## PREFACE

**Numbering system:** The number of each section of this code is made up of three parts, in sequence as follows: Number of title; number of chapter within the title; number of section within the chapter. Thus RCW 1.04.020 is Title 1, chapter 4, section 20. The section part of the number (.020) is initially made up of three digits, constitutes a true decimal, and allows for new sections to be inserted between old sections already consecutively numbered, merely by adding one or more digits at the end of the number. In most chapters of the code, sections have been numbered by tens (.010, .020, .030, .040, etc.), leaving vacant numbers between existing sections so that new sections may be inserted without extension of the section number beyond three digits.

**Citation to the Revised Code of Washington:** The code should be cited as RCW; see RCW 1.04.040. An RCW title should be cited Title 7 RCW. An RCW chapter should be cited chapter 7.24 RCW. An RCW section should be cited RCW 7.24.010. Through references should be made as RCW 7.24.010 through 7.24.100. Series of sections should be cited as RCW 7.24.010, 7.24.020, and 7.24.030.

**History of the Revised Code of Washington; Source notes:** The Revised Code of Washington was adopted by the legislature in 1950; see chapter 1.04 RCW. The original publication (1951) contained material variances from the language and organization of the session laws from which it was derived, including a variety of divisions and combinations of the session law sections. During 1953 through 1959, the Statute Law Committee, in exercise of the powers in chapter 1.08 RCW, completed a comprehensive study of these variances and, by means of a series of administrative orders or reenactment bills, restored each title of the code to reflect its session law source, but retaining the general codification scheme originally adopted. An audit trail of this activity has been preserved in the concluding segments of the source note of each section of the code so affected. The legislative source of each section is enclosed in brackets [ ] at the end of the section. Reference to session laws is abbreviated; thus "1891 c 23 § 1; 1854 p 99 § 135" refers to section 1, chapter 23, Laws of 1891 and section 135, page 99, Laws of 1854. "Prior" indicates a break in the statutory chain, usually a repeal and reenactment. "RRS or Rem. Supp.—" indicates the parallel citation in Remington's Revised Code, last published in 1949.

Where, before restoration, a section of this code constituted a consolidation of two or more sections of the session laws, or of sections separately numbered in Remington's, the line of derivation is shown for each component section, with each line of derivation being set off from the others by use of small Roman numerals, "(i)," "(ii)," etc.

Where, before restoration, only a part of a session law section was reflected in a particular RCW section the history note reference is followed by the word "part."

"Formerly" and its correlative form "FORMER PART OF SECTION" followed by an RCW citation preserves the record of original codification.

**Double amendments:** Some double or other multiple amendments to a section made without reference to each other are set out in the code in smaller (8-point) type. See RCW 1.12.025.

**Index:** Titles 1 through 91 are indexed in the RCW General Index. A separate index is provided for the State Constitution.

**Sections repealed or decodified; Disposition table:** Information concerning RCW sections repealed or decodified can be found in the table entitled "Disposition of former RCW sections."

**Codification tables:** To convert a session law citation to its RCW number (for Laws of 1999 or later) consult the codification tables. A complete codification table, including Remington's Revised Statutes, is on the Code Reviser web site at <http://www.leg.wa.gov/codereviser>.

**Notes:** Notes that are more than ten years old have been removed from the print publication of the RCW except when retention has been deemed necessary to preserve the full intent of the law. All notes are displayed in the electronic copy of the RCW on the Code Reviser web site at <http://www.leg.wa.gov/codereviser>.

**Errors or omissions:** (1) Where an obvious clerical error has been made in the law during the legislative process, the code reviser adds a corrected word, phrase, or punctuation mark in [brackets] for clarity. These additions do not constitute any part of the law.

(2) Although considerable care has been taken in the production of this code, it is inevitable that in so large a work that there will be errors, both mechanical and of judgment. When those who use this code detect errors in particular sections, a note citing the section involved and the nature of the error may be sent to: Code Reviser, Box 40551, Olympia, WA 98504-0551, so that correction may be made in a subsequent publication.

**28A.150.198 Finding—Intent—2009 c 548.** (1) Public education in Washington state has evolved since the enactment of the Washington basic education act of 1977. Decisions by the courts have played a part in this evolution, as have studies and research about education practices and education funding. The legislature finds ample evidence of a need for continuing to refine the program of basic education that is funded by the state and delivered by school districts.

(2) The legislature reaffirms the work of Washington Learns and other educational task forces that have been convened over the past four years and their recommendations to make bold reforms to the entire educational system in order to educate all students to a higher level; to focus on the individualized instructional needs of students; to strive towards closing the achievement gap and reducing dropout rates; and to prepare students for a constantly evolving workforce and increasingly demanding global economy. In enacting this legislation, the legislature intends to continue to review, evaluate, and revise the definition and funding of basic education in order to continue to fulfill the state obligation under Article IX of the state Constitution. The legislature also intends to continue to strengthen and modify the structure of the entire K-12 educational system, including nonbasic education programmatic elements, in order to build the capacity to anticipate and support potential future enhancements to basic education as the educational needs of our citizens continue to evolve.

(3) The legislature recognizes that the first step in revising the definition and funding of basic education is to create a transparent funding system for both allocations and expenditures so that not only policymakers and educators understand how the state supports basic education but also taxpayers. An adequate data system that enables the legislature to make rational, data-driven decisions on which educational programs impact student learning in order to more effectively and efficiently deliver the resources necessary to provide an ample program of basic education is also a necessity. A new prototypical funding system will allow the legislature to better understand how current resources are being used. A more complete and accurate educational data system will allow the legislature to understand whether current basic education programs are supporting student learning. Only with both of these systems in place can the legislature make informed decisions on how to best implement a dynamic and evolving system of basic education.

(4) For practical and educational reasons, major changes of the program of basic education and the funding formulas to support it cannot occur instantaneously. The legislature intends to build upon the previous efforts of the legislature and the basic education task force in order to develop a realistic implementation strategy for a new instructional program after technical experts develop the details of the prototypical schools funding formulas and the data and reporting system that will support a new instructional program. The legislature also intends to establish a formal structure for monitoring the implementation by the legislature of an evolving program of basic education and the financing necessary to support such a program. The legislature intends that the redefined program

of basic education and funding for the program be fully implemented by 2018.

(5) It is the further intent of the legislature to also address additional issues that are of importance to the legislature but are not part of basic education. [2009 c 548 § 1.]

**Intent—2009 c 548:** "It is the intent of the legislature that specified policies and allocation formulas adopted under this act will constitute the legislature's definition of basic education under Article IX of the state Constitution once fully implemented. The legislature intends, however, to continue to review and revise the formulas and schedules and may make additional revisions, including revisions for technical purposes and consistency in the event of mathematical or other technical errors." [2009 c 548 § 2.]

**Finding—2009 c 548:** See note following RCW 28A.410.270.

**Intent—Finding—2009 c 548:** See note following RCW 28A.305.130.

**28A.150.200 Basic education act—Program contents—As meeting constitutional requirements. (Effective until September 1, 2011.)** \*This 1977 amendatory act shall be known and may be cited as "The Washington Basic Education Act of 1977." The program evolving from the Basic Education Act shall include (1) the goal of the school system as defined in RCW 28A.150.210, (2) those program requirements enumerated in RCW 28A.150.220, and (3) the determination and distribution of state resources as defined in RCW 28A.150.250 and 28A.150.260.

The requirements of the Basic Education Act are deemed by the legislature to comply with the requirements of Article IX, section 1 of the state Constitution, which states that "It is the paramount duty of the state to make ample provision for the education of all children residing within its borders, without distinction or preference on account of race, color, caste, or sex," and are adopted pursuant to Article IX, section 2 of the state Constitution, which states that "The legislature shall provide for a general and uniform system of public schools." [1990 c 33 § 104; 1977 ex.s. c 359 § 1. Formerly RCW 28A.58.750.]

(Effective until September 1, 2011.)** The goal of the basic education act for the schools of the state of Washington set forth in this chapter shall be to provide students with the opportunity to become responsible and respectful global citizens, to contribute to their economic well-being and that of their families and communities, to explore and understand different perspectives,

and to enjoy productive and satisfying lives. Additionally, the state of Washington intends to provide for a public school system that is able to evolve and adapt in order to better focus on strengthening the educational achievement of all students, which includes high expectations for all students and gives all students the opportunity to achieve personal and academic success. To these ends, the goals of each school district, with the involvement of parents and community members, shall be to provide opportunities for every student to develop the knowledge and skills essential to:

(1) Read with comprehension, write effectively, and communicate successfully in a variety of ways and settings and with a variety of audiences;

(2) Know and apply the core concepts and principles of mathematics; social, physical, and life sciences; civics and history, including different cultures and participation in representative government; geography; arts; and health and fitness;

(3) Think analytically, logically, and creatively, and to integrate different experiences and knowledge to form reasoned judgments and solve problems; and

(4) Understand the importance of work and finance and how performance, effort, and decisions directly affect future career and educational opportunities. [2007 c 400 § 1; 1993 c 336 § 101; (1992 c 141 § 501 repealed by 1993 c 336 § 1203); 1977 ex.s. c 359 § 2. Formerly RCW 28A.58.752.]

**Captions not law—2007 c 400:** "Captions used in this act are not any part of the law." [2007 c 400 § 9.]

**Findings—Intent—1993 c 336:** "The legislature finds that student achievement in Washington must be improved to keep pace with societal changes, changes in the workplace, and an increasingly competitive international economy.

To increase student achievement, the legislature finds that the state of Washington needs to develop a public school system that focuses more on the educational performance of students, that includes high expectations for all students, and that provides more flexibility for school boards and educators in how instruction is provided.

The legislature further finds that improving student achievement will require:

(1) Establishing what is expected of students, with standards set at internationally competitive levels;

(2) Parents to be primary partners in the education of their children, and to play a significantly greater role in local school decision making;

(3) Students taking more responsibility for their education;

(4) Time and resources for educators to collaboratively develop and implement strategies for improved student learning;

(5) Making instructional programs more relevant to students' future plans;

(6) All parties responsible for education to focus more on what is best for students; and

(7) An educational environment that fosters mutually respectful interactions in an atmosphere of collaboration and cooperation.

It is the intent of the legislature to provide students the opportunity to achieve at significantly higher levels, and to provide alternative or additional instructional opportunities to help students who are having difficulty meeting the essential academic learning requirements in RCW 28A.630.885.

It is also the intent of the legislature that students who have met or exceeded the essential academic learning requirements be provided with alternative or additional instructional opportunities to help advance their educational experience.

The provisions of chapter 336, Laws of 1993 shall not be construed to change current state requirements for students who receive home-based instruction under chapter 28A.200 RCW, or for students who attend state-approved private schools under chapter 28A.195 RCW." [1993 c 336 § 1.]

**Findings—1993 c 336:** "(1) The legislature finds that preparing students to make successful transitions from school to work helps promote educational, career, and personal success for all students.

(2) A successful school experience should prepare students to make

informed career direction decisions at critical points in their educational progress. Schools that demonstrate the relevancy and practical application of course work will expose students to a broad range of interrelated career and educational opportunities and will expand students' posthigh school options.

(3) The school-to-work transitions program, under chapter 335, Laws of 1993, is intended to help secondary schools develop model programs for school-to-work transitions. The purposes of the model programs are to provide incentives for selected schools to:

- (a) Integrate vocational and academic instruction into a single curriculum;
  - (b) Provide each student with a choice of multiple, flexible educational pathways based on the student's career interest areas;
  - (c) Emphasize increased vocational and academic guidance and counseling for students;
  - (d) Foster partnerships with local employers and employees to incorporate work sites as part of work-based learning experiences;
  - (e) Encourage collaboration among middle or junior high schools and secondary schools in developing successful transition programs and to encourage articulation agreements between secondary schools and community and technical colleges.
- (4) The legislature further finds that successful implementation of the school-to-work transitions program is an important part of achieving the purposes of chapter 336, Laws of 1993." [1993 c 336 § 601.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**Findings—Purpose—2006 c 263:** "In 2005, the legislature reconstituted the state board of education to refocus its purpose; abolished the academic achievement and accountability commission; and assigned policy and rule-making authority for educator preparation and certification to the professional educator standards board. The purpose of this act is to address the remaining statutory responsibilities of the state board of education held before 2005. The legislature finds that some duties should be retained with the reconstituted board; many duties should be transferred to other agencies or organizations, primarily but not exclusively to the superintendent of public instruction; and some duties should be repealed. This act also corrects statutes to implement fully the transfer of responsibilities authorized in 2005." [2006 c 263 § 1.]

**28A.150.250 Annual basic education allocation—Full funding—Withholding of funds for noncompliance. (Effective September 1, 2011.)** (1) From those funds made available by the legislature for the current use of the common schools, the superintendent of public instruction shall distribute annually as provided in RCW 28A.510.250 to each school district of the state operating a basic education instructional program approved by the state board of education an amount based on the formulas provided in RCW 28A.150.260, 28A.150.390, and 28A.150.392 which, when combined with an appropriate portion of such locally available revenues, other than receipts from federal forest revenues distributed to school districts pursuant to RCW 28A.520.010 and 28A.520.020, as the superintendent of public instruction may deem appropriate for consideration in computing state equalization support, excluding excess property tax levies, will constitute a basic education allocation in dollars for each annual average full-time equivalent student enrolled.

(2) The instructional program of basic education shall be considered to be fully funded by those amounts of dollars appropriated by the legislature pursuant to RCW 28A.150.260, 28A.150.390, and 28A.150.392 to fund those program requirements identified in RCW 28A.150.220 in accordance with the formula provided in RCW 28A.150.260 and those amounts of dollars appropriated by the legislature to fund the salary requirements of RCW 28A.150.410.

(3) If a school district's basic education program fails to meet the basic education requirements enumerated in RCW 28A.150.260 and 28A.150.220, the state board of education shall require the superintendent of public instruction to withhold state funds in whole or in part for the basic education allocation until program compliance is assured. However, the state board of education may waive this requirement in the event of substantial lack of classroom space. **28A.150.260 Annual basic education allocation of funds according to average FTE student enrollment—Procedure to determine distribution formula—Submittal to legislature—Enrollment, FTE student, certificated and classified staff, defined. (Effective until September 1, 2011.)** The basic education allocation for each annual average full time equivalent student shall be determined in accordance with the following procedures:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula based on a ratio of students to staff for the distribution of a basic education allocation for each annual average full time equivalent student enrolled in a common school. The distribution formula shall have the primary objective of equalizing educational opportunities and shall provide appropriate recognition of the following costs among the various districts within the state:

(a) Certificated instructional staff and their related costs;  
(b) Certificated administrative staff and their related costs;

(c) Classified staff and their related costs;

(d) Nonsalary costs;

(e) Extraordinary costs, including school facilities, of remote and necessary schools as judged by the superintendent of public instruction, with recommendations from the school facilities citizen advisory panel under RCW 28A.525.025, and small high schools, including costs of additional certificated and classified staff; and

(f) The attendance of students pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district.

(2)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to approval, amendment or rejection by the legislature. The formula shall be for allocation purposes only. While the legislature intends that the allocations for additional instructional staff be used to increase the ratio of such staff to students, nothing in this section shall require districts to reduce the number of administrative staff below existing levels.

(b) The formula adopted by the legislature shall reflect the following ratios at a minimum: (i) Forty-nine certificated instructional staff to one thousand annual average full time equivalent students enrolled in grades kindergarten through three; (ii) forty-six certificated instructional staff to one thousand annual average full time equivalent students in grades four through twelve; (iii) four certificated administrative staff

to one thousand annual average full time equivalent students in grades kindergarten through twelve; and (iv) sixteen and sixty-seven one-hundredths classified personnel to one thousand annual average full time equivalent students enrolled in grades kindergarten through twelve.

(c) In the event the legislature rejects the distribution formula recommended by the governor, without adopting a new distribution formula, the distribution formula for the previous school year shall remain in effect: PROVIDED, That the distribution formula developed pursuant to this section shall be for state apportionment and equalization purposes only and shall not be construed as mandating specific operational functions of local school districts other than those program requirements identified in RCW 28A.150.220 and 28A.150.100. The enrollment of any district shall be the annual average number of full time equivalent students and part time students as provided in RCW 28A.150.350, enrolled on the first school day of each month and shall exclude full time equivalent students with disabilities recognized for the purposes of allocation of state funds for programs under RCW 28A.155.010 through 28A.155.100. The definition of full time equivalent student shall be determined by rules of the superintendent of public instruction: PROVIDED, That the definition shall be included as part of the superintendent's biennial budget request: PROVIDED, FURTHER, That any revision of the present definition shall not take effect until approved by the house appropriations committee and the senate ways and means committee: PROVIDED, FURTHER, That the office of financial management shall make a monthly review of the superintendent's reported full time equivalent students in the common schools in conjunction with RCW 43.62.050.

(3)(a) Certificated instructional staff shall include those persons employed by a school district who are nonsupervisory employees within the meaning of RCW 41.59.020(8): PROVIDED, That in exceptional cases, people of unusual competence but without certification may teach students so long as a certificated person exercises general supervision: PROVIDED, FURTHER, That the hiring of such classified people shall not occur during a labor dispute and such classified people shall not be hired to replace certificated employees during a labor dispute.

(b) Certificated administrative staff shall include all those persons who are chief executive officers, chief administrative officers, confidential employees, supervisors, principals, or assistant principals within the meaning of RCW 41.59.020(4). **28A.150.260 Allocation of state funding to support instructional program of basic education—Distribution formula—Prototypical schools—Enhancements and adjustments—Review and approval—Enrollment calculation. (Effective September 1, 2011.)** The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.155, 28A.165, 28A.180, or 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;

(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and

(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

(4)(a) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on the following general education average class size of full-time equivalent students per teacher:

	General education average class size
Grades K-3 . . . . .	.25.23
Grade 4 . . . . .	.27.00
Grades 5-6 . . . . .	.27.00
Grades 7-8 . . . . .	.28.53
Grades 9-12 . . . . .	.28.74

(b) During the 2011-2013 biennium and beginning with schools with the highest percentage of students eligible for free and reduced-price meals in the prior school year, the general education average class size for grades K-3 shall be

reduced until the average class size funded under this subsection (4) is no more than 17.0 full-time equivalent students per teacher beginning in the 2017-18 school year.

(c) The minimum allocation for each prototypical middle and high school shall also provide for full-time equivalent classroom teachers based on the following number of full-time equivalent students per teacher in career and technical education:

	Career and technical education average class size
Approved career and technical education offered at the middle school and high school level . . . . .	.26.57
Skill center programs meeting the standards established by the office of the superintendent of public instruction. . . . .	.22.76

(d) In addition, the omnibus appropriations act shall at a minimum specify:

(i) A high-poverty average class size in schools where more than fifty percent of the students are eligible for free and reduced-price meals; and

(ii) A specialty average class size for laboratory science, advanced placement, and international baccalaureate courses.

(5) The minimum allocation for each level of prototypical school shall include allocations for the following types of staff in addition to classroom teachers:

	Elementary School	Middle School	High School
Principals, assistant principals, and other certificated building-level administrators . . . . .	1.253	1.353	1.880
Teacher librarians, a function that includes information literacy, technology, and media to support school library media programs . . . . .	0.663	0.519	0.523
Health and social services:			
School nurses . . . . .	0.076	0.060	0.096
Social workers . . . . .	0.042	0.006	0.015
Psychologists . . . . .	0.017	0.002	0.007
Guidance counselors, a function that includes parent outreach and graduation advising . . . . .	0.493	1.116	1.909
Teaching assistance, including any aspect of educational instructional services provided by classified employees . . . . .	0.936	0.700	0.652
Office support and other noninstructional aides . . . . .	2.012	2.325	3.269
Custodians . . . . .	1.657	1.942	2.965
Classified staff providing student and staff safety . . . . .	0.079	0.092	0.141
Parent involvement coordinators . . . . .	0.00	0.00	0.00

(6)(a) The minimum staffing allocation for each school district to provide district-wide support services shall be allocated per one thousand annual average full-time equivalent students in grades K-12 as follows:

	Staff per 1,000 K-12 students
Technology . . . . .	.0.628
Facilities, maintenance, and grounds . . . . .	.1.813
Warehouse, laborers, and mechanics . . . . .	.0.332

(b) The minimum allocation of staff units for each school district to support certificated and classified staffing of central administration shall be 5.30 percent of the staff units generated under subsections (4)(a) and (b) and (5) of this section and (a) of this subsection.

(7) The distribution formula shall include staffing allocations to school districts for career and technical education and skill center administrative and other school-level certificated staff, as specified in the omnibus appropriations act.

(8)(a) Except as provided in (b) of this subsection, the minimum allocation for each school district shall include

allocations per annual average full-time equivalent student for the following materials, supplies, and operating costs, to be adjusted for inflation from the 2008-09 school year:

	Per annual average full-time equivalent student in grades K-12
Technology . . . . .	\$54.43
Utilities and insurance . . . . .	\$147.90
Curriculum and textbooks . . . . .	\$58.44
Other supplies and library materials . . . . .	\$124.07
Instructional professional development for certified and classified staff . . . . .	\$9.04
Facilities maintenance . . . . .	\$73.27
Security and central office . . . . .	\$50.76

(b) During the 2011-2013 biennium, the minimum allocation for maintenance, supplies, and operating costs shall be increased as specified in the omnibus appropriations act. The following allocations, adjusted for inflation from the 2007-08 school year, are provided in the 2015-16 school year, after which the allocations shall be adjusted annually for inflation as specified in the omnibus appropriations act:

	Per annual average full-time equivalent student in grades K-12
Technology . . . . .	\$113.80
Utilities and insurance . . . . .	\$309.21
Curriculum and textbooks . . . . .	\$122.17
Other supplies and library materials . . . . .	\$259.39
Instructional professional development for certificated and classified staff . . . . .	\$18.89
Facilities maintenance . . . . .	\$153.18
Security and central office administration . . . . .	\$106.12

(9) In addition to the amounts provided in subsection (8) of this section, the omnibus appropriations act shall provide an amount based on full-time equivalent student enrollment in each of the following:

- (a) Exploratory career and technical education courses for students in grades seven through twelve;
- (b) Laboratory science courses for students in grades nine through twelve;
- (c) Preparatory career and technical education courses for students in grades nine through twelve offered in a high school; and
- (d) Preparatory career and technical education courses for students in grades eleven and twelve offered through a skill center.

(10) In addition to the allocations otherwise provided under this section, amounts shall be provided to support the following programs and services:

(a) To provide supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065, allocations shall be based on the district percentage of students in grades K-12 who were eligible for free or reduced-price meals in the prior school year. The minimum allocation for the program shall provide for each level of prototypical school resources to provide, on a statewide average, 1,5156 hours per week in extra instruction with a class size of fifteen learning assistance program students per teacher.

(b) To provide supplemental instruction and services for students whose primary language is other than English, allocations shall be based on the head count number of students in each school who are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall provide resources to provide, on a statewide average, 4,7780 hours per week in extra instruction with fifteen transitional bilingual instruction program students per teacher.

(c) To provide additional allocations to support programs for highly capable students under RCW 28A.185.010 through 28A.185.030, allocations shall be based on two and three hundred fourteen one-thousandths percent of each school district's full-time equivalent basic education enrollment. The minimum allocation for the programs shall provide resources to provide, on a statewide average, 2,1590 hours per week in extra instruction with fifteen highly capable program students per teacher.

(11) The allocations under subsections (4)(a) and (b), (5), (6), and (8) of this section shall be enhanced as provided under RCW 28A.150.390 on an excess cost basis to provide supplemental instructional resources for students with disabilities.

(12)(a) For the purposes of allocations for prototypical high schools and middle schools under subsections (4) and (10) of this section that are based on the percent of students in the school who are eligible for free and reduced-price meals, the actual percent of such students in a school shall be adjusted by a factor identified in the omnibus appropriations act to reflect underreporting of free and reduced-price meal eligibility among middle and high school students.

(b) Allocations or enhancements provided under subsections (4), (7), and (9) of this section for exploratory and preparatory career and technical education courses shall be provided only for courses approved by the office of the superintendent of public instruction under chapter 28A.700 RCW.

(13)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to approval, amendment or rejection by the legislature.

(b) In the event the legislature rejects the distribution formula recommended by the governor, without adopting a new distribution formula, the distribution formula for the previous school year shall remain in effect.

(c) The enrollment of any district shall be the annual average number of full-time equivalent students and part-time students as provided in RCW 28A.150.350, enrolled on the first school day of each month, including students who are in attendance pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district. The definition of full-time equivalent student shall be determined by rules of the superintendent of public instruction and shall be included as part of the superintendent's biennial budget request. The definition shall be based on the minimum instructional hour offerings required under RCW 28A.150.220. Any revision of the present definition shall not take effect until approved by the house ways and means committee and the senate ways and means committee.

(d) The office of financial management shall make a monthly review of the superintendent's reported full-time

equivalent students in the common schools in conjunction with RCW 43.62.050. **Effective date—2010 c 236 §§ 2, 3, 4, 8, 10, 13, and 14:** "Sections 2, 3, 4, 8, 10, 13, and 14 of this act take effect September 1, 2011." [2010 c 236 § 19.]

**Intent—2010 c 236:** "(1) It is the legislature's intent to continue implementation of chapter 548, Laws of 2009, by adopting the technical details of a new distribution formula for the instructional program of basic education and authorizing a phase-in of implementation of a new distribution formula for pupil transportation, both to take effect during the 2011-2013 biennium. Unless otherwise stated, the numeric values adopted in section 2 of this act represent the translation of 2009-10 state funding levels for the basic education act into the funding factors of the prototypical school funding formula, based on the expert advice and extensive work of the funding formula technical working group established by the legislature for this purpose. The legislature intends to continue to review and revise the formulas and may make revisions as necessary for technical purposes and consistency in the event of mathematical or other technical errors.

(2) The legislature intends that per-pupil basic education funding for a school district shall not be decreased as a result of the transition of basic education funding formulas in effect during the 2009-2011 biennium to the new funding formulas under RCW 28A.150.260 that take effect during the 2011-2013 biennium.

(3) It is also the legislature's intent to begin phasing-in enhancements to the baseline funding levels of 2009-10 in the 2011-2013 biennium for pupil transportation, class size allocations for grades kindergarten through three, full-day kindergarten, and allocations for maintenance, supplies, and operating costs.

(4) Finally, it is the legislature's intent to adjust the timelines for other working groups so that their expertise and advice can be received as soon as possible and to make technical adjustments to certain provisions of chapter 548, Laws of 2009." [2010 c 236 § 1.]

**28A.150.262 Defining full-time equivalent student—Students receiving instruction through alternative learning experience online programs—Requirements—Rules.** Under RCW 28A.150.260, the superintendent of public instruction shall revise the definition of a full-time equivalent student to include students who receive instruction through alternative learning experience online programs. As used in this section, an "alternative learning experience online program" is a set of online courses or an online school program as defined in RCW 28A.250.010 that is delivered to students

in whole or in part independently from a regular classroom schedule. The superintendent of public instruction has the authority to adopt rules to implement the revised definition beginning with the 2005-2007 biennium for school districts claiming state funding for the programs. The rules shall include but not be limited to the following:

(1) Defining a full-time equivalent student under RCW 28A.150.260 or part-time student under RCW 28A.150.350 based upon the district's estimated average weekly hours of learning activity as identified in the student's learning plan, as long as the student is found, through monthly evaluation, to be making satisfactory progress; the rules shall require districts providing programs under this section to nonresident students to establish procedures that address, at a minimum, the coordination of student counting for state funding so that no student is counted for more than one full-time equivalent in the aggregate;

(2) Requiring the board of directors of a school district offering, or contracting under RCW 28A.150.305 to offer, an alternative learning experience online program to adopt and annually review written policies for each program and program provider and to receive an annual report on its digital alternative learning experience online programs from its staff;

(3) Requiring each school district offering or contracting to offer an alternative learning experience online program to report annually to the superintendent of public instruction on the types of programs and course offerings, and number of students participating;

(4) Requiring completion of a program self-evaluation;

(5) Requiring documentation of the district of the student's physical residence;

(6) Requiring that supervision, monitoring, assessment, and evaluation of the alternative learning experience online program be provided by certificated instructional staff;

(7) Requiring each school district offering courses or programs to identify the ratio of certificated instructional staff to full-time equivalent students enrolled in such courses or programs, and to include a description of their ratio as part of the reports required under subsections (2) and (3) of this section;

(8) Requiring reliable methods to verify a student is doing his or her own work; the methods may include proctored examinations or projects, including the use of web cams or other technologies. "Proctored" means directly monitored by an adult authorized by the school district;

(9) Requiring, for each student receiving instruction in an alternative learning experience online program, a learning plan that includes a description of course objectives and information on the requirements a student must meet to successfully complete the program or courses. The rules shall allow course syllabi and other additional information to be used to meet the requirement for a learning plan;

(10) Requiring that the district assess the educational progress of enrolled students at least annually, using, for full-time students, the state assessment for the student's grade level and using any other annual assessments required by the school district. Part-time students shall also be assessed at least annually. However, part-time students who are either receiving home-based instruction under chapter 28A.200 RCW or who are enrolled in an approved private school

under chapter 28A.195 RCW are not required to participate in the assessments required under chapter 28A.655 RCW. The rules shall address how students who reside outside the geographic service area of the school district are to be assessed;

(11) Requiring that each student enrolled in the program have direct personal contact with certificated instructional staff at least weekly until the student completes the course objectives or the requirements in the learning plan. Direct personal contact is for the purposes of instruction, review of assignments, testing, evaluation of student progress, or other learning activities. Direct personal contact may include the use of telephone, e-mail, instant messaging, interactive video communication, or other means of digital communication;

(12) Requiring state-funded public schools or public school programs whose primary purpose is to provide alternative learning experience online learning programs to receive accreditation through the Northwest association of accredited schools or another national, regional, or state accreditation program listed by the office of the superintendent of public instruction after consultation with the Washington coalition for online learning;

(13) Requiring state-funded public schools or public school programs whose primary purpose is to provide alternative learning experience online learning to provide information to students and parents on whether or not the courses or programs: Cover one or more of the school district's learning goals or of the state's essential academic learning requirements or whether they permit the student to meet one or more of the state's or district's graduation requirements; and

(14) Requiring that a school district that provides one or more alternative learning experience online courses to a student provide the parent or guardian of the student, prior to the student's enrollment, with a description of any difference between home-based education as described in chapter 28A.200 RCW and the enrollment option selected by the student. The parent or guardian shall sign documentation attesting to his or her understanding of the difference and the documentation shall be retained by the district and made available for audit. [2009 c 542 § 9; 2005 c 356 § 2.]

**Findings—Intent—2005 c 356:** "The legislature finds that digital learning courses and programs can provide students with opportunities to study subjects that may not otherwise be available within the students' schools, school districts, or communities. These courses can also meet the instructional needs of students who have scheduling conflicts, students who learn best from technology-based instructional methods, and students who have a need to enroll in schools on a part-time basis. Digital learning courses can also meet the needs of students and families seeking nontraditional learning environments. The legislature further finds that the state rules used by school districts to support some digital learning courses were adopted before these types of courses were created, so the rules are not well-suited to the funding and delivery of digital instruction. It is the intent of the legislature to clarify the funding and delivery requirements for digital learning courses." [2005 c 356 § 1.]

**28A.150.270 Annual basic education allocation of funds according to average FTE student enrollment—Procedure for crediting portion for school building purposes.** The board of directors of a school district may, by properly executed resolution, request that the superintendent of public instruction direct a portion of the district's basic education allocation be credited to the district's capital

projects fund and/or bond redemption fund. Moneys so credited shall be used solely for school building purposes. [1985 c 7 § 89; 1980 c 154 § 13. Formerly RCW 28A.41.143.]

This section does not apply to students enrolled in the running start program established in RCW 28A.600.310. [1995 c 77 § 4; 1993 c 223 § 1.]

(2) The superintendent of public instruction shall have the authority to make rules and regulations which establish the terms and conditions for allowing school districts to receive state basic education moneys as provided in RCW 28A.150.250 when said districts are unable to fulfill for one or more schools as officially scheduled the requirement of a full school year of one hundred eighty days or the annual average total instructional hour offering imposed by RCW 28A.150.220 and 28A.150.260 due to one or more of the following conditions:

(a) An unforeseen natural event, including, but not necessarily limited to, a fire, flood, explosion, storm, earthquake, epidemic, or volcanic eruption that has the direct or indirect effect of rendering one or more school district facilities unsafe, unhealthy, inaccessible, or inoperable; and

(b) An unforeseen mechanical failure or an unforeseen action or inaction by one or more persons, including negligence and threats, that (i) is beyond the control of both a school district board of directors and its employees and (ii) has the direct or indirect effect of rendering one or more school district facilities unsafe, unhealthy, inaccessible, or inoperable. **28A.150.392 Special education funding—Safety net awards—Rules—Annual survey and report—Safety net oversight committee. (Effective September 1, 2011.)** (1) To the extent necessary, funds shall be made available for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided through the special education funding formula under RCW 28A.150.390. If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in any fiscal year, then the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider additional funds for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards. In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state revenues related to services for special education-eligible students and all federal revenues from federal impact aid, medicaid, and the individuals with disabilities education act-Part B and appropriate special projects. Awards associated with (b) and (c) of this subsection shall not exceed the total of a district's specific determination of need.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philoso-

phy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services, which may include consideration of proximity to group homes, military bases, and regional hospitals. Safety net awards under this subsection (1)(c) shall be adjusted to reflect amounts awarded under (b) of this subsection.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent of public instruction in accordance with chapter 318, Laws of 1999.

(f) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(2) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Before revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature. In adopting and revising the rules, the superintendent shall ensure the application process to access safety net funding is streamlined, timelines for submission are not in conflict, feedback to school districts is timely and provides sufficient information to allow school districts to understand how to correct any deficiencies in a safety net application, and that there is consistency between awards approved by school district and by application period. The office of the superintendent of public instruction shall also provide technical assistance to school districts in preparing and submitting special education safety net applications.

(3) On an annual basis, the superintendent shall survey districts regarding their satisfaction with the safety net process and consider feedback from districts to improve the safety net process. Each year by December 1st, the superintendent shall prepare and submit a report to the office of financial management and the appropriate policy and fiscal committees of the legislature that summarizes the survey results and those changes made to the safety net process as a result of the school district feedback.

(4) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff member from the office of the superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding. [2009 c 548 § 109.]

**28A.150.400 Apportionment factors to be based on current figures—Rules and regulations.** State and county funds which may become due and apportionable to school districts shall be apportioned in such a manner that any apportionment factors used shall utilize data and statistics derived in the school year that such funds are paid: PROVIDED, That the superintendent of public instruction may make necessary administrative provision for the use of estimates, and corresponding adjustments to the extent necessary: PROVIDED FURTHER, That as to those revenues used in determining the amount of state funds to be apportioned to school districts pursuant to RCW 28A.150.250, any apportionment factors shall utilize data and statistics derived in an annual period established pursuant to rules and regulations promulgated by the superintendent of public instruction in cooperation with the department of revenue. **28A.155.020 Administration of program in the office of the superintendent of public instruction—Adoption of definitions by rule—Local school district powers not limited.** There is established in the office of the superintendent of public instruction an administrative section or unit for the

education of children with disabilities who require special education.

Students with disabilities are those children whether enrolled in school or not who through an evaluation process are determined eligible for special education due to a disability.

In accordance with part B of the federal individuals with disabilities education improvement act and any other federal or state laws relating to the provision of special education services, the superintendent of public instruction shall require each school district in the state to insure an appropriate educational opportunity for all children with disabilities between the ages of three and twenty-one, but when the twenty-first birthday occurs during the school year, the educational program may be continued until the end of that school year. The superintendent of public instruction, by rule, shall establish for the purpose of excess cost funding, as provided in RCW 28A.150.390, 28A.160.030, and 28A.155.010 through 28A.155.160, functional definitions of special education, the various types of disabling conditions, and eligibility criteria for special education programs for children with disabilities, including referral procedures, use of aversive interventions, the education curriculum and statewide or district-wide assessments, parent and district requests for special education due process hearings, and procedural safeguards. For the purposes of RCW 28A.155.010 through 28A.155.160, an appropriate education is defined as an education directed to the unique needs, abilities, and limitations of the children with disabilities who are enrolled either full time or part time in a school district. School districts are strongly encouraged to provide parental training in the care and education of the children and to involve parents in the classroom.

Nothing in this section shall prohibit the establishment or continuation of existing cooperative programs between school districts or contracts with other agencies approved by the superintendent of public instruction, which can meet the obligations of school districts to provide education for children with disabilities, or prohibit the continuation of needed related services to school districts by the department of social and health services.

This section shall not be construed as in any way limiting the powers of local school districts set forth in RCW 28A.155.070. [2007 c 115 § 2; 1995 c 77 § 8; 1990 c 33 § 121; 1985 c 341 § 4; 1984 c 160 § 1; 1971 ex.s. c 66 § 2; 1969 ex.s. c 2 § 2; 1969 ex.s. c 223 § 28A.13.010. **28A.155.105 Braille instruction—Definitions.** Unless the context clearly requires otherwise, the definitions in this section apply in RCW 28A.155.115.

(1) "Student" means a student who:

- (a) Has a visual acuity of 20/200 or less in the better eye with conventional correction or having a limited field of vision such that the widest diameter of the visual field subtends an angular distance not greater than twenty degrees;
- (b) Is unable to read printed material at a competitive rate with facility due to functional visual impairment or lack of visual acuity; or
- (c) Has a physical condition with a medical prognosis of a significant visual deterioration to the extent that (a) or (b) of this subsection could apply.

(2) "Braille" means the system of reading and writing through touch commonly known as standard English Braille. [1996 c 135 § 2.]

**Findings—1996 c 135:** "It is the goal of the legislature to encourage persons who are blind or visually impaired to participate fully in the social and economic life of the state and to engage in remunerative employment. The legislature finds that literacy is essential to the achievement of this goal. Furthermore, the legislature finds that literacy for most persons who are blind or visually impaired means the ability to read and write Braille with proficiency. The legislature sets as a further goal that students who are legally blind or visually impaired shall be given the opportunity to learn Braille in order to communicate effectively and efficiently." [1996 c 135 § 1.]

**28A.155.115 Braille instruction—Assessment—Provision in student's curriculum.** (1) Each student shall be assessed individually to determine the appropriate learning media for the student including but not limited to Braille.

(2) No student may be denied the opportunity for instruction in Braille reading and writing solely because the student has some remaining vision.

(3) This section does not require the exclusive use of Braille if there are other special education services to meet the student's educational needs. The provision of special education or other services does not preclude Braille use or instruction.

(4) If a student's individualized learning media assessment indicates that Braille is an appropriate learning medium, instruction in Braille shall be provided as a part of such student's educational curriculum and if such student has an individualized education program, such instruction shall be provided as part of that program.

(5) If Braille will not be provided to a student, the reason for not incorporating it in the student's individualized education program shall be documented in writing and provided to the parent or guardian. If no individualized education program exists, such documentation, signed by the parent or guardian, shall be placed in the student's file. [2007 c 115 § 13; 1996 c 135 § 3.]

**Findings—1996 c 135:** See note following RCW 28A.155.105.

**28A.155.140 Curriculum-based assessment procedures for early intervening services.** School districts may use curriculum-based assessment procedures as measures for developing academic early intervening services, as defined under part B of the federal individuals with disabilities education improvement act, and curriculum planning: PROVIDED, That the use of curriculum-based assessment procedures shall not deny a student the right to use of other assessments to determine eligibility or participation in special education programs as provided by RCW 28A.155.010 through 28A.155.160. [2007 c 115 § 14; 1991 c 116 § 4; 1990 c 33 § 131; 1987 c 398 § 1. Formerly RCW 28A.03.367.]

**28A.155.160 Assistive devices and services—Inter-agency cooperative agreements—Definitions.** Notwithstanding any other provision of law, the office of the superintendent of public instruction, the department of early learning, the Washington state center for childhood deafness and hearing loss, the Washington state school for the blind, school districts, educational service districts, and all other state and local government educational agencies and the department of services for the blind, the department of social and health services, and all other state and local government agencies concerned with the care, education, or habilitation or rehabilitation of children with disabilities may enter into interagency cooperative agreements for the purpose of providing assistive technology devices and services to children with disabilities. Such arrangements may include but are not limited to interagency agreements for the acquisition, including joint funding, maintenance, loan, sale, lease, or transfer of assistive technology devices and for the provision of assistive technology services including but not limited to assistive technology assessments and training.

For the purposes of this section, "assistive device" means any item, piece of equipment, or product system, whether acquired commercially off-the-shelf, modified, or customized, that is used to increase, maintain, or improve functional capabilities of children with disabilities. The term "assistive technology service" means any service that directly assists a child with a disability in the selection, acquisition, or use of an assistive technology device. Assistive technology service includes:

- (1) The evaluation of the needs of a child with a disability, including a functional evaluation of the child in the child's customary environment;
- (2) Purchasing, leasing, or otherwise providing for the acquisition of assistive technology devices by children with disabilities;
- (3) Selecting, designing, fitting, customizing, adapting, applying, retaining, repairing, or replacing of assistive technology devices;
- (4) Coordinating and using other therapies, interventions, or services with assistive technology devices, such as those associated with existing education and rehabilitation plans and programs;
- (5) Training or technical assistance for a child with a disability or if appropriate, the child's family; and
- (6) Training or technical assistance for professionals, including individuals providing education and rehabilitation services, employers, or other individuals who provide ser-

vices to, employ, or are otherwise substantially involved in the major life functions of children with disabilities. [2009 c 381 § 24; 2007 c 115 § 15; 1997 c 104 § 3.]

(2) Participation in a graduation ceremony and receipt of a certificate of attendance under this section does not preclude a student from continuing to receive special education and related services under an individualized education program beyond the graduation ceremony.

(3) A student's participation in a graduation ceremony and receipt of a certificate of attendance under this section shall not be construed as the student's receipt of either:

(a) A high school diploma pursuant to RCW 28A.230.120; or

(b) A certificate of individual achievement pursuant to RCW 28A.155.045. [2007 c 318 § 2.]

**Findings—2007 c 318:** "The legislature finds:

(1) There are students with disabilities throughout the state of Washington who have attended four years of high school, but whose individualized education programs prescribe the continuation of special education and related services beyond the fourth year of high school;

(2) Through their participation in the public schools and the community, students with disabilities have frequently become identified with and connected to a class of typically developing, age-appropriate peers who will graduate in four years and participate in a high school graduation ceremony;

(3) A high school graduation ceremony is an important rite of passage for students regardless of their abilities or limitations; and

(4) There is significant value in recognizing students' attendance and accomplishments in their individualized education programs and in allowing students with disabilities to participate in high school graduation ceremonies and activities with their age-appropriate peers without the forfeiture of their continuing special education and related services." [2007 c 318 § 1.]

**Short title—2007 c 318:** "This act may be known and cited as Kevin's law." [2007 c 318 § 3.]

[2007 c 400 § 8.]

**Captions not law—2007 c 400:** See note following RCW 28A.150.210.

**28A.155.190 Information on autism.** (1) To the extent funds are appropriated for this purpose, by September 1, 2008, the office of the superintendent of public instruction, in collaboration with the department of health, the department of social and health services, educational service districts, local school districts, the autism center at the University of Washington, and the autism society of Washington, shall distribute information on child find responsibilities under Part B and Part C of the federal individuals with disabilities education act, as amended, to agencies, districts, and schools that participate in the location, evaluation, and identification of children who may be eligible for early intervention services or special education services.

(2) To the extent funds are made available, by September 1, 2008, the office of the superintendent of public instruction, in collaboration with the department of health and the department of social and health services, shall develop posters to be distributed to medical offices and clinics, grocery stores, and other public places with information on autism and how parents can gain access to the diagnosis and identification of autism and contact information for services and support. These must be made available on the internet for ease of distribution. [2008 c 220 § 2.]

A school district is authorized to provide for the transportation of students enrolled in the school or schools of the district both in the case of students who reside within the boundaries of the district and of students who reside outside the boundaries of the district.

When children are transported from one school district to another the board of directors of the respective districts may enter into a written contract providing for a division of the cost of such transportation between the districts.

School districts may use school buses and drivers hired by the district or commercial chartered bus service for the transportation of school children and the school employees necessary for their supervision to and from any school activities within or without the school district during or after school hours and whether or not a required school activity, so long as the school board has officially designated it as a school activity. For any extra-curricular uses, the school board shall charge an amount sufficient to reimburse the district for its cost.

In addition to the right to contract for the use of buses provided in RCW 28A.160.080 and 28A.160.090, any school district may contract to furnish the use of school buses of that district to other users who are engaged in conducting an educational or recreational program supported wholly or in part by tax funds or programs for elderly persons at times when those buses are not needed by that district and under such terms as will fully reimburse such school district for all costs related or incident thereto: PROVIDED, HOWEVER, That no such use of school district buses shall be permitted except where other public or private transportation certificated or licensed by the Washington utilities and transportation commission is not reasonably available to the user: PROVIDED FURTHER, That no user shall be required to accept any chartered bus for services which the user believes might place the health or safety of the children or elderly persons in jeopardy.

Whenever any persons are transported by the school district in its own motor vehicles and by its own employees, the board may provide insurance to protect the district against loss, whether by reason of theft, fire or property damage to the motor vehicle or by reason of liability of the district to persons from the operation of such motor vehicle.

The board may provide insurance by contract purchase for payment of hospital and medical expenses for the benefit of persons injured while they are on, getting on, or getting off any vehicles enumerated herein without respect to any fault or liability on the part of the school district or operator. This insurance may be provided without cost to the persons notwithstanding the provisions of RCW 28A.400.350.

If the transportation of children or elderly persons is arranged for by contract of the district with some person, the board may require such contractor to procure such insurance as the board deems advisable. **28A.160.180 Student transportation allocation—Allocation rates, adjustment—District-owned passenger cars—Report. (Effective until September 1, 2011.)** Each district's annual student transportation allocation shall be based on differential rates determined by the superintendent of public instruction in the following manner:

(1) The superintendent shall annually calculate a standard student mile allocation rate for determining the transpor-

tation allocation for those services provided for in RCW 28A.160.150. "Standard student mile allocation rate," as used in this chapter, means the per mile allocation rate for transporting an eligible student. The standard student mile allocation rate may be adjusted to include such additional differential factors as distance; restricted passenger load; circumstances that require use of special types of transportation vehicles; student with disabilities load; and small fleet maintenance.

(2) For transportation services for students living within one radius mile from school, the allocation shall be based on the number of students in grades kindergarten through five living within one radius mile as specified in the biennial appropriations act.

(3) The superintendent of public instruction shall annually calculate allocation rate(s), which shall include vehicle amortization, for determining the transportation allocation for transporting students in district-owned passenger cars, as defined in RCW 46.04.382, pursuant to RCW 28A.160.010 for services provided for in RCW 28A.160.150 if a school district deems it advisable to use such vehicles after the school district board of directors has considered the safety of the students being transported as well as the economy of utilizing a district-owned passenger car in lieu of a school bus.

(4) Prior to June 1st of each year the superintendent shall submit to the office of financial management, and the committees on education and ways and means of the senate and house of representatives a report outlining the methodology and rationale used in determining the allocation rates to be used the following year. (1) The superintendent shall annually calculate the transportation allocation for those services provided for in RCW 28A.160.150. The allocation formula may be adjusted to include such additional differential factors as basic and special passenger counts as defined by the superintendent of public instruction, average distance to school, and number of locations served.

(2) The allocation shall be based on a regression analysis of the number of basic and special students transported and as many other site characteristics that are identified as being statistically significant.

(3) The transportation allocation for transporting students in district-owned passenger cars, as defined in RCW 46.04.382, pursuant to RCW 28A.160.010 for services provided for in RCW 28A.160.150 if a school district deems it advisable to use such vehicles after the school district board of directors has considered the safety of the students being transported as well as the economy of utilizing a district-owned passenger car in lieu of a school bus is the private vehicle reimbursement rate in effect on September 1st of each

school year. Students transported in district-owned passenger cars must be included in the corresponding basic or special passenger counts.

(4) Prior to June 1st of each year the superintendent shall submit to the office of financial management, and the education and fiscal committees of the legislature, a report outlining the methodology and rationale used in determining the statistical coefficients for each site characteristic used to determine the allocation for the following year. **28A.160.192 Student transportation allocation—Distribution formula. (Effective September 1, 2011.)** (1) The superintendent of public instruction shall phase-in the implementation of the distribution formula under this chapter for allocating state funds to school districts for the transportation of students to and from school. The phase-in shall begin no later than the 2011-2013 biennium and be fully implemented by the 2013-2015 biennium.

(a) The formula must be developed and revised on an ongoing basis using the major cost factors in student transportation, including basic and special student loads, school district land area, average distance to school, roadway miles, and number of locations served. Factors must include all those site characteristics that are statistically significant after analysis of the data required by the revised reporting process.

(b) The formula must allocate funds to school districts based on the average predicted costs of transporting students to and from school, using a regression analysis.

(2) During the phase-in period, funding provided to school districts for student transportation operations shall be distributed on the following basis:

(a) Annually, each school district shall receive the lesser of the previous school year's pupil transportation operations allocation, or the total of allowable pupil transportation expenditures identified on the previous school year's final expenditure report to the state plus district indirect expenses using the state recovery rate identified by the superintendent; and

(b) Annually, any funds appropriated by the legislature in excess of the maintenance level funding amount for student transportation shall be distributed among school districts on a prorated basis using the difference between the amount identified in (a) of this subsection and the amount determined under the formula in RCW 28A.160.180. [2010 c 236 § 8; 2009 c 548 § 311.]

**28A.160.1921 Student transportation reporting requirements—Updates and progress reports.** (*Expires June 30, 2015.*) (1) The superintendent of public instruction shall develop, implement, and provide a copy of the rules specifying the student transportation reporting requirements to the legislature and school districts no later than December 1, 2010.

(2) Beginning in December 2010, and continuing until December 2014, the superintendent shall provide quarterly updates and progress reports to the fiscal committees of the legislature on the implementation and testing of the distribution formula.

(3) This section expires June 30, 2015. [2010 c 236 § 9.]

**Intent—2010 c 236:** See note following RCW 28A.150.260.

**28A.160.195 Vehicle acquisition—School bus categories—Competitive specifications—Purchase—Reimbursement—Rules.** (1) The superintendent of public instruction, in consultation with the regional transportation coordinators of the educational service districts, shall establish a minimum number of school bus categories considering the capacity and type of vehicles required by school districts in Washington. The superintendent, in consultation with the regional transportation coordinators of the educational service districts, shall establish competitive specifications for each category of school bus. The categories shall be developed to produce minimum long-range operating costs, including costs of equipment and all costs in operating the vehicles. The competitive specifications shall meet federal motor vehicle safety standards, minimum state specifications as established by rule by the superintendent, and supported options as determined by the superintendent in consultation with the regional transportation coordinators of the educational service districts. The superintendent may solicit and accept price quotes for a rear-engine category school bus that shall be reimbursed at the price of the corresponding front engine category.

(2) After establishing school bus categories and competitive specifications, the superintendent of public instruction shall solicit competitive price quotes for base buses from school bus dealers to be in effect for one year and shall establish a list of all accepted price quotes in each category obtained under this subsection. The superintendent shall also solicit price quotes for optional features and equipment.

(3) The superintendent shall base the level of reimbursement to school districts and educational service districts for school buses on the lowest quote for the base bus in each category. School districts and educational service districts shall be reimbursed for buses purchased only through a lowest-price competitive bid process conducted under RCW 28A.335.190 or through the state bid process established by this section.

(4) Notwithstanding RCW 28A.335.190, school districts and educational service districts may purchase at the quoted price directly from any dealer who is on the list established under subsection (2) of this section. School districts and educational service districts may make their own selections for school buses, but shall be reimbursed at the rates determined

under subsection (3) of this section and RCW 28A.160.200. District-selected options shall not be reimbursed by the state.

(5) This section does not prohibit school districts or educational service districts from conducting their own competitive bid process.

(6) The superintendent of public instruction may adopt rules under chapter 34.05 RCW to implement this section. [2005 c 492 § 1; 2004 c 276 § 904; 1995 1st sp.s. c 10 § 1.]

**28A.160.200 Vehicle acquisition—Reimbursement schedule—Maintenance and operation—Depreciation schedule.** (1) The superintendent shall develop a reimbursement schedule to pay districts for the cost of student transportation vehicles purchased after September 1, 1982. While it is the responsibility of each district to select and pay for each student transportation vehicle purchased by the district, each district shall be paid a sum based on the category of vehicle, anticipated lifetime of vehicles of this category, and state reimbursement rate for the category plus inflation as recognized by the reimbursement schedule established in this section as set by the superintendent. Categories and reimbursement rates of vehicles shall be those established under RCW 28A.160.195. The accumulated value of the payments and the potential investment return thereon shall be designed to be equal to the replacement cost of the vehicle less its salvage value at the end of its anticipated lifetime. The superintendent shall revise at least annually the reimbursement payments based on the current and anticipated future cost of comparable categories of transportation equipment. Reimbursements to school districts for approved transportation equipment shall be placed in a separate transportation vehicle fund established for each school district under RCW 28A.160.130. However, educational service districts providing student transportation services pursuant to RCW 28A.310.180(4) and receiving moneys generated pursuant to this section shall establish and maintain a separate transportation vehicle account in the educational service district's general expense fund for the purposes and subject to the conditions under RCW 28A.160.130 and 28A.320.300.

(2) To the extent possible, districts shall operate vehicles acquired under this section not less than the number of years or useful lifetime now, or hereafter, assigned to the category of vehicles by the superintendent. School districts shall properly maintain the transportation equipment acquired under the provisions of this section, in accordance with rules established by the office of the superintendent of public instruction. If a district fails to follow generally accepted standards of maintenance and operation, the superintendent of public instruction shall penalize the district by deducting from future reimbursements under this section an amount equal to the original cost of the vehicle multiplied by the fraction of the useful lifetime or miles the vehicle failed to operate.

(3) The superintendent shall annually develop a depreciation schedule to recognize the cost of depreciation to districts contracting with private carriers for student transportation. Payments on this schedule shall be a straight line depreciation based on the original cost of the appropriate category

of vehicle. [1995 1st sp.s. c 10 § 2; 1990 c 33 § 146; 1987 c 508 § 4; 1981 c 265 § 6. Formerly RCW 28A.41.540.]

**28A.160.205 School bus replacement incentive program—Rules.** (1) The office of the superintendent of public instruction shall implement a school bus replacement incentive program. As part of the program, the office shall fund up to ten percent of the cost of a new 2007 or later model year school bus that meets the 2007 federal motor vehicle emission control standards and is purchased by a school district by no later than June 30, 2009, provided that the new bus is replacing a 1994 or older school bus in the school district's fleet. Replacement of the oldest buses must be given highest priority.

(2) The office of the superintendent of public instruction shall ensure that buses being replaced through this program are surplus under RCW 28A.335.180. As part of the surplus process, school districts must provide written documentation to the office of the superintendent of public instruction demonstrating that buses being replaced are scrapped and not purchased for road use. The documentation must include bus make, model, year, vehicle identification number, engine make, engine serial number, and salvage yard receipts; and must demonstrate that the engine and body of the bus being replaced has been rendered unusable.

(3) The office of the superintendent of public instruction may adopt any rules necessary for the implementation of chapter 348, Laws of 2007. [2007 c 348 § 101.]

**Reviser's note:** 2007 c 348 directed that this section be added to chapter 28A.300 RCW. This section has been added to chapter 28A.160 RCW, which relates more directly to school bus acquisition.

**Findings—Part headings not law—2007 c 348:** See RCW 43.325.005 and 43.325.903.

**28A.160.210 School bus drivers—Training and qualifications—Rules.** In addition to other powers and duties, the superintendent of public instruction shall adopt rules governing the training and qualifications of school bus drivers. Such rules shall be designed to insure that persons will not be employed to operate school buses unless they possess such physical health and driving skills as are necessary to safely operate school buses: PROVIDED, That such rules shall insure that school bus drivers are provided a due process hearing before any certification required by such rules is cancelled: PROVIDED FURTHER, That such rules shall not conflict with the authority of the department of licensing to license school bus drivers in accordance with chapter 46.25 RCW. The superintendent of public instruction may obtain a copy of the driving record, as maintained by the department of licensing, for consideration when evaluating a school bus driver's driving skills. Services shall be directed at assisting students in kindergarten through twelfth grade in overcoming problems of drug and alcohol abuse, and in preventing abuse and addiction to such substances, including nicotine. The grants shall require local matching funds so that the grant amounts support a maximum of eighty percent of the costs of the services funded. The services of a substance abuse intervention specialist may be obtained by means of a contract with a state or community services agency or a drug treatment center. Services provided by a substance abuse intervention specialist may include:

- (a) Individual and family counseling, including preventive counseling;
- (b) Assessment and referral for treatment;
- (c) Referral to peer support groups;

**28A.170.090 Selection of grant recipients—Program rules.**

(1) The superintendent of public instruction shall select school districts and cooperatives of school districts to receive grants for drug and alcohol abuse prevention and intervention programs for students in kindergarten through twelfth grade, from funds appropriated by the legislature for this purpose. The minimum annual grant amount per district or cooperative of districts shall be twenty thousand dollars. Factors to be used in selecting proposals for funding and in determining grant awards shall be developed in consultation with the substance abuse advisory committee appointed under RCW 28A.170.050, with the intent of targeting funding to districts with high-risk populations. These factors may include:

- (a) Characteristics of the school attendance areas to be served, such as the number of students from low-income families, truancy rates, juvenile justice referrals, and social services caseloads;
- (b) The total number of students who would have access to services; and
- (c) Participation of community groups and law enforcement agencies in drug and alcohol abuse prevention and intervention activities.

(2) The application procedures for grants under this section shall include provisions for comprehensive planning, establishment of a school and community substance abuse advisory committee, and documentation of the district's needs assessment. Planning and application for grants under this section may be integrated with the development of other substance abuse awareness programs by school districts. School districts shall, to the maximum extent feasible, coordinate the use of grants provided under this section with other funding available for substance abuse awareness programs. School districts should allocate resources giving emphasis to drug and alcohol abuse intervention services for students in grades five through nine. Grants may be used to provide services for students who are enrolled in approved private schools.

(3) School districts receiving grants under this section shall be required to establish a means of accessing formal assessment services for determining treatment needs of students with drug and alcohol problems. The grant applications submitted by districts shall identify the districts' plan for meeting this requirement.

(4) School districts receiving grants under this section shall be required to perform biennial evaluations of their drug and alcohol abuse prevention and intervention programs, and to report on the results of these evaluations to the superintendent of public instruction.

(5) The superintendent of public instruction may adopt rules to implement RCW 28A.170.080 and 28A.170.090.

**28A.175.010 Educational progress information—Reporting requirements—Rules—Reports to legislature—Annual estimate of savings.** Each school district shall account for the educational progress of each of its students. To achieve this, school districts shall be required to report annually to the superintendent of public instruction:

(1) For students enrolled in each of a school district's high school programs:

(a) The number of students who graduate in fewer than four years;

(b) The number of students who graduate in four years;

(c) The number of students who remain in school for more than four years but who eventually graduate and the number of students who remain in school for more than four years but do not graduate;

(d) The number of students who transfer to other schools;

(e) The number of students in the ninth through twelfth grade who drop out of school over a four-year period; and

(f) The number of students whose status is unknown.

(2) Dropout rates of students in each of the grades seven through twelve.

(3) Dropout rates for student populations in each of the grades seven through twelve by:

(a) Ethnicity;

(b) Gender;

(c) Socioeconomic status; and

(d) Disability status.

(4) The causes or reasons, or both, attributed to students for having dropped out of school in grades seven through twelve.

(5) The superintendent of public instruction shall adopt rules under chapter 34.05 RCW to assure uniformity in the information districts are required to report under subsections (1) through (4) of this section. In developing rules, the superintendent of public instruction shall consult with school dis-

tricts, including administrative and counseling personnel, with regard to the methods through which information is to be collected and reported.

(6) In reporting on the causes or reasons, or both, attributed to students for having dropped out of school, school building officials shall, to the extent reasonably practical, obtain such information directly from students. In lieu of obtaining such information directly from students, building principals and counselors shall identify the causes or reasons, or both, based on their professional judgment.

(7) The superintendent of public instruction shall report annually to the legislature the information collected under subsections (1) through (4) of this section.

(8) The Washington state institute for public policy shall calculate an annual estimate of the savings resulting from any change compared to the prior school year in the extended graduation rate. The superintendent shall include the estimate from the institute in an appendix of the report required under subsection (7) of this section, beginning with the 2010 report. [2010 c 243 § 5; 2005 c 207 § 3; 1991 c 235 § 4; 1986 c 151 § 1. Formerly RCW 28A.58.087.]

### 28A.175.025 Building bridges program—Grants.

Subject to the availability of funds appropriated for this purpose, the office of the superintendent of public instruction shall create a grant program and award grants to local partnerships of schools, families, and communities to begin the phase in of a statewide comprehensive dropout prevention, intervention, and retrieval system. This program shall be known as the building bridges program.

(1) For purposes of RCW 28A.175.025 through 28A.175.075, a "building bridges program" means a local partnership of schools, families, and communities that provides all of the following programs or activities:

(a) A system that identifies individual students at risk of dropping out from middle through high school based on local predictive data, including state assessment data starting in the fourth grade, and provides timely interventions for such students and for dropouts, including a plan for educational success as already required by the student learning plan as defined under RCW 28A.655.061. Students identified shall include foster care youth, youth involved in the juvenile justice system, and students receiving special education services under chapter 28A.155 RCW;

(b) Coaches or mentors for students as necessary;

(c) Staff responsible for coordination of community partners that provide a seamless continuum of academic and non-academic support in schools and communities;

(d) Retrieval or reentry activities; and

(e) Alternative educational programming, including, but not limited to, career and technical education exploratory and preparatory programs and online learning opportunities.

(2) One of the grants awarded under this section shall be for a two-year demonstration project focusing on providing fifth through twelfth grade students with a program that utilizes technology and is integrated with state standards, basic academics, cross-cultural exposures, and age-appropriate preemployment training. The project shall:

(a) Establish programs in two western Washington and one eastern Washington urban areas;

(b) Identify at-risk students in each of the distinct communities and populations and implement strategies to close the achievement gap;

(c) Collect and report data on participant characteristics and outcomes of the project, including the characteristics and outcomes specified under RCW 28A.175.035(1)(e); and

(d) Submit a report to the legislature by December 1, 2009. [2007 c 408 § 2.]

**Intent—Findings—2007 c 408:** "It is the intent of the legislature that increasing academic success and increasing graduation rates be dual goals for the K-12 system. The legislature finds that only seventy-four percent of the class of 2005 graduated on time. Students of color, students living in poverty, students in foster care, students in the juvenile justice system, students who are homeless, students for whom English is not their primary language, and students with disabilities have lower graduation rates than the average. The legislature further finds that students who drop out experience more frequent occurrences of early pregnancy, delinquency, substance abuse, and mental health issues, and have greater need of publicly funded health and social services. The legislature further finds that helping all students be successful in school requires active participation in coordinating services from schools, parents, and other stakeholders and agencies in the local community. The legislature finds that existing resources to vulnerable youth are used more efficiently and effectively when there is significant coordination across local and state entities. The legislature further finds that efficiency and accountability of the K-12 system would be improved by creating a dropout prevention and intervention grant program that implements research-based and emerging best practices and evaluates results." [2007 c 408 § 1.]

**28A.175.035 Grants—Criteria and requirements—Data collection—Third-party evaluator—Report.** (1) The office of the superintendent of public instruction shall:

(a) Identify criteria for grants and evaluate proposals for funding in consultation with the workforce training and education coordinating board;

(b) Develop and monitor requirements for grant recipients to:

(i) Identify students who both fail the Washington assessment of student learning and drop out of school;

(ii) Identify their own strengths and gaps in services provided to youth;

(iii) Set their own local goals for program outcomes;

(iv) Use research-based and emerging best practices that lead to positive outcomes in implementing the building bridges program; and

(v) Coordinate an outreach campaign to bring public and private organizations together and to provide information about the building bridges program to the local community;

(c) In setting the requirements under (b) of this subsection, encourage creativity and provide for flexibility in implementing the local building bridges program;

(d) Identify and disseminate successful practices;

(e) Develop requirements for grant recipients to collect and report data, including, but not limited to:

(i) The number of and demographics of students served including, but not limited to, information regarding a student's race and ethnicity, a student's household income, a student's housing status, whether a student is a foster youth or youth involved in the juvenile justice system, whether a student is disabled, and the primary language spoken at a student's home;

(ii) Washington assessment of student learning scores;

(iii) Dropout rates;

(iv) On-time graduation rates;

(v) Extended graduation rates;

(vi) Credentials obtained;

(vii) Absenteeism rates;

(viii) Truancy rates; and

(ix) Credit retrieval;

(f) Contract with a third party to evaluate the infrastructure and implementation of the partnership including the leveraging of outside resources that relate to the goal of the partnership. The third-party contractor shall also evaluate the performance and effectiveness of the partnerships relative to the type of entity, as identified in RCW 28A.175.045, serving as the lead agency for the partnership; and

(g) Report to the legislature by December 1, 2008.

(2) In performing its duties under this section, the office of the superintendent of public instruction is encouraged to consult with the work group identified in RCW 28A.175.075. [2007 c 408 § 3.]

**Intent—Findings—2007 c 408:** See note following RCW 28A.175.025.

**28A.175.045 Grant awards—Recipients.** In awarding the grants under RCW 28A.175.025, the office of the superintendent of public instruction shall prioritize schools or districts with dropout rates above the statewide average and shall attempt to award building bridges program grants to different geographic regions of the state. Eligible recipients shall be one of the following entities acting as a lead agency for the local partnership: A school district, a tribal school, an area workforce development council, an educational service district, an accredited institution of higher education, a vocational skills center, a federally recognized tribe, a community organization, or a nonprofit 501(c)(3) corporation. If the recipient is not a school district, at least one school district must be identified within the partnership. The superintendent of public instruction shall ensure that grants are distributed proportionately between school districts and other recipients. This requirement may be waived if the superintendent of public instruction finds that the quality of the programs or applications from these entities does not warrant the awarding of the grants proportionately. [2007 c 408 § 4.]

**Intent—Findings—2007 c 408:** See note following RCW 28A.175.025.

**28A.175.055 Grant awards—Eligibility.** To be eligible for a grant under RCW 28A.175.025, grant applicants shall:

(1) Build or demonstrate a commitment to building a broad-based partnership of schools, families, and community members to provide an effective and efficient building bridges program. The partnership shall consider an effective model for school-community partnerships and include local membership from, but not limited to, school districts, tribal schools, secondary career and technical education programs, skill centers that serve the local community, an educational service district, the area workforce development council, accredited institutions of higher education, tribes or other cultural organizations, the parent teacher association, the juvenile court, prosecutors and defenders, the local health department, health care agencies, public transportation agencies,

local division representatives of the department of social and health services, businesses, city or county government agencies, civic organizations, and appropriate youth-serving community-based organizations. Interested parents and students shall be actively included whenever possible;

(2) Demonstrate how the grant will enhance any dropout prevention and intervention programs and services already in place in the district;

(3) Provide a twenty-five percent match that may include in-kind resources from within the partnership;

(4) Track and report data required by the grant; and

(5) Describe how the dropout prevention, intervention, and retrieval system will be sustained after initial funding, including roles of each of the partners. [2007 c 408 § 5.]

**Intent—Findings—2007 c 408:** See note following RCW 28A.175.025.

**28A.175.065 Duties of educational service districts—Collaboration with workforce development councils.** (1) Educational service districts, in collaboration with area workforce development councils, shall:

(a) Provide technical assistance to local partnerships established under a grant awarded under RCW 28A.175.025 in collecting and using performance data; and

(b) At the request of a local partnership established under a grant awarded under RCW 28A.175.025, provide assistance in the development of a functional sustainability plan, including the identification of potential funding sources for future operation.

(2) Local partnerships established under a grant awarded under RCW 28A.175.025 may contract with an educational service district, workforce development council, or a private agency for specialized training in such areas as cultural competency, identifying diverse learning styles, and intervention strategies for students at risk of dropping out of school. [2007 c 408 § 6.]

**Intent—Findings—2007 c 408:** See note following RCW 28A.175.025.

**28A.175.074 Definitions.** The definitions in this section apply throughout section 3, chapter 243, Laws of 2010 and RCW 28A.175.075 unless the context clearly requires otherwise.

(5) The building bridges work group shall make recommendations to the governor and the legislature by December 1, 2010, on a state-level and regional infrastructure for coordinating services for vulnerable youth. Recommendations must address the following issues:

(a) Whether to adopt an official conceptual approach or framework for all entities working with vulnerable youth that can support coordinated planning and evaluation;

(b) The creation of a performance-based management system, including outcomes, indicators, and performance measures relating to vulnerable youth and programs serving them, including accountability for the dropout issue;

(c) The development of regional and/or county-level multipartner youth consortia with a specific charge to assist school districts and local communities in building K-12 comprehensive dropout prevention, intervention, and reengagement systems;

(d) The development of integrated or school-based one-stop shopping for services that would:

(i) Provide individualized attention to the neediest youth and prioritized access to services for students identified by a dropout early warning and intervention data system;

(ii) Establish protocols for coordinating data and services, including getting data release at time of intake and common assessment and referral processes; and

(iii) Build a system of single case managers across agencies;

(e) Launching a statewide media campaign on increasing the high school graduation rate; and

(f) Developing a statewide database of available services for vulnerable youth. [2010 c 243 § 4; 2007 c 408 § 7.]

**Intent—Findings—2007 c 408:** See note following RCW 28A.175.025.

**28A.175.100 Statewide dropout reengagement program.** (1) This section and RCW 28A.175.105 through 28A.175.115 provide a statutory framework for a statewide dropout reengagement system to provide appropriate educational opportunities and access to services for students age sixteen to twenty-one who have dropped out of high school or are not accumulating sufficient credits to reasonably complete a high school diploma in a public school before the age of twenty-one.

(2) Under the system, school districts may:

(a) Enter into the model interlocal agreement developed under RCW 28A.175.110 with an educational service district, community or technical college, or other public entity to provide a dropout reengagement program for eligible students of the district; or

(b) Enter into the model contract developed under RCW 28A.175.110 with a community-based organization to provide a dropout reengagement program for eligible students of the district.

(3) If a school district does not enter an interlocal agreement or contract with an educational service district, commu-

nity or technical college, other public entity, or community-based organization to provide a dropout reengagement program for eligible students residing in the district, the educational service district, community or technical college, other public entity, or community-based organization may petition a school district other than the resident school district to enroll the eligible students under RCW 28A.225.220 through 28A.225.230 and enter the interlocal agreement or contract with the petitioning entity to provide a dropout reengagement program for the eligible students.

(4) This section does not affect the authority of school districts to contract for educational services under RCW 28A.150.305 and 28A.320.035. This section also does not affect the authority of school districts to offer dropout reengagement programs or other educational services for eligible students directly. [2010 c 20 § 2.]

**Intent—2010 c 20:** "(1) In every school district there are older youth who have become disengaged with the traditional education program of public high schools. They may have failed multiple classes and are far behind in accumulating credits to graduate. They do not see a high school diploma as an achievable goal. They may have dropped out of school entirely. They are not likely to become reengaged in their education by the prospect of reenrollment in a traditional or even an alternative high school.

(2) For many years, school districts, community and technical colleges, and community-based organizations have created partnerships to provide appropriate educational programs for these students. Programs such as career education options and career link have successfully offered individualized academic instruction, case management support, and career-oriented skills in an age-appropriate learning environment to hundreds of disengaged older youth. Preparation for the GED test is provided but is not the end goal for students.

(3) However, in recent years, many of these partnerships have ceased to operate. The laws and rules authorizing school districts to contract using basic education allocations do not provide sufficient guidance and instead present barriers. Program providers are forced to adapt to rules that were not written to address the needs of the students being served. Questions and concerns about liability, responsibility, and administrative burden have caused districts reluctantly to abandon their partnerships, and consequently leave hundreds of students without a viable alternative for continuing their public education.

(4) Therefore the legislature intends to provide a statutory framework to support a statewide dropout reengagement system for older youth. The framework clarifies and standardizes funding, programs, and administration by directing the office of the superintendent of public instruction to develop model contracts and interlocal agreements. It is the legislature's intent to encourage school districts, community and technical colleges, and community-based organizations to participate in this system and provide appropriate instruction and services to reengage older students and help them make progress toward a meaningful credential and career skills." [2010 c 20 § 1.]

**28A.175.105 Statewide dropout reengagement program—Definitions.** The definitions in this section apply throughout RCW 28A.175.100 through 28A.175.110 unless the context clearly requires otherwise:

(1) "Dropout reengagement program" means an educational program that offers at least the following instruction and services:

(a) Academic instruction, including but not limited to GED preparation, academic skills instruction, and college and work readiness preparation, that generates credits that can be applied to a high school diploma from the student's school district or from a community or technical college under RCW 28B.50.535 and has the goal of enabling the student to obtain the academic and work readiness skills necessary for employment or postsecondary study. A dropout reengagement program is not required to offer instruction in only those subject areas where a student is deficient in accu-

(2010 Ed.)

mulated credits. Academic instruction must be provided by teachers certified by the Washington professional educator standards board or by instructors employed by a community or technical college whose required credentials are established by the college;

(b) Case management, academic and career counseling, and assistance with accessing services and resources that support at-risk youth and reduce barriers to educational success; and

(c) If the program provider is a community or technical college, the opportunity for qualified students to enroll in college courses that lead to a postsecondary degree or certificate. The college may not charge an eligible student tuition for such enrollment.

(2) "Eligible student" means a student who:

(a) Is at least sixteen but less than twenty-one years of age at the beginning of the school year;

(b) Is not accumulating sufficient credits toward a high school diploma to reasonably complete a high school diploma from a public school before the age of twenty-one or is recommended for the program by case managers from the department of social and health services or the juvenile justice system; and

(c) Is enrolled or enrolls in the school district in which the student resides, or is enrolled or enrolls in a nonresident school district under RCW 28A.225.220 through 28A.225.230.

(3) "Full-time equivalent eligible student" means an eligible student whose enrollment and attendance meet criteria adopted by the office of the superintendent of public instruction specifically for dropout reengagement programs. The criteria shall be:

(a) Based on the community or technical college credits generated by the student if the program provider is a community or technical college; and

(b) Based on a minimum amount of planned programing or instruction and minimum attendance by the student rather than hours of seat time if the program provider is a community-based organization. [2010 c 20 § 3.]

**Intent—2010 c 20:** See note following RCW 28A.175.100.

**28A.175.110 Statewide dropout reengagement program—Model interlocal agreement and model contract—Students considered regularly enrolled in district.** (1) The office of the superintendent of public instruction shall develop a model interlocal agreement and a model contract for the dropout reengagement system.

(2) The model interlocal agreement and contract shall, at a minimum, address the following:

(a) Responsibilities for identification, referral, and enrollment of eligible students;

(b) Instruction and services to be provided by a dropout reengagement program, as specified under RCW 28A.175.105;

(c) Responsibilities for data collection and reporting, including student transcripts and data required for the statewide student information system;

(d) Administration of the high school statewide student assessments;

(e) Uniform financial reimbursement rates per full-time equivalent eligible student enrolled in a dropout reengagement program, calculated and allocated as a statewide annual average of the basic education allocations generated under RCW 28A.150.260 for nonvocational students and including enhancements for vocational students where eligible students are enrolled in vocational courses in a program, and allowing for a uniform administrative fee to be retained by the district;

(f) Responsibilities for provision of special education or related services for eligible students with disabilities who have an individualized education program;

(g) Responsibilities for necessary accommodations and plans for students qualifying under section 504 of the rehabilitation act of 1973;

(h) Minimum instructional staffing ratios for dropout reengagement programs offered by community-based organizations, which are not required to be the same as for other basic education programs in school districts; and

(i) Performance measures that must be reported to the office of the superintendent of public instruction in a common format for purposes of accountability, including longitudinal monitoring of student progress and postsecondary education and employment.

(3) Eligible students enrolled in a dropout reengagement program under RCW 28A.175.100, 28A.175.105, and this section are considered regularly enrolled students of the school district in which they are enrolled, except that the students shall not be included in the school district's enrollment for purposes of calculating compliance with RCW 28A.150.100. [2010 c 20 § 4.]

**Intent—2010 c 20:** See note following RCW 28A.175.100.

**28A.175.115 Statewide dropout reengagement program—Rules.** (1) The office of the superintendent of public instruction shall adopt rules to implement RCW 28A.175.100 through 28A.175.110.

(2) When adopting rules under this section and developing model interlocal agreements and contracts under RCW 28A.175.110, the office of the superintendent of public instruction shall consult with the state board for community and technical colleges, the workforce training and education coordinating board, colleges and community-based organizations that have previously offered dropout reengagement programs, providers of online courses and programs approved under RCW 28A.250.020, school districts, and educational service districts. [2010 c 20 § 5.]

**Intent—2010 c 20:** See note following RCW 28A.175.100.

The legislature finds that there are large numbers of children who come from homes where the primary language is other than English. The legislature finds that a transitional bilingual education program can meet the needs of these children. Pursuant to the policy of this state to insure equal educational opportunity to every child in this state, it is the purpose of RCW 28A.180.010 through 28A.180.080 to provide for the implementation of transitional bilingual education programs in the public schools, and to provide supplemental financial assistance to school districts to meet the extra costs of these programs. [1984 c 124 § 8. Formerly RCW 28A.58.801.]

**28A.180.030 Definitions.** As used throughout this chapter, unless the context clearly indicates otherwise:

(1) "Transitional bilingual instruction" means:

(a) A system of instruction which uses two languages, one of which is English, as a means of instruction to build upon and expand language skills to enable the pupil to achieve competency in English. Concepts and information are introduced in the primary language and reinforced in the second language: PROVIDED, That the program shall include testing in the subject matter in English; or

(b) In those cases in which the use of two languages is not practicable as established by the superintendent of public instruction and unless otherwise prohibited by law, an alternative system of instruction which may include English as a

second language and is designed to enable the pupil to achieve competency in English.

(2) "Primary language" means the language most often used by the student for communication in his/her home.

(3) "Eligible pupil" means any enrollee of the school district whose primary language is other than English and whose English language skills are sufficiently deficient or absent to impair learning. [2001 1st sp.s. c 6 § 3; 1990 c 33 § 164; 1984 c 124 § 2; 1979 c 95 § 2. Formerly RCW 28A.58.802.]

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28A.180.040 School board duties.** (1) Every school district board of directors shall:

(a) Make available to each eligible pupil transitional bilingual instruction to achieve competency in English, in accord with rules of the superintendent of public instruction;

(b) Wherever feasible, ensure that communications to parents emanating from the schools shall be appropriately bilingual for those parents of pupils in the bilingual instruction program;

(c) Determine, by administration of an English test approved by the superintendent of public instruction the number of eligible pupils enrolled in the school district at the beginning of a school year and thereafter during the year as necessary in individual cases;

(d) Ensure that a student who is a child of a military family in transition and who has been assessed as in need of, or enrolled in, a bilingual instruction program, the receiving school shall initially honor placement of the student into a like program.

(i) The receiving school shall determine whether the district's program is a like program when compared to the sending school's program; and

(ii) The receiving school may conduct subsequent assessments pursuant to RCW 28A.180.090 to determine appropriate placement and continued enrollment in the program;

(e) Before the conclusion of each school year, measure each eligible pupil's improvement in learning the English language by means of a test approved by the superintendent of public instruction; and

(f) Provide in-service training for teachers, counselors, and other staff, who are involved in the district's transitional bilingual program. Such training shall include appropriate instructional strategies for children of culturally different backgrounds, use of curriculum materials, and program models.

(2) The definitions in Article II of RCW 28A.705.010 apply to subsection (1)(d) of this section. [2009 c 380 § 5; 2001 1st sp.s. c 6 § 4; 1984 c 124 § 3; 1979 c 95 § 3. Formerly RCW 28A.58.804.]

**28A.180.060 Guidelines and rules.** The superintendent of public instruction shall:

(1) Promulgate and issue program development guidelines to assist school districts in preparing their programs;

(2) Promulgate rules for implementation of RCW 28A.180.010 through 28A.180.080 in accordance with chapter 34.05 RCW. The rules shall be designed to maximize the

(2010 Ed.)

role of school districts in selecting programs appropriate to meet the needs of eligible students. The rules shall identify the process and criteria to be used to determine when a student is no longer eligible for transitional bilingual instruction pursuant to RCW 28A.180.010 through 28A.180.080. **28A.180.080 Budget requests—Allocation of moneys—English language skills test. (Effective until September 1, 2011.)** The superintendent of public instruction shall prepare and submit biennially to the governor and the legislature a budget request for bilingual instruction programs. Moneys appropriated by the legislature for the purposes of RCW 28A.180.010 through 28A.180.080 shall be allocated by the superintendent of public instruction to school districts for the sole purpose of operating an approved bilingual instruction program; priorities for funding shall exist for the early elementary grades. No moneys shall be allocated pursuant to this section to fund more than three school years of bilingual instruction for each eligible pupil within a district: PROVIDED, That such moneys may be allocated to fund more than three school years of bilingual instruction for any pupil who fails to demonstrate improvement in English language skills adequate to remove impairment of learning when taught only in English. The superintendent of public instruction shall set standards and approve a test for the measurement of such English language skills. [1995 c 335 § 601; 1990 c 33 § 167; 1979 c 95 § 6. Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28A.180.090 Evaluation system—Report to the legislature.** The superintendent of public instruction shall develop an evaluation system designed to measure increases in the English and academic proficiency of eligible pupils. When developing the system, the superintendent shall:

(1) Require school districts to assess potentially eligible pupils within ten days of registration using an English proficiency assessment or assessments as specified by the superintendent of public instruction. Results of these assessments shall be made available to both the superintendent of public instruction and the school district;

(2) Require school districts to annually assess all eligible pupils at the end of the school year using an English profi-

ciency assessment or assessments as specified by the superintendent of public instruction. Results of these assessments shall be made available to both the superintendent of public instruction and the school district;

(3) Develop a system to evaluate increases in the English and academic proficiency of students who are, or were, eligible pupils. This evaluation shall include students when they are in the program and after they exit the program until they finish their K-12 career or transfer from the school district. The purpose of the evaluation system is to inform schools, school districts, parents, and the state of the effectiveness of the transitional bilingual programs in school and school districts in teaching these students English and other content areas, such as mathematics and writing; and

(4) Report to the education and fiscal committees of the legislature by November 1, 2002, regarding the development of the systems described in this section and a timeline for the full implementation of those systems. The legislature shall approve and provide funding for the evaluation system in subsection (3) of this section before any implementation of the system developed under subsection (3) of this section may occur. [2001 1st sp. s. c 6 § 2.]

**28A.180.100 Continuing education plan for older students.** The office of the superintendent of public instruction and the state board for community and technical colleges shall jointly develop a program plan to provide a continuing education option for students who are eligible for the state transitional bilingual instruction program and who need more time to develop language proficiency but who are more age-appropriately suited for a postsecondary learning environment than for a high school. In developing the plan, the superintendent of public instruction shall consider options to formally recognize the accomplishments of students in the state transitional bilingual instruction program who have completed the twelfth grade but have not earned a certificate of academic achievement. By December 1, 2004, the agencies shall report to the legislative education and fiscal committees with any recommendations for legislative action and any resources necessary to implement the plan. [2004 c 19 § 105.]

[1990 c 33 § 168; 1984 c 278 § 14. Formerly RCW 28A.16.050.]

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28A.185.020 Funding.** (*Effective September 1, 2011.*) (1) The legislature finds that, for highly capable students, access to accelerated learning and enhanced instruction is access to a basic education. There are multiple definitions of highly capable, from intellectual to academic to artistic. The research literature strongly supports using multiple criteria to identify highly capable students, and therefore, the legislature does not intend to prescribe a single method. Instead, the legislature intends to allocate funding based on two and three hundred fourteen one-thousandths percent of each school district's population and authorize school districts to identify through the use of multiple, objective criteria those students most highly capable and eligible to receive accelerated learning and enhanced instruction in the program offered by the district. Access to accelerated learning and enhanced instruction through the program for highly capable students does not constitute an individual entitlement for any particular student.

(2) Supplementary funds provided by the state for the program for highly capable students under RCW 28A.150.260 shall be categorical funding to provide services

to highly capable students as determined by a school district under RCW 28A.185.030. [2009 c 548 § 708; 1990 c 33 § 168; 1984 c 278 § 14. Formerly RCW 28A.16.050.]

**28A.185.030 Programs—Authority of local school districts—Selection of students.** Local school districts may establish and operate, either separately or jointly, programs for highly capable students. Such authority shall include the right to employ and pay special instructors and to operate such programs jointly with a public institution of higher education. Local school districts which establish and operate programs for highly capable students shall adopt identification procedures and provide educational opportunities as follows:

(1) In accordance with rules adopted by the superintendent of public instruction, school districts shall implement procedures for nomination, assessment and selection of their most highly capable students. Nominations shall be based upon data from teachers, other staff, parents, students, and members of the community. Assessment shall be based upon a review of each student's capability as shown by multiple criteria intended to reveal, from a wide variety of sources and data, each student's unique needs and capabilities. Selection shall be made by a broadly based committee of professionals, after consideration of the results of the multiple criteria assessment.

(2) When a student, who is a child of a military family in transition, has been assessed or enrolled as highly capable by a sending school, the receiving school shall initially honor placement of the student into a like program.

(a) The receiving school shall determine whether the district's program is a like program when compared to the sending school's program; and

(b) The receiving school may conduct subsequent assessments to determine appropriate placement and continued enrollment in the program.

(3) Students selected pursuant to procedures outlined in this section shall be provided, to the extent feasible, an educational opportunity which takes into account each student's unique needs and capabilities and the limits of the resources and program options available to the district, including those options which can be developed or provided by using funds allocated by the superintendent of public instruction for that purpose.

(4) The definitions in Article II of RCW 28A.705.010 apply to subsection (2) of this section. [2009 c 380 § 4; 1984 c 278 § 13. Formerly RCW 28A.16.060.]

**28A.185.040 Contracts with University of Washington for education of highly capable students at early entrance program or transition school—Allocation of funds—Rules.** (1) The superintendent of public instruction shall contract with the University of Washington for the edu-

cation of highly capable students below eighteen years of age who are admitted or enrolled at such early entrance program or transition school as are now or hereafter established and maintained by the University of Washington.

28A.193.901	Severability—1998 c 244.

**28A.193.005 Intent—Findings.** The legislature intends to provide for the operation of education programs for the department of corrections' juvenile inmates. School districts, educational service districts, or any combination thereof should be the primary providers of the education programs. However, the legislature does not intend to preclude community and technical colleges, four-year institutions of higher education, or other qualified entities from contracting to provide all or part of these education programs if no school district or educational service district is willing to operate all or part of the education programs.

The legislature finds that this chapter fully satisfies any constitutional duty to provide education programs for juvenile inmates in adult correctional facilities. The legislature further finds that biennial appropriations for education programs under this chapter amply provide for any constitutional duty to educate juvenile inmates in adult correctional facilities. [1998 c 244 § 1.]

**28A.193.010 Operation of program by school district or educational service district.** Any school district or educational service district may operate all or any portion of an education program for juveniles in accordance with this chapter, notwithstanding the fact the services or benefits provided extend beyond the geographic boundaries of the school district or educational service district providing the service. [1998 c 244 § 2.]

**28A.193.020 Solicitation for education provider—Selection of provider—Operation of program by educational service district.** The superintendent of public instruction shall solicit an education provider for the department of corrections' juvenile inmates within sixty days as follows:

(1) The superintendent of public instruction shall notify and solicit proposals from all interested and capable school districts, educational service districts, institutions of higher education, private contractors, or any combination thereof. The notice shall describe the proposed education program's requirements and the appropriated amount. The selection of an education provider shall be in the following order:

(a) The school district where there is an educational site for juveniles in an adult correctional facility maintained by the state department of corrections has first priority to operate an education program for inmates at that site. The district may elect to operate an education program by itself or with another school district, educational service district, institution of higher education, private contractor, or any combination thereof. If the school district elects not to exercise its priority, it shall notify the superintendent of public instruction within thirty calendar days of the day of solicitation.

(b) The educational service district where there is an educational site for juveniles in an adult correctional facility maintained by the state department of corrections has second priority to operate an education program for inmates at that site. The educational service district may elect to do so by itself or with a school district, another educational service district, institution of higher education, private contractor, or any combination thereof. If the educational service district elects not to exercise its priority, it shall notify the superintendent of public instruction within forty-five calendar days of the day of solicitation.

(c) If neither the school district nor the educational service district chooses to operate an education program for inmates as provided for in (a) and (b) of this subsection, the superintendent of public instruction may contract with an entity, including, but not limited to, school districts, educational service districts, institutions of higher education, private contractors, or any combination thereof, within sixty calendar days of the day of solicitation. The selected entity may operate an education program by itself or with another school

district, educational service district, institution of higher education, or private contractor, or any combination thereof.

(2) If the superintendent of public instruction does not contract with an interested entity within sixty days of the day of solicitation, the educational service district where there is an educational site for juveniles in an adult correctional facility maintained by the state department of corrections shall begin operating the education program for inmates at the site within ninety days from the day of solicitation in subsection (1) of this section. [1998 c 244 § 3.]

**28A.193.030 Duties and authority of education provider—Continuation in program by students age eighteen.** Except as otherwise provided for by contract under RCW 28A.193.060, the duties and authority of a school district, educational service district, institution of higher education, or private contractor to provide for education programs under this chapter are limited to the following:

(1) Employing, supervising, and controlling administrators, teachers, specialized personnel, and other persons necessary to conduct education programs, subject to security clearance by the department of corrections;

(2) Purchasing, leasing, or renting and providing textbooks, maps, audiovisual equipment, paper, writing instruments, physical education equipment, and other instructional equipment, materials, and supplies deemed necessary by the provider of the education programs;

(3) Conducting education programs for inmates under the age of eighteen in accordance with program standards established by the superintendent of public instruction. The education provider shall develop the curricula, instructional methods, and educational objectives of the education programs, subject to applicable requirements of state and federal law. The department of corrections shall establish behavior standards that govern inmate participation in education programs, subject to applicable requirements of state and federal law;

(4) Students age eighteen who have participated in an education program governed by this chapter may continue in the program with the permission of the department of corrections and the education provider, under the rules adopted by the superintendent of public instruction. [1998 c 244 § 4.]

**28A.193.040 Education providers—Additional authority and limitations.** School districts and educational service districts providing an education program to juvenile inmates in an adult corrections [correctional] facility, notwithstanding that their geographical boundaries do not include the facility, may:

(1) Award appropriate diplomas or certificates to inmates who successfully complete graduation requirements;

(2) Spend only funds appropriated by the legislature and allocated by the superintendent of public instruction for the exclusive purpose of maintaining and operating education programs under this chapter, including direct and indirect costs of maintaining and operating the education programs, and funds from federal and private grants, bequests, and gifts made for that purpose. School districts may not expend excess tax levy proceeds authorized for school district pur-

poses to pay costs incurred under this chapter. [1998 c 244 § 5.]

**28A.193.050 Required support of education programs.** To support each education program under this chapter, the department of corrections and each superintendent or chief administrator of a correction facility shall:

(1) Through construction, lease, or rental of space, provide necessary building and exercise spaces for the education program that is secure, separate, and apart from space occupied by nonstudent inmates;

(2) Through construction, lease, or rental, provide vocational instruction machines; technology and supporting equipment; tools, building, and exercise facilities; and other equipment and fixtures deemed necessary by the department of corrections to conduct the education program;

(3) Provide heat, lights, telephone, janitorial services, repair services, and other support services for the building and exercise spaces, equipment, and fixtures provided under this section;

(4) Employ, supervise, and control security staff to safeguard agents of the education providers and inmates while engaged in educational and related activities conducted under this chapter;

(5) Provide clinical and medical evaluation services necessary for a determination by the education provider of the educational needs of inmates; and

(6) Provide such other support services and facilities as are reasonably necessary to conduct the education program. [1998 c 244 § 6.]

**28A.193.060 Contract between education providers and department of corrections.** Each education provider under this chapter and the department of corrections shall negotiate and execute a written contract for each school year or such longer period as may be agreed to that delineates the manner in which their respective duties and authority will be cooperatively performed and exercised, and any disputes and grievances resolved through mediation, and if necessary, arbitration. Any such contract may provide for the performance of duties by an education provider in addition to those set forth in this chapter, including duties imposed upon the department of corrections and its agents under RCW 28A.193.050 if supplemental funding provided by the department of corrections is available to fully pay the direct and indirect costs of these additional duties. [1998 c 244 § 7.]

**28A.193.070 Education site closures or reduction in services—Notice to the superintendent of public instruction and education providers—Liability for failure to provide notice—Alternative dispute resolution.** By April 15th of each school year, the department of corrections shall provide written notice to the superintendent of public instruction and education providers operating programs under this chapter of any reasonably foreseeable education site closures, reductions in the number of inmates or education services, or any other cause for a reduction in certificated or classified staff the next school year. In the event the department of corrections fails to provide notice as required by this section, the department is liable and responsible for the payment of the

salary and employment-related costs for the next school year of each employee whose contract would or could have been nonrenewed but for the failure of the department to provide notice. Disputes arising under this section shall be resolved in accordance with the alternative dispute resolution method or methods specified in the contract required by RCW 28A.193.060. [1998 c 244 § 8.]

**28A.193.080 Allocation of money—Accountability requirements—Rules.** The superintendent of public instruction shall:

(1) Allocate money appropriated by the legislature to administer and provide education programs under this chapter to school districts, educational service districts, and other education providers selected under RCW 28A.193.020 that have assumed the primary responsibility to administer and provide education programs under this chapter. The allocation of moneys to any private contractor is contingent upon and must be in accordance with a contract between the private contractor and the department of corrections; and

(2) Adopt rules in accordance with chapter 34.05 RCW that establish reporting, program compliance, audit, and such other accountability requirements as are reasonably necessary to implement this chapter and related provisions of the biennial operating act effectively. [1998 c 244 § 9.]

**28A.193.900 Effective date—1998 c 244 §§ 1-9 and 11-15.** Sections 1 through 9 and 11 through 15 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and take effect immediately [March 30, 1998]. [1998 c 244 § 17.]

**28A.193.901 Severability—1998 c 244.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1998 c 244 § 19.]

The legislature finds that this chapter fully satisfies any constitutional duty to provide education programs for juvenile inmates in adult jails. The legislature further finds that biennial appropriations for education programs under this

chapter amply provide for any constitutional duty to educate juvenile inmates in adult jails. [2010 c 226 § 1.]

**28A.194.010 Education programs for juveniles in adult jails.** A program of education shall be made available for juvenile inmates by adult jail facilities and the several school districts of the state for persons under the age of eighteen years who have been incarcerated in any adult jail facilities operated under the authority of chapter 70.48 RCW. Each school district within which there is located an adult jail facility shall, singly or in concert with another school district pursuant to RCW 28A.335.160 and 28A.225.250 or chapter 39.34 RCW, conduct a program of education, including related student activities for inmates in adult jail facilities. School districts are not precluded from contracting with educational service districts, community and technical colleges, four-year institutions of higher education, or other qualified entities to provide all or part of these education programs. The division of duties, authority, and liabilities of the adult jail facilities and the several school districts of the state respecting the educational programs shall be as provided for in this chapter with regard to programs for juveniles in adult jail facilities. [2010 c 226 § 2.]

**28A.194.020 Definition.** As used in this chapter, "adult jail facility" means an adult jail operated under the authority of chapter 70.48 RCW. [2010 c 226 § 3.]

**Findings—2002 c 350:** "The legislature finds that diabetes imposes significant health risks to students enrolled in the state's public schools and that providing for the medical needs of students with diabetes is crucial to ensure both the safety of students with diabetes and their ability to obtain the education guaranteed to all citizens of the state. The legislature also finds that children with diabetes can and should be provided with a safe learning environment and access to all other nonacademic school-sponsored activities. The legislature further finds that an individual health plan for each child with diabetes should be in place in the student's school and should include provisions for a parental signed release form, medical equipment and storage capacity, and exceptions from school policies, school schedule, meals and eating, disaster preparedness, inservice training for staff, legal documents for parent-designated adults who may provide care, as needed, and personnel guidelines describing who may assume responsibility for activities contained in the student's individual health plan." [2002 c 350 § 1.]

**Effective date—2002 c 350:** "This act takes effect July 1, 2002." [2002 c 350 § 5.]

**28A.210.340 Students with diabetes—Adoption of policy for inservice training for school staff.** The superintendent of public instruction and the secretary of the department of health shall develop a uniform policy for all school

districts providing for the inservice training for school staff on symptoms, treatment, and monitoring of students with diabetes and on the additional observations that may be needed in different situations that may arise during the school day and during school-sponsored events. The policy shall include the standards and skills that must be in place for inservice training of school staff. [2002 c 350 § 3.]

**Findings—Effective date—2002 c 350:** See notes following RCW 28A.210.330.

**28A.210.350 Students with diabetes—Compliance with individual health plan—Immunity.** A school district, school district employee, agent, or parent-designated adult who, acting in good faith and in substantial compliance with the student's individual health plan and the instructions of the student's licensed health care professional, provides assistance or services under RCW 28A.210.330 shall not be liable in any criminal action or for civil damages in his or her individual or marital or governmental or corporate or other capacities as a result of the services provided under RCW 28A.210.330 to students with diabetes. [2002 c 350 § 4.]

**Findings—Effective date—2002 c 350:** See notes following RCW 28A.210.330.

**28A.210.360 Model policy on access to nutritious foods and developmentally appropriate exercise—School district policies.** (1) Consistent with the essential academic learning requirements for health and fitness, including nutrition, the Washington state school directors association, with the assistance of the office of the superintendent of public instruction, the department of health, and the Washington alliance for health, physical education, recreation and dance, shall convene an advisory committee to develop a model policy regarding access to nutritious foods, opportunities for developmentally appropriate exercise, and accurate information related to these topics. The policy shall address the nutritional content of foods and beverages, including fluoridated bottled water, sold or provided throughout the school day or sold in competition with the federal school breakfast and lunch program and the availability and quality of health, nutrition, and physical education and fitness curriculum. The model policy should include the development of a physical education and fitness curriculum for students. For middle school students, physical education and fitness curriculum means a daily period of physical activity, a minimum of twenty minutes of which is aerobic activity in the student's target heart rate zone, which includes instruction and practice in basic movement and fine motor skills, progressive physical fitness, athletic conditioning, and nutrition and wellness instruction through age-appropriate activities.

(2) The school directors association shall submit the model policy and recommendations on the related issues, along with a recommendation for local adoption, to the governor and the legislature and shall post the model policy on its web site by January 1, 2005.

(3) Each district's board of directors shall establish its own policy by August 1, 2005. [2004 c 138 § 2.]

**Findings—2004 c 138:** "(1) The legislature finds:

(a) Childhood obesity has reached epidemic levels in Washington and throughout the nation. Nearly one in five Washington adolescents in grades nine through twelve were recently found to be either overweight or at risk of

(2010 Ed.)

being overweight;

(b) Overweight and obese children are at higher risk for developing severe long-term health problems, including but not limited to Type 2 diabetes, cardiovascular disease, high blood pressure, and certain cancers;

(c) Overweight youth also are often affected by discrimination, psychological stress, and low self-esteem;

(d) Obesity and subsequent diseases are largely preventable through diet and regular physical activity;

(e) A child who has eaten a well-balanced meal and is healthy is more likely to be prepared to learn in the classroom;

(f) Encouraging adolescents to adopt healthy lifelong eating habits can increase their productivity and reduce their risk of dying prematurely;

(g) Frequent eating of carbohydrate-rich foods or drinking sweet liquids throughout the day increases a child's risk for dental decay, the most common chronic childhood disease;

(h) Schools are a logical place to address the issue of obesity in children and adolescents; and

(i) Increased emphasis on physical activity at all grade levels is essential to enhancing the well-being of Washington's youth.

(2) While the United States department of agriculture regulates the nutritional content of meals sold in schools under its school breakfast and lunch program, limited standards are in place to regulate "competitive foods," which may be high in added sugars, sodium, and saturated fat content. However, the United States department of agriculture does call for states and local entities to add restrictions on competitive foods, as necessary." [2004 c 138 § 1.]

**28A.210.365 Food choice, physical activity, childhood fitness—Minimum standards—District waiver or exemption policy.** It is the goal of Washington state to ensure that:

(1) By 2010, all K-12 districts have school health advisory committees that advise school administration and school board members on policies, environmental changes, and programs needed to support healthy food choice and physical activity and childhood fitness. Districts shall include school nurses or other school personnel as advisory committee members.

(2) By 2010, only healthy food and beverages provided by schools during school hours or for school-sponsored activities shall be available on school campuses. Minimum standards for available food and beverages, except food served as part of a United States department of agriculture meal program, are:

(a) Not more than thirty-five percent of its total calories shall be from fat. This restriction does not apply to nuts, nut butters, seeds, eggs, fresh or dried fruits, vegetables that have not been deep-fried, legumes, reduced-fat cheese, part-skim cheese, nonfat dairy products, or low-fat dairy products;

(b) Not more than ten percent of its total calories shall be from saturated fat. This restriction does not apply to eggs, reduced-fat cheese, part-skim cheese, nonfat dairy products, or low-fat dairy products;

(c) Not more than thirty-five percent of its total weight or fifteen grams per food item shall be composed of sugar, including naturally occurring and added sugar. This restriction does not apply to the availability of fresh or dried fruits and vegetables that have not been deep-fried; and

(d) The standards for food and beverages in this subsection do not apply to:

(i) Low-fat and nonfat flavored milk with up to thirty grams of sugar per serving;

(ii) Nonfat or low-fat rice or soy beverages; or

(iii) One hundred percent fruit or vegetable juice.

(3) By 2010, all students in grades one through eight should have at least one hundred fifty minutes of quality physical education every week.

(4) By 2010, all student health and fitness instruction shall be conducted by appropriately certified instructors.

(5) Beginning with the 2011-2012 school year, any district waiver or exemption policy from physical education requirements for high school students should be based upon meeting both health and fitness curricula concepts as well as alternative means of engaging in physical activity, but should acknowledge students' interest in pursuing their academic interests. [2007 c 5 § 5.]

**28A.210.370 Students with asthma.** (1) The superintendent of public instruction and the secretary of the department of health shall develop a uniform policy for all school districts providing for the in-service training for school staff on symptoms, treatment, and monitoring of students with asthma and on the additional observations that may be needed in different situations that may arise during the school day and during school-sponsored events. The policy shall include the standards and skills that must be in place for in-service training of school staff.

(2) All school districts shall adopt policies regarding asthma rescue procedures for each school within the district.

(3) All school districts must require that each public elementary school and secondary school grant to any student in the school authorization for the self-administration of medication to treat that student's asthma or anaphylaxis, if:

(a) A health care practitioner prescribed the medication for use by the student during school hours and instructed the student in the correct and responsible use of the medication;

(b) The student has demonstrated to the health care practitioner, or the practitioner's designee, and a professional registered nurse at the school, the skill level necessary to use the medication and any device that is necessary to administer the medication as prescribed;

(c) The health care practitioner formulates a written treatment plan for managing asthma or anaphylaxis episodes of the student and for medication use by the student during school hours; and

(d) The student's parent or guardian has completed and submitted to the school any written documentation required by the school, including the treatment plan formulated under (c) of this subsection and other documents related to liability.

(4) An authorization granted under subsection (3) of this section must allow the student involved to possess and use his or her medication:

(a) While in school;

(b) While at a school-sponsored activity, such as a sporting event; and

(c) In transit to or from school or school-sponsored activities.

(5) An authorization granted under subsection (3) of this section:

(a) Must be effective only for the same school and school year for which it is granted; and

(b) Must be renewed by the parent or guardian each subsequent school year in accordance with this subsection.

(6) School districts must require that backup medication, if provided by a student's parent or guardian, be kept at a stu-

dent's school in a location to which the student has immediate access in the event of an asthma or anaphylaxis emergency.

(7) School districts must require that information described in subsection (3)(c) and (d) of this section be kept on file at the student's school in a location easily accessible in the event of an asthma or anaphylaxis emergency.

(8) Nothing in this section creates a cause of action or in any other way increases or diminishes the liability of any person under any other law. [2005 c 462 § 2.]

**Findings—2005 c 462:** "The legislature finds that:

(1) Asthma is a dangerous disease that is growing in prevalence in Washington state. An estimated five hundred thousand residents of the state suffer from asthma. Since 1995, asthma has claimed more than five hundred lives, caused more than twenty-five thousand hospitalizations with costs of more than one hundred twelve million dollars, and resulted in seven million five hundred thousand missed school days. School nurses have identified over four thousand children with life-threatening asthma in the state's schools.

(2) While asthma is found among all populations, its prevalence disproportionately affects low-income and minority populations. Untreated asthma affects worker productivity and results in unnecessary absences from work. In many cases, asthma triggers present in substandard housing and poorly ventilated workplaces contribute directly to asthma.

(3) Although research continues into the causes and cures for asthma, national consensus has been reached on treatment guidelines. People with asthma who are being treated in accordance with these guidelines are far more likely to control the disease than those who are not being treated and therefore are less likely to experience debilitating or life-threatening asthma episodes, less likely to be hospitalized, and less likely to need to curtail normal school or work activities. With treatment, most people with asthma are able to live normal, active lives.

(4) Up to one-third of the people with asthma have not had their disease diagnosed. Among those with diagnosed asthma, thirty to fifty percent are not receiving medicines that are needed to control the disease, and approximately eighty percent of diagnosed asthmatics are not getting yearly spirometry measurements that are a key element in monitoring the disease." [2005 c 462 § 1.]

**28A.210.375 Student health insurance information—Pilot project—Reports.** (1) By August 1, 2008, the superintendent of public instruction shall solicit and select up to six school districts to implement, on a pilot project basis, this section. The selected school districts shall include districts from urban and rural areas, and eastern and western Washington.

(2) Beginning with the 2008-09 school year, as part of a public school's enrollment process, each school participating as a pilot project shall annually inquire whether a student has health insurance. The school shall include in the inquiry a statement explaining that an outreach worker may contact families with uninsured students about options for health care coverage. The inquiry shall make provision for the parent or guardian to authorize the sharing of information for this purpose, consistent with state and federal confidentiality requirements.

(3) The school shall record each student's health insurance status in the district's student information system.

(4) By December 1, 2008, from the district's student information system, the pilot school shall develop a list of students without insurance for whom parent authorization to share information was granted. To the extent such information is available, the list shall include:

(a) Identifiers, including each student's full name and date of birth; and

(b) Parent or guardian contact information, including telephone number, e-mail address, and street address.

(5) By September 1, 2008, the department and superintendent shall develop and make available a model agreement to enable schools to share student information in compliance with state and federal confidentiality requirements.

(6) By January 1, 2009, each participating pilot school and a local outreach organization, where available, shall work to put in place an agreement to share student information in accordance with state and federal confidentiality requirements. Once an agreement is in place, the school shall share the list described in subsection (4) of this section with the outreach organization.

(7) The outreach organization shall use the information on the list to contact families and assist them to enroll students on a medical program, in accordance with chapter 74.09 RCW.

(8) By July 1, 2009, pilot schools shall report to the superintendent of public instruction:

(a) The number of students identified without health insurance under subsection (2) of this section; and

(b) Whether an agreement as described under subsection (6) of this section is in place.

(9) By December 1, 2009, the department and the superintendent shall submit a joint report to the legislature that provides:

(a) Summary information on the number of students identified without insurance;

(b) The number of schools with agreements with outreach organizations and the number without such agreements;

(c) The cost of collecting and reporting data;

(d) The impact of such outreach efforts they can quantify; and

(e) Any recommendations for changes that would improve the efficiency or effectiveness of outreach efforts described in this section.

(10) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Department" means the department of social and health services.

(b) "Superintendent" means the superintendent of public instruction.

(c) "Outreach organization" means a nonprofit organization or a local government entity either contracting with the department pursuant to chapter 74.09 RCW, or otherwise qualified to provide outreach, education, and enrollment services to uninsured children. [2008 c 302 § 1.]

**28A.210.380 Anaphylaxis—Policy guidelines—Procedures—Reports.** (1) The office of the superintendent of public instruction, in consultation with the department of health, shall develop anaphylactic policy guidelines for schools to prevent anaphylaxis and deal with medical emergencies resulting from it. The policy guidelines shall be developed with input from pediatricians, school nurses, other health care providers, parents of children with life-threatening allergies, school administrators, teachers, and food service directors.

The policy guidelines shall include, but need not be limited to:

(a) A procedure for each school to follow to develop a treatment plan including the responsibilities for [of] school nurses and other appropriate school personnel responsible for responding to a student who may be experiencing anaphylaxis;

(b) The content of a training course for appropriate school personnel for preventing and responding to a student who may be experiencing anaphylaxis;

(c) A procedure for the development of an individualized emergency health care plan for children with food or other allergies that could result in anaphylaxis;

(d) A communication plan for the school to follow to gather and disseminate information on students with food or other allergies who may experience anaphylaxis;

(e) Strategies for reduction of the risk of exposure to anaphylactic causative agents including food and other allergens.

(2) For the purpose of this section "anaphylaxis" means a severe allergic and life-threatening reaction that is a collection of symptoms, which may include breathing difficulties and a drop in blood pressure or shock.

(3) An approved private school for the purposes of this chapter and chapter 28A.200 RCW shall be one approved under regulations established by the state board of education pursuant to RCW 28A.305.130.

(4) For the purposes of this chapter and chapter 28A.200 RCW, instruction shall be home-based if it consists of planned and supervised instructional and related educational activities, including a curriculum and instruction in the basic skills of occupational education, science, mathematics, language, social studies, history, health, reading, writing, spelling, and the development of an appreciation of art and music, provided for a number of hours equivalent to the total annual program hours per grade level established for approved private schools under RCW 28A.195.010 and 28A.195.040 and if such activities are:

(a) Provided by a parent who is instructing his or her child only and are supervised by a certificated person. A cer-

tificated person for purposes of this chapter and chapter 28A.200 RCW shall be a person certified under chapter 28A.410 RCW. For purposes of this section, "supervised by a certificated person" means: The planning by the certificated person and the parent of objectives consistent with this subsection; a minimum each month of an average of one contact hour per week with the child being supervised by the certificated person; and evaluation of such child's progress by the certificated person. The number of children supervised by the certificated person shall not exceed thirty for purposes of this subsection; or

(b) Provided by a parent who is instructing his or her child only and who has either earned forty-five college level quarter credit hours or its equivalent in semester hours or has completed a course in home-based instruction at a postsecondary institution or a vocational-technical institute; or

(c) Provided by a parent who is deemed sufficiently qualified to provide home-based instruction by the superintendent of the local school district in which the child resides.

(5) The legislature recognizes that home-based instruction is less structured and more experiential than the instruction normally provided in a classroom setting. Therefore, the provisions of subsection (4) of this section relating to the nature and quantity of instructional and related educational activities shall be liberally construed. **28A.225.015 Attendance mandatory—Six or seven year olds—Unexcused absences—Petition.** (1) If a parent enrolls a child who is six or seven years of age in a public school, the child is required to attend and that parent has the responsibility to ensure the child attends for the full time that school is in session. An exception shall be made to this requirement for children whose parents formally remove them from enrollment if the child is less than eight years old and a petition has not been filed against the parent under subsection (3) of this section. The requirement to attend school under this subsection does not apply to a child enrolled in a public school part-time for the purpose of receiving ancillary services. A child required to attend school under this subsection may be temporarily excused upon the request of his or her parent for purposes agreed upon by the school district and parent.

(2) If a six or seven year-old child is required to attend public school under subsection (1) of this section and that child has unexcused absences, the public school in which the child is enrolled shall:

(a) Inform the child's custodial parent, parents, or guardian by a notice in writing or by telephone whenever the child has failed to attend school after one unexcused absence within any month during the current school year;

(b) Request a conference or conferences with the custodial parent, parents, or guardian and child at a time reasonably convenient for all persons included for the purpose of analyzing the causes of the child's absences after two unexcused absences within any month during the current school year. If a regularly scheduled parent-teacher conference day is to take place within thirty days of the second unexcused absence, then the school district may schedule this conference on that day; and

(c) Take steps to eliminate or reduce the child's absences. These steps shall include, where appropriate, adjusting the child's school program or school or course assignment, providing more individualized or remedial instruction, offering assistance in enrolling the child in available alternative schools or programs, or assisting the parent or child to obtain supplementary services that may help eliminate or ameliorate the cause or causes for the absence from school.

(3) If a child required to attend public school under subsection (1) of this section has seven unexcused absences in a month or ten unexcused absences in a school year, the school district shall file a petition for civil action as provided in RCW 28A.225.035 against the parent of the child.

(4) This section does not require a six or seven year old child to enroll in a public or private school or to receive home-based instruction. This section only applies to six or seven year old children whose parents enroll them full time in public school and do not formally remove them from enrollment as provided in subsection (1) of this section. [1999 c 319 § 6.]

**28A.225.020 School's duties upon child's failure to attend school.** (1) If a child required to attend school under RCW 28A.225.010 fails to attend school without valid justification, the public school in which the child is enrolled shall:

(a) Inform the child's custodial parent, parents, or guardian by a notice in writing or by telephone whenever the child has failed to attend school after one unexcused absence within any month during the current school year. School officials shall inform the parent of the potential consequences of additional unexcused absences. If the custodial parent, parents, or guardian is not fluent in English, the preferred practice is to provide this information in a language in which the custodial parent, parents, or guardian is fluent;

(b) Schedule a conference or conferences with the custodial parent, parents, or guardian and child at a time reasonably convenient for all persons included for the purpose of analyzing the causes of the child's absences after two unexcused absences within any month during the current school year. If a regularly scheduled parent-teacher conference day is to take place within thirty days of the second unexcused absence, then the school district may schedule this conference on that day; and

(c) Take steps to eliminate or reduce the child's absences. These steps shall include, where appropriate, adjusting the child's school program or school or course assignment, providing more individualized or remedial instruction, providing appropriate vocational courses or work experience, referring the child to a community truancy board, if available, requiring the child to attend an alternative school or program, or assisting the parent or child to obtain supple-

mentary services that might eliminate or ameliorate the cause or causes for the absence from school. If the child's parent does not attend the scheduled conference, the conference may be conducted with the student and school official. However, the parent shall be notified of the steps to be taken to eliminate or reduce the child's absence.

(2) For purposes of this chapter, an "unexcused absence" means that a child:

(a) Has failed to attend the majority of hours or periods in an average school day or has failed to comply with a more restrictive school district policy; and

(b) Has failed to meet the school district's policy for excused absences.

(3) If a child transfers from one school district to another during the school year, the receiving school or school district shall include the unexcused absences accumulated at the previous school or from the previous school district for purposes of this section, RCW 28A.225.030, and 28A.225.015. [2009 c 266 § 1; 1999 c 319 § 1; 1996 c 134 § 2; 1995 c 312 § 67; 1992 c 205 § 202; 1986 c 132 § 2; 1979 ex.s. c 201 § 1. Formerly RCW 28A.27.020.]

**28A.225.025 Community truancy boards.** (1) For purposes of this chapter, "community truancy board" means a board composed of members of the local community in which the child attends school. Juvenile courts may establish and operate community truancy boards. If the juvenile court and the school district agree, a school district may establish and operate a community truancy board under the jurisdiction of the juvenile court. Juvenile courts may create a community truancy board or may use other entities that exist or are created, such as diversion units. However, a diversion unit or other existing entity must agree before it is used as a truancy board. Duties of a community truancy board shall include, but not be limited to, recommending methods for improving school attendance such as assisting the parent or the child to obtain supplementary services that might eliminate or ameliorate the causes for the absences or suggesting to the school district that the child enroll in another school, an alternative education program, an education center, a skill center, a dropout prevention program, or another public or private educational program.

(2) The legislature finds that utilization of community truancy boards, or other diversion units that fulfill a similar function, is the preferred means of intervention when preliminary methods of notice and parent conferences and taking appropriate steps to eliminate or reduce unexcused absences have not been effective in securing the child's attendance at school. The legislature intends to encourage and support the development and expansion of community truancy boards and other diversion programs which are effective in promoting school attendance and preventing the need for more intrusive intervention by the court. Operation of a school truancy board does not excuse a district from the obligation of filing a petition within the requirements of RCW 28A.225.015(3). [2009 c 266 § 2; 1999 c 319 § 5; 1996 c 134 § 9; 1995 c 312 § 66.]

**28A.225.030 Petition to juvenile court for violations by a parent or child—School district responsibilities.** (1) If a child is required to attend school under RCW 28A.225.010 and if the actions taken by a school district under RCW 28A.225.020 are not successful in substantially reducing an enrolled student's absences from public school, not later than the seventh unexcused absence by a child within any month during the current school year or not later than the tenth unexcused absence during the current school year the school district shall file a petition and supporting affidavit for a civil action with the juvenile court alleging a violation of RCW 28A.225.010: (a) By the parent; (b) by the child; or (c) by the parent and the child. Except as provided in this subsection, no additional documents need be filed with the petition.

(2) The district shall not later than the fifth unexcused absence in a month:

(a) Enter into an agreement with a student and parent that establishes school attendance requirements;

(b) Refer a student to a community truancy board, if available, as defined in RCW 28A.225.025. The community truancy board shall enter into an agreement with the student and parent that establishes school attendance requirements and take other appropriate actions to reduce the child's absences; or

(c) File a petition under subsection (1) of this section.

(3) The petition may be filed by a school district employee who is not an attorney.

(4) If the school district fails to file a petition under this section, the parent of a child with five or more unexcused absences in any month during the current school year or upon the tenth unexcused absence during the current school year may file a petition with the juvenile court alleging a violation of RCW 28A.225.010.

(5) Petitions filed under this section may be served by certified mail, return receipt requested. If such service is unsuccessful, or the return receipt is not signed by the addressee, personal service is required. **28A.225.031 Alcohol or controlled substances testing—Authority to order.** The authority of a court to issue an order for testing to determine whether the child has consumed or used alcohol or controlled substances applies to all persons subject to a petition under RCW 28A.225.030 regardless of whether the petition was filed before July 27, 1997. [1997 c 68 § 3.]

**28A.225.035 Petition to juvenile court—Contents—Court action—Referral to community truancy board—Transfer of jurisdiction upon relocation.** (1) A petition for a civil action under RCW 28A.225.030 or 28A.225.015 shall consist of a written notification to the court alleging that:

(a) The child has unexcused absences during the current school year;

(b) Actions taken by the school district have not been successful in substantially reducing the child's absences from school; and

(c) Court intervention and supervision are necessary to assist the school district or parent to reduce the child's absences from school.

(2) The petition shall set forth the name, date of birth, school, address, gender, race, and ethnicity of the child and the names and addresses of the child's parents, and shall set forth whether the child and parent are fluent in English and whether there is an existing individualized education program.

(3) The petition shall set forth facts that support the allegations in this section and shall generally request relief available under this chapter and provide information about what the court might order under RCW 28A.225.090.

(4) When a petition is filed under RCW 28A.225.030 or 28A.225.015, the juvenile court shall schedule a hearing at which the court shall consider the petition, or if the court determines that a referral to an available community truancy board would substantially reduce the child's unexcused absences, the court may refer the case to a community truancy board under the jurisdiction of the juvenile court.

(5) If a referral is made to a community truancy board, the truancy board must meet with the child, a parent, and the school district representative and enter into an agreement with the petitioner and respondent regarding expectations and any actions necessary to address the child's truancy within twenty days of the referral. If the petition is based on RCW 28A.225.015, the child shall not be required to attend and the agreement under this subsection shall be between the truancy board, the school district, and the child's parent. The court may permit the truancy board or truancy prevention counselor to provide continued supervision over the student, or parent if the petition is based on RCW 28A.225.015.

(6) If the truancy board fails to reach an agreement, or the parent or student does not comply with the agreement, the truancy board shall return the case to the juvenile court for a hearing.

(7)(a) Notwithstanding the provisions in subsection (4) of this section, a hearing shall not be required if other actions by the court would substantially reduce the child's unexcused absences. When a juvenile court hearing is held, the court shall:

(i) Separately notify the child, the parent of the child, and the school district of the hearing. If the parent is not fluent in English, the preferred practice is for notice to be provided in a language in which the parent is fluent;

(ii) Notify the parent and the child of their rights to present evidence at the hearing; and

(iii) Notify the parent and the child of the options and rights available under chapter 13.32A RCW.

(b) If the child is not provided with counsel, the advisement of rights must take place in court by means of a colloquy between the court, the child if eight years old or older, and the parent.

(8) The court may require the attendance of the child if eight years old or older, the parents, and the school district at any hearing on a petition filed under RCW 28A.225.030.

(9) A school district is responsible for determining who shall represent the school district at hearings on a petition filed under RCW 28A.225.030 or 28A.225.015.

(10) The court may permit the first hearing to be held without requiring that either party be represented by legal

counsel, and to be held without a guardian ad litem for the child under RCW 4.08.050. At the request of the school district, the court shall permit a school district representative who is not an attorney to represent the school district at any future hearings.

(11) If the child is in a special education program or has a diagnosed mental or emotional disorder, the court shall inquire as to what efforts the school district has made to assist the child in attending school.

(12) If the allegations in the petition are established by a preponderance of the evidence, the court shall grant the petition and enter an order assuming jurisdiction to intervene for the period of time determined by the court, after considering the facts alleged in the petition and the circumstances of the juvenile, to most likely cause the juvenile to return to and remain in school while the juvenile is subject to this chapter. In no case may the order expire before the end of the school year in which it is entered.

(13) If the court assumes jurisdiction, the school district shall regularly report to the court any additional unexcused absences by the child.

(14) Community truancy boards and the courts shall coordinate, to the extent possible, proceedings and actions pertaining to children who are subject to truancy petitions and at-risk youth petitions in RCW 13.32A.191 or child in need of services petitions in RCW 13.32A.140.

(15) If after a juvenile court assumes jurisdiction in one county the child relocates to another county, the juvenile court in the receiving county shall, upon the request of a school district or parent, assume jurisdiction of the petition filed in the previous county. **28A.225.055 Excused absences—Search and rescue activities.** The legislature finds that state-recognized search and rescue activities, as defined in chapter 38.52 RCW and the rules interpreting the chapter, are recognized as activities deserving of excuse from school. Therefore, the legislature strongly encourages that excused absences be granted to students for up to five days each year to participate in search and rescue activities, subject to approval by the student's parent and the principal of the student's school, and provided that the activities do not cause a serious adverse effect upon the student's educational progress. **28A.225.060 Custody and disposition of child absent from school without excuse.** Any school district official, sheriff, deputy sheriff, marshal, police officer, or any other officer authorized to make arrests, may take into custody without a warrant a child who is required under the provisions of RCW 28A.225.010 through 28A.225.140 to attend school and is absent from school without an approved excuse, and shall deliver the child to: (1) The custody of a person in parental relation to the child; (2) the school from which the child is absent; or (3) a program designated by the school district. **28A.225.080 Employment permits.** Except as otherwise provided in this code, no child under the age of fifteen years shall be employed for any purpose by any person, company or corporation, in this state during the hours which the public schools of the district in which such child resides are in session, unless the said child shall present a certificate from a school superintendent as provided for in RCW 28A.225.010, excusing the said child from attendance in the public schools and setting forth the reason for such excuse, the residence and age of the child, and the time for which such excuse is given. Every owner, superintendent, or overseer of any establishment, company or corporation shall keep such certificate on file so long as such child is employed by him or her. The form of said certificate shall be furnished by the superintendent of public instruction. Proof that any child under fifteen years of age is employed during any part of the period in which public schools of the district are in session, shall be deemed prima facie evidence of a violation of this section. **28A.225.090 Court orders—Penalties—Parents' defense.** (1) A court may order a child subject to a petition under RCW 28A.225.035 to do one or more of the following:

(a) Attend the child's current school, and set forth minimum attendance requirements, including suspensions;

(b) If there is space available and the program can provide educational services appropriate for the child, order the child to attend another public school, an alternative education program, center, a skill center, dropout prevention program, or another public educational program;

(c) Attend a private nonsectarian school or program including an education center. Before ordering a child to attend an approved or certified private nonsectarian school or program, the court shall: (i) Consider the public and private programs available; (ii) find that placement is in the best interest of the child; and (iii) find that the private school or program is willing to accept the child and will not charge any fees in addition to those established by contract with the student's school district. If the court orders the child to enroll in a private school or program, the child's school district shall contract with the school or program to provide educational services for the child. The school district shall not be required to contract for a weekly rate that exceeds the state general apportionment dollars calculated on a weekly basis generated by the child and received by the district. A school district shall not be required to enter into a contract that is longer than the remainder of the school year. A school district shall not be required to enter into or continue a contract if the child is no longer enrolled in the district;

(d) Be referred to a community truancy board, if available; or

(e) Submit to testing for the use of controlled substances or alcohol based on a determination that such testing is appro-

appropriate to the circumstances and behavior of the child and will facilitate the child's compliance with the mandatory attendance law and, if any test ordered under this subsection indicates the use of controlled substances or alcohol, order the minor to abstain from the unlawful consumption of controlled substances or alcohol and adhere to the recommendations of the drug assessment at no expense to the school.

(2) If the child fails to comply with the court order, the court may order the child to be subject to detention, as provided in RCW 7.21.030(2)(e), or may impose alternatives to detention such as community restitution. Failure by a child to comply with an order issued under this subsection shall not be subject to detention for a period greater than that permitted pursuant to a civil contempt proceeding against a child under chapter 13.32A RCW. Detention ordered under this subsection may be for no longer than seven days. A warrant of arrest for a child under this subsection may not be served on a child inside of school during school hours in a location where other students are present.

(3) Any parent violating any of the provisions of either RCW 28A.225.010, 28A.225.015, or 28A.225.080 shall be fined not more than twenty-five dollars for each day of unexcused absence from school. The court shall remit fifty percent of the fine collected under this section to the child's school district. It shall be a defense for a parent charged with violating RCW 28A.225.010 to show that he or she exercised reasonable diligence in attempting to cause a child in his or her custody to attend school or that the child's school did not perform its duties as required in RCW 28A.225.020. The court may order the parent to provide community restitution instead of imposing a fine. Any fine imposed pursuant to this section may be suspended upon the condition that a parent charged with violating RCW 28A.225.010 shall participate with the school and the child in a supervised plan for the child's attendance at school or upon condition that the parent attend a conference or conferences scheduled by a school for the purpose of analyzing the causes of a child's absence.

(4) If a child continues to be truant after entering into a court-approved order with the truancy board under RCW 28A.225.035, the juvenile court shall find the child in contempt, and the court may order the child to be subject to detention, as provided in RCW 7.21.030(2)(e), or may impose alternatives to detention such as meaningful community restitution. Failure by a child to comply with an order issued under this subsection may not subject a child to detention for a period greater than that permitted under a civil contempt proceeding against a child under chapter 13.32A RCW.

(5) Subsections (1), (2), and (4) of this section shall not apply to a six or seven year-old child required to attend public school under RCW 28A.225.015. AIDS prevention education shall be limited to the discussion of the life-threatening dangers of the disease, its spread, and prevention. Students shall receive such education at least once each school year beginning no later than the fifth grade.

(2) Each district board of directors shall adopt an AIDS prevention education program which is developed in consultation with teachers, administrators, parents, and other community members including, but not limited to, persons from medical, public health, and mental health organizations and agencies so long as the curricula and materials developed for

use in the AIDS education program either (a) are the model curricula and resources under subsection (3) of this section, or (b) are developed by the school district and approved for medical accuracy by the office on AIDS established in RCW 70.24.250. If a district elects to use curricula developed by the school district, the district shall submit to the office on AIDS a copy of its curricula and an affidavit of medical accuracy stating that the material in the district-developed curricula has been compared to the model curricula for medical accuracy and that in the opinion of the district the district-developed materials are medically accurate. (6) The curriculum for AIDS prevention education shall be designed to teach students which behaviors place a person dangerously at risk of infection with the human immunodeficiency virus (HIV) and methods to avoid such risk including, at least:

(a) The dangers of drug abuse, especially that involving the use of hypodermic needles; and

It shall also teach that condoms and other artificial means of birth control are not a certain means of preventing the spread of the AIDS virus and reliance on condoms puts a person at risk for exposure to the disease. **Finding—2009 c 223:** "The legislature finds that although the United States has long exemplified democratic practice to the rest of the world, we ought not to neglect it at home. Two-thirds of our nation's twelfth graders scored below proficient on the last national civics assessment, and fewer than ten percent could list two ways that a democracy benefits from citizen participation. A healthy democracy depends on the participation of citizens. But participation is learned behavior, and in recent years civic learning has been pushed aside. Preparation for citizenship is as important as preparation for college and a career, and should take its place as a requirement for receiving a high school diploma." [2009 c 223 § 1.]

**28A.230.093 Social studies course credits—Civics coursework.** (1) If, after July 26, 2009, the state board of education increases the number of course credits in social studies that are required for high school graduation under RCW 28A.230.090, the board shall also require that at least one-half credit of that requirement be coursework in civics.

(2) The content of the civics requirement must include, but not be limited to:

(a) Federal, state, and local government organization and procedures;

(b) Rights and responsibilities of citizens addressed in the Washington state and United States Constitutions;

(c) Current issues addressed at each level of government; and

**Finding—2009 c 223:** See note following RCW 28A.230.090.

**28A.230.095 Essential academic learning requirements and assessments—Verification reports.** (1) By the end of the 2008-09 school year, school districts shall have in place in elementary schools, middle schools, and high schools assessments or other strategies chosen by the district to assure that students have an opportunity to learn the essential academic learning requirements in social studies, the arts, and health and fitness. Social studies includes history, geography, civics, economics, and social studies skills. Beginning with the 2008-09 school year, school districts shall annually submit an implementation verification report to the office of the superintendent of public instruction. The office of the superintendent of public instruction may not require school districts to use a classroom-based assessment in social studies, the arts, and health and fitness to meet the requirements of this section and shall clearly communicate to districts their option to use other strategies chosen by the district.

(2) Beginning with the 2008-09 school year, school districts shall require students in the seventh or eighth grade, and the eleventh or twelfth grade to each complete at least one classroom-based assessment in civics. Beginning with the 2010-11 school year, school districts shall require students in the fourth or fifth grade to complete at least one classroom-based assessment in civics. The civics assessment may be selected from a list of classroom-based assessments approved by the office of the superintendent of public instruction. Beginning with the 2008-09 school year, school districts shall annually submit implementation verification reports to the

office of the superintendent of public instruction documenting the use of the classroom-based assessments in civics.

(3) Verification reports shall require school districts to report only the information necessary to comply with this section. [2009 c 556 § 8; 2006 c 113 § 2; 2004 c 19 § 203.]

**Findings—2006 c 113:** "The legislature finds that instruction in social studies, arts, health, and fitness is important to ensure a well-rounded and complete education. In particular, the civic mission of schools is strengthened and enhanced by comprehensive civics education and assessments. The legislature finds that effective and accountable democratic government depends upon an informed and engaged citizenry, and therefore, students should learn their rights and responsibilities as citizens, where those rights and responsibilities come from, and how to exercise them." **28A.230.097 Career and technical high school course equivalencies.** (1) Each high school or school district board of directors shall adopt course equivalencies for career and technical high school courses offered to students in high schools and skill centers. A career and technical course equivalency may be for whole or partial credit. Each school district board of directors shall develop a course equivalency approval procedure.

(2) Career and technical courses determined to be equivalent to academic core courses, in full or in part, by the high school or school district shall be accepted as meeting core requirements, including graduation requirements, if the courses are recorded on the student's transcript using the equivalent academic high school department designation and title. Full or partial credit shall be recorded as appropriate. The high school or school district shall also issue and keep record of course completion certificates that demonstrate that the career and technical courses were successfully completed as needed for industry certification, college credit, or pre-apprenticeship, as applicable. The certificate shall be either part of the student's high school and beyond plan or the student's culminating project, as determined by the student. The office of the superintendent of public instruction shall develop and make available electronic samples of certificates of course completion. [2008 c 170 § 202; 2006 c 114 § 2.]

**Finding—Intent—2006 c 114:** "(1) The legislature finds that Washington's performance-based education system should seek to provide fundamental academic knowledge and skills for all students, and to provide the opportunity for students to acquire knowledge and skills likely to contribute to their own economic well-being and that of their families and communities.

(2) The legislature recognizes that career and technical options are available for students.

(3) High schools or school districts should take advantage of their opportunity to offer course credits, including credits toward graduation requirements, for knowledge and skills in fundamental academic content areas that students gain in career and technical education courses.

(4) Therefore the legislature intends to create a rigorous and high quality career and technical high school alternative assessment that assures students meet state standards, and also reflects nationally recognized standards for the knowledge and skills needed to pursue employment and careers in technical fields." [2006 c 114 § 1.]

The rules shall include, as the superintendent deems necessary, granting equivalencies for and temporary exemptions from the course requirements in RCW 28A.230.090 and special alterations of the course requirements in RCW 28A.230.090. In developing such rules the superintendent shall recognize the relevance of vocational and applied courses and allow such courses to fulfill in whole or in part the courses required for graduation in RCW 28A.230.090, as determined by the high school or school district in accordance with RCW 28A.230.097. The rules may include provisions for competency testing in lieu of such courses required for graduation in RCW 28A.230.090 or demonstration of specific skill proficiency or understanding of concepts through work or experience. Middle schools have successfully served one thousand four hundred full-time equivalent students in career and technical programs rich in science, technology, engineering, and mathematics through a grant program. *Food services—Use of federal funds: Chapter 28A.235 RCW.*

**28A.235.140 School breakfast programs.** (1) For the purposes of this section:

(a) "Free or reduced-price lunches" means lunches served by a school district that qualify for federal reimbursement as free or reduced-price lunches under the national school lunch program.

(b) "School breakfast program" means a program meeting federal requirements defined in 42 U.S.C. Sec. 1773.

(c) "Severe-need school" means a school that qualifies for a severe-need school reimbursement rate from federal funds for school breakfasts served to children from low-income families.

(2) School districts shall be required to develop and implement plans for a school breakfast program in severe-need schools, pursuant to the schedule in this section. For the second year prior to the implementation of the district's school breakfast program, and for each subsequent school year, each school district shall submit data enabling the superintendent of public instruction to determine which schools within the district will qualify as severe-need schools. In developing its plan, each school district shall consult with an advisory committee including school staff and community members appointed by the board of directors of the district.

(3) Using district-wide data on school lunch participation during the 1988-89 school year, the superintendent of public instruction shall adopt a schedule for implementation of school breakfast programs in severe-need schools as follows:

(a) School districts where at least forty percent of lunches served to students are free or reduced-price lunches shall submit a plan for implementation of a school breakfast program in severe-need schools to the superintendent of public instruction no later than July 1, 1990. Each such district shall implement a school breakfast program in all severe-need schools no later than the second day of school in the 1990-91 school year and in each school year thereafter.

(b) School districts where at least twenty-five but less than forty percent of lunches served to students are free or reduced-price lunches shall submit a plan for implementation of a school breakfast program in severe-need schools to the superintendent of public instruction no later than July 1, 1991. Each such district shall implement a school breakfast program in all severe-need schools no later than the second day of school in the 1991-92 school year and in each school year thereafter.

(c) School districts where less than twenty-five percent of lunches served to students are free or reduced-price lunches shall submit a plan for implementation of a school breakfast program in severe-need schools to the superintendent of public instruction no later than July 1, 1992. Each

such district shall implement a school breakfast program in all severe-need schools no later than the second day of school in the 1992-93 school year and in each school year thereafter.

(d) School districts that did not offer a school lunch program in the 1988-89 school year are encouraged to implement such a program and to provide a school breakfast program in all severe-need schools when eligible.

(4) The requirements in this section shall lapse if the federal reimbursement rate for breakfasts served in severe-need schools is eliminated.

(5) Students who do not meet family-income criteria for free breakfasts shall be eligible to participate in the school breakfast programs established under this section, and school districts may charge for the breakfasts served to these students. Requirements that school districts have school breakfast programs under this section shall not create or imply any state funding obligation for these costs. The legislature does not intend to include these programs within the state's obligation for basic education funding under Article IX of the Constitution. [1993 c 333 § 1; 1989 c 239 § 2. Formerly RCW 28A.29.040.]

**28A.235.145 School breakfast and lunch programs—Use of state funds.** State funds received by school districts under this chapter for school breakfast and lunch programs shall be used to support the operating costs of the program, including labor, unless specific appropriations for nonoperating costs are provided. [1993 c 333 § 2.]

**28A.235.150 School breakfast and lunch programs—Grants to increase participation—Increased state support.** (1) To the extent funds are appropriated, the superintendent of public instruction may award grants to school districts to increase participation in school breakfast and lunch programs, to improve program quality, and to improve the equipment and facilities used in the programs. School districts shall demonstrate that they have applied for applicable federal funds before applying for funds under this subsection.

(2) To the extent funds are appropriated, the superintendent of public instruction shall increase the state support for school breakfasts and lunches. [1993 c 333 § 3.]

**28A.235.155 Federal summer food service program—Administration of funds—Grants.** (1) The superintendent of public instruction shall administer funds for the federal summer food service program.

(2) The superintendent of public instruction may award grants, to the extent funds are appropriated, to eligible organizations to help start new summer food service programs for children or to help expand summer food services for children. [1993 c 333 § 4.]

**28A.235.160 Requirements to implement school breakfast, lunch, and summer food service programs—Exemptions.** (1) For the purposes of this section:

(a) "Free or reduced-price lunch" means a lunch served by a school district participating in the national school lunch program to a student qualifying for national school lunch program benefits based on family size-income criteria.

(b) "School lunch program" means a meal program meeting the requirements defined by the superintendent of public instruction under subsection (2)(b) of this section.

(c) "School breakfast program" means a program meeting federal requirements defined in 42 U.S.C. Sec. 1773.

(d) "Severe-need school" means a school that qualifies for a severe-need school reimbursement rate from federal funds for school breakfasts served to children from low-income families.

(e) "Summer food service program" means a meal or snack program meeting the requirements defined by the superintendent of public instruction under subsection (4) of this section.

(2) School districts shall implement a school lunch program in each public school in the district in which educational services are provided to children in any of the grades kindergarten through four and in which twenty-five percent or more of the enrolled students qualify for a free or reduced-price lunch. In developing and implementing its school lunch program, each school district may consult with an advisory committee including school staff, community members, and others appointed by the board of directors of the district.

(a) Applications to determine free or reduced-price lunch eligibility shall be distributed and collected for all households of children in schools containing any of the grades kindergarten through four and in which there are no United States department of agriculture child nutrition programs. The applications that are collected must be reviewed to determine eligibility for free or reduced-price lunches. Nothing in this section shall be construed to require completion or submission of the application by a parent or guardian.

(b) Using the most current available school data on free and reduced-price lunch eligibility, the superintendent of public instruction shall adopt a schedule for implementation of school lunch programs at each school required to offer such a program under subsection (2) of this section as follows:

(i) Schools not offering a school lunch program and in which twenty-five percent or more of the enrolled students are eligible for free or reduced-price lunch shall implement a school lunch program not later than the second day of school in the 2005-06 school year and in each school year thereafter.

(ii) The superintendent shall establish minimum standards defining the lunch meals to be served, and such standards must be sufficient to qualify the meals for any available federal reimbursement.

(iii) Nothing in this section shall be interpreted to prevent a school from implementing a school lunch program earlier than the school is required to do so.

(3) To extent funds are appropriated for this purpose, each school district shall implement a school breakfast program in each school where more than forty percent of students eligible to participate in the school lunch program qualify for free or reduced-price meal reimbursement by the school year 2005-06. For the second year before the implementation of the district's school breakfast program, and for each subsequent school year, each school district shall submit data enabling the superintendent of public instruction to determine which schools within the district will qualify for this requirement. Schools where lunch programs start after the 2003-04 school year, where forty percent of students

qualify for free or reduced-price meals, must begin school breakfast programs the second year following the start of a lunch program.

(4) Each school district shall implement a summer food service program in each public school in the district in which a summer program of academic, enrichment, or remedial services is provided and in which fifty percent or more of the children enrolled in the school qualify for free or reduced-price lunch. However, the superintendent of public instruction shall develop rules establishing criteria to permit an exemption for a school that can demonstrate availability of an adequate alternative summer feeding program. Sites providing meals should be open to all children in the area, unless a compelling case can be made to limit access to the program. The superintendent of public instruction shall adopt a definition of compelling case and a schedule for implementation as follows:

(a) Beginning the summer of 2005 if the school currently offers a school breakfast or lunch program; or

(b) Beginning the summer following the school year during which a school implements a school lunch program under subsection (2)(b) of this section.

(5) Schools not offering a breakfast or lunch program may meet the meal service requirements of subsections (2)(b) and (4) of this section through any of the following:

(a) Preparing the meals on-site;

(b) Receiving the meals from another school that participates in a United States department of agriculture child nutrition program; or

(c) Contracting with a nonschool entity that is a licensed food service establishment under RCW 69.07.010.

(6) Requirements that school districts have a school lunch, breakfast, or summer nutrition program under this section shall not create or imply any state funding obligation for these costs. The legislature does not intend to include these programs within the state's obligation for basic education funding under Article IX of the state Constitution.

(7) The requirements in this section shall lapse if the federal reimbursement for any school breakfasts, lunches, or summer food service programs is eliminated.

(8) School districts may be exempted from the requirements of this section by showing good cause why they cannot comply with the office of the superintendent of public instruction to the extent that such exemption is not in conflict with federal or state law. The process and criteria by which school districts are exempted shall be developed by the office of the superintendent of public instruction in consultation with representatives of school directors, school food service, community-based organizations and the Washington state PTA. [2005 c 287 § 1; 2004 c 54 § 2.]

**Findings—2005 c 287; 2004 c 54:** "The legislature recognizes that hunger and food insecurity are serious problems in the state. Since the United States department of agriculture began to collect data on hunger and food insecurity in 1995, Washington has been ranked each year within the top ten states with the highest levels of hunger. A significant number of these households classified as hungry are families with children.

The legislature recognizes the correlation between adequate nutrition and a child's development and school performance. This problem can be greatly diminished through improved access to federal nutrition programs.

The legislature also recognizes that improved access to federal nutrition and assistance programs, such as the federal food stamp program and child nutrition programs, can be a critical factor in enabling recipients to gain the ability to support themselves and their families. This is an important step

towards self-sufficiency and decreased long-term reliance on governmental assistance and will serve to strengthen families in this state." [2005 c 287 § 2; 2004 c 54 § 1.]

**Conflict with federal requirements—2004 c 54:** "If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state." [2004 c 54 § 6.]

**28A.235.170 Washington grown fresh fruit and vegetable grant program.** (1) The Washington grown fresh fruit and vegetable grant program is created in the office of the superintendent of public instruction. The purpose of the program is to facilitate consumption of Washington grown nutritious snacks in order to improve student health and expand the market for locally grown fresh produce.

(2) For purposes of this section, "fresh fruit and vegetables" includes perishable produce that is unprocessed, minimally processed, frozen, dried, or otherwise prepared, stored, and handled to maintain its fresh nature while providing convenience to the user. Producing minimally processed food involves cleaning, washing, cutting, or portioning.

(3) The program shall increase the number of school children with access to Washington grown fresh fruits and vegetables and shall be modeled after the United States department of agriculture fresh fruit and vegetable program, as described in 42 U.S.C. Sec. 1769(g). Schools receiving funds under the federal program are not eligible for grants under the Washington grown fresh fruit and vegetable grant program.

(4)(a) To the extent that state funds are appropriated specifically for this purpose, the office of the superintendent of public instruction shall solicit applications, conduct a competitive process, and make one or two-year grants to a mix of urban and rural schools to enable eligible schools to provide free Washington grown fresh fruits and vegetables throughout the school day.

(b) When evaluating applications and selecting grantees, the superintendent of public instruction shall consider and prioritize the following factors:

(i) The applicant's plan for ensuring the use of Washington grown fruits and vegetables within the program;

(ii) The applicant's plan for incorporating nutrition, agricultural stewardship education, and environmental education into the snack program;

(iii) The applicant's plan for establishing partnerships with state, local, and private entities to further the program's objectives, such as helping the school acquire, handle, store, and distribute Washington grown fresh fruits and vegetables.

(5)(a) The office of the superintendent of public instruction shall give funding priority to applicant schools with any of grades kindergarten through eight that: Participate in the national school lunch program and have fifty percent or more of their students eligible for free or reduced-price meals under the federal national school lunch act, 42 U.S.C. Sec. 1751 et seq.

(b) If any funds remain after all eligible priority applicant schools have been awarded grants, the office of the superintendent of public instruction may award grants to

applicant schools having less than fifty percent of the students eligible for free or reduced-price meals.

(6) The office of the superintendent of public instruction may adopt rules to carry out the grant program.

(7) With assistance from the Washington department of agriculture, the office of the superintendent of public instruction shall develop and track specific, quantifiable outcome measures of the grant program such as the number of students served by the program, the dollar value of purchases of Washington grown fruits and vegetables resulting from the program, and development of state, local, and private partnerships that extend beyond the cafeteria.

(8) As used in this section, "Washington grown" has the definition in RCW 15.64.060. [2008 c 215 § 3.]

**28A.245.005 Findings.** The legislature finds that student access to programs offered at skill centers can help prepare them for careers, apprenticeships, and postsecondary education. The legislature further finds that current limits on how school districts and skill centers report full-time equivalent students and the time students are served provide a disincentive for school districts to send their students to skill centers. The legislature further finds that there are barriers to providing access to students in rural and remote areas but that there are opportunities to do so with satellite and branch campus programs, distance and online learning programs, and collaboration with higher education, business, and labor. The legislature further finds that skill centers provide opportunities for dropout prevention and retrieval programs by offering programs that accommodate students' work schedules and provide credit retrieval opportunities. The legislature further finds that implementing the recommendations from the study by the workforce training and education coordinating board will enhance skill center programs and student access to those programs. [2007 c 463 § 1.]

**28A.245.010 Skill centers—Purpose—Operation.** A skill center is a regional career and technical education partnership established to provide access to comprehensive industry-defined career and technical programs of study that prepare students for careers, employment, apprenticeships,

(2010 Ed.)

and postsecondary education. A skill center is operated by a host school district and governed by an administrative council in accordance with a cooperative agreement. [2007 c 463 § 2.]

**28A.245.020 Funding—Equivalency and apportionment.** Beginning in the 2007-08 school year and thereafter, students attending skill centers shall be funded for all classes at the skill center and the sending districts, up to one and six-tenths full-time equivalents or as determined in the omnibus appropriations act. The office of the superintendent of public instruction shall develop procedures to ensure that the school district and the skill center report no student for more than one and six-tenths full-time equivalent students combining both their high school enrollment and skill center enrollment. Additionally, the office of the superintendent of public instruction shall develop procedures for determining the appropriate share of the full-time equivalent enrollment count between the resident high school and skill center. [2007 c 463 § 3.]

**28A.245.030 Revised guidelines for skill centers—Satellite and branch campus programs—Capital plan—Studies—Master plan—Rules.** (1) The office of the superintendent of public instruction shall review and revise the guidelines for skill centers to encourage skill center programs. The superintendent, in cooperation with the workforce training and education coordinating board, skill center directors, and the Washington association for career and technical education, shall review and revise the existing skill centers' policy guidelines and create and adopt rules governing skill centers as follows:

(a) The threshold enrollment at a skill center shall be revised so that a skill center program need not have a minimum of seventy percent of its students enrolled on the skill center core campus in order to facilitate serving rural students through expansion of skill center programs by means of satellite programs or branch campuses;

(b) The developmental planning for branch campuses shall be encouraged. Underserved rural areas or high-density areas may partner with an existing skill center to create satellite programs or a branch campus. Once a branch campus reaches sufficient enrollment to become self-sustaining, it may become a separate skill center or remain an extension of the founding skill center; and

(c) Satellite and branch campus programs shall be encouraged to address high-demand fields.

(2) Rules adopted under this section shall allow for innovative models of satellite and branch campus programs, and such programs shall not be limited to those housed in physical buildings.

(3) The superintendent of public instruction shall develop and deliver a ten-year capital plan for legislative review before implementation. The superintendent of public instruction shall adopt rules that set as a goal a ten percent minimum local project contribution threshold for major skill center projects, unless there is a compelling rationale not to do so, including but not limited to local economic conditions, as determined by the superintendent of public instruction.

This applies to the acquisition or major capital costs of skill center projects as outlined in the ten-year capital plan.

(4) Subject to available funding, the superintendent shall:

(a) Conduct approved feasibility studies for serving non-cooperative rural and high-density area students in their geographic areas; and

(b) Develop a statewide master plan that identifies standards and resources needed to create a technology infrastructure for connecting all skill centers to the K-20 network. [2008 c 179 § 302; 2007 c 463 § 4.]

**Part headings not law—Severability—Effective date—2008 c 179:** See RCW 28A.527.900 through 28A.527.902.

**28A.245.040 Expanded access—Targeted populations—Evaluation.** Subject to available funding, skill centers shall provide access to late afternoon and evening sessions and summer school programs, to rural and high-density area students aligned with regionally identified high-demand occupations. When possible, the programs shall be specifically targeted for credit retrieval, dropout prevention and intervention for at-risk students, and retrieval of dropouts. Skill centers that receive funding for these activities must participate in an evaluation that is designed to quantify results and identify best practices, collaborate with local community partners in providing a comprehensive program, and provide matching funds. [2007 c 463 § 5.]

**28A.245.050 Skill centers of excellence—Running start for career and technical education grant program—Career and technical programs of study.** (1) The superintendent of public instruction shall establish and support skill centers of excellence in key economic sectors of regional significance. The superintendent shall broker the development of skill centers of excellence and identify their roles in developing curriculum and methodologies for reporting skill center course equivalencies for purposes of high school graduation.

(2) Once the skill centers of excellence are established, the superintendent of public instruction shall develop and seek funding for a running start for career and technical education grant program to develop and implement career and technical programs of study targeted to regionally determined high-demand occupations. Grant recipients should be partnerships of skill centers of excellence, community college centers of excellence, tech-prep programs, industry advisory committees, area workforce development councils, and skill panels in the related industry. Grant recipients should be expected to develop and assist in the replication of model career and technical education programs of study. The career and technical education programs of study developed should be consistent with the expectations in the applicable federal law. [2007 c 463 § 6.]

**28A.245.060 Director of skill centers.** To the extent funds are available, the superintendent of public instruction shall assign at least one full-time equivalent staff position within the office of the superintendent of public instruction to serve as the director of skill centers. [2009 c 578 § 7; 2007 c 463 § 7.]

**28A.245.070 High school diplomas—Agreements with cooperating school districts—High school completion programs.** Skill centers may enter into agreements with one or more cooperating school districts to grant a high school diploma on behalf of the district so that students who are juniors and seniors have an opportunity to attend the skill center on a full-time basis without coenrollment at a district high school. To avoid competition with other high schools in the cooperating district, high school completion programs operated by skill centers shall be designed as dropout prevention and retrieval programs for at-risk and credit-deficient students or for fifth-year seniors. A skill center may use grant awards from the building bridges program under RCW 28A.175.025 to develop high school completion programs as provided in this section. [2008 c 170 § 203.]

**Findings—Intent—Part headings not law—2008 c 170:** See RCW 28A.700.005 and 28A.700.901.

**28A.245.080 Contracts with community or technical colleges—Courses leading to industry certificates or credentials for high school graduates.** (1) Subject to the provisions of this section and RCW 28B.50.532, a skill center may enter into an agreement with the community or technical college in which district the skill center is located to provide career and technical education courses necessary to complete an industry certificate or credential for students who have received a high school diploma.

(2) To qualify for enrollment under this section, a student must have been enrolled in the skill center before receiving the high school diploma and must remain continuously enrolled in the skill center. A student may enroll only in those courses necessary to complete the industry certificate or credential associated with the student's career and technical program.

(3) Students enrolled in a skill center under this section shall be considered community and technical college students for purposes of enrollment reporting, tuition, and financial aid. The skill center shall maintain enrollment data for students enrolled under this section separately from data on secondary school enrollment. [2008 c 170 § 304.]

- 28A.250.070 Rights of students to attend nonresident school district for the purposes of enrolling in online courses or programs.

**28A.250.005 Findings—Intent.** (1) The legislature finds that online learning provides tremendous opportunities for students to access curriculum, courses, and a unique learning environment that might not otherwise be available. The legislature supports and encourages online learning opportunities.

(2) However, the legislature also finds that there is a need to assure quality in online learning, both for the programs and the administration of those programs. The legislature is the steward of public funds that support students enrolled in online learning and must ensure an appropriate accountability system at the state level.

(3) Therefore, the legislature intends to take a first step in improving oversight and quality assurance of online learning programs, and intends to examine possible additional steps that may need to be taken to improve financial accountability.

(4) The first step in improving quality assurance is to:

(a) Provide objective information to students, parents, and educators regarding available online learning opportunities, including program and course content, how to register for programs and courses, teacher qualifications, student-to-teacher ratios, prior course completion rates, and other evaluative information;

(b) Create an approval process for multidistrict online providers;

(c) Enhance statewide equity of student access to high quality online learning opportunities; and

(d) Require school district boards of directors to develop policies and procedures for student access to online learning opportunities. [2009 c 542 § 1.]

**28A.250.010 Definitions.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1)(a) "Multidistrict online provider" means:

(i) A private or nonprofit organization that enters into a contract with a school district to provide online courses or programs to K-12 students from more than one school district;

(ii) A private or nonprofit organization that enters into contracts with multiple school districts to provide online courses or programs to K-12 students from those districts; or

(iii) Except as provided in (b) of this subsection, a school district that provides online courses or programs to students who reside outside the geographic boundaries of the school district.

(b) "Multidistrict online provider" does not include a school district online learning program in which fewer than ten percent of the students enrolled in the program are from other districts under the interdistrict student transfer provisions of RCW 28A.225.225. "Multidistrict online provider" also does not include regional online learning programs that are jointly developed and implemented by two or more school districts or an educational service district through an

interdistrict cooperative program agreement that addresses, at minimum, how the districts share student full-time equivalency for state basic education funding purposes and how categorical education programs, including special education, are provided to eligible students.

(2)(a) "Online course" means a course that:

(i) Is delivered primarily electronically using the internet or other computer-based methods; and

(ii) Is taught by a teacher primarily from a remote location. Students enrolled in an online course may have access to the teacher synchronously, asynchronously, or both.

(b) "Online school program" means a school program that:

(i) Is delivered primarily electronically using the internet or other computer-based methods;

(ii) Is taught by a teacher primarily from a remote location. Students enrolled in an online program may have access to the teacher synchronously, asynchronously, or both;

(iii) Delivers a part-time or full-time sequential program; and

(iv) Has an online component of the program with online lessons and tools for student and data management.

(c) An online course or online school program may be delivered to students at school as part of the regularly scheduled school day. An online course or online school program also may be delivered to students, in whole or in part, independently from a regular classroom schedule, but such courses or programs must comply with RCW 28A.150.262 to qualify for state basic education funding. [2009 c 542 § 2.]

**28A.250.020 Multidistrict online providers—Approval criteria—Advisory committee.** (1) The superintendent of public instruction, in collaboration with the state board of education, shall develop and implement approval criteria and a process for approving multidistrict online providers; a process for monitoring and if necessary rescinding the approval of courses or programs offered by an online course provider; and an appeals process. The criteria and processes shall be adopted by rule by December 1, 2009.

(2) When developing the approval criteria, the superintendent of public instruction shall require that providers offering online courses or programs have accreditation through the Northwest association of accredited schools or another national, regional, or state accreditation program listed by the office of the superintendent of public instruction after consultation with the Washington coalition for online learning. In addition to other criteria, the approval criteria shall include the degree of alignment with state academic standards and require that all teachers be certificated in accordance with Washington state law. When reviewing multidistrict online providers that offer high school courses, the superintendent of public instruction shall assure that the courses offered by the provider are eligible for high school credit. However, final decisions regarding the awarding of high school credit shall remain the responsibility of school districts.

(3) Initial approval of multidistrict online providers by the superintendent of public instruction shall be for four years. The superintendent of public instruction shall develop a process for the renewal of approvals and for rescinding approvals based on noncompliance with approval require-

ments. Any multidistrict online provider that was approved by the digital learning commons or accredited by the Northwest association of accredited schools before July 26, 2009, and that meets the teacher certification requirements of subsection (2) of this section, is exempt from the initial approval process under this section until August 31, 2012, but must comply with the process for renewal of approvals and must comply with approval requirements.

(4) The superintendent of public instruction shall make the first round of decisions regarding approval of multidistrict online providers by April 1, 2010. Thereafter, the superintendent of public instruction shall make annual approval decisions no later than November 1st of each year.

(5) The superintendent of public instruction shall establish an online learning advisory committee within existing resources that shall provide advice to the superintendent regarding the approval criteria, major components of the web site, the model school district policy, model agreements, and other related matters. The committee shall include a representative of each of the following groups: Private and public online providers, parents of online students, accreditation organizations, educational service districts, school principals, teachers, school administrators, school board members, institutions of higher education, and other individuals as determined by the superintendent. Members of the advisory committee shall be selected by the superintendent based on nominations from statewide organizations, shall serve three-year terms, and may be reappointed. The superintendent shall select the chair of the committee. [2009 c 542 § 3.]

**28A.250.030 Office of online learning—Duties.** The superintendent of public instruction shall create an office of online learning. In the initial establishment of the office, the superintendent shall hire staff who have been employed by the digital learning commons to the extent such hiring is in accordance with state law and to the extent funds are available. The office shall:

(1) Develop and maintain a web site that provides objective information for students, parents, and educators regarding online learning opportunities offered by multidistrict online providers that have been approved in accordance with RCW 28A.250.020. The web site shall include information regarding the online course provider's overall instructional program, specific information regarding the content of individual online courses and online school programs, a direct link to each online course provider's web site, how to register for online learning programs and courses, teacher qualifications, student-to-teacher ratios, course completion rates, and other evaluative and comparative information. The web site shall also provide information regarding the process and criteria for approving multidistrict online providers. To the greatest extent possible, the superintendent shall use the framework of the course offering component of the web site developed by the digital learning commons;

(2) Develop model agreements with approved multidistrict online providers that address standard contract terms and conditions that may apply to contracts between a school district and the approved provider. The purpose of the agreements is to provide a template to assist individual school districts, at the discretion of the district, in contracting with multidistrict online providers to offer the multidistrict online

provider's courses and programs to students in the district. The agreements may address billing, fees, responsibilities of online course providers and school districts, and other issues; and

(3) In collaboration with the educational service districts:

(a) Provide technical assistance and support to school district personnel through the educational technology centers in the development and implementation of online learning programs in their districts; and

(b) To the extent funds are available, provide online learning tools for students, teachers, administrators, and other educators. [2009 c 542 § 4.]

**28A.250.040 Duties of the superintendent of public instruction.** The superintendent of public instruction shall:

(1) Develop model policies and procedures, in consultation with the Washington state school directors' association, that may be used by school district boards of directors in the development of the school district policies and procedures required in RCW 28A.250.050. The model policies and procedures shall be disseminated to school districts by February 1, 2010;

(2) By December 1, 2009, modify the standards for school districts to report course information to the office of the superintendent of public instruction under RCW 28A.300.500 to designate if the course was an online course. The reporting standards shall be required beginning with the 2010-11 school year; and

(3) Beginning January 15, 2011, and annually thereafter, submit a report regarding online learning to the state board of education, the governor, and the legislature. The report shall cover the previous school year and include but not be limited to student demographics, course enrollment data, aggregated student course completion and passing rates, and activities and outcomes of course and provider approval reviews. [2009 c 542 § 5.]

**28A.250.050 Student access to online courses and online learning programs—Policies and procedures—Dissemination of information—Development of local or regional online learning programs.** (1) By August 31, 2010, all school district boards of directors shall develop policies and procedures regarding student access to online courses and online learning programs. The policies and procedures shall include but not be limited to: Student eligibility criteria; the types of online courses available to students through the school district; the methods districts will use to support student success, which may include a local advisor; when the school district will and will not pay course fees and other costs; the granting of high school credit; and a process for students and parents or guardians to formally acknowledge any course taken for which no credit is given. The policies and procedures shall take effect beginning with the 2010-11 school year. School districts shall submit their policies to the superintendent of public instruction by September 15, 2010. By December 1, 2010, the superintendent of public instruction shall summarize the school district policies regarding student access to online courses and submit a report to the legislature.

(2) School districts shall provide students with information regarding online courses that are available through the school district. The information shall include the types of information described in subsection (1) of this section.

(3) When developing local or regional online learning programs, school districts shall incorporate into the program design the approval criteria developed by the superintendent of public instruction under RCW 28A.250.020. [2009 c 542 § 6.]

**28A.250.060 Availability of state basic education funding for students enrolled in online courses or programs.** (1) Beginning with the 2011-12 school year, school districts may claim state basic education funding, to the extent otherwise allowed by state law, for students enrolled in online courses or programs only if the online courses or programs are:

(a) Offered by a multidistrict online provider approved under RCW 28A.250.020 by the superintendent of public instruction;

(b) Offered by a school district online learning program if the program serves students who reside within the geographic boundaries of the school district, including school district programs in which fewer than ten percent of the program's students reside outside the school district's geographic boundaries; or

(c) Offered by a regional online learning program where courses are jointly developed and offered by two or more school districts or an educational service district through an interdistrict cooperative program agreement.

(2) Criteria shall be established by the superintendent of public instruction to allow online courses that have not been approved by the superintendent of public instruction to be eligible for state funding if the course is in a subject matter in which no courses have been approved and, if it is a high school course, the course meets Washington high school graduation requirements. [2009 c 542 § 7.]

**28A.250.070 Rights of students to attend nonresident school district for the purposes of enrolling in online courses or programs.** Nothing in this chapter is intended to diminish the rights of students to attend a nonresident school district in accordance with RCW 28A.225.220 through 28A.225.230 for the purposes of enrolling in online courses or programs. [2009 c 542 § 8.]

The council shall develop strategic recom-

mendations on the program of basic education for the common schools. The council shall take into consideration the capacity report produced under RCW 28A.300.172 and the availability of data and progress of implementing the data systems required under RCW 28A.655.210. (5)(a) The council shall submit an initial report to the governor and the legislature by January 1, 2010, detailing its recommendations, including recommendations for resolving issues or decisions requiring legislative action during the 2010 legislative session, and recommendations for any funding necessary to continue development and implementation of chapter 548, Laws of 2009.

(b) The initial report shall, at a minimum, include:

(i) Consideration of how to establish a statewide beginning teacher mentoring and support system;

(ii) Recommendations for a program of early learning for at-risk children;

(iii) A recommended schedule for the concurrent phase-in of the changes to the instructional program of basic education and the implementation of the funding formulas and allocations to support the new instructional program of basic

(iv) A recommended schedule for phased-in implementation of the new distribution formula for allocating state funds to school districts for the transportation of students to and from school, with phase-in beginning no later than September 1, 2013.

(6) The council shall submit a report to the legislature by January 1, 2012, detailing its recommendations for a comprehensive plan for a voluntary program of early learning. Before submitting the report, the council shall seek input from the early learning advisory council created in RCW 43.215.090.

(7) The council shall submit a report to the governor and the legislature by December 1, 2010, that includes:

(b) Recommendations for assuring adequate levels of state-funded classified staff to support essential school and district services.

(8) The council shall be staffed by the office of the superintendent of public instruction and the office of financial management. Additional staff support shall be provided by the state entities with representatives on the council. Senate committee services and the house of representatives office of program research may provide additional staff support.

(9) Legislative members of the council shall serve without additional compensation but may be reimbursed for travel expenses in accordance with RCW 44.04.120 while attending sessions of the council or on official business authorized by the council. **Reviser's note:** This section was amended by 2010 c 234 § 4 and by 2010 c 236 § 15, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

**Technical working group—Supplemental funding options—2010 c 236; 2009 c 548:** "(1) Beginning April 1, 2010, the office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to develop options for a new system of supplemental school funding through local school levies and local effort assistance.

(2) The working group shall consider the impact on overall school district revenues of the new basic education funding system established under chapter 548, Laws of 2009 and shall recommend a phase-in plan that ensures that no school district suffers a decrease in funding from one school year to the next due to implementation of the new system of supplemental funding.

(3) The working group shall also:

(a) Examine local school district capacity to address facility needs

associated with phasing-in full-day kindergarten across the state and reducing class size in kindergarten through third grade; and

(b) Provide the quality education council with analysis on the potential use of local funds that may become available for redeployment and redirection as a result of increased state funding allocations for pupil transportation and maintenance, supplies, and operating costs.

**28A.290.020 Funding formulas to support instructional program—Technical working group.** (1) The legislature intends to continue to redefine the instructional program of education under RCW 28A.150.220 that fulfills the obligations and requirements of Article IX of the state Constitution. The funding formulas under RCW 28A.150.260 to support the instructional program shall be implemented to the extent the technical details of the formula have been established and according to an implementation schedule to be adopted by the legislature. The object of the schedule is to assure that any increases in funding allocations are timely, predictable, and occur concurrently with any increases in program or instructional requirements. It is the intent of the legislature that no increased programmatic or instructional expectations be imposed upon schools or school districts without an accompanying increase in resources as necessary to support those increased expectations.

(2) The office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to:

(a) Develop the details of the funding formulas under RCW 28A.150.260;

(b) Recommend to the legislature an implementation schedule for phasing-in any increased program or instructional requirements concurrently with increases in funding for adoption by the legislature; and

(3) The working group shall include representatives of the legislative evaluation and accountability program committee, school district and educational service district financial managers, the Washington association of school business officers, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with expertise in education finance. The working group may convene advisory

sory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(4) The working group shall be monitored and overseen by the legislature and the quality education council established in RCW 28A.290.010. The working group shall submit its recommendations to the legislature by December 1, 2009.

(5) After the 2009 report to the legislature, the office of financial management and the office of the superintendent of public instruction shall periodically reconvene the working group to monitor and provide advice on further development and implementation of the funding formulas under RCW 28A.150.260 and provide technical assistance to the ongoing work of the quality education council. **28A.300.041 Statewide student assessment system—Redesign—Reports to the legislature.**

(1) The legislature finds that a statewide student assessment system should improve and inform classroom instruction, support accountability, and provide useful information to all levels of the educational system, including students, parents, teachers, schools, school districts, and the state. The legislature intends to redesign the current statewide system, in accordance with the recommendations of the Washington assessment of student learning legislative work group, to:

(a) Include multiple assessment formats, including both formative and summative, as necessary to provide information to help improve instruction and inform accountability;

(b) Enable collection of data that allows both statewide and nationwide comparisons of student learning and achievement; and

(c) Be balanced so that the information used to make significant decisions that affect school accountability or student educational progress includes many data points and does not rely on solely the results of a single assessment.

(2) The legislature further finds that one component of the assessment system should be instructionally supportive formative assessments. The key design elements or characteristics of an instructionally supportive assessment must:

(a) Be aligned to state standards in areas that are being assessed;

(b) Measure student growth and competency at multiple points throughout the year in a manner that allows instructors to monitor student progress and have the necessary trend data with which to improve instruction;

(c) Provide rapid feedback;

(d) Link student growth with instructional elements in order to gauge the effectiveness of educators and curricula;

(e) Provide tests that are appropriate to the skill level of the student;

(f) Support instruction for students of all abilities, including highly capable students and students with learning disabilities;

(g) Be culturally, linguistically, and cognitively relevant, appropriate, and understandable to each student taking the assessment;

(h) Inform parents and draw parents into greater participation of the student's study plan;

(i) Provide a way to analyze the assessment results relative to characteristics of the student such as, but not limited to, English language learners, gender, ethnicity, poverty, age, and disabilities;

(j) Strive to be computer-based and adaptive; and

(k) Engage students in their learning.

(3) The legislature further finds that a second component of the assessment system should be a state-administered summative achievement assessment that can be used as a check on the educational system in order to guide state expectations for the instruction of children and satisfy legislative demands for accountability. The key design elements or characteristics of the state administered achievement assessment must:

(a) Be aligned to state standards in areas that are being assessed;

(b) Maintain and increase academic rigor;

(c) Measure student learning growth over years; and

(d) Strengthen curriculum.

(4) The legislature further finds that a third component of the assessment system should include classroom-based assessments, which may be formative, summative, or both. Depending on their use, classroom-based assessments should have the same design elements and characteristics described in this section for formative and summative assessments.

(5) The legislature further finds that to sustain a strong and viable assessment system, preservice and ongoing training should be provided for teachers and administrators on the effective use of different types of assessments.

(6) The legislature further finds that as the statewide data system is developed, data should be collected for all state-required statewide assessments to be used for accountability and to monitor overall student achievement.

(7) The superintendent of public instruction, in consultation with the state board of education, shall begin design and development of an overall assessment system that meets the principles and characteristics described in this section. In designing formative and summative assessments, the superintendent shall solicit bids for the use of computerized adaptive testing methodologies.

(8) Beginning December 1, 2009, and annually thereafter, the superintendent and state board shall jointly report to the legislature regarding the assessment system, including a cost analysis of any changes and costs to expand availability and use of instructionally supportive formative assessments. [2009 c 310 § 1.]

(3) Whenever the educational service district superintendent finds that the classification of a school district should be changed, and upon the approval of the superintendent of public instruction, the educational service district superintendent shall make an order in conformity with his or her findings and alter the records of his or her office accordingly. Thereafter, the board of directors of the district shall organize in the manner provided by law for the organization of the board of a district of the class to which the district then belongs.

(4) Notwithstanding any other provision of chapter 43, Laws of 1975, the educational service district superintendent, with the concurrence of the superintendent of public instruction, may delay approval of a change in classification of any school district for a period not exceeding three years when, in fact, the student enrollment of the district within any such time period does not exceed ten percent, either in a decrease or increase thereof. **Finding—2008 c 95:** "The legislature finds that student interest and participation in online learning continues to grow. At the same time, the legislature, business community, and public are encouraging additional programs for high school students to earn college credits. Fortunately for students attending schools in rural areas, the two trends can be combined to provide learning opportunities that are both rigorous and accessible, and in some cases available free to the student. In 2006-07, more than four thousand five hundred students were able to take an online college course through the running start program, which the community and technical college system makes accessible statewide through its WashingtonOnline consortium. A more concerted effort is needed to make schools and students aware of these opportunities." [2008 c 95 § 1.]

(c) Develop and maintain an internet web site to increase the availability of information, research, and other materials;

(d) Work with appropriate organizations to inform teachers, district and school administrators, and school directors about the waivers available and the broadened school board powers under RCW 28A.320.015;

In carrying out the duties and responsibilities of the center, the superintendent, whenever possible, shall use practitioners to assist agency staff as well as assist educators and others in schools and districts.

(5) The office of the superintendent of public instruction shall report to the legislature by September 1, 2007, and thereafter biennially, regarding the effectiveness of the center for the improvement of student learning, how the services provided by the center for the improvement of student learning have been used and by whom, and recommendations to improve the accessibility and application of knowledge and information that leads to improved student learning and greater family and community involvement in the public education system. **Findings—Intent—2006 c 116:** "The legislature finds that expanding activity in educational research, educational restructuring, and educational improvement initiatives has produced and continues to produce much valuable information. The legislature finds that such information should be shared with the citizens and educational community of the state as widely as possible. The legislature further finds that students and schools benefit from increased parental, guardian, and community involvement in education and increased knowledge of and input regarding the delivery of public education. The legislature further finds that increased community involvement with, knowledge of, and input regarding the public education system is particularly needed in low-income and ethnic minority communities.

The legislature finds that the center for the improvement of student learning, created by the legislature in 1993 under the auspices of the superintendent of public instruction, has not been allocated funding since the 2001-2003 biennium, and in effect no longer exists. It is the intent of the legislature to reactivate the center for the improvement of student learning, and to create an educational ombudsman to increase parent, guardian, and community involvement in public education and to serve as a resource for parents and students and as an advocate for students in the public education system." **28A.300.131 Parental involvement—Measures to evaluate level—Models and practices—Recognition.** There is a sizeable body of research positively supporting the involvement of parents taking an engaged and active role in their child's education. Therefore, the legislature intends to provide state recognition by the center for the improvement

(2010 Ed.)

of student learning within the office of the superintendent of public instruction for schools that increase the level of direct parental involvement with their child's education. By September 1, 2010, the center for the improvement of student learning shall determine measures that can be used to evaluate the level of parental involvement in a school. The center for the improvement of student learning shall collaborate with school district family and community outreach programs and educational service districts to identify and highlight successful models and practices of parent involvement. [2010 c 235 § 704.]

**28A.300.136 Achievement gap oversight and accountability committee—Policy and strategy recommendations.** (1) An achievement gap oversight and accountability committee is created to synthesize the findings and recommendations from the 2008 achievement gap studies into an implementation plan, and to recommend policies and strategies to the superintendent of public instruction, the professional educator standards board, and the state board of education to close the achievement gap.

(2) The committee shall recommend specific policies and strategies in at least the following areas:

(a) Supporting and facilitating parent and community involvement and outreach;

(b) Enhancing the cultural competency of current and future educators and the cultural relevance of curriculum and instruction;

(c) Expanding pathways and strategies to prepare and recruit diverse teachers and administrators;

(d) Recommending current programs and resources that should be redirected to narrow the gap;

(e) Identifying data elements and systems needed to monitor progress in closing the gap;

(f) Making closing the achievement gap part of the school and school district improvement process; and

(g) Exploring innovative school models that have shown success in closing the achievement gap.

(3) Taking a multidisciplinary approach, the committee may seek input and advice from other state and local agencies and organizations with expertise in health, social services, gang and violence prevention, substance abuse prevention, and other issues that disproportionately affect student achievement and student success.

(4) The achievement gap oversight and accountability committee shall be composed of the following members:

(a) The chairs and ranking minority members of the house and senate education committees, or their designees;

(b) One additional member of the house of representatives appointed by the speaker of the house and one additional member of the senate appointed by the president of the senate;

(c) A representative of the office of the education ombudsman;

(d) A representative of the center for the improvement of student learning in the office of the superintendent of public instruction;

(e) A representative of federally recognized Indian tribes whose traditional lands and territories lie within the borders of Washington state, designated by the federally recognized tribes; and

(f) Four members appointed by the governor in consultation with the state ethnic commissions, who represent the following populations: African-Americans, Hispanic Americans, Asian Americans, and Pacific Islander Americans.

(5) The governor and the tribes are encouraged to designate members who have experience working in and with schools.

(6) The committee may convene ad hoc working groups to obtain additional input and participation from community members. Members of ad hoc working groups shall serve without compensation and shall not be reimbursed for travel or other expenses.

(7) The chair or cochairs of the committee shall be selected by the members of the committee. Staff support for the committee shall be provided by the center for the improvement of student learning. Members of the committee shall serve without compensation but must be reimbursed as provided in RCW 43.03.050 and 43.03.060. Legislative members of the committee shall be reimbursed for travel expenses in accordance with RCW 44.04.120.

(8) The superintendent of public instruction, the state board of education, the professional educator standards board, and the quality education council shall work collaboratively with the achievement gap oversight and accountability committee to close the achievement gap. [2010 c 235 § 901; 2009 c 468 § 2.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**Findings—Intent—2009 c 468:** "(1) The legislature finds compelling evidence from five commissioned studies that additional progress must be made to address the achievement gap. Many students are in demographic groups that are overrepresented in measures such as school disciplinary sanctions; failure to meet state academic standards; failure to graduate; enrollment in special education and underperforming schools; enrollment in advanced placement courses, honors programs, and college preparatory classes; and enrollment in and completion of college. The studies contain

specific recommendations that are data-driven and drawn from education research, as well as the personal, professional, and cultural experience of those who contributed to the studies. The legislature finds there is no better opportunity to make a strong commitment to closing the achievement gap and to affirm the state's constitutional obligation to provide opportunities to learn for all students without distinction or preference on account of race, ethnicity, socioeconomic status, or gender.

(2) The legislature further finds that access to comprehensive and consistent data that is disaggregated in the smallest units allowable by law is important in closing the achievement gap. Policymakers and educators need as much information as possible not only about students' academic progress, but also about other factors across multiple disciplines that affect student performance.

(3) A consistent and powerful theme throughout the achievement gap studies was the need for cultural competency in instruction, curriculum, assessment, and professional development. Cultural competency forms a foundation for efforts to address the achievement gap, and more work is needed to embed it into the public school system.

(4) Therefore, following the priority recommendations from the achievement gap studies, the legislature intends to:

(a) Provide resources to support parent and community involvement and outreach efforts by public schools, including such items as additional notices and communication to parents, translations, translators, parent and community meetings, and school events within the community. The legislature encourages school districts to consult with the office of the education ombudsman in developing plans for parent and community involvement and outreach;

(b) Require that teachers demonstrate cultural competency in the classroom and with students at each level of state teacher certification, and provide additional opportunities for professional development in cultural competency for current teachers;

(c) Create local alternative routes to teacher certification for paraeducators and individuals in the communities surrounding schools and school districts that are struggling to address the achievement gap;

(d) Reexamine the study recommendations regarding data and accountability and identify ways for the education data system to address these needs; and

(e) Sustain efforts to close the achievement gap over the long term by creating a high profile achievement gap oversight and accountability committee that will provide ongoing advice to education agencies and report annually to the legislature and the governor." [2009 c 468 § 1.]

**28A.300.1361 Closing the achievement gap—Enhancing data collection and data system capacity—Securing federal funds.** The superintendent of public instruction shall take all actions necessary to secure federal funds to support enhancing data collection and data system capacity in order to monitor progress in closing the achievement gap and to support other innovations and model programs that align education reform and address disproportionality in the public school system. [2009 c 468 § 7.]

**Findings—Intent—2009 c 468:** See note following RCW 28A.300.136.

**28A.300.137 Strategies to address the achievement gap—Improvement of education performance measures—Annual report.** Beginning in January 2010, the achievement gap oversight and accountability committee shall report annually to the superintendent of public instruction, the state board of education, the professional educator standards board, the governor, and the education committees of the legislature on the strategies to address the achievement gap and on the progress in improvement of education performance measures for African-American, Hispanic, American Indian/Alaskan Native, Asian, and Pacific Islander/Hawaiian Native students. [2009 c 468 § 3; 2008 c 298 § 3.]

**Findings—Intent—2009 c 468:** See note following RCW 28A.300.136.

**Findings—Intent—2008 c 298:** "(1) The legislature finds that of all the challenges confronting the African-American community, perhaps none is more critical to the future than the education of African-American children. The data regarding inequities, disproportionality, and gaps in achievement is alarming no matter which indicators are used:

(a) The gap in reading test scores between African-American and white students on the tenth grade Washington assessment of student learning is twenty percentage points, with only two-thirds of African-American students able to meet the upcoming graduation standard in reading on the first attempt compared to eighty-five percent of white students. African-American students are lagging behind other student groups in reading improvement.

(b) African-American students continue to score lowest among student groups in high school mathematics, with only twenty-three percent able to meet state standard on the first attempt, a thirty-three percentage point lag behind white students who have a fifty-six percent met-standard rate.

(c) One-fourth of African-American students who enter ninth grade will have dropped out of school by the time their peers graduate in twelfth grade. This measure does not account for the children who, facing significant educational challenges and barriers, have already grown disparaged before the end of middle or junior high school.

(2) The legislature further finds that although there are multiple initiatives broadly intended to improve student achievement, including a small number of initiatives to address the achievement gap for disadvantaged students generally, there are only a select few efforts targeted to the challenges of African-American students or designed specifically to engage parents and leaders in the African-American community. The efficacy of general supplemental programs in helping African-American students is unknown. A thoughtful, comprehensive, and inclusive strategy for African-American students has not been created.

(3) Therefore, the legislature intends to commission and then implement a clear, concise, and intentional plan of action, with specific strategies and performance benchmarks, to ensure that African-American students meet or exceed all academic standards and are prepared for a quality life and responsible citizenship in the twenty-first century." [2008 c 298 § 1.]

**28A.300.145 Educational materials regarding sex offenses, sex offenders, and victims of sexual assault.** The Washington coalition of sexual assault programs, in consultation with the Washington association of sheriffs and police chiefs, the Washington association of prosecuting attorneys, and the office of the superintendent of public instruction, shall develop educational materials to be made available throughout the state to inform parents and other interested community members about:

(1) The laws related to sex offenses, including registration, community notification[,], and the classification of sex offenders based on an assessment of the risk of reoffending;

(2) How to recognize behaviors characteristic of sex offenses and sex offenders;

(3) How to prevent victimization, particularly that of young children;

(4) How to take advantage of community resources for victims of sexual assault; and

(5) Other information as deemed appropriate. [2006 c 135 § 2.]

**28A.300.150 Information on child abuse and neglect prevention curriculum—Rules.** The superintendent of public instruction shall collect and disseminate to school districts information on child abuse and neglect prevention curriculum and shall adopt rules dealing with the prevention of child abuse for purposes of curriculum use in the common schools. The superintendent of public instruction and the departments of social and health services and \*community, trade, and economic development shall share relevant infor-

**Findings—Purpose—Part headings not law—2006 c 263:** See notes following RCW 28A.150.230.

**Intent—1987 c 489:** "It is the intent of the legislature to make child abuse and neglect primary prevention education and training available to children, including preschool age children, parents, school employees, and licensed day care providers." [1987 c 489 § 1.]

**28A.300.160 Development of coordinated primary prevention program for child abuse and neglect—Office as lead agency.** (1) The office of the superintendent of public instruction shall be the lead agency and shall assist the department of social and health services, the \*department of community, trade, and economic development, and school districts in establishing a coordinated primary prevention program for child abuse and neglect.

(2) In developing the program, consideration shall be given to the following:

(a) Parent, teacher, and children's workshops whose information and training is:

(i) Provided in a clear, age-appropriate, nonthreatening manner, delineating the problem and the range of possible solutions;

(iv) Child safety training and age-appropriate self-defense techniques; and

(v) A period for crisis counseling and reporting immediately following the completion of each children's workshop in a school setting which maximizes the child's privacy and sense of safety.

(3) The primary prevention program established under this section shall be a voluntary program and shall not be part of the basic program of education.

(4) Parents shall be given notice of the primary prevention program and may refuse to have their children participate in the program. [1995 c 399 § 21; 1987 c 489 § 3. Formerly RCW 28A.03.514.]

**28A.300.164 Energy information program.** The office of the superintendent of public instruction shall develop an energy information program for use in local school districts. The program shall utilize existing curriculum which may include curriculum as developed by districts or the state relating to the requirement under RCW 28A.230.020 that schools provide instruction in science with special reference to the environment, and shall include but not be limited to the following elements:

- (1) The fundamental role energy plays in the national and regional economy;
- (2) Descriptions and explanations of the various sources of energy which are used both regionally and nationally;
- (3) Descriptions and explanations of the ways to use various energy sources more efficiently; and
- (4) Advantages and disadvantages to the various sources of present and future supplies of energy.

Under this section the office of superintendent of public instruction shall emphasize providing teacher training, promoting the use of local energy experts in the classroom, and dissemination of energy education curriculum. [1990 c 301 § 2.]

**Findings—1990 c 301:** "The legislature finds that the state is facing an impending energy supply crisis. The legislature further finds that keeping the importance of energy in the minds of state residents is essential as a means to help avert a future energy supply crisis and that citizens need to be aware of the importance and trade-offs associated with energy efficiency, the implications of wasteful uses of energy, and the need for long-term stable supplies of energy. One efficient and effective method of informing the state's citizens on energy issues is to begin in the school system, where information may guide energy use decisions for decades into the future." [1990 c 301 § 1.]

**28A.300.165 National guard high school career training and national guard youth challenge program—**

**Rules.** (1) In addition to any other powers and duties as provided by law, the superintendent of public instruction, in consultation with the military department, shall adopt rules governing and authorizing the acceptance of national guard high school career training and the national guard youth challenge program in lieu of either required high school credits or elective high school credits.

(2) With the exception of students enrolled in the national guard youth challenge program, students enrolled in such national guard programs shall be considered enrolled in the common school last attended preceding enrollment in such national guard program.

(3) The superintendent shall adopt rules to ensure that students who successfully complete the national guard youth challenge program are granted an appropriate number of high school credits, based on the students' levels of academic pro-

In areas where there are specific and significant capacity limitations to providing enhancements to a recommended element, the superintendent of public instruction shall identify those limitations and make recommendations on how to address the issue.

(2) The legislature shall:

(a) Review the recommendations of the superintendent of public instruction submitted under subsection (1) of this section; and

(b) Use the information as it continues to review, evaluate, and revise the definition and funding of basic education in a manner that serves the educational needs of the citizens of Washington; continues to fulfill the state's obligation under Article IX of the state Constitution and ensures that no enhancements are imposed on the educational system that cannot be accommodated by the existing system capacity.

(3) "System capacity" for purposes of this section includes, but is not limited to, the ability of schools and districts to provide the capital facilities necessary to support a particular instructional program, the staffing levels necessary to support an instructional program both in terms of actual numbers of staff as well as the experience level and types of staff available to fill positions, the higher education systems capacity to prepare the next generation of educators, and the availability of data and a data system capable of helping the state allocate its resources in a manner consistent with evidence-based practices that are shown to improve student learning.

(4) The office of the superintendent of public instruction shall report to the legislature on a biennial basis beginning December 1, 2010. [2009 c 548 § 113.]

The portal must provide citizens the opportunity to view, for each local school building, the staffing levels and other prototypical school funding elements that are assumed under the state funding formula. The portal must also provide a matrix displaying how individual school districts are deploying those same state resources through their allocation of staff and other resources to school buildings, so that citizens are able to compare the state assumptions to district allocation decisions for each local school building. [2010 c 236 § 12.]

**Intent—2010 c 236:** See note following RCW 28A.150.260.

**28A.300.175 Recovery of payments to recipients of state money—Basis—Resolution of audit findings—Rules.** The superintendent of public instruction shall withhold or recover state payments to school districts, educational service districts, and other recipients of state money based on findings of the Washington state auditor. When an audit questions enrollment, staffing, or other data reported to the state and used in state apportionment calculations, the superintendent of public instruction may require submission of revised data, or as an alternative may adjust data based on estimates, and shall revise apportionment calculations and payments accordingly. The superintendent of public instruction shall adopt rules setting forth policies and procedures for the resolution of monetary and nonmonetary audit findings involving state money. [1997 c 167 § 1.]

**28A.300.185 Family preservation education program.** The office of the superintendent of public instruction shall develop a family preservation education program model curriculum that is available to each of the school district boards of directors. The model curriculum shall be posted on the superintendent of public instruction's web site. The model curriculum shall include, but is not limited to, instruction on developing conflict management skills, communication skills, domestic violence and dating violence, financial responsibility, and parenting responsibility. [2005 c 491 § 3.]

**Finding—2005 c 491:** "The legislature finds that effective relationship skills are used in parenting, the workplace, schools, neighborhoods, and other relationships. **28A.300.230 Findings—Integration of vocational and academic education.** The legislature finds that the needs of the workforce and the economy necessitate enhanced vocational education opportunities in secondary education including curriculum which integrates vocational and academic education. In order for the state's workforce to be competitive in the world market, employees need competencies in both vocational/technical skills and in core essential competencies such as English, math, science/technology, geography, history, and critical thinking. Curriculum which integrates vocational and academic education reflects that many students learn best through applied learning, and that students should be offered flexible education opportunities which prepare them for both the world of work and for higher education. [1991 c 238 § 140.]

**28A.300.235 Development of model curriculum integrating vocational and academic education.** The superintendent of public instruction shall with the advice of the workforce training and education coordinating board develop model curriculum integrating vocational and academic education at the secondary level. The curriculum shall integrate vocational education for gainful employment with education in the academic subjects of English, math, science/technology, geography, and history, and with education in critical thinking. Upon completion, the model curriculum shall be provided for consideration and use by school districts. [1991 c 238 § 141.]

**28A.300.240 International student exchange.** (1) The superintendent of public instruction shall annually make available to school districts and approved private schools, from data supplied by the secretary of state, the names of international student exchange visitor placement organizations registered under chapter 19.166 RCW to place students in public schools in the state and a summary of the information the organizations have filed with the secretary of state under chapter 19.166 RCW.

(2) The superintendent shall provide general information and assistance to school districts regarding international student exchange visitors, including, to the extent feasible with available resources, information on the type of visa required for enrollment, how to promote positive educational experiences for visiting exchange students, and how to integrate exchange students into the school environment to benefit the education of both the exchange students and students in the state. **28A.300.250 Participation in federal nutrition programs—Superintendent's duties.** The superintendent of

public instruction shall aggressively solicit eligible schools, child and adult day care centers, and other organizations to participate in the nutrition programs authorized by the United States department of agriculture. [1991 c 366 § 402.]

**Finding—1991 c 366:** "Hunger and malnutrition threaten the future of a whole generation of children in Washington. Children who are hungry or malnourished are unable to function optimally in the classroom and are thus at risk of lower achievement in school. The resultant diminished future capacity of and opportunities for these children will affect this state's economic and social future. Thus, the legislature finds that the state has an interest in helping families provide nutritious meals to children.

The legislature also finds that the state has an interest in helping hungry and malnourished adults obtain necessary nourishment. Adequate nourishment is necessary for physical health, and physical health is the foundation of self-sufficiency. Adequate nourishment is especially critical in the case of pregnant and lactating women, both to ensure that all mothers and babies are as healthy as possible and to minimize the costs associated with the care of low-birthweight babies." [1991 c 366 § 1.]

**Finding—1991 c 366:** "The legislature finds that the school breakfast and lunch programs, the summer feeding program, and the child and adult day care feeding programs authorized by the United States department of agriculture are effective in addressing unmet nutritional needs. However, some communities in the state do not participate in these programs. The result is hunger, malnutrition, and inadequate nutrition education for otherwise eligible persons living in nonparticipating communities." [1991 c 366 § 401.]

**28A.300.270 Violence prevention training.** The superintendent of public instruction shall, to the extent funding is available, contract with school districts, educational service districts, and approved in-service providers to conduct training sessions for school certificated and classified employees in conflict resolution and other violence prevention topics. The training shall be developmentally and culturally appropriate for the school populations being served and be research based. The training shall not be based solely on providing materials, but also shall include techniques on imparting these skills to students. The training sessions shall be developed in coordination with school districts, the superintendent of public instruction, parents, law enforcement agencies, human services providers, and other interested parties. The training shall be offered to school districts and school staff requesting the training, and shall be made available at locations throughout the state. [1994 sp.s. c 7 § 602.]

**Finding—Intent—Severability—1994 sp.s. c 7:** See notes following RCW 43.70.540.

**28A.300.275 Alternative school start-up grants—School safety grants—Report to legislative committees.** The sum of four million dollars, or as much thereof as may be necessary, is appropriated from the general fund to the superintendent of public instruction for the biennium ending June 30, 2001, for:

(1) Alternative school start-up grants which are in addition to the grants funded in the two million dollars alternative school start-up appropriation contained in section 501(2)(1), chapter 309, Laws of 1999, and these grants shall be awarded in the same manner and for the same purposes;

(2) School safety programs for prevention and intervention. School districts may apply for and administer these grants independently or jointly with other school districts or educational service districts. The funds may be expended for proven-effective programs to improve safety in schools,

including: Security assessments of school facilities; violence prevention and reporting training for staff as appropriate to the particular duties and responsibilities of the specific staff, including administrators; nonviolence and leadership training for staff and students; and school safety plans. The educational service districts and school districts may contract for any services under this subsection.

(3) The superintendent of public instruction shall report to the education committees of the house of representatives and senate on the number and types of programs administered through these grants by February 15, 2001, and February 15th of every two years thereafter. [1999 sp.s. c 12 § 1.]

**28A.300.280 Conflict resolution program.** The superintendent of public instruction and the office of the attorney general, in cooperation with the Washington state bar association, shall develop a volunteer-based conflict resolution and mediation program for use in community groups such as neighborhood organizations and the public schools. The program shall use lawyers to train students who in turn become trainers and mediators for their peers in conflict resolution. [1994 sp.s. c 7 § 611.]

**Finding—Intent—Severability—1994 sp.s. c 7:** See notes following RCW 43.70.540.

**28A.300.285 Harassment, intimidation, and bullying prevention policies and procedures—Model policy and procedure—Training materials—Posting on web site—Rules—Advisory committee.** (1) By August 1, 2011, each school district shall adopt or amend if necessary a policy and procedure that at a minimum incorporates the revised model policy and procedure provided under subsection (4) of this section that prohibits the harassment, intimidation, or bullying of any student. It is the responsibility of each school district to share this policy with parents or guardians, students, volunteers, and school employees in accordance with rules adopted by the superintendent of public instruction. Each school district shall designate one person in the district as the primary contact regarding the antiharassment, intimidation, or bullying policy. The primary contact shall receive copies of all formal and informal complaints, have responsibility for assuring the implementation of the policy and procedure, and serve as the primary contact on the policy and procedures between the school district, the office of the education ombudsman, and the office of the superintendent of public instruction.

(2) "Harassment, intimidation, or bullying" means any intentional electronic, written, verbal, or physical act, including but not limited to one shown to be motivated by any characteristic in RCW 9A.36.080(3), or other distinguishing characteristics, when the intentional electronic, written, verbal, or physical act:

(a) Physically harms a student or damages the student's property; or

(b) Has the effect of substantially interfering with a student's education; or

(c) Is so severe, persistent, or pervasive that it creates an intimidating or threatening educational environment; or

(d) Has the effect of substantially disrupting the orderly operation of the school.

Nothing in this section requires the affected student to actually possess a characteristic that is a basis for the harassment, intimidation, or bullying.

(3) The policy and procedure should be adopted or amended through a process that includes representation of parents or guardians, school employees, volunteers, students, administrators, and community representatives. It is recommended that each such policy emphasize positive character traits and values, including the importance of civil and respectful speech and conduct, and the responsibility of students to comply with the district's policy prohibiting harassment, intimidation, or bullying.

(4)(a) By August 1, 2010, the superintendent of public instruction, in consultation with representatives of parents, school personnel, the office of the education ombudsman, the Washington state school directors' association, and other interested parties, shall provide to the education committees of the legislature a revised and updated model harassment, intimidation, and bullying prevention policy and procedure. The superintendent of public instruction shall publish on its web site, with a link to the safety center web page, the revised and updated model harassment, intimidation, and bullying prevention policy and procedure, along with training and instructional materials on the components that shall be included in any district policy and procedure. The superintendent shall adopt rules regarding school districts' communication of the policy and procedure to parents, students, employees, and volunteers.

(b) The office of the superintendent of public instruction has the authority to update with new technologies access to this information in the safety center, to the extent resources are made available.

(c) Each school district shall by August 15, 2011, provide to the superintendent of public instruction a brief summary of its policies, procedures, programs, partnerships, vendors, and instructional and training materials to be posted on the school safety center web site, and shall also provide the superintendent with a link to the school district's web site for further information. The district's primary contact for bullying and harassment issues shall annually by August 15th verify posted information and links and notify the school safety center of any updates or changes.

(5) The Washington state school directors' association, with the assistance of the office of the superintendent of public instruction, shall convene an advisory committee to develop a model policy prohibiting acts of harassment, intimidation, or bullying that are conducted via electronic means by a student while on school grounds and during the school day. The policy shall include a requirement that materials meant to educate parents and students about the seriousness of cyberbullying be disseminated to parents or made available on the school district's web site. The school directors' association and the advisory committee shall develop sample materials for school districts to disseminate, which shall also include information on responsible and safe internet use as well as what options are available if a student is being bullied via electronic means, including but not limited to, reporting threats to local police and when to involve school officials, the internet service provider, or phone service provider. The school directors' association shall submit the model policy and sample materials, along with a recommendation for local

(2010 Ed.)

adoption, to the governor and the legislature and shall post the model policy and sample materials on its web site by January 1, 2008. Each school district board of directors shall establish its own policy by August 1, 2008.

(6) As used in this section, "electronic" or "electronic means" means any communication where there is the transmission of information by wire, radio, optical cable, electromagnetic, or other similar means. [2010 c 239 § 2; 2007 c 407 § 1; 2002 c 207 § 2.]

**Finding—Intent—2010 c 239:** "The legislature finds that despite a recognized law prohibiting harassment, intimidation, and bullying of students in public schools and despite widespread adoption of antiharassment policies by school districts, harassment of students continues and has not declined since the law was enacted. Furthermore, students and parents continue to seek assistance against harassment, and schools need to disseminate more widely their antiharassment policies and procedures. The legislature intends to expand the tools, information, and strategies that can be used to combat harassment, intimidation, and bullying of students, and increase awareness of the need for respectful learning communities in all public schools." [2010 c 239 § 1.]

**Findings—2002 c 207:** "The legislature declares that a safe and civil environment in school is necessary for students to learn and achieve high academic standards. The legislature finds that harassment, intimidation, or bullying, like other disruptive or violent behavior, is conduct that disrupts both a student's ability to learn and a school's ability to educate its students in a safe environment.

Furthermore, the legislature finds that students learn by example. The legislature commends school administrators, faculty, staff, and volunteers for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation, or bullying." [2002 c 207 § 1.]

**28A.300.290 Effective reading programs—Identification.** (1) The center for the improvement of student learning, or its designee, shall develop and implement a process for identifying programs that have been proven to be effective based upon valid research in teaching elementary students to read. Additional programs shall be reviewed after the initial identification of effective programs.

(2) In identifying effective reading programs, the center for the improvement of student learning, or its designee, shall consult primary education teachers, statewide reading organizations, institutions of higher education, the commission on student learning, parents, legislators, and other appropriate individuals and organizations.

(3) In identifying effective reading programs, the following criteria shall be used:

(a) Whether the program will help the student meet the state-level and classroom-based assessments for reading;

(b) Whether the program has achieved documented results for students on valid and reliable assessments;

(c) Whether the results of the program have been replicated at different locations over a period of time;

(d) Whether the requirements and specifications for implementing the program are clear so that potential users can clearly determine the requirements of the program and how to implement it;

(e) Whether, when considering the cost of implementing the program, the program is cost-effective relative to other similar types of programs;

(f) Whether the program addresses differing student populations; and

(g) Other appropriate criteria and considerations.

(4) The initial identification of effective reading programs shall be completed and a list of the identified programs prepared by December 31, 1996. [1996 c 273 § 1.]

**28A.300.295 Identified programs—Grants for in-service training and instructional materials.** The superintendent of public instruction shall establish a grant program to provide incentives for teachers, schools, and school districts to use the identified programs on the approved list in grades kindergarten through four. Schools, school districts, and educational service districts may apply for grants. Funds for the grants shall be used for in-service training and instructional materials. Grants shall be awarded and funds distributed not later than June 30, 1997, for programs in the 1996-97 and 1997-98 school years. Priority shall be given to grant applications involving schools and school districts with the lowest mean percentile scores on the statewide third grade test required under \*RCW 28A.230.190 among grant applicants. [1999 c 78 § 2; 1996 c 273 § 2.]

\*Reviser's note: RCW 28A.230.190 was repealed by 2005 c 217 § 3.

**28A.300.300 Effective reading programs—Information—Development and implementation of strategies.** (1) After effective programs have been identified in accordance with RCW 28A.300.290, the center for the improvement of student learning, or its designee, shall provide information and take other appropriate steps to inform elementary school teachers, principals, curriculum directors, superintendents, school board members, college and university reading instruction faculty, and others of its findings.

(2) The center, in cooperation with statewide organizations interested in improving literacy, also shall develop and implement strategies to improve reading instruction in the state, with a special emphasis on the instruction of reading in the primary grades using the effective reading programs that have been identified in accordance with RCW 28A.300.290. The strategies may include, but should not be limited to, expanding and improving reading instruction of elementary school teachers in teacher preparation programs, expanded in-service training in reading instruction, the training of para-professionals and volunteers in reading instruction, improving classroom-based assessment of reading, and increasing statewide and regional technical assistance in reading instruction. [1998 c 245 § 11; 1996 c 273 § 4.]

**28A.300.310 Second grade reading assessment—Selection of reading passages—Costs.** (1) The superintendent of public instruction shall identify a collection of reading passages and assessment procedures that can be used to measure second grade oral reading accuracy and fluency skills. The purpose of the second grade reading assessment is to provide information to parents, teachers, and school administrators on the level of acquisition of oral reading accuracy and fluency skills of each student at the beginning of second grade. The assessment procedures and each of the reading passages in the collection must:

(a) Provide a reliable and valid measure of a student's oral reading accuracy and fluency skills;

(b) Be able to be individually administered;

(c) Have been approved by a panel of nationally recognized professionals in the area of beginning reading, whose work has been published in peer-reviewed education research journals, and professionals in the area of measurement and assessment; and

(d) Assess student skills in recognition of letter sounds, phonemic awareness, word recognition, and reading connected text. Text used for the test of fluency must be ordered in relation to difficulty.

(2) The superintendent of public instruction shall select reading passages for use by schools and school districts participating in pilot projects under RCW 28A.300.320 during the 1997-98 school year. The final collection must be selected by June 30, 1998. The superintendent of public instruction may add reading passages to the initial list if the passages are comparable in format to the initial passages approved by the expert panel in subsection (1) of this section.

(3) The superintendent of public instruction shall develop a per-pupil cost for the assessments in the collection that details the costs for administering the assessments, booklets, scoring, and training required to reliably administer the test. To the extent funds are appropriated, the superintendent of public instruction shall pay for the cost of administering and scoring the assessments, booklets or other assessment material, and training required to administer the test. [1999 c 373 § 101; 1997 c 262 § 2.]

**Findings—1997 c 262:** "The legislature acknowledges the definition of reading as "Reading is the process of constructing meaning from written text. It is the complex skill requiring the coordination of a number of interrelated sources of information." Marilyn Adams, *Becoming a Nation of Readers 7*. The legislature also acknowledges the role that reading accuracy and fluency plays in the comprehension of text. The legislature finds that one way to determine if a child's inability to read is problematic is to compare the child's reading fluency and accuracy skills with that of other children. To accomplish this objective, the legislature finds that assessments that test students' reading fluency and accuracy skills must be scientifically valid and reliable. The legislature further finds that early identification of students with potential reading difficulties can provide valuable information to parents, teachers, and school administrators. The legislature finds that assessment of second grade students' reading fluency and accuracy skills can assist teachers in planning and implementing a reading curriculum that addresses students' deficiencies in reading." [1997 c 262 § 1.]

**28A.300.320 Second grade reading assessment—Pilot projects—Assessment selection—Assessment results.** (1) The superintendent of public instruction shall create a pilot project to identify which second grade reading assessments selected under RCW 28A.300.310 will be included in the final collection of assessments that must be available by June 30, 1998.

(2) Schools and school districts may voluntarily participate in the second grade reading test pilot projects in the 1997-98 school year. Schools and school districts voluntarily participating in the pilot project test are not required to have the results available by the fall parent-teacher conference.

(3)(a) Starting in the 1998-99 school year, school districts must select an assessment from the collection adopted by the superintendent of public instruction. Selection must be at the entire school district level.

(b) The second grade reading assessment selected by the school district must be administered annually in the fall beginning with the 1998-99 school year. Students who score substantially below grade level when assessed in the fall shall be assessed at least one more time during the second grade. Assessment performance deemed to be "substantially below grade level" is to be determined for each passage in the collection by the superintendent of public instruction.

(c) If a student, while taking the assessment, reaches a point at which the student's performance will be considered "substantially below grade level" regardless of the student's performance on the remainder of the assessment, the assessment may be discontinued.

(d) Each school must have the assessment results available by the fall parent-teacher conference. Schools must notify parents about the second grade reading assessment during the conferences, inform the parents of their students' performance on the assessment, identify actions the school intends to take to improve the child's reading skills, and provide parents with strategies to help the parents improve their child's score. [1999 c 373 § 102; 1998 c 319 § 201; 1997 c 262 § 3.]

#### **28A.300.330 Primary grade reading grant program.**

(1) The superintendent of public instruction shall establish a primary grade reading grant program. The purpose of the grant program is to enhance teachers' skills in using teaching methods that have proven results gathered through quantitative research and to assist students in beginning reading.

(2) Schools and school districts may apply for primary grade reading grants. To qualify for a grant, the grant proposal shall provide that the grantee must:

(a) Document that the instructional model the grantee intends to implement, including teaching methods and instructional materials, is based on results validated by quantitative methods;

(b) Agree to work with the independent contractor identified under subsection (3) of this section to determine the effectiveness of the instructional model selected and the effectiveness of the staff development provided to implement the selected model; and

(c) Provide evidence of a significant number of students who are not achieving at grade level.

Subject to available funding, additional applications may be submitted to the superintendent of public instruction by September 1, 1998, and by September 1st in subsequent years. Grants will be awarded for two years.

(3) The superintendent of public instruction shall contract with an independent contractor who has experience in program evaluation and quantitative methods to evaluate the impact of the grant activities on students' reading skills and the effectiveness of the staff development provided to teachers to implement the instructional model selected by the grantee. Five percent of the funds awarded for grants shall be

(2010 Ed.)

set aside for the purpose of the grant evaluation conducted by the independent contractor.

(4) The superintendent of public instruction shall submit biennially to the legislature and the governor a report on the primary grade reading grant program. The first report must be submitted not later than December 1, 1999, and each succeeding report must be submitted not later than December 1st of each odd-numbered year. Reports must include information on how the schools and school districts used the grant money, the instructional models used, how they were implemented, and the findings of the independent contractor.

(5) The superintendent of public instruction shall disseminate information to the school districts five years after the beginning of the grant program regarding the results of the effectiveness of the instructional models and implementation strategies.

(6) Funding under this section shall not become part of the state's basic program of education obligation as set forth under Article IX of the state Constitution. [1997 c 262 § 4.]

**Intent—1997 c 262:** See note following RCW 28A.300.310.

**28A.300.340 Primary grade reading grant program—Timelines—Rules.** (1) The superintendent of public instruction may use up to one percent of the appropriated funds for administration of the primary grade reading grant program established in chapter 262, Laws of 1997.

(2) The superintendent of public instruction shall adopt timelines and rules as necessary under chapter 34.05 RCW to administer the primary reading grant program in RCW 28A.300.310.

(3) Funding under this section shall not become a part of the state's basic program of education obligation as set forth under Article IX of the state Constitution. [1997 c 262 § 7.]

**Intent—1997 c 262:** See note following RCW 28A.300.310.

**28A.300.360 Grants for programs and services—Truant, at-risk, and expelled students.** The superintendent of public instruction shall provide, to the extent funds are appropriated, start-up grants for alternative programs and services that provide instruction and learning for truant, at-risk, and expelled students. Each grant application shall contain proposed performance indicators and an evaluation plan to measure the success of the program and its impact on improved student learning. Applications shall contain the applicant's plan for maintaining the program and services after the grant period. [1999 c 319 § 7.]

**28A.300.370 World War II oral history project.** (1) The World War II oral history project is established for the purpose of providing oral history presentations, documentation, and other materials to assist the office of the superintendent of public instruction and educators in the development of a curriculum for use in kindergarten through twelfth grade.

(2) To the extent funds are appropriated or donated, the project shall be administered by the office of the superintendent of public instruction. The office shall convene an advisory committee to assist in the design and implementation of the project. The committee shall be composed of members of the World War II memorial educational foundation, the department of veterans affairs, the secretary of state's office,

and legislators involved with and interested in the development of the oral history project. The committee may select its own chair and may expand its membership to include the services of other individuals, agencies, or organizations on the basis of need. The office shall provide staffing and administrative support to the advisory committee.

(3) The project will preserve for the education of Washington's school children the memories and history of our state's citizens who served their state and country as members of the armed forces or through national or community contributions during World War II. The project is intended to preserve these memories and history through audiotapes, videotapes, films, stories, printed transcripts, digitally, and through other appropriate methods.

(4) Any funding provided to the program through the omnibus appropriations act for the 2005-2007 biennium shall be used to record the memories of women who meet the requirements of subsection (3) of this section.

(5) As part of the project, the office of the superintendent of public instruction shall identify the requirements regarding instructional guides to help educators use the preserved material in age and grade appropriate ways.

(6) In its administration of the project, the office may carry out its responsibilities through contracts with filming and taping specialists, mini-grants to schools, contracts with the World War II memorial educational foundation, and through other means recommended by the foundation.

(7) By December 1, 2000, and every second year thereafter in which the project has received funding, the office shall report on the results of the project to the governor and the house of representatives and senate committees on education. The December 2000 report shall include, but need not be limited to, identification of the project's implementation strategies and resource requirements, and any curriculum standards developed through the project. [2005 c 75 § 2; 2000 c 112 § 2.]

**Findings—2005 c 75:** "The legislature finds that the women of the greatest generation made essential contributions, in many different ways, to our nation's success in World War II. During the war, more than four hundred fifty thousand women served their country in the armed forces of the United States. Another group of women provided nursing and support services to the troops. These women were joined by more than two million women back home who, like Rosie the Riveter, worked in industries that supported service men and women abroad. Other women held the nation together by raising families, educating children, and taking care of the ill and elderly. These women held our families, businesses, and communities together, living with rationed goods and services so that the service men and women fighting in the war would have the materials they needed to be successful. The legislature finds that women in all these roles made sacrifices necessary for the success of our nation's defense and contributions essential to the well-being of the people back home. The legislature further finds that to have a clearer reflection of women's sacrifices on behalf of freedom and democracy, it is necessary to include in the World War II oral history project the memories of women who contributed to the war effort through either military service or other important contributions to our nation, state, or communities." [2005 c 75 § 1.]

**Effective date—2005 c 75:** "This act takes effect August 1, 2005." [2005 c 75 § 3.]

**Findings—Intent—2000 c 112:** "The legislature finds that more than two hundred fifty thousand of Washington's citizens served their country in the armed forces of the United States during World War II. The legislature also finds that almost six thousand of those citizens sacrificed their lives to secure our nation's and the world's peace and freedom. The legislature finds that the hardships and sacrifices endured by the families and communities of these service men and women were critical to the eventual success of our nation's defense. The legislature also finds the memories of these stalwart

patriots must be preserved to remind future generations of the price the members of the greatest generation paid to preserve our democratic way of life. The legislature further finds that to have a clearer reflection of these sacrifices on behalf of freedom and democracy, it is necessary to include the memories of all women and men of our armed forces, their family members, and others involved in the war effort so that these memories mirror our nation's rich ethnic diversity. In addition, the legislature recognizes the existence and contributions of the World War II memorial educational foundation. Members of the foundation include World War II veterans, and advisors from the office of veterans affairs, the superintendent of public instruction, and the secretary of state. The legislature intends to honor the veterans who served in World War II and their supportive families by preserving their memories so Washington's school children will never forget the significant human costs of war and the efforts of their ancestors to preserve and protect our country and the world from tyranny. The legislature further intends that members of the World War II memorial educational foundation have a strong advisory role in the preservation of those memories and the creation of instructional materials on the war." [2000 c 112 § 1.]

**28A.300.380 Career and technical student organizations—Support services.** (1) The superintendent of public instruction shall maintain support for statewide coordination for career and technical student organizations by providing program staff support that is available to assist in meeting the needs of career and technical student organizations and their members and students. The superintendent may provide additional support to the organizations through contracting with independent coordinators.

(2) Career and technical student organizations eligible for technical assistance and other support services under this section are organizations recognized as career and technical student organizations by:

(a) The United States department of education; or

(b) The superintendent of public instruction, if such recognition is recommended by the Washington association for career and technical education.

(3) Career and technical student organizations eligible for technical assistance and other support services under this section include, but are not limited to: The national FFA organization; family, career, and community leaders of America; skillsUSA; distributive education clubs of America; future business leaders of America; and the technology student association. [2010 1st sp.s. c 37 § 913; 2000 c 84 § 2.]

**Effective date—2010 1st sp.s. c 37:** See note following RCW 13.06.050.

**Findings—2000 c 84:** "(1) The legislature finds that career and technical student organizations:

(a) Prepare students for career experiences beyond high school;

(b) Help students develop personal, leadership, technical, and occupational skills;

(c) Are an integral component of vocational technical instruction programs; and

(d) Directly help students achieve state learning goals, especially goals three and four with respect to critical thinking, problem solving, and decision-making skills.

(2) The legislature finds that career and technical student organizations are best situated to fulfill their important purpose if they are in existence pursuant to statute and receive ongoing assistance and support from the office of superintendent of public instruction." [2000 c 84 § 1.]

**28A.300.390 Washington civil liberties public education program—Findings.** The legislature finds that:

(1) In order to adequately prepare our youth for their meaningful participation in our democratic institutions and processes, there must be strong educational resources aimed

at teaching students and the public about the fragile nature of our constitutional rights.

(2) The federal commission on wartime relocation and internment of civilians was established by congress in 1980 to review the facts and circumstances surrounding executive order 9066, issued on February 19, 1942, and the impact of the executive order on American citizens and permanent residents, and to recommend appropriate remedies.

The commission of [on] wartime relocation and internment of civilians issued a report of its findings in 1983 with the reports "Personal Justice Denied" and "Personal Justice Denied-Part II, Recommendations." The reports were based on information gathered through twenty days of hearings in cities across the country, particularly the west coast. Testimony was heard from more than seven hundred fifty witnesses, including evacuees, former government officials, public figures, interested citizens, historians, and other professionals who have studied the internment of Japanese-Americans during World War II.

(3) The lessons to be learned from the internment of Japanese-Americans during World War II are embodied in "Personal Justice Denied-Part II, Recommendations" which found that executive order 9066 was not justified by military necessity, and the decisions that followed from it were not founded upon military considerations. These decisions included the exclusion and detention of American citizens and resident aliens of Japanese descent. The broad historical causes that shaped these decisions were race prejudice, war hysteria, and a failure of political leadership. Widespread ignorance about Americans of Japanese descent contributed to a policy conceived in haste and executed in an atmosphere of fear and anger at Japan. A grave personal injustice was done to the American citizens and resident aliens of Japanese ancestry who, without individual review or any probative evidence against them were excluded, removed, and detained by the United States during World War II.

(4) A grave injustice was done to both citizens and permanent residents of Japanese ancestry by the evacuation, relocation, and internment of civilians during World War II. These actions were carried out without adequate security reasons and without any documented acts of espionage or sabotage, and were motivated largely by racial prejudice, wartime hysteria, and a failure of political leadership. The excluded individuals of Japanese ancestry suffered enormous damages, both material and intangible, and there were incalculable losses in education and job training, all of which resulted in significant human suffering for which appropriate compensation has not been made. For these fundamental violations of the basic civil liberties and constitutional rights of these individuals of Japanese ancestry, the United States congress apologized on behalf of the nation in the federal civil liberties act of 1988. [2000 c 210 § 1.]

**28A.300.395 Washington civil liberties public education program—Intent.** The legislature intends to develop a grant program to fund public educational activities and development of educational materials to ensure that the events surrounding the exclusion, forced removal, and internment of civilians and permanent resident aliens of Japanese ancestry will be remembered, and so that the causes and circumstances

(5) The superintendent of public instruction may adopt other criteria as it deems appropriate for its review of grant proposals. **Findings—Intent—2004 c 247:** "The legislature recognizes that the average high school student lacks a basic knowledge of personal finance. In addition, the legislature recognizes the damaging effects of not properly preparing youth for the financial challenges of modern life, including bankruptcy, poor retirement planning, unmanageable debt, and a lower standard of living for Washington families.

The legislature finds that the purpose of the state's system of public education is to help students acquire the skills and knowledge they will need to be productive and responsible 21st century citizens. The legislature further finds that responsible citizenship includes an ability to make wise financial decisions. The legislature further finds that financial literacy could easily be included in lessons, courses, and projects that demonstrate each student's understanding of the state's four learning goals, including goal four: Understanding the importance of work and how performance, effort, and decisions directly affect future opportunities.

The legislature intends to assist school districts in their efforts to ensure that students are financially literate through identifying critical financial literacy skills and knowledge, providing information on instructional materials, and creating a public-private partnership to help provide instructional tools and professional development to school districts that wish to increase the financial literacy of their students." This list shall be intended to serve as a resource for schools, teachers, or any other organization or community group, and shall be updated no less frequently than annually and made available on the web sites of the office of the superintendent of public instruction and the department of health.

(5) Public schools that offer sexual health education are encouraged to review their sexual health curricula and choose a curriculum from the list developed under subsection (4) of this section. **Finding—Intent—2007 c 265:** "(1) The legislature finds that young people should have the knowledge and skills necessary to build healthy relationships, and to protect themselves from unintended pregnancy and sexually transmitted diseases, including HIV infection. The primary responsibility for sexual health education is with parents and guardians. However, this responsibility also extends to schools and other community groups. It is in the public's best interest to ensure that young people are equipped with medically and scientifically accurate, age-appropriate information that will help them avoid unintended pregnancies, remain free of sexually transmitted diseases, and make informed, responsible decisions throughout their lives.

(2) The legislature intends to support and advance the standards established in the January 2005 guidelines for sexual health information and disease prevention developed by the office of the superintendent of public instruction and the department of health. These guidelines are a fundamental tool to help school districts, teachers, guest speakers, health and counseling providers, community groups, parents, and guardians choose, develop, and evaluate sexual health curricula to better meet the health and safety needs of adolescents and young adults in their communities." [2007 c 265 § 1.]

**Findings—2007 c 401:** "The legislature finds that:

(1) Reliable data on student progress, characteristics of students and schools, and teacher qualifications and mobility is critical for accountability to the state and to the public;

(2) Educational data should be made available as widely as possible while appropriately protecting the privacy of individuals as provided by law;

(3) Having a single, comprehensive, and technically compatible student and school-level data system will streamline data collection for school districts, reduce inefficiencies caused by the lack of connectivity, and minimize or eliminate multiple data entry; and

(4) Schools and districts should be supported in their management of educational data and should have access to user-friendly programs and

reports that can be readily used by classroom teachers and building principals to improve instruction." [2007 c 401 § 1.]

**Findings—2007 c 401:** See note following RCW 28A.300.500.

**28A.300.507 K-12 data governance group—Duties—Reports.** (1) A K-12 data governance group shall be established within the office of the superintendent of public instruction to assist in the design and implementation of a K-12 education data improvement system for financial, student, and educator data. It is the intent that the data system reporting specifically serve requirements for teachers, parents, superintendents, school boards, the office of the superintendent of public instruction, the legislature, and the public.

(2) The K-12 data governance group shall include representatives of the education data center, the office of the superintendent of public instruction, the legislative evaluation and accountability program committee, the professional educator standards board, the state board of education, and school district staff, including information technology staff. Additional entities with expertise in education data may be included in the K-12 data governance group.

(3) The K-12 data governance group shall:

(a) Identify the critical research and policy questions that need to be addressed by the K-12 education data improvement system;

(b) Identify reports and other information that should be made available on the internet in addition to the reports identified in subsection (5) of this section;

(c) Create a comprehensive needs requirement document detailing the specific information and technical capacity needed by school districts and the state to meet the legislature's expectations for a comprehensive K-12 education data improvement system as described under RCW 28A.655.210;

(d) Conduct a gap analysis of current and planned information compared to the needs requirement document, including an analysis of the strengths and limitations of an education data system and programs currently used by school districts and the state, and specifically the gap analysis must look at the extent to which the existing data can be transformed into canonical form and where existing software can be used to meet the needs requirement document;

(e) Focus on financial and cost data necessary to support the new K-12 financial models and funding formulas, including any necessary changes to school district budgeting and accounting, and on assuring the capacity to link data across financial, student, and educator systems; and

(f) Define the operating rules and governance structure for K-12 data collections, ensuring that data systems are flexible and able to adapt to evolving needs for information, within an objective and orderly data governance process for determining when changes are needed and how to implement them. Strong consideration must be made to the current practice and cost of migration to new requirements. The operating rules should delineate the coordination, delegation, and escalation authority for data collection issues, business rules, and performance goals for each K-12 data collection system, including:

(i) Defining and maintaining standards for privacy and confidentiality;

(ii) Setting data collection priorities;

(iii) Defining and updating a standard data dictionary;

(iv) Ensuring data compliance with the data dictionary;

(v) Ensuring data accuracy; and

(vi) Establishing minimum standards for school, student, financial, and teacher data systems. Data elements may be specified "to the extent feasible" or "to the extent available" to collect more and better data sets from districts with more flexible software. Nothing in RCW 43.41.400, this section, or RCW 28A.655.210 should be construed to require that a data dictionary or reporting should be hobbled to the lowest common set. The work of the K-12 data governance group must specify which data are desirable. Districts that can meet these requirements shall report the desirable data. Funding from the legislature must establish which subset data are absolutely required.

(4)(a) The K-12 data governance group shall provide updates on its work as requested by the education data center and the legislative evaluation and accountability program committee.

(b) The work of the K-12 data governance group shall be periodically reviewed and monitored by the educational data center and the legislative evaluation and accountability program committee.

(5) To the extent data is available, the office of the superintendent of public instruction shall make the following minimum reports available on the internet. The reports must either be run on demand against current data, or, if a static report, must have been run against the most recent data:

(a) The percentage of data compliance and data accuracy by school district;

(b) The magnitude of spending per student, by student estimated by the following algorithm and reported as the detailed summation of the following components:

(i) An approximate, prorated fraction of each teacher or human resource element that directly serves the student. Each human resource element must be listed or accessible through online tunneling in the report;

(ii) An approximate, prorated fraction of classroom or building costs used by the student;

(iii) An approximate, prorated fraction of transportation costs used by the student; and

(iv) An approximate, prorated fraction of all other resources within the district. District-wide components should be disaggregated to the extent that it is sensible and economical;

(c) The cost of K-12 basic education, per student, by student, by school district, estimated by the algorithm in (b) of this subsection, and reported in the same manner as required in (b) of this subsection;

(d) The cost of K-12 special education services per student, by student receiving those services, by school district, estimated by the algorithm in (b) of this subsection, and reported in the same manner as required in (b) of this subsection;

(e) Improvement on the statewide assessments computed as both a percentage change and absolute change on a scale score metric by district, by school, and by teacher that can also be filtered by a student's length of full-time enrollment within the school district;

(f) Number of K-12 students per classroom teacher on a per teacher basis;

(g) Number of K-12 classroom teachers per student on a per student basis;

(h) Percentage of a classroom teacher per student on a per student basis; and

(i) The cost of K-12 education per student by school district sorted by federal, state, and local dollars.

(6) The superintendent of public instruction shall submit a preliminary report to the legislature by November 15, 2009, including the analyses by the K-12 data governance group under subsection (3) of this section and preliminary options for addressing identified gaps. A final report, including a proposed phase-in plan and preliminary cost estimates for implementation of a comprehensive data improvement system for financial, student, and educator data shall be submitted to the legislature by September 1, 2010.

(7) All reports and data referenced in this section and RCW 43.41.400 and 28A.655.210 shall be made available in a manner consistent with the technical requirements of the legislative evaluation and accountability program committee and the education data center so that selected data can be provided to the legislature, governor, school districts, and the public.

(8) Reports shall contain data to the extent it is available. All reports must include documentation of which data are not available or are estimated. Reports must not be suppressed because of poor data accuracy or completeness. Reports may be accompanied with documentation to inform the reader of why some data are missing or inaccurate or estimated. [2009 c 548 § 203.]

(2) Form committees as necessary to effectively and efficiently conduct the work of the board;

(3) Seek advice from the public and interested parties regarding the work of the board;

(4) For purposes of statewide accountability:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics, by subject and grade level, once assessments in these subjects are required statewide; academic and technical skills, as appropriate, in secondary career and technical education programs; and student attendance, as the board deems appropriate to improve student learning. The goals shall be consistent with student privacy protection provisions of RCW 28A.655.090(7) and shall not conflict with requirements contained in Title I of the federal elementary and secondary education act of 1965, or the requirements of the Carl D. The goals may be established for all students, economically disadvantaged students, limited English proficient students, students with disabilities, and students from disproportionately academically under-achieving racial and ethnic backgrounds. The board may establish school and school district goals addressing high school graduation rates and dropout reduction goals for students in grades seven through twelve. The board shall adopt the goals by rule. However, before each goal is implemented, the board shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b) Identify the scores students must achieve in order to meet the standard on the Washington assessment of student learning and, for high school students, to obtain a certificate of academic achievement. The board shall also determine student scores that identify levels of student performance below and beyond the standard. The board shall consider the incorporation of the standard error of measurement into the decision regarding the award of the certificates. The board

shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose. The initial performance standards and any changes recommended by the board in the performance standards for the tenth grade assessment shall be presented to the education committees of the house of representatives and the senate by November 30th of the school year in which the changes will take place to permit the legislature to take statutory action before the changes are implemented if such action is deemed warranted by the legislature. The legislature shall be advised of the initial performance standards and any changes made to the elementary level performance standards and the middle school level performance standards;

(c) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the superintendent of public instruction of any improvements needed to the system; and

(d) Include in the biennial report required under RCW 28A.305.035, information on the progress that has been made in achieving goals adopted by the board;

**Intent—Finding—2009 c 548:** "(1)(a) The legislature intends to develop a system in which the state and school districts share accountability for achieving state educational standards and supporting continuous school improvement. The legislature recognizes that comprehensive education finance reform and the increased investment of public resources necessary to implement that reform must be accompanied by a new mechanism for clearly defining the relationships and expectations for the state, school districts, and schools. It is the legislature's intent that this be accomplished through the development of a proactive, collaborative accountability system that focuses on a school improvement system that engages and serves the local school board, parents, students, staff in the schools and districts, and the community. The improvement system shall be based on progressive levels of support, with a goal of continuous improvement in student achievement and alignment with the federal system of accountability.

(b) The legislature further recognizes that it is the state's responsibility to provide schools and districts with the tools and resources necessary to improve student achievement. These tools include the necessary accounting and data reporting systems, assessment systems to monitor student achievement, and a system of general support, targeted assistance, recognition, and, if necessary, state intervention.

(2) The legislature has already charged the state board of education to develop criteria to identify schools and districts that are successful, in need of assistance, and those where students persistently fail, as well as to identify a range of intervention strategies and a performance incentive system. The legislature finds that the state board of education should build on the work that the board has already begun in these areas. As development of these formulas, processes, and systems progresses, the legislature should monitor the progress." [2009 c 548 § 501.]

**28A.305.140 Waiver from provisions of RCW 28A.150.200 through 28A.150.220 authorized.** The state board of education may grant waivers to school districts from the provisions of RCW 28A.150.200 through 28A.150.220 on the basis that such waiver or waivers are necessary to implement successfully a local plan to provide for all students in the district an effective education system that is designed to enhance the educational program for each stu-

dent. The local plan may include alternative ways to provide effective educational programs for students who experience difficulty with the regular education program.

The state board shall adopt criteria to evaluate the need for the waiver or waivers. [1990 c 33 § 267; (1992 c 141 § 302 expired September 1, 2000); 1985 c 349 § 6. Formerly RCW 28A.04.127.]

**28A.305.141 Waiver from one hundred eighty-day school year requirement—Criteria—Recommendation to the legislature. (Expires August 31, 2014.)** (1) In addition to waivers authorized under RCW 28A.305.140 and 28A.655.180, the state board of education may grant waivers from the requirement for a one hundred eighty-day school year under RCW 28A.150.220 and \*28A.150.250 to school districts that propose to operate one or more schools on a flexible calendar for purposes of economy and efficiency as provided in this section. The requirement under RCW 28A.150.220 that school districts offer an annual average instructional hour offering of at least one thousand hours shall not be waived.

(2) A school district seeking a waiver under this section must submit an application that includes:

(a) A proposed calendar for the school day and school year that demonstrates how the instructional hour requirement will be maintained;

(b) An explanation and estimate of the economies and efficiencies to be gained from compressing the instructional hours into fewer than one hundred eighty days;

(c) An explanation of how monetary savings from the proposal will be redirected to support student learning;

(d) A summary of comments received at one or more public hearings on the proposal and how concerns will be addressed;

(e) An explanation of the impact on students who rely upon free and reduced-price school child nutrition services and the impact on the ability of the child nutrition program to operate an economically independent program;

(f) An explanation of the impact on the ability to recruit and retain employees in education support positions;

(g) An explanation of the impact on students whose parents work during the missed school day; and

(h) Other information that the state board of education may request to assure that the proposed flexible calendar will not adversely affect student learning.

(3) The state board of education shall adopt criteria to evaluate waiver requests. No more than five districts may be granted waivers. Waivers may be granted for up to three years. After each school year, the state board of education shall analyze empirical evidence to determine whether the reduction is affecting student learning. If the state board of education determines that student learning is adversely affected, the school district shall discontinue the flexible calendar as soon as possible but not later than the beginning of the next school year after the determination has been made. All waivers expire August 31, 2014.

(a) Two of the five waivers granted under this subsection shall be granted to school districts with student populations of less than one hundred fifty students.

(b) Three of the five waivers granted under this subsection shall be granted to school districts with student populations of between one hundred fifty-one and five hundred students.

(4) The state board of education shall examine the waivers granted under this section and make a recommendation to the education committees of the legislature by December 15, 2013, regarding whether the waiver program should be continued, modified, or allowed to terminate. This recommendation should focus on whether the program resulted in improved student learning as demonstrated by empirical evidence. Such evidence includes, but is not limited to: Improved scores on the Washington assessment of student learning, results of the dynamic indicators of basic early literacy skills, student grades, and attendance.

(5) This section expires August 31, 2014. [2009 c 543 § 2.]

**\*Reviser's note:** The reference to a one hundred eighty-day school year in RCW 28A.150.250 was deleted by 2009 c 548 § 105.

**Finding—2009 c 543:** "The legislature continues to support school districts seeking innovations to further the educational experiences of students and staff while also realizing increased efficiencies in day-to-day operations. School districts have suggested that efficiencies in heating, lighting, or maintenance expenses could be possible if districts were given the ability to create a more flexible calendar. Furthermore, the legislature finds that a flexible calendar could be beneficial to student learning by allowing for the use of the unscheduled days for professional development activities, planning, tutoring, special programs, parent conferences, and athletic events. A flexible calendar also has the potential to ease the burden of long commutes on students in rural areas and to lower absenteeism.

School districts in several western states have operated on a four-day school week and report increased efficiencies, family support, and reduced absenteeism, with no negative impact on student learning. Small rural school districts in particular could benefit due to their high per-pupil costs for transportation and utilities. Therefore, the legislature intends to provide increased flexibility to a limited number of school districts to explore the potential value of operating on a flexible calendar, so long as adequate safeguards are put in place to prevent any negative impact on student learning." **28A.305.190 Eligibility to take GED test.** The state board of education shall adopt rules governing the eligibility of a child sixteen years of age and under nineteen years of age to take the GED test if the child provides a substantial and warranted reason for leaving the regular high school education program, if the child was home-schooled, or if the child is an eligible student enrolled in a dropout reengagement program under RCW 28A.175.100 through 28A.175.110. (c) Consideration of information presented during public comment periods.

(6) By December 1, 2008, the superintendent of public instruction shall revise the essential academic learning requirements and the grade level expectations for science and present the revised standards to the state board of education and the education committees of the senate and the house of representatives as required by RCW 28A.655.070(4). The superintendent shall adopt the revised essential academic learning requirements and grade level expectations unless otherwise directed by the legislature during the 2009 legislative session.

(9) Nothing in this section requires a school district to use one of the recommended curricula under subsection (7) of this section. However, the statewide accountability plan adopted by the state board of education under RCW 28A.305.130 shall recommend conditions under which school districts should be required to use one of the recommended curricula. The plan shall also describe the conditions for exception to the curriculum requirement, such as the use of integrated academic and career and technical education curriculum. **28A.315.005 Governance structure.** (1) Under the constitutional framework and the laws of the state of Washington, the governance structure for the state's public common school system is comprised of the following bodies: The legislature, the governor, the superintendent of public instruction, the state board of education, the educational service district boards of directors, and local school district boards of directors. The respective policy and administrative roles of each body are determined by the state Constitution and statutes.

(2) Local school districts are political subdivisions of the state and the organization of such districts, including the powers, duties, and boundaries thereof, may be altered or abolished by laws of the state of Washington. [1999 c 315 § 1.]

**28A.315.015 Purpose—Policy.** (1) It is the purpose of this chapter to:

(a) Incorporate into a single, comprehensive, school district organization law all essential provisions governing:

- (i) The formation and establishment of new school districts;
- (ii) The alteration of the boundaries of existing districts; and
- (iii) The adjustment of the assets and liabilities of school districts when changes are made under this chapter; and

(b) Establish methods and procedures whereby changes in the school district system may be brought about by the people concerned and affected.

(2) It is the state's policy that decisions on proposed changes in school district organization should be made, whenever possible, by negotiated agreement between the affected school districts. If the districts cannot agree, the decision shall be made by the regional committees on school district organization, based on the committees' best judgment, taking into consideration the following factors and factors under RCW 28A.315.205:

(a) A balance of local petition requests and the needs of the statewide community at large in a manner that advances the best interest of public education in the affected school districts and communities, the educational service district, and the state;

(b) Responsibly serving all of the affected citizens and students by contributing to logical service boundaries and recognizing a changing economic pattern within the educational service districts of the state;

(c) Enhancing the educational opportunities of pupils in the territory by reducing existing disparities among the affected school districts' ability to provide operating and capital funds through an equitable adjustment of the assets and liabilities of the affected districts;

(d) Promoting a wiser use of public funds through improvement in the school district system of the educational service districts and the state; and

(e) Other criteria or considerations as may be established in rule by the superintendent of public instruction.

(3) It is neither the intent nor purpose of this chapter to apply to organizational changes and the procedure therefor relating to capital fund aid by nonhigh school districts as provided in chapter 28A.540 RCW. [2006 c 263 § 504; 1999 c 315 § 101.]

**28A.315.195 Transfer of territory by petition—Requirements—Rules—Costs.** (1) A proposed change in school district organization by transfer of territory from one school district to another may be initiated by a petition in writing presented to the educational service district superintendent:

(a) Signed by at least fifty percent plus one of the active registered voters residing in the territory proposed to be transferred; or

(b) Signed by a majority of the members of the board of directors of one of the districts affected by a proposed transfer of territory and providing documentation that, before signing the petition, the board of directors took the following actions:

(ii) Communicated the proposed transfer to the registered voters residing in the territory proposed to be transferred, provided notice of a public hearing regarding the proposal, and provided the voters an opportunity to comment on the proposal at the public hearing.

(2) The petition shall state the name and number of each district affected, describe the boundaries of the territory proposed to be transferred, and state the reasons for desiring the change and the number of children of school age, if any, residing in the territory.

(3) The educational service district superintendent shall not complete any transfer of territory under this section that involves ten percent or more of the common school student population of the entire district from which the transfer is proposed, unless the educational service district superintendent has first called and held a special election of the voters of the entire school district from which the transfer of territory is proposed. The purpose of the election is to afford those voters an opportunity to approve or reject the proposed transfer. A simple majority shall determine approval or rejection.

(4) The superintendent of public instruction may establish rules limiting the frequency of petitions that may be filed pertaining to territory included in whole or in part in a previous petition.

(5) Upon receipt of the petition, the educational service district superintendent shall notify in writing the affected districts that:

(a) Each school district board of directors, whether or not initiating a proposed transfer of territory, is required to enter into negotiations with the affected district or districts;

(b) In the case of a citizen-initiated petition, the affected districts must negotiate on the entire proposed transfer of territory;

The mediator has thirty days to work with the affected school districts to see if an agreement can be reached on the proposed transfer of territory.

(7) If the affected school districts cannot come to agreement about the proposed transfer of territory, and the districts

do not request the services of a mediator or the mediator was unable to bring the districts to agreement, either district may file with the educational service district superintendent a written request for a hearing by the regional committee.

(8) If the affected school districts cannot come to agreement about the proposed transfer of territory initiated by citizen petition, and the districts do not request the services of a mediator or the mediator was unable to bring the districts to agreement, the district in which the citizens who filed the petition reside shall file with the educational service district superintendent a written request for a hearing by the regional committee, unless a majority of the citizen petitioners request otherwise.

**28A.315.205 Transfer of territory by petition—Regional committee responsibilities—Rules—Appeals.**

(1) The chair of the regional committee shall schedule a hearing on the proposed transfer of territory at a location in the educational service district within sixty calendar days of being notified under RCW 28A.315.195 (7) or (8).

(2) Within thirty calendar days of the hearing under subsection (1) of this section, or final hearing if more than one is held by the committee, the committee shall issue its written findings and decision to approve or disapprove the proposed transfer of territory. The educational service district superintendent shall transmit a copy of the committee's decision to the superintendents of the affected school districts within ten calendar days.

(3) In carrying out the purposes of RCW 28A.315.015 and in making decisions as authorized under RCW 28A.315.095(1), the regional committee shall base its judgment upon whether and to the extent the proposed change in school district organization complies with RCW 28A.315.015(2) and rules adopted by the superintendent of public instruction under chapter 34.05 RCW.

(4) The rules under subsection (3) of this section shall provide for giving consideration to all of the following:

(a) Student educational opportunities as measured by the percentage of students performing at each level of the state-wide mandated assessments and data regarding student attendance, graduation, and dropout rates;

(b) The safety and welfare of pupils. For the purposes of this subsection, "safety" means freedom or protection from danger, injury, or damage and "welfare" means a positive condition or influence regarding health, character, and well-being;

(c) The history and relationship of the property affected to the students and communities affected, including, for example, the impact of the growth management act and current or proposed urban growth areas, city boundaries, and master planned communities;

(d) Whether or not geographic accessibility warrants a favorable consideration of a recommended change in school district organization, including remoteness or isolation of places of residence and time required to travel to and from school; and

(e) All funding sources of the affected districts, equalization among school districts of the tax burden for general fund and capital purposes through a reduction in disparities in per pupil valuation when all funding sources are considered, improvement in the economies in the administration and operation of schools, and the extent the proposed change would potentially reduce or increase the individual and aggregate transportation costs of the affected school districts.

(5)(a)(i) A petitioner or school district may appeal a decision by the regional committee to the superintendent of public instruction based on the claim that the regional committee failed to follow the applicable statutory and regulatory procedures or acted in an arbitrary and capricious manner. Any such appeal shall be based on the record and the appeal must be filed within thirty days of the final decision of the regional committee. The appeal shall be heard and determined by an administrative law judge in the office of administrative hearings, based on the standards in (a)(ii) of this subsection.

(ii) If the administrative law judge finds that all applicable procedures were not followed or that the regional committee acted in an arbitrary and capricious manner, the administrative law judge shall refer the matter back to the regional committee with an explanation of his or her findings. The regional committee shall rehear the proposal.

(iii) If the administrative law judge finds that all applicable procedures were followed or that the regional committee did not act in an arbitrary and capricious manner, depending on the appeal, the educational service district shall be notified and directed to implement the changes.

(b) Any school district or citizen petitioner affected by a final decision of the regional committee may seek judicial review of the committee's decision in accordance with RCW 34.05.570. [2008 c 159 § 2; 2006 c 263 § 503; 2003 c 413 § 1; 1999 c 315 § 402.]

**Findings—Purpose—Part headings not law—2006 c 263:** See notes following RCW 28A.150.230.

**28A.315.215 Transfer of territory by agreement or order—Approval—Order.** (1) Upon receipt by the educational service district superintendent of a written agreement by two or more school districts to the transfer of territory between the affected districts, the superintendent shall make an order establishing all approved changes involving the alteration of the boundaries of the affected districts. The order shall also establish all approved terms of the equitable adjustment of assets and liabilities involving the affected districts. The superintendent shall certify his or her action to each county auditor, each county treasurer, each county assessor, and the superintendents of all school districts affected by the action.

(2) Upon receipt by the educational service district superintendent of a written order by the regional committee approving the transfer of territory between two or more school districts, the superintendent shall make an order establishing all approved changes involving the alteration of the

boundaries of the affected districts. The order may not be implemented before the period of appeal authorized under RCW 28A.315.205(5)(a)(i) has ended. The order shall also establish all approved terms of the equitable adjustment of assets and liabilities involving the affected districts. The superintendent shall certify his or her action to each county auditor, each county treasurer, each county assessor, and the superintendents of all school districts affected by the action. [1999 c 315 § 403.]

**28A.315.225 Dissolution and annexation of certain districts—Annexation of nondistrict property.** In case any school district has an average enrollment of fewer than five kindergarten through eighth grade pupils during the preceding school year or has not made a reasonable effort to maintain, during the preceding school year at least the minimum term of school required by law, the educational service district superintendent shall report that fact to the regional committee, which committee shall dissolve the school district and annex the territory thereof to some other district or districts. For the purposes of this section, in addition to any other finding, "reasonable effort" shall be deemed to mean the attempt to make up whatever days are short of the legal requirement by conducting of school classes on any days to include available holidays, though not to include Saturdays and Sundays, prior to June 15th of that year. School districts operating an extended school year program, most commonly implemented as a 45-15 plan, shall be deemed to be making a reasonable effort. In the event any school district has suffered any interruption in its normal school calendar due to a strike or other work stoppage or slowdown by any of its employees that district shall not be subject to this section. In case any territory is not a part of any school district, the educational service district superintendent shall present to the regional committee a proposal for the annexation of the territory to some contiguous district or districts. [1999 c 315 § 501.]

**28A.315.235 Consolidation—Petition.** (1) A proposed change in school district organization by consolidation of territory from two or more school districts to form a new school district may be initiated by:

(a) A written petition presented to the educational service district superintendent signed by ten or more registered voters residing:

(i) In each whole district and in each part of a district proposed to be included in any single new district; or

(ii) In the territory of a proposed new district that comprises a part of only one or more districts and approved by the boards of directors of the affected school districts;

(b) A written petition presented to the educational service district superintendent signed by ten percent or more of the registered voters residing in such affected areas or area without the approval of the boards of directors of the affected school districts.

(2) The petition shall state the name and number of each district involved in or affected by the proposal to form the new district and shall describe the boundaries of the proposed new district. No more than one petition for consolidation of the same two school districts or parts thereof shall be considered during a school fiscal year.

(3) The educational service district superintendent may not complete any consolidation of territory under this section unless he or she has first called and held a special election of the voters of the affected districts to afford those voters an opportunity to approve or reject the proposed consolidation. A simple majority shall determine approval or rejection.

(4) If a proposed change in school district organization by consolidation of territory has been approved under this section, the educational service district superintendent shall make an order establishing all approved changes involving the alteration of the boundaries of the affected districts. The order shall also establish all approved terms of the equitable adjustment of assets and liabilities involving the affected districts. The superintendent shall certify his or her action to each county auditor, each county treasurer, each county assessor, and the superintendents of all school districts affected by the action. [1999 c 315 § 601.]

**28A.315.245 Adjustment of assets and liabilities.** In determining an equitable adjustment of assets and liabilities, the negotiating school districts and the regional committee shall consider the following factors:

(1) The number of school age children residing in each school district and in each part of a district involved or affected by the proposed change in school district organization;

(2) The assessed valuation of the property located in each school district and in each part of a district involved or affected by the proposed change in school district organization;

(3) The purpose for which the bonded indebtedness of any school district involved or affected by the proposed change in school district organization was incurred;

(4) The history and relationship of the property affected to the students and communities affected by the proposed change in school district organization;

(5) Additional burdens to the districts affected by the proposed change in school district organization as a result of the proposed organization;

(6) The value, location, and disposition of all improvements located in the school districts involved or affected by the proposed change in school district organization;

(7) The consideration of all other sources of funding; and

(8) Any other factors that in the judgment of the school districts or regional committee are important or essential to the making of an equitable adjustment of assets and liabilities. [1999 c 315 § 701.]

**28A.315.255 Adjustment of indebtedness.** (1) The fact of the issuance of bonds by a school district, heretofore or hereafter, does not prevent changes in the organization and extent of school districts, regardless of whether or not such bonds or any part thereof are outstanding at the time of change.

(2) In case of any change:

(a) The bonded indebtedness outstanding against any school district involved in or affected by such change shall be adjusted equitably among the old school districts and the new district or districts, if any, involved or affected; and

(b) The property and other assets and the liabilities other than bonded indebtedness of any school district involved in or affected by any such change shall also be adjusted in the manner and to the effect provided for in this section, except if all the territory of an old school district is included in a single new district or is annexed to a single existing district, in which event the title to the property and other assets and the liabilities other than bonded indebtedness of the old district vests in and becomes the assets and liabilities of the new district or of the existing district, as applicable. [1999 c 315 § 702.]

**28A.315.265 Adjustment of bonded indebtedness—Order—Special elections.** If adjustments of bonded indebtedness are made between or among school districts in connection with the alteration of the boundaries of the school districts under this chapter, the order of the educational service district superintendent establishing the terms of adjustment of bonded indebtedness shall provide and specify:

(1) In every case where bonded indebtedness is transferred from one school district to another school district:

(a) That such bonded indebtedness is assumed by the school district to which it is transferred;

(b) That thereafter such bonded indebtedness shall be the obligation of the school district to which it is transferred;

(c) That, if the terms of adjustment so provide, any bonded indebtedness thereafter incurred by such transferee school district through the sale of bonds authorized before the date its boundaries were altered shall be the obligation of such school district including the territory added thereto; and

(d) That taxes shall be levied thereafter against the taxable property located within such school district as it is constituted after its boundaries were altered, the taxes to be levied at the times and in the amounts required to pay the principal of and the interest on the bonded indebtedness assumed or incurred, as the same become due and payable.

(2) In computing the debt limitation of any school district from which or to which bonded indebtedness has been transferred, the amount of transferred bonded indebtedness at any time outstanding:

(a) Shall be an offset against and deducted from the total bonded indebtedness, if any, of the school district from which the bonded indebtedness was transferred; and

(b) Shall be deemed to be bonded indebtedness solely of the transferee school district that assumed the indebtedness.

(3) In every case where adjustments of bonded indebtedness do not provide for transfer of bonded indebtedness from one school district to another school district:

(a) That the existing bonded indebtedness of each school district, the boundaries of which are altered and any bonded indebtedness incurred by each such school district through the sale of bonds authorized before the date its boundaries were altered is the obligation of the school district in its reduced or enlarged form, as the case may be; and

(b) That taxes shall be levied thereafter against the taxable property located within each such school district in its reduced or enlarged form, as the case may be, at the times and in the amounts required to pay the principal of and interest on such bonded indebtedness as the same become due and payable.

(4) If a change in school district organization approved by the regional committee concerns a proposal to form a new school district or a proposal for adjustment of bonded indebtedness involving an established school district and one or more former school districts now included therein pursuant to a vote of the people concerned, a special election of the voters residing within the territory of the proposed new district, or of the established district involved in a proposal for adjustment of bonded indebtedness as the case may be, shall be held for the purpose of affording those voters an opportunity to approve or reject such proposals as concern or affect them.

(5) In a case involving both the question of the formation of a new school district and the question of adjustment of bonded indebtedness, the questions may be submitted to the voters either in the form of a single proposition or as separate propositions, whichever seems expedient to the educational service district superintendent. When the regional committee has passed appropriate resolutions for the questions to be submitted and the educational service district superintendent has given notice thereof to the county auditor, the special election shall be called and conducted, and the returns canvassed as in regular school district elections. [1999 c 315 § 703.]

**28A.315.275 Notice of elections.** Notice of special elections as provided for in RCW 28A.315.265 shall be given by the county auditor as provided in \*RCW 29.27.080. The notice of election shall state the purpose for which the election has been called and contain a description of the boundaries of the proposed new district and a statement of any terms of adjustment of bonded indebtedness on which to be voted. [1999 c 315 § 704.]

**\*Reviser's note:** RCW 29.27.080 was recodified as RCW 29A.52.350 pursuant to 2003 c 111 § 2401, effective July 1, 2004. RCW 29A.52.350 was subsequently repealed by 2004 c 271 § 193. Later enactment of RCW 29A.52.350, see RCW 29A.52.351.

**28A.315.285 Special election—Determination—Order—Certification.** (1) If a special election is held to vote on a proposal or alternate proposals to form a new school district, the votes cast by the registered voters in each component district shall be tabulated separately. Any such proposition shall be considered approved only if it receives a majority of the votes cast in each separate district voting thereon.

(2) If a special election is held to vote on a proposal for adjustment of bonded indebtedness, the entire vote cast by the registered voters of the proposed new district or of the established district as the case may be shall be tabulated. Any such proposition shall be considered approved if sixty percent or more of all votes cast thereon are in the affirmative.

(3) In the event of approval of a proposition or propositions voted on at a special election, the educational service district superintendent shall:

(a) Make an order establishing such new school district or such terms of adjustment of bonded indebtedness or both, as were approved by the registered voters and shall also order such other terms of adjustment, if there are any, of property and other assets and of liabilities other than bonded indebtedness as have been approved by the state council; and

(b) Certify his or her action to the county and school district officials specified in RCW 28A.315.215. The educational service district superintendent may designate, with the approval of the superintendent of public instruction, a name and number different from that of any component thereof, but must designate the new district by name and number different from any other district in existence in the county.

(4) The educational service district superintendent shall fix as the effective date of any order or orders he or she is required to make by this chapter, the date specified in the order of final approval of any change in the organization and extent of school districts or of any terms of adjustment of the assets and liabilities of school districts subject, for taxing purposes, to the redrawing of taxing district boundaries under RCW 84.09.030, by the regional committee.

(5) Upon receipt of certification under this section, the superintendent of each school district that is included in the new district shall deliver to the superintendent of the new school district those books, papers, documents, records, and other materials pertaining to the territory transferred. [1999 c 315 § 705.]

**28A.315.295 Rejection of proposal.** If a proposal for the formation of a new school district and for adjustment of bonded indebtedness, or either, is rejected by the registered voters at a special election, the matter is terminated. [1999 c 315 § 706.]

**28A.315.305 School district organizational changes—Corporate existence—Payment of bonded indebtedness—Levy authority.** (1) Each school district involved in or affected by any change made in the organization and extent of school districts under this chapter retains its corporate existence insofar as is necessary for the purpose, until the bonded indebtedness outstanding against it on and after the effective date of the change has been paid in full. This section may not be construed to prevent, after the effective date of the change, such adjustments of bonded indebtedness as are provided for in this chapter.

(2) The county legislative authority shall provide, by appropriate levies on the taxable property of each school district, for the payment of the bonded indebtedness outstanding against it after any of the changes or adjustments under this chapter have been effected.

(3) In case any such changes or adjustments involve a joint school district, the tax levy for the payment of any bonded indebtedness outstanding against the joint district, after the changes or adjustments are effected, shall be made and the proceeds thereof shall be transmitted, credited, and paid out in conformity with the provisions of law applicable to the payment of the bonded indebtedness of joint school districts. [1999 c 315 § 707.]

**28A.315.308 School district organization changes—Adjustment of school district assets and liabilities—School districts in two or more educational service districts.** The duties in this chapter imposed upon and required to be performed by a regional committee and by an educational service district superintendent in connection with a change in the organization and extent of school districts

and/or with the adjustment of the assets and liabilities of school districts and with all matters related to such change or adjustment whenever territory lying in more than one educational service district is involved shall be performed by the regional committee and by the superintendent of the educational service district in which is located the part of the proposed or enlarged school district having the largest number of common school pupils residing therein. Proposals for changes in the organization and extent of school districts and proposed terms of adjustment of assets and liabilities thus prepared and approved shall be submitted to the superintendent of public instruction. **Findings—Intent—Severability—1997 c 266:** See notes following RCW 28A.600.455.

**28A.320.140 Schools with special standards—Dress codes.** (1) School district boards of directors may establish schools or programs which parents may choose for their children to attend in which: (a) Students are required to conform to dress and grooming codes, including requiring that students wear uniforms; (b) parents are required to participate in the student's education; or (c) discipline requirements are more stringent than in other schools in the district.

(2) School district boards of directors may establish schools or programs in which: (a) Students are required to conform to dress and grooming codes, including requiring that students wear uniforms; (b) parents are regularly counseled and encouraged to participate in the student's education; or (c) discipline requirements are more stringent than in other schools in the district. School boards may require that students who are subject to suspension or expulsion attend these schools or programs as a condition of continued enrollment in the school district.

(3) If students are required to wear uniforms in these programs or schools, school districts shall accommodate students so that the uniform requirement is not an unfair barrier to school attendance and participation.

(4) Nothing in this section impairs or reduces in any manner whatsoever the authority of a board under other law to impose a dress and appearance code. However, if a board requires uniforms under such other authority, it shall accommodate students so that the uniform requirement is not an unfair barrier to school attendance and participation.

(5) School district boards of directors may adopt dress and grooming code policies which prohibit students from wearing gang-related apparel. If a dress and grooming code policy contains this provision, the school board must also establish policies to notify students and parents of what clothing and apparel is considered to be gang-related apparel. This notice must precede any disciplinary action resulting from a student wearing gang-related apparel.

(6) School district boards of directors may not adopt a dress and grooming code policy which precludes students who participate in nationally recognized youth organizations from wearing organization uniforms on days that the organization has a scheduled activity or prohibit students from wearing clothing in observance of their religion. accordance with applicable state law, including RCW 10.97.050, 28A.400.303, 28A.410.010, or 43.43.830 through 43.43.845, within the two years before the time the volunteer is volunteering in the school, then the school may request that the volunteer furnish the school with a copy of the criminal history record information or sign a release to the business, school, organization, criminal justice agency, or juvenile justice or care agency, or other state agency that originally obtained the criminal history record information to permit the record information to be shared with the school. Once the school requests the information from the business, school, organization, or agency the information shall be furnished to the school. Any business, school, organization, agency, or its employee or official that shares the criminal history record information with the requesting school in accordance with this section is immune from criminal and civil liability for dissemination of the information.

If the criminal history record information is shared, the school must require the volunteer to sign a disclosure statement indicating that there has been no conviction since the completion date of the most recent criminal background inquiry. [1999 c 21 § 1.]

**28A.320.160 Alleged sexual misconduct by school employee—Parental notification—Information on public records act.** School districts must, at the first opportunity but in all cases within forty-eight hours of receiving a report alleging sexual misconduct by a school employee, notify the parents of a student alleged to be the victim, target, or recipient of the misconduct. School districts shall provide parents with information regarding their rights under the public records act, chapter 42.56 RCW, to request the public records regarding school employee discipline. This information shall be provided to all parents on an annual basis. [2005 c 274 § 244; 2004 c 29 § 3.]

**Effective date—2001 c 333:** See note following RCW 17.21.020.

**28A.320.170 Curricula—Tribal history and culture.** (1) Each school district board of directors is encouraged to incorporate curricula about the history, culture, and government of the nearest federally recognized Indian tribe or tribes, so that students learn about the unique heritage and experience of their closest neighbors. School districts near Washington's borders are encouraged to include federally recognized Indian tribes whose traditional lands and territories included parts of Washington, but who now reside in Oregon, Idaho, and British Columbia. School districts and tribes are encouraged to work together to develop such curricula.

(2) As they conduct regularly scheduled reviews and revisions of their social studies and history curricula, school districts are encouraged to collaborate with any federally rec-

ognized Indian tribe within their district, and with neighboring Indian tribes, to incorporate expanded and improved curricular materials about Indian tribes, and to create programs of classroom and community cultural exchanges.

(3) School districts are encouraged to collaborate with the office of the superintendent of public instruction on curricular areas regarding tribal government and history that are statewide in nature, such as the concept of tribal sovereignty and the history of federal policy towards federally recognized Indian tribes. The program of Indian education within the office of the superintendent of public instruction is encouraged to help local school districts identify federally recognized Indian tribes whose reservations are in whole or in part within the boundaries of the district and/or those that are nearest to the school district. [2005 c 205 § 4.]

**Intent—Findings—2005 c 205:** "It is the intent of the legislature to promote the full success of the centennial accord, which was signed by state and tribal government leaders in 1989. As those leaders declared in the subsequent millennial accord in 1999, this will require "educating the citizens of our state, particularly the youth who are our future leaders, about tribal history, culture, treaty rights, contemporary tribal and state government institutions and relations and the contribution of Indian nations to the state of Washington." The legislature recognizes that this goal has yet to be achieved in most of our state's schools and districts. As a result, Indian students may not find the school curriculum, especially Washington state history curriculum, relevant to their lives or experiences. In addition, many students may remain uninformed about the experiences, contributions, and perspectives of their tribal neighbors, fellow citizens, and classmates. The legislature further finds that the lack of accurate and complete curricula may contribute to the persistent achievement gap between Indian and other students. The legislature finds there is a need to establish collaborative government-to-government relationships between elected school boards and tribal councils to create local and/or regional curricula about tribal history and culture, and to promote dialogue and cultural exchanges that can help tribal leaders and school leaders implement strategies to close the achievement gap." [2005 c 205 § 1.]

**28A.320.175 School data—Collection and submission to the office of the superintendent of public instruction.** No later than the beginning of the 2008-09 school year and thereafter, each school district shall collect and electronically submit to the office of the superintendent of public instruction, in a format and according to a schedule prescribed by the office, the following data for each class or course offered in each school:

(2010 Ed.)

(1) A general fund for maintenance and operation of the school district to account for all financial operations of the school district except those required to be accounted for in another fund.

(2) A capital projects fund shall be established for major capital purposes. All statutory references to a "building fund" shall mean the capital projects fund so established. Money to be deposited into the capital projects fund shall include, but not be limited to, bond proceeds, proceeds from excess levies authorized by RCW 84.52.053, state apportionment proceeds as authorized by RCW 28A.150.270, earnings from capital projects fund investments as authorized by RCW 28A.320.310 and 28A.320.320, and state forest revenues transferred pursuant to subsection (3) of this section.

Money derived from the sale of bonds, including interest earnings thereof, may only be used for those purposes described in RCW 28A.530.010, except that accrued interest paid on bonds shall be deposited in the debt service fund.

Money to be deposited into the capital projects fund shall include but not be limited to rental and lease proceeds as authorized by RCW 28A.335.060, and proceeds from the sale of real property as authorized by RCW 28A.335.130.

Money legally deposited into the capital projects fund from other sources may be used for the purposes described in RCW 28A.530.010, and for the purposes of:

(a) Major renovation and replacement of facilities and systems where periodical repairs are no longer economical or extend the useful life of the facility or system beyond its original planned useful life. Such renovation and replacement shall include, but shall not be limited to, major repairs, exterior painting of facilities, replacement and refurbishment of roofing, exterior walls, windows, heating and ventilating systems, floor covering in classrooms and public or common areas, and electrical and plumbing systems.

(b) Renovation and rehabilitation of playfields, athletic fields, and other district real property.

(c) The conduct of preliminary energy audits and energy audits of school district buildings. For the purpose of this section:

(i) "Preliminary energy audits" means a determination of the energy consumption characteristics of a building, including the size, type, rate of energy consumption, and major energy using systems of the building.

(ii) "Energy audit" means a survey of a building or complex which identifies the type, size, energy use level, and major energy using systems; which determines appropriate energy conservation maintenance or operating procedures and assesses any need for the acquisition and installation of energy conservation measures, including solar energy and renewable resource measures.

(iii) "Energy capital improvement" means the installation, or modification of the installation, of energy conservation measures in a building which measures are primarily intended to reduce energy consumption or allow the use of an alternative energy source.

(d) Those energy capital improvements which are identified as being cost-effective in the audits authorized by this section.

(e) Purchase or installation of additional major items of equipment and furniture: PROVIDED, That vehicles shall not be purchased with capital projects fund money.

(f)(i) Costs associated with implementing technology systems, facilities, and projects, including acquiring hardware, licensing software, and online applications and training related to the installation of the foregoing. However, the software or applications must be an integral part of the district's technology systems, facilities, or projects.

(ii) Costs associated with the application and modernization of technology systems for operations and instruction including, but not limited to, the ongoing fees for online applications, subscriptions, or software licenses, including upgrades and incidental services, and ongoing training related to the installation and integration of these products and services. However, to the extent the funds are used for the purpose under this subsection (2)(f)(ii), the school district shall transfer to the district's general fund the portion of the capital projects fund used for this purpose. The office of the superintendent of public instruction shall develop accounting guidelines for these transfers in accordance with internal revenue service regulations.

(g) Major equipment repair, painting of facilities, and other major preventative maintenance purposes. However, to the extent the funds are used for the purpose under this subsection (2)(g), the school district shall transfer to the district's general fund the portion of the capital projects fund used for this purpose. The office of the superintendent of public instruction shall develop accounting guidelines for these transfers in accordance with internal revenue service regulations. Based on the district's most recent two-year history of general fund maintenance expenditures, funds used for this purpose may not replace routine annual preventive maintenance expenditures made from the district's general fund.

(3) A debt service fund to provide for tax proceeds, other revenues, and disbursements as authorized in chapter 39.44 RCW. State forest land revenues that are deposited in a school district's debt service fund pursuant to RCW 79.64.110 and to the extent not necessary for payment of debt service on school district bonds may be transferred by the school district into the district's capital projects fund.

(4) An associated student body fund as authorized by RCW 28A.325.030.

(5) Advance refunding bond funds and refunded bond funds to provide for the proceeds and disbursements as authorized in chapter 39.53 RCW. [2009 c 460 § 1. **Intent—2007 c 129:** "The legislature recognizes that technology has become an integral part of the facilities and educational delivery systems in our schools. In order to prepare our state's students to participate fully in our state's economy, school districts are making substantial capital investments in their technology systems, facilities, and projects. Districts are implementing, applying, and modernizing their technology systems. Software companies are shifting from selling software as a one-time package to a license or an extended contractual relationship requiring a subscription and ongoing payments. School districts must be empowered to respond to the changing business models in the software industry and be given flexibility and authority to use capital projects funds to pay for licenses or online application fees. It is the intent of the legislature that these investments be deemed major capital purpose and are also permitted uses of the district's two to six-year levies authorized by RCW 84.52.053." [2007 c 129 § 1.]

- 28A.325.020 Associated student bodies—Powers and responsibilities affecting.
- 28A.325.030 Associated student body program fund—Fund-raising activities—Nonassociated student body program fund moneys.

**28A.325.010 Fees for optional noncredit extracurricular events—Disposition.** The board of directors of any common school district may establish and collect a fee from students and nonstudents as a condition to their attendance at any optional noncredit extracurricular event of the district which is of a cultural, social, recreational, or athletic nature: PROVIDED, That in so establishing such fee or fees, the district shall adopt regulations for waiving and reducing such fees in the cases of those students whose families, by reason of their low income, would have difficulty in paying the entire amount of such fees and may likewise waive or reduce such fees for nonstudents of the age of sixty-five or over who, by reason of their low income, would have difficulty in paying the entire amount of such fees. An optional comprehensive fee may be established and collected for any combination or all of such events or, in the alternative, a fee may be established and collected as a condition to attendance at any single event. Fees collected pursuant to this section shall be deposited in the associated student body program fund of the school district, and may be expended to defray the costs of optional noncredit extracurricular events of such a cultural, social, recreational, or athletic nature, or to otherwise support the activities and programs of associated student bodies. **28A.325.020 Associated student bodies—Powers and responsibilities affecting.** As used in this section, an "associated student body" means the formal organization of the students of a school formed with the approval of and regulation by the board of directors of the school district in conformity to the rules and regulations promulgated by the superintendent of public instruction: PROVIDED, That the board of directors of a school district may act or delegate the authority to an employee of the district to act as the associated student body for any school plant facility within the district containing no grade higher than the sixth grade.

The superintendent of public instruction, after consultation with appropriate school organizations and students, shall promulgate rules and regulations to designate the powers and responsibilities of the boards of directors of the school districts of the state of Washington in developing efficient administration, management, and control of moneys, records, and reports of the associated student bodies organized in the public schools of the state. [1984 c 98 § 1; 1975 1st ex.s. c 284 § 3; 1973 c 52 § 1. Formerly RCW 28A.58.115.]

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28A.325.030 Associated student body program fund—Fund-raising activities—Nonassociated student body program fund moneys.** (1)(a) There is hereby created a fund on deposit with each county treasurer for each school district of the county having an associated student body as defined in RCW 28A.325.020. Such fund shall be known as the associated student body program fund. Rules adopted by the superintendent of public instruction under RCW 28A.325.020 shall require separate accounting for each associated student body's transactions in the school district's associated student body program fund.

(b) All moneys generated through the programs and activities of any associated student body shall be deposited in the associated student body program fund. Such funds may be invested for the sole benefit of the associated student body program fund in items enumerated in RCW 28A.320.320 and the county treasurer may assess a fee as provided therein. Disbursements from such fund shall be under the control and supervision, and with the approval, of the board of directors of the school district, and shall be by warrant as provided in \*chapter 28A.350 RCW: PROVIDED, That in no case shall such warrants be issued in an amount greater than the funds on deposit with the county treasurer in the associated student body program fund. To facilitate the payment of obligations, an imprest bank account or accounts may be created and replenished from the associated student body program fund.

(c) The associated student body program fund shall be budgeted by the associated student body, subject to approval by the board of directors of the school district. All disbursements from the associated student body program fund or any imprest bank account established thereunder shall have the prior approval of the appropriate governing body representing the associated student body. Notwithstanding the provisions of RCW 43.09.210, it shall not be mandatory that expenditures from the district's general fund in support of associated student body programs and activities be reimbursed by payments from the associated student body program fund.

(2) Subject to applicable school board policies, student groups may conduct fund-raising activities, including but not limited to soliciting donations, in their private capacities for the purpose of generating nonassociated student body fund moneys. The school board policy shall include provisions to ensure appropriate accountability for these funds. Nonassociated student body program fund moneys generated and received by students for private purposes to use for scholarship, student exchange, and/or charitable purposes shall be held in trust in one or more separate accounts within an associated student body program fund and be disbursed for such purposes as the student group conducting the fund-raising activity shall determine: PROVIDED, That the school district shall either withhold an amount from such moneys as will pay the district for its direct costs in providing the service or otherwise be compensated for its cost for such service. Nonassociated student body program fund moneys shall not be deemed public moneys under section 7, Article VIII of the state Constitution. Notice shall be given identifying the intended use of the proceeds. The notice shall also state that the proceeds are nonassociated student body funds to be held in trust by the school district exclusively for the intended purpose. "Charitable purpose" under this section does not include any activity related to assisting a campaign for election of a person to an office or for the promotion or opposition to a ballot proposition. [2000 c 157 § 2; 1990 c 33 § 340; 1984 c 98 § 2; 1982 c 231 § 1; 1977 ex.s. c 160 § 1; 1975 1st ex.s. c 284 § 2. Formerly RCW 28A.58.120.]

\*Reviser's note: Chapter 28A.350 RCW was repealed in its entirety by 2009 c 337 § 15.

**Findings—Intent—2000 c 157:** "The legislature finds that current law permits associated student bodies to conduct fund-raising activities, including but not limited to soliciting donations, to raise money for school sports programs and school clubs. However, students also want to conduct fund-raising activities for charitable causes, such as to fund scholarships and stu-

(2010 Ed.)

dent exchange programs, assist families whose homes have been destroyed, to fund community projects, and to rebuild the Statue of Liberty.

The legislature further finds that current law is not clear how student groups may raise funds for charitable purposes, whether proceeds from any fund-raising activities can be used for charitable purposes or only donations may be used for charitable purposes, and whether recipients must be "poor or infirm." This has resulted in considerable confusion on the part of students regarding what type of fund-raising is permissible when funds are raised for charitable purposes by student groups.

It is the intent of the legislature to allow students to broaden the types of fund-raisers that they may conduct for charitable purposes in their private nonassociated student body capacities, and ensure that these funds will be separate from student body funds to avoid constitutional issues pertaining to the gifting of public funds." [2000 c 157 § 1.]

It is the intent of the legislature to establish a program to facilitate and encourage such partnerships among small school districts." [1988 c 268 § 1.]

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28A.340.020 Eligibility—Participation.** School districts eligible for funding as a small high school district pursuant to the state operating appropriations act shall be eligible to participate in a cooperative project: PROVIDED, That the superintendent of public instruction may adopt rules permitting second-class school districts that are not eligible for funding as a small high school district in the state operating appropriations act to participate in a cooperative project.

Two or more school districts may participate in a cooperative project pursuant to RCW 28A.340.020 through 28A.340.070. [1990 c 33 § 367; 1988 c 268 § 3. Formerly RCW 28A.100.082.]

The application shall include, but not be limited to, the following information:

(c) A list of any statutory requirements or administrative rules which are considered financial disincentives to the establishment of cooperative projects and which would impede the operation of the proposed cooperative project; and the financial impact to the school districts and the state expected to result by the granting of a waiver from such statutory requirements or administrative rules;

(d) An assessment of community support for the proposed cooperative project, which assessment shall include each community affected by the proposed cooperative project; and

(e) A plan for evaluating the educational and cost-effectiveness of the proposed cooperative project, including curriculum offerings and staffing patterns.

(2) The superintendent of public instruction shall review the application before the applicant school districts may commence the proposed cooperative project.

implemented: PROVIDED, That no statutory requirement or administrative rule dealing with health, safety, or civil rights may be waived; and (b) ensuring the technical accuracy of the application.

Any waiver granted by the superintendent of public instruction shall be reviewed and may be renewed by the superintendent every five years subject to the participating districts submitting a new application pursuant to this section.

(3) If additional eligible school districts wish to participate in an existing cooperative project the cooperative project as a whole shall reapply for review by the superintendent of public instruction. [1990 c 33 § 368; 1988 c 268 § 4. Formerly RCW 28A.100.084.]

**Findings—Severability—1988 c 268:** See notes following RCW 28A.340.010.

**28A.340.040 Adoption of salary schedules—Computation of fringe benefits.** (1) School districts participating in a cooperative project pursuant to RCW 28A.340.030 may adopt identical salary schedules following compliance with chapter 41.59 RCW: PROVIDED, That if the districts participating in a cooperative project adopt identical salary schedules, the participating districts shall be considered a single school district for purposes of establishing compliance with the salary limitations of RCW 28A.400.200(3) but not for the purposes of allocation of state funds.

(2) For purposes of computing fringe benefit contributions for purposes of establishing compliance with RCW 28A.400.200(3)(b), the districts participating in a cooperative project pursuant to RCW 28A.340.030 may use the greater of: (a) The highest amount provided in the 1986-87 school year by a district participating in the cooperative project; or (b) the amount authorized for such purposes in the state operating appropriations act in effect at the time. [1990 c 33 § 369; 1988 c 268 § 5. Formerly RCW 28A.100.086.]

[1990 c 33 § 371; 1988 c 268 § 8. Formerly RCW 28A.100.090.]

**Findings—Severability—1988 c 268:** See notes following RCW 28A.340.010.

**28A.340.070 Allocation of state funds for technical assistance—Contracting with agencies for technical assistance.** (1) The superintendent of public instruction may allocate state funds, as may be appropriated, to provide technical assistance to eligible school districts interested in developing and implementing a cooperative project.

(2010 Ed.)

(2) The superintendent of public instruction may contract with other agencies to provide some or all of the technical assistance under subsection (1) of this section. [1988 c 268 § 9. Formerly RCW 28A.100.092.]

**Findings—Severability—1988 c 268:** See notes following RCW 28A.340.010.

**28A.340.080 Innovation academy cooperatives—Formation—Student enrollment.** (1) Two or more non-high school districts may form an interdistrict cooperative, to offer an innovation academy cooperative, as defined in RCW 28A.340.085 and subject to the approval of the office of the superintendent of public instruction under RCW 28A.340.090, for high school students residing in the participating nonhigh school districts.

(2) Enrollment in an innovation academy cooperative is optional for students. For students residing in a participating nonhigh school district who enroll in a high school district rather than the innovation academy cooperative, the provisions of RCW 28A.540.110 and chapter 28A.545 RCW apply to the nonhigh school district.

(3) Each innovation academy cooperative shall designate one of the participating nonhigh school districts to report enrolled students for funding purposes. The reporting district shall claim the monthly full-time equivalent students enrolled in the innovation academy cooperative and receive state funding allocations, including basic education allocations that are based on the small high school allocation under the appropriations act to the extent the number of students enrolled in the innovation academy cooperative meets the criteria for a small high school. [2010 c 99 § 2.]

**Implementation review—Report—2010 c 99:** "The office of the superintendent of public instruction shall review the implementation of RCW 28A.340.080 through 28A.340.090 to identify keys to success and any barriers to successful implementation of innovation academy cooperatives and submit a report to the education committees of the legislature by January 1, 2013." [2010 c 99 § 9.]

**Findings—Intent—2010 c 99:** "The legislature finds that the availability of technology, online learning, and field and project-based curricula offer new opportunities for school districts to design innovative programs for high school students. However, the legislature also finds that while small, rural school districts desire to offer innovative learning options for students in their communities, they are constrained by state laws and rules that appear to prohibit nonhigh school districts from creating options for their high school students in cooperation with other nonhigh school districts. Therefore, the legislature intends to authorize and encourage innovative, cooperative high school programs for students from very small school districts." [2010 c 99 § 1.]

**28A.340.085 Innovation academy cooperatives—Characteristics—Cooperation with institutions of higher education.** (1) For the purposes of RCW 28A.340.080 through 28A.340.090, an innovation academy cooperative is a high school program with one or more of the following characteristics:

(a) Interdisciplinary curriculum and instruction organized into subject-focused themes or academies. Programs are encouraged to provide an initial focus on academies in science, technology, engineering, and mathematics;

(b) A combination of instructional service delivery models, including alternative learning experiences, online learning, work-based learning, experiential and field-based learn-

ing, and direct classroom instruction at multiple and varying locations;

(c) Intensive and accelerated learning to enable students to complete high school credits in a short time period; and

(d) Creative scheduling and use of existing school or community facilities in innovative ways to minimize facility and transportation costs and maximize access for students who may be geographically dispersed.

(2) Participating nonhigh school districts shall work with local community and technical colleges and four-year institutions of higher education to expand the learning options available for students in an innovation academy cooperative. [2010 c 99 § 3.]

**Implementation review—Report—Findings—Intent—2010 c 99:** See notes following RCW 28A.340.080.

**28A.340.090 Innovation academy cooperatives—Review and approval of agreement and plans by the office of the superintendent of public instruction.** Nonhigh school districts proposing to enter an interdistrict agreement to offer an innovation academy cooperative shall submit a copy of the proposed agreement and operating and instructional plans for the cooperative to the office of the superintendent of public instruction for technical review. The purpose of the review is for the office to provide technical assistance and advice to assure that the cooperative addresses issues identified under RCW 28A.225.250 and to assure that the proposed instructional program will offer courses and learning experiences that enable students to earn high school credit and complete a high school diploma. The office of the superintendent of public instruction must approve agreements and plans before an innovation academy cooperative begins operation. [2010 c 99 § 4.]

**Implementation review—Report—Findings—Intent—2010 c 99:** See notes following RCW 28A.340.080.

**28A.343.400 Compensation—Waiver.** Each member of the board of directors of a school district may receive compensation of fifty dollars per day or portion thereof for attending board meetings and for performing other services on behalf of the school district, not to exceed four thousand eight hundred dollars per year, if the district board of directors has

authorized by board resolution, at a regularly scheduled meeting, the provision of such compensation. A board of directors of a school district may authorize such compensation only from locally collected excess levy funds available for that purpose, and compensation for board members shall not cause the state to incur any present or future funding obligation.

Any director may waive all or any portion of his or her compensation under this section as to any month or months during his or her term of office, by a written waiver filed with the district as provided in this section. The waiver, to be effective, must be filed any time after the director's election and before the date on which the compensation would otherwise be paid. The waiver shall specify the month or period of months for which it is made.

The compensation provided in this section shall be in addition to any reimbursement for expenses paid to such directors by the school district. [1987 c 307 § 2. Formerly RCW 28A.315.540, 28A.57.327.]

**Intent—1987 c 307:** "The legislature declares it is the policy of the state to:

(1) Ensure, for the sake of educational excellence, that the electorate has the broadest possible field in which to choose qualified candidates for its school boards;

(2) Ensure that the opportunity to serve on school boards be open to all, regardless of financial circumstances; and

(3) Ensure that the time-consuming and demanding service as directors not be limited to those able or willing to make substantial personal and financial sacrifices." [1987 c 307 § 1.]

## SALARY AND COMPENSATION

**28A.400.200 Salaries and compensation for employees—Minimum amounts—Limitations—Supplemental contracts.** (1) Every school district board of directors shall fix, alter, allow, and order paid salaries and compensation for all district employees in conformance with this section.

(2)(a) Salaries for certificated instructional staff shall not be less than the salary provided in the appropriations act in the statewide salary allocation schedule for an employee with a baccalaureate degree and zero years of service; and

(b) Salaries for certificated instructional staff with a master's degree shall not be less than the salary provided in the appropriations act in the statewide salary allocation schedule for an employee with a master's degree and zero years of service.

(3)(a) The actual average salary paid to certificated instructional staff shall not exceed the district's average certificated instructional staff salary used for the state basic education allocations for that school year as determined pursuant to RCW 28A.150.410.

(b) Fringe benefit contributions for certificated instructional staff shall be included as salary under (a) of this subsection only to the extent that the district's actual average benefit contribution exceeds the amount of the insurance benefits allocation provided per certificated instructional staff unit in the state operating appropriations act in effect at the time the compensation is payable. For purposes of this section, fringe benefits shall not include payment for unused leave for illness or injury under RCW 28A.400.210; employer contributions for old age survivors insurance, workers' compensation, unemployment compensation, and retirement benefits under the Washington state retirement system; or employer contributions for health benefits in excess of the insurance benefits allocation provided per certificated instructional staff unit in the state operating appropriations act in effect at the time the compensation is payable. A school district may not use state funds to provide employer contributions for such excess health benefits.

(c) Salary and benefits for certificated instructional staff in programs other than basic education shall be consistent with the salary and benefits paid to certificated instructional staff in the basic education program.

(4) Salaries and benefits for certificated instructional staff may exceed the limitations in subsection (3) of this section only by separate contract for additional time, for additional responsibilities, for incentives, or for implementing specific measurable innovative activities, including professional development, specified by the school district to: (a) Close one or more achievement gaps, (b) focus on development of science, technology, engineering, and mathematics (STEM) learning opportunities, or (c) provide arts education. Beginning September 1, 2011, school districts shall annually provide a brief description of the innovative activities

included in any supplemental contract to the office of the superintendent of public instruction. The office of the superintendent of public instruction shall summarize the district information and submit an annual report to the education committees of the house of representatives and the senate. Supplemental contracts shall not cause the state to incur any present or future funding obligation. Supplemental contracts shall be subject to the collective bargaining provisions of chapter 41.59 RCW and the provisions of RCW 28A.405.240, shall not exceed one year, and if not renewed shall not constitute adverse change in accordance with RCW 28A.405.300 through 28A.405.380. **Findings—Intent—1993 c 492:** See notes following RCW 43.20.050.

**Intent—1990 1st ex.s. c 11:** "The legislature recognizes the rising costs of health insurance premiums for school employees, and the increasing need to ensure effective use of state benefit dollars to obtain basic coverage for employees and their dependents. In school districts that do not pool benefit allocations among employees, increases in premium rates create particular hardships for employees with families. For many of these employees, the increases translate directly into larger payroll deductions simply to maintain basic benefits.

The goal of this act is to provide access for school employees to basic coverage, including coverage for dependents, while minimizing employees' out-of-pocket premium costs. Unnecessary utilization of medical services can contribute to rising health insurance costs. Therefore, the legislature intends to encourage plans that promote appropriate utilization without creating major barriers to access to care. The legislature also intends that school districts pool state benefit allocations so as to eliminate major differences in out-of-pocket premium expenses for employees who do and do not need coverage for dependents." [1990 1st ex.s. c 11 § 1.]

**28A.400.201 Enhanced salary allocation model for educator development and certification—Technical working group—Report and recommendation.** (1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of the superintendent of public instruction, in collaboration with the office of financial management, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;

(b) How to account for labor market adjustments;

(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;

(d) The role of and types of bonuses available;

(e) Ways to accomplish salary equalization over a set number of years; and

(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;

(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and

(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the department of personnel, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature and the quality education council created in RCW 28A.290.010. The working group shall make an initial report to the legislature by June 30, 2012, and shall include in

its report recommendations for whether additional further work of the group is necessary. [2010 c 236 § 7; 2009 c 548 § 601. Formerly RCW 43.41.398.]

**Intent—2010 c 236:** See note following RCW 28A.150.260.

### **28A.400.205 Cost-of-living increases for employees.**

(1) School district employees shall be provided an annual salary cost-of-living increase in accordance with this section.

(a) The cost-of-living increase shall be calculated by applying the rate of the yearly increase in the cost-of-living index to any state-funded salary base used in state funding formulas for teachers and other school district employees. Beginning with the 2001-02 school year, and for each subsequent school year, except for the 2009-10 and 2010-11 school years, each school district shall be provided a cost-of-living allocation sufficient to grant this cost-of-living increase.

(b) A school district shall distribute its cost-of-living allocation for salaries and salary-related benefits in accordance with the district's salary schedules, collective bargaining agreements, and compensation policies. No later than the end of the school year, each school district shall certify to the superintendent of public instruction that it has spent funds provided for cost-of-living increases on salaries and salary-related benefits.

(c) Any funded cost-of-living increase shall be included in the salary base used to determine cost-of-living increases for school employees in subsequent years. For teachers and other certificated instructional staff, the rate of the annual cost-of-living increase funded for certificated instructional staff shall be applied to the base salary used with the statewide salary allocation schedule established under RCW 28A.150.410 and to any other salary models used to recognize school district personnel costs.

(d) During the 2011-2013 and 2013-2015 fiscal biennia, in addition to cost-of-living allocations required by (a) of this subsection, school districts shall receive additional cost-of-living allocations in equal increments such that by the end of the 2014-15 school year school district employee base salaries used with the statewide salary allocation schedule established under RCW 28A.150.410 and any other state salary models used to recognize school district personnel costs are, at a minimum, equal to what they would have been if cost-of-living allocations had not been suspended during the 2009-10 or 2010-11 school years.

(2) For the purposes of this section, "cost-of-living index" means, for any school year, the previous calendar year's annual average consumer price index, using the official current base, compiled by the bureau of labor statistics, United States department of labor for the state of Washington. If the bureau of labor statistics develops more than one consumer price index for areas within the state, the index covering the greatest number of people, covering areas exclusively within the boundaries of the state, and including all items shall be used for the cost-of-living index in this section. [2009 c 573 § 1; 2003 1st sp.s. c 20 § 1; 2001 c 4 § 2 (Initiative Measure No. 732, approved November 7, 2000).]

**Effective date—2009 c 573:** "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2009." [2009 c 573 § 4.]

**Severability—2001 c 4 (Initiative Measure No. 732):** "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2001 c 4 § 5 (Initiative Measure No. 732, approved November 7, 2000).]

### **28A.400.206 Cost-of-living increases—Duty of state.**

The Washington Constitution establishes "the paramount duty of the state to make ample provision for the education of all children." Providing quality education for all children in Washington requires well-qualified and experienced teachers and other school employees. However, salaries for educators have not kept up with the increased cost-of-living in the state. The failure to keep up with inflation threatens Washington's ability to compete with other states to attract first-rate teachers to Washington classrooms and to keep well-qualified educators from leaving for other professions. The state must provide a fair and reasonable cost-of-living increase, as provided in chapter 20, Laws of 2003 1st sp. sess., to help ensure that the state attracts and keeps the best teachers and school employees for the children of Washington. [2003 1st sp.s. c 20 § 2; 2001 c 4 § 1 (Initiative Measure No. 732, approved November 7, 2000).]

**Severability—2001 c 4 (Initiative Measure No. 732):** See note following RCW 28A.400.205.

### **28A.400.210 Employee attendance incentive program—Remuneration or benefit plan for unused sick leave.**

Every school district board of directors may, in accordance with chapters 41.56 and 41.59 RCW, establish an attendance incentive program for all certificated and classified employees in the following manner, including covering persons who were employed during the 1982-'83 school year:

(1) In January of the year following any year in which a minimum of sixty days of leave for illness or injury is accrued, and each January thereafter, any eligible employee may exercise an option to receive remuneration for unused leave for illness or injury accumulated in the previous year at a rate equal to one day's monetary compensation of the employee for each four full days of accrued leave for illness or injury in excess of sixty days. Leave for illness or injury for which compensation has been received shall be deducted from accrued leave for illness or injury at the rate of four days for every one day's monetary compensation. No employee may receive compensation under this section for any portion of leave for illness or injury accumulated at a rate in excess of one day per month.

(2) Except as provided in RCW 28A.400.212, at the time of separation from school district employment an eligible employee or the employee's estate shall receive remuneration at a rate equal to one day's current monetary compensation of the employee for each four full days accrued leave for illness or injury. For purposes of this subsection, "eligible employee" means (a) employees who separate from employment due to retirement or death; (b) employees who separate from employment and who are at least age fifty-five and have at least ten years of service under the teachers' retirement

system plan 3 as defined in \*RCW 41.32.010(40), or under the Washington school employees' retirement system plan 3 as defined in \*\*RCW 41.35.010(31); or (c) employees who separate from employment and who are at least age fifty-five and have at least fifteen years of service under the teachers' retirement system plan 2 as defined in \*RCW 41.32.010(39), under the Washington school employees' retirement system plan 2 as defined in \*\*RCW 41.35.010(30), or under the public employees' retirement system plan 2 as defined in \*\*\*RCW 41.40.010(34).

(3) In lieu of remuneration for unused leave for illness or injury as provided in subsections (1) and (2) of this section, a school district board of directors may, with equivalent funds, provide eligible employees a benefit plan that provides reimbursement for medical expenses. Any benefit plan adopted after July 28, 1991, shall require, as a condition of participation under the plan, that the employee sign an agreement with the district to hold the district harmless should the United States government find that the district or the employee is in debt to the United States as a result of the employee not paying income taxes due on the equivalent funds placed into the plan, or as a result of the district not withholding or deducting any tax, assessment, or other payment on such funds as required under federal law.

Moneys or benefits received under this section shall not be included for the purposes of computing a retirement allowance under any public retirement system in this state.

The superintendent of public instruction in its administration hereof, shall promulgate uniform rules and regulations to carry out the purposes of this section.

Should the legislature revoke any benefits granted under this section, no affected employee shall be entitled thereafter to receive such benefits as a matter of contractual right. A district exercising its discretion under this section to pay the remainder of the remuneration after the time of the employee's separation from school district employment shall establish a policy and procedure for paying the remaining remuneration that applies to all affected employees equally and without discrimination. Any remuneration paid shall be based on the number of days of leave the employee had accrued and the compensation the employee received at the time he or she retired under section 1 or 3, chapter 234, Laws of 1992, section 1 or 3, chapter 86, Laws of 1993, or section 4 or 6, chapter 519, Laws of 1993. new contract executed between the parties shall be consistent with this subsection;

(d) Compensation for leave for illness or injury actually taken shall be the same as the compensation such person would have received had such person not taken the leave provided in this proviso;

(e) Leave provided in this proviso not taken shall accumulate from year to year up to a maximum of one hundred eighty days for the purposes of RCW 28A.400.210 and 28A.400.220, and for leave purposes up to a maximum of the number of contract days agreed to in a given contract, but not greater than one year. Such accumulated time may be taken at any time during the school year or up to twelve days per year may be used for the purpose of payments for unused sick leave;

(f) Sick leave heretofore accumulated under section 1, chapter 195, Laws of 1959 (former RCW 28.58.430) and sick leave accumulated under administrative practice of school districts prior to the effective date of section 1, chapter 195, Laws of 1959 (former RCW 28.58.430) is hereby declared valid, and shall be added to leave for illness or injury accumulated under this proviso;

[2009 c 47 § 2; 2008 c 174 § 2; 1997 c 13 § 10; 1990 c 33 § 382. Prior: 1985 c 210 § 1; 1985 c 46 § 1; 1983 c 275 § 3. Formerly RCW 28A.58.099.]

**\*Reviser's note:** References to the "state school for the deaf" must be construed as references to the "Washington state center for childhood deafness and hearing loss," pursuant to 2009 c 381 § 11.

**Intent—Construction—1983 c 275:** See note following RCW 28A.400.210.

**28A.400.301 Information on past sexual misconduct—Requirement for applicants—Limitation on contracts and agreements—Employee right to review personnel file.** (1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Applicant" means an applicant for employment in a certificated or classified position who is currently or was previously employed by a school district.

(b) "Employer" means a school district employer.

(2) Before hiring an applicant, a school district shall request the applicant to sign a statement:

(a) Authorizing the applicant's current and past employers, including employers outside of Washington state, to disclose to the hiring school district sexual misconduct, if any, by the applicant and making available to the hiring school district copies of all documents in the previous employer's personnel, investigative, or other files relating to sexual misconduct by the applicant; and

(b) Releasing the applicant's current and past employers, and employees acting on behalf of that employer, from any liability for providing information described in (a) of this subsection, as provided in subsection (4) of this section.

(3) Before hiring an applicant, a school district shall request in writing, electronic or otherwise, the applicant's current and past employers, including out-of-state employers, to provide the information described in subsection (2)(a) of this section, if any. The request shall include a copy of the statement signed by the applicant under subsection (2) of this section.

(4) Not later than twenty business days after receiving a request under subsection (3) of this section, a school district shall provide the information requested and make available to the requesting school district copies of all documents in the applicant's personnel record relating to the sexual misconduct. The school district, or an employee acting on behalf of the school district, who in good faith discloses information under this section is immune from civil liability for the disclosure.

(5) A hiring district shall request from the office of the superintendent of public instruction verification of certification status, including information relating to sexual misconduct as established by the provisions of subsection (11) of this section, if any, for applicants for certificated employment.

(6) A school district shall not hire an applicant who does not sign the statement described in subsection (2) of this section.

(7) School districts may employ applicants on a conditional basis pending the district's review of information obtained under this section. When requests are sent to out-of-state employers under subsection (3) of this section, an applicant who has signed the statement described in subsection (2) of this section, shall not be prevented from gaining employment in Washington public schools if the laws or policies of that other state prevent documents from being made available to Washington state school districts or if the out-of-state school district fails or refuses to cooperate with the request.

(8) Information received under this section shall be used by a school district only for the purpose of evaluating an applicant's qualifications for employment in the position for which he or she has applied. Except as otherwise provided by law, a board member or employee of a school district shall not disclose the information to any person, other than the applicant, who is not directly involved in the process of evaluating the applicant's qualifications for employment. A person who violates this subsection is guilty of a misdemeanor.

(9) Beginning September 1, 2004, the board or an official of a school district shall not enter into a collective bargaining agreement, individual employment contract, resignation agreement, severance agreement, or any other contract or agreement that has the effect of suppressing information about verbal or physical abuse or sexual misconduct by a present or former employee or of expunging information about that abuse or sexual misconduct from any documents in the previous employer's personnel, investigative, or other files relating to verbal or physical abuse or sexual misconduct by the applicant. Any provision of a contract or agreement that is contrary to this subsection is void and unenforceable, and may not be withheld from disclosure by the entry of any administrative or court order. This subsection does not restrict the expungement from a personnel file of information about alleged verbal or physical abuse or sexual misconduct that has not been substantiated.

(10) This section does not prevent a school district from requesting or requiring an applicant to provide information other than that described in this section.

(11) By September 1, 2004, the state board of education has the authority to and shall adopt rules defining "verbal abuse," "physical abuse," and "sexual misconduct" as used in this section for application to all classified and certificated employees. The definitions of verbal and physical abuse and sexual misconduct adopted by the state board of education must include the requirement that the school district has made a determination that there is sufficient information to conclude that the abuse or misconduct occurred and that the abuse or misconduct resulted in the employee's leaving his or her position at the school district.

(12) Except as limited by chapter 49.12 RCW, at the conclusion of a school district's investigation, a school employee has the right to review his or her entire personnel file, investigative file, or other file maintained by the school district relating to sexual misconduct as addressed in this section and to attach rebuttals to any documents as the employee deems necessary. Rebuttal documents shall be disclosed in the same manner as the documents to which they are attached. The provisions of this subsection do not supercede the protections provided individuals under the state whistleblower laws in chapter 42.41 RCW. [2005 c 266 § 1; 2004 c 29 § 2.]

**Findings—2004 c 29:** "The legislature recognizes that state law requires criminal background checks of applicants for school district employment. However, the legislature finds that, because they generally are limited to criminal conviction histories, results of background checks are more complete when supplemented by an applicant's history of past sexual misconduct. Therefore, the legislature finds that additional safeguards are necessary in the hiring of school district employees to ensure the safety of Washington's school children. In order to provide the safest educational environment for children, school districts must provide known information regarding employees' sexual misconduct when those employees attempt to transfer to different school districts." [2004 c 29 § 1.]

**28A.400.303 Record checks for employees.** (1) School districts, educational service districts, the Washington state center for childhood deafness and hearing loss, the state school for the blind, and their contractors hiring employees who will have regularly scheduled unsupervised access to children shall require a record check through the Washington state patrol criminal identification system under RCW 43.43.830 through 43.43.834, 10.97.030, and 10.97.050 and through the federal bureau of investigation before hiring an employee. The record check shall include a fingerprint check using a complete Washington state criminal identification fingerprint card. The requesting entity shall provide a copy of the record report to the applicant. When necessary, applicants may be employed on a conditional basis pending completion of the investigation. ## CRITERIA FOR EVALUATION AND MODEL PROGRAMS

**28A.405.100 Minimum criteria for the evaluation of certificated employees, including administrators—Procedure—Scope—Models—Penalty.** (1)(a) Except as provided in subsection (2) of this section, the superintendent of public instruction shall establish and may amend from time to time minimum criteria for the evaluation of the professional performance capabilities and development of certificated classroom teachers and certificated support personnel. For classroom teachers the criteria shall be developed in the following categories: Instructional skill; classroom management, professional preparation and scholarship; effort toward improvement when needed; the handling of student discipline and attendant problems; and interest in teaching pupils and knowledge of subject matter.

(b) Every board of directors shall, in accordance with procedure provided in RCW 41.59.010 through 41.59.170, 41.59.910 and 41.59.920, establish evaluative criteria and procedures for all certificated classroom teachers and certificated support personnel. The evaluative criteria must contain as a minimum the criteria established by the superintendent of public instruction pursuant to this section and must be prepared within six months following adoption of the superintendent of public instruction's minimum criteria. The district must certify to the superintendent of public instruction that evaluative criteria have been so prepared by the district.

(2)(a) Pursuant to the implementation schedule established in subsection (7)(b) of this section, every board of directors shall, in accordance with procedures provided in

RCW 41.59.010 through 41.59.170, 41.59.910, and 41.59.920, establish revised evaluative criteria and a four-level rating system for all certificated classroom teachers.

(b) The minimum criteria shall include: (i) Centering instruction on high expectations for student achievement; (ii) demonstrating effective teaching practices; (iii) recognizing individual student learning needs and developing strategies to address those needs; (iv) providing clear and intentional focus on subject matter content and curriculum; (v) fostering and managing a safe, positive learning environment; (vi) using multiple student data elements to modify instruction and improve student learning; (vii) communicating and collaborating with parents and [the] school community; and (viii) exhibiting collaborative and collegial practices focused on improving instructional practice and student learning.

(c) The four-level rating system used to evaluate the certificated classroom teacher must describe performance along a continuum that indicates the extent to which the criteria have been met or exceeded. When student growth data, if available and relevant to the teacher and subject matter, is referenced in the evaluation process it must be based on multiple measures that can include classroom-based, school-based, district-based, and state-based tools. As used in this subsection, "student growth" means the change in student achievement between two points in time.

(3)(a) Except as provided in subsection (10) of this section, it shall be the responsibility of a principal or his or her designee to evaluate all certificated personnel in his or her school. During each school year all classroom teachers and certificated support personnel shall be observed for the purposes of evaluation at least twice in the performance of their assigned duties. Total observation time for each employee for each school year shall be not less than sixty minutes. An employee in the third year of provisional status as defined in RCW 28A.405.220 shall be observed at least three times in the performance of his or her duties and the total observation time for the school year shall not be less than ninety minutes. Following each observation, or series of observations, the principal or other evaluator shall promptly document the results of the observation in writing, and shall provide the employee with a copy thereof within three days after such report is prepared. New employees shall be observed at least once for a total observation time of thirty minutes during the first ninety calendar days of their employment period.

(b) As used in this subsection and subsection (4) of this section, "employees" means classroom teachers and certificated support personnel.

(4)(a) At any time after October 15th, an employee whose work is not judged satisfactory based on district evaluation criteria shall be notified in writing of the specific areas of deficiencies along with a reasonable program for improvement. During the period of probation, the employee may not be transferred from the supervision of the original evaluator. Improvement of performance or probable cause for nonrenewal must occur and be documented by the original evaluator before any consideration of a request for transfer or reassignment as contemplated by either the individual or the school district. A probationary period of sixty school days shall be established. The establishment of a probationary period does not adversely affect the contract status of an employee within the meaning of RCW 28A.405.300. The

purpose of the probationary period is to give the employee opportunity to demonstrate improvements in his or her areas of deficiency. The establishment of the probationary period and the giving of the notice to the employee of deficiency shall be by the school district superintendent and need not be submitted to the board of directors for approval. During the probationary period the evaluator shall meet with the employee at least twice monthly to supervise and make a written evaluation of the progress, if any, made by the employee. The evaluator may authorize one additional certificated employee to evaluate the probationer and to aid the employee in improving his or her areas of deficiency; such additional certificated employee shall be immune from any civil liability that might otherwise be incurred or imposed with regard to the good faith performance of such evaluation. The probationer may be removed from probation if he or she has demonstrated improvement to the satisfaction of the principal in those areas specifically detailed in his or her initial notice of deficiency and subsequently detailed in his or her improvement program. Lack of necessary improvement during the established probationary period, as specifically documented in writing with notification to the probationer and shall constitute grounds for a finding of probable cause under RCW 28A.405.300 or 28A.405.210.

(b) Immediately following the completion of a probationary period that does not produce performance changes detailed in the initial notice of deficiencies and improvement program, the employee may be removed from his or her assignment and placed into an alternative assignment for the remainder of the school year. This reassignment may not displace another employee nor may it adversely affect the probationary employee's compensation or benefits for the remainder of the employee's contract year. If such reassignment is not possible, the district may, at its option, place the employee on paid leave for the balance of the contract term.

(5) Every board of directors shall establish evaluative criteria and procedures for all superintendents, principals, and other administrators. It shall be the responsibility of the district superintendent or his or her designee to evaluate all administrators. Except as provided in subsection (6) of this section, such evaluation shall be based on the administrative position job description. Such criteria, when applicable, shall include at least the following categories: Knowledge of, experience in, and training in recognizing good professional performance, capabilities and development; school administration and management; school finance; professional preparation and scholarship; effort toward improvement when needed; interest in pupils, employees, patrons and subjects taught in school; leadership; and ability and performance of evaluation of school personnel.

(6)(a) Pursuant to the implementation schedule established by subsection (7)(b) of this section, every board of directors shall establish revised evaluative criteria and a four-level rating system for principals.

(b) The minimum criteria shall include: (i) Creating a school culture that promotes the ongoing improvement of learning and teaching for students and staff; (ii) demonstrating commitment to closing the achievement gap; (iii) providing for school safety; (iv) leading the development, implementation, and evaluation of a data-driven plan for increasing student achievement, including the use of multiple student

data elements; (v) assisting instructional staff with alignment of curriculum, instruction, and assessment with state and local district learning goals; (vi) monitoring, assisting, and evaluating effective instruction and assessment practices; (vii) managing both staff and fiscal resources to support student achievement and legal responsibilities; and (viii) partnering with the school community to promote student learning.

(c) The four-level rating system used to evaluate the principal must describe performance along a continuum that indicates the extent to which the criteria have been met or exceeded. When available, student growth data that is referenced in the evaluation process must be based on multiple measures that can include classroom-based, school-based, district-based, and state-based tools. As used in this subsection, "student growth" means the change in student achievement between two points in time.

(7)(a) The superintendent of public instruction, in collaboration with state associations representing teachers, principals, administrators, and parents, shall create models for implementing the evaluation system criteria, student growth tools, professional development programs, and evaluator training for certificated classroom teachers and principals. Human resources specialists, professional development experts, and assessment experts must also be consulted. Due to the diversity of teaching assignments and the many developmental levels of students, classroom teachers and principals must be prominently represented in this work. The models must be available for use in the 2011-12 school year.

(b) A new certificated classroom teacher evaluation system that implements the provisions of subsection (2) of this section and a new principal evaluation system that implements the provisions of subsection (6) of this section shall be phased-in beginning with the 2010-11 school year by districts identified in (c) of this subsection and implemented in all school districts beginning with the 2013-14 school year.

(c) A set of school districts shall be selected by the superintendent of public instruction to participate in a collaborative process resulting in the development and piloting of new certificated classroom teacher and principal evaluation systems during the 2010-11 and 2011-12 school years. These school districts must be selected based on: (i) The agreement of the local associations representing classroom teachers and principals to collaborate with the district in this developmental work and (ii) the agreement to participate in the full range of development and implementation activities, including: Development of rubrics for the evaluation criteria and ratings in subsections (2) and (6) of this section; identification of or development of appropriate multiple measures of student growth in subsections (2) and (6) of this section; development of appropriate evaluation system forms; participation in professional development for principals and classroom teachers regarding the content of the new evaluation system; participation in evaluator training; and participation in activities to evaluate the effectiveness of the new systems and support programs. The school districts must submit to the office of the superintendent of public instruction data that is used in evaluations and all district-collected student achievement, aptitude, and growth data regardless of whether the data is used in evaluations. If the data is not available electronically, the district may submit it in nonelectronic form. The super-

intendent of public instruction must analyze the districts' use of student data in evaluations, including examining the extent that student data is not used or is underutilized. The superintendent of public instruction must also consult with participating districts and stakeholders, recommend appropriate changes, and address statewide implementation issues. The superintendent of public instruction shall report evaluation system implementation status, evaluation data, and recommendations to appropriate committees of the legislature and governor by July 1, 2011, and at the conclusion of the development phase by July 1, 2012. In the July 1, 2011 report, the superintendent shall include recommendations for whether a single statewide evaluation model should be adopted, whether modified versions developed by school districts should be subject to state approval, and what the criteria would be for determining if a school district's evaluation model meets or exceeds a statewide model. The report shall also identify challenges posed by requiring a state approval process.

(8) Each certificated classroom teacher and certificated support personnel shall have the opportunity for confidential conferences with his or her immediate supervisor on no less than two occasions in each school year. Such confidential conference shall have as its sole purpose the aiding of the administrator in his or her assessment of the employee's professional performance.

(9) The failure of any evaluator to evaluate or supervise or cause the evaluation or supervision of certificated classroom teachers and certificated support personnel or administrators in accordance with this section, as now or hereafter amended, when it is his or her specific assigned or delegated responsibility to do so, shall be sufficient cause for the nonrenewal of any such evaluator's contract under RCW 28A.405.210, or the discharge of such evaluator under RCW 28A.405.300.

(10) After a certificated classroom teacher or certificated support personnel has four years of satisfactory evaluations under subsection (1) of this section or has received one of the two top ratings for four years under subsection (2) of this section, a school district may use a short form of evaluation, a locally bargained evaluation emphasizing professional growth, an evaluation under subsection (1) or (2) of this section, or any combination thereof. The short form of evaluation shall include either a thirty minute observation during the school year with a written summary or a final annual written evaluation based on the criteria in subsection (1) or (2) of this section and based on at least two observation periods during the school year totaling at least sixty minutes without a written summary of such observations being prepared. A locally bargained short-form evaluation emphasizing professional growth must provide that the professional growth activity conducted by the certificated classroom teacher be specifically linked to one or more of the certificated classroom teacher evaluation criteria. However, the evaluation process set forth in subsection (1) or (2) of this section shall be followed at least once every three years unless this time is extended by a local school district under the bargaining process set forth in chapter 41.59 RCW. The employee or evaluator may require that the evaluation process set forth in subsection (1) or (2) of this section be conducted in any given school year. No evaluation other than the evaluation autho-

rized under subsection (1) or (2) of this section may be used as a basis for determining that an employee's work is not satisfactory under subsection (1) or (2) of this section or as probable cause for the nonrenewal of an employee's contract under RCW 28A.405.210 unless an evaluation process developed under chapter 41.59 RCW determines otherwise. (2) The analysis shall be conducted during each of the phase-in years of the certificated classroom teacher and principal evaluation systems. **28A.405.110 Evaluations—Legislative findings.** The legislature recognizes the importance of teachers in the educational system. Teachers are the fundamental element in assuring a quality education for the state's and the nation's children. Teachers, through their direct contact with children, have a great impact on the development of the child. The legislature finds that this important role of the teacher requires an assurance that teachers are as successful as possible in attaining the goal of a well-educated society. The legislature finds, therefore, that the evaluation of those persons seeking to enter the teaching profession is no less important than the evaluation of those persons currently teaching. The evaluation of persons seeking teaching credentials should be strenuous while making accommodations uniquely appropriate to the applicants. Strenuous teacher training and preparation should be complemented by examinations of prospective

(2010 Ed.)

teachers prior to candidates being granted official certification by the professional educator standards board. Teacher preparation program entrance evaluations, teacher training, teacher preparation program exit examinations, official certification, in-service training, and ongoing evaluations of individual progress and professional growth are all part of developing and maintaining a strong precertification and postcertification professional education system.

The legislature further finds that an evaluation system for teachers has the following elements, goals, and objectives: (1) An evaluation system must be meaningful, helpful, and objective; (2) an evaluation system must encourage improvements in teaching skills, techniques, and abilities by identifying areas needing improvement; (3) an evaluation system must provide a mechanism to make meaningful distinctions among teachers and to acknowledge, recognize, and encourage superior teaching performance; and (4) an evaluation system must encourage respect in the evaluation process by the persons conducting the evaluations and the persons subject to the evaluations through recognizing the importance of objective standards and minimizing subjectivity. **28A.405.200 Annual salary schedules as basis for salaries of certificated employees.** Every school district by

action of its board of directors shall adopt annual salary schedules and reproduce the same by printing, mimeographing or other reasonable method, which shall be the basis for salaries for all certificated employees in the district. [1969 ex.s. c 283 § 1. Formerly RCW 28A.67.066, 28.67.066.]

**28A.405.210 Conditions and contracts of employment—Determination of probable cause for nonrenewal of contracts—Nonrenewal due to enrollment decline or revenue loss—Notice—Opportunity for hearing.** No teacher, principal, supervisor, superintendent, or other certificated employee, holding a position as such with a school district, hereinafter referred to as "employee", shall be employed except by written order of a majority of the directors of the district at a regular or special meeting thereof, nor unless he or she is the holder of an effective teacher's certificate or other certificate required by law or the Washington professional educator standards board for the position for which the employee is employed.

The board shall make with each employee employed by it a written contract, which shall be in conformity with the laws of this state, and except as otherwise provided by law, limited to a term of not more than one year. Every such contract shall be made in duplicate, one copy to be retained by the school district superintendent or secretary and one copy to be delivered to the employee. No contract shall be offered by any board for the employment of any employee who has previously signed an employment contract for that same term in another school district of the state of Washington unless such employee shall have been released from his or her obligations under such previous contract by the board of directors of the school district to which he or she was obligated. Any contract signed in violation of this provision shall be void.

In the event it is determined that there is probable cause or causes that the employment contract of an employee should not be renewed by the district for the next ensuing term such employee shall be notified in writing on or before May 15th preceding the commencement of such term of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th, which notification shall specify the cause or causes for nonrenewal of contract. Such determination of probable cause for certificated employees, other than the superintendent, shall be made by the superintendent. Such notice shall be served upon the employee personally, or by certified or registered mail, or by leaving a copy of the notice at the house of his or her usual abode with some person of suitable age and discretion then resident therein. Every such employee so notified, at his or her request made in writing and filed with the president, chair or secretary of the board of directors of the district within ten days after receiving such notice, shall be granted opportunity for hearing pursuant to RCW 28A.405.310 to determine whether there is sufficient cause or causes for nonrenewal of contract: PROVIDED, That any employee receiving notice of nonrenewal of contract due to an enrollment decline or loss of revenue may, in his or her request for a hearing, stipulate that initiation of the arrangements for a hearing officer as provided for by RCW 28A.405.310(4) shall occur within ten days follow-

ing July 15 rather than the day that the employee submits the request for a hearing. If any such notification or opportunity for hearing is not timely given, the employee entitled thereto shall be conclusively presumed to have been reemployed by the district for the next ensuing term upon contractual terms identical with those which would have prevailed if his or her employment had actually been renewed by the board of directors for such ensuing term.

This section shall not be applicable to "provisional employees" as so designated in RCW 28A.405.220; transfer to a subordinate certificated position as that procedure is set forth in RCW 28A.405.230 or 28A.405.245 shall not be construed as a nonrenewal of contract for the purposes of this section. **28A.405.220 Conditions and contracts of employment—Nonrenewal of provisional employees—Notice—Procedure.** (1) Notwithstanding the provisions of RCW 28A.405.210, every person employed by a school district in a teaching or other nonsupervisory certificated position shall be subject to nonrenewal of employment contract as provided in this section during the first three years of employment by such district, unless: (a) The employee has previously completed at least two years of certificated employment in another school district in the state of Washington, in which case the employee shall be subject to nonrenewal of employment contract pursuant to this section during the first year of employment with the new district; or (b) the school district superintendent may make a determination to remove an employee from provisional status if the employee has received one of the top two evaluation ratings during the second year of employment by the district. Employees as defined in this section shall hereinafter be referred to as "provisional employees."

(2) In the event the superintendent of the school district determines that the employment contract of any provisional

employee should not be renewed by the district for the next ensuing term such provisional employee shall be notified thereof in writing on or before May 15th preceding the commencement of such school term, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th, which notification shall state the reason or reasons for such determination. Such notice shall be served upon the provisional employee personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein. The determination of the superintendent shall be subject to the evaluation requirements of RCW 28A.405.100.

(3) Every such provisional employee so notified, at his or her request made in writing and filed with the superintendent of the district within ten days after receiving such notice, shall be given the opportunity to meet informally with the superintendent for the purpose of requesting the superintendent to reconsider his or her decision. Such meeting shall be held no later than ten days following the receipt of such request, and the provisional employee shall be given written notice of the date, time and place of meeting at least three days prior thereto. At such meeting the provisional employee shall be given the opportunity to refute any facts upon which the superintendent's determination was based and to make any argument in support of his or her request for reconsideration.

(4) Within ten days following the meeting with the provisional employee, the superintendent shall either reinstate the provisional employee or shall submit to the school district board of directors for consideration at its next regular meeting a written report recommending that the employment contract of the provisional employee be nonrenewed and stating the reason or reasons therefor. A copy of such report shall be delivered to the provisional employee at least three days prior to the scheduled meeting of the board of directors. In taking action upon the recommendation of the superintendent, the board of directors shall consider any written communication which the provisional employee may file with the secretary of the board at any time prior to that meeting.

(5) The board of directors shall notify the provisional employee in writing of its final decision within ten days following the meeting at which the superintendent's recommendation was considered. The decision of the board of directors to nonrenew the contract of a provisional employee shall be final and not subject to appeal.

(6) This section applies to any person employed by a school district in a teaching or other nonsupervisory certificated position after June 25, 1976. This section provides the exclusive means for nonrenewing the employment contract of a provisional employee and no other provision of law shall be applicable thereto, including, without limitation, RCW 28A.405.210 and chapter 28A.645 RCW. **28A.405.230 Conditions and contracts of employment—Transfer of administrator to subordinate certificated position—Notice—Procedure.** Any certificated employee of a school district employed as an assistant superintendent, director, principal, assistant principal, coordinator, or in any other supervisory or administrative position, hereinafter in this section referred to as "administrator", shall be subject to transfer, at the expiration of the term of his or her employment contract, to any subordinate certificated position within the school district. "Subordinate certificated position" as used in this section, shall mean any administrative or non-administrative certificated position for which the annual compensation is less than the position currently held by the administrator.

Every superintendent determining that the best interests of the school district would be served by transferring any administrator to a subordinate certificated position shall notify that administrator in writing on or before May 15th preceding the commencement of such school term of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th, which notification shall state the reason or reasons for the transfer, and shall identify the subordinate certificated position to which the administrator will be transferred. Such notice shall be served upon the administrator personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein.

Every such administrator so notified, at his or her request made in writing and filed with the president or chair, or secretary of the board of directors of the district within ten days after receiving such notice, shall be given the opportunity to meet informally with the board of directors in an executive session thereof for the purpose of requesting the board to reconsider the decision of the superintendent. Such board, upon receipt of such request, shall schedule the meeting for no later than the next regularly scheduled meeting of the board, and shall notify the administrator in writing of the date, time and place of the meeting at least three days prior thereto. At such meeting the administrator shall be given the opportunity to refute any facts upon which the determination was based and to make any argument in support of his or her request for reconsideration. The administrator and the board may invite their respective legal counsel to be present and to participate at the meeting. The board shall notify the administrator in writing of its final decision within ten days following its meeting with the administrator. No appeal to the courts shall lie from the final decision of the board of directors to transfer an administrator to a subordinate certificated position: PROVIDED, That in the case of principals such transfer shall be made at the expiration of the contract year and only during the first three consecutive school years of employment as a principal by a school district; except that if any such principal has been previously employed as a principal by another school district in the state of Washington for three or more consecutive school years the provisions of this section shall apply only to the first full school year of such employment.

This section applies to any person employed as an administrator by a school district on June 25, 1976, and to all

persons so employed at any time thereafter, except that RCW 28A.405.245 applies to persons first employed after June 10, 2010, as a principal by a school district meeting the criteria of RCW 28A.405.245. This section provides the exclusive means for transferring an administrator subject to this section to a subordinate certificated position at the expiration of the term of his or her employment contract. No supplemental contract shall be subject to the continuing contract provisions of this title. [1990 c 33 § 393; 1985 c 341 § 15; 1969 ex.s. c 283 § 2. Formerly RCW 28A.67.074, 28.67.074.]

**28A.405.245 Transfer of principal to subordinate certificated position—Notice—Procedure.** (1) Any certificated employee of a school district under this section who is first employed as a principal after June 10, 2010, shall be subject to transfer as provided under this section, at the expiration of the term of his or her employment contract, to any subordinate certificated position within the school district. "Subordinate certificated position" as used in this section means any administrative or nonadministrative certificated position for which the annual compensation is less than the position currently held by the administrator. This section applies only to school districts with an annual average student enrollment of more than thirty-five thousand full-time equivalent students.

(2) During the first three consecutive school years of employment as a principal by the school district, or during the first full school year of such employment in the case of a principal who has been previously employed as a principal by another school district in the state for three or more consecutive school years, the transfer of the principal to a subordinate certificated position may be made by a determination of the superintendent that the best interests of the school district would be served by the transfer.

(3) Commencing with the fourth consecutive school year of employment as a principal, or the second consecutive school year of such employment in the case of a principal who has been previously employed as a principal by another school district in the state for three or more consecutive school years, the transfer of the principal to a subordinate certificated position shall be based on the superintendent's

determination that the results of the evaluation of the principal's performance using the evaluative criteria and rating system established under RCW 28A.405.100 provide a valid reason for the transfer without regard to whether there is probable cause for the transfer. If a valid reason is shown, it shall be deemed that the transfer is reasonably related to the principal's performance. No probationary period is required. However, provision of support and an attempt at remediation of the performance of the principal, as defined by the superintendent, are required for a determination by the superintendent under this subsection that the principal should be transferred to a subordinate certificated position.

(4) Any superintendent transferring a principal under this section to a subordinate certificated position shall notify that principal in writing on or before May 15th before the beginning of the school year of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th. The notification shall state the reason or reasons for the transfer and shall identify the subordinate certificated position to which the principal will be transferred. The notification shall be served upon the principal personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein.

(5) Any principal so notified may request to the president or chair of the board of directors of the district, in writing and within ten days after receiving notice, an opportunity to meet informally with the board of directors in an executive session for the purpose of requesting the board to reconsider the decision of the superintendent, and shall be given such opportunity. The board, upon receipt of such request, shall schedule the meeting for no later than the next regularly scheduled meeting of the board, and shall give the principal written notice at least three days before the meeting of the date, time, and place of the meeting. At the meeting the principal shall be given the opportunity to refute any evidence upon which the determination was based and to make any argument in support of his or her request for reconsideration. The principal and the board may invite their respective legal counsel to be present and to participate at the meeting. The board shall notify the principal in writing of its final decision within ten days following its meeting with the principal. No appeal to the courts shall lie from the final decision of the board of directors to transfer a principal to a subordinate certificated position.

(6) This section provides the exclusive means for transferring a certificated employee first employed by a school district under this section as a principal after June 10, 2010, to a subordinate certificated position at the expiration of the term of his or her employment contract. [2010 c 235 § 302.]

**Finding—2010 c 235:** "The legislature finds that the presence of highly effective principals in schools has never been more important than it is today. To enable students to meet high academic standards, principals must lead and encourage teams of teachers and support staff to work together, align curriculum and instruction, use student data to target instruction and intervention strategies, and serve as the chief school officer with parents and the community. Greater responsibility should come with greater authority over personnel, budgets, resource allocation, and programs. But greater responsibility also comes with greater accountability for outcomes. Washington is putting into place an updated and rigorous system of evaluating principal performance, one that will measure what matters. This system will never be truly effective unless the results are meaningfully used." [2010 c 235 § 301.]

**28A.405.250 Certificated employees, applicants for certificated position, not to be discriminated against—Right to inspect personnel file.** The board of directors of any school district, its employees or agents shall not discriminate in any way against any applicant for a certificated position or any certificated employee

- (1) On account of his or her membership in any lawful organization, or
- (2) For the orderly exercise during off-school hours of any rights guaranteed under the law to citizens generally, or
- (3) For family relationship, except where covered by chapter 42.23 RCW.

The school district personnel file on any certificated employee in the possession of the district, its employees, or agents shall not be withheld at any time from the inspection of that employee. [1990 c 33 § 394; 1969 ex.s. c 34 § 21. Formerly RCW 28A.58.445.]

HIRING AND DISCHARGE

**28A.405.300 Adverse change in contract status of certificated employee—Determination of probable cause—Notice—Opportunity for hearing.** In the event it is determined that there is probable cause or causes for a teacher, principal, supervisor, superintendent, or other certificated employee, holding a position as such with the school district, hereinafter referred to as "employee", to be discharged or otherwise adversely affected in his or her contract status, such employee shall be notified in writing of that decision, which notification shall specify the probable cause or causes for such action. Such determinations of probable cause for certificated employees, other than the superintendent, shall be made by the superintendent. Such notices shall be served upon that employee personally, or by certified or registered mail, or by leaving a copy of the notice at the house of his or her usual abode with some person of suitable age and discretion then resident therein. Every such employee so notified, at his or her request made in writing and filed with the president, chair of the board or secretary of the board of directors of the district within ten days after receiving such notice, shall be granted opportunity for a hearing pursuant to RCW 28A.405.310 to determine whether or not there is sufficient cause or causes for his or her discharge or other adverse action against his or her contract status.

In the event any such notice or opportunity for hearing is not timely given, or in the event cause for discharge or other adverse action is not established by a preponderance of the evidence at the hearing, such employee shall not be discharged or otherwise adversely affected in his or her contract status for the causes stated in the original notice for the duration of his or her contract.

If such employee does not request a hearing as provided herein, such employee may be discharged or otherwise

(2010 Ed.)

adversely affected as provided in the notice served upon the employee.

Transfer to a subordinate certificated position as that procedure is set forth in RCW 28A.405.230 or 28A.405.245 shall not be construed as a discharge or other adverse action against contract status for the purposes of this section. **28A.405.310 Adverse change in contract status of certificated employee, including nonrenewal of contract—Hearings—Procedure.** (1) Any employee receiving a notice of probable cause for discharge or adverse effect in contract status pursuant to RCW 28A.405.300, or any employee, with the exception of provisional employees as defined in RCW 28A.405.220, receiving a notice of probable cause for nonrenewal of contract pursuant to RCW 28A.405.210, shall be granted the opportunity for a hearing pursuant to this section.

(2) In any request for a hearing pursuant to RCW 28A.405.300 or 28A.405.210, the employee may request either an open or closed hearing. The hearing shall be open or closed as requested by the employee, but if the employee fails to make such a request, the hearing officer may determine whether the hearing shall be open or closed.

(3) The employee may engage counsel who shall be entitled to represent the employee at the prehearing conference held pursuant to subsection (5) of this section and at all subsequent proceedings pursuant to this section. At the hearing provided for by this section, the employee may produce such witnesses as he or she may desire.

(4) In the event that an employee requests a hearing pursuant to RCW 28A.405.300 or 28A.405.210, a hearing officer shall be appointed in the following manner: Within fifteen days following the receipt of any such request the board of directors of the district or its designee and the employee or employee's designee shall each appoint one nominee. The two nominees shall jointly appoint a hearing officer who shall be a member in good standing of the Washington state bar association or a person adhering to the arbitration standards established by the public employment relations commission and listed on its current roster of arbitrators. Should said nominees fail to agree as to who should be appointed as the hearing officer, either the board of directors or the employee, upon appropriate notice to the other party, may apply to the presiding judge of the superior court for the county in which the district is located for the appointment of such hearing officer, whereupon such presiding judge shall have the duty to appoint a hearing officer who shall, in the judgment of such presiding judge, be qualified to fairly and impartially discharge his or her duties. Nothing herein shall

preclude the board of directors and the employee from stipulating as to the identity of the hearing officer in which event the foregoing procedures for the selection of the hearing officer shall be inapplicable. The district shall pay all fees and expenses of any hearing officer selected pursuant to this subsection.

(5) Within five days following the selection of a hearing officer pursuant to subsection (4) of this section, the hearing officer shall schedule a prehearing conference to be held within such five day period, unless the board of directors and employee agree on another date convenient with the hearing officer. The employee shall be given written notice of the date, time, and place of such prehearing conference at least three days prior to the date established for such conference.

(6) The hearing officer shall preside at any prehearing conference scheduled pursuant to subsection (5) of this section and in connection therewith shall:

(a) Issue such subpoenas or subpoenas duces tecum as either party may request at that time or thereafter; and

(b) Authorize the taking of prehearing depositions at the request of either party at that time or thereafter; and

(c) Provide for such additional methods of discovery as may be authorized by the civil rules applicable in the superior courts of the state of Washington; and

(d) Establish the date for the commencement of the hearing, to be within ten days following the date of the prehearing conference, unless the employee requests a continuance, in which event the hearing officer shall give due consideration to such request.

(7) The hearing officer shall preside at any hearing and in connection therewith shall:

(a) Make rulings as to the admissibility of evidence pursuant to the rules of evidence applicable in the superior court of the state of Washington.

(b) Make other appropriate rulings of law and procedure.

(c) Within ten days following the conclusion of the hearing transmit in writing to the board and to the employee, findings of fact and conclusions of law and final decision. If the final decision is in favor of the employee, the employee shall be restored to his or her employment position and shall be awarded reasonable attorneys' fees.

(8) Any final decision by the hearing officer to nonrenew the employment contract of the employee, or to discharge the employee, or to take other action adverse to the employee's contract status, as the case may be, shall be based solely upon the cause or causes specified in the notice of probable cause to the employee and shall be established by a preponderance of the evidence at the hearing to be sufficient cause or causes for such action.

(9) All subpoenas and prehearing discovery orders shall be enforceable by and subject to the contempt and other equity powers of the superior court of the county in which the school district is located upon petition of any aggrieved party.

(10) A complete record shall be made of the hearing and all orders and rulings of the hearing officer and school board. [1990 c 33 § 396; 1987 c 375 § 1; 1977 ex.s. c 7 § 1; 1975-'76 2nd ex.s. c 114 § 5. Formerly RCW 28A.58.455.]

The court shall hear oral argument and receive written briefs offered by the parties.

**28A.410.010 Certification—Duty of professional educator standards board—Rules—Record check—Lapsed certificates—Superintendent of public instruction as administrator.** The Washington professional educator standards board shall establish, publish, and enforce rules determining eligibility for and certification of personnel employed in the common schools of this state, including certification for emergency or temporary, substitute or provisional duty and under such certificates or permits as the board shall deem proper or as otherwise prescribed by law. The

(2010 Ed.)

rules shall require that the initial application for certification shall require a record check of the applicant through the Washington state patrol criminal identification system and through the federal bureau of investigation at the applicant’s expense. The record check shall include a fingerprint check using a complete Washington state criminal identification fingerprint card. The superintendent of public instruction may waive the record check for any applicant who has had a record check within the two years before application. The rules shall permit a holder of a lapsed certificate but not a revoked or suspended certificate to be employed on a conditional basis by a school district with the requirement that the holder must complete any certificate renewal requirements established by the state board of education within two years of initial reemployment.

In establishing rules pertaining to the qualifications of instructors of American sign language the board shall consult with the national association of the deaf, "sign instructors guidance network" (s.i.g.n.), and the Washington state association of the deaf for evaluation and certification of sign language instructors.

The superintendent of public instruction shall act as the administrator of any such rules and have the power to issue any certificates or permits and revoke the same in accordance with board rules. The content of the course shall discuss the identification of physical, emotional, sexual, and substance abuse, information on the impact of abuse on the behavior and learning abilities of students, discussion of the responsibilities of a teacher to report

abuse or provide assistance to students who are the victims of abuse, and methods for teaching students about abuse of all types and their prevention. [1990 c 90 § 1. Formerly RCW 28A.405.025.]

**28A.410.040 Initial-level certificates.** The Washington professional educator standards board shall adopt rules providing that, except as provided in this section, all individuals qualifying for an initial-level teaching certificate after August 31, 1992, shall possess a baccalaureate degree in the arts, sciences, and/or humanities and have fulfilled the requirements for teacher certification pursuant to RCW 28A.410.210. **Intent—Part headings not law—Effective date—2005 c 497:** See notes following RCW 28A.305.011.

**Findings—1992 c 141:** "The legislature finds that the educational needs of students when they leave the public school system has [have] increased dramatically in the past two decades. If young people are to prosper in our democracy and if our nation is to grow economically, it is imperative that the overall level of learning achieved by students be significantly increased.

To achieve this higher level of learning, the legislature finds that the state of Washington needs to develop a performance-based school system. Instead of maintaining burdensome state accountability laws and rules that dictate educational offerings, the state needs to hold schools accountable for their performance based on what their students learn.

The legislature further finds moving toward a performance-based accountability system will require repealing state laws and rules that inhibit the freedom of school boards and professional educators to carry out their work, and also will require that significantly more decisions be made at the school district and school building levels. In addition, it will be necessary to set high expectations for students, to identify what is expected of all students, and to develop a rigorous academic assessment system to determine if these expectations have been achieved.

The legislature further finds that the governor's council on education reform and funding will, by December 1992, identify broad student learning goals. Subject to decisions made by the 1993 legislature, the legislature finds that it is critical that an organization be established to continue the council's work in identifying necessary student skills and knowledge, to develop student assessment and school accountability systems, and to take other steps necessary to develop a performance-based education system.

The legislature further finds that there is a need for high quality professional development as the state implements a performance-based system. Professional development must be available to schools and school districts to maintain quality control and to assure access to proven research on effective teaching." [1992 c 141 § 1.]

**Intent—1987 c 525 §§ 201-233:** "The legislature intends to enhance the education of the state's youth by improving the quality of teaching. The legislature intends to establish a framework for teacher and principal preparation programs and to recognize teaching as a profession.

The legislature finds that the quality of teacher preparation programs is enhanced when a planned, sequenced approach is used that provides for the application of practice to academic course work.

The legislature supports better integration of the elements of teacher preparation programs including knowledge of subject matter, teaching methods, and actual teaching experiences.

The legislature finds that establishing: (1) A teaching internship program; (2) a post-baccalaureate program resulting in a master's degree; (3) stronger requirements for earning principal credentials; and (4) a review of the preparation standards for school principals and educational staff associates are appropriate next steps in enhancing the quality of educational personnel in Washington." [1987 c 525 § 201.]

**28A.410.043 School counselor certification.** A school counselor is a professional educator who holds a valid school counselor certification as defined by the professional educator standards board. The purpose and role of the school counselor is to plan, organize, and deliver a comprehensive school guidance and counseling program that personalizes education and supports, promotes, and enhances the academic, personal, social, and career development of all students, based on the national standards for school counseling programs of the American school counselor association. [2007 c 175 § 2.]

**Findings—Intent—2007 c 175:** "The legislature finds that the professional school counselor is a certificated educator with unique qualifications and skills to address all students' academic, personal, social, and career development needs. School counselors serve a vital role in maximizing student achievement, supporting a safe learning environment, and addressing the needs of all students through prevention and intervention programs that are part of a comprehensive school counseling program. The legislature further finds that current state statutes fail to mention anything about school counselors. Therefore, the legislature intends to codify into law the importance and the role of school counselors in public schools." [2007 c 175 § 1.]

**28A.410.045 First peoples' language, culture, and oral tribal traditions teacher certification program—Established—Rules.** (1) The Washington state first peoples' language, culture, and oral tribal traditions teacher certification program is established. The professional educator standards board shall adopt rules to implement the program in collaboration with the sovereign tribal governments whose traditional lands and territories lie within the borders of the state of Washington, including the tribal leader congress on education and the first peoples' language and culture committee. The collaboration required under this section shall be defined by a protocol for cogovernance in first peoples' language, culture, and oral tribal traditions education developed by the professional educator standards board, the office of the superintendent of public instruction, and the sovereign tribal governments whose traditional lands and territories lie within the borders of the state of Washington.

(2) Any sovereign tribal government whose traditional lands and territories lie within the borders of the state of Washington may participate individually on a government-to-government basis in the program.

(3) Under the first peoples' language, culture, and oral tribal traditions teacher certification program:

(a) Only a participating sovereign tribal government may certify individuals who meet the tribe's criteria for certification as a teacher in the Washington state first peoples' language, culture, and oral tribal traditions teacher certification program. Tribal law enforcement agencies and the Washington state patrol shall enter into government-to-government negotiations regarding the exchange of background information on applicants for certification. The office of the superintendent of public instruction shall not authorize or accept a certificate or endorsement in Washington state first peoples' language, culture, and oral tribal traditions without certification from a participating sovereign tribal government and without conducting a record check of an individual applying for certification as required under RCW 28A.410.010;

(b) For each teacher to be certified in the program, the participating sovereign tribal government shall submit infor-

mation and documentation necessary for the issuance of a state certificate, as defined by rule, to the office of the superintendent of public instruction;

(c) A Washington state first peoples' language, culture, and oral tribal traditions teacher certificate serves as a subject area endorsement in first peoples' language, culture, and oral tribal traditions. The holder of a Washington state first peoples' language, culture, and oral tribal traditions teacher certificate who does not also hold an initial, residency, continuing, or professional teaching certificate authorized by the professional educator standards board may be assigned to teach only the languages, cultures, and oral tribal traditions designated on the certificate and no other subject;

(d) In order to teach first peoples' language, culture, and oral tribal traditions, teachers must hold certificates from both the office of the superintendent of public instruction and from the sovereign tribal government; and

(e) The holder of a Washington state first peoples' language, culture, and oral tribal traditions teacher certificate meets Washington state's definition of a highly qualified teacher under the no child left behind act of 2001 (P.L. 107-110) for the purposes of teaching first peoples' language, culture, and oral tribal traditions, subject to approval by the United States department of education.

(4) First peoples' language/culture teacher certificates issued before July 22, 2007, under rules approved by the state board of education or the professional educator standards board under a pilot program remain valid as certificates under this section, subject to the provisions of this chapter.

(5) Schools and school districts on or near tribal reservations are encouraged to contract with sovereign tribal governments whose traditional lands and territories lie within the borders of the state of Washington and with first peoples' language, culture, and oral tribal traditions teacher certification programs for in-service teacher training and continuing education in the culture and history appropriate for their geographic area, as well as suggested pedagogy and instructional strategies. [2007 c 319 § 2.]

**Findings—2007 c 319:** "The legislature finds that:

(1) Teaching first peoples' languages, cultures, and oral tribal traditions is a critical factor in fostering successful educational experiences and promoting cultural sensitivity for all students. Experience shows that such teaching dramatically raises student achievement and that the effect is particularly strong for Native American students;

(2) Native American students have the highest high school dropout rate among all groups of students. Less than one-fourth of Native American students in the class of 2008 are on track to graduate based on the results of the Washington assessment of student learning. Positive and supportive educational experiences are critical for the success of Native American students;

(3) The sole expertise of sovereign tribal governments whose traditional lands and territories lie within the borders of the state of Washington in the transmission of their indigenous languages, heritage, cultural knowledge, histories, customs, and traditions should be honored;

(4) Government-to-government collaboration between the state and the sovereign tribal governments whose traditional lands and territories lie within the borders of the state of Washington serves to implement the spirit of the 1989 centennial accord and other similar government-to-government agreements, including the 2004 accord between the federally recognized Indian tribes with treaty reserved rights in the state of Washington;

(5) Establishing a first peoples' language, culture, and oral tribal traditions teacher certification program both achieves educational objectives and models effective government-to-government relationships;

(6) Establishing a first peoples' language, culture, and oral tribal traditions certification program implements the following policy objectives of the federal Native American languages act of 1990 (P.L. 101-477) in a tangible way:

(a) To preserve, protect, and promote the rights and freedom of Native Americans to use, practice, and develop Native American languages;

(b) To allow exceptions to teacher certification requirements for federal programs and programs funded in whole or in part by the federal government, for instruction in Native American languages when such teacher certification requirements hinder the employment of qualified teachers who teach in Native American languages, and to encourage state and territorial governments to make similar exceptions;

(c) To encourage and support the use of Native American languages as a medium of instruction in order to encourage and support Native American language survival, educational opportunity, increased student success and performance, increased student awareness and knowledge of their culture and history, and increased student and community pride;

(d) To encourage state and local education programs to work with Native American parents, educators, Indian tribes, and other Native American governing bodies in the implementation of programs to put this policy into effect; and

(e) To encourage all institutions of elementary, secondary, and higher education, where appropriate, to include Native American languages in the curriculum in the same manner as foreign languages and to grant proficiency in Native American languages the same full academic credit as proficiency in foreign languages;

(7) Establishing a first peoples' language, culture, and oral tribal traditions certification program is consistent with the intent of presidential executive order number 13336 from 2004, entitled "American Indian and Alaska native education," to assist students in meeting the challenging student academic standards of the no child left behind act of 2001 (P.L. 107-110) in a manner that is consistent with tribal traditions, languages, and cultures." A first time violation of this subsection shall result in either suspension or revocation of the employee's certificate or permit as determined by the office of the superintendent of public instruction. A second violation shall result in a mandatory revocation of the certificate or permit.

(b) In all cases under this subsection (4), the person whose certificate is in question shall be given an opportunity to be heard and has the right to appeal as established in \*RCW 28A.410.100. For the purpose of any investigation or proceeding under this chapter, the superintendent or any officer designated by the superintendent may administer oaths and affirmations, subpoena witnesses and compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, agreements, or other documents or records that the superintendent deems relevant and material to the inquiry.

(2010 Ed.)

(2) Investigations conducted by the superintendent of public instruction concerning alleged sexual misconduct towards a child shall be completed within one year of the initiation of the investigation or within thirty days of the completion of all proceedings, including court proceedings, resulting from an investigation conducted by law enforcement or child protective services if there is such an investigation. The superintendent of public instruction may take, for reasonable cause, additional time for completion of the investigation after informing the victim, the individual being investigated, and the school district that employs the individual being investigated of the reasons additional time is needed and the amount of additional time needed. Written notification must be provided to each of the parties who must be informed. The sole remedy for a failure to complete an investigation of sexual misconduct within the time allowed by this subsection is a civil penalty of fifty dollars per day for each day beyond the allowed time.

(3) If any person fails to obey a subpoena or obeys a subpoena but refuses to give evidence, any court of competent jurisdiction, upon application by the superintendent, may issue to that person an order requiring him or her to appear before the court and to show cause why he or she should not be compelled to obey the subpoena, and give evidence material to the matter under investigation. The failure to obey an order of the court may be punishable as contempt.

(4) Once an investigation has been initiated by the superintendent of public instruction, the investigation shall be completed regardless of whether the individual being investigated has resigned his or her position or allowed his or her teaching certificate to lapse. The superintendent shall make a written finding regarding each investigation indicating the actions taken, including a statement of the reasons why a complaint was dismissed or did not warrant further investigation or action by the superintendent, and shall provide such notice to each person who filed the complaint. (7) The Washington professional educator standards board and superintendent of public instruction, as determined by the Washington professional educator standards board, may contract with one or more third parties for:

**28A.410.225 Washington professional educator standards board—Endorsement requirements—Teachers of deaf and hard of hearing students.** The agency responsible for teacher certification shall develop certification endorsement requirements for teachers of deaf and hard of hearing students. The endorsement shall be focused on the specific skills and knowledge necessary to serve the education and communication needs of deaf and hard of hearing students. In establishing rules for the endorsement of teachers who will be working almost exclusively with students who are deaf or hard of hearing, the agency shall consider applicants to have met state endorsement requirements if they possess a baccalaureate or master's degree in deaf education from a teacher training program approved by the council on education of the deaf. [2005 c 493 § 2.]

**Findings—Intent—2005 c 493:** "The legislature finds that the quality of education for children who are deaf or hard of hearing and the expectations for those children's achievement should be equivalent to those for children throughout the state. The legislature also finds that deaf and hard of hearing children can benefit greatly if they are taught by an educator who is trained to understand the learning and communication issues the children face. Educators who received teacher training in a program for the deaf and hard of hearing are sensitive to the needs of deaf and hard of hearing students and are able to provide appropriate strategies to assist students in reacting to and interacting with their environment. The legislature intends to assist school districts in their efforts to attract teachers who are especially trained to work with deaf and hard of hearing students by directing the state board of education to establish a certification endorsement for teachers of the deaf and hard of hearing." [2005 c 493 § 1.]

**28A.410.230 Washington professional educator standards board—Review of proposed assessments before implementation.** The Washington professional educator standards board shall report the proposed assessments to the legislative education committees for review and comment prior to implementing the assessments by contractual agreement with the selected vendor or vendors. an aggregate basis. The report shall also include results disaggregated demographically. The report shall include information on the number and percentage of candidates exempted from assessments, demographic information on candidates exempted, institutions attended and endorsements sought by exempted candidates, and reasons for exclusion from the required assessments. The report shall be made available through the state library, on the web site of the office of superintendent of public instruction, and placed on the legislative alert list. [2000 c 39 § 203.]

(8) Identify an expedited professional certification process for out-of-state teachers who have five years or more of successful teaching experience to demonstrate skills and impact on student learning commensurate with Washington requirements for professional certification. The rules may require these teachers, within one year of the time they begin to teach in the state's public schools, take a course in or show evidence that they can teach to the state's essential academic learning requirements; and

(9) Identify an evaluation process of approved programs that includes a review of the program coursework and applicant coursework load requirements, linkages of programs to individual teacher professional growth plans, linkages to school district and school improvement plans, and, to the extent possible, linkages to school district professional enrichment and growth programs for teachers, where such programs are in place in school districts. The agency shall provide a preliminary report on the evaluation process to the senate and house of representatives committees on education policy by November 1, 2005. The board shall identify:

(b) A less intensive evaluation cycle every three years once a program receives full approval unless the responsible agency has reason to intensify the evaluation;

(c) A method for investigating programs that have received numerous complaints from students enrolled in the program and from those recently completing the program;

(d) A method for investigating programs at the reasonable discretion of the agency; and

(e) A method for using, in the evaluation, both program completer satisfaction responses and data on the impact of educators who have obtained professional certification on student work and achievement. [2005 c 498 § 2.]

**Intent—2005 c 498:** "The legislature recognizes the importance of ongoing professional development and growth for teachers with the goal of improving student achievement. It is the intent of the legislature to ensure that professional certification is administered in such a way as to ensure that the professional development and growth of individual teachers is directly aligned to their current and future teaching responsibilities as professional educators." **28A.410.260 Washington professional educator standards board—Model standards for cultural competency—Recommendations.** (1) The professional educator standards board, in consultation and collaboration with the achievement gap oversight and accountability committee established under RCW 28A.300.136, shall identify a list of model standards for cultural competency and make recommendations to the education committees of the legislature on the strengths and weaknesses of those standards.

(2) For the purposes of this section, "cultural competency" includes knowledge of student cultural histories and contexts, as well as family norms and values in different cultures; knowledge and skills in accessing community resources and community and parent outreach; and skills in adapting instruction to students' experiences and identifying cultural contexts for individual students. [2009 c 468 § 5.]

**Findings—Intent—2009 c 468:** See note following RCW 28A.300.136.

**28A.410.270 Washington professional educator standards board—Performance standards—Certification levels—Teacher effectiveness evaluations—Update—Proposal—Recommendation—Requirements for professional certificate and residency teaching certificate.** (1)(a) By January 1, 2010, the professional educator standards board shall adopt a set of articulated teacher knowledge, skill, and performance standards for effective teaching that are evidence-based, measurable, meaningful, and documented in

high quality research as being associated with improved student learning. The standards shall be calibrated for each level of certification and along the entire career continuum. In developing the standards, the board shall, to the extent possible, incorporate standards for cultural competency along the entire continuum. For the purposes of this subsection, "cultural competency" includes knowledge of student cultural histories and contexts, as well as family norms and values in different cultures; knowledge and skills in accessing community resources and community and parent outreach; and skills in adapting instruction to students' experiences and identifying cultural contexts for individual students.

(b) By January 1, 2010, the professional educator standards board shall adopt a definition of master teacher, with a comparable level of increased competency between professional certification level and master level as between professional certification level and national board certification. Within the definition established by the professional educator standards board, teachers certified through the national board for professional teaching standards shall be considered master teachers.

(2) By January 1, 2010, the professional educator standards board shall submit to the governor and the education and fiscal committees of the legislature:

(a) An update on the status of implementation of the professional certificate external and uniform assessment authorized in \*RCW 28A.410.210;

(b) A proposal for a uniform, statewide, valid, and reliable classroom-based means of evaluating teacher effectiveness as a culminating measure at the preservice level that is to be used during the student-teaching field experience. This assessment shall include multiple measures of teacher performance in classrooms, evidence of positive impact on student learning, and shall include review of artifacts, such as use of a variety of assessment and instructional strategies, and student work. The proposal shall establish a timeline for when the assessment will be required for successful completion of a Washington state-approved teacher preparation program. The timeline shall take into account the capacity of the K-12 education and higher education systems to accommodate the new assessment. The proposal and timeline shall also address how the assessment will be included in state-reported data on preparation program quality; and

(c) A recommendation on the length of time that a residency certificate issued to a teacher is valid and within what time period a teacher must meet the minimum level of performance for and receive a professional certificate in order to continue being certified as a teacher. In developing this recommendation, the professional educator standards board shall consult with interested stakeholders including the Washington education association, the Washington association of school administrators, association of Washington school principals, and the Washington state school directors' association and shall include with its recommendation a description of each stakeholder's comments on the recommendation.

(3) The update and proposal in subsection (2)(a) and (b) of this section shall include, at a minimum, descriptions of:

(a) Estimated costs and statutory authority needed for further development and implementation of these assessments;

(b) A common and standardized rubric for determining whether a teacher meets the minimum level of performance of the assessments; and

(c) Administration and management of the assessments.

(4) To the extent that funds are appropriated for this purpose and in accordance with the timeline established in subsection (2) of this section, recognizing the capacity limitations of the education systems, the professional educator standards board shall develop the system and process as established in subsections (1), (2), and (3) of this section throughout the remainder of the 2010-11 and 2011-12 school years.

(5) Beginning no earlier than September 1, 2011, award of a professional certificate shall be based on a minimum of two years of successful teaching experience as defined by the board and on the results of the evaluation authorized under \*\*RCW 28A.410.210(14) and under this section, and may not require candidates to enroll in a professional certification program.

(6) Beginning July 1, 2011, educator preparation programs approved to offer the residency teaching certificate shall be required to demonstrate how the program produces effective teachers as evidenced by the measures established under this section and other criteria established by the professional educator standards board. [2009 c 548 § 402.]

**Reviser's note:** \*(1) RCW 28A.410.210(12) refers to a "uniform and externally administered professional-level certification assessment."

\*\*\*(2) RCW 28A.410.210 was amended by 2009 c 531 § 4, changing subsection (14) to subsection (13).

**Finding—2009 c 548:** "The legislature recognizes that the key to providing all students the opportunity to achieve the basic education goal is effective teaching and leadership. Teachers, principals, and administrators must be provided with access to the opportunities they need to gain the knowledge and skills that will enable them to be increasingly successful in their classroom and schools. A system that clearly defines, supports, measures, and recognizes effective teaching and leadership is one of the most important investments to be made." [2009 c 548 § 401.]

**Intent—2009 c 548:** See note following RCW 28A.150.198.

**Intent—Finding—2009 c 548:** See note following RCW 28A.305.130.

The professional educator standards board shall adopt rules that establish a date during the 2012-13 school year after which candidates completing teacher preparation programs must successfully pass this assessment. Assessment results from persons completing each preparation program must be reported annually by the professional educator standards board to the governor and the education and fiscal committees of the legislature by December 1st.

(2) The professional educator standards board and the superintendent of public instruction, as determined by the board, may contract with one or more third parties for:

(a) The administration, scoring, and reporting of scores of the assessment under this section;

(b) Related clerical and administrative activities; or

(2010 Ed.)

(3) Candidates for residency certification who are required to successfully complete the assessment under this section, and who are charged a fee for the assessment by a third party contracted with under this section, shall pay the fee charged by the contractor directly to the contractor. Such fees shall be reasonably related to the actual costs of the contractor in providing the assessment. [2010 c 235 § 501.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.410.290 Teacher and administrator preparation program approval standards—Community college and nonhigher education provider programs—Alternative route program inclusion.** (1) By September 30, 2010, the professional educator standards board shall review and revise teacher and administrator preparation program approval standards and proposal review procedures at the residency certificate level to ensure they are rigorous and appropriate standards for an expanded range of potential providers, including community college and nonhigher education providers. All approved providers must adhere to the same standards and comply with the same requirements.

(2) Beginning September 30, 2010, the professional educator standards board must accept proposals for community college and nonhigher education providers of educator preparation programs. Proposals must be processed and considered by the board as expeditiously as possible.

(3) By September 1, 2011, all professional educator standards board-approved residency teacher preparation programs at institutions of higher education as defined in RCW 28B.10.016 not currently a partner in an alternative route program approved by the professional educator standards board must submit to the board a proposal to offer one or more of the alternative route programs that meet the requirements of RCW 28A.660.020 and 28A.660.040. [2010 c 235 § 502.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.410.300 Review of district and educator workforce data.** Beginning with the 2010 school year and annually thereafter, each educational service district, in cooperation with the professional educator standards board, must convene representatives from school districts within that region and professional educator standards board-approved educator preparation programs to review district and regional educator workforce data, make biennial projections of certificate staffing needs, and identify how recruitment and enrollment plans in educator preparation programs reflect projected need. [2010 c 235 § 506.]

(1) To the extent funds are appropriated, the Washington state principal internship support program is created beginning in the 1994-95 school year. The purpose of the program is to provide funds to school districts to provide partial release time for district employees who are in a principal preparation program to complete an internship with a mentor principal. Funds may be used in a variety of ways to accommodate flexible implementation in releasing the intern to meet program requirements.

(2) Participants in the principal internship support program shall be selected as follows:

for partial release time while the school district employee is completing the internship.

(d) If an educational service district has unfilled superintendent or program administrator internship positions, the positions and unspent funds shall revert to the superintendent of public instruction for supplementary direct disbursement among the educational service districts.

The superintendent of public instruction shall allocate any remaining unfilled positions and unspent funds among the educational service districts that have qualified candidates but not enough positions for them.

**28A.415.300 Rules.** The superintendent of public instruction shall adopt rules as necessary under chapter 34.05 RCW to administer the principal and superintendent and program administrator internship support programs. [1993 c 336 § 407.]

**Reviser's note:** 1993 c 336 directed that this section be added to chapter 28A.300 RCW. This section has been codified in chapter 28A.415 RCW, which relates more directly to educators' training.

**Findings—Intent—Part headings not law—1993 c 336:** See notes following RCW 28A.150.210.

**Findings—1993 c 336:** See note following RCW 28A.150.210.

**28A.415.310 Paraprofessional training program.** (1) The paraprofessional training program is created. The primary purpose of the program is to provide training for classroom assistants to assist them in helping students achieve the student learning goals under RCW 28A.150.210. Another purpose of the program is to provide training to certificated personnel who work with classroom assistants.

(2) The superintendent of public instruction may allocate funds, to the extent funds are appropriated for this program, to educational service districts, school districts, and other organizations for providing the training in subsection (1) of this section. [1993 c 336 § 408.]

**Reviser's note:** 1993 c 336 directed that this section be added to chapter 28A.300 RCW. This section has been codified in chapter 28A.415 RCW, which relates more directly to educators' training.

**Findings—Intent—Part headings not law—1993 c 336:** See notes following RCW 28A.150.210.

**Findings—1993 c 336:** See note following RCW 28A.150.210.

**28A.415.315 Classified instructional assistants—Training.** Subject to the availability of amounts appropriated for this purpose, the office of the superintendent of public instruction, in consultation with various groups representing school district classified employees, shall develop and offer a training strand through the summer institutes and the winter conference targeted to classified instructional assistants and designed to help them maximize their effectiveness

in improving student achievement. [2009 c 539 § 2; 2008 c 65 § 2.]

**Effective date—2009 c 539:** See note following RCW 28A.655.200.

**Findings—Intent—2008 c 65:** "The legislature finds that classified instructional assistants are key partners with classroom teachers in improving student achievement. Research on rigorous reading programs, including the reading first programs in our own state, proves that when instructional assistants are skilled, well-trained in a particular intervention, and positively supported by the classroom teacher or coach, they can have a significant impact on student reading attainment. The legislature further finds that school district practice provides sufficient evidence of the need for instructional assistants. Statewide, school districts relied on more than nineteen thousand classified instructional assistants, equal to nearly ten thousand full-time equivalent staff, during the 2006-07 school year. Therefore, the legislature intends to support instructional assistants by providing opportunities for high quality professional development to make them more effective partners in the classroom." [2008 c 65 § 1.]

**28A.415.330 Professional development institutes—Managing disruptive students.** (1) To the extent funds are appropriated, the superintendent of public instruction shall conduct professional development institutes to provide opportunities for teachers, principals, and other school staff to learn effective research-based strategies for handling disruptive students. The institutes shall be conducted during the summer of 2000. The training institutes shall emphasize methods for handling disruptions in regular classrooms and how to design and implement alternative learning settings and programs that have been proven to be effective in providing for the educational needs of students who exhibit frequent and prolonged disruptive behavior when placed in a regular classroom setting.

(2) The superintendent may enter into contracts with public or private entities that provide training in effective research-based methods for dealing with disruptive students. In developing the institutes, the superintendent shall work with school staff who have had experience working effectively with disruptive students. The institutes shall be open to teams of teachers, principals, and other school staff from each school district choosing to participate. However, as a condition of participating in the institutes, school district teams shall be required to develop during or immediately following the institute a district plan for carrying out the purposes of this section. Elementary schools and junior high and middle schools in districts that send teams to participate in institutes conducted under this section are encouraged to formulate school building-level plans for addressing the educational needs of disruptive students and the needs of students and teachers in the regular classrooms for an orderly and disciplined environment that is optimally conducive to learning. Individual participants in the institutes shall agree to provide assistance as needed to other school staff in their school building or school district, consistent with their other normal duties.

(3) Beginning with the 1999-2000 school year, elementary and junior high schools are encouraged to provide staff from both the regular education and special education programs opportunities to work together to share successful practices for managing disruptive students. [1999 c 166 § 2.]

**Findings—1999 c 166:** "The legislature finds that disruptive students can significantly impede effective teaching and learning in the classroom. Training in effective strategies for handling disruptive students will help principals, teachers, and other staff gain additional skills to provide a classroom environment that is conducive to teaching and learning. Schools and

school districts should be encouraged to provide staff with the training necessary to respond to disruptions effectively." [1999 c 166 § 1.]

**28A.500.010 Local effort assistance funds—Purpose—Not basic education allocation.** Commencing with (2010 Ed.)

calendar year 2000, in addition to a school district's other general fund allocations, each eligible district shall be provided local effort assistance funds. The purpose of these funds is to mitigate the effect that above average property tax rates might have on the ability of a school district to raise local revenues to supplement the state's basic program of education. These funds serve to equalize the property tax rates that individual taxpayers would pay for such levies and to provide tax relief to taxpayers in high tax rate school districts. Such funds are not part of the district's basic education allocation. **28A.500.050 Finding—School finance component.**

(1) The legislature finds that while the state has the responsibility to provide for a general and uniform system of public schools, there is also a need for some diversity in the public school system. A successful system of public education must permit some variation among school districts outside the basic education provided for by the state to respond to and reflect the unique desires of local communities. The opportunity for local communities to invest in enriched education programs promotes support for local public schools. Further, the ability of local school districts to experiment with enriched programs can inform the legislature's long-term evolution of the definition of basic education. Therefore, local levy authority remains an important component of the overall finance system in support of the public schools even though it is outside the state's obligation for basic education.

(2) However, the value of permitting local levies must be balanced with the value of equity and fairness to students and to taxpayers, neither of whom should be unduly disadvantaged due to differences in the tax bases used to support local levies. Equity and fairness require both an equitable basis for supplemental funding outside basic education and a mechanism for property tax-poor school districts to fairly access supplemental funding. As such, local effort assistance, while also outside the state's obligation for basic education, is another important component of school finance. [2009 c 548 § 301.]

(5) "Revenue accruals" means those revenues anticipated to be received in cash after the close of the fiscal period that represent reimbursement for expenditures incurred by the end of the fiscal period.

(6) "Appropriation" means the maximum authorization during a given fiscal period to incur expenditures.

(7) "Disbursements" mean payments in cash, including but not limited to issuance of warrants. [1983 c 59 § 1; 1975-'76 2nd ex.s. c 118 § 1. Formerly RCW 28A.65.400.]

(1) To the school district before the close of the biennium and following the school district's repayment of moneys due the federal government, or the school district's commitment to an acceptable repayment plan, or both; or

(2) To the federal government, subject to the reappropriation of the withheld basic education allocation, moneys for the purpose of payment to the federal government.

No withholding of basic education allocation moneys may occur under this subsection until the superintendent of public instruction has first determined that the withholding should not substantially impair the school district's financial ability to provide the basic education program offerings required by statute. [1990 c 103 § 1.]

**28A.505.210 Student achievement funds—Use and accounting of funds—Public hearing—Report.** School districts shall have the authority to decide the best use of funds distributed for the student achievement program under RCW 28A.505.220 to assist students in meeting and exceeding the new, higher academic standards in each district consistent with the provisions of chapter 3, Laws of 2001.

(1) Funds shall be allocated for the following uses:

(a) To reduce class size by hiring certificated elementary classroom teachers in grades K-4 and paying nonemployee-related costs associated with those new teachers;

(b) To make selected reductions in class size in grades 5-12, such as small high school writing classes;

(c) To provide extended learning opportunities to improve student academic achievement in grades K-12, including, but not limited to, extended school year, extended school day, before-and-after-school programs, special tutoring programs, weekend school programs, summer school, and all-day kindergarten;

(d) To provide additional professional development for educators, including additional paid time for curriculum and lesson redesign and alignment, training to ensure that instruction is aligned with state standards and student needs, reimbursement for higher education costs related to enhancing teaching skills and knowledge, and mentoring programs to match teachers with skilled, master teachers. The funding shall not be used for salary increases or additional compensation for existing teaching duties, but may be used for extended year and extended day teaching contracts;

(e) To provide early assistance for children who need prekindergarten support in order to be successful in school;

(2010 Ed.)

(f) To provide improvements or additions to school building facilities which are directly related to the class size reductions and extended learning opportunities under (a) through (c) of this subsection.

(2) Annually on or before May 1st, the school district board of directors shall meet at the time and place designated for the purpose of a public hearing on the proposed use of these funds to improve student achievement for the coming year. Any person may appear or by written submission have the opportunity to comment on the proposed plan for the use of these funds. No later than August 31st, as a part of the process under RCW 28A.505.060, each school district shall adopt a plan for the use of these funds for the upcoming school year. Annually, each school district shall provide to the citizens of their district a public accounting of the funds made available to the district during the previous school year under chapter 3, Laws of 2001, how the funds were used, and the progress the district has made in increasing student achievement, as measured by required state assessments and other assessments deemed appropriate by the district. Copies of this report shall be provided to the superintendent of public instruction. [2009 c 479 § 17; 2005 c 497 § 105; 2001 c 3 § 3 (Initiative Measure No. 728, approved November 7, 2000).]

**Intent—Part headings not law—Effective date—2005 c 497:** See notes following RCW 28A.305.011.

**Short title—2001 c 3 (Initiative Measure No. 728):** "This act may be known and cited as the K-12 2000 student achievement act." [2001 c 3 § 1 (Initiative Measure No. 728, approved November 7, 2000).]

**Purpose—Intent—2001 c 3 (Initiative Measure No. 728):** "The citizens of Washington state expect and deserve great public schools for our generation of school children and for those who will follow. A quality public education system is crucial for our state's future economic success and prosperity, and for our children and their children to lead successful lives.

The purpose of this act is to improve public education and to achieve higher academic standards for all students through smaller class sizes and other improvements. A portion of the state's surplus general fund revenues is dedicated to this purpose.

In 1993, Washington state made a major commitment to improved public education by passing the Washington education reform act. This act established new, higher standards of academic achievement for all students. It also established new levels of accountability for students, teachers, schools, and school districts. However, the K-12 finance system has not been changed to respond to the new standards and individual student needs.

To make higher student achievement a reality, schools need the additional resources and flexibility to provide all students with more individualized quality instruction, more time, and the extra support that they may require. We need to ensure that curriculum, instruction methods, and assessments of student performance are aligned with the new standards and student needs. The current level of state funding does not provide adequate resources to support higher academic achievement for all students. In fact, inflation-adjusted per-student state funding has declined since the legislature adopted the 1993 education reform act.

The erosion of state funding for K-12 education is directly at odds with the state's "paramount duty to make ample provision for the education of all children...." Now is the time to invest some of our surplus state revenues in K-12 education and redirect state lottery funds to education, as was originally intended, so that we can fulfill the state's paramount duty.

Conditions and needs vary across Washington's two hundred ninety-six school districts. School boards accountable to their local communities should therefore have the flexibility to decide which of the following strategies will be most effective in increasing student performance and in helping students meet the state's new, higher academic standards:

(1) Major reductions in K-4 class size;

(2) Selected class size reductions in grades 5-12, such as small high school writing classes;

(3) Extended learning opportunities for students who need or want additional time in school;

(4) Investments in educators and their professional development;

(5) Early assistance for children who need prekindergarten support in order to be successful in school; and

(6) Providing improvements or additions to facilities to support class size reductions and extended learning opportunities.

#### REDUCING CLASS SIZE

Smaller classes in the early grades can significantly increase the amount of learning that takes place in the classroom. Washington state now ranks forty-eighth in the nation in its student-teacher ratio. This is unacceptable.

Significant class size reductions will provide our children with more individualized instruction and the attention they need and deserve and will reduce behavioral problems in classrooms. The state's long-term goal should be to reduce class size in grades K-4 to no more than eighteen students per teacher in a class.

The people recognize that class size reduction should be phased-in over several years. It should be accompanied by the necessary funds for school construction and modernization and for high-quality, well-trained teachers.

#### EXTENDED LEARNING OPPORTUNITIES

Student achievement will also be increased if we expand learning opportunities beyond our traditional-length school day and year. In many school districts, educators and parents want a longer school day, a longer school year, and/or all-day kindergarten to help students improve their academic performance or explore new learning opportunities. In addition, special programs such as before-and-after-school tutoring will help struggling students catch and keep up with their classmates. Extended learning opportunities will be increasingly important as attainment of a certificate of mastery becomes a high school graduation requirement.

#### TEACHER QUALITY

Key to every student's academic success is a quality teacher in every classroom. Washington state's new standards for student achievement make teacher quality more important than ever. We are asking our teachers to teach more demanding curriculum in new ways, and we are holding our educators and schools to new, higher levels of accountability for student performance. Resources are needed to give teachers the content knowledge and skills to teach to higher standards and to give school leaders the skills to improve instruction and manage organizational change.

The ability of school districts throughout the state to attract and retain the highest quality teaching corps by offering competitive salaries and effective working conditions is an essential element of basic education. The state legislature is responsible for establishing teacher salaries. It is imperative that the legislature fund salary levels that ensure school districts' ability to recruit and retain the highest quality teachers.

#### EARLY ASSISTANCE

The importance of a child's intellectual development in the first five years has been established by widespread scientific research. This is especially true for children with disabilities and special needs. Providing assistance appropriate to children's developmental needs will enhance the academic achievement of these children in grades K-12. Early assistance will also lessen the need for more expensive remedial efforts in later years.

#### NO SUPPLANTING OF EXISTING EDUCATION FUNDS

It is the intent of the people that existing state funding for education, including all sources of such funding, shall not be reduced, supplanted, or otherwise adversely impacted by appropriations or expenditures from the \*student achievement fund created in RCW 43.135.045 or the education construction fund.

#### INVESTING SURPLUS IN SCHOOLS UNTIL GOAL MET

It is the intent of the people to invest a portion of state surplus revenues in their schools. This investment should continue until the state's contribution to funding public education achieves a reasonable goal. The goal should reflect the state's paramount duty to make ample provision for the education of all children and our citizens' desire that all students receive a quality education. The people set a goal of per-student state funding for the maintenance and operation of K-12 education being equal to at least ninety percent of the national average per-student expenditure from all sources. When this goal is met, further deposits to the \*student achievement fund shall be required only to the extent necessary to maintain the ninety-percent level." [2001 c 3 § 2 (Initiative Measure No. 728, approved November 7, 2000).]

purposes of this act." [2001 c 3 § 11 (Initiative Measure No. 728, approved November 7, 2000).]

**Severability—2001 c 3 (Initiative Measure No. 728):** "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." **28A.505.220 Student achievement program—General fund allocation.** (1) Total distributions for the student achievement program from the general fund to each school district shall be based upon the average number of full-time equivalent students in the school district during the previous school year as reported to the office of the superintendent of public instruction by August 31st of the previous school year. The superintendent of public instruction shall ensure that moneys generated by skill center students are returned to skill centers.

(2) The allocation rate per full-time equivalent student shall be three hundred dollars in the 2005-06 school year, three hundred seventy-five dollars in the 2006-07 school year, and four hundred fifty dollars in the 2007-08 school year. For each subsequent school year, the amount allocated per full-time equivalent student shall be adjusted for inflation by the implicit price deflator as published by the federal bureau of labor statistics. However, for the 2009-10 and 2010-11 school years, the amount allocated per full-time equivalent student shall be as specified in the omnibus appropriations act. For the 2011-12 school year and thereafter, amounts allocated shall be further adjusted so that the allocations are equal to what they would have been if allocations had not been reduced for the 2009-10 and 2010-11 school years. These allocations per full-time equivalent student shall be supported from the distributions from the education legacy trust account created in RCW 83.100.230 and the state general fund.

(3) The school district annual amounts as defined in subsection (2) of this section shall be distributed on the monthly apportionment schedule as defined in RCW 28A.510.250.

(4) However, during the 2008-09 school year, the school district annual amounts as defined in this section shall be distributed as follows:

September:	9.0 percent;
October:	9.0 percent;
November:	5.5 percent;
December:	9.0 percent;
January:	9.0 percent;

May:	5.5 percent;
June:	4.2 percent;
July:	11.8 percent; and
August:	10.0 percent.

**28A.515.330 Permanent common school fund—Allowable investments—Irreducible principal.** The state investment board may invest the permanent common school fund in various types of allowable investments in order to achieve a balance of long-term growth and current income, when consistent with the best interest of the state and the permanent common school fund, and in conformance with RCW 43.84.150. The state treasurer shall calculate the irreducible principal amount of the fund in accordance with the state Constitution and state law. The irreducible principal shall not include investment gains on the principal, and the fund may retain or distribute income and investment earnings in order to achieve the appropriate balance between growth and income. [2007 c 505 § 3.]

**Intent—Finding—2007 c 505:** "Consistent with Article XVI, section 5 and Article IX, sections 3 and 5 of the state Constitution, it is the intent of the legislature to clarify state law to permit the permanent common school fund to be invested in equities when such investment is in the best interest of the state and the permanent common school fund.

A 1999 opinion of the attorney general concluded that the constitutional language does not prohibit investment of the permanent common

school fund, as long as the investment is authorized by law and is consistent with applicable trust principles. This opinion further reasoned that the constitutional phrase "permanent and irreducible" bars the legislature from abolishing the fund or expending its principal for purposes other than those for which the fund was established, but does not prohibit the legislature from specifying permissible investments, particularly in light of Article IX, section 5 of the state Constitution, which specifies that only losses resulting from "defalcation, mismanagement or fraud" constitute state debts to the permanent common school fund.

The legislature finds that permanent fund common school fund income as a percentage of total school construction budgets has declined while school construction budgets have grown, and that other state revenues have filled the gap between income from state lands and the total school construction budget. For this reason, the fund may tolerate higher risk and volatility in favor of growth, and therefore a balance of long-term growth and current income is in the best interest of the state and the fund's beneficiaries. The legislature recognizes that by investing in equities, the value of the permanent fund may fluctuate over time due to market changes even if no disposition of the fund principal is made.

It is the intent of the legislature to clarify state law to permit equity investment of the permanent common school fund even if there is a decline in the value of the permanent fund due to market changes. The legislature recognizes that the irreducible portion of the principal amount in the permanent fund must be held in perpetuity for the benefit of the fund and future generations, and that only the earnings from the permanent fund may be appropriated to the common school construction fund." Sec. 706) and rules implementing the act.

(3) For the purpose of computing the state funding assistance percentage under RCW 28A.525.166 when a school district is granted authority to enter into contracts, adjusted valuation per pupil shall be calculated using headcount student enrollments from the most recent October enrollment reports submitted by districts to the superintendent of public instruction, adjusted as follows:

(a) In the case of projects for which local bonds were approved after May 11, 1989:

(i) For districts which have been designated as serving high school districts under RCW 28A.540.110, students residing in the nonhigh district so designating shall be excluded from the enrollment count if the student is enrolled in any grade level not offered by the nonhigh district;

(ii) The enrollment of nonhigh school districts shall be increased by the number of students residing within the district who are enrolled in a serving high school district so designated by the nonhigh school district under RCW 28A.540.110, including only students who are enrolled in grade levels not offered by the nonhigh school district; and

(iii) The number of preschool students with disabilities included in the enrollment count shall be multiplied by one-half;

(b) In the case of construction or modernization of high school facilities in districts serving students from nonhigh school districts, the adjusted valuation per pupil shall be computed using the combined adjusted valuations and enrollments of each district, each weighted by the percentage of the district's resident high school students served by the high school district; and

(c) The number of kindergarten students included in the enrollment count shall be multiplied by one-half.

(4) The superintendent of public instruction, considering policy recommendations from the school facilities citizen advisory panel, shall prescribe such rules as are necessary to equate insofar as possible the efforts made by school districts to provide capital funds by the means aforesaid.

**28A.525.166 Allotment of appropriations for school plant facilities—Computation of state aid for school plant project.** Allocations to school districts of state funds provided by RCW 28A.525.162 through 28A.525.180 shall be made by the superintendent of public instruction and the amount of state funding assistance to a school district in financing a school plant project shall be determined in the following manner:

(1) The boards of directors of the districts shall determine the total cost of the proposed project, which cost may include the cost of acquiring and preparing the site, the cost of constructing the building or of acquiring a building and preparing the same for school use, the cost of necessary equipment, taxes chargeable to the project, necessary architects' fees, and a reasonable amount for contingencies and for other necessary incidental expenses: PROVIDED, That the total cost of the project shall be subject to review and approval by the superintendent.

(2) The state funding assistance percentage for a school district shall be computed by the following formula:

The ratio of the school district's adjusted valuation per pupil divided by the ratio of the total state adjusted valuation per pupil shall be subtracted from three, and then the result of the foregoing shall be divided by three plus (the ratio of the school district's adjusted valuation per pupil divided by the ratio of the total state adjusted valuation per pupil).

$$\begin{array}{rcccl} & \text{District adjusted} & & \text{Total state} & \\ & \text{3-valuation} & \div & \text{adjusted valuation} & \\ \text{Computed} & \text{per pupil} & & \text{per pupil} & \\ \text{State} & & & & \text{State} \\ = & \text{-----} & & & = - \% \text{ Funding} \\ \text{Ratio} & & & & \text{Assistance} \\ & \text{District adjusted} & & \text{Total state} & \\ & \text{3+valuation} & \div & \text{adjusted valuation} & \\ & \text{per pupil} & & \text{per pupil} & \end{array}$$

PROVIDED, That in the event the state funding assistance percentage to any school district based on the above formula is less than twenty percent and such school district is otherwise eligible for state funding assistance under RCW 28A.525.162 through 28A.525.180, the superintendent may establish for such district a state funding assistance percentage not in excess of twenty percent of the approved cost of the project, if the superintendent finds that such additional assistance is necessary to provide minimum facilities for housing the pupils of the district.

(3) In addition to the computed state funding assistance percentage developed in subsection (2) of this section, a school district shall be entitled to additional percentage points determined by the average percentage of growth for the past three years. One percent shall be added to the computed state funding assistance percentage for each percent of growth, with a maximum of twenty percent.

(4) The approved cost of the project determined in the manner prescribed in this section multiplied by the state funding assistance percentage derived as provided for in this section shall be the amount of state funding assistance to the district for the financing of the project: PROVIDED, That need therefor has been established to the satisfaction of the superintendent: PROVIDED, FURTHER, That additional state funding assistance may be allowed if it is found by the superintendent, considering policy recommendations from the school facilities citizen advisory panel that such assistance is necessary in order to meet (a) a school housing emergency resulting from the destruction of a school building by fire, the condemnation of a school building by properly constituted authorities, a sudden excessive and clearly foreseeable future increase in school population, or other conditions similarly emergent in nature; or (b) a special school housing burden resulting from projects of statewide significance or imposed by virtue of the admission of nonresident students into educational programs established, maintained and operated in conformity with the requirements of law; or (c) a deficiency in the capital funds of the district resulting from financing, subsequent to April 1, 1969, and without benefit of the state funding assistance provided by prior state assistance programs, the construction of a needed school building project or projects approved in conformity with the requirements of such programs, after having first applied for and been denied state funding assistance because of the inadequacy of state funds available for the purpose, or (d) a condition created by the fact that an excessive number of students

live in state owned housing, or (e) a need for the construction of a school building to provide for improved school district organization or racial balance, or (f) conditions similar to those defined under (a), (b), (c), (d), and (e) of this subsection, creating a like emergency. **28A.527.005 Findings—Intent—2008 c 179.** The legislature finds that the state's public schools and skill centers are a vital component of the future economic prosperity of our state and provide students with access to high-quality academic and technical skills instruction. Skill centers challenge, motivate, and provide opportunities for students to achieve in basic skills, critical thinking, leadership, and work skills through hands-on education, applied academics, and technology training using a cost-effective delivery model. The legislature further finds that barriers to access exist for students in rural and high-density areas, but the development of satellite and branch campus programs will provide the needed access. The legislature further finds that existing and proposed new skill centers will require facilities and equipment that simulate business and industry. Therefore, it is the

intent of the legislature to provide a new source of funding for the critical capital needs of the state's skill centers to enhance access to career and technical education opportunities and to improve the condition of existing facilities. Enhanced capital funding will provide skill centers the ability to fulfill their critical role in maintaining and stimulating the state's economy and expanding quality academic and career and technical education opportunities to more students, especially students who lack access to these programs to date.

In the interest of funding equity and ensuring a commitment to the new development, major renovation, or expansion of skill centers, all school district partners must contribute to the acquisition or major capital costs of skill center projects supported by this act to the greatest extent feasible. [2008 c 179 § 201.]

**28A.527.010 School construction assistance grants—Capital improvements—Bond issue.** For the purpose of providing school construction assistance grants and needed capital improvements consisting of the predesign, design, acquisition, construction, modification, renovation, expansion, equipping, and other improvements of skill centers facilities, including capital improvements to support satellite or branch campus programs for underserved rural areas or high-density areas, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of one hundred million dollars, or as much thereof as may be required, to finance all or a part of these projects and all costs incidental thereto. Bonds authorized in this section may be sold at such price as the state finance committee shall determine. No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds. If the state finance committee deems it necessary to issue taxable bonds in order to comply with federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds, the proceeds of such taxable bonds shall be transferred to the state taxable building construction account in lieu of any deposits otherwise provided by this section. The state treasurer shall submit written notice to the director of financial management if it is determined that any such transfer to the state taxable building construction account is necessary. [2008 c 179 § 202.]

**28A.527.020 Bond proceeds—Use.** This chapter is not intended to limit the legislature's ability to appropriate bond proceeds if the full amount authorized in this chapter has not been appropriated after one biennia, and the authorization to issue bonds contained in this chapter does not expire until the full authorization has been appropriated and issued. [2008 c 179 § 203.]

**28A.527.030 Proceeds from sale of bonds—Deposit—Use.** (1) The proceeds from the sale of the bonds authorized in RCW 28A.527.010 shall be deposited in the school construction and skill centers building account created in RCW 28A.527.090.

(2) The proceeds shall be used exclusively for the purposes stated in RCW 28A.527.010 and for the payment of the

(2010 Ed.)

expenses incurred in connection with the sale and issuance of the bonds. [2008 c 179 § 204.]

**28A.527.040 Payment of principal and interest from nondebt-limit reimbursable bond account.** (1) The nondebt-limit reimbursable bond retirement account must be used for the payment of the principal and interest on the bonds authorized in RCW 28A.527.010.

(2)(a) The state finance committee must, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements on the bonds authorized in RCW 28A.527.010.

(b) On or before the date on which any interest or principal and interest is due, the state treasurer shall transfer from that portion of the common school construction fund derived from the interest on the permanent common school fund into the nondebt-limit reimbursable bond retirement account the amount computed in (a) of this subsection for bonds issued for the purposes of RCW 28A.527.010. Any deficiency in such transfer shall be made up as soon as moneys are available for transfer and shall constitute a continuing obligation of that portion of the common school construction fund derived from the interest on the permanent common school fund until all deficiencies are fully paid. [2008 c 179 § 205.]

**28A.527.050 Pledge and promise—Remedies.** (1) Bonds issued under RCW 28A.527.010 shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay the principal and interest as the same shall become due.

(2) The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section. [2008 c 179 § 206.]

**28A.527.060 Bonds legal investment for public funds.** The bonds authorized in RCW 28A.527.010 shall be a legal investment for all state funds or funds under state control and for all funds of any other public body. [2008 c 179 § 207.]

**28A.527.070 Payment of principal and interest—Additional means for raising money authorized.** The legislature may provide additional means for raising moneys for the payment of the principal of and interest on the bonds authorized in RCW 28A.527.010, and \*RCW 28A.527.010 shall not be deemed to provide an exclusive method for the payment. [2008 c 179 § 208.]

**\*Reviser's note:** The reference to RCW 28A.527.010 appears to be erroneous. Reference to RCW 28A.527.040 was apparently intended.

**28A.527.080 Chapter supplemental.** This chapter provides a complete, additional, and alternative method for accomplishing the purposes of this chapter and is supplemental and additional to powers conferred by other laws. The issuance of bonds under this chapter shall not be deemed to

be the only method to fund projects under this chapter. [2008 c 179 § 209.]

**28A.527.090 School construction and skill centers building account.** The school construction and skill centers building account is created in the state treasury. Proceeds from the bonds issued under RCW 28A.527.010 shall be deposited in the account. The account shall be used for purposes stated in RCW 28A.527.010. Moneys in the account may be spent only after appropriation. [2008 c 179 § 210.]

**28A.527.900 Part headings not law—2008 c 179.** Part headings used in this act are not any part of the law. [2008 c 179 § 305.]

**28A.527.901 Severability--2008 c 179.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [2008 c 179 § 306.]

**28A.527.902 Effective date--2008 c 179.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [March 27, 2008]. [2008 c 179 § 307.]

(1) Funding outstanding indebtedness or bonds theretofore issued; or

(2) For the purchase of sites for all buildings, playgrounds, physical education and athletic facilities and structures authorized by law or necessary or proper to carry out the functions of a school district; or

(7) For any or all of these and other capital purposes.

Neither the amount of money borrowed nor bonds issued therefor shall exceed the limitation of indebtedness prescribed by chapter 39.36 RCW, as now or hereafter amended.

The bonds shall be issued and sold in accordance with chapter 39.46 RCW. **28A.530.020 Bond issuance—Election—Resolution to specify purposes.** (1) The question whether the bonds shall be issued, as provided in RCW 28A.530.010, shall be determined at an election to be held pursuant to RCW 39.36.050. If a majority of the votes cast at such election favor the issuance of such bonds, the board of directors must issue such bonds: PROVIDED, That if the amount of bonds to be issued, together with any outstanding indebtedness of the district that only needs a simple majority voter approval, exceeds three-eighths of one percent of the value of the taxable property in said district, as the term "value of the taxable property" is defined in RCW 39.36.015, then three-fifths of the votes cast at such election must be in favor of the issuance of such bonds, before the board of directors is authorized to issue said bonds.

(2) The resolution adopted by the board of directors calling the election in subsection (1) of this section shall specify the purposes of the debt financing measure, including the specific buildings to be constructed or remodeled and any additional specific purposes as authorized by RCW 28A.530.010. If the debt financing measure anticipates the receipt of state financing assistance under chapter 28A.525 RCW, the board resolution also shall describe the specific anticipated purpose of the state assistance. If the school board subsequently determines that state or local circumstances should cause any alteration to the specific expenditures from the debt financing or of the state assistance, the board shall first conduct a public hearing to consider those circumstances and to receive public testimony. If the board then determines that any such alterations are in the best interests of the district, it may adopt a new resolution or amend the original resolution at a public meeting held subsequent to the meeting at which public testimony was received. enrolled in the high school district during the school year which has been established pursuant to RCW 28A.545.060; and

(c) The result of the calculation provided for in subsection (1)(b) of this section shall be adjusted upward to the extent the estimated amount due by a nonhigh school district for the prior school year was less than the actual amount due based upon actual annual average full-time equivalent student enrollments during the previous school year and the actual per annual average full-time equivalent student maintenance and operation excess tax levy rate for the current tax collection year, of the high school district, or adjusted downward to the extent the estimated amount due was greater than such actual amount due or greater than such lesser amount as a high school district may have elected to assess pursuant to RCW 28A.545.090.

**28A.600.010 Enforcement of rules of conduct—Due process guarantees—Computation of days for short-term and long-term suspensions.** Every board of directors, unless otherwise specifically provided by law, shall:

(1) Enforce the rules prescribed by the superintendent of public instruction for the government of schools, pupils, and certificated employees.

(2) Adopt and make available to each pupil, teacher and parent in the district reasonable written rules regarding pupil conduct, discipline, and rights, including but not limited to short-term suspensions as referred to in RCW 28A.600.015 and suspensions in excess of ten consecutive days. Such rules shall not be inconsistent with any of the following: Federal statutes and regulations, state statutes, common law, and the rules of the superintendent of public instruction. The board's rules shall include such substantive and procedural due process guarantees as prescribed by the superintendent of

public instruction under RCW 28A.600.015. When such rules are made available to each pupil, teacher, and parent, they shall be accompanied by a detailed description of rights, responsibilities, and authority of teachers and principals with respect to the discipline of pupils as prescribed by state statutory law, the superintendent of public instruction, and the rules of the school district.

For the purposes of this subsection, computation of days included in "short-term" and "long-term" suspensions shall be determined on the basis of consecutive school days.

(3) Suspend, expel, or discipline pupils in accordance with RCW 28A.600.015. [2006 c 263 § 901; 1997 c 265 § 4; 1990 c 33 § 496; 1979 ex.s. c 173 § 2; 1975-'76 2nd ex.s. c 97 § 2; 1975 1st ex.s. c 254 § 1; 1971 ex.s. c 268 § 1; 1969 ex.s. c 223 § 28A.58.101. Formerly RCW 28A.58.101, 28.58.100(2), (6).]

**Findings—Purpose—Part headings not law—2006 c 263:** See notes following RCW 28A.150.230.

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28A.600.015 Rules incorporating due process guarantees of pupils—Informal due process procedures for short-term suspension of students.** (1) The superintendent of public instruction shall adopt and distribute to all school districts lawful and reasonable rules prescribing the substantive and procedural due process guarantees of pupils in the common schools. Such rules shall authorize a school district to use informal due process procedures in connection with the short-term suspension of students to the extent constitutionally permissible: PROVIDED, That the superintendent of public instruction deems the interest of students to be adequately protected. When a student suspension or expulsion is appealed, the rules shall authorize a school district to impose the suspension or expulsion temporarily after an initial hearing for no more than ten consecutive school days or until the appeal is decided, whichever is earlier. Any days that the student is temporarily suspended or expelled before the appeal is decided shall be applied to the term of the student suspension or expulsion and shall not limit or extend the term of the student suspension or expulsion.

(2) Short-term suspension procedures may be used for suspensions of students up to and including, ten consecutive school days. [2006 c 263 § 701; 1996 c 321 § 2; 1975-'76 2nd ex.s. c 97 § 1; 1971 ex.s. c 268 § 2. Formerly RCW 28A.305.160, 28A.04.132.]

**Findings—Purpose—Part headings not law—2006 c 263:** See notes following RCW 28A.150.230.

**28A.600.020 Exclusion of student from classroom—Written disciplinary procedures—Long-term suspension or expulsion.** (1) The rules adopted pursuant to RCW 28A.600.010 shall be interpreted to ensure that the optimum learning atmosphere of the classroom is maintained, and that the highest consideration is given to the judgment of qualified certificated educators regarding conditions necessary to maintain the optimum learning atmosphere.

(2) Any student who creates a disruption of the educational process in violation of the building disciplinary stan-

dards while under a teacher's immediate supervision may be excluded by the teacher from his or her individual classroom and instructional or activity area for all or any portion of the balance of the school day, or up to the following two days, or until the principal or designee and teacher have conferred, whichever occurs first. Except in emergency circumstances, the teacher first must attempt one or more alternative forms of corrective action. In no event without the consent of the teacher may an excluded student return to the class during the balance of that class or activity period or up to the following two days, or until the principal or his or her designee and the teacher have conferred.

(3) In order to preserve a beneficial learning environment for all students and to maintain good order and discipline in each classroom, every school district board of directors shall provide that written procedures are developed for administering discipline at each school within the district. Such procedures shall be developed with the participation of parents and the community, and shall provide that the teacher, principal or designee, and other authorities designated by the board of directors, make every reasonable attempt to involve the parent or guardian and the student in the resolution of student discipline problems. Such procedures shall provide that students may be excluded from their individual classes or activities for periods of time in excess of that provided in subsection (2) of this section if such students have repeatedly disrupted the learning of other students. The procedures must be consistent with the rules of the superintendent of public instruction and must provide for early involvement of parents in attempts to improve the student's behavior.

(4) The procedures shall assure, pursuant to RCW 28A.400.110, that all staff work cooperatively toward consistent enforcement of proper student behavior throughout each school as well as within each classroom.

(5) A principal shall consider imposing long-term suspension or expulsion as a sanction when deciding the appropriate disciplinary action for a student who, after July 27, 1997:

(a) Engages in two or more violations within a three-year period of RCW 9A.46.120, 28A.320.135, 28A.600.455, 28A.600.460, 28A.635.020, 28A.600.020, 28A.635.060, 9A.1.280, or 28A.320.140; or

(b) Engages in one or more of the offenses listed in RCW 13.04.155.

The principal shall communicate the disciplinary action taken by the principal to the school personnel who referred the student to the principal for disciplinary action. [2006 c 263 § 706; 1997 c 266 § 11; 1990 c 33 § 497; 1980 c 171 § 1; 1972 ex.s. c 142 § 5. Formerly RCW 28A.58.1011.]

**Findings—Intent—Severability—1997 c 266:** See notes following RCW 28A.600.455.

**28A.600.025 Students' rights of religious expression—Duty of superintendent of public instruction to inform school districts.** (1) The First Amendment to the United States Constitution, and Article I, sections 5 and 11 of the Washington state Constitution guarantee that students retain their rights of free speech and free exercise of religion,

(2010 Ed.)

notwithstanding the student's enrollment and attendance in a common school. These rights include, but are not limited to, the right of an individual student to freely express and incorporate the student's religious beliefs and opinions where relevant or appropriate in any and all class work, homework, evaluations or tests. School personnel may not grade the class work, homework, evaluation, or test on the religious expression but may grade the student's performance on scholastic content such as spelling, sentence structure, and grammar, and the degree to which the student's performance reflects the instruction and objectives established by the school personnel. School personnel may not subject an individual student who expresses religious beliefs or opinions in accordance with this section to any form of retribution or negative consequence and may not penalize the student's standing, evaluations, or privileges. An employee of the school district may not censure a student's expression of religious beliefs or opinions, when relevant or appropriate, in any class work, homework, evaluations or tests, extracurricular activities, or other activities under the sponsorship or auspices of the school district.

(2) This section is not intended to impose any limit on the exchange of ideas in the common schools of this state. No officer, employee, agent, or contractor of a school district may impose his or her religious beliefs on any student in class work, homework, evaluations or tests, extracurricular activities, or other activities under the auspices of the school district.

(3) The superintendent of public instruction shall distribute to the school districts information about laws governing students' rights of religious expression in school. [1998 c 131 § 2.]

**Findings—1998 c 131:** "The legislature recognizes the right of free speech and freedom of religion as guaranteed through the First Amendment to the United States Constitution and Article I, sections 5 and 11 of the Washington state Constitution and that these rights extend to students enrolled in the common schools of our state.

The legislature also recognizes that students may choose to exercise these rights, as protected under the law, in response to the challenges of academic pursuit. While the legislature upholds the rights of students to freely express their religious beliefs and right of free speech, it also holds firmly that it is not the role of education to solicit student responses that force students to reveal, analyze, or critique their religious beliefs." [1998 c 131 § 1.]

**28A.600.030 Grading policies—Option to consider attendance.** Each school district board of directors may establish student grading policies which permit teachers to consider a student's attendance in determining the student's overall grade or deciding whether the student should be granted or denied credit. Such policies shall take into consideration the circumstances pertaining to the student's inability to attend school. However, no policy shall be adopted whereby a grade shall be reduced or credit shall be denied for disciplinary reasons only, rather than for academic reasons, unless due process of law is provided as set forth by the superintendent of public instruction under RCW 28A.600.015. [2006 c 263 § 707; 1990 c 33 § 498; 1984 c 278 § 7. Formerly RCW 28A.58.195.]

**Findings—Purpose—Part headings not law—2006 c 263:** See notes following RCW 28A.150.230.

**28A.600.035 Policies on secondary school access and egress.** School district boards of directors shall review school district policies regarding access and egress by students from secondary school grounds during school hours. Each school district board of directors shall adopt a policy specifying any restrictions on students leaving secondary school grounds during school hours. [1995 c 312 § 82.]

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28A.600.040 Pupils to comply with rules and regulations.** All pupils who attend the common schools shall comply with the rules and regulations established in pursuance of the law for the government of the schools, shall pursue the required course of studies, and shall submit to the authority of the teachers of such schools, subject to such disciplinary or other action as the local school officials shall determine. [1969 ex.s. c 223 § 28A.58.200. Prior: 1909 c 97 p 263 § 6; RRS § 4690; prior: 1897 c 118 § 69; 1890 p 372 § 48. Formerly RCW 28A.58.200, 28.58.200.]

**28A.600.045 Comprehensive guidance and planning programs for students.** (1) The legislature encourages each middle school, junior high school, and high school to implement a comprehensive guidance and planning program for all students. The purpose of the program is to support students as they navigate their education and plan their future; encourage an ongoing and personal relationship between each student and an adult in the school; and involve parents in students' educational decisions and plans.

(2) A comprehensive guidance and planning program is a program that contains at least the following components:

(a) A curriculum intended to provide the skills and knowledge students need to select courses, explore options, plan for their future, and take steps to implement their plans. The curriculum may include such topics as analysis of students' test results; diagnostic assessments of students' academic strengths and weaknesses; use of assessment results in developing students' short-term and long-term plans; assessments of student interests and aptitude; goal-setting skills; planning for high school course selection; independent living skills; exploration of options and opportunities for career and technical education at the secondary and postsecondary level; exploration of career opportunities in emerging and high-demand programs including apprenticeships; and post-secondary options and how to access them;

(b) Regular meetings between each student and a teacher who serves as an advisor throughout the student's enrollment at the school;

(c) Student-led conferences with the student's parents, guardians, or family members and the student's advisor for the purpose of demonstrating the student's accomplishments; identifying weaknesses; planning and selecting courses; and setting long-term goals; and

(d) Data collection that allows schools to monitor students' progress.

(3) Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall provide support for comprehensive guidance and planning programs in public schools, including providing ongoing development and improvement of the curriculum described in sub-

section (2) of this section. [2008 c 170 § 303; 2006 c 117 § 2.]

**Findings—Intent—Part headings not law—2008 c 170:** See RCW 28A.700.005 and 28A.700.901.

**Intent—2006 c 117:** "The legislature recognizes that there are specific skills and a body of knowledge that each student needs to chart a course through middle school, high school, and posthigh school options. Each student needs active involvement from parents and at least one supportive adult in the school who knows the student well and cares about the student's progress and future. Students, parents, and teachers also need the benefit of immediate feedback and accurate diagnosis of students' academic strengths and weaknesses to inform the students' short-term and long-term plans. To empower and motivate all students and parents to take a greater role in charting the students' own educational experiences, the legislature intends to strengthen schools' guidance and planning programs." [2006 c 117 § 1.]

**28A.600.050 State honors awards program established—Purpose.** The Washington state honors awards program is hereby established for the purpose of promoting academic achievement among high school students enrolled in public or approved private high schools by recognizing outstanding achievement of students in academic core subjects. This program shall be voluntary on the part of each school district and each student enrolled in high school. [1985 c 62 § 1. Formerly RCW 28A.03.440.]

*Washington scholars' program: RCW 28A.600.100 through 28A.600.150.*

**28A.600.060 State honors awards program—Areas included.** The recipients of the Washington state honors awards shall be selected based on student achievement in both verbal and quantitative areas, as measured by a test or tests of general achievement selected by the superintendent of public instruction, and shall include student performance in the academic core areas of English, mathematics, science, social studies, and languages other than English, which may be American Indian languages. The performance level in such academic core subjects shall be determined by grade point averages, numbers of credits earned, and courses enrolled in during the beginning of the senior year. [1993 c 371 § 4; 1991 c 116 § 22; 1985 c 62 § 2. Formerly RCW 28A.03.442.]

**Severability—Effective date—2005 c 518:** See notes following RCW 28A.500.030.

**Findings—Intent—1999 c 159:** "The legislature finds that approximately thirty-five percent of the recipients of the Washington scholars award under RCW 28A.600.100 through 28A.600.150 choose to enroll in an out-of-state college and therefore do not use the grants that would have been available to them under RCW 28B.80.245 had they chosen to attend a college or university in the state of Washington. It is the intent of the legislature to require high school seniors who are announced as recipients of the Washington scholars award to demonstrate in a timely manner that they will be using any grants they may receive with their awards to enroll in a college or university in Washington state during the fall term of the same year in which they receive the award. Any grants not used by initial recipients should be awarded to alternate recipients who must also demonstrate in a timely manner that they will be using their grants to enroll in a Washington college or university in Washington state during the fall term." **28A.600.160 Educational pathways.** Any middle school, junior high school, or high school using educational pathways shall ensure that all participating students will continue to have access to the courses and instruction necessary to meet admission requirements at baccalaureate institutions. Students shall be allowed to enter the educational pathway of their choice. Before accepting a student into an educational pathway, the school shall inform the student's parent of the pathway chosen, the opportunities available to the student through the pathway, and the career objectives the student will have exposure to while pursuing the pathway. Providing online access to the information satisfies the requirements of this section unless a parent or guardian specifically request [requests] information to be provided in written form. Parents and students dissatisfied with the opportunities available through the selected educational pathway shall be provided with the opportunity to transfer the student to any other pathway provided in the school. Schools may not develop educational pathways that retain students in high school beyond the date they are eligible to graduate, and may not require students who transfer between pathways to complete pathway requirements beyond the date the student is eligible to graduate. Educational pathways may include, but are not limited to, programs such as worksite learning, internships, tech prep, career and technical education, running start, college in the high school, running start for the trades, and preparation for technical college, community college, or university education. **28A.600.190 Youth sports—Concussion and head injury guidelines—Injured athlete restrictions—Short title.** (1)(a) Concussions are one of the most commonly reported injuries in children and adolescents who participate in sports and recreational activities. The centers for disease control and prevention estimates that as many as three mil-

lion nine hundred thousand sports-related and recreation-related concussions occur in the United States each year. A concussion is caused by a blow or motion to the head or body that causes the brain to move rapidly inside the skull. The risk of catastrophic injuries or death are significant when a concussion or head injury is not properly evaluated and managed.

(b) Concussions are a type of brain injury that can range from mild to severe and can disrupt the way the brain normally works. Concussions can occur in any organized or unorganized sport or recreational activity and can result from a fall or from players colliding with each other, the ground, or with obstacles. Concussions occur with or without loss of consciousness, but the vast majority occurs without loss of consciousness.

(c) Continuing to play with a concussion or symptoms of head injury leaves the young athlete especially vulnerable to greater injury and even death. The legislature recognizes that, despite having generally recognized return to play standards for concussion and head injury, some affected youth athletes are prematurely returned to play resulting in actual or potential physical injury or death to youth athletes in the state of Washington.

(2) Each school district's board of directors shall work in concert with the Washington interscholastic activities association to develop the guidelines and other pertinent information and forms to inform and educate coaches, youth athletes, and their parents and/or guardians of the nature and risk of concussion and head injury including continuing to play after concussion or head injury. On a yearly basis, a concussion and head injury information sheet shall be signed and returned by the youth athlete and the athlete's parent and/or guardian prior to the youth athlete's initiating practice or competition.

(3) A youth athlete who is suspected of sustaining a concussion or head injury in a practice or game shall be removed from competition at that time.

(4) A youth athlete who has been removed from play may not return to play until the athlete is evaluated by a licensed health care provider trained in the evaluation and management of concussion and receives written clearance to return to play from that health care provider. The health care provider may be a volunteer. A volunteer who authorizes a youth athlete to return to play is not liable for civil damages resulting from any act or omission in the rendering of such care, other than acts or omissions constituting gross negligence or willful or wanton misconduct.

**28A.600.200 Interscholastic athletic and other extracurricular activities for students—Authority to regulate—Delegation of authority—Conditions.** Each school district board of directors is hereby granted and shall exercise the authority to control, supervise and regulate the conduct of interschool athletic activities and other interschool extracurricular activities of an athletic, cultural, social or recreational nature for students of the district. A board of directors may delegate control, supervision and regulation of any such activity to the Washington interscholastic activities association or any other voluntary nonprofit entity and compensate

such entity for services provided, subject to the following conditions:

(1) The voluntary nonprofit entity shall not discriminate in connection with employment or membership upon its governing board, or otherwise in connection with any function it performs, on the basis of race, creed, national origin, sex or marital status;

(2) Any rules and policies applied by the voluntary nonprofit entity which govern student participation in any interschool activity shall be written; and

(3) Such rules and policies shall provide for notice of the reasons and a fair opportunity to contest such reasons prior to a final determination to reject a student's request to participate in or to continue in an interschool activity. Any such decision shall be considered a decision of the school district conducting the activity in which the student seeks to participate or was participating and may be appealed pursuant to RCW 28A.645.010 through 28A.645.030. [2006 c 263 § 904; 1990 c 33 § 502; 1975-'76 2nd ex.s. c 32 § 1. Formerly RCW 28A.58.125.]

The committee shall be comprised of the secretary from each of the activity districts of the Washington interscholastic activities association. The committee shall begin hearing appeals by July 1, 2006. No committee member may participate in the appeal process if the member was involved in the activity that was the basis of the appeal. A decision of the appeals committee may be appealed to the executive board of the association. [2006 c 263 § 905.]

**28A.600.210 School locker searches—Findings.** The legislature finds that illegal drug activity and weapons in schools threaten the safety and welfare of school children and pose a severe threat to the state educational system. School officials need authority to maintain order and discipline in schools and to protect students from exposure to illegal drugs, weapons, and contraband. Searches of school-issued lockers and the contents of those lockers is a reasonable and necessary tool to protect the interests of the students of the state as a whole. [1989 c 271 § 244. Formerly RCW 28A.67.300.]

**28A.600.220 School locker searches—No expectation of privacy.** No right nor expectation of privacy exists for any student as to the use of any locker issued or assigned to a student by a school and the locker shall be subject to search for illegal drugs, weapons, and contraband as provided in RCW 28A.600.210 through 28A.600.240. **28A.600.230 School locker searches—Authorization—Limitations.** (1) A school principal, vice principal, or principal's designee may search a student, the student's possessions, and the student's locker, if the principal, vice principal, or principal's designee has reasonable grounds to suspect that the search will yield evidence of the student's violation of the law or school rules. A search is mandatory if there are reasonable grounds to suspect a student has illegally possessed a firearm in violation of RCW 9.41.280.

(2) Except as provided in subsection (3) of this section, the scope of the search is proper if the search is conducted as follows:

(a) The methods used are reasonably related to the objectives of the search; and

(b) Is not excessively intrusive in light of the age and sex of the student and the nature of the suspected infraction.

(3) A principal or vice principal or anyone acting under their direction may not subject a student to a strip search or body cavity search as those terms are defined in RCW 10.79.070. [1999 c 167 § 3; 1989 c 271 § 246. Formerly RCW 28A.67.320.]

**28A.600.240 School locker searches—Notice and reasonable suspicion requirements.** (1) In addition to the provisions in RCW 28A.600.230, the school principal, vice principal, or principal's designee may search all student lockers at any time without prior notice and without a reasonable suspicion that the search will yield evidence of any particular student's violation of the law or school rule.

(2) If the school principal, vice principal, or principal's designee, as a result of the search, develops a reasonable suspicion that a certain container or containers in any student locker contain evidence of a student's violation of the law or school rule, the principal, vice principal, or principal's designee may search the container or containers according to the provisions of RCW 28A.600.230(2). **28A.600.280 Dual credit programs—Annual report.** (1) The office of the superintendent of public instruction, in collaboration with the state board for community and technical colleges, the Washington state apprenticeship and training council, the workforce training and education coordinating board, the higher education coordinating board, and the public baccalaureate institutions, shall report by September 1, 2010, and annually thereafter to the education and higher education committees of the legislature regarding participation in dual credit programs. The report shall include:

(a) Data about student participation rates and academic performance including but not limited to running start, college in the high school, tech prep, international baccalaureate, advanced placement, and running start for the trades;

(b) Data on the total unduplicated head count of students enrolled in at least one dual credit program course; and

(c) The percentage of students who enrolled in at least one dual credit program as percent of all students enrolled in grades nine through twelve.

(2) Data on student participation shall be disaggregated by race, ethnicity, gender, and receipt of free or reduced-price lunch. [2009 c 450 § 2.]

**Findings—Intent—2009 c 450:** "(1) The legislature finds that the economy of the state of Washington requires a well-prepared workforce. To meet the need, more Washington students need to be prepared for postsecondary education and training. Further, the personal enrichment and success of Washington citizens increasingly relies on their ability to use the state's postsecondary education and training system. To accomplish those ends, the legislature desires to increase the number of students who begin earning college credits while still in high school.

(2) The legislature further finds that dual credit programs introduce students to college-level work, provide a jump start on getting a college degree, and, perhaps most importantly, show students that they can succeed in college. Dual credit programs also provide another avenue of student financial aid, since many programs are offered for little or no cost to students.

(3) The legislature also finds that students must be provided a choice when selecting a dual credit program that is right for them. Options should be available for the student who wants to learn on a college campus and the student who wants to stay at the high school and take college-level courses. Options must also be available for the hands-on learner who seeks to complete an apprenticeship program.

(4) The legislature intends to blur the line between high school and college by articulating a vision to dramatically increase participation in dual credit programs. It is for this reason that the legislature should call on all education stakeholders to come together to coordinate resources, track outcomes, and improve program availability.

(5) The legislature further intends to provide high schools, colleges, and universities with a set of tools for growing and coordinating dual credit programs. Institutions should be given some flexibility in determining the best methods to secure long-term, ample financial support for these programs, while students should be given some help in offsetting instructional costs." [2009 c 450 § 1.]

**28A.600.285 Dual credit programs—Impact on financial aid eligibility—Guidelines.** The superintendent of public instruction and the higher education coordinating board shall develop advising guidelines to assure that students and parents understand that college credits earned in high school dual credit programs may impact eligibility for financial aid. [2009 c 450 § 4.]

**Findings—Intent—2009 c 450:** See note following RCW 28A.600.280.

**28A.600.290 College in the high school program—Rules.** (1) The superintendent of public instruction, the state board for community and technical colleges, the higher education coordinating board, and the public baccalaureate institutions shall jointly develop and each adopt rules governing the college in the high school program. The association of Washington school principals shall be consulted during the rules development. The rules shall be written to encourage the maximum use of the program and may not narrow or limit the enrollment options.

(2) College in the high school programs shall each be governed by a local contract between the district and the institution of higher education, in compliance with the guidelines adopted by the superintendent of public instruction, the state board for community and technical colleges, and the public baccalaureate institutions.

(3) The college in the high school program must include the provisions in this subsection.

(a) The high school and institution of higher education together shall define the criteria for student eligibility. The institution of higher education may charge tuition fees to participating students.

(b) School districts shall report no student for more than one full-time equivalent including college in the high school courses.

(c) The funds received by the institution of higher education may not be deemed tuition or operating fees and may be retained by the institution of higher education.

(d) Enrollment information on persons registered under this section must be maintained by the institution of higher education separately from other enrollment information and may not be included in official enrollment reports, nor may such persons be considered in any enrollment statistics that would affect higher education budgetary determinations.

(e) A school district must grant high school credit to a student enrolled in a program course if the student successfully completes the course. If no comparable course is offered by the school district, the school district superintendent shall determine how many credits to award for the course. The determination shall be made in writing before the student enrolls in the course. The credits shall be applied toward graduation requirements and subject area requirements. Evidence of successful completion of each program course shall be included in the student's secondary school records and transcript.

(f) An institution of higher education must grant college credit to a student enrolled in a program course if the student successfully completes the course. The college credit shall be applied toward general education requirements or major requirements. If no comparable course is offered by the college, the institution of higher education at which the teacher of the program course is employed shall determine how many credits to award for the course and whether the course fulfills general education or major requirements. Evidence of successful completion of each program course must be included in the student's college transcript.

(g) Eleventh and twelfth grade students or students who have not yet received a high school diploma or its equivalent and are eligible to be in the eleventh or twelfth grades may participate in the college in the high school program.

(h) Participating school districts must provide general information about the college in the high school program to all students in grades ten, eleven, and twelve and to the parents and guardians of those students.

(i) Full-time and part-time faculty at institutions of higher education, including adjunct faculty, are eligible to teach program courses.

(4) The definitions in this subsection apply throughout this section.

(a) "Institution of higher education" has the meaning in RCW 28B.10.016 and also includes a public tribal college located in Washington and accredited by the Northwest commission on colleges and universities or another accrediting association recognized by the United States department of education.

(b) "Program course" means a college course offered in a high school under the college in the high school program. [2009 c 450 § 3.]

**Findings—Intent—2009 c 450:** See note following RCW 28A.600.280.

**28A.600.300 Running start program—Definition.**

(1) The program established in this section through RCW 28A.600.400 shall be known as the running start program.

(2) For the purposes of RCW 28A.600.310 through 28A.600.400, "participating institution of higher education" or "institution of higher education" means:

(a) A community or technical college as defined in RCW 28B.50.030;

(b) A public tribal college located in Washington and accredited by the northwest commission on colleges and universities or another accrediting association recognized by the United States department of education; and

(c) Central Washington University, Eastern Washington University, Washington State University, and The Evergreen State College, if the institution's governing board decides to participate in the program in RCW 28A.600.310 through 28A.600.400. [2009 c 450 § 7; 2005 c 207 § 5; 2002 c 80 § 1; 1994 c 205 § 1; 1990 1st ex.s. c 9 § 401.]

**Findings—Intent—2009 c 450:** See note following RCW 28A.600.280.

**Findings—Intent—2005 c 207:** "The legislature finds that the dropout rate of the state's Native American students is the highest in the state. Approximately one-half of all Native American high school students drop out before graduating with a diploma. The legislature also finds that culturally relevant educational opportunities are important contributors to other efforts to increase the rates of high school graduation for Native American students. The legislature further finds that the higher education participation rate for Native American students is the lowest in the state, and that more can be done to encourage Native American students to pursue higher educational opportunities. The legislature intends to authorize accredited public tribal colleges to participate in the running start program for the purposes of reducing the dropout rate of Native American students and encouraging greater participation rates in higher education." [2005 c 207 § 4.]

**Finding—Severability—1990 1st ex.s. c 9:** See notes following RCW 28A.225.220.

**28A.600.310 Running start program—Enrollment in institutions of higher education—Student fees—Fee waivers—Transmittal of funds—Report on program financial support.** (1) Eleventh and twelfth grade students or students who have not yet received the credits required for the award of a high school diploma and are eligible to be in the eleventh or twelfth grades may apply to a participating institution of higher education to enroll in courses or programs offered by the institution of higher education. A student receiving home-based instruction enrolling in a public high school for the sole purpose of participating in courses or programs offered by institutions of higher education shall not be counted by the school district in any required state or federal accountability reporting if the student's parents or guardians filed a declaration of intent to provide home-based instruction and the student received home-based instruction during the school year before the school year in which the student intends to participate in courses or programs offered by the institution of higher education. Students receiving home-based instruction under chapter 28A.200 RCW and students attending private schools approved under chapter 28A.195 RCW shall not be required to meet the student learning goals, obtain a certificate of academic achievement or a certificate of individual achievement to graduate from high school, or to

(2010 Ed.)

master the essential academic learning requirements. However, students are eligible to enroll in courses or programs in participating universities only if the board of directors of the student's school district has decided to participate in the program. Participating institutions of higher education, in consultation with school districts, may establish admission standards for these students. If the institution of higher education accepts a secondary school pupil for enrollment under this section, the institution of higher education shall send written notice to the pupil and the pupil's school district within ten days of acceptance. The notice shall indicate the course and hours of enrollment for that pupil.

(2) In lieu of tuition and fees, as defined in RCW 28B.15.020 and 28B.15.041, running start students shall pay to the community or technical college all other mandatory fees as established by each community or technical college; and all other institutions of higher education operating a running start program may charge technology fees. The fees charged shall be prorated based on credit load.

(3) The institutions of higher education must make available fee waivers for low-income running start students. Each institution must establish a written policy for the determination of low-income students before offering the fee waiver. A student shall be considered low income and eligible for a fee waiver upon proof that the student is currently qualified to receive free or reduced-price lunch. Acceptable documentation of low-income status may also include, but is not limited to, documentation that a student has been deemed eligible for free or reduced-price lunches in the last five years, or other criteria established in the institution's policy.

(4) The pupil's school district shall transmit to the institution of higher education an amount per each full-time equivalent college student at statewide uniform rates for vocational and nonvocational students. The superintendent of public instruction shall separately calculate and allocate moneys appropriated for basic education under RCW 28A.150.260 to school districts for purposes of making such payments and for granting school districts seven percent thereof to offset program related costs. The calculations and allocations shall be based upon the estimated statewide annual average per full-time equivalent high school student allocations under RCW 28A.150.260, excluding small high school enhancements, and applicable rules adopted under chapter 34.05 RCW. The superintendent of public instruction, the higher education coordinating board, and the state board for community and technical colleges shall consult on the calculation and distribution of the funds. The funds received by the institution of higher education from the school district shall not be deemed tuition or operating fees and may be retained by the institution of higher education. A student enrolled under this subsection shall be counted for the purpose of meeting enrollment targets in accordance with terms and conditions specified in the omnibus appropriations act.

(5) The state board for community and technical colleges, in collaboration with the other institutions of higher education that participate in the running start program and the office of the superintendent of public instruction, shall identify, assess, and report on alternatives for providing ongoing and adequate financial support for the program. Such alternatives shall include but are not limited to student tuition,

increased support from local school districts, and reallocation of existing state financial support among the community and technical college system to account for differential running start enrollment levels and impacts. **28A.600.385 Running start program—Cooperative agreements with community colleges in Oregon and Idaho.** (1) School districts in Washington and community colleges in Oregon and Idaho may enter into cooperative agreements under chapter 39.34 RCW for the purpose of allowing eleventh and twelfth grade students who are enrolled in the school districts to earn high school and college credit concurrently.

(2) Except as provided in subsection (3) of this section, if a school district exercises the authority granted in subsection (1) of this section, the provisions of RCW 28A.600.310 through 28A.600.360 and 28A.600.380 through 28A.600.400 shall apply to the agreements.

(3) A school district may enter an agreement in which the community college agrees to accept an amount less than the statewide uniform rate under \*RCW 28A.600.310(2) if the community college does not charge participating students

tuition and fees. A school district may not pay a per-credit rate in excess of the statewide uniform rate under \*RCW 28A.600.310(2).

(4) To the extent feasible, the agreements shall permit participating students to attend the community college without paying any tuition and fees. The agreements shall not permit the community college to charge participating students nonresident tuition and fee rates.

(5) The agreements shall ensure that participating students are permitted to enroll only in courses that are transferable to one or more institutions of higher education as defined in RCW 28B.10.016. [1998 c 63 § 2.]

**\*Reviser's note:** RCW 28A.600.310 was amended by 2009 c 450 § 8, changing subsection (2) to subsection (4).

**Finding—1998 c 63:** "The legislature finds that students may have difficulty attending community college for the purpose of the running start program due to the distance of the nearest community college. In these cases, it may be more advantageous for students in border counties to attend community colleges in neighboring states. The legislature encourages school districts to pursue interagency agreements with community colleges in neighboring states when it is in the best interests of the student's educational progress." **28A.600.390 Running start program—Rules.** The superintendent of public instruction, the state board for community and technical colleges, and the higher education coordinating board shall jointly develop and adopt rules governing RCW 28A.600.300 through 28A.600.380, if rules are necessary. **28A.600.405 Participation in high school completion pilot program—Eligible students—Funding allocations—Rules—Information for students and parents.** (1) For purposes of this section and RCW 28B.50.534, "eligible student" means a student who has completed all state and local high school graduation requirements except the certificate of academic achievement under RCW 28A.655.061 or the certificate of individual achievement under RCW 28A.155.045, who is less than age twenty-one as of September 1st of the academic year the student enrolls at a community and technical college under this section, and who meets the following criteria:

(a) Receives a level 2 (basic) score on the reading and writing content areas of the high school Washington assessment of student learning;

(b) Has not successfully met state standards on a retake of the assessment or an alternative assessment;

(c) Has participated in assessment remediation; and

(d) Receives a recommendation to enroll in courses or a program of study made available under RCW 28B.50.534 from his or her high school principal.

(2) An eligible student may enroll in courses or a program of study made available by a community or technical college participating in the pilot program created under RCW 28B.50.534 for the purpose of obtaining a high school diploma.

(3) For eligible students in courses or programs delivered directly by the community or technical college participating in the pilot program under RCW 28B.50.534 and only for enrollment in courses that lead to a high school diploma, the superintendent of public instruction shall transmit to the colleges participating in the pilot program an amount per each full-time equivalent college student at statewide uniform rates. The amount shall be the sum of (a), (b), (c), and (d) of this subsection, as applicable.

(a) The superintendent shall separately calculate and allocate moneys appropriated for basic education under RCW 28A.150.260 for purposes of making payments under this section. The calculations and allocations shall be based upon the estimated statewide annual average per full-time equivalent high school student allocations under RCW 28A.150.260, excluding small high school enhancements, and applicable rules adopted under chapter 34.05 RCW.

(b) The superintendent shall allocate an amount equal to the per funded student state allocation for the learning assistance program under chapter 28A.165 RCW for each full-time equivalent college student or a pro rata amount for less than full-time enrollment.

(c) The superintendent shall allocate an amount equal to the per full-time equivalent student allocation for the student achievement program under RCW 28A.505.210 for each full-time equivalent college student or a pro rata amount for less than full-time enrollment.

(5) All school districts in the geographic area of the two community and technical colleges selected pursuant to section 8, chapter 355, Laws of 2007 to participate in the pilot program shall provide information about the high school completion option under RCW 28B.50.534 to students in grades ten, eleven, and twelve and the parents or guardians of those students. [2007 c 355 § 4.]

**Finding—Intent—2007 c 355:** See note following RCW 28B.50.534.

**28A.600.410 Alternatives to suspension—Encouraged.** School districts are encouraged to find alternatives to suspension including reducing the length of a student's suspension conditioned by the commencement of counseling or

other treatment services. Consistent with current law, the conditioning of a student's suspension does not obligate the school district to pay for the counseling or other treatment services except for those stipulated and agreed to by the district at the inception of the suspension. [1992 c 155 § 1.]

**28A.600.420 Firearms on school premises, transportation, or facilities—Penalty—Exemptions.** (1) Any elementary or secondary school student who is determined to have carried a firearm onto, or to have possessed a firearm on, public elementary or secondary school premises, public school-provided transportation, or areas of facilities while being used exclusively by public schools, shall be expelled from school for not less than one year under RCW 28A.600.010. The superintendent of the school district, educational service district, or state school for the blind, or the director of the Washington state center for childhood deafness and hearing loss, or the director's designee, may modify the expulsion of a student on a case-by-case basis.

(2) For purposes of this section, "firearm" means a firearm as defined in 18 U.S.C. Sec. 921, and a "firearm" as defined in RCW 9A.1.010.

(3) This section shall be construed in a manner consistent with the individuals with disabilities education act, 20 U.S.C. Sec. 1401 et seq.

(4) Nothing in this section prevents a public school district, educational service district, the Washington state center for childhood deafness and hearing loss, or the state school for the blind if it has expelled a student from such student's regular school setting from providing educational services to the student in an alternative setting.

(5) This section does not apply to:

(a) Any student while engaged in military education authorized by school authorities in which rifles are used but not other firearms; or

(b) Any student while involved in a convention, showing, demonstration, lecture, or firearms safety course authorized by school authorities in which the rifles of collectors or instructors are handled or displayed but not other firearms; or

(c) Any student while participating in a rifle competition authorized by school authorities.

(6) A school district may suspend or expel a student for up to one year subject to subsections (1), (3), (4), and (5) of this section, if the student acts with malice as defined under RCW 9A.04.110 and displays an instrument that appears to be a firearm, on public elementary or secondary school premises, public school-provided transportation, or areas of facilities while being used exclusively by public schools. [2009 c 381 § 31; 1997 c 265 § 5; 1995 c 335 § 304; 1995 c 87 § 2.]

**28A.600.455 Gang activity—Suspension or expulsion.** (1) A student who is enrolled in a public school or an alternative school may be suspended or expelled if the student is a member of a gang and knowingly engages in gang activity on school grounds.

(2) "Gang" means a group which: (a) Consists of three or more persons; (b) has identifiable leadership; and (c) on an

ongoing basis, regularly conspires and acts in concert mainly for criminal purposes. [1997 c 266 § 2.]

**Findings—Intent—1997 c 266:** "The legislature finds that the children of this state have the right to an effective public education and that both students and educators have the need to be safe and secure in the classroom if learning is to occur. The legislature also finds, however, that children in many of our public schools are forced to focus on the threat and message of violence contained in many aspects of our society and reflected through and in gang violence activities on school campuses.

The legislature recognizes that the prevalence of weapons, including firearms and dangerous knives, is an increasing problem that is spreading rapidly even to elementary schools throughout the state. Gang-related apparel and regalia compound the problem by easily concealing weapons that threaten and intimidate students and school personnel. These threats have resulted in tragic and unnecessary bloodshed over the past two years and must be eradicated from the system if student and staff security is to be restored on school campuses. Many educators believe that school dress significantly influences student behavior in both positive and negative ways. Special school dress up and color days signify school spirit and provide students with a sense of unity. Schools that have adopted school uniforms report a feeling of togetherness, greater school pride, and better student behavior in and out of the classroom. This sense of unity provides students with the positive attitudes needed to avert the pressures of gang involvement.

The legislature also recognizes there are other more significant factors that impact school safety such as the pervasive use of drugs and alcohol in school. In addition to physical safety zones, schools should also be drug-free zones that expressly prohibit the sale, use, or possession of illegal drugs on school property. Students involved in drug-related activity are unable to benefit fully from educational opportunities and are disruptive to the learning environment of their fellow students. Schools must be empowered to make decisions that positively impact student learning by eradicating drug use and possession on their campuses. This flexibility should also be afforded to schools as they deal with other harmful substance abuse activities engaged in by their students.

Toward this end, the legislature recognizes the important role of the classroom teacher who must be empowered to restore discipline and safety in the classroom. Teachers must have the ability to control the conduct of students to ensure that their mission of educating students may be achieved. Disruptive behavior must not be allowed to continue to divert attention, time, and resources from educational activities.

The legislature therefore intends to define gang-related activities as criminal behavior disruptive not only to the learning environment but to society as a whole, and to provide educators with the authority to restore order and safety to the student learning environment, eliminate the influence of gang activities, and eradicate drug and substance abuse on school campuses, thus empowering educators to regain control of our classrooms and provide our students with the best educational opportunities available in our schools.

The legislature also finds that students and school employees have been subjected to violence such as rapes, assaults, or harassment that has not been gang or drug-related criminal activity. The legislature intends that all violence and harassment directed at students and school personnel be eradicated in public schools." [1997 c 266 § 1.]

**28A.600.460 Classroom discipline—Policies—Classroom placement of student offenders—Data on disciplinary actions.** (1) School district boards of directors shall adopt policies that restore discipline to the classroom. Such policies must provide for at least the following: Allowing each teacher to take disciplinary action to correct a student who disrupts normal classroom activities, abuses or insults a teacher as prohibited by RCW 28A.635.010, willfully disobeys a teacher, uses abusive or foul language directed at a school district employee, school volunteer, or another student, violates school rules, or who interferes with an orderly education process. Disciplinary action may include but is not limited to: Oral or written reprimands; written notification to parents of disruptive behavior, a copy of which must be provided to the principal.

(2) A student committing an offense under chapter 9A.36, 9A.40, 9A.46, or 9A.48 RCW when the activity is directed toward the teacher, shall not be assigned to that teacher's classroom for the duration of the student's attendance at that school or any other school where the teacher is assigned.

(3) A student who commits an offense under chapter 9A.36, 9A.40, 9A.46, or 9A.48 RCW, when directed toward another student, may be removed from the classroom of the victim for the duration of the student's attendance at that school or any other school where the victim is enrolled. A student who commits an offense under one of the chapters enumerated in this section against a student or another school employee, may be expelled or suspended.

(4) Nothing in this section is intended to limit the authority of a school under existing law and rules to expel or suspend a student for misconduct or criminal behavior.

(5) All school districts must collect data on disciplinary actions taken in each school. The information shall be made available to the public upon request. This collection of data shall not include personally identifiable information including, but not limited to, a student's social security number, name, or address. [1997 c 266 § 9.]

**28A.600.475 Exchange of information with law enforcement and juvenile court officials—Notification of parents and students.** School districts may participate in the exchange of information with law enforcement and juvenile court officials to the extent permitted by the family educational and privacy rights act of 1974, 20 U.S.C. Sec. 1232g. When directed by court order or pursuant to any lawfully issued subpoena, a school district shall make student records and information available to law enforcement officials, probation officers, court personnel, and others legally entitled to the information. Except as provided in RCW 13.40.480, parents and students shall be notified by the school district of all such orders or subpoenas in advance of compliance with them. (2) A school employee, student, or volunteer who has witnessed, or has reliable information that a student has been subjected to, harassment, intimidation, or bullying, whether verbal or physical, is encouraged to report such incident to an appropriate school official.

(3) A school employee, student, or volunteer who promptly reports an incident of harassment, intimidation, or bullying to an appropriate school official, and who makes this report in compliance with the procedures in the district's policy prohibiting bullying, harassment, or intimidation, is

immune from a cause of action for damages arising from any failure to remedy the reported incident. [2002 c 207 § 4.]

28A.623.020	Nonprofit program for elderly—Authorized—Restrictions.
28A.623.030	Nonprofit program for certain children and students—Conditions and restrictions.

**28A.623.010 Nonprofit program for elderly—Purpose.** The legislature finds that many elderly persons suffer dietary deficiencies and malnutrition due to inadequate financial resources, immobility, lack of interest due to isolation and loneliness, and characteristics of the aging process, such as physiological, social, and psychological changes which result in a way of life too often leading to feelings of rejection, abandonment, and despair. There is a real need as a matter of public policy to provide the elderly citizens with adequate nutritionally sound meals, through which their isolation may be penetrated with the company and the social contacts of their own. It is the declared purpose of RCW 28A.235.120, 28A.623.010, and 28A.623.020 to raise the level of dignity of the aged population where their remaining years can be lived in a fulfillment equal to the benefits they have bestowed, the richness they have added, and the great part they have played

in the life of our society and nation. [1990 c 33 § 511; 1973 c 107 § 1. Formerly RCW 28A.58.720.]

**28A.623.020 Nonprofit program for elderly—Authorized—Restrictions.** The board of directors of any school district may establish or allow for the establishment of a nonprofit meal program for feeding elderly persons residing within the area served by such school district using school facilities, and may authorize the extension of any school food services for the purpose of feeding elderly persons, subject to the following conditions and restrictions:

(1) The charge to such persons for each meal shall not exceed the actual cost of such meal to the school.

(2) The program will utilize methods of administration which will assure that the maximum number of eligible individuals may have an opportunity to participate in such a program, and will coordinate, whenever possible, with the local area agency on aging.

(3) Any nonprofit meal program established pursuant to RCW 28A.235.120, 28A.623.010, and 28A.623.020 may not be operated so as to interfere with the normal educational process within the schools.

(4) No school district funds may be used for the operation of such a meal program.

(5) For purposes of RCW 28A.235.120, 28A.623.010, and 28A.623.020, "elderly persons" shall mean persons who are at least sixty years of age. [1990 c 33 § 512; 1973 c 107 § 3. Formerly RCW 28A.58.722.]

**28A.623.030 Nonprofit program for certain children and students—Conditions and restrictions.** The board of directors of any school district may establish or allow for the establishment of a nonprofit meal program using school facilities for feeding children who are participating in educational programs or activities conducted by private, nonprofit organizations and entities and students who are attending private elementary and secondary schools, and may authorize the extension of any school food services for the purpose of feeding such children and students, subject to the following conditions and restrictions:

(1) The charge to such persons, organizations, entities or schools for each meal shall be not less than the actual cost of such meal to the school, inclusive of a reasonable charge for overhead and the value of the use of the facilities.

(2) The meal program shall not be operated so as to interfere with the educational process within the school district.

(3) The meal program shall not be operated so as to impair or reduce the provision of food services to students of the school districts. [1979 c 58 § 2. Formerly RCW 28A.58.724.]

MATHEMATICS, ENGINEERING, AND  
SCIENCE ACHIEVEMENT

**28A.625.200 Findings and intent.** The legislature finds that high technology is important to the state's economy and the welfare of its citizens. The legislature finds that certain groups, as characterized by sex or ethnic background, are traditionally underrepresented in mathematics, engineering, and the science-related professions in this state. The legislature finds that women and minority students have been traditionally discouraged from entering the fields of science and mathematics including teaching in these fields. The legislature finds that attitudes and knowledges acquired during the kindergarten through eighth grade prepare students to succeed in high school science and mathematics programs and that special skills necessary for these fields need to be acquired during the ninth through twelfth grades. It is the intent of the legislature to promote a mathematics, engineering, and science achievement program to help increase the number of people in these fields and teaching in these fields from groups underrepresented in these fields. [1989 c 66 § 1; 1984 c 265 § 1. Formerly RCW 28A.03.430.]

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28A.625.210 Mathematics, engineering, and science achievement program—Establishment and administration through University of Washington—Goals.** A program to increase the number of people from groups underrepresented in the fields of mathematics, engineering, and the physical sciences in this state shall be established by the University of Washington. The program shall be administered through the University of Washington and designed to:

(1) Encourage students in the targeted groups in the common schools, with a particular emphasis on those students in middle and junior high schools and the sixth through twelfth grades, to acquire the academic skills needed to study mathematics, engineering, or related sciences at an institution of higher education;

(2) Promote the awareness of career opportunities including the career opportunities of teaching in the fields of science and mathematics and the skills necessary to achieve those opportunities among students sufficiently early in their educational careers to permit and encourage the students to acquire the skills;

(3) Promote cooperation among institutions of higher education, the superintendent of public instruction and local school districts in working towards the goals of the program; and

(4) Solicit contributions of time and resources from public and private institutions of higher education, high schools, middle and junior high schools, and private business and industry. [1990 c 286 § 1; 1989 c 66 § 2; 1984 c 265 § 2. Formerly RCW 28A.03.432.]

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28A.625.220 Mathematics, engineering, and science achievement program—Coordinator—Staff.** A coordinator shall be hired to administer the program. Additional staff as necessary may be hired. [1984 c 265 § 3. Formerly RCW 28A.03.434.]

[Title 28A RCW—page 272]

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28A.625.230 Coordinator to develop selection standards.** The coordinator shall develop standards and criteria for selecting students who participate in the program which may include predictive instruments to ascertain aptitude and probability of success. The standards shall include requirements that students take certain courses, maintain a certain grade point average, and participate in activities sponsored by the program. Women and students from minority groups, which are traditionally underrepresented in mathematics and science-related professions and which meet the requirements established by the coordinator shall be selected. [1984 c 265 § 4. Formerly RCW 28A.03.436.]

**28A.625.240 Local program centers.** The coordinator shall establish local program centers throughout the state to implement RCW 28A.625.210 through 28A.625.230. Each center shall be managed by a center director. Additional staff as necessary may be hired. [1990 c 33 § 521; 1984 c 265 § 5. Formerly RCW 28A.03.438.]

#### PILOT PROJECT FOR CHILDREN IN FOSTER CARE

**28A.630.005 Pilot project to assist school-age children in short-term foster care.** (1) The Nooksack Valley and Mount Vernon school districts shall implement a pilot project within existing resources to assist school-age children in foster care fewer than seventy-five days to continue attending the school where they were enrolled before entering fos-

(2010 Ed.)

ter care. The pilot project shall be implemented as provided in this section no later than April 30, 2002, and shall conclude June 30, 2003. Data from the pilot project shall be compiled and submitted to the working group established in RCW 28A.300.800 no later than July 30, 2002, and periodically thereafter.

(2) For the purposes of the pilot project in the two school districts, the department of social and health services and the school districts shall, as appropriate, undertake the following activities:

(a) A school-age child who enters foster care on or after April 30, 2002, shall, unless it is determined to be not in the best interest of the child, continue attending the school where she or he was enrolled before entering foster care, notwithstanding the physical location of the child's principal abode. The best interest of the child determination shall be made at the seventy-two hour shelter care hearing, and reviewed at any subsequent shelter care hearing.

(b) The department of social and health services, the school the child was attending prior to entering foster care, and the school that serves the child's foster home shall negotiate a plan for transporting the child to the school the child was attending prior to entering foster care. The department of social and health services shall not be responsible for the cost of transportation of the children in the pilot project.

(c) If the department of social and health services places a child in foster care, and the child does not continue to attend the school the child was attending prior to entering foster care, the department shall notify the school about the change. [2002 c 326 § 2.]

**Effective date—2002 c 326:** See note following RCW 28A.300.800.

#### SPECIAL SERVICES PILOT PROGRAM

**28A.630.016 Special services pilot program—Requirements for participation—Duties of superintendent of public instruction—Funding—Reports.** (*Expires June 30, 2011.*) (1)(a) Research has shown that early, intensive interventions can significantly improve reading, written language, and mathematics skills for children who are struggling academically. This early research-based assistance has been successful in reducing the number of children who require specialized programs. Research further suggests that the disabilities of many students with mild and moderate disabilities are correctable through strategic early intervention and the students do not necessitate special education eligibility. However, by being effective in reducing the number of students eligible for these programs, school district funding is reduced.

(b) The purpose of the program in this section is to continue support to the existing pilot districts and to encourage other school districts to participate as pilot districts to improve the implementation of high quality general education research-based core instructional programs to meet the needs of students struggling academically, while reducing the number of students inappropriately referred and placed in special education under the specific learning disability eligibility category because of ineffective instructional practices. This will allow special education programs to concentrate specially designed instruction on students who truly require special education services. The goal of this assistance is to

effectively address reading, written language, and mathematics difficulties resulting in a substantially greater proportion of students meeting the progressively increasing performance standards for both the aggregate and disaggregated subgroups under federal law.

(c) The participating pilot districts implementing the special services pilot program have met the goals of the pilot program resulting in (i) a substantial number of underachieving students meeting the progressively increasing reading performance standards and (ii) a reduction in the number of children who require special education.

(2) Seven school districts may participate in the special services pilot program, including two school districts already participating and five additional school districts. The special services pilot program shall begin in the 2007-08 school year and conclude in the 2010-11 school year.

(3) School districts participating in the pilot program shall receive state special education funding in accordance with state special education funding formulas and a separate pilot program appropriation from sources other than special education funds. The separate appropriation shall be: (a) The school district's estimated state special education funding for the current year based on the school district's average percentage of students age three through twenty-one who were eligible for special education services for the school year before participation as a pilot program as reported to the office of the superintendent of public instruction; minus (b) the school district's actual state special education funding based on the district's current percentage of students age three through twenty-one eligible for special education services as reported to [the office of] the superintendent of public instruction.

The superintendent shall adjust the factors in (a) of this subsection for one or more participating school districts, where legislative changes to the special education funding formula impact the funding mechanism of this program.

(4) Participation in the pilot program shall not increase or decrease a district's ability to access the safety net for high-cost students by virtue of the district's participation in the program. Districts participating in the pilot program shall have access to the special education safety net using a modified application approach for the office of the superintendent of public instruction demonstration of financial need. The superintendent shall create a modified application to include all special education revenues received by the district, all pilot program funding, expenditures for students with individual education programs, and expenditures for students generating pilot program revenue. Districts participating in the pilot program that seek safety net funding shall convincingly demonstrate to the safety net committee that any change in demonstrated need is not attributable to their participation in this pilot program.

(5) School districts participating in the program must agree to:

(a) Implement the program as part of the school district's general education curriculum for all students;

(b) Use a multitiered service delivery system to provide scientific research-based instructional interventions addressing individual student needs in the areas of reading, written language, or mathematics;

(c) Develop and implement an assessment system to conduct universal screening, progress monitoring, targeted assessments, and outcome assessments to identify the reading, written language, or mathematics needs of each student and to monitor student progress;

(d) Incorporate student-specific data obtained through the pilot program when conducting an evaluation to determine if the student has a disability;

(e) Assure that parents are informed of: The amount and nature of student performance data that is collected and the general education services that are provided; the strategies for increasing the student's rate of learning; the parents' right to make a referral for special education evaluation if they suspect the student has a disability; and the parents' right to have input into designed interventions;

(f) Assure that parents are provided assessments of achievement at reasonable intervals addressing student progress during instruction;

(g) Actively engage parents as partners in the learning process;

(h) Comply with state special education requirements; and

(i) Participate and provide staff expertise in the design and implementation of an evaluation of the program as determined by the superintendent of public instruction. Districts shall annually review and report progress, including objective measures or indicators that show the progress towards achieving the purpose and goal of the program, to the office of the superintendent of public instruction.

(6) By December 15, 2010, the superintendent of public instruction shall submit a report to the governor and appropriate committees of the legislature that summarizes the effectiveness of the pilot program in this section. The report shall also include a recommendation as to whether or not the pilot program should be continued, expanded, or otherwise modified.

(7) This section expires June 30, 2011. [2007 c 522 § 959.]

**Severability—Effective date—2007 c 522:** See notes following RCW 15.64.050.

#### COMPREHENSIVE K-3 FOUNDATIONS PROGRAM DEMONSTRATION PROJECTS

**28A.630.055 Comprehensive K-3 foundations program—Demonstration projects—Evaluation—Reports. (Expires September 1, 2010.)** Subject to funds appropriated for the purposes of this section:

(1) Four demonstration projects are authorized for schools serving kindergarten through third grade students to develop, implement, and document the effects of a comprehensive K-3 foundations program. At least two demonstration projects shall be in schools that are participating in the public-private early learning partnerships in the Highline and Yakima school districts. A third demonstration project shall be in the Spokane school district.

(2) The superintendent of public instruction shall select project participants based on the criteria in this section, the commitment to a school-wide program, and the degree to which applicants articulate an understanding of development

and implementation of a comprehensive K-3 foundations program.

(g) Commit to individualized learning opportunities in early grades by using district resources, such as funding under RCW 28A.505.210, to reduce class sizes in grades kindergarten through three.

(4) Program resources provided to demonstration projects are:

(a) Support to implement an all-day kindergarten program;

(b) Support for class sizes at a ratio of one teacher to eighteen students, and the additional resources for materials generated by that ratio through associated nonemployee-related costs;

(c) Support for a one-half full-time equivalent instructional coach; and

(d) Support for professional development time related to program implementation.

(5) Demonstration projects shall provide:

(a) A program that implements an educational philosophy that supports child-centered learning;

(b) Learning opportunities through personal exploration and discovery, hands-on experiences, and by working independently, in small groups and in large groups;

(c) Rich and varied subject matter that includes: Reading, writing, mathematics, science, social studies, a world language other than English, the arts, and health and physical education;

(d) Opportunities to learn and feel accomplishment, diligence, creativity, and confidence;

(e) Social and emotional development opportunities;

(f) Personalized assessment for each student that addresses academic knowledge and skill development, social and emotional skill development, critical thinking and decision-making skills, large and fine motor skill development, and knowledge of personal interests, strengths, and goals;

(h) Class sizes that do not exceed one certificated instructional staff to eighteen students; and

(i) Cooperation with project evaluators in an evaluation of the demonstration projects, including providing the data necessary to complete the work.

(6) The office of the superintendent of public instruction shall contract with the Northwest regional educational laboratory to conduct an evaluation of the demonstration projects

under this section. Student, staff, program, and parent data shall be collected using various instruments including surveys, program and activity descriptions, student performance measures, observations, and other processes.

(7) Within available funding, findings from the evaluation under this section shall include conclusions regarding the degree to which students thrive in the education environment; student progress in academic, social, and emotional areas; the program components that have been most important to student success; the degree to which educational staff feel accomplished in their work and satisfied with student progress; and recommendations for continued implementation and expansion of the program.

(8) Findings shall be reported to the governor, the office of the superintendent of public instruction, and the appropriate early learning, education, and fiscal committees of the legislature. An interim report is due November 1, 2008. The final report is due December 1, 2009.

(9) This section expires September 1, 2010. [2007 c 400 § 3.]

**Captions not law—2007 c 400:** See note following RCW 28A.150.210.

#### ENGLISH AS A SECOND LANGUAGE DEMONSTRATION PROJECT

##### **28A.630.058 English as a second language demonstration project—Reports. (Expires September 1, 2010.)**

(1) The goals of the English as a second language demonstration project are to develop recommendations:

(a) Identifying foundational competencies for developing academic English skills in English language learner students that all teachers should acquire in initial teacher preparation programs;

(b) Identifying components of a professional development program that builds classroom teacher competence for developing academic English skills in English language learner students; and

(c) Identifying job-embedded practices that connect the English language learner teacher and classroom teachers to coordinate instruction to support the work of the student.

(2) The English as a second language demonstration project shall use two field strategies in the development of recommendations.

(a) The first strategy is to conduct a field study of an ongoing project in a number of schools and school districts in which Spanish is the predominate language other than English.

(b) The second strategy is to conduct a project that provides professional development and planning time resources to approximately three large schools in which there are many first languages among the students. The participants of this project shall partner with an institution of higher education or a professional development provider with expertise in supporting student acquisition of academic English. The superintendent of public instruction shall select the participants in the project under this subsection (2)(b).

(3)(a) The office of the superintendent of public instruction shall contract with the Northwest regional educational laboratory to conduct the field study work and collect additional information from the project schools. In conducting its

work, the laboratory shall review current literature regarding best practices and consult with state and national experts as appropriate.

(b) The laboratory shall report its findings to the governor, the office of the superintendent of public instruction, and the education and fiscal committees of the legislature. An interim report is due November 1, 2008. The final report is due December 1, 2009.

(4) This section expires September 1, 2010. [2007 c 400 § 4.]

**Captions not law—2007 c 400:** See note following RCW 28A.150.210.

#### LIGHTHOUSE PROGRAMS

**28A.630.065 Lighthouse programs—Science, technology, engineering, and mathematics focus.** (1) Subject to funds appropriated for this purpose, the superintendent of public instruction shall designate up to three middle schools and up to three high schools to serve as resources and examples of how to combine the following best practices:

(a) A small, highly personalized learning community;

(b) An interdisciplinary curriculum with a strong focus on science, technology, engineering, and mathematics delivered through a project-based instructional approach; and

(c) Active partnerships with businesses and the local community to connect learning beyond the classroom.

(2) The designated middle and high schools shall serve as lighthouse programs and provide technical assistance and advice to other middle and high schools and communities in the initial stages of creating an alternative learning environment focused on science, technology, engineering, and mathematics. The designated middle and high schools must have proven experience and be recognized as model programs.

(3) In addition, the office of the superintendent of public instruction shall work with the designated middle and high schools to publicize the models of best practices in science, technology, engineering, and mathematics instruction used by the designated middle and high schools and shall encourage other middle and high schools and communities to work with the designated middle and high schools to replicate similar models. [2010 c 238 § 2.]

**Intent—2010 c 238:** "(1) The legislature has made a commitment to support multiple strategies to improve teaching and learning of science, technology, engineering, and mathematics in Washington's public schools. In recent years, Washington has adopted new technology, mathematics, and science learning standards; initiated funding for middle schools to provide a career and technical program in science, technology, engineering, and mathematics at the same rate as a high school operating a similar program; provided professional development for mathematics and science teachers; created a scholarship program to encourage students to enter mathematics and science degree programs; supported career and technical education in high-demand fields; and authorized alternative ways for teachers to earn certification in the mathematics and science fields.

(2) At the local level, school districts and their communities are also finding new ways to improve teaching and learning of science, technology, engineering, and mathematics. Some districts have combined several best practices into promising learning models for students. For example, Aviation high school in the Highline school district offers a small, highly personalized learning community that is focused on interdisciplinary immersion in science, technology, engineering, and mathematics using a hands-on, project-based curriculum. Delta high school in the Tri-Cities is a collaboration among three school districts, a skill center, two institutions of higher education, a community foundation, and local business leaders. The science and math institute at Point Defiance in Tacoma offers students field-based

applied learning using the natural, historical, and community resources of a large metropolitan park. These schools draw students from across regions who are seeking an exciting, rigorous, and nontraditional learning experience. Other schools and communities across the state are seeking to replicate these innovative learning models.

(3) The legislature intends to support continued expansion of the type of innovation and creativity displayed by Aviation, Delta, and the science and math institute by designating so-called "lighthouse" high schools to serve as resources and examples of best practices in science, technology, engineering, and mathematics instruction." [2010 c 238 § 1.]

#### DEVELOPMENT OF EDUCATIONAL PARAPROFESSIONAL TRAINING PROGRAM

##### **28A.630.400 Paraeducator associate of arts degree.**

(1) The professional educator standards board and the state board for community and technical colleges, in consultation with the superintendent of public instruction, the higher education coordinating board, the state apprenticeship training council, and community colleges, shall adopt rules as necessary under chapter 34.05 RCW to implement the paraeducator associate of arts degree.

(2) As used in this section, a "paraeducator" is an individual who has completed an associate of arts degree for a paraeducator. The paraeducator may be hired by a school district to assist certificated instructional staff in the direct instruction of children in small and large groups, individualized instruction, testing of children, recordkeeping, and preparation of materials. The paraeducator shall work under the direction of instructional certificated staff.

(3) The training program for a paraeducator associate of arts degree shall include, but is not limited to, the general requirements for receipt of an associate of arts degree and training in the areas of introduction to childhood education, orientation to children with disabilities, fundamentals of childhood education, creative activities for children, instructional materials for children, fine art experiences for children, the psychology of learning, introduction to education, child health and safety, child development and guidance, first aid, and a practicum in a school setting.

(4) Consideration shall be given to transferability of credit earned in this program to teacher preparation programs at colleges and universities. [2006 c 263 § 815. Prior: 1995 c 335 § 202; 1995 c 77 § 27; 1991 c 285 § 2; 1989 c 370 § 1. Formerly RCW 28A.04.180.]

RCW 49.60.222.

**28A.640.010 Purpose—Discrimination prohibited.** Inequality in the educational opportunities afforded women and girls at all levels of the public schools in Washington state is a breach of Article XXXI, section 1, Amendment 61, of the Washington state Constitution, requiring equal treatment of all citizens regardless of sex. This violation of rights has had a deleterious effect on the individuals affected and on society. Recognizing the benefit to our state and nation of equal educational opportunities for all students, discrimination on the basis of sex for any student in grades K-12 of the Washington public schools is prohibited. [1975 1st ex.s. c 226 § 1. Formerly RCW 28A.85.010.]

**28A.640.020 Regulations, guidelines to eliminate discrimination—Scope—Sexual harassment policies.** (1) The superintendent of public instruction shall develop regulations and guidelines to eliminate sex discrimination as it applies to public school employment, counseling and guidance services to students, recreational and athletic activities for students, access to course offerings, and in textbooks and instructional materials used by students.

(a) Specifically with respect to public school employment, all schools shall be required to:

- (i) Maintain credential requirements for all personnel without regard to sex;
- (ii) Make no differentiation in pay scale on the basis of sex;

(iii) Assign school duties without regard to sex except where such assignment would involve duty in areas or situations, such as but not limited to a shower room, where persons might be disrobed;

(iv) Provide the same opportunities for advancement to males and females; and

(v) Make no difference in conditions of employment including, but not limited to, hiring practices, leaves of

absence, hours of employment, and assignment of, or pay for, instructional and noninstructional duties, on the basis of sex.

(b) Specifically with respect to counseling and guidance services for students, they shall be made available to all students equally. All certificated personnel shall be required to stress access to all career and vocational opportunities to students without regard to sex.

(c) Specifically with respect to recreational and athletic activities, they shall be offered to all students without regard to sex. Schools may provide separate teams for each sex. Schools which provide the following shall do so with no disparities based on sex: Equipment and supplies; medical care; services and insurance; transportation and per diem allowances; opportunities to receive coaching and instruction; laundry services; assignment of game officials; opportunities for competition, publicity and awards; scheduling of games and practice times including use of courts, gyms, and pools: PROVIDED, That such scheduling of games and practice times shall be determined by local administrative authorities after consideration of the public and student interest in attending and participating in various recreational and athletic activities. Each school which provides showers, toilets, or training room facilities for athletic purposes shall provide comparable facilities for both sexes. Such facilities may be provided either as separate facilities or shall be scheduled and used separately by each sex.

The superintendent of public instruction shall also be required to develop a student survey to distribute every three years to each local school district in the state to determine student interest for male/female participation in specific sports.

(d) Specifically with respect to course offerings, all classes shall be required to be available to all students without regard to sex: PROVIDED, That separation is permitted within any class during sessions on sex education or gym classes.

(e) Specifically with respect to textbooks and instructional materials, which shall also include, but not be limited to, reference books and audio-visual materials, they shall be required to adhere to the guidelines developed by the superintendent of public instruction to implement the intent of this chapter: PROVIDED, That this subsection shall not be construed to prohibit the introduction of material deemed appropriate by the instructor for educational purposes.

(2)(a) By December 31, 1994, the superintendent of public instruction shall develop criteria for use by school districts in developing sexual harassment policies as required under (b) of this subsection. The criteria shall address the subjects of grievance procedures, remedies to victims of sexual harassment, disciplinary actions against violators of the policy, and other subjects at the discretion of the superintendent of public instruction. Disciplinary actions must conform with collective bargaining agreements and state and federal laws. The superintendent of public instruction also shall supply sample policies to school districts upon request.

(b) By June 30, 1995, every school district shall adopt and implement a written policy concerning sexual harassment. The policy shall apply to all school district employees, volunteers, parents, and students, including, but not limited to, conduct between students.

(c) School district policies on sexual harassment shall be reviewed by the superintendent of public instruction considering the criteria established under (a) of this subsection as part of the monitoring process established in RCW 28A.640.030.

(d) The school district's sexual harassment policy shall be conspicuously posted throughout each school building, and provided to each employee. A copy of the policy shall appear in any publication of the school or school district setting forth the rules, regulations, procedures, and standards of conduct for the school or school district.

(e) Each school shall develop a process for discussing the district's sexual harassment policy. The process shall ensure the discussion addresses the definition of sexual harassment and issues covered in the sexual harassment policy.

(f) "Sexual harassment" as used in this section means unwelcome sexual advances, requests for sexual favors, sexually motivated physical contact, or other verbal or physical conduct or communication of a sexual nature if:

(i) Submission to that conduct or communication is made a term or condition, either explicitly or implicitly, of obtaining an education or employment;

(ii) Submission to or rejection of that conduct or communication by an individual is used as a factor in decisions affecting that individual's education or employment; or

## Chapter 28A.642 RCW DISCRIMINATION PROHIBITION

### Sections

28A.642.005	Findings.
28A.642.010	Discrimination prohibited—Definitions.
28A.642.020	Rules and guidelines.
28A.642.030	Compliance—Monitoring—Compliance enforcement.

28A.642.050	Authority of superintendent of public instruction—Administrative orders.
28A.642.060	Chapter supplementary.

**28A.642.005 Findings.** The legislature finds that in 1975 legislation was adopted, codified as chapter 28A.640 RCW, recognizing the deleterious effect of discrimination on the basis of sex, specifically prohibiting such discrimination in Washington public schools, and requiring the office of the superintendent of public instruction to monitor and enforce compliance. The legislature further finds that, while numerous state and federal laws prohibit discrimination on other bases in addition to sex, the common school provisions in Title 28A RCW do not include specific acknowledgment of the right to be free from discrimination because of race, creed, color, national origin, honorably discharged veteran or military status, sexual orientation, the presence of any sensory, mental, or physical disability, or the use of a trained dog guide or service animal by a person with a disability, nor do any common school provisions specifically direct the office of the superintendent of public instruction to monitor and enforce compliance with these laws. The legislature finds that one of the recommendations made to the legislature by the achievement gap oversight and accountability committee created in chapter 468, Laws of 2009, was that the office of the superintendent of public instruction should be specifically authorized to take affirmative steps to ensure that school districts comply with all civil rights laws, similar to what has already been authorized in chapter 28A.640 RCW with respect to discrimination on the basis of sex. [2010 c 240 § 1.]

**28A.642.010 Discrimination prohibited—Definitions.** Discrimination in Washington public schools on the basis of race, creed, religion, color, national origin, honorably discharged veteran or military status, sexual orientation including gender expression or identity, the presence of any sensory, mental, or physical disability, or the use of a trained

dog guide or service animal by a person with a disability is prohibited. The definitions given these terms in chapter 49.60 RCW apply throughout this chapter unless the context clearly requires otherwise. [2010 c 240 § 2.]

**28A.642.020 Rules and guidelines.** The superintendent of public instruction shall develop rules and guidelines to eliminate discrimination prohibited in RCW 28A.642.010 as it applies to public school employment, counseling and guidance services to students, recreational and athletic activities for students, access to course offerings, and in textbooks and instructional materials used by students. [2010 c 240 § 3.]

**28A.642.030 Compliance—Monitoring—Compliance enforcement.** The office of the superintendent of public instruction shall monitor local school districts' compliance with this chapter, and shall establish a compliance timetable, rules, and guidelines for enforcement of this chapter. [2010 c 240 § 4.]

**28A.642.040 Individual right of action.** Any person aggrieved by a violation of this chapter, or aggrieved by the violation of any rule or guideline adopted under this chapter, has a right of action in superior court for civil damages and such equitable relief as the court determines. [2010 c 240 § 5.]

**28A.642.050 Authority of superintendent of public instruction—Administrative orders.** The superintendent of public instruction has the power to enforce and obtain compliance with the provisions of this chapter and the rules and guidelines adopted under this chapter, by appropriate order made pursuant to chapter 34.05 RCW. The order may include, but is not limited to, termination of all or part of state apportionment or categorical moneys to the offending school district, termination of specified programs in which violations may be flagrant within the offending school district, institution of corrective action, and the placement of the offending school district on probation with appropriate sanctions until compliance is achieved. [2010 c 240 § 6.]

**28A.642.060 Chapter supplementary.** This chapter is supplementary to, and does not supersede, existing law and procedures and future amendments to those laws and procedures relating to unlawful discrimination. [2010 c 240 § 7.]

**28A.650.005 Findings—Intent.** The legislature recognizes that up-to-date tools will help students learn. Workplace technology requirements will continue to change and students should be knowledgeable in the use of technologies.

Furthermore, the legislature finds that the Washington systemic initiative is a broad-based effort to promote widespread public literacy in mathematics, science, and technology. An important component of the systemic initiative is the universal electronic access to information by students. It is the intent of the legislature that components of RCW 28A.650.010 through 28A.650.025 will support the statewide systemic reform effort in mathematics, science, and technology as envisioned by the Washington systemic initiative. [1993 c 336 § 701.]

**28A.650.010 Definitions.** Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Education technology" or "technology" means the effective use of electronic and optical tools, including telephones, and electronic and optical pathways in helping students learn.

(2) "Network" means integrated linking of education technology systems in schools for transmission of voice, data, video, or imaging, or a combination of these. [1993 c 336 § 702.]

**28A.650.015 Education technology plan—Educational technology advisory committee.** (1) The superintendent of public instruction, to the extent funds are appropriated, shall develop and implement a Washington state K-12 education technology plan. The technology plan shall be updated on at least a biennial basis, shall be developed to coordinate and expand the use of education technology in the common schools of the state. The plan shall be consistent with applicable provisions of chapter 43.105 RCW. The plan, at a minimum, shall address:

(a) The provision of technical assistance to schools and school districts for the planning, implementation, and training of staff in the use of technology in curricular and administrative functions;

(b) The continued development of a network to connect school districts, institutions of higher learning, and other sources of online information; and

(c) Methods to equitably increase the use of education technology by students and school personnel throughout the state.

(2) The superintendent of public instruction shall appoint an educational technology advisory committee to assist in the development and implementation of the technology plan in subsection (1) of this section. The committee shall include, but is not limited to, persons representing: The department of information services, educational service districts, school directors, school administrators, school principals, teachers, classified staff, higher education faculty, parents, students,

[Title 28A RCW—page 281]

business, labor, scientists and mathematicians, the higher education coordinating board, the workforce training and education coordinating board, and the state library.

(3) The plan adopted and implemented under this section may not impose on school districts any requirements that are not specifically required by federal law or regulation, including requirements to maintain eligibility for the federal schools and libraries program of the universal service fund. [2009 c 556 § 17; 2006 c 263 § 917; 1995 c 335 § 507; 1994 c 245 § 2; 1993 c 336 § 703.]

Additional notes found at [www.leg.wa.gov](http://www.leg.wa.gov)

**28A.650.020 Regional educational technology support centers—Advisory councils.** Educational service districts shall establish, subject to available funding, regional educational technology support centers for the purpose of providing ongoing educator training, school district cost-benefit analysis, long-range planning, network planning, distance learning access support, and other technical and programmatic support. Each educational service district shall establish a representative advisory council to advise the educational service district in the expenditure of funds provided to the technology support centers. [1993 c 336 § 705.]

**Reviser's note:** 1993 c 336 directed that this section be added to chapter 28A.310 RCW. This section has been codified in chapter 28A.650 RCW, which relates more directly to educational technology.

**28A.650.025 Distribution of funds for regional educational technology support centers.** The superintendent of public instruction, to the extent funds are appropriated, shall distribute funds to educational service districts on a grant basis for the regional educational technology support centers established in RCW 28A.650.020. [1993 c 336 § 706.]

**28A.650.030 Distribution of funds to expand the education statewide network.** The superintendent of public instruction, to the extent funds are appropriated, shall distribute funds to the Washington school information processing cooperative and to school districts on a grant basis, from moneys appropriated for the purposes of this section, for equipment, networking, and software to expand the current K-12 education statewide network. [1993 c 336 § 707.]

**28A.650.035 Gifts, grants, and endowments.** The superintendent of public instruction may receive such gifts, grants, and endowments from public or private sources as may be made from time to time, in trust or otherwise, for the use and benefit of the purposes of educational technology and expend the same or any income therefrom according to the terms of the gifts, grants, or endowments. **28A.655.005 Findings.** The legislature finds that the purpose of Washington's accountability system is to improve student learning and student achievement of the essential academic learning requirement standards so that each individual student will be given the opportunity to become a responsible citizen and successfully live, learn, and work in the twenty-first century. To achieve this purpose, the accountability system should be based on student achievement and continuous improvement at all levels of Washington's education system and on a fundamental principle that all public school students have access to curriculum and instruction that is aligned to the standards.

The legislature further finds that the accountability system should rely on local responsibility and leadership. Districts and schools should be expected to improve and be evaluated based on their improvement over time. Districts should recognize exceptional progress and work closely with schools needing assistance.

The legislature further finds that the accountability system must be simple to use and understand. Consequences must be predictable and fair. Differences among students, schools, and districts should be recognized and respected as the system is implemented. There should be a balance of each student's right to privacy and the public's right to know the overall levels of learning and achievement at the school, district, and state levels. In addition, the accountability system should be continuously reviewed and improved as more is learned about how schools operate to meet the learning needs of Washington's students. [1999 c 388 § 1.]

**28A.655.010 Washington commission on student learning—Definitions.** Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW \*28A.630.885 and 28A.300.130.

(1) "Commission" means the commission on student learning created in \*RCW 28A.630.885.

(2) "Student learning goals" mean[s] the goals established in RCW 28A.150.210.

(3) "Essential academic learning requirements" means more specific academic and technical skills and knowledge, based on the student learning goals, as determined under \*RCW 28A.630.885(3)(a). Essential academic learning requirements shall not limit the instructional strategies used by schools or school districts or require the use of specific curriculum.

(4) "Performance standards" or "standards" means the criteria used to determine if a student has successfully learned the specific knowledge or skill being assessed as determined under \*RCW 28A.630.885(3)(b). The standards should be set at internationally competitive levels.

(5) "Assessment system" or "student assessment system" means a series of assessments used to determine if students have successfully learned the essential academic learning requirements. The assessment system shall be developed under \*RCW 28A.630.885(3)(b).

(6) "Performance-based education system" means an education system in which a significantly greater emphasis is placed on how well students are learning, and significantly less emphasis is placed on state-level laws and rules that dictate how instruction is to be provided. The performance-based education system does not require that schools use an outcome-based instructional model. Decisions regarding how instruction is provided are to be made, to the greatest extent possible, by schools and school districts, not by the state. [1993 c 336 § 201. Formerly RCW 28A.630.883.]

**\*Reviser's note:** RCW 28A.630.885 was recodified as RCW 28A.655.060 pursuant to 1999 c 388 § 607. RCW 28A.655.060 was subsequently repealed by 2004 c 19 § 206.

**Findings—Intent—Part headings not law—1993 c 336:** See notes following RCW 28A.150.210.

**Findings—1993 c 336:** See note following RCW 28A.630.879.

**28A.655.061 High school assessment system—Certificate of academic achievement requirements—Exemptions—Options to retake high school assessment—Objective alternative assessment—Student learning plans.** (1) The high school assessment system shall include but need not be limited to the Washington assessment of student learning, opportunities for a student to retake the content areas of the

assessment in which the student was not successful, and if approved by the legislature pursuant to subsection (10) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning for each content area.

(2) Subject to the conditions in this section, a certificate of academic achievement shall be obtained by most students at about the age of sixteen, and is evidence that the students have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045 or 28A.655.0611, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3) Beginning with the graduating class of 2008, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the reading, writing, and mathematics content areas of the high school Washington assessment of student learning shall earn a certificate of academic achievement. If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area up to four times at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has taken the Washington assessment of student learning at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement.

(4) Beginning no later than with the graduating class of 2013, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the Washington assessment of student learning or the objective alternative assessments in order to earn a certificate of academic achievement. The state board of education may adopt a rule that implements the requirements of this subsection (4) beginning with a graduating class before the graduating class of 2013, if the state board of education adopts the rule by September 1st of the freshman school year of the graduating class to which the requirements of this subsection (4) apply. The state board of education's authority under this subsection (4) does not alter the requirement that any change in performance standards for the tenth grade assessment must comply with RCW 28A.305.130.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6) A student may retain and use the highest result from each successfully completed content area of the high school assessment.

(7) School districts must make available to students the following options:

(a) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or

(b) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(8) Students who achieve the standard in a content area of the high school assessment but who wish to improve their results shall pay for retaking the assessment, using a uniform cost determined by the superintendent of public instruction.

(9) Opportunities to retake the assessment at least twice a year shall be available to each school district.

(10)(a) The office of the superintendent of public instruction shall develop options for implementing objective alternative assessments, which may include an appeals process for students' scores, for students to demonstrate achievement of the state academic standards. The objective alternative assessments shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning and be objective in its determination of student achievement of the state standards. Before any objective alternative assessments in addition to those authorized in RCW 28A.655.065 or (b) of this subsection are used by a student to demonstrate that the student has met the state standards in a content area required to obtain a certificate, the legislature shall formally approve the use of any objective alternative assessments through the omnibus appropriations act or by statute or concurrent resolution.

(b)(i) A student's score on the mathematics, reading or English, or writing portion of the SAT or the ACT may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the relevant portion of the SAT or ACT to meet or exceed the state standard in the relevant content area on the Washington assessment of student learning. The state board of education shall identify the first scores by December 1, 2007. After the first scores are established, the state board may increase but not decrease the scores required for students to meet or exceed the state standards.

(ii) Until August 31, 2008, a student's score on the mathematics portion of the PSAT may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standard for the certificate of academic achievement. The state board of education shall identify the score students must achieve on the mathematics portion of the PSAT to meet or exceed the state standard in that content area on the Washington assessment of student learning.

(iii) A student who scores at least a three on the grading scale of one to five for selected AP examinations may use the score as an objective alternative assessment under this section for demonstrating that a student has met or exceeded state standards for the certificate of academic achievement. A score of three on the AP examinations in calculus or statistics may be used as an alternative assessment for the mathematics portion of the Washington assessment of student learning. A score of three on the AP examinations in English language and composition may be used as an alternative assessment for the writing portion of the Washington assessment of student learning. A score of three on the AP examinations in English literature and composition, macroeconomics, microeconomics, psychology, United States history, world history, United States government and politics, or comparative government and politics may be used as an alternative assessment for the reading portion of the Washington assessment of student learning.

(11) By December 15, 2004, the house of representatives and senate education committees shall obtain information and conclusions from recognized, independent, national assessment experts regarding the validity and reliability of the high school Washington assessment of student learning for making individual student high school graduation determinations.

(12) To help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district shall prepare plans for and notify students and their parents or legal guardians as provided in this subsection. Student learning plans are required for eighth grade students who were not successful on any or all of the content areas of the state assessment during the previous school year or who may not be on track to graduate due to credit deficiencies or absences. The parent or legal guardian shall be notified about the information in the student learning plan, preferably through a parent conference and at least annually. To the extent feasible, schools serving English language learner students and their parents shall translate the plan into the primary language of the family. The plan shall include the following information as applicable:

- (a) The student's results on the state assessment;
- (b) If the student is in the transitional bilingual program, the score on his or her Washington language proficiency test II;
- (c) Any credit deficiencies;
- (d) The student's attendance rates over the previous two years;
- (e) The student's progress toward meeting state and local graduation requirements;
- (f) The courses, competencies, and other steps needed to be taken by the student to meet state academic standards and stay on track for graduation;
- (g) Remediation strategies and alternative education options available to students, including informing students of the option to continue to receive instructional services after grade twelve or until the age of twenty-one;
- (h) The alternative assessment options available to students under this section and RCW 28A.655.065;

(i) School district programs, high school courses, and career and technical education options available for students to meet graduation requirements; and

(j) Available programs offered through skill centers or community and technical colleges, including the college high school diploma options under RCW 28B.50.535. [2010 c 244 § 1; 2009 c 524 § 5; 2008 c 321 § 2. Prior: 2007 c 355 § 5; 2007 c 354 § 2; 2006 c 115 § 4; 2004 c 19 § 101.]

**Intent—2009 c 524:** See note following RCW 28B.50.535.

**Findings—2008 c 321:** "The legislature finds that high school students need to graduate with the skills necessary to be successful in college and work. The state graduation requirements help to ensure that Washington high school graduates have the basic skills to be competitive in a global economy. Under education reform started in 1993, time was to be the variable, obtaining the skills was to be the constant. Therefore, students who need additional time to gain the academic skills needed for college and the workplace should have the opportunities they need to reach high academic achievement, even if that takes more than the standard four years of high school.

Different students face different challenges and barriers to their academic success. Some students struggle to meet the standard on a single portion of the Washington assessment of student learning while excelling in the other subject areas; other students struggle to complete the necessary state or local graduation credits; while still others have their knowledge tested on the assessments and have completed all the credit requirements but are struggling because English is not their first language. The legislature finds that many of these students need additional time and support to achieve academic proficiency and meet all graduation requirements." [2008 c 321 § 1.]

**Finding—Intent—2007 c 355:** See note following RCW 28B.50.534.

**Findings—Intent—2007 c 354:** "(1) The legislature maintains a strong commitment to high expectations and high academic achievement for all students. The legislature finds that Washington schools and students are making significant progress in improving achievement in reading and writing. Schools are adapting instruction and providing remediation for students who need additional assistance. Reading and writing are being taught across the curriculum. Therefore, the legislature does not intend to make changes to the Washington assessment of student learning or high school graduation requirements in reading and writing.

(2) However, students are having difficulty improving their academic achievement in mathematics and science, particularly as measured by the high school Washington assessment of student learning. The legislature finds that corrections are needed in the state's high school assessment system that will improve alignment between learning standards, instruction, diagnosis, and assessment of students' knowledge and skills in high school mathematics and science. The legislature further finds there is a sense of urgency to make these corrections and intends to revise high school graduation requirements in mathematics and science only for the minimum period for corrections to be fully implemented." [2007 c 354 § 1.]

**Part headings and captions not law—2004 c 19:** "Part headings and captions used in this act are not any part of the law." [2004 c 19 § 301.]

**Severability—2004 c 19:** "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2004 c 19 § 302.]

**Effective date—2004 c 19:** "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [March 18, 2004]." [2004 c 19 § 303.]

**28A.655.0611 Graduation without certificate of academic achievement or certificate of individual achievement. (Expires August 31, 2013.)** (1) Beginning with the graduating class of 2008 and through no later than the graduating class of 2012, students may graduate from high school without earning a certificate of academic achievement or a certificate of individual achievement if they:

(a) Have not successfully met the mathematics standard on the high school Washington assessment of student learning, an approved objective alternative assessment, or an alter-

(2010 Ed.)

nate assessment developed for eligible special education students;

(b) Have successfully met the state standard in the other content areas required for a certificate under RCW 28A.655.061 or 28A.155.045;

(c) Have met all other state and school district graduation requirements; and

(d)(i) For the graduating class of 2008, successfully earn one high school mathematics credit or career and technical course equivalent, including courses offered at skill centers, after the student's eleventh grade year intended to increase the student's mathematics proficiency toward meeting or exceeding the mathematics standards assessed on the high school Washington assessment of student learning; and

(ii) For the remaining graduating classes under this section, successfully earn two mathematics credits or career and technical course equivalent, including courses offered at skill centers, after the student's tenth grade year intended to increase the student's mathematics proficiency toward meeting or exceeding the mathematics standards assessed on the high school Washington assessment of student learning.

(2) The state board of education may adopt a rule that ends the application of this section with a graduating class before the graduating class of 2012, if the state board of education adopts the rule by September 1st of the freshman school year of the graduating class to which the provisions of this section no longer apply. The state board of education's authority under this section does not alter the requirement that any change in performance standards for the tenth grade assessment must comply with RCW 28A.305.130.

(3) This section expires August 31, 2013. [2009 c 17 § 1; 2007 c 354 § 4.]

**Effective date—2009 c 17:** "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [March 30, 2009]." [2009 c 17 § 2.]

**Findings—Intent—2007 c 354:** See note following RCW 28A.655.061.

**28A.655.063 Objective alternative assessments—Reimbursement of costs—Testing fee waivers.** Subject to the availability of funds appropriated for this purpose, the office of the superintendent of public instruction shall provide funds to school districts to reimburse students for the cost of taking the tests in RCW 28A.655.061(10)(b) when the students take the tests for the purpose of using the results as an objective alternative assessment. The office of the superintendent of public instruction may, as an alternative to providing funds to school districts, arrange for students to receive a testing fee waiver or make other arrangements to compensate the students. [2007 c 354 § 7; 2006 c 115 § 5.]

**Findings—Intent—2007 c 354:** See note following RCW 28A.655.061.

**28A.655.065 Objective alternative assessment methods—Appeals from assessment scores—Waivers and appeals from assessment requirements—Rules.** (1) The legislature has made a commitment to rigorous academic standards for receipt of a high school diploma. The primary way that students will demonstrate that they meet the standards in reading, writing, mathematics, and science is

through the Washington assessment of student learning. Only objective assessments that are comparable in rigor to the state assessment are authorized as an alternative assessment. Before seeking an alternative assessment, the legislature expects students to make a genuine effort to meet state standards, through regular and consistent attendance at school and participation in extended learning and other assistance programs.

(2) Under RCW 28A.655.061, beginning in the 2006-07 school year, the superintendent of public instruction shall implement objective alternative assessment methods as provided in this section for students to demonstrate achievement of the state standards in content areas in which the student has not yet met the standard on the high school Washington assessment of student learning. A student may access an alternative if the student meets applicable eligibility criteria in RCW 28A.655.061 and this section and other eligibility criteria established by the superintendent of public instruction, including but not limited to attendance criteria and participation in the remediation or supplemental instruction contained in the student learning plan developed under RCW 28A.655.061. A school district may waive attendance and/or remediation criteria for special, unavoidable circumstances.

(3) For the purposes of this section, "applicant" means a student seeking to use one of the alternative assessment methods in this section.

(4) One alternative assessment method shall be a combination of the applicant's grades in applicable courses and the applicant's highest score on the high school Washington assessment of student learning, as provided in this subsection. A student is eligible to apply for the alternative assessment method under this subsection (4) if the student has a cumulative grade point average of at least 3.2 on a four point grading scale. The superintendent of public instruction shall determine which high school courses are applicable to the alternative assessment method and shall issue guidelines to school districts.

(a) Using guidelines prepared by the superintendent of public instruction, a school district shall identify the group of students in the same school as the applicant who took the same high school courses as the applicant in the applicable content area. From the group of students identified in this manner, the district shall select the comparison cohort that shall be those students who met or slightly exceeded the state standard on the Washington assessment of student learning.

(b) The district shall compare the applicant's grades in high school courses in the applicable content area to the grades of students in the comparison cohort for the same high school courses. If the applicant's grades are equal to or above the mean grades of the comparison cohort, the applicant shall be deemed to have met the state standard on the alternative assessment.

(c) An applicant may not use the alternative assessment under this subsection (4) if there are fewer than six students in the comparison cohort.

(5) The superintendent of public instruction shall develop an alternative assessment method that shall be an evaluation of a collection of work samples prepared and submitted by the applicant. Effective September 1, 2009, collection of work samples may be submitted only in content areas

where meeting the state standard on the high school assessment is required for purposes of graduation.

(a) The superintendent of public instruction shall develop guidelines for the types and number of work samples in each content area that may be submitted as a collection of evidence that the applicant has met the state standard in that content area. Work samples may be collected from academic, career and technical, or remedial courses and may include performance tasks as well as written products. The superintendent shall submit the guidelines for approval by the state board of education.

(b) The superintendent shall develop protocols for submission of the collection of work samples that include affidavits from the applicant's teachers and school district that the samples are the work of the applicant and a requirement that a portion of the samples be prepared under the direct supervision of a classroom teacher. The superintendent shall submit the protocols for approval by the state board of education.

(c) The superintendent shall develop uniform scoring criteria for evaluating the collection of work samples and submit the scoring criteria for approval by the state board of education. Collections shall be scored at the state level or regionally by a panel of educators selected and trained by the superintendent to ensure objectivity, reliability, and rigor in the evaluation. An educator may not score work samples submitted by applicants from the educator's school district. If the panel awards an applicant's collection of work samples the minimum required score, the applicant shall be deemed to have met the state standard on the alternative assessment.

(d) Using an open and public process that includes consultation with district superintendents, school principals, and other educators, the state board of education shall consider the guidelines, protocols, scoring criteria, and other information regarding the collection of work samples submitted by the superintendent of public instruction. The collection of work samples may be implemented as an alternative assessment after the state board of education has approved the guidelines, protocols, and scoring criteria and determined that the collection of work samples: (i) Will meet professionally accepted standards for a valid and reliable measure of the grade level expectations and the essential academic learning requirements; and (ii) is comparable to or exceeds the rigor of the skills and knowledge that a student must demonstrate on the Washington assessment of student learning in the applicable content area. The state board shall make an approval decision and determination no later than December 1, 2006, and thereafter may increase the required rigor of the collection of work samples.

(e) By September of 2006, the superintendent of public instruction shall develop informational materials for parents, teachers, and students regarding the collection of work samples and the status of its development as an alternative assessment method. The materials shall provide specific guidance regarding the type and number of work samples likely to be required, include examples of work that meets the state learning standards, and describe the scoring criteria and process for the collection. The materials shall also encourage students in the graduating class of 2008 to begin creating a collection if they believe they may seek to use the collection once it is implemented as an alternative assessment.

(6)(a) For students enrolled in a career and technical education program approved under RCW 28A.700.030, the superintendent of public instruction shall develop additional guidelines for collections of work samples that are tailored to different career and technical programs. The additional guidelines shall:

- (i) Provide multiple examples of work samples that are related to the particular career and technical program;
- (ii) Permit work samples based on completed activities or projects where demonstration of academic knowledge is inferred; and
- (iii) Provide multiple examples of work samples drawn from career and technical courses.

(b) The purpose of the additional guidelines is to provide a clear pathway toward a certificate of academic achievement for career and technical students by showing them applied and relevant opportunities to demonstrate their knowledge and skills, and to provide guidance to teachers in integrating academic and career and technical instruction and assessment and assisting career and technical students in compiling a collection. The superintendent of public instruction shall develop and disseminate additional guidelines for no fewer than ten career and technical education programs representing a variety of program offerings by no later than September 1, 2008. Guidelines for ten additional programs shall be developed and disseminated no later than June 1, 2009.

(c) The superintendent shall consult with community and technical colleges, employers, the workforce training and education coordinating board, apprenticeship programs, and other regional and national experts in career and technical education to create appropriate guidelines and examples of work samples and other evidence of a career and technical student's knowledge and skills on the state academic standards.

(7) The superintendent of public instruction shall study the feasibility of using existing mathematics assessments in languages other than English as an additional alternative assessment option. The study shall include an estimation of the cost of translating the tenth grade mathematics assessment into other languages and scoring the assessments should they be implemented.

(8) The superintendent of public instruction shall implement:

(a) By June 1, 2006, a process for students to appeal the score they received on the high school assessments; and

(b) By January 1, 2007, guidelines and appeal processes for waiving specific requirements in RCW 28A.655.061 pertaining to the certificate of academic achievement and to the certificate of individual achievement for students who: (i) Transfer to a Washington public school in their junior or senior year with the intent of obtaining a public high school diploma, or (ii) have special, unavoidable circumstances.

(9) The state board of education shall examine opportunities for additional alternative assessments, including the possible use of one or more standardized norm-referenced student achievement tests and the possible use of the reading, writing, or mathematics portions of the ACT ASSET and ACT COMPASS test instruments as objective alternative assessments for demonstrating that a student has met the state standards for the certificate of academic achievement. The state board shall submit its findings and recommendations to

(2010 Ed.)

the education committees of the legislature by January 10, 2008.

(10) The superintendent of public instruction shall adopt rules to implement this section. [2009 c 556 § 19; 2008 c 170 § 205; 2007 c 354 § 6; 2006 c 115 § 1.]

**Findings—Intent—Part headings not law—2008 c 170:** See RCW 28A.700.005 and 28A.700.901.

**Findings—Intent—2007 c 354:** See note following RCW 28A.655.061.

**28A.655.066 Statewide end-of-course assessments for high school mathematics—Use for Washington assessment of student learning.** (1)(a) In consultation with the state board of education, the superintendent of public instruction shall develop statewide end-of-course assessments for high school mathematics that measure student achievement of the state mathematics standards. The superintendent shall take steps to ensure that the language of the assessments is responsive to a diverse student population. The assessments shall be implemented statewide in the 2010-11 school year.

(b) The superintendent shall develop end-of-course assessments for the first year of high school mathematics that include the standards common to algebra I and integrated mathematics I and for the second year of high school mathematics that include the standards common to geometry and integrated mathematics II. The assessments under this subsection (1)(b) shall be used to demonstrate that a student meets the state standard on the mathematics content area of the high school Washington assessment of student learning for purposes of RCW 28A.655.061.

(c) The superintendent of public instruction shall also develop subtests for the end-of-course assessments that measure standards for the first two years of high school mathematics that are unique to algebra I, integrated mathematics I, geometry, and integrated mathematics II. The results of the subtests shall be reported at the student, teacher, school, and district level.

(2) For the graduating classes of 2013 and 2014 and for purposes of the certificate of academic achievement under RCW 28A.655.061, a student may use: (a) Results from the end-of-course assessment for the first year of high school mathematics plus the results from the end-of-course assessment for the second year of high school mathematics; or (b) results from the comprehensive mathematics assessment to demonstrate that a student meets the state standard on the mathematics content area of the high school Washington assessment of student learning.

(3) Beginning with the graduating class of 2015 and for purposes of the certificate of academic achievement under RCW 28A.655.061, the mathematics content area of the Washington assessment of student learning shall be assessed using the end-of-course assessment for the first year of high school mathematics plus the end-of-course assessment for the second year of high school mathematics. All of the objective alternative assessments available to students under RCW 28A.655.061 and 28A.655.065 shall be available to any student who has taken the sequence of end-of-course assessments once but does not meet the state mathematics standard on the sequence of end-of-course assessments.

(4) The superintendent of public instruction shall report at least annually or more often if necessary to keep the educa-

tion committees of the legislature informed on each step of the development and implementation process under this section. [2009 c 310 § 3; 2008 c 163 § 3.]

**Findings—2008 c 163:** "The legislature finds that, according to a recent report from a consultant retained by the state board of education, end-of-course assessments have certain advantages over comprehensive assessments such as the current form of the Washington assessment of student learning, and in most other areas end-of-course assessments are comparable to comprehensive assessments in meeting public policy objectives for a statewide assessment system. The legislature further finds that because the state's assessment contract will be renegotiated before the end of 2008, the 2008 legislature has an opportunity to provide policy direction in the design of the state assessment system and the design of the Washington assessment of student learning." [2008 c 163 § 1.]

**28A.655.070 Essential academic learning requirements and assessments—Duties of the superintendent of public instruction.** (1) The superintendent of public instruction shall develop essential academic learning requirements that identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, develop student assessments, and implement the accountability recommendations and requests regarding assistance, rewards, and recognition of the state board of education.

(2) The superintendent of public instruction shall:

(a) Periodically revise the essential academic learning requirements, as needed, based on the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. To the maximum extent possible, the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the essential academic learning requirements; and

(b) Review and prioritize the essential academic learning requirements and identify, with clear and concise descriptions, the grade level content expectations to be assessed on the Washington assessment of student learning and used for state or federal accountability purposes. The review, prioritization, and identification shall result in more focus and targeting with an emphasis on depth over breadth in the number of grade level content expectations assessed at each grade level. Grade level content expectations shall be articulated over the grades as a sequence of expectations and performances that are logical, build with increasing depth after foundational knowledge and skills are acquired, and reflect, where appropriate, the sequential nature of the discipline. The office of the superintendent of public instruction, within seven working days, shall post on its web site any grade level content expectations provided to an assessment vendor for use in constructing the Washington assessment of student learning.

(3)(a) In consultation with the state board of education, the superintendent of public instruction shall maintain and continue to develop and revise a statewide academic assessment system in the content areas of reading, writing, mathematics, and science for use in the elementary, middle, and high school years designed to determine if each student has mastered the essential academic learning requirements identified in subsection (1) of this section. School districts shall administer the assessments under guidelines adopted by the superintendent of public instruction. The academic assessment system may include a variety of assessment methods,

including criterion-referenced and performance-based measures.

(b) Effective with the 2009 administration of the Washington assessment of student learning, the superintendent shall redesign the assessment in the content areas of reading, mathematics, and science in all grades except high school by shortening test administration and reducing the number of short answer and extended response questions.

(4) If the superintendent proposes any modification to the essential academic learning requirements or the statewide assessments, then the superintendent shall, upon request, provide opportunities for the education committees of the house of representatives and the senate to review the assessments and proposed modifications to the essential academic learning requirements before the modifications are adopted.

(5) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the essential academic learning requirements at the appropriate periods in the student's educational development.

(6) By September 2007, the results for reading and mathematics shall be reported in a format that will allow parents and teachers to determine the academic gain a student has acquired in those content areas from one school year to the next.

(7) To assist parents and teachers in their efforts to provide educational support to individual students, the superintendent of public instruction shall provide as much individual student performance information as possible within the constraints of the assessment system's item bank. The superintendent shall also provide to school districts:

(a) Information on classroom-based and other assessments that may provide additional achievement information for individual students; and

(b) A collection of diagnostic tools that educators may use to evaluate the academic status of individual students. The tools shall be designed to be inexpensive, easily administered, and quickly and easily scored, with results provided in a format that may be easily shared with parents and students.

(8) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

(9) Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(10) The superintendent shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(11) The superintendent shall consider methods to address the unique needs of special education students when developing the assessments under this section.

(12) The superintendent shall consider methods to address the unique needs of highly capable students when developing the assessments under this section.

(13) The superintendent shall post on the superintendent's web site lists of resources and model assessments in social studies, the arts, and health and fitness. [2008 c 163 §

2; 2007 c 354 § 5; 2005 c 497 § 106; 2004 c 19 § 204; 1999 c 388 § 501.]

**28A.655.071 Revised essential academic learning requirements—Legislative review—Implementation.** (1) By August 2, 2010, the superintendent of public instruction may revise the state essential academic learning requirements authorized under RCW 28A.655.070 for mathematics, reading, writing, and communication by provisionally adopting a common set of standards for students in grades kindergarten through twelve. The revised state essential academic learning requirements may be substantially identical with the standards developed by a multistate consortium in which Washington participated, must be consistent with the requirements of RCW 28A.655.070, and may include additional standards if the additional standards do not exceed fifteen percent of the standards for each content area. However, the superintendent of public instruction shall not take steps to implement the provisionally adopted standards until the education committees of the house of representatives and the senate have an opportunity to review the standards.

(2) By January 1, 2011, the superintendent of public instruction shall submit to the education committees of the house of representatives and the senate:

(a) A detailed comparison of the provisionally adopted standards and the state essential academic learning requirements as of June 10, 2010, including the comparative level of rigor and specificity of the standards and the implications of any identified differences; and

(b) An estimated timeline and costs to the state and to school districts to implement the provisionally adopted standards, including providing necessary training, realignment of curriculum, adjustment of state assessments, and other actions.

(3) The superintendent may implement the revisions to the essential academic learning requirements under this section after the 2011 legislative session unless otherwise directed by the legislature. [2010 c 235 § 601.]

**28A.655.075 Essential academic learning requirements and grade level expectations for educational technology literacy and technology fluency—Assessments—Reports. (Expires July 1, 2011.)** (1) Within funds specifically appropriated therefor, by December 1, 2008, the superintendent of public instruction shall develop essential academic learning requirements and grade level expectations for educational technology literacy and technology fluency that identify the knowledge and skills that all public school students need to know and be able to do in the areas of technology and technology literacy. The development process shall include a review of current standards that have been developed or are used by other states and national and international technology associations. To the maximum extent possible,

(2010 Ed.)

the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the technology essential academic learning requirements.

(a) As used in this section, "technology literacy" means the ability to responsibly, creatively, and effectively use appropriate technology to communicate; access, collect, manage, integrate, and evaluate information; solve problems and create solutions; build and share knowledge; and improve and enhance learning in all subject areas and experiences.

(b) Technology fluency builds upon technology literacy and is demonstrated when students: Apply technology to real-world experiences; adapt to changing technologies; modify current and create new technologies; and personalize technology to meet personal needs, interests, and learning styles.

(2)(a) Within funds specifically appropriated therefor, the superintendent shall obtain or develop education technology assessments that may be administered in the elementary, middle, and high school grades to assess the essential academic learning requirements for technology. The assessments shall be designed to be classroom or project-based so that they can be embedded in classroom instruction and be administered and scored by school staff throughout the regular school year using consistent scoring criteria and procedures. By the 2010-11 school year, these assessments shall be made available to school districts for the districts' voluntary use. If a school district uses the assessments created under this section, then the school district shall notify the superintendent of public instruction of the use. The superintendent shall report annually to the legislature on the number of school districts that use the assessments each school year.

(b) Beginning December 1, 2010, and annually thereafter, the superintendent of public instruction shall provide a report to the relevant legislative committees regarding the use of the assessments.

(3) This section is suspended until July 1, 2011. [2009 c 556 § 15; 2007 c 396 § 16.]

(2)(a) Within funds specifically appropriated therefor, the superintendent shall obtain or develop education technology assessments that may be administered in the elementary, middle, and high school grades to assess the essential academic learning requirements for technology. The assessments shall be designed to be classroom or project-based so that they can be embedded in classroom instruction and be administered and scored by school staff throughout the regular school year using consistent scoring criteria and procedures. By the 2010-11 school year, these assessments shall be made available to school districts for the districts' voluntary use. The superintendent shall report annually to the legislature on the number of school districts that use the assessments each school year.

**28A.655.090 Washington assessment of student learning—Reporting requirements.** (1) By September 10, 1998, and by September 10th each year thereafter, the superintendent of public instruction shall report to schools, school districts, and the legislature on the results of the Washington assessment of student learning and state-mandated norm-referenced standardized tests.

(2) The reports shall include the assessment results by school and school district, and include changes over time. For the Washington assessment of student learning, results shall be reported as follows:

(a) The percentage of students meeting the standards;

(b) The percentage of students performing at each level of the assessment;

(c) Disaggregation of results by at least the following subgroups of students: White, Black, Hispanic, American

Indian/Alaskan Native, Asian, Pacific Islander/Hawaiian Native, low income, transitional bilingual, migrant, special education, and, beginning with the 2009-10 school year, students covered by section 504 of the federal rehabilitation act of 1973, as amended (29 U.S.C. Sec. 794); and

(d) A learning improvement index that shows changes in student performance within the different levels of student learning reported on the Washington assessment of student learning.

(3) The reports shall contain data regarding the different characteristics of schools, such as poverty levels, percent of English as a second language students, dropout rates, attendance, percent of students in special education, and student mobility so that districts and schools can learn from the improvement efforts of other schools and districts with similar characteristics.

(4) The reports shall contain student scores on mandated tests by comparable Washington schools of similar characteristics.

(5) The reports shall contain information on public school choice options available to students, including vocational education.

(6) The reports shall be posted on the superintendent of public instruction's internet web site.

(7) To protect the privacy of students, the results of schools and districts that test fewer than ten students in a grade level shall not be reported. In addition, in order to ensure that results are reported accurately, the superintendent of public instruction shall maintain the confidentiality of statewide data files until the superintendent determines that the data are complete and accurate.

(8) The superintendent of public instruction shall monitor the percentage and number of special education and limited English-proficient students exempted from taking the assessments by schools and school districts to ensure the exemptions are in compliance with exemption guidelines. **28A.655.100 Performance goals—Reporting requirements.** Each school district board of directors shall:

(1)(a) Annually report to parents and to the community in a public meeting and annually report in writing the following information:

(i) District-wide and school-level performance improvement goals;

(ii) Student performance relative to the goals; and

(iii) District-wide and school-level plans to achieve the goals, including curriculum and instruction, parental or guardian involvement, and resources available to parents and guardians to help students meet the state standards;

(b) Report annually in a news release to the local media the district's progress toward meeting the district-wide and school-level goals; and

(c) Include the school-level goals, student performance relative to the goals, and a summary of school-level plans to achieve the goals in each school's annual school performance report under RCW 28A.655.110.

(2) School districts in which ten or fewer students in the district or in a school in the district are eligible to be assessed in a grade level are not required to report numerical improvement goals and performance relative to the goals, but are required to report to parents and the community their plans to improve student achievement. [1999 c 388 § 302.]

**28A.655.110 Annual school performance report—Model report form.** (1) Beginning with the 1994-95 school year, to provide the local community and electorate with access to information on the educational programs in the schools in the district, each school shall publish annually a school performance report and deliver the report to each parent with children enrolled in the school and make the report available to the community served by the school. The annual performance report shall be in a form that can be easily understood and be used by parents, guardians, and other members of the community who are not professional educators to make informed educational decisions. As data from the assessments in \*RCW 28A.655.060 becomes available, the annual performance report should enable parents, educators, and school board members to determine whether students in the district's schools are attaining mastery of the student learning goals under RCW 28A.150.210, and other important facts about the schools' performance in assisting students to learn. The annual report shall make comparisons to a school's performance in preceding years, student performance relative to the goals and the percentage of students performing at each level of the assessment, a comparison of student performance at each level of the assessment to the previous year's performance, and information regarding school-level plans to achieve the goals.

(2) The annual performance report shall include, but not be limited to: (a) A brief statement of the mission of the school and the school district; (b) enrollment statistics including student demographics; (c) expenditures per pupil for the school year; (d) a summary of student scores on all mandated tests; (e) a concise annual budget report; (f) student attendance, graduation, and dropout rates; (g) information regarding the use and condition of the school building or buildings; (h) a brief description of the learning improvement plans for the school; (i) a summary of the feedback from parents and community members obtained under RCW 28A.655.115; and (j) an invitation to all parents and citizens to participate in school activities.

(3) The superintendent of public instruction shall develop by June 30, 1994, and update periodically, a model report form, which shall also be adapted for computers, that schools may use to meet the requirements of subsections (1) and (2) of this section. In order to make school performance reports broadly accessible to the public, the superintendent of public instruction, to the extent feasible, shall make information on each school's report available on or through the superintendent's internet web site. **28A.655.115 Outreach and feedback—Working group—Model feedback tools and strategies.** (1) Beginning with the 2010-11 school year, each school shall conduct outreach and seek feedback from a broad and diverse range of parents, other individuals, and organizations in the community regarding their experiences with the school. The school shall summarize the responses in its annual report under RCW 28A.655.110.

(2) The office of the superintendent of public instruction shall create a working group with representatives of organizations representing parents, teachers, and principals as well as diverse communities. The working group shall also include a representative from the achievement gap oversight and accountability committee. By September 1, 2010, the working group shall develop model feedback tools and strategies that school districts may use to facilitate the feedback process required in subsection (1) of this section. The model tools and strategies are intended to provide assistance to school districts. School districts are encouraged to adapt the models or develop unique tools and strategies that best fit the circumstances in their communities. [2010 c 235 § 702.]

(2010 Ed.)

(d) Robust student information, including but not limited to student characteristics, course and program enrollment, performance on statewide and district summative and formative assessments to the extent district assessments are used, and performance on college readiness tests;

(e) A subset of student information elements to serve as a dropout early warning system;

(f) The capacity to link educator information with student information;

(i) Information linking state funding formulas to school district budgeting and accounting, including procedures:

(i) To support the accuracy and auditing of financial data; and

(ii) Using the prototypical school model for school district financial accounting reporting;

(j) The capacity to link program cost information with student performance information to gauge the cost-effectiveness of programs;

(k) Information that is centrally accessible and updated regularly; and

(l) An anonymous, nonidentifiable replicated copy of data that is updated at least quarterly, and made available to the public by the state.

(4) It is the legislature's goal that all school districts have the capability to collect state-identified common data and export it in a standard format to support a statewide K-12 education data improvement system under this section.

(5) It is the legislature's intent that the K-12 education data improvement system be developed to provide the capability to make reports as required under RCW 28A.300.507 available.

(6) It is the legislature's intent that school districts collect and report new data elements to satisfy the requirements of RCW 43.41.400, this section, and RCW 28A.300.507, only to the extent funds are available for this purpose. [2009 c 548 § 202.]

**28A.657.005 Finding.** The legislature finds that it is the state's responsibility to create a coherent and effective accountability framework for the continuous improvement for all schools and districts. This system must provide an excellent and equitable education for all students; an aligned federal/state accountability system; and the tools necessary for schools and districts to be accountable. These tools include the necessary accounting and data reporting systems, assessment systems to monitor student achievement, and a system of general support, targeted assistance, and if necessary, intervention.

The office of the superintendent of public instruction is responsible for developing and implementing the accountability tools to build district capacity and working within federal and state guidelines. The legislature assigned the state board of education responsibility and oversight for creating an accountability framework. This framework provides a unified system of support for challenged schools that aligns with basic education, increases the level of support based upon the magnitude of need, and uses data for decisions. Such a system will identify schools and their districts for recognition as well as for additional state support. For a specific group of challenged schools, defined as persistently lowest-achieving schools, and their districts, it is necessary to provide a required action process that creates a partnership between the state and local district to target funds and assistance to turn around the identified lowest-achieving schools.

Phase I of this accountability system will recognize schools that have done an exemplary job of raising student achievement and closing the achievement gaps using the state board of education's accountability index. The state board of education shall have ongoing collaboration with the achievement gap oversight and accountability committee regarding the measures used to measure the closing of the achievement gaps and the recognition provided to the school districts for closing the achievement gaps. Phase I will also target the lowest five percent of persistently lowest-achieving schools defined under federal guidelines to provide federal funds and federal intervention models through a voluntary option in

2010, and for those who do not volunteer and have not improved student achievement, a required action process beginning in 2011.

Phase II of this accountability system will work toward implementing the state board of education's accountability index for identification of schools in need of improvement, including those that are not Title I schools, and the use of state and local intervention models and state funds through a required action process beginning in 2013, in addition to the federal program. Federal approval of the state board of education's accountability index must be obtained or else the federal guidelines for persistently lowest-achieving schools will continue to be used.

The expectation from implementation of this accountability system is the improvement of student achievement for all students to prepare them for postsecondary education, work, and global citizenship in the twenty-first century. [2010 c 235 § 101.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.657.010 Definitions.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "All students group" means those students in grades three through eight and high school who take the state's assessment in reading and mathematics required under 20 U.S.C. Sec. 6311(b)(3).

(2) "Title I" means Title I, part A of the federal elementary and secondary education act of 1965 (ESEA) (20 U.S.C. Secs. 6311-6322). [2010 c 235 § 112.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.657.020 Persistently lowest achieving schools—Identification—Criteria.** (1) Beginning in 2010, and each year thereafter, by December 1st, the superintendent of public instruction shall annually identify schools as one of the state's persistently lowest-achieving schools if the school is a Title I school, or a school that is eligible for but does not receive Title I funds, that is among the lowest-achieving five percent of Title I or Title I eligible schools in the state.

(2) The criteria for determining whether a school is among the persistently lowest-achieving five percent of Title I schools, or Title I eligible schools, under subsection (1) of this section shall be established by the superintendent of public instruction. The criteria must meet all applicable requirements for the receipt of a federal school improvement grant under the American recovery and reinvestment act of 2009 and Title I of the elementary and secondary education act of 1965, and take into account both:

(a) The academic achievement of the "all students" group in a school in terms of proficiency on the state's assessment, and any alternative assessments, in reading and mathematics combined; and

(b) The school's lack of progress on the mathematics and reading assessments over a number of years in the "all students" group. [2010 c 235 § 102.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.657.030 Required action districts—Recommendation for designation—Reconsideration—Designation—**

**Notice.** (1) Beginning in January 2011, the superintendent of public instruction shall annually recommend to the state board of education school districts for designation as required action districts. A district with at least one school identified as a persistently lowest-achieving school shall be designated as a required action district if it meets the criteria developed by the superintendent of public instruction. However, a school district shall not be recommended for designation as a required action district if the district was awarded a federal school improvement grant by the superintendent in 2010 and for three consecutive years following receipt of the grant implemented a federal school intervention model at each school identified for improvement. The state board of education may designate a district that received a school improvement grant in 2010 as a required action district if after three years of voluntarily implementing a plan the district continues to have a school identified as persistently lowest-achieving and meets the criteria for designation established by the superintendent of public instruction.

(2) The superintendent of public instruction shall provide a school district superintendent with written notice of the recommendation for designation as a required action district by certified mail or personal service. A school district superintendent may request reconsideration of the superintendent of public instruction's recommendation. The reconsideration shall be limited to a determination of whether the school district met the criteria for being recommended as a required action district. A request for reconsideration must be in writing and served on the superintendent of public instruction within ten days of service of the notice of the superintendent's recommendation.

(3) The state board of education shall annually designate those districts recommended by the superintendent in subsection (1) of this section as required action districts. A district designated as a required action district shall be required to notify all parents of students attending a school identified as a persistently lowest-achieving school in the district of the state board of education's designation of the district as a required action district and the process for complying with the requirements set forth in RCW 28A.657.040 through 28A.657.100. [2010 c 235 § 103.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.657.040 Academic performance audits of lowest-achieving schools in required action districts—External review teams—Audit findings.** (1) The superintendent of public instruction shall contract with an external review team to conduct an academic performance audit of the district and each persistently lowest-achieving school in a required action district to identify the potential reasons for the school's low performance and lack of progress. The review team must consist of persons under contract with the superintendent who have expertise in comprehensive school and district reform and may not include staff from the agency, the school district that is the subject of the audit, or members or staff of the state board of education.

(2) The audit must be conducted based on criteria developed by the superintendent of public instruction and must include but not be limited to an examination of the following:

- (a) Student demographics;

- (b) Mobility patterns;
- (c) School feeder patterns;
- (d) The performance of different student groups on assessments;
- (e) Effective school leadership;
- (f) Strategic allocation of resources;
- (g) Clear and shared focus on student learning;
- (h) High standards and expectations for all students;
- (i) High level of collaboration and communication;
- (j) Aligned curriculum, instruction, and assessment to state standards;
- (k) Frequency of monitoring of learning and teaching;
- (l) Focused professional development;
- (m) Supportive learning environment;
- (n) High level of family and community involvement;
- (o) Alternative secondary schools best practices; and
- (p) Any unique circumstances or characteristics of the school or district.

(3) Audit findings must be made available to the local school district, its staff, the community, and the state board of education. [2010 c 235 § 104.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.657.050 Required action plans—Development—Submission—Contents—Effect on existing collective bargaining agreements.** (1) The local district superintendent and local school board of a school district designated as a required action district must submit a required action plan to the state board of education for approval. Unless otherwise required by subsection (3) of this section, the plan must be submitted under a schedule as required by the state board. A required action plan must be developed in collaboration with administrators, teachers, and other staff, parents, unions representing any employees within the district, students, and other representatives of the local community. The superintendent of public instruction shall provide a district with assistance in developing its plan if requested. The school board must conduct a public hearing to allow for comment on a proposed required action plan. The local school district shall submit the plan first to the office of the superintendent of public instruction to review and approve that the plan is consistent with federal guidelines. After the office of the superintendent of public instruction has approved that the plan is consistent with federal guidelines, the local school district must submit its required action plan to the state board of education for approval.

(2) A required action plan must include all of the following:

- (a) Implementation of one of the four federal intervention models required for the receipt of a federal school improvement grant, for those persistently lowest-achieving schools that the district will be focusing on for required action. However, a district may not establish a charter school under a federal intervention model without express legislative authority. The intervention models are the turnaround, restart, school closure, and transformation models. The intervention model selected must address the concerns raised in the academic performance audit and be intended to improve student performance to allow a school district to be removed from the list of districts designated as a required action dis-

trict by the state board of education within three years of implementation of the plan;

(b) Submission of an application for a federal school improvement grant or a grant from other federal funds for school improvement to the superintendent of public instruction;

(c) A budget that provides for adequate resources to implement the federal model selected and any other requirements of the plan;

(d) A description of the changes in the district's or school's existing policies, structures, agreements, processes, and practices that are intended to attain significant achievement gains for all students enrolled in the school and how the district intends to address the findings of the academic performance audit; and

(e) Identification of the measures that the school district will use in assessing student achievement at a school identified as a persistently lowest-achieving school, which include improving mathematics and reading student achievement and graduation rates as defined by the office of the superintendent of public instruction that enable the school to no longer be identified as a persistently lowest-achieving school.

(3)(a) For any district designated for required action, the parties to any collective bargaining agreement negotiated, renewed, or extended under chapter 41.59 or 41.56 RCW after June 10, 2010, must reopen the agreement, or negotiate an addendum, if needed, to make changes to terms and conditions of employment that are necessary to implement a required action plan.

(b) If the school district and the employee organizations are unable to agree on the terms of an addendum or modification to an existing collective bargaining agreement, the parties, including all labor organizations affected under the required action plan, shall request the public employment relations commission to, and the commission shall, appoint an employee of the commission to act as a mediator to assist in the resolution of a dispute between the school district and the employee organizations. Beginning in 2011, and each year thereafter, mediation shall commence no later than April 15th. All mediations held under this section shall include the employer and representatives of all affected bargaining units.

(c) If the executive director of the public employment relations commission, upon the recommendation of the assigned mediator, finds that the employer and any affected bargaining unit are unable to reach agreement following a reasonable period of negotiations and mediation, but by no later than May 15th of the year in which mediation occurred, the executive director shall certify any disputed issues for a decision by the superior court in the county where the school district is located. The issues for determination by the superior court must be limited to the issues certified by the executive director.

(d) The process for filing with the court in this subsection (3)(d) must be used in the case where the executive director certifies issues for a decision by the superior court.

(i) The school district shall file a petition with the superior court, by no later than May 20th of the same year in which the issues were certified, setting forth the following:

(A) The name, address, and telephone number of the school district and its principal representative;

(B) The name, address, and telephone number of the employee organizations and their principal representatives;

(C) A description of the bargaining units involved;

(D) A copy of the unresolved issues certified by the executive director for a final and binding decision by the court; and

(E) The academic performance audit that the office of the superintendent of public instruction completed for the school district.

(ii) Within seven days after the filing of the petition, each party shall file with the court the proposal it is asking the court to order be implemented in a required action plan for the district for each issue certified by the executive director. Contemporaneously with the filing of the proposal, a party must file a brief with the court setting forth the reasons why the court should order implementation of its proposal in the final plan.

(iii) Following receipt of the proposals and briefs of the parties, the court must schedule a date and time for a hearing on the petition. The hearing must be limited to argument of the parties or their counsel regarding the proposals submitted for the court's consideration. The parties may waive a hearing by written agreement.

(iv) The court must enter an order selecting the proposal for inclusion in a required action plan that best responds to the issues raised in the school district's academic performance audit, and allows for the award of a federal school improvement grant or a grant from other federal funds for school improvement to the district from the office of the superintendent of public instruction to implement one of the four federal intervention models. The court's decision must be issued no later than June 15th of the year in which the petition is filed and is final and binding on the parties; however the court's decision is subject to appeal only in the case where it does not allow the school district to implement a required action plan consistent with the requirements for the award of a federal school improvement grant or other federal funds for school improvement by the superintendent of public instruction.

(e) Each party shall bear its own costs and attorneys' fees incurred under this statute.

(f) Any party that proceeds with the process in this section after knowledge that any provision of this section has not been complied with and who fails to state its objection in writing is deemed to have waived its right to object.

(4) All contracts entered into between a school district and an employee must be consistent with this section and allow school districts designated as required action districts to implement one of the four federal models in a required action plan. [2010 c 235 § 105.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.657.060 Required action plans—Approval or nonapproval by state board of education—Resubmission or reconsideration—Implementation.** A required action plan developed by a district's school board and superintendent must be submitted to the state board of education for approval. The state board must accept for inclusion in any required action plan the final decision by the superior court on any issue certified by the executive director of the public

employment relations commission under the process in RCW 28A.657.050. The state board of education shall approve a plan proposed by a school district only if the plan meets the requirements in RCW 28A.657.050 and provides sufficient remedies to address the findings in the academic performance audit to improve student achievement. Any addendum or modification to an existing collective bargaining agreement, negotiated under RCW 28A.657.050 or by agreement of the district and the exclusive bargaining unit, related to student achievement or school improvement shall not go into effect until approval of a required action plan by the state board of education. If the state board does not approve a proposed plan, it must notify the local school board and local district's superintendent in writing with an explicit rationale for why the plan was not approved. Nonapproval by the state board of education of the local school district's initial required action plan submitted is not intended to trigger any actions under RCW 28A.657.080. With the assistance of the office of the superintendent of public instruction, the superintendent and school board of the required action district shall either: (a) [(1)] Submit a new plan to the state board of education for approval within forty days of notification that its plan was rejected, or (b) [(2)] submit a request to the required action plan review panel established under RCW 28A.657.070 for reconsideration of the state board's rejection within ten days of the notification that the plan was rejected. If federal funds are not available, the plan is not required to be implemented until such funding becomes available. If federal funds for this purpose are available, a required action plan must be implemented in the immediate school year following the district's designation as a required action district. [2010 c 235 § 106.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.657.070 Required action plan review panel—Membership—Duties—Timelines and procedures for deliberations.** (1) A required action plan review panel shall be established to offer an objective, external review of a request from a school district for reconsideration of the state board of education's rejection of the district's required action plan. The review and reconsideration by the panel shall be based on whether the state board of education gave appropriate consideration to the unique circumstances and characteristics identified in the academic performance audit of the local school district whose required action plan was rejected.

(2)(a) The panel shall be composed of five individuals with expertise in school improvement, school and district restructuring, or parent and community involvement in schools. Two of the panel members shall be appointed by the speaker of the house of representatives; two shall be appointed by the president of the senate; and one shall be appointed by the governor.

(b) The speaker of the house of representatives, president of the senate, and governor shall solicit recommendations for possible panel members from the Washington association of school administrators, the Washington state school directors' association, the association of Washington school principals, the achievement gap oversight and accountability committee, and associations representing certificated teachers, classified school employees, and parents.

(c) Members of the panel shall be appointed no later than December 1, 2010, but the superintendent of public instruction shall convene the panel only as needed to consider a school district's request for reconsideration. Appointments shall be for a four-year term, with opportunity for reappointment. Reappointments in the case of a vacancy shall be made expeditiously so that all requests are considered in a timely manner.

(3) The required action plan review panel may reaffirm the decision of the state board of education, recommend that the state board reconsider the rejection, or recommend changes to the required action plan that should be considered by the district and the state board of education to secure approval of the plan. The state board of education shall consider the recommendations of the panel and issue a decision in writing to the local school district and the panel. If the school district must submit a new required action plan to the state board of education, the district must submit the plan within forty days of the board's decision.

(4) The state board of education and superintendent of public instruction must develop timelines and procedures for the deliberations under this section so that school districts can implement a required action plan within the time frame required under RCW 28A.657.060. [2010 c 235 § 107.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.657.080 Redirecting Title I funds based on academic performance audit findings.** The state board of education may direct the superintendent of public instruction to require a school district that has not submitted a final required action plan for approval, or has submitted but not received state board of education approval of a required action plan by the beginning of the school year in which the plan is intended to be implemented, to redirect the district's Title I funds based on the academic performance audit findings. [2010 c 235 § 108.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.657.090 Required action plans—Implementation—Technical assistance and federal funds—Progress report.** A school district must implement a required action plan upon approval by the state board of education. The office of [the] superintendent of public instruction must provide the required action district with technical assistance and federal school improvement grant funds or other federal funds for school improvement, if available, to implement an approved plan. The district must submit a report to the superintendent of public instruction that provides the progress the district is making in meeting the student achievement goals based on the state's assessments, identifying strategies and assets used to solve audit findings, and establishing evidence of meeting plan implementation benchmarks as set forth in the required action plan. [2010 c 235 § 109.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.657.100 Required action districts—Progress reports—Release from designation.** (1) The superintendent of public instruction must provide a report twice per year to the state board of education regarding the progress made by all school districts designated as required action districts.

(2) The superintendent of public instruction must recommend to the state board of education that a school district be released from the designation as a required action district after the district implements a required action plan for a period of three years; has made progress, as defined by the superintendent of public instruction, in reading and mathematics on the state's assessment over the past three consecutive years; and no longer has a school within the district identified as persistently lowest-achieving. The state board shall release a school district from the designation as a required action district upon confirmation that the district has met the requirements for a release.

(3) If the state board of education determines that the required action district has not met the requirements for release, the district remains in required action and must submit a new or revised plan under the process in RCW 28A.657.050. [2010 c 235 § 110.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.657.110 Accountability framework for system of support for challenged schools—Accountability index—Recognition of schools for exemplary performance—Use of state system to replace federal accountability system.**

(1) The state board of education shall continue to refine the development of an accountability framework that creates a unified system of support for challenged schools, that aligns with basic education, increases the level of support based upon the magnitude of need, and uses data for decisions.

(2) The state board of education shall develop an accountability index to identify schools and districts for recognition, for continuous improvement, and for additional state support. The index shall be based on criteria that are fair, consistent, and transparent. Performance shall be measured using multiple outcomes and indicators including, but not limited to, graduation rates and results from statewide assessments. The index shall be developed in such a way as to be easily understood by both employees within the schools and districts, as well as parents and community members. It is the legislature's intent that the index provide feedback to schools and districts to self-assess their progress, and enable the identification of schools with exemplary student performance and those that need assistance to overcome challenges in order to achieve exemplary student performance.

(3) The state board of education, in cooperation with the office of the superintendent of public instruction, shall annually recognize schools for exemplary performance as measured on the state board of education accountability index. The state board of education shall have ongoing collaboration with the achievement gap oversight and accountability committee regarding the measures used to measure the closing of the achievement gaps and the recognition provided to the school districts for closing the achievement gaps.

(4) In coordination with the superintendent of public instruction, the state board of education shall seek approval from the United States department of education for use of the accountability index and the state system of support, assistance, and intervention, to replace the federal accountability system under P.L. 107-110, the no child left behind act of 2001.

(5) The state board of education shall work with the education data center established within the office of financial management and the technical working group established in section 112, chapter 548, Laws of 2009 to determine the feasibility of using the prototypical funding allocation model as not only a tool for allocating resources to schools and districts but also as a tool for schools and districts to report to the state legislature and the state board of education on how the state resources received are being used. **Intent—Finding—2009 c 548:** See note following RCW 28A.305.130.

**28A.657.120 Rules.** The superintendent of public instruction and the state board of education may each adopt rules in accordance with chapter 34.05 RCW as necessary to implement this chapter. [2010 c 235 § 113.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**28A.657.125 Joint select committee on education accountability—Reports. (Expires June 30, 2014.)** (1)

The legislature finds that a unified and equitable system of education accountability must include expectations and benchmarks for improvement, along with support for schools and districts to make the necessary changes that will lead to success for all students. Such a system must also clearly address the consequences for persistent lack of improvement. Establishing a process for school districts to prepare and implement a required action plan is one such consequence. However, to be truly accountable to students, parents, the community, and taxpayers, the legislature must also consider what should happen if a required action district continues not to make improvement after an extended period of time. Without an answer to this significant question, the state's system of education accountability is incomplete. Furthermore, accountability must be appropriately shared among various levels of decision makers, including in the building, in the district, and at the state.

(2)(a) A joint select committee on education accountability is established beginning no earlier than May 1, 2012, with the following members:

(i) The president of the senate shall appoint two members from each of the two largest caucuses of the senate.

(ii) The speaker of the house of representatives shall appoint two members from each of the two largest caucuses of the house of representatives.

(b) The committee shall choose its cochairs from among its membership.

(3) The committee shall:

(a) Identify and analyze options for a complete system of education accountability, particularly consequences in the case of persistent lack of improvement by a required action district;

(b) Identify and analyze appropriate decision-making responsibilities and accompanying consequences at the building, district, and state level within such an accountability system;

(c) Examine models and experiences in other states;

(d) Identify the circumstances under which significant state action may be required; and

(e) Analyze the financial, legal, and practical considerations that would accompany significant state action.

(4) Staff support for the committee must be provided by the senate committee services and the house of representatives office of program research.

(5) The committee shall submit an interim report to the education committees of the legislature by September 1, 2012, and a final report with recommendations by September 1, 2013.

(6) This section expires June 30, 2014. [2010 c 235 § 114.]

**28A.660.005 Findings—Declaration.** (1) The legislature finds and declares:

(a) Teacher qualifications and effectiveness are the most important influences on student learning in schools;

(b) Preparation of individuals to become well-qualified, effective teachers must be high quality;

(c) Teachers who complete high-quality alternative route programs with intensive field-based experience, adequate coursework, and strong mentorship do as well or better than teachers who complete traditional preparation programs;

(d) High-quality alternative route programs can provide more flexibility and expedience for individuals to transition from their current career to teaching;

(e) High-quality alternative route programs can help school districts fill subject matter shortage areas and areas with shortages due to geographic location;

(f) Regardless of route, all candidates for residency teacher certification must meet the high standards required by the state; and

(g) Teachers need an adequate background in subject matter content if they are to teach it well, and should hold full, appropriate credentials in those subject areas.

(2) The legislature recognizes widespread concerns about the potential for teacher shortages and finds that classified instructional staff in public schools, current certificated staff, and unemployed certificate holders represent a great untapped resource for recruiting more teachers in critical shortage areas. [2007 c 396 § 5; 2001 c 158 § 1.]

**Captions not law—2007 c 396:** See note following RCW 28A.305.215.

(2010 Ed.)

**Finding—Intent—2007 c 396:** See note following RCW 28A.300.515.

**28A.660.020 Proposals—Funding.** (1) The professional educator standards board shall transition the alternative route partnership grant program from a separate competitive grant program to a preparation program model to be expanded among approved preparation program providers. Alternative routes are partnerships between professional educator standards board-approved preparation programs, Washington school districts, and other partners as appropriate.

(2) Each prospective teacher preparation program provider, in cooperation with a Washington school district or consortia of school districts applying to operate [an] alternative route certification program shall include in its proposal to the Washington professional educator standards board:

(a) The route or routes the partnership program intends to offer and a detailed description of how the routes will be structured and operated by the partnership;

(b) The estimated number of candidates that will be enrolled per route;

(c) An identification, indication of commitment, and description of the role of approved teacher preparation programs and partnering district or consortia of districts;

(d) An assurance that the district or approved preparation program provider will provide adequate training for mentor teachers specific to the mentoring of alternative route candidates;

(e) An assurance that significant time will be provided for mentor teachers to spend with the alternative route teacher candidates throughout the internship. Partnerships must provide each candidate with intensive classroom mentoring until such time as the candidate demonstrates the competency necessary to manage the classroom with less intensive supervision and guidance from a mentor;

(f) A description of the rigorous screening process for applicants to alternative route programs, including entry requirements specific to each route, as provided in RCW 28A.660.040;

(g) A summary of procedures that provide flexible completion opportunities for candidates to achieve a residency certificate; and

(h) The design and use of a teacher development plan for each candidate. The plan shall specify the alternative route coursework and training required of each candidate and shall be developed by comparing the candidate's prior experience and coursework with the state's new performance-based standards for residency certification and adjusting any requirements accordingly. The plan may include the following components:

(i) A minimum of one-half of a school year, and an additional significant amount of time if necessary, of intensive mentorship during field experience, starting with full-time mentoring and progressing to increasingly less intensive monitoring and assistance as the intern demonstrates the skills necessary to take over the classroom with less intensive support. Before the supervision is diminished, the mentor of the teacher candidate at the school and the supervisor of the teacher candidate from the teacher preparation program must both agree that the teacher candidate is ready to manage the classroom with less intensive supervision;

[Title 28A RCW—page 299]

(ii) Identification of performance indicators based on the knowledge and skills standards required for residency certification by the Washington professional educator standards board;

(iii) Identification of benchmarks that will indicate when the standard is met for all performance indicators;

(iv) A description of strategies for assessing candidate performance on the benchmarks;

(v) Identification of one or more tools to be used to assess a candidate's performance once the candidate has been in the classroom for about one-half of a school year;

(vi) A description of the criteria that would result in residency certification after about one-half of a school year but before the end of the program; and

(vii) A description of how the district intends for the alternative route program to support its workforce development plan and how the presence of alternative route interns will advance its school improvement plans.

(3) To the extent funds are appropriated for this purpose, alternative route programs may apply for program funds to pay stipends to trained mentor teachers of interns during the mentored internship. The per intern amount of mentor stipend provided by state funds shall not exceed five hundred dollars. [2010 c 235 § 503; 2006 c 263 § 816; 2004 c 23 § 2; 2003 c 410 § 1; 2001 c 158 § 3.]

**Finding—2010 c 235:** See note following RCW 28A.405.245.

**Findings—Purpose—Part headings not law—2006 c 263:** See notes following RCW 28A.150.230.

**28A.660.035 Partnership grant programs—Priority assistance in advancing cultural competency skills.** The office of the superintendent of public instruction shall identify school districts that have the most significant achievement gaps among subgroups of students and for large numbers of those students, and districts that should receive priority for assistance in advancing cultural competency skills in their workforce. The professional educator standards board shall provide assistance to the identified school districts to develop partnership grant programs between the districts and teacher preparation programs to provide one or more of the four alternative route programs under RCW 28A.660.040 and to recruit paraeducators and other individuals in the local community to become certified as teachers. A partnership grant program proposed by an identified school district shall receive priority eligibility for partnership grants under RCW 28A.660.020. To the maximum extent possible, the board shall coordinate the recruiting Washington teachers program under RCW 28A.415.370 with the alternative route programs under this section. [2009 c 468 § 6.]

**Findings—Intent—2009 c 468:** See note following RCW 28A.300.136.

**28A.660.040 Alternative route programs.** Alternative route programs under this chapter shall operate one to four specific route programs. Successful completion of the program shall make a candidate eligible for residency teacher certification. The mentor of the teacher candidate at the school and the supervisor of the teacher candidate from the teacher preparation program must both agree that the teacher candidate has successfully completed the program.

(1) Alternative route programs operating route one programs shall enroll currently employed classified instructional employees with transferable associate degrees seeking residency teacher certification with endorsements in special education, bilingual education, or English as a second language. It is anticipated that candidates enrolled in this route will complete both their baccalaureate degree and requirements for residency certification in two years or less, including a mentored internship to be completed in the final year. In addition, partnership programs shall uphold entry requirements for candidates that include:

(a) District or building validation of qualifications, including one year of successful student interaction and leadership as a classified instructional employee;

(b) Successful passage of the statewide basic skills exam; and

(c) Meeting the age, good moral character, and personal fitness requirements adopted by rule for teachers.

(2) Alternative route programs operating route two programs shall enroll currently employed classified staff with baccalaureate degrees seeking residency teacher certification in subject matter shortage areas and areas with shortages due to geographic location. Candidates enrolled in this route must complete a mentored internship complemented by flexibly scheduled training and coursework offered at a local site, such as a school or educational service district, or online or via video-conference over the K-20 network, in collaboration with the partnership program's higher education partner. In addition, partnership grant programs shall uphold entry requirements for candidates that include:

(a) District or building validation of qualifications, including one year of successful student interaction and leadership as classified staff;

(b) A baccalaureate degree from a regionally accredited institution of higher education. The individual's college or university grade point average may be considered as a selection factor;

(c) Successful completion of the subject matter assessment required by RCW 28A.410.220(3);

(d) Meeting the age, good moral character, and personal fitness requirements adopted by rule for teachers; and

(e) Successful passage of the statewide basic skills exam.

(3) Alternative route programs seeking funds to operate route three programs shall enroll individuals with baccalaureate degrees, who are not employed in the district at the time of application. When selecting candidates for certification through route three, districts and approved preparation program providers shall give priority to individuals who are seeking residency teacher certification in subject matter shortage areas or shortages due to geographic locations. Cohorts of candidates for this route shall attend an intensive summer teaching academy, followed by a full year employed by a district in a mentored internship, followed, if necessary, by a second summer teaching academy. In addition, partnership programs shall uphold entry requirements for candidates that include:

(a) A baccalaureate degree from a regionally accredited institution of higher education. The individual's grade point average may be considered as a selection factor;

(b) Successful completion of the subject matter assessment required by RCW 28A.410.220(3);

(c) External validation of qualifications, including demonstrated successful experience with students or children, such as reference letters and letters of support from previous employers;

(d) Meeting the age, good moral character, and personal fitness requirements adopted by rule for teachers; and

(e) Successful passage of statewide basic skills exam.

(4) Alternative route programs operating route four programs shall enroll individuals with baccalaureate degrees, who are employed in the district at the time of application, or who hold conditional teaching certificates or emergency substitute certificates. Cohorts of candidates for this route shall attend an intensive summer teaching academy, followed by a full year employed by a district in a mentored internship. If employed on a conditional certificate, the intern may serve as the teacher of record, supported by a well-trained mentor. In addition, partnership programs shall uphold entry requirements for candidates that include:

(a) A baccalaureate degree from a regionally accredited institution of higher education. The individual's grade point average may be considered as a selection factor;

(b) Successful completion of the subject matter assessment required by RCW 28A.410.220(3);

(c) External validation of qualifications, including demonstrated successful experience with students or children, such as reference letters and letters of support from previous employers;

(d) Meeting the age, good moral character, and personal fitness requirements adopted by rule for teachers; and

(e) Successful passage of statewide basic skills exam.

(5) Applicants for alternative route programs who are eligible veterans or national guard members and who meet the entry requirements for the alternative route program for which application is made shall be given preference in admission. [2010 c 235 § 504. Prior: 2009 c 192 § 1; 2009 c 166 § 1; 2006 c 263 § 817; 2004 c 23 § 4; 2001 c 158 § 5.]

**Findings—Purpose—Part headings not law—2006 c 263:** See notes following RCW 28A.150.230.

**28A.660.042 Pipeline for paraeducators conditional scholarship program.** (1) The pipeline for paraeducators conditional scholarship program is created. Participation is limited to paraeducators without a college degree who have at least three years of classroom experience. It is anticipated that candidates enrolled in this program will complete their associate of arts degree at a community and technical college in two years or less and become eligible for a mathematics, special education, or English as a second language endorsement via route one in the alternative routes to teacher certification program provided in this chapter.

(2) Entry requirements for candidates include district or building validation of qualifications, including three years of successful student interaction and leadership as a classified instructional employee. [2007 c 396 § 6.]

**Captions not law—2007 c 396:** See note following RCW 28A.305.215.

**Finding—Intent—2007 c 396:** See note following RCW 28A.300.515.

**28A.660.045 Retooling to teach mathematics and science conditional scholarship program.** (1) The retooling to

(2010 Ed.)

teach mathematics and science conditional scholarship program is created. Participation is limited to current K-12 teachers and individuals having an elementary education certificate but who are not employed in positions requiring an elementary education certificate. It is anticipated that candidates enrolled in this program will complete the requirements for a mathematics or science endorsement, or both, in two years or less.

(2) Entry requirements for candidates include:

(a) Current K-12 teachers shall pursue a middle level mathematics or science, or secondary mathematics or science endorsement.

(b) Individuals having an elementary education certificate but who are not employed in positions requiring an elementary education certificate shall pursue an endorsement in middle level mathematics or science only. [2007 c 396 § 7.]

**Captions not law—2007 c 396:** See note following RCW 28A.305.215.

**Finding—Intent—2007 c 396:** See note following RCW 28A.300.515.

**28A.660.050 Conditional scholarship programs—Requirements—Recipients.** Subject to the availability of amounts appropriated for these purposes, the conditional scholarship programs in this chapter are created under the following guidelines:

(1) The programs shall be administered by the higher education coordinating board. In administering the programs, the higher education coordinating board has the following powers and duties:

(a) To adopt necessary rules and develop guidelines to administer the programs;

(b) To collect and manage repayments from participants who do not meet their service obligations; and

(c) To accept grants and donations from public and private sources for the programs.

(2) Requirements for participation in the conditional scholarship programs are as provided in this subsection (2).

(a) The alternative route conditional scholarship program is limited to interns of professional educator standards board-approved alternative routes to teaching programs under RCW 28A.660.040. For fiscal year 2011, priority must be given to fiscal year 2010 participants in the alternative route partnership program. In order to receive conditional scholarship awards, recipients shall:

(i) Be accepted and maintain enrollment in alternative certification routes through a professional educator standards board-approved program;

(ii) Continue to make satisfactory progress toward completion of the alternative route certification program and receipt of a residency teaching certificate; and

(iii) Receive no more than the annual amount of the scholarship, not to exceed eight thousand dollars, for the cost of tuition, fees, and educational expenses, including books, supplies, and transportation for the alternative route certification program in which the recipient is enrolled. The board may adjust the annual award by the average rate of resident undergraduate tuition and fee increases at the state universities as defined in RCW 28B.10.016.

(b) The pipeline for paraeducators conditional scholarship program is limited to qualified paraeducators as pro-

vided by RCW 28A.660.042. In order to receive conditional scholarship awards, recipients shall:

(i) Be accepted and maintain enrollment at a community and technical college for no more than two years and attain an associate of arts degree;

(ii) Continue to make satisfactory progress toward completion of an associate of arts degree. This progress requirement is a condition for eligibility into a route one program of the alternative routes to teacher certification program for a mathematics, special education, or English as a second language endorsement; and

(iii) Receive no more than the annual amount of the scholarship, not to exceed four thousand dollars, for the cost of tuition, fees, and educational expenses, including books, supplies, and transportation for the alternative route certification program in which the recipient is enrolled. The board may adjust the annual award by the average rate of tuition and fee increases at the state community and technical colleges.

(c) The retooling to teach mathematics and science conditional scholarship program is limited to current K-12 teachers. In order to receive conditional scholarship awards:

(i) Individuals currently employed as teachers shall pursue a middle level mathematics or science, or secondary mathematics or science endorsement; or

(ii) Individuals who are certificated with an elementary education endorsement shall pursue an endorsement in middle level mathematics or science, or both; and

(iii) Individuals shall use one of the pathways to endorsement processes to receive a mathematics or science endorsement, or both, which shall include passing a mathematics or science endorsement test, or both tests, plus observation and completing applicable coursework to attain the proper endorsement; and

(iv) Individuals shall receive no more than the annual amount of the scholarship, not to exceed three thousand dollars, for the cost of tuition, test fees, and educational expenses, including books, supplies, and transportation for the endorsement pathway being pursued.

(3) The Washington professional educator standards board shall select individuals to receive conditional scholarships. In selecting recipients, preference shall be given to eligible veterans or national guard members.

(4) For the purpose of this chapter, a conditional scholarship is a loan that is forgiven in whole or in part in exchange for service as a certificated teacher employed in a Washington state K-12 public school. The state shall forgive one year of loan obligation for every two years a recipient teaches in a public school. Recipients who fail to continue a course of study leading to residency teacher certification or cease to teach in a public school in the state of Washington in their endorsement area are required to repay the remaining loan principal with interest.

(5) Recipients who fail to fulfill the required teaching obligation are required to repay the remaining loan principal with interest and any other applicable fees. The higher education coordinating board shall adopt rules to define the terms for repayment, including applicable interest rates, fees, and deferments.

(6) The higher education coordinating board may deposit all appropriations, collections, and any other funds received

for the program in this chapter in the future teachers conditional scholarship account authorized in RCW 28B.102.080. [2010 c 235 § 505. Prior: 2009 c 539 § 3; 2009 c 192 § 2; 2007 c 396 § 8; 2004 c 23 § 5; 2003 c 410 § 3; 2001 c 158 § 6.]

**28A.660.055 Eligible veteran or national guard member—Definition.** As used in this chapter, "eligible veteran or national guard member" means a Washington domiciliary who was an active or reserve member of the United States military or naval forces, or a national guard member called to active duty, who served in active federal service, under either Title 10 or Title 32 of the United States Code, in a war or conflict fought on foreign soil or in international waters or in another location in support of those serving on foreign soil or in international waters, and if discharged from service, has received an honorable discharge. [2009 c 192 § 3.]

**28A.660.060 Employment of certain personnel not affected.** School districts or approved private schools' ability to employ personnel under certification for emergency or temporary, substitute, or provisional duty as authorized by chapter 28A.410 RCW are not affected by the provisions of this chapter. ### Chapter 28A.690 RCW AGREEMENT ON QUALIFICATIONS OF PERSONNEL

#### Sections

- 28A.690.010 Compact entered into—Terms.  
28A.690.020 Superintendent as "designated state official," compact administrator—Professional educator standards board to approve text of contracts.  
28A.690.030 True copies of contracts filed in office of superintendent—Publication.

**28A.690.010 Compact entered into—Terms.** The Interstate Agreement on Qualifications of Educational Personnel is hereby enacted into law and entered into by this state with all other states legally joining therein in the form substantially as follows:

The contracting states solemnly agree that:

#### Article I

1. The states party to this Agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this Agreement to provide for the development and execution of such programs of cooperation as will facilitate the

movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

2. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states or origin, can increase the available educational resources. Participation in this compact can increase the availability of educational manpower.

Article II

As used in this Agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1. "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

2. "Designated state official" means the education official of a state selected by that state to negotiate and enter into, on behalf of his or her state, contracts pursuant to this Agreement.

3. Article III

1. The designated state official of a party state may make one or more contracts on behalf of his or her state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this Agreement. A designated state official may enter into a contract pursuant to this Article only with states in which he or she finds that there are programs of education, certification standards or other acceptable qualifications that assure preparation or qualification of educational

personnel on a basis sufficiently comparable, even though not identical to that prevailing in his or her own state.

2. Any such contract shall provide for:

(a) Its duration.

(b) The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.

(c) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

(d) Any other necessary matters.

3. No contract made pursuant to this Agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.

4. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this Agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.
