FIFTY SECOND DAY, MARCH 1, 2017

2017 REGULAR SESSION

The measure was read the second time.

MOTION

Senator Schoesler moved that the following committee amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 8. The legislature finds that the prohibition on the use of public resources for campaign purposes serves an important purpose, but that the period prohibiting state legislators from communicating with constituents at public expense is unnecessary once the election, and the campaign itself, has ended. Furthermore, the delay in constituent outreach after the election only hinders a legislator's ability to quickly and effectively respond to requests and keep the public informed about current state issues, and the various deadlines relating to mailed, emailed, and web site communications are confusing and need to be harmonized. For these reasons, the legislature intends to change mailed, emailed, and web site communication deadlines to the same time periods, in order to allow legislators to actively engage with the public on official legislative business in a timely and effective manner.

Sec. 9. RCW 42.52.180 and 2011 c 60 s 30 are each amended to read as follows:

(1) No state officer or state employee may use or authorize the use of facilities of an agency, directly or indirectly, for the purpose of assisting a campaign for election of a person to an office or for the promotion of or opposition to a ballot proposition. Knowing acquiescence by a person with authority to direct, control, or influence the actions of the state officer or state employee using public resources in violation of this section constitutes a violation of this section. Facilities of an agency include, but are not limited to, use of stationery, postage, machines, and equipment, use of state employees of the agency during working hours, vehicles, office space, publications of the agency, and clientele lists of persons served by the agency.

(2) This section shall not apply to the following activities:

(a) Action taken at an open public meeting by members of an elected legislative body to express a collective decision, or to actually vote upon a motion, proposal, resolution, order, or ordinance, or to support or oppose a ballot proposition as long as (i) required notice of the meeting includes the title and number of the ballot proposition, and (ii) members of the legislative body or members of the public are afforded an approximately equal opportunity for the expression of an opposing view;

(b) A statement by an elected official in support of or in opposition to any ballot proposition at an open press conference or in response to a specific inquiry. For the purposes of this subsection, it is not a violation of this section for an elected official to respond to an inquiry regarding a ballot proposition, to make incidental remarks concerning a ballot proposition in an official communication, or otherwise comment on a ballot proposition without an actual, measurable expenditure of public funds. The ethics boards shall adopt by rule a definition of measurable expenditure;

(c) The maintenance of official legislative web sites throughout the year, regardless of pending elections. The web sites may contain any discretionary material which was also specifically prepared for the legislator in the course of his or her duties as a legislator, including newsletters and press releases. The official legislative web sites of legislators seeking reelection or election to any office shall not be altered (~~between June 30th and November 15th~~), other than during a special legislative

session, beginning on the first day of the declaration of candidacy filing period specified in RCW 29A.24.050 through the date of certification of the general election of the election year. The web site shall not be used for campaign purposes;

(d) Activities that are part of the normal and regular conduct of the office or agency; and

(e) De minimis use of public facilities by statewide elected officials and legislators incidental to the preparation or delivery of permissible communications, including written and verbal communications initiated by them of their views on ballot propositions that foreseeably may affect a matter that falls within their constitutional or statutory responsibilities.

(3) As to state officers and employees, this section operates to the exclusion of RCW 42.17A.555.

Sec. 10. RCW 42.52.185 and 2011 c 60 s 31 are each amended to read as follows:

(1) During the (~~twelve-month~~) period beginning on December 1st of the year before a general election for a state legislator's election to office and continuing through (~~November 30th immediately after~~) the date of certification of the general election, the legislator may not mail, either by regular mail or (~~electronic mail~~) email, to a constituent at public expense a letter, newsletter, brochure, or other piece of literature, except for routine legislative correspondence, such as scheduling, and as follows:

(a) The legislator may mail two mailings of newsletters to constituents. All newsletters within each mailing of newsletters must be identical as to their content but not as to the constituent name or address. (~~One such mailing may be mailed no later than thirty days after the start of a regular legislative session, except that a legislator appointed during a regular legislative session to fill a vacant seat may have up to thirty days from the date of appointment to send out the first mailing. The other~~) Both mailings (~~may~~) must be mailed (~~no later than sixty days after the end of a regular legislative session~~) before the first day of the declaration of candidacy filing period specified in RCW 29A.24.050.

(b) The legislator may mail an individual letter to (i) an individual constituent who has contacted the legislator regarding the subject matter of the letter during the legislator's current term of office; (ii) an individual constituent who holds a governmental office with jurisdiction over the subject matter of the letter; or (iii) an individual constituent who has received an award or honor of extraordinary distinction of a type that is sufficiently infrequent to be noteworthy to a reasonable person, including, but not limited to: (A) An international or national award such as the Nobel prize or the Pulitzer prize; (B) a state award such as Washington scholar; (C) an Eagle Scout award; and (D) a Medal of Honor.

(c) In those cases where constituents have specifically indicated that they would like to be contacted to receive regular or periodic updates on legislative matters or been added to a distribution list and provided regular opportunities to unsubscribe from that mailing list, legislators may provide such updates by (~~electronic mail~~) email throughout the legislative session and up until (~~thirty days from the conclusion of a legislative session~~) the first day of the declaration of candidacy filing period specified in RCW 29A.24.050. Legislators may also provide these updates by email during any special legislative session.

(2) (~~For purposes of subsection (1) of this section, "legislator" means a legislator who is a "candidate," as defined by RCW 42.17A.005, for any public office.~~

(3)) A violation of this section constitutes use of the facilities of a public office for the purpose of assisting a campaign under RCW 42.52.180.

~~((4))~~ (3) The house of representatives and senate shall specifically limit expenditures per member for the total cost of mailings. Those costs include, but are not limited to, production costs, printing costs, and postage costs. The limits imposed under this subsection apply only to the total expenditures on mailings per member and not to any categorical cost within the total.

~~((5))~~ (4) For purposes of this section~~((7))~~;

(a) "Legislator" means a legislator who is a "candidate," as defined in RCW 42.17A.005, for any public office; and

(b) Persons residing outside the legislative district represented by the legislator are not considered to be constituents, but students, military personnel, or others temporarily employed outside of the district who normally reside in the district are considered to be constituents.

(1) A court may order a child subject to a petition under RCW 28A.225.035 to do one or more of the following:

(a) Attend the child's current school, and set forth minimum attendance requirements, which shall not consider a suspension day as an unexcused absence;

(b) If there is space available and the program can provide educational services appropriate for the child, order the child to attend another public school, an alternative education program, center, a skill center, dropout prevention program, or another public educational program;

(c) Attend a private nonsectarian school or program including an education center. Before ordering a child to attend an approved or certified private nonsectarian school or program, the court shall: (i) Consider the public and private programs available; (ii) find that placement is in the best interest of the child; and (iii) find that the private school or program is willing to accept the child and will not charge any fees in addition to those established by contract with the student's school district. If the court orders the child to enroll in a private school or program, the child's school district shall contract with the school or program to provide educational services for the child. The school district shall not be required to contract for a weekly rate that exceeds the state general apportionment dollars calculated on a weekly basis generated by the child and received by the district. (e) Submit to a mental health evaluation or other diagnostic evaluation and adhere to the recommendations of the drug assessment, at no expense to the school, if the court finds on the court records that such evaluation is appropriate to the circumstances and behavior of the child, and will facilitate the child's compliance with the mandatory attendance law; or

(f) Submit to a temporary placement in a crisis residential center or a HOPE center if the court determines there is an immediate health and safety concern, or a family conflict with the need for mediation.

(2) If the child fails to comply with the court order, the court may ~~((order the child to be subject to detention, as provided in RCW 7.21.030(2)(e), or may))~~ impose alternatives to detention ~~((such as community restitution. Failure by a child to comply with an order issued under this subsection shall not be subject to detention for a period greater than that permitted pursuant to a civil contempt proceeding against a child under chapter 13.32A RCW. Detention ordered under this subsection may be for no longer than seven days. Detention ordered under this subsection shall preferably be served at a secure crisis residential center close to the child's home rather than in a juvenile detention facility. The court shall remit fifty percent of the fine collected under this section to the child's school district. It shall be a defense for a parent charged with violating RCW 28A.225.010 to show that he or she exercised reasonable

diligence in attempting to cause a child in his or her custody to attend school or that the child's school did not perform its duties as required in RCW 28A.225.020. The court may order the parent to provide community restitution instead of imposing a fine. Any fine imposed pursuant to this section may be suspended upon the condition that a parent charged with violating RCW 28A.225.010 shall participate with the school and the child in a supervised plan for the child's attendance at school or upon condition that the parent attend a conference or conferences scheduled by a school for the purpose of analyzing the causes of a child's absence.

(4) If a child continues to be truant after entering into a court-approved order with the truancy board under RCW 28A.225.035, the juvenile court shall find the child in contempt, and the court may ~~((order the child to be subject to detention, as provided in RCW 7.21.030(2)(c), or may)) impose alternatives to detention ((such as meaningful community restitution. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) ((The director)) In consultation with the department and upon delegation, a state agency shall appoint a loss prevention review team when the death of a person, serious injury to a person, or other substantial loss is alleged or suspected to be caused at least in part by the actions of a state agency((, unless the director in his or her discretion determines that the incident does not merit review)) except when the death, injury, or substantial loss is already being investigated by another federal or state agency or by the affected state agency pursuant to the federal or state agency requirements including the provisions required under chapter 70.56 RCW. Investigations made pursuant to chapter 70.56 RCW shall continue to be subject to the investigative, reporting, and confidentiality requirements under chapter 70.56 RCW, RCW 43.70.510 and 70.41.200, and the requirements of the department of health. The department may provide guidance to the state agency conducting the loss prevention review as requested by the state agency.

(2) A loss prevention review team shall consist of at least three ((but no more than five)) persons, and may include independent consultants, contractors, or state employees, but it shall not include any person ((employed by the agency)) directly involved in the loss or risk of loss giving rise to the review, nor any person with testimonial knowledge of the incident to be reviewed. At least one member of the review team shall have expertise relevant to the matter under review.

(3) The loss prevention review team shall review the death, serious injury, or other incident and the circumstances surrounding it, evaluate its causes, and recommend steps to reduce the risk of such incidents occurring in the future. the loss or risk of loss ((within the time requested by the director)). The report must include the teams' findings, analyze the causes and contributing factors, analyze future risk, include methods that the agency will use to address and mitigate the risks identified, which may include changes to policies or procedures, and any legislative recommendation necessary to address and carry out the risk treatment strategies identified in the subject report and include the manner in which the agency will measure the effectiveness of its changes. The final report shall not disclose the contents of any documents required by law or regulation to be kept private or confidential, or that are subject to legal privilege or exemption. Reports made by medical facilities under the requirements of chapter 70.56 RCW shall remain subject to the confidentiality provisions, privileges, and exemptions described in chapter 70.56 RCW and RCW 43.70.510, 42.56.360, and 70.41.200, and be provided to the department of health.

(4) ((Pursuant to guidelines established by the director,)) The director may develop and enact rules to implement the provisions of this chapter that apply to all state agency loss prevention review teams. State agencies must notify the department immediately upon becoming aware of a death, serious injury, or other substantial loss that is alleged or suspected to be caused at least in part by the actions of the state agency.

(5) All state agencies shall provide the loss prevention review team ready access to relevant documents in their possession and ready access to their employees.

(6) The director shall submit an annual report to the legislature identifying the reviews conducted in the past year, providing appropriate metrics on effectiveness and efficiency of the loss prevention review team and programs, and summarizing any determinations of trends in incidents such as reductions or increases in the frequency or magnitude of losses and innovative approaches to mitigating risks identified.

Sec. 8. RCW 43.19.783 and 2011 1st sp.s. c 43 s 509 are each amended to read as follows:

(1) The final report from ((a)) the state agency's loss prevention review team to the director shall be made public by the director promptly ((upon receipt)) after review, and shall be subject to public disclosure. The final report shall be subject to discovery in a civil or administrative proceeding. However, the final report shall not be admitted into evidence or otherwise used in a civil or administrative proceeding except pursuant to subsection (2) of this section.

(2) The relevant excerpt or excerpts from the final report of a loss prevention review team may be used to impeach a fact witness in a civil or administrative proceeding only if the party wishing to use the excerpt or excerpts from the report first shows the court by clear and convincing evidence that the witness, in testimony provided in deposition or at trial in the present proceeding, has contradicted his or her previous statements to the loss prevention review team on an issue of fact material to the present proceeding. In that case, the party may use only the excerpt or excerpts necessary to demonstrate the contradiction. This section shall not be interpreted as expanding the scope of material that may be used to impeach a witness.

(3) No member of a loss prevention review team may be examined in a civil or administrative proceeding as to (a) the work of the loss prevention review team, (b) the incident under review, (c) his or her statements, deliberations, thoughts, analyses, or impressions relating to the work of the loss prevention review team or the incident under review, or (d) the statements, deliberations, thoughts, analyses, or impressions of any other member of the loss prevention review team, or any person who provided information to it, relating to the work of the loss prevention review team or the incident under review.

(4) Any document that exists prior to the appointment of a loss prevention review team, or that is created independently of such a team, does not become inadmissible merely because it is reviewed or used by the loss prevention review team. A person does not become unavailable as a witness merely because the person has been interviewed by or has provided a statement to a loss prevention review team. However, if called as a witness, the person may not be examined regarding the person's interactions with the loss prevention review team, including without limitation whether the loss prevention review team interviewed the person, what questions the loss prevention review team asked, and what answers the person provided to the loss prevention review team. This section shall not be construed as restricting the person from testifying fully in any proceeding regarding his or her knowledge of the incident under review.

(5) Documents prepared by or for the loss prevention review team are inadmissible and may not be used in a civil or administrative proceeding, except that excerpts may be used to impeach the credibility of a witness under the same circumstances that excerpts of the final report may be used pursuant to subsection (2) of this section.

(6) The restrictions set forth in this section shall not apply in a licensing or disciplinary proceeding arising from an agency's effort to revoke or suspend the license of any licensed professional based in whole or in part upon allegations of wrongdoing in connection with the death, injury, or other incident reviewed by the loss prevention review team.

(7) ((Within one hundred twenty days after completion of the final report of a loss prevention review team, the agency under review shall issue to the department a response to the report. The response will indicate (a) which of the report's recommendations the agency hopes to implement, (b) whether implementation of those recommendations will require additional funding or legislation, and (c) whatever other information the director may require. This response shall be considered part of the final report and shall be subject to all provisions of this section that apply to the final report, including without limitation the restrictions on admissibility and use in civil or administrative proceedings and the obligation of the director to make the final report public.

(8))) Nothing in RCW ((43.41.370)) 43.19.782 or this section is intended to limit the scope of a legislative inquiry into or review of an incident that is the subject of a loss prevention review.

((9))) (8) Nothing in RCW ((43.41.370)) 43.19.782 or in this section affects chapter 70.41 RCW and application of that chapter to state-owned or managed hospitals licensed under chapter 70.41 RCW."

(1) Each qualifying utility shall pursue all available conservation that is cost-effective, reliable, and feasible.

(a) By January 1, 2010, using methodologies consistent with those used by the Pacific Northwest electric power and conservation planning council in the most recently published regional power plan as it existed on June 12, 2014, or a subsequent date as may be provided by the department or the commission by rule, each qualifying utility shall identify its achievable cost-effective conservation potential through 2019. Nothing in the rule adopted under this subsection precludes a qualifying utility from using its utility specific conservation measures, values, and assumptions in identifying its achievable cost-effective conservation potential. At least every two years thereafter, the qualifying utility shall review and update this assessment for the subsequent ten-year period.

(b) Beginning January 2010, each qualifying utility shall establish and make publicly available a biennial acquisition target for cost-effective conservation consistent with its identification of achievable opportunities in (a) of this subsection, and meet that target during the subsequent two-year period. At a minimum, each biennial target must be no lower than the qualifying utility's pro rata share for that two-year period of its cost-effective conservation potential for the subsequent ten-year period.

(c)(i) Except as provided in (c)(ii) and (iii) of this subsection, beginning on January 1, 2014, cost-effective conservation achieved by a qualifying utility in excess of its biennial acquisition target may be used to help meet the immediately subsequent two biennial acquisition targets, such that no more than twenty percent of any biennial target may be met with excess conservation savings.

(ii) Beginning January 1, 2014, a qualifying utility may use single large facility conservation savings in excess of its biennial target to meet up to an additional five percent of the immediately subsequent two biennial acquisition targets, such that no more than twenty-five percent of any biennial target may be met with excess conservation savings allowed under all of the provisions of this section combined. For the purposes of this subsection (1)(c)(ii), "single large facility conservation savings" means cost-effective conservation savings achieved in a single biennial period at the premises of a single customer of a qualifying utility whose annual electricity consumption prior to the conservation savings exceeded five average megawatts.

(iii) Beginning January 1, 2012, and until December 31, 2017, a qualifying utility with an industrial facility located in a county with a population between ninety-five thousand and one hundred fifteen thousand that is directly interconnected with electricity facilities that are capable of carrying electricity at transmission voltage(,) may use cost-effective conservation from that industrial facility in excess of its biennial acquisition target to help meet the immediately subsequent two biennial acquisition targets, such that no more than twenty-five percent of any biennial target may be met with excess conservation savings allowed under all of the provisions of this section combined.

FIFTY SECOND DAY, MARCH 1, 2017

2017 REGULAR SESSION

(d) In meeting its conservation targets, a qualifying utility may count high-efficiency cogeneration owned and used by a retail electric customer to meet its own needs. High-efficiency cogeneration is the sequential production of electricity and useful thermal energy from a common fuel source, where, under normal operating conditions, the facility has a useful thermal energy output of no less than thirty-three percent of the total energy output. The reduction in load due to high-efficiency cogeneration shall be: (i) Calculated as the ratio of the fuel chargeable to power heat rate of the cogeneration facility compared to the heat rate on a new and clean basis of a best-commercially available technology combined-cycle natural gas-fired combustion turbine; and (ii) counted towards meeting the biennial conservation target in the same manner as other conservation savings.

(e) The commission may determine if a conservation program implemented by an investor-owned utility is cost-effective based on the commission's policies and practice.

(f) The commission may rely on its standard practice for review and approval of investor-owned utility conservation targets.

(2)(a) Except as provided in (j) of this subsection, each qualifying utility shall use eligible renewable resources or acquire equivalent renewable energy credits, or any combination of them, to meet the following annual targets:

(i) At least three percent of its load by January 1, 2012, and each year thereafter through December 31, 2015;

(ii) At least nine percent of its load by January 1, 2016, and each year thereafter through December 31, 2019; and

(iii) At least fifteen percent of its load by January 1, 2020, and each year thereafter.

(b) A qualifying utility may count distributed generation at double the facility's electrical output if the utility: (i) Owns or has contracted for the distributed generation and the associated renewable energy credits; or (ii) has contracted to purchase the associated renewable energy credits.

(c) In meeting the annual targets in (a) of this subsection, a qualifying utility shall calculate its annual load based on the average of the utility's load for the previous two years.

(d) A qualifying utility shall be considered in compliance with an annual target in (a) of this subsection if: (i) The utility's weather-adjusted load for the previous three years on average did not increase over that time period; (ii) after December 7, 2006, the utility did not commence or renew ownership or incremental purchases of electricity from resources other than coal transition power or renewable resources other than on a daily spot price basis and the electricity is not offset by equivalent renewable energy credits; and (iii) the utility invested at least one percent of its total annual retail revenue requirement that year on eligible renewable resources, renewable energy credits, or a combination of both.

(e) The requirements of this section may be met for any given year with renewable energy credits produced during that year, the preceding year, or the subsequent year. Each renewable energy credit may be used only once to meet the requirements of this section.

(f) In complying with the targets established in (a) of this subsection, a qualifying utility may not count:

(i) Eligible renewable resources or distributed generation where the associated renewable energy credits are owned by a separate entity; or

(ii) Eligible renewable resources or renewable energy credits obtained for and used in an optional pricing program such as the program established in RCW 19.29A.090.

(g) Where fossil and combustible renewable resources are cofired in one generating unit located in the Pacific Northwest

where the cofiring commenced after March 31, 1999, the unit shall be considered to produce eligible renewable resources in direct proportion to the percentage of the total heat value represented by the heat value of the renewable resources.

(h)(i) A qualifying utility that acquires an eligible renewable resource or renewable energy credit may count that acquisition at one and two-tenths times its base value:

(A) Where the eligible renewable resource comes from a facility that commenced operation after December 31, 2005; and

(B) Where the developer of the facility used apprenticeship programs approved by the council during facility construction.

(ii) The council shall establish minimum levels of labor hours to be met through apprenticeship programs to qualify for this extra credit.

(i) A qualifying utility shall be considered in compliance with an annual target in (a) of this subsection if events beyond the reasonable control of the utility that could not have been reasonably anticipated or ameliorated prevented it from meeting the renewable energy target. Such events include weather-related damage, mechanical failure, strikes, lockouts, and actions of a governmental authority that adversely affect the generation, transmission, or distribution of an eligible renewable resource under contract to a qualifying utility.

(j)(i) Beginning January 1, 2016, only a qualifying utility that owns or is directly interconnected to a qualified biomass energy facility may use qualified biomass energy to meet its compliance obligation under this subsection.

(ii) A qualifying utility may no longer use electricity and associated renewable energy credits from a qualified biomass energy facility if the associated industrial pulping or wood manufacturing facility ceases operation other than for purposes of maintenance or upgrade.

(k) An industrial facility that hosts a qualified biomass energy facility may only transfer or sell renewable energy credits associated with qualified biomass energy generated at its facility to the qualifying utility with which it is directly interconnected with facilities owned by such a qualifying utility and that are capable of carrying electricity at transmission voltage. The qualifying utility may only use an amount of renewable energy credits associated with qualified biomass energy that are equivalent to the proportionate amount of its annual targets under (a)(ii) and (iii) of this subsection that was created by the load of the industrial facility. A qualifying utility that owns a qualified biomass energy facility may not transfer or sell renewable energy credits associated with qualified biomass energy to another person, entity, or qualifying utility.

(3) Utilities that become qualifying utilities after December 31, 2006, shall meet the requirements in this section on a time frame comparable in length to that provided for qualifying utilities as of December 7, 2006.

Sec. 11. RCW 19.285.080 and 2007 c 1 s 8 are each amended to read as follows:

(1) The commission may adopt rules to ensure the proper implementation and enforcement of this chapter as it applies to investor-owned utilities.

(2) The department shall adopt rules concerning only process, timelines, and documentation to ensure the proper implementation of this chapter as it applies to qualifying utilities that are not investor-owned utilities. Those rules include, but are not limited to, rules associated with a qualifying utility's development of conservation targets under RCW 19.285.040(1); a qualifying utility's decision to pursue alternative compliance in RCW 19.285.040(2) (d) or (i) or 19.285.050(1); (and) the format and content of reports required in RCW 19.285.070; and the development of a methodology for calculating baseline levels

of generation under RCW 19.285.030(12)(f). Nothing in this subsection may be construed to restrict the rate-making authority of the commission or a qualifying utility as otherwise provided by law.

(3) The commission and department may coordinate in developing rules related to process, timelines, and documentation that are necessary for implementation of this chapter.

(4) Pursuant to the administrative procedure act, chapter 34.05 RCW, rules needed for the implementation of this chapter must be adopted by December 31, 2007. These rules may be revised as needed to carry out the intent and purposes of this chapter."

On page 1, line 3 of the title, after "independence act;" strike the remainder of the title and insert "and amending RCW 19.285.030, 19.285.040, and 19.285.080."

However, the commissioner's powers and duties granted by this subsection are discretionary and not mandatory.

(b) In establishing these maximum limits the commission shall take into account the amount of income received, or expected to be received, from the class of activities to which the

limits will apply and the amount of money the games could generate for authorized charitable or nonprofit purposes absent such expenses. The commission may also take into account, in its discretion, other factors, including but not limited to, the local prevailing wage scale and whether charitable purposes are benefited by the activities;

(17) To authorize, require, and issue for a period not to exceed one year such licenses or permits, for which the commission may by rule provide, to any person to work for any operator of any gambling activity authorized by this chapter in connection with that activity, or any manufacturer, supplier, or distributor of devices for those activities in connection with such business. (19) To establish guidelines for determining what constitutes active membership in bona fide nonprofit or charitable organizations for the purposes of this chapter;
