dred thirty-six thousand dollars. The amount of payments to individual hospitals under this section must be determined using a methodology that provides each hospital with a proportional allocation of the group's total amount of medicaid and state children's health insurance program payments determined from claims and encounter data using the same general methodology set forth in RCW 74.60.120 (3) and (4). Payments must be made after the authority determines a hospital's payments under RCW 74.60.110. These payments shall be in addition to any other amount payable with respect to services provided by critical access hospitals and shall not reduce any other payments to critical access hospitals. The authority shall provide a report of such payments to the Washington state hospital association within thirty days after payments are made. 74.60.120 Direct supplemental payments to hospitals. (Expires July 1, 2019.) (1) In each state fiscal year, commencing upon satisfaction of the applicable conditions in RCW 74.60.150(1), the authority shall make supplemental payments directly to Washington hospitals, separately for inpatient and outpatient fee-for-service medicaid services, as follows:

(a) For inpatient fee-for-service payments for prospective payment hospitals other than psychiatric or rehabilitation hospitals, twenty-nine million one hundred sixty-two thousand five hundred dollars per state fiscal year plus federal matching funds;

(b) For outpatient fee-for-service payments for prospective payment hospitals other than psychiatric or rehabilitation hospitals, thirty million dollars per state fiscal year plus federal matching funds;

(c) For inpatient fee-for-service payments for psychiatric hospitals, eight hundred seventy-five thousand dollars per state fiscal year plus federal matching funds;

(d) For inpatient fee-for-service payments for rehabilitation hospitals, two hundred twenty-five thousand dollars per state fiscal year plus federal matching funds;

(e) For inpatient fee-for-service payments for border hospitals, two hundred fifty thousand dollars per state fiscal year plus federal matching funds; and

(f) For outpatient fee-for-service payments for border hospitals, two hundred fifty thousand dollars per state fiscal year plus federal matching funds.

(2) If the amount of inpatient or outpatient payments under subsection (1) of this section, when combined with federal matching funds, exceeds the upper payment limit, payments to each category of hospital must be reduced proportionately to a level where the total payment amount is consistent with the upper payment limit. Funds under this chapter unable to be paid to hospitals under this section because of the upper payment limit must be paid to managed care organizations under RCW 74.60.130, subject to the limitations in this chapter.

(3) The amount of such fee-for-service inpatient payments to individual hospitals within each of the categories

identified in subsection (1)(a), (c), (d), and (e) of this section must be determined by:

(a) Applying the medicaid fee-for-service rates in effect on July 1, 2009, without regard to the increases required by chapter 30, Laws of 2010 1st sp. sess. to each hospital's inpatient fee-for-services claims and medicaid managed care encounter data for the base year;

(b) Applying the medicaid fee-for-service rates in effect on July 1, 2009, without regard to the increases required by chapter 30, Laws of 2010 1st sp. sess. to all hospitals' inpatient fee-for-services claims and medicaid managed care encounter data for the base year; and

(c) Using the amounts calculated under (a) and (b) of this subsection to determine an individual hospital's percentage of the total amount to be distributed to each category of hospital.

(4) The amount of such fee-for-service outpatient payments to individual hospitals within each of the categories identified in subsection (1)(b) and (f) of this section must be determined by:

(a) Applying the medicaid fee-for-service rates in effect on July 1, 2009, without regard to the increases required by chapter 30, Laws of 2010 1st sp. sess. to each hospital's outpatient fee-for-services claims and medicaid managed care encounter data for the base year;

(b) Applying the medicaid fee-for-service rates in effect on July 1, 2009, without regard to the increases required by chapter 30, Laws of 2010 1st sp. sess. to all hospitals' outpatient fee-for-services claims and medicaid managed care encounter data for the base year; and

(c) Using the amounts calculated under (a) and (b) of this subsection to determine an individual hospital's percentage of the total amount to be distributed to each category of hospital.

(5) Sixty days before the first payment in each subsequent fiscal year, the authority shall provide each hospital and the Washington state hospital association with an explanation of how the amounts due to each hospital under this section were calculated.

(6) Payments must be made in quarterly installments on or about the last day of every quarter.

(7) A prospective payment system hospital commencing operations after January 1, 2009, is eligible to receive payments in accordance with this section after becoming an eligible new prospective payment system hospital as defined in RCW 74.60.010.

(8) Payments under this section are supplemental to all other payments and do not reduce any other payments to hospitals. [2015 2nd sp.s. c 5 § 7; 2014 c 143 § 2; 2013 2nd sp.s. c 17 § 11; 2010 1st sp.s. c 30 § 13.]

Effective date—2015 2nd sp.s. c 5: See note following RCW 74.60.005.

Effective date—2014 c 143: See note following RCW 74.60.030.

74.60.130 Managed care capitation payments. (Expires July 1, 2019.) (1) For state fiscal year 2016 and for each subsequent fiscal year, commencing within thirty days after satisfaction of the conditions in RCW 74.60.150(1) and subsection (5) of this section, the authority shall increase capitation payments in a manner consistent with federal contracting requirements to managed care organizations by an

amount at least equal to the amount available from the fund after deducting disbursements authorized by RCW 74.60.020(4) (c) through (f) and payments required by RCW 74.60.080 through 74.60.120. The capitation payment under this subsection must be no less than ninety-six million dollars per state fiscal year plus the maximum available amount of federal matching funds. The initial payment following satisfaction of the conditions in RCW 74.60.150(1) must include all amounts due from July 1, 2015, to the end of the calendar month during which the conditions in RCW 74.60.150(1) are satisfied. Subsequent payments shall be made monthly.

(2) Payments to individual managed care organizations shall be determined by the authority based on each organization's or network's enrollment relative to the anticipated total enrollment in each program for the fiscal year in question, the anticipated utilization of hospital services by an organization's or network's medicaid enrollees, and such other factors as are reasonable and appropriate to ensure that purposes of this chapter are met.

(3) If the federal government determines that total payments to managed care organizations under this section exceed what is permitted under applicable medicaid laws and regulations, payments must be reduced to levels that meet such requirements, and the balance remaining must be applied as provided in RCW 74.60.050. Further, in the event a managed care organization is legally obligated to repay amounts distributed to hospitals under this section to the state or federal government, a managed care organization may recoup the amount it is obligated to repay under the medicaid program from individual hospitals by not more than the amount of overpayment each hospital received from that managed care organization.

(4) Payments under this section do not reduce the amounts that otherwise would be paid to managed care organizations: PROVIDED, That such payments are consistent with actuarial soundness certification and enrollment.

(5) Before making such payments, the authority shall require medicaid managed care organizations to comply with the following requirements:

(a) All payments to managed care organizations under this chapter must be expended for hospital services provided by Washington hospitals, which for purposes of this section includes psychiatric and rehabilitation hospitals, in a manner consistent with the purposes and provisions of this chapter, and must be equal to all increased capitation payments under this section received by the organization or network, consistent with actuarial certification and enrollment, less an allowance for any estimated premium taxes the organization is required to pay under Title 48 RCW associated with the payments under this chapter;

(b) Managed care organizations shall expend the increased capitation payments under this section in a manner consistent with the purposes of this chapter, with the initial expenditures to hospitals to be made within thirty days of receipt of payment from the authority. Subsequent expenditures by the managed care plans are to be made before the end of the quarter in which funds are received from the authority;

(c) Providing that any delegation or attempted delegation of an organization's or network's obligations under agreements with the authority do not relieve the organization or

network of its obligations under this section and related contract provisions.

(6) No hospital or managed care organizations may use the payments under this section to gain advantage in negotiations.

(7) No hospital has a claim or cause of action against a managed care organization for monetary compensation based on the amount of payments under subsection (5) of this section.

(8) If funds cannot be used to pay for services in accordance with this chapter the managed care organization or network must return the funds to the authority which shall return them to the hospital safety net assessment fund. [2015 2nd sp.s. c 5 § 8; 2014 c 143 § 3; 2013 2nd sp.s. c 17 § 12; 2010 1st sp.s. c 30 § 14.]

74.60.150 Conditions. (Expires July 1, 2019.) (1) The assessment, collection, and disbursement of funds under this chapter shall be conditional upon:

(a) Final approval by the centers for medicare and medicaid services of any state plan amendments or waiver requests that are necessary in order to implement the applicable sections of this chapter including, if necessary, waiver of the broad-based or uniformity requirements as specified under section 1903(w)(3)(E) of the federal social security act and 42 C.F.R. 433.68(e);

(b) To the extent necessary, amendment of contracts between the authority and managed care organizations in order to implement this chapter; and

(c) Certification by the office of financial management that appropriations have been adopted that fully support the rates established in this chapter for the upcoming fiscal year.

(2) This chapter does not take effect or ceases to be imposed, and any moneys remaining in the fund shall be refunded to hospitals in proportion to the amounts paid by such hospitals, if and to the extent that any of the following conditions occur:

(a) The federal department of health and human services and a court of competent jurisdiction makes a final determination, with all appeals exhausted, that any element of this chapter, other than RCW 74.60.100, cannot be validly implemented;

(b) Funds generated by the assessment for payments to prospective payment hospitals or managed care organizations are determined to be not eligible for federal match;

(c) Other funding sufficient to maintain aggregate payment levels to hospitals for inpatient and outpatient services covered by medicaid, including fee-for-service and managed care, at least at the levels the state paid for those services on July 1, 2015, as adjusted for current enrollment and utilization is not appropriated or available;

(d) Payments required by this chapter are reduced, except as specifically authorized in this chapter, or payments are not made in substantial compliance with the time frames set forth in this chapter; or

(e) The fund is used as a substitute for or to supplant other funds, except as authorized by RCW 74.60.020. [2015 2nd sp.s. c 5 § 9; 2013 2nd sp.s. c 17 § 15; 2010 1st sp.s. c 30 § 17.]

74.60.160 Contracting with health care authority. (Expires July 1, 2019.) (1) The legislature intends to provide the hospitals with an opportunity to contract with the authority each fiscal biennium to protect the hospitals from future legislative action during the biennium that could result in hospitals receiving less from supplemental payments, increased managed care payments, disproportionate share hospital payments, or access payments than the hospitals expected to receive in return for the assessment based on the biennial appropriations and assessment legislation.

(2) Each odd-numbered year after enactment of the biennial omnibus operating appropriations act, the authority shall offer to enter into a contract or to extend an existing contract for the period of the fiscal biennium beginning July 1st with a hospital that is required to pay the assessment under this chapter. The contract must include the following terms:

(a) The authority must agree not to do any of the following:

(i) Increase the assessment from the level set by the authority pursuant to this chapter on the first day of the contract period for reasons other than those allowed under RCW 74.60.050(2)(e);

(ii) Reduce aggregate payment levels to hospitals for inpatient and outpatient services covered by medicaid, including fee-for-service and managed care, adjusting for changes in enrollment and utilization, from the levels the state paid for those services on the first day of the contract period;

(iii) For critical access hospitals only, reduce the levels of disproportionate share hospital payments under RCW 74.60.110 or access payments under RCW 74.60.100 for all critical access hospitals below the levels specified in those sections on the first day of the contract period;

(iv) For prospective payment system, psychiatric, and rehabilitation hospitals only, reduce the levels of supplemental payments under RCW 74.60.120 for all prospective payment system hospitals below the levels specified in that section on the first day of the contract period unless the supplemental payments are reduced under RCW 74.60.120(2);

(v) For prospective payment system, psychiatric, and rehabilitation hospitals only, reduce the increased capitation payments to managed care organizations under RCW 74.60.130 below the levels specified in that section on the first day of the contract period unless the managed care payments are reduced under RCW 74.60.130(3); or

(vi) Except as specified in this chapter, use assessment revenues for any other purpose than to secure federal medicaid matching funds to support payments to hospitals for medicaid services; and

(b) As long as payment levels are maintained as required under this chapter, the hospital must agree not to challenge the authority's reduction of hospital reimbursement rates to

July 1, 2009, levels, which results from the elimination of assessment supported rate restorations and increases, under 42 U.S.C. Sec. 1396a(a)(30)(a) either through administrative appeals or in court during the period of the contract.

(3) If a court finds that the authority has breached an agreement with a hospital under subsection (2)(a) of this section, the authority:

(a) Must immediately refund any assessment payments made subsequent to the breach by that hospital upon receipt; and

(b) May discontinue supplemental payments, increased managed care payments, disproportionate share hospital payments, and access payments made subsequent to the breach for the hospital that are required under this chapter.

(4) The remedies provided in this section are not exclusive of any other remedies and rights that may be available to the hospital whether provided in this chapter or otherwise in law, equity, or statute. [2015 2nd sp.s. c 5 § 10; 2013 2nd sp.s. c 17 § 17.]

(1) "Additional fire hazard" means a condition existing on any land in the state:

(a) Covered wholly or in part by forest debris which is likely to further the spread of fire and thereby endanger life or property; or

(b) When, due to the effects of disturbance agents, broken, down, dead, or dying trees exist on forest land in sufficient quantity to be likely to further the spread of fire within

areas covered by a forest health hazard warning or order issued by the commissioner of public lands under RCW 76.06.180. The term "additional fire hazard" does not include green trees or snags left standing in upland or riparian areas under the provisions of RCW 76.04.465 or chapter 76.09 RCW.

(2) "Closed season" means the period between April 15th and October 15th, unless the department designates different dates because of prevailing fire weather conditions.

(3) "Commissioner" means the commissioner of public lands.

(7) "Emergency fire costs" means those costs incurred or approved by the department for emergency forest fire suppression, including the employment of personnel, rental of equipment, and purchase of supplies over and above costs regularly budgeted and provided for nonemergency fire expenses for the biennium in which the costs occur.

(8) "Exploding target" means a device that is designed or marketed to ignite or explode when struck by firearm ammunition or other projectiles.

(9) "Forest debris" includes forest slash, chips, and any other vegetative residue resulting from activities on forest land.

(10) "Forest fire service" includes all wardens, rangers, and other persons employed especially for preventing or fighting forest fires.

(11) "Forest land" means any unimproved lands which have enough trees, standing or down, or flammable material, to constitute in the judgment of the department, a fire menace to life or property. Sagebrush and grass areas east of the summit of the Cascade mountains may be considered forest lands when such areas are adjacent to or intermingled with areas supporting tree growth. Forest land, for protection purposes, does not include structures.

(12) "Forest landowner," "owner of forest land," "landowner," or "owner" means the owner or the person in possession of any public or private forest land.

(13) "Forest material" means forest slash, chips, timber, standing or down, or other vegetation.

(14) "Incendiary ammunition" means ammunition that is designed to ignite or explode upon impact with or penetration of a target or designed to trace its course in the air with a trail of smoke, chemical incandescence, or fire.

(15) "Landowner operation" means every activity, and supporting activities, of a forest landowner and the landowner's agents, employees, or independent contractors or permittees in the management and use of forest land subject to the forest protection assessment under RCW 76.04.610 for the primary benefit of the owner. The term includes, but is not limited to, the growing and harvesting of forest products, the development of transportation systems, the utilization of

minerals or other natural resources, and the clearing of land. The term does not include recreational and/or residential activities not associated with these enumerated activities.

(16) "Local fire suppression assets" means firefighting equipment that is located in close proximity to the wildland fire and that meets department standards and requirements.

(17) "Local wildland fire liaison" means the person appointed by the commissioner to serve as the local wildland fire liaison as provided in RCW 43.30.111.

(18) "Participating landowner" means an owner of forest land whose land is subject to the forest protection assessment under RCW 76.04.610.

(19) "Sky lantern" means an unmanned self-contained luminary device that uses heated air produced by an open flame or produced by another source to become or remain airborne.

(20) "Slash" means organic forest debris such as tree tops, limbs, brush, and other dead flammable material remaining on forest land as a result of a landowner operation.

(21) "Slash burning" means the planned and controlled burning of forest debris on forest lands by broadcast burning, underburning, pile burning, or other means, for the purposes of silviculture, hazard abatement, or reduction and prevention or elimination of a fire hazard.

(22) "Suppression" means all activities involved in the containment and control of forest fires, including the patrolling thereof until such fires are extinguished or considered by the department to pose no further threat to life or property.

(23) "Unimproved lands" means those lands that will support grass, brush and tree growth, or other flammable material when such lands are not cleared or cultivated and, in the opinion of the department, are a fire menace to life and property. [2015 c 182 § 7. Prior: 2014 c 90 § 1; 2007 c 480 § 12; 1992 c 52 § 24; 1986 c 100 § 1.]

Reviser's note: The definitions in this section have been alphabetized pursuant to RCW 1.08.015(2)(k).

76.04.015 Fire protection powers and duties of department—Enforcement—Investigation—Administration. (1) The department may, at its discretion, appoint trained personnel possessing the necessary qualifications to carry out the duties and supporting functions of the department and may determine their respective salaries.

(2) The department shall have direct charge of and supervision of all matters pertaining to the forest fire service of the state.

(3) The department shall:

(a) Enforce all laws within this chapter;

(b) Be empowered to take charge of and direct the work of suppressing forest fires;

(c)(i) Investigate the origin and cause of all forest fires to determine whether either a criminal act or negligence by any person, firm, or corporation caused the starting, spreading, or existence of the fire. In conducting investigations, the department shall work cooperatively, to the extent possible, with utilities, property owners, and other interested parties to identify and preserve evidence. Except as provided otherwise in this subsection, the department in conducting investigations is authorized, without court order, to take possession or control of relevant evidence found in plain view and belonging to any person, firm, or corporation. To the extent possible, the

department shall notify the person, firm, or corporation of its intent to take possession or control of the evidence. The person, firm, or corporation shall be afforded reasonable opportunity to view the evidence and, before the department takes possession or control of the evidence, also shall be afforded reasonable opportunity to examine, document, and photograph it. If the person, firm, or corporation objects in writing to the department's taking possession or control of the evidence, the department must either return the evidence within seven days after the day on which the department is provided with the written objections or obtain a court order authorizing the continued possession or control.

(ii) Absent a court order authorizing otherwise, the department may not take possession or control of evidence over the objection of the owner of the evidence if the evidence is used by the owner in conducting a business or in providing an electric utility service and the department's taking possession or control of the evidence would substantially and materially interfere with the operation of the business or provision of electric utility service.

(iii) Absent a court order authorizing otherwise, the department may not take possession or control of evidence over the objection of an electric utility when the evidence is not owned by the utility but has caused damage to property owned by the utility. However, this subsection (3)(c)(iii) does not apply if the department has notified the utility of its intent to take possession or control of the evidence and provided the utility with reasonable time to examine, document, and photograph the evidence.

(iv) Only personnel qualified to work on electrical equipment may take possession or control of evidence owned or controlled by an electric utility;

(d) Furnish notices or information to the public calling attention to forest fire dangers and the penalties for violation of this chapter;

(e) Be familiar with all timbered and cut-over areas of the state;

(f) Maximize the effective utilization of local fire suppression assets consistent with RCW 76.04.181; and

(g) Regulate and control the official actions of its employees, the wardens, and the rangers.

(4) The department may:

(a) Authorize all needful and proper expenditures for forest protection;

(b) Adopt rules consistent with this section for the prevention, control, and suppression of forest fires as it considers necessary including but not limited to: Fire equipment and materials; use of personnel; and fire prevention standards and operating conditions including a provision for reducing these conditions where justified by local factors such as location and weather;

(c) Remove at will the commission of any ranger or suspend the authority of any warden;

(d) Inquire into:

(i) The extent, kind, value, and condition of all timber lands within the state;

(ii) The extent to which timber lands are being destroyed by fire and the damage thereon;

(e) Provide fire detection, prevention, presuppression, or suppression services on nonforested public lands managed by the department or another state agency, but only to the extent

that providing these services does not interfere with or detract from the obligations set forth in subsection (3) of this section. If the department provides fire detection, prevention, suppression, or suppression services on nonforested public lands managed by another state agency, the department must be fully reimbursed for the work through a cooperative agreement as provided for in RCW 76.04.135(1).

(5) Any rules adopted under this section for the suppression of forest fires must include a mechanism by which a local fire mobilization radio frequency, consistent with RCW 43.43.963, is identified and made available during the initial response to any forest fire that crosses jurisdictional lines so that all responders have access to communications during the response. Different initial response frequencies may be identified and used as appropriate in different geographic response areas. If the fire radio communication needs escalate beyond the capability of the identified local radio frequency, the use of other available designated interoperability radio frequencies may be used.

(6) When the department considers it to be in the best interest of the state, it may cooperate with any agency of another state, the United States or any agency thereof, the Dominion of Canada or any agency or province thereof, and any county, town, corporation, individual, or Indian tribe within the state of Washington in forest firefighting and patrol. [2015 c 182 § 5; 2012 c 38 § 1; 2010 c 38 § 1; 1993 c 196 § 3; 1986 c 100 § 2.]

76.04.179 Wildland fire advisory committee. (1) The commissioner must appoint and maintain a wildland fire advisory committee to generally advise the commissioner on all matters related to wildland firefighting in the state. This includes, but is not limited to, developing recommendations regarding department capital budget requests related to wildland firefighting and developing strategies to enhance the safe and effective use of private and public wildland firefighting resources.

(2) The commissioner may appoint members to the wildland fire advisory committee as the commissioner determines is the most helpful in the discharge of the commissioner's duties. However, at a minimum, the commissioner must invite the following:

(a) Two county commissioners, one from east of the crest of the Cascade mountains and one from west of the crest of the Cascade mountains;

(b) Two owners of industrial land, one an owner of timberland and one an owner of rangeland;

(c) The state fire marshal or a representative of the state fire marshal's office;

(d) Two individuals with the title of fire chief, one from a community located east of the crest of the Cascade mountains and one from a community located west of the crest of the Cascade mountains;

(e) An individual with the title of fire commissioner whose authority is pursuant to chapter 52.14 RCW;

(f) A representative of a federal wildland firefighting agency;

(g) A representative of a tribal nation;

(h) A representative of a statewide environmental organization;

(i) A representative of a state land trust beneficiary; and

(j) A small forest landowner.

(3) The local wildland fire liaison serves as the administrative chair for the wildland fire advisory committee.

(4) The department must provide staff support for all committee meetings.

(5) The wildland fire advisory committee must meet at the call of the administrative chair for any purpose that directly relates to the duties set forth in subsection (1) of this section or as is otherwise requested by the commissioner or the administrative chair.

(6) Each member of the wildland fire advisory committee serves without compensation but may be reimbursed for travel expenses as authorized in RCW 43.03.050 and 43.03.060.

(7) The members of the wildland fire advisory committee, or individuals acting on their behalf, are immune from civil liability for official acts performed in the course of their duties.

(8) All requirements in this section are subject to the availability of amounts appropriated for the specific purposes described. [2015 c 182 § 3.]

76.04.181 Maximizing the utilization of local fire suppression assets—Department's duty. (1) To maximize the effective utilization of local fire suppression assets, the department is required to:

(a) Compile and annually update master lists of qualified wildland fire suppression contractors who have valid incident qualifications for the kind of contracted work to be performed. In order to be included on a master list of qualified wildland fire suppression contractors:

(i) Contractors providing fire engines, tenders, crews, or similar resources must have training and qualifications sufficient for federal wildland fire contractor eligibility, including possessing a valid incident qualification card, commonly called a red card; and

(ii) Contractors other than those identified in (a)(i) of this subsection must have training and qualifications evidenced by possession of a valid department qualification and safety document, commonly called a blue card, issued to people cooperating with the department pursuant to an agreement;

(b) Provide timely advance notification of the dates and locations of department blue card training to all potential wildland fire suppression contractors known to the department and make the training available in several locations that are reasonably convenient for contractors;

(c) Make the lists of qualified wildland fire suppression contractors available to county legislative authorities, emergency management departments, and local fire districts;

(d) Cooperate with federal wildland firefighting agencies to maximize, based on predicted need, the efficient use of local resources in close proximity to wildland fire incidents;

(e) Enter into preemptive agreements with landowners in possession of firefighting capability that may be utilized in wildland fire suppression efforts, including the use of bulldozers, fallers, fuel tenders, potable water tenders, water sprayers, wash trailers, refrigeration units, and buses; and

(f) Conduct outreach to provide basic incident command system and wildland fire safety training to landowners in possession of firefighting capability to help ensure that any wildland fire suppression actions taken by private landowners on

their own land are accomplished safely and in coordination with any related incident command structure.

(2) Nothing in subsection (1) of this section prohibits the department from conducting condensed safety training on the site of a wildland fire in order to utilize available contractors not included on a master list of qualified wildland fire suppression contractors.

(a) All equipment and personnel satisfy department standards; and

(b) All contractors are, when engaged in fire suppression activities, under the supervision of recognized wildland fire personnel.

(4) No civil liability may be imposed by any court on the state or its officers and employees for any adverse impacts resulting from training provided by the department or preemptive agreements entered into by the department under the provisions of this section except upon proof of gross negligence or willful or wanton misconduct.

(b) No civil or criminal liability may be imposed by any court on an individual acting pursuant to this section for any direct or proximate adverse impacts resulting from an individual's access to land for the purposes of attempting to extinguish or control a wildland fire when fighting the wildland fire in that particular time and location can be reasonably considered a public necessity, except upon proof of gross negligence or willful or wanton misconduct by the individual.

(c) An individual may enter land under this subsection (1) only if:

(iv) The individual has a reasonable belief that he or she is capable of taking preventive measures;

(v) The individual only undertakes measures that are reasonable and necessary until professional wildfire suppression personnel arrives;

(vi) The individual does not continue to take suppression actions after specific direction to cease from the landowner;

(vii) The individual takes preventive measures only for the period of time until efforts to control the wildfire have

been assumed by professional wildfire suppression personnel, unless explicitly authorized by professional wildland firefighting personnel to remain engaged in suppressing the fire;

(viii) The individual follows the instructions of professional wildland firefighting personnel, including ceasing to engage in firefighting activities, when directed to do so by professional wildland firefighting personnel; and

(ix) The individual promptly notifies emergency personnel and the landowner, lessee, or occupant prior to entering the land or within a reasonable time after the individual attempts to extinguish or control the wildland fire.

(2) The director may sell food fish or shellfish caught or taken during department test fishing operations.

(3) The director shall not sell inedible salmon for human consumption. (4) In the sale of surplus salmon from state hatcheries, the director shall require that a portion of the surplus salmon be processed and returned to the state by the purchaser. The processed salmon shall be fit for human consumption and in a form suitable for distribution to individuals. The department shall establish the required percentage at a level that does not discourage competitive bidding for the surplus salmon. The measure of the percentage is the combined value of all of the surplus salmon sold. (1) If an adult offender is convicted of violating RCW 77.15.410 and that violation results in the death of wildlife listed in this section, the court shall require payment of the following amounts for each animal taken or possessed. (ii) A bull elk with five or more antler points on both sides, not including eyeguards; or

(iii) A mountain sheep with a horn curl of three-quarter curl or greater.

(b) For purposes of this subsection, "eyeguard" means an antler protrusion on the main beam of the antler closest to the eye of the animal.

(3) If two or more persons are convicted of illegally possessing wildlife in subsection (1) of this section, the criminal wildlife penalty assessment shall be imposed on them jointly and severally.

(4) The criminal wildlife penalty assessment shall be imposed regardless of and in addition to any sentence, fines, or costs otherwise provided for violating any provision of this title. The criminal wildlife penalty assessment shall be included by the court in any pronouncement of sentence and may not be suspended, waived, modified, or deferred in any respect. This section may not be construed to abridge or alter alternative rights of action or remedies in equity or under common law or statutory law, criminal or civil.

(5) A defaulted criminal wildlife penalty assessment may be collected by any means authorized by law for the enforcement of orders of the court or collection of a fine or costs, including but not limited to vacation of a deferral of sentencing or vacation of a suspension of sentence.

(6) A person assessed a criminal wildlife penalty assessment under this section shall have his or her hunting license revoked and all hunting privileges suspended until the penalty assessment is paid through the registry of the court in which the penalty assessment was assessed.

- (a) Hunting for wildlife;
- (b) Retrieving hunted wildlife; or
- (c) Collecting wildlife parts.

(2) In any prosecution under this section, it is a defense that:

(a) The premises were at the time open to members of the public for the purpose of hunting, and the actor complied with all lawful conditions imposed on access to or remaining on the premises;

(b) The actor reasonably believed that the owner of the premises, or other person empowered to license access to the premises, would have licensed him or her to enter or remain on the premises for the purpose of hunting, retrieving hunted wildlife, or collecting wildlife parts;

(c) The actor reasonably believed that the premises were not privately owned; or

(d) The actor, after making all reasonable attempts to contact the owner of the premises, entered the premises to retrieve the hunted wildlife for the sole purpose of avoiding a violation of the prohibition on the waste of fish and wildlife as provided in RCW 77.15.170. (3) Unlawfully hunting on, retrieving hunted wildlife from, or collecting wildlife parts from the property of another is a misdemeanor.

(4) If a person unlawfully hunts and kills wildlife, or retrieves hunted wildlife that he or she has killed, on the property of another, then, upon conviction under this section, the department shall revoke all hunting licenses and tags and order a suspension of the person's hunting privileges for two years. This subsection does not apply to a person convicted under this section for unlawfully collecting wildlife parts from the property of another.

(5) Any wildlife or wildlife parts that are unlawfully hunted on, retrieved, or collected from the property of another must be seized by fish and wildlife officers. Forfeiture and disposition of the wildlife or wildlife parts is pursuant to RCW 77.15.100. [2015 c 154 § 1; 2012 c 176 § 11.]

The permit is valid only for use during open season.

(3) The director may set conditions and issue a group fishing permit to groups working in partnership with and participating in department outdoor education programs. At the discretion of the director, a processing fee may be applied.

(4) The commission may adopt rules that provide the conditions under which a group fishing permit is issued. [2015 c 98 § 1; 2007 c 254 § 4; 2006 c 16 § 1; 2002 c 266 § 1.]

(2) Any moneys from surcharges remaining in the general fund—local account after the 2007-2009 biennium must be transferred to the biotoxin account created in subsection (3) of this section and be credited to the appropriate institution. The department of health and the University of Washington shall, by December 1st of each year, provide a letter to the relevant legislative policy and fiscal committees on the status of expenditures. This letter shall include, but is not limited to, the annual appropriation amount, the amount not expended, account fund balance, and reasons for not spending the full annual appropriation.

(3) The biotoxin account is created in the state treasury to be administered by the department of health. Findings—2003 c 263: "The legislature finds that testing and monitoring of beaches used for recreational shellfishing is essential to ensure the health of recreational shellfishers. The legislature also finds that it is essential to have a stable and reliable source of funding for such biotoxin testing and monitoring. The legislature also finds that the cost of the resident and nonresident personal use shellfish and seaweed licenses is undervalued and not properly aligned with neighboring states and provinces." (2) No person may engage in the activities described in subsection (1) of this section unless the licenses or permits required by this title are in the person's possession, and the person is the named license holder or an alternate operator designated on the license and the person's license is not suspended.

Finding—Intent—1993 c 340: "The legislature finds that the laws governing commercial fishing licensing in this state are highly complex and increasingly difficult to administer and enforce. The current laws governing commercial fishing licenses have evolved slowly, one section at a time, over decades of contention and changing technology, without general consideration for how the totality fits together. The result has been confusion and litigation among commercial fishers. Much of the confusion has arisen because the license holder in most cases is a vessel, not a person. The legislature intends by this act to standardize licensing criteria, clarify licensing requirements, reduce complexity, and remove inequities in commercial fishing licensing. The legislature intends that the license fees stated in this act shall be equivalent to those in effect on January 1, 1993, as adjusted under section 19, chapter 316, Laws of 1989." 77.95.185 Local fish passage barrier removal—Compensatory mitigation preference—Mitigation framework for off-site and out-of-kind barriers—In lieu fee program.

(1) The department of transportation, the department of ecology, and the department of fish and wildlife must use their existing authorities and guidance to provide a preference for the removal of existing fish passage barriers owned by cities and counties as compensatory mitigation for environmental impacts of transportation projects where appropriate.

(2)(a) The department of transportation, the department of ecology, and the department of fish and wildlife must consult with other relevant entities to develop a framework for encouraging off-site and out-of-kind local fish passage barrier mitigation that provides results that are consistent with habitat protection priorities and are ecologically preferable to on-site mitigation.

(b) The implementation of this framework must:

(i) Not delay transportation project delivery;

(ii) Not be additive to the amount or cost of mitigation required under existing regulations;

(iii) Not preclude on-site or off-site and in-kind mitigation when that is the most ecologically appropriate means to address project impacts;

(iv) Not alter the mitigation sequencing principles of first avoidance and then minimization of impacts before compensatory mitigation;

(v) Provide for a mechanism that identifies whether environmental impacts from projects are appropriate for local fish passage barrier mitigation;

(vi) Provide a mechanism for affected parties, including tribes, to determine when and how to use off-site and out-of-kind mitigation to address fish passage barriers in particular watersheds;

(vii) Consult the statewide fish passage barrier removal strategy developed by the fish passage barrier removal board created in RCW 77.95.160 and information provided by affected tribes, salmon recovery regional organizations, and local entities to identify specific priority locations where removal of local barriers would provide a net resource gain; and

(viii) Consistent with existing mitigation regulations and guidelines, provide a preference, where appropriate, for investment in local fish passage barrier removal where greater environmental benefit can be achieved with off-site and out-of-kind mitigation.

(c) In addition to the framework developed in (b) of this subsection, the department of transportation, the department of ecology, and the department of fish and wildlife must develop and implement an umbrella statewide in lieu fee program or other formal means to provide a streamlined mechanism to undertake priority local fish passage barrier corrections throughout the watersheds of the state as a preferred means of compensatory mitigation where appropriate for

state transportation that is consistent with the principles in (a) and (b) of this subsection.

(3) Nothing in this section is intended to create or expand the state's obligation for fish passage barrier correction according to existing law or court ruling. Nothing in this section is intended to decrease funding or otherwise impede the state's efforts to meet its obligation for fish passage barrier correction according to existing law or court ruling. Any public agency in this state may develop and implement outdoor education and recreation programs. The director may make grants to public agencies and contract with any public or private agency or person to develop and implement outdoor education and recreation programs. The outdoor education and recreation program account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. [2015 c 245 § 1; 2007 c 176 § 2.]

Intent—2007 c 176: "It is the intent of the legislature to establish an outdoor education and recreation program to provide a large number of underserved students with quality opportunities to directly experience the natural world. REGULATIONS—GENERAL

Sections

80.04.550 Thermal energy—Restrictions on authority of commission.

80.04.550 Thermal energy—Restrictions on authority of commission. (1) It is the intent of the legislature to exempt from commission regulation thermal energy services provided by thermal energy companies and combined heat and power facilities that are not otherwise regulated under this title. Nothing in this section shall prevent the commission from issuing or enforcing any order affecting combined heat and power facilities owned or operated by an electrical company that are subsidized by a regulated service.

(2) Nothing in this title shall authorize the commission to make or enforce any order affecting rates, tolls, rentals, contracts or charges for service rendered, or the adequacy or sufficiency of the facilities, equipment, instrumentalities, or buildings, or the reasonableness of rules or regulations made, furnished, used, supplied, or in force affecting any thermal energy system owned and operated by any thermal energy company or by a combined heat and power facility engaged in thermal energy services.

(3) For the purposes of this section:

(a) "Thermal energy company" means any private person, company, association, partnership, joint venture, or corporation engaged in or proposing to engage in developing, producing, transmitting, distributing, delivering, furnishing, or selling to or for the public thermal energy services for any beneficial use other than electricity generation;

(b) "Thermal energy system" means any system that provides thermal energy for space heating, space cooling, or process uses from a central plant or combined heat and power facility, and that distributes the thermal energy to two or more buildings through a network of pipes;

(c) "Thermal energy" means heat or cold in the form of steam, heated or chilled water, or any other heated or chilled fluid or gaseous medium; and

(d) "Thermal energy services" means the provision of thermal energy from a thermal energy system and includes such ancillary services as energy audits, metering, billing, maintenance, and repairs related to thermal energy. [2015 3rd sp.s. c 19 § 12; 1996 c 33 § 2.]

Finding—Intent—2015 3rd sp.s. c 19: See note following RCW 39.35.010.

Findings—1996 c 33: "(1) The legislature finds:

(a) The Washington utilities and transportation commission has the authority to regulate district heating suppliers on the basis of financial solvency, system design integrity, and reasonableness of contract rates and rate formulas under *chapter 80.62 RCW;

(b) Consumers have competitive alternatives to thermal energy companies for space heating and cooling and ancillary services;

(c) Consumers have recourse against thermal energy companies for unfair business practices under the consumer protection act; and

(d) Technology and marketing opportunities have advanced since the enactment of *chapter 80.62 RCW to make the provision of cooling services, as well as heating services, an economical option for consumers.

(2) The legislature declares that the public health, safety, and welfare does not require the regulation of thermal energy companies by the Washington utilities and transportation commission." [1996 c 33 § 1.]

***Reviser's note:** Chapter 80.62 RCW was repealed by 1996 c 33 § 3.

Chapter 80.28 RCW
GAS, ELECTRICAL, AND WATER COMPANIES

Sections

80.28.360 Electric vehicle supply equipment—Capital expenditures—Incentive rate of return on investment.

80.28.360 Electric vehicle supply equipment—Capital expenditures—Incentive rate of return on investment.

(1) In establishing rates for each electrical company regulated under this title, the commission may allow an incentive rate of return on investment on capital expenditures for electric vehicle supply equipment that is deployed for the benefit of ratepayers, provided that the capital expenditures do not increase costs to ratepayers in excess of one-quarter of one percent. The commission must consider and may adopt other policies to improve access to and promote fair competition in the provision of electric vehicle supply equipment.

(2) An incentive rate of return on investment under this section may be allowed only if the company chooses to pursue capital investment in electric vehicle supply equipment on a fully regulated basis similar to other capital investments behind a customer's meter. In the case of an incentive rate of return on investment allowed under this section, an increment of up to two percent must be added to the rate of return on common equity allowed on the company's other investments.

(3) The incentive rate of return on investment authorized in subsection (2) of this section applies only to projects which have been installed after July 1, 2015, and which are reasonably expected, at the time they are placed in the rate base, to result in real and tangible benefits for ratepayers by being installed and located where electric vehicles are most likely to be parked for intervals longer than two hours.

(4) The incentive rate of return on investment increment pursuant to this section may be earned only for a period up to the depreciable life of the electric vehicle supply equipment as defined in the depreciation schedules developed by the company and submitted to the commission for review. When the capital investment has fully depreciated, an electrical company may gift the electric vehicle supply equipment to the owner of the property on which it is located.

(5) By December 31, 2017, the commission must report to the appropriate committees of the legislature with regard to the use of any incentives allowed under this section, the quantifiable impacts of the incentives on actual electric vehicle deployment, and any recommendations to the legislature about utility participation in the electric vehicle market. [2015 c 220 § 2.]

Findings—Intent—2015 c 220: "(1) The legislature finds that the transportation sector is Washington's largest contributor to greenhouse emissions and hazardous air pollutants as defined by federal national air quality standards and mobile source air toxics rules. The sector's portion is considerably higher than the national average because our state relies heavily on hydropower for electricity generation, unlike other states that rely on fossil fuels such as coal, petroleum, and natural gas to generate electricity.

(2) The legislature also finds that federal clean air act regulations and complementary Washington policies supporting renewable energy generation, energy efficiency, and energy conservation are likely to result in further reduction of emissions in the electricity and in the combined residential, commercial, and industrial sectors. The legislature finds that state policy can achieve the greatest return on investment in reducing greenhouse gas emissions and improving air quality by expediting the transition to alternative fuel vehicles, including electric vehicles.

(3) The legislature finds that utilities, who [that] are traditionally responsible for understanding and engineering the electrical grid for safety and reliability, must be fully empowered and incentivized to be engaged in electrification of our transportation system. The legislature further finds that it has given utilities other policy directives to promote energy conservation which do not make the benefits of building out electric vehicle infrastructure, as well as any subsequent increase in energy consumption, readily apparent. Therefore the legislature intends to provide a clear policy directive and financial incentive to utilities for electric vehicle infrastructure build-out." [2015 c 220 § 1.]

Sections

80.36.390	Telephone solicitation.
80.36.570	Law enforcement—Requests for call location information—Requirements.

80.36.390 Telephone solicitation. (1) As used in this section, "telephone solicitation" means the unsolicited initiation of a telephone call by a commercial or nonprofit company or organization to a residential telephone customer and conversation for the purpose of encouraging a person to purchase property, goods, or services or soliciting donations of money, property, goods, or services. "Telephone solicitation" does not include:

- (a) Calls made in response to a request or inquiry by the called party. This includes calls regarding an item that has been purchased by the called party from the company or organization during a period not longer than twelve months prior to the telephone contact;
- (b) Calls made by a not-for-profit organization to its own list of bona fide or active members of the organization;
- (c) Calls limited to polling or soliciting the expression of ideas, opinions, or votes; or
- (d) Business-to-business contacts.

For purposes of this section, each individual real estate agent or insurance agent who maintains a separate list from other individual real estate or insurance agents shall be treated as a company or organization. For purposes of this section, an organization as defined in RCW 29A.04.086 or 29A.04.097 and organized pursuant to chapter 29A.80 RCW shall not be considered a commercial or nonprofit company or organization.

(2) A person making a telephone solicitation must identify him or herself and the company or organization on whose behalf the solicitation is being made and the purpose of the call within the first thirty seconds of the telephone call.

(3) If, at any time during the telephone contact, the called party states or indicates that he or she does not wish to be called again by the company or organization or wants to have his or her name and individual telephone number removed from the telephone lists used by the company or organization making the telephone solicitation, then:

- (a) The company or organization shall not make any additional telephone solicitation of the called party at that telephone number within a period of at least one year; and
- (b) The company or organization shall not sell or give the called party's name and telephone number to another company or organization: PROVIDED, That the company or organization may return the list, including the called party's

name and telephone number, to the company or organization from which it received the list.

(4) A violation of subsection (2) or (3) of this section is punishable by a fine of up to one thousand dollars for each violation.

(5) The attorney general may bring actions to enforce compliance with this section. For the first violation by any company or organization of this section, the attorney general shall notify the company with a letter of warning that the section has been violated.

(6) A person aggrieved by repeated violations of this section may bring a civil action in superior court to enjoin future violations, to recover damages, or both. The court shall award damages of at least one hundred dollars for each individual violation of this section. If the aggrieved person prevails in a civil action under this subsection, the court shall award the aggrieved person reasonable attorneys' fees and cost of the suit.

(7) The utilities and transportation commission shall by rule ensure that telecommunications companies inform their residential customers of the provisions of this section. The notification may be made by (a) annual inserts in the billing statements mailed to residential customers, or (b) conspicuous publication of the notice in the consumer information pages of local telephone directories. [2015 c 53 § 95; 1987 c 229 § 13; 1986 c 277 § 2.]

Legislative finding—1986 c 277: "The legislature finds that certain kinds of telephone solicitation are increasing and that these solicitations interfere with the legitimate privacy rights of the citizens of the state. A study conducted by the utilities and transportation commission, as directed by the forty-ninth legislature, has found that the level of telephone solicitation in this state is significant to warrant regulatory action to protect the privacy rights of the citizens of the state. It is the intent of the legislature to clarify and establish the rights of individuals to reject unwanted telephone solicitations." [1986 c 277 § 1.]

Charitable solicitations: Chapter 19.09 RCW.

Commercial telephone solicitation: Chapter 19.158 RCW.

80.36.570 Law enforcement—Requests for call location information—Requirements. (1) A wireless telecommunications provider must provide information in its possession concerning the current or most recent location of a telecommunications device and call information of a user of the device when requested by a law enforcement agency. A law enforcement agency must meet the following requirements:

(a) The law enforcement officer making the request on behalf of the law enforcement agency must be on duty during the course of his or her official duties at the time of the request;

(b) The law enforcement agency must verify there is no relationship or conflict of interest between the law enforcement officer responding, investigating or making the request, and either the person requesting the call location information or the person for whom the call location information is being requested;

(c) A law enforcement agency may only request this information when, in the law enforcement officer's exercise of reasonable judgment, he or she believes that the individual is in an emergency situation that involves the risk of death or serious physical harm and requires disclosure without a delay of information relating to the emergency;

(d) Concurrent to making a request, the responding law enforcement agency must check the federal bureau of investigation's national crime information center and any other available databases to identify if either the person requesting the call location information or the person for whom the call location information is being requested has any history of domestic violence or any court order restricting contact by a respondent;

(e) Concurrent to making a request, the responding law enforcement agency must also check with the Washington state patrol to identify if either the person requesting the call location information or the person for whom the call location information is being requested is participating in the address confidentiality program established in chapter 40.24 RCW. The secretary of state must make name information available to the Washington state patrol from the address confidentiality program as required under RCW 40.24.070. The Washington state patrol must not further disseminate list information except on an individual basis to respond to a request under this section;

(f) If the responding law enforcement agency identifies or has reason to believe someone has a history of domestic violence or stalking, has a court order restricting contact, or if the Washington state patrol identifies someone as participating in the address confidentiality program, then the law enforcement agency must not provide call location information to the individual who requested the information, unless pursuant to the order of a court of competent jurisdiction. A law enforcement agency may not disclose information obtained under this section to any other party except first responders responding to the emergency situation; and

(g) A law enforcement agency may not request information under this section for any purpose other than responding to a call for emergency services or in an emergency situation that involves the risk of death or serious physical harm.

(2) A wireless telecommunications provider may establish protocols by which the carrier discloses call location information to law enforcement.

(3) No cause of action may be brought in any court against any wireless telecommunications provider, its officers, employees, agents, or other specified persons for providing call location information while acting in good faith and in accordance with the provisions of this section.

(4) All wireless telecommunications providers registered to do business in the state of Washington and all resellers of wireless telecommunications services shall submit their emergency contact information to the Washington state patrol in order to facilitate requests from a law enforcement agency for call location information in accordance with this section. Any change in contact information must be submitted immediately.

(5) The Washington state patrol must maintain a database containing emergency contact information for all wireless telecommunications providers registered to do business in the state of Washington and must make the information immediately available upon request to facilitate a request from law enforcement for call location information under this section.

(6) The Washington state patrol may adopt by rule criteria for fulfilling the requirements of this section. [2015 c 190 § 1.]

80.50.150 Enforcement of compliance—Penalties.

(1) The courts are authorized to grant such restraining orders, and such temporary and permanent injunctive relief as is necessary to secure compliance with this chapter, rules adopted under this chapter, a site certification agreement issued pursuant to this chapter, a national pollutant discharge elimination system (hereafter in this section, NPDES) permit or waste discharge permit issued by the council under chapter 90.48 RCW, any air permit issued under RCW 80.50.040(12), or any other permit issued by the council.

(2) The court may assess civil penalties in an amount not less than one thousand dollars per day nor more than twenty-five thousand dollars per day for each day of construction or operation in material violation of this chapter, or in violation of any rules adopted under this chapter, or in material violation of any site certification agreement issued pursuant to this chapter, or in violation of any NPDES permit or waste discharge permit issued by the council pursuant to chapter 90.48 RCW, or in violation of any air permit issued pursuant to RCW 80.50.040(12), or in violation of any other permit issued by the council.

(3) Willful violation of any provision of this chapter is a gross misdemeanor.

(4) Willful or criminally negligent, as defined in RCW 9A.08.010(1)(d), violation of any provision of a NPDES permit or waste discharge permit issued by the council pursuant to chapter 90.48 RCW, or any air permit issued by the council pursuant to RCW 80.50.040(12) or any emission standards promulgated by the council in order to implement the federal clean air act and the state implementation plan with respect to energy facilities under the jurisdiction provisions of this chapter, or any other permit issued by the council, is a gross misdemeanor, and upon conviction thereof shall be punished by a fine of up to twenty-five thousand dollars per day and costs of prosecution.

(5) Any person knowingly making any false statement, representation, or certification in any document in any form, notice, or report required by a NPDES or waste discharge permit, or in any form, notice, or report required for or by any air permit issued pursuant to RCW 80.50.040(12), or any other permit issued by the council, is guilty of a gross misdemeanor, and upon conviction thereof shall be punished by a fine of up to ten thousand dollars and costs of prosecution.

(6) Civil proceedings to enforce this chapter may be brought by the attorney general or the prosecuting attorney of any county affected by the violation on his or her own motion or at the request of the council. Criminal proceedings to enforce this chapter may be brought by the prosecuting attorney of any county affected by the violation on his or her own motion or at the request of the council.

(7) The remedies and penalties in this chapter, both civil and criminal, are cumulative and are in addition to any other penalties and remedies available at law, or in equity, to any person. [2015 3rd sp.s. c 39 § 2; 2013 c 23 § 283. Prior: 1979 ex.s. c 254 § 2; 1979 c 41 § 1; 1977 ex.s. c 371 § 12; 1970 ex.s. c 45 § 15.]

Findings—Intent—2015 3rd sp.s. c 39: "The legislature recognizes that the energy facility site evaluation council is responsible for enforcing compliance with this chapter, rules adopted pursuant to this chapter, and site certification agreements and any permits it issues to energy facilities under its jurisdiction. The statutes related to enforcement by the energy facility site evaluation council have not been amended to reflect the increased penalty amounts that both the department of ecology and local air pollution control authorities may impose for similar violations of environmental laws. In addition, it is not altogether clear whether the department of ecology has authority to issue additional penalties under RCW 90.56.330 for oil spills at facilities under the jurisdiction of the energy facility site evaluation council. Furthermore, the legislature recently eliminated the mitigation process from certain environmental appeals because it represented an unnecessary step in the penalty process. The legislature did not amend the enforcement statutes of the energy facility site evaluation council to eliminate the mitigation process for penalties issued by the council.

The legislature intends to amend the energy facility site evaluation council's enforcement statutes to make them more consistent with similar enforcement statutes of the department of ecology and local air pollution control authorities, and to clarify the appeal process. The legislature also intends to clarify that additional penalties under RCW 90.56.330 for oil spills may be imposed by the department of ecology at energy facilities under the jurisdiction of the energy facility site evaluation council. Nothing in RCW 80.50.150 and 80.50.155 limits the department of ecology's ability to impose natural resource damage assessments pursuant to RCW 90.56.370, regardless of whether or not the energy facility is under the jurisdiction of the energy facility site evaluation council." [2015 3rd sp.s. c 39 § 1.]

80.50.155 Additional penalties—Appeal procedures.

(1) Every person who violates the provisions of site certification agreements or permits issued or administered by the council shall incur, in addition to any other penalty as provided by law, a penalty in an amount of up to ten thousand dollars a day for every such violation. Each and every such violation is a separate and distinct offense, and in case of a continuing violation, every day's continuance is deemed to be a separate and distinct violation. Every act of commission or omission which procures, aids, or abets in the violation is considered a violation under the provisions of this section and subject to the penalty provided in this section. The penalty provided in this section shall be imposed by a notice in writing, either by certified mail with return receipt requested or by personal service, to the person incurring the same from the council describing such violation with reasonable particularity.

(2) Any person incurring any penalty under this section must appeal the same to the council before the person may appeal the penalty to superior court. Such appeals with the council shall be filed within thirty days of the date of receipt of notice imposing any penalty. Any penalty imposed under this section shall become due and payable thirty days after the date of receipt of a notice imposing the same unless an appeal is filed with the council. Whenever an appeal of any penalty incurred hereunder is filed with the council, the penalty shall become due and payable only upon completion of all review proceedings and the issuance of a final order confirming the penalty in whole or in part. Judicial review of any final decision of the council is governed by chapter 34.05 RCW. All penalties recovered under this section shall be paid into the state treasury and credited to the general fund.

(3) For purposes of this subsection, "date of receipt" means:

(a) Five business days after the date of mailing; or

(b) The date of actual receipt, when the actual receipt date can be proven by a preponderance of the evidence. The date of actual receipt, however, may not exceed forty-five days from the date of mailing. [2015 3rd sp.s. c 39 § 3.]

80.52.050 Conduct of election. The election required under RCW 80.52.040 shall be conducted in the manner provided in this section.

(1)(a) If the applicant is a public utility district, joint operating agency, city, or county, the election shall be among the voters of the public utility district, city, or county, or among the voters of the local governmental entities comprising the membership of the joint operating agency.

(b) If the applicant is any public agency other than those described in subsection (1)(a) of this section, or is an assignee of a joint operating agency and not itself a joint operating agency, the election shall be conducted statewide in the manner provided in Title 29A RCW for statewide elections.

(2) The election shall be held at the next statewide general election occurring more than ninety days after submission of a request by an applicant to the secretary of state unless a special election is requested by the applicant as provided in this section.

(3) If no statewide election can be held under subsection (2) of this section within one hundred twenty days of the submission to the secretary of state of a request by an applicant for financing authority under this chapter, the applicant may request that a special election be held if such election is necessary to avoid significant delay in construction or acquisition of the energy project. Within ten days of receipt of such a request for a special election, the secretary of state shall designate a date for the election pursuant to RCW 29A.04.321 and certify the date to the county auditor of each county in which an election is to be held under this section.

(4) Prior to an election under this section, the applicant shall submit to the secretary of state a cost-effectiveness study, prepared by an independent consultant approved by the state finance committee, pertaining to the major public energy project under consideration. The study shall be available for public review and comment for thirty days. At the end of the thirty-day period, the applicant shall prepare a final draft of the study which includes the public comment, if any.

(5) The secretary of state shall certify the ballot issue for the election to be held under this section to the county auditor of each county in which an election is to be held. The certification shall include the statement of the proposition as provided in RCW 80.52.060. The costs of the election shall be relieved by the applicant in the manner provided by RCW 29A.04.410. In addition, the applicant shall reimburse the secretary of state for the applicant's share of the costs related

to the preparation and distribution of the voters' pamphlet required by subsection (6) of this section and such other costs as are attributable to any election held pursuant to this section.

(6) Prior to an election under this section, the secretary of state shall provide an opportunity for supporters and opponents of the requested financing authority to present their respective views in a voters' pamphlet which shall be distributed to the voters of the local governmental entities participating in the election. Upon submission of an applicant's request for an election pursuant to this section, the applicant shall provide the secretary of state with the following information regarding each major public energy project for which the applicant seeks financing authority at such election, which information shall be included in the voters' pamphlet:

(a) The name, location, and type of major public energy project, expressed in common terms;

(b) The dollar amount and type of bonds being requested;

(c) If the bond issuance is intended to finance the acquisition of all or a portion of the project, the anticipated total cost of the acquisition of the project;

(d) If the bond issuance is intended to finance the planning or construction of all or a portion of the project, the anticipated total cost of construction of the project;

(e) The projected average rate increase for consumers of the electricity to be generated by the project. The rate increase shall be that which will be necessary to repay the total indebtedness incurred for the project, including estimated interest;

(f) A summary of the final cost-effectiveness study conducted under subsection (4) of this section;

(g) The anticipated functional life of the project;

(h) The anticipated decommissioning costs of the project; and

(i) If a special election is requested by the applicant, the reasons for requesting a special election. [2015 c 53 § 96; 1982 c 88 § 1; 1981 2nd ex.s. c 6 § 5 (Initiative Measure No. 394, approved November 3, 1981).]

81.04.560 Railroad companies that transport crude oil must submit information relating to the ability to pay damages in the event of a spill or accident—Adoption of rules. (1) The commission must require a railroad company that transports crude oil in Washington to submit information to the commission relating to the railroad company's ability to pay damages in the event of a spill or accident involving the transport of crude oil by the railroad company in Washington. The information submitted to the commission must include a statement of whether the railroad has the ability to pay for damages resulting from a reasonable worst case spill of oil, as calculated by multiplying the reasonable per barrel cleanup and damage cost of spilled oil times the reasonable worst case spill volume as measured in barrels. A railroad company must include the information in the annual report submitted to the commission pursuant to RCW 81.04.080.

(2) The commission may not use the information submitted by a railroad company under this section as a basis for engaging in economic regulation of a railroad company.

(3) The commission may not use the information submitted by a railroad company under this section as a basis for penalizing a railroad company.

(4) Nothing in this section may be construed as assigning liability to a railroad company or establishing liquidated damages for a spill or accident involving the transport of crude oil by a railroad company.

(5) The commission may adopt rules for implementing this section consistent with the requirements of RCW 81.04.080. [2015 c 274 § 10.]

81.24.010 Companies to file reports of gross revenue and pay fees—Exempt companies. (1) Every company subject to regulation by the commission, except those listed in subsection (3) of this section, shall, on or before the date specified by the commission for filing annual reports under RCW 81.04.080, file with the commission a statement on oath showing its gross operating revenue from intrastate operations for the preceding calendar year, or portion thereof, and pay to the commission a fee equal to one-tenth of one percent of the first fifty thousand dollars of gross operating revenue, plus two-tenths of one percent of any gross operating revenue in excess of fifty thousand dollars, except railroad companies which shall each pay to the commission a fee of up to two and one-half percent of its intrastate gross operating revenue. However, a class three railroad that does not haul crude oil must pay a fee equal to one and one-half per-

cent of its intrastate gross operating revenue. The commission may, by rule, set minimum fees that do not exceed the cost of collecting the fees. The commission may by rule waive any or all of the minimum fee established pursuant to this section. Any railroad association that qualifies as a non-profit charitable organization under the federal internal revenue code section 501(c)(3) is exempt from the fee required under this subsection.

(2) The percentage rates of gross operating revenue to be paid in any one year may be decreased by the commission for any class of companies subject to the payment of such fees, by general order entered before March 1st of such year, and for such purpose railroad companies are classified as class two. Every other company subject to regulation by the commission, for which regulatory fees are not otherwise fixed by law, shall pay fees as herein provided and shall constitute additional classes according to kinds of businesses engaged in.

(3) This section does not apply to private nonprofit transportation providers, auto transportation companies, charter party carriers and excursion service carriers, solid waste collection companies, motor freight carriers, household goods carriers, commercial ferries, and low-level radioactive waste storage facilities. (1) "Commission" means the utilities and transportation commission of Washington.

(2) "Grade crossing" means any point or place where a railroad crosses a highway or a highway crosses a railroad or one railroad crosses another, at a common grade.

(3) "Highway" includes all state and county roads, streets, alleys, avenues, boulevards, parkways, and other public places actually open and in use, or to be opened and used, for travel by the public.

(5) "Private crossing" means any point or place where a railroad crosses a private road at grade or a private road crosses a railroad at grade, where the private road is not a highway.

(6) "Railroad" means every railroad, including interurban and suburban electric railroads, by whatsoever power operated, for the public use in the conveyance of persons or property for hire, with all bridges, ferries, tunnels, equipment, switches, spurs, sidings, tracks, stations, and terminal facilities of every kind, used, operated, controlled, managed, or owned by or in connection therewith. 81.53.240 Scope of chapter. (1) Except to the extent necessary to permit participation by first-class cities in the grade crossing protective fund, when an election to participate is made as provided in RCW 81.53.261 through 81.53.291, or to the extent a first-class city requests to participate in the commission's crossing safety inspection program within the city, this chapter is not operative within the limits of first-class cities, and does not apply to street railway lines

operating on or across any street, alley, or other public place within the limits of any city, except that a streetcar line outside of cities of the first class shall not cross a railroad at grade without express authority from the commission. 81.53.430 Safety standards for private crossings along railroad tracks over which crude oil is transported—Adoption of rules. (1) To address the potential public safety hazards presented by private crossings in the state and by the transportation of hazardous materials in the state, including crude oil, the commission is authorized to and must adopt rules governing safety standards for private crossings along the railroad tracks over which crude oil is transported in the state. The commission is also authorized to conduct inspections of the private crossings subject to this section, to order the railroads to make improvements at the private crossings, and enforce the orders.

(2) The commission must adopt rules governing private crossings along railroad tracks over which crude oil is transported in the state, establishing:

(a) Minimum safety standards for the private crossings subject to this section, including, but not limited to, requirements for signage; and

(b) Criteria for prioritizing the inspection and improvements of the private crossings subject to this section.

(3) Nothing in this section modifies existing agreements between the railroad company and the landowner governing liability for injuries or damages occurring at the private crossing. [2015 c 274 § 22.]

81.70.020 Definitions. Unless the context otherwise requires, the definitions and general provisions in this section govern the construction of this chapter:

(1) Subject to the exclusions of RCW 81.70.030, "charter party carrier" means every person engaged in the transportation over any public highways in this state of a group of persons, who, pursuant to a common purpose and under a single contract, acquire the use of a motor vehicle to travel together as a group to a specified destination or for a particular itinerary, either agreed upon in advance or modified by the chartered group after leaving the place of origin;

(2) "Commission" means the Washington utilities and transportation commission;

(3) "Customer" means a person, corporation, or other entity that prearranges for transportation services with a charter party carrier or purchases a ticket for transportation services aboard an excursion service carrier;

(4) "Double-decker bus" means a motor vehicle with more than one passenger deck. A person using a double-decker bus must comply with the maximum height vehicle requirements contained in RCW 46.44.020;

(5) Subject to the exclusion of RCW 81.70.030, "excursion service carrier" means every person engaged in the transportation of persons for compensation over any public highway in this state from points of origin within the incorporated limits of any city or town or area, to any other location within the state of Washington and returning to that origin. The service must not pick up or drop off passengers after leaving and before returning to the area of origin. The excursions may be regularly scheduled. Compensation for the transportation offered or afforded must be computed, charged, or assessed by the excursion service company on an individual fare basis;

(6) "Motor vehicle" means every self-propelled vehicle with seating capacity for seven or more persons, excluding the driver;

(7) Subject to the exclusions of RCW 81.70.030, "party bus" means any motor vehicle whose interior enables passengers to stand and circulate throughout the vehicle because seating is placed around the perimeter of the bus or is nonexistent and in which food, beverages, or entertainment may be provided. A motor vehicle configured in the traditional manner of forward-facing seating with a center aisle is not a party bus. A person engaged in the transportation of persons by party bus over any public highway in this state is considered engaging in the business of a charter party carrier or excursion service carrier;

(8) "Permit holder" means a holder of an appropriate special permit issued under chapter 66.20 RCW who is twenty-one years of age or older and who is responsible for compliance with the requirements of RCW 81.70.380 and chapter 66.20 RCW during the provision of transportation services;

(9) "Person or persons" means an individual, a corporation, association, joint stock association, and partnership, their lessees, trustees, or receivers;

(10) "Public highway" includes every public street, road, or highway in this state. [2015 c 233 § 1; 2007 c 234 § 55; 1989 c 163 § 6; 1988 c 30 § 1; 1969 c 132 § 1; 1965 c 150 § 3.]

Reviser's note: The definitions in this section have been alphabetized pursuant to RCW 1.08.015(2)(k).

81.70.030 Exclusions. This chapter does not apply to:

(1) Persons or their lessees, receivers, or trustees insofar as they own, control, operate, or manage taxicabs, hotel buses, or school buses, when operated as such;

(2) Passenger vehicles carrying passengers on a noncommercial enterprise basis; or

(3) Limousine charter party carriers of passengers under chapter 46.72A RCW. [2015 c 233 § 2; 2007 c 234 § 56; 1989 c 283 § 17; 1965 c 150 § 4.]

81.70.220 Certificate or registration required—Penalty. (1) No person may engage in the business of a charter party carrier or excursion service carrier of passengers over any public highway without first having obtained a certificate from the commission to do so or having registered as an interstate carrier. For the purposes of this section, "engage in the business of a charter party carrier or excursion service carrier" includes advertising or soliciting, offering, or entering into an agreement to provide such service. Each advertisement reproduced, broadcast, or displayed via a particular medium constitutes a separate violation under this chapter.

(2) Any person who engages in the business of a charter party carrier or excursion service carrier in violation of subsection (1) of this section is subject to a penalty of up to five thousand dollars per violation.

(3) An auto transportation company carrying passengers for compensation over any public highway in this state between fixed termini or over a regular route that is not required to hold an auto transportation certificate because of a commission finding under RCW 81.68.015 must obtain a certificate under this chapter. [2015 c 233 § 3; 2009 c 557 § 4; 1989 c 163 § 7; 1988 c 30 § 2.]

81.70.260 Unlawful operation after certificate or registration canceled, etc.—Penalty. (1) After the cancellation or revocation of a certificate or interstate registration or during the period of its suspension, it is unlawful for a charter party carrier or excursion service carrier of passengers to conduct any operations as such a carrier. For the purposes of this section, "conduct any operations" includes advertising or soliciting, offering, or entering into an agreement to provide such service. Each advertisement reproduced, broadcast, or displayed via a particular medium constitutes a separate violation under this chapter.

(2) Any person who conducts operations as a charter party carrier or excursion service carrier of passengers in violation of subsection (1) of this section is subject to a penalty of up to five thousand dollars per violation. [2015 c 233 § 4; 1989 c 163 § 9; 1988 c 30 § 6.]

81.70.320 Fees—Amounts, deposit. (1) An application for a certificate, amendment of a certificate, or transfer of a certificate must be accompanied by a filing fee the commission may prescribe by rule. The fee must not exceed two hundred dollars.

(2) All fees paid to the commission under this chapter must be deposited in the state treasury to the credit of the public service revolving fund.

(3) It is the intent of the legislature that all fees collected under this chapter must reasonably approximate the cost of supervising and regulating charter party carriers and excursion service carriers subject thereto, and to that end the commission may decrease the schedule of fees provided for in RCW 81.70.350 by general order entered before March 1st of any year in which the commission determines that the moneys, then in the charter party carrier and excursion service carrier account of the public service revolving fund, and the fees currently owed will exceed the reasonable cost of supervising and regulating such carriers during the succeeding calendar year. Whenever the cost accounting records of the commission indicate that the schedule of fees previously reduced should be increased, the increase, not to exceed the schedule set forth in this chapter, may be effected by a similar general order entered before March 1st of any calendar year. [2015 c 233 § 5; 2007 c 234 § 61; 1989 c 163 § 13; 1988 c 30 § 12.]

81.70.350 Annual regulatory fee—Delinquent fee payments. (1) The commission shall collect from each charter party carrier and excursion service carrier holding a certificate issued pursuant to this chapter and from each interstate or foreign carrier subject to this chapter an annual regulatory fee, to be established by the commission but which in total shall not exceed the cost of supervising and regulating such carriers, for each bus used by such carrier.

(2) The fee prescribed under this section is due and payable on or before May 1st of each year, to cover operations during the calendar year in which the fee is paid.

(3) Any payment of the fee imposed by this section made after its due date shall include a late fee of two percent of the amount due. Delinquent fees shall accrue interest at the rate of one percent per month. [2015 c 233 § 6; 1994 c 83 § 3; 1989 c 163 § 16; 1988 c 30 § 15.]

81.70.360 Excursion service companies—Certificate. No excursion service company may operate for the transportation of persons for compensation without first having obtained from the commission under the provisions of this chapter a certificate to do so. For the purposes of this section, "operate for the transportation of persons for compensation" includes advertising or soliciting, offering, or entering into an agreement to provide such service.

A certificate shall be issued to any qualified applicant therefor, authorizing the whole or any part of the operations covered by the application, if it is found that the applicant is fit, willing, and able to properly perform the services proposed and conform to the provisions of this chapter and the rules of the commission adopted under this chapter, and that such operations will be consistent with the public interest. Any right, privilege, or certificate held, owned, or obtained by an excursion service company may be sold, assigned,

leased, transferred, or inherited as other property only upon authorization by the commission. For good cause shown the commission may refuse to issue the certificate, or issue it for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted by the certificate such terms and conditions as, in its judgment, the public interest may require. [2015 c 233 § 7; 1984 c 166 § 5. Formerly RCW 81.68.045.]

81.70.380 Party buses—Alcohol consumption requirements, penalty. (1)(a) A charter party carrier or excursion service carrier operating a party bus must determine whether alcoholic beverages will be served or consumed in the passenger compartment of the vehicle. If it is expected that alcoholic beverages will be served or consumed in the passenger compartment, the permit holder must have obtained the appropriate liquor permit, provided a copy of the permit to the charter party carrier or excursion service carrier in advance of the trip, and be on the vehicle or reasonably proximate and available to the vehicle during the transportation service. The company must maintain the copy of the permit required with the contract of carriage.

(b) If the charter party carrier or excursion service carrier operating a party bus is the permit holder, the carrier must have a person separate from the driver be responsible for the permit holder requirements in this section and either chapter 66.20 or 66.24 RCW.

(c) The permit holder must:

(i) Be on the party bus or reasonably proximate and available to the vehicle during the transportation service;

(ii) Monitor and control party activities in a manner to prevent the driver from being distracted by the party activities; and

(iii) Assume responsibility for compliance with the terms of the special permit, if a permit is required, including compliance with RCW 66.44.270 concerning the prohibition against furnishing liquor to minors.

(2) If at any time the charter party carrier or excursion service carrier operating a party bus believes that conditions aboard the vehicle are unsafe due to party activities involving alcohol, the carrier must remove all alcoholic beverages and lock them in the party bus trunk or other locked compartment. The carrier may cancel the trip and return the passengers to the place of origin.

(3) This section does not limit the right of a charter party carrier or excursion service carrier to prohibit the consumption of alcohol aboard the vehicle.

(4) This section does not limit the right of a permit holder to seek indemnity from any person, corporation, or other entity other than the charter party carrier or excursion service carrier.

(5) This section does not relieve a passenger of legal responsibility for his or her own conduct or the permit holder of legal responsibility for compliance with Title 66 RCW.

(6) Any charter party carrier or excursion service carrier in violation of this section is subject to a penalty of up to five thousand dollars per violation. [2015 c 233 § 8.]

81.70.390 Passenger smoking on board prohibited.

(1) A charter party carrier or excursion service carrier may

not knowingly allow any passenger to smoke aboard a motor vehicle regulated under this chapter.

(2) For the purposes of this section, "smoke" has the same meaning as defined in RCW 70.160.020. [2015 c 233 § 9.]

**Chapter 81.104 RCW
HIGH CAPACITY TRANSPORTATION SYSTEMS**

Sections

81.104.140 Dedicated funding sources.

81.104.160 Motor vehicle excise tax for regional transit authorities—Sales and use tax on car rentals—Former motor vehicle excise tax repealed.

81.104.170 Sales and use tax—Maximum rates.

81.104.175 Property tax levy for regional transit authorities.

81.104.180 Pledge of revenues for bond retirement.

81.104.140 Dedicated funding sources. (1) Agencies authorized to provide high capacity transportation service, including transit agencies and regional transit authorities, and regional transportation investment districts acting with the agreement of an agency, are hereby granted dedicated funding sources for such systems. These dedicated funding sources, as set forth in RCW 81.104.150, 81.104.160, 81.104.170, and 81.104.175, are authorized only for agencies located in (a) each county with a population of two hundred ten thousand or more and (b) each county with a population of from one hundred twenty-five thousand to less than two hundred ten thousand except for those counties that do not border a county with a population as described under (a) of this subsection. In any county with a population of one million or more or in any county having a population of four hundred thousand or more bordering a county with a population of one million or more, these funding sources may be

imposed only by a regional transit authority or a regional transportation investment district. Regional transportation investment districts may, with the approval of the regional transit authority within its boundaries, impose the taxes authorized under this chapter, but only upon approval of the voters and to the extent that the maximum amount of taxes authorized under this chapter have not been imposed.

(2) Agencies planning to construct and operate a high capacity transportation system should also seek other funds, including federal, state, local, and private sector assistance.

(3) Funding sources should satisfy each of the following criteria to the greatest extent possible:

- (a) Acceptability;
- (b) Ease of administration;
- (c) Equity;
- (d) Implementation feasibility;
- (e) Revenue reliability; and
- (f) Revenue yield.

(4)(a) Agencies participating in regional high capacity transportation system development are authorized to levy and collect the following voter-approved local option funding sources:

(i) Employer tax as provided in RCW 81.104.150, other than by regional transportation investment districts;

(ii) Special motor vehicle excise tax as provided in RCW 81.104.160;

(iii) Regular property tax as provided in RCW 81.104.175; and

(iv) Sales and use tax as provided in RCW 81.104.170.

(b) Revenues from these taxes may be used only to support those purposes prescribed in subsection (10) of this section. Before the date of an election authorizing an agency to impose any of the taxes enumerated in this section and authorized in RCW 81.104.150, 81.104.160, 81.104.170, and 81.104.175, the agency must comply with the process prescribed in RCW 81.104.100 (1) and (2) and 81.104.110. No construction on exclusive rightofway may occur before the requirements of RCW 81.104.100(3) are met.

(5) Except for the regular property tax authorized in RCW 81.104.175, the authorization in subsection (4) of this section may not adversely affect the funding authority of transit agencies not provided for in this chapter. Local option funds may be used to support implementation of interlocal agreements with respect to the establishment of regional high capacity transportation service. Except when a regional transit authority exists, local jurisdictions must retain control over moneys generated within their boundaries, although funds may be commingled with those generated in other areas for planning, construction, and operation of high capacity transportation systems as set forth in the agreements.

(6) Except for the regular property tax authorized in RCW 81.104.175, agencies planning to construct and operate high capacity transportation systems may contract with the state for collection and transference of voter-approved local option revenue.

(7) Dedicated high capacity transportation funding sources authorized in RCW 81.104.150, 81.104.160, 81.104.170, and 81.104.175 are subject to voter approval by a simple majority. A single ballot proposition may seek approval for one or more of the authorized taxing sources.

The ballot title must reference the document identified in subsection (8) of this section.

(8) Agencies must provide to the registered voters in the area a document describing the systems plan and the financing plan set forth in RCW 81.104.100. It must also describe the relationship of the system to regional issues such as development density at station locations and activity centers, and the interrelationship of the system to adopted land use and transportation demand management goals within the region. This document must be provided to the voters at least twenty days prior to the date of the election.

(9) For any election in which voter approval is sought for a high capacity transportation system plan and financing plan pursuant to RCW 81.104.040, a local voter's pamphlet must be produced as provided in chapter 29A.32 RCW.

(10)(a) Agencies providing high capacity transportation service must retain responsibility for revenue encumbrance, disbursement, and bonding. Funds may be used for any purpose relating to planning, construction, and operation of high capacity transportation systems and commuter rail systems, personal rapid transit, busways, bus sets, and entrained and linked buses.

(b) A regional transit authority that imposes a motor vehicle excise tax after July 15, 2015, imposes a property tax, or increases a sales and use tax to more than nine-tenths of one percent must undertake a process in which the authority's board formally considers inclusion of the name, Scott White, in the naming convention associated with either the University of Washington or Roosevelt stations. [2015 3rd sp.s. c 44 § 318; 2002 c 56 § 202; 1992 c 101 § 25. Prior: 1991 c 318 § 11; 1991 c 309 § 4; (1991 c 363 § 157 repealed by 1991 c 309 § 6); 1990 c 43 § 35.]

81.104.160 Motor vehicle excise tax for regional transit authorities—Sales and use tax on car rentals—Former motor vehicle excise tax repealed. (1) Regional transit authorities that include a county with a population of more than one million five hundred thousand may submit an authorizing proposition to the voters, and if approved, may levy and collect an excise tax, at a rate approved by the voters, but not exceeding eight-tenths of one percent on the value, under chapter 82.44 RCW, of every motor vehicle owned by a resident of the taxing district, solely for the purpose of providing high capacity transportation service. The maximum tax rate under this subsection does not include a motor vehicle excise tax approved before July 15, 2015, if the tax will terminate on the date bond debt to which the tax is pledged is repaid. This tax does not apply to vehicles licensed under RCW 46.16A.455 except vehicles with an unladen weight of six thousand pounds or less, RCW 46.16A.425 or 46.17.335(2). Notwithstanding any other provision of this subsection or chapter 82.44 RCW, a motor vehicle excise tax imposed by a regional transit authority before or after July 15, 2015, must comply with chapter 82.44 RCW as it existed on January 1, 1996, until December 31st of the year in which the regional transit authority repays bond debt to which a motor vehicle excise tax was pledged before July 15, 2015. Motor vehicle taxes collected by regional transit authorities after December

31st of the year in which a regional transit authority repays bond debt to which a motor vehicle excise tax was pledged before July 15, 2015, must comply with chapter 82.44 RCW as it existed on the date the tax was approved by voters.

(2) An agency and high capacity transportation corridor area may impose a sales and use tax solely for the purpose of providing high capacity transportation service, in addition to the tax authorized by RCW 82.14.030, upon retail car rentals within the applicable jurisdiction that are taxable by the state under chapters 82.08 and 82.12 RCW. The rate of tax may not exceed 2.172 percent. The rate of tax imposed under this subsection must bear the same ratio of the 2.172 percent authorized that the rate imposed under subsection (1) of this section bears to the rate authorized under subsection (1) of this section. The base of the tax is the selling price in the case of a sales tax or the rental value of the vehicle used in the case of a use tax.

(3) Any motor vehicle excise tax previously imposed under the provisions of RCW 81.104.160(1) shall be repealed, terminated, and expire on December 5, 2002, except for a motor vehicle excise tax for which revenues have been contractually pledged to repay a bonded debt issued before December 5, 2002, as determined by *Pierce County et al. v. State*, 159 Wn.2d 16, 148 P.3d 1002 (2006). In the case of bonds that were previously issued, the motor vehicle excise tax must comply with chapter 82.44 RCW as it existed on January 1, 1996.

(4) If a regional transit authority imposes the tax authorized under subsection (1) of this section, the authority may not receive any state grant funds provided in an omnibus transportation appropriations act except transit coordination grants created in chapter 11, Laws of 2015 3rd sp. sess. [2015 3rd sp.s. c 44 § 319; 2010 c 161 § 903; 2009 c 280 § 4; 2003 c 1 § 6 (Initiative Measure No. 776, approved November 5, 2002); 1998 c 321 § 35 (Referendum Bill No. 49, approved November 3, 1998). Prior: 1992 c 194 § 13; 1992 c 101 § 27; 1991 c 318 § 12; 1990 c 43 § 42.]

Reviser's note: In *Pierce County v. State*, 159 Wn.2d 16 (2006), the supreme court held that section 6, chapter 1, Laws of 2003 (Initiative Measure No. 776) impermissibly impairs the contractual obligations between Sound Transit and its bondholders in violation of the contract clause and, as a result, has no legal effect of preventing Sound Transit from continuing to fulfill its contractual obligation to levy the motor vehicle excise tax for so long as the bonds remain outstanding.

Repeal of taxes by 2003 c 1 § 6 (Initiative Measure No. 776): "If the repeal of taxes in section 6 of this act affects any bonds previously issued for any purpose relating to light rail, the people expect transit agencies to retire these bonds using reserve funds including accrued interest, sale of property or equipment, new voter approved tax revenues, or any combination of these sources of revenue. Taxing districts should abstain from further bond sales for any purpose relating to light rail until voters decide this measure. The people encourage transit agencies to put another tax revenue measure before voters if they want to continue with a light rail system dramatically changed from that previously represented to and approved by voters." 81.104.170 Sales and use tax—Maximum rates. (1) Cities that operate transit systems, county transportation authorities, metropolitan municipal corporations, public transportation benefit areas, high capacity transportation corridor areas, and regional transit authorities may submit an authorizing proposition to the voters and if approved by a majority of persons voting, fix and impose a sales and use tax in accordance with the terms of this chapter, solely for the purpose of providing high capacity transportation service.

(2) The tax authorized pursuant to this section is in addition to the tax authorized by RCW 82.14.030 and must be collected from those persons who are taxable by the state pursuant to chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the taxing district.

(a) Except for the tax imposed under (b) of this subsection by regional transit authorities that include a county with a population of more than one million five hundred thousand, the maximum rate of such tax must be approved by the voters and may not exceed one percent of the selling price (in the case of a sales tax) or value of the article used (in the case of a use tax). The maximum rate of such tax that may be imposed may not exceed nine-tenths of one percent in any county that imposes a tax under RCW 82.14.340, or within a regional transit authority if any county within the authority imposes a tax under RCW 82.14.340.

(b) The maximum rate of such tax that may be imposed by a regional transit authority that includes a county with a population of more than one million five hundred thousand must be approved by the voters and may not exceed 1.4 percent. If a regional transit authority imposes the tax authorized under this subsection (2)(b) in excess of 0.9 percent, the authority may not receive any state grant funds provided in an omnibus transportation appropriations act except transit coordination grants created in chapter 11, Laws of 2015 3rd sp. sess.

(3)(a) The exemptions in RCW 82.08.820 and 82.12.820 are for the state portion of the sales and use tax and do not extend to the tax authorized in this section.

amount not to exceed twenty-five cents per thousand dollars of the assessed value of property in the regional transit authority district in accordance with the terms of this section.

(2) Any tax imposed under this section must be used for the purpose of providing high capacity transportation service, as set forth in a proposition that is approved by a majority of the registered voters that vote on the proposition.

(3) Property taxes imposed under this section may be imposed for the period of time required to pay the cost to plan, design, construct, operate, and maintain the transit facilities set forth in the approved proposition. Property taxes pledged to repay bonds may be imposed at the pledged amount until the bonds are retired. After the bonds are retired, property taxes authorized under this section must be:

(a) Reduced to the level required to operate and maintain the regional transit authority's transit facilities; or

(b) Terminated, unless the taxes have been extended by public vote.

(4) The limitations in RCW 84.52.043 do not apply to the tax authorized in this section.

(5) The limitation in RCW 84.55.010 does not apply to the first levy imposed under this section.

(6) If a regional transit authority imposes the tax authorized under subsection (1) of this section, the authority may not receive any state grant funds provided in an omnibus transportation appropriations act except transit coordination grants created in chapter 11, Laws of 2015 3rd sp. sess. 81.112.050 Area included—Elections. (1) At the time of formation, the area to be included within the boundary of the authority shall be that area set forth in the system plan adopted by the joint regional policy committee. Prior to submitting the system and financing plan to the voters, the

[2015 RCW Supp—page 978]

authority may make adjustments to the boundaries as deemed appropriate but must assure that, to the extent possible, the boundaries: (a) Include the largest-population urban growth area designated by each county under chapter 36.70A RCW; and (b) follow election precinct boundaries. If a portion of any city is determined to be within the service area, the entire city must be included within the boundaries of the authority. Subsequent to formation, when territory is annexed to a city located within the boundaries of the authority, the territory is simultaneously included within the boundaries of the authority and subject to all taxes and other liabilities and obligations applicable within the city with respect to the authority as provided in RCW 35.13.500 and 35A.14.475, subject to RCW 84.09.030 and 82.14.055, and notwithstanding any other provision of law.

(2) After voters within the authority boundaries have approved the system and financing plan, elections to add areas contiguous to the authority boundaries may be called by resolution of the regional transit authority, after consultation with affected transit agencies and with the concurrence of the legislative authority of the city or town if the area is incorporated, or with the concurrence of the county legislative authority if the area is unincorporated. Only those areas that would benefit from the services provided by the authority may be included and services or projects proposed for the area must be consistent with the regional transportation plan. The election may include a single ballot proposition providing for annexation to the authority boundaries and imposition of the taxes at rates already imposed within the authority boundaries, subject to RCW 84.09.030 and 82.14.055. 81.112.210 Fare payment—Fines and penalties established—Enforcement. (1) An authority is authorized to establish, by resolution, a schedule of fines and penalties for civil infractions established in RCW 81.112.220. Fines established by an authority shall not exceed those imposed for class 1 infractions under RCW 7.80.120.

(2)(a) An authority may designate persons to monitor fare payment who are equivalent to and are authorized to exercise all the powers of an enforcement officer, defined in RCW 7.80.040. An authority is authorized to employ personnel to either monitor fare payment, or to contract for such services, or both.

(b) In addition to the specific powers granted to enforcement officers under RCW 7.80.050 and 7.80.060, persons designated to monitor fare payment also have the authority to take the following actions:

- (i) Request proof of payment from passengers;
- (ii) Request personal identification from a passenger who does not produce proof of payment when requested;
- (iii)(A) Issue a notice of infraction for a civil infraction established in RCW 81.112.220.

(B) The notice of infraction form to be used for violations under this subsection must be approved by the administrative office of the courts and must not include vehicle information; and

(iv) Request that a passenger leave the authority facility when the passenger has not produced proof of payment after being asked to do so by a person designated to monitor fare payment.

(3) Authorities shall keep records of citations in the manner prescribed by RCW 7.80.150. All civil infractions established by chapter 20, Laws of 1999 shall be heard and determined by a district or municipal court as provided in RCW 7.80.010 (1), (2), and (4). This act is intended to be consistent with and implemented pursuant to chapter 7.80 RCW with regard to civil infractions, the issuance of citations, and the maintenance of citation records." [1999 c 20 § 1.]

81.112.350 Transit-oriented development strategy system plan—Requirements—Definitions—Quarterly reports. (1) A regional transit authority that includes a county with a population of more than one million five hundred thousand must develop and seek voter approval for a system plan, which meets the requirements of any transportation subarea equity element used by the authority, to implement a regional equitable transit-oriented development strategy for diverse, vibrant, mixed-use and mixed-income communities consistent with transit-oriented development plans developed with community input by any regional transportation planning organization within the regional transit authority boundaries. This system plan, which must be part of any authorizing proposition submitted to the voters after July 15, 2015, must include the following:

(a) The regional transit authority must contribute at least four million dollars each year for five consecutive years beginning within three years of voter approval of the system plan to a revolving loan fund to support the development of affordable housing opportunities related to equitable transit-oriented development within the boundaries of the regional transit authority.

(b)(i) A requirement that when a regional transit authority disposes or transfers any surplus property, including, but not limited to, property acquired prior to July 15, 2015, a minimum of eighty percent of the surplus property to be disposed or transferred, including air rights, that is suitable for development as housing, must be offered for either transfer at no cost, sale, or long-term lease first to qualified entities that agree to develop affordable housing on the property, consistent with local land use and zoning laws.

(ii)(A) If a qualified entity receives surplus property from a regional transit authority after being offered the property as provided in (b)(i) of this subsection, the authority must require a minimum of eighty percent of the housing units constructed on property obtained under (b)(i) of this subsection to be dedicated to affordable housing.

(B) If a qualified entity sells property or development rights obtained through (b)(i) of this subsection, it must use the proceeds from the sale to construct affordable housing within one-half mile of a light rail station or transit station.

(c) A requirement that the regional transit authority must work in good faith to implement all requirements of this section, but is not required to comply with a requirement imposed by (b)(i) or (ii) of this subsection if the requirement is in conflict, as determined by the relevant federal agency, with provisions of the applicable federal transit administration master grant agreement, federal transit administration full funding grant agreement with the regional transit authority, or the equivalent federal railroad administration agreement necessary to establish or maintain eligibility for a federal grant program.

(d) A requirement that (b) of this subsection does not apply to property to be transferred to governments or third parties in order to facilitate permitting, construction, or mitigation of high-capacity transportation facilities and services.

(2) For the purposes of this section:

(a) "Affordable housing" means long-term housing for persons, families, or unrelated persons living together whose adjusted income is at or below eighty percent of the median income, adjusted for household size, for the county where the housing is located.

(b) "Qualified entity" means a local government, housing authority, and nonprofit developer.

(3) A regional transit authority implementing subsection (1)(b) of this section must, at the end of each fiscal quarter, send a report to the appropriate committees of the legislature and post a report on its web site detailing the following activities:

(a) Any transfers of property that have occurred in the previous fiscal quarter pursuant to subsection (1)(b) of this section; and

(b) Any progress in implementing any regional equitable transit-oriented development strategy for diverse, vibrant, mixed-use and mixed-income communities approved by the voters pursuant to this section. [2015 3rd sp.s. c 44 § 329.]

Reviser's note: This section was directed to be codified in chapter 81.104 RCW, but placement in chapter 81.112 RCW appears to be more appropriate.

Effective date—2015 3rd sp.s. c 44: See note following RCW 46.68.395.

81.112.360 Sales and use tax offset fee. (1) Beginning January 1, 2017, and until the requirements in subsection (4) of this section are met, a regional transit authority must pay to the department of revenue, for deposit into the Puget Sound taxpayer accountability account, a sales and use tax offset fee.

(2) A sales and use tax offset fee is three and twenty-five one-hundredths percent of the total payments made by the regional transit authority to construction contractors on construction contracts that are (a) for new projects identified in the system plan funded by any proposition approved by voters after January 1, 2015, and (b) excluded from the definition of retail sale under RCW 82.04.050(10).

(3) Fees are due monthly by the twenty-fifth day of the month, with respect to payments made to construction contractors during the previous month.

(4) A sales and use tax offset fee is due until the regional transit authority has paid five hundred eighteen million dollars.

(5) Except as otherwise provided in this section, the provisions of chapter 82.32 RCW apply to this section.

(6) The department of revenue must oversee the collection of the sales and use tax offset fee and may adopt rules necessary to implement this section. [2015 3rd sp.s. c 44 § 422.]

GENERAL PROVISIONS

82.02.050 Impact fees—Intent—Limitations. (*Effective September 1, 2016.*)

82.02.050 Impact fees—Intent—Limitations. (*Effective September 1, 2016.*) (1) It is the intent of the legislature:

(a) To ensure that adequate facilities are available to serve new growth and development;

(b) To promote orderly growth and development by establishing standards by which counties, cities, and towns may require, by ordinance, that new growth and development pay a proportionate share of the cost of new facilities needed to serve new growth and development; and

(c) To ensure that impact fees are imposed through established procedures and criteria so that specific develop-

ments do not pay arbitrary fees or duplicative fees for the same impact.

(2) Counties, cities, and towns that are required or choose to plan under RCW 36.70A.040 are authorized to impose impact fees on development activity as part of the financing for public facilities, provided that the financing for system improvements to serve new development must provide for a balance between impact fees and other sources of public funds and cannot rely solely on impact fees.

(3)(a)(i) Counties, cities, and towns collecting impact fees must, by September 1, 2016, adopt and maintain a system for the deferred collection of impact fees for single-family detached and attached residential construction. The deferral system must include a process by which an applicant for a building permit for a single-family detached or attached residence may request a deferral of the full impact fee payment. The deferral system offered by a county, city, or town under this subsection (3) must include one or more of the following options:

(A) Deferring collection of the impact fee payment until final inspection;

(B) Deferring collection of the impact fee payment until certificate of occupancy or equivalent certification; or

(C) Deferring collection of the impact fee payment until the time of closing of the first sale of the property occurring after the issuance of the applicable building permit.

(ii) Counties, cities, and towns utilizing the deferral process required by this subsection (3)(a) may withhold certification of final inspection, certificate of occupancy, or equivalent certification until the impact fees have been paid in full.

(iii) The amount of impact fees that may be deferred under this subsection (3) must be determined by the fees in effect at the time the applicant applies for a deferral.

(iv) Unless an agreement to the contrary is reached between the buyer and seller, the payment of impact fees due at closing of a sale must be made from the seller's proceeds. In the absence of an agreement to the contrary, the seller bears strict liability for the payment of the impact fees.

(b) The term of an impact fee deferral under this subsection (3) may not exceed eighteen months from the date of building permit issuance.

(c) Except as may otherwise be authorized in accordance with (f) of this subsection (3), an applicant seeking a deferral under this subsection (3) must grant and record a deferred impact fee lien against the property in favor of the county, city, or town in the amount of the deferred impact fee. The deferred impact fee lien, which must include the legal description, tax account number, and address of the property, must also be:

(i) In a form approved by the county, city, or town;

(ii) Signed by all owners of the property, with all signatures acknowledged as required for a deed, and recorded in the county where the property is located;

(iii) Binding on all successors in title after the recording; and

(iv) Junior and subordinate to one mortgage for the purpose of construction upon the same real property granted by the person who applied for the deferral of impact fees.

(d)(i) If impact fees are not paid in accordance with a deferral authorized by this subsection (3), and in accordance with the term provisions established in (b) of this subsection

(3), the county, city, or town may institute foreclosure proceedings in accordance with chapter 61.12 RCW.

(ii) If the county, city, or town does not institute foreclosure proceedings for unpaid school impact fees within forty-five days after receiving notice from a school district requesting that it do so, the district may institute foreclosure proceedings with respect to the unpaid impact fees.

(e)(i) Upon receipt of final payment of all deferred impact fees for a property, the county, city, or town must execute a release of deferred impact fee lien for the property. The property owner at the time of the release, at his or her expense, is responsible for recording the lien release.

(ii) The extinguishment of a deferred impact fee lien by the foreclosure of a lien having priority does not affect the obligation to pay the impact fees as a condition of final inspection, certificate of occupancy, or equivalent certification, or at the time of closing of the first sale.

(f) A county, city, or town with an impact fee deferral process on or before April 1, 2015, is exempt from the requirements of this subsection (3) if the deferral process delays all impact fees and remains in effect after September 1, 2016.

(g)(i) Each applicant for a single-family residential construction permit, in accordance with his or her contractor registration number or other unique identification number, is entitled to annually receive deferrals under this subsection (3) for the first twenty single-family residential construction building permits per county, city, or town. A county, city, or town, however, may elect, by ordinance, to defer more than twenty single-family residential construction building permits for an applicant. If the county, city, or town collects impact fees on behalf of one or more school districts for which the collection of impact fees could be delayed, the county, city, or town must consult with the district or districts about the additional deferrals. A county, city, or town considering additional deferrals must give substantial weight to recommendations of each applicable school district regarding the number of additional deferrals. If the county, city, or town disagrees with the recommendations of one or more school districts, the county, city, or town must provide the district or districts with a written rationale for its decision.

(ii) For purposes of this subsection (3)(g), an "applicant" includes an entity that controls the applicant, is controlled by the applicant, or is under common control with the applicant.

(h) Counties, cities, and towns may collect reasonable administrative fees to implement this subsection (3) from permit applicants who are seeking to delay the payment of impact fees under this subsection (3).

(i) In accordance with RCW 44.28.812 and 43.31.980, counties, cities, and towns must cooperate with and provide requested data, materials, and assistance to the department of commerce and the joint legislative audit and review committee.

(4) The impact fees:

(a) Shall only be imposed for system improvements that are reasonably related to the new development;

(b) Shall not exceed a proportionate share of the costs of system improvements that are reasonably related to the new development; and

(c) Shall be used for system improvements that will reasonably benefit the new development.

(5)(a) Impact fees may be collected and spent only for the public facilities defined in RCW 82.02.090 which are addressed by a capital facilities plan element of a comprehensive land use plan adopted pursuant to the provisions of RCW 36.70A.070 or the provisions for comprehensive plan adoption contained in chapter 36.70, 35.63, or 35A.63 RCW. After the date a county, city, or town is required to adopt its development regulations under chapter 36.70A RCW, continued authorization to collect and expend impact fees is contingent on the county, city, or town adopting or revising a comprehensive plan in compliance with RCW 36.70A.070, and on the capital facilities plan identifying:

(i) Deficiencies in public facilities serving existing development and the means by which existing deficiencies will be eliminated within a reasonable period of time;

(ii) Additional demands placed on existing public facilities by new development; and

(iii) Additional public facility improvements required to serve new development.

(b) If the capital facilities plan of the county, city, or town is complete other than for the inclusion of those elements which are the responsibility of a special district, the county, city, or town may impose impact fees to address those public facility needs for which the county, city, or town is responsible. 82.04.050 "Sale at retail," "retail sale." (*Effective until January 1, 2016.*) (1)(a) "Sale at retail" or "retail sale" means every sale of tangible personal property (including articles produced, fabricated, or imprinted) to all persons irrespective of the nature of their business and including, among others, without limiting the scope hereof, persons who install, repair, clean, alter, improve, construct, or decorate real or personal property of or for consumers other than a sale to a person who:

(i) Purchases for the purpose of resale as tangible personal property in the regular course of business without intervening use by such person, but a purchase for the purpose of resale by a regional transit authority under RCW 81.112.300 is not a sale for resale; or

(ii) Installs, repairs, cleans, alters, imprints, improves, constructs, or decorates real or personal property of or for consumers, if such tangible personal property becomes an ingredient or component of such real or personal property without intervening use by such person; or

(iii) Purchases for the purpose of consuming the property purchased in producing for sale as a new article of tangible personal property or substance, of which such property becomes an ingredient or component or is a chemical used in processing, when the primary purpose of such chemical is to create a chemical reaction directly through contact with an ingredient of a new article being produced for sale; or

(iv) Purchases for the purpose of consuming the property purchased in producing ferrosilicon which is subsequently used in producing magnesium for sale, if the primary purpose of such property is to create a chemical reaction directly through contact with an ingredient of ferrosilicon; or

(v) Purchases for the purpose of providing the property to consumers as part of competitive telephone service, as defined in RCW 82.04.065; or

(vi) Purchases for the purpose of satisfying the person's obligations under an extended warranty as defined in subsection (7) of this section, if such tangible personal property replaces or becomes an ingredient or component of property covered by the extended warranty without intervening use by such person.

(b) The term includes every sale of tangible personal property that is used or consumed or to be used or consumed in the performance of any activity defined as a "sale at retail" or "retail sale" even though such property is resold or used as provided in (a)(i) through (vi) of this subsection following such use.

(c) The term also means every sale of tangible personal property to persons engaged in any business that is taxable under RCW 82.04.280(1) (a), (b), and (g), 82.04.290, and 82.04.2908.

(2) The term "sale at retail" or "retail sale" includes the sale of or charge made for tangible personal property con-

sumed and/or for labor and services rendered in respect to the following:

(a) The installing, repairing, cleaning, altering, imprinting, or improving of tangible personal property of or for consumers, including charges made for the mere use of facilities in respect thereto, but excluding charges made for the use of self-service laundry facilities, and also excluding sales of laundry service to nonprofit health care facilities, and excluding services rendered in respect to live animals, birds and insects;

(b) The constructing, repairing, decorating, or improving of new or existing buildings or other structures under, upon, or above real property of or for consumers, including the installing or attaching of any article of tangible personal property therein or thereto, whether or not such personal property becomes a part of the realty by virtue of installation, and also includes the sale of services or charges made for the clearing of land and the moving of earth excepting the mere leveling of land used in commercial farming or agriculture;

(c) The constructing, repairing, or improving of any structure upon, above, or under any real property owned by an owner who conveys the property by title, possession, or any other means to the person performing such construction, repair, or improvement for the purpose of performing such construction, repair, or improvement and the property is then reconveyed by title, possession, or any other means to the original owner;

(d) The cleaning, fumigating, razing, or moving of existing buildings or structures, but does not include the charge made for janitorial services; and for purposes of this section the term "janitorial services" means those cleaning and caretaking services ordinarily performed by commercial janitor service businesses including, but not limited to, wall and window washing, floor cleaning and waxing, and the cleaning in place of rugs, drapes and upholstery. The term "janitorial services" does not include painting, papering, repairing, furnace or septic tank cleaning, snow removal or sandblasting;

(e) Automobile towing and similar automotive transportation services, but not in respect to those required to report and pay taxes under chapter 82.16 RCW;

(f) The furnishing of lodging and all other services by a hotel, rooming house, tourist court, motel, trailer camp, and the granting of any similar license to use real property, as distinguished from the renting or leasing of real property, and it is presumed that the occupancy of real property for a continuous period of one month or more constitutes a rental or lease of real property and not a mere license to use or enjoy the same. For the purposes of this subsection, it is presumed that the sale of and charge made for the furnishing of lodging for a continuous period of one month or more to a person is a rental or lease of real property and not a mere license to enjoy the same;

(g) The installing, repairing, altering, or improving of digital goods for consumers;

(h) Persons taxable under (a), (b), (c), (d), (e), (f), and (g) of this subsection when such sales or charges are for property, labor and services which are used or consumed in whole or in part by such persons in the performance of any activity defined as a "sale at retail" or "retail sale" even though such property, labor and services may be resold after such use or consumption. Nothing contained in this subsection may be

construed to modify subsection (1) of this section and nothing contained in subsection (1) of this section may be construed to modify this subsection.

(3) The term "sale at retail" or "retail sale" includes the sale of or charge made for personal, business, or professional services including amounts designated as interest, rents, fees, admission, and other service emoluments however designated, received by persons engaging in the following business activities:

(a)(i) Amusement and recreation services including but not limited to golf, pool, billiards, skating, bowling, ski lifts and tows, day trips for sightseeing purposes, and others, when provided to consumers.

(ii) Until July 1, 2017, amusement and recreation services do not include the opportunity to dance provided by an establishment in exchange for a cover charge.

(iii) For purposes of this subsection (3)(a):

(A) "Cover charge" means a charge, regardless of its label, to enter an establishment or added to the purchaser's bill by an establishment or otherwise collected after entrance to the establishment, and the purchaser is provided the opportunity to dance in exchange for payment of the charge.

(B) "Opportunity to dance" means that an establishment provides a designated physical space, on either a temporary or permanent basis, where customers are allowed to dance and the establishment either advertises or otherwise makes customers aware that it has an area for dancing;

(b) Abstract, title insurance, and escrow services;

(c) Credit bureau services;

(d) Automobile parking and storage garage services;

(e) Landscape maintenance and horticultural services but excluding (i) horticultural services provided to farmers and (ii) pruning, trimming, repairing, removing, and clearing of trees and brush near electric transmission or distribution lines or equipment, if performed by or at the direction of an electric utility;

(f) Service charges associated with tickets to professional sporting events; and

(g) The following personal services: Physical fitness services, tanning salon services, tattoo parlor services, steam bath services, turkish bath services, escort services, and dating services.

(4)(a) The term also includes the renting or leasing of tangible personal property to consumers.

(b) The term does not include the renting or leasing of tangible personal property where the lease or rental is for the purpose of sublease or subrent.

(5) The term also includes the providing of "competitive telephone service," "telecommunications service," or "ancillary services," as those terms are defined in RCW 82.04.065, to consumers.

(6)(a) The term also includes the sale of prewritten computer software to a consumer, regardless of the method of delivery to the end user. For purposes of (a) and (b) of this subsection, the sale of prewritten computer software includes the sale of or charge made for a key or an enabling or activation code, where the key or code is required to activate prewritten computer software and put the software into use. There is no separate sale of the key or code from the prewritten computer software, regardless of how the sale may be characterized by the vendor or by the purchaser.

(b) The term "retail sale" does not include the sale of or charge made for:

(i) Custom software; or

(ii) The customization of prewritten computer software.

(c)(i) The term also includes the charge made to consumers for the right to access and use prewritten computer software, where possession of the software is maintained by the seller or a third party, regardless of whether the charge for the service is on a per use, per user, per license, subscription, or some other basis.

(ii)(A) The service described in (c)(i) of this subsection (6) includes the right to access and use prewritten computer software to perform data processing.

(B) For purposes of this subsection (6)(c)(ii), "data processing" means the systematic performance of operations on data to extract the required information in an appropriate form or to convert the data to usable information. Data processing includes check processing, image processing, form processing, survey processing, payroll processing, claim processing, and similar activities.

(7) The term also includes the sale of or charge made for an extended warranty to a consumer. For purposes of this subsection, "extended warranty" means an agreement for a specified duration to perform the replacement or repair of tangible personal property at no additional charge or a reduced charge for tangible personal property, labor, or both, or to provide indemnification for the replacement or repair of tangible personal property, based on the occurrence of specified events. The term "extended warranty" does not include an agreement, otherwise meeting the definition of extended warranty in this subsection, if no separate charge is made for the agreement and the value of the agreement is included in the sales price of the tangible personal property covered by the agreement. For purposes of this subsection, "sales price" has the same meaning as in RCW 82.08.010.

(8)(a) The term also includes the following sales to consumers of digital goods, digital codes, and digital automated services:

(i) Sales in which the seller has granted the purchaser the right of permanent use;

(ii) Sales in which the seller has granted the purchaser a right of use that is less than permanent;

(iii) Sales in which the purchaser is not obligated to make continued payment as a condition of the sale; and

(iv) Sales in which the purchaser is obligated to make continued payment as a condition of the sale.

(b) A retail sale of digital goods, digital codes, or digital automated services under this subsection (8) includes any services provided by the seller exclusively in connection with the digital goods, digital codes, or digital automated services, whether or not a separate charge is made for such services.

(c) For purposes of this subsection, "permanent" means perpetual or for an indefinite or unspecified length of time. A right of permanent use is presumed to have been granted unless the agreement between the seller and the purchaser specifies or the circumstances surrounding the transaction suggest or indicate that the right to use terminates on the occurrence of a condition subsequent.

(9) The term also includes the charge made for providing tangible personal property along with an operator for a fixed or indeterminate period of time. A consideration of this is that

the operator is necessary for the tangible personal property to perform as designed. For the purpose of this subsection (9), an operator must do more than maintain, inspect, or set up the tangible personal property.

(10) The term does not include the sale of or charge made for labor and services rendered in respect to the building, repairing, or improving of any street, place, road, highway, easement, right-of-way, mass public transportation terminal or parking facility, bridge, tunnel, or trestle which is owned by a municipal corporation or political subdivision of the state or by the United States and which is used or to be used primarily for foot or vehicular traffic including mass transportation vehicles of any kind.

(11) The term also does not include sales of chemical sprays or washes to persons for the purpose of postharvest treatment of fruit for the prevention of scald, fungus, mold, or decay, nor does it include sales of feed, seed, seedlings, fertilizer, agents for enhanced pollination including insects such as bees, and spray materials to: (a) Persons who participate in the federal conservation reserve program, the environmental quality incentives program, the wetlands reserve program, and the wildlife habitat incentives program, or their successors administered by the United States department of agriculture; (b) farmers for the purpose of producing for sale any agricultural product; (c) farmers for the purpose of providing bee pollination services; and (d) farmers acting under cooperative habitat development or access contracts with an organization exempt from federal income tax under 26 U.S.C. Sec. 501(c)(3) of the federal internal revenue code or the Washington state department of fish and wildlife to produce or improve wildlife habitat on land that the farmer owns or leases.

(12) The term does not include the sale of or charge made for labor and services rendered in respect to the constructing, repairing, decorating, or improving of new or existing buildings or other structures under, upon, or above real property of or for the United States, any instrumentality thereof, or a county or city housing authority created pursuant to chapter 35.82 RCW, including the installing, or attaching of any article of tangible personal property therein or thereto, whether or not such personal property becomes a part of the realty by virtue of installation. Nor does the term include the sale of services or charges made for the clearing of land and the moving of earth of or for the United States, any instrumentality thereof, or a county or city housing authority. Nor does the term include the sale of services or charges made for cleaning up for the United States, or its instrumentalities, radioactive waste and other by-products of weapons production and nuclear research and development.

(13) The term does not include the sale of or charge made for labor, services, or tangible personal property pursuant to agreements providing maintenance services for bus, rail, or rail fixed guideway equipment when a regional transit authority is the recipient of the labor, services, or tangible personal property, and a transit agency, as defined in RCW 81.104.015, performs the labor or services.

(14) The term does not include the sale for resale of any service described in this section if the sale would otherwise constitute a "sale at retail" and "retail sale" under this section. Intent—2013 2nd sp.s. c 13: "It is the intent of part VIII of this act to provide a sales tax exemption for cover charges to patrons at establishments that provide the opportunity to dance. The intent is to provide tax relief to businesses who have been reporting the income for cover charges under the service and other classification, but not intending to avoid their tax obligation of collecting retail sales tax because of department and taxpayer confusion regarding the appropriate tax treatment of this income. To ensure proper tax reporting in the future by businesses who provide the opportunity to dance, the legislature intends to review the tax preference and its actual fiscal impact on state revenues to determine if the fiscal impact to state revenues reasonably conforms with the fiscal estimate in the fiscal note for this legislation." Retroactive application—2010 c 112: See note following RCW 82.32.780.

Purpose—2010 c 111: "The 2009 legislature enacted Engrossed Substitute House Bill No. 2075 (chapter 535, Laws of 2009), an act relating to the excise taxation of certain products and services provided or furnished electronically. The bill took effect July 26, 2009.

Engrossed Substitute House Bill No. 2075, at eighty-five pages, was a comprehensive piece of legislation that made major changes to state and local sales and use taxes, as well as the state business and occupation tax. Moreover, Engrossed Substitute House Bill No. 2075 was a complex piece of legislation because of the intricate interrelationship between the sales tax and the business and occupation tax and also because the bill affects the taxation of products and services that involve technologies that are changing rapidly.

Because of the complexity and length of Engrossed Substitute House Bill No. 2075, it was the legislature's expectation that, in the course of implementing the bill, ambiguities and unintended consequences would be discovered, which, if not corrected, will unsettle expectations. Thus, the legislature further anticipated that it would need to consider legislation in the 2010 legislative session to address these issues.

Therefore, the purpose of this act is to clarify ambiguities, correct unintended consequences, restore expectations, and conform the law to the original intent of the legislature." [2010 c 111 § 101.]

Retroactive application—2010 c 111: "(1) Except as provided in subsection (2) of this section, this act applies both prospectively and retroactively to July 26, 2009.

(2) Sections 202, 402, and 502 of this act, and those provisions of sections 401 and 501 of this act that eliminate the sales and use tax exemptions in RCW 82.08.02082 and 82.12.02082, apply prospectively only." [2010 c 111 § 902.]

(h) Persons taxable under (a), (b), (c), (d), (e), (f), and (g) of this subsection when such sales or charges are for property, labor and services which are used or consumed in whole or in part by such persons in the performance of any activity defined as a "sale at retail" or "retail sale" even though such property, labor and services may be resold after such use or consumption. Nothing contained in this subsection may be construed to modify subsection (1) of this section and nothing contained in subsection (1) of this section may be construed to modify this subsection.

(3) The term "sale at retail" or "retail sale" includes the sale of or charge made for personal, business, or professional services including amounts designated as interest, rents, fees, admission, and other service emoluments however designated, received by persons engaging in the following business activities:

(a) Abstract, title insurance, and escrow services;

(b) Credit bureau services;

(c) Automobile parking and storage garage services;

(d) Landscape maintenance and horticultural services but excluding (i) horticultural services provided to farmers and (ii) pruning, trimming, repairing, removing, and clearing of trees and brush near electric transmission or distribution lines or equipment, if performed by or at the direction of an electric utility;

(e) Service charges associated with tickets to professional sporting events;

(f) The following personal services: Tanning salon services, tattoo parlor services, steam bath services, turkish bath services, escort services, and dating services; and

(g)(i) Operating an athletic or fitness facility, including all charges for the use of such a facility or for any associated services and amenities, except as provided in (g)(ii) of this subsection.

(ii) Notwithstanding anything to the contrary in (g)(i) of this subsection (3), the term "sale at retail" and "retail sale" under this subsection does not include:

(A) Separately stated charges for the use of an athletic or fitness facility where such use is primarily for a purpose other than engaging in or receiving instruction in a physical fitness activity;

(B) Separately stated charges for the use of a discrete portion of an athletic or fitness facility, other than a pool, where such discrete portion of the facility does not by itself meet the definition of "athletic or fitness facility" in this subsection;

(C) Separately stated charges for services, such as advertising, massage, nutritional consulting, and body composition testing, that do not require the customer to engage in physical fitness activities to receive the service. The exclusion in this subsection (3)(g)(ii)(C) does not apply to personal training services and instruction in a physical fitness activity;

(D) Separately stated charges for physical therapy provided by a physical therapist, as those terms are defined in RCW 18.74.010, or occupational therapy provided by an occupational therapy practitioner, as those terms are defined in RCW 18.59.020, when performed pursuant to a referral from an authorized health care practitioner or in consultation with an authorized health care practitioner. For the purposes of this subsection (3)(g)(ii)(D), an authorized health care practitioner means a health care practitioner licensed under chapter 18.83, 18.25, 18.36A, 18.57, 18.57A, 18.71, or 18.71A RCW;

(E) Rent or association fees charged by a landlord or residential association to a tenant or residential owner with access to an athletic or fitness facility maintained by the landlord or residential association, unless the rent or fee varies depending on whether the tenant or owner has access to the facility;

(F) Services provided in the regular course of employment by an employee with access to an athletic or fitness facility maintained by the employer for use without charge by its employees or their family members;

(G) The provision of access to an athletic or fitness facility by an educational institution to its students and staff. However, charges made by an educational institution to its alumni or other members of the public for the use of any of the educational institution's athletic or fitness facilities are a retail sale under this subsection (3)(g). For purposes of this subsection (3)(g)(ii)(G), "educational institution" has the same meaning as in RCW 82.04.170; and

(H) Yoga, tai chi, or chi gong classes held at a community center, park, gymnasium, college or university, hospital or other medical facility, private residence, or any facility that is not primarily used for physical fitness activities other than yoga, tai chi, or chi gong classes.

(ii) Nothing in (g)(ii) of this subsection (3) may be construed to affect the taxation of sales made by the operator of an athletic or fitness facility, where such sales are defined as a retail sale under any provision of this section other than this subsection (3).

(iv) For the purposes of this subsection (3)(g), the following definitions apply:

(A) "Athletic or fitness facility" means an indoor or outdoor facility or portion of a facility that is primarily used for:

Exercise classes; strength and conditioning programs; personal training services; tennis, racquetball, handball, squash, or pickleball; yoga; boxing, kickboxing, wrestling, martial arts, or mixed martial arts training; or other activities requiring the use of exercise or strength training equipment, such as treadmills, elliptical machines, stair climbers, stationary cycles, rowing machines, pilates equipment, balls, climbing ropes, jump ropes, and weightlifting equipment.

(B) "Physical fitness activities" means activities that involve physical exertion for the purpose of improving or maintaining the general fitness, strength, flexibility, conditioning, or health of the participant.

(4)(a) The term also includes the renting or leasing of tangible personal property to consumers.

(b) The term does not include the renting or leasing of tangible personal property where the lease or rental is for the purpose of sublease or subrent.

(5) The term also includes the providing of "competitive telephone service," "telecommunications service," or "ancillary services," as those terms are defined in RCW 82.04.065, to consumers.

(6)(a) The term also includes the sale of prewritten computer software to a consumer, regardless of the method of delivery to the end user. For purposes of (a) and (b) of this subsection, the sale of prewritten computer software includes the sale of or charge made for a key or an enabling or activation code, where the key or code is required to activate prewritten computer software and put the software into use. There is no separate sale of the key or code from the prewritten computer software, regardless of how the sale may be characterized by the vendor or by the purchaser.

(b) The term "retail sale" does not include the sale of or charge made for:

- (i) Custom software; or
- (ii) The customization of prewritten computer software.

(c)(i) The term also includes the charge made to consumers for the right to access and use prewritten computer software, where possession of the software is maintained by the seller or a third party, regardless of whether the charge for the service is on a per use, per user, per license, subscription, or some other basis.

(ii)(A) The service described in (c)(i) of this subsection (6) includes the right to access and use prewritten computer software to perform data processing.

(B) For purposes of this subsection (6)(c)(ii), "data processing" means the systematic performance of operations on data to extract the required information in an appropriate form or to convert the data to usable information. Data processing includes check processing, image processing, form processing, survey processing, payroll processing, claim processing, and similar activities.

(7) The term also includes the sale of or charge made for an extended warranty to a consumer. For purposes of this subsection, "extended warranty" means an agreement for a specified duration to perform the replacement or repair of tangible personal property at no additional charge or a reduced charge for tangible personal property, labor, or both, or to provide indemnification for the replacement or repair of tangible personal property, based on the occurrence of specified events. The term "extended warranty" does not include an agreement, otherwise meeting the definition of extended

warranty in this subsection, if no separate charge is made for the agreement and the value of the agreement is included in the sales price of the tangible personal property covered by the agreement. For purposes of this subsection, "sales price" has the same meaning as in RCW 82.08.010.

(8)(a) The term also includes the following sales to consumers of digital goods, digital codes, and digital automated services:

(i) Sales in which the seller has granted the purchaser the right of permanent use;

(ii) Sales in which the seller has granted the purchaser a right of use that is less than permanent;

(iii) Sales in which the purchaser is not obligated to make continued payment as a condition of the sale; and

(iv) Sales in which the purchaser is obligated to make continued payment as a condition of the sale.

(b) A retail sale of digital goods, digital codes, or digital automated services under this subsection (8) includes any services provided by the seller exclusively in connection with the digital goods, digital codes, or digital automated services, whether or not a separate charge is made for such services.

(c) For purposes of this subsection, "permanent" means perpetual or for an indefinite or unspecified length of time. A right of permanent use is presumed to have been granted unless the agreement between the seller and the purchaser specifies or the circumstances surrounding the transaction suggest or indicate that the right to use terminates on the occurrence of a condition subsequent.

(9) The term also includes the charge made for providing tangible personal property along with an operator for a fixed or indeterminate period of time. A consideration of this is that the operator is necessary for the tangible personal property to perform as designed. For the purpose of this subsection (9), an operator must do more than maintain, inspect, or set up the tangible personal property.

(10) The term does not include the sale of or charge made for labor and services rendered in respect to the building, repairing, or improving of any street, place, road, highway, easement, right-of-way, mass public transportation terminal or parking facility, bridge, tunnel, or trestle which is owned by a municipal corporation or political subdivision of the state or by the United States and which is used or to be used primarily for foot or vehicular traffic including mass transportation vehicles of any kind.

(11) The term also does not include sales of chemical sprays or washes to persons for the purpose of postharvest treatment of fruit for the prevention of scald, fungus, mold, or decay, nor does it include sales of feed, seed, seedlings, fertilizer, agents for enhanced pollination including insects such as bees, and spray materials to: (a) Persons who participate in the federal conservation reserve program, the environmental quality incentives program, the wetlands reserve program, and the wildlife habitat incentives program, or their successors administered by the United States department of agriculture; (b) farmers for the purpose of producing for sale any agricultural product; (c) farmers for the purpose of providing bee pollination services; and (d) farmers acting under cooperative habitat development or access contracts with an organization exempt from federal income tax under 26 U.S.C. Sec. 501(c)(3) of the federal internal revenue code or the Washington state department of fish and wildlife to produce or

improve wildlife habitat on land that the farmer owns or leases.

(12) The term does not include the sale of or charge made for labor and services rendered in respect to the constructing, repairing, decorating, or improving of new or existing buildings or other structures under, upon, or above real property of or for the United States, any instrumentality thereof, or a county or city housing authority created pursuant to chapter 35.82 RCW, including the installing, or attaching of any article of tangible personal property therein or thereto, whether or not such personal property becomes a part of the realty by virtue of installation. Nor does the term include the sale of services or charges made for the clearing of land and the moving of earth of or for the United States, any instrumentality thereof, or a county or city housing authority. Nor does the term include the sale of services or charges made for cleaning up for the United States, or its instrumentalities, radioactive waste and other by-products of weapons production and nuclear research and development.

(13) The term does not include the sale of or charge made for labor, services, or tangible personal property pursuant to agreements providing maintenance services for bus, rail, or rail fixed guideway equipment when a regional transit authority is the recipient of the labor, services, or tangible personal property, and a transit agency, as defined in RCW 81.104.015, performs the labor or services.

(14) The term does not include the sale for resale of any service described in this section if the sale would otherwise constitute a "sale at retail" and "retail sale" under this section.

(15)(a) The term "sale at retail" or "retail sale" includes amounts charged, however labeled, to consumers to engage in any of the activities listed in this subsection (15)(a), including the furnishing of any associated equipment or, except as otherwise provided in this subsection, providing instruction in such activities, where such charges are not otherwise defined as a "sale at retail" or "retail sale" in this section:

(i)(A) Golf, including any variant in which either golf balls or golf clubs are used, such as miniature golf, hitting golf balls at a driving range, and golf simulators, and including fees charged by a golf course to a player for using his or her own cart. However, charges for golf instruction are not a retail sale, provided that if the instruction involves the use of a golfing facility that would otherwise require the payment of a fee, such as green fees or driving range fees, such fees, including the applicable retail sales tax, must be separately identified and charged by the golfing facility operator to the instructor or the person receiving the instruction.

(B) Notwithstanding (a)(i)(A) of this subsection (15) and except as otherwise provided in this subsection (15)(a)(i)(B), the term "sale at retail" or "retail sale" does not include amounts charged to participate in, or conduct, a golf tournament or other competitive event. However, amounts paid by event participants to the golf facility operator are retail sales under this subsection (15)(a)(i). Likewise, amounts paid by the event organizer to the golf facility are retail sales under this subsection (15)(a)(i), if such amounts vary based on the number of event participants;

(ii) Ballooning, hang gliding, indoor or outdoor sky diving, paragliding, parasailing, and similar activities;

(iii) Air hockey, billiards, pool, foosball, darts, shuffleboard, ping pong, and similar games;

(iv) Access to amusement park, theme park, and water park facilities, including but not limited to charges for admission and locker or cabana rentals. Discrete charges for rides or other attractions or entertainment that are in addition to the charge for admission are not a retail sale under this subsection (15)(a)(iv). For the purposes of this subsection, an amusement park or theme park is a location that provides permanently affixed amusement rides, games, and other entertainment, but does not include parks or zoos for which the primary purpose is the exhibition of wildlife, or fairs, carnivals, and festivals as defined in (b)(i) of this subsection;

(v) Batting cage activities;

(vi) Bowling, but not including competitive events, except that amounts paid by the event participants to the bowling alley operator are retail sales under this subsection (15)(a)(vi). Likewise, amounts paid by the event organizer to the operator of the bowling alley are retail sales under this subsection (15)(a)(vi), if such amounts vary based on the number of event participants;

(vii) Climbing on artificial climbing structures, whether indoors or outdoors;

(viii) Day trips for sightseeing purposes;

(ix) Bungee jumping, zip lining, and riding inside a ball, whether inflatable or otherwise;

(x) Horseback riding offered to the public, where the seller furnishes the horse to the buyer and providing instruction is not the primary focus of the activity, including guided rides, but not including therapeutic horseback riding provided by an instructor certified by a nonprofit organization that offers national or international certification for therapeutic riding instructors;

(xi) Fishing, including providing access to private fishing areas and charter or guided fishing, except that fishing contests and license fees imposed by a government entity are not a retail sale under this subsection;

(xii) Guided hunting and hunting at game farms and shooting preserves, except that hunting contests and license fees imposed by a government entity are not a retail sale under this subsection;

(xiii) Swimming, but only in respect to (A) recreational or fitness swimming that is open to the public, such as open swim, lap swimming, and special events like kids night out and pool parties during open swim time, and (B) pool parties for private events, such as birthdays, family gatherings, and employee outings. Fees for swimming lessons, to participate in swim meets and other competitions, or to join a swim team, club, or aquatic facility are not retail sales under this subsection (15)(a)(xiii);

(xiv) Go-karting, bumper cars, and other motorized activities where the seller provides the vehicle and the premises where the buyer will operate the vehicle;

(xv) Indoor or outdoor playground activities, such as inflatable bounce structures and other inflatables; mazes; trampolines; slides; ball pits; games of tag, including laser tag and soft-dart tag; and human gyroscope rides, regardless of whether such activities occur at the seller's place of business, but not including playground activities provided for children by a licensed child day care center or licensed family day care provider as those terms are defined in RCW 43.215.010;

(xvi) Shooting sports and activities, such as target shooting, skeet, trap, sporting clays, "5" stand, and archery, but only in respect to discrete charges to members of the public to engage in these activities, but not including fees to enter a competitive event, instruction that is entirely or predominately classroom based, or to join or renew a membership at a club, range, or other facility;

(xvii) Paintball and airsoft activities;

(xviii) Skating, including ice skating, roller skating, and inline skating, but only in respect to discrete charges to members of the public to engage in skating activities, but not including skating lessons, competitive events, team activities, or fees to join or renew a membership at a skating facility, club, or other organization;

(xix) Nonmotorized snow sports and activities, such as downhill and cross-country skiing, snowboarding, ski jumping, sledding, snow tubing, snowshoeing, and similar snow sports and activities, whether engaged in outdoors or in an indoor facility with or without snow, but only in respect to discrete charges to the public for the use of land or facilities to engage in nonmotorized snow sports and activities, such as fees, however labeled, for the use of ski lifts and tows and daily or season passes for access to trails or other areas where nonmotorized snow sports and activities are conducted. However, fees for the following are not retail sales under this subsection (15)(a)(xix): (A) Instructional lessons; (B) permits issued by a governmental entity to park a vehicle on or access public lands; and (C) permits or leases granted by an owner of private timberland for recreational access to areas used primarily for growing and harvesting timber; and

(b) Notwithstanding anything to the contrary in this subsection (15), the term "sale at retail" or "retail sale" does not include charges:

(ii) Made by an educational institution to its students and staff for activities defined as retail sales by (a)(i) through (xx) of this subsection. However, charges made by an educational institution to its alumni or other members of the general public for these activities are a retail sale under this subsection (15). For purposes of this subsection (15)(b)(ii), "educational institution" has the same meaning as in RCW 82.04.170;

Intent—2013 2nd sp.s. c 13: "It is the intent of part VIII of this act to provide a sales tax exemption for cover charges to patrons at establishments that provide the opportunity to dance. The intent is to provide tax relief to businesses who have been reporting the income for cover charges under the service and other classification, but not intending to avoid their tax obligation of collecting retail sales tax because of department and taxpayer confusion regarding the appropriate tax treatment of this income. To ensure proper tax reporting in the future by businesses who provide the opportunity to dance, the legislature intends to review the tax preference and its actual fiscal impact on state revenues to determine if the fiscal impact to state revenues reasonably conforms with the fiscal estimate in the fiscal note for this legislation." Retroactive application—2010 c 112: See note following RCW 82.32.780.

Purpose—2010 c 111: "The 2009 legislature enacted Engrossed Substitute House Bill No. 2075 (chapter 535, Laws of 2009), an act relating to the excise taxation of certain products and services provided or furnished electronically. The bill took effect July 26, 2009.

Engrossed Substitute House Bill No. 2075, at eighty-five pages, was a comprehensive piece of legislation that made major changes to state and local sales and use taxes, as well as the state business and occupation tax. Moreover, Engrossed Substitute House Bill No. 2075 was a complex piece of legislation because of the intricate interrelationship between the sales tax and the business and occupation tax and also because the bill affects the taxation of products and services that involve technologies that are changing rapidly.

Because of the complexity and length of Engrossed Substitute House Bill No. 2075, it was the legislature's expectation that, in the course of implementing the bill, ambiguities and unintended consequences would be discovered, which, if not corrected, will unsettle expectations. Thus, the legislature further anticipated that it would need to consider legislation in the 2010 legislative session to address these issues.

Therefore, the purpose of this act is to clarify ambiguities, correct unintended consequences, restore expectations, and conform the law to the original intent of the legislature." [2010 c 111 § 101.]

82.04.067 Substantial nexus—Engaging in business.

(1) A person engaging in business is deemed to have substantial nexus with this state if the person is:

- (a) An individual and is a resident or domiciliary of this state;
- (b) A business entity and is organized or commercially domiciled in this state; or
- (c) A nonresident individual or a business entity that is organized or commercially domiciled outside this state, and in the immediately preceding tax year the person had:
 - (i) More than fifty thousand dollars of property in this state;
 - (ii) More than fifty thousand dollars of payroll in this state;

(iii) More than two hundred fifty thousand dollars of receipts from this state; or

(iv) At least twenty-five percent of the person's total property, total payroll, or total receipts in this state.

(2)(a) Property counting toward the thresholds in subsection (1)(c)(i) and (iv) of this section is the average value of the taxpayer's property, including intangible property, owned or rented and used in this state during the immediately preceding tax year.

(b)(i) Property owned by the taxpayer, other than loans and credit card receivables owned by the taxpayer, is valued at its original cost basis. Loans and credit card receivables owned by the taxpayer are valued at their outstanding principal balance, without regard to any reserve for bad debts. However, if a loan or credit card receivable is charged off in whole or in part for federal income tax purposes, the portion of the loan or credit card receivable charged off is deducted from the outstanding principal balance.

(ii) Property rented by the taxpayer is valued at eight times the net annual rental rate. For purposes of this subsection, "net annual rental rate" means the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

(c) The average value of property must be determined by averaging the values at the beginning and ending of the tax year; but the department may require the averaging of monthly values during the tax year if reasonably required to properly reflect the average value of the taxpayer's property.

(d)(i) For purposes of this subsection (2), loans and credit card receivables are deemed owned and used in this state as follows:

(A) Loans secured by real property, personal property, or both real and personal property are deemed owned and used in the state if the real property or personal property securing the loan is located within this state. If the property securing the loan is located both within this state and one or more other states, the loan is deemed owned and used in this state if more than fifty percent of the fair market value of the real or personal property is located within this state. If more than fifty percent of the fair market value of the real or personal property is not located within any one state, then the loan is deemed owned and used in this state if the borrower is located in this state. The determination of whether the real or personal property securing a loan is located within this state must be made, as of the time the original agreement was made, and any and all subsequent substitutions of collateral must be disregarded.

(B) Loans not secured by real or personal property are deemed owned and used in this state if the borrower is located in this state.

(C) Credit card receivables are deemed owned and used in this state if the billing address of the cardholder is in this state.

(ii)(A) Except as otherwise provided in (d)(ii)(B) of this subsection (2), the definitions in the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions as existing on June 1, 2010, or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, apply to this section.

(B) "Credit card" means a card or device existing for the purpose of obtaining money, property, labor, or services on credit.

(e) Notwithstanding anything else to the contrary in this subsection, property counting toward the thresholds in subsection (1)(c)(i) and (iv) of this section does not include a person's ownership of, or rights in, computer software as defined in RCW 82.04.215, including computer software used in providing a digital automated service; master copies of software; and digital goods and digital codes residing on servers located in this state.

(3)(a) Payroll counting toward the thresholds in subsection (1)(c)(ii) and (iv) of this section is the total amount paid by the taxpayer for compensation in this state during the immediately preceding tax year plus nonemployee compensation paid to representative third parties in this state. Nonemployee compensation paid to representative third parties includes the gross amount paid to nonemployees who represent the taxpayer in interactions with the taxpayer's clients and includes sales commissions.

(b) Employee compensation is paid in this state if the compensation is properly reportable to this state for unemployment compensation tax purposes, regardless of whether the compensation was actually reported to this state.

(c) Nonemployee compensation is paid in this state if the service performed by the representative third party occurs entirely or primarily within this state.

(d) For purposes of this subsection, "compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees or nonemployees and defined as gross income under 26 U.S.C. Sec. 61 of the federal internal revenue code of 1986, as existing on June 1, 2010.

(4) Receipts counting toward the thresholds in subsection (1)(c)(iii) and (iv) of this section are:

(a) Those amounts included in the numerator of the receipts factor under RCW 82.04.462;

(b) For financial institutions, those amounts included in the numerator of the receipts factor under the rule adopted by the department as authorized in RCW 82.04.460(2); and

(c) For persons taxable under RCW 82.04.257(1) or 82.04.270 with respect to wholesale sales, the gross proceeds of sales taxable under those statutory provisions and sourced to this state in accordance with RCW 82.32.730.

(5)(a) Each December, the department must review the cumulative percentage change in the consumer price index. The department must adjust the thresholds in subsection (1)(c)(i) through (iii) of this section if the consumer price index has changed by five percent or more since the later of June 1, 2010, or the date that the thresholds were last adjusted under this subsection. For purposes of determining the cumulative percentage change in the consumer price index, the department must compare the consumer price index available as of December 1st of the current year with the consumer price index as of the later of June 1, 2010, or the date that the thresholds were last adjusted under this subsection. The thresholds must be adjusted to reflect that cumulative percentage change in the consumer price index. The adjusted thresholds must be rounded to the nearest one thousand dollars. Any adjustment will apply to tax periods that begin after the adjustment is made.

(b) As used in this subsection, "consumer price index" means the consumer price index for all urban consumers (CPI-U) available from the bureau of labor statistics of the United States department of labor.

(6)(a) Subsections (1) through (5) of this section only apply with respect to the taxes on persons engaged in apportionable activities as defined in RCW 82.04.460 or making wholesale sales taxable under RCW 82.04.257(1) or 82.04.270. For purposes of the taxes imposed under this chapter on any activity not included in the definition of apportionable activities in RCW 82.04.460, other than the business of making wholesale sales taxed under RCW 82.04.257(1) or 82.04.270, a person is deemed to have a substantial nexus with this state if the person has a physical presence in this state during the tax year, which need only be demonstrably more than a slightest presence.

(b) For purposes of this subsection, a person is physically present in this state if the person has property or employees in this state.

(c)(i) A person is also physically present in this state for the purposes of this subsection if the person, either directly or through an agent or other representative, engages in activities in this state that are significantly associated with the person's ability to establish or maintain a market for its products in this state.

(ii) A remote seller as defined in RCW 82.08.052 is presumed to be engaged in activities in this state that are significantly associated with the remote seller's ability to establish or maintain a market for its products in this state if the remote seller is presumed to have a substantial nexus with this state under RCW 82.08.052. The presumption in this subsection (6)(c)(ii) may be rebutted as provided in RCW 82.08.052. To the extent that the presumption in RCW 82.08.052 is no longer operative pursuant to RCW 82.32.762, the presumption in this subsection (6)(c)(ii) is no longer operative. Nothing in this section may be construed to affect in any way RCW 82.04.424, 82.08.050(11), or 82.12.040(5) or to narrow the scope of the terms "agent" or "other representative" in this subsection (6)(c). Expiration date—2015 3rd sp.s. c 6; 2012 2nd sp.s. c 6 § 602: "Section 602 of this act expires July 1, 2015." [2015 3rd sp.s. c 6 § 603; 2012 2nd sp.s. c 6 § 704.]

Findings—Intent—Tax preference performance statement—2015 3rd sp.s. c 6 § 602: "(1) The legislature finds that over the last fifteen years, technological transformation and other developments have radically changed the newspaper industry business model, which remains in transition. The legislature further finds that the economic hardship wrought by this digital transformation has been substantial. The legislature finds that a strong and vibrant newspaper industry in Washington is beneficial to the state's citizens and to the conduct of good government at every level. The legislature further finds that advertising revenue of all United States newspapers fell from 63.5 billion dollars in 2000 to about twenty-three billion dollars in 2013, and is still falling. The legislature further finds that traditional news organizations' ability to support high quality news gathering and reporting relied primarily on a model in which advertisers paid to reach mass audiences attracted by newspapers. The legislature further finds that advertisers found it advantageous to pay to reach a mass audience because other advertising mediums were limited and less effective. The digital era has greatly fractured traditional spending by advertisers and turned this model on its head such that newspapers continue to require time to adapt so they may continue their public service mission. The legislature also finds that the business and occupation tax rate for the newspaper industry was pegged to the general manufacturing and wholesaling rate from 1937 until 2009, when the legislature extended tax relief to the industry due to this shift. It is the legislature's intent to extend this tax relief to the industry until its revenues and business model have stabilized. It is the legislature's further intent to provide a uniform tax rate for the industry to minimize the burden of reporting state business and occupation taxes for different types of revenue, which often times are impossible to account for separately by the taxpayer.

(2)(a) This subsection is the tax preference performance statement for the newspaper tax preferences in section 602 of this act. The performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(b) The legislature categorizes this tax preference as one intended to provide temporary tax relief as described in RCW 82.32.808(2)(e).

(c) It is the legislature's specific public policy objective to provide business and occupation tax relief to the newspaper industry as it continues to adjust to significant revenue shifts and technological changes. As a secondary public policy objective, it is the legislature's intent to provide a permanent uniform rate for the industry.

(d) To measure the effectiveness of the preference provided in this act in achieving the specific public policy objective described in (c) of this subsection, the joint legislative audit and review committee must evaluate year-to-year changes in gross revenue derived from all sources for newspaper firms claiming the preferential tax rate under RCW 82.04.260(14). If the average year-to-year change in gross revenue is positive, including the last three years included in the tax preference review by the joint legislative audit and review committee, it is the legislature's intent to allow the tax preference to expire and to reinstate the traditional rate of 0.484 percent.

(e)(i) The information provided in the annual tax preference accountability report submitted by taxpayers as required by the department of revenue and taxpayer data provided by the department of revenue is intended to provide the informational basis for the evaluation under (d) of this subsection.

(ii) In addition to the data source described under (e)(i) of this subsection, the joint legislative audit and review committee may use any other data it deems necessary in performing the evaluation under (d) of this subsection." [2015 3rd sp.s. c 6 § 601.]

82.04.2909 Tax on aluminum smelters. (Expires January 1, 2027.) (1) Upon every person who is an aluminum smelter engaging within this state in the business of manufacturing aluminum; as to such persons the amount of tax with

respect to such business is, in the case of manufacturers, equal to the value of the product manufactured, or in the case of processors for hire, equal to the gross income of the business, multiplied by the rate of .2904 percent.

(2) Upon every person who is an aluminum smelter engaging within this state in the business of making sales at wholesale of aluminum manufactured by that person, as to such persons the amount of tax with respect to such business is equal to the gross proceeds of sales of the aluminum multiplied by the rate of .2904 percent.

(3) A person reporting under the tax rate provided in this section must file a complete annual report with the department under RCW 82.32.534.

(4) This section expires January 1, 2027. [2015 3rd sp.s. c 6 § 502; 2011 c 174 § 301. Prior: 2010 1st sp.s. c 2 § 1; 2010 c 114 § 108; 2006 c 182 § 1; 2004 c 24 § 3.]

Findings—Tax preference performance statement—2015 3rd sp.s. c 6 §§ 502-506: "(1) The legislature finds that the aluminum industry in Washington employs over one thousand people. The legislature further finds that average annual wages and benefits for these employment positions exceed one hundred thousand dollars and that each of these employment positions indirectly generates an additional two to three jobs within the state. The legislature further finds that the aluminum industry generates substantial taxes for local jurisdictions. The legislature further finds that the aluminum industry was severely impacted by the global economic recession. The legislature further finds that the London metal exchange, where aluminum is traded as a commodity, is extremely volatile and substantially impacts the profitability of the aluminum industry. The legislature further finds that for the aforementioned reasons, the industry continues to struggle with profitability, putting the continued employment of its Washington workforce in jeopardy.

(2)(a) This subsection is the tax preference performance statement for the aluminum industry tax preferences in RCW 82.04.2909, 82.04.4481, 82.08.805, 82.12.805, and 82.12.022, as amended in this Part V. The performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(b) The legislature categorizes this tax preference as one intended to accomplish the general purposes indicated in RCW 82.32.808(2) (c) and (d).

(c) It is the legislature's specific public policy objective to promote the preservation of employment positions within the Washington aluminum manufacturing industry as the industry continues to grapple with the lingering effects of the economic recession and the volatility of the London metal exchange.

(d) To measure the effectiveness of the exemption provided in this Part V in achieving the specific public policy objective described in (c) of this subsection, the joint legislative audit and review committee must evaluate the changes in the number of statewide employment positions for the aluminum industry in Washington." [2015 3rd sp.s. c 6 § 501.]

Effective dates—2015 3rd sp.s. c 6: See note following RCW 82.04.4266.

Application—Finding—Intent—2010 c 114: See notes following RCW 82.32.585.

Intent—2004 c 24: "The legislature recognizes that the loss of domestic manufacturing jobs has become a national concern. Washington state has lost one out of every six manufacturing jobs since July 2000. The aluminum industry has long been an important component of Washington state's manufacturing base, providing family-wage jobs often in rural communities where unemployment rates are very high. The aluminum industry is electricity intensive and was greatly affected by the dramatic increase in electricity prices which began in 2000 and which continues to affect the Washington economy. Before the energy crisis, aluminum smelters provided about 5,000 direct jobs. Today they provide fewer than 1,000 direct jobs. For every job lost in that industry, almost three additional jobs are estimated to be lost elsewhere in the state's economy. It is the legislature's intent to preserve and restore family-wage jobs by providing tax relief to the state's aluminum industry.

The electric loads of aluminum smelters provide a unique benefit to the infrastructure of the electric power system. Under the transmission tariff of the Bonneville Power Administration, aluminum smelter loads, whether

served with federal or nonfederal power, are subject to short-term interruptions that allow a higher import capability on the transmission interconnection between the northwest and California. These stability reserves allow more power to be imported in winter months, reducing the need for additional generation in the northwest, and would be used to prevent a widespread transmission collapse and blackout if there were a failure in the transmission interconnection between California and the northwest. It is the legislature's intent to retain these benefits for the people of the state." [2004 c 24 § 1.]

This performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

It is the legislature's specific public policy objective to support the honey bee industry and provide tax relief to eligible apiarists. Honey bees pollinate eighty percent of the nation's flowering crops, which include agricultural crops. They are vitally important to agriculture and an integral part of food production. Therefore, the legislature intends to permanently include eligible apiarists within the definition of farmer and define honey bee products as agricultural products so that they may receive the same tax relief as that provided to other sectors of agriculture. Because the legislature intends for the changes in this Part XI to be permanent, they are exempt from the ten-year expiration provision in RCW 82.32.805." [2015 3rd sp.s. c 6 § 1101.]

(a) The person's activities in this state, whether conducted directly or through another person, are limited to:

- (i) The storage, dissemination, or display of advertising;
- (ii) The taking of orders; or
- (iii) The processing of payments; and

(b) The activities are conducted electronically via a web site on a server or other computer equipment located in Washington that is not owned or operated by the person making sales into this state nor owned or operated by an affiliated person. For purposes of this section, persons are "affiliated persons" with respect to each other where one of the persons has an ownership interest of more than five percent, whether direct or indirect, in the other, or where an ownership interest of more than five percent, whether direct or indirect, is held in each of the persons by another person or by a group of other persons which are affiliated with respect to each other.

(2)(a) This section expires when: (i) The United States congress grants individual states the authority to impose sales and use tax collection duties on remote sellers; or (ii) it is determined by a court of competent jurisdiction, in a judgment not subject to review, that a state can impose sales and use tax collection duties on remote sellers.

(b) The department of revenue must provide notice of the expiration date of this section to affected parties, the chief clerk of the house of representatives, the secretary of the senate, the office of the code reviser, and others as deemed appropriate by the department. Effective dates—Finding—Intent—2015 3rd sp.s. c 5: See notes following RCW 82.08.052.

Intent—2003 c 76: "It is the intent of the legislature to exempt from business and occupation tax and to relieve from the obligation to collect sales and use tax from certain sellers with very limited connections to Washington. These sellers are currently relieved from the obligation to collect sales and use tax because of the provisions of the federal internet tax freedom act. The legislature intends to continue to relieve these particular sellers from that obligation in the event that the federal internet tax freedom act is not extended. The legislature further intends that any relief from tax obligations provided by this act expire at such time as the United States congress grants individual states the authority to impose sales and use tax collection duties on remote sellers, or a court of competent jurisdiction, in a judgment not subject to review, determines that a state can impose sales and use tax collection duties on remote sellers." [2003 c 76 § 1.]

82.04.4496 Credit—Clean alternative fuel commercial vehicles. (1)(a) A person who is taxable under this chapter is allowed a credit against the tax imposed in this chapter according to the gross vehicle weight rating of the vehicle and the incremental cost of the vehicle purchased above the purchase price of a comparable conventionally fueled vehicle. The credit is limited, as set forth in the table below, to the lesser of the incremental cost amount or the maximum credit amount per vehicle purchased, and subject to a maximum annual credit amount per vehicle class.

Gross Vehicle Weight	Incremental Cost Amount	Maximum Credit Amount Per Vehicle	Maximum Annual Credit Per Vehicle Class
Up to 14,000 pounds	50% of incremental cost	\$5,000	\$2,000,000
14,001 to 26,500 pounds	50% of incremental cost	\$10,000	\$2,000,000
Above 26,500 pounds	50% of incremental cost	\$20,000	\$2,000,000

(b) On September 1st of each year any unused credits from any weight class identified in the table in (a) of this subsection must be made available to applicants applying for credits under any other weight class listed.

(c) The credit provided in this subsection (1) is not available for the lease of a vehicle.

(2) A person who is taxable under this chapter is allowed, subject to the maximum annual credit per vehicle class in subsection (1)(a) of this section, a credit against the tax imposed in this chapter for the lesser of twenty-five thousand dollars or thirty percent of the costs of converting a commercial vehicle to be principally powered by a clean alternative fuel with a United States environmental protection agency certified conversion.

(3) The total credits under this section may not exceed the lesser of two hundred fifty thousand dollars or twenty-five vehicles per person per calendar year.

(4) A person may not receive credit under this section for amounts claimed as credits under chapter 82.16 RCW.

(5) Credits are available on a first-in-time basis. The department must disallow any credits, or portion thereof, that would cause the total amount of credits claimed under this section, and RCW 82.16.0496, during any calendar year to exceed six million dollars. The department must provide notification on its web site monthly on the amount of credits that have been applied for, the amount issued, and the amount remaining before the statewide annual limit is reached. In addition, the department must provide written notice to any

person who has applied to claim tax credits in excess of the limitation in this subsection.

(6) For the purposes of the limits provided in this section, a credit must be counted against such limits for the calendar year in which the credit is earned.

(7) To claim a credit under this section a person must electronically file with the department all returns, forms, and any other information required by the department, in an electronic format as provided or approved by the department. No refunds may be granted for credits under this section.

(8) To claim a credit under this section, the person applying must:

(a) Complete an application for the credit which must include:

(i) The name, business address, and tax identification number of the applicant;

(ii) A quote or unexecuted copy of the purchase requisition or order for the vehicle;

(iii) The type of alternative fuel to be used by the vehicle;

(iv) The incremental cost of the alternative fuel system;

(v) The anticipated delivery date of the vehicle;

(vi) The estimated annual fuel use of the vehicle in its anticipated duties;

(vii) The gross weight of the vehicle; and

(viii) Any other information deemed necessary by the department to support administration or reporting of the program.

(b) Within fifteen days of notice of credit availability from the department, provide notice of intent to claim the credit including:

(i) A copy of the order for the vehicle, including the total cost for the vehicle;

(ii) The anticipated delivery date of the vehicle, which must be within one hundred twenty days of acceptance of the credit; and

(iii) Any other information deemed necessary by the department to support administration or reporting of the program.

(c) Provide final documentation within fifteen days of receipt of the vehicle, including:

(i) A copy of the final invoice for the vehicle;

(ii) A copy of the factory build sheet or equivalent documentation;

(iii) The vehicle identification number of the vehicle;

(iv) The incremental cost of the alternative fuel system;

(v) Attestations signed by both the seller and purchaser of the vehicle attesting that the incremental cost of the alternative fuel system includes only the costs necessary for the vehicle to run on alternative fuel and no other vehicle options, equipment, or costs; and

(vi) Any other information deemed necessary by the department to support administration or reporting of the program.

(9) To administer the credits, the department must, at a minimum:

(a) Provide notification on its web site monthly of the amount of credits that have been applied for, claimed, and the amount remaining before the statewide annual limit is reached;

(b) Within fifteen days of receipt of the application, notify persons applying of the availability of tax credits in the

year in which the vehicles applied for are anticipated to be delivered;

(c) Within fifteen days of receipt of the notice of intent to claim the tax credit, notify the applicant of the approval, denial, or missing information in their notice; and

(d) Within fifteen days of receipt of final documentation, review the documentation and notify the person applying of the acceptance of their final documentation.

(10) If a person fails to supply the information as required in subsection (8) of this section, the department must deny the application.

(11)(a) Taxpayers are only eligible for a credit under this section based on:

(i) Sales, but not leases, of new commercial vehicles and qualifying used commercial vehicles with propulsion units that are principally powered by a clean alternative fuel; or

(ii) Costs to modify a commercial vehicle, including sales of tangible personal property incorporated into the vehicle and labor or service expenses incurred in modifying the vehicle, to be principally powered by a clean alternative fuel.

(b) A credit is earned when qualifying purchases are made.

(12) A credit earned during one calendar year may be carried over to be credited against taxes incurred in the subsequent calendar year, but may not be carried over a second year.

(13)(a) Beginning November 25, 2015, and on the 25th of February, May, August, and November of each year thereafter, the department must notify the state treasurer of the amount of credits taken under this section as reported on returns filed with the department during the preceding calendar quarter ending on the last day of December, March, June, and September, respectively.

(b) On the last day of March, June, September, and December of each year, the state treasurer, based upon information provided by the department, must transfer a sum equal to the dollar amount of the credit provided under this section from the multimodal transportation account to the general fund.

(14) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Commercial vehicle" means any commercial vehicle that is purchased by a private business and that is used exclusively in the transportation of commodities, merchandise, produce, refuse, freight, or animals, and that is displaying a Washington state license plate.

(b) "Clean alternative fuel" means electricity, dimethyl ether, hydrogen, methane, natural gas, liquefied natural gas, compressed natural gas, or propane.

(c) "Qualifying used commercial vehicle" means vehicles that:

(i) Have an odometer reading of less than thirty thousand miles;

(ii) Are less than two years past their original date of manufacture;

(iii) Were modified after the initial purchase with a United States environmental protection agency certified conversion that would allow the propulsion units to be principally powered by a clean alternative fuel; and

(iv) Are being sold for the first time after modification.

(15) Credits may be earned under this section from January 1, 2016, through January 1, 2021.

(16) Credits earned under this section may not be used after January 1, 2022. [2015 3rd sp.s. c 44 § 411.]

Effective date—2015 3rd sp.s. c 44: See note following RCW 46.68.395.

Short title—Findings—Tax preference performance statement—2015 3rd sp.s. c 44 §§ 411 and 412: "(1) This section and sections 411 and 412 of this act may be known and cited as the clean fuel vehicle incentives act.

(2) The legislature finds that cleaner fuels reduce greenhouse gas emissions in the transportation sector and lead to a more sustainable environment. The legislature further finds that alternative fuel vehicles cost more than comparable models of conventional fuel vehicles, particularly in the commercial market. The legislature further finds the higher cost of alternative fuel vehicles incentivize companies to purchase comparable models of conventional fuel vehicles. The legislature further finds that other states provide various tax credits and exemptions. The legislature further finds incentivizing businesses to purchase cleaner, alternative fuel vehicles is a collaborative step toward meeting the state's climate and environmental goals.

(3)(a) This subsection is the tax preference performance statement for the clean alternative fuel vehicle tax credits provided in sections 411 and 412 of this act. The performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(b) The legislature categorizes the tax preference as one intended to induce certain designated behavior by taxpayers.

(c) It is the legislature's specific public policy objective to provide a credit against business and occupation and public utility taxes to increase sales of commercial vehicles that use clean alternative fuel to ten percent of commercial vehicle sales by 2021.

(d) To measure the effectiveness of the credit provided in this act in achieving the specific public policy objective described in (c) of this subsection, the joint legislative audit and review committee must, at minimum, evaluate the changes in the number of commercial vehicles that are powered by clean alternative fuel that are registered in Washington state.

(e)(i) The department of licensing must provide data needed for the joint legislative audit and review committee's analysis in (d) of this subsection.

(ii) In addition to the data source described under (e)(i) of this subsection, the joint legislative audit and review committee may use any other data it deems necessary in performing the evaluation under (d) of this subsection." [2015 3rd sp.s. c 44 § 410.]

82.04.4498 Credit—Businesses that hire veterans. (Effective October 1, 2016, until July 1, 2023.) (1) A person is allowed a credit against the tax due under this chapter as provided in this section. The credit equals twenty percent of wages and benefits paid to or on behalf of a qualified employee up to a maximum of one thousand five hundred dollars for each qualified employee hired on or after October 1, 2016.

(2) No credit may be claimed under this section until a qualified employee has been employed for at least two consecutive full calendar quarters.

(3) Credits are available on a first-in-time basis. The department must keep a running total of all credits allowed under this section and RCW 82.16.0499 during each fiscal year. The department may not allow any credits that would cause the total credits allowed under this section and RCW 82.16.0499 to exceed five hundred thousand dollars in any fiscal year. If all or part of a claim for credit is disallowed under this subsection, the disallowed portion is carried over to the next fiscal year. However, the carryover into the next fiscal year is only permitted to the extent that the cap for the next fiscal year is not exceeded. Priority must be given to

credits carried over from a previous fiscal year. The department must provide written notice to any person who has claimed tax credits in excess of the limitation in this subsection. The notice must indicate the amount of tax due and provide that the tax be paid within thirty days from the date of the notice. The department may not assess penalties and interest as provided in chapter 82.32 RCW on the amount due in the initial notice if the amount due is paid by the due date specified in the notice, or any extension thereof.

(4) The credit may be used against any tax due under this chapter, and may be carried over until used, except as provided in subsection (9) of this section. No refunds may be granted for credits under this section.

(5) If an employer discharges a qualified employee for whom the employer has claimed a credit under this section, the employer may not claim a new credit under this section for a period of one year from the date the qualified employee was discharged. However, this subsection (5) does not apply if the qualified employee was discharged for misconduct, as defined in RCW 50.04.294, connected with his or her work or discharged due to a felony or gross misdemeanor conviction, and the employer contemporaneously documents the reason for discharge.

(6) Credits earned under this section may be claimed only on returns filed electronically with the department using the department's online tax filing service or other method of electronic reporting as the department may authorize. No application is required to claim the credit, but the taxpayer must keep records necessary for the department to determine eligibility under this section including records establishing the person's status as a veteran and status as unemployed when hired by the taxpayer.

(7) No person may claim a credit against taxes due under both this chapter and chapter 82.16 RCW for the same qualified employee.

(8) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a)(i) "Qualified employee" means an unemployed veteran who is employed in a permanent full-time position for at least two consecutive full calendar quarters. For seasonal employers, "qualified employee" also includes the equivalent of a full-time employee in work hours for two consecutive full calendar quarters.

(ii) For purposes of this subsection (8)(a), "full time" means a normal work week of at least thirty-five hours.

(b) "Unemployed" means that the veteran was unemployed as defined in RCW 50.04.310 for at least thirty days immediately preceding the date that the veteran was hired by the person claiming credit under this section for hiring the veteran.

(c) "Veteran" means every person who has received an honorable discharge or received a general discharge under honorable conditions or is currently serving honorably, and who has served as a member in any branch of the armed forces of the United States, including the national guard and armed forces reserves.

(9) Credits allowed under this section can be earned for tax reporting periods through June 30, 2022. No credits can be claimed after June 30, 2023.

(10) This section expires July 1, 2023. [2015 3rd sp.s. c 6 § 1002.]

Tax preference performance statement—2015 3rd sp.s. c 6 §§ 1002 and 1003: "This section is the tax preference performance statement for the tax preference contained in RCW 82.04.4498 and 82.16.0499. This performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(1) The legislature categorizes the tax preferences as those intended to induce certain designated behavior by taxpayers and create or retain jobs, as indicated in RCW 82.32.808(2) (a) and (c).

(2) It is the legislature's specific public policy objective to provide employment for unemployed veterans. It is the legislature's intent to provide employers a credit against the business and occupation tax or public utility tax for hiring unemployed veterans which would reduce an employer's tax burden thereby inducing employers to hire and create jobs for unemployed veterans. Pursuant to chapter 43.136 RCW, the joint legislative audit and review committee must review the business and occupation tax and public utility tax credit established under RCW 82.04.4498 and 82.16.0499 by December 31, 2022.

(3) If a review finds that the number of unemployed veterans decreased by thirty percent, then the legislature intends for the legislative auditor to recommend extending the expiration date of the tax preference.

(4) In order to obtain the data necessary to perform the review in subsection (3) of this section, the joint legislative audit and review committee should refer to the veteran unemployment rates available from the employment security department and the bureau of labor statistics." Finding—Intent—2015 c 185: "The legislature finds that Engrossed Substitute House Bill No. 2246, enacted in 2014, created an environmental handling charge. However, the 2014 legislature did not intend for business and occupation taxes to be imposed on top of such charge. Therefore, the legislature intends to clarify that environmental handling charges are not subject to business and occupation taxation." [2015 c 185 § 1.]

Application—2015 3rd sp.s. c 5: "Sections 301 and 302 of this act do not apply with respect to machinery and equipment, as defined in RCW 82.08.02565, first used by the taxpayer in this state before August 1, 2015." [2015 3rd sp.s. c 5 § 306.]

Conflicting laws—2015 3rd sp.s. c 5: "If RCW 82.08.02565, 82.12.02565, or 82.63.010 are amended by any other act enacted during the regular or any special session of the 2015 legislature, each amendment without reference to the other amendment or amendments of the same statute, the legislature intends for the amendments in this act to be deemed to not conflict in purpose with the amendments in any other such act for the purposes of RCW 1.12.025 and that the amendments in this act be given effect." [2015 3rd sp.s. c 5 § 305.]

Effective dates—2015 3rd sp.s. c 5: See note following RCW 82.08.052.

Effective date—Findings—Tax preference performance statement—2014 c 216: See notes following RCW 82.38.030.

Findings—2011 c 23: "(1) In 1995, the legislature enacted a sales and use tax exemption for manufacturing machinery and equipment, commonly referred to as the "M&E exemption." The legislature finds that the purposes of this exemption were to encourage the growth and development of the state's private sector manufacturing industry and improve this state's ability to compete with other states for manufacturing investment. The legislature further finds that it was not the purpose of the M&E exemption to provide tax breaks to state agencies and institutions, nor to public utilities and other businesses with respect to machinery and equipment primarily used for activities that are taxable under the state public utility tax or are otherwise not considered to be manufacturing for business and occupation tax purposes.

(2) The legislature further finds that despite previous attempts at clarifying the M&E exemption, significant ambiguity persists, particularly with respect to the scope of the exemption. Such ambiguity results in costly appeals and litigation and may result in significant unanticipated revenue losses for the state and local governments.

(3) Therefore, the legislature finds it necessary to reaffirm its original intent in establishing the M&E exemption. The legislature declares that the amendments to the existing M&E exemption and to RCW 82.04.120 in this act are clarifying and, as such, apply retroactively as well as prospectively.

(4) The legislature finds that Washington is home to premier public research institutions. The legislature recognizes that the state's public universities provide cutting-edge research and development, which helps stimulate growth in the private sector and is vital to the economic well-being of our state. University research leads directly to new products, companies, production methods, and ways of organizing work. The legislature further recog-

nizes that our public universities will play an important role in shaping the next generation of Washington industries, including biofuels and other renewable energy, global health, and advanced manufacturing. Therefore, because the amendments to the existing M&E exemption in this act clarify that state agencies and institutions are not eligible for the M&E exemption, this act provides a new, stand-alone sales and use tax exemption for machinery and equipment used primarily in technological research and development operations by the state's four-year institutions of higher education." [2011 c 23 § 1.]

Intent—2011 c 23: "The legislature declares that the only reason why the phrase "the production of electricity by a light and power business as defined in RCW 82.16.010" was deleted from the definition of "manufacturing operation" in RCW 82.08.02565(2)(f) in section 2 of this act is because that language is superfluous." [2011 c 23 § 7.]

Application—2011 c 23: "Sections 2 and 3 of this act apply both prospectively and retroactively to any tax period open for assessment or refund of taxes." [2011 c 23 § 9.]

Effective date—Construction—2011 c 23: See notes following RCW 82.08.025651.

Intent—Construction—2009 c 535: See notes following RCW 82.04.192.

Finding—Intent—1999 c 211: "The legislature finds that the application of the manufacturer's machinery and equipment sales and use tax exemption has, in some instances, been difficult and confusing for taxpayers, and included difficult reporting and recordkeeping requirements. In this act, it is the intent of the legislature to make clear its intent for the application of the exemption, and to extend the exemption to the purchase and use of machinery and equipment for businesses that perform testing of manufactured goods for manufacturers or processors for hire." [1999 c 211 § 1.]

Intent—1999 c 211 §§ 2 and 3: See note following RCW 82.04.120.

Findings—Intent—1996 c 247: See note following RCW 82.08.02566.

Findings—Intent—1996 c 173: "The legislature finds that the health, safety, and welfare of the people of the state of Washington are heavily dependent upon the continued encouragement, development, and expansion of opportunities for family wage employment in the state's manufacturing industries.

The legislature also finds that sales and use tax exemptions for manufacturing machinery and equipment enacted by the 1995 legislature have improved Washington's ability to compete with other states for manufacturing investment, but that additional incentives for manufacturers need to be adopted to solidify and enhance the state's competitive position.

The legislature intends to accomplish this by extending the current manufacturing machinery and equipment exemptions to allow a sales tax exemption for labor and service charges for repairing, cleaning, altering, or improving machinery and equipment, and a sales and use tax exemption for repair and replacement parts with a useful life of one year or more." [1996 c 173 § 1.]

Findings—1995 1st sp.s. c 3: "The legislature finds and declares that:

(1) The health, safety, and welfare of the people of the state of Washington are heavily dependent upon the continued encouragement, development, and expansion of opportunities for family wage employment in our state's private sector;

(2) The state's private sector must be encouraged to commit to continuous improvement of process, products, and services and to deliver high-quality, high-value products through technological innovations and high-performance work organizations;

(3) The state's opportunities for increased economic dealings with other states and nations of the world are dependent on supporting and attracting a diverse, stable, and competitive economic base of private sector employers;

(4) The state's current policy of applying its sales and use taxes to machinery, equipment, and installation labor used in manufacturing, research and development, and other activities has placed our state's private sector at a competitive disadvantage with other states and serves as a significant disincentive to the continuous improvement of products, technology, and modernization necessary for the preservation, stabilization, and expansion of employment and to ensure a stable economy; and

(5) It is vital to the continued development of economic opportunity in this state, including the development of new businesses and the expansion or modernization of existing businesses, that the state of Washington provide tax incentives to entities making a commitment to sites and operations in this state." 82.08.0262 Exemptions—Sales of airplanes, locomotives, railroad cars, or watercraft for use in interstate or foreign commerce or outside the territorial waters of the state or airplanes sold to United States government—Components thereof and of motor vehicles or trailers used for constructing, repairing, cleaning, etc.—Labor and services for constructing, repairing, cleaning, etc. (1) The tax levied by RCW 82.08.020 does not apply to:

(a) Sales of airplanes (i) to the United States government; (ii) for use in conducting interstate or foreign commerce by transporting property or persons for hire or by performing services under a contract with the United States government; or (iii) for use in providing intrastate air transportation by a commuter air carrier;

(d) Sales of or charges made for labor and services rendered in respect to such constructing, repairing, cleaning, altering, or improving.

(2) The term "commuter air carrier" means an air carrier holding authority under Title 14, Part 298 of the code of federal regulations that carries passengers on at least five round trips per week on at least one route between two or more points according to its published flight schedules that specify the times, days of the week, and places between which those flights are performed. 82.08.052 Remote seller—Nexus. (1) For purposes of this chapter, a remote seller is presumed to have a substantial nexus with this state and is obligated to collect retail sales tax if the remote seller enters into an agreement with a resident of this state under which the resident, for a commission or other consideration, directly or indirectly refers potential customers, whether by a link on an internet web site or otherwise, to the remote seller, if the cumulative gross receipts from sales by the remote seller to customers in this state who are referred to the remote seller by all residents with this type of an agreement with the remote seller exceed ten thousand dollars during the preceding calendar year. This presumption may be rebutted by proof that the resident with whom the remote seller has an agreement did not engage in any solicitation in this state on behalf of the remote seller that would satisfy the nexus requirement of the United States Constitution during the calendar year in question. Proof may be shown by (a) establishing, in a manner acceptable to the department, that (i) each in-state person with whom the remote seller has an agreement is prohibited from engaging in any solicitation activities in this state that refer potential customers to the remote seller, and (ii) such in-state person or persons have complied with that prohibition; or (b) any other means as may be approved by the department.

(2) "Remote seller" means a seller that makes retail sales in this state through one or more agreements described in subsection (1) of this section, and the seller's other physical presence in this state, if any, is not sufficient to establish a retail sales or use tax collection obligation under the commerce clause of the United States Constitution.

(3) Nothing in this section may be construed to affect in any way RCW 82.04.424, 82.08.050(11), or 82.12.040(5).

(4) This section is subject to RCW 82.32.762. [2015 3rd sp.s. c 5 § 202.]

Effective dates—2015 3rd sp.s. c 5: "(1) Except as provided otherwise in this section, this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect August 1, 2015.

(2) Part II of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect September 1, 2015." [2015 3rd sp.s. c 5 § 501.]

Finding—Intent—2015 3rd sp.s. c 5: "(1) The commerce clause of the United States Constitution as currently interpreted by the United States supreme court prohibits states from imposing sales or use tax collection obligations on out-of-state businesses unless the business has a substantial nexus with the taxing state.

(2) The legislature recognizes that under the United States supreme court's decision in *Quill Corp. v. North Dakota*, 504 U.S. 298 (1992), a substantial nexus for sales and use tax collection purposes requires that the taxpayer have a physical presence in the taxing state.

(3) The legislature further recognizes that the requisite physical presence can be established directly through a taxpayer's own activities in the taxing state, or indirectly, through independent contractors, agents, or other representatives who act on behalf of the taxpayer in the taxing state.

(4) However, the legislature finds that because the United States supreme court has not clearly defined the circumstances under which a physical presence is sufficient to establish a substantial nexus for tax purposes, frequent conflicts have arisen throughout the country among state taxing authorities, taxpayers, tax practitioners, and courts.

(5) Therefore, the legislature intends to provide more clarity for out-of-state sellers that compensate Washington residents for referring customers to the out-of-state seller by providing clear statutory guidelines for determining when these out-of-state sellers are required to collect Washington's retail sales tax." [2015 3rd sp.s. c 5 § 201.]

82.08.160 Remittance of tax—Liquor excise tax fund created. (1) On or before the twenty-fifth day of each month, all taxes collected under RCW 82.08.150 during the preceding month must be remitted to the state department of revenue, to be deposited with the state treasurer. Except as provided in subsections (2), (3), (4), and (5) of this section, upon receipt of such moneys the state treasurer must credit sixty-five percent of the sums collected and remitted under RCW 82.08.150 (1) and (2) and one hundred percent of the sums collected and remitted under RCW 82.08.150 (3) and (4) to the state general fund and thirty-five percent of the sums collected and remitted under RCW 82.08.150 (1) and (2) to a fund which is hereby created to be known as the "liquor excise tax fund."

(2) During the 2012 fiscal year, 66.19 percent of the sums collected and remitted under RCW 82.08.150 (1) and (2) must be deposited in the state general fund and the remainder collected and remitted under RCW 82.08.150 (1) and (2) must be deposited in the liquor excise tax fund.

(3) During fiscal year 2013, all funds collected under RCW 82.08.150 (1), (2), (3), and (4) must be deposited into the state general fund.

(4) During the 2013-2015 fiscal biennium, seventyseven and onehalf percent of the sums collected and remitted under RCW 82.08.150 (1) and (2) must be deposited in the state general fund, and the remainder collected and remitted under RCW 82.08.150 (1) and (2) must be deposited in the liquor excise tax fund. The amendments in *this section are curative, clarifying, and remedial and apply retroactively to July 1, 2013.

(5) During the 2015-2017 fiscal biennium, the liquor excise tax fund may be appropriated for the local government fiscal note program in the department of commerce. It is the intent of the legislature to continue these policies in the 2017-2019 fiscal biennium. 82.08.170 Apportionment and distribution from liquor excise tax fund. (1) Except as provided in subsections (4) and (5) of this section, during the months of January, April, July, and October of each year, the state treasurer must make the transfers required under subsections (2) and (3) of this section from the liquor excise tax fund and then the apportionment and distribution of all remaining moneys in the liquor excise tax fund to the counties, cities, and towns in the following proportions: (a) Twenty percent of the moneys in the liquor excise tax fund must be divided among and dis-

tributed to the counties of the state in accordance with the provisions of RCW 66.08.200; and (b) eighty percent of the moneys in the liquor excise tax fund must be divided among and distributed to the cities and towns of the state in accordance with the provisions of RCW 66.08.210.

(2) Each fiscal quarter and prior to making the twenty percent distribution to counties under subsection (1)(a) of this section, the treasurer shall transfer to the liquor revolving fund created in RCW 66.08.170 sufficient moneys to fund the allotments from any legislative appropriations for county research and services as provided under chapter 43.110 RCW.

(3) During the months of January, April, July, and October of each year, the state treasurer must transfer two million five hundred thousand dollars from the liquor excise tax fund to the state general fund.

(4) During calendar year 2012, the October distribution under subsection (1) of this section and the July and October transfers under subsections (2) and (3) of this section must not be made. 82.08.805 Exemptions—Personal property used at an aluminum smelter. (1) A person who has paid tax under RCW 82.08.020 for personal property used at an aluminum smelter, tangible personal property that will be incorporated as an ingredient or component of buildings or other structures at an aluminum smelter, or for labor and services rendered with respect to such buildings, structures, or personal property, is eligible for an exemption from the state share of the tax in the form of a credit, as provided in this section. A person claiming an exemption must pay the tax and may then take a credit equal to the state share of retail sales tax paid under RCW 82.08.020. The person must submit information, in a form and manner prescribed by the department, specifying the amount of qualifying purchases or acquisitions for which the exemption is claimed and the amount of exempted tax.

(2) For the purposes of this section, "aluminum smelter" has the same meaning as provided in RCW 82.04.217.

(3) A person claiming the tax preference provided in this section must file a complete annual report with the department under RCW 82.32.534.

(4) Credits may not be claimed under this section for taxable events occurring on or after January 1, 2027. [2015 3rd sp.s. c 6 § 504; 2011 c 174 § 303. Prior: 2010 1st sp.s. c 2 § 3; 2010 c 114 § 122; 2009 c 535 § 513; 2006 c 182 § 3; 2004 c 24 § 10.]

82.08.809 Exemptions—Vehicles using clean alternative fuels and electric vehicles, exceptions—Quarterly transfers. (Expires July 1, 2019.) (1) Except as provided in subsection (4) of this section, the tax levied by RCW 82.08.020 does not apply to sales of new passenger cars, light duty trucks, and medium duty passenger vehicles, which (a) are exclusively powered by a clean alternative fuel or (b) use at least one method of propulsion that is capable of being reenergized by an external source of electricity and are capable of traveling at least thirty miles using only battery power.

(2) The seller must keep records necessary for the department to verify eligibility under this section.

(3) As used in this section, "clean alternative fuel" means natural gas, propane, hydrogen, or electricity, when used as a fuel in a motor vehicle that meets the California motor vehicle emission standards in Title 13 of the California code of regulations, effective January 1, 2005, and the rules of the Washington state department of ecology.

(4)(a) A sale, other than a lease, is not exempt from sales tax as described under subsection (1) of this section if the selling price of the vehicle plus trade-in property of like kind exceeds thirty-five thousand dollars.

(b) For leased vehicles for which the lease agreement is signed on or after July 15, 2015, lease payments are not exempt from sales tax as described under subsection (1) of this section if the fair market value of the vehicle being leased exceeds thirty-five thousand dollars at the inception of the lease. For the purposes of this subsection (4)(b), "fair market value" has the same meaning as "value of the article used" in RCW 82.12.010.

(c) For leased vehicles for which the lease agreement was signed before July 15, 2015, lease payments are exempt from sales tax as described under subsection (1) of this section regardless of the vehicle's fair market value at the inception of the lease.

(5) On the last day of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, must transfer from the multimodal transportation account to the general fund a sum equal to the dollar amount that would otherwise have been deposited into the general fund during the prior calendar quarter but for the exemption provided in this section. Information provided by the department to the state treasurer must be based on the best available data, except that the department may provide estimates of taxes exempted under this section until such time as

retailers are able to report such exempted amounts on their tax returns. For purposes of this section, the first transfer for the calendar quarter after July 15, 2015, must be calculated assuming only those revenues that should have been deposited into the general fund beginning July 1, 2015.

(6) Lease payments due on or after July 1, 2019, are subject to the taxes imposed under this chapter.

(7) This section expires July 1, 2019. [2015 3rd sp.s. c 44 § 408; 2010 1st sp.s. c 11 § 2; 2005 c 296 § 1.]

Reviser's note: The expiration date of section 2, chapter 11, Laws of 2010 1st sp. sess. was July 1, 2015. The effective date of section 408, chapter 44, Laws of 2015 3rd sp. sess. is July 15, 2015.

Tax preference performance statement—2015 3rd sp.s. c 44 §§ 408 and 409: "This section is the tax preference performance statement for the tax preferences contained in sections 408 and 409 of this act. The performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(1) The legislature categorizes the tax preference as one intended to induce certain designated behavior by taxpayers, as indicated in RCW 82.32.808(2)(a).

(2) It is the legislature's specific public policy objective to increase the use of clean alternative fuel vehicles in Washington. It is the legislature's intent to extend the existing sales and use tax exemption on certain clean alternative fuel vehicles in order to reduce the price charged to customers for clean alternative fuel vehicles.

(3) To measure the effectiveness of the tax preferences in sections 408 and 409 of this act in achieving the public policy objectives described in subsection (2) of this section, the joint legislative audit and review committee must evaluate the number of clean alternative fuel vehicles registered in the state.

(4) In order to obtain the data necessary to perform the review in subsection (3) of this section, the department of licensing must provide data needed for the joint legislative audit and review committee analysis. In addition to the data source described under this subsection, the joint legislative audit and review committee may use any other data it deems necessary." [2015 3rd sp.s. c 44 § 407.]

82.08.833 Exemptions—Sales or transfers of firearms—Unlicensed persons—Background check requirements. The tax imposed by RCW 82.08.020 does not apply to the sale or transfer of any firearms between two unlicensed persons if the unlicensed persons have complied with all background check requirements of chapter 9.41 RCW. [2015 c 1 § 10 (Initiative Measure No. 594, approved November 4, 2014).]

Finding—2015 c 1 (Initiative Measure No. 594): See note following RCW 9.41.010.

82.08.855 Exemptions—Replacement parts for qualifying farm machinery and equipment. (1) The tax levied by RCW 82.08.020 does not apply to the sale to an eligible farmer of:

(a) Replacement parts for qualifying farm machinery and equipment;

(b) Labor and services rendered in respect to the installing of replacement parts; and

(c) Labor and services rendered in respect to the repairing of qualifying farm machinery and equipment, provided that during the course of repairing no tangible personal property is installed, incorporated, or placed in, or becomes an ingredient or component of, the qualifying farm machinery and equipment other than replacement parts.

(2)(a) Notwithstanding anything to the contrary in this chapter, if a single transaction involves services that are not exempt under this section and services that would be exempt under this section if provided separately, the exemptions provided in subsection (1)(b) and (c) of this section apply if: (i) The seller makes a separately itemized charge for labor and services described in subsection (1)(b) or (c) of this section; and (ii) the separately itemized charge does not exceed the seller's usual and customary charge for such services.

(b) If the requirements in (a)(i) and (ii) of this subsection (2) are met, the exemption provided in subsection (1)(b) or (c) of this section applies to the separately itemized charge for labor and services described in subsection (1)(b) or (c) of this section.

(3)(a) A purchaser claiming an exemption under this section must keep records necessary for the department to verify eligibility under this section. Sellers making taxexempt sales under this section must obtain an exemption certificate from the purchaser in a form and manner prescribed by the department. In lieu of an exemption certificate, a seller may capture the relevant data elements as allowed under the streamlined sales and use tax agreement. The seller must retain a copy of the certificate or the data elements for the seller's files.

(b)(i) For a person who is an eligible farmer as defined in subsection (4)(b)(iv) of this section, the exemption is conditioned upon:

(A) The eligible farmer having gross sales or a harvested value of agricultural products grown, raised, or produced by that person or gross sales of bee pollination services of at least ten thousand dollars in the first full tax year in which the person engages in business as a farmer; or

(B) The eligible farmer, during the first full tax year in which that person engages in business as a farmer, growing, raising, or producing agricultural products or bee pollination services having an estimated value at any time during that year of at least ten thousand dollars, if the person will not sell or harvest an agricultural product or bee pollination service during the first full tax year in which the person engages in business as a farmer.

(ii) If a person fails to meet the condition provided in (b)(i)(A) or (B) of this subsection, the person must repay any taxes exempted under this section. Any taxes for which an exemption under this section was claimed are due and payable to the department within thirty days of the end of the first full tax year in which the person engages in business as a farmer. The department must assess interest on the taxes for which the exemption was claimed as provided in chapter 82.32 RCW, retroactively to the date the exemption was claimed, and accrues until the taxes for which the exemption was claimed are paid. Penalties may not be imposed on any tax required to be paid under this subsection (3) (b)(ii) if full payment is received by the due date.

(4) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Agricultural products" has the meaning provided in RCW 82.04.213.

(b) "Eligible farmer" means:

(i) A farmer as defined in RCW 82.04.213 whose gross sales or harvested value of agricultural products grown, raised, or produced by that person or gross sales of bee polli-

nation services was at least ten thousand dollars for the immediately preceding tax year;

(ii) A farmer as defined in RCW 82.04.213 whose agricultural products had an estimated value of at least ten thousand dollars for the immediately preceding tax year, if the person did not sell or harvest an agricultural product or bee pollination service during that year;

(iii) A farmer as defined in RCW 82.04.213 who has merely changed identity or the form of ownership of an entity that was an eligible farmer, where there was no change in beneficial ownership, and the combined gross sales, harvested value, or estimated value of agricultural products or bee pollination services by both entities met the requirements of (b)(i) or (ii) of this subsection for the immediately preceding tax year;

(iv) A farmer as defined in RCW 82.04.213 who does not meet the definition of "eligible farmer" in (b)(i), (ii), or (iii) of this subsection, and who did not engage in farming for the entire immediately preceding tax year, because the farmer is either new to farming or newly returned to farming; or

(v) Anyone who otherwise meets the definition of "eligible farmer" in this subsection except that they are not a "person" as defined in RCW 82.04.030.

(c) "Farm vehicle" has the same meaning as in RCW 46.04.181.

(d) "Harvested value" means the number of units of the agricultural product that were grown, raised, or produced, multiplied by the average sales price of the agricultural product. For purposes of this subsection (4)(d), "average sales price" means the average price per unit of agricultural product received by farmers in this state as reported by the United States department of agriculture's national agricultural statistics service for the twelve-month period that coincides with, or that ends closest to, the end of the relevant tax year, regardless of whether the prices are subject to revision. If the price per unit of an agricultural product received by farmers in this state is not available from the national agricultural statistics service, average sales price may be determined by using the average price per unit of agricultural product received by farmers in this state as reported by a recognized authority for the agricultural product.

(e) "Qualifying farm machinery and equipment" means machinery and equipment used primarily by an eligible farmer for growing, raising, or producing agricultural products, providing bee pollination services, or both. "Qualifying farm machinery and equipment" does not include:

(i) Vehicles as defined in RCW 46.04.670, other than farm tractors as defined in RCW 46.04.180, farm vehicles, and other farm implements. For purposes of this subsection (4)(e)(i), "farm implement" means machinery or equipment manufactured, designed, or reconstructed for agricultural purposes and used primarily by an eligible farmer to grow, raise, or produce agricultural products, but does not include lawn tractors and allterrain vehicles;

(iii) Hand tools and handpowered tools; and

(iv) Property with a useful life of less than one year.

(f)(i) "Replacement parts" means those parts that replace an existing part, or which are essential to maintain the working condition, of a piece of qualifying farm machinery or equipment.

(ii) Paint, fuel, oil, hydraulic fluids, antifreeze, and similar items are not replacement parts except when installed, incorporated, or placed in qualifying farm machinery and equipment during the course of installing replacement parts as defined in (f)(i) of this subsection or making repairs as described in subsection (1)(c) of this section.

(g) "Tax year" means the period for which a person files its federal income tax return, irrespective of whether the period represents a calendar year, fiscal year, or some other consecutive twelvemonth period. If a person is not required to file a federal income tax return, "tax year" means a calendar year. [2015 3rd sp.s. c 6 § 1106; 2014 c 97 § 601; 2007 c 332 § 1; 2006 c 172 § 1.]

Tax preference performance statement—2015 3rd sp.s. c 6: "(1) This section is the tax preference performance statement for the tax preference contained in section 1202 of this act. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(2) The legislature categorizes the tax preference created in this act as one intended to reduce structural inefficiencies in the tax structure as indicated in RCW 82.32.808(2)(d).

(3) It is the legislature's specific public policy objective to provide permanent tax relief that corrects the structural inefficiencies under RCW 82.08.983 with regard to wax and ceramic materials used to create molds during the process of creating ferrous and nonferrous investment castings used in industrial applications." (1) An exemption from the tax imposed by RCW 82.08.020 is provided for sales to qualifying businesses and to qualifying tenants of eligible server equipment to be installed, without intervening use, in an eligible computer data center, and to charges made for labor and services rendered in respect to installing eligible server equipment. The exemption also applies to sales to qualifying businesses and to qualifying tenants of eligible power infrastructure, including labor and services rendered in respect to constructing, installing, repairing, altering, or improving eligible power infrastructure.

(2)(a) In order to claim the exemption under this section, a qualifying business or a qualifying tenant must submit an application to the department for an exemption certificate. The application must include the information necessary, as required by the department, to determine that a business or tenant qualifies for the exemption under this section. The department must issue exemption certificates to qualifying businesses and qualifying tenants. The department may assign a unique identification number to each exemption certificate issued under this section.

(b) A qualifying business or a qualifying tenant claiming the exemption under this section must present the seller with an exemption certificate in a form and manner prescribed by the department. The seller must retain a copy of the certificate for the seller's files.

(c) With respect to computer data centers for which the commencement of construction occurs after July 1, 2015, but before July 1, 2019, the exemption provided in this section is limited to no more than eight computer data centers, with total eligible data centers provided under this section limited to twelve from July 1, 2015, through July 1, 2025. Tenants of qualified data centers do not constitute additional data centers under the limit. The exemption is available on a first-in-time basis based on the date the application required under this section is received by the department. Exemption certificates

expire two years after the date of issuance, unless construction has been commenced.

(3)(a) Within six years of the date that the department issued an exemption certificate under this section to a qualifying business or a qualifying tenant with respect to an eligible computer data center, the qualifying business or qualifying tenant must establish that net employment at the eligible computer data center has increased by a minimum of:

(i) Thirty-five family wage employment positions; or

(ii) Three family wage employment positions for each twenty thousand square feet of space or less that is newly dedicated to housing working servers at the eligible computer data center. For qualifying tenants, the number of family wage employment positions that must be increased under this subsection (3)(a)(ii) is based only on the space occupied by the qualifying tenant in the eligible computer data center.

(b) In calculating the net increase in family wage employment positions:

(i) The owner of an eligible computer data center, in addition to its own net increase in family wage employment positions, may include:

(A) The net increase in family wage employment positions employed by qualifying tenants; and

(B) The net increase in family wage employment positions described in (c)(ii)(B) of this subsection (3).

(ii)(A) Qualifying tenants, in addition to their own net increase in family wage employment positions, may include:

(I) A portion of the net increase in family wage employment positions employed by the owner; and

(II) A portion of the net increase in family wage employment positions described in (c)(ii)(B) of this subsection (3).

(B) The portion of the net increase in family wage employment positions to be counted under this subsection (3)(b)(ii) by each qualifying tenant must be in proportion to the amount of space in the eligible computer data center occupied by the qualifying tenant compared to the total amount of space in the eligible computer data center occupied by all qualifying tenants.

(c)(i) For purposes of this subsection, family wage employment positions are new permanent employment positions requiring forty hours of weekly work, or their equivalent, on a full-time basis at the eligible computer data center and receiving a wage equivalent to or greater than one hundred fifty percent of the per capita personal income of the county in which the qualified project is located. An employment position may not be counted as a family wage employment position unless the employment position is entitled to health insurance coverage provided by the employer of the employment position. For purposes of this subsection (3)(c), "new permanent employment position" means an employment position that did not exist or that had not previously been filled as of the date that the department issued an exemption certificate to the owner or qualifying tenant of an eligible computer data center, as the case may be.

(ii)(A) Family wage employment positions include positions filled by employees of the owner of the eligible computer data center and by employees of qualifying tenants.

(B) Family wage employment positions also include individuals performing work at an eligible computer data center as an independent contractor hired by the owner of the eligible computer data center or as an employee of an inde-

pendent contractor hired by the owner of the eligible computer data center, if the work is necessary for the operation of the computer data center, such as security and building maintenance, and provided that all of the requirements in (c)(i) of this subsection (3) are met.

(d) All previously exempted sales and use taxes are immediately due and payable for a qualifying business or qualifying tenant that does not meet the requirements of this subsection.

Reviser's note: Pursuant to RCW 43.135.041, chapter 6, Laws of 2012 2nd special session was subject to an advisory vote of the people in the November 2012 general election on whether the tax increase in such session law should be maintained or repealed. The advisory vote was in favor of repeal.

Tax preference performance statement—2015 3rd sp.s. c 6 §§ 302 and 303: "This section is the tax preference performance statement for the sales and use tax exemption contained in sections 302 and 303 of this act. This performance statement is only intended to be used for subsequent evaluation of the tax preferences in sections 302 and 303 of this act. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(1) The legislature categorizes this sales and use tax exemption as one intended to improve industry competitiveness, as indicated in RCW 82.32.808(2)(b).

(2) It is the legislature's specific public policy objective to improve industry competitiveness. It is the legislature's intent to provide a sales and use tax exemption on eligible server equipment and power infrastructure installed in eligible computer data centers, charges made for labor and services rendered in respect to installing eligible server equipment, and for construction, installation, repair, alteration, or improvement of eligible power infrastructures in order to increase investment in data center construction in rural Washington counties, thereby adding real and personal property to state and local property tax rolls, thereby increasing the rural county tax base.

(3) If a review finds that the rural county tax base is increased as a result of the construction of computer data centers eligible for the sales and use tax exemption in sections 302 and 303 of this act, then the legislature intends to extend the expiration date of the tax preference.

(4) In order to obtain the data necessary to perform the review in subsection (3) of this section, the joint legislative audit and review committee may

refer to data available from the department of revenue regarding rural county property tax assessments." [2015 3rd sp.s. c 6 § 301.]

Intent—Finding—2012 2nd sp.s. c 6: "(1) It is the legislature's intent to encourage immediate investments in technology facilities that can provide an economic stimulus, sustain long-term jobs that provide living wages, and help build the digital infrastructure that can enable the state to be competitive for additional technology investment and jobs.

(2) There is currently an intense competition for data center construction and operation in many states including: Oregon, Arizona, North and South Carolina, North Dakota, Iowa, Virginia, Texas, and Illinois. Unprecedented incentives are available as a result of the desire of these states to attract investments that will serve as a catalyst for additional clusters of economic activity.

(3) Data center technology has advanced rapidly, with marked increases in energy efficiency. Large, commercial-grade data centers leverage the economies of scale to reduce energy consumption. Combining digitized processes with the economies of scale recognized at these data centers, today's enterprises can materially reduce the energy they consume and greatly improve their efficiency.

(4) The legislature finds that offering an exemption for server and related electrical equipment and installation will act as a stimulus to incent immediate investment. This investment will bring jobs, tax revenues, and economic growth to some of our state's rural areas." [2012 2nd sp.s. c 6 § 301.]

Restaurant includes, but is not limited to, lunch counters, diners, coffee shops, espresso shops or bars, concession stands or counters, delicatessens, and cafeterias. It also includes space and accommodations where food and beverages are sold to the public for immediate consumption that are located within hotels, motels, lodges, boarding houses, bed and breakfast facilities, hospitals, office buildings, movie theaters, and schools, colleges, or universities, if a separate charge is made for such food or beverages. Mobile sales units that sell food or beverages for immediate consumption within a place, the entrance to which is subject to an admission charge, are "restaurants." So too are public and private carriers, such as trains and vessels, that sell food or beverages for immediate consumption if a separate charge for the food and/or beverages is made. A restaurant is open to the public for purposes of this section if members of the public can be served as guests. "Restaurant" does not include businesses making sales through vending machines or through mobile sales units such as catering trucks or sidewalk vendors of food or beverage items. 82.12.010 Definitions. (*Effective January 1, 2016.*)

For the purposes of this chapter:

(1) The meaning ascribed to words and phrases in chapters 82.04 and 82.08 RCW, insofar as applicable, has full force and effect with respect to taxes imposed under the provisions of this chapter. "Consumer," in addition to the meaning ascribed to it in chapters 82.04 and 82.08 RCW insofar as applicable, also means any person who distributes or displays, or causes to be distributed or displayed, any article of tangible personal property, except newspapers, the primary purpose of which is to promote the sale of products or services. With respect to property distributed to persons within this state by a consumer as defined in this subsection (1), the use of the property is deemed to be by such consumer.

(2) "Extended warranty" has the same meaning as in RCW 82.04.050(7).

(3) "Purchase price" means the same as sales price as defined in RCW 82.08.010.

(4)(a)(i) Except as provided in (a)(ii) of this subsection (4), "retailer" means every seller as defined in RCW 82.08.010 and every person engaged in the business of selling tangible personal property at retail and every person required to collect from purchasers the tax imposed under this chapter.

(ii) "Retailer" does not include a professional employer organization when a covered employee coemployed with the client under the terms of a professional employer agreement engages in activities that constitute a sale of tangible personal property, extended warranty, digital good, digital code, or a sale of any digital automated service or service defined as a retail sale in *RCW 82.04.050 (2) (a) or (g) or (6)(b) that is subject to the tax imposed by this chapter. In such cases, the client, and not the professional employer organization, is deemed to be the retailer and is responsible for collecting and remitting the tax imposed by this chapter.

(b) For the purposes of (a) of this subsection, the terms "client," "covered employee," "professional employer agreement," and "professional employer organization" have the same meanings as in RCW 82.04.540.

(5) "Taxpayer" and "purchaser" include all persons included within the meaning of the word "buyer" and the word "consumer" as defined in chapters 82.04 and 82.08 RCW.

(6) "Use," "used," "using," or "put to use" have their ordinary meaning, and mean:

(a) With respect to tangible personal property, except for natural gas and manufactured gas, the first act within this state by which the taxpayer takes or assumes dominion or control over the article of tangible personal property (as a consumer), and include installation, storage, withdrawal from storage, distribution, or any other act preparatory to subsequent actual use or consumption within this state;

(b) With respect to a service defined in RCW 82.04.050(2)(a), the first act within this state after the service has been performed by which the taxpayer takes or assumes dominion or control over the article of tangible personal property upon which the service was performed (as a consumer), and includes installation, storage, withdrawal from storage, distribution, or any other act preparatory to subsequent actual use or consumption of the article within this state;

(c) With respect to an extended warranty, the first act within this state after the extended warranty has been acquired by which the taxpayer takes or assumes dominion or control over the article of tangible personal property to which the extended warranty applies, and includes installation, storage, withdrawal from storage, distribution, or any other act preparatory to subsequent actual use or consumption of the article within this state;

(d) With respect to a digital good or digital code, the first act within this state by which the taxpayer, as a consumer, views, accesses, downloads, possesses, stores, opens, manipulates, or otherwise uses or enjoys the digital good or digital code;

(e) With respect to a digital automated service, the first act within this state by which the taxpayer, as a consumer, uses, enjoys, or otherwise receives the benefit of the service;

(f) With respect to a service defined as a retail sale in *RCW 82.04.050(6)(b), the first act within this state by which the taxpayer, as a consumer, accesses the prewritten computer software;

(g) With respect to a service defined as a retail sale in RCW 82.04.050(2)(g), the first act within this state after the service has been performed by which the taxpayer, as a consumer, views, accesses, downloads, possesses, stores, opens,

manipulates, or otherwise uses or enjoys the digital good upon which the service was performed; and

(h) With respect to natural gas or manufactured gas, the use of which is taxable under RCW 82.12.022, including gas that is also taxable under the authority of RCW 82.14.230, the first act within this state by which the taxpayer consumes the gas by burning the gas or storing the gas in the taxpayer's own facilities for later consumption by the taxpayer.

(7)(a) "Value of the article used" is the purchase price for the article of tangible personal property, the use of which is taxable under this chapter. The term also includes, in addition to the purchase price, the amount of any tariff or duty paid with respect to the importation of the article used. In case the article used is acquired by lease or by gift or is extracted, produced, or manufactured by the person using the same or is sold under conditions wherein the purchase price does not represent the true value thereof, the value of the article used is determined as nearly as possible according to the retail selling price at place of use of similar products of like quality and character under such rules as the department may prescribe.

(b) In case the articles used are acquired by bailment, the value of the use of the articles so used must be in an amount representing a reasonable rental for the use of the articles so bailed, determined as nearly as possible according to the value of such use at the places of use of similar products of like quality and character under such rules as the department of revenue may prescribe. In case any such articles of tangible personal property are used in respect to the construction, repairing, decorating, or improving of, and which become or are to become an ingredient or component of, new or existing buildings or other structures under, upon, or above real property of or for the United States, any instrumentality thereof, or a county or city housing authority created pursuant to chapter 35.82 RCW, including the installing or attaching of any such articles therein or thereto, whether or not such personal property becomes a part of the realty by virtue of installation, then the value of the use of such articles so used is determined according to the retail selling price of such articles, or in the absence of such a selling price, as nearly as possible according to the retail selling price at place of use of similar products of like quality and character or, in the absence of either of these selling price measures, such value may be determined upon a cost basis, in any event under such rules as the department of revenue may prescribe.

(c) In the case of articles owned by a user engaged in business outside the state which are brought into the state for no more than one hundred eighty days in any period of three hundred sixty-five consecutive days and which are temporarily used for business purposes by the person in this state, the value of the article used must be an amount representing a reasonable rental for the use of the articles, unless the person has paid tax under this chapter or chapter 82.08 RCW upon the full value of the article used, as defined in (a) of this subsection.

(d) In the case of articles manufactured or produced by the user and used in the manufacture or production of products sold or to be sold to the department of defense of the United States, the value of the articles used is determined according to the value of the ingredients of such articles.

(e) In the case of an article manufactured or produced for purposes of serving as a prototype for the development of a

new or improved product, the value of the article used is determined by: (i) The retail selling price of such new or improved product when first offered for sale; or (ii) the value of materials incorporated into the prototype in cases in which the new or improved product is not offered for sale.

(f) In the case of an article purchased with a direct pay permit under RCW 82.32.087, the value of the article used is determined by the purchase price of such article if, but for the use of the direct pay permit, the transaction would have been subject to sales tax.

(8) "Value of the digital good or digital code used" means the purchase price for the digital good or digital code, the use of which is taxable under this chapter. If the digital good or digital code is acquired other than by purchase, the value of the digital good or digital code must be determined as nearly as possible according to the retail selling price at place of use of similar digital goods or digital codes of like quality and character under rules the department may prescribe.

(9) "Value of the extended warranty used" means the purchase price for the extended warranty, the use of which is taxable under this chapter. If the extended warranty is received by gift or under conditions wherein the purchase price does not represent the true value of the extended warranty, the value of the extended warranty used is determined as nearly as possible according to the retail selling price at place of use of similar extended warranties of like quality and character under rules the department may prescribe.

(10) "Value of the service used" means the purchase price for the digital automated service or other service, the use of which is taxable under this chapter. If the service is received by gift or under conditions wherein the purchase price does not represent the true value thereof, the value of the service used is determined as nearly as possible according to the retail selling price at place of use of similar services of like quality and character under rules the department may prescribe. (2) The tax must be levied and collected in an amount equal to the value of the article used by the taxpayer multiplied by the rate in effect for the public utility tax on gas distribution businesses under RCW 82.16.020. The "value of the article used" does not include any amounts that are paid for the hire or use of a gas distribution business as defined in RCW 82.16.010(2) in transporting the gas subject to tax under this subsection if those amounts are subject to tax under that chapter.

(3) The tax levied in this section does not apply to the use of natural or manufactured gas delivered to the consumer by other means than through a pipeline.

(4) The tax levied in this section does not apply to the use of natural or manufactured gas if the person who sold the gas to the consumer has paid a tax under RCW 82.16.020 with respect to the gas for which exemption is sought under this subsection.

(5)(a) The tax levied in this section does not apply to the use of natural or manufactured gas by an aluminum smelter as that term is defined in RCW 82.04.217 before January 1, 2027.

(b) A person claiming the exemption provided in this subsection (5) must file a complete annual report with the department under RCW 82.32.534.

(6) The tax imposed by this section does not apply to the use of natural gas, compressed natural gas, or liquefied natural gas, if the consumer uses the gas for transportation fuel as defined in RCW 82.16.310.

(7) There is a credit against the tax levied under this section in an amount equal to any tax paid by:

(a) The person who sold the gas to the consumer when that tax is a gross receipts tax similar to that imposed pursuant to RCW 82.16.020 by another state with respect to the gas for which a credit is sought under this subsection; or

(b) The person consuming the gas upon which a use tax similar to the tax imposed by this section was paid to another state with respect to the gas for which a credit is sought under this subsection.

(8) The use tax imposed in this section must be paid by the consumer to the department.

82.12.040 Retailers to collect tax—Penalty—Continuent expiration of subsection. (Effective until January 1, 2016.) (1) Every person who maintains in this state a place of business or a stock of goods, or engages in business activities within this state, shall obtain from the department a certificate of registration, and shall, at the time of making sales of tangible personal property, digital goods, digital codes, digital automated services, extended warranties, or sales of any service defined as a retail sale in RCW 82.04.050 (2) (a) or (g), (3)(a), or (6)(b), or making transfers of either possession or title, or both, of tangible personal property for use in this state, collect from the purchasers or transferees the tax imposed under this chapter. The tax to be collected under this section must be in an amount equal to the purchase price multiplied by the rate in effect for the retail sales tax under RCW 82.08.020. For the purposes of this chapter, the phrase "maintains in this state a place of business" shall include the solicitation of sales and/or taking of orders by sales agents or traveling representatives. For the purposes of this chapter, "engages in business activity within this state" includes every activity which is sufficient under the Constitution of the United States for this state to require collection of tax under this chapter. The department must in rules specify activities which constitute engaging in business activity within this state, and must keep the rules current with future court interpretations of the Constitution of the United States.

(2) Every person who engages in this state in the business of acting as an independent selling agent for persons who do not hold a valid certificate of registration, and who receives compensation by reason of sales of tangible personal property, digital goods, digital codes, digital automated services, extended warranties, or sales of any service defined as a retail sale in RCW 82.04.050 (2) (a) or (g), (3)(a), or (6)(b), of his or her principals for use in this state, must, at the time such sales are made, collect from the purchasers the tax imposed on the purchase price under this chapter, and for that purpose is deemed a retailer as defined in this chapter.

(3) The tax required to be collected by this chapter is deemed to be held in trust by the retailer until paid to the department, and any retailer who appropriates or converts the tax collected to the retailer's own use or to any use other than the payment of the tax provided herein to the extent that the money required to be collected is not available for payment on the due date as prescribed is guilty of a misdemeanor. In case any seller fails to collect the tax herein imposed or having collected the tax, fails to pay the same to the department in the manner prescribed, whether such failure is the result of the seller's own acts or the result of acts or conditions beyond the seller's control, the seller is nevertheless personally liable to the state for the amount of such tax, unless the seller has taken from the buyer a copy of a direct pay permit issued under RCW 82.32.087.

(4) Any retailer who refunds, remits, or rebates to a purchaser, or transferee, either directly or indirectly, and by whatever means, all or any part of the tax levied by this chapter is guilty of a misdemeanor.

(5) Notwithstanding subsections (1) through (4) of this section, any person making sales is not obligated to collect the tax imposed by this chapter if:

(a) The person's activities in this state, whether conducted directly or through another person, are limited to:

- (i) The storage, dissemination, or display of advertising;
- (ii) The taking of orders; or
- (iii) The processing of payments; and

(b) The activities are conducted electronically via a web site on a server or other computer equipment located in Washington that is not owned or operated by the person making sales into this state nor owned or operated by an affiliated person. "Affiliated persons" has the same meaning as provided in RCW 82.04.424.

(6) Subsection (5) of this section expires when: (a) The United States congress grants individual states the authority to impose sales and use tax collection duties on remote sellers; or (b) it is determined by a court of competent jurisdiction, in a judgment not subject to review, that a state can impose sales and use tax collection duties on remote sellers.

(7) Notwithstanding subsections (1) through (4) of this section, any person making sales is not obligated to collect the tax imposed by this chapter if the person would have been obligated to collect retail sales tax on the sale absent a specific exemption provided in chapter 82.08 RCW, and there is no corresponding use tax exemption in this chapter. Nothing in this subsection (7) may be construed as relieving purchasers from liability for reporting and remitting the tax due under this chapter directly to the department.

(8) Notwithstanding subsections (1) through (4) of this section, any person making sales is not obligated to collect the tax imposed by this chapter if the state is prohibited under the Constitution or laws of the United States from requiring the person to collect the tax imposed by this chapter.

(9) Notwithstanding subsections (1) through (4) of this section, any licensed dealer facilitating a firearm sale or transfer between two unlicensed persons by conducting background checks under chapter 9.41 RCW is not obligated to collect the tax imposed by this chapter. [2015 RCW Supp—page 1028]

reallocating motor vehicle excise taxes, the state revenue portion can be dedicated to increased transportation funding purposes. Since the general fund currently has a budget surplus, due to a strong economy, the legislature feels that this reallocation is an appropriate short-term solution to the state's transportation needs and is a first step in meeting longer-term transportation funding needs. These reallocated funds must be used to provide relief from traffic congestion, improve freight mobility, and increase traffic safety.

In reallocating general fund resources, the legislature also ensures that other programs funded from the general fund are not adversely impacted by the reallocation of surplus general fund revenues. The legislature also adopts this act to continue the general fund revenue and expenditure limitations contained in chapter 43.135 RCW after this one-time transfer of funds.

In order to develop a long-term and comprehensive solution to the state's transportation problems, a joint committee will be created to study the state's transportation needs and the appropriate sources of revenue necessary to implement the state's long-term transportation needs as provided in *section 22 of this act." [1998 c 321 § 1 (Referendum Bill No. 49, approved November 3, 1998).]

***Reviser's note:** Section 22 of this act was vetoed by the governor.

Purpose—Captions now law—1991 c 363: See notes following RCW 2.32.180.

Legislative finding, declaration—1971 ex.s. c 296: "The legislature finds that adequate public transportation systems are necessary to the economic, industrial and cultural development of the urban areas of this state and the health, welfare and prosperity of persons who reside or are employed in such areas or who engage in business therein and such systems are increasingly essential to the functioning of the urban highways of the state. The legislature further finds and declares that fares and tolls for the use of public transportation systems cannot maintain such systems in solvent financial conditions and at the same time meet the need to serve those who cannot reasonably afford or use other forms of transportation. The legislature further finds and declares that additional and alternate means of financing adequate public transportation service are necessary for the cities, metropolitan municipal corporations and counties of this state which provide such service." (d) Notwithstanding (a) through (c) of this subsection, moneys collected under this section may be used to support the cost of the judicial officer and support staff of a therapeutic court.

(5) Nothing in this section may be interpreted to prohibit the use of moneys collected under this section for the replacement of lapsed federal funding previously provided for the operation or delivery of services and programs as provided in this section. [2015 c 291 § 5; 2012 c 180 § 1; 2011 c 347 § 1; 2010 c 127 § 2; 2009 c 551 § 2; 2008 c 157 § 2; 2005 c 504 § 804.]

(1) Any city or county that has been approved for a project award under RCW 39.104.100 may impose a sales and use tax under the authority of this section in accordance with the terms of this chapter. Except as provided in this section, the tax is in addition to other taxes authorized by law and must be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the taxing jurisdiction of the city or county.

(2) The tax authorized under subsection (1) of this section is credited against the state taxes imposed under RCW 82.08.020(1) and 82.12.020 at the rate provided in RCW 82.08.020(1). The department must perform the collection of such taxes on behalf of the city or county at no cost to the city or county. The taxes must be distributed to cities and counties as provided in RCW 82.14.060.

(3) The rate of tax imposed by a city or county may not exceed the lesser of:

(a) The rate provided in RCW 82.08.020(1), less:

(i) The aggregate rates of all other local sales and use taxes imposed by any taxing authority on the same taxable events;

(ii) The aggregate rates of all taxes under RCW 82.14.465 and 82.14.475 and this section that are authorized but have not yet been imposed on the same taxable events by a city or county that has been approved to receive a state contribution by the department or the community economic revitalization board under chapter 39.104, 39.100, or 39.102 RCW; and

(iii) The percentage amount of distributions required under RCW 82.08.020(5) multiplied by the rate of state taxes imposed under RCW 82.08.020(1); and

(b) The rate, as determined by the city or county in consultation with the department, reasonably necessary to receive the project award under RCW 39.104.100 over ten months.

(4) The department, upon request, must assist a city or county in establishing its tax rate in accordance with subsection (3) of this section. Once the rate of tax is selected through the application process and approved under RCW 39.104.100, it may not be increased.

(5)(a) Except as provided in (c) and (d) of this subsection, no tax may be imposed under the authority of this section before:

(i) July 1, 2011;

(ii) July 1st of the second calendar year following the year in which the department approved the application made under RCW 39.104.100;

(iii) The state sales and use tax increment and state property tax increment for the preceding calendar year equal or exceed the amount of the project award approved by the department under RCW 39.104.100; and

(iv) Bonds have been issued according to RCW 39.104.110.

(b) The tax imposed under this section expires the earlier of the date that the bonds issued under the authority of RCW

39.104.110 are retired or twenty-five years after the tax is first imposed.

(c) For a demonstration project described in RCW 82.14.505(1)(a) except as provided in (d) of this subsection (5), no tax may be imposed under the authority of this section before:

(i) July 1, 2010; and

(ii) Bonds have been issued according to RCW 39.104.110.

(d) The requirement to issue bonds in (a)(iv) or (c)(ii) of this subsection (5) does not apply to demonstration projects authorized by RCW 82.14.505(1)(a)(iii), or any city receiving a project award under RCW 39.104.100 of less than one hundred fifty thousand dollars.

(6) An ordinance or resolution adopted by the legislative authority of the city or county imposing a tax under this section must provide that:

(a) The tax will first be imposed on the first day of a fiscal year;

(b) The cumulative amount of tax received by the city or county, in any fiscal year, may not exceed the amount approved by the department under subsection (10) of this section;

(c) The department must cease distributing the tax for the remainder of any fiscal year in which either:

(i) The amount of tax received by the city or county equals the amount of distributions approved by the department for the fiscal year under subsection (10) of this section; or

(ii) The amount of revenue distributed to all sponsoring and cosponsoring local governments from taxes imposed under this section equals the annual state contribution limit;

(d) The tax will be distributed again, should it cease to be distributed for any of the reasons provided in (c) of this subsection, at the beginning of the next fiscal year, subject to the restrictions in this section; and

(e) The state is entitled to any revenue generated by the tax in excess of the amounts specified in (c) of this subsection.

(7) If a city or county receives approval for more than one revitalization area within its jurisdiction, the city or county may impose a sales and use tax under this section for each revitalization area.

(8) The department must determine the amount of tax receipts distributed to each city and county imposing a sales and use tax under the authority of this section and must advise a city or county when tax distributions for the fiscal year equal the amount determined by the department in subsection (10) of this section. Determinations by the department of the amount of tax distributions attributable to a city or county are not appealable. The department must remit any tax receipts in excess of the amounts specified in subsection (6)(c) of this section to the state treasurer who must deposit the money in the general fund.

(9) If a city or county fails to comply with RCW 82.32.765, no tax may be distributed in the subsequent fiscal year until such time as the city or county complies and the department calculates the state contribution amount according to subsection (10) of this section for the fiscal year.

(10)(a) For each fiscal year that a city or county imposes the tax under the authority of this section, the department

must approve the amount of taxes that may be distributed to the city or county. The amount approved by the department under this subsection is the lesser of:

- (i) The state contribution;
- (ii) The amount of project award granted by the department as provided in RCW 39.104.100; or
- (iii) The total amount of revenues from local public sources dedicated or, in the case of carry forward revenues, deemed dedicated in the preceding calendar year, as reported in the required annual report under RCW 82.32.765.

(b) A city or county may not receive, in any fiscal year, more revenues from taxes imposed under the authority of this section than the amount approved annually by the department.

(11) The amount of tax distributions received from taxes imposed under the authority of this section by all cities and counties is limited annually to not more than the amount of annual state contribution limit.

(12) The definitions in RCW 39.104.020 apply to this section subject to subsection (13) of this section and unless the context clearly requires otherwise.

(13) For purposes of this section, the following definitions apply:

The legislative authority of the county or city may impose the sales and use tax by ordinance and must condition its imposition on the specific authorization of a majority of the voters voting on a proposition submitted at a special or general election held after June 30, 2016. The title of each ballot measure must clearly state the purposes for which the proposed sales and use tax will be used. The rate of tax under this section may not exceed one-tenth of one percent of the selling price in the case of a sales tax, or value of the article used, in the case of a use tax.

Tax preference performance statement—2015 3rd sp.s. c 6 §§ 702 and 703: "This section is the tax preference performance statement for the tax preference contained in sections 702 and 703 of this act. This performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(1) The legislature categorizes this tax preference as one intended to provide tax relief for certain businesses or individuals, as indicated in RCW 82.32.808(2)(e).

(2) It is the legislature's specific public policy objective to support the forest products industry due in part to the industry's efforts to support the local economy by focusing on Washington state based resources thereby reducing global environmental impacts through the manufacturing and use of wood. It is the legislature's intent to provide the forest products industry permanent tax relief by lowering the public utility tax rate attributable to log transportation businesses. Because this reduced public utility rate is intended to be permanent, the reduced rate established in this Part VII is not subject to the ten-year expiration provision in RCW 82.32.805(1)(a)." [2015 3rd sp.s. c 6 § 701.]

Effective date—2015 3rd sp.s. c 6 §§ 702 and 703: "Part VII of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect August 1, 2015." [2015 3rd sp.s. c 6 § 2302.]

Expiration date—2009 c 469 §§ 701 and 702: "Sections 701 and 702 of this act expire June 30, 2013." [2009 c 469 § 905.]

Findings—Intent—2007 c 6: See note following RCW 82.14.495.

Finding, purpose—1989 c 302: See note following RCW 82.04.120.

Intent—1981 c 144: "The legislature recognizes that there have been significant changes in the nature of the telephone business in recent years. Once solely the domain of regulated monopolies, the telephone business has now been opened up to competition with respect to most of its services and equipment. As a result of this competition, the state and local excise tax structure in the state of Washington has become discriminatory when applied to regulated telephone company transactions that are similar in nature to those consummated by nonregulated competitors. Telephone companies are

forced to operate at a significant state and local tax disadvantage when compared to these nonregulated competitors.

To remedy this situation, it is the intent of the legislature to place telephone companies and nonregulated competitors of telephone companies on an equal excise tax basis with regard to the providing of similar goods and services. Therefore competitive telephone services shall for excise tax purposes only, unless otherwise provided, be treated as retail sales under the applicable state and local business and occupation and sales and use taxes. This shall not affect any requirement that regulated telephone companies have under Title 80 RCW, unless otherwise provided.

Nothing in this act affects the authority and responsibility of the Washington utilities and transportation commission to set fair, just, reasonable, and sufficient rates for telephone service." [1981 c 144 § 1.]

82.16.0496 Credit—Clean alternative fuel commercial vehicles. (1)(a) A person who is taxable under this chapter is allowed a credit against the tax imposed in this chapter according to the gross vehicle weight rating of the vehicle and the incremental cost of the vehicle purchased above the purchase price of a comparable conventionally fueled vehicle. The credit is limited, as set forth in the table below, to the lesser of the incremental cost amount or the maximum credit amount per vehicle purchased, and subject to a maximum annual credit amount per vehicle class.

alternative fuel with a United States environmental protection agency certified conversion.

(3) The total credits under this section may not exceed two hundred fifty thousand dollars or twenty-five vehicles per person per calendar year.

(4) A person may not receive credit under this section for amounts claimed as credits under chapter 82.04 RCW.

(5) Credits are available on a first-in-time basis. The department must disallow any credits, or portion thereof, that would cause the total amount of credits claimed under this section, and RCW 82.04.4496, during any calendar year to exceed six million dollars. The department must provide notification on its web site monthly on the amount of credits that

have been applied for, the amount issued, and the amount remaining before the statewide annual limit is reached. In addition, the department must provide written notice to any person who has applied to claim tax credits in excess of the limitation in this subsection.

(6) For the purposes of the limits provided in this section, a credit must be counted against such limits for the calendar year in which the credit is earned.

(7) To claim a credit under this section a person must electronically file with the department all returns, forms, and any other information required by the department, in an electronic format as provided or approved by the department. No refunds may be granted for credits under this section.

(8) To claim a credit under this section, the person applying must:

(a) Complete an application for the credit which must include:

(i) The name, business address, and tax identification number of the applicant;

(iii) The type of alternative fuel to be used by the vehicle;

(iv) The incremental cost of the alternative fuel system;

(v) The anticipated delivery date of the vehicle;

(vi) The estimated annual fuel use of the vehicle in its anticipated duties;

(vii) The gross weight of the vehicle; and

(viii) Any other information deemed necessary by the department to support administration or reporting of the program.

(b) Within fifteen days of notice of credit availability from the department, provide notice of intent to claim the credit including:

(i) A copy of the order for the vehicle, including the total cost for the vehicle;

(ii) The anticipated delivery date of the vehicle, which must be within one hundred twenty days of acceptance of the credit; and

(iii) Any other information deemed necessary by the department to support administration or reporting of the program.

(c) Provide final documentation within fifteen days of receipt of the vehicle, including:

(i) A copy of the final invoice for the vehicle;

(ii) A copy of the factory build sheet or equivalent documentation;

(iii) The vehicle identification number of the vehicle;

(iv) The incremental cost of the alternative fuel system;

(v) Attestations signed by both the seller and purchaser of the vehicle attesting that the incremental cost of the alternative fuel system includes only the costs necessary for the vehicle to run on alternative fuel and no other vehicle options, equipment, or costs; and

(vi) Any other information deemed necessary by the department to support administration or reporting of the program.

(9) To administer the credits, the department must, at a minimum:

(a) Provide notification on its web site monthly of the amount of credits that have been applied for, claimed, and the

amount remaining before the statewide annual limit is reached;

(b) Within fifteen days of receipt of the application, notify persons applying of the availability of tax credits in the year in which the vehicles applied for are anticipated to be delivered;

(c) Within fifteen days of receipt of the notice of intent to claim the tax credit, notify the applicant of the approval, denial, or missing information in their notice; and

(d) Within fifteen days of receipt of final documentation, review the documentation and notify the person applying of the acceptance of their final documentation.

(10) If a person fails to supply the information as required in subsection (8) of this section, the department must deny the application.

(11)(a) Taxpayers are only eligible for a credit under this section based on:

(i) Sales, but not leases, of new commercial vehicles and qualifying used commercial vehicles with propulsion units that are principally powered by a clean alternative fuel; or

(ii) Costs to modify a commercial vehicle, including sales of tangible personal property incorporated into the vehicle and labor or service expenses incurred in modifying the vehicle, to be principally powered by a clean alternative fuel.

(b) A credit is earned when qualifying purchases are made.

(12) The definitions in RCW 82.04.4496 apply to this section.

(13) A credit earned during one calendar year may be carried over to be credited against taxes incurred in the subsequent calendar year, but may not be carried over a second year.

(14)(a) Beginning November 25, 2015, and on the 25th of February, May, August, and November of each year thereafter, the department must notify the state treasurer of the amount of credits taken under this section as reported on returns filed with the department during the preceding calendar quarter ending on the last day of December, March, June, and September, respectively.

(b) On the last day of March, June, September, and December of each year, the state treasurer, based upon information provided by the department, must transfer a sum equal to the dollar amount of the credit provided under this section from the multimodal transportation account to the general fund.

(15) Credits may be earned under this section from January 1, 2016, through January 1, 2021.

(16) Credits earned under this section may not be used after January 1, 2022. [2015 3rd sp.s. c 44 § 412.]

82.16.0499 Credit—Businesses that hire veterans. (Effective October 1, 2016, until July 1, 2023.) (1) A person is allowed a credit against the tax due under this chapter as provided in this section. The credit equals twenty percent of wages and benefits paid to or on behalf of a qualified employee up to a maximum of one thousand five hundred

dollars for each qualified employee hired on or after October 1, 2016.

(2) No credit may be claimed under this section until a qualified employee has been employed for at least two consecutive full calendar quarters.

(3) Credits are available on a first-in-time basis. The department must keep a running total of all credits allowed under this section and RCW 82.04.4498 during each fiscal year. The department may not allow any credits that would cause the total credits allowed under this section and RCW 82.04.4498 to exceed five hundred thousand dollars in any fiscal year. If all or part of a claim for credit is disallowed under this subsection, the disallowed portion is carried over to the next fiscal year. However, the carryover into the next fiscal year is only permitted to the extent that the cap for the next fiscal year is not exceeded. Priority must be given to credits carried over from a previous fiscal year. The department must provide written notice to any person who has claimed tax credits in excess of the limitation in this subsection. The notice must indicate the amount of tax due and provide that the tax be paid within thirty days from the date of the notice. The department may not assess penalties and interest as provided in chapter 82.32 RCW on the amount due in the initial notice if the amount due is paid by the due date specified in the notice, or any extension thereof.

(4) The credit may be used against any tax due under this chapter, and may be carried over until used, except as provided in subsection (9) of this section. No refunds may be granted for credits under this section.

(5) If an employer discharges a qualified employee for whom the employer has claimed a credit under this section, the employer may not claim a new credit under this section for a period of one year from the date the qualified employee was discharged. However, this subsection (5) does not apply if the qualified employee was discharged for misconduct, as defined in RCW 50.04.294, connected with his or her work or discharged due to a felony or gross misdemeanor conviction, and the employer contemporaneously documents the reason for discharge.

(6) Credits earned under this section may be claimed only on returns filed electronically with the department using the department's online tax filing service or other method of electronic reporting as the department may authorize. No application is required to claim the credit, but the taxpayer must keep records necessary for the department to determine eligibility under this section including records establishing the person's status as a veteran and status as unemployed when hired by the taxpayer.

(7) No person may claim a credit against taxes due under both chapter 82.04 RCW and this chapter for the same qualified employee.

(8) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a)(i) "Qualified employee" means an unemployed veteran who is employed in a permanent full-time position for at least two consecutive full calendar quarters. For seasonal employers, "qualified employee" also includes the equivalent of a full-time employee in work hours for two consecutive full calendar quarters.

(ii) For purposes of this subsection (8)(a), "full time" means a normal work week of at least thirty-five hours.

(b) "Unemployed" means that the veteran was unemployed as defined in RCW 50.04.310 for at least thirty days immediately preceding the date that the veteran was hired by the person claiming credit under this section for hiring the veteran.

(c) "Veteran" means every person who has received an honorable discharge or received a general discharge under honorable conditions or is currently serving honorably, and who has served as a member in any branch of the armed forces of the United States, including the national guard and armed forces reserves.

(9) Credits allowed under this section can be earned for tax reporting periods through June 30, 2022. No credits can be claimed after June 30, 2023.

(10) This section expires July 1, 2023. [2015 3rd sp.s. c 6 § 1003.]

Chapter 82.21 RCW
HAZARDOUS SUBSTANCE TAX—
MODEL TOXICS CONTROL ACT

Sections

82.21.040 Exemptions.

82.21.040 Exemptions. The following are exempt from the tax imposed in this chapter:

(1) Any successive possession of a previously taxed hazardous substance. If tax due under this chapter has not been paid with respect to a hazardous substance, the department may collect the tax from any person who has had possession of the hazardous substance. If the tax is paid by any person other than the first person having taxable possession of a hazardous substance, the amount of tax paid shall constitute a debt owed by the first person having taxable possession to the person who paid the tax.

(2) Any possession of a hazardous substance by a natural person under circumstances where the substance is used, or is to be used, for a personal or domestic purpose (and not for any business purpose) by that person or a relative of, or person residing in the same dwelling as, that person.

(3) Any possession of a hazardous substance amount which is determined as minimal by the department of ecology and which is possessed by a retailer for the purpose of making sales to ultimate consumers. This exemption does not apply to pesticide or petroleum products.

(4) Any possession of alumina or natural gas.

(5)(a) Any possession of a hazardous substance as defined in RCW 82.21.020(1)(c) that is solely for use by a farmer or certified applicator as an agricultural crop protection product and warehoused in this state or transported to or from this state, provided that the person possessing the substance does not otherwise use, manufacture, package for sale, or sell the substance in this state.

(b) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(i) "Agricultural crop protection product" means a chemical regulated under the federal insecticide, fungicide, and rodenticide act, 7 U.S.C. Sec. 136 as amended as of September 1, 2015, when used to prevent, destroy, repel, mitigate, or control predators, diseases, weeds, or other pests.

(ii) "Certified applicator" has the same meaning as provided in RCW 17.21.020.

(iii) "Farmer" has the same meaning as in RCW 82.04.213.

(iv) "Manufacturing" includes mixing or combining agricultural crop protection products with other chemicals or other agricultural crop protection products.

(v) "Package for sale" includes transferring agricultural crop protection products from one container to another, including the transfer of fumigants and other liquid or gaseous chemicals from one tank to another.

(vi) "Use" has the same meaning as in RCW 82.12.010.

(6) Persons or activities which the state is prohibited from taxing under the United States Constitution. [2015 3rd

sp.s. c 6 § 1902; 1989 c 2 § 11 (Initiative Measure No. 97, approved November 8, 1988).]

Tax preference performance statement—2015 3rd sp.s. c 6 § 1902: "(1) The legislature categorizes the tax preference in section 1902 of this act as one intended to improve industry competitiveness, as indicated in RCW 82.32.808(2)(b).

(2) The legislature's specific public policy objective is to clarify an existing exemption from the hazardous substance tax for agricultural crop protection products to incentivize storing products in Washington state as they are engaged in interstate commerce. The legislature finds that the agricultural industry is a vital component of Washington's economy, providing thousands of jobs throughout the state. The legislature further finds that Washington state is the ideal location for distribution centers for agricultural crop protection products because Washington is an efficient transportation hub for Pacific Northwest farmers, and encourages crop protection products to be managed in the most protective facilities, and transported using the most sound environmental means. However, products being warehoused in the state are diminishing because agricultural crop protection products are being redirected to out-of-state distribution centers as a direct result of Washington's tax burden. Relocation of this economic activity is detrimental to Washington's economy through the direct loss of jobs and hazardous substance tax revenue, thereby negatively impacting the supply chain for Washington farmers, thereby causing increased transportation usage and risk of spillage, thereby failing to encourage the most environmentally protective measures. Therefore, it is the intent of the legislature to encourage the regional competitiveness of agricultural distribution by clarifying an exemption from the hazardous substance tax for agricultural crop protection products that are manufactured out-of-state, warehoused or transported into the state, but ultimately shipped and sold out of Washington state.

(3) If a review finds an average increase in revenue of the hazardous substance tax, then the legislature intends to extend the expiration date of the tax preference.

(4) In order to obtain the data necessary to perform the review in subsection (3) of this section, the joint legislative audit and review committee may refer to data available from the department of revenue." [2015 3rd sp.s. c 6 § 1901.]

82.23B.020 Oil spill response tax—Oil spill administration tax. (1) An oil spill response tax is imposed on the privilege of receiving: (a) Crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state; or (b) crude oil or petroleum products at a bulk oil terminal within this state from a tank car. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine or bulk oil terminal from a tank car or waterborne vessel or barge at the rate of one cent per barrel of crude oil or petroleum product received.

(2) In addition to the tax imposed in subsection (1) of this section, an oil spill administration tax is imposed on the privilege of receiving: (a) Crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state; or (b) crude oil or petroleum products at a bulk oil terminal within this state from a tank car. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine or bulk oil terminal from a tank car or waterborne vessel or barge at the rate of four cents per barrel of crude oil or petroleum product.

(3) The taxes imposed by this chapter must be collected by the marine or bulk oil terminal operator from the taxpayer. If any person charged with collecting the taxes fails to bill the taxpayer for the taxes, or in the alternative has not notified the taxpayer in writing of the taxes imposed, or having collected the taxes, fails to pay them to the department in the manner prescribed by this chapter, whether such failure is the result

of the person's own acts or the result of acts or conditions beyond the person's control, he or she, nevertheless, is personally liable to the state for the amount of the taxes. Payment of the taxes by the owner to a marine or bulk oil terminal operator relieves the owner from further liability for the taxes.

(4) Taxes collected under this chapter must be held in trust until paid to the department. Any person collecting the taxes who appropriates or converts the taxes collected is guilty of a gross misdemeanor if the money required to be collected is not available for payment on the date payment is due. The taxes required by this chapter to be collected must be stated separately from other charges made by the marine or bulk oil terminal operator in any invoice or other statement of account provided to the taxpayer.

(5) If a taxpayer fails to pay the taxes imposed by this chapter to the person charged with collection of the taxes and the person charged with collection fails to pay the taxes to the department, the department may, in its discretion, proceed directly against the taxpayer for collection of the taxes.

(6) The taxes are due from the marine or bulk oil terminal operator, along with reports and returns on forms prescribed by the department, within twenty-five days after the end of the month in which the taxable activity occurs.

(7) The amount of taxes, until paid by the taxpayer to the marine or bulk oil terminal operator or to the department, constitutes a debt from the taxpayer to the marine or bulk oil terminal operator. Any person required to collect the taxes under this chapter who, with intent to violate the provisions of this chapter, fails or refuses to do so as required and any taxpayer who refuses to pay any taxes due under this chapter, is guilty of a misdemeanor as provided in chapter 9A.20 RCW.

(8) Upon prior approval of the department, the taxpayer may pay the taxes imposed by this chapter directly to the department. The department must give its approval for direct payment under this section whenever it appears, in the department's judgment, that direct payment will enhance the administration of the taxes imposed under this chapter. The department must provide by rule for the issuance of a direct payment certificate to any taxpayer qualifying for direct payment of the taxes. Good faith acceptance of a direct payment certificate by a terminal operator relieves the marine or bulk oil terminal operator from any liability for the collection or payment of the taxes imposed under this chapter.

(9) All receipts from the tax imposed in subsection (1) of this section must be deposited into the state oil spill response account. All receipts from the tax imposed in subsection (2) of this section shall be deposited into the oil spill prevention account.

(10) Within forty-five days after the end of each calendar quarter, the office of financial management must determine the balance of the oil spill response account as of the last day of that calendar quarter. Balance determinations by the office of financial management under this section are final and may not be used to challenge the validity of any tax imposed under this chapter. The office of financial management must promptly notify the departments of revenue and ecology of the account balance once a determination is made. For each subsequent calendar quarter, the tax imposed by subsection

(1) of this section shall be imposed during the entire calendar quarter unless:

(a) Tax was imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than nine million dollars; or

(b) Tax was not imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than eight million dollars. 82.29A.020 Definitions. (*Effective January 1, 2019, until January 1, 2022.*) The definitions in this section apply throughout this chapter unless the context requires otherwise.

(1)(a) "Leasehold interest" means an interest in publicly owned, or specified privately owned, real or personal property which exists by virtue of any lease, permit, license, or any other agreement, written or verbal, between the owner of the property and a person who would not be exempt from property taxes if that person owned the property in fee, granting possession and use, to a degree less than fee simple ownership. However, no interest in personal property (excluding land or buildings) which is owned by the United States, whether or not as trustee, or by any foreign government may constitute a leasehold interest hereunder when the right to use such property is granted pursuant to a contract solely for the manufacture or production of articles for sale to the United States or any foreign government. The term "leasehold interest" includes the rights of use or occupancy by others of property which is owned in fee or held in trust by a public corporation, commission, or authority created under RCW 35.21.730 or 35.21.660 if the property is listed on or is within a district listed on any federal or state register of historical sites.

(b) The term "leasehold interest" does not include:

(i) Road or utility easements, rights of access, occupancy, or use granted solely for the purpose of removing materials or products purchased from an owner or the lessee of an owner, or rights of access, occupancy, or use granted solely for the purpose of natural energy resource exploration; or

(ii) The preferential use of publicly owned cargo cranes and docks and associated areas used in the loading and discharging of cargo located at a port district marine facility. "Preferential use" means that publicly owned real or personal property is used by a private party under a written agreement with the public owner, but the public owner or any third party maintains a right to use the property when not being used by the private party.

(2)(a) "Taxable rent" means contract rent as defined in (c) of this subsection in all cases where the lease or agreement has been established or renegotiated through competitive bidding, or negotiated or renegotiated in accordance with statutory requirements regarding the rent payable, or negotiated or renegotiated under circumstances, established by public record, clearly showing that the contract rent was the maximum attainable by the lessor. With respect to a leasehold interest in privately owned property, "taxable rent" means contract rent. However, after January 1, 1986, with respect to any lease which has been in effect for ten years or more without renegotiation, taxable rent may be established by procedures set forth in (g) of this subsection. All other leasehold interests are subject to the determination of taxable rent under the terms of (g) of this subsection.

(b) For purposes of determining leasehold excise tax on any lands on the Hanford reservation subleased to a private or public entity by the department of ecology, taxable rent

includes only the annual cash rental payment made by such entity to the department of ecology as specifically referred to as rent in the sublease agreement between the parties and does not include any other fees, assessments, or charges imposed on or collected by such entity irrespective of whether the private or public entity pays or collects such other fees, assessments, or charges as specified in the sublease agreement.

(c) "Contract rent" means the amount of consideration due as payment for a leasehold interest, including: The total of cash payments made to the lessor or to another party for the benefit of the lessor according to the requirements of the lease or agreement, including any rents paid by a sublessee; expenditures for the protection of the lessor's interest when required by the terms of the lease or agreement; and expenditures for improvements to the property to the extent that such improvements become the property of the lessor. Where the consideration conveyed for the leasehold interest is made in combination with payment for concession or other rights granted by the lessor, only that portion of such payment which represents consideration for the leasehold interest is part of contract rent.

(d) "Contract rent" does not include: (i) Expenditures made by the lessee, which under the terms of the lease or agreement, are to be reimbursed by the lessor to the lessee or expenditures for improvements and protection made pursuant to a lease or an agreement which requires that the use of the improved property be open to the general public and that no profit will inure to the lessee from the lease; (ii) expenditures made by the lessee for the replacement or repair of facilities due to fire or other casualty including payments for insurance to provide reimbursement for losses or payments to a public or private entity for protection of such property from damage or loss or for alterations or additions made necessary by an action of government taken after the date of the execution of the lease or agreement; (iii) improvements added to publicly owned property by a sublessee under an agreement executed prior to January 1, 1976, which have been taxed as personal property of the sublessee prior to January 1, 1976, or improvements made by a sublessee of the same lessee under a similar agreement executed prior to January 1, 1976, and such improvements are taxable to the sublessee as personal property; (iv) improvements added to publicly owned property if such improvements are being taxed as personal property to any person.

(e) Any prepaid contract rent is considered to have been paid in the year due and not in the year actually paid with respect to prepayment for a period of more than one year. Expenditures for improvements with a useful life of more than one year which are included as part of contract rent must be treated as prepaid contract rent and prorated over the useful life of the improvement or the remaining term of the lease or agreement if the useful life is in excess of the remaining term of the lease or agreement. Rent prepaid prior to January 1, 1976, must be prorated from the date of prepayment.

(f) With respect to a "product lease," the value is that value determined at the time of sale under terms of the lease.

(g) If it is determined by the department of revenue, upon examination of a lessee's accounts or those of a lessor of publicly owned property, that a lessee is occupying or using publicly owned property in such a manner as to create a leasehold

interest and that such leasehold interest has not been established through competitive bidding, or negotiated in accordance with statutory requirements regarding the rent payable, or negotiated under circumstances, established by public record, clearly showing that the contract rent was the maximum attainable by the lessor, the department may establish a taxable rent computation for use in determining the tax payable under authority granted in this chapter based upon the following criteria: (i) Consideration must be given to rental being paid to other lessors by lessees of similar property for similar purposes over similar periods of time; (ii) consideration must be given to what would be considered a fair rate of return on the market value of the property leased less reasonable deductions for any restrictions on use, special operating requirements or provisions for concurrent use by the lessor, another person or the general public.

(3) "Product lease" as used in this chapter means a lease of property for use in the production of agricultural or marine products, not including the production of marijuana as defined in RCW 69.50.101, to the extent that such lease provides for the contract rent to be paid by the delivery of a stated percentage of the production of such agricultural or marine products to the credit of the lessor or the payment to the lessor of a stated percentage of the proceeds from the sale of such products.

(4) "Renegotiated" means a change in the lease agreement which changes the agreed time of possession, restrictions on use, the rate of the cash rental or of any other consideration payable by the lessee to or for the benefit of the lessor, other than any such change required by the terms of the lease or agreement. In addition "renegotiated" means a continuation of possession by the lessee beyond the date when, under the terms of the lease agreement, the lessee had the right to vacate the premises without any further liability to the lessor.

(5) "City" means any city or town.

(6) "Products" includes natural resource products such as cut or picked evergreen foliage, Cascara bark, wild edible mushrooms, native ornamental trees and shrubs, ore and minerals, natural gas, geothermal water and steam, and forage removed through the grazing of livestock.

(7) "Publicly owned, or specified privately owned, real or personal property" includes real or personal property:

(a) Owned in fee or held in trust by a public entity and exempt from property tax under the laws or Constitution of this state or the Constitution of the United States;

(b) Owned by a federally recognized Indian tribe in the state and exempt from property tax under RCW 84.36.010;

(c) Owned by a nonprofit fair association exempt from property tax under RCW 84.36.480(2), but only with respect to that portion of the fair's property subject to the tax imposed in this chapter pursuant to RCW 84.36.480(2)(b); or

(d) Owned by a community center exempt from property tax under RCW 84.36.010. [2015 3rd sp.s. c 6 § 2003. Prior: 2014 c 207 § 3; 2014 c 140 § 26; 2012 2nd sp.s. c 6 § 501; 1999 c 220 § 2; 1991 c 272 § 23; 1986 c 285 § 1; 1979 ex.s. c 196 § 11; 1975-'76 2nd ex.s. c 61 § 2.]

82.32.865	Nonresident vessel permit. (<i>Expires July 1, 2019.</i>)

82.32.020 Definitions. For the purposes of this chapter:

(1) The meaning attributed in chapters 82.01 through 82.27 RCW to the words and phrases "tax year," "taxable year," "person," "company," "gross proceeds of sales," "gross income of the business," "business," "engaging in business," "successor," "gross operating revenue," "gross income," "taxpayer," "retail sale," "seller," "buyer," "purchaser," "extended warranty," and "value of products" apply equally to the provisions of this chapter.

(2) Unless the context clearly requires otherwise, the term "tax" includes any monetary exaction, regardless of its label, that the department is responsible for collecting, but not including interest, penalties, the surcharge imposed in RCW 40.14.027, or fees incurred by the department and recouped from taxpayers.

(3) Whenever "property" or "personal property" is used, those terms must be construed to include digital goods and digital codes unless: (a) It is clear from the context that the term "personal property" is intended only to refer to tangible personal property; (b) it is clear from the context that the term "property" is intended only to refer to tangible personal property, real property, or both; or (c) to construe the term "property" or "personal property" as including digital goods and digital codes would yield unlikely, absurd, or strained consequences.

(4) The definitions in this subsection apply throughout this chapter, unless the context clearly requires otherwise.

(a) "Agreement" means the streamlined sales and use tax agreement.

(b) "Associate member" means a petitioning state that is found to be in compliance with the agreement and changes to its laws, rules, or other authorities necessary to bring it into compliance are not in effect, but are scheduled to take effect on or before January 1, 2008. The petitioning states, by majority vote, may also grant associate member status to a petitioning state that does not receive an affirmative vote of three-fourths of the petitioning states upon a finding that the state has achieved substantial compliance with the terms of the agreement as a whole, but not necessarily each required provision, measured qualitatively, and there is a reasonable expectation that the state will achieve compliance by January 1, 2008.

(c) "Certified automated system" means software certified under the agreement to calculate the tax imposed by each jurisdiction on a transaction, determine the amount of tax to remit to the appropriate state, and maintain a record of the transaction.

(d) "Certified service provider" means an agent certified under the agreement to perform all of the seller's sales and

use tax functions, other than the seller's obligation to remit tax on its own purchases.

(e)(i) "Member state" means a state that:

(A) Has petitioned for membership in the agreement and submitted a certificate of compliance; and

(B) Before the effective date of the agreement, has been found to be in compliance with the requirements of the agreement by an affirmative vote of three-fourths of the other petitioning states; or

(C) After the effective date of the agreement, has been found to be in compliance with the agreement by a three-fourths vote of the entire governing board of the agreement.

(ii) Membership by reason of (e)(i)(A) and (B) of this subsection is effective on the first day of a calendar quarter at least sixty days after at least ten states comprising at least twenty percent of the total population, as determined by the 2000 federal census, of all states imposing a state sales tax have petitioned for membership and have either been found in compliance with the agreement or have been found to be an associate member under section 704 of the agreement.

(iii) Membership by reason of (e)(i)(A) and (C) of this subsection is effective on the state's proposed date of entry or the first day of the calendar quarter after its petition is approved by the governing board, whichever is later, and is at least sixty days after its petition is approved.

(f) "Model 1 seller" means a seller that has selected a certified service provider as its agent to perform all the seller's sales and use tax functions, other than the seller's obligation to remit tax on its own purchases.

(g) "Model 2 seller" means a seller that has selected a certified automated system to perform part of its sales and use tax functions, but retains responsibility for remitting the tax.

(h) "Model 3 seller" means a seller that has sales in at least five member states, has total annual sales revenue of at least five hundred million dollars, has a proprietary system that calculates the amount of tax due each jurisdiction, and has entered into a performance agreement with the member states that establishes a tax performance standard for the seller. As used in this subsection (4)(h), a seller includes an affiliated group of sellers using the same proprietary system.

(i) "Source" means the location in which the sale or use of tangible personal property, a digital good or digital code, an extended warranty, or a digital automated service or other service, subject to tax under chapter 82.08, 82.12, 82.14, or 82.14B RCW, is deemed to occur. 82.32.070 Records to be preserved—Examination—Estoppel to question assessment—Unified business identifier account number records. (1) Every taxpayer liable for any tax collected by the department must keep and preserve, for a period of five years, suitable records as may be necessary to determine the amount of any tax for which the taxpayer may be liable. Such records must include copies of all of the taxpayer's federal income tax and state tax returns and reports. All of the taxpayer's books, records, and invoices must be open for examination at any time by the department of revenue. In the case of an out-of-state taxpayer that does not keep the necessary books and records within this state, it is sufficient if the taxpayer produces within the state such books and records as are required by the department of revenue, or permits the examination by an agent authorized or designated by the department of revenue at the place where such books and records are kept. Any taxpayer who fails to comply with the requirements of this section is forever barred from questioning, in any court action or proceedings, the correctness of any assessment of taxes made by the department of revenue based upon any period for which such books, records, and invoices have not been so kept and preserved.

(2) A person liable for any fee or tax imposed by chapters 82.04 through 82.27 RCW who contracts with another person or entity for work subject to chapter 18.27 or 19.28 RCW must obtain and preserve a record of the unified business identifier account number for the person or entity performing the work. Failure to obtain or maintain the record is subject to RCW 39.06.010 and to a penalty determined by the director, but not to exceed two hundred fifty dollars. The department must notify the taxpayer and collect the penalty in the same manner as penalties under RCW 82.32.100. 82.32.080 Payment by check—Electronic funds transfer—Rules—Mailing returns or remittances—Time extension—Deposits—Time extension during state of emergency—Records—Payment must accompany return. (1) When authorized by the department, payment of the tax may be made by uncertified check under such rules as the department prescribes, but, if a check so received is not paid by the bank on which it is drawn, the taxpayer, by whom such check is tendered, will remain liable for payment of the tax and for all legal penalties and interest, the same as if such check had not been tendered.

(2)(a) Except as otherwise provided in this subsection, payment of the tax must be made by electronic funds transfer, as defined in RCW 82.32.085. As an alternative to electronic funds transfer, the department may authorize other forms of electronic payment, such as payment by credit card. All taxes

administered by this chapter are subject to this requirement, except that the department may exclude any taxes not reported on the combined excise tax return or any successor return from the electronic payment requirement in this subsection.

(b) The department may waive the electronic payment requirement in this subsection for any taxpayer or class of taxpayers, for good cause or for whom the department has assigned a reporting frequency that is less than quarterly. In the discretion of the department, a waiver under this subsection may be made temporary or permanent, and may be made on the department's own motion.

(c) The department is authorized to accept payment of taxes by electronic funds transfer or other acceptable forms of electronic payment from taxpayers that are not subject to the mandatory electronic payment requirements in this subsection.

(3)(a) Except as otherwise provided in this subsection, returns must be filed electronically using the department's online tax filing service or other method of electronic reporting as the department may authorize.

(b) The department may waive the electronic filing requirement in this subsection for any taxpayer or class of taxpayers, for good cause or for whom the department has assigned a reporting frequency that is less than quarterly. In the discretion of the department, a waiver under this subsection may be made temporary or permanent, and may be made on the department's own motion.

(c) The department is authorized to allow electronic filing of returns from taxpayers that are not subject to the mandatory electronic filing requirements in this subsection.

(4)(a)(i) The department, for good cause shown, may extend the time for making and filing any return, and may grant such reasonable additional time within which to make and file returns as it may deem proper, but any permanent extension granting the taxpayer a reporting date without penalty more than ten days beyond the due date, and any extension in excess of thirty days must be conditional on deposit with the department of an amount to be determined by the department which is approximately equal to the estimated tax liability for the reporting period or periods for which the extension is granted. In the case of a permanent extension or a temporary extension of more than thirty days the deposit must be deposited within the state treasury with other tax funds and a credit recorded to the taxpayer's account which may be applied to taxpayer's liability upon cancellation of the permanent extension or upon reporting of the tax liability where an extension of more than thirty days has been granted.

(ii) The department must review the requirement for deposit at least annually and may require a change in the amount of the deposit required when it believes that such amount does not approximate the tax liability for the reporting period or periods for which the extension is granted.

(b) During a state of emergency declared under RCW 43.06.010(12), the department, on its own motion or at the request of any taxpayer affected by the emergency, may extend the time for making or filing any return as the department deems proper. The department may not require any deposit as a condition for granting an extension under this subsection (4)(b).

(5)(a) The department must keep full and accurate records of all funds received and disbursed by it. Subject to the provisions of RCW 82.32.105, 82.32.052, and 82.32.350, the department must apply the payment of the taxpayer in the following order, without regard to any direction of the taxpayer: (i) Interest; (ii) penalties; (iii) fees that are not within the definition of tax in RCW 82.32.020; (iv) other nontax amounts; (v) taxes, except spirits taxes; and (vi) spirits taxes.

(b) For purposes of this subsection, "spirits taxes" has the same meaning as in RCW 82.08.155.

(6) The department may refuse to accept any return that is not accompanied by a remittance of the tax shown to be due thereon or that is not filed electronically as required in this section. When such return is not accepted, the taxpayer is deemed to have failed or refused to file a return and is subject to the procedures provided in RCW 82.32.100 and to the penalties provided in RCW 82.32.090. The above authority to refuse to accept a return may not apply when a return is timely filed electronically and a timely payment has been made by electronic funds transfer or other form of electronic payment as authorized by the department.

(7) Except for returns and remittances required to be transmitted to the department electronically under this section and except as otherwise provided in this chapter, a return or remittance that is transmitted to the department by United States mail is deemed filed or received on the date shown by the post office cancellation mark stamped upon the envelope containing it. A return or remittance that is transmitted to the department electronically is deemed filed or received according to procedures set forth by the department.

(8)(a) For purposes of subsections (2) and (3) of this section, "good cause" means the inability of a taxpayer to comply with the requirements of subsection (2) or (3) of this section because:

(i) The taxpayer does not have the equipment or software necessary to enable the taxpayer to comply with subsection (2) or (3) of this section;

(ii) The equipment or software necessary to enable the taxpayer to comply with subsection (2) or (3) of this section is not functioning properly;

(iii) The taxpayer does not have access to the internet using the taxpayer's own equipment;

(iv) The taxpayer does not have a bank account or a credit card;

(v) The taxpayer's bank is unable to send or receive electronic funds transfer transactions; or

(vi) Some other circumstance or condition exists that, in the department's judgment, prevents the taxpayer from complying with the requirements of subsection (2) or (3) of this section.

(b) "Good cause" also includes any circumstance that, in the department's judgment, supports the efficient or effective administration of the tax laws of this state, including providing relief from the requirements of subsection (2) or (3) of this section to any taxpayer that is voluntarily collecting and remitting this state's sales or use taxes on sales to Washington customers but has no legal requirement to be registered with the department. 82.32.087 Direct pay permits. (Effective January 1, 2016.) (1) The director may grant a direct pay permit to a taxpayer who demonstrates, to the satisfaction of the director, that the taxpayer meets the requirements of this section. The direct pay permit allows the taxpayer to accrue and remit directly to the department use tax on the acquisition of tangible personal property or sales tax on the sale of or charges made for labor and/or services, in accordance with all of the applicable provisions of this title. Any taxpayer that uses a direct pay permit must remit state and local sales or use tax directly to the department. The agreement by the purchaser to remit tax directly to the department, rather than pay sales or use tax to the seller, relieves the seller of the obligation to collect sales or use tax and requires the buyer to pay use tax on the tangible personal property and sales tax on the sale of or charges made for labor and/or services.

(2)(a) A taxpayer may apply for a permit under this section if: (i) The taxpayer's cumulative tax liability is reasonably expected to be two hundred forty thousand dollars or more in the current calendar year; or (ii) the taxpayer makes purchases subject to the taxes imposed under chapter 82.08 or 82.12 RCW in excess of ten million dollars per calendar year. For the purposes of this section, "tax liability" means the amount required to be remitted to the department for taxes administered under this chapter, except for the taxes imposed or authorized by chapters 82.14A, 82.14B, 82.24, 82.27, 82.29A, and 84.33 RCW.

(b) Application for a permit must be made in writing to the director in a form and manner prescribed by the department. A taxpayer who transacts business in two or more locations may submit one application to cover the multiple locations.

(c) The director must review a direct pay permit application in a timely manner and must notify the applicant, in writing, of the approval or denial of the application. The department must approve or deny an application based on the applicant's ability to comply with local government use tax coding capabilities and responsibilities; requirements for vendor

notification; recordkeeping obligations; electronic data capabilities; and tax reporting procedures. Additionally, an application may be denied if the director determines that denial would be in the best interest of collecting taxes due under this title. The department must provide a direct pay permit to an approved applicant with the notice of approval. The direct pay permit must clearly state that the holder is solely responsible for the accrual and payment of the tax imposed under chapters 82.08 and 82.12 RCW and that the seller is relieved of liability to collect tax imposed under chapters 82.08 and 82.12 RCW on all sales to the direct pay permit holder. The taxpayer may petition the director for reconsideration of a denial.

(d) A taxpayer who uses a direct pay permit must continue to maintain records that are necessary to a determination of the tax liability in accordance with this title. A direct pay permit is not transferable and the use of a direct pay permit may not be assigned to a third party.

(3) Taxes for which the direct pay permit is used are due and payable on the tax return for the reporting period in which the taxpayer (a) receives the tangible personal property purchased or in which the labor and/or services are performed or (b) receives an invoice for such property or such labor and/or services, whichever period is earlier.

(4) The holder of a direct pay permit must furnish a copy of the direct pay permit to each vendor with whom the taxpayer has opted to use a direct pay permit. Sellers who make sales upon which the sales or use tax is not collected by reason of the provisions of this section, in addition to existing requirements under this title, must maintain a copy of the direct pay permit and any such records or information as the department may specify.

(5) A direct pay permit is subject to revocation by the director at any time the department determines that the taxpayer has violated any provision of this section or that revocation would be in the best interests of collecting the taxes due under this title. The notice of revocation must be in writing and is effective either as of the end of the taxpayer's next normal reporting period or a date deemed appropriate by the director and identified in the revocation notice. The taxpayer may petition the director for reconsideration of a revocation and reinstatement of the permit.

(6) Any taxpayer who chooses to no longer use a direct pay permit or whose permit is revoked by the department, must return the permit to the department and immediately make a good faith effort to notify all vendors to whom the permit was given, advising them that the permit is no longer valid.

(7) Except as provided in this subsection, the direct pay permit may be used for any purchase of tangible personal property and any retail sale under RCW 82.04.050. The direct pay permit may not be used for:

- (a) Purchases of meals or beverages;
- (b) Purchases of motor vehicles, trailers, boats, airplanes, and other property subject to requirements for title transactions by the department of licensing;
- (c) Purchases for which a reseller permit or other documentation authorized under RCW 82.04.470 may be used;
- (d) Purchases that meet the definitions of RCW 82.04.050 (2) (e) and (f), (3) (a) through (c), (e), (f), and (g), (5), and (15); or

(e) Other activities subject to tax under chapter 82.08 or 82.12 RCW that the department by rule designates, consistent with the purposes of this section, as activities for which a direct pay permit is not appropriate and may not be used. [2015 c 169 § 11; 2010 c 112 § 10. Prior: 2009 c 563 § 210; 2009 c 176 § 5; 2001 c 188 § 2.]

Effective date—2015 c 169: See note following RCW 82.04.050.

Retroactive application—2010 c 112: See note following RCW 82.32.780.

Finding—Intent—Construction—Effective date—Reports and recommendations—2009 c 563: See notes following RCW 82.32.780.

Finding—Intent—2001 c 188: "The legislature finds that programs to allow buyers to remit sales and use tax, rather than traditional collection and remittance by the seller of sales and use tax, can assist in tax compliance, ease administrative burdens, and reduce impacts on buyers and sellers. It is the intent of the legislature to grant the department of revenue the authority to permit certain buyers direct payment authority of tax in those instances where it can be shown, to the satisfaction of the department, that direct payment does not burden sellers and does not complicate administration for the department. Buyers authorized for direct payment will remit tax directly to the department, and will pay use tax on tangible personal property and sales tax on retail labor and/or services.

This act does not affect the requirements to use a resale certificate nor does it affect the business and occupation tax treatment of the seller." [2001 c 188 § 1.]

82.32.090 Late payment—Disregard of written instructions—Evasion—Penalties. (1) If payment of any tax due on a return to be filed by a taxpayer is not received by the department of revenue by the due date, there is assessed a penalty of nine percent of the amount of the tax; and if the tax is not received on or before the last day of the month following the due date, there is assessed a total penalty of nineteen percent of the amount of the tax under this subsection; and if the tax is not received on or before the last day of the second month following the due date, there is assessed a total penalty of twenty-nine percent of the amount of the tax under this subsection. No penalty so added may be less than five dollars.

(2) If the department of revenue determines that any tax has been substantially underpaid, there is assessed a penalty of five percent of the amount of the tax determined by the department to be due. If payment of any tax determined by the department to be due is not received by the department by the due date specified in the notice, or any extension thereof, there is assessed a total penalty of fifteen percent of the amount of the tax under this subsection; and if payment of any tax determined by the department to be due is not received on or before the thirtieth day following the due date specified in the notice of tax due, or any extension thereof, there is assessed a total penalty of twenty-five percent of the amount of the tax under this subsection. No penalty so added may be less than five dollars. As used in this section, "substantially underpaid" means that the taxpayer has paid less than eighty percent of the amount of tax determined by the department to be due for all of the types of taxes included in, and for the entire period of time covered by, the department's examination, and the amount of underpayment is at least one thousand dollars.

(3) If a warrant is issued by the department of revenue for the collection of taxes, increases, and penalties, there is added thereto a penalty of ten percent of the amount of the tax, but not less than ten dollars.

(4) If the department finds that a person has engaged in any business or performed any act upon which a tax is imposed under this title and that person has not obtained from the department a registration certificate as required by RCW 82.32.030, the department must impose a penalty of five percent of the amount of tax due from that person for the period that the person was not registered as required by RCW 82.32.030. The department may not impose the penalty under this subsection (4) if a person who has engaged in business taxable under this title without first having registered as required by RCW 82.32.030, prior to any notification by the department of the need to register, obtains a registration certificate from the department.

(5) If the department finds that a taxpayer has disregarded specific written instructions as to reporting or tax liabilities, or willfully disregarded the requirement to file returns or remit payment electronically, as provided by RCW 82.32.080, the department must add a penalty of ten percent of the amount of the tax that should have been reported and/or paid electronically or the additional tax found due if there is a deficiency because of the failure to follow the instructions. A taxpayer disregards specific written instructions when the department has informed the taxpayer in writing of the taxpayer's tax obligations and the taxpayer fails to act in accordance with those instructions unless, in the case of a deficiency, the department has not issued final instructions because the matter is under appeal pursuant to this chapter or departmental regulations. The department may not assess the penalty under this section upon any taxpayer who has made a good faith effort to comply with the specific written instructions provided by the department to that taxpayer. A taxpayer will be considered to have made a good faith effort to comply with specific written instructions to file returns and/or remit taxes electronically only if the taxpayer can show good cause, as defined in RCW 82.32.080, for the failure to comply with such instructions. A taxpayer will be considered to have willfully disregarded the requirement to file returns or remit payment electronically if the department has mailed or otherwise delivered the specific written instructions to the taxpayer on at least two occasions. Specific written instructions may be given as a part of a tax assessment, audit, determination, closing agreement, or other written communication, provided that such specific written instructions apply only to the taxpayer addressed or referenced on such communication. Any specific written instructions by the department must be clearly identified as such and must inform the taxpayer that failure to follow the instructions may subject the taxpayer to the penalties imposed by this subsection. If the department determines that it is necessary to provide specific written instructions to a taxpayer that does not comply with the requirement to file returns or remit payment electronically as provided in RCW 82.32.080, the specific written instructions must provide the taxpayer with a minimum of forty-five days to come into compliance with its electronic filing and/or payment obligations before the department may impose the penalty authorized in this subsection.

(6) If the department finds that all or any part of a deficiency resulted from engaging in a disregarded transaction, as described in RCW 82.32.655(3), the department must assess a penalty of thirty-five percent of the additional tax found to be due as a result of engaging in a transaction disregarded by

the department under RCW 82.32.655(2). The penalty provided in this subsection may be assessed together with any other applicable penalties provided in this section on the same tax found to be due, except for the evasion penalty provided in subsection (7) of this section. The department may not assess the penalty under this subsection if, before the department discovers the taxpayer's use of a transaction described under RCW 82.32.655(3), the taxpayer discloses its participation in the transaction to the department.

(7) If the department finds that all or any part of the deficiency resulted from an intent to evade the tax payable hereunder, a further penalty of fifty percent of the additional tax found to be due must be added.

(8) The penalties imposed under subsections (1) through (4) of this section can each be imposed on the same tax found to be due. This subsection does not prohibit or restrict the application of other penalties authorized by law.

(9) The department may not impose the evasion penalty in combination with the penalty for disregarding specific written instructions or the penalty provided in subsection (6) of this section on the same tax found to be due.

(10) For the purposes of this section, "return" means any document a person is required by the state of Washington to file to satisfy or establish a tax or fee obligation that is administered or collected by the department, and that has a statutorily defined due date. 82.32.145 Limited liability business entity—Terminated, dissolved, abandoned, insolvent—Collection of unpaid trust fund taxes. (Effective January 1, 2016.) (1) Whenever the department has issued a warrant under RCW 82.32.210 for the collection of unpaid trust fund taxes from a limited liability business entity and that business entity has been terminated, dissolved, or abandoned, or is insolvent, the department may pursue collection of the entity's unpaid trust fund taxes, including penalties and interest on those taxes, against any or all of the responsible individuals. For purposes of this subsection, "insolvent" means the condition that results when the sum of the entity's debts exceeds the fair market value of its assets. The department may presume that

an entity is insolvent if the entity refuses to disclose to the department the nature of its assets and liabilities.

(2) Personal liability under this section may be imposed for state and local trust fund taxes.

(3)(a) For a responsible individual who is the current or a former chief executive or chief financial officer, liability under this section applies regardless of fault or whether the individual was or should have been aware of the unpaid trust fund tax liability of the limited liability business entity.

(b) For any other responsible individual, liability under this section applies only if he or she willfully fails to pay or to cause to be paid to the department the trust fund taxes due from the limited liability business entity.

(4)(a) Except as provided in this subsection (4)(a), a responsible individual who is the current or a former chief executive or chief financial officer is liable under this section only for trust fund tax liability accrued during the period that he or she was the chief executive or chief financial officer. However, if the responsible individual had the responsibility or duty to remit payment of the limited liability business entity's trust fund taxes to the department during any period of time that the person was not the chief executive or chief financial officer, that individual is also liable for trust fund tax liability that became due during the period that he or she had the duty to remit payment of the limited liability business entity's taxes to the department but was not the chief executive or chief financial officer.

(b) All other responsible individuals are liable under this section only for trust fund tax liability that became due during the period he or she had the responsibility or duty to remit payment of the limited liability business entity's taxes to the department.

(5) Persons described in subsection (3)(b) of this section are exempt from liability under this section in situations where nonpayment of the limited liability business entity's trust fund taxes is due to reasons beyond their control as determined by the department by rule.

(6) Any person having been issued a notice of assessment under this section is entitled to the appeal procedures under RCW 82.32.160, 82.32.170, 82.32.180, 82.32.190, and 82.32.200.

(8) Collection authority and procedures prescribed in this chapter apply to collections under this section.

(9) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

82.32.740 Taxability matrix—Liability—Streamlined sales and use tax agreement. (1) The department must complete a taxability matrix maintained by the member states of the agreement in downloadable format. The matrix contains terms defined in the agreement and the disclosure of the state's practices in the administration of sales and use taxes as required under section 335 of the agreement. The department must also provide notice of changes in the state's treatment of practices identified in the matrix.

82.32.762 Remote seller nexus—Streamlined sales and use tax agreement or federal law conflict with state law. (1) If the department determines that a change, taking effect after September 1, 2015, in the streamlined sales and use tax agreement or federal law creates a conflict with any provision of RCW 82.08.052, such conflicting provision or provisions of RCW 82.08.052, including any related provisions that would not function as originally intended, have no further force and effect as of the date the change in the streamlined sales and use tax agreement or federal law becomes effective.

(2) For purposes of this section:

(a) A change in federal law conflicts with RCW 82.08.052 if the change clearly allows states to impose greater sales and use tax collection obligations on remote sellers than provided for, or clearly prevents states from imposing sales and use tax collection obligations on remote sellers to the extent provided for, under RCW 82.08.052.

(b) A change in the streamlined sales and use tax agreement conflicts with RCW 82.08.052 if one or more provisions of RCW 82.08.052 causes this state to be found out of compliance with the streamlined sales and use tax agreement by its governing board.

(3) If the department makes a determination under this section that a change in federal law or the streamlined sales and use tax agreement conflicts with one or more provisions of RCW 82.08.052, the department:

(a) May adopt rules in accordance with chapter 34.05 RCW that are consistent with the streamlined sales and use tax agreement and that impose sales and use tax collection obligations on remote sellers to the fullest extent allowed under state and federal law; and

(b) Must include information on its web site informing taxpayers and the public (i) of the provision or provisions of RCW 82.08.052 that will have no further force and effect, (ii) when such change will become effective, and (iii) about how to participate in any rule making conducted by the department in accordance with (a) of this subsection (3).

(4) For purposes of this section, "remote seller" has the same meaning as in RCW 82.08.052. [2015 3rd sp.s. c 5 § 205.]

82.32.865 Nonresident vessel permit. (Expires July 1, 2019.) The application must be made to the department in a form and manner prescribed by the department and must include:

(a) The name of the record owner of the vessel;

(b) The name, address, and telephone number of the individual that applied for the permit on behalf of the nonresident person;

(c) The record owner's address and telephone number;

(d) The vessel's hull identification number;

- (e) The vessel year, make, and model;
- (f) The vessel length;
- (g) The vessel's registration or numbering under the state of principal operation or the valid number under federal law;
- (h) Proof of the person's current nonresident status, including certified copies of the filed articles of incorporation, a certificate of formation, or similar filings;

(i) Proof of the identity and current residency of all principals of the nonresident person. Such proof may include a valid driver's license verifying out-of-state residency or a valid identification card that has a photograph of the holder and is issued by an out-of-state jurisdiction;

(j) An affidavit signed by a principal of the nonresident vessel owner certifying that no Washington residents are principals of the nonresident vessel owner; and

(k) Any other information the department may require.

(2) The department must determine the nonresident vessel owner's eligibility for the permit, as provided in RCW 88.02.620, and may request additional information as needed directly from the nonresident vessel owner.

(3)(a) If the nonresident vessel owner appears eligible for the permit, the department must provide written approval to the nonresident vessel owner that authorizes issuance of the permit and includes the name of the nonresident vessel owner, the name of the vessel, and the hull identification number. After November 30, 2025, the department may not provide written approval for any permits under this subsection.

(b) The department must also provide the information in the written approval to the department of licensing.

(4)(a) If, after a permit has been issued under RCW 88.02.620, the department has reason to believe that the nonresident vessel owner was not eligible for the permit approved under subsection (3) of this section, the department may request such information from the nonresident vessel owner as the department determines is necessary to conduct a review of the nonresident vessel owner's eligibility.

(b) If the department finds the nonresident person was not eligible for the permit, the department must assess against the nonresident person state and local use tax on the value of the vessel according to the "value of the article used" as defined in RCW 82.12.010. The department must also assess against the nonresident person any watercraft excise tax due under chapter 82.49 RCW. Penalties and interest as provided in this chapter and chapter 82.49 RCW apply to taxes assessed under this subsection (4).

(5) For purposes of this section, "principal" means a natural person that owns, directly or indirectly, including through any tiered ownership structure, more than a one percent interest in the nonresident person applying for a nonresident vessel permit.

(6) The department may adopt rules to implement this section. [2015 3rd sp.s. c 6 § 805.]

The state's economy, the ability to move goods to market, and the overall mobility and safety of the citizens of the state rely on the state's transportation system. Legislative finding—Effective dates—1999 c 94: See notes following RCW 43.84.092.

Purpose of state and local transportation funding program—1990 c 42: "(1) The legislature finds that a new comprehensive funding program is required to maintain the state's commitment to the growing mobility needs of its citizens and commerce. The transportation funding program is intended to satisfy the following state policies and objectives:

(a) Statewide system: Provide for preservation of the existing statewide system and improvements for current and expected capacity needs in rural, established urban, and growing suburban areas throughout the state;

(b) Local flexibility: Provide for necessary state highway improvements, as well as providing local governments with the option to use new funding sources for projects meeting local and regional needs;

(c) Multimodal: Provide a source of funds that may be used for multimodal transportation purposes;

(d) Program compatibility: Implement transportation facilities and services that are consistent with adopted land use and transportation plans and coordinated with recently authorized programs such as the act authorizing creation of transportation benefit districts and the local transportation act of 1988;

(e) Interjurisdictional cooperation: Encourage transportation planning and projects that are multijurisdictional in their conception, development, and benefit, recognizing that mobility problems do not respect jurisdictional boundaries;

(f) Public and private sector: Use a state, local, and private sector partnership that equitably shares the burden of meeting transportation needs.

(2) The legislature further recognizes that the revenues currently available to the state and to counties, cities, and transit authorities for highway, road, and street construction and preservation fall far short of the identified need. The 1988 Washington road jurisdiction study identified a statewide funding shortfall of between \$14.6 and \$19.9 billion to bring existing roads to acceptable standards. The gap between identified transportation needs and available revenues continues to increase. A comprehensive transportation funding program is required to meet the current and anticipated future needs of this state.

(3) The legislature further recognizes the desirability of making certain changes in the collection and distribution of motor vehicle excise taxes with the following objectives: Simplifying administration and collection of the taxes including adoption of a predictable depreciation schedule for vehicles; simplifying the allocation of the taxes among various recipients; and the dedication of a portion of motor vehicle excise taxes for transportation purposes.

(4) The legislature, therefore, declares a need for the three-part funding program embodied in this act: (a) Statewide funding for highways, roads, and streets in urban and rural areas; (b) local option funding authority, available immediately, for the construction and preservation of roads, streets, and transit improvements and facilities; and (c) the creation of a multimodal transportation fund that is funded through dedication of a portion of motor vehicle excise tax. This funding program is intended, by targeting certain new revenues, to produce a significant increase in the overall capacity of the

state, county, and city transportation systems to satisfy and efficiently accommodate the movement of people and goods." [1990 c 42 § 1.]

Findings—Tax preference performance statement—2014 c 216:

"(1) The legislature finds that current law taxes natural gas as a traditional home heating or electric generation fuel while not taking into account the benefits of natural gas use as a transportation fuel. The legislature further finds that the construction and operation of a natural gas liquefaction plant and compressed natural gas refueling stations as well as the ongoing use of compressed and liquefied natural gas will lead to positive job creation, economic development, environmental benefits, and lower fuel costs. The legislature further finds that it is sound tax policy to provide uniform tax treatment of natural gas used as a transportation fuel, regardless of whether the taxpayer providing the natural gas is a gas distribution business or not, so as to prevent any particular entity from receiving a competitive advantage solely through a structural inefficiency in the tax code.

(2)(a) This subsection is the tax performance statement for this act. The performance statement is only intended to be used for subsequent evaluation of the tax changes made in this act. It is not intended to create a private right

of action by any party or be used to determine eligibility for preferential tax treatment.

(b) The legislature categorizes the tax changes in this act as changes intended to accomplish the general purposes indicated in RCW 82.32.808(2) (c) and (d).

(c) It is the legislature's specific public policy objectives to promote job creation and positive economic development; lower carbon dioxide, sulfur dioxide, nitrogen dioxide, and particulate emissions; and secure optimal liquefied natural gas pricing for the state of Washington and other public entities.

(d) To measure the effectiveness of the exemption provided in this act in achieving the specific public policy objective described in (c) of this subsection, the joint legislative audit and review committee must evaluate the following:

(i) The number of employment positions and wages at a natural gas liquefaction facility located in Washington and operated by a gas distribution business where some or all of the liquefied natural gas is sold for use as a transportation fuel. If the average number of employment positions at the liquefaction facility once it is operationally complete equals or exceeds eighteen and average annual wages for employment positions at the facility exceed thirty-five thousand dollars, it is presumed that the public policy objective of job creation has been achieved.

(ii) The estimated total cost of construction of a liquefaction plant by a gas distribution company, including costs for machinery and equipment. If the total cost equals or exceeds two hundred fifty million dollars, it is presumed that the public policy objective of positive economic development has been achieved.

(iii) The estimated fuel savings by the Washington state ferry system and other public entities through the use of liquefied natural gas purchased from a gas distribution business.

(iv) The estimated reduction in carbon dioxide, sulfur dioxide, nitrogen dioxide, and particulate emissions, resulting from the use of liquefied natural gas and compressed natural gas as a transportation fuel where the natural gas is sold by a gas distribution business. The emissions of liquefied and compressed natural gas must be specifically compared with an equivalent amount of diesel fuel. If the estimated annual reduction in emissions exceeds the following benchmarks, it is presumed that the public policy objective of reducing emissions has been achieved:

- (A) Three hundred million pounds of carbon dioxide;
- (B) Two hundred thousand pounds of particulates;
- (C) Four hundred thousand pounds of sulfur dioxide; and
- (D) Four hundred fifty thousand pounds of nitrogen dioxide.

(e)(i) The following data sources are intended to provide the informational basis for the evaluation under (d) of this subsection:

(A) Employment data provided by the state employment security department;

(B) Ferry fuel purchasing data provided by the state department of transportation;

(C) Diesel and other energy pricing data found on the United States energy information administration's web site; and

(D) Information provided by a gas distribution business on the annual report required under RCW 82.32.534.

(ii) In addition to the data source described under (e)(i) of this subsection, the joint legislative audit and review committee may use any other data it deems necessary in performing the evaluation under (d) of this subsection.

(3) A gas distribution business claiming the exemption under RCW 82.08.02565 or 82.12.02565 must file the annual report under RCW 82.32.534 or any successor document. In addition to the information contained in the report, the report must also include the amount of liquefied natural gas and compressed natural gas sold by the gas distribution business as a transportation fuel. A gas distribution business is not required to file the annual survey under RCW 82.32.585, as would otherwise be required under RCW 82.32.808(5).

(4) The joint legislative audit and review committee must perform the review required in this section in a manner consistent with its tax preference review process under chapter 43.136 RCW. The committee must perform the review in calendar year 2025." [2014 c 216 § 101.]

(a) The city or county prepares a written report demonstrating that it has or will have adequate funding from all sources of public funding to pay for all capital projects, as defined in RCW 82.46.010, identified in its capital facilities plan for the succeeding two-year period. Cities or counties not required to prepare a capital facilities plan may satisfy this provision by using a document that, at a minimum, identifies capital project needs and available public funding sources for the succeeding two-year period; and

(b) The city or county has not enacted, after September 26, 2015, any requirement on the listing, leasing, or sale of real property, unless the requirement is either specifically authorized by state or federal law or is a seller or landlord disclosure requirement pursuant to RCW 64.06.080.

The city or county must prepare and adopt the report as part of its regular, public budget process.

(4) The authority to use funds as authorized in this section is in addition to the authority to use funds pursuant to RCW 82.46.010(7), which remains in effect through December 31, 2016.

(5) For purposes of this section, "maintenance" means the use of funds for labor and materials that will preserve, prevent the decline of, or extend the useful life of a capital project. "Maintenance" does not include labor or material costs for routine operations of a capital project. [2015 2nd sp.s. c 10 § 2.]

82.46.021 Referendum procedure to repeal or alter tax. Any referendum petition to repeal a county or city ordinance imposing a tax or altering the rate of the tax authorized under RCW 82.46.010(3) shall be filed with a filing officer, as identified in the ordinance, within seven days of passage of the ordinance. Within ten days, the filing officer shall confer with the petitioner concerning form and style of the petition, issue an identification number for the petition, and write a ballot title for the measure. The ballot title shall be posed as a question so that an affirmative answer to the question and an affirmative vote on the measure results in the tax or tax rate increase being imposed and a negative answer to the question and a negative vote on the measure results in the tax or tax rate increase not being imposed. The petitioner shall be notified of the identification number and ballot title within this ten-day period.

After this notification, the petitioner shall have thirty days in which to secure on petition forms the signatures of not less than fifteen percent of the registered voters of the county for county measures, or not less than fifteen percent of the registered voters of the city for city measures, and to file the signed petitions with the filing officer. Each petition form shall contain the ballot title and the full text of the measure to be referred. The filing officer shall verify the sufficiency of the signatures on the petitions. If sufficient valid signatures are properly submitted, the filing officer shall submit the referendum measure to the county or city voters at a general or special election held on one of the dates provided in RCW 29A.04.321 as determined by the county legislative authority or city council, which election shall not take place later than one hundred twenty days after the signed petition has been filed with the filing officer.

After April 22, 1983, the referendum procedure provided for in this section shall be the exclusive method for subjecting any county or city ordinance imposing a tax or increasing the rate under RCW 82.46.010(3) to a referendum vote.

Any county or city tax authorized under RCW 82.46.010(3) that has been imposed prior to April 22, 1983, is not subject to the referendum procedure provided for in this section. [2015 c 53 § 98; 2000 c 103 § 16; 1983 c 99 § 3.]

(2) "Advanced materials" means materials with engineered properties created through the development of specialized processing and synthesis technology, including ceramics, high value-added metals, electronic materials, composites, polymers, and biomaterials.

(3) "Applicant" means a person applying for a tax deferral under this chapter.

(4) "Biotechnology" means the application of technologies, such as recombinant DNA techniques, biochemistry, molecular and cellular biology, genetics and genetic engineering, cell fusion techniques, and new bioprocesses, using living organisms, or parts of organisms, to produce or modify products, to improve plants or animals, to develop microorganisms for specific uses, to identify targets for small molecule pharmaceutical development, or to transform biological systems into useful processes and products or to develop microorganisms for specific uses.

(5) "Department" means the department of revenue.

(6) "Electronic device technology" means technologies involving microelectronics; semiconductors; electronic equipment and instrumentation; radio frequency, microwave, and millimeter electronics; optical and optic-electrical devices; and data and digital communications and imaging devices.

(7) "Eligible investment project" means an investment project which either initiates a new operation, or expands or diversifies a current operation by expanding, renovating, or equipping an existing facility. The lessor or owner of the qualified building is not eligible for a deferral unless:

(a) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

(b)(i) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;

(ii) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.63.020(2); and

(iii) The economic benefit of the deferral passed to the lessee is no less than the amount of tax deferred by the lessor and is evidenced by written documentation of any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee.

(8) "Environmental technology" means assessment and prevention of threats or damage to human health or the environment, environmental cleanup, and the development of alternative energy sources.

(9)(a) "Initiation of construction" means the date that a building permit is issued under the building code adopted under RCW 19.27.031 for:

(iii) Tenant improvements for a qualified building, if the economic benefits of the deferral are passed to a lessee as provided in subsection (7) of this section.

(b) "Initiation of construction" does not include soil testing, site clearing and grading, site preparation, or any other related activities that are initiated before the issuance of a building permit for the construction of the foundation of the building.

(c) If the investment project is a phased project, "initiation of construction" shall apply separately to each phase.

(10) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction or improvement of the project.

If a building or buildings are used partly for pilot scale manufacturing or qualified research and development, and partly for other purposes, the applicable tax deferral shall be determined by apportionment of the costs of construction under rules adopted by the department. Such rules may include provisions for determining the amount of the deferral based on apportionment of costs of construction of an investment project consisting of a building or multiple buildings, where qualified research and development or pilot scale manufacturing activities are shifted within a building or from one building to another building.

(15)(a) "Qualified machinery and equipment" means fixtures, equipment, and support facilities that are an integral and necessary part of a pilot scale manufacturing or qualified

research and development operation. "Qualified machinery and equipment" includes: Computers; software; data processing equipment; laboratory equipment, instrumentation, and other devices used in a process of experimentation to develop a new or improved pilot model, plant process, product, formula, invention, or similar property; manufacturing components such as belts, pulleys, shafts, and moving parts; molds, tools, and dies; vats, tanks, and fermenters; operating structures; and all other equipment used to control, monitor, or operate the machinery. For purposes of this chapter, qualified machinery and equipment must be either new to the taxing jurisdiction of the state or new to the certificate holder, except that used machinery and equipment may be treated as qualified machinery and equipment if the certificate holder either brings the machinery and equipment into Washington or makes a retail purchase of the machinery and equipment in Washington or elsewhere.

The term includes exploration of a new use for an existing drug, device, or biological product if the new use requires separate licensing by the federal food and drug administration under chapter 21, C.F.R., as amended. The term does not include adaptation or duplication of existing products where the products are not substantially improved by application of the technology, nor does the term include surveys and studies, social science and humanities research, market research or testing, quality control, sale promotion and service, computer software developed for internal use, and research in areas such as improved style, taste, and seasonal design. This performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(1) The legislature categorizes this tax preference as one intended to induce certain designated behavior by taxpayers as indicated in RCW 82.32.808(2)(a).

(2) It is the legislature's specific public policy objective to reduce traffic congestion, automobile-related air pollution and energy use through employer-based programs that encourage the use of alternatives to the single-occupant vehicle traveling during peak traffic periods for the commute trip. It is the legislature's intent to extend the commute trip reduction tax credit, which encourages employers to provide financial incentives to their employees for using ride sharing, public transportation, car sharing, or non-

motorized commuting. Pursuant to chapter 43.136 RCW, the joint legislative audit and review committee must review the commute trip reduction tax credit established under RCW 82.70.020 by December 1, 2024.

(3) If a review finds that the percentage of Washingtonians using commute alternatives is increasing, then the legislature intends for the legislative auditor to recommend extending the expiration date of the tax preferences.

(4) In order to obtain the data necessary to perform the review in subsection (3) of this section, the joint legislative audit and review committee should refer to the office of financial management's results Washington sustainable transportation performance metric or data used by the department of transportation's commute trip reduction program." The application must be made to the department in a form and manner prescribed by the department. The application must contain information regarding the number of employees for which incentives are paid during the calendar year, the amounts paid to or on behalf of employees for ride sharing in vehicles carrying two or more persons, for using public transportation, for using car sharing, or for using nonmotorized commuting, and other information required by the department.

(2) The department must rule on the application within sixty days of the deadline provided in subsection (1) of this section.

(3)(a) The department must disapprove any application not received by the deadline provided in subsection (1) of this section except that the department may accept applications received up to fifteen calendar days after the deadline if the application was not received by the deadline because of circumstances beyond the control of the taxpayer.

(b) In making a determination whether the failure of a taxpayer to file an application by the deadline was the result of circumstances beyond the control of the taxpayer, the department must be guided by rules adopted by the department for the waiver or cancellation of penalties when the underpayment or untimely payment of any tax was due to circumstances beyond the control of the taxpayer.

(4) After an application is approved and tax credit granted, no increase in the credit is allowed.

(5) To claim a credit under this chapter, a person must electronically file with the department all returns, forms, and other information the department requires in an electronic format as provided or approved by the department. The department may not allow any credits that would cause the total amount allowed to exceed two million seven hundred fifty thousand dollars in any fiscal year.

Credits approved after June 30, 2015, must be used for tax reporting periods within the calendar year for which they are approved by the department and may not be carried forward to subsequent tax reporting periods. trict located in a county with a population of one million or less as of January 1, 2016, may fix and impose a parking tax on all persons engaged in a commercial parking business within its respective jurisdiction.

(2) In lieu of the tax in subsection (1) of this section, a passenger-only ferry service district located in a county with a population of one million or less as of January 1, 2016, may fix and impose a tax for the act or privilege of parking a motor vehicle in a facility operated by a commercial parking business. The passenger-only ferry service district may provide that:

(a) The tax is paid by the operator or owner of the motor vehicle;

(b) The tax applies to all parking for which a fee is paid, whether paid or leased, including parking supplied with a lease of nonresidential space;

(c) The tax is collected by the operator of the facility and remitted to the city, county, or passenger-only ferry service district;

(d) The tax is a fee per vehicle or is measured by the parking charge;

(e) The tax rate varies with zoning or location of the facility, the duration of the parking, the time of entry or exit, the type or use of the vehicle, or other reasonable factors; and

(f) Tax exempt carpools, vehicles with special license plates and parking placards for persons with disabilities, or government vehicles are exempt from the tax.

(3) The rate of the tax under subsection (1) of this section may be based either upon gross proceeds or the number of vehicle stalls available for commercial parking use. The rates charged must be uniform for the same class or type of commercial parking business.

(4) The passenger-only ferry service district levying the tax provided for in subsection (1) or (2) of this section may provide for its payment on a monthly, quarterly, or annual basis.

(5) The proceeds of the parking tax imposed by a passenger-only ferry service district under subsection (1) or (2) of this section must be used as provided in RCW 36.57A.224.

82.80.090 Referendum. A referendum petition to repeal a county or city ordinance imposing a tax or fee authorized under RCW 82.80.030 must be filed with a filing officer, as identified in the ordinance, within seven days of passage of the ordinance. Within ten days, the filing officer shall confer with the petitioner concerning form and style of the petition, issue an identification number for the petition, and write a ballot title for the measure. The ballot title shall be posed as a question so that an affirmative answer to the question and an affirmative vote on the measure results in the tax or fee being imposed and a negative answer to the question and a negative vote on the measure results in the tax or fee not

being imposed. The petitioner shall be notified of the identification number and ballot title within this ten-day period.

After this notification, the petitioner has thirty days in which to secure on petition forms the signatures of not less than fifteen percent of the registered voters of the county for county measures, or not less than fifteen percent of the registered voters of the city for city measures, and to file the signed petitions with the filing officer. Each petition form must contain the ballot title and the full text of the measure to be referred. The filing officer shall verify the sufficiency of the signatures on the petitions. If sufficient valid signatures are properly submitted, the filing officer shall submit the referendum measure to the county or city voters at a general or special election held on one of the dates provided in RCW 29A.04.321 as determined by the county or city legislative authority, which election shall not take place later than one hundred twenty days after the signed petition has been filed with the filing officer.

The referendum procedure provided in this section is the exclusive method for subjecting any county or city ordinance imposing a tax or fee under RCW 82.80.030 to a referendum vote. [2015 c 53 § 99; 1990 c 42 § 214.]

82.80.140 Vehicle fee—Transportation benefit district—Exemptions. (1) Subject to the provisions of RCW 36.73.065, a transportation benefit district under chapter 36.73 RCW may fix and impose an annual vehicle fee, not to exceed one hundred dollars per vehicle registered in the district, for each vehicle subject to vehicle license fees under RCW 46.17.350(1) (a), (c), (d), (e), (g), (h), (j), or (n) through (q) and for each vehicle subject to gross weight license fees under RCW 46.17.355 with a scale weight of six thousand pounds or less.

(2)(a) A district that includes all the territory within the boundaries of the jurisdiction, or jurisdictions, establishing the district may impose by a majority vote of the governing board of the district up to: (i) Twenty dollars of the vehicle fee authorized in subsection (1) of this section, (ii) forty dollars of the vehicle fee authorized in subsection (1) of this section if a twenty dollar vehicle fee has been imposed for at least twenty-four months, or (iii) fifty dollars of the vehicle fee authorized in subsection (1) of this section if a vehicle fee of forty dollars has been imposed for at least twenty-four months and a district has met the requirements of RCW 36.73.065(6).

If the district is countywide, the revenues of the fee must be distributed to each city within the district by interlocal agreement. The interlocal agreement is effective when approved by the district and sixty percent of the cities representing seventy-five percent of the population of the cities within the district in which the countywide fee is collected.

(b) A district may not impose a fee under this subsection (2):

(i) For a passenger-only ferry transportation improvement unless the vehicle fee is first approved by a majority of the voters within the jurisdiction of the district; or

(ii) That, if combined with the fees previously imposed by another district within its boundaries under RCW 36.73.065(4)(a)(i), exceeds fifty dollars.

If a district imposes or increases a fee under this subsection (2) that, if combined with the fees previously imposed by

another district within its boundaries, exceeds fifty dollars, the district shall provide a credit for the previously imposed fees so that the combined vehicle fee does not exceed fifty dollars.

(3) The department of licensing shall administer and collect the fee. The department shall deduct a percentage amount, as provided by contract, not to exceed one percent of the fees collected, for administration and collection expenses incurred by it. The department shall remit remaining proceeds to the custody of the state treasurer. The state treasurer shall distribute the proceeds to the district on a monthly basis.

(4) No fee under this section may be collected until six months after approval under RCW 36.73.065.

(5) The vehicle fee under this section applies only when renewing a vehicle registration, and is effective upon the registration renewal date as provided by the department of licensing.

(6) The following vehicles are exempt from the fee under this section:

(a) Campers, as defined in RCW 46.04.085;

(b) Farm tractors or farm vehicles, as defined in RCW 46.04.180 and 46.04.181;

Chapter 82.85 RCW

JOB CREATION AND ECONOMIC DEVELOPMENT INVESTMENT INCENTIVES—PILOT PROGRAM

Sections

82.85.010	Findings—Tax preference performance statement.
82.85.020	Definitions.
82.85.030	Deferral eligibility—Lessor or owner of qualified building.
82.85.040	Deferral application.
82.85.050	Deferral certificate—Issued by the department.
82.85.060	Repayment—Deferred taxes.

82.85.080	Annual survey.
82.85.900	Short title.

82.85.010 Findings—Tax preference performance statement. (1) Businesses that invest capital create jobs and generate economic activity that supports a healthy Washington economy. The legislature finds that these investments result in future revenues that support schools and our communities. Therefore, the legislature finds that a pilot program must be conducted to evaluate the effectiveness of a program that invests business taxes from new investments into workforce training programs that support manufacturing busi-

nesses in the state of Washington thereby creating jobs and capital investments in the state for the benefit of its citizens.

(2)(a) This subsection is the tax preference performance statement for the sales and use tax deferral provided in RCW 82.85.040 on expenditures made to build or expand qualified investment projects and purchases of machinery and equipment. This performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(b) The legislature categorizes the tax preference as one intended to create or retain jobs and to provide funding to support job readiness training, professional development, or apprenticeship programs in manufacturing or production occupations, as indicated in RCW 82.32.808(2) (c) and (f).

(c) It is the legislature's specific public policy objective to provide a pilot program that would provide a sales tax deferral on the construction and expenditure costs of up to five new manufacturing facilities, two of which must be located in eastern Washington. When deferred taxes are repaid, the deferred taxes are reinvested to support job readiness training, professional development, or apprenticeship programs in manufacturing or production occupations.

(d) To measure the effectiveness of the deferral provided in this part in achieving the specific public policy objective described in (c) of this subsection, the joint legislative audit and review committee should refer to information available from the employment security department and department of revenue. If a review finds that each eligible investment project generated at least twenty full-time jobs and increased training opportunities for manufacturing and production jobs, then the legislature intends for the legislative auditor to recommend extending the expiration date of the tax preference. For purposes of this subsection (2)(d), [the term] full-time jobs includes [include] both temporary construction jobs and permanent full-time employment positions created at the eligible investment project within one year of the date that the facility became operationally complete as determined by the department of revenue. [2015 3rd sp.s. c 6 § 401.]

Effective dates—2015 3rd sp.s. c 6: See note following RCW 82.04.4266.

82.85.020 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Applicant" means a person applying for a tax deferral under this chapter.

(2) "Eligible investment project" means an investment project for qualified buildings and machinery and equipment on five new, renovated, or expanded manufacturing operations, at least two of which must be located east of the crest of the Cascade mountains. The deferral provided in this section only applies to the state and local sales and use taxes due on the first ten million dollars in costs for qualified buildings and machinery and equipment.

(3) "Initiation of construction" has the same meaning as in RCW 82.63.010.

(4) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project.

(5) "Manufacturing" has the same meaning as provided in RCW 82.04.120.

(6) "Person" has the same meaning as provided in RCW 82.04.030.

(7) "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity, used for manufacturing, including plant offices and warehouses or other buildings for the storage of raw material or finished goods if such facilities are an essential or an integral part of a factory, mill, plant, or laboratory used for manufacturing. If a qualified building is used partly for manufacturing and partly for other purposes, the applicable tax deferral must be determined by apportionment of the costs of construction under rules adopted by the department.

(8) "Qualified machinery and equipment" means all new industrial fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing operation. "Qualified machinery and equipment" includes: Computers; software; data processing equipment; laboratory equipment; manufacturing components such as belts, pulleys, shafts, and moving parts; molds, tools, and dies; operating structures; and all equipment used to control, monitor, or operate the machinery.

(9) "Recipient" means a person receiving a tax deferral under this chapter. [2015 3rd sp.s. c 6 § 402.]

Effective dates—2015 3rd sp.s. c 6: See note following RCW 82.04.4266.

82.85.030 Deferral eligibility—Lessor or owner of qualified building. The lessor or owner of a qualified building is not eligible for a deferral unless:

(1) The underlying ownership of the building, machinery, and equipment vests exclusively in the same person; or

(2)(a) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;

(b) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.32.585; and

(c) The economic benefit of the deferral passed to the lessee is no less than the amount of tax deferred by the lessor and is evidenced by written documentation of any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee. [2015 3rd sp.s. c 6 § 403.]

Effective dates—2015 3rd sp.s. c 6: See note following RCW 82.04.4266.

82.85.040 Deferral application. (1) Application for deferral of taxes under this chapter must be made before initiation of the construction of the investment project or acquisition of equipment or machinery. The application must be made to the department in a form and manner prescribed by the department. The deferrals are available on a first-in-time basis. The application must contain information regarding the location of the investment project, the applicant's average employment in the state for the prior year, estimated or actual new employment related to the project, estimated or actual wages of employees related to the project, estimated or actual costs, time schedules for completion and operation, and other

information required by the department. The department must rule on the application within sixty days.

(2) The department may not approve applications for more than five eligible investment projects. [2015 3rd sp.s. c 6 § 404.]

Effective dates—2015 3rd sp.s. c 6: See note following RCW 82.04.4266.

82.85.050 Deferral certificate—Issued by the department. (1) Except as otherwise provided in subsection (2) of this section, the department must issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, 82.14, and 81.104 RCW on each eligible investment project.

(2) No certificate may be issued for an investment project that has already received a deferral under this part [chapter] or chapter 82.60 RCW.

(3) The department must keep a running total of all deferrals granted under this chapter during each fiscal biennium. [2015 3rd sp.s. c 6 § 405.]

Effective dates—2015 3rd sp.s. c 6: See note following RCW 82.04.4266.

82.85.060 Repayment—Deferred taxes. (1) The recipient must begin paying the deferred taxes in the fifth year after the date certified by the department as the date on which the investment project has been operationally completed. The first payment of ten percent of the deferred taxes will be due on December 31st of the fifth calendar year after such certified date, with subsequent annual payments of ten percent of the deferred taxes due on December 31st for each of the following nine years.

(2) The department may authorize an accelerated repayment schedule upon request of the recipient.

(3) Interest may not be charged on any taxes deferred under this chapter for the period of deferral, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for delinquent payments under this chapter. The debt for deferred taxes will not be extinguished by insolvency or other failure of the recipient. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral. [2015 3rd sp.s. c 6 § 406.]

Application—2015 3rd sp.s. c 6 §§ 406-409: "The expiration provisions of RCW 82.32.805(1)(a) do not apply to sections 406 through 409 of this act." [2015 3rd sp.s. c 6 § 411.]

Effective dates—2015 3rd sp.s. c 6: See note following RCW 82.04.4266.

82.85.070 Invest in Washington account—Created—Funded. (1) State taxes deferred and repaid under this chapter, including any interest or penalties on such amounts, must be deposited in the invest in Washington account created in this section. The invest in Washington account is hereby created in the state treasury [and] must be used exclusively by the state board for community and technical colleges for supporting customized training programs, job skills programs, job readiness training, workforce professional development, and to assist employers with state-approved apprenticeship programs for manufacturing and production occupations.

[2015 RCW Supp—page 1064]

(2) Revenues to the invest in Washington account consist of amounts transferred by the state treasurer as provided in subsection (3) of this section.

(3) By June 1, 2016, and by June 1st of every subsequent year, the department must notify the state treasurer of the amount of tax, interest, and penalties collected under this section since September 1, 2015, through May 1, 2016, in the case of the first notification under this subsection (3), and since the previous May 1st for subsequent notifications under this subsection (3). The department may make adjustments to the annual notification under this subsection (3) as may be necessary to correct errors in the previous notification or offset previous amounts that did not qualify for deferral under this section.

(4) By July 1, 2016, and by July 1st of every subsequent year, the state treasurer must transfer the amount included in the department's most recent notification under subsection (3) of this section from the general fund to the invest in Washington account. Money in the account may only be appropriated for the purposes specified in subsection (1) of this section. [2015 3rd sp.s. c 6 § 407.]

82.85.080 Annual survey. (1) Each recipient of a deferral of taxes granted under this chapter must file a complete annual survey with the department under RCW 82.32.585. If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.85.030, the lessee must file a complete annual survey, and the applicant is not required to file a complete annual survey.

(2) If, on the basis of a survey under RCW 82.32.585 or other information, the department finds that an investment project is not eligible for tax deferral under this chapter due to the fact the investment project is no longer used for qualified activities, the amount of deferred taxes outstanding for the investment project is immediately due and payable.

(3) If the economic benefits of a tax deferral under this chapter are passed to a lessee as provided in RCW 82.85.030, the lessee is responsible for payment to the extent the lessee has received the economic benefit. [2015 3rd sp.s. c 6 § 408.]

84.25.010 Findings. The legislature finds that:

- (1) Many cities have planned under the growth management act, chapter 36.70A RCW, and designated and zoned lands for industrial and manufacturing use;
- (2) The industrial and manufacturing industries provide family living wage jobs;
- (3) In the current economic climate the creation of additional family living wage jobs is essential;
- (4) It is critical that Washington state promote its continued strength in the fields of aerospace, technology, biomedical, and other industries that will provide family wage job growth; and
- (5) Planning for industrial and manufacturing use is inadequate to attract new industry and manufacturing and an incentive should be created to stimulate the development of new industrial and manufacturing uses in the existing inventory of lands zoned for industrial and manufacturing use in targeted urban areas through a tax incentive as provided by this chapter. [2015 1st sp.s. c 9 § 1.]

84.25.020 Purpose. It is the purpose of this chapter to encourage new manufacturing and industrial uses on undeveloped or underutilized lands zoned for industrial and manufacturing uses in targeted urban areas, thereby increasing employment opportunities for family living wage jobs. Cities that plan under the growth management act meeting the criteria of this chapter where the governing authority of the affected city has found there is insufficient family living wage jobs for its wage earning population may designate a

portion of the city's industrial and manufacturing zoned and undeveloped land to receive an ad valorem tax exemption for the value of new construction of industrial/manufacturing facilities within the designated area. [2015 1st sp.s. c 9 § 2.]

84.25.030 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "City" means any city that: (a) Has a population of at least eighteen thousand; and (b) is north or east of the largest city in the county in which the city is located and such county has a population of at least seven hundred thousand, but less than eight hundred thousand.

(2) "Family living wage job" means a job with a wage that is sufficient for raising a family. A family living wage job must have an average wage of eighteen dollars an hour or more, working two thousand eighty hours per year on the subject site, as adjusted annually for inflation by the consumer price index. The family living wage may be increased by the local authority based on regional factors and wage conditions.

(3) "Governing authority" means the local legislative authority of a city having jurisdiction over the property for which an exemption may be applied for under this chapter.

(4) "Growth management act" means chapter 36.70A RCW.

(5) "Industrial/manufacturing facilities" means building improvements that are ten thousand square feet or larger, representing a minimum improvement valuation of eight hundred thousand dollars for uses categorized as "division D: manufacturing" by the United States department of labor in the occupation safety and health administration's standard industrial classification manual.

(6) "Lands zoned for industrial and manufacturing uses" means lands in a city zoned as of December 31, 2014, for an industrial or manufacturing use consistent with the city's comprehensive plan where the lands are designated for industry.

(7) "Owner" means the property owner of record.

(8) "Targeted area" means an area of undeveloped lands zoned for industrial and manufacturing uses in the city that is located within or contiguous to an innovation partnership zone, foreign trade zone, or EB-5 regional center, and designated for possible exemption under the provisions of this chapter.

(9) "Undeveloped or underutilized" means that there are no existing building improvements on the property or portions of the property targeted for new or expanded industrial or manufacturing uses. [2015 1st sp.s. c 9 § 3.]

84.25.040 Exemption—New construction of industrial/manufacturing facilities. (1)(a) The value of new construction of industrial/manufacturing facilities qualifying under this chapter is exempt from property taxation under this title, as provided in this section. The value of new construction of industrial/manufacturing facilities is exempt from taxation for properties for which an application for a certificate of tax exemption is submitted under this chapter before December 31, 2022. The value is exempt under this section for ten successive years beginning January 1st of the

year immediately following the calendar year of issuance of the certificate.

(b) The exemption provided in this section does not include the value of land or nonindustrial/manufacturing-related improvements not qualifying under this chapter.

(2) The exemption provided in this section is in addition to any other exemptions, deferrals, credits, grants, or other tax incentives provided by law.

(3) This chapter does not apply to state levies or increases in assessed valuation made by the assessor on non-qualifying portions of buildings and value of land nor to increases made by lawful order of a county board of equalization, the department of revenue, or a county, to a class of property throughout the county or specific area of the county to achieve the uniformity of assessment or appraisal required by law.

(4) This exemption does not apply to any county property taxes unless the governing body of the county adopts a resolution and notifies the governing authority of its intent to allow the property to be exempted from county property taxes.

(5) At the conclusion of the exemption period, the new industrial/manufacturing facilities cost must be considered as new construction for the purposes of chapter 84.55 RCW. [2015 1st sp.s. c 9 § 4.]

84.25.050 Application requirements for property owner. An owner of property making application under this chapter must meet the following requirements:

(1) The new construction of industrial/manufacturing facilities must be located on land zoned for industrial and manufacturing uses, undeveloped or underutilized, and as provided in RCW 84.25.060, designated by the city as a targeted area;

(2) The new construction of industrial/manufacturing facilities must meet all construction and development regulations of the city;

(3) The new construction of industrial/manufacturing facilities must be completed within three years from the date of approval of the application; and

(4) The applicant must enter into a contract with the city approved by the governing authority, or an administrative official or commission authorized by the governing authority, under which the applicant has agreed to the implementation of the development on terms and conditions satisfactory to the governing authority. [2015 1st sp.s. c 9 § 5.]

84.25.060 Targeted area designation requirements.

(1) The following criteria must be met before an area may be designated as a targeted area:

(a) The area must be lands zoned for industrial and manufacturing uses; and

(b) The city must have determined that the targeting of the area, as evaluated by the governing authority, will assist in the new construction of industrial/manufacturing facilities that will provide employment for family living wage jobs.

(2) For the purpose of designating a targeted area, the governing authority may adopt a resolution of intention to so designate an area as generally described in the resolution. The resolution must state the time and place of a hearing to be held by the governing authority to consider the designation of

the area and may include such other information pertaining to the designation of the area as the governing authority determines to be appropriate to apprise the public of the action intended.

(3) The governing authority must give notice of a hearing held under this chapter by publication of the notice once each week for two consecutive weeks, not less than seven days, nor more than thirty days before the date of the hearing in a paper having a general circulation in the city where the proposed targeted area is located. The notice must state the time, date, place, and purpose of the hearing and generally identify the area proposed to be designated as a targeted area.

(4) Following the hearing or a continuance of the hearing, and subject to the limit on targeted areas, the governing authority may designate all or a portion of the area described in the resolution of intent as a targeted area if it finds, in its sole discretion, that the criteria in subsection (1) of this section have been met. [2015 1st sp.s. c 9 § 6.]

84.25.070 Exemption application procedures. An owner of property seeking an exemption under this chapter must complete the following procedures:

(1) The owner must apply to the city on forms adopted by the governing authority. The application must contain the following:

(a) Information setting forth the grounds supporting the requested exemption including information indicated on the application form or in the guidelines;

(b) A description of the project and site plan, and other information requested;

(c) A statement of the expected number of new family living wage jobs to be created;

(d) A statement that the applicant is aware of the potential tax liability involved when the property ceases to be eligible for the incentive provided under this chapter; and

(e) A statement that the applicant would not have built in this location but for the availability of the tax exemption under this chapter;

(2) The applicant must verify the application by oath or affirmation; and

(3) The application must be accompanied by the application fee, if any, required under this chapter. The governing authority may permit the applicant to revise an application before final action by the governing authority. [2015 1st sp.s. c 9 § 7.]

84.25.080 Application approval—City review requirements. The duly authorized administrative official or committee of the city may approve the application if it finds that:

(1) A minimum of twenty-five new family living wage jobs will be created on the subject site as a result of new construction of manufacturing/industrial [industrial/manufacturing] facilities within one year of building occupancy;

(2) The proposed project is, or will be, at the time of completion, in conformance with all local plans and regulations that apply at the time the application is approved; and

(3) The criteria of this chapter have been satisfied. [2015 1st sp.s. c 9 § 8.]

84.25.090 Application—City approval or denial—Appeals. (1) The city governing authority or its authorized representative must approve or deny an application filed under this chapter within ninety days after receipt of the application.

(2) If the application is approved, the city must issue the owner of the property a conditional certificate of acceptance of tax exemption. The certificate must contain a statement by a duly authorized administrative official of the governing authority that the property has complied with the required criteria of this chapter.

(3) If the application is denied by the city, the city must state in writing the reasons for denial and send the notice to the applicant at the applicant's last known address within ten days of the denial.

(4) Upon denial by the city, an applicant may appeal the denial to the city's governing authority within thirty days after receipt of the denial. The appeal before the city's governing authority must be based upon the record made before the city with the burden of proof on the applicant to show that there was no substantial evidence to support the city's decision. The decision of the city in denying or approving the application is final. [2015 1st sp.s. c 9 § 9.]

84.25.100 Application fee. The governing authority may establish an application fee. This fee may not exceed an amount determined to be required to cover the cost to be incurred by the governing authority and the assessor in administering this chapter. The application fee must be paid at the time the application for limited exemption is filed. If the application is approved, the governing authority of the city must pay the application fee to the county assessor for deposit in the county current expense fund, after first deducting that portion of the fee attributable to its own administrative costs in processing the application. If the application is denied, the city's governing authority may retain that portion of the application fee attributable to its own administrative costs and refund the balance to the applicant. [2015 1st sp.s. c 9 § 10.]

84.25.110 Certificate of tax exemption—Requirements. (1) Upon completion of the new construction of a manufacturing/industrial [industrial/manufacturing] facility for which an application for an exemption under this chapter has been approved and issued a certificate of occupancy, the owner must file with the city the following:

(a) A description of the work that has been completed and a statement that the new construction on the owner's property qualify the property for a partial exemption under this chapter;

(b) A statement of the new family living wage jobs to be offered as a result of the new construction of manufacturing/industrial [industrial/manufacturing] facilities; and

(c) A statement that the work has been completed within three years of the issuance of the conditional certificate of tax exemption.

(2) Within thirty days after receipt of the statements required under subsection (1) of this section, the city must determine whether the work completed and the jobs to be offered are consistent with the application and the contract

approved by the city and whether the application is qualified for a tax exemption under this chapter.

(3) If the criteria of this chapter have been satisfied and the owner's property is qualified for a tax exemption under this chapter, the city must file the certificate of tax exemption with the county assessor within ten days of the expiration of the thirty-day period provided under subsection (2) of this section.

(4) The city must notify the applicant that a certificate of tax exemption is denied if the city determines that:

(a) The work was not completed within three years of the application date;

(b) The work was not constructed consistent with the application or other applicable requirements;

(c) The jobs to be offered are not consistent with the application and criteria of this chapter; or

(d) The owner's property is otherwise not qualified for an exemption under this chapter.

(5) If the city finds that the work was not completed within the required time period due to circumstances beyond the control of the owner and that the owner has been acting and could reasonably be expected to act in good faith and with due diligence, the governing authority or the city official authorized by the governing authority may extend the deadline for completion of the work for a period not to exceed twenty-four consecutive months.

(6) The city's governing authority may enact an ordinance to provide a process for an owner to appeal a decision by the city that the owner is not entitled to a certificate of tax exemption to the city. The owner may appeal a decision by the city to deny a certificate of tax exemption in superior court under RCW 34.05.510 through 34.05.598, if the appeal is filed within thirty days of notification by the city to the owner of the exemption denial. [2015 1st sp.s. c 9 § 11.]

84.25.120 Annual report. (1) Thirty days after the anniversary of the date of the certificate of tax exemption and each year for the tax exemption period, the owner of the new industrial/manufacturing facilities must file with a designated authorized representative of the city an annual report indicating the following:

(a) A statement of the family living wage jobs at the facility as of the anniversary date;

(b) A certification by the owner that the property has not changed use;

(c) A description of changes or improvements constructed after issuance of the certificate of tax exemption; and

(d) Any additional information requested by the city.

(2) A city that issues a certificate of tax exemption under this chapter must report annually by December 31st of each year, beginning in 2013, to the department of commerce. The report must include the following information:

(a) The number of tax exemption certificates granted;

(b) The total number and type of new manufacturing/industrial [industrial/manufacturing] facilities constructed;

(c) The number of family living wage jobs resulting from the new manufacturing/industrial [industrial/manufacturing] facilities; and

(d) The value of the tax exemption for each project receiving a tax exemption and the total value of tax exemptions granted. [2015 1st sp.s. c 5761 § 12.]

84.25.130 Improvements. (1) If the value of improvements have been exempted under this chapter, the improvements continue to be exempted for the applicable period under this chapter so long as they are not converted to another use and continue to satisfy all applicable conditions including, but not limited to, zoning, land use, building, and family wage job creation.

(2) If an owner voluntarily opts to discontinue compliance with the requirements of this chapter, the owner must notify the assessor within sixty days of the change in use or intended discontinuance.

(3) If, after a certificate of tax exemption has been filed with the county assessor, the city discovers that a portion of the property is changed or will be changed to disqualify the owner for exemption eligibility under this chapter, the tax exemption must be canceled and the following occurs:

(a) Additional real property tax must be imposed on the value of the nonqualifying improvements in the amount that would be imposed if an exemption had not been available under this chapter, plus a penalty equal to twenty percent of the additional value. This additional tax is calculated based upon the difference between the property tax paid and the property tax that would have been paid if it had included the value of the nonqualifying improvements dated back to the date that the improvements were converted to a nonqualifying use;

(b) The tax must include interest upon the amounts of the additional tax at the same statutory rate charged on delinquent property taxes from the dates on which the additional tax could have been paid without penalty if the improvements had been assessed at a value without regard to this chapter; and

(c) The additional tax owed together with interest and penalty becomes a lien on the property and attaches at the time the property or portion of the property is removed from the qualifying use under this chapter or the amenities no longer meet the applicable requirements for exemption under this chapter. A lien under this section has priority to, and must be fully paid and satisfied before, a recognizance, mortgage, judgment, debt, obligation, or responsibility to or with which the property may become charged or liable. The lien may be foreclosed upon expiration of the same period after delinquency and in the same manner provided by law for foreclosure of liens for delinquent real property taxes. An additional tax unpaid on its due date is delinquent. From the date of delinquency until paid, interest must be charged at the same rate applied by law to delinquent property taxes.

(4) Upon a determination that a tax exemption is to be terminated for a reason stated in this section, the city's governing authority must notify the record owner of the property as shown by the tax rolls by mail, return receipt requested, of the determination to terminate the exemption. The owner may appeal the determination to the city, within thirty days by filing a notice of appeal with the city, which notice must specify the factual and legal basis on which the determination of termination is alleged to be erroneous. At an appeal hearing, all affected parties may be heard and all competent evi-

dence received. After the hearing, the deciding body or officer must either affirm, modify, or repeal the decision of termination of exemption based on the evidence received. An aggrieved party may appeal the decision of the deciding body or officer to the superior court as provided in RCW 34.05.510 through 34.05.598.

(5) Upon determination by the city to terminate an exemption, the county officials having possession of the assessment and tax rolls must correct the rolls in the manner provided for omitted property under RCW 84.40.080. The county assessor must make such a valuation of the property and improvements as is necessary to permit the correction of the rolls. The value of the new industrial/manufacturing facilities added to the rolls is considered new construction for the purposes of chapter 84.40 RCW. The owner may appeal the valuation to the county board of equalization as provided in chapter 84.40 RCW. If there has been a failure to comply with this chapter, the property must be listed as an omitted assessment for assessment years beginning January 1st of the calendar year in which the noncompliance first occurred, but the listing as an omitted assessment may not be for a period more than three calendar years preceding the year in which the failure to comply was discovered. [2015 1st sp.s. c 9 § 13.]

84.25.140 Application—2015 1st sp.s. c 9. This act applies to taxes levied for collection in 2016 and thereafter. [2015 1st sp.s. c 9 § 14.]

Chapter 84.36 RCW EXEMPTIONS

Sections

84.36.041	Nonprofit homes for the aging.
84.36.381	Residences—Property tax exemptions—Qualifications.
84.36.480	Nonprofit fair associations. (<i>Effective January 1, 2019.</i>)

84.36.041 Nonprofit homes for the aging. (1) All real and personal property used by a nonprofit home for the aging that is reasonably necessary for the purposes of the home is exempt from taxation if the benefit of the exemption inures to the home and:

(a) At least fifty percent of the occupied dwelling units in the home are occupied by eligible residents; or

(b) The home is subsidized under a federal department of housing and urban development program. The department of revenue must provide by rule a definition of homes eligible for exemption under this subsection (1)(b), consistent with the purposes of this section.

(2) All real and personal property used by a nonprofit home for the aging that is reasonably necessary for the purposes of the home is exempt from taxation if the benefit of the exemption inures to the home and the construction, rehabilitation, acquisition, or refinancing of the home is financed under a program using bonds exempt from federal income tax if at least seventy-five percent of the total amount financed uses the tax exempt bonds and the financing program requires the home to reserve a percentage of all dwelling units so financed for low-income residents. The initial term of the exemption under this subsection must equal the term of the tax exempt bond used in connection with the financing

program, or the term of the requirement to reserve dwelling units for low-income residents, whichever is shorter. If the financing program involves less than the entire home, only those dwelling units included in the financing program are eligible for total exemption. The department of revenue must provide by rule the requirements for monitoring compliance with the provisions of this subsection and the requirements for exemption including:

(a) The number or percentage of dwelling units required to be occupied by low-income residents, and a definition of low income;

(b) The type and character of the dwelling units, whether independent units or otherwise; and

(c) Any particular requirements for continuing care retirement communities.

(3) A home for the aging is eligible for a partial exemption on the real property and a total exemption for the home's personal property if the home does not meet the requirements of subsection (1) of this section because fewer than fifty percent of the occupied dwelling units are occupied by eligible residents, as follows:

(a) A partial exemption must be allowed for each dwelling unit in a home occupied by a resident requiring assistance with activities of daily living.

(b) A partial exemption must be allowed for each dwelling unit in a home occupied by an eligible resident.

(c) A partial exemption must be allowed for an area jointly used by a home for the aging and by a nonprofit organization, association, or corporation currently exempt from property taxation under one of the other provisions of this chapter. The shared area must be reasonably necessary for the purposes of the nonprofit organization, association, or corporation exempt from property taxation under one of the other provisions of this chapter, such as kitchen, dining, and laundry areas.

(d) The amount of exemption must be calculated by multiplying the assessed value of the property reasonably necessary for the purposes of the home, less the assessed value of any area exempt under (c) of this subsection, by a fraction. The numerator of the fraction is the number of dwelling units occupied by eligible residents and by residents requiring assistance with activities of daily living. The denominator of the fraction is the total number of occupied dwelling units as of December 31st of the first assessment year the home becomes operational for which exemption is claimed and January 1st of each subsequent assessment year for which exemption is claimed.

(4) To be exempt under this section, the property must be used exclusively for the purposes for which the exemption is granted, except as provided in RCW 84.36.805.

(5) A home for the aging is exempt from taxation only if the organization operating the home is exempt from income tax under section 501(c) of the federal internal revenue code as existing on January 1, 1989, or such subsequent date as the director may provide by rule consistent with the purposes of this section.

(6) In order for the home to be eligible for exemption under subsections (1)(a) and (3)(b) of this section, each eligible resident of a home for the aging must submit an income verification form to the county assessor by July 1st of the assessment year for which exemption is claimed. However,

during the first year a home becomes operational, the county assessor must accept income verification forms from eligible residents up to December 31st of the assessment year. The income verification form must be prescribed and furnished by the department of revenue. An eligible resident who has filed a form for a previous year need not file a new form until there is a change in status affecting the person's eligibility.

(7) In determining the true and fair value of a home for the aging for purposes of the partial exemption provided by subsection (3) of this section, the assessor must apply the computation method provided by RCW 84.34.060 and may consider only the use to which such property is applied during the years for which such partial exemptions are available and may not consider potential uses of such property.

(8) As used in this section:

(a) "Eligible resident" means a person who:

(i) Occupied the dwelling unit as a principal place of residence as of December 31st of the first assessment year the home becomes operational. In each subsequent year, the eligible resident must occupy the dwelling unit as a principal place of residence as of January 1st of the assessment year for which the exemption is claimed. Confinement of the person to a hospital or nursing home does not disqualify the claim of exemption if the dwelling unit is temporarily unoccupied or if the dwelling unit is occupied by a spouse or a domestic partner, a person financially dependent on the claimant for support, or both; and

(ii) Is sixty-one years of age or older on December 31st of the year in which the exemption claim is filed, or is, at the time of filing, retired from regular gainful employment by reason of disability as defined in RCW 84.36.383. Any surviving spouse or surviving domestic partner of a person who was receiving an exemption at the time of the person's death qualifies if the surviving spouse or surviving domestic partner is fifty-seven years of age or older and otherwise meets the requirements of this subsection; and

(iii) Has a combined disposable income of no more than the greater of twenty-two thousand dollars or eighty percent of the median income adjusted for family size as most recently determined by the federal department of housing and urban development for the county in which the person resides. For the purposes of determining eligibility under this section, a "cotenant" means a person who resides with an eligible resident and who shares personal financial resources with the eligible resident.

(b) "Combined disposable income" means the disposable income of the person submitting the income verification form, plus the disposable income of his or her spouse or domestic partner, and the disposable income of each cotenant occupying the dwelling unit for the preceding calendar year, less amounts paid by the person submitting the income verification form or his or her spouse or domestic partner or cotenant during the previous year for the treatment or care of either person received in the dwelling unit or in a nursing home. If the person submitting the income verification form was retired for two months or more of the preceding year, the combined disposable income of such person must be calculated by multiplying the average monthly combined disposable income of such person during the months such person was retired by twelve. If the income of the person submitting the income verification form is reduced for two or more

months of the preceding year by reason of the death of the person's spouse or domestic partner, the combined disposable income of such person must be calculated by multiplying the average monthly combined disposable income of such person after the death of the spouse or domestic partner by twelve.

(c) "Disposable income" means adjusted gross income as defined in the federal internal revenue code, as amended prior to January 1, 1989, or such subsequent date as the director may provide by rule consistent with the purpose of this section, plus all of the following items to the extent they are not included in or have been deducted from adjusted gross income:

(i) Capital gains, other than gain excluded from income under section 121 of the federal internal revenue code to the extent it is reinvested in a new principal residence;

(ii) Amounts deducted for loss;

(iii) Amounts deducted for depreciation;

(iv) Pension and annuity receipts;

(v) Military pay and benefits other than attendant-care and medical-aid payments;

(vi) Veterans benefits other than attendant-care and medical-aid payments;

(vii) Federal social security act and railroad retirement benefits;

(viii) Dividend receipts; and

(ix) Interest received on state and municipal bonds.

(d) "Resident requiring assistance with activities of daily living" means a person who requires significant assistance with the activities of daily living and who would be at risk of nursing home placement without this assistance.

(e) "Home for the aging" means a residential housing facility that (i) provides a housing arrangement chosen voluntarily by the resident, the resident's guardian or conservator, or another responsible person; (ii) has only residents who are at least sixty-one years of age or who have needs for care generally compatible with persons who are at least sixty-one years of age; and (iii) provides varying levels of care and supervision, as agreed to at the time of admission or as determined necessary at subsequent times of reappraisal.

(9) A for-profit home for the aging that converts to non-profit status after June 11, 1992, and would otherwise be eligible for tax exemption under this section may not receive the tax exemption until five years have elapsed since the conversion. The exemption must then be ratably granted over the next five years. [2015 c 86 § 312; 2008 c 6 § 707; 2001 c 187 § 14. Prior: 1999 c 358 § 16; 1999 c 356 § 1; 1998 c 311 § 20; 1997 c 3 § 124 (Referendum Bill No. 47, approved November 4, 1997); 1993 c 151 § 1; 1992 c 213 § 1; 1991 sp.s. c 24 § 1; 1991 c 203 § 2; 1989 c 379 § 2.]

84.36.381 Residences—Property tax exemptions—Qualifications. A person is exempt from any legal obligation to pay all or a portion of the amount of excess and regular real property taxes due and payable in the year following the year in which a claim is filed, and thereafter, in accordance with the following:

(1) The property taxes must have been imposed upon a residence which was occupied by the person claiming the

exemption as a principal place of residence as of the time of filing. However, any person who sells, transfers, or is displaced from his or her residence may transfer his or her exemption status to a replacement residence, but no claimant may receive an exemption on more than one residence in any year. Moreover, confinement of the person to a hospital, nursing home, assisted living facility, or adult family home does not disqualify the claim of exemption if:

- (a) The residence is temporarily unoccupied;
- (b) The residence is occupied by a spouse or a domestic partner and/or a person financially dependent on the claimant for support; or
- (c) The residence is rented for the purpose of paying nursing home, hospital, assisted living facility, or adult family home costs;

(2) The person claiming the exemption must have owned, at the time of filing, in fee, as a life estate, or by contract purchase, the residence on which the property taxes have been imposed or if the person claiming the exemption lives in a cooperative housing association, corporation, or partnership, such person must own a share therein representing the unit or portion of the structure in which he or she resides. For purposes of this subsection, a residence owned by a marital community or state registered domestic partnership or owned by cotenants is deemed to be owned by each spouse or each domestic partner or each cotenant, and any lease for life is deemed a life estate;

(3)(a) The person claiming the exemption must be:

- (i) Sixty-one years of age or older on December 31st of the year in which the exemption claim is filed, or must have been, at the time of filing, retired from regular gainful employment by reason of disability; or
- (ii) A veteran of the armed forces of the United States entitled to and receiving compensation from the United States department of veterans affairs at a total disability rating for a service-connected disability.

(b) However, any surviving spouse or surviving domestic partner of a person who was receiving an exemption at the time of the person's death will qualify if the surviving spouse or surviving domestic partner is fifty-seven years of age or older and otherwise meets the requirements of this section;

(4) The amount that the person is exempt from an obligation to pay is calculated on the basis of combined disposable income, as defined in RCW 84.36.383. If the person claiming the exemption was retired for two months or more of the assessment year, the combined disposable income of such person must be calculated by multiplying the average monthly combined disposable income of such person during the months such person was retired by twelve. If the income of the person claiming exemption is reduced for two or more months of the assessment year by reason of the death of the person's spouse or the person's domestic partner, or when other substantial changes occur in disposable income that are likely to continue for an indefinite period of time, the combined disposable income of such person must be calculated by multiplying the average monthly combined disposable income of such person after such occurrences by twelve. If it is necessary to estimate income to comply with this subsection, the assessor may require confirming documentation of such income prior to May 31 of the year following application;

(5)(a) A person who otherwise qualifies under this section and has a combined disposable income of forty thousand dollars or less is exempt from all excess property taxes; and

(b)(i) A person who otherwise qualifies under this section and has a combined disposable income of thirty-five thousand dollars or less but greater than thirty thousand dollars is exempt from all regular property taxes on the greater of fifty thousand dollars or thirty-five percent of the valuation of his or her residence, but not to exceed seventy thousand dollars of the valuation of his or her residence; or

(ii) A person who otherwise qualifies under this section and has a combined disposable income of thirty thousand dollars or less is exempt from all regular property taxes on the greater of sixty thousand dollars or sixty percent of the valuation of his or her residence;

(6)(a) For a person who otherwise qualifies under this section and has a combined disposable income of forty thousand dollars or less, the valuation of the residence is the assessed value of the residence on the later of January 1, 1995, or January 1st of the assessment year the person first qualifies under this section. If the person subsequently fails to qualify under this section for one year because of high income, this same valuation must be used upon requalification. If the person fails to qualify for more than one year in succession because of high income or fails to qualify for any other reason, the valuation upon requalification is the assessed value on January 1st of the assessment year in which the person requalifies. If the person transfers the exemption under this section to a different residence, the valuation of the different residence is the assessed value of the different residence on January 1st of the assessment year in which the person transfers the exemption.

(b) In no event may the valuation under this subsection be greater than the true and fair value of the residence on January 1st of the assessment year.

(c) This subsection does not apply to subsequent improvements to the property in the year in which the improvements are made. Subsequent improvements to the property must be added to the value otherwise determined under this subsection at their true and fair value in the year in which they are made. This performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(1) The legislature categorizes this tax preference as one intended to provide tax relief for certain businesses or individuals, as indicated in RCW 82.32.808(2)(e).

(2) It is the legislature's specific public policy objective to provide tax relief to senior citizens, disabled persons, and veterans. The legislature recognizes that property taxes impose a substantial financial burden on those with fixed incomes and that property tax relief programs have considerable value in addressing this burden. It is the legislature's intent to increase the current statutory static income thresholds which were last modified in 2004.

(3) The expansion of the items allowed to be deducted is meant to be permanent and, therefore, not subject to the ten-year expiration provision in RCW 82.32.805(1)(a)." [2015 3rd sp.s. c 30 § 1.]

Application—2005 c 248: "This act applies to taxes levied for collection in 2006 and thereafter." [2005 c 248 § 3.]

Intent—1983 1st ex.s. c 11: "The legislature finds that inflation has significant detrimental effects on the senior citizen property tax relief program. Inflation increases incomes without increasing real buying power. Inflation also raises the values of homes, and thus the taxes on those homes. This act addresses the problem of inflation in two ways. First, the assessed value exemption is tied to home value so it will increase as values rise. Secondly, though the income of most senior citizens does not keep pace with inflation, it is the legislature's intent that inflationary increases in incomes will not result in program disqualification. Therefore, the income levels are adjusted to reflect the forecasted increase in inflation. The legislature also recommends that similar adjustments be examined by future legislatures." 84.36.480 Nonprofit fair associations. (Effective January 1, 2019.) (1) Except as provided otherwise in subsections (2) and (3) of this section, the real and personal property of a nonprofit fair association that sponsors or conducts a fair or fairs that is eligible to receive support from the fair fund, as created in RCW 15.76.115 and allocated by the director of the department of agriculture, is exempt from taxation. To be exempt under this subsection (1), the property must be used exclusively for fair purposes, except as provided in RCW 84.36.805. However, the loan or rental of property otherwise exempt under this section to a private concessionaire or to any person for use as a concession in conjunction with activities permitted under this section do not nullify the exemption if the concession charges are subject to agreement and the rental income, if any, is reasonable and is devoted solely to the operation and maintenance of the property.

(2)(a) Except as provided otherwise in this subsection and subsection (3) of this section, the real and personal property owned by a nonprofit fair association organized under chapter 24.06 RCW and used for fair purposes is exempt from taxation if the majority of such property, as determined by assessed value, was purchased or acquired by the same nonprofit fair association from a county or a city between 1995 and 1998.

(b) The use of exempt property for rental purposes does not negate the exemption under this subsection. However, any rental exceeding fifty consecutive days during any calendar year is subject to leasehold excise tax under chapter 82.29A RCW. For purposes of this subsection, "rental" means a lease, permit, license, or any other agreement granting possession and use, to a degree less than fee simple ownership, between the nonprofit fair association and a person who would not be exempt from property taxes if that person owned the property in fee.

(3) A nonprofit fair association with real and personal property having an assessed value of more than fifteen million dollars is not eligible for the exemptions under this section. [2015 3rd sp.s. c 6 § 2002; 2013 c 212 § 2; 1984 c 220 § 6; 1975 1st ex.s. c 291 § 22.]

It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(2) The legislature categorizes this tax preference as intended to accomplish a general purpose not identified in RCW 82.32.808(2) (a) through (e).

(3) It is the legislature's specific public policy objective to support nonprofit fairs that obtained a majority of their property from a city or county between 1995 and 1998. The legislature intends to make their property tax exemption permanent, while requiring the collection of leasehold excise tax on any rentals of their exempt property that exceed fifty consecutive days. Because the legislature intends for the changes in this Part XX to be permanent, they are exempt from the ten-year expiration provision in RCW 82.32.805(1)(a)." [2015 3rd sp.s. c 6 § 2001.]

Application—2015 3rd sp.s. c 6 § 2002: "Section 2002 of this act applies to taxes levied for collection in 2019 and thereafter." [2015 3rd sp.s. c 6 § 2008.]

Effective dates—2015 3rd sp.s. c 6: See note following RCW 82.04.4266.

Findings—Intent—2013 c 212: "(1) The legislature finds that nonprofit fairs provide educational opportunities for youth and promote agriculture and the welfare of rural Washington. The legislature further finds that publicly owned fairgrounds can be rented or loaned out on a temporary basis without jeopardizing the property's exempt status for property tax purposes. The legislature further finds that many cities and counties have transferred ownership in fairground properties to nonprofit fair associations to achieve operational efficiencies. The legislature further finds that properties previously owned by cities or counties, and now owned and operated by nonprofit fair associations, may be subject to property tax even though the use of the property has not changed.

(2) It is the intent of the legislature to mitigate an unintended consequence of the property tax code that would otherwise interfere with a city's or county's ability to achieve operational efficiencies and follows best practices by transferring fairgrounds to nonprofit fair associations for an identical use of the property. It is the further intent of the legislature to expire the property tax exemption in five years to evaluate if the exemption has created any unintended consequences, including any unfair competitive advantage that may be conferred by the property tax exemption over private businesses, and identify other similar tax situations where ownership of property may be transferred from a public entity to a nonprofit association." DEFERRAL OF SPECIAL ASSESSMENTS AND/OR PROPERTY TAXES

Sections

84.38.030 Conditions and qualifications for claiming deferral.

84.38.030 Conditions and qualifications for claiming deferral. A claimant may defer payment of special assessments and/or real property taxes on up to eighty percent of the amount of the claimant's equity value in the claimant's residence if the following conditions are met:

(1) The claimant must meet all requirements for an exemption for the residence under RCW 84.36.381, other than the age and income limits under RCW 84.36.381.

(2) The claimant must be sixty years of age or older on December 31st of the year in which the deferral claim is filed, or must have been, at the time of filing, retired from regular gainful employment by reason of disability as defined in RCW 84.36.383. However, any surviving spouse or surviving domestic partner of a person who was receiving a deferral at the time of the person's death qualifies if the surviving spouse or surviving domestic partner is fifty-seven years of

age or older and otherwise meets the requirements of this section.

(3) The claimant must have a combined disposable income, as defined in RCW 84.36.383, of forty-five thousand dollars or less.

(4) The claimant must have owned, at the time of filing, the residence on which the special assessment and/or real property taxes have been imposed. For purposes of this subsection, a residence owned by a marital community, owned by domestic partners, or owned by cotenants is deemed to be owned by each spouse, each domestic partner, or each cotenant. A claimant who has only a share ownership in cooperative housing, a life estate, a lease for life, or a revocable trust does not satisfy the ownership requirement.

(5) The claimant must have and keep in force fire and casualty insurance in sufficient amount to protect the interest of the state in the claimant's equity value. However, if the claimant fails to keep fire and casualty insurance in force to the extent of the state's interest in the claimant's equity value, the amount deferred may not exceed one hundred percent of the claimant's equity value in the land or lot only.

(6) In the case of special assessment deferral, the claimant must have opted for payment of such special assessments on the installment method if such method was available. 84.41.030 Revaluation program to be on continuous basis—Revaluation schedule—Effect of other proceed-

ings on valuation. (1) Each county assessor must maintain an active and systematic program of revaluation on a continuous basis. All taxable real property within a county must be revalued annually, and all taxable real property within a county must be physically inspected at least once every six years. Each county assessor may disregard any program of revaluation, if requested by a property owner, and change, as appropriate, the valuation of real property upon the receipt of a notice of decision received under RCW 36.70B.130 or chapter 35.22, 35.63, 35A.63, or 36.70 RCW pertaining to the value of the real property.

84.41.041 Physical inspection and valuation of taxable property required—Adjustments during intervals based on statistical data. (1) Each county assessor must cause taxable real property to be physically inspected and valued at least once every six years in accordance with RCW 84.41.030, and in accordance with a plan filed with and approved by the department of revenue. Such revaluation plan must provide that all taxable real property within a county must be revalued and these newly determined values placed on the assessment rolls each year. Property must be valued at one hundred percent of its true and fair value and assessed on the same basis, in accordance with RCW 84.40.030, unless specifically provided otherwise by law. During the intervals between each physical inspection of real property, the valuation of such property may be adjusted to its current true and fair value, such adjustments to be based upon appropriate statistical data. If the revaluation plan provides for physical inspection less frequently than once each four years, during the intervals between each physical inspection of real property, the valuation of such property must be adjusted to its current true and fair value, such adjustments to be made once each year and to be based upon appropriate statistical data.

(2) The assessor may require property owners to submit pertinent data respecting taxable property in their control including data respecting any sale or purchase of said property within the past five years, the cost and characteristics of any improvement on the property and other facts necessary for appraisal of the property. 84.48.034 County board of equalization—Duration of order. The board of equalization may enter an order that has effect up to the end of the assessment year, if there has been no intervening change in the value during that time. [2015 c 86 § 104; 1994 c 301 § 47.]

84.48.065 Cancellation and correction of erroneous assessments and assessments on property on which land use designation is changed. (1)(a) The county assessor or treasurer may cancel or correct assessments on the assessment or tax rolls which are erroneous due to manifest errors in description, double assessments, clerical errors in extending the rolls, and such manifest errors in the listing of the property that do not involve a revaluation of property, except in the case that a taxpayer produces proof that an authorized land use authority has made a definitive change in the property's land use designation. In such a case, correction of the assessment or tax rolls may be made notwithstanding the fact that the action involves a revaluation of property. Manifest errors that do not involve a revaluation of property include the assessment of property exempted by law from taxation or the failure to deduct the exemption allowed by law to the head of a family. When the county assessor cancels or corrects an assessment, the assessor must send a notice to the taxpayer in accordance with RCW 84.40.045, advising the taxpayer that the action has been taken and notifying the taxpayer of the right to appeal the cancellation or correction to the county board of equalization, in accordance with RCW 84.40.038. When the county assessor or treasurer cancels or corrects an assessment, a record of the action must be prepared, setting forth therein the facts relating to the error. The record must also set forth by legal description all property belonging exclusively to the state, any county, or any municipal corporation whose property is exempt from taxation, upon which there remains, according to the tax roll, any unpaid taxes.

(b) Except as otherwise provided in this subsection (1)(b), no manifest error cancellation or correction, including a cancellation or correction made due to a definitive change of land use designation, may be made for any period more than three years preceding the year in which the error is discovered. However, a manifest error cancellation or correction may be made for a period more than three years preceding the year in which the error is discovered if authorized by the county legislative authority and the manifest error cancellation or correction would result in a refund or reduction of taxes for a property owner.

(2)(a) In the case of a definitive change of land use designation, an assessor must make corrections that involve a revaluation of property to the assessment roll when:

(i) The assessor and taxpayer have signed an agreement as to the true and fair value of the taxpayer's property setting forth in the agreement the valuation information upon which the agreement is based; and

(ii) The assessment roll has previously been certified in accordance with RCW 84.40.320.

(b) In all other cases, an assessor must make corrections that involve a revaluation of property to the assessment roll when:

(i) The assessor and taxpayer have signed an agreement as to the true and fair value of the taxpayer's property setting

forth in the agreement the valuation information upon which the agreement is based; and

(ii) The following conditions are met:

(A) The assessment roll has previously been certified in accordance with RCW 84.40.320;

(B) The taxpayer has timely filed a petition with the county board of equalization pursuant to RCW 84.40.038 for the current assessment year;

(C) The county board of equalization has not yet held a hearing on the merits of the taxpayer's petition.

(3) The assessor must issue a supplementary roll or rolls including such cancellations and corrections, and the assessment and levy have the same force and effect as if made in the first instance, and the county treasurer must proceed to collect the taxes due on the rolls as modified. 84.52.010 Taxes levied or voted in specific amounts—Effect of constitutional and statutory limitations. (*Effective until January 1, 2018.*) (1) Except as is permitted under RCW 84.55.050, all taxes must be levied or voted in specific amounts.

(2) The rate percent of all taxes for state and county purposes, and purposes of taxing districts coextensive with the county, must be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the county, as shown by the completed tax rolls of the county, and the rate percent of all taxes levied for purposes of taxing districts within any county must be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the taxing districts respectively.

(3) When a county assessor finds that the aggregate rate of tax levy on any property, that is subject to the limitations set forth in RCW 84.52.043 or 84.52.050, exceeds the limitations provided in either of these sections, the assessor must recompute and establish a consolidated levy in the following manner:

(a) The full certified rates of tax levy for state, county, county road district, regional transit authority, and city or town purposes must be extended on the tax rolls in amounts not exceeding the limitations established by law; however

any state levy takes precedence over all other levies and may not be reduced for any purpose other than that required by RCW 84.55.010. If, as a result of the levies imposed under RCW 36.54.130, 84.34.230, 84.52.069, 84.52.105, the portion of the levy by a metropolitan park district that was protected under RCW 84.52.120, 84.52.125, 84.52.135, 84.52.140, and the protected portion of the levy under RCW 86.15.160 by flood control zone districts in a county with a population of seven hundred seventy-five thousand or more that are coextensive with a county, the combined rate of regular property tax levies that are subject to the one percent limitation exceeds one percent of the true and fair value of any property, then these levies must be reduced as follows:

(i) The portion of the levy by a metropolitan park district that has a population of less than one hundred fifty thousand and is located in a county with a population of one million five hundred thousand or more that is protected under RCW 84.52.120 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(ii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the protected portion of the levy imposed under RCW 86.15.160 by a flood control zone district in a county with a population of seven hundred seventy-five thousand or more that is coextensive with a county must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(iii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a county under RCW 84.52.140 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(iv) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a fire protection district that is protected under RCW 84.52.125 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(v) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a county under RCW 84.52.135 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(vi) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a ferry district under RCW 36.54.130 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(vii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a metropolitan park district with a population of one hundred fifty thousand or more that is protected under RCW 84.52.120 must be reduced until the combined rate no

longer exceeds one percent of the true and fair value of any property or must be eliminated;

(viii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the levies imposed under RCW 84.34.230, 84.52.105, and any portion of the levy imposed under RCW 84.52.069 that is in excess of thirty cents per thousand dollars of assessed value, must be reduced on a pro rata basis until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated; and

(ix) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the thirty cents per thousand dollars of assessed value of tax levy imposed under RCW 84.52.069 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated.

(b) The certified rates of tax levy subject to these limitations by all junior taxing districts imposing taxes on such property must be reduced or eliminated as follows to bring the consolidated levy of taxes on such property within the provisions of these limitations:

(i) First, the certified property tax levy authorized under RCW 84.52.821 must be reduced on a pro rata basis or eliminated;

(ii) Second, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of those junior taxing districts authorized under RCW 36.68.525, 36.69.145, 35.95A.100, and 67.38.130 must be reduced on a pro rata basis or eliminated;

(iii) Third, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of flood control zone districts other than the portion of a levy protected under RCW 84.52.815 must be reduced on a pro rata basis or eliminated;

(iv) Fourth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of all other junior taxing districts, other than fire protection districts, regional fire protection service authorities, library districts, the first fifty cent per thousand dollars of assessed valuation levies for metropolitan park districts, and the first fifty cent per thousand dollars of assessed valuation levies for public hospital districts, must be reduced on a pro rata basis or eliminated;

(v) Fifth, if the consolidated tax levy rate still exceeds these limitations, the first fifty cent per thousand dollars of assessed valuation levies for metropolitan park districts created on or after January 1, 2002, must be reduced on a pro rata basis or eliminated;

(vi) Sixth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized to fire protection districts under RCW 52.16.140 and 52.16.160 and regional fire protection service authorities under RCW 52.26.140(1) (b) and (c) must be reduced on a pro rata basis or eliminated; and

(vii) Seventh, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized for fire protection districts under RCW 52.16.130, regional fire protection service authorities under RCW 52.26.140(1)(a), library districts, metropolitan park districts

created before January 1, 2002, under their first fifty cent per thousand dollars of assessed valuation levy, and public hospital districts under their first fifty cent per thousand dollars of assessed valuation levy, must be reduced on a pro rata basis or eliminated. Finding—1993 c 337: See note following RCW 84.52.105.

Purpose—1988 c 274: "The legislature finds that, due to statutory and constitutional limitations, the interdependence of the regular property tax levies of the state, counties, county road districts, cities and towns, and junior taxing districts can cause significant reductions in the otherwise authorized levies of those taxing districts, resulting in serious disruptions to essential services provided by those taxing districts. The purpose of this act is to avoid unnecessary reductions in regular property tax revenue without exceeding existing statutory and constitutional tax limitations on cumulative regular property tax levy rates. The legislature declares that it is a purpose of the state, counties, county road districts, cities and towns, public hospital districts, library districts, fire protection districts, metropolitan park districts, and other taxing districts to participate in the methods provided by this act by which revenue levels supporting the services provided by all taxing districts might be maintained." [1988 c 274 § 1.]

Intent—1970 ex.s. c 92: "It is the intent of this 1970 amendatory act to prevent a potential doubling of property taxes that might otherwise result from the enforcement of the constitutionally required fifty percent assessment ratio as of January 1, 1970, and to adjust property tax millage rates for subsequent years to levels which will conform to the requirements of any constitutional amendment imposing a one percent limitation on property taxes. It is the further intent of this 1970 amendatory act that the statutory authority of any taxing district to impose excess levies shall not be impaired

by reason of the reduction in millage rates for regular property tax levies. This 1970 amendatory act shall be construed to effectuate the legislative intent expressed in this section." [1970 ex.s. c 92 § 1.]

84.52.010 Taxes levied or voted in specific amounts—Effect of constitutional and statutory limitations. (Effective January 1, 2018.) (1) Except as is permitted under RCW 84.55.050, all taxes must be levied or voted in specific amounts.

(2) The rate percent of all taxes for state and county purposes, and purposes of taxing districts coextensive with the county, must be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the county, as shown by the completed tax rolls of the county, and the rate percent of all taxes levied for purposes of taxing districts within any county must be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the taxing districts respectively.

(3) When a county assessor finds that the aggregate rate of tax levy on any property, that is subject to the limitations set forth in RCW 84.52.043 or 84.52.050, exceeds the limitations provided in either of these sections, the assessor must recompute and establish a consolidated levy in the following manner:

(a) The full certified rates of tax levy for state, county, county road district, regional transit authority, and city or town purposes must be extended on the tax rolls in amounts not exceeding the limitations established by law; however any state levy takes precedence over all other levies and may not be reduced for any purpose other than that required by RCW 84.55.010. If, as a result of the levies imposed under RCW 36.54.130, 84.34.230, 84.52.069, 84.52.105, the portion of the levy by a metropolitan park district that was protected under RCW 84.52.120, 84.52.125, 84.52.135, and 84.52.140, and the portion of the levy by a flood control zone district that was protected under RCW 84.52.816, the combined rate of regular property tax levies that are subject to the one percent limitation exceeds one percent of the true and fair value of any property, then these levies must be reduced as follows:

(i) The portion of the levy by a flood control zone district that was protected under RCW 84.52.816 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(ii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a county under RCW 84.52.140 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(iii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a fire protection district that is protected under RCW 84.52.125 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(iv) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a county under RCW 84.52.135 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(v) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a ferry district under RCW 36.54.130 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(vi) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a metropolitan park district that is protected under RCW 84.52.120 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(vii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the levies imposed under RCW 84.34.230, 84.52.105, and any portion of the levy imposed under RCW 84.52.069 that is in excess of thirty cents per thousand dollars of assessed value, must be reduced on a pro rata basis until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated; and

(viii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the thirty cents per thousand dollars of assessed value of tax levy imposed under RCW 84.52.069 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or eliminated.

(b) The certified rates of tax levy subject to these limitations by all junior taxing districts imposing taxes on such property must be reduced or eliminated as follows to bring the consolidated levy of taxes on such property within the provisions of these limitations:

(i) First, the certified property tax levy authorized under RCW 84.52.821 must be reduced on a pro rata basis or eliminated;

(ii) Second, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of those junior taxing districts authorized under RCW 36.68.525, 36.69.145, 35.95A.100, and 67.38.130 must be reduced on a pro rata basis or eliminated;

(iii) Third, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of flood control zone districts other than the portion of a levy protected under RCW 84.52.816 must be reduced on a pro rata basis or eliminated;

(iv) Fourth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of all other junior taxing districts, other than fire protection districts, regional fire protection service authorities, library districts, the first fifty cent per thousand dollars of assessed valuation levies for metropolitan park districts, and the first fifty cent per thousand dollars of assessed valuation levies for

public hospital districts, must be reduced on a pro rata basis or eliminated;

(v) Fifth, if the consolidated tax levy rate still exceeds these limitations, the first fifty cent per thousand dollars of assessed valuation levies for metropolitan park districts created on or after January 1, 2002, must be reduced on a pro rata basis or eliminated;

(vi) Sixth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized for fire protection districts under RCW 52.16.140 and 52.16.160 and regional fire protection service authorities under RCW 52.26.140(1) (b) and (c) must be reduced on a pro rata basis or eliminated; and

(vii) Seventh, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized for fire protection districts under RCW 52.16.130, regional fire protection service authorities under RCW 52.26.140(1)(a), library districts, metropolitan park districts created before January 1, 2002, under their first fifty cent per thousand dollars of assessed valuation levy, and public hospital districts under their first fifty cent per thousand dollars of assessed valuation levy, must be reduced on a pro rata basis or eliminated. Purpose—1988 c 274: "The legislature finds that, due to statutory and constitutional limitations, the interdependence of the regular property tax levies of the state, counties, county road districts, cities and towns, and junior taxing districts can cause significant reductions in the otherwise authorized levies of those taxing districts, resulting in serious disruptions to essential services provided by those taxing districts. The purpose of this act is to avoid unnecessary reductions in regular property tax revenue without exceeding existing statutory and constitutional tax limitations on cumulative regular property tax levy rates. The legislature declares that it is a purpose of the state, counties, county road districts, cities and towns, public hospital districts, library districts, fire protection districts, metropolitan park districts, and other taxing districts to participate in the methods provided by this act by which revenue levels supporting the services provided by all taxing districts might be maintained." 84.52.816 Flood control zone—Prorating protection. (Effective January 1, 2018.) A flood control zone district in a county with a population of seven hundred seventy-five thousand or more, or a county within the Chehalis river basin, that is coextensive with a county may protect the levy under RCW 86.15.160 from prorating under *RCW 84.52.010(3)(b)(ii) by imposing up to a total of twenty-five cents per thousand dollars of assessed value of the tax levy authorized under RCW 86.15.160 outside of the five dollars and ninety cents per thousand dollars of assessed value limitation under RCW 84.52.043(2), if those taxes otherwise would be prorated under *RCW 84.52.010(3)(b)(ii). [2015 c 170 § 3.]

***Reviser's note:** RCW 84.52.010 was amended by 2015 3rd sp.s. c 44 § 325 and 2015 3rd sp.s. c 24 § 405, changing subsection (3)(b)(ii) to subsection (3)(b)(iii).

Effective date—2015 c 170: "This act takes effect January 1, 2018." [2015 c 170 § 6.]

Findings—Intent—2015 c 170: "The legislature finds that flooding is a critical problem in Washington. The legislature further finds that flooding can result in loss of human life, damage to property, destruction of infrastructure, and bring economic activity to a standstill. The legislature further finds that flood control zone districts offer critical services that protect our state by mitigating the devastating impacts of flooding. It is the legislature's public policy objective to maximize available financing tools to flood control zone districts to continue their important work. Therefore, it is the legislature's intent to exempt levies imposed by a qualifying flood control zone district from certain limitations upon regular property tax levies." [2015 c 170 § 1.]

Application—2015 c 170: "This act applies to taxes levied for collection in 2018 and thereafter." [2015 c 170 § 5.]

84.52.821 Property tax. (1) The legislative authority of a county or city may impose an additional regular property tax levy for the purposes authorized under chapter 36.160 RCW. The legislative authority of the county or city may impose the additional levy by ordinance and must condition its imposition of the levy upon prior specific authorization of a majority of the voters voting on a proposition submitted at

a special or general election held after June 30, 2016. The ordinance and the ballot proposition must set forth the total dollar amount to be collected in the first year of the levy and the estimated levy rate for the first year and may provide for a levy for a period of up to seven consecutive years. The total dollar amount to be set forth in the ordinance and the ballot proposition may not exceed an amount equal to: The total taxable retail sales and taxable uses in the county or the city levying the property tax for the most recent calendar year as reported by the department multiplied by one-tenth of one percent. Any county or city levying the property tax in this section must calculate the total dollar amount to be collected using the most recent calendar year publicly available data of taxable retail sales published on the department's web site.

(2) The legislative authority of a county or city may reimpose an additional regular property tax levy imposed under subsection (1) of this section for one or more additional periods of up to seven consecutive years. The legislative authority of the county or city may only reimpose the regular property tax levy by ordinance and on the prior specific authorization of a majority of the voters voting on a proposition submitted at a special or general election. The ordinance and the ballot proposition must set forth the total dollar amount to be collected in the first year and the estimated levy rate for the first year of the reimposed levy. The total dollar amount to be set forth in the ordinance and the ballot proposition may not exceed an amount equal to: The total taxable retail sales and taxable uses in the county or the city levying the property tax for the most recent calendar year as reported by the department multiplied by one-tenth of one percent. Any county or city levying the property tax in this section must calculate the total dollar amount to be collected using the most recent calendar year publicly available data of taxable retail sales published on the department's web site.

(3) In the event a county or city is levying property taxes under this section that, in combination with property taxes levied by other taxing districts, exceed the limitation in RCW 84.52.050 or 84.52.043(2), the county's or city's property tax levy under this section must be reduced or eliminated consistent with RCW 84.52.010.

(4) The limitation in RCW 84.55.010 does not apply to the first levy imposed under subsection (1) of this section or to the first levy reimposed under subsection (2) of this section.

(5) The limitations in RCW 84.52.043(1) do not apply to the tax levy authorized in this section.

(6) Moneys collected under this section may only be used for the purposes set forth in RCW 36.160.110.

(7) The definitions in RCW 36.160.020 apply to this section. [2015 3rd sp.s. c 24 § 403.]

[2015 RCW Supp—page 1080]

84.55.130 Inapplicability of limitation to certain multiyear levy periods by port districts. (1) Except as provided in RCW 53.36.160(3), RCW 84.55.010 does not apply to a levy under RCW 53.36.160.

(2) For purposes of applying the provisions of this chapter, a levy by or for a port district under RCW 53.36.160(3) must be treated in the same manner as a separate regular property tax levy made by or for a separate taxing district. [2015 c 135 § 3.]

Chapter 84.56 RCW COLLECTION OF TAXES

Sections

84.56.070 Personal property—Distraint and sale, notice, property incapable of manual delivery, property about to be removed or disposed of.

84.56.090 Distraint and sale of property about to be removed, dissipated, sold, or disposed of—Computation of taxes, entry on rolls, tax liens.

84.56.070 Personal property—Distraint and sale, notice, property incapable of manual delivery, property about to be removed or disposed of. (1) The county treasurer must proceed to collect all personal property taxes after first completing the tax roll for the current year's collection.

(2) The treasurer must give notice by mail to all persons charged with personal property taxes, and if the taxes are not paid before they become delinquent, the treasurer must commence delinquent collection efforts. A delinquent collection charge for costs incurred by the treasurer may be added to the account.

(3) In the event that the treasurer is unable to collect the taxes when due under this section, the treasurer must prepare papers in distraint. The papers must contain a description of the personal property, the amount of taxes, the amount of the accrued interest at the rate provided by law from the date of delinquency, and the name of the owner or reputed owner.

(a) The treasurer must without demand or notice distraint sufficient goods and chattels belonging to the person charged with the taxes to pay the same, with interest at the rate provided by law from the date of delinquency, together with all accruing costs. The treasurer must proceed to advertise the distraint by posting written notices in three public places in the county in which the property has been distrained, including the county courthouse. The notice must state the time when and place where the property will be sold.

(b) The county treasurer, or the treasurer's deputy, must tax the same fees for making the distraint and sale of goods and chattels for the payment of taxes as are allowed by law to sheriffs for making levy and sale of property on execution. Traveling fees must be computed from the county seat of the county to the place of making distraint.

(c) If the taxes for which the property is distrained, and the interest and costs accruing thereon, are not paid before the date appointed for the sale, which may not be less than ten days after the taking of the property, the treasurer or treasurer's designee must proceed to sell the property at public auction, or so much thereof as is sufficient to pay the taxes, with interest and costs. If there is any excess of money arising from the sale of any personal property, the treasurer must pay

the excess less any cost of the auction to the owner of the property so sold or to his or her legal representative.

(d) If necessary to distraint any standing timber owned separately from the ownership of the land upon which the same may stand, or any fish trap, pound net, reef net, set net, or drag seine fishing location, or any other personal property as the treasurer determines to be incapable or reasonably impracticable of manual delivery, it is deemed to have been distrained and taken into possession when the treasurer has, at least thirty days before the date fixed for the sale thereof, filed with the auditor of the county wherein the property is located a notice in writing reciting that the treasurer has distrained the property. The notice must describe the property, give the name of the owner or reputed owner, the amount of the tax due, with interest, and the time and place of sale. A copy of the notice must also be sent to the owner or reputed owner at his or her last known address, by registered letter at least thirty days prior to the date of sale.

(e) If the county treasurer has reasonable grounds to believe that any personal property, including mobile homes, manufactured homes, or park model trailers, upon which taxes have been levied, but not paid, is about to be removed from the county where the property has been assessed, or is about to be destroyed, sold, or disposed of, the county treasurer may demand the taxes, without the notice provided for in this section, and if necessary distraint sufficient goods and chattels to pay the same.

(4) As an alternative to the sale procedure specified in this section, the county treasurer may conduct a public auction sale by electronic media pursuant to RCW 36.16.145. 84.56.090 Distraint and sale of property about to be removed, dissipated, sold, or disposed of—Computation of taxes, entry on rolls, tax liens. (1) Whenever in the judgment of the assessor or the county treasurer personal property is being removed or is about to be removed from the state, or is being dissipated or about to be dissipated, or is being or about to be sold, disposed of, or removed from the county so as to jeopardize collection of taxes, the treasurer must immediately prepare papers in distraint. The papers must contain a description of the personal property, including mobile homes, manufactured homes, or park model trailers, being or about to be removed, dissipated, sold, disposed of, or removed from the county so as to jeopardize collection of taxes, the amount of the tax, the amount of accrued interest at the rate provided by law from the date of delinquency, and the name of the owner or reputed owner. The treasurer must, without demand or notice, distraint sufficient goods and chattels belonging to the person charged with the taxes to pay the taxes with interest at the rate provided by law from the date of delinquency,

together with all accruing costs. The treasurer must advertise and sell the property as provided in RCW 84.56.070 or subsection (4) of this section.

(2) If the personal property is being removed or is about to be removed from the state, is being dissipated or about to be dissipated, or is being or about to be sold, disposed of, or removed from the county so as to jeopardize collection of taxes, at any time subsequent to the first day of January in any year, and prior to the levy of taxes thereon, the taxes upon the property so distrained must be computed upon the rate of levy for state, county, and local purposes for the preceding year. All taxes collected in advance of levy under this section and RCW 84.56.120, together with the name of the owner and a brief description of the property assessed, must be entered forthwith by the county treasurer upon the personal property tax rolls of such preceding year, and all collections thereon must be considered and treated in all respects, and without recourse by either the owner or any taxing unit, as collections for such preceding year. Property on which taxes are thus collected are discharged from the lien of any taxes that may thereafter be levied in the year in which payment or collection is made.

(3) Whenever property has been removed from the county wherein it has been assessed, on which the taxes have not been paid, then the county treasurer, or the treasurer's deputy, has the same power to distraint and sell the property for the satisfaction of the taxes as he or she would have if the property were situated in the county in which the property was taxed. In addition, the treasurer, or the treasurer's deputy, in the distraint and sale of property for the payment of taxes, has the same powers as the sheriff in making levy and sale of property on execution.

(4) As an alternative to the sale procedure specified in RCW 84.56.070, the county treasurer may conduct a public auction sale by electronic media pursuant to RCW 36.16.145. 84.64.080 Foreclosure proceedings—Judgment—Sale—Notice—Form of deed—Recording. (1) The court must examine each application for judgment foreclosing a tax lien, and if a defense (specifying in writing the particular cause of objection) is offered by any person interested in any of the lands or lots to the entry of judgment, the court must hear and determine the matter in a summary manner, without other pleadings, and pronounce judgment. However, the court may, in its discretion, continue a case in which a defense is offered, to secure substantial justice to the contestants.

(2) In all judicial proceedings for the collection of taxes, and interest and costs thereon, all amendments which by law can be made in any personal action in the court must be allowed. No assessments of property or charge for any of the taxes is illegal on account of any irregularity in the tax list or assessment rolls, or on account of the assessment rolls or tax list not having been made, completed, or returned within the time required by law, or on account of the property having been charged or listed in the assessment or tax lists without name, or in any other name than that of the owner, and no error or informality in the proceedings of any of the officers connected with the assessment, levying or collection of the taxes, vitiates or in any manner affects the tax or the assessment of the tax. Any irregularities or informality in the assessment rolls or tax lists or in any of the proceedings connected with the assessment or levy of the taxes, or any omission or defective act of any officer connected with the assessment or levying of the taxes, may be, in the discretion of the court, corrected, supplied, and made to conform to the law by the court.

(3) The court must give judgment for the taxes, interest, and costs that appear to be due upon the several lots or tracts described in the notice of application for judgment. The judgment must be a several judgment against each tract or lot or part of a tract or lot for each kind of tax included therein, including all interest and costs. The court must order and direct the clerk to make and enter an order for the sale of the real property against which judgment is made, or vacate and set aside the certificate of delinquency, or make such other order or judgment as in law or equity may be just. The order must be signed by the judge of the superior court and deliv-

ered to the county treasurer. The order is full and sufficient authority for the treasurer to proceed to sell the property for the sum set forth in the order and to take further steps provided by law.

(4) The county treasurer must immediately after receiving the order and judgment proceed to sell the property as provided in this chapter to the highest and best bidder. The acceptable minimum bid must be the total amount of taxes, interest, and costs.

(5) All sales must be made at a location in the county on a date and time (except Saturdays, Sundays, or legal holidays) as the county treasurer may direct, and continue from day to day (Saturdays, Sundays, and legal holidays excepted) during the same hours until all lots or tracts are sold. The county treasurer must first give notice of the time and place where the sale is to take place for ten days successively by posting notice thereof in three public places in the county, one of which must be in the office of the treasurer.

(6) Unless a sale is conducted pursuant to RCW 84.64.225, notice of a sale must be substantially in the following form:

(8) No county officer or employee may directly or indirectly be a purchaser of the property at the sale.

(9) If any buildings or improvements are upon an area encompassing more than one tract or lot, the same must be advertised and sold as a single unit.

(10) If the highest amount bid for any separate unit tract or lot exceeds the minimum bid due upon the whole property included in the certificate of delinquency, the excess must be refunded, following payment of all recorded water-sewer district liens, on application therefor, to the record owner of the property. The record owner of the property is the person who held title on the date of issuance of the certificate of delinquency. Assignments of interests, deeds, or other documents executed or recorded after filing the certificate of delinquency do not affect the payment of excess funds to the record owner. In the event that no claim for the excess is received by the county treasurer within three years after the date of the sale, the treasurer must at expiration of the three year period deposit the excess in the current expense fund of the county, which extinguishes all claims by any owner to the excess funds.

Any voter of a special district may become a candidate for such a position by filing written notice of this intention with the county auditor at least thirty, but not more than sixty, days before a special district general election. The county auditor in consultation with the special district shall establish the filing period. The names of all candidates for such positions shall be listed alphabetically. At this first election, the candidate receiving the greatest number of votes shall have a six-year term, the candidate receiving the second greatest number of votes shall have a four-year term, and the candidate receiving the third greatest number of votes shall have a two-year term of office. The initially elected members of a governing body shall take office immediately when qualified as defined in RCW 29A.04.133. Thereafter the candidate receiving the greatest number of votes shall be elected for a six-year term of office. Members of a governing body shall hold their office until their successors are elected and qualified, and assume office as soon as the election returns have been certified.

(4) The requirements for the filing period and method for filing declarations of candidacy for the governing body of the district and the arrangement of candidate names on the ballot for all special district elections conducted after the initial election in the district shall be the same as the requirements for the initial election in the district. No primary elections may be held for the governing body of a special district.

(5) Whenever a vacancy occurs in the governing body of a special district, the legislative authority of the county within which the special district, or the largest portion of the special district, is located, shall appoint a district voter to serve until a person is elected, at the next special district general election occurring sixty or more days after the vacancy has occurred, to serve the remainder of the unexpired term. The person so elected shall take office immediately when qualified as defined in RCW 29A.04.133.

If an election for the position which became vacant would otherwise have been held at this special district election, only one election shall be held and the person elected to fill the succeeding term for that position shall take office immediately when qualified as defined in RCW 29A.04.133 and shall serve both the remainder of the unexpired term and the succeeding term. A vacancy occurs upon the death, resignation, or incapacity of a governing body member or whenever the governing body member ceases being a qualified voter of the special district.

(6) An elected or appointed member of a special district governing body, or a candidate for a special district governing body, must be a qualified voter of the special district: PROVIDED, That the state, its agencies and political subdivisions, or their designees under RCW 85.38.010(3) shall not be eligible for election or appointment. FLOOD CONTROL ZONE DISTRICTS

Sections

- 86.15.050 Zones—Supervisors—Election of supervisors.
86.15.055 Elected supervisors—Compensation.

86.15.050 Zones—Supervisors—Election of supervisors. (1) The board of county commissioners of each county shall be ex officio, by virtue of their office, supervisors of the zones created in each county. In any zone with more than two thousand residents, an election of supervisors other than the board of county commissioners may be held as provided in this section.

(2) When proposed by citizen petition or by resolution of the board of county commissioners, a ballot proposition authorizing election of the supervisors of a zone shall be submitted by ordinance to the voters residing in the zone at any general election, or at any special election which may be called for that purpose.

(3) The ballot proposition shall be submitted (a) if the board of county supervisors enacts an ordinance submitting the proposition after adopting a resolution proposing the election of supervisors of a zone; or (b) if a petition proposing the election of supervisors of a zone is submitted to the county auditor of the county in which the zone is located that is signed by registered voters within the zone, numbering at least fifteen percent of the votes cast in the last county general election by registered voters within the zone.

(4) Upon receipt of a citizen petition under subsection (3)(b) of this section, the county auditor shall determine whether the petition is signed by a sufficient number of registered voters, using the registration records and returns of the preceding general election, and, no later than forty-five days after receipt of the petition, shall attach to the petition the auditor's certificate stating whether or not sufficient signatures have been obtained. If the signatures are found by the auditor to be insufficient, the petition shall be returned to the person filing it.

(5) The ballot proposition authorizing election of supervisors of zones shall appear on the ballot of the next general election or at the next special election date specified under RCW 29A.04.330 occurring sixty or more days after the last resolution proposing election of supervisors or the date the county auditor certifies that the petition proposing such election contains sufficient valid signatures.

(6) The petition proposing the election of zone supervisors, or the ordinance submitting the question to the voters, shall describe the proposed election process. The ballot proposition shall include the following:

"For the direct election of flood control zone district supervisors."

"Against the direct election of flood control zone district supervisors."

(7) The ordinance or petition submitting the ballot proposition shall designate the proposed composition of the supervisors of zones, which shall be clearly described in the ballot proposition. The ballot proposition shall state that the zone supervisors shall thereafter be selected by election, and, at the same election at which the proposition is submitted to the voters as to whether to elect zone supervisors, three zone supervisors shall be elected. The election of zone supervisors is null and void if the voters, by a simple majority, do not approve the direct election of the zone supervisors. Candidates shall run for specific supervisor positions. No primary may be held to nominate candidates. The person receiving the greatest number of votes for each position shall be elected as a supervisor. The staggering of the terms of office shall occur as follows: (a) The person who is elected receiving the greatest number of votes shall be elected to a six-year term of office if the election is held in an odd-numbered year or a five-year term of office if the election is held in an even-numbered year; (b) the person who is elected receiving the second greatest number of votes shall be elected to a four-year term of office if the election is held in an odd-numbered year or a three-year term of office if the election is held in an even-numbered year; and (c) the other person who is elected shall be elected to a two-year term of office if the election is held in an odd-numbered year or a one-year term of office if the election is held in an even-numbered year. The initial supervisors shall take office immediately when they are elected and qualified, and for purposes of computing their terms of office the terms shall be assumed to commence on the first day of January in the year after they are elected. Thereafter, all supervisors shall be elected to six-year terms of office. All supervisors shall serve until their respective successors are elected and qualified and assume office in accordance with RCW 29A.60.280. Vacancies may occur and shall be filled as provided in chapter 42.12 RCW.

(8) The costs and expenses directly related to the election of zone supervisors shall be borne by the zone. [2015 c 53 § 102; 2003 c 304 § 1; 1961 c 153 § 5.]

86.15.055 Elected supervisors—Compensation. (1) In a zone with supervisors elected pursuant to RCW 86.15.050, the supervisors may, as adjusted in accordance with subsection (4) of this section, each receive up to one hundred fourteen dollars per day or portion of a day spent in actual attendance at official meetings of the governing body or in performance of other official services or duties on behalf of the zone. The compensation for supervisors in office on January 1, 2015, is fixed at one hundred fourteen dollars per day. The board of county commissioners shall fix any such compensation to be paid to the initial supervisors during their initial terms of office. The supervisors shall fix the compensation to be paid to the supervisors thereafter. Compensation for the supervisors shall not exceed ten thousand nine hundred forty-four dollars in one calendar year.

(2) A supervisor is entitled to reimbursement for reasonable expenses actually incurred in connection with performance of the duties of a supervisor, including subsistence and lodging, while away from the supervisor's place of residence,

and mileage for use of a privately owned vehicle in accordance with chapter 42.24 RCW.

(3) Any supervisor may waive all or any portion of his or her compensation payable under this section as to any month or months during his or her term of office, by a written waiver filed with the supervisors as provided in this section. The waiver, to be effective, must be filed any time after the member's election and prior to the date on which the compensation would otherwise be paid. The waiver shall specify the month or period of months for which it is made.

(4) The dollar thresholds established in this section must be adjusted for inflation by the office of financial management every five years, beginning July 1, 2018, based upon changes in the consumer price index during that time period. "Consumer price index" means, for any calendar year, that year's annual average consumer price index, for Washington state, for wage earners and clerical workers, all items, compiled by the bureau of labor and statistics, United States department of labor. If the bureau of labor and statistics develops more than one consumer price index for areas within the state, the index covering the greatest number of people, covering areas exclusively within the boundaries of the state and including all items, must be used for the adjustments of inflation in this section. The office of financial management must calculate the new dollar threshold and transmit it to the office of the code reviser for publication in the Washington State Register at least one month before the new dollar threshold is to take effect. [2015 c 165 § 1; 2005 c 127 § 2.]

Effective date—2005 c 127: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [April 21, 2005]." [2005 c 127 § 3.]

87.06.040 Commencement of action to foreclose assessment liens—Notice and summons—Recording of notice of lis pendens. (1) After the completion of the title searches, the treasurer, in the name of the irrigation district, shall commence legal action to foreclose on the assessment liens. The treasurer shall give notice of application for judgment foreclosing assessment liens and summons to all parties in interest as disclosed by the title search. The treasurer may include in any notice any number of separate properties. Such notice and summons shall contain:

(a) A statement that the irrigation district is applying to superior court of the county in which the property is located for a judgment foreclosing the lien against the property for delinquent assessments, costs, and interest;

(b) The full name of the superior court in which the district is applying for the judgment; and for each property: The description of the property, the local street address (if any), and the name of each party in interest;

(c) A description of the lien amount due, which shall include the amount listed in RCW 87.06.020(1)(d), plus any costs and interest accruing since the date of preparation of the certificate of delinquency;

(d) A direction to each party in interest summoning the party to appear within sixty days after service of the notice and summons, exclusive of the day of the service, and defend the action or pay the lien amount due; and when service is made by publication, a direction summoning each party to appear within sixty days after the date of the first publication of the notice and summons, exclusive of the day of first publication, and defend the action or pay the amount due;

(e) A notice that, in case of failure to defend or pay the amount due, judgment will be rendered foreclosing the lien of the assessments, costs, and interest against the property; and

(f) The date, time, and place of the foreclosure sale as specified in the application for judgment.

(2) The treasurer shall record in the office of the auditor of the county in which the property is located a notice of lis pendens before commencing the service of the notice and summons.

(3) The notice and summons shall be served in a manner reasonably calculated to inform each party in interest of the foreclosure action. At a minimum, service shall be accomplished by either (a) personal service upon a party in interest, or (b) publication once in a newspaper of general circulation that is circulated in the area in which the property is located and mailing of notice by certified mail to the party in interest.

(4) Notice and summons need not be served on holders of easements on the property if the easements are a matter of public record in the auditor's office of the county in which the property is located. Any foreclosure of delinquent assessments on any tract, lot, or parcel of real property subject to such easement or easements, and any treasurer's deed subsequently issued, is subject to such easement or easements that were established of record before the date of the certificate of delinquency for which the delinquent assessment was foreclosed.

(5) It shall be the duty of the treasurer to mail a copy of the notice and summons, within fifteen days after the first publication or service thereof, to the treasurer of each county, city, or town within which any property involved in an assessment foreclosure is situated, but the treasurer's failure to do so shall not affect the jurisdiction of the court nor the priority of any assessment lien sought to be foreclosed. 87.80.130 Powers of board of joint control—Limitation. (1) A board of joint control created under the provisions of this chapter shall have full authority within its area of jurisdiction to enter into and perform any and all necessary contracts; to accept grants and loans, including, but not limited to, those provided under chapter 43.83B [RCW] and RCW

43.83.340, to appoint and employ and discharge the necessary officers, agents, and employees; to sue and be sued as a board but without personal liability of the members thereof in any and all matters in which all the irrigation entities represented on the board as a whole have a common interest without making the irrigation entities parties to the suit; to represent the entities in all matters of common interest as a whole within the scope of this chapter; and to do any and all lawful acts required and expedient to carry out the purposes of this chapter. A board of joint control may, subject to the same limitations as an irrigation district operating under chapter 87.03 RCW, acquire any property or property rights for use within the board's area of jurisdiction by power of eminent domain; acquire, purchase, or lease in its own name all necessary real or personal property or property rights; and sell, lease, or exchange any surplus real or personal property or property rights. Any transfers of water, however, are limited to transfers authorized under subsection (2) of this section.

(2)(a) A board of joint control is authorized and encouraged to pursue conservation and system efficiency improvements to optimize the use of appropriated waters and to either redistribute the saved water within its area of jurisdiction, or transfer the water to others, or both. A redistribution of saved water as an operational practice internal to the board of joint control's area of jurisdiction, may be authorized if it can be made without detriment or injury to rights existing outside of the board of control's area of jurisdiction, including instream flow water rights established under state or federal law.

(b) Prior to undertaking a water conservation or system efficiency improvement project that will result in a redistribution of saved water, the board of joint control must consult with the department of ecology and, if the board's jurisdiction is within a United States reclamation project, the board must obtain the approval of the bureau of reclamation. The purpose of such consultation is to assure that the proposal will not impair the rights of other water holders or bureau of reclamation contract water users.

(c) A board of joint control does not have the power to authorize a change of any water right that would change the point or points of diversion, purpose of use, or place of use outside the board's area of jurisdiction, without the approval of the department of ecology pursuant to RCW 90.03.380 and, if the board's jurisdiction is within a United States reclamation project, the approval of the bureau of reclamation. Any change in place of use that results from a transfer of water between the individual entities of the board of joint control shall not result in any reduction in the total water supply available in a federal reclamation project. In making the determination of whether a change of place of use in an area covered by a federal reclamation project will result in a reduction in the total water supply available, the board of joint control shall consult with the bureau of reclamation.

(d) The board of joint control shall notify the department of ecology, and any Indian tribe requesting notice, of transfers of water between the individual entities of the board of joint control. This subsection (2)(d) applies only to a board of joint control created after January 1, 2003.

(3) A board of joint control is authorized to design, construct, and operate either drainage projects, or water quality enhancement projects, or both.

(4) Where the board of joint control area of jurisdiction is totally within a federal reclamation project, the board is authorized to accept operational responsibility for federal reserved works.

(5) Nothing contained in this chapter gives a board of joint control the authority to abridge the existing rights, responsibilities, and authorities of an individual irrigation entity or others within the area of jurisdiction; nor in a case where the board of joint control consists of representatives of two or more divisions of a federal reclamation project shall the board of joint control abridge any powers of an existing board of control created through federal contract; nor shall a board of joint control have any authority to abridge or modify a water right benefiting lands within its area of jurisdiction without consent of the party holding the ownership interest in the water right.

(6) A board of joint control created under this chapter may not use any authority granted to it by this chapter or by RCW 90.03.380 to authorize a transfer of or change in a water right or to authorize a redistribution of saved water before July 1, 1997. Expiration date—2007 c 342 § 5: "Section 5 of this act expires June 30, 2012." [2007 c 342 § 9.]

Findings—Intent—2005 c 464: "The legislature finds that aquatic invasive species and freshwater aquatic algae are causing economic, environmental, and public health problems that affect the citizens and aquatic resources of our state. Many highly destructive species, such as the zebra mussel, are currently not found in Washington's waters and efforts should be made to prevent the introduction or spread of these aquatic invasive species into our state waters. Preventing new introductions is significantly less expensive and causes far less ecological damage than trying to control new infestations.

The legislature also finds that freshwater algae, particularly blue-green algae, are also seriously degrading the water quality and recreational value of a number of our lakes. Blue-green algae can produce toxins that inhibit recreational uses and pose a threat to humans and pets.

It is therefore the intent of the legislature to clarify the roles of the different state agencies involved in these issues in order to address the threat of aquatic invasive species and the problem caused by aquatic freshwater algae, and to provide a dedicated fund source to prevent and control further impacts." Reviser's note: This section was amended by 2015 3rd sp.s. c 6 § 803 and by 2015 3rd sp.s. c 44 § 216, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Findings—Intent—Tax preference performance statement—2015 3rd sp.s. c 6 §§ 802-805: "(1)(a) The legislature finds that a robust maritime industry is crucial for the state's economic vitality. The legislature further finds that:

(i) The joint task force for economic resilience of maritime and manufacturing established policy goals to continue efforts towards developing a robust maritime industry in the state;

(ii) The maritime industry has a direct and indirect impact on jobs in the state;

(iii) Many of the cities and towns impacted by the maritime industry are often small with limited resources to encourage economic growth, heavily relying on the maritime industry for local jobs and revenues in the community;

(iv) Keeping Washington competitive with other cruising destinations is essential to continue to build a robust maritime economy in the state; and

(v) Tax incentives are an imperative component to improve the state's overall competitiveness in this sector.

(b) Therefore, the legislature intends to:

(i) Bolster the maritime industry in the state by incentivizing larger vessel owners to use Washington waters for recreational boating to increase economic activity and jobs in coastal communities and inland water regions of the state;

(ii) Achieve this objective in a fiscally responsible manner and require analysis of specific metrics to ensure valuable state resources are being used to accomplish the intended goal; and

(iii) Provide limited, short-term tax relief to entity-owned nonresident vessel owners that currently are not afforded the same benefits as other nonresident vessel owners.

(2)(a) This subsection is the tax preference performance statement for the entity-owned nonresident vessel tax preference established in section 803 of this act. The performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(b) The legislature categorizes this tax preference as one intended to accomplish the purposes indicated in RCW 82.32.808(2)(c) and one intended to improve the state's competitiveness with other nearby cruising destinations.

(c) It is the legislature's specific public policy objective to increase economic activity and jobs related to the maritime industry by providing a tax preference for large entity-owned nonresident vessels to increase the length of time these vessels cruise Washington waters in turn strengthening the maritime economy in the state.

(d) To measure the effectiveness of the tax preference provided in part XII [VIII] of this act in achieving the public policy objective in (c) of this subsection, the joint legislative audit and review committee must provide the following in a published evaluation of this tax preference by December 31, 2024:

(i) A comparison of the gross and taxable revenue generated by businesses that sell or provide maintenance or repair of vessels, prior to and after the enactment of this tax preference;

(ii) Analysis of retail sales taxes collected from the restaurant and service industries in coastal and inlet coastal jurisdictions, for both counties and cities, for periods prior to and after the enactment of this tax preference;

(iii) Employment and wage trends for businesses described in (d)(i) and (ii) of this subsection, for periods prior to and after the enactment of this tax preference;

(iv) Descriptive statistics for the number of permits sold each year in addition to the following information:

(A) The cost for each permit by strata of vessel length;

(B) The jurisdiction of ownership for the nonresident vessel; and

(C) The amount of use tax that would have been due based on the estimated value of the vessel;

(v) A comparison of the number of registered entity-owned and individually owned vessels registered in Washington prior to and after the enactment of this tax preference; and

(vi) Data and analysis for Washington's main cruising destination competitors, specifically looking at tax preferences provided in those jurisdictions, vessel industry income data, and any additional relevant information to compare Washington's maritime climate with its competitors.

(e) The provision of RCW 82.32.808(5) does not apply to this tax preference." [2015 3rd sp.s. c 6 § 801.]

(i) Bolster the maritime industry in the state by incentivizing larger vessel owners to use Washington waters for recreational boating to increase economic activity and jobs in coastal communities and inland water regions of the state;

(ii) Achieve this objective in a fiscally responsible manner and require analysis of specific metrics to ensure valuable state resources are being used to accomplish the intended goal; and

(iii) Provide limited, short-term tax relief to entity-owned nonresident vessel owners that currently are not afforded the same benefits as other non-resident vessel owners.

(2)(a) This subsection is the tax preference performance statement for the entity-owned nonresident vessel tax preference established in section 803 of this act. The performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

FEE	AMOUNT
(a) Dealer temporary permit	\$5.00
(b) Derelict vessel and invasive species removal	Subsection (3) of this section
(c) Derelict vessel removal surcharge	\$1.00

(b) The legislature categorizes this tax preference as one intended to accomplish the purposes indicated in RCW 82.32.808(2)(c) and one intended to improve the state's competitiveness with other nearby cruising destinations.

(c) It is the legislature's specific public policy objective to increase economic activity and jobs related to the maritime industry by providing a tax preference for large entity-owned nonresident vessels to increase the length of time these vessels cruise Washington waters in turn strengthening the maritime economy in the state.

(d) To measure the effectiveness of the tax preference provided in part XII [VIII] of this act in achieving the public policy objective in (c) of this subsection, the joint legislative audit and review committee must provide the following in a published evaluation of this tax preference by December 31, 2024:

(i) A comparison of the gross and taxable revenue generated by businesses that sell or provide maintenance or repair of vessels, prior to and after the enactment of this tax preference;

(ii) Analysis of retail sales taxes collected from the restaurant and service industries in coastal and inlet coastal jurisdictions, for both counties and cities, for periods prior to and after the enactment of this tax preference;

(iii) Employment and wage trends for businesses described in (d)(i) and (ii) of this subsection, for periods prior to and after the enactment of this tax preference;

(iv) Descriptive statistics for the number of permits sold each year in addition to the following information:

(A) The cost for each permit by strata of vessel length;

(B) The jurisdiction of ownership for the nonresident vessel; and

(C) The amount of use tax that would have been due based on the estimated value of the vessel;

(v) A comparison of the number of registered entity-owned and individually owned vessels registered in Washington prior to and after the enactment of this tax preference; and

(vi) Data and analysis for Washington's main cruising destination competitors, specifically looking at tax preferences provided in those jurisdictions, vessel industry income data, and any additional relevant information to compare Washington's maritime climate with its competitors.

(e) The provision of RCW 82.32.808(5) does not apply to this tax preference." [2015 3rd sp.s. c 6 § 801.]

(26) "Vessel emergency" means a substantial threat of pollution originating from a covered vessel, including loss or serious degradation of propulsion, steering, means of navigation, primary electrical generating capability, and seakeeping capability.

(27) "Vessels of opportunity response system" means nondedicated boats and operators, including fishing and other vessels, that are under contract with and equipped by contingency plan holders to assist with oil spill response activities, including on-water oil recovery in the near shore environment and the placement of oil spill containment booms to protect sensitive habitats.

(28) "Volunteer coordination system" means an oil spill response system that, before a spill occurs, prepares for the coordination of volunteers to assist with appropriate oil spill response activities, which may include shoreline protection and cleanup, wildlife recovery, field observation, light construction, facility maintenance, donations management, clerical support, and other aspects of a spill response.

(29) "Waters of the state" includes lakes, rivers, ponds, streams, inland waters, underground water, salt waters, estuaries, tidal flats, beaches and lands adjoining the seacoast of the state, sewers, and all other surface waters and watercourses within the jurisdiction of the state of Washington.

(30) "Worst case spill" means: (a) In the case of a vessel, a spill of the entire cargo and fuel of the vessel complicated

by adverse weather conditions; and (b) in the case of an onshore or offshore facility, the largest foreseeable spill in adverse weather conditions. [2015 c 274 § 2. Prior: 2011 c 122 § 1; prior: 2009 c 11 § 7; 2007 c 347 § 5; 2000 c 69 § 1; 1992 c 73 § 18; 1991 c 200 § 414.]

88.46.180 Planning standards for equipment—Updates. (1) The department shall evaluate and update planning standards for oil spill response equipment required under contingency plans required by this chapter, including aerial surveillance, in order to ensure access in the state to equipment that represents the best achievable protection to respond to a worst case spill and provide for continuous operation of oil spill response activities to the maximum extent practicable and without jeopardizing crew safety, as determined by the incident commander or the unified command.

(2) The department shall by rule update the planning standards at five-year intervals to ensure the maintenance of best available protection over time. Rule updates to covered nontank vessels shall minimize potential impacts to discretionary cargo moved through the state. [2015 c 274 § 23; 2011 c 122 § 2.]

89.08.405 Rates and charges system.

89.08.405 Rates and charges system. (1) Any county legislative authority may approve by resolution revenues to a conservation district by fixing rates and charges. The county legislative authority may provide for this system of rates and charges as an alternative to, but not in addition to, a special assessment provided by RCW 89.08.400. In fixing rates and charges, the county legislative authority may in its discretion consider the information proposed to the county legislative authority by a conservation district consistent with this section.

(2) A conservation district, in proposing a system of rates and charges, may consider:

(a) Services furnished, to be furnished, or available to the landowner;

(b) Benefits received, to be received, or available to the property;

(c) The character and use of land;

(d) The nonprofit public benefit status, as defined in RCW 24.03.490, of the land user;

(e) The income level of persons served or provided benefits under this chapter, including senior citizens and disabled persons; or

(f) Any other matters that present a reasonable difference as a ground for distinction, including the natural resource needs within the district and the capacity of the district to provide either services or improvements, or both.

(3)(a) The system of rates and charges may include an annual per acre amount, an annual per parcel amount, or an annual per parcel amount plus an annual per acre amount. If included in the system of rates and charges, the maximum annual per acre rate or charge shall not exceed ten cents per acre. The maximum annual per parcel rate shall not exceed five dollars, except that for counties with a population of over four hundred eighty thousand persons, the maximum annual per parcel rate shall not exceed ten dollars, and for counties with a population of over one million five hundred thousand persons, the maximum annual per parcel rate shall not exceed fifteen dollars.

(b) Public land, including lands owned or held by the state, shall be subject to rates and charges to the same extent as privately owned lands. The procedures provided in chapter 79.44 RCW shall be followed if lands owned or held by the state are subject to the rates and charges of a conservation district.

(c) Forest lands used solely for the planting, growing, or harvesting of trees may be subject to rates and charges if such lands are served by the activities of the conservation district. However, if the system of rates and charges includes an annual per acre amount or an annual per parcel amount plus an annual per acre amount, the per acre rate or charge on such forest lands shall not exceed one-tenth of the weighted average per acre rate or charge on all other lands within the conservation district that are subject to rates and charges. The calculation of the weighted average per acre shall be a ratio calculated as follows: (i) The numerator shall be the total amount of money estimated to be derived from the per acre special rates and charges on the nonforest lands in the conservation district; and (ii) the denominator shall be the total number of nonforest land acres in the conservation district that are served by the activities of the conservation district and that are subject to the rates or charges of the conservation district. No more than ten thousand acres of such forest lands that is both owned by the same person or entity and is located in the same conservation district may be subject to the rates and charges that are imposed for that conservation district in any year. Per parcel charges shall not be imposed on forest land parcels. However, in lieu of a per parcel charge, a charge of up to three dollars per forest landowner may be imposed on each owner of forest lands whose forest lands are subject to a per acre rate or charge.

(4) The consideration, development, adoption, and implementation of a system of rates and charges shall follow the same public notice and hearing process and be subject to the same procedure and authority of RCW 89.08.400(2).

(5)(a) Following the adoption of a system of rates and charges, the conservation district board of supervisors shall establish by resolution a process providing for landowner appeals of the individual rates and charges as applicable to a parcel or parcels.

(b) Any appeal must be filed by the landowner with the conservation district no later than twenty-one days after the date property taxes are due. The decision of the board of supervisors regarding any appeal shall be final and conclusive.

(c) Any appeal of the decision of the board shall be to the superior court of the county in which the district is located, and served and filed within twenty-one days of the date of the board's written decision.

(6) A conservation district shall prepare a roll that implements the system of rates and charges approved by the county legislative authority. The rates and charges from the roll shall be spread by the county assessor as a separate item on the tax rolls and shall be collected and accounted for with property taxes by the county treasurer. The amount of the rates and charges shall constitute a lien against the land that shall be subject to the same conditions as a tax lien, and collected by the treasurer in the same manner as delinquent real property taxes, and subject to the same interest and penalty as for delinquent property taxes. The county treasurer shall deduct an amount from the collected rates and charges, as established by the county legislative authority, to cover the costs incurred by the county assessor and county treasurer in spreading and collecting the rates and charges, but not to exceed the actual costs of such work. All remaining funds collected under this section shall be transferred to the conservation district and used by the conservation district in accordance with this section.

(7) The rates and charges for a conservation district shall not be spread on the tax rolls and shall not be allocated with property tax collections in the following year if, after the system of rates and charges has been approved by the county legislative authority but before the fifteenth day of December in that year, a petition has been filed with the county legislative authority objecting to the imposition of such rates and charges, which petition has been signed by at least twenty percent of the owners of land that would be subject to the rate or charge to be imposed for a conservation district. 90.03.525 Storm water control facilities—Imposition of rates and charges with respect to state highway rights-of-way—Annual plan for expenditure of charges.

(1) The rate charged by a local government utility to the department of transportation with respect to state highway right-of-way or any section of state highway right-of-way for the construction, operation, and maintenance of storm water control facilities under chapters 35.67, 35.92, 36.89, 36.94, 57.08, and 86.15 RCW, shall be thirty percent of the rate for comparable real property, except as otherwise provided in this section. The rate charged to the department with respect to state highway right-of-way or any section of state highway right-of-way within a local government utility's jurisdiction shall not, however, exceed the rate charged for comparable city street or county road right-of-way within the same jurisdiction. The legislature finds that the aforesaid rates are presumptively fair and equitable because of the traditional and continuing expenditures of the department of transportation for the construction, operation, and maintenance of storm water control facilities designed to control surface water or storm water runoff from state highway rights-of-way.

(2) Charges paid under subsection (1) of this section by the department of transportation, including charges paid prior to June 30, 2015, must be used solely for storm water control facilities that directly reduce runoff impacts or implementation of best management practices that will reduce the need for such facilities.

(3) The utility imposing the charge and the department of transportation may, however, agree to either higher or lower rates with respect to the construction, operation, or maintenance of any specific storm water control facilities. If, after mediation, the local government utility and the department of transportation cannot agree upon the proper rate, either may commence an action in the superior court for the county in which the state highway rightofway is located to establish the proper rate. The court in establishing the proper rate shall take into account the extent and adequacy of storm water control facilities constructed by the department and the actual benefits to the sections of state highway rightsofway from storm water control facilities constructed, operated, and maintained by the local government utility. Control of surface water runoff and storm water runoff from state highway rightsofway shall be deemed an actual benefit to the state highway rightsofway. The rate for sections of state highway rightofway as determined by the court shall be set forth in terms of the percentage of the rate for comparable real property, but shall in no event exceed the rate charged for compa-

parable city street or county road rightofway within the same jurisdiction.

(4) The legislature finds that the federal clean water act (national pollutant discharge elimination system, 40 C.F.R. parts 122-124), the state water pollution control act, chapter 90.48 RCW, and the highway runoff program under chapter 90.71 RCW, mandate the treatment and control of storm water runoff from state highway rightsofway owned by the department of transportation. Appropriations made by the legislature to the department of transportation for the construction, operation, and maintenance of storm water control facilities are intended to address applicable federal and state mandates related to storm water control and treatment. This section is not intended to limit opportunities for sharing the costs of storm water improvements between cities, counties, and the state. 90.56.005 Findings—Purpose. (1) The legislature declares that waterborne transportation as a source of supply for oil and hazardous substances poses special concern for the state of Washington. Each year billions of gallons of crude oil and refined petroleum products are transported as cargo and fuel by vessels on the navigable waters of the state. The movement of crude oil through rail corridors and over Washington waters creates safety and environmental risks. The

sources and transport of crude oil bring risks to our communities along rail lines and to the Columbia river, Grays Harbor, and Puget Sound waters. These shipments are expected to increase in the coming years. Vessels and trains transporting oil into Washington travel on some of the most unique and special marine environments in the United States. These marine environments are a source of natural beauty, recreation, and economic livelihood for many residents of this state. As a result, the state has an obligation to ensure the citizens of the state that the waters of the state will be protected from oil spills.

(2) The legislature finds that prevention is the best method to protect the unique and special marine environments in this state. The technology for containing and cleaning up a spill of oil or hazardous substances is at best only partially effective. Preventing spills is more protective of the environment and more cost-effective when all the response and damage costs associated with responding to a spill are considered. Therefore, the legislature finds that the primary objective of the state is to achieve a zero spills strategy to prevent any oil or hazardous substances from entering waters of the state.

(3) The legislature also finds that:

(a) Recent accidents in Washington, Alaska, southern California, Texas, Pennsylvania, and other parts of the nation have shown that the transportation, transfer, and storage of oil have caused significant damage to the marine environment;

(b) Even with the best efforts, it is nearly impossible to remove all oil that is spilled into the water, and average removal rates are only fourteen percent;

(c) Washington's navigable waters are treasured environmental and economic resources that the state cannot afford to place at undue risk from an oil spill;

(d) The state has a fundamental responsibility, as the trustee of the state's natural resources and the protector of public health and the environment to prevent the spill of oil; and

(e) In section 5002 of the federal oil pollution act of 1990, the United States congress found that many people believed that complacency on the part of industry and government was one of the contributing factors to the Exxon Valdez spill and, further, that one method to combat this complacency is to involve local citizens in the monitoring and oversight of oil spill plans. Congress also found that a mechanism should be established that fosters the long-term partnership of industry, government, and local communities in overseeing compliance with environmental concerns in the operation of crude oil terminals. Moreover, congress concluded that, in addition to Alaska, a program of citizen monitoring and oversight should be established in other major crude oil terminals in the United States because recent oil spills indicate that the safe transportation of oil is a national problem.

(4) In order to establish a comprehensive prevention and response program to protect Washington's waters and natural resources from spills of oil, it is the purpose of this chapter:

(a) To establish state agency expertise in marine safety and to centralize state activities in spill prevention and response activities;

(b) To prevent spills of oil and to promote programs that reduce the risk of both catastrophic and small chronic spills;

(c) To ensure that responsible parties are liable, and have the resources and ability, to respond to spills and provide compensation for all costs and damages;

(d) To provide for state spill response and wildlife rescue planning and implementation;

(e) To support and complement the federal oil pollution act of 1990 and other federal law, especially those provisions relating to the national contingency plan for cleanup of oil spills and discharges, including provisions relating to the responsibilities of state agencies designated as natural resource trustees. The legislature intends this chapter to be interpreted and implemented in a manner consistent with federal law;

(f) To provide broad powers of regulation to the department of ecology relating to spill prevention and response;

(g) To provide for independent review on an ongoing basis the adequacy of oil spill prevention, preparedness, and response activities in this state;

(h) To provide an adequate funding source for state response and prevention programs; and

(i) To maintain the best achievable protection that can be obtained through the use of the best achievable technology and those staffing levels, training procedures, and operational methods that provide the greatest degree of protection achievable. [2015 c 274 § 1; 2010 1st sp.s. c 7 § 72; 2005 c 304 § 1; 2004 c 226 § 2; 1991 c 200 § 101; 1990 c 116 § 1.]

Effective date—2015 c 274: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2015." [2015 c 274 § 29.]

(1) "Best achievable protection" means the highest level of protection that can be achieved through the use of the best achievable technology and those staffing levels, training procedures, and operational methods that provide the greatest degree of protection achievable. The director's determination of best achievable protection shall be guided by the critical need to protect the state's natural resources and waters, while considering (a) the additional protection provided by the measures; (b) the technological achievability of the measures; and (c) the cost of the measures.

(2) "Best achievable technology" means the technology that provides the greatest degree of protection taking into consideration (a) processes that are being developed, or could feasibly be developed, given overall reasonable expenditures on research and development, and (b) processes that are currently in use. In determining what is best achievable technology, the director shall consider the effectiveness, engineering feasibility, and commercial availability of the technology.

(3) "Board" means the pollution control hearings board.

(4) "Bulk" means material that is stored or transported in a loose, unpackaged liquid, powder, or granular form capable of being conveyed by a pipe, bucket, chute, or belt system.

Intent—1989 c 388: "The legislature finds that oil spills can cause significant damage to the environment and natural resources held in trust by and for the people of this state. Some of these damages are unquantifiable, and others cannot be quantified at a reasonable cost. Both quantifiable and unquantifiable damages often occur despite prompt containment and cleanup measures. Due to the inability to measure the exact nature and extent of certain types of damages, current damage assessment methodologies used by the state inadequately assess the damage caused by oil spills.

In light of the magnitude of environmental and natural resource damage which may be caused by oil spills, and the importance of fishing, tourism, recreation, and Washington's natural abundance and beauty to the quality of life and economic future of the people of this state, the legislature declares that compensation should be sought for those damages that cannot be quantified at a reasonable cost and for those unquantifiable damages that result from oil spills. This compensation is intended to ensure that the public does not bear substantial losses caused by oil pollution for which compensation may not otherwise be received." [1989 c 388 § 1.]

90.56.200 Prevention plans. (1) The owner or operator for each onshore and offshore facility, except as determined in subsection (3) of this section, shall prepare and submit to the department an oil spill prevention plan in conformance with the requirements of this chapter. The plans shall be submitted to the department in the time and manner directed by the department. The spill prevention plan may be consolidated with a spill contingency plan submitted pursuant to RCW 90.56.210. The department may accept plans prepared to comply with other state or federal law as spill prevention plans to the extent those plans comply with the requirements of this chapter. The department, by rule, shall establish standards for spill prevention plans.

(2) The spill prevention plan for an onshore or offshore facility shall:

(a) Establish compliance with the federal oil pollution act of 1990, if applicable, and financial responsibility requirements under federal and state law;

(b) Certify that supervisory and other key personnel in charge of transfer, storage, and handling of oil have received certification pursuant to RCW 90.56.220;

(c) Certify that the facility has an operations manual required by RCW 90.56.230;

(d) Certify the implementation of alcohol and drug use awareness programs;

(e) Describe the facility's maintenance and inspection program and contain a current maintenance and inspection record of the storage and transfer facilities and related equipment;

(f) Describe the facility's alcohol and drug treatment programs;

(h) Describe any discharges of oil to the land or the water of more than twenty-five barrels in the prior five years and the measures taken to prevent a reoccurrence;

(i) Describe the procedures followed by the facility to contain and recover any oil that spills during the transfer of oil to or from the facility;

(j) Provide for the incorporation into the facility during the period covered by the plan of those measures that will provide the best achievable protection for the public health and the environment; and

(k) Include any other information reasonably necessary to carry out the purposes of this chapter required by rules adopted by the department.

(3) Plan requirements in subsection (2) of this section are not applicable to railroad facility operators while transporting oil over rail lines of this state.

(4) The department shall only approve a prevention plan if it provides the best achievable protection from damages caused by the discharge of oil into the waters of the state and if it determines that the plan meets the requirements of this section and rules adopted by the department.

(5) Upon approval of a prevention plan, the department shall provide to the person submitting the plan a statement indicating that the plan has been approved, the facilities covered by the plan, and other information the department determines should be included.

(6) The approval of a prevention plan shall be valid for five years. An owner or operator of a facility shall notify the department in writing immediately of any significant change of which it is aware affecting its prevention plan, including changes in any factor set forth in this section or in rules adopted by the department. The department may require the owner or operator to update a prevention plan as a result of these changes.

(7) The department by rule shall require prevention plans to be reviewed, updated, if necessary, and resubmitted to the department at least once every five years.

(8) Approval of a prevention plan by the department does not constitute an express assurance regarding the adequacy of the plan nor constitute a defense to liability imposed under this chapter or other state law.

(9) This section does not authorize the department to modify the terms of a collective bargaining agreement. [2015 c 274 § 4; 2000 c 69 § 19; 1991 c 200 § 201.]

Reviser's note: Chapter 226, Laws of 2004 (Substitute Senate Bill No. 6641) directed that: "If specific funding for the purposes of sections 5 and 6 of this act, referencing sections 5 and 6 of this act by bill or chapter or section number, is not provided by June 30, 2004, in the omnibus transportation appropriations act, sections 5 and 6 of this act are null and void." Substitute Senate Bill No. 6641 was referenced by bill number in chapter 276, Laws of 2004, the omnibus operating appropriations act, in section 301(9), however neither the bill nor the chapter number were mentioned in chapter 229, Laws of 2004, the omnibus transportation appropriations act. Therefore, the chapter 226, Laws of 2004 amendments to RCW 90.56.200 and 90.56.210, did not take effect.

90.56.210 Contingency plans. (1) Each onshore and offshore facility shall have a contingency plan for the containment and cleanup of oil spills from the facility into the waters of the state and for the protection of fisheries and wildlife, shellfish beds, natural resources, and public and private property from such spills. The department shall by rule adopt and periodically revise standards for the preparation of contingency plans. The department shall require contingency plans, at a minimum, to meet the following standards:

(a) Include full details of the method of response to spills of various sizes from any facility which is covered by the plan;

(b) Be designed to be capable in terms of personnel, materials, and equipment, of promptly and properly, to the maximum extent practicable, as defined by the department removing oil and minimizing any damage to the environment resulting from a worst case spill;

(c) Provide a clear, precise, and detailed description of how the plan relates to and is integrated into relevant contingency plans which have been prepared by cooperatives, ports, regional entities, the state, and the federal government;

(d) Provide procedures for early detection of oil spills and timely notification of such spills to appropriate federal, state, and local authorities under applicable state and federal law;

(g) Describe important features of the surrounding environment, including fish and wildlife habitat, shellfish beds, environmentally and archaeologically sensitive areas, and public facilities. The departments of ecology, fish and wildlife, and natural resources, and the department of archaeology and historic preservation, upon request, shall provide information that they have available to assist in preparing this description. The description of archaeologically sensitive areas shall not be required to be included in a contingency plan until it is reviewed and updated pursuant to subsection (9) of this section;

(h) State the means of protecting and mitigating effects on the environment, including fish, shellfish, marine mammals, and other wildlife, and ensure that implementation of the plan does not pose unacceptable risks to the public or the environment;

(g) Relevant information on previous spills contained in on-scene coordinator reports prepared by the department; and

(h) The extent to which reasonable, cost-effective measures to prevent a likelihood that a spill will occur have been incorporated into the plan.

(7) The department shall approve a contingency plan only if it determines that the plan meets the requirements of

this section and that, if implemented, the plan is capable, in terms of personnel, materials, and equipment, of removing oil promptly and properly and minimizing any damage to the environment.

(8) The approval of the contingency plan shall be valid for five years. Upon approval of a contingency plan, the department shall provide to the person submitting the plan a statement indicating that the plan has been approved, the facilities or vessels covered by the plan, and other information the department determines should be included.

(9) An owner or operator of a facility shall notify the department in writing immediately of any significant change of which it is aware affecting its contingency plan, including changes in any factor set forth in this section or in rules adopted by the department. The department may require the owner or operator to update a contingency plan as a result of these changes.

(10) The department by rule shall require contingency plans to be reviewed, updated, if necessary, and resubmitted to the department at least once every five years.

The notices shall include a statement that any person desiring to submit written comments concerning an application, or desiring to receive notification of the final decision concerning an application as expeditiously as possible after the issuance of the decision, may submit the comments or requests for decisions to the local government within thirty days of the last date the notice is to be published pursuant to this subsection. The local government shall forward, in a timely manner following the issuance of a decision, a copy of the decision to each person who submits a request for the decision.

If a hearing is to be held on an application, notices of such a hearing shall include a statement that any person may submit oral or written comments on an application at the hearing.

(5) The system shall include provisions to assure that construction pursuant to a permit will not begin or be authorized until twenty-one days from the date the permit decision was filed as provided in subsection (6) of this section; or until all review proceedings are terminated if the proceedings were initiated within twenty-one days from the date of filing as defined in subsection (6) of this section except as follows:

(a) In the case of any permit issued to the state of Washington, department of transportation, for the construction and modification of SR 90 (I-90) on or adjacent to Lake Washington, the construction may begin after thirty days from the date of filing, and the permits are valid until December 31, 1995;

(b)(i) In the case of any permit or decision to issue any permit to the state of Washington, department of transportation, for the replacement of the floating bridge and landings of the state route number 520 Evergreen Point bridge on or adjacent to Lake Washington, the construction may begin twenty-one days from the date of filing. Any substantial development permit granted for the floating bridge and landings is deemed to have been granted on the date that the local government's decision to grant the permit is issued. This authorization to construct is limited to only those elements of the floating bridge and landings that do not preclude the department of transportation's selection of a four-lane alter-

native for state route number 520 between Interstate 5 and Medina. Additionally, the Washington state department of transportation shall not engage in or contract for any construction on any portion of state route number 520 between Interstate 5 and the western landing of the floating bridge until the legislature has authorized the imposition of tolls on the Interstate 90 floating bridge and/or other funding sufficient to complete construction of the state route number 520 bridge replacement and HOV program. For the purposes of this subsection (5)(b), the "western landing of the floating bridge" means the least amount of new construction necessary to connect the new floating bridge to the existing state route number 520 and anchor the west end of the new floating bridge;

(ii) Nothing in this subsection (5)(b) precludes the shorelines hearings board from concluding that the project or any element of the project is inconsistent with the goals and policies of the shoreline management act or the local shoreline master program;

(iii) This subsection (5)(b) applies retroactively to any appeals filed after January 1, 2012, and to any appeals filed on or after March 23, 2012, and expires June 30, 2014;

(c)(i) In the case of permits for projects addressing significant public safety risks, as defined by the department of transportation, it is not in the public interest to delay construction until all review proceedings are terminated. In the case of any permit issued under this chapter or decision to issue any permit under this chapter for a transportation project of the Washington state department of transportation, construction may begin twenty-one days after the date of filing if all components of the project achieve a no net loss of shoreline ecological functions, as defined by department guidelines adopted pursuant to RCW 90.58.060 and as determined through the following process:

(A) The department of transportation, as part of the permit review process, must provide the local government with an assessment of how the project affects shoreline ecological functions. The assessment must include specific actions for avoiding, minimizing, and mitigating impacts to shoreline ecological functions, developed in consultation with the department, that ensure there is no net loss of shoreline ecological functions; and

(B) The local government, after reviewing the assessment required in (c)(i)(A) of this subsection and prior to the final issuance of all appropriate shoreline permits and variances, must determine that the project will result in no net loss of shoreline ecological functions.

(ii) Nothing in this subsection (5)(c) precludes the shorelines hearings board from concluding that the shoreline project or any element of the project is inconsistent with this chapter, the local shoreline master program, chapter 43.21C RCW and its implementing regulations, or the applicable shoreline regulations.

(iii) This subsection (5)(c) does not apply to permit decisions for the replacement of the floating bridge and landings of the state route number 520 Evergreen Point bridge on or adjacent to Lake Washington;

(d) Except as authorized in (b) and (c) of this subsection, construction may be commenced no sooner than thirty days after the date of the appeal of the board's decision is filed if a permit is granted by the local government and (i) the granting

of the permit is appealed to the shorelines hearings board within twenty-one days of the date of filing, (ii) the hearings board approves the granting of the permit by the local government or approves a portion of the substantial development for which the local government issued the permit, and (iii) an appeal for judicial review of the hearings board decision is filed pursuant to chapter 34.05 RCW. The appellant may request, within ten days of the filing of the appeal with the court, a hearing before the court to determine whether construction pursuant to the permit approved by the hearings board or to a revised permit issued pursuant to the order of the hearings board should not commence. If, at the conclusion of the hearing, the court finds that construction pursuant to such a permit would involve a significant, irreversible damaging of the environment, the court shall prohibit the permittee from commencing the construction pursuant to the approved or revised permit until all review proceedings are final. Construction pursuant to a permit revised at the direction of the hearings board may begin only on that portion of the substantial development for which the local government had originally issued the permit, and construction pursuant to such a revised permit on other portions of the substantial development may not begin until after all review proceedings are terminated. In such a hearing before the court, the burden of proving whether the construction may involve significant irreversible damage to the environment and demonstrating whether such construction would or would not be appropriate is on the appellant;

(e) Except as authorized in (b) and (c) of this subsection, if the permit is for a substantial development meeting the requirements of subsection (11) of this section, construction pursuant to that permit may not begin or be authorized until twenty-one days from the date the permit decision was filed as provided in subsection (6) of this section.

If a permittee begins construction pursuant to (a), (b), (c), (d), or (e) of this subsection, the construction is begun at the permittee's own risk. If, as a result of judicial review, the courts order the removal of any portion of the construction or the restoration of any portion of the environment involved or require the alteration of any portion of a substantial development constructed pursuant to a permit, the permittee is barred from recovering damages or costs involved in adhering to such requirements from the local government that granted the permit, the hearings board, or any appellant or intervener.

(6) Any decision on an application for a permit under the authority of this section, whether it is an approval or a denial, shall, concurrently with the transmittal of the ruling to the applicant, be filed with the department and the attorney general. This shall be accomplished by return receipt requested mail. A petition for review of such a decision must be commenced within twenty-one days from the date of filing of the decision.

(a) With regard to a permit other than a permit governed by subsection (10) of this section, "date of filing" as used in this section refers to the date of actual receipt by the department of the local government's decision.

(b) With regard to a permit for a variance or a conditional use governed by subsection (10) of this section, "date of filing" means the date the decision of the department is transmitted by the department to the local government.

(c) When a local government simultaneously transmits to the department its decision on a shoreline substantial development with its approval of either a shoreline conditional use permit or variance, or both, "date of filing" has the same meaning as defined in (b) of this subsection.

(d) The department shall notify in writing the local government and the applicant of the date of filing by telephone or electronic means, followed by written communication as necessary, to ensure that the applicant has received the full written decision.

(7) Applicants for permits under this section have the burden of proving that a proposed substantial development is consistent with the criteria that must be met before a permit is granted. In any review of the granting or denial of an application for a permit as provided in RCW 90.58.180 (1) and (2), the person requesting the review has the burden of proof.

(8) Any permit may, after a hearing with adequate notice to the permittee and the public, be rescinded by the issuing authority upon the finding that a permittee has not complied with conditions of a permit. If the department is of the opinion that noncompliance exists, the department shall provide written notice to the local government and the permittee. If the department is of the opinion that the noncompliance continues to exist thirty days after the date of the notice, and the local government has taken no action to rescind the permit, the department may petition the hearings board for a rescission of the permit upon written notice of the petition to the local government and the permittee if the request by the department is made to the hearings board within fifteen days of the termination of the thirty-day notice to the local government.

(9) The holder of a certification from the governor pursuant to chapter 80.50 RCW shall not be required to obtain a permit under this section.

(10) Any permit for a variance or a conditional use issued with approval by a local government under their approved master program must be submitted to the department for its approval or disapproval.

(11)(a) An application for a substantial development permit for a limited utility extension or for the construction of a bulkhead or other measures to protect a single-family residence and its appurtenant structures from shoreline erosion shall be subject to the following procedures:

(i) The public comment period under subsection (4) of this section shall be twenty days. The notice provided under subsection (4) of this section shall state the manner in which the public may obtain a copy of the local government decision on the application no later than two days following its issuance;

(ii) The local government shall issue its decision to grant or deny the permit within twenty-one days of the last day of the comment period specified in (a)(i) of this subsection; and

(iii) If there is an appeal of the decision to grant or deny the permit to the local government legislative authority, the appeal shall be finally determined by the legislative authority within thirty days.

(b) For purposes of this section, a limited utility extension means the extension of a utility service that:

(i) Is categorically exempt under chapter 43.21C RCW for one or more of the following: Natural gas, electricity, telephone, water, or sewer;

(ii) Will serve an existing use in compliance with this chapter; and

(iii) Will not extend more than twenty-five hundred linear feet within the shorelines of the state. Effective date—Findings—Intent—2015 3rd sp.s. c 15: See notes following RCW 47.01.485.

Findings—2012 c 84: "In adopting the shoreline management act in 1971, the legislature declared that it is the policy of the state to provide for the management of the shorelines of the state by planning for and fostering all reasonable and appropriate uses, to ensure the development of these shorelines in a manner that will promote and enhance the public interest, and to protect against adverse effects to the public health, the land and its vegetation and wildlife, and the waters of the state and their aquatic life, while protecting generally public rights of navigation and corollary rights incidental thereto. The legislature declares that the policies recognized in 1971 are still vital to the protection of shorelines of the state.

The legislature recognizes that the replacement of the Evergreen Point bridge affects shorelines of the state and shorelines of statewide significance. However, the legislature finds that the state route number 520 corridor, including the Evergreen Point bridge, is a critical component of the state highway system and of the Puget Sound region's transportation infrastructure and is essential to maintaining and improving the region's and the state's economy.

The legislature further finds that the Evergreen Point bridge and its approaches are in danger of structural failure and that it is highly likely that the bridge will sustain serious structural damage from an earthquake or windstorm over the next fifteen years. The floating span sustained serious damage during the 1993 storm, which required major repair and retrofit. Retrofitting the span has added weight, which causes the floating span to sit lower in the water, increasing the likelihood of waves breaking over the span and causing traffic hazards. The floating span cannot be further retrofitted to withstand severe windstorms. Recent storms have continued to cause damage to the floating span, including cracks in the pontoons that allow water to enter the pontoons.

The legislature further finds that replacement of the floating span and its approaches presents unique challenges in that it is subject to narrow windows in which work on Lake Washington can be performed because of weather and environmental constraints.

The legislature further finds that significant delays in replacing the floating span and east approach of the Evergreen Point bridge must be avoided in order to: Avoid the catastrophic loss of the bridge; protect the safety of the traveling public; prevent injury, loss of life, and property damage; and provide for a strong economy in the Puget Sound region and in Washington state. In the past, the legislature has only provided exemptions to the shoreline management act for bridges that have sunk, and it is the intent of the legislature to only allow this exemption to the automatic stay provision of the shoreline management act because the Evergreen Point floating bridge is in danger of further damage and sinking." [2012 c 84 § 1.]

Effective date—2012 c 84: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [March 23, 2012]." [2012 c 84 § 3.]

Intent—Effective dates—Application—Pending cases and rules—2010 c 210: See notes following RCW 43.21B.001.

Finding—Severability—Part headings and table of contents not law—1995 c 347: See notes following RCW 36.70A.470.

Finding—Intent—1990 c 201: "The legislature finds that delays in substantial development permit review for the extension of vital utility services to existing and lawful uses within the shorelines of the state have caused hardship upon existing residents without serving any of the purposes and policies of the shoreline management act. It is the intent of this act to provide a more expeditious permit review process for that limited category of utility extension activities only, while fully preserving safeguards of public review and appeal rights regarding permit applications and decisions." 90.58.355 Persons, projects, and activities not required to obtain certain permits, variances, letters of exemption, or other local review. Requirements to obtain a substantial development permit, conditional use permit, variance, letter of exemption, or other review conducted by a local government to implement this chapter do not apply to:

(1) Any person conducting a remedial action at a facility pursuant to a consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or to the department of ecology when it conducts a remedial action under chapter 70.105D RCW. The department must ensure compliance with the substantive requirements of this chapter through the consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or during the department-conducted remedial action, through the procedures developed by the department pursuant to RCW 70.105D.090;

(2) Any person installing site improvements for storm water treatment in an existing boatyard facility to meet requirements of a national pollutant discharge elimination system storm water general permit. The department must ensure compliance with the substantive requirements of this chapter through the review of engineering reports, site plans, and other documents related to the installation of boatyard storm water treatment facilities; or

(3) The department of transportation projects and activities that meet the conditions of RCW 90.58.356. [2015 3rd sp.s. c 15 § 9; 2012 c 169 § 1; 1994 c 257 § 20.]

90.58.356 Projects and activities not required to obtain certain permits, variances, letters of exemption, or other local review—Written notice, when required. (1) For purposes of this section, the following definitions apply:

(a) "Maintenance" means the preservation of the transportation facility, including surface, shoulders, roadsides, structures, and such traffic control devices as are necessary for safe and efficient utilization of the highway in a manner that substantially conforms to the preexisting design, function, and location as the original except to meet current engineering standards or environmental permit requirements.

(b) "Repair" means to restore a structure or development to a state comparable to its original condition including, but not limited to, restoring the development's size, shape, configuration, location, and external appearance, within a reasonable period after decay or partial destruction. Repair of a structure or development may not cause substantial adverse effects to shoreline resources or the shoreline environment. Replacement of a structure or development may be considered a repair if: Replacement is the common method of repair for the type of structure or development; the replacement structure or development is comparable to the original structure or development including, but not limited to, the size, shape, configuration, location, and external appearance of the original structure or development; and the replacement does not cause substantial adverse effects to shoreline resources or the shoreline environment.

(c) "Replacement" of any existing transportation facility means to replace in a manner that substantially conforms to the preexisting design, function, and location as the original except to meet current engineering standards or environmental permit requirements. Maintenance or replacement activities do not involve expansion of automobile lanes, and do not result in significant negative shoreline impact.

(2) The following department of transportation projects and activities do not require a substantial development permit, conditional use permit, variance, letter of exemption, or other review conducted by a local government:

(a) Maintenance, repair, or replacement that occurs within the roadway prism of a state highway as defined in RCW 46.04.560, the lease or ownership area of a state ferry terminal, or the lease or ownership area of a transit facility, including ancillary transportation facilities such as pedestrian paths, bicycle paths, or both, and bike lanes;

(b) Construction or installation of safety structures and equipment, including pavement marking, freeway surveillance and control systems, railroad protective devices not including grade separated crossings, grooving, glare screen, safety barriers, energy attenuators, and hazardous or dangerous tree removal;

(c) Maintenance occurring within the right-of-way; or

(d) Construction undertaken in response to unforeseen, extraordinary circumstances that is necessary to prevent a decline, lapse, or cessation of service from a lawfully established transportation facility.

(3) The department of transportation must provide written notification of projects and activities authorized under this section with a cost in excess of one million dollars before the design or plan is finalized to all agencies with jurisdiction, agencies with facilities or services that may be impacted, and adjacent property owners. [2015 3rd sp.s. c 15 § 10.]

Finding—2015 3rd sp.s. c 15: "To ensure that vital maintenance and minor safety upgrades to state transportation facilities are efficiently achieved while still protecting the shoreline environment, the legislature finds that it is in the public interest to exclude state highway maintenance and minor safety upgrade activities from local review and approval processes under the shoreline management act, as provided in RCW 90.58.355 and 90.58.356."
