

Committee Electronic Sign-In (CSI)

The Committee Electronic Sign-in application (CSI) allows people to electronically sign in for public hearings in most Senate committees. After signing in to testify or indicate your position, the information is transmitted to committee staff. The information you provide becomes part of the public record of the hearing.

There are three restrictions regarding use of electronic sign-in:

- Sign-in is only available on the day of the hearing.
- You must be on the capitol campus. If using a personal mobile device, you must be connected to the Legislature's WSLPublic wireless network.
- The agenda items must still be open for testimony.

Signing in Using CSI

1. Open CSI using one of the following methods:
 - If using your own device, log in to the WSLPublic wireless network, accept the user agreement if prompted and navigate to <https://app.leg.wa.gov/CSI> or scan the QR code below.
 - If using a public access terminal on the legislative campus, click the icon on the desktop. (The application may already be open.)

Locations of Public Access Terminals:
 - Senate Hearing Rooms 1, 2, 3, and 4
 - Either end of the Cherberg Building main hallway
 - Two Legislative Information Center areas:
 - First floor of the Legislative Building
 - First floor of the Pritchard Building

Creating a personal account allows you to:

- Save multiple profiles and contact info for different organizations
- Edit or delete your entry before the hearing has begun
- View your sign-in history for the current year

Restrictions on accounts:

- Accounts are only available from a personal web-enabled device (smartphone, laptop, etc.). For security reasons, accounts are not available at the public kiosks on campus.
