire  
 Governor

**HB 1800** by Representatives Kilmer, Crouse, and Chase

Requiring the utilities and transportation commission's adjudicative proceedings be open.

Finds that the participation of the utilities and transportation commission or its staff in settlement conferences that are not open to other parties undermines the public faith in the commission and that it is in the public interest to require the commission and its

staff to ensure that such settlement conferences are open to all parties appearing in the proceeding.

Declares an intent that nonsettling parties' due process rights be protected.

Providing a property tax exemption for nonprofits that assist small businesses.

(SEE ALSO PROPOSED 2ND SUB)

Finds that nonprofit organizations and associations engaged in the education, training, and employment of economically disadvantaged people who are involved in the creation and expansion of businesses with marketable products and services in a physical location provide many public benefits to the people of the state of Washington.

Finds that it is in the best interest of the state of Washington to provide a limited property tax exemption for the use of these

facilities by certain organizations in order to be self-sustaining for their exempt purposes.

Declares that the real and personal property owned or used by a nonprofit organization is exempt from taxation if the property is used to: (1) Assist startup and expanding businesses by providing education, training, and employment of economically disadvantaged people; and

(2) Provide shared use of equipment and work areas and daily technical resources and daily management support services that enable small startup and expanding businesses to become successful.

Requires the organization or association to meet all of the additional following conditions: (1) The organization is organized and conducted for nonsectarian purposes.

(2) The organization is qualified for exemption under section 501(c)(3) of the federal internal revenue code.

(3) The organization is governed by a volunteer board of directors of at least five members.

Requires that, in 2010, any nonprofit organization claiming the exemption under this act must report to the department the number of businesses served by the nonprofit and the types of services provided. Nonprofits failing to report to the department are ineligible for the exemption under this act. The department shall compile the information and share it with the appropriate committees of the legislature.

Expires in 2015.

Ending homelessness in the state of Washington.

Finds that there are many causes of homelessness, including a shortage of family-wage jobs which undermines housing affordability; a lack of an accessible and affordable health care system available to all who suffer from physical and mental illnesses and chemical and alcohol dependency; and a lack of education and job skills necessary in the economy of the twenty-first century.

Declares that, while the provision of housing and housing-related services to the homeless should be administered at the local level to best address specific community needs, the legislature recognizes the need for systematic statewide data collection on homelessness in Washington, including the number and geographic location of homeless persons. In order to truly end homelessness, there must also be a clear assignment of responsibilities, a clear statement of achievable and quantifiable goals, systematic collection and rigorous evaluation of the data, a search for and implementation through adequate resource allocation of best practices, and systematic measurement of progress toward interim goals and the ultimate goal of ending homelessness in Washington by July 1, 2015.

Creates within the department the homeless housing program to develop and coordinate a statewide strategic plan, and to create resources targeted to providing all homeless individuals and families with decent permanent housing. The department and all Washington county governments share the responsibility for ending homelessness in the state of Washington within ten years. The program will be developed and administered by the department with advice and input from the affordable housing advisory board established in RCW 43.185B.020.

Provides that, six months after the first Washington homeless census, the department shall prepare and present a ten-year homeless housing program strategic plan which will outline statewide goals and performance measures. This plan shall be updated annually and will be annually reviewed and approved by the governor. The department's updated plans will subsequently be released each June. Local governments will base their local ten-year homeless housing strategic plans upon the goals and program recommendations of the state plan.

Requires the department to issue by rule mandatory homeless housing program performance measures that shall apply to both the department for statewide outcomes and local governments for local outcomes. The performance measures may consist of, but are not limited to, the following: (1) By the end of year one a comprehensive census shall be finalized and will report on all homeless individuals in the state of Washington;

(2) By the end of year two, all individuals classified as homeless in the first Washington homeless census will be housed in at least temporary housing, which could include emergency shelters or other indoor facilities;

(3) By the end of year four, twenty-five percent of all individuals classified as homeless in all Washington homeless

census counts since the effective date of this act will be housed in long-term private or public housing;

(4) By the end of year six, fifty percent of all individuals classified as homeless in all Washington homeless census counts since the effective date of this act will be housed in long-term private or public housing;

(5) By the end of year eight, seventy-five percent of all individuals classified as homeless in all Washington homeless census counts since the effective date of this act will be housed in long-term private or public housing; and

(6) By the end of year ten, and in each subsequent year, one hundred percent of all individuals classified as homeless in all Washington homeless census counts since the effective date of this act will be housed in long-term private or public housing.

Requires the department to report annually to the governor and the appropriate committees of the legislature an assessment of its performance in addressing the statewide homeless problem, and the performance of each county, and other participating local government entities, in addressing local homeless housing issues.

Companion Bill: 5446

Licensing soil scientists.

Finds it is in the public interest to regulate the practice of soil science in order to protect life, property, health, and to promote public welfare; to define the practice of soil science as a profession by establishing minimum standards of ethical conduct and professional responsibility and by establishing professional education and experience requirements; and to prevent abuses in the practice of soil science by untrained or unprincipled individuals.

Creates an advisory committee to provide recommendations to the board and the director concerning the administration of this act.

Requires the advisory committee to make recommendations to the board regarding: (1) Developing and adopting rules to administer this chapter including, but not limited to, evaluating the experience, scope, and standards of practice of soil science;

(2) Reviewing complaints and investigations pertaining to the practice of soil science; and

(3) Performing other duties deemed necessary by the director or the board.

Declares that the director has the following authority in administering this act: (1) To adopt, amend, and rescind rules approved by the board as deemed necessary to carry out this chapter;

(2) To adopt fees as provided in RCW 43.24.086;

(3) To administer licensing examinations approved by the board and to adopt or recognize examinations prepared by other organizations as approved by the board;

(4) To adopt standards of professional conduct and practice as approved by the board; and

(5) To enter into an assurance of discontinuance in lieu of issuing a statement of charges or conducting a hearing. The assurance must consist of a statement of the law in question and an agreement to not violate the stated provision. Violation of an assurance under this provision is grounds for disciplinary action.

Provides that, in order to become a licensed soil scientist, an applicant must meet the following requirements: (1) An applicant who applies for soil scientist licensing before July 1, 2006, is considered qualified for licensing, without further written examination, if the applicant possesses the specific record of being a current soil science society of America certified professional soil scientist or certified professional soil classifier in good standing.

(2) On or after July 1, 2006, in order to become a licensed soil scientist, an applicant must: (a) Be of good moral and ethical character as attested to by letters of reference submitted by the

applicant or as otherwise determined by the board; (b) have graduated from a course of study in soil science satisfactory to the board or satisfy educational equivalents determined by the board; (c) have a documented record of a minimum of five years of experience obtained after the completion of the academic requirements specified in this section, in soil science work of a character satisfactory to the board, demonstrating that the applicant is qualified to assume responsible charge of such work upon licensing as a soil scientist. The board requires that three years of the experience be gained under the supervision of a soil scientist licensed in this or any other state, or under the supervision of others who, in the opinion of the board, are qualified to have responsible charge of soil science work; (d) pass an examination covering the fundamentals and practice of soil science prescribed or accepted by the board; and (e) meet other general or individual requirements established by the board under its authority under this act.

Improving recycling.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares an intent to clarify methods to improve recycling in Washington state, and to further the purposes in RCW 70.95.020 and the goals of the state solid waste management plan adopted by the department of ecology under RCW 70.95.260.

Provides that a transporter may not collect recyclable materials from generators within the state without first obtaining a transporter permit from the department. A transporter permit must be issued for a period of one year, beginning January 1st and ending December 31st.

Declares that nothing in this act prevents the operation of a recycling company or nonprofit entity from collecting and transporting recyclable materials from a buyback center, drop box, or from a commercial or industrial generator of recyclable materials.

Provides that a transporter who collects recyclable materials within the state without a transporter permit required by this section is guilty of a misdemeanor.

Requires all recycling facilities to register with the department, except for facilities that are required to obtain a solid waste handling permit under RCW 70.95.170. No recycling facility may accept recyclable materials from a transporter within the state without having obtained a solid waste handling permit from the department or obtaining a registration under this section. A registration must be issued for a period of one year, beginning January 1st and ending December 31st.

Requires every recycling facility to prepare and submit an annual report to the department and the local health department that has jurisdiction over the recycling facility. The report is due by April 1st and must be submitted on forms supplied by the department.

Providing funding for local public health obligations.

Finds that the public health system as defined in RCW 43.70.575 is essential to fulfilling the state's responsibility to protect the health and safety of its citizens.

Finds that local public health departments lack adequate resources even as their duties increase. Rather than risk catastrophic loss of life, the legislature further finds that local public health departments must immediately be given the resources to effectively implement the specific public health improvement standards concerning threats to our drinking water and food supplies, communicable disease, and other first-responder duties unique to local public health departments, pursuant to the requirements in RCW 43.70.520.

Appropriates the sum of ten million dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2006, from the general fund to the department of health for state funding the local public health standards adopted in the public health services improvement plan pursuant to RCW 43.70.520(8). The funds will support local public health departments' obligations concerning health data and information that individuals and communities can use; chronic and infectious disease surveillance; rapid response to outbreaks of communicable disease; efforts to prevent and control specific communicable diseases, such as tuberculosis, West Nile virus, acquired immune deficiency syndrome, and influenza; and local public health district programs to ensure the safety of drinking water and food supplies.

Changing provisions relating to sealing felony records that have been vacated.

Declares that it is the policy of the state of Washington to encourage and contribute to the rehabilitation of felons and to assist them in the assumption of the responsibilities of citizenship.

Recognizes that the opportunity to secure employment or to pursue, practice, or engage in a meaningful and profitable trade, occupation, vocation, profession, or business is an essential ingredient to rehabilitation and the assumption of the responsibilities of citizenship. To this end, it is important for the offender to be able to respond to employment inquiries according to RCW 9.94A.640(3) without fear of being contradicted by a court file disclosing the vacated conviction.

Provides that, when a court vacates a record of conviction under this act, the court may order the court clerk to seal the court file as provided for under court rules, without requiring the offender to demonstrate compelling circumstances. The order to seal the court file may allow the deletion of the offender's name in the case index and the substitution of the offender's name with his or her initials.

**HB 1822** by Representatives Kagi and Dickerson  
 Phasing-out the use of toxic shot.

Finds that hunters and other outdoor sports enthusiasts play a critical role in wildlife conservation efforts and the sound stewardship of the state's wildlife resources. However, the use of shotgun shells that contain lead poses a threat to the very habitat on which many wildlife species depend, including game species. The lead in the shot is a toxic material that, when dispersed across a habitat, can contaminate the state's waters and poison its wildlife.

Finds that the role of the hunting community in conservation should continue to be supported and encouraged without diminishing hunting opportunities. To support this goal, the use of the most toxic substances should gradually be phased out of use on Washington's state-owned lands.

Provides that, beginning January 1, 2006, it is unlawful to possess or use toxic shot on any land owned by the state that is located in department game management units four, five, or six.

Provides that, beginning January 1, 2007, it is unlawful to possess or use toxic shot on any land owned by the state that is located in department game management units one, two, or three.

Provides that, beginning January 1, 2008, it is unlawful to use toxic shot when hunting with a license issued by the department under chapter 77.32 RCW.

Declares that a violation of this act is a natural resources infraction under chapter 7.84 RCW.

Assisting the economic development of underserved rural communities by assisting an owner or operator that has discontinued using an underground petroleum storage tank.

(SUBSTITUTED FOR - SEE 1ST SUB)

Assists the economic development of underserved rural communities by assisting an owner or operator that has discontinued using an underground petroleum storage tank.

Appropriates the sum of one million dollars, or as much thereof as may be necessary, from the pollution liability insurance program trust account for the biennium year ending July 1, 2007, to carry out the purposes of RCW 70.148.130(2)(b). The director or director's designee shall administer the distribution of these funds. A maximum of ten percent of the funds appropriated may be used for administrative costs associated with the program.

Expires June 1, 2007.

Providing financial assistance for the costs of underground petroleum storage tanks in rural communities.

(DIGEST AS ENACTED)

Provides that a grant of financial assistance may also be made to an owner or operator that has discontinued using underground petroleum storage tanks due to economic hardship. An owner or operator may receive a grant up to two hundred thousand dollars per retailing location if: (1) The property is located in an underserved rural area;

(2) The property was previously used by a private owner or operator to provide motor vehicle fuel; and

(3) The property is at least ten miles from the nearest motor vehicle fuel service station.

Expires June 1, 2007.

VETO MESSAGE ON HB 1823-S

May 13, 2005

To the Honorable Speaker and Members,  
 The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 3, Substitute House Bill No. 1823 entitled:

This bill provides financial assistance grants to operators who have discontinued using underground storage tanks. Rural

Washingtonians often drive long distances to refuel their vehicles, and I can appreciate the hardship that results from the closure of gas stations in remote areas of our state. Section 3 of the bill would authorize the Pollution Liability Insurance Agency to expend one million dollars during the 2005-07 Biennium for a financial assistance grant program, and would cap administrative costs at ten percent of the funds appropriated. The agency already has authority to expend non-appropriated funds for the grant program, so this section is not necessary. Further, since no funds have been appropriated for the grant program, the wording of this language would effectively prohibit the agency from making any expenditure for grant administration. To fulfill the Legislature's intent regarding the size of this program and limits on administrative expenses, I hereby direct the agency to expend no more than one million dollars for the grant program during 2005-07, and to limit its administrative costs to no more than ten percent of grant expenditures.

For these reasons, I have vetoed Section 3 of Substitute House Bill No. 1823.

With the exception of Section 3, Substitute House Bill No. 1823 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

Providing a source of funding for customized work force training.

(SEE ALSO PROPOSED 1ST SUB)

Declares an intent to create a new program to fund work force training through the sale of bonds. The bonds themselves will be paid by the earmarking of the state business and occupation tax and public utility tax that is imposed on participating employers.

Creates the Washington customized employment training program to allow employers locating or expanding in the state to receive training assistance to provide training for employees.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that the availability of a trained work force is critical to attracting and retaining businesses.

Finds that the growth of many businesses is limited by an unmet need for training. Furthermore, training not only helps business, it also improves the quality of life for workers and communities. Because of the statewide public benefit to be gained from instituting a customized training program, the legislature intends to create a new program to fund work force training in a

manner that reduces the up-front costs of training to expanding firms.

**HB 1830-S** by House Committee on State Government Operations & Accountability (originally sponsored by Representatives Hunt, Jarrett, Morrell, McDonald, Pettigrew, Hasegawa, Eickmeyer, Clibborn, Simpson, and Ericks)

Establishing an independent oversight committee on traditional and alternative public works contracting procedures. (REVISED FOR ENGROSSED: Establishing the capital projects review board.)

(DIGEST AS ENACTED)

Creates the capital projects advisory review board in the department of general administration to provide an evaluation of public capital projects construction processes, including the impact of contracting methods on project outcomes, and to advise the legislature on policies related to alternative public works delivery methods.

Provides that the capital projects advisory review board has the following powers and duties: (1) Develop and recommend to the legislature criteria that may be used to determine effective and feasible use of alternative contracting procedures;

(2) Develop and recommend to the legislature qualification standards for general contractors bidding on alternative public works projects;

(3) Develop and recommend to the legislature policies to further enhance the quality, efficiency, and accountability of capital construction projects through the use of traditional and alternative delivery methods in Washington, and make recommendations regarding expansion, continuation, elimination, or modification of the alternative public works contracting methods;

(4) Evaluate the potential future use of other alternative contracting procedures including competitive negotiation contracts.

Provides that, notwithstanding any other provision of law, and after complying with RCW 39.10.030, any city that: (1) is located in a county authorized under this chapter to use alternative public works procedures or is located in a county that is a member of the Puget Sound regional council; (2) reports in the state auditor's local government financial reporting system combined general fund, special revenue, debt service, capital projects, and enterprise funds revenues that exceed sixty million dollars; and (3) has a population greater than twenty-five thousand but less than forty-five thousand, is authorized to use the general contractor/construction manager or design-build procedure for one demonstration project valued over ten million dollars.

Requires all contracts authorized under this act to be entered into before March 1, 2006.

Provides that the act shall be null and void if appropriations are not approved.

Providing incentives for improved job training and placement services.

(SEE ALSO PROPOSED 1ST SUB)

Finds that assisting recipients of the WorkFirst program and other individuals who are seeking jobs with job training and job placement services is critical to supporting the self-sufficiency of families as well as the economic well-being of the state. Job training and placement services are currently offered through multiple agencies and programs, each with their own eligibility requirements and funding sources.

Declares an intent to improve the efficiency and effectiveness of job training and placement services for recipients of the WorkFirst program and other individuals who are seeking jobs by integrating the delivery of those services in communities across the state.

Requires the board to include in its planning requirements for local work force investment boards a requirement that local work force investment boards specify how the job training and placement services under P.L. 105-220, or its successor, and the job training and placement services provided through the WorkFirst program are to be integrated.

Establishes an incentive program in the governor's office for integrating the delivery of job training and placement services for recipients of the WorkFirst program and other individuals who are seeking jobs.

Authorizes local work force investment boards to apply, in partnership with the WorkFirst program and other partners in the one-stop system, to receive funding under the incentive program. In applying for funding, the local work force investment boards shall clearly demonstrate the approach to integration of job training and placement services that they will undertake.

Using performance measures for budgeting decisions.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that although state agencies have established missions, goals, and objectives to aid in self-assessment and budget development, this process requires further priority setting. First, state agencies must provide policymakers with focus on the agencies' priority performance measures. Second, legislators require the opportunity to review agencies' proposed priority performance measures in light of the state's priorities and the statutory purposes and policy goals of the programs. Third, legislative and executive policymakers require quantifiable, objective data that are measurable over time in order to gauge whether progress is being made toward agencies' goals. Specifically, budget managers and the legislature must have the data to move toward better statewide results that produce the intended public benefit.

Declares that, by compiling reliable data on valid performance measures for the state's policy priorities, legislative and executive policymakers will be able to make better budgeting decisions.

Provides that, after the office of financial management submits proposed priority performance measures to the legislative fiscal committees under RCW 43.88.030, the proposed priority performance measures are subject to legislative review as provided in this act.

(1) Upon receipt of the governor's proposed priority performance measures, the legislative fiscal committees shall distribute the measures among the appropriate legislative committees for those committees' review.

(2) The legislative committees shall review the proposed priority performance measures for policy and program priority, measurability, specificity, objectivity, and conformance with statutes and legislative intent.

(3) The legislative committees shall recommend any revisions to the proposed priority performance measures to the legislative fiscal committees. The legislative fiscal committees must consider the proposed revisions and may adopt different or additional revisions, based on the state's policy and program priorities and fiscal constraints.

(4) The house of representatives and the senate shall adopt the priority performance measures prior to executive action on omnibus operating and transportation appropriations legislation in the respective bodies.

(5) The legislature shall adopt final priority performance measures by concurrent resolution.

Provides that the joint legislative evaluation and accountability program committee, in consultation with the joint legislative audit and review committee, shall compile, validate, and create a data base of historical information on priority performance measures established under RCW 43.88.090(3).

Provides that the office of financial management shall compile data on agencies' progress toward meeting priority performance measures. The office of financial management shall report the data to the legislative evaluation and accountability program committee on a semiannual basis.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that although state agencies have established missions, goals, and objectives to aid in self-assessment and budget development, this process requires further priority setting. First, state agencies must provide policymakers with focus on the agencies' priority performance measures. Second, legislators require the opportunity to review agencies' proposed priority performance measures in light of the state's priorities and the statutory purposes and policy goals of the programs. Third, legislative and executive policymakers require quantifiable, objective data that are measurable over time in order to gauge whether progress is being made toward agencies' goals. Specifically, budget managers and the legislature must have the data to move toward better statewide results that produce the intended public benefit.

Declares that, by compiling reliable data on valid performance measures for the state's policy priorities, legislative and executive policymakers will be able to make better budgeting decisions.

Provides that, by October 1st of each odd-numbered year, beginning in 2005, the office of financial management must submit proposed priority performance measures to the legislative fiscal committees under RCW 43.88.030. The proposed priority performance measures are subject to legislative review as provided in this act.

(1) Upon receipt of the governor's proposed priority performance measures, the legislative fiscal committees shall distribute the measures among the appropriate legislative committees for those committees' review.

(2) The legislative committees shall review the proposed priority performance measures for policy and program priority, measurability, specificity, objectivity, and conformance with statutes and legislative intent.

(3) The legislative committees shall recommend any revisions to the proposed priority performance measures to the legislative fiscal committees. The legislative fiscal committees must consider the proposed revisions and may adopt different or additional revisions, based on the state's policy and program priorities and fiscal constraints.

(4) The legislative fiscal committees, individually or jointly during the regular session in each even-numbered year, beginning in 2006, shall adopt priority performance measures during an executive session and shall forward these to the office of financial management for inclusion in the biennial budget process. By July 1st of each even-numbered year, the office of financial management shall report to the legislative fiscal committees regarding any changes the office makes to the priority performance measures adopted by the legislative fiscal committees under this provision.

Provides that the joint legislative evaluation and accountability program committee, in consultation with the joint legislative audit and review committee, shall compile, validate, and create a data base of historical information on priority performance measures established under RCW 43.88.090(3).

Provides that the office of financial management shall compile data on agencies' progress toward meeting priority performance measures. The office of financial management shall report the data to the legislative evaluation and accountability program committee on a semiannual basis.

**HB 1834-S2** by House Committee on Appropriations (originally sponsored by Representatives McIntire, Anderson, Kessler, Conway, Fromhold, Clements,

Kagi, Linville, Jarrett, Hunter, Tom, Hinkle, Upthegrove, Kilmer, Wood, and Santos)

(AS OF HOUSE 2ND READING 2/14/06)

Finds that state agencies have established missions, goals, and objectives to aid in self-assessment and budget development. Legislators need key performance measures that help them assess the degree to which the state is achieving the results citizens need from their government. To accomplish this, both legislative and executive policymakers require quantifiable, objective data that are measurable over time in order to gauge whether progress is being made toward the state's goals. Specifically, budget managers and the legislature must have the data to move toward better statewide results that produce the intended public benefit. In addition, reliable data on valid performance measures for the state's policy priorities will help legislative and executive policymakers make better budgeting decisions.

Provides that, by October 1st of each odd-numbered year, beginning in 2007, the office of financial management shall ensure that current key performance measures are made available to the legislative fiscal committees under RCW 43.88.030. The key performance measures are subject to legislative review as provided in this act.

Requires the legislative fiscal committees, individually or jointly during the regular session in each even-numbered year, beginning in 2008, to adopt key performance measures during an executive session and shall forward these to the office of financial management for inclusion in the office of financial management performance measure data base.

Requires the office of financial management to maintain data on progress toward meeting key performance measures. The office of financial management shall make these data available to the legislative evaluation and accountability program committee.

Strengthening the state expenditure limit.

Provides that, if the cost of any state program or function is shifted to the state general fund on or after January 1, 2005, from another source of funding, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), shall increase the state expenditure limit to reflect the shift. However, the limit may be increased for such a program cost shift only if: (1) The legislature requires the deposit in the general fund of an ongoing revenue source that would otherwise be deposited in the fund or account that previously supported the program, in an amount equal to the cost of the program shifted; and

(2) The redirection of the ongoing revenue source takes effect on the same date that the cost of the program is shifted.

Providing for child witnesses.

(DIGEST AS ENACTED)

Provides that, on motion of the prosecuting attorney in a criminal proceeding, the court may order that a child under the age of ten may testify in a room outside the presence of the defendant and the jury while one-way closed-circuit television equipment simultaneously projects the child's testimony into another room so the defendant and the jury can watch and hear the child testify if: (1) The testimony will: (a) Describe an act or attempted act of sexual contact performed with or on the child witness by another person or with or on a child other than the child witness by another person; (b) describe an act or attempted act of physical abuse against the child witness by another person or against a child other than the child witness by another person; or (c) describe a violent offense as defined by RCW 9.94A.030 committed against a person known by or familiar to the child witness or by a person known by or familiar to the child witness.

Provides that a child witness may or may not be a victim in the proceeding.

Declares that nothing in this act precludes the court from allowing a child to testify outside the presence of the defendant

and the jury so long as the testimony is presented in accordance with the standards and procedures required in this act.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides dedicated funding from the water quality account for lake restoration and management.

Provides that at least twenty-five percent of the moneys deposited into the account for the centennial clean water act grant program established in this act shall be allocated for freshwater systems during the bienniums ending in 2007 and 2009. The priority for these funds shall be establishment and implementation of a comprehensive lake restoration and management program. These moneys may be used for efforts related to: Lake restoration; improvement of lake water quality; control of lake eutrophication; clearing, prevention, and control of algae and harmful algal blooms in lakes; and eradication and prevention of invasive plant and animal species in lakes.

Directs the department of ecology to prepare a report for the appropriate committees of the legislature, by January 1, 2009, that evaluates if there is a need and demand for continued funding of the lake restoration and management program as provided in RCW 70.146.030.

Companion Bill: 5659

Authorizing renewable energy tax credits.

Finds that: (1) Washington's utilities have been historical leaders in developing low-cost renewable hydroelectric energy, greatly benefiting the state economy;

(2) Washington has a long tradition of energy policies that support renewable resource development. These policies, which include financial incentives, have stimulated economic development, encouraged the development of renewable resources within the state, and protected the environment;

(3) Continuing and expanding financial and other incentives will stimulate the market for renewable energy technologies and renewable resources, helping to diversify the energy resources used to serve Washington's consumers while hedging against future fuel price risk;

(4) Fuel diversity, economic, and environmental benefits from renewable resources accrue to the public at large, and therefore it is the policy of the state of Washington to encourage consistent development of these resources to meet the state's electric demand and stabilize electricity prices.

Provides that, on or before December 1, 2007, and every two years thereafter, the department shall submit a report to the legislature on the amount of incentives provided for renewable resources, the amount of renewable resources produced by each type of renewable resource generation facility, the name and location of each generating facility, and the participating electric utilities.

Modifying requirements for security guard training. (REVISED  
FOR ENGROSSED: Requiring DOL to conduct a review of  
annual postassignment training of security guards.)

(AS OF HOUSE 2ND READING 2/14/06)

Revises requirements for security guard training.

Finds that the functions served by private security companies  
and their employees provide important safety for the public and  
that changes in regulating this profession should be undertaken  
with a goal of promoting public safety. Therefore, the department  
of licensing shall undertake a review, using as a guide the  
requirements of chapter 18.118 RCW to the extent appropriate, of  
the following: (1) The need for annual postassignment training of  
private security guards that covers review and practice of security  
guard skills taught by department-certified trainers;

(2) Whether various levels of postassignment training may be  
appropriate for private security guards employed in various types  
of work, as listed in RCW 18.170.010(18), depending on their  
assigned duties;

(3) The need for private security companies to maintain  
records of postassignment training of private security guards and,  
if so, for what period of time; and

(4) The need for civil penalties to enforce compliance with the  
training requirements for private security guards.

Directs the department to report the results of the study and  
its recommendations to the appropriate committees of the  
legislature by January 1, 2007.

Creating a retired volunteer medical worker license.

(SUBSTITUTED FOR - SEE 1ST SUB)

Authorizes the secretary to issue a retired volunteer medical  
worker license to any applicant who: (1) Has held an active  
license issued by a disciplining authority under RCW 18.130.040  
no more than ten years prior to applying for an initial license  
under this act;

(2) Does not have any current restrictions on the ability to  
obtain a license for violations of chapter 18.130 RCW;

(3) Submits proof of registration with a local community  
organization that is registered with the United States department  
of health and human services to provide medical services during  
an emergency or disaster or local public health jurisdiction  
program to coordinate responses to an emergency or disaster.

Provides that license holders under this act must be supervised  
and may only perform duties corresponding to the scope of  
practice associated with the active license that they had prior to  
retirement.

Provides that a person who holds a retired volunteer medical  
worker license issued under this act who provides assistance  
during an emergency or disaster, as defined in RCW 38.52.010,  
while at the scene, an alternative care site, a hospital site, en route  
to such a site, or while participating in an approved training for an  
emergency or disaster, without compensation or the expectation  
of compensation and within the scope of their assigned duties and  
under the direction of the local organization with which he or she  
has been registered, shall not be liable for civil damages resulting  
from any act or omission in the rendering of such assistance or in  
transporting such persons, other than acts or omissions  
constituting gross negligence or willful or wanton misconduct.

Creating a boater safety education program.

(SEE ALSO PROPOSED 1ST SUB)

Declares an intent to establish a boater safety education program that contributes to the reduction of accidents and increases the enjoyment of boating by all operators of all recreational vessels on the waters of this state.

Authorizes the commission to work with agencies and organizations representing nonmotorized vessel activities and individuals operating nonmotorized vessels to decrease accidents of operators in these vessels.

Encourages boating safety programs that use volunteer and private sector efforts to enhance boating safety and education for operators of nonmotorized vessels to work closely with the state parks and recreation commission in its efforts to reduce all boating accidents in this state.

Provides that, as part of the boating safety education program, the commission shall establish a program to be phased over eleven years starting July 1, 2005, with full implementation by January 1, 2016. The period July 1, 2005, through December 31, 2007, will be program development, boater notification of the new requirements for mandatory education, and processing cards to be issued to individuals having taken an approved course prior to January 1, 2008.

Creates the boating safety education certification account within the state treasury. All receipts from fees collected for the issuance of a boater safety education card shall be deposited in the boating safety education certification account and shall be appropriated only to the state parks and recreation commission to be used only for the administration of this act. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares an intent to establish a boater safety education program that contributes to the reduction of accidents and increases the enjoyment of boating by all operators of all recreational vessels on the waters of this state.

Authorizes the commission to work with agencies and organizations representing nonmotorized vessel activities and individuals operating nonmotorized vessels to decrease accidents of operators in these vessels.

Encourages boating safety programs that use volunteer and private sector efforts to enhance boating safety and education for operators of nonmotorized vessels to work closely with the state parks and recreation commission in its efforts to reduce all boating accidents in this state.

Requires the commission to establish and implement by rule a program to provide required boating safety education. The boating education program shall include training on preventing the spread of aquatic invasive species.

Provides that, as part of the boating safety education program, the commission shall establish a program to be phased over eleven years starting July 1, 2005, with full implementation by January 1, 2016. The period July 1, 2005, through December 31, 2007, will be program development, boater notification of the new requirements for mandatory education, and processing cards to be issued to individuals having taken an approved course prior to January 1, 2008.

**HB 1854** by Representatives Lantz, Priest, Haler, Walsh, and

Changing procedures on the withholding of the driving privilege.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that the safety of the highways of this state is materially  
affected by the degree of compliance with state laws and local  
ordinances relating to the operation of motor vehicles. Drivers  
who commit traffic violations, ignore notices from courts, and  
fail to resolve notices of traffic infraction and citations all show  
their disrespect for traffic laws that exist to ensure safety on the  
highways.

Declares that an essential mechanism for ensuring that drivers  
comply with the traffic laws of this state is the swift and certain  
suspension of the driving privileges of a driver who fails to  
respond to a notice of traffic infraction, fails to appear at a  
requested hearing, violates a written promise to appear in court,  
fails to pay a fine or monetary penalty imposed as the result of a  
traffic violation, or otherwise fails to comply with the terms of a  
notice of traffic infraction or citation.

Finds that large numbers of drivers who fail to fulfill their  
obligations to respond and comply with notices of traffic  
infraction and citations, or otherwise fail to fulfill obligations of  
similar import, creates a significant threat to public safety.

Declares therefore, there is a compelling state interest in  
having a mechanism to withhold driving privileges which also  
provides necessary due process protections as economically and  
expeditiously as possible.

Finds that this compelling state interest can best be served by  
having any necessary administrative review conducted by the  
department of licensing in a manner that provides due process,  
while maximizing the use of documentary evidence to simplify  
and expedite those proceedings.

**HB 1854-S** by House Committee on Judiciary (originally  
sponsored by Representatives Lantz, Priest, Haler,  
Walsh, and Williams)

Changing provisions relating to withholding of driving privileges.

(DIGEST AS ENACTED)

Provides that, whenever the department proposes to withhold  
the driving privilege of a person or disqualify a person from  
operating a commercial motor vehicle and this action is made  
mandatory by the provisions of this act or other law, the  
department must give notice to the person in writing by posting in  
the United States mail.

Provides that within fifteen days after notice has been given to  
a person under this act, the person may request in writing an  
administrative review before the department.

Declares that an administrative review under this act shall  
consist solely of an internal review of documents and records  
submitted or available to the department, unless the person  
requests an interview before the department, in which case all or  
any part of the administrative review may, at the discretion of the  
department, be conducted by telephone or other electronic means.

Declares that the only issues to be addressed in the  
administrative review are: (1) Whether the records relied on by  
the department identify the correct person; and

(2) Whether the information transmitted from the court or  
other reporting agency or entity regarding the person accurately  
describes the action taken by the court or other reporting agency  
or entity.

Provides that whenever a monetary penalty, fee, cost,  
assessment, or other monetary obligation is imposed by a court  
under this act it is immediately payable. If the court determines,  
in its discretion, that a person is not able to pay a monetary  
obligation in full, and not more than one year has passed since the  
later of the effective date of this act or the date the monetary  
obligation initially became due and payable, the court shall enter  
into a payment plan with the person, unless the person has  
previously been granted a payment plan with respect to the same  
monetary obligation, or unless the person is in noncompliance of  
any existing or prior payment plan, in which case the court may,  
at its discretion, implement a payment plan.

Provides that, if a person has not entered into a payment plan  
with the court and has not paid the monetary obligation in full on  
or before the time established for payment, the court shall notify  
the department of the delinquency. The department shall suspend  
the person's driver's license or driving privilege until all monetary  
obligations have been paid, or until the person has entered into a  
payment plan under this act.

Creating the Washington birth-related injury compensation association.

Finds that: (1) Physicians and advanced registered nurse practitioners practicing obstetrics are high-risk medical specialists for whom malpractice insurance premiums are very costly, and recent increases in such premiums have been greater for such physicians than for other physicians.

(2) Because obstetric services are essential and the state of Washington currently pays for almost half of the births in the state through its medical assistance programs, it is incumbent upon the legislature to provide a plan designed to result in the stabilization and reduction of malpractice insurance premiums for providers of obstetric services in Washington.

(3) The costs of birth-related injury claims are particularly high and warrant the establishment of a limited system of compensation irrespective of fault. The issue of whether such claims are covered by this chapter must be determined exclusively in an administrative proceeding.

Declares an intent to provide compensation, on a no-fault basis, for a limited class of birth-related injuries that result in high costs for custodial care and rehabilitation. This plan applies only to birth-related injuries.

Establishes the Washington birth-related injury compensation plan for the purpose of providing compensation, irrespective of fault, for birth-related injury claims. The plan applies to births occurring on or after January 1, 2007, and is administered by the Washington birth-related injury compensation association.

Declares that the rights and remedies granted by this plan on account of a birth-related injury that is covered by this act are exclusive and preclude all other rights and remedies at common law or otherwise of the claimant arising out of or related to a medical negligence claim with respect to the injury against any person or entity directly involved in the labor, delivery, or immediate postdelivery resuscitation during which the injury occurs.

Declares that a civil action is not foreclosed under this act when: (1) There is a preponderance of the evidence showing that the acts or omissions of the hospital, childbirth center, physician, or advanced registered nurse practitioner were made in bad faith or with malicious purpose or willful or wanton disregard of human rights, safety, or property; and

(2) The suit is filed prior to and in lieu of payment of an award under this act.

Limiting the use of expert witnesses.

(SEE ALSO PROPOSED 1ST SUB)

Declares that in any action under chapter 7.70 RCW, each side shall presumptively be entitled to only two independent experts on an issue, except upon a showing of good cause. Where there are multiple parties on a side and the parties cannot agree as to which independent experts will be called on an issue, the court, upon a showing of good cause, shall allow additional experts on an issue to be called as the court deems appropriate.

Requires that in an action under chapter 7.70 RCW, all parties shall submit a pretrial expert report pursuant to time frames provided in court rules. The expert report must disclose the identity of all expert witnesses and state the nature of the opinions the expert witnesses will present as testimony at trial. Further depositions of these expert witnesses is prohibited.

Provides that the testimony that an expert witness may present at trial is limited in nature to the opinions disclosed to the court as part of the pretrial expert report.

Restricting use of highly toxic pesticides.

Declares that the purpose of this act is to protect Washington  
 farm workers from highly toxic pesticides in the workplace.

Finds that: (1) Certain pesticides dispersed in Washington  
 workplaces are highly toxic even in small amounts. Exposure to  
 these pesticides may result in severe illness and may cause long-  
 lasting effects;

(2) There are less toxic substitutes for many highly toxic  
 pesticides;

(3) Principles of workplace safety support the substitution of  
 less toxic materials or alternative practices, where available, in  
 order to protect workers from exposure to highly toxic  
 substances; and

(4) Principles of workplace safety should be applied to the  
 handling and dispersed use of highly toxic pesticides by requiring  
 substitution of less toxic substances or alternative practices, where  
 available, and by promoting the development of alternative  
 substances or practices in cases where they are not currently  
 available.

Companion Bill: 5449

Providing lien authority to the department of ecology to facilitate  
the recovery of remedial action costs under the model toxics  
control act.

(SEE ALSO PROPOSED 1ST SUB)

Declares that it is in the public interest for the department to  
recover remedial action costs incurred in discharging its  
responsibility under this chapter, as these recovered funds can  
then be applied to the cleanup of other facilities. Thus, in addition  
to other cost-recovery mechanisms provided under chapter  
70.105D RCW, this act is intended to facilitate the recovery of  
state funds spent on remedial actions by providing the department  
with lien authority. This will also prevent a facility owner or  
mortgagee from gaining a financial windfall from increased land  
value resulting from department-conducted remedial actions at the  
expense of the state taxpayers.

Provides that, if the state of Washington incurs remedial  
action costs relating to a remedial action of real property, and  
those remedial action costs are unrecovered by the state of  
Washington, the department may file a lien against that real  
property.

Creating the registered interior designer professionals act of 2005.

(SEE ALSO PROPOSED 1ST SUB)

Provides that, in order to safeguard human health, safety, and property, and to promote public welfare, any person in either a public or private capacity using the title of registered interior designer is required to submit evidence that he or she is qualified under the provisions of this act.

Declares that an applicant may qualify for registration as a registered interior designer if the applicant pays any applicable fee established by the department and shows to the satisfaction of the department that the applicant: (1) Has a current certificate number issued by the national council for interior design qualification; and

(2) Has six years' combined work experience and formal education in interior design from an accredited degree program.

Provides that the department shall grant a certificate of registration to an applicant who meets the requirements of this act beginning July 1, 2006. After July 1, 2007, a person may not use the title "registered interior designer" in this state or any other title, designation, sign, card, or device indicating that the person is a registered interior designer unless he or she is registered under this act.

Requires an interior designer registered under this act to complete ten hours of continuing education instruction every two years. The department shall develop by rule a form to verify continuing education.

Provides that a person who violates a provision of this act or a rule adopted under it is guilty of a misdemeanor and may also be subject to a civil penalty in an amount not to exceed five thousand dollars for each offense.

Requires the department to issue a cease and desist order to any individual who is not registered under this act and holds himself or herself out as a "registered interior designer."

Directs the office of the superintendent of public instruction to report by July 1, 2006, to the transportation committees of the legislature regarding the expenditure of the funds collected through the fee created in this act. The report will include, but not be limited to, information regarding: (1) The number of students in each school district that applied for scholarships to driver training schools licensed under chapter 46.82 RCW;

(2) The number of students in each school district that received scholarships to driver training schools licensed under chapter 46.82 RCW;

(3) The dollar amount of the scholarship offered in each school district;

(4) The percentage of students in each school district that enrolled in a school district-provided traffic safety education course; and

(5) The number of students that enrolled in driver training schools licensed under chapter 46.82 RCW.

Provides that each school district will offer to students the option of either enrolling in a school district-provided traffic safety education course or receiving a scholarship of an equivalent amount to enroll in any drivers' school licensed under chapter 46.82 RCW, based on available funds received under this act.

Provides that, in accordance with funding received under this act, the board shall set a reduced fee for students qualified to receive school lunches on a reduced-cost or free basis.

Providing for collection of oral histories about Hood Canal.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that the factors contributing to Hood Canal's low dissolved oxygen problems are complex and that investigation is needed to understand both the problem and its potential solutions.

Finds that a historical perspective is important in understanding Hood Canal's problems.

Recognizes the tribal elders and other long-term residents of the Hood Canal area are a great source of knowledge regarding the history of Hood Canal.

Finds these tribal elders and others may provide critical insight into the history, impacts, and potential causes of the low dissolved oxygen concentrations occurring in Hood Canal.

Declares an intent to initiate a process for university students to interview tribal elders and others who have knowledge of the history of conditions along Hood Canal to collect information regarding the history and impacts of Hood Canal's low dissolved oxygen concentrations.

Declares an intent that these interviews and the information learned be preserved as part of the state's oral history program.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that the adoption of practices to select, procure, and use environmentally preferred products will benefit the environment and the health and safety of workers and visitors to state facilities.

Requires the department of general administration, in consultation with the department of health and the department of ecology, to provide consultation and guidance to state agencies to: (1) Select and procure products and use practices that reduce or minimize the risks of harmful effects to employees, custodial workers, visitors, and other building occupants and to the environment;

(2) Promote adoption of practices endorsed by this act;

(3) Recognize state agencies that adopt and implement environmentally beneficial facility and workplace management policies and practices;

(4) Encourage contractors supplying goods and services to state agencies to select and procure such products; and

(5) Encourage lessors and building managers who provide leased space to state agencies to select and procure such products.

Encourages local governments and school districts to review their purchasing and use of cleaning products and select those having properties that minimize potential impacts to human health and the environment consistent with this act. The department of general administration shall encourage local governments and school districts that are members of the department of general administration's state purchasing cooperative to achieve the goals of this act.

Requires state agencies to transition to cleaning products having properties that minimize potential impacts to human health and the environment within six months of the effective date of this act in a manner that avoids waste of existing inventories, accommodates establishment of supply chains for new products, enables the training of personnel in appropriate work practices, and allows the phase out of products and practices inconsistent with this act.

Provides that damages to a consumer resulting from the practices prohibited by this act are up to five hundred dollars per violation, or actual damages, whichever is greater.

Declares an intent that chapter 19.190 RCW is a matter of statewide concern. This chapter supersedes and preempts all rules, regulations, codes, ordinances, and other laws adopted by a city, county, city and county, municipality, or local agency regarding the practices covered by this chapter and notices to consumers from computer software providers regarding information collection.

Clibborn, Ericks, Williams, Darneille, Dunn, Dickerson, P. Sullivan, Green, and Hudgins)

Regulating internet fraud.

(DIGEST AS ENACTED)

Declares that it is a violation of chapter 19.190 RCW to solicit, request, or take any action to induce a person to provide personally identifying information by means of a web page, electronic mail message, or otherwise using the internet by representing oneself, either directly or by implication, to be another person, without the authority or approval of such other person.

Provides that a person who is injured under chapter 19.190 RCW may bring a civil action in the superior court to enjoin further violations, and to seek up to five hundred dollars per violation, or actual damages, whichever is greater.

Provides that a person engaged in the business of providing internet access service to the public, an owner of a web page, or trademark owner who is adversely affected by reason of a violation of this act, may bring an action against a person who violates this act to: (1) Enjoin further violations of this act; and

(2) Recover the greater of actual damages or five thousand dollars per violation of this act.

Finds that the practices covered by this chapter are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. A violation of this chapter is not reasonable in relation to the development and preservation of business, and is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW.

Declares an intent that chapter 19.190 RCW is a matter of statewide concern. This chapter supersedes and preempts all rules, regulations, codes, ordinances, and other laws adopted by a city, county, city and county, municipality, or local agency regarding the practices covered by this chapter and notices to consumers from computer software providers regarding information collection.

Requiring the disclosure of gifts made by pharmaceutical manufacturers to persons who prescribe prescription drugs.

Declares that the purpose of this act is to require disclosure and reporting of gifts, grants, and gratuities made by pharmaceutical manufacturers, directly or indirectly, to any person or entity authorized to prescribe, dispense, or purchase prescription drugs in Washington.

Requires that, on or before January 1st of each year, every pharmaceutical manufacturing company must disclose to the board the value, nature, and purpose of any gift, fee, or payment made to any person or entity licensed under Title 18 RCW who is authorized to prescribe or dispense prescription drugs, hospital licensed under chapter 70.41 RCW, health benefit plan administrator, group purchasing organization or pharmacy benefit manager, or other entity authorized to purchase prescription drugs in this state.

Requires initial disclosure to be made on or before January 1, 2007, for the twelve-month period ending June 30, 2006. The board must provide to the office of the attorney general complete access to the information required to be disclosed and report annually on the disclosures made under this section to the legislature and the governor on or before March 1st.

Requires each company subject to the provisions of this act to also disclose to the board, on or before October 1, 2005, and annually thereafter, the name and address of the individual responsible for the company's compliance with the provisions of this act.

Authorizes the attorney general to bring an action in Thurston county superior court for injunctive relief, costs, and attorneys' fees, and to impose on a pharmaceutical manufacturing company that fails to disclose as required by this act a civil penalty of not more than ten thousand dollars per violation. Each unlawful failure to disclose constitutes a separate violation.

Companion Bill: 5779

Modifying the business and occupation taxation of slaughtering, breaking, and/or processing perishable meat products.

(SEE ALSO PROPOSED 1ST SUB)

Declares that, in 1967, the legislature amended RCW 82.04.260 in chapter 149, Laws of 1967 ex. sess. to authorize a preferential business and occupation tax rate for slaughtering, breaking, and/or processing perishable meat products and/or selling the same at wholesale.

Finds that RCW 82.04.260 was interpreted by the state supreme court on January 13, 2005, in Agrilink Foods, Inc. v. Department of Revenue, Docket No. 74478-5. The supreme court held that the preferential business and occupation tax rate on the slaughtering, breaking, and/or processing of perishable meat products applied to the processing of perishable meat products into nonperishable finished products, such as canned food.

Declares that the sole purpose of chapter 149, Laws of 1967 ex. sess. as codified in RCW 82.04.260 has always been to create a preferential business and occupation tax rate for the slaughtering, breaking, or processing of perishable meat products and/or selling the finished perishable meat products at wholesale. The intent was not to allow the preferential tax rate for the processing of perishable meat products into nonperishable finished products or selling the nonperishable finished products at wholesale.

Declares that the purpose of this act is to make retroactive, remedial, curative, and technical amendments to clarify the intent of chapter 149, Laws of 1967 ex. sess. and RCW 82.04.260 and resolve any ambiguity.

Declares an intent to establish that, prior to the effective date of this act, the preferential business and occupation tax rate for the "slaughtering, breaking, and/or processing of perishable meat products and/or selling the same at wholesale" in RCW 82.04.260 applied only to activities in which the end products continued to be perishable meat products, and this act applies retroactively to accomplish this purpose.

Companion Bill: 5506

Placing restrictions on the marketing or merchandising of credit cards to students at the state's institutions of higher education.

(SEE ALSO PROPOSED 1ST SUB)

Requires institutions of higher education to each develop official credit card marketing policies. The process of development of these policies must include consideration of student comments. The official credit card marketing policies must, at a minimum, include consideration of and decisions regarding: (1) The registration of credit card marketers;

(2) Limitations on the times and locations of credit card marketing; and

(3) Prohibitions on material inducements to complete a credit card application, but not including introductory rate offers.

**HB 1894-S** by House Committee on Financial Institutions & Insurance (originally sponsored by Representatives Chase, Strow, Williams, Kirby, Ericks, Ormsby, Morrell, and Haigh)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Requires institutions of higher education to each develop official credit card marketing policies. The process of development of these policies must include consideration of student comments. The official credit card marketing policies must, at a minimum, include consideration of and decisions regarding: (1) The registration of credit card marketers;

(2) Limitations on the times and locations of credit card marketing; and

(3) Prohibitions on material inducements to complete a credit card application unless the student has been provided credit card debt education literature, which includes, but is not limited to, brochures of written or electronic information.

Requires the policies to include the following elements: A requirement for credit card marketers to inform students about good credit management practices through programs developed in concert with the institution of higher education; and a requirement to make the official credit card marketing policy available to all students upon their request.

**HB 1895** by Representatives Morris, Hudgins, McCoy, and B. Sullivan

Modifying duties of the joint committee on energy supply and energy conservation.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares an intent to utilize lessons learned from efforts to conserve energy usage in single state buildings or complexes and extend conservation measures across all levels of government. Implementing conservation measures across all levels of government will create actual energy conservation savings, maintenance and cost savings to state and local governments, and savings to the state economy, which depends on affordable, realizable electricity to retain jobs.

Declares an intent that conservation measures be implemented across all levels of government and that the savings created from implementing conservation measures be retained to produce more efficient government operation.

**HB 1895-S** by House Committee on Technology, Energy & Communications (originally sponsored by Representatives Morris, Hudgins, McCoy, and B. Sullivan)

Modifying duties of the joint committee on energy supply and energy conservation. (REVISED FOR PASSED LEGISLATURE: Providing for statewide energy efficiency.)

(DIGEST AS ENACTED)

Declares an intent to utilize lessons learned from efforts to conserve energy usage in single state buildings or complexes and extend conservation measures across all levels of government. Implementing conservation measures across all levels of government will create actual energy conservation savings, maintenance and cost savings to state and local governments, and savings to the state economy, which depends on affordable, realizable electricity to retain jobs.

Declares an intent that conservation measures be identified and aggregated within a government entity or among multiple government entities to maximize energy savings and project efficiencies.

Authorizes municipalities to conduct energy audits and implement cost-effective energy conservation measures among multiple government entities.

Requires all municipalities to report to the department if they implemented or did not implement, during the previous biennium, cost-effective energy conservation measures aggregated among multiple government entities. The reports must be submitted to the department by September 1, 2007, and by September 1, 2009.

Requires the department to prepare a report summarizing the reports submitted by municipalities under this act and report to the committee by December 31, 2007, and by December 31, 2009.

Provides that financing to implement conservation measures, including fees charged by the department, may be carried out with bonds issued by the Washington economic development finance authority under chapter 43.163 RCW.

**HB 1896** by Representatives Appleton, Eickmeyer, Chase, and Haigh

Limiting geoduck harvest in parts of Hood Canal.

(SUBSTITUTED FOR - SEE 2ND SUB)

Prohibits the department and the department of natural resources from entering or reentering into any management plan with either a state or nonstate entity that would, in the area of Hood Canal south of a line projected from the communities of South Point in Jefferson county and Lofall in Kitsap county, allow for the harvest of any naturally occurring geoduck below the mean low tide line.

Prohibits the department and the department of natural resources from entering or reentering into any management plan with either a state or nonstate entity that would, in the area of Hood Canal north of a line projected from the communities of South Point in Jefferson county and Lofall in Kitsap county and south of a line projected from Tala Point in Jefferson county to Foulweather Bluff in Kitsap county, allow for the harvest of naturally occurring geoduck below the mean low tide line in an amount greater than ninety percent of the average harvest level in that area for the years 2000 through 2004.

Provides that, if a majority of the members of the commission vote affirmatively on a rule under this act, a summary of the research considered must be presented to the appropriate standing committees of both the house of representatives and the senate. No rule may take effect until thirty days after the adjournment of the session during which the research is presented.

Prohibits the department from entering or reentering into a management plan with either a state or nonstate entity in violation of this act unless the department of fish and wildlife is authorized by the fish and wildlife commission to enter into such a management plan.

**HB 1896-S** by House Committee on Select Committee on Hood Canal (originally sponsored by Representatives Appleton, Eickmeyer, Chase, and Haigh)

Requiring a survey of all geoducks and sea cucumbers in Hood Canal.

(SUBSTITUTED FOR - SEE 2ND SUB)

Provides that, by December 1, 2007, the department shall conduct a comprehensive survey of all geoducks and sea cucumbers that exist in the Hood Canal. The survey must include all levels and depths of the Hood Canal. The mapping in the survey shall be done in grids, the size of which shall be determined by the department.

Expires July 1, 2008.

**HB 1896-S2** by House Committee on Appropriations (originally sponsored by Representatives Appleton, Eickmeyer, Chase, and Haigh)

Requiring a survey of geoducks and sea cucumbers that exist in Hood Canal. (REVISED FOR ENGROSSED: Studying geoducks in Hood Canal.)

(DIGEST AS ENACTED)

Requires the department to conduct a study to determine if changes to the geoduck populations in Hood Canal have occurred over time. The study shall incorporate geoduck beds representative of the northern, central, and southern areas of Hood Canal. No later than January 1, 2006, the department shall submit a report describing the study results to the appropriate committees of the legislature.

Requires the department to conduct a study to assess the relationship between the Hood Canal's geoduck population levels and environmental conditions, including dissolved oxygen concentrations.

Provides that, no later than December 1, 2007, the department shall submit a report describing the study results to the appropriate committees of the legislature.

Requires the department to conduct a study to establish an age profile and analyze the shell oxidation rate of Hood Canal geoduck. No later than December 1, 2007, the department shall submit a report describing the study results to the appropriate committees of the legislature.

Provides that the act shall be null and void if appropriations are not approved.
