**** Compiled to and Inclusive of April 22, 2014 ****

HUNTER G. GOODMAN
Secretary of the Senate

BARBARA BAKER
Chief Clerk, House of Representatives

With the Cooperation of the Statute Law Committee
& the Legislative Service Center

The brief descriptions and digest paragraphs contained herein were prepared by the employees of the legislature as a guide to interested persons concerned with the various measures pending before the legislature. Such brief descriptions and digest paragraphs are not propounded in substitution of or supplementary to the official titles and official text of the legislative measures alluded to herein. The brief descriptions and digest paragraphs are not intended to constitute any part of the law, are not in any manner adopted or acted upon by the legislature, and are in no way evidence of the intent of the legislature.

If the only action on a bill for a session is "By resolution, reintroduced and retained in present status." and no action other than "By resolution, reintroduced and retained in present status." occurs in subsequent sessions in the two-year legislative cycle for that bill, the history for those sessions will not be printed in this publication.

Companion bills are shown for original bills only.

The brief description for each bill family shows only once on the original bill unless there is a change in the brief description for a later version of the bill.

HOW TO USE THE "LEGISLATIVE DIGEST AND HISTORY OF BILLS"

The *Legislative Digest and History of Bills* is a joint legislative publication which is published after the final legislative session each year.

During the legislative session, a daily *Legislative Digest* is available. Use the daily *Legislative Digest* to keep up with the new introductions (including substitute bills) and the amendments to the various measures in between publications of the *Legislative Digest and History of Bills*. (A "-S" or "-S2" following the bill number indicates a substitute, e.g., SB 5009-S, HB 1071-S2.) The latest legislative history on the measures is also provided in the *Legislative Digest* publication.

This publication consists of three parts:

- (1) Digest paragraphs and legislative actions on all measures (bills);
- (2) RCW - Bill Table;
- (3) Topical Index; and
- (4) Session Law Chapter to Bill Table

DIGEST PARAGRAPHS AND LEGISLATIVE ACTIONS

This portion consists of the following:

- (1) The summary digest paragraphs and legislative actions on all bills, joint memorials, joint resolutions, concurrent resolutions, and floor resolutions considered by the House or Senate during the legislative session;
- (2) Summary paragraph and legislative actions on gubernatorial appointments submitted to and being considered by the Senate;
- (3) The listing of the bills a member has sponsored along with an indication of prime sponsorship; and
- (4) The special status of legislation reports for the Senate and the House.

The bulk of the *Legislative Digest and History of Bills* is formed by an in-sequence listing of measures. In this listing are included the measure number, the legislative and "by-request" sponsors, the latest digest paragraphs, and the bill histories. This portion of the publication is divided into two sections: Senate measures and House measures. Initiatives, bills, joint memorials, joint resolutions, concurrent resolutions, floor resolutions, and gubernatorial appointments are included as measures.

Reports on the special status of legislation follow the Senate and House digest history portion of the book. The reports are listed as they become available as legislation progresses down the path toward enactment. A full listing of the reports available in a particular *Legislative Digest and History of Bills* is found on the Index Page of the *Legislative Digest and History of Bills* beginning on page one. Several examples of these reports are:

- (1) Senate Bills Introduced by Members
(Prime sponsorship is noted by a bullet (large dot) before the bill number;)
- (2) Senate Bills Introduced by Request;
- (3) Senate Bills Passed by the Senate;
- (4) Senate Bills Passed by the Senate and House;
- (5) Senate Bills Failed to Pass the House;
- (6) Senate Bills Passed Both Houses Showing Executive Action; and
- (7) Governor's Messages on Bills Vetoed or Partially Vetoed
VO - Veto overridden
PV - Partial Veto
V - Veto

Comparable reports are supplied for the House Bills. (See Table of Contents for page numbers.)

RCW - BILL TABLE

The *Legislative Digest and History of Bills* contains a table which lists the statutes being affected by the current bills. This table is widely used by legislative drafters as well as all other attorneys concerned with the legislative process. The "S" found preceding the bill numbers in this table means that the bill being referred to is the substitute version. All first substitutes are noted by an "S" preceding the bill number; second, third, etc., are noted by 2S, 3S, etc.; e.g.,

38.03.030	AMD	SHB	1301*
38.03.040	AMD	SHB	1375+
39.07.060	REP	2SSB	5111

The "RCW (Statute Number) to Bill Number Table" lists in code section number order the sections in the Revised Code of Washington (RCW) that are the subject matter of current legislation. The action the bill takes on the section is listed with the following abbreviations: ADD (adding a new section or section to a code chapter or code title), AMD (amending), DECD (decodifying), RECD (recodifying), REMD (reenacting and amending), REEN (reenacting), and REP (repealing). It is especially useful in the closing days of the session to determine whether a code section currently under consideration by the legislature may already have been repealed or amended during the session, in which event the earlier action must be taken in cognizance. In addition to being included in the *Legislative Digest and History of Bills*, an electronic version of this table is available at Washington State Legislative website. The URL to the website is <http://www.leg.wa.gov>, choose Bill Info and then RCW to Bill Table.

The symbols on the table indicate whether the amended section or the new section has passed the legislature or has been signed into law or vetoed by the Governor. A "p" following the bill number means that the legislature has passed the bill. An asterisk ("*") means that executive action or inaction has been recorded upon the bill during the first year of the two-year legislative cycle. A plus sign ("+") means that executive action or inaction has been recorded upon the bill during the second year of the two-year legislative cycle. Generally, the "*" and "+" mean that the Governor has signed the bill into law with or without a partial veto.

TOPICAL INDEX

The Topical Index is at the end of the *Legislative Digest and History of Bills*. The Topical Index entries are entered soon after the bills are introduced on the floor, so that researchers can search the text of the index for measures related to their issue. Various symbols are found in the index which aid in determining the type of measures to which the index entry refers. The table of abbreviated symbols for the Topical Index is found on the page beginning the Topical Index section.

VETO MESSAGE ON ESSB 5024

May 20, 2013

To the Honorable President and Members,
 The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 201(3); 209(10); 216(5); 218(2); 306(7); 306(22); 313(4); 313(5); 602; 903, page 139, lines 23-25; 903(1); 904, page 151, lines 7-9; 904(1); 906, page 154, lines 8-10; and 906(1), Engrossed Substitute Senate Bill 5024 entitled:

"AN ACT Relating to transportation funding and appropriations."

Section 201(3), page 7, Washington Traffic Safety Commission, Traffic Safety Resource Prosecutor Program

This proviso requires the traffic safety prosecutor program to be moved from the Washington State Patrol to the Washington Association of Prosecuting Attorneys. Before making this change, a thorough analysis of the advantages and disadvantages should be done. For this reason, I have vetoed Section 201(3) and instructed the Washington Traffic Safety Commission to investigate this proposal.

Section 209(10), page 20, Department of Transportation, Annual Independent Audits

The Fiscal Year 2013 annual independent audit of State Route 520 is currently under way and will be completed in Fiscal Year 2014. This proviso would require the audit to be completed through an interagency agreement between the Department of Transportation and Office of Financial Management. This change would duplicate work and delay completion of the audit required in the State Route 520 master bond resolution. For these reasons, I have vetoed Section 209(10).

Section 216(5), page 26, Department of Transportation, Guide Signs to the City of Kenmore and Other Destinations

Traffic control signing, including guide signs to destinations, should be done in a cooperative manner between the Department of Transportation and the requestor to ensure that safety and motorist needs are met. State and federal regulations and policy are in place to guide this process. This proviso, therefore, is unnecessary. For this reason, I have vetoed Section 216(5) and directed the Department to work with the City of Kenmore to resolve their traffic control signing issues.

Section 218(2), page 29-30, Department of Transportation, Study on Restricting Use of Steel on Guardrail Posts

Section 218(2) directs the Department of Transportation to contract with an independent research organization to study wood guardrails; however, no funding is provided for the study. Moreover, the Department evaluated the use of wood guardrails as recently as 2009 and is currently conducting a study concerning guardrail materials. For these reasons, I have vetoed Section 218(2).

Section 306(7), pages 41-42, Interstate 5/Columbia River Crossing

Section 306(7) directs the expenditure of \$81 million, including federal funds, for the Columbia River Crossing project. I see no

wisdom in expending these funds if the state of Washington does not contribute its share of funding necessary to complete the project. This section would result in the expenditure of \$81 million to no result. If there are no other funds appropriated, the bridge project cannot move forward because federal funding will disappear. In addition, this section would prohibit expenditure of federal funding that is necessary to build the bridge. If the Coast Guard permit is not issued, there is no need for the waste of \$81 million since no other option is viable.

Section 306(22), page 47, Department of Transportation, Report on Public or Private Entity Mitigation

Section 306(22) requires the Department of Transportation to report to the chairs of the Senate and House transportation committees whenever it is in negotiations to provide a public or private entity mitigation for \$10 million or more. While I support the interest in transparency and accountability when negotiating public funds, non-disclosure agreements may require the Department to maintain confidentiality during certain negotiations. Therefore, I have vetoed Section 306(22) and directed the Department to develop a process to report on mitigation agreements exceeding \$10 million.

Section 313(4), page 57, Department of Transportation, Quarterly Reporting Requirements

This proviso requires the Department of Transportation to report quarterly on change order details that include the name of the contractor, dollar value of the change order, and explanation of the change order. No funding was provided for either the system or human resource efforts this would require given that there is no dollar threshold for reporting change orders. For this reason, I have vetoed Section 313(4).

Section 313(5), page 57, Department of Transportation, Quarterly Reporting Requirements

This proviso requires the Department of Transportation to report quarterly on all mitigation payments, including the party with whom the mitigation was negotiated, as well as the parties with whom the Department is in ongoing negotiations. No funding was provided for either the system or human resource efforts this would require given that there is no dollar threshold for reporting mitigation payments. For this reason, I have vetoed Section 313(5).

Section 602, page 74, Department of Transportation, Transitioning Passenger Vehicles to DES Motor Pool

This section directs the Department of Transportation to begin transitioning its passenger vehicles to the Department of Enterprise Services motor pool and prohibits the purchase of new passenger vehicles with appropriations in this act by programs headquartered in Thurston County. However, it is not clear whether the Department of Transportation's specialty service trucks are passenger vehicles as defined in RCW 46.04.382. I believe these vehicles, such as light trucks used by maintenance workers, should remain with the Department of Transportation. For this reason, I have vetoed Section 602 and directed the Department of Transportation to work with the Department of Enterprise Services to transition its vehicles to the motor pool where practicable and where efficiencies can be created.

Section 903, page 139, lines 23-25, and Section 903(1), page 140, Transportation Partnership Account-State Appropriation, Improvements Program

Due to unforeseen changes in the timing of expenditures for highway improvement projects and the lack of flexibility in the capital program budgets, this appropriation change would result in an estimated shortfall of approximately \$30 million in expenditure authority in the highway improvement program. The Department of Transportation must keep projects within the total spending plan; however, retaining the supplemental budget's original Transportation Partnership Account-State appropriation will provide flexibility in the timing of expenditures as the state transitions from one biennium to the next during the peak construction period. For these reasons, I have vetoed Section 903, page 139, lines 23-25, and Section 903(1).

Section 904, page 151, lines 7-9, and Section 904(1), page 151, Transportation Partnership Account-State Appropriation, Preservation Program

Due to unforeseen changes in the timing of expenditures for highway preservation projects and the lack of flexibility in the capital program budgets, this appropriation change would result in an estimated shortfall of approximately \$23 million in expenditure authority in the highway preservation program. The Department of Transportation must keep projects within the total spending plan; however, retaining the supplemental budget's original Transportation Partnership Account-State appropriation will provide flexibility in the timing of expenditures as the state transitions from one biennium to the next during the peak construction period. For these reasons, I have vetoed Section 904, page 151, lines 7-9, and Section 904(1).

Section 906, page 154, lines 8-10, and Section 906(1), page 154, Transportation 2003 Account (Nickel Account)-State Appropriation, Washington State Ferries Construction Program

Due to unforeseen changes in the timing of expenditures for ferry capital construction projects and the lack of flexibility in the capital program budgets, this appropriation change would result in an estimated shortfall of approximately \$7 million in expenditure authority in the ferry capital program.

The Department of Transportation must keep projects within the total spending plan; however, retaining the supplemental budget's original Transportation 2003 Account (Nickel Account)-State appropriation will provide flexibility in the timing of expenditures as the state transitions from one biennium to the next during the peak construction period. For these reasons, I have vetoed Section 906, page 154, lines 8-10, and Section 906(1).

For these reasons I have vetoed Sections 201(3); 209(10); 216(5); 218(2); 306(7); 306(22); 313(4); 313(5); 602; 903, page 139, lines 23-25; 903(1); 904, page 151, lines 7-9; 904(1); 906, page 154, lines 8-10; and 906(1) of Engrossed Substitute Senate Bill 5024.

With the exception of Sections 201(3); 209(10); 216(5); 218(2); 306(7); 306(22); 313(4); 313(5); 602; 903, page 139, lines 23-25; 903(1); 904, page 151, lines 7-9; 904(1); 906, page 154, lines 8-10; and 906(1), Engrossed Substitute Senate Bill 5024 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON 3ESSB 5034

June 30, 2013

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 103(10); 103(11); 114(3); 124(2); 124(3); 124(4); 124(5); 130(5); 148(4); 150, page 37, lines 33-36 and page 38, lines 1-7; 205(1)(e); 208(7); 213(35); 213(36); 217(5); 219(25); 302(8); 307(15); 501(1)(a)(v); 610(1); 610(2); and 610(8), Third Engrossed Substitute Senate Bill 5034 entitled:

"AN ACT Relating to fiscal matters."

Section 103(10), page 6, Joint Legislative Audit and Review Committee, Study of State Agency Performance Indicators and Performance Measurement Process

This proviso directs the Joint Legislative Audit and Review Committee to study the effectiveness of state agency performance indicators and performance measurement processes established in Chapter 43.88 RCW, the state Budget and Accounting Act. My administration is already conducting a thorough and rigorous review of state agency performance indicators and measurements through our Results Washington initiative. I appreciate the Legislature's interest in performance management, but this review would be unnecessarily duplicative. For these reasons, I have vetoed Section 103(10).

Section 103(11), page 6, Joint Legislative Audit and Review Committee, Study of Electricity Cost Impacts from Renewable Energy Standards

This proviso directs the Joint Legislative Audit and Review Committee to assess the cost impacts of the state's renewable electricity standards without also evaluating the economic and environmental benefits of renewable energy. The study is unnecessary, as there are cost controls built into the standards. In addition, improvements to the Energy Independence Act will also be considered through the ongoing efforts of the Climate Legislative and Executive Workgroup created in Chapter 6, Laws 2013 (E2SSB 5802). For these reasons, I have vetoed Section 103(11).

Section 114(3), page 9, Administrator for the Courts, Office of Chief Information Officer Approval of Judicial Technology Expenditures

This proviso requires the Administrative Office of the Courts (AOC) to work with the Office of the Chief Information Officer (OCIO) to analyze the feasibility of moving judicial branch information technology equipment into the state data center. AOC is willing to undertake this analysis, in conjunction with the OCIO, as requested. However, the proviso also prohibits AOC from expending funds appropriated for an information network hub project and computer equipment replacement unless approved by the OCIO. This limitation on AOC's appropriation authority is not necessary given AOC's commitment to work cooperatively with the OCIO. I am willing to revisit this issue, however, should the necessary analysis not proceed in a timely and efficient manner. For this reason, I have vetoed Section 114(3).

Sections 124(2), 124(3), 124(4), 124(5), pages 16-17, State Auditor, Audit and Evaluation Requests

The State Auditor's is requested by the Legislature to conduct various audits and evaluations on actuarial functions, managed care systems, federal compliance and fraud activity, and inmate intake and reception processes. The budget reduces the State Auditor's ability to conduct performance audits by diverting nearly

\$10 million from the Performance Audits of Government Account to funds to other activities, including \$5.6 million of funding for the Joint Legislative Audit and Review Committee (JLARC). Initiative 900 created the Performance Audits of Government Account to fund comprehensive performance audits independently chosen by the State Auditor. Therefore, the State Auditor should select the audits he will perform within his limited funds. Legislatively directed audits should be performed by JLARC. For these reasons, I have vetoed Sections 124(2), 124(3), 124(4), 125(5).

Section 130(5), page 28, Office of Financial Management, One-Stop Portal Monitoring

This proviso requires the Office of the Chief Information Officer to submit a plan to establish performance benchmarks and measuring results of implementing a one-stop integrated system for business interactions with government. A similar reporting requirement is contained in Substitute Senate Bill 5718, which passed the Legislature, making this proviso unnecessary. For this reason, I have vetoed Section 130(5).

Section 148(4), page 36, Department of Enterprise Services, Building Code Council Aspirational Codes

This proviso prohibits the State Building Code Council from working on aspirational codes, which are voluntary codes that offer builders options to demonstrate new energy efficiency measures that are economically and technically feasible. Energy efficiency is the cheapest, quickest, and cleanest way to meet rising energy needs, confront climate change, and boost our economy. Therefore, I believe the Building Code Council should continue this work for the benefit of our state's taxpayers. For this reason, I have vetoed Section 148(4). Moreover, while I have not vetoed subsection (3) of this section, the proviso attempts to amend substantive law through the budget by "modifying" the Council's statutory authority and by restricting member compensation as allowed under RCW 19.27.070. Therefore, this improper proviso does not restrict the appropriation authority or activities of the Building Code Council.

Section 150, page 37, lines 33-36 and page 38, lines 1-7, Department of Archaeology and Historic Preservation, Agency Survey and Inventory Processes

The Department of Archaeology and Historic Preservation is directed to report to the Legislature by December 1, 2013, and a second report by December 1, 2014, regarding the agency's survey and inventory processes. No funding was provided to compile the necessary data, which is not readily available to the Department, to complete these reports. For this reason, I have vetoed Section 150, page 37, lines 33-36 and page 38, lines 1-7. However, I am directing the Department to work with interested stakeholders to provide useful and available information about the survey and inventory processes within existing resources.

Section 205(1)(e), page 61, Department of Social and Health Services, Rate Disparity Report

The Department of Social and Health Services is directed to report to the Legislature by December 31, 2013, with a strategy to reduce the rate disparity between urban and suburban residential service providers. No funding was provided to the Department and it does not currently collect the data necessary to complete the report. For this reason I have vetoed Section 205(1)(e).

Section 208(7), page 73, Department of Social and Health Services, Chemical Dependency Treatment Study

This proviso requires the Department of Social and Health Services to contract with the Washington State Institute for Public Policy (WSIPP) to study the long-term efficacy of the chemical dependency treatment program. Under Chapter 338, Laws of 2013 (2SSB 5732), WSIPP will develop an inventory of evidence-based and research-based prevention and intervention services for the Department to use in preparing a behavioral health improvement strategy. Additionally, no funding is provided to the Department to contract for this study. For these reasons, I have vetoed Section 208(7).

Section 213(35), page 88, Health Care Authority, Rebates for Brand Name Drugs

This proviso requires the Health Care Authority to purchase brand name drugs when it determines the cost of the brand name drug after rebate is less than the cost of generic alternatives and that the purchase of the brand rather than generic version can save at least \$250,000. The state has made a concerted effort to reduce pharmaceutical drug costs through increasing generic drug use when clinically appropriate. This requirement is administratively burdensome to implement and will likely result in increased costs rather than savings. For these reasons I have vetoed section 213(35).

Section 213(36), page 88, Health Care Authority, Preferred Drug List Exclusions

This proviso prohibits the Health Care Authority from including specific drugs in the Medicaid preferred drug list for the fee-for-service population. This proviso is in direct conflict with the state's goal of ensuring that our expenditures on services, devices, and medications provide the greatest health benefit for employees and clients. Excluding classes of drugs from evidence-based medicine is inconsistent with improving health care quality and reducing costs. For this reason I have vetoed Section 213(36).

Section 217(5), page 96, Department of Labor and Industries; Section 219(25), page 105, Department of Health; Section 302(8), pages 119-120, Department of Ecology; Formal Review Process Existing Rules

These provisos require the Departments of Labor and Industries, Health, and Ecology to establish and perform a formal review process of its existing rules within existing funds. A similar reporting requirement is included in SSB 5679, which passed the Legislature, making these provisos unnecessary. For this reason, I have vetoed Sections 217(5), 219(25), and 302(8).

Section 307(15), pages 126-127, Department of Fish and Wildlife. Payments in Lieu of Taxes Methodology

The Department of Fish and Wildlife is directed to develop and submit a revised payment methodology for certain counties that receive payments in lieu of taxes (PILT) for game lands managed by the Department. The revised methodology is directed to provide supplemental payments to these counties. I believe a comprehensive review of PILT for game lands should be conducted without any predetermined outcome. Therefore, I am directing the Department of Revenue to work with the Department of Fish and Wildlife and the Office of Financial Management to examine the current PILT methodologies, as well as methodologies used by other states and the federal government, to develop by December 1, 2013, options and recommendations to revise the PILT program. For this reason, I have vetoed Section 307(15).

Section 501(1)(a)(v), page 136, Superintendent of Public Instruction

This proviso requires the Office of the Superintendent of Public Instruction to review career and technical education and skill center formulas by October 1, 2013. The due date does not provide enough time for staff to accomplish the task. The Superintendent has expressed a commitment to completing the review by June 1, 2014. For these reasons, I have vetoed Section 501(1)(a)(v).

Section 610(1), page 190, The Evergreen State College, Extraordinary Foster Care Cost Study

This proviso directs the Washington State Institute for Public Policy to examine the extraordinary costs of individual foster care children to identify whether the cost of placements is consistent across similarly acute children. The Children's Administration of the Department of Social and Health Services routinely evaluates high cost placements and services but must make decisions based on the unique needs of each child. A study is not necessary at this time. For this reason, I have vetoed Section 610(1).

Section 610(2), page 190, The Evergreen State College, Safety Assessment Tool Study

This proviso directs the Washington State Institute for Public Policy to conduct an empirical study of the validity and reliability of the safety assessment tool used by the Children's Administration of the Department of Social and Health Services. The Department is currently evaluating the assessment tool as it implements the family assessment response system required by Chapter 259, Laws 2012 (ESSB 6555). A study at this time would be premature when the Department has not yet determined whether the assessment tool will continue to be used, modified or maintained. For this reason, I have vetoed Section 610(2).

Section 610(8), page 191-192, The Evergreen State College, K-12 Funding Task Force

This proviso establishes an eleven member task force on K-12 funding, to be staffed by the Washington State Institute for Public Policy. The task force is to examine and provide options on the following topics: salary allocation methodologies, career and technical education, and the appropriate use of state and local property taxes to finance public schools. Within the past three years, legislatively authorized working groups have conducted thorough reviews of compensation, career and technical education, and use of local levies. Another task force is duplicative of proposals from recent workgroups. For this reason, I have vetoed Section 610(8).

For these reasons I have vetoed Sections 103(10); 103(11); 114(3); 124(2); 124(3); 124(4); 124(5); 130(5); 148(4); 150, page 37, lines 33-36 and page 38, lines 1-7; 205(1)(e); 208(7); 213(35); 213(36); 217(5); 219(25); 302(8); 307(15); 501(1)(a)(v); 610 (1); 610 (2); and 610(8) of Third Engrossed Substitute Senate Bill 5034.

With the exception of Sections 103(10); 103(11); 114(3); 124(2); 124(3); 124(4); 124(5); 130(5); 148(4); 150, page 37, lines 33-36 and page 38, lines 1-7; 205(1)(e); 208(7); 213(35); 213(36); 217(5); 219(25); 302(8); 307(15); 501(1)(a)(v); 610 (1); 610 (2); and 610(8), Third Engrossed Substitute Senate Bill 5034 is approved.

VETO MESSAGE ON ESSB 5035

July 1, 2013

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 5020(3), Engrossed Substitute Senate Bill 5035 entitled:

"AN ACT Relating to the capital budget."

Section 5020(3), pages 166-168, Superintendent of Public Instruction, 2013-15 School Construction Assistance Program--Maintenance

This proviso directs the Superintendent of Public Instruction to create an interagency agreement with The Evergreen State College for a study by the Washington State Institute of Public Policy. The purpose of the study is to analyze the relationship between school design and student performance and to develop recommendations for the school construction assistance program. The institute is further directed to create an advisory group to assist in the development of these recommendations. I believe this study is overly broad and an unnecessary expense. The current system of evaluating school construction projects adequately addresses school capital needs. Moreover, the 2013-2015 capital budget fully funds the state's school construction assistance program.

For this reason, I have vetoed Section 5020(3) of Engrossed Substitute Senate Bill 5035.

With the exception of Section 5020(3), Engrossed Substitute Senate Bill 5035 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON ESB 5048 April 4, 2014 To the Honorable President and Members, The Senate of the State of Washington Ladies and Gentlemen: I am returning herewith, without my approval, Engrossed Senate Bill No. 5048 entitled: "AN ACT Relating to notice against trespass." This bill would make it easier for landowners to note the boundaries of their property for purposes of putting people on notice that they are trespassing onto private property. This includes using fluorescent orange paint marks on trees or posts on the property. For this to be effective, the public needs a transition period to understand that a painted line on a tree means 'no trespassing.' Otherwise, we're undermining the purpose of the bill. The bill is also unclear whether signs are required on land adjacent to access roads or just when an access road crosses onto private property. Therefore, I am vetoing ESB 5048. I encourage the sponsors to consider a transition period for a subsequent bill to build public awareness of this change and clarify for landowners where signs are required in relation to access roads. For these reasons I have vetoed Engrossed Senate Bill No. 5048 in its entirety. VETO MESSAGE ON SSB 5077

April 22, 2013

To the Honorable President and Members,
 The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 371 and 622, Substitute Senate Bill 5077 entitled:

"AN ACT Relating to technical corrections to gender-based terms."

Section 371 is identical to Section 370. Section 622 is identical to Section 621.

For these reasons, I have vetoed Sections 371 and 622 of Substitute Senate Bill 5077.

With the exception of Sections 371 and 622, Substitute Senate Bill 5077 is approved.

Respectfully submitted,
 Jay Inslee

Governor

VETO MESSAGE ON SSB 5518

April 17, 2013

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 5, Substitute Senate Bill 5518 entitled:

"AN ACT Relating to making nonsubstantive changes to election laws."

This bill was introduced by request of the Secretary of State to make technical changes to our election laws. The bill removes outdated language and statutory citations that are no longer relevant with the state's adoption of the top-two primary system and amends state election laws to conform to changes in federal law. Section 5 of the bill contains a change to a definition that could adversely impact minor political parties and is not in keeping with the nonsubstantive purposes of this Act. The Secretary of State agrees that keeping the current definition is preferable.

For these reasons, I have vetoed Section 5 of Substitute Senate Bill 5518.

With the exception of Section 5, Substitute Senate Bill No. 5518 is approved.

Respectfully submitted,
Jay Inslee
Governor

SB 5883 by Senators Baumgartner, Bailey, Ericksen, Braun, Benton, Tom, Holmquist Newbry, Schoesler, Brown, Hill, Roach, and Hewitt

Providing for more equitable funding of public higher education.

(SEE ALSO PROPOSED 1ST SUB)

Distributes the support of public higher education more equitably between the state and students and their families by establishing: (1) A funding methodology that is based on enrollment levels with which to provide predictable and stable baseline state funding to the institutions of higher education; and

(2) A process whereby any state funds over and above the level needed for the baseline levels of state funding are distributed among the institutions of higher education based on their performance in meeting statewide goals and expectations, and to reward the highest performers.

Declares it is the goal of the legislature that institutions of higher education receive a baseline level of state funding that is sufficient to allow ongoing access to postsecondary education for residents, particularly in high-demand degree programs, and to achieve a more equitable share of support between the state and students and their families.

SB 5939 by Senators Hill and Braun

Concerning the estate tax.

(SEE ALSO PROPOSED 1ST SUB)

Reinstates the legislature's intended meaning when it enacted the estate tax; and restores parity between married couples and unmarried individuals and between QTIP property and other property eligible for the marital deduction.

Prevents the adverse fiscal impacts of the *Bracken* decision by reaffirming its intent that the term "transfer" as used in the Washington estate and transfer tax is to be given its broadest possible meaning consistent with established United States supreme court precedents, subject only to the limits and exceptions expressly provided by the legislature.

Finds that the state's estate tax burdens family owned businesses, undermines job creation, and discourages savings and investment.

Increases the threshold for determining whether the tax applies to an estate and decreases the tax rate to fifty percent by fiscal year 2022.

SB 5939-S by Senate Committee on Ways & Means (originally sponsored by Senators Hill and Braun)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Reinstates the legislature's intended meaning when it enacted the estate tax; and restores parity between married couples and unmarried individuals and between QTIP property and other property eligible for the marital deduction.

Providing for a performance and enrollment-based methodology of distributing state appropriations to public institutions of higher education.

Distributes the support of public higher education more equitably between the state and students and their families by establishing a funding methodology that is based on enrollment levels with which to provide predictable and stable baseline state funding to the institutions of higher education and by establishing a process whereby any state funds over and above the level needed for the baseline levels of state funding are distributed among the institutions of higher education based on their performance in meeting statewide goals and expectations.

Rewards the highest performers.

Requires the office of financial management to: (1) Convene a work group to review certain per-resident student rates;
 (2) Make recommendations for achieving equal funding for similar institutions by the 2017-2019 fiscal biennium; and
 (3) Submit a final recommendation of the work group to the governor and appropriate committees of the legislature.

VETO MESSAGE ON ESSB 5946

June 30, 2013

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 304 and 515, Engrossed Substitute Senate Bill 5946 entitled:

"AN ACT Relating to strengthening student educational outcomes."

This legislation includes reforms to improve student achievement, which includes strategies to address early elementary school literacy, strengthening the learning assistance programs, reforming the approach to long-term student suspensions, and clarifications regarding the alternative learning experience program.

Section 304 is an intent section that discusses various experiences of schools and students, and is not necessary to interpret or implement the substantive provisions of the bill. For this reason, I have vetoed section 304.

Section 515 requires the Office of Financial Management by November 1, 2013, to complete a study, in consultation with various stakeholders, to create a proposal for efficiently and sustainably funding alternative learning experience courses and to recommend steps to increase the focus of educational outcomes. Given the short timeline for completion, the Office would need to contract for the work, and no funding was provided to the Office to conduct the study. For these reasons, I have vetoed section 515.

For these reasons I have vetoed Sections 304 and 515 of Engrossed Substitute Senate Bill 5946.

With the exception of Sections 304 and 515, Engrossed Substitute Senate Bill No. 5946 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON ESSB 6001

April 4, 2014

To the Honorable President and Members,
 The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 201(5); 205(8); 206; 207(8); 208(13); 208(16); 213(7); 306(24); and 310(7)(a) and (b), page 66, line 29 through page 67, line 16, Engrossed Substitute Senate Bill No. 6001 entitled:

"AN ACT Relating to transportation funding and appropriations."

Section 201(5), pages 5-6, Traffic Safety Commission, Funding for Target Zero Task Forces

This section would require the Traffic Safety Commission to continue to provide funding to counties for target zero task forces during the 2013-15 biennium based on levels that were in place on January 1, 2014. The Commission has conducted an extensive Lean-based review of the most effective strategies for implementing traffic safety programs locally. The proviso would affect the Commission's ability to allocate funding to achieve the greatest effect on safety. For this reason, I have vetoed Section 201(5).

The Traffic Safety Commission will continue to conduct stakeholder meetings in the counties that could be affected by this approach.

Section 205(8), pages 13-14, Transportation Commission, Statewide Transportation Plan

The Legislature provided funding for the Transportation Commission to complete the statewide transportation plan and fulfill current federal planning requirements by June 30, 2015. New federal rules will go into effect in the spring of 2016 and will require, among other things, an integrated performance measurement system. It is prudent to wait until the new federal regulations are released before updating the plan. For this reason, I have vetoed Section 205(8).

Section 206, page 14, Freight Mobility Strategic Investment Board, Appropriation Reduction

The proposed appropriation level reduces the Freight Mobility Strategic Investment Board's (Board) 2013-15 biennial budget by \$25,000. This reduction results in an appropriation insufficient to sustain current operations. For this reason, I have vetoed Section 206.

During the remainder of the biennium, the Board will maintain a staffing level of two (2) FTEs after the current director retires. The Board will submit staffing and resource allocations for the ensuing biennium with its biennial budget submittal.

Section 207(8), page 16, Washington State Patrol, Security for United States Open

This proviso directs the Washington State Patrol (WSP) to coordinate and support local law enforcement at the United States Open national golf championship in Pierce County in providing traffic control and "other activities" within its existing budget. WSP services for such a significant event are likely to require additional appropriations from the Legislature. For this reason, I have vetoed Section 207(8).

WSP will work with Pierce County to develop a plan with respective responsibilities and estimated costs for further consideration in the 2015 legislative session.

Section 208(13), page 20, Department of Licensing, Intermittent-Use Trailer License Plates (E2SHB 1902)

This proviso provides appropriation authority for the implementation of Engrossed Second Substitute House Bill 1902, intermittent-use trailer license plates. E2SHB 1902 did not pass, so this subsection is unnecessary. For this reason, I have vetoed Section 208(13).

Section 208(16), page 20, Department of Licensing, Washington State Tree License Plates (EHB 2752)

This proviso provides appropriation authority for the implementation of Engrossed House Bill 2752, Washington state tree license plates. EHB 2752 did not pass, so this subsection is unnecessary. For this reason, I have vetoed Section 208(16).

Sections 213(7), page 30, Department of Transportation, Fish Barrier Removals (2SHB 2251)

This proviso directs the Department of Transportation to maximize available resources for eliminating fish passage barriers if Second Substitute House Bill 2251 did not pass. Second Substitute House Bill 2251 was approved during the 2014 legislative session, so this subsection is moot. For this reason, I have vetoed Section 213(7).

Section 306(24), pages 57-58, Department of Transportation, Quarry Road Transfer

This proviso directs the Department of Transportation (Department) to accept the transfer to the state highway system of Quarry Road. This proviso is unnecessary because the Department has reached agreement with Snohomish County to transfer Quarry Road to the state highway system. For this reason, I have vetoed Section 306(24).

Section 310(7)(a) and (b), page 66, line 29 through page 67, line 16, Department of Transportation, Rail Cost-Benefit Methodology

This proviso directs the Department of Transportation (Department) to use a cost-benefit methodology tool developed in 2008 for rail projects, which is the existing standard for departmental operations in analyzing Freight Rail Investment Bank and Freight Rail Assistance Program projects. Given this is current practice, there is no need to direct the Department to use this tool. For this reason, I have vetoed Section 310(7)(a) and (b), page 66, line 29 through page 67, line 16.

If for any reason a different approach is used, I am directing the Department to report to both the Office of Financial Management and legislative transportation committees about why it used an alternative approach.

For these reasons I have vetoed Sections 201(5); 205(8); 206; 207(8); 208(13); 208(16); 213(7); 306(24); and 310(7)(a) and (b), page 66, line 29 through page 67, line 16 of Engrossed Substitute Senate Bill No. 6001.

With the exception of Sections 201(5); 205(8); 206; 207(8); 208(13); 208(16); 213(7); 306(24); and 310(7)(a) and (b), page 66, line 29 through page 67, line 16, Engrossed Substitute Senate Bill No. 6001 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON ESSB 6002

April 4, 2014

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 103(11); 106, lines 13-16 and lines 22-28; 116(5); 125(14); 126; 135(9); 138(3); 140(3); 146(10); 202(15); 205(1)(l); 219(30); 220(3)(e); 502(21); 505(12); 505(13); 705, page 257, lines 23-24; 805, page 267, lines 32-38, and page 268, line 1; 805, page 268, lines 11-38, and page 269, lines 1-15; 805, page 270, lines 12-16; 917; and 919, Engrossed Substitute Senate Bill No. 6002 entitled:

"AN ACT Relating to fiscal matters."

Section 103(11), page 7, Joint Legislative Audit and Review Committee, Study of Medicaid Dispensing Methods

This proviso directs the Joint Legislative Audit and Review Committee to conduct an analysis of the assumed budget savings as a result of the state's change to dispensing a one-year supply of contraceptive drugs for Medicaid recipients under Section 213, Chapter 4, Laws of 2013, 2nd Special Session. Individuals need convenient access to contraceptive drugs, as these drugs prevent unintended pregnancies and reduce Medicaid births. For this reason, I have vetoed Section 103(11).

The Health Care Authority will track savings resulting from dispensing a one-year supply of contraceptive drugs, and will report savings to the Office of Financial Management.

Section 106, page 8, lines 13-16 and lines 22-28, Office of the State Actuary, Actuarial Analysis of State Medicaid and PEB Programs

Funding is provided to the Office of the State Actuary to improve the Legislature's access to independent and objective health care actuarial analysis for the state Medicaid and Public Employee Benefits programs. The funding provided includes federal funds that cannot be used for this purpose. For this reason, I have vetoed Section 106, page 8, lines 13-16 and lines 22-28.

However, I recognize the importance of legislative review and access to actuarial analyses. Therefore, I am directing the Health Care Authority to collaborate with the Office of Financial Management, the Office of the State Actuary, and legislative staff on the establishment of health care rates. The Health Care Authority is further directed to include a requirement in actuarial services contracts that will require the vendor to provide information in response to questions from the Office of Financial Management, the Office of the State Actuary, and legislative staff.

Sections 116(5), page 17, Office of the Governor, Transfer of Special Education Ombuds

The appropriation in this section increases funding to the Governor's Office of the Education Ombuds (OEO) for special education ombuds services currently provided by the Office of the Superintendent of Public Instruction (OSPI). Funding for the special education ombuds is removed from the OSPI budget in Section 505(12). OSPI is required to provide special education ombuds services to comply with federal law. Therefore, the transfer of funding for this function would result in a reduction in funding to OSPI without a corresponding reduction in responsibilities and workload. In addition, this section requires OSPI to enter into an interagency agreement with OEO to provide support for additional special education ombuds services using federal funds. OEO services are not an allowable use of federal funds. For these reasons, I have vetoed Section 116(5).

Section 125(14), page 27, Office of the Attorney General, Medical and Recreational Marijuana (E3SSB 5887)

This proviso provides appropriation authority for the implementation of Engrossed Third Substitute Senate Bill 5887, medical and recreational marijuana. E3SSB 5887 did not pass, so this subsection is unnecessary. For this reason, I have vetoed Section 125(14).

Section 126, page 27, Caseload Forecast Council, Self-Insurance Premiums

This section reduces appropriations to the Caseload Forecast Council (CFC). Statewide adjustments for self-insurance premiums submitted to the Office of Financial Management (OFM) mistakenly included a \$78,000 reduction for CFC. These premiums were already adjusted in the 2012 supplemental budget. As CFC is a small agency, the reduction is too large for the agency to absorb. For this reason, I have vetoed Section 126.

I am directing OFM to work with CFC to adjust allotments to levels consistent with the supplemental budget excluding the self-insurance premium reduction.

Section 135(9), page 44, Department of Revenue, Study of State Revenue Impact

This proviso directs the Department of Revenue (DOR) to consult with counties affected by the United States Open golf championship to estimate the additional state sales tax revenue attributable to the event. Large events around the state generate sales tax revenues for the state and local governments. This proviso establishes an unwise precedent of attempting to identify only state sales tax revenue attributable to a particular event. Further, no additional appropriation was provided to complete the study. As DOR must absorb more than \$267,000 of implementation costs for various revenue-related measures passed by the 2014 Legislature, the agency cannot be expected to absorb additional costs for this study. For these reasons, I have vetoed Section 135(9).

Section 138(3), page 46, Office of the Insurance Commissioner, Insurance Company Solvency (SHB 2461)

This proviso provides appropriation authority for the implementation of Substitute House Bill 2461, insurance company solvency. SHB 2461 did not pass, so this subsection is unnecessary. For this reason, I have vetoed Section 138(3).

Section 140(3), page 47, Liquor Control Board, Medical and Recreational Marijuana (E3SSB 5887)

This proviso provides appropriation authority for the implementation of Engrossed Third Substitute Senate Bill 5887, medical and recreational marijuana. E3SSB 5887 did not pass, so this subsection is unnecessary. For this reason, I have vetoed Section 140(3).

Section 146(10), page 53, Department of Enterprise Services, Small Agency Services and Printer Rates

This proviso directs the Department of Enterprise Services (DES) to revise central services rates charged to state agencies to reflect a transfer of Small Agency Client Services to the Office of Financial Management (OFM), the elimination of funding for Small Agency Human Resource Services, and establishment of the Print and Imaging program rates at levels sufficient to fully recover costs. I understand the legislative intent was not to eliminate services for small agencies, but to provide such services with a smaller budget. I am concerned about the unnecessary disruption of services for small agencies as a result of this proviso. For this reason, I have vetoed Section 146(10).

However, to fully and responsibly capture the assumed budget savings for small agency services and accomplish the policy goal of setting printer rates at levels sufficient to recover all costs, I am directing DES and OFM to take the following actions:

DES will provide both finance and human resource services to current small agency customers within the \$1.845 million provided to OFM in the operating budget. DES may not use any other fund sources or projected fund balances from any of its operating accounts to provide small agency services. To maximize the use of limited resources, DES and OFM shall convene a meeting of small agency customers to receive their input on the structure, service offerings, and rates for small agency services in light of the reduced budget.

DES shall immediately set its rates for the Print and Imaging program to fully recover costs for the services provided to prevent any operating loss for the current and future fiscal years. By June 1, 2014, DES must submit to OFM a comparative rate sheet showing rates for the program as of April 1, 2014, and the new rates along with a long-term financial plan for the Print and Imaging program.

Section 202(15), page 63, Department of Social and Health Services, Children's Long-Term Inpatient Program Placement Waitlist

This proviso provides appropriation authority for a rate add-on paid to residential facilities providing behavioral rehabilitation services (BRS) to youth who have been assessed as needing mental health services through the children's long-term inpatient program (CLIP). I am concerned that a rate add-on for this population will create an incentive to send youth served by BRS to CLIP, thereby driving up costs in CLIP and placing foster youth in unnecessarily restrictive settings. For this reason, I have vetoed Section 202(15).

However, I recognize the need to review the level of funding provided to BRS agencies serving youth with psychological and psychiatric needs. Therefore, I am directing the Children's Administration and the Behavioral Health and Integrated Services Administration to work with BRS providers over the interim to examine this issue and determine viable solutions.

Section 205(1)(i), pages 82-83, Department of Social and Health Services, Report from Developmental Disabilities Administration

This proviso directs the Department of Social and Health Services to meet with stakeholders and report to the Legislature by January 1, 2015, on fourteen key areas related to developmental

disabilities. No funding was provided to the Department for this work. For this reason, I have vetoed Section 205(1)(l).

The Developmental Disabilities Administration will be working with stakeholders in the development of the Individual and Family Services waiver and the Community First Choice Medicaid state plan revision. Therefore, many of the areas identified in the proviso will be discussed and addressed.

Section 219(30), page 139, Department of Health, Medical and Recreational Marijuana (E3SSB 5887)

This proviso provides appropriation authority for the implementation of Engrossed Third Substitute Senate Bill 5887, medical and recreational marijuana. E3SSB 5887 did not pass, so this subsection is unnecessary. For this reason, I have vetoed Section 219(30).

Section 220(3)(e), page 149, Department of Corrections, Expanding Categories of Offenses Eligible for Community Parenting Alternative Program Within Department of Corrections (SB 6327)

This proviso provides appropriation authority for the implementation of Senate Bill 6327, expanding the categories of offenses eligible for the community parenting alternative program within the Department of Corrections. SB 6327 did not pass, so this subsection is unnecessary. For this reason, I have vetoed Section 220(3)(e).

Section 502(21), page 205, Office of the Superintendent of Public Instruction, Federal Forest Revenue (E2SHB 2207)

This proviso provides appropriation authority for the purpose of Engrossed Second Substitute House Bill 2207, federal forest revenue. E2SHB 2207 partially eliminates the current state offset to state general apportionment funds for federal timber revenues paid to school districts. The calculation for the timber revenue offset includes federal funding allocated to school districts through the federal Secure and Rural Schools and Community Self-Determination Act (SRSA). Federal authority to make SRSA payments expires at the end of federal fiscal year 2014.

Because the original 2013-15 state operating budget assumes no federal SRSA payments after September 30, 2014, underlying general apportionment appropriations are sufficient to fully fund apportionment payments to school districts without any offset for potential SRSA timber revenues to districts. Therefore, if the federal government reauthorizes SRSA beyond September 30, 2014, eligible school districts will receive the benefits of increased combined state and local funding under E2SHB 2207, and state general apportionment appropriations in this budget bill will be more than sufficient to fully fund state general apportionment without the appropriation provided in this subsection. The appropriation in this subsection is redundant. For this reason, I have vetoed Section 502(21).

Section 505(12) and Section 505(13), page 211, Office of the Superintendent of Public Instruction, Special Education Ombuds Services

Section 505(12) reduces appropriations for special education ombuds services at the Office of the Superintendent of Public Instruction (OSPI). Section 116(5) provides an increased appropriation to the Governor's Office of the Education Ombuds (OEO) for these services. OSPI is required to provide the special education ombuds services to comply with federal law. Therefore, the transfer of funding for this function would result in a reduction in funding to OSPI without a corresponding reduction to responsibilities and workload. Section 505(13) requires OSPI to enter into an interagency agreement with OEO to provide support for additional special education ombuds services using federal funds. OEO services are not an allowable use of federal funds. For these reasons, I have vetoed Sections 505(12) and (13).

Section 705, page 257, lines 23-24, Disaster Response Account

This line item reduces General Fund-State appropriations into the Disaster Response Account by \$1.5 million in fiscal year 2015 based on a projected excess fund balance. Earlier this year, it appeared the account would not need these funds. However, the tragic mudslide that occurred in Oso on March 22, 2014, will greatly strain these resources. The Military Department has activated the State Emergency Operations Center, and other state agencies are engaged in rescue and recovery efforts. For these reasons, I have vetoed Section 705, page 257, lines 23-24.

Section 805, page 267, lines 32-38, and page 268, line 1; Section 805, page 268, lines 11-38, and page 269, lines 1-15; Office of the State Treasurer, Revenue Transfers to Life Sciences Discovery Fund

These sections together transfer a total of \$20 million from the Tobacco Settlement Account and the Life Sciences Discovery Fund to the Education Legacy Trust Account. As a result of these transfers, funding for the Life Sciences Discovery Fund Authority (LSDFA) is effectively ended for the remainder of the 2013-15 biennium. The LSDFA has helped make Washington a global innovation leader in life sciences research. Returning this funding to the LSDFA will allow for the issuance of more than \$15 million of new grants in the 2013-15 biennium on top of the nearly \$92 million in grants already made, continue support for the Global Health Technologies and Products program, and cover necessary administrative costs. For this reason, I have vetoed Section 805, page 267, lines 32-38, and page 268, line 1; Section 805, page 268, lines 11-38, and page 269, lines 1-15.

I am aware that this veto reduces revenue to the Education Legacy Trust Account. However, this veto will not affect any education spending as there are sufficient resources in the budget to cover any projected shortfalls in the Education Legacy Trust Account in the 2015 supplemental budget.

I am not vetoing the legislative intent language for transfer of the strategic tobacco contribution payments in 2015-17 as it has no impact on returning \$20 million to the LSDFA in 2013-15. The actual use of the 2015-17 strategic tobacco contribution payments will be made in the 2015 legislative session. We look forward to working with the Legislature to continue some level of funding for the LSDFA into the future so we do not lose the value of this important and innovative research.

Section 805, page 270, lines 12-16, Office of the State Treasurer, Energy Freedom Account

Section 805 increases the transfer from the Energy Freedom Account to the state General Fund by \$500,000 in fiscal year 2014 and by \$500,000 in fiscal year 2015. The enacted biennial budget transfers \$1 million from the Energy Freedom Account to the General Fund in each fiscal year. I am concerned about the uncertainty of when revenues will be deposited into the Energy Freedom Account. Current deposits are lower than anticipated. Vetoing the additional \$1 million transfer in this section will ensure the account's ending fund balance remains positive. For this reason, I have vetoed Section 805, page 270, lines 12-16.

Section 917, page 281, Transfer of Strategic Contribution Payments

This section authorizes the transfer of strategic contribution payments from the Tobacco Settlement Account to the Education Legacy Trust Account. As I have vetoed the transfers to the Education Legacy Trust Account in Section 805, the authority provided in this section is unnecessary. For this reason, I have vetoed Section 917.

Section 919, page 282, Account Transfers from Life Sciences Discovery Fund

This section authorizes the transfer of balances in the Life Sciences Discovery Fund to other state funds or accounts in the 2013-15 biennium. Because I have vetoed the transfers to the Education Legacy Trust Account in Section 805, the authority provided in this section is unnecessary. For this reason, I have vetoed Section 919.

I am not vetoing Section 123(2), which appropriates \$300,000 from the State Auditing Services Revolving Account for a contract with a private firm to conduct an audit of the use of the state's higher education accounts. However, I am concerned that the short time frame and lack of sufficient funding for such a comprehensive audit may act as a disincentive for firms to bid on the contract, thereby limiting the information the audit can provide for policy makers and budget writers. Unfortunately, a veto would eliminate the funding entirely and no audit would occur. I have therefore asked the State Auditor to use this limited funding and time frame to focus on the state's largest public four-year institution and conduct a focused audit that meets the requirements of the proviso.

For these reasons I have vetoed Sections 103(11); 106, lines 13-16 and lines 22-28; 116(5); 125(14); 126; 135(9); 138(3); 140(3); 146(10); 202(15); 205(1)(l); 219(30); 220(3)(e); 502(21); 505(12); 505(13); 705, page 257, lines 23-24; 805, page 267, lines 32-38, and page 268, line 1; 805, page 268, lines 11-38, and page 269, lines 1-15; 805, page 270, lines 12-16; 917; and 919 of Engrossed Substitute Senate Bill No. 6002.

With the exception of Sections 103(11); 106, lines 13-16 and lines 22-28; 116(5); 125(14); 126; 135(9); 138(3); 140(3); 146(10); 202(15); 205(1)(l); 219(30); 220(3)(e); 502(21); 505(12); 505(13); 705, page 257, lines 23-24; 805, page 267, lines 32-38, and page 268, line 1; 805, page 268, lines 11-38, and page 269, lines 1-15; 805, page 270, lines 12-16; 917; and 919, Engrossed Substitute Senate Bill No. 6002 is approved.

Respectfully submitted,
Jay Inslee
Governor

SB 6087 by Senators Honeyford, Hatfield, Schoesler, and Sheldon

Protecting water quality while maintaining and enhancing the viability of agriculture.

Declares that: (1) The protection of normal and customary agricultural practices upon agricultural land is essential to maintaining the public welfare in its highest state, supporting the farm and ranch capacity to produce good local food, and preserving open spaces; and

(2) State and federal agencies, in working to achieve nonpoint agricultural water quality improvements, must also take precautions to protect the economic viability of agricultural operations and minimize the conversion of agricultural land to other uses.

Provides that the legislature intends that normal and customary agricultural activities protected from over-regulation under federal law be granted equivalent protection from over-regulation under state law.

Directs government agencies tasked with protecting water quality to work cooperatively with agricultural landowners and conservation districts in order to fully utilize new and existing voluntary incentives and promote nonpoint agricultural water quality solutions to the maximum extent practicable before taking any nonpoint water quality enforcement action.

Provides immunity from liability, if certain conditions are met, for the provision of medication or services and for rendering emergency care at, or participating in transporting from, the scene of an emergency during an officially designated school activity.

VETO MESSAGE ON SB 6128

April 02, 2014

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, Senate Bill No. 6128 entitled:

"AN ACT Relating to the delivery of medication and services by unlicensed school employees."

This legislation provides important guidance for school districts with regards to school employees assisting with nursing services and delivery of medications.

Section 1 is an intent section that discusses various experiences of school nurses and other employees, and is not necessary to interpret or implement the substantive provisions of the bill.

For these reasons I have vetoed Section 1 of Senate Bill No. 6128.

With the exception of Section 1, Senate Bill No. 6128 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON SSB 6129

March 28, 2014

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, Substitute Senate Bill No. 6129 entitled:

"AN ACT Relating to paraeducator development."

This legislation directs the Professional Educator Standards Board to convene a workgroup to design minimum employment standards, professional development, and an articulated career ladder leading to certification for paraeducators. It also requires the state's community and technical colleges to incorporate cultural competency training into their paraeducator training programs and to these candidates the opportunity to earn transferrable credits.

Section 1 is an intent section that discusses various experiences of school paraeducators, and is not necessary to interpret or implement the substantive provisions of the bill.

For these reasons I have vetoed Section 1 of Substitute Senate Bill No. 6129.

With the exception of Section 1, Substitute Senate Bill No. 6129 is approved.

Respectfully submitted,

SB 6173 by Senator Becker

Companion Bill: 2419

Concerning Washington's standard of care for medical malpractice.

Establishes the standard of care protection act.

Declares that: (1) As health system reform is implemented at both the federal and state levels, health care providers may face additional liability exposure related to federal guidelines in state civil actions;

(2) Additional liability exposure could lead to more civil actions against health care providers, increased medical liability insurance premiums, and reduced access to health care for patients; and

(3) States have the constitutional authority to amend their statutes to prevent the use of these provisions in medical liability actions brought under state law and should do so in order to prevent their liability climate from deteriorating for health care providers.

Requires certain health insurance carriers to: (1) Offer member transparency tools with certain price and quality information;

(2) Provide enrollees with the performance information required by section 2717 of the patient protection and affordable care act and any federal regulations or guidance issued under that section of the affordable care act; and

(3) Attest to the office of the insurance commissioner that the member transparency tools meet certain requirements and that access to the tools is available on the home page within the health plan's secured member web site.

VETO MESSAGE ON ESSB 6228

April 4, 2014

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 2, Engrossed Substitute Senate Bill No. 6228 entitled:

"AN ACT Relating to transparency tools for consumer information on health care cost and quality."

This bill requires that by 2016 health insurance carriers offer their members a host of good on-line tools with certain health care price and quality information. It complements my requested innovative health care purchasing bill, HB 2572. Together, I hope these bills help to transform the marketplace to make health care more affordable for Washingtonians.

Section 2 is an amendment to the original bill that includes nearly identical language as a section in HB 2572. This creates an unnecessary duplication in the law. In addition, the section in HB 2572 includes language that corresponds to the other health care purchasing innovations, so it is preferable to keep that language.

For these reasons I have vetoed Section 2 of Engrossed Substitute Senate Bill No. 6228.

With the exception of Section 2, Engrossed Substitute Senate Bill No. 6228 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON ESSB 6265

April 4, 2014

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 16, Engrossed Substitute Senate Bill No. 6265 entitled:

"AN ACT Relating to state and local agencies that obtain patient health care information."

This bill is the result of a multi-year effort by stakeholders and legislators to consolidate and strengthen patient privacy protections and standards. It includes a Department of Health request bill for hospital data that are important for research and health improvement.

The measure establishes protocols for entities not covered by the Health Insurance Portability and Accountability Act -- popularly known as HIPAA -- if they inadvertently receive patient health information **and** prohibits them from disclosing the information. Among a number of provisions, the measure provides exceptions to the right of a patient to receive an accounting of all disclosures of information and records related to *mental* health that are the same as the exceptions for *general* health care information.

However, I am vetoing Section 16 due to an error that would create an ambiguity in law concerning how third-party payors share health care data necessary to process claim payments. The intent of the Legislature was clearly to apply the same exception process for third-party payors as is available under chapter 70.02 RCW for health care providers, but Section 16 inadvertently deletes "health care providers," which is a critical cross-reference term to apply

the exception. The ambiguity could be disruptive for many self-insured employers and their third-party payors.

I am grateful to Sen. Frockt and Rep. Cody for their outstanding work on this bill.

For these reasons I have vetoed Section 16 of Engrossed Substitute Senate Bill No. 6265.

With the exception of Section 16, Engrossed Substitute Senate Bill No. 6265 is approved.

Respectfully submitted,
Jay Inslee
Governor

Concerning the first mortgage interest business and occupation tax deduction.

(SEE ALSO PROPOSED 1ST SUB)

Finds that: (1) The implementation of tax policy is often complicated by mandatory accounting rules;

(2) Such accounting rules should not dictate the application of tax policy adopted by the legislature; and

(3) The department of revenue is often unable to fully implement the will of the legislature due to unanticipated accounting rules or changes to established rules.

States that the legislature intends that the department of revenue should administer the deduction for income on loans secured by a first mortgage fully and according to the original intent of the legislature, without regard for accounting peculiarities required by generally accepted accounting principles.

SB 6269-S by Senate Committee on Financial Institutions, Housing & Insurance (originally sponsored by Senators Angel, Hobbs, Fain, Tom, and Benton)

SB 6458 by Senators Becker, Angel, Dammeier, Brown, Tom, Schoesler, Bailey, Braun, Hill, Baumgartner, Litzow, Parlette, and Honeyford

Repealing provisions that establish the office of the insurance commissioner and replacing that office with a Washington state insurance board. (REVISED FOR ENGROSSED: Addressing the office of the insurance commissioner and matters related to health care insurance.)

(DIGEST AS PASSED LEGISLATURE)

Requires the insurance commissioner to provide notice of proposed rule making on matters related to health care insurance to the health care committees of the legislature, the state health benefit exchange, the state health care authority, and the governor.

Requires the governor, in the event a dispute arises among the state officials and entities implementing the federal patient protection and affordable care act, to convene a meeting of certain officials and entities to resolve the dispute.

VETO MESSAGE ON ESB 6458

April 2, 2014

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Engrossed Senate Bill No. 6458 entitled:

"AN ACT Relating to the office of the insurance commissioner and matters related to health care insurance."

This bill requires the Insurance Commissioner to provide notice of proposed rulemaking on matters related to health care insurance to the health care committees of the Legislature and other interested parties. The bill also requires that in the event a "dispute" arises between the entities implementing the Affordable Care Act (ACA), the Governor convenes a meeting and report the results of the meeting to the legislature.

This bill, although helpful in getting the various parties in charge of implementing the Affordable Care Act (ACA) in Washington to better communicate with the legislature and each other, and to think of and come to solution oriented processes, it is ultimately unnecessary and unclear.

It is unnecessary because: (i) The Office of the Insurance Commissioner (OIC) already provides similar notice under the Administrative Procedure Act; and (ii) if disputes arise among the agencies implementing the ACA, my staff already use standing leadership team meetings that all the parties regularly attend to resolve issues. It is unclear because both provisions are included under the same subsection of the bill and the term "dispute" is undefined, making it ambiguous about whether it applies to only rulemaking or to any "dispute" related to implementation of the ACA.

However, in lieu of the bill, I am pleased the Insurance Commissioner has confirmed that it will communicate any rulemaking any interested party and it will work with the legislative chairs on an appropriate process.

I also find that a dispute resolution process would be helpful, so that is why I have asked the parties to agree to an Memorandum of Understanding (MOU) that details a clearer and more robust dispute resolution process than this bill requires, and a process that is more flexible and amendable for the future as might be necessary. The MOU details that disputes should first be resolved by the respective agency. If unresolved, the governor's office will develop a dispute resolution pathway that fits the particular issue or use the standing executive leadership team meeting to resolve the issue. If the issues remains unresolved, my staff will raise the issue with the me and inform the legislative Joint Select Committee on Health Care Oversight. I am pleased that the various agencies have all agreed to the terms of the MOU.

I am also pleased to say that once again, Washington has demonstrated leadership in implementing the Affordable Care Act in a bi-partisan manner.

For these reasons I have vetoed Engrossed Senate Bill No. 6458 in its entirety.

Respectfully submitted,
Jay Insee
Governor

Addresses education requirements regarding: (1) Career and technical equivalencies;

VETO MESSAGE ON E2SSB 6552

April 3, 2014

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 207, Engrossed Second Substitute Senate Bill No. 6552 entitled:

"AN ACT Relating to improving student success by modifying instructional hour and graduation requirements."

Section 207 of the bill directs the Office of the Education Ombuds to convene a three-year task force on students with special needs to examine barriers to earning a diploma.

Later this week I will sign the 2014 supplemental budget, Engrossed Substitute Senate Bill 6002, which includes a similar directive for the Office of Education Ombuds. As that provision of the budget is implemented, it is important that my ombuds office work closely with the Office of the Superintendent of Public Instruction and stakeholders to improve education programs and support success for special education students--and all students. Section 207 creates unnecessary duplication.

For these reasons I have vetoed Section 207 of Engrossed Second Substitute Senate Bill No. 6552.

With the exception of Section 207, Engrossed Second Substitute Senate Bill No. 6552 is approved.

Respectfully submitted,
Jay Inslee
Governor
