**28A.700.005 Findings—Intent—2008 c 170.** (1) The legislature finds that many secondary career and technical education programs have made progress in retooling for the twenty-first century by aligning with state and nationally certified programs that meet industry standards and by increasing the rigor of academic content in core skills such as reading, writing, mathematics, and science.

(2) However, the legislature also finds that increased expectations for students to meet the state's academic learning standards require students to take remedial courses. The state board of education is considering increasing credit requirements for high school graduation. Together these policies could restrict students from pursuing high quality career and technical education programs because students would not have adequate time in their schedules to enroll in a progressive sequence of career and technical courses.

(3) The legislature further finds that teachers, counselors, students, and parents are not well-informed about the opportunities presented by high quality career and technical education. Secondary career and technical education is not a stopping point but a beginning point for further education, including through a bachelor's degree. Secondary preapprenticeships and courses aligned to industry standards can lead directly to workforce entry as well as to additional education. Career and technical education is a proven strategy to engage and motivate students, including students at risk of dropping out of school entirely.

(4) Finally, the legislature finds that state policies have been piecemeal in support of career and technical education. Laws exist to require state approval of career and technical programs, but could be strengthened by requiring alignment with industry standards and focusing on high-demand fields. Tech prep consortia have developed articulation agreements for dual credit and smooth transitions between high schools and colleges, but agreements remain highly decentralized between individual faculty and individual schools. Laws require school districts to create equivalences between academic and career and technical courses, but more support and professional development is needed to expand these opportunities.

(5) Therefore it is the legislature's intent to identify the gaps in current laws and policies regarding secondary career and technical education and fill those gaps in a comprehensive fashion to create a coherent whole. This act seeks to increase the quality and rigor of secondary career and technical education, improve links to postsecondary education, encourage and facilitate academic instruction through career and technical courses, and expand access to and awareness of the opportunities offered by high quality career and technical education. [2008 c 170 § 1.]

**28A.700.010 Career and technical education—Plans—Standards—Technical assistance—Leadership development.** (1) To ensure high quality career and technical programs, the office of the superintendent of public instruction shall periodically review and approve the plans of local districts for the delivery of career and technical education. Standards for career and technical programs shall be established by the office of the superintendent of public instruction. The office of the superintendent of public instruction shall develop a schedule for career and technical education plan reapproval under this section that includes an abbreviated review process for programs reapproved after 2005, but before June 12, 2008. All school district career and technical education programs must meet the requirements of this section by August 31, 2010.

(2) To receive approval, school district plans must:

(a) Demonstrate how career and technical education programs will ensure academic rigor; align with the state's education reform requirements; help address the skills gap of Washington's economy; and maintain strong relationships with local career and technical education advisory councils for the design and delivery of career and technical education;

(b) Demonstrate a strategy to align the five-year planning requirement under the federal Carl Perkins act with the state and district career and technical program planning requirements that include:

(i) An assessment of equipment and technology needs to support the skills training of technical students;

(ii) An assessment of industry internships required for teachers to ensure the ability to prepare students for industry-defined standards or certifications, or both;

(iii) An assessment of the costs of supporting job shadows, mentors, community service and industry internships, and other activities for student learning in the community;

(iv) A description of the leadership activities to be provided for technical education students; and

(v) Annual local school board approval;

(c) Demonstrate that all preparatory career and technical education courses offered by the district meet the requirements of RCW 28A.700.030;

(d) Demonstrate progress toward meeting or exceeding the targets established under RCW 28A.700.040 of an increased number of career and technical programs in high-demand fields; and

(e) Demonstrate that approved career and technical programs maximize opportunities for students to earn dual credit for high school and college.

(3) To ensure high quality career education programs and services in secondary schools, the office of the superintendent of public instruction may provide technical assistance to local districts and develop state guidelines for the delivery of career guidance in secondary schools.

(4) To ensure leadership development, the staff of the office of the superintendent of public instruction may serve as the state advisors to Washington state FFA, Washington future business leaders of America, Washington DECA, Washington SkillsUSA, Washington family, career and community leaders, and Washington technology students association, and any additional career or technical student organizations that are formed. Working with the directors or executive secretaries of these organizations, the office of the superintendent of public instruction may develop tools for the coordination of leadership activities with the curriculum of technical education programs.

(5) As used in this section, "career and technical education" means a planned program of courses and learning experiences that begins with exploration of career options; supports basic academic and life skills; and enables achievement of high academic standards, leadership, options for high skill, high wage employment preparation, and advanced and continuing education. [2008 c 170 § 101; 2001 c 336 § 2. Formerly RCW 28C.04.100.]

**28A.700.020 List of statewide high-demand programs—Definitions.** (1) The office of the superintendent of public instruction, in consultation with the workforce training and education coordinating board, the Washington state apprenticeship and training council, and the state board for community and technical colleges, shall develop a list of statewide high-demand programs for secondary career and technical education. The list shall be developed using the high-demand list maintained by workforce development councils in consultation with the employment security department, the high employer demand programs of study identified by the workforce training and education coordinating board, and the high employer demand programs of study identified by the higher education coordinating board. Local school districts may recommend additional high-demand programs in consultation with local career and technical education advisory committees by submitting evidence of local high demand.

(2) As used in this section and in RCW 28A.700.040, 28A.700.050, and 28A.700.060, and \*section 307 of this act:

(a) "High-demand program" means a career and technical education program that prepares students for either a high employer demand program of study or a high-demand occupation, or both.

(b) "High employer demand program of study" means an apprenticeship or an undergraduate or graduate certificate or degree program in which the number of students per year prepared for employment from in-state programs is substantially fewer than the number of projected job openings per year in that field, either statewide or in a substate region.

(c) "High-demand occupation" means an occupation with a substantial number of current or projected employment opportunities. [2008 c 170 § 102.]

\*Reviser's note: Section 307 of this act was vetoed by the governor.

**28A.700.030 Preparatory secondary career and technical education programs—Criteria.** All approved preparatory secondary career and technical education programs must meet the following minimum criteria:

(1) Either:

(a) Lead to a certificate or credential that is state or nationally recognized by trades, industries, or other professional associations as necessary for employment or advancement in that field; or

(b) Allow students to earn dual credit for high school and college through tech prep, advanced placement, or other agreements or programs;

(2) Be comprised of a sequenced progression of multiple courses that are technically intensive and rigorous; and

(3) Lead to workforce entry, state or nationally approved apprenticeships, or postsecondary education in a related field. [2008 c 170 § 103; 2006 c 115 § 2. Formerly RCW 28C.04.110.]

**28A.700.040 Performance measures and targets—Improvement plans—Denial of approval or reapproval of program.** (1) The office of the superintendent of public instruction shall establish performance measures and targets and monitor the performance of career and technical education programs in at least the following areas:

(a) Student participation in and completion of high-demand programs as identified under RCW 28A.700.020;

(b) Students earning dual credit for high school and college; and

(c) Performance measures and targets established by the workforce training and education coordinating board, including but not limited to student academic and technical skill attainment, graduation rates, postgraduation employment or enrollment in postsecondary education, and other measures and targets as required by the federal Carl Perkins act, as amended.

(2) If a school district fails to meet the performance targets established under this section, the office of the superintendent of public instruction may require the district to submit an improvement plan. If a district fails to implement an improvement plan or continues to fail to meet the performance targets for three consecutive years, the office of the superintendent of public instruction may use this failure as the basis to deny the approval or reapproval of one or more of the district's career and technical education programs. [2008 c 170 § 104.]

**28A.700.050 Grants to develop or upgrade high-demand career and technical education programs.** Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall allocate grants to middle schools, high schools, or skill centers, to develop or upgrade high-demand career and technical education programs as identified under RCW 28A.700.020. Grant funds shall be allocated on a one-time basis and may be used to purchase or improve curriculum, create preapprenticeship programs, upgrade technology and equipment to meet industry standards, and for other purposes intended to initiate a new program or improve the rigor and quality of a high-demand program. Priority in allocating the funds shall be given to programs that are also considered high cost due to the types of technology and equipment necessary to maintain industry certification. Priority shall also be given to programs considered in most high demand in the state or applicable region. [2008 c 170 § 105.]

**28A.700.060 Model career and technical education programs.** (1) The office of the superintendent of public instruction, the workforce training and education coordinating board, the state board for community and technical colleges, the higher education coordinating board, and the council of presidents shall work with local school districts, workforce education programs in colleges, tech prep consortia, and four-year institutions of higher education to develop model career and technical education programs of study as described by this section.

(2) Career and technical education programs of study:

(b) Include coherent and rigorous academic content aligned with state learning standards and relevant career and technical content in a coordinated, nonduplicative progression of courses that are aligned with postsecondary education in a related field;

(c) Include opportunities for students to earn dual high school and college credit; and

(d) Lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree.

(3) During the 2008-09 school year, model career and technical education programs of study shall be developed for the following high-demand programs: Construction, health care, and information technology. Each school year thereafter, the office of the superintendent of public instruction, the state board for community and technical colleges, the higher education coordinating board, and the workforce training and education coordinating board shall select additional programs of study to develop, with a priority on high-demand programs as identified under RCW 28A.700.020. [2008 c 170 § 107.]

(3) Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall allocate grant funds to school districts to increase the integration and rigor of academic instruction in career and technical courses. Grant recipients are encouraged to use grant funds to support teams of academic and technical teachers using a research-based professional development model supported by the national research center for career and technical education. The office of the superintendent of public instruction may require that grant recipients provide matching resources using federal Carl Perkins funds or other fund sources. [2008 c 170 § 201.]

**28A.700.080 Awareness campaign for career and technical education.** (1) Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall develop and conduct an ongoing campaign for career and technical education to increase awareness among teachers, counselors, students, parents, principals, school administrators, and the general public about the opportunities offered by rigorous career and technical education programs. [2008 c 170 § 301.]

**28A.700.090 Grants for state or industry certification testing fees.** (1) Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall provide grants to eligible students to offset the costs of required examination or testing fees associated with obtaining state or industry certification in the student's career and technical education program.

(2) The office shall establish maximum grant amounts and a process for students to apply for the grants.

(3) For the purposes of this section, "eligible student" means:

#### ARTICLE IV

##### EDUCATIONAL RECORDS AND ENROLLMENT

A. Unofficial or "hand-carried" education records – In the event that official education records cannot be released to the parents for the purpose of transfer, the custodian of the records in the sending state shall prepare and furnish to the parent a complete set of unofficial educational records containing uniform information as determined by the interstate commission. Upon receipt of the unofficial education records by a school in the receiving state, the school shall enroll and appropriately place the student based on the information provided in the unofficial records pending validation by the official records, as quickly as possible.

B. Official education records and transcripts -Simultaneous with the enrollment and conditional placement of the student, the school in the receiving state shall request the student's official education record from the school in the sending state. Upon receipt of this request, the school in the sending state will process and furnish the official education records to the school in the receiving state within ten days or within such time as is reasonably determined under the rules promulgated by the interstate commission. However, if the student has an unpaid fine at a public school or unpaid tuition, fees, or fines at a private school, then the sending school shall send the information requested but may withhold the official transcript until the monetary obligation is met.

C. Immunizations – On or before the first day of attendance, the parent or guardian must meet the immunization documentation requirements of the Washington board of health. A student transferring after the start of the school year in the receiving state shall enter the school in the receiving state on his or her validated level from an accredited school in the sending state.

#### ARTICLE V

##### PLACEMENT AND ATTENDANCE

A. Course placement - When the student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the student's enrollment in the sending state school and/or educational assessments conducted at the school in the sending state if the courses are offered and if space is available, as determined by the school district. Course placement includes but is not limited to honors, international baccalaureate, advanced placement, vocational, technical, and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the courses.

B. Educational program placement – The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation and placement in like programs in the sending state and if space is available, as determined by the school district. Such programs include, but are not limited to: (1) Gifted and talented programs; and (2) English as a second language (ESL). This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

C. Special education services – (1) In compliance with the federal requirements of the Individuals with Disabilities Education Act (IDEA), 20 U.S.C. Sec. 1400 et seq., the receiving state shall initially provide comparable services to a student with disabilities based on his or her current Individualized Education Program (IEP); and (2) in compliance with the requirements of section 504 of the rehabilitation act, 29 U.S.C. Sec. 794, and with Title II of the Americans with disabilities act, 42 U.S.C. Secs. 12131-12165, the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

D. Placement flexibility – Local education agency administrative officials shall have flexibility in waiving course and program prerequisites, or other preconditions for placement in courses and programs offered under the jurisdiction of the local education agency.

E. Absence as related to deployment activities – A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by this compact, and

has been called to duty for, is on leave from, or immediately returned from deployment to a combat zone or combat support posting, shall be granted additional excused absences at the discretion of the local education agency superintendent to visit with his or her parent or legal guardian relative to such leave or deployment of the parent or guardian.

#### ARTICLE VI ELIGIBILITY

##### A. Eligibility for enrollment

1. Special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

2. A local education agency shall be prohibited from charging local tuition to a transitioning military child placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.

3. A transitioning military child, placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent, may continue to attend the school in which he or she was enrolled while residing with the custodial parent.

B. Eligibility for extracurricular participation - Under RCW 28A.225.280, the Washington interscholastic activities association and local education agencies shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified and space is available, as determined by the school district.

#### ARTICLE VII GRADUATION

In order to facilitate the on-time graduation of children of military families, states and local education agencies shall incorporate the following procedures:

A. Waiver requirements – Local education agency administrative officials shall waive specific courses required for graduation if similar coursework has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. Should a waiver not be granted to a student who would qualify to graduate from the sending school, the local education agency shall use best efforts to provide an alternative means of acquiring required coursework so that graduation may occur on time.

B. Exit exams - For students entering high school in eleventh or twelfth grade, states shall accept: (1) Exit or end-of-course exams required for graduation from the sending state; or (2) national norm-referenced achievement tests; or (3) alternative testing, in lieu of testing requirements for graduation in the receiving state. In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in his or her senior year, then the provisions of section C of this article shall apply.

C. Transfers during senior year – Should a military student transferring at the beginning or during his or her senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education

agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with sections A and B of this article.

#### ARTICLE VIII STATE COORDINATION

A. Each member state shall, through the creation of a state council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and military installations concerning the state's participation in, and compliance with, this compact and interstate commission activities. While each member state may determine the membership of its own state council, its membership must include at least: The state superintendent of public instruction, a superintendent of a school district with a high concentration of military children, a representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups the state council deems appropriate. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the state council.

B. The state council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

C. The compact commissioner responsible for the administration and management of the state's participation in the compact shall be appointed by the governor or as otherwise determined by each member state. The governor is strongly encouraged to appoint a practicing K-12 educator as the compact commissioner.

D. The compact commissioner and the military family education liaison designated herein shall be ex officio members of the state council, unless either is already a full voting member of the state council.

#### ARTICLE IX INTERSTATE COMMISSION ON EDUCATIONAL OPPORTUNITY FOR MILITARY CHILDREN

The member states hereby create the "interstate commission on educational opportunity for military children." The activities of the interstate commission are the formation of public policy and are a discretionary state function. The interstate commission shall:

A. Be a body corporate and joint agency of the member states and shall have all the responsibilities, powers, and duties set forth herein, and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact;

B. Consist of one interstate commission voting representative from each member state who shall be that state's compact commissioner.

1. Each member state represented at a meeting of the interstate commission is entitled to one vote.

2. A majority of the total member states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the interstate commission.

3. A representative shall not delegate a vote to another member state. In the event the compact commissioner is unable to attend a meeting of the interstate commission, the governor or state council may delegate voting authority to another person from their state for a specified meeting.

4. The bylaws may provide for meetings of the interstate commission to be conducted by telecommunication or electronic communication;

C. Consist of ex officio, nonvoting representatives who are members of interested organizations. Such ex officio members, as defined in the bylaws, may include but not be limited to, members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the U.S. department of defense, the education commission of the states, the interstate agreement on the qualification of educational personnel, and other interstate compacts affecting the education of children of military members;

D. Meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the member states, shall call additional meetings;

E. Establish an executive committee, whose members shall include the officers of the interstate commission and such other members of the interstate commission as determined by the bylaws. Members of the executive committee shall serve a one-year term. Members of the executive committee shall be entitled to one vote each. The executive committee shall have the power to act on behalf of the interstate commission, with the exception of rule making, during periods when the interstate commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact including enforcement and compliance with the provisions of the compact, its bylaws and rules, and other such duties as deemed necessary. The U.S. department of defense shall serve as an ex officio, nonvoting member of the executive committee;

F. Establish bylaws and rules that provide for conditions and procedures under which the interstate commission shall make its information and official records available to the public for inspection or copying. The interstate commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests;

G. Give public notice of all meetings and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. The interstate commission and its committees may close a meeting, or portion thereof, where it determines by two-thirds vote that an open meeting would be likely to:

1. Relate solely to the interstate commission's internal personnel practices and procedures;

2. Disclose matters specifically exempted from disclosure by federal and state statute;

3. Disclose trade secrets or commercial or financial information which is privileged or confidential;

4. Involve accusing a person of a crime, or formally censuring a person;

5. Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

6. Disclose investigative records compiled for law enforcement purposes; or

7. Specifically relate to the interstate commission's participation in a civil action or other legal proceeding;

H. Cause its legal counsel or designee to certify that a meeting may be closed and shall reference each relevant exemptible provision for any meeting, or portion of a meeting, which is closed pursuant to this provision. The interstate commission shall keep minutes which shall fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the interstate commission;

I. Collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules which shall specify the data to be collected, the means of collection, and data exchange and reporting requirements. Such methods of data collection, exchange, and reporting shall, in so far as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules;

J. Create a process that permits military officials, education officials, and parents to inform the interstate commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section shall not be construed to create a private right of action against the interstate commission or any member state.

#### ARTICLE X POWERS AND DUTIES OF THE INTERSTATE COMMISSION

The interstate commission shall have the following powers:

A. To provide for dispute resolution among member states;

B. To promulgate rules and take all necessary actions to effect the goals, purposes, and obligations as enumerated in this compact. The rules shall have the force and effect of statutory law and shall be binding in the compact states to the extent and in the manner provided in this compact;

J. To accept any and all donations and grants of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of it;

K. To lease, purchase, accept contributions or donations of, or otherwise to own, hold, improve, or use any property, real, personal, or mixed;

L. To sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal, or mixed;

M. To establish a budget and make expenditures;

N. To adopt a seal and bylaws governing the management and operation of the interstate commission;

#### ARTICLE XI

##### ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION

A. The interstate commission shall, by a majority of the members present and voting, within twelve months after the first interstate commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact, including, but not limited to:

1. Establishing the fiscal year of the interstate commission;

2. Establishing an executive committee, and such other committees as may be necessary;

3. Providing for the establishment of committees and for governing any general or specific delegation of authority or function of the interstate commission;

4. Providing reasonable procedures for calling and conducting meetings of the interstate commission, and ensuring reasonable notice of each such meeting;

5. Establishing the titles and responsibilities of the officers and staff of the interstate commission;

6. Providing a mechanism for concluding the operations of the interstate commission and the return of surplus funds that may exist upon the termination of the compact after the payment and reserving of all of its debts and obligations; and

7. Providing "start up" rules for initial administration of the compact.

B. The interstate commission shall, by a majority of the members, elect annually from among its members a chairperson, a vice-chairperson, and a treasurer, each of whom shall have such authority and duties as may be specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice-chairperson, shall preside at all meetings of the interstate commission. The officers so elected shall serve without compensation or remuneration from the interstate commission; provided that, subject to the availability of budgeted funds, the officers shall be reimbursed for ordinary and necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the interstate commission.

C. Executive committee, officers, and personnel

1. The executive committee shall have such authority and duties as may be set forth in the bylaws, including but not limited to:

a. Managing the affairs of the interstate commission in a manner consistent with the bylaws and purposes of the interstate commission;

b. Overseeing an organizational structure within, and appropriate procedures for the interstate commission to provide for the creation of rules, operating procedures, and administrative and technical support functions; and

c. Planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the interstate commission.

2. The executive committee may, subject to the approval of the interstate commission, appoint or retain an executive director for such period, upon such terms and conditions and for such compensation, as the interstate commission may deem appropriate. The executive director shall serve as secretary to the interstate commission, but shall not be a member of the interstate commission. The executive director shall hire and supervise such other persons as may be authorized by the interstate commission.

D. The interstate commission's executive director and its employees shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of interstate commission employment, duties, or responsibilities; provided, that such person shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

1. The liability of the interstate commission's executive director and employees or interstate commission representatives, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within such person's state may not exceed the limits of liability set forth under the Constitution and laws of that state for state officials, employees, and agents. The interstate commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

2. The interstate commission shall defend the executive director and its employees and, subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an interstate commission representative, shall defend such interstate commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

3. To the extent not covered by the state involved, member state, or the interstate commission, the representatives or employees of the interstate commission shall be held harmless in the amount of a settlement or judgment, including attorneys' fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

#### ARTICLE XII RULE-MAKING FUNCTIONS OF THE INTERSTATE COMMISSION

A. Rule-making authority - The interstate commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding the foregoing, in the event the interstate commission exercises its rule-making authority in a manner that is beyond the scope of the purposes of this compact, or the powers granted hereunder, then such an action by the interstate commission shall be invalid and have no force or effect.

B. Rule-making procedure - Rules shall be made pursuant to a rule-making process that substantially conforms to the "model state administrative procedure act," of 1981, Uniform Laws Annotated, Vol. 15, p.1 (2000) as amended, as may be appropriate to the operations of the interstate commission.

C. Not later than thirty days after a rule is promulgated, any person may file a petition for judicial review of the rule; provided, that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless

the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the interstate commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the interstate commission's authority.

D. If a majority of the legislatures of the compacting states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

#### ARTICLE XIII OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION

##### A. Oversight

1. The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law.

2. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the interstate commission.

3. The interstate commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the interstate commission shall render a judgment or order void as to the interstate commission, this compact, or promulgated rules.

B. Default, technical assistance, suspension, and termination - If the interstate commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact, or the bylaws or promulgated rules, the interstate commission shall:

1. Provide written notice to the defaulting state and other member states of the nature of the default, the means of curing the default, and any action taken by the interstate commission. The interstate commission shall specify the conditions by which the defaulting state must cure its default;

2. Provide remedial training and specific technical assistance regarding the default;

3. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges, and benefits conferred by this compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default;

4. Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the interstate commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states;

5. The state which has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination including obligations the performance of which extends beyond the effective date of suspension or termination;

6. The interstate commission shall not bear any costs relating to any state that has been found to be in default or which has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state;

7. The defaulting state may appeal the action of the interstate commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the interstate commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorneys' fees.

#### C. Dispute Resolution

1. The interstate commission shall attempt, upon the request of a member state, to resolve disputes which are subject to the compact and which may arise among member states and between member and nonmember states.

2. The interstate commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

#### D. Enforcement

1. The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

2. The interstate commission, may by majority vote of the members, initiate legal action in the United State[s] District Court for the District of Columbia or, at the discretion of the interstate commission, in the federal district where the interstate commission has its principal offices, to enforce compliance with the provisions of the compact, and its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary the prevailing party shall be awarded all costs of such litigation including reasonable attorneys' fees.

3. The remedies herein shall not be the exclusive remedies of the interstate commission. The interstate commission may avail itself of any other remedies available under state law or the regulation of a profession.

### ARTICLE XIV

#### FINANCING OF THE INTERSTATE COMMISSION

A. The interstate commission shall pay, or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

B. The interstate commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the interstate commission and its staff which must be in a total amount sufficient to cover the interstate commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the interstate commission, which shall promulgate a rule binding upon all member states.

C. The interstate commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the interstate commission pledge the credit of any of the member states, except by and with the authority of the member state.

D. The interstate commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the interstate commission shall be subject to

the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the interstate commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the interstate commission.

### ARTICLE XV

#### MEMBER STATES, EFFECTIVE DATE, AND AMENDMENT

A. Any state is eligible to become a member state.

B. The compact shall become effective and binding upon legislative enactment of the compact into law by no less than ten of the states. The effective date shall be no earlier than December 1, 2007.

Thereafter it shall become effective and binding as to any other member state upon enactment of the compact into law by that state. The governors of nonmember states or their designees shall be invited to participate in the activities of the interstate commission on a nonvoting basis prior to adoption of the compact by all states.

C. The interstate commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the interstate commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

### ARTICLE XVI

#### WITHDRAWAL AND DISSOLUTION

##### A. Withdrawal

1. Once effective, the compact shall continue in force and remain binding upon each and every member state; provided that a member state may withdraw from the compact by specifically repealing the statute, which enacted the compact into law.

2. Withdrawal from this compact shall be by the enactment of a statute repealing the same, but shall not take effect until one year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member jurisdiction.

3. The withdrawing state shall immediately notify the chairperson of the interstate commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The interstate commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty days of its receipt thereof.

4. The withdrawing state is responsible for all assessments, obligations, and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

5. Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the interstate commission.

##### B. Dissolution of compact

1. This compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the compact to one member state.

2. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the interstate commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

#### ARTICLE XVII SEVERABILITY AND CONSTRUCTION

A. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

B. The provisions of this compact shall be liberally construed to effectuate its purposes.

C. Nothing in this compact shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

#### ARTICLE XVIII BINDING EFFECT OF COMPACT AND OTHER LAWS

##### A. Other laws

1. Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with this compact.

2. All member states' laws conflicting with this compact are superseded to the extent of the conflict.

##### B. Binding effect of the compact

1. All lawful actions of the interstate commission, including all rules and bylaws promulgated by the interstate commission, are binding upon the member states.

2. All agreements between the interstate commission and the member states are binding in accordance with their terms.

3. In the event any provision of this compact exceeds the constitutional limits imposed on the legislature of any member state, such provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state. [2009 c 380 § 1.]

**28A.705.020 Review of implementation—Recommendation.** By December 1, 2014, the state council, created in accordance with RCW 28A.705.010, shall conduct a review of the implementation of the interstate compact on educational opportunity for military children and recommend to the state legislature whether Washington should continue to be a member of the compact and whether any other actions should be taken. **28B.04.010 Short title.** This chapter may be known and cited as the "displaced homemaker act." [1979 c 73 § 1.]

**28B.04.020 Legislative findings—Purpose.** The legislature finds that homemakers are an unrecognized part of the workforce who make an invaluable contribution to the strength, durability, and purpose of our state.

The legislature further finds that there is an increasing number of persons in this state who, having fulfilled a role as homemaker, find themselves "displaced" in their middle years through divorce, death of spouse, disability of spouse, or other loss of family income of a spouse. As a consequence, displaced homemakers are very often left with little or no income; they are ineligible for categorical welfare assistance; they are subject to the highest rate of unemployment of any sector of the workforce; they face continuing discrimination in employment because of their age and lack of recent paid work experience; they are ineligible for unemployment insurance because they have been engaged in unpaid labor in the home; they are ineligible for social security benefits because they are too young, and many never qualify because they have been divorced from the family wage earner; they may have lost beneficiaries' rights under employer's pension and health plans through divorce or death of spouse; and they are often unacceptable to private health insurance plans because of their age.

It is the purpose of this chapter to establish guidelines under which the state board for community and technical colleges shall contract to establish multipurpose service centers and programs to provide necessary training opportunities, counseling, and services for displaced homemakers so that they may enjoy the independence and economic security vital

to a productive life. [2004 c 275 § 29; 1985 c 370 § 36; 1982 1st ex.s. c 15 § 1; 1979 c 73 § 2.]

#### GENERAL PROVISIONS

**28B.07.010 Intent.** The legislature finds that the state has a vital interest in ensuring that higher education institutions are maintained in the state in sufficient numbers and located in such locations, as to be accessible to as many citizens as possible. Adequate educational opportunities are essential to the economic, intellectual, and social well-being of the state and its people. Washington's independently-governed private nonprofit higher education institutions are a necessary part of the state's higher educational resources. They provide educational diversity and choice for all residents of the communities in which they are located, communities which may not otherwise be served directly by a public baccalaureate-granting college or university.

The legislature further finds that some of the factors that contribute to educational costs are beyond the control of these higher education institutions and their governing boards. The factors include the need to modify facilities to render the facilities accessible to the handicapped or disabled, the necessity of modernizing structures to keep them safe and efficient, and the demands of energy conservation and

resource utilization. Many of these needs are associated with the public functions these institutions perform and the requirements of the state and federal governments. Compounding the problem is the fact that the cost of these renovations are borne entirely by the institutions.

Because these institutions serve an important public purpose addressing both the needs of individuals and the needs of the state, and because the performance of that public function can be facilitated at no expense or liability to the state, the legislature declares it to be the public policy of the state of Washington to enable the building, providing, and utilization of modern, well-equipped, efficient, and reasonably priced higher educational facilities, as well as the improvement, expansion, and modernization of such facilities, in a manner that will minimize the capital cost of construction, financing, and use of such facilities. The intention of this policy is to improve and ensure the quality and range of educational services available to the citizens of this state. The intent of the legislature is to accomplish these and related purposes, and this chapter shall be liberally construed in order to further these goals. [1983 c 169 § 1.]

**28B.07.020 Definitions.** As used in this chapter, the following words and terms shall have the following meanings, unless the context otherwise requires:

**Policy—Purpose—2007 c 36:** See note following RCW 28B.07.300.

**28B.07.030 Washington higher education facilities authority—Created—Members—Chairperson—Records—Quorum—Compensation and travel expenses.**

(1) The Washington higher education facilities authority is hereby established as a public body corporate and politic, with perpetual corporate succession, constituting an agency of the state of Washington exercising essential governmental functions. The authority is a "public body" within the meaning of RCW 39.53.010.

(2) The authority shall consist of seven members as follows: The governor, lieutenant governor, executive director of the higher education coordinating board, and four public members, one of whom shall be the president of a higher education institution at the time of appointment. The public members shall be residents of the state and appointed by the governor, subject to confirmation by the senate, on the basis of their interest or expertise in the provision of higher education and the financing of higher education. The public members of the authority shall serve for terms of four years. The initial terms of the public members shall be staggered in a manner determined by the governor. In the event of a vacancy on the authority due to death, resignation, or removal of one of the public members, and upon the expiration of the term of any public member, the governor shall appoint a successor for a term expiring on the fourth anniversary of the successor's date of the appointment. If any of the state offices are abolished, the resulting vacancy on the authority shall be filled by the state officer who shall succeed substantially to the power and duties of the abolished office. Any public member of the authority may be removed by the governor for misfeasance, malfeasance, wilful neglect of duty, or any other cause after notice and a public hearing, unless such notice and hearing shall be expressly waived in writing.

(3) The governor shall serve as chairperson of the authority. The authority shall elect annually one of its members as secretary. If the governor shall be absent from a meeting of the authority, the secretary shall preside. However, the governor may designate an employee of the governor's office to act on the governor's behalf in all other respects during the absence of the governor at any meeting of the authority. If the designation is in writing and is presented to the person presiding at the meetings of the authority who is included in the designation, the vote of the designee has the same effect as if cast by the governor.

(4) Any person designated by resolution of the authority shall keep a record of the proceedings of the authority and shall be the custodian of all books, documents, and papers

filed with the authority, the minute book or a journal of the authority, and the authority's official seal, if any. The person may cause copies to be made of all minutes and other records and documents of the authority, and may give certificates to the effect that such copies are true copies. All persons dealing with the authority may rely upon the certificates.

(5) Four members of the authority constitute a quorum. Members participating in a meeting through the use of any means of communication by which all members participating can hear each other during the meeting shall be deemed to be present in person at the meeting for all purposes. The authority may act on the basis of a motion except when authorizing the issuance and sale of bonds, in which case the authority shall act by resolution. Bond resolutions and other resolutions shall be adopted upon the affirmative vote of four members of the authority, and shall be signed by those members voting yes. Motions shall be adopted upon the affirmative vote of a majority of a quorum of members present at any meeting of the authority. All actions taken by the authority shall take effect immediately without need for publication or other public notice. A vacancy in the membership of the authority does not impair the power of the authority to act under this chapter.

(6) The members of the authority shall be compensated in accordance with RCW 43.03.240 and shall be entitled to reimbursement, solely from the funds of the authority, for travel expenses as determined by the authority incurred in the discharge of their duties under this chapter. [2007 c 36 § 14; 1985 c 370 § 48; 1984 c 287 § 62; 1983 c 169 § 3.]

**Policy—Purpose—2007 c 36:** See note following RCW 28B.07.300.

**28B.07.040 Powers and duties.** The authority is authorized and empowered to do the following, on such terms, with such security and undertakings, subject to such conditions, and in return for such consideration, as the authority shall determine in its discretion to be necessary, useful, or convenient in accomplishing the purposes of this chapter:

(7) If, in order to provide to participants the financing or refinancing of project costs described in subsection (6) of this section, the authority deems it necessary or convenient for it to own a project or projects or any part of a project or projects, for any period of time, it may acquire, contract,

improve, alter, rehabilitate, repair, manage, operate, mortgage, subject to a security interest, lease, sell, or convey the project;

(8) To fix, revise from time to time, and charge and collect from participants and others rates, rents, fees, charges, and repayments as necessary to fully and timely reimburse the authority for all expenses incurred by it in providing the financing and refinancing and other services under this section and for the repayment, when due, of all the principal of, redemption premium, if any, and interest on all bonds issued under this chapter to provide the financing, refinancing, and services;

(9) To accept and receive funds, grants, gifts, pledges, guarantees, mortgages, trust deeds, and other security instruments, and property from the federal government or the state or other public body, entity, or agency and from any public or private institution, association, corporation, or organization, including participants. (14) To consult with the higher education coordinating board to determine project priorities under the purposes of this chapter; and

(15) To do all other things necessary, useful, or convenient to carry out the purposes of this chapter.

In the exercise of any of these powers, the authority shall incur no expense or liability which shall be an obligation, either general or special, of the state, or a general obligation of the authority, and shall pay no expense or liability from funds other than funds of the authority. Funds of the state shall not be used for such purpose. [1985 c 370 § 49; 1983 c 169 § 4.]

**28B.07.050 Special obligation bonds—Issuance—Personal liability—Debt limit.** (1) The authority may, from time to time, issue its special obligation bonds in order to carry out the purposes of this chapter and to enable the authority to exercise any of the powers granted to it in this chapter. The bonds shall be issued pursuant to a bond resolution or trust indenture and shall be payable solely out of the special fund or funds created by the authority in the bond resolution or trust indenture. The special fund or funds shall be funded in whole or in part from moneys paid by one or more participants for whose benefit such bonds were issued and

from the sources, if any, described in RCW 28B.07.040(9) or from the proceeds of bonds issued by the authority for the purpose of refunding any outstanding bonds of the authority.

(2) The bonds may be secured by:

(a) A first lien against any unexpended proceeds of the bonds;

(b) A first lien against moneys in the special fund or funds created by the authority for their payment;

(c) A first or subordinate lien against the revenue and receipts of the participant or participants which revenue is derived in whole or in part from the project financed by the authority;

(d) A first or subordinate security interest against any real or personal property, tangible or intangible, of the participant or participants, including, but not limited to, the project financed by the authority;

(e) Any other real or personal property, tangible or intangible; or

(f) Any combination of (a) through (e) of this subsection.

Any security interest created against the unexpended bond proceeds and against the special funds created by the authority shall be immediately valid and binding against the moneys and any securities in which the moneys may be invested without authority or trustee possession, and the security interest shall be prior to any party having any competing claim against the moneys or securities, without filing or recording under Article 9A of the Uniform Commercial Code, Title 62A RCW, and regardless of whether the party has notice of the security interest.

(3) The bonds may be issued as serial bonds or as term bonds or any such combination. The bonds shall bear such date or dates; mature at such time or times; bear interest at such rate or rates, either fixed or variable; be payable at such time or times; be in such denominations; be in such form, either coupon or registered, or both; carry such registration privileges; be made transferable, exchangeable, and interchangeable; be payable in lawful money of the United States of America at such place or places; be subject to such terms of redemption; and be sold at public or private sale, in such manner, at such time, and at such price as the authority shall determine. The bonds shall be executed by the manual or facsimile signatures of the chairperson and the authority's duly-elected secretary or its executive director, and by the trustee if the authority determines to use a trustee. At least one signature shall be manually subscribed. Coupon bonds shall have attached interest coupons bearing the facsimile signatures of the chairperson and the secretary or the executive director.

(4) Any bond resolution, trust indenture, or agreement with a participant relating to bonds issued by the authority or the financing or refinancing made available by the authority may contain provisions, which may be made a part of the contract with the holders or owners of the bonds to be issued, pertaining to the following, among other matters: (a) The security interests granted by the participant to secure repayment of any amounts financed and the performance by the participant of its other obligations in the financing; (b) the security interests granted to the holders or owners of the bonds to secure repayment of the bonds; (c) rentals, fees, and other amounts to be charged, and the sums to be raised in each year through such charges, and the use, investment, and

disposition of the sums; (d) the segregation of reserves or sinking funds, and the regulation, investment, and disposition thereof; (e) limitations on the uses of the project; (f) limitations on the purposes to which, or the investments in which, the proceeds of the sale of any issue of bonds may be applied; (g) terms pertaining to the issuance of additional parity bonds; (h) terms pertaining to the incurrence of parity debt; (i) the refunding of outstanding bonds; (j) procedures, if any, by which the terms of any contract with bondholders may be amended or abrogated; (k) acts or failures to act which constitute a default by the participant or the authority in their respective obligations and the rights and remedies in the event of a default; (l) the securing of bonds by a pooling of leases whereby the authority may assign its rights, as lessor, and pledge rents under two or more leases with two or more participants, as lessees; (m) terms governing performance by the trustee of its obligation; or (n) such other additional covenants, agreements, and provisions as are deemed necessary, useful, or convenient by the authority for the security of the holders of the bonds.

(5) Bonds may be issued by the authority to refund other outstanding authority bonds, at or prior to the maturity thereof, and to pay any redemption premium with respect thereto. Bonds issued for such refunding purposes may be combined with bonds issued for the financing or refinancing of new projects. Pending the application of the proceeds of the refunding bonds to the redemption of the bonds to be redeemed, the authority may enter into an agreement or agreements with a corporate trustee under RCW 28B.07.080 with respect to the interim investment of the proceeds and the application of the proceeds and the earnings on the proceeds to the payment of the principal of and interest on, and the redemption of the bonds to be redeemed.

(6) All bonds and any interest coupons appertaining to the bonds shall be negotiable instruments under Title 62A RCW.

(7) Neither the members of the authority, nor its employees or agents, nor any person executing the bonds shall be liable personally on the bonds or be subject to any personal liability or accountability by reason of the issuance of the bonds.

(8) The authority may purchase its bonds with any of its funds available for the purchase. The authority may hold, pledge, cancel, or resell the bonds subject to and in accordance with agreements with bondholders.

(9) At no time shall the total outstanding bonded indebtedness of the authority exceed one billion dollars. [2003 c 84 § 1; 1983 c 169 § 5.]

**28B.07.060 Bonds—Special obligations—Payment—Funds—Segregation of proceeds and moneys.** Bonds issued under this chapter shall not be deemed to constitute obligations, either general or special, of the state or of any political subdivision of the state, or a pledge of the faith and credit of the state or of any political subdivision, or a general obligation of the authority. The bonds shall be special obligations of the authority and shall be payable solely from the special fund or funds created by the authority in the bond resolution or trust indenture pursuant to which the bonds were issued. The fund or funds shall be funded in whole or in part from moneys paid by one or more participants for whose ben-

efit the bonds were issued, from the sources, if any, under RCW 28B.07.040(9), or from the proceeds of bonds issued by the authority for the purpose of refunding any outstanding bonds of the authority. The issuance of bonds under this chapter shall not obligate, directly, indirectly, or contingently, the state or any political subdivision of the state to levy any taxes or appropriate or expend any funds for the payment of the principal or the interest on the bonds.

Neither the proceeds of bonds issued under this chapter, any moneys used or to be used to pay the principal of or interest on the bonds, nor any moneys received by the authority to defray its administrative costs shall constitute public money or property. All of such moneys shall be kept segregated and set apart from funds of the state and any political subdivision of the state and shall not be subject to appropriation or allotment by the state or subject to the provisions of chapter 43.88 RCW. [1983 c 169 § 6.]

**28B.07.070 Agreements with participant—Participant's payment of certain costs and expenses.** In connection with any bonds issued by the authority, the authority shall enter into agreements with participants which shall provide for the payment by each participant of amounts which shall be sufficient, together with other revenues available to the authority, if any, to: (1) Pay the participant's share of the administrative costs and expenses of the authority; (2) pay the costs of maintaining, managing, and operating the project or projects financed by the authority, to the extent that the payment of the costs has not otherwise been adequately provided for; (3) pay the principal of, premium, if any, and interest on outstanding bonds of the authority issued in respect of such project or projects as the same shall become due and payable; and (4) create and maintain reserves required or provided for in any bond resolution or trust indenture authorizing the issuance of such bonds of the authority. The payments shall not be subject to supervision or regulation by any department, committee, board, body, bureau, or agency of the state other than the authority. [1983 c 169 § 7.]

**28B.07.080 Moneys deemed trust funds—Agreement or trust indenture with bank or trust company authorized.** All moneys received by or on behalf of the authority under this chapter, whether as proceeds from the sale of bonds or from participants or from other sources shall be deemed to be trust funds to be held and applied solely as provided in this chapter. The authority, in lieu of receiving and applying the moneys itself, may enter into an agreement or trust indenture with one or more banks or trust companies having the power and authority to conduct trust business in the state to:

(1) Perform all of any part of the obligations of the authority with respect to: (a) Bonds issued by it; (b) the receipt, investment, and application of the proceeds of the bonds and moneys paid by a participant or available from other sources for the payment of the bonds; (c) the enforcement of the obligations of a participant in connection with the financing or refinancing of any project; and (d) other matters relating to the exercise of the authority's powers under this chapter;

(2) Receive, hold, preserve, and enforce any security interest or evidence of security interest granted by a participant for purposes of securing the payment of the bonds; and

(3) Act on behalf of the authority or the holders or owners of bonds of the authority for purposes of assuring or enforcing the payment of the bonds, when due. [1983 c 169 § 8.]

**28B.07.090 Holders or owners of bonds—Trustees—Enforcement of rights—Purchase at foreclosure sale.** Any holder or owner of bonds of the authority issued under this chapter or any holder of the coupons appertaining to the bonds, and the trustee or trustees under any trust indenture, except to the extent the rights given are restricted by the authority in any bond resolution or trust indenture authorizing the bonds, may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce any of their respective rights, and may become the purchaser at any foreclosure sale if the person is the highest bidder. [1983 c 169 § 9.]

**28B.07.100 Bonds are securities—Legal investments.** The bonds of the authority are securities in which all public officers and bodies of this state and all counties, cities, municipal corporations, and political subdivisions, all banks, bankers, trust companies, savings banks and institutions, building and loan associations, savings and loan associations, investment companies, insurance companies and associations, and all executors, administrators, guardians, trustees, and other fiduciaries may legally invest any sinking funds, moneys, or other funds belonging to them or within their control. [1983 c 169 § 10.]

**28B.07.110 Projects or financing—Exemption from certain restrictions on procedures for awarding contracts.** A project or the financing or refinancing thereof pursuant to this chapter shall not be subject to the requirements of any law or rule relating to competitive bidding, lease performance bonds, or other restrictions imposed on the procedure for award of contracts. [1983 c 169 § 11.]

**28B.07.120 Bond counsel—Selection.** (1) The authority shall adopt written policies to provide for the selection of bond counsel. The policies shall provide for the creation and maintenance of a roster of attorneys whom the authority believes possess the requisite special expertise and professional standing to provide bond counsel opinions which would be accepted by the underwriters, bondholders and other members of the financial community, and which would be in furtherance of the public interest in obtaining the lowest possible interest rates on the bonds issued by the authority. Any attorney may apply to have his or her name placed on the roster, but may not be placed on the roster unless the attorney demonstrates to the authority's satisfaction that the attorney would issue the kind of opinions required by this section.

(2) Prior to selecting an attorney or attorneys to provide bond counsel services, the authority shall provide all attorneys on the roster with a notice of its intentions to select bond counsel and shall invite each of them to submit to the authority his or her fee schedule for providing bond counsel ser-

vices. The authority shall have wide discretion in selecting the attorney or attorneys it considers to be most appropriate to provide the services, but in the exercise of this discretion the authority shall consider all submitted fee schedules and the public interest in achieving issuance of bonds on terms most favorable to the authority. At least once every two calendar years, the authority shall select anew an attorney or attorneys to serve as bond counsel. However, the authority may retain an attorney for longer than two years when necessary to complete work on a particular bond issue. An attorney previously retained may be selected again but only after the authority has provided other attorneys on the roster with an opportunity to be selected and has made the fee schedule review required under this subsection. As an alternative to retaining counsel for a period of time, the authority may appoint an attorney to serve as counsel in respect to only a particular bond issue or issues. [1983 c 169 § 13.]

**28B.07.130 Underwriters—Selection.** (1) The authority shall adopt written policies to provide for the selection of underwriters. The policies shall provide for the creation of a roster of underwriters who the authority believes possess the requisite special expertise and professional standing to provide bond marketing services which would be accepted by bondholders and other members of the financial community, and which would be in furtherance of the public interest in marketing the authority's bonds at the lowest possible costs. Any underwriter may apply to have its name placed on the roster, but may not be placed on the roster unless it demonstrates to the authority's satisfaction that it meets the requirements of this section.

(2) Whenever the authority decides that it needs the services of an underwriter, it shall provide all underwriters on the roster with a notice of its intentions and shall invite each of them to submit to the authority an itemization of its fees and other charges for providing underwriting services on the issue. The itemization shall be by categories designed by the authority. The authority shall have wide discretion in selecting the underwriter it considers to be most appropriate to provide the services, but in the exercise of this discretion the authority shall consider the underwriter's fees and other charges and the public interest in achieving issuance of bonds on terms most favorable to the authority. The authority may adopt rules setting forth conditions under which an institution of higher education may be permitted to exercise the notice and selection procedures set forth in this subsection. These rules shall require the institution to comply with the provisions of this subsection as if it were the authority and to obtain the authority's prior approval of the selection of an underwriter. [1983 c 169 § 14.]

- (b) To issue revenue bonds payable from and secured by educational loans;

(c) To execute financing documents in connection with such educational loans and bonds;

(d) To adopt rules in accordance with chapter 34.05 RCW;

(e) To participate fully in federal programs that provide guaranties for the repayment of educational loans and do all things necessary, useful, or convenient to make such programs available in the state and carry out the purposes of this chapter;

(f) To contract with an agency, financial institution, or corporation, whether organized under the laws of this state or otherwise, whereby such agency, financial institution, or corporation shall provide billing, accounting, reporting, or administrative services required for educational loan programs administered by the authority or in which the authority participates; and

(g) To form one or more nonprofit special purpose corporations for accomplishing the purposes set forth in this chapter. The authority may contract with any such nonprofit corporation, as set forth in (f) of this subsection.

(2) In the exercise of any of these powers, the authority shall incur no expense or liability that shall be an obligation, either general or special, of the state, and shall pay no expense or liability from funds other than funds of the authority. Funds of the state may not be used for such purpose unless appropriated for such purpose. [2007 c 36 § 3.]

**Policy—Purpose—2007 c 36:** "It is the public policy of the state and a recognized governmental function to facilitate student loan financing and thereby increase access to higher education for Washington's citizens. The purpose of this act is to bring to the citizens of the state the applicable advantages of federal tax law and federal loan guaranties and to authorize the Washington higher education facilities authority to originate and acquire educational loans and to issue nonrecourse revenue bonds to be paid from such loans." [2007 c 36 § 1.]

**28B.07.310 Administration of alternative state educational loans.** The authority, in addition to administering federal loan programs, may administer an alternative state educational loan program that may include the purchase or origination of alternative state educational loans with terms as determined by the authority. These loans are not guaranteed by the state and the proceeds from loan repayment including interest or other loan-related payments or authority or contractor revenue may be used by the authority to make any required payments to bondholders. [2007 c 36 § 4.]

**Policy—Purpose—2007 c 36:** See note following RCW 28B.07.300.

**28B.07.320 Revenue bonds—Issuance—Payment—Personal liability.** (1) The authority may, from time to time, issue revenue bonds in order to carry out the purposes of this chapter.

(2) The bonds shall be issued pursuant to a bond resolution or trust indenture and shall be payable solely out of the special fund or funds created by the authority in the bond resolution or trust indenture. Any security interest created against the unexpended bond proceeds and against the special funds created by the authority shall be immediately valid and binding against the moneys and any securities in which the moneys may be invested without authority or trustee possession, and the security interest shall be prior to any party having any competing claim against the moneys or securities, without filing or recording under Article 62A.9A of the uni-

form commercial code, and regardless of whether the party has notice of the security interest.

(3) The obligations shall be payable from and secured by a pledge of revenues derived from or by reason of ownership of guaranteed educational loans and investment income, after deduction of expenses of operating the authority's program.

(4) The bonds may be issued as serial bonds or as term bonds or any such combination. The bonds shall bear such date or dates; mature at such time or times; bear interest at such rate or rates, either fixed or variable; be payable at such time or times; be in such denominations; be in such form; carry such registration privileges; be made transferable, exchangeable, and interchangeable; be payable in lawful money of the United States of America at such place or places; be subject to such terms of redemption; and be sold at public or private sale, in such manner, at such time, and at such price as the authority shall determine. The bonds shall be executed by the manual or facsimile signatures of the chairperson and the authority's duly elected secretary or its executive director, and by the trustee if the authority determines to use a trustee. At least one signature shall be manually subscribed.

(5) Any bond resolution, trust indenture, or other financing document may contain provisions, which may be made a part of the contract with the holders or owners of the bonds to be issued, pertaining to the following, among other matters: (a) The security interests granted to the holders or owners of the bonds to secure repayment of the bonds; (b) the segregation of reserves or sinking funds, and the regulation, investment, and disposition thereof; (c) limitations on the purposes to which, or the investments in which, the proceeds of the sale of any issue of bonds may be applied; (d) terms pertaining to the issuance of additional parity bonds; (e) the refunding of outstanding bonds; (f) procedures, if any, by which the terms of any contract with bondholders may be amended or abrogated; (g) events of default as well as rights and remedies in the event of a default including without limitation the right to declare all principal and interest immediately due and payable; (h) terms governing performance by the trustee of its obligation; or (i) such other additional covenants, agreements, and provisions as are deemed necessary, useful, or convenient by the authority for the security of the holders of the bonds.

(6) All bonds and any interest coupons appertaining to the bonds shall be negotiable instruments under Title 62A RCW.

(7) Neither the members of the authority, nor its employees or agents, nor any person executing the bonds shall be liable personally on the bonds or be subject to any personal liability or accountability by reason of the issuance of the bonds.

(8) The authority may purchase its bonds with any of its funds available for the purchase. The authority may hold, pledge, cancel, or resell the bonds subject to and in accordance with agreements with bondholders.

(9) Bonds issued under this chapter shall not be deemed to constitute obligations, either general or special, of the state or of any political subdivision of the state, or a pledge of the faith and credit of the state or of any political subdivision, or a general obligation of the authority. The bonds shall be special obligations of the authority and shall be payable solely

from the special fund or funds created by the authority in the bond resolution or trust indenture pursuant to which the bonds were issued. The issuance of bonds under this chapter shall not obligate, directly, indirectly, or contingently, the state or any political subdivision of the state to levy any taxes or appropriate or expend any funds for the payment of the principal or the interest on the bonds.

(10) Neither the proceeds of bonds issued under this chapter, any moneys used or to be used to pay the principal of or interest on the bonds, nor any moneys received by the authority to defray its administrative costs shall constitute public money or property. All of such moneys shall be kept segregated and set apart from funds of the state and any political subdivision of the state and shall not be subject to appropriation or allotment by the state or subject to the provisions of chapter 43.88 RCW. [2007 c 36 § 5.]

The authority, in lieu of receiving and applying the moneys itself, may enter into an agreement or trust indenture with one or more banks or trust companies having the power and authority to conduct trust business in the state to:

(1) Perform all or any part of the obligations of the authority with respect to: (a) Bonds issued by it; (b) the receipt, investment, and application of the proceeds of the bonds and moneys available for the payment of the bonds; and (c) other matters relating to the exercise of the authority's powers under this chapter;

**28B.10.056 State enrollment and degree priority—Science and technology fields—Report to the legislature.**

(1) A state priority is established for institutions of higher education, including community colleges, to encourage growing numbers of enrollments and degrees in the fields of engineering, technology, biotechnology, sciences, computer sciences, and mathematics.

(2) In meeting this state priority, the legislature understands and recognizes that the demands of the economic marketplace and the desires of students are not always on parallel tracks. Therefore, institutions of higher education shall determine local student demand for programs in the fields of engineering, technology, biotechnology, sciences, computer sciences, and mathematics and submit findings and proposed alternatives to meet demand to the higher education coordinating board and the legislature by November 1, 2008.

(3) While it is understood that these areas of emphasis should not be the sole focus of institutions of higher education. It is the intent of the legislature that steady progress in these areas occur. The higher education coordinating board shall track and report progress in the fields of engineering, technology, biotechnology, sciences, computer sciences, and mathematics including, but not limited to, the following information:

(a) The number of students enrolled in these fields on a biennial basis;

(b) The number of associate, bachelor's, and master's degrees conferred in these fields on a biennial basis;

(c) The amount of expenditures in enrollment and degree programs in these fields; and

(d) The number and type of public-private partnerships established relating to these fields among institutions of higher education, including community colleges, and leading corporations in Washington state.

(4) Institutions of higher education, including community colleges, shall be provided discretion and flexibility in achieving the objectives under this section. Examples of the types of institutional programs that may help achieve these objectives include, but are not limited to, establishment of institutes of technology, new polytechnic-based institutions, new divisions of existing institutions, and a flexible array of delivery models, including face-to-face learning, interactive courses, internet-based offerings, and instruction on main campuses, branch campuses, and other educational centers.

(5) The legislature recognizes the global needs of the economic marketplace for technologically prepared graduates, and the relationship between technology industries and higher education. Institutions of higher education, including community colleges, are strongly urged to consider science, engineering, and technology program growth in areas of the state that exhibit a high concentration of aerospace, biotechnology, and technology industrial presence. Expanded science and technology programs can gain from the proximity of experienced and knowledgeable industry leaders, while industry can benefit from access to new sources of highly trained and educated graduates. [2006 c 180 § 2.]

**Findings—Intent—2006 c 180:** "(1) The legislature recognizes the vital importance to the state's economic prosperity and the economic benefit of placing a priority on enrolling and conferring degrees upon students in the fields of engineering, technology, biotechnology, science, computer science, and mathematics.

(2) The legislature has significant concerns that other countries are outpacing the United States in graduating qualified engineers, and that major corporations within Washington state are searching out-of-state and even outside the United States to find the qualified and trained employees they need.

(3) Data compiled by the technology alliance shows that Washington state ranks thirty-fourth among the fifty states in the percentage of residents who have earned a science or engineering degree, per capita.

(4) Data collected by the office of financial management indicates that between the academic years of 1993-94 and 2003-04 at public four-year institutions of higher education in Washington state:

(a) There was a twelve percent decline in the number of full-time equivalents enrolled in the fields of engineering and related technologies; and

(b) There was nearly a nine percent decline in the number of bachelor's degrees conferred in the fields of engineering and related technologies.

(5) Data collected by the office of financial management also shows that for the 2003-04 academic year, only four percent of all full-time equivalents were enrolled in engineering and related technologies and just two percent of all full-time equivalents were enrolled in computer science studies at public four-year institutions of higher education in the state.

(6) Therefore, it is the intent of the legislature to promote increased access, delivery models, enrollment slots, and degree opportunities in the fields of engineering, technology, biotechnology, sciences, computer sciences, and mathematics. It is recognized that these areas of study and training are integrally linked to ensuring that Washington state's economy can compete nationally and globally in the twenty-first century marketplace. It is also recognized that community colleges play a unique role in supporting degree attainment in the fields of science, technology, engineering, and mathematics through the development of transferable curricula and the maintenance of viable articulation agreements with both public and private universities." [2006 c 180 § 1.]

(4) If the legislature determines that implementation is feasible, the public baccalaureate institutions shall pilot test strategies to assess and report on information and technology literacy during the 2002-03 academic year.

(5) By the end of January 2004, the institutions shall report to the house of representatives and senate committees on higher education the results of the 2002-03 pilot study.

(6) Implementation of assessment strategies shall begin in the academic year 2003-04.

(7) The higher education coordinating board shall report results to the house of representatives and senate committees on higher education in the 2005 legislative session. [2000 c 166 § 2.]

**Findings—2000 c 166:** "The legislature finds that competence in information literacy and fluency in information technology are increasingly important in the workplace as well as in day-to-day activities. The legislature finds that to prepare students to meet the challenges of the workforce and society, students must be able to effectively manage and apply information from a variety of sources. **28B.10.270 Rights of Washington national guard and other military reserve students called to active service.**

(1) A member of the Washington national guard or any other military reserve component who is a student at an institution of higher education and who is ordered for a period exceeding thirty days to either active state service, as defined in RCW 38.04.010, or to federal active military service has the following rights:

(a) With regard to courses in which the person is enrolled, the person may:

(i) Withdraw from one or more courses for which tuition and fees have been paid that are attributable to the courses. The tuition and fees must be credited to the person's account at the institution. Any refunds are subject to the requirements of the state or federal financial aid programs of origination.

In such a case, the student shall not receive credit for the courses and shall not receive a failing grade, an incomplete, or other negative annotation on the student's record, and the student's grade point average shall not be altered or affected in any manner because of action under this item;

(ii) Be given a grade of incomplete and be allowed to complete the course upon release from active duty under the institution's standard practice for completion of incompletes; or

(iii) Continue and complete the course for full credit. Class sessions the student misses due to performance of state or federal active military service must be counted as excused absences and must not be used in any way to adversely impact the student's grade or standing in the class. Any student who selects this option is not, however, automatically excused from completing assignments due during the period the student is performing state or federal active military service. A letter grade or a grade of pass must only be awarded if, in the opinion of the faculty member teaching the course, the student has completed sufficient work and has demonstrated sufficient progress toward meeting course requirements to justify the grade;

(b) To receive a refund of amounts paid for room, board, and fees attributable to the time period during which the student was serving in state or federal active military service and did not use the facilities or services for which the amounts were paid. Any refund of room, board, and fees is subject to the requirements of the state or federal financial aid programs of origination; and

(c) If the student chooses to withdraw, the student has the right to be readmitted and enrolled as a student at the institution, without penalty or redetermination of admission eligibility, within one year following release from the state or federal active military service.

(2) The protections in this section may be invoked as follows:

(a) The person, or an appropriate officer from the military organization in which the person will be serving, must give written notice that the person is being, or has been, ordered to qualifying service; and

(b) Upon written request from the institution, the person shall provide written verification of service.

(3) This section provides minimum protections for students. Nothing in this section prevents institutions of higher education from providing additional options or protections to students who are ordered to state or federal active military service. [2004 c 161 § 1.]

**28B.10.580 Term papers, theses, dissertations, sale of prohibited—Legislative findings—Purpose.** (1) The legislature finds that commercial operations selling term papers, theses, and dissertations encourages academic dishonesty, and in so doing impairs the public confidence in the credibility of institutions of higher education whether in this state or any other to function within their prime mission, that of providing a quality education to the citizens of this or any other state.

(2) The legislature further finds that this problem, beyond the ability of these institutions to control effectively, is a matter of state concern, while at the same time recognizing the need for and the existence of legitimate research functions.

It is the declared intent of RCW 28B.10.580 through 28B.10.584, therefore, that the state of Washington prohibit the preparation for sale or commercial sale of term papers, theses and dissertations: PROVIDED, That such legislation shall not affect legitimate and proper research activities:

PROVIDED FURTHER, That such legislation does not impinge on the rights, under the First Amendment, of freedom of speech, of the press, and of distributing information. [1981 c 23 § 1; 1979 c 43 § 1.]

(2) No person shall sell or offer for sale to any student enrolled in a postsecondary institution any assistance in the preparation, research or writing of an assignment knowing or under the circumstances having reason to know, that said assignment is intended for submission either in whole or substantial part under said student's name to such educational institution in fulfillment of the requirements for a degree, diploma, certificate, or course of study.

(3) Nothing contained in this section shall prevent any person from providing tutorial assistance, research material, information, or other assistance to persons enrolled in a postsecondary institution which is not intended for submission in whole or in substantial part as an assignment under the student's name to such institution. Nor shall any person be prevented by this section from rendering services for a monetary fee which includes typing, assembling, transcription, reproduction, or editing of a manuscript or other assignment: PROVIDED, That such services are not rendered with the intent of making substantive changes in a manuscript or other assignment.

**28B.10.590 Course materials—Cost savings.** (1) The boards of regents of the state universities, the boards of trustees of the regional universities and The Evergreen State College, and the boards of trustees of each community and technical college district, in collaboration with affiliated bookstores and student and faculty representatives, shall adopt rules requiring that:

(a) Affiliated bookstores:

(i) Provide students the option of purchasing materials that are unbundled when possible, disclose to faculty and staff the costs to students of purchasing materials, and disclose publicly how new editions vary from previous editions;

(ii) Actively promote and publicize book buy-back programs;

(iii) Disclose retail costs for course materials on a per course basis to faculty and staff and make this information publicly available; and

(iv) Disclose information to students on required course materials including but not limited to title, authors, edition, price, and International Standard Book Number (ISBN) at least four weeks before the start of the class for which the materials are required. The chief academic officer may waive the disclosure requirement provided in this subsection (1)(a)(iv), on a case-by-case basis, if students may reasonably expect that nearly all information regarding course materials is available four weeks before the start of the class for which the materials are required. The requirement provided in this subsection (1)(a)(iv) does not apply if the faculty member using the course materials is hired four weeks or less before the start of class; and

(b) Faculty and staff members consider the least costly practices in assigning course materials, such as adopting the least expensive edition available, adopting free, open textbooks when available, and working with college librarians to put together collections of free online web and library resources, when educational content is comparable as determined by the faculty.

(2) As used in this section:

(a) "Materials" means any supplies or texts required or recommended by faculty or staff for a given course.

(b) "Bundled" means a group of objects joined together by packaging or required to be purchased as an indivisible unit. [2009 c 241 § 1; 2007 c 457 § 1; 2006 c 81 § 2.]

**Findings—Intent—2006 c 81:** "The legislature finds that:

(1) Often the bundling of texts, workbooks, CD-ROMs, and other course related materials is unnecessary since many students do not use all of the materials included and may realize cost savings if materials are also offered independently one from the other; and

(2) Many faculty and staff select materials uninformed of the retail costs and differences between versions.

It is the intent of the legislature to give students more choices for purchasing educational materials and to encourage faculty and staff to work closely with bookstores and publishers to implement the least costly option without sacrificing educational content and to provide maximum cost savings to students." [2006 c 81 § 1.]

**28B.10.592 College textbook information—Publishers' duties.** (1) Each publisher of college textbooks shall make immediately available to faculty of institutions of higher education:

(b) The history of revisions for the products, if any.

(2) For the purposes of this section:

(a) "Immediately available" means with any marketing materials presented to a member of the faculty.

(b) "Products" means all versions of a textbook or set of textbooks, except custom textbooks or special editions of textbooks, available in the subject area for which a faculty member is teaching a course, including supplemental items, both when sold together or separately from a textbook. [2007 c 186 § 1.]

**28B.10.600 District schools may be used for teacher training by universities and The Evergreen State College—Authority.** The boards of regents of the state universities are each authorized to enter into agreements with the board of directors of any school district in this state whereby one or more of the public schools operated by such district may be used by the university for the purpose of training students at said university as teachers, supervisors, principals, or superintendents. State universities are expected to develop and strengthen university-industry relationships through the conduct of research, the support of company formation and job generation, and collaborative training. **28B.10.900 "Hazing" defined.** As used in RCW 28B.10.901 and 28B.10.902, "hazing" includes any method of initiation into a student organization or living group, or any pastime or amusement engaged in with respect to such an organization or living group that causes, or is likely to cause, bodily danger or physical harm, or serious mental or emotional harm, to any student or other person attending a public or private institution of higher education or other postsecondary educational institution in this state. "Hazing" does not include customary athletic events or other similar contests or competitions. [1993 c 514 § 1.]

**28B.10.901 Hazing prohibited—Penalty.** (1) No student, or other person in attendance at any public or private institution of higher education, or any other postsecondary educational institution, may conspire to engage in hazing or participate in hazing of another.

(2) A violation of this section is a misdemeanor, punishable as provided under RCW 9A.20.021.

(3) Any organization, association, or student living group that knowingly permits hazing is strictly liable for

harm caused to persons or property resulting from hazing. If the organization, association, or student living group is a corporation whether for profit or nonprofit, the individual directors of the corporation may be held individually liable for damages. [1993 c 514 § 2.]

**28B.10.902 Participating in or permitting hazing—Loss of state-funded grants or awards—Loss of official recognition or control—Rules.** (1) A person who participates in the hazing of another shall forfeit any entitlement to state-funded grants, scholarships, or awards for a period of time determined by the institution of higher education.

(2) Any organization, association, or student living group that knowingly permits hazing to be conducted by its members or by others subject to its direction or control shall be deprived of any official recognition or approval granted by a public institution of higher education.

(3) The public institutions of higher education shall adopt rules to implement this section. [1993 c 514 § 3.]

**28B.10.903 Conduct associated with initiation into group or pastime or amusement with group—Sanctions adopted by rule.** Institutions of higher education shall adopt rules providing sanctions for conduct associated with initiation into a student organization or living group, or any pastime or amusement engaged in with respect to an organization or living group not amounting to a violation of RCW 28B.10.900. **28B.10.910 Students with disabilities—Core services.** Each student with one or more disabilities is entitled to receive a core service only if the service is reasonably needed to accommodate the student's disabilities. The requesting student shall make a reasonable request for core services in a timely manner and the institution of higher education or agency providing the service shall respond reasonably and in a timely manner. [1994 c 105 § 2.]

**Intent—1994 c 105:** "It is a fundamental aspiration of the people of Washington that individuals be afforded the opportunity to compete academically. Accordingly, it is an appropriate act of state government, in furtherance of this aspiration, to make available appropriate support services to those individuals who are able to attend college by virtue of their potential and desire, but whose educational progress and success is hampered by a lack of accommodation.

Furthermore, under existing federal and state laws, institutions of higher education are obligated to provide services to students with disabilities. The legislature does not intend to confer any new or expanded rights, however, the intent of this act is to provide a clearer, more succinct statement of those rights than is presently available and put Washington on record as supporting those rights.

It is the intent of the legislature that these services be provided within the bounds of the law. Therefore, the institution of higher education's obligations to provide reasonable accommodations are limited by the defenses provided in federal and state statutes, such as undue financial burden and undue hardship." [1994 c 105 § 1.]

**28B.10.912 Students with disabilities—Core services described—Notice of nondiscrimination.** Each institution of higher education shall ensure that students with disabilities are reasonably accommodated within that institution. The institution of higher education shall provide students with

disabilities with the appropriate core service or services necessary to ensure equal access.

Core services shall include, but not be limited to:

(1) Flexible procedures in the admissions process that use a holistic review of the student's potential, including appropriate consideration in statewide and institutional alternative admissions programs;

(2) Early registration or priority registration;

(3) Sign language, oral and tactile interpreter services, or other technological alternatives;

(4) Textbooks and other educational materials in alternative media, including, but not limited to, large print, braille, electronic format, and audio tape;

(5) Provision of readers, notetakers, scribes, and proofreaders including recruitment, training, and coordination;

(6) Ongoing review and coordination of efforts to improve campus accessibility, including but not limited to, all aspects of barrier-free design, signage, high-contrast identification of hazards of mobility barriers, maintenance of access during construction, snow and ice clearance, and adequate disability parking for all facilities;

(7) Facilitation of physical access including, but not limited to, relocating of classes, activities, and services to accessible facilities and orientation if route of travel needs change, such as at the beginning of a quarter or semester;

(8) Access to adaptive equipment including, but not limited to, TDDs, FM communicators, closed caption devices, amplified telephone receivers, closed circuit televisions, low-vision reading aids, player/recorders for 15/16 4-track tapes, photocopy machines able to use eleven-by-seventeen inch paper, braille devices, and computer enhancements;

(9) Referral to appropriate on-campus and off-campus resources, services, and agencies;

(10) Release of syllabi, study guides, and other appropriate instructor-produced materials in advance of general distribution, and access beyond the regular classroom session to slides, films, overheads and other media and taping of lectures;

(11) Accessibility for students with disabilities to tutoring, mentoring, peer counseling, and academic advising that are available on campus;

(12) Flexibility in test taking arrangements;

(13) Referral to the appropriate entity for diagnostic assessment and documentation of the disability;

(14) Flexibility in timelines for completion of courses, certification, and degree requirements;

(15) Flexibility in credits required to be taken to satisfy institutional eligibility for financial aid; and

(16) Notification of the institution of higher education's policy of nondiscrimination on the basis of disability and of steps the student may take if he or she believes discrimination has taken place. This notice shall be included in all formal correspondence that communicates decisions or policies adversely affecting the student's status or rights with the institution of higher education. This notice shall include the phone numbers of the United States department of education, the United States office of civil rights, and the Washington state human rights commission. [1994 c 105 § 3.]

**Intent—1994 c 105:** See note following RCW 28B.10.910.

(2010 Ed.)

**28B.10.914 Students with disabilities—Accommodation.** Reasonable accommodation for students with disabilities shall be provided as appropriate for all aspects of college and university life, including but not limited to: Recruitment, the application process, enrollment, registration, financial aid, course work, research, academic counseling, housing programs owned or operated by the institution of higher education, and nonacademic programs and services. [1994 c 105 § 4.]

**Intent—1994 c 105:** See note following RCW 28B.10.910.

**28B.10.916 Supplemental instructional materials for students with print access disability.** (1) An individual, firm, partnership or corporation that publishes or manufactures instructional materials for students attending any public or private institution of higher education in the state of Washington shall provide to the public or private institution of higher education, for use by students attending the institution, any instructional material in an electronic format mutually agreed upon by the publisher or manufacturer and the public or private institution of higher education. Computer files or electronic versions of printed instructional materials shall be provided; video materials must be captioned or accompanied by transcriptions of spoken text; and audio materials must be accompanied by transcriptions. These supplemental materials shall be provided to the public or private institution of higher education at no additional cost and in a timely manner, upon receipt of a written request as provided in subsection (2) of this section.

(2) A written request for supplemental materials must:

(a) Certify that a student with a print access disability attending or registered to attend a public or participating private institution of higher education has purchased the instructional material or the public or private institution of higher education has purchased the instructional material for use by a student with a print access disability;

(b) Certify that the student has a print access disability that substantially prevents him or her from using standard instructional materials;

(c) Certify that the instructional material is for use by the student in connection with a course in which he or she is registered or enrolled at the public or private institution of higher education; and

(d) Be signed by the coordinator of services for students with disabilities at the public or private institution of higher education or by the college or campus official responsible for monitoring compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) at the public or private institution of higher education.

(3) An individual, firm, partnership or corporation specified in subsection (1) of this section may also require that, in addition to the requirements in subsection (2) of this section, the request include a statement signed by the student agreeing to both of the following:

(a) He or she will use the instructional material provided in specialized format solely for his or her own educational purposes; and

(b) He or she will not copy or duplicate the instructional material provided in specialized format for use by others.

(4) If a public or private institution of higher education provides a student with the specialized format version of an

instructional material, the media must be copy-protected or the public or private institution of higher education shall take other reasonable precautions to ensure that students do not copy or distribute specialized format versions of instructional materials in violation of the Copyright Revisions Act of 1976, as amended (17 U.S.C. Sec. 101 et seq.).

(5) For purposes of this section:

(a) "Instructional material or materials" means textbooks and other materials that are required or essential to a student's success in a postsecondary course of study in which a student with a disability is enrolled. The determination of which materials are "required or essential to student success" shall be made by the instructor of the course in consultation with the official making the request in accordance with guidelines issued pursuant to subsection (9) of this section. The term specifically includes both textual and nontextual information.

(b) "Print access disability" means a condition in which a person's independent reading of, reading comprehension of, or visual access to materials is limited or reduced due to a sensory, neurological, cognitive, physical, psychiatric, or other disability recognized by state or federal law. The term is applicable, but not limited to, persons who are blind, have low vision, or have reading disorders or physical disabilities.

(c) "Structural integrity" means all instructional material, including but not limited to the text of the material, sidebars, the table of contents, chapter headings and subheadings, footnotes, indexes, glossaries, graphs, charts, illustrations, pictures, equations, formulas, and bibliographies. Structural order of material shall be maintained. Structural elements, such as headings, lists, and tables must be identified using current markup and tools. If good faith efforts fail to produce an agreement between the publisher or manufacturer and the public or private institution of higher education, as to an electronic format that will preserve the structural integrity of instructional materials, the publisher or manufacturer shall provide the instructional material in a verified and valid HTML format and shall preserve as much of the structural integrity of the instructional materials as possible.

(d) "Specialized format" means Braille, audio, or digital text that is exclusively for use by blind or other persons with print access disabilities.

(6) Nothing in this section is to be construed to prohibit a public or private institution of higher education from assisting a student with a print access disability through the use of an electronic version of instructional material gained through this section or by transcribing or translating or arranging for the transcription or translation of the instructional material into specialized formats that provide persons with print access disabilities the ability to have increased independent access to instructional materials. If such specialized format is made, the public or private institution of higher education may share the specialized format version of the instructional material with other students with print access disabilities for whom the public or private institution of higher education is authorized to request electronic versions of instructional material. The addition of captioning to video material by a Washington public or private institution of higher education does not constitute an infringement of copyright.

(7) A specialized format version of instructional materials developed at one public or private institution of higher education in Washington state may be shared for use by a stu-

dent at another public or private institution of higher education in Washington state for whom the latter public or private institution of higher education is authorized to request electronic versions of instructional material.

(8) Nothing in this section shall be deemed to authorize any use of instructional materials that would constitute an infringement of copyright under the Copyright Revision Act of 1976, as amended (17 U.S.C. Sec. 101 et seq.).

(9) The governing boards of public and participating private institutions of higher education in Washington state shall each adopt guidelines consistent with this section for its implementation and administration. At a minimum, the guidelines shall address all of the following:

(a) The designation of materials deemed "required or essential to student success";

(b) The determination of the availability of technology for the conversion of materials pursuant to subsection (4) of this section and the conversion of mathematics and science materials pursuant to subsection (5)(c) of this section;

(c) The procedures and standards relating to distribution of files and materials pursuant to this section;

(d) The guidelines shall include procedures for granting exceptions when it is determined that an individual, firm, partnership or corporation that publishes or manufactures instructional materials is not technically able to comply with the requirements of this section; and

(e) Other matters as are deemed necessary or appropriate to carry out the purposes of this section.

(10) A violation of this chapter constitutes an unfair practice under chapter 49.60 RCW, the law against discrimination. All rights and remedies under chapter 49.60 RCW, including the right to file a complaint with the human rights commission and to bring a civil action, apply. [2004 c 46 § 1.]

#### **28B.10.918 Disability history month—Activities.**

Annually, during the month of October, each of the public institutions of higher education shall conduct or promote educational activities that provide instruction, awareness, and understanding of disability history and people with disabilities. The activities may include, but not be limited to, guest speaker presentations. [2008 c 167 § 4.]

#### **28B.10.920 Performance agreements—Generally.**

(1) As used in this section and RCW 28B.10.921 and 28B.10.922, a performance agreement is an agreement reached between the state and the governing board of an institution of higher education and approved by the legislature using the process provided in RCW 28B.10.922.

(2) The purpose of a performance agreement is to develop and communicate a six-year plan developed jointly by state policymakers and an institution of higher education that aligns goals, priorities, desired outcomes, flexibility, institutional mission, accountability, and levels of resources.

(3) Beginning in 2008, performance agreements shall be pilot-tested with the public four-year institutions of higher education. [2008 c 160 § 2.]

**Findings—Intent—2008 c 160:** "(1) The legislature finds that in the last ten years, significant progress has been made to identify and monitor accountability and performance measures in higher education, both internally in institutions and externally in the legislative and state policymaking

environment.

(2) However, the legislature further finds that opportunities exist to promote greater visibility of performance measures among policymakers and among the public consumers of higher education. Policy decisions, including decisions about resource allocation, should be made with greater knowledge and a shared understanding about the tradeoffs between resources, flexibility, and desired outcomes. A forum should be created to allow discussion among policymakers and institution leaders about setting outcome-oriented priorities, targeting of investments, linking operating and capital planning, and creating a longer-term view than the biennial budget cycle typically permits.

(3) Therefore, the legislature intends to implement a process for such discussions, agreements, and planning to occur. The process of crafting higher education performance agreements will be pilot-tested over a six-year period with the public four-year institutions of higher education beginning in 2008." [2008 c 160 § 1.]

**28B.10.921 Performance agreements—Contents.** (1) Performance agreements shall address but not be limited to the following issues:

(a) Indicators that measure outcomes concerning cost, quality, timeliness of student progress toward degrees and certifications, and articulation between and within the K-12 and higher education systems;

(b) Benchmarks and goals for long-term degree production, including discrete benchmarks and goals in particular fields of study;

(c) The level of resources necessary to meet the performance outcomes, benchmarks, and goals, subject to legislative appropriation;

(d) The prioritization of four-year institution capital budget projects by the office of financial management; and

(e) Indicators that measure outcomes concerning recruitment, retention, and success of students, faculty, and staff from diverse, underrepresented communities.

(2) The goals and outcomes identified in a performance agreement shall be linked to the role, mission, and strategic plan of the institution of higher education and aligned with the statewide strategic master plan for higher education.

(3) Performance agreements may also include grants to an institution, under the terms of the agreement, of flexibility or waivers from state controls or rules. The agreement may identify areas where statutory change is necessary to grant an institution flexibility or waivers of state agency rules.

(4) The following areas may not be included in a performance agreement:

(a) Flexibility or waivers of requirements in a collective bargaining agreement negotiated under chapter 28B.52, 41.56, 41.59, 41.76, or 41.80 RCW;

(b) Flexibility or waivers of administrative rules or processes governed by chapter 28B.52, 41.56, 41.59, 41.76, or 41.80 RCW;

(c) Rules, processes, duties, rights, and responsibilities of the academic faculty as contained in the faculty codes of the four-year institution;

(d) Flexibility or waivers of requirements under chapter 39.12 RCW;

(e) Flexibility or waivers of administrative rules or other regulations that address health and safety, civil rights, and nondiscrimination laws that apply to institutions of higher education; and

(f) State laws covering terms and conditions of employment, including but not limited to salaries, job security, and

health, retirement, unemployment, or any other employment benefits. [2008 c 160 § 3.]

**Findings—Intent—2008 c 160:** See note following RCW 28B.10.920.

**28B.10.922 Performance agreements—State committee—Development of final proposals—Implementation—Updates.** (1) A state performance agreement committee is created to represent the state in developing performance agreements under this section and RCW 28B.10.920 and 28B.10.921. The committee is composed of representatives from the governor's office, the office of financial management, the higher education coordinating board, the office of the superintendent of public instruction, two members of the senate appointed by the secretary of the senate, and two members of the house of representatives appointed by the speaker of the house of representatives. The state performance agreement committee shall be staffed by personnel from the higher education coordinating board.

(2) Each of the participating institutions shall develop a preliminary draft of a performance agreement with input from students and faculty. The governing boards of the public four-year institutions of higher education shall designate performance agreement representatives for each institution respectively that shall include two faculty members at those institutions bargaining under chapter 41.76 RCW, at least one of whom shall be appointed by the exclusive collective bargaining agent and the other appointed by the faculty governance organization of that institution. If the participating pilot institution does not bargain under chapter 41.76 RCW, then two faculty members shall be appointed by the faculty governance organization of that institution. The associated student governments or their equivalents shall designate two performance agreement representatives at those institutions. Starting with the preliminary drafts, the state performance agreement committee and representatives of each institution shall develop revised draft performance agreements for each institution and submit the revised drafts to the governor and the fiscal and higher education committees of the legislature no later than September 1, 2008.

(3) After receiving informal input on the revised draft performance agreements, particularly regarding the levels of resources assumed in the agreements, the state committee and institution representatives shall develop final proposed performance agreements and submit the agreements to the governor and the office of financial management by November 1, 2008, for consideration in development of the governor's 2009-2011 operating and capital budget recommendations.

(4) The state committee shall submit any legislation necessary to implement a performance agreement to the higher education committees of the senate and house of representatives.

(5) All cost items contained within a performance agreement are subject to legislative appropriation.

(6) If the legislature affirms, through a proviso in the 2009-2011 omnibus appropriations act, that the omnibus appropriations act and the 2009 capital budget act enacted by the legislature align with the proposed performance agreements, the performance agreements shall take effect beginning July 1, 2009, through June 30, 2015. If the legislature affirms, through a proviso in the 2009-2011 omnibus appro-

priations act or through inaction, that the omnibus appropriations act and/or the 2009 capital budget act are not aligned with the proposed performance agreements, the state committee and institution representatives shall redraft the agreements to align with the enacted budgets, and the redrafted agreements shall take effect beginning September 1, 2009, through June 30, 2015.

(7) The legislature, the state committee, and the institution representatives shall repeat the process described in subsection (6) of this section for each subsequent omnibus appropriations and capital budget act enacted between the 2010 and 2014 legislative sessions to ensure that the performance agreements are updated as necessary to align with enacted omnibus appropriations and capital budget acts. [2008 c 160 § 4.]

**Findings—Intent—2008 c 160:** See note following RCW 28B.10.920.

**28B.10.923 Online learning technologies—Common learning management system for institutions of higher education.** All institutions of higher education are encouraged to use common online learning technologies including, but not limited to, existing learning management and web conferencing systems currently managed and governed by the state board for community and technical colleges; and share professional development materials and activities related to effective use of these tools. The state board for community and technical colleges may adjust existing vendor licenses to accommodate and provide enterprise services for any interested institutions of higher education. The common learning management system shall be designed in a way that allows for easy sharing of courses, learning objects, and other digital content among the institutions of higher education. Institutions of higher education may begin migration to these common systems immediately. The state board for community and technical colleges shall convene representatives from each four-year institution of higher education to develop a shared fee structure. [2009 c 407 § 2.]

**Intent—2009 c 407:** "The legislature recognizes that the state must educate more people to higher levels to adapt to the economic and social needs of the future. While our public colleges and universities have realized great success in helping students achieve their dreams, the legislature also recognizes that much more must be done to prepare current and future students for a twenty-first century economy. To raise the levels of skills and knowledge needed to sustain the state's economic prosperity and competitive position in a global environment, the public higher education system must reach out to every prospective student and citizen in unprecedented ways, with unprecedented focus.

To reach out to these citizens, the state must dismantle the barriers of geographic isolation, cost, and competing demands of work and family life. The state must create a more nimble system of learning that is student-centric, more welcoming of nontraditional and underserved students, easier to access and use, and more tailored to today's student needs and expectations.

Technology can play a key role in helping achieve this systemic goal. While only a decade ago access to personal computers was widely viewed a luxury, today computers, digital media, electronic information, and content have changed the nature of how students learn and instructors teach. This presents a vast, borderless opportunity to extend the reach and impact of the state's public educational institutions and educate more people to higher levels.

Each higher education institution and workforce program serves a unique group of students and as such, has customized its own technology solutions to meet its emerging needs. While local solutions may have served institutions of higher education in the past, paying for and operating multiple technology solutions, platforms, systems, models, agreements, and operational functionality for common applications and support services no longer serves students or the state.

Today's students access education differently. Rather than enrolling in one institution of higher education, staying two to four years and graduating, today's learners prefer a cafeteria approach; they often enroll in and move among multiple institutions - sometimes simultaneously. Rather than sitting in lecture halls taking notes, they may listen to podcasts of a lecture while grocery shopping or hold a virtual study group with classmates on a video chat room. They may prefer hybrid courses where part of their time is spent in the classroom and part is spent online. They prefer online access for commodity administrative services such as financial aid, admissions, transcript services, and more.

Institutions of higher education not only must rethink teaching and learning in a digital-networked world, but also must tailor their administrative and student services technologies to serve the mobile student who requires dynamic, customized information online and in real time. Because these relationships are changing so fast and so fundamentally, it is incumbent on the higher education system to transform its practices just as profoundly.

Therefore, the legislature intends to both study and implement its findings regarding how the state's public institutions of higher education can share core resources in instructional, including library, resources, student services, and administrative information technology resources, user help desk services, faculty professional development, and more. The study will examine how public institutions of higher education can pursue a strategy of implementing single, shared, statewide commonly needed standards-based software, web hosting and support service solutions that are cost-effective, easily integrated, user-friendly, flexible, and constantly improving. The full range of applications that serve students, faculty, and administration shall be included. Expensive, proprietary, nonstandards-based customized applications, databases and services, and other resources that do not allow for the transparent sharing of information across institutions, agencies, and educational levels, including K-12, are inconsistent with the state's objective of educating more people to higher levels." [2009 c 407 § 1.]

**28B.10.980 Construction—Chapter applicable to state registered domestic partnerships—2009 c 521.** For the purposes of this chapter, the terms spouse, marriage, marital, husband, wife, widow, widower, next of kin, and family shall be interpreted as applying equally to state registered domestic partnerships or individuals in state registered domestic partnerships as well as to marital relationships and married persons, and references to dissolution of marriage shall apply equally to state registered domestic partnerships that have been terminated, dissolved, or invalidated, to the extent that such interpretation does not conflict with federal law. Where necessary to implement chapter 521, Laws of 2009, gender-specific terms such as husband and wife used in any statute, rule, or other law shall be construed to be gender neutral, and applicable to individuals in state registered domestic partnerships. [2009 c 521 § 73.]

**28B.14H.005 Intent.** The state's institutions of higher education are a vital component of the future economic prosperity of our state. In order to ensure that Washington continues to be able to provide a highly qualified workforce that can attract businesses and support the economic vitality of the state, it is the intent of chapter 18, Laws of 2003 1st sp. sess. to provide new money for capital projects to help fulfill higher education needs across the state.

This new source of funding for the critical capital needs of the state's institutions of higher education furthers the mission of higher education and is intended to enhance the abilities of those institutions, over the next six years, to fulfill their critical roles in maintaining and stimulating the state's economy.

It is the intent of the legislature that this new source of funding not displace funding levels for the capital and operating budgets of the institutions of higher education. It is instead intended that the new funding will allow the institutions, over the next three biennia, to use the current level of capital funding to provide for many of those urgent preservation, replacement, and maintenance needs that have been deferred. This approach is designed to maintain or improve the current infrastructure of our institutions of higher education, and simultaneously to provide new instruction and research capacity to serve the increasing number of traditional college-aged students and those adults returning to college to update skills or retrain so that they can meet the demands of Washington's changing workforce. This new source of funding may also be used for major preservation projects that renovate, replace, or modernize facilities to enhance capacity/access by maintaining or improving the usefulness of existing space for important instruction and research programs. [2003 1st sp.s. c 18 § 2.]

**28B.14H.010 Definitions.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Bonds" means bonds, notes, commercial paper, certificates of indebtedness, or other evidences of indebtedness of the state issued under this chapter.

(3) "Washington's future bonds" means all or any portion of the general obligation bonds authorized in RCW 28B.14H.020. [2003 1st sp.s. c 18 § 3.]

**28B.14H.020 Washington's future bonds authorized.**

(1) For the purpose of providing needed capital improvements consisting of the predesign, design, acquisition, construction, modification, renovation, expansion, equipping, and other improvement of state buildings and facilities for the institutions of higher education, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of seven hundred seventy-two million five hundred thousand dollars, or so much thereof as may be required, to finance all or a part of the cost of these projects and all costs incidental thereto. The bonds issued under the authority of this section shall be known as Washington's future bonds.

(2) Bonds authorized in this section shall be sold in the manner, at the time or times, in amounts, and at such prices as the state finance committee shall determine.

(3) No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds. [2003 1st sp.s. c 18 § 4.]

**28B.14H.030 Bond issuance—Intent.** It is the intent of the legislature that the proceeds of new bonds authorized in this chapter will be appropriated in phases over three biennia, beginning with the 2003-2005 biennium, to provide additional funding for capital projects and facilities of the institutions of higher education above historical levels of funding.

This chapter is not intended to limit the legislature's ability to appropriate bond proceeds if the full amount authorized in this chapter has not been appropriated after three biennia, and the authorization to issue bonds contained in this chapter does not expire until the full authorization has been appropriated and issued. [2003 1st sp.s. c 18 § 5.]

**28B.14H.040 Terms and covenants.** (1) The state finance committee is authorized to prescribe the form, terms, conditions, and covenants of the bonds provided for in this chapter, the time or times of sale of all or any portion of them, and the conditions and manner of their sale and issuance.

(2) Bonds issued under this chapter shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay the principal and interest as the same shall become due. [2003 1st sp.s. c 18 § 6.]

**28B.14H.050 Proceeds.** (1)(a) The proceeds from the sale of the bonds authorized in RCW 28B.14H.020 shall be deposited in the Gardner-Evans higher education construction account created in RCW 28B.14H.110.

(b) If the state finance committee deems it necessary to issue the bonds authorized in RCW 28B.14H.020 as taxable bonds in order to comply with federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds, the proceeds of such taxable bonds shall be deposited to the state taxable building construction account in lieu of any deposit otherwise provided by this section. The state treasurer shall submit written notice to the director of financial management if it is determined that any such deposit to the state taxable building construction account is necessary. Moneys in the account may be spent only after appropriation.

(2) The proceeds shall be used exclusively for the purposes in RCW 28B.14H.020 and for the payment of the expenses incurred in connection with the sale and issuance of the bonds. [2005 c 487 § 6; 2003 1st sp.s. c 18 § 7.]

**28B.15.025 "Building fees" defined—Use.** The term "building fees" means the fees charged students registering at the state's colleges and universities, which fees are to be used as follows: At the University of Washington, solely for the purposes provided in RCW 28B.15.210; at Washington State University, solely for the purposes provided in RCW 28B.15.310; at each of the regional universities and at The Evergreen State College, solely for the purposes provided in RCW 28B.35.370; and at the community colleges, for the purposes provided in RCW 28B.50.320, 28B.50.360 and 28B.50.370. The term "building fees" is a renaming of the "general tuition fee," and shall not be construed to affect otherwise moneys pledged to, or used for bond retirement purposes. [1985 c 390 § 12.]

**28B.15.031 "Operating fees"—Defined—Disposition.** The term "operating fees" as used in this chapter shall include the fees, other than building fees, charged all students registering at the state's colleges and universities but shall not include fees for short courses, self-supporting degree

credit programs and courses, marine station work, experimental station work, correspondence or extension courses, and individual instruction and student deposits or rentals, disciplinary and library fines, which colleges and universities shall have the right to impose, laboratory, gymnasium, health, technology and student activity fees, or fees, charges, rentals, and other income derived from any or all revenue producing lands, buildings and facilities of the colleges or universities heretofore or hereafter acquired, constructed or installed, including but not limited to income from rooms, dormitories, dining rooms, hospitals, infirmaries, housing or student activity buildings, vehicular parking facilities, land, or the appurtenances thereon, or such other special fees as may be established by any college or university board of trustees or regents from time to time. All moneys received as operating fees at any institution of higher education shall be deposited in a local account containing only operating fees revenue and related interest: PROVIDED, That a minimum of three and one-half percent of operating fees shall be retained by the institutions for the purposes of RCW 28B.15.820. Local operating fee accounts shall not be subject to appropriation by the legislature or allotment procedures under chapter 43.88 RCW. [2003 c 232 § 2; 1996 c 142 § 2; 1995 1st sp.s. c 9 § 2. **Finding—Intent—2003 c 232:** "The legislature finds that, as a partner in financing public higher education with students and parents who pay tuition and fees, periodic increases in state funding, state financial aid, and tuition must be authorized to provide high quality higher education for the citizens of Washington. It is the intent of the legislature to address higher education through a cooperative bipartisan effort that includes the legislative and executive branches of government, parents, students, educators, as well as business, labor, and community leaders. The legislature recognizes the importance of keeping the public commitment to public higher education and will continue searching for policies that halt the trend for the growth in tuition revenue to outpace the revenue provided by the state. The legislature believes that a well-educated citizenry is essential to both the private and the public good. The economic and civic health of the state require both an educated citizenry and a well-trained workforce. The six-year time limitation authorizing the governing boards to establish tuition rates for all students other than undergraduate resident students will give the legislature, the governor, and the higher education institutions an opportunity to determine whether this policy achieves the goal of maintaining quality and access for all who are eligible for and can benefit from a higher education. Using data from six years of this tuition policy, the state will be able to identify options for long-term funding of higher education including not only tuition but general fund and financial aid sources." [2003 c 232 § 1.]

**Intent—Purpose—1995 1st sp.s. c 9:** "It is the intent of the legislature to address higher education funding through a cooperative bipartisan effort that includes the legislative and executive branches of government, parents, students, educators, and concerned citizens. This effort will begin in 1995, with the results providing the basis for discussion during the 1996 legislative session for future decisions and final legislative action in 1997.

The purpose of this act is to provide tuition increases for public institutions of higher education as a transition measure until final action is taken in 1997." [1995 1st sp.s. c 9 § 1.]

**\*Reviser's note:** RCW 28B.15.824 was repealed by 1993 c 379 § 206 and by 1993 sp.s. c 18 § 14, effective July 1, 1993.

**28B.15.041 "Services and activities fees" defined.** The term "services and activities fees" as used in this chapter (2010 Ed.)

is defined to mean fees, other than tuition fees, charged to all students registering at the state's community colleges, regional universities, The Evergreen State College, and state universities. Services and activities fees shall be used as otherwise provided by law or by rule or regulation of the board of trustees or regents of each of the state's community colleges, The Evergreen State College, the regional universities, or the state universities for the express purpose of funding student activities and programs of their particular institution. Student activity fees, student use fees, student building use fees, special student fees, or other similar fees charged to all full time students, or to all students, as the case may be, registering at the state's colleges or universities and pledged for the payment of bonds heretofore or hereafter issued for, or other indebtedness incurred to pay, all or part of the cost of acquiring, constructing or installing any lands, buildings, or facilities of the nature described in RCW 28B.10.300 as now or hereafter amended, shall be included within and deemed to be services and activities fees. [1985 c 390 § 14; 1977 ex.s. c 169 § 35. Prior: 1973 1st ex.s. c 130 § 2; 1973 1st ex.s. c 46 § 1; 1971 ex.s. c 279 § 3.]

**28B.15.044 Services and activities fees—Legislative declaration on expenditure.** It is the intent of the legislature that students will propose budgetary recommendations for consideration by the college or university administration and governing board to the extent that such budget recommendations are intended to be funded by services and activities fees. It is also the intent of the legislature that services and activities fee expenditures for programs devoted to political or economic philosophies shall result in the presentation of a spectrum of ideas. [1986 c 91 § 1; 1980 c 80 § 1.]

**28B.15.045 Services and activities fees—Guidelines governing establishment and funding of programs supported by—Scope—Mandatory provisions—Dispute resolution.** The legislature recognizes that institutional governing boards have a responsibility to manage and protect institutions of higher education. This responsibility includes ensuring certain lawful agreements for which revenues from services and activities fees have been pledged. Such lawful agreements include, but are not limited to, bond covenant agreements and other contractual obligations. Institutional governing boards are also expected to protect the stability of programs that benefit students.

The legislature also recognizes that services and activities fees are paid by students for the express purpose of funding student services and programs. It is the intent of the legislature that governing boards ensure that students have a strong voice in recommending budgets for services and activities fees. The boards of trustees and the boards of regents of the respective institutions of higher education shall adopt guidelines governing the establishment and funding of programs supported by services and activities fees. Such guide-

lines shall stipulate procedures for budgeting and expending services and activities fee revenue. Any such guidelines shall be consistent with the following provisions:

(1) Student representatives from the services and activities fee committee and representatives of the college or university administration shall have an opportunity to address the board before board decisions on services and activities fee budgets and dispute resolution actions are made.

(2) Members of the governing boards shall adhere to the principle that services and activities fee committee desires be given priority consideration on funding items that do not fall into the categories of preexisting contractual obligations, bond covenant agreements, or stability for programs affecting students.

(3) Responsibility for proposing to the administration and the governing board program priorities and budget levels for that portion of program budgets that derive from services and activities fees shall reside with a services and activities fee committee, on which students shall hold at least a majority of the voting memberships, such student members shall represent diverse student interests, and shall be recommended by the student government association or its equivalent. The chairperson of the services and activities fee committee shall be selected by the members of that committee. The governing board shall insure that the services and activities fee committee provides an opportunity for all viewpoints to be heard at a public meeting during its consideration of the funding of student programs and activities.

(4) The services and activities fee committee shall evaluate existing and proposed programs and submit budget recommendations for the expenditure of those services and activities fees with supporting documents simultaneously to the college or university governing board and administration.

(5) The college or university administration shall review the services and activities fee committee budget recommendations and publish a written response to the services and activities fee committee. This response shall outline potential areas of difference between the committee recommendations and the administration's proposed budget recommendations. This response, with supporting documentation, shall be submitted to the services and activities fee committee in a timely manner to allow adequate consideration.

(6)(a) In the event of a dispute or disputes involving the services and activities fee committee recommendations, the college or university administration shall meet with the services and activities fee committee in a good faith effort to resolve such dispute or disputes prior to submittal of final recommendations to the governing board.

(b) If said dispute is not resolved within fourteen days, a dispute resolution committee shall be convened by the chair of the services and activities fee committee within fourteen days.

(7) The dispute resolution committee shall be selected as follows: The college or university administration shall appoint two nonvoting advisory members; the governing board shall appoint three voting members; and the services and activities fee committee chair shall appoint three student members of the services and activities fee committee who will have a vote, and one student representing the services and activities fee committee who will chair the dispute resolution committee and be nonvoting. The committee shall

meet in good faith, and settle by vote any and all disputes. In the event of a tie vote, the chair of the dispute resolution committee shall vote to settle the dispute.

(8) The governing board may take action on those portions of the services and activities fee budget not in dispute in accordance with the customary budget approval timeline established by the board. The governing board shall consider the results, if any, of the dispute resolution committee and shall take action.

(9) Services and activities fees and revenues generated by programs and activities funded by such fees shall be deposited and expended through the office of the chief fiscal officer of the institution.

(10) Services and activities fees and revenues generated by programs and activities funded by such fees shall be subject to the applicable policies, regulations, and procedures of the institution and the budget and accounting act, chapter 43.88 RCW.

(11) All information pertaining to services and activities fees budgets shall be made available to interested parties.

(12) With the exception of any funds needed for bond covenant obligations, once the budget for expending service and activities fees is approved by the governing board, funds shall not be shifted from funds budgeted for associated students or departmentally related categories or the reserve fund until the administration provides written justification to the services and activities fee committee and the governing board, and the governing board and the services and activities fee committee give their express approval. In the event of a fund transfer dispute among the services and activities fee committee, the administration, or the governing board, said dispute shall be resolved pursuant to subsections (6)(b), (7), and (8) of this section.

(13) Any service and activities fees collected which exceed initially budgeted amounts are subject to subsections (1) through (10) and (12) of this section. [1994 c 41 § 1; 1990 c 7 § 1; 1986 c 91 § 2; 1980 c 80 § 2.]

**28B.15.051 "Technology fees"—Defined—Use—Student government approval.** (1) The governing board of each of the state universities, the regional universities, and The Evergreen State College, upon the written agreement of its respective student government association or its equivalent, may establish and charge each enrolled student a technology fee, separate from tuition fees. During the 1996-97 academic year, any technology fee shall not exceed one hundred twenty dollars for a full-time student. Any technology fee charged to a part-time student shall be calculated as a pro rata share of the fee charged to a full-time student.

(2) Revenue from this fee shall be used exclusively for technology resources for general student use.

(3) Only changes in the amount of the student technology fee agreed upon by both the governing board and its respective student government association or its equivalent shall be used to adjust the amount charged to students. Changes in the amount charged to students, once implemented, become the basis for future changes.

(4) Annually, the student government association or its equivalent may abolish the fee by a majority vote. In the

event of such a vote, the student government association or its equivalent shall notify the governing board of the institution. The fee shall cease being collected the term after the student government association or its equivalent voted to eliminate the fee.

(5) The student government association or its equivalent shall approve the annual expenditure plan for the fee revenue.

(6) The universities and The Evergreen State College shall deposit three and one-half percent of revenues from the technology fee into the institutional financial aid fund under RCW 28B.15.820.

(7) As used in this section, "technology fee" is a fee charged to students to recover, in whole or in part, the costs of providing and maintaining services to students that include, but need not be limited to: Access to the internet and world wide web, e-mail, computer and multimedia work stations and laboratories, computer software, and dial-up telephone services.

(8) Prior to the establishment of a technology fee, a governing board shall provide to the student governing body a list of existing fees of a similar nature or for a similar purpose. The board and the student governing body shall ensure that student fees for technology are not duplicative. [1996 c 142 § 1.]

**28B.15.065 Adjustment of state appropriations for needy student financial aid.** It is the intent of the legislature that needy students not be deprived of access to higher education due to increases in educational costs or consequent increases in tuition and fees. It is the sense of the legislature that state appropriations for student financial aid be adjusted in an amount which together with funds estimated to be available in the form of basic educational opportunity grants as authorized under Section 411 of the federal Higher Education Act of 1965 as now or hereafter amended will equal twenty-four percent of any change in revenue estimated to occur as a result of revisions in tuition and fee levels under the provisions of chapter 322, Laws of 1977 ex. sess. [1977 ex.s. c 322 § 6.]

(1) The appropriation shall not be reduced by the amount of operating fees revenue estimated to be collected from students enrolled at the state-funded enrollment level specified in the omnibus biennial operating appropriations act;

(2) The appropriation shall not be reduced by the amount of operating fees revenue collected from students enrolled above the state-funded level specified in the omnibus biennial operating appropriations act; and

**28B.15.067 Tuition fees—Established.** (1) Tuition fees shall be established under the provisions of this chapter.

(2) Beginning with the 2003-04 academic year and ending with the 2012-13 academic year, reductions or increases in full-time tuition fees for resident undergraduates shall be as provided in the omnibus appropriations act.

(3)(a) Beginning with the 2003-04 academic year and ending with the 2012-13 academic year, the governing boards of the state universities, the regional universities, The Evergreen State College, and the state board for community and technical colleges may reduce or increase full-time tuition fees for all students other than resident undergraduates, including summer school students and students in other self-supporting degree programs. Percentage increases in full-time tuition fees may exceed the fiscal growth factor. Reductions or increases may be made for all or portions of an institution's programs, campuses, courses, or students.

(b) Prior to reducing or increasing tuition for each academic year, the governing boards of the state universities, the regional universities, and The Evergreen State College shall consult with existing student associations or organizations with student undergraduate and graduate representatives regarding the impacts of potential tuition increases. Governing boards shall be required to provide data regarding the percentage of students receiving financial aid, the sources of aid, and the percentage of total costs of attendance paid for by aid.

(c) Prior to reducing or increasing tuition for each academic year, each college in the state board for community and technical college system shall consult with existing student associations or organizations with undergraduate student representation regarding the impacts of potential tuition increases. Colleges shall provide data regarding the percentage of students receiving financial aid, the sources of aid, and the percentage of total costs of attendance paid for by aid.

(4) Academic year tuition for full-time students at the state's institutions of higher education beginning with 2015-16, other than summer term, shall be as charged during the 2014-15 academic year unless different rates are adopted by the legislature.

(5) The tuition fees established under this chapter shall not apply to high school students enrolling in participating institutions of higher education under RCW 28A.600.300 through 28A.600.400.

(7) The tuition fees established under this chapter shall not apply to eligible students enrolling in a community or

technical college participating in the pilot program under RCW 28B.50.534 for the purpose of obtaining a high school diploma.

(8) For the academic years 2003-04 through 2008-09, the University of Washington shall use an amount equivalent to ten percent of all revenues received as a result of law school tuition increases beginning in academic year 2000-01 through academic year 2008-09 to assist needy low and middle-income resident law students.

(9) For the academic years 2003-04 through 2008-09, institutions of higher education shall use an amount equivalent to ten percent of all revenues received as a result of graduate academic school tuition increases beginning in academic year 2003-04 through academic year 2008-09 to assist needy low and middle-income resident graduate academic students.

(10) Any tuition increases above seven percent shall fund costs of instruction, library and student services, utilities and maintenance, other costs related to instruction as well as institutional financial aid. Through 2010-11, any funding reductions to instruction, library and student services, utilities and maintenance and other costs related to instruction shall be proportionally less than other program areas including administration. **28B.15.068 Tuition fees increase limitations—State funding goals—Reports—"Global challenge states"—Notification of availability of American opportunity tax credit.** (1) Beginning with the 2007-08 academic year and ending with the 2016-17 academic year, tuition fees charged to full-time resident undergraduate students, except in academic years 2009-10 and 2010-11, may increase no greater than seven percent over the previous academic year in any institution of higher education. Annual reductions or increases in full-time tuition fees for resident undergraduate students shall be as provided in the omnibus appropriations act, within the seven percent increase limit established in this section. For academic years 2009-10 and 2010-11 the omnibus appropriations act may provide tuition increases greater than seven percent. To the extent that state appropriations combined with tuition and fee revenues are insufficient to achieve the total per-student funding goals established in subsection (2) of this section, the legislature may revisit state appropriations, authorized enrollment levels, and changes in tuition fees for any given fiscal year.

(2) The state shall adopt as its goal total per-student funding levels, from state appropriations plus tuition and fees, of at least the sixtieth percentile of total per-student

funding at similar public institutions of higher education in the global challenge states. In defining comparable per-student funding levels, the office of financial management shall adjust for regional cost-of-living differences; for differences in program offerings and in the relative mix of lower division, upper division, and graduate students; and for accounting and reporting differences among the comparison institutions. The office of financial management shall develop a funding trajectory for each four-year institution of higher education and for the community and technical college system as a whole that when combined with tuition and fees revenue allows the state to achieve its funding goal for each four-year institution and the community and technical college system as a whole no later than fiscal year 2017. The state shall not reduce enrollment levels below fiscal year 2007 budgeted levels in order to improve or alter the per-student funding amount at any four-year institution of higher education or the community and technical college system as a whole. The state recognizes that each four-year institution of higher education and the community and technical college system as a whole have different funding requirements to achieve desired performance levels, and that increases to the total per-student funding amount may need to exceed the minimum funding goal.

(3) By September 1st of each year beginning in 2008, the office of financial management shall report to the governor, the higher education coordinating board, and appropriate committees of the legislature with updated estimates of the total per-student funding level that represents the sixtieth percentile of funding for comparable institutions of higher education in the global challenge states, and the progress toward that goal that was made for each of the public institutions of higher education.

(4) As used in this section, "global challenge states" are the top performing states on the new economy index published by the progressive policy institute as of July 22, 2007. The new economy index ranks states on indicators of their potential to compete in the new economy. At least once every five years, the office of financial management shall determine if changes to the list of global challenge states are appropriate. The office of financial management shall report its findings to the governor and the legislature.

(5) During the 2009-10 and the 2010-11 academic years, institutions of higher education shall include information on their billing statements notifying students of tax credits available through the American opportunity tax credit provided in the American recovery and reinvestment act of 2009. **28B.15.725 Home tuition programs.** (1) The governing boards of the state universities, the regional universities, and The Evergreen State College may establish home tuition programs by negotiating home tuition agreements with an out-of-state institution or consortium of institutions of higher education if no loss of tuition and fee revenue occurs as a result of the agreements.

(2) Home tuition agreements allow students at Washington state institutions of higher education to attend an out-of-state institution of higher education as part of a student exchange. Students participating in a home tuition program shall pay an amount equal to their regular, full-time tuition and required fees to either the Washington institution of higher education or the out-of-state institution of higher education depending upon the provisions of the particular agreement. Payment of course fees in excess of generally applicable tuition and required fees must be addressed in each home tuition agreement to ensure that the instructional programs of the Washington institution of higher education do not incur additional uncompensated costs as a result of the exchange.

(3) Student participation in a home tuition agreement authorized by this section is limited to one academic year.

(4) Students enrolled under a home tuition agreement shall reside in Washington state for the duration of the program, may not use the year of enrollment under this program to establish Washington state residency, and are not eligible for state financial aid. **Intent—1997 c 433:** "It is the intent of the legislature to provide for diverse educational opportunities at the state's institutions of higher education and to facilitate student participation in educational exchanges with institutions outside the state of Washington. To accomplish this, this act establishes a home tuition program allowing students at Washington state institutions of higher education to take advantage of out-of-state and international educational opportunities while paying an amount equal to their regularly charged tuition and required fees." [1997 c 433 § 1.]

**Intent—1989 c 290; 1994 c 234:** "The legislature recognizes that a unique educational experience can result from an undergraduate student attending an out-of-state institution. It also recognizes that some Washington residents may be unable to pursue such out-of-state enrollment owing to their limited financial resources and the higher cost of nonresident tuition. The legislature intends to facilitate expanded nonresident undergraduate enrollment opportunities for residents of the state by authorizing the governing boards of the four-year institutions of higher education to enter into exchange programs with other states' institutions with comparable programs wherein the participating institutions agree that visiting undergraduate students will pay resident tuition rates of the host institutions." Institutions shall cooperate with other lenders and the Washington student loan guaranty association, or its successor agency, in the coordinated collection of guaranteed loans, and shall assure that the guarantability of the loans is not violated. Collection and servicing of guaranteed long-term loans under this section shall be performed by entities approved for such servicing by the Washington student loan guaranty association or its successor agency: PROVIDED, That institutions be permitted to perform such servicing if specifically recognized to do so by the Washington student loan guaranty association or its successor agency. Collection and servicing of guaranteed long-term loans made by community colleges under subsection (1) of this section shall be coordinated by the state board for community and technical colleges and shall be conducted under procedures adopted by the state board.

(6) Receipts from payment of interest or principal or any other subsidies to which institutions as lenders are entitled, that are paid by or on behalf of borrowers of funds under subsections (3) through (8) of this section, shall be deposited in each institution's financial aid fund and shall be used to cover the costs of making the guaranteed long-term loans under this section and maintaining necessary records and making collections under subsection (5) of this section: PROVIDED, That such costs shall not exceed five percent of aggregate outstanding loan principal. Institutions shall maintain accurate records of such costs, and all receipts beyond those necessary to pay such costs, shall be deposited in the institution's financial aid fund.

(7) The governing boards of the state universities, the regional universities, and The Evergreen State College, and the state board for community and technical colleges, on behalf of the community colleges and technical colleges, shall each adopt necessary rules and regulations to implement this section.

(8) First priority for any guaranteed long-term loans made under this section shall be directed toward students who would not normally have access to educational loans from private financial institutions in Washington state, and maximum use shall be made of secondary markets in the support of loan consolidation.

(9) Short-term loans, not to exceed one year, may be made from the institutional financial aid fund to students enrolled in the institution. No such loan shall be made to any student who is known by the institution to be in default or delinquent in the payment of any outstanding student loan. A short-term loan may be made only if the institution has ample evidence that the student has the capability of repaying the loan within the time frame specified by the institution for repayment.

(10) Any moneys deposited in the institutional financial aid fund that are not used in making long-term or short-term loans may be used by the institution for locally administered financial aid programs for needy students, such as need-based institutional employment programs or need-based tuition and fee scholarship or grant programs. These funds shall be used in addition to and not to replace institutional funds that would

otherwise support these locally administered financial aid programs. First priority in the use of these funds shall be given to needy students who have accumulated excessive educational loan burdens. An excessive educational loan burden is a burden that will be difficult to repay given employment opportunities and average starting salaries in the student's chosen fields of study. Second priority in the use of these funds shall be given to needy single parents, to assist these students with their educational expenses, including expenses associated with child care and transportation.

(11) Any moneys deposited in the institutional financial aid fund may be used by the institution for a locally administered financial aid program for high school students enrolled in dual credit programs. If institutions use funds in this manner, the governing boards of the state universities, the regional universities, The Evergreen State College, and the state board for community and technical colleges shall each adopt necessary rules to implement this subsection. Moneys from this fund may be used for all educational expenses related to a student's participation in a dual credit program including but not limited to tuition, fees, course materials, and transportation. **28B.20.297 Washington technology center—Small business innovation research assistance program.** (1) The legislature finds that small technology-based firms are the source of approximately one-half of the economy's major innovations and that it is in the interest of the state to increase participation by Washington state small businesses in the federal small business innovation research program by assisting them in becoming small business innovation research program grant recipients.

The legislature further finds that many small business innovators lack the grant-writing skills necessary to prepare a successful small business innovation research program proposal, and the federal program that funded grant-writing assistance has stopped operations. Nearly fifty percent of small businesses trained under the federal program won grants compared to less than ten percent of those that did not receive training.

(2) As used in this section:

(a) "Small business innovation research program" means the program, enacted pursuant to the small business innovation development act of 1982, P.L. 97-219, that provided funds to small businesses to conduct innovative research having commercial application.

(b) "Small business" means a corporation, partnership, sole proprietorship, or individual, operating a business for profit, with two hundred fifty employees or fewer, including employees employed in a subsidiary or affiliated corporation, that otherwise meets the requirements of the federal small business innovation research program.

(3) The Washington technology center shall establish a small business innovation research assistance program, including a proposal review process, to train and assist Washington small businesses to win phase I small business innovation research program awards.

(a) The Washington technology center shall give priority to first-time small business innovation research program applicants, new businesses, and firms with fewer than ten employees.

(b) The Washington technology center may charge a fee for this service. [2005 c 357 § 1.]

**28B.20.298 Clean energy research, development, manufacturing, and marketing—Findings—Policy.** (1) The legislature finds that Washington state currently derives many benefits from its renewable energy and energy efficiency sectors. These sectors are an important source of employment and income for a significant number of Washington residents, currently generating close to one billion dollars in annual revenue and employing over three thousand eight hundred people. Equally important, energy efficiency and renewable energy businesses add to the region's quality of life by employing technologies that can reduce some of the harmful effects of the reliance on fossil fuels. Washington state possesses all the necessary elements to do much more to develop these sectors and to become a national leader in the research, development, manufacturing, and marketing of clean energy technologies and services. The state's workforce is highly educated; the state's higher education institutions are supportive of clean energy research and cooperate closely with the private sector in developing and deploying new energy technologies; there are numerous enterprises already located in the state that are engaged in clean energy research and development; and the state's citizens, utilities, and governmental sectors at all levels are committed to diversifying the state's energy sources and increasing energy efficiency.

(2) It is therefore declared to be the policy of the state that its public agencies and institutions of higher learning maximize their efforts collectively and cooperatively with the private sector to establish the state as a leader in clean energy research, development, manufacturing, and marketing. To this end, all state agencies are directed to employ their existing authorities and responsibilities to:

(a) Work with local organizations and energy companies to facilitate the development and implementation of workable renewable energy and energy efficiency projects;

(b) Actively promote policies that support energy efficiency and renewable energy development;

(c) Encourage utilities and customer groups to invest in new renewables and products and services that promote energy efficiency; and

(d) Assist in the development of stronger markets for renewables and products and services that promote energy efficiency.

(3) For the purposes of this section and RCW 28B.20.296 and for RCW 28B.20.285 and 28B.20.287, energy efficiency shall include the application of digital technologies to the generation, delivery, and use of power. [2004 c 151 § 1.]

**Findings—Intent—2009 c 466:** "The legislature finds that Asia and its interactions with the rest of the world are transforming the way the world works in the twenty-first century. The legislature further finds that trade,

**28B.20.475 Sea grant program—Geoduck aquaculture—Scientific research studies—Reports.** (1) The sea grant program at the University of Washington shall, consistent with this section, commission a series of scientific research studies that examines the possible effects, including the cumulative effects, of the current prevalent geoduck aquaculture techniques and practices on the natural environment in and around Puget Sound, including the Strait of Juan de Fuca. The sea grant program shall use funding provided from the geoduck aquaculture research account created in RCW 28B.20.476 to review existing literature, directly perform research identified as needed, or to enter into and manage contracts with scientific organizations or institutions to accomplish these results.

(2) Prior to entering into a contract with a scientific organization or institution, the sea grant program must:

(a) Analyze, through peer review, the credibility of the proposed party to the contract, including whether the party has credible experience and knowledge and has access to the facilities necessary to fully execute the research required by the contract; and

(b) Require that all proposed parties to a contract fully disclose any past, present, or planned future personal or professional connections with the shellfish industry or public interest groups.

(3) All research commissioned under this section must be subjected to a rigorous peer review process prior to being accepted and reported by the sea grant program.

(4) In prioritizing and directing research under this section, the sea grant program shall meet with the department of ecology at least annually and rely on guidance submitted by the department of ecology. The department of ecology shall convene the shellfish aquaculture regulatory committee created in section 4, chapter 216, Laws of 2007 as necessary to serve as an oversight committee to formulate the guidance provided to the sea grant program. The objective of the oversight committee, and the resulting guidance provided to the sea grant program, is to ensure that the research required under this section satisfies the planning, permitting, and data management needs of the state, to assist in the prioritization of research given limited funding, and to help identify any research that is beneficial to complete other than what is listed in subsection (5) of this section.

(5) To satisfy the minimum requirements of subsection (1) of this section, the sea grant program shall review all scientific research that is existing or in progress that examines the possible effect of currently prevalent geoduck practices, on the natural environment, and prioritize and conduct new studies as needed, to measure and assess the following:

(a) The environmental effects of structures commonly used in the aquaculture industry to protect juvenile geoducks from predation;

(b) The environmental effects of commercial harvesting of geoducks from intertidal geoduck beds, focusing on current prevalent harvesting techniques, including a review of the recovery rates for benthic communities after harvest;

(c) The extent to which geoducks in standard aquaculture tracts alter the ecological characteristics of overlying waters while the tracts are submerged, including impacts on species diversity, and the abundance of other benthic organisms;

(d) Baseline information regarding naturally existing parasites and diseases in wild and cultured geoducks, including whether and to what extent commercial intertidal geoduck aquaculture practices impact the baseline;

(e) Genetic interactions between cultured and wild geoduck, including measurements of differences between cultured geoducks and wild geoducks in terms of genetics and reproductive status; and

(f) The impact of the use of sterile triploid geoducks and whether triploid animals diminish the genetic interactions between wild and cultured geoducks.

(6) If adequate funding is not made available for the completion of all research required under this section, the sea grant program shall consult with the shellfish aquaculture regulatory committee, via the department of ecology, to pri-

oritize which of the enumerated research projects have the greatest cost/benefit ratio in terms of providing information important for regulatory decisions; however, the study identified in subsection (5)(b) of this section shall receive top priority. The prioritization process may include the addition of any new studies that may be appropriate in addition to, or in place of, studies listed in this section.

(7) When appropriate, all research commissioned under this section must address localized and cumulative effects of geoduck aquaculture.

(8) The sea grant program and the University of Washington are prohibited from retaining greater than fifteen percent of any funding provided to implement this section for administrative overhead or other deductions not directly associated with conducting the research required by this section.

(9) Individual commissioned contracts under this section may address single or multiple components listed for study under this section.

(10) All research commissioned under this section must be completed and the results reported to the appropriate committees of the legislature by December 1, 2013. In addition, the sea grant program shall provide the appropriate committees of the legislature with annual reports updating the status and progress of the ongoing studies that are completed in advance of the 2013 deadline. [2007 c 216 § 1.]

#### MISCELLANEOUS

**28B.20.744 University buildings and facilities for critical patient care or specialized medical research—Alternative process for awarding contracts—Reports to capital projects advisory review board.** (1) This section provides an alternative process for awarding contracts for construction, building, renovation, remodeling, alteration, repair, or improvement of university buildings and facilities in which critical patient care or highly specialized medical research is located. These provisions may be used, in lieu of other procedures to award contracts for such work, when the estimated cost of the work is equal to or less than five million dollars and the project involves construction, renovation, remodeling, or alteration of improvements within a building that is used directly for critical patient care or highly specialized medical research.

(2) The university may create a single critical patient care or specialized medical research facilities roster or may create multiple critical patient care or specialized medical research facilities rosters for different trade specialties or categories of anticipated work. At least once a year, the university shall publish in a newspaper of general circulation a notice of the existence of the roster or rosters and solicit a statement of qualifications from contractors who wish to be on the roster or rosters of prime contractors. In addition, qualified contractors shall be added to the roster or rosters at any time they submit a written request, necessary records, and meet the qualifications established by the university. The university may require eligible contractors desiring to be placed on a roster to keep current records of any applicable licenses, certifications, registrations, bonding, insurance, or other appropriate matters on file with the university as a condition of being placed on a roster or rosters. Placement on a roster shall be on the basis of qualifications.

(3) The public solicitation of qualifications shall include but not be limited to:

(a) A description of the types of projects to be completed and where possible may include programmatic, performance, and technical requirements and specifications;

(b) The reasons for using the critical patient care and specialized medical research roster process;

(c) A description of the qualifications to be required of a contractor, including submission of an accident prevention program;

(d) A description of the process the university will use to evaluate qualifications, including evaluation factors and the relative weight of factors;

(e) The form of the contract to be awarded;

(f) A description of the administrative process by which the required qualifications, evaluation process, and project types may be appealed; and

(g) A description of the administrative process by which decisions of the university may be appealed.

(4) The university shall establish a committee to evaluate the contractors submitting qualifications. Evaluation criteria

for selection of the contractor or contractors to be included on a roster shall include, but not be limited to:

(a) Ability of a contractor's professional personnel;

(b) A contractor's past performance on similar projects, including but not limited to medical facilities, and involving either negotiated work or other public works contracts;

(c) The contractor's ability to meet time and budget requirements;

(d) The contractor's ability to provide preconstruction services, as appropriate;

(e) The contractor's capacity to successfully complete the project;

(f) The contractor's approach to executing projects;

(g) The contractor's approach to safety and the contractor's safety history; and

(h) The contractor's record of performance, integrity, judgment, and skills.

(5) Contractors meeting the evaluation committee's criteria for selection must be placed on the applicable roster or rosters.

(6) When a project is selected for delivery through this roster process, the university must establish a procedure for securing written quotations from all contractors on a roster to assure that a competitive price is established. Invitations for quotations shall include an estimate of the scope and nature of the work to be performed as well as materials and equipment to be furnished. Plans and specifications must be included in the invitation but may not be detailed. Award of a project must be made to the responsible bidder submitting the lowest responsive bid.

(7) The university shall make an effort to solicit proposals from certified minority or certified woman-owned contractors to the extent permitted by the Washington state civil rights act, RCW 49.60.400.

(8) Beginning in September 2010 and every other year thereafter, the university shall provide a report to the capital projects advisory review board which must, at a minimum, include a list of rosters used, contracts awarded, and a description of outreach to and participation by women and minority-owned businesses. [2010 c 245 § 11.]

**Reviser's note—Sunset Act application:** The alternative process for awarding contracts is subject to review, termination, and possible extension under chapter 43.131 RCW, the Sunset Act. See RCW 43.131.413. RCW 28B.20.744 is scheduled for future repeal under RCW 43.131.414.

**28B.38.010 Spokane intercollegiate research and technology institute.** (1) The Spokane intercollegiate research and technology institute is created.

(2) The institute shall be operated and administered as a multi-institutional education and research center, housing appropriate programs conducted in Spokane under the authority of institutions of higher education as defined in RCW 28B.10.016. Washington independent and private institutions of higher education may participate as full partners in any academic and research activities of the institute.

(3) The institute shall house education and research programs specifically designed to meet the needs of eastern Washington.

(4) The establishment of any education program at the institute and the lease, purchase, or construction of any site or facility for the institute is subject to the approval of the higher education coordinating board under RCW 28B.76.230.

(5) The institute shall be headquartered in Spokane.

(6) The mission of the institute is to perform and commercialize research that benefits the intermediate and long-term economic vitality of eastern Washington and to develop and strengthen university-industry relationships through the conduct of research that is primarily of interest to eastern

Washington-based companies or state economic development programs. The institute shall:

(a) Perform and facilitate research supportive of state science and technology objectives, particularly as they relate to eastern Washington industries;

(b) Provide leading edge collaborative research and technology transfer opportunities primarily to eastern Washington industries;

(c) Provide substantial opportunities for training undergraduate and graduate students through direct involvement in research and industry interactions;

(d) Emphasize and develop nonstate support of the institute's research activities; and

(e) Provide a forum for effective interaction between the state's technology-based industries and its academic institutions through promotion of faculty collaboration with industry, particularly within eastern Washington. [2004 c 275 § 55; 1998 c 344 § 9.]

**Part headings not law—2004 c 275:** See note following RCW 28B.76.030.

**Intent—Findings—1998 c 344:** "It is the intent of the legislature to provide the necessary access to quality upper division and graduate higher education opportunities for the citizens of Spokane. The legislature intends that the Spokane branch campus of Washington State University, offering upper-division and graduate programs, be located at the Riverpoint Higher Education Park and that Washington State University be the administrative and fiscal agent for the Riverpoint Higher Education Park. In addition, those programs offered by Eastern Washington University that meet the rules and guidelines established by the higher education coordinating board's program approval process may serve students at the Riverpoint Higher Education Park. The legislature intends to streamline the program planning and approval process in Spokane by eliminating the joint center for higher education; thereby treating the Spokane higher education community like other public higher education communities in Washington that receive program approval from the higher education coordinating board. However, the legislature encourages partnerships, collaboration, and avoidance of program duplication through regular communication among the presidents of Spokane's public and private institutions of higher education. The legislature further intends that the residential mission of Eastern Washington University in Cheney be strengthened and that Eastern Washington University focus on the excellence of its primary campus in Cheney.

In addition, the legislature finds that the Spokane intercollegiate research and technology institute is a vital and necessary element in the academic and economic future of eastern Washington. The legislature also finds that it is in the interest of the state of Washington to support and promote applied research and technology in areas of the state that, because of geographic or historic circumstances, have not developed fully balanced economies. It is the intent of the legislature that institutions of higher education and the \*department of community, trade, and economic development work cooperatively with the private sector in the development and implementation of a technology transfer and integration program to promote the economic development and enhance the quality of life in eastern Washington." [1998 c 344 § 1.]

**\*Reviser's note:** The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

**28B.38.020 Administration—Board of directors—Powers and duties.** (1) The institute shall be administered by the board of directors.

(2) The board shall consist of the following members:

**28B.45.010 Legislative findings.** The legislature finds that the benefits of higher education should be more widely available to the citizens of the state of Washington. The legislature also finds that a citizen's place of residence can restrict that citizen's access to educational opportunity at the upper division and graduate level.

Because most of the state-supported baccalaureate universities are located in areas removed from major metropolitan areas, the legislature finds that many of the state's citi-

(2010 Ed.)

zens, especially those citizens residing in the central Puget Sound area, the Tri-Cities, Spokane, Vancouver, and Yakima, have insufficient and inequitable access to upper-division baccalaureate and graduate education.

This lack of sufficient educational opportunities in urban areas makes it difficult or impossible for place-bound individuals, who are unable to relocate, to complete a baccalaureate or graduate degree. It also exacerbates the difficulty financially needy students have in attending school, since many of those students need to work, and work is not always readily available in some communities where the baccalaureate institutions of higher education are located.

The lack of sufficient educational opportunities in metropolitan areas also affects the economy of the underserved communities. Businesses benefit from access to the research and teaching capabilities of institutions of higher education. The absence of these institutions from some of the state's major urban centers prevents beneficial interaction between businesses in these communities and the state's universities.

The Washington state master plan for higher education, adopted by the higher education coordinating board, recognizes the need to expand upper-division and graduate educational opportunities in the state's large urban centers. The board has also attempted to provide a means for helping to meet future educational demand through a system of branch campuses in the state's major urban areas.

The legislature endorses the assignment of responsibility to serve these urban centers that the board has made to various institutions of higher education. The legislature also endorses the creation of branch campuses for the University of Washington and Washington State University.

The legislature recognizes that, among their other responsibilities, the state's comprehensive community colleges share with the four-year universities and colleges the responsibility of providing the first two years of a baccalaureate education. It is the intent of the legislature that the four-year institutions and the community colleges work as cooperative partners to ensure the successful and efficient operation of the state's system of higher education. The legislature further intends that the four-year institutions work cooperatively with the community colleges to ensure that branch campuses are operated as models of a two plus two educational system. [1989 1st ex.s. c 7 § 1.]

**28B.45.012 Findings—Intent.** (1) In 1989, the legislature created five branch campuses to be operated by the state's two public research universities. Located in growing urban areas, the branch campuses were charged with two missions:

(a) Increasing access to higher education by focusing on upper division and graduate programs, targeting placebound students, and operating as models of a two plus two educational system in cooperation with the community colleges; and

(b) Promoting regional economic development by responding to demand for degrees from local businesses and supporting regional economies through research activities.

(2) Fifteen years later, the legislature finds that branch campuses are responding to their original mission:

(2010 Ed.)

(a) Branch campuses accounted for half of statewide upper division and graduate public enrollment growth since 1990;

(b) Branch campuses have grown steadily and enroll increasing numbers of transfer students each year;

(c) Branch campuses enroll proportionately more older and part-time students than their main campuses and attract increasing proportions of students from nearby counties;

(d) Although the extent of their impact has not been measured, branch campuses positively affect local economies and offer degree programs that roughly correspond with regional occupational projections; and

(e) The capital investments made by the state to support branch campuses represent a significant benefit to regional economic development.

(3) However, the legislature also finds the policy landscape in higher education has changed since the original creation of the branch campuses. Demand for access to baccalaureate and graduate education is increasing rapidly. Economic development efforts increasingly recognize the importance of focusing on local and regional economic clusters and improving collaboration among communities, businesses, and colleges and universities. Each branch campus has evolved into a unique institution, and it is appropriate to assess the nature of this evolution to ensure the role and mission of each campus is aligned with the state's higher education goals and the needs of the region where the campus is located.

(4) Therefore, it is the legislature's intent to recognize the unique nature of Washington's higher education branch campuses, reaffirm the role and mission of each, and set the course for their continued future development.

(5) It is the further intent of the legislature that the campuses be identified by the following names: University of Washington Bothell, University of Washington Tacoma, Washington State University Tri-Cities, and Washington State University Vancouver. [2004 c 57 § 1.]

**28B.45.014 Mission—Collaboration with community and technical colleges—Alternative models—Legislative intent—Monitoring and evaluation—Reports to the legislature.**

(1) The primary mission of the higher education branch campuses created under this chapter remains to expand access to baccalaureate and master's level graduate education in underserved urban areas of the state in collaboration with community and technical colleges. The top priority for each of the campuses is to expand courses and degree programs for transfer and graduate students. New degree programs should be driven by the educational needs and demands of students and the community, as well as the economic development needs of local businesses and employers.

(2) Branch campuses shall collaborate with the community and technical colleges in their region to develop articulation agreements, dual admissions policies, and other partnerships to ensure that branch campuses serve as innovative models of a two plus two educational system. Other possibilities for collaboration include but are not limited to joint development of curricula and degree programs, colocation of instruction, and arrangements to share faculty.

(3) In communities where a private postsecondary institution is located, representatives of the private institution may

be invited to participate in the conversation about meeting the baccalaureate and master's level graduate needs in underserved urban areas of the state.

(4) However, the legislature recognizes there are alternative models for achieving this primary mission. Some campuses may have additional missions in response to regional needs and demands. At selected branch campuses, an innovative combination of instruction and research targeted to support regional economic development may be appropriate to meet the region's needs for both access and economic viability. Other campuses should focus on becoming models of a two plus two educational system through continuous improvement of partnerships and agreements with community and technical colleges. Still other campuses may be best suited to transition to a four-year university or be removed from designation as a branch campus entirely.

(5) The legislature recognizes that size, mix of degree programs, and proportion of lower versus upper division and graduate enrollments are factors that affect costs at branch campuses. However over time, the legislature intends that branch campuses be funded more similarly to regional universities.

(6) In consultation with the higher education coordinating board, a branch campus may propose legislation to authorize practice-oriented or professional doctoral programs if: (a) Unique research facilities and equipment are located near the campus; or (b) the campus can clearly demonstrate student and employer demand in the region that is linked to regional economic development.

(7) It is not the legislature's intent to have each campus chart its own future path without legislative guidance. Instead, the legislature intends to consider carefully the mission and model of education that best suits each campus and best meets the needs of students, the community, and the region. The higher education coordinating board shall monitor and evaluate the addition of lower division students to the branch campuses and periodically report and make recommendations to the higher education committees of the legislature to ensure the campuses continue to follow the priorities established under this chapter. [2005 c 258 § 2; 2004 c 57 § 2.]

**Findings—Intent—2005 c 258:** "(1) Since their creation in 1989, the research university branch campuses have significantly expanded access to baccalaureate and graduate education for placebound students in Washington's urban and metropolitan cities. Furthermore, the campuses have contributed to community revitalization and economic development in their regions. The campuses have met their overall mission through the development of new degree programs and through collaboration with community and technical colleges. These findings were confirmed by a comprehensive review of the campuses by the Washington state institute for public policy in 2002 and 2003, and reaffirmed through legislation enacted in 2004 that directed four of the campuses to make recommendations for their future evolution.

(2) The self-studies conducted by the University of Washington Bothell, University of Washington Tacoma, Washington State University Tri-Cities, and Washington State University Vancouver reflect thoughtful and strategic planning and involved the input of numerous students, faculty, community and business leaders, community colleges, advisory committees, and board members. The higher education coordinating board's careful review provides a statewide context for the legislature to implement the next stage of the campuses.

(3) Concurrently, the higher education coordinating board has developed a strategic master plan for higher education that sets a goal of increasing the number of students who earn college degrees at all levels: Associate, baccalaureate, and graduate. The strategic master plan also sets a goal to

increase the higher education system's responsiveness to the state's economic needs.

(4) The legislature finds that to meet both of the master plan's goals and to provide adequate educational opportunities for Washington's citizens, additional access is needed to baccalaureate degree programs. Expansion of the four campuses is one strategy for achieving the desired outcomes of the master plan. Other strategies must also be implemented through service delivery models that reflect both regional demands and statewide priorities.

(5) Therefore, the legislature intends to increase baccalaureate access and encourage economic development through overall expansion of upper division capacity, continued development of two plus two programs in some areas of the state, authorization of four-year university programs in other areas of the state, and creation of new types of baccalaureate programs on a pilot basis. These steps will make significant progress toward achieving the master plan goals, but the legislature will also continue to monitor the development of the higher education system and evaluate what additional changes or expansion may be necessary." [2005 c 258 § 1.]

#### **28B.45.020 University of Washington Tacoma—University of Washington Bothell.**

(1) The University of Washington is responsible for ensuring the expansion of baccalaureate and graduate educational programs in the central Puget Sound area under rules or guidelines adopted by the higher education coordinating board and in accordance with proportionality agreements emphasizing access for transfer students developed with the state board for community and technical colleges. The University of Washington shall meet that responsibility through the operation of at least two branch campuses. One branch campus shall be located in the Tacoma area. Another branch campus shall be collocated with Cascadia Community College in the Bothell-Woodinville area.

(2) At the University of Washington Tacoma, a top priority is expansion of upper division capacity for transfer students and graduate capacity and programs. Beginning in the fall of 2006, the campus may offer lower division courses linked to specific majors in fields not addressed at local community colleges. The campus shall admit lower division students through coadmission or coenrollment agreements with a community college, or through direct transfer for students who have accumulated approximately one year of transferable college credits. In addition to offering lower division courses linked to specific majors as addressed above, the campus may also directly admit freshmen and sophomores gradually and deliberately in accordance with the campus plan submitted to the higher education coordinating board in 2004.

(3) At the University of Washington Bothell, a top priority is expansion of upper division capacity for transfer students and graduate capacity and programs. The campus shall also seek additional opportunities to collaborate with and maximize its collocation [colocation] with Cascadia Community College. Beginning in the fall of 2006, the campus may offer lower division courses linked to specific majors in fields not addressed at local community colleges. The campus may admit lower division students through coadmission or coenrollment agreements with a community college, or through direct transfer for students who have accumulated approximately one year of transferable college credits. In addition to offering lower division courses linked to specific majors as addressed above, the campus may also directly admit freshmen and sophomores gradually and deliberately in accordance with the campus plan submitted to the higher

education coordinating board in 2004. [2005 c 258 § 3; 1994 c 217 § 3; 1989 1st ex.s. c 7 § 3.]

**Findings—Intent—2005 c 258:** See note following RCW 28B.45.014. Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28B.45.0201 Findings.** The legislature finds that population growth in north King and south Snohomish counties has created a need to expand higher education and workforce training programs for the people living and working in those areas. In keeping with the recommendations of the higher education coordinating board, the legislature intends to help address those education and training needs through the creation of Cascadia Community College, expansion of educational opportunities at Lake Washington Technical College, and support of the University of Washington's branch campus at Bothell-Woodinville. It is further the intention of the legislature, in keeping with the higher education coordinating board recommendations, that the Cascadia Community College and the University of Washington branch campus be collocated, and that the new community college and the University of Washington's branch campus work in partnership to ensure that properly prepared students from community colleges and other institutions are able to transfer smoothly to the branch campus.

The legislature further finds that a governing board for Cascadia Community College needs to be appointed and confirmed as expeditiously as possible. The legislature intends to work cooperatively with the governor to facilitate the appointment and confirmation of trustees for the college. [1994 c 217 § 1.]

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28B.45.030 Washington State University—Tri-Cities area.** (1) Washington State University is responsible for providing baccalaureate and graduate level higher education programs to the citizens of the Tri-Cities area, under rules or guidelines adopted by the higher education coordinating board and in accordance with proportionality agreements emphasizing access for transfer students developed with the state board for community and technical colleges. Washington State University shall meet that responsibility through the operation of a branch campus in the Tri-Cities area. The branch campus shall replace and supersede the Tri-Cities university center. All land, facilities, equipment, and personnel of the Tri-Cities university center shall be transferred from the University of Washington to Washington State University.

(2) In 2005, the legislature authorized the expansion on a limited basis of Washington State University's branch campus in the Tri-Cities area. The legislature authorized the Tri-Cities branch campus to continue providing innovative coadmission and coenrollment options with Columbia Basin College, and to expand its upper-division capacity for transfer students and graduate capacity and programs. The branch campus was given authority beginning in fall 2006 to offer lower-division courses linked to specific majors in fields not addressed at the local community colleges. The campus was also authorized to directly admit freshmen and sophomores for a bachelor's degree program in biotechnology subject to approval by the higher education coordinating board. The

(2010 Ed.)

legislature finds that the Tri-Cities community is very engaged in and committed to exploring the further expansion of Washington State University Tri-Cities branch campus into a four-year institution and considers this issue to be a top priority for the larger Tri-Cities region.

(3) Washington State University Tri-Cities shall continue providing innovative coadmission and coenrollment options with Columbia Basin College, and expand its upper division capacity for transfer students and graduate capacity and programs. The campus shall also seek additional opportunities to collaborate with the Pacific Northwest national laboratory. Beginning in the fall of 2006, the campus may offer lower division courses linked to specific majors in fields not addressed at local community colleges. The campus may admit lower division students through coadmission or coenrollment agreements with a community college, or through direct transfer for students who have accumulated approximately one year of transferable college credits. In addition to offering lower division courses linked to specific majors as addressed above, the campus may also directly admit freshmen and sophomores for a bachelor's degree program in biotechnology subject to approval by the higher education coordinating board.

(4) The Washington State University Tri-Cities branch campus shall develop a plan for expanding into a four-year institution and shall identify new degree programs and course offerings focused on areas of specific need in higher education that exist in southeastern Washington. The branch campus's plan should examine the resources and talent available in the Tri-Cities area, including but not limited to resources and talent available at the Pacific Northwest national laboratory, and how these resources and talent may best be used by the Tri-Cities branch campus to expand into a four-year institution. The branch campus shall submit its plan to the legislature and the higher education coordinating board by November 30, 2006.

(5) Beginning in the fall of 2007, the Washington State University Tri-Cities branch campus may begin, subject to approval by the higher education coordinating board, admitting lower-division students directly into programs beyond the biotechnology field that are identified in its plan as being in high need in southeastern Washington. Such fields may include but need not be limited to science, engineering and technology, biomedical sciences, alternative energy, and computational and information sciences. By gradually and deliberately admitting freshmen and sophomores in accordance with its plan, increasing transfer enrollment, and coadmitting transfer students, the campus shall develop into a four-year institution serving the southeastern Washington region. [2006 c 166 § 1; 2005 c 258 § 4; 1989 1st ex.s. c 7 § 4.]

**Findings—Intent—2005 c 258:** See note following RCW 28B.45.014.

**28B.45.040 Washington State University Vancouver.** (1) Washington State University is responsible for providing baccalaureate and graduate level higher education programs to the citizens of the southwest Washington area, under rules or guidelines adopted by the higher education coordinating board and in accordance with proportionality agreements emphasizing access for transfer students developed with the

state board for community and technical colleges. Washington State University shall meet that responsibility through the operation of a branch campus in the southwest Washington area.

(2) Washington State University Vancouver shall expand upper division capacity for transfer students and graduate capacity and programs and continue to collaborate with local community colleges on coadmission and coenrollment programs. In addition, beginning in the fall of 2006, the campus may admit lower division students directly. By simultaneously admitting freshmen and sophomores, increasing transfer enrollment, coadmitting transfer students, and expanding graduate and professional programs, the campus shall develop into a four-year institution serving the southwest Washington region. [2005 c 258 § 5; 1989 1st ex.s. c 7 § 5.]

**Findings—Intent—2005 c 258:** See note following RCW 28B.45.014.

**28B.45.060 Central Washington University—Yakima area.** Central Washington University is responsible for providing upper-division and graduate level higher education programs to the citizens of the Yakima area, under rules or guidelines adopted by the higher education coordinating board. [1989 1st ex.s. c 7 § 7.]

**28B.45.080 Partnership between community and technical colleges and branch campuses.** The higher education coordinating board shall adopt performance measures to ensure a collaborative partnership between the community and technical colleges and the branch campuses. The partnership shall be one in which the community and technical colleges prepare students for transfer to the upper-division programs of the branch campuses and the branch campuses work with community and technical colleges to enable students to transfer and obtain degrees efficiently. [2004 c 57 § 5; 1989 1st ex.s. c 7 § 8. Formerly RCW 28B.80.510.]

**28B.50.010 Short title.** This chapter shall be known as and may be cited as the community and technical college act of 1991. [1991 c 238 § 20; 1969 ex.s. c 223 § 28B.50.010. Prior: 1967 ex.s. c 8 § 1. Formerly RCW 28.85.010.]

**28B.50.020 Purpose.** The purpose of this chapter is to provide for the dramatically increasing number of students requiring high standards of education either as a part of the continuing higher education program or for occupational education and training, or for adult basic skills and literacy education, by creating a new, independent system of community and technical colleges which will:

(1) Offer an open door to every citizen, regardless of his or her academic background or experience, at a cost normally within his or her economic means;

(2) Ensure that each college district, in coordination with adjacent college districts, shall offer thoroughly comprehensive educational, training, and service programs to meet the needs of both the communities and students served by combining high standards of excellence in academic transfer courses; realistic and practical courses in occupational education, both graded and ungraded; community services of an educational, cultural, and recreational nature; and adult education, including basic skills and general, family, and workforce literacy programs and services;

(3) Provide for basic skills and literacy education, and occupational education and technical training in order to prepare students for careers in a competitive workforce;

(4) Provide or coordinate related and supplemental instruction for apprentices at community and technical colleges;

(5) Provide administration by state and local boards which will avoid unnecessary duplication of facilities, programs, student services, or administrative functions; and which will encourage efficiency in operation and creativity and imagination in education, training, and service to meet the needs of the community and students;

(6) Allow for the growth, improvement, flexibility and modification of the community colleges and their education, training, and service programs as future needs occur; and

(7) Establish firmly that as provided under RCW 28B.50.810, community colleges are, for purposes of academic training, two year institutions, and are an independent, unique, and vital section of our state's higher education system, separate from both the common school system and other institutions of higher learning. [2010 c 246 § 2; 2010 c 245 § 2; 2009 c 64 § 2; 2005 c 258 § 7; 1991 c 238 § 21; 1969 ex.s. c 261 § 17; 1969 ex.s. c 223 § 28B.50.020. Prior: 1967 ex.s. c 8 § 2.]

**Reviser's note:** This section was amended by 2010 c 245 § 2 and by 2010 c 246 § 2, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

**Findings—Intent—2010 c 246:** "The legislature finds that Washington's community and technical college system consists of thirty-four two-year institutions geographically dispersed across the state to encourage and enable student access and participation. The legislature also finds that, compared with other states, Washington's two-year public participation rate is ranked as high as fifth in the nation. The legislature further finds that Washington's community and technical colleges have been making and are continuing to make great progress towards system efficiencies and coordination of their efforts through such things as common course numbering, the student achievement initiative, associate transfer degrees, eLearning and integrated basic education, skills training, and some common administrative systems. While maintaining Washington's recognized leadership in community and technical college education, the legislature intends to provide mechanisms to encourage further efficiencies that will provide cost savings to be used to enhance student access and success, strengthen academic programs, and develop and retain high quality faculty through cost-effective partnerships and coordination between institutions, including shared services and increased complementary programming, as well as structural administrative efficiencies." [2010 c 246 § 1.]

**Findings—Expand on demand—System design plan endorsed—2010 c 245:** "The legislature finds that the state institutions of higher education are providing a high quality education to the citizens of the state. The legislature further finds that to meet goals of the strategic master plan for higher education the state needs a higher education system that is capable of delivering many more degrees. The legislature also finds that expansion of the system should be based on the proven demands of the citizens and the marketplace, a concept called "expand on demand." The legislature further finds that the higher education coordinating board, in collaboration with the

state board for community and technical colleges, the two-year and four-year institutions of higher education, and other stakeholders developed a system design plan that contains seven guiding principles for system expansion, focuses near-term enrollment growth at university branch campuses, comprehensive universities, and university centers where existing capacity is available without new state capital investment, establishes a process for evaluating major new capital expansion, and creates a fund for innovation to foster change and innovation in higher education delivery. The legislature finds that the strategies in the plan support the concept of expand on demand and would increase degree production by first reinvesting in higher education to use existing capacity while also providing long-term strategies to guide decisions on when and where to build new campuses, significantly expand existing sites, and change missions of existing institutions.

The legislature endorses the system design plan, approved by the higher education coordinating board in November 2009, and adopts the recommendations and strategies in the plan." [2010 c 245 § 1.]

**Intent—2009 c 64:** "It is the intent of the legislature to allow public technical colleges under the authority of the state board for community and technical colleges to offer associate degrees that prepare students for transfer to bachelor's degrees in professional fields, subject to rules adopted by the state board for community and technical colleges." [2009 c 64 § 1.]

**Findings—Intent—2005 c 258:** See note following RCW 28B.45.014.

**Conflict with federal requirements—Severability—Effective date—2003 2nd sp.s. c 4:** See notes following RCW 50.01.010.

**Intent—1991 c 315:** "The legislature finds that:

(1) The economic health and well-being of timber-dependent communities is of substantial public concern. The significant reduction in annual timber harvest levels likely will result in reduced economic activity and persistent unemployment and underemployment over time, which would be a serious threat to the safety, health, and welfare of residents of the timber impact areas, decreasing the value of private investments and jeopardizing the sources of public revenue.

(2) Timber impact areas are most often located in areas that are experiencing little or no economic growth, creating an even greater risk to the health, safety, and welfare of these communities. The ability to remedy problems caused by the substantial reduction in harvest activity is beyond the power and control of the regulatory process and influence of the state, and the ordinary operations of private enterprise without additional governmental assistance are insufficient to adequately remedy the resulting problems of poverty and unemployment.

(3) To address these concerns, it is the intent of the legislature to increase training and retraining services accessible to timber impact areas, and provide for coordination of noneconomic development services in timber impact areas as economic development efforts will not succeed unless social, housing, health, and other needs are addressed." Technical colleges may, under the rules of the state board for community and technical colleges, offer all specific academic support courses that may be at a transfer level that are required of all students to earn a particular certificate or degree. This shall not be interpreted to mean that their mission may be expanded to include transfer preparation, nor does it preclude technical colleges from voluntarily and cooperatively using available community college courses as components of technical college programs.

Factors to be considered include, but are not limited to:

(a) The economic feasibility and cost savings anticipated from the proposed changes;

(b) The extent to which the changes will contribute to student access to academic programs and services, including greater flexibility for students to transfer credits and obtain degrees and certificates from other colleges within the regional area; and

(c) The extent to which the changes contribute to the vision, goals, priorities, and statewide strategies in the comprehensive master plan and the statewide strategic master plan for higher education.

(2) The state board for community and technical colleges shall develop and adopt a detailed plan for the implementation of any identified changes that would result in cost savings while maintaining or enhancing student access and achievement. If educational programs are identified that would provide cost savings if consolidated, the faculty and staff of those programs shall be convened to assist in the development of the part of the plan that will impact their programs and collective bargaining agreements. The plan must establish a time frame within which any proposed changes must be accomplished and must include any agreements, approved by the state board for community and technical colleges, between colleges within a regional area to provide complementary academic programs or coordinate administrative functions. The implementation plan shall take effect upon approval by the state board for community and technical colleges. The state board shall submit a preliminary report on the plan to the appropriate legislative committees and the governor December 1, 2010, and shall submit a final report December 1, 2011.

(3) Any cost savings realized as a result of the implementation of administrative efficiencies, complementary administrative functions, and complementary academic programming under the plan shall be retained by the respective districts to be used for enhancing student access and success, and the retention and recruitment of high quality faculty, including but not limited to, full-time faculty, faculty development, and academic programs.

(4) The college board, using the criteria and processes established in this section and in consultation with the boards of trustees for the community and technical colleges, shall identify adjacent college districts that can feasibly be consolidated or whose boundaries can feasibly be modified to form a multiple campus district. The primary considerations shall be the extent to which the changes will: (a) Affect student access to academic programs and services, (b) affect the retention and recruitment of high quality faculty, and (c) result in financial efficiencies.

(5) By December 1, 2012, the college board, in consultation with local boards of trustees, shall evaluate any proposed district consolidations or boundary changes identified in subsection (4) of this section as it deems advisable and shall submit any required supporting legislative changes to the governor and appropriate committees of the legislature. **28B.50.305 Seattle Vocational Institute—Findings.** The legislature finds that a vocational institute in the central area of the city of Seattle provides civic, social, and economic benefits to the people of the state of Washington. Economic development is enhanced by increasing the number of skilled individuals who enter the labor market and social welfare costs are reduced by the training of individuals lacking marketable skills. The students at the institute are historically economically disadvantaged, and include racial and ethnic minorities, recent immigrants, single-parent heads of households, and persons who are dislocated workers or without specific occupational skills. The institute presents a unique opportunity for business, labor, and community-based organizations, and educators to work together to provide effective vocational-technical training to the economically disadvantaged of urban Seattle, and to serve as a national model of such cooperation. Moreover, a trained workforce is a major factor in attracting new employers, and with greater minority participation in the workforce, the institute is uniquely located to deliver training and education to the individuals

employers must increasingly turn to for their future workers. [1991 c 238 § 93.]

**28B.50.306 Seattle Vocational Institute—Mission—Advisory committee to advise.** The mission of the institute shall be to provide occupational, basic skills, and literacy education opportunities to economically disadvantaged populations in urban areas of the college district it serves. The mission shall be achieved primarily through open-entry, open-exit, short-term, competency-based basic skill, and job training programs targeted primarily to adults. The board of trustees of the sixth college district shall appoint a nine-member advisory committee consisting of equal representation from business, labor, and community representatives to provide advice and counsel to the administration of the institute and the district administration. [1991 c 238 § 100.]

**28B.50.307 Seattle Vocational Institute—Funding.** Funding for the institute shall be included in a separate allocation to the sixth college district, and funds allocated for the institute shall be used only for purposes of the institute. [1991 c 238 § 101.]

**28B.50.320 Fees and other income—Deposit—Disbursement.** All operating fees, services and activities fees, and all other income which the trustees are authorized to impose shall be deposited as the trustees may direct unless otherwise provided by law. Such sums of money shall be subject to the budgetary and audit provisions of law applicable to state agencies. The depository selected by the trustees shall conform to the collateral requirements required for deposit of other state funds.

Disbursement shall be made by check signed by the president of the college or the president's designee appointed in writing, and such other person as may be designated by the board of trustees of the college district. Each person authorized to sign as provided above, shall execute a surety bond as provided in RCW 43.17.100. Said bond or bonds shall be filed in the office of the secretary of state. The applicability of existing community college rules and statutes pursuant to chapter 28B.15 RCW regarding tuition and fees shall be determined by the state board for community and technical colleges within two years of September 1, 1991. [1991 c 238 § 84.]

**28B.50.328 Waivers of tuition and fees—Scholarships—Employment of instructional staff and faculty—Seattle Vocational Institute.** The district may provide for waivers of tuition and fees and provide scholarships for students at the institute. The district may negotiate with applicable public or private service providers to conduct the instructional activities of the institute. The district may employ instructional staff or faculty. The district may also contract with private individuals for instructional services. Until at least July 1, 1993, all faculty and staff serve at the pleasure of the district. [1996 c 120 § 2.]

**28B.50.4892 Part-time academic employees—Best practices compensation and employment—Task force—Report.** (1) The legislature finds that community colleges and technical colleges have an obligation to carry out their roles and missions in an equitable fashion. (2) The state board for community and technical colleges shall convene a task force to conduct a review and update of the best practices audit of compensation packages and conditions of employment for part-time faculty in the community and technical college system conducted in 1996 and reported on in 1998. The task force shall include but need not be limited to part-time faculty, full-time faculty, members of the state board, community college administrators, and members of community college and technical college governing boards. In performing the review and update of the audit, the task force shall focus on the employment of part-time faculty, and shall include the following issues in its deliberations: Salary issues, provision of health and retirement benefits, the implications of increased reliance on part-time rather than full-time faculty, the implications of workload definitions, and tangible and intangible ways to recognize the professional stature of part-time faculty.

(3) The task force shall report its findings to the state board, local governing boards, and other interested parties by

December 1, 2005. The report shall include recommendations on a review of the status of the set of best practices principles for the colleges to follow in their employment of part-time faculty developed in 1996. The board shall encourage and, to the extent possible, require each local governing board to adopt, revise, and implement the principles. [2005 c 119 § 2; 1996 c 120 § 3.]

**Findings—2005 c 119:** "The legislature finds that:

(1) The part-time faculty in the community and technical colleges provide a valuable contribution to quality instruction;

(2) The part-time faculty are essential to the success of the open access opportunities provided by the two-year colleges to the citizens of Washington;

(3) The two-year colleges employ a core of skilled, well-trained faculty whose contributions are critical to the quality and breadth of program offerings;

(4) The community and technical colleges have an essential role in educating and retraining high-skilled workers who are vital to the economic health of the communities of Washington;

(5) It is vital to attract and retain highly skilled faculty capable of preparing students to transfer to four-year colleges and universities and for the workforce;

(6) Low and stagnating salaries as well as the lack of career advancement options for part-time faculty are detrimental to the morale of all faculty;

(7) Part-time faculty contribute to the learning environment offered to the students through advising and attention that all good educators bring to their profession; and

(8) Although progress has been made since the initial work of the best practices task force in 1996, additional progress needs to be made to improve and implement best practices for part-time community and technical college faculty." [2005 c 119 § 1.]

**28B.50.4893 Part-time academic employees—Sick leave.** (1) Part-time academic employees of community and technical colleges shall receive sick leave to be used for the same illnesses, injuries, bereavement, and emergencies as full-time academic employees at the college in proportion to the individual's teaching commitment at the college.

**28B.50.531 Dual high school and college credit for secondary career and technical courses—Agreements.** (1) It is the legislature's intent to recognize and support the work of community and technical colleges, high schools, and skill centers in creating articulation and dual credit agreements for career and technical education students, in part by codifying current practice.

(2) Community and technical colleges shall create agreements with high schools and skill centers to offer dual high school and college credit for secondary career and technical courses. Agreements shall be subject to approval by the chief instructional officer of the college and the principal and the career and technical education director of the high school or the executive director of the skill center.

(3) Community and technical colleges may create dual credit agreements with high schools and skill centers that are located outside the college district boundary or service area.

(4) If a community or technical college has created an agreement with a high school or skill center to offer college credit for a secondary career and technical course, all com-

munity and technical colleges shall accept the course for an equal amount of college credit. [2008 c 170 § 108.]

**28B.50.532 Completion of industry certificate or credential—Agreements with skill centers.** (1) A community or technical college may enter into an agreement with a skill center within the college district to allow students who have completed a high school diploma to remain enrolled in the skill center in courses necessary to complete an industry certificate or credential in the student's career and technical program as provided by RCW 28A.245.080.

(2) Before entering an agreement, a community or technical college may require the skill center to provide evidence that:

(a) The skill center has adequate facilities and capacity to offer the necessary courses and the community or technical college does not have adequate facilities or capacity; or

(b) The community or technical college does not offer the particular industry certificate program or courses proposed by the skill center.

(3) Under the terms of the agreement, the community or technical college shall report the enrolled student as a state-supported student and may charge the student tuition and fees. The college shall transmit to the skill center an agreed-upon amount per enrolled full-time equivalent student to pay for the student's courses at the skill center. [2008 c 170 § 305.]

**Findings—Intent—Part headings not law—2008 c 170:** See RCW 28A.700.005 and 28A.700.901.

**28B.50.533 Contracts with common school districts for occupational and academic programs for high school students—Enrollment opportunities—Interlocal agreements.** Community and technical colleges may contract with local common school districts to provide occupational and academic programs for high school students. Common school districts whose students currently attend vocational-technical institutes shall not suffer loss of opportunity to continue to enroll their students at technical colleges.

For the purposes of this section, "opportunity to enroll" includes, but is not limited to, the opportunity of common school districts to enroll the same number of high school students enrolled at each vocational-technical institute during the period July 1, 1989, through June 30, 1990, and the opportunity for common school districts to increase enrollments of high school students at each technical college in proportion to annual increases in enrollment within the school districts participating on September 1, 1991. Technical colleges shall offer programs which are accessible to high school students to at least the extent that existed during the period July 1, 1989, through June 30, 1990, and to the extent necessary to accommodate proportional annual growth in enrollments of high school students within school districts participating on September 1, 1991. Accommodating such annual increases in enrollment or program offerings shall be the first priority within technical colleges subject to any enrollment or budgetary restrictions. Technical colleges shall not charge tuition or student services and activities fees to high school students enrolled in the college.

Technical colleges may enter into interlocal agreements with local school districts to provide instruction in courses required for high school graduation, basic skills, and literacy training for students enrolled in technical college programs. [1991 c 238 § 82.]

**28B.50.534 High school completion pilot program.**

(1) A pilot program is created for two community or technical colleges to make available courses or a program of study, on the college campus, designed to enable students under the age of twenty-one who have completed all state and local high school graduation requirements except the certificate of academic achievement or certificate of individual achievement to complete their high school education and obtain a high school diploma.

(a) The colleges participating in the pilot program in this section may make courses or programs under this section available by entering into contracts with local school districts to deliver the courses or programs. Colleges participating in the pilot program that offer courses or programs under contract shall be reimbursed for each enrolled eligible student as provided in the contract, and the high school diploma shall be issued by the local school district;

(b) Colleges participating in the pilot program may deliver courses or programs under this section directly. Colleges that deliver courses or programs directly shall be reimbursed for each enrolled eligible student as provided in RCW 28A.600.405, and the high school diploma shall be issued by the college;

(c) Colleges participating in the pilot program may make courses or programs under this section available through a combination of contracts with local school districts, collaboration with educational service districts, and direct service delivery. Colleges participating in the pilot program may also make courses or programs under this section available for students at locations in addition to the college campus; or

(d) Colleges participating in the pilot program may enter into regional partnerships to carry out the provisions of this subsection (1).

(2) Regardless of the service delivery method chosen, colleges participating in the pilot program shall ensure that all eligible students located in school districts within their college district as defined in RCW 28B.50.040 have an opportunity to enroll in a course or program under this section.

(3) Colleges participating in the pilot program shall not require students enrolled under this section to pay tuition or services and activities fees; however this waiver of tuition and services and activities fees shall be in effect only for those courses that lead to a high school diploma.

(4) Nothing in this section or RCW 28A.600.405 precludes a community or technical college from offering courses or a program of study for students other than eligible students as defined by RCW 28A.600.405 to obtain a high school diploma, nor is this section or RCW 28A.600.405 intended to restrict diploma completion programs offered by school districts or educational service districts. Community and technical colleges and school districts are encouraged to consult with educational service districts in the development and delivery of programs and courses required under this section.

(5) Community and technical colleges participating in the pilot program shall not be required to administer the Washington assessment of student learning. [2007 c 355 § 3.]

**Finding—Intent—2007 c 355:** "The legislature finds that the goal of Washington's education reform is for all students to meet rigorous academic standards so that they are prepared for success in college, work, and life. Educators know that not all students learn at the same rate or in the same way. Some students will take longer to meet the state's standards for high school graduation. Older students who cannot graduate with their peers need an appropriate learning environment and flexible programming that enables them simultaneously to earn a diploma, work, and pursue other training options. Providing learning options in locations in addition to high schools will encourage older students to complete their diplomas. Therefore the legislature intends to create a pilot high school completion program at two community and technical colleges for older students who have not yet received a diploma but are eligible for state basic education support." [2007 c 355 § 1.]

**28B.50.535 Community or technical college—Issuance of high school diploma or certificate.** A community or technical college may issue a high school diploma or certificate as provided under this section.

(1) An individual who satisfactorily meets the requirements for high school completion shall be awarded a diploma from the college, subject to rules adopted by the superintendent of public instruction and the state board of education.

(2) An individual enrolled through the option established under RCW 28A.600.310 through 28A.600.400 who satisfactorily completes an associate degree, including an associate of arts degree, associate of science degree, associate of technology degree, or associate in applied science degree, shall be awarded a diploma from the college upon written request from the student.

(3) An individual, twenty-one years or older, who enrolls in a community or technical college for the purpose of obtaining an associate degree and who satisfactorily completes an associate degree, including an associate of arts degree, associate of science degree, associate of technology degree, or associate in applied science degree, shall be awarded a diploma from the college upon written request from the student. Individuals under this subsection are not eligible for funding provided under chapter 28A.150 RCW. [2009 c 524 § 2; 2007 c 355 § 2; 1991 c 238 § 58; 1969 ex.s. c 261 § 30.]

**Intent—2009 c 524:** "The legislature has previously affirmed the value of career and technical education, particularly in programs that lead to nationally recognized certification. These programs provide students with the knowledge and skills to become responsible citizens and contribute to their own economic well-being and that of their families and communities, which is the goal of education in the public schools. The legislature has also previously affirmed the value of dual enrollment in college and high school programs that can lead to both an associate degree and a high school diploma. Therefore, the legislature intends to maximize students' options and choices for completing high school by awarding diplomas to students who complete these valuable postsecondary programs." [2009 c 524 § 1.]

**28B.50.536 General educational development test—Rules—Issuance of certificate of educational competence.** Subject to rules adopted by the state board of education under RCW 28A.305.190, the state board for community and technical colleges shall adopt rules governing the eligibility of persons sixteen years of age and older to take the general educational development test, rules governing the administration of the test, and rules governing the issuance of a certificate of

educational competence to persons who successfully complete the test. Certificates of educational competence issued under this section shall be issued in such form and substance as agreed upon by the state board for community and technical colleges and superintendent of public instruction. [1993 c 218 § 3.]

**28B.50.551 Leave provisions.** The board of trustees of each college district shall adopt for each community and technical college under its jurisdiction written policies on granting leaves to employees of the district and those colleges, including but not limited to leaves for attendance at official or private institutions and conferences; professional leaves for personnel consistent with the provisions of RCW 28B.10.650; leaves for illness, injury, bereavement, and emergencies, consistent with RCW 28B.50.4893, and except as otherwise in this section provided, all with such compensation as the board of trustees may prescribe, except that the board shall grant to all such persons leave with full compensation for illness, injury, bereavement and emergencies as follows:

(1) For persons under contract to be employed, or otherwise employed, for at least three quarters, not more than twelve days per year, commencing with the first day on which work is to be performed; provisions of any contract in force on June 12, 1980, which conflict with requirements of this subsection shall continue in effect until contract expiration; after expiration, any new contract executed between the parties shall be consistent with this subsection;

(2)(a) Such leave entitlement may be accumulated after the first three-quarter period of employment for full-time employees, and may be taken at any time;

(b) For part-time academic employees, such leave entitlement shall be accumulated after the first quarter of employment by a college district or the first quarter after June 8, 2000, whichever is later, and may be taken at any time;

(3) Leave for illness, injury, bereavement and emergencies heretofore accumulated pursuant to law, rule, regulation or policy by persons presently employed by college districts and community and technical colleges shall be added to such leave accumulated under this section;

(4) Except as otherwise provided in this section or other law, accumulated leave under this section not taken at the time such person retires or ceases to be employed by college districts or community and technical colleges shall not be compensable;

(5) Accumulated leave for illness, injury, bereavement and emergencies shall be transferred from one college district to another or between a college district and the following: Any state agency, any educational service district, any school district, or any other institution of higher education as defined in RCW 28B.10.016;

(6) Leave accumulated by a person in a college district or community and technical college prior to leaving that district or college may, under the policy of the board of trustees, be granted to such person when he or she returns to the employment of that district or college; and

(7) Employees of the Seattle Vocational Institute are exempt from this section until July 1, 1993. [2006 c 243 § 1; 2000 c 128 § 3; 1995 c 119 § 1; 1991 c 238 § 59; 1980 c 182

**28B.50.553 Attendance incentive program.** (1) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Employer" means the board of trustees for each college district or the state board for community and technical colleges.

(b) "Eligible employee" means an employee of a college district or the state board for community and technical colleges who belongs to one of the following classifications:

(i) Academic employees as defined in RCW 28B.52.020;

(ii) Classified employees of technical colleges whose employment is governed under chapter 41.56 RCW;

(iii) Professional, paraprofessional, and administrative employees exempt from chapter 41.06 RCW; and

(iv) Employees of the state board for community and technical colleges who are exempt from chapter 41.06 RCW.

(2) An attendance incentive program is established for all eligible employees of a college district or the state board for community and technical colleges entitled to accumulate sick leave and for whom accurate sick leave records have been maintained. An eligible employee may not receive compensation under this section for a portion of sick leave accumulated at a rate in excess of one day per month.

(3) In January of the year following a year in which a minimum of sixty days of sick leave is accrued, and each following January, an eligible employee may exercise an option to receive remuneration for unused sick leave accumulated in the previous year at a rate equal to one day's monetary compensation of the employee for each four full days of accrued sick leave in excess of sixty days. Sick leave for which compensation has been received shall be deducted from accrued sick leave at the rate of four days for every one day's monetary compensation.

(4) At the time of separation from employment with a college district or the state board for community and technical colleges due to retirement or death, an eligible employee or the employee's estate may receive remuneration at a rate equal to one day's current monetary compensation of the employee for each four full days' accrued sick leave.

(5) In lieu of remuneration for unused sick leave at retirement as provided in subsection (4) of this section, an employer may, with equivalent funds, provide eligible employees with a benefit plan that provides reimbursement for medical expenses. For employees whose conditions of employment are governed by chapter 28B.52 or 41.56 RCW, such benefit plans shall be instituted only by agreement applicable to the members of a bargaining unit. A benefit plan adopted must require, as a condition of participation under the plan, that the employee sign an agreement with the employer. The agreement must include a provision to hold the employer harmless should the United States government find that the employer or the employee is in debt to the United States as a result of the employee not paying income taxes due on the equivalent funds placed into the plan, or as a result

of the employer not withholding or deducting a tax, assessment, or other payment on the funds as required under federal law. The agreement must also include a provision that requires an eligible employee to forfeit remuneration under subsection (4) of this section if the employee belongs to a unit that has been designated to participate in the benefit plan permitted under this subsection and the employee refuses to execute the required agreement.

(6) Remuneration or benefits received under this section are not included for the purposes of computing a retirement allowance under a public retirement system in this state.

(7) The state board for community and technical colleges shall adopt uniform rules to carry out the purposes of this section. The rules shall define categories of eligible employees. The categories of eligible employees are subject to approval by the office of financial management. The rules shall also require that each employer maintain complete and accurate sick leave records for all eligible employees.

(8) Should the legislature revoke a remuneration or benefit granted under this section, an affected employee is not then entitled to receive the benefits as a matter of contractual right. [1997 c 232 § 1.]

**28B.50.795 Bachelor of science in nursing program—University Center of North Puget Sound.** (1) RCW 28B.50.901 assigns responsibility for the north Snohomish, Island, and Skagit counties' higher education consortium to Everett Community College. In April of 2009, Everett Community College opened Gray Wolf Hall, the new home of the University Center of North Puget Sound. The University Center currently offers over twenty bachelor's and master's degrees from six partner universities.

(2) Although Everett Community College offers an associate degree nursing program that graduates approximately seventy to ninety students per year, the University Center does not offer a bachelor of science in nursing. Some graduates of the Everett Community College program are able to articulate to the bachelor of science in nursing program offered by the University of Washington-Bothell at its Bothell campus or in Mt. Vernon but current capacity is not sufficient for all of the graduates who are both interested and qualified.

(3) Despite recent growth in nursing education capacity, shortages still persist for registered nurses. According to a June 2007 study by the Washington, Wyoming, Alaska, Montana, and Idaho center for health workforce studies, the average age of Washington's registered nurses was forty-eight years. More than a third were fifty-five years of age or older. Consequently, the high rate of registered nurses retiring from nursing practice over the next two decades will significantly reduce the supply. This reduction comes at the same time as the state's population grows and ages. The registered nurse education capacity in Washington has a large impact on the supply of registered nurses in the state. If the rate of graduation in registered nursing does not increase, projections show that supply in Washington will begin to decline by 2015. In contrast, if graduation rates increased by four hundred per year, the supply of registered nurses would meet estimated demand by the year 2021.

(4) Subject to specific funding to support up to fifty full-time equivalent students in a bachelor of nursing program, the University Center at Everett Community College, in partnership with the University of Washington-Bothell, shall offer a bachelor of science in nursing program with capacity for up to fifty full-time students. [2010 1st sp.s. c 25 § 1.]

**Effective date—2010 1st sp.s. c 25:** "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2010." [2010 1st sp.s. c 25 § 2.]

**28B.50.810 Applied baccalaureate degree programs.** (1) The college board may select community or technical colleges to develop and offer programs of study leading to applied baccalaureate degrees. Colleges may submit applications to the college board. The college board and the higher education coordinating board shall review the applications and select the colleges using objective criteria, including, but not limited to:

(a) The college demonstrates the capacity to make a long-term commitment of resources to build and sustain a high quality program;

(b) The college has or can readily engage faculty appropriately qualified to develop and deliver a high quality curriculum at the baccalaureate level;

(c) The college can demonstrate demand for the proposed program from a sufficient number of students within its service area to make the program cost-effective and feasible to operate;

(d) The college can demonstrate that employers demand the level of technical training proposed within the program, making it cost-effective for students to seek the degree; and

(e) The proposed program fills a gap in options available for students because it is not offered by a public four-year institution of higher education in the college's geographic area.

(2) A college selected under this section may develop the curriculum for and design and deliver courses leading to an applied baccalaureate degree. However, degree programs developed under this section are subject to approval by the college board under RCW 28B.50.090 and by the higher education coordinating board under RCW 28B.76.230 before a college may enroll students in upper division courses. [2010 c 245 § 3; 2008 c 166 § 2; 2005 c 258 § 6.]

**Findings—Expand on demand—System design plan endorsed—2010 c 245:** See note following RCW 28B.50.020.

**Findings—Intent—2008 c 166:** "The legislature finds that the six colleges that developed proposals for the applied baccalaureate degree pilot programs exhibited exemplary work preparing proposals. The proposals were consistent with the legislature's vision for expanding bachelor's degree access and with the principals and criteria developed by the college board. The legislature recognizes that the authorization for the pilots was limited in number and therefore not all the proposals were able to be approved. The legislature values the work that has been done and intends to provide authority for additional pilots so as not to lose the good work that has been done." [2008 c 166 § 1.]

**Findings—Intent—2005 c 258:** See note following RCW 28B.45.014.

**28B.50.820 Baccalaureate degree programs—Agreements with regional universities, branch campuses, or the state college.** (1) One strategy to accomplish expansion of baccalaureate capacity in underserved regions of the state is to allocate state funds for student enrollment to a community and technical college and authorize the college to enter into agreements with a regional university or state college as defined in RCW 28B.10.016 or a branch campus under chapter 28B.45 RCW, to offer baccalaureate degree programs.

(2) Subject to legislative appropriation for the purpose described in this section, the college board shall select and allocate funds to three community or technical colleges for the purpose of entering into an agreement with one or more regional universities, branch campuses, or the state college to offer baccalaureate degree programs on the college campus.

(3) The college board shall select the community or technical college based on analysis of gaps in service delivery, capacity, and student and employer demand for programs. Before taking effect, the agreement under this section must be approved by the higher education coordinating board.

(4) Students enrolled in programs under this section are considered students of the regional university, branch cam-

(2010 Ed.)

pus, or state college for all purposes including tuition and reporting of state-funded enrollments. [2005 c 258 § 12.]

**Findings—Intent—2005 c 258:** See note following RCW 28B.45.014.

**28B.50.835 Exceptional faculty awards—Intent.** The legislature recognizes that quality in the state's community and technical colleges would be strengthened by additional partnerships between citizens and the institutions. The legislature intends to foster these partnerships by creating a matching grant program to assist public community and technical colleges in creating endowments for funding exceptional faculty awards. **28B.50.8351 Exceptional faculty awards—"Foundation" defined.** For purposes of RCW 28B.50.835 through 28B.50.843 "foundation" means a private nonprofit corporation that: (1) Is registered under Title 24 RCW and qualified as a tax-exempt entity under section 501(c)(3) of the federal internal revenue code; (2) exists solely for the benefit of one or more community or technical colleges in this state; and (3) is registered with the attorney general's office under the charitable trust act, chapter 11.110 RCW. [1993 c 87 § 3.]

**28B.50.837 Exceptional faculty awards—Established—Community and technical college faculty awards trust fund.** (1) The Washington community and technical college exceptional faculty awards program is established. The program shall be administered by the college board. The college faculty awards trust fund hereby created shall be administered by the state treasurer.

(2) Funds appropriated by the legislature for the community and technical college exceptional faculty awards program shall be deposited in the college faculty awards trust fund. At the request of the college board, the treasurer shall release the state matching funds to the local endowment fund of the college or its foundation. No appropriation is necessary for the expenditure of moneys from the fund. Expenditures from the fund may be used solely for the exceptional faculty awards program. During the 2009-2011 fiscal biennium, the legislature may transfer from the college faculty awards trust fund to the state general fund such amounts as reflect the excess fund balance in the account. **28B.50.839 Exceptional faculty awards—Guidelines—Matching funds—Donations—Disbursements.** (1) In consultation with eligible community and technical colleges, the college board shall set priorities and guidelines for the program.

(2) All community and technical colleges and their foundations shall be eligible for matching trust funds. When they

can match the state funds with equal cash donations from private sources, institutions and foundations may apply to the college board for grants from the fund in ten thousand dollar increments up to a maximum set by the college board. These donations shall be made specifically to the exceptional faculty awards program and deposited by the institution or foundation in a local endowment fund or a foundation's fund. Otherwise unrestricted gifts may be deposited in the endowment fund by the institution or foundation.

(3) Once sufficient private donations are received by the institution or foundation, the institution shall inform the college board and request state matching funds. The college board shall evaluate the request for state matching funds based on program priorities and guidelines. The college board may ask the state treasurer to release the state matching funds to a local endowment fund established by the institution or a foundation's fund established by a foundation for each faculty award created.

(4) A college, by action of its board of trustees, may transfer those exceptional faculty award funds accumulated in its local endowment fund between July 1, 1991, and July 25, 1993, to its foundation's local endowment fund established as provided in subsection (2) of this section. **28B.50.873 Reduction in force of tenured or probationary faculty members due to financial emergency—Conditions—Procedure—Rights.** The college board may declare a financial emergency under the following conditions: (1) Reduction of allotments by the governor pursuant to \*RCW 43.88.110(2), or (2) reduction by the legislature from one biennium to the next or within a biennium of appropriated funds based on constant dollars using the implicit price deflator. When a district board of trustees determines that a reduction in force of tenured or probationary faculty members may be necessary due to financial emergency as

declared by the state board, written notice of the reduction in force and separation from employment shall be given the faculty members so affected by the president or district president as the case may be. Said notice shall clearly indicate that separation is not due to the job performance of the employee and hence is without prejudice to such employee and need only state in addition the basis for the reduction in force as one or more of the reasons enumerated in subsections (1) and (2) of this section.

Said tenured or probationary faculty members will have a right to request a formal hearing when being dismissed pursuant to subsections (1) and (2) of this section. The only issue to be determined shall be whether under the applicable policies, rules or collective bargaining agreement the particular faculty member or members advised of severance are the proper ones to be terminated. Said hearing shall be initiated by filing a written request therefor with the president or district president, as the case may be, within ten days after issuance of such notice. At such formal hearing the tenure review committee provided for in RCW 28B.50.863 may observe the formal hearing procedure and after the conclusion of such hearing offer its recommended decision for consideration by the hearing officer. Failure to timely request such a hearing shall cause separation from service of such faculty members so notified on the effective date as stated in the notice, regardless of the duration of any individual employment contract.

The hearing required by this section shall be an adjudicative proceeding pursuant to chapter 34.05 RCW, the Administrative Procedure Act, conducted by a hearing officer appointed by the board of trustees and shall be concluded by the hearing officer within sixty days after written notice of the reduction in force has been issued. Ten days written notice of the formal hearing will be given to faculty members who have requested such a hearing by the president or district president as the case may be. The hearing officer within ten days after conclusion of such formal hearing shall prepare findings, conclusions of law and a recommended decision which shall be forwarded to the board of trustees for its final action thereon. Any such determination by the hearing officer under this section shall not be subject to further tenure review committee action as otherwise provided in this chapter.

Notwithstanding any other provision of this section, at the time of a faculty member or members request for formal hearing said faculty member or members may ask for participation in the choosing of the hearing officer in the manner provided in RCW 28A.405.310(4), said employee therein being a faculty member for the purposes hereof and said board of directors therein being the board of trustees for the purposes hereof: PROVIDED, That where there is more than one faculty member affected by the board of trustees' reduction in force such faculty members requesting hearing must act collectively in making such request: PROVIDED FURTHER, That costs incurred for the services and expenses of such hearing officer shall be shared equally by the community or technical college and the faculty member or faculty members requesting hearing.

When more than one faculty member is notified of termination because of a reduction in force as provided in this section, hearings for all such faculty members requesting formal hearing shall be consolidated and only one such hearing for the affected faculty members shall be held, and such consoli-

dated hearing shall be concluded within the time frame set forth herein.

Separation from service without prejudice after formal hearing under the provisions of this section shall become effective upon final action by the board of trustees.

It is the intent of the legislature by enactment of this section and in accordance with RCW 28B.52.035, to modify any collective bargaining agreements in effect, or any conflicting board policies or rules, so that any reductions in force which take place after December 21, 1981, whether in progress or to be initiated, will comply solely with the provisions of this section: PROVIDED, That any applicable policies, rules, or provisions contained in a collective bargaining agreement related to lay-off units, seniority and re-employment rights shall not be affected by the provisions of this paragraph.

Nothing in this section shall be construed to affect the right of the board of trustees or its designated appointing authority not to renew a probationary faculty appointment pursuant to RCW 28B.50.857. [1991 c 238 § 72; 1990 c 33 § 559; 1989 c 175 § 81; 1981 2nd ex.s. c 13 § 1.]

An exclusive bargaining representative certified to represent a bargaining unit covering employees of a vocational technical institute on September 1, 1991, shall remain the exclusive representative of such employees thereafter until and unless such representative is replaced or decertified in accordance with state law.

Any collective bargaining agreement in effect on June 30, 1991, shall remain in effect as it applies to employees of vocational technical institutes until its expiration or renewal date or until renegotiated or renewed in accordance with chapter 28B.52 or 41.56 RCW. After the expiration date of a collective bargaining agreement, all of the terms and conditions specified in the collective bargaining agreement, as it applies to employees of vocational-technical institutes, shall remain in effect until the effective date of a subsequent agreement, not to exceed one year from the termination date stated in the agreement. The board of trustees and the employees may mutually agree to continue the terms and conditions of the agreement beyond the one year extension. However, nothing in this section shall be construed to deny any employee right granted under chapter 28B.52 or 41.56 RCW. Employees of a bargaining unit or administrative or managerial employees otherwise not included in a bargaining unit shall be required to transfer by group. Administrative or managerial employees shall transfer in accordance with rules established by the health care authority. If employee groups elect to transfer, they are eligible to reenroll in the public employees' benefits board-sponsored plans. The executive director, or the executive director's designee, may conduct business, including budget approval, relevant to the operation of the technical college in the period subsequent to September 1, 1991.

School boards and superintendents may not restrict or remove powers previously delegated to the vocational-technical institute directors during the 1990-91 school year.

(3) Technical colleges' boards of trustees appointed before September 1, 1991, shall serve in an advisory capacity to the vocational-technical institute director.

As of September 1, 1991, technical colleges may, by interlocal agreement, continue to purchase from the school districts, support services within mutually agreed upon categories at a cost not to exceed the indirect rate charged during the 1990-91 school year. No employee of a technical college may be discriminated against based on actions or opinions expressed on issues surrounding chapter 238, Laws of 1991. Any dispute related to issues contained in this section shall be resolved under RCW 28B.50.302. [1991 c 238 § 143.]

**28B.50.880 Apprentices—Recommendations of the state board for community and technical colleges.** The state board for community and technical colleges shall provide recommendations to the apprenticeship council and apprenticeship programs, established under chapter 49.04 RCW, on matters of related and supplemental instruction for apprentices, coordination of instruction with job experiences,

(2010 Ed.)

and the qualification of teachers for such instruction. [2001 c 204 § 8; 1991 c 238 § 111.]

**28B.50.890 Apprentices—Associate degree pathway.**

(1) At the request of an apprenticeship committee pursuant to RCW 49.04.150, the community or technical college or colleges providing apprentice-related and supplemental instruction for an apprenticeship program shall develop an associate degree pathway for the apprentices in that program, if the necessary resources are available.

[2005 c 159 § 1.]

**28B.50.901 Regional higher education consortium management and leadership—Everett Community College—Educational plan.**

(1) The legislature finds that access to baccalaureate and graduate degree programs continues to be limited for residents of North Snohomish, Island, and Skagit counties. Studies conducted by the state board for community and technical colleges, the higher education coordinating board, and the council of presidents confirm that enrollment in higher education in this geographic region lags enrollment in other parts of the state, particularly for upper division courses leading to advanced degrees. The higher education consortium created to serve the region has not been able to successfully address the region's access needs. The university center model of service delivery, centered on a community college campus with a single point of accountability, has proven more effective in developing degree programs and attracting students.

(2) Therefore the legislature intends to refocus the consortium by assigning management and leadership responsibility for consortium operations to Everett Community College. Everett Community College shall collaborate with community and business leaders, other local community colleges, the public four-year institutions of higher education, and the higher education coordinating board to develop an educational plan for the North Snohomish, Island, and Skagit county region based on the university center model. The plan should provide for projections of student enrollment demand, coordinated delivery of lower and upper division courses, expanded availability of baccalaureate degree programs and

high demand degree and certificate programs in the region, and a timeline and cost estimates for moving the physical location of the consortium to the college campus. The college shall submit preliminary recommendations to the higher education and fiscal committees of the legislature by December 1, 2005. [2005 c 258 § 13.]

**Findings—Intent—2005 c 258:** See note following RCW 28B.45.014.

**28B.50.902 Centers of excellence.** The college board, in consultation with business, industry, labor, the workforce training and education coordinating board, the \*department of community, trade, and economic development, the employment security department, and community and technical colleges, shall designate centers of excellence and allocate funds to existing and new centers of excellence based on a competitive basis.

Eligible applicants for the program established under this section include community and technical colleges. Priority shall be given to applicants that have an established education and training program serving the targeted industry and that have in their home district or region an industry cluster with the same targeted industry at its core.

It is the role of centers of excellence to employ strategies to: Create educational efficiencies; build a diverse, competitive workforce for strategic industries; maintain an institutional reputation for innovation and responsiveness; develop innovative curriculum and means of delivering education and training; act as brokers of information and resources related to community and technical college education and training for a targeted industry; and serve as partners with workforce development councils, associate development organizations, and other workforce and economic development organizations.

Examples of strategies include but are not limited to: Sharing curriculum and other instructional resources, to ensure cost savings to the system; delivering collaborative certificate and degree programs; and holding statewide summits, seminars, conferences, and workshops on industry trends and best practices in community and technical college education and training. **28B.52.010 Declaration of purpose.** It is the purpose of this chapter to strengthen methods of administering employer-employee relations through the establishment of orderly methods of communication between academic employees and the college districts by which they are employed.

(2010 Ed.)

It is the purpose of this chapter to promote cooperative efforts by prescribing certain rights and obligations of the employees and employers and by establishing orderly procedures governing the relationship between the employees and their employers which procedures are designed to meet the special requirements and needs of public employment in higher education. It is the intent of this chapter to promote activity that includes the elements of open communication and access to information in a timely manner, with reasonable discussion and interpretation of that information. It is the further intent that such activity shall be characterized by mutual respect, integrity, reasonableness, and a desire on the part of the parties to address and resolve the points of concern. [1991 c 238 § 145; 1987 c 314 § 1; 1971 ex.s. c 196 § 1.]

**28B.52.020 Definitions.** As used in this chapter:

(1) "Employee organization" means any organization which includes as members the academic employees of a college district and which has as one of its purposes the representation of the employees in their employment relations with the college district.

(2) "Academic employee" means any teacher, counselor, librarian, or department head, who is employed by any college district, whether full or part time, with the exception of the chief administrative officer of, and any administrator in, each college district.

(3) "Administrator" means any person employed either full or part time by the college district and who performs administrative functions as at least fifty percent or more of his or her assignments, and has responsibilities to hire, dismiss, or discipline other employees. Administrators shall not be members of the bargaining unit unless a majority of such administrators and a majority of the bargaining unit elect by secret ballot for such inclusion pursuant to rules as adopted in accordance with RCW 28B.52.080.

(4) "Commission" means the public employment relations commission.

(5) "Unfair labor practice" means any unfair labor practice listed in RCW 28B.52.073.

(6) "Union security provision" means a provision in a collective bargaining agreement under which some or all employees in the bargaining unit may be required, as a condition of continued employment on or after the thirtieth day following the beginning of such employment or the effective date of the provision, whichever is later, to become a member of the exclusive bargaining representative or pay an agency fee equal to the periodic dues and initiation fees uniformly required as a condition of acquiring or retaining membership in the exclusive bargaining representative.

(7) "Exclusive bargaining representative" means any employee organization which has:

(a) Been certified or recognized under this chapter as the representative of the employees in an appropriate collective bargaining unit; or

(b) Before July 26, 1987, been certified or recognized under a predecessor statute as the representative of the employees in a bargaining unit which continues to be appropriate under this chapter.

(8) "Collective bargaining" and "bargaining" mean the performance of the mutual obligation of the representatives of the employer and the exclusive bargaining representative to meet at reasonable times to bargain in good faith in an effort to reach agreement with respect to wages, hours, and other terms and conditions of employment, such as procedures related to nonretention, dismissal, denial of tenure, and reduction in force. Prior law, practice, or interpretation shall be neither restrictive, expansive, nor determinative with respect to the scope of bargaining. A written contract incorporating any agreements reached shall be executed if requested by either party. The obligation to bargain does not compel either party to agree to a proposal or to make a concession.

In the event of a dispute between an employer and an exclusive bargaining representative over the matters that are terms and conditions of employment, the commission shall decide which items are mandatory subjects for bargaining. [1991 c 238 § 146; 1987 c 314 § 2; 1975 1st ex.s. c 296 § 12; 1973 1st ex.s. c 205 § 1; 1971 ex.s. c 196 § 2.]

**28B.52.025 Right to organize or refrain from organizing.** Employees have the right to self-organization, to form, join, or assist employee organizations, to bargain collectively through representatives of their own choosing, and also have the right to refrain from any or all of these activities except to the extent that employees may be required to make payments to an exclusive bargaining representative or charitable organization under a union security provision authorized in this chapter. [1987 c 314 § 5.]

**28B.52.030 Representatives of employee organization—Right to collective bargaining.** Representatives of an employee organization, which organization shall by secret ballot have won a majority in an election to represent the academic employees within its college district, shall have the right to bargain as defined in RCW 28B.52.020(8). Provisions of written contracts relating to salary increases shall not exceed the amount or percentage established by the legislature in the appropriations act and allocated to the board of trustees by the state board for community and technical colleges. The length of term of any such agreement shall be for not more than three fiscal years. Any provisions of these agreements pertaining to salary increases will not be binding upon future actions of the legislature. If any provision of a salary increase is changed by subsequent modification of the appropriations act by the legislature, both

parties shall immediately enter into collective bargaining for the sole purpose of arriving at a mutually agreed upon replacement for the modified provision. [1991 c 238 § 148; 1987 c 314 § 4; 1973 1st ex.s. c 205 § 4.]

The charity shall be agreed upon by the employee and the employee organization to which such employee would otherwise pay the dues and fees. The employee shall furnish written proof that such payments have been made. The capital fund resources of the state community college system are not adequate to meet the facility needs of today's students. Major increments of community college facilities will be needed to serve the still growing numbers of commuting youth and adults attending the community college system. A determination of the facility needs of each college has been made through the uniform application of guidelines developed by the \*state board for community college education to evaluate facility needs. [1972 ex.s. c 133 § 1.]

**\*Reviser's note:** The state board for community college education was renamed the state board for community and technical colleges by 1991 c 238 § 30.

These bonds shall be paid and discharged within twenty years of the date of issuance, or within thirty years, should Article VIII of the Constitution of the state of Washington be amended to permit such longer term. No bonds authorized by this chapter shall be offered for sale without prior legislative appropriation of the proceeds of such bonds to be sold. [1977 ex.s. c 242 § 5; 1972 ex.s. c 133 § 2.]

student dining facilities, library and media facilities, offices for student personnel services and administrative personnel, and all real property and interests therein, equipment, parking facilities, utilities, appurtenances and landscaping incidental to such facilities. [1972 ex.s. c 133 § 5.]

**28B.56.070 Referral to electorate.** This chapter shall be submitted to the people for their adoption and ratification, or rejection, at the general election to be held in this state on the Tuesday next succeeding the first Monday in November, 1972, in accordance with the provisions of section 3, Article VIII of the Constitution of the state of Washington, and in accordance with the provisions of section 1, Article II of the Constitution of the state of Washington, as amended, and the laws adopted to facilitate the operation thereof. [1972 ex.s. c 133 § 7.]

**Reviser's note:** Chapter 28B.56 RCW was adopted and ratified by the people at the November 7, 1972, general election (Referendum Bill No. 31). Governor's proclamation declaring approval of measure is dated December 7, 1972.

**28B.56.080 Form, terms, conditions and manner of sale and issuance—Limitation.** The state finance committee is authorized to prescribe the form, terms, conditions and covenants of the bonds, the time or times of sale of all or any portion of them, and the conditions and manner of their sale and issuance. None of the bonds herein authorized shall be sold for less than their par value. [1972 ex.s. c 133 § 8.]

**28B.56.090 Anticipation notes—Authorized—Contents—Payment.** When the state finance committee has decided to issue such bonds or a portion thereof, it may, pending the issuing of such bonds, issue, in the name of the state, temporary notes in anticipation of the money to be derived from the sale of such bonds, which notes shall be designated as "anticipation notes". This fund shall be exclusively devoted to the payment of interest on and retirement of the bonds authorized by this chapter. The state finance committee shall, on or before June 30 of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet bond retirement and interest requirements, and on July 1 of each year, the state treasurer shall deposit such amount in the community college capital improvements bond redemption fund of 1972 from moneys transmitted to the state treasurer by the department of revenue and certified by the department of rev-

enue to be retail sales tax collections. Such amount certified by the state finance committee to the state treasurer shall be a prior charge against all retail sales tax revenues of the state of Washington, except that portion thereof heretofore pledged for the payment of bond principal and interest.

The owner and holder of each of the bonds or the trustee for any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed herein.

If a debt-limit general fund bond retirement account is created in the state treasury by chapter 456, Laws of 1997 and becomes effective prior to the issuance of any of the bonds authorized by this chapter, the debt-limit general fund bond retirement account shall be used for the purposes of this chapter in lieu of the community college capital improvements bonds redemption fund of 1972. **28B.63.010 Intent.** The primary mission of institutions of higher education is the creation and dissemination of knowledge. Institutions of higher education must be mindful that in providing goods and services for fees, they may be competing with local private businesses.

It is the intent of the legislature to require institutions of higher education to define the legitimate purposes under which commercial activities may be approved, and to establish a mechanism for review of such activities. [1987 c 97 § 1.]

**28B.63.020 Definitions.** For the purposes of this chapter:

- (1) "Institutions of higher education" or "institutions" mean those institutions as defined in RCW 28B.10.016(4).

- (3) "Fees" means any fees or charges imposed for goods, services, or facilities. [1987 c 97 § 2.]

**28B.63.030 Development of policies and mechanisms for defining and reviewing commercial activities.** Institutions of higher education in consultation with local business organizations and representatives of the small business community are required to develop:

- (1) Comprehensive policies that define the legitimate purposes under which the institutions shall provide goods, services, or facilities that are practically available from private businesses;
- (2) A mechanism for reviewing current and proposed commercial activities to ensure that activities are consistent with institutional policies; and
- (3) A mechanism for receiving, reviewing, and responding to enquiries from private businesses about commercial activities carried on by institutions of higher education. [1987 c 97 § 3.]

**28B.63.040 Criteria for developing policies.** (1) The following criteria shall be considered in developing policies in regard to providing goods, services, or facilities to persons other than students, faculty, staff, patients, and invited guests:

- (a) The goods, services, or facilities represent a resource which is substantially and directly related to the institution's instructional, research, or public service mission, which is not practically available in the private marketplace and for which there is a demand from the external community.
- (b) Fees charged for the goods, services, or facilities shall take into account the full direct and indirect costs, overhead, and the price of such items in the private marketplace.

(2) The following criteria shall be considered in developing policies in regard to providing goods, services, or facilities to students, faculty, staff, patients, and invited guests:

- (a) The goods, services, or facilities are substantially and directly related to the institution's instructional, research, or public service mission.

(b) Provision of the goods, services, or facilities on campus represents a special convenience to and supports the campus community, or facilitates extracurricular, public service, or on-campus residential life.

(c) Fees charged for the goods, services, or facilities shall take into account the full direct and indirect costs, including overhead.

(d) The adequacy of security procedures to ensure that the goods, services, or facilities are provided only to persons who are students, faculty, staff, patients, or invited guests. [1987 c 97 § 4.]

**28B.63.050 Programs and activities exempt from chapter.** This chapter shall not apply to the initiation of or changes in academic or vocational programs of instruction in the institutions' regular, extension, evening, or continuing education programs, or the fees therefor, fees for services provided in the practicum aspects of instruction, or research programs, and in extracurricular or residential life programs, including residence halls, food services, athletic and recreational programs, and performing arts programs. **28B.67.005 Findings—Intent. (Expires July 1, 2012.)** The legislature finds that the provision of customized training is critical to attracting and retaining businesses, and that the growth of many businesses is limited by an unmet need for customized training. The legislature also finds that workforce training not only helps business, it also improves the quality of life for workers and communities. Because of the statewide public benefit to be gained from instituting a customized training program, the legislature intends to create a new program to fund workforce training in a manner that reduces the up-front costs of training to new and expanding firms. [2006 c 112 § 1.]

## PART II - POLICY AND PLANNING

### **28B.76.200 Statewide strategic master plan for higher education—Institution-level strategic plans.** (1)

The board shall develop a statewide strategic master plan for higher education that proposes a vision and identifies measurable goals and priorities for the system of higher education in Washington state for a ten-year time period. The board shall update the statewide strategic master plan every four years. The plan shall address the goals of: (a) Expanding access; (b) using methods of educational delivery that are efficient, cost-effective, and productive to deliver modern educational programs; and (c) using performance measures to gauge the effectiveness of the state's progress towards meeting its higher education goals. The plan shall encompass all sectors of higher education, including the two-year system, workforce training, the four-year institutions, and financial aid. The board shall also specify strategies for expanding access, affordability, quality, efficiency, and accountability among the various institutions of higher education.

(2) In developing the statewide strategic master plan for higher education, the board shall collaborate with the four-year institutions of higher education including the council of presidents, the community and technical college system, and, when appropriate, the workforce training and education coordinating board, the superintendent of public instruction, the independent higher education institutions, the business sector, and labor. The board shall identify and utilize models of regional planning and decision making before initiating a statewide planning process. The board shall also seek input from students, faculty organizations, community and business leaders in the state, members of the legislature, and the governor.

(3) As a foundation for the statewide strategic master plan for higher education, the board shall review role and mission statements for each of the four-year institutions of higher education and the community and technical college system. The purpose of the review is to ensure institutional roles and missions are aligned with the overall state vision and priorities for higher education.

(4) In assessing needs of the state's higher education system, the board should encourage partnerships, embrace innovation, and consider, analyze, and make recommendations concerning the following information:

(a) Demographic, social, economic, and technological trends and their impact on service delivery for a twenty-year horizon;

(b) The changing ethnic composition of the population and the special needs arising from those trends;

(c) Business and industrial needs for a skilled workforce;

(d) College attendance, retention, transfer, graduation, and dropout rates;

(e) Needs and demands for basic and continuing education and opportunities for lifelong learning by individuals of all age groups;

(f) Needs and demands for nontraditional populations including, but not limited to, adult learners; and

(g) Needs and demands for access to higher education by placebound students and individuals in heavily populated areas underserved by public institutions.

(2010 Ed.)

(5) The statewide strategic master plan for higher education shall include, but not be limited to, the following access and educational delivery items:

(a) Recommendations based on enrollment forecasts and analysis of data about demand for higher education, and policies and actions to meet the goal of expanding access;

(b) State and regional priorities for new or expanded degree programs or off-campus programs, including what models of service delivery may be most cost-effective;

(c) Recommended policies or actions to improve the efficiency of student transfer and graduation or completion;

(d) State and regional priorities for addressing needs in high-demand fields where enrollment access is limited and employers are experiencing difficulty finding enough qualified graduates to fill job openings;

(e) Recommended tuition and fees policies and levels; and

(f) Priorities and recommendations including increased transparency on financial aid.

(6) The board shall present the vision, goals, priorities, and strategies in the statewide strategic master plan for higher education in a way that provides guidance for institutions, the governor, and the legislature to make further decisions regarding institution-level plans, policies, legislation, and operating and capital funding for higher education. In the statewide strategic master plan for higher education, the board shall recommend specific actions to be taken and identify measurable performance indicators and benchmarks for gauging progress toward achieving the goals and priorities.

(7) Every four years by December 15th, beginning December 15, 2007, the board shall submit an update of the ten-year statewide strategic master plan for higher education to the governor and the legislature. The updated plan shall reflect the expectations and policy directions of the legislative higher education and fiscal committees, and shall provide a timely and relevant framework for the development of future budgets and policy proposals. The legislature shall, by concurrent resolution, approve or recommend changes to the updated plan, following public hearings. The board shall submit the final plan, incorporating legislative changes, to the governor and the legislature by June of the year in which the legislature approves the concurrent resolution. The plan shall then become state higher education policy unless legislation is enacted to alter the policies set forth in the plan. The board shall report annually to the governor and the legislature on the progress being made by the institutions of higher education and the state to implement the strategic master plan.

(8) Each four-year institution shall develop an institution-level ten-year strategic plan that implements the vision, goals, priorities, and strategies within the statewide strategic master plan for higher education based on the institution's role and mission. Institutional strategic plans shall encourage partnerships, embrace innovation, and contain measurable performance indicators and benchmarks for gauging progress toward achieving the goals and priorities with attention given to the goals and strategies of increased access and program delivery methods. The board shall review the institution-level plans to ensure the plans are aligned with and implement the statewide strategic master plan for higher education and shall periodically monitor institutions' progress toward achieving the goals and priorities within their plans.

(9) The board shall also review the comprehensive master plan prepared by the state board for community and technical colleges for the community and technical college system under RCW 28B.50.090 to ensure the plan is aligned with and implements the statewide strategic master plan for higher education. [2007 c 458 § 201; 2004 c 275 § 6; 2003 c 130 § 2. Formerly RCW 28B.80.345.]

**Findings—Intent—2003 c 130:** See note following RCW 28B.76.210.

**28B.76.210 Budget priorities and levels of funding—Guidelines for institutions—Review and evaluation of budget requests—Recommendations.** (1) The board shall collaborate with the four-year institutions including the council of presidents, the community and technical college system, and when appropriate the workforce training and education coordinating board, the superintendent of public instruction, and the independent higher educational institutions to identify budget priorities and levels of funding for higher education, including the two and four-year institutions of higher education and state financial aid programs. It is the intent of the legislature that recommendations from the board reflect not merely the sum of budget requests from multiple institutions, but prioritized funding needs for the overall system of higher education.

(2) By December of each odd-numbered year, the board shall distribute guidelines which outline the board's fiscal priorities to the institutions and the state board for community and technical colleges.

(a) The institutions and the state board for community and technical colleges shall submit an outline of their proposed operating budgets to the board no later than July 1st of each even-numbered year. Pursuant to guidelines developed by the board, operating budget outlines submitted by the institutions and the state board for community and technical colleges after January 1, 2007, shall include all policy changes and enhancements that will be requested by the institutions and the state board for community and technical colleges in their respective biennial budget requests. Operating budget outlines shall include a description of each policy enhancement, the dollar amount requested, and the fund source being requested.

(b) Capital budget outlines for the two-year institutions shall be submitted by August 15th of each even-numbered year, and shall include the prioritized ranking of the capital projects being requested, a description of each capital project, and the amount and fund source being requested.

(c) Capital budget outlines for the four-year institutions must be submitted by August 15th of each even-numbered year, and must include: The institutions' priority ranking of the project; the capital budget category within which the project will be submitted to the office of financial management in accordance with RCW 43.88D.010; a description of each capital project; and the amount and fund source being requested.

(d) The office of financial management shall reference these reporting requirements in its budget instructions.

(3) The board shall review and evaluate the operating and capital budget requests from four-year institutions and the community and technical college system based on how the requests align with the board's budget priorities, the missions of the institutions, and the statewide strategic master plan for higher education under RCW 28B.76.200.

(4) The board shall submit recommendations on the proposed operating budget and priorities to the office of financial management by October 1st of each even-numbered year, and to the legislature by January 1st of each odd-numbered year.

(5) The board's capital budget recommendations for the community and technical college system and the four-year institutions must be submitted to the office of financial management and to the legislature by November 15th of each even-numbered year. The board's recommendations for the four-year institutions must include a single, prioritized list of the major projects that the board recommends be funded with state bond and building account appropriations during the forthcoming fiscal biennium. In developing this single prioritized list, the board shall:

(a) Seek to identify the combination of projects that will most cost-effectively achieve the state's goals. These goals include increasing baccalaureate and graduate degree production, particularly in high-demand fields; promoting economic development through research and innovation; providing quality, affordable educational environments; preserving existing assets; and maximizing the efficient utilization of instructional space;

(b) Be guided by the objective analysis and scoring of capital budget projects completed by the office of financial management pursuant to chapter 43.88D RCW;

(c) Anticipate (i) that state bond and building account appropriations continue at the same level during each of the two subsequent fiscal biennia as has actually been appropriated for the baccalaureate institutions during the current one; (ii) that major projects funded for design during a biennium are funded for construction during the subsequent one before state appropriations are provided for new major projects; and (iii) that minor health, safety, code, and preservation projects are funded at the same average level as in recent biennia before state appropriations are provided for new major projects.

(6) Institutions and the state board for community and technical colleges shall submit any supplemental budget requests and revisions to the board at the same time they are submitted to the office of financial management. The board shall submit recommendations on the proposed supplemental budget requests to the office of financial management by November 1st and to the legislature by January 1st. [2010 c 245 § 10; 2008 c 205 § 4; 2007 c 458 § 202; 2004 c 275 § 7; 2003 c 130 § 3; 1997 c 369 § 10; 1996 c 174 § 1; 1993 c 363 § 6; 1985 c 370 § 4. Formerly RCW 28B.80.330.]

**Findings—Expand on demand—System design plan endorsed—2010 c 245:** See note following RCW 28B.50.020.

**Findings—Intent—2008 c 205:** See RCW 43.88D.005.

**Part headings not law—2004 c 275:** See note following RCW 28B.76.030.

[Title 28B RCW—page 202]

**Findings—Intent—2003 c 130:** "(1) The legislature finds that:

(a) At the time the higher education coordinating board was created in 1985, the legislature wanted a board with a comprehensive mission that included planning, budget and program review authority, and program administration;

(b) Since its creation, the board has achieved numerous accomplishments, including proposals leading to creation of the branch campus system, and has made access and affordability of higher education a consistent priority;

(c) However, higher education in Washington state is currently at a crossroads. Demographic, economic, and technological changes present new and daunting challenges for the state and its institutions of higher education. As the state looks forward to the future, the legislature, the governor, and institutions need a common strategic vision to guide planning and decision making.

(2) Therefore, it is the legislature's intent to reaffirm and strengthen the strategic planning role of the higher education coordinating board. It is also the legislature's intent to examine options for reassigning or altering other roles and responsibilities to enable the board to place priority and focus on planning and coordination." [2003 c 130 § 1.]

**Findings—1993 c 363:** "The legislature finds a need to redefine the relationship between the state and its postsecondary education institutions through a compact based on trust, evidence, and a new alignment of responsibilities. As the proportion of the state budget dedicated to postsecondary education programs has continued to decrease and the opportunity for this state's citizens to participate in such programs also has declined, the state institutions of higher education have increasingly less flexibility to respond to emerging challenges through innovative management and programming. The legislature finds that this state has not provided its institutions of higher education with the ability to effectively achieve statewide goals and objectives to increase access to, improve the quality of, and enhance the accountability for its postsecondary education system.

Therefore, the legislature declares that the policy of the state of Washington is to create an environment in which the state institutions of higher education have the authority and flexibility to enhance attainment of statewide goals and objectives for the state's postsecondary education system through decisions and actions at the local level. The policy shall have the following attributes:

(1) The accomplishment of equitable and adequate enrollment by significantly raising enrollment lids, adequately funding those increases, and providing sufficient financial aid for the neediest students;

(2) The development and use of a new definition of quality measured by effective operations and clear results; the efficient use of funds to achieve well-educated students;

(3) The attainment of a new resource management relationship that removes the state from micromanagement, allows institutions greater management autonomy to focus resources on essential functions, and encourages innovation; and

(4) The development of a system of coordinated planning and sufficient feedback to assure policymakers and citizens that students are succeeding and resources are being prudently deployed." [1993 c 363 § 1.]

### **28B.76.230 Needs assessment process and analysis—Recommendations—Activities requiring board approval.**

(1) The board shall develop a comprehensive and ongoing assessment process to analyze the need for additional degrees and programs, additional off-campus centers and locations for degree programs, and consolidation or elimination of programs by the four-year institutions. Board recommendations regarding proposed major expansion shall be limited to determinations of whether the major expansion is within the scope indicated in the most recent strategic master plan for higher education or most recent system design plan. Recommendations regarding existing capital prioritization processes are not within the scope of the evaluation of major expansion. Major expansion and proposed mission changes may be proposed by the board, any public institution of higher education, or by a state or local government.

(2010 Ed.)

(2) As part of the needs assessment process, the board shall examine:

(a) Projections of student, employer, and community demand for education and degrees, including liberal arts degrees, on a regional and statewide basis;

(b) Current and projected degree programs and enrollment at public and private institutions of higher education, by location and mode of service delivery;

(c) Data from the workforce training and education coordinating board and the state board for community and technical colleges on the supply and demand for workforce education and certificates and associate degrees; and

(d) Recommendations from the technology transformation task force created in chapter 407, Laws of 2009, and institutions of higher education relative to the strategic and operational use of technology in higher education. These and other reports, reviews, and audits shall allow for: The development of enterprise-wide digital information technology across educational sectors, systems, and delivery methods; the integration and streamlining of administrative tools including but not limited to student information management, financial management, payroll, human resources, data collection, reporting, and analysis; and a determination of the costs of multiple technology platforms, systems, and models.

(3) Every two years the board shall produce, jointly with the state board for community and technical colleges and the workforce training and education coordinating board, an assessment of the number and type of higher education and training credentials required to match employer demand for a skilled and educated workforce. The assessment shall include the number of forecasted net job openings at each level of higher education and training and the number of credentials needed to match the forecast of net job openings.

(4) The board shall determine whether certain major lines of study or types of degrees, including applied degrees or research-oriented degrees, shall be assigned uniquely to some institutions or institutional sectors in order to create centers of excellence that focus resources and expertise.

(5) The following activities are subject to approval by the board:

(a) New degree programs by a four-year institution;

(b) Creation of any off-campus program by a four-year institution;

(c) Purchase or lease of major off-campus facilities by a four-year institution or a community or technical college;

(d) Creation of higher education centers and consortia;

(e) New degree programs and creation of off-campus programs by an independent college or university in collaboration with a community or technical college; and

(f) Applied baccalaureate degree programs developed by colleges under RCW 28B.50.810.

(6) Institutions seeking board approval under this section must demonstrate that the proposal is justified by the needs assessment developed under this section. Institutions must also demonstrate how the proposals align with or implement the statewide strategic master plan for higher education under RCW 28B.76.200.

(7) The board shall develop clear guidelines and objective decision-making criteria regarding approval of proposals under this section, which must include review and consulta-

tion with the institution and other interested agencies and individuals.

(8) The board shall periodically recommend consolidation or elimination of programs at the four-year institutions, based on the needs assessment analysis.

(9) In the case of a proposed major expansion or mission change, the needs assessment process under subsection (2) of this section constitutes a threshold inquiry. If the board determines that the need for the proposed major expansion or mission change has not been justified, the inquiry is concluded. If the board determines that the need for the proposed major expansion or mission change has been sufficiently established, the board, in consultation with any directly involved institutions and other interested agencies and individuals, shall proceed to examine the viability of the proposal using criteria including, but not limited to:

(a) The specific scope of the project including the capital investment requirements, the number of full-time equivalent students anticipated, and the number of academic programs planned;

(b) The existence of an efficient and sustainable financial plan;

(c) The extent to which existing resources can be leveraged;

(d) The current and five-year projected student population, faculty, and staff to support the proposed programs, institution, or innovation;

(e) The plans to accommodate expected growth over a twenty-year time frame;

(f) The extent to which new or existing partnerships and collaborations are a part of the proposal; and

(g) The feasibility of any proposed innovations to accelerate degree production.

(10) After the board completes its evaluation of the proposed major expansion or mission change using the needs assessment under subsection (2) of this section and viability determination under subsection (9) of this section, the board shall make a recommendation to either proceed, modify, or not proceed with the proposed major expansion or mission change. The board's recommendation shall be presented to the governor and the legislature. [2010 c 245 § 5; 2005 c 258 § 11; 2004 c 275 § 9.]

**28B.76.240 Statewide transfer and articulation policies.** The board shall adopt statewide transfer and articulation policies that ensure efficient transfer of credits and courses across public two and four-year institutions of higher education. The intent of the policies is to create a statewide system of articulation and alignment between two and four-year institutions. Policies may address but are not limited to creation of a statewide system of course equivalency, creation of transfer associate degrees, statewide articulation agreements, applicability of technical courses toward baccalaureate degrees, and other issues. The institutions of higher education and the state board for community and technical colleges shall cooperate with the board in developing the

statewide policies and shall provide support and staff resources as necessary to assist in maintaining the policies. The board shall submit a progress report to the higher education committees of the senate and house of representatives by December 1, 2006, by which time the legislature expects measurable improvement in alignment and transfer efficiency. **28B.76.2401 Statewide transfer of credit policy and agreement—**

**Requirements.** The statewide transfer of credit policy and agreement must be designed to facilitate the transfer of students and the evaluation of transcripts, to better serve persons seeking information about courses and programs, to aid in academic planning, and to improve the review and evaluation of academic programs in the state institutions of higher education. The statewide transfer of credit policy and agreement must not require or encourage the standardization of course content or prescribe course content or the credit value assigned by any institution to the course. Policies adopted by public four-year institutions concerning the transfer of lower division credit must treat students transferring from public community colleges the same as students transferring from public four-year institutions. [2004 c 55 § 5; 1983 c 304 § 2. Formerly RCW 28B.80.290.]

**28B.76.250 Transfer associate degrees—Work groups—Implementation—Progress reports.** (1) The higher education coordinating board must convene work groups to develop transfer associate degrees that will satisfy lower division requirements at public four-year institutions of higher education for specific academic majors. Work groups must include representatives from the state board for community and technical colleges and the council of presidents, as well as faculty from two and four-year institutions. Work groups may include representatives from independent four-year institutions.

(2) Each transfer associate degree developed under this section must enable a student to complete the lower-division courses or competencies for general education requirements and preparation for the major that a direct-entry student would typically complete in the freshman and sophomore years for that academic major.

(3) Completion of a transfer associate degree does not guarantee a student admission into an institution of higher education or admission into a major, minor, or professional program at an institution of higher education that has competitive admission standards for the program based on grade point average or other performance criteria.

(4) During the 2004-05 academic year, the work groups must develop transfer degrees for elementary education,

engineering, and nursing. Each year thereafter, the higher education coordinating board must convene additional groups to identify and develop additional transfer degrees. The board must give priority to majors in high demand by transfer students and majors that the general direct transfer agreement associate degree does not adequately prepare students to enter automatically upon transfer.

(5) The higher education coordinating board, in collaboration with the intercollege relations commission, must collect and maintain lists of courses offered by each community and technical college and public four-year institution of higher education that fall within each transfer associate degree.

(6) The higher education coordinating board must monitor implementation of transfer associate degrees by public four-year institutions to ensure compliance with subsection (2) of this section.

(7) Beginning January 10, 2005, the higher education coordinating board must submit a progress report on the development of transfer associate degrees to the higher education committees of the house of representatives and the senate. The first progress report must include measurable benchmark indicators to monitor the effectiveness of the initiatives in improving transfer and baseline data for those indicators before the implementation of the initiatives. Subsequent reports must be submitted by January 10 of each odd-numbered year and must monitor progress on the indicators, describe development of additional transfer associate degrees, and provide other data on improvements in transfer efficiency. [2004 c 55 § 2.]

**Findings—Intent—2004 c 55:** "(1) The legislature finds that community and technical colleges play a vital role for students obtaining baccalaureate degrees. In 2002, more than forty percent of students graduating with a baccalaureate degree had transferred from a community or technical college.

(2) The legislature also finds that demand continues to grow for baccalaureate degrees. Increased demand comes from larger numbers of students seeking access to higher education and greater expectations from employers for the knowledge and skills needed to expand the state's economy. Community and technical colleges are an essential partner in meeting this demand.

(3) However, the legislature also finds that current policies and procedures do not provide for efficient transfer of courses, credits, or prerequisites for academic majors. Furthermore, the state's public higher education system must expand its capacity to enroll transfer students in baccalaureate education. The higher education coordinating board must take a leadership role in working with the community and technical colleges and four-year institutions to ensure efficient and seamless transfer across the state.

(4) Therefore, it is the legislature's intent to build clearer pathways to baccalaureate degrees, improve statewide coordination of transfer and articulation, and ensure long-term capacity in the state's higher education system for transfer students." [2004 c 55 § 1.]

**28B.76.260 Statewide system of course equivalency—Work group.** (1) The higher education coordinating board must create a statewide system of course equivalency for public institutions of higher education, so that courses from one institution can be transferred and applied toward academic majors and degrees in the same manner as equivalent courses at the receiving institution.

(2) The board must convene a work group including representatives from the state board for community and technical colleges and the council of presidents, as well as faculty from two and four-year institutions, to:

(a) Identify equivalent courses between community and technical colleges and public four-year institutions and among public four-year institutions, including identifying how courses meet requirements for academic majors and degrees; and

(b) Develop strategies for communicating course equivalency to students, faculty, and advisors.

(3) The work group may include representatives from independent four-year institutions. The work group must take into account the unique nature of the curriculum of The Evergreen State College in developing the course equivalency system.

(4) The higher education coordinating board must make a progress report on the development of the course equivalency system to the higher education committees of the senate and house of representatives by January 10, 2005. The report must include options and cost estimates for ongoing maintenance of the system. [2004 c 55 § 3.]

**Findings—Intent—2004 c 55:** See note following RCW 28B.76.250.

**28B.76.270 Accountability monitoring and reporting system—Institution biennial plans and performance targets—Biennial reports to the legislature.** (1) The board shall establish an accountability monitoring and reporting system as part of a continuing effort to make meaningful and substantial progress towards the achievement of long-term performance goals in higher education.

(2) Based on guidelines prepared by the board, each four-year institution and the state board for community and technical colleges shall submit a biennial plan to achieve measurable and specific improvements each academic year on statewide and institution-specific performance measures. Plans shall be submitted to the board along with the biennial budget requests from the institutions and the state board for community and technical colleges. Performance measures established for the community and technical colleges shall reflect the role and mission of the colleges.

(3) The board shall approve biennial performance targets for each four-year institution and for the community and technical college system and shall review actual achievements annually. The state board for community and technical colleges shall set biennial performance targets for each college or district, where appropriate.

(4) The board shall submit a report on progress towards the statewide goals, with recommendations for the ensuing biennium, to the fiscal and higher education committees of the legislature along with the board's biennial budget recommendations.

(5) The board, in collaboration with the four-year institutions and the state board for community and technical colleges, shall periodically review and update the accountability monitoring and reporting system.

(6) The board shall develop measurable indicators and benchmarks for its own performance regarding cost, quantity, quality, and timeliness and including the performance of committees and advisory groups convened under this chapter to accomplish such tasks as improving transfer and articulation, improving articulation with the K-12 education system, measuring educational costs, or developing data protocols. The board shall submit its accountability plan to the legisla-

(2010 Ed.)

ture concurrently with the biennial report on institution progress. [2004 c 275 § 11.]

**Part headings not law—2004 c 275:** See note following RCW 28B.76.030.

**28B.76.280 Data collection and research—Privacy protection.** (1) In consultation with the institutions of higher education and state education agencies, the board shall identify the data needed to carry out its responsibilities for policy analysis, accountability, program improvements, and public information. The primary goals of the board's data collection and research are to describe how students and other beneficiaries of higher education are being served; to support higher education accountability; and to assist state policymakers and institutions in making policy decisions.

(2) The board shall identify the most cost-effective manner for the board to collect data or access existing data. The board shall develop research priorities, policies, and common definitions to maximize the reliability and consistency of data across institutions.

(3) Specific protocols shall be developed by the board to protect the privacy of individual student records while ensuring the availability of student data for legitimate research purposes. [2010 1st sp.s. c 7 § 58; 2004 c 275 § 12.]

**28B.76.290 Coordination of activities with segments of higher education.** The board shall coordinate educational activities among all segments of higher education taking into account the educational programs, facilities, and other resources of both public and independent two and four-year colleges and universities. The four-year institutions and the state board for community and technical colleges shall coordinate information and activities with the board. The board shall have the following additional responsibilities:

(1) Promote interinstitutional cooperation;

(2) Establish minimum admission standards for four-year institutions, including a requirement that coursework in American sign language or an American Indian language shall satisfy any requirement for instruction in a language other than English that the board or the institutions may establish as a general undergraduate admissions requirement;

(3) Establish transfer policies;

(4) Adopt rules implementing statutory residency requirements;

(5) Develop and administer reciprocity agreements with bordering states and the province of British Columbia;

(6) Review and recommend compensation practices and levels for administrative employees, exempt under \*chapter 28B.16 RCW, and faculty using comparative data from peer institutions;

(7) Monitor higher education activities for compliance with all relevant state policies for higher education;

(8) Arbitrate disputes between and among four-year institutions or between and among four-year institutions and community colleges at the request of one or more of the institutions involved, or at the request of the governor, or from a

resolution adopted by the legislature. The decision of the board shall be binding on the participants in the dispute;

(9) Establish and implement a state system for collecting, analyzing, and distributing information;

(10) Recommend to the governor and the legislature ways to remove any economic incentives to use off-campus program funds for on-campus activities; and

(11) Make recommendations to increase minority participation, and monitor and report on the progress of minority participation in higher education. [1993 c 77 § 2; 1992 c 60 § 3; 1988 c 172 § 4; 1985 c 370 § 6. Formerly RCW 28B.80.350.]

**\*Reviser's note:** Chapter 28B.16 RCW was repealed by 1993 c 281, with the exception of RCW 28B.16.015 and 28B.16.240, which was recodified as RCW 41.06.382. For exemptions to higher education personnel law see chapter 41.06 RCW. RCW 28B.16.015 and 41.06.382 were subsequently repealed by 2002 c 354 § 403, effective July 1, 2005.

**28B.76.300 State support received by students—Information.** (1) The board shall annually develop information on the approximate amount of state support that students receive. For students at state-supported colleges and universities, the information shall include the approximate level of support received by students in each tuition category. That information may include consideration of the following: Expenditures included in the educational cost formula, revenue forgiven from waived tuition and fees, state-funded financial aid awarded to students at public institutions, and all or a portion of appropriated amounts not reflected in the educational cost formula for institutional programs and services that may affect or enhance the educational experience of students at a particular institution. For students attending a private college, university, or proprietary school, the information shall include the amount of state-funded financial aid awarded to students attending the institution.

(2) Beginning July 30, 1993, the board shall annually provide information appropriate to each institution's student body to each state-supported four-year institution of higher education and to the state board for community and technical colleges for distribution to community colleges and technical colleges.

(4) Beginning with the 1997 fall academic term, each institution of higher education described in subsection (2) or (3) of this section shall provide to students at the institution information on the approximate amount that the state is contributing to the support of their education. Information provided to students at each state-supported college and university shall include the approximate amount of state support received by students in each tuition category at that institution. The amount of state support shall be based on the information provided by the board under subsections (1) through (3) of this section. The information shall be provided to students at the beginning of each academic term through one or more of the following: Registration materials, class schedules, tuition and fee billing packets, student newspapers, or

via e-mail or kiosk. [2004 c 275 § 14; 1997 c 48 § 1; 1993 c 250 § 1. Formerly RCW 28B.10.044.]

(2) By December 1, 2004, the board must propose a schedule of regular cost study reports intended to meet the information needs of the governor's office and the legislature and the requirements of RCW 28B.76.300 and submit the proposed schedule to the higher education and fiscal committees of the house of representatives and the senate for their review.

(3) No grant may be awarded to any student who is pursuing a degree in theology.

(4) As used in this section, "independent college or university" means a private, nonprofit educational institution, the main campus of which is permanently situated in the state, open to residents of the state, providing programs of education beyond the high school level leading at least to the baccalaureate degree, and accredited by the Northwest association of schools and colleges as of June 9, 1988, and other institutions as may be developed that are approved by the higher education coordinating board as meeting equivalent standards as those institutions accredited under this section.

(5) As used in this section, "licensed private vocational school" means a private postsecondary institution, located in the state, licensed by the workforce training and education coordinating board under chapter 28C.10 RCW, and offering postsecondary education in order to prepare persons for a vocation or profession, as defined in RCW 28C.10.020(7). **28B.76.680 Border county higher education opportunity project—Findings—Intent.** (1) The legislature finds that certain tuition policies in Oregon state are more responsive to the needs of students living in economic regions that cross the state border than the Washington state policies. Under Oregon policy, students who are Washington residents may enroll at Portland State University for eight credits or less and pay the same tuition as Oregon residents. Further, the state of Oregon passed legislation in 1997 to begin providing to its community colleges the same level of state funding for students residing in bordering states as students residing in Oregon.

(2) The legislature intends to build on the recent Oregon initiatives regarding tuition policy for students in bordering states and to facilitate regional planning for higher education delivery by creating a project on resident tuition rates in Washington counties that border Oregon state. **28B.76.685 Border county higher education opportunity project—Created.** (1)(a) The border county higher education opportunity project is created. Under the border county project, Columbia Basin Community College, Clark College, Lower Columbia Community College, Grays Harbor Community College, and Walla Walla Community College may enroll students who reside in the bordering Oregon counties of Columbia, Gilliam, Hood River, Multnomah, Clatsop, Clackamas, Morrow, Sherman, Umatilla, Union, Wallowa, Wasco, and Washington at resident tuition rates.

(b) The Tri-Cities and Vancouver branches of Washington State University may enroll students who reside in the bordering Oregon counties of Columbia, Multnomah, Clat-

sop, Clackamas, Morrow, Umatilla, Union, Wallowa, and Washington for eight credits or less at resident tuition rates.

(2) Columbia Basin Community College, Clark College, Lower Columbia Community College, Grays Harbor Community College, and Walla Walla Community College may enroll students at resident tuition rates who:

(a) Are currently domiciled in Washington;

(b) Relocated to Washington from one of the thirteen counties identified in subsection (1)(a) of this section within the previous twelve months; and

(c) Were domiciled in one of the thirteen counties identified in subsection (1)(a) of this section for at least ninety days immediately before relocating to Washington.

(3) The Tri-Cities and Vancouver branches of Washington State University may enroll students for eight credits or less at resident tuition rates who:

(a) Are currently domiciled in Washington;

(b) Relocated to Washington from one of the nine counties identified in subsection (1)(b) of this section within the previous twelve months; and

(c) Were domiciled in one of the nine counties identified in subsection (1)(b) of this section for at least ninety days immediately before relocating to Washington.

(4) Washington institutions of higher education participating in the project shall give priority program enrollment to Washington residents. [2009 c 158 § 1; 2003 c 159 § 2; 2002 c 130 § 2; 2000 c 160 § 3; 1999 c 320 § 2. Formerly RCW 28B.80.806.]

**28B.85.010 Definitions.** Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter:

(1) "Board" means the higher education coordinating board.

(2) "Degree" means any designation, appellation, letters, or words including but not limited to "associate," "bachelor," "master," "doctor," or "fellow" which signify or purport to signify satisfactory completion of the requirements of an academic program of study beyond the secondary school level.

(3) "Degree-granting institution" means an entity that offers educational credentials, instruction, or services prerequisite to or indicative of an academic or professional degree beyond the secondary level. [1986 c 136 § 1.]

**28B.85.020 Board's duties—Rules—Investigations—Interagency agreements for degree and nondegree programs—Information on institutions offering substandard or fraudulent degree programs—Financial disclosure exempt from public disclosure.** (1) The board:

(a) Shall adopt by rule, in accordance with chapter 34.05 RCW, minimum standards for degree-granting institutions concerning granting of degrees, quality of education, unfair business practices, financial stability, and other necessary measures to protect citizens of this state against substandard, fraudulent, or deceptive practices. The rules shall require that an institution operating in Washington:

- (i) Be accredited;
- (ii) Have applied for accreditation and such application is pending before the accrediting agency;
- (iii) Have been granted a waiver by the board waiving the requirement of accreditation; or
- (iv) Have been granted an exemption by the board from the requirements of this subsection (1)(a);

(b) May investigate any entity the board reasonably believes to be subject to the jurisdiction of this chapter. In connection with the investigation, the board may administer oaths and affirmations, issue subpoenas and compel attendance, take evidence, and require the production of any books, papers, correspondence, memorandums, or other records which the board deems relevant or material to the investigation. The board, including its staff and any other authorized persons, may conduct site inspections, the cost of which shall be borne by the institution, and examine records of all institutions subject to this chapter;

(c) Shall develop an interagency agreement with the workforce training and education coordinating board to regulate degree-granting private vocational schools with respect to degree and nondegree programs; and

(d) Shall develop and disseminate information to the public about entities that sell or award degrees without requiring appropriate academic achievement at the postsec-

ondary level, including but not limited to, a description of the substandard and potentially fraudulent practices of these entities, and advice about how the public can recognize and avoid the entities. To the extent feasible, the information shall include links to additional resources that may assist the public in identifying specific institutions offering substandard or fraudulent degree programs.

(2) Financial disclosures provided to the board by degree-granting private vocational schools are not subject to public disclosure under chapter 42.56 RCW. [2006 c 234 § 3; 2005 c 274 § 246; 2004 c 96 § 1; 1996 c 305 § 1; 1994 c 38 § 1; 1986 c 136 § 2.]

**Part headings not law—Effective date—2005 c 274:** See RCW 42.56.901 and 42.56.902.

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28B.85.030 Current authorization required to offer or grant degree—Penalty for violation.** (1) A degree-granting institution shall not operate and shall not grant or offer to grant any degree unless the institution has obtained current authorization from the board.

(2) Any person, group, or entity or any owner, officer, agent, or employee of such entity who willfully violates this section is guilty of a gross misdemeanor and shall be punished by a fine not to exceed one thousand dollars or by imprisonment in the county jail for a term not to exceed one year, or by both such fine and imprisonment. Each day on which a violation occurs constitutes a separate violation. The criminal sanctions may be imposed by a court of competent jurisdiction in an action brought by the attorney general of this state. [2003 c 53 § 175; 1986 c 136 § 3.]

**Intent—Effective date—2003 c 53:** See notes following RCW 2.48.180.

**28B.85.040 Completion of program of study prerequisite to degree—Application of chapter.** (1) An institution or person shall not advertise, offer, sell, or award a degree or any other type of educational credential unless the student has enrolled in and successfully completed a prescribed program of study, as outlined in the institution's publications. This prohibition shall not apply to honorary credentials clearly designated as such on the front side of the diploma or certificate and awarded by institutions offering other educational credentials in compliance with state law.

(2) No exemption or waiver granted under this chapter is permanent. The board shall periodically review exempted degree-granting institutions and degree-granting institutions granted a waiver, and continue exemptions or waivers only if an institution meets the statutory or board requirements for exemption or waiver in effect on the date of the review.

(3) Except as provided in subsection (1) of this section, this chapter shall not apply to:

(a) Any public college, university, community college, technical college, or institute operating as part of the public higher educational system of this state;

(b) Institutions that have been accredited by an accrediting association recognized by the agency for the purposes of this chapter: PROVIDED, That those institutions meet minimum exemption standards adopted by the agency; and PROVIDED FURTHER, That an institution, branch, extension, or facility operating within the state of Washington which is

affiliated with an institution operating in another state must be a separately accredited member institution of any such accrediting association to qualify for this exemption;

(c) Institutions of a religious character, but only as to those education programs devoted exclusively to religious or theological objectives if the programs are represented in an accurate manner in institutional catalogs and other official publications;

(d) Honorary credentials clearly designated as such on the front side of the diploma or certificate awarded by institutions offering other educational credentials in compliance with state law; or

(e) Institutions not otherwise exempt which offer only workshops or seminars and institutions offering only credit-bearing workshops or seminars lasting no longer than three calendar days. [2006 c 234 § 4; 2004 c 96 § 2; 1996 c 97 § 1; 1994 c 38 § 2; 1986 c 136 § 4.]

**28B.85.045 Institutions offering teacher preparation programs—Exploration of methods to enhance awareness of teacher preparation programs.** See RCW 28B.10.032.

**28B.85.050 Board may require information.** All degree-granting institutions subject to this chapter shall file information with the board as the board may require. [1986 c 136 § 5.]

**28B.85.060 Fees.** The board shall impose fees on any degree-granting institution authorized to operate under this chapter. Fees shall be set and revised by the board by rule at the level necessary to approximately recover the staffing costs incurred in administering this chapter. Fees shall be deposited in the general fund. [1986 c 136 § 6.]

**28B.85.070 Surety bonds—Security in lieu of bond—Cancellation of bond—Notice—Claims.** (1) The board may require any degree-granting institution to have on file with the board an approved surety bond or other security in lieu of a bond in an amount determined by the board.

(2) In lieu of a surety bond, an institution may deposit with the board a cash deposit or other negotiable security acceptable to the board. The security deposited with the board in lieu of the surety bond shall be returned to the institution one year after the institution's authorization has expired or been revoked if legal action has not been instituted against the institution or the security deposit at the expiration of the year. The obligations and remedies relating to surety bonds authorized by this section, including but not limited to the settlement of claims procedure in subsection (5) of this section, shall apply to deposits filed with the board, as applicable.

(3) Each bond shall:

(a) Be executed by the institution as principal and by a corporate surety licensed to do business in the state;

(b) Be payable to the state for the benefit and protection of any student or enrollee of an institution, or, in the case of a minor, his or her parents or guardian;

(c) Be conditioned on compliance with all provisions of this chapter and the board's rules adopted under this chapter;

(d) Require the surety to give written notice to the board at least thirty-five days before cancellation of the bond; and

(e) Remain in effect for one year following the effective date of its cancellation or termination as to any obligation occurring on or before the effective date of cancellation or termination.

(4) Upon receiving notice of a bond cancellation, the board shall notify the institution that the authorization will be suspended on the effective date of the bond cancellation unless the institution files with the board another approved surety bond or other security. The board may suspend or revoke the authorization at an earlier date if it has reason to believe that such action will prevent students from losing their tuition or fees.

(5) If a complaint is filed under RCW 28B.85.090(1) against an institution, the board may file a claim against the surety and settle claims against the surety by following the procedure in this subsection.

(a) The board shall attempt to notify all potential claimants. If the absence of records or other circumstances makes it impossible or unreasonable for the board to ascertain the names and addresses of all the claimants, the board after exerting due diligence and making reasonable inquiry to secure that information from all reasonable and available sources, may make a demand on a bond on the basis of information in the board's possession. The board is not liable or responsible for claims or the handling of claims that may subsequently appear or be discovered.

(b) Thirty days after notification, if a claimant fails, refuses, or neglects to file with the board a verified claim, the board shall be relieved of further duty or action under this chapter on behalf of the claimant.

(c) After reviewing the claims, the board may make demands upon the bond on behalf of those claimants whose claims have been filed. The board may settle or compromise the claims with the surety and may execute and deliver a release and discharge of the bond.

(d) If the surety refuses to pay the demand, the board may bring an action on the bond in behalf of the claimants. If an action is commenced on the bond, the board may require a new bond to be filed.

(e) Within ten days after a recovery on a bond or other posted security has occurred, the institution shall file a new bond or otherwise restore its security on file to the required amount.

(6) The liability of the surety shall not exceed the amount of the bond. [1986 c 136 § 7.]

**28B.85.080 Suspension or modification of requirements authorized.** The board may suspend or modify any of the requirements under this chapter in a particular case if the board finds that:

(1) The suspension or modification is consistent with the purposes of this chapter; and

(2) The education to be offered addresses a substantial, demonstrated need among residents of the state or that literal application of this chapter would cause a manifestly unreasonable hardship. [1986 c 136 § 8.]

**28B.85.090 Claims—Complaints—Investigations—Hearings—Orders.** (1) A person claiming loss of tuition or fees as a result of an unfair business practice may file a complaint with the board. The complaint shall set forth the alleged violation and shall contain information required by the board. A complaint may also be filed with the board by an authorized staff member of the board or by the attorney general.

(2) The board shall investigate any complaint under this section and may attempt to bring about a settlement. The board may hold a hearing pursuant to the Administrative Procedure Act, chapter 34.05 RCW, in order to determine whether a violation has occurred. If the board prevails, the degree-granting institution shall pay the costs of the administrative hearing.

(3) If, after the hearing, the board finds that the institution or its agent engaged in or is engaging in any unfair business practice, the board shall issue and cause to be served upon the violator an order requiring the violator to cease and desist from the act or practice and may impose the penalties under RCW 28B.85.100. If the board finds that the complainant has suffered loss as a result of the act or practice, the board may order full or partial restitution for the loss. The complainant is not bound by the board's determination of restitution and may pursue any other legal remedy. [1989 c 175 § 82; 1986 c 136 § 9.]

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28B.85.100 Violations—Civil penalties.** Any person, group, or entity or any owner, officer, agent, or employee of such entity who wilfully violates any provision of this chapter or the rules adopted under this chapter shall be subject to a civil penalty of not more than one hundred dollars for each violation. Each day on which a violation occurs constitutes a separate violation. The fine may be imposed by the higher education coordinating board or by any court of competent jurisdiction. [1986 c 136 § 10.]

**28B.85.120 Actions resulting in jurisdiction of courts.** A degree-granting institution, whether located in this state or outside of this state, that conducts business of any kind, makes any offers, advertises, solicits, or enters into any contracts in this state or with a resident of this state is subject to the jurisdiction of the courts of this state for any cause of action arising from the acts. [1986 c 136 § 12.]

**28B.85.130 Educational records—Permanent file—Protection.** If any degree-granting institution discontinues its operation, the chief administrative officer of the institution shall file with the board the original or legible true copies of all educational records required by the board. If the board determines that any educational records are in danger of being made unavailable to the board, the board may seek a court order to protect and if necessary take possession of the records. The board shall cause to be maintained a permanent file of educational records coming into its possession. [1986 c 136 § 13.]

**28B.85.140 Contracts voidable—When.** If a student or prospective student is a resident of this state at the time any

contract relating to payment for education or any note, instrument, or other evidence of indebtedness relating thereto is entered into, RCW 28B.85.150 shall govern the rights of the parties to the contract or evidence of indebtedness. If a contract or evidence of indebtedness contains any of the following agreements, the contract is voidable at the option of the student or prospective student:

- (1) That the law of another state shall apply;
- (2) That the maker or any person liable on the contract or evidence of indebtedness consents to the jurisdiction of another state;
- (3) That another person is authorized to confess judgment on the contract or evidence of indebtedness; or
- (4) That fixes venue. [1986 c 136 § 14.]

**28B.85.150 Enforceability of debts—Authority to offer degree required.** A note, instrument, or other evidence of indebtedness or contract relating to payment for education for a degree is not enforceable in the courts of this state by a degree-granting institution or holder of the instrument unless the institution was authorized to offer the degree under this chapter at the time the note, instrument, or other evidence of indebtedness or contract was entered into. [1986 c 136 § 15.]

**28B.85.160 Actions to enforce chapter—Who may bring—Relief.** The attorney general or the prosecuting attorney of any county in which a degree-granting institution or agent of the institution is found may bring an action in any court of competent jurisdiction for the enforcement of this chapter. The court may issue an injunction or grant any other appropriate form of relief. [1986 c 136 § 16.]

**28B.85.170 Injunctive relief—Board may seek.** The board may seek injunctive relief, after giving notice to the affected party, in a court of competent jurisdiction for a violation of this chapter or the rules adopted under this chapter. The board need not allege or prove that the board has no adequate remedy at law. The right of injunction provided in this section is in addition to any other legal remedy which the board has and is in addition to any right of criminal prosecution provided by law. The existence of board action with respect to alleged violations of this chapter and rules adopted under this chapter does not operate as a bar to an action for injunctive relief under this section. [1986 c 136 § 17.]

**28B.85.180 Violation of chapter unfair or deceptive practice under RCW 19.86.020.** A violation of this chapter or the rules adopted under this chapter affects the public interest and is an unfair or deceptive act or practice in violation of RCW 19.86.020 of the consumer protection act. The remedies and sanctions provided by this section shall not preclude application of other remedies and sanctions. [1986 c 136 § 18.]

**28B.85.190 Remedies and penalties in chapter non-exclusive and cumulative.** The remedies and penalties provided for in this chapter are nonexclusive and cumulative and do not affect any other actions or proceedings. [1986 c 136 § 19.]

**28B.85.220 False academic credentials—Unlawful acts—Violation of consumer protection act—Venue.** (1) It is unlawful for a person to:

(a) Grant or award a false academic credential or offer to grant or award a false academic credential in violation of this section;

(b) Represent that a credit earned or granted by the person, in violation of this section, can be applied toward a credential offered by another person; or

(c) Solicit another person to seek a credential or to earn a credit that is offered in violation of this section.

(2) The definitions in RCW 9A.60.070 apply to this section.

(3) A violation of this section constitutes an unfair or deceptive act or practice in the conduct of trade or commerce under chapter 19.86 RCW.

(4) In addition to any other venue authorized by law, venue for the prosecution of an offense under this section is in the county in which an element of the offense occurs. [2006 c 234 § 1.]

**28B.85.900 Severability—1986 c 136.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1986 c 136 § 21.]

**28B.85.902 Effective date—1986 c 136.** This act shall take effect July 1, 1986. [1986 c 136 § 24.]

**28B.85.905 Validity of registration under prior laws.** A degree-granting institution registered under chapter 188, Laws of 1979, as amended, as of June 30, 1986, is not required to apply for authorization under chapter 28B.85 RCW until the expiration date of such registration. [1986 c 136 § 22.]

**28B.85.906 Application of chapter to foreign degree-granting institution branch campuses.** This chapter shall not apply to any approved branch campus of a foreign degree-granting institution in compliance with chapter 28B.90 RCW. [1993 c 181 § 7.]

## Chapter 28B.90 RCW FOREIGN DEGREE-GRANTING BRANCH CAMPUSES

### Sections

28B.90.005	Findings.
28B.90.010	Definitions.
28B.90.020	Approval of foreign degree-granting institution as branch campus.
28B.90.030	Branch campuses exempt under chapter 28B.85 RCW.

**28B.90.005 Findings.** The legislature finds that it has previously declared in \*RCW 28B.107.005 that it is important to the economic future of the state to promote international awareness and understanding, and in RCW 1.20.100, that the state's economy and economic well-being depends heavily on foreign trade and international exchange.

(2010 Ed.)

The legislature finds that it is appropriate that such policies should be implemented by encouraging universities and colleges domiciled in foreign countries to establish branch campuses in Washington and that it is also important to those foreign colleges and universities that their status as authorized foreign degree-granting institutions be recognized by this state to facilitate the establishment and operation of such branch campuses.

In the furtherance of such policy, the legislature adopts the foreign degree-granting institution approved branch campus act. [1995 c 335 § 404; 1993 c 181 § 1.]

\*Reviser's note: RCW 28B.107.005 expired June 30, 1996, pursuant to 1990 c 243 § 8.

Upon receipt of the satisfactory evidence, the board shall certify that the branch campus of the foreign degree-granting institution is approved to operate in the state under this chapter. [1993 c 181 § 4.]

**28B.92.010 State need grant program established—Purpose.** The purposes of this chapter are to establish the principles upon which the state financial aid programs will be based and to establish the state of Washington state need grant program, thus assisting financially needy or disadvantaged students domiciled in Washington to obtain the opportunity of attending an accredited institution of higher education. State need grants under this chapter are available only to students who are resident students as defined in RCW 28B.15.012(2) (a) through (d). **28B.92.020 State need grant program—Findings—Intent.** (1) The legislature finds that the higher education coordinating board, in consultation with the higher education community, has completed a review of the state need grant program. It is the intent of the legislature to endorse the board's proposed changes to the state need grant program, including:

(a) Reaffirmation that the primary purpose of the state need grant program is to assist low-income, needy, and disadvantaged Washington residents attending institutions of higher education;

(b) A goal that the base state need grant amount over time be increased to be equivalent to the rate of tuition charged to resident undergraduate students attending Washington state public colleges and universities;

(c) State need grant recipients be required to contribute a portion of the total cost of their education through self-help;

(d) State need grant recipients be required to document their need for dependent care assistance after taking into account other public funds provided for like purposes; and

(e) Institutional aid administrators be allowed to determine whether a student eligible for a state need grant in a given academic year may remain eligible for the ensuing year if the student's family income increases by no more than a marginal amount except for funds provided through the educational assistance grant program for students with dependents.

(2) The legislature further finds that the higher education coordinating board, under its authority to implement the proposed changes in subsection (1) of this section, should do so in a timely manner.

(3) The legislature also finds that:

(a) In most circumstances, need grant eligibility should not extend beyond five years or one hundred twenty-five percent of the published length of the program in which the student is enrolled or the credit or clock-hour equivalent; and

(b) State financial aid programs should continue to adhere to the principle that funding follows resident students to their choice of institution of higher education. [2003 c 19 § 11; 1999 c 345 § 1. Formerly RCW 28B.10.801.]

**28B.92.030 Definitions.** As used in this chapter:

(1) "Board" means the higher education coordinating board.

(2) "Disadvantaged student" means a post high school student who by reason of adverse cultural, educational, environmental, experiential, familial or other circumstances is unable to qualify for enrollment as a full-time student in an institution of higher education, who would otherwise qualify as a needy student, and who is attending an institution of higher education under an established program designed to qualify the student for enrollment as a full-time student.

(3) "Financial aid" means loans and/or grants to needy students enrolled or accepted for enrollment as a student at institutions of higher education.

(4) "Institution" or "institutions of higher education" means:

(a) Any public university, college, community college, or technical college operated by the state of Washington or any political subdivision thereof; or

(b) Any other university, college, school, or institute in the state of Washington offering instruction beyond the high school level which is a member institution of an accrediting association recognized by rule of the board for the purposes of this section: PROVIDED, That any institution, branch, extension or facility operating within the state of Washington which is affiliated with an institution operating in another state must be a separately accredited member institution of any such accrediting association, or a branch of a member institution of an accrediting association recognized by rule of the board for purposes of this section, that is eligible for federal student financial aid assistance and has operated as a nonprofit college or university delivering on-site classroom instruction for a minimum of twenty consecutive years within the state of Washington, and has an annual enrollment of at least seven hundred full-time equivalent students: PROVIDED FURTHER, That no institution of higher education shall be eligible to participate in a student financial aid program unless it agrees to and complies with program rules and regulations adopted pursuant to RCW 28B.92.150.

(5) "Needy student" means a post high school student of an institution of higher education who demonstrates to the board the financial inability, either through the student's parents, family and/or personally, to meet the total cost of board, room, books, and tuition and incidental fees for any semester or quarter. "Needy student" also means an opportunity internship graduate as defined by RCW 28C.18.162 who enrolls in a postsecondary program of study as defined in RCW 28C.18.162 within one year of high school graduation.

(6) "Placebound student" means a student who (a) is unable to complete a college program because of family or employment commitments, health concerns, monetary inability, or other similar factors; and (b) may be influenced by the receipt of an enhanced student financial aid award to complete a baccalaureate degree at an eligible institution. (2) This section was amended by 2009 c 215 § 5 and by 2009 c 238 § 7, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

**Findings—Intent—2009 c 238:** See note following RCW 28C.18.160.

**Findings—Intent—2009 c 215:** "The legislature finds that a myriad of financial aid programs exist for students at the federal, state, local, community, and institutional levels. These programs enable thousands of students across Washington to access all sectors of higher education, from apprenticeship programs to public and private four and two-year institutions of higher education. The legislature further finds that Washington state is a national leader in the distribution of financial aid to increase college access and affordability, ranking fourth in the nation in 2007 in terms of state student grant aid funding per capita.

It is the intent of the legislature to promote and expand access to state financial aid programs by determining which programs provide the greatest value to the largest number of students, and by fully supporting those programs. Furthermore, it is the intent of the legislature to designate all existing

financial aid an opportunity pathway, with the effect of providing students with a clear understanding of available resources to pay for postsecondary education, thereby increasing access to postsecondary education and meeting the needs of local business and industry.

It is the intent of the legislature that the higher education coordinating board, the state board for community and technical colleges, the office of the superintendent of public instruction, the workforce training and education coordinating board, and institutions of higher education coordinate the development of outreach tools, such as a web-based portal for information on all opportunity pathway aid programs. The information should be communicated in a format and manner that provides an ease of understanding for students and their families and include other pertinent information on institutions of higher education, costs, and academic programs. It is also the intent of the legislature for institutions of higher education to incorporate this information in promotional materials to prospective and current students and their families." **28B.92.040 Board, guidelines in performance of duties.** The board shall be cognizant of the following guidelines in the performance of its duties:

(1) The board shall be research oriented, not only at its inception but continually through its existence.

(2) The board shall coordinate all existing programs of financial aid except those specifically dedicated to a particular institution by the donor.

(3) The board shall take the initiative and responsibility for coordinating all federal student financial aid programs to ensure that the state recognizes the maximum potential effect of these programs, and shall design state programs that complement existing federal, state, and institutional programs. The board shall ensure that state programs continue to follow the principle that state financial aid funding follows the student to the student's choice of institution of higher education.

(4) Counseling is a paramount function of the state need grant and other state student financial aid programs, and in most cases could only be properly implemented at the institutional levels; therefore, state student financial aid programs shall be concerned with the attainment of those goals which, in the judgment of the board, are the reasons for the existence of a student financial aid program, and not solely with administration of the program on an individual basis.

(5) The "package" approach of combining loans, grants and employment for student financial aid shall be the conceptual element of the state's involvement.

(6) The board shall ensure that allocations of state appropriations for financial aid are made to individuals and institutions in a timely manner and shall closely monitor expenditures to avoid under or overexpenditure of appropriated funds. [2004 c 275 § 36; 1999 c 345 § 3; 1995 c 269 § 801; 1969 ex.s. c 222 § 10. Formerly RCW 28B.10.804, 28.76.450.]

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28B.92.050 Powers and duties of board.** The board shall have the following powers and duties:

(1) Conduct a full analysis of student financial aid as a means of:

(a) Fulfilling educational aspirations of students of the state of Washington, and

(b) Improving the general, social, cultural, and economic character of the state.

Such an analysis will be a continuous one and will yield current information relevant to needed improvements in the state program of student financial aid. The board will disseminate the information yielded by their analyses to all appropriate individuals and agents.

(2) Design a state program of student financial aid based on the data of the study referred to in this section. The state programs will supplement available federal and local aid programs. The state programs of student financial aid will not exceed the difference between the budgetary costs of attending an institution of higher education and the student's total resources, including family support, personal savings, employment, and federal, state, and local aid programs.

(3) Determine and establish criteria for financial need of the individual applicant based upon the consideration of that particular applicant. In making this determination the board shall consider the following:

(a) Assets and income of the student.

(b) Assets and income of the parents, or the individuals legally responsible for the care and maintenance of the student.

(c) The cost of attending the institution the student is attending or planning to attend.

(d) Any other criteria deemed relevant to the board.

(4) Set the amount of financial aid to be awarded to any individual needy or disadvantaged student in any school year.

(5) Award financial aid to needy or disadvantaged students for a school year based upon only that amount necessary to fill the financial gap between the budgetary cost of attending an institution of higher education and the family and student contribution.

(6) Review the need and eligibility of all applications on an annual basis and adjust financial aid to reflect changes in the financial need of the recipients and the cost of attending the institution of higher education. [1999 c 345 § 4; 1989 c 254 § 3; 1969 ex.s. c 222 § 11. Formerly RCW 28B.10.806, 28.76.460.]

**Intent—1989 c 254:** See note following RCW 28B.92.030.

**28B.92.060 State need grant awards.** In awarding need grants, the board shall proceed substantially as follows: PROVIDED, That nothing contained herein shall be construed to prevent the board, in the exercise of its sound discretion, from following another procedure when the best interest of the program so dictates:

(1) The board shall annually select the financial aid award recipients from among Washington residents applying for student financial aid who have been ranked according to:

(a) Financial need as determined by the amount of the family contribution; and

(b) Other considerations, such as whether the student is a former foster youth, or is a placebound student who has com-

pleted an associate of arts or associate of science degree or its equivalent.

(2) The financial need of the highest ranked students shall be met by grants depending upon the evaluation of financial need until the total allocation has been disbursed. Funds from grants which are declined, forfeited or otherwise unused shall be reawarded until disbursed, except that eligible former foster youth shall be assured receipt of a grant.

(3) A student shall be eligible to receive a state need grant for up to five years, or the credit or clock hour equivalent of five years, or up to one hundred twenty-five percent of the published length of time of the student's program. A student may not start a new associate degree program as a state need grant recipient until at least five years have elapsed since earning an associate degree as a need grant recipient, except that a student may earn two associate degrees concurrently. Qualifications for renewal will include maintaining satisfactory academic progress toward completion of an eligible program as determined by the board. Should the recipient terminate his or her enrollment for any reason during the academic year, the unused portion of the grant shall be returned to the state educational grant fund by the institution according to the institution's own policy for issuing refunds, except as provided in RCW 28B.92.070.

(4) In computing financial need, the board shall determine a maximum student expense budget allowance, not to exceed an amount equal to the total maximum student expense budget at the public institutions plus the current average state appropriation per student for operating expense in the public institutions. Any child support payments received by students who are parents attending less than half-time shall not be used in computing financial need.

(5)(a) A student who is enrolled in three to six credit-bearing quarter credits, or the equivalent semester credits, may receive a grant for up to one academic year before beginning a program that leads to a degree or certificate.

(b) An eligible student enrolled on a less-than-full-time basis shall receive a prorated portion of his or her state need grant for any academic period in which he or she is enrolled on a less-than-full-time basis, as long as funds are available.

(c) An institution of higher education may award a state need grant to an eligible student enrolled in three to six credit-bearing quarter credits, or the semester equivalent, on a provisional basis if:

(i) The student has not previously received a state need grant from that institution;

(ii) The student completes the required free application for federal student aid;

(iii) The institution has reviewed the student's financial condition, and the financial condition of the student's family if the student is a dependent student, and has determined that the student is likely eligible for a state need grant; and

(iv) The student has signed a document attesting to the fact that the financial information provided on the free application for federal student aid and any additional financial information provided directly to the institution is accurate and complete, and that the student agrees to repay the institution for the grant amount if the student submitted false or incomplete information.

(6) As used in this section, "former foster youth" means a person who is at least eighteen years of age, but not more

than twenty-four years of age, who was a dependent of the department of social and health services at the time he or she attained the age of eighteen. **28B.95.010 Washington advanced college tuition payment program—Established.** The Washington advanced college tuition payment program is established to help make higher education affordable and accessible to all citizens of the state of Washington by offering a savings incentive that will protect purchasers and beneficiaries against rising tuition costs. The program is designed to encourage savings and enhance the ability of Washington citizens to obtain financial access to institutions of higher education. In addition, the program encourages elementary and

secondary school students to do well in school as a means of preparing for and aspiring to higher education attendance. This program is intended to promote a well-educated and financially secure population to the ultimate benefit of all citizens of the state of Washington. [1997 c 289 § 1.]

**28B.95.020 Definitions.** The definitions in this section apply throughout this chapter, unless the context clearly requires otherwise.

(1) "Academic year" means the regular nine-month, three-quarter, or two-semester period annually occurring between August 1st and July 31st.

(2) "Account" means the Washington advanced college tuition payment program account established for the deposit of all money received by the board from eligible purchasers and interest earnings on investments of funds in the account, as well as for all expenditures on behalf of eligible beneficiaries for the redemption of tuition units and for the development of any authorized college savings program pursuant to RCW 28B.95.150.

(3) "Board" means the higher education coordinating board as defined in chapter 28B.76 RCW.

(4) "Committee on advanced tuition payment" or "committee" means a committee of the following members: The state treasurer, the director of the office of financial management, the executive director of the higher education coordinating board, or their designees, and two members to be appointed by the governor, one representing program participants and one private business representative with marketing, public relations, or financial expertise.

(5) "Governing body" means the committee empowered by the legislature to administer the Washington advanced college tuition payment program.

(7) "Eligible beneficiary" means the person for whom the tuition unit will be redeemed for attendance at an institution of higher education. The beneficiary is that person named by the purchaser at the time that a tuition unit contract is accepted by the governing body. Qualified organizations, as allowed under section 529 of the federal internal revenue code, purchasing tuition unit contracts as future scholarships need not designate a beneficiary at the time of purchase.

(8) "Eligible purchaser" means an individual or organization that has entered into a tuition unit contract with the governing body for the purchase of tuition units for an eligible beneficiary. The state of Washington may be an eligible purchaser for purposes of purchasing tuition units to be held for granting Washington college bound scholarships.

(9) "Full-time tuition charges" means resident tuition charges at a state institution of higher education for enrollments between ten credits and eighteen credit hours per academic term.

For purposes of this chapter, services and activities fees do not include fees charged for the payment of bonds heretofore or hereafter issued for, or other indebtedness incurred to pay, all or part of the cost of acquiring, constructing, or installing any lands, buildings, or facilities.

(14) "Tuition unit contract" means a contract between an eligible purchaser and the governing body, or a successor agency appointed for administration of this chapter, for the purchase of tuition units for a specified beneficiary that may be redeemed at a later date for an equal number of tuition units.

(15) "Unit purchase price" means the minimum cost to purchase one tuition unit for an eligible beneficiary. Generally, the minimum purchase price is one percent of the undergraduate tuition and fees for the current year, rounded to the nearest whole dollar, adjusted for the costs of administration and adjusted to ensure the actuarial soundness of the account. The analysis for price setting shall also include, but not be limited to consideration of past and projected patterns of tuition increases, program liability, past and projected investment returns, and the need for a prudent stabilization reserve. [2007 c 405 § 8; 2005 c 272 § 1; 2004 c 275 § 59; 2001 c 184 § 1; 2000 c 14 § 1; 1997 c 289 § 2.]

**Part headings not law—2004 c 275:** See note following RCW 28B.76.030.

**28B.95.030 Administration of program—Tuition units—Promotion of program—Authority of governing body.** (1) The Washington advanced college tuition payment program shall be administered by the committee on advanced tuition payment which shall be chaired by the executive director of the board. The committee shall be supported by staff of the board.

(2)(a) The Washington advanced college tuition payment program shall consist of the sale of tuition units, which may be redeemed by the beneficiary at a future date for an equal number of tuition units regardless of any increase in the price of tuition, that may have occurred in the interval.

(b) Each purchase shall be worth a specific number of or fraction of tuition units at each state institution of higher education as determined by the governing body.

(c) The number of tuition units necessary to pay for a full year's, full-time undergraduate tuition and fee charges at a state institution of higher education shall be set by the governing body at the time a purchaser enters into a tuition unit contract.

(d) The governing body may limit the number of tuition units purchased by any one purchaser or on behalf of any one beneficiary, however, no limit may be imposed that is less than that necessary to achieve four years of full-time, undergraduate tuition charges at a state institution of higher education. The governing body also may, at its discretion, limit the number of participants, if needed, to ensure the actuarial soundness and integrity of the program.

(e) While the Washington advanced college tuition payment program is designed to help all citizens of the state of Washington, the governing body may determine residency requirements for eligible purchasers and eligible beneficiaries to ensure the actuarial soundness and integrity of the program.

(3)(a) No tuition unit may be redeemed until two years after the purchase of the unit. Units may be redeemed for enrollment at any institution of higher education that is recognized by the internal revenue service under chapter 529 of the internal revenue code.

(b) Units redeemed at a nonstate institution of higher education or for graduate enrollment shall be redeemed at the rate for state public institutions in effect at the time of redemption.

(4) The governing body shall determine the conditions under which the tuition benefit may be transferred to another family member. In permitting such transfers, the governing body may not allow the tuition benefit to be bought, sold, bartered, or otherwise exchanged for goods and services by either the beneficiary or the purchaser.

(5) The governing body shall administer the Washington advanced college tuition payment program in a manner reasonably designed to be actuarially sound, such that the assets of the trust will be sufficient to defray the obligations of the trust including the costs of administration. The governing body may, at its discretion, discount the minimum purchase price for certain kinds of purchases such as those from families with young children, as long as the actuarial soundness of the account is not jeopardized.

(6) The governing body shall annually determine current value of a tuition unit.

(7) The governing body shall promote, advertise, and publicize the Washington advanced college tuition payment program.

(8) In addition to any other powers conferred by this chapter, the governing body may:

(a) Impose reasonable limits on the number of tuition units or units that may be used in any one year;

**28B.95.035 Committee members—Liability.** No member of the committee is liable for the negligence, default, or failure of any other person or members of the committee to perform the duties of office and no member may be considered or held to be an insurer of the funds or assets of any of the advanced college tuition payment program. [1998 c 69 § 3.]

**28B.95.040 Purchase of tuition units by organizations—Rules—Scholarship fund.** The governing body may, at its discretion, allow an organization to purchase tuition units for future use as scholarships. Such organizations electing to purchase tuition units for this purpose must enter into a contract with the governing body which, at a minimum, ensures that the scholarship shall be freely given by the purchaser to a scholarship recipient. For such purchases, the purchaser need not name a beneficiary until four months before the date when the tuition units are first expected to be used.

The governing body shall formulate and adopt such rules as are necessary to determine which organizations may qualify to purchase tuition units for scholarships under this section. The governing body also may consider additional rules for the use of tuition units if purchased as scholarships.

The governing body may establish a scholarship fund with moneys from the Washington advanced college tuition payment program account. A scholarship fund established under this authority shall be administered by the higher education coordinating board and shall be provided to students who demonstrate financial need. Financial need is not a criterion that any other organization need consider when using tuition units as scholarships. The board also may establish its

own corporate-sponsored scholarship fund under this chapter. [1997 c 289 § 4.]

**28B.95.050 Contractual obligation—Legally binding—Use of state appropriations.** The Washington advanced college tuition payment program is an essential state governmental function. Contracts with eligible participants shall be contractual obligations legally binding on the state as set forth in this chapter. If, and only if, the moneys in the account are projected to be insufficient to cover the state's contracted expenses for a given biennium, then the legislature shall appropriate to the account the amount necessary to cover such expenses.

The tuition and fees charged by an eligible institution of higher education to an eligible beneficiary for a current enrollment shall be paid by the account to the extent the beneficiary has remaining unused tuition units for the appropriate school. [2000 c 14 § 4; 1997 c 289 § 5.]

**28B.95.060 Washington advanced college tuition payment program account.** (1) The Washington advanced college tuition payment program account is created in the custody of the state treasurer. The account shall be a discrete nontreasury account retaining its interest earnings in accordance with RCW 43.79A.040.

(2)(a) Except as provided in (b) of this subsection, the governing body shall deposit in the account all money received for the program. The account shall be self-sustaining and consist of payments received from purchasers of tuition units and funds received from other sources, public or private. With the exception of investment and operating costs associated with the investment of money by the investment board paid under RCW 43.33A.160 and 43.84.160, the account shall be credited with all investment income earned by the account. Disbursements from the account are exempt from appropriations and the allotment provisions of chapter 43.88 RCW. Money used for program administration is subject to the allotment of all expenditures. However, an appropriation is not required for such expenditures. Program administration shall include, but not be limited to: The salaries and expenses of the program personnel including lease payments, travel, and goods and services necessary for program operation; contracts for program promotion and advertisement, audits, and account management; and other general costs of conducting the business of the program.

(b) All money received by the program from the higher education coordinating board for the GET ready for math and science scholarship program shall be deposited in the GET ready for math and science scholarship account created in RCW 28B.105.110.

(3) The assets of the account may be spent without appropriation for the purpose of making payments to institutions of higher education on behalf of the qualified beneficiaries, making refunds, transfers, or direct payments upon the termination of the Washington advanced college tuition payment program. Disbursements from the account shall be made only on the authorization of the governing body.

(4) With regard to the assets of the account, the state acts in a fiduciary, not ownership, capacity. Therefore the assets of the program are not considered state money, common

(2010 Ed.)

cash, or revenue to the state. [2007 c 214 § 13; 2000 c 14 § 5; 1998 c 69 § 4; 1997 c 289 § 6.]

All investment and operating costs associated with the investment of money shall be paid pursuant to RCW 43.33A.160 and 43.84.160. With the exception of these expenses, the earnings from the investment of the money shall be retained by the account.

(2) All investments made by the investment board shall be made with the exercise of that degree of judgment and care pursuant to RCW 43.33A.140 and the investment policy established by the state investment board.

(4) The authority to establish all policies relating to the account, other than the investment policies as set forth in subsections (1) through (3) of this section, resides with the governing body. With the exception of expenses of the investment board set forth in subsection (1) of this section, disbursements from the account shall be made only on the authorization of the governing body, and money in the account may be spent only for the purposes of the program as specified in this chapter.

(5) The investment board shall routinely consult and communicate with the governing body on the investment policy, earnings of the trust, and related needs of the program. [2000 c 14 § 6; 1997 c 289 § 7.]

If funds are not sufficient to ensure the actuarial soundness of the account, the governing body shall adjust the price of subsequent tuition credit purchases to ensure its soundness.

If there are insufficient numbers of new purchases to ensure the actuarial soundness of the account, the governing body shall request such funds from the legislature as are required to ensure the integrity of the program. Funds may be appropriated directly to the account or appropriated under the condition that they be repaid at a later date. The repayment shall be made at such time that the account is again determined to be actuarially sound. [1997 c 289 § 8.]

**28B.95.090 Discontinuation of program—Use of units—Refunds.** (1) In the event that the state determines that the program is not financially feasible, or for any other reason, the state may declare the discontinuance of the program. At the time of such declaration, the governing body

will cease to accept any further tuition unit contracts or purchases.

(2) The remaining tuition units for all beneficiaries who have either enrolled in higher education or who are within four years of graduation from a secondary school shall be honored until such tuition units have been exhausted, or for ten fiscal years from the date that the program has been discontinued, whichever comes first. All other contract holders shall receive a refund equal to the value of the current tuition units in effect at the time that the program was declared discontinued.

(3) At the end of the ten-year period, any tuition units remaining unused by currently active beneficiaries enrolled in higher education shall be refunded at the value of the current tuition unit in effect at the end of that ten-year period.

(4) At the end of the ten-year period, all other funds remaining in the account not needed to make refunds or to pay for administrative costs shall be deposited to the state general fund.

(5) The governing body may make refunds under other exceptional circumstances as it deems fit, however, no tuition units may be honored after the end of the tenth fiscal year following the declaration of discontinuance of the program. [2005 c 272 § 3; 1997 c 289 § 9.]

(2) The governing body may seek the assistance of the state agencies named in subsection (1) of this section, private financial institutions, and any other qualified party with experience in the areas of accounting, actuary, risk management, or investment management to assist with preparing an accounting of the program and ensuring the fiscal soundness of the account.

(3) State agencies and public institutions of higher education shall fully cooperate with the governing body in matters relating to the program in order to ensure the solvency of the account and ability of the governing body to meet outstanding commitments. [2000 c 14 § 7; 1997 c 289 § 10.]

**28B.95.110 Refunds.** (1) The intent of the Washington advanced college tuition payment program is to redeem tuition units for attendance at an institution of higher education. Refunds shall be issued under specific conditions that may include the following:

(a) Certification that the beneficiary, who is eighteen years of age or older, will not attend an institution of higher education, will result in a refund not to exceed the current value, as determined by the governing body, in effect at the time of such certification minus a penalty at the rate established by the governing body. The refund shall be made no sooner than ninety days after such certification, less any administrative processing fees assessed by the governing body;

(b) If there is certification of the death or disability of the beneficiary, the refund shall be equal to one hundred percent

of any remaining unused tuition units at the current value, as determined by the governing body, at the time that such certification is submitted to the governing body, less any administrative processing fees assessed by the governing body;

(c) If there is certification by the student of graduation or program completion, the refund shall be as great as one hundred percent of any remaining unused tuition units at the current value, as determined by the governing body, at the time that such certification is submitted to the governing body, less any administrative processing fees assessed by the governing body. The governing body may, at its discretion, impose a penalty if needed to comply with federal tax rules;

(d) If there is certification of other tuition and fee scholarships, which will cover the cost of tuition for the eligible beneficiary. The refund shall be equal to one hundred percent of the current value of tuition units, as determined by the governing body, in effect at the time of the refund request, less any administrative processing fees assessed by the governing body. The refund under this subsection may not exceed the value of the scholarship;

(e) Incorrect or misleading information provided by the purchaser or beneficiaries may result in a refund of the purchaser's investment, less any administrative processing fees assessed by the governing body. The value of the refund will not exceed the actual dollar value of the purchaser's contributions; and

(f) The governing body may determine other circumstances qualifying for refunds of remaining unused tuition units and may determine the value of that refund.

(2) With the exception of subsection (1)(b), (e), and (f) of this section no refunds may be made before the units have been held for two years. [2005 c 272 § 4; 2001 c 184 § 3; 2000 c 14 § 8; 1997 c 289 § 12.]

**Effective date—2001 c 184 § 3:** "Section 3 of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2001." [2001 c 184 § 5.]

**28B.95.120 Tuition units exempt from bankruptcy and enforcement of judgments.** In regard to bankruptcy filings and enforcement of judgments under Title 6 RCW, tuition units purchased more than two years prior to the date of filing or judgment will be considered excluded personal assets. [2005 c 272 § 5.]

**28B.95.150 College savings program.** (1) The committee may establish a college savings program. If such a program is established, the college savings program shall be established, in such form as may be determined by the committee, to be a qualified state tuition program as defined by the internal revenue service under section 529 of the internal revenue code, and shall be administered in a manner consistent with the Washington advanced college tuition payment program. The committee, in planning and devising the program, shall consult with the state investment board, the state treasurer, a qualified actuarial consulting firm with appropriate expertise to evaluate such plans, the legislative fiscal and higher education committees, and the institutions of higher education.

(2) Up to two hundred thousand dollars of administrative fees collected from guaranteed education tuition program

participants may be applied as a loan to fund the development of a college savings program. This loan must be repaid with interest before the conclusion of the biennium in which the committee draws funds for this purpose from the advanced college tuition payment program account.

(3) If such a college savings program is established, the college savings program account is created in the custody of the state treasurer for the purpose of administering the college savings program. If created, the account shall be a discrete nontreasury account in the custody of the state treasurer. Interest earnings shall be retained in accordance with RCW 43.79A.040. Disbursements from the account, except for program administration, are exempt from appropriations and the allotment provisions of chapter 43.88 RCW. Money used for program administration is subject to the allotment provisions, but without appropriation.

(4) The committee, after consultation with the state investment board, shall determine the investment policies for the college savings program. Program contributions may be invested by the state investment board or the committee may contract with an investment company licensed to conduct business in this state to do the investing. The committee shall keep or cause to be kept full and adequate accounts and records of the assets of each individual participant in the college savings program.

(5) Neither the state nor any eligible educational institution may be considered or held to be an insurer of the funds or assets of the individual participant accounts in the college savings program created under this section nor may any such entity be held liable for any shortage of funds in the event that balances in the individual participant accounts are insufficient to meet the educational expenses of the institution chosen by the student for which the individual participant account was intended.

(6) The committee shall adopt rules to implement this section. Such rules shall include but not be limited to administration, investment management, promotion, and marketing; compliance with internal revenue service standards; application procedures and fees; start-up costs; phasing in the savings program and withdrawals therefrom; deterrents to early withdrawals and provisions for hardship withdrawals; and reenrollment in the savings program after withdrawal.

(7) The committee may, at its discretion, determine to cease operation of the college savings program if it determines the continuation is not in the best interest of the state. The committee shall adopt rules to implement this section addressing the orderly distribution of assets. [2001 c 184 § 2.]

**28B.95.160 GET ready for math and science scholarship program—Tuition units—Ownership and redemption.** Ownership of tuition units purchased by the higher education coordinating board for the GET ready for math and science scholarship program under RCW 28B.105.070 shall be in the name of the state of Washington and may be redeemed by the state of Washington on behalf of recipients of GET ready for math and science scholarship program scholarships for tuition and fees. [2007 c 214 § 12.]

(2010 Ed.)

**28B.95.900 Construction of chapter—Limitations.**

This chapter shall not be construed as a promise that any beneficiary shall be granted admission to any institution of higher education, will earn any specific or minimum number of academic credits, or will graduate from any such institution. In addition, this chapter shall not be construed as a promise of either course or program availability.

Participation in this program does not guarantee an eligible beneficiary the right to resident tuition and fees. To qualify for resident and respective tuition subsidies, the eligible beneficiary must meet the applicable provisions of RCW 28B.15.011 through 28B.15.015.

This chapter shall not be construed to imply that the redemption of tuition units shall be equal to any value greater than the undergraduate tuition and services and activities fees at a state institution of higher education as computed under this chapter. Eligible beneficiaries will be responsible for payment of any other fee that does not qualify as a services and activities fee including, but not limited to, any expenses for tuition surcharges, tuition overload fees, laboratory fees, equipment fees, book fees, rental fees, room and board charges, or fines. The ratio of loan repayment to years of teaching service for the loan repayment program shall be the same as established for the conditional scholarship program.

(2) The agreement shall specify the period of time it is in effect and detail the obligations of the board and the participant, including the amount to be paid to the participant. (2) The interest rate shall be determined annually by the board. Participants who fail to complete the teaching service shall incur an equalization fee based on the remaining unforgiven balance of the loan. The equalization fee shall be added to the remaining balance and repaid by the participant.

(3) The minimum payment shall be set by the board. The maximum period for repayment shall be ten years, with payments of principal and interest accruing quarterly commencing six months from the date the participant completes or discontinues the course of study. Provisions for deferral of payment shall be determined by the board.

(4) The entire principal and interest of each payment shall be forgiven for each payment period in which the participant teaches in an approved education program until the entire repayment obligation is satisfied. The board shall maintain accurate records of these costs, and all receipts beyond those necessary to pay such costs shall be used to grant conditional scholarships to eligible students.

(7) The board shall adopt rules to define the terms of repayment, including applicable interest rates, fees, and

deferments. [2004 c 58 § 7; 1996 c 53 § 2; 1993 c 423 § 1; 1991 c 164 § 6; 1987 c 437 § 6.]

The legislature is greatly concerned about the ever-increasing costs of obtaining higher education. The purpose of this chapter is to assist Washington residents in their quest for higher education and to encourage financial planning to meet higher education costs by creating a college savings bond program. [1988 c 125 § 8.]

**28B.106.010 Definitions.** The following definitions shall apply throughout this chapter, unless the context clearly indicates otherwise:

If, and to the extent that the state finance committee determines it is economically feasible and in the best interest of the state, the bonds shall be sold at a deep discount from their par value.

28B.108.005	Findings.
28B.108.010	Definitions.

The legislature finds that American Indian students are underrepresented in Washington's colleges and universities. The legislature also finds that past discriminatory practices have resulted in this underrepresentation. Creating an endowed scholarship program to help American Indian students obtain a higher education will help to rectify past discrimination by providing a means and an incentive for American Indian students to pursue a higher education. The state will benefit from contributions made by American Indians who participate in a program of higher education. [1990 c 287 § 1.]

**28B.108.010 Definitions.** Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

**28B.108.040 Award of scholarships—Amount—Duration.** The board may award scholarships to eligible students from moneys earned from the endowment fund created in RCW 28B.108.060, or from funds appropriated to the board for this purpose, or from any private donations, or from any other funds given to the board for this program. For an undergraduate student, the amount of the scholarship shall not exceed the student's demonstrated financial need. For a graduate student, the amount of the scholarship shall not exceed the student's demonstrated need; or the stipend of a teaching assistant, including tuition, at the University of Washington; whichever is higher. The higher education coordinating board shall then release the moneys to the donors according to the terms of the conditional gift.

(4) The principal of the endowment fund shall not be invaded. The release of moneys under subsection (3) of this section shall not constitute an invasion of corpus.

(5) The earnings on the fund shall be used solely for the purposes set forth in RCW 28B.108.040, except when the terms of a conditional gift of private moneys in the fund require that a portion of earnings on such moneys be reinvested in the fund. [2009 c 259 § 2; 2007 c 73 § 2; 1993 c 372 § 1; 1991 sp.s. c 13 § 110; 1990 c 287 § 7.]

**28B.115.010 Legislative findings.** The legislature finds that changes in demographics, the delivery of health care services, and an escalation in the cost of educating health professionals has resulted in shortages of health professionals. A poor distribution of health care professionals has resulted in a surplus of some professionals in some areas of the state and a shortage of others in other parts of the state such as in the more rural areas. The high cost of health pro-

professional education requires that health care practitioners command higher incomes to repay the financial obligations incurred to obtain the required training. Health professional shortage areas are often areas that have troubled economies and lower per capita incomes. These areas often require more services because the health care needs are greater due to poverty or because the areas are difficult to service due to geographic circumstances. The salary potentials for shortage areas are often not as favorable when compared to nonshortage areas and practitioners are unable to serve. The legislature further finds that encouraging health professionals to serve in shortage areas is essential to assure continued access to health care for persons living in these parts of the state. **28B.115.030 Program established—Duties of board.**

The health professional loan repayment and scholarship program is established for credentialed health professionals serving in health professional shortage areas. The program shall be administered by the higher education coordinating board. In administering this program, the board shall:

(1) Select credentialed health care professionals to participate in the loan repayment portion of the loan repayment and scholarship program and select eligible students to participate in the scholarship portion of the loan repayment and scholarship program;

(2) Adopt rules and develop guidelines to administer the program;

(3) Collect and manage repayments from participants who do not meet their service obligations under this chapter;

(4) Publicize the program, particularly to maximize participation among individuals in shortage areas and among populations expected to experience the greatest growth in the workforce;

(5) Solicit and accept grants and donations from public and private sources for the program; and

(6) Develop criteria for a contract for service in lieu of the service obligation where appropriate, that may be a combination of service and payment. [1991 c 332 § 16; 1989 1st ex.s. c 9 § 718. Formerly RCW 18.150.030.]

**28B.115.040 Technical assistance for rural communities.** The department may provide technical assistance to rural communities desiring to become sponsoring communities for the purposes of identification of prospective students for the program, assisting prospective students to apply to an eligible education and training program, making formal agreements with prospective students to provide credentialed health care services in the community, forming agreements between rural communities in a service area to share credentialed health care professionals, and fulfilling any matching requirements. [1991 c 332 § 17.]

**28B.115.050 Planning committee—Criteria for selecting participants.** The board shall establish a planning committee to assist it in developing criteria for the selection of participants. The board shall include on the planning committee representatives of the department, the department of social and health services, appropriate representatives from health care facilities, provider groups, consumers, the state board for community and technical colleges, the superintendent of public instruction, and other appropriate public and private agencies and organizations. The criteria may require that some of the participants meet the definition of "needy student" under RCW 28B.92.030. [2004 c 275 § 70; 1991 c 332 § 18; 1989 1st ex.s. c 9 § 719. In determining scholarship awards for prospective physicians, the selection criteria shall include requirements that recipients declare an interest in serving in rural areas of the state of Washington. Preference for scholarships shall be given to students who reside in a rural physician shortage area or a nonshortage rural area of the state prior to admission to the eligible education and training program in medicine. Highest preference shall be given to students seeking admission who are recommended by sponsoring communities and who declare the intent of serving as a physician in a rural area. **Reviser's note:** \*(1) Chapters 18.78 and 18.88 RCW were repealed by 1994 sp.s. c 9 § 433, effective July 1, 1994.

\*\* (2) Chapter 18.150 RCW was recodified as chapter 28B.115 RCW by 1991 c 332 § 36.

\*\*\* (3) Chapter 28B.104 RCW was repealed by 1991 sp.s. c 27 § 2.

**28B.115.070 Eligible credentialed health care professions—Health professional shortage areas.** After June 1, 1992, the department, in consultation with the board and the department of social and health services, shall:

(1) Determine eligible credentialed health care professions for the purposes of the loan repayment and scholarship

program authorized by this chapter. Eligibility shall be based upon an assessment that determines that there is a shortage or insufficient availability of a credentialed profession so as to jeopardize patient care and pose a threat to the public health and safety. The department shall consider the relative degree of shortages among professions when determining eligibility. The department may add or remove professions from eligibility based upon the determination that a profession is no longer in shortage. Should a profession no longer be eligible, participants or eligible students who have received scholarships shall be eligible to continue to receive scholarships or loan repayments until they are no longer eligible or until their service obligation has been completed;

(2) Determine health professional shortage areas for each of the eligible credentialed health care professions. [2003 c 278 § 3; 1991 c 332 § 20.]

**Findings—2003 c 278:** See note following RCW 28C.18.120.

**28B.115.080 Annual award amount—Scholarship preferences—Required service obligations.** After June 1, 1992, the board, in consultation with the department and the department of social and health services, shall:

(1) Establish the annual award amount for each credentialed health care profession which shall be based upon an assessment of reasonable annual eligible expenses involved in training and education for each credentialed health care profession. The annual award amount may be established at a level less than annual eligible expenses. The annual award amount shall be established by the board for each eligible health profession. The awards shall not be paid for more than a maximum of five years per individual;

(2) Determine any scholarship awards for prospective physicians in such a manner to require the recipients declare an interest in serving in rural areas of the state of Washington. Preference for scholarships shall be given to students who reside in a rural physician shortage area or a nonshortage rural area of the state prior to admission to the eligible education and training program in medicine. Highest preference shall be given to students seeking admission who are recommended by sponsoring communities and who declare the intent of serving as a physician in a rural area. The board may require the sponsoring community located in a nonshortage rural area to financially contribute to the eligible expenses of a medical student if the student will serve in the nonshortage rural area;

(3) Establish the required service obligation for each credentialed health care profession, which shall be no less than three years or no more than five years. The required service obligation may be based upon the amount of the scholarship or loan repayment award such that higher awards involve longer service obligations on behalf of the participant;

(4) Determine eligible education and training programs for purposes of the scholarship portion of the program;

(5) Honor loan repayment and scholarship contract terms negotiated between the board and participants prior to May 21, 1991, concerning loan repayment and scholarship award amounts and service obligations authorized under chapter 28B.115, \*28B.104, or 70.180 RCW. [1993 c 492 § 271; 1991 c 332 § 21.]

\*Reviser's note: Chapter 28B.104 RCW was repealed by 1991 sp.s. c 27 § 2.

**Finding—1993 c 492:** "The legislature finds that the successful implementation of health care reform will depend on a sufficient supply of primary health care providers throughout the state. Many rural and medically underserved urban areas lack primary health care providers and because of this, basic health care services are limited or unavailable to populations living in these areas. The legislature has in recent years initiated new programs to address these provider shortages but funding has been insufficient and additional specific provider shortages remain." [1993 c 492 § 269.]

**Findings—Intent—1993 c 492:** See notes following RCW 43.20.050. Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28B.115.090 Loan repayment and scholarship awards.** (1) The board may grant loan repayment and scholarship awards to eligible participants from the funds appropriated for this purpose, or from any private or public funds given to the board for this purpose. Participants are ineligible to receive loan repayment if they have received a scholarship from programs authorized under this chapter or chapter 70.180 RCW or are ineligible to receive a scholarship if they have received loan repayment authorized under this chapter or chapter 28B.115 RCW.

(2) Funds appropriated for the program, including reasonable administrative costs, may be used by the board for the purposes of loan repayments or scholarships. The board shall annually establish the total amount of funding to be awarded for loan repayments and scholarships and such allocations shall be established based upon the best utilization of funding for that year.

(3) One portion of the funding appropriated for the program shall be used by the board as a recruitment incentive for communities participating in the community-based recruitment and retention program as authorized by chapter 70.185 RCW; one portion of the funding shall be used by the board as a recruitment incentive for recruitment activities in state-operated institutions, county public health departments and districts, county human service agencies, federal and state contracted community health clinics, and other health care facilities, such as rural hospitals that have been identified by the department, as providing substantial amounts of charity care or publicly subsidized health care; one portion of the funding shall be used by the board for all other awards. The board shall determine the amount of total funding to be distributed between the three portions. [2003 c 278 § 4; 1991 c 332 § 22; 1989 1st ex.s. c 9 § 720. Formerly RCW 18.150.050.]

**Findings—2003 c 278:** See note following RCW 28C.18.120.

**28B.115.100 Discrimination by participants prohibited—Violation.** In providing health care services the participant shall not discriminate against a person on the basis of the person's ability to pay for such services or because payment for the health care services provided to such persons will be made under the insurance program established under part A or B of Title XVIII of the federal social security act or under a state plan for medical assistance including Title XIX of the federal social security act or under the state medical assistance program authorized by chapter 74.09 RCW and agrees to accept assignment under section 18.42(b)(3)(B)(ii) of the federal social security act for all services for which payment may be made under part B of Title XVIII of the federal social security act and enters into an appropriate agreement with the department of social and health services for

medical assistance under Title XIX of the federal social security act to provide services to individuals entitled to medical assistance under the plan and enters into appropriate agreements with the department of social and health services for medical care services under chapter 74.09 RCW. Participants found by the board or the department in violation of this section shall be declared ineligible for receiving assistance under the program authorized by this chapter. [1991 c 332 § 23.]

**28B.115.110 Participant obligation—Repayment obligation.** Participants in the health professional loan repayment and scholarship program who are awarded loan repayments shall receive payment from the program for the purpose of repaying educational loans secured while attending a program of health professional training which led to a credential as a credentialed health professional in the state of Washington.

(1) Participants shall agree to meet the required service obligation in a designated health professional shortage area.

(2) Repayment shall be limited to eligible educational and living expenses as determined by the board and shall include principal and interest.

(3) Loans from both government and private sources may be repaid by the program. Participants shall agree to allow the board access to loan records and to acquire information from lenders necessary to verify eligibility and to determine payments. Loans may not be renegotiated with lenders to accelerate repayment.

(4) Repayment of loans established pursuant to this program shall begin no later than ninety days after the individual has become a participant. Payments shall be made quarterly, or more frequently if deemed appropriate by the board, to the participant until the loan is repaid or the participant becomes ineligible due to discontinued service in a health professional shortage area or after the required service obligation when eligibility discontinues, whichever comes first.

(5) Should the participant discontinue service in a health professional shortage area payments against the loans of the participants shall cease to be effective on the date that the participant discontinues service.

(6) Except for circumstances beyond their control, participants who serve less than the required service obligation shall be obligated to repay to the program an amount equal to twice the total amount paid by the program on their behalf in addition to any payments on the unsatisfied portion of the principal and interest. The board shall determine the applicability of this subsection.

(7) The board is responsible for the collection of payments made on behalf of participants from the participants who discontinue service before completion of the required service obligation. The board shall exercise due diligence in such collection, maintaining all necessary records to ensure that the maximum amount of payment made on behalf of the participant is recovered. Collection under this section shall be pursued using the full extent of the law, including wage garnishment if necessary.

(8) The board shall not be held responsible for any outstanding payments on principal and interest to any lenders once a participant's eligibility expires.

(9) The board shall temporarily or, in special circumstances, permanently defer the requirements of this section

for eligible students as defined in RCW 28B.10.017. [1991 c 332 § 24; 1991 c 164 § 8; 1989 1st ex.s. c 9 § 721. Formerly RCW 18.150.060.]

**Reviser's note:** This section was amended by 1991 c 164 § 8 and by 1991 c 332 § 24, each without reference to the other. Both amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

**28B.115.120 Participant obligation—Scholarships.**

(1) Participants in the health professional loan repayment and scholarship program who are awarded scholarships incur an obligation to repay the scholarship, with interest, unless they serve the required service obligation in a health professional shortage area in the state of Washington.

(2) The interest rate shall be eight percent for the first four years of repayment and ten percent beginning with the fifth year of repayment.

(3) The period for repayment shall coincide with the required service obligation, with payments of principal and interest accruing quarterly commencing no later than nine months from the date the participant completes or discontinues the course of study or completes or discontinues the required residency. Provisions for deferral of payment shall be determined by the board.

(4) The entire principal and interest of each payment shall be forgiven for each payment period in which the participant serves in a health professional shortage area until the entire repayment obligation is satisfied or the borrower ceases to so serve. Should the participant cease to serve in a health professional shortage area of this state before the participant's repayment obligation is completed, payments on the unsatisfied portion of the principal and interest shall begin the next payment period and continue until the remainder of the participant's repayment obligation is satisfied. Except for circumstances beyond their control, participants who serve less than the required service obligation shall be obliged to repay to the program an amount equal to twice the total amount paid by the program on their behalf.

(5) The board is responsible for collection of repayments made under this section and shall exercise due diligence in such collection, maintaining all necessary records to ensure that maximum repayments are made. Collection and servicing of repayments under this section shall be pursued using the full extent of the law, including wage garnishment if necessary, and shall be performed by entities approved for such servicing by the Washington student loan guaranty association or its successor agency. The board is responsible to forgive all or parts of such repayments under the criteria established in this section and shall maintain all necessary records of forgiven payments.

(6) Receipts from the payment of principal or interest or any other subsidies to which the board as administrator is entitled, which are paid by or on behalf of participants under this section, shall be deposited with the board and shall be used to cover the costs of granting the scholarships, maintaining necessary records, and making collections under subsection (5) of this section. The board shall maintain accurate records of these costs, and all receipts beyond those necessary to pay such costs shall be used to grant scholarships to eligible students.

(7) Sponsoring communities who financially contribute to the eligible financial expenses of eligible medical students may enter into agreements with the student to require repayment should the student not serve the required service obligation in the community as a primary care physician. The board may develop criteria for the content of such agreements with respect to reasonable provisions and obligations between communities and eligible students.

(8) The board may make exceptions to the conditions for participation and repayment obligations should circumstances beyond the control of individual participants warrant such exceptions. [1993 c 423 § 2; 1991 c 332 § 25.]

**28B.115.130 Health professional loan repayment and scholarship program fund.** (1) Any funds appropriated by the legislature for the health professional loan repayment and scholarship program or any other public or private funds intended for loan repayments or scholarships under this program shall be placed in the account created by this section.

(2) The health professional loan repayment and scholarship program fund is created in custody of the state treasurer. All receipts from the program shall be deposited into the fund. Only the higher education coordinating board, or its designee, may authorize expenditures from the fund. The fund is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures. [1991 c 332 § 28.]

**28B.115.140 Transfer of program administration.** After consulting with the higher education coordinating board, the governor may transfer the administration of this program to another agency with an appropriate mission. [1989 1st ex.s. c 9 § 722. Formerly RCW 18.150.070.]

**28B.116.005 Findings.** The legislature finds that children who grow up in the foster care system face many financial challenges. The legislature also finds that these financial

challenges can discourage or prevent these children from pursuing a higher education. The legislature further finds that access to a higher education will give children who are in foster care hope for the future. Moreover, the legislature finds that financial assistance will help these children become successful, productive, contributing citizens and avoid cycles of abuse, poverty, violence, and delinquency. [2005 c 215 § 1.]

(5) The principal of the foster care scholarship endowment fund shall not be invaded. For the purposes of this section, only the first twenty-five thousand dollars deposited into the foster care scholarship endowment fund shall be considered the principal. The release of moneys under subsection (4) of this section shall not constitute an invasion of the corpus.

(6) The foster care scholarship endowment fund shall be used solely for the purposes in this chapter, except when the conditional gift of private moneys in the endowment fund require a portion of the earnings on such moneys be reinvested in the endowment fund. [2007 c 73 § 3; 2005 c 215 § 7.]

**28B.117.005 Findings—Intent. (Expires June 30, 2013.)** (1)(a) The legislature finds that in Washington, there are more than seven thousand three hundred children in foster family or group care. These children face unique obstacles

and burdens as they transition to adulthood, including lacking continuity in their elementary and high school educations. As compared to the general population of students, twice as many foster care youth change schools at least once during their elementary and secondary school careers, and three times as many change schools at least three times. Only thirty-four percent of foster care youth graduate from high school within four years, compared to seventy percent for the general population. Of the former foster care youth who earn a high school diploma, more than twenty-eight percent earn a GED instead of a traditional high school diploma. This is almost six times the rate of the general population. Research indicates that GED holders tend not to be as economically successful as the holders of traditional high school diplomas. Only twenty percent of former foster care youth who earn a high school degree enroll in college, compared to over sixty percent of the population generally. Of the former foster care youth who do enroll in college, very few go on to earn a degree. Less than two percent of former foster care youth hold bachelor's degrees, compared to twenty-eight percent of Washington's population generally.

(b) Former foster care youth face two critical hurdles to enrolling in college. The first is a lack of information regarding preparation for higher education and their options for enrolling in higher education. The second is finding the financial resources to fund their education. As a result of the unique hurdles and challenges that face former foster care youth, a disproportionate number of them are part of society's large group of marginalized youth and are at increased risk of continuing the cycle of poverty and violence that frequently plagues their families.

(c) Former foster care youth suffer from mental health problems at a rate greater than that of the general population. For example, one in four former foster care youth report having suffered from posttraumatic stress disorder within the previous twelve months, compared to only four percent of the general population. Similarly, the incidence of major depression among former foster care youth is twice that of the general population, twenty percent versus ten percent.

(d) There are other barriers for former foster care youth to achieving successful adulthood. One-third of former foster care youth live in households that are at or below the poverty level. This is three times the rate for the general population. The percentage of former foster care youth who report being homeless within one year of leaving foster care varies from over ten percent to almost twenty-five percent. By comparison, only one percent of the general population reports having been homeless at sometime during the past year. One in three former foster care youth lack health insurance, compared to less than one in five people in the general population. One in six former foster care youth receive cash public assistance. This is five times the rate of the general population.

(e) Approximately twenty-five percent of former foster care youth are incarcerated at sometime after leaving foster care. This is four times the rate of incarceration for the general population. Of the former foster care youth who "age out" of foster care, twenty-seven percent of the males and ten percent of the females are incarcerated within twelve to eighteen months of leaving foster care.

(f) Female former foster care youth become sexually active more than seven months earlier than their nonfoster

care counterparts, have more sexual partners, and have a mean age of first pregnancy of almost two years earlier than their peers who were not in foster care.

(2) The legislature intends to create the passport to college promise pilot program. The pilot program will initially operate for a six-year period, and will have two primary components, as follows:

(a) Significantly increasing outreach to foster care youth between the ages of fourteen and eighteen regarding the higher education opportunities available to them, how to apply to college, and how to apply for and obtain financial aid; and

(b) Providing financial aid to former foster care youth to assist with the costs of their public undergraduate college education. [2007 c 314 § 1.]

**28B.117.010 Program created—Purpose. (Expires June 30, 2013.)** The passport to college promise pilot program is created. The purpose of the program is:

(1) To encourage current and former foster care youth to prepare for, attend, and successfully complete higher education; and

(2) To provide current and former foster care youth with the educational planning, information, institutional support, and direct financial resources necessary for them to succeed in higher education. [2007 c 314 § 3.]

**28B.117.020 Definitions. (Expires June 30, 2013.)** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Cost of attendance" means the cost associated with attending a particular institution of higher education as determined by the higher education coordinating board, including but not limited to tuition, fees, room, board, books, personal expenses, and transportation, plus the cost of reasonable additional expenses incurred by an eligible student and approved by a financial aid administrator at the student's school of attendance.

(2) "Emancipated from foster care" means a person who was a dependent of the state in accordance with chapter 13.34 RCW and who was receiving foster care in the state of Washington when he or she reached his or her eighteenth birthday.

(3) "Financial need" means the difference between a student's cost of attendance and the student's total family contribution as determined by the method prescribed by the United States department of education.

(4) "Independent college or university" means a private, nonprofit institution of higher education, open to residents of the state, providing programs of education beyond the high school level leading to at least the baccalaureate degree, and accredited by the Northwest association of schools and colleges, and other institutions as may be developed that are approved by the higher education coordinating board as meeting equivalent standards as those institutions accredited under this section.

(5) "Institution of higher education" means:

(a) Any public university, college, community college, or technical college operated by the state of Washington or any political subdivision thereof; or

(b) Any independent college or university in Washington; or

(c) Any other university, college, school, or institute in the state of Washington offering instruction beyond the high school level that is a member institution of an accrediting association recognized by rule of the higher education coordinating board for the purposes of this section: PROVIDED, That any institution, branch, extension, or facility operating within the state of Washington that is affiliated with an institution operating in another state must be a separately accredited member institution of any such accrediting association, or a branch of a member institution of an accrediting association recognized by rule of the board for purposes of this section, that is eligible for federal student financial aid assistance and has operated as a nonprofit college or university delivering on-site classroom instruction for a minimum of twenty consecutive years within the state of Washington, and has an annual enrollment of at least seven hundred full-time equivalent students.

(6) "Program" means the passport to college promise pilot program created in this chapter. [2007 c 314 § 2.]

**28B.117.030 Program design and implementation—Student eligibility—Scholarships. (Expires June 30, 2013.)**

(1) The higher education coordinating board shall design and, to the extent funds are appropriated for this purpose, implement, a program of supplemental scholarship and student assistance for students who have emancipated from the state foster care system after having spent at least one year in care.

(2) The board shall convene and consult with an advisory committee to assist with program design and implementation. The committee shall include but not be limited to former foster care youth and their advocates; representatives from the state board for community and technical colleges, and from public and private agencies that assist current and former foster care recipients in their transition to adulthood; and student support specialists from public and private colleges and universities.

(3) To the extent that sufficient funds have been appropriated for this purpose, a student is eligible for assistance under this section if he or she:

(a) Emancipated from foster care on or after January 1, 2007, after having spent at least one year in foster care subsequent to his or her sixteenth birthday;

(b) Is a resident student, as defined in RCW 28B.15.012(2);

(c) Is enrolled with or will enroll on at least a half-time basis with an institution of higher education in Washington state by the age of twenty-one;

(d) Is making satisfactory academic progress toward the completion of a degree or certificate program, if receiving supplemental scholarship assistance;

(e) Has not earned a bachelor's or professional degree; and

(f) Is not pursuing a degree in theology.

(4) A passport to college scholarship under this section:

(a) Shall not exceed resident undergraduate tuition and fees at the highest-priced public institution of higher education in the state; and

(b) Shall not exceed the student's financial need, less a reasonable self-help amount defined by the board, when combined with all other public and private grant, scholarship, and waiver assistance the student receives.

(5) An eligible student may receive a passport to college scholarship under this section for a maximum of five years after the student first enrolls with an institution of higher education or until the student turns age twenty-six, whichever occurs first. If a student turns age twenty-six during an academic year, and would otherwise be eligible for a scholarship under this section, the student shall continue to be eligible for a scholarship for the remainder of the academic year.

(6) The higher education coordinating board, in consultation with and with assistance from the state board for community and technical colleges, shall perform an annual analysis to verify that those institutions of higher education at which students have received a scholarship under this section have awarded the student all available need-based and merit-based grant and scholarship aid for which the student qualifies.

(7) In designing and implementing the passport to college student support program under this section, the board, in consultation with and with assistance from the state board for community and technical colleges, shall ensure that a participating college or university:

(a) Has a viable plan for identifying students eligible for assistance under this section, for tracking and enhancing their academic progress, for addressing their unique needs for assistance during school vacations and academic interims, and for linking them to appropriate sources of assistance in their transition to adulthood;

(b) Receives financial and other incentives for achieving measurable progress in the recruitment, retention, and graduation of eligible students. [2007 c 314 § 4.]

**28B.117.040 Identification of eligible students and applicants—Duties of institutions of higher education—Duties of the department of social and health services. (Expires June 30, 2013.)**

Effective operation of the passport to college promise pilot program requires early and accurate identification of former foster care youth so that they can be linked to the financial and other assistance that will help them succeed in college. To that end:

(1) All institutions of higher education that receive funding for student support services under RCW 28B.117.030 shall include on their applications for admission or on their registration materials a question asking whether the applicant has been in foster care in Washington state for at least one year since his or her sixteenth birthday. All other institutions of higher education are strongly encouraged to include such a question. No institution may consider whether an applicant may be eligible for a scholarship or student support services under this chapter when deciding whether the applicant will be granted admission.

(2) The department of social and health services shall devise and implement procedures for efficiently, promptly, and accurately identifying students and applicants who are eligible for services under RCW 28B.117.030, and for sharing that information with the higher education coordinating board and with institutions of higher education. The proce-

dures shall include appropriate safeguards for consent by the applicant or student before disclosure. [2007 c 314 § 5.]

**28B.117.050 Internet web site and outreach program. (Expires June 30, 2013.)** (1) To the extent funds are appropriated for this purpose, the higher education coordinating board, with input from the state board for community and technical colleges, the foster care partnership, and institutions of higher education, shall develop and maintain an internet web site and outreach program to serve as a comprehensive portal for foster care youth in Washington state to obtain information regarding higher education including, but not necessarily limited to:

(a) Academic, social, family, financial, and logistical information important to successful postsecondary educational success;

(b) How and when to obtain and complete college applications;

(c) What college placement tests, if any, are generally required for admission to college and when and how to register for such tests;

(d) How and when to obtain and complete a federal free application for federal student aid (FAFSA); and

(e) Detailed sources of financial aid likely available to eligible former foster care youth, including the financial aid provided by this chapter.

(2) The board shall determine whether to design, build, and operate such program and web site directly or to use, support, and modify existing web sites created by government or nongovernmental entities for a similar purpose. [2007 c 314 § 6.]

**28B.117.060 Program of supplemental educational transition planning for youth in foster care—Contract with nongovernmental entity. (Expires June 30, 2013.)**

(1) To the extent funds are appropriated for this purpose, the department of social and health services, with input from the state board for community and technical colleges, the higher education coordinating board, and institutions of higher education, shall contract with at least one nongovernmental entity through a request for proposals process to develop, implement, and administer a program of supplemental educational transition planning for youth in foster care in Washington state.

(2) The nongovernmental entity or entities chosen by the department shall have demonstrated success in working with foster care youth and assisting foster care youth in successfully making the transition from foster care to independent adulthood.

(3) The selected nongovernmental entity or entities shall provide supplemental educational transition planning to foster care youth in Washington state beginning at age fourteen and then at least every six months thereafter. The supplemental transition planning shall include:

(a) Comprehensive information regarding postsecondary educational opportunities including, but not limited to, sources of financial aid, institutional characteristics and record of support for former foster care youth, transportation, housing, and other logistical considerations;

(b) How and when to apply to postsecondary educational programs;

(c) What precollege tests, if any, the particular foster care youth should take based on his or her postsecondary plans and when to take the tests;

(d) What courses to take to prepare the particular foster care youth to succeed at his or her postsecondary plans;

(e) Social, community, educational, logistical, and other issues that frequently impact college students and their success rates; and

(f) Which web sites, nongovernmental entities, public agencies, and other foster care youth support providers specialize in which services.

(4) The selected nongovernmental entity or entities shall work directly with the school counselors at the foster care youths' high schools to ensure that a consistent and complete transition plan has been prepared for each foster care youth who emancipates out of the foster care system in Washington state. [2007 c 314 § 7.]

**28B.117.070 Reports—Recommendations. (Expires June 30, 2013.)**

(1) The higher education coordinating board shall report to appropriate committees of the legislature by January 15, 2008, on the status of program design and implementation. The report shall include a discussion of proposed scholarship and student support service approaches; an estimate of the number of students who will receive such services; baseline information on the extent to which former foster care youth who meet the eligibility criteria in RCW 28B.117.030 have enrolled and persisted in postsecondary education; and recommendations for any statutory changes needed to promote achievement of program objectives.

(2) The state board for community and technical colleges and the higher education coordinating board shall monitor and analyze the extent to which eligible young people are increasing their participation, persistence, and progress in postsecondary education, and shall jointly submit a report on their findings to appropriate committees of the legislature by December 1, 2009, and by December 1, 2011.

(3) The Washington state institute for public policy shall complete an evaluation of the passport to college promise pilot program and shall submit a report to appropriate committees of the legislature by December 1, 2012. The report shall estimate the impact of the program on eligible students' participation and success in postsecondary education, and shall include recommendations for program revision and improvement. [2007 c 314 § 8.]

**28B.117.900 Construction—2007 c 314. (Expires June 30, 2013.)** Nothing in this chapter may be construed to:

(1) Guarantee acceptance by, or entrance into, any institution of higher education; or

(2) Limit the participation of youth, in or formerly in, foster care in Washington state in any other program of financial assistance for postsecondary education. [2007 c 314 § 9.]

**28B.117.901 Expiration of chapter.** This chapter expires June 30, 2013. [2007 c 314 § 10.]

28B.118.050	Grants, gifts, bequests, and devises.
28B.118.060	Rules.

**28B.118.005 Intent—Finding.** The legislature intends to inspire and encourage all Washington students to dream big by creating a guaranteed four-year tuition scholarship program for students from low-income families. The legislature finds that, too often, financial barriers prevent many of the brightest students from considering college as a future possibility. Often the cost of tuition coupled with the complexity of finding and applying for financial aid is enough to prevent a student from even applying to college. Many students become disconnected from the education system early on and may give up or drop out before graduation. It is the intent of the legislature to alert students early in their educational career to the options and opportunities available beyond high school. [2007 c 405 § 1.]

**28B.118.010 Program design.** The higher education coordinating board shall design the Washington college bound scholarship program in accordance with this section.

(1) "Eligible students" are those students who qualify for free or reduced-price lunches. If a student qualifies in the seventh grade, the student remains eligible even if the student does not receive free or reduced-price lunches thereafter.

(2) Eligible students shall be notified of their eligibility for the Washington college bound scholarship program beginning in their seventh grade year. Students shall also be notified of the requirements for award of the scholarship.

(3) To be eligible for a Washington college bound scholarship, a student must sign a pledge during seventh or eighth grade that includes a commitment to graduate from high school with at least a C average and with no felony convictions. Students who were in the eighth grade during the 2007-08 school year may sign the pledge during the 2008-09 school year. The pledge must be witnessed by a parent or guardian and forwarded to the higher education coordinating board by mail or electronically, as indicated on the pledge form.

(4)(a) Scholarships shall be awarded to eligible students graduating from public high schools, approved private high schools under chapter 28A.195 RCW, or who received home-based instruction under chapter 28A.200 RCW.

(b) To receive the Washington college bound scholarship, a student must graduate with at least a "C" average from a public high school or an approved private high school under chapter 28A.195 RCW in Washington or have received home-based instruction under chapter 28A.200 RCW, must have no felony convictions, and must be a resident student as defined in RCW 28B.15.012(2) (a) through (d).

(5) A student's family income will be assessed upon graduation before awarding the scholarship.

(6) If at graduation from high school the student's family income does not exceed sixty-five percent of the state median family income, scholarship award amounts shall be as provided in this section.

(a) For students attending two or four-year institutions of higher education as defined in RCW 28B.10.016, the value of the award shall be (i) the difference between the student's tuition and required fees, less the value of any state-funded grant, scholarship, or waiver assistance the student receives; (ii) plus five hundred dollars for books and materials.

(b) For students attending private four-year institutions of higher education in Washington, the award amount shall be the representative average of awards granted to students in public research universities in Washington.

(c) For students attending private vocational schools in Washington, the award amount shall be the representative average of awards granted to students in public community and technical colleges in Washington.

(7) Recipients may receive no more than four full-time years' worth of scholarship awards.

(8) Institutions of higher education shall award the student all need-based and merit-based financial aid for which the student would otherwise qualify. The Washington college bound scholarship is intended to replace unmet need, loans, and, at the student's option, work-study award before any other grants or scholarships are reduced.

(9) The first scholarships shall be awarded to students graduating in 2012.

(10) The state of Washington retains legal ownership of tuition units awarded as scholarships under this chapter until the tuition units are redeemed. These tuition units shall remain separately held from any tuition units owned under chapter 28B.95 RCW by a Washington college bound scholarship recipient.

(11) The scholarship award must be used within five years of receipt. Any unused scholarship tuition units revert to the Washington college bound scholarship account.

(12) Should the recipient terminate his or her enrollment for any reason during the academic year, the unused portion of the scholarship tuition units shall revert to the Washington college bound scholarship account. [2008 c 321 § 9; 2007 c 405 § 2.]

**Findings—2008 c 321:** See note following RCW 28A.655.061.

**28B.118.020 Duties of the office of the superintendent of public instruction.** The office of the superintendent of public instruction shall:

(1) Notify elementary, middle, and junior high schools about the Washington college bound scholarship program using methods in place for communicating with schools and school districts; and

(2) Work with the higher education coordinating board to develop application collection and student tracking procedures. [2007 c 405 § 3.]

**28B.118.030 Duty of school districts—Notification.** Each school district shall notify students, parents, teachers, counselors, and principals about the Washington college bound scholarship program through existing channels. Notification methods may include, but are not limited to, regular

school district and building communications, online scholarship bulletins and announcements, notices posted on school walls and bulletin boards, information available in each counselor's office, and school or district scholarship information sessions. [2007 c 405 § 4.]

**28B.118.040 Duties of the higher education coordinating board.** The higher education coordinating board shall:

- (1) With the assistance of the office of the superintendent of public instruction, implement and administer the Washington college bound scholarship program;
- (2) Develop and distribute, to all schools with students enrolled in grade seven or eight, a pledge form that can be completed and returned electronically or by mail by the student or the school to the higher education coordinating board;
- (3) Develop and implement a student application, selection, and notification process for scholarships;
- (4) Track scholarship recipients to ensure continued eligibility and determine student compliance for awarding of scholarships;
- (5) Subject to appropriation, deposit funds into the state educational trust fund;
- (6) Purchase tuition units under the advanced college tuition payment program in chapter 28B.95 RCW to be owned and held in trust by the board, for the purpose of scholarship awards as provided for in this section; and
- (7) Distribute scholarship funds, in the form of tuition units purchased under the advanced college tuition payment program in chapter 28B.95 RCW or through direct payments from the state educational trust fund, to institutions of higher education on behalf of scholarship recipients identified by the board, as long as recipients maintain satisfactory academic progress. [2007 c 405 § 5.]

**28B.118.050 Grants, gifts, bequests, and devises.** The higher education coordinating board may accept grants, gifts, bequests, and devises of real and personal property from any source for the purpose of granting financial aid in addition to that funded by the state. [2007 c 405 § 6.]

**28B.118.060 Rules.** The higher education coordinating board may adopt rules to implement this chapter. [2007 c 405 § 7.]

28B.119.050	Washington promise scholarship account.
28B.119.900	Effective date—2002 c 204.

**28B.119.005 Intent—Finding.** The legislature intends to strengthen the link between postsecondary education and K-12 education by creating the Washington promise scholar-

ship program for academically successful high school graduates from low and middle-income families. The legislature finds that, increasingly, an individual's economic viability is contingent on postsecondary educational opportunities, yet the state's full financial obligation is eliminated after the twelfth grade. Students who work hard in kindergarten through twelfth grade and successfully complete high school with high academic marks may not have the financial ability to attend college because they cannot obtain financial aid or the financial aid is insufficient. [2002 c 204 § 1.]

**28B.119.010 Program design—Parameters.** The higher education coordinating board shall design the Washington promise scholarship program based on the following parameters:

(1) Scholarships shall be awarded to students graduating from public and approved private high schools under chapter 28A.195 RCW, students participating in home-based instruction as provided in chapter 28A.200 RCW, and persons twenty-one years of age or younger receiving a GED certificate, who meet both an academic and a financial eligibility criteria.

(a) Academic eligibility criteria shall be defined as follows:

(i) Beginning with the graduating class of 2002, students graduating from public and approved private high schools under chapter 28A.195 RCW must be in the top fifteen percent of their graduating class, as identified by each respective high school at the completion of the first term of the student's senior year; or

(ii) Students graduating from public high schools, approved private high schools under chapter 28A.195 RCW, students participating in home-based instruction as provided in chapter 28A.200 RCW, and persons twenty-one years of age or younger receiving a GED certificate, must equal or exceed a cumulative scholastic assessment test I score of twelve hundred on their first attempt or must equal or exceed a composite American college test score of twenty-seven on their first attempt.

(b) To meet the financial eligibility criteria, a student's family income shall not exceed one hundred thirty-five percent of the state median family income adjusted for family size, as determined by the higher education coordinating board for each graduating class. Students not meeting the eligibility requirements for the first year of scholarship benefits may reapply for the second year of benefits, but must still meet the income standard set by the board for the student's graduating class.

(2) Promise scholarships are not intended to supplant any grant, scholarship, or tax program related to postsecondary education. If the board finds that promise scholarships supplant or reduce any grant, scholarship, or tax program for categories of students, then the board shall adjust the financial eligibility criteria or the amount of scholarship to the level necessary to avoid supplanting.

(3) Within available funds, each qualifying student shall receive two consecutive annual awards, the value of each not to exceed the full-time annual resident tuition rates charged by Washington's community colleges. The higher education coordinating board shall award scholarships to as many stu-

dents as possible from among those qualifying under this section.

(4) By October 15th of each year, the board shall determine the award amount of the scholarships, after taking into consideration the availability of funds.

(5) The scholarships may only be used for undergraduate coursework at accredited institutions of higher education in the state of Washington.

(6) The scholarships may be used for undergraduate coursework at Oregon institutions of higher education that are part of the border county higher education opportunity project in RCW 28B.76.685 when those institutions offer programs not available at accredited institutions of higher education in Washington state.

(7) The scholarships may be used for college-related expenses, including but not limited to, tuition, room and board, books, and materials.

(8) The scholarships may not be awarded to any student who is pursuing a degree in theology.

(9) The higher education coordinating board may establish satisfactory progress standards for the continued receipt of the promise scholarship.

(10) The higher education coordinating board shall establish the time frame within which the student must use the scholarship. [2004 c 275 § 60; 2003 c 233 § 5; 2002 c 204 § 2.]

 28B.120.900 Intent—1999 c 169.

**28B.120.005 Findings.** The legislature finds that encouraging collaboration among the various educational sectors to meet statewide productivity and educational attainment needs as described in the system design plan developed by the higher education coordinating board will strengthen the entire educational system, kindergarten through twelfth grade and higher education. The legislature also recognizes that the most effective way to develop innovative and collaborative programs is to encourage institutions to develop them voluntarily, in line with established state goals. Through a system of competitive grants, the legislature shall encourage the development of innovative and collaborative and cost-effective solutions to issues of critical statewide need, including:

(1) Raising educational attainment and planning and piloting innovative initiatives to reach new locations and populations;

(2) Recognizing needs of special populations of students, including access and completion efforts targeting underrepresented populations;

(3) Furthering the development of learner-centered, technology-assisted course delivery, including expansion of online and hybrid coursework, open courseware, and other uses of technology in order to effectively and efficiently share costs, improve the quality of instruction and student, faculty, and administrative services, increase undergraduate and graduate student access, retention, and graduation, and to enhance transfer capability;

(4) Furthering the development of competency-based measurements of student achievement to be used as the basis for awarding degrees and certificates;

(5) Increasing the collaboration among both public and private sector institutions of higher education; and

(6) Improving productivity through innovations such as accelerated programs and alternative scheduling. [2010 c 245 § 6; 1999 c 169 § 2; 1991 c 98 § 1.]

**Findings—Expand on demand—System design plan endorsed—2010 c 245:** See note following RCW 28B.50.020.

**28B.120.010 Washington fund for innovation and quality in higher education program—Incentive grants.** The Washington fund for innovation and quality in higher education program is established. The higher education coordinating board shall administer the program and shall work in close collaboration with the state board for community and technical colleges and other local and regional entities. Through this program the higher education coordinating board may award on a competitive basis incentive grants to state public or private nonprofit institutions of higher education or consortia of institutions to encourage programs designed to address specific system problems. Each institution or consortia of institutions receiving the award shall contribute some financial support, either by covering part of the costs for the program during its implementation, or by assuming continuing support at the end of the grant period. Strong priority will be given to proposals that involve more than one sector of education. Institutions are encouraged to solicit

nonstate funds to support these cooperative programs. [2010 c 245 § 7; 1999 c 169 § 5; 1996 c 41 § 1; 1991 c 98 § 2.]

**Findings—Expand on demand—System design plan endorsed—2010 c 245:** See note following RCW 28B.50.020.

**28B.120.020 Program administration—Higher education coordinating board.** The higher education coordinating board shall have the following powers and duties in administering the program for those proposals in which a four-year institution of higher education is named as the lead institution and fiscal agent:

(1) To adopt rules necessary to carry out the program;

(2) To award grants no later than September 1st in those years when funding is available by June 30th;

(3) To establish each biennium specific guidelines for submitting grant proposals consistent with RCW 28B.120.005 and consistent with the strategic master plan for higher education, the system design plan, the overall goals of the program and the guidelines established by the state board for community and technical colleges under RCW 28B.120.025.

After June 30, 2001, and each biennium thereafter, the board shall determine funding priorities for proposals for the biennium in consultation with the governor, the legislature, the office of the superintendent of public instruction, the state board for community and technical colleges, the workforce training and education coordinating board, higher education institutions, educational associations, and business and community groups consistent with statewide needs;

(4) To solicit grant proposals and provide information to the institutions of higher education about the program; and

(5) To establish reporting, evaluation, accountability, monitoring, and dissemination requirements for the recipients of the grants awarded by the higher education coordinating board. [2010 c 245 § 8; 1999 c 169 § 3; 1996 c 41 § 2; 1991 c 98 § 3.]

**Findings—Expand on demand—System design plan endorsed—2010 c 245:** See note following RCW 28B.50.020.

**28B.120.025 Program administration—State board for community and technical colleges.** The state board for community and technical colleges has the following powers and duties in administering the program for those proposals in which a community or technical college is named as the lead institution and fiscal agent:

(1) To adopt rules necessary to carry out the program;

(2) To establish one or more review committees to assist in the evaluation of proposals for funding. The review committee shall include individuals with significant experience in higher education in areas relevant to one or more of the funding period priorities and shall include representatives from both the four-year and two-year sectors of higher education;

(3) To award grants no later than September 1st in those years when funding is available by June 30th;

(4) To establish each biennium specific guidelines for submitting grant proposals consistent with the overall goals of the program and consistent with the guidelines established by the higher education coordinating board under RCW 28B.120.020. During the 1999-01 biennium the guidelines shall be consistent with the following desired outcomes of:

(a) Minority and diversity initiatives that encourage the participation of minorities in higher education, including students with disabilities;

(b) K-12 teacher preparation models that encourage collaboration between higher education and K-12 to improve the preparedness of teachers, including provisions for higher education faculty involved with teacher preparation to spend time teaching in K-12 schools;

(c) Collaborative instructional programs involving K-12, community and technical colleges, and four-year institutions of higher education to develop a three-year degree program, or reduce the time to degree;

(d) Contracts with public or private institutions or businesses to provide services or the development of collaborative programs;

(e) Articulation and transfer activities to smooth the transfer of students from K-12 to higher education, or from the community colleges and technical colleges to four-year institutions;

**28B.120.040 Higher education coordinating board fund for innovation and quality.** The higher education coordinating board fund for innovation and quality is hereby established in the custody of the state treasurer. The higher education coordinating board shall deposit in the fund all moneys received under RCW 28B.120.030. Moneys in the fund may be spent only for the purposes of RCW 28B.120.010 and 28B.120.020. Disbursements from the fund shall be on the authorization of the higher education coordinating board. The fund is subject to the allotment procedure provided under chapter 43.88 RCW, but no appropriation is required for disbursements. [1999 c 169 § 7; 1996 c 41 § 3; 1991 c 98 § 5.]

**28B.120.900 Intent—1999 c 169.** It is the intent of the legislature to update and fund the higher education competitive grant program established by the 1991 legislature, known as the Washington fund for innovation and quality in higher

education. Changes are needed so that the goals and priorities set forth for awarding grants reflect the 1999-01 goals and priorities. The legislature also intends to improve the administration of the program by separating responsibilities between the higher education coordinating board and the state board for community and technical colleges. **28B.121.005 Findings—Intent.** The legislature finds that there is a critical shortage of food animal veterinarians particularly in rural areas of the state. The legislature finds that among the factors contributing to this shortage is the need to repay student loans that are taken out to pay for an extensive and high-cost education. To pay these student loans, licensed graduates currently find it necessary to take higher paying positions that provide service to companion and small animals.

The legislature finds that the livestock industry provides a critical component of the food supply. Providing adequate animal health and disease diagnostic services is of high importance not only to protect animal health, but also for the protection of our food supply, the protection of public health from potential effects of contagious diseases, and to provide an essential disease detection and response capability.

The legislature intends to increase the supply of food animal veterinarians by providing incentives to graduates of Washington State University college of veterinary medicine to focus on food animal health services to address this critical shortage. [2008 c 208 § 1.]

**28B.121.010 Definitions.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(9) "University" means Washington State University. [2008 c 208 § 2.]

**28B.121.020 Program established.** The food animal veterinarian conditional scholarship program is established. The program shall be administered by the university. In administering the program, the university has the following powers and duties:

(1) To select, in consultation with the college, up to two students each year to receive conditional scholarships;

(2) To adopt necessary rules and guidelines;

(3) To publicize the program;

(4) To collect and manage repayments from students who do not meet their obligations under this chapter; and

(5) To solicit and accept grants and donations from public and private sources for the program. [2008 c 208 § 3.]

**28B.121.030 Selection of participants—Selection committee—Selection criteria.** (1) The university shall select participants based on an application process conducted by the university.

(2) The university shall establish a selection committee for screening and selecting recipients of the conditional scholarships. The selection committee shall include at least two representatives from the college, at least one of whom is a faculty member teaching in food animal veterinary medicine, and at least one representative from the beef, dairy, or sheep industry.

(3) The selection criteria shall emphasize factors demonstrating a sustained interest in food animals and serving the needs of Washington's agricultural communities. The criteria shall also take into account the need for food animal veterinarians in diverse areas of the state and allocate funds in a manner designed to represent a cross-section of geographic locations. [2008 c 208 § 4.]

**28B.121.040 Eligibility.** To remain an eligible student and receive continuing disbursements under the program, a participant must be considered by the college to be making satisfactory academic progress. [2008 c 208 § 5.]

**28B.121.050 Award of scholarships—Amount—Duration.** The university may award conditional scholarships to eligible students from the funds appropriated to the university for this purpose, or from any private donations, or any other funds given to the university for this program. college, as well as the cost of room, board, laboratory fees and supplies, and books, incurred by an eligible student and approved by a financial aid administrator at the university. Participants are eligible to receive conditional scholarships for a maximum of five years. [2008 c 208 § 6.]

**28B.121.060 Repayment obligation—Rules.** (1) A participant in the conditional scholarship program incurs an obligation to repay the conditional scholarship, with interest, unless he or she is employed as a food animal veterinarian in Washington state for each year of scholarship received, under rules adopted by the university.

(2) The interest rate shall be determined annually by the university.

(3) The minimum payment shall be set by the university. The maximum period for repayment is ten years, with payments of principal and interest accruing quarterly commencing six months from the date the participant completes or discontinues the course of study, including any internship or residency in food animal medicine and surgery. Provisions for deferral of payment shall be determined by the university.

(4) The entire principal and interest of each payment shall be forgiven for each payment period in which the participant is employed as a food animal veterinarian in this state until the entire repayment obligation is satisfied. Should the participant cease to be employed as a food animal veterinarian in this state before the participant's repayment obligation is completed, payments on the unsatisfied portion of the principal and interest shall begin the next payment period and continue until the remainder of the participant's repayment obligation is satisfied.

(5) The university is responsible for collection of repayments made under this section and shall exercise due diligence in such collection, maintaining all necessary records to ensure that maximum repayments are made. Collection and servicing of repayments under this section shall be pursued using the full extent of the law, including wage garnishment if necessary. The university is responsible to forgive all or parts of such repayments under the criteria established in this section and shall maintain all necessary records of forgiven payments.

(6) Receipts from the payment of principal or interest or any other subsidies to which the university as administrator is entitled, that are paid by or on behalf of participants under this section, shall be deposited in the food animal veterinarian conditional scholarship account and shall be used to cover the costs of granting the conditional scholarships, maintaining necessary records, and making collections under subsection (5) of this section. The university shall maintain accurate records of these costs, and all receipts beyond those necessary to pay such costs shall be used to grant conditional scholarships to eligible students.

(7) The university shall adopt rules to define the terms of repayment, including applicable interest rates, fees, and deferments. [2008 c 208 § 7.]

**28B.121.070 Food animal veterinarian conditional scholarship account.** (1) The food animal veterinarian conditional scholarship account is created in the custody of the state treasurer. No appropriation is required for expenditures

of funds from the account. The account is not subject to allotment procedures under chapter 43.88 RCW except for moneys used for program administration.

(2) The university shall deposit into the account all moneys received for the program. The account shall be self-sustaining and consist of funds appropriated by the legislature for the food animal veterinarian conditional scholarship program, private contributions to the program, and receipts from participant repayments.

(3) Expenditures from the account may be used solely for conditional scholarships to participants in the program established by this chapter and costs associated with program administration by the university.

(4) Disbursements from the account may be made only on the authorization of the university. [2008 c 208 § 8.]

28B.130.020	Transportation fee.
28B.130.030	Use of transportation fees.
28B.130.040	Adoption of guidelines for establishing and funding transportation demand management programs.

**28B.130.005 Findings—Intent.** Transportation demand management strategies that reduce the number of vehicles on Washington state’s highways, roads, and streets, and provide attractive and effective alternatives to single-occupancy travel, can improve ambient air quality, conserve fossil fuels, and forestall the need for capital improvements to the state’s transportation system. The legislature has required many public and private employers in the state’s largest counties to implement transportation demand management programs to reduce the number of single-occupant vehicle travelers during the morning and evening rush hours, and has provided substantial funding for the University of Washington’s UPASS program, which has been immensely successful in its first two years of implementation. The legislature finds that additional transportation demand management strategies are required to mitigate the adverse social, environmental, and economic effects of auto dependency and traffic congestion. While expensive capital improvements, including dedicated busways and commuter rail systems, may be necessary to improve the region’s mobility, they are only part of the solution. All public and private entities that attract single-occupant vehicle drivers must develop imaginative and cost-effective ways to encourage walking, bicycling, carpooling, vanpooling, bus riding, and telecommuting. It is the intent of the legislature to revise those portions of state law that inhibit the application of imaginative solutions to the state’s transportation mobility problems, and to encourage many more public and private institutions of higher learning to adopt effective transportation demand management strategies.

The legislature finds further that many of the institutions of higher education in the state’s largest counties are responsible for significant numbers of single-occupant vehicle trips to and from their campuses. These single-occupant vehicle

trips are not only contributing to the degradation of the state’s environment and deterioration of its transportation system, but are also usurping parking spaces from surrounding residential communities because existing parking facilities cannot accommodate students’ current demand. Therefore, it is the intent of the legislature to permit these institutions to develop and fund transportation demand management programs that reduce single-occupant vehicle travel and promote alternatives to single-occupant vehicle driving. The legislature encourages institutions of higher education to include faculty and staff in their transportation demand management programs. [1993 c 447 § 1.]

**28B.130.010 Definitions.** Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Transportation fee" means the fee charged to employees and students at institutions of higher education for the purposes provided in RCW 28B.130.020.

(2) "Transportation demand management program" means the set of strategies adopted by an institution of higher education to reduce the number of single-occupant vehicles traveling to its campus. These strategies may include but are not limited to those identified in RCW 70.94.531. [1993 c 447 § 2.]

**28B.130.020 Transportation fee.** (1) The governing board of an institution of higher education as defined in RCW 28B.10.016 may impose either a voluntary or a mandatory transportation fee on employees and on students at the institution. The board of regents of Washington State University may impose either a voluntary or a mandatory transportation fee on faculty and staff working at the Riverpoint higher education park and on students attending classes there. The transportation fee shall be used solely to fund transportation demand management programs that reduce the demand for campus and neighborhood parking, and promote alternatives to single-occupant vehicle driving. If the board charges a mandatory transportation fee to students, it shall charge a mandatory transportation fee to employees. The transportation fee for employees may exceed, but shall not be lower than the transportation fee charged to students. The transportation fee for employees may be deducted from the employees’ paychecks. The transportation fee for students may be imposed annually, or each academic term. For students attending community colleges and technical colleges, the mandatory transportation fee shall not exceed sixty percent of the maximum rate permitted for services and activities fees at community colleges, unless, through a vote, a majority of students consent to increase the transportation fee. For students attending four-year institutions of higher education or classes at the Riverpoint higher education park, the mandatory transportation fee shall not exceed thirty-five percent of the maximum rate permitted for services and activities fees at the institution where the student is enrolled unless, through a vote, a majority of students consents to increase the transportation fee. The board may make a limited number of exceptions to the fee based on a policy adopted by the board.

(2) The board of regents of Washington State University shall not impose a transportation fee on any student who is

already paying a transportation fee to the institution of higher education in which the student is enrolled. [1998 c 344 § 7; 1997 c 273 § 2; 1993 c 447 § 3.]

**Intent—Findings—1998 c 344:** See note following RCW 28B.38.010.

**28B.130.030 Use of transportation fees.** Transportation fees shall be spent only on activities directly related to the institution of higher education's transportation demand management program. These may include, but are not limited to the following activities: Transit, carpool, and vanpool subsidies; ridesharing programs, and program advertising for carpools, vanpools, and transit service; guaranteed ride-home and telecommuting programs; and bicycle storage facilities. Funds may be spent on capital or operating costs incurred in the implementation of any of these strategies, and may be also used to contract with local or regional transit agencies for transportation services. Funds may be used for existing programs if they are incorporated into the campus transportation demand management program. [1993 c 447 § 4.]

**28B.130.040 Adoption of guidelines for establishing and funding transportation demand management programs.** The board of trustees or board of regents of each institution of higher education imposing a transportation fee shall adopt guidelines governing the establishment and funding of transportation demand management programs supported by transportation fees. These guidelines shall establish procedures for budgeting and expending transportation fee revenue. [1993 c 447 § 5.]

**28B.133.010 Program created.** The educational assistance grant program for students with dependents is hereby created, subject to the availability of receipts of gifts, grants, or endowments from private sources. The program is created to serve financially needy students with dependents eighteen years of age or younger, by assisting them directly through a grant program to pursue a degree or certificate at public or

private institutions of higher education, as defined in RCW 28B.92.030, that participate in the state need grant program. [2004 c 275 § 72; 2003 c 19 § 2.]

All receipts from the program shall be deposited into the account. Only the higher education coordinating board, or its designee, may authorize expenditures from the account. Disbursements from the account are exempt from appropriations and the allotment procedures under chapter 43.88 RCW.

(2) The board may solicit and receive gifts, grants, or endowments from private sources that are made from time to time, in trust or otherwise, for the use and benefit of the purposes of the educational assistance grant program. The executive director, or the executive director's designee, may spend gifts, grants, or endowments or income from the private sources according to their terms unless the receipt of the gifts, grants, or endowments violates \*RCW 42.17.710.

(3) The earnings on the account shall be used solely for the purposes in RCW 28B.133.010, except when the terms of a conditional gift of private moneys in the account require that a portion of earnings on such moneys be reinvested in the account. [2003 c 19 § 4.]

**\*Reviser's note:** RCW 42.17.710 was recodified as RCW 42.17A.560 pursuant to 2010 c 204 § 1102, effective January 1, 2012.

**28B.133.040 Program administration.** The higher education coordinating board shall develop and administer the educational assistance grant program for students with dependents. In administering the program, once the balance in the students with dependents grant account is five hundred thousand dollars, the board's powers and duties shall include but not be limited to:

- (1) Adopting necessary rules and guidelines;
- (2) Publicizing the program;
- (3) Accepting and depositing donations into the grant account established in RCW 28B.133.030; and

**28B.133.050 Use of grants.** The educational assistance grant program for students with dependents grants may be used by eligible participants to attend any public or private college or university in the state of Washington as defined in

RCW 28B.92.030. Each participating student may receive an amount to be determined by the higher education coordinating board, with a minimum amount of one thousand dollars per academic year, not to exceed the student's documented financial need for the course of study as determined by the institution.

Educational assistance grants for students with dependents are not intended to supplant any grant scholarship or tax program related to postsecondary education. If the higher education coordinating board finds that the educational assistance grants for students with dependents supplant or reduce any grant, scholarship, or tax program for categories of students, then the higher education coordinating board shall adjust the financial eligibility criteria or the amount of the grant to the level necessary to avoid supplanting. The higher education coordinating board shall administer the program for the four-year institutions of higher education. Through these programs the board shall award either competitive or matching child care grants to state institutions of higher education to encourage programs to address the need for high quality, accessible, and affordable child care for students at higher education institutions. The grants shall be used exclusively for the provision of quality child care services for students at institutions of higher education. The university or college administration and student government association, or its equivalent, of each institution receiving the award may contribute financial support in an amount equal to or greater than the child care grant received by the institution. **Intent—2008 c 162:** "It is the intent of the legislature to improve access to higher education for all residents and ensure that students have the necessary resources and support services to attain their educational goals while keeping families strong. For many students, the lack of affordable, accessi-

Further, it is the intent of the legislature to adopt policies that, to the extent possible, leverage existing resources and maximize educational outcomes by supporting affordable, accessible, and quality child care programs." [2008 c 162 § 1.]

**28B.135.020 Grants—Eligibility—Grant period.**

The institution of higher education shall be eligible to receive the grant for a period not exceeding two years. After the expiration of any two-year grant, the institution may reapply to receive subsequent grant awards or a continuation of the grant awarded the prior two years. [1999 c 375 § 2.]

**28B.135.030 Program administration—Four-year institutions of higher education—Rules—Reports.** The higher education coordinating board shall have the following powers and duties in administering the program for the four-year institutions of higher education:

28B.140.010	Scope of authority.

28B.140.030	Authority of chapter—Supplemental.
28B.140.900	Reports to the legislature.

**28B.140.005 Policy.** It is the policy of the state to encourage basic and applied scientific research by the state's research universities. The creation of knowledge is a core mission of the state's research universities, and research provides teaching and learning opportunities for students and faculty. State-of-the-art facilities for research by research universities serve to attract the most capable students and faculty to the state and research grants from public and private institutions throughout the world. The application of such research stimulates investment and employment within Washington and the strengthening of our tax base. In order to finance research facilities, the state's research universities often use federal, state, private, and university resources and therefore require the authority to enter into financing arrangements that leverage funding sources and reduce the costs of such complex facilities to the state. [2002 c 151 § 1.]

**28B.140.010 Scope of authority.** The University of Washington and Washington State University each may:

(1) Acquire, construct, rehabilitate, equip, and operate facilities and equipment to promote basic and applied research in the sciences;

(2) Borrow money for such research purposes, including interest during construction and other incidental costs, issue revenue bonds or other evidences of indebtedness, refinance the same before or at maturity, and provide for the amortization of such indebtedness by pledging all or a component of the fees and revenues of the university available for such purpose derived from the ownership and operation of any of its facilities or conducting research that are not subject to appropriation by the legislature and that do not constitute general state revenues as defined in Article VIII, section 1 of the state Constitution;

(3) Enter into leases, with or without an option to purchase, of real and personal property to be used in basic and applied research in the sciences; and

(4) Lease all or a portion of such facilities and equipment as is deemed prudent by the university to provide for research conducted by persons or entities that are not part of the university but that provide rental income to support university research facilities or provide opportunities for the interaction of public and private research and research personnel, including students and faculty. [2002 c 151 § 2.]

**28B.140.020 Financial responsibility of university—No state general fund obligation.** The governing body of a university financing facilities and equipment under this chap-

ter shall give due regard to the costs of maintaining and operating such facilities and equipment during the useful lives of the facilities and equipment. No state appropriated funds may be used for (1) the payment of maintenance and operation of the facilities and equipment financed under this chapter; or (2) the grant or contract-supported research activities housed in these facilities. If funding through grants or contracts for research activities housed in these facilities is reduced, eliminated, or declared insufficient, the funding deficiencies are not a state obligation to be paid from the state general fund. [2002 c 151 § 3.]

#### **28B.140.030 Authority of chapter—Supplemental.**

The authority granted by this chapter is supplemental to any existing or future authority granted to the University of Washington and Washington State University and shall not be construed to limit the existing or future authority of these universities. [2002 c 151 § 4.]

**28B.140.900 Reports to the legislature.** Before January 31st of each year, the University of Washington and Washington State University must report to the ways and means committee of the senate and the capital budget committee of the house of representatives on the financing arrangements entered into under the authority of this chapter. [2002 c 151 § 7.]

28B.142.040	Authority of chapter—Supplemental.

**28B.142.005 Finding—Intent.** The legislature hereby recognizes that the University of Washington and Washington State University will require additional methods of funding to meet the universities' educational and research missions and remain competitive in a challenging environment. State appropriations are sufficient to meet only a portion of these research universities' funding requirements. The state authorizes the universities to collect student tuition, services and activities fees, building fees, and technology fees, subject to statutory limits. In addition, the universities generate revenue from other sources such as grants, contracts, other fees, sales and services, and investment income. The legislature finds that the research universities are able to leverage these local nonstate-appropriated funds to enhance university facilities and services for the benefit of students, faculty, and the larger community. The legislature intends that the research universities be permitted to borrow and incur obligations for any university purpose, so long as repayment is limited to local nonappropriated university funds and so long as the state's credit or general state revenues are not obligated or used for repayment. To permit the University of Washington to refinance the real and personal property acquired between

August and October 2006 before the end of the fiscal biennium, sections of chapter 24, Laws of 2007 necessary to accomplish this limited purpose are made effective before the end of the biennium. [2007 c 24 § 1.]

**28B.142.010 Bonds, notes, evidences of indebtedness—University of Washington and Washington State University.** The board of regents of the University of Washington and Washington State University may issue bonds, notes, or other evidences of indebtedness for any university purpose. The board of regents of the University of Washington and Washington State University may obligate all or a component of the fees and revenues of the university for the payment of such bonds, notes, or evidences of indebtedness: PROVIDED, That such fees and revenues are not subject to appropriation by the legislature and do not constitute general state revenues as defined in Article VIII, section 1 of the state Constitution. Such bonds, notes, and other indebtedness shall not constitute bonds, notes, or other evidences of indebtedness secured by the full faith and credit of the state or required to be paid, directly or indirectly, from general state revenues. Bonds, notes, or other evidences of indebtedness issued under this chapter shall be issued in accordance with the procedures in RCW 28B.10.310 and 28B.10.315 or the provisions applicable to either the state or local governments under chapter 39.46 or 39.53 RCW. [2009 c 500 § 4; 2007 c 24 § 2.]

**Effective date—2009 c 500:** See note following RCW 39.42.070.

**28B.142.020 Reports.** The University of Washington and Washington State University must report annually to the ways and means committee of the senate, the capital budget committee of the house of representatives, and the office of the state treasurer on any bonds, notes, and other evidences of indebtedness issued under this chapter as a part of a public securities offering. The report shall include a summary of the total outstanding debt of the university, a summary of any public securities offerings issued that year by purpose, including rating information from at least one nationally recognized credit rating agency, issuance costs, interest rate information, sources of repayment, and a copy of the annual bondholder report filed by the University of Washington and Washington State University in accordance with Rule 15c2-12 of the securities and exchange commission. [2007 c 24 § 3.]

**28B.142.030 Bonds, notes, evidences of indebtedness—University of Washington—Refinancing.** The board of regents of the University of Washington may issue bonds, notes, or other evidences of indebtedness under this section for the purpose of refinancing real and personal property acquired by the University of Washington during the period between August and October 2006. The board of regents of the University of Washington may obligate all or a component of the fees and revenues of the university for the payment of such bonds, notes, or evidences of indebtedness: PROVIDED, That such fees and revenues are not subject to appropriation by the legislature and do not constitute general state revenues as defined in Article VIII, section 1 of the state Constitution. Bonds, notes, or other evidences of indebted-

ness issued under this section shall be issued in accordance with the procedures in RCW 28B.10.310 and 28B.10.315 or the provisions applicable to either the state or local governments under chapter 39.46 or 39.53 RCW. Such bonds, notes, and other indebtedness shall not constitute bonds, notes, or other evidences of indebtedness secured by the full faith and credit of the state or required to be paid, directly or indirectly, from general state revenues. [2009 c 500 § 5; 2007 c 24 § 4.]

**Effective date—2009 c 500:** See note following RCW 39.42.070.

**Effective date—2007 c 24 § 4:** "Section 4 of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect May 1, 2007." [2007 c 24 § 6.]

#### **28B.142.040 Authority of chapter—Supplemental.**

The authority granted by this chapter is in addition and supplemental to any previously granted or future authority granted to the University of Washington or Washington State University and shall not be construed to limit the existing or future powers or authority of these universities, including without limitation the authority to issue bonds, notes, and other evidences of indebtedness pursuant to RCW 28B.10.300 through 28B.10.330, 28B.20.145, or 28B.20.395 through 28B.20.398, or chapter 28B.140 RCW, or to participate in state reimbursable bond, certificate of participation, or other state debt programs. **28C.04.390 Worker retraining program funds—Workforce training customer advisory committee.** (1) The college board worker retraining program funds shall be used for training programs and related support services, including financial aid, counseling, referral to training resources, job referral, and job development that:

- (a) Are consistent with the unified plan for workforce development;
- (b) Provide increased enrollments for dislocated workers;
- (c) Provide customized training opportunities for dislocated workers; and

(2) The college board shall develop a plan for use of the worker retraining program funds in conjunction with the workforce training customer advisory committee established in subsection (3) of this section. In developing the plan the college board shall:

(a) Provide that applicants for worker retraining program funds shall solicit financial support for training programs and give priority in receipt of funds to those applicants which are most successful in matching public dollars with financial support;

(b) Provide that applicants for worker retraining program funds shall develop training programs in partnership with local businesses, industry associations, labor, and other partners as appropriate and give priority in receipt of funds to those applicants who develop customized training programs in partnership with local businesses, industry associations, and labor organizations;

(c) Give priority in receipt of funds to those applicants serving rural areas;

(d) Ensure that applicants receiving worker retraining program funds gather information from local workforce development councils on employer workforce needs, including the needs of businesses with less than twenty-five employees;

(e) Provide for specialized vocational training at a private career school or college at the request of a recipient eligible under subsection (1)(b) of this section. Available tuition for the training is limited to the amount that would otherwise be payable per enrolled quarter to a public institution; and

(f) Give priority in receipt of funds to those applicants working toward careers in the aerospace, health care, advanced manufacturing, construction, forest product, and renewable energy industries; high-demand occupations in strategic industry clusters identified in the state comprehensive plan and the workforce development councils' local comprehensive plans for workforce educational training as identified in RCW 28C.18.080 and 28C.18.150; and occupations and industries identified by community and technical colleges in collaboration with local workforce development councils. For purposes of this section, health care includes long-term care.

(3) The executive director of the college board shall appoint a workforce training customer advisory committee by July 1, 1999, to:

(a) Assist in the development of the plan for the use of the college board worker retraining program funds and recommend guidelines to the college board for the operation of worker retraining programs;

(b) Recommend selection criteria for worker retraining programs and grant applicants for receipt of worker retraining program grants;

(c) Provide advice to the college board on other workforce development activities of the community and technical colleges;

(d) Recommend selection criteria for job skills grants, consistent with criteria established in this chapter and chapter

121, Laws of 1999. Such criteria shall include a prioritization of job skills applicants in rural areas;

(e) Recommend guidelines to the college board for the operation of the job skills program; and

(f) Recommend grant applicants for receipt of job skills program grants.

(4) Members of the workforce training customer advisory committee shall consist of three college system representatives selected by the executive director of the college board, three representatives of business selected from nominations provided by statewide business organizations, and three representatives of labor selected from nominations provided by a statewide labor organization representing a cross-section of workers in the state. [2010 1st sp.s. c 24 § 2; 1999 c 121 § 1.]

**Findings—Intent—2010 1st sp.s. c 24:** "(1) The legislature finds that in times of severe economic recession, the state has a special obligation to help unemployed and low-income citizens access the training and education necessary to help them find and keep living wage jobs. The legislature also finds that during times of recession, when state revenues are at their lowest, demand for education and training are at their highest, making it especially important for the legislature to set clear goals and make the most efficient use of limited state resources.

(2) The legislature therefore intends to expand training and education programs, which have proven to be successful, to help Washington citizens receive the training they need. These programs include the worker retraining program, the opportunity grant program, and the opportunity internship program. The legislature further intends to create more effective intake and outreach systems to reach the greatest number of citizens and connect them to the resources they need, including college, apprenticeship, and preapprenticeship." [2010 1st sp.s. c 24 § 1.]

**28C.04.400 Job skills program—Legislative declaration and policy.** The legislature declares that it is an important function of government to increase opportunities for gainful employment, to assist in promoting a productive and expanding economy, and to encourage the flow of business and industry support to educational institutions. Therefore, the legislature finds that it is in the public interest of the state to encourage and facilitate the formation of cooperative relationships between business and industry and educational institutions which provide for the development and significant expansion of programs of skills training and education consistent with employment needs and to make interested individuals aware of the employment opportunities presented thereby. It is the policy of the state of Washington to ensure that programs of skill training are available on a regional basis and are utilized by a variety of businesses and industries. oaths and affirmations, issue subpoenas and compel attendance, take evidence, and require the production of any books, papers, correspondence, memorandums, or other records which the agency deems relevant or material to the investigation. The minimum standards shall include, but not be limited to, requirements to assess whether a private vocational school is eligible to obtain and maintain a license in this state.

(2) The requirements adopted by the agency shall, at a minimum, require a private vocational school to:

(a) Disclose to the agency information about its ownership and financial position and to demonstrate to the agency that the school is financially viable and responsible and that it has sufficient financial resources to fulfill its commitments to students. Financial disclosures provided to the agency shall not be subject to public disclosure under chapter 42.56 RCW;

(b) Follow a uniform statewide cancellation and refund policy as specified by the agency;

(c) Disclose through use of a school catalog, brochure, or other written material, necessary information to students so that students may make informed enrollment decisions. The agency shall specify what information is required;

(d) Use an enrollment contract or agreement that includes: (i) The school's cancellation and refund policy, (ii) a brief statement that the school is licensed under this chapter and that inquiries may be made to the agency, and (iii) other necessary information as determined by the agency;

(e) Describe accurately and completely in writing to students before their enrollment prerequisites and requirements for (i) completing successfully the programs of study in which they are interested and (ii) qualifying for the fields of employment for which their education is designed;

(f) Comply with the requirements of RCW 28C.10.084;

(g) Assess the basic skills and relevant aptitudes of each potential student to determine that a potential student has the basic skills and relevant aptitudes necessary to complete and benefit from the program in which the student plans to enroll, including but not limited to administering a United States department of education-approved English as a second language exam before enrolling students for whom English is a second language unless the students provide proof of graduation from a United States high school or proof of completion of a GED in English or results of another academic assessment determined appropriate by the agency. The attachment shall be signed by both the school and the student. (2) Complies with the requirements for the \*tuition recovery fund under RCW 28C.10.084.

(3) Pays the required fees.

(4) Meets the minimum standards adopted by the agency under RCW 28C.10.050.

[1987 c 459 § 4; 1986 c 299 § 6.]

**\*Reviser's note:** The "tuition recovery fund" was renamed the "tuition recovery trust fund" by 1993 c 445.

**28C.10.082 \*Tuition recovery fund—Created—State treasurer custodian.** The \*tuition recovery fund is hereby established in the custody of the state treasurer. The agency shall deposit in the fund all moneys received under RCW 28C.10.084. Moneys in the fund may be spent only for the purposes under RCW 28C.10.084. Disbursements from the fund shall be on authorization of the agency. The fund is subject to the allotment procedure provided under chapter 43.88 RCW, but no appropriation is required for disbursements. [1991 sp.s. c 13 § 85; 1987 c 459 § 2.]

**\*Reviser's note:** The "tuition recovery fund" was renamed the "tuition recovery trust fund" by 1993 c 445.

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28C.10.084 Tuition recovery trust fund—Deposits—Operation—Claims.** (1) The agency shall establish, maintain, and administer a tuition recovery trust fund. All funds collected for the tuition recovery trust fund are payable to the state for the benefit and protection of any student or enrollee of a private vocational school licensed under this chapter, or, in the case of a minor, his or her parents or guardian, for purposes including but not limited to the settlement of claims related to school closures under subsection (10) of this section and the settlement of claims under RCW 28C.10.120. The fund shall be liable for settlement of claims and costs of administration but shall not be liable to pay out or recover penalties assessed under RCW 28C.10.130 or 28C.10.140. No liability accrues to the state of Washington from claims made against the fund.

(2) By June 30, 1998, a minimum operating balance of one million dollars shall be achieved in the fund and maintained thereafter. If disbursements reduce the operating balance below two hundred thousand dollars at any time before June 30, 1998, or below one million dollars thereafter, each participating owner shall be assessed a pro rata share of the deficiency created, based upon the incremental scale created under subsection (6) of this section for each private vocational school. The agency shall adopt schedules of times and amounts for effecting payments of assessment.

(3) In order for a private vocational school to be and remain licensed under this chapter each owner shall, in addition to other requirements under this chapter, make cash deposits on behalf of the school into a tuition recovery trust fund as a means to assure payment of claims brought under this chapter.

(4) The amount of liability that can be satisfied by this fund on behalf of each private vocational school licensed under this chapter shall be the amount of unearned prepaid tuition in possession of the owner.

(5) The fund's liability with respect to each participating private vocational school commences on the date of the initial deposit into the fund made on its behalf and ceases one year from the date the school is no longer licensed under this chapter.

(6) The agency shall adopt by rule a matrix for calculating the deposits into the fund on behalf of each vocational school. Proration shall be determined by factoring the school's share of liability in proportion to the aggregated liability of all participants under the fund by grouping such prorations under the incremental scale created by subsection (4) of this section. Expressed as a percentage of the total liability, that figure determines the amount to be contributed when factored into a fund containing one million dollars. The total amount of its prorated share, minus the amount paid for initial capitalization, shall be payable in up to twenty increments over a ten-year period, commencing with the sixth month after the initial capitalization deposit has been made on behalf of the school. Additionally, the agency shall require deposits for initial capitalization, under which the amount each owner deposits is proportionate to the school's share of two hundred thousand dollars, employing the matrix developed under this subsection.

(7) No vested right or interests in deposited funds is created or implied for the depositor, either at any time during the operation of the fund or at any such future time that the fund may be dissolved. All funds deposited are payable to the state for the purposes described under this section. The agency shall maintain the fund, serve appropriate notices to affected owners when scheduled deposits are due, collect deposits, and make disbursements to settle claims against the fund. When the aggregated deposits total five million dollars and the history of disbursements justifies such modifications, the agency may at its own option reduce the schedule of deposits whether as to time, amount, or both and the agency may also entertain proposals from among the licensees with regard to disbursing surplus funds for such purposes as vocational scholarships.

(8) Based on annual financial data supplied by the owner, the agency shall determine whether the increment assigned to that private vocational school on the incremental scale established under subsection (6) of this section has changed. If an increase or decrease in gross annual tuition income has occurred, a corresponding change in the school's incremental position and contribution schedule shall be made before the date of the owner's next scheduled deposit into the fund. Such adjustments shall only be calculated and applied annually.

(9) If the majority ownership interest in a private vocational school is conveyed through sale or other means into different ownership, all contributions made to the date of transfer remain in the fund. The new owner shall continue to make contributions to the fund until the original ten-year cycle is completed. All tuition recovery trust fund contributions shall remain with the private vocational school transferred, and no additional cash deposits may be required beyond the original ten-year contribution cycle.

(10) To settle claims adjudicated under RCW 28C.10.120 and claims resulting when a private vocational school ceases to provide educational services, the agency may make disbursements from the fund. Students enrolled under a training contract executed between a school and a public or private agency or business are not eligible to make a claim against the fund. In addition to the processes described for making reimbursements related to claims under

RCW 28C.10.120, the following procedures are established to deal with reimbursements related to school closures:

(a) The agency shall attempt to notify all potential claimants. The unavailability of records and other circumstances surrounding a school closure may make it impossible or unreasonable for the agency to ascertain the names and whereabouts of each potential claimant but the agency shall make reasonable inquiries to secure that information from all likely sources. The agency shall then proceed to settle the claims on the basis of information in its possession. The agency is not responsible or liable for claims or for handling claims that may subsequently appear or be discovered.

(b) Thirty days after identified potential claimants have been notified, if a claimant refuses or neglects to file a claim verification as requested in such notice, the agency shall be relieved of further duty or action on behalf of the claimant under this chapter.

(c) After verification and review, the agency may disburse funds from the tuition recovery trust fund to settle or compromise the claims. However, the liability of the fund for claims against the closed school shall not exceed the amount of unearned prepaid tuition in the possession of the owner.

(d) In the instance of claims against a closed school, the agency shall seek to recover such disbursed funds from the assets of the defaulted owner, including but not limited to asserting claims as a creditor in bankruptcy proceedings.

(11) When funds are disbursed to settle claims against a licensed private vocational school, the agency shall make demand upon the owner for recovery. The agency shall adopt schedules of times and amounts for effecting recoveries. An owner's failure to perform subjects the school's license to suspension or revocation under \*RCW 28C.10.050 in addition to any other available remedies.

(12) For purposes of this section, "owner" includes, but is not limited to, a person, company, firm, society, association, partnership, corporation, or trust having a controlling ownership interest in a private vocational school. [2001 c 23 § 2; 1999 c 321 § 3; 1993 c 445 § 2; 1990 c 188 § 8; 1987 c 459 § 1.]

\*Reviser's note: The suspension and revocation provisions of RCW 28C.10.050 were eliminated by 2007 c 462 § 2.

Intent—1999 c 321: See note following RCW 28B.15.100.

**28C.10.090 Actions prohibited without license.** A private vocational school, whether located in this state or outside of this state, shall not conduct business of any kind, make any offers, advertise or solicit, or enter into any contracts unless the private vocational school is licensed under this chapter. [1986 c 299 § 9.]

**28C.10.100 Suspension or modification of requirements of chapter.** The executive director of the agency may suspend or modify any of the requirements under this chapter in a particular case if the agency finds that:

(1) The suspension or modification is consistent with the purposes of this chapter; and

(2) The education to be offered addresses a substantial, demonstrated need among residents of the state or that literal

application of this chapter would cause a manifestly unreasonable hardship. [1986 c 299 § 10.]

**28C.10.110 Unfair business practices.** It is an unfair business practice for an entity operating a private vocational school or an agent employed by a private vocational school to:

(1) Fail to comply with the terms of a student enrollment contract or agreement;

(2) Use an enrollment contract form, catalog, brochure, or similar written material affecting the terms and conditions of student enrollment other than that previously submitted to the agency and authorized for use;

(3) Advertise in the help wanted section of a newspaper or otherwise represent falsely, directly or by implication, that the school is an employment agency, is making an offer of employment or otherwise is attempting to conceal the fact that what is being represented are course offerings of a school;

(4) Represent falsely, directly or by implication, that an educational program is approved by a particular industry or that successful completion of the program qualifies a student for admission to a labor union or similar organization or for the receipt of a state license in any business, occupation, or profession;

(5) Represent falsely, directly or by implication, that a student who successfully completes a course or program of instruction may transfer credit for the course or program to any institution of higher education;

(6) Represent falsely, directly or by implication, in advertising or in any other manner, the school's size, location, facilities, equipment, faculty qualifications, or the extent or nature of any approval received from an accrediting association;

(7) Represent that the school is approved, recommended, or endorsed by the state of Washington or by the agency, except the fact that the school is authorized to operate under this chapter may be stated;

(8) Provide prospective students with any testimonial, endorsement, or other information which has the tendency to mislead or deceive prospective students or the public regarding current practices of the school, current conditions for employment opportunities, or probable earnings in the occupation for which the education was designed;

(9) Designate or refer to sales representatives as "counselors," "advisors," or similar terms which have the tendency to mislead or deceive prospective students or the public regarding the authority or qualifications of the sales representatives;

(10) Make or cause to be made any statement or representation in connection with the offering of education if the school or agent knows or reasonably should have known the statement or representation to be false, substantially inaccurate, or misleading;

(11) Engage in methods of advertising, sales, collection, credit, or other business practices which are false, deceptive, misleading, or unfair, as determined by the agency by rule; or

(12) Attempt to recruit students in or within forty feet of a building that contains a welfare or unemployment office. Recruiting includes, but is not limited to canvassing and surveying. Recruiting does not include leaving materials at or

near an office for a person to pick up of his or her own accord, or handing a brochure or leaflet to a person provided that no attempt is made to obtain a name, address, telephone number, or other data, or to otherwise actively pursue the enrollment of the individual.

It is a violation of this chapter for an entity operating a private vocational school to engage in an unfair business practice. The agency may deny, revoke, or suspend the license of any entity that is found to have engaged in a substantial number of unfair business practices or that has engaged in significant unfair business practices. [2001 c 23 § 3; 1990 c 188 § 9; 1986 c 299 § 11.]

**28C.10.120 Complaints—Investigations—Hearings—Remedies—Transition assistance for students.** (1) Complaints may be filed under this chapter only by a person claiming loss of tuition or fees as a result of an unfair business practice. The complaint shall set forth the alleged violation and shall contain information required by the agency on forms provided for that purpose. A complaint may also be filed with the agency by an authorized staff member of the agency or by the attorney general.

(2) The agency shall investigate any complaint under this section and shall first attempt to bring about a negotiated settlement. The agency director or the director's designee may conduct an informal hearing with the affected parties in order to determine whether a violation has occurred.

(3) If the agency finds that the private vocational school or its agent engaged in or is engaging in any unfair business practice, the agency shall issue and cause to be served upon the violator an order requiring the violator to cease and desist from the act or practice and may impose the penalties provided under RCW 28C.10.130. If the agency finds that the complainant has suffered loss as a result of the act or practice, the agency may order the violator to pay full or partial restitution of any amounts lost. The loss may include any money paid for tuition, required or recommended course materials, and any reasonable living expenses incurred by the complainant during the time the complainant was enrolled at the school.

(4) The complainant is not bound by the agency's determination of restitution. The complainant may reject that determination and may pursue any other legal remedy.

(5) The violator may, within twenty days of being served any order described under subsection (3) of this section, file an appeal under the administrative procedure act, chapter 34.05 RCW. Timely filing stays the agency's order during the pendency of the appeal. If the agency prevails, the appellant shall pay the costs of the administrative hearing.

(6) If a private vocational school closes without providing adequate notice to its enrolled students, the agency shall provide transition assistance to the school's students including, but not limited to, information regarding: (a) Transfer options available to students; (b) financial aid discharge eligibility and procedures; (c) the labor market, job search strategies, and placement assistance services; and (d) other support services available to students. [2007 c 462 § 3; 1993 c 445 § 3; 1990 c 188 § 10; 1989 c 175 § 83; 1986 c 299 § 12.]

(2010 Ed.)

**28C.10.130 Violations—Civil penalties.** Any private vocational school or agent violating RCW 28C.10.060, 28C.10.090, or 28C.10.110 or the applicable agency rules is subject to a civil penalty of not more than one hundred dollars for each separate violation. Each day on which a violation occurs constitutes a separate violation. Multiple violations on a single day may be considered separate violations. The fine may be imposed by the agency under RCW 28C.10.120, or in any court of competent jurisdiction. [1986 c 299 § 13.]

**28C.10.140 Violations—Criminal sanctions.** Any entity or any owner, officer, agent, or employee of such entity who wilfully violates RCW 28C.10.060 or 28C.10.090 is guilty of a gross misdemeanor and, upon conviction, shall be punished by a fine of not to exceed one thousand dollars or by imprisonment in the county jail for not to exceed one year, or by both such fine and imprisonment.

Each day on which a violation occurs constitutes a separate violation. The criminal sanctions may be imposed by a court of competent jurisdiction in an action brought by the attorney general of this state. [1986 c 299 § 14.]

**28C.10.150 Actions resulting in jurisdiction of courts.** A private vocational school, whether located in this state or outside of this state, that conducts business of any kind, makes any offers, advertises, solicits, or enters into any contracts in this state or with a resident of this state is subject to the jurisdiction of the courts of this state for any cause of action arising from the acts. [1986 c 299 § 15.]

**28C.10.160 Educational records—Permanent file—Protection.** If any private vocational school discontinues its operation, the chief administrative officer of the school shall file with the agency the original or legible true copies of all educational records required by the agency. If the agency determines that any educational records are in danger of being made unavailable to the agency, the agency may seek a court order to protect and if necessary take possession of the records. The agency shall cause to be maintained a permanent file of educational records coming into its possession. [1986 c 299 § 16.]

**28C.10.170 Contracts voidable—When.** If a student or prospective student is a resident of this state at the time any contract relating to payment for education or any note, instrument, or other evidence of indebtedness relating thereto is entered into, RCW 28C.10.180 shall govern the rights of the parties to the contract or evidence of indebtedness. If a contract or evidence of indebtedness contains any of the following agreements, the contract is voidable at the option of the student or prospective student:

- (1) That the law of another state shall apply;
- (2) That the maker or any person liable on the contract or evidence of indebtedness consents to the jurisdiction of another state;
- (3) That another person is authorized to confess judgment on the contract or evidence of indebtedness; or
- (4) That fixes venue. [1986 c 299 § 17.]

**28C.10.180 Enforceability of debts—Authority to offer degree required.** A note, instrument, or other evidence of indebtedness or contract relating to payment for education is not enforceable in the courts of this state by a private vocational school or holder of the instrument unless the private vocational school was licensed under this chapter at the time the note, instrument, or other evidence of indebtedness or contract was entered into. The court may issue an injunction or grant any other appropriate form of relief. [1986 c 299 § 19.]

**28C.10.200 Injunctive relief—Agency may seek.** The agency may seek injunctive relief, after giving notice to the affected party, in a court of competent jurisdiction for a violation of this chapter or the rules adopted under this chapter. The agency need not allege or prove that the agency has no adequate remedy at law. The right of injunction provided in this section is in addition to any other legal remedy which the agency has and is in addition to any right of criminal prosecution provided by law. The existence of agency action with respect to alleged violations of this chapter and rules adopted under this chapter does not operate as a bar to an action for injunctive relief under this section. [1986 c 299 § 20.]

**28C.10.210 Violation of chapter unfair or deceptive practice under RCW 19.86.020.** A violation of this chapter or the rules adopted under this chapter affects the public interest and is an unfair or deceptive act or practice in violation of RCW 19.86.020 of the consumer protection act. **28C.18.005 Findings.** The legislature finds that the state's system of workforce training and education is inadequate for meeting the needs of the state's workers, employers, and economy. A growing shortage of skilled workers is already hurting the state's economy. There is a shortage of available workers and too often prospective employees lack the skills and training needed by employers. Moreover, with demographic changes in the state's population employers will need to employ a more culturally diverse workforce in the future.

The legislature further finds that the state's current workforce training and education system is fragmented among numerous agencies, councils, boards, and committees, with inadequate overall coordination. No comprehensive strategic plan guides the different parts of the system. There is no single point of leadership and responsibility. There is insufficient guidance from employers and workers built into the system to ensure that the system is responsive to the needs of its customers. Adult workforce education lacks a uniform system of governance, with an inefficient division in governance between community colleges and vocational technical institutes, and inadequate local authority. The parts of the system providing adult basic skills and literacy education are

especially uncoordinated and lack sufficient visibility to adequately address the needs of the large number of adults in the state who are functionally illiterate. The workforce training and education system's data and evaluation methods are inconsistent and unable to provide adequate information for determining how well the system is performing on a regular basis so that the system may be held accountable for the outcomes it produces. Much of the workforce training and education system provides inadequate opportunities to meet the needs of people from culturally diverse backgrounds. Finally, our public and private educational institutions are not producing the number of people educated in vocational/technical skills needed by employers.

The legislature recognizes that we must make certain that our public and private institutions of education place appropriate emphasis on the needs of employers and on the needs of the approximately eighty percent of our young people who enter the world of work without completing a four-year program of higher education. We must make our workforce education and training system better coordinated, more efficient, more responsive to the needs of business and workers and local communities, more accountable for its performance, and more open to the needs of a culturally diverse population. [1996 c 99 § 1; 1991 c 238 § 1.]

**28C.18.010 Definitions.** Unless the context clearly requires otherwise, the definitions in this section apply throughout this title.

(1) "Adult basic education" means instruction designed to achieve mastery of skills in reading, writing, oral communication, and computation at a level sufficient to allow the individual to function effectively as a parent, worker, and citizen in the United States, commensurate with that individual's actual ability level, and includes English as a second language and preparation and testing service for the general education development exam.

(2) "Board" means the workforce training and education coordinating board.

(3) "Director" means the director of the workforce training and education coordinating board.

(4) "Industry skill panel" means a regional partnership of business, labor, and education leaders that identifies skill gaps in a key economic cluster and enables the industry and public partners to respond to and be proactive in addressing workforce skill needs.

(5) "Training system" means programs and courses of secondary vocational education, technical college programs and courses, community college vocational programs and courses, private career school and college programs and courses, employer-sponsored training, adult basic education programs and courses, programs and courses funded by the federal workforce investment act, programs and courses funded by the federal vocational act, programs and courses funded under the federal adult education act, publicly funded programs and courses for adult literacy education, and apprenticeships, and programs and courses offered by private and public nonprofit organizations that are representative of communities or significant segments of communities and provide job training or adult literacy services.

(6) "Vocational education" means organized educational programs offering a sequence of courses which are directly

related to the preparation or retraining of individuals in paid or unpaid employment in current or emerging occupations requiring other than a baccalaureate or advanced degree. Such programs shall include competency-based applied learning which contributes to an individual's academic knowledge, higher-order reasoning, and problem-solving skills, work attitudes, general employability skills, and the occupational-specific skills necessary for economic independence as a productive and contributing member of society. Such term also includes applied technology education.

(7) "Workforce development council" means a local workforce investment board as established in P.L. 105-220 Sec. 117.

(8) "Workforce skills" means skills developed through applied learning that strengthen and reinforce an individual's academic knowledge, critical thinking, problem solving, and work ethic and, thereby, develop the employability, occupational skills, and management of home and work responsibilities necessary for economic independence. [2009 c 151 § 5; 2008 c 103 § 2; 1996 c 99 § 2; 1991 c 238 § 2.]

**Reviser's note:** The definitions in this section have been alphabetized pursuant to RCW 1.08.015(2)(k).

**Findings—Intent—2008 c 103:** "(1) The legislature finds that a skilled workforce is essential for employers and job seekers to compete in today's global economy. The engines of economic progress are fueled by education and training. The legislature further finds that industry skill panels are a critical and proven form of public-private partnership that harness the expertise of leaders in business, labor, and education to identify workforce development strategies for industries that drive Washington's regional economies. Industry skill panels foster innovation and enable industry leaders and public partners to be proactive, addressing changing needs for businesses quickly and strategically. Industry skill panels leverage small state investments with private sector investments to ensure that public resources are better aligned with industry needs.

(2) The legislature further finds that industry skill panels support other valuable initiatives such as the department of community, trade, and economic development's cluster-based economic development grants; the community and technical college centers of excellence, high-demand funds, and the job skills program; and the employment security department's incumbent worker training funds. Industry skill panels provide a framework for coordinating these and other investments in line with economic and workforce development strategies identified by industry leaders. It is the intent of the legislature to support the development and maintenance of industry skill panels in key sectors of the economy as an efficient and effective way to support regional economic development." [2008 c 103 § 1.]

**28C.18.020 Workforce training and education coordinating board.** (1) There is hereby created the workforce training and education coordinating board as a state agency and as the successor agency to the state board for vocational education. **28C.18.070 Intent—"Program" clarified.** (1) The legislature continues to recognize the vital role that workforce development efforts play in equipping the state's workers with the skills they need to succeed in an economy that requires higher levels of skill and knowledge. The legislature also recognizes that businesses are increasingly relying on the state's workforce development programs and expect them to be responsive to their changing skill requirements. The state benefits from a workforce development system that allows firms and workers to be highly competitive in global markets.

(2) The establishment of the workforce training and education coordinating board was an integral step in developing a strategic approach to workforce development. For the coordinating board to carry out its intended role, the board must be able to give unambiguous guidance to operating agencies, the governor, and the legislature. It is the intent of chapter 130, Laws of 1995, to clarify the preeminent role intended for the workforce training and education coordinating board in coordination and policy development of the state's workforce development efforts.

(3) In the event that federal workforce development funds are block granted to the state, it is the intent of the legislature to seek the broadest possible input, from local and statewide organizations concerned with workforce development, on the allocation of the federal funds.

(4) For purposes of RCW 28C.18.080 through 28C.18.110, the term "program" shall not refer to the activities of individual institutions such as individual community or technical colleges, common schools, service delivery

areas, or job service centers; nor shall it refer to individual fields of study or courses. [1995 c 130 § 1.]

(6) The board shall report to the appropriate legislative policy committees by December 1st of each year on its progress in implementing the comprehensive plan and on the progress of the operating agencies in meeting their obligations under the plan. **28C.18.090 Additional board duties—Program evaluation by operating agencies.**

(1) The board shall specify, by December 31, 1995, the common core data to be collected by the operating agencies of the state training system and the standards for data collection and maintenance required in RCW 28C.18.060(8).

(4) The board shall use the results of its outcome, net-impact, and cost-benefit evaluations to develop and make recommendations to the legislature and the governor for the

modification, consolidation, initiation, or elimination of workforce training and education programs in the state.

The board shall perform the requirements of this section in cooperation with the operating agencies. [1995 c 130 § 4.]

**28C.18.100 Assessments by board—Biennial report to legislature and governor.** The board shall, by January 1, 1996, and biennially thereafter: (1) Assess the total demand for training from the perspective of workers, and from the perspective of employers; (2) assess the available supply of publicly and privately provided training which workers and employers are demanding; (3) assess the costs to the state of meeting the demand; and (4) present the legislature and the governor with a strategy for bridging the gap between the supply and the demand for training services. (3) Report to the governor and the appropriate legislative committees its recommendations for any statutory changes necessary to enhance operational efficiencies or improve coordination. The board shall work with the operating agencies of the state's workforce development system to reduce administrative barriers that do not require statutory changes. [1995 c 130 § 6.]

(1) Facilitate ongoing collaboration among stakeholders in order to address the health care personnel shortage;

**Findings—2003 c 278:** "The legislature finds and declares:

(1) There is a severe shortage of health care personnel in Washington state;

(2) The shortage contributes to increased costs in health care and threatens the ability of the health care system to provide adequate and accessible services;

(3) The current shortage of health care personnel is structural rather than the cyclical shortages of the past, and this is due to demographic

changes that will increase demand for health care services;

(4) An increasing proportion of the population will reach retirement age, and an increasing proportion of health care personnel will also reach retirement age; and

(5) There should be continuing collaboration among health care workforce stakeholders to address the shortage of health care personnel." [2003 c 278 § 1.]

**28C.18.130 Industry skill panels—Grants—Role.** (1) Subject to funding provided for the purposes of this section, the board, in consultation with the state board for community and technical colleges, the \*department of community, trade, and economic development, and the employment security department, shall allocate grants on a competitive basis to establish and support industry skill panels.

(2) The board shall work in cooperation with the state board for community and technical colleges to report the preliminary results of the studies to the appropriate committees of the legislature by December 1, 2008, and a final report by December 1, 2009. [2008 c 258 § 2.]

**Expiration date—2008 c 258 §§ 2-4:** "Sections 2 through 4 of this act expire December 31, 2012." [2008 c 258 § 5.]

**Findings—Intent—2008 c 258:** "The legislature finds that there are many working adults in Washington that need additional postsecondary educational opportunities to further develop their employability. The legislature further finds that many of these people postpone or call off their personal educational plans because they are busy working and raising their families. Because the largest portion of our workforce over the next thirty years is already employed but in need of skill development, and because many low-wage, low-skilled, and mid-skilled individuals cannot take advantage of postsecondary educational opportunities as they currently exist, the legislature intends to identify and test additional postsecondary educational opportunities tailored to make postsecondary education accessible to working adults through the use of campuses extended to include workplace-based educational offerings." Local workforce development councils shall submit their strategic plans to the board for review and to the governor for approval.

(2) The strategic plan shall clearly articulate the connection between workforce and economic development efforts in the local area including the area industry clusters and the strategic clusters the community is targeting for growth. The plan shall include, but is not limited to:

(a) Each opportunity internship graduate shall be eligible for up to one year of financial assistance for postsecondary education as provided in RCW 28B.92.084;

(b) Each opportunity internship graduate who completes a postsecondary program of study shall receive a job interview with an employer participating in an opportunity internship consortium that has agreed to provide such interviews; and

(c) For each opportunity internship graduate who completes a postsecondary program of study, obtains employment in a high-demand occupation that pays a starting salary or wages of not less than thirty thousand dollars per year, and remains employed for at least six months, the participating opportunity internship consortium shall be eligible to receive an incentive payment as provided in RCW 28C.18.168.

(2) The opportunity internship program shall be administered by the board and the board may adopt rules to implement the program. [2009 c 238 § 2.]

**Findings—Intent—2009 c 238:** "(1) The legislature finds that moving low-income high school students efficiently through a progression of career exploration, internships or preapprenticeships in high-demand occupations, and completion of postsecondary education benefits these students by increasing the relevance of their high school education, increasing their connection to the working world, accelerating their entry into a high-demand occupation, and increasing their earnings and opportunities.

(2) The legislature further finds that in a difficult economy, youth unemployment rates increase sharply. Providing paid internships and preapprenticeships to high school students creates not only an immediate short-term economic stimulus in local communities, but also creates the potential to sustain that economic recovery by making students better prepared for postsecondary education and employment in the types of occupations that will generate economic growth over the long term.

(3) The legislature further finds that moving students efficiently through secondary and postsecondary education reduces state expenditures by improving on-time graduation and postsecondary retention and increases state revenues by providing for graduates with higher lifelong earnings and taxpaying potential.

(4) Employers and local economies benefit from the development of a long-term relationship with potential employees and a more consistent pipeline of skilled workers into the occupations for which they are having the most trouble finding skilled workers.

(5) Therefore the legislature intends to provide incentives for local consortia of employers, labor organizations, educational institutions, and workforce and economic development councils to use existing funds to build educational and employment pipelines to high-demand occupations for low-income high school students." [2009 c 238 § 1.]

**Outcome evaluation—2009 c 238:** "(1) The workforce training and education coordinating board shall conduct an outcome evaluation of opportunity internship programs. At a minimum, the analysis shall examine the financial benefits of on-time graduation, youth employment while in high school, postsecondary education enrollment and completion, and adult employment in high-demand occupations compared to the local and state costs of the programs.

(2) The board shall submit a preliminary analysis to the governor and the education and higher education committees of the legislature by December 1, 2012, and a final analysis by December 1, 2014." [2009 c 238 § 11.]

**28C.18.162 Opportunity internship program—Definitions.** Unless the context clearly requires otherwise, the definitions in this section apply throughout this section and RCW 28C.18.160 and 28C.18.164 through 28C.18.168.

(1) "High-demand occupation" means an occupation with a substantial number of current or projected employment opportunities.

(2) "Low-income high school student" means a student who is enrolled in grades ten, eleven, or twelve in a public high school and who qualifies for federal free or reduced-price meals. If a student qualifies at the time the student begins participating in the opportunity internship program, the student remains eligible even if the student does not receive free or reduced-price meals thereafter. To participate in the program, the student must remain enrolled in high school until the student receives a high school diploma.

(3) "Opportunity internship consortium" means a local consortium formed for the purpose of participating in the opportunity internship program and which may be composed of a local workforce development council, economic development council, area high schools, community or technical colleges, apprenticeship councils, preapprenticeship programs such as running start for the trades, private vocational schools licensed under chapter 28C.10 RCW, public and private four-year institutions of higher education, employers in targeted industries, and labor organizations.

(4) "Opportunity internship graduate" means a low-income high school student who successfully completes an opportunity internship program and graduates from high school.

(5) "Postsecondary program of study" means an undergraduate or graduate certificate, apprenticeship, or degree program.

(6) "Preapprenticeship" means a program of at least ninety hours and not more than one hundred eighty hours in length that provides practical experience, education, preparation, and the development of skills that would be beneficial for entry into state-approved apprenticeship programs, including but not limited to construction industry structure and the construction process; orientation to state-approved apprenticeship; tools of the various trades and safe handling of power tools; and industry standards of safety, responsibility, and craft excellence.

(7) "Targeted industry" means a business or industry identified by a local workforce development council as having high-demand occupations that require candidates to have completed a postsecondary program of study. [2009 c 238 § 3.]

**Findings—Intent—2009 c 238:** See note following RCW 28C.18.160.

**28C.18.164 Opportunity internship program—Opportunity internship consortia—Contracts—Federal funds.** (1) Opportunity internship consortia may apply to the board to offer an opportunity internship program.

(a) The board, in consultation with the Washington state apprenticeship and training council, may select those consortia that demonstrate the strongest commitment and readiness to implement a high quality opportunity internship program for low-income high school students. The board shall place a priority on consortia with demonstrated experience working with similar populations of students and demonstrated capacity to assist a large number of students through the progression of internship or preapprenticeship, high school graduation, postsecondary education, and retention in a high-

demand occupation. The board shall place a priority on programs that emphasize secondary career and technical education and nonbaccalaureate postsecondary education; however, programs that target four-year postsecondary degrees are eligible to participate.

(b)(i) Except as provided in (b)(ii) of this subsection (1), the board shall enter into a contract with each consortium selected to participate in the program. No more than ten consortia per year shall be selected to participate in the program, and to the extent possible, the board shall assure a geographic distribution of consortia in regions across the state emphasizing a variety of targeted industries. Each consortium may select no more than one hundred low-income high school students per year to participate in the program.

(ii) For fiscal years 2011 through 2013, the board shall enter into a contract with each consortium selected to participate in the program. No more than twelve consortia per year shall be selected to participate in the program, and to the extent possible, the board shall assure a geographic distribution of consortia in regions across the state emphasizing a variety of targeted industries. No more than five thousand low-income high school students per year may be selected to participate in the program.

(2) Under the terms of an opportunity internship program contract, an opportunity internship consortium shall commit to the following activities which shall be conducted using existing federal, state, local, or private funds available to the consortium:

(a) Identify high-demand occupations in targeted industries for which opportunity internships or preapprenticeships shall be developed and provided;

(b) Develop and implement the components of opportunity internships, including paid or unpaid internships or preapprenticeships of at least ninety hours in length in high-demand occupations with employers in the consortium, mentoring and guidance for students who participate in the program, assistance with applications for postsecondary programs and financial aid, and a guarantee of a job interview with a participating employer for all opportunity internship graduates who successfully complete a postsecondary program of study;

(c) Once the internship or preapprenticeship components have been developed, conduct outreach efforts to inform low-income high school students about high-demand occupations, the opportunity internship program, options for postsecondary programs of study, and the incentives and opportunities provided to students who participate in the program;

(d) Obtain appropriate documentation of the low-income status of students who participate in the program;

(e) Maintain communication with opportunity internship graduates of the consortium who enroll in postsecondary programs of study; and

(f) Submit an annual report to the board on the progress of and participation in the opportunity internship program of the consortium.

(3) Opportunity internship consortia are encouraged to:

(a) Provide paid opportunity internships or preapprenticeships, including during the summer months to encourage students to stay enrolled in high school;

(b) Work with high schools to offer opportunity internships as approved worksite learning experiences where students can earn high school credit;

(c) Designate the local workforce development council as fiscal agent for the opportunity internship program contract;

(d) Work with area high schools to incorporate the opportunity internship program into comprehensive guidance and counseling programs such as the navigation 101 program; and

(e) Coordinate the opportunity internship program with other workforce development and postsecondary education programs, including opportunity grants, the college bound scholarship program, federal workforce investment act initiatives, and college access challenge grants.

(4) The board shall seek federal funds that may be used to support the opportunity internship program, including providing the incentive payments under RCW 28C.18.168. [2010 1st sp.s. c 24 § 4; 2009 c 238 § 4.]

**Findings—Intent—2010 1st sp.s. c 24:** See note following RCW 28C.04.390.

**Findings—Intent—2009 c 238:** See note following RCW 28C.18.160.

**28C.18.166 Opportunity internship program—List of consortium graduates—Notifying higher education coordinating board of state need grant eligibility.** On an annual basis, each opportunity internship consortium shall provide the board with a list of the opportunity internship graduates from the consortium. The board shall compile the lists from all consortia and shall notify the higher education coordinating board of the eligibility of each graduate on the lists to receive a state need grant under chapter 28B.92 RCW if the graduate enrolls in a postsecondary program of study within one year of high school graduation. [2009 c 238 § 5.]

**Findings—Intent—2009 c 238:** See note following RCW 28C.18.160.

**28C.18.168 Opportunity internship program—List of employed graduates—Verification—Incentive payments.** (1) On an annual basis, each opportunity internship consortium shall provide the board with a list of the opportunity internship graduates from the consortium who have completed a postsecondary program of study, obtained employment in a high-demand occupation that pays a starting salary or wages of not less than thirty thousand dollars per year, and remained employed for at least six months.

(2) The board shall verify the information on the lists from each consortium. Subject to funds appropriated or otherwise available for this purpose, the board shall allocate to each consortium an incentive payment of two thousand dollars for each graduate on the consortium's list. In the event that insufficient funds are appropriated to provide a full payment, the board shall prorate payments across all consortia and shall notify the governor and the legislature of the amount of the shortfall.

(3) Opportunity internship consortia shall use the incentive payments to continue operating opportunity internship programs. [2009 c 238 § 6.]

**Findings—Intent—2009 c 238:** See note following RCW 28C.18.160.

**28C.18.170 Green industry skill panels—Prioritization of workforce training programs.** (1) The legislature directs the board to create and pilot green industry skill panels. These panels shall consist of business representatives from industry sectors related to clean energy, labor unions representing workers in those industries or labor affiliates administering state-approved, joint apprenticeship programs or labor-management partnership programs that train workers for these industries, state and local veterans agencies, employer associations, educational institutions, and local workforce development councils within the region that the panels propose to operate, and other key stakeholders as determined by the applicant. Any of these stakeholder organizations are eligible to receive grants under this section and serve as the intermediary that convenes and leads the panel. Panel applicants must provide labor market and industry analysis that demonstrates high demand, or demand of strategic importance to the development of the state's clean energy economy as identified in this section, for middle or high-wage occupations, or occupations that are part of career pathways to the same, within the relevant industry sector. The panel shall, in consultation with the department and the \*leadership team:

(a) Conduct labor market and industry analyses, in consultation with the employment security department, and drawing on the findings of its research when available;

(b) Recommend strategies to meet the recruitment and training needs of the industry and small businesses; and

(c) Recommend strategies to leverage and align other public and private funding sources.

(2) The board may prioritize workforce training programs that lead to a credential, certificate, or degree in green economy jobs. For purposes of this section, green economy jobs include those in the primary industries of a green economy, including clean energy, high-efficiency building, green transportation, and environmental protection. Prioritization efforts may include but are not limited to: (a) Prioritization of the use of high employer-demand funding for workforce training programs in green economy jobs; (b) increased outreach efforts to public utilities, education, labor, government, and private industry to develop tailored, green job training programs; and (c) increased outreach efforts to target populations. Outreach efforts may be conducted in partnership with local workforce development councils.

(3) The definitions in RCW 43.330.010 apply to this section. [2009 c 536 § 8.]

Upon receipt of such certification, the county treasurer shall make the transfer from any available and appropriate city, town, or district funds to the county current expense fund or to the county election reserve fund if such a fund is established. Each city, town, or district must be promptly notified by the county treasurer whenever such transfer has been completed. However, in those districts wherein a treasurer, other than the county treasurer, has been appointed such transfer procedure does not apply, but the district shall promptly issue its warrant for payment of election costs. A review conducted under this chapter shall not include any evaluation, finding, or recommendation regarding the validity of the outcome of a primary or election or the validity of any canvass of returns nor does the election review staff have any jurisdiction to make such an evaluation, finding, or recommendation under this title.

(3) The county auditor or the county canvassing board shall respond to the review report in writing, listing the steps that will be taken to correct any problems listed in the report.
