- (5) To determine risks, hazards, and liabilities in order to obtain insurance consistent with these determinations. This insurance may include any types of insurance covering, and for the benefit of, one or more parties with whom the authority contracts for any purpose, and insurance for the benefit of its board members, authority officers, and employees to insure against liability for acts or omissions while performing or in good faith purporting to perform their official duties. All insurance obtained for construction of authority projects with a total project cost exceeding one hundred million dollars may be acquired by bid or by negotiation through December 31, 2006. In order to allow the authority flexibility to secure appropriate insurance by negotiation, the authority is exempt from RCW 48.30.270.

RCW 81.112.070 General powers.

In addition to the powers specifically granted by this chapter an authority shall have all powers necessary to implement a high capacity transportation system and to develop revenues for system support. An authority may contract with the United States or any agency thereof, any state or agency thereof, any public transportation benefit area, any county, county transportation authority, city, metropolitan municipal corporation, special district, or governmental agency, within or without the state, and any private person, firm, or corporation for: (1) The purpose of receiving gifts or grants or securing loans or advances for preliminary planning and feasibility studies; (2) the design, construction, or operation of high capacity transportation system

facilities; or (3) the provision or receipt of services, facilities, or property rights to provide revenues for the system. An authority shall have the power to contract pursuant to RCW 39.33.050. In addition, an authority may contract with any governmental agency or with any private person, firm, or corporation for the use by either contracting party of all or any part of the facilities, structures, lands, interests in lands, air rights over lands and rights of way of all kinds which are owned, leased, or held by the other party and for the purpose of planning, constructing, or operating any facility or performing any service that the authority may be authorized to operate or perform, on such terms as may be agreed upon by the contracting parties. Before any contract for the lease or operation of any authority facilities is let to any private person, firm, or corporation, a general schedule of rental rates for equipment with or without operators applicable to all private certificated carriers shall be publicly posted, and for other facilities competitive bids shall first be called upon such notice, bidder qualifications, and bid conditions as the board shall determine. This shall allow use of negotiated procurements.

[1992 c 101 § 7.]

RCW 81.112.080 Additional powers--Acquisition of facilities--Disposal of property--Rates, tolls, fares, charges.

An authority shall have the following powers in addition to the general powers granted by this chapter:

- (1) To carry out the planning processes set forth in RCW 81.104.100;
- (2) To acquire by purchase, condemnation, gift, or grant and to lease, construct, add to, improve, replace, repair, maintain, operate, and regulate the use of high capacity transportation facilities and properties within authority boundaries including surface, underground, or overhead railways, tramways, busways, buses, bus sets, entrained and linked buses, ferries, or other means of local transportation except taxis, and including escalators, moving sidewalks, personal rapid transit systems or other people-moving systems, passenger terminal and parking facilities and properties, and such other facilities and properties as may be necessary for passenger, vehicular, and vessel access to and from such people-moving systems, terminal and parking facilities and properties, together with all lands, rights of way, property, equipment, and accessories necessary for such high capacity transportation systems. When developing specifications for high capacity transportation system operating equipment, an authority shall take into account efforts to establish or sustain a domestic manufacturing capacity for such equipment. The right of eminent domain shall be exercised by an authority in the same manner and by the same procedure as or may be provided by law for cities of the first class, except insofar as such laws may be inconsistent with the provisions of this chapter. Public transportation facilities and properties which are owned by any city, county, county transportation authority, public transportation benefit area, or metropolitan municipal corporation may be acquired or used by an authority only with the consent of the agency owning such facilities. Such agencies are hereby authorized to convey or lease such facilities to an authority or to contract for their joint use on such terms as may be fixed by agreement between the agency and the authority.

The facilities and properties of an authority whose vehicles will operate primarily within

the rights of way of public streets, roads, or highways, may be acquired, developed, and operated without the corridor and design hearings that are required by RCW 35.58.273 for mass transit facilities operating on a separate right of way;

(3) To dispose of any real or personal property acquired in connection with any authority function and that is no longer required for the purposes of the authority, in the same manner as provided for cities of the first class. When an authority determines that a facility or any part thereof that has been acquired from any public agency without compensation is no longer required for authority purposes, but is required by the agency from which it was acquired, the authority shall by resolution transfer it to such agency;

(4) To fix rates, tolls, fares, and charges for the use of such facilities and to establish various routes and classes of service. Fares or charges may be adjusted or eliminated for any distinguishable class of users.

[1992 c 101 § 8.]

RCW 81.112.090 Agreements with operators of high capacity transportation services.

Except in accordance with an agreement made as provided in this section, upon the date an authority begins high capacity transportation service, no person or private corporation may operate a high capacity transportation service within the authority boundary with the exception of services owned or operated by any corporation or organization solely for the purposes of the corporation or organization and for the use of which no fee or fare is charged.

The authority and any person or corporation legally operating a high capacity transportation service wholly within or partly within and partly without the authority boundary on the date an authority begins high capacity transportation service may enter into an agreement under which such person or corporation may continue to operate such service or any part thereof for such time and upon such terms and conditions as provided in such agreement. Such agreement shall provide for a periodic review of the terms and conditions contained therein. Where any such high capacity transportation service will be required to cease to operate within the authority boundary, the authority may agree with the owner of such service to purchase the assets used in providing such service, or if no agreement can be reached, an authority shall condemn such assets in the manner and by the same procedure as is or may be provided by law for the condemnation of other properties for cities of the first class, except insofar as such laws may be inconsistent with this chapter.

Wherever a privately owned public carrier operates wholly or partly within an authority boundary, the Washington utilities and transportation commission shall continue to exercise jurisdiction over such operation as provided by law.

[1992 c 101 § 9.]

RCW 81.112.100 Transfer of local government powers to authority.

An authority shall have and exercise all rights with respect to the construction, acquisition, maintenance, operation, extension, alteration, repair, control and management of

high capacity transportation system facilities that are identified in the system plan developed pursuant to RCW 81.104.100 that any city, county, county transportation authority, metropolitan municipal corporation, or public transportation benefit area within the authority boundary has been previously empowered to exercise and such powers shall not thereafter be exercised by such agencies without the consent of the authority. Nothing in this chapter shall restrict development, construction, or operation of a personal rapid transit system by a city or county.

An authority may adopt, in whole or in part, and may complete, modify, or terminate any planning, environmental review, or procurement processes related to the high capacity transportation system that had been commenced by a joint regional policy committee or a city, county, county transportation authority, metropolitan municipality, or public transportation benefit area prior to the formation of the authority.

[1992 c 101 § 10.]

RCW 81.112.110 Acquisition of existing system--Components.

If an authority acquires any existing components of a high capacity transportation system, it shall assume and observe all existing labor contracts relating to the transportation system and, to the extent necessary for operation of facilities, all of the employees of such acquired transportation system whose duties are necessary to operate efficiently the facilities acquired shall be appointed to comparable positions to those which they held at the time of such transfer, and no employee or retired or pensioned employee of such transportation systems shall be placed in any worse position with respect to pension seniority, wages, sick leave, vacation or other benefits that he or she enjoyed as an employee of the transportation system prior to such acquisition. At such times as may be required by such contracts, the authority shall engage in collective bargaining with the duly appointed representatives of any employee labor organization having existing contracts with the acquired transportation system and may enter into labor contracts with such employee labor organization. Facilities and equipment which are acquired after July 1, 1993, related to high capacity transportation services which are to be assumed by the authority as specifically identified in the adopted system plan shall be acquired by the authority in a manner consistent with RCW 81.112.070 through 81.112.100.

[1992 c 101 § 11.]

RCW 81.112.120 Treasurer--Funds--Auditor--Bond.

The board of an authority, by resolution, shall designate a person having experience in financial or fiscal matters as treasurer of the authority. The board may designate, with the concurrence of the treasurer, the treasurer of a county within which the authority is located. Such a treasurer shall possess all of the powers, responsibilities, and duties the county treasurer possesses for a public transportation benefit area authority related to investing surplus authority funds. The board shall require a bond with a surety company authorized to do business in the state of Washington in an amount and under the terms and conditions the board, by resolution, from time to time finds will protect the authority against loss. The premium on any such bond

shall be paid by the authority.

All authority funds shall be paid to the treasurer and shall be disbursed by the treasurer only on warrants issued by the authority upon orders or vouchers approved by the board.

The treasurer shall establish a special fund, into which shall be paid all authority funds, and the treasurer shall maintain such special accounts as may be created by the authority into which shall be placed all money as the board may, by resolution, direct.

If the treasurer of the authority is the treasurer of a county, all authority funds shall be deposited with the county depository under the same restrictions, contracts, and security as provided for county depositories. If the treasurer of the authority is some other person, all funds shall be deposited in such bank or banks authorized to do business in this state that have qualified for insured deposits under any federal deposit insurance act as the board, by resolution, shall designate.

The authority may by resolution designate a person having experience in financial or fiscal matters, as the auditor of the authority. Such auditor shall possess all of the powers, responsibilities, and duties related to creating and maintaining funds, issuing warrants, and maintaining a record of receipts and disbursements.

The board may provide and require a reasonable bond of any other person handling moneys or securities of the authority, but the authority shall pay the premium on the bond.

[1992 c 101 § 12.]

RCW 81.112.130 General obligation bonds.

Notwithstanding RCW 39.36.020(1), an authority may at any time contract indebtedness or borrow money for authority purposes and may issue general obligation bonds in an amount not exceeding, together with any existing indebtedness of the authority not authorized by the voters, one and one-half percent of the value of the taxable property within the boundaries of the authority; and with the assent of three-fifths of the voters therein voting at an election called for that purpose, may contract indebtedness or borrow money for authority purposes and may issue general obligation bonds therefor, provided the total indebtedness of the authority shall not exceed five percent of the value of the taxable property therein. Such bonds shall be issued and sold in accordance with chapter 39.46 RCW.

The term "value of the taxable property" shall have the meaning set forth in RCW 39.36.015.

[1992 c 101 § 13.]

RCW 81.112.140 Revenue bonds.

(1) An authority may issue revenue bonds to provide funds to carry out its authorized functions without submitting the matter to the voters of the authority. The authority shall create a special fund or funds for the sole purpose of paying the principal of and interest on the bonds of each such issue, into which fund or funds the authority may obligate itself to pay such amounts of the gross revenue of the high capacity transportation system constructed, acquired, improved,

added to, or repaired out of the proceeds of sale of such bonds, as the authority shall determine and may obligate the authority to pay such amounts out of otherwise unpledged revenue that may be derived from the ownership, use, or operation of properties or facilities owned, used, or operated incident to the performance of the authorized function for which such bonds are issued or out of otherwise unpledged fees, tolls, charges, tariffs, fares, rentals, special taxes, or other sources of payment lawfully authorized for such purpose, as the authority shall determine. The principal of, and interest on, such bonds shall be payable only out of such special fund or funds, and the owners of such bonds shall have a lien and charge against the gross revenue of such high capacity transportation system or any other revenue, fees, tolls, charges, tariffs, fares, special taxes, or other authorized sources pledged to the payment of such bonds.

Such revenue bonds and the interest thereon issued against such fund or funds shall be a valid claim of the owners thereof only as against such fund or funds and the revenue pledged therefor, and shall not constitute a general indebtedness of the authority.

(2) Notwithstanding subsection (1) of this section, such bonds may be issued and sold in accordance with chapter 39.46 RCW.

[1992 c 101 § 14.]

RCW 81.112.150 Local improvement districts authorized--Special assessment bonds.

(1) An authority may form a local improvement district to provide any transportation improvement it has the authority to provide, impose special assessments on all property specially benefited by the transportation improvements, and issue special assessment bonds or revenue bonds to fund the costs of the transportation improvement. Local improvement districts shall be created and assessments shall be made and collected pursuant to chapters 35.43, 35.44, 35.49, 35.50, 35.51, 35.53, and 35.54 RCW.

(2) The board shall by resolution establish for each special assessment bond issue the amount, date, terms, conditions, denominations, maximum fixed or variable interest rate or rates, maturity or maturities, redemption rights, registration privileges, if any, covenants, and form, including registration as to principal and interest, registration as to principal only, or bearer. Registration may include, but not be limited to: (a) A book entry system of recording the ownership of a bond whether or not physical bonds are issued; or (b) recording the ownership of a bond together with the requirement that the transfer of ownership may only be effected by the surrender of the old bond and either the reissuance of the old bond or the issuance of a new bond to the new owner. Facsimile signatures may be used on the bonds and any coupons. The maximum term of any special assessment bonds shall not exceed thirty years beyond the date of issue. Special assessment bonds issued pursuant to this section shall not be an indebtedness of the authority issuing the bonds, and the interest and principal on the bonds shall only be payable from special assessments made for the improvement for which the bonds were issued and any local improvement guaranty fund that the authority has created. The owner or bearer of a special assessment bond or any interest coupon issued pursuant to this section shall not have any claim against the authority arising from the bond or coupon except for the payment from special assessments made for the improvement for which the bonds were issued and any local

improvement guaranty fund the authority has created. The authority issuing the special assessment bonds is not liable to the owner or bearer of any special assessment bond or any interest coupon issued pursuant to this section for any loss occurring in the lawful operation of its local improvement guaranty fund. The substance of the limitations included in this subsection shall be plainly printed, written, or engraved on each special assessment bond issued pursuant to this section.

(3) Assessments shall reflect any credits given by the authority for real property or property right donations made pursuant to RCW 47.14.030.

(4) The board may establish and pay moneys into a local improvement guaranty fund to guarantee special assessment bonds issued by the authority.

[1992 c 101 § 15.]

RCW 81.112.160 County assessor's duties.

It shall be the duty of the assessor of each component county to certify annually to a regional transit authority the aggregate assessed valuation of all taxable property within the boundaries of the authority as the same appears from the last assessment roll of the county.

[1992 c 101 § 16.]

RCW 81.112.170 Interim financing.

A regional transit authority may apply for high capacity transportation account funds and for central Puget Sound account funds for high capacity transit planning and system development.

Transit agencies contained wholly or partly within a regional transit authority may make grants or loans to the authority for high capacity transportation planning and system development.

[1992 c 101 § 17.]

(1) Each regional transit authority that owns or operates a rail fixed guideway system as defined in RCW 81.104.015 shall submit a system safety and security program plan for that guideway to the state department of transportation by September 1, 1999, or at least three months before beginning operations or instituting revisions to its plan. This plan must describe the authority's procedures for (a) reporting and investigating reportable accidents, unacceptable hazardous conditions, and security breaches, (b) submitting corrective action plans and annual safety and security audit reports, (c) facilitating on-site safety and security reviews by the state department of transportation, and (d) addressing passenger and employee security. The plan must, at a minimum, conform to the standards adopted by the state department of transportation. If required by the department, the regional transit authority shall revise its plan to incorporate the

department's review comments within sixty days after their receipt, and resubmit its revised plan for review.

(2) Each regional transit authority shall implement and comply with its system safety and security program plan. The regional transit authority shall perform internal safety and security audits to evaluate its compliance with the plan, and submit its audit schedule to the department of transportation no later than December 15th each year. The regional transit authority shall prepare an annual report for its internal safety and security audits undertaken in the prior year and submit it to the department no later than February 15th. This annual report must include the dates the audits were conducted, the scope of the audit activity, the audit findings and recommendations, the status of any corrective actions taken as a result of the audit activity, and the results of each audit in terms of the adequacy and effectiveness of the plan.

(3) Each regional transit authority shall notify the department of transportation within twenty-four hours of an occurrence of a reportable accident, unacceptable hazardous condition, or security breach. The department may adopt rules further defining a reportable accident, unacceptable hazardous condition, or security breach. The regional transit authority shall investigate all reportable accidents, unacceptable hazardous conditions, or security breaches and provide a written investigation report to the department within forty-five calendar days after the reportable accident, unacceptable hazardous condition, or security breach.

(4) The security section of the safety and security plan required in subsection (1)(d) of this section is exempt from public disclosure under chapter 42.17 RCW. However, the activities and plans as described in subsections (1)(a), (b), and (c), (2), and (3) of this section are not subject to this exemption.

RCW 81.112.300 Sale and leaseback, similar transactions--Authorized.

(1) In order to enable regional transit authorities to acquire or finance equipment or facilities, or reduce the cost of equipment or facilities, regional transit authorities may enter into sale and leaseback, leaseout and leaseback, and other similar transactions with respect to equipment, facilities, and other real and personal property. In connection with any such transaction, a regional transit authority may execute, as it considers appropriate, contracts, agreements, notes, security agreements, conveyances, bills of sale, deeds, leases as lessee or lessor, and currency hedges, defeasance arrangements, interest rate, currency or other swap transactions, one or more payment undertaking agreements, and agreements relating to foreign and domestic currency. Notes:

Findings--2000 2nd sp.s. c 4 §§ 18-30: "The legislature finds that additional funds or other benefits can be made available to Washington regional transit authorities by facilitating their entry into sale and leaseback, leaseout and leaseback, and similar transactions that provide to private parties, in consideration for the funds or other benefits obtained by the regional transit authorities, tax benefits that are not otherwise available to regional transit authorities. The legislature further finds that such transactions have been encouraged by agencies of the federal government as ways to provide additional funds for public facilities. To facilitate such transactions for regional transit authorities, the legislature has determined that while regional transit authorities may currently have the necessary statutory authority and may currently enjoy exemptions from Washington state taxes for such transactions, an explicit statement of statutory authority and exemption from Washington state taxes is necessary and helpful for the parties to such transactions. In recognition of the complexity of such transactions, the legislature desires that the authority and exemptions provided by RCW 81.112.300, 81.112.310, 81.112.320, 82.08.834, 82.12.834, 82.04.050, 82.04.4201, 82.29A.134, 82.45.010, 84.36.605, 35.21.756, 35.21.755, and 81.112.330 be subject to certain limitations and be granted for a period as specified in RCW 81.112.330." [2000 2nd sp.s. c 4 § 31.]

RCW 81.112.310 Sale and leaseback--Conditions.

Transactions undertaken under RCW 81.112.300 are subject to the following conditions:

(1) The financial institution, insurance company, or other entity that enters into a payment undertaking agreement with the regional transit authority or public development corporation or entity created under RCW 81.112.320 as a counterparty must have a rating from at least two nationally recognized credit rating agencies, as of the date of execution of the payment undertaking agreement, that is within the two highest long-term investment grade rating categories, without regard to subcategories, or the obligations of the counterparty must be guaranteed by a financial institution, insurance company, or other entity with that credit rating. The payment undertaking agreement must require that the obligations of the counterparty or the guarantor, as the case may be, must be collateralized by collateral of a type and in an amount specified by the governing body of the regional transit authority if the credit ratings of the counterparty or its guarantor fall below the level required by this subsection.

(2) The amount to be paid by the counterparties under payment undertaking agreements for a transaction under the terms of the agreements, when combined with the amount of securities, deposits, and investments set aside by the regional transit authority for payment in respect of the transactions, together with interest or other earnings on the securities, deposits, or investments, must be sufficient to pay when due all amounts required to be paid by the regional transit authority, or public corporation or entity created under RCW 81.112.320, as rent, debt service, or installments of purchase price, as the case may be, over the full term of the transaction plus any optional purchase price due under the transaction. A certification by an independent financial expert, banker, or certified public accountant, who is not an employee of the regional transit authority or public corporation or entity created under RCW 81.112.320, certifying compliance with this requirement is conclusive evidence that the arrangements, by their terms, comply with the requirement under this subsection on the sufficiency of the amount.

(3) The payment undertaking agreements, and all other basic and material agreements entered into in connection with the transactions, must specify that the parties to the agreements

consent to the jurisdiction of state courts of Washington for disputes arising out of the agreements and agree not to contest venue before such courts. Regardless of the choice of law specified in the foregoing agreements, the agreements must acknowledge that the regional transit authority or public development corporation or entity created under RCW 81.112.320 that is a party to the agreements is an entity created under the laws of the state of Washington whose power and authority and limitations and restrictions on the power and authority are governed by the laws of the state of Washington.

Notes:

Effective date--1967 ex.s. c 26: See note following RCW 82.01.050.

RCW 82.02.020 State preempts certain tax fields--Fees prohibited for the development of land or buildings--Voluntary payments by developers authorized--Limitations--Exceptions.

Except only as expressly provided in chapters 67.28 and 82.14 RCW, the state preempts the field of imposing taxes upon retail sales of tangible personal property, the use of tangible personal property, parimutuel wagering authorized pursuant to RCW 67.16.060, conveyances,

and cigarettes, and no county, town, or other municipal subdivision shall have the right to impose taxes of that nature. Except as provided in RCW 82.02.050 through 82.02.090, no county, city, town, or other municipal corporation shall impose any tax, fee, or charge, either direct or indirect, on the construction or reconstruction of residential buildings, commercial buildings, industrial buildings, or on any other building or building space or appurtenance thereto, or on the development, subdivision, classification, or reclassification of land. However, this section does not preclude dedications of land or easements within the proposed development or plat which the county, city, town, or other municipal corporation can demonstrate are reasonably necessary as a direct result of the proposed development or plat to which the dedication of land or easement is to apply.

This section does not prohibit voluntary agreements with counties, cities, towns, or other municipal corporations that allow a payment in lieu of a dedication of land or to mitigate a direct impact that has been identified as a consequence of a proposed development, subdivision, or plat. A local government shall not use such voluntary agreements for local off-site transportation improvements within the geographic boundaries of the area or areas covered by an adopted transportation program authorized by chapter 39.92 RCW. Any such voluntary agreement is subject to the following provisions:

- (1) The payment shall be held in a reserve account and may only be expended to fund a capital improvement agreed upon by the parties to mitigate the identified, direct impact;
- (2) The payment shall be expended in all cases within five years of collection; and
- (3) Any payment not so expended shall be refunded with interest at the rate applied to judgments to the property owners of record at the time of the refund; however, if the payment is not expended within five years due to delay attributable to the developer, the payment shall be refunded without interest.

No county, city, town, or other municipal corporation shall require any payment as part of such a voluntary agreement which the county, city, town, or other municipal corporation cannot establish is reasonably necessary as a direct result of the proposed development or plat.

Nothing in this section prohibits cities, towns, counties, or other municipal corporations from collecting reasonable fees from an applicant for a permit or other governmental approval to cover the cost to the city, town, county, or other municipal corporation of processing applications, inspecting and reviewing plans, or preparing detailed statements required by chapter 43.21C RCW.

This section does not limit the existing authority of any county, city, town, or other municipal corporation to impose special assessments on property specifically benefitted thereby in the manner prescribed by law.

Nothing in this section prohibits counties, cities, or towns from imposing or permits counties, cities, or towns to impose water, sewer, natural gas, drainage utility, and drainage system charges: PROVIDED, That no such charge shall exceed the proportionate share of such utility or system's capital costs which the county, city, or town can demonstrate are attributable to the property being charged: PROVIDED FURTHER, That these provisions shall not be interpreted to expand or contract any existing authority of counties, cities, or towns to impose such charges.

Nothing in this section prohibits a transportation benefit district from imposing fees or charges authorized in RCW 36.73.120 nor prohibits the legislative authority of a county, city, or town from approving the imposition of such fees within a transportation benefit district.

Nothing in this section prohibits counties, cities, or towns from imposing transportation impact fees authorized pursuant to chapter 39.92 RCW.

Nothing in this section prohibits counties, cities, or towns from requiring property owners to provide relocation assistance to tenants under RCW 59.18.440 and 59.18.450.

This section does not apply to special purpose districts formed and acting pursuant to Titles 54, 57, or 87 RCW, nor is the authority conferred by these titles affected.

(1) It is the intent of the legislature:

(a) To ensure that adequate facilities are available to serve new growth and development;

(b) To promote orderly growth and development by establishing standards by which counties, cities, and towns may require, by ordinance, that new growth and development pay a proportionate share of the cost of new facilities needed to serve new growth and development; and

(c) To ensure that impact fees are imposed through established procedures and criteria so that specific developments do not pay arbitrary fees or duplicative fees for the same impact.

(2) Counties, cities, and towns that are required or choose to plan under RCW 36.70A.040 are authorized to impose impact fees on development activity as part of the financing for public facilities, provided that the financing for system improvements to serve new development must provide for a balance between impact fees and other sources of public funds and cannot rely solely on impact fees.

(3) The impact fees:

(a) Shall only be imposed for system improvements that are reasonably related to the new development;

(b) Shall not exceed a proportionate share of the costs of system improvements that are reasonably related to the new development; and

(c) Shall be used for system improvements that will reasonably benefit the new development.

(4) Impact fees may be collected and spent only for the public facilities defined in RCW 82.02.090 which are addressed by a capital facilities plan element of a comprehensive land use

plan adopted pursuant to the provisions of RCW 36.70A.070 or the provisions for comprehensive plan adoption contained in chapter 36.70, 35.63, or 35A.63 RCW. After the date a county, city, or town is required to adopt its development regulations under chapter 36.70A RCW, continued authorization to collect and expend impact fees shall be contingent on the county, city, or town adopting or revising a comprehensive plan in compliance with RCW 36.70A.070, and on the capital facilities plan identifying:

- (a) Deficiencies in public facilities serving existing development and the means by which existing deficiencies will be eliminated within a reasonable period of time;
- (b) Additional demands placed on existing public facilities by new development; and
- (c) Additional public facility improvements required to serve new development.

If the capital facilities plan of the county, city, or town is complete other than for the inclusion of those elements which are the responsibility of a special district, the county, city, or town may impose impact fees to address those public facility needs for which the county, city, or town is responsible.

RCW 82.02.060 Impact fees--Local ordinances--Required provisions.

The local ordinance by which impact fees are imposed:

(1) Shall include a schedule of impact fees which shall be adopted for each type of development activity that is subject to impact fees, specifying the amount of the impact fee to be imposed for each type of system improvement. The schedule shall be based upon a formula or other method of calculating such impact fees. In determining proportionate share, the formula or other method of calculating impact fees shall incorporate, among other things, the following:

- (a) The cost of public facilities necessitated by new development;
 - (b) An adjustment to the cost of the public facilities for past or future payments made or reasonably anticipated to be made by new development to pay for particular system improvements in the form of user fees, debt service payments, taxes, or other payments earmarked for or proratable to the particular system improvement;
 - (c) The availability of other means of funding public facility improvements;
 - (d) The cost of existing public facilities improvements; and
 - (e) The methods by which public facilities improvements were financed;
- (2) May provide an exemption for low-income housing, and other development activities with broad public purposes, from these impact fees, provided that the impact fees for such development activity shall be paid from public funds other than impact fee accounts;
- (3) Shall provide a credit for the value of any dedication of land for, improvement to, or

new construction of any system improvements provided by the developer, to facilities that are identified in the capital facilities plan and that are required by the county, city, or town as a condition of approving the development activity;

(4) Shall allow the county, city, or town imposing the impact fees to adjust the standard impact fee at the time the fee is imposed to consider unusual circumstances in specific cases to ensure that impact fees are imposed fairly;

(5) Shall include a provision for calculating the amount of the fee to be imposed on a particular development that permits consideration of studies and data submitted by the developer to adjust the amount of the fee;

(6) Shall establish one or more reasonable service areas within which it shall calculate and impose impact fees for various land use categories per unit of development;

(7) May provide for the imposition of an impact fee for system improvement costs previously incurred by a county, city, or town to the extent that new growth and development will be served by the previously constructed improvements provided such fee shall not be imposed to make up for any system improvement deficiencies.

RCW 82.02.070 Impact fees--Retained in special accounts--Limitations on use--Administrative appeals.

(1) Impact fee receipts shall be earmarked specifically and retained in special interest-bearing accounts. Separate accounts shall be established for each type of public facility for which impact fees are collected. All interest shall be retained in the account and expended for the purpose or purposes for which the impact fees were imposed. Annually, each county, city, or town imposing impact fees shall provide a report on each impact fee account showing the source and amount of all moneys collected, earned, or received and system improvements that were financed in whole or in part by impact fees.

(2) Impact fees for system improvements shall be expended only in conformance with the capital facilities plan element of the comprehensive plan.

(3) Impact fees shall be expended or encumbered for a permissible use within six years of receipt, unless there exists an extraordinary and compelling reason for fees to be held longer than six years. Such extraordinary or compelling reasons shall be identified in written findings by the governing body of the county, city, or town.

(4) Impact fees may be paid under protest in order to obtain a permit or other approval of development activity.

(5) Each county, city, or town that imposes impact fees shall provide for an administrative appeals process for the appeal of an impact fee; the process may follow the appeal process for the underlying development approval or the county, city, or town may establish a

separate appeals process. The impact fee may be modified upon a determination that it is proper to do so based on principles of fairness. The county, city, or town may provide for the resolution of disputes regarding impact fees by arbitration.

RCW 82.02.080 Impact fees--Refunds.

(1) The current owner of property on which an impact fee has been paid may receive a refund of such fees if the county, city, or town fails to expend or encumber the impact fees within six years of when the fees were paid or other such period of time established pursuant to RCW 82.02.070(3) on public facilities intended to benefit the development activity for which the impact fees were paid. In determining whether impact fees have been encumbered, impact fees shall be considered encumbered on a first in, first out basis. The county, city, or town shall notify potential claimants by first class mail deposited with the United States postal service at the last known address of claimants.

The request for a refund must be submitted to the county, city, or town governing body in writing within one year of the date the right to claim the refund arises or the date that notice is given, whichever is later. Any impact fees that are not expended within these time limitations, and for which no application for a refund has been made within this one-year period, shall be retained and expended on the indicated capital facilities. Refunds of impact fees under this subsection shall include interest earned on the impact fees.

(2) When a county, city, or town seeks to terminate any or all impact fee requirements, all unexpended or unencumbered funds, including interest earned, shall be refunded pursuant to this section. Upon the finding that any or all fee requirements are to be terminated, the county, city, or town shall place notice of such termination and the availability of refunds in a newspaper of general circulation at least two times and shall notify all potential claimants by first class mail to the last known address of claimants. All funds available for refund shall be retained for a period of one year. At the end of one year, any remaining funds shall be retained by the local government, but must be expended for the indicated public facilities. This notice requirement shall not apply if there are no unexpended or unencumbered balances within an account or accounts being terminated.

(3) A developer may request and shall receive a refund, including interest earned on the impact fees, when the developer does not proceed with the development activity and no impact has resulted.

RCW 82.02.090 Impact fees--Definitions.

Unless the context clearly requires otherwise, the following definitions shall apply in RCW 82.02.050 through 82.02.090:

(1) "Development activity" means any construction or expansion of a building, structure, or use, any change in use of a building or structure, or any changes in the use of land, that creates additional demand and need for public facilities.

(2) "Development approval" means any written authorization from a county, city, or town which authorizes the commencement of development activity.

(3) "Impact fee" means a payment of money imposed upon development as a condition of development approval to pay for public facilities needed to serve new growth and development, and that is reasonably related to the new development that creates additional demand and need for public facilities, that is a proportionate share of the cost of the public facilities, and that is used for facilities that reasonably benefit the new development. "Impact fee" does not include a reasonable permit or application fee.

(4) "Owner" means the owner of record of real property, although when real property is being purchased under a real estate contract, the purchaser shall be considered the owner of the real property if the contract is recorded.

(5) "Proportionate share" means that portion of the cost of public facility improvements that are reasonably related to the service demands and needs of new development.

(6) "Project improvements" mean site improvements and facilities that are planned and designed to provide service for a particular development project and that are necessary for the use and convenience of the occupants or users of the project, and are not system improvements. No improvement or facility included in a capital facilities plan approved by the governing body of the county, city, or town shall be considered a project improvement.

(7) "Public facilities" means the following capital facilities owned or operated by government entities: (a) Public streets and roads; (b) publicly owned parks, open space, and recreation facilities; (c) school facilities; and (d) fire protection facilities in jurisdictions that are not part of a fire district.

Credit for retail sales or use taxes paid to other jurisdictions with respect to property used: RCW 82.12.035.

"Services rendered in respect to" defined: RCW 82.04.051.

RCW 82.04.051 "Services rendered in respect to"--Taxation of hybrid or subsequent agreements.

(1) As used in RCW 82.04.050, the term "services rendered in respect to" means those services that are directly related to the constructing, building, repairing, improving, and decorating of buildings or other structures and that are performed by a person who is responsible for the performance of the constructing, building, repairing, improving, or decorating activity. The term does not include services such as engineering, architectural, surveying, flagging, accounting, legal, consulting, or administrative services provided to the consumer of, or person responsible for performing, the constructing, building, repairing, improving, or decorating services.

(2) A contract or agreement under which a person is responsible for both services that would otherwise be subject to tax as a service under RCW 82.04.290(2) and also constructing, building, repairing, improving, or decorating activities that would otherwise be subject to tax under another section of this chapter is subject to the tax that applies to the predominant activity under the contract or agreement.

(3) Unless otherwise provided by law, a contract or agreement under which a person is responsible for activities that are subject to tax as a service under RCW 82.04.290(2), and a subsequent contract or agreement under which the same person is responsible for constructing, building, repairing, improving, or decorating activities subject to tax under another section of this chapter, shall not be combined and taxed as a single activity if at the time of the first contract or agreement it was not contemplated by the parties, as evidenced by the facts, that the same person would be awarded both contracts.

(4) As used in this section "responsible for the performance" means that the person is obligated to perform the activities, either personally or through a third party. A person who reviews work for a consumer, retailer, or wholesaler but does not supervise or direct the work is not responsible for the performance of the work. A person who is financially obligated for the work, such as a bank, but who does not have control over the work itself is not responsible for the performance of the work.

[1999 c 212 § 2.]

Notes:

Finding--Intent--1999 c 212: "(1) The legislature finds that the taxation of "services rendered in respect to constructing buildings or other structures" has generally included the entire transaction for construction, including certain services provided directly to the consumer or owner rather than the person engaged in the performance of the constructing activity. Changes in business practices and recent administrative and court decisions have confused the issue. It is the intent of the legislature to clarify which services, if standing alone and not part of the construction agreement, are taxed as retail or wholesale sales, and which services will continue to be taxed as a service.

(2) It is further the intent of the legislature to confirm that the entire price for the construction of a building or other structure for a consumer or owner continues to be a retail sale, even though some of the individual services reflected in the price, if provided alone, would be taxed as services and not as separate retail or wholesale sales.

(3) Therefore, the intent of this act is to maintain the application of the law and not to extend retail treatment to activities not previously treated as retail activities. Services that are otherwise subject to tax as a service

under RCW 82.04.290(2), including but not limited to engineering, architectural, surveying, flagging, accounting, legal, consulting, or administrative services, remain subject to tax as a service under RCW 82.04.290(2), if the person responsible for the performance of those services is not also responsible for the performance of the constructing, building, repairing, improving, or decorating activities. Additionally, unless otherwise provided by law, a person entering into an agreement to be responsible for the performance of services otherwise subject to tax as a service under RCW 82.04.290(2), and subsequently entering into a separate agreement to be responsible for the performance of constructing, building, repairing, improving, or decorating activities, is subject to tax as a service under RCW 82.04.290(2) with respect to the first agreement, and is subject to tax under the appropriate section of chapter 82.04 RCW with respect to the second agreement, if at the time of the first agreement there was no contemplation by the parties, as evidenced by the facts, that the agreements would be awarded to the same person." Intent--1999 sp.s. c 9: "This act is intended to clarify that this is the intent of the legislature both retroactively and prospectively." [1999 sp.s. c 9 § 4.]

Severability--1999 sp.s. c 9: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1999 sp.s. c 9 § 5.]

Finding--Purpose--1989 c 302: "(1) The legislature finds that chapter 9, Laws of 1982 2nd ex. sess. was intended to extend state public utility taxation to electrical energy generated in this state for eventual distribution outside this state. The legislature further finds that chapter 9, Laws of 1982 2nd ex. sess. was held unconstitutional by the Thurston county superior court in *Washington Water Power v. State of Washington* (memorandum opinion No. 83-2-00977-1). The purpose of *Part I of this act is to recognize the effect of that decision by correcting the relevant RCW sections to read as though the legislature had not enacted chapter 9, Laws of 1982 2nd ex. sess., and thereby make clear the effect of subsequent amendments in *Part II of this act.

(2) The purpose of *Part II of this act is to provide a constitutional means of replacing the revenue lost as a result of the Washington Water Power decision." [1989 c 302 § 1.]

(a) Has less than one thousand five hundred connections; and

Notes:

Effective date--1998 c 316: "This act takes effect July 1, 1998." [1998 c 316 § 3.]

Findings--1997 c 407: "The legislature finds that encouraging water districts to better manage state water resources and encouraging satellite management of failing water systems is in the best interests of the people of Washington state. Continual updates of water quantity and quality, as mandated by federal and state agencies, have revealed that degradation of water quality exists in small water systems throughout the state and that satellite management and consolidation of small systems under a centralized management structure can best utilize existing resources available to assure safe, clean drinking water. The legislature further finds that costs involved in upgrading these small systems can be extremely burdensome to water customers and public water purveyors. With diminishing resources available to these small systems, the legislature finds that granting business and occupation and excise tax relief, under certain conditions, will assist smaller water districts to meet state and federal standards." [1997 c 407 § 1.]

[1980 c 37 § 2. Formerly RCW 82.04.430(1).]

NOTES:

Finding--Intent on application of deduction--2001 c 320: "The legislature finds that the application of the business and occupation tax deduction provided in RCW 82.04.4281 for investment income of persons other than those engaging in banking, loan, security, or other financial businesses has been the subject of disagreement between taxpayers and the state. Decisions of the supreme court have provided some broad guidelines and principles for interpretation of the deduction provided in RCW 82.04.4281, but these decisions have not provided

the certainty and clarity that is desired by taxpayers and the state. Therefore, it is the intent of the legislature to delay change in the manner or extent of taxation of the investment income until definitions or standards can be developed and enacted by the legislature." [2001 c 320 § 18.]

Reviser's note: 2001 c 320 § 19, which was vetoed May 15, 2001, would have implemented the intent in this section.

[2001 c 320 § 20.]

Intent--1980 c 37: "The separation of sales tax exemption, use tax exemption, and business and occupation deduction sections into shorter sections is intended to improve the readability and facilitate the future amendment of these sections. This separation shall not change the meaning of any of the exemptions or deductions involved." [1980 c 37 § 1.]

In computing tax there may be deducted from the measure of tax amounts derived from bona fide (1) initiation fees, (2) dues, (3) contributions, (4) donations, (5) tuition fees, (6) charges made by a nonprofit trade or professional organization for attending or occupying space at a trade show, convention, or educational seminar sponsored by the nonprofit trade or professional organization, which trade show, convention, or educational seminar is not open to the general public, (7) charges made for operation of privately operated kindergartens, and (8) endowment funds. This section shall not be construed to exempt any person, association, or society from tax liability upon selling tangible personal property or upon providing facilities or services for which a special charge is made to members or others. If dues are in exchange for any significant amount of goods or services rendered by the recipient thereof to members without any additional charge to the member, or if the dues are graduated upon the amount of goods or services rendered, the value of such goods or services shall not be considered as a deduction under this section.

NOTES:

Findings--2001 2nd sp.s. c 23: "The legislature finds that the deduction under the business and occupation tax statutes for compensation from public entities for health or social welfare services was intended to provide government with greater purchasing power when government provides financial support for the provision of health or social welfare services to benefited classes of persons. The legislature also finds that both the legislature and the United States congress have in recent years modified government-funded health care programs to encourage participation by beneficiaries in highly regulated managed care programs operated by persons who act as intermediaries between government entities and health or social welfare organizations. The legislature further finds

that the objective of these changes is again to extend the purchasing power of scarce government health care resources, but that this objective would be thwarted to a significant degree if the business and occupation tax deduction were lost by health or social welfare organizations solely on account of their participation in managed care for government-funded health programs. In keeping with the original purpose of the health or social welfare deduction, it is desirable to ensure that compensation received from government sources through contractual managed care programs also be deductible." Legislative findings and intent--1987 2nd ex.s. c 3: "The legislature finds that the invalidation of the multiple activities exemption contained in RCW 82.04.440 by the United States Supreme Court now requires adjustments to the state's business and occupation tax to achieve constitutional equality between Washington taxpayers who have conducted and will continue to conduct business in interstate and intrastate commerce. It is the intent of chapter 3, Laws of 1987 2nd ex. sess. and sections 4 through 7 of this act to preserve the integrity of Washington's business and occupation tax system and impose only that financial burden upon the state necessary to

establish parity in taxation between such taxpayers.

Thus, chapter 3, Laws of 1987 2nd ex. sess. and sections 4 through 7 of this act extends [extend] the system of credits originated in RCW 82.04.440 in 1985 to provide for equal treatment of taxpayers engaging in extracting, manufacturing or selling regardless of the location in which any of such activities occurs. It is further intended that RCW 82.04.440, as amended by section 2, chapter 3, Laws of 1987 2nd ex. sess. and sections 4 through 7 of this act, shall be construed and applied in a manner that will eliminate unconstitutional discrimination between taxpayers and ensure the preservation and collection of revenues from the conduct of multiple activities in which taxpayers in this state may engage." [1994 c 124 § 5; 1987 2nd ex.s. c 3 § 1.]

Application to prior reporting periods--1987 2nd ex.s. c 3: "If it is determined by a court of competent jurisdiction, in a judgment not subject to review, that relief is appropriate for any tax reporting periods before August 11, 1987, in respect to RCW 82.04.440 as it existed before August 11, 1987, it is the intent of the legislature that the credits provided in RCW 82.04.440 as amended by section 2, chapter 3, Laws of 1987 2nd ex. sess. and section 4 of this act shall be applied to such reporting periods and that relief for such periods be limited to the granting of such credits." [1994 c 124 § 6; 1987 2nd ex.s. c 3 § 3.]

Severability--1987 2nd ex.s. c 3: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1987 2nd ex.s. c 3 § 4.]

Severability--1985 c 190: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1985 c 190 § 8.]

RCW 82.04.4451 Credit against tax due--Maximum credit--Table.

(1) In computing the tax imposed under this chapter, a credit is allowed against the amount of tax otherwise due under this chapter, as provided in this section. The maximum credit for a taxpayer for a reporting period is thirty-five dollars multiplied by the number of months in the reporting period, as determined under RCW 82.32.045.

(2) When the amount of tax otherwise due under this chapter is equal to or less than the maximum credit, a credit is allowed equal to the amount of tax otherwise due under this chapter.

(3) When the amount of tax otherwise due under this chapter exceeds the maximum credit, a reduced credit is allowed equal to twice the maximum credit, minus the tax otherwise due under this chapter, but not less than zero.

(4) The department may prepare a tax credit table consisting of tax ranges using increments of no more than five dollars and a corresponding tax credit to be applied to those tax ranges. The table shall be prepared in such a manner that no taxpayer will owe a greater amount of tax by using the table than would be owed by performing the calculation under subsections (1) through (3) of this section. A table prepared by the department under this subsection shall be used by all taxpayers in taking the credit provided in this section.

Notes:

Findings--Intent--1997 c 238: "The legislature finds that many businesses have difficulty applying the small business credit under RCW 82.04.4451. Further, the legislature appreciates the valuable time and resources small businesses expend on calculating the amount of credit based upon a statutory formula. For the purpose of tax simplification, it is the intent of this act to direct the department of revenue to create a schedule, in standard increments, to replace required calculations for the small business credit. Each taxpayer can make reference to the

taxpayer's tax range on the schedule and find the amount of the taxpayer's small business credit. Further, no taxpayer will owe a greater amount of tax nor will any taxpayer be responsible for a greater amount of taxes otherwise due." [1997 c 238 § 1.]

Effective date--1994 sp.s. c 2: "This act shall take effect on July 1, 1994." [1994 sp.s. c 2 § 5.]

Application to reporting periods--1994 sp.s. c 2 § 1: "Section 1 of this act applies to the entire period of reporting periods ending after July 1, 1994." [1994 sp.s. c 2 § 6.]

**RCW 82.04.4452 Credit--Research and development spending--Assessment report.
(Expires December 31, 2004.)**

(1) In computing the tax imposed under this chapter, a credit is allowed for each person whose research and development spending during the year in which the credit is claimed exceeds 0.92 percent of the person's taxable amount during the same calendar year.

(2) The credit is equal to the greater of the amount of qualified research and development expenditures of a person or eighty percent of amounts received by a person other than a public educational or research institution in compensation for the conduct of qualified research and development, multiplied by the rate provided in RCW 82.04.260(3) in the case of a nonprofit corporation or nonprofit association engaging within this state in research and development, and the rate provided in RCW 82.04.290(2) for every other person.

(3) Any person entitled to the credit provided in subsection (2) of this section as a result of qualified research and development conducted under contract may assign all or any portion of the credit to the person contracting for the performance of the qualified research and development.

(4) The credit, including any credit assigned to a person under subsection (3) of this section, shall be taken against taxes due for the same calendar year in which the qualified research and development expenditures are incurred. The credit, including any credit assigned to a person under subsection (3) of this section, for each calendar year shall not exceed the lesser of two million dollars or the amount of tax otherwise due under this chapter for the calendar year.

(5) Any person taking the credit, including any credit assigned to a person under subsection (3) of this section, whose research and development spending during the calendar year in which the credit is claimed fails to exceed 0.92 percent of the person's taxable amount during the same calendar year shall be liable for payment of the additional taxes represented by the amount of credit taken together with interest, but not penalties. Interest shall be due at the rate provided for delinquent excise taxes retroactively to the date the credit was taken until the taxes are paid. Any credit assigned to a person under subsection (3) of this section that is disallowed as a result of this section may be taken by the person who performed the qualified research and development subject to the limitations set forth in subsection (4) of this section.

(6) Any person claiming the credit, and any person assigning a credit as provided in subsection (3) of this section, shall file an affidavit form prescribed by the department which shall include the amount of the credit claimed, an estimate of the anticipated qualified research and development expenditures during the calendar year for which the credit is claimed, an estimate of the taxable amount during the calendar year for which the credit is claimed, and such additional information as the department may prescribe.

(7) A person claiming the credit shall agree to supply the department with information

necessary to measure the results of the tax credit program for qualified research and development expenditures.

(8) The department shall use the information required under subsection (7) of this section to perform three assessments on the tax credit program authorized under this section. The assessments will take place in 1997, 2000, and 2003. The department shall prepare reports on each assessment and deliver their reports by September 1, 1997, September 1, 2000, and September 1, 2003. The assessments shall measure the effect of the program on job creation, the number of jobs created for Washington residents, company growth, the introduction of new products, the diversification of the state's economy, growth in research and development investment, the movement of firms or the consolidation of firms' operations into the state, and such other factors as the department selects.

(9) For the purpose of this section:

(a) "Qualified research and development expenditures" means operating expenses, including wages, compensation of a proprietor or a partner in a partnership as determined under rules adopted by the department, benefits, supplies, and computer expenses, directly incurred in qualified research and development by a person claiming the credit provided in this section. The term does not include amounts paid to a person other than a public educational or research institution to conduct qualified research and development. Nor does the term include capital costs and overhead, such as expenses for land, structures, or depreciable property.

(b) "Qualified research and development" shall have the same meaning as in RCW 82.63.010.

(c) "Research and development spending" means qualified research and development expenditures plus eighty percent of amounts paid to a person other than a public educational or research institution to conduct qualified research and development.

(d) "Taxable amount" means the taxable amount subject to the tax imposed in this chapter required to be reported on the person's combined excise tax returns during the year in which the credit is claimed, less any taxable amount for which a credit is allowed under RCW 82.04.440.

(10) This section expires December 31, 2004.

***Reviser's note:** RCW 43.63A.700 and 43.63A.710 were recodified as RCW 43.31C.020 and 43.31C.030, respectively, pursuant to 2000 c 212 § 11.

Intent--Findings--1998 c 313: "It is the intent of the legislature to attract and retain businesses that provide professional services and insurance services to international customers. To that end, the legislature finds that an incentive measured by a business's growth in jobs is a meaningful method of attracting and retaining such businesses. Therefore, the incentive in this act is specifically targeted at "net new jobs." In addition, to further the impact and benefit of this program, this incentive is limited to those urban areas of the state, both in eastern Washington and western Washington, that are characterized by unemployment and poverty. The legislature finds that providing this targeted incentive will be of benefit to the state as a whole." [1998 c 313 § 1.]

RCW 82.04.4453 Credit--Ride-sharing, public transportation, or nonmotorized commuting incentives--Penalty--Report to legislature.

(1)(a) Employers in this state who are taxable under this chapter and provide financial incentives to their employees for ride sharing, for using public transportation, or for using nonmotorized commuting before June 30, 2006, shall be allowed a credit for amounts paid to or

on behalf of employees for ride sharing in vehicles carrying two or more persons, for using public transportation, or for using nonmotorized commuting, not to exceed sixty dollars per employee per year. The credit shall be equal to the amount paid to or on behalf of each employee multiplied by fifty percent, but may not exceed sixty dollars per employee per year.

(b) Property managers who are taxable under this chapter and provide financial incentives to persons employed at a worksite managed by the property manager in this state for ride sharing, for using public transportation, or for using nonmotorized commuting before June 30, 2006, shall be allowed a credit for amounts paid to or on behalf of these persons for ride sharing in vehicles carrying two or more persons, for using public transportation, or for using nonmotorized commuting, not to exceed sixty dollars per person per year. A person may not take a credit under this section for amounts claimed for credit by other persons.

(c) For ride sharing in vehicles carrying two persons, the credit shall be equal to the amount paid to or on behalf of each employee multiplied by thirty percent, but may not exceed sixty dollars per employee per year. The credit may not exceed the amount of tax that would otherwise be due under this chapter.

(2) Application for tax credit under this chapter may only be made in the form and manner prescribed in rules adopted by the department.

(3) The credit shall be taken not more than once quarterly and not less than once annually against taxes due for the same calendar year in which the amounts for which credit is claimed were paid to or on behalf of employees for ride sharing, for using public transportation, or for using nonmotorized commuting and must be claimed by the due date of the last tax return for the calendar year in which the payment is made.

(4) The director shall on the 25th of February, May, August, and November of each year advise the state treasurer of the amount of credit taken during the preceding calendar quarter ending on the last day of December, March, June, and September, respectively.

(5) On the first of April, July, October, and January of each year, the state treasurer based upon information provided by the department shall deposit to the general fund a sum equal to the dollar amount of the credit provided under subsection (1) of this section from the air pollution control account, the transportation account, and the public transportation systems account. The first draw on reimbursements to the general fund must be from the air pollution control account, and reimbursements must not exceed one and one-half million dollars in any calendar year for the tax credits claimed under RCW 82.04.4453 and 82.16.048. Reimbursements to the general fund in excess of that amount drawn from the air pollution control account must be drawn, subject to appropriation, in equal amounts from the transportation account and the public transportation systems account; but in no case may those amounts exceed three hundred seventy-five thousand dollars from each account in any calendar year.

(6) The commute trip reduction task force shall determine the effectiveness of this tax credit as part of its ongoing evaluation of the commute trip reduction law and report to the legislative transportation committee and to the fiscal committees of the house of representatives and the senate. The report shall include information on the amount of tax credits claimed to date and recommendations on future funding for the tax credit program. The report shall be incorporated into the recommendations required in RCW 70.94.537(5).

(7) Any person who knowingly makes a false statement of a material fact in the application for a credit under subsection (1) of this section is guilty of a gross misdemeanor.

(8) A person may not receive credit for amounts paid to or on behalf of the same employee under both this section and RCW 82.16.048.

Notes:

Reviser's note: This section was amended by 1999 c 402 § 1 without cognizance of its December 31, 2000, expiration date by 1996 c 128 § 7.

Effective date--Expiration date--1996 c 128: "(1) This act takes effect July 1, 1996.

(2) This act expires December 31, 2000." [1996 c 128 § 7.]

Finding--1994 c 270: "Transportation demand strategies that reduce the number of vehicles on Washington state's highways, roads, and streets, and provide attractive and effective alternatives to single-occupancy travel can improve ambient air quality, conserve fossil fuels, and forestall the need for capital improvements to the state's transportation system. The legislature has required many public and private employers in the state's largest counties to implement transportation demand management programs to reduce the number of single-occupant vehicle travelers during the morning and evening rush hours. The legislature finds that additional transportation demand management strategies are necessary to mitigate the adverse social, environmental, and economic effects of automobile dependency and traffic congestion. While expensive capital improvements, including dedicated busways and commuter rail systems, may be necessary to improve the region's mobility, they are only part of the solution. All public and private entities that attract single-occupant vehicle drivers must develop imaginative and cost-effective ways to encourage walking, bicycling, carpooling, vanpooling, bus riding, and telecommuting. It is the intent of the legislature to revise those portions of state law that inhibit the application of imaginative solutions to the state's transportation mobility problems and to encourage many more public and private employers to adopt effective transportation demand management strategies." [1994 c 270 § 1.]

Expiration date--1994 c 270: "This act shall expire December 31, 2000." [1996 c 128 § 6; 1994 c 270 § 6.]

RCW 82.04.4454 Credit--Ride-sharing, public transportation, or nonmotorized commuting incentives--Ceiling.

(1) The department shall keep a running total of all credits granted under RCW 82.04.4453 and 82.16.048 during each calendar year, and shall disallow any credits that would cause the tabulation for any calendar year to exceed two million two hundred twenty-five thousand dollars, or the amount provided from the air pollution control account and the appropriations from the transportation account and the public transportation systems account, whichever is less.

(2) No person is eligible for tax credits under RCW 82.04.4453 and 82.16.048 in excess of one hundred thousand dollars in any calendar year.

(3) No person is eligible for tax credits under RCW 82.04.4453 in excess of the amount of tax that would otherwise be due under this chapter.

(4) No portion of an application for credit disallowed under this section may be carried back or carried forward.

RCW 82.04.4456 Credit--New employment in rural counties--Eligibility--Annual report. (Expires December 31, 2003.)

(1) Subject to the limits and provisions of this section, a credit is authorized against the tax otherwise due under this chapter for persons engaged in a rural county in the business of manufacturing software or programming, as those terms are defined in this section.

(2) A person who partially or totally relocates a business from one rural county to another rural county is eligible for any qualifying new jobs created as a result of the relocation but is not eligible to receive credit for the jobs moved from one county to the other.

(3)(a) To qualify for the credit, the qualifying activity of the person must be conducted in a rural county and the qualified employment position must be located in the rural county.

(b) If an activity is conducted both from a rural county and outside of a rural county, the credit is available if at least ninety percent of the qualifying activity is conducted within a rural county. If the qualifying activity is a service taxable activity, the place where the work is performed is the place at which the activity is conducted.

(4)(a) The credit under this section shall equal one thousand dollars for each qualified employment position created after July 1, 1999, in an eligible area. A credit is earned for the calendar year the person is hired to fill the position. Additionally a credit is earned for each year the position is maintained over the subsequent consecutive years, up to four years. The county must meet the definition of a rural county at the time the position is filled. If the county does not have a rural county status the following year or years, the position is still eligible for the remaining years if all other conditions are met.

(b) Credit may not be taken for hiring of persons into positions that exist before July 1, 1999. Credit is authorized for new employees hired for new positions created on or after July 1, 1999. New positions filled by existing employees are eligible for the credit under this section only if the position vacated by the existing employee is filled by a new hire. A business that is a sole proprietorship without any employees is equivalent to one employee position and this type of business is eligible to receive credit for one position.

(c) If a position is filled before July 1st, this position is eligible for the full yearly credit for that calendar year. If it is filled after June 30th, this position is eligible for half of the credit for that calendar year.

(d) A person that has engaged in qualifying activities in the rural county before August 1, 1999, qualifies for the credit under this section for positions created and filled after August 1, 1999.

(5) No application is necessary for the tax credit. The person must keep records necessary for the department to verify eligibility under this section. This information includes information relating to description of qualifying activity conducted in the rural county and outside the rural county by the person as well as detailed records on positions and employees.

(6) If at any time the department finds that a person is not eligible for tax credit under this section, the amount of taxes for which a credit has been claimed shall be immediately due. The department shall assess interest, but not penalties, on the taxes for which the person is not eligible. The interest shall be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, shall be assessed retroactively to the date the tax credit was taken, and shall accrue until the taxes for which a credit has been used are repaid.

(7) The credit under this section may be used against any tax due under this chapter, but in no case may a credit earned during one calendar year be carried over to be credited against taxes incurred in a subsequent calendar year. A person is not eligible to receive a credit under this section if the person is receiving credit for the same position under chapter 82.62 RCW or RCW 82.04.44525 or is taking the credit under RCW 82.04.4457. No refunds may be granted for credits under this section.

(8) A person taking tax credits under this section shall make an annual report to the department. The report shall be in a letter form and shall include the following information: Number of positions for which credit is being claimed, type of position for which credit is being claimed, type of activity in which the person is engaged in the county, how long the person has been located in the county, and taxpayer name and registration number. The report must be filed by January 30th of each year for which credit was claimed during the previous year. Failure to file a report will not result in the loss of eligibility under this section. However, the department, through its research division, shall contact taxpayers who have not filed the report and obtain the data from the taxpayer or assist the taxpayer in the filing of the report, so that the data and information necessary to measure the program's effectiveness is maintained.

(9) Transfer of ownership does not affect credit eligibility. However, the successive credits are available to the successor for remaining periods in the five years only if the eligibility conditions of this section are met.

(10) As used in this section:

(a) "Manufacturing" means the same as "to manufacture" under RCW 82.04.120. Manufacturing includes the activities of both manufacturers and processors for hire.

(b) "Programming" means the activities that involve the creation or modification of software, as that term is defined in this chapter, and that are taxable as a service under RCW 82.04.290(2) or as a retail sale under RCW 82.04.050.

(c) "Qualifying activity" means manufacturing of software or programming.

(d) "Qualified employment position" means a permanent full-time position doing programming of software or manufacturing of software. This excludes administrative, professional, service, executive, and other similar positions. If an employee is either voluntarily or involuntarily separated from employment, the employment position is considered filled on a full-time basis if the employer is either training or actively recruiting a replacement employee. Full-time means a position for at least thirty-five hours a week.

(e) "Rural county" means a county with a population density of less than one hundred persons per square mile as determined by the office of financial management and published each year by the department for the period July 1st to June 30th.

(f) "Software" has the same meaning as defined in RCW 82.04.215.

- (11) No credit may be taken or accrued under this section on or after January 1, 2004.
- (12) This section expires December 31, 2003.

[2000 c 106 § 11; 1999 c 311 § 302.]

Notes:

Effective date--2000 c 106: See note following RCW 82.32.330.

Intent--Finding--1999 c 311: "It is the intent of the legislature to attract and retain technology-based businesses in rural counties. Section 302 of this act provides a tax incentive to those businesses that develop or manufacture software and hardware in rural counties. Section 303 of this act provides a tax incentive to those businesses that are engaged in the business of providing technical support services from rural counties. Encouragement of these types of business will stimulate the information technology industry and be of benefit to the state economy in general. To further the impact and benefit of this program, this incentive is limited to those counties of the state that are characterized by unemployment or low income. The legislature finds that providing this targeted incentive will both increase its effectiveness and create a high technology work force in rural counties." [1999 c 311 § 301.]

Savings--1999 c 311: "Section 305 of this act does not affect any existing right acquired or liability or obligation under the sections repealed in section 305 of this act or any rule or order adopted under those sections, nor does it affect any proceeding instituted under those sections." [1999 c 311 § 605.]

RCW 82.04.4457 Credit--Information technology help desk services conducted from rural county--Annual report. (Expires December 31, 2003.)

(1) Subject to the limits and provisions of this section, a credit is authorized against the tax otherwise due under this chapter for persons engaged in a rural county in the business of providing information technology help desk services to third parties.

(2) To qualify for the credit, the help desk services must be conducted from a rural county.

(3) The amount of the tax credit for persons engaged in the activity of providing information technology help desk services in rural counties shall be equal to one hundred percent of the amount of tax due under this chapter that is attributable to providing the services from the rural county. In order to qualify for the credit under this subsection, the county must meet the definition of rural county at the time the person begins to conduct qualifying business in the county.

(4) No application is necessary for the tax credit. The person must keep records necessary for the department to verify eligibility under this section. These records include information relating to description of activity engaged in a rural county by the person.

(5) If at any time the department finds that a person is not eligible for tax credit under this section, the amount of taxes for which a credit has been used is immediately due. The department shall assess interest, but not penalties, on the credited taxes for which the person is not eligible. The interest shall be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, shall be assessed retroactively to the date the tax credit was taken, and shall accrue until the taxes for which a credit has been used are repaid.

(6) The credit under this section may be used against any tax due under this chapter, but in no case may a credit earned during one calendar year be carried over to be credited against taxes incurred in a subsequent calendar year. No refunds may be granted for credits under this section.

(7) A person taking tax credits under this section shall make an annual report to the department. The report shall be in a letter form and shall include the following information: Type of activity in which the person is engaged in the county, number of employees in the rural county, how long the person has been located in the county, and taxpayer name and registration number. The report must be filed by January 30th of each year for which credit was claimed during the previous year. Failure to file a report will not result in the loss of eligibility under this section. However, the department, through its research division, shall contact taxpayers who have not filed the report and obtain the data from the taxpayer or assist the taxpayer in the filing of the report, so that the data and information necessary to measure the program's effectiveness is maintained.

(8) Transfer of ownership does not affect credit eligibility. However, the credit is available to the successor only if the eligibility conditions of this section are met.

(9) As used in this section:

(a) "Information technology help desk services" means the following services performed using electronic and telephonic communication:

- (i) Software and hardware maintenance;
- (ii) Software and hardware diagnostics and troubleshooting;
- (iii) Software and hardware installation;
- (iv) Software and hardware repair;
- (v) Software and hardware information and training; and
- (vi) Software and hardware upgrade.

(b) "Rural county" means a county with a population density of less than one hundred persons per square mile, as determined by the office of financial management and published each year by the department for the period July 1st to June 30th.

(10) This section expires December 31, 2003.

Approved credit may not be carried over to subsequent calendar years. The credit must be claimed by the due date of the last tax return for the calendar year in which the payment is made. RCW 82.04.447 Credit--Natural or manufactured gas purchased by direct service industrial customers--Reports.

(1) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Direct service industrial customer" means a person who is an industrial customer that contracts for the purchase of power from the Bonneville Power Administration for direct consumption as of May 8, 2001. "Direct service industrial customer" includes a person who is a subsidiary that is more than fifty percent owned by a direct service industrial customer and who receives power from the Bonneville Power Administration pursuant to the parent's contract for power.

(b) "Facility" means a gas turbine electrical generation facility that does not exist on May 8, 2001, and is owned by a direct service industrial customer for the purpose of producing electricity to be consumed by the direct service industrial customer.

(c) "Average annual employment" means the total employment in this state for a calendar year at the direct service industrial customer's location where electricity from the facility will be consumed.

(2) Effective July 1, 2001, a credit is allowed against the tax due under this chapter to a direct service industrial customer who purchases natural or manufactured gas from a gas distribution business subject to the public utility tax under chapter 82.16 RCW. The credit is equal to the value of natural or manufactured gas purchased from a gas distribution business and used to generate electricity at the facility multiplied by the rate in effect for the public utility tax on gas distribution businesses under RCW 82.16.020. This credit may be used each reporting period for sixty months following the first month natural or manufactured gas was purchased from a gas distribution business by a direct service industrial customer who constructs a facility.

(3) Application for credit shall be made by the direct service industrial consumer before the first purchase of natural or manufactured gas. The application shall be in a form and manner

prescribed by the department and shall include but is not limited to information regarding the location of the facility, the projected date of first purchase of natural or manufactured gas to generate electricity at the facility, the date construction is projected to begin or did begin, the applicant's average annual employment in the state for the six calendar years immediately preceding the year in which the application is made, and affirm the applicant's status as a direct service industrial customer. The department shall rule on the application within thirty days of receipt.

(4) Credit under this section is limited to the amount of tax imposed under this chapter. Refunds shall not be given in place of credits and credits may not be carried over to subsequent calendar years.

(5) All or part of the credit shall be disallowed and must be paid if the average of the direct service industrial customer's average annual employment for the five calendar years subsequent to the calendar year containing the first month of purchase of natural or manufactured gas to generate electricity at a facility is less than the six-year average annual employment stated on the application for credit under this section. The direct service industrial customer will certify to the department by June 1st of the sixth calendar year following the calendar year in which the month of first purchase of gas occurs the average annual employment for each of the five prior calendar years. All or part of the credit that shall be disallowed and must be paid is commensurate with the decrease in the five-year average of average annual employment as follows:

<u>Decrease in Average Annual Employment Over Five-Year Period</u>	<u>% of Credit to be Paid</u>
Less than 10%	10%
10% or more but less than 25%	25%
25% or more but less than 50%	50%
50% or more but less than 75%	75%
75% or more	100%

(6)(a) The direct service industrial customer shall begin paying the credit that is disallowed and is to be paid in the sixth calendar year following the calendar year in which the month following the month of first purchase of natural or manufactured gas to generate electricity at the facility occurs. The first payment will be due on or before December 31st with subsequent annual payments due on or before December 31st of the following four years according to the following schedule:

<u>Payment Year</u>	<u>% of Credit to be Paid</u>
1	10%
2	15%

3	20%
4	25%
5	30%

(b) The department may authorize an accelerated payment schedule upon request of the taxpayer.

(c) Interest shall not be charged on the credit that is disallowed for the sixty-month period the credit may be taken, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed. The debt for credit that is disallowed and must be paid will not be extinguished by insolvency or other failure of the direct service industrial customer. Transfer of ownership of the facility does not affect eligibility for this credit. However, the credit is available to the successor only if the eligibility conditions of this section are met.

(7) The employment security department shall make, and certify to the department of revenue, all determinations of employment under this section as requested by the department.

(8) A person claiming this credit shall supply to the department quarterly reports containing information necessary to document the total volume of natural or manufactured gas purchased in the quarter, the value of that total volume, and the percentage of the total volume used to generate electricity at the facility.

RCW 82.04.450 Value of products, how determined.

(1) The value of products, including byproducts, extracted or manufactured shall be determined by the gross proceeds derived from the sale thereof whether such sale is at wholesale or at retail, to which shall be added all subsidies and bonuses received from the purchaser or from any other person with respect to the extraction, manufacture, or sale of such products or byproducts by the seller, except:

(a) Where such products, including byproducts, are extracted or manufactured for commercial or industrial use;

(b) Where such products, including byproducts, are shipped, transported or transferred out of the state, or to another person, without prior sale or are sold under circumstances such that the gross proceeds from the sale are not indicative of the true value of the subject matter of the sale.

(2) In the above cases the value shall correspond as nearly as possible to the gross proceeds from sales in this state of similar products of like quality and character, and in similar quantities by other taxpayers, plus the amount of subsidies or bonuses ordinarily payable by the purchaser or by any third person with respect to the extraction, manufacture, or sale of such products: PROVIDED, That the value of a product manufactured or produced for purposes of serving as a prototype for the development of a new or improved product shall correspond: (a)

To the retail selling price of such new or improved product when first offered for sale; or (b) to the value of materials incorporated into the prototype in cases in which the new or improved product is not offered for sale. The department of revenue shall prescribe uniform and equitable rules for the purpose of ascertaining such values.

RCW 82.04.460 Business within and without state--Apportionment.

(1) Any person rendering services taxable under RCW 82.04.290 and maintaining places of business both within and without this state which contribute to the rendition of such services shall, for the purpose of computing tax liability under RCW 82.04.290, apportion to this state that portion of his gross income which is derived from services rendered within this state. Where such apportionment cannot be accurately made by separate accounting methods, the taxpayer shall apportion to this state that proportion of his total income which the cost of doing business within the state bears to the total cost of doing business both within and without the state.

(2) Notwithstanding the provision of subsection (1) of this section, persons doing business both within and without the state who receive gross income from service charges, as defined in RCW 63.14.010 (relating to amounts charged for granting the right or privilege to make deferred or installment payments) or who receive gross income from engaging in business as financial institutions within the scope of chapter 82.14A RCW (relating to city taxes on financial institutions) shall apportion or allocate gross income taxable under RCW 82.04.290 to this state pursuant to rules promulgated by the department consistent with uniform rules for apportionment or allocation developed by the states.

(3) The department shall by rule provide a method or methods of apportioning or allocating gross income derived from sales of telephone services taxed under this chapter, if the gross proceeds of sales subject to tax under this chapter do not fairly represent the extent of the taxpayer's income attributable to this state. The rules shall be, so far as feasible, consistent with the methods of apportionment contained in this section and shall require the consideration of those facts, circumstances, and apportionment factors as will result in an equitable and constitutionally permissible division of the services.

certificate defined.

(1) Unless a seller has taken from the buyer a resale certificate, the burden of proving that a sale of tangible personal property, or of services, was not a sale at retail shall be upon the person who made it.

(2) If a seller does not receive a resale certificate at the time of the sale, have a resale certificate on file at the time of the sale, or obtain a resale certificate from the buyer within a reasonable time after the sale, the seller shall remain liable for the tax as provided in RCW 82.08.050, unless the seller can demonstrate facts and circumstances according to rules adopted by the department of revenue that show the sale was properly made without payment of sales tax.

(3) Resale certificates shall be valid for a period of four years from the date the certificate is provided to the seller.

(4) The department may provide by rule for suggested forms for resale certificates or equivalent documents containing the information that will be accepted as resale certificates. The department shall provide by rule the categories of items or services that must be specified on resale certificates and the business classifications that may use a blanket resale certificate.

(5) As used in this section, "resale certificate" means documentation provided by a buyer to a seller stating that the purchase is for resale in the regular course of business, or that the buyer is exempt from retail sales tax, and containing the following information:

- (a) The name and address of the buyer;
- (b) The uniform business identifier or revenue registration number of the buyer, if the buyer is required to [be] registered;
- (c) The type of business engaged in;
- (d) The categories of items or services to be purchased for resale or that are exempt, unless the buyer is in a business classification that may present a blanket resale certificate as provided by the department by rule;
- (e) The date on which the certificate was provided;
- (f) A statement that the items or services purchased either: (i) Are purchased for resale in the regular course of business; or (ii) are exempt from tax pursuant to statute;
- (g) A statement that the buyer acknowledges that the buyer is solely responsible for purchasing within the categories specified on the certificate and that misuse of the resale or exemption privilege claimed on the certificate subjects the buyer to a penalty of fifty percent of the tax due, in addition to the tax, interest, and any other penalties imposed by law;
- (h) The name of the individual authorized to sign the certificate, printed in a legible fashion;
- (i) The signature of the authorized individual; and
- (j) The name of the seller.

The burden shall be upon the taxpayer in every case to establish the fact that he is not engaged in the business of selling tangible personal property but is acting merely as broker or agent in promoting sales for a principal. RCW 82.04.520 Administrative provisions for motor vehicle sales by courtesy dealers.

(1) In the payment of the tax imposed by this chapter on new motor vehicles sold to Washington customers that are delivered to the customer through courtesy dealers located in this

state, the courtesy dealer is deemed to be the agent for the selling dealer in reporting and paying the tax imposed by this chapter, unless the selling dealer is already registered and reporting and remitting taxes under this chapter. It is the duty of each courtesy dealer to pay the tax imposed by this chapter to the department when the courtesy dealer files its tax return. Each courtesy dealer who acts as the agent for the selling dealer in reporting, paying, and remitting the tax imposed by this chapter must at the time of paying and remitting its own taxes imposed by this chapter pay the tax due on the transaction under this section.

(2) The tax paid by the courtesy dealer on behalf of the selling dealer shall constitute a debt from the selling dealer to the courtesy dealer, and the courtesy dealer is authorized to withhold payment to the selling dealer out of the proceeds of the sale an amount equal to the tax imposed by this chapter. Amounts withheld by the courtesy dealer are deemed to be held in trust by the courtesy dealer until paid to the department, and any courtesy dealer who appropriates or converts the amount withheld to the courtesy dealer's own use or to any use other than the payment of the tax to the extent that the money withheld is not available for payment on the due date is guilty of a gross misdemeanor.

(3) This section is construed as cumulative of other methods prescribed in chapters 82.04 through 82.32 RCW, inclusive, for the collection of the tax imposed by this chapter.

(4) As used in this section, "courtesy dealer" means any licensed new motor vehicle dealer authorized to prepare or deliver a new motor vehicle to a customer in this state. "Selling dealer" means a motor vehicle dealer not licensed to prepare or deliver a new motor vehicle to a customer in this state.

RCW 82.08.010 Definitions.

For the purposes of this chapter:

(1) "Selling price" means the consideration, whether money, credits, rights, or other property except trade-in property of like kind, expressed in the terms of money paid or delivered by a buyer to a seller without any deduction on account of the cost of tangible property sold, the cost of materials used, labor costs, interest, discount, delivery costs, taxes other than taxes imposed under this chapter if the seller advertises the price as including the tax or that the seller is paying the tax, or any other expenses whatsoever paid or accrued and without any deduction on account of losses; but shall not include the amount of cash discount actually taken by a buyer; and shall be subject to modification to the extent modification is provided for in RCW 82.08.080.

When tangible personal property is rented or leased under circumstances that the consideration paid does not represent a reasonable rental for the use of the articles so rented or leased, the "selling price" shall be determined as nearly as possible according to the value of such use at the places of use of similar products of like quality and character under such rules as the department of revenue may prescribe;

(2) "Seller" means every person, including the state and its departments and institutions, making sales at retail or retail sales to a buyer or consumer, whether as agent, broker, or principal, except "seller" does not mean the state and its departments and institutions when making sales to the state and its departments and institutions;

(3) "Buyer" and "consumer" include, without limiting the scope hereof, every individual, receiver, assignee, trustee in bankruptcy, trust, estate, firm, copartnership, joint venture, club, company, joint stock company, business trust, corporation, association, society, or any group of individuals acting as a unit, whether mutual, cooperative, fraternal, nonprofit, or otherwise, municipal corporation, quasi municipal corporation, and also the state, its departments and institutions and all political subdivisions thereof, irrespective of the nature of the activities engaged in or functions performed, and also the United States or any instrumentality thereof;

RCW 82.08.0202 Retail sales of linen and uniform supply services.

For purposes of this chapter, a retail sale of linen and uniform supply services is deemed to occur at the place of delivery to the customer. "Linen and uniform supply services" means the activity of providing customers with a supply of clean linen, towels, uniforms, gowns, protective apparel, clean room apparel, mats, rugs, and similar items, whether ownership of the item is in the person operating the linen and uniform supply service or in the customer. The term includes supply services operating their own cleaning establishments as well as those contracting with other laundry or dry cleaning businesses.

[2001 c 186 § 2.]

NOTES:

Finding--Purpose--2001 c 186: "The legislature finds that because of the mixed retailing nature of linen and uniform supply services, they have been incorrectly sited for tax purposes. As a result, some companies that perform some activities related to this activity outside the state of Washington have not been required to collect retail sales taxes upon linen and uniform supply services provided to Washington customers. The activity has aspects of both the rental of tangible personal property and retail services related to tangible personal property. This error in tax treatment provides an incentive for businesses to locate some of their functions out of state. In-state businesses cannot compete if their out-of-state competitors are not required to collect sales tax for services provided to the same customers.

The purpose of this act is to clarify the taxable situs and nature of linen and uniform supply services."

[2001 c 186 § 1.]

Effective date--2001 c 186: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2001." [2001 c 186 § 4.]

Notes:

Finding--Intent--1999 c 211: "The legislature finds that the application of the manufacturer's machinery and equipment sales and use tax exemption has, in some instances, been difficult and confusing for taxpayers, and included difficult reporting and recordkeeping requirements. In this act, it is the intent of the legislature to make clear its intent for the application of the exemption, and to extend the exemption to the purchase and use of machinery and equipment for businesses that perform testing of manufactured goods for manufacturers or processors for hire." [1999 c 211 § 1.]

Intent--1999 c 211 §§ 2 and 3: See note following RCW 82.04.120.

Effective date--1999 c 211 §§ 1-4: See note following RCW 82.04.120.

Findings--Intent--1996 c 247: See note following RCW 82.08.02566.

Findings--Intent--1996 c 173: "The legislature finds that the health, safety, and welfare of the people of the state of Washington are heavily dependent upon the continued encouragement, development, and expansion of opportunities for family wage employment in the state's manufacturing industries.

The legislature also finds that sales and use tax exemptions for manufacturing machinery and equipment enacted by the 1995 legislature have improved Washington's ability to compete with other states for manufacturing investment, but that additional incentives for manufacturers need to be adopted to solidify and enhance the state's competitive position.

The legislature intends to accomplish this by extending the current manufacturing machinery and equipment exemptions to allow a sales tax exemption for labor and service charges for repairing, cleaning, altering, or improving machinery and equipment, and a sales and use tax exemption for repair and replacement parts with a useful life of one year or more." [1996 c 173 § 1.]

Findings--1995 1st sp.s. c 3: "The legislature finds and declares that:

(1) The health, safety, and welfare of the people of the state of Washington are heavily dependent upon the continued encouragement, development, and expansion of opportunities for family wage employment in our state's private sector;

(2) The state's private sector must be encouraged to commit to continuous improvement of process, products, and services and to deliver high-quality, high-value products through technological innovations and high-performance work organizations;

(3) The state's opportunities for increased economic dealings with other states and nations of the world are dependent on supporting and attracting a diverse, stable, and competitive economic base of private sector employers;

(4) The state's current policy of applying its sales and use taxes to machinery, equipment, and installation labor used in manufacturing, research and development, and other activities has placed our state's private sector at a competitive disadvantage with other states and serves as a significant disincentive to the continuous improvement of products, technology, and modernization necessary for the preservation, stabilization, and expansion of employment and to ensure a stable economy; and

(5) It is vital to the continued development of economic opportunity in this state, including the development of new businesses and the expansion or modernization of existing businesses, that the state of Washington provide tax incentives to entities making a commitment to sites and operations in this state." [1995 1st sp.s. c 3 § 1.]

RCW 82.08.02566 Exemptions--Sales of tangible personal property incorporated in prototype for parts, auxiliary equipment, and aircraft modification--Limitations on yearly exemption.

(1) The tax levied by RCW 82.08.020 shall not apply to sales of tangible personal property incorporated into a prototype for aircraft parts, auxiliary equipment, or modifications; or to sales of tangible personal property that at one time is incorporated into the prototype but is later destroyed in the testing or development of the prototype.

(2) This exemption does not apply to sales to any person whose total taxable amount during the immediately preceding calendar year exceeds twenty million dollars. For purposes of this section, "total taxable amount" means gross income of the business and value of products manufactured, less any amounts for which a credit is allowed under RCW 82.04.440.

(3) State and local taxes for which an exemption is received under this section and RCW 82.12.02566 shall not exceed one hundred thousand dollars for any person during any calendar year.

RCW 82.08.02567 Exemptions--Sales related to machinery and equipment used in generating electricity. (Expires June 30, 2009.)

(1) The tax levied by RCW 82.08.020 shall not apply to sales of machinery and equipment used directly in generating electricity using fuel cells, wind, sun, or landfill gas as the principal source of power, or to sales of or charges made for labor and services rendered in respect to installing such machinery and equipment, but only if the purchaser develops with such machinery, equipment, and labor a facility capable of generating not less than two hundred watts of electricity and provides the seller with an exemption certificate in a form and manner prescribed by the department. The seller shall retain a copy of the certificate for the seller's files.

(2) For purposes of this section and RCW 82.12.02567:

(a) "Landfill gas" means biomass fuel of the type qualified for federal tax credits under 26 U.S.C. Sec. 29 collected from a landfill. "Landfill" means a landfill as defined under RCW 70.95.030;

(b) "Machinery and equipment" means industrial fixtures, devices, and support facilities that are integral and necessary to the generation of electricity using wind, sun, or landfill gas as the principal source of power;

(c) "Machinery and equipment" does not include: (i) Hand-powered tools; (ii) property with a useful life of less than one year; (iii) repair parts required to restore machinery and equipment to normal working order; (iv) replacement parts that do not increase productivity, improve efficiency, or extend the useful life of machinery and equipment; (v) buildings; or (vi) building fixtures that are not integral and necessary to the generation of electricity that are permanently affixed to and become a physical part of a building;

(d) Machinery and equipment is "used directly" in generating electricity with fuel cells or by wind energy, solar energy, or landfill gas power if it provides any part of the process that

captures the energy of the wind, sun, or landfill gas, converts that energy to electricity, and stores, transforms, or transmits that electricity for entry into or operation in parallel with electric transmission and distribution systems;

(e) "Fuel cell" means an electrochemical reaction that generates electricity by combining atoms of hydrogen and oxygen in the presence of a catalyst.

RCW 82.08.050 Buyer to pay, seller to collect tax--Statement of tax--Exception--Penalties.

The tax hereby imposed shall be paid by the buyer to the seller, and each seller shall collect from the buyer the full amount of the tax payable in respect to each taxable sale in accordance with the schedule of collections adopted by the department pursuant to the provisions of RCW 82.08.060. The tax required by this chapter, to be collected by the seller, shall be deemed to be held in trust by the seller until paid to the department, and any seller who appropriates or converts the tax collected to his or her own use or to any use other than the payment of the tax to the extent that the money required to be collected is not available for payment on the due date as prescribed in this chapter shall be guilty of a gross misdemeanor.

In case any seller fails to collect the tax herein imposed or having collected the tax, fails to pay it to the department in the manner prescribed by this chapter, whether such failure is the result of his or her own acts or the result of acts or conditions beyond his or her control, he or she shall, nevertheless, be personally liable to the state for the amount of the tax, unless the seller has taken from the buyer in good faith a properly executed resale certificate under RCW 82.04.470 or a copy of a direct pay permit issued under RCW 82.32.087.

The amount of tax, until paid by the buyer to the seller or to the department, shall constitute a debt from the buyer to the seller and any seller who fails or refuses to collect the tax as required with intent to violate the provisions of this chapter or to gain some advantage or benefit, either direct or indirect, and any buyer who refuses to pay any tax due under this chapter shall be guilty of a misdemeanor. The tax required by this chapter to be collected by the seller shall be stated separately from the selling price in any sales invoice or other instrument of sale. On all retail sales through vending machines, the tax need not be stated separately from the selling price or collected separately from the buyer. For purposes of determining the tax due from the buyer to the seller and from the seller to the department it shall be conclusively presumed that the selling price quoted in any price list, sales document, contract or other

agreement between the parties does not include the tax imposed by this chapter, but if the seller advertises the price as including the tax or that the seller is paying the tax, the advertised price shall not be considered the selling price.

Where a buyer has failed to pay to the seller the tax imposed by this chapter and the seller has not paid the amount of the tax to the department, the department may, in its discretion, proceed directly against the buyer for collection of the tax, in which case a penalty of ten percent may be added to the amount of the tax for failure of the buyer to pay the same to the seller, regardless of when the tax may be collected by the department; and all of the provisions of chapter 82.32 RCW, including those relative to interest and penalties, shall apply in addition; and, for the sole purpose of applying the various provisions of chapter 82.32 RCW, the twenty-fifth day of the month following the tax period in which the purchase was made shall be considered as the due date of the tax.

(2) If the advertised prices are listed in a series, the words "tax included in all prices" are placed conspicuously at the head of the list and in the same print size as the advertised prices;

RCW 82.08.060 Collection of tax--Methods and schedules.

The department of revenue shall have power to adopt rules and regulations prescribing methods and schedules for the collection of the tax required to be collected by the seller from the buyer under this chapter. The methods and schedules prescribed shall be adopted so as to

eliminate the collection of fractions of one cent and so as to provide that the aggregate collections of all taxes by the seller shall, insofar as practicable, equal the amount of tax imposed by this chapter. Such schedules may provide that no tax need be collected from the buyer upon sales below a stated sum and may be amended from time to time to accomplish the purposes set forth herein.

The department of revenue may authorize a seller to pay the tax levied under this chapter upon sales made under conditions of business such as to render impracticable the collection of the tax as a separate item and waive collection of the tax from the customer. Where sales are made by receipt of a coin or coins dropped into a receptacle that results in delivery of the merchandise in single purchases of smaller value than the minimum sale upon which a one cent tax may be collected from the purchaser, according to the schedule provided by the department under authority of RCW 82.08.060, and where the design of the sales device is such that multiple sales of items are not possible or cannot be detected so as practically to assess a tax, in such a case the selling price for the purposes of the tax imposed under RCW 82.08.020 shall be sixty percent of the gross receipts of the vending machine through which such sales are made. No such authority shall be granted except upon application to the department and unless the department, after hearing, finds that the conditions of the applicant's business are such as to render impracticable the collection of the tax in the manner otherwise provided. The department, by regulation, may provide that the applicant, under this section, furnish a proper bond sufficient to secure the payment of the tax.

If a buyer normally is engaged in both consuming and reselling certain types of articles of tangible personal property and is not able to determine at the time of purchase whether the particular property acquired will be consumed or resold, the buyer may use a resale certificate for the entire purchase if the buyer principally resells the articles according to the general nature of the buyer's business. The buyer shall account for the value of any articles purchased with a resale certificate that are used by the buyer and remit the sales tax on the articles to the department.

A buyer who pays a tax on all purchases and subsequently resells an article at retail, without intervening use by the buyer, shall collect the tax from the purchaser as otherwise provided by law and is entitled to a deduction on the buyer's tax return equal to the cost to the buyer of the property resold upon which retail sales tax has been paid. The deduction is allowed only if the taxpayer keeps and preserves records that show the names of the persons from whom the articles were purchased, the date of the purchase, the type of articles, the amount of the purchase, and the tax that was paid. RCW 82.08.811 Exemptions--Coal used at coal-fired thermal electric generation facility--Application--Demonstration of progress in air pollution control--Notice of emissions violations--Reapplication--Payments on cessation of operation.

(1) For the purposes of this section:

(a) "Air pollution control facilities" means any treatment works, control devices and disposal systems, machinery, equipment, structure, property, property improvements, and accessories, that are installed or acquired for the primary purpose of reducing, controlling, or disposing of industrial waste that, if released to the outdoor atmosphere, could cause air pollution, or that are required to meet regulatory requirements applicable to their construction, installation, or operation; and

(b) "Generation facility" means a coal-fired thermal electric generation facility placed in operation after December 3, 1969, and before July 1, 1975.

(2) Beginning January 1, 1999, the tax levied by RCW 82.08.020 does not apply to sales of coal used to generate electric power at a generation facility operated by a business if the following conditions are met:

(a) The owners must make an application to the department of revenue for a tax exemption;

(b) The owners must make a demonstration to the department of ecology that the owners have made reasonable initial progress to install air pollution control facilities to meet applicable regulatory requirements established under state or federal law, including the Washington clean air act, chapter 70.94 RCW;

(c) Continued progress must be made on the development of air pollution control

facilities to meet the requirements of the permit; and

(d) The generation facility must emit no more than ten thousand tons of sulfur dioxide during a previous consecutive twelve-month period.

(3) During a consecutive twelve-month period, if the generation facility is found to be in violation of excessive sulfur dioxide emissions from a regional air pollution control authority or the department of ecology, the department of ecology shall notify the department of revenue and the owners of the generation facility shall lose their tax exemption under this section. The owners of a generation facility may reapply for the tax exemption when they have once again met the conditions of subsection (2)(d) of this section.

(4) RCW 82.32.393 applies to this section.

RCW 82.08.820 Exemptions--Remittance--Warehouse and grain elevators and distribution centers--Material-handling and racking equipment--Construction of warehouse or elevator--Information sheet--Rules--Records--Exceptions.

(1) Wholesalers or third-party warehouse owners who own or operate warehouses or grain elevators and retailers who own or operate distribution centers, and who have paid the tax levied by RCW 82.08.020 on:

(a) Material-handling and racking equipment, and labor and services rendered in respect to installing, repairing, cleaning, altering, or improving the equipment; or

(b) Construction of a warehouse or grain elevator, including materials, and including service and labor costs,

are eligible for an exemption in the form of a remittance. The amount of the remittance is computed under subsection (3) of this section and is based on the state share of sales tax.

(2) For purposes of this section and RCW 82.12.820:

(a) "Agricultural products" has the meaning given in RCW 82.04.213;

(b) "Construction" means the actual construction of a warehouse or grain elevator that did not exist before the construction began. "Construction" includes expansion if the expansion adds at least two hundred thousand square feet of additional space to an existing warehouse or additional storage capacity of at least one million bushels to an existing grain elevator. "Construction" does not include renovation, remodeling, or repair;

(c) "Department" means the department of revenue;

(d) "Distribution center" means a warehouse that is used exclusively by a retailer solely for the storage and distribution of finished goods to retail outlets of the retailer. "Distribution center" does not include a warehouse at which retail sales occur;

(e) "Finished goods" means tangible personal property intended for sale by a retailer or wholesaler. "Finished goods" does not include agricultural products stored by wholesalers, third-party warehouses, or retailers if the storage takes place on the land of the person who

produced the agricultural product. "Finished goods" does not include logs, minerals, petroleum, gas, or other extracted products stored as raw materials or in bulk;

(f) "Grain elevator" means a structure used for storage and handling of grain in bulk;

(g) "Material-handling equipment and racking equipment" means equipment in a warehouse or grain elevator that is primarily used to handle, store, organize, convey, package, or repackage finished goods. The term includes tangible personal property with a useful life of one year or more that becomes an ingredient or component of the equipment, including repair and replacement parts. The term does not include equipment in offices, lunchrooms, restrooms, and other like space, within a warehouse or grain elevator, or equipment used for nonwarehousing purposes. "Material-handling equipment" includes but is not limited to: Conveyers, carousels, lifts, positioners, pick-up-and-place units, cranes, hoists, mechanical arms, and robots; mechanized systems, including containers that are an integral part of the system, whose purpose is to lift or move tangible personal property; and automated handling, storage, and retrieval systems, including computers that control them, whose purpose is to lift or move tangible personal property; and forklifts and other off-the-road vehicles that are used to lift or move tangible personal property and that cannot be operated legally on roads and streets. "Racking equipment" includes, but is not limited to, conveying systems, chutes, shelves, racks, bins, drawers, pallets, and other containers and storage devices that form a necessary part of the storage system;

(h) "Person" has the meaning given in RCW 82.04.030;

(i) "Retailer" means a person who makes "sales at retail" as defined in chapter 82.04 RCW of tangible personal property;

(j) "Square footage" means the product of the two horizontal dimensions of each floor of a specific warehouse. The entire footprint of the warehouse shall be measured in calculating the square footage, including space that juts out from the building profile such as loading docks. "Square footage" does not mean the aggregate of the square footage of more than one warehouse at a location or the aggregate of the square footage of warehouses at more than one location;

(k) "Third-party warehouse" means a person taxable under RCW 82.04.280(4);

(l) "Warehouse" means an enclosed building or structure in which finished goods are stored. A warehouse building or structure may have more than one storage room and more than one floor. Office space, lunchrooms, restrooms, and other space within the warehouse and necessary for the operation of the warehouse are considered part of the warehouse as are loading docks and other such space attached to the building and used for handling of finished goods. Landscaping and parking lots are not considered part of the warehouse. A storage yard is not a warehouse, nor is a building in which manufacturing takes place; and

(m) "Wholesaler" means a person who makes "sales at wholesale" as defined in chapter 82.04 RCW of tangible personal property, but "wholesaler" does not include a person who makes sales exempt under 82.04.330.

(3)(a) A person claiming an exemption from state tax in the form of a remittance under this section must pay the tax imposed by RCW 82.08.020. The buyer may then apply to the department for remittance of all or part of the tax paid under RCW 82.08.020. For grain elevators with bushel capacity of one million but less than two million, the remittance is equal to fifty

percent of the amount of tax paid. For warehouses with square footage of two hundred thousand or more and for grain elevators with bushel capacity of two million or more, the remittance is equal to one hundred percent of the amount of tax paid for qualifying construction, materials, service, and labor, and fifty percent of the amount of tax paid for qualifying material-handling equipment and racking equipment, and labor and services rendered in respect to installing, repairing, cleaning, altering, or improving the equipment.

(b) The department shall determine eligibility under this section based on information provided by the buyer and through audit and other administrative records. The buyer shall on a quarterly basis submit an information sheet, in a form and manner as required by the department by rule, specifying the amount of exempted tax claimed and the qualifying purchases or acquisitions for which the exemption is claimed. The buyer shall retain, in adequate detail to enable the department to determine whether the equipment or construction meets the criteria under this section: Invoices; proof of tax paid; documents describing the material-handling equipment and racking equipment; location and size of warehouses and grain elevators; and construction invoices and documents.

(c) The department shall on a quarterly basis remit exempted amounts to qualifying persons who submitted applications during the previous quarter.

(4) Warehouses, grain elevators, and material-handling equipment and racking equipment for which an exemption, credit, or deferral has been or is being received under chapter 82.60, 82.61, 82.62, or 82.63 RCW or RCW 82.08.02565 or 82.12.02565 are not eligible for any remittance under this section. Warehouses and grain elevators upon which construction was initiated before May 20, 1997, are not eligible for a remittance under this section.

(5) The lessor or owner of a warehouse or grain elevator is not eligible for a remittance under this section unless the underlying ownership of the warehouse or grain elevator and the material-handling equipment and racking equipment vests exclusively in the same person, or unless the lessor by written contract agrees to pass the economic benefit of the remittance to the lessee in the form of reduced rent payments.

[1997 c 450 § 2.]

Notes:

Findings--Intent--1997 c 450: "The legislature finds that the state's overall economic health and prosperity is bolstered through tax incentives targeted to specific industries. The warehouse and distribution industry is critical to other businesses. The transportation sector, the retail sector, the ports, and the wholesalers all rely on the warehouse and distribution industry. It is the intent of the legislature to stimulate interstate trade by providing tax incentives to those persons in the warehouse and distribution industry engaged in highly competitive trade." [1997 c 450 § 1.]

Report--1997 c 450: "The legislative fiscal committees shall report to the legislature by December 1, 2001, on the economic impacts of this act. This report shall analyze employment and other relevant economic data pertaining to the tax exemptions authorized under this act and shall measure the effect on the creation or retention of family-wage jobs and diversification of the state's economy. The report must include the committee's findings on the tax incentive program's performance in achieving its goals and recommendations on ways to improve its effectiveness. Analytic techniques may include, but not be limited to, comparisons of Washington to other states that did not enact business tax changes, comparisons across Washington counties based on usage of the tax exemptions, and comparisons across similar firms based on their use of the tax exemptions. In performing the

analysis, the legislative fiscal committees shall consult with business and labor interests. The department of revenue, the employment security department, and other agencies shall provide to the legislative fiscal committees such data as the legislative fiscal committees may request in performing the analysis required under this section." (1) The tax levied by RCW 82.08.020 does not apply to sales of gun safes.

(2) As used in this section and RCW 82.12.832, "gun safe" means an enclosure specifically designed or modified for the purpose of storing a firearm and equipped with a padlock, key lock, combination lock, or similar locking device which, when locked, prevents the unauthorized use of the firearm.

RCW 82.08.840 Exemptions--Machinery, equipment, or structures that reduce field burning. (Expires January 1, 2006.)

(1) The tax levied by RCW 82.08.020 does not apply to sales of machinery and equipment, and to services rendered in respect to constructing structures, installing, constructing, repairing, cleaning, decorating, altering, or improving of structures or eligible machinery and

equipment, or to sales of tangible personal property that becomes an ingredient or component of eligible structures or eligible machinery and equipment, if the machinery, equipment, or structure is used more than half of the time:

(a) For gathering, densifying, processing, handling, storing, transporting, or incorporating straw or straw-based products that results in a reduction in field burning of cereal grains and field and turf grass grown for seed; or

(b) To decrease air emissions resulting from field burning of cereal grains and field and turf grass grown for seed.

(2) A person taking the exemption under this section must keep records necessary for the department to verify eligibility under this section. The exemption is available only when the buyer provides the seller with an exemption certificate in a form and manner prescribed by the department. The seller shall retain a copy of the certificate for the seller's files.

(3) The department of ecology and the department of agriculture shall consult with the department with regard to the information necessary for the department to administer this section.

(4) This section expires January 1, 2006.

[2000 c 40 § 2.]

Notes:

Intent--2000 c 40: "It is the intent of the legislature to provide tax exemptions and credits to encourage alternatives to the field burning of cereal grains and field and turf grass grown for seed. The exemptions and credits are available to farmers and to other persons engaged in activities that make it possible to reduce field burning including persons involved in manufacturing or marketing straw or straw-based products, or to reduce the air emissions resulting from such burning. It is the intent of the legislature that the exemptions and credits provided by this act apply not only to facilities and machinery and equipment for alternatives currently available, but also to those that may become available in the future." [2000 c 40 § 1.]

Effective date--2000 c 40: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [March 22, 2000]." [2000 c 40 § 6.]

RCW 82.08.850 Exemptions--Conifer seed.

(1) The tax levied by RCW 82.08.020 does not apply to the sale of conifer seed that is immediately placed into freezer storage operated by the seller and is: (a) Used for growing timber outside Washington; or (b) sold to an Indian tribe or member and is to be used for growing timber in Indian country. This section applies only if the buyer provides the seller with an exemption certificate in a form and manner prescribed by the department. The seller shall retain a copy of the certificate for the seller's files. For the purposes of this section, "Indian country" has the meaning given in RCW 82.24.010.

(2) If a buyer of conifer seed is normally engaged in growing timber both within and outside Washington and is not able to determine at the time of purchase whether the seed acquired, or the seedlings germinated from the seed acquired, will be used for growing timber within or outside Washington, the buyer may defer payment of the sales tax until it is determined that the seed, or seedlings germinated from the seed, will be planted for growing timber in

Washington. A buyer that does not pay sales tax on the purchase of conifer seed and subsequently determines that the sale did not qualify for the tax exemption must remit to the department the amount of sales tax that would have been paid at the time of purchase.

(3) A buyer who pays retail sales tax on the purchase of conifer seed and subsequently determines that the sale qualifies for the tax exemption provided in this section is entitled to a deduction on the buyer's tax return equal to the cost to the buyer of the purchased seed. The deduction is allowed only if the buyer keeps and preserves records that show from whom the seed was purchased, the date of the purchase, the amount of the purchase, and the tax that was paid.

[2001 c 129 § 2.]

NOTES:

Finding--Intent--2001 c 129: "The legislature finds that in-state sellers of conifer seed and persons growing customer-owned conifer seed into seedlings are placed at a marketplace disadvantage compared to persons doing the same activity out of state because of the unique storage and growing requirements of conifer seed. It is the intent of the legislature to eliminate this disadvantage by providing a limited sales tax exemption for the sale of conifer seed to be used to grow timber outside Washington, or sold to an Indian tribe or member to grow timber in Indian country, if upon sale the seed is immediately placed into freezer storage operated by the seller." [2001 c 129 § 1.]

(a) The moving of houses out of any landslide area that has been declared as a federal disaster area;

(b) The demolition of houses located in a landslide area that has been declared as a federal disaster area; or

(c) The removal of debris from a landslide area that has been declared as a federal disaster area.

For the purposes of this chapter:

(1)(a) "Value of the article used" shall mean the consideration, whether money, credit, rights, or other property except trade-in property of like kind, expressed in terms of money, paid or given or contracted to be paid or given by the purchaser to the seller for the article of tangible personal property, the use of which is taxable under this chapter. The term includes, in addition to the consideration paid or given or contracted to be paid or given, the amount of any tariff or duty paid with respect to the importation of the article used. In case the article used is acquired by lease or by gift or is extracted, produced, or manufactured by the person using the same or is sold under conditions wherein the purchase price does not represent the true value thereof, the value of the article used shall be determined as nearly as possible according to the retail selling price at place of use of similar products of like quality and character under such rules as the department of revenue may prescribe.

(b) In case the articles used are acquired by bailment, the value of the use of the articles so used shall be in an amount representing a reasonable rental for the use of the articles so bailed, determined as nearly as possible according to the value of such use at the places of use of similar products of like quality and character under such rules as the department of revenue may prescribe. In case any such articles of tangible personal property are used in respect to the construction, repairing, decorating, or improving of, and which become or are to become an ingredient or component of, new or existing buildings or other structures under, upon, or above real property of or for the United States, any instrumentality thereof, or a county or city housing authority created pursuant to chapter 35.82 RCW, including the installing or attaching of any such articles therein or thereto, whether or not such personal property becomes a part of the realty by virtue of installation, then the value of the use of such articles so used shall be determined according to the retail selling price of such articles, or in the absence of such a selling price, as nearly as possible according to the retail selling price at place of use of similar products of like quality and character or, in the absence of either of these selling price measures, such value may be determined upon a cost basis, in any event under such rules as the department of revenue may prescribe.

(c) In the case of articles owned by a user engaged in business outside the state which are brought into the state for no more than one hundred eighty days in any period of three hundred sixty-five consecutive days and which are temporarily used for business purposes by the person

in this state, the value of the article used shall be an amount representing a reasonable rental for the use of the articles, unless the person has paid tax under this chapter or chapter 82.08 RCW upon the full value of the article used, as defined in (a) of this subsection.

(d) In the case of articles manufactured or produced by the user and used in the manufacture or production of products sold or to be sold to the department of defense of the United States, the value of the articles used shall be determined according to the value of the ingredients of such articles.

(e) In the case of an article manufactured or produced for purposes of serving as a prototype for the development of a new or improved product, the value of the article used shall be determined by: (i) The retail selling price of such new or improved product when first offered for sale; or (ii) the value of materials incorporated into the prototype in cases in which the new or improved product is not offered for sale.

(f) In the case of an article purchased with a direct pay permit under RCW 82.32.087, the value of the article used shall be determined by the retail selling price, as defined in RCW 82.08.010, of such article if but for the use of the direct pay permit the transaction would have been subject to sales tax;

(2) "Use," "used," "using," or "put to use" shall have their ordinary meaning, and shall mean the first act within this state by which the taxpayer takes or assumes dominion or control over the article of tangible personal property (as a consumer), and include installation, storage, withdrawal from storage, or any other act preparatory to subsequent actual use or consumption within this state;

The "value of the article used" does not include any amounts that are paid for the hire or use of a gas distribution business as defined in RCW 82.16.010(7) in transporting the gas subject to tax under this subsection if those amounts are subject to tax under that chapter.

(3) The tax levied in this section shall not apply to the use of natural or manufactured gas delivered to the consumer by other means than through a pipeline.

(4) The tax levied in this section shall not apply to the use of natural or manufactured gas if the person who sold the gas to the consumer has paid a tax under RCW 82.16.020 with respect to the gas for which exemption is sought under this subsection.

(5) There shall be a credit against the tax levied under this section in an amount equal to any tax paid by:

(a) The person who sold the gas to the consumer when that tax is a gross receipts tax similar to that imposed pursuant to RCW 82.16.020 by another state with respect to the gas for which a credit is sought under this subsection; or

(b) The person consuming the gas upon which a use tax similar to the tax imposed by this section was paid to another state with respect to the gas for which a credit is sought under this subsection.

(6) The use tax hereby imposed shall be paid by the consumer to the department.

(7) There is imposed a reporting requirement on the person who delivered the gas to the consumer to make a quarterly report to the department. Such report shall contain the volume of gas delivered, name of the consumer to whom delivered, and such other information as the department shall require by rule.

(8) The department may adopt rules under chapter 34.05 RCW for the administration and enforcement of sections 1 through 6, chapter 384, Laws of 1989.

RCW 82.12.024 Deferral of use tax on certain users of natural or manufactured gas.

(1) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Direct service industrial customer" means a person who is an industrial customer that contracts for the purchase of power from the Bonneville Power Administration for direct consumption as of May 8, 2001. "Direct service industrial customer" includes a person who is a subsidiary that is more than fifty percent owned by a direct service industrial customer and who receives power from the Bonneville Power Administration pursuant to the parent's contract for power.

(b) "Facility" means a gas turbine electrical generation facility that does not exist on May 8, 2001, and is owned by a direct service industrial customer for the purpose of producing electricity to be consumed by the direct service industrial customer.

(c) "Average annual employment" means the total employment in this state for a calendar year at the direct service industrial customer's location where electricity from the facility will be consumed.

(2) Effective July 1, 2001, the tax levied in RCW 82.12.022 on the first sixty months' use of natural or manufactured gas by a direct service industrial customer that owns a facility shall be deferred. This deferral is limited to the tax on natural or manufactured gas used or consumed to generate electricity at the facility.

(3) Application for deferral shall be made by the direct service industrial customer before the first use of natural or manufactured gas. The application shall be in a form and manner prescribed by the department and shall include but is not limited to information regarding the location of the facility, the projected date of first use of natural or manufactured gas to generate electricity at the facility, the date construction is projected to begin or did begin, the applicant's average annual employment in the state for the six calendar years immediately preceding the year in which the application is made, and shall affirm the applicant's status as a direct service industrial customer. The department shall rule on the application within thirty days of receipt.

(4)(a) The direct service industrial customer shall begin paying the deferred tax in the sixth calendar year following the calendar year in which the month of first use of natural or manufactured gas to generate electricity at the facility occurs. The first payment will be due on or before December 31st with subsequent annual payments due on or before December 31st of the following four years according to the following schedule:

<u>Payment Year</u>	<u>% of Deferred Tax to be Paid</u>
---------------------	-------------------------------------

1	10%
2	15%
3	20%
4	25%
5	30%

(b) The department may authorize an accelerated payment schedule upon request of the taxpayer.

(c) Interest shall not be charged on the tax deferred under this section for the period of deferral, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed. The debt for deferred tax will not be extinguished by insolvency or other failure of the direct service industrial customer. Transfer of ownership of the facility does not affect deferral eligibility. However, the deferral is available to the successor only if the eligibility conditions of this section are met.

(5)(a) If the average of the direct service industrial customer's average annual employment for the five calendar years subsequent to the calendar year containing the first month of use of natural or manufactured gas to generate electricity at a facility is equal to or exceeds the six-year average annual employment stated on the application for deferral under this section, the tax deferred need not be paid. The direct service industrial customer shall certify to the department by June 1st of the sixth calendar year following the calendar year in which the month of first use of gas occurs the average annual employment for each of the five prior calendar years.

(b) If the five-year average calculated in (a) of this subsection is less than the average annual employment stated on the application for deferral under this section, the tax deferred under this section shall be paid in the amount as follows:

<u>Decrease in Average Annual Employment Over Five-Year Period</u>	<u>% of Deferred Tax to be Paid</u>
Less than 10%	10%
10% or more but less than 25%	25%
25% or more but less than 50%	50%
50% or more but less than 75%	75%
75% or more	100%

(c) Tax paid under this subsection shall be paid according to the schedule in subsection (4)(a) of this section and under the terms and conditions of subsection (4)(b) and (c) of this section.

(6) The employment security department shall make, and certify to the department of revenue, all determinations of employment under this section as requested by the department.

(7) A person claiming this deferral shall supply to the department quarterly reports containing information necessary to document the total volume of natural or manufactured gas purchased in the quarter, the value of that total volume, and the percentage of the total volume used to generate electricity at the facility.

(1) In the collection of the use tax on motor vehicles, the department of revenue may designate the county auditors of the several counties of the state as its collecting agents. Upon such designation, it shall be the duty of each county auditor to collect the tax at the time an applicant applies for the registration of, and transfer of title to, the motor vehicle, except in the following instances:

(a) Where the applicant exhibits a dealer's report of sale showing that the retail sales tax has been collected by the dealer;

(b) Where the application is for the renewal of registration;

(c) Where the applicant presents a written statement signed by the department of revenue, or its duly authorized agent showing that no use tax is legally due; or

(d) Where the applicant presents satisfactory evidence showing that the retail sales tax or the use tax has been paid by him on the vehicle in question.

(2) The term "motor vehicle," as used in this section means and includes all motor vehicles, trailers and semitrailers used, or of a type designed primarily to be used, upon the public streets and highways, for the convenience or pleasure of the owner, or for the conveyance, for hire or otherwise, of persons or property, including fixed loads, facilities for human habitation, and vehicles carrying exempt licenses.

(3) It shall be the duty of every applicant for registration and transfer of certificate of title who is subject to payment of tax under this section to declare upon his application the value of the vehicle for which application is made, which shall consist of the consideration paid or contracted to be paid therefor.

(4) Each county auditor who acts as agent of the department of revenue shall at the time of remitting license fee receipts on motor vehicles subject to the provisions of this section pay over and account to the state treasurer for all use tax revenue collected under this section, after first deducting as his collection fee the sum of two dollars for each motor vehicle upon which the tax has been collected. All revenue received by the state treasurer under this section shall be credited to the general fund. The auditor's collection fee shall be deposited in the county current expense fund. A duplicate of the county auditor's transmittal report to the state treasurer shall be forwarded forthwith to the department of revenue.

No refund shall be allowed unless application therefor is received by the department of revenue within the statutory period for assessment of taxes, penalties, or interest prescribed by RCW 82.32.050(3). Upon receipt of an application for refund the department of revenue shall consider the same and issue its order either granting or denying it and if refund is denied the taxpayer shall have the right of appeal as provided in RCW 82.32.170, 82.32.180 and 82.32.190.

(6) The provisions of this section shall be construed as cumulative of other methods prescribed in chapters 82.04 to 82.32 RCW, inclusive, for the collection of the tax imposed by this chapter. The department of revenue shall have power to promulgate such rules as may be necessary to administer the provisions of this section. Any duties required by this section to be

performed by the county auditor may be performed by the director of licensing but no collection fee shall be deductible by said director in remitting use tax revenue to the state treasurer.

RCW 82.14.010 Legislative finding--Purpose.

The legislature finds that the several counties and cities of the state lack adequate sources of revenue to carry out essential county and municipal purposes. The legislature further finds that the most efficient and appropriate methods of deriving revenues for such purposes is to vest additional taxing powers in the governing bodies of counties and cities which they may or may not implement. The legislature intends, by enacting this chapter, to provide the means by which essential county and municipal purposes can be financially served should they choose to employ them.

NOTES:

Purpose--1998 c 321: "The purpose of this act is to reallocate the general fund portion of the state's motor vehicle excise tax revenues among the taxpayers, local governments, and the state's transportation programs. By reallocating motor vehicle excise taxes, the state revenue portion can be dedicated to increased transportation funding purposes. Since the general fund currently has a budget surplus, due to a strong economy, the legislature

feels that this reallocation is an appropriate short-term solution to the state's transportation needs and is a first step in meeting longer-term transportation funding needs. These reallocated funds must be used to provide relief from traffic congestion, improve freight mobility, and increase traffic safety.

In reallocating general fund resources, the legislature also ensures that other programs funded from the general fund are not adversely impacted by the reallocation of surplus general fund revenues. The legislature also adopts this act to continue the general fund revenue and expenditure limitations contained in chapter 43.135 RCW after this one-time transfer of funds.

In order to develop a long-term and comprehensive solution to the state's transportation problems, a joint committee will be created to study the state's transportation needs and the appropriate sources of revenue necessary to implement the state's long-term transportation needs as provided in *section 22 of this act." [1998 c 321 § 1 (Referendum Bill No. 49, approved November 3, 1998).]

***Reviser's note:** Section 22 of this act was vetoed by the governor.

Severability--1998 c 321: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1998 c 321 § 45 (Referendum Bill No. 49, approved November 3, 1998).]

Effective dates--Application--1998 c 321 §§ 1-21, 44, and 45: "(1) Sections 1 through 3, 5 through 21, 44, and 45 of this act take effect January 1, 1999.

(2) Section 4 of this act takes effect July 1, 1999, and applies to registrations that are due or become due in July 1999, and thereafter." [1998 c 321 § 46 (Referendum Bill No. 49, approved November 3, 1998).]

Referral to electorate--1998 c 321 §§ 1-21 and 44-46: "The secretary of state shall submit sections 1 through 21 and 44 through 46 of this act to the people for their adoption and ratification, or rejection, at the next general election to be held in this state, in accordance with Article II, section 1 of the state Constitution and the laws adopted to facilitate its operation." [1998 c 321 § 49 (Referendum Bill No. 49, approved November 3, 1998).]

Purpose--Captions now law--1991 c 363: See notes following RCW 2.32.180.

Severability--Effective date--1975 1st ex.s. c 270: See notes following RCW 35.58.272.

Legislative finding, declaration--1971 ex.s. c 296: "The legislature finds that adequate public transportation systems are necessary to the economic, industrial and cultural development of the urban areas of this state and the health, welfare and prosperity of persons who reside or are employed in such areas or who engage in business therein and such systems are increasingly essential to the functioning of the urban highways of the state. The legislature further finds and declares that fares and tolls for the use of public transportation systems cannot maintain such systems in solvent financial conditions and at the same time meet the need to serve those who cannot reasonably afford or use other forms of transportation. The legislature further finds and declares that additional and alternate means of financing adequate public transportation service are necessary for the cities, metropolitan municipal corporations and counties of this state which provide such service." [1971 ex.s. c 296 § 1.]

Severability--1971 ex.s. c 296: "If any provision of this 1971 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1971 ex.s. c 296 § 5.]

RCW 82.14.046 Sales and use tax equalization payments from local transit taxes.

Beginning with distributions made to municipalities under RCW 82.44.150 on January 1, 1996, municipalities as defined in RCW 35.58.272 imposing local transit taxes, which for purposes of this section include the sales and use tax under RCW 82.14.045, the business and occupation tax under RCW 35.95.040, and excise taxes under RCW 35.95.040, shall be eligible for sales and use tax equalization payments from motor vehicle excise taxes distributed under RCW 82.44.150 as follows:

(1) Prior to January 1st of each year the department of revenue shall determine the total and the per capita levels of revenues for each municipality imposing local transit taxes and the state-wide weighted average per capita level of sales and use tax revenues imposed under

chapters 82.08 and 82.12 RCW for the previous calendar year calculated for a sales and use tax rate of one-tenth percent. For purposes of this section, the department of revenue shall determine a local transit tax rate for each municipality for the previous calendar year. The tax rate shall be equivalent to the sales and use tax rate for the municipality that would have generated an amount of revenue equal to the amount of local transit taxes collected by the municipality.

(2) For each tenth of one percent of the local transit tax rate, the state treasurer shall apportion to each municipality receiving less than eighty percent of the state-wide weighted average per capita level of sales and use tax revenues imposed under chapters 82.08 and 82.12 RCW as determined by the department of revenue under subsection (1) of this section, an amount when added to the per capita level of revenues received the previous calendar year by the municipality, to equal eighty percent of the state-wide weighted average per capita level of revenues determined under subsection (1) of this section. In no event may the sales and use tax equalization distribution to a municipality in a single calendar year exceed: (a) Fifty percent of the amount of local transit taxes collected during the prior calendar year; or (b) the maximum amount of revenue that could have been collected at a local transit tax rate of three-tenths percent in the prior calendar year.

(3) For a municipality established after January 1, 1995, sales and use tax equalization distributions shall be made according to the procedures in this subsection. Sales and use tax equalization distributions to eligible new municipalities shall be made at the same time as distributions are made under subsection (2) of this section. The department of revenue shall follow the estimating procedures outlined in this subsection until the new municipality has received a full year's worth of local transit tax revenues as of the January sales and use tax equalization distribution.

(a) Whether a newly established municipality determined to receive funds under this subsection receives its first equalization payment at the January, April, July, or October sales and use tax equalization distribution shall depend on the date the system first imposes local transit taxes.

(i) A newly established municipality imposing local transit taxes taking effect during the first calendar quarter shall be eligible to receive funds under this subsection beginning with the July sales and use tax equalization distribution of that year.

(ii) A newly established municipality imposing local transit taxes taking effect during the second calendar quarter shall be eligible to receive funds under this subsection beginning with the October sales and use tax equalization distribution of that year.

(iii) A newly established municipality imposing local transit taxes taking effect during the third calendar quarter shall be eligible to receive funds under this subsection beginning with the January sales and use tax equalization distribution of the next year.

(iv) A newly established municipality imposing local transit taxes taking effect during the fourth calendar quarter shall be eligible to receive funds under this subsection beginning with the April sales and use tax equalization distribution of the next year.

(b) For purposes of calculating the amount of funds the new municipality should receive under this subsection, the department of revenue shall:

(i) Estimate the per capita amount of revenues from local transit taxes that the new municipality would have received had the municipality received revenues from the tax the entire calendar year;

(ii) Calculate the amount provided under subsection (2) of this section based on the per capita revenues determined under (b)(i) of this subsection;

(iii) Prorate the amount determined under (b)(ii) of this subsection by the number of months the local transit taxes have been imposed.

RCW 82.14.200 County sales and use tax equalization account--Allocation procedure.

There is created in the state treasury a special account to be known as the "county sales and use tax equalization account." Into this account shall be placed a portion of all motor vehicle excise tax receipts as provided in RCW 82.44.110. Funds in this account shall be allocated by the state treasurer according to the following procedure:

(1) Prior to April 1st of each year the director of revenue shall inform the state treasurer of the total and the per capita levels of revenues for the unincorporated area of each county and the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties imposing the sales and use tax authorized under RCW 82.14.030(1) for the previous calendar year.

(2) At such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than one hundred fifty thousand dollars from the tax for the previous calendar year, an amount from the county sales and use tax equalization account sufficient, when added to the amount of revenues received the previous calendar year by the county, to equal one hundred fifty thousand dollars.

The department of revenue shall establish a governmental price index as provided in this subsection. The base year for the index shall be the end of the third quarter of 1982. Prior to November 1, 1983, and prior to each November 1st thereafter, the department of revenue shall establish another index figure for the third quarter of that year. The department of revenue may use the implicit price deflators for state and local government purchases of goods and services calculated by the United States department of commerce to establish the governmental price index. Beginning on January 1, 1984, and each January 1st thereafter, the one hundred fifty thousand dollar base figure in this subsection shall be adjusted in direct proportion to the percentage change in the governmental price index from 1982 until the year before the adjustment. Distributions made under this subsection for 1984 and thereafter shall use this adjusted base amount figure.

(3) Subsequent to the distributions under subsection (2) of this section and at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties as determined by the department of revenue under subsection (1) of this section, an amount from the county sales and use tax equalization account sufficient, when added to the per capita level of revenues for the unincorporated area received the previous calendar year by the county, to equal seventy percent of the state-wide

weighted average per capita level of revenues for the unincorporated areas of all counties determined under subsection (1) of this section, subject to reduction under subsections (6) and (7) of this section. When computing distributions under this section, any distribution under subsection (2) of this section shall be considered revenues received from the tax imposed under RCW 82.14.030(1) for the previous calendar year.

(4) Subsequent to the distributions under subsection (3) of this section and at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (2) of this section, a third distribution from the county sales and use tax equalization account. The distribution to each qualifying county shall be equal to the distribution to the county under subsection (2) of this section, subject to the reduction under subsections (6) and (7) of this section. To qualify for the total distribution under this subsection, the county must impose the tax under RCW 82.14.030(2) for the entire calendar year. Counties imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(5) Subsequent to the distributions under subsection (4) of this section and at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (3) of this section, a fourth distribution from the county sales and use tax equalization account. The distribution to each qualifying county shall be equal to the distribution to the county under subsection (3) of this section, subject to the reduction under subsections (6) and (7) of this section. To qualify for the distributions under this subsection, the county must impose the tax under RCW 82.14.030(2) for the entire calendar year. Counties imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(6) Revenues distributed under subsections (2) through (5) of this section in any calendar year shall not exceed an amount equal to seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties during the previous calendar year. If distributions under subsections (3) through (5) of this section cannot be made because of this limitation, then distributions under subsections (3) through (5) of this section shall be reduced ratably among the qualifying counties.

(7) If inadequate revenues exist in the county sales and use tax equalization account to make the distributions under subsections (3) through (5) of this section, then the distributions under subsections (3) through (5) of this section shall be reduced ratably among the qualifying counties. At such time during the year as additional funds accrue to the county sales and use tax equalization account, additional distributions shall be made under subsections (3) through (5) of this section to the counties.

(8) If the level of revenues in the county sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (5) of this section, at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion

an amount to the county public health account created in RCW 70.05.125 equal to the adjustment under RCW 70.05.125(2)(b).

(9) If the level of revenues in the county sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (5) and (8) of this section, then the additional revenues shall be credited and transferred as follows:

(a) Fifty percent to the public facilities construction loan revolving account under RCW 43.160.080; and

(b) Fifty percent to the distressed county public facilities construction loan account under RCW 43.160.220, or so much thereof as will not cause the balance in the account to exceed twenty-five million dollars. Any remaining funds shall be deposited into the public facilities construction loan revolving account.

(3) Subsequent to the distributions under subsection (2) of this section, and at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each city imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than seventy percent of the state-wide weighted average per capita level of revenues for all cities as determined by the department of revenue under subsection (1) of this section, an amount from the municipal sales and use tax equalization account sufficient, when added to the per capita level of revenues received the previous calendar year by the city, to equal seventy percent of the state-wide weighted average per capita level of revenues for all cities determined under subsection (1) of this section, subject to reduction under subsection (6) of this section.

(4) Subsequent to the distributions under subsection (3) of this section, and at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each city imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (3) of this section, a third distribution from the municipal sales and use tax equalization account. The distribution to each qualifying city shall be equal to the distribution to the city under subsection (3) of this section, subject to the reduction under subsection (6) of this section. To qualify for the distributions under this subsection, the city must impose the tax under RCW 82.14.030(2) for the entire calendar year. Cities imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(5) For a city with an official incorporation date after January 1, 1990, municipal sales and use tax equalization distributions shall be made according to the procedures in this subsection. Municipal sales and use tax equalization distributions to eligible new cities shall be made at the same time as distributions are made under subsections (3) and (4) of this section. The department of revenue shall follow the estimating procedures outlined in this subsection until the new city has received a full year's worth of revenues under RCW 82.14.030(1) as of the January municipal sales and use tax equalization distribution.

(a) Whether a newly incorporated city determined to receive funds under this subsection receives its first equalization payment at the January, April, July, or October municipal sales and use tax equalization distribution shall depend on the date the city first imposes the tax authorized under RCW 82.14.030(1).

(i) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of January 1st shall be eligible to receive funds under this subsection beginning with the April municipal sales and use tax equalization distribution of that year.

(ii) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of February 1st, March 1st, or April 1st shall be eligible to receive funds under this subsection beginning with the July municipal sales and use tax equalization distribution of that year.

(iii) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of May 1st, June 1st, or July 1st shall be eligible to receive funds under this subsection beginning with the October municipal sales and use tax equalization distribution of that year.

(iv) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1)

effective as of August 1st, September 1st, or October 1st shall be eligible to receive funds under this subsection beginning with the January municipal sales and use tax equalization distribution of the next year.

(v) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of November 1st or December 1st shall be eligible to receive funds under this subsection beginning with the April municipal sales and use tax equalization distribution of the next year.

(b) For purposes of calculating the amount of funds the new city should receive under this subsection, the department of revenue shall:

(i) Estimate the per capita amount of revenues from the tax authorized under RCW 82.14.030(1) that the new city would have received had the city received revenues from the tax the entire calendar year;

(ii) Calculate the amount provided under subsection (3) of this section based on the per capita revenues determined under (b)(i) of this subsection;

(iii) Prorate the amount determined under (b)(ii) of this subsection by the number of months the tax authorized under RCW 82.14.030(1) is imposed.

(c) A new city imposing the tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution calculated under (b) of this subsection shall receive another distribution from the municipal sales and use tax equalization account. This distribution shall be equal to the calculation made under (b)(ii) of this subsection, prorated by the number of months the city imposes the tax authorized under RCW 82.14.030(2) at the full rate.

(d) The department of revenue shall advise the state treasurer of the amounts calculated under (b) and (c) of this subsection and the state treasurer shall distribute these amounts to the new city from the municipal sales and use tax equalization account subject to the limitations imposed in subsection (6) of this section.

(e) Revenues estimated under this subsection shall not affect the calculation of the state-wide weighted average per capita level of revenues for all cities made under subsection (1) of this section.

(6) If inadequate revenues exist in the municipal sales and use tax equalization account to make the distributions under subsection (3), (4), or (5) of this section, then the distributions under subsections (3), (4), and (5) of this section shall be reduced ratably among the qualifying cities. At such time during the year as additional funds accrue to the municipal sales and use tax equalization account, additional distributions shall be made under subsections (3), (4), and (5) of this section to the cities.

(7) If the level of revenues in the municipal sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (5) of this section, then the additional revenues shall be apportioned among the several cities within the state ratably on the basis of population as last determined by the office of financial management: PROVIDED, That no such distribution shall be made to those cities receiving a distribution under subsection (2) of this section.

RCW 82.14.300 Local government criminal justice assistance--Finding.

The legislature finds and declares that local government criminal justice systems are in need of assistance. Many counties and cities are unable to provide sufficient funding for additional police protection, mitigation of congested court systems, public safety education, and relief of overcrowded jails.

In order to ensure public safety, it is necessary to provide fiscal assistance to help local governments to respond immediately to these criminal justice problems, while initiating a review of the criminal justice needs of cities and counties and the resources available to address those needs.

To provide for a more efficient and effective response to these problems, the legislature encourages cities and counties to coordinate strategies against crime and use multijurisdictional and innovative approaches in addressing criminal justice problems.

RCW 82.14.310 County criminal justice assistance account--Transfers from general fund--Distributions based on crime rate and population--Limitations.

(1) The county criminal justice assistance account is created in the state treasury. Beginning in fiscal year 2000, the state treasurer shall transfer into the county criminal justice assistance account from the general fund the sum of twenty-three million two hundred thousand dollars divided into four equal deposits occurring on July 1, October 1, January 1, and April 1. For each fiscal year thereafter, the state treasurer shall increase the total transfer by the fiscal growth factor, as defined in RCW 43.135.025, forecast for that fiscal year by the office of financial management in November of the preceding year.

(2) The moneys deposited in the county criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under subsection (4) of this section, shall be distributed at such times as distributions are made under RCW 82.44.150 and on the relative basis of each county's funding factor as determined under this subsection.

(a) A county's funding factor is the sum of:

(i) The population of the county, divided by one thousand, and multiplied by two-tenths;

(ii) The crime rate of the county, multiplied by three-tenths; and

(iii) The annual number of criminal cases filed in the county superior court, for each one thousand in population, multiplied by five-tenths.

(b) Under this section and RCW 82.14.320 and 82.14.330:

(i) The population of the county or city shall be as last determined by the office of financial management;

(ii) The crime rate of the county or city is the annual occurrence of specified criminal offenses, as calculated in the most recent annual report on crime in Washington state as published by the Washington association of sheriffs and police chiefs, for each one thousand in population;

(iii) The annual number of criminal cases filed in the county superior court shall be determined by the most recent annual report of the courts of Washington, as published by the office of the administrator for the courts;

(iv) Distributions and eligibility for distributions in the 1989-91 biennium shall be based on 1988 figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection. Future distributions shall be based on the most recent figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection.

(3) Moneys distributed under this section shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil or juvenile justice system occurs, and which includes (a) domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020, and (b) during the 2001-2003 fiscal biennium, juvenile dispositional hearings relating to petitions for at-risk youth, truancy, and children in need of services. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

(4) Not more than five percent of the funds deposited to the county criminal justice assistance account shall be available for appropriations for enhancements to the state patrol crime laboratory system and the continuing costs related to these enhancements. Funds appropriated from this account for such enhancements shall not supplant existing funds from the state general fund.

(1) The municipal criminal justice assistance account is created in the state treasury. Beginning in fiscal year 2000, the state treasurer shall transfer into the municipal criminal justice assistance account for distribution under this section from the general fund the sum of four million six hundred thousand dollars divided into four equal deposits occurring on July 1, October 1, January 1, and April 1. For each fiscal year thereafter, the state treasurer shall

increase the total transfer by the fiscal growth factor, as defined in RCW 43.135.025, forecast for that fiscal year by the office of financial management in November of the preceding year.

(2) No city may receive a distribution under this section from the municipal criminal justice assistance account unless:

(a) The city has a crime rate in excess of one hundred twenty-five percent of the state-wide average as calculated in the most recent annual report on crime in Washington state as published by the Washington association of sheriffs and police chiefs;

(b) The city has levied the tax authorized in RCW 82.14.030(2) at the maximum rate or the tax authorized in RCW 82.46.010(3) at the maximum rate; and

(c) The city has a per capita yield from the tax imposed under RCW 82.14.030(1) at the maximum rate of less than one hundred fifty percent of the state-wide average per capita yield for all cities from such local sales and use tax.

(3) The moneys deposited in the municipal criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under subsection (7) of this section, shall be distributed at such times as distributions are made under RCW 82.44.150. The distributions shall be made as follows:

(a) Unless reduced by this subsection, thirty percent of the moneys shall be distributed ratably based on population as last determined by the office of financial management to those cities eligible under subsection (2) of this section that have a crime rate determined under subsection (2)(a) of this section which is greater than one hundred seventy-five percent of the state-wide average crime rate. No city may receive more than fifty percent of any moneys distributed under this subsection (a) but, if a city distribution is reduced as a result of exceeding the fifty percent limitation, the amount not distributed shall be distributed under (b) of this subsection.

(b) The remainder of the moneys, including any moneys not distributed in subsection (2)(a) of this section, shall be distributed to all cities eligible under subsection (2) of this section ratably based on population as last determined by the office of financial management.

(4) No city may receive more than thirty percent of all moneys distributed under subsection (3) of this section.

(5) Notwithstanding other provisions of this section, the distributions to any city that substantially decriminalizes or repeals its criminal code after July 1, 1990, and that does not reimburse the county for costs associated with criminal cases under RCW 3.50.800 or 3.50.805(2), shall be made to the county in which the city is located.

(6) Moneys distributed under this section shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020, and publications and public educational efforts designed to provide information and assistance to parents in dealing with runaway or at-risk youth. RCW 82.14.330 Municipal criminal justice assistance account--Transfers from general fund--Distributions based on crime rate, population, and innovation--Limitations.

(1) Beginning in fiscal year 2000, the state treasurer shall transfer into the municipal criminal justice assistance account for distribution under this section from the general fund the sum of four million six hundred thousand dollars divided into four equal deposits occurring on July 1, October 1, January 1, and April 1. For each fiscal year thereafter, the state treasurer shall increase the total transfer by the fiscal growth factor, as defined in RCW 43.135.025, forecast for that fiscal year by the office of financial management in November of the preceding year. The moneys deposited in the municipal criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under subsection (4) of this section, shall be distributed to the cities of the state as follows:

(a) Twenty percent appropriated for distribution shall be distributed to cities with a three-year average violent crime rate for each one thousand in population in excess of one hundred fifty percent of the state-wide three-year average violent crime rate for each one

thousand in population. The three-year average violent crime rate shall be calculated using the violent crime rates for each of the preceding three years from the annual reports on crime in Washington state as published by the Washington association of sheriffs and police chiefs. Moneys shall be distributed under this subsection (1)(a) ratably based on population as last determined by the office of financial management, but no city may receive more than one dollar per capita. Moneys remaining undistributed under this subsection at the end of each calendar year shall be distributed to the criminal justice training commission to reimburse participating city law enforcement agencies with ten or fewer full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training, as provided in RCW 43.101.200.

(b) Sixteen percent shall be distributed to cities ratably based on population as last determined by the office of financial management, but no city may receive less than one thousand dollars.

The moneys deposited in the municipal criminal justice assistance account for distribution under this subsection shall be distributed at such times as distributions are made under RCW 82.44.150.

Moneys distributed under this subsection shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

(2) In addition to the distributions under subsection (1) of this section:

(a) Fourteen percent shall be distributed to cities that have initiated innovative law enforcement strategies, including alternative sentencing and crime prevention programs. No city may receive more than one dollar per capita under this subsection (2)(a).

(b) Twenty percent shall be distributed to cities that have initiated programs to help at-risk children or child abuse victim response programs. No city may receive more than fifty cents per capita under this subsection (2)(b).

(c) Twenty percent shall be distributed to cities that have initiated programs designed to reduce the level of domestic violence within their jurisdictions or to provide counseling for domestic violence victims. No city may receive more than fifty cents per capita under this subsection (2)(c).

(d) Ten percent shall be distributed to cities that contract with another governmental agency for a majority of the city's law enforcement services.

Moneys distributed under this subsection shall be distributed to those cities that submit funding requests under this subsection to the department of community, trade, and economic

development based on criteria developed under RCW 82.14.335. Allocation of funds shall be in proportion to the population of qualified jurisdictions, but the distribution to a city shall not exceed the amount of funds requested. Cities shall submit requests for program funding to the department of community, trade, and economic development by November 1 of each year for funding the following year. The department shall certify to the state treasurer the cities eligible for funding under this subsection and the amount of each allocation.

The moneys deposited in the municipal criminal justice assistance account for distribution under this subsection, less any moneys appropriated for purposes under subsection (4) of this section, shall be distributed at the times as distributions are made under RCW 82.44.150. Moneys remaining undistributed under this subsection at the end of each calendar year shall be distributed to the criminal justice training commission to reimburse participating city law enforcement agencies with ten or fewer full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training, as provided in RCW 43.101.200.

If a city is found by the state auditor to have expended funds received under this subsection in a manner that does not comply with the criteria under which the moneys were received, the city shall be ineligible to receive future distributions under this subsection until the use of the moneys are justified to the satisfaction of the director or are repaid to the state general fund. The director may allow noncomplying use of moneys received under this subsection upon a showing of hardship or other emergent need.

(3) Notwithstanding other provisions of this section, the distributions to any city that substantially decriminalizes or repeals its criminal code after July 1, 1990, and that does not reimburse the county for costs associated with criminal cases under RCW 3.50.800 or 3.50.805(2), shall be made to the county in which the city is located.

(4) Not more than five percent of the funds deposited to the municipal criminal justice assistance account shall be available for appropriations for enhancements to the state patrol crime laboratory system and the continuing costs related to these enhancements. Funds appropriated from this account for such enhancements shall not supplant existing funds from the state general fund.

RCW 82.14.340 Additional sales and use tax for criminal justice purposes--Referendum--Expenditures.

The legislative authority of any county may fix and impose a sales and use tax in accordance with the terms of this chapter, provided that such sales and use tax is subject to repeal by referendum, using the procedures provided in RCW 82.14.036. The referendum procedure provided in RCW 82.14.036 is the exclusive method for subjecting any county sales and use tax ordinance or resolution to a referendum vote.

The tax authorized in this section shall be in addition to any other taxes authorized by law and shall be collected from those persons who are taxable by the state pursuant to chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within such county. The rate of tax shall equal one-tenth of one percent of the selling price (in the case of a sales tax) or value of the article used (in the case of a use tax).

When distributing moneys collected under this section, the state treasurer shall distribute ten percent of the moneys to the county in which the tax was collected. The remainder of the moneys collected under this section shall be distributed to the county and the cities within the county ratably based on population as last determined by the office of financial management. In making the distribution based on population, the county shall receive that proportion that the unincorporated population of the county bears to the total population of the county and each city shall receive that proportion that the city incorporated population bears to the total county population.

Moneys received from any tax imposed under this section shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar year 1989 actual operating expenditures for

criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

In the expenditure of funds for criminal justice purposes as provided in this section, cities and counties, or any combination thereof, are expressly authorized to participate in agreements, pursuant to chapter 39.34 RCW, to jointly expend funds for criminal justice purposes of mutual benefit. Such criminal justice purposes of mutual benefit include, but are not limited to, the construction, improvement, and expansion of jails, court facilities, and juvenile justice facilities.

RCW 82.14.360 Special stadium sales and use taxes.

(1) The legislative authority of a county with a population of one million or more may impose a special stadium sales and use tax upon the retail sale or use within the county by restaurants, taverns, and bars of food and beverages that are taxable by the state under chapters

82.08 and 82.12 RCW. The rate of the tax shall not exceed five-tenths of one percent of the selling price in the case of a sales tax, or value of the article used in the case of a use tax. The tax imposed under this subsection is in addition to any other taxes authorized by law and shall not be credited against any other tax imposed upon the same taxable event. As used in this section, "restaurant" does not include grocery stores, mini-markets, or convenience stores.

(2) The legislative authority of a county with a population of one million or more may impose a special stadium sales and use tax upon retail car rentals within the county that are taxable by the state under chapters 82.08 and 82.12 RCW. The rate of the tax shall not exceed two percent of the selling price in the case of a sales tax, or rental value of the vehicle in the case of a use tax. The tax imposed under this subsection is in addition to any other taxes authorized by law and shall not be credited against any other tax imposed upon the same taxable event.

(3) The revenue from the taxes imposed under this section shall be used for the purpose of principal and interest payments on bonds, issued by the county, to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium. Revenues from the taxes authorized in this section may be used for design and other preconstruction costs of the baseball stadium until bonds are issued for the baseball stadium. The county shall issue bonds, in an amount determined to be necessary by the public facilities district, for the district to acquire, construct, own, and equip the baseball stadium. The county shall have no obligation to issue bonds in an amount greater than that which would be supported by the tax revenues under this section, RCW 82.14.0485, and 36.38.010(4) (a) and (b). If the revenue from the taxes imposed under this section exceeds the amount needed for such principal and interest payments in any year, the excess shall be used solely:

(a) For early retirement of the bonds issued for the baseball stadium; and

(b) If the revenue from the taxes imposed under this section exceeds the amount needed for the purposes in (a) of this subsection in any year, the excess shall be placed in a contingency fund which may only be used to pay unanticipated capital costs on the baseball stadium, excluding any cost overruns on initial construction.

(4) The taxes authorized under this section shall not be collected after June 30, 1997, unless the county executive has certified to the department of revenue that a professional major league baseball team has made a binding and legally enforceable contractual commitment to:

(a) Play at least ninety percent of its home games in the stadium for a period of time not shorter than the term of the bonds issued to finance the initial construction of the stadium;

(b) Contribute forty-five million dollars toward the reasonably necessary preconstruction costs including, but not limited to architectural, engineering, environmental, and legal services, and the cost of construction of the stadium, or to any associated public purpose separate from bond-financed property, including without limitation land acquisition, parking facilities, equipment, infrastructure, or other similar costs associated with the project, which contribution shall be made during a term not to exceed the term of the bonds issued to finance the initial construction of the stadium. If all or part of the contribution is made after the date of issuance of the bonds, the team shall contribute an additional amount equal to the accruing interest on the deferred portion of the contribution, calculated at the interest rate on the bonds maturing in the year in which the deferred contribution is made. No part of the contribution may be made

without the consent of the county until a public facilities district is created under chapter 36.100 RCW to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium. To the extent possible, contributions shall be structured in a manner that would allow for the issuance of bonds to construct the stadium that are exempt from federal income taxes; and

(c) Share a portion of the profits generated by the baseball team from the operation of the professional franchise for a period of time equal to the term of the bonds issued to finance the initial construction of the stadium, after offsetting any losses incurred by the baseball team after *the effective date of chapter 14, Laws of 1995 1st sp. sess. Such profits and the portion to be shared shall be defined by agreement between the public facilities district and the baseball team. The shared profits shall be used to retire the bonds issued to finance the initial construction of the stadium. If the bonds are retired before the expiration of their term, the shared profits shall be paid to the public facilities district.

(5) No tax may be collected under this section before January 1, 1996. Before collecting the taxes under this section or issuing bonds for a baseball stadium, the county shall create a public facilities district under chapter 36.100 RCW to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium.

(6) The county shall assemble such real property as the district determines to be necessary as a site for the baseball stadium. Property which is necessary for this purpose that is owned by the county on October 17, 1995, shall be contributed to the district, and property which is necessary for this purpose that is acquired by the county on or after October 17, 1995, shall be conveyed to the district.

(7) The proceeds of any bonds issued for the baseball stadium shall be provided to the district.

(8) As used in this section, "baseball stadium" means "baseball stadium" as defined in RCW 82.14.0485.

(9) The taxes imposed under this section shall expire when the bonds issued for the construction of the baseball stadium are retired, but not later than twenty years after the taxes are first collected.

The tax is in addition to other taxes authorized by law and shall be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the county. The rate of tax shall not

exceed 0.08 percent of the selling price in the case of a sales tax or value of the article used in the case of a use tax, except that for rural counties with population densities between sixty and one hundred persons per square mile, the rate shall not exceed 0.04 percent before January 1, 2000.

(2) The tax imposed under subsection (1) of this section shall be deducted from the amount of tax otherwise required to be collected or paid over to the department of revenue under chapter 82.08 or 82.12 RCW. The department of revenue shall perform the collection of such taxes on behalf of the county at no cost to the county.

(3) Moneys collected under this section shall only be used for the purpose of financing public facilities in rural counties. The public facility must be listed as an item in the officially adopted county overall economic development plan, or the economic development section of the county's comprehensive plan, or the comprehensive plan of a city or town located within the county for those counties planning under RCW 36.70A.040. For those counties that do not have an adopted overall economic development plan and do not plan under the growth management act, the public facility must be listed in the county's capital facilities plan or the capital facilities plan of a city or town located within the county. In implementing this section, the county shall consult with cities, towns, and port districts located within the county. Notes:

Finding--Intent--1999 c 311: "The legislature finds that while Washington's economy is currently prospering, economic growth continues to be uneven, particularly as between metropolitan and rural areas. This has created in effect two Washingtons: One afflicted by inadequate infrastructure to support and attract investment, another suffering from congestion and soaring housing prices. In order to address these problems, the legislature intends to use resources strategically to build on our state's strengths while addressing threats to our prosperity." [1999 c 311 § 1.]

Part headings and subheadings not law--1999 c 311: "Part headings and subheadings used in this act are not any part of the law." [1999 c 311 § 601.]

Effective date--1999 c 311: "Sections 1, 101, 201, 301 through 305, 401, 402, 601, and 605 of this act take effect August 1, 1999." [1999 c 311 § 604.]

Intent--1997 c 366: "The legislature recognizes the economic hardship that rural distressed areas

throughout the state have undergone in recent years. Numerous rural distressed areas across the state have encountered serious economic downturns resulting in significant job loss and business failure. In 1991 the legislature enacted two major pieces of legislation to promote economic development and job creation, with particular emphasis on worker training, income, and emergency services support, along with community revitalization through planning services and infrastructure assistance. However even though these programs have been of assistance, rural distressed areas still face serious economic problems including: Above-average unemployment rates from job losses and below-average employment growth; low rate of business start-ups; and persistent erosion of vitally important resource-driven industries.

The legislature also recognizes that rural distressed areas in Washington have an abiding ability and consistent will to overcome these economic obstacles by building upon their historic foundations of business enterprise, local leadership, and outstanding work ethic.

The legislature intends to assist rural distressed areas in their ongoing efforts to address these difficult economic problems by providing a comprehensive and significant array of economic tools, necessary to harness the persistent and undaunted spirit of enterprise that resides in the citizens of rural distressed areas throughout the state.

The further intent of this act is to provide:

(1) A strategically designed plan of assistance, emphasizing state, local, and private sector leadership and partnership;

(2) A comprehensive and significant array of business assistance, services, and tax incentives that are accountable and performance driven;

(3) An array of community assistance including infrastructure development and business retention, attraction, and expansion programs that will provide a competitive advantage to rural distressed areas throughout Washington; and

(4) Regulatory relief to reduce and streamline zoning, permitting, and regulatory requirements in order to enhance the capability of businesses to grow and prosper in rural distressed areas." [1997 c 366 § 1.]

Goals--1997 c 366: "The primary goals of chapter 366, Laws of 1997 are to:

(1) Promote the ongoing operation of business in rural distressed areas;

(2) Promote the expansion of existing businesses in rural distressed areas;

(3) Attract new businesses to rural distressed areas;

(4) Assist in the development of new businesses from within rural distressed areas;

(5) Provide family wage jobs to the citizens of rural distressed areas; and

(6) Promote the development of communities of excellence in rural distressed areas." [1997 c 366 § 2.]

Severability--1997 c 366: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1997 c 366 § 11.]

RCW 82.14.380 Distressed county assistance account--Created--Distributions.

(5) The combined total tax levied under this section shall not be greater than 0.033 percent. If both a public facilities district created under chapter 35.57 RCW and a public facilities district created under chapter 36.100 RCW impose a tax under this section, the tax imposed by a public facilities district created under chapter 35.57 RCW shall be credited against the tax imposed by a public facilities district created under chapter 36.100 RCW.

RCW 82.14B.010 Findings.

The legislature finds that the state and counties should be provided with an additional revenue source to fund enhanced 911 emergency communication systems throughout the state on a multicounty, county-wide, or district-wide basis. The legislature further finds that the most efficient and appropriate method of deriving additional revenue for this purpose is to impose an excise tax on the use of switched access lines.

RCW 82.14B.020 Definitions.

As used in this chapter:

(1) "Emergency services communication system" means a multicounty, county-wide, or district-wide radio or landline communications network, including an enhanced 911 telephone system, which provides rapid public access for coordinated dispatching of services, personnel, equipment, and facilities for police, fire, medical, or other emergency services.

(2) "Enhanced 911 telephone system" means a public telephone system consisting of a

network, data base, and on-premises equipment that is accessed by dialing 911 and that enables reporting police, fire, medical, or other emergency situations to a public safety answering point. The system includes the capability to selectively route incoming 911 calls to the appropriate public safety answering point that operates in a defined 911 service area and the capability to automatically display the name, address, and telephone number of incoming 911 calls at the appropriate public safety answering point.

(3) "Switched access line" means the telephone service line which connects a subscriber's main telephone(s) or equivalent main telephone(s) to the local exchange company's switching office.

(4) "Local exchange company" has the meaning ascribed to it in RCW 80.04.010.

(5) "Radio access line" means the telephone number assigned to or used by a subscriber for two-way local wireless voice service available to the public for hire from a radio communications service company. Radio access lines include, but are not limited to, radio-telephone communications lines used in cellular telephone service, personal communications services, and network radio access lines, or their functional and competitive equivalent. Radio access lines do not include lines that provide access to one-way signaling service, such as paging service, or to communications channels suitable only for data transmission, or to nonlocal radio access line service, such as wireless roaming service, or to a private telecommunications system.

(6) "Radio communications service company" has the meaning ascribed to it in RCW 80.04.010.

(7) "Private telecommunications system" has the meaning ascribed to it in RCW 80.04.010.

(8) "Subscriber" means the retail purchaser of telephone service as telephone service is defined in RCW 82.04.065(3).

[1998 c 304 § 2; 1994 c 96 § 2; 1991 c 54 § 10; 1981 c 160 § 2.]

Notes:

Findings--1998 c 304: "The legislature finds that:

(1) The state enhanced 911 excise tax imposed at the current rate of twenty cents per switched access line per month generates adequate tax revenues to enhance the 911 telephone system for switched access lines state-wide by December 31, 1998, as mandated in RCW 38.52.510;

(2) The tax revenues generated from the state enhanced 911 excise tax when the tax rate decreases to a maximum of ten cents per switched access line on January 1, 1999, will not be adequate to fund the long-term operation and equipment replacement costs for the enhanced 911 telephone systems in the counties or multicounty regions that receive financial assistance from the state enhanced 911 office;

(3) Some counties or multicounty regions will need financial assistance from the state enhanced 911 office to implement and maintain enhanced 911 because the tax revenue generated from the county enhanced 911 excise tax is not adequate;

(4) Counties with populations of less than seventy-five thousand will need salary assistance to create multicounty regions and counties with populations of seventy-five thousand or more, if requested by smaller counties, will need technical assistance and incentives to provide multicounty services; and

(5) Counties should not request state financial assistance for implementation and maintenance of enhanced 911 for switched access lines unless the county has imposed the maximum enhanced 911 tax authorized in RCW

82.14B.030." [1998 c 304 § 1.]

Effective dates--1998 c 304: "This act takes effect January 1, 1999, except section 14 of this act which takes effect July 1, 1998." [1998 c 304 § 15.]

Finding--Intent--1994 c 96: "(1) The legislature finds that:

- (a) Emergency services communication systems, including enhanced 911 telephone systems, are currently funded with revenues from state and local excise taxes imposed on the use of switched access lines;
- (b) Users of cellular communication systems and other similar wireless telecommunications systems do not use switched access lines and are not currently subject to these excise taxes; and
- (c) The volume of 911 calls by users of cellular communications systems and other similar wireless telecommunications systems has increased in recent years.

(2) The intent of this act is to acknowledge the recommendations regarding 911 emergency communication system funding as detailed in the report to the legislature dated November 1993, entitled "Taxation of Cellular Communications in Washington State," to authorize imposition and collection of the twenty-five cent county tax discussed in chapter 6 of that report, and to require the department of revenue to continue the *study of such funding as detailed in the report." [1994 c 96 § 1.]

Effective dates--1994 c 96: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 23, 1994], except section 5 of this act shall take effect January 1, 1995." RCW 82.14B.030 County enhanced 911 excise tax on use of switched access lines and radio access lines authorized--Amount--State enhanced 911 excise tax--Amount.

(1) The legislative authority of a county may impose a county enhanced 911 excise tax on the use of switched access lines in an amount not exceeding fifty cents per month for each switched access line. The amount of tax shall be uniform for each switched access line. Each county shall provide notice of such tax to all local exchange companies serving in the county at least sixty days in advance of the date on which the first payment is due.

(2) The legislative authority of a county may also impose a county 911 excise tax on the use of radio access lines located within the county in an amount not exceeding twenty-five cents per month for each radio access line. The amount of tax shall be uniform for each radio access line. The county shall provide notice of such tax to all radio communications service companies serving in the county at least sixty days in advance of the date on which the first payment is due. Any county imposing this tax shall include in its ordinance a refund mechanism whereby the amount of any tax ordered to be refunded by the judgment of a court of record, or as a result of the resolution of any appeal therefrom, shall be refunded to the radio communications service company or local exchange company that collected the tax, and those companies shall reimburse the subscribers who paid the tax. The ordinance shall further provide that to the extent the subscribers who paid the tax cannot be identified or located, the tax paid by those subscribers shall be returned to the county.

(3) A state enhanced 911 excise tax is imposed on all switched access lines in the state. The amount of tax shall not exceed twenty cents per month for each switched access line. The tax shall be uniform for each switched access line. The tax imposed under this subsection shall be remitted to the department of revenue by local exchange companies on a tax return provided by the department. Tax proceeds shall be deposited by the treasurer in the enhanced 911 account

created in RCW 38.52.540.

(4) By August 31st of each year the state enhanced 911 coordinator shall recommend the level for the next year of the state enhanced 911 excise tax, based on a systematic cost and revenue analysis, to the utilities and transportation commission. The commission shall by the following October 31st determine the level of the state enhanced 911 excise tax for the following year.

RCW 82.14B.042 Payment and collection of tax--Penalties for violations.

(1) The state enhanced 911 excise tax imposed by this chapter must be paid by the subscriber to the local exchange company providing the switched access line, and each local exchange company shall collect from the subscriber the full amount of the tax payable. The state enhanced 911 excise tax required by this chapter to be collected by the local exchange company is deemed to be held in trust by the local exchange company until paid to the department. Any local exchange company that appropriates or converts the tax collected to its own use or to any use other than the payment of the tax to the extent that the money collected is not available for payment on the due date as prescribed in this chapter is guilty of a gross misdemeanor.

(2) If any local exchange company fails to collect the state enhanced 911 excise tax or, after collecting the tax, fails to pay it to the department in the manner prescribed by this chapter, whether such failure is the result of its own act or the result of acts or conditions beyond its control, the local exchange company is personally liable to the state for the amount of the tax, unless the local exchange company has taken from the buyer in good faith a properly executed resale certificate under RCW 82.14B.200.

(3) The amount of tax, until paid by the subscriber to the local exchange company or to

the department, constitutes a debt from the subscriber to the local exchange company. Any local exchange company that fails or refuses to collect the tax as required with intent to violate the provisions of this chapter or to gain some advantage or benefit, either direct or indirect, and any subscriber who refuses to pay any tax due under this chapter is guilty of a misdemeanor. The state enhanced 911 excise tax required by this chapter to be collected by the local exchange company must be stated separately on the billing statement that is sent to the subscriber.

(4) If a subscriber has failed to pay to the local exchange company the state enhanced 911 excise tax imposed by this chapter and the local exchange company has not paid the amount of the tax to the department, the department may, in its discretion, proceed directly against the subscriber for collection of the tax, in which case a penalty of ten percent may be added to the amount of the tax for failure of the subscriber to pay the tax to the local exchange company, regardless of when the tax is collected by the department. Tax under this chapter is due as provided under RCW 82.14B.061.

Chapter 82.32 RCW, with the exception of RCW 82.32.045, 82.32.145, and 82.32.380, applies to the administration, collection, and enforcement of the state enhanced 911 excise tax.

(2) The state enhanced 911 excise tax imposed by this chapter, along with reports and

returns on forms prescribed by the department, are due at the same time the taxpayer reports other taxes under RCW 82.32.045. If no other taxes are reported under RCW 82.32.045, the taxpayer shall remit tax on an annual basis in accordance with RCW 82.32.045.

In lieu of providing a county-wide system of emergency service communication, the legislative authority of a county may establish one or more less than county-wide emergency service communication districts within the county for the purpose of providing and funding emergency service communication systems. An emergency service communication district is a quasi-municipal corporation, shall constitute a body corporate, and shall possess all the usual powers of a corporation for public purposes as well as all other powers that may now or hereafter be specifically conferred by statute, including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, and to sue and be sued.

All hearings shall be public and the county legislative authority shall hear objections from any person affected by the consolidation of the emergency service communication districts. Following the hearing, the county legislative authority may consolidate the emergency service communication districts, if the county legislative authority finds the action to be in the public interest and adopts a resolution providing for the action. The county legislative authority shall specify the manner in which consolidation is to be accomplished.

A county legislative authority proposing to dissolve an existing emergency service communication district shall conduct a hearing at the time and place specified in a notice published at least once, not less than ten days prior to the hearing, in a newspaper of general circulation within the emergency service communication district. Intent--1981 c 144: "The legislature recognizes that there have been significant changes in the nature of the telephone business in recent years. Once solely the domain of regulated monopolies, the telephone business has now been opened up to competition with respect to most of its services and equipment. As a result of this competition, the state and local excise tax structure in the state of Washington has become discriminatory when applied to regulated telephone company transactions that are similar in nature to those consummated by nonregulated competitors. Telephone companies are forced to operate at a significant state and local tax disadvantage when compared to these nonregulated competitors.

To remedy this situation, it is the intent of the legislature to place telephone companies and nonregulated competitors of telephone companies on an equal excise tax basis with regard to the providing of similar goods and services. Therefore competitive telephone services shall for excise tax purposes only, unless otherwise provided, be treated as retail sales under the applicable state and local business and occupation and sales and use taxes. This shall not affect any requirement that regulated telephone companies have under Title 80 RCW, unless otherwise provided.

Nothing in this act affects the authority and responsibility of the Washington utilities and transportation commission to set fair, just, reasonable, and sufficient rates for telephone service." [1981 c 144 § 1.]

RCW 82.16.0431 Exemptions--Water distribution businesses with water conservation and outreach programs. (Expires June 30, 2003.)

(1) The legislature intends to provide an incentive for water distribution businesses to help reduce their customers' use of water through measures such as: Water conservation and outreach programs, distributing shower flow restrictors, toilet tank water displacement devices, and leak detection dye tablets; providing water-efficient fixtures at no cost, giving a rebate for customer-purchased fixtures, or arranging for suppliers to provide fixtures at a reduced price; providing plants for low-water demand landscaping, moisture sensors, flow timers, low-volume sprinklers, and drip irrigation systems; and using conservation pricing and billings that show percentage increase/decrease in water use over the same period from the previous year.

RCW 82.16.0497 Credit--Light and power business, gas distribution business.

(1) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Base credit" means the maximum amount of credit against the tax imposed by this chapter that each light and power business or gas distribution business may take each fiscal year as calculated by the department. The base credit is equal to the proportionate share that the total grants received by each light and power business or gas distribution business in the prior fiscal year bears to the total grants received by all light and power businesses and gas distribution businesses in the prior fiscal year multiplied by two million five hundred thousand dollars.

(b) "Billing discount" means a reduction in the amount charged for providing service to qualifying persons in Washington made by a light and power business or a gas distribution business. Billing discount does not include grants received by the light and power business or a gas distribution business.

(c) "Grant" means funds provided to a light and power business or gas distribution business by the department of community, trade, and economic development or by a qualifying organization.

(d) "Low-income home energy assistance program" means energy assistance programs for low-income households as defined on December 31, 2000, in the low-income home energy assistance act of 1981 as amended August 1, 1999, 42 U.S.C. Sec. 8623 et seq.

(e) "Qualifying person" means a Washington resident who applies for assistance and qualifies for a grant regardless of whether that person receives a grant.

(f) "Qualifying contribution" means money given by a light and power business or a gas distribution business to a qualifying organization, exclusive of money received in the prior fiscal year from its customers for the purpose of assisting other customers.

(g) "Qualifying organization" means an entity that has a contractual agreement with the

department of community, trade, and economic development to administer in a specified service area low-income home energy assistance funds received from the federal government and such other funds that may be received by the entity.

(2) Subject to the limitations in this section, a light and power business or a gas distribution business may take a credit each fiscal year against the tax imposed under this chapter.

(a)(i) A credit may be taken for qualifying contributions if the dollar amount of qualifying contributions for the fiscal year in which the tax credit is taken is greater than one hundred twenty-five percent of the dollar amount of qualifying contributions given in fiscal year 2000.

(ii) If no qualifying contributions were given in fiscal year 2000, a credit shall be allowed for the first fiscal year that qualifying contributions are given. Thereafter, credit shall be allowed if the qualifying contributions given exceed one hundred twenty-five percent of qualifying contributions given in the first fiscal year.

(iii) The amount of credit shall be fifty percent of the dollar amount of qualifying contributions given in the fiscal year in which the tax credit is taken.

(b)(i) A credit may be taken for billing discounts if the dollar amount of billing discounts for the fiscal year in which the tax credit is taken is greater than one hundred twenty-five percent of the dollar amount of billing discounts given in fiscal year 2000.

(ii) If no billing discounts were given in fiscal year 2000, a credit shall be allowed in the first fiscal year that billing discounts are given. Thereafter, credit shall be allowed if the dollar amount of billing discounts given exceeds one hundred twenty-five percent of billing discounts given in the first fiscal year.

(iii) The amount of credit shall be fifty percent of the dollar amount of the billing discounts given in the fiscal year in which the tax credit is taken.

(c) The total amount of credit that may be taken for qualifying contributions and billing discounts in a fiscal year is limited to the base credit for the same fiscal year.

(3) The total amount of credit, statewide, that may be taken in any fiscal year shall not exceed two million five hundred thousand dollars. By May 1st of each year starting in 2002, the department of community, trade, and economic development shall notify the department of revenue in writing of the grants received in the current fiscal year by each light and power business and gas distribution business.

(4)(a) Not later than June 1st of each year beginning in 2002, the department shall publish the base credit for each light and power business and gas distribution business for the next fiscal year.

(b) Not later than July 1st of each year beginning in 2002, application for credit must be made to the department including but not limited to the following information: Billing discounts given by the applicant in fiscal year 2000; qualifying contributions given by the applicant in the prior fiscal year; the amount of money received in the prior fiscal year from customers for the purpose of assisting other customers; the base credit for the next fiscal year for the applicant; the qualifying contributions anticipated to be given in the next fiscal year; and billing discounts anticipated to be given in the next fiscal year. No credit under this section will be allowed to a

light and power business or gas distribution business that does not file the application by July 1st.

(c) Not later than August 1st of each year beginning in 2002, the department shall notify each applicant of the amount of credit that may be taken in that fiscal year.

(d) The balance of base credits not used by other light and power businesses and gas distribution businesses shall be ratably distributed to applicants under the formula in subsection (1)(a) of this section. The total amount of credit that may be taken by an applicant is the base credit plus any ratable portion of unused base credit.

(5) The credit taken under this section is limited to the amount of tax imposed under this chapter for the fiscal year. The credit must be claimed in the fiscal year in which the billing reduction is made. Any unused credit expires. Refunds shall not be given in place of credits.

(6) No credit may be taken for billing discounts made before July 1, 2001. Within two weeks of May 8, 2001, the department of community, trade, and economic development shall notify the department of revenue in writing of the grants received in fiscal year 2001 by each light and power business and gas distribution business. Within four weeks of May 8, 2001, the department of revenue shall publish the base credit for each light and power business and gas distribution business for fiscal year 2002. Within eight weeks of May 8, 2001, application to the department must be made showing the information required in subsection (4)(b) of this section. Within twelve weeks of May 8, 2001, the department shall notify each applicant of the amount of credit that may be taken in fiscal year 2002.

RCW 82.21.010 Intent of pollution tax.

It is the intent of this chapter to impose a tax only once for each hazardous substance possessed in this state and to tax the first possession of all hazardous substances, including substances and products that the department of ecology determines to present a threat to human health or the environment. However, it is not intended to impose a tax on the first possession of small amounts of any hazardous substance (other than petroleum and pesticide products) that is first possessed by a retailer for the purpose of sale to ultimate consumers. This chapter is not intended to exempt any person from tax liability under any other law.

[1989 c 2 § 8 (Initiative Measure No. 97, approved November 8, 1988).]

RCW 82.21.020 Definitions.

Unless the context clearly requires otherwise, the definitions in this section apply

throughout this chapter.

(1) "Hazardous substance" means:

(a) Any substance that, on March 1, 1989, is a hazardous substance under section 101(14) of the federal comprehensive environmental response, compensation, and liability act of 1980, 42 U.S.C. Sec. 9601(14), as amended by Public Law 99-499;

(b) Petroleum products;

(c) Any pesticide product required to be registered under the federal insecticide, fungicide and rodenticide act; and

(d) Any other substance, category of substance, and any product or category of product determined by the director of ecology by rule to present a threat to human health or the environment if released into the environment. The director of ecology shall not add or delete substances from this definition more often than twice during each calendar year. For tax purposes, changes in this definition shall take effect on the first day of the next month that is at least thirty days after the effective date of the rule. The word "product" or "products" as used in this paragraph (d) means an item or items containing both: (i) One or more substances that are hazardous substances under (a), (b), or (c) of this subsection or that are substances or categories of substances determined under this paragraph (d) to present a threat to human health or the environment if released into the environment; and (ii) one or more substances that are not hazardous substances.

(2) "Petroleum product" means plant condensate, lubricating oil, gasoline, aviation fuel, kerosene, diesel motor fuel, benzol, fuel oil, residual oil, liquefied or liquefiable gases such as butane, ethane, and propane, and every other product derived from the refining of crude oil, but the term does not include crude oil.

(3) "Possession" means the control of a hazardous substance located within this state and includes both actual and constructive possession. "Actual possession" occurs when the person with control has physical possession. "Constructive possession" occurs when the person with control does not have physical possession. "Control" means the power to sell or use a hazardous substance or to authorize the sale or use by another.

(4) "Previously taxed hazardous substance" means a hazardous substance in respect to which a tax has been paid under this chapter and which has not been remanufactured or reprocessed in any manner (other than mere repackaging or recycling for beneficial reuse) since the tax was paid.

(5) "Wholesale value" means fair market wholesale value, determined as nearly as possible according to the wholesale selling price at the place of use of similar substances of like quality and character, in accordance with rules of the department.

(6) Except for terms defined in this section, the definitions in chapters 82.04, 82.08, and 82.12 RCW apply to this chapter.

[1989 c 2 § 9 (Initiative Measure No. 97, approved November 8, 1988).]

RCW 82.21.030 Pollution tax.

(1) A tax is imposed on the privilege of possession of hazardous substances in this state.

The rate of the tax shall be seven-tenths of one percent multiplied by the wholesale value of the substance.

(2) Moneys collected under this chapter shall be deposited in the toxics control accounts under RCW 70.105D.070.

(3) Chapter 82.32 RCW applies to the tax imposed in this chapter. The tax due dates, reporting periods, and return requirements applicable to chapter 82.04 RCW apply equally to the tax imposed in this chapter.

[1989 c 2 § 10 (Initiative Measure No. 97, approved November 8, 1988).]

RCW 82.21.040 Exemptions.

The following are exempt from the tax imposed in this chapter:

(1) Any successive possession of a previously taxed hazardous substance. If tax due under this chapter has not been paid with respect to a hazardous substance, the department may collect the tax from any person who has had possession of the hazardous substance. If the tax is paid by any person other than the first person having taxable possession of a hazardous substance, the amount of tax paid shall constitute a debt owed by the first person having taxable possession to the person who paid the tax.

(2) Any possession of a hazardous substance by a natural person under circumstances where the substance is used, or is to be used, for a personal or domestic purpose (and not for any business purpose) by that person or a relative of, or person residing in the same dwelling as, that person.

(3) Any possession of a hazardous substance amount which is determined as minimal by the department of ecology and which is possessed by a retailer for the purpose of making sales to ultimate consumers. This exemption does not apply to pesticide or petroleum products.

(4) Any possession of alumina or natural gas.

(5) Persons or activities which the state is prohibited from taxing under the United States Constitution.

(6) Any persons possessing a hazardous substance where such possession first occurred before March 1, 1989.

[1989 c 2 § 11 (Initiative Measure No. 97, approved November 8, 1988).]

RCW 82.21.050 Credits.

(1) Credit shall be allowed in accordance with rules of the department of revenue for taxes paid under this chapter with respect to fuel carried from this state in the fuel tank of any airplane, ship, truck, or other vehicle.

(2) Credit shall be allowed, in accordance with rules of the department, against the taxes imposed in this chapter for any hazardous substance tax paid to another state with respect to the same hazardous substance. The amount of the credit shall not exceed the tax liability arising under this chapter with respect to that hazardous substance. For the purpose of this subsection:

(a) "Hazardous substance tax" means a tax:

(i) Which is imposed on the act or privilege of possessing hazardous substances, and which is not generally imposed on other activities or privileges; and

(ii) Which is measured by the value of the hazardous substance, in terms of wholesale value or other terms, and in the determination of which the deductions allowed would not constitute the tax an income tax or value added tax.

(b) "State" means (i) the state of Washington, (ii) a state of the United States other than Washington, or any political subdivision of such other state, (iii) the District of Columbia, and (iv) any foreign country or political subdivision thereof.

(4) "Marine terminal" means a facility of any kind, other than a waterborne vessel, that is used for transferring crude oil or petroleum products to or from a waterborne vessel or barge.

(5) "Navigable waters" means those waters of the state and their adjoining shorelines that are subject to the ebb and flow of the tide, including the Columbia and Snake rivers.

(6) "Person" has the meaning provided in RCW 82.04.030.

Notes:

Severability--1992 c 73: See RCW 90.56.905.

RCW 82.23B.020 Oil spill response tax--Oil spill administration tax.

(1) An oil spill response tax is imposed on the privilege of receiving crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine terminal from a waterborne vessel or barge at the rate of one cent per barrel of crude oil or petroleum product received.

(2) In addition to the tax imposed in subsection (1) of this section, an oil spill administration tax is imposed on the privilege of receiving crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine terminal from a waterborne vessel or barge at the rate of four cents per barrel of crude oil or petroleum product.

(3) The taxes imposed by this chapter shall be collected by the marine terminal operator from the taxpayer. If any person charged with collecting the taxes fails to bill the taxpayer for the taxes, or in the alternative has not notified the taxpayer in writing of the imposition of the taxes, or having collected the taxes, fails to pay them to the department in the manner prescribed by this chapter, whether such failure is the result of the person's own acts or the result of acts or conditions beyond the person's control, he or she shall, nevertheless, be personally liable to the state for the amount of the taxes. Payment of the taxes by the owner to a marine terminal operator shall relieve the owner from further liability for the taxes.

(4) Taxes collected under this chapter shall be held in trust until paid to the department. Any person collecting the taxes who appropriates or converts the taxes collected shall be guilty of a gross misdemeanor if the money required to be collected is not available for payment on the date payment is due. The taxes required by this chapter to be collected shall be stated separately from other charges made by the marine terminal operator in any invoice or other statement of account provided to the taxpayer.

(5) If a taxpayer fails to pay the taxes imposed by this chapter to the person charged with collection of the taxes and the person charged with collection fails to pay the taxes to the department, the department may, in its discretion, proceed directly against the taxpayer for collection of the taxes.

(6) The taxes shall be due from the marine terminal operator, along with reports and

returns on forms prescribed by the department, within twenty-five days after the end of the month in which the taxable activity occurs.

(7) The amount of taxes, until paid by the taxpayer to the marine terminal operator or to the department, shall constitute a debt from the taxpayer to the marine terminal operator. Any person required to collect the taxes under this chapter who, with intent to violate the provisions of this chapter, fails or refuses to do so as required and any taxpayer who refuses to pay any taxes due under this chapter, shall be guilty of a misdemeanor as provided in chapter 9A.20 RCW.

(8) Upon prior approval of the department, the taxpayer may pay the taxes imposed by this chapter directly to the department. The department shall give its approval for direct payment under this section whenever it appears, in the department's judgment, that direct payment will enhance the administration of the taxes imposed under this chapter. The department shall provide by rule for the issuance of a direct payment certificate to any taxpayer qualifying for direct payment of the taxes. Good faith acceptance of a direct payment certificate by a terminal operator shall relieve the marine terminal operator from any liability for the collection or payment of the taxes imposed under this chapter.

(9) All receipts from the tax imposed in subsection (1) of this section shall be deposited into the state oil spill response account. All receipts from the tax imposed in subsection (2) of this section shall be deposited into the oil spill prevention account.

(10) Within forty-five days after the end of each calendar quarter, the office of financial management shall determine the balance of the oil spill response account as of the last day of that calendar quarter. Balance determinations by the office of financial management under this section are final and shall not be used to challenge the validity of any tax imposed under this chapter. The office of financial management shall promptly notify the departments of revenue and ecology of the account balance once a determination is made. For each subsequent calendar quarter, the tax imposed by subsection (1) of this section shall be imposed during the entire calendar quarter unless:

(a) Tax was imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than nine million dollars; or

(b) Tax was not imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than eight million dollars.

RCW 82.24.030 Stamps.

(1) In order to enforce collection of the tax hereby levied, the department of revenue shall design and have printed stamps of such size and denominations as may be determined by the department. The stamps must be affixed on the smallest container or package that will be handled, sold, used, consumed, or distributed, to permit the department to readily ascertain by inspection, whether or not such tax has been paid or whether an exemption from the tax applies.

(2) Except as otherwise provided in this chapter, every person shall cause to be affixed on every package of cigarettes, stamps of an amount equaling the tax due thereon or stamps identifying the cigarettes as exempt before he or she sells, offers for sale, uses, consumes, handles, removes, or otherwise disturbs and distributes the same: PROVIDED, That where it is established to the satisfaction of the department that it is impractical to affix such stamps to the smallest container or package, the department may authorize the affixing of stamps of appropriate denomination to a large container or package.

RCW 82.24.035 Circumstances when no stamp may be affixed--Violation of consumer protection act.

(1) No stamp may be affixed to, or made upon, any container or package of cigarettes if:

(a) The container or package differs in any respect with the requirements of the federal cigarette labeling and advertising act (15 U.S.C. Sec. 1331 et seq.) for the placement of labels, warnings, or any other information upon a package of cigarettes that is to be sold within the United States;

(b) The container or package has been imported into the United States after January 1, 2000, in violation of 26 U.S.C. Sec. 5754;

(c) The container or package, including a container of individually stamped containers or packages, is labeled "For Export Only," "U.S. Tax Exempt," "For Use Outside U.S.," or similar wording indicating that the manufacturer did not intend that the product be sold in the United States; or

(d) The container or package has been altered by adding or deleting the wording, labels, or warnings described in (a) or (c) of this subsection.

(2) In addition to the penalty and forfeiture provisions otherwise provided for in this chapter, a violation of this section is a deceptive act or practice under the consumer protection

act, chapter 19.86 RCW.

[1999 c 193 § 5.]

Notes:

Intent--Finding--1999 c 193: "(1) Cigarette smoking presents serious public health concerns to the state and to the citizens of the state. The surgeon general has determined that smoking causes lung cancer, heart disease, and other serious diseases and that there are hundreds of thousands of tobacco-related deaths in the United States each year. These diseases most often do not appear until many years after the person in question begins smoking.

(2) It is the policy of the state that consumers be adequately informed about the adverse health effects of cigarette smoking by including warning notices on each package of cigarettes.

(3) It is the policy of the state that manufacturers and importers of cigarettes not make any material misrepresentation of fact regarding the health consequences of using cigarettes, including compliance with applicable federal laws, regulations, and policies.

(4) It is the intent of the legislature to align state law with federal laws, regulations, and policies relating to the manufacture, importation, and marketing of cigarettes, and in particular, the federal cigarette labeling and advertising act (15 U.S.C. Sec. 1331 et seq.) and 26 U.S.C. Sec. 5754.

(5) The legislature finds that consumers and retailers purchasing cigarettes are entitled to be fully informed about any adverse health effects of cigarette smoking by inclusion of warning notices on each package of cigarettes and to be assured through appropriate enforcement measures that cigarettes they purchase were manufactured for consumption within the United States." [1999 c 193 § 1.]

Severability--1999 c 193: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1999 c 193 § 6.]

Effective date--1999 c 193: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [May 5, 1999]." [1999 c 193 § 7.]

RCW 82.24.040 Duty of wholesaler.

(1) No wholesaler in this state may possess within this state unstamped cigarettes except that:

(a) Every wholesaler in the state who is licensed under Washington state law may possess within this state unstamped cigarettes for such period of time after receipt as is reasonably necessary to affix the stamps as required; and

(b) Any wholesaler in the state who is licensed under Washington state law and who furnishes a surety bond in a sum satisfactory to the department, shall be permitted to set aside, without affixing the stamps required by this chapter, such part of the wholesaler's stock as may be necessary for the conduct of the wholesaler's business in making sales to persons in another state or foreign country or to instrumentalities of the federal government. Such unstamped stock shall be kept separate and apart from stamped stock.

(2) Every wholesaler licensed under Washington state law shall, at the time of shipping or delivering any of the articles taxed herein to a point outside of this state or to a federal instrumentality, make a true duplicate invoice of the same which shall show full and complete details of the sale or delivery, whether or not stamps were affixed thereto, and shall transmit such true duplicate invoice to the department, at Olympia, not later than the fifteenth day of the following calendar month. For failure to comply with the requirements of this section, the department may revoke the permission granted to the taxpayer to maintain a stock of goods to

which the stamps required by this chapter have not been affixed.

(3) Every wholesaler who is licensed by Washington state law shall sell cigarettes to retailers located in Washington only if the retailer has a current cigarette retailer's license or is an Indian tribal organization authorized to possess untaxed cigarettes under this chapter and the rules adopted by the department.

Effective dates--Severability--1971 ex.s. c 299: See notes following RCW 82.04.050.

RCW 82.24.080 Legislative intent--Taxable event--Tax liability.

(1) It is the intent and purpose of this chapter to levy a tax on all of the articles taxed under this chapter, sold, used, consumed, handled, possessed, or distributed within this state and to collect the tax from the person who first sells, uses, consumes, handles, possesses (either physically or constructively, in accordance with RCW 82.24.020) or distributes them in the state. It is further the intent and purpose of this chapter that whenever any of the articles taxed under this chapter is given away for advertising or any other purpose, it shall be taxed in the same manner as if it were sold, used, consumed, handled, possessed, or distributed in this state.

(2) It is also the intent and purpose of this chapter that the tax shall be imposed at the time and place of the first taxable event and upon the first taxable person within this state. Any person whose activities would otherwise require payment of the tax imposed by subsection (1) of this section but who is exempt from the tax nevertheless has a precollection obligation for the tax that must be imposed on the first taxable event within this state. A precollection obligation may not be imposed upon a person exempt from the tax who sells, distributes, or transfers possession of cigarettes to another person who, by law, is exempt from the tax imposed by this chapter or upon whom the obligation for collection of the tax may not be imposed. Failure to pay the tax with respect to a taxable event shall not prevent tax liability from arising by reason of a subsequent taxable event.

(3) In the event of an increase in the rate of the tax imposed under this chapter, it is the intent of the legislature that the first person who sells, uses, consumes, handles, possesses, or distributes previously taxed articles after the effective date of the rate increase shall be liable for the additional tax, or its precollection obligation as required by this chapter, represented by the rate increase. The failure to pay the additional tax with respect to the first taxable event after the effective date of a rate increase shall not prevent tax liability for the additional tax from arising from a subsequent taxable event.

(1) Every wholesaler or retailer subject to the provisions of this chapter shall keep and preserve for a period of five years an accurate set of records. These records must show all transactions relating to the purchase and sale of any of the articles taxed under this chapter and show all physical inventories performed on those articles, all invoices, and a record of all stamps purchased. All such records and all stock of taxable articles on hand shall be open to inspection at all reasonable times by the department of revenue or its duly authorized agent.

(2) All wholesalers shall within fifteen days after the first day of each month file with the department of revenue a report of all drop shipment sales made by them to retailers within this state during the preceding month. In all cases of seizure of any property made subject to forfeiture under this chapter the department or the board shall proceed as follows:

(1) Forfeiture shall be deemed to have commenced by the seizure. Notice of seizure shall be given to the department or the board immediately if the seizure is made by someone other than an agent of the department or the board authorized to collect taxes.

(2) Upon notification or seizure by the department or the board or upon receipt of property subject to forfeiture under this chapter from any other person, the department or the board shall list and particularly describe the property seized in duplicate and have the property appraised by a qualified person not employed by the department or the board or acting as its agent. Listing and appraisal of the property shall be properly attested by the department or the board and the appraiser, who shall be allowed a reasonable appraisal fee. No appraisal is required if the property seized is judged by the department or the board to be less than one hundred dollars in value.

(3) The department or the board shall cause notice to be served within five days following the seizure or notification to the department or the board of the seizure on the owner of the property seized, if known, on the person in charge thereof, and on any other person having any known right or interest therein, of the seizure and intended forfeiture of the seized property. receipt requested and regular mail. Service by mail shall be deemed complete upon mailing within the five-day period following the seizure or notification of the seizure to the department or the board.

(4) If no person notifies the department or the board in writing of the person's claim of ownership or right to possession of the items seized within fifteen days of the date of the notice of seizure, the item seized shall be considered forfeited.

(5) If any person notifies the department or the board, in writing, of the person's claim of ownership or right to possession of the items seized within fifteen days of the date of the notice of seizure, the person or persons shall be afforded a reasonable opportunity to be heard as to the claim or right. The hearing shall be before the director or the director's designee or the board or the board's designee, except that any person asserting a claim or right may bring an action for return of the seized items in the superior court of the county in which such property was seized, if the aggregate value of the article or articles involved is more than five hundred dollars. A hearing and any appeal therefrom shall be in accordance with chapter 34.05 RCW. The burden of proof by a preponderance of the evidence shall be upon the person claiming to be the lawful owner or the person claiming to have the lawful right to possession of the items seized. (1) The licenses issuable under this chapter are as follows:

- (a) A wholesaler's license.
- (b) A retailer's license.

(2) Application for the licenses shall be made through the master license system under chapter 19.02 RCW. The department of revenue shall adopt rules regarding the regulation of the licenses. The department of revenue may refrain from the issuance of any license under this chapter if the department has reasonable cause to believe that the applicant has wilfully withheld information requested for the purpose of determining the eligibility of the applicant to receive a license, or if the department has reasonable cause to believe that information submitted in the application is false or misleading or is not made in good faith. In addition, for the purpose of reviewing an application for a wholesaler's license and for considering the denial, suspension, or revocation of any such license, the department may consider criminal convictions of the applicant related to the selling of cigarettes within the previous five years in any state, tribal, or federal jurisdiction in the United States, its territories, or possessions, and the provisions of RCW 9.95.240 and chapter 9.96A RCW shall not apply to such cases. The department may, in its discretion, grant or refuse the wholesaler's license, subject to the provisions of RCW 82.24.550.

(3) No person may qualify for a wholesaler's license under this section without first undergoing a criminal background check. The background check shall be performed by the liquor control board and must disclose any criminal convictions related to the selling of cigarettes within the previous five years in any state, tribal, or federal jurisdiction in the United States, its territories, or possessions. RCW 82.27.010 Definitions.

As used in this chapter, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "Enhanced food fish" includes all species of food fish, except all species of tuna, mackerel, and jack; shellfish; and anadromous game fish, including byproducts and parts thereof, originating within the territorial and adjacent waters of Washington and salmon originating from within the territorial and adjacent waters of Oregon, Washington, and British Columbia, and all troll-caught Chinook salmon originating from within the territorial and adjacent waters of southeast Alaska. As used in this subsection, "adjacent" waters of Oregon, Washington, and Alaska are those comprising the United States fish conservation zone; "adjacent" waters of British Columbia are those comprising the Canadian two hundred mile exclusive economic zone; and "southeast Alaska" means that portion of Alaska south and east of Cape Suckling to the Canadian border. For purposes of this chapter, point of origination is established by a document which identifies the product and state or province in which it originates, including, but not limited to fish tickets, bills of lading, invoices, or other documentation required to be kept by governmental agencies.

(2) "Commercial" means related to or connected with buying, selling, bartering, or processing.

(3) "Possession" means the control of enhanced food fish by the owner and includes both actual and constructive possession. Constructive possession occurs when the person has legal ownership but not actual possession of the enhanced food fish.

(4) "Anadromous game fish" means steelhead trout and anadromous cutthroat trout and Dolly Varden char and includes byproducts and also parts of anadromous game fish, whether fresh, frozen, canned, or otherwise.

(5) "Landed" means the act of physically placing enhanced food fish (a) on a tender in the territorial waters of Washington; or (b) on any land within or without the state of Washington including wharves, piers, or any such extensions therefrom.

RCW 82.27.020 Excise tax imposed--Deduction--Measure of tax--Rates--Additional

tax imposed.

(1) In addition to all other taxes, licenses, or fees provided by law there is established an excise tax on the commercial possession of enhanced food fish as provided in this chapter. The tax is levied upon and shall be collected from the owner of the enhanced food fish whose possession constitutes the taxable event. The taxable event is the first possession in Washington by an owner after the enhanced food fish has been landed. Processing and handling of enhanced food fish by a person who is not the owner is not a taxable event to the processor or handler.

(2) A person in possession of enhanced food fish and liable to this tax may deduct from the price paid to the person from which the enhanced food fish (except oysters) are purchased an amount equal to a tax at one-half the rate levied in this section upon these products.

(3) The measure of the tax is the value of the enhanced food fish at the point of landing.

(4) The tax shall be equal to the measure of the tax multiplied by the rates for enhanced food fish as follows:

(a) Chinook, coho, and chum salmon and anadromous game fish: Five and twenty-five one-hundredths percent;

(b) Pink and sockeye salmon: Three and fifteen one-hundredths percent;

(c) Other food fish and shellfish, except oysters, sea urchins, and sea cucumbers: Two and one-tenth percent;

(d) Oysters: Eight one-hundredths of one percent;

(e) Sea urchins: Four and six-tenths percent through December 31, 2005, and two and one-tenth percent thereafter; and

(f) Sea cucumbers: Four and six-tenths percent through December 31, 2005, and two and one-tenth percent thereafter.

(5) An additional tax is imposed equal to the rate specified in RCW 82.02.030 multiplied by the tax payable under subsection (4) of this section.

NOTES:

Reviser's note: Throughout chapter 82.29A RCW the term "this 1976 amendatory act" has been changed to "this chapter, RCW 84.36.451 and 84.40.175." This 1976 amendatory act [1975-'76 2nd ex.s. c 61] also repealed chapter 82.29 RCW, RCW 84.36.450, 84.36.455, and 84.36.460.

RCW 82.29A.010 Legislative findings and recognition.

(1)(a) The legislature hereby recognizes that properties of the state of Washington, counties, school districts, and other municipal corporations are exempted by Article 7, section 1 of the state Constitution from property tax obligations, but that private lessees of such public properties receive substantial benefits from governmental services provided by units of government.

(b) The legislature further recognizes that a uniform method of taxation should apply to such leasehold interests in publicly owned property.

(c) The legislature finds that lessees of publicly owned property are entitled to those same governmental services and does hereby provide for a leasehold excise tax to fairly compensate governmental units for services rendered to such lessees of publicly owned property.

(2) The legislature further finds that experience gained by lessors, lessees, and the department of revenue since enactment of the leasehold excise tax under this chapter has shed light on areas in the leasehold excise statutes that need explanation and clarification. The purpose of chapter 220, Laws of 1999 is to make those changes.

[1999 c 220 § 1; 1975-'76 2nd ex.s. c 61 § 1.]

RCW 82.29A.020 Definitions.

As used in this chapter the following terms shall be defined as follows, unless the context otherwise requires:

(1) "Leasehold interest" shall mean an interest in publicly owned real or personal

property which exists by virtue of any lease, permit, license, or any other agreement, written or verbal, between the public owner of the property and a person who would not be exempt from property taxes if that person owned the property in fee, granting possession and use, to a degree less than fee simple ownership: PROVIDED, That no interest in personal property (excluding land or buildings) which is owned by the United States, whether or not as trustee, or by any foreign government shall constitute a leasehold interest hereunder when the right to use such property is granted pursuant to a contract solely for the manufacture or production of articles for sale to the United States or any foreign government. The term "leasehold interest" shall include the rights of use or occupancy by others of property which is owned in fee or held in trust by a public corporation, commission, or authority created under RCW 35.21.730 or 35.21.660 if the property is listed on or is within a district listed on any federal or state register of historical sites. The term "leasehold interest" shall not include road or utility easements, rights of access, occupancy, or use granted solely for the purpose of removing materials or products purchased from a public owner or the lessee of a public owner, or rights of access, occupancy, or use granted solely for the purpose of natural energy resource exploration.

(2) "Taxable rent" shall mean contract rent as defined in subsection (a) of this subsection in all cases where the lease or agreement has been established or renegotiated through competitive bidding, or negotiated or renegotiated in accordance with statutory requirements regarding the rent payable, or negotiated or renegotiated under circumstances, established by public record, clearly showing that the contract rent was the maximum attainable by the lessor: PROVIDED, That after January 1, 1986, with respect to any lease which has been in effect for ten years or more without renegotiation, taxable rent may be established by procedures set forth in subsection (b) of this subsection. All other leasehold interests shall be subject to the determination of taxable rent under the terms of subsection (b) of this subsection.

For purposes of determining leasehold excise tax on any lands on the Hanford reservation subleased to a private or public entity by the department of ecology, taxable rent shall include only the annual cash rental payment made by such entity to the department of ecology as specifically referred to as rent in the sublease agreement between the parties and shall not include any other fees, assessments, or charges imposed on or collected by such entity irrespective of whether the private or public entity pays or collects such other fees, assessments, or charges as specified in the sublease agreement.

(a) "Contract rent" shall mean the amount of consideration due as payment for a leasehold interest, including: The total of cash payments made to the lessor or to another party for the benefit of the lessor according to the requirements of the lease or agreement, including any rents paid by a sublessee; expenditures for the protection of the lessor's interest when required by the terms of the lease or agreement; and expenditures for improvements to the property to the extent that such improvements become the property of the lessor. Where the consideration conveyed for the leasehold interest is made in combination with payment for concession or other rights granted by the lessor, only that portion of such payment which represents consideration for the leasehold interest shall be part of contract rent.

"Contract rent" shall not include: (i) Expenditures made by the lessee, which under the terms of the lease or agreement, are to be reimbursed by the lessor to the lessee or expenditures

for improvements and protection made pursuant to a lease or an agreement which requires that the use of the improved property be open to the general public and that no profit will inure to the lessee from the lease; (ii) expenditures made by the lessee for the replacement or repair of facilities due to fire or other casualty including payments for insurance to provide reimbursement for losses or payments to a public or private entity for protection of such property from damage or loss or for alterations or additions made necessary by an action of government taken after the date of the execution of the lease or agreement; (iii) improvements added to publicly owned property by a sublessee under an agreement executed prior to January 1, 1976, which have been taxed as personal property of the sublessee prior to January 1, 1976, or improvements made by a sublessee of the same lessee under a similar agreement executed prior to January 1, 1976, and such improvements shall be taxable to the sublessee as personal property; (iv) improvements added to publicly owned property if such improvements are being taxed as personal property to any person.

Any prepaid contract rent shall be considered to have been paid in the year due and not in the year actually paid with respect to prepayment for a period of more than one year. Expenditures for improvements with a useful life of more than one year which are included as part of contract rent shall be treated as prepaid contract rent and prorated over the useful life of the improvement or the remaining term of the lease or agreement if the useful life is in excess of the remaining term of the lease or agreement. Rent prepaid prior to January 1, 1976, shall be prorated from the date of prepayment.

With respect to a "product lease", the value shall be that value determined at the time of sale under terms of the lease.

(b) If it shall be determined by the department of revenue, upon examination of a lessee's accounts or those of a lessor of publicly owned property, that a lessee is occupying or using publicly owned property in such a manner as to create a leasehold interest and that such leasehold interest has not been established through competitive bidding, or negotiated in accordance with statutory requirements regarding the rent payable, or negotiated under circumstances, established by public record, clearly showing that the contract rent was the maximum attainable by the lessor, the department may establish a taxable rent computation for use in determining the tax payable under authority granted in this chapter based upon the following criteria: (i) Consideration shall be given to rental being paid to other lessors by lessees of similar property for similar purposes over similar periods of time; (ii) consideration shall be given to what would be considered a fair rate of return on the market value of the property leased less reasonable deductions for any restrictions on use, special operating requirements or provisions for concurrent use by the lessor, another person or the general public.

(3) "Product lease" as used in this chapter shall mean a lease of property for use in the production of agricultural or marine products to the extent that such lease provides for the contract rent to be paid by the delivery of a stated percentage of the production of such agricultural or marine products to the credit of the lessor or the payment to the lessor of a stated percentage of the proceeds from the sale of such products.

(4) "Renegotiated" means a change in the lease agreement which changes the agreed time of possession, restrictions on use, the rate of the cash rental or of any other consideration payable

by the lessee to or for the benefit of the lessor, other than any such change required by the terms of the lease or agreement. In addition "renegotiated" shall mean a continuation of possession by the lessee beyond the date when, under the terms of the lease agreement, the lessee had the right to vacate the premises without any further liability to the lessor.

(5) "City" means any city or town.

(6) "Products" includes natural resource products such as cut or picked evergreen foliage, Cascara bark, wild edible mushrooms, native ornamental trees and shrubs, ore and minerals, natural gas, geothermal water and steam, and forage removed through the grazing of livestock.

RCW 82.29A.030 Tax imposed--Credit--Additional tax imposed.

(1) There is hereby levied and shall be collected a leasehold excise tax on the act or privilege of occupying or using publicly owned real or personal property through a leasehold interest on and after January 1, 1976, at a rate of twelve percent of taxable rent: PROVIDED, That after the computation of the tax there shall be allowed credit for any tax collected pursuant to RCW 82.29A.040.

(2) An additional tax is imposed equal to the rate specified in RCW 82.02.030 multiplied by the tax payable under subsection (1) of this section.

[1983 2nd ex.s. c 3 § 18; 1982 1st ex.s. c 35 § 11; 1975-'76 2nd ex.s. c 61 § 3.]

RCW 82.29A.040 Counties and cities authorized to impose tax--Maximum rate--Credit--Collection.

The legislative body of any county or city is hereby authorized to levy and collect a leasehold excise tax on the act or privilege of occupying or using publicly owned real or personal property through a leasehold interest in publicly owned property within the territorial limits of such county or city. The tax levied by a county under authority of this section shall not exceed six percent and the tax levied by a city shall not exceed four percent of taxable rent: PROVIDED, That any county ordinance levying such tax shall contain a provision allowing a credit against the county tax for the full amount of any city tax imposed upon the same taxable event.

The department of revenue shall perform the collection of such taxes on behalf of such county or city.

[1975-'76 2nd ex.s. c 61 § 4.]

RCW 82.29A.050 Payment--Due dates--Collection and remittance--Liability--Reporting.

(1) The leasehold excise taxes provided for in RCW 82.29A.030 and 82.29A.040 shall be paid by the lessee to the lessor and the lessor shall collect such tax and remit the same to the department of revenue. The tax shall be payable at the same time as payments are due to the lessor for use of the property from which the leasehold interest arises, and in the case of payment of contract rent to a person other than the lessor, at the time of payment. The tax payment shall be accompanied by such information as the department of revenue may require. In the case of prepaid contract rent the payment may be prorated in accordance with instructions of the department of revenue and the prorated portion of the tax shall be due, one-half not later than May 31 and the other half not later than November 30 each year.

(2) The lessor receiving taxes payable under the provisions of this chapter shall remit the same together with a return provided by the department, to the department of revenue on or before the last day of the month following the month in which the tax is collected. The department may relieve any taxpayer or class of taxpayers from the obligation of filing monthly returns and may require the return to cover other reporting periods, but in no event shall returns be filed for a period greater than one year. The lessor shall be fully liable for collection and remittance of the tax. The amount of tax until paid by the lessee to the lessor shall constitute a debt from the lessee to the lessor. The tax required by this chapter shall be stated separately from contract rent, and if not so separately stated for purposes of determining the tax due from the lessee to the lessor and from the lessor to the department, the contract rent does not include the tax imposed by this chapter. Where a lessee has failed to pay to the lessor the tax imposed by this chapter and the lessor has not paid the amount of the tax to the department, the department may, in its discretion, proceed directly against the lessee for collection of the tax: PROVIDED, That taxes due where contract rent has not been paid shall be reported by the lessor to the department and the lessee alone shall be liable for payment of the tax to the department.

(3) Each person having a leasehold interest subject to the tax provided for in this chapter arising out of a lease of federally owned or federal trust lands shall report and remit the tax due directly to the department of revenue in the same manner and at the same time as the lessor would be required to report and remit the tax if such lessor were a state public entity.

(2) A lessee, or a sublessee in the case where the sublessee is responsible for paying the tax imposed under this chapter, of property used for residential purposes may petition the county board of equalization for a change in appraised value when the department of revenue establishes taxable rent under RCW 82.29A.020(2)(b) based on an appraisal done by the county assessor at the request of the department. The petition must be on forms prescribed or approved by the

department of revenue and any petition not conforming to those requirements or not properly completed shall not be considered by the board. The petition must be filed with the board within the time period set forth in RCW 84.40.038. A decision of the board of equalization may be appealed by the taxpayer to the board of tax appeals as provided in RCW 84.08.130.

A sublessee, in the case where the sublessee is responsible for paying the tax imposed under this chapter, of property used for residential purposes may petition the department for a change in taxable rent when the department of revenue establishes taxable rent under RCW 82.29A.020(2)(b).

Any change in tax resulting from an appeal under this subsection shall be allocated to the lessee or sublessee responsible for paying the tax.

(3) This section shall not authorize the issuance of any levy upon any property owned by the public lessor.

(4) In selecting leasehold excise tax returns for audit the department of revenue shall give priority to any return an audit of which is specifically requested in writing by the county assessor or treasurer or other chief financial officer of any city or county affected by such return. After computation of the taxes imposed pursuant to RCW 82.29A.030 and 82.29A.040 there shall be allowed the following credits in determining the tax payable:

(1) With respect to a leasehold interest other than a product lease, executed with an effective date of April 1, 1986, or thereafter, or a leasehold interest in respect to which the

department of revenue under the authority of RCW 82.29A.020 does adjust the contract rent base used for computing the tax provided for in RCW 82.29A.030, there shall be allowed a credit against the tax as otherwise computed equal to the amount, if any, that such tax exceeds the property tax that would apply to such leased property without regard to any property tax exemption under RCW 84.36.381, if it were privately owned by the lessee or if it were privately owned by any sublessee if the value of the credit inures to the sublessee. For lessees and sublessees who would qualify for a property tax exemption under RCW 84.36.381 if the property were privately owned, the tax otherwise due after this credit shall be reduced by a percentage equal to the percentage reduction in property tax that would result from the property tax exemption under RCW 84.36.381.

(2) With respect to a product lease, a credit of thirty-three percent of the tax otherwise due.

RCW 82.29A.130 Exemptions.

The following leasehold interests shall be exempt from taxes imposed pursuant to RCW 82.29A.030 and 82.29A.040:

(1) All leasehold interests constituting a part of the operating properties of any public utility which is assessed and taxed as a public utility pursuant to chapter 84.12 RCW.

(2) All leasehold interests in facilities owned or used by a school, college or university which leasehold provides housing for students and which is otherwise exempt from taxation under provisions of RCW 84.36.010 and 84.36.050.

(3) All leasehold interests of subsidized housing where the fee ownership of such property is vested in the government of the United States, or the state of Washington or any political subdivision thereof but only if income qualification exists for such housing.

(4) All leasehold interests used for fair purposes of a nonprofit fair association that sponsors or conducts a fair or fairs which receive support from revenues collected pursuant to RCW 67.16.100 and allocated by the director of the department of agriculture where the fee ownership of such property is vested in the government of the United States, the state of Washington or any of its political subdivisions: PROVIDED, That this exemption shall not apply to the leasehold interest of any sublessee of such nonprofit fair association if such leasehold interest would be taxable if it were the primary lease.

(5) All leasehold interests in any property of any public entity used as a residence by an employee of that public entity who is required as a condition of employment to live in the publicly owned property.

(6) All leasehold interests held by enrolled Indians of lands owned or held by any Indian or Indian tribe where the fee ownership of such property is vested in or held in trust by the United States and which are not subleased to other than to a lessee which would qualify pursuant to this chapter, RCW 84.36.451 and 84.40.175.

RCW 82.32.020 Definitions.

For the purposes of this chapter:

The meaning attributed in chapters 82.01 through 82.27 RCW to the words and phrases "tax year," "taxable year," "person," "company," "gross proceeds of sales," "gross income of the business," "business," "engaging in business," "successor," "gross operating revenue," "gross income," "taxpayer," and "value of products" shall apply equally to the provisions of this chapter.

[1983 c 3 § 220; 1961 c 15 § 82.32.020. Prior: 1935 c 180 § 186; RRS § 8370-186.]

RCW 82.32.030 Registration certificates--Threshold levels.

(1) Except as provided in subsection (2) of this section, if any person engages in any business or performs any act upon which a tax is imposed by the preceding chapters, he or she shall, under such rules as the department of revenue shall prescribe, apply for and obtain from the department a registration certificate. Such registration certificate shall be personal and

nontransferable and shall be valid as long as the taxpayer continues in business and pays the tax accrued to the state. In case business is transacted at two or more separate places by one taxpayer, a separate registration certificate for each place at which business is transacted with the public shall be required. Each certificate shall be numbered and shall show the name, residence, and place and character of business of the taxpayer and such other information as the department of revenue deems necessary and shall be posted in a conspicuous place at the place of business for which it is issued. Where a place of business of the taxpayer is changed, the taxpayer must return to the department the existing certificate, and a new certificate will be issued for the new place of business. No person required to be registered under this section shall engage in any business taxable hereunder without first being so registered. The department, by rule, may provide for the issuance of certificates of registration to temporary places of business.

(2) Unless the person is a dealer as defined in RCW 9.41.010, registration under this section is not required if the following conditions are met:

(a) A person's value of products, gross proceeds of sales, or gross income of the business, from all business activities taxable under chapter 82.04 RCW, is less than twelve thousand dollars per year;

(b) The person's gross income of the business from all activities taxable under chapter 82.16 RCW is less than twelve thousand dollars per year;

(c) The person is not required to collect or pay to the department of revenue any other tax or fee which the department is authorized to collect; and

(d) The person is not otherwise required to obtain a license subject to the master application procedure provided in chapter 19.02 RCW.

Notes:

Findings--Purpose--1996 c 111: "The legislature finds that small businesses play a vital role in the state's current and future economic health. The legislature also finds that the state's excise tax reporting and registration requirements are unduly burdensome for small businesses incurring little or no tax liability. The legislature recognizes the costs associated in complying with the reporting and registration requirements that are hindering the further development of those businesses. For these reasons the legislature with this act simplifies the tax reporting and registration requirements for certain small businesses." [1996 c 111 § 1.]

RCW 82.32.045 Taxes--When due and payable--Reporting periods--Verified annual returns--Relief from filing requirements.

(1) Except as otherwise provided in this chapter, payments of the taxes imposed under chapters 82.04, 82.08, 82.12, 82.14, and 82.16 RCW, along with reports and returns on forms prescribed by the department, are due monthly within twenty-five days after the end of the month in which the taxable activities occur.

(2) The department of revenue may relieve any taxpayer or class of taxpayers from the obligation of remitting monthly and may require the return to cover other longer reporting periods, but in no event may returns be filed for a period greater than one year. For these taxpayers, tax payments are due on or before the last day of the month next succeeding the end of the period covered by the return.

(3) The department of revenue may also require verified annual returns from any taxpayer, setting forth such additional information as it may deem necessary to correctly determine tax liability.

(4) Notwithstanding subsections (1) and (2) of this section, the department may relieve any person of the requirement to file returns if the following conditions are met:

(a) The person's value of products, gross proceeds of sales, or gross income of the business, from all business activities taxable under chapter 82.04 RCW, is less than twenty-eight thousand dollars per year;

(b) The person's gross income of the business from all activities taxable under chapter 82.16 RCW is less than twenty-four thousand dollars per year; and

RCW 82.32.050 Deficient tax or penalty payments--Notice--Interest--Limitations.

(1) If upon examination of any returns or from other information obtained by the department it appears that a tax or penalty has been paid less than that properly due, the department shall assess against the taxpayer such additional amount found to be due and shall add thereto interest on the tax only. The department shall notify the taxpayer by mail of the additional amount and the additional amount shall become due and shall be paid within thirty days from the date of the notice, or within such further time as the department may provide.

(a) For tax liabilities arising before January 1, 1992, interest shall be computed at the rate of nine percent per annum from the last day of the year in which the deficiency is incurred until

the earlier of December 31, 1998, or the date of payment. After December 31, 1998, the rate of interest shall be variable and computed as provided in subsection (2) of this section. The rate so computed shall be adjusted on the first day of January of each year for use in computing interest for that calendar year.

(b) For tax liabilities arising after December 31, 1991, the rate of interest shall be variable and computed as provided in subsection (2) of this section from the last day of the year in which the deficiency is incurred until the date of payment. The rate so computed shall be adjusted on the first day of January of each year for use in computing interest for that calendar year.

(c) Interest imposed after December 31, 1998, shall be computed from the last day of the month following each calendar year included in a notice, and the last day of the month following the final month included in a notice if not the end of a calendar year, until the due date of the notice. If payment in full is not made by the due date of the notice, additional interest shall be computed until the date of payment. The rate of interest shall be variable and computed as provided in subsection (2) of this section. The rate so computed shall be adjusted on the first day of January of each year for use in computing interest for that calendar year.

(2) For the purposes of this section, the rate of interest to be charged to the taxpayer shall be an average of the federal short-term rate as defined in 26 U.S.C. Sec. 1274(d) plus two percentage points. The rate shall be computed by taking an arithmetical average to the nearest percentage point of the federal short-term rate, compounded annually, for the months of January, April, July, and October of the immediately preceding calendar year as published by the United States secretary of the treasury.

(3) No assessment or correction of an assessment for additional taxes, penalties, or interest due may be made by the department more than four years after the close of the tax year, except (a) against a taxpayer who has not registered as required by this chapter, (b) upon a showing of fraud or of misrepresentation of a material fact by the taxpayer, or (c) where a taxpayer has executed a written waiver of such limitation. The execution of a written waiver shall also extend the period for making a refund or credit as provided in RCW 82.32.060(2).

(4) For the purposes of this section, "return" means any document a person is required by the state of Washington to file to satisfy or establish a tax or fee obligation that is administered or collected by the department of revenue and that has a statutorily defined due date.

[1997 c 157 § 1; 1996 c 149 § 2; 1992 c 169 § 1; 1991 c 142 § 9; 1989 c 378 § 19; 1971 ex.s. c 299 § 16; 1965 ex.s. c 141 § 1; 1961 c 15 § 82.32.050. Prior: 1951 1st ex.s. c 9 § 5; 1949 c 228 § 20; 1945 c 249 § 9; 1939 c 225 § 27; 1937 c 227 § 17; 1935 c 180 § 188; Rem. Supp. 1949 § 8370-188.]

Notes:

Findings--Intent--1996 c 149: "The legislature finds that a consistent application of interest and penalties is in the best interest of the residents of the state of Washington. The legislature also finds that the goal of the department of revenue's interest and penalty system should be to encourage taxpayers to voluntarily comply with Washington's tax code in a timely manner. The administration of tax programs requires that there be consequences for those taxpayers who do not timely satisfy their reporting and tax obligations, but these consequences should not be so severe as to discourage taxpayers from voluntarily satisfying their tax obligations.

It is the intent of the legislature that, to the extent possible, a single interest and penalty system apply to all

tax programs administered by the department of revenue." [1996 c 149 § 1.]

RCW 82.32.060 Excess payment of tax, penalty, or interest--Credit or refund--Payment of judgments for refund.

(1) If, upon receipt of an application by a taxpayer for a refund or for an audit of the taxpayer's records, or upon an examination of the returns or records of any taxpayer, it is determined by the department that within the statutory period for assessment of taxes, penalties, or interest prescribed by RCW 82.32.050 any amount of tax, penalty, or interest has been paid in excess of that properly due, the excess amount paid within, or attributable to, such period shall be credited to the taxpayer's account or shall be refunded to the taxpayer, at the taxpayer's option. Except as provided in subsections (2) and (3) of this section, no refund or credit shall be made for taxes, penalties, or interest paid more than four years prior to the beginning of the calendar year in which the refund application is made or examination of records is completed.

(2) The execution of a written waiver under RCW 82.32.050 or 82.32.100 shall extend the time for making a refund or credit of any taxes paid during, or attributable to, the years covered by the waiver if, prior to the expiration of the waiver period, an application for refund of such taxes is made by the taxpayer or the department discovers a refund or credit is due.

(3) Notwithstanding the foregoing limitations there shall be refunded or credited to taxpayers engaged in the performance of United States government contracts or subcontracts the amount of any tax paid, measured by that portion of the amounts received from the United States, which the taxpayer is required by contract or applicable federal statute to refund or credit to the United States, if claim for such refund is filed by the taxpayer with the department within one year of the date that the amount of the refund or credit due to the United States is finally determined and filed within four years of the date on which the tax was paid: PROVIDED, That no interest shall be allowed on such refund.

(4) Any such refunds shall be made by means of vouchers approved by the department and by the issuance of state warrants drawn upon and payable from such funds as the legislature may provide. However, taxpayers who are required to pay taxes by electronic funds transfer under RCW 82.32.080 shall have any refunds paid by electronic funds transfer.

(5) Any judgment for which a recovery is granted by any court of competent jurisdiction, not appealed from, for tax, penalties, and interest which were paid by the taxpayer, and costs, in a suit by any taxpayer shall be paid in the same manner, as provided in subsection (4) of this section, upon the filing with the department of a certified copy of the order or judgment of the court.

(a) Interest at the rate of three percent per annum shall be allowed by the department and

by any court on the amount of any refund, credit, or other recovery allowed to a taxpayer for taxes, penalties, or interest paid by the taxpayer before January 1, 1992. This rate of interest shall apply for all interest allowed through December 31, 1998. Interest allowed after December 31, 1998, shall be computed at the rate as computed under RCW 82.32.050(2). The rate so computed shall be adjusted on the first day of January of each year for use in computing interest for that calendar year.

(b) For refunds or credits of amounts paid or other recovery allowed to a taxpayer after December 31, 1991, the rate of interest shall be the rate as computed for assessments under RCW 82.32.050(2) less one percent. This rate of interest shall apply for all interest allowed through December 31, 1998. Interest allowed after December 31, 1998, shall be computed at the rate as computed under RCW 82.32.050(2). The rate so computed shall be adjusted on the first day of January of each year for use in computing interest for that calendar year.

RCW 82.32.070 Records to be preserved--Examination--Estoppel to question assessment--Unified business identifier account number records.

(1) Every person liable for any fee or tax imposed by chapters 82.04 through 82.27 RCW shall keep and preserve, for a period of five years, suitable records as may be necessary to determine the amount of any tax for which he may be liable, which records shall include copies of all federal income tax and state tax returns and reports made by him. All his books, records, and invoices shall be open for examination at any time by the department of revenue. In the case

of an out-of-state person or concern which does not keep the necessary books and records within this state, it shall be sufficient if it produces within the state such books and records as shall be required by the department of revenue, or permits the examination by an agent authorized or designated by the department of revenue at the place where such books and records are kept. Any person who fails to comply with the requirements of this section shall be forever barred from questioning, in any court action or proceedings, the correctness of any assessment of taxes made by the department of revenue based upon any period for which such books, records, and invoices have not been so kept and preserved.

(2) A person liable for any fee or tax imposed by chapters 82.04 through 82.27 RCW who contracts with another person or entity for work subject to chapter 18.27 or 19.28 RCW shall obtain and preserve a record of the unified business identifier account number for the person or entity performing the work. Failure to obtain or maintain the record is subject to RCW 39.06.010 and to a penalty determined by the director, but not to exceed two hundred fifty dollars. The department shall notify the taxpayer and collect the penalty in the same manner as penalties under RCW 82.32.100.

RCW 82.32.080 Payment by check--Electronic funds transfer--Rules--Mailing returns or remittances--Time extension--Deposits--Records--Payment must accompany return.

Payment of the tax may be made by uncertified check under such regulations as the department shall prescribe, but, if a check so received is not paid by the bank on which it is drawn, the taxpayer, by whom such check is tendered, shall remain liable for payment of the tax and for all legal penalties, the same as if such check had not been tendered.

Payment of the tax shall be made by electronic funds transfer, as defined in RCW 82.32.085, if the amount of the tax due in a calendar year is one million eight hundred thousand dollars or more. The department may by rule provide for tax thresholds between two hundred forty thousand dollars and one million eight hundred thousand dollars for mandatory use of electronic funds transfer. All taxes administered by this chapter are subject to this requirement except the taxes authorized by chapters 82.14A, 82.14B, 82.24, 82.27, 82.29A, and 84.33 RCW. It is the intent of this section to require electronic funds transfer for those taxes reported on the department's combined excise tax return or any successor return.

A return or remittance which is transmitted to the department by United States mail shall be deemed filed or received on the date shown by the post office cancellation mark stamped upon the envelope containing it, except as otherwise provided in this chapter. The department is authorized to allow electronic filing of returns or remittances from any taxpayer. A return or remittance which is transmitted to the department electronically shall be deemed filed or received according to procedures set forth by the department.

The department, for good cause shown, may extend the time for making and filing any

return, and may grant such reasonable additional time within which to make and file returns as it may deem proper, but any permanent extension granting the taxpayer a reporting date without penalty more than ten days beyond the due date, and any extension in excess of thirty days shall be conditional on deposit with the department of an amount to be determined by the department which shall be approximately equal to the estimated tax liability for the reporting period or periods for which the extension is granted. In the case of a permanent extension or a temporary extension of more than thirty days the deposit shall be deposited within the state treasury with other tax funds and a credit recorded to the taxpayer's account which may be applied to taxpayer's liability upon cancellation of the permanent extension or upon reporting of the tax liability where an extension of more than thirty days has been granted.

The department shall review the requirement for deposit at least annually and may require a change in the amount of the deposit required when it believes that such amount does not approximate the tax liability for the reporting period or periods for which the extension is granted.

The department shall keep full and accurate records of all funds received and disbursed by it. Subject to the provisions of RCW 82.32.105 and 82.32.350, the department shall apply the payment of the taxpayer first against penalties and interest, and then upon the tax, without regard to any direction of the taxpayer.

The department may refuse to accept any return which is not accompanied by a remittance of the tax shown to be due thereon. When such return is not accepted, the taxpayer shall be deemed to have failed or refused to file a return and shall be subject to the procedures provided in RCW 82.32.100 and to the penalties provided in RCW 82.32.090. The above authority to refuse to accept a return shall not apply when a return is timely filed and a timely payment has been made by electronic funds transfer.

RCW 82.32.085 Electronic funds transfer--Generally.

"Electronic funds transfer" means any transfer of funds, other than a transaction originated by check, drafts, or similar paper instrument, which is initiated through an electronic terminal, telephonic instrument, or computer or magnetic tape so as to order, instruct, or authorize a financial institution to debit or credit an account.

The electronic funds transfer is to be completed so that the state receives collectible funds on or before the next banking day following the due date.

The department shall adopt rules necessary to implement the provisions of RCW

82.32.080 and this section. The rules shall include but are not limited to: (1) Coordinating the filing of tax returns with payment by electronic funds transfer; (2) form and content of electronic funds transfer; (3) voluntary use of electronic funds transfer with permission of the department; (4) use of commonly accepted means of electronic funds transfer; (5) means of crediting and recording proof of payment; and (6) means of correcting errors in transmission. Any changes in the threshold of tax shall be implemented with a separate rule-making procedure.

RCW 82.32.087 Direct pay permits.

(1) The director may grant a direct pay permit to a taxpayer who demonstrates, to the satisfaction of the director, that the taxpayer meets the requirements of this section. The direct pay permit allows the taxpayer to accrue and remit directly to the department use tax on the acquisition of tangible personal property or sales tax on the sale of or charges made for labor and/or services, in accordance with all of the applicable provisions of this title. Any taxpayer that uses a direct pay permit shall remit state and local sales or use tax directly to the department. The agreement by the purchaser to remit tax directly to the department, rather than pay sales or use tax to the seller, relieves the seller of the obligation to collect sales or use tax and requires the buyer to pay use tax on the tangible personal property and sales tax on the sale of or charges made for labor and/or services.

(2)(a) A taxpayer may apply for a permit under this section if the taxpayer (i) is subject to mandatory use of electronic funds transfer under RCW 82.32.080; or (ii) makes purchases subject to the taxes imposed under chapter 82.08 or 82.12 RCW in excess of ten million dollars per calendar year.

(b) Application for a permit must be made in writing to the director in a form and manner prescribed by the department. A taxpayer who transacts business in two or more locations may submit one application to cover the multiple locations.

(c) The director shall review a direct pay permit application in a timely manner and shall notify the applicant, in writing, of the approval or denial of the application. The department shall approve or deny an application based on the applicant's ability to comply with local government use tax coding capabilities and responsibilities; requirements for vendor notification; recordkeeping obligations; electronic data capabilities; and tax reporting procedures. Additionally, an application may be denied if the director determines that denial would be in the best interest of collecting taxes due under this title. The department shall provide a direct pay permit to an approved applicant with the notice of approval. The direct pay permit shall clearly state that the holder is solely responsible for the accrual and payment of the tax imposed under chapters 82.08 and 82.12 RCW and that the seller is relieved of liability to collect tax imposed under chapters 82.08 and 82.12 RCW on all sales to the direct pay permit holder. The taxpayer may petition the director for reconsideration of a denial.

(d) A taxpayer who uses a direct pay permit must continue to maintain records that are necessary to a determination of the tax liability in accordance with this title. A direct pay permit is not transferable and the use of a direct pay permit may not be assigned to a third party.

(3) Taxes for which the direct pay permit is used are due and payable on the tax return for the reporting period in which the taxpayer (a) receives the tangible personal property purchased or in which the labor and/or services are performed or (b) receives an invoice for such property or such labor and/or services, whichever period is earlier.

(4) The holder of a direct pay permit shall furnish a copy of the direct pay permit to each vendor with whom the taxpayer has opted to use a direct pay permit. Sellers who make sales upon which the sales or use tax is not collected by reason of the provisions of this section, in addition to existing requirements under this title, shall maintain a copy of the direct pay permit and any such records or information as the department may specify.

(5) A direct pay permit is subject to revocation by the director at any time the department determines that the taxpayer has violated any provision of this section or that revocation would be in the best interests of collecting the taxes due under this title. The notice of revocation must be in writing and is effective either as of the end of the taxpayer's next normal reporting period or a date deemed appropriate by the director and identified in the revocation notice. The taxpayer may petition the director for reconsideration of a revocation and reinstatement of the permit.

(6) Any taxpayer who chooses to no longer use a direct pay permit or whose permit is revoked by the department, shall return the permit to the department and immediately make a good faith effort to notify all vendors to whom the permit was given, advising them that the permit is no longer valid.

(7) Except as provided in this subsection, the direct pay permit may be used for any purchase of tangible personal property and any retail sale under RCW 82.04.050. The direct pay permit may not be used for:

- (a) Purchases of meals or beverages;
- (b) Purchases of motor vehicles, trailers, boats, airplanes, and other property subject to requirements for title transactions by the department of licensing;
- (c) Purchases for which a resale certificate may be used;
- (d) Purchases that meet the definitions of RCW 82.04.050 (2)(e) and (f), (3)(a) through (d), (f), and (g), and (5); or
- (e) Other activities subject to tax under chapter 82.08 or 82.12 RCW that the department by rule designates, consistent with the purposes of this section, as activities for which a direct pay permit is not appropriate and may not be used.

[2001 c 188 § 2.]

NOTES:

Finding--Intent--2001 c 188: "The legislature finds that programs to allow buyers to remit sales and use tax, rather than traditional collection and remittance by the seller of sales and use tax, can assist in tax compliance, ease administrative burdens, and reduce impacts on buyers and sellers. It is the intent of the legislature to grant the department of revenue the authority to permit certain buyers direct payment authority of tax in those instances

where it can be shown, to the satisfaction of the department, that direct payment does not burden sellers and does not complicate administration for the department. Buyers authorized for direct payment will remit tax directly to the department, and will pay use tax on tangible personal property and sales tax on retail labor and/or services.

This act does not affect the requirements to use a resale certificate nor does it affect the business and occupation tax treatment of the seller." [2001 c 188 § 1.]

Effective date--2001 c 188: "This act takes effect August 1, 2001." [2001 c 188 § 7.]

RCW 82.32.090 Late payment--Disregard of written instructions--Evasion--Penalties.

(1) If payment of any tax due on a return to be filed by a taxpayer is not received by the department of revenue by the due date, there shall be assessed a penalty of five percent of the amount of the tax; and if the tax is not received on or before the last day of the month following the due date, there shall be assessed a total penalty of ten percent of the amount of the tax; and if the tax is not received on or before the last day of the second month following the due date, there shall be assessed a total penalty of twenty percent of the amount of the tax. No penalty so added shall be less than five dollars.

(2) If payment of any tax assessed by the department of revenue is not received by the department by the due date specified in the notice, or any extension thereof, the department shall add a penalty of ten percent of the amount of the additional tax found due. No penalty so added shall be less than five dollars.

(3) If a warrant be issued by the department of revenue for the collection of taxes, increases, and penalties, there shall be added thereto a penalty of five percent of the amount of the tax, but not less than ten dollars.

(4) If the department finds that all or any part of a deficiency resulted from the disregard of specific written instructions as to reporting or tax liabilities, the department shall add a penalty of ten percent of the amount of the additional tax found due because of the failure to follow the instructions. A taxpayer disregards specific written instructions when the department of revenue has informed the taxpayer in writing of the taxpayer's tax obligations and the taxpayer fails to act in accordance with those instructions unless the department has not issued final instructions because the matter is under appeal pursuant to this chapter or departmental regulations. The department shall not assess the penalty under this section upon any taxpayer who has made a good faith effort to comply with the specific written instructions provided by the department to that taxpayer. Specific written instructions may be given as a part of a tax assessment, audit, determination, or closing agreement, provided that such specific written instructions shall apply only to the taxpayer addressed or referenced on such documents. Any specific written instructions by the department of revenue shall be clearly identified as such and shall inform the taxpayer that failure to follow the instructions may subject the taxpayer to the penalties imposed by this subsection.

(5) If the department finds that all or any part of the deficiency resulted from an intent to evade the tax payable hereunder, a further penalty of fifty percent of the additional tax found to be due shall be added.

(6) The aggregate of penalties imposed under subsections (1), (2), and (3) of this section shall not exceed thirty-five percent of the tax due, or twenty dollars, whichever is greater. This subsection does not prohibit or restrict the application of other penalties authorized by law.

(7) The department of revenue may not impose both the evasion penalty and the penalty for disregarding specific written instructions on the same tax found to be due.

(8) For the purposes of this section, "return" means any document a person is required by the state of Washington to file to satisfy or establish a tax or fee obligation that is administered or collected by the department of revenue, and that has a statutorily defined due date.

RCW 82.32.100 Failure to file returns or provide records--Assessment of tax by department--Penalties and interest.

(1) If any person fails or refuses to make any return or to make available for examination the records required by this chapter, the department shall proceed, in such manner as it may deem best, to obtain facts and information on which to base its estimate of the tax; and to this end the department may examine the records of any such person as provided in RCW 82.32.110.

(2) As soon as the department procures such facts and information as it is able to obtain upon which to base the assessment of any tax payable by any person who has failed or refused to make a return, it shall proceed to determine and assess against such person the tax and any applicable penalties or interest due, but such action shall not deprive such person from appealing the assessment as provided in this chapter. The department shall notify the taxpayer by mail of the total amount of such tax, penalties, and interest, and the total amount shall become due and shall be paid within thirty days from the date of such notice.

(3) No assessment or correction of an assessment may be made by the department more than four years after the close of the tax year, except (a) against a taxpayer who has not registered as required by this chapter, (b) upon a showing of fraud or of misrepresentation of a material fact by the taxpayer, or (c) where a taxpayer has executed a written waiver of such limitation. The execution of a written waiver shall also extend the period for making a refund or credit as provided in RCW 82.32.060(2).

(1) If the department of revenue finds that the payment by a taxpayer of a tax less than that properly due or the failure of a taxpayer to pay any tax by the due date was the result of circumstances beyond the control of the taxpayer, the department of revenue shall waive or cancel any penalties imposed under this chapter with respect to such tax.

(2) The department shall waive or cancel the penalty imposed under RCW 82.32.090(1) when the circumstances under which the delinquency occurred do not qualify for waiver or cancellation under subsection (1) of this section if:

(a) The taxpayer requests the waiver for a tax return required to be filed under RCW 82.32.045, 82.14B.061, 82.23B.020, 82.27.060, 82.29A.050, or 84.33.086; and

(b) The taxpayer has timely filed and remitted payment on all tax returns due for that tax program for a period of twenty-four months immediately preceding the period covered by the return for which the waiver is being requested.

(3) The department shall waive or cancel interest imposed under this chapter if:

(a) The failure to timely pay the tax was the direct result of written instructions given the taxpayer by the department; or

(b) The extension of a due date for payment of an assessment of deficiency was not at the request of the taxpayer and was for the sole convenience of the department.

(4) The department of revenue shall adopt rules for the waiver or cancellation of penalties and interest imposed by this chapter.

RCW 82.32.110 Examination of books or records--Subpoenas--Contempt of court.

The department of revenue or its duly authorized agent may examine any books, papers, records, or other data, or stock of merchandise bearing upon the amount of any tax payable or upon the correctness of any return, or for the purpose of making a return where none has been made, or in order to ascertain whether a return should be made; and may require the attendance of any person at a time and place fixed in a summons served by any sheriff in the same manner as a subpoena is served in a civil case, or served in like manner by an agent of the department of revenue.

The persons summoned may be required to testify and produce any books, papers, records, or data required by the department with respect to any tax, or the liability of any person

therefor.

The director of the department of revenue, or any duly authorized agent thereof, shall have power to administer an oath to the person required to testify; and any person giving false testimony after the administration of such oath shall be guilty of perjury in the first degree.

If any person summoned as a witness before the department, or its authorized agent, fails or refuses to obey the summons, or refuses to testify or answer any material questions, or to produce any book, record, paper, or data when required to do so, the person is subject to proceedings for contempt, and the department shall thereupon institute contempt of court proceedings in the superior court of Thurston county or of the county in which such person resides.

(1) Upon termination, dissolution, or abandonment of a corporate or limited liability company business, any officer, member, manager, or other person having control or supervision of retail sales tax funds collected and held in trust under RCW 82.08.050, or who is charged with the responsibility for the filing of returns or the payment of retail sales tax funds collected and held in trust under RCW 82.08.050, shall be personally liable for any unpaid taxes and interest and penalties on those taxes, if such officer or other person wilfully fails to pay or to cause to be paid any taxes due from the corporation pursuant to chapter 82.08 RCW. For the purposes of this section, any retail sales taxes that have been paid but not collected shall be deductible from the retail sales taxes collected but not paid.

For purposes of this subsection "wilfully fails to pay or to cause to be paid" means that the failure was the result of an intentional, conscious, and voluntary course of action.

(2) The officer, member or manager, or other person shall be liable only for taxes collected which became due during the period he or she had the control, supervision, responsibility, or duty to act for the corporation described in subsection (1) of this section, plus interest and penalties on those taxes.

(3) Persons liable under subsection (1) of this section are exempt from liability in situations where nonpayment of the retail sales tax funds held in trust is due to reasons beyond their control as determined by the department by rule.

(4) Any person having been issued a notice of assessment under this section is entitled to the appeal procedures under RCW 82.32.160, 82.32.170, 82.32.180, 82.32.190, and 82.32.200.

(6) This section does not relieve the corporation or limited liability company of other tax liabilities or otherwise impair other tax collection remedies afforded by law.

(7) Collection authority and procedures prescribed in this chapter apply to collections under this section.

RCW 82.32.180 Court appeal--Procedure.

Any person, except one who has failed to keep and preserve books, records, and invoices as required in this chapter and chapter 82.24 RCW, having paid any tax as required and feeling aggrieved by the amount of the tax may appeal to the superior court of Thurston county, within the time limitation for a refund provided in chapter 82.32 RCW or, if an application for refund has been made to the department within that time limitation, then within thirty days after rejection of the application, whichever time limitation is later. In the appeal the taxpayer shall set forth the amount of the tax imposed upon the taxpayer which the taxpayer concedes to be the correct tax and the reason why the tax should be reduced or abated. The appeal shall be perfected by serving a copy of the notice of appeal upon the department within the time herein specified and by filing the original thereof with proof of service with the clerk of the superior court of Thurston county.

The trial in the superior court on appeal shall be de novo and without the necessity of any pleadings other than the notice of appeal. At trial, the burden shall rest upon the taxpayer to

prove that the tax as paid by the taxpayer is incorrect, either in whole or in part, and to establish the correct amount of the tax. In such proceeding the taxpayer shall be deemed the plaintiff, and the state, the defendant; and both parties shall be entitled to subpoena the attendance of witnesses as in other civil actions and to produce evidence that is competent, relevant, and material to determine the correct amount of the tax that should be paid by the taxpayer. Either party may seek appellate review in the same manner as other civil actions are appealed to the appellate courts.

It shall not be necessary for the taxpayer to protest against the payment of any tax or to make any demand to have the same refunded or to petition the director for a hearing in order to appeal to the superior court, but no court action or proceeding of any kind shall be maintained by the taxpayer to recover any tax paid, or any part thereof, except as herein provided.

The provisions of this section shall not apply to any tax payment which has been the subject of an appeal to the board of tax appeals with respect to which appeal a formal hearing has been elected.

(2) Interest imposed under this section for periods after January 1, 1997, shall be computed on a daily basis at the rate as computed under RCW 82.32.050(2). RCW 82.32.210 Tax warrant--Filing--Lien--Effect.

(1) If any fee, tax, increase, or penalty or any portion thereof is not paid within fifteen days after it becomes due, the department of revenue may issue a warrant in the amount of such unpaid sums, together with interest thereon from the date the warrant is issued until the date of payment. If, however, the department of revenue believes that a taxpayer is about to cease business, leave the state, or remove or dissipate the assets out of which fees, taxes or penalties might be satisfied and that any tax or penalty will not be paid when due, it may declare the fee, tax or penalty to be immediately due and payable and may issue a warrant immediately.

(a) Interest imposed before January 1, 1999, shall be computed at the rate of one percent of the amount of the warrant for each thirty days or portion thereof.

(b) Interest imposed after December 31, 1998, shall be computed on a daily basis on the amount of outstanding tax or fee at the rate as computed under RCW 82.32.050(2). The rate so computed shall be adjusted on the first day of January of each year for use in computing interest for that calendar year. As used in this subsection, "fee" does not include an administrative filing fee such as a court filing fee and warrant fee.

(2) The department shall file a copy of the warrant with the clerk of the superior court of any county of the state in which real and/or personal property of the taxpayer may be found. The clerk is entitled to a filing fee under RCW 36.18.012(10). Upon filing, the clerk shall enter in the judgment docket, the name of the taxpayer mentioned in the warrant and in appropriate columns the amount of the fee, tax or portion thereof and any increases and penalties for which the warrant is issued and the date when the copy is filed, and thereupon the amount of the

warrant so docketed shall become a specific lien upon all goods, wares, merchandise, fixtures, equipment, or other personal property used in the conduct of the business of the taxpayer against whom the warrant is issued, including property owned by third persons who have a beneficial interest, direct or indirect, in the operation of the business, and no sale or transfer of the personal property in any way affects the lien.

(3) The lien shall not be superior, however, to bona fide interests of third persons which had vested prior to the filing of the warrant when the third persons do not have a beneficial interest, direct or indirect, in the operation of the business, other than the securing of the payment of a debt or the receiving of a regular rental on equipment. The phrase "bona fide interests of third persons" does not include any mortgage of real or personal property or any other credit transaction that results in the mortgagee or the holder of the security acting as trustee for unsecured creditors of the taxpayer mentioned in the warrant who executed the chattel or real property mortgage or the document evidencing the credit transaction.

(4) The amount of the warrant so docketed shall thereupon also become a lien upon the title to and interest in all other real and personal property of the taxpayer against whom it is issued the same as a judgment in a civil case duly docketed in the office of the clerk. The warrant so docketed shall be sufficient to support the issuance of writs of garnishment in favor of the state in the manner provided by law in the case of judgments wholly or partially unsatisfied.

The sheriff shall thereupon proceed upon the same in all respects and with like effect as prescribed by law with respect to execution or other process issued against rights or property upon judgments of the superior court.

The sheriff shall be entitled to fees as provided by law for the sheriff's services in levying execution on a superior court judgment and the clerk shall be entitled to a filing fee as provided by law, which shall be added to the amount of the warrant.

Any surplus received from any sale of property shall be paid to the taxpayer or to any lien holder entitled thereto. If the return on the warrant shows that the same has not been satisfied in full, the amount of the deficiency shall remain the same as a judgment against the taxpayer which may be collected in the same manner as the original amount of the warrant.

RCW 82.32.235 Notice and order to withhold and deliver property due or owned by taxpayer--Bond--Judgment by default.

In addition to the remedies provided in this chapter the department is hereby authorized to issue to any person, or to any political subdivision or department of the state, a notice and order to withhold and deliver property of any kind whatsoever when there is reason to believe that there is in the possession of such person, political subdivision or department, property which is or shall become due, owing, or belonging to any taxpayer against whom a warrant has been filed.

The notice and order to withhold and deliver shall be served by the sheriff of the county wherein the service is made, or by his deputy, or by any duly authorized representative of the department, provided that service by such persons may also be made by certified mail, with return receipt requested, upon those persons, or political subdivision or department, to whom the notice and order to withhold and deliver is directed. Any person, or any political subdivision or department upon whom service has been made is hereby required to answer the notice within twenty days exclusive of the day of service, under oath and in writing, and shall make true answers to the matters inquired of in the notice.

In the event there is in the possession of any such person or political subdivision or department, any property which may be subject to the claim of the department, such property shall be delivered forthwith to the department of revenue or its duly authorized representative upon demand to be held in trust by the department for application on the indebtedness involved or for return, without interest, in accordance with final determination of liability or nonliability, or in the alternative, there shall be furnished a good and sufficient bond satisfactory to the department conditioned upon final determination of liability.

Should any person or political subdivision fail to make answer to an order to withhold and deliver within the time prescribed herein, it shall be lawful for the court, after the time to answer such order has expired, to render judgment by default against such person or political subdivision for the full amount claimed by the department in the notice to withhold and deliver, together with costs.

Upon service, the notice and order to withhold and deliver shall constitute a continuing lien on property of the taxpayer and upon wages due, owing, or belonging to the taxpayer. The department shall include in the caption of the notice and order to withhold and deliver

"continuing lien." The effective date of a notice and order to withhold and deliver served under RCW 82.32.235 shall be the date of service thereof.

RCW 82.32.240 Tax constitutes debt to the state--Priority of lien.

Any tax due and unpaid and all increases and penalties thereon, shall constitute a debt to the state and may be collected by court proceedings in the same manner as any other debt in like amount, which remedy shall be in addition to any and all other existing remedies.

In all cases of probate, insolvency, assignment for the benefit of creditors, or bankruptcy, involving any taxpayer who is, or decedent who was, engaging in business, the claim of the state for said taxes and all increases and penalties thereon shall be a lien upon all real and personal property of the taxpayer, and the mere existence of such cases or conditions shall be sufficient to create such lien without any prior or subsequent action by the state, and in all such cases it shall be the duty of all administrators, executors, guardians, receivers, trustees in bankruptcy or assignees for the benefit of creditors, to notify the department of revenue of such administration, receivership or assignment within sixty days from the date of their appointment and qualification.

The lien provided for by this section shall attach as of the date of the assignment for the benefit of creditors or of the initiation of the probate, insolvency, or bankruptcy proceedings: PROVIDED, That this sentence shall not be construed as affecting the validity or priority of any earlier lien that may have attached previously in favor of the state under any other section of this title.

Any administrator, executor, guardian, receiver or assignee for the benefit of creditors not giving the notification as provided for above shall become personally liable for payment of the taxes and all increases and penalties thereon to the extent of the value of the property subject to administration that otherwise would have been available for the payment of such taxes, increases, and penalties by the administrator, executor, guardian, receiver, or assignee.

RCW 82.32.330 Disclosure of return or tax information.

(1) For purposes of this section:

(a) "Disclose" means to make known to any person in any manner whatever a return or tax information;

(b) "Return" means a tax or information return or claim for refund required by, or provided for or permitted under, the laws of this state which is filed with the department of revenue by, on behalf of, or with respect to a person, and any amendment or supplement thereto, including supporting schedules, attachments, or lists that are supplemental to, or part of, the return so filed;

(c) "Tax information" means (i) a taxpayer's identity, (ii) the nature, source, or amount of the taxpayer's income, payments, receipts, deductions, exemptions, credits, assets, liabilities, net worth, tax liability deficiencies, overassessments, or tax payments, whether taken from the taxpayer's books and records or any other source, (iii) whether the taxpayer's return was, is being, or will be examined or subject to other investigation or processing, (iv) a part of a written determination that is not designated as a precedent and disclosed pursuant to RCW 82.32.410, or a background file document relating to a written determination, and (v) other data received by, recorded by, prepared by, furnished to, or collected by the department of revenue with respect to the determination of the existence, or possible existence, of liability, or the amount thereof, of a person under the laws of this state for a tax, penalty, interest, fine, forfeiture, or other imposition, or offense: PROVIDED, That data, material, or documents that do not disclose information related to a specific or identifiable taxpayer do not constitute tax information under this section. Except as provided by RCW 82.32.410, nothing in this chapter shall require any person possessing data, material, or documents made confidential and privileged by this section to delete information from such data, material, or documents so as to permit its disclosure;

(d) "State agency" means every Washington state office, department, division, bureau, board, commission, or other state agency;

(e) "Taxpayer identity" means the taxpayer's name, address, telephone number, registration number, or any combination thereof, or any other information disclosing the identity of the taxpayer; and

(f) "Department" means the department of revenue or its officer, agent, employee, or representative.

(2) Returns and tax information shall be confidential and privileged, and except as authorized by this section, neither the department of revenue nor any other person may disclose any return or tax information.

(3) The foregoing, however, shall not prohibit the department of revenue from:

(a) Disclosing such return or tax information in a civil or criminal judicial proceeding or an administrative proceeding:

(i) In respect of any tax imposed under the laws of this state if the taxpayer or its officer or other person liable under Title 82 RCW is a party in the proceeding; or

(ii) In which the taxpayer about whom such return or tax information is sought and another state agency are adverse parties in the proceeding;

(b) Disclosing, subject to such requirements and conditions as the director shall prescribe by rules adopted pursuant to chapter 34.05 RCW, such return or tax information regarding a taxpayer to such taxpayer or to such person or persons as that taxpayer may designate in a request for, or consent to, such disclosure, or to any other person, at the taxpayer's request, to the extent necessary to comply with a request for information or assistance made by the taxpayer to such other person: PROVIDED, That tax information not received from the taxpayer shall not be so disclosed if the director determines that such disclosure would compromise any investigation or litigation by any federal, state, or local government agency in connection with the civil or criminal liability of the taxpayer or another person, or that such disclosure would identify a confidential informant, or that such disclosure is contrary to any agreement entered into by the department that provides for the reciprocal exchange of information with other government agencies which agreement requires confidentiality with respect to such information unless such information is required to be disclosed to the taxpayer by the order of any court;

(c) Disclosing the name of a taxpayer with a deficiency greater than five thousand dollars and against whom a warrant under RCW 82.32.210 has been either issued or filed and remains outstanding for a period of at least ten working days. The department shall not be required to disclose any information under this subsection if a taxpayer: (i) Has been issued a tax assessment; (ii) has been issued a warrant that has not been filed; and (iii) has entered a deferred payment arrangement with the department of revenue and is making payments upon such deficiency that will fully satisfy the indebtedness within twelve months;

(d) Disclosing the name of a taxpayer with a deficiency greater than five thousand dollars and against whom a warrant under RCW 82.32.210 has been filed with a court of record and remains outstanding;

(e) Publishing statistics so classified as to prevent the identification of particular returns or reports or items thereof;

(f) Disclosing such return or tax information, for official purposes only, to the governor or attorney general, or to any state agency, or to any committee or subcommittee of the legislature dealing with matters of taxation, revenue, trade, commerce, the control of industry or the professions;

(h) Disclosing any such return or tax information to a peace officer as defined in RCW 9A.04.110 or county prosecuting attorney, for official purposes. The disclosure may be made only in response to a search warrant, subpoena, or other court order, unless the disclosure is for the purpose of criminal tax enforcement. A peace officer or county prosecuting attorney who receives the return or tax information may disclose that return or tax information only for use in

the investigation and a related court proceeding, or in the court proceeding for which the return or tax information originally was sought;

(i) Disclosing any such return or tax information to the proper officer of the internal revenue service of the United States, the Canadian government or provincial governments of Canada, or to the proper officer of the tax department of any state or city or town or county, for official purposes, but only if the statutes of the United States, Canada or its provincial governments, or of such other state or city or town or county, as the case may be, grants substantially similar privileges to the proper officers of this state;

(j) Disclosing any such return or tax information to the Department of Justice, the Bureau of Alcohol, Tobacco and Firearms of the Department of the Treasury, the Department of Defense, the United States Customs Service, the Coast Guard of the United States, and the United States Department of Transportation, or any authorized representative thereof, for official purposes;

(k) Publishing or otherwise disclosing the text of a written determination designated by the director as a precedent pursuant to RCW 82.32.410;

(l) Disclosing, in a manner that is not associated with other tax information, the taxpayer name, entity type, business address, mailing address, revenue tax registration numbers, North American industry classification system or standard industrial classification code of a taxpayer, and the dates of opening and closing of business. This subsection shall not be construed as giving authority to the department to give, sell, or provide access to any list of taxpayers for any commercial purpose;

(m) Disclosing such return or tax information that is also maintained by another Washington state or local governmental agency as a public record available for inspection and copying under the provisions of chapter 42.17 RCW or is a document maintained by a court of record not otherwise prohibited from disclosure;

(n) Disclosing such return or tax information to the United States department of agriculture for the limited purpose of investigating food stamp fraud by retailers;

(o) Disclosing to a financial institution, escrow company, or title company, in connection with specific real property that is the subject of a real estate transaction, current amounts due the department for a filed tax warrant, judgment, or lien against the real property; or

(p) Disclosing to a person against whom the department has asserted liability as a successor under RCW 82.32.140 return or tax information pertaining to the specific business of the taxpayer to which the person has succeeded.

(4)(a) The department may disclose return or taxpayer information to a person under investigation or during any court or administrative proceeding against a person under investigation as provided in this subsection (4). The disclosure must be in connection with the department's official duties relating to an audit, collection activity, or a civil or criminal investigation. The disclosure may occur only when the person under investigation and the person in possession of data, materials, or documents are parties to the return or tax information to be disclosed. The department may disclose return or tax information such as invoices, contracts, bills, statements, resale or exemption certificates, or checks. However, the department may not disclose general ledgers, sales or cash receipt journals, check registers, accounts

receivable/payable ledgers, general journals, financial statements, expert's workpapers, income tax returns, state tax returns, tax return workpapers, or other similar data, materials, or documents.

(b) Before disclosure of any tax return or tax information under this subsection (4), the department shall, through written correspondence, inform the person in possession of the data, materials, or documents to be disclosed. The correspondence shall clearly identify the data, materials, or documents to be disclosed. The department may not disclose any tax return or tax information under this subsection (4) until the time period allowed in (c) of this subsection has expired or until the court has ruled on any challenge brought under (c) of this subsection.

(c) The person in possession of the data, materials, or documents to be disclosed by the department has twenty days from the receipt of the written request required under (b) of this subsection to petition the superior court of the county in which the petitioner resides for injunctive relief. The court shall limit or deny the request of the department if the court determines that:

(i) The data, materials, or documents sought for disclosure are cumulative or duplicative, or are obtainable from some other source that is more convenient, less burdensome, or less expensive;

(ii) The production of the data, materials, or documents sought would be unduly burdensome or expensive, taking into account the needs of the department, the amount in controversy, limitations on the petitioner's resources, and the importance of the issues at stake; or

(iii) The data, materials, or documents sought for disclosure contain trade secret information that, if disclosed, could harm the petitioner.

(d) The department shall reimburse reasonable expenses for the production of data, materials, or documents incurred by the person in possession of the data, materials, or documents to be disclosed.

(e) Requesting information under (b) of this subsection that may indicate that a taxpayer is under investigation does not constitute a disclosure of tax return or tax information under this section.

(5) Any person acquiring knowledge of any return or tax information in the course of his or her employment with the department of revenue and any person acquiring knowledge of any return or tax information as provided under subsection (3)(f), (g), (h), (i), (j), or (n) of this section, who discloses any such return or tax information to another person not entitled to knowledge of such return or tax information under the provisions of this section, is guilty of a misdemeanor. If the person guilty of such violation is an officer or employee of the state, such person shall forfeit such office or employment and shall be incapable of holding any public office or employment in this state for a period of two years thereafter.

RCW 82.32.340 Chargeoff of uncollectible taxes--Destruction of files and records.

(1) Any tax or penalty which the department of revenue deems to be uncollectible may be transferred from accounts receivable to a suspense account and cease to be accounted an asset. Any item transferred shall continue to be a debt due the state from the taxpayer and may at any time within twelve years from the filing of a warrant covering such amount with the clerk of the superior court be transferred back to accounts receivable for the purpose of collection. The department of revenue may charge off as finally uncollectible any tax or penalty which it deems uncollectible at any time after twelve years from the date that the last tax return for the delinquent taxpayer was or should have been filed if the department of revenue is satisfied that there are no cost-effective means of collecting the tax or penalty.

After any tax or penalty has been charged off as finally uncollectible under the provisions of this section, the department of revenue may destroy any or all files and records pertaining to the liability of any taxpayer for such tax or penalty.

The department of revenue, subject to the approval of the state records committee, may at the expiration of five years after the close of any taxable year, destroy any or all files and records pertaining to the tax liability of any taxpayer for such taxable year, who has fully paid all taxes, penalties and interest for such taxable year, or any preceding taxable year for which such taxes, penalties and interest have been fully paid. In the event that such files and records are reproduced on film pursuant to RCW 40.20.020 for use in accordance with RCW 40.20.030, the original files and records may be destroyed immediately after reproduction and such reproductions may be destroyed at the expiration of the above five-year period, subject to the approval of the state records committee.

(2) Notwithstanding subsection (1) of this section, the department may charge off any tax within its jurisdiction to collect that is owed by a taxpayer, including any penalty or interest thereon, if the department ascertains that the cost of collecting that tax would be greater than the total amount which is owed or likely in the near future to be owed by, and collectible from, the taxpayer.

(b) The year 2000 failure being asserted was not proximately caused by a failure of the person to update an electronic computing device, that is under his or her dominion or control, to be year 2000 compliant; and

(c) If it were not for the year 2000 failure, the person would have been able to satisfy the payment of taxes in a timely manner.

RCW 82.32.440 Project on sales and use tax exemption requirements.

(1) The department is authorized to enter into agreements with sellers who meet the criteria in this section for a project on sales and use tax exemption requirements. This project will allow the use of electronic data collection in lieu of paper certificates otherwise required by law, including the use of electronic signatures.

(2) The object of the project is to determine whether using an electronic system and reviewing the data regarding the exempt transactions provides the same level of reliability as the current system while lessening the burden on the seller.

(3) A business making both sales taxable and exempt under chapter 82.08 or 82.12 RCW, that has electronic data-collecting capabilities, and that wishes to participate in the project may make application to the department in such form and manner as the department may require. To be eligible for such participation, a seller must demonstrate its capability to take part in the project and to provide data to the department in a form in which the data can be used by the department. The department is not required to accept all applicants in this project and is not required to provide any reason for not selecting a participant. A seller selected as a participant may be relieved of other sales and use tax exemption documentation requirements provided by law as covered by the project, and will be relieved of the good faith requirement under RCW 82.08.050 to the extent that it has made available to the department the data required by the project.

[2001 c 116 § 2.]

NOTES:

Findings--2001 c 116: "The legislature finds that current sales and use tax exemption documentation requirements are often confusing and burdensome for retailers, taxpayers, and the state. Additionally, the legislature notes the national efforts under way to simplify and streamline the sales and use tax, and that those

efforts include a new system for retailers to use in processing sales and use tax exemptions. The legislature further finds that it would be beneficial to the state and its residents to allow for the simplification of sales and use tax exemption requirements." [2001 c 116 § 1.]

RCW 82.32.450 Natural or manufactured gas, electricity--Maximum combined credits and deferrals allowed--Availability of credits and deferrals.

(1) The total combined credits and deferrals that may be taken under RCW 82.04.447, 82.12.024, and 82.16.0495 shall not exceed two million five hundred thousand dollars in any fiscal year. Each person is limited to no more than a total of one million five hundred thousand dollars in tax deferred and credit allowed in any fiscal year in which more than one person takes tax credits and claims tax deferral. The department may require reporting of the credits taken and amounts deferred in a manner and form as is necessary to keep a running total of the amounts.

(2) Credits and deferred tax are available on a first come basis. Priority for tax credits and deferrals among approved applicants shall be designated based on the first actual consumption of gas under RCW 82.04.447 or 82.12.024, or on the first actual use of electricity under RCW 82.16.0495, by each approved applicant. The department shall disallow any credits or deferred tax, or portion thereof, that would cause the total amount of credits taken and deferred taxes claimed to exceed the fiscal year cap or to exceed the per person fiscal year cap. If the fiscal cap is reached or exceeded[,] the department shall notify those persons who have approved applications under RCW 82.04.447, 82.12.024, and 82.16.0495 that no more credits may be taken or tax deferred during the remainder of the fiscal year. In addition, the department shall provide written notice to any person who has taken any tax credits or claimed any deferred tax in excess of the fiscal year cap. The notice shall indicate the amount of tax due and shall provide that the tax be paid within thirty days from the date of such notice.

(3) No portion of an application for credit or deferral disallowed under this section may be carried back or carried forward nor may taxes ineligible for credit or deferral due to the fiscal cap having been reached or exceeded be carried forward or carried backward.

RCW 82.32A.002 Short title.

This chapter shall be known and cited as "Washington taxpayers' rights and responsibilities."

[1991 c 142 § 1.]

RCW 82.32A.005 Finding.

(1) The legislature finds that taxes are one of the most sensitive points of contact between citizens and their government, and that there is a delicate balance between revenue collection and taxpayers' rights and responsibilities. The rights, privacy, and property of Washington taxpayers should be protected adequately during the process of the assessment and collection of taxes.

(2) The legislature further finds that the Washington tax system is based largely on voluntary compliance and that taxpayers have a responsibility to inform themselves about applicable tax laws. The legislature also finds that the rights of the taxpayers and their attendant responsibilities are best implemented where the department of revenue provides accurate tax information, instructions, forms, administrative policies, and procedures to assist taxpayers to voluntarily comply with the provisions of the revenue act, Title 82 RCW, and where taxpayers cooperate in the administration of these provisions.

[1991 c 142 § 2.]

RCW 82.32A.010 Administration of chapter.

The department of revenue shall administer this chapter. The department of revenue shall adopt or amend rules as may be necessary to fully implement this chapter and the rights established under this chapter.

[1991 c 142 § 3.]

RCW 82.32A.020 Rights.

The taxpayers of the state of Washington have:

(1) The right to a written explanation of the basis for any tax deficiency assessment, interest, and penalties at the time the assessments are issued;

(2) The right to rely on specific, official written advice and written tax reporting instructions from the department of revenue to that taxpayer, and to have interest, penalties, and in some instances, tax deficiency assessments waived where the taxpayer has so relied to their proven detriment;

(3) The right to redress and relief where tax laws or rules are found to be unconstitutional by the final decision of a court of record and the right to prompt administrative remedies in such cases;

(4) The right to confidentiality and protection from public inquiry regarding financial and business information in the possession of the department of revenue in accordance with the requirements of RCW 82.32.330;

(5) The right to receive, upon request, clear and current tax instructions, rules, procedures, forms, and other tax information; and

(6) The right to a prompt and independent administrative review by the department of revenue of a decision to revoke a tax registration, and to a written determination that either sustains the revocation or reinstates the registration.

[1991 c 142 § 4.]

RCW 82.32A.030 Responsibilities.

To ensure consistent application of the revenue laws, taxpayers have certain responsibilities under chapter 82.32 RCW, including, but not limited to, the responsibility to:

(1) Register with the department of revenue;

(2) Know their tax reporting obligations, and when they are uncertain about their obligations, seek instructions from the department of revenue;

(3) Keep accurate and complete business records;

(4) File accurate returns and pay taxes in a timely manner;

(5) Ensure the accuracy of the information entered on their tax returns;

(6) Substantiate claims for refund;

(7) Timely pay all taxes after closing a business and request cancellation of registration

number; and

- (8) Timely respond to communications from the department of revenue.

[1991 c 142 § 5.]

RCW 82.32A.040 Taxpayer rights advocate.

The director of revenue shall appoint a taxpayer rights advocate. The advocate shall be responsible for directly assisting taxpayers and their representatives to assure their understanding and utilization of the policies, processes, and procedures available to them in the resolution of problems.

[1991 c 142 § 6.]

RCW 82.32A.050 Taxpayer services program.

The department of revenue shall maintain a taxpayer services program consisting of, but not limited to:

- (1) Providing taxpayer assistance in the form of information, education, and instruction in person, by telephone, or by correspondence;
- (2) Conducting tax workshops at locations most conveniently accessible to the majority of taxpayers affected; and
- (3) Publishing written bulletins, instructions, current revenue laws, rules, court decisions, and interpretive rulings of the department of revenue.

[1991 c 142 § 7.]

RCW 82.32A.900 Severability--1991 c 142.

If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

RCW 82.33A.005 Intent.

The citizens of Washington should enjoy a high quality of life, which requires a healthy state economy. RCW 82.34.060 Application for final cost determination as to existing or new facility--Filing--Form--Contents--Approval--Determination of costs--Credits against taxes imposed by chapters 82.04, 82.12, 82.16 RCW--Limitations.

(1) On and after July 30, 1967, an application for a determination of the cost of an existing or newly completed pollution control facility may be filed with the department in such manner and in such form as may be prescribed by the department. The application shall contain the final cost figures for the installation of the facility and reasonable supporting documents and other proof as required by the department. In the event such facility is not already covered by a certificate issued for the purpose of authorizing the tax exemption or credit provided for in this chapter, the department shall seek the approval of the facility from the appropriate control agency. For any application for a certificate or supplement which was filed with the department

not later than November 30, 1981, the department shall determine the final cost of the pollution control facility and issue a supplement to the existing certificate or an original certificate stating the cost of the pollution control facility: PROVIDED, That the cost of an existing pollution control facility shall be the depreciated value thereof at the time of application filed pursuant to this section.

(2) When the operation of a facility has commenced and a certificate pertaining thereto has been issued, a credit may be claimed against taxes imposed pursuant to chapters 82.04, 82.12 and 82.16 RCW. The amount of such credit shall be two percent of the cost of a facility covered by the certificate for each year the certificate remains in force. Such credits shall be cumulative and shall be subject only to the following limitations:

(a) No credit exceeding fifty percent of the taxes payable under chapters 82.04, 82.12 and 82.16 RCW shall be allowed in any reporting period;

(b) The net commercial value of any materials captured or recovered through use of a facility shall, first, reduce the credit allowable in the current reporting period and thereafter be applied to reduce any credit balance allowed and not yet utilized: PROVIDED, That for the purposes of this chapter the determination of "net commercial value" shall not include a deduction for the cost or depreciation of the facility.

(c) The total cumulative amount of such credits allowed for any facility covered by a certificate shall not exceed fifty percent of the cost of such facility.

(d) The total cumulative amount of credits against state taxes authorized by this chapter shall be reduced by the total amount of any federal investment credit or other federal tax credit actually received by the certificate holder applicable to the facility. This reduction shall be made as an offset against the credit claimed in the first reporting period following the allowance of such investment credit, and thereafter as an offset against any credit balance as it shall become available to the certificate holder.

(3) Applicants and certificate holders shall provide the department with information showing the net commercial value of materials captured or recovered by a facility and shall make all pertinent books and records available for examination by the department for the purposes of determining the credit provided by this chapter.

RCW 82.34.075 Light and power business--Exempt from sales and use tax on installation and acquisition of a qualifying facility. (Expires June 30, 2003.)

(1) The following definitions apply throughout this section:

(a) "Qualifying facility" means an air pollution control facility as that term is defined in RCW 82.34.010(1)(a) to be installed or acquired for a thermal electric peaking plant with a capacity of less than one hundred megawatts and which is approved pursuant to the Washington clean air act, chapter 70.94 RCW.

(b) "Thermal electric peaking plant" means a natural gas-fired thermal electric generating facility operated by a light and power business and placed into service between January 1, 1978, and December 31, 1984, and that is registered for the calendar year 2000 pursuant to RCW

70.94.151.

(c) "Light and power business" has the same meaning as in RCW 82.16.010.

(2) A light and power business is exempt from sales tax on the installation or acquisition of up to two qualifying facilities after January 1, 2001, as provided in this section. Upon written request of a light and power business to which the approval issued under chapter 70.94 RCW is attached, the department shall make a determination as to whether a plant is a thermal electric peaking plant acquiring or installing a qualifying facility eligible under this section. The department shall consult with the department of community, trade, and economic development and the department of ecology in making the determination. If the determination is in the affirmative, the department shall issue the light and power business a sales and use tax exemption certificate in a form and manner as deemed appropriate by the department.

(3) The charges for installation or acquisition of a qualifying facility by the holder of the certificate are exempt from sales tax imposed under chapter 82.08 RCW and use tax imposed under chapter 82.12 RCW. The purchaser must provide the seller with a copy of the sales and use tax exemption certificate. The seller shall retain a copy of the certificate for the seller's files.

(4) The exemption in this section is limited to the installation or acquisition of a qualifying facility and does not apply to servicing, maintenance, operation, or repairs of a thermal electric peaking plant or of an air pollution control facility.

(5) This section expires June 30, 2003.

RCW 82.35.010 Intent.

The state of Washington has a large and growing need for electrical energy. The state of Washington possesses a great potential for the generation of electrical or mechanical power and useful heat energy through the process of cogeneration. It is the purpose and intent of the

legislature to promote the growth of cogeneration in the state of Washington.

[1979 ex.s. c 191 § 1.]

RCW 82.35.020 Definitions.

As used in this chapter, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "Cogeneration" means the sequential generation of electrical or mechanical power and useful heat from the same primary energy source or fuel.

(2) "Cogeneration facility" means any machinery, equipment, structure, process, or property, or any part thereof, installed or acquired for the primary purpose of cogeneration by a person or corporation other than an electric utility.

(3) "Certificate" means a cogeneration tax credit certificate granted by the department.

(4) "Cost" means only the cost of a cogeneration facility which is in addition to the cost that the applicant otherwise would incur to meet the applicant's demands for useful heat. "Cost" does not include expenditures which are offset by cost savings, including but not limited to savings resulting from early retirement of existing equipment.

(5) "Department" means the department of revenue.

(6) "Electric utility" means any person, corporation, or governmental subdivision authorized and operating under the Constitution and laws of the state of Washington which is primarily engaged in the generation or sale of electric energy.

RCW 82.35.040 Issuance of certificate--Limitations--Tabulation of costs incurred--Administrative rules.

(1) No certificate or supplement may be issued after December 31, 1984. No certificate including a supplement thereto may be issued for cogeneration facility costs in excess of ten million dollars for any application submitted under this chapter.

(2) The department shall keep a running tabulation of the total cogeneration facility costs incurred or planned to be incurred pursuant to certificates or supplements issued under this chapter. The department may not issue any new certificate or any supplement if the certificate or supplement would result in the tabulation exceeding one hundred million dollars. Nothing in this section shall be deemed to bar any certificate holder from amending the certificate or obtaining a supplement thereto so long as the amendment or supplement is issued prior to December 1, 1984, and does not increase the total amount of cogeneration facility costs incurred or planned to be incurred under the original certificate.

(3) The department may adopt any rules under chapter 34.05 RCW it considers necessary for the administration of this chapter.

[1982 1st ex.s. c 2 § 3; 1979 ex.s. c 191 § 4.]

RCW 82.35.050 Credit against taxes--Conditions--Amount--Limitations.

When a cogeneration facility is operational and a certificate pertaining thereto has been issued, a credit may be claimed against taxes imposed under chapter 82.04 RCW, if the due date for payment of the taxes is after the effective date of the certificate: PROVIDED, That the date on which the facility is operational is no more than four years after the date of issuance of the certificate. The amount of the credit shall be three percent of the cost of a facility covered by the certificate for each year the certificate remains in force. The credits shall be cumulative and shall be subject only to the following limitations:

- (1) The tax credit shall apply to capital costs only and shall not apply to operating costs.
- (2) A person, firm, corporation, or organization which acquires a cogeneration facility shall be entitled to the credit only to the extent that it has previously not been taken. Under no circumstances may a credit be taken more than once against any cost or portion thereof of a cogeneration facility.
- (3) No credit exceeding fifty percent of the taxes payable under chapter 82.04 RCW shall be allowed in any reporting period.
- (4) The total cumulative amount of the credits allowed for any cogeneration facility covered by a certificate shall not exceed fifty percent of the cost of the cogeneration facility less the total amount of federal investment credit or other federal tax credits applicable to the cogeneration facility.
- (5) State credits shall not become available until one year after final cost verification by the department.

[1982 1st ex.s. c 2 § 1; 1979 ex.s. c 191 § 5.]

RCW 82.35.070 Issuance of certificate or supplement and notice of refusal to issue certificate or supplement--Certified mail.

The department shall send a certificate or supplement, when issued, by certified mail to the applicant. Notice of the department's refusal to issue a certificate or supplement shall likewise be sent to the applicant by certified mail.

[1979 ex.s. c 191 § 7.]

RCW 82.35.080 Revocation of certificate--Grounds--Continuance of certificate--Liability for money saved--Technical assistance.

(1) Except as provided in subsection (2) of this section, the department shall revoke any certificate issued under this chapter if it finds that any of the following have occurred with respect to the certificate:

- (a) The certificate was obtained by fraud or deliberate misrepresentation;

(b) The certificate was obtained through the use of inaccurate data but without any intention to commit fraud or misrepresentation;

(c) The facility was constructed or operated in violation of any provision of this chapter or provision imposed by the department as a condition of certification; or

(d) The cogeneration facility is no longer capable of being operated for the primary purpose of cogeneration.

(2) If the department finds that there are few inaccuracies under subsection (1)(b) of this section and that cumulatively they are insignificant in terms of the cost or operation of the facility or that the inaccurate data is not attributable to carelessness or negligence and its inclusion was reasonable under the circumstances, then the department may provide for the continuance of the certificate and whatever modification it considers in the public interest.

(3) Any person, firm, corporation, or organization that obtains a certificate revoked under this section shall be liable for the total amount of money saved by claiming the credits and exemptions provided under this chapter. The total amount of the credits shall be collected as delinquent business and occupation taxes, and the total of the exemptions shall be collected and distributed as delinquent property taxes. Interest shall accrue on the amounts of the credits and exemptions from the date the taxes were otherwise due.

(4) The department of community, trade, and economic development shall provide technical assistance to the department in carrying out its responsibilities under this section.

(1) There is hereby levied and imposed upon motor vehicle fuel users a tax at the rate computed in the manner provided in RCW 82.36.025 on each gallon of motor vehicle fuel.

(2) The tax imposed by subsection (1) of this section is imposed when any of the following occurs:

(a) Motor vehicle fuel is removed in this state from a terminal if the motor vehicle fuel is removed at the rack unless the removal is to a licensed exporter for direct delivery to a destination outside of the state;

(b) Motor vehicle fuel is removed in this state from a refinery if either of the following applies:

(i) The removal is by bulk transfer and the refiner or the owner of the motor vehicle fuel immediately before the removal is not a licensee; or

(ii) The removal is at the refinery rack unless the removal is to a licensed exporter for direct delivery to a destination outside of the state;

(c) Motor vehicle fuel enters into this state for sale, consumption, use, or storage if either of the following applies:

(i) The entry is by bulk transfer and the importer is not a licensee; or

(ii) The entry is not by bulk transfer;

(d) Motor vehicle fuel is sold or removed in this state to an unlicensed entity unless there was a prior taxable removal, entry, or sale of the motor vehicle fuel;

(e) Blended motor vehicle fuel is removed or sold in this state by the blender of the fuel. The number of gallons of blended motor vehicle fuel subject to the tax is the difference between the total number of gallons of blended motor vehicle fuel removed or sold and the number of gallons of previously taxed motor vehicle fuel used to produce the blended motor vehicle fuel;

(f) Motor vehicle fuel is sold by a licensed motor vehicle fuel supplier to a motor vehicle fuel distributor, motor vehicle fuel importer, or motor vehicle fuel blender and the motor vehicle fuel is not removed from the bulk transfer-terminal system.

Purpose of state and local transportation funding program--1990 c 42: "(1) The legislature finds that a new comprehensive funding program is required to maintain the state's commitment to the growing mobility needs of its citizens and commerce. The transportation funding program is intended to satisfy the following state policies and objectives:

(a) State-wide system: Provide for preservation of the existing state-wide system and improvements for current and expected capacity needs in rural, established urban, and growing suburban areas throughout the state;

(b) Local flexibility: Provide for necessary state highway improvements, as well as providing local governments with the option to use new funding sources for projects meeting local and regional needs;

(c) Multimodal: Provide a source of funds that may be used for multimodal transportation purposes;

(d) Program compatibility: Implement transportation facilities and services that are consistent with adopted land use and transportation plans and coordinated with recently authorized programs such as the act authorizing creation of transportation benefit districts and the local transportation act of 1988;

(e) Interjurisdictional cooperation: Encourage transportation planning and projects that are multijurisdictional in their conception, development, and benefit, recognizing that mobility problems do not respect jurisdictional boundaries;

(f) Public and private sector: Use a state, local, and private sector partnership that equitably shares the burden of meeting transportation needs.

(2) The legislature further recognizes that the revenues currently available to the state and to counties, cities, and transit authorities for highway, road, and street construction and preservation fall far short of the identified need. The 1988 Washington road jurisdiction study identified a state-wide funding shortfall of between \$14.6 and \$19.9 billion to bring existing roads to acceptable standards. The gap between identified transportation needs and available revenues continues to increase. A comprehensive transportation funding program is required to meet the current and anticipated future needs of this state.

(3) The legislature further recognizes the desirability of making certain changes in the collection and distribution of motor vehicle excise taxes with the following objectives: Simplifying administration and collection

of the taxes including adoption of a predictable depreciation schedule for vehicles; simplifying the allocation of the taxes among various recipients; and the dedication of a portion of motor vehicle excise taxes for transportation purposes.

(4) The legislature, therefore, declares a need for the three-part funding program embodied in this act: (a) State-wide funding for highways, roads, and streets in urban and rural areas; (b) local option funding authority, available immediately, for the construction and preservation of roads, streets, and transit improvements and facilities; and (c) the creation of a multimodal transportation fund that is funded through dedication of a portion of motor vehicle excise tax. This funding program is intended, by targeting certain new revenues, to produce a significant increase in the overall capacity of the state, county, and city transportation systems to satisfy and efficiently accommodate the movement of people and goods." [1990 c 42 § 1.]

Headings--1990 c 42: "The index and part and section headings as used in this act do not constitute any part of the law." [1990 c 42 § 502.]

Effective dates--Application--Implementation--1990 c 42: "(1) Sections 101 through 104, 115 through 117, 201 through 214, 405 through 411, and 503, chapter 42, Laws of 1990 are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect April 1, 1990.

(4) Section 304, chapter 42, Laws of 1990 shall take effect July 1, 1991, and apply to all vehicles registered for the first time with an expiration date of June 30, 1992, and thereafter.

(5) The director of licensing may immediately take such steps as are necessary to ensure that the sections of chapter 42, Laws of 1990 are implemented on their effective dates.

(6) *Sections 401 through 404, chapter 42, Laws of 1990 shall take effect September 1, 1990, only if the bonds issued under RCW 47.56.711 for the Spokane river toll bridge have been retired or fully defeased, and shall become null and void if the bonds have not been retired or fully defeased on that date." A motor vehicle fuel supplier shall, no later than the twentieth calendar day or next state business day after the motor vehicle fuel tax is due from a motor vehicle fuel distributor under this chapter, notify the department of the failure of a motor vehicle fuel distributor to pay the full amount of the tax owed.

Upon notification and submission of satisfactory evidence by a motor vehicle fuel supplier that a motor vehicle fuel distributor has failed to pay the full amount of the tax owed, the department may suspend the license of the motor vehicle fuel distributor.

Upon the suspension, the department shall immediately notify all motor vehicle fuel suppliers that the authority of the motor vehicle fuel distributor to purchase tax-deferred motor vehicle fuel has been suspended and all subsequent purchases of motor vehicle fuel by the motor vehicle fuel distributor must be tax-paid at the time of removal.

If, after notification by the department, a motor vehicle fuel supplier continues to sell tax-deferred motor vehicle fuel to a motor vehicle fuel distributor whose license is suspended, the motor vehicle fuel supplier's license is subject to revocation or suspension under RCW 82.36.190. Furthermore, if notified of a license suspension, a motor vehicle fuel supplier is liable for any unpaid motor vehicle fuel tax owed on motor vehicle fuel sold to a suspended motor vehicle fuel distributor.

[1998 c 176 § 14.]

RCW 82.36.044 Credit for worthless accounts receivable--Report--Adjustment.

A motor vehicle fuel supplier is entitled to a credit of the tax paid over to the department on those sales of motor vehicle fuel for which the supplier has received no consideration from or on behalf of the purchaser. The amount of the tax credit shall not exceed the amount of tax imposed by this chapter on such sales. Such credit may be taken on a tax return subsequent to the tax return on which the tax was paid over to the department. If a credit has been granted under this section, any amounts collected for application against accounts on which such a credit is based shall be reported on a subsequent tax return filed after such collection, and the amount of credit received by the supplier based upon the collected amount shall be returned to the

department. In the event the credit has not been paid, the amount of the credit requested by the supplier shall be adjusted by the department to reflect the decrease in the amount on which the claim is based.

[1998 c 176 § 15.]

RCW 82.36.045 Licensees, persons acting as licensees--Tax reports--Deficiencies, failure to file, fraudulent filings, misappropriation, or conversion--Penalties, liability--Mitigation--Reassessment petition, hearing--Notice.

(1) If the department determines that the tax reported by a licensee is deficient, the department shall assess the deficiency on the basis of information available to it, and shall add a penalty of two percent of the amount of the deficiency.

(2) If a licensee, or person acting as such, fails, neglects, or refuses to file a motor vehicle fuel tax report the department shall, on the basis of information available to it, determine the tax liability of the licensee or person for the period during which no report was filed. The department shall add the penalty provided in subsection (1) of this section to the tax. An assessment made by the department under this subsection or subsection (1) of this section is presumed to be correct. In any case, where the validity of the assessment is questioned, the burden is on the person who challenges the assessment to establish by a fair preponderance of evidence that it is erroneous or excessive, as the case may be.

(3) If a licensee or person acting as such files a false or fraudulent report with intent to evade the tax imposed by this chapter, the department shall add to the amount of deficiency a penalty equal to twenty-five percent of the deficiency, in addition to the penalty provided in subsections (1) and (2) of this section and all other penalties prescribed by law.

(4) Motor vehicle fuel tax, penalties, and interest payable under this chapter bears interest at the rate of one percent per month, or fraction thereof, from the first day of the calendar month after the amount or any portion of it should have been paid until the date of payment. If a licensee or person acting as such establishes by a fair preponderance of evidence that the failure to pay the amount of tax due was attributable to reasonable cause and was not intentional or willful, the department may waive the penalty. The department may waive the interest when it determines the cost of processing or collection of the interest exceeds the amount of interest due.

(5) Except in the case of a fraudulent report, neglect or refusal to make a report, or failure to pay or to pay the proper amount, the department shall assess the deficiency under subsection (1) or (2) of this section within five years from the last day of the succeeding calendar month after the reporting period for which the amount is proposed to be determined or within five years after the return is filed, whichever period expires later.

(6) Except in the case of violations of filing a false or fraudulent report, if the department deems mitigation of penalties and interest to be reasonable and in the best interest of carrying out the purpose of this chapter, it may mitigate such assessments upon whatever terms the department deems proper, giving consideration to the degree and extent of the lack of records and reporting errors. The department may ascertain the facts regarding recordkeeping and payment penalties in lieu of more elaborate proceedings under this chapter.

(7) A licensee or person acting as such against whom an assessment is made under subsection (1) or (2) of this section may petition for a reassessment within thirty days after service upon the licensee of notice of the assessment. If the petition is not filed within the thirty-day period, the amount of the assessment becomes final at the expiration of that period.

If a petition for reassessment is filed within the thirty-day period, the department shall reconsider the assessment and, if the petitioner has so requested in its petition, shall grant the petitioner an oral hearing and give the petitioner twenty days' notice of the time and place of the hearing. The department may continue the hearing from time to time. The decision of the department upon a petition for reassessment becomes final thirty days after service of notice upon the petitioner.

An assessment made by the department becomes due and payable when it becomes final. If it is not paid to the department when due and payable, the department shall add a penalty of ten percent of the amount of the tax.

(8) In a suit brought to enforce the rights of the state under this chapter, the assessment showing the amount of taxes, penalties, interest, and cost unpaid to the state is prima facie evidence of the facts as shown.

(9) A notice of assessment required by this section must be served personally or by certified or registered mail. If it is served by mail, service shall be made by deposit of the notice in the United States mail, postage prepaid, addressed to the respondent at the most current address furnished to the department.

(10) The tax imposed by this chapter, if required to be collected by the seller, is held in trust by the licensee until paid to the department, and a licensee who appropriates or converts the tax collected to his or her own use or to any use other than the payment of the tax to the extent that the money required to be collected is not available for payment on the due date as prescribed in this chapter is guilty of a felony, or gross misdemeanor in accordance with the theft and anticipatory provisions of Title 9A RCW. A person, partnership, corporation, or corporate officer who fails to collect the tax imposed by this section, or who has collected the tax and fails to pay it to the department in the manner prescribed by this chapter, is personally liable to the state for the amount of the tax.

RCW 82.36.047 Assessments--Warrant--Lien--Filing fee--Writs of execution and garnishment.

When an assessment becomes final in accordance with this chapter, the department may file with the clerk of any county within the state a warrant in the amount of the assessment of taxes, penalties, interest, and a filing fee under RCW 36.18.012(10). The clerk of the county in which the warrant is filed shall immediately designate a superior court cause number for the warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant the name of the licensee or person mentioned in the warrant, the amount of the tax, penalties, interest, and filing fee, and the date when the warrant was filed. The aggregate amount of the warrant as docketed becomes a lien upon the title to and

interest in all real and personal property of the named person against whom the warrant is issued, the same as a judgment in a civil case duly docketed in the office of the clerk. The warrant so docketed is sufficient to support the issuance of writs of execution and writs of garnishment in favor of the state in the manner provided by law in the case of a civil judgment, wholly or partially unsatisfied. The clerk of the court is entitled to a filing fee under RCW 36.18.012(10).

RCW 82.36.050 Date of mailing deemed date of filing or receipt--Timely mailing bars penalties and tolls statutory time limitations.

When any application, report, notice, payment, or claim for credit or refund to be filed with or made to any officer, agent, or employee of the state under the provisions of this chapter has been deposited in the United States mail addressed to such officer, agent or employee, it shall be deemed filed or received on the date shown by the post office cancellation mark on the envelope containing it or on the date it was mailed if proof satisfactory to said officer, agent, or employee of the state establishes that the actual mailing occurred on an earlier date: PROVIDED, HOWEVER, That no penalty for delinquency shall attach, nor will the statutory period be deemed to have elapsed in the case of credit or refund claims, if it is established by competent evidence that such application, report, notice, payment, or claim for credit or refund was timely deposited in the United States mail properly addressed to said officer, agent, or employee of the state, even though never received if a duplicate of such document or payment is filed.

RCW 82.36.060 Application for license--Federal certificate of registry--Investigation--Fee--Penalty for false statement--Bond or security--Cancellation.

(1) An application for a license issued under this chapter shall be made to the department on forms to be furnished by the department and shall contain such information as the department deems necessary.

(2) Every application for a license must contain the following information to the extent it applies to the applicant:

(a) Proof as the department may require concerning the applicant's identity, including but not limited to his or her fingerprints or those of the officers of a corporation making the application;

(b) The applicant's form and place of organization including proof that the individual, partnership, or corporation is licensed to do business in this state;

(c) The qualification and business history of the applicant and any partner, officer, or director;

(d) The applicant's financial condition or history including a bank reference and whether the applicant or any partner, officer, or director has ever been adjudged bankrupt or has an unsatisfied judgment in a federal or state court;

(e) Whether the applicant has been adjudged guilty of a crime that directly relates to the

business for which the license is sought and the time elapsed since the conviction is less than ten years, or has suffered a judgment within the preceding five years in a civil action involving fraud, misrepresentation, or conversion and in the case of a corporation or partnership, all directors, officers, or partners.

(3) An applicant for a license as a motor vehicle fuel importer must list on the application each state, province, or country from which the applicant intends to import motor vehicle fuel and, if required by the state, province, or country listed, must be licensed or registered for motor vehicle fuel tax purposes in that state, province, or country.

(4) An applicant for a license as a motor vehicle fuel exporter must list on the application each state, province, or country to which the exporter intends to export motor vehicle fuel received in this state by means of a transfer outside of the bulk transfer-terminal system and, if required by the state, province, or country listed, must be licensed or registered for motor vehicle fuel tax purposes in that state, province, or country.

(5) An applicant for a license as a motor vehicle fuel supplier must have a federal certificate of registry that is issued under the internal revenue code and authorizes the applicant to enter into federal tax-free transactions on motor vehicle fuel in the terminal transfer system.

(6) After receipt of an application for a license, the director may conduct an investigation to determine whether the facts set forth are true. The director shall require a fingerprint record check of the applicant through the Washington state patrol criminal identification system and the federal bureau of investigation before issuance of a license. The results of the background investigation including criminal history information may be released to authorized department personnel as the director deems necessary. The department shall charge a license holder or license applicant a fee of fifty dollars for each background investigation conducted.

An applicant who makes a false statement of a material fact on the application may be prosecuted for false swearing as defined by RCW 9A.72.040.

(7) Except as provided by subsection (8) of this section, before granting any license issued under this chapter, the department shall require applicant to file with the department, in such form as shall be prescribed by the department, a corporate surety bond duly executed by the applicant as principal, payable to the state and conditioned for faithful performance of all the requirements of this chapter, including the payment of all taxes, penalties, and other obligations arising out of this chapter. The total amount of the bond or bonds shall be fixed by the department and may be increased or reduced by the department at any time subject to the limitations herein provided. In fixing the total amount of the bond or bonds, the department shall require a bond or bonds equivalent in total amount to twice the estimated monthly excise tax determined in such manner as the department may deem proper. If at any time the estimated excise tax to become due during the succeeding month amounts to more than fifty percent of the established bond, the department shall require additional bonds or securities to maintain the marginal ratio herein specified or shall demand excise tax payments to be made weekly or semimonthly to meet the requirements hereof.

The total amount of the bond or bonds required of any licensee shall never be less than five thousand dollars nor more than one hundred thousand dollars.

No recoveries on any bond or the execution of any new bond shall invalidate any bond

and no revocation of any license shall effect the validity of any bond but the total recoveries under any one bond shall not exceed the amount of the bond.

In lieu of any such bond or bonds in total amount as herein fixed, a licensee may deposit with the state treasurer, under such terms and conditions as the department may prescribe, a like amount of lawful money of the United States or bonds or other obligations of the United States, the state, or any county of the state, of an actual market value not less than the amount so fixed by the department.

Any surety on a bond furnished by a licensee as provided herein shall be released and discharged from any and all liability to the state accruing on such bond after the expiration of thirty days from the date upon which such surety has lodged with the department a written request to be released and discharged, but this provision shall not operate to relieve, release, or discharge the surety from any liability already accrued or which shall accrue before the expiration of the thirty day period. The department shall promptly, upon receiving any such request, notify the licensee who furnished the bond; and unless the licensee, on or before the expiration of the thirty day period, files a new bond, or makes a deposit in accordance with the requirements of this section, the department shall forthwith cancel the license. Whenever a new bond is furnished by a licensee, the department shall cancel the old bond as soon as the department and the attorney general are satisfied that all liability under the old bond has been fully discharged.

The department may require a licensee to give a new or additional surety bond or to deposit additional securities of the character specified in this section if, in its opinion, the security of the surety bond theretofore filed by such licensee, or the market value of the properties deposited as security by the licensee, shall become impaired or inadequate; and upon the failure of the licensee to give such new or additional surety bond or to deposit additional securities within thirty days after being requested so to do by the department, the department shall forthwith cancel his or her license.

(8) The department may waive the requirements of subsection (7) of this section for licensed distributors if, upon determination by the department, the licensed distributor has sufficient resources, assets, other financial instruments, or other means, to adequately make payments on the estimated monthly motor vehicle fuel tax payments, penalties, and interest arising out of this chapter. The department shall adopt rules to administer this subsection.

RCW 82.36.070 Issuance of license--Display--Refusal of issuance--Inspection of records.

The application in proper form having been accepted for filing, the filing fee paid, and the bond or other security having been accepted and approved, the department shall issue to the applicant the appropriate license, and such license shall be valid until canceled or revoked.

The license so issued by the department shall not be assignable, and shall be valid only for the person in whose name issued.

Each licensee shall be assigned a license number, and the department shall issue to each

licensee a license certificate which shall be displayed conspicuously at his or her principal place of business. The department may refuse to issue or may revoke a motor vehicle fuel license, to a person:

(1) Who formerly held a motor vehicle fuel license that, before the time of filing for application, has been revoked or canceled for cause;

(2) Who is a subterfuge for the real party in interest whose license has been revoked or canceled for cause;

(3) Who, as an individual licensee or officer, director, owner, or managing employee of a nonindividual licensee, has had a motor vehicle fuel license revoked or canceled for cause;

(4) Who has an unsatisfied debt to the state assessed under either chapter 82.36, 82.38, 82.42, or 46.87 RCW;

(5) Who formerly held as an individual, officer, director, owner, managing employee of a nonindividual licensee, or subterfuge for a real party in interest, a license issued by the federal government or a state that allowed a person to buy or sell untaxed motor vehicle or special fuel, which license, before the time of filing for application, has been revoked for cause;

(6) Who pled guilty to or was convicted as an individual, corporate officer, director, owner, or managing employee in this or any other state or in any federal jurisdiction of a gross misdemeanor or felony crime directly related to the business or has been subject to a civil judgment involving fraud, misrepresentation, conversion, or dishonesty, notwithstanding chapter 9.96A RCW;

(7) Who misrepresented or concealed a material fact in obtaining a license or in reinstatement thereof;

(8) Who violated a statute or administrative rule regulating fuel taxation or distribution;

(9) Who failed to cooperate with the department's investigations by:

(a) Not furnishing papers or documents;

(b) Not furnishing in writing a full and complete explanation regarding a matter under investigation by the department; or

(c) Not responding to subpoenas issued by the department, whether or not the recipient of the subpoena is the subject of the proceeding;

(10) Who failed to comply with an order issued by the director; or

(11) Upon other sufficient cause being shown.

Before such a refusal or revocation, the department shall grant the applicant a hearing and shall give the applicant at least twenty days' written notice of the time and place of the hearing.

For the purpose of considering an application for a license issued under this chapter, the department may inspect, cause an inspection, investigate, or cause an investigation of the records of this or any other state or of the federal government to ascertain the veracity of the information on the application form and the applicant's criminal and licensing history.

The department may, in the exercise of reasonable discretion, suspend a motor vehicle fuel license at any time before and pending such a hearing for unpaid taxes or reasonable cause.

The department may require a person other than a licensee engaged in the business of selling, purchasing, distributing, storing, transporting, or delivering motor vehicle fuel to submit periodic reports to the department regarding the disposition of the fuel. The reports must be on forms prescribed by the department and must contain such information as the department may require.

RCW 82.36.080 Penalty for acting without license--Separate licenses for separate activities--Default assessment.

(1) It shall be unlawful for any person to engage in business in this state as any of the following unless the person is the holder of an uncanceled license issued by the department authorizing the person to engage in that business:

- (a) Motor vehicle fuel supplier;
- (b) Motor vehicle fuel distributor;
- (c) Motor vehicle fuel exporter;
- (d) Motor vehicle fuel importer; or
- (e) Motor vehicle fuel blender.

(2) A person engaged in more than one activity for which a license is required must have a separate license classification for each activity, but a motor vehicle fuel supplier is not required to obtain a separate license classification for any other activity for which a license is required.

(3) If any person acts as a licensee without first securing the license required herein the excise tax shall be immediately due and payable on account of all motor vehicle fuel distributed or used by the person. The director shall proceed forthwith to determine from the best available sources, the amount of the tax, and the director shall immediately assess the tax in the amount found due, together with a penalty of one hundred percent of the tax, and shall make a certificate of such assessment and penalty. In any suit or proceeding to collect the tax or penalty, or both, such certificate shall be prima facie evidence that the person therein named is indebted to the state in the amount of the tax and penalty therein stated. Any tax or penalty so assessed may be collected in the manner prescribed in this chapter with reference to delinquency in payment of the tax or by an action at law, which the attorney general shall commence and prosecute to final determination at the request of the director. The foregoing remedies of the state shall be cumulative and no action taken pursuant to this section shall relieve any person from the penal provisions of this chapter.

Such notice shall give the date of discontinuance, and, in the event of a sale or transfer of the business, the date thereof and the name and address of the purchaser or transferee thereof. All taxes, penalties, and interest under this chapter, not yet due and payable, shall become due and payable concurrently with such discontinuance, sale, or transfer, and any such licensee shall make a report and pay all such taxes, interest, and penalties, and surrender to the director the license certificate theretofore issued to him or her.

If an overpayment of tax was made by the licensee, prior to the discontinuance or transfer of his or her business, such overpayment may be refunded to such licensee.

The proceeds of the tax imposed by this section shall be distributed in the manner provided for the distribution of the motor vehicle fuel excise tax in RCW 82.36.020. For failure to comply with this chapter such person is subject to the same penalties imposed upon licensees. The director shall pursue against such persons the same procedure and remedies for audits, adjustments, collection, and enforcement of this chapter as is provided with respect to licensees. RCW 82.36.110 Delinquency--Lien of tax--Notice.

If any person liable for the tax imposed by this chapter fails to pay the same, the amount thereof, including any interest, penalty, or addition to such tax, together with any costs that may accrue in addition thereto, shall be a lien in favor of the state upon all franchises, property, and rights to property, whether real or personal, then belonging to or thereafter acquired by such person, whether such property is employed by such person in the prosecution of business or is in the hands of a trustee, or receiver, or assignee for the benefit of creditors, from the date the taxes were due and payable, until the amount of the lien is paid or the property sold in payment thereof.

The lien shall have priority over any lien or encumbrance whatsoever, except the lien of other state taxes having priority by law, and except that such lien shall not be valid as against any bona fide mortgagee, pledgee, judgment creditor, or purchaser whose rights have attached prior to the time the department has filed notice of such lien in the office of the county auditor of the county in which the principal place of business of the taxpayer is located.

The auditor, upon presentation of a notice of lien, and without requiring the payment of any fee, shall file and index it in the manner now provided for deeds and other conveyances except that he shall not be required to include, in the index, any description of the property affected by the lien. The lien shall continue until the amount of the tax, together with any penalties and interest subsequently accruing thereon, is paid. The department may issue a certificate of release of lien when the amount of the tax, together with any penalties and interest subsequently accruing thereon, has been satisfied, and such release may be recorded with the auditor of the county in which the notice of lien has been filed.

The department shall furnish to any person applying therefor a certificate showing the amount of all liens for motor vehicle fuel tax, penalties and interest that may be of record in the files of the department against any person under the provisions of this chapter.

RCW 82.36.120 Delinquency--Notice to debtors--Transfer or disposition of property, credits, or debts prohibited--Lien--Answer.

If a licensee is delinquent in the payment of an obligation imposed under this chapter, the department may give notice of the amount of the delinquency by registered or certified mail to all persons having in their possession or under their control any credits or other personal property belonging to such licensee, or owing any debts to such licensee at the time of receipt by

them of such notice. Upon service, the notice and order to withhold and deliver constitutes a continuing lien on property of the taxpayer. The department shall include in the caption of the notice to withhold and deliver "continuing lien." The effective date of a notice to withhold and deliver served under this section is the date of service of the notice. A person so notified shall neither transfer nor make any other disposition of such credits, personal property, or debts until the department consents to a transfer or other disposition. All persons so notified must, within twenty days after receipt of the notice, advise the department of any and all such credits, personal property, or debts in their possession, under their control or owing by them, as the case may be, and shall deliver upon demand the credits, personal property, or debts to the department or its duly authorized representative to be applied to the indebtedness involved.

If a person fails to answer the notice within the time prescribed by this section, it is lawful for the court, upon application of the department and after the time to answer the notice has expired, to render judgment by default against the person for the full amount claimed by the department in the notice to withhold and deliver, together with costs.

RCW 82.36.130 Delinquency--Tax warrant.

If any licensee is in default for more than ten days in the payment of any excise taxes or penalties thereon, the director shall issue a warrant directed to the sheriff of any county of the state commanding the sheriff to levy upon and sell the goods and chattels of the licensee, without exemption, found within the sheriff's jurisdiction, for the payment of the amount of such delinquency, with the added penalties and interest and the cost of executing the warrant, and to return such warrant to the director and to pay the director the money collected by virtue thereof within the time to be therein specified, which shall not be less than twenty nor more than sixty days from the date of the warrant. The sheriff to whom the warrant is directed shall proceed upon it in all respects and with like effect and in the same manner as prescribed by law in respect to executions issued against goods and chattels upon judgment by a court of record and shall be entitled to the same fees for the sheriff's services to be collected in the same manner.

RCW 82.36.140 State may pursue remedy against licensee or bond.

In a suit or action by the state on any bond filed with the director recovery thereon may be had without first having sought or exhausted its remedy against the licensee; nor shall the fact that the state has pursued, or is in the course of pursuing, any remedy against the licensee waive its right to collect the taxes, penalties, and interest by proceeding against such bond or against any deposit of money or securities made by the licensee.

Every licensee shall take a physical inventory of the petroleum products at least once during each calendar month and have the record of such inventory and of the other matters mentioned in this section available at all times for the inspection of the director. Every dealer purchasing motor vehicle fuel taxable under this chapter for the purpose of resale, shall maintain within this state, for a period of two years a record of motor vehicle fuels received, the amount of tax paid to the licensee as part of the purchase price, together with delivery tickets, invoices, and bills of lading, and such other records as the director shall require.

The director, or duly authorized agents, may make such examinations of the records, stocks, facilities, and equipment of any licensee, and service stations, and such other investigations as deemed necessary in carrying out the provisions of this chapter. If such

examinations or investigations disclose that any reports of licensees theretofore filed with the director pursuant to the requirements of this chapter have shown incorrectly the gallonage of motor vehicle fuel distributed or the tax accruing thereon, the director may make such changes in subsequent reports and payments of such licensees as deemed necessary to correct the errors disclosed.

Every such licensee or such other person not maintaining records in this state so that an audit of such records may be made by the director or a duly authorized representative shall be required to make the necessary records available to the director upon request and at a designated office within this state; or, in lieu thereof, the director or a duly authorized representative shall proceed to any out-of-state office at which the records are prepared and maintained to make such examination.

The cancellation shall become effective without further notice if within ten days from the mailing of the notice the licensee has not made good his or her default or delinquency.

The department may cancel any license issued to any licensee, such cancellation to become effective sixty days from the date of receipt of the written request of such licensee for cancellation thereof, and the department may cancel the license of any licensee upon investigation and sixty days notice mailed to the last known address of such licensee if the department ascertains and finds that the person to whom the license was issued is no longer engaged in business, and has not been so engaged for the period of six months prior to such cancellation. No license shall be canceled upon the request of any licensee unless the licensee, prior to the date of such cancellation, pays to the state all taxes imposed by the provisions of this chapter, together with all penalties accruing by reason of any failure on the part of the licensee to make accurate reports or pay said taxes and penalties.

In the event the license of any licensee is canceled, and in the further event that the licensee pays to the state all excise taxes due and payable by him or her upon the receipt, sale, or use of motor vehicle fuel, together with any and all penalties accruing by reason of any failure on the part of the licensee to make accurate reports or pay said taxes and penalties, the department shall cancel the bond filed by the licensee.

The director or authorized agents may at any time during normal business hours examine the records, stocks, facilities and equipment of any person engaged in the transportation of motor vehicle fuel within the state of Washington for the purpose of checking shipments or use of motor vehicle fuel, detecting diversions thereof or evasion of taxes on same in enforcing the provisions of this chapter.

RCW 82.36.230 Exemptions--Imports, exports, federal sales--Invoice--Certificate--Reporting.

The provisions of this chapter requiring the payment of taxes do not apply to motor vehicle fuel imported into the state in interstate or foreign commerce and intended to be sold while in interstate or foreign commerce, nor to motor vehicle fuel exported from this state by a licensee nor to any motor vehicle fuel sold by a licensee to the armed forces of the United States or to the national guard for use exclusively in ships or for export from this state. The licensee shall report such imports, exports and sales to the department at such times, on such forms, and in such detail as the department may require, otherwise the exemption granted in this section is null and void, and all fuel shall be considered distributed in this state fully subject to the provisions of this chapter. Each invoice covering exempt sales shall have the statement "Ex Washington Motor Vehicle Fuel Tax" clearly marked thereon.

To claim any exemption from taxes under this section on account of sales by a licensee of motor vehicle fuel for export, the purchaser shall obtain from the selling licensee, and such selling licensee must furnish the purchaser, an invoice giving such details of the sale for export as the department may require, copies of which shall be furnished the department and the entity

of the state or foreign jurisdiction of destination which is charged by the laws of that state or foreign jurisdiction with the control or monitoring, or both, of the sales or movement of motor vehicle fuel in that state or foreign jurisdiction. For the purposes of this section, motor vehicle fuel distributed to a federally recognized Indian tribal reservation located within the state of Washington is not considered exported outside this state.

To claim any refund of taxes previously paid on account of sales of motor vehicle fuel to the armed forces of the United States or to the national guard, the licensee shall be required to execute an exemption certificate in such form as shall be furnished by the department, containing a certified statement by an authorized officer of the armed forces having actual knowledge of the purpose for which the exemption is claimed. The provisions of this section exempting motor vehicle fuel sold to the armed forces of the United States or to the national guard from the tax imposed hereunder do not apply to any motor vehicle fuel sold to contractors purchasing such fuel either for their own account or as the agents of the United States or the national guard for use in the performance of contracts with the armed forces of the United States or the national guard.

The department may at any time require of any licensee any information the department deems necessary to determine the validity of the claimed exemption, and failure to supply such data will constitute a waiver of all right to the exemption claimed. The department is hereby empowered with full authority to promulgate rules and regulations and to prescribe forms to be used by licensees in reporting to the department so as to prevent evasion of the tax imposed by this chapter.

Upon request from the officials to whom are entrusted the enforcement of the motor vehicle fuel tax law of any other state, the District of Columbia, the United States, its territories and possessions, the provinces, or the Dominion of Canada, the department may forward to such officials any information which the department may have relative to the import or export of any motor vehicle fuel by any licensee: PROVIDED, That such governmental unit furnish like information to this state.

Only those foreign diplomatic and consular missions and their personnel which are determined by the United States department of state as eligible for the tax exemption, may claim this exemption under rules prescribed by the director.

Applications for refunds of excise tax shall be filed in the office of the director not later than the close of the last business day of a period thirteen months from the date of purchase of such motor fuel, and if not filed within this period the right to refund shall be forever barred, except that such limitation shall not apply to claims for loss or destruction of motor vehicle fuel as provided by the provisions of RCW 82.36.370. In lieu of the collection and refund of the tax on motor vehicle fuel used by a licensee in such a manner as would entitle a purchaser to claim refund under this chapter, credit may be given the licensee upon the licensee's tax return in the determination of the amount of the licensee's tax. Payment credits shall not be carried forward and applied to subsequent tax returns.

RCW 82.36.340 Examination of books and records.

The director may in order to establish the validity of any claim for refund require the claimant, or, in the case of a dealer filing a claim for refund as provided by RCW 82.36.305, the person to whom such fuel was sold, to furnish such additional proof of the validity of the claim as the director may determine, and may examine the books and records of the claimant or said person to whom the fuel was sold for such purpose. The records shall be sufficient to substantiate the accuracy of the claim and shall be in such form and contain such information as the director may require. The failure to maintain such records or to accede to a demand for an examination of such records may be deemed by the director as sufficient cause for denial of all right to the refund claimed on account of the transaction in question.

(2) A refund shall be made in the manner provided in this chapter or a credit given allowing for the excise tax paid or accrued on all motor vehicle fuel of five hundred gallons or more which is lost or destroyed, while applicant shall be the owner thereof, through leakage or other casualty except evaporation, shrinkage or unknown causes: PROVIDED, That the director shall be notified in writing as to the full circumstances surrounding such loss or destruction and the amount of the loss or destruction within thirty days from the day of discovery of such loss or destruction.

(3) Recovery for such loss or destruction under either subsection (1) or (2) must be susceptible to positive proof thereby enabling the director to conduct such investigation and require such information as the director may deem necessary.

In the event that the director is not satisfied that the fuel was lost or destroyed as claimed, wherefore required information or proof as required hereunder is not sufficient to substantiate the accuracy of the claim, the director may deem as sufficient cause the denial of all right relating to the refund or credit for the excise tax on motor vehicle fuel alleged to be lost or destroyed.

A motor vehicle fuel distributor, motor vehicle fuel importer, or motor vehicle fuel blender, under rules adopted by the department, is entitled to a refund of the tax paid on those

sales of motor vehicle fuel for which no consideration has been received from or on behalf of the purchaser and that has been declared to be worthless accounts receivable. The amount of tax refunded must not exceed the amount of tax paid by the motor vehicle fuel distributor, motor vehicle fuel importer, or motor vehicle fuel blender under this chapter. If the motor vehicle fuel distributor, motor vehicle fuel importer, or motor vehicle fuel blender subsequently collects any amount from the account declared worthless, the amount collected shall be apportioned between the charges for the fuel and tax thereon. The motor vehicle fuel tax collected must be returned to the department.

Failure to take such credit or claim such refund within the time prescribed in this section shall constitute waiver of any and all demands against this state on account of overpayment hereunder.

Except in the case of a fraudulent report or neglect or refusal to make a report every notice of additional tax, penalty or interest assessed hereunder shall be served on the licensee within five years from the date upon which such additional taxes became due.

RCW 82.36.900 Findings--1998 c 176.

The legislature finds and declares that:

(1) The health, safety, and welfare of the people of the state of Washington are dependent on the state's ability to properly collect the taxes enacted by the legislature;

(2) The current system for collecting special fuel taxes and motor vehicle fuel tax has allowed many parties to fraudulently evade paying the special fuel taxes and motor vehicle fuel tax due the state; and

(3) By changing the point of collection of the special fuel taxes and motor vehicle fuel tax from distributors to suppliers, the department of licensing will have fewer parties to collect tax from and enforcement will be enhanced, thus leading to greater revenues for the state.

RCW 82.38.010 Statement of purpose.

The purpose of this chapter is to supplement the Motor Vehicle Fuel Tax Act, chapter 82.36 RCW, by imposing a tax upon all fuels not taxed under said Motor Vehicle Fuel Tax Act used for the propulsion of motor vehicles upon the highways of this state.

[1979 c 40 § 1; 1971 ex.s. c 175 § 2.]

RCW 82.38.020 Definitions.

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Blended special fuel" means a mixture of undyed diesel fuel and another liquid, other than a de minimis amount of the liquid, that can be used as a fuel to propel a motor vehicle.

(2) "Blender" means a person who produces blended special fuel outside the bulk transfer-terminal system.

(3) "Bond" means a bond duly executed with a corporate surety qualified under chapter 48.28 RCW, which bond is payable to the state of Washington conditioned upon faithful performance of all requirements of this chapter, including the payment of all taxes, penalties, and other obligations arising out of this chapter.

(4) "Bulk transfer-terminal system" means the special fuel distribution system consisting of refineries, pipelines, vessels, and terminals. Special fuel in a refinery, pipeline, vessel, or terminal is in the bulk transfer-terminal system. Special fuel in the fuel tank of an engine, motor vehicle, or in a railcar, trailer, truck, or other equipment suitable for ground transportation is not in the bulk transfer-terminal system.

(5) "Bulk transfer" means a transfer of special fuel by pipeline or vessel.

(6) "Bulk storage" means the placing of special fuel into a receptacle other than the fuel supply tank of a motor vehicle.

(7) "Department" means the department of licensing.

(8) "Dyed special fuel user" means a person authorized by the internal revenue code to operate a motor vehicle on the highway using dyed special fuel, in which the use is not exempt from the special fuel tax.

(9) "Evasion" or "evade" means to diminish or avoid the computation, assessment, or payment of authorized taxes or fees through:

(a) A knowing: False statement; misrepresentation of fact; or other act of deception; or

(b) An intentional: Omission; failure to file a return or report; or other act of deception.

(10) "Export" means to obtain special fuel in this state for sales or distribution outside the state.

(11) "Highway" means every way or place open to the use of the public, as a matter of right, for the purpose of vehicular travel.

(12) "Import" means to bring special fuel into this state by a means of conveyance other than the fuel supply tank of a motor vehicle.

(13) "International fuel tax agreement licensee" means a special fuel user operating qualified motor vehicles in interstate commerce and licensed by the department under the international fuel tax agreement.

(14) "Lessor" means a person: (a) Whose principal business is the bona fide leasing or renting of motor vehicles without drivers for compensation to the general public; and (b) who maintains established places of business and whose lease or rental contracts require the motor vehicles to be returned to the established places of business.

(15) "Licensee" means a person holding a license issued under this chapter.

(16) "Motor vehicle" means a self-propelled vehicle designed for operation upon land utilizing special fuel as the means of propulsion.

(17) "Natural gas" means naturally occurring mixtures of hydrocarbon gases and vapors consisting principally of methane, whether in gaseous or liquid form.

(18) "Person" means a natural person, fiduciary, association, or corporation. The term "person" as applied to an association means and includes the partners or members thereof, and as applied to corporations, the officers thereof.

(19) "Position holder" means a person who holds the inventory position in special fuel, as reflected by the records of the terminal operator. A person holds the inventory position in special fuel if the person has a contractual agreement with the terminal for the use of storage facilities and terminating services at a terminal with respect to special fuel. "Position holder" includes a terminal operator that owns special fuel in their terminal.

(20) "Rack" means a mechanism for delivering special fuel from a refinery or terminal into a truck, trailer, railcar, or other means of nonbulk transfer.

(21) "Refiner" means a person who owns, operates, or otherwise controls a refinery.

(22) "Removal" means a physical transfer of special fuel other than by evaporation, loss, or destruction.

(23) "Special fuel" means and includes all combustible gases and liquids suitable for the generation of power for propulsion of motor vehicles, except that it does not include motor vehicle fuel as defined in chapter 82.36 RCW, nor does it include dyed special fuel as defined by federal regulations. However, if the federal regulations authorize dyed special fuel to be used in

highway vehicles, that usage is considered taxable under this chapter, unless otherwise exempted.

(24) "Special fuel distributor" means a person who acquires special fuel from a supplier, distributor, or licensee for subsequent sale and distribution.

(25) "Special fuel exporter" means a person who purchases special fuel in this state and directly exports the fuel by a means other than the bulk transfer-terminal system to a destination outside of the state.

(26) "Special fuel importer" means a person who imports special fuel into the state by a means other than the bulk transfer-terminal system. If the importer of record is acting as an agent, the person for whom the agent is acting is the importer. If there is no importer of record, the owner of the special fuel at the time of importation is the importer.

(27) "Special fuel supplier" means a person who holds a federal certificate issued under the internal revenue code and authorizes the person to tax-free transactions on special fuel in the bulk transfer-terminal system.

(28) "Special fuel user" means a person engaged in uses of special fuel that are not specifically exempted from the special fuel tax imposed under this chapter.

(29) "Terminal" means a special fuel storage and distribution facility that has been assigned a terminal control number by the internal revenue service, is supplied by pipeline or vessel, and from which reportable special fuel is removed at a rack.

(30) "Terminal operator" means a person who owns, operates, or otherwise controls a terminal.

(31) "Two-party exchange" or "buy-sell agreement" means a transaction in which taxable special fuel is transferred from one licensed supplier to another licensed supplier under an exchange or buy-sell agreement whereby the supplier that is the position holder agrees to deliver taxable special fuel to the other supplier or the other supplier's customer at the rack of the terminal at which the delivering supplier is the position holder.

RCW 82.38.030 Tax levied and imposed--Rate to be computed--Incidence--Allocation of proceeds.

(1) There is hereby levied and imposed upon special fuel users a tax at the rate computed in the manner provided in RCW 82.36.025 on each gallon of special fuel, or each one hundred cubic feet of compressed natural gas, measured at standard pressure and temperature.

(2) The tax imposed by subsection (1) of this section is imposed when:

(a) Special fuel is removed in this state from a terminal if the special fuel is removed at the rack unless the removal is to a licensed exporter for direct delivery to a destination outside of the state, or the removal is to a special fuel distributor for direct delivery to an international fuel tax agreement licensee under RCW 82.38.320;

(b) Special fuel is removed in this state from a refinery if either of the following applies:

(i) The removal is by bulk transfer and the refiner or the owner of the special fuel immediately before the removal is not a licensee; or

(ii) The removal is at the refinery rack unless the removal is to a licensed exporter for direct delivery to a destination outside of the state, or the removal is to a special fuel distributor for direct delivery to an international fuel tax agreement licensee under RCW 82.38.320;

(c) Special fuel enters into this state for sale, consumption, use, or storage if either of the following applies:

(i) The entry is by bulk transfer and the importer is not a licensee; or

(ii) The entry is not by bulk transfer;

(d) Special fuel is sold or removed in this state to an unlicensed entity unless there was a prior taxable removal, entry, or sale of the special fuel;

(e) Blended special fuel is removed or sold in this state by the blender of the fuel. The number of gallons of blended special fuel subject to tax is the difference between the total number of gallons of blended special fuel removed or sold and the number of gallons of previously taxed special fuel used to produce the blended special fuel;

(f) Dyed special fuel is used on a highway, as authorized by the internal revenue code, unless the use is exempt from the special fuel tax;

(g) Special fuel purchased by an international fuel tax agreement licensee under RCW 82.38.320 is used on a highway; and

(h) Special fuel is sold by a licensed special fuel supplier to a special fuel distributor, special fuel importer, or special fuel blender and the special fuel is not removed from the bulk transfer-terminal system.

(3) The tax imposed by this chapter, if required to be collected by the licensee, is held in trust by the licensee until paid to the department, and a licensee who appropriates or converts the tax collected to his or her own use or to any use other than the payment of the tax to the extent that the money required to be collected is not available for payment on the due date as prescribed in this chapter is guilty of a felony, or gross misdemeanor in accordance with the theft and anticipatory provisions of Title 9A RCW. A person, partnership, corporation, or corporate officer who fails to collect the tax imposed by this section, or who has collected the tax and fails to pay it to the department in the manner prescribed by this chapter, is personally liable to the state for the amount of the tax.

The tax under RCW 82.38.030, if not previously imposed and paid, must be paid over to the department by special fuel users and persons licensed under the international fuel tax agreement or other fuel tax reciprocity agreements entered into with the state of Washington, on the use of special fuel to operate motor vehicles on the highways of this state, unless the use is exempt from the tax under this chapter.

[1998 c 176 § 52.]

RCW 82.38.035 Remittance of tax.

(1) A licensed supplier shall remit tax on special fuel to the department as provided in RCW 82.38.030(2)(a). On a two-party exchange, or buy-sell agreement between two licensed suppliers, the receiving exchange partner or buyer shall remit the tax.

(2) A refiner shall remit tax to the department on special fuel removed from a refinery as provided in RCW 82.38.030(2)(b).

(3) An importer shall remit tax to the department on special fuel imported into this state as provided in RCW 82.38.030(2)(c).

(4) A blender shall remit tax to the department on the removal or sale of blended special fuel as provided in RCW 82.38.030(2)(e).

(5) A dyed special fuel user shall remit tax to the department on the use of dyed special fuel as provided in RCW 82.38.030(2)(f).

[2001 c 270 § 7; 1998 c 176 § 53.]

RCW 82.38.045 Liability of terminal operator for remittance.

A terminal operator is jointly and severally liable for remitting the tax imposed under RCW 82.38.030(1) if, at the time of removal:

(1) The position holder with respect to the special fuel is a person other than the terminal operator and is not a licensee;

(2) The terminal operator is not a licensee;

(3) The position holder has an expired internal revenue service notification certificate issued under chapter 26, C.F.R. Part 48; or

(4) The terminal operator had reason to believe that information on the notification certificate was false.

[1998 c 176 § 54.]

RCW 82.38.047 Liability of terminal operator for remittance--Removal of special fuel in combination with indication that fuel is dyed or marked in accordance with internal revenue service requirements.

A terminal operator is jointly and severally liable for remitting the tax imposed under RCW 82.38.030(1) if, in connection with the removal of special fuel that is not dyed or marked in accordance with internal revenue service requirements, the terminal operator provides a person with a bill of lading, shipping paper, or similar document indicating that the special fuel is dyed or marked in accordance with internal revenue service requirements.

[1998 c 176 § 55.]

RCW 82.38.050 Tax liability on leased motor vehicles.

Except as otherwise provided in this chapter, every special fuel user shall be liable for the tax on special fuel used in motor vehicles leased to the user for thirty days or more and operated on the highways of this state to the same extent and in the same manner as special fuel used in his own motor vehicles and operated on the highways of this state: PROVIDED, That a lessor who is engaged regularly in the business of leasing or renting for compensation motor vehicles and equipment he owns without drivers to carriers or other lessees for interstate operation, may be deemed to be the special fuel user when he supplies or pays for the special fuel consumed in such vehicles, and such lessor may be issued a license as a special fuel user when application and bond have been properly filed with and approved by the department for such license. Any lessee may exclude motor vehicles of which he or she is the lessee from reports and liabilities pursuant to this chapter, but only if the motor vehicles in question have been leased from a lessor holding a valid special fuel user's license.

Every such lessor shall file with the application for a special fuel user's license one copy of the lease form or service contract the lessor enters into with the various lessees of the lessor's motor vehicles. When the special fuel user's license has been secured, such lessor shall make and assign to each motor vehicle leased for interstate operation a photocopy of such license to be carried in the cab compartment of the motor vehicle and on which shall be typed or printed on the back the unit or motor number of the motor vehicle to which it is assigned and the name of the lessee. Such lessor shall be responsible for the proper use of such photocopy of the license issued and its return to the lessor with the motor vehicle to which it is assigned.

The lessor shall be responsible for fuel tax licensing and reporting, as required by this chapter, on the operation of all motor vehicles leased to others for less than thirty days.

Severability--1990 c 250: See note following RCW 46.16.301.

RCW 82.38.060 Tax computation on mileage basis.

In the event the tax on special fuel imported into this state in the fuel supply tanks of motor vehicles for taxable use on Washington highways can be more accurately determined on a mileage basis the department is authorized to approve and adopt such basis. When a special fuel user imports special fuel into or exports special fuel from the state of Washington in the fuel supply tanks of motor vehicles, the amount of special fuel consumed in such vehicles on Washington highways shall be deemed to be such proportion of the total amount of such special fuel consumed in his entire operations within and without this state as the total number of miles traveled on the public highways within this state bears to the total number of miles traveled within and without the state. The department may also adopt such mileage basis for determining the taxable use of special fuel used in motor vehicles which travel regularly over prescribed courses on and off the highways within the state of Washington. In the absence of records showing the number of miles actually operated per gallon of special fuel consumed, fuel

consumption shall be calculated at the rate of one gallon for every: (1) Four miles traveled by vehicles over forty thousand pounds gross vehicle weight; (2) seven miles traveled by vehicles twelve thousand one to forty thousand pounds gross vehicle weight; (3) ten miles traveled by vehicles six thousand one to twelve thousand pounds gross vehicle weight; and (4) sixteen miles traveled by vehicles six thousand pounds or less gross vehicle weight.

RCW 82.38.065 Dyed special fuel use--Authorization, license required--Imposition of tax.

A person may not operate or maintain a motor vehicle on a public highway of this state with dyed special fuel in the fuel supply tank unless the use is authorized by the internal revenue code and the person is the holder of an uncanceled dyed special fuel user license issued to him or her by the department. The special fuel tax set forth in RCW 82.38.030 is imposed on users of dyed special fuel authorized by the internal revenue code to operate on-highway motor vehicles using dyed special fuel, unless the use is exempt from the special fuel tax.

[1998 c 176 § 56.]

RCW 82.38.066 Dyed special fuel--Requirements--Marking--Notice.

(1) Special fuel that is dyed satisfies the dyeing requirements of this chapter if it meets the dyeing requirements of the internal revenue service, including, but not limited to, requirements respecting type, dosage, and timing.

(2) Marking must meet the marking requirements of the internal revenue service.

(3) As required by the internal revenue service, notice is required with respect to dyed special fuel. A notice stating "DYED DIESEL FUEL, NONTAXABLE USE ONLY, PENALTY FOR TAXABLE USE" must be:

(a) Provided by the terminal operator to a person who receives dyed special fuel at a terminal rack of that terminal operator;

(b) Provided by a seller of dyed special fuel to its buyer if the special fuel is located outside the bulk transfer-terminal system and is not sold from a retail pump posted in accordance with the requirements of this subsection; or

(c) Posted by a seller on a retail pump where it sells dyed special fuel for use by its buyer.

[1998 c 176 § 57.]

RCW 82.38.070 Credit for sales for which no consideration was received--Report--Adjustment.

A special fuel supplier is entitled to a credit of the tax paid over to the department on those sales of special fuel for which the supplier has received no consideration from or on behalf of the purchaser. The amount of the tax credit shall not exceed the amount of tax imposed by this

chapter on such sales. If a credit has been granted under this section, any amounts collected for application against the accounts on which such a credit is based shall be reported on a subsequent return filed after such collection, and the amount of credit received by the supplier based upon the collected amount shall be returned to the department. In the event the credit has not been paid, the amount of the credit requested by the supplier shall be adjusted by the department to reflect the decrease in the amount on which the claim is based.

Notes:

Severability--1990 c 250: See note following RCW 46.16.301.

RCW 82.38.071 Refund for worthless accounts receivable--Rules--Apportionment after receipt.

A special fuel distributor, special fuel importer, or special fuel blender, under rules adopted by the department, is entitled to a refund of the tax paid on those sales of special fuel for which no consideration has been received from or on behalf of the purchaser and that have been declared to be worthless accounts receivable. The amount of the tax refunded must not exceed the amount of tax paid by the special fuel distributor, special fuel importer, or special fuel blender paid under this chapter. If the special fuel distributor, special fuel importer, or special fuel blender subsequently collects any amount from the account declared worthless, the amount collected shall be apportioned between the charges for the fuel and tax thereon. The special fuel tax collected must be returned to the department.

[1998 c 176 § 59.]

RCW 82.38.075 Natural gas, propane--Annual license fee in lieu of special fuel tax for use in motor vehicles--Schedule--Decal or other identifying device.

In order to encourage the use of nonpolluting fuels, an annual license fee in lieu of the tax imposed by RCW 82.38.030 shall be imposed upon the use of natural gas as defined in this chapter or on liquified petroleum gas, commonly called propane, which is used in any motor vehicle, as defined in RCW 46.04.320, which shall be based upon the following schedule as adjusted by the formula set out below:

VEHICLE TONNAGE (GVW)	FEE
0 - 6,000	\$ 45
6,001 - 10,000	\$ 45
10,001 - 18,000	\$ 80
18,001 - 28,000	\$110
28,001 - 36,000	\$150
36,001 and above	\$250

To determine the actual annual license fee imposed by this section for a registration year, the appropriate dollar amount set out in the above schedule shall be multiplied by the motor vehicle fuel tax rate in cents per gallon as established by RCW 82.36.025 effective on July 1st of the preceding calendar year and the product thereof shall be divided by 12 cents.

The department of licensing, in addition to the foregoing fee, shall charge a further fee of five dollars as a handling charge for each license issued.

The director of licensing shall be authorized to prorate the vehicle tonnage fee so that the annual license required by this section will correspond with the staggered vehicle licensing system.

A decal or other identifying device issued upon payment of these annual fees shall be displayed as prescribed by the department as authority to purchase this fuel.

Persons selling or dispensing natural gas or propane may not sell or dispense this fuel for their own use or the use of others into tanks of vehicles powered by this fuel which do not display a valid decal or other identifying device as provided in this section.

Vehicles registered in jurisdictions outside the state of Washington are exempt from this section.

Any person selling or dispensing natural gas or propane into the tank of a motor vehicle powered by this fuel, except as prescribed in this chapter, is subject to the penalty provisions of this chapter.

Notes:

Intent--1998 c 115 §§ 6 and 7: "It is the intent of the legislature that leaded racing fuel be exempted from payment of the motor vehicle fuel tax, as provided in RCW 82.38.081, since it is illegal for use on the public highways of the state under federal law. The legislature further intends that leaded racing fuel be subject to the retail sales and use taxes under chapters 82.08 and 82.12 RCW and that the revenue collected will be earmarked as provided in RCW 82.32.394." department authorizing the person to engage in that business:

- (a) Special fuel supplier;
- (b) Special fuel distributor;
- (c) Special fuel exporter;
- (d) Special fuel importer;
- (e) Special fuel blender;
- (f) Dyed special fuel user; or
- (g) International fuel tax agreement licensee.

(2) A person engaged in more than one activity for which a license is required must have a separate license classification for each activity, but a special fuel supplier is not required to obtain a separate license classification for any other activity for which a license is required.

(3) Special fuel users operating motor vehicles in interstate commerce having two axles and a gross vehicle weight or registered gross vehicle weight not exceeding twenty-six thousand pounds are not required to be licensed. Special fuel users operating motor vehicles in interstate commerce having two axles and a gross vehicle weight or registered gross vehicle weight exceeding twenty-six thousand pounds, or having three or more axles regardless of weight, or a combination of vehicles, when the combination exceeds twenty-six thousand pounds gross vehicle weight, must comply with the licensing and reporting requirements of this chapter. RCW 82.38.100 Trip permits--Fees--Tax--Distributions.

(1) Any special fuel user operating a motor vehicle into this state for commercial purposes may make application for a trip permit that shall be good for a period of three consecutive days beginning and ending on the dates specified on the face of the permit issued, and only for the vehicle for which it is issued.

(2) Every permit shall identify, as the department may require, the vehicle for which it is issued and shall be completed in its entirety, signed, and dated by the operator before operation of the vehicle on the public highways of this state. Correction of data on the permit such as dates, vehicle license number, or vehicle identification number invalidates the permit. A violation of, or a failure to comply with, this subsection is a gross misdemeanor.

(3) For each permit issued, there shall be collected a filing fee of one dollar, an administrative fee of ten dollars, and an excise tax of nine dollars. Such fees and tax shall be in lieu of the special fuel tax otherwise assessable against the permit holder for importing and using special fuel in a motor vehicle on the public highways of this state, and no report of mileage shall be required with respect to such vehicle. Trip permits will not be issued if the applicant has

outstanding fuel taxes, penalties, or interest owing to the state or has had a special fuel license revoked for cause and the cause has not been removed.

(4) Blank permits may be obtained from field offices of the department of transportation, Washington state patrol, department of licensing, or other agents appointed by the department. The department may appoint county auditors or businesses as agents for the purpose of selling trip permits to the public. County auditors or businesses so appointed may retain the filing fee collected for each trip permit to defray expenses incurred in handling and selling the permits.

(5) A surcharge of five dollars is imposed on the issuance of trip permits. The portion of the surcharge paid by motor carriers must be deposited in the motor vehicle fund for the purpose of supporting vehicle weigh stations, weigh-in-motion programs, and the commercial vehicle information systems and networks program. The remaining portion of the surcharge must be deposited in the motor vehicle fund for the purpose of supporting congestion relief programs. All other fees and excise taxes collected by the department for trip permits shall be credited and deposited in the same manner as the special fuel tax collected under this chapter and shall not be subject to exchange, refund, or credit.

RCW 82.38.110 Application for license--Federal certificate of registry--Investigation--Fee--Penalty for false statement--Bond or security.

(1) Application for a license issued under this chapter shall be made to the department. The application shall be filed upon a form prepared and furnished by the department and shall contain such information as the department deems necessary.

(2) Every application for a special fuel license, other than an application for a dyed special fuel user or international fuel tax agreement license, must contain the following information to the extent it applies to the applicant:

(a) Proof as the department shall require concerning the applicant's identity, including but not limited to his or her fingerprints or those of the officers of a corporation making the application;

(b) The applicant's form and place of organization including proof that the individual, partnership, or corporation is licensed to do business in this state;

(c) The qualification and business history of the applicant and any partner, officer, or director;

(d) The applicant's financial condition or history including a bank reference and whether the applicant or any partner, officer, or director has ever been adjudged bankrupt or has an unsatisfied judgment in a federal or state court;

(e) Whether the applicant has been adjudged guilty of a crime that directly relates to the business for which the license is sought and the time elapsed since the conviction is less than ten years, or has suffered a judgment within the preceding five years in a civil action involving fraud, misrepresentation, or conversion and in the case of a corporation or partnership, all directors, officers, or partners.

(3) An applicant for a license as a special fuel importer must list on the application each

state, province, or country from which the applicant intends to import fuel and, if required by the state, province, or country listed, must be licensed or registered for special fuel tax purposes in that state, province, or country.

(4) An applicant for a license as a special fuel exporter must list on the application each state, province, or country to which the exporter intends to export special fuel received in this state by means of a transfer outside the bulk transfer-terminal system and, if required by the state, province, or country listed, must be licensed or registered for special fuel tax purposes in that state, province, or country.

(5) An applicant for a license as a special fuel supplier must have a federal certificate of registry that is issued under the internal revenue code and authorizes the applicant to enter into federal tax-free transactions on special fuel in the terminal transfer system.

(6) After receipt of an application for a license, the director shall conduct an investigation to determine whether the facts set forth are true. The director shall require a fingerprint record check of the applicant through the Washington state patrol criminal identification system and the federal bureau of investigation before issuance of a license. The results of the background investigation including criminal history information may be released to authorized department personnel as the director deems necessary. The department shall charge a license holder or license applicant a fee of fifty dollars for each background investigation conducted.

(7) An applicant who makes a false statement of a material fact on the application may be prosecuted for false swearing as defined by RCW 9A.72.040.

(8) A special fuel license may not be issued to any person or continued in force unless such person has furnished bond, as defined in RCW 82.38.020, in such form as the department may require, to secure his or her compliance with this chapter, and the payment of any and all taxes, interest, and penalties due and to become due hereunder. The requirement of furnishing a bond may be waived: (a) For special fuel distributors who only deliver special fuel into the fuel tanks of marine vessels; (b) for dyed special fuel users; (c) for persons issued licenses under the international fuel tax agreement; or (d) for licensed special fuel distributors who, upon determination by the department, have sufficient resources, assets, other financial instruments, or other means to adequately make payments on the estimated monthly motor vehicle fuel tax payments, penalties, and interest arising out of this chapter. The department shall adopt rules to administer this section.

(9) The department may require a licensee to post a bond if the licensee, after having been licensed, has failed to file timely reports or has failed to remit taxes due, or when an investigation or audit indicates problems severe enough that the department, in its discretion, determines that a bond is required to protect the interests of the state. The department may also adopt rules prescribing conditions that, in the department's discretion, require a bond to protect the interests of the state.

(10) The total amount of the bond or bonds required of any licensee shall be equivalent to three times the estimated monthly fuel tax, determined in such manner as the department may deem proper: PROVIDED, That those licensees having held a special fuel license for five or more years without having said license suspended or revoked by the department shall be permitted to reduce the amount of their bond to twice the estimated monthly tax liability:

PROVIDED FURTHER, That the total amount of the bond or bonds shall never be less than five hundred dollars nor more than one hundred thousand dollars.

(11) An application for a dyed special fuel user license must be made to the department. The application must be filed upon a form prescribed by the department and contain such information as the department deems necessary.

(12) An application for an international fuel tax agreement license must be made to the department. The application must be filed upon a form prescribed by the department and contain such information as the department may require.

RCW 82.38.120 Issuance of license--Refusal--Inspection of records--Posting--Display--Duration--Transferability.

Upon receipt and approval of an application and bond, if required, the department shall issue a license to the applicant. However, the department may refuse to issue a license to any person:

(1) Who formerly held a license issued under chapter 82.36 or 82.42 RCW or this chapter which, prior to the time of filing for application, has been revoked for cause;

(2) Who is a subterfuge for the real party in interest whose license prior to the time of filing for application, has been revoked for cause;

(3) Who, as an individual licensee, or officer, director, owner, or managing employee of a nonindividual licensee, has had a special fuel license revoked for cause;

(4) Who has an unsatisfied debt to the state assessed under either chapter 82.36, 82.38, 82.42, 46.87, or 82.42 RCW;

(5) Who formerly held as an individual, officer, director, owner, managing employee of a nonindividual licensee, or subterfuge for a real party in interest, a license issued by the federal government or a state that allowed a person to buy or sell untaxed motor vehicle or special fuel, which license, before the time of filing for application, has been revoked for cause;

(6) Who pled guilty to or was convicted as an individual, officer, director, owner, or managing employee of a nonindividual licensee in this or any other state or in any federal jurisdiction of a gross misdemeanor or felony crime directly related to the business or has been subject to a civil judgment involving fraud, misrepresentation, conversion, or dishonesty, notwithstanding chapter 9.96A RCW;

(7) Who misrepresented or concealed a material fact in obtaining a license or in reinstatement thereof;

(8) Who violated a statute or administrative rule regulating fuel taxation or distribution;

(9) Who failed to cooperate with the department's investigations by:

(a) Not furnishing papers or documents;

(b) Not furnishing in writing a full and complete explanation regarding a matter under investigation by the department; or

(c) Not responding to subpoenas issued by the department, whether or not the recipient of the subpoena is the subject of the proceeding;

- (10) Who failed to comply with an order issued by the director; or
- (11) Upon other sufficient cause being shown.

Before such refusal, the department shall grant the applicant a hearing and shall grant the applicant at least twenty days written notice of the time and place thereof.

The department shall determine from the information shown in the application or other investigation the kind and class of license to be issued. For the purpose of considering any application for a special fuel license, the department may inspect, cause an inspection, investigate, or cause an investigation of the records of this or any other state or of the federal government to ascertain the veracity of the information on the application form and the applicant's criminal and licensing history.

All licenses shall be posted in a conspicuous place or kept available for inspection at the principal place of business of the owner thereof. License holders shall reproduce the license by photostat or other method and keep a copy on display for ready inspection at each additional place of business or other place of storage from which special fuel is sold, delivered or used and in each motor vehicle used by the license holder to transport special fuel purchased by him or her for resale, delivery or use.

Each special fuel license shall be valid until the expiration date if shown on the license, or until suspended or revoked for cause or otherwise canceled.

No special fuel license shall be transferable.

RCW 82.38.130 Revocation, suspension, cancellation, and surrender of license--Notice--Bond release, discharge--New or additional bond or surety.

The department may revoke the license of any licensee for any of the grounds constituting cause for denial of a license set forth in RCW 82.38.120 or for other reasonable cause. Before revoking such license the department shall notify the licensee to show cause within twenty days of the date of the notice why the license should not be revoked: PROVIDED, That at any time prior to and pending such hearing the department may, in the exercise of reasonable discretion, suspend such license.

The department shall cancel any special fuel license immediately upon surrender thereof by the holder.

Any surety on a bond furnished by a licensee as provided in this chapter shall be released and discharged from any and all liability to the state accruing on such bond after the expiration of forty-five days from the date which such surety shall have lodged with the department a written request to be released and discharged, but this provision shall not operate to relieve,

release, or discharge the surety from any liability already accrued or which shall accrue before the expiration of the forty-five day period. The department shall promptly, upon receiving any such request, notify the licensee who furnished the bond, and unless the licensee, on or before the expiration of the forty-five day period, files a new bond, in accordance with this section, the department forthwith shall cancel the special fuel dealer's or special fuel user's license.

The department may require a new or additional surety bond of the character specified in RCW 82.38.020(3) if, in its opinion, the security of the surety bond therefor filed by such licensee, shall become impaired or inadequate. Upon failure of the licensee to give such new or additional surety bond within forty-five days after being requested to do so by the department, or after he or she shall fail or refuse to file reports and remit or pay taxes at the intervals fixed by the department, the department forthwith shall cancel his or her license.

RCW 82.38.140 Special fuel records--Reports--Inspection.

(1) Every licensee and every person importing, manufacturing, refining, dealing in, transporting, blending, or storing special fuel in this state shall keep for a period of not less than five years open to inspection at all times during the business hours of the day to the department or its authorized representatives, a complete record of all special fuel purchased or received and all of such products sold, delivered, or used by them. Such records shall show:

- (a) The date of each receipt;
- (b) The name and address of the person from whom purchased or received;
- (c) The number of gallons received at each place of business or place of storage in the state of Washington;
- (d) The date of each sale or delivery;
- (e) The number of gallons sold, delivered, or used for taxable purposes;
- (f) The number of gallons sold, delivered, or used for any purpose not subject to the tax imposed in this chapter;
- (g) The name, address, and special fuel license number of the purchaser if the special fuel tax is not collected on the sale or delivery;
- (h) The inventories of special fuel on hand at each place of business at the end of each month.

(2)(a) All international fuel tax agreement licensees and dyed special fuel users authorized to use dyed special fuel on highway in vehicles licensed for highway operation shall maintain detailed mileage records on an individual vehicle basis.

(b) Such operating records shall show both on-highway and off-highway usage of special fuel on a daily basis for each vehicle.

(c) In the absence of operating records that show both on-highway and off-highway usage of special fuel on a daily basis for each vehicle, fuel consumption must be computed under RCW 82.38.060.

(3) The department may require a person other than a licensee engaged in the business of selling, purchasing, distributing, storing, transporting, or delivering special fuel to submit

periodic reports to the department regarding the disposition of the fuel. The reports must be on forms prescribed by the department and must contain such information as the department may require.

(4) Every person operating any conveyance for the purpose of hauling, transporting, or delivering special fuel in bulk shall have and possess during the entire time the person is hauling special fuel, an invoice, bill of sale, or other statement showing the name, address, and license number of the seller or consigner, the destination, name, and address of the purchaser or consignee, license number, if applicable, and the number of gallons. The person hauling such special fuel shall at the request of any law enforcement officer or authorized representative of the department, or other person authorized by law to inquire into, or investigate those types of matters, produce for inspection such invoice, bill of sale, or other statement and shall permit such official to inspect and gauge the contents of the vehicle.

RCW 82.38.150 Periodic tax reports--Forms--Filing.

For the purpose of determining the amount of liability for the tax herein imposed, and to periodically update license information, each licensee, other than a special fuel distributor, an international fuel tax agreement licensee, or a dyed special fuel user, shall file monthly tax reports with the department, on forms prescribed by the department.

Dyed special fuel users whose estimated yearly tax liability is two hundred fifty dollars or less, shall file a report yearly, and dyed special fuel users whose estimated yearly tax liability is more than two hundred fifty dollars, shall file reports quarterly. Special fuel users licensed under the international fuel tax agreement shall file reports quarterly. Special fuel distributors subject to the pollution liability insurance agency fee and reporting requirements shall remit pollution liability insurance agency returns and any associated payment due to the department annually.

The department shall establish the reporting frequency for each applicant at the time the special fuel license is issued. If it becomes apparent that any licensee is not reporting in accordance with the above schedule, the department shall change the licensee's reporting frequency by giving thirty days' notice to the licensee by mail to the licensee's address of record. A report shall be filed with the department even though no special fuel was used, or tax is due, for the reporting period. Each tax report shall contain a declaration by the person making the same, to the effect that the statements contained therein are true and are made under penalties of perjury, which declaration shall have the same force and effect as a verification of the report and is in lieu of such verification. The report shall show such information as the department may reasonably require for the proper administration and enforcement of this chapter. For counties within which an additional excise tax on special fuel has been levied by that jurisdiction under RCW 82.80.010, the report must show the quantities of special fuel sold, distributed, or withdrawn from bulk storage by the reporting dealer or user within the county's boundaries and the tax liability from its levy. A licensee shall file a tax report on or before the twenty-fifth day

of the next succeeding calendar month following the period to which it relates.

Subject to the written approval of the department, tax reports may cover a period ending on a day other than the last day of the calendar month. Taxpayers granted approval to file reports in this manner will file such reports on or before the twenty-fifth day following the end of the reporting period. No change to this reporting period will be made without the written authorization of the department.

If the final filing date falls on a Saturday, Sunday, or legal holiday the next secular or business day shall be the final filing date. Such reports shall be considered filed or received on the date shown by the post office cancellation mark stamped upon an envelope containing such report properly addressed to the department, or on the date it was mailed if proof satisfactory to the department is available to establish the date it was mailed.

The department, if it deems it necessary in order to insure payment of the tax imposed by this chapter, or to facilitate the administration of this chapter, has the authority to require the filing of reports and tax remittances at shorter intervals than one month if, in its opinion, an existing bond has become insufficient.

RCW 82.38.160 Computation and payment of tax--Remittance--Electronic funds transfer.

(1) The tax imposed by this chapter shall be computed by multiplying the tax rate per gallon provided in this chapter by the number of gallons of special fuel subject to the special fuel tax.

(2) A special fuel distributor shall remit tax on special fuel purchased from a special fuel supplier, and due to the state for that reporting period, to the special fuel supplier.

(3) At the election of the distributor, the payment of the special fuel tax owed on special fuel purchased from a supplier shall be remitted to the supplier on terms agreed upon between the distributor and the supplier or no later than two business days before the last business day of the following month. This election shall be subject to a condition that the distributor's remittances of all amounts of special fuel tax due to the supplier shall be paid by electronic funds transfer. The distributor's election may be terminated by the supplier if the distributor does not make timely payments to the supplier as required by this section. This section shall not apply if the distributor is required by the supplier to pay cash or cash equivalent for special fuel purchases.

(4) Except as provided in subsection (5) of this section, the tax return shall be accompanied by a remittance payable to the state treasurer covering the tax amount determined to be due for the reporting period.

(5) If the tax is paid by electronic funds transfer, the tax shall be paid on or before the

tenth calendar day of the month that is the second month immediately following the reporting period. When the reporting period is May, the tax shall be paid on the last state business day of June. If the tax is paid by electronic funds transfer and the reporting period ends on a day other than the last day of a calendar month as provided in RCW 82.38.150, the tax shall be paid on or before the last state business day of the thirty-day period following the end of the reporting period.

(6) The tax shall be paid by electronic funds transfer whenever the amount due is fifty thousand dollars or more.

RCW 82.38.165 Notice by supplier of distributor's failure to pay tax--License suspension--Notice to suppliers--Revocation or suspension upon continued noncompliance.

A special fuel supplier shall, no later than the twentieth day or next business day after the special fuel tax is due from the special fuel distributor under RCW 82.38.160(2), notify the department of the failure of a special fuel distributor to pay the full amount of the tax owed.

Upon notification and submission of satisfactory evidence by a special fuel supplier that a special fuel distributor has failed to comply with RCW 82.38.160(2), the department may suspend the license of the special fuel distributor.

Upon the suspension, the department shall immediately notify all special fuel suppliers that the authority of the special fuel distributor to purchase tax-deferred special fuel has been suspended and all subsequent purchases of special fuel by the special fuel distributor must be tax-paid at the time of removal.

If, after notification by the department, a special fuel supplier continues to sell tax-deferred special fuel to a special fuel distributor whose license is suspended, the special fuel supplier's license is subject to revocation or suspension under RCW 82.38.130. Furthermore, if notified of a license suspension, a special fuel supplier is liable for any unpaid special fuel tax owed on special fuel sold to a suspended special fuel distributor.

[1998 c 176 § 69.]

RCW 82.38.170 Civil and statutory penalties--Deficiency assessments--Interest--Mitigation of assessments--Reassessment petition, hearing--Notice--Cancellation of vehicle registrations.

(1) If any licensee fails to pay any taxes collected or due the state of Washington within the time prescribed by RCW 82.38.150 and 82.38.160, the licensee shall pay in addition to such tax a penalty of ten percent of the amount thereof.

(2) If it be determined by the department that the tax reported by any licensee is deficient it may proceed to assess the deficiency on the basis of information available to it and there shall be added to this deficiency a penalty of ten percent of the amount of the deficiency.

(3) If any licensee, whether or not he or she is licensed as such, fails, neglects, or refuses to file a special fuel tax report required under this chapter, the department may, on the basis of information available to it, determine the tax liability of the licensee for the period during which no report was filed, and to the tax as thus determined, the department shall add the penalty and interest provided in subsection (2) of this section. An assessment made by the department pursuant to this subsection or to subsection (2) of this section shall be presumed to be correct, and in any case where the validity of the assessment is drawn in question, the burden shall be on the person who challenges the assessment to establish by a fair preponderance of the evidence that it is erroneous or excessive as the case may be.

(4) If any licensee establishes by a fair preponderance of evidence that his or her failure to file a report or pay the proper amount of tax within the time prescribed was due to reasonable cause and was not intentional or willful, the department may waive the penalty prescribed in subsections (1), (2), and (3) of this section.

(5) If any licensee files a false or fraudulent report with intent to evade the tax imposed by this chapter, there shall be added to the amount of deficiency determined by the department a penalty equal to twenty-five percent of the deficiency, in addition to the penalty provided in subsection (2) of this section and all other penalties prescribed by law.

(6) Any special fuel tax, penalties, and interest payable under this chapter shall bear interest at the rate of one percent per month, or fraction thereof, from the first day of the calendar month after the amount or any portion thereof should have been paid until the date of payment: PROVIDED, That the department may waive the interest when it determines that the cost of processing the collection of the interest exceeds the amount of interest due.

(7) Except in the case of violations of filing a false or fraudulent report, if the department deems mitigation of penalties and interest to be reasonable and in the best interests of carrying out the purpose of this chapter, it may mitigate such assessments upon whatever terms the department deems proper, giving consideration to the degree and extent of the lack of records and reporting errors. The department may ascertain the facts regarding recordkeeping and payment penalties in lieu of more elaborate proceedings under this chapter.

(8) Except in the case of a fraudulent report or of neglect or refusal to make a report, every deficiency shall be assessed under subsection (2) of this section within five years from the twenty-fifth day of the next succeeding calendar month following the reporting period for which the amount is proposed to be determined or within five years after the return is filed, whichever period expires the later.

(9) Any licensee against whom an assessment is made under the provisions of subsections (2) or (3) of this section may petition for a reassessment thereof within thirty days after service upon the licensee of notice thereof. If such petition is not filed within such thirty day period, the amount of the assessment becomes final at the expiration thereof.

If a petition for reassessment is filed within the thirty day period, the department shall reconsider the assessment and, if the licensee has so requested in his or her petition, shall grant such licensee an oral hearing and give the licensee ten days' notice of the time and place thereof. The department may continue the hearing from time to time. The decision of the department upon a petition for reassessment shall become final thirty days after service upon the licensee of

notice thereof.

Every assessment made by the department shall become due and payable at the time it becomes final and if not paid to the department when due and payable, there shall be added thereto a penalty of ten percent of the amount of the tax.

(10) Any notice of assessment required by this section shall be served personally or by certified or registered mail; if by mail, service shall be made by depositing such notice in the United States mail, postage prepaid addressed to the licensee at his or her address as the same appears in the records of the department.

(11) Any licensee who has had the licensee's special fuel license revoked shall pay a one hundred dollar penalty prior to the issuance of a new license.

(12) Any person who, upon audit or investigation by the department, is found to have not paid special fuel taxes as required by this chapter shall be subject to cancellation of all vehicle registrations for vehicles utilizing special fuel as a means of propulsion. Any unexpired Washington tonnage on the vehicles in question may be transferred to a purchaser of the vehicles upon application to the department who shall hold such tonnage in its custody until a sale of the vehicle is made or the tonnage has expired.

(13) Unless expressly authorized by the internal revenue code and this chapter, a person using dyed special fuel in the propulsion of a motor vehicle upon the highways of this state is subject to a civil penalty of ten dollars for each gallon of dyed special fuel placed into the supply tank of the motor vehicle, or one thousand dollars, whichever is greater. The civil penalty collected as a result of this subsection must be deposited in the motor vehicle fund. The penalties must be collected and administered under this chapter.

(14) For the purposes of enforcement of this section, the Washington state patrol or other commercial vehicle safety alliance-certified officers may inspect, collect, and secure samples of special fuel used in the propulsion of a vehicle operated upon the highways of this state to detect the presence of dye or other chemical compounds.

(15) The Washington state patrol shall, by January 1, 1999, develop and implement procedures for collection, analysis, and storage of fuel samples collected under this chapter.

(16) RCW 43.05.110 does not apply to the civil penalties imposed under subsection (13) of this section.

RCW 82.38.180 Refunds and credits.

Any person who has paid a special fuel tax either directly or to the vendor from whom it was purchased may file a claim with the department for a refund of the tax so paid and shall be reimbursed and repaid the amount of:

(1) Any taxes previously paid on special fuel used for purposes other than for the propulsion of motor vehicles upon the public highways in this state.

(2) Any taxes previously paid on special fuel exported for use outside of this state. Special fuel carried from this state in the fuel tank of a motor vehicle is deemed to be exported from this state. Special fuel distributed to a federally recognized Indian tribal reservation located within the state of Washington is not considered exported outside this state.

(3) Any tax, penalty, or interest erroneously or illegally collected or paid.

(4) Any taxes previously paid on all special fuel which is lost or destroyed, while applicant shall be the owner thereof, through fire, lightning, flood, wind storm, or explosion.

(5) Any taxes previously paid on all special fuel of five hundred gallons or more which is lost or destroyed while applicant shall be the owner thereof, through leakage or other casualty except evaporation, shrinkage, or unknown causes.

(6) Any taxes previously paid on special fuel that is inadvertently mixed with dyed special fuel.

Recovery for such loss or destruction under either subsection (4), (5), or (6) of this section must be susceptible to positive proof thereby enabling the department to conduct such investigation and require such information as they may deem necessary. In the event that the department is not satisfied that the fuel was lost, destroyed, or contaminated as claimed because information or proof as required hereunder is not sufficient to substantiate the accuracy of the claim, they may deem such as sufficient cause to deny all right relating to the refund or credit for the excise tax paid on special fuel alleged to be lost or destroyed.

No refund or claim for credit shall be approved by the department unless the gallons of special fuel claimed as nontaxable satisfy the conditions specifically set forth in this section and the nontaxable event or use occurred during the period covered by the refund claim. Refunds or claims for credit by sellers or users of special fuel shall not be allowed for anticipated nontaxable use or events.

RCW 82.38.182 Exemption--Special authorization to farmers, logging companies, construction companies for purchases--Application--Card lock facility use--Refund--Forms--Termination of election--Renewal--Records.

(1) Upon application, the department may give special authorization to farmers, logging companies, and construction companies to purchase nondyed special fuel directly into the supply tanks of nonhighway equipment or into portable slip tanks for nonhighway use without payment of the special fuel tax. Purchases of this nondyed special fuel must be made at a card lock facility owned and operated by a special fuel distributor who is required to pay the special fuel tax on nondyed special fuel delivered to the card lock facility and has elected to sell the special fuel in this manner. The election is solely at the discretion of the special fuel distributor and must be approved by the department.

(2) A special fuel distributor who has paid the special fuel tax on nondyed special fuel purchased by a holder of a special authorization may file a claim for refund of the special fuel

tax paid. A claim for refund of the special fuel tax paid under this section is allowed only if all the following apply:

(a) Special fuel tax was paid by the distributor on the nondyed special fuel to which the claim relates and the claim is supported by an invoice or invoices showing such payment;

(b) The special fuel distributor sold the special fuel to a holder of a valid special authorization issued by the department;

(c) The claim contains the name and special authorization number of each purchaser and the number of gallons sold to the purchaser;

(d) The claim contains a statement that the special fuel distributor has not included the amount of the tax in the sale price of the nondyed special fuel and has not collected the special fuel tax from the purchaser; and

(e) The claim contains a statement that the special fuel covered by the claim did not contain visible evidence of dye.

(3) Each claim for refund under this section must be made on a form prescribed by the department and must be for a period of not less than one week.

(4) The department may terminate the election of a special fuel distributor if the special fuel distributor fails to comply with this section.

(5) The department shall require a holder of a special authorization to submit a request at least once every two years for renewal of the special authorization upon forms supplied by the department. The department shall prescribe the information to be submitted by the special authorization holder and shall determine whether the special authorization shall continue.

(6) For any special fuel purchased under this special authorization, a special authorization holder shall retain records required under RCW 82.38.190 for refund submittals for three years following the purchase date of the fuel.

(7) Notwithstanding the special provisions provided under this section, the special authorization holder is subject to all provisions of this chapter that apply to refund claims.

RCW 82.38.185 Refunds--Tax paid purchased by exempt person--Application.

A licensee, other than a special fuel exporter, is entitled to a refund of the special fuel tax previously paid on special fuel which has been purchased from the licensee by a person who is exempt from payment of the special fuel tax imposed by this chapter. Application for the refund shall be accompanied by an invoice or proof satisfactory to the department documenting each sale wherein the purchaser was exempt from the special fuel tax. Claims for refunds shall be made under this chapter.

[1998 c 176 § 73.]

RCW 82.38.190 Claim of refund or credit.

(1) Claims under RCW 82.38.180 shall be filed with the department on forms prescribed by the department and shall show the date of filing and the period covered in the claim, the

number of gallons of special fuel used for purposes subject to tax refund, and such other facts and information as may be required. Every such claim shall be supported by an invoice or invoices issued to or by the claimant, as may be prescribed by the department, and such other information as the department may require. The requirement to provide invoices may be waived for small refund amounts, as determined by the department. Claims for refund of special fuel tax must be for at least twenty dollars.

(2) Any amount determined to be refundable by the department under RCW 82.38.180 shall first be credited on any amounts then due and payable from a person to whom the refund is due, and the department shall then certify the balance thereof to the state treasurer, who shall thereupon draw his or her warrant for the certified amount to the person.

(3) No refund or credit shall be approved by the department unless a written claim for refund or credit stating the specific grounds upon which the claim is founded is filed with the department:

(a) Within thirteen months from the date of purchase or from the last day of the month following the close of the reporting period for which the refundable amount or credit is due with respect to refunds or credits allowable under RCW 82.38.180 (1), (2), (4), and (5), and if not filed within this period the right to refund shall be forever barred.

(b) Within five years from the last day of the month following the close of the reporting period for which the overpayment is due with respect to the refunds or credits allowable under RCW 82.38.180(3). The department shall refund any amount paid that has been verified by the department to be more than ten dollars over the amount actually due for the reporting period. Payment credits shall not be carried forward and applied to subsequent tax returns for a person licensed under this chapter.

(4) Within thirty days after disallowing any claim in whole or in part, the department shall serve written notice of its action on the claimant.

(5) Interest shall be paid upon any refundable amount or credit due under RCW 82.38.180(3) at the rate of one percent per month from the last day of the calendar month following the reporting period for which the refundable amount or credit is due.

The interest shall be paid:

(a) In the case of a refund, to the last day of the calendar month following the date upon which the person making the overpayment, if he or she has not already filed a claim, is notified by the department that a claim may be filed or the date upon which the claim is approved by the department, whichever date is earlier.

(b) In the case of a credit, to the same date as that to which interest is computed on the tax or amount against which the credit is applied.

If the department determines that any overpayment has been made intentionally or by reason of carelessness, it shall not allow any interest thereon.

(6) The department shall pay interest of one percent on any refund payable under RCW 82.38.180 (1), (2), or (6) that is issued more than thirty state business days after the receipt of a claim properly filed and completed in accordance with this section. After the end of the thirty business-day period, additional interest shall accrue at the rate of one percent on the amount payable for each thirty calendar-day period, until the refund is issued.

(7) No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action or proceeding in any court against this state or against any officer of the state to prevent or enjoin the collection under this chapter of any tax or any amount of tax required to be collected.

RCW 82.38.200 Suits for recovery of taxes illegally or erroneously collected.

(1) No suit or proceeding shall be maintained in any court for the recovery of any amount alleged to have been overpaid under RCW 82.38.180 unless a claim for refund or credit has been duly filed pursuant to RCW 82.38.190.

(2) Within ninety days after the mailing of the notice of the department's action upon a claim filed pursuant to RCW 82.38.190, the claimant may bring an action against the department on the grounds set forth in the claim in a court of competent jurisdiction in Thurston county for the recovery of the whole or any part of the amount with respect to which the claim has been disallowed. Failure to bring action within the time specified constitutes a waiver of any demand against the state on account of the alleged overpayments.

(3) If the department fails to mail notice of action on a claim within six months after the claim is filed, the claimant may, prior to the mailing of notice by the department of its intention on the claim, consider the claim disallowed and bring an action against the department, on the grounds set forth in the claim for the recovery of the whole or any part of the amount claimed as an overpayment.

(4) If judgment is rendered for the plaintiff, the amount of the judgment shall first be credited on any special fuel tax due and payable from the plaintiff. The balance of the judgment shall be refunded to the plaintiff.

(5) In any judgment, interest shall be allowed at the rate of twelve percent per annum upon the amount found to have been illegally collected from the date of payment of the amount to the date of allowance of credit on account of the judgment or to a date preceding the date of the refund warrant, but not more than thirty days, the date to be determined by the department.

RCW 82.38.210 Tax lien--Filing.

If any licensee liable for the remittance of tax imposed by this chapter fails to pay the same, the amount thereof, including any interest, penalty, or addition to such tax, together with any costs that may accrue in addition thereto, shall be a lien in favor of the state upon all franchises, property, and rights to property, whether real or personal, then belonging to or thereafter acquired by such person, whether such property is employed by such person for

personal or business use or is in the hands of a trustee, or receiver, or assignee for the benefit of creditors, from the date the taxes were due and payable, until the amount of the lien is paid or the property sold in payment thereof. The lien shall have priority over any lien or encumbrance whatsoever, except the lien of other state taxes having priority by law, and except that such lien shall not be valid as against any bona fide mortgagee, pledgee, judgment creditor, or purchaser whose rights have attached prior to the time the department has filed and recorded notice of such lien as hereinafter provided.

In order to avail itself of the lien hereby created, the department shall file with any county auditor a statement of claim and lien specifying the amount of delinquent taxes, penalties and interest claimed by the department. From the time of filing for record, the amount required to be paid shall constitute a lien upon all franchises, property and rights to property, whether real or personal, then belonging to or thereafter acquired by such person in the county. Any lien as provided in this section may also be filed in the office of the secretary of state. Filing in the office of the secretary of state shall be of no effect, however, until the lien or copy thereof shall have been filed with the county auditor in the county where the property is located. When a lien is filed in compliance herewith and with the secretary of state, such filing shall have the same effect as if the lien had been duly filed for record in the office of the auditor in each county of this state.

RCW 82.38.220 Delinquency--Notice to debtors--Transfer or disposition of property, credits, or debts prohibited--Lien--Answer.

In the event any licensee is delinquent in the payment of any obligation imposed under this chapter, the department may give notice of the amount of such delinquency by registered or certified mail to all persons having in their possession or under their control any credits or other personal property belonging to the licensee or owing any debts to the licensee, at the time of the receipt by them of such notice. Any person so notified shall neither transfer nor make other disposition of such credits, personal property, or debts until the department consents to a transfer or other disposition. All persons so notified must, within twenty days after receipt of the notice, advise the department of any and all such credits, personal property, or debts in their possession, under their control or owing by them, as the case may be, and shall immediately deliver such credits, personal property, or debts to the department or its duly authorized representative to be applied to the indebtedness involved.

Upon service, the notice and order to withhold and deliver constitutes a continuing lien on property of the taxpayer. The department shall include in the caption of the notice to withhold and deliver "continuing lien." The effective date of a notice to withhold and deliver served under this section is the date of service of the notice.

If a person fails to answer the notice within the time prescribed by this section, it is lawful for the court, upon application of the department and after the time to answer the notice has expired, to render judgment by default against the party named in the notice to withhold and deliver for the full amount claimed by the department in the notice to withhold and deliver,

together with costs.

RCW 82.38.230 Delinquency--Seizure and sale of property--Notice--Distribution of excess.

Whenever any licensee is delinquent in the payment of any obligation imposed hereunder, and such delinquency continues after notice and demand for payment by the department, the department shall proceed to collect the amount due from the licensee in the following manner: The department shall seize any property subject to the lien of said excise tax, penalty, and interest and thereafter sell it at public auction to pay said obligation and any and all costs that may have been incurred on account of the seizure and sale. Notice of such intended sale and the time and place thereof shall be given to such delinquent licensee and to all persons appearing of record to have an interest in such property. The notice shall be given in writing at least ten days before the date set for the sale by enclosing it in an envelope addressed to the licensee at the licensee's address as the same appears in the records of the department and, in the case of any person appearing of record to have an interest in such property, addressed to such person at his or her last known residence or place of business, and depositing such envelope in the United States mail, postage prepaid. In addition, the notice shall be published for at least ten days before the date set for the sale in a newspaper of general circulation published in the county in which the property seized is to be sold. If there is no newspaper of general circulation in such county, the notice shall be posted in three public places in the county for a period of ten days. The notice shall contain a description of the property to be sold, together with a statement of the amount due under this chapter, the name of the licensee and the further statement that unless such amount is paid on or before the time fixed in the notice the property will be sold in accordance with law.

The department shall then proceed to sell the property in accordance with the law and the notice, and shall deliver to the purchaser a bill of sale or deed which shall vest title in the purchaser. If upon any such sale the moneys received exceed the amount due to the state under this chapter from the delinquent licensee, the excess shall be returned to the licensee and the licensee's receipt obtained for the excess. If any person having an interest in or lien upon the property has filed with the department prior to such sale, notice of such interest or lien, the department shall withhold payment of any such excess to the licensee pending a determination of the rights of the respective parties thereto by a court of competent jurisdiction. If for any reason the receipt of the licensee is not available, the department shall deposit such excess with the state treasurer as trustee for the licensee or the licensee's heirs, successors, or assigns: PROVIDED, That prior to making any seizure of property as provided for in this section, the department may first serve upon the licensee's bondsman a notice of the delinquency, with a demand for the payment of the amount due.

RCW 82.38.235 Assessments--Warrant--Lien--Filing fee--Writs of execution and garnishment.

Whenever any assessment shall have become final in accordance with the provisions of this chapter, the department may file with the clerk of any county within the state a warrant in the amount of the assessment of taxes, penalties plus interest and a filing fee under RCW 36.18.012(10). The clerk of the county wherein the warrant is filed shall immediately designate a superior court cause number for such warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant, the name of the licensee mentioned in the warrant, the amount of the tax, penalties, interest and filing fee and the date when such warrant was filed. The aggregate amount of such warrant as docketed shall become a lien upon the title to, and interest in all real and personal property of named person against whom the warrant is issued, the same as a judgment in a civil case duly docketed in the office of such clerk. Such warrant so docketed shall be sufficient to support the issuance of writs of execution and writs of garnishment in favor of the state in the manner provided by law in the case of civil judgment, wholly or partially unsatisfied. The clerk of the court shall be entitled to a filing fee under RCW 36.18.012(10), which shall be added to the amount of the warrant.

Whenever any licensee is delinquent in the payment of any obligation hereunder the department may transmit notice of such delinquency to the attorney general who shall at once proceed to collect by appropriate legal action the amount due the state from the licensee. In any suit brought to enforce the rights of the state hereunder, a certificate by the department showing the delinquency shall be prima facie evidence of the amount of the obligation, of the delinquency thereof and of compliance by the department with all provisions of this chapter relating to such obligation.

[1997 c 183 § 9.]

RCW 82.38.250 Remedies cumulative.

The fact that such books, papers, records and equipment are not maintained in this state at the time of demand shall not cause the department to lose any right of such examination under this chapter when and where such records become available.

The department or its authorized representative is further empowered to investigate the disposition of special fuel by any person where the department has reason to believe that untaxed special fuel has been diverted to a use subject to the taxes imposed by this chapter without said taxes being paid in accordance with the requirements of this chapter.

For the purpose of enforcing the provisions of this chapter it shall be presumed that all special fuel delivered to service stations as well as all special fuel otherwise received into storage and dispensing equipment designed to fuel motor vehicles is delivered into the fuel supply tanks of motor vehicles and consumed in the propulsion of motor vehicles on the highways of this state, unless the contrary is established by satisfactory evidence.

The department shall, upon request from the officials to whom are entrusted the enforcement of the special fuel tax law of any other state, the District of Columbia, the United States, its territories and possessions, the provinces or the Dominion of Canada, forward to such officials any information which he or she may have relative to the receipt, storage, delivery, sale, use, or other disposition of special fuel by any licensee if the other state or states furnish like information to this state.

Returns required by this chapter, exclusive of schedules, itemized statements and other supporting evidence annexed thereto, shall at all reasonable times be open to the public.

preceding the fourth calendar quarter of the previous year, the number of gallons consumed outside the state of Washington as reported on the licensee's international fuel tax agreement tax returns must have been equal to at least twenty percent of the nondyed special fuel gallons, including fuel used on-road and off-road, purchased by the licensee in the state of Washington, as reported on the accompanying schedules required under subsection (1) of this section;

(b) The licensee must have been licensed under the provisions of the international fuel tax agreement during each of the four consecutive calendar quarters immediately preceding the fourth calendar quarter of the previous year; and

(c) The licensee has not violated the reporting requirements of this section.

(3) A special fuel distributor who sells special fuel under the special authorization provisions of this section is not liable for the special fuel tax on the fuel. By the fifteenth day of the month following the month in which the fuel was sold, the special fuel distributor shall report to the department, the name and special authorization number of the purchaser and the number of gallons sold for each purchase of such special fuel, and any other information as the department may require. The special fuel supplier will report such sales, in a manner prescribed by the department, at the time the special fuel supplier submits the monthly tax report.

(4) A supplier selling special fuel under the provisions of this section shall not be responsible for taxes due for special fuel purchased under the provisions of this section.

(5) An international fuel tax agreement licensee who qualifies for a special authorization under this section for calendar year 1999 is not subject to the special fuel user requirements of RCW 82.38.289.

RCW 82.41.010 Purpose.

It is the purpose of this chapter to simplify the confusing, unnecessarily duplicative, and

burdensome motor fuel use tax licensing, reporting, and remittance requirements imposed on motor carriers involved in interstate commerce by authorizing the state of Washington to participate in a multistate motor fuel tax agreement for the administration, collection, and enforcement of those states' motor fuel use taxes.

[1982 c 161 § 1.]

RCW 82.41.020 Definitions.

As used in this chapter unless the context clearly requires otherwise:

- (1) "Department" means the department of licensing;
- (2) "Motor fuel" means all combustible gases and liquids used for the generation of power for propulsion of motor vehicles;
- (3) "Motor carrier" means an individual, partnership, firm, association, or private or public corporation engaged in interstate commercial operation of motor vehicles, any part of which is within this state or any other state which is party to an agreement under this chapter;
- (4) "State" means a state, territory, or possession of the United States, the District of Columbia, a foreign country, or a state or province of a foreign country;
- (5) "Base state" means the state in which the motor carrier is legally domiciled, or in the case of a motor carrier who has no legal domicile, the state from or in which the motor carrier's vehicles are most frequently dispatched, garaged, serviced, maintained, operated, or otherwise controlled;
- (6) "Agreement" means a motor fuel tax agreement under this chapter;
- (7) "Licensee" means a motor carrier who has been issued a fuel tax license under a motor fuel tax agreement.

[1982 c 161 § 2.]

RCW 82.41.030 Motor fuel tax cooperative agreement authorized--Prohibition.

The department may enter into a motor fuel tax cooperative agreement with another state or states which provides for the administration, collection, and enforcement of each state's motor fuel taxes on motor fuel used by motor carriers. The agreement shall not contain any provision which exempts any motor vehicle, owner, or operator from complying with the laws, rules, and regulations pertaining to vehicle licensing, size, weight, load, or operation of motor vehicles upon the public highways of this state.

[1982 c 161 § 3.]

RCW 82.41.040 Amount of tax collected for this state.

The amount of the tax imposed and collected on behalf of this state under an agreement entered into under this chapter shall be determined as provided in chapter 82.38 RCW.

[1995 c 274 § 26; 1982 c 161 § 4.]

RCW 82.41.050 Provisions of agreement.

An agreement entered into under this chapter may provide for:

- (1) Defining the classes of motor vehicles upon which taxes are to be collected under the agreement;
- (2) Establishing methods for base state fuel tax licensing, license revocation, and tax collection from motor carriers on behalf of the states which are parties to the agreement;
- (3) Establishing procedures for the granting of credits or refunds on the purchase of excess tax-paid fuel;
- (4) Defining conditions and criteria relative to bonding requirements, including criteria for exemption from bonding;
- (5) Establishing tax reporting periods not to exceed one calendar quarter, and tax report due dates not to exceed one calendar month after the close of the reporting period;
- (6) Penalties and interest for filing of tax reports after the due dates prescribed by the agreement;
- (7) Establishing procedures for forwarding of fuel taxes, penalties, and interest collected on behalf of another state to that state;
- (8) Recordkeeping requirements for licensees; and
- (9) Any additional provisions which will facilitate the administration of the agreement.

[1982 c 161 § 5.]

RCW 82.41.060 Credits--Refunds.

Any licensee purchasing more tax-paid motor fuel in this state than the licensee uses in this state during the course of a reporting period shall be permitted a credit against future tax liability for the excess tax-paid fuel purchased. Upon request, this credit may be refunded to the licensee by the department in accordance with the agreement.

[1982 c 161 § 6.]

RCW 82.41.070 Audits.

The agreement may require the department to perform audits of licensees, or persons required to be licensed, based in this state to determine whether motor fuel taxes to be collected under the agreement have been properly reported and paid to each state party to the agreement. The agreement may authorize other states to perform audits on licensees, or persons required to be licensed, based in their states on behalf of the state of Washington and forward the audit findings to the department. Such findings may be served upon the licensee or such other person in the same manner as audits performed by the department.

The agreement shall not preclude the department from auditing the records of any person who has used motor fuels in this state. Any licensee or person required to be licensed from whom the department has requested records shall make the records available at the location

designated by the department or may request the department to audit such records at that licensee's or person's place of business. If the place of business is located outside this state, the department may require the licensee or such other person to reimburse the department for authorized per diem and travel expenses.

[1982 c 161 § 7.]

RCW 82.41.080 Investigatory power.

The department may initiate and conduct investigations as may be reasonably necessary to establish the existence of any alleged violations of or noncompliance with this chapter or any rules issued hereunder.

For the purpose of any investigation or proceeding under this chapter, the director or any officer designated by the director may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, agreements, or other documents or records which the director deems relevant or material to the inquiry.

In case of contumacy by or refusal to obey a subpoena issued to any person, any court of competent jurisdiction, upon application by the director, may issue to that person an order requiring him to appear before the director, or the officer designated by the director, to produce testimony or other evidence touching the matter under investigation or in question. The failure to obey an order of the court may be punishable by contempt.

[1982 c 161 § 8.]

RCW 82.41.090 Appeal procedures.

The agreement shall specify procedures by which a licensee may appeal a license revocation or audit assessment by the department. Such appeal procedures shall be in accordance with chapters 34.05 and 82.38 RCW.

[1982 c 161 § 9.]

RCW 82.41.100 Exchange of information.

The agreement may require each state to forward to other states any information available which relates to the acquisition, sale, use, or movement of motor fuels by any licensee or person required to be licensed. The department may further disclose to other states information which relates to the persons, offices, motor vehicles and other real and personal property of persons licensed or required to be licensed under the agreement.

[1982 c 161 § 10.]

RCW 82.41.110 Construction and application.

This chapter shall be applied and construed to effectuate its general purpose to make uniform the law with respect to the subject of this chapter among states enacting it for the purpose of participating in a multistate motor fuel tax agreement.

[1982 c 161 § 11.]

RCW 82.41.120 Implementing rules required.

The department shall adopt such rules as are necessary to implement this chapter and any agreement entered into under this chapter.

[1982 c 161 § 12.]

The tax required by this chapter, to be collected by the seller, is held in trust by the seller until paid to the department, and a seller who appropriates or converts the tax collected to his or her own use or to any use other than the payment of the tax to the extent that the money required to be collected is not available for payment on the due date as prescribed in this chapter is guilty of a felony, or gross misdemeanor in accordance with the theft and anticipatory provisions of Title 9A RCW. Notes:

Severability--Effective date--1982 1st ex.s. c 25: See notes following RCW 82.42.010.

RCW 82.42.025 Computation of aircraft fuel tax rate.

(1) During the fifth month of each fiscal half-year ending June 30th and December 31st of each year, the department of licensing shall compute an aircraft fuel tax rate to the nearest one-half cent per gallon of aircraft fuel by multiplying three percent times the weighted average retail sales price of aircraft fuel, per gallon, sold within the state in the third month of the fiscal half-year. The department shall determine the weighted average retail sales price of aircraft fuel by state-wide sampling and survey techniques designed to reflect these prices for the third month of the fiscal half-year. The department shall establish reasonable guidelines for its sampling and survey methods.

(2) The excise tax rate computed under subsection (1) of this section or five cents per gallon, whichever is greater, shall apply to the sale, distribution, or use of aircraft fuel beginning the fiscal half-year following computation of the rate and shall remain in effect for each succeeding fiscal half-year until a subsequent computation requires a change in the rate. For the period May 1, 1983, through June 30, 1983, the aircraft fuel tax shall be five cents per gallon.

The provision of RCW 82.42.020 imposing the payment of an excise tax on each gallon of aircraft fuel sold, delivered or used in this state shall not apply to aircraft fuel sold for export, nor to aircraft fuel used for the following purposes: (1) The operation of aircraft when such use is by any air carrier or supplemental air carrier operating under a certificate of public

convenience and necessity under the provisions of the Federal Aviation Act of 1958, Public Law 85-726, as amended; (2) the operation of aircraft for testing or experimental purposes; (3) the operation of aircraft when such operation is for the training of crews in Washington state for purchasers of aircraft who are certified air carriers; and (4) the operation of aircraft in the operations of a local service commuter: PROVIDED, That the director's determination as to a particular activity for which aircraft fuel is used as being an exemption under this section, or otherwise, shall be final.

The director may require such records to be kept, and for such periods of time, as deemed necessary for the administration of this chapter, which records shall be available at all times for the director or his representative who may require a statement under oath as to the contents thereof.

The results of the background investigation including criminal history information may be released to authorized department personnel as the director deems necessary. The department shall charge a license holder or license applicant a fee of fifty dollars for each background investigation conducted.

An applicant who makes a false statement of a material fact on the application may be prosecuted for false swearing as defined by RCW 9A.72.040.

NOTES:

Reviser's note: See note following RCW 82.44.010.

Purpose--1998 c 321: "The purpose of this act is to reallocate the general fund portion of the state's motor vehicle excise tax revenues among the taxpayers, local governments, and the state's transportation programs. By reallocating motor vehicle excise taxes, the state revenue portion can be dedicated to increased transportation funding purposes. Since the general fund currently has a budget surplus, due to a strong economy, the legislature feels that this reallocation is an appropriate short-term solution to the state's transportation needs and is a first step in meeting longer-term transportation funding needs. These reallocated funds must be used to provide relief from traffic congestion, improve freight mobility, and increase traffic safety.

In reallocating general fund resources, the legislature also ensures that other programs funded from the general fund are not adversely impacted by the reallocation of surplus general fund revenues. The legislature also adopts this act to continue the general fund revenue and expenditure limitations contained in chapter 43.135 RCW after this one-time transfer of funds.

In order to develop a long-term and comprehensive solution to the state's transportation problems, a joint committee will be created to study the state's transportation needs and the appropriate sources of revenue necessary to implement the state's long-term transportation needs as provided in *section 22 of this act." RCW 82.44.120 Refunds, collections of erroneous amounts--Claims--False statement, penalty.

Whenever any person has paid a motor vehicle license fee, and together therewith has paid an excise tax imposed under the provisions of this chapter, and the director determines that the payor is entitled to a refund of the entire amount of the license fee as provided by law, then the payor shall also be entitled to a refund of the entire excise tax collected under the provisions of this chapter. In case the director determines that any person is entitled to a refund of only a part of the license fee so paid, the payor shall be entitled to a refund of the difference, if any, between the excise tax collected and that which should have been collected.

In case no claim is to be made for the refund of the license fee or any part thereof, but claim is made by any person that he or she has paid an erroneously excessive amount of excise tax, the department shall determine in the manner generally provided in this chapter the amount of such excess, if any, that has been paid and shall certify to the state treasurer that such person is entitled to a refund in such amount.

In any case where due to error, a person has been required to pay an excise tax pursuant to this chapter and a vehicle license fee pursuant to Title 46 RCW which amounts to an overpayment of ten dollars or more, such person shall be entitled to a refund of the entire amount of such overpayment, regardless of whether or not a refund of the overpayment has been requested. Conversely, if due to error, the department or its agents has failed to collect the full amount of the license fee and excise tax due, which underpayment is in the amount of ten dollars or more, the department shall charge and collect such additional amount as will constitute full payment of the tax.

Any claim for refund of an erroneously excessive amount of excise tax or overpayment of excise tax with a motor vehicle license fee must be filed with the director within three years after the claimed erroneous payment was made.

If the department approves the claim it shall notify the state treasurer to that effect, and

the treasurer shall make such approved refunds from the general fund and shall mail or deliver the same to the person entitled thereto.

Any person making any false statement under which he or she obtains any amount of refund to which he or she is not entitled under the provisions of this section is guilty of a gross misdemeanor.

NOTES:

Reviser's note: See note following RCW 82.44.010.

RCW 82.44.150 Apportionment and distribution of motor vehicle excise taxes generally.

(1) The director of licensing shall, on the twenty-fifth day of February, May, August, and November of each year, advise the state treasurer of the total amount of motor vehicle excise taxes imposed by *RCW 82.44.020(1) remitted to the department during the preceding calendar quarter ending on the last day of March, June, September, and December, respectively, except for those payable under *RCW 82.44.030, from motor vehicle owners residing within each municipality which has levied a tax under RCW 35.58.273, which amount of excise taxes shall be determined by the director as follows:

The total amount of motor vehicle excise taxes remitted to the department, except those payable under *RCW 82.44.020(2) and 82.44.030, from each county shall be multiplied by a

fraction, the numerator of which is the population of the municipality residing in such county, and the denominator of which is the total population of the county in which such municipality or portion thereof is located. The product of this computation shall be the amount of excise taxes from motor vehicle owners residing within such municipality or portion thereof. Where the municipality levying a tax under RCW 35.58.273 is located in more than one county, the above computation shall be made by county, and the combined products shall provide the total amount of motor vehicle excise taxes from motor vehicle owners residing in the municipality as a whole. Population figures required for these computations shall be supplied to the director by the office of financial management, who shall adjust the fraction annually.

(2) On the first day of the months of January, April, July, and October of each year, the state treasurer based upon information provided by the department shall, from motor vehicle excise taxes deposited in the transportation fund under RCW 82.44.110, make the following deposits:

(a) To the high capacity transportation account created in RCW 47.78.010, a sum equal to four and five-tenths percent of the special excise tax levied under RCW 35.58.273 by those municipalities authorized to levy a special excise tax within each county that has a population of one hundred seventy-five thousand or more and has an interstate highway within its borders; except that in a case of a municipality located in a county that has a population of one hundred seventy-five thousand or more that does not have an interstate highway located within its borders, that sum shall be deposited in the passenger ferry account;

(b) To the public transportation systems account created in RCW 82.44.180, for revenues distributed after June 30, 1999, within a county with a population of one million or more and a county with a population of from two hundred thousand to less than one million bordering a county with a population of one million or more with which it shares a border of more than five miles, a sum equal to 6.8688 percent of the special excise tax distributed under RCW 35.58.273; and

(c) To the public transportation systems account created in RCW 82.44.180, for revenues distributed after June 30, 1999, within counties not described in (b) of this subsection, a sum equal to 1.0534 percent of the special excise tax levied and collected under RCW 35.58.273.

(3) On the first day of the months of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, shall remit motor vehicle excise tax revenues imposed and collected under RCW 35.58.273 as follows:

(a) The amount required to be remitted by the state treasurer to the treasurer of any municipality levying the tax shall not exceed in any calendar year the amount of locally-generated tax revenues, excluding (i) the excise tax imposed under RCW 35.58.273 for the purposes of this section, which shall have been budgeted by the municipality to be collected in such calendar year for any public transportation purposes including but not limited to operating costs, capital costs, and debt service on general obligation or revenue bonds issued for these purposes; and (ii) the sales and use tax equalization distributions provided under RCW 82.14.046; and

(b) In no event may the amount remitted in a single calendar quarter exceed the amount collected on behalf of the municipality under RCW 35.58.273 during the calendar quarter next

preceding the immediately preceding quarter, excluding the sales and use tax equalization distributions provided under RCW 82.14.046.

(4) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (3) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year's budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (3) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (3) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year excluding the sales and use tax equalization distributions provided under RCW 82.14.046. At the time of the next fiscal audit of each municipality, the state auditor shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

(5) The motor vehicle excise taxes imposed under RCW 35.58.273 and required to be remitted under this section and RCW 82.14.046 shall be remitted without legislative appropriation.

(6) Any municipality levying and collecting a tax under RCW 35.58.273 which does not have an operating, public transit system or a contract for public transportation services in effect within one year from the initial effective date of the tax shall return to the state treasurer all motor vehicle excise taxes received under subsection (3) of this section.

RCW 82.44.190 Transportation infrastructure account--Deposits and distributions--Subaccounts.

The transportation infrastructure account is hereby created in the transportation fund. Public and private entities may deposit moneys in the transportation infrastructure account from federal, state, local, or private sources. Proceeds from bonds or other financial instruments sold to finance surface transportation projects from the transportation infrastructure account shall be deposited into the account. Principal and interest payments made on loans from the transportation infrastructure account shall be deposited into the account. Moneys in the account shall be available for purposes specified in RCW 82.44.195. Expenditures from the transportation infrastructure account shall be subject to appropriation by the legislature. To the extent required by federal law or regulations promulgated by the United States secretary of transportation, the state treasurer is authorized to create separate subaccounts within the

transportation infrastructure account.

Notes:

Effective date--1996 c 262: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 29, 1996]." [1996 c 262 § 5.]

RCW 82.44.195 Transportation infrastructure account--Highway infrastructure account--Finding--Intent--Purpose--1996 c 262.

The legislature finds that new financing mechanisms are necessary to provide greater flexibility and additional funds for needed transportation infrastructure projects in the state. The creation of a financing mechanism, like the one contained in section 350 of the national highway system designation act of 1995, P.L. 104-59, relating to a state infrastructure bank program, will enable the state and local jurisdictions to use federal, state, local, or private funds to construct surface transportation projects for various modes of transportation. It is the intent of the legislature that accounts be created in the state treasury and dedicated funding sources be established to generate revenue to support transportation projects financed with the proceeds of bonds or other financial instruments issued against this dedicated revenue and other revenues which may be available to these accounts. P.L. 104-59 allows the deposit of certain federal highway and transit funds into these accounts to leverage other forms of investment in transportation infrastructure by expanding the eligible uses of the federal funds. Other public and private entities may also deposit funds into these accounts to leverage transportation investments. The purpose of chapter 262, Laws of 1996 is to provide, from these accounts, authorization for loans, grants, or other means of assistance, in amounts equal to all or part of the cost, to public or private entities building surface transportation facilities in this state. It is the further intent of the legislature that projects representing critical mobility or economic development needs and involving various transportation modes and jurisdictions receive top priority in the use of these funds. Funds from the accounts created in chapter 262, Laws of 1996 may be used to support the issuance of public or private debt, to provide credit enhancement for such debt, for direct loans to public or private entities, or for other purposes necessary to facilitate investment in surface transportation facilities in this state.

If any provision of this chapter relating either to the apportionment or allocation of the revenue derived from the excise tax thereby imposed, or to any appropriation made by this chapter, be adjudged unconstitutional, such adjudication shall not be held to render unconstitutional or ineffectual the remaining portions of said chapter or any part thereof: PROVIDED, HOWEVER, That except as otherwise hereinabove provided by this section, if any

Savings--Audits, assessments, and refunds--Disposition of certain funds--1982 c 176; 1980 c 154:

"Chapter 154, Laws of 1980 shall not be construed as invalidating, abating, or otherwise affecting any existing right acquired or any liability or obligation incurred under the provisions of the statutes amended or repealed, nor any process, proceeding, or judgment involving the assessment of any property or the levy or collection of any tax thereunder, nor the validity of any certificate of delinquency, tax deed or other instrument of sale or other proceeding thereunder, nor any criminal or civil proceeding instituted thereunder, nor any rule, regulation or order promulgated thereunder, nor any administrative action taken thereunder: PROVIDED, That the department of revenue may conduct audits, make assessments, and grant refunds under RCW 82.45.100 and 82.45.150 with respect to any sale. Funds received by the county treasurer as payment of a tax liability incurred under a statute repealed by chapter 154, Laws of 1980 shall be paid and accounted for as provided in RCW 82.45.180." [1982 c 176 § 3; 1980 c 154 § 15.]

Purpose--1980 c 154: "It is the intent of this 1980 act to simplify the bookkeeping procedures for the state treasurer's office and for the school districts but not to impact the amount of revenues covered by this 1980 act to the various counties and other taxing districts." [1980 c 154 § 16.]

Effective dates--1980 c 154: "Sections 17, 18, and 19 of this act are necessary for the immediate

preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately. The remainder of this act shall take effect on September 1, 1981." [1980 c 154 § 20.]

Severability--1980 c 154: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1980 c 154 § 21.]

RCW 82.45.010 "Sale" defined.

(1) As used in this chapter, the term "sale" shall have its ordinary meaning and shall include any conveyance, grant, assignment, quitclaim, or transfer of the ownership of or title to real property, including standing timber, or any estate or interest therein for a valuable consideration, and any contract for such conveyance, grant, assignment, quitclaim, or transfer, and any lease with an option to purchase real property, including standing timber, or any estate or interest therein or other contract under which possession of the property is given to the purchaser, or any other person at the purchaser's direction, and title to the property is retained by the vendor as security for the payment of the purchase price. The term also includes the grant, assignment, quitclaim, sale, or transfer of improvements constructed upon leased land.

(2) The term "sale" also includes the transfer or acquisition within any twelve-month period of a controlling interest in any entity with an interest in real property located in this state for a valuable consideration. For purposes of this subsection, all acquisitions of persons acting in concert shall be aggregated for purposes of determining whether a transfer or acquisition of a controlling interest has taken place. The department of revenue shall adopt standards by rule to determine when persons are acting in concert. In adopting a rule for this purpose, the department shall consider the following:

(a) Persons shall be treated as acting in concert when they have a relationship with each other such that one person influences or controls the actions of another through common ownership; and

(b) When persons are not commonly owned or controlled, they shall be treated as acting in concert only when the unity with which the purchasers have negotiated and will consummate the transfer of ownership interests supports a finding that they are acting as a single entity. If the acquisitions are completely independent, with each purchaser buying without regard to the identity of the other purchasers, then the acquisitions shall be considered separate acquisitions.

(3) The term "sale" shall not include:

(a) A transfer by gift, devise, or inheritance.

(b) A transfer of any leasehold interest other than of the type mentioned above.

(c) A cancellation or forfeiture of a vendee's interest in a contract for the sale of real property, whether or not such contract contains a forfeiture clause, or deed in lieu of foreclosure of a mortgage.

(d) The partition of property by tenants in common by agreement or as the result of a court decree.

(e) The assignment of property or interest in property from one spouse to the other in accordance with the terms of a decree of divorce or in fulfillment of a property settlement agreement.

(f) The assignment or other transfer of a vendor's interest in a contract for the sale of real property, even though accompanied by a conveyance of the vendor's interest in the real property involved.

(g) Transfers by appropriation or decree in condemnation proceedings brought by the United States, the state or any political subdivision thereof, or a municipal corporation.

(h) A mortgage or other transfer of an interest in real property merely to secure a debt, or the assignment thereof.

(i) Any transfer or conveyance made pursuant to a deed of trust or an order of sale by the court in any mortgage, deed of trust, or lien foreclosure proceeding or upon execution of a judgment, or deed in lieu of foreclosure to satisfy a mortgage or deed of trust.

(j) A conveyance to the federal housing administration or veterans administration by an authorized mortgagee made pursuant to a contract of insurance or guaranty with the federal housing administration or veterans administration.

(k) A transfer in compliance with the terms of any lease or contract upon which the tax as imposed by this chapter has been paid or where the lease or contract was entered into prior to the date this tax was first imposed.

(l) The sale of any grave or lot in an established cemetery.

(m) A sale by the United States, this state or any political subdivision thereof, or a municipal corporation of this state.

(n) A sale to a regional transit authority or public corporation under RCW 81.112.320 under a sale/leaseback agreement under RCW 81.112.300.

(o) A transfer of real property, however effected, if it consists of a mere change in identity or form of ownership of an entity where there is no change in the beneficial ownership. These include transfers to a corporation or partnership which is wholly owned by the transferor and/or the transferor's spouse or children: PROVIDED, That if thereafter such transferee corporation or partnership voluntarily transfers such real property, or such transferor, spouse, or children voluntarily transfer stock in the transferee corporation or interest in the transferee partnership capital, as the case may be, to other than (1) the transferor and/or the transferor's spouse or children, (2) a trust having the transferor and/or the transferor's spouse or children as the only beneficiaries at the time of the transfer to the trust, or (3) a corporation or partnership wholly owned by the original transferor and/or the transferor's spouse or children, within three years of the original transfer to which this exemption applies, and the tax on the subsequent transfer has not been paid within sixty days of becoming due, excise taxes shall become due and payable on the original transfer as otherwise provided by law.

(p)(i) A transfer that for federal income tax purposes does not involve the recognition of gain or loss for entity formation, liquidation or dissolution, and reorganization, including but not limited to nonrecognition of gain or loss because of application of section 332, 337, 351, 368(a)(1), 721, or 731 of the Internal Revenue Code of 1986, as amended.

(ii) However, the transfer described in (p)(i) of this subsection cannot be preceded or followed within a twelve-month period by another transfer or series of transfers, that, when combined with the otherwise exempt transfer or transfers described in (p)(i) of this subsection, results in the transfer of a controlling interest in the entity for valuable consideration, and in

which one or more persons previously holding a controlling interest in the entity receive cash or property in exchange for any interest the person or persons acting in concert hold in the entity. This subsection (3)(p)(ii) does not apply to that part of the transfer involving property received that is the real property interest that the person or persons originally contributed to the entity or when one or more persons who did not contribute real property or belong to the entity at a time when real property was purchased receive cash or personal property in exchange for that person or persons' interest in the entity. The real estate excise tax under this subsection (3)(p)(ii) is imposed upon the person or persons who previously held a controlling interest in the entity.

Findings--Construction--2000 2nd sp.s. c 4 §§ 18-30: See notes following RCW 81.112.300.

Intent--1999 c 209: "In chapter 25, Laws of 1993 sp. sess., the legislature found that transfer of ownership of entities can be equivalent to the sale of real property held by the entity. The legislature further found that all transfers of possession or use of real property should be subject to the same excise tax burdens.

The legislature intended to apply the real estate excise tax of chapter 82.45 RCW to transfers of entity ownership when the transfer of entity ownership is comparable to the sale of real property. The legislature intends to equate the excise tax burdens on all sales of real property and transfers of entity ownership essentially equivalent to a sale of real property under chapter 82.45 RCW." RCW 82.45.030 "Selling price," "total consideration paid or contracted to be paid," defined.

(1) As used in this chapter, the term "selling price" means the true and fair value of the property conveyed. If property has been conveyed in an arm's length transaction between unrelated persons for a valuable consideration, a rebuttable presumption exists that the selling price is equal to the total consideration paid or contracted to be paid to the transferor, or to another for the transferor's benefit.

(2) If the sale is a transfer of a controlling interest in an entity with an interest in real property located in this state, the selling price shall be the true and fair value of the real property owned by the entity and located in this state. If the true and fair value of the real property located in this state cannot reasonably be determined, the selling price shall be determined according to subsection (4) of this section.

(3) As used in this section, "total consideration paid or contracted to be paid" includes money or anything of value, paid or delivered or contracted to be paid or delivered in return for the sale, and shall include the amount of any lien, mortgage, contract indebtedness, or other incumbrance, either given to secure the purchase price, or any part thereof, or remaining unpaid on such property at the time of sale.

Total consideration shall not include the amount of any outstanding lien or incumbrance in favor of the United States, the state, or a municipal corporation for taxes, special benefits, or improvements.

(4) If the total consideration for the sale cannot be ascertained or the true and fair value of the property to be valued at the time of the sale cannot reasonably be determined, the market value assessment for the property maintained on the county property tax rolls at the time of the sale shall be used as the selling price.

RCW 82.45.032 Additional definitions.

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Real estate" or "real property" means any interest, estate, or beneficial interest in land or anything affixed to land, including the ownership interest or beneficial interest in any entity which itself owns land or anything affixed to land. The term includes used mobile homes, used park model trailers, used floating homes, and improvements constructed upon leased land.

(2) "Used mobile home" means a mobile home which has been previously sold at retail

and has been subjected to tax under chapter 82.08 RCW, or which has been previously used and has been subjected to tax under chapter 82.12 RCW, and which has substantially lost its identity as a mobile unit at the time of sale by virtue of its being fixed in location upon land owned or leased by the owner of the mobile home and placed on a foundation (posts or blocks) with fixed pipe connections with sewer, water, and other utilities.

(3) "Mobile home" means a mobile home as defined by RCW 46.04.302, as now or hereafter amended.

(4) "Park model trailer" means a park model trailer as defined in RCW 46.04.622.

(5) "Used floating home" means a floating home in respect to which tax has been paid under chapter 82.08 or 82.12 RCW.

(6) "Used park model trailer" means a park model trailer that has been previously sold at retail and has been subjected to tax under chapter 82.08 RCW, or that has been previously used and has been subjected to tax under chapter 82.12 RCW, and that has substantially lost its identity as a mobile unit by virtue of its being permanently sited in location and placed on a foundation of either posts or blocks with connections with sewer, water, or other utilities for the operation of installed fixtures and appliances.

(7) "Floating home" means a building on a float used in whole or in part for human habitation as a single-family dwelling, which is not designed for self propulsion by mechanical means or for propulsion by means of wind, and which is on the property tax rolls of the county in which it is located.

RCW 82.45.033 "Controlling interest" defined.

As used in this chapter, the term "controlling interest" has the following meaning:

(1) In the case of a corporation, either fifty percent or more of the total combined voting power of all classes of stock of the corporation entitled to vote, or fifty percent of the capital, profits, or beneficial interest in the voting stock of the corporation; and

(2) In the case of a partnership, association, trust, or other entity, fifty percent or more of the capital, profits, or beneficial interest in such partnership, association, trust, or other entity.

RCW 82.45.035 Determining selling price of leases with option to purchase--Mining

property--Payment, security when selling price not separately stated.

The state department of revenue shall provide by rule for the determination of the selling price in the case of leases with option to purchase, and shall further provide that the tax shall not be payable, where inequity will otherwise result, until and unless the option is exercised and accepted. A conditional sale of mining property in which the buyer has the right to terminate the contract at any time, and a lease and option to buy mining property in which the lessee-buyer has the right to terminate the lease and option at any time, shall be taxable at the time of execution only on the consideration received by the seller or lessor for execution of such contract, but the rule shall further provide that the tax due on any additional consideration paid by the buyer and received by the seller shall be paid to the county treasurer (1) at the time of termination, or (2) at the time that all of the consideration due to the seller has been paid and the transaction is completed except for the delivery of the deed to the buyer, or (3) at the time when the buyer unequivocally exercises an option to purchase the property, whichever of the three events occurs first.

The term "mining property" means property containing or believed to contain metallic minerals and sold or leased under terms which require the purchaser or lessor to conduct exploration or mining work thereon and for no other use. The term "metallic minerals" does not include clays, coal, sand and gravel, peat, gypsum, or stone, including limestone.

The state department of revenue shall further provide by rule for cases where the selling price is not separately stated or is not ascertainable at the time of sale, for the payment of the tax at a time when the selling price is ascertained, in which case suitable security may be required for payment of the tax, and may further provide for the determination of the selling price by an appraisal by the county assessor, based on the full and true market value, which appraisal shall be prima facie evidence of the selling price of the real property.

(2) The legislative authority of any county or any city may impose an excise tax on each sale of real property in the unincorporated areas of the county for the county tax and in the corporate limits of the city for the city tax at a rate not exceeding one-quarter of one percent of the selling price. However, revenues (a) pledged by such counties and cities to debt retirement prior to April 30, 1992, may continue to be used for that purpose until the original debt for which the revenues were pledged is retired, or (b) committed prior to April 30, 1992, by such counties or cities to a project may continue to be used for that purpose until the project is completed.

(3) In lieu of imposing the tax authorized in RCW 82.14.030(2), the legislative authority of any county or any city may impose an additional excise tax on each sale of real property in the unincorporated areas of the county for the county tax and in the corporate limits of the city for the city tax at a rate not exceeding one-half of one percent of the selling price.

(4) Taxes imposed under this section shall be collected from persons who are taxable by the state under chapter 82.45 RCW upon the occurrence of any taxable event within the unincorporated areas of the county or within the corporate limits of the city, as the case may be.

(5) Taxes imposed under this section shall comply with all applicable rules, regulations, laws, and court decisions regarding real estate excise taxes as imposed by the state under chapter 82.45 RCW.

Notes:

Legislative declaration--1994 c 272: "The legislature declares that, in section 13, chapter 49, Laws of 1982 1st ex. sess., effective July 1, 1982, its original intent in limiting the use of the proceeds of the tax authorized in RCW 82.46.010(2) to "local capital improvements" was to include in such expenditures the acquisition of real and personal property associated with such local capital improvements. Any such expenditures made by cities, towns, and counties on or after July 1, 1982, are hereby declared to be authorized and valid." [1994 c 272 § 2.]

The petitioner shall be notified of the identification number and ballot title within this ten-day period.

After this notification, the petitioner shall have thirty days in which to secure on petition forms the signatures of not less than fifteen percent of the registered voters of the county for county measures, or not less than fifteen percent of the registered voters of the city for city measures, and to file the signed petitions with the filing officer. Each petition form shall contain the ballot title and the full text of the measure to be referred. The filing officer shall verify the sufficiency of the signatures on the petitions. If sufficient valid signatures are properly submitted, the filing officer shall submit the referendum measure to the county or city voters at a general or special election held on one of the dates provided in RCW 29.13.010 as determined by the county legislative authority or city council, which election shall not take place later than one

hundred twenty days after the signed petition has been filed with the filing officer.

After April 22, 1983, the referendum procedure provided for in this section shall be the exclusive method for subjecting any county or city ordinance imposing a tax or increasing the rate under RCW 82.46.010(3) to a referendum vote.

Any county or city tax authorized under RCW 82.46.010(3) that has been imposed prior to April 22, 1983, is not subject to the referendum procedure provided for in this section.

(1) Subject to subsection (2) of this section, the legislative authority of any county may impose an additional excise tax on each sale of real property in the county at a rate not to exceed one percent of the selling price. The proceeds of the tax shall be used exclusively for the acquisition and maintenance of conservation areas.

The taxes imposed under this subsection shall be imposed in the same manner and on the same occurrences, and are subject to the same conditions, as the taxes under chapter 82.45 RCW, except:

The county may enforce the obligation through an action of debt against the purchaser or may foreclose the lien on the property in the same manner prescribed for the foreclosure of mortgages.

The tax shall take effect thirty days after the election at which the taxes are authorized.

(2) No tax may be imposed under subsection (1) of this section unless approved by a majority of the voters of the county voting thereon for a specified period and maximum rate after:

- (b) The filing of a petition proposing this action with the county auditor, which petition is signed by county voters at least equal in number to ten percent of the total number of voters in the county who voted at the last preceding general election.

The ballot proposition shall be submitted to the voters of the county at the next general election occurring at least sixty days after a petition is filed, or at any special election prior to this general election that has been called for such purpose by the county legislative authority.

(3) A plan for the expenditure of the excise tax proceeds shall be prepared by the county legislative authority at least sixty days before the election if the proposal is initiated by resolution of the county legislative authority, or within six months after the tax has been authorized by the voters if the proposal is initiated by petition. Prior to the adoption of this plan, the elected officials of cities located within the county shall be consulted and a public hearing shall be held to obtain public input. The proceeds of this excise tax must be expended in conformance with this plan.

(2) If after registration the department of revenue determines that the purchase price stated by the owner is not a reasonable representation of the true fair market value of a vessel at the time of purchase, the department of revenue shall appraise the vessel.

(3) If a vessel is homemade, the owner shall make a notarized declaration of fair market value. The fair market value of the vessel for the purposes of this chapter shall be the declared value, unless after registration the department of revenue determines that the declared value is not a reasonable representation of the true fair market value of the vessel in which case the department of revenue shall appraise the vessel.

(4) If the department of revenue appraises a vessel, the fair market value of the vessel for the purposes of this chapter shall be the appraised value. If the vessel has been registered before appraisal, the department of revenue shall refund any overpayment of tax to the owner or notify the owner of any additional tax due. The owner shall pay any additional tax due within thirty days after notification by the department.

(2) Any vessel owner having received a notice of denial of a petition or a notice of determination made for the owner's vessel under RCW 82.32.160 or 82.32.170 may appeal to the board of tax appeals as provided under RCW 82.03.190. In deciding a case appealed under this section, the board of tax appeals may require an independent appraisal of the vessel. The cost of the independent appraisal shall be apportioned between the department and the vessel owner as provided by the board.

RCW 82.49.065 Refunds, collections of erroneous amounts--Claims--Penalty for false

statement.

Whenever any person has paid a vessel license fee, and with the fee has paid an excise tax imposed under this chapter, and the director of licensing determines that the payor is entitled to a refund of the entire amount of the license fee as provided by law, then the payor shall also be entitled to a refund of the entire excise tax collected under this chapter together with interest at the rate specified in RCW 82.32.060. If the director determines that any person is entitled to a refund of only a part of the license fee paid, the payor shall be entitled to a refund of the difference, if any, between the excise tax collected and that which should have been collected together with interest at the rate specified in RCW 82.32.060. The state treasurer shall determine the amount of such refund by reference to the applicable excise tax schedule prepared by the department of revenue in cooperation with the department of licensing.

If no claim is to be made for the refund of the license fee, or any part of the fee, but claim is made by any person that he or she has paid an erroneously excessive amount of excise tax, the department of licensing shall determine in the manner generally provided in this chapter the amount of such excess, if any, that has been paid and shall certify to the state treasurer that the person is entitled to a refund in that amount together with interest at the rate specified in RCW 82.32.060.

If due to error a person has been required to pay an excise tax pursuant to this chapter and a license fee under chapter 88.02 RCW which amounts to an overpayment of ten dollars or more, such person shall be entitled to a refund of the entire amount of such overpayment, together with interest at the rate specified in RCW 82.32.060, regardless of whether a refund of the overpayment has been requested. If due to error the department or its agents has failed to collect the full amount of the license fee and excise tax due, which underpayment is in the amount of ten dollars or more, the department shall charge and collect such additional amount as will constitute full payment of the tax and any penalties or interest at the rate specified in RCW 82.32.050.

If the department approves the claim, it shall notify the state treasurer to that effect and the treasurer shall make such approved refunds and the other refunds provided for in this section from the general fund and shall mail or deliver the same to the person entitled to the refund.

Any person who makes a false statement under which he or she obtains a refund to which he or she is not entitled under this section is guilty of a gross misdemeanor.

TAXATION OF TRAVEL TRAILERS AND CAMPERS

RCW 82.50.425 Valuation of travel trailers and campers.

For the purpose of determining the tax under this chapter, the value of a travel trailer or camper is the manufacturer's base suggested retail price of the travel trailer or camper when first offered for sale as new, excluding any optional equipment, applicable federal excise taxes, state and local sales or use taxes, transportation or shipping costs, or preparatory or delivery costs, multiplied by the applicable percentage listed in this section based on the year of service.

If the manufacturer's base suggested retail price is unavailable or otherwise unascertainable at the time of initial registration in this state, the department shall determine a value equivalent to a manufacturer's base suggested retail price as follows:

(1) The department shall determine a value using any information that may be available, including any guidebook, report, or compendium of recognized standing in the automotive industry or the selling price and year of sale of the travel trailer or camper. The department may use an appraisal by the county assessor. In valuing a travel trailer or camper for which the current value or selling price is not indicative of the value of similar travel trailers or campers of the same year and model, the department shall establish a value that more closely represents the average value of similar travel trailers or campers of the same year and model. If the travel trailer or camper is home-built, the value shall not be less than the cost of construction.

(2) The value determined in subsection (1) of this section shall be divided by the applicable percentage listed in this section to establish a value equivalent to a manufacturer's base suggested retail price. The applicable percentage shall be based on the year of service of the travel trailer or camper for which the value is determined.

The following multistate tax compact, and each and every part thereof, is hereby approved, ratified, adopted, entered into and enacted into law by the state of Washington.

MULTISTATE TAX COMPACT

Article I. Purposes.

The purposes of this compact are to:

1. Facilitate proper determination of state and local tax liability of multistate taxpayers, including the equitable apportionment of tax bases and settlement of apportionment disputes.

2. Promote uniformity or compatibility in significant components of tax systems.
3. Facilitate taxpayer convenience and compliance in the filing of tax returns and in other phases of tax administration.
4. Avoid duplicative taxation.

Article II. Definitions.

As used in this compact:

6. "Gross receipts tax" means a tax, other than a sales tax, which is imposed on or measured by the gross volume of business, in terms of gross receipts or in other terms, and in the determination of which no deduction is allowed which would constitute the tax an income tax.
7. "Sales tax" means a tax imposed with respect to the transfer for a consideration of ownership, possession or custody of tangible personal property or the rendering of services measured by the price of the tangible personal property transferred or services rendered and which is required by state or local law to be separately stated from the sales price by the seller, or which is customarily separately stated from the sales price, but does not include a tax imposed exclusively on the sale of a specifically identified commodity or article or class of commodities or articles.
8. "Use tax" means a nonrecurring tax, other than a sales tax, which (a) is imposed on or with respect to the exercise or enjoyment of any right or power over tangible personal property incident to the ownership, possession or custody of that property or the leasing of that property from another including any consumption, keeping, retention, or other use of tangible personal property and (b) is complementary to a sales tax.

In no instance wherein Article IV is employed for all subdivisions of a state may the sum of all apportionments and allocations to subdivisions within a state be greater than the apportionment and allocation that would be assignable to that state if the apportionment or allocation were being made with respect to a state income tax.

Taxpayer Option, Short Form.

2. Each party state or any subdivision thereof which imposes an income tax shall provide by law that any taxpayer required to file a return, whose only activities within the taxing jurisdiction consist of sales and do not include owning or renting real estate or tangible personal property, and whose dollar volume of gross sales made during the tax year within the state or subdivision, as the case may be, is not in excess of \$100,000 may elect to report and pay any tax due on the basis of a percentage of such volume, and shall adopt rates which shall produce a tax which reasonably approximates the tax otherwise due. The multistate tax commission, not more than once in five years, may adjust the \$100,000 figure in order to reflect such changes as may occur in the real value of the dollar, and such adjusted figure, upon adoption by the commission, shall replace the \$100,000 figure specifically provided herein. Each party state and subdivision thereof may make the same election available to taxpayers additional to those specified in this paragraph.

Coverage.

3. Nothing in this article relates to the reporting or payment of any tax other than an income tax.

Article IV. Division of Income.

1. As used in this article, unless the context otherwise requires:

(a) "Business income" means income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations.

(b) "Commercial domicile" means the principal place from which the trade or business of

the taxpayer is directed or managed.

(c) "Compensation" means wages, salaries, commissions and any other form of remuneration paid to employees for personal services.

(d) "Financial organization" means any bank, trust company, savings bank, industrial bank, land bank, safe deposit company, private banker, savings and loan association, credit union, cooperative bank, small loan company, sales finance company, investment company, or any type of insurance company.

(e) "Nonbusiness income" means all income other than business income.

(f) "Public utility" means any business entity (1) which owns or operates any plant, equipment, property, franchise, or license for the transmission of communications, transportation of goods or persons, except by pipe line, or the production, transmission, sale, delivery, or furnishing of electricity, water or steam; and (2) whose rates of charges for goods or services have been established or approved by a federal, state or local government or governmental agency.

(g) "Sales" means all gross receipts of the taxpayer not allocated under paragraphs of this article.

(h) "State" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, and any foreign country or political subdivision thereof.

(i) "This state" means the state in which the relevant tax return is filed or, in the case of application of this article to the apportionment and allocation of income for local tax purposes, the subdivision or local taxing district in which the relevant tax return is filed.

2. Any taxpayer having income from business activity which is taxable both within and without this state, other than activity as a financial organization or public utility or the rendering of purely personal services by an individual, shall allocate and apportion his net income as provided in this article. If a taxpayer has income from business activity as a public utility but derives the greater percentage of his income from activities subject to this article, the taxpayer may elect to allocate and apportion his entire net income as provided in this article.

3. For purposes of allocation and apportionment of income under this article, a taxpayer is taxable in another state if (1) in that state he is subject to a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax, or (2) that state has jurisdiction to subject the taxpayer to a net income tax regardless of whether, in fact, the state does or does not.

4. Rents and royalties from real or tangible personal property, capital gains, interest, dividends or patent or copyright royalties, to the extent that they constitute nonbusiness income, shall be allocated as provided in paragraphs 5 through 8 of this article.

5.(a) Net rents and royalties from real property located in this state are allocable to this state.

(b) Net rents and royalties from tangible personal property are allocable to this state: (1) If and to the extent that the property is utilized in this state, or (2) in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.

(c) The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.

6.(a) Capital gains and losses from sales of real property located in this state are allocable to this state.

(b) Capital gains and losses from sales of tangible personal property are allocable to this state if (1) the property had a situs in this state at the time of the sale, or (2) the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.

(c) Capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.

7. Interest and dividends are allocable to this state if the taxpayer's commercial domicile is in this state.

8.(a) Patent and copyright royalties are allocable to this state: (1) If and to the extent that the patent or copyright is utilized by the payer in this state, or (2) if and to the extent that the patent copyright is utilized by the payer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state.

(b) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.

(c) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.

9. All business income shall be apportioned to this state by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor plus the sales factor, and the denominator of which is three.

10. The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period.

11. Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

12. The average value of property shall be determined by averaging the values at the beginning and ending of the tax period but the tax administrator may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property.

13. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the tax period by the taxpayer for compensation and the denominator of which is the total compensation paid everywhere during the tax period.

14. Compensation is paid in this state if:

- (a) The individual's service is performed entirely within the state;
- (b) The individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or
- (c) Some of the service is performed in the state and (1) the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state, or (2) the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state.

15. The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period, and the denominator of which is the total sales of the taxpayer everywhere during the tax period.

16. Sales of tangible personal property are in this state if:

- (a) The property is delivered or shipped to a purchaser, other than the United States government, within this state regardless of the f.o.b. point or other conditions of the sale; or
- (b) The property is shipped from an office, store, warehouse, factory, or other place of storage in this state and (1) the purchaser is the United States government or (2) the taxpayer is not taxable in the state of the purchaser.

17. Sales, other than sales of tangible personal property, are in this state if:

- (a) The income-producing activity is performed in this state; or
- (b) The income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.

18. If the allocation and apportionment provisions of this article do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

- (a) Separate accounting;
- (b) The exclusion of any one or more of the factors;
- (c) The inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state; or
- (d) The employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

Article V. Elements of Sales

and Use Tax Laws.

Tax Credit.

1. Each purchaser liable for a use tax on tangible personal property shall be entitled to full credit for the combined amount or amounts of legally imposed sales or use taxes paid by him with respect to the same property to another state and any subdivision thereof. The credit shall be applied first against the amount of any use tax due the state, and any unused portion of the credit shall then be applied against the amount of any use tax due a subdivision.

Exemption Certificates, Vendors May Rely.

2. Whenever a vendor receives and accepts in good faith from a purchaser a resale or other exemption certificate or other written evidence of exemption authorized by the appropriate state or subdivision taxing authority, the vendor shall be relieved of liability for a sales or use tax with respect to the transaction.

Article VI. The Commission.

Organization and Management.

1.(a) The multistate tax commission is hereby established. It shall be composed of one "member" from each party state who shall be the head of the state agency charged with the administration of the types of taxes to which this compact applies. If there is more than one such agency the state shall provide by law for the selection of the commission member from the heads of the relevant agencies. State law may provide that a member of the commission be represented by an alternate but only if there is on file with the commission written notification of the designation and identity of the alternate. The attorney general of each party state or his designee, or other counsel if the laws of the party state specifically provide, shall be entitled to attend the meetings of the commission, but shall not vote. Such attorneys general, designees, or other counsel shall receive all notices of meetings required under paragraph 1(e) of this article.

(b) Each party state shall provide by law for the selection of representatives from its subdivisions affected by this compact to consult with the commission member from that state.

(c) Each member shall be entitled to one vote. The commission shall not act unless a majority of the members are present, and no action shall be binding unless approved by a majority of the total number of members.

(d) The commission shall adopt an official seal to be used as it may provide.

(e) The commission shall hold an annual meeting and such other regular meetings as its bylaws may provide and such special meetings as its executive committee may determine. The commission bylaws shall specify the dates of the annual and any other regular meetings, and shall provide for the giving of notice of annual, regular and special meetings. Notices of special meetings shall include the reasons therefor and an agenda of the items to be considered.

(f) The commission shall elect annually, from among its members, a chairman, a vice chairman and a treasurer. The commission shall appoint an executive director who shall serve at its pleasure, and it shall fix his duties and compensation. The executive director shall be secretary of the commission. The commission shall make provision for the bonding of such of its officers and employees as it may deem appropriate.

(g) Irrespective of the civil service, personnel or other merit system laws of any party state, the executive director shall appoint or discharge such personnel as may be necessary for the performance of the functions of the commission and shall fix their duties and compensation. The commission bylaws shall provide for personnel policies and programs.

(h) The commission may borrow, accept or contract for the services of personnel from any state, the United States, or any other governmental entity.

(i) The commission may accept for any of its purposes and functions any and all donations and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any governmental entity, and may utilize and dispose of the same.

(j) The commission may establish one or more offices for the transacting of its business.

(k) The commission shall adopt bylaws for the conduct of its business. The commission shall publish its bylaws in convenient form, and shall file a copy of the bylaws and any amendments thereto with the appropriate agency or officer in each of the party states.

(l) The commission annually shall make to the governor and legislature of each party state a report covering its activities for the preceding year. Any donation or grant accepted by the commission or services borrowed shall be reported in the annual report of the commission, and shall include the nature, amount and conditions, if any, of the donation, gift, grant or services borrowed and the identity of the donor or lender. The commission may make additional reports as it may deem desirable.

Committees.

2.(a) To assist in the conduct of its business when the full commission is not meeting, the commission shall have an executive committee of seven members, including the chairman, vice chairman, treasurer and four other members elected annually by the commission. The executive committee, subject to the provisions of this compact and consistent with the policies of the commission, shall function as provided in the bylaws of the commission.

(b) The commission may establish advisory and technical committees, membership on which may include private persons and public officials, in furthering any of its activities. Such committees may consider any matter of concern to the commission, including problems of special interest to any party state and problems dealing with particular types of taxes.

(c) The commission may establish such additional committees as its bylaws may provide.

Powers.

3. In addition to powers conferred elsewhere in this compact, the commission shall have power to:

- (a) Study state and local tax systems and particular types of state and local taxes.
- (b) Develop and recommend proposals for an increase in uniformity or compatibility of state and local tax laws with a view toward encouraging the simplification and improvement of state and local tax law and administration.
- (c) Compile and publish information as in its judgment would assist the party states in implementation of the compact and taxpayers in complying with state and local tax laws.
- (d) Do all things necessary and incidental to the administration of its functions pursuant to this compact.

Finance.

4.(a) The commission shall submit to the governor or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that state for presentation to the legislature thereof.

(b) Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amounts to be appropriated by each of the party states. The total amount of appropriations requested under any such budget shall be apportioned among the party states as follows: one-tenth in equal shares; and the remainder in proportion to the amount of revenue collected by each party state and its subdivisions from income taxes, capital stock taxes, gross receipts taxes, sales and use taxes. In determining such amounts, the commission shall employ such available public sources of information as, in its judgment, present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the sources used in obtaining information employed in applying the formula contained in this paragraph.

(c) The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under paragraph (1)(i) of this article: PROVIDED, That the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under paragraph 1(i), the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the commission.

(e) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

(f) Nothing contained in this article shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

Article VII. Uniform Regulations and Forms.

1. Whenever any two or more party states, or subdivisions of party states, have uniform or similar provisions of law relating to an income tax, capital stock tax, gross receipts tax, sales or use tax, the commission may adopt uniform regulations for any phase of the administration of such law, including assertion of jurisdiction to tax, or prescribing uniform tax forms. The commission may also act with respect to the provisions of Article IV of this compact.

2. Prior to the adoption of any regulation, the commission shall:

(a) As provided in its bylaws, hold at least one public hearing on due notice to all affected party states and subdivisions thereof and to all taxpayers and other persons who have made timely request of the commission for advance notice of its regulation-making proceedings.

(b) Afford all affected party states and subdivisions and interested persons an opportunity to submit relevant written data and views, which shall be considered fully by the commission.

3. The commission shall submit any regulations adopted by it to the appropriate officials of all party states and subdivisions to which they might apply. Each such state and subdivision shall consider any such regulation for adoption in accordance with its own laws and procedures.

Article VIII. Interstate Audits.

1. This article shall be in force only in those party states that specifically provide therefor by statute.

2. Any party state or subdivision thereof desiring to make or participate in an audit of any accounts, books, papers, records or other documents may request the commission to perform the audit on its behalf. In responding to the request, the commission shall have access to and may examine, at any reasonable time, such accounts, books, papers, records, and other documents and any relevant property or stock of merchandise. The commission may enter into agreements with party states or their subdivisions for assistance in performance of the audit. The commission shall make charges, to be paid by the state or local government or governments for which it performs the service, for any audits performed by it in order to reimburse itself for the actual costs incurred in making the audit.

3. The commission may require the attendance of any person within the state where it is conducting an audit or part thereof at a time and place fixed by it within such state for the purpose of giving testimony with respect to any account, book, paper, document, other record, property or stock of merchandise being examined in connection with the audit. If the person is not within the jurisdiction, he may be required to attend for such purpose at any time and place fixed by the commission within the state of which he is a resident: PROVIDED, That such state has adopted this article.

4. The commission may apply to any court having power to issue compulsory process for orders in aid of its powers and responsibilities pursuant to this article and any and all such courts shall have jurisdiction to issue such orders. Failure of any person to obey any such order shall be punishable as contempt of the issuing court. If the party or subject matter on account of which the commission seeks an order is within the jurisdiction of the court to which application is made, such application may be to a court in the state or subdivision on behalf of which the audit

is being made or a court in the state in which the object of the order being sought is situated. The provisions of this paragraph apply only to courts in a state that has adopted this article.

5. The commission may decline to perform any audit requested if it finds that its available personnel or other resources are insufficient for the purpose or that, in the terms requested, the audit is impracticable of satisfactory performance. If the commission, on the basis of its experience, has reason to believe that an audit of a particular taxpayer, either at a particular time or on a particular schedule, would be of interest to a number of party states or their subdivisions, it may offer to make the audit or audits, the offer to be contingent on sufficient participation therein as determined by the commission.

6. Information obtained by any audit pursuant to this article shall be confidential and available only for tax purposes to party states, their subdivisions or the United States. Availability of information shall be in accordance with the laws of the states or subdivisions on whose account the commission performs the audit, and only through the appropriate agencies or officers of such states or subdivisions. Nothing in this article shall be construed to require any taxpayer to keep records for any period not otherwise required by law.

7. Other arrangements made or authorized pursuant to law for cooperative audit by or on behalf of the party states or any of their subdivisions are not superseded or invalidated by this article.

8. In no event shall the commission make any charge against a taxpayer for an audit.

9. As used in this article, "tax," in addition to the meaning ascribed to it in Article II, means any tax or license fee imposed in whole or in part for revenue purposes.

Article IX. Arbitration.

1. Whenever the commission finds a need for settling disputes concerning apportionments and allocations by arbitration, it may adopt a regulation placing this article in effect, notwithstanding the provisions of Article VII.

2. The commission shall select and maintain an arbitration panel composed of officers and employees of state and local governments and private persons who shall be knowledgeable and experienced in matters of tax law and administration.

3. Whenever a taxpayer who has elected to employ Article IV, or whenever the laws of the party state or subdivision thereof are substantially identical with the relevant provisions of Article IV, the taxpayer, by written notice to the commission and to each party state or subdivision thereof that would be affected, may secure arbitration of an apportionment or allocation, if he is dissatisfied with the final administrative determination of the tax agency of the state or subdivision with respect thereto on the ground that it would subject him to double or multiple taxation by two or more party states or subdivisions thereof. Each party state and subdivision thereof hereby consents to the arbitration as provided herein, and agrees to be bound thereby.

4. The arbitration board shall be composed of one person selected by the taxpayer, one by the agency or agencies involved, and one member of the commission's arbitration panel. If the agencies involved are unable to agree on the person to be selected by them, such person shall be

selected by lot from the total membership of the arbitration panel. The two persons selected for the board in the manner provided by the foregoing provisions of this paragraph shall jointly select the third member of the board. If they are unable to agree on the selection, the third member shall be selected by lot from among the total membership of the arbitration panel. No member of a board selected by lot shall be qualified to serve if he is an officer or employee or is otherwise affiliated with any party to the arbitration proceeding. Residence within the jurisdiction of a party to the arbitration proceeding shall not constitute affiliation within the meaning of this paragraph.

5. The board may sit in any state or subdivision party to the proceeding, in the state of the taxpayer's incorporation, residence or domicile, in any state where the taxpayer does business, or in any place that it finds most appropriate for gaining access to evidence relevant to the matter before it.

6. The board shall give due notice of the times and places of its hearings. The parties shall be entitled to be heard, to present evidence, and to examine and cross-examine witnesses. The board shall act by majority vote.

7. The board shall have power to administer oaths, take testimony, subpoena and require the attendance of witnesses and the production of accounts, books, papers, records, and other documents, and issue commissions to take testimony. Subpoenas may be signed by any member of the board. In case of failure to obey a subpoena, and upon application by the board, any judge of a court of competent jurisdiction of the state in which the board is sitting or in which the person to whom the subpoena is directed may be found may make an order requiring compliance with the subpoena, and the court may punish failure to obey the order as a contempt. The provisions of this paragraph apply only in states that have adopted this article.

8. Unless the parties otherwise agree the expenses and other costs of the arbitration shall be assessed and allocated among the parties by the board in such manner as it may determine. The commission shall fix a schedule of compensation for members of arbitration boards and of other allowable expenses and costs. No officer or employee of a state or local government who serves as a member of a board shall be entitled to compensation therefor unless he is required on account of his service to forego the regular compensation attaching to his public employment, but any such board member shall be entitled to expenses.

9. The board shall determine the disputed apportionment or allocation and any matters necessary thereto. The determinations of the board shall be final for purposes of making the apportionment or allocation, but for no other purpose.

10. The board shall file with the commission and with each tax agency represented in the proceeding: the determination of the board; the board's written statement of its reasons therefor; the record of the board's proceedings; and any other documents required by the arbitration rules of the commission to be filed.

11. The commission shall publish the determinations of boards together with the statements of the reasons therefor.

12. The commission shall adopt and publish rules of procedure and practice and shall file a copy of such rules and of any amendment thereto with the appropriate agency or officer in each of the party states.

13. Nothing contained herein shall prevent at any time a written compromise of any matter or matters in dispute, if otherwise lawful, by the parties to the arbitration proceeding.

Article X. Entry into Force
and Withdrawal.

1. This compact shall enter into force when enacted into law by any seven states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof. The commission shall arrange for notification of all party states whenever there is a new enactment of the compact.

2. Any party state may withdraw from this compact by enacting a statute repealing the same. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

3. No proceeding commenced before an arbitration board prior to the withdrawal of a state and to which the withdrawing state or any subdivision thereof is a party shall be discontinued or terminated by the withdrawal, nor shall the board thereby lose jurisdiction over any of the parties to the proceeding necessary to make a binding determination therein.

Article XI. Effect on Other Laws
and Jurisdiction.

Nothing in this compact shall be construed to:

(a) Affect the power of any state or subdivision thereof to fix rates of taxation, except that a party state shall be obligated to implement Article III 2 of this compact.

(b) Apply to any tax or fixed fee imposed for the registration of a motor vehicle or any tax on motor fuel, other than a sales tax: PROVIDED, That the definition of "tax" in Article VIII 9 may apply for the purposes of that article and the commission's powers of study and recommendation pursuant to Article VI 3 may apply.

(c) Withdraw or limit the jurisdiction of any state or local court or administrative officer or body with respect to any person, corporation or other entity or subject matter, except to the extent that such jurisdiction is expressly conferred by or pursuant to this compact upon another agency or body.

(d) Supersede or limit the jurisdiction of any court of the United States.

Article XII. Construction and Severability.

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the Constitution of any state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the

validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the Constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

RCW 82.60.010 Legislative findings and declaration.

The legislature finds that there are several areas in the state that are characterized by very high levels of unemployment and poverty. The legislative [legislature] further finds that economic stagnation is the primary cause of this high unemployment rate and poverty; that new state policies are necessary in order to promote economic stimulation and new employment opportunities in these distressed areas; and that policies providing incentives for economic growth in these distressed areas are essential. For these reasons, the legislature hereby establishes a tax deferral program to be effective solely in distressed areas and under circumstances where the deferred tax payments are for investments or costs that result in the creation of a specified number of jobs. The legislature declares that this limited program serves the vital public purpose of creating employment opportunities and reducing poverty in the distressed areas of the state.

[1985 c 232 § 1.]

(c) "Eligible investment project" does not include any portion of an investment project undertaken by a light and power business as defined in RCW 82.16.010(5), other than that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part, or investment projects which have already received deferrals under this chapter.

(5) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project.

(6) "Manufacturing" means the same as defined in RCW 82.04.120. "Manufacturing" also includes computer programming, the production of computer software, and other computer-related services, and the activities performed by research and development laboratories and commercial testing laboratories.

(7) "Person" has the meaning given in RCW 82.04.030.

(8) "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity used for manufacturing and research and development activities, including plant offices and warehouses or other facilities for the storage of raw material or finished goods if such facilities are an essential or an integral part of a factory, mill, plant, or laboratory used for manufacturing or research and development. If a building is used partly for manufacturing or research and development and partly for other purposes, the applicable tax deferral shall be determined by apportionment of the costs of construction under rules adopted by the department.

(9) "Qualified machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing or research and development operation. "Qualified machinery and equipment" includes: Computers; software; data processing equipment; laboratory equipment; manufacturing components such as belts, pulleys, shafts, and moving parts; molds, tools, and dies; operating structures; and all equipment used to control or operate the machinery.

(10) "Recipient" means a person receiving a tax deferral under this chapter.

(11) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(a) "Eligible area" also means a designated community empowerment zone approved under *RCW 43.63A.700 or a county containing a community empowerment zone.

(b) "Eligible investment project" also means an investment project in an eligible area as defined in this section.

(c) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire year.

(2) In addition to the provisions of RCW 82.60.040, the department shall issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW, on each eligible investment project that is located in an eligible area, if the applicant establishes that at the time the project is operationally complete:

(a) The applicant will hire at least one qualified employment position for each seven hundred fifty thousand dollars of investment on which a deferral is requested; and

(b) The positions will be filled by persons who at the time of hire are residents of the community empowerment zone. As used in this subsection, "resident" means the person makes his or her home in the community empowerment zone. A mailing address alone is insufficient to establish that a person is a resident for the purposes of this section. The persons must be hired after the date the application is filed with the department.

(4) The qualified employment position must be filled by the end of the calendar year following the year in which the project is certified as operationally complete. If a person does not meet the requirements for qualified employment positions by the end of the second calendar year following the year in which the project is certified as operationally complete, all deferred taxes are immediately due.

(b) Acquisition prior to December 31, 1995, of new machinery and equipment to be used for either manufacturing or research and development if the machinery and equipment is housed in a new leased structure. The lessor/owner of the structure is not eligible for a deferral unless the underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

(c) Acquisition of all new or used machinery, equipment, or other personal property for use in the production or casting of aluminum at an aluminum smelter or at facilities related to an aluminum smelter, if the plant was in operation prior to 1975 and has ceased operations or is in imminent danger of ceasing operations for economic reasons, as determined by the department, and if the person applying for a deferral (i) has consulted with any collective bargaining unit that represented employees of the plant pursuant to a collective bargaining agreement that was in effect either immediately prior to the time the plant ceased operations or during the period when the plant was in imminent danger of ceasing operations, on the proposed operation of the plant and on the terms and conditions of employment for wage and salaried employees and (ii) has obtained a written concurrence from the bargaining unit on the decision to apply for a deferral under this chapter; or

(d) Modernization projects involving construction, acquisition, or upgrading of equipment or machinery, including services and labor, which are commenced after May 19, 1987, and are intended to increase the operating efficiency of existing plants which are either aluminum smelters or aluminum rolling mills or of facilities related to such plants, if the plant

was in operation prior to 1975, and if the person applying for a deferral (i) has consulted with any collective bargaining unit that represents employees of the plant on the proposed operation of the plant and the terms and conditions of employment for wage and salaried employees and (ii) has obtained a written concurrence from the bargaining unit on the decision to apply for a deferral under this chapter.

RCW 82.62.020 Application for tax credits--Contents.

Application for tax credits under this chapter must be made before the actual hiring of qualified employment positions. The application shall be made to the department in a form and manner prescribed by the department. The application shall contain information regarding the location of the business project, the applicant's average employment, if any, at the facility for the prior year, estimated or actual new employment related to the project, estimated or actual wages of employees related to the project, estimated or actual costs, time schedules for completion and operation, and other information required by the department. The department shall rule on the application within sixty days.

[1986 c 116 § 16.]

RCW 82.62.030 Allowance of tax credits--Limitations.

(1) A person shall be allowed a credit against the tax due under chapter 82.04 RCW as provided in this section. The credit shall equal: (a) Four thousand dollars for each qualified employment position with wages and benefits greater than forty thousand dollars annually that is directly created in an eligible business and (b) two thousand dollars for each qualified employment position with wages and benefits less than or equal to forty thousand dollars annually that is directly created in an eligible business.

(2) The department shall keep a running total of all credits allowed under this chapter during each fiscal year. The department shall not allow any credits which would cause the total to exceed seven million five hundred thousand dollars in any fiscal year. If all or part of an application for credit is disallowed under this subsection, the disallowed portion shall be carried over to the next fiscal year. However, the carryover into the next fiscal year is only permitted to the extent that the cap for the next fiscal year is not exceeded.

(3) No recipient may use the tax credits to decertify a union or to displace existing jobs in any community in the state.

(4) The credit may be used against any tax due under chapter 82.04 RCW, and may be carried over until used. No refunds may be granted for credits under this section.

RCW 82.62.045 Tax credits for eligible business projects in designated community empowerment zones.

(1) For the purposes of this section "eligible area" also means a designated community empowerment zone approved under *RCW 43.63A.700.

(2) An eligible business project located within an eligible area as defined in this section qualifies for a credit under this chapter for those employees who at the time of hire are residents of the community empowerment zone in which the project is located, if the fifteen percent threshold is met. As used in this subsection, "resident" means the person makes his or her home in the community empowerment zone. A mailing address alone is insufficient to establish that a person is a resident for the purposes of this section.

RCW 82.62.050 Tax credit recipients to report to department--Payment of taxes and interest by ineligible recipients.

(1) Each recipient shall submit a report to the department on January 31st following the year the application for credit was allowed. The report shall contain information, as required by the department, from which the department may determine whether the recipient is meeting the requirements of this chapter. If the recipient fails to submit a report or submits an inadequate report, the department may declare the amount of taxes for which a credit has been used to be immediately assessed and payable. The recipient must keep records, such as payroll records showing the date of hire and employment security reports, to verify eligibility under this section.

(2) If, on the basis of a report under this section or other information, the department finds that a business project is not eligible for tax credit under this chapter for reasons other than failure to create the required number of qualified employment positions, the amount of taxes for which a credit has been used for the project shall be immediately due.

(3) If, on the basis of a report under this section or other information, the department finds that a business project has failed to create the specified number of qualified employment positions, the department shall assess interest, but not penalties, on the credited taxes for which a credit has been used for the project. The interest shall be assessed at the rate provided for delinquent excise taxes, shall be assessed retroactively to the date of the tax credit, and shall accrue until the taxes for which a credit has been used are repaid.

TAX DEFERRALS FOR HIGH TECHNOLOGY BUSINESSES

RCW 82.63.005 Findings--Intent to create a contract.

The legislature finds that high-wage, high-skilled jobs are vital to the economic health of the state's citizens, and that targeted tax incentives will encourage the formation of high-wage, high-skilled jobs. The legislature also finds that tax incentives should be subject to the same rigorous requirements for efficiency and accountability as are other expenditure programs, and that tax incentives should therefore be focused to provide the greatest possible return on the state's investment.

The legislature also finds that high-technology businesses are a vital and growing source of high-wage, high-skilled jobs in this state, and that the high-technology sector is a key component of the state's effort to encourage economic diversification. However, the legislature finds that many high-technology businesses incur significant costs associated with research and development and pilot scale manufacturing many years before a marketable product can be produced, and that current state tax policy discourages the growth of these companies by taxing them long before they become profitable.

The legislature further finds that stimulating growth of high-technology businesses early in their development cycle, when they are turning ideas into marketable products, will build upon the state's established high-technology base, creating additional research and development jobs and subsequent manufacturing facilities.

For these reasons, the legislature hereby establishes a program of business and

occupation tax credits for qualified research and development expenditures. The legislature also hereby establishes a tax deferral program for high-technology research and development and pilot scale manufacturing facilities. The legislature declares that these limited programs serve the vital public purpose of creating employment opportunities in this state. The legislature further declares its intent to create a contract within the meaning of Article I, section 23 of the state Constitution as to those businesses that make capital investments in consideration of the tax deferral program established in this chapter.

[1994 sp.s. c 5 § 1.]

RCW 82.63.010 Definitions.

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Advanced computing" means technologies used in the designing and developing of computing hardware and software, including innovations in designing the full spectrum of hardware from hand-held calculators to super computers, and peripheral equipment.

(2) "Advanced materials" means materials with engineered properties created through the development of specialized processing and synthesis technology, including ceramics, high value-added metals, electronic materials, composites, polymers, and biomaterials.

(3) "Applicant" means a person applying for a tax deferral under this chapter.

(4) "Biotechnology" means the application of technologies, such as recombinant DNA techniques, biochemistry, molecular and cellular biology, genetics and genetic engineering, cell fusion techniques, and new bioprocesses, using living organisms, or parts of organisms, to produce or modify products, to improve plants or animals, to develop microorganisms for specific uses, to identify targets for small molecule pharmaceutical development, or to transform biological systems into useful processes and products or to develop microorganisms for specific uses.

(5) "Department" means the department of revenue.

(6) "Electronic device technology" means technologies involving microelectronics; semiconductors; electronic equipment and instrumentation; radio frequency, microwave, and millimeter electronics; optical and optic-electrical devices; and data and digital communications and imaging devices.

(7) "Eligible investment project" means an investment project which either initiates a new operation, or expands or diversifies a current operation by expanding, renovating, or equipping an existing facility. The lessor or owner of the qualified building is not eligible for a deferral unless the underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person, or unless the lessor by written contract agrees to pass the economic benefit of the deferral to the lessee in the form of reduced rent payments.

(8) "Environmental technology" means assessment and prevention of threats or damage to human health or the environment, environmental cleanup, and the development of alternative energy sources.

(9) "Investment project" means an investment in qualified buildings or qualified

machinery and equipment, including labor and services rendered in the planning, installation, and construction or improvement of the project.

(10) "Person" has the meaning given in RCW 82.04.030.

(11) "Pilot scale manufacturing" means design, construction, and testing of preproduction prototypes and models in the fields of biotechnology, advanced computing, electronic device technology, advanced materials, and environmental technology other than for commercial sale. As used in this subsection, "commercial sale" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(12) "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity used for pilot scale manufacturing or qualified research and development, including plant offices and other facilities that are an essential or an integral part of a structure used for pilot scale manufacturing or qualified research and development. If a building is used partly for pilot scale manufacturing or qualified research and development, and partly for other purposes, the applicable tax deferral shall be determined by apportionment of the costs of construction under rules adopted by the department.

(13) "Qualified machinery and equipment" means fixtures, equipment, and support facilities that are an integral and necessary part of a pilot scale manufacturing or qualified research and development operation. "Qualified machinery and equipment" includes: Computers; software; data processing equipment; laboratory equipment, instrumentation, and other devices used in a process of experimentation to develop a new or improved pilot model, plant process, product, formula, invention, or similar property; manufacturing components such as belts, pulleys, shafts, and moving parts; molds, tools, and dies; vats, tanks, and fermenters; operating structures; and all other equipment used to control, monitor, or operate the machinery. For purposes of this chapter, qualified machinery and equipment must be either new to the taxing jurisdiction of the state or new to the certificate holder, except that used machinery and equipment may be treated as qualified machinery and equipment if the certificate holder either brings the machinery and equipment into Washington or makes a retail purchase of the machinery and equipment in Washington or elsewhere.

(14) "Qualified research and development" means research and development performed within this state in the fields of advanced computing, advanced materials, biotechnology, electronic device technology, and environmental technology.

(15) "Recipient" means a person receiving a tax deferral under this chapter.

(16) "Research and development" means activities performed to discover technological information, and technical and nonroutine activities concerned with translating technological information into new or improved products, processes, techniques, formulas, inventions, or software. The term includes exploration of a new use for an existing drug, device, or biological product if the new use requires separate licensing by the federal food and drug administration under chapter 21, C.F.R., as amended. The term does not include adaptation or duplication of existing products where the products are not substantially improved by application of the technology, nor does the term include surveys and studies, social science and humanities

research, market research or testing, quality control, sale promotion and service, computer software developed for internal use, and research in areas such as improved style, taste, and seasonal design.

Findings--Effective date--1995 1st sp.s. c 3: See notes following RCW 82.08.02565.

RCW 82.63.020 Application--Assessment reports.

Application for deferral of taxes under this chapter must be made before initiation of construction of, or acquisition of equipment or machinery for the investment project. The application shall be made to the department in a form and manner prescribed by the department. The application shall contain information regarding the location of the investment project, the applicant's average employment in the state for the prior year, estimated or actual new employment related to the project, estimated or actual wages of employees related to the project, estimated or actual costs, time schedules for completion and operation, and other information required by the department. The department shall rule on the application within sixty days.

Applicants for deferral of taxes under this chapter shall agree to supply the department with nonproprietary information necessary to measure the results of the tax deferral program for high-technology research and development and pilot scale manufacturing facilities. The department shall use the information to perform three assessments on the tax deferral program authorized under this chapter. The assessments will take place in 1997, 2000, and 2003. The department shall prepare reports on each assessment and deliver their reports by September 1, 1997, September 1, 2000, and September 1, 2003. The assessments shall measure the effect of the program on job creation, the number of jobs created for Washington residents, company growth, the introduction of new products, the diversification of the state's economy, growth in research and development investment, the movement of firms or the consolidation of firms' operations into the state, and such other factors as the department selects.

[1994 sp.s. c 5 § 4.]

RCW 82.63.030 Sales and use tax deferral certificate--Eligible investment projects and pilot scale manufacturing. (Expires July 1, 2004.)

(1) Except as provided in subsection (2) of this section, the department shall issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW on each eligible investment project.

(2) No certificate may be issued for an investment project that has already received a deferral under chapter 82.60 or 82.61 RCW or this chapter, except that an investment project for qualified research and development that has already received a deferral may also receive an additional deferral certificate for adapting the investment project for use in pilot scale manufacturing.

(3) This section shall expire July 1, 2004.

[1994 sp.s. c 5 § 5.]

RCW 82.63.045 Repayment not required--Repayment schedule for unqualified investment project--Exceptions.

(1) Except as provided in subsection (2) of this section, taxes deferred under this chapter need not be repaid.

(2) If, on the basis of a report under RCW 82.63.020 or other information, the department finds that an investment project is used for purposes other than qualified research and development or pilot scale manufacturing at any time during the calendar year in which the investment project is certified by the department as having been operationally completed, or at any time during any of the seven succeeding calendar years, a portion of deferred taxes shall be immediately due according to the following schedule:

Year in which use occurs	% of deferred taxes due
1	100%
2	87.5%
3	75%
4	62.5%
5	50%
6	37.5%
7	25%
8	12.5%

The department shall assess interest at the rate provided for delinquent taxes, but not penalties, retroactively to the date of deferral. The debt for deferred taxes will not be extinguished by insolvency or other failure of the recipient. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral.

(3) Notwithstanding subsection (2) of this section, deferred taxes on the following need not be repaid:

(a) Machinery and equipment, and sales of or charges made for labor and services, which at the time of purchase would have qualified for exemption under RCW 82.08.02565; and

(b) Machinery and equipment which at the time of first use would have qualified for exemption under RCW 82.12.02565.

RCW 82.80.010 Motor vehicle and special fuel tax.

(1) Subject to the conditions of this section, any county may levy, by approval of its legislative body and a majority of the registered voters of the county voting on the proposition at a general or special election, additional excise taxes equal to ten percent of the state-wide motor vehicle fuel tax rate under RCW 82.36.025 on each gallon of motor vehicle fuel as defined in RCW 82.36.010 and on each gallon of special fuel as defined in RCW 82.38.020 sold within the boundaries of the county. Vehicles paying an annual license fee under RCW 82.38.075 are exempt from the county fuel excise tax. An election held under this section must be held not more than twelve months before the date on which the proposed tax is to be levied. The ballot setting forth the proposition shall state the tax rate that is proposed. The county's authority to levy additional excise taxes under this section includes the incorporated and unincorporated areas of the county. The additional excise taxes are subject to the same exceptions and rights of refund as applicable to other motor vehicle fuel and special fuel excise taxes levied under chapters 82.36 and 82.38 RCW. The proposed tax shall not be levied less than one month from the date the election results are certified by the county election officer. The commencement date for the levy of any tax under this section shall be the first day of January, April, July, or October.

(2) Every person subject to the tax shall pay, in addition to any other taxes provided by law, an additional excise tax to the director of licensing at the rate levied by a county exercising its authority under this section.

(3) The state treasurer shall distribute monthly to the levying county and cities contained therein the proceeds of the additional excise taxes collected under this section, after the deductions for payments and expenditures as provided in *RCW 46.68.090 (1) and (2) and under the conditions and limitations provided in RCW 82.80.080.

(4) The proceeds of the additional excise taxes levied under this section shall be used strictly for transportation purposes in accordance with RCW 82.80.070.

(5) The department of licensing shall administer and collect the county fuel taxes. The department shall deduct a percentage amount, as provided by contract, for administrative, collection, refund, and audit expenses incurred. The remaining proceeds shall be remitted to the custody of the state treasurer for monthly distribution under RCW 82.80.080.

Notes:

*Reviser's note: RCW 46.68.090 was amended by 1999 c 269 § 2, deleting subsection (2).

Rules--Findings--Effective date--1998 c 176: See RCW 82.36.800, 82.36.900, and 82.36.901.

RCW 82.80.020 Vehicle license fee--Exemptions--Limitations.

(1) The legislative authority of a county, or subject to subsection (7) of this section, a qualifying city or town located in a county that has not imposed a fifteen-dollar fee under this section, may fix and impose an additional fee, not to exceed fifteen dollars per vehicle, for each vehicle that is subject to license fees under RCW 46.16.0621 and for each vehicle that is subject to RCW 46.16.070 with an unladen weight of six thousand pounds or less, and that is determined by the department of licensing to be registered within the boundaries of the county.

(2) The department of licensing shall administer and collect the fee. The department shall deduct a percentage amount, as provided by contract, not to exceed two percent of the taxes collected, for administration and collection expenses incurred by it. The remaining proceeds shall be remitted to the custody of the state treasurer for monthly distribution under RCW 82.80.080.

(3) The proceeds of this fee shall be used strictly for transportation purposes in accordance with RCW 82.80.070.

(4) A county or qualifying city or town imposing this fee or initiating an exemption process shall delay the effective date at least six months from the date the ordinance is enacted to allow the department of licensing to implement administration and collection of or exemption from the fee.

(5) The legislative authority of a county or qualifying city or town may develop and initiate an exemption process of the fifteen dollar fee for the registered owners of vehicles residing within the boundaries of the county or qualifying city or town: (a) Who are sixty-one years old or older at the time payment of the fee is due and whose household income for the previous calendar year is less than an amount prescribed by the county or qualifying city or town

legislative authority; or (b) who have a physical disability.

(6) The legislative authority of a county or qualifying city or town shall develop and initiate an exemption process of the fifteen-dollar fee for vehicles registered within the boundaries of the county that are licensed under RCW 46.16.374.

(7) For purposes of this section, a "qualifying city or town" means a city or town residing within a county having a population of greater than seventy-five thousand in which is located all or part of a national monument. A qualifying city or town may impose the fee authorized in subsection (1) of this section subject to the following conditions and limitations:

(a) The city or town may impose the fee only if authorized to do so by a majority of voters voting at a general or special election on a proposition for that purpose. At a minimum, the ballot measure shall contain: (i) A description of the transportation project proposed for funding, properly identified by mileposts or other designations that specify the project parameters; (ii) the proposed number of months or years necessary to fund the city or town's share of the project cost; and (iii) the amount of fee to be imposed for the project.

(b) The city or town may not impose a fee that, if combined with the county fee, exceeds fifteen dollars. If a county imposes or increases a fee under this section that, if combined with the fee imposed by a city or town, exceeds fifteen dollars, the city or town fee shall be reduced or eliminated as needed so that in no city or town does the combined fee exceed fifteen dollars. All revenues from county-imposed fees shall be distributed as called for in RCW 82.80.080.

(c) Any fee imposed by a city or town under this section shall expire at the end of the term of months or years provided in the ballot measure, or when the city or town's bonded indebtedness on the project is retired, whichever is sooner.

(8) The fee imposed under subsection (7) of this section shall apply only to renewals and shall not apply to ownership transfer transactions.

RCW 82.80.030 Commercial parking tax.

(1) Subject to the conditions of this section, the legislative authority of a county or city may fix and impose a parking tax on all persons engaged in a commercial parking business within its respective jurisdiction. The jurisdiction of a county, for purposes of this section, includes only the unincorporated area of the county. The jurisdiction of a city includes only the area within its incorporated boundaries.

(2) In lieu of the tax in subsection (1) of this section, a city or a county in its unincorporated area may fix and impose a tax for the act or privilege of parking a motor vehicle in a facility operated by a commercial parking business.

The city or county may provide that:

- (a) The tax is paid by the operator or owner of the motor vehicle;
- (b) The tax applies to all parking for which a fee is paid, whether paid or leased, including parking supplied with a lease of nonresidential space;
- (c) The tax is collected by the operator of the facility and remitted to the city or county;
- (d) The tax is a fee per vehicle or is measured by the parking charge;

(e) The tax rate varies with zoning or location of the facility, the duration of the parking, the time of entry or exit, the type or use of the vehicle, or other reasonable factors; and

(f) Tax exempt carpools, vehicles with handicapped decals, or government vehicles are exempt from the tax.

(3) "Commercial parking business" as used in this section, means the ownership, lease, operation, or management of a commercial parking lot in which fees are charged. "Commercial parking lot" means a covered or uncovered area with stalls for the purpose of parking motor vehicles.

(4) The rate of the tax under subsection (1) of this section may be based either upon gross proceeds or the number of vehicle stalls available for commercial parking use. The rates charged must be uniform for the same class or type of commercial parking business.

(5) The county or city levying the tax provided for in subsection (1) or (2) of this section may provide for its payment on a monthly, quarterly, or annual basis. Each local government may develop by ordinance or resolution rules for administering the tax, including provisions for reporting by commercial parking businesses, collection, and enforcement.

(6) The proceeds of the commercial parking tax fixed and imposed under subsection (1) or (2) of this section shall be used strictly for transportation purposes in accordance with RCW 82.80.070.

[1990 c 42 § 208.]

RCW 82.80.040 Street utility--Establishment.

A city or town may elect by action of its legislative authority to own, construct, maintain, operate, and preserve all or any described portion of its streets as a separate enterprise and facility, known as a street utility, and from time to time add other existing or new streets to that street utility, with full power to own, construct, maintain, operate, and preserve such streets. The legislative authority of the city or town may include as a part of the street utility, street lighting, traffic control devices, sidewalks, curbs, gutters, parking facilities, and drainage facilities. The legislative authority of the city or town is the governing body of the street utility.

[1991 c 141 § 1. Prior: 1990 c 42 § 209.]

RCW 82.80.050 Street utility--Charges, credits.

A city or town electing to own, construct, maintain, operate, and preserve its streets as a separate street utility may levy periodic charges for the use or availability of the streets in a total annual amount of up to fifty percent of the actual costs for maintenance, operation, and preservation of facilities under the jurisdiction of the street utility. The rates charged for the use must be uniform for the same class of service and all business and residential properties must be subject to the utility charge. Charges imposed on businesses shall be measured solely by the number of employees and shall not exceed the equivalent of two dollars per full-time equivalent employee per month. Charges imposed against owners or occupants of residential property shall not exceed two dollars per month per housing unit as defined in RCW 35.95.040. Charges

authorized in this section shall not be imposed against owners of property: (1) Exempt under RCW 84.36.010; (2) exempt from the leasehold tax under chapter 82.29A RCW; or (3) used for nonprofit or sectarian purposes, which if said property were owned by such organization would qualify for exemption under chapter 84.36 RCW. The charges shall not be computed on the basis of an ad valorem charge on the underlying real property and improvements. This section shall not be used as a basis to directly or indirectly charge transportation impact fees or mitigation fees of any kind against new development. A city or town may contract with any other utility or local government to provide for billing and collection of the street utility charges.

In classifying service furnished within the general categories of business and residential, the city or town legislative authority may in its discretion consider any or all of the following factors: The difference in cost of service to the various users or traffic generators; location of the various users or traffic generators within the city or town; the difference in cost of maintenance, operation, construction, repair, and replacement of the various parts of the enterprise and facility; the different character of the service furnished to various users or traffic generators within the city or town; the size and quality of the street service furnished; the time of use or traffic generation; capital contributions made to the facility including but not limited to special assessments; and any other matters that present a reasonable difference as a ground for distinction, or the entire category of business or residential may be established as a single class. The city or town may reduce or exempt charges on residential properties to the extent of their occupancy by low-income senior citizens and other low-income citizens as provided in RCW 74.38.070(1), or to the extent of their occupancy by the needy or infirm.

The charges shall be charges against the property and the use thereof and shall become liens and be enforced in the same manner as rates and charges for the use of systems of sewerage under chapter 35.67 RCW.

Any city or town ordinance or resolution creating a street utility must contain a provision granting to any business a credit against any street utility charge the full amount of any commuter or employer tax paid for transportation purposes by that business.

[2000 c 103 § 21; 1991 c 141 § 2. Prior: 1990 c 42 § 210.]

RCW 82.80.060 Use of other proceeds by utility.

The city or town electing to own, construct, maintain, operate, and preserve its streets and related facilities as a utility under this chapter may finance the construction, operation, maintenance, and preservation through local improvement districts, utility local improvement districts, or with proceeds from general obligation bonds and revenue bonds payable from the charges issued in accordance with chapter 35.41, 35.92, or 39.46 RCW, or any combination thereof. The city or town may use, in addition to the charges authorized by RCW 82.80.050, funds from general taxation, money received from the federal, state, or other local governments, and other funds made available to it. The proceeds of the charges authorized by RCW 82.80.050 shall be used strictly for transportation purposes in accordance with this chapter and RCW 82.80.070.

[1991 c 141 § 3. Prior: 1990 c 42 § 211.]

RCW 82.80.070 Use of revenues.

(1) The proceeds collected pursuant to the exercise of the local option authority of RCW 82.80.010, 82.80.020, 82.80.030, and 82.80.050 (hereafter called "local option transportation revenues") shall be used for transportation purposes only, including but not limited to the following: The operation and preservation of roads, streets, and other transportation improvements; new construction, reconstruction, and expansion of city streets, county roads, and state highways and other transportation improvements; development and implementation of public transportation and high-capacity transit improvements and programs; and planning, design, and acquisition of right of way and sites for such transportation purposes. The proceeds collected from excise taxes on the sale, distribution, or use of motor vehicle fuel and special fuel under RCW 82.80.010 shall be used exclusively for "highway purposes" as that term is construed in Article II, section 40 of the state Constitution.

(2) The local option transportation revenues shall be expended for transportation uses consistent with the adopted transportation and land use plans of the jurisdiction expending the funds and consistent with any applicable and adopted regional transportation plan for metropolitan planning areas.

(3) Each local government with a population greater than eight thousand that levies or expends local option transportation funds, is also required to develop and adopt a specific transportation program that contains the following elements:

(a) The program shall identify the geographic boundaries of the entire area or areas within which local option transportation revenues will be levied and expended.

(b) The program shall be based on an adopted transportation plan for the geographic areas covered and shall identify the proposed operation and construction of transportation improvements and services in the designated plan area intended to be funded in whole or in part by local option transportation revenues and shall identify the annual costs applicable to the program.

(c) The program shall indicate how the local transportation plan is coordinated with applicable transportation plans for the region and for adjacent jurisdictions.

(d) The program shall include at least a six-year funding plan, updated annually, identifying the specific public and private sources and amounts of revenue necessary to fund the program. The program shall include a proposed schedule for construction of projects and expenditure of revenues. The funding plan shall consider the additional local tax revenue estimated to be generated by new development within the plan area if all or a portion of the additional revenue is proposed to be earmarked as future appropriations for transportation improvements in the program.

(4) Local governments with a population greater than eight thousand exercising the authority for local option transportation funds shall periodically review and update their transportation program to ensure that it is consistent with applicable local and regional transportation and land use plans and within the means of estimated public and private revenue

available.

(5) In the case of expenditure for new or expanded transportation facilities, improvements, and services, priorities in the use of local option transportation revenues shall be identified in the transportation program and expenditures shall be made based upon the following criteria, which are stated in descending order of weight to be attributed:

(a) First, the project serves a multijurisdictional function;

(b) Second, it is necessitated by existing or reasonably foreseeable congestion;

(c) Third, it has the greatest person-carrying capacity;

(d) Fourth, it is partially funded by other government funds, such as from the state transportation improvement board, or by private sector contributions, such as those from the local transportation act, chapter 39.92 RCW; and

(e) Fifth, it meets such other criteria as the local government determines is appropriate.

(6) It is the intent of the legislature that as a condition of levying, receiving, and expending local option transportation revenues, no local government agency use the revenues to replace, divert, or loan any revenues currently being used for transportation purposes to nontransportation purposes. The association of Washington cities and the Washington state association of counties, in consultation with the legislative transportation committee, shall study the issue of nondiversion and make recommendations to the legislative transportation committee for language implementing the intent of this section by December 1, 1990.

(7) Local governments are encouraged to enter into interlocal agreements to jointly develop and adopt with other local governments the transportation programs required by this section for the purpose of accomplishing regional transportation planning and development.

(8) Local governments may use all or a part of the local option transportation revenues for the amortization of local government general obligation and revenue bonds issued for transportation purposes consistent with the requirements of this section.

[1991 c 141 § 4. Prior: 1990 c 42 § 212.]

RCW 82.80.080 Distribution of taxes.

(1) The state treasurer shall distribute revenues, less authorized deductions, generated by the local option taxes authorized in RCW 82.80.010 and 82.80.020, levied by counties to the levying counties, and cities contained in those counties, based on the relative per capita population. County population for purposes of this section is equal to one and one-half of the unincorporated population of the county. In calculating the distributions, the state treasurer shall use the population estimates prepared by the state office of financial management and shall further calculate the distribution based on information supplied by the departments of licensing and revenue, as appropriate.

(2) The state treasurer shall distribute revenues, less authorized deductions, generated by the local option taxes authorized in RCW 82.80.010 and 82.80.020 levied by qualifying cities and towns to the levying cities and towns.

[1998 c 281 § 2; 1990 c 42 § 213.]

RCW 82.80.090 Referendum.

A referendum petition to repeal a county or city ordinance imposing a tax or fee authorized under RCW 82.80.020 and 82.80.030 must be filed with a filing officer, as identified in the ordinance, within seven days of passage of the ordinance. Within ten days, the filing officer shall confer with the petitioner concerning form and style of the petition, issue an identification number for the petition, and write a ballot title for the measure. The ballot title shall be posed as a question so that an affirmative answer to the question and an affirmative vote on the measure results in the tax or fee being imposed and a negative answer to the question and a negative vote on the measure results in the tax or fee not being imposed. The petitioner shall be notified of the identification number and ballot title within this ten-day period.

After this notification, the petitioner has thirty days in which to secure on petition forms the signatures of not less than fifteen percent of the registered voters of the county for county measures, or not less than fifteen percent of the registered voters of the city for city measures, and to file the signed petitions with the filing officer. Each petition form must contain the ballot title and the full text of the measure to be referred. The filing officer shall verify the sufficiency of the signatures on the petitions. Effective dates--1994 c 221: See note following RCW 11.94.070.

(2) The amendments made in this act regarding apportionment of the tax with respect to qualified real property, and regarding extensions to pay tax, shall be effective with respect to the tax attributable to deaths occurring after April 18, 1989.

(3) The amendment to RCW 11.98.070(13) shall be effective with respect to loans described in RCW 83.110.020(2) made or committed to be made after April 18, 1989." [1989 c 40 § 8.]

RCW 83.110.020 Apportionment of tax.

Except as provided in RCW 83.110.090, and unless the will, trust, or other dispositive instrument otherwise provides, the tax shall be apportioned among all persons interested in the estate. Except as provided in RCW 83.110.050, the apportionment shall be made in the proportion that the value of the interest of each person interested in the estate bears to the total value of the interests of all persons interested in the estate. Except as provided in RCW 83.110.050, the values used in determining the tax shall be used for that purpose.

[2000 c 129 § 2; 1989 c 40 § 2; 1986 c 63 § 2.]

Notes:

Construction--Severability--1989 c 40: See note following RCW 83.110.010.

RCW 83.110.030 Apportionment procedure.

(1) The court having jurisdiction over the administration of the estate of a decedent shall determine the apportionment of the tax. If there are no probate proceedings, the court of the county wherein the decedent was domiciled at death shall determine the apportionment of the tax upon the application of the person required to pay the tax.

(2) If the court finds that it is inequitable to apportion interest and penalties in the manner provided in this chapter because of special circumstances, it may direct apportionment thereon in the manner it finds equitable.

(3) The expenses reasonably incurred by any fiduciary and by other persons interested in the estate in connection with the determination of the amount and apportionment of the tax shall be apportioned as provided in RCW 83.110.020 and charged and collected as a part of the tax apportioned. If the court finds it is inequitable to apportion the expenses as provided in RCW 83.110.020, it may direct apportionment thereof equitably.

(4) If the court finds that the assessment of penalties and interest is due to delay caused by the negligence of the fiduciary, the court may charge the fiduciary with the amount of the assessed penalties and interest.

(5) In any suit or judicial proceeding to recover from any person interested in the estate the amount of the tax apportioned to the person in accordance with this chapter, the determination of the court in respect thereto is prima facie correct.

[2000 c 129 § 3; 1990 c 180 § 6; 1989 c 40 § 3; 1986 c 63 § 3.]

Notes:

Construction--Severability--1989 c 40: See note following RCW 83.110.010.

RCW 83.110.040 Collection of tax from persons interested in the estate--Security.

(1) The fiduciary or other person required to pay the tax may withhold from any property of the decedent in his or her possession, distributable to any person interested in the estate, the amount of tax attributable to his or her interest. If the property in possession of the fiduciary or other person required to pay the tax and distributable to any person interested in the estate is insufficient to satisfy the proportionate amount of the tax determined to be due from the person, the fiduciary or other person required to pay the tax may recover the deficiency from the person interested in the estate. If the property is not in the possession of the fiduciary or other person required to pay the tax, the fiduciary or the other person required to pay the tax may recover from any person interested in the estate the amount of the tax apportioned to the person in accordance with this chapter.

(2) If property held by the fiduciary or other person is distributed prior to final apportionment of the tax, the fiduciary or other person may require the distributee to provide a bond or other security for the apportionment liability in the form and amount prescribed by the fiduciary, with the approval of the court having jurisdiction of the administration of the estate.

[1986 c 63 § 4.]

RCW 83.110.050 Allowance for exemptions, deductions, and credits.

(1) In making an apportionment, allowances shall be made for any exemptions granted, any classification made of persons interested in the estate, and any deductions and credits allowed by the law imposing the tax.

(2) Any exemption or deduction allowed (a) by section 2057 of the Internal Revenue Code, (b) by reason of the relationship of any person to the decedent, or (c) by reason of the purposes of the gift inures to the benefit of the person bearing that relationship or receiving the gift. When an interest is subject to a prior present interest which is not allowable as a deduction, the tax apportionable against the present interest shall be paid from principal.

(3) Any deduction for property previously taxed and any credit for gift taxes or death taxes of a foreign country paid by the decedent or the decedent's estate inures to the proportionate benefit of all persons liable to apportionment.

(4) Any credit for inheritance, succession, or estate taxes or taxes in the nature thereof in respect to property or interests includable in the estate inures to the benefit of the persons or interests chargeable with the payment thereof to the extent that or in proportion that the credit reduces the tax.

(5) To the extent that property passing to or in trust for a surviving spouse or any charitable, public, or similar gift or bequest does not constitute an allowable deduction for purposes of the tax solely by reason of an inheritance tax or other death tax imposed upon and deductible from the property, the property shall not be included in the computation provided for in this chapter, and to that extent no apportionment shall be made against the property. This does not apply in any instance where the result under section 2053(d) of the Internal Revenue Code relates to deduction for state death taxes on transfers for public, charitable, or religious uses. To the extent the amount otherwise allowed as a deduction under section 2057 of the Internal Revenue Code does not constitute an allowable deduction for purposes of the tax solely by reason of an inheritance tax or other death tax imposed upon and deductible from the amount, the amount shall not be included in the computation provided for in this chapter, and to that extent no apportionment shall be made against the amount.

(6) In the case of qualified real property or a qualified family-owned business interest, the apportionment of the tax shall be based on the values that would have been used to determine the tax without regard to section 2032A or 2057 of the Internal Revenue Code. The reduction in the tax attributable to the application of section 2032A or 2057 shall inure as follows:

(a) First to the benefit of the qualified heirs in proportion to their relative interests in the qualified real property or qualified family-owned business interest, until the tax attributable to the qualified real property or qualified family-owned business interest is reduced to zero;

(b) Then to the qualified heirs in proportion to their relative interests in other property of the estate, until the tax attributable to the property is reduced to zero; and

(c) Then to other persons interested in the estate in proportion to their relative interests in other property of the estate.

(7) Any extension in the payment of a part of the tax under any provision of the Internal

Revenue Code shall inure to the benefit of, and the tax subject to the extension shall be equitably apportioned among, the persons receiving the property relating to the extension. Any tax benefit derived from the interest paid with respect to the tax shall be equitably apportioned among the persons receiving the property.

[2000 c 129 § 4; 1993 c 73 § 11; 1989 c 40 § 4; 1986 c 63 § 5.]

Notes:

Construction--Severability--1989 c 40: See note following RCW 83.110.010.

RCW 83.110.060 Apportionment between temporary and remainder interests.

No interest in income and no estate for years or for life or other temporary interest in any property or fund is subject to apportionment as between the temporary interest and the remainder. The tax on the temporary interest and the tax, if any, on the remainder is chargeable against the corpus of the property or funds subject to the temporary interest and remainder. No tax shall be paid from a charitable remainder annuity trust or a charitable remainder unitrust described in section 664 of the Internal Revenue Code.

[2000 c 129 § 5; 1989 c 40 § 5; 1986 c 63 § 6.]

Notes:

Construction--Severability--1989 c 40: See note following RCW 83.110.010.

RCW 83.110.070 Time for recovery of tax from persons interested in the estate--Exoneration of fiduciary--Recovery of uncollectible taxes.

Neither the fiduciary nor other person required to pay the tax is under any duty to institute any suit or proceeding to recover from any person interested in the estate the amount of the tax apportioned to that person until the expiration of the three months next following final determination of the tax. A fiduciary or other person required to pay the tax who institutes the suit or proceeding within a reasonable time after the three months' period is not subject to any liability or surcharge because any portion of the tax apportioned to any person interested in the estate was collectible at a time following the death of the decedent but thereafter became uncollectible. If the fiduciary or other person required to pay the tax cannot collect from any person interested in the estate the amount of the tax apportioned to the person, the amount not recoverable shall be paid from the residuary estate. To the extent that the residuary estate is not adequate, the balance shall be equitably apportioned among the other persons interested in the estate who are subject to apportionment.

[1986 c 63 § 7.]

RCW 83.110.080 Action by nonresident--Reciprocity.

Subject to this section a fiduciary acting in another state or a person required to pay the tax who is domiciled in another state may institute an action in the courts of this state and may

recover a proportionate amount of the federal estate tax or an estate tax payable to another state or of a death duty due by a decedent's estate to another state from a person interested in the estate who is either domiciled in this state or who owns property in this state subject to attachment or execution. For the purposes of the action the determination of apportionment by the court having jurisdiction of the administration of the decedent's estate in the other state is prima facie correct. The provisions of this section apply only if the state in which the determination of apportionment was made affords a substantially similar remedy.

[1986 c 63 § 8.]

RCW 83.110.090 Coordination with federal law.

If the liabilities of persons interested in the estate as prescribed by this chapter differ from those which result under the federal estate tax law, for example, section 2206, 2207, 2207A, or 2207B of the Internal Revenue Code, the liabilities imposed by the federal law will control and the balance of this chapter shall apply as if the resulting liabilities had been prescribed in this chapter. Nothing in this chapter affects the right of a personal representative to recover payments due an estate pursuant to the provisions of the Internal Revenue Code.

RCW 84.04.150 "Computer software" and allied terms.

(1) "Computer software" is a set of directions or instructions that exist in the form of machine-readable or human-readable code, is recorded on physical or electronic medium, and directs the operation of a computer system or other machinery or equipment. "Computer software" includes the associated documentation that describes the code and its use, operation, and maintenance and typically is delivered with the code to the user. "Computer software" does not include data bases.

A "data base" is text, data, or other information that may be accessed or managed with the aid of computer software but that does not itself have the capacity to direct the operation of a computer system or other machinery or equipment.

(2) "Custom computer software" is computer software that is designed for a single person's or a small group of persons' specific needs. "Custom computer software" includes modifications to canned computer software and can be developed in-house by the user, by

outside developers, or by both.

A group of four or more persons is presumed not to be a small group of persons for the purposes of this subsection unless each of the persons is affiliated through common control and ownership. The department may by rule provide a definition of small group and affiliates consistent with this subsection.

For purposes of this subsection, "person" has the meaning given in RCW 82.04.030.

(3) "Canned computer software," occasionally known as prewritten or standard software, is computer software that is designed for and distributed "as is" for multiple persons who can use it without modifying its code and that is not otherwise considered custom computer software.

(4) "Embedded software" is computer software that resides permanently on some internal memory device in a computer system or other machinery or equipment, that is not removable in the ordinary course of operation, and that is of a type necessary for the routine operation of the computer system or other machinery or equipment. "Embedded software" may be either canned or custom computer software.

(5) "Retained rights" are any and all rights, including intellectual property rights such as those rights arising from copyrights, patents, and trade secret laws, that are owned or are held under contract or license by a computer software developer, author, inventor, publisher, licensor, sublicensor, or distributor.

(6) A "golden" or "master" copy of computer software is a copy of computer software from which a computer software developer, author, inventor, publisher, licensor, sublicensor, or distributor makes copies for sale or license.

[1991 sp.s. c 29 § 2.]

Notes:

Findings--Intent--1991 sp.s. c 29: "(1) The legislature finds that:

(a) Computer software is a class of personal property that is itself comprised of several different subclasses of personal property which can be distinguished by their use, development, distribution, and relationship to hardware, and includes custom software, canned software, and embedded software;

(b) Because different classes of software serve different needs, may be used by different taxpayers, and present different administrative burdens on both the state and the citizens of the state of Washington, the different classes of software should be treated differently for tax purposes;

(c) Canned software should continue to be subject to property tax, but, because of its rapid obsolescence, should be subject to tax for only two years; and the taxable interest should reside with the end user;

(d) Canned software that has been modified should continue to be taxable on the canned portion of the software;

(e) Embedded software should continue to be taxed as part of the machinery or equipment of which it is a part;

(f) Custom software should be exempt from taxation, in part because of the difficulty in accurately and uniformly determining the value of such software;

(g) Retained rights in computer software should be exempt from the property tax in part because of the difficulty in accurately and uniformly determining the value of such software, the difficulty in determining the scope and situs of such rights, and the adverse economic consequences to the state of taxing such rights; and

(h) So-called "golden" or "master" copies of software should be exempt from property tax like business inventory.

(2) It is the intent of the legislature that:

(a) The voluntary compliance nature of the personal property tax system should be preserved and nothing in this act shall be construed to reduce the taxpayer's obligation to fully and accurately list all taxable computer software;

(b) Computer software should be listed and assessed for property taxes payable in 1991 and 1992 in the same manner and to the same extent as computer software was listed and assessed for taxes due in 1989;

(c) The definition of custom software, golden or master copies, and retained rights shall be liberally construed in accordance with the purposes of this act;

(d) This act shall provide fairness, equity, and uniformity in the property tax treatment of each class of computer software in the state of Washington; and

(e) No inference should be taken from this act regarding the application of the property tax to data bases." [1991 sp.s. c 29 § 1.]

Severability--1991 sp.s. c 29: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1991 sp.s. c 29 § 8.]

Application--Taxes collected in 1993--1991 sp.s. c 29: "Sections 2 through 4 and 6 of this act apply to taxes levied for collection in 1993, and thereafter." [1991 sp.s. c 29 § 9.]

(2) Formulate such rules and processes for the assessment of both real and personal property for purposes of taxation as are best calculated to secure uniform assessment of property of like kind and value in the various taxing units of the state, and relative uniformity between properties of different kinds and values in the same taxing unit. The department of revenue shall furnish to each county assessor a copy of the rules and processes so formulated. The department of revenue may, from time to time, make such changes in the rules and processes so formulated as it deems advisable to accomplish the purpose thereof, and it shall inform all county assessors of such changes.

(3) Visit the counties in the state, unless prevented by necessary official duties, for the investigation of the methods adopted by the county assessors and county boards of commissioners in the assessment and equalization of taxation of real and personal property; carefully examine into all cases where evasion of property taxation is alleged, and ascertain where existing laws are defective, or improperly or negligently administered.

The department of revenue shall have power to direct and to order any county board of equalization to raise or lower the valuation of any taxable property, or to add any property to the assessment list, or to perform or complete any other duty required by statute. The department of revenue may require any such board of equalization to reconvene after its adjournment for the purpose of performing any order or requirement made by the department of revenue and may make such orders as it shall determine to be just and necessary. The department may require any county board of equalization to reconvene at any time for the purpose of performing or completing any duty or taking any action it might lawfully have performed or taken at any of its previous meetings. If such board of equalization shall fail or refuse forthwith to comply with any such order or requirement of the department of revenue, the

department of revenue shall have power to take any other appropriate action, or to make such correction or change in the assessment list, and such corrections and changes shall be a part of the record of the proceedings of the said board of equalization: PROVIDED, That in all cases where the department of revenue shall raise the valuation of any property or add property to the assessment list, it shall give notice either for the same time and in the same manner as is now required in like cases of county boards of equalization, or if it shall deem such method of giving notice impracticable it shall give notice by publication thereof in a newspaper of general circulation within the county in which the property affected is situated once each week for two consecutive weeks, and the department of revenue shall not proceed to raise such valuation or add such property to the assessment list until a period of five days shall have elapsed subsequent to the date of the last publication of such notice: PROVIDED FURTHER, That appeals to the board of tax appeals by any taxpayer or taxing unit concerning any action of the county board of equalization shall not raise the valuation of the property to an amount greater than the larger of either the valuation of the property by the county assessor or the valuation of the property assigned by the county board of equalization. Such notice shall give the legal description of each tract of land involved, or a general description in case of personal property; the tax record-owner thereof; the assessed value thereof determined by the county board of equalization in case the property is on the assessment roll; and the assessed value thereof as determined by the department of revenue and shall state that the department of revenue proposes to increase the assessed valuation of such property to the amount stated and to add such property to the assessment list at the assessed valuation stated. The necessary expense incurred by the department of revenue in making such reassessment and/or adding such property to the assessment list shall be borne by the county or township in which the property as reassessed and/or so added to the assessment list is situated and shall be paid out of the proper funds of such county upon the order of the department of revenue.

RCW 84.08.210 Confidentiality and privilege of tax information--Exceptions--Penalty.

(1) For purposes of this section, "tax information" means confidential income data and proprietary business information obtained by the department in the course of carrying out the duties now or hereafter imposed upon it in this title that has been communicated in confidence in connection with the assessment of property and that has not been publicly disseminated by the taxpayer, the disclosure of which would be either highly offensive to a reasonable person and not a legitimate concern to the public or would result in an unfair competitive disadvantage to the taxpayer.

(2) Tax information is confidential and privileged, and except as authorized by this section, neither the department nor any other person may disclose tax information.

(3) Subsection (2) of this section, however, does not prohibit the department from:

(a) Disclosing tax information to any county assessor or county treasurer;

(b) Disclosing tax information in a civil or criminal judicial proceeding or an administrative proceeding in respect to taxes or penalties imposed under this title or Title 82 RCW or in respect to assessment or valuation for tax purposes of the property to which the information or facts relate;

(c) Disclosing tax information with the written permission of the taxpayer;

(e) Disclosing tax information that is also maintained by another Washington state or local governmental agency as a public record available for inspection and copying under chapter 42.17 RCW or is a document maintained by a court of record not otherwise prohibited from disclosure;

(f) Disclosing tax information to a peace officer as defined in RCW 9A.04.110 or county prosecutor, for official purposes. The disclosure may be made only in response to a search warrant, subpoena, or other court order, unless the disclosure is for the purpose of criminal tax enforcement. A peace officer or county prosecutor who receives the tax information may disclose the tax information only for use in the investigation and a related court proceeding, or in the court proceeding for which the tax information originally was sought; or

(g) Disclosing information otherwise available under chapter 42.17 RCW.

RCW 84.12.360 Basis of apportionment.

The true and fair value of the operating property assessed to a company, as fixed and determined by the department of revenue, shall be apportioned by the department of revenue to the respective counties and to the taxing districts thereof wherein such property is located in the following manner:

(1) Property of all railroad companies other than street railroad companies, telegraph companies and pipe line companies--upon the basis of that proportion of the value of the total operating property within the state which the mileage of track, as classified by the department of revenue (in case of railroads), mileage of wire (in the case of telegraph companies), and mileage of pipe line (in the case of pipe line companies) within each county or taxing district bears to the total mileage thereof within the state, at the end of the calendar year last past. For the purpose of such apportionment the department may classify railroad track.

(2) Property of street railroad companies, telephone companies, electric light and power companies, and gas companies--upon the basis of relative value of the operating property within each county and taxing district to the value of the total operating property within the state to be determined by such factors as the department of revenue shall deem proper.

(3) Planes or other aircraft of airplane companies--upon the basis of such factor or factors of allocation, to be determined by the department of revenue, as will secure a substantially fair and equitable division between counties and other taxing districts.

All other property of airplane companies--upon the basis set forth in subsection (2) of this section.

The basis of apportionment with reference to all public utility companies above prescribed shall not be deemed exclusive and the department of revenue in apportioning values of such companies may also take into consideration such other information, facts, circumstances, or allocation factors as will enable it to make a substantially just and correct valuation of the operating property of such companies within the state and within each county thereof.

New and rehabilitated multiple-unit dwellings in urban centers: RCW 84.14.020.

RCW 84.14.005 Findings.

The legislature finds:

(1) That in many of Washington's urban centers there is insufficient availability of desirable and convenient residential units to meet the needs of a growing number of the public who would live in these urban centers if these desirable, convenient, attractive, and livable places to live were available;

(2) That the development of additional and desirable residential units in these urban centers that will attract and maintain a significant increase in the number of permanent residents in these areas will help to alleviate the detrimental conditions and social liability that tend to exist in the absence of a viable residential population and will help to achieve the planning goals mandated by the growth management act under RCW 36.70A.020; and

(3) That planning solutions to solve the problems of urban sprawl often lack incentive and implementation techniques needed to encourage residential redevelopment in those urban centers lacking sufficient residential opportunities, and it is in the public interest and will benefit, provide, and promote the public health, safety, and welfare to stimulate new or enhanced residential opportunities within urban centers through a tax incentive as provided by this chapter.

[1995 c 375 § 1.]

RCW 84.14.007 Purpose.

It is the purpose of this chapter to encourage increased residential opportunities in cities that are required to plan or choose to plan under the growth management act within urban centers where the legislative body of the affected city has found there is insufficient housing opportunities. It is further the purpose of this chapter to stimulate the construction of new multifamily housing and the rehabilitation of existing vacant and underutilized buildings for multifamily housing in urban centers having insufficient housing opportunities that will increase and improve residential opportunities within these urban centers. To achieve these purposes, this chapter provides for special valuations for eligible improvements associated with multiunit housing in residentially deficient urban centers.

[1995 c 375 § 2.]

RCW 84.14.010 Definitions.

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "City" means either (a) a city or town with a population of at least fifty thousand or (b) the largest city or town, if there is no city or town with a population of at least fifty thousand, located in a county planning under the growth management act.

(2) "Governing authority" means the local legislative authority of a city having jurisdiction over the property for which an exemption may be applied for under this chapter.

(3) "Growth management act" means chapter 36.70A RCW.

(4) "Multiple-unit housing" means a building having four or more dwelling units not designed or used as transient accommodations and not including hotels and motels. Multifamily units may result from new construction or rehabilitated or conversion of vacant, underutilized, or substandard buildings to multifamily housing.

(5) "Owner" means the property owner of record.

(6) "Permanent residential occupancy" means multiunit housing that provides either rental or owner occupancy on a nontransient basis. This includes owner-occupied or rental accommodation that is leased for a period of at least one month. This excludes hotels and motels that predominately offer rental accommodation on a daily or weekly basis.

(7) "Rehabilitation improvements" means modifications to existing structures, that are vacant for twelve months or longer, that are made to achieve a condition of substantial compliance with existing building codes or modification to existing occupied structures which increase the number of multifamily housing units.

(8) "Residential targeted area" means an area within an urban center that has been designated by the governing authority as a residential targeted area in accordance with this chapter.

(9) "Substantial compliance" means compliance with local building or housing code requirements that are typically required for rehabilitation as opposed to new construction.

(10) "Urban center" means a compact identifiable district where urban residents may obtain a variety of products and services. An urban center must contain:

(a) Several existing or previous, or both, business establishments that may include but are

not limited to shops, offices, banks, restaurants, governmental agencies;

(b) Adequate public facilities including streets, sidewalks, lighting, transit, domestic water, and sanitary sewer systems; and

(c) A mixture of uses and activities that may include housing, recreation, and cultural activities in association with either commercial or office, or both, use.

Notes:

Severability--1997 c 429: See note following RCW 36.70A.3201.

RCW 84.14.020 Exemption--Duration--Valuation--Exceptions.

(1) The value of new housing construction, conversion, and rehabilitation improvements qualifying under this chapter is exempt from ad valorem property taxation, for ten successive years beginning January 1 of the year immediately following the calendar year of issuance of the certificate of tax exemption eligibility. However, the exemption does not include the value of land or nonhousing-related improvements not qualifying under this chapter.

(2) In the case of rehabilitation of existing buildings, the exemption does not include the value of improvements constructed prior to the submission of the application required under this chapter. The incentive provided by this chapter is in addition to any other incentives, tax credits, grants, or other incentives provided by law.

(3) This chapter does not apply to increases in assessed valuation made by the assessor on nonqualifying portions of building and value of land nor to increases made by lawful order of a county board of equalization, the department of revenue, or a county, to a class of property throughout the county or specific area of the county to achieve the uniformity of assessment or appraisal required by law.

[1999 c 132 § 1; 1995 c 375 § 5.]

RCW 84.14.030 Application--Requirements.

An owner of property making application under this chapter must meet the following requirements:

(1) The new or rehabilitated multiple-unit housing must be located in a residential targeted area as designated by the city;

(2) The multiple-unit housing must meet the guidelines as adopted by the governing authority that may include height, density, public benefit features, number and size of proposed development, parking, low-income or moderate-income occupancy requirements, and other adopted requirements indicated necessary by the city. The required amenities should be relative to the size of the project and tax benefit to be obtained;

(3) The new, converted, or rehabilitated multiple-unit housing must provide for a minimum of fifty percent of the space for permanent residential occupancy. In the case of existing occupied multifamily development, the multifamily housing must also provide for a

minimum of four additional multifamily units. Existing multifamily vacant housing that has been vacant for twelve months or more does not have to provide additional multifamily units;

(4) New construction multifamily housing and rehabilitation improvements must be completed within three years from the date of approval of the application;

(5) Property proposed to be rehabilitated must be vacant at least twelve months before submitting an application and fail to comply with one or more standards of the applicable state or local building or housing codes on or after July 23, 1995; and

(6) The applicant must enter into a contract with the city approved by the governing body under which the applicant has agreed to the implementation of the development on terms and conditions satisfactory to the governing authority.

[1997 c 429 § 42; 1995 c 375 § 6.]

Notes:

Severability--1997 c 429: See note following RCW 36.70A.3201.

RCW 84.14.040 Designation of residential targeted area--Criteria--Local designation--Hearing--Standards, guidelines.

(1) The following criteria must be met before an area may be designated as a residential targeted area:

(a) The area must be within an urban center, as determined by the governing authority;

(b) The area must lack, as determined by the governing authority, sufficient available, desirable, and convenient residential housing to meet the needs of the public who would be likely to live in the urban center, if the desirable, attractive, and livable places to live were available; and

(c) The providing of additional housing opportunity in the area, as determined by the governing authority, will assist in achieving one or more of the stated purposes of this chapter.

(2) For the purpose of designating a residential targeted area or areas, the governing authority may adopt a resolution of intention to so designate an area as generally described in the resolution. The resolution must state the time and place of a hearing to be held by the governing authority to consider the designation of the area and may include such other information pertaining to the designation of the area as the governing authority determines to be appropriate to apprise the public of the action intended.

(3) The governing authority shall give notice of a hearing held under this chapter by publication of the notice once each week for two consecutive weeks, not less than seven days, nor more than thirty days before the date of the hearing in a paper having a general circulation in the city where the proposed residential targeted area is located. The notice must state the time, date, place, and purpose of the hearing and generally identify the area proposed to be designated as a residential targeted area.

(4) Following the hearing, or a continuance of the hearing, the governing authority may designate all or a portion of the area described in the resolution of intent as a residential targeted area if it finds, in its sole discretion, that the criteria in subsections (1) through (3) of this section

have been met.

(5) After designation of a residential targeted area, the governing authority shall adopt standards and guidelines to be utilized in considering applications and making the determinations required under RCW 84.14.060. The standards and guidelines must establish basic requirements for both new construction and rehabilitation including application process and procedures. These guidelines may include the following:

- (a) Requirements that address demolition of existing structures and site utilization; and
- (b) Building requirements that may include elements addressing parking, height, density, environmental impact, and compatibility with the existing surrounding property and such other amenities as will attract and keep permanent residents and that will properly enhance the livability of the residential targeted area in which they are to be located.

[1995 c 375 § 7.]

RCW 84.14.050 Application--Procedures.

An owner of property seeking tax incentives under this chapter must complete the following procedures:

(1) In the case of rehabilitation or where demolition or new construction is required, the owner shall secure from the governing authority or duly authorized agent, before commencement of rehabilitation improvements or new construction, verification of property noncompliance with applicable building and housing codes;

(2) In the case of new and rehabilitated multifamily housing, the owner shall apply to the city on forms adopted by the governing authority. The application must contain the following:

(a) Information setting forth the grounds supporting the requested exemption including information indicated on the application form or in the guidelines;

(b) A description of the project and site plan, including the floor plan of units and other information requested;

(c) A statement that the applicant is aware of the potential tax liability involved when the property ceases to be eligible for the incentive provided under this chapter;

(3) The applicant must verify the application by oath or affirmation; and

(4) The application must be accompanied by the application fee, if any, required under RCW 84.14.080. The governing authority may permit the applicant to revise an application before final action by the governing authority.

Notes:

Severability--1997 c 429: See note following RCW 36.70A.3201.

RCW 84.14.060 Approval--Required findings.

The duly authorized administrative official or committee of the city may approve the application if it finds that:

(1) A minimum of four new units are being constructed or in the case of occupied rehabilitation or conversion a minimum of four additional multifamily units are being developed;

(2) The proposed project is or will be, at the time of completion, in conformance with all local plans and regulations that apply at the time the application is approved;

(3) The owner has complied with all standards and guidelines adopted by the city under this chapter; and

(4) The site is located in a residential targeted area of an urban center that has been designated by the governing authority in accordance with procedures and guidelines indicated in RCW 84.14.040.

[1995 c 375 § 9.]

RCW 84.14.070 Processing--Approval--Denial--Appeal.

(1) The governing authority or an administrative official or commission authorized by the governing authority shall approve or deny an application filed under this chapter within ninety days after receipt of the application.

(2) If the application is approved, the city shall issue the owner of the property a conditional certificate of acceptance of tax exemption. The certificate must contain a statement by a duly authorized administrative official of the governing authority that the property has complied with the required findings indicated in RCW 84.14.050.

(3) If the application is denied by the authorized administrative official or commission authorized by the governing authority, the deciding administrative official or commission shall state in writing the reasons for denial and send the notice to the applicant at the applicant's last known address within ten days of the denial.

(4) Upon denial by a duly authorized administrative official or commission, an applicant may appeal the denial to the governing authority within thirty days after receipt of the denial. The appeal before the governing authority will be based upon the record made before the administrative official with the burden of proof on the applicant to show that there was no substantial evidence to support the administrative official's decision. The decision of the governing body in denying or approving the application is final.

[1995 c 375 § 10.]

RCW 84.14.080 Fees.

The governing authority may establish an application fee. This fee may not exceed an amount determined to be required to cover the cost to be incurred by the governing authority and the assessor in administering this chapter. The application fee must be paid at the time the application for limited exemption is filed. If the application is approved, the governing authority shall pay the application fee to the county assessor for deposit in the county current expense fund, after first deducting that portion of the fee attributable to its own administrative costs in processing the application. If the application is denied, the governing authority may retain that portion of the application fee attributable to its own administrative costs and refund the balance

to the applicant.

[1995 c 375 § 11.]

RCW 84.14.090 Filing requirements upon completion--Owner, city--Determination by city--Notice of intention of city not to file--Extension of deadline--Appeal.

(1) Upon completion of rehabilitation or new construction for which an application for limited exemption under this chapter has been approved and after issuance of the certificate of occupancy, the owner shall file with the city the following:

(a) A statement of the amount of rehabilitation or construction expenditures made with respect to each housing unit and the composite expenditures made in the rehabilitation or construction of the entire property;

(b) A description of the work that has been completed and a statement that the rehabilitation improvements or new construction on the owner's property qualify the property for limited exemption under this chapter; and

(c) A statement that the work has been completed within three years of the issuance of the conditional certificate of tax exemption.

(2) Within thirty days after receipt of the statements required under subsection (1) of this section, the authorized representative of the city shall determine whether the work completed is consistent with the application and the contract approved by the governing authority and is qualified for limited exemption under this chapter. The city shall also determine which specific improvements completed meet the requirements and required findings.

(3) If the rehabilitation, conversion, or construction is completed within three years of the date the application for limited exemption is filed under this chapter, or within an authorized extension of this time limit, and the authorized representative of the city determines that improvements were constructed consistent with the application and other applicable requirements and the owner's property is qualified for limited exemption under this chapter, the city shall file the certificate of tax exemption with the county assessor within ten days of the expiration of the thirty-day period provided under subsection (2) of this section.

(4) The authorized representative of the city shall notify the applicant that a certificate of tax exemption is not going to be filed if the representative determines that:

(a) The rehabilitation or new construction was not completed within three years of the application date, or within any authorized extension of the time limit;

(b) The improvements were not constructed consistent with the application or other applicable requirements; or

(c) The owner's property is otherwise not qualified for limited exemption under this chapter.

(5) If the authorized representative of the city finds that construction or rehabilitation of multiple-unit housing was not completed within the required time period due to circumstances beyond the control of the owner and that the owner has been acting and could reasonably be expected to act in good faith and with due diligence, the governing authority or the city official authorized by the governing authority may extend the deadline for completion of construction or

rehabilitation for a period not to exceed twenty-four consecutive months.

(6) The governing authority may provide by ordinance for an appeal of a decision by the deciding officer or authority that an owner is not entitled to a certificate of tax exemption to the governing authority, a hearing examiner, or other city officer authorized by the governing authority to hear the appeal in accordance with such reasonable procedures and time periods as provided by ordinance of the governing authority. The owner may appeal a decision by the deciding officer or authority that is not subject to local appeal or a decision by the local appeal authority that the owner is not entitled to a certificate of tax exemption in superior court under RCW 34.05.510 through 34.05.598, if the appeal is filed within thirty days of notification by the city to the owner of the decision being challenged.

[1995 c 375 § 12.]

RCW 84.14.100 Report--Filing.

Thirty days after the anniversary of the date of the certificate of tax exemption and each year for a period of ten years, the owner of the rehabilitated or newly constructed property shall file with a designated agent of the city an annual report indicating the following:

- (1) A statement of occupancy and vacancy of the rehabilitated or newly constructed property during the twelve months ending with the anniversary date;
- (2) A certification by the owner that the property has not changed use since the date of the certificate approved by the city; and
- (3) A description of changes or improvements constructed after issuance of the certificate of tax exemption.

[1995 c 375 § 13.]

RCW 84.14.110 Cancellation of exemption--Notice by owner of change in use--Additional tax--Penalty--Interest--Lien--Notice of cancellation--Appeal--Correction of tax rolls.

(1) If improvements have been exempted under this chapter, the improvements continue to be exempted and not be converted to another use for at least ten years from date of issuance of the certificate of tax exemption. If the owner intends to convert the multifamily development to another use, the owner shall notify the assessor within sixty days of the change in use. If, after a certificate of tax exemption has been filed with the county assessor the city or assessor or agent discovers that a portion of the property is changed or will be changed to a use that is other than residential or that housing or amenities no longer meet the requirements as previously approved or agreed upon by contract between the governing authority and the owner and that the multifamily housing, or a portion of the housing, no longer qualifies for the exemption, the tax exemption must be canceled and the following must occur:

(a) Additional real property tax must be imposed upon the value of the nonqualifying improvements in the amount that would normally be imposed, plus a penalty must be imposed amounting to twenty percent. This additional tax is calculated based upon the difference

between the property tax paid and the property tax that would have been paid if it had included the value of the nonqualifying improvements dated back to the date that the improvements were converted to a nonmultifamily use;

(b) The tax must include interest upon the amounts of the additional tax at the same statutory rate charged on delinquent property taxes from the dates on which the additional tax could have been paid without penalty if the improvements had been assessed at a value without regard to this chapter; and

(c) The additional tax owed together with interest and penalty must become a lien on the land and attach at the time the property or portion of the property is removed from multifamily use or the amenities no longer meet applicable requirements, and has priority to and must be fully paid and satisfied before a recognizance, mortgage, judgment, debt, obligation, or responsibility to or with which the land may become charged or liable. The lien may be foreclosed upon expiration of the same period after delinquency and in the same manner provided by law for foreclosure of liens for delinquent real property taxes. An additional tax unpaid on its due date is delinquent. From the date of delinquency until paid, interest must be charged at the same rate applied by law to delinquent ad valorem property taxes.

(2) Upon a determination that a tax exemption is to be canceled for a reason stated in this section, the governing authority shall notify the record owner of the property as shown by the tax rolls by mail, return receipt requested, of the determination to cancel the exemption. The owner may appeal the determination to the governing authority within thirty days by filing a notice of appeal with the clerk of the governing authority, which notice must specify the factual and legal basis on which the determination of cancellation is alleged to be erroneous. The governing authority or a hearing examiner or other official authorized by the governing authority may hear the appeal. At the hearing, all affected parties may be heard and all competent evidence received. After the hearing, the deciding body or officer shall either affirm, modify, or repeal the decision of cancellation of exemption based on the evidence received. An aggrieved party may appeal the decision of the deciding body or officer to the superior court under RCW 34.05.510 through 34.05.598.

(3) Upon determination by the governing authority or authorized representative to terminate an exemption, the county officials having possession of the assessment and tax rolls shall correct the rolls in the manner provided for omitted property under RCW 84.40.080. The county assessor shall make such a valuation of the property and improvements as is necessary to permit the correction of the rolls. The owner may appeal the valuation to the county board of equalization under chapter 84.48 RCW and according to the provisions of RCW 84.40.038. If there has been a failure to comply with this chapter, the property must be listed as an omitted assessment for assessment years beginning January 1 of the calendar year in which the noncompliance first occurred, but the listing as an omitted assessment may not be for a period more than three calendar years preceding the year in which the failure to comply was discovered.

RCW 84.16.050 Basis of valuation--Apportionment of system value to state.

The department of revenue may, in determining the true and fair value of the operating property to be placed on the assessment roll value the entire property as a unit. If the company owns, leases, operates or uses property partly within and partly without the state, the department of revenue may determine the value of the operating property within this state by the proportion that the value of such property bears to the value of the entire operating property of the company, both within and without this state. In determining the operating property which is located within this state the department of revenue may consider and base such determination on the proportion which the number of car miles of the various classes of cars made in this state bears to the total number of car miles made by the same cars within and without this state, or to the total number of car miles made by all cars of the various classes within and without this state. If the value of the operating property of the company cannot be fairly determined in such manner the department of revenue may use any other reasonable and fair method to determine the value of the operating property of the company within this state.

No assessment shall be invalid by a mistake in the name of the company assessed, by omission of the name of the owner or by the entry of a name other than that of the true owner. (1) If all the operating property of the company is situated entirely within a county and none of such property is located within, extends into, or through or is operated into or through any other county, the entire value thereof shall be apportioned to the county within which such property is situated, located, and operated.

(2) If the operating property of any company is situated or located within, extends into or is operated into or through more than one county, the value thereof shall be apportioned to the respective counties into or through which its cars are operated in the proportion that the length of main line track of the respective railroads moving such cars in such counties bears to the total length of main line track of such respective railroads in this state.

(3) If the property of any company is of such character that it will not be reasonable, feasible or fair to apportion the value as hereinabove provided, the value thereof shall be apportioned between the respective counties into or through which such property extends or is operated or in which the same is located in such manner as may be reasonable, feasible and fair.

RCW 84.26.010 Legislative findings.

The legislature finds and declares that it is in the public interest of the people of the state of Washington to encourage maintenance, improvement, and preservation of privately owned historic landmarks as the state approaches its Centennial year of 1989. To achieve this purpose, this chapter provides special valuation for improvements to historic property.

[1985 c 449 § 1.]

RCW 84.26.020 Definitions.

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Historic property" means real property together with improvements thereon, except property listed in a register primarily for objects buried below ground, which is:

(a) Listed in a local register of historic places created by comprehensive ordinance, certified by the secretary of the interior as provided in P.L. 96-515; or

(b) Listed in the national register of historic places.

(2) "Cost" means the actual cost of rehabilitation, which cost shall be at least twenty-five percent of the assessed valuation of the historic property, exclusive of the assessed value attributable to the land, prior to rehabilitation.

(3) "Special valuation" means the determination of the assessed value of the historic property subtracting, for up to ten years, such cost as is approved by the local review board.

(4) "State review board" means the advisory council on historic preservation established under chapter 27.34 RCW, or any successor agency designated by the state to act as the state historic preservation review board under federal law.

(5) "Local review board" means a local body designated by the local legislative authority.

(6) "Owner" means the owner of record.

(7) "Rehabilitation" is the process of returning a property to a state of utility through repair or alteration, which makes possible an efficient contemporary use while preserving those portions and features of the property which are significant to its architectural and cultural values.

[1986 c 221 § 1; 1985 c 449 § 2.]

RCW 84.26.030 Special valuation criteria.

Four criteria must be met for special valuation under this chapter. The property must:

(1) Be an historic property;

(2) Fall within a class of historic property determined eligible for special valuation by the local legislative authority;

(3) Be rehabilitated at a cost which meets the definition set forth in RCW 84.26.020(2) within twenty-four months prior to the application for special valuation; and

(4) Be protected by an agreement between the owner and the local review board as described in RCW 84.26.050(2).

[1986 c 221 § 2; 1985 c 449 § 3.]

RCW 84.26.040 Application--Fees.

An owner of property desiring special valuation under this chapter shall apply to the assessor of the county in which the property is located upon forms prescribed by the department of revenue and supplied by the county assessor. The application form shall include a statement that the applicant is aware of the potential tax liability involved when the property ceases to be eligible for special valuation. Applications shall be made no later than October 1 of the calendar year preceding the first assessment year for which classification is requested. The assessor may charge only such fees as are necessary to process and record documents pursuant to this chapter.

[1986 c 221 § 3; 1985 c 449 § 4.]

RCW 84.26.050 Referral of application to local review board--Agreement--Approval or denial.

(1) Within ten days after the filing of the application in the county assessor's office, the county assessor shall refer each application for classification to the local review board.

(2) The review board shall approve the application if the property meets the criterion of RCW 84.26.030 and is not altered in a way which adversely affects those elements which qualify it as historically significant, and the owner enters into an agreement with the review board which requires the owner for the ten-year period of the classification to:

(a) Monitor the property for its continued qualification for the special valuation;

(b) Comply with rehabilitation plans and minimum standards of maintenance as defined in the agreement;

(c) Make the historic aspects of the property accessible to public view one day a year, if the property is not visible from the public right of way;

(d) Apply to the local review board for approval or denial of any demolition or alteration; and

(e) Comply with any other provisions in the original agreement as may be appropriate.

(3) Once an agreement between an owner and a review board has become effective pursuant to this chapter, there shall be no changes in standards of maintenance, public access, alteration, or report requirements, or any other provisions of the agreement, during the period of the classification without the approval of all parties to the agreement.

(4) An application for classification as an eligible historic property shall be approved or denied by the local review board before December 31 of the calendar year in which the

application is made.

(5) The local review board is authorized to examine the records of applicants.

[1986 c 221 § 4; 1985 c 449 § 5.]

RCW 84.26.060 Notice to assessor of approval--Certification and filing--Notation of special valuation.

(1) The review board shall notify the county assessor and the applicant of the approval or denial of the application.

(2) If the local review board determines that the property qualifies as eligible historic property, the review board shall certify the fact in writing and shall file a copy of the certificate with the county assessor within ten days. The certificate shall state the facts upon which the approval is based.

(3) The assessor shall record the certificate with the county auditor.

(4) The assessor, as to any historic property, shall value the property under RCW 84.26.070 and, each year the historic property is classified and so valued, shall enter on the assessment list and tax roll that the property is being specially valued as historic property.

[1985 c 449 § 6.]

RCW 84.26.070 Valuation.

(1) The county assessor shall, for ten consecutive assessment years following the calendar year in which application is made, place a special valuation on property classified as eligible historic property.

(2) The entitlement of property to the special valuation provisions of this section shall be determined as of January 1. If property becomes disqualified for the special valuation for any reason, the property shall receive the special valuation for that part of any year during which it remained qualified or the owner was acting in the good faith belief that the property was qualified.

(3) At the conclusion of special valuation, the cost shall be considered as new construction.

[1986 c 221 § 5; 1985 c 449 § 7.]

RCW 84.26.080 Duration of special valuation--Notice of disqualification.

(1) When property has once been classified and valued as eligible historic property, it shall remain so classified and be granted the special valuation provided by RCW 84.26.070 for ten years or until the property is disqualified by:

(a) Notice by the owner to the assessor to remove the special valuation;

(b) Sale or transfer to an ownership making it exempt from property taxation; or

(c) Removal of the special valuation by the assessor upon determination by the local

review board that the property no longer qualifies as historic property or that the owner has failed to comply with the conditions established under RCW 84.26.050.

(2) The sale or transfer to a new owner or transfer by reason of death of a former owner to a new owner does not disqualify the property from the special valuation provided by RCW 84.26.070 if:

(a) The property continues to qualify as historic property; and

(b) The new owner files a notice of compliance with the assessor of the county in which the property is located. Notice of compliance forms shall be prescribed by the state department of revenue and supplied by the county assessor. The notice shall contain a statement that the new owner is aware of the special valuation and of the potential tax liability involved when the property ceases to be valued as historic property under this chapter. The signed notice of compliance shall be attached to the real estate excise tax affidavit provided for in RCW 82.45.150. If the notice of compliance is not signed by the new owner and attached to the real estate excise tax affidavit, all additional taxes calculated pursuant to RCW 84.26.090 shall become due and payable by the seller or transferor at time of sale. The county auditor shall not accept an instrument of conveyance of specially valued historic property for filing or recording unless the new owner has signed the notice of compliance or the additional tax has been paid, as evidenced by the real estate excise tax stamp affixed thereto by the treasurer.

(3) When the property ceases to qualify for the special valuation the owner shall immediately notify the state or local review board.

(4) Before the additional tax or penalty imposed by RCW 84.26.090 is levied, in the case of disqualification, the assessor shall notify the taxpayer by mail, return receipt requested, of the disqualification.

RCW 84.33.010 Legislative findings.

As a result of the study and analysis of systems of taxation of standing timber and forest lands by the forest tax committee pursuant to Senate Concurrent Resolution No. 30 of the 41st session of the legislature, and the recommendations of the committee based thereon, the legislature hereby finds that:

(1) The public welfare requires that this state's system for taxation of timber and forest lands be modernized to assure the citizens of this state and its future generations the advantages to be derived from the continuous production of timber and forest products from the significant area of privately owned forests in this state. It is this state's policy to encourage forestry and restocking and reforestation of such forests so that present and future generations will enjoy the benefits which forest areas provide in enhancing water supply, in minimizing soil erosion, storm and flood damage to persons or property, in providing a habitat for wild game, in providing scenic and recreational spaces, in maintaining land areas whose forests contribute to the natural ecological equilibrium, and in providing employment and profits to its citizens and raw materials for products needed by everyone.

(2) The combination of variations in quantities, qualities and locations of timber and forest lands, the fact that market areas for timber products are nation-wide and world-wide and the unique long term nature of investment costs and risks associated with growing timber, all make exceedingly difficult the function of valuing and assessing timber and forest lands.

(3) The existing ad valorem property tax system is unsatisfactory for taxation of standing timber and forest land and will significantly frustrate, to an ever increasing degree with the passage of time, the perpetual enjoyment of the benefits enumerated above.

(4) For these reasons it is desirable, in exercise of the powers to promote the general welfare and to impose taxes; that

(a) the ad valorem system for taxing timber be modified and discontinued in stages over a three year period during which such system will be replaced by one under which timber will be

taxed on the basis of stumpage value at the time of harvest, and

(b) forest land remain under the ad valorem taxation system but be taxed only as provided in this chapter and RCW 28A.150.250.

RCW 84.33.035 Definitions.

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Agricultural methods" means the cultivation of trees that are grown on land prepared by intensive cultivation and tilling, such as irrigating, plowing, or turning over the soil, and on which all unwanted plant growth is controlled continuously for the exclusive purpose of raising trees such as Christmas trees and short-rotation hardwoods.

(2) "Average rate of inflation" means the annual rate of inflation as determined by the department averaged over the period of time as provided in RCW 84.33.220 (1) and (2). This rate shall be published in the state register by the department not later than January 1st of each year for use in that assessment year.

(3) "Composite property tax rate" for a county means the total amount of property taxes levied upon forest lands by all taxing districts in the county other than the state, divided by the total assessed value of all forest land in the county.

(4) "Forest land" is synonymous with "designated forest land" and means any parcel of land that is twenty or more acres or multiple parcels of land that are contiguous and total twenty or more acres that is or are devoted primarily to growing and harvesting timber. Designated forest land means the land only and does not include a residential homesite. The term includes land used for incidental uses that are compatible with the growing and harvesting of timber but no more than ten percent of the land may be used for such incidental uses. It also includes the land on which appurtenances necessary for the production, preparation, or sale of the timber products exist in conjunction with land producing these products.

(5) "Harvested" means the time when in the ordinary course of business the quantity of timber by species is first definitely determined. The amount harvested shall be determined by the Scribner Decimal C Scale or other prevalent measuring practice adjusted to arrive at substantially equivalent measurements, as approved by the department.

(6) "Harvester" means every person who from the person's own land or from the land of another under a right or license granted by lease or contract, either directly or by contracting with others for the necessary labor or mechanical services, fells, cuts, or takes timber for sale or for commercial or industrial use. When the United States or any instrumentality thereof, the state, including its departments and institutions and political subdivisions, or any municipal corporation therein so fells, cuts, or takes timber for sale or for commercial or industrial use, the harvester is the first person other than the United States or any instrumentality thereof, the state,

including its departments and institutions and political subdivisions, or any municipal corporation therein, who acquires title to or a possessory interest in the timber. The term "harvester" does not include persons performing under contract the necessary labor or mechanical services for a harvester.

(7) "Harvesting and marketing costs" means only those costs directly associated with harvesting the timber from the land and delivering it to the buyer and may include the costs of disposing of logging residues. Any other costs that are not directly and exclusively related to harvesting and marketing of the timber, such as costs of permanent roads or costs of reforesting the land following harvest, are not harvesting and marketing costs.

(8) "Incidental use" means a use of designated forest land that is compatible with its purpose for growing and harvesting timber. An incidental use may include a gravel pit, a shed or land used to store machinery or equipment used in conjunction with the timber enterprise, and any other use that does not interfere with or indicate that the forest land is no longer primarily being used to grow and harvest timber.

(9) "Local government" means any city, town, county, water-sewer district, public utility district, port district, irrigation district, flood control district, or any other municipal corporation, quasi-municipal corporation, or other political subdivision authorized to levy special benefit assessments for sanitary or storm sewerage systems, domestic water supply or distribution systems, or road construction or improvement purposes.

(10) "Local improvement district" means any local improvement district, utility local improvement district, local utility district, road improvement district, or any similar unit created by a local government for the purpose of levying special benefit assessments against property specially benefited by improvements relating to the districts.

(11) "Owner" means the party or parties having the fee interest in land, except where land is subject to a real estate contract "owner" means the contract vendee.

(12) "Primarily" or "primary use" means the existing use of the land is so prevalent that when the characteristic use of the land is evaluated any other use appears to be conflicting or nonrelated.

(13) "Short-rotation hardwoods" means hardwood trees, such as but not limited to hybrid cottonwoods, cultivated by agricultural methods in growing cycles shorter than fifteen years.

(14) "Small harvester" means every person who from his or her own land or from the land of another under a right or license granted by lease or contract, either directly or by contracting with others for the necessary labor or mechanical services, fells, cuts, or takes timber for sale or for commercial or industrial use in an amount not exceeding two million board feet in a calendar year. When the United States or any instrumentality thereof, the state, including its departments and institutions and political subdivisions, or any municipal corporation therein so fells, cuts, or takes timber for sale or for commercial or industrial use, not exceeding these amounts, the small harvester is the first person other than the United States or any instrumentality thereof, the state, including its departments and institutions and political subdivisions, or any municipal corporation therein, who acquires title to or a possessory interest in the timber. Small harvester does not include persons performing under contract the necessary labor or mechanical services for a harvester, and it does not include the harvesters of Christmas

trees or short-rotation hardwoods.

(15) "Special benefit assessments" means special assessments levied or capable of being levied in any local improvement district or otherwise levied or capable of being levied by a local government to pay for all or part of the costs of a local improvement and which may be levied only for the special benefits to be realized by property by reason of that local improvement.

(16) "Stumpage value of timber" means the appropriate stumpage value shown on tables prepared by the department under RCW 84.33.091, provided that for timber harvested from public land and sold under a competitive bidding process, stumpage value shall mean the actual amount paid to the seller in cash or other consideration. Whenever payment for the stumpage includes considerations other than cash, the value shall be the fair market value of the other consideration. If the other consideration is permanent roads, the value of the roads shall be the appraised value as appraised by the seller.

(17) "Timber" means forest trees, standing or down, on privately or publicly owned land, and except as provided in RCW 84.33.170 includes Christmas trees and short-rotation hardwoods.

(18) "Timber assessed value" for a county means a value, calculated by the department before October 1st of each year, equal to the total stumpage value of timber harvested from privately owned land in the county during the most recent four calendar quarters for which the information is available multiplied by a ratio. The numerator of the ratio is the rate of tax imposed by the county under RCW 84.33.051 for the year of the calculation. The denominator of the ratio is the composite property tax rate for the county for taxes due in the year of the calculation, expressed as a percentage of assessed value.

(19) "Timber assessed value" for a taxing district means the timber assessed value for the county multiplied by a ratio. The numerator of the ratio is the total assessed value of forest land in the taxing district. The denominator is the total assessed value of forest land in the county. As used in this section, "assessed value of forest land" means the assessed value of forest land for taxes due in the year the timber assessed value for the county is calculated.

(20) "Timber management plan" means a plan prepared by a trained forester, or any other person with adequate knowledge of timber management practices, concerning the use of the land to grow and harvest timber. Such a plan includes:

- (a) A legal description of the forest land;
- (b) A statement that the forest land is held in contiguous ownership of twenty or more acres and is primarily devoted to and used to grow and harvest timber;
- (c) A brief description of the timber on the forest land or, if the timber on the land has been harvested, the owner's plan to restock the land with timber;
- (d) A statement about whether the forest land is also used to graze livestock;
- (e) A statement about whether the land has been used in compliance with the restocking, forest management, fire protection, insect and disease control, and forest debris provisions of Title 76 RCW; and
- (f) If the land has been recently harvested or supports a growth of brush and noncommercial type timber, a description of the owner's plan to restock the forest land within three years.

(1) A small harvester may elect to calculate the tax imposed by this chapter in the manner provided in this section.

(2) Timber shall be considered harvested at the time when in the ordinary course of business the quantity thereof by species is first definitely determined. The amount harvested shall be determined by the Scribner Decimal C Scale or other prevalent measuring practice adjusted to arrive at substantially equivalent measurements, as approved by the department of revenue.

(3) Timber values shall be determined by either of the following methods, whichever is most appropriate to the circumstances of the harvest:

(a) When standing timber is sold on the stump, the taxable value is the actual gross receipts received by the landowner from the sale of the standing timber.

(b) When timber is sold after it has been harvested, the taxable value is the actual gross receipts from sale of the harvested timber minus the costs of harvesting and marketing the timber. When the taxpayer is unable to provide documented proof of harvesting and marketing

costs, this deduction for harvesting and marketing costs shall be a percentage of the gross receipts from sale of the harvested timber as determined by the department of revenue but in no case less than twenty-five percent.

(4) The department of revenue shall prescribe a short filing form which shall be as simple as possible.

RCW 84.33.075 Excise tax on harvesters of timber--Exemption for certain nonprofit organizations, associations, or corporations.

The excise tax imposed by this chapter shall not apply to any timber harvested by a nonprofit organization, association, or corporation from forest lands owned by it, where such lands are exempt from property taxes under RCW 84.36.030, and where all of the income and receipts of the nonprofit organization, association, or corporation derived from such timber sales are used solely for the expense of promoting, operating, and maintaining youth programs which are equally available to all, regardless of race, color, national origin, ancestry, or religious belief.

In order to determine whether the harvesting of timber by a nonprofit organization, association, or corporation is exempt, the director of the department of revenue shall have access to its books.

For the purposes of this section, a "nonprofit" organization, association, or corporation is one: (1) Which pays no part of its income directly or indirectly to its members, stockholders, officers, directors, or trustees except in the form of services rendered by the organization, association, or corporation in accordance with its purposes and bylaws; and (2) which pays salary or compensation to its officers only for actual services rendered, and at levels comparable to the salary or compensation of like positions within the public services of the state.

RCW 84.33.0775 Timber harvest tax credit.

(1) A taxpayer is allowed a credit against the tax imposed under RCW 84.33.041 for timber harvested on and after January 1, 2000, under a forest practices notification filed or application approved under RCW 76.09.050 and subject to enhanced aquatic resources requirements.

(2)(a) For a person other than a small harvester who elects to calculate tax under RCW 84.33.074, the credit is equal to the stumpage value of timber harvested for sale or for commercial or industrial use multiplied by eight-tenths of one percent.

(b) For a small harvester who elects to calculate tax under RCW 84.33.074, the credit is equal to sixteen percent of the tax imposed under this chapter.

(c) The amount of credit claimed by a taxpayer under this section shall be reduced by the amount of any compensation received from the federal government for reduced timber harvest due to enhanced aquatic resource requirements. If the amount of compensation from the federal government exceeds the amount of credit available to a taxpayer in any reporting period, the excess shall be carried forward and applied against credits in future reporting periods. This subsection does not apply to small harvesters as defined in *RCW 84.33.073.

(d) Refunds may not be given in place of credits. Credit may not be claimed in excess of tax owed. The department of revenue shall disallow any credits, used or unused, upon written notification from the department of natural resources of a final decision that timber for which credit was claimed was not harvested under a forest practices notification filed or application approved under RCW 76.09.050 and subject to enhanced aquatic resources requirements.

(3) As used in this section, a forest practice[s] notification or application is subject to enhanced aquatic resource requirements if it includes, in whole or in part, riparian area, wetland, or steep or unstable slope from which the operator is limited, by rule adopted under RCW 76.09.055, 34.05.090, 43.21C.250, and 76.09.370, or any federally approved habitat conservation plan or department of natural resources approved watershed analysis, from harvesting timber, or if a road is included within or adjacent to the area covered by such notification or application and the road is covered by a road maintenance plan approved by the department of natural resources under rules adopted under chapter 76.09 RCW, the forest practices act, or a federally approved habitat conservation plan.

(4) For forest practices notification or applications submitted after January 1, 2000, the department of natural resources shall indicate whether the notification or application is subject to enhanced aquatic resource requirements and, unless notified of a contrary determination by the forest practices appeals board, the department of revenue shall use such indication in determining the credit to be allowed against the tax assessed under RCW 84.33.041. The department of natural resources shall develop revisions to the form of the forest practices notifications and applications to provide a space for the applicant to indicate and the department

of natural resources to confirm or not confirm, whether the notification or application is subject to enhanced aquatic resource requirements. For forest practices notifications or applications submitted before January 1, 2000, the applicant may submit the approved notification or application to the department of natural resources for confirmation that the notification or application is subject to enhanced aquatic resource requirements. Upon any such submission, the department of natural resources will within thirty days confirm or deny that the notification or application is subject to enhanced aquatic resource requirements and will forward separate evidence of each confirmation to the department of revenue. Unless notified of a contrary ruling by the forest practices appeals board, the department of revenue shall use the separate confirmations in determining the credit to be allowed against the tax assessed under RCW 84.33.041.

(5) A refusal by the department of natural resources to confirm that a notification or application is subject to enhanced aquatic resources requirements may be appealed to the forest practices appeals board under RCW 76.09.220.

(6) A person receiving approval of credit must keep records necessary for the department of revenue to verify eligibility under this section.

RCW 84.33.081 Distributions from timber tax distribution account--Distributions from county timber tax account.

(1) On the last business day of the second month of each calendar quarter, the state treasurer shall distribute from the timber tax distribution account to each county the amount of tax collected on behalf of each county under RCW 84.33.051, less each county's proportionate share of appropriations for collection and administration activities under RCW 84.33.051, and

shall transfer to the state general fund the amount of tax collected on behalf of the state under RCW 84.33.041, less the state's proportionate share of appropriations for collection and administration activities under RCW 84.33.041. The county treasurer shall deposit moneys received under this section in a county timber tax account which shall be established by each county. Following receipt of moneys under this section, the county treasurer shall make distributions from any moneys available in the county timber tax account to taxing districts in the county, except the state, under subsections (2) through (4) of this section.

(2) From moneys available, there first shall be a distribution to each taxing district having debt service payments due during the calendar year, based upon bonds issued under authority of a vote of the people conducted pursuant to RCW 84.52.056 and based upon excess levies for a capital project fund authorized pursuant to RCW 84.52.053, of an amount equal to the timber assessed value of the district multiplied by the tax rate levied for payment of the debt service and capital projects: PROVIDED, That in respect to levies for a debt service or capital project fund authorized before July 1, 1984, the amount allocated shall not be less than an amount equal to the same percentage of such debt service or capital project fund represented by timber tax allocations to such payments in calendar year 1984. Distribution under this subsection (2) shall be used only for debt service and capital projects payments. The distribution under this subsection shall be made as follows: One-half of such amount shall be distributed in the first quarter of the year and one-half shall be distributed in the third quarter of the year.

(3) From the moneys remaining after the distributions under subsection (2) of this section, the county treasurer shall distribute to each school district an amount equal to one-half of the timber assessed value of the district or eighty percent of the timber roll of such district in calendar year 1983 as determined under this chapter, whichever is greater, multiplied by the tax rate, if any, levied by the district under RCW 84.52.052 or 84.52.053 for purposes other than debt service payments and capital projects supported under subsection (2) of this section. The distribution under this subsection shall be made as follows: One-half of such amount shall be distributed in the first quarter of the year and one-half shall be distributed in the third quarter of the year.

(4) After the distributions directed under subsections (2) and (3) of this section, if any, each taxing district shall receive an amount equal to the timber assessed value of the district multiplied by the tax rate, if any, levied as a regular levy of the district or as a special levy not included in subsection (2) or (3) of this section.

(5) If there are insufficient moneys in the county timber tax account to make full distribution under subsection (4) of this section, the county treasurer shall multiply the amount to be distributed to each taxing district under that subsection by a fraction. The numerator of the fraction is the county timber tax account balance before making the distribution under that subsection. The denominator of the fraction is the account balance which would be required to make full distribution under that subsection.

(6) After making the distributions under subsections (2) through (4) of this section in the full amount indicated for the calendar year, the county treasurer shall place any excess revenue up to twenty percent of the total distributions made for the year under subsections (2) through (4) of this section in a reserve status until the beginning of the next calendar year. Any moneys

remaining in the county timber tax account after this amount is placed in reserve shall be distributed to each taxing district in the county in the same proportions as the distributions made under subsection (4) of this section.

RCW 84.33.091 Tables of stumpage values--Revised tables--Legislative review--Appeal.

(1) The department of revenue shall designate areas containing timber having similar growing, harvesting, and marketing conditions to be used as units for the preparation and application of stumpage values. Each year on or before December 31 for use the following January through June 30, and on or before June 30 for use the following July through December 31, the department shall prepare tables of stumpage values of each species or subclassification of timber within these units. The stumpage value shall be the amount that each such species or subclassification would sell for at a voluntary sale made in the ordinary course of business for purposes of immediate harvest. These stumpage values, expressed in terms of a dollar amount per thousand board feet or other unit measure, shall be determined in a manner which makes reasonable and adequate allowances for age, size, quality, costs of removal, accessibility to point of conversion, market conditions, and all other relevant factors from:

(a) Gross proceeds from sales on the stump of similar timber of like quality and character at similar locations, and in similar quantities;

(b) Gross proceeds from sales of logs adjusted to reflect only the portion of such proceeds attributable to value on the stump immediately prior to harvest; or

(c) A combination of (a) and (b) of this subsection.

(2) Upon application from any person who plans to harvest damaged timber, the stumpage values for which have been materially reduced from the values shown in the applicable tables due to damage resulting from fire, blow down, ice storm, flood, or other sudden

unforeseen cause, the department shall revise the stumpage value tables for any area in which such timber is located and shall specify any additional accounting or other requirements to be complied with in reporting and paying the tax.

(3) The preliminary area designations and stumpage value tables and any revisions thereof are subject to review by the ways and means committees of the house of representatives and senate prior to finalization. Tables of stumpage values shall be signed by the director or the director's designee. A copy thereof shall be mailed to anyone who has submitted to the department a written request for a copy.

(4) On or before the sixtieth day after the date of final adoption of any stumpage value tables, any harvester may appeal to the board of tax appeals for a revision of stumpage values for an area determined pursuant to subsection (3) of this section.

(2) On or before December 31, 1981, the department shall adjust, by rule under chapter 34.05 RCW, the forest land values contained in subsection (1) of this section in accordance with this subsection, and shall certify these adjusted values to the county assessor for his or her use in preparing the assessment rolls as of January 1, 1982. For the adjustment to be made on or before December 31, 1981, for use in the 1982 assessment year, the department shall:

(a) Divide the aggregate value of all timber harvested within the state between July 1, 1976, and June 30, 1981, by the aggregate harvest volume for the same period, as determined from the harvester excise tax returns filed with the department under *RCW 82.04.291 and *84.33.071; and

(b) Divide the aggregate value of all timber harvested within the state between July 1, 1975, and June 30, 1980, by the aggregate harvest volume for the same period, as determined

from the harvester excise tax returns filed with the department under *RCW 82.04.291 and *84.33.071; and

(c) Adjust the forest land values contained in subsection (1) of this section by a percentage equal to one-half of the percentage change in the average values of harvested timber reflected by comparing the resultant values calculated under (a) and (b) of this subsection.

For the adjustments to be made on or before December 31, 1982, and each succeeding year thereafter, the same procedure shall be followed as described in this subsection utilizing harvester excise tax returns filed under *RCW 82.04.291 and this chapter except that this adjustment shall be made to the prior year's adjusted value, and the five-year periods for calculating average harvested timber values shall be successively one year more recent.

(3) In preparing the assessment roll for 1972 and each year thereafter, the assessor shall enter as the true and fair value of each parcel of forest land the appropriate grade value certified to him or her by the department of revenue, and he or she shall compute the assessed value of such land by using the same assessment ratio he or she applies generally in computing the assessed value of other property in his or her county. In preparing the assessment roll for 1975 and each year thereafter, the assessor shall assess and value as classified forest land all forest land that is not then designated pursuant to RCW **84.33.120(4) or 84.33.130 and shall make a notation of such classification upon the assessment and tax rolls. On or before January 15 of the first year in which such notation is made, the assessor shall mail notice by certified mail to the owner that such land has been classified as forest land and is subject to the compensating tax imposed by this section. If the owner desires not to have such land assessed and valued as classified forest land, he or she shall give the assessor written notice thereof on or before March 31 of such year and the assessor shall remove from the assessment and tax rolls the classification notation entered pursuant to this subsection, and shall thereafter assess and value such land in the manner provided by law other than this chapter 84.33 RCW.

(4) In any year commencing with 1972, an owner of land which is assessed and valued by the assessor other than pursuant to the procedures set forth in ***RCW 84.33.110 and this section, and which has, in the immediately preceding year, been assessed and valued by the assessor as forest land, may appeal to the county board of equalization by filing an application with the board in the manner prescribed in ****subsection (2) of RCW 84.33.130. The county board shall afford the applicant an opportunity to be heard if the application so requests and shall act upon the application in the manner prescribed in ****subsection (3) of RCW 84.33.130.

(5) Land that has been assessed and valued as classified forest land as of any year commencing with 1975 assessment year or earlier shall continue to be so assessed and valued until removal of classification by the assessor only upon the occurrence of one of the following events:

- (a) Receipt of notice from the owner to remove such land from classification as forest land;
- (b) Sale or transfer to an ownership making such land exempt from ad valorem taxation;
- (c) Determination by the assessor, after giving the owner written notice and an opportunity to be heard, that, because of actions taken by the owner, such land is no longer primarily devoted to and used for growing and harvesting timber. However, land shall not be

removed from classification if a governmental agency, organization, or other recipient identified in subsection (9) or (10) of this section as exempt from the payment of compensating tax has manifested its intent in writing or by other official action to acquire a property interest in classified forest land by means of a transaction that qualifies for an exemption under subsection (9) or (10) of this section. The governmental agency, organization, or recipient shall annually provide the assessor of the county in which the land is located reasonable evidence in writing of the intent to acquire the classified land as long as the intent continues or within sixty days of a request by the assessor. The assessor may not request this evidence more than once in a calendar year;

(d) Determination that a higher and better use exists for such land than growing and harvesting timber after giving the owner written notice and an opportunity to be heard;

(e) Sale or transfer of all or a portion of such land to a new owner, unless the new owner has signed a notice of forest land classification continuance, except transfer to an owner who is an heir or devisee of a deceased owner, shall not, by itself, result in removal of classification. The signed notice of continuance shall be attached to the real estate excise tax affidavit provided for in RCW 82.45.150. The notice of continuance shall be on a form prepared by the department of revenue. If the notice of continuance is not signed by the new owner and attached to the real estate excise tax affidavit, all compensating taxes calculated pursuant to subsection (7) of this section shall become due and payable by the seller or transferor at time of sale. The county auditor shall not accept an instrument of conveyance of classified forest land for filing or recording unless the new owner has signed the notice of continuance or the compensating tax has been paid, as evidenced by the real estate excise tax stamp affixed thereto by the treasurer. The seller, transferor, or new owner may appeal the new assessed valuation calculated under subsection (7) of this section to the county board of equalization in accordance with the provisions of RCW 84.40.038. Jurisdiction is hereby conferred on the county board of equalization to hear these appeals.

The assessor shall remove classification pursuant to (c) or (d) of this subsection prior to September 30 of the year prior to the assessment year for which termination of classification is to be effective. Removal of classification as forest land upon occurrence of (a), (b), (d), or (e) of this subsection shall apply only to the land affected, and upon occurrence of (c) of this subsection shall apply only to the actual area of land no longer primarily devoted to and used for growing and harvesting timber: PROVIDED, That any remaining classified forest land meets necessary definitions of forest land pursuant to ***RCW 84.33.100.

(6) Within thirty days after such removal of classification as forest land, the assessor shall notify the owner in writing setting forth the reasons for such removal. The owner of such land shall thereupon have the right to apply for designation of such land as forest land pursuant to subsection (4) of this section or RCW 84.33.130. The seller, transferor, or owner may appeal such removal to the county board of equalization in accordance with the provisions of RCW 84.40.038.

(7) Unless the owner successfully applies for designation of such land or unless the removal is reversed on appeal, notation of removal from classification shall immediately be made upon the assessment and tax rolls, and commencing on January 1 of the year following the

year in which the assessor made such notation, such land shall be assessed on the same basis as real property is assessed generally in that county. Except as provided in subsection (5)(e), (9), or (10) of this section and unless the assessor shall not have mailed notice of classification pursuant to subsection (3) of this section, a compensating tax shall be imposed which shall be due and payable to the county treasurer thirty days after the owner is notified of the amount of the compensating tax. As soon as possible, the assessor shall compute the amount of such compensating tax and mail notice to the owner of the amount thereof and the date on which payment is due. The amount of such compensating tax shall be equal to the difference, if any, between the amount of tax last levied on such land as forest land and an amount equal to the new assessed valuation of such land multiplied by the dollar rate of the last levy extended against such land, multiplied by a number, in no event greater than ten, equal to the number of years, commencing with assessment year 1975, for which such land was assessed and valued as forest land.

(8) Compensating tax, together with applicable interest thereon, shall become a lien on such land which shall attach at the time such land is removed from classification as forest land and shall have priority to and shall be fully paid and satisfied before any recognizance, mortgage, judgment, debt, obligation or responsibility to or with which such land may become charged or liable. Such lien may be foreclosed upon expiration of the same period after delinquency and in the same manner provided by law for foreclosure of liens for delinquent real property taxes as provided in RCW 84.64.050. Any compensating tax unpaid on its due date shall thereupon become delinquent. From the date of delinquency until paid, interest shall be charged at the same rate applied by law to delinquent ad valorem property taxes.

(9) The compensating tax specified in subsection (7) of this section shall not be imposed if the removal of classification as forest land pursuant to subsection (5) of this section resulted solely from:

(a) Transfer to a government entity in exchange for other forest land located within the state of Washington;

(b) A taking through the exercise of the power of eminent domain, or sale or transfer to an entity having the power of eminent domain in anticipation of the exercise of such power;

(c) A donation of fee title, development rights, or the right to harvest timber, to a government agency or organization qualified under RCW 84.34.210 and 64.04.130 for the purposes enumerated in those sections, or the sale or transfer of fee title to a governmental entity or a nonprofit nature conservancy corporation, as defined in RCW 64.04.130, exclusively for the protection and conservation of lands recommended for state natural area preserve purposes by the natural heritage council and natural heritage plan as defined in chapter 79.70 RCW: PROVIDED, That at such time as the land is not used for the purposes enumerated, the compensating tax specified in subsection (7) of this section shall be imposed upon the current owner;

(d) The sale or transfer of fee title to the parks and recreation commission for park and recreation purposes;

(e) Official action by an agency of the state of Washington or by the county or city within which the land is located that disallows the present use of such land;

- (f) The creation, sale, or transfer of forestry riparian easements under RCW 76.13.120;
 - (g) The creation, sale, or transfer of a fee interest or a conservation easement for the riparian open space program under RCW 76.09.040;
 - (h) The sale or transfer of land within two years after the death of the owner of at least a fifty percent interest in the land if the land has been assessed and valued as classified forest land, designated as forest land under this chapter, or classified under chapter 84.34 RCW continuously since 1993;
 - (i) The sale or transfer of land after the death of the owner of at least a fifty percent interest in the land if the land has been assessed and valued as classified forest land, designated as forest land under this chapter, or classified under chapter 84.34 RCW continuously since 1993 and the sale or transfer takes place within two years after July 22, 2001, and the death of the owner occurred after January 1, 1991; or
 - (j) The date of death shown on a death certificate is the date used for the purpose of this subsection (9).
- (10) In a county with a population of more than one million inhabitants, the compensating tax specified in subsection (7) of this section shall not be imposed if the removal of classification as forest land pursuant to subsection (5) of this section resulted solely from:
- (a) An action described in subsection (9) of this section; or
 - (b) A transfer of a property interest to a government entity, or to a nonprofit historic preservation corporation or nonprofit nature conservancy corporation, as defined in RCW 64.04.130, to protect or enhance public resources, or to preserve, maintain, improve, restore, limit the future use of, or otherwise to conserve for public use or enjoyment, the property interest being transferred. At such time as the property interest is not used for the purposes enumerated, the compensating tax shall be imposed upon the current owner.
- (11) With respect to any land that has been designated prior to May 6, 1974, pursuant to RCW **84.33.120(4) or 84.33.130, the assessor may, prior to January 1, 1975, on his or her own motion or pursuant to petition by the owner, change, without imposition of the compensating tax provided under RCW 84.33.140, the status of such designated land to classified forest land.

(1) Notwithstanding any other provision of law, lands that were assessed as classified forest land before July 22, 2001, shall be designated forest land for the purposes of this chapter. The owners of previously classified forest land shall not be required to apply for designation under this chapter. As of July 22, 2001, the land and timber on such land shall be assessed and taxed in accordance with the provisions of this chapter.

(2) An owner of land desiring that it be designated as forest land and valued under RCW 84.33.140 as of January 1st of any year shall submit an application to the assessor of the county in which the land is located before January 1st of that year. The application shall be accompanied by a reasonable processing fee when the county legislative authority has established the requirement for such a fee.

(3) No application of designation is required when publicly owned forest land is exchanged for privately owned forest land designated under this chapter. The land exchanged and received by an owner subject to ad valorem taxation shall be automatically granted designation under this chapter if the following conditions are met:

(a) The land will be used to grow and harvest timber; and

(b) The owner of the land submits a document to the assessor's office that explains the details of the forest land exchange within sixty days of the closing date of the exchange. However, if the owner fails to submit information regarding the exchange by the end of this sixty-day period, the owner must file an application for designation as forest land under this chapter and the regular application process will be followed.

(4) The application shall be made upon forms prepared by the department and supplied

by the assessor, and shall include the following:

(a) A legal description of, or assessor's parcel numbers for, all land the applicant desires to be designated as forest land;

(b) The date or dates of acquisition of the land;

(c) A brief description of the timber on the land, or if the timber has been harvested, the owner's plan for restocking;

(d) A copy of the timber management plan, if one exists, for the land prepared by a trained forester or any other person with adequate knowledge of timber management practices;

(e) If a timber management plan exists, an explanation of the nature and extent to which the management plan has been implemented;

(f) Whether the land is used for grazing;

(g) Whether the land has been subdivided or a plat has been filed with respect to the land;

(h) Whether the land and the applicant are in compliance with the restocking, forest management, fire protection, insect and disease control, and forest debris provisions of Title 76 RCW or any applicable rules;

(i) Whether the land is subject to forest fire protection assessments under RCW 76.04.610;

(j) Whether the land is subject to a lease, option, or other right that permits it to be used for any purpose other than growing and harvesting timber;

(k) A summary of the past experience and activity of the applicant in growing and harvesting timber;

(l) A summary of current and continuing activity of the applicant in growing and harvesting timber;

(m) A statement that the applicant is aware of the potential tax liability involved when the land ceases to be designated as forest land;

(n) An affirmation that the statements contained in the application are true and that the land described in the application meets the definition of forest land in RCW 84.33.035; and

(o) A description and/or drawing showing what areas of land for which designation is sought are used for incidental uses compatible with the definition of forest land in RCW 84.33.035.

(5) The assessor shall afford the applicant an opportunity to be heard if the applicant so requests.

(6) The assessor shall act upon the application with due regard to all relevant evidence and without any one or more items of evidence necessarily being determinative, except that the application may be denied for one of the following reasons, without regard to other items:

(a) The land does not contain either a "merchantable stand of timber" as defined in chapter 76.09 RCW and applicable rules. This reason shall not alone be sufficient to deny the application (i) if the land has been recently harvested or supports a growth of brush or noncommercial type timber, and the application includes a plan for restocking within three years or a longer period necessitated by unavailability of seed or seedlings, or (ii) if only isolated areas within the land do not meet the minimum standards due to rock outcroppings, swamps, unproductive soil or other natural conditions;

(b) The applicant, with respect to the land, has failed to comply with a final administrative or judicial order with respect to a violation of the restocking, forest management, fire protection, insect and disease control, and forest debris provisions of Title 76 RCW or any applicable rules; or

(c) The land abuts a body of salt water and lies between the line of ordinary high tide and a line paralleling the ordinary high tide line and two hundred feet horizontally landward from the high tide line. However, if the assessor determines that a higher and better use exists for the land but this use would not be permitted or economically feasible by virtue of any federal, state, or local law or regulation, the land shall be assessed and valued under RCW 84.33.140 without being designated as forest land.

(7) The application shall be deemed to have been approved unless, prior to May 1st of the year after the application was mailed or delivered to the assessor, the assessor notifies the applicant in writing of the extent to which the application is denied.

(8) An owner who receives notice that his or her application has been denied, in whole or in part, may appeal the denial to the county board of equalization in accordance with the provisions of RCW 84.40.038.

NOTES:

Reviser's note: This section was amended by 2001 c 185 § 4 and by 2001 c 249 § 2, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Application--2001 c 185 §§ 1-12: See note following RCW 84.14.110.

Purpose--1981 c 148: "(1) One of the purposes of this act is to establish the values for ad valorem tax purposes of bare forest land which is primarily devoted to and used for growing and harvesting timber without consideration of other potential uses of the land and to provide a procedure for adjusting the values in future years to reflect economic changes which may affect the value established in this act.

(2) Chapter 294, Laws of 1971 ex. sess., as originally enacted, required the department of revenue annually to analyze forest land transactions to ascertain the market value of bare forest land purchased and used exclusively for growing and harvesting timber. Most transactions involving forest land include mature and immature timber with no segregation by the parties between the amounts paid for timber and bare land. The examination of these transactions by the department to ascertain the prices being paid for only the bare land has proven to be very difficult, time consuming, and subject to recurring legal challenge. Samples are small in relation to the total acreage of forest land involved and the administrative time and costs required for the annual analyses are excessive in relation to the changes from year to year which have been observed in the value of bare forest land. This act eliminates most of these administrative costs by establishing the current bare forest land values and by providing a procedure for periodic adjustment of the values which does not require continuing and costly analysis of the numerous forest land transactions throughout the state." [1981 c 148 § 11.]

Severability--1981 c 148: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1981 c 148 § 15.]

Effective dates--1981 c 148: "This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately [May 14, 1981], except for section 13 of this act which shall take effect September 1, 1981." [1981 c 148 § 16.]

Severability--1974 ex.s. c 187: "If any provision of this 1974 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1974 ex.s. c 187 § 20.]

RCW 84.33.140 Forest land valuation--Notation of forest land designation upon assessment and tax rolls--Notice of continuance--Removal of designation--Compensating tax.

(1) When land has been designated as forest land under RCW 84.33.130, a notation of the designation shall be made each year upon the assessment and tax rolls. A copy of the notice of approval together with the legal description or assessor's parcel numbers for the land shall, at the expense of the applicant, be filed by the assessor in the same manner as deeds are recorded.

(2) In preparing the assessment roll as of January 1, 2002, for taxes payable in 2003 and each January 1st thereafter, the assessor shall list each parcel of designated forest land at a value with respect to the grade and class provided in this subsection and adjusted as provided in subsection (3) of this section. The assessor shall compute the assessed value of the land using the same assessment ratio applied generally in computing the assessed value of other property in the county. Values for the several grades of bare forest land shall be as follows:

(3) On or before December 31, 2001, the department shall adjust by rule under chapter 34.05 RCW, the forest land values contained in subsection (2) of this section in accordance with this subsection, and shall certify the adjusted values to the assessor who will use these values in preparing the assessment roll as of January 1, 2002. For the adjustment to be made on or before December 31, 2001, for use in the 2002 assessment year, the department shall:

(a) Divide the aggregate value of all timber harvested within the state between July 1, 1996, and June 30, 2001, by the aggregate harvest volume for the same period, as determined from the harvester excise tax returns filed with the department under RCW 84.33.074; and

(b) Divide the aggregate value of all timber harvested within the state between July 1, 1995, and June 30, 2000, by the aggregate harvest volume for the same period, as determined from the harvester excise tax returns filed with the department under RCW 84.33.074; and

(c) Adjust the forest land values contained in subsection (2) of this section by a percentage equal to one-half of the percentage change in the average values of harvested timber reflected by comparing the resultant values calculated under (a) and (b) of this subsection.

(4) For the adjustments to be made on or before December 31, 2002, and each succeeding year thereafter, the same procedure described in subsection (3) of this section shall be followed using harvester excise tax returns filed under RCW 84.33.074. However, this adjustment shall be made to the prior year's adjusted value, and the five-year periods for calculating average harvested timber values shall be successively one year more recent.

(5) Land graded, assessed, and valued as forest land shall continue to be so graded, assessed, and valued until removal of designation by the assessor upon the occurrence of any of the following:

(a) Receipt of notice from the owner to remove the designation;

(b) Sale or transfer to an ownership making the land exempt from ad valorem taxation;

(c) Sale or transfer of all or a portion of the land to a new owner, unless the new owner has signed a notice of forest land designation continuance, except transfer to an owner who is an heir or devisee of a deceased owner, shall not, by itself, result in removal of designation. The

signed notice of continuance shall be attached to the real estate excise tax affidavit provided for in RCW 82.45.150. The notice of continuance shall be on a form prepared by the department. If the notice of continuance is not signed by the new owner and attached to the real estate excise tax affidavit, all compensating taxes calculated under subsection (11) of this section shall become due and payable by the seller or transferor at time of sale. The auditor shall not accept an instrument of conveyance of designated forest land for filing or recording unless the new owner has signed the notice of continuance or the compensating tax has been paid, as evidenced by the real estate excise tax stamp affixed thereto by the treasurer. The seller, transferor, or new owner may appeal the new assessed valuation calculated under subsection (11) of this section to the county board of equalization in accordance with the provisions of RCW 84.40.038. Jurisdiction is hereby conferred on the county board of equalization to hear these appeals;

(d) Determination by the assessor, after giving the owner written notice and an opportunity to be heard, that:

(i) The land is no longer primarily devoted to and used for growing and harvesting timber. However, land shall not be removed from designation if a governmental agency, organization, or other recipient identified in subsection (13) or (14) of this section as exempt from the payment of compensating tax has manifested its intent in writing or by other official action to acquire a property interest in the designated forest land by means of a transaction that qualifies for an exemption under subsection (13) or (14) of this section. The governmental agency, organization, or recipient shall annually provide the assessor of the county in which the land is located reasonable evidence in writing of the intent to acquire the designated land as long as the intent continues or within sixty days of a request by the assessor. The assessor may not request this evidence more than once in a calendar year;

(ii) The owner has failed to comply with a final administrative or judicial order with respect to a violation of the restocking, forest management, fire protection, insect and disease control, and forest debris provisions of Title 76 RCW or any applicable rules; or

(iii) Restocking has not occurred to the extent or within the time specified in the application for designation of such land.

(6) Land shall not be removed from designation if there is a governmental restriction that prohibits, in whole or in part, the harvesting of timber from the owner's designated forest land. If only a portion of the parcel is impacted by governmental restrictions of this nature, the restrictions cannot be used as a basis to remove the remainder of the forest land from designation under this chapter. For the purposes of this section, "governmental restrictions" includes: (a) Any law, regulation, rule, ordinance, program, or other action adopted or taken by a federal, state, county, city, or other governmental entity; or (b) the land's zoning or its presence within an urban growth area designated under RCW 36.70A.110.

(7) The assessor shall have the option of requiring an owner of forest land to file a timber management plan with the assessor upon the occurrence of one of the following:

(a) An application for designation as forest land is submitted; or

(b) Designated forest land is sold or transferred and a notice of continuance, described in subsection (5)(c) of this section, is signed.

(8) If land is removed from designation because of any of the circumstances listed in

subsection (5)(a) through (c) of this section, the removal shall apply only to the land affected. If land is removed from designation because of subsection (5)(d) of this section, the removal shall apply only to the actual area of land that is no longer primarily devoted to the growing and harvesting of timber, without regard to any other land that may have been included in the application and approved for designation, as long as the remaining designated forest land meets the definition of forest land contained in RCW 84.33.035.

(9) Within thirty days after the removal of designation as forest land, the assessor shall notify the owner in writing, setting forth the reasons for the removal. The seller, transferor, or owner may appeal the removal to the county board of equalization in accordance with the provisions of RCW 84.40.038.

(10) Unless the removal is reversed on appeal a copy of the notice of removal with a notation of the action, if any, upon appeal, together with the legal description or assessor's parcel numbers for the land removed from designation shall, at the expense of the applicant, be filed by the assessor in the same manner as deeds are recorded and a notation of removal from designation shall immediately be made upon the assessment and tax rolls. The assessor shall revalue the land to be removed with reference to its true and fair value as of January 1st of the year of removal from designation. Both the assessed value before and after the removal of designation shall be listed. Taxes based on the value of the land as forest land shall be assessed and payable up until the date of removal and taxes based on the true and fair value of the land shall be assessed and payable from the date of removal from designation.

(11) Except as provided in subsection (5)(c), (13), or (14) of this section, a compensating tax shall be imposed on land removed from designation as forest land. The compensating tax shall be due and payable to the treasurer thirty days after the owner is notified of the amount of this tax. As soon as possible after the land is removed from designation, the assessor shall compute the amount of compensating tax and mail a notice to the owner of the amount of compensating tax owed and the date on which payment of this tax is due. The amount of compensating tax shall be equal to the difference between the amount of tax last levied on the land as designated forest land and an amount equal to the new assessed value of the land multiplied by the dollar rate of the last levy extended against the land, multiplied by a number, in no event greater than nine, equal to the number of years for which the land was designated as forest land, plus compensating taxes on the land at forest land values up until the date of removal and the prorated taxes on the land at true and fair value from the date of removal to the end of the current tax year.

(12) Compensating tax, together with applicable interest thereon, shall become a lien on the land which shall attach at the time the land is removed from designation as forest land and shall have priority to and shall be fully paid and satisfied before any recognizance, mortgage, judgment, debt, obligation, or responsibility to or with which the land may become charged or liable. The lien may be foreclosed upon expiration of the same period after delinquency and in the same manner provided by law for foreclosure of liens for delinquent real property taxes as provided in RCW 84.64.050. Any compensating tax unpaid on its due date shall thereupon become delinquent. From the date of delinquency until paid, interest shall be charged at the same rate applied by law to delinquent ad valorem property taxes.

(13) The compensating tax specified in subsection (11) of this section shall not be imposed if the removal of designation under subsection (5) of this section resulted solely from:

(a) Transfer to a government entity in exchange for other forest land located within the state of Washington;

(b) A taking through the exercise of the power of eminent domain, or sale or transfer to an entity having the power of eminent domain in anticipation of the exercise of such power;

(c) A donation of fee title, development rights, or the right to harvest timber, to a government agency or organization qualified under RCW 84.34.210 and 64.04.130 for the purposes enumerated in those sections, or the sale or transfer of fee title to a governmental entity or a nonprofit nature conservancy corporation, as defined in RCW 64.04.130, exclusively for the protection and conservation of lands recommended for state natural area preserve purposes by the natural heritage council and natural heritage plan as defined in chapter 79.70 RCW. At such time as the land is not used for the purposes enumerated, the compensating tax specified in subsection (11) of this section shall be imposed upon the current owner;

(d) The sale or transfer of fee title to the parks and recreation commission for park and recreation purposes;

(e) Official action by an agency of the state of Washington or by the county or city within which the land is located that disallows the present use of the land;

(f) The creation, sale, or transfer of forestry riparian easements under RCW 76.13.120;

(g) The creation, sale, or transfer of a fee interest or a conservation easement for the riparian open space program under RCW 76.09.040;

(h) The sale or transfer of land within two years after the death of the owner of at least a fifty percent interest in the land if the land has been assessed and valued as classified forest land, designated as forest land under this chapter, or classified under chapter 84.34 RCW continuously since 1993;

(i) The sale or transfer of land after the death of the owner of at least a fifty percent interest in the land if the land has been assessed and valued as classified forest land, designated as forest land under this chapter, or classified under chapter 84.34 RCW continuously since 1993 and the sale or transfer takes place within two years after July 22, 2001, and the death of the owner occurred after January 1, 1991; or

(j) The date of death shown on a death certificate is the date used for the purpose of this subsection (5).

(14) In a county with a population of more than one million inhabitants, the compensating tax specified in subsection (11) of this section shall not be imposed if the removal of designation as forest land under subsection (5) of this section resulted solely from:

(a) An action described in subsection (13) of this section; or

(b) A transfer of a property interest to a government entity, or to a nonprofit historic preservation corporation or nonprofit nature conservancy corporation, as defined in RCW 64.04.130, to protect or enhance public resources, or to preserve, maintain, improve, restore, limit the future use of, or otherwise to conserve for public use or enjoyment, the property interest being transferred. At such time as the property interest is not used for the purposes enumerated, the compensating tax shall be imposed upon the current owner.

RCW 84.33.145 Compensating tax.

(1) If no later than thirty days after removal of designation the owner applies for classification under RCW 84.34.020 (1), (2), or (3), then the designated forest land shall not be considered removed from designation for purposes of the compensating tax under RCW 84.33.140 until the application for current use classification under chapter 84.34 RCW is denied or the property is removed from classification under RCW 84.34.108. Upon removal of classification under RCW 84.34.108, the amount of compensating tax due under this chapter shall be equal to:

(a) The difference, if any, between the amount of tax last levied on the land as designated forest land and an amount equal to the new assessed valuation of the land when removed from classification under RCW 84.34.108 multiplied by the dollar rate of the last levy extended against the land, multiplied by

(b) A number equal to:

(i) The number of years the land was designated under this chapter, if the total number of years the land was designated under this chapter and classified under chapter 84.34 RCW is less than ten; or

(ii) Ten minus the number of years the land was classified under chapter 84.34 RCW, if the total number of years the land was designated under this chapter and classified under chapter 84.34 RCW is at least ten.

(2) Nothing in this section authorizes the continued designation under this chapter or defers or reduces the compensating tax imposed upon forest land not transferred to classification under subsection (1) of this section which does not meet the definition of forest land under RCW

84.33.035. Nothing in this section affects the additional tax imposed under RCW 84.34.108.

(3) In a county with a population of more than one million inhabitants, no amount of compensating tax is due under this section if the removal from classification under RCW 84.34.108 results from a transfer of property described in RCW 84.34.108(6).

The excise tax imposed under this chapter applies to forest trees harvested after April 4, 1986, from lands sold to any governmental agency by warranty deed or contract where the seller reserved to itself the right to take all merchantable timber for a specific period of years, or in perpetuity, and to forest trees harvested after April 4, 1986, that any governmental agency, by quit claim deed, as partial consideration for payment of the purchase price, conveyed for a specific period of years, or in perpetuity, all forest trees, standing, growing, or lying on the described land, to the taxpayer, regardless of the date on which the contract was entered.

(1) The legislature shall review the system of distribution and allocation of all timber excise tax revenues in January 1975 and each year thereafter to provide a uniform and equitable distribution and allocation of such revenues to the state and local taxing districts.

(2) In order to allow legislative review of the rules to be adopted by the department of

revenue establishing the stumpage values provided for in RCW 84.33.091, such rules shall be effective not less than thirty days after transmitting to the staffs of the senate and house ways and means committees (or their successor committees) the same proposed rules as have been previously filed with the office of the code reviser pursuant to RCW 34.05.320.

(3) The department of revenue and the department of natural resources shall make available to the revenue committees of the senate and house of representatives of the state legislature information and data, as it may be available, pertaining to the status of forest land grading throughout the state, the collection of timber excise tax revenues, the distribution and allocation of timber excise tax revenues to the state and local taxing districts, and any other information as may be necessary for the proper legislative review and implementation of the timber excise tax system, and in addition, the departments shall provide an annual report of such matters in January of each year to such committees.
