BRIEF DESCRIPTION: Addressing prescription drug cost transparency.

1       AN ACT Relating to prescription drug cost transparency;  
2 reenacting and amending RCW 74.09.215; adding a new chapter to Title  
3 43 RCW; and prescribing penalties.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5       NEW SECTION. **Sec. 1.** FINDINGS. The legislature finds that the  
6 state of Washington has substantial public interest in the following:

7       (1) The price and cost of prescription drugs. Washington state is  
8 a major purchaser through the department of corrections, the health  
9 care authority, and other entities acting on behalf of a state  
10 purchaser;

11       (2) Enacting this chapter to provide notice and disclosure of  
12 information relating to the cost and pricing of prescription drugs in  
13 order to provide accountability to the state for prescription drug  
14 pricing;

15       (3) Rising drug costs and consumer ability to access prescription  
16 drugs; and

17       (4) Containing prescription drug costs. It is essential to  
18 understand the drivers and impacts of these costs, as transparency is  
19 typically the first step toward cost containment and greater consumer  
20 access to needed prescription drugs.

15 drugs, as well as biological products.

16       (8) "Wholesale acquisition cost" or "price" means, with respect  
17 to a prescription drug, the manufacturer's list price for the drug to

20 for which the information is available, as reported in wholesale  
21 price guides or other publications of prescription drug pricing.
