

Ten Year History of K-12 Capital Budget Appropriations

Ten Years of K12 Capital Appropriations

\$ Millions Total Funds

Total = \$3.9 Billion
18% of All Capital appropriations

**Over 90% has
help build new
schools and
modernize and
repair existing
schools**

K-12 Capital Budget Questions

- How should capital budget decisions support K-12 policy objectives and student outcomes?
- How to balance local control by school boards in the design and construction of their schools with the need to meet basic requirements?
- How to improve information about availability and condition of school facilities necessary to meet basic requirements?
