Whenever the board of a joint operating agency shall deem it advisable to issue bonds or warrants to engage in conservation activities or to construct or acquire any public utility or any works, plants or facilities or any additions or betterments thereto or extensions thereof it shall provide therefor by resolution, which shall specify and adopt the system or plan proposed and declare the estimated cost thereof as near as may be. Such cost may include funds for working capital, for payment of expenses incurred in the conservation activities or the acquisition or construction of the utility and for the repayment of advances made to the operating agency by any public utility district or city. Except as otherwise provided in RCW 43.52.343, all the provisions of law as now or hereafter in

(2010 Ed.)

effect relating to revenue bonds or warrants of public utility districts shall apply to revenue bonds or warrants issued by the joint operating agency including, without limitation, provisions relating to: The creation of special funds and the pledging of revenues thereto; the time and place of payment of such bonds or warrants and the interest rate or rates thereon; the covenants that may be contained therein and the effect thereof; the execution, issuance, sale, funding, or refunding, redemption and registration of such bonds or warrants; and the status thereof as negotiable instruments, as legal securities for deposits of public moneys and as legal investments for trustees and other fiduciaries and for savings and loan associations, banks and insurance companies doing business in this state. However, for revenue bonds or warrants issued by an operating agency, the provisions under RCW 54.24.030 relating to additional or alternate methods for payment may be made a part of the contract with the owners of any revenue bonds or warrants of an operating agency. The board may authorize the managing director or the treasurer of the operating agency to sell revenue bonds or warrants maturing one year or less from the date of issuance, and to fix the interest rate or rates on such revenue bonds or warrants with such restrictions as the board shall prescribe. Such bonds and warrants may be in any form, including bearer bonds or bearer warrants, or registered bonds or registered warrants as provided in RCW 39.46.030. An operating agency shall, at the time of the construction of any dam or obstruction, construct and shall thereafter maintain and operate such fishways, fish protective facilities and hatcheries as the director of fish and wildlife finds necessary to permit anadromous fish to pass any dam or other obstruction operated by the operating agency or to replace fisheries damaged or destroyed by such dam or obstruction and an operating agency is further authorized to enter into contracts with the department of fish and wildlife to provide for the construction and/or operation of such fishways, facilities and hatcheries

ies. [1994 c 264 § 24; 1988 c 36 § 18; 1977 ex.s. c 184 § 5; 1965 c 8 § 43.52.350. Prior: 1953 c 281 § 11.]

43.52.360 Operating agency—Formation—Additional projects—Appeals—Membership, withdrawal—Dissolution. Any two or more cities or public utility districts or combinations thereof may form an operating agency (herein sometimes called a joint operating agency) for the purpose of acquiring, constructing, operating and owning plants, systems and other facilities and extensions thereof, for the generation and/or transmission of electric energy and power. Each such agency shall be a municipal corporation of the state of Washington with the right to sue and be sued in its own name.

Application for the formation of an operating agency shall be made to the director of the department of ecology (herein sometimes referred to as the director) after the adoption of a resolution by the legislative body of each city or public utility district to be initial members thereof authorizing said city or district to participate. Such application shall set forth (1) the name and address of each participant, together with a certified copy of the resolution authorizing its participation; (2) a general description of the project and the principal project works, including dams, reservoirs, power houses and transmission lines; (3) the general location of the project and, if a hydroelectric project, the name of the stream on which such proposed project is to be located; (4) if the project is for the generation of electricity, the proposed use or market for the power to be developed; (5) a general statement of the electric loads and resources of each of the participants; (6) a statement of the proposed method of financing the preliminary engineering and other studies and the participation therein by each of the participants.

Within ten days after such application is filed with the director of the department of ecology notice thereof shall be published by the director once a week for four consecutive weeks in a newspaper of general circulation in the county or counties in which such project is to be located, setting forth the names of the participants and the general nature, extent and location of the project. Any public utility wishing to do so may object to such application by filing an objection, setting forth the reasons therefor, with the director of the department of ecology not later than ten days after the date of last publication of such notice.

Within ninety days after the date of last publication the director shall either make findings thereon or have instituted a hearing thereon. In the event the director has neither made findings nor instituted a hearing within ninety days of the date of last publication, or if such hearing is instituted within such time but no findings are made within one hundred and twenty days of the date of such last publication, the application shall be deemed to have been approved and the operating agency established. If it shall appear (a) that the statements set forth in said application are substantially correct; (b) that the contemplated project is such as is adaptable to the needs, both actual and prospective, of the participants and such other public utilities as indicate a good faith intention by contract or by letter of intent to participate in the use of such project; (c) that no objection to the formation of such operating agency has been filed by any other public utility which prior to and at the time of the filing of the application for such

operating agency had on file a permit or license from an agency of the state or an agency of the United States, whichever has primary jurisdiction, for the construction of such project; (d) that adequate provision will be made for financing the preliminary engineering, legal and other costs necessary thereto; the director shall make findings to that effect and enter an order creating such operating agency, establishing the name thereof and the specific project for the construction and operation for which such operating agency is formed. Such order shall not be construed to constitute a bar to any other public utility proceeding according to law to procure any required governmental permits, licenses or authority, but such order shall establish the competency of the operating agency to proceed according to law to procure such permits, licenses or authority.

No operating agency shall undertake projects or conservation activities in addition to those for which it was formed without the approval of the legislative bodies of a majority of the members thereof. Prior to undertaking any new project for acquisition of an energy resource, a joint operating agency shall prepare a plan which details a least-cost approach for investment in energy resources. The plan shall include an analysis of the costs of developing conservation compared with costs of developing other energy resources and a strategy for implementation of the plan. The plan shall be presented to the energy and utilities committees of the senate and house of representatives for their review and comment. In the event that an operating agency desires to undertake such a hydroelectric project at a site or sites upon which any publicly or privately owned public utility has a license or permit or has a prior application for a license or permit pending with any commission or agency, state or federal, having jurisdiction thereof, application to construct such additional project shall be made to the director of the department of ecology in the same manner, subject to the same requirements and with the same notice as required for an initial agency and project and shall not be constructed until an order authorizing the same shall have been made by the director in the manner provided for such original application.

Any party who has joined in filing the application for, or objections against, the creation of such operating agency and/or the construction of an additional project, and who feels aggrieved by any order or finding of the director shall have the right to appeal to the superior court in the manner set forth in RCW 43.52.430.

After the formation of an operating agency, any other city or district may become a member thereof upon application to such agency after the adoption of a resolution of its legislative body authorizing said city or district to participate, and with the consent of the operating agency by the affirmative vote of the majority of its members. Any member may withdraw from an operating agency, and thereupon such member shall forfeit any and all rights or interest which it may have in such operating agency or in any of the assets thereof: PROVIDED, That all contractual obligations incurred while a member shall remain in full force and effect. An operating agency may be dissolved by the unanimous agreement of the members, and the members, after making provisions for the payment of all debts and obligations, shall thereupon hold the assets thereof as tenants in common. [1998 c 245 § 68; 1987 c 376 § 11; 1977 ex.s. c 184 § 6; 1965

(1) Except as provided in subsection (2) of this section, the management and control of an operating agency shall be vested in a board of directors, herein sometimes referred to as the board. The legislative body of each member of an operating agency shall appoint a representative who may, at the discretion of the member and regardless of any charter or other provision to the contrary, be an officer or employee of the member, to serve on the board of the operating agency. Each representative shall have one vote and shall have, in addition thereto, one vote for each block of electric energy equal to ten percent of the total energy generated by the agency during the preceding year purchased by the member represented by such representative. Each member may appoint an alternative representative to serve in the absence or disability of its representative. Each representative shall serve at the pleasure of the member. The board of an operating agency shall elect from its members a president, vice president and secretary, who shall serve at the pleasure of the board. The president and secretary shall perform the same duties with respect to the operating agency as are provided by law for the president and secretary, respectively, of public utility districts, and such other duties as may be provided by motion, rule or resolution of the board. The board of an operating agency shall adopt rules for the conduct of its meetings and the carrying out of its business, and adopt an official seal. All proceedings of an operating agency shall be by motion or resolution and shall be recorded in the minute book which shall be a public record. A majority of the board members shall constitute a quorum for the transaction of business. A majority of the votes which the members present are entitled to cast shall be necessary and sufficient to pass any motion or resolution: PROVIDED, That such board members are entitled to cast a majority of the votes of all members of the board. The members of the board of an operating agency may be compensated by such agency as is provided in RCW 43.52.290: PROVIDED, That the compensation to any member shall not exceed five thousand dollars in any year except for board members who are elected to serve on an executive board established under RCW 43.52.374.

(2) If an operating agency is constructing, operating, terminating, or decommissioning a nuclear power plant under a site certification agreement under chapter 80.50 RCW, the powers and duties of the board of directors shall include and are limited to the following:

(a) Final authority on any decision of the operating agency to purchase, acquire, construct, terminate, or decommission any power plants, works, and facilities except that once the board of directors has made a final decision regarding a nuclear power plant, the executive board established under RCW 43.52.374 shall have the authority to make all subsequent decisions regarding the plant and any of its components;

(2010 Ed.)

(b) Election of members to, removal from, and establishment of salaries for the elected members of the executive board under RCW 43.52.374(1)(a); and

(c) Selection and appointment of three outside directors as provided in RCW 43.52.374(1)(b).

All other powers and duties of the operating agency, including without limitation authority for all actions subsequent to final decisions by the board of directors, including but not limited to the authority to sell any power plant, works, and facilities are vested in the executive board established under RCW 43.52.374. [1983 1st ex.s. c 3 § 2; 1982 1st ex.s. c 43 § 2; 1981 1st ex.s. c 3 § 1; 1977 ex.s. c 184 § 7; 1965 c 8 § 43.52.370. Prior: 1957 c 295 § 2; 1953 c 281 § 13.]

(i) Serve four-year terms on the executive board. However, of the initial members of the executive board, the board of directors and the governor shall each appoint one outside director to serve a two-year term, one outside director to serve a three-year term, and one outside director to serve a four-year term. Thereafter, all outside directors shall be appointed for four-year terms. All outside directors are eligible for reappointment;

(ii) Receive travel expenses on the same basis as the five members elected from the board of directors. The outside directors shall also receive a salary from the operating agency as fixed by the governor;

Immediately after the award is made, the bid quotations obtained shall be recorded and shall

be posted or otherwise made available for public inspection and copying pursuant to chapter 42.56 RCW at the office of the operating agency or any other officially designated location. Waiver of the deposit or bid bond required for sealed bids may be authorized by the operating agency in securing the bid quotations. [2005 c 274 § 299; 1987 c 376 § 3.]

Part headings not law—Effective date—2005 c 274: See RCW 42.56.901 and 42.56.902.

43.52.575 Purchase of materials without competition authorized. When the managing director or a designee determines in writing that it is impracticable to secure competition for required materials, equipment, or supplies, he or she may purchase the materials, equipment, or supplies without competition. The term "impracticable to secure competition" means:

(1) When material, equipment, or supplies can be obtained from only one person or firm (single source of supply); or

(2) When specially designed parts or components are being procured as replacement parts in support of equipment specially designed by the manufacturer. [1987 c 376 § 4.]

43.52.580 Emergency purchase of materials or work by contract. When the managing director or a designee determines in writing that an emergency endangers the public safety or threatens property damage or that serious financial injury would result if materials, supplies, equipment, or work are not obtained by a certain time, and they cannot be contracted for by that time by means of sealed bids, the managing director or a designee may purchase materials, equipment, or supplies or may order work by contract in any amount necessary, after having taken precautions to secure a responsive proposal at the lowest price practicable under the circumstances.

For the purposes of this section the term "serious financial injury" means that the costs attributable to the delay caused by contracting by sealed bids exceed the cost of materials, supplies, equipment, or work to be obtained. [1987 c 376 § 5.]

43.52.585 Procedures for implementing RCW 43.52.560 through 43.52.580. The executive board shall establish procedures for implementing RCW 43.52.560 through 43.52.580 by operating agency resolution after notice, public hearing, and opportunity for public comment. The procedures shall be established within six months after July 26, 1987. [1987 c 376 § 6.]

43.52.590 Construction of RCW 43.52.560 through 43.52.585. Nothing in RCW 43.52.560 through 43.52.585 requires reapplication by a joint operating agency in existence on July 26, 1987. [1987 c 376 § 7.]

43.52.595 Contracts for electric power and energy. A city or district may contract to purchase from an operating agency electric power and energy required for its present or future requirements. For projects the output of which is limited to qualified alternative energy resources as defined by RCW 19.29A.090(3), the contract may include the purchase

of capability of the projects to produce electricity in addition to the actual output of the projects. The contract may provide that the city or district must make the payments required by the contract whether or not a project is completed, operable, or operating and notwithstanding the suspension, interruption, interference, reduction, or curtailment of the output of a project or the power and energy contracted for. The contract may also provide that payments under the contract are not subject to reduction, whether by offset or otherwise, and shall not be conditioned upon the performance or nonperformance of the operating agency or a city or district under the contract or other instrument. [2003 c 138 § 1.]

43.52.612 Contract bid form. A joint operating agency shall require that bids upon any construction or improvement of any nuclear generating project and associated facilities shall be made upon the contract bid form supplied by the operating agency, and in no other manner. The operating agency may, before furnishing any person, firm, or corporation desiring to bid upon any work with a contract bid form, require from the person, firm, or corporation, answers to questions contained in a standard form of questionnaire and financial statement, including a complete statement of the financial ability and experience of the person, firm, or corporation in performing work. The questionnaire shall be sworn to before a notary public or other person authorized to take acknowledgement of deeds and shall be submitted once a year or at such other times as the operating agency may require. Whenever the operating agency is not satisfied with the sufficiency of the answers contained in the questionnaire and financial statement or whenever the operating agency determines that the person, firm, or corporation does not meet all of the requirements set forth in this section, it may refuse to furnish the person, firm, or corporation with a contract bid form and any bid of the person, firm, or corporation must be disregarded. The operating agency shall require that a person, firm, or corporation have all of the following requirements in order to obtain a contract form:

- (1) Adequate financial resources, the ability to secure these resources, or the capability to secure a one hundred percent payment and performance bond;
- (2) The necessary experience, organization, and technical qualifications to perform the proposed contract;
- (3) The ability to comply with the required performance schedule taking into consideration all of its existing business commitments;
- (4) A satisfactory record of performance, integrity, judgment, and skills; and
- (5) Be otherwise qualified and eligible to receive an award under applicable laws and regulations.

The refusal shall be conclusive unless appealed to the superior court of the county where the operating agency is situated or Thurston county within fifteen days, which appeal shall be heard summarily within ten days after the appeal is made and on five days' notice thereof to the operating agency.

The prevailing party in such litigation shall be awarded its attorney fees and costs.

The operating agency shall not be required to make available for public inspection or copying under chapter

42.56 RCW financial information provided under this section. [2005 c 274 § 300; 1982 1st ex.s. c 44 § 5.]

43.58.060 Oregon-Washington Columbia River boundary compact—Terms and provisions. The terms and provisions of the compact referred to in RCW 43.58.050 are as follows:

INTERSTATE COMPACT DETERMINING
OREGON-WASHINGTON BOUNDARY
ON THE COLUMBIA RIVER

ARTICLE I. PURPOSE

The boundary between the states of Oregon and Washington along the course of the Columbia River has not been easy to ascertain because of changes in the main channel of the river with a result that a state of confusion and dispute exists and the enforcement and administration of the laws of the two states has been rendered difficult.

The purpose of this compact is to fix with precision by reference to stations of longitude and latitude the boundary between the states of Oregon and Washington from one marine league due west of the mouth of the Columbia River to the most easterly point at which the 46th parallel of North latitude crosses said river, at which point the river ceases to form the boundary between the two states.

ARTICLE II. DESCRIPTION

The boundary between the states of Oregon and Washington from one marine league due west of the mouth of the Columbia River to the point at which the last described point number (# 191) of the boundary as herein determined meets

the 46th parallel of North latitude at 118° 59’10".12 of West longitude shall be as follows:

Beginning one marine league at sea off the mouth of the Columbia river at north latitude 46° 15’00".00; running thence due east to point number 1 of this description, which point is at north latitude 46° 15’00".00, west longitude 124° 05’00".00; thence from point number 1 continuing upstream in the channel of the Columbia river by a series of straight lines connecting the following numbered and described points in consecutive order.

43.59.010 Purpose—Finding. (1) The purpose of this chapter is to establish a new agency of state government to be known as the Washington traffic safety commission. The functions and purpose of this commission shall be to find solutions to the problems that have been created as a result of the tremendous increase of motor vehicles on our highways and the attendant traffic death and accident tolls; to plan and supervise programs for the prevention of accidents on streets and highways including but not limited to educational campaigns designed to reduce traffic accidents in cooperation with all official and unofficial organizations interested in traffic safety; to coordinate the activities at the state and local

level in the development of statewide and local traffic safety programs; to promote a uniform enforcement of traffic safety laws and establish standards for investigation and reporting of traffic accidents; to promote and improve driver education; and to authorize the governor to perform all functions required to be performed by him or her under the federal Highway Safety Act of 1966 (Public Law 89-564; 80 Stat. 731).

(2) The legislature finds and declares that bicycling and walking are becoming increasingly popular in Washington as clean and efficient modes of transportation, as recreational activities, and as organized sports. Future plans for the state's transportation system will require increased access and safety for bicycles and pedestrians on our common roadways, and federal transportation legislation and funding programs have created strong incentives to implement these changes quickly. As a result, many more people are likely to take up bicycling in Washington both as a leisure activity and as a convenient, inexpensive form of transportation. Bicyclists are more vulnerable to injury and accident than motorists, and should be as knowledgeable as possible about traffic laws, be highly visible and predictable when riding in traffic, and be encouraged to wear bicycle safety helmets. Hundreds of bicyclists and pedestrians are seriously injured every year in accidents, and millions of dollars are spent on health care costs associated with these accidents. There is clear evidence that organized training in the rules and techniques of safe and effective cycling can significantly reduce the incidence of serious injury and accidents, increase cooperation among road users, and significantly increase the incidence of bicycle helmet use, particularly among minors. A reduction in accidents benefits the entire community. Therefore it is appropriate for businesses and community organizations to provide donations to bicycle and pedestrian safety training programs. Reviser's note: This section was amended by 2007 c 241 § 6 and by 2007 c 451 § 2, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Intent—Effective date—2007 c 241: See notes following RCW 79A.25.005.

Findings—Purpose—2005 c 257: "The legislature finds that many Washington citizens are veterans of armed forces conflicts that have important skills that may be employed in projects that help to protect and restore Washington's rivers, streams, lakes, marine waters, and open lands, and help to maintain urban and suburban wastewater and storm water management systems. The legislature further finds that such work has demonstrated benefits for many veterans who are coping with posttraumatic stress disorder or have other mental health or substance abuse disorders related to their service in the armed forces. The legislature further finds that these projects provide an opportunity for veterans to obtain on-the-job training, leading to certification in specific skill sets and to living wage employment in environmental restoration and stewardship. Therefore, it is the purpose of this chapter to create the veterans conservation corps program to assist veterans in obtaining training, certification, and employment in the field of environmental restoration and management, and to provide state funding assistance for projects that restore Washington's waters, forests, and habitat through the participation of veterans." The department shall consult with the workforce training and education coordinating board, the state board for community and technical colleges, the higher education coordinating board, the employment security department, and other state agencies administering conservation corps programs, to incorporate training, education, and certification in environmental restoration and management fields into the program. The department may enter into agreements with community colleges, private schools, state or local agencies, or other entities to

provide training and educational courses as part of the enrollee benefits from the program.

(2) The department may receive gifts, grants, federal funds, or other moneys from public or private sources, for the use and benefit of the veterans conservation corps program. The funds shall be deposited to the veterans conservation corps account created in RCW 43.60A.153.

(3) The department shall submit a report to the appropriate committees of the legislature by December 1, 2008, on the status of the veterans conservation corps program, including the number of enrollees employed in projects, training provided, certifications earned, employment placements achieved, program funding provided from all sources, and the results of the pilot project authorized in section 4, chapter 451, Laws of 2007. All moneys appropriated to the account or directed to the account from other sources must be deposited in the account. Moneys in the account may be spent only after appropriation. From applications submitted, the board and the department shall identify projects that propose work suitable for corps enrollees and located near where enrollees are based or may be created. The department may provide the project applicants with information regarding the benefits of employing a veterans conservation corps enrollee in the project, including funding that the department may make available to assist with the project. Such funding shall be considered by the salmon recovery funding board as matched funding in evaluating the project for salmon recovery funding board funding.

(2) As an element of the report required under RCW 43.60A.151(3), the salmon recovery funding board and the department shall jointly report to the governor and the appropriate committees of the senate and house of representatives regarding projects funded during the 2007 and 2008 grant cycles that employ veterans conservation corps enrollees. The report shall include recommendations for increasing the use of veterans conservation corps enrollees in salmon habitat projects that receive funding from the salmon recovery funding board. The office of financial management shall annually as of April 1st, determine the populations of all cities and towns of the state; and on or before July 1st of each year, shall file with the secretary of state a certificate showing its determination as to the populations of cities and towns of the state. A copy of such certificate shall be forwarded by the agency to each state official or department responsible for making allocations or payments, and on and after January 1st next following the date when such certificate or certificates are filed, the population determination shown in such certificate or certificates shall be used as the basis for the allocation and payment of state funds, to cities and towns until the next January 1st following the filing of successive certificates by the agency: PROVIDED, That whenever territory is annexed to a city or town, the population of the annexed territory shall be added to the population of the annexing city or town upon the effective date of the annexation as specified in the relevant ordinance, and upon approval of the agency as provided in RCW 35.13.260, as now or hereafter amended, a revised certificate reflecting the determination of the population as increased from such annexation shall be forwarded by the agency to each state official or department responsible for making allocations or payments, and upon and after the date of the commencement of the next quarterly period, the population determination indicated in such revised certificate shall be used as the basis for allocation and payment of state funds to such city or town until the next annual population determination becomes effective: PROVIDED FURTHER, That whenever

any city or town becomes incorporated subsequent to the determination of such population, the populations of such cities and towns as shown in the records of incorporation filed with the secretary of state shall be used in determining the amount of allocation and payments, and the agency shall so notify the proper state officials or departments, and such cities and towns shall be entitled to participate in allocations thereafter made: PROVIDED FURTHER, That in case any incorporated city or town disincorporates subsequent to the filing of such certificate or certificates, the agency shall promptly notify the proper state officials or departments thereof, and such cities and towns shall cease to participate in allocations thereafter made, and all credit accrued to such incorporated city or town shall be distributed to the credit of the remaining cities and towns. Armed forces shipboard population, on-base naval group quarter population, and military dependents living in housing under United States navy jurisdiction, shall be determined quarterly by the office of financial management on the first days of January, April, July, and October. These counts shall be used to increase or decrease the armed forces component of the resident population determinations in the cities of Bremerton and Everett for the purpose of allocating state revenues according to this section. Counts on the first day of the quarterly periods commencing with January, April, July, and October shall be used to adjust the total population for the following quarter, in the same manner adjustments are made for population changes due to annexation as specified in RCW 35.13.260 and 35A.14.700.

Population determinations made under this section shall include only those persons who meet resident population criteria as defined by the federal bureau of the census. The county and its cities may provide to the office such information as they deem relevant to the office's projection, and the office shall consider and comment on such information before adoption. Each projection shall be expressed as a reasonable range developed within the standard state high and low projection. The middle range shall represent the office's estimate of the most likely population projection for the county. If any city or county believes that a projection will not accurately reflect actual population growth in a county, it may petition the office to revise the projection accordingly. The office shall complete the first set of ranges for every county by December 31, 1995.

A comprehensive plan adopted or amended before December 31, 1995, shall not be considered to be in noncompliance with the twenty-year growth management planning population projection if the projection used in the comprehensive plan is in compliance with the range later adopted under this section. (Effective until June 30, 2011.) (1) The department shall establish the building communities fund program. Under the program, capital and technical assistance grants may be made to nonprofit organizations for acquiring, constructing, or rehabilitating facilities used for the delivery of nonresidential community services, including social service centers and multipurpose community centers, including those serving a distinct or ethnic population. Such facilities must be located in a distressed commu-

nity or serve a substantial number of low-income or disadvantaged persons.

(2) The department shall establish a competitive process to solicit, evaluate, and rank applications for the building communities fund program as follows:

(a) The department shall conduct a statewide solicitation of project applications from nonprofit organizations.

(b) The department shall evaluate and rank applications in consultation with a citizen advisory committee using objective criteria. To be considered qualified, applicants must demonstrate that the proposed project:

(ii) Will be located in a distressed community or will serve a substantial number of low-income or disadvantaged persons;

(iii) Will offer three or more distinct activities that meet a single community service objective or a diverse set of activities that meet multiple community service objectives, including but not limited to: Providing social services; expanding employment opportunities for or increasing the employability of community residents; or offering educational or recreational opportunities separate from the public school system or private schools, as long as recreation is not the sole purpose of the facility;

(iv) Reflects a long-term vision for the development of the community, shared by residents, businesses, leaders, and partners;

(v) Requires state funding to accomplish a discrete, usable phase of the project;

(vi) Is ready to proceed and will make timely use of the funds;

(vii) Is sponsored by one or more entities that have the organizational and financial capacity to fulfill the terms of the grant agreement and to maintain the project into the future;

(viii) Fills an unmet need for community services;

(ix) Will achieve its stated objectives; and

(x) Is a community priority as shown through tangible commitments of existing or future assets made to the project by community residents, leaders, businesses, and government partners.

(c) The evaluation process shall also include an examination of existing assets that applicants may apply to projects. Grant assistance under this section shall not exceed twenty-five percent of the total cost of the project, except, under exceptional circumstances, the department may reduce the amount of nonstate match required. The nonstate portion of the total project cost may include cash, the value of real property when acquired solely for the purpose of the project, and in-kind contributions.

(d) The department may not set a monetary limit to funding requests.

threat to public health or safety; or instances where a local community could quantifiably demonstrate that they had exhausted all possible fund-raising efforts.

(3) The department shall submit biennially to the governor and the legislature in the department's capital budget request a ranked list of the qualified eligible projects for which applications were received. The list must include a description of each project, its total cost, and the amount of state funding requested. The appropriate fiscal committees of the legislature shall use this list to determine building communities fund projects that may receive funding in the capital budget. The total amount of state capital funding available for all projects on the biennial list shall be determined by the capital budget beginning with the 2009-2011 biennium and thereafter. In addition, if cash funds have been appropriated, up to three million dollars may be used for technical assistance grants. The department shall not sign contracts or otherwise financially obligate funds under this section until the legislature has approved a specific list of projects.

(4) In addition to the list of ranked qualified eligible projects, the department shall submit to the appropriate fiscal committees of the legislature a summary report that describes the solicitation and evaluation processes, including but not limited to the number of applications received, the total amount of funding requested, issues encountered, if any, and any recommendations for process improvements.

(5) After the legislature has approved a specific list of projects in law, the department shall develop and manage appropriate contracts with the selected applicants; monitor project expenditures and grantee performance; report project and contract information; and exercise due diligence and other contract management responsibilities as required.

(6) In contracts for grants authorized under this section the department shall include provisions which require that capital improvements shall be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities shall be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant. (d) Annually provide to the department data reflecting changes in the percentage of youth aging out of the state dependency system each year who are eligible for state assistance, as well as any other data and performance measures that may assist the department to measure program success; and

(e) Annually, beginning by December 31, 2007, provide to the appropriate committees of the legislature and the inter-agency council on homelessness as described under RCW 43.185C.170 recommendations of strategies to reach the goals described in RCW 43.63A.311(2)(g).

(i) Administrative costs for each subcontractor organization may not exceed twelve percent of the estimated total annual grant amount to the subcontractor organization;

(ii) All housing stipends, security deposits, and first and last month's rent stipends must be payable only to a landlord or housing manager of any type of independent housing;

(i) Connect participating youth, when possible, with individual development account programs, other financial literacy programs, and other programs that are designed to help young people acquire economic independence and self-suffi-

ciency, or collaborate with a case manager with whom the youth is already involved to ensure that the youth is receiving information and referrals to these programs, when appropriate;

(j) Submit expenditure and performance reports, including information related to the performance measures in RCW 43.63A.311, to the department on a time schedule determined by the department; and

(k) Provide recommendations to the department regarding program improvements and strategies that might assist the state to reach its goals as described in RCW 43.63A.311(2)(g). [2009 c 148 § 1; 2007 c 316 § 3.]

The legislature finds and declares that it is of importance to the people of Washington state to live in a healthy environment and to expect a minimum standard of quality in health care. The legislature further finds that the social and economic vitality of the state depends on a healthy and productive population. The legislature further declares where it is a duty of the state to assure a healthy environment and minimum standards of quality in health care facilities and among health care professionals, the ultimate responsibility for a healthy society lies with the citizens themselves.

For these reasons, the legislature recognizes the need for a strong, clear focus on health issues in state government and among state health agencies to give expression to the needs of individual citizens and local communities as they seek to preserve the public health. It is the intent of the legislature to form such focus by creating a single department in state government with the primary responsibilities for the preservation of public health, monitoring health care costs, the maintenance of minimal standards for quality in health care delivery, and the general oversight and planning for all the state's activities as they relate to the health of its citizenry.

Further, it is the intent of the legislature to improve illness and injury prevention and health promotion, and restore the confidence of the citizenry in the efficient and accountable expenditure of public funds on health activities that further the mission of the agency via grants and contracts, and to ensure that this new health agency delivers quality health services in an efficient, effective, and economical manner that is faithful and responsive to policies established by the legislature. (c) Maximum span of control without jeopardizing adequate supervision;

(d) A substate or regional organizational structure for the department's health service delivery programs and activities that encourages joint working agreements with local health departments and that is consistent between programs;

(e) Decentralized authority and responsibility, with clear accountability;

(f) A single point of access for persons receiving like services from the department which would limit the number of referrals between divisions.

(3) The department shall provide leadership and coordination in identifying and resolving threats to the public health by:

(a) Working with local health departments and local governments to strengthen the state and local governmental partnership in providing public protection;

(b) Developing intervention strategies;

(c) Providing expert advice to the executive and legislative branches of state government;

(d) Providing active and fair enforcement of rules;

(e) Working with other federal, state, and local agencies and facilitating their involvement in planning and implementing health preservation measures;

(g) Carrying out such other related actions as may be appropriate to this purpose.

(2010 Ed.)

(4) In accordance with the administrative procedure act, chapter 34.05 RCW, the department shall ensure an opportunity for consultation, review, and comment by the department's clients before the adoption of standards, guidelines, and rules.

(5) Consistent with the principles set forth in subsection (2) of this section, the secretary may create such administrative divisions, offices, bureaus, and programs within the department as the secretary deems necessary. Findings—Intent—2001 c 80: "(1) The legislature finds that developing, creating, and maintaining partnerships between the public and private sectors can enhance and augment current public health services. The legislature further finds that the department of health should have the ability to establish such partnerships, and seek out and accept gifts, grants, and other funding to advance worthy public health goals and programs.

(2) It is the intent of the legislature that gifts and other funds received by the department of health under the authority granted by RCW 43.70.040 may be used to expand or enhance program operations so long as program standards established by the department are maintained, but may not supplant or replace funds for federal, state, county, or city-supported programs." 43.70.045 Warren Featherstone Reid Award for Excellence in Health Care. There is created an award to honor and recognize cost-effective and quality health care services. This award shall be known as the "Warren Featherstone Reid Award for Excellence in Health Care." [1994 c 7 § 2.]

Finding—1994 c 7: "The legislature recognizes the critical importance of ensuring that all Washington residents have access to quality and affordable health care. The legislature further recognizes that substantial improvements can be made in health care delivery when providers, including health care facilities, are encouraged to continuously strive for excellence in quality management practices, value, and consumer satisfaction. The legislature finds that when centers of quality are highlighted and honored publicly they become examples for other health care providers to emulate, thereby further promoting the implementation of improved health care delivery processes." [1994 c 7 § 1.]

43.70.047 Warren Featherstone Reid Award for Excellence in Health Care. The governor, in conjunction with the secretary of health, shall identify and honor health care providers and facilities in Washington state who exhibit exceptional quality and value in the delivery of health services. The award shall be given annually consistent with the availability of qualified nominees. The secretary may appoint an advisory committee to assist in the selection of nominees, if necessary. [1994 c 7 § 3.]

[Title 43 RCW—page 358]

43.70.050 Collection, use, and accessibility of health-related data. (1) The legislature intends that the department and board promote and assess the quality, cost, and accessibility of health care throughout the state as their roles are specified in chapter 9, Laws of 1989 1st ex. sess. in accordance with the provisions of this chapter. In furtherance of this goal, the secretary shall create an ongoing program of data collection, storage, assessability, and review. The legislature does not intend that the department conduct or contract for the conduct of basic research activity. The secretary may request appropriations for studies according to this section from the legislature, the federal government, or private sources.

(2) All state agencies which collect or have access to population-based, health-related data are directed to allow the secretary access to such data. This includes, but is not limited to, data on needed health services, facilities, and personnel; future health issues; emerging bioethical issues; health promotion; recommendations from state and national organizations and associations; and programmatic and statutory changes needed to address emerging health needs. Private entities, such as insurance companies, health maintenance organizations, and private purchasers are also encouraged to give the secretary access to such data in their possession. The secretary's access to and use of all data shall be in accordance with state and federal confidentiality laws and ethical guidelines. Such data in any form where the patient or provider of health care can be identified shall not be disclosed, subject to disclosure according to chapter 42.56 RCW, discoverable or admissible in judicial or administrative proceedings. Such data can be used in proceedings in which the use of the data is clearly relevant and necessary and both the department and the patient or provider are parties.

(3) The department shall serve as the clearinghouse for information concerning innovations in the delivery of health care services, the enhancement of competition in the health care marketplace, and federal and state information affecting health care costs.

(4) The secretary shall review any data collected, pursuant to this chapter, to:

(a) Identify high-priority health issues that require study or evaluation. Such issues may include, but are not limited to:

(i) Identification of variations of health practice which indicate a lack of consensus of appropriateness;

(ii) Evaluation of outcomes of health care interventions to assess their benefit to the people of the state;

(iii) Evaluation of specific population groups to identify needed changes in health practices and services;

(iv) Evaluation of the risks and benefits of various incentives aimed at individuals and providers for both preventing illnesses and improving health services;

(v) Identification and evaluation of bioethical issues affecting the people of the state; and

(vi) Other such objectives as may be appropriate;

(b) Further identify a list of high-priority health study issues for consideration by the board, within their authority, for inclusion in the state health report required by RCW 43.20.050. The list shall specify the objectives of each study, a study timeline, the specific improvements in the health sta-

(2010 Ed.)

tus of the citizens expected as a result of the study, and the estimated cost of the study; and

(c) Provide background for the state health report required by RCW 43.20.050.

(5) Any data, research, or findings may also be made available to the general public, including health professions, health associations, the governor, professional boards and regulatory agencies and any person or group who has allowed the secretary access to data.

(6) Information submitted as part of the health professional licensing application and renewal process, excluding social security number and background check information, shall be available to the office of financial management consistent with RCW 43.370.020, whether the license is issued by the secretary of the department of health or a board or commission. The department shall replace any social security number with an alternative identifier capable of linking all licensing records of an individual. The office of financial management shall also have access to information submitted to the department of health as part of the medical or health facility licensing process.

(7) The secretary may charge a fee to persons requesting copies of any data, research, or findings. The fee shall be no more than necessary to cover the cost to the department of providing the copy. [2009 c 343 § 2; 2005 c 274 § 301; 1989 1st ex.s. c 9 § 107.]

43.70.052 Hospital discharge data—Financial reports—Data retrieval—American Indian health data.

(1) To promote the public interest consistent with the purposes of chapter 492, Laws of 1993 as amended by chapter 267, Laws of 1995, the department shall continue to require hospitals to submit hospital financial and patient discharge information, which shall be collected, maintained, analyzed, and disseminated by the department. The department shall, if deemed cost-effective and efficient, contract with a private entity for any or all parts of data collection. Data elements shall be reported in conformance with a uniform reporting system established by the department. This includes data elements identifying each hospital's revenues, expenses, contractual allowances, charity care, bad debt, other income, total units of inpatient and outpatient services, and other financial information reasonably necessary to fulfill the purposes of this section. Data elements relating to use of hospital services by patients shall be the same as those currently compiled by hospitals through inpatient discharge abstracts. The department shall encourage and permit reporting by electronic transmission or hard copy as is practical and economical to reporters.

(2) In identifying financial reporting requirements, the department may require both annual reports and condensed quarterly reports from hospitals, so as to achieve both accuracy and timeliness in reporting, but shall craft such requirements with due regard of the data reporting burdens of hospitals.

(3) The health care data collected, maintained, and studied by the department shall only be available for retrieval in original or processed form to public and private requestors and shall be available within a reasonable period of time after

the date of request. The cost of retrieving data for state officials and agencies shall be funded through the state general appropriation. The cost of retrieving data for individuals and organizations engaged in research or private use of data or studies shall be funded by a fee schedule developed by the department that reflects the direct cost of retrieving the data or study in the requested form.

(4) The department shall, in consultation and collaboration with the federally recognized tribes, urban or other Indian health service organizations, and the federal area Indian health service, design, develop, and maintain an American Indian-specific health data, statistics information system. The department rules regarding confidentiality shall apply to safeguard the information from inappropriate use or release.

(5) All persons subject to the data collection requirements of this section shall comply with departmental requirements established by rule in the acquisition of data. [1995 c 267 § 1.]

43.70.054 Health care data standards—Submittal of standards to legislature.

(1) To promote the public interest consistent with chapter 267, Laws of 1995, the department of health, in cooperation with the information services board established under RCW 43.105.032, shall develop health care data standards to be used by, and developed in collaboration with, consumers, purchasers, health carriers, providers, and state government as consistent with the intent of chapter 492, Laws of 1993 as amended by chapter 267, Laws of 1995, to promote the delivery of quality health services that improve health outcomes for state residents. The data standards shall include content, coding, confidentiality, and transmission standards for all health care data elements necessary to support the intent of this section, and to improve administrative efficiency and reduce cost. Purchasers, as allowed by federal law, health carriers, health facilities and providers as defined in chapter 48.43 RCW, and state government shall utilize the data standards. The information and data elements shall be reported as the department of health directs by rule in accordance with data standards developed under this section.

(2) The health care data collected, maintained, and studied by the department under this section or any other entity:

- (a) Shall include a method of associating all information on health care costs and services with discrete cases;
- (b) shall not contain any means of determining the personal identity of any enrollee, provider, or facility;
- (c) shall only be available for retrieval in original or processed form to public and private requestors;
- (d) shall be available within a reasonable period of time after the date of request; and
- (e) shall give strong consideration to data standards that achieve national uniformity.

(3) The cost of retrieving data for state officials and agencies shall be funded through state general appropriation. The cost of retrieving data for individuals and organizations engaged in research or private use of data or studies shall be funded by a fee schedule developed by the department that reflects the direct cost of retrieving the data or study in the requested form.

(4) All persons subject to this section shall comply with departmental requirements established by rule in the acquisition of data, however, the department shall adopt no rule or effect no policy implementing the provisions of this section without an act of law.

(5) The department shall submit developed health care data standards to the appropriate committees of the legislature by December 31, 1995. [1997 c 274 § 2; 1995 c 267 § 2.]

43.70.056 Health care-associated infections—Data collection and reporting—Advisory committee—Rules.

(1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Health care-associated infection" means a localized or systemic condition that results from adverse reaction to the presence of an infectious agent or its toxins and that was not present or incubating at the time of admission to the hospital.

(b) "Hospital" means a health care facility licensed under chapter 70.41 RCW.

(2)(a) A hospital shall collect data related to health care-associated infections as required under this subsection (2) on the following:

(i) Beginning July 1, 2008, central line-associated bloodstream infection in the intensive care unit;

(ii) Beginning January 1, 2009, ventilator-associated pneumonia; and

(iii) Beginning January 1, 2010, surgical site infection for the following procedures:

(A) Deep sternal wound for cardiac surgery, including coronary artery bypass graft;

(B) Total hip and knee replacement surgery; and

(C) Hysterectomy, abdominal and vaginal.

(b)(i) Except as required under (b)(ii) and (c) of this subsection, a hospital must routinely collect and submit the data required to be collected under (a) of this subsection to the national healthcare safety network of the United States centers for disease control and prevention in accordance with national healthcare safety network definitions, methods, requirements, and procedures.

(ii) Until the national health care safety network releases a revised module that successfully interfaces with a majority of computer systems of Washington hospitals required to report data under (a)(iii) of this subsection or three years, whichever occurs sooner, a hospital shall monthly submit the data required to be collected under (a)(iii) of this subsection to the Washington state hospital association's quality benchmarking system instead of the national health care safety network. The department shall not include data reported to the quality benchmarking system in reports published under subsection (3)(d) of this section. The data the hospital submits to the quality benchmarking system under (b)(ii) of this subsection:

(A) Must include the number of infections and the total number of surgeries performed for each type of surgery; and

(B) Must be the basis for a report developed by the Washington state hospital association and published on its web site that compares the health care-associated infection rates for surgical site infections at individual hospitals in the state using the data reported in the previous calendar year

pursuant to this subsection. The report must be published on December 1, 2010, and every year thereafter until data is again reported to the national health care safety network.

(c)(i) With respect to any of the health care-associated infection measures for which reporting is required under (a) of this subsection, the department must, by rule, require hospitals to collect and submit the data to the centers for medicare and medicaid services according to the definitions, methods, requirements, and procedures of the hospital compare program, or its successor, instead of to the national healthcare safety network, if the department determines that:

(A) The measure is available for reporting under the hospital compare program, or its successor, under substantially the same definition; and

(B) Reporting under this subsection (2)(c) will provide substantially the same information to the public.

(ii) If the department determines that reporting of a measure must be conducted under this subsection (2)(c), the department must adopt rules to implement such reporting. The department's rules must require reporting to the centers for medicare and medicaid services as soon as practicable, but not more than one hundred twenty days, after the centers for medicare and medicaid services allow hospitals to report the respective measure to the hospital compare program, or its successor. However, if the centers for medicare and medicaid services allow infection rates to be reported using the centers for disease control and prevention's national healthcare safety network, the department's rules must require reporting that reduces the burden of data reporting and minimizes changes that hospitals must make to accommodate requirements for reporting.

(d) Data collection and submission required under this subsection (2) must be overseen by a qualified individual with the appropriate level of skill and knowledge to oversee data collection and submission.

(e)(i) A hospital must release to the department, or grant the department access to, its hospital-specific information contained in the reports submitted under this subsection (2), as requested by the department.

(ii) The hospital reports obtained by the department under this subsection (2), and any of the information contained in them, are not subject to discovery by subpoena or admissible as evidence in a civil proceeding, and are not subject to public disclosure as provided in RCW 42.56.360.

(3) The department shall:

(a) Provide oversight of the health care-associated infection reporting program established in this section;

(b) By January 1, 2011, submit a report to the appropriate committees of the legislature based on the recommendations of the advisory committee established in subsection (5) of this section for additional reporting requirements related to health care-associated infections, considering the methodologies and practices of the United States centers for disease control and prevention, the centers for medicare and medicaid services, the joint commission, the national quality forum, the institute for healthcare improvement, and other relevant organizations;

(c) Delete, by rule, the reporting of categories that the department determines are no longer necessary to protect public health and safety;

(d) By December 1, 2009, and by each December 1st thereafter, prepare and publish a report on the department's web site that compares the health care-associated infection rates at individual hospitals in the state using the data reported in the previous calendar year pursuant to subsection (2) of this section. The department may update the reports quarterly. In developing a methodology for the report and determining its contents, the department shall consider the recommendations of the advisory committee established in subsection (5) of this section. The report is subject to the following:

- (i) The report must disclose data in a format that does not release health information about any individual patient; and
- (ii) The report must not include data if the department determines that a data set is too small or possesses other characteristics that make it otherwise unrepresentative of a hospital's particular ability to achieve a specific outcome; and

(e) Evaluate, on a regular basis, the quality and accuracy of health care-associated infection reporting required under subsection (2) of this section and the data collection, analysis, and reporting methodologies.

(4) The department may respond to requests for data and other information from the data required to be reported under subsection (2) of this section, at the requestor's expense, for special studies and analysis consistent with requirements for confidentiality of patient records.

(5)(a) The department shall establish an advisory committee which may include members representing infection control professionals and epidemiologists, licensed health care providers, nursing staff, organizations that represent health care providers and facilities, health maintenance organizations, health care payers and consumers, and the department. The advisory committee shall make recommendations to assist the department in carrying out its responsibilities under this section, including making recommendations on allowing a hospital to review and verify data to be released in the report and on excluding from the report selected data from certified critical access hospitals. Annually, beginning January 1, 2011, the advisory committee shall also make a recommendation to the department as to whether current science supports expanding presurgical screening for methicillin-resistant staphylococcus aureus prior to open chest cardiac, total hip, and total knee elective surgeries.

(b) In developing its recommendations, the advisory committee shall consider methodologies and practices related to health care-associated infections of the United States centers for disease control and prevention, the centers for medicare and medicaid services, the joint commission, the national quality forum, the institute for healthcare improvement, and other relevant organizations.

(6) The department shall adopt rules as necessary to carry out its responsibilities under this section. [2010 c 113 § 1; 2009 c 244 § 2; 2007 c 261 § 2.]

Effective date—2010 c 113: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [March 18, 2010]." [2010 c 113 § 2.]

Findings—2007 c 261: "The legislature finds that each year health care-associated infections affect two million Americans. These infections result in the unnecessary death of ninety thousand patients and costs the health care system 4.5 billion dollars. Hospitals should be implementing evidence-based measures to reduce hospital-acquired infections. The legisla-

(2010 Ed.)

ture further finds the public should have access to data on outcome measures regarding hospital-acquired infections. Data reporting should be consistent with national hospital reporting standards." [2007 c 261 § 1.]

43.70.060 Duties of department—Promotion of health care cost-effectiveness. It is the intent of the legislature to promote appropriate use of health care resources to maximize access to adequate health care services. The legislature understands that the rapidly increasing costs of health care are limiting access to care. To promote health care cost-effectiveness, the department shall:

- (1) Implement the certificate of need program;
- (2) Monitor and evaluate health care costs;
- (3) Evaluate health services and the utilization of services for outcome and effectiveness; and
- (4) Recommend strategies to encourage adequate and cost-effective services and discourage ineffective services. [1989 1st ex.s. c 9 § 108.]

43.70.064 Health care quality—Findings and intent—Requirements for conducting study under RCW 43.70.066. The legislature finds that it is difficult for consumers of health care services to determine the quality of health care prior to purchase or utilization of medical care. The legislature also finds that accountability is a key component in promoting quality assurance and quality improvement throughout the health care delivery system, including public programs. Quality assurance and improvement standards are necessary to promote the public interest, contribute to cost efficiencies, and improve the ability of consumers to ascertain quality health care purchases.

The legislature intends to have consumers, health carriers, health care providers and facilities, and public agencies participate in the development of quality assurance and improvement standards that can be used to develop a uniform quality assurance program for use by all public and private health plans, providers, and facilities. To that end, in conducting the study required under RCW 43.70.066, the department of health shall:

- (1) Consider the needs of consumers, employers, health care providers and facilities, and public and private health plans;
- (2) Take full advantage of existing national standards of quality assurance to extend to middle-income populations the protections required for state management of health programs for low-income populations;
- (3) Consider the appropriate minimum level of quality assurance standards that should be disclosed to consumers and employers by health care providers and facilities, and public and private health plans; and
- (4) Consider standards that permit health care providers and facilities to share responsibility for participation in a uniform quality assurance program. [1995 c 267 § 3.]

43.70.066 Study—Uniform quality assurance and improvement program—Reports to legislature—Limitation on rule making. (1) The department of health shall study the feasibility of a uniform quality assurance and improvement program for use by all public and private health

plans and health care providers and facilities. In this study, the department shall consult with:

- (a) Public and private purchasers of health care services;
- (b) Health carriers;
- (c) Health care providers and facilities; and
- (d) Consumers of health services.

(2) In conducting the study, the department shall propose standards that meet the needs of affected persons and organizations, whether public or private, without creation of differing levels of quality assurance. All consumers of health services should be afforded the same level of quality assurance.

(3) At a minimum, the study shall include but not be limited to the following program components and indicators appropriate for consumer disclosure:

- (a) Health care provider training, credentialing, and licensure standards;
- (b) Health care facility credentialing and recredentialing;
- (c) Staff ratios in health care facilities;
- (d) Annual mortality and morbidity rates of cases based on a defined set of procedures performed or diagnoses treated in health care facilities, adjusted to fairly consider variable factors such as patient demographics and case severity;
- (e) The average total cost and average length of hospital stay for a defined set of procedures and diagnoses;
- (f) The total number of the defined set of procedures, by specialty, performed by each physician at a health care facility within the previous twelve months;
- (g) Utilization performance profiles by provider, both primary care and specialty care, that have been adjusted to fairly consider variable factors such as patient demographics and severity of case;
- (h) Health plan fiscal performance standards;
- (i) Health care provider and facility recordkeeping and reporting standards;
- (j) Health care utilization management that monitors trends in health service underutilization, as well as overutilization of services;
- (k) Health monitoring that is responsive to consumer, purchaser, and public health assessment needs; and
- (l) Assessment of consumer satisfaction and disclosure of consumer survey results.

(4) In conducting the study, the department shall develop standards that permit each health care facility, provider group, or health carrier to assume responsibility for and determine the physical method of collection, storage, and assimilation of quality indicators for consumer disclosure. The study may define the forms, frequency, and posting requirements for disclosure of information.

(2010 Ed.)

of substantial harm, the department may, by order under chapter 34.05 RCW, prohibit or restrict the commercial or recreational harvest or landing of any marine species except the recreational harvest of shellfish as defined in chapter 69.30 RCW if taken from privately owned tidelands.

43.70.195 Public water systems—Receivership actions brought by secretary—Plan for disposition. (1) In any action brought by the secretary of health or by a local health officer pursuant to chapter 7.60 RCW to place a public water system in receivership, the petition shall include the names of one or more suitable candidates for receiver who have consented to assume operation of the water system. The department shall maintain a list of interested and qualified

individuals, municipal entities, special purpose districts, and investor-owned water companies with experience in the provision of water service and a history of satisfactory operation of a water system. If there is no other person willing and able to be named as receiver, the court shall appoint the county in which the water system is located as receiver. The county may designate a county agency to operate the system, or it may contract with another individual or public water system to provide management for the system. If the county is appointed as receiver, the secretary of health and the county health officer shall provide regulatory oversight for the agency or other person responsible for managing the water system.

(2) In any petition for receivership under subsection (1) of this section, the department shall recommend that the court grant to the receiver full authority to act in the best interests of the customers served by the public water system. The receiver shall assess the capability, in conjunction with the department and local government, for the system to operate in compliance with health and safety standards, and shall report to the court and the petitioning agency its recommendations for the system's future operation, including the formation of a water-sewer district or other public entity, or ownership by another existing water system capable of providing service.

(3) If a petition for receivership and verifying affidavit executed by an appropriate departmental official allege an immediate and serious danger to residents constituting an emergency, the court shall set the matter for hearing within three days and may appoint a temporary receiver *ex parte* upon the strength of such petition and affidavit pending a full evidentiary hearing, which shall be held within fourteen days after receipt of the petition.

(4) A bond, if any is imposed upon a receiver, shall be minimal and shall reasonably relate to the level of operating revenue generated by the system. Any receiver appointed pursuant to this section shall not be held personally liable for any good faith, reasonable effort to assume possession of, and to operate, the system in compliance with the court's orders.

(5) The court shall authorize the receiver to impose reasonable assessments on a water system's customers to recover expenditures for improvements necessary for the public health and safety.

(6) No later than twelve months after appointment of a receiver, the petitioning agency, in conjunction with the county in which the system is located, and the appropriate state and local health agencies, shall develop and present to the court a plan for the disposition of the system. The report shall include the recommendations of the receiver made pursuant to subsection (2) of this section. The report shall include all reasonable and feasible alternatives. After receiving the report, the court shall provide notice to interested parties and conduct such hearings as are necessary. The court shall then order the parties to implement one of the alternatives, or any combination thereof, for the disposition of the system. Such order shall include a date, or proposed date, for the termination of the receivership. Nothing in this section authorizes a court to require a city, town, public utility district, water-sewer district, or irrigation district to accept a system that has been in receivership unless the city, town, public

utility district, water-sewer district, or irrigation district agrees to the terms and conditions outlined in the plan adopted by the court.

(7) The court shall not terminate the receivership, and order the return of the system to the owners, unless the department of health approves of such an action. The court may impose reasonable conditions upon the return of the system to the owner, including the posting of a bond or other security, routine performance and financial audits, employment of qualified operators and other staff or contracted services, compliance with financial viability requirements, or other measures sufficient to ensure the ongoing proper operation of the system.

(8) If, as part of the ultimate disposition of the system, an eminent domain action is commenced by a public entity to acquire the system, the court shall oversee any appraisal of the system conducted under Title 7 RCW to assure that the appraised value properly reflects any reduced value because of the necessity to make improvements to the system. The court shall have the authority to approve the appraisal, and to modify it based on any information provided at an evidentiary hearing. The court's determination of the proper value of the system, based on the appraisal, shall be final, and only appealable if not supported by substantial evidence. If the appraised value is appealed, the court may order that the system's ownership be transferred upon payment of the approved appraised value. [1999 c 153 § 57; 1994 c 292 § 3; 1990 c 133 § 4.]

(2) The rules must require that the organization ensure:

(a) The confidentiality of medical records transmitted to an independent review organization for use in independent reviews;

In exceptional circumstances, when the independent review organization has not obtained information necessary to make a determination, a determination may be made by the twenty-fifth day after the date the organization received the request for the determination; and

(ii) In cases of a condition that could seriously jeopardize the enrollee's health or ability to regain maximum function, not later than the earlier of:

(A) Seventy-two hours after the date the independent review organization receives the information necessary to make the determination; or

(B) The eighth day after the date the independent review organization receives the request that the determination be made;

(f) That timely notice is provided to enrollees of the results of the independent review, including the clinical basis for the determination;

(g) That the independent review organization has a quality assurance mechanism in place that ensures the timeliness and quality of review and communication of determinations to enrollees and carriers, and the qualifications, impartiality, and freedom from conflict of interest of the organization, its staff, and expert reviewers; and

(h) That the independent review organization meets any other reasonable requirements of the department directly related to the functions the organization is to perform under this section and RCW 48.43.535, and related to assessing fees to carriers in a manner consistent with the maximum fee schedule developed under this section.

(3) To be certified as an independent review organization under this chapter, an organization must submit to the department an application in the form required by the department. The application must include:

(5) An independent review organization may not be a subsidiary of, or in any way owned or controlled by, a carrier or a trade or professional association of health care providers or carriers.

(6) An independent review organization, and individuals acting on its behalf, are immune from suit in a civil action when performing functions under chapter 5, Laws of 2000. However, this immunity does not apply to an act or omission made in bad faith or that involves gross negligence.

The agreements shall include, but not be limited to, the following provisions:

(1) Administrative activities supporting the board's policies, goals, and objectives;

(2) Development and review of the agency budget as it relates to the board; and

(3) Board related personnel issues.

The agreements shall be reviewed and revised in like manner if appropriate at the beginning of each fiscal year, and at other times upon written request by the secretary or the board. [1998 c 245 § 73; 1989 1st ex.s. c 9 § 304.]

43.70.250 License fees for professions, occupations, and businesses. It shall be the policy of the state of Washington that the cost of each professional, occupational, or business licensing program be fully borne by the members of that profession, occupation, or business. The secretary shall from time to time establish the amount of all application fees, license fees, registration fees, examination fees, permit fees, renewal fees, and any other fee associated with licensing or regulation of professions, occupations, or businesses administered by the department. In fixing said fees, the secretary shall set the fees for each program at a sufficient level to defray the costs of administering that program and the cost of regulating licensed volunteer medical workers in accordance with RCW 18.130.360, except as provided in RCW 18.79.202 until June 30, 2013. All such fees shall be fixed by rule adopted by the secretary in accordance with the provisions of the administrative procedure act, chapter 34.05 RCW. [2006 c 72 § 4; 2005 c 268 § 3; 1996 c 191 § 1; 1989 1st ex.s. c 9 § 319.]

Finding—2005 c 268: See note following RCW 18.79.202.

43.70.260 Appointment of temporary additional members of boards and committees for administration and grading of examinations. The secretary may, at the request of a board or committee established under Title 18 RCW under the administrative authority of the department of health, appoint temporary additional members for the purpose of participating as members during the administration and grading of practical examinations for licensure, certification, or registration. The appointment shall be for the duration of the examination specified in the request. Individuals so appointed must meet the same minimum qualifications as regular members of the board or committee, including the requirement to be licensed, certified, or registered. While serving as board or committee members, persons so appointed have all the powers, duties, and immunities and are entitled to the emoluments, including travel expenses in accordance with RCW 43.03.050 and 43.03.060, of regular members of the board or committee. This authority is intended to provide for more efficient, economical, and effective examinations. [1989 1st ex.s. c 9 § 320.]

43.70.270 License moratorium for persons in the service. Notwithstanding any provision of law to the contrary, the license of any person licensed by the secretary of health to practice a profession or engage in an occupation, if valid and in force and effect at the time the licensee entered service in the armed forces or the merchant marine of the United States, shall continue in full force and effect so long as such service continues, unless sooner suspended, canceled, or revoked for cause as provided by law. The secretary shall renew the license of every such person who applies for renewal thereof within six months after being honorably discharged from service upon payment of the renewal fee applicable to the then current year or other license period. [1989 1st ex.s. c 9 § 321.]

43.70.280 Procedure for issuance, renewal, or reissuance of credentials—Extension or modification of licensing, certification, or registration period authorized. (1) The secretary, in consultation with health profession boards and commissions, shall establish by rule the administrative procedures, administrative requirements, and fees for initial issue, renewal, and reissue of a credential for professions under RCW 18.130.040, including procedures and requirements for late renewals and uniform application of late renewal penalties. Failure to renew invalidates the credential and all privileges granted by the credential. Administrative procedures and administrative requirements do not include establishing, monitoring, and enforcing qualifications for licensure, scope or standards of practice, continuing competency mechanisms, and discipline when such authority is authorized in statute to a health profession board or commission. For the purposes of this section, "in consultation with" means providing an opportunity for meaningful participation in development of rules consistent with processes set forth in RCW 34.05.310.

(2) Notwithstanding any provision of law to the contrary which provides for a licensing period for any type of license subject to this chapter including those under RCW 18.130.040, the secretary of health may, from time to time, extend or otherwise modify the duration of any licensing, certification, or registration period, whether an initial or renewal period, if the secretary determines that it would result in a more economical or efficient operation of state government and that the public health, safety, or welfare would not be substantially adversely affected thereby. However, no license, certification, or registration may be issued or approved for a period in excess of four years, without renewal. Such extension, reduction, or other modification of a licensing, certification, or registration period shall be by rule or regulation of the department of health adopted in accordance with the provisions of chapter 34.05 RCW. Such rules and regulations may provide a method for imposing and collecting such additional proportional fee as may be required for the extended or modified period. [1999 c 34 § 1; 1998 c 29 § 1; 1996 c 191 § 2; 1989 1st ex.s. c 9 § 322.]

Any residue in the account shall be accumulated and shall not revert to the general fund at the end of the biennium.

(3) The secretary shall biennially prepare a budget request based on the anticipated costs of administering the health professions licensing activities of the department which shall include the estimated income from health professions fees.

Legislative finding and purpose—1990 c 253: "The legislature finds that the demand for housing for migrant and seasonal farmworkers far exceeds the supply of adequate housing in the state of Washington. In addition, increasing numbers of these housing units are in deteriorated condition because they cannot be economically maintained and repaired.

The legislature further finds that the lack of a clear program for the regulation and inspection of farmworker housing has impeded the construction and renovation of housing units in this state.

It is the purpose of this act for the various agencies involved in the regulation of farmworker housing to coordinate and consolidate their activities to provide for efficient and effective monitoring of farmworker housing. It is intended that this action will provide greater responsiveness in dealing with public concerns over farmworker housing, and allow greater numbers of housing units to be built." [1990 c 253 § 1.]

43.70.400 Head injury prevention—Legislative finding. The legislature finds that head injury is a major cause of death and disability for Washington citizens. The costs of head injury treatment and rehabilitation are extensive and

(2010 Ed.)

resultant disabilities are long and indeterminate. These costs are often borne by public programs such as medicaid. The legislature finds further that many such injuries are preventable. The legislature intends to reduce the occurrence of head injury by educating persons whose behavior may place them at risk and by regulating certain activities. [1990 c 270 § 2.]

43.70.410 Head injury prevention—Program, generally. As used in RCW 43.70.400 through 43.70.440, the term "head injury" means traumatic brain injury.

A head injury prevention program is created in the department of health. The program's functions may be integrated with those of similar programs to promote comprehensive, integrated, and effective health promotion and disease prevention.

In consultation with the traffic safety commission, the department shall, directly or by contract, identify and coordinate public education efforts currently underway within state government and among private groups to prevent traumatic brain injury, including, but not limited to, bicycle safety, pedestrian safety, bicycle passenger seat safety, motorcycle safety, motor vehicle safety, and sports safety. If the department finds that programs are not available or not in use, it may, within funds appropriated for the purpose, provide grants to promote public education efforts. Grants may be awarded only after recipients have demonstrated coordination with relevant and knowledgeable groups within their communities, including at least schools, brain injury support organizations, hospitals, physicians, traffic safety specialists, police, and the public. The department may accept grants, gifts, and donations from public or private sources to use to carry out the head injury prevention program.

The department may assess or contract for the assessment of the effectiveness of public education efforts coordinated or initiated by any agency of state government. Agencies are directed to cooperate with assessment efforts by providing access to data and program records as reasonably required. The department may seek and receive additional funds from the federal government or private sources for assessments. Assessments shall contain findings and recommendations that will improve the effectiveness of public education efforts. These findings shall be distributed among public and private groups concerned with traumatic brain injury prevention. [1990 c 270 § 3.]

Bicycle awareness program: RCW 43.43.390.

43.70.420 Head injury prevention—Information preparation. The department of health, the department of licensing, and the traffic safety commission shall jointly prepare information for driver license manuals, driver education programs, and driving tests to increase driver awareness of pedestrian safety, to increase driver skills in avoiding pedestrian and motor vehicle accidents, and to determine drivers' abilities to avoid pedestrian motor vehicle accidents. [1990 c 270 § 4.]

43.70.430 Head injury prevention—Guidelines on training and education—Training of emergency medical personnel. The department shall prepare guidelines on relevant training and education regarding traumatic brain injury

for health and education professionals, and relevant public safety and law enforcement officials. The department shall distribute such guidelines and any recommendations for training or educational requirements for health professionals or educators to the disciplinary authorities governed by chapter 18.130 RCW and to educational service districts established under chapter 28A.310 RCW. Specifically, all emergency medical personnel shall be trained in proper helmet removal. [1990 c 270 § 6.]

43.70.440 Head injury prevention act—Short title—1990 c 270. This act shall be known and cited as the Head Injury Prevention Act of 1990. [1990 c 270 § 1.]

43.70.460 Retired primary and specialty care provider liability malpractice insurance—Program authorized. (1) The department may establish a program to purchase and maintain liability malpractice insurance for retired primary and specialty care providers who provide health care services to low-income patients. The following conditions apply to the program:

(a) Health care services shall be provided at clinics serving low-income patients that are public or private tax-exempt corporations or other established practice settings as defined by the department;

(b) Health care services provided at the clinics shall be offered to low-income patients based on their ability to pay;

(c) Retired health care providers providing health care services shall not receive compensation for their services; and

(d) The department shall contract only with a liability insurer authorized to offer liability malpractice insurance in the state.

(e) Specialists in this program will be limited to those whose malpractice insurance premiums are comparable to primary care providers.

(2) This section and RCW 43.70.470 shall not be interpreted to require a liability insurer to provide coverage to a health care provider should the insurer determine that coverage should not be offered to a health care provider because of past claims experience or for other appropriate reasons.

(3) The state and its employees who operate the program shall be immune from any civil or criminal action involving claims against clinics or health care providers that provided health care services under this section and RCW 43.70.470. This protection of immunity shall not extend to any clinic or health care provider participating in the program.

(4) The department may monitor the claims experience of retired health care providers covered by liability insurers contracting with the department.

(5) The department may provide liability insurance under chapter 113, Laws of 1992 only to the extent funds are provided for this purpose by the legislature. If there are insufficient funds to support all applications for liability insurance coverage, priority shall be given to those retired health care providers working at clinics operated by public or private tax-exempt corporations rather than clinics operated by for-profit corporations. [2005 c 156 § 1; 2004 c 184 § 1; 1993 c 492 § 276; 1992 c 113 § 2.]

43.70.512 Public health—Required measurable outcomes. (1) Protecting the public's health across the state is a fundamental responsibility of the state. With any new state funding of the public health system as appropriated for the purposes of *sections 60 through 65 of this act, the state expects that measurable benefits will be realized to the health of the residents of Washington. A transparent process that shows the impact of increased public health spending on performance measures related to the health outcomes in subsection (2) of this section is of great value to the state and its residents. In addition, a well-funded public health system is expected to become a more integral part of the state's emergency preparedness system.

(2) Subject to the availability of amounts appropriated for the purposes of *sections 60 through 65 of this act, distributions to local health jurisdictions shall deliver the following outcomes:

(a) Create a disease response system capable of responding at all times;

(b) Stop the increase in, and reduce, sexually transmitted disease rates;

(c) Reduce vaccine preventable diseases;

(d) Build capacity to quickly contain disease outbreaks;

(e) Decrease childhood and adult obesity and types I and II diabetes rates, and resulting kidney failure and dialysis;

(f) Increase childhood immunization rates;

(g) Improve birth outcomes and decrease child abuse;

(h) Reduce animal-to-human disease rates; and

(i) Monitor and protect drinking water across jurisdictional boundaries.

(3) Benchmarks for these outcomes shall be drawn from the national healthy people 2010 goals, other reliable data sets, and any subsequent national goals. [2007 c 259 § 60.]

***Reviser's note:** "Sections 60 through 65 of this act" include this section, RCW 43.70.514 through 43.70.518, and 43.70.522, and the 2007 c 259 amendments to RCW 43.70.520. RCW 43.70.518 was repealed by 2009 c 518 § 10.

Severability—Subheadings not law—2007 c 259: See notes following RCW 41.05.033.

43.70.516 Public health—Department's duties. (1) The department shall accomplish the tasks included in subsection (2) of this section by utilizing the expertise of varied interests, as provided in this subsection.

(a) In addition to the perspectives of local health jurisdictions, the state board of health, the Washington health foundation, and department staff that are currently engaged in development of the public health services improvement plan under RCW 43.70.520, the secretary shall actively engage:

(i) Individuals or entities with expertise in the development of performance measures, accountability and systems management, such as the University of Washington school of public health and community medicine, and experts in the development of evidence-based medical guidelines or public health practice guidelines; and

(ii) Individuals or entities who will be impacted by performance measures developed under this section and have relevant expertise, such as community clinics, public health nurses, large employers, tribal health providers, family planning providers, and physicians.

(b) In developing the performance measures, consideration shall be given to levels of performance necessary to promote uniformity in core public health functions of statewide significance among all local health jurisdictions, best scientific evidence, national standards of performance, and innovations in public health practice. The performance measures shall be developed to meet the goals and outcomes in RCW 43.70.512. The office of the state auditor shall provide advice and consultation to the committee to assist in the development of effective performance measures and health status indicators.

(c) On or before November 1, 2007, the experts assembled under this section shall provide recommendations to the secretary related to the activities and services that qualify as core public health functions of statewide significance and performance measures. The secretary shall provide written justification for any departure from the recommendations.

(2) By January 1, 2008, the department shall:

(b) Adopt appropriate performance measures with the intent of improving health status indicators applicable to the core public health functions of statewide significance that local health jurisdictions must provide.

(3) The secretary may revise the list of activities and the performance measures in future years as appropriate. Prior to modifying either the list or the performance measures, the secretary must provide a written explanation of the rationale for such changes.

(4) The department and the local health jurisdictions shall abide by the prioritized list of activities and services and the performance measures developed pursuant to this section.

(5) The department, in consultation with representatives of county governments, shall provide local jurisdictions with financial incentives to encourage and increase local investments in core public health functions. The local jurisdictions shall not supplant existing local funding with such state-incented resources. [2007 c 259 § 62.]

Severability—Subheadings not law—2007 c 259: See notes following RCW 41.05.033.

43.70.520 Public health services improvement plan—Performance measures. (1) The legislature finds that the public health functions of community assessment, policy development, and assurance of service delivery are essential elements in achieving the objectives of health reform in Washington state. The legislature further finds that the population-based services provided by state and local health departments are cost-effective and are a critical strategy for the long-term containment of health care costs. The legislature further finds that the public health system in the state lacks the capacity to fulfill these functions consistent with the needs of a reformed health care system. The legislature further finds that public health nurses and nursing services are an essential part of our public health system, delivering evidence-based care and providing core services including prevention of illness, injury, or disability; the promotion of health; and maintenance of the health of populations.

(2) The department of health shall develop, in consultation with local health departments and districts, the state board of health, the health services commission, area Indian health service, and other state agencies, health services providers, and citizens concerned about public health, a public health services improvement plan. The plan shall provide a detailed accounting of deficits in the core functions of assessment, policy development, assurance of the current public health system, how additional public health funding would be used, and describe the benefits expected from expanded expenditures.

(3) The plan shall include:

(a) Definition of minimum standards for public health protection through assessment, policy development, and assurances:

(i) Enumeration of communities not meeting those standards;

(ii) A budget and staffing plan for bringing all communities up to minimum standards;

(iii) An analysis of the costs and benefits expected from adopting minimum public health standards for assessment, policy development, and assurances;

(b) Recommended strategies and a schedule for improving public health programs throughout the state, including:

(i) Strategies for transferring personal health care services from the public health system, into the uniform benefits package where feasible; and

(ii) Linking funding for public health services to performance measures that relate to achieving improved health outcomes; and

(c) A recommended level of dedicated funding for public health services to be expressed in terms of a percentage of total health service expenditures in the state or a set per person amount; such recommendation shall also include methods to ensure that such funding does not supplant existing federal, state, and local funds received by local health departments, and methods of distributing funds among local health departments.

(4) The department shall coordinate this planning process with the study activities required in section 258, chapter 492, Laws of 1993.

(5) By March 1, 1994, the department shall provide initial recommendations of the public health services improvement plan to the legislature regarding minimum public health standards, and public health programs needed to address urgent needs, such as those cited in subsection (7) of this section.

(6) By December 1, 1994, the department shall present the public health services improvement plan to the legislature, with specific recommendations for each element of the plan to be implemented over the period from 1995 through 1997.

(7) Thereafter, the department shall update the public health services improvement plan for presentation to the legislature prior to the beginning of a new biennium.

(8) Among the specific population-based public health activities to be considered in the public health services improvement plan are: Health data assessment and chronic and infectious disease surveillance; rapid response to outbreaks of communicable disease; efforts to prevent and control specific communicable diseases, such as tuberculosis and acquired immune deficiency syndrome; health education to promote healthy behaviors and to reduce the prevalence of chronic disease, such as those linked to the use of tobacco; access to primary care in coordination with existing community and migrant health clinics and other not for profit health care organizations; programs to ensure children are born as healthy as possible and they receive immunizations and adequate nutrition; efforts to prevent intentional and unintentional injury; programs to ensure the safety of drinking water and food supplies; poison control; trauma services; and other activities that have the potential to improve the health of the population or special populations and reduce the need for or cost of health services. 43.70.522 Public health performance measures—Assessing the use of funds—Secretary's duties. (1) Each

local health jurisdiction shall submit to the secretary such data as the secretary determines is necessary to allow the secretary to assess whether the local health jurisdiction has used the funds in a manner consistent with achieving the performance measures in RCW 43.70.516.

(2) If the secretary determines that the data submitted demonstrates that the local health jurisdiction is not spending the funds in a manner consistent with achieving the performance measures, the secretary shall:

(a) Provide a report to the governor identifying the local health jurisdiction and the specific items that the secretary identified as inconsistent with achieving the performance measures; and

(b) Require that the local health jurisdiction submit a plan of correction to the secretary within sixty days of receiving notice from the secretary, which explains the measures that the jurisdiction will take to resume spending funds in a manner consistent with achieving the performance measures. The secretary shall provide technical assistance to the local health jurisdiction to support the jurisdiction in successfully completing the activities included in the plan of correction.

(3) Upon a determination by the secretary that a local health jurisdiction that had previously been identified as not spending the funds in a manner consistent with achieving the performance measures has resumed consistency, the secretary shall notify the governor that the jurisdiction has returned to consistent status.

(4) Any local health jurisdiction that has not resumed spending funds in a manner consistent with achieving the performance measures within one year of the secretary reporting the jurisdiction to the governor shall be precluded from receiving any funds appropriated for the purposes of *sections 60 through 65 of this act. Funds may resume once the local health jurisdiction has demonstrated to the satisfaction of the secretary that it has returned to consistent status. [2007 c 259 § 65.]

***Reviser's note:** "Sections 60 through 65 of this act" include this section, RCW 43.70.512, 43.70.514, 43.70.516, and 43.70.518, and the 2007 c 259 amendments to RCW 43.70.520. RCW 43.70.518 was repealed by 2009 c 518 § 10.

43.70.525 Immunization assessment and enhancement proposals by local jurisdictions. (1) The department, in conjunction with local health jurisdictions, shall require each local health jurisdiction to submit an immunization assessment and enhancement proposal, consistent with the standards established in the public health [services] improvement plan, to provide immunization protection to the children of the state to further reduce vaccine-preventable diseases.

(2) These plans shall include, but not be limited to:

(a) A description of the population groups in the jurisdiction that are in the greatest need of immunizations;

(b) A description of strategies to use outreach, volunteer, and other local educational resources to enhance immunization rates; and

(c) A description of the capacity required to accomplish the enhancement proposal.

(3) This section shall be implemented consistent with available funding.

(4) The secretary shall report through the public health [services] improvement plan to the health care and fiscal committees of the legislature on the status of the program and progress made toward increasing immunization rates in population groups of greatest need. [1994 c 299 § 29.]

43.70.533 Chronic conditions—Training and technical assistance for primary care providers. (1) The department shall conduct a program of training and technical assistance regarding care of people with chronic conditions for providers of primary care. The program shall emphasize evidence-based high quality preventive and chronic disease care. The department may designate one or more chronic conditions to be the subject of the program.

(2) The training and technical assistance program shall include the following elements:

- (a) Clinical information systems and sharing and organization of patient data;
- (b) Decision support to promote evidence-based care;
- (c) Clinical delivery system design;
- (d) Support for patients managing their own conditions; and

(e) Identification and use of community resources that are available in the community for patients and their families.

(3) In selecting primary care providers to participate in the program, the department shall consider the number and type of patients with chronic conditions the provider serves, and the provider's participation in the medicaid program, the basic health plan, and health plans offered through the public employees' benefits board. [2007 c 259 § 5.]

Severability—Subheadings not law—2007 c 259: See notes following RCW 41.05.033.

43.70.540 Data collection—Legislative finding and intent. The legislature recognizes that the state patrol, the administrative office of the courts, the sheriffs' and police chiefs' association, the department of social and health services, the *department of community, trade, and economic development, the sentencing guidelines commission, the department of corrections, and the superintendent of public instruction each have comprehensive data and analysis capabilities that have contributed greatly to our current understanding of crime and violence, and their causes.

The legislature finds, however, that a single health-oriented agency must be designated to provide consistent guidelines to all these groups regarding the way in which their data systems collect this important data. It is not the intent of the legislature by RCW 43.70.545 to transfer data collection requirements from existing agencies or to require the addition of major new data systems. It is rather the intent to make only the minimum required changes in existing data systems to increase compatibility and comparability, reduce duplication, and to increase the usefulness of data collected by these agencies in developing more accurate descriptions of violence. [2005 c 282 § 45; 1995 c 399 § 76; 1994 sp.s. c 7 § 201.]

***Reviser's note:** The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

(2010 Ed.)

Legislative finding and intent—1994 sp.s. c 7: "The legislature finds that the increasing violence in our society causes great concern for the immediate health and safety of our citizens and our social institutions. Youth violence is increasing at an alarming rate and young people between the ages of fifteen and twenty-four are at the highest risk of being perpetrators and victims of violence. Additionally, random violence, including homicide and the use of firearms, has dramatically increased over the last decade.

The legislature finds that violence is abhorrent to the aims of a free society and that it cannot be tolerated. State efforts at reducing violence must include changes in criminal penalties, reducing the unlawful use of and access to firearms, increasing educational efforts to encourage nonviolent means for resolving conflicts, and allowing communities to design their prevention efforts.

The legislature finds that the problem of violence can be addressed with many of the same approaches that public health programs have used to control other problems such as infectious disease, tobacco use, and traffic fatalities.

Addressing the problem of violence requires the concerted effort of all communities and all parts of state and local governments. It is the immediate purpose of chapter 7, Laws of 1994 sp. sess. to: (1) Prevent acts of violence by encouraging change in social norms and individual behaviors that have been shown to increase the risk of violence; (2) reduce the rate of at-risk children and youth, as defined in *RCW 70.190.010; (3) increase the severity and certainty of punishment for youth and adults who commit violent acts; (4) reduce the severity of harm to individuals when violence occurs; (5) empower communities to focus their concerns and allow them to control the funds dedicated to empirically supported preventive efforts in their region; and (6) reduce the fiscal and social impact of violence on our society." [1994 sp.s. c 7 § 101.]

***Reviser's note:** The governor vetoed 1994 sp.s. c 7 § 302, which amended RCW 70.190.010 to define "at-risk children and youth." RCW 70.190.010 was subsequently amended by 1996 c 132 § 2, which now includes a definition for "at-risk children."

***Reviser's note:** Sections 901 through 909, chapter 7, Laws of 1994 sp. sess. were approved and ratified by the voters on November 8, 1994, in Referendum Bill No. 43. Therefore, the amendments to sections 510 through 512, 519, 521, 525, and 527, chapter 7, Laws of 1994 sp. sess. do not expire on July 1, 1995.

43.70.545 Data collection and reporting rules. (1) The department of health shall develop, based on recommendations in the public health services improvement plan and in consultation with affected groups or agencies, comprehensive rules for the collection and reporting of data relating to acts of violence, at-risk behaviors, and risk and protective factors. The data collection and reporting rules shall be used by any public or private entity that is required to report data relating to these behaviors and conditions. The department may require any agency or program that is state-funded or that accepts state funds and any licensed or regulated person or professional to report these behaviors and conditions. To the extent possible the department shall require the reports to be filed through existing data systems. The department may also require reporting of attempted acts of violence and of nonphysical injuries. For the purposes of this section "acts of violence" means self-directed and interpersonal behaviors that can result in suicide, homicide, and nonfatal intentional injuries. "At-risk behaviors," "protective factors," and "risk factors" have the same meanings as provided in RCW 70.190.010. A copy of the data used by a school district to prepare and submit a report to the department shall be retained by the district and, in the copy retained by the district, identify the reported acts or behaviors by school site.

(2) The department is designated as the statewide agency for the coordination of all information relating to violence and other intentional injuries, at-risk behaviors, and risk and protective factors.

(3) The department shall provide necessary data to the local health departments for use in planning by or evaluation of any community network authorized under RCW 70.190.060.

(4) The department shall by rule establish requirements for local health departments to perform assessment related to at-risk behaviors and risk and protective factors and to assist community networks in policy development and in planning and other duties under chapter 7, Laws of 1994 sp. sess.

(5) The department may, consistent with its general authority and directives under RCW 43.70.540 through 43.70.560, contract with a college or university that has experience in data collection relating to the health and overall welfare of children to provide assistance to:

(a) State and local health departments in developing new sources of data to track acts of violence, at-risk behaviors, and risk and protective factors; and

(b) Local health departments to compile and effectively communicate data in their communities. [1998 c 245 § 76; 1994 sp.s. c 7 § 202.]

Finding—Intent—Severability—Effective dates—Contingent expiration date—1994 sp.s. c 7: See notes following RCW 43.70.540.

43.70.550 Public health services improvement plan—Contents. The public health services improvement plan developed under RCW 43.70.520 shall include:

(1) Minimum standards for state and local public health assessment, performance measurement, policy development, and assurance regarding social development to reduce at-risk behaviors and risk and protective factors. The department in the development of data collection and reporting requirements for the superintendent of public instruction, schools, and school districts shall consult with the joint select committee on education restructuring and local school districts.

(2)(a) Measurable risk factors that are empirically linked to violent criminal acts by juveniles, teen substance abuse, teen pregnancy and male parentage, teen suicide attempts, dropping out of school, child abuse or neglect, and domestic violence; and

(b) An evaluation of other factors to determine whether they are empirically related risk factors, such as: Out-of-home placements, poverty, single-parent households, inadequate nutrition, hunger, unemployment, lack of job skills, gang affiliation, lack of recreational or cultural opportunities, school absenteeism, court-ordered parenting plans, physical, emotional, or behavioral problems requiring special needs assistance in K-12 schools, learning disabilities, and any other possible factors.

(3) Data collection and analysis standards on at-risk behaviors and risk and protective factors for use by the local public health departments and the *state council and the local community networks to ensure consistent and interchangeable data.

(4) Recommendations regarding any state or federal statutory barriers affecting data collection or reporting.

The department shall provide an annual report to the Washington state institute for public policy on the implementation of this section. [1994 sp.s. c 7 § 203.]

***Reviser's note:** RCW 70.170.030, which created the health care access and cost control council, was repealed by 1995 c 269 § 2204, effective July 1, 1995.

Finding—Intent—Severability—Effective dates—Contingent expiration date—1994 sp.s. c 7: See notes following RCW 43.70.540.

43.70.555 Assessment standards. The department, in consultation with the family policy council created in chapter 70.190 RCW, shall establish, by rule, standards for local health departments and networks to use in assessment, performance measurement, policy development, and assurance regarding social development to prevent health problems caused by risk factors empirically linked to: Violent criminal acts by juveniles, teen substance abuse, teen pregnancy and male parentage, teen suicide attempts, dropping out of school, child abuse or neglect, and domestic violence. The standards shall be based on the standards set forth in the public health services improvement plan as required by RCW 43.70.550. [1998 c 245 § 77; 1994 sp.s. c 7 § 204.]

Finding—Intent—Severability—Effective dates—Contingent expiration date—1994 sp.s. c 7: See notes following RCW 43.70.540.

43.70.560 Media violence—Reporting reduction efforts. The legislature encourages the use of a statewide voluntary, socially responsible policy to reduce the emphasis, amount, and type of violence in all public media. The department shall develop a suggested reporting format for use by the print, television, and radio media in reporting their voluntary violence reduction efforts. Each area of the public media may carry out the policy in whatever manner that area deems appropriate. [1994 sp.s. c 7 § 205.]

Finding—Intent—Severability—1994 sp.s. c 7: See notes following RCW 43.70.540.

43.70.570 Intent—1995 c 43. The legislature declares its intent to implement the recommendations of the public health improvement plan by initiating a program to provide the public health system with the necessary capacity to improve the health outcomes of the population of Washington state and establishing the methodology by which improvement in the health outcomes and delivery of public health activities will be assessed. [1995 c 43 § 1.]

43.70.575 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW 43.70.570 through 43.70.580.

(1) "Capacity" means actions that public health jurisdictions must do as part of ongoing daily operations to adequately protect and promote health and prevent disease, injury, and premature death. The public health improvement plan identifies capacity necessary for assessment, policy development, administration, prevention, including promotion and protection, and access and quality.

(2) "Department" means the department of health.

(3) "Local health jurisdiction" means the local health agency, either county or multicounty, operated by local government, with oversight and direction from a local board of health, that provides public health services throughout a defined geographic area.

(4) "Health outcomes" means long-term objectives that define optimal, measurable, future levels of health status, maximum acceptable levels of disease, injury, or dysfunction, or prevalence of risk factors in areas such as improving

the rate of immunizations for infants and children to ninety percent and controlling and reducing the spread of tuberculosis and that are stated in the public health improvement plan.

(5) "Public health improvement plan," also known as the public health services improvement plan, means the public health services improvement plan established under RCW 43.70.520, developed by the department, in consultation with local health departments and districts, the state board of health, the health services commission, area Indian health services, and other state agencies, health services providers, and residents concerned about public health, to provide a detailed accounting of deficits in the core functions of assessment, policy development, and assurance of the current public health system, how additional public health funding would be used, and to describe the benefits expected from expanded expenditures.

(6) "Public health" means activities that society does collectively to assure the conditions in which people can be healthy. This includes organized community efforts to prevent, identify, preempt, and counter threats to the public's health.

(7) "Public health system" means the department, the state board of health, and local health jurisdictions. [1995 c 43 § 2.]

43.70.580 Public health improvement plan—Funds—Performance-based contracts—Rules—Evaluation and report. The primary responsibility of the public health system, is to take those actions necessary to protect, promote, and improve the health of the population. In order to accomplish this, the department shall:

(1) Identify, as part of the public health improvement plan, the key health outcomes sought for the population and the capacity needed by the public health system to fulfill its responsibilities in improving health outcomes.

(2)(a) Distribute state funds that, in conjunction with local revenues, are intended to improve the capacity of the public health system. The distribution methodology shall encourage system-wide effectiveness and efficiency and provide local health jurisdictions with the flexibility both to determine governance structures and address their unique needs.

(b) Enter into with each local health jurisdiction performance-based contracts that establish clear measures of the degree to which the local health jurisdiction is attaining the capacity necessary to improve health outcomes. The contracts negotiated between the local health jurisdictions and the department of health must identify the specific measurable progress that local health jurisdictions will make toward achieving health outcomes. A community assessment conducted by the local health jurisdiction according to the public health improvement plan, which shall include the results of the comprehensive plan prepared according to RCW 70.190.130, will be used as the basis for identifying the health outcomes. The contracts shall include provisions to encourage collaboration among local health jurisdictions. State funds shall be used solely to expand and complement, but not to supplant city and county government support for public health programs.

(2010 Ed.)

(3) Develop criteria to assess the degree to which capacity is being achieved and ensure compliance by public health jurisdictions.

(4) Adopt rules necessary to carry out the purposes of chapter 43, Laws of 1995.

(5) Biennially, within the public health improvement plan, evaluate the effectiveness of the public health system, assess the degree to which the public health system is attaining the capacity to improve the status of the public's health, and report progress made by each local health jurisdiction toward improving health outcomes. [1995 c 43 § 3.]

43.70.590 American Indian health care delivery plan. Consistent with funds appropriated specifically for this purpose, the department shall establish in conjunction with the area Indian health services system and providers an advisory group comprised of Indian and non-Indian health care facilities and providers to formulate an American Indian health care delivery plan. The plan shall include:

(1) Recommendations to providers and facilities methods for coordinating and joint venturing with the Indian health services for service delivery;

(2) Methods to improve American Indian-specific health programming; and

(3) Creation of co-funding recommendations and opportunities for the unmet health services programming needs of American Indians. [1995 c 43 § 4; 1993 c 492 § 468. Formerly RCW 41.05.240.]

Reviser's note: RCW 41.05.240 was amended and recodified as RCW 43.70.590 by 1995 c 43 without cognizance of the repeal by 1995 1st sp.s. c 6 § 9. For rule of construction concerning sections amended and repealed in the same legislative session, see RCW 1.12.025.

43.70.600 Survey regarding exposure to radio frequencies—Results. When funds are appropriated for this purpose, the department shall conduct a survey of scientific literature regarding the possible health effects of human exposure to the radio frequency part of the electromagnetic spectrum (300Hz to 300GHz). The department may submit the survey results to the legislature, prepare a summary of that survey, and make the summary available to the public. The department may update the survey and summary periodically. [1998 c 245 § 78; 1996 c 323 § 6.]

Findings—1996 c 323: "The legislature finds that concerns have been raised over possible health effects from exposure to some wireless telecommunications facilities, and that exposures from these facilities should be kept as low as reasonably achievable while still allowing the operation of these networks. The legislature further finds that the department of health should serve as the state agency that follows the issues and compiles information pertaining to potential health effects from wireless telecommunications facilities." [1996 c 323 § 1.]

43.70.605 Personal wireless services—Random testing on power density analysis—Rules. Unless this section is preempted by applicable federal statutes, the department may require that in residential zones or areas, all providers of personal wireless services, as defined in *section 1 of this act, provide random test results on power density analysis for the provider's licensed frequencies showing radio frequency levels before and after development of the personal wireless service antenna facilities, following national standards or protocols of the federal communications commission or other federal agencies. This section shall not apply to microcells as

defined in RCW 80.36.375. The department may adopt rules to implement this section. [1996 c 323 § 7.]

***Reviser's note:** The reference to section 1 of this act is erroneous. Section 2 of the act, codified as RCW 43.21C.0384, was apparently intended.

Findings—1996 c 323: See note following RCW 43.70.600.

43.70.610 Domestic violence education program—Established—Findings. The legislature finds that domestic violence is the leading cause of injury among women and is linked to numerous health problems, including depression, abuse of alcohol and other drugs, and suicide. Despite the frequency of medical attention, few people are diagnosed as victims of spousal abuse. The department, in consultation with the disciplinary authorities as defined in RCW 18.130.040, shall establish, within available department general funds, an ongoing domestic violence education program as an integral part of its health professions regulation. The purpose of the education program is to raise awareness and educate health care professionals regarding the identification, appropriate treatment, and appropriate referral of victims of domestic violence. The disciplinary authorities having the authority to offer continuing education may provide training in the dynamics of domestic violence. No funds from the health professions account may be utilized to fund activities under this section unless the disciplinary authority authorizes expenditures from its proportions of the account. A disciplinary authority may defray costs by authorizing a fee to be charged for participants or materials relating to any sponsored program. [1996 c 191 § 89.]

43.70.615 Multicultural health awareness and education program—Integration into health professions basic education preparation curriculum. (1) For the purposes of this section, "multicultural health" means the provision of health care services with the knowledge and awareness of the causes and effects of the determinants of health that lead to disparities in health status between different genders and racial and ethnic populations and the practice skills necessary to respond appropriately.

(2) The department, in consultation with the disciplining authorities as defined in RCW 18.130.040, shall establish, within available department general funds, an ongoing multicultural health awareness and education program as an integral part of its health professions regulation. The purpose of the education program is to raise awareness and educate health care professionals regarding the knowledge, attitudes, and practice skills necessary to care for diverse populations to achieve a greater understanding of the relationship between culture and health. The disciplining authorities having the authority to offer continuing education may provide training in the dynamics of providing culturally competent, multicultural health care to diverse populations. Any such education shall be developed in collaboration with education programs that train students in that health profession. A disciplining authority may require that instructors of continuing education or continuing competency programs integrate multicultural health into their curricula when it is appropriate to the subject matter of the instruction. No funds from the health professions account may be utilized to fund activities under this section unless the disciplining authority authorizes

expenditures from its proportions of the account. A disciplining authority may defray costs by authorizing a fee to be charged for participants or materials relating to any sponsored program.

(3) By July 1, 2008, each education program with a curriculum to train health professionals for employment in a profession credentialed by a disciplining authority under chapter 18.130 RCW shall integrate into the curriculum instruction in multicultural health as part of its basic education preparation curriculum. The department may not deny the application of any applicant for a credential to practice a health profession on the basis that the education or training program that the applicant successfully completed did not include integrated multicultural health curriculum as part of its basic instruction. [2006 c 237 § 2.]

Findings—2006 c 237: "The legislature finds that women and people of color experience significant disparities from the general population in education, employment, healthy living conditions, access to health care, and other social determinants of health. The legislature finds that it shall be a priority for the state to develop the knowledge, attitudes, and practice skills of health professionals and those working with diverse populations to achieve a greater understanding of the relationship between culture and health and gender and health." [2006 c 237 § 1.]

43.70.620 List of contacts—Health care professions. The secretary shall create and maintain a list of contacts with each of the health care professions regulated under the following chapters for the purpose of policy advice and information dissemination: RCW 18.06.080, 18.89.050, and 18.138.070 and chapters 18.135, 18.55, and 18.88A RCW. [1999 c 151 § 402.]

43.70.630 Cost-reimbursement agreements. (1) The department may enter into a written cost-reimbursement agreement with a permit applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing.

(2) The cost-reimbursement agreement shall identify the tasks and costs for work to be conducted under the agreement. The agreement must include a schedule that states:

- (a) The estimated number of weeks for initial review of the permit application;
- (b) The estimated number of revision cycles;
- (c) The estimated number of weeks for review of subsequent revision submittals;
- (d) The estimated number of billable hours of employee time;
- (e) The rate per hour; and
- (f) A date for revision of the agreement if necessary.

(3) The written cost-reimbursement agreement shall be negotiated with the permit applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant or proponent shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to hire temporary employees,

to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants or hire temporary employees to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments.

(4) The cost-reimbursement agreement must not negatively impact the processing of other permit applications. In order to maintain permit processing capacity, the agency may hire outside consultants, temporary employees, or make internal administrative changes. Consultants or temporary employees hired as part of a cost-reimbursement agreement or to maintain agency capacity are hired as agents of the state not of the permit applicant. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement. [2009 c 97 § 10; 2007 c 94 § 12; 2003 c 70 § 3; 2000 c 251 § 4.]

Intent—Captions not law—Effective date—2000 c 251: See notes following RCW 43.21A.690.

43.70.640 Workplace breastfeeding policies—Infant-friendly designation. (1) An employer may use the designation "infant-friendly" on its promotional materials if the employer has an approved workplace breastfeeding policy addressing at least the following:

(a) Flexible work scheduling, including scheduling breaks and permitting work patterns that provide time for expression of breast milk;

(b) A convenient, sanitary, safe, and private location, other than a restroom, allowing privacy for breastfeeding or expressing breast milk;

(c) A convenient clean and safe water source with facilities for washing hands and rinsing breast-pumping equipment located in the private location specified in (b) of this subsection; and

(d) A convenient hygienic refrigerator in the workplace for the mother's breast milk.

(2) Employers seeking approval of a workplace breastfeeding policy must submit the policy to the department of health. The department of health shall review and approve those policies that meet the requirements of this section. The department may directly develop and implement the criteria for "infant-friendly" employers, or contract with a vendor for this purpose.

(3) For the purposes of this section, "employer" includes those employers defined in RCW 49.12.005 and also includes the state, state institutions, state agencies, political subdivisions of the state, and municipal corporations or quasi-municipal corporations. [2001 c 88 § 3.]

Acknowledgment—Declaration—Findings—2001 c 88: "(1) The legislature acknowledges the surgeon general's summons to all sectors of society and government to help redress the low breastfeeding rates and dura-

(2010 Ed.)

tion in the United States, including the social and workplace factors that can make it difficult for women to breastfeed. The legislature also acknowledges the surgeon general's report on the health and economic importance of breastfeeding which concludes that:

(a) Breastfeeding is one of the most important contributors to infant health;

(b) Breastfeeding provides a range of benefits for the infant's growth, immunity, and development; and

(c) Breastfeeding improves maternal health and contributes economic benefits to the family, health care system, and workplace.

(2) The legislature declares that the achievement of optimal infant and child health, growth, and development requires protection and support for the practice of breastfeeding. The legislature finds that:

(a) The American academy of pediatrics recommends exclusive breastfeeding for the first six months of a child's life and breastfeeding with the addition of solid foods to continue for at least twelve months, and that arrangements be made to provide expressed breast milk if the mother and child must separate during the first year. Children should be breastfed or fed expressed breast milk when they show signs of need, rather than according to a set schedule or the location;

(b) Breast milk contains all the nutrients a child needs for optimal health, growth, and development, many of which can only be found in breast milk;

(c) Research in developed countries provides strong evidence that breastfeeding decreases the incidence and/or severity of diarrhea, lower respiratory tract infection, otitis media, bacteremia, bacterial meningitis, urinary tract infection, and necrotizing enterocolitis. In addition, a number of studies show a possible protective effect of breastfeeding against AIDS, Type I diabetes mellitus, Crohn's disease, lymphoma, ulcerative colitis, and allergic diseases;

(d) Studies also indicate health benefits in mothers who breastfeed. Breastfeeding is one of the few ways that mothers may be able to lower their risk of developing breast and ovarian cancer, with benefits proportional to the duration that they are able to breastfeed. In addition, the maternal hormonal changes stimulated by breastfeeding also help the uterus recover faster and minimize the amount of blood mothers lose after birth. Breastfeeding inhibits ovulation and menstrual bleeding, thereby decreasing the risk of anemia and a precipitous subsequent pregnancy. Breastfeeding women also have an earlier return to prepregnancy weight;

(e) Approximately two-thirds of women who are employed when they become pregnant return to the workforce by the time their children are six months old;

(f) Employers benefit when their employees breastfeed. Breastfed infants are sick less often; therefore, maternal absenteeism from work is lower in companies with established lactation programs. In addition, employee medical costs are lower and employee productivity is higher;

(g) According to a survey of mothers in Washington, most want to breastfeed but discontinue sooner than they hope, citing lack of societal and workplace support as key factors limiting their ability to breastfeed;

(h) Many mothers fear that they are not making enough breast milk and therefore decrease or discontinue breastfeeding. Frequency of breastfeeding or expressing breast milk is the main regulator of milk supply, such that forcing mothers to go prolonged periods without breastfeeding or expressing breast milk can undermine their ability to maintain breastfeeding; and

(i) Maternal stress can physiologically inhibit a mother's ability to produce and let down milk. Mothers report modifiable sources of stress related to breastfeeding, including lack of protection from harassment and difficulty finding time and an appropriate location to express milk while away from their babies.

(3) The legislature encourages state and local governmental agencies, and private and public sector businesses to consider the benefits of providing convenient, sanitary, safe, and private rooms for mothers to express breast milk." [2001 c 88 § 1.]

43.70.650 School sealant endorsement program—Rules—Fee—Report to the legislature. The secretary is authorized to create a school sealant endorsement program for dental hygienists and dental assistants. The secretary of health, in consultation with the dental quality assurance commission and the dental hygiene examining committee, shall adopt rules to implement this section.

(1) A dental hygienist licensed in this state after April 19, 2001, is eligible to apply for endorsement by the department

of health as a school sealant dental hygienist upon completion of the Washington state school sealant endorsement program. While otherwise authorized to act, currently licensed hygienists may still elect to apply for the endorsement.

(2) A dental assistant employed after April 19, 2001, by a dentist licensed in this state, who has worked under dental supervision for at least two hundred hours, is eligible to apply for endorsement by the department of health as a school sealant dental assistant upon completion of the Washington state school sealant endorsement program. While otherwise authorized to act, currently employed dental assistants may still elect to apply for the endorsement.

(3) The department may impose a fee for implementation of this section.

(4) The secretary shall provide a report to the legislature by December 1, 2005, evaluating the outcome of chapter 93, Laws of 2001. [2001 c 93 § 2.]

Findings—Intent—2001 c 93: "The legislature finds that access to preventive and restorative oral health services by low-income children is currently restricted by complex regulatory, financial, cultural, and geographic barriers that have resulted in a large number of children suffering unnecessarily from dental disease. The legislature also finds that very early exposure to oral health care can reverse this disease in many cases, thereby significantly reducing costs of providing dental services to low-income populations.

It is the intent of the legislature to address the problem of poor access to oral health care by providing for school-based sealant programs through the endorsement of dental hygienists." [2001 c 93 § 1.]

Effective date—2001 c 93: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [April 19, 2001]." [2001 c 93 § 5.]

43.70.660 Product safety education. (1) The legislature authorizes the secretary to establish and maintain a product safety education campaign to promote greater awareness of products designed to be used by infants and children that:

(a) Are recalled by the United States consumer products safety commission;

(b) Do not meet federal safety regulations and voluntary safety standards;

(c) Are unsafe or illegal to place into the stream of commerce under the infant crib safety act, chapter 70.111 RCW; or

(d) Contain chemicals of high concern for children as identified under RCW 70.240.030.

(2) The department shall make reasonable efforts to ensure that this infant and children product safety education campaign reaches the target population. The target population for this campaign includes, but is not limited to, parents, foster parents and other caregivers, child care providers, consignment and resale stores selling infant and child products, and charitable and governmental entities serving infants, children, and families.

(3) The secretary may utilize a combination of methods to achieve this outreach and education goal, including but not limited to print and electronic media. The secretary may operate the campaign or may contract with a vendor.

(4) The department shall coordinate this infant and children product safety education campaign with child-serving entities including, but not limited to, hospitals, birthing centers, midwives, pediatricians, obstetricians, family practice

physicians, governmental and private entities serving infants, children, and families, and relevant manufacturers.

(5) The department shall coordinate with other agencies and entities to eliminate duplication of effort in disseminating infant and children consumer product safety information.

(6) The department may receive funding for this infant and children product safety education effort from federal, state, and local governmental entities, child-serving foundations, or other private sources. [2008 c 288 § 6; 2001 c 257 § 2.]

Findings—Intent—2001 c 257: "(1) The legislature finds that infants and children in Washington are injured, sometimes fatally, by unsafe consumer products designed for use by infants and children.

(2) The legislature finds that parents and other persons responsible for the care of infants and children are often unaware that some of these consumer products have been recalled or are unsafe.

(3) The legislature intends to address this lack of awareness by establishing a statewide infant and children product safety campaign across Washington state." [2001 c 257 § 1.]

43.70.665 Early detection breast and cervical cancer screening program—Medical advisory committee. (1)

The legislature finds that Washington state has the highest incidence of breast cancer in the nation. Despite this, mortality rates from breast cancer have declined due largely to early screening and detection. Invasive cervical cancer is the most preventable type of cancer. The Pap test, used to detect early signs of this disease, has been called "medicine's most successful screening test." Applied consistently, invasive cervical cancer could nearly be eliminated. The legislature further finds that increasing access to breast and cervical cancer screening is critical to reducing incidence and mortality rates, and eliminating the disparities of this disease in women in Washington state. Furthermore, the legislature finds there is a need for a permanent program providing early detection and screening to the women and families of Washington state.

It is the intent of the legislature to establish an early detection breast and cervical cancer screening program as a voluntary screening program directed at reducing mortalities through early detection to be offered to eligible women only as funds are available.

(2) As used in this section:

(a) "Eligible woman" means a woman who is age forty to sixty-four, and whose income is at or below two hundred fifty percent of the federal poverty level, as published annually by the federal department of health and human services. Priority enrollment shall be given to women as defined by the federal national breast and cervical cancer early detection program, under P.L. 101-354.

(b) "Approved providers" means those state-supported health providers, radiology facilities, and cytological laboratories that are recognized by the department as meeting the minimum program policies and procedures adopted by the department to qualify under the federal national breast and cervical cancer early detection program, and are designated as eligible for funding by the department.

(c) "Comprehensive" means a screening program that focuses on breast and cervical cancer screening as a preventive health measure, and includes diagnostic and case management services.

(3) The department of health is authorized to administer a state-supported early detection breast and cervical cancer

screening program to assist eligible women with preventive health services. To the extent of available funding, eligible women may be enrolled in the early detection breast and cervical cancer screening program and additional eligible women may be enrolled to the extent that grants and contributions from community sources provide sufficient funds for expanding the program.

(4) Funds appropriated for the state program shall be used only to operate early detection breast and cervical cancer screening programs that have been approved by the department, or to increase access to existing state-approved programs, and shall not supplant federally supported breast and cervical cancer early detection programs.

(5) Enrollment in the early detection breast and cervical cancer screening program shall not result in expenditures that exceed the amount that has been appropriated for the program in the operating budget. If it appears that continued enrollment will result in expenditures exceeding the appropriated level for a particular fiscal year, the department may freeze new enrollment in the program. Nothing in this section prevents the department from continuing enrollment in the program if there are adequate private or public funds in addition to those appropriated in the biennial budget to support the cost of such enrollment.

(6) The department shall establish a medical advisory committee composed of interested medical professionals and consumer liaisons with expertise in a variety of areas relevant to breast and cervical health to provide expert medical advice and guidance. The medical advisory committee shall address national, state, and local concerns regarding best practices in the field of early prevention and detection for breast and cervical cancer and assist the early detection breast and cervical cancer screening program in implementing program policy that follows the best practices of high quality health care for clinical, diagnostic, pathologic, radiological, and oncology services. [2006 c 55 § 1.]

43.70.670 Human immunodeficiency virus insurance program. (1) "Human immunodeficiency virus insurance program," as used in this section, means a program that provides health insurance coverage for individuals with human immunodeficiency virus, as defined in RCW 70.24.017(7), who are not eligible for medical assistance programs from the department of social and health services as defined in *RCW 74.09.010(8) and meet eligibility requirements established by the department of health.

(2) The department of health may pay for health insurance coverage on behalf of persons with human immunodeficiency virus, who meet department eligibility requirements, and who are eligible for "continuation coverage" as provided by the federal consolidated omnibus budget reconciliation act of 1985, group health insurance policies, or individual policies. [2007 c 259 § 38; 2003 c 274 § 2.]

*Reviser's note: RCW 74.09.010 was alphabetized pursuant to RCW 1.08.015(2)(k), changing subsection (8) to subsection (9).

ernment and its existing public institutions, and takes effect July 1, 2003." [2003 c 274 § 4.]

43.70.680 Volunteers for emergency or disaster assistance. (1) The department is authorized to contact persons issued credentials under this title for the purpose of requesting permission to collect his or her name, profession, and contact information as a possible volunteer in the event of a bioterrorism incident, natural disaster, public health emergency, or other emergency or disaster, as defined in RCW 38.52.010, that requires the services of health care providers.

(2) The department shall maintain a record of all volunteers who provide information under subsection (1) of this section. Upon request, the department shall provide the record of volunteers to:

- (a) Local health departments;
- (b) State agencies engaged in public health emergency planning and response, including the state military department;
- (c) Agencies of other states responsible for public health emergency planning and response; and
- (d) The centers for disease control and prevention. [2003 c 384 § 1.]

43.70.690 State asthma plan. (1) The department, in collaboration with its public and private partners, shall design a state asthma plan, based on clinically sound criteria including nationally recognized guidelines such as those established by the national asthma education prevention partnership expert panel report guidelines for the diagnosis and management of asthma.

(2) The plan shall include recommendations in the following areas:

- (a) Evidence-based processes for the prevention and management of asthma;
- (b) Data systems that support asthma prevalence reporting, including population disparities and practice variation in the treatment of asthma;
- (c) Quality improvement strategies addressing the successful diagnosis and management of the disease; and
- (d) Cost estimates and sources of funding for plan implementation.

(3) The department shall submit the completed state plan to the governor and the legislature by December 1, 2005.

(4) The department shall implement the state plan recommendations made under subsection (2) of this section only to the extent that federal, state, or private funds, including grants, are available for that purpose. [2009 c 518 § 8; 2005 c 462 § 4.]

Findings—2005 c 462: See note following RCW 28A.210.370.

43.70.695 Workforce supply and demographics—Surveys—Public data set—Report to the legislature. (Expires January 1, 2012.) (1) The department, in collaboration with the workforce training and education coordinating board, shall distribute survey questions for the purpose of gathering data related to workforce supply and demographics to all health care providers who hold a license to practice a health profession. The department shall adopt a schedule for distributing surveys by profession so that each profession is surveyed every two years. In developing the survey, the

department shall seek advice from researchers that are likely to use the survey data.

(2)(a) At a minimum, the survey shall include questions related to understanding the following characteristics of individuals in the health care workforce:

- (i) Specialty;
- (ii) Birthdate and gender;
- (iii) Race and ethnicity;
- (iv) Hours in practice per week;
- (v) Practice statistics, including hours spent in direct patient care;
- (vi) Zip codes of the location where the provider practices;
- (vii) Years in practice, years in practice in Washington, location and years in practice in other jurisdictions;
- (viii) Education and training background, including the location and types of education and training received; and
- (ix) Type of facilities where the provider practices.

(b) The department may approve proposals for the distribution of surveys containing additional data elements to selected health care professions if it determines that there is a legitimate research interest in obtaining the information, the additional burden on members of the health care profession is not unreasonable, the effect on survey response rates is not unreasonable, and there are funds available. The department may accept funds through contracts, grants, donations, or other forms of contributions to support more detailed surveys.

(3) The department must make a public data set available that meets the confidentiality requirements of subsection (5) of this section. The department may respond to requests for data and other information from the registry for special studies and analysis pursuant to a data-sharing agreement. Any use of the data by the requestor must comply with the confidentiality requirements of subsection (5) of this section. The department may require requestors to pay any or all of the reasonable costs associated with such requests that may be approved.

(4) The failure to complete or return the survey may not be grounds to withhold, fail to renew, or revoke a license or to impose any other disciplinary sanctions against a credentialed health care provider.

(5) The department must process the surveys that it receives in such a way that the identity of individual providers remains confidential. Data elements related to the identification of individual providers are confidential and are exempt from RCW 42.56.040 through 42.56.570 and *42.17.350 through 42.17.450, except as provided in a data-sharing agreement approved by the department pursuant to subsection (3) of this section.

(6) By July 1, 2009, the department shall provide a report to the appropriate committees of the legislature on the effectiveness of using a survey to obtain information on the supply of health care professionals, the distribution and use of the information obtained by the surveys by employers and health professions education and training programs[,], and the extent to which the surveys have alleviated identified shortages of trained health care providers. [2006 c 236 § 2.]

Findings—Intent—2006 c 236: "The legislature finds that people of color experience significant disparities from the general population in education, employment, healthy living conditions, access to health care, and other social determinants of health. The legislature intends to address barriers to gender-appropriate and culturally and linguistically appropriate health care and health education materials, including increasing the number of female and minority health care providers, through expanded recruiting, education, and retention programs. The legislature finds that before developing a workforce that is representative of the diversity of the state's population, relevant and accurate data on health care professionals, students in health care professions, and recipients of health services must first be collected." (2) Such rules must meet the provisions of 7 C.F.R. part 3016, uniform administrative requirements for grants and cooperative agreements to state and local governments, as it existed on June 12, 2008, or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section. The review shall assess whether the jails are in compliance with sections 3 and 4, chapter 411, Laws of 2009. To the extent that a jail is found not in compliance, the department shall provide technical assistance to assist the jail in resolving any areas of non-compliance. [2009 c 411 § 5.]

Only the secretary or the secretary's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. [2010 c 174 § 10; 2009 c 564 § 934.]

43.70.730 Developmental disabilities endowment—Definitions. The definitions in this section apply throughout *RCW 43.330.200 through 43.330.230.

(1) "Developmental disability" has the meaning in RCW 71A.10.020(3).

(2) "Developmental disabilities endowment trust fund" means the fund established in the custody of the state treasurer in *RCW 43.330.200, comprised of private, public, or private and public sources, to finance services for persons with developmental disabilities. All moneys in the fund, all property and rights purchased from the fund, and all income attributable to the fund, shall be held in trust by the state investment board, as provided in RCW 43.33A.030, for the exclusive benefit of fund beneficiaries. The principal and interest of the endowment fund must be maintained until such time as the governing board policy specifies except for the costs and expenses of the state treasurer and the state investment board otherwise provided for in chapter 120, Laws of 2000.

(3) "Governing board" means the developmental disabilities endowment governing board in *RCW 43.330.205.

(4) "Individual trust account" means accounts established within the endowment trust fund for each individual named beneficiary for the benefit of whom contributions have been made to the fund. The money in each of the individual accounts is held in trust as provided for in subsection (2) of this section, and shall not be considered state funds or revenues of the state. The governing board serves as administrator, manager, and recordkeeper for the individual trust accounts for the benefit of the individual beneficiaries. The policies governing the disbursements, and the qualifying services for the trust accounts, shall be established by the governing board. Individual trust accounts are separate accounts within the developmental disabilities endowment trust fund, and are invested for the beneficiaries through the endowment trust fund. [2000 c 120 § 2. Formerly RCW 43.330.195.]

***Reviser's note:** RCW 43.330.200 through 43.330.230 were recodified as RCW 43.70.731 through 43.70.736, respectively, pursuant to 2010 c 271 § 203.

43.70.731 Developmental disabilities endowment—Trust fund. (1) The developmental disabilities endowment trust fund is created in the custody of the state treasurer. Expenditures from the fund may be used only for the purposes of the developmental disabilities endowment established under this chapter, except for expenses of the state investment board and the state treasurer as specified in sub-

section (2) of this section. Only the developmental disabilities endowment governing board or the board's designee may authorize expenditures from the fund. The fund shall retain its interest earnings in accordance with RCW 43.79A.040.

(2) The developmental disabilities endowment governing board shall deposit in the fund all money received for the program, including state appropriations and private contributions. With the exception of investment and operating costs associated with the investment of money by the investment board paid under RCW 43.33A.160 and 43.84.160 and the expenses and operating costs of the state treasurer paid under RCW 43.08.190 and 43.79A.040, the fund shall be credited with all investment income earned by the fund. Disbursements from the fund are exempt from appropriations and the allotment provisions of chapter 43.88 RCW. However, money used for program administration by the department or the governing board is subject to the allotment and budgetary controls of chapter 43.88 RCW, and an appropriation is required for these expenditures. [2000 c 120 § 3; 1999 c 384 § 2. Formerly RCW 43.330.200.]

Intent—1999 c 384: "The legislature recognizes that the main and most enduring support for persons with developmental disabilities, along with public resources, is their immediate and extended families. The legislature recognizes that these families are searching for ways to provide for the long-term continuing care of their disabled family member when the family can no longer provide that care. It is the intent of the legislature to encourage and assist families to engage in long-range financial planning and to contribute to the lifetime care of their disabled family member. To further these objectives, this chapter is enacted to finance lifetime services and supports for persons with developmental disabilities through an endowment funded jointly by the investment of public funds and dedicated family contributions.

The establishment of this endowment is not intended to diminish the state's responsibility for funding services currently available to future endowment participants, subject to available funding, nor is it the intent of the legislature, by the creation of this public/private endowment, to impose additional, unintended financial liabilities on the public." [2000 c 120 § 1; 1999 c 384 § 1.]

All investment and operating costs associated with the investment of money shall be paid under RCW 43.33A.160 and 43.84.160. With the exception of these expenses, the earnings from the investment of the money shall be retained by the fund.

(2) All investments made by the state investment board shall be made with the exercise of that degree of judgment and care under RCW 43.33A.140 and the investment policy established by the state investment board.

(3) As deemed appropriate by the investment board, money in the fund may be commingled for investment with other funds subject to investment by the board.

(4) The authority to establish all policies relating to the fund, other than the investment policies as set forth in subsections (1) through (3) of this section, resides with the governing board acting in accordance with the principles set forth in *RCW 43.330.220. With the exception of expenses of the state treasurer in *RCW 43.330.200 and the investment board set forth in subsection (1) of this section, disbursements from the fund shall be made only on the authorization of the gov-

erning board or the board's designee, and money in the fund may be spent only for the purposes of the developmental disabilities endowment program as specified in this chapter.

(5) The investment board shall routinely consult and communicate with the governing board on the investment policy, earnings of the trust, and related needs of the program. [2000 c 120 § 4. Formerly RCW 43.330.205.]

43.70.734 Developmental disabilities endowment—Endowment principles. The design, implementation, and administration of the developmental disabilities endowment shall be governed by the following principles:

(1) The design and operation of the endowment should reward families who set aside resources for their child's future care and provide incentives for continued caregiving by the family.

(2) The endowment should encourage financial planning and reward caregiving by a broad range of families, not just those who have substantial financial resources.

(3) Families should not feel compelled to contribute to the endowment in order to meet the needs of continuing care for their child.

(4) All families should have equal access to developmental disabilities services not funded through the endowment regardless of whether they contribute to the endowment.

(5) Services funded through the endowment should be stable, ongoing, of reasonable quality, and respectful of individual and family preferences.

(6) Endowment resources should be expended economically in order to benefit as many families as possible.

(7) Endowment resources should be managed prudently so that families can be confident that their agreement with the endowment on behalf of their child will be honored.

(8) The private financial contribution on behalf of each person receiving services from the endowment shall be at least equal to the state's contribution to the endowment.

(9) In order to be matched with funding from the state's contribution to the endowment, the private contribution on behalf of a beneficiary must be sufficient to support the beneficiary's approved service plan for a significant portion of the beneficiary's anticipated remaining lifetime.

(10) The rate that state appropriations to the endowment are used to match private contributions shall be such that each legislative appropriation to the developmental disabilities endowment trust fund, including principal and investment income, is not depleted in a period of less than five years.

(11) Private contributions made on behalf of a particular individual, and the associated state match, shall only be used for services provided upon that person's behalf.

(12) State funds contributed to the developmental disabilities endowment trust fund are to support the individual trust accounts established by individual private contributions made by families or other interested persons for named individual beneficiaries.

(13) The governing board shall explore methods to solicit private donations. The governing board shall explore mechanisms to support individuals with developmental disabilities who do not have individual private contributions made on their behalf. The governing board shall establish policies for the use of any private donations.

(14) Types of services funded by money managed through the developmental disabilities endowment trust fund shall be approved by the governing board or its designee. [2000 c 120 § 6; 1999 c 384 § 5. Formerly RCW 43.330.220.]

Intent—Captions not law—1999 c 384: See notes following RCW 43.70.731.

43.70.735 Developmental disabilities endowment—Development of operating plan—Elements. To the extent funds are appropriated for this purpose, the governing board shall contract with an appropriate organization for the development of a proposed operating plan for the developmental disabilities endowment program. The proposed operating plan shall be consistent with the endowment principles specified in *RCW 43.330.220. The plan shall address at least the following elements:

(1) The recommended types of services to be available through the endowment program and their projected average costs per beneficiary;

(2) An assessment of the number of people likely to apply for participation in the endowment under alternative rates of matching funds, minimum service year requirements, and contribution timing approaches;

(3) An actuarial analysis of the number of disabled beneficiaries who are likely to be supported under alternative levels of public contribution to the endowment, and the length of time the beneficiaries are likely to be served, under alternative rates of matching funds, minimum service year requirements, and contribution timing approaches;

(4) Recommended eligibility criteria for participation in the endowment program;

(5) Recommended policies regarding withdrawal of private contributions from the endowment in cases of movement out of state, death of the beneficiary, or other circumstances;

(6) Recommended matching rate of public and private contributions and, for each beneficiary, the maximum annual and lifetime amount of private contributions eligible for public matching funds;

(7) The recommended minimum years of service on behalf of a beneficiary that must be supported by private contributions in order for the contributions to qualify for public matching funds from the endowment;

(8) The recommended schedule according to which lump sum or periodic private contributions should be made to the endowment in order to qualify for public matching funds;

(9) A recommended program for educating families about the endowment, and about planning for their child's long-term future; and

(10) Recommended criteria and procedure for selecting an organization or organizations to administer the developmental disabilities endowment program, and projected administrative costs. [2000 c 120 § 7. Formerly RCW 43.330.225.]

By December 1, 2000, and prior to implementation, the final program

(2010 Ed.)

design shall be submitted to the appropriate committees of the legislature.

The secretary of the department of social and health services shall seek to maximize federal reimbursement and matching funds for expenditures made under the endowment program, and shall seek waivers from federal requirements as necessary for the receipt of federal funds.

The governing board may receive gifts, grants, and endowments from public or private sources as may be made from time to time, in trust or otherwise, for the use and benefit of the purposes of the endowment program and may expend the gifts, grants, and endowments according to their terms. 43.72.180 Legislative approval—Uniform benefits package and medical risk adjustment mechanisms. [1993 c 492 § 454.] Repealed by 1995 c 265 § 27, effective July 1, 1995.

43.72.300 Managed competition—Findings and intent. (1) The legislature recognizes that competition among health care providers, facilities, payers, and purchasers will yield the best allocation of health care resources, the lowest prices for health care services, and the highest quality of health care when there exists a large number of buyers and sellers, easily comparable health plans and services, minimal barriers to entry and exit into the health care market, and adequate information for buyers and sellers to base purchasing and production decisions. However, the legislature finds that purchasers of health care services and health care coverage do not have adequate information upon which to base purchasing decisions; that health care facilities and providers of health care services face legal and market disincentives to develop economies of scale or to provide the most cost-efficient and efficacious service; that health insurers, contractors, and health maintenance organizations face market disincentives in providing health care coverage to those Washington residents with the most need for health care coverage; and that potential competitors in the provision of health care coverage bear unequal burdens in entering the market for health care coverage.

(2) The legislature therefore intends to exempt from state anti-trust laws, and to provide immunity from federal anti-trust laws through the state action doctrine for activities approved under this chapter that might otherwise be constrained by such laws and intends to displace competition in the health care market: To contain the aggregate cost of health care services; to promote the development of comprehensive, integrated, and cost-effective health care delivery systems through cooperative activities among health care providers and facilities; to promote comparability of health care coverage; to improve the cost-effectiveness in providing health care coverage relative to health promotion, disease prevention, and the amelioration or cure of illness; to assure universal access to a publicly determined, uniform package of health care benefits; and to create reasonable equity in the distribution of funds, treatment, and medical risk among purchasers of health care coverage, payers of health care ser-

vices, providers of health care services, health care facilities, and Washington residents. To these ends, any lawful action taken pursuant to chapter 492, Laws of 1993 by any person or entity created or regulated by chapter 492, Laws of 1993 are declared to be taken pursuant to state statute and in furtherance of the public purposes of the state of Washington.

(3) The legislature does not intend and unless explicitly permitted in accordance with RCW 43.72.310 or under rules adopted pursuant to chapter 492, Laws of 1993, does not authorize any person or entity to engage in activities or to conspire to engage in activities that would constitute per se violations of state and federal anti-trust laws including but not limited to conspiracies or agreements:

(a) Among competing health care providers not to grant discounts, not to provide services, or to fix the price of their services;

(b) Among health carriers as to the price or level of reimbursement for health care services;

(c) Among health carriers to boycott a group or class of health care service providers;

(d) Among purchasers of health plan coverage to boycott a particular plan or class of plans;

(e) Among health carriers to divide the market for health care coverage; or

(f) Among health carriers and purchasers to attract or discourage enrollment of any Washington resident or groups of residents in a health plan based upon the perceived or actual risk of loss in including such resident or group of residents in a health plan or purchasing group. [1997 c 274 § 6; 1993 c 492 § 447.]

43.72.310 Managed competition—Competitive oversight—Attorney general duties—Anti-trust immunity—Fees. (1) A health carrier, health care facility, health care provider, or other person involved in the development, delivery, or marketing of health care or health plans may request, in writing, that the department of health obtain an informal opinion from the attorney general as to whether particular conduct is authorized by chapter 492, Laws of 1993. Trade secret or proprietary information contained in a request for informal opinion shall be identified as such and shall not be disclosed other than to an authorized employee of the department of health or attorney general without the consent of the party making the request, except that information in summary or aggregate form and market share data may be contained in the informal opinion issued by the attorney general. The attorney general shall issue such opinion within thirty days of receipt of a written request for an opinion or within thirty days of receipt of any additional information requested by the attorney general necessary for rendering an opinion unless extended by the attorney general for good cause shown. If the attorney general concludes that such conduct is not authorized by chapter 492, Laws of 1993, the person or organization making the request may petition the department of health for review and approval of such conduct in accordance with subsection (3) of this section.

(2) After obtaining the written opinion of the attorney general and consistent with such opinion, the department of health:

(2010 Ed.)

(a) May authorize conduct by a health carrier, health care facility, health care provider, or any other person that could tend to lessen competition in the relevant market upon a strong showing that the conduct is likely to achieve the policy goals of chapter 492, Laws of 1993 and a more competitive alternative is impractical;

(b) Shall adopt rules governing conduct among providers, health care facilities, and health carriers including rules governing provider and facility contracts with health carriers, rules governing the use of "most favored nation" clauses and exclusive dealing clauses in such contracts, and rules providing that health carriers in rural areas contract with a sufficient number and type of health care providers and facilities to ensure consumer access to local health care services;

(c) Shall adopt rules permitting health care providers within the service area of a plan to collectively negotiate the terms and conditions of contracts with a health carrier including the ability of providers to meet and communicate for the purposes of these negotiations;

(d) Shall adopt rules governing cooperative activities among health care facilities and providers; and

(e) Effective July 1, 1997, in addition to the rule-making authority granted to the department under this section, the department shall have the authority to enforce and administer rules previously adopted by the health services commission and the health care policy board pursuant to RCW 43.72.310.

(3) A health carrier, health care facility, health care provider, or any other person involved in the development, delivery, and marketing of health care services or health plans may file a written petition with the department of health requesting approval of conduct that could tend to lessen competition in the relevant market. Such petition shall be filed in a form and manner prescribed by rule of the department of health.

The department of health shall issue a written decision approving or denying a petition filed under this section within ninety days of receipt of a properly completed written petition unless extended by the department of health for good cause shown. The decision shall set forth findings as to benefits and disadvantages and conclusions as to whether the benefits outweigh the disadvantages.

(4) In authorizing conduct and adopting rules of conduct under this section, the department of health with the advice of the attorney general, shall consider the benefits of such conduct in furthering the goals of health care reform including but not limited to:

(a) Enhancement of the quality of health services to consumers;

(b) Gains in cost efficiency of health services;

(c) Improvements in utilization of health services and equipment;

(d) Avoidance of duplication of health services resources; or

(e) And as to (b) and (c) of this subsection: (i) Facilitates the exchange of information relating to performance expectations; (ii) simplifies the negotiation of delivery arrangements and relationships; and (iii) reduces the transactions costs on the part of health carriers and providers in negotiating more cost-effective delivery arrangements.

These benefits must outweigh disadvantages including and not limited to:

(i) Reduced competition among health carriers, health care providers, or health care facilities;

(ii) Adverse impact on quality, availability, or price of health care services to consumers; or

(iii) The availability of arrangements less restrictive to competition that achieve the same benefits.

(5) Conduct authorized by the department of health shall be deemed taken pursuant to state statute and in the furtherance of the public purposes of the state of Washington.

(6) With the assistance of the attorney general's office, the department of health shall actively supervise any conduct authorized under this section to determine whether such conduct or rules permitting certain conduct should be continued and whether a more competitive alternative is practical. The department of health shall periodically review petitioned conduct through, at least, annual progress reports from petitioners, annual or more frequent reviews by the department of health that evaluate whether the conduct is consistent with the petition, and whether the benefits continue to outweigh any disadvantages. If the department of health determines that the likely benefits of any conduct approved through rule, petition, or otherwise by the department of health no longer outweigh the disadvantages attributable to potential reduction in competition, the department of health shall order a modification or discontinuance of such conduct. Conduct ordered discontinued by the department of health shall no longer be deemed to be taken pursuant to state statute and in the furtherance of the public purposes of the state of Washington.

(7) Nothing contained in chapter 492, Laws of 1993 is intended to in any way limit the ability of rural hospital districts to enter into cooperative agreements and contracts pursuant to RCW 70.44.450 and chapter 39.34 RCW.

(8) The secretary of health shall from time to time establish fees to accompany the filing of a petition or a written request to the department to obtain an opinion from the attorney general under this section and for the active supervision of conduct approved under this section. Such fees may vary according to the size of the transaction proposed in the petition or under active supervision. In setting such fees, the secretary shall consider that consumers and the public benefit when activities meeting the standards of this section are permitted to proceed; the importance of assuring that persons sponsoring beneficial activities are not foreclosed from filing a petition under this section because of the fee; and the necessity to avoid a conflict, or the appearance of a conflict, between the interests of the department and the public. The total fee for a petition under this section, a written request to the department to obtain an opinion from the attorney general, or a combination of both regarding the same conduct shall not exceed the level that will defray the reasonable costs the department and attorney general incur in considering a petition and in no event shall be greater than twenty-five thousand dollars. The fee for review of approved conduct shall not exceed the level that will defray the reasonable costs the department and attorney general incur in conducting such a review and in no event shall be greater than ten thousand dollars per annum. The fees shall be fixed by rule adopted in accordance with the provisions of the administrative procedure act, chapter 34.05 RCW, and shall be deposited in the health professions account established in accordance with

RCW 43.70.320. [1997 c 274 § 7; 1995 c 267 § 8; 1993 c 492 § 448.]

(1) The department of labor and industries, in consultation with the workers' compensation advisory committee, may conduct pilot projects to purchase medical services for injured workers through managed care arrangements. The projects shall assess the effects of managed care on the cost and quality of, and employer and employee satisfaction with, medical services provided to injured workers.

(2) The pilot projects may be limited to specific employers. The implementation of a pilot project shall be conditioned upon a participating employer and a majority of its employees, or, if the employees are represented for collective bargaining purposes, the exclusive bargaining representative, voluntarily agreeing to the terms of the pilot. (4) The projects shall conclude no later than January 1, 1997. [1998 c 245 § 79; 1995 c 81 § 2; 1993 c 492 § 486.]

43.80.120 Designation of fiscal agencies—Qualifications—Duration of designation—Compensation. The state finance committee shall designate responsible banks or

trust companies as fiscal agencies, each having a paid-up capital and surplus of not less than five million dollars. The state finance committee shall designate fiscal agencies by any method deemed appropriate to the best interests of this state and its subdivisions.

The state finance committee shall make duplicate certificates of such designations, cause them to be attested under the seal of the state, and file one copy of each certification in the office of the secretary of state and transmit the other to the bank or trust company designated.

Until successors have been appointed, the banks or trust companies named shall act as the fiscal agencies of the state of Washington in accordance with such terms as shall be agreed upon between the state finance committee and the fiscal agencies so designated. The manner and amount of compensation of the fiscal agents shall be matters specifically left for the state finance committee to determine.

If no such banks or trust companies are willing to accept appointment as fiscal agencies, or if the state finance committee considers unsatisfactory the terms under which such banks or trust companies are willing so to act, the bonds and bond interest coupons normally payable at the fiscal agency, shall thereupon become payable at the state treasury or at the office of the treasurer or fiscal officer of the subdivision concerned, as the case may be. - 43.81.020 Availability of state-owned or leased living facilities.
- 43.81.030 Rent—Custodial housekeeping—Damages.
- 43.81.040 Maintenance in safe, healthful condition.

43.81.010 Legislative declaration. The legislature recognizes that significant benefits accrue to the state and that certain types of state operations are more efficient when personnel services are available on an extended basis. Such operations include certain types of facilities managed by agencies such as the departments of natural resources, corrections, fish and wildlife, social and health services, transportation, and veterans affairs, and the parks and recreation commission.

The means of assuring that such personnel are available on an extended basis is through the establishment of on-site state-owned or leased living facilities. The legislature also recognizes the restrictions and hardship placed upon those personnel who are required to reside in such state-owned or leased living facilities in order to provide extended personnel services.

The legislature further recognizes that there are instances where it is to the benefit of the state to have state-owned or leased living facilities occupied even though such occupancy is not required by the agency as a condition of employment. [1994 c 264 § 27; 1988 c 36 § 19; 1985 c 463 § 1.]

43.81.020 Availability of state-owned or leased living facilities. (1) Whenever an agency requires that an employee

reside in state-owned or leased living facilities as a condition of employment, such living facilities shall be made available to the employee under the conditions set forth in RCW 43.81.030 and 43.81.040.

(2) Whenever an agency determines that (a) a living facility owned or leased by the agency is not occupied by employees under subsection (1) of this section and (b) it would be to the agency’s benefit to have the facility occupied by an employee of the agency whose duties involve extended personnel services associated with the work site upon which the living facility is located or at work site near to where the living facility is located, the agency may make the facility available to such employee.

(3) Whenever an agency determines that (a) a living facility owned or leased by the agency is not occupied by employees under subsection (1) of this section and (b) the facility has been made available to employees under subsection (2) of this section and that no such employees have opted to reside in the facility, the agency may make the facility available for occupancy to other interested parties. [1985 c 463 § 2.]

43.81.030 Rent—Custodial housekeeping—Damages. (1) No rent may be charged to persons living in facilities provided under RCW 43.81.020(1). Such employees shall pay the costs of utilities associated with the living facility.

(2) Any person occupying state-owned or leased living facilities shall do so with the understanding that he or she assumes custodial housekeeping responsibility as directed by the agency. Such responsibility shall not include maintenance, repairs, or improvements to the facilities. An occupant of a state-owned or leased facility is liable for damages to the facility in excess of normal wear and tear. [1989 c 11 § 16; 1985 c 463 § 3.]

Additional notes found at www.leg.wa.gov

43.81.040 Maintenance in safe, healthful condition. The state shall maintain living facilities occupied under RCW 43.81.020 in a safe, healthful condition. [1985 c 463 § 4.]

43.82.010 Acquisition, lease, and disposal of real estate for state agencies—Long-range planning—Use of lease as collateral or security—Colocation and consolidation—Studies—Delegation of functions—Exemptions.

(1) The director of general administration, on behalf of the agency involved and after consultation with the office of financial management, shall purchase, lease, lease purchase, rent, or otherwise acquire all real estate, improved or unimproved, as may be required by elected state officials, institutions, departments, commissions, boards, and other state agencies, or federal agencies where joint state and federal activities are undertaken and may grant easements and transfer, exchange, sell, lease, or sublease all or part of any surplus real estate for those state agencies which do not otherwise have the specific authority to dispose of real estate. This section does not transfer financial liability for the acquired property to the department of general administration.

(2) Except for real estate occupied by federal agencies, the director shall determine the location, size, and design of any real estate or improvements thereon acquired or held pursuant to subsection (1) of this section. Facilities acquired or held pursuant to this chapter, and any improvements thereon, shall conform to standards adopted by the director and approved by the office of financial management governing facility efficiency unless a specific exemption from such standards is provided by the director of general administration. The director of general administration shall report to the office of financial management and the appropriate committees of the legislature annually on any exemptions granted pursuant to this subsection.

(3) The director of general administration may fix the terms and conditions of each lease entered into under this chapter, except that no lease shall extend greater than twenty years in duration. The director of general administration may enter into a long-term lease greater than ten years in duration upon a determination by the director of the office of financial management that the long-term lease provides a more favorable rate than would otherwise be available, it appears to a substantial certainty that the facility is necessary for use by the state for the full length of the lease term, and the facility meets the standards adopted pursuant to subsection (2) of this section. The director of general administration may enter into a long-term lease greater than ten years in duration if an analysis shows that the life-cycle cost of leasing the facility is less than the life-cycle cost of purchasing or constructing a facility in lieu of leasing the facility.

(4) Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a public offering. Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a private placement without the prior written approval of the state treasurer. However, this limitation shall not prevent a lessor from assigning or encumbering its interest in a lease as security for the repayment of a promissory note provided that the transaction would otherwise be an exempt transaction under RCW 21.20.320. The state treasurer shall adopt rules

that establish the criteria under which any such approval may be granted. In establishing such criteria the state treasurer shall give primary consideration to the protection of the state's credit rating and the integrity of the state's debt management program. If it appears to the state treasurer that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection, then he or she may recommend that the governor cause such lease to be terminated. The department of general administration shall promptly notify the state treasurer whenever it may appear to the department that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection.

(5) It is the policy of the state to encourage the colocation and consolidation of state services into single or adjacent facilities, whenever appropriate, to improve public service delivery, minimize duplication of facilities, increase efficiency of operations, and promote sound growth management planning.

(6) The director of general administration shall provide coordinated long-range planning services to identify and evaluate opportunities for colocating and consolidating state facilities. Upon the renewal of any lease, the inception of a new lease, or the purchase of a facility, the director of general administration shall determine whether an opportunity exists for colocating the agency or agencies in a single facility with other agencies located in the same geographic area. If a colocation opportunity exists, the director of general administration shall consult with the affected state agencies and the office of financial management to evaluate the impact colocation would have on the cost and delivery of agency programs, including whether program delivery would be enhanced due to the centralization of services. The director of general administration, in consultation with the office of financial management, shall develop procedures for implementing colocation and consolidation of state facilities.

(7) The director of general administration is authorized to purchase, lease, rent, or otherwise acquire improved or unimproved real estate as owner or lessee and to lease or sublet all or a part of such real estate to state or federal agencies. The director of general administration shall charge each using agency its proportionate rental which shall include an amount sufficient to pay all costs, including, but not limited to, those for utilities, janitorial and accounting services, and sufficient to provide for contingencies; which shall not exceed five percent of the average annual rental, to meet unforeseen expenses incident to management of the real estate.

(8) If the director of general administration determines that it is necessary or advisable to undertake any work, construction, alteration, repair, or improvement on any real estate acquired pursuant to subsection (1) or (7) of this section, the director shall cause plans and specifications thereof and an estimate of the cost of such work to be made and filed in his or her office and the state agency benefiting thereby is hereby authorized to pay for such work out of any available funds: PROVIDED, That the cost of executing such work shall not exceed the sum of twenty-five thousand dollars. Work, construction, alteration, repair, or improvement in excess of twenty-five thousand dollars, other than that done by the

owner of the property if other than the state, shall be performed in accordance with the public works law of this state.

(9) In order to obtain maximum utilization of space, the director of general administration shall make space utilization studies, and shall establish standards for use of space by state agencies. Such studies shall include the identification of opportunities for colocation and consolidation of state agency office and support facilities.

(10) The director of general administration may construct new buildings on, or improve existing facilities, and furnish and equip, all real estate under his or her management. Prior to the construction of new buildings or major improvements to existing facilities or acquisition of facilities using a lease purchase contract, the director of general administration shall conduct an evaluation of the facility design and budget using life-cycle cost analysis, value-engineering, and other techniques to maximize the long-term effectiveness and efficiency of the facility or improvement.

(11) All conveyances and contracts to purchase, lease, rent, transfer, exchange, or sell real estate and to grant and accept easements shall be approved as to form by the attorney general, signed by the director of general administration or the director's designee, and recorded with the county auditor of the county in which the property is located.

(12) The director of general administration may delegate any or all of the functions specified in this section to any agency upon such terms and conditions as the director deems advisable. By January 1st of each year, beginning January 1, 2008, the department shall submit an annual report to the office of financial management and the appropriate committees of the legislature on all delegated leases.

(13) This section does not apply to the acquisition of real estate by:

(a) The state college and universities for research or experimental purposes;

(b) The state liquor control board for liquor stores and warehouses; and

(c) The department of natural resources, the department of fish and wildlife, the department of transportation, and the state parks and recreation commission for purposes other than the leasing of offices, warehouses, and real estate for similar purposes.

(14) Notwithstanding any provision in this chapter to the contrary, the department of general administration may negotiate ground leases for public lands on which property is to be acquired under a financing contract pursuant to chapter 39.94 RCW under terms approved by the state finance committee.

(15) The department of general administration shall report annually to the office of financial management and the appropriate fiscal committees of the legislature on facility leases executed for all state agencies for the preceding year, lease terms, and annual lease costs. The report must include leases executed under RCW 43.82.045 and subsection (12) of this section. [2007 c 506 § 8; 2004 c 277 § 906; 1997 c 117 § 1. 43.82.020 Approval by capitol committee when real estate located in Thurston county. The acquisition of real estate, and use thereof, shall be subject to the approval of the state capitol committee when the real estate is located in Thurston county. [1965 c 8 § 43.82.020. Prior: 1961 c 184 § 2; 1959 c 255 § 2.]

43.82.030 Acquisition of property and rights declared public use—Eminent domain. The acquisition of any real property or any rights or interests therein for the purpose of this chapter is hereby declared to be for a public use. In furtherance of the purposes of this chapter, the right of eminent domain may be exercised as provided for in chapter 8.04 RCW. [1965 c 8 § 43.82.030. Prior: 1959 c 255 § 3.]

43.82.035 Predesign process for requests to lease, purchase, or build facilities for state programs—Approval of plans for major leased facilities. (1) The office of financial management shall design and implement a modified predesign process for any space request to lease, purchase, or build facilities that involve (a) the housing of new state programs, (b) a major expansion of existing state programs, or (c) the relocation of state agency programs. This includes the consolidation of multiple state agency tenants into one facility. The office of financial management shall define facilities that meet the criteria described in (a) and (b) of this subsection.

(2) State agencies shall submit modified predesigns to the office of financial management and the legislature. Modified predesigns must include a problem statement, an analysis of alternatives to address programmatic and space requirements, proposed locations, and a financial assessment. For proposed projects of twenty thousand gross square feet or less, the agency may provide a cost-benefit analysis, rather than a life-cycle cost analysis, as determined by the office of financial management.

(3) Projects that meet the capital requirements for predesign on major facility projects with an estimated project cost of five million dollars or more pursuant to chapter 43.88 RCW shall not be required to prepare a modified predesign.

(4) The office of financial management shall require state agencies to identify plans for major leased facilities as part of the ten-year capital budget plan. State agencies shall not enter into new or renewed leases of more than one million dollars per year unless such leases have been approved by the office of financial management except when the need for the lease is due to an unanticipated emergency. The regular termination date on an existing lease does not constitute an emergency. The department of general administration shall notify the office of financial management and the appropriate legislative fiscal committees if an emergency situation arises.

(5) For project proposals in which there are estimates of operational savings, the office of financial management shall require the agency or agencies involved to provide details including but not limited to fund sources and timelines. [2007 c 506 § 4.]

Findings—Intent—2007 c 506: "The legislature finds that the capital stock of facilities owned and leased by state agencies represents a significant financial investment by the citizens of the state of Washington. Capital construction projects funded in the state's capital budget require diligent analysis and approval by the governor and the legislature. In some cases, long-term leases obligate state agencies to a larger financial commitment than some capital construction projects without a comparable level of diligence. State facility analysis and portfolio management can be strengthened through greater oversight and support from the office of financial management and the legislature and with input from stakeholders.

The legislature finds that the state lacks specific policies and standards on conducting life-cycle cost analysis to determine the cost-effectiveness of owning or leasing state facilities and lacks clear guidance on when and how to use it. Further, there is limited oversight and review of the results of life-cycle cost analyses in the capital project review process. Unless decision makers are provided a thorough economic analysis, they cannot identify the most cost-effective alternative or identify opportunities for improving the cost-effectiveness of state facility alternatives.

The legislature finds that the statewide accounting system limits the ability of the office of financial management and the legislature to analyze agency expenditures that include only leases for land, buildings, and structures. Additionally, other statewide data systems that track state-owned and leased facility information are limited, onerous, and inflexible.

Therefore, it is the intent of the legislature to strengthen the office of financial management's oversight role in state facility analysis and decision making. Further, it is the intent of the legislature to support the office of financial management's and the department of general administration's need for technical expertise and data systems to conduct thorough analysis, long-term planning, and state facility portfolio management by providing adequate resources in the capital and operating budgets." [2007 c 506 § 1.]

43.82.045 Approval of leases—Privately owned buildings being planned or under construction. State agencies are prohibited from entering into lease agreements for privately owned buildings that are in the planning stage of development or under construction unless there is prior written approval by the director of the office of financial management. Approval of such leases shall not be delegated. Lease agreements described in this section must comply with RCW 43.82.035. [2007 c 506 § 5.]

Findings—Intent—2007 c 506: See note following RCW 43.82.035.

43.82.055 Long-term facility needs—Six-year facility plan. The office of financial management shall:

(1) Work with the department of general administration and all other state agencies to determine the long-term facility needs of state government; and

(2) Develop and submit a six-year facility plan to the legislature by January 1st of every odd-numbered year, beginning January 1, 2009, that includes state agency space requirements and other pertinent data necessary for cost-effective facility planning. The department of general administration shall assist with this effort as required by the office of financial management. [2007 c 506 § 6.]

Findings—Intent—2007 c 506: See note following RCW 43.82.035.

43.82.110 Lease of space—Surplus space. All office or other space made available through the provisions of this chapter shall be leased by the director to such state or federal agencies, for such rental, and on such terms and conditions as he or she deems advisable: PROVIDED, HOWEVER, If

space becomes surplus, the director is authorized to lease office or other space in any project to any person, corporation or body politic, for such period as the director shall determine said space is surplus, and upon such other terms and conditions as he or she may prescribe. [1994 c 219 § 13; 1969 c 121 § 2; 1965 c 8 § 43.82.110. Prior: 1961 c 184 § 4; 1959 c 255 § 11.]

Finding—1994 c 219: See note following RCW 43.88.030.

43.82.120 General administration services account—Rental income. All rental income collected by the department of general administration from rental of state buildings shall be deposited in the general administration services account. [1998 c 105 § 14; 1994 c 219 § 14; 1965 c 8 § 43.82.120. Prior: 1961 c 184 § 5; 1959 c 255 § 12.]

Finding—1994 c 219: See note following RCW 43.88.030.

Additional notes found at www.leg.wa.gov

43.82.125 Authorized uses for general administration services account. The general administration services account shall be used to pay all costs incurred by the department in the operation of real estate managed under the terms of this chapter. Moneys received into the general administration services account shall be used to pay rent to the owner of the space for occupancy of which the charges have been made and to pay utility and operational costs of the space utilized by the occupying agency: PROVIDED, That moneys received into the account for occupancy of space owned by the state where utilities and other operational costs are covered by appropriation to the department of general administration shall be immediately transmitted to the general fund. [1998 c 105 § 15; 1965 c 8 § 43.82.125. Prior: 1961 c 184 § 6.]

Additional notes found at www.leg.wa.gov

43.82.130 Powers and duties of director. The director of the department of general administration is authorized to do all acts and things necessary or convenient to carry out the powers and duties expressly provided in this chapter. [1965 c 8 § 43.82.130. Prior: 1959 c 255 § 13.]

43.82.140 Insurance on buildings. The director may, in his or her discretion, obtain fire or other hazard insurance on any building under his or her management. [2009 c 549 § 5158; 1965 c 8 § 43.82.140. Prior: 1961 c 184 § 7.]

43.82.150 Inventory of state-owned or leased facilities—Report. (1) The office of financial management shall develop and maintain an inventory system to account for all owned or leased facilities utilized by state government. At a minimum, the inventory system must include the facility owner, location, type, condition, and size of each facility. In addition, for owned facilities, the inventory system must include the date and cost of original construction and the cost of any major remodeling or renovation. The inventory must be updated by June 30th of each year. The office of financial management shall publish a report summarizing information contained in the inventory system for each agency by October 1st of each year, beginning in 2010 and shall submit this report to the appropriate fiscal committees of the legislature.

(2) All agencies, departments, boards, commissions, and institutions of the state of Washington shall provide to the office of financial management a complete inventory of owned and leased facilities by September 1, 2010. The inventory must be updated and submitted to the office of financial management by September 1st of each subsequent year. The inventories required under this subsection must be submitted in a standard format prescribed by the office of financial management.

(3) The office of financial management shall report to the legislature by September 1, 2008, on recommended improvements to the inventory system, redevelopment costs, and an implementation schedule for the redevelopment of the inventory system. The report shall also make recommendations on other improvements that will improve accountability and assist in the evaluation of budget requests and facility management by the governor and the legislature.

(4) For the purposes of this section, "facilities" means buildings and other structures with walls and a roof. "Facilities" does not mean roads, bridges, parking areas, utility systems, and other similar improvements to real property. [2007 c 506 § 7; 1997 c 96 § 2; 1993 c 325 § 1.]

Findings—Intent—2007 c 506: See note following RCW 43.82.035.

Findings—Purpose—1997 c 96: "The legislature finds that the capital stock of facilities owned by state agencies represents a significant financial investment by the citizens of the state of Washington, and that providing agencies with the tools and incentives needed to adequately maintain state facilities is critically important to realizing the full value of this investment. The legislature also finds that ongoing reporting of facility inventory, condition, and maintenance information by agencies will improve accountability and assist in the evaluation of budget requests and facility management by the legislature and governor. The purpose of this act is to ensure that recent enhancements to facility and maintenance reporting systems implemented by the office of financial management, and a new program created by the department of general administration to provide maintenance information and technical assistance to state and local agencies, are sustained into the future." For the purpose of furnishing funds to finance projects in the 1959-1961 capital budget, as adopted by the legislature, there shall be issued and sold limited obligation bonds of the state of Washington in the sum of ten million eighty-nine thousand dollars to be paid and discharged not more than twenty years after date of issuance. The issuance, sale and retirement of said bonds shall be under the general supervision and control of the state finance committee.

The state finance committee is authorized to prescribe the forms of such bonds; the provisions of sale of all or any portion or portions of such bonds; the terms, provisions, and covenants of said bonds; and the sale, issuance, and redemption thereof. None of the bonds herein authorized shall be sold for less than the par value thereof. Such bonds shall state distinctly that they shall not be a general obligation of the state of Washington, but shall be payable in the manner and from the proceeds of retail sales taxes as in RCW 43.83.010 through 43.83.050 provided. As a part of the contract of sale of the aforesaid bonds, the state undertakes to continue to levy the taxes referred to herein and to fix and maintain said taxes in such amounts as will provide sufficient funds to pay

said bonds and interest thereon until all such obligations have been paid in full.

The committee may provide that the bonds, or any of them, may be called prior to the maturity date thereof under such terms, conditions, and provisions as it may determine and may authorize the use of facsimile signatures in the issuance of such bonds and upon any coupons attached thereto. Such bonds shall be payable at such places as the state finance committee may provide. [1965 c 8 § 43.83.010. Prior: 1959 ex.s. c 9 § 1.]

The state treasurer shall thereupon deposit such amount in the state building construction bond redemption fund from moneys transmitted to the state treasurer by the department of revenue and certified by the department of revenue to be sales tax collections, and such amount certified by the state finance committee to the state treasurer shall be a prior charge against all retail sales tax revenues of the state of Washington, subject to and inferior only to the charges thereon created by chapters 229 and 230, Laws of 1949, and chapter 298, Laws of 1957. Waste disposal facilities—1980 bond issue: Chapter 43.99F RCW.

(2010 Ed.)

43.83A.010 Declaration. The long-range development goals for the state of Washington must include the protection of the resources and environment of the state and the health and safety of its people by providing adequate facilities and systems for the collection, treatment, control, or disposal of solid or liquid waste materials. [1980 c 21 § 1; 1972 ex.s. c 127 § 1.]

43.83A.020 General obligation bonds—Authorized—Issuance, sale, terms—Appropriation required.

For the purpose of providing funds for the planning, acquisition, construction, and improvement of public waste disposal facilities in this state, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of one hundred ninety-five million dollars or so much thereof as may be required to finance the improvements defined in this chapter and all costs incidental thereto. As used in this section the phrase "public waste disposal facilities" shall not include the acquisition of equipment used to collect, carry, and transport garbage. These bonds shall be paid and discharged within twenty years of the date of issuance or within thirty years should Article VIII of the Constitution of the state of Washington be amended to permit such longer term. No bonds authorized by this chapter shall be offered for sale without prior legislative appropriation of the proceeds of such bonds to be sold. [1990 1st ex.s. c 15 § 7. Prior: 1989 1st ex.s. c 14 § 10; 1989 c 136 § 2; 1977 ex.s. c 242 § 1; 1972 ex.s. c 127 § 2.]

Intent—1989 c 136: "It is the intent of this act to allow the sale of state general obligation bonds to underwriters at a discount so that they may be sold to the public at face value, thereby resulting in lower interest costs to the state. Increases in bond authorizations under this act represent this discount and will have no effect on the amount of money available for the projects to be financed by the bonds." [1989 c 136 § 1.]

43.83A.030 Proceeds to be deposited in state and local improvements revolving account. The proceeds from the sale of bonds authorized by this chapter shall be deposited in the state and local improvements revolving account hereby created in the state treasury and shall be used exclusively for the purpose specified in this chapter and for payment of the expenses incurred in the issuance and sale of the bonds. [1991 sp.s. c 13 § 43; 1985 c 57 § 44; 1972 ex.s. c 127 § 3.]

43.83A.040 Administration of proceeds—Use of funds—Integration of disposal systems. The proceeds from the sale of the bonds deposited in the state and local improvements revolving account of the general fund under the terms of this chapter shall be administered by the state department of ecology subject to legislative appropriation. The department may use or permit the use of any funds derived from the sale of bonds authorized under this chapter to accomplish the purpose for which said bonds are issued by direct expenditures and by grants or loans to public bodies, including grants to public bodies as matching funds in any case where federal, local or other funds are made available on a matching basis for improvements within the purposes of this chapter.

The department may not use or permit the use of any funds derived from the sale of bonds authorized by this chapter for the support of a solid waste recycling activity or service in a locale if the department determines that the activity or service is reasonably available to persons within that locale from private enterprise.

Integration of the management and operation of systems for solid waste disposal with systems of liquid waste disposal holds promise of improved waste disposal efficiency and greater environmental protection and restoration. To encourage the planning for and development of such integration, the legislature may provide for special grant incentives to public bodies which plan for or operate integrated waste disposal management systems. [1979 c 68 § 2; 1972 ex.s. c 127 § 4.]

43.83A.050 Definitions. As used in this chapter, the term "waste disposal facilities" shall mean any facilities or systems owned or operated by a public body for the collection, storage, treatment, disposal, recycling, control, or recovery of liquid wastes or solid wastes, including, but not limited to, sanitary sewage, storm water, residential, industrial, and commercial wastes, material segregated into recyclables and nonrecyclables, and any combination of such wastes; and all equipment, utilities, structures, real property, and interests in and improvements on real property, necessary for or incidental to such purpose.

As used in this chapter, the term "public body" means the state of Washington or any agency, political subdivision, taxing district, or municipal corporation thereof, and those Indian tribes now or hereafter recognized as such by the federal government for participation in the federal land and water conservation program and which may constitutionally receive grants or loans from the state of Washington. [1980 c 21 § 2; 1979 c 68 § 1; 1972 ex.s. c 127 § 5.]

43.83A.060 Referral to electorate. This chapter shall be submitted to the people for their adoption and ratification, or rejection, at the general election to be held in this state on the Tuesday next succeeding the first Monday in November, 1972, in accordance with the provisions of section 3, Article VIII of the Constitution of the state of Washington, and in accordance with the provisions of section 1, Article II of the Constitution of the state of Washington, as amended, and the laws adopted to facilitate the operation thereof. [1972 ex.s. c 127 § 6.]

43.83A.070 Form, terms, conditions, etc., of bonds. The state finance committee is authorized to prescribe the form, terms, conditions, and covenants of the bonds, the time or times of sale of all or any portion of them, and the conditions and manner of their sale and issuance. [1989 c 136 § 3; 1972 ex.s. c 127 § 7.]

43.83A.080 Anticipation notes—Pledge and promise—Seal. When the state finance committee has decided to issue such bonds or a portion thereof, it may, pending the issuing of such bonds, issue, in the name of the state, temporary notes in anticipation of the money to be derived from the sale of such bonds, which notes shall be designated as "anticipation notes". Such portion of the proceeds of the sale of such bonds as may be required for such purpose shall be applied to the payment of the principal of and interest on such anticipation notes which have been issued. The bonds and notes shall pledge the full faith and credit of the state of Washington and shall contain an unconditional promise to pay the principal and interest when due. The state finance committee may authorize the use of a printed facsimile of the seal of the state of Washington in the issuance of the bonds and notes. [1972 ex.s. c 127 § 8.]

43.83A.090 Retirement of bonds from waste disposal facilities bond redemption fund—Retail sales tax collections—Remedies of bond holders—Debt-limit general fund bond retirement account. The waste disposal facilities bond redemption fund is created in the state treasury. This fund shall be exclusively devoted to the payment of interest on and retirement of the bonds authorized by this chapter. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet such bond retirement and interest requirements, and on July 1st of each year the state treasurer shall deposit such amount in the waste disposal facilities bond redemption fund from moneys transmitted to the state treasurer by the state department of revenue and certified by the department to be sales tax collections. Such amount certified by the state finance committee to the state treasurer shall be a prior charge against all retail sales tax revenues of the state of Washington, except that portion thereof heretofore pledged for the payment of bond principal and interest. The owner and holder of each of the bonds or the trustee for any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed herein.

If a debt-limit general fund bond retirement account is created in the state treasury by chapter 456, Laws of 1997 and becomes effective prior to the issuance of any of the bonds authorized by this chapter, the debt-limit general fund bond retirement account shall be used for the purposes of this chapter in lieu of the waste disposal facilities bond redemption fund. [1997 c 456 § 12; 1972 ex.s. c 127 § 9.]

43.83A.100 Legislature may provide additional means for payment of bonds. The legislature may provide additional means for raising moneys for the payment of the principal and interest of the bonds authorized herein, and this chapter shall not be deemed to provide an exclusive method for such payment. [1972 ex.s. c 127 § 10.]

43.83A.110 Bonds legal investment for public funds. The bonds herein authorized shall be a legal investment for all state funds, or for funds under state control, and for all funds of any other public body. [1972 ex.s. c 127 § 11.]

Such amount certified by the state finance committee to the state treasurer shall be a prior charge against all retail sales tax revenues of the state of Washington, except that portion thereof heretofore pledged for the payment of bond principal and interest. The owner and holder of each of the bonds or the trustee for any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed herein. The department of ecology may make such loans or grants or combinations thereof as matching funds in any case where federal, local, or other funds have been made available on a matching basis. A loan or combination loan and grant shall not exceed fifty percent of the approved eligible project cost for any single proposed project. Any grant or grant por-

tion of a combination loan and grant from funds under RCW 43.83B.010 through 43.83B.110 for any single proposed project shall not exceed fifteen percent of the eligible project costs: PROVIDED, That the fifteen percent limitation established herein shall not be applicable to project commitments which the director or deputy director of the state department of ecology made to the bureau of reclamation of the United States department of interior for providing state funding at thirty-five percent of project costs during the period between August 1, 1974, and June 30, 1975. EMERGENCY WATER WITHDRAWAL AND FACILITIES

43.83B.300 Legislative findings—General obligation bonds authorized—Issuance, terms—Appropriation required. The legislature finds that the fundamentals of water resource policy in this state must be reviewed by the legislature to ensure that the water resources of the state are protected and fully utilized for the greatest benefit to the people of the state of Washington. The legislature further finds that it is necessary to provide the department of ecology with emergency powers to authorize withdrawals of public surface and groundwaters, including dead storage within reservoirs, on a temporary basis, and construction of facilities in relation thereto, in order to alleviate emergency water supply conditions arising from the drought forecast for the state of Washington during 1977 and during 1987 through 1989.

The legislature further finds that there is a continuing water supply shortage in many areas of the state and that there is an urgent need to assure the survival of irrigated crops and of the state's fisheries.

The legislature further finds that in addition to water storage facilities or other augmentation programs, improved efficiency of water use could provide an important new sup-

(2010 Ed.)

ply of water in many parts of the state with which to meet future water needs and that improved efficiency of water use should receive greater emphasis in the management of the state's water resources.

In order to study the fundamentals of water resource policy of the state and to provide needed moneys for the planning, acquisition, construction, and improvement of water supply facilities and for other appropriate measures to assure the survival of irrigated crops and/or the state's fisheries to alleviate emergency water supply conditions arising from droughts occurring from time to time in the state of Washington, and to carry out a comprehensive water use efficiency study for the state of Washington, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of eighteen million dollars, or so much thereof as may be required to finance such projects, and all costs incidental thereto. No bonds authorized by this section and RCW 43.83B.360 through 43.83B.375 shall be offered for sale without prior legislative appropriation, and these bonds shall be paid and discharged within thirty years of the date of issuance in accordance with Article VIII, section 1 of the state Constitution. [1988 c 47 § 1; 1988 c 46 § 2; 1988 c 45 § 1; 1987 c 343 § 1; 1979 ex.s. c 263 § 1; 1977 ex.s. c 1 § 1.]

Reviser's note: This section was amended by 1988 c 45 § 1, 1988 c 46 § 2, and by 1988 c 47 § 1, each without reference to the other. All amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

43.83B.345 Rates of charges for water—Payment into bond redemption fund—Grants and loans—Contracts. (1) The department of ecology shall, by rule, establish rates of charges for all waters delivered from such facilities as constructed by the department with funds provided in RCW 43.83B.385 (2) or (3). Where the department provides water to public or municipal corporations or other governmental bodies having authority to distribute water, the payment for the water may be made pursuant to contract over a period not exceeding twenty-five years from the date of delivery. In all other cases, the department shall obtain payment for waters prior to its delivery to a purchaser. All payments received shall be deposited into the state emergency water projects bond redemption fund of 1977.

(2) Public bodies, eligible to obtain funds through grants or loans or combinations thereof under the provisions of *RCW 43.83B.300 through 43.83B.345 and 43.83B.210 as now or hereafter amended, are authorized to enter into contracts with the department of ecology for the purpose of repaying loans authorized by RCW 43.83B.380 and 43.83B.385 and for the purpose of purchasing water under this section.

(3) The department of ecology is authorized to enter into appropriate contracts to ensure effective delivery of water and the operation and maintenance of facilities constructed pursuant to *RCW 43.83B.300 through 43.83B.385, 43.83B.901, and 43.83B.210. [1977 ex.s. c 1 § 10.]

***Reviser's note:** RCW 43.83B.305 through 43.83B.330 and 43.83B.340 through 43.83B.344 were repealed by 1989 c 171 § 12.

43.83B.350 Loans or grants from department of ecology—Authorized—Limitations. See RCW 43.83B.210.

43.83B.355 Form, sale, conditions, etc., of bonds—"Water supply facilities for water withdrawal and distribution" defined. The state finance committee is authorized to prescribe the form of the bonds authorized in RCW 43.83B.300, the time of sale of all or any portion or portions of such bonds, and the conditions of sale and issuance thereof.

The bonds shall pledge the full faith and credit of the state of Washington and contain an unconditional promise to pay the principal and interest when due. The committee may provide that the bonds, or any of them, may be called prior to the due date thereof under such terms and conditions as it may determine. The state finance committee may authorize the use of facsimile signatures in the issuance of the bonds.

As used in RCW 43.83B.300, and 43.83B.355 through 43.83B.375, the term "water supply facilities for water withdrawal and distribution" shall mean municipal, industrial, and agricultural water supply and distribution systems including, but not limited to, all equipment, utilities, structures, real property, and interest in and improvements on real property necessary for or incidental to the acquisition, construction, installation, improvement, or use of any water supply or distribution system furnishing water for agricultural, municipal or industrial purposes. [1977 ex.s. c 1 § 12.]

The proceeds from the sale of bonds authorized by RCW 43.83B.300, and 43.83B.355 through 43.83B.375 shall be deposited in the state emergency water projects revolving account, hereby created in the state treasury, and shall be used exclusively for the purposes specified in RCW 43.83B.300, and 43.83B.355 through 43.83B.375 and for the payment of expenses incurred in the issuance and sale of such bonds. During the 2009-2011 fiscal biennium, the legislature may transfer from the state emergency water projects revolving account to the state general fund such amounts as reflect the excess fund balance of the account. [2009 c 564 § 938; 1991 sp.s. c 13 § 33; 1985 c 57 § 46; 1977 ex.s. c 1 § 13.]

43.83B.365 Administration of proceeds from sale of bonds. The principal proceeds from the sale of the bonds authorized in RCW 43.83B.300, and 43.83B.355 through 43.83B.375 shall be administered by the director of the department of ecology. [1977 ex.s. c 1 § 14.]

43.83B.370 Retirement of bonds and notes from emergency water projects bond redemption fund—Remedies of bond holders. The state finance committee, on or before June 30th of each year, shall certify to the state treasurer the

amount needed in the ensuing twelve months, to meet bond retirement and interest requirements. Not less than thirty days prior to the date on which any such interest or principal and interest payment is due, the state treasurer shall withdraw from any general state revenues received in the state treasury and deposit in the 1977 emergency water projects bond redemption fund an amount equal to the amount certified by the state finance committee to be due on such payment date.

The owner and holder of each of the bonds or the trustee for any of the bonds, by mandamus or other appropriate proceeding, may require and compel the transfer and payment of funds as directed herein. [1977 ex.s. c 1 § 15.]

43.83B.375 Bonds legal investment for public funds. The bonds authorized by RCW 43.83B.300, and 43.83B.355 through 43.83B.375 shall be a legal investment for all state funds under state control and all funds of municipal corporations. [1977 ex.s. c 1 § 16.]

43.83B.380 Appropriations to department of health—Authorized projects—Conditions. Prior to the expenditure of funds for projects approved by the department, the department shall file a listing of the approved projects with the senate ways and means committee and the house appropriations committee.

(2) There is hereby appropriated to the department of health the sum of five million three hundred twenty-seven thousand dollars, or so much thereof as may be necessary, for the biennium ending June 30, 1977, from the general fund—state and local improvements revolving account—water supply facilities to be expended for municipal and industrial water supply and distribution facility projects for which applications are in progress on March 25, 1977 and have arisen from the drought forecast for the summer and fall of 1977. Prior to the expenditure of funds for projects approved by the department, the department shall file a listing of the approved projects with the senate ways and means committee and the house appropriations committee.

The municipal and industrial water supply and distribution facilities receiving funds from the appropriations contained in this section shall comply with the eligible costs criteria, health and design standards, and contract performance requirements of the municipal and industrial funding program under chapter 43.83B RCW. All projects shall be evaluated by applying the said chapter's evaluation and prioritization criteria to insure that only projects related to water shortage problems receive funding. The projects funded shall be limited to those projects providing interties with adjacent utilities, an expanded source of supply, conservation projects which will conserve or maximize efficiency of the existing

supply, or a new source of supply. No obligation to provide a grant for a project authorized under this section shall be incurred after June 30, 1977. [1991 c 3 § 300; 1977 ex.s. c 1 § 17.]

***Reviser's note:** RCW 43.83B.305 through 43.83B.330 and 43.83B.340 through 43.83B.344 were repealed by 1989 c 171 § 12.

43.83B.385 Appropriations to department of ecology—Authorized projects—Findings. (1) There is hereby appropriated to the department of ecology for the biennium ending June 30, 1977, from the state emergency water projects revolving account in the general fund, the sum of seven million dollars, or so much thereof as may be necessary, which shall be expended for the financing of the following agricultural water supply and distribution projects from surface water sources: Kennewick Irrigation District; Kittitas Reclamation District; Stemilt Irrigation District; Wenatchee Heights Reclamation District; and the Wenatchee Reclamation District.

(2) There is hereby appropriated to the department of ecology for the biennium ending June 30, 1977, from the state emergency water projects revolving account in the general fund, the sum of five million dollars, or so much thereof as may be necessary, which shall be expended for the financing and construction of agricultural water supply and distribution projects from groundwater sources primarily in the Moxee-Ahtanum and Park Creek aquifer areas.

(3) There is hereby appropriated to the department of ecology for the biennium ending June 30, 1977, from the state emergency water supply revolving account in the general fund the sum of six million dollars, or so much thereof as may be necessary, which shall be expended for water withdrawal projects relating to ground and surface waters as provided for in subsections (1) and (2) of this section and for the financing and construction of agricultural water supply and distribution projects from ground and surface water sources which may become required by public bodies other than those identified in this section as a result of the drought forecast for the summer and fall of 1977.

The department may expend funds from the appropriations contained in subsections (1), (2), and (3) of this section to make loans or combinations of loans and grants to public bodies as defined in RCW 43.83B.050. The grant portion of a combination loan and grant to a public body for any project shall not exceed fifteen percent of the total amount received by such project under this section.

The department may expend funds from the appropriations contained in subsections (1), (2), and (3) of this section to make loans or combinations of loans and grants to public bodies as defined in RCW 43.83B.050 to satisfy the matching requirements of RCW 43.83B.210 as now or hereafter amended.

Prior to the funding of any agriculture projects not specifically set forth in this section the department must make a formal finding that: An emergency water shortage condition exists; the project proposed for funding will alleviate the water shortage; the public body recipient of any funds has reasonable capability to repay the loan involved; and the water from the project will be used for a beneficial purpose as a substitute for water not available due to drought conditions. [1977 ex.s. c 1 § 18.]

(2010 Ed.)

43.83B.400 Drought conditions—Defined—Intent. It is the intent of the legislature to provide emergency powers to the department of ecology to enable it to take actions, in a timely and expeditious manner, that are designed to alleviate hardships and reduce burdens on various water users and uses arising from drought conditions. As used in this chapter, "drought condition" means that the water supply for a geographical area or for a significant portion of a geographical area is below seventy-five percent of normal and the water shortage is likely to create undue hardships for various water uses and users. [1989 c 171 § 1.]

43.83B.405 Drought conditions—Withdrawals and diversions—Orders, procedure. (1) Whenever it appears to the department of ecology that a drought condition either exists or is forecast to occur within the state or portions thereof, the department of ecology is authorized to issue orders, pursuant to rules previously adopted, to implement the powers as set forth in RCW 43.83B.410 through 43.83B.420. The department shall, immediately upon the issuance of an order under this section, cause said order to be published in newspapers of general circulation in the areas of the state to which the order relates. Prior to the issuance of an order, the department shall (a) consult with and obtain the views of the federal and state government entities identified in the drought contingency plan periodically revised by the department pursuant to RCW 43.83B.410(4), and (b) obtain the written approval of the governor. Orders issued under this section shall be deemed orders for the purposes of chapter 34.05 RCW.

(2) Any order issued under subsection (1) of this section shall contain a termination date for the order. The termination date shall be not later than one calendar year from the date the order is issued. Although the department may, with the written approval of the governor, change the termination date by amending the order, no such amendment or series of amendments may have the effect of extending its termination to a date which is later than two calendar years after the issuance of the order.

(3) The provisions of subsection (2) of this section do not preclude the issuance of more than one order under subsection (1) of this section for different areas of the state or sequentially for the same area as the need arises for such an order or orders. [1989 c 171 § 2.]

43.83B.410 Drought conditions—Withdrawals and diversions—Orders, authority granted. Upon the issuance of an order under RCW 43.83B.405, the department of ecology is empowered to:

(1)(a) Authorize emergency withdrawal of public surface and ground waters, including dead storage within reservoirs, on a temporary basis and authorize associated physical works which may be either temporary or permanent. The termination date for the authority to make such an emergency withdrawal may not be later than the termination date of the order issued under RCW 43.83B.405 under which the power to authorize the withdrawal is established. The department of ecology may issue such withdrawal authorization when, after

investigation and after providing appropriate federal, state, and local governmental bodies an opportunity to comment, the following are found:

(i) The waters proposed for withdrawal are to be used for a beneficial use involving a previously established activity or purpose;

(ii) The previously established activity or purpose was furnished water through rights applicable to the use of a public body of water that cannot be exercised due to the lack of water arising from natural drought conditions; and

(iii) The proposed withdrawal will not reduce flows or levels below essential minimums necessary (A) to assure the maintenance of fisheries requirements, and (B) to protect federal and state interests including, among others, power generation, navigation, and existing water rights;

(b) All withdrawal authorizations issued under this section shall contain provisions that allow for termination of withdrawals, in whole or in part, whenever withdrawals will conflict with flows and levels as provided in (a)(iii) of this subsection. Domestic and irrigation uses of public surface and ground waters shall be given priority in determining "beneficial uses." As to water withdrawal and associated works authorized under this subsection, the requirements of chapter 43.21C RCW and public bidding requirements as otherwise provided by law are waived and inapplicable. All state and local agencies with authority to issue permits or other authorizations for such works shall, to the extent possible, expedite the processing of the permits or authorizations in keeping with the emergency nature of the requests and shall provide a decision to the applicant within fifteen calendar days of the date of application. All state departments or other agencies having jurisdiction over state or other public lands, if such lands are necessary to effectuate the withdrawal authorizations issued under this subsection, shall provide short-term easements or other appropriate property interest upon the payment of the fair market value. This mandate shall not apply to any lands of the state that are reserved for a special purpose or use that cannot properly be carried out if the property interest were conveyed;

(2) Approve a temporary change in purpose, place of use, or point of diversion, consistent with existing state policy allowing transfer or lease of waters between willing parties, as provided for in RCW 90.03.380, 90.03.390, and 90.44.100. However, compliance with any requirements of (a) notice of newspaper publication of these sections or (b) the state environmental policy act, chapter 43.21C RCW, is not required when such changes are necessary to respond to drought conditions as determined by the department of ecology. An approval of a temporary change of a water right as authorized under this subsection is not admissible as evidence in either supporting or contesting the validity of water claims in *State of Washington, Department of Ecology v. Acquavella*, Yakima county superior court number 77-2-01484-5 or any similar proceeding where the existence of a water right is at issue.

(3) Employ additional persons for specified terms of time, consistent with the term of a drought condition, as are necessary to ensure the successful performance of the activities associated with implementing the emergency drought program of this chapter.

(4) Revise the drought contingency plan previously developed by the department; and

(5) Acquire needed emergency drought-related equipment. [1989 c 171 § 3.]

43.83B.415 Drought conditions—Loans and grants.

(1) The department of ecology is authorized to make loans, grants, or combinations of loans and grants from emergency agricultural water supply funds when necessary to provide water to alleviate emergency drought conditions in order to ensure the survival of irrigated crops and the state's fisheries. For the purposes of this section, "emergency agricultural water supply funds" means funds appropriated from the state emergency water projects revolving account created under RCW 43.83B.360. The department of ecology may make the loans, grants, or combinations of loans and grants as matching funds in any case where federal, local, or other funds have been made available on a matching basis. The department may make a loan of up to ninety percent of the total eligible project cost or combination loan and grant up to one hundred percent of the total single project cost. The grant portion for any single project shall not exceed twenty percent of the total project cost except that, for activities forecast to have fifty percent or less of normal seasonal water supply, the grant portion for any single project or entity shall not exceed forty percent of the total project cost. No single entity shall receive more than ten percent of the total emergency agricultural water supply funds available for drought relief. These funds shall not be used for nonagricultural drought relief purposes unless there are no other capital budget funds available for these purposes. In any biennium the total expenditures of emergency agricultural water supply funds for nonagricultural drought relief purposes may not exceed ten percent of the total of such funds available during that biennium.

(2)(a) Except as provided in (b) of this subsection, after June 30, 1989, emergency agricultural water supply funds, including the repayment of loans and any accrued interest, shall not be used for any purpose except during drought conditions as determined under RCW 43.83B.400 and 43.83B.405.

(b) Emergency agricultural water supply funds may be used on a one-time basis for the development of procedures to be used by state governmental entities to implement the state's drought contingency plan. [1989 c 171 § 4.]

(1) Authorize any interference whatsoever with existing water rights;

(2) Authorize the establishment of rights to withdrawal of waters of a permanent nature or of rights with any priority;

(3) Authorize the establishment of a water right under RCW 90.03.250 or 90.44.060;

(4) Preclude any person from filing an application pursuant to RCW 90.03.250 or 90.44.060. [1989 c 171 § 6.]

All receipts from appropriated funds designated for the account and funds transferred from the state emergency water projects revolving account must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for drought preparedness. During the 2001-2003 fiscal biennium, the legislature may transfer from the state drought preparedness account to the state general fund such amounts as reflect the excess fund balance of the account. Findings—Intent—2003 c 150; 2002 c 242: "The legislature finds that the community economic revitalization board plays a valuable and unique role in stimulating and diversifying local economies, attracting private investment, creating new jobs, and generating additional state and local tax revenues by investing in public facilities projects that result in new or expanded economic development. The legislature also finds that it is in the best interest of the state and local communities to secure a stable and dedicated source of funds for the community economic revitalization board. It is the intent of the legislature to establish an ongoing funding source for the community economic revitalization board that will be used exclusively to advance economic development infrastructure. This act provides a partial funding solution by directing that beginning July 1, 2005, the interest earnings generated by the public works assistance account shall be used to fund the community economic revitalization board's financial assistance programs. These funds are not for use other than for the stated purpose and goals of the community economic revitalization board." [2003 c 150 § 1; 2002 c 242 § 1.]

Legislative finding—1999 c 94: "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 § 1.]

Public funds, deposit and investment, public depositories: Chapter 39.58 RCW.

43.86A.010 Finding—Objectives. The legislature finds that a procedure should be established for the management of short term treasury surplus funds by the state treasurer in order to insure a maximum return while they are on deposit in public depositories. The objectives of this procedure are to minimize noninterest earning demand deposits and provide fair compensation to financial institutions for services rendered to the state through the investment of state funds in time deposits. [1983 c 66 § 20; 1973 c 123 § 1.]

Additional notes found at www.leg.wa.gov

43.86A.020 Surplus funds held as demand deposits to be limited. After March 19, 1973, the state treasurer shall limit surplus funds held as demand deposits to an amount necessary for current operating expenses including direct warrant redemption payments, investments and revenue collection. The state treasurer may hold such additional funds as demand deposits as he or she deems necessary to insure efficient treasury management. [2009 c 549 § 5164; 1973 c 123 § 2.]

43.86A.030 Time certificate of deposit investment program—Available funds—Allocation. (1)(a) The state treasurer shall make funds available for a time certificate of deposit investment program according to the following formula: The state treasurer shall apportion to all participating depositories an amount equal to five percent of the three year average mean of general state revenues as certified in accordance with Article VIII, section 1(b) of the state Constitution, or fifty percent of the total surplus treasury investment availability, whichever is less. Within thirty days after certification, an amount equal to those funds determined to be available according to this formula for the time certificate of deposit investment program shall be available for deposit in qualified public depositories. These funds shall be allocated among the participating depositories on a basis to be determined by the state treasurer.

(b) The funds made available by the treasurer for a time certificate of deposit investment program under (a) of this subsection (1) may be provided from either treasury surplus funds or funds held pursuant to chapter 43.250 RCW.

(2) Of all state funds available under this section, the state treasurer may use up to one hundred seventy-five million dollars per year for the purposes of RCW 43.86A.060(2)(c) (i) and (iii) and up to fifteen million dollars per year for the purposes of RCW 43.86A.060(2)(c)(ii). The amounts made available to these public depositories shall be equal to the amounts of outstanding loans made under RCW 43.86A.060.

(3) The formula so devised shall be a matter of public record giving consideration to, but not limited to, deposits,

assets, loans, capital structure, investments, or some combination of these factors. However, if in the judgment of the state treasurer the amount of allocation for certificates of deposit as determined by this section will impair the cash flow needs of the state treasury, the state treasurer may adjust the amount of the allocation accordingly. [2010 c 139 § 1; 2009 c 384 § 2; 2008 c 187 § 2; 2007 c 500 § 1; 2005 c 302 § 2; 1993 c 512 § 33; 1982 c 74 § 1; 1973 c 123 § 3.]

Intent—2005 c 302: "The legislature intends that funds provided under the linked deposit program shall be used to create jobs and economic opportunity as well as to remedy the problem of a lack of access to capital by minority and women's business enterprises." [2005 c 302 § 1.]

43.86A.040 Other investment powers of state treasurer not limited. Except as provided in RCW 43.86A.020 and 43.86A.030, nothing in this chapter shall be construed as a limitation upon the powers of the state treasurer to determine the amount of surplus treasury funds which may be invested in time certificates of deposit. [1973 c 123 § 4.]

43.86A.050 Implementation of chapter by state treasurer. The state treasurer shall devise the necessary formulae and methodology to implement the provisions of this chapter. Periodically, but at least once every six months, the state treasurer shall review all rules and shall adopt, amend or repeal them as may be necessary. These rules and a list of time certificate of deposit allocations shall be published in the treasurer's monthly financial report as required under the provisions of RCW 43.08.150. [1973 c 123 § 5.]

43.86A.060 Linked deposit program—Eligible entities—Interest rates—Rule-making authority. (1) The state treasurer shall establish a linked deposit program for investment of deposits in qualified public depositories. As a condition of participating in the program, qualified public depositories must make qualifying loans as provided in this section. The state treasurer may purchase a certificate of deposit that is equal to the amount of the qualifying loan made by the qualified public depository or may purchase a certificate of deposit that is equal to the aggregate amount of two or more qualifying loans made by one or more qualified public depositories.

(2) Qualifying loans made under this section are those:

(a) Having terms that do not exceed ten years;

(b) Where an individual loan does not exceed one million dollars;

(c)(i) That are made to a minority or women's business enterprise that has received state certification under chapter 39.19 RCW;

(ii) That are made to a veteran-owned business that has received state certification under RCW 43.60A.190; or

(iii) That are made to a community development financial institution that is: (A) Certified by the United States department of the treasury pursuant to 12 U.S.C. Sec. 4701 et seq.; and (B) using that loan to make qualifying loans under (c)(i) of this subsection;

(d) Where the interest rate on the loan to the minority or women's business enterprise or veteran-owned business does not exceed an interest rate that is two hundred basis points below the interest rate the qualified public depository would charge for a loan for a similar purpose and a similar term,

except that, if the preference given by the state treasurer to the qualified public depository under subsection (3) of this section is less than two hundred basis points, the qualified public depository may reduce the preference given on the loan by an amount that corresponds to the reduction in preference below two hundred basis points given to the qualified public depository; and

(e) Where the points or fees charged at loan closing do not exceed one percent of the loan amount.

(3) In setting interest rates of time certificate of deposits, the state treasurer shall offer rates so that a two hundred basis point preference will be given to the qualified public depository, except that the treasurer may lower the amount of the preference to ensure that the effective interest rate on the deposit is not less than zero percent.

(4) Upon notification by the state treasurer that a minority or women's business enterprise is no longer certified under chapter 39.19 RCW or that a veteran-owned business is no longer certified under RCW 43.60A.190, the qualified public depository shall reduce the amount of qualifying loans by the outstanding balance of the loan made under this section to the minority or women's business enterprise or the veteran-owned business, as applicable.

(5) The office of minority and women's business enterprises has the authority to adopt rules to:

(a) Ensure that when making a qualified loan under the linked deposit program, businesses that have never received a loan under the linked deposit program are given first priority;

(b) Limit the total principal loan amount that any one business receives in qualified loans under the linked deposit program over the lifetime of the businesses;

(c) Limit the total principal loan amount that an owner of one or more businesses receives in qualified loans under the linked deposit program during the owner's lifetime;

(d) Limit the total amount of any one qualified loan made under the linked deposit program; and

(e) Ensure that loans made by community development financial institutions are qualifying loans under subsection (2)(c)(i) of this section. [2009 c 385 § 3; 2009 c 384 § 1; 2008 c 187 § 3; 2007 c 500 § 2; 2005 c 302 § 3; 2002 c 305 § 1; 1993 c 512 § 30.]

Reviser's note: This section was amended by 2009 c 384 § 1 and by 2009 c 385 § 3, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Intent—2005 c 302: See note following RCW 43.86A.030.

Finding—Intent—1993 c 512: "The legislature finds that minority and women's business enterprises have been historically excluded from access to capital in the marketplace. The lack of capital has been a major barrier to the development and expansion of business by various minority groups and women. There has been a significant amount of attention on the capital needs of minority and women's business enterprises. It is the intent of the legislature to remedy the problem of a lack of access to capital by minority and women's business enterprises, and other small businesses by authorizing the state treasurer to operate a program that links state deposits to business loans by financial institutions to minority and women's business enterprises." [1993 c 512 § 29.]

43.86A.070 Linked deposit program—Liability. The state and those acting as its agents are not liable in any manner for payment of the principal or interest on qualifying loans made under RCW 43.86A.060. Any delay in payments or defaults on the part of the borrower does not in any manner

affect the deposit agreement between the qualified public depository and the state treasurer. [1993 c 512 § 34.]

Finding—Intent—1993 c 512: See note following RCW 43.86A.060.

43.86A.080 Linked deposit program—Minority and women’s business enterprises—Public depositories’ participation. Public depositories participating in the linked deposit program are encouraged to increase the funds available to certified minority and women’s business enterprises by taking full advantage of the linked deposit program loans to qualify for the community reinvestment act community programs under federal law (12 U.S.C. Sec. 2901 et seq.). [2005 c 302 § 4.]

Intent—2005 c 302: See note following RCW 43.86A.030.

43.88.005 Finding—Intent. The legislature finds that agency missions, goals, and objectives should focus on statewide results. It is the intent of the legislature to focus the biennial budget on how state agencies produce real results that reflect the goals of statutory programs. Specifically, budget managers and the legislature must have the data to move toward better statewide results that produce the intended public benefit. This data must be supplied in an impartial, quantifiable form, and demonstrate progress toward statewide results. With a renewed focus on achieving

true results, state agencies, the office of financial management, and the legislature will be able to prioritize state resources. [2005 c 386 § 1.]

43.88.010 Purpose—Intent. It is the purpose of this chapter to establish an effective state budgeting, accounting, and reporting system for all activities of the state government, including both capital and operating expenditures; to prescribe the powers and duties of the governor as these relate to securing such fiscal controls as will promote effective budget administration; and to prescribe the responsibilities of agencies of the executive branch of the state government.

It is the intent of the legislature that the powers conferred by this chapter, as amended, shall be exercised by the executive in cooperation with the legislature and its standing, special, and interim committees in its status as a separate and coequal branch of state government. [1986 c 215 § 1; 1981 c 270 § 1; 1973 1st ex.s. c 100 § 1; 1965 c 8 § 43.88.010. Prior: 1959 c 328 § 1.]

three months before agency budget documents are due into the office of financial management. The budget document or documents shall consist of the governor's budget message which shall be explanatory of the budget and shall contain an outline of the proposed financial policies of the state for the ensuing fiscal period, as well as an outline of the proposed six-year financial policies where applicable, and shall describe in connection therewith the important features of the budget. However, the estimated revenues and caseloads for use in the governor's budget document may be adjusted to reflect budgetary revenue transfers and revenue and caseload estimates dependent upon budgetary assumptions of enrollments, workloads, and caseloads. All adjustments to the approved estimated revenues and caseloads must be set forth in the budget document. (2) The budget document or documents shall include detailed estimates of all anticipated revenues applicable to proposed operating or capital expenditures and shall also include all proposed operating or capital expenditures. The total of beginning undesignated fund balance and estimated revenues less working capital and other reserves shall equal or exceed the total of proposed applicable expenditures. The budget document or documents shall further include:

(a) Interest, amortization and redemption charges on the state debt;

(b) Payments of all reliefs, judgments, and claims;

(c) Other statutory expenditures;

(d) Expenditures incident to the operation for each agency;

(e) Revenues derived from agency operations;

(f) Expenditures and revenues shall be given in comparative form showing those incurred or received for the immediately past fiscal period and those anticipated for the current biennium and next ensuing biennium;

(g) A showing and explanation of amounts of general fund and other funds obligations for debt service and any transfers of moneys that otherwise would have been available for appropriation;

(h) Common school expenditures on a fiscal-year basis;

(i) A showing, by agency, of the value and purpose of financing contracts for the lease/purchase or acquisition of personal or real property for the current and ensuing fiscal periods; and

Omnibus lists of habitat and recreation land acquisitions shall include individual project cost estimates for operation and maintenance as well as a total for all state projects included in the list. The document shall identify the source of funds from which the operation and maintenance costs are proposed to be funded;

(q) Such other information bearing upon capital projects as the governor deems to be useful;

43.88.035 Changes in accounting methods, practices or statutes—Explanation in budget document or appendix required—Contents. Any changes in accounting meth-

ods and practices or in statutes affecting expenditures or revenues for the ensuing biennium relative to the then current fiscal period which the governor may wish to recommend shall be clearly and completely explained in the text of the budget document, in a special appendix thereto, or in an alternative budget document. This explanatory material shall include, but need not be limited to, estimates of revenues and expenditures based on the same accounting practices and methods and existing statutes relating to revenues and expenditure effective for the then current fiscal period, together with alternative estimates required by any changes in accounting methods and practices and by any statutory changes the governor may wish to recommend. 43.88.050 Cash deficit. Cash deficit of the current fiscal period is defined for purposes of this chapter as the amount by which the aggregate of disbursements charged to a fund will exceed the aggregate of estimated receipts credited to such fund in the current fiscal period, less the extent to which such deficit may have been provided for from available beginning cash surplus.

If, for any applicable fund or account, the estimated receipts for the next ensuing period plus cash beginning balances is less than the aggregate of estimated disbursements proposed by the governor for the next ensuing fiscal period, the governor shall include in Part I of the budget document proposals as to the manner in which the anticipated cash deficit shall be met, whether by an increase in the indebtedness of the state, by the imposition of new taxes, by increases in tax rates or an extension thereof, or in any like manner. The governor may propose orderly liquidation of the anticipated cash deficit over a period of one or more fiscal periods, if, in the governor's discretion, such manner of liquidation would best serve the public interest. [1987 c 502 § 4; 1965 c 8 § 43.88.050. Prior: 1959 c 328 § 5.]

Exception: RCW 43.88.265.

43.88.060 Legislative review of budget document and budget bill or bills—Time for submission. The governor shall submit the budget document for the 1975-77 biennium and each succeeding biennium to the legislature no later than the twentieth day of December in the year preceding the session during which the budget is to be considered: PROVIDED, That where a budget document is submitted for a fis-

[1965 c 8 § 43.88.070. Prior: 1959 c 328 § 7.]

43.88.080 Adoption of budget. Adoption of the omnibus appropriation bill or bills by the legislature shall constitute adoption of the budget and the making of appropriations therefor. Prior: 1959 c 328 § 8.]

43.88.090 Development of budget—Detailed estimates—Mission statement, measurable goals, quality and productivity objectives—Integration of strategic plans and performance assessment procedures—Reviews by office of financial management—Governor-elect input. (1) For purposes of developing budget proposals to the legislature, the governor shall have the power, and it shall be the governor's duty, to require from proper agency officials such detailed estimates and other information in such form and at such times as the governor shall direct. The governor shall communicate statewide priorities to agencies for use in developing biennial budget recommendations for their agency and shall seek public involvement and input on these priorities. The estimates for the legislature and the judiciary shall be transmitted to the governor and shall be included in the budget without revision. The estimates for state pension contributions shall be based on the rates provided in chapter 41.45 RCW. Copies of all such estimates shall be transmitted to the standing committees on ways and means of the house and senate at the same time as they are filed with the governor and the office of financial management.

The estimates shall include statements or tables which indicate, by agency, the state funds which are required for the receipt of federal matching revenues. The estimates shall be revised as necessary to reflect legislative enactments and adopted appropriations and shall be included with the initial biennial allotment submitted under RCW 43.88.110. The estimates must reflect that the agency considered any alternatives to reduce costs or improve service delivery identified in the findings of a performance audit of the agency by the joint legislative audit and review committee. Nothing in this sub-

section requires performance audit findings to be published as part of the budget.

(2) Each state agency shall define its mission and establish measurable goals for achieving desirable results for those who receive its services and the taxpayers who pay for those services. Each agency shall also develop clear strategies and timelines to achieve its goals. This section does not require an agency to develop a new mission or goals in place of identifiable missions or goals that meet the intent of this section. The mission and goals of each agency must conform to statutory direction and limitations.

(3) For the purpose of assessing activity performance, each state agency shall establish quality and productivity objectives for each major activity in its budget. The objectives must be consistent with the missions and goals developed under this section. The objectives must be expressed to the extent practicable in outcome-based, objective, and measurable form unless an exception to adopt a different standard is granted by the office of financial management and approved by the legislative committee on performance review. Objectives must specifically address the statutory purpose or intent of the program or activity and focus on data that measure whether the agency is achieving or making progress toward the purpose of the activity and toward statewide priorities. The office of financial management shall provide necessary professional and technical assistance to assist state agencies in the development of strategic plans that include the mission of the agency and its programs, measurable goals, strategies, and performance measurement systems.

(4) Each state agency shall adopt procedures for and perform continuous self-assessment of each activity, using the mission, goals, objectives, and measurements required under subsections (2) and (3) of this section. The assessment of the activity must also include an evaluation of major information technology systems or projects that may assist the agency in achieving or making progress toward the activity purpose and statewide priorities. The evaluation of proposed major information technology systems or projects shall be in accordance with the standards and policies established by the information services board. Agencies' progress toward the mission, goals, objectives, and measurements required by subsections (2) and (3) of this section is subject to review as set forth in this subsection.

(a) The office of financial management shall regularly conduct reviews of selected activities to analyze whether the objectives and measurements submitted by agencies demonstrate progress toward statewide results.

(b) The office of financial management shall consult with the higher education coordinating board and the state board for community and technical colleges in those reviews that involve institutions of higher education.

(c) The goal is for all major activities to receive at least one review each year.

(d) The office of financial management shall consult with the information services board when conducting reviews of major information technology systems in use by state agencies. The goal is that reviews of these information technology systems occur periodically.

(5) It is the policy of the legislature that each agency's budget recommendations must be directly linked to the

agency's stated mission and program, quality, and productivity goals and objectives. Consistent with this policy, agency budget proposals must include integration of performance measures that allow objective determination of an activity's success in achieving its goals. When a review under subsection (4) of this section or other analysis determines that the agency's objectives demonstrate that the agency is making insufficient progress toward the goals of any particular program or is otherwise underachieving or inefficient, the agency's budget request shall contain proposals to remedy or improve the selected programs. The office of financial management shall develop a plan to merge the budget development process with agency performance assessment procedures. The plan must include a schedule to integrate agency strategic plans and performance measures into agency budget requests and the governor's budget proposal over three fiscal biennia. The plan must identify those agencies that will implement the revised budget process in the 1997-1999 biennium, the 1999-2001 biennium, and the 2001-2003 biennium. In consultation with the legislative fiscal committees, the office of financial management shall recommend statutory and procedural modifications to the state's budget, accounting, and reporting systems to facilitate the performance assessment procedures and the merger of those procedures with the state budget process. The plan and recommended statutory and procedural modifications must be submitted to the legislative fiscal committees by September 30, 1996.

(6) In reviewing agency budget requests in order to prepare the governor's biennial budget request, the office of financial management shall consider the extent to which the agency's activities demonstrate progress toward the statewide budgeting priorities, along with any specific review conducted under subsection (4) of this section.

(7) In the year of the gubernatorial election, the governor shall invite the governor-elect or the governor-elect's designee to attend all hearings provided in RCW 43.88.100; and the governor shall furnish the governor-elect or the governor-elect's designee with such information as will enable the governor-elect or the governor-elect's designee to gain an understanding of the state's budget requirements. The governor-elect or the governor-elect's designee may ask such questions during the hearings and require such information as the governor-elect or the governor-elect's designee deems necessary and may make recommendations in connection with any item of the budget which, with the governor-elect's reasons therefor, shall be presented to the legislature in writing with the budget document. Copies of all such estimates and other required information shall also be submitted to the standing committees on ways and means of the house and senate. [2005 c 386 § 2; 1997 c 372 § 1; 1996 c 317 § 10; 1994 c 184 § 10; 1993 c 406 § 3; 1989 c 273 § 26; 1987 c 505 § 35; 1984 c 247 § 3; 1981 c 270 § 4; 1979 c 151 § 137; 1975 1st ex.s. c 293 § 5; 1973 1st ex.s. c 100 § 6; 1965 c 8 § 43.88.090. 43.88.092 Information technology budget detail—Information technology plan—Accounting method for information technology. (1) As part of the biennial budget process, the office of financial management shall collect from

agencies, and agencies shall provide, information to produce reports, summaries, and budget detail sufficient to allow review, analysis, and documentation of all current and proposed expenditures for information technology by state agencies. Information technology budget detail must be included as part of the budget submittal documentation required pursuant to RCW 43.88.030.

(2) The office of financial management must collect, and present as part of the biennial budget documentation, information for all existing information technology projects as defined by information services board policy. The office of financial management must work with the department of information services to maximize the ability to draw this information from the information technology portfolio management data collected by the department of information services pursuant to RCW 43.105.170. Connecting project information collected through the portfolio management process with financial data developed under subsection (1) of this section provides transparency regarding expenditure data for existing technology projects.

(3) The biennial budget documentation submitted by the office of financial management pursuant to RCW 43.88.030 must include an information technology plan identifying proposed large information technology projects. This plan must be presented using a method similar to the capital budget, identifying project costs through stages of the project and across fiscal periods and biennia from project initiation to implementation. This information must be submitted electronically, in a format to be determined by the office of financial management and the legislative evaluation and accountability program committee.

(4) The office of financial management shall also institute a method of accounting for information technology-related expenditures, including creating common definitions for what constitutes an information technology investment. [2010 c 282 § 3.]

43.88.100 Executive hearings. The governor may provide for hearings on all agency requests for expenditures to enable him or her to make determinations as to the need, value or usefulness of activities or programs requested by agencies. The governor may require the attendance of proper agency officials at his or her hearings and it shall be their duty to disclose such information as may be required to enable the governor to arrive at his or her final determination. [2009 c 549 § 5165; 1965 c 8 § 43.88.100. Prior: 1959 c 328 § 10.]

43.88.110 Expenditure programs—Allotments—Reserves—Monitor capital appropriations—Predesign review for major capital construction. This section sets forth the expenditure programs and the allotment and reserve procedures to be followed by the executive branch for public funds.

(1) Allotments of an appropriation for any fiscal period shall conform to the terms, limits, or conditions of the appropriation.

(2) The director of financial management shall provide all agencies with a complete set of operating and capital instructions for preparing a statement of proposed expenditures at least thirty days before the beginning of a fiscal

period. The set of instructions need not include specific appropriation amounts for the agency.

(3) Within forty-five days after the beginning of the fiscal period or within forty-five days after the governor signs the omnibus biennial appropriations act, whichever is later, all agencies shall submit to the governor a statement of proposed expenditures at such times and in such form as may be required by the governor.

(4) The office of financial management shall develop a method for monitoring capital appropriations and expenditures that will capture at least the following elements:

(a) Appropriations made for capital projects including transportation projects;

(b) Estimates of total project costs including past, current, ensuing, and future biennial costs;

(c) Comparisons of actual costs to estimated costs;

(d) Comparisons of estimated construction start and completion dates with actual dates;

(e) Documentation of fund shifts between projects.

This data may be incorporated into the existing accounting system or into a separate project management system, as deemed appropriate by the office of financial management.

(5) The office of financial management, prior to approving allotments for major capital construction projects valued over five million dollars, shall institute procedures for reviewing such projects at the predesign stage that will reduce long-term costs and increase facility efficiency. The procedures shall include, but not be limited to, the following elements:

(a) Evaluation of facility program requirements and consistency with long-range plans;

(b) Utilization of a system of cost, quality, and performance standards to compare major capital construction projects; and

(c) A requirement to incorporate value-engineering analysis and constructability review into the project schedule.

(6) No expenditure may be incurred or obligation entered into for such major capital construction projects including, without exception, land acquisition, site development, predesign, design, construction, and equipment acquisition and installation, until the allotment of the funds to be expended has been approved by the office of financial management. This limitation does not prohibit the continuation of expenditures and obligations into the succeeding biennium for projects for which allotments have been approved in the immediate prior biennium.

(7) If at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, the governor shall make across-the-board reductions in allotments for that particular fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods. Except for the legislative and judicial branches and other agencies headed by elective officials, the governor shall review the statement of proposed operating expenditures for reasonableness and conformance with legislative intent. The governor may request corrections of proposed allotments submitted by the legislative and judicial branches and agencies headed by elective officials if those proposed allotments contain significant technical errors. Once the governor approves the proposed allotments, further

revisions may at the request of the office of financial management or upon the agency's initiative be made on a quarterly basis and must be accompanied by an explanation of the reasons for significant changes. However, changes in appropriation level authorized by the legislature, changes required by across-the-board reductions mandated by the governor, changes caused by executive increases to spending authority, and changes caused by executive decreases to spending authority for failure to comply with the provisions of chapter 36.70A RCW may require additional revisions. Revisions shall not be made retroactively. However, the governor may assign to a reserve status any portion of an agency appropriation withheld as part of across-the-board reductions made by the governor and any portion of an agency appropriation conditioned on a contingent event by the appropriations act. The governor may remove these amounts from reserve status if the across-the-board reductions are subsequently modified or if the contingent event occurs. The director of financial management shall enter approved statements of proposed expenditures into the state budgeting, accounting, and reporting system within forty-five days after receipt of the proposed statements from the agencies. If an agency or the director of financial management is unable to meet these requirements, the director of financial management shall provide a timely explanation in writing to the legislative fiscal committees.

(8) It is expressly provided that all agencies shall be required to maintain accounting records and to report thereon in the manner prescribed in this chapter and under the regulations issued pursuant to this chapter. Within ninety days of the end of the fiscal year, all agencies shall submit to the director of financial management their final adjustments to close their books for the fiscal year. Prior to submitting fiscal data, written or oral, to committees of the legislature, it is the responsibility of the agency submitting the data to reconcile it with the budget and accounting data reported by the agency to the director of financial management.

(9) The director of financial management may exempt certain public funds from the allotment controls established under this chapter if it is not practical or necessary to allot the funds. Allotment control exemptions expire at the end of the fiscal biennium for which they are granted. The director of financial management shall report any exemptions granted under this subsection to the legislative fiscal committees. [2009 c 518 § 3; 2003 c 206 § 1; 1997 c 96 § 6; 1994 c 219 § 5. 43.88.120 Revenue estimates. Each agency engaged in the collection of revenues shall prepare estimated revenues and estimated receipts for the current and ensuing biennium

43.88.145 Capital projects—Transfer of excess appropriation authority. (1) The capital appropriations act may authorize the governor, through the director of financial management, to transfer the appropriation authority for a capital project that is in excess of the amount required for the completion of the project to another capital project for which the appropriation is insufficient.

(a) No such transfer may be used to expand the capacity or change the intended use of the project beyond that intended by the legislature in making the appropriation.

(b) The transfer may be effected only between capital projects within a specific department, commission, agency, or institution of higher education.

(c) The transfer may be effected only if the project from which the transfer of funds is made is substantially complete and there are funds remaining, or bids have been let on the project from which the transfer of funds is made and it appears to a substantial certainty that the project can be completed within the biennium for less than the amount appropriated.

(2) For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless the legislative history demonstrates that the legislature intended to define the scope of a project in a different way.

(3) The office of financial management shall notify the legislative fiscal committees of the senate and the house of representatives at least thirty days before any transfer is effected under this section except emergency projects or any transfer under two hundred fifty thousand dollars, and shall prepare a report to such committees listing all completed transfers at the close of each fiscal year. 43.88.150 Priority of expenditures—Appropriated and nonappropriated funds—Matching funds, disburse state moneys proportionally. (1) For those agencies that make expenditures from both appropriated and nonappropriated funds for the same purpose, the governor shall direct such agencies to charge their expenditures in such ratio, as between appropriated and nonappropriated funds, as will

conserve appropriated funds. This subsection does not apply to institutions of higher education, as defined in RCW 28B.10.016.

(2) Unless otherwise provided by law, if state moneys are appropriated for a capital project and matching funds or other contributions are required as a condition of the receipt of the state moneys, the state moneys shall be disbursed in proportion to and only to the extent that the matching funds or other contributions have been received and are available for expenditure.

(3) The office of financial management shall adopt guidelines for the implementation of this section. 43.88.160 Fiscal management—Powers and duties of officers and agencies. This section sets forth the major fiscal duties and responsibilities of officers and agencies of the executive branch. The regulations issued by the governor pursuant to this chapter shall provide for a comprehensive, orderly basis for fiscal management and control, including efficient accounting and reporting therefor, for the executive branch of the state government and may include, in addition, such requirements as will generally promote more efficient public management in the state.

(1) Governor; director of financial management. The governor, through the director of financial management, shall devise and supervise a modern and complete accounting system for each agency to the end that all revenues, expenditures, receipts, disbursements, resources, and obligations of the state shall be properly and systematically accounted for. The accounting system shall include the development of accurate, timely records and reports of all financial affairs of the state. The system shall also provide for central accounts in the office of financial management at the level of detail deemed necessary by the director to perform central financial management. The director of financial management shall adopt and periodically update an accounting procedures manual. Any agency maintaining its own accounting and reporting system shall comply with the updated accounting procedures manual and the rules of the director adopted under this chapter. An agency may receive a waiver from complying with this requirement if the waiver is approved by the director. Waivers expire at the end of the fiscal biennium for which they are granted. The director shall forward notice of waivers granted to the appropriate legislative fiscal committees. The director of financial management may require such financial, statistical, and other reports as the director deems necessary from all agencies covering any period.

(2) Except as provided in chapter 43.88C RCW, the director of financial management is responsible for quarterly reporting of primary operating budget drivers such as applicable workloads, caseload estimates, and appropriate unit cost data. These reports shall be transmitted to the legislative fiscal committees or by electronic means to the legislative evaluation and accountability program committee. Quarterly reports shall include actual monthly data and the variance

between actual and estimated data to date. The reports shall also include estimates of these items for the remainder of the budget period.

(3) The director of financial management shall report at least annually to the appropriate legislative committees regarding the status of all appropriated capital projects, including transportation projects, showing significant cost overruns or underruns. If funds are shifted from one project to another, the office of financial management shall also reflect this in the annual variance report. Once a project is complete, the report shall provide a final summary showing estimated start and completion dates of each project phase compared to actual dates, estimated costs of each project phase compared to actual costs, and whether or not there are any outstanding liabilities or unsettled claims at the time of completion.

(4) In addition, the director of financial management, as agent of the governor, shall:

(a) Develop and maintain a system of internal controls and internal audits comprising methods and procedures to be adopted by each agency that will safeguard its assets, check the accuracy and reliability of its accounting data, promote operational efficiency, and encourage adherence to prescribed managerial policies for accounting and financial controls. The system developed by the director shall include criteria for determining the scope and comprehensiveness of internal controls required by classes of agencies, depending on the level of resources at risk.

Each agency head or authorized designee shall be assigned the responsibility and authority for establishing and maintaining internal audits following the standards of internal auditing of the institute of internal auditors;

(b) Make surveys and analyses of agencies with the object of determining better methods and increased effectiveness in the use of manpower and materials; and the director shall authorize expenditures for employee training to the end that the state may benefit from training facilities made available to state employees;

(c) Establish policies for allowing the contracting of child care services;

(d) Report to the governor with regard to duplication of effort or lack of coordination among agencies;

(e) Review any pay and classification plans, and changes thereunder, developed by any agency for their fiscal impact: PROVIDED, That none of the provisions of this subsection shall affect merit systems of personnel management now existing or hereafter established by statute relating to the fixing of qualifications requirements for recruitment, appointment, or promotion of employees of any agency. The director shall advise and confer with agencies including appropriate standing committees of the legislature as may be designated by the speaker of the house and the president of the senate regarding the fiscal impact of such plans and may amend or alter the plans, except that for the following agencies no amendment or alteration of the plans may be made without the approval of the agency concerned: Agencies headed by elective officials;

(f) Fix the number and classes of positions or authorized employee years of employment for each agency and during the fiscal period amend the determinations previously fixed by the director except that the director shall not be empow-

ered to fix the number or the classes for the following: Agencies headed by elective officials;

(g) Adopt rules to effectuate provisions contained in (a) through (f) of this subsection.

(5) The treasurer shall:

(a) Receive, keep, and disburse all public funds of the state not expressly required by law to be received, kept, and disbursed by some other persons: PROVIDED, That this subsection shall not apply to those public funds of the institutions of higher learning which are not subject to appropriation;

(b) Receive, disburse, or transfer public funds under the treasurer's supervision or custody;

(c) Keep a correct and current account of all moneys received and disbursed by the treasurer, classified by fund or account;

(d) Coordinate agencies' acceptance and use of credit cards and other payment methods, if the agencies have received authorization under RCW 43.41.180;

(e) Perform such other duties as may be required by law or by regulations issued pursuant to this law.

It shall be unlawful for the treasurer to disburse public funds in the treasury except upon forms or by alternative means duly prescribed by the director of financial management. These forms or alternative means shall provide for authentication and certification by the agency head or the agency head's designee that the services have been rendered or the materials have been furnished; or, in the case of loans or grants, that the loans or grants are authorized by law; or, in the case of payments for periodic maintenance services to be performed on state owned equipment, that a written contract for such periodic maintenance services is currently in effect; and the treasurer shall not be liable under the treasurer's surety bond for erroneous or improper payments so made. When services are lawfully paid for in advance of full performance by any private individual or business entity other than equipment maintenance providers or as provided for by RCW 42.24.035, such individual or entity other than central stores rendering such services shall make a cash deposit or furnish surety bond coverage to the state as shall be fixed in an amount by law, or if not fixed by law, then in such amounts as shall be fixed by the director of the department of general administration but in no case shall such required cash deposit or surety bond be less than an amount which will fully indemnify the state against any and all losses on account of breach of promise to fully perform such services. No payments shall be made in advance for any equipment maintenance services to be performed more than twelve months after such payment. Any such bond so furnished shall be conditioned that the person, firm or corporation receiving the advance payment will apply it toward performance of the contract. The responsibility for recovery of erroneous or improper payments made under this section shall lie with the agency head or the agency head's designee in accordance with regulations issued pursuant to this chapter. Nothing in this section shall be construed to permit a public body to advance funds to a private service provider pursuant to a grant or loan before services have been rendered or material furnished.

(6) The state auditor shall:

(a) Report to the legislature the results of current post audits that have been made of the financial transactions of

each agency; to this end the auditor may, in the auditor's discretion, examine the books and accounts of any agency, official, or employee charged with the receipt, custody, or safekeeping of public funds. Where feasible in conducting examinations, the auditor shall utilize data and findings from the internal control system prescribed by the office of financial management. The current post audit of each agency may include a section on recommendations to the legislature as provided in (c) of this subsection.

(b) Give information to the legislature, whenever required, upon any subject relating to the financial affairs of the state.

(c) Make the auditor's official report on or before the thirty-first of December which precedes the meeting of the legislature. The report shall be for the last complete fiscal period and shall include determinations as to whether agencies, in making expenditures, complied with the laws of this state. The state auditor is authorized to perform or participate in performance verifications and performance audits as expressly authorized by the legislature in the omnibus biennial appropriations acts or in the performance audit work plan approved by the joint legislative audit and review committee. The state auditor, upon completing an audit for legal and financial compliance under chapter 43.09 RCW or a performance verification, may report to the joint legislative audit and review committee or other appropriate committees of the legislature, in a manner prescribed by the joint legislative audit and review committee, on facts relating to the management or performance of governmental programs where such facts are discovered incidental to the legal and financial audit or performance verification. The auditor may make such a report to a legislative committee only if the auditor has determined that the agency has been given an opportunity and has failed to resolve the management or performance issues raised by the auditor. If the auditor makes a report to a legislative committee, the agency may submit to the committee a response to the report. This subsection (6) shall not be construed to authorize the auditor to allocate other than de minimis resources to performance audits except as expressly authorized in the appropriations acts or in the performance audit work plan. The results of a performance audit conducted by the state auditor that has been requested by the joint legislative audit and review committee must only be transmitted to the joint legislative audit and review committee.

(d) Be empowered to take exception to specific expenditures that have been incurred by any agency or to take exception to other practices related in any way to the agency's financial transactions and to cause such exceptions to be made a matter of public record, including disclosure to the agency concerned and to the director of financial management. It shall be the duty of the director of financial management to cause corrective action to be taken within six months, such action to include, as appropriate, the withholding of funds as provided in RCW 43.88.110. The director of financial management shall annually report by December 31st the status of audit resolution to the appropriate committees of the legislature, the state auditor, and the attorney general. The director of financial management shall include in the audit resolution report actions taken as a result of an audit includ-

ing, but not limited to, types of personnel actions, costs and types of litigation, and value of recouped goods or services.

(e) Promptly report any irregularities to the attorney general.

(f) Investigate improper governmental activity under chapter 42.40 RCW.

(g) In addition to the authority given to the state auditor in this subsection (6), the state auditor is authorized to conduct performance audits identified in RCW 43.09.470. Nothing in this subsection (6) shall limit, impede, or restrict the state auditor from conducting performance audits identified in RCW 43.09.470.

(7) The joint legislative audit and review committee may:

(a) Make post audits of the financial transactions of any agency and management surveys and program reviews as provided for in chapter 44.28 RCW as well as performance audits and program evaluations. To this end the joint committee may in its discretion examine the books, accounts, and other records of any agency, official, or employee.

(b) Give information to the legislature or any legislative committee whenever required upon any subject relating to the performance and management of state agencies.

(c) Make a report to the legislature which shall include at least the following:

(i) Determinations as to the extent to which agencies in making expenditures have complied with the will of the legislature and in this connection, may take exception to specific expenditures or financial practices of any agencies; and

(ii) Such plans as it deems expedient for the support of the state's credit, for lessening expenditures, for promoting frugality and economy in agency affairs, and generally for an improved level of fiscal management. As used in RCW 43.88.290 and 43.88.300 the term "state officer or employee" includes the members of the governing body of any state agency, as state agency is defined in RCW 43.88.020(4) and those generally known as executive management but excludes nonsupervisory state employees covered by civil service under chapters 41.06 and *28B.16 RCW. 43.88.500 State boards, commissions, councils, and committees—Legislative finding and declaration. The legislature finds that members of boards, commissions, councils, and committees in state government make a valuable contribution to the public welfare.

Nevertheless, the legislature also finds that the continued proliferation of both statutory and nonstatutory groups of this nature without effective, periodic review of existing groups can result in wasteful duplication of effort, fragmentation of administrative authority, lack of accountability, plus an excessive and frequently hidden financial burden on the state.

The legislature further finds that effective legislative oversight and review of boards, commissions, councils, and

committees is frustrated by a lack of current and reliable information on the status and activities of such groups.

The legislature declares that legislative oversight and overall accountability in state government can be significantly improved by creating in the office of financial management a central clearinghouse for information on boards, commissions, councils, and committees. [1979 c 151 § 142; 1977 c 23 § 1.]

Termination review: RCW 43.41.220.

(c) Performs licensing, regulatory, or quasi-judicial functions, adopts rules, or has responsibility for the administration or policy direction of a state agency or program.

(3) Such list shall contain the following information for each board, commission, council, committee, or other group of similar nomenclature:

(a) The legal authorization for the creation of the group;

(b) The number of members on the group, the appointing authority, and the agency to which the group reports;

(c) The number of meetings held during the preceding biennium;

(d) A brief summary of the primary responsibilities of the group;

(e) The total estimated cost of operating the group during the preceding biennium and the estimated cost of the group during the ensuing biennium. Such cost data shall include the estimated administrative expenses of the group as well as the estimated cost to an agency of providing full time equivalent or part time supporting staff to the group; and

43.88.515 State boards, commissions, councils, and committees—Agencies to submit lists, information. (1) In order to facilitate the compilation of data required by RCW 43.88.505, each agency of the executive, legislative, and judicial branches of state government shall submit to the director of financial management a current list of the permanent and temporary, statutory and nonstatutory boards, commissions, councils, committees, and other groups of similar nomenclature that report to, or are involved in the operation of, the agency and whose members are eligible to receive travel expenses for their meetings in accordance with RCW 43.03.050 and 43.03.060 as now existing or hereafter amended.

[2010 c 282 § 4; 1992 c 20 § 7.]

cies—Audits. (1) Each state agency shall submit a report to the office of the state auditor listing each nongovernment entity that received over three hundred thousand dollars in state moneys during the previous fiscal year under contract with the agency for purposes related to the provision of social services. (5) The office of the state auditor is required to complete a comprehensive entity-wide audit, in accordance with generally accepted government auditing standards, of each entity selected under subsection (4) of this section. The office of the state auditor may procure the services of a certified public accountant to perform such an audit, as set forth under RCW 43.09.045. The audit shall determine, at a minimum, whether:

If the entity is selected under subsection (4) of this section, the office of the state auditor shall review the single audit to determine if there is evidence of misuse of public moneys.

(7) Completed audits must be delivered to the office of the state auditor and the state agency by April 1 in the year following the selection of the entity for audit. Entities must resolve any findings contained in the audit within six months of the delivery of the audit. Entities may not enter into new contracts with state agencies until all major audit findings are resolved.

Fiscal impact of proposed legislation on political subdivisions: Chapter 43.132 RCW.

43.88A.010 Legislative declaration. The legislature hereby recognizes the necessity of developing a uniform and coordinated procedure for determining the expected fiscal impact of bills and resolutions on state government. The legislature also recognizes that developing such statements of fiscal impact, which shall be known as fiscal notes, requires the designation of a state agency to be principally responsible therefor. [1977 ex.s. c 25 § 1.]

43.88A.020 Preparation—Ongoing cost projections—Duties of office of financial management. The office of financial management shall, in cooperation with appropriate legislative committees and legislative staff, establish a procedure for the provision of fiscal notes on the expected impact of bills and resolutions which increase or decrease or tend to increase or decrease state government revenues or expenditures. Such fiscal notes shall indicate by fiscal year the impact for the remainder of the biennium in which the bill or resolution will first take effect as well as a cumulative forecast of the fiscal impact for the succeeding four fiscal years. Fiscal notes shall separately identify the fiscal impacts on the operating and capital budgets. Estimates of fiscal impacts shall be calculated using the procedures contained in the fiscal note instructions issued by the office of financial management.

In establishing the fiscal impact called for pursuant to this chapter, the office of financial management shall coordinate the development of fiscal notes with all state agencies affected.

The preparation and dissemination of the ongoing cost projections and other requirements of RCW 43.135.031 for bills increasing taxes or fees shall take precedence over fiscal notes. [2008 c 1 § 3 (Initiative Measure No. 960, approved November 6, 2007); 1994 c 219 § 3; 1979 c 151 § 146; 1977 ex.s. c 25 § 2.]

43.88A.030 Distribution of fiscal notes and cost projections. When a fiscal note is prepared and approved as to form, accuracy, and completeness by the office of financial management, which depicts the expected fiscal impact of a bill or resolution, copies shall be filed immediately with:

(1) The chairperson of the committee to which the bill or resolution was referred upon introduction in the house of origin;

(2) The senate committee on ways and means, or its successor; and

(3) The house committees on revenue and appropriations, or their successors.

Whenever possible, such fiscal note and, in the case of a bill increasing taxes or fees, the cost projection and other information required under RCW 43.135.031 shall be provided prior to or at the time the bill or resolution is first heard by the committee of reference in the house of origin.

When a fiscal note has been prepared for a bill or resolution, a copy of the fiscal note shall be placed in the bill books or otherwise attached to the bill or resolution and shall remain with the bill or resolution throughout the legislative process insofar as possible. 43.88A.040 Fiscal notes—Preparation upon request of any legislator. The office of financial management shall also provide a fiscal note on any legislative proposal at the request of any legislator. [1979 c 151 § 148; 1977 ex.s. c 25 § 4.]

43.88A.900 Construction of chapter. Nothing in this chapter shall prevent either house of the legislature from acting on any bill or resolution before it as otherwise provided by the state Constitution, by law, and by the rules and joint rules of the senate and house of representatives, nor shall the lack of any fiscal note as provided in this chapter or any error in the accuracy thereof affect the validity of any measure otherwise duly passed by the legislature. HIGHER EDUCATION CAPITAL PROJECT STRATEGIC PLANNING

43.88D.010 Capital budget projects—Objective analysis and scoring—Prioritized lists.

43.88D.005 Findings—Intent. The legislature finds that the state's public four-year institutions and the higher education coordinating board have made progress in developing a process to create a single prioritized list of capital project requests as required under *RCW 28B.76.220. The legislature also finds that this process requires further refinement to achieve the state's policy objectives as outlined in the higher education coordinating board's strategic master plan for higher education in Washington. The legislature further finds the goal of creating additional, innovative facilities and programs that meet the learning needs of students throughout the state in a timely and cost-effective fashion requires a new approach to facility prioritization that emphasizes strategic planning. The legislature therefore intends to establish a new process for prioritizing capital project requests by the four-year institutions that utilizes the expertise and government-wide perspective of the office of financial management, and that is based upon the model that has been used successfully by the community and technical college system. The new process must emphasize objective analysis, a statewide perspective, and a strategic balance among facility preservation, new construction, and innovative delivery mechanisms. The legislature further recognizes that institutions of higher education are likely to require substantial new capital investments in order to continue to provide a wide range of high quality programs to students and the community, and that the state's ability to provide such resources is constrained by increasing capital expenditure needs within the K-12, public safety, social services, and community economic development arenas. The legislature therefore intends to identify and assess potential alternative means for increasing the capacity of public higher education institutions to meet the demands of the twenty-first century. [2008 c 205 § 1.]

*Reviser's note: RCW 28B.76.220 was repealed by 2008 c 205 § 5.

43.88D.010 Capital budget projects—Objective analysis and scoring—Prioritized lists. (1) By October 1st of each even-numbered year, the office of financial management shall complete an objective analysis and scoring of all

capital budget projects proposed by the public four-year institutions of higher education and submit the results of the scoring process to the legislative fiscal committees, the higher education coordinating board, and the four-year institutions. Each project must be reviewed and scored within one of the following categories, according to the project's principal purpose. Each project may be scored in only one category. The categories are:

(a) Access-related projects to accommodate enrollment growth at main and branch campuses, at existing or new university centers, or through distance learning. Growth projects should provide significant additional student capacity. Proposed projects must demonstrate that they are based on solid enrollment demand projections, more cost-effectively provide enrollment access than alternatives such as university centers and distance learning, and make cost-effective use of existing and proposed new space;

(b) Projects that replace failing permanent buildings. Facilities that cannot be economically renovated are considered replacement projects. New space may be programmed for the same or a different use than the space being replaced and may include additions to improve access and enhance the relationship of program or support space;

(c) Projects that renovate facilities to restore building life and upgrade space to meet current program requirements. Renovation projects should represent a complete renovation of a total facility or an isolated wing of a facility. A reasonable renovation project should cost between sixty to eighty percent of current replacement value and restore the renovated area to at least twenty-five years of useful life. New space may be programmed for the same or a different use than the space being renovated and may include additions to improve access and enhance the relationship of program or support space;

(d) Major stand-alone campus infrastructure projects;

(e) Projects that promote economic growth and innovation through expanded research activity. The acquisition and installation of specialized equipment is authorized under this category; and

(f) Other project categories as determined by the office of financial management in consultation with the legislative fiscal committees.

(2) The office of financial management, in consultation with the legislative fiscal committees, shall establish a scoring system and process for each four-year project category that is based on the framework used in the community and technical college system of prioritization. Staff from the state board for community and technical colleges, the higher education coordinating board, and the four-year institutions shall provide technical assistance on the development of a scoring system and process.

(3) The office of financial management shall consult with the legislative fiscal committees in the scoring of four-year institution project proposals, and may also solicit participation by independent experts.

(a) For each four-year project category, the scoring system must, at a minimum, include an evaluation of enrollment trends, reasonableness of cost, the ability of the project to enhance specific strategic master plan goals, age and condition of the facility if applicable, and impact on space utilization.

(b) Each four-year project category may include projects at the pre-design, design, or construction funding phase.

(c) To the extent possible, the objective analysis and scoring system of all capital budget projects shall occur within the context of any and all performance agreements between the office of financial management and the governing board of a public, four-year institution of higher education that aligns goals, priorities, desired outcomes, flexibility, institutional mission, accountability, and levels of resources.

(4) In evaluating and scoring four-year institution projects, the office of financial management shall take into consideration project schedules that result in realistic, balanced, and predictable expenditure patterns over the ensuing three biennia.

(5) The office of financial management shall distribute common definitions, the scoring system, and other information required for the project proposal and scoring process as part of its biennial budget instructions. The office of financial management, in consultation with the legislative fiscal committees, shall develop common definitions that four-year institutions must use in developing their project proposals and lists under this section.

(6) In developing any scoring system for capital projects proposed by the four-year institutions, the office of financial management:

(a) Shall be provided with all required information by the four-year institutions as deemed necessary by the office of financial management;

(b) May utilize independent services to verify, sample, or evaluate information provided to the office of financial management by the four-year institutions; and

(c) Shall have full access to all data maintained by the higher education coordinating board and the joint legislative audit and review committee concerning the condition of higher education facilities.

(7) By August 1st of each even-numbered year each public four-year higher education institution shall prepare and submit prioritized lists of the individual projects proposed by the institution for the ensuing six-year period in each category. The lists must be submitted to the office of financial management and the legislative fiscal committees. The four-year institutions may aggregate minor works project proposals by primary purpose for ranking purposes. Proposed minor works projects must be prioritized within the aggregated proposal, and supporting documentation, including project descriptions and cost estimates, must be provided to the office of financial management and the legislative fiscal committees. [2010 c 245 § 9; 2008 c 205 § 2.]

STATE PAVILION—BOND ISSUE

43.96B.200 Legislative finding. The legislature finds that an expansion of the state pavilion at Expo '74 initially authorized for construction by the 1971 legislature is consistent with the purposes of the exposition and the needs of the state of Washington in order that the facility produced will both more adequately serve the state during the exposition and as a permanent structure for the benefit of the state afterwards. [1973 1st ex.s. c 116 § 1.]

43.96B.205 Bond issue—Authorized. For the purpose of providing additional space for the Washington State Pavilion at Expo '74 as determined to be necessary by the Expo '74 commission, including the planning, acquisition, construction, remodeling and equipping, together with all improvements and enhancements of said project, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of two million nine hundred thousand dollars, or so much thereof as may be required, to finance the projects defined in RCW 43.96B.200 through 43.96B.245 and all costs incidental thereto. Such bonds shall be paid and discharged within thirty years of the

43.96B.210 Bond issue—Issuance and sale of bonds—Form, terms, conditions, etc.—Authority of state finance committee. The issuance, sale and retirement of said bonds shall be under the supervision and control of the state finance committee. The committee is authorized to prescribe the form, terms, conditions, and covenants of the bonds, the time or times of sale of all or any portion of them, and the conditions and manner of their sale, issuance and redemption. None of the bonds authorized in RCW 43.96B.200 through 43.96B.245 shall be sold for less than the par value thereof.

The committee may provide that the bonds, or any of them, may be called prior to the maturity date thereof under such terms, conditions, and provisions as it may determine and may authorize the use of facsimile signatures in the issuance of such bonds and notes, if any. Such bonds shall be payable at such places as the committee may provide. [1973 1st ex.s. c 116 § 3.]

43.96B.215 Bond issue—Anticipation notes—Disposition of proceeds—Acquisition of property by Expo '74 commission authorized. At the time the state finance committee determines to issue such bonds or a portion thereof, it may, pending the issuing of such bonds, issue, in the name of the state, temporary notes in anticipation of the money to be derived from the sale of the bonds, which notes shall be designated as "anticipation notes". Such portion of the proceeds of the sale of such bonds that may be required for such purpose shall be applied to the payment of the principal of and interest on such anticipation notes which have been issued. The proceeds from the sale of bonds authorized by RCW 43.96B.200 through 43.96B.245 and any interest earned on the interim investment of such proceeds, shall be deposited in the state building construction account of the general fund in the state treasury and shall be used exclusively for the purposes specified in RCW 43.96B.200 through 43.96B.245 and for the payment of expenses incurred in the issuance and sale of the bonds. The Expo '74 commission is hereby authorized to acquire property, real and personal, by lease, purchase[,] condemnation or gift to achieve the objectives of chapters 1, 2, and 3, Laws of 1971 ex. sess., and RCW 43.96B.200 through 43.96B.245. The commission is further directed pursuant to RCW 43.19.450 to utilize the department of general administration services to accomplish the purposes set forth herein. [1973 1st ex.s. c 116 § 4.]

43.96B.220 Bond issue—Administration of proceeds. The principal proceeds from the sale of the bonds or notes deposited in the state building construction account of the general fund shall be administered by the Expo '74 commission. [1973 1st ex.s. c 116 § 5.]

43.96B.225 Bond issue—Redemption fund—Payment of bonds. The state building bond redemption fund, 1973-A, is hereby created in the state treasury, which fund shall be exclusively devoted to the payment of the principal of and interest on the bonds authorized by RCW 43.96B.200 through 43.96B.245. Bonds issued under the provisions of RCW 43.96B.200 through 43.96B.245 shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by a mandamus or other appropriate proceeding require the transfer and payment of funds as directed herein. Outdoor recreational facilities—1963 bond act: Chapter 79A.10 RCW.

43.99A.010 Declaration of purpose. The state of Washington possesses unsurpassed natural wealth in the form of mountains, forests, and waters, ideal not only for recreation, but for supplying the special kind of spiritual regeneration that only close association with the outdoors can provide. As the state grows in population, this wilderness is increasingly threatened; prompt action is necessary to preserve it before much of it permanently disappears. Further, the physical expansion of our cities and towns has made it imperative that outdoor breathing space be set aside and permanently reserved for the people who live in them. Such breathing space may take the form of "green belts" especially planned to relieve the monotony of miles of uninterrupted urban or suburban development, or it may take the form of traditional parks. In any case, it must be acquired as soon as possible,

while land is still available; and where appropriate, this land must be developed in order to meet the recreational needs of growing numbers of potential users. [1967 ex.s. c 126 § 1.]

43.99A.020 General obligation bonds authorized. For the purpose of providing funds for the acquisition and development of outdoor recreational areas and facilities in this state, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of forty million dollars or so much thereof as may be required to finance the projects described in RCW 43.99A.070 and 43.99A.080. These bonds shall be paid and discharged within twenty years of the date of issuance. [1970 ex.s. c 40 § 1; 1967 ex.s. c 126 § 2.]

Additional notes found at www.leg.wa.gov

43.99A.030 Form of bonds—Rate of interest—Sale and issuance. The state finance committee is authorized to prescribe the form of the bonds, the maximum rate of interest the same shall bear, the time of sale of all or any portion of them, and the conditions of their sale and issuance. None of the bonds herein authorized shall be sold for less than their par value. [1970 ex.s. c 40 § 2; 1967 ex.s. c 126 § 3.]

Additional notes found at www.leg.wa.gov

43.99A.040 Full faith and credit of state pledged—Call prior to due date—Facsimile signatures. The bonds shall pledge the full faith and credit of the state of Washington and shall contain an unconditional promise to pay the principal and interest when due. The committee may provide that the bonds, or any of them, may be called prior to their due date under such terms and conditions as it may determine. The state finance committee may authorize the use of facsimile signatures in the issuance of the bonds. [1967 ex.s. c 126 § 4.]

43.99A.050 Disposition of proceeds of sale. The proceeds from the sale of bonds authorized by this chapter shall be deposited in the outdoor recreation account of the general fund and shall be used exclusively for the purposes of carrying out the provisions of the chapter and for payment of the expense incurred in the issuance and sale of the bonds. [1967 ex.s. c 126 § 5.]

43.99A.060 Outdoor recreational bond redemption fund of 1967—Created—Use—Sales tax revenues deposited in. The outdoor recreational bond redemption fund of 1967 is created in the state treasury. This fund shall be exclusively devoted to the payment of interest on and retirement of the bonds authorized by this chapter. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet bond retirement and interest requirements, and on July 1st of each year the state treasurer shall deposit such amount in the outdoor recreational bond redemption fund from moneys transmitted to the state treasurer by the department of revenue and certified by the department of revenue to be sales tax collections. Such amount certified by the state finance committee to the state treasurer shall be a prior charge against all retail sales tax revenues of the state of

Washington, except that portion thereof heretofore pledged for the payment of bond principal and interest.

The owner and holder of each of the bonds or the trustee for any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed herein. [1971 c 37 § 1; 1967 ex.s. c 126 § 6.]

43.99A.070 Proceeds from sale of bonds—Administration—Disposition and use. The proceeds from the sale of bonds deposited in the outdoor recreation account of the general fund under the terms of RCW 43.99A.050 shall be administered by the recreation and conservation funding board. All such proceeds shall be divided into two equal shares. One share shall be allocated for the acquisition and development of outdoor recreation areas and facilities on behalf of the state as the legislature may direct by appropriation. The other share shall be allocated to public bodies as defined in RCW 79A.25.010 for the acquisition and development of outdoor recreational areas and facilities within the jurisdiction of such public bodies. The recreation and conservation funding board is authorized to use or permit the use of any funds derived from the sale of bonds authorized under this chapter as matching funds in any case where federal or other funds are made available on a matching basis for projects within the purposes of this chapter. [2007 c 241 § 8; 1967 ex.s. c 126 § 7.]

Intent—Effective date—2007 c 241: See notes following RCW 79A.25.005.

43.99A.080 Construction of phrase "acquisition and development of outdoor recreational areas and facilities." As used in this chapter, the phrase "acquisition and development of outdoor recreational areas and facilities" shall be liberally construed in accordance with the broad interpretation suggested by RCW 43.99A.010. It shall include, but shall not be limited to, acquisition of fee simple or any lesser interests in land, and the development of outdoor areas and facilities for either a single recreational use or multiple recreational uses. The preservation of land or water areas in an unspoiled or undeveloped state shall be among the alternatives permissible under this chapter. [1967 ex.s. c 126 § 8.]

43.99A.090 Legislature may provide additional means for payment of bonds. The legislature may provide additional means for raising moneys for the payment of the principal and interest of the bonds authorized herein, and this chapter shall not be deemed to provide an exclusive method for such payment. [1967 ex.s. c 126 § 9.]

43.99A.100 Bonds legal investment for funds of state and municipal corporations. The bonds herein authorized shall be a legal investment for all state funds or for funds under state control and for all funds of municipal corporations. [1967 ex.s. c 126 § 10.]

43.99A.110 Referral to electorate. This chapter shall be submitted to the people for their adoption and ratification, or rejection, at the general election to be held in this state on the Tuesday next succeeding the first Monday in November 1968, in accordance with the provisions of section 3, Article (2010 Ed.)

VIII of the Constitution of the state of Washington, and in accordance with the provisions of section 1, Article II of the Constitution of the state of Washington, as amended, and the laws adopted to facilitate the operation thereof. [1967 ex.s. c 126 § 11.]

Reviser's note: Chapter 43.99A RCW was adopted and ratified by the people at the November 5, 1968, general election (Referendum Bill No. 18). Governor's proclamation declaring approval of measure is dated December 5, 1968. State Constitution Art. 2 § 1(d) provides: "... Such measure [initiatives and referendums] shall be in operation on and after the thirtieth day after the election at which it is approved. . . ."

43.99C.070 Transfers of real property and facilities to nonprofit corporations. (1) Public bodies, as defined in RCW 43.99C.020, may transfer without further consideration real property and facilities acquired, constructed, or otherwise improved under this chapter to nonprofit corporations organized to provide services for individuals with physical or mental disabilities, in exchange for the promise to continually operate services benefiting the public on the site, subject to all the conditions in this section. For purposes of this section, "transfer" may include lease renewals. The nonprofit corporation shall use the real property and facilities for the purpose of providing the following limited programs as designated by the department of social and health services: Nonprofit community centers, close-to-home living units, employment and independent living training centers, vocational rehabilitation centers, developmental disabilities training centers, and community homes for individuals with mental illness.

(2) The deed transferring the property in subsection (1) of this section must provide for immediate reversion back to the public body if the nonprofit corporation ceases to use the property for the purposes described in subsection (1) of this section.

(3) The nonprofit corporation is authorized to sell the property transferred to it pursuant to subsection (1) of this section only if all of the following conditions are satisfied: (a) Any such sale must have the prior written approval by the

department of social and health services; (b) all proceeds from such a sale must be applied to the purchase price of a different property or properties of equal or greater value than the original property; (c) any new property or properties must be used for the purposes stated in subsection (1) of this section; (d) the new property or properties must be available for use within one year of sale; and (e) the nonprofit corporation must enter into an agreement with the public entity to reimburse the public entity for the value of the original property at the time of the sale if the nonprofit corporation ceases to use the new property for the purposes described in subsection (1) of this section.

(4) If the nonprofit corporation ceases to use the property for the purposes described in subsection (1) of this section, the property and facilities revert immediately to the public body. The public body shall then determine if the property, or the reimbursed amount in the case of a reimbursement under subsection (3)(e) of this section, may be used by another program as designated by the department of social and health services. These programs have priority in obtaining the property to ensure that the purposes specified in this chapter are carried out. [2006 c 35 § 2.]

Findings—2006 c 35: "The legislature finds that protecting the public health, safety, and welfare by providing services to needy or vulnerable persons is a fundamental purpose of government. The legislature further finds that private nonprofit corporations fill an important public purpose in providing these types of health, safety, and welfare services to our state's residents. Acting through partnerships with governmental entities, these private sector providers are able to increase the amount and quality of these services available to state residents. The legislature finds that ensuring continued provision of these services in the private sector confers a valuable benefit on the public that constitutes consideration for transfer of certain public property and facilities to eligible private nonprofit corporations, subject to restrictions that provide continued protection of the public interest." 43.99F.010 Declaration. The long-range development goals for the state of Washington must include the protection of the resources and environment of the state, the health and safety of its people, and the beneficial uses of water by providing facilities and systems, among others, for the general control, collection, treatment, or disposal of nonradioactive solid and nonradioactive liquid waste materials. The purpose of this chapter is to assist the state and local governments in providing that protection but it is not the purpose of this chapter to provide funding for facilities which encourage development. A high priority in the expenditure of these funds shall be the protection of sole-source aquifers designated pursuant to the federal Safe Drinking Water Act (88 Stat. 1660) which aquifers have been designated as of July 24, 1983. [1983 c 269 § 1; 1980 c 159 § 1.]

43.99F.020 General obligation bonds—Authorized—Issuance, sale, terms—Appropriation required. For the purpose of providing funds to public bodies for the planning, design, acquisition, construction, and improvement of public waste disposal and management facilities, or for purposes of assisting a public body to obtain an ownership interest in waste disposal and management facilities and/or to defray a part of the payments made by a public body to a service provider under a service agreement entered into pursuant to RCW 70.150.060, in this state, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of three hundred thirty million dollars, or so much thereof as may be required, to finance the improvements defined in this chapter and all costs incidental thereto. The department may not use or permit the use of any funds derived from the sale of bonds authorized by this chapter for: (1) the support of a solid waste recycling activity or service in a locale if the department determines that the activity or service is reasonably available to persons within that locale from private enterprise; or (2) the construction of municipal wastewater facilities unless said facilities have been approved by a general purpose unit of local government in accordance with chapter 36.94 RCW, chapter 35.67 RCW, or RCW 57.16.010. These bonds shall be paid and discharged within thirty years of the date of issuance. No bonds authorized by this chapter shall be offered for sale without prior legislative appropriation of the proceeds of the bonds to be sold. [1996 c 230 § 1611; 1990 1st ex.s. c 15 § 9. Prior: 1989 1st ex.s. c 14 § 12; 1989 c 136 § 6; 1987 c 436 § 2; 1980 c 159 § 2.]

43.99F.030 Deposit of proceeds in state and local improvements revolving account, Waste Disposal Facilities, 1980—Use. The proceeds from the sale of bonds authorized by this chapter shall be deposited in the state and local improvements revolving account, Waste Disposal Facilities, 1980 hereby created in the state treasury and shall be used exclusively for the purpose specified in this chapter and for payment of the expenses incurred in the issuance and sale of the bonds. [1991 sp.s. c 13 § 44; 1985 c 57 § 56; 1980 c 159 § 3.]

43.99F.040 Administration of proceeds. The proceeds from the sale of the bonds deposited in the state and local improvements revolving account, Waste Disposal Facilities, 1980 of the general fund under the terms of this chapter shall be administered by the state department of ecology subject to legislative appropriation. The department may use or permit the use of any funds derived from the sale of bonds authorized under this chapter to accomplish the purpose for which the bonds are issued by direct expenditures and by grants or loans to public bodies, including grants to public bodies as cost-sharing funds in any case where federal, local, or other funds are made available on a cost-sharing basis for improvements within the purposes of this chapter. The department shall ensure that funds derived from the sale of bonds authorized under this chapter do not constitute more than seventy-

five percent of the total cost of any waste disposal or management facility. Not more than two percent of the proceeds of the bond issue may be used by the department of ecology in relation to the administration of the expenditures, grants, and loans.

At least one hundred fifty million dollars of the proceeds of the bonds authorized by this chapter shall be used exclusively for waste management systems capable of producing renewable energy or energy savings as a result of the management of the wastes. "Renewable energy" means, but is not limited to, the production of steam, hot water for steam heat, electricity, cogeneration, gas, or fuel through the use of wastes by incineration, refuse-derived fuel processes, pyrolysis, hydrolysis, or bioconversion, and energy savings through material recovery from waste source separation and/or recycling.

Integration of the management and operation of systems for solid waste disposal with systems of liquid waste disposal holds promise of improved waste disposal efficiency and greater environmental protection and restoration. To encourage the planning for and development of such integration, the department may provide for special grant incentives to public bodies which plan for or operate integrated waste disposal management systems.

Funds provided for waste disposal and management facilities under this chapter may be used for payments to a service provider under a service agreement pursuant to RCW 70.150.060. If funds are to be used for such payments, the department may make periodic disbursements to a public body or may make a single lump sum disbursement. Disbursements of funds with respect to a facility owned or operated by a service provider shall be equivalent in value to disbursements that would otherwise be made if that facility were owned or operated by a public body. Payments under this chapter for waste disposal and management facilities made to public bodies entering into service agreements pursuant to RCW 70.150.060 shall not exceed amounts paid to public bodies not entering into service agreements. [1998 c 245 § 80; 1996 c 37 § 1; 1987 c 436 § 3; 1980 c 159 § 4.]

The owner and holder of each of the bonds or the trustee for any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this chapter.

If a debt-limit general fund bond retirement account is created in the state treasury by chapter 456, Laws of 1997 and becomes effective prior to the issuance of any of the bonds authorized by this chapter, the debt-limit general fund bond retirement account shall be used for the purposes of this chapter in lieu of the waste disposal facilities bond redemption fund. The state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of four hundred twelve million three hundred thousand dollars, or so much thereof as may be required, to finance the projects described and authorized by the legislature in the capital and operating appropriations acts for the 1987-1989 fiscal biennium and subsequent fiscal biennia, and all costs incidental thereto.

43.99N.010 Definitions. The definitions in RCW 36.102.010 apply to this chapter. [1997 c 220 § 209 (Referendum Bill No. 48, approved June 17, 1997).]

43.99N.020 General obligation bonds—Certifications by public stadium authority—Obligations of team affiliate. (1) For the purpose of providing funds to pay for operation of the public stadium authority created under RCW 36.102.020, to pay for the preconstruction, site acquisition, design, site preparation, construction, owning, leasing, and equipping of the stadium and exhibition center, and to reimburse the county or the public stadium authority for its direct or indirect expenditures or to repay other indebtedness incurred for these purposes, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of three hundred million dollars, or so much thereof as may be required, for these purposes and all costs incidental thereto. Bonds authorized in this section may be sold at such price as the state finance committee shall determine.

(2) Bonds shall not be issued under this section unless the public stadium authority has certified to the director of financial management that:

(a) A professional football team has made a binding and legally enforceable contractual commitment to play all of its regular season and playoff home games in the stadium and exhibition center, other than games scheduled elsewhere by the league, for a period of time not shorter than the term of the bonds issued or to be issued to finance the initial construction of the stadium and exhibition center;

(b) A team affiliate has entered into one or more binding and legally enforceable contractual commitments with a public stadium authority under RCW 36.102.050 that provide that:

(i) The team affiliate assumes the risks of cost overruns;

(ii) The team affiliate shall raise at least one hundred million dollars, less the amount, if any, raised by the public stadium authority under RCW 36.102.060(15). The total one hundred million dollars raised, which may include cash payments and in-kind contributions, but does not include any interest earned on the escrow account described in RCW 43.99N.030, shall be applied toward the reasonably necessary preconstruction, site acquisition, design, site preparation, construction, and equipping of the stadium and exhibition center, or to any associated public purpose separate from bond-financed expenses. No part of the payment may be made without the consent of the public stadium authority. In any event, all amounts to be raised by the team affiliate under (b)(ii) of this subsection shall be paid or expended before the completion of the construction of the stadium and exhibition center. To the extent possible, contributions shall be structured in a manner that would allow for the issuance of bonds to construct the stadium and exhibition center that are exempt from federal income taxes;

(iii) The team affiliate shall deposit at least ten million dollars into the *youth athletic facility grant account created in RCW 43.99N.060 upon execution of the lease and development agreements in RCW 36.102.060 (7) and (8);

(iv) At least ten percent of the seats in the stadium for home games of the professional football team shall be for sale at an affordable price. For the purposes of this subsection, "affordable price" means that the price is the average of the lowest ticket prices charged by all other national football league teams;

(v) One executive suite with a minimum of twenty seats must be made available, on a lottery basis, as a free upgrade, at home games of the professional football team, to purchasers of tickets that are not located in executive suites or club seat areas;

(vi) A nonparticipatory interest in the professional football team has been granted to the state beginning on the date on which bonds are issued under this section which only entitles the state to receive ten percent of the gross selling price of the interest in the team that is sold if a majority interest or more of the professional football team is sold within twenty-five years of the date on which bonds are issued under the [this] section. The ten percent shall apply to all preceding sales of interests in the team which comprise the majority interest sold. This provision shall apply only to the first sale of such a majority interest. The ten percent must be deposited in the permanent common school fund. If the debt is retired at the time of the sale, then the ten percent may only be used for costs associated with capital maintenance, capital improvements, renovations, reequipping, replacement, and operations of the stadium and exhibition center;

(vii) The team affiliate must provide reasonable office space to the public stadium authority without charge;

(viii) The team affiliate, in consultation with the public stadium authority, shall work with surrounding areas to mitigate the impact of the construction and operation of the stadium and exhibition center with a budget of at least ten million dollars dedicated to area mitigation. For purposes of this subsection, "mitigation" includes, but is not limited to, parking facilities and amenities, neighborhood beautification projects and landscaping, financial grants for neighborhood programs intended to mitigate adverse impacts caused by the construction and operation of the stadium and exhibition center, and mitigation measures identified in the environmental impact statement required for the stadium and exhibition center under chapter 43.21C RCW; and

(ix) Twenty percent of the net profit from the operation of the exhibition facility of the stadium and exhibition center shall be deposited into the permanent common school fund. Profits shall be verified by the public stadium authority. [1997 c 220 § 210 (Referendum Bill No. 48, approved June 17, 1997).]

***Reviser's note:** The "youth athletic facility grant account" was renamed the "youth athletic facility account" by 2000 c 137 § 1.

43.99N.030 Escrow agreement, account—Distributions. On or before August 1, 1997: (1) The state treasurer and a team affiliate or an entity that has an option to become a team affiliate shall enter into an escrow agreement creating an escrow account; and (2) the team affiliate or the entity that has an option to become a team affiliate shall deposit the sum

of fifty million dollars into the escrow account as a credit against the obligation of the team affiliate in RCW 43.99N.020(2)(b)(ii).

The escrow agreement shall provide that the fifty million dollar deposit shall be invested by the state treasurer and shall earn interest. If the stadium and exhibition center project proceeds, then the interest on amounts in the escrow account shall be for the benefit of the state, and all amounts in the escrow account, including all principal and interest, shall be distributed to the stadium and exhibition center account. The escrow agreement shall provide for appropriate adjustments based on amounts previously and subsequently raised by the team affiliate under RCW 43.99N.020(2)(b)(ii) and amounts previously and subsequently raised by the public stadium authority under RCW 36.102.060(15). If the stadium and exhibition center project does not proceed, all principal and the interest in the escrow account shall be distributed to the team affiliate or the entity that has an option to become a team affiliate. [1997 c 220 § 211 (Referendum Bill No. 48, approved June 17, 1997).]

43.99N.040 Stadium and exhibition center construction account. The proceeds from the sale of the bonds authorized in RCW 43.99N.020 shall be deposited in the stadium and exhibition center construction account, hereby created in the custody of the state treasurer, and shall be used exclusively for the purposes specified in RCW 43.99N.020 and for the payment of expenses incurred in the issuance and sale of the bonds. These proceeds shall be administered by the office of financial management. Only the director of the office of financial management or the director's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. At the direction of the office of financial management the state treasurer shall transfer moneys from the stadium and exhibition center construction account to the public stadium authority created in RCW 36.102.020 as required by the public stadium authority. [1997 c 220 § 212 (Referendum Bill No. 48, approved June 17, 1997).]

43.99N.050 Payment of principal and interest from nondebt-limit reimbursable bond retirement account—Transfers of certified amounts—Bonds as general obligation, full faith and credit, promise to pay—Insufficiency in stadium and exhibition center account as obligation—Proceedings to require transfer and payment. The nondebt-limit reimbursable bond retirement account shall be used for the payment of the principal of and interest on the bonds authorized in RCW 43.99N.020.

The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements. On each date on which any interest or principal and interest payment is due, the state treasurer shall transfer from the stadium and exhibition center account to the nondebt-limit reimbursable bond retirement account an amount equal to the amount certified by the state finance committee to be due on the payment date.

Bonds issued under RCW 43.99N.020 shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay the principal and interest as the same shall become due. If in any year the amount accumulated in the stadium and exhibition center account is insufficient for payment of the principal and interest on the bonds issued under RCW 43.99N.020, the amount of the insufficiency shall be a continuing obligation against the stadium and exhibition center account until paid.

The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section. [1997 c 220 § 213 (Referendum Bill No. 48, approved June 17, 1997).]

43.99N.060 Stadium and exhibition center account—Youth athletic facility account—Community outdoor athletic facility loans and grants. (1) The stadium and exhibition center account is created in the custody of the state treasurer. All receipts from the taxes imposed under RCW 82.14.0494 and distributions under RCW 67.70.240(5) shall be deposited into the account. Only the director of the office of financial management or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW. An appropriation is not required for expenditures from this account.

(2) Until bonds are issued under RCW 43.99N.020, up to five million dollars per year beginning January 1, 1999, shall be used for the purposes of subsection (3)(b) of this section, all remaining moneys in the account shall be transferred to the public stadium authority, created under RCW 36.102.020, to be used for public stadium authority operations and development of the stadium and exhibition center.

(3) After bonds are issued under RCW 43.99N.020, all moneys in the stadium and exhibition center account shall be used exclusively for the following purposes in the following priority:

(a) On or before June 30th of each year, the office of financial management shall accumulate in the stadium and exhibition center account an amount at least equal to the amount required in the next succeeding twelve months for the payment of principal of and interest on the bonds issued under RCW 43.99N.020;

(b) An additional reserve amount not in excess of the expected average annual principal and interest requirements of bonds issued under RCW 43.99N.020 shall be accumulated and maintained in the account, subject to withdrawal by the state treasurer at any time if necessary to meet the requirements of (a) of this subsection, and, following any withdrawal, reaccumulated from the first tax revenues and other amounts deposited in the account after meeting the requirements of (a) of this subsection; and

(c) The balance, if any, shall be transferred to the youth athletic facility account under subsection (4) of this section.

Any revenues derived from the taxes authorized by RCW 36.38.010(5) and 36.38.040 or other amounts that if used as provided under (a) and (b) of this subsection would cause the loss of any tax exemption under federal law for

(2010 Ed.)

interest on bonds issued under RCW 43.99N.020 shall be deposited in and used exclusively for the purposes of the youth athletic facility account and shall not be used, directly or indirectly, as a source of payment of principal of or interest on bonds issued under RCW 43.99N.020, or to replace or reimburse other funds used for that purpose.

(4) Any moneys in the stadium and exhibition center account not required or permitted to be used for the purposes described in subsection (3)(a) and (b) of this section shall be deposited in the youth athletic facility account hereby created in the state treasury. Expenditures from the account may be used only for purposes of grants or loans to cities, counties, and qualified nonprofit organizations for community outdoor athletic facilities. Only the director of the recreation and conservation office or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. The athletic facility grants or loans may be used for acquiring, developing, equipping, maintaining, and improving community outdoor athletic facilities. Funds shall be divided equally between the development of new community outdoor athletic facilities, the improvement of existing community outdoor athletic facilities, and the maintenance of existing community outdoor athletic facilities. Cities, counties, and qualified nonprofit organizations must submit proposals for grants or loans from the account. To the extent that funds are available, cities, counties, and qualified nonprofit organizations must meet eligibility criteria as established by the director of the recreation and conservation office. The grants and loans shall be awarded on a competitive application process and the amount of the grant or loan shall be in proportion to the population of the city or county for where the community outdoor athletic facility is located. Grants or loans awarded in any one year need not be distributed in that year. In the 2009-2011 biennium, if there are not enough project applications submitted in a category within the account to meet the requirement of equal distribution of funds to each category, the director of the recreation and conservation office may distribute any remaining funds to other categories within the account. The director of the recreation and conservation office may expend up to one and one-half percent of the moneys deposited in the account created in this subsection for administrative purposes. 43.101.010 Definitions.

When used in this chapter:

(1) The term "commission" means the Washington state criminal justice training commission.

(2) The term "boards" means the education and training standards boards, the establishment of which are authorized by this chapter.

(3) The term "criminal justice personnel" means any person who serves in a county, city, state, or port commission agency engaged in crime prevention, crime reduction, or enforcement of the criminal law.

(4) The term "law enforcement personnel" means any public employee or volunteer having as a primary function the enforcement of criminal laws in general or any employee or volunteer of, or any individual commissioned by, any municipal, county, state, or combination thereof, agency having as its primary function the enforcement of criminal laws in general as distinguished from an agency possessing peace officer powers, the primary function of which is the implementation of specialized subject matter areas. For the purposes of this subsection "primary function" means that function to which the greater allocation of resources is made.

(5) The term "correctional personnel" means any employee or volunteer who by state, county, municipal, or combination thereof, statute has the responsibility for the confinement, care, management, training, treatment, education, supervision, or counseling of those individuals whose civil rights have been limited in some way by legal sanction.

(6) "Chief for a day program" means a program in which commissioners and staff partner with local, state, and federal law enforcement agencies, hospitals, and the community to provide a day of special attention to chronically ill children. Each child is selected and sponsored by a law enforcement agency. The event, "chief for a day," occurs on one day, annually or every other year and may occur on the grounds and in the facilities of the commission. The program may include any appropriate honoring of the child as a "chief," such as a certificate swearing them in as a chief, a badge, a uniform, and donated gifts such as games, puzzles, and art supplies.

(7) A peace officer is "convicted" at the time a plea of guilty has been accepted, or a verdict of guilty or finding of guilt has been filed, notwithstanding the pendency of any future proceedings, including but not limited to sentencing, posttrial or postfact-finding motions and appeals. "Conviction" includes a deferral of sentence and also includes the equivalent disposition by a court in a jurisdiction other than the state of Washington.

(8) "Discharged for disqualifying misconduct" means terminated from employment for: (a) Conviction of (i) any crime committed under color of authority as a peace officer, (ii) any crime involving dishonesty or false statement within the meaning of Evidence Rule 609(a), (iii) the unlawful use or possession of a controlled substance, or (iv) any other crime the conviction of which disqualifies a Washington citizen from the legal right to possess a firearm under state or federal law; (b) conduct that would constitute any of the crimes addressed in (a) of this subsection; or (c) knowingly making materially false statements during disciplinary investigations, where the false statements are the sole basis for the termination.

(9) A peace officer is "discharged for disqualifying misconduct" within the meaning of subsection (8) of this section under the ordinary meaning of the term and when the totality of the circumstances support a finding that the officer resigned in anticipation of discipline, whether or not the misconduct was discovered at the time of resignation, and when such discipline, if carried forward, would more likely than not have led to discharge for disqualifying misconduct within the meaning of subsection (8) of this section.

(10) When used in context of proceedings referred to in this chapter, "final" means that the peace officer has exhausted all available civil service appeals, collective bargaining remedies, and all other such direct administrative appeals, and the officer has not been reinstated as the result of the action. Finality is not affected by the pendency or availability of state or federal administrative or court actions for discrimination, or by the pendency or availability of any remedies other than direct civil service and collective bargaining remedies.

(11) "Peace officer" means any law enforcement personnel subject to the basic law enforcement training requirement of RCW 43.101.200 and any other requirements of that sec-

(2010 Ed.)

tion, notwithstanding any waiver or exemption granted by the commission, and notwithstanding the statutory exemption based on date of initial hire under RCW 43.101.200. Commissioned officers of the Washington state patrol, whether they have been or may be exempted by rule of the commission from the basic training requirement of RCW 43.101.200, are included as peace officers for purposes of this chapter. Fish and wildlife officers with enforcement powers for all criminal laws under RCW 77.15.075 are peace officers for purposes of this chapter. [2008 c 69 § 2; 2003 c 39 § 27; 2001 c 167 § 1; 1981 c 132 § 2; 1977 ex.s. c 212 § 1; 1974 ex.s. c 94 § 1.]

Finding—2008 c 69: "The legislature finds that the Washington state criminal justice commission's participation in charitable work, such as the "chief for a day" program that provides special attention to chronically ill children through recognition by various law enforcement agencies within the state, advances the overall purposes of the commission by promoting positive relationships between law enforcement and the citizens of the state of Washington." (2010 Ed.)

43.101.095 Peace officer certification. (1) As a condition of continuing employment as peace officers, all Washington peace officers: (a) Shall timely obtain certification as peace officers, or timely obtain certification or exemption therefrom, by meeting all requirements of RCW 43.101.200, as that section is administered under the rules of the commission, as well by meeting any additional requirements under this chapter; and (b) shall maintain the basic certification as peace officers under this chapter.

(2)(a) As a condition of continuing employment for any applicant that has been offered a conditional offer of employment as a fully commissioned peace officer or a reserve officer after July 24, 2005, including any person whose certification has lapsed as a result of a break of more than twenty-four consecutive months in the officer's service as a fully commissioned peace officer or reserve officer, the applicant shall successfully pass a psychological examination and a polygraph or similar test as administered by the county, city, or state law enforcement agency that complies with the following requirements:

(i) The psychological examination shall be administered by a psychiatrist licensed in the state of Washington pursuant to chapter 18.71 RCW or a psychologist licensed in the state of Washington pursuant to chapter 18.83 RCW in compliance with standards established in rules of the commission.

(ii) The polygraph examination or similar assessment shall be administered by an experienced polygrapher who is a graduate of a polygraph school accredited by the American polygraph association.

(b) The employing county, city, or state law enforcement agency may require that each peace officer or reserve officer who is required to take a psychological examination and a polygraph or similar test pay a portion of the testing fee based on the actual cost of the test or four hundred dollars, whichever is less. County, city, and state law enforcement agencies may establish a payment plan if they determine that the peace officer or reserve officer does not readily have the means to pay for his or her portion of the testing fee.

(3) The commission shall certify peace officers who have satisfied, or have been exempted by statute or by rule from, the basic training requirements of RCW 43.101.200 on or before January 1, 2002. Thereafter, the commission may revoke certification pursuant to this chapter.

(4) The commission shall allow a peace officer to retain status as a certified peace officer as long as the officer: (a) Timely meets the basic law enforcement training requirements, or is exempted therefrom, in whole or in part, under RCW 43.101.200 or under rule of the commission; (b) meets or is exempted from any other requirements under this chapter as administered under the rules adopted by the commission; (c) is not denied certification by the commission under this chapter; and (d) has not had certification revoked by the commission.

(5) As a prerequisite to certification, as well as a prerequisite to pursuit of a hearing under RCW 43.101.155, a peace officer must, on a form devised or adopted by the commission, authorize the release to the commission of his or her personnel files, termination papers, criminal investigation files, or other files, papers, or information that are directly related to a certification matter or decertification matter before the commission.

(6) The commission is authorized to receive criminal history record information that includes nonconviction data for any purpose associated with employment by the commission or peace officer certification under this chapter. Dissemination or use of nonconviction data for purposes other than that authorized in this section is prohibited.

(7) For a national criminal history records check, the commission shall require fingerprints be submitted and searched through the Washington state patrol identification and criminal history section. The Washington state patrol shall forward the fingerprints to the federal bureau of investigation. [2009 c 139 § 1; 2008 c 74 § 8; 2005 c 434 § 2; 2001 c 167 § 2.]

Finding—2008 c 74: See note following RCW 51.04.024.

43.101.105 Denial or revocation of peace officer certification. (1) Upon request by a peace officer's employer or on its own initiative, the commission may deny or revoke certification of any peace officer, after written notice and hearing, if a hearing is timely requested by the peace officer under RCW 43.101.155, based upon a finding of one or more of the following conditions:

(a) The peace officer has failed to timely meet all requirements for obtaining a certificate of basic law enforcement training, a certificate of basic law enforcement training equivalency, or a certificate of exemption from the training;

(b) The peace officer has knowingly falsified or omitted material information on an application for training or certification to the commission;

(c) The peace officer has been convicted at any time of a felony offense under the laws of this state or has been convicted of a federal or out-of-state offense comparable to a felony under the laws of this state; except that if a certified peace officer was convicted of a felony before being employed as a peace officer, and the circumstances of the prior felony conviction were fully disclosed to his or her employer before being hired, the commission may revoke certification only with the agreement of the employing law enforcement agency;

(d) The peace officer has been discharged for disqualifying misconduct, the discharge is final, and some or all of the acts or omissions forming the basis for the discharge proceedings occurred on or after January 1, 2002;

(e) The peace officer's certificate was previously issued by administrative error on the part of the commission; or

(f) The peace officer has interfered with an investigation or action for denial or revocation of certificate by: (i) Knowingly making a materially false statement to the commission; or (ii) in any matter under investigation by or otherwise before the commission, tampering with evidence or tampering with or intimidating any witness.

(2) After July 24, 2005, the commission shall deny certification to any applicant that has lost his or her certification as a result of a break in service of more than twenty-four consecutive months if that applicant failed to successfully pass the psychological examination and the polygraph test or similar assessment procedure required in RCW 43.101.095(2), as administered by county, city, or state law enforcement agencies. [2005 c 434 § 3; 2001 c 167 § 3.]

43.101.115 Denial or revocation of peace officer certification—Readmission to academy—Reinstatement. (1) A person denied a certification based upon dismissal or withdrawal from a basic law enforcement academy for any reason not also involving discharge for disqualifying misconduct is eligible for readmission and certification upon meeting standards established in rules of the commission, which rules may provide for probationary terms on readmission.

(2) A person whose certification is denied or revoked based upon prior administrative error of issuance, failure to cooperate, or interference with an investigation is eligible for certification upon meeting standards established in rules of the commission, rules which may provide for a probationary period of certification in the event of reinstatement of eligibility.

(3) A person whose certification is denied or revoked based upon a felony criminal conviction is not eligible for certification at any time.

(4) A peace officer whose certification is denied or revoked based upon discharge for disqualifying misconduct, but not also based upon a felony criminal conviction, may, five years after the revocation or denial, petition the commission for reinstatement of the certificate or for eligibility for reinstatement. The commission shall hold a hearing on the petition to consider reinstatement, and the commission may allow reinstatement based upon standards established in rules of the commission. If the certificate is reinstated or eligibility for certification is determined, the commission may establish a probationary period of certification.

(5) A peace officer whose certification is revoked based solely upon a criminal conviction may petition the commission for reinstatement immediately upon a final judicial reversal of the conviction. The commission shall hold a hearing on request to consider reinstatement, and the commission may allow reinstatement based on standards established in rules of the commission. If the certificate is reinstated or eligibility for certification is determined, the commission may establish a probationary period of certification. [2001 c 167 § 4.]

43.101.125 Lapsed peace officer certification—Reinstatement—Rules. A peace officer's certification lapses automatically when there is a break of more than twenty-four consecutive months in the officer's service as a full-time law enforcement officer. A break in full-time law enforcement service which is due solely to the pendency of direct review or appeal from a disciplinary discharge, or to the pendency of a work-related injury, does not cause a lapse in certification. The officer may petition the commission for reinstatement of certification. Upon receipt of a petition for reinstatement of a lapsed certificate, the commission shall determine under this chapter and any applicable rules of the commission if the peace officer's certification status is to be reinstated, and the commission shall also determine any requirements which the officer must meet for reinstatement. The commission may adopt rules establishing requirements for reinstatement. [2001 c 167 § 5.]

43.101.135 Termination of peace officer—Notification to commission. Upon termination of a peace officer for any reason, including resignation, the agency of termination

shall, within fifteen days of the termination, notify the commission on a personnel action report form provided by the commission. The agency of termination shall, upon request of the commission, provide such additional documentation or information as the commission deems necessary to determine whether the termination provides grounds for revocation under RCW 43.101.105. The commission shall maintain these notices in a permanent file, subject to RCW 43.101.400. [2001 c 167 § 6.]

43.101.145 Written complaint by law enforcement or law enforcement agency to deny or revoke peace officer certification—Immunity of complainant. A law enforcement officer or duly authorized representative of a law enforcement agency may submit a written complaint to the commission charging that a peace officer's certificate should be denied or revoked, and specifying the grounds for the charge. Filing a complaint does not make a complainant a party to the commission's action. The commission has sole discretion whether to investigate a complaint, and the commission has sole discretion whether to investigate matters relating to certification, denial of certification, or revocation of certification on any other basis, without restriction as to the source or the existence of a complaint. A person who files a complaint in good faith under this section is immune from suit or any civil action related to the filing or the contents of the complaint. [2001 c 167 § 8.]

43.101.155 Denial or revocation of peace officer certification—Statement of charges—Notice—Hearing. (1) If the commission determines, upon investigation, that there is probable cause to believe that a peace officer's certification should be denied or revoked under RCW 43.101.105, the commission must prepare and serve upon the officer a statement of charges. Service on the officer must be by mail or by personal service on the officer. Notice of the charges must also be mailed to or otherwise served upon the officer's agency of termination and any current law enforcement agency employer. The statement of charges must be accompanied by a notice that to receive a hearing on the denial or revocation, the officer must, within sixty days of communication of the statement of charges, request a hearing before the hearings board appointed under RCW 43.101.380. Failure of the officer to request a hearing within the sixty-day period constitutes a default, whereupon the commission may enter an order under RCW 34.05.440.

(2) If a hearing is requested, the date of the hearing must be scheduled not earlier than ninety days nor later than one hundred eighty days after communication of the statement of charges to the officer; the one hundred eighty-day period may be extended on mutual agreement of the parties or for good cause. The commission shall give written notice of hearing at least twenty days prior to the hearing, specifying the time, date, and place of hearing. [2001 c 167 § 9.]

43.101.157 Tribal police officer certification. (1) Tribal governments may voluntarily request certification for their police officers. Tribal governments requesting certification for their police officers must enter into a written agreement with the commission. The agreement must require the

tribal law enforcement agency and its officers to comply with all of the requirements for granting, denying, and revoking certification as those requirements are applied to peace officers certified under this chapter and the rules of the commission.

(2) Officers making application for certification as tribal police officers shall meet the requirements of this chapter and the rules of the commission as those requirements are applied to certification of peace officers. Application for certification as a tribal police officer shall be accepted and processed in the same manner as those for certification of peace officers.

(3) For purposes of certification, "tribal police officer" means any person employed and commissioned by a tribal government to enforce the criminal laws of that government. [2006 c 22 § 2.]

[1974 ex.s. c 94 § 17.]

The services provided by the state through the establishment and maintenance of the programs of the commission are primarily intended for the benefit of the criminal justice agencies of the counties, cities, and towns of this state. To the extent that funds available to the state under the Crime Control Act of 1973 are utilized by the commission, it is the determination of the legislature that, to the maximum extent permitted by federal law, such funds as are so utilized shall be charged against that portion of United States law enforcement assistance administration funds which the state is required to make available to units of local government pursuant to section 303(a)(2) of Part C of the Crime Control Act of 1973. Personnel initially employed on or after January 1, 1990, shall commence basic training during the first six months of employment unless the basic training requirement is otherwise waived or extended by the commission. Successful completion of basic training is requisite to the continuation of employment of such personnel initially employed on or after January 1, 1990.

Additionally, to the extent funds are provided for this purpose, the commission shall reimburse to participating law enforcement agencies with ten or less full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training: PROVIDED, That such reimbursement shall include only the actual cost of temporary replacement not to exceed the total amount of salary and benefits received by the replaced officer during his or her training period. [1997 c 351 § 13. Prior: 1993 sp.s. c 24 § 920; 1993 sp.s. c 21 § 5; 1989 c 299 § 2; 1977 ex.s. c 212 § 2.]

To best carry out this mission it is necessary for the Washington state department of corrections to have the authority, discretion, and ability to design and conduct mandatory training that best meets the needs of its changing offender population." [2009 c 146 § 1.]

43.101.270 Sexual assault—Training for investigating and prosecuting. (1) Each year the criminal justice training commission shall offer an intensive, integrated training session on investigating and prosecuting sexual assault cases. The training shall place particular emphasis on the development of professionalism and sensitivity towards the victim and the victim's family.

(2) The commission shall seek advice from the Washington association of prosecuting attorneys, the Washington defender association, the Washington association of sheriffs and police chiefs, and the Washington coalition of sexual assault programs.

(3) The training shall be an integrated approach to sexual assault cases so that prosecutors, law enforcement, defenders, and victim advocates can all benefit from the training.

(4) The training shall be self-supporting through fees charged to the participants of the training. [1991 c 267 § 2.]

Findings—1991 c 267: "The safety of all children is enhanced when sexual assault cases are properly investigated and prosecuted. The victim of the sexual assault and the victim's family have a right to be treated with sensitivity and professionalism, which also increases the likelihood of their continued cooperation with the investigation and prosecution of the case. The legislature finds the sexual assault cases, particularly those involving victims who are children, are difficult to prosecute successfully. The cooperation of a victim and the victim's family through the investigation and prosecution of the sexual assault case is enhanced and the trauma associated with the investigation and prosecution is reduced when trained victim advocates assist the victim and the victim's family through the investigation and prosecution of the case. Trained victim advocates also assist law enforcement, prosecutors, and defense attorneys, by relieving some of the burden of explaining the investigation and prosecution process and possible delays to the victim and accompanying the victim during interviews by the police, prosecutor, and defense attorney, and accompanying the victim during hearings and the trial.

The legislature finds that counties should give priority to the successful prosecution of sexual assault cases, especially those that involve children, by ensuring that prosecutors, investigators, defense attorneys, and victim advo-

ates are properly trained and available. Therefore, the legislature intends to establish a mechanism to provide the necessary training of prosecutors, law enforcement investigators, defense attorneys, and victim advocates and ensure the availability of victim advocates for victims of sexual assault and their families." 43.101.380 Hearings—Standard of proof—Appeals—Judicial review. (1) The procedures governing adjudicative proceedings before agencies under chapter 34.05 RCW, the administrative procedure act, govern hearings before the commission and govern all other actions before the commission unless otherwise provided in this chapter. The standard of proof in actions before the commission is clear, cogent, and convincing evidence.

(2) In all hearings requested under RCW 43.101.155, a five-member hearings panel shall both hear the case and make the commission's final administrative decision. Members of the commission may, but need not, be appointed to the

hearings panels. The commission shall appoint as follows two or more panels to hear appeals from certification actions:

(a) When a hearing is requested in relation to a certification action of a Washington peace officer who is not a peace officer of the Washington state patrol, the commission shall appoint to the panel: (i) One police chief; (ii) one sheriff; (iii) two certified Washington peace officers who are at or below the level of first line supervisor, one of whom is from a city or county law enforcement agency, and who have at least ten years' experience as peace officers; and (iv) one person who is not currently a peace officer and who represents a community college or four-year college or university.

(b) When a hearing is requested in relation to a certification action of a peace officer of the Washington state patrol, the commission shall appoint to the panel: (i) Either one police chief or one sheriff; (ii) one administrator of the state patrol; (iii) one certified Washington peace officer who is at or below the level of first line supervisor, who is not a state patrol officer, and who has at least ten years' experience as a peace officer; (iv) one state patrol officer who is at or below the level of first line supervisor, and who has at least ten years' experience as a peace officer; and (v) one person who is not currently a peace officer and who represents a community college or four-year college or university.

(c) When a hearing is requested in relation to a certification action of a tribal police officer, the commission shall appoint to the panel (i) either one police chief or one sheriff; (ii) one tribal police chief; (iii) one certified Washington peace officer who is at or below the level of first line supervisor, and who has at least ten years' experience as a peace officer; (iv) one tribal police officer who is at or below the level of first line supervisor, and who has at least ten years' experience as a peace officer; and (v) one person who is not currently a peace officer and who represents a community college or four-year college or university.

(d) Persons appointed to hearings panels by the commission shall, in relation to any certification action on which they sit, have the powers, duties, and immunities, and are entitled to the emoluments, including travel expenses in accordance with RCW 43.03.050 and 43.03.060, of regular commission members.

(3) Where the charge upon which revocation or denial is based is that a peace officer was "discharged for disqualifying misconduct," and the discharge is "final," within the meaning of RCW 43.101.105(1)(d), and the officer received a civil service hearing or arbitration hearing culminating in an affirming decision following separation from service by the employer, the hearings panel may revoke or deny certification if the hearings panel determines that the discharge occurred and was based on disqualifying misconduct; the hearings panel need not redetermine the underlying facts but may make this determination based solely on review of the records and decision relating to the employment separation proceeding. However, the hearings panel may, in its discretion, consider additional evidence to determine whether such a discharge occurred and was based on such disqualifying misconduct. The hearings panel shall, upon written request by the subject peace officer, allow the peace officer to present additional evidence of extenuating circumstances.

Where the charge upon which revocation or denial of certification is based is that a peace officer "has been con-

victed at any time of a felony offense" within the meaning of RCW 43.101.105(1)(c), the hearings panel shall revoke or deny certification if it determines that the peace officer was convicted of a felony. The hearings panel need not redetermine the underlying facts but may make this determination based solely on review of the records and decision relating to the criminal proceeding. However, the hearings panel shall, upon the panel's determination of relevancy, consider additional evidence to determine whether the peace officer was convicted of a felony.

Where the charge upon which revocation or denial is based is under RCW 43.101.105(1) (a), (b), (e), or (f), the hearings panel shall determine the underlying facts relating to the charge upon which revocation or denial of certification is based.

(4) The commission's final administrative decision is subject to judicial review under RCW 34.05.510 through 34.05.598. [2010 1st sp.s. c 7 § 14; 2009 c 25 § 1; 2006 c 22 § 3; 2001 c 167 § 10.]

43.101.390 Immunity of commission and boards.

The commission, its boards, and individuals acting on behalf of the commission and its boards are immune from suit in any civil or criminal action contesting or based upon proceedings or other official acts performed in the course of their duties in the administration and enforcement of this chapter. [2001 c 167 § 11.]

43.101.400 Confidentiality of records. (1) Except as provided under subsection (2) of this section, the following records of the commission are confidential and exempt from public disclosure: (a) The contents of personnel action reports filed under RCW 43.101.135; (b) all files, papers, and other information obtained by the commission pursuant to *RCW 43.101.095(3); and (c) all investigative files of the commission compiled in carrying out the responsibilities of the commission under this chapter. Such records are not subject to public disclosure, subpoena, or discovery proceedings in any civil action, except as provided in subsection (5) of this section.

(2) Records which are otherwise confidential and exempt under subsection (1) of this section may be reviewed and copied: (a) By the officer involved or the officer's counsel or authorized representative, who may review the officer's file and may submit any additional exculpatory or explanatory evidence, statements, or other information, any of which must be included in the file; (b) by a duly authorized representative of (i) the agency of termination, or (ii) a current employing law enforcement agency, which may review and copy its employee-officer's file; or (c) by a representative of or investigator for the commission.

(3) Records which are otherwise confidential and exempt under subsection (1) of this section may also be inspected at the offices of the commission by a duly authorized representative of a law enforcement agency considering an application for employment by a person who is the subject of a record. A copy of records which are otherwise confiden-

tial and exempt under subsection (1) of this section may later be obtained by an agency after it hires the applicant. In all other cases under this subsection, the agency may not obtain a copy of the record.

(4) Upon a determination that a complaint is without merit, that a personnel action report filed under RCW 43.101.135 does not merit action by the commission, or that a matter otherwise investigated by the commission does not merit action, the commission shall purge records addressed in subsection (1) of this section.

(5) The hearings, but not the deliberations, of the hearings board are open to the public. The transcripts, admitted evidence, and written decisions of the hearings board on behalf of the commission are not confidential or exempt from public disclosure, and are subject to subpoena and discovery proceedings in civil actions.

(6) Every individual, legal entity, and agency of federal, state, or local government is immune from civil liability, whether direct or derivative, for providing information to the commission in good faith. [2001 c 167 § 12.]

*Reviser's note: RCW 43.101.095 was amended by 2005 c 434 § 2, changing subsection (3) to subsection (5).

43.101.410 Racial profiling—Policies—Training—Complaint review process—Data collection and reporting. (1) Local law enforcement agencies shall comply with the recommendations of the Washington association of sheriffs and police chiefs regarding racial profiling, as set forth under (a) through (f) of this subsection. Local law enforcement agencies shall:

(a) Adopt a written policy designed to condemn and prevent racial profiling;

(b) Review and audit their existing procedures, practices, and training to ensure that they do not enable or foster the practice of racial profiling;

(c) Continue training to address the issues related to racial profiling. Officers should be trained in how to better interact with persons they stop so that legitimate police actions are not misperceived as racial profiling;

(d) Ensure that they have in place a citizen complaint review process that can adequately address instances of racial profiling. The process must be accessible to citizens and must be fair. Officers found to be engaged in racial profiling must be held accountable through the appropriate disciplinary procedures within each department;

(e) Work with the minority groups in their community to appropriately address the issue of racial profiling; and

(f) Within fiscal constraints, collect demographic data on traffic stops and analyze that data to ensure that racial profiling is not occurring.

(2) The Washington association of sheriffs and police chiefs shall coordinate with the criminal justice training commission to ensure that issues related to racial profiling are addressed in basic law enforcement training and offered in regional training for in-service law enforcement officers at all levels.

(3) Local law enforcement agencies shall report all information required under this section to the Washington association of sheriffs and police chiefs. [2002 c 14 § 2.]

Declaration—Findings—2002 c 14: "(1) The legislature declares that racial profiling is the illegal use of race or ethnicity as a factor in deciding to

(2010 Ed.)

stop and question, take enforcement action, arrest, or search a person or vehicle with or without a legal basis under the United States Constitution or Washington state Constitution.

(2) The legislature recognizes that the president of the United States has issued an executive order stating that stopping or searching individuals on the basis of race is not an effective law enforcement policy, that it is inconsistent with democratic ideals, especially the commitment to equal protection under the law for all persons, and that it is neither legitimate nor defensible as a strategy for public protection. The order also instructs the law enforcement agencies within the departments of justice, treasury, and interior to collect race, ethnicity, and gender data on the people they stop or arrest.

(3) The legislature finds that the Washington state patrol has been in the process of collecting data on traffic stops and analyzing the data to determine if the patrol has any areas in its enforcement of traffic laws where minorities are being treated in a discriminatory manner. The legislature further finds that the Washington association of sheriffs and police chiefs has recently passed a resolution condemning racial profiling and has reaffirmed local law enforcement agencies' commitment to ensuring the public safety and the protection of civil liberties for all persons. The association also restated its goal of implementing policing procedures that are fair, equitable, and constitutional." [2002 c 14 § 1.]

43.101.415 Racial profiling—Reports to the legislature. The Washington association of sheriffs and police chiefs, in cooperation with the criminal justice training commission, shall report to the legislature by December 31, 2002, and each December 31st thereafter, on the progress and accomplishments of each local law enforcement agency in the state in meeting the requirements and goals set forth in RCW 43.101.410. [2002 c 14 § 3.]

Declaration—Findings—2002 c 14: See note following RCW 43.101.410.

43.101.420 Personal crisis recognition and crisis intervention services—Training. (1) The commission shall offer a training session on personal crisis recognition and crisis intervention services to criminal justice, correctional personnel, and other public safety employees. The training shall be implemented by the commission in consultation with appropriate public and private organizations that have expertise in crisis referral services and in the underlying conditions leading to the need for crisis referral.

(2) The training shall consist of a minimum of one hour of classroom or internet instruction, and shall include instruction on the following subjects:

(a) The description and underlying causes of problems that may have an impact on the personal and professional lives of public safety employees, including mental health issues, chemical dependency, domestic violence, financial problems, and other personal crises;

(b) Techniques by which public safety employees may recognize the conditions listed in (a) of this subsection and understand the need to seek assistance and obtain a referral for consultation and possible treatment; and

(c) A listing of examples of public and private crisis referral agencies available to public safety employees.

(3) The training developed by the commission shall be made available by the commission to all employees of state and local agencies that perform public safety duties. The commission may charge a reasonable fee to defer the cost of making the training available. [2009 c 19 § 1.]

43.101.425 Communications to crisis referral services—Confidentiality of communications and records.

(1) All communications to crisis referral services by employees and volunteers of law enforcement, correctional, fire-fighting, and emergency services agencies, and all records related to the communications, shall be confidential. Crisis referral services include all public or private organizations that advise employees and volunteers of such agencies about sources of consultation and treatment for personal problems including mental health issues, chemical dependency, domestic violence, gambling, financial problems, and other personal crises.

(2) A crisis referral service may reveal information related to crisis referral services to prevent reasonably certain death, substantial bodily harm, or commission of a crime. [2009 c 19 § 2.]

43.101.900 Severability—1974 ex.s. c 94. If any provision of this chapter, or its application to any person or circumstance is held invalid, the remainder of the chapter, or the application of the provision to other persons or circumstances is not affected. [1974 ex.s. c 94 § 20.]

43.101.901 Transfer of conference center. The legislature authorizes the department of general administration to transfer the Washington state training and conference center located at 19010 First Avenue, Burien, Washington, 98148, to the criminal justice training commission. [2001 c 166 § 2.]

43.101.902 Effective date—2001 c 167. This act takes effect January 1, 2002. [2001 c 167 § 14.]

(b) Information on community resources and support groups available to assist families who have lost a child to sudden, unexplained death, including sudden infant death syndrome; and

(c) The value of timely communication between the county coroner or medical examiner and the public health department, when a sudden, unexplained child death occurs, in order to achieve a better understanding of such deaths, and connecting families to various community and public health support systems to enhance recovery from grief.

sic pathology, and who are providing autopsy services to coroners and medical examiners. [2001 c 82 § 1; 1991 c 176 § 6.]

Finding—Declaration—1991 c 176: "The legislature finds and declares that sudden and unexplained child deaths are a leading cause of death for children under age three. The public interest is served by research and study of the potential causes and indications of such unexplained child deaths and the prevention of inaccurate and inappropriate designation of sudden infant death syndrome (SIDS) as a cause of death. The legislature further finds and declares that law enforcement officers, firefighters, emergency medical technicians, and other first responders in emergency situations are not adequately informed regarding sudden, unexplained death in young children including but not limited to sudden infant death syndrome, its signs and typical history, and as a result may compound the family and child care provider's grief through conveyed suspicions of a criminal act. Coroners, investigators, and prosecuting attorneys are also in need of updated training on the identification of unexplained death in children under the age of three, including but not limited to sudden infant death syndrome awareness and sensitivity and the establishment of a statewide uniform protocol in cases of sudden, unexplained child death." [1991 c 176 § 5.]

43.103.110 Training modules for missing persons protocols. The Washington state forensic investigations council, in cooperation with the Washington association of coroners and medical examiners and other interested agencies, shall develop training modules that are essential to the effective implementation and use of missing persons protocols using funds provided in RCW 43.79.445. The training commission shall make the training modules available to small departments or those at remote locations with the least disruption. The modules shall include, but not be limited to: The reporting process, the use of forms and protocols, the effective use of resources, the collection and importance of evidence and preservation of biological evidence, and risk assessment of the individuals reported missing. [2007 c 10 § 2; 2006 c 102 § 3.]

Intent—2007 c 10: "It is the intent of this act to build upon the research and findings of the Washington state missing persons task force, assembled by the state attorney general in 2003, the United States department of justice, and the initiative taken in chapter 102, Laws of 2006, by the legislature to aid in recovery of missing persons and the identification of human remains." [2007 c 10 § 1.]

Finding—Intent—2006 c 102: See note following RCW 36.28A.100.

43.103.900 Severability—1983 1st ex.s. c 16. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1983 1st ex.s. c 16 § 23.]

43.103.901 Effective date—1983 1st ex.s. c 16. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1983. [1983 1st ex.s. c 16 § 24.]

43.105.005 Purpose. It is a purpose of this chapter to provide for coordinated planning and management of state information services. The legislature recognizes that information systems, telecommunications, equipment, software, and services must satisfy the needs of end users and that many appropriate and cost-effective alternatives exist for meeting these needs, such as shared mainframe computing, shared voice, data, and video telecommunications services,

(2010 Ed.)

local area networks, departmental minicomputers, and micro-computers. [1990 c 208 § 1; 1987 c 504 § 1.]

43.105.013 Finding—Intent. (1) The legislature finds that the provision of information technology in state government lacks strategic coordination, transparency, and meaningful enterprise-wide direction and oversight. It is no longer economically sustainable or technically feasible for state agencies to obtain and provide large-scale, commonly utilized information technology products and services on an individual, agency-by-agency basis without coordination. Instead, the state needs a strong, enterprise-based information technology strategy to ensure the public's needs are being met and the state is receiving the highest quality information technology products and services at the best price from public or private providers. Developing a strong enterprise-wide strategy also includes establishing clear lines of authority and accountability within state agencies so that those services unique to individual agencies receive the support required to effectively and efficiently provide services to citizens. To accomplish these objectives, the state needs to develop an open, transparent process for determining the total cost of ownership for the information technology products and services it provides, and to provide such information in an easily accessible, public fashion. It is in the state's interest to ensure that the wide range of disparate networks, systems, services, and structures across state government become more closely coordinated, organized, and structured. This type of coordinating effort is already underway in the area of higher education through the efforts of the higher education technology transformation task force and informally within other areas. When more transparent technical and financial information is readily available, the state can make sound policy decisions about what information technology services should be provided centrally on a shared services basis, and what products and services may be best suited for either contracting with private providers or for maintenance at the agency level. Furthermore, if attractive pricing models and service level agreements are developed for enterprise-based information technology services, the legislative and judicial branches will have an incentive to participate in those services as well.

(2) It is the intent of the legislature to organize, consolidate, and, where appropriate, contract with private providers for technology systems and resources in a strategic fashion that is based upon sound, objective, nonpolitical, and independent technical and financial criteria. The state needs to develop a clear, enterprise-based statewide strategy for information technology to ensure that there is transparency and accountability regarding how information technology resources are being allocated, how decisions are being made, and who is accountable for on-time, on-budget delivery. [2010 c 282 § 1.]

43.105.019 Enterprise-based strategy—Coordination with legislative and judicial branches. (1) The board, in consultation with the department and the office of financial management, shall develop an enterprise-based strategy for information technology in state government informed by

information technology expenditure information collected from state agencies pursuant to RCW 43.88.092.

(2) In developing an enterprise-based strategy for the state, the board is encouraged to consider the following strategies as possible opportunities for achieving greater efficiency:

(a) Developing personal computer replacement policies for the state, with consideration given to alternative models of personal computer usage for state government use, such as thin client, software as a service, browser-based functionality, mobile computing, and other models that are less dependent upon traditional computing;

(b) Pursuing shared services initiatives across functional areas, which may include services such as e-mail, telephony, and data storage;

(c) Pursuing pilot programs, such as a pilot to demonstrate the value of application management services, to identify opportunities to achieve operational efficiencies;

(d) Developing data storage policies and record retention requirements and schedules for state agencies, in consultation with the office of the secretary of state, the state archivist, and the state records committee, where appropriate;

(e) Reviewing existing software maintenance contracts to identify opportunities to renegotiate the price of those contracts or the level of service; and

(f) Partnering with private providers for commonly utilized information technology products and services.

(3) The legislative and judicial branches are encouraged to coordinate with, and participate in, shared services initiatives, pilot programs, and development of the enterprise-based strategy, where appropriate. [2010 c 282 § 10.]

(1) The department, in collaboration with state agencies, shall conduct an inventory from existing data sets of information technology assets owned or leased by state agencies. This inventory must be used to inform the development of a state information technology asset management process. Prior to implementation of any state information technology asset management process, the department must submit its recommended approach, including an estimate of the associated implementation costs, to the board for approval.

(2) For the purposes of this section, "state agency" includes every state office, department, division, bureau, board, commission, or other state agency, including offices headed by a statewide elected official, and offices in the legislative and judicial branches of state government, notwithstanding the provisions of RCW 44.68.105. [2010 c 282 § 12.]

(2) The department, with the advice and approval of the office of financial management and the information services board, shall establish criteria, consistent with portfolio-based information technology management, for the evaluation of agency budget requests under this section. These budget requests shall be made in the context of an agency's information technology portfolio; technology initiatives underlying budget requests are subject to board review. Criteria shall include, but not be limited to: Feasibility of the proposed projects, consistency with the state strategic information technology plan, consistency with information technology portfolios, appropriate provision for public electronic access to information, evidence of business process streamlining and gathering of business and technical requirements, and services, costs, and benefits.

43.105.190 Major information technology projects standards and policies—Project evaluation and reporting. (1) The department, with the approval of the board, shall establish standards and policies governing the planning, implementation, and evaluation of major information technology projects, including those proposed by the superintendent of public instruction, in conjunction with educational service districts, or statewide or regional providers of K-12 education information technology services. The standards and policies shall:

(a) Establish criteria to identify projects which are subject to this section. Such criteria shall include, but not be limited to, significant anticipated cost, complexity, or statewide significance of the project; and

(b) Establish a model process and procedures which agencies shall follow in developing and implementing projects within their information technology portfolios. Agencies may propose, for approval by the department, a process and procedures unique to the agency. The department may accept or require modification of such agency proposals or the department may reject such agency proposals and require use of the model process and procedures established under this subsection. Any process and procedures developed under this subsection shall require (i) distinct and identifiable phases upon which funding may be based, (ii) user validation of products through system demonstrations and testing of prototypes and deliverables, and (iii) other elements identified by the board.

The director may terminate a major project if the director determines that the project is not meeting or is not expected to meet anticipated performance standards.

(2) The office of financial management shall establish policies and standards consistent with portfolio-based information technology management to govern the funding of

projects developed under this section. The policies and standards shall provide for:

(a) Funding of a project under terms and conditions mutually agreed to by the director, the director of financial management, and the head of the agency proposing the project. However, the office of financial management may require incremental funding of a project on a phase-by-phase basis whereby funds for a given phase of a project may be released only when the office of financial management determines, with the advice of the department, that the previous phase is satisfactorily completed;

(b) Acceptance testing of products to assure that products perform satisfactorily before they are accepted and final payment is made; and

(c) Other elements deemed necessary by the office of financial management.

(3) The department shall evaluate projects based on the demonstrated business needs and benefits; cost; technology scope and feasibility; impact on the agency's information technology portfolio and on the statewide infrastructure; and final project implementation plan based upon available funding.

Copies of project evaluations conducted under this subsection shall be submitted to the office of financial management and the chairs, ranking minority members, and staff coordinators of the appropriations committees of the senate and house of representatives.

If there are projects that receive funding from a transportation fund or account, copies of those projects' evaluations conducted under this subsection must be submitted to the chairs and ranking minority members of the transportation committees of the senate and the house of representatives. [2005 c 319 § 111; 1999 c 80 § 12; 1998 c 177 § 4; 1996 c 137 § 15; 1992 c 20 § 4.]

43.105.210 Data processing expenditures—Authorization—Penalties. No state agency may expend any moneys for major information technology projects subject to review by the department of information services under RCW 43.105.190 unless specifically authorized by the legislature. An intentional or negligent violation of this section constitutes a violation of RCW 43.88.290 and shall subject the head of the agency to forfeiture of office and other civil penalties as provided under RCW 43.88.300.

If the director of information services intentionally or negligently approved an expenditure in violation of this section, then all sanctions described in this section and RCW 43.88.300 shall also apply to the director of information services. [1993 sp.s. c 1 § 903.]

43.105.250 Electronic access to public records—Findings—Intent. Based upon the recommendations of the public information access policy task force, the legislature finds that government records and information are a vital resource to both government operations and to the public that government serves. Broad public access to state and local government records and information has potential for expanding citizen access to that information and for improving government services. Electronic methods for locating and transferring information can improve linkages between and among citizens, organizations, businesses, and governments. Information must be managed with great care to meet the objectives of citizens and their governments.

It is the intent of the legislature to encourage state and local governments to develop, store, and manage their public records and information in electronic formats to meet their missions and objectives. Further, it is the intent of the legislature for state and local governments to set priorities for making public records widely available electronically to the public. [1996 c 171 § 1.]

Additional notes found at www.leg.wa.gov

43.105.260 Electronic access to public records—Definitions. Unless the context requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Local government" means every county, city, town, and every other municipal or quasi-municipal corporation.

(2) "Public record" means as defined in *RCW 42.17.020 and chapter 40.14 RCW, and includes legislative records and court records that are available for public inspection.

(3) "State agency" includes every state office, department, division, bureau, board, and commission of the state, and each state elected official who is a member of the executive department. [1996 c 171 § 2.]

*Reviser's note: RCW 42.17.020 was recodified as RCW 42.17A.005 pursuant to 2010 c 204 § 1102, effective January 1, 2012.

43.105.270 Electronic access to public records—Planning. Within existing resources, state agencies shall plan for and implement processes for making information available electronically. Public demand and agencies' missions and goals shall drive the selection and priorities for government information to be made available electronically. When planning for increased public electronic access, agencies should determine what information the public wants and needs most. Widespread public electronic access does not mean that all government information is able to be made available electronically.

(1) In planning for and implementing electronic access, state agencies shall:

(a) Where appropriate, plan for electronic public access and two-way electronic interaction when acquiring, redesigning, or rebuilding information systems;

(b) Focus on providing electronic access to current information, leaving archival material to be made available digitally as resources allow or as a need arises;

(c) Coordinate technology planning across agency boundaries in order to facilitate electronic access to vital public information;

(2010 Ed.)

(d) Develop processes to determine which information the public most wants and needs;

(e) Develop and employ methods to readily withhold or mask nondisclosable data.

(2) In planning or implementing electronic access and two-way electronic interaction and delivery technologies, state agencies and local governments are encouraged to:

(a) Increase their capabilities to receive information electronically from the public and to transmit forms, applications, and other communications and transactions electronically;

(b) Use technologies allowing public access throughout the state that allow continuous access twenty-four hours a day, seven days per week, involve little or no cost to access, and are capable of being used by persons without extensive technological ability; and

(c) Consider and incorporate wherever possible ease of access to electronic technologies by persons with disabilities. In planning and implementing new public electronic access projects, agencies should consult with people who have disabilities, with disability access experts, and the general public.

(3) The final report of the public information access policy task force, "Encouraging Widespread Public Electronic Access to Public Records and Information Held by State and Local Governments," shall serve as a major resource for state agencies and local governments in planning and providing increased access to electronic public records and information. [1996 c 171 § 5.]

43.105.280 Electronic access to public records—Costs and fees. Funding to meet the costs of providing access, including the building of the necessary information systems, the digitizing of information, developing the ability to mask nondisclosable information, and maintenance and upgrade of information access systems should come primarily from state and local appropriations, federal dollars, grants, private funds, cooperative ventures among governments, nonexclusive licensing, and public/private partnerships. Agencies should not offer customized electronic access services as the primary way of responding to requests or as a primary source of revenue. Fees for staff time to respond to requests, and other direct costs may be included in costs of providing customized access.

Agencies and local governments are encouraged to pool resources and to form cooperative ventures to provide electronic access to government records and information. State agencies are encouraged to seek federal and private grants for projects that provide increased efficiency and improve government delivery of information and services. [1996 c 171 § 12.]

43.105.290 Electronic access to public records—Government information locator service pilot project. The state library, with the assistance of the department of information services and the state archives, shall establish a pilot project to design and test an electronic information locator system, allowing members of the public to locate and access

electronic public records. In designing the system, the following factors shall be considered: (1) Ease of operation by citizens; (2) access through multiple technologies, such as direct dial and toll-free numbers, kiosks, and the internet; (3) compatibility with private online services; and (4) capability of expanding the electronic public records included in the system. The pilot project may restrict the type and quality of electronic public records that are included in the system to test the feasibility of making electronic public records and information widely available to the public. [1996 c 171 § 13.]

43.105.300 Education in use of technology encouraged. State agencies and local governments are encouraged to provide education for their employees in the use and implementation of electronic technologies. State agencies are encouraged to make maximum use of the provisions of RCW 28B.15.558, and training offered by the state department of personnel, to maximize employee education in the creation, design, maintenance, and use of electronic information systems and improved customer service delivery. [1996 c 171 § 14.]

43.105.310 Accuracy, integrity, and privacy of records and information. State agencies and local governments that collect and enter information concerning individuals into electronic records and information systems that will be widely accessible by the public under *RCW 42.17.020 shall ensure the accuracy of this information to the extent possible. To the extent possible, information must be collected directly from, and with the consent of, the individual who is the subject of the data. Agencies shall establish procedures for correcting inaccurate information, including establishing mechanisms for individuals to review information about themselves and recommend changes in information they believe to be inaccurate. The inclusion of personal information in electronic public records that is widely available to the public should include information on the date when the database was created or most recently updated. If personally identifiable information is included in electronic public records that are made widely available to the public, agencies must follow retention and archival schedules in accordance with chapter 40.14 RCW, retaining personally identifiable information only as long as needed to carry out the purpose for which it was collected. [1996 c 171 § 15.]

***Reviser's note:** RCW 42.17.020 was recodified as RCW 42.17A.005 pursuant to 2010 c 204 § 1102, effective January 1, 2012.

43.105.320 Departmental authority as certification authority for electronic authentication. The department of information services may become a licensed certification authority, under chapter 19.34 RCW, for the purpose of providing services to agencies, local governments, and other entities and persons for purposes of official state business. The department is not subject to RCW 19.34.100(1)(a). The department shall only issue certificates, as defined in RCW 19.34.020, in which the subscriber is:

(1) The state of Washington or a department, office, or agency of the state;

(2) A city, county, district, or other municipal corporation, or a department, office, or agency of the city, county, district, or municipal corporation;

(4) Any other person or entity engaged in matters of official public business, however, such certificates shall be limited only to matters of official public business. The department may issue certificates to such persons or entities only if after issuing a request for proposals from certification authorities licensed under chapter 19.34 RCW and review of the submitted proposals, makes a determination that such private services are not sufficient to meet the department's published requirements. The department must set forth in writing the basis of any such determination and provide procedures for challenge of the determination as provided by the state procurement requirements; or

(5) An applicant for a license as a certification authority for the purpose of compliance with RCW 19.34.100(1)(a). [1999 c 287 § 18; 1997 c 27 § 29.]

43.105.330 State interoperability executive committee. (1) The board shall appoint a state interoperability executive committee, the membership of which must include, but not be limited to, representatives of the military department, the Washington state patrol, the department of transportation, the department of information services, the department of natural resources, city and county governments, state and local fire chiefs, police chiefs, and sheriffs, and state and local emergency management directors. The chair and legislative members of the board will serve as nonvoting ex officio members of the committee. Voting membership may not exceed fifteen members.

(2) The chair of the board shall appoint the chair of the committee from among the voting members of the committee.

(3) The state interoperability executive committee has the following responsibilities:

(a) Develop policies and make recommendations to the board for technical standards for state wireless radio communications systems, including emergency communications systems. The standards must address, among other things, the interoperability of systems, taking into account both existing and future systems and technologies;

(b) Coordinate and manage on behalf of the board the licensing and use of state-designated and state-licensed radio frequencies, including the spectrum used for public safety and emergency communications, and serve as the point of contact with the federal communications commission on matters relating to allocation, use, and licensing of radio spectrum;

(c) Coordinate the purchasing of all state wireless radio communications system equipment to ensure that:

(i) After the transition from a radio over internet protocol network, any new trunked system shall be, at a minimum, project-25;

- (ii) Any new system that requires advanced digital features shall be, at a minimum, project-25; and
- (iii) Any new system or equipment purchases shall be, at a minimum, upgradeable to project-25;
- (d) Seek support, including possible federal or other funding, for state-sponsored wireless communications systems;
- (e) Develop recommendations for legislation that may be required to promote interoperability of state wireless communications systems;

- (h) Perform such other duties as may be assigned by the board to promote interoperability of wireless communications systems. [2006 c 76 § 2; 2003 c 18 § 4.]

Finding—Intent—2006 c 76: "The legislature finds that local governments need to have interoperable communications to ensure the public safety and welfare of all citizens in the state of Washington. In light of recent catastrophic events around the world, including in the United States, it is now more important than ever that all responders be able to communicate clearly and without interference or malfunction.

The legislature has learned that numerous states, the federal government, and some international governments have adopted the project-25 standard for interoperable communications. Local governments in Washington have started to purchase the project-25 interoperable communication[s] standard equipment. In order to ensure that local governments continue to make smart purchasing decisions, they need certainty that the purchases will be interoperable with state equipment and that the state will adopt the national project-25 standards. It is the intent of this act to provide certainty to local governments that a statewide project-25 interoperable communications system will be in place throughout Washington in the near future, and the investments they are making are advantageous to the original intent of interoperable communications, thus ensuring the safety and welfare of Washington's citizens." [2006 c 76 § 1.]

Inventory—Statewide public safety communications plan—2003 c 18: "(1) The state interoperability executive committee shall take inventory of and evaluate all state and local government-owned public safety communications systems, and prepare a statewide public safety communications plan. The plan must set forth recommendations for executive and legislative action to insure that public safety communications systems can communicate with one another and conform to federal law and regulations governing emergency communications systems and spectrum allocation. The plan must include specific goals for improving interoperability of public safety communications systems and identifiable benchmarks for achieving those goals.

(2) The committee shall present the inventory and plan required in subsection (1) of this section to the board and appropriate legislative committees as follows:

- (a) By December 31, 2003, an inventory of state government-operated public safety communications systems;
- (b) By July 31, 2004, an inventory of all public safety communications systems in the state;
- (c) By March 31, 2004, an interim statewide public safety communications plan; and
- (d) By December 31, 2004, a final statewide public safety communications plan.

(3) The committee shall consult regularly with the joint legislative audit and review committee and the legislative evaluation and accounting program committee while developing the inventory and plan under this section." [2003 c 18 § 5.]

Intent—Finding—Effective date—2003 c 18: See notes following RCW 43.105.020.

43.105.340 Consumer protection web site. (1) The department shall coordinate among state agencies to develop

(2010 Ed.)

a consumer protection web site. The web site shall serve as a one-stop web site for consumer information. At a minimum, the web site must provide links to information on:

(a) Insurance information provided by the office of the insurance commissioner, including information on how to file consumer complaints against insurance companies, how to look up authorized insurers, and how to learn more about health insurance benefits;

(b) Child care information provided by the department of early learning, including how to select a child care provider, how child care providers are rated, and information about product recalls;

(c) Financial information provided by the department of financial institutions, including consumer information on financial fraud, investing, credit, and enforcement actions;

(d) Health care information provided by the department of health, including health care provider listings and quality assurance information;

(e) Home care information provided by the home care quality authority, including information to assist consumers in finding an in-home provider;

(f) Licensing information provided by the department of licensing, including information regarding business, vehicle, and professional licensing; and

(g) Other information available on existing state agency web sites that could be a helpful resource for consumers.

(2) By July 1, 2008, state agencies shall report to the department on whether they maintain resources for consumers that could be made available through the consumer protection web site.

(3) By September 1, 2008, the department shall make the consumer protection web site available to the public.

(4) After September 1, 2008, the department, in coordination with other state agencies, shall develop a plan on how to build upon the consumer protection web site to create a consumer protection portal. The plan must also include an examination of the feasibility of developing a toll-free information line to support the consumer protection portal. The plan must be submitted to the governor and the appropriate committees of the legislature by December 1, 2008. [2008 c 151 § 2.]

Findings—2008 c 151: "The legislature finds that in an era of consumer product recalls, increasing state emphasis on quality ratings and accountability, and decreasing resources at the federal level for consumer protection, there may be a gap in outreach to consumers in the state. The legislature further finds that many state agencies provide helpful information to consumers, but consumers may not always know where to look to find such information. To remedy this potential information gap, the legislature declares that a "one-stop" consumer protection web site should be created so that consumers in Washington state have access to clear and appropriate information regarding consumer services that are available to them across state government." [2008 c 151 § 1.]

43.105.360 Web directory—Public community technology programs. (1) By January 1, 2009, the department, in consultation with Washington State University, shall identify and make publicly available a web directory of public facilities that provide community technology programs throughout the state.

(2) For the purposes of this section, "community technology program" has the same meaning as in *RCW 28B.32.020. [2008 c 262 § 5.]

***Reviser's note:** RCW 28B.32.020 was repealed by 2009 c 509 § 14.

Findings—Intent—2008 c 262: "(1) The legislature finds and declares the following:

(a) The deployment and adoption of high-speed internet services and information technology has resulted in enhanced economic development and public safety for the state's communities, improved health care and educational opportunities, and a better quality of life for the state's residents;

(b) Continued progress in the deployment and adoption of high-speed internet services and other advanced telecommunications services, both land-based and wireless, is vital to ensuring Washington remains competitive and continues to create business and job growth; and

(c) That the state must encourage and support strategic partnerships of public, private, nonprofit, and community-based sectors in the continued growth and development of high-speed internet services and information technology for state residents and businesses.

(2) Therefore, in order to begin advancing the state towards further growth and development of high-speed internet in the state, and to ensure a better quality of life for all state residents, it is the legislature's intent to conduct a statewide needs assessment of broadband internet resources through an open dialogue with all interested parties, including providers, unions, businesses, community organizations, local governments, and state agencies. The legislature intends to use this needs assessment in guiding future plans on how to ensure that every resident in Washington state may gain access to high-speed internet services and, as part of this effort, to address digital literacy and technology training needs of low-income and technology underserved residents of the state through state support of community technology programs." [2008 c 262 § 1.]

43.105.370 Broadband mapping account—Federal broadband data improvement act funding—Coordination of broadband mapping activities.

(1) The broadband mapping account is established in the custody of the state treasurer. The department shall deposit into the account such funds received from legislative appropriation, federal grants authorized under the federal broadband data improvement act, P.L. 110-385, Title I, and donated funds from private and public sources. Expenditures from the account may be used only for the purposes of RCW 43.105.372 through 43.105.376. Only the director of the department or the director's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) The department of information services is the single eligible entity in the state for purposes of the federal broadband data improvement act, P.L. 110-385, Title I.

(3) Funding received by the department under the federal broadband data improvement act, P.L. 110-385, Title I, must be used in accordance with the requirements of that act and, subject to those requirements, may be distributed by the department on a competitive basis to other entities in the state to achieve the purposes of that act.

(4) The department of information services shall consult with the *department of community, trade, and economic development or its successor agency, the office of financial management, and the utilities and transportation commission in coordinating broadband mapping activities. In carrying out any broadband mapping activities, the provisions of P.L. 110-385, Title I, regarding trade secrets, commercial or financial information, and privileged or confidential information submitted by the federal communications commission or a broadband provider are deemed to encompass the consulted agencies. [2009 c 509 § 2.]

***Reviser's note:** The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Findings—Intent—Purpose—2009 c 509: "(1) The legislature finds that the deployment and adoption of high-speed internet services and technology advancements enhance economic development and public safety for the state's communities. Such deployment also offers improved health care, access to consumer and legal services, increased educational and civic participation opportunities, and a better quality of life for the state's residents. The legislature further finds that improvements in the deployment and adoption of high-speed internet services and the strategic inclusion of technology advancements and technology education are critical to ensuring that Washington remains competitive and continues to provide a skilled workforce, attract businesses, and stimulate job growth.

(2) The legislature intends to support strategic partnerships of public, private, nonprofit, and community-based sectors in the continued growth and development of high-speed internet services and information technology. The legislature further intends to ensure that all Washington citizens, businesses, schools, and organizations are able to obtain and utilize broadband fully, regardless of location, economic status, literacy level, age, disability, structure, or size. In addition, the legislature intends that a statewide assessment of the availability, location, service levels, and other characteristics of high-speed internet services and other advanced telecommunications services in the state be conducted.

(3) In recognition of the importance of broadband deployment and adoption to the economy, health, safety, and welfare of the people of Washington, it is the purpose of this act to make high-speed internet service more readily available throughout the state, especially in areas and for populations with a low utilization rate." [2009 c 509 § 1.]

Effective date—2009 c 509: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2009." [2009 c 509 § 16.]

(b) The cost of maintaining that high-speed internet infrastructure, if owned, or the price paid for the high-speed internet infrastructure, if leased; and

(c) The leasing entity, if applicable.

(3) The department may adopt rules as necessary to carry out the provisions of this section.

(4) For purposes of this section, "state agency" includes every state office, department, division, bureau, board, commission, or other state agency. [2009 c 509 § 3.]

Findings—Intent—Purpose—Effective date—2009 c 509: See notes following RCW 43.105.370.

43.105.374 Procurement of geographic information system map—Accountability and oversight structure—Application of public records act.

(1) The department is authorized, through a competitive bidding process, to procure

on behalf of the state a geographic information system map detailing high-speed internet infrastructure, service availability, and adoption. This geographic information system map may include adoption information, availability information, type of high-speed internet deployment technology, and available speed tiers for high-speed internet based on any publicly available data.

(2) The department may procure this map either by:

(a) Contracting for and purchasing a completed map from a third party; or

(b) Working directly with the federal communications commission to accept publicly available data.

(3) The department shall establish an accountability and oversight structure to ensure that there is transparency in the bidding and contracting process and full financial and technical accountability for any information or actions taken by a third-party contractor creating this map.

(4) In contracting for purchase of the map in subsection (2)(a) of this section, the department may take no action, nor impose any condition on the third party, that causes any record submitted by a public or private broadband service provider to the third party to meet the standard of a public record as defined in RCW 42.56.010. This prohibition does not apply to any records delivered to the department by the third party as a component of the completed map. For the purpose of *RCW 42.56.010(2), the purchase by the department of a completed map may not be deemed use or ownership by the department of the underlying information used by the third party to complete the map.

(5) Data or information that is publicly available as of July 1, 2009, will not cease to be publicly available due to any provision of chapter 509, Laws of 2009. [2009 c 509 § 4.]

***Reviser's note:** RCW 42.56.010 was amended by 2010 c 204 § 1005, changing subsection (2) to subsection (3), effective January 1, 2012.

Findings—Intent—Purpose—Effective date—2009 c 509: See notes following RCW 43.105.370.

43.105.376 Broadband mapping, deployment, and adoption—Reports. (1) The department, in coordination with the *department of community, trade, and economic development and the utilities and transportation commission, and such advisors as the department chooses, may prepare regular reports that identify the following:

(a) The geographic areas of greatest priority for the deployment of advanced telecommunications infrastructure in the state;

(b) A detailed explanation of how any amount of funding received from the federal government for the purposes of broadband mapping, deployment, and adoption will be or have been used; and

(c) A determination of how nonfederal sources may be utilized to achieve the purposes of broadband mapping, deployment, and adoption activities in the state.

(2) To the greatest extent possible, the initial report should be based upon the information identified in the geographic system maps developed under the requirements of this chapter.

(3) The initial report should be delivered to the appropriate committees of the legislature as soon as feasible, but no later than January 18, 2010.

(2010 Ed.)

(4) Future reports based upon the requirements of subsection (1) of this section should be delivered to the appropriate committees of the legislature by January 15th of each year. [2009 c 509 § 5.]

***Reviser's note:** The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Findings—Intent—Purpose—Effective date—2009 c 509: See notes following RCW 43.105.370.

43.121.010 Legislative declaration, intent. The legislature recognizes that child abuse and neglect is a threat to the family unit and imposes major expenses on society. The legislature further declares that there is a need to assist private and public agencies in identifying and establishing community based educational and service programs for the prevention of child abuse and neglect. It is the intent of the legislature that an increase in prevention programs will help reduce the breakdown in families and thus reduce the need for state intervention and state expense. It is further the intent of the legislature that prevention of child abuse and child neglect programs are partnerships between communities, citizens, and the state. [1982 c 4 § 1.]

Contracts for services to prevent child abuse and child neglect shall be awarded as demonstration projects with continuation based upon goal attainment. Contracts for services to prevent child abuse and child neglect shall be awarded on the basis of probability of success based in part upon sound research data.

(2) Facilitate the exchange of information between groups concerned with families and children.

(3) Consult with applicable state agencies, commissions, and boards to help determine the probable effectiveness, fiscal soundness, and need for proposed educational and service programs for the prevention of child abuse and neglect.

43.121.110 Parenting skills—Legislative findings. The legislature believes that parents who have developed good early parenting skills provide homes where children are treated with dignity and respect and where closeness and trust among family members provide children with the basis for a productive adult life. The legislature also believes that children raised in this positive atmosphere will develop self esteem and are unlikely to become dependent upon the social service system or to be involved in the criminal justice system. The legislature further believes that teaching parents good early parenting skills can help eliminate physical and emotional abuse of children. [1988 c 278 § 1.]

43.121.120 Community-based early parenting skills programs—Funding. (1) In order to increase the knowledge of early parenting skills of parents in Washington state, voluntary community based programs on early parenting

skills shall be established. The council shall fund, within available funds, and monitor community-based early parenting skills programs in at least three geographically balanced areas around the state. Successful programs which the council and the national center on child abuse and neglect have funded or currently fund, may be used as models for the projects.

(2) The early parenting education program shall be designed to serve families with children ranging from infants through three years old and also to serve expectant parents. The projects may include the following:

- (a) Education for parents about the physical, mental, and emotional development of children;
- (b) Programs to enhance the skills of parents in providing for learning and development of their children;
- (c) Shared learning experiences for children and parents;
- (d) Activities designed to screen for children's physical, mental, emotional, or behavioral problems that may cause learning problems;
- (e) Resources for educational materials which may be borrowed for home use;
- (f) Information on related community resources;
- (g) Group support which may include counseling for parents under stress;
- (h) Emphasis to encourage participation by fathers; or
- (i) Other programs or activities consistent with this chapter.

(3) The programs shall be reviewed periodically to provide that the instruction and materials are not racially, culturally, or sexually biased.

(4) The services provided by the projects shall be coordinated with schools and social services provided in the community to avoid duplication of services.

(5) A sliding fee scale shall be utilized at the discretion of the council. [1988 c 278 § 2.]

43.121.130 Decreased state funding of parenting skills programs—Evaluation. (1) Funding shall be provided, as funds are available, in decreasing amounts over a two-year period, with the goal of having the programs become supported by local communities at the end of a two-year period. State funding may be continued in areas where local funding would be difficult to obtain due to local economic conditions to the extent funding is made available to the council.

(2) The council shall work with the projects in the program to evaluate the results of the projects. The council shall make recommendations on these projects and the program. A project agreeing to develop an evaluation component shall be considered for a three-year funding schedule. [1998 c 245 § 48; 1988 c 278 § 3.]

43.121.140 Shaken baby syndrome—Outreach campaign. The council shall conduct a proactive, public information and communication outreach campaign regarding the dangers of shaking infants and young children, and the causes and prevention of shaken baby syndrome.

The public information campaign shall include production and distribution of a readily understandable brochure

regarding shaken baby syndrome, explaining its medical effects upon infants and emphasizing preventive measures.

The brochure shall be distributed free of charge to the parents or guardians of each newborn, upon discharge from a hospital or other health facility. In the event of home birth attended by a licensed midwife, the midwife shall be responsible for presenting the brochure to the parents of the newborn.

The public information campaign may, within available funds, also include communication by electronic media, telephone hotlines, and existing parenting education events funded by the council. [1993 c 107 § 2.]

Finding—1993 c 107: "The legislature finds that shaken baby syndrome is a medically serious, sometimes fatal, usually unintentional matter affecting newborns and very young children.

Vigorous shaking of an infant can result in bleeding inside the head, causing irreversible brain damage, blindness, cerebral palsy, hearing loss, spinal cord injury, seizures, learning disabilities, or death. Many healthy, intelligent infants suffer from shaken baby syndrome because their caregivers were unaware of the dangers. The damage is preventable through education and awareness." [1993 c 107 § 1.]

43.121.150 Juvenile crime—Legislative findings.

The legislature of the state of Washington finds that community deterioration and family disintegration are increasing problems in our state. One clear indicator of this damage is juvenile crime and violence. The legislature further finds that prevention is one of the best methods of fighting juvenile crime. Building more facilities to house juvenile offenders can be at best only one part of any solution. Any increased spending on confining juvenile offenders must be closely linked to existing efforts to prevent juvenile crime. [1997 c 338 § 56.]

Finding—Evaluation—Report—1997 c 338: See note following RCW 13.40.0357.

Additional notes found at www.leg.wa.gov

43.121.160 Postpartum depression—Public information and communication outreach campaign. The council shall conduct a proactive, public information and communication outreach campaign concerning the significance, signs, and treatment of postpartum depression.

The public information campaign may, within available funds, include production and distribution of a brochure and communication by electronic media, telephone hotlines, and existing parenting education events funded by the council. [2005 c 347 § 2.]

Finding—2005 c 347: "The legislature finds that postpartum depression is a serious condition that affects women of all ages, economic status, and racial and ethnic backgrounds. Postpartum depression includes a range of physical and emotional changes that many mothers can have following the birth of a child, which can be treated with medication and counseling. If untreated, however, postpartum depression can lead to further depression, self-destructive behavior, or even suicide, as well as child abuse, neglect, or death of the infant or other siblings." [2005 c 347 § 1.]

43.121.185 Children's trust of Washington renamed.

To recognize the focus on home visitation services, the children's trust of Washington is hereby renamed the council for children and families. [2008 c 152 § 5; 2007 c 466 § 4.]

Findings—Intent—2008 c 152: See note following RCW 13.34.136.

43.121.910 Severability—1982 c 4. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1982 c 4 § 15.]

state of Washington in eliminating or substantially limiting funding sources, except to the extent that the federal government or such other funding sources may permit the use of nonstate funds to pay for any employee benefits authorized pursuant to this chapter.

(3) The following categories of employees are excluded from benefits under this chapter:

(a) employees refusing transfer to vacant positions in the same or a like job classification and at not more than one full range lower than the same salary range;

(b) classified employees having other than permanent status in the classified service;

(c) employees having less than three years' consecutive state service as an employee, except that such employees shall nonetheless be eligible for the benefits provided in subsections (1), (2), (4) and (5) of RCW 43.130.040.

(d) nothing in this chapter shall affect any other rights currently held by classified employees regarding reduction in force procedures and subsequent reemployment. [1973 2nd ex.s. c 37 § 3.]

43.130.040 Benefits. In order to carry out the purposes of this chapter, the state shall take every reasonable step at its disposal to provide alternative employment and to minimize the economic loss of state employees affected by the closure of state facilities. Affected state employees shall be paid benefits as specified in this section.

(1) Relocation expenses covering the movement of household goods, incurred by the necessity of an employee moving his or her domicile to be within reasonable commuting distance of a new job site, shall be paid by the state to employees transferring to other state employment by reason of the closure of a facility.

(4) For employees in facilities which have been terminated who do not choose to participate in the transfer program set forth in the preceding subsections, the following terminal pay plan shall be available:

(c) Terminal pay as set forth in subsections (a) and (b) hereof shall be paid to the employee at the termination of the employees last month of employment or within thirty days after *the effective date of this 1973 act, whichever is later: PROVIDED, That from the total amount of terminal pay, the average sum of unemployment compensation that the quali-

fying employee is eligible to receive multiplied by the total number of weeks of terminal pay minus one week shall be deducted.

(d) Those employees electing the early retirement benefits as stated in subsection (5) of this section shall not be eligible for the terminal pay provisions as set forth in this subsection.

(e) Those employees who are reemployed by the state during the period they are receiving terminal pay pursuant to subsections (a), (b) and (c) of this section shall reimburse the state for that portion of the terminal pay covered by the period of new employment.

GENERAL PROVISIONS

43.131.010 Short title. (Expires June 30, 2015.) This chapter may be known and cited as the Washington Sunset Act. [1990 c 297 § 1; 1977 ex.s. c 289 § 1.]

43.131.020 Findings. (Expires June 30, 2015.) The state legislature finds that state entities may fail to deliver services as effectively and efficiently as is expected by the general public and as originally contemplated by the legislature. It further finds that state government actions have produced a substantial increase in numbers of entities, growth of programs, and proliferation of rules, and that the entire process has evolved without sufficient legislative and executive oversight, regulatory accountability, or a system of checks and balances. The legislature further finds that by establishing a system for the termination, continuation, or modification of

state entities, coupled with a system of scheduled review of such entities, it will be in a better position to: Evaluate the need for the continued existence of existing and future state entities; assess the effectiveness and performance of agencies, boards, commissions, and programs; and ensure public accountability. The legislature recognizes that the executive branch shares in this duty and responsibility to assure that state government operates in an efficient, orderly, and responsive manner. [2000 c 189 § 1; 1977 ex.s. c 289 § 2.]

43.131.030 Definitions. (Expires June 30, 2015.) As used in this chapter the following words and phrases shall have the following meanings unless the context clearly requires otherwise.

(1) "Entity" includes every state office, department, board, commission, unit or subunit, and agency of the state, and where provided by law, programs and activities involving less than the full responsibility of a state agency. "Entity" also includes any part of the Revised Code of Washington scheduled for repeal, expiration, or program termination.

(2) "Person" includes every natural person, firm, partnership, corporation, association, or organization. [2000 c 189 § 2; 1983 1st ex.s. c 27 § 1; 1977 ex.s. c 289 § 3.]

43.131.040 Reestablishment of entity scheduled for termination—Review. (Expires June 30, 2015.) Any state entity scheduled for termination by the processes provided in this chapter may be reestablished by the legislature for a specified period of time or indefinitely. The legislature may again review the state entity in a manner consistent with the provisions of this chapter and reestablish, modify, or consolidate such state entity or allow it to be terminated. [2000 c 189 § 3; 1983 1st ex.s. c 27 § 2; 1977 ex.s. c 289 § 4.]

43.131.051 Program and fiscal review—Reports. (Expires June 30, 2015.) The joint legislative audit and review committee shall conduct a program and fiscal review of any entity scheduled for termination under this chapter. This program and fiscal review shall be completed and a preliminary report prepared during the calendar year prior to the date established for termination. These reports shall be prepared in the manner set forth in RCW 44.28.071 and 44.28.075. Upon completion of its preliminary report, the joint legislative audit and review committee shall transmit copies of the report to the office of financial management and any affected entity. The final report shall include the response, if any, of the affected entity and the office of financial management in the same manner as set forth in RCW 44.28.088, except the affected entity and the office of financial management shall have sixty days to respond to the report. The joint legislative audit and review committee shall transmit the final report to the legislature, to the state entity affected, to the governor, and to the state library. [2000 c 189 § 4.]

43.131.061 Sunset termination and review—Performance measures—Minimum period for sunset termination. (Expires June 30, 2015.) (1) Any entity may be scheduled for sunset termination and review under this chapter by law.

(2) An entity scheduled for sunset termination shall establish performance measures, as required under subsection (3) of this section, and must be evaluated, in part, in terms of the results. The entity has the burden of demonstrating the extent to which performance results have been achieved. The sunset termination legislation shall name a lead entity, if more than one entity is impacted by scheduled termination. The affected entity or lead entity has the responsibility for developing and implementing a data collection plan and submitting the resulting performance information to the joint legislative audit and review committee.

(3) An entity shall develop performance measures and a data collection plan and submit them for review and comment to the joint legislative audit and review committee within one year of the effective date of the legislation establishing the sunset termination.

(4) Unless specified otherwise, sunset terminations under this chapter shall be a minimum of seven years. The joint legislative audit and review committee shall complete its review in the year prior to the date of termination. [2000 c 189 § 5.]

43.131.071 Scope of review—Recommendations to the legislature. (Expires June 30, 2015.) (1) In conducting the review of an entity, the joint legislative audit and review committee shall determine the scope and objectives of the review and consider, but not be limited to, the following factors, if applicable:

(a) The extent to which the entity has complied with legislative intent;

(b) The extent to which the entity is operating in an efficient and economical manner which results in optimum performance;

(c) The extent to which the entity is operating in the public interest by controlling costs;

(d) The extent to which the entity duplicates the activities of other entities or of the private sector;

(e) The extent to which the entity is meeting the performance measures developed under RCW 43.131.061; and

(f) The possible impact of the termination or modification of the entity.

(2) After completing the review under subsection (1) of this section, the committee shall make its recommendations to the legislature. [2000 c 189 § 6.]

43.131.090 Termination of entity—Procedures—Employee transfers—Property disposition—Funds and moneys—Rules—Contracts. (Expires June 30, 2015.) Unless the legislature specifies a shorter period of time, a terminated entity shall continue in existence until June 30th of the next succeeding year for the purpose of concluding its affairs: PROVIDED, That the powers and authority of the entity shall not be reduced or otherwise limited during this period. Unless otherwise provided:

(1) All employees of terminated entities classified under chapter 41.06 RCW, the state civil service law, shall be transferred as appropriate or as otherwise provided in the procedures adopted by the director of personnel pursuant to RCW 41.06.150;

(2) All documents and papers, equipment, or other tangible property in the possession of the terminated entity shall be delivered to the custody of the entity assuming the responsibilities of the terminated entity or if such responsibilities have been eliminated, documents and papers shall be delivered to the state archivist and equipment or other tangible property to the department of general administration;

(3) All funds held by, or other moneys due to, the terminated entity shall revert to the fund from which they were appropriated, or if that fund is abolished to the general fund;

(4) Notwithstanding the provisions of RCW 34.05.020, all rules made by a terminated entity shall be repealed, without further action by the entity, at the end of the period provided in this section, unless assumed and reaffirmed by the entity assuming the related legal responsibilities of the terminated entity;

(5) All contractual rights and duties of an entity shall be assigned or delegated to the entity assuming the responsibilities of the terminated entity, or if there is none to such entity as the governor shall direct. [2002 c 354 § 230; 2000 c 189 § 7; 1993 c 281 § 54; 1983 1st ex.s. c 27 § 4; 1977 ex.s. c 289 § 9.]

Legislative fiscal notes: Chapter 43.88A RCW.

43.132.010 Intent. It is the intent of this chapter to create a uniform and coordinated procedure to determine the fiscal impact of proposed legislation on units of local government. [1977 ex.s. c 19 § 1.]

43.132.020 Fiscal notes—Preparation—Contents—Scope—Revisions—Reports. The director of financial management or the director's designee shall, in cooperation with appropriate legislative committees and legislative staff, establish a mechanism for the determination of the fiscal impact of proposed legislation which if enacted into law would directly or indirectly increase or decrease revenues received or expenditures incurred by counties, cities, towns, or any other units of local government. The office of financial management shall, when requested by a member of the state legislature, report in writing as to such fiscal impact and said report shall be known as a "fiscal note".

Such fiscal notes shall indicate by fiscal year the total impact on the local governments involved for the first two years the legislation would be in effect and also a cumulative six year forecast of the fiscal impact. Where feasible and applicable, the fiscal note also shall indicate the fiscal impact on each individual county or on a representative sampling of cities, towns, or other units of local government.

A fiscal note as defined in this section shall be provided only upon request of any member of the state legislature. A request for a fiscal note on legislation shall be considered to be a continuing request for a fiscal note on any formal alteration of the legislation in the form of amendments to the leg-

islation that are adopted by a committee or a house of the legislature or a substitute version of such legislation that is adopted by a committee and preparation of the fiscal note on the prior version of the legislation shall stop, unless the legislator requesting the fiscal note specifies otherwise or the altered version is first adopted or enacted in the last week of a legislative session.

Fiscal notes shall be completed within one week of the request unless a longer time period is allowed by the requesting legislator. In the event a fiscal note has not been completed within one week of a request, a daily report shall be prepared for the requesting legislator by the director of financial management which report summarizes the progress in preparing the fiscal note. If the request is referred to the *director of community, trade, and economic development, the daily report shall also include the date and time such referral was made. [2000 c 182 § 2; 1995 c 399 § 79; 1984 c 125 § 16; 1979 c 151 § 149; 1977 ex.s. c 19 § 2.]

***Reviser's note:** The "director of community, trade, and economic development" was changed to the "director of commerce" by 2009 c 565.

Intent—2000 c 182: "It is the intent of the legislature to enhance the local government fiscal note process by providing for updated fiscal information on pending legislation and to establish a process for a more comprehensive report on the fiscal impacts to local governments arising from laws that have been enacted. Further, it is the intent of the legislature that the varying effects of legislation on different local governments be recognized. This act is enacted in recognition of the responsibilities imposed by RCW 43.135.060." [2000 c 182 § 1.]

43.135.010 Findings—Intent. The people of the state of Washington hereby find and declare:

(1) The continuing increases in our state tax burden and the corresponding growth of state government is contrary to the interest of the people of the state of Washington.

(2) It is necessary to limit the rate of growth of state government while assuring adequate funding of essential services, including basic education as defined by the legislature.

(3) The current budgetary system in the state of Washington lacks stability. The system encourages crisis budgeting and results in cutbacks during lean years and overspending during surplus years.

(4) It is therefore the intent of this chapter to:

(a) Establish a limit on state expenditures that will assure that the growth rate of state expenditures does not exceed the growth rate in Washington personal income;

(b) Assure that local governments are provided funds adequate to render those services deemed essential by their citizens;

(c) Assure that the state does not impose responsibility on local governments for new programs or increased levels of service under existing programs unless the costs thereof are paid by the state;

(d) Provide for adjustment of the limit when costs of a program are transferred between the state and another political entity;

(e) Establish a procedure for exceeding this limit in emergency situations;

(f) Provide for voter approval of tax increases; and

(g) Avoid overfunding and underfunding state programs by providing stability, consistency, and long-range planning. [2005 c 72 § 3; 1994 c 2 § 1 (Initiative Measure No. 601, approved November 2, 1993); 1980 c 1 § 1 (Initiative Measure No. 62, approved November 6, 1979).]

Findings—2005 c 72: "The legislature finds that the citizens of the state benefit from a state expenditure limit that ensures that the state budget operates with stability and predictability, while encouraging the establishment of budget priorities and a periodic review of state programs and the delivery of state services. A state expenditure limit can prevent budgeting crises that can occur because of increased spending levels during periods of revenue surplus followed by drastic reductions in state services in lean years. The citizens of the state are best served by an expenditure limit that keeps pace with the growth in the state's economy yet ensures budget discipline and taxpayer protection. For these reasons, the legislature finds that modifications to the state expenditure limit, after ten years of experience following the initial implementation of Initiative Measure No. 601, will recognize the economic productivity of the state's economy and better balance the needs of the citizens for essential government services with the obligation of the legislature for strict spending accountability and protection of its taxpayers." [2005 c 72 § 1.]

Effective dates—2005 c 72: "(1) Sections 1 and 2 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and take effect immediately [April 18, 2005].

(2) Sections 3 through 6 of this act take effect July 1, 2007." [2005 c 72 § 7.]

43.135.025 General fund expenditure limit—Computation—Annual limit adjustment—Definitions—Emergency exception—State treasurer duty, penalty—State expenditure limit committee. (1) The state shall not expend from the general fund during any fiscal year state moneys in excess of the state expenditure limit established under this chapter.

(2) Except pursuant to a declaration of emergency under RCW 43.135.035 or pursuant to an appropriation under RCW 43.135.045(2), the state treasurer shall not issue or redeem any check, warrant, or voucher that will result in a state general fund expenditure for any fiscal year in excess of the state expenditure limit established under this chapter. A violation of this subsection constitutes a violation of RCW 43.88.290 and shall subject the state treasurer to the penalties provided in RCW 43.88.300.

(3) The state expenditure limit for any fiscal year shall be the previous fiscal year's state expenditure limit increased by a percentage rate that equals the fiscal growth factor.

(4) For purposes of computing the state expenditure limit for the fiscal year beginning July 1, 2009, the phrase "the previous fiscal year's state expenditure limit" means the total state expenditures from the state general fund, the public safety and education account, the health services account, the violence reduction and drug enforcement account, the student achievement fund, the water quality account, and the equal justice subaccount, not including federal funds, for the fiscal year beginning July 1, 2008, plus the fiscal growth factor.

(5) A state expenditure limit committee is established for the purpose of determining and adjusting the state expenditure limit as provided in this chapter. The members of the state expenditure limit committee are the director of financial management, the attorney general or the attorney general's designee, and the chairs and ranking minority members of the senate committee on ways and means and the house of representatives committee on ways and means. All actions of the

state expenditure limit committee taken pursuant to this chapter require an affirmative vote of at least four members.

(6) Each November, the state expenditure limit committee shall adjust the expenditure limit for the preceding fiscal year based on actual expenditures and known changes in the fiscal growth factor and then project an expenditure limit for the next two fiscal years. If, by November 30th, the state expenditure limit committee has not adopted the expenditure limit adjustment and projected expenditure limit as provided in subsection (5) of this section, the attorney general or his or her designee shall adjust or project the expenditure limit, as necessary.

(7) "Fiscal growth factor" means the average growth in state personal income for the prior ten fiscal years.

(8) "General fund" means the state general fund. [2009 c 479 § 35; 2005 c 72 § 4; (2006 c 56 § 7 expired July 1, 2007); 2000 2nd sp.s. c 2 § 1; 1994 c 2 § 2 (Initiative Measure No. 601, approved November 2, 1993).]

43.135.031 Bills raising taxes or fees—Cost analysis—Press release—Notice of hearings—Updated analyses. (1) For any bill introduced in either the house of representatives or the senate that raises taxes as defined by RCW 43.135.035 or increases fees, the office of financial management must expeditiously determine its cost to the taxpayers in its first ten years of imposition, must promptly and without delay report the results of its analysis by public press release via e-mail to each member of the house of representatives, each member of the senate, the news media, and the public, and must post and maintain these releases on its web site. Any ten-year cost projection must include a year-by-year breakdown. For any bill containing more than one revenue source, a ten-year cost projection for each revenue source will be included along with the bill's total ten-year cost projection. The press release shall include the names of the legislators, and their contact information, who are sponsors and cosponsors of the bill so they can provide information to, and answer questions from, the public.

(2) Any time any legislative committee schedules a public hearing on a bill that raises taxes as defined by RCW 43.135.035 or increases fees, the office of financial management must promptly and without delay report the results of its most up-to-date analysis of the bill required by subsection (1) of this section and the date, time, and location of the hearing by public press release via e-mail to each member of the house of representatives, each member of the senate, the news media, and the public, and must post and maintain these releases on its web site. The press release required by this subsection must include all the information required by subsection (1) of this section and the names of the legislators, and their contact information, who are members of the legis-

lative committee conducting the hearing so they can provide information to, and answer questions from, the public.

(3) Each time a bill that raises taxes as defined by RCW 43.135.035 or increases fees is approved by any legislative committee or by at least a simple majority in either the house of representatives or the senate, the office of financial management must expeditiously reexamine and redetermine its ten-year cost projection due to amendment or other changes during the legislative process, must promptly and without delay report the results of its most up-to-date analysis by public press release via e-mail to each member of the house of representatives, each member of the senate, the news media, and the public, and must post and maintain these releases on its web site. Any ten-year cost projection must include a year-by-year breakdown. For any bill containing more than one revenue source, a ten-year cost projection for each revenue source will be included along with the bill's total ten-year cost projection. The press release shall include the names of the legislators, and their contact information, and how they voted on the bill so they can provide information to, and answer questions from, the public.

(4) For the purposes of this section, "names of legislators, and their contact information" includes each legislator's position (senator or representative), first name, last name, party affiliation (for example, Democrat or Republican), city or town they live in, office phone number, and office e-mail address.

(5) For the purposes of this section, "news media" means any member of the press or media organization, including newspapers, radio, and television, that signs up with the office of financial management to receive the public press releases by e-mail.

(6) For the purposes of this section, "the public" means any person, group, or organization that signs up with the office of financial management to receive the public press releases by e-mail. [2008 c 1 § 2 (Initiative Measure No. 960, approved November 6, 2007).]

Findings—Intent—2008 c 1 (Initiative Measure No. 960): "Washington has a long history of public interest in tax increases. The people have clearly and consistently illustrated their ongoing and passionate desire to ensure that taxpayers are protected. The people find that even without raising taxes, the government consistently receives revenue growth many times higher than the rate of inflation every year. With this measure, the people intend to protect taxpayers by creating a series of accountability procedures to ensure greater legislative transparency, broader public participation, and wider agreement before state government takes more of the people's money. This measure protects taxpayers and relates to tax and fee increases imposed by state government. This measure would require publication of cost projections, information on public hearings, and legislators' sponsorship and voting records on bills increasing taxes and fees, allow either two-thirds legislative approval or voter approval for tax increases, and require advisory votes on tax increases blocked from citizen referendum.

The intent of sections 2, 3, and 4 of this act: The people want a thorough, independent analysis of any proposed increase in taxes and fees. The people find that legislators too often do not know the costs to the taxpayers for their tax and fee increases and this fiscal analysis by the office of financial management will provide better, more accessible information. The people want a user-friendly method to track the progress of bills increasing taxes and fees, finding that transparency and openness leads to more public involvement and better understanding. The people want information on public hearings and legislators' sponsorship and voting records on bills increasing taxes and fees and want easy access to contact information of legislators so the people's voice can be heard. Section 2(5) and (6) of this act are intended to provide active, engaged citizens with the opportunity to be notified of the status of bills increasing taxes and fees. Such a notification system is already being provided by the state supreme court with regard to judi-

cial rulings. Intent of RCW 43.88A.020: The cost projection reports required by section 2 of this act will simplify and facilitate the creation of fiscal notes. The people want the office of financial management to fully comply with the cost projections and other requirements of section 2 [of this act] on bills increasing taxes or fees before fiscal notes. Cost projections and the other information required by section 2 [of this act] are critically important for the legislature, the media, and the public to receive before fiscal notes.

The intent of section 5 of this act: The two-thirds requirement for raising taxes has been on the books since 1993 and the people find that this policy has provided the legislature with a much stronger incentive to use existing revenues more cost-effectively rather than reflexively raising taxes. The people want this policy continued and want it to be clear that tax increases inside and outside the general fund are subject to the two-thirds threshold. If the legislature cannot receive a two-thirds vote in the house of representatives and senate to raise taxes, the Constitution provides the legislature with the option of referring the tax increase to the voters for their approval or rejection at an election using a referendum bill. The people expect the legislature to respect, follow, and abide by the law, on the books for thirteen years, to not raise taxes in excess of the state expenditure limit without two-thirds legislative approval and a vote of the people. Intent of RCW 43.135.035(5): When it comes to enactment of tax increases exceeding the state expenditure limit, the legislature has, in recent years, shifted money between funds to get around the voter approval requirement for tax increases above the state expenditure limit as occurred in 2005 with sections 1607 and 1701 of Engrossed Substitute Senate Bill No. 6090. RCW 43.135.035(5) is intended to clarify the law so that the effective taxpayer protection of requiring voter approval for tax increases exceeding the state expenditure limit is not circumvented.

The intent of sections 6 through 13 of this act: Our state Constitution guarantees to the people the right of referendum. In recent years, however, the legislature has thwarted the people's constitutional right to referendum by excessive use of the emergency clause. In 2005, for example, the legislature approved five hundred twenty-three bills and declared ninety-eight of them, nearly twenty percent, "emergencies," insulating them all from the constitution's guaranteed right to referendum. The courts' reviews of emergency clauses have resulted in inconsistent decisions regarding the legality of them in individual cases. The people find that, if they are not allowed to vote on a tax increase, good public policy demands that at least the legislature should be aware of the voters' view of individual tax increases. An advisory vote of the people at least gives the legislature the views of the voters and gives the voters information about the bill increasing taxes and provides the voters with legislators' names and contact information and how they voted on the bill. The people have a right to know what is happening in Olympia. Intent of section 6(1) of this act: If the legislature blocks a citizen referendum through the use of an emergency clause or a citizen referendum on the tax increase is not certified for the next general election ballot, then an advisory vote on the tax increase is required. Intent of section 6(4) of this act: If there's a binding vote on the ballot, there's no need for a nonbinding vote.

The intent of section 14 of this act: The people want to return the authority to impose or increase fees from unelected officials at state agencies to the duly elected representatives of the legislature or to the people. The people find that fee increases should be debated openly and transparently and up-or-down votes taken by our elected representatives so the people are given the opportunity to hold them accountable at the next election." [2008 c 1 § 1 (Initiative Measure No. 960, approved November 6, 2007).]

Construction—2008 c 1 (Initiative Measure No. 960): "The provisions of this act are to be liberally construed to effectuate the intent, policies, and purposes of this act." [2008 c 1 § 15 (Initiative Measure No. 960, approved November 6, 2007).]

Severability—2008 c 1 (Initiative Measure No. 960): "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2008 c 1 § 16 (Initiative Measure No. 960, approved November 6, 2007).]

Subheadings and part headings not law—2008 c 1 (Initiative Measure No. 960): "Subheadings and part headings used in this act are not part of the law." [2008 c 1 § 17 (Initiative Measure No. 960, approved November 6, 2007).]

Effective date—2008 c 1 (Initiative Measure No. 960): "This act takes effect December 6, 2007." [2008 c 1 § 19 (Initiative Measure No. 960, approved November 6, 2007).]

43.135.035 Tax legislation—Referral to voters—Conditions and restrictions—Ballot title—Declarations of emergency—Taxes on intangible property—Expenditure limit to reflect program cost shifting or fund transfer. (1) After July 1, 2011, any action or combination of actions by the legislature that raises taxes may be taken only if approved by a two-thirds vote of each house of the legislature, and then only if state expenditures in any fiscal year, including the new revenue, will not exceed the state expenditure limits established under this chapter. Pursuant to the referendum power set forth in Article II, section 1(b) of the state Constitution, tax increases may be referred to the voters for their approval or rejection at an election.

(2)(a) If the legislative action under subsection (1) of this section will result in expenditures in excess of the state expenditure limit, then the action of the legislature shall not take effect until approved by a vote of the people at a November general election. The state expenditure limit committee shall adjust the state expenditure limit by the amount of additional revenue approved by the voters under this section. This adjustment shall not exceed the amount of revenue generated by the legislative action during the first full fiscal year in which it is in effect. The state expenditure limit shall be adjusted downward upon expiration or repeal of the legislative action.

(b) The ballot title for any vote of the people required under this section shall be substantially as follows:

"Shall taxes be imposed on in order to allow a spending increase above last year's authorized spending adjusted for personal income growth?"

(3)(a) The state expenditure limit may be exceeded upon declaration of an emergency for a period not to exceed twenty-four months by a law approved by a two-thirds vote of each house of the legislature and signed by the governor. The law shall set forth the nature of the emergency, which is limited to natural disasters that require immediate government action to alleviate human suffering and provide humanitarian assistance. The state expenditure limit may be exceeded for no more than twenty-four months following the declaration of the emergency and only for the purposes contained in the emergency declaration.

(b) Additional taxes required for an emergency under this section may be imposed only until thirty days following the next general election, unless an extension is approved at that general election. The additional taxes shall expire upon expiration of the declaration of emergency. The legislature shall not impose additional taxes for emergency purposes under this subsection unless funds in the education construction fund have been exhausted.

(c) The state or any political subdivision of the state shall not impose any tax on intangible property listed in RCW 84.36.070 as that statute exists on January 1, 1993.

(4) If the cost of any state program or function is shifted from the state general fund to another source of funding, or if moneys are transferred from the state general fund to another fund or account, the state expenditure limit committee, acting

pursuant to RCW 43.135.025(5), shall lower the state expenditure limit to reflect the shift. For the purposes of this section, a transfer of money from the state general fund to another fund or account includes any state legislative action taken that has the effect of reducing revenues from a particular source, where such revenues would otherwise be deposited into the state general fund, while increasing the revenues from that particular source to another state or local government account. This subsection does not apply to: (a) The dedication or use of lottery revenues under RCW 67.70.240(3), in support of education or education expenditures; or (b) a transfer of moneys to, or an expenditure from, the budget stabilization account.

(5) If the cost of any state program or function and the ongoing revenue necessary to fund the program or function are shifted to the state general fund on or after January 1, 2007, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), shall increase the state expenditure limit to reflect the shift unless the shifted revenue had previously been shifted from the general fund.

(6) For the purposes of chapter 1, Laws of 2008, "raises taxes" means any action or combination of actions by the legislature that increases state tax revenue deposited in any fund, budget, or account, regardless of whether the revenues are deposited into the general fund. [2010 c 4 § 2; 2009 c 479 § 36. 43.135.041 Tax legislation—Advisory vote—Duties of the attorney general and secretary of state—Exemption. (1)(a) After July 1, 2011, if legislative action raising taxes as defined by RCW 43.135.035 is blocked from a public vote or is not referred to the people by a referendum petition found to be sufficient under RCW 29A.72.250, a measure for an advisory vote of the people is required and shall be placed on the next general election ballot under chapter 1, Laws of 2008.

(b) If legislative action raising taxes enacted after July 1, 2011, involves more than one revenue source, each tax being increased shall be subject to a separate measure for an advisory vote of the people under the requirements of chapter 1, Laws of 2008.

(2) No later than the first of August, the attorney general will send written notice to the secretary of state of any tax increase that is subject to an advisory vote of the people, under the provisions and exceptions provided by chapter 1, Laws of 2008. Within five days of receiving such written notice from the attorney general, the secretary of state will assign a serial number for a measure for an advisory vote of the people and transmit one copy of the measure bearing its serial number to the attorney general as required by RCW 29A.72.040, for any tax increase identified by the attorney general as needing an advisory vote of the people for that year's general election ballot. Saturdays, Sundays, and legal holidays are not counted in calculating the time limits in this subsection.

(3) For the purposes of this section, "blocked from a public vote" includes adding an emergency clause to a bill increasing taxes, bonding or contractually obligating taxes, or otherwise preventing a referendum on a bill increasing taxes.

(4) If legislative action raising taxes is referred to the people by the legislature or is included in an initiative to the people found to be sufficient under RCW 29A.72.250, then the tax increase is exempt from an advisory vote of the people under chapter 1, Laws of 2008. 43.135.045 Education construction fund—Appropriation conditions. The education construction fund is hereby created in the state treasury.

(1) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction. During the 2007-2009 fiscal biennium, funds may also be used for higher education facilities preservation and maintenance. During the 2009-2011

(2010 Ed.)

fiscal biennium, the legislature may transfer from the education construction fund to the state general fund such amounts as reflect the excess fund balance of the fund.

(2) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(3) Funds for the student achievement program in RCW 28A.505.210 and 28A.505.220 shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district.

(4) After July 1, 2010, the state treasurer shall transfer one hundred two million dollars from the general fund to the education construction fund by June 30th of each year. Findings—1997 c 303: "The legislature finds that Initiative Measure No. 601, adopted by the people of the state of Washington, limits fee increases by requiring that any increases in fees beyond the levels expressly allowed under the initiative receive the prior approval of the legislature. The legislature finds that a more direct system of allowing the people to control fee increases predates Initiative Measure No. 601. This system developed in agricultural communities and provides these communities with direct control of the fees of the agricultural commodity commissions they created to serve them. The system requires those who pay the assessments levied by commodity commissions and boards to approve of assessment increases by referendum. It is at the heart of the statutes and marketing orders and agreements under which agricultural commodity commissions and boards are created. The legislature does not believe that the adoption of Initiative Measure No. 601 was intended to dilute in any manner this more direct control held by the people governed by commodity commissions or boards over the fees they pay in the form of such assessments. Therefore, the legislature defers to this more direct control of these assessments so long as the authority to approve or disapprove of increases in these assessments is by referendum held directly by those who pay them." 43.136.011 Finding. The legislature recognizes that tax preferences are enacted to meet objectives which are determined to be in the public interest. However, some tax preferences may not be efficient or equitable tools for the achievement of current public policy objectives. Given the changing nature of the economy and tax structures of other states, the legislature finds that periodic performance audits of tax preferences are needed to determine if their continued existence will serve the public interest. [2006 c 197 § 1.]

43.136.021 "Tax preference" defined. As used in this chapter, "tax preference" means an exemption, exclusion, or deduction from the base of a state tax; a credit against a state tax; a deferral of a state tax; or a preferential state tax rate. [2006 c 197 § 2.]

43.136.035 Citizen commission for performance measurement of tax preferences. (1) The citizen commission for performance measurement of tax preferences is created.

(2) The commission has seven members as follows:

(a) One member is the state auditor, who is a nonvoting member;

(b) One member is the chair of the joint legislative audit and review committee, who is a nonvoting member;

(c) The chair of each of the two largest caucuses of the senate and the two largest caucuses of the house of representatives shall each appoint a member. None of these appointees may be members of the legislature; and

(d) The governor shall select the seventh member.

(3) Persons appointed by the caucus chairs should be individuals who represent a balance of perspectives and constituencies, and have a basic understanding of state tax policy, government operations, and public services. These appointees should have knowledge and expertise in performance management, fiscal analysis, strategic planning, economic development, performance assessments, or closely related fields.

(4) The commission shall elect a chair from among its voting or nonvoting members. Decisions of the commission must be made using the sufficient consensus model. For the purposes of this subsection, "sufficient consensus" means the

(2010 Ed.)

point at which the vast majority of the commission favors taking a particular action. If the commission determines that sufficient consensus cannot be reached, a vote must be taken. The commission must allow a minority report to be included with a decision of the commission, if requested by a member of the commission.

(5) Members serve for terms of four years, with the terms expiring on June 30th on the fourth year of the term. However, in the case of the initial terms, the members appointed by the chairs of senate caucuses shall serve four-year terms, the members appointed by the chairs of house of representatives caucuses shall serve three-year terms, and the member appointed by the governor shall serve a two-year term, with each of the terms expiring on June 30th of the applicable year. Appointees may be reappointed to serve more than one term.

(6) The joint legislative audit and review committee shall provide clerical, technical, and management personnel to the commission to serve as the commission's staff. The department of revenue shall provide necessary support and information to the joint legislative audit and review committee.

(7) The commission shall meet at least once a quarter and may hold additional meetings at the call of the chair or by a majority vote of the members of the commission. The members of the commission shall be compensated in accordance with RCW 43.03.220 and reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060. [2006 c 197 § 3.]

43.136.045 Schedule for review of tax preferences—Expedited review—Citizen input. (1) The citizen commission for performance measurement of tax preferences shall develop a schedule to accomplish an orderly review of tax preferences at least once every ten years. The commission shall schedule tax preferences for review in the order the tax preferences were enacted into law, except that the commission may elect to include, anywhere in the schedule, a tax preference that has a statutory expiration date. The commission shall omit from the schedule tax preferences that are required by constitutional law, sales and use tax exemptions for machinery and equipment for manufacturing, research and development, or testing, the small business credit for the business and occupation tax, sales and use tax exemptions for food and prescription drugs, property tax relief for retired persons, and property tax valuations based on current use, and may omit any tax preference that the commission determines is a critical part of the structure of the tax system. As an alternative to the process under RCW 43.136.055, the commission may recommend to the joint legislative audit and review committee an expedited review process for any tax preference that has an estimated biennial fiscal impact of ten million dollars or less.

(2) The commission shall revise the schedule as needed each year, taking into account newly enacted or terminated tax preferences. The commission shall deliver the schedule to the joint legislative audit and review committee by September 1st of each year.

(3) The commission shall provide a process for effective citizen input during its deliberations. [2006 c 197 § 4.]

43.136.055 Review of tax preferences by joint legislative audit and review committee—Recommendations. (1) The joint legislative audit and review committee shall review tax preferences according to the schedule developed under RCW 43.136.045. The committee shall consider, but not be limited to, the following factors in the review:

(a) The classes of individuals, types of organizations, or types of industries whose state tax liabilities are directly affected by the tax preference;

(b) Public policy objectives that might provide a justification for the tax preference, including but not limited to the legislative history, any legislative intent, or the extent to which the tax preference encourages business growth or relocation into this state, promotes growth or retention of high wage jobs, or helps stabilize communities;

(c) Evidence that the existence of the tax preference has contributed to the achievement of any of the public policy objectives;

(d) The extent to which continuation of the tax preference might contribute to any of the public policy objectives;

(e) The extent to which the tax preference may provide unintended benefits to an individual, organization, or industry other than those the legislature intended;

(f) The extent to which terminating the tax preference may have negative effects on the category of taxpayers that currently benefit from the tax preference, and the extent to which resulting higher taxes may have negative effects on employment and the economy;

(g) The feasibility of modifying the tax preference to provide for adjustment or recapture of the tax benefits of the tax preference if the objectives are not fulfilled;

(h) Fiscal impacts of the tax preference, including past impacts and expected future impacts if it is continued. For the purposes of this subsection, "fiscal impact" includes an analysis of the general effects of the tax preference on the overall state economy, including, but not limited to, the effects of the tax preference on the consumption and expenditures of persons and businesses within the state;

(i) The extent to which termination of the tax preference would affect the distribution of liability for payment of state taxes;

(j) Consideration of similar tax preferences adopted in other states, and potential public policy benefits that might be gained by incorporating corresponding provisions in Washington.

(2) For each tax preference, the committee shall provide a recommendation as to whether the tax preference should be continued without modification, modified, scheduled for sunset review at a future date, or terminated immediately. The committee may recommend accountability standards for the future review of a tax preference. [2006 c 197 § 5.]

43.136.065 Reports to the citizen commission—Reports to the legislature—Public hearings. (1) The joint legislative audit and review committee shall report its findings and recommendations for scheduled tax preferences to the citizen commission for performance measurement of tax preferences by August 30th of each year. The commission may review and comment on the report of the committee. The committee may revise its report based on the comments of the commission. The committee shall prepare a final

report that includes the comments of the commission and submit the final report to the finance committee of the house of representatives and the ways and means committee of the senate by December 30th.

(2) The joint legislative audit and review committee shall submit a special report reviewing all tax preferences that have statutory expiration dates between June 30, 2005, and January 1, 2007. For the special report, the committee shall complete a review under RCW 43.136.055, and obtain comments of the citizen commission for performance measurement of tax preferences under subsection (1) of this section, to the extent possible. The committee shall submit the special report to the finance committee of the house of representatives and the ways and means committee of the senate by January 12, 2006.

(3) Following receipt of a report under this section, the finance committee of the house of representatives and the ways and means committee of the senate shall jointly hold a public hearing to consider the final report and any related data. [2006 c 197 § 6.]

43.136.075 Information from the department of revenue and the employment security department. Upon request of the citizen commission for performance measurement of tax preferences or the joint legislative audit and review committee, the department of revenue and the department of employment security shall provide information needed by the commission or committee to meet its responsibilities under this chapter. [2006 c 197 § 7.]

Geothermal resources: RCW 79.13.530.

43.140.010 Purpose. The purpose of this chapter is to provide for the allocation of revenues distributed to the state under section 35 of the Mineral Lands Leasing Act of 1920, as amended (30 U.S.C. Sec. 191), with respect to activities of the United States bureau of land management undertaken pursuant to the Geothermal Steam Act of 1970 (30 U.S.C. Sec. 1001 et seq.) in order to accomplish the following general objectives:

(1) Reduction of dependence on nonrenewable energy and stimulation of the state's economy through development of geothermal energy.

(2) Mitigation of the social, economic, and environmental impacts of geothermal development.

(3) Financial assistance to counties to offset the costs of providing public services and facilities necessitated by the development of geothermal resources within their jurisdictions.

(4) Maintenance of the productivity of renewable resources through the investment of proceeds from these resources. [1981 c 158 § 1.]

43.140.020 Definitions. As used in this chapter:

(1) "County of origin" means any county in which the United States bureau of land management has leased lands for geothermal development.

(2) "Geothermal energy" means the natural heat of the earth and the medium by which this heat is extracted from the earth, including liquids or gases, as well as any minerals contained in any natural or injected fluids, brines, and associated gas but excluding oil, hydrocarbon gas, and other hydrocarbon substances. [1981 c 158 § 2.]

43.140.030 Geothermal account—Deposit of revenues. There is created the geothermal account in the state treasury. All expenditures from this account are subject to appropriation and chapter 43.88 RCW.

All revenues received by the state treasurer under section 35 of the Mineral Lands Leasing Act of 1920, as amended (30 U.S.C. Sec. 191), with respect to activities of the United States bureau of land management undertaken pursuant to the Geothermal Steam Act of 1970 (30 U.S.C. 43.140.040 Geothermal account—Limitations on distributions. Distribution of funds from the geothermal account of the general fund shall be subject to the following limitations:

(1) Thirty percent to the department of natural resources for geothermal exploration and assessment;

(2) Thirty percent to Washington State University or its statutory successor for the purpose of encouraging the development of geothermal energy; and

(3) Forty percent to the county of origin for mitigating impacts caused by geothermal energy exploration, assessment, and development. [1996 c 186 § 510; 1981 c 158 § 4.]

Findings—Intent—Part headings not law—Effective date—1996 c 186: See notes following RCW 43.330.904.

43.140.050 Distribution of funds to county of origin. The state treasurer shall be responsible for distribution of funds to the county of origin. Each county's share of rentals and royalties from a lease including lands in more than one county shall be computed on the basis of the ratio that the acreage within each county has to the total acreage in the lease. Washington State University shall obtain the necessary information to make the distribution of funds on such a basis. [1996 c 186 § 511; 1996 c 186 § 107; 1981 c 158 § 5.]

Reviser's note: This section was amended by 1996 c 186 § 107 and by 1996 c 186 § 511, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

43.140.060 Appropriation for exploration and assessment of geothermal energy—Reimbursement. The legislature hereby appropriates one hundred forty-eight thousand dollars from the general fund of the state treasury to the department of natural resources for the purpose of exploration and assessment of geothermal energy within the state of Washington. The department of natural resources shall reimburse the general fund from its share of the revenues credited to the geothermal account up to one hundred forty-eight thousand dollars. Geothermal Steam Act revenues credited to the department's share of the geothermal account in excess of one hundred forty-eight thousand dollars shall be expended by the department of natural resources for the purpose of exploration and assessment of geothermal energy within the state of Washington. Oil or gas exploration in marine waters: RCW 90.58.550.

Transport of petroleum products or hazardous substances: Chapter 88.40 RCW.

43.143.005 Legislative findings. (1) Washington's coastal waters, seabed, and shorelines are among the most valuable and fragile of its natural resources.

(2) Ocean and marine-based industries and activities, such as fishing, aquaculture, tourism, and marine transportation have played a major role in the history of the state and will continue to be important in the future.

(3) Washington's coastal waters, seabed, and shorelines are faced with conflicting use demands. Some uses may pose unacceptable environmental or social risks at certain times.

(4) The state of Washington has primary jurisdiction over the management of coastal and ocean natural resources within three miles of its coastline. From three miles seaward to the boundary of the two hundred mile exclusive economic zone, the United States federal government has primary jurisdiction. Since protection, conservation, and development of the natural resources in the exclusive economic zone directly affect Washington's economy and environment, the state has an inherent interest in how these resources are managed. [1997 c 152 § 1; 1989 1st ex.s. c 2 § 8.]

43.143.010 Legislative policy and intent—Moratorium on leases for oil and gas exploration, development, or production—Appeals from regulation of recreational uses—Participation in federal ocean and marine resource decisions. (1) The purpose of this chapter is to articulate policies and establish guidelines for the exercise of state and local management authority over Washington's coastal waters, seabed, and shorelines.

(2) There shall be no leasing of Washington's tidal or submerged lands extending from mean high tide seaward three miles along the Washington coast from Cape Flattery south to Cape Disappointment, nor in Grays Harbor, Willapa Bay, and the Columbia river downstream from the Longview bridge, for purposes of oil or gas exploration, development, or production.

(3) When conflicts arise among uses and activities, priority shall be given to resource uses and activities that will not adversely impact renewable resources over uses which are likely to have an adverse impact on renewable resources.

(4) It is the policy of the state of Washington to actively encourage the conservation of liquid fossil fuels, and to explore available methods of encouraging such conservation.

(5) It is not currently the intent of the legislature to include recreational uses or currently existing commercial uses involving fishing or other renewable marine or ocean resources within the uses and activities which must meet the planning and review criteria set forth in RCW 43.143.030. It is not the intent of the legislature, however, to permanently exclude these uses from the requirements of RCW 43.143.030. If information becomes available which indicates that such uses should reasonably be covered by the requirements of RCW 43.143.030, the permitting government or agency may require compliance with those requirements, and appeals of that decision shall be handled through the established appeals procedure for that permit or approval.

(6) The state shall participate in federal ocean and marine resource decisions to the fullest extent possible to ensure that the decisions are consistent with the state's policy concerning the use of those resources. [1997 c 152 § 2; 1995 c 339 § 1; 1989 1st ex.s. c 2 § 9.]

43.143.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter:

(1) "Coastal counties" means Clallam, Jefferson, Grays Harbor, and Pacific counties.

(2) "Coastal waters" means the waters of the Pacific Ocean seaward from Cape Flattery south to Cape Disappointment, from mean high tide seaward two hundred miles. [1989 1st ex.s. c 2 § 10.]

43.143.030 Planning and project review criteria. (1) When the state of Washington and local governments develop plans for the management, conservation, use, or development of natural resources in Washington's coastal waters, the policies in RCW 43.143.010 shall guide the decision-making process.

(2) Uses or activities that require federal, state, or local government permits or other approvals and that will adversely impact renewable resources, marine life, fishing, aquaculture, recreation, navigation, air or water quality, or

other existing ocean or coastal uses, may be permitted only if the criteria below are met or exceeded:

(a) There is a demonstrated significant local, state, or national need for the proposed use or activity;

(b) There is no reasonable alternative to meet the public need for the proposed use or activity;

(c) There will be no likely long-term significant adverse impacts to coastal or marine resources or uses;

(d) All reasonable steps are taken to avoid and minimize adverse environmental impacts, with special protection provided for the marine life and resources of the Columbia river, Willapa Bay and Grays Harbor estuaries, and Olympic national park;

(e) All reasonable steps are taken to avoid and minimize adverse social and economic impacts, including impacts on aquaculture, recreation, tourism, navigation, air quality, and recreational, commercial, and tribal fishing;

(f) Compensation is provided to mitigate adverse impacts to coastal resources or uses;

(g) Plans and sufficient performance bonding are provided to ensure that the site will be rehabilitated after the use or activity is completed; and

(h) The use or activity complies with all applicable local, state, and federal laws and regulations. [1989 1st ex.s. c 2 § 11.]

Radioactive Waste Storage and Transportation Act of 1980: Chapter 70.99 RCW.

43.145.010 Compact. The Northwest Interstate Compact on Low-Level Radioactive Waste Management is hereby enacted into law and entered into by the state of Washington as a party, and is in full force and effect between the state and other states joining the compact in accordance with the terms of the compact.

NORTHWEST INTERSTATE COMPACT ON
LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT

ARTICLE I—Policy and Purpose

The party states recognize that low-level radioactive wastes are generated by essential activities and services that benefit the citizens of the states. It is further recognized that the protection of the health and safety of the citizens of the party states and the most economical management of low-level radioactive wastes can be accomplished through cooperation of the states in minimizing the amount of handling and transportation required to dispose of such wastes and through the cooperation of the states in providing facilities that serve the region. It is the policy of the party states to undertake the necessary cooperation to protect the health and safety of the citizens of the party states and to provide for the most economical management of low-level radioactive wastes on a continuing basis. It is the purpose of this compact to provide the means for such a cooperative effort among the party states so that the protection of the citizens of the states and the maintenance of the viability of the states' economies will be enhanced while sharing the responsibilities of radioactive low-level waste management.

ARTICLE II—Definitions

As used in this compact:

(1) "Facility" means any site, location, structure, or property used or to be used for the storage, treatment, or disposal of low-level waste, excluding federal waste facilities;

(2) "Low-level waste" means waste material which contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or quantities which exceed applicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than ten nanocuries of transuranic contaminants per gram of material, nor spent reactor fuel, nor material classified as either high-level waste or waste which is unsuited for disposal by near-surface burial under any applicable federal regulations;

(3) "Generator" means any person, partnership, association, corporation, or any other entity whatsoever which, as a part of its activities, produces low-level radioactive waste;

(4) "Host state" means a state in which a facility is located.

ARTICLE III—Regulatory Practices

Each party state hereby agrees to adopt practices which will require low-level waste shipments originating within its borders and destined for a facility within another party state to conform to the applicable packaging and transportation requirements and regulations of the host state. Such practices shall include:

(1) Maintaining an inventory of all generators within the state that have shipped or expect to ship low-level waste to facilities in another party state;

(2) Periodic unannounced inspection of the premises of such generators and the waste management activities thereon;

(3) Authorization of the containers in which such waste may be shipped, and a requirement that generators use only that type of container authorized by the state;

(4) Assurance that inspections of the carriers which transport such waste are conducted by proper authorities, and appropriate enforcement action taken for violations;

(5) After receiving notification from a host state that a generator within the party state is in violation of applicable packaging or transportation standards, the party state will take appropriate action to assure that such violations do not recur. Such action may include inspection of every individual low-level waste shipment by that generator.

Each party state may impose fees upon generators and shippers to recover the cost of the inspections and other practices under this Article. Nothing in this Article shall be construed to limit any party state's authority to impose additional or more stringent standards on generators or carriers than those required under this Article.

ARTICLE IV—Regional Facilities

Section 1. Facilities located in any party state, other than facilities established or maintained by individual low-level waste generators for the management of their own low-level waste, shall accept low-level waste generated in any party state if such waste has been packaged and transported according to applicable laws and regulations.

Section 2. No facility located in any party state may accept low-level waste generated outside of the region comprised of the party states, except as provided in Article V.

Section 3. Until such time as Section 2 takes effect as provided in Article VI, facilities located in any party state may accept low-level waste generated outside of any of the party states only if such waste is accompanied by a certificate of compliance issued by an official of the state in which such waste shipment originated. Such certificate shall be in such form as may be required by the host state, and shall contain at least the following:

(1) The generator's name and address;

(2) A description of the contents of the low-level waste container;

(3) A statement that the low-level waste being shipped has been inspected by the official who issued the certificate or by his agent or by a representative of the United States Nuclear Regulatory Commission, and found to have been packaged in compliance with applicable federal regulations and such additional requirements as may be imposed by the host state;

(4) A binding agreement by the state of origin to reimburse any party state for any liability or expense incurred as a result of an accidental release of such waste during shipment or after such waste reaches the facility.

Section 4. Each party state shall cooperate with the other party states in determining the appropriate site of any facility that might be required within the region comprised of the party states, in order to maximize public health and safety while minimizing the use of any one party state as the host of such facilities on a permanent basis. Each party state further agrees that decisions regarding low-level waste management facilities in their region will be reached through a good faith process which takes into account the burdens borne by each of the party states as well as the benefits each has received.

Section 5. The party states recognize that the issue of hazardous chemical waste management is similar in many respects to that of low-level waste management. Therefore, in

consideration of the state of Washington allowing access to its low-level waste disposal facility by generators in other party states, party states such as Oregon and Idaho which host hazardous chemical waste disposal facilities will allow access to such facilities by generators within other party states. Nothing in this compact may be construed to prevent any party state from limiting the nature and type of hazardous chemical or low-level wastes to be accepted at facilities within its borders or from ordering the closure or [of] such facilities, so long as such action by a host state is applied equally to all generators within the region composed of the party states.

Section 6. Any host state may establish a schedule of fees and requirements related to its facility, to assure that closure, perpetual care, and maintenance and contingency requirements are met, including adequate bonding.

ARTICLE V—Northwest Low-level Waste Compact Committee

The governor of each party state shall designate one official of that state as the person responsible for administration of this compact. The officials so designated shall together comprise the Northwest low-level waste compact committee. The committee shall meet as required to consider matters arising under this compact. The parties shall inform the committee of existing regulations concerning low-level waste management in their states, and shall afford all parties a reasonable opportunity to review and comment upon any proposed modifications in such regulations. Notwithstanding any provision of Article IV to the contrary, the committee may enter into arrangements with states, provinces, individual generators, or regional compact entities outside the region comprised of the party states for access to facilities on such terms and conditions as the committee may deem appropriate. However, it shall require a two-thirds vote of all such members, including the affirmative vote of the member of any party state in which a facility affected by such arrangement is located, for the committee to enter into such arrangement.

ARTICLE VI—Eligible Parties and Effective Date

Section 1. Each of the following states is eligible to become a party to this compact: Alaska, Hawaii, Idaho, Montana, Oregon, Utah, Washington, and Wyoming. As to any eligible party, this compact shall become effective upon enactment into law by that party, but it shall not become initially effective until enacted into law by two states. Any party state may withdraw from this compact by enacting a statute repealing its approval.

Section 2. After the compact has initially taken effect pursuant to Section 1, any eligible party state may become a party to this compact by the execution of an executive order by the governor of the state. Any state which becomes a party in this manner shall cease to be a party upon the final adjournment of the next general or regular session of its legislature or July 1, 1983, whichever occurs first, unless the compact has by then been enacted as a statute by that state.

Section 3. Section 2 of Article IV of this compact shall take effect on July 1, 1983, if consent is given by Congress. As provided in Public Law 96-573, Congress may withdraw its consent to the compact after every five-year period.

ARTICLE VII—Severability

If any provision of this compact, or its application to any person or circumstance, is held to be invalid, all other provisions of this compact, and the application of all of its provisions to all other persons and circumstances, shall remain valid; and to this end the provisions of this compact are severable. [1981 c 124 § 1.]

43.145.020 Requirements of Washington representative to Northwest low-level waste compact committee.

The person designated as the Washington representative to the committee as specified in Article V shall adhere to all provisions of the low-level radioactive waste compact. In considering special conditions or arrangements for access to the state's facilities from wastes generated outside of the region, the committee member shall ensure at a minimum, that the provisions of Article IV, Section 3 are complied with. After 1992 the Washington representative may approve access to the state's facility only for the states currently members of the Rocky Mountain compact or states which generate less than one thousand cubic feet of waste annually and are contiguous with a state which is a member of the Northwest compact. [1990 c 21 § 5; 1981 c 124 § 2.]

43.146.010 Pacific States Agreement on Radioactive Materials Transportation Management. The Pacific States Agreement on Radioactive Materials Transportation Management is hereby enacted into law and entered into by the state of Washington as a party, and is in full force and effect between the state and other states joining the agreement in accordance with its terms.

PACIFIC STATES AGREEMENT ON RADIOACTIVE MATERIALS TRANSPORTATION MANAGEMENT

ARTICLE I—Policy and Purpose

The party states recognize that protection of the health and safety of citizens and the environment, and the most economical transportation of radioactive materials, can be accomplished through cooperation and coordination among neighboring states. It is the purpose of this agreement to establish a committee comprised of representatives from each party state to further cooperation between the states on emergency response and to coordinate activities by the states to eliminate unnecessary duplication of rules and regulations regarding the transportation and handling of radioactive material.

The party states intend that this agreement facilitate both interstate commerce and protection of public health and the environment. To accomplish this goal, the party states direct the committee to develop model regulatory standards for party states to act upon and direct the committee to coordinate decisions by party states relating to the routing and inspection of shipments of radioactive material.

ARTICLE II—Definitions

As used in this agreement:

- (1) "Carrier" includes common, private, and contract carriers.
- (2) "Hazardous material" means a substance or material which has been determined by the United States department of transportation to be capable of posing an unreasonable risk to health, safety, and property when transported in commerce, and which has been so designated.
- (3) "Radioactive material" has the meaning given that term in federal department of transportation regulations found in 49 C.F.R. Sec. 173, and includes, but is not limited to, high-level radioactive waste, low-level radioactive waste, and spent nuclear fuel, as defined in section 2 of the nuclear waste policy act of 1982 (96 Stat. 2202; 42 U.S.C.A. Sec. 10101).
- (4) "Transportation" means the transport by any means of radioactive material destined for or derived from any location, and any loading, unloading, or storage incident to such transport. "Transportation" does not include permanent storage or disposal of the material.

ARTICLE III—Regulatory Practices

Section 1. The party states agree to develop model standards, not in conflict with federal law or regulations, for carriers of radioactive material to provide information regarding:

- (1) The amount and kind of material transported;
- (2) The mode of transportation and, to the extent feasible, the route or routes and the time schedule;
- (3) The carrier's compliance with local, state, and federal rules and regulations related to radioactive material transportation;
- (4) The carrier's compliance with federal and state liability insurance requirements.

Section 2. Consistent with federal law or regulations pertaining to transportation of radioactive material, the party states also agree to:

- (1) Develop model uniform procedures for issuing permits to carriers;
- (2) Develop model uniform record-keeping processes that allow access on demand by each state;
- (3) Develop model uniform safety standards for carriers;
- (4) Coordinate routing of shipments of radioactive materials;
- (5) Develop a method for coordinating the party states' emergency response plans to provide for regional emergency response including (a) systems for sharing information essential to radiation control efforts, (b) systems for sharing emergency response personnel, and (c) a method to allocate costs and clarify liability when a party state or its officers request or render emergency response;

(2010 Ed.)

- (6) Recommend parking requirements for motor vehicles transporting radioactive materials;
- (7) Coordinate state inspections of carriers; and
- (8) Develop other cooperative arrangements and agreements to enhance safety.

Section 3. The party states also agree to coordinate emergency response training and preparedness drills among the party states, Indian tribes, and affected political subdivisions of the party states, and, if possible, with federal agencies.

Section 4. The party states recognize that the transportation management of hazardous waste and hazardous materials is similar in many respects to that of radioactive materials. The party states, therefore, agree to confer as to transportation management and emergency response for those items where similarities in management exist.

ARTICLE IV—Pacific States Radioactive Materials Transportation Committee

Section 1. Each party state shall designate one official of that state to confer with appropriate legislative committees and with other officials of that state responsible for managing transportation of radioactive material and with affected Indian tribes and be responsible for administration of this agreement. The officials so designated shall together comprise the Pacific states radioactive materials transportation committee. The committee shall meet as required to consider and, where necessary, coordinate matters addressed in this agreement. The parties shall inform the committee of existing regulations concerning radioactive materials transportation management in their states, and shall afford all parties a reasonable opportunity to review and comment upon any proposed modifications in such regulations.

Section 2. The committee may also engage in long-term planning to assure safe and economical management of radioactive material transportation on a continuing basis.

Section 3. To the extent practicable, the committee shall coordinate its activities with those of other organizations.

ARTICLE V—Eligible Parties and Effective Date

Section 1. The states of Arizona, California, Colorado, Idaho, Montana, New Mexico, Nevada, Oregon, Utah, Washington, and Wyoming are eligible to become a party to this agreement. As to any eligible party, this agreement shall become effective upon enactment into law by that party, but it shall not become initially effective until enacted into law by two states. Any party state may withdraw from this agreement by enacting a statute repealing its approval.

Section 2. After the agreement has initially taken effect under section 1 of this article, any eligible party state may become a party to this agreement by the execution of an executive order by the governor of the state. Any state which becomes a party in this manner shall cease to be a party upon the final adjournment of the next general or regular session of its legislature or July 1, 1988, whichever occurs first, unless the agreement has by then been enacted as a statute by that state.

ARTICLE VI—Severability

If any provision of this agreement, or its application to any person or circumstance, is held to be invalid, all other

provisions of this agreement, and the application of all of its provisions to all other persons and circumstances, shall remain valid; and to this end the provisions of this agreement are severable. [1987 c 90 § 1.]

43.146.900 Legislative directive—State designee. (1) Section 1 of this act shall constitute a new chapter in Title 43 RCW.

(2) The Washington state designee to the committee shall be appointed by the governor. [1987 c 90 § 2.]

THE PACIFIC NORTHWEST ECONOMIC REGION

ARTICLE I—Policy and Purpose

States and provinces participating in the Pacific Northwest Economic Region shall seek to develop and establish policies that: Promote greater regional collaboration among the seven entities; enhance the overall competitiveness of the region in international and domestic markets; increase the economic well-being of all citizens in the region; and improve the quality of life of the citizens of the Pacific Northwest.

States and provinces recognize that there are many public policy areas in which cooperation and joint efforts would be mutually beneficial. These areas include, but are not limited to: International trade; economic development; human resources; the environment and natural resources; energy; and education. Parties to this agreement shall work diligently to establish collaborative activity in these and other appropriate policy areas where such cooperation is deemed worthwhile and of benefit to the participating entities. Participating states and provinces also agree that there are areas in which cooperation may not be feasible.

The substantive actions of the Pacific Northwest Economic Region may take the form of uniform legislation enacted by two or more states and/or provinces or policy initiatives endorsed as appropriate by participating entities. It shall not be necessary for all states and provinces to participate in each initiative.

ARTICLE II—Eligible Parties and Effective Date

Each of the following states and provinces is eligible to become a party to this agreement: Alaska, Alberta, British Columbia, Idaho, Montana, Oregon, and Washington. This agreement establishing the Pacific Northwest Economic Region shall become effective when it is executed by one state, one province, and one additional state and/or province in a form deemed appropriate by each entity. This agreement shall continue in force and remain binding upon each state and province until renounced by it. Renunciation of this agreement must be preceded by sending one year's notice in writing of intention to withdraw from the agreement to the other parties to the agreement.

ARTICLE III—Organizational Structure

Each state and province participating in this agreement shall appoint representatives to the Pacific Northwest Economic Region. The organizational structure of the Pacific Northwest Economic Region shall consist of the following: A delegate council consisting of four legislators and the governor or governor's designee from each participating state and four representatives and the premier or the premier's designee from each participating province and an executive committee consisting of one legislator from each participating state and/or province who is a member of the delegate council and four of the seven governors/premiers or their designees who are members of the delegate council. The legislator members of the executive committee from each state or province shall be chosen by the legislator members of that state or province. The four governor or premier members of the executive committee shall be chosen by the governors and premiers from among the governors and premiers on the delegate council. At least one of four members representing the governors and premiers on the executive committee must be the premier of a Canadian province. Policy committees may be established to carry out further duties and responsibilities of the Pacific Northwest Economic Region.

ARTICLE IV—Duties and Responsibilities

The delegate council shall have the following duties and responsibilities: Facilitate the involvement of other government officials in the development and implementation of specific collaborative initiatives; work with policy-making committees in the development and implementation of specific initiatives; approve general organizational policies developed by the executive committee; provide final approval of the annual budget and staffing structure for the Pacific Northwest Economic Region developed by the executive committee; and other duties and responsibilities as may be established in the rules and regulations of the Pacific Northwest Economic Region. The executive committee shall perform the following duties and responsibilities: Elect the president and vice president of the Pacific Northwest Economic Region; approve and implement general organizational policies; develop the annual budget; devise the annual action plan; act as liaison with other public and private sector entities; review the availability of, and if appropriate apply for, (1) tax exempt status under the laws and regulations of the United States or any state or subdivision thereof and (2) similar status under the laws and regulations of Canada or any province

or subdivision thereof, and approve such rules, regulations, organizational policies, and staffing structure for the Pacific Northwest Economic Region and take such further actions on behalf of the Pacific Northwest Economic Region as may be deemed by the executive committee to be necessary or appropriate to qualify for and maintain such tax exempt or similar status under the applicable laws or regulations; and other duties and responsibilities established in the rules and regulations of the Pacific Northwest Economic Region. The rules and regulations of the Pacific Northwest Economic Region shall establish the procedure for voting.

ARTICLE V—Membership of Policy Committees

Policy committees dealing with specific subject matter may be established by the executive committee.

Each participating state and province shall appoint legislators and governors or premiers to sit on these committees in accordance with its own rules and regulations concerning such appointments.

ARTICLE VI—General Provisions

This agreement shall not be construed to limit the powers of any state or province or to amend or repeal or prevent the enactment of any legislation. [1993 c 108 § 1; 1991 c 251 § 2.]

43.147.020 Finding. The legislature finds that there is a new emerging global economy in which countries and regions located in specific areas of the world are forging new cooperative arrangements.

The legislature finds that these new cooperative arrangements are increasing the competitiveness of the participating countries and regions, thus increasing the economic benefits and the overall quality of life for the citizens of the individual countries and regions.

The legislature also finds that the Pacific Northwest states of Alaska, Idaho, Montana, Oregon, and Washington and the Canadian provinces of Alberta and British Columbia are in a strategic position to act together, as a region, thus increasing the overall competitiveness of the individual states and provinces that will provide substantial economic benefits for all of their citizens. [1991 c 251 § 1.]

43.147.030 Cooperative activities encouraged. It is the intent of chapter 251, Laws of 1991 to direct and encourage the establishment of cooperative activities between the seven legislative bodies of the region. The state representatives to the Pacific Northwest Economic Region shall work through appropriate channels to advance consideration of proposals developed by this body. [1991 c 251 § 3.]

43.147.040 Interlibrary sharing—Finding. In chapter 251, Laws of 1991, the legislature enacted into law the Pacific Northwest economic region agreement and made the state of Washington a party along with member states Alaska, Idaho, Montana, and Oregon, and member Canadian provinces Alberta and British Columbia. The legislature recognized that the member states and provinces of the Pacific Northwest economic region are in a strategic position to act together, as a region, thus increasing the overall competitive-

(2010 Ed.)

ness of the members and providing substantial economic benefits for all of their citizens.

For those reasons, in chapter 251, Laws of 1991, the legislature also encouraged the establishment of cooperative activities between the seven legislative bodies of the Pacific Northwest economic region. The member states and provinces now desire to engage in such cooperation by electronically sharing twenty-two million volumes from certain of their respective universities. The member states and provinces have determined that such interlibrary sharing will provide substantial economic benefit for their citizens. The legislature agrees, specifically also finding that such interlibrary sharing furthers a major component of education strategy in the 1990's and twenty-first century, namely providing increased access to knowledge via technology. [1993 c 485 § 1.]

43.147.050 Interlibrary sharing—Definition—Member libraries. Unless the context clearly requires otherwise, as used in RCW 43.147.040 through 43.147.080 "PNWER-Net" means the technology network to be created by the member states and provinces of the Pacific Northwest economic region that will be capable of electronically linking the following undergraduate university libraries of the member states and provinces:

- (1) Alaska:
 - (a) University of Alaska, Anchorage;
 - (b) University of Alaska, Juneau;
- (2) Alberta:
 - (a) University of Alberta, Calgary;
 - (b) University of Alberta, Edmonton;
- (3) British Columbia:
 - (a) University of British Columbia, Vancouver;
 - (b) University of Victoria, Victoria;
- (4) Idaho:
 - (a) Boise State University, Boise;
 - (b) University of Idaho, Moscow;
- (5) Montana:
 - (a) Montana State University, Bozeman;
 - (b) University of Montana, Missoula;
- (6) Oregon:
 - (a) Oregon State University, Corvallis;
 - (b) University of Oregon, Eugene;
- (7) Washington:
 - (a) University of Washington, Seattle; and
 - (b) Washington State University, Pullman. [1993 c 485 § 2.]

43.147.060 PNWER-Net working subgroup—Generally. (1) The PNWER-Net working subgroup is hereby created for the member state of Washington. The working subgroup shall be composed of seven members as follows: Two members of the senate, one from each of the major caucuses, appointed by the president of the senate; two members of the house of representatives, appointed by the speaker of the house of representatives; the state librarian; and the primary undergraduate academic librarian from each of the state's two research institutions of higher education.

(2) The staff support shall be provided by the senate committee services and, to the extent authorized by the chief

clerk of the house of representatives, by the house of representatives office of program research as mutually agreed by the legislators on the working group.

(3) Legislative members shall be reimbursed for expenses in accordance with RCW 44.04.120. Nonlegislative members shall be reimbursed for expenses in accordance with RCW 43.03.050 and 43.03.060. [1993 c 485 § 3.]

43.147.070 PNWER-Net working subgroup—Duties.

The PNWER-Net working subgroup shall have the following duties:

(1) To work with working subgroups from other member states and provinces in an entity known as the PNWER-Net working group to develop PNWER-Net; and

(2) To assist the PNWER-Net working group in developing criteria to ensure that designated member libraries use existing telecommunications infrastructure including the internet. [1998 c 245 § 49; 1993 c 485 § 4.]

43.147.080 PNWER-Net working subgroup—Gifts, grants, donations. The PNWER-Net working group may accept gifts, grants, and donations from private individuals and entities made for the purposes of RCW 43.147.040 through 43.147.070. [1993 c 485 § 5.]

43.150.010 Legislative findings. (1) The legislature finds that:

(a) Large numbers of Washington's citizens are actively engaged in carrying forward the ethic of service and voluntary activities that benefit their citizens, their communities, and the entire state;

(b) This contribution continues to provide the equivalent of hundreds of millions of dollars in services that might otherwise create a need for additional tax collections;

(c) Many Washington citizens have yet to become fully involved in the life of their communities; many societal needs exist that could and should be met by new citizen service initiatives;

(d) The state of Washington needs to continue to encourage and expand the ethic of civic responsibility among its citizenry, through individuals working on their own, and through local and statewide organizations, both governmental and private and nonprofit agencies;

(e) This ethic of citizen service benefits those who serve and those who receive services; in both cases there is the betterment of all Washington communities;

(f) Public and private agencies depend in large measure on the efforts of volunteers for the accomplishment of their missions and actively seek to increase these efforts;

(g) State agencies can and should extend their service delivery programs through the increased use of and support for volunteers;

(h) The national and community service act of 1990 provides an opportunity for Washington to support citizen service and volunteer activities in Washington;

(i) Business, industry, communities, schools, and labor in Washington state are increasingly interested in opportunities for community service and in developing the volunteer and service ethic;

(j) While providing both tangible and intangible benefits, volunteers in turn need respect and support for their efforts;

(k) The state itself, through the programs and services of its agencies as well as through the provisions of law and rule making, can and should provide a primary role and focus for encouraging the ethic of citizen service and support for volunteer efforts and programs;

(l) Planned and coordinated recognition, information, training, and technical assistance for volunteer and citizen service efforts through a statewide center for voluntary action have been proven to be effective means of multiplying the resources volunteers bring to the needs of their communities; and

(m) It is important that Washington state position itself to raise volunteerism to the highest attainable levels, and along with the private sector, become a voice in the role citizen service will take in providing solutions to societal needs.

(2) Therefore, the legislature, in recognition of these findings, enacts the center for volunteerism and citizen service act to ensure that the state of Washington actively promotes the ethic of service and makes every appropriate effort to encourage effective involvement of individuals in their communities and of volunteers who supplement the services of private, nonprofit community agencies and organizations, agencies of local government throughout the state, and the state government. 43.155.010 Legislative findings and policy. The legislature finds that there exists in the state of Washington over four billion dollars worth of critical projects for the planning, acquisition, construction, repair, replacement, rehabilitation, or improvement of streets and roads, bridges, water systems, and storm and sanitary sewage systems. The December, 1983 Washington state public works report prepared by the planning and community affairs agency documented that local governments expect to be capable of financing over two billion dollars worth of the costs of those critical projects but will not be able to fund nearly half of the documented needs.

The legislature further finds that Washington's local governments have unmet financial needs for solid waste disposal, including recycling, and encourages the board to make an equitable geographic distribution of the funds.

It is the policy of the state of Washington to encourage self-reliance by local governments in meeting their public works needs and to assist in the financing of critical public works projects by making loans, financing guarantees, and technical assistance available to local governments for these projects. [1996 c 168 § 1; 1985 c 446 § 7.]

43.155.055 Water storage projects and water systems facilities subaccount. (1) A subaccount is created in the public works assistance account to receive money to fund the following projects: (a) Water storage projects; and (b) water systems facilities.

(2) The projects listed in subsection (1) of this section must comply with the competitive bid requirements of RCW 43.155.060.

(3) The subaccount created in subsection (1) of this section shall receive amounts appropriated to it for purposes of distributing these moneys as grants for water storage projects and water systems facilities projects as provided in the appropriation and this section. This subaccount shall be administered by the board and shall be separate from the other programs managed by the board under this chapter.

(4) The subaccount created in this section shall be known as the water storage projects and water systems facilities subaccount of the public works assistance account. [2003 c 330 § 1.]

43.155.060 Public works financing powers—Competitive bids on projects. In order to aid the financing of public works projects, the board may:

(1) Make low-interest or interest-free loans to local governments from the public works assistance account or other funds and accounts for the purpose of assisting local governments in financing public works projects. The board may require such terms and conditions and may charge such rates of interest on its loans as it deems necessary or convenient to carry out the purposes of this chapter. Money received from local governments in repayment of loans made under this section shall be paid into the public works assistance account for uses consistent with this chapter.

(2) Pledge money in the public works assistance account, or money to be received by the public works assistance account, to the repayment of all or a portion of the principal of or interest on obligations issued by local governments to finance public works projects. The board shall not pledge any amount greater than the sum of money in the public works assistance account plus money to be received from the payment of the debt service on loans made from that account, nor shall the board pledge the faith and credit or the taxing power of the state or any agency or subdivision thereof to the repayment of obligations issued by any local government.

(3) Create such subaccounts in the public works assistance account as the board deems necessary to carry out the purposes of this chapter.

(4) Provide a method for the allocation of loans and financing guarantees and the provision of technical assistance under this chapter.

All local public works projects aided in whole or in part under the provisions of this chapter shall be put out for competitive bids, except for emergency public works under RCW 43.155.065 for which the recipient jurisdiction shall comply with this requirement to the extent feasible and practicable. The competitive bids called for shall be administered in the same manner as all other public works projects put out for competitive bidding by the local governmental entity aided under this chapter. [1988 c 93 § 2; 1985 c 446 § 11.]

43.155.065 Emergency public works projects. The board may make low-interest or interest-free loans to local governments for emergency public works projects. Emergency public works projects shall include the construction, repair, reconstruction, replacement, rehabilitation, or improvement of a public water system that is in violation of health and safety standards and is being operated by a local government on a temporary basis. The loans may be used to help fund all or part of an emergency public works project less any reimbursement from any of the following sources: (1) Federal disaster or emergency funds, including funds from the federal emergency management agency; (2) state disaster or emergency funds; (3) insurance settlements; or (4) litigation. [2001 c 131 § 3; 1990 c 133 § 7; 1988 c 93 § 1.]

Findings—Severability—1990 c 133: See notes following RCW 36.94.140.

43.155.068 Loans for preconstruction activities. (1) The board may make low-interest or interest-free loans to local governments for preconstruction activities on public works projects before the legislature approves the construction phase of the project. Preconstruction activities include design, engineering, bid-document preparation, environmental studies, right-of-way acquisition, and other preliminary phases of public works projects as determined by the board. The purpose of the loans authorized in this section is to accelerate the completion of public works projects by allowing preconstruction activities to be performed before the approval of the construction phase of the project by the legislature.

(2) Projects receiving loans for preconstruction activities under this section must be evaluated using the priority process and factors in *RCW 43.155.070(2). The receipt of a loan for preconstruction activities does not ensure the receipt of a construction loan for the project under this chapter. Construction loans for projects receiving a loan for preconstruction activities under this section are subject to legislative approval under *RCW 43.155.070 (4) and (5). The board shall adopt a single application process for local governments seeking both a loan for preconstruction activities under this section and a construction loan for the project. [2001 c 131 § 4; 1995 c 363 § 2.]

***Reviser's note:** RCW 43.155.070 was amended by 1999 c 164 § 602, changing subsections (2), (4), and (5) to subsections (4), (6), and (7), respectively.

Finding—Purpose—1995 c 363: "The legislature finds that there continues to exist a great need for capital projects to plan, acquire, design, construct, and repair local government streets, roads, bridges, water systems,

and storm and sanitary sewage systems. It is the purpose of this act to accelerate the construction of these projects under the public works assistance program." [1995 c 363 § 1.]

43.155.070 Eligibility, priority, limitations, and exceptions. (1) To qualify for loans or pledges under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a capital facility plan; and

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town planning under RCW 36.70A.040 must have adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving a loan or loan guarantee under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 which has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 is not prohibited from receiving a loan or loan guarantee under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before submitting a request for a loan or loan guarantee.

(3) In considering awarding loans for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board shall consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

(4) The board shall develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board shall attempt to assure a geographical balance in assigning priorities to projects. The board shall consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Except as otherwise conditioned by RCW 43.155.110, whether the entity receiving assistance is a Puget Sound partner, as defined in RCW 90.71.010;

(c) Whether the project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310;

(d) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(e) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007;

(f) The cost of the project compared to the size of the local government and amount of loan money available;

(g) The number of communities served by or funding the project;

(h) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(i) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(j) Except as otherwise conditioned by RCW 43.155.120, and effective one calendar year following the development of model evergreen community management plans and ordinances under RCW 35.105.050, whether the entity receiving assistance has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030;

(k) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(l) Other criteria that the board considers advisable.

(5) Existing debt or financial obligations of local governments shall not be refinanced under this chapter. Each local government applicant shall provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(6) Before November 1st of each even-numbered year, the board shall develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list shall include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list shall also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(7) The board shall not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of public works projects. The legislature may remove projects from the list recommended by the board.

The legislature shall not change the order of the priorities recommended for funding by the board.

(8) Subsection (7) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section.

(9) Loans made for the purpose of capital facilities plans shall be exempted from subsection (7) of this section.

(10) To qualify for loans or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

(11) After January 1, 2010, any project designed to address the effects of storm water or wastewater on Puget Sound may be funded under this section only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. Severability—Effective date—2007 c 341: See RCW 90.71.906 and 90.71.907.

Findings—Recommendations—Reports encouraged—2007 c 231: "(1) The legislature finds that permit programs have been legislatively established to protect the health, welfare, economy, and environment of Washington's citizens and to provide a fair, competitive opportunity for business innovation and consumer confidence. The legislature also finds that uncertainty in government processes to permit an activity by a citizen of Washington state is undesirable and erodes confidence in government. The legislature further finds that in the case of projects that would further economic development in the state, information about the permitting process is critical for an applicant's planning and financial assessment of the proposed project. The legislature also finds that applicants have a responsibility to provide complete and accurate information.

(2) The legislature recommends that applicants be provided with the following information when applying for a development permit from a city, county, or state agency:

(a) The minimum and maximum time an agency will need to make a decision on a permit, including public comment requirements;

(b) The minimum amount of information required for an agency to make a decision on a permit;

(c) When an agency considers an application complete for processing;

(d) The minimum and maximum costs in agency fees that will be incurred by the permit applicant; and

(e) The reasons for a denial of a permit in writing.

(3) In providing this information to applicants, an agency should base estimates on the best information available about the permitting program and prior applications for similar permits, as well as on the information provided by the applicant. New information provided by the applicant subsequent to the agency estimates may change the information provided by an agency per subsection (2) of this section. Project modifications by an applicant may result in more time, more information, or higher fees being required for permit processing.

(4) This section does not create an independent cause of action, affect any existing cause of action, or establish time limits for purposes of RCW 64.40.020.

(5) City, county, and state agencies issuing development permits are encouraged to track the progress in providing the information to applicants per subsection (2) of this section by preparing an annual report of its performance for the preceding fiscal year. The report should be posted on its web site [and] made available and provided to the appropriate standing committees of the senate and house of representatives." [2007 c 231 § 1.]

The board shall also develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the loan program. To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270. In developing a priority process for public works projects under RCW 43.155.070, the board shall give preferences only to Puget Sound partners, as defined in RCW 90.71.010, over other entities that are eligible to be included in the definition of Puget Sound partner. Entities that are not eligible to be a Puget Sound partner due to geographic location, composition, exclusion from the scope of the action agenda developed by the Puget Sound partnership under RCW 90.71.310, or for any other reason, shall not be given less preferential treatment than Puget Sound partners. Public records: Chapter 42.56 RCW.

43.160.010 Legislative declaration. (1) The legislature finds that it is the public policy of the state of Washington to direct financial resources toward the fostering of economic development through the stimulation of investment and job opportunities and the retention of sustainable existing employment for the general welfare of the inhabitants of the state. Reducing unemployment and reducing the time citizens remain jobless is important for the economic welfare of the state. A valuable means of fostering economic development is the construction of public facilities which contribute to the stability and growth of the state's economic base. Expenditures made for these purposes as authorized in this chapter are declared to be in the public interest, and constitute a proper use of public funds. A community economic revitalization board is needed which shall aid the development of economic opportunities. The general objectives of the board should include:

- (a) Strengthening the economies of areas of the state which have experienced or are expected to experience chronically high unemployment rates or below average growth in their economies;
- (b) Encouraging the diversification of the economies of the state and regions within the state in order to provide greater seasonal and cyclical stability of income and employment;
- (c) Encouraging wider access to financial resources for both large and small industrial development projects;
- (d) Encouraging new economic development or expansions to maximize employment;
- (e) Encouraging the retention of viable existing firms and employment; and
- (f) Providing incentives for expansion of employment opportunities for groups of state residents that have been less successful relative to other groups in efforts to gain permanent employment.

(2010 Ed.)

(2) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to improve state highways, county roads, or city streets for industries considering locating or expanding in this state.

(3) The legislature finds it desirable to provide a process whereby the need for diverse public works improvements necessitated by planned economic development can be addressed in a timely fashion and with coordination among all responsible governmental entities.

(4) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to assist development of telecommunications infrastructure that supports business development, retention, and expansion in the state.

(5) The legislature also finds that the state's economic development efforts can be enhanced by providing funds to improve markets for those recyclable materials representing a large fraction of the waste stream. The legislature finds that public facilities which result in private construction of processing or remanufacturing facilities for recyclable materials are eligible for consideration from the board.

(6) The legislature finds that sharing economic growth statewide is important to the welfare of the state. The ability of communities to pursue business and job retention, expansion, and development opportunities depends on their capacity to ready necessary economic development project plans, sites, permits, and infrastructure for private investments. Project-specific planning, predevelopment, and infrastructure are critical ingredients for economic development. It is, therefore, the intent of the legislature to increase the amount of funding available through the community economic revitalization board and to authorize flexibility for available resources in these areas to help fund planning, predevelopment, and construction costs of infrastructure and facilities and sites that foster economic vitality and diversification. [2008 c 327 § 1. Prior: 1999 c 164 § 101; 1999 c 94 § 5; 1996 c 51 § 1; 1991 c 314 § 21; 1989 c 431 § 61; 1987 c 422 § 1; 1984 c 257 § 1; 1982 1st ex.s. c 40 § 1.]

Findings—Intent—1999 c 164: "The legislature finds that while Washington's economy is currently prospering, economic growth continues to be uneven, particularly as between metropolitan and rural areas. This has created in effect two Washingtons. One afflicted by inadequate infrastructure to support and attract investment, another suffering from congestion and soaring housing prices. In order to address these problems, the legislature intends to use resources strategically to build on our state's strengths while addressing threats to our prosperity." [1999 c 164 § 1.]

Findings—Intent—Part headings and subheadings not law—Effective date—Severability—1999 c 164: See notes following RCW 43.160.010.

Findings—1991 c 314: "The legislature finds that:

(1) Cutbacks in allowable sales of old growth timber in Washington state pose a substantial threat to the region and the state with massive layoffs, loss of personal income, and declines in state revenues;

(2) The timber impact areas are of critical significance to the state because of their leading role in the overall economic well-being of the state and their importance to the quality of life to all residents of Washington, and that these regions require a special state effort to diversify the local economy;

(3) There are key opportunities to broaden the economic base in the timber impact areas including agriculture, high-technology, tourism, and regional exports; and

(4) A coordinated state, local, and private sector effort offers the greatest potential to promote economic diversification and to provide support for new projects within the region.

The legislature further finds that if a special state effort does not take place the decline in allowable timber sales may result in a loss of six thousand logging and milling jobs; two hundred million dollars in direct wages and benefits; twelve thousand indirect jobs; and three hundred million dollars in indirect wages and benefits.

It is the intent of the legislature to develop comprehensive programs to provide diversified economic development and promote job creation and employment opportunities for the citizens of the timber impact areas." [1991 c 314 § 1.]

43.160.060 Loans and grants to political subdivisions and federally recognized Indian tribes for public facilities authorized—Application—Requirements for financial assistance. The board is authorized to make direct loans to political subdivisions of the state and to federally recognized Indian tribes for the purposes of assisting the political subdivisions and federally recognized Indian tribes in financing the cost of public facilities, including development of land and improvements for public facilities, project-specific environmental, capital facilities, land use, permitting, feasibility, and marketing studies and plans; project design, site planning, and analysis; project debt and revenue impact analysis; as well as the construction, rehabilitation, alteration, expansion, or improvement of the facilities. A grant may also be authorized for purposes designated in this chapter, but only when, and to the extent that, a loan is not reasonably possible, given the limited resources of the political subdivision or the federally recognized Indian tribe and the finding by the board that financial circumstances require grant assistance to enable the project to move forward. However, no more than twenty-five percent of all financial assistance approved by the board in any biennium may consist of grants to political subdivisions and federally recognized Indian tribes.

Application for funds shall be made in the form and manner as the board may prescribe. In making grants or loans the board shall conform to the following requirements:

- (1) The board shall not provide financial assistance:
 - (a) For a project the primary purpose of which is to facilitate or promote a retail shopping development or expansion.
 - (b) For any project that evidence exists would result in a development or expansion that would displace existing jobs in any other community in the state.
 - (c) For a project the primary purpose of which is to facilitate or promote gambling.
 - (d) For a project located outside the jurisdiction of the applicant political subdivision or federally recognized Indian tribe.
- (2) The board shall only provide financial assistance:
 - (a) For a project demonstrating convincing evidence that a specific private development or expansion is ready to occur and will occur only if the public facility improvement is made that:
 - (i) Results in the creation of significant private sector jobs or significant private sector capital investment as determined by the board and is consistent with the state comprehensive economic development plan developed by the Washington economic development commission pursuant to chapter 43.162 RCW, once the plan is adopted; and
 - (ii) Will improve the opportunities for the successful maintenance, establishment, or expansion of industrial or commercial plants or will otherwise assist in the creation or retention of long-term economic opportunities;
 - (b) For a project that cannot meet the requirement of (a) of this subsection but is a project that:
 - (i) Results in the creation of significant private sector jobs or significant private sector capital investment as determined by the board and is consistent with the state comprehensive economic development plan developed by the Wash-

ington economic development commission pursuant to chapter 43.162 RCW, once the plan is adopted;

(ii) Is part of a local economic development plan consistent with applicable state planning requirements;

(iii) Can demonstrate project feasibility using standard economic principles; and

(iv) Is located in a rural community as defined by the board, or a rural county;

(c) For site-specific plans, studies, and analyses that address environmental impacts, capital facilities, land use, permitting, feasibility, marketing, project engineering, design, site planning, and project debt and revenue impacts, as grants not to exceed fifty thousand dollars.

(3) The board shall develop guidelines for local participation and allowable match and activities.

(4) An application must demonstrate local match and local participation, in accordance with guidelines developed by the board.

(5) An application must be approved by the political subdivision and supported by the local associate development organization or local workforce development council or approved by the governing body of the federally recognized Indian tribe.

(6) The board may allow de minimis general system improvements to be funded if they are critically linked to the viability of the project.

(7) An application must demonstrate convincing evidence that the median hourly wage of the private sector jobs created after the project is completed will exceed the county-wide median hourly wage.

(8) The board shall prioritize each proposed project according to:

(a) The relative benefits provided to the community by the jobs the project would create, not just the total number of jobs it would create after the project is completed, but also giving consideration to the unemployment rate in the area in which the jobs would be located;

(b) The rate of return of the state's investment, including, but not limited to, the leveraging of private sector investment, anticipated job creation and retention, and expected increases in state and local tax revenues associated with the project;

(c) Whether the proposed project offers a health insurance plan for employees that includes an option for dependents of employees;

(d) Whether the public facility investment will increase existing capacity necessary to accommodate projected population and employment growth in a manner that supports infill and redevelopment of existing urban or industrial areas that are served by adequate public facilities. Projects should maximize the use of existing infrastructure and provide for adequate funding of necessary transportation improvements; and

(e) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007.

(9) A responsible official of the political subdivision or the federally recognized Indian tribe shall be present during board deliberations and provide information that the board requests.

ECONOMIC DEVELOPMENT COMMISSION

Sections

43.162.005	Findings—Intent.
43.162.010	Washington state economic development commission—Membership—Rules.
43.162.015	Executive director.
43.162.020	Duties—Biennial report.

43.162.030	Authority of governor and department of community, trade, and economic development not affected.

43.162.005 Findings—Intent. The legislature finds that Washington's innovation and trade-driven economy has provided tremendous opportunities for citizens of the state, but that there is no guarantee that globally competitive firms will continue to grow and locate in the state. The current economic development system is fragmented among numerous

programs, councils, centers, and organizations with inadequate overall coordination and insufficient guidance built into the system to ensure that the system is responsive to its customers. The current economic development system's data-gathering and evaluation methods are inconsistent and unable to provide adequate information for determining how well the system is performing on a regular basis so the system may be held accountable for its outcomes.

The legislature also finds that developing a comprehensive economic development strategic plan to guide the operation of effective economic development programs, including workforce training, infrastructure development, small business assistance, technology transfer, and export assistance, is vital to the state's efforts to increase the competitiveness of state businesses, encourage employment growth, increase state revenues, and generate economic well-being. There is a need for responsive and consistent involvement of the private sector in the state's economic development efforts. The legislature finds that there is a need for the development of coordination criteria for business recruitment, expansion, and retention activities carried out by the state and local entities. It is the intent of the legislature to create an economic development commission that will provide planning, coordination, evaluation, monitoring, and policy analysis and development for the state economic development system as a whole, and advice to the governor and legislature concerning the state economic development system. [2007 c 232 § 1; 2003 c 235 § 1.]

43.162.010 Washington state economic development commission—Membership—Rules. (1) The Washington state economic development commission is established to oversee the economic development strategies and policies of the *department of community, trade, and economic development.

(2)(a) The Washington state economic development commission shall consist of eleven voting members appointed by the governor as follows: Six representatives of the private sector, one representative of labor, one representative of port districts, one representative of four-year state public higher education, one representative for state community or technical colleges, and one representative of associate development organizations. 43.163.005 Purpose—Construction. Economic development is essential to the health, safety, and welfare of all Washington citizens by broadening and strengthening state and local tax bases, providing meaningful employment opportunities and thereby enhancing the quality of life. Economic development increasingly is dependent upon the ability of small-sized and medium-sized businesses and farms to finance growth and trade activities. Many of these businesses face an unmet need for capital that limits their growth. These unmet capital needs are a problem in both urban and rural areas which cannot be solved by the private sector alone. There presently exist some federal programs, private credit enhancements and other financial tools to complement the private banking industry in providing this needed capital. More research is needed to develop effective strategies to enhance access to capital and thereby stimulate economic development.

It is the purpose of this chapter to establish a state economic development finance authority to act as a financial conduit that, without using state funds or lending the credit of the state or local governments, can issue nonrecourse revenue bonds, and participate in federal, state, and local economic development programs to help facilitate access to needed capital by Washington businesses that cannot otherwise readily obtain needed capital on terms and rates comparable to large corporations, and can help local governments obtain capital more efficiently. It is also a primary purpose of this chapter to encourage the employment and retention of Washington workers at meaningful wages and to develop innovative approaches to the problem of unmet capital needs. This chapter is enacted to accomplish these and related purposes

and shall be construed liberally to carry out its purposes and objectives. [1990 c 53 § 1; 1989 c 279 § 1.]

Findings—Purpose—1994 c 302: "The legislature finds that when public funds are used to support private enterprise, the public may gain through the creation of new jobs, the diversification of the economy, or higher quality jobs for existing workers. The legislature further finds that such returns on public investments are not automatic and that tax-based incentives, in particular, may result in a greater tax burden on businesses and individuals that are not eligible for the public support. It is the purpose of this *chapter to collect information sufficient to allow the legislature and the executive branch to make informed decisions about the merits of existing tax-based incentives and loan programs intended to encourage economic development in the state." [1994 c 302 § 1.]

***Reviser's note:** 1994 c 302 § 2 was vetoed by the governor. 1994 c 302 § 3 is a codification direction and 1994 c 302 § 4 is an emergency clause. The code reviser's office chose not to create a new chapter for the only remaining section, section 1.

(1) The authority may issue its nonrecourse revenue bonds in order to obtain the funds to carry out the programs authorized in this chapter. The bonds shall be special obligations of the authority, payable solely out of the special fund or funds established by the authority for their repayment.

(2) Any bonds issued under this chapter may be secured by a financing document between the authority and the purchasers or owners of such bonds or between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the state.

(a) The financing document may pledge or assign, in whole or in part, the revenues and funds held or to be received by the authority, any present or future contract or other rights to receive the same, and the proceeds thereof.

(b) The financing document may contain such provisions for protecting and enforcing the rights, security, and remedies of bondowners as may be reasonable and proper, including, without limiting the generality of the foregoing, provisions defining defaults and providing for remedies in the event of default which may include the acceleration of maturities, restrictions on the individual rights of action by bondowners, and covenants setting forth duties of and limitations on the authority in conduct of its programs and the management of its property.

(c) In addition to other security provided in this chapter or otherwise by law, bonds issued by the authority may be secured, in whole or in part, by financial guaranties, by insurance or by letters of credit issued to the authority or a trustee or any other person, by any bank, trust company, insurance or surety company or other financial institution, within or without the state. The authority may pledge or assign, in whole or in part, the revenues and funds held or to be received by the authority, any present or future contract or other rights to receive the same, and the proceeds thereof, as security for such guaranties or insurance or for the reimbursement by the authority to any issuer of such letter of credit of any payments made under such letter of credit.

(3) Without limiting the powers of the authority contained in this chapter, in connection with each issue of its obligation bonds, the authority shall create and establish one or more special funds, including, but not limited to debt service and sinking funds, reserve funds, project funds, and such other special funds as the authority deems necessary, useful, or convenient.

obligations of the authority. The bonds shall be special obligations of the authority and shall be payable solely from the special fund or funds created by the authority for their repayment. The issuance of bonds under this chapter shall not obligate, directly, indirectly, or contingently, the state or any political subdivision of the state to levy any taxes or appropriate or expend any funds for the payment of the principal or the interest on the bonds. The substance of the limitations included in this paragraph shall be plainly printed, written, engraved, or reproduced on each bond and in any disclosure document prepared in conjunction with the offer and sale of bonds.

(2) Neither the proceeds of bonds issued under this chapter nor any money used or to be used to pay the principal of, premium, if any, or interest on the bonds shall constitute public money or property. All of such money shall be kept segregated and set apart from funds of the state and any political subdivision of the state and shall not be subject to appropriation or allotment by the state or subject to the provisions of chapter 43.88 RCW.

43.163.160 Nonrecourse revenue bonds—Money received shall be trust funds. All money received by or on behalf of the authority with respect to this issuance of its bonds shall be trust funds to be held and applied solely as provided in this chapter. The authority, in lieu of receiving and applying the moneys itself, may enter into trust agreement or indenture with one or more banks or trust companies having the power and authority to conduct trust business in the state to:

(1) Perform all of any part of the obligations of the authority with respect to: (a) Bonds issued by it; (b) the receipt, investment and application of the proceeds of the bonds and money paid by a participant or available from other sources for the payment of the bonds; (c) the enforcement of the obligations of a borrower in connection with the financing or refinancing of any project; and (d) other matters

relating to the exercise of the authority's powers under this chapter;

(2) Receive, hold, preserve, and enforce any security interest or evidence of security interest granted by a participant for purposes of securing the payment of the bonds; and

(3) Act on behalf of the authority or the owners of bonds of the authority for purposes of assuring or enforcing the payment of the bonds, when due. [1989 c 279 § 17.]

43.163.170 Nonrecourse revenue bonds—Owner and trustee, enforcement of rights. Any owner of bonds of the authority issued under this chapter, and the trustee under any trust agreement or indenture, may, either at law or in equity, by suit, action, mandamus or other proceeding, protect and enforce any of their respective rights, and may become the purchaser at any foreclosure sale if the person is the highest bidder, except to the extent the rights given are restricted by the authority in any bond resolution or trust agreement or indenture authorizing the issuance of the bonds. [1989 c 279 § 18.]

43.163.180 Nonrecourse revenue bonds as legal investment. The bonds or [of] the authority are securities in which all public officers and bodies of this state and all counties, cities, municipal corporations and political subdivisions, all banks, eligible banking organizations, bankers, trust companies, savings banks and institutions, building and loan associations, savings and loan associations, investment companies, insurance companies and associations, and all executors, administrators, guardians, trustees and other fiduciaries may legally invest any sinking funds, moneys or other funds belonging to them or within their control. [1989 c 279 § 19.]

43.163.190 Chapter as an alternative bond issuance method. This chapter provides a complete, additional and alternative method for accomplishing the purposes of this chapter and shall be regarded as supplemental and additional to powers conferred by other laws. The issuance of bonds and refunding bonds under this chapter need not comply with the requirements of any other law applicable to the issuance of bonds. [1989 c 279 § 20.]

43.163.200 Construction. Insofar as the provisions of this chapter are inconsistent with the provisions of any general or special law, or parts thereof, the provisions of this chapter are controlling. [1989 c 279 § 21.]

(b) Eligible persons seeking financial and other assistance under this program shall forward an application, together with an application fee prescribed by rule, to the authority. After receipt and consideration of the report set out in this subsection and after other action as is deemed appropriate, the application shall be approved or denied by the authority. The applicant shall be promptly notified of action by the authority. In making the decision as to approval or denial of an application, priority shall be given to those persons operating or planning to operate businesses of special importance to Washington's economy, including, but not limited to: (i) Existing resource-based industries of agriculture, forestry, and fisheries; (ii) existing advanced technology industries of electronics, computer and instru-

ment manufacturing, computer software, and information and design; and (iii) emerging industries such as environmental technology, biotechnology, biomedical sciences, materials sciences, and optics.

43.167.010 Community preservation and development authorities—Formation—Board of directors. (1) The residents, property owners, employees, or business owners of an impacted community may propose formation of a community preservation and development authority. The proposal to form a community preservation and development authority must be presented in writing to the appropriate legislative committee in both the house of representatives and the senate. The proposal must contain proposed general geographic boundaries that will be used to define the community for the purposes of the authority. Proposals presented after January 1, 2008, must identify in its proposal one or more stable revenue sources that (a) have a nexus with the multiple publicly funded facilities that have adversely impacted the community, and (b) can be used to support future operating or capital projects that will be identified in the strategic plan required under RCW 43.167.030.

(2) Formation of the community preservation and development authority is subject to legislative authorization by statute. The legislature must find that (a) the area within the proposal's geographic boundaries meets the definition of "impacted community" contained in *section 2(4) of this act and (b) those persons that have brought forth the proposal are members of the community as defined in *section 2(1) of this act and, if the authority were approved, would meet the definition of constituency contained in *section 2(3) of this act. For proposals brought after January 1, 2008, the legislature must also find that the community has identified one or more

stable revenue sources as required in subsection (1) of this section. The legislature may then act to authorize the establishment of the community preservation and development authority in law.

(3) The affairs of a community preservation and development authority shall be managed by a board of directors, consisting of the following members:

(d) Two members who are involved in the arts and entertainment within the community;

(e) Two members with knowledge of the community's culture and history;

(f) One member who is involved in a nonprofit or public planning organization that directly serves the impacted community; and

(g) Two representatives of the local legislative authority or authorities, as ex officio members.

(4) No member of the board shall hold office for more than four years. Board positions shall be numbered one through nine, and the terms staggered as follows:

(a) Board members elected to positions one through five shall serve two-year terms, and if reelected, may serve no more than one additional two-year term.

(b) Board members initially elected to positions six through thirteen shall serve a three-year term only.

(c) Board members elected to positions six through thirteen after the initial three-year term shall serve two-year terms, and if reelected, may serve no more than one additional two-year term.

(5) With respect to an authority's initial board of directors: The state legislative delegation and those proposing formation of the authority shall jointly establish a committee to develop a list of candidates to stand for election once the authority has received legislative approval as established in subsection (2) of this section. For the purpose of developing the list and identifying those persons who meet the criteria in subsection (3)(a) through (e) of this section, community shall mean the proposed geographic boundaries as set out in the proposal. The board of directors shall be elected by the constituency during a meeting convened for that purpose by the state legislative delegation.

(6) With respect to subsequent elections of an authority's board of directors: A list of candidates shall be developed by the authority's existing board of directors and the election shall be held during the annual local town hall meeting as required in RCW 43.167.030. [2009 c 516 § 1; 2007 c 501 § 3.]

*Reviser's note: Section 2 of this act was vetoed by the governor.

(b) May not use the funds to support or oppose a candidate, ballot proposition, political party, or political committee. [2009 c 516 § 2; 2007 c 501 § 4.]

*Reviser's note: RCW 42.17.128 was recodified as RCW 42.17A.550 pursuant to 2010 c 204 § 1102, effective January 1, 2012.

Public records: Chapter 42.56 RCW.

43.168.010 Legislative findings and declaration. The legislature finds that:

(1) The economic health and well-being of the state, particularly in areas of high unemployment, economic stagnation, and poverty, is of substantial public concern.

(2) The consequences of minimal economic activity and persistent unemployment and underemployment are serious threats to the safety, health, and welfare of residents of these areas, decreasing the value of private investments and jeopardizing the sources of public revenue.

(3) The economic and social interdependence of communities and the vitality of industrial and economic activity necessitates, and is in part dependent on preventing substantial dislocation of residents and rebuilding the diversification of the areas' economy.

(4) The ability to remedy problems in stagnant areas of the state is beyond the power and control of the regulatory process and influence of the state, and the ordinary operations of private enterprise without additional governmental assistance are insufficient to adequately remedy the problems of poverty and unemployment.

(5) The revitalization of depressed communities requires the stimulation of private investment, the development of new business ventures, the provision of capital to ventures sponsored by local organizations and capable of growth in the business markets, and assistance to viable, but under-financed, small businesses in order to create and preserve jobs that are sustainable in the local economy.

Therefore, the legislature declares there to be a substantial public purpose in providing capital to promote economic development and job creation in areas of economic stagnation, unemployment, and poverty. To accomplish this purpose, the legislature hereby creates the rural Washington loan fund and vests in the *department of community, trade, and economic development the authority to spend federal funds to stimulate the economy of distressed areas. [1999 c 164 § 501; 1985 c 164 § 1.]

***Reviser's note:** The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Findings—Intent—Part headings and subheadings not law—Effective date—Severability—1999 c 164: See notes following RCW 43.160.010.

43.168.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Department" means the department of commerce.

(2) "Director" means the director of commerce.

(3) "Distressed area" means: (a) A rural county; (b) a county which has an unemployment rate which is twenty percent above the state average for the immediately previous three years; (c) a county that has a median household income that is less than seventy-five percent of the state median household income for the previous three years; (d) a metro-

politan statistical area, as defined by the office of federal statistical policy and standards, United States department of commerce, in which the average level of unemployment for the calendar year immediately preceding the year in which an application is filed under this chapter exceeds the average state unemployment for such calendar year by twenty percent; or (e) an area within a county, which area: (i) Is composed of contiguous census tracts; (ii) has a minimum population of five thousand persons; (iii) has at least seventy percent of its families and unrelated individuals with incomes below eighty percent of the county's median income for families and unrelated individuals; and (iv) has an unemployment rate which is at least forty percent higher than the county's unemployment rate. 43.168.040 Approval of applications for federal community development block grant funds for projects. Subject to the restrictions contained in this chapter, the director is authorized to approve applications of local governments for federal community development block grant funds which the local governments would use to make loans to finance business projects within their jurisdictions. Applications approved by the director under this chapter shall conform to applicable federal requirements. [2005 c 136 § 4; 1987 c 461 § 3; 1985 c 164 § 4.]

Savings—Effective date—2005 c 136: See notes following RCW 43.168.020.

43.168.050 Application approval—Conditions and limitations. (1) The director may only approve an application providing a loan for a project which the director finds:

(a) Will result in the creation of employment opportunities, the maintenance of threatened employment, or development or expansion of business ownership by minorities and women;

(b) Will conform to federal rules and regulations governing the spending of federal community development block grant funds;

(c) Will be of public benefit and for a public purpose, and that the benefits, including increased or maintained employment, improved standard of living, the employment of disadvantaged workers, and development or expansion of business ownership by minorities and women, will primarily accrue to residents of the area;

(d) Will probably be successful;

(e) Would probably not be completed without the loan because other capital or financing at feasible terms is unavailable or the return on investment is inadequate.

(2) The director shall, subject to federal block grant criteria, give higher priority to economic development projects that contain provisions for child care.

(3) The director may not approve an application if it fails to provide for adequate reporting or disclosure of financial data to the director. The director may require an annual or other periodic audit of the project books.

(4) The director may require that the project be managed in whole or in part by a local development organization and may prescribe a management fee to be paid to such organization by the recipient of the loan or grant.

(5) The director may approve an application which results in a loan or grant of up to one million dollars.

(6) The director shall fix the terms and rates pertaining to fund loans.

(7) Should there be more demand for loans than funds available for lending, the director shall provide loans for those projects which will lead to the greatest amount of employment or benefit to a community. In determining the "greatest amount of employment or benefit" the director shall also consider the employment which would be saved by its loan and the benefit relative to the community, not just the total number of new jobs or jobs saved.

(8) To the extent permitted under federal law the director shall require applicants to provide for the transfer of all payments of principal and interest on loans to the fund created under this chapter. Under circumstances where the federal law does not permit the director to require such transfer, the director shall give priority to applications where the applicants on their own volition make commitments to provide for the transfer.

(9) The director shall not approve any application to finance or help finance a shopping mall.

(10) For loans not made to minority and women-owned businesses, the director shall make at least eighty percent of the appropriated funds available to projects located in distressed areas, and may make up to twenty percent available to projects located in areas not designated as distressed. For

loans not made to minority and women-owned businesses, the director shall not make funds available to projects located in areas not designated as distressed if the fund's net worth is less than seven million one hundred thousand dollars.

(11) If an objection is raised to a project on the basis of unfair business competition, the director shall evaluate the potential impact of a project on similar businesses located in the local market area. A grant may be denied by the director if a project is not likely to result in a net increase in employment within a local market area.

(12) For loans to minority and women-owned businesses who do not meet the credit criteria, the director may consider nontraditional credit standards to offset past discrimination that has precluded full participation of minority or women-owned businesses in the economy. For applicants with high potential who do not meet the credit criteria, the director shall consider developing alternative borrowing methods. For applicants denied loans due to credit problems, the department shall provide financial counseling within available resources and provide referrals to credit rehabilitation services. In circumstances of competing applications, priority shall be given to members of eligible groups which previously have been least served by this fund. [2005 c 136 § 5; 1993 c 512 § 12; 1990 1st ex.s. c 17 § 74; 1989 c 430 § 9; 1987 c 461 § 4; 1986 c 204 § 2; 1985 c 164 § 5.]

43.168.055 Application priorities. In addition to the requirements of RCW 43.168.050, the department shall, subject to applicable federal funding criteria, give priority to applications that capitalize or recapitalize an existing or new local revolving fund based on criteria established by the department. 43.168.060 Local development organizations—Duties of department—Rules. The department is encouraged to work with local development organizations to promote applications for loans by the fund. The department shall also provide assistance to local development organizations and local governments to identify viable projects for consideration. The director may receive and approve applications on a monthly basis but shall receive and approve applications on at least a quarterly basis for each fiscal year. The director shall make every effort to simplify the loan process for applicants. Department staff shall process and assist in the preparation of applications. Each application shall show

in detail the nature of the project, the types and numbers of jobs to be created, wages to be paid to new employees, and methods to hire unemployed persons from the area. Each application shall contain a credit analysis of the business to receive the loan. The director may respond on short notice to applications of a serious or immediate nature. 43.168.100 Entitlement community grants—Conditions. The director may make grants of state funds to local governments which qualify as "entitlement communities" under the federal law authorizing community development block grants. These grants may only be made on the condition that the entitlement community provide the director with assurances that it will: (1) Spend the grant moneys for purposes and in a manner which satisfies state constitutional requirements; (2) spend the grant moneys for purposes and in a manner which would satisfy federal requirements; and (3) spend at least the same amount of the grant for loans to businesses from the federal funds received by the entitlement community. All loan payments of principal and interest which are transferred under RCW 43.168.050 shall be deposited into the account. Moneys in the account may be spent only after legislative appropriation for loans under this chapter. Any expenditures of these moneys shall conform to federal law. [1999 c 164 § 504; 1992 c 235 § 11; 1985 c 164 § 11.]

43.168.120 Guidelines for use of funds for existing economic development revolving loan funds—Grants to local governments to assist existing economic development revolving loan funds. (1) The department shall develop guidelines for rural Washington loan funds to be used to fund existing economic development revolving loan funds. Consideration shall be given to the selection process for grantees, loan quality criteria, legal and regulatory issues, and ways to minimize duplication between rural Washington loan funds and local economic development revolving loan funds.

(2) If it appears that all of the funds appropriated to the fund for a biennium will not be fully granted to local governments within that biennium, the department may make available up to twenty percent of the eighty percent of the funds available to projects in distressed areas under RCW 43.168.050(10) for grants to local governments to assist existing economic development revolving loan funds in distressed areas. The grants to local governments shall be utilized to make loans to businesses that meet the specifications for loans under this chapter. The local governments shall, to the extent permitted under federal law, agree to convey to the fund the principal and interest payments from existing loans that the local governments have made through their revolving loan funds. Under circumstances where the federal law does not permit the department to require such transfer, the department shall give priority to applications where the applicants on their own volition make commitments to provide for the transfer. 43.168.130 Development of performance standards.

The director shall develop performance standards for judging the effectiveness of the program. Such standards shall include, to the extent possible, examining the effectiveness of grants in regard to:

- (1) Job creation for individuals of low and moderate income;
- (2) Retention of existing employment;
- (3) The creation of new employment opportunities;
- (4) The diversification of the economic base of local communities;
- (5) The establishment of employee cooperatives;
- (6) The provision of assistance in cases of employee buy-outs of firms to prevent the loss of existing employment;
- (7) The degree of risk assumed by the fund, with emphasis on loans which did not receive financing from commercial lenders, but which are considered financially sound. [2005 c 136 § 10; 1998 c 245 § 52; 1987 c 461 § 7.]

43.168.150 Minority and women-owned businesses—Application process—Joint loan guarantee program. Subject to the restrictions contained in this chapter, the director is authorized to approve applications of minority and women-owned businesses for loans or loan guarantees from the fund. Applications approved by the director under this chapter shall conform to applicable federal requirements. The director shall prioritize available funds for loan guarantees rather than loans when possible. The director may enter into agreements with other public or private lending institutions to develop a joint loan guarantee program for minority and women-owned businesses. If such a program is developed, the director may provide funds, in conjunction with the other organizations, to operate the program. This section does not preclude the director from making individual loan guarantees.

To the maximum extent practicable, the funds available under this section shall be made available on an equal basis to

minority and women-owned businesses. The director shall submit to the appropriate committees of the senate and house of representatives quarterly reports that detail the number of loans approved and the characteristics of the recipients by ethnic and gender groups. 43.180.010 Declaration of public policies—Purpose.

It is declared to be the public policy of the state and a recognized governmental function to assist in making affordable and decent housing available throughout the state and by so doing to contribute to the general welfare. Decent housing for the people of our state is a most important public concern. Interest rates and construction costs have made it impossible for many Washington citizens to purchase their own homes. Older people, disabled persons, and low and moderate income families often cannot afford to rent decent housing. There exists throughout the state a serious shortage of safe, sanitary and energy efficient housing available at prices within the financial means of our citizens. General economic development within the state is also impeded by a lack of affordable housing. The state's economy, which is dependent on the timber, wood products, and construction industries, has been damaged by inadequate investment in housing construction and rehabilitation. The result has been high unemployment and economic hardship affecting the prosperity of all the people of the state, particularly those in the wood products industry.

It is the purpose of this chapter to establish a state housing finance commission to act as a financial conduit which, without using public funds or lending the credit of the state or local government, can issue nonrecourse revenue bonds and participate in federal, state, and local housing programs and

thereby make additional funds available at affordable rates to help provide housing throughout the state. It is also a primary purpose of this chapter to encourage the use of Washington state forest products in residential construction. This chapter is enacted to accomplish these and related purposes and shall be liberally construed to carry out its purposes and objectives. [1983 c 161 § 1.]

43.180.020 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Bonds" means the bonds, notes, or other evidences of indebtedness of the commission, the interest paid on which may or may not qualify for tax exemption.

(2) "Certifying authority" means: (a) For improvements involving solar electric systems, the Washington climate and rural energy development center at Washington State University, established under RCW 28B.30.642; or (b) for all other energy efficiency and renewable energy improvements, any utility company or other institution qualified to assess and certify the feasibility and benefit of energy efficiency and renewable energy improvements in a manner that is efficient and minimizes the amount of time or cost.

(3) "Code" means the federal internal revenue code of 1954, as now or hereafter amended, and the regulations and rulings promulgated thereunder.

(4) "Commission" means the Washington state housing finance commission or any board, body, commission, department, or officer succeeding to the principal functions thereof or to whom the powers conferred upon the commission shall be given by law.

(5) "Costs of housing" means all costs related to the development, design, acquisition, construction, reconstruction, leasing, rehabilitation, and other improvements of housing, as determined by the commission.

(6) "Eligible applicant" means, with respect to the sustainable energy trust program, an owner of a residential, agricultural, commercial, state, or municipal property.

(7) "Eligible person" means a person or family eligible in accordance with standards promulgated by the commission. Such persons shall include those persons whose income is insufficient to obtain at a reasonable cost, without financial assistance, decent, safe, and sanitary housing in the area in which the person or family resides, and may include such other persons whom the commission determines to be eligible.

(8) "Energy efficiency improvement" means an installation or modification that is designed to reduce energy consumption in residential, agricultural, commercial, state, or municipal properties. The term includes, but is not limited to: Insulation; storm windows and doors; automatic energy control systems; heating, ventilating, or air conditioning and distribution system modifications or replacements in buildings or central plants; caulking and weather stripping; energy recovery systems; geothermal heat pumps; and day lighting systems.

(9) "Housing" means specific new, existing, or improved residential dwellings within this state or dwellings to be constructed within this state. The term includes land, buildings, and manufactured dwellings, and improvements, furnishings, and equipment, and such other nonhousing facilities, furnish-

ings, equipment, and costs as may be incidental or appurtenant thereto if in the judgment of the commission the facilities, furnishings, equipment and costs are an integral part of the project. Housing may consist of single-family or multi-family dwellings in one or more structures located on contiguous or noncontiguous parcels or any combination thereof. Improvements may include such equipment and materials as are appropriate to accomplish energy efficiency within a dwelling. The term also includes a dwelling constructed by a person who occupies and owns the dwelling, and nursing homes licensed under chapter 18.51 RCW.

(10) "Mortgage" means a mortgage, mortgage deed, deed of trust, security agreement, or other instrument securing a mortgage loan and constituting a lien on or security interest in housing. The property may be held in fee simple or on a leasehold under a lease having a remaining term, at the time the mortgage is acquired, of not less than the term of repayment of the mortgage loan secured by the mortgage. The property may also be housing which is evidenced by an interest in a cooperative association or corporation if ownership of the interest entitles the owner of the interest to occupancy of a dwelling owned by the association or corporation.

(11) "Mortgage lender" means any of the following entities which customarily provide service or otherwise aid in the financing of housing and which are approved as a mortgage lender by the commission: A bank, trust company, savings bank, national banking association, savings and loan association, building and loan association, mortgage banker, mortgage company, credit union, life insurance company, or any other financial institution, governmental agency, municipal corporation, or any holding company for any of the entities specified in this subsection.

(12) "Mortgage loan" means an interest-bearing loan or a participation therein, made to a borrower, for the purpose of financing the costs of housing, evidenced by a promissory note, and which may or may not be secured (a) under a mortgage agreement, (b) under any other security agreement, regardless of whether the collateral is personal or real property, or (c) by insurance or a loan guarantee of a third party. However, an unsecured loan shall not be considered a mortgage loan under this definition unless the amount of the loan is under two thousand five hundred dollars.

(13) "Qualified improvement" means an energy efficiency improvement which has been approved by a certifying authority or a net metering system as defined under RCW 80.60.010. [2009 c 65 § 2; 1990 c 167 § 1; 1983 c 161 § 2.]

Intent—Finding—2009 c 65: "The legislature intends to promote the development of renewable energy technologies and the application of energy efficiency measures by authorizing the issuance of revenue bonds to finance renewable energy and energy efficiency improvement costs. The legislature finds that by providing access to low-cost capital to finance renewable energy and energy efficiency projects, a key barrier is eliminated." [2009 c 65 § 1.]

43.180.030 Bonds not debt of state. Bonds issued under this chapter shall be issued in the name of the commission. The bonds shall not be obligations of the state of Washington and shall be obligations only of the commission payable from the special fund or funds created by the commission for their payment. Such funds shall not be or constitute public moneys or funds of the state of Washington but at all times shall be kept segregated and set apart from other funds.

Bonds issued under this chapter shall contain a recital on their face to the effect that payment of the principal of, interest on, and prepayment premium, if any, on the bonds, shall be a valid claim only as against the special fund or funds relating thereto, that neither the faith and credit nor the taxing power of the state or any municipal corporation, subdivision, or agency of the state, other than the commission as set forth in this chapter, is pledged to the payment of the principal of, interest on, and prepayment premium, if any, on the bonds.

Contracts entered into by the commission shall be entered into in the name of the commission and not in the name of the state of Washington. The obligations of the commission under the contracts shall be obligations only of the commission and are not in any way obligations of the state of Washington. [1983 c 161 § 3.]

43.180.040 Commission created. (1) There is hereby established a public body corporate and politic, with perpetual corporate succession, to be known as the Washington state housing finance commission. The commission is an instrumentality of the state exercising essential government functions and, for purposes of the code, acts as a constituted authority on behalf of the state when it issues bonds pursuant to this chapter. The commission is a "public body" within the meaning of RCW 39.53.010.

(2) The commission shall consist of the following voting members:

- (a) The state treasurer, ex officio;
- (b) The *director of community, trade, and economic development, ex officio;
- (c) An elected local government official, ex officio, with experience in local housing programs, who shall be appointed by the governor with the consent of the senate;
- (d) A representative of housing consumer interests, appointed by the governor with the consent of the senate;

The commission may periodically update the plan.

The commission shall adopt rules designed to result in the use of bond proceeds in a manner consistent with the plan. The commission may periodically update its rules.

Findings—Effective date—2010 c 2: See notes following RCW 41.06.070.

43.180.090 Selection of bond counsel—Written policies to be adopted. (1) The commission shall adopt written policies to provide for the selection of bond counsel. The policies shall provide for the creation and maintenance of a roster of attorneys whom the commission believes possess the requisite special expertise and professional standing to provide bond counsel opinions which would be accepted by the underwriters, bondholders, and other members of the financial community, and which would be in furtherance of the public interest in obtaining the lowest possible interest rates on the bonds issued by the commission. Any attorney may apply to have his or her name placed on the roster, but may not be placed on the roster unless the attorney demonstrates to the commission's satisfaction that the attorney would issue the kind of opinions required by this section.

(2) Prior to selecting an attorney or attorneys to provide bond counsel services, the commission shall provide all attorneys on the roster with a notice of its intentions to select bond counsel and shall invite each of them to submit to the commission his or her fee schedule for providing bond counsel services. The commission shall have wide discretion in selecting the attorney or attorneys it considers to be most appropriate to provide the services, but in the exercise of this discretion the commission shall consider all submitted fee schedules and the public interest in achieving both savings in bond counsel fees and issuance of bonds on terms most favorable to the commission. At least once every two calendar years, the commission shall select anew an attorney or attorneys to serve as bond counsel. However, the commission may retain an attorney for longer than two years when necessary to complete work on a particular bond issue. An attorney previously retained may be selected again but only after the commission has provided other attorneys on the roster with an opportunity to be selected and has made the fee schedule review required under this subsection. In addition to or as an alternative to retaining counsel for a period of time, the commission may appoint an attorney to serve as counsel in respect to only a particular bond issue. [1983 c 161 § 9.]

43.180.100 Selection of underwriters—Written policies to be adopted. (1) The commission shall adopt written policies to provide for the selection of underwriters. The policies shall provide for the creation of a roster of underwriters whom the commission believes possess the requisite special expertise and professional standing to provide bond marketing services which would be accepted by bondholders and other members of the financial community, and which would be in furtherance of the public interest in marketing the commission's bonds at the lowest possible costs. Any underwriter may apply to have its name placed on the roster, but may not be placed on the roster unless it demonstrates to the commis-

sion's satisfaction that it meets the requirements of this section.

(2) Whenever the commission decides that it needs the services of an underwriter, it shall provide all underwriters on the roster with a notice of its intentions and shall invite each of them to submit to the commission an itemization of its fees and other charges for providing underwriting services on the issue. The itemization shall be by categories designed by the commission. The commission shall have wide discretion in selecting the underwriter it considers to be most appropriate to provide the services, but in the exercise of this discretion the commission shall consider the underwriter's fees and other charges and the public interest in achieving both savings in the total costs of underwriting services and issuance of bonds on terms most favorable to the commission. [1983 c 161 § 10.]

43.180.110 Review of initial policies adopted under RCW 43.180.090 and 43.180.100—Adoption—Change.

The commission shall submit the initial policies adopted under RCW 43.180.090 and 43.180.100 to the chief clerk of the house and the secretary of the senate for transmittal to and review by the appropriate standing committees and the joint administrative rules review committee. By January 1, 1984 the commission shall have adopted policies in the form of rules and regulations under chapter 34.05 RCW. Such rules and regulations may only be changed or revised in accordance with chapter 34.05 RCW. [1983 c 161 § 11.]

43.180.120 Rules for fair allocation of bond proceeds for nonrental single family housing.

The legislature recognizes that the demand for mortgage loans for nonrental single family housing will probably greatly exceed the supply of bond proceeds available to satisfy the demand. Therefore, the commission shall adopt rules providing procedures to assure that the bond proceeds available for that kind of housing shall be made available to qualified mortgagors in a fair and equitable manner. [1983 c 161 § 12.]

43.180.130 Protection of bondholders—Mortgage insurance.

The commission is encouraged to adopt policies which will assure that bondholders will be protected against the failure to make mortgage payments financed under this chapter. Such policies may require, among other things, mortgage insurance. [1983 c 161 § 13.]

43.180.140 Rules for energy efficiency. The commission shall adopt rules providing for financing assistance to implement cost-effective energy efficiency improvements. [1983 c 161 § 14.]

43.180.150 Bond issues—Terms—Issuance—Purchase, etc.

(1) The commission's bonds shall bear such date or dates, mature at such time or times, be in such denominations, be in such form, be registered or registrable in such manner, be made transferable, exchangeable, and interchangeable, be payable in such medium of payment, at such place or places, be subject to such terms of redemption, bear such fixed or variable rate or rates of interest, be payable at such time or times, and be sold in such manner and at such

price or prices, as the commission determines. The bonds shall be executed by the chair, by either its duly elected secretary or its treasurer, and by the trustee or paying agent if the commission determines to use a trustee or paying agent for the bonds. Execution of the bonds may be by manual or facsimile signature.

(2) The bonds of the commission shall be subject to such terms, conditions, covenants, and protective provisions as are found necessary or desirable by the commission, including, but not limited to, pledges of the commission's assets, setting aside of reserves, limitations on additional forms of indebtedness, and the mortgaging of all or any part of the commission's real or personal property, then owned or thereafter acquired, and other provisions the commission finds are necessary or desirable for the security of bond holders.

(3) Any security interest created in the unexpended bond proceeds and in the special funds created by the commission shall be immediately valid and binding against such moneys and any securities in which such moneys may be invested without commission or trustee possession thereof, and the security interest shall be prior to any party having any competing claim in such moneys or securities, without filing or recording pursuant to *chapter 62A.9 RCW and regardless of whether the party has notice of the security interest.

(4) When issuing bonds, the commission may provide for the future issuance of additional bonds or parity debt on a parity with outstanding bonds, and the terms and conditions of their issuance. The commission may refund or advance refund any bond of the commission in accordance with chapter 39.53 RCW or issue bonds with a subordinate lien against the fund or funds securing outstanding bonds.

(5) The chair of the state finance committee or the chair's designee shall be notified in advance of the issuance of bonds by the commission in order to promote the orderly offering of obligations in the financial markets.

(6) The members of the commission and any person executing the bonds are not liable personally on the indebtedness or subject to any personal liability or accountability by reason of the issuance thereof.

(7) The commission may, out of any fund available therefor, purchase its bonds in the open market. [1983 c 161 § 15.]

**Reviser's note:* Chapter 62A.9 RCW was repealed in its entirety by 2000 c 250 § 9A-901, effective July 1, 2001. For later enactment, see chapter 62A.9A RCW.

43.180.160 Debt limitation—Washington works housing program.

(1) The total amount of outstanding indebtedness of the commission may not exceed six billion dollars at any time. The calculation of outstanding indebtedness shall include the initial principal amount of an issue and shall not include interest that is either currently payable or that accrues as a part of the face amount of an issue payable at maturity or earlier redemption. Outstanding indebtedness shall not include notes or bonds as to which the obligation of the commission has been satisfied and discharged by refunding or for which payment has been provided by reserves or otherwise.

(2)(a) The Washington works housing program is created to increase opportunities for nonprofit organizations and public agencies to purchase, acquire, build, and own real

property to be used for affordable housing for low and moderate-income households. The Washington works housing program is intended to provide access to new funding mechanisms and build long-term community equity by increasing the stock of permanently affordable housing owned by non-profit organizations and public agencies.

(b) The Washington works housing program is intended to provide these opportunities for public agencies and non-profit organizations, including those materially participating as a managing member or general partner of a partnership, limited liability company, or equivalent organization, through the issuance of tax exempt or taxable revenue bonds issued by the commission in conjunction with a subsidy necessary to make bond issues to finance affordable housing properties financially feasible. The program is intended to provide financing for affordable housing that will meet the following income and rent restrictions during the period of initial bond indebtedness and thereafter:

(c) During the period of initial bond indebtedness under the program, the owner of the property must meet one of the following requirements: A minimum of twenty percent of the units will be occupied by households earning less than fifty percent of area median income and an additional thirty-one percent of the units will be occupied by persons earning less than eighty percent of area median income; or forty percent of the units will be occupied by households earning less than sixty percent of area median income and an additional eleven percent of the units will be occupied by households earning less than eighty percent of area median income.

(d) After the initial bond indebtedness is retired, the rents charged for units in the project will be adjusted to be sufficient to pay reasonable operation and maintenance expenses, including necessary capital needs, and to make reasonable deposits into a reserve account with the intent of providing affordable housing to very low or low-income households for the remaining useful life of the property. The reasonableness of the rent levels must be periodically approved by the commission based on information provided by the owner of the property about income, expenses, and necessary reserve levels. The determination of the commission regarding the reasonableness of the rent levels will be final.

(e) The commission will enter into a recorded regulatory agreement with the borrower at the time of the issuance of bonds under the program for the purpose of ensuring that the property will meet the income and rent restrictions established in this section. The commission may charge such compliance fees as necessary to ensure enforcement of the income and rent restrictions during the useful life of the property.

(3) One billion dollars of the outstanding indebtedness of the commission is for the primary purpose of implementing the Washington works housing program.

(4) If no subsidies are available to make the program in subsection (2) of this section feasible, then the commission may pass a resolution stating these facts and authorize the use of a portion of the one billion dollars of indebtedness intended for the program to support its other bond programs until such time as the one billion dollars is exhausted or subsidies are available to make the program feasible. 43.180.170 Bond issues—Disposition of proceeds—Special fund. Proceeds from the sale of all bonds issued under this chapter received by the commission shall be deposited forthwith by the commission in any trust company, savings bank, savings and loan association, or bank having the powers of a trust company within or without the state, in a special fund or funds established for the particular purposes for which the bonds were issued and sold, which money shall not be funds of the state of Washington. Such fund or funds shall at all times be segregated and set apart from all other funds and held in trust for the purposes for which such bonds were issued as determined by the commission. Money other than bond sale proceeds received by the commission for these same purposes, such as private contributions or grants from the federal government, may be deposited in such fund or funds. Proceeds received from the sale of the bonds may also be used to defray the expenses of the commission in connection with and incidental to the issuance and sale of bonds, as well as expenses for studies, surveys, estimates, plans, inspections, and examinations of or incidental to the purposes for which the bonds were issued, and other costs advanced therefor by third parties or by the commission. In lieu of the commission receiving and handling these moneys in the manner outlined in this section, the commission may appoint trustees, depositories, paying agents, and other financial institutions within or without the state to perform the functions outlined and to receive, hold, disburse, invest, and reinvest such funds on its behalf and for the protection of the bondholders. [1983 c 161 § 17.]

43.180.180 Bond issues—Disposition of revenues—Special trust fund. All revenues received by the commission including funds received from contributions or grants or in any other form to pay principal of and interest on bonds or for other bond requirements such as reserves shall be deposited by the commission in any trust company, savings bank, savings and loan association, or bank having the powers of a trust company within or without the state, to the credit of a special trust fund or funds. The commission may establish a bond fund or funds, and a reserve, sinking fund and other accounts therein, for payment of principal and interest and for other special requirements of the bonds as determined by the commission. In lieu of the commission receiving and handling these moneys as outlined in this section, the commission may appoint trustees, depositories, paying agents, and other financial institutions to perform the functions outlined and to receive, hold, disburse, invest, and reinvest such funds on its behalf and for the protection of the bondholders. Such revenues and funds, whether received and held by the commission or by others on its behalf, shall not be or constitute public funds of the state of Washington but at all times shall be kept segregated and apart from all other funds. [1983 c 161 § 18.]

43.180.190 Legal investments. Bonds issued under this chapter are hereby made securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies in their commercial departments, savings banks, cooperative banks, banking associations, investment companies, executors, trustees and other fiduciaries, and all other persons whatsoever who are now or may hereafter be authorized to invest in obligations of the state may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities which may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivisions of the state for any purpose for which the deposit of bonds and other obligations of the state are now or may hereafter be authorized by law. [1983 c 161 § 19.]

43.180.200 Internal revenue code. For purposes of the code:

(1) The legislature reserves the right at any time to alter or change the structure, organization, programs, or activities of the commission and to terminate the commission, so long as the action does not impair any outstanding contracts entered into by the commission;

(2) Any net earnings of the commission beyond that necessary to retire its bonds and to carry out the purposes of this chapter shall not inure to the benefit of any person other than the state;

(3) Upon dissolution of the commission, title to all of its remaining property shall vest in the state;

(4) The commission constitutes the only housing finance agency of the state of Washington; and

(5) In order to take advantage of the maximum amount of tax exempt bonds for housing financing available pursuant to the code, any state ceiling with respect to housing shall be allocated in accordance with the following formula:

(a) Eighty percent of the state ceiling shall be allocated to the commission and twenty percent shall be allocated to the other issuing authorities in the state.

(b) The allocation to the issuing authorities other than the commission shall be distributed to such issuing authorities in amounts as determined following public notice by the *department of community, trade, and economic development pursuant to rules promulgated by it. The distribution shall be in response to applications received from such issuing authorities and shall be based on the following factors: (i) The amount of housing to be made available by such applicant; (ii) the population within the jurisdiction of the applicant; (iii) coordination with other applicable federal and state housing programs; (iv) the likelihood of implementing the proposed financing during that year; and (v) consistency with the plan of the commission. On or before February 1 of each year, the *department of community, trade, and economic development shall distribute the state ceiling allocation among such issuing authorities and any unused portion shall be added to the allocation of the commission. Each issuing authority other than the commission shall confirm its allocation distribution by providing to the *department of community, trade, and economic development no later than June 1 a copy of an executed bond purchase contract or alternative documentation deemed sufficient by the commission to evi-

dence the reasonable likelihood of the allocation distribution being fully used. Any portion of such allocation not so confirmed shall be added to the allocation of the commission on July 1. Prior to July 1, the commission shall provide written notice of the allocation decrease to the affected issuing authority. The reallocation shall not limit the authority of the commission to assign a portion of its allocation pursuant to subsection (5)(c) of this section.

(c) The commission may assign a portion of its allocation to another issuing agency. [1995 c 399 § 99; 1986 c 264 § 3; 1985 c 6 § 15; 1984 c 28 § 1; 1983 c 161 § 20.]

(2) Requests the state investment board to make investments, within its policies and investment guidelines, in mortgage-backed securities that are collateralized by loans made within the state of Washington; and

The legislature also finds that the average age of existing farmers is increasing, the number of full-time commercial farms is decreasing, and an increasing concern that there will be insufficient young people who have both the capability and interest to fulfill the needs for the next generation.

The legislature finds that there are a significant number of new small farms in the state and a significant enrollment in agricultural courses offered by public community colleges and universities and the beginning farmer program offered by Washington State University cooperative extension.

The purpose of this act is to establish a program to test the feasibility, interest, and results of a beginning farmer loan program." [2005 c 120 § 1.]

Donations of surplus state property: RCW 43.19.1920.

Funding: RCW 43.79.201 and 79.02.410.

43.185.010 Findings. The legislature finds that current economic conditions, federal housing policies and declining resources at the federal, state, and local level adversely affect the ability of low and very low-income persons to obtain safe, decent, and affordable housing.

The legislature further finds that members of over one hundred twenty thousand households live in housing units which are overcrowded, lack plumbing, are otherwise threatening to health and safety, and have rents and utility payments which exceed thirty percent of their income.

The legislature further finds that minorities, rural households, and migrant farm workers require housing assistance at a rate which significantly exceeds their proportion of the general population.

The legislature further finds that one of the most dramatic housing needs is that of persons needing special housing-related services, such as the mentally ill, recovering alcoholics, frail elderly persons, families with members who have disabilities, and single parents. These services include medical assistance, counseling, chore services, and child care.

The legislature further finds that housing assistance programs in the past have often failed to help those in greatest need.

The legislature declares that it is in the public interest to establish a continuously renewable resource known as the housing trust fund and housing assistance program to assist low and very low-income citizens in meeting their basic housing needs, and that the needs of very low-income citizens should be given priority and that whenever feasible, assistance should be in the form of loans. [1991 c 356 § 1; 1986 c 298 § 1.]

43.185.015 Housing assistance program. There is created within the department the housing assistance program to carry out the purposes of this chapter. [1995 c 399 § 100; 1991 c 356 § 2.]

43.185.020 Definitions. "Department" means the department of commerce. "Director" means the director of the department of commerce. [2009 c 565 § 37; 1995 c 399 § 101; 1986 c 298 § 3.]

43.185.030 Washington housing trust fund. There is hereby created in the state treasury an account to be known as the Washington housing trust fund. The housing trust fund shall include revenue from the sources established by this chapter, appropriations by the legislature, private contributions, repayment of loans, and all other sources. [1991 sp.s. c 13 § 87; 1991 c 356 § 3; 1987 c 513 § 6; 1986 c 298 § 2.]

43.185.120 Protection of state's interest. The department shall adopt policies to ensure that the state's interest will be protected upon either the sale or change of use of projects financed in whole or in part under RCW 43.185.050(2) (a), (i), and (j). These policies may include, but are not limited to: (1) Requiring a share of the appreciation in the project in proportion to the state's contribution to the project; (2) requiring a lump-sum repayment of the loan or grant upon the sale or change of use of the project; or (3) requiring a deferred payment of principal or principal and interest on loans after a specified time period. [1991 c 356 § 7.]

43.185.130 Application process—Distribution procedure. The application process and distribution procedure for the allocation of funds are the same as the competitive application process and distribution procedure for the housing trust fund, described in this chapter and chapter 43.185A RCW, except for the funds applied to the homeless families services fund created in RCW 43.330.167, dollars appropriated to weatherization administered through the energy matchmaker program, dollars appropriated for housing vouchers for homeless persons, victims of domestic violence, and low-income persons or seasonal farm workers, and dollars appropriated to any program to provide financial assistance for grower-provided on-farm housing for low-income migrant or seasonal farm workers. [2006 c 349 § 3.]

Finding—2006 c 349: "The legislature finds that Washington is experiencing an affordable housing crisis and that this crisis is growing exponentially every year as the population of the state expands and housing values increase at a rate that far exceeds most households' proportionate increase in income.

The fiscal and societal costs of the lack of adequate affordable housing are high for both the public and private sectors. Current levels of funding for affordable housing programs are inadequate to meet the housing needs of many low-income Washington households." [2006 c 349 § 1.]

43.185.140 Findings—Review of all housing properties—Energy audits. (1) The legislature finds that growing preservation and rehabilitation needs in the housing trust fund property portfolio provide opportunities to advance energy efficiency and weatherization efforts for low-income individuals in Washington state while protecting the state's six hundred million dollars in affordable housing investments. Preservation of existing affordable housing, when done in conjunction with weatherization activities, is a cost-effective, prudent, and environmentally friendly strategy to ensure that low-income housing remains durable, safe, and affordable. Therefore, the legislature intends that where federal funds are available for increasing and improving energy efficiency of low-income housing that these funds must be utilized, subject to federal requirements, for energy audits

and implementing energy efficiency measures in the state housing trust fund real estate portfolio.

(2) The department shall review all housing properties in the housing trust fund real estate portfolio and identify those in need of major renovation or rehabilitation. In its review, the department shall survey property owners for information including, but not limited to, the age of the building and the type of heating, cooling, plumbing, and electrical systems contained in the property. The department shall prioritize all renovation or rehabilitation projects identified in the review by the department's ability to:

(a) Achieve the greatest possible expected monetary and energy savings by low-income households and other energy consumers over the greatest period of time;

(b) Promote the greatest possible health and safety improvements for residents of low-income households; and

(c) Leverage, to the extent feasible, technologically advanced and environmentally friendly sustainable technologies, practices, and designs.

(3) Subject to the availability of amounts appropriated for this specific purpose, the department shall use the prioritization of potential energy efficiency needs and opportunities in subsection (2) of this section to make offers of energy audit services to project owners and operators. The department shall use all practicable means to achieve the completion of energy audits in at least twenty-five percent of the properties in its portfolio that exceed twenty-five years in age, by June 30, 2011. Where the energy audits identify cost-effective weatherization and other energy efficiency measures, the department shall accord a priority within appropriated funding levels to include funding for energy efficiency improvements when the department allocates funding for renovation or rehabilitation of the property. [2009 c 379 § 301.]

Finding—Intent—Effective date—2009 c 379: See notes following RCW 70.260.010.

43.185.900 Severability—1986 c 298. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1986 c 298 § 13.]

43.185.910 Conflict with federal requirements—1991 c 356. If any part of this act is found to be in conflict with federal requirements which are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. The rules under this act shall meet federal requirements which are a necessary condition to the receipt of federal funds by the state. [1991 c 356 § 8.]
