(b) As the state transitions from reading and writing assessments to an English language arts assessment and from end-of-course assessments to a comprehensive assessment for high school mathematics, a student in a graduating class of 2016 through 2018 shall earn a certificate of academic achievement if the student meets the state standard as follows:

(i) Students in the graduating class of 2016 may use the results from:

(A) The reading and writing assessment or the English language arts assessment developed with the multistate consortium; and

(B) The end-of-course assessment for the first year of high school mathematics, the endofcourse assessment for the second year of high school mathematics, or the comprehensive mathematics assessment developed with the multistate consortium.

(ii) Students in the graduating classes of 2017 and 2018 may use the results from:

(A) The tenth grade English language arts assessment developed by the superintendent of public instruction using resources from the multistate consortium or the English language arts assessment developed with the multistate consortium; and

(B) The end-of-course assessment for the first year of high school mathematics, the endofcourse assessment for the second year of high school mathematics, or the comprehensive mathematics assessment developed with the multistate consortium.

(c) Beginning with the graduating class of 2019, a student who meets the state standards on the high school English language arts assessment developed with the multistate consortium and the comprehensive mathematics assessment developed with the multistate consortium shall earn a certificate of academic achievement.

(d) If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area at least twice a year at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has taken the statewide student assessment at least once. If the student successfully meets the state standards on the

objective alternative assessments then the student shall earn a certificate of academic achievement.

(4) Beginning with the graduating class of 2017, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the statewide student assessment, a retake, or the objective alternative assessments in order to earn a certificate of academic achievement.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6) A student may retain and use the highest result from each successfully completed content area of the high school assessment.

(7) School districts must make available to students the following options:

(a) To retake the statewide student assessment at least twice a year in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or

(b) To retake the statewide student assessment at least twice a year in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(8) Students who achieve the standard in a content area of the high school assessment but who wish to improve their results shall pay for retaking the assessment, using a uniform cost determined by the superintendent of public instruction.

(9) Opportunities to retake the assessment at least twice a year shall be available to each school district.

(10)(a) The office of the superintendent of public instruction shall develop options for implementing objective alternative assessments, which may include an appeals process for students' scores, for students to demonstrate achievement of the state academic standards. The objective alternative assessments shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the statewide student assessment and be objective in its determination of student achievement of the state standards. Before any objective alternative assessments in addition to those authorized in RCW 28A.655.065 or (b) of this subsection are used by a student to demonstrate that the student has met the state standards in a content area required to obtain a certificate, the legislature shall formally approve the use of any objective alternative assessments through the omnibus appropriations act or by statute or concurrent resolution.

(b)(i) A student's score on the mathematics, reading or English, or writing portion of the SAT or the ACT may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the relevant portion of the SAT or ACT to meet or exceed the state standard in the relevant content area

on the statewide student assessment. A student's score on the science portion of the ACT or the science subject area tests of the SAT may be used as an objective alternative assessment under this section as soon as the state board of education determines that sufficient data is available to identify reliable equivalent scores for the science content area of the statewide student assessment. After the first scores are established, the state board may increase but not decrease the scores required for students to meet or exceed the state standards.

(ii) A student who scores at least a three on the grading scale of one to five for selected AP examinations may use the score as an objective alternative assessment under this section for demonstrating that a student has met or exceeded state standards for the certificate of academic achievement. A score of three on the AP examinations in calculus or statistics may be used as an alternative assessment for the mathematics portion of the statewide student assessment. A score of three on the AP examinations in English language and composition may be used as an alternative assessment for the writing portion of the statewide student assessment; and for the English language arts portion of the assessment developed with the multistate consortium, once established in the 2014-15 school year. A score of three on the AP examinations in English literature and composition, macroeconomics, microeconomics, psychology, United States history, world history, United States government and politics, or comparative government and politics may be used as an alternative assessment for the reading portion of the statewide student assessment; and for the English language arts portion of the assessment developed with the multistate consortium, once established in the 2014-15 school year. A score of three on the AP examination in biology, physics, chemistry, or environmental science may be used as an alternative assessment for the science portion of the statewide student assessment.

(iii) A student who scores at least a four on selected externally administered international baccalaureate (IB) examinations may use the score as an objective alternative assessment under this section for demonstrating that the student has met or exceeded state standards for the certificate of academic achievement. A score of four on the higher level IB examinations for any of the IB English language and literature courses or for any of the IB individuals and societies courses may be used as an alternative assessment for the reading, writing, or English language arts portions of the statewide student assessment. A score of four on the higher level IB examinations for any of the IB mathematics courses may be used as an alternative assessment for the mathematics portion of the statewide student assessment. A score of four on the higher level IB examinations for IB biology, chemistry, or physics may be used as an alternative assessment for the science portion of the statewide student assessment.

(11) To help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district shall prepare plans for and notify students and their parents or legal guardians as provided in this subsection. Student learning plans are required for eighth grade students who were not successful on any or all of the content areas of the state assessment during the previous school year or who may not be on track to graduate due to credit deficiencies or absences. The parent or legal guardian

shall be notified about the information in the student learning plan, preferably through a parent conference and at least annually. To the extent feasible, schools serving English language learner students and their parents shall translate the plan into the primary language of the family. The plan shall include the following information as applicable:

- (a) The student's results on the state assessment;
- (b) If the student is in the transitional bilingual program, the score on his or her Washington language proficiency test II;
- (c) Any credit deficiencies;
- (d) The student's attendance rates over the previous two years;
- (e) The student's progress toward meeting state and local graduation requirements;
- (f) The courses, competencies, and other steps needed to be taken by the student to meet state academic standards and stay on track for graduation;
- (g) Remediation strategies and alternative education options available to students, including informing students of the option to continue to receive instructional services after grade twelve or until the age of twenty-one;
- (h) The alternative assessment options available to students under this section and RCW 28A.655.065;
- (i) School district programs, high school courses, and career and technical education options available for students to meet graduation requirements; and
- (j) Available programs offered through skill centers or community and technical colleges, including the college high school diploma options under RCW 28B.50.535. ***Reviser's note:** RCW 28A.655.0611 expired August 31, 2013.

Finding—Purpose—2015 3rd sp.s. c 42: "The legislature finds that the graduating class of 2015 is the first class required to meet the state standard on the state science assessment. The legislature recognizes that the educational system needs more time before this graduation requirement is implemented. Therefore, the sole purpose of the legislature with this legislation is to delay for no more than two years, but not eliminate, the requirement that students must meet the state standard on the science assessment." [2015 3rd sp.s. c 42 § 1.]

Retroactive application—2015 3rd sp.s. c 42 § 2: "Section 2 of this act applies retroactively to students in the graduating class of 2015, and prospectively beginning with students in the graduating class of 2016." [2015 3rd sp.s. c 42 § 3.]

Findings—Intent—2013 2nd sp.s. c 22: "The legislature finds that the superintendent of public instruction was authorized to align the state essential academic learning requirements for mathematics, reading, writing, and communication with the common set of standards for students in grades kindergarten through twelve, known as the common core state standards, which were initiated by the governors and chief school officers of forty-five states, including Washington. The legislature further finds that Washington has joined one of two multistate consortia using a federal grant to develop new English language arts and mathematics assessments in grades three through eight and grade eleven that are, among other factors, aligned with the common core state standards and intended to demonstrate a student's career and college readiness. The legislature further finds that the assessments are required to be ready for use by the 2014-15 school year.

The legislature intends to reduce the overall costs of the state assessment system by implementing the eleventh grade English language arts and mathematics assessments being developed by a multistate consortium in which Washington is participating, maximize use of the consortium assessments by developing a tenth grade high school English language arts assessment and modifying the algebra I and geometry end-of-course assessment to be used only during the transition to the consortium-developed assessments, and

reduce to three the number of assessments that will be required for students to graduate beginning with the class of 2019.

The legislature further intends that the eleventh grade consortium-developed assessments have two different student performance standards: One for the purposes of high school graduation that will be established by the state board of education and one that is intended to demonstrate a student's career and college readiness." [2013 2nd sp.s. c 22 § 1.]

Finding—Intent—2011 1st sp.s. c 22: "(1) The legislature continues to support end-of-course assessments as a fair and practical way to measure students' knowledge and skills in high school science, but the legislature also recognizes that there are important scientific concepts, principles, and content that are not able to be captured in a single course or a single assessment. The legislature also does not wish to narrow the high school science curriculum to a singular focus on biology.

(2) However, the legislature finds that the financial resources for developing additional end-of-course assessments for high school science are not available in the 2011-2013 biennium. Nevertheless, the legislature intends to revisit this issue in the future and further intends at an appropriate time to direct the superintendent of public instruction to develop one or more end-of-course assessments in additional science subjects." [2011 1st sp.s. c 22 § 1.]

Intent—2009 c 524: See note following RCW 28B.50.535.

Findings—2008 c 321: "The legislature finds that high school students need to graduate with the skills necessary to be successful in college and work. The state graduation requirements help to ensure that Washington high school graduates have the basic skills to be competitive in a global economy. Under education reform started in 1993, time was to be the variable, obtaining the skills was to be the constant. Therefore, students who need additional time to gain the academic skills needed for college and the workplace should have the opportunities they need to reach high academic achievement, even if that takes more than the standard four years of high school.

Different students face different challenges and barriers to their academic success. Some students struggle to meet the standard on a single portion of the Washington assessment of student learning while excelling in the other subject areas; other students struggle to complete the necessary state or local graduation credits; while still others have their knowledge tested on the assessments and have completed all the credit requirements but are struggling because English is not their first language. The legislature finds that many of these students need additional time and support to achieve academic proficiency and meet all graduation requirements." [2008 c 321 § 1.]

Finding—Intent—2007 c 355: See note following RCW 28B.50.534.

Findings—Intent—2007 c 354: "(1) The legislature maintains a strong commitment to high expectations and high academic achievement for all students. The legislature finds that Washington schools and students are making significant progress in improving achievement in reading and writing. Schools are adapting instruction and providing remediation for students who need additional assistance. Reading and writing are being taught across the curriculum. Therefore, the legislature does not intend to make changes to the Washington assessment of student learning or high school graduation requirements in reading and writing.

(2) However, students are having difficulty improving their academic achievement in mathematics and science, particularly as measured by the high school Washington assessment of student learning. The legislature finds that corrections are needed in the state's high school assessment system that will improve alignment between learning standards, instruction, diagnosis, and assessment of students' knowledge and skills in high school mathematics and science. The legislature further finds there is a sense of urgency to make these corrections and intends to revise high school graduation requirements in mathematics and science only for the minimum period for corrections to be fully implemented." 28A.655.070 Essential academic learning requirements and assessments—Duties of the superintendent of public instruction. (1) The superintendent of public instruction shall develop essential academic learning requirements that identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, develop student assessments, and implement the accountability recommendations

and requests regarding assistance, rewards, and recognition of the state board of education.

(2) The superintendent of public instruction shall:

(a) Periodically revise the essential academic learning requirements, as needed, based on the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. To the maximum extent possible, the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the essential academic learning requirements; and

(b) Review and prioritize the essential academic learning requirements and identify, with clear and concise descriptions, the grade level content expectations to be assessed on the statewide student assessment and used for state or federal accountability purposes. The review, prioritization, and identification shall result in more focus and targeting with an emphasis on depth over breadth in the number of grade level content expectations assessed at each grade level. Grade level content expectations shall be articulated over the grades as a sequence of expectations and performances that are logical, build with increasing depth after foundational knowledge and skills are acquired, and reflect, where appropriate, the sequential nature of the discipline. The office of the superintendent of public instruction, within seven working days, shall post on its web site any grade level content expectations provided to an assessment vendor for use in constructing the statewide student assessment.

(3)(a) In consultation with the state board of education, the superintendent of public instruction shall maintain and continue to develop and revise a statewide academic assessment system in the content areas of reading, writing, mathematics, and science for use in the elementary, middle, and high school years designed to determine if each student has mastered the essential academic learning requirements identified in subsection (1) of this section. School districts shall administer the assessments under guidelines adopted by the superintendent of public instruction. The academic assessment system may include a variety of assessment methods, including criterion-referenced and performance-based measures.

(b) Effective with the 2009 administration of the Washington assessment of student learning and continuing with the statewide student assessment, the superintendent shall redesign the assessment in the content areas of reading, mathematics, and science in all grades except high school by shortening test administration and reducing the number of short answer and extended response questions.

(c) By the 2014-15 school year, the superintendent of public instruction, in consultation with the state board of education, shall modify the statewide student assessment system to transition to assessments developed with a multistate consortium, as provided in this subsection:

(i) The assessments developed with a multistate consortium to assess student proficiency in English language arts and mathematics shall be administered beginning in the 2014-15 school year. The reading and writing assessments shall not be administered by the superintendent of public instruction or schools after the 2013-14 school year.

(ii) The high school assessments in English language arts and mathematics in (c)(i) of this subsection shall be used for the purposes of earning a certificate of academic achievement

for high school graduation under the timeline established in RCW 28A.655.061 and for assessing student career and college readiness.

(iii) During the transition period specified in RCW 28A.655.061, the superintendent of public instruction shall use test items and other resources from the consortium assessment to develop and administer a tenth grade high school English language arts assessment, an end-of-course mathematics assessment to assess the standards common to algebra I and integrated mathematics I, and an end-of-course mathematics assessment to assess the standards common to geometry and integrated mathematics II.

(4) If the superintendent proposes any modification to the essential academic learning requirements or the statewide assessments, then the superintendent shall, upon request, provide opportunities for the education committees of the house of representatives and the senate to review the assessments and proposed modifications to the essential academic learning requirements before the modifications are adopted.

(5) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the essential academic learning requirements at the appropriate periods in the student's educational development.

(6) By September 2007, the results for reading and mathematics shall be reported in a format that will allow parents and teachers to determine the academic gain a student has acquired in those content areas from one school year to the next.

(7) To assist parents and teachers in their efforts to provide educational support to individual students, the superintendent of public instruction shall provide as much individual student performance information as possible within the constraints of the assessment system's item bank. The superintendent shall also provide to school districts:

(a) Information on classroom-based and other assessments that may provide additional achievement information for individual students; and

(b) A collection of diagnostic tools that educators may use to evaluate the academic status of individual students. The tools shall be designed to be inexpensive, easily administered, and quickly and easily scored, with results provided in a format that may be easily shared with parents and students.

(8) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

(9) Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(10) The superintendent shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(11) The superintendent shall consider methods to address the unique needs of special education students when developing the assessments under this section.

(12) The superintendent shall consider methods to address the unique needs of highly capable students when developing the assessments under this section.

(13) The superintendent shall post on the superintendent's web site lists of resources and model assessments in social studies, the arts, and health and fitness.

(14) The superintendent shall integrate financial education skills and content knowledge into the state learning standards pursuant to RCW 28A.300.460(2)(d). [2015 c 211 § 3; 2013 2nd sp.s. c 22 § 5; 2008 c 163 § 2; 2007 c 354 § 5; 2005 c 497 § 106; 2004 c 19 § 204; 1999 c 388 § 501.]

28A.655.230 Reading skills—Meeting for grade placement and strategies for student improvement—Exemptions. (1) The definitions in this subsection apply throughout this section and RCW 28A.655.235 unless the context clearly requires otherwise.

(a) "Basic" means a score on the statewide student assessment at a level two in a four-level scoring system.

(b) "Below basic" means a score on the statewide student assessment at a level one in a four-level scoring system.

(c) "Not meet the state standard" means a score on the statewide student assessment at either a level one or a level two in a four-level scoring system.

(2) Prior to the return of the results of the statewide student assessment in English language arts, elementary schools shall require meetings between teachers and parents of students in third grade who are reading below grade-level or who, based on formative or diagnostic assessment, and other indicators, are likely to score in the below basic level on the third grade statewide student assessment in English language arts. At the meeting, the teacher shall inform the parents or guardians of the requirements of this section and the intensive reading improvement strategies that will be available to students before fourth grade. The teacher also shall inform the parents and guardians of the school district's grade placement policy for the following year. Schools that have regularly scheduled parent teacher conferences may use those meetings to comply with this section.

(3) For students to be placed in fourth grade, the strategies provided by the school district must include an intensive improvement strategy provided, supported, or contracted by the school district that includes a summer program or other options developed to meet the needs of students to prepare for fourth grade.

(4) If a student in third grade scores below grade level on the third grade statewide student assessment in English language arts, and there was no meeting under subsection (2) of this section, the principal or his or her designee shall notify the student's parents or guardians of the following:

(a) The below basic score;

(b) An explanation of the requirements of this section;

(c) The intensive improvement strategy options that are available;

(d) The school district's grade placement policy;

(e) Contact information for a school district employee who can respond to questions and provide additional information; and

(f) A reasonable deadline for obtaining the parent's consent regarding the student's intensive improvement strategies that will be implemented and the student's grade placement.

(5) The parent's or guardian's consent must be obtained regarding the appropriate grade placement and the intensive improvement strategy to be implemented. The school district must implement the strategy selected in consultation with the student's parents or guardians. If the school district does not receive a response from a parent by the deadline or a reasonable time thereafter, the principal or his or her designee shall make a decision on the student's grade placement for the following year and the intensive improvement strategies that will be implemented during the following school year.

(6) If the school principal and parent cannot agree on the appropriate grade placement and improvement strategies from the list of available options, the parent's request will be honored.

(7) If a student does not have a score in English language arts on the third grade statewide student assessment but the district determines, or is able to anticipate from, using district or classroom-based formative or diagnostic assessments or another standardized assessment, that the student's performance is equivalent to below basic in English language arts, the policy in subsections (2) through (6) of this section applies.

(8) Students participating in the transitional bilingual instruction program are exempt from the policy in subsections (2) through (6) of this section, unless the student has participated in the transitional bilingual instruction program for three school years and receives a score of below basic on the third grade statewide student assessment in English language arts.

(9) Students with disabilities whose individualized education program includes specially designed instruction in reading or English language arts are exempt from subsections (2) through (8) of this section. Communication and consultation with parents or guardians of such students shall occur through the individualized education program process required under chapter 28A.155 RCW and associated administrative rules. Chapter 28A.660 RCW ALTERNATIVE ROUTE TEACHER CERTIFICATION

Sections

28A.660.045 Educator retooling conditional scholarship program.

28A.660.050 Conditional scholarship programs—Requirements—Recipients.

28A.660.045 Educator retooling conditional scholarship program. (1) The educator retooling conditional scholarship program is created. Participation is limited to current K-12 teachers and individuals having an elementary education certificate but who are not employed in positions requiring an elementary education certificate. It is anticipated that candidates enrolled in this program will complete the requirements for an endorsement in two years or less.

(2) Entry requirements for candidates include:

(a) Current K-12 teachers shall pursue an endorsement in a subject or geographic endorsement shortage area, as defined by the professional educator standards board, including but not limited to, mathematics, science, special education, bilingual education, English language learner, computer science education, or environmental and sustainability education.

(b) Individuals having an elementary education certificate but who are not employed in positions requiring an elementary education certificate shall pursue an endorsement in a subject or geographic endorsement shortage area, as defined by the professional educator standards board, including but not limited to, mathematics, science, special education, bilingual education, English language learner, computer science education, or environmental and sustainability education. [2015 3rd sp.s. c 9 § 1; 2015 1st sp.s. c 3 § 3; 2007 c 396 § 7.]

Captions not law—2007 c 396: See note following RCW 28A.305.215.

Finding—Intent—2007 c 396: See note following RCW 28A.300.515.

28A.660.050 Conditional scholarship programs—Requirements—Recipients. Subject to the availability of amounts appropriated for these purposes, the conditional scholarship programs in this chapter are created under the following guidelines:

(1) The programs shall be administered by the student achievement council. In administering the programs, the council has the following powers and duties:

(a) To adopt necessary rules and develop guidelines to administer the programs;

(b) To collect and manage repayments from participants who do not meet their service obligations; and

(c) To accept grants and donations from public and private sources for the programs.

(2) Requirements for participation in the conditional scholarship programs are as provided in this subsection (2).

(a) The alternative route conditional scholarship program is limited to interns of professional educator standards board-approved alternative routes to teaching programs under RCW 28A.660.040. For fiscal year 2011, priority must be given to fiscal year 2010 participants in the alternative route partnership program. In order to receive conditional scholarship awards, recipients shall:

(i) Be accepted and maintain enrollment in alternative certification routes through a professional educator standards board-approved program;

(ii) Continue to make satisfactory progress toward completion of the alternative route certification program and receipt of a residency teaching certificate; and

(iii) Receive no more than the annual amount of the scholarship, not to exceed eight thousand dollars, for the cost of tuition, fees, and educational expenses, including books,

supplies, and transportation for the alternative route certification program in which the recipient is enrolled. The council may adjust the annual award by the average rate of resident undergraduate tuition and fee increases at the state universities as defined in RCW 28B.10.016.

(b) The pipeline for paraeducators conditional scholarship program is limited to qualified paraeducators as provided by RCW 28A.660.042. In order to receive conditional scholarship awards, recipients shall:

(i) Be accepted and maintain enrollment at a community and technical college for no more than two years and attain an associate of arts degree;

(ii) Continue to make satisfactory progress toward completion of an associate of arts degree. This progress requirement is a condition for eligibility into a route one program of the alternative routes to teacher certification program for a mathematics, special education, or English as a second language endorsement; and

(iii) Receive no more than the annual amount of the scholarship, not to exceed four thousand dollars, for the cost of tuition, fees, and educational expenses, including books, supplies, and transportation for the alternative route certification program in which the recipient is enrolled. The student achievement council may adjust the annual award by the average rate of tuition and fee increases at the state community and technical colleges.

(c) The educator retooling conditional scholarship program is limited to current K-12 teachers. In order to receive conditional scholarship awards:

(i) Individuals currently employed as teachers shall pursue an endorsement in a subject or geographic endorsement shortage area, as defined by the professional educator standards board, including but not limited to, mathematics, science, special education, bilingual education, English language learner, computer science education, or environmental and sustainability education; or

(ii) Individuals who are certificated with an elementary education endorsement shall pursue an endorsement in a subject or geographic endorsement shortage area, as defined by the professional educator standards board, including but not limited to, mathematics, science, special education, bilingual education, English language learner, computer science education, or environmental and sustainability education; and

(iii) Individuals shall use one of the pathways to endorsement processes to receive an endorsement in a subject or geographic endorsement shortage area, as defined by the professional educator standards board, including but not limited to, mathematics, science, special education, bilingual education, English language learner, computer science education, or environmental and sustainability education, which shall include passing an endorsement test plus observation and completing applicable coursework to attain the proper endorsement; and

(iv) Individuals shall receive no more than the annual amount of the scholarship, not to exceed three thousand dollars, for the cost of tuition, test fees, and educational expenses, including books, supplies, and transportation for the endorsement pathway being pursued.

(3) The Washington professional educator standards board shall select individuals to receive conditional scholarships. In selecting recipients, preference shall be given to eli-

gible veterans or national guard members. In awarding conditional scholarships to support additional bilingual education or English language learner endorsements, the board shall also give preference to teachers assigned to schools required under state or federal accountability measures to implement a plan for improvement, and to teachers assigned to schools whose enrollment of English language learner students has increased an average of more than five percent per year over the previous three years.

(4) For the purpose of this chapter, a conditional scholarship is a loan that is forgiven in whole or in part in exchange for service as a certificated teacher employed in a Washington state K-12 public school. The state shall forgive one year of loan obligation for every two years a recipient teaches in a public school. Recipients who fail to continue a course of study leading to residency teacher certification or cease to teach in a public school in the state of Washington in their endorsement area are required to repay the remaining loan principal with interest.

(5) Recipients who fail to fulfill the required teaching obligation are required to repay the remaining loan principal with interest and any other applicable fees. (1)(a) An institution of higher education may, consistent with RCW 28B.10.925 and 28B.10.926, exercise independently those powers otherwise granted to the director of enterprise services in chapters 43.19 and 39.26 RCW in connection with the purchase and disposition of all material, supplies, services, and equipment needed for the support, maintenance, and use of the respective institution of higher education.

(b) Property disposition policies followed by institutions of higher education shall be consistent with policies followed by the department of enterprise services.

(c)(i) Except as provided in (c)(ii) and (iii) of this subsection and elsewhere as provided by law, purchasing policies and procedures followed by institutions of higher education shall be in compliance with chapters 39.19, 39.26, and 43.03 RCW, and RCW 43.19.1917, 43.19.685, and 43.19.560 through 43.19.637.

(ii) Institutions of higher education may use all appropriate means for making and paying for travel arrangements including, but not limited to, electronic booking and reservations, advance payment and deposits for tours, lodging, and other necessary expenses, and other travel transactions based on standard industry practices and federal accountable plan requirements. Such arrangements shall support student, faculty, staff, and other participants' travel, by groups and individuals, both domestic and international, in the most cost-effective and efficient manner possible, regardless of the source of funds.

(iii) Formal sealed, electronic, or web-based competitive bidding is not necessary for purchases or personal services contracts by institutions of higher education for less than one hundred thousand dollars. However, for purchases and personal services contracts of ten thousand dollars or more and less than one hundred thousand dollars, quotations must be secured from at least three vendors to assure establishment of a competitive price and may be obtained by telephone, electronic, or written quotations, or any combination thereof. As part of securing the three vendor quotations, institutions of higher education must invite at least one quotation each from a certified minority and a certified woman-owned vendor that otherwise qualifies to perform the work. A record of competition for all such purchases and personal services contracts of ten thousand dollars or more and less than one hundred thousand dollars must be documented for audit purposes.

(f) Except for the University of Washington, institutions of higher education shall comply with RCW 43.19.769, 43.19.763, and 43.19.781.

(g) If an institution of higher education can satisfactorily demonstrate to the director of the office of financial management that the cost of compliance is greater than the value of benefits from any of the following statutes, then it shall be exempt from them: RCW 43.19.685 and 43.19.637.

(h) Any institution of higher education that chooses to exercise independent purchasing authority for a commodity or group of commodities shall notify the director of enterprise services. Thereafter the director of enterprise services shall not be required to provide those services for that institution for the duration of the enterprise services contract term for that commodity or group of commodities.

(2) The council of presidents and the state board for community and technical colleges shall convene its correctional industries business development advisory committee, and work collaboratively with correctional industries, to:

(a) Reaffirm purchasing criteria and ensure that quality, service, and timely delivery result in the best value for expenditure of state dollars;

(b) Update the approved list of correctional industries products from which higher education shall purchase; and

(c) Develop recommendations on ways to continue to build correctional industries' business with institutions of higher education.

(3) Higher education and correctional industries shall develop a plan to build higher education business with correctional industries to increase higher education purchases of correctional industries products, based upon the criteria established in subsection (2) of this section. The plan shall include the correctional industries' production and sales goals for higher education and an approved list of products from which higher education institutions shall purchase, based on the criteria established in subsection (2) of this section. Higher education and correctional industries shall report to the legislature regarding the plan and its implementation no later than January 30, 2005.

(4)(a) Institutions of higher education shall set as a target to contract, beginning not later than June 30, 2006, to purchase one percent of the total goods and services required by the institutions each year produced or provided in whole or in part from class II inmate work programs operated by the department of corrections. Intent—Findings—1998 c 344: "It is the intent of the legislature to provide the necessary access to quality upper division and graduate higher education opportunities for the citizens of Spokane. The legislature intends that the Spokane branch campus of Washington State University, offering upper-division and graduate programs, be located at the Riverpoint Higher Education Park and that Washington State University be the administrative and fiscal agent for the Riverpoint Higher Education Park. In addition, those programs offered by Eastern Washington University that meet the rules and guidelines established by the higher education coordinating board's program approval process may serve students at the Riverpoint Higher Education Park. The legislature intends to streamline the program planning and approval process in Spokane by eliminating the joint center for higher education; thereby treating the Spokane higher education community like other public higher education communities in Washington that receive program approval from the higher education coordinating board. However, the legislature encourages partnerships, collaboration, and avoidance of program duplication through regular communication among the presidents of Spokane's public and private institutions of higher education. The legislature further intends that the residential mission of Eastern Washington University in Cheney be strengthened and that Eastern Washington University focus on the excellence of its primary campus in Cheney.

In addition, the legislature finds that the Spokane intercollegiate research and technology institute is a vital and necessary element in the academic and economic future of eastern Washington. The legislature also finds that it is in the interest of the state of Washington to support and promote applied research and technology in areas of the state that, because of geographic or historic circumstances, have not developed fully balanced economies. It is the intent of the legislature that institutions of higher education and the *department of community, trade, and economic development work cooperatively with the private sector in the development and implementation of a technology transfer and integration program to promote the economic development and enhance the quality of life in eastern Washington." [1998 c 344 § 1.]

***Reviser's note:** The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Intent—1993 c 379: "The legislature acknowledges the academic freedom of institutions of higher education, and seeks to improve their efficiency and effectiveness in carrying out their missions. By this act, the legislature intends to increase the flexibility of institutions of higher education to manage personnel, construction, purchasing, printing, and tuition." [1993 c 379 § 1.]

(2) The term "resident student" shall mean:

(a) A financially independent student who has had a domicile in the state of Washington for the period of one year immediately prior to the time of commencement of the first day of the semester or quarter for which the student has registered at any institution and has in fact established a bona fide domicile in this state primarily for purposes other than educational;

It is the place where the student intends to remain, and to which the student expects to return when the student leaves without intending to establish a new domicile elsewhere. (6) The term "dependent" shall mean a person who is not financially independent. Factors to be considered in determining whether a person is financially independent shall be set forth in rules adopted by the student achievement council and shall include, but not be limited to, the state and federal income tax returns of the person and/or the student's parents or legal guardian filed for the calendar year prior to the year in which application is made and such other evidence as the council may require.

[2015 c 55 § 209; 1985 c 390 § 12.]

28B.15.031 "Operating fees"—Defined—Disposition. (1) The term "operating fees" as used in this chapter shall include the fees, other than building fees, charged all students registering at the state's colleges and universities but shall not include fees for short courses, self-supporting degree credit programs and courses, marine station work, experimental station work, correspondence or extension courses, and individual instruction and student deposits or rentals, disciplinary and library fines, which colleges and universities shall have the right to impose, laboratory, gymnasium, health, technology and student activity fees, or fees, charges, rentals, and other income derived from any or all revenue producing lands, buildings and facilities of the colleges or universities heretofore or hereafter acquired, constructed or installed, including but not limited to income from rooms, dormitories, dining rooms, hospitals, infirmaries, housing or student activity buildings, vehicular parking facilities, land, or the appurtenances thereon, or such other special fees as may be established by any college or university board of trustees or regents from time to time. All moneys received as operating fees at any institution of higher education shall be deposited in a local account containing only operating fees revenue and related interest: PROVIDED, That a minimum of four percent of operating fees shall be retained by four-year institutions of higher education and a minimum of three and one-half percent of operating fees shall be retained by the community and technical colleges for the purposes of RCW 28B.15.820. The percentage to be transferred to the community and technical college innovation account shall be determined by the college board each year but shall not exceed three percent of the operating fees collected each year.

(3) Local operating fee accounts shall not be subject to appropriation by the legislature but shall be subject to allotment procedures by budget program and fiscal year under chapter 43.88 RCW. Short title—2015 3rd sp.s. c 36: "This act may be known and cited as the college affordability program." [2015 3rd sp.s. c 36 § 13.]

Savings report—2012 c 230: See RCW 28B.10.0291.

Findings—Intent—2011 1st sp.s. c 10: "(1) The legislature finds that in the knowledge-based, globally interdependent economy of the twenty-first century, postsecondary education is the most indispensable form of currency. Public institutions of higher education are drivers of economic growth and job creation and incubators for innovation. An educated citizenry is a critical component of our democracy, and a commitment to provide public funding for public higher education institutions is imperative. At the same time, the legislature finds that Washington state is experiencing a profound structural shift in the funding of higher education. State support has declined

dramatically over the past twenty years, thereby necessitating increases in tuition to supplant the support of higher education from general taxpayers. The problem faced by all stakeholders - students and their families, institutions, and policymakers - is a growing reliance on tuition dollars and a reduced reliance on state support. At the same time, there is insufficient visibility into the use of locally retained tuition dollars. There is little transparency regarding whether increasing tuition dollars gives students, their families, and Washington taxpayers a high-value return on investment. Responding to those concerns, and recognizing that tuition-setting authority is interrelated to a wide variety of factors including state funding, student aid, admissions, dual credit, educational effectiveness, regulatory and reporting requirements, and other policies and practices, this higher education opportunity act directs a number of higher education system reforms.

(2) It is the intent of the legislature to:

(a) Ensure that tuition dollars are spent to improve student access, affordability, and the quality of education;

(b) Establish a clear nexus between tuition dollars and improved productivity and greater accountability of public institutions of higher education;

(c) Create a modern and robust higher education financial system that funds outcomes and results rather than input and process; and

(d) Continue a commitment to public funding of higher education through state appropriations that are essential for providing access, affordability, and quality in higher education for all students across the state.

(3)(a) It is the intent of the legislature to set goals for four-year institutions of higher education to increase the number of students who earn baccalaureate degrees, while maintaining quality, and achieve the following initial degree completion targets by 2018:

(i) Increasing the number of bachelor's degrees earned by Washington's resident students from the 2009-10 academic year levels by at least six thousand degrees completed or by twenty-seven percent;

(ii) Consistent with the priority for expanding the number of enrollments and degrees in the fields of engineering, technology, biotechnology, sciences, computer sciences, and mathematics, at least two thousand of the additional degrees under this subsection (3)(a) would be awarded in the areas of science, which includes agriculture and natural resources, biology and biomedical sciences, computer and information sciences, engineering and engineering technologies, health professions and clinical sciences, mathematics and statistics, and physical sciences and science technologies; and

(iii) Attaining parity in degree attainment for students from underrepresented groups, which would mean that at least nineteen percent of the degrees awarded would include students who are low-income or are the first in their families to attend college.

(b) It is the intent of the legislature that the bachelor degree completion targets in (a) of this subsection be updated every two years based upon the state's changing population and economic needs and that targets be set for five-year periods following the 2018 target.

(c) It is the intent of the legislature to urge four-year institutions of higher education to place the highest priority on achieving the degree completion targets under (a) of this subsection. The legislature intends to examine the strategies used and progress made by institutions of higher education to meet the targets in addition to evidence of increased cost-effectiveness and efficiency. The legislature recognizes that individual institutions develop their campus goals recognizing the role of their campus as part of the system of public higher education and may implement a variety of innovative methods to achieve these goals." [2011 1st sp.s. c 10 § 1.]

Short title—2011 1st sp.s. c 10: "This act may be known and cited as the higher education opportunity act." [2011 1st sp.s. c 10 § 30.]

Finding—Intent—2011 c 274: See note following RCW 28B.50.515.

Finding—Intent—2003 c 232: "The legislature finds that, as a partner in financing public higher education with students and parents who pay tuition and fees, periodic increases in state funding, state financial aid, and tuition must be authorized to provide high quality higher education for the citizens of Washington. It is the intent of the legislature to address higher education through a cooperative bipartisan effort that includes the legislative and executive branches of government, parents, students, educators, as well as business, labor, and community leaders. The legislature recognizes the importance of keeping the public commitment to public higher education and will continue searching for policies that halt the trend for the growth in tuition revenue to outpace the revenue provided by the state. The legislature believes that a well-educated citizenry is essential to both the private and the public good. The economic and civic health of the state require both an edu-

cated citizenry and a well-trained workforce. The six-year time limitation authorizing the governing boards to establish tuition rates for all students other than undergraduate resident students will give the legislature, the governor, and the higher education institutions an opportunity to determine whether this policy achieves the goal of maintaining quality and access for all who are eligible for and can benefit from a higher education. Using data from six years of this tuition policy, the state will be able to identify options for long-term funding of higher education including not only tuition but general fund and financial aid sources." [2003 c 232 § 1.]

Intent—Purpose—1995 1st sp.s. c 9: "It is the intent of the legislature to address higher education funding through a cooperative bipartisan effort that includes the legislative and executive branches of government, parents, students, educators, and concerned citizens. This effort will begin in 1995, with the results providing the basis for discussion during the 1996 legislative session for future decisions and final legislative action in 1997.

The purpose of this act is to provide tuition increases for public institutions of higher education as a transition measure until final action is taken in 1997." [1995 1st sp.s. c 9 § 1.]

28B.15.066 Appropriations to institutions of higher education—"Inflation" defined.

(1) Beginning with the 2015-2017 omnibus appropriations act, the legislature shall appropriate to the state board for community and technical colleges and to each of the four-year institutions of higher education an amount that is at least equal to the total state funds appropriated in the 2013-2015 biennium and the net revenue loss from resident undergraduate tuition operating fees based on budgeted full-time equivalent enrollment received for the 2015-2017 fiscal biennium under RCW 28B.15.067 (3) and (6). The net revenue loss shall be adjusted for inflation in subsequent biennia.

(2) As used in this section and RCW 28B.15.069, "inflation" shall be based on the consumer price index, using the

official current base, compiled by the bureau of labor statistics, United States department of labor for the state of Washington. If the bureau of labor statistics develops more than one consumer price index for areas within the state, the index covering the greatest number of people and covering areas exclusively within the boundaries of the state shall be used. 28B.15.067 Tuition fees—Established. (1) Tuition fees shall be established under the provisions of this chapter.

(2) Beginning in the 2011-12 academic year and through the 2014-15 academic year, reductions or increases in full-time tuition fees shall be as provided in the omnibus appropriations act for resident undergraduate students at community and technical colleges.

(3)(a) In the 2015-16 and 2016-17 academic years, tuition operating fees for resident undergraduates at community and technical colleges excluding applied baccalaureate degrees as defined in RCW 28B.50.030, shall be five percent less than the 2014-15 academic year tuition operating fee.

(b) Beginning in the 2017-18 academic year, tuition operating fees for resident undergraduates at community and technical colleges excluding applied baccalaureate degrees as defined in RCW 28B.50.030, may increase by no more than the average annual percentage growth rate in the median hourly wage for Washington for the previous fourteen years as the wage is determined by the federal bureau of labor statistics.

(4) The governing boards of the state universities, regional universities, and The Evergreen State College; and the state board for community and technical colleges may reduce or increase full-time tuition fees for all students other than resident undergraduates, including nonresident students, summer school students, and students in other self-supporting degree programs. Percentage increases in full-time tuition may exceed the fiscal growth factor. Except during the 2013-2015 fiscal biennium, the state board for community and technical colleges may pilot or institute differential tuition models. The board may define scale, scope, and rationale for the models.

(5)(a) Beginning with the 2011-12 academic year and through the end of the 2014-15 academic year, the governing boards of the state universities, the regional universities, and The Evergreen State College may reduce or increase full-time tuition fees for all students, including summer school students and students in other self-supporting degree programs. Percentage increases in full-time tuition fees may exceed the fiscal growth factor. Reductions or increases may be made for all or portions of an institution's programs, campuses, courses, or students; however, during the 2013-2015 fiscal biennium, reductions or increases in tuition must be uniform among resident undergraduate students.

(b) Prior to reducing or increasing tuition for each academic year, the governing boards of the state universities, the regional universities, and The Evergreen State College shall consult with existing student associations or organizations with student undergraduate and graduate representatives regarding the impacts of potential tuition increases. Each governing board shall make public its proposal for tuition and fee increases twenty-one days before the governing board of the institution considers adoption and allow opportunity for public comment. However, the requirement to make public a proposal for tuition and fee increases twenty-one days before the governing board considers adoption shall not apply if the omnibus appropriations act has not passed the legislature by May 15th. Governing boards shall be required to provide data regarding the percentage of students receiving financial aid, the sources of aid, and the percentage of total costs of attendance paid for by aid.

(c) Prior to reducing or increasing tuition for each academic year, the state board for community and technical college system shall consult with existing student associations or organizations with undergraduate student representation regarding the impacts of potential tuition increases. The state board for community and technical colleges shall provide data regarding the percentage of students receiving financial aid, the sources of aid, and the percentage of total costs of attendance paid for by aid.

(c) Beginning with the 2017-18 academic year, full-time tuition operating fees for resident undergraduates in (b) of this subsection may increase by no more than the average annual percentage growth rate in the median hourly wage for Washington for the previous fourteen years as the wage is determined by the federal bureau of labor statistics.

(7) The tuition fees established under this chapter shall not apply to high school students enrolling in participating institutions of higher education under RCW 28A.600.300 through 28A.600.400.

(8) The tuition fees established under this chapter shall not apply to eligible students enrolling in a dropout reengagement program through an interlocal agreement between a school district and a community or technical college under RCW 28A.175.100 through 28A.175.110.

(9) The legislative advisory committee to the committee on advanced tuition payment established in RCW 28B.95.170 shall:

28B.20.744 University buildings and facilities for critical patient care or specialized medical research—Alternative process for awarding contracts—Reports to capital projects advisory review board. (1) This section provides an alternative process for awarding contracts for construction, building, renovation, remodeling, alteration, repair, or improvement of university buildings and facilities in which critical patient care or highly specialized medical research is located. These provisions may be used, in lieu of other procedures to award contracts for such work, when the estimated cost of the work is equal to or less than five million dollars and the project involves construction, renovation, remodeling, or alteration of improvements within a building that is used directly for critical patient care or highly specialized medical research.

(2) The university may create a single critical patient care or specialized medical research facilities roster or may create multiple critical patient care or specialized medical research facilities rosters for different trade specialties or categories of anticipated work. At least once a year, the university shall publish in a newspaper of general circulation a notice of the existence of the roster or rosters and solicit a statement of qualifications from contractors who wish to be on the roster or rosters of prime contractors. In addition, qualified contractors shall be added to the roster or rosters at any time they submit a written request, necessary records, and meet the qualifications established by the university. The university may require eligible contractors desiring to be placed on a roster to keep current records of any applicable licenses, certifications, registrations, bonding, insurance, or other

appropriate matters on file with the university as a condition of being placed on a roster or rosters. Placement on a roster shall be on the basis of qualifications.

(3) The public solicitation of qualifications shall include but not be limited to:

(a) A description of the types of projects to be completed and where possible may include programmatic, performance, and technical requirements and specifications;

(b) The reasons for using the critical patient care and specialized medical research roster process;

(c) A description of the qualifications to be required of a contractor, including submission of an accident prevention program;

(d) A description of the process the university will use to evaluate qualifications, including evaluation factors and the relative weight of factors;

(e) The form of the contract to be awarded;

(f) A description of the administrative process by which the required qualifications, evaluation process, and project types may be appealed; and

(g) A description of the administrative process by which decisions of the university may be appealed.

(4) The university shall establish a committee to evaluate the contractors submitting qualifications. Evaluation criteria for selection of the contractor or contractors to be included on a roster shall include, but not be limited to:

(a) Ability of a contractor's professional personnel;

(b) A contractor's past performance on similar projects, including but not limited to medical facilities, and involving either negotiated work or other public works contracts;

(c) The contractor's ability to meet time and budget requirements;

(d) The contractor's ability to provide preconstruction services, as appropriate;

(e) The contractor's capacity to successfully complete the project;

(f) The contractor's approach to executing projects;

(g) The contractor's approach to safety and the contractor's safety history; and

(h) The contractor's record of performance, integrity, judgment, and skills.

(5) Contractors meeting the evaluation committee's criteria for selection must be placed on the applicable roster or rosters.

(6) When a project is selected for delivery through this roster process, the university must establish a procedure for securing written quotations from all contractors on a roster to assure that a competitive price is established. Invitations for quotations shall include an estimate of the scope and nature of the work to be performed as well as materials and equipment to be furnished. Plans and specifications must be included in the invitation but may not be detailed. Award of a project must be made to the responsible bidder submitting the lowest responsive bid.

(7) The university shall make an effort to solicit proposals from certified minority or certified woman-owned contractors to the extent permitted by the Washington state civil rights act, RCW 49.60.400.

(8) Beginning in September 2010 and every other September thereafter, the university shall provide a report to the capital projects advisory review board which must, at a min-

imum, include a list of rosters used, contracts awarded, and a description of outreach to and participation by women and minority-owned businesses.

(9) Beginning in September 2015 and every September thereafter, the university shall report to the office of minority and women's business enterprises and to the appropriate legislative fiscal committees the number of qualified women and minority-owned business contractors on the roster or rosters and the number of contracts awarded to women and minority-owned businesses. [2015 3rd sp.s. c 3 § 7043; 2010 c 245 § 11.]

Reviser's note—Sunset Act application: The alternative process for awarding contracts is subject to review, termination, and possible extension under chapter 43.131 RCW, the Sunset Act. See RCW 43.131.413. RCW 28B.20.744 is scheduled for future repeal under RCW 43.131.414.

Findings—Intent—2005 c 258: See note following RCW 28B.45.014.

Intent—1991 c 315: "The legislature finds that:

(1) The economic health and well-being of timber-dependent communities is of substantial public concern. The significant reduction in annual timber harvest levels likely will result in reduced economic activity and persistent unemployment and underemployment over time, which would be a serious threat to the safety, health, and welfare of residents of the timber impact areas, decreasing the value of private investments and jeopardizing the sources of public revenue.

(2) Timber impact areas are most often located in areas that are experiencing little or no economic growth, creating an even greater risk to the health, safety, and welfare of these communities. The ability to remedy problems caused by the substantial reduction in harvest activity is beyond the power and control of the regulatory process and influence of the state, and the ordinary operations of private enterprise without additional governmental assistance are insufficient to adequately remedy the resulting problems of poverty and unemployment.

(3) To address these concerns, it is the intent of the legislature to increase training and retraining services accessible to timber impact areas, and provide for coordination of noneconomic development services in timber impact areas as economic development efforts will not succeed unless social, housing, health, and other needs are addressed." Only colleges under RCW 28B.50.810 may award baccalaureate degrees. The board, upon recommendation of the faculty, may also confer honorary associate of arts degrees, or if it is authorized to award baccalaureate degrees may confer honorary bachelor of applied science degrees, upon persons other than graduates of the community college, in recognition of their learning or devotion to education, literature, art, or science. 28B.50.534 High school completion pilot program. (Expires August 1, 2015.) (1) A pilot program is created for two community or technical colleges to make available

[2015 RCW Supp—page 352]

courses or a program of study, on the college campus, designed to enable students under the age of twenty-one who have completed all state and local high school graduation requirements except the certificate of academic achievement or certificate of individual achievement to complete their high school education and obtain a high school diploma.

(a) The colleges participating in the pilot program in this section may make courses or programs under this section available by entering into contracts with local school districts to deliver the courses or programs. Colleges participating in the pilot program that offer courses or programs under contract shall be reimbursed for each enrolled eligible student as provided in the contract, and the high school diploma shall be issued by the local school district;

(b) Colleges participating in the pilot program may deliver courses or programs under this section directly. Colleges that deliver courses or programs directly shall be reimbursed for each enrolled eligible student as provided in RCW 28A.600.405, and the high school diploma shall be issued by the college;

(c) Colleges participating in the pilot program may make courses or programs under this section available through a combination of contracts with local school districts, collaboration with educational service districts, and direct service delivery. Colleges participating in the pilot program may also make courses or programs under this section available for students at locations in addition to the college campus; or

(d) Colleges participating in the pilot program may enter into regional partnerships to carry out the provisions of this subsection (1).

(2) Regardless of the service delivery method chosen, colleges participating in the pilot program shall ensure that all eligible students located in school districts within their college district as defined in RCW 28B.50.040 have an opportunity to enroll in a course or program under this section.

(3) Colleges participating in the pilot program shall not require students enrolled under this section to pay tuition or services and activities fees; however this waiver of tuition and services and activities fees shall be in effect only for those courses that lead to a high school diploma.

(4) Nothing in this section or RCW 28A.600.405 precludes a community or technical college from offering courses or a program of study for students other than eligible students as defined by RCW 28A.600.405 to obtain a high school diploma, nor is this section or RCW 28A.600.405 intended to restrict diploma completion programs offered by school districts or educational service districts. Community and technical colleges and school districts are encouraged to consult with educational service districts in the development and delivery of programs and courses required under this section.

(5) Community and technical colleges participating in the pilot program shall not be required to administer the statewide student assessment.

(6) This section expires August 1, 2015. [2015 c 55 § 122; 2007 c 355 § 3.]

Finding—Intent—2007 c 355: "The legislature finds that the goal of Washington's education reform is for all students to meet rigorous academic standards so that they are prepared for success in college, work, and life. Educators know that not all students learn at the same rate or in the same

way. Some students will take longer to meet the state's standards for high school graduation. Older students who cannot graduate with their peers need an appropriate learning environment and flexible programming that enables them simultaneously to earn a diploma, work, and pursue other training options. Providing learning options in locations in addition to high schools will encourage older students to complete their diplomas. Therefore the legislature intends to create a pilot high school completion program at two community and technical colleges for older students who have not yet received a diploma but are eligible for state basic education support." [2007 c 355 § 1.]

28B.50.850 Faculty tenure—Purpose. It shall be the purpose of RCW 28B.50.850 through 28B.50.869 to establish a system of faculty tenure which protects the concepts of faculty employment rights and faculty involvement in the protection of those rights in the state system of community and technical colleges. RCW 28B.50.850 through 28B.50.869 shall define a reasonable and orderly process for appointment of faculty members to tenure status and the dismissal of the tenured faculty member. [2015 c 55 § 228; 1991 c 238 § 67; 1969 ex.s. c 283 § 32. Formerly RCW 28.85.850.]

tion (7) or (3)(a) of this section depending upon their status prior to the "special funding" transfer. Notwithstanding the fact that tenure shall not be granted to anyone holding a special faculty appointment, the termination of any such faculty appointment prior to the expiration of the term of such faculty member's individual contract for any cause which is not related to elimination or reduction of financing or the elimination or reduction of program shall be considered a termination for cause subject to the provisions of this chapter;

Intent—1991 c 294: "Improving the quality of instruction at our state institutions of higher education is a priority of the legislature. Recently, many efforts have been made by the legislature, the colleges, and the *higher education coordinating board to assess and improve the quality of instruction received by students at our state institutions. It is the intent of the legislature that, in conjunction with these various efforts, the process for the award of faculty tenure at community colleges should allow for a thorough review of the performance of faculty appointees prior to the granting of tenure." [1991 c 294 § 1.]

Sections

- 28B.77.020 Educational attainment goals and priorities—Short-term strategic action plan—Ten-year roadmap—System reviews—Role of education data center—Responsibility for work of the office—Additional duties.
- 28B.77.100 Data collection and research—Goals—Education data center as authorized representative for research purposes.

28B.77.020 Educational attainment goals and priorities—Short-term strategic action plan—Ten-year roadmap—System reviews—Role of education data center—Responsibility for work of the office—Additional duties. (1) Aligned with the state's biennial budget and policy cycles, the council shall propose educational attainment goals and priorities to meet the state's evolving needs. The council shall identify strategies for meeting the goals and priorities by means of a short-term strategic action plan and a ten-year plan that serves as a roadmap.

(a) The goals must address the needs of Washington residents to reach higher levels of educational attainment and Washington's workforce needs for certificates and degrees in particular fields of study.

(b) The council shall identify the resources it deems appropriate to meet statewide goals and also recognize current state economic conditions and state resources.

(c) In proposing goals, the council shall collaborate with the superintendent of public instruction, the professional educator standards board, the state board of education, the state board for community and technical colleges, the four-year institutions of higher education, independent colleges and degree-granting institutions, certificate-granting institutions, and the workforce training and education coordinating board.

(2) The council shall update the strategic action plan every two years with the first strategic action plan to be submitted to the governor and the legislature by December 1, 2012. The ten-year roadmap must be updated every two years with the first roadmap to be submitted to the governor and the legislature by December 1, 2013. The council must provide regular updates to the joint higher education committee created in RCW 44.04.360 as needed.

(3) In order to develop the ten-year roadmap, the council shall conduct strategic planning in collaboration with agencies and stakeholders and include input from the legislature. The council must also consult with the STEM education

innovation alliance established under RCW 28A.188.030 in order to align strategies under the roadmap with the STEM framework for education and accountability developed by the alliance. The roadmap must encompass all sectors of higher education, including secondary to postsecondary transitions. The roadmap must outline strategies that address:

(a) Strategic planning, which includes setting benchmarks and goals for long-term degree production generally and in particular fields of study;

(b) Expanding access, affordability, quality, efficiency, and accountability among the various institutions of higher education;

(c) Higher education finance planning and strategic investments including budget recommendations necessary to meet statewide goals;

(d) System design and coordination;

(e) Improving student transitions;

(f) Higher education data and analysis, in collaboration with the education data center, which includes outcomes for recruitment, retention, and success of students;

(g) College and career access preparedness, in collaboration with the office of the superintendent of public instruction and the state board of education;

(h) Expanding participation and success for racial and ethnic minorities in higher education;

(i) Development and expansion of innovations in higher education including innovations to increase attainment of postsecondary certificates, and associate, baccalaureate, graduate, and professional degrees; and innovations to improve precollege education in terms of cost-effectiveness and transitions to college-level education;

(j) Strengthening the education pipeline and degree production in science, technology, engineering, and mathematics fields, and aligning strategies under the roadmap with the STEM framework for action and accountability developed under RCW 28A.188.030; and

(k) Relevant policy research.

(4) As needed, the council must conduct system reviews consistent with RCW 28B.77.080.

(5) The council shall facilitate the development and expansion of innovative practices within, between, and among the sectors to increase educational attainment and assess the effectiveness of the innovations.

(6) The council shall use the data and analysis produced by, and in consultation with, the education data center created in RCW 43.41.400 in developing policy recommendations and proposing goals. In conducting research and analysis the council at a minimum must:

(a) Identify barriers to increasing educational attainment, evaluate effectiveness of various educational models, identify best practices, and recommend methods to overcome barriers;

(b) Analyze data from multiple sources including data from academic research and from areas and agencies outside of education including but not limited to data from the department of health, the department of corrections, and the department of social and health services to determine best practices to remove barriers and to improve educational attainment;

(c) Assess educational achievement disaggregated by income level, age, gender, race and ethnicity, country of ori-

gin, and other relevant demographic groups working with data from the education data center;

(d) Track progress toward meeting the state's goals;

(e) Communicate results and provide access to data analysis to policymakers, the superintendent of public instruction, institutions of higher education, students, and the public; and

(f) Use data from the education data center wherever appropriate to conduct duties in (a) through (e) of this subsection.

(7) The council shall collaborate with the appropriate state agencies and stakeholders, including the state board of education, the office of the superintendent of public instruction, the state board for community and technical colleges, the workforce training and education coordinating board, and the four-year institutions of higher education to improve student transitions and success including but not limited to:

(a) Setting minimum college admission standards for four-year institutions of higher education, including:

(i) A requirement that coursework in American sign language or an American Indian language satisfies any requirement for instruction in a language other than English that the council or the institutions may establish as a general undergraduate admissions requirement; and

(ii) Encouragement of the use of multiple measures to determine whether a student must enroll in a precollege course, such as placement tests, the SAT, high school transcripts, college transcripts, or initial class performance;

(b) Proposing comprehensive policies and programs to encourage students to prepare for, understand how to access, and pursue postsecondary college and career programs, including specific policies and programs for students with disabilities;

(c) Recommending policies that require coordination between or among sectors such as dual high school-college programs, awarding college credit for advanced high school work, and transfer between two and four-year institutions of higher education or between different four-year institutions of higher education; and

(d) Identifying transitions issues and solutions for students, from high school to postsecondary education including community and technical colleges, four-year institutions of higher education, apprenticeships, training, or workplace education; between two-year and four-year institutions of higher education; and from postsecondary education to career. In addressing these issues the council must recognize that these transitions may occur multiple times as students continue their education.

(8) The council directs the work of the office, which includes administration of student financial aid programs under RCW 28B.76.090, including the state need grant and other scholarships, the Washington advanced college tuition payment program, and work-study programs.

(9) The council may administer state and federal grants and programs including but not limited to those programs that provide incentives for improvements related to increased access and success in postsecondary education.

(10) The council shall protect higher education consumers including:

(a) Approving degree-granting postsecondary institutions consistent with existing statutory criteria;

(b) Establishing minimum criteria to assess whether students who attend proprietary institutions of higher education shall be eligible for the state need grant and other forms of state financial aid.

(i) The criteria shall include retention rates, completion rates, loan default rates, and annual tuition increases, among other criteria for students who receive state need grant as in chapter 28B.92 RCW and any other state financial aid.

(ii) The council may remove proprietary institutions of higher education from eligibility for the state need grant or other form of state financial aid if it finds that the institution or college does not meet minimum criteria.

(iii) The council shall report by December 1, 2014, to the joint higher education committee in RCW 44.04.360 on the outcomes of students receiving state need grants, impacts on meeting the state's higher education goals for educational attainment, and options for prioritization of the state need grant and possible consequences of implementing each option. When examining options for prioritizing the state need grant the council shall consider awarding grants based on need rather than date of application and making awards based on other criteria selected by the council.

(11) The council shall adopt residency requirements by rule.

(12) The council shall arbitrate disputes between and among four-year institutions of higher education and the state board for community and technical colleges at the request of one or more of the institutions involved, or at the request of the governor, or from a resolution adopted by the legislature. The decision of the council shall be binding on the participants in the dispute.

(13) The council may solicit, accept, receive, and administer federal funds or private funds, in trust, or otherwise, and contract with foundations or with for-profit or nonprofit organizations to support the purposes and functions of the council.

(14) The council shall represent the broad public interest above the interests of the individual institutions of higher education. [2015 c 83 § 2; 2013 2nd sp.s. c 25 § 6; 2012 c 229 § 104.]

28B.77.100 Data collection and research—Goals—Education data center as authorized representative for research purposes. (1)(a) In consultation with the education data center, institutions of higher education, and state education agencies, the council shall identify the data needed to carry out its responsibilities for policy analysis and public information. The primary goals of the council's data collection and research are to describe how students and other beneficiaries of higher education are being served; to compare and contrast the state of Washington's higher education system with the rest of the nation; and to assist state policymakers and institutions in making policy decisions.

(b) For the council, assistance to state policymakers and institutions of higher education in making policy decisions includes but is not limited to annual reporting of a national comparison of tuition and fees.

(2) One of the goals of the education data center's data collection and research for higher education is to support higher education accountability. For the education data center, assistance to state policymakers and institutions of higher

education in making policy decisions includes but is not limited to regular completion of:

(a) Educational cost study reports as provided in RCW 43.41.415 and information on state support received by students as provided in RCW 43.41.410; and

(b) Per-student funding at similar public institutions of higher education in the global challenge states.

(3) The education data center shall be considered an authorized representative of the council and the office under applicable federal and state statutes for purposes of accessing and compiling student record data for research purposes. [2015 c 244 § 2; 2012 c 229 § 302; 2010 1st sp.s. c 7 § 58; 2004 c 275 § 12. Formerly RCW 28B.76.280.]

28B.92.080 Eligibility for state need grant.

28B.92.005 Financial aid application due dates and information—Notification. Community and technical colleges shall provide financial aid application due dates and information on whether or not financial aid will be awarded on a rolling basis to their admitted students at the time of acceptance. State universities, regional universities, and The Evergreen State College shall provide financial aid application due dates and distribution policies on their web sites, including whether financial aid is awarded on a rolling basis, for prospective and admitted students. [2015 c 212 § 1; 2014 c 53 § 2.]

Intent—2014 c 53: "The legislature recognizes that in recent years not all students eligible for the state need grant program have received an award due to limited funds and unfamiliarity with disbursement policies. Therefore, it is the intent of the legislature to ensure that institutions of higher education clearly disseminate their financial aid policies to admitted and prospective students." [2014 c 53 § 1.]

28B.92.065 State need grant awards—Effect of reduction in tuition levels. Beginning with the 2015-2017 omnibus appropriations act and each biennium thereafter, reductions in tuition levels resulting from section 3, chapter 36, Laws of 2015 3rd sp. sess. will allow the legislature to reduce state need grant appropriations by an equal amount from the 2013-2015 fiscal biennium amounts. The legislature does not intend to reduce award levels for private colleges and universities below the 2014-15 academic year levels.

By reducing the overall cost of tuition, the legislature in future biennia is better able and intends to serve those students currently eligible but unserved in the state need grant. [2015 3rd sp.s. c 36 § 4.]

(2) "Account" means the Washington advanced college tuition payment program account established for the deposit of all money received by the office from eligible purchasers and interest earnings on investments of funds in the account, as well as for all expenditures on behalf of eligible beneficiaries for the redemption of tuition units and for the development of any authorized college savings program pursuant to RCW 28B.95.150.

(3) "Committee on advanced tuition payment" or "committee" means a committee of the following members: The state treasurer, the director of the office of financial management, the director of the office, or their designees, and two members to be appointed by the governor, one representing program participants and one private business representative with marketing, public relations, or financial expertise.

(4) "Contractual obligation" means a legally binding contract of the state with the purchaser and the beneficiary establishing that purchases of tuition units will be worth the same number of tuition units at the time of redemption as they were worth at the time of the purchase, except as provided in RCW 28B.95.030(7).

(5) "Dual credit fees" means any fees charged to a student for participation in college in the high school under

The beneficiary is that person named by the purchaser at the time that a tuition unit contract is accepted by the governing body. Qualified organizations, as allowed under section 529 of the federal internal revenue code, purchasing tuition unit contracts as future scholarships need not designate a beneficiary at the time of purchase.

The state of Washington may be an eligible purchaser for purposes of purchasing tuition units to be held for granting Washington college bound scholarships.

For purposes of this chapter, services and activities fees do not include fees charged for the payment of bonds heretofore or hereafter issued for, or other indebtedness incurred to pay, all or part of the cost of acquiring, constructing, or installing any lands, buildings, or facilities.

(15) "Tuition unit contract" means a contract between an eligible purchaser and the governing body, or a successor agency appointed for administration of this chapter, for the purchase of tuition units for a specified beneficiary that may be redeemed at a later date for an equal number of tuition units, except as provided in RCW 28B.95.030(7).

(16) "Unit purchase price" means the minimum cost to purchase one tuition unit for an eligible beneficiary. Generally, the minimum purchase price is one percent of the undergraduate tuition and fees for the current year, rounded to the nearest whole dollar, adjusted for the costs of administration and adjusted to ensure the actuarial soundness of the account. 28B.95.030 Administration of program—Tuition units—Program adjustments to mitigate tuition changes—Promotion of program—Authority of governing body. (1) The Washington advanced college tuition payment program shall be administered by the committee on advanced tuition payment which shall be chaired by the director of the office. The committee shall be supported by staff of the office.

(2)(a) The Washington advanced college tuition payment program shall consist of the sale of tuition units, which may be redeemed by the beneficiary at a future date for an equal number of tuition units regardless of any increase in the price of tuition, that may have occurred in the interval, except as provided in subsection (7) of this section.

(b) Each purchase shall be worth a specific number of or fraction of tuition units at each state institution of higher education as determined by the governing body, except as provided in subsection (7) of this section.

(c) The number of tuition units necessary to pay for a full year's, full-time undergraduate tuition and fee charges at a state institution of higher education shall be set by the governing body at the time a purchaser enters into a tuition unit contract, except as provided in subsection (7) of this section.

(d) The governing body may limit the number of tuition units purchased by any one purchaser or on behalf of any one beneficiary, however, no limit may be imposed that is less than that necessary to achieve four years of full-time, undergraduate tuition charges at a state institution of higher education. The governing body also may, at its discretion, limit the number of participants, if needed, to ensure the actuarial soundness and integrity of the program.

(e) While the Washington advanced college tuition payment program is designed to help all citizens of the state of Washington, the governing body may determine residency requirements for eligible purchasers and eligible beneficiaries to ensure the actuarial soundness and integrity of the program.

(3)(a) No tuition unit may be redeemed until two years after the purchase of the unit.

(b) Units may be redeemed for enrollment at any institution of higher education that is recognized by the internal revenue service under chapter 529 of the internal revenue code. Units may also be redeemed to pay for dual credit fees.

(c) Units redeemed at a nonstate institution of higher education or for graduate enrollment shall be redeemed at the rate for state public institutions in effect at the time of redemption.

(4) The governing body shall determine the conditions under which the tuition benefit may be transferred to another family member. In permitting such transfers, the governing body may not allow the tuition benefit to be bought, sold, bartered, or otherwise exchanged for goods and services by either the beneficiary or the purchaser.

(5) The governing body shall administer the Washington advanced college tuition payment program in a manner reasonably designed to be actuarially sound, such that the assets of the trust will be sufficient to defray the obligations of the trust including the costs of administration. The governing body may, at its discretion, discount the minimum purchase price for certain kinds of purchases such as those from families with young children, as long as the actuarial soundness of the account is not jeopardized.

(6) The governing body shall annually determine current value of a tuition unit.

(7) For the 2015-16 and 2016-17 academic years only, the governing body shall set the payout value for units redeemed during that academic year only at one hundred seventeen dollars and eighty-two cents per unit. For academic years after the 2016-17 academic year, the governing body shall make program adjustments it deems necessary and appropriate to ensure that the total payout value of each account on October 9, 2015, is not decreased or diluted as a result of the initial application of any changes in tuition under section 3, chapter 36, Laws of 2015 3rd sp. sess. In the event the committee or governing body provides additional units under chapter 36, Laws of 2015 3rd sp. sess., the committee and governing body shall also increase the maximum number of units that can be redeemed in any year to mitigate the reduction in available account value during any year as a result of chapter 36, Laws of 2015 3rd sp. sess. The governing body must notify holders of tuition units after the adjustment in this subsection is made and must include a statement concerning the adjustment.

(8) The governing body shall promote, advertise, and publicize the Washington advanced college tuition payment program.

(9) In addition to any other powers conferred by this chapter, the governing body may:

(a) Impose reasonable limits on the number of tuition units or units that may be used in any one year;

(b) Determine and set any time limits, if necessary, for the use of benefits under this chapter;

(c) Impose and collect administrative fees and charges in connection with any transaction under this chapter;

(d) Appoint and use advisory committees and the state actuary as needed to provide program direction and guidance;

(e) Formulate and adopt all other policies and rules necessary for the efficient administration of the program;

(f) Consider the addition of an advanced payment program for room and board contracts and also consider a college savings program;

(g) Purchase insurance from insurers licensed to do business in the state, to provide for coverage against any loss in connection with the account's property, assets, or activities or to further insure the value of the tuition units;

(h) Make, execute, and deliver contracts, conveyances, and other instruments necessary to the exercise and discharge of its powers and duties under this chapter;

(i) Contract for the provision for all or part of the services necessary for the management and operation of the program with other state or nonstate entities authorized to do business in the state;

(j) Contract for other services or for goods needed by the governing body in the conduct of its business under this chapter;

(k) Contract with financial consultants, actuaries, auditors, and other consultants as necessary to carry out its responsibilities under this chapter;

(l) Solicit and accept cash donations and grants from any person, governmental agency, private business, or organization; and

(m) Perform all acts necessary and proper to carry out the duties and responsibilities of this program under this chapter. [2015 3rd sp.s. c 36 § 7; 2015 c 202 § 6. Prior: 2011 1st sp.s. c 12 § 2; 2011 1st sp.s. c 11 § 170; 2005 c 272 § 2; 2000 c 14 § 3; 1997 c 289 § 3.]

Chapter 28B.112 RCW CAMPUS SEXUAL VIOLENCE

Sections

28B.112.005	Findings.
28B.112.010	Disciplinary processes.
28B.112.020	Availability of institutions' policies, procedures, and resources.

28B.112.005 Findings. The legislature finds that the issue of campus sexual violence is a serious issue for many students as well as poses a challenge to all of our institutions of higher education. Several high profile cases in recent years garnered national attention, with more than ninety colleges and universities nationwide currently under investigation by the United States department of education's office for civil rights for violation of Title IX relating to how they have handled sexual violence cases.

In 2014, the White House convened a task force designed to protect students from sexual assault. The task force has recommended that schools conduct campus climate assessments and provided a sample memorandum of understanding for institutions to enter into with local law enforcement.

At the same time, the federal government and several states have moved forward to address campus sexual violence policies regarding prevention, investigation, and disciplinary action. These actions include the statewide adoption of policies at the public four-year universities in New York and all schools receiving state financial aid in California. It also includes new requirements included in the federal violence against women act amendments to the Clery act, 20 U.S.C. Sec. 1092(f).

The legislature further finds the state's public two and four-year institutions of higher education are taking steps to improve their institutional policies around campus sexual violence, including being represented at a statewide conference held in October 2014.

In order to complement federal policy and ensure the safety of all our students, the legislature finds it necessary to establish minimum standards for all institutions pertaining to campus sexual violence policies and procedures and encourages institutions of higher education to share with all students and current employees, especially survivors of sexual violence, the protections, resources, and services available to them if they are a victim of sexual assault, domestic violence, dating violence, or stalking. Institutions should endeavor to prevent retaliation and prevent the student from having to undergo unnecessary or duplicative retellings of the incident. [2015 c 92 § 1.]

Campus climate assessment—Report—2015 c 92: "(1)(a) The four-year institutions of higher education as defined in RCW 28B.10.016 shall conduct a campus climate assessment to gauge the prevalence of sexual assault on their campuses.

(b) The state board for community and technical colleges shall conduct a uniform campus climate assessment of community and technical colleges to gauge the prevalence of sexual assault on community and technical college campuses.

(c) The assessment in this section should include, but is not limited to:

- (i) The prevalence of sexual assault, domestic violence, dating violence, and stalking on and off campus;
 - (ii) Student and employee knowledge of:
 - (A) Their institution's Title IX coordinator's role;
 - (B) Campus policies and procedures addressing sexual assault and violence;
 - (C) Options for reporting sexual violence as a survivor or witness; and
 - (D) The availability of resources on and off campus, such as counseling, health, and academic assistance;
 - (iii) Student and employee bystander attitudes and behavior;
 - (iv) Whether survivors reported to the institutions, law enforcement, or both, whether campus police or a local law enforcement agency, and reasons why they did or did not report; or
 - (v) An evaluation of student and employee attitudes and awareness of the campus sexual violence issue and any recommendations for better addressing and preventing sexual violence on and off campus.
- (2) Findings shall include an evaluation of student and employee attitudes and awareness of campus sexual violence issues and, if needed, should provide recommendations for making improvements in addressing and preventing sexual violence on and off campus.
- (3) The four-year institutions of higher education and the state board for community and technical colleges shall report their findings to the governor and the higher education committees of the legislature by December 31, 2016. The report must also include a plan or proposal to undertake a statewide public awareness campaign on campus sexual violence.
- (4) An assessment conducted to comply with new federal requirements pertaining to campus climate assessments fulfills the requirements in this section.
- (5) This section expires July 1, 2017." [2015 c 92 § 4.]

28B.112.010 Disciplinary processes. All institutions of higher education shall refrain from establishing a different disciplinary process on the same campus for a matter of sexual violence, based on the status or characteristics of the student involved in that disciplinary proceeding, including characteristics such as a student's membership on an athletic team, membership in a fraternity or sorority, academic year, or any other characteristics or status of a student. [2015 c 92 § 2.]

28B.112.020 Availability of institutions' policies, procedures, and resources. (1) Institutions of higher education shall make information available on an annual basis to all current and prospective students and employees regarding the institution's policy and procedures, the responsible employee to receive complaints, and compliance with campus sexual violence confidentiality and reporting requirements set forth in 34 C.F.R. Sec. 668.46(b)(11)(iii).

(2) Institutions of higher education shall make the resources in subsection (1) of this section and other information and support available on a confidential basis to all campus sexual assault survivors, regardless of whether the survivor chooses to proceed with a formal report of sexual assault. [2015 c 92 § 3.]

-------------	---

28B.115.070 Eligible credentialed health care professions—Health professional shortage areas. After June 1, 1992, the department, in consultation with the office and the department of social and health services, shall:

(1) Determine eligible credentialed health care professions for the purposes of the loan repayment and scholarship program authorized by this chapter. Eligibility shall be based upon an assessment that determines that there is a shortage or insufficient availability of a credentialed profession so as to jeopardize patient care and pose a threat to the public health and safety. The department shall consider the relative degree of shortages among professions when determining eligibility. The department may add or remove professions from eligibility based upon the determination that a profession is no longer in shortage. Should a profession no longer be eligible, participants or eligible students who have received scholarships shall be eligible to continue to receive scholarships or loan repayments until they are no longer eligible or until their service obligation has been completed;

(2) Determine health professional shortage areas for each of the eligible credentialed health care professions.

(3) For the 2015-2017 fiscal biennium, consideration for eligibility shall also be given to registered nursing students who have been accepted into an eligible nursing education program and have declared an intention to teach nursing upon completion of the nursing education program. 28B.118.010 Program design. The office of student financial assistance shall design the Washington college bound scholarship program in accordance with this section and in alignment with the state need grant program in chapter 28B.92 RCW unless otherwise provided in this section.

(1) "Eligible students" are those students who:

(a) Qualify for free or reduced-price lunches. If a student qualifies in the seventh grade, the student remains eligible even if the student does not receive free or reduced-price lunches thereafter; or

(b) Are dependent pursuant to chapter 13.34 RCW and:

(i) In grade seven through twelve; or

(ii) Are between the ages of eighteen and twenty-one and have not graduated from high school.

(2) Eligible students shall be notified of their eligibility for the Washington college bound scholarship program

beginning in their seventh grade year. Students shall also be notified of the requirements for award of the scholarship.

(3)(a) To be eligible for a Washington college bound scholarship, a student eligible under subsection (1)(a) of this section must sign a pledge during seventh or eighth grade that includes a commitment to graduate from high school with at least a C average and with no felony convictions. The pledge must be witnessed by a parent or guardian and forwarded to the office of student financial assistance by mail or electronically, as indicated on the pledge form.

(b) A student eligible under subsection (1)(b) of this section shall be automatically enrolled, with no action necessary by the student or the student's family, and the enrollment form must be forwarded by the department of social and health services to the *higher education coordinating board or its successor by mail or electronically, as indicated on the form.

(4)(a) Scholarships shall be awarded to eligible students graduating from public high schools, approved private high schools under chapter 28A.195 RCW, or who received home-based instruction under chapter 28A.200 RCW.

(b)(i) To receive the Washington college bound scholarship, a student must graduate with at least a "C" average from a public high school or an approved private high school under chapter 28A.195 RCW in Washington or have received home-based instruction under chapter 28A.200 RCW, must have no felony convictions, and must be a resident student as defined in RCW 28B.15.012(2) (a) through (d).

(ii) For a student who does not meet the "C" average requirement, and who completes fewer than two quarters in the running start program, under chapter 28A.600 RCW, the student's first quarter of running start course grades must be excluded from the student's overall grade point average for purposes of determining their eligibility to receive the scholarship.

(5) A student's family income will be assessed upon graduation before awarding the scholarship.

(6) If at graduation from high school the student's family income does not exceed sixty-five percent of the state median family income, scholarship award amounts shall be as provided in this section.

(a) For students attending two or four-year institutions of higher education as defined in RCW 28B.10.016, the value of the award shall be (i) the difference between the student's tuition and required fees, less the value of any state-funded grant, scholarship, or waiver assistance the student receives; (ii) plus five hundred dollars for books and materials.

(b) For students attending private four-year institutions of higher education in Washington, the award amount shall be the representative average of awards granted to students in public research universities in Washington or the representative average of awards granted to students in public research universities in Washington in the 2014-15 academic year, whichever is greater.

(c) For students attending private vocational schools in Washington, the award amount shall be the representative average of awards granted to students in public community and technical colleges in Washington or the representative average of awards granted to students in public community and technical colleges in Washington in the 2014-15 academic year, whichever is greater.

(7) Recipients may receive no more than four full-time years' worth of scholarship awards.

(8) Institutions of higher education shall award the student all need-based and merit-based financial aid for which the student would otherwise qualify. The Washington college bound scholarship is intended to replace unmet need, loans, and, at the student's option, work-study award before any other grants or scholarships are reduced.

(9) The first scholarships shall be awarded to students graduating in 2012.

(10) The state of Washington retains legal ownership of tuition units awarded as scholarships under this chapter until the tuition units are redeemed. These tuition units shall remain separately held from any tuition units owned under chapter 28B.95 RCW by a Washington college bound scholarship recipient.

(11) The scholarship award must be used within five years of receipt. Any unused scholarship tuition units revert to the Washington college bound scholarship account.

(12) Should the recipient terminate his or her enrollment for any reason during the academic year, the unused portion of the scholarship tuition units shall revert to the Washington college bound scholarship account. Findings—2015 c 244: "The legislature finds that the college bound scholarship program has demonstrated that an early promise of financial aid results in increased high school graduation rates for low-income students. The promise of state financial aid to students from low-income families who work to graduate with sufficient grades and no felony convictions provides them with a path toward greater educational attainment and upward mobility. The scholarship program has the potential to move Washington toward its long-term goal of a better trained and educated workforce. Among the first two cohorts, college bound enrollees were fifteen percent and nineteen percent more likely to graduate from high school in 2012 and 2013 compared to low-income peers who were not part of the program.

The legislature also finds that a comprehensive review of the college bound scholarship program in 2014 resulted in unanimous recommendations to improve and enhance certain components of the program, including data collection, outreach, and program outcomes." [2015 c 244 § 1.]

28B.156.005 Finding—Intent. The legislature finds that to reach our energy, environmental, and economic goals, it is important to accelerate the development of next generation clean energy and transportation technologies in Washington. Today, a large number of clean and renewable energy technologies are dependent on rare earth elements and other

expensive and difficult-to-source earth components. These technologies are critical to reducing carbon emissions, such as wind turbines, solar panels, and electric and hybrid car batteries.

According to a 2012 environmental protection agency report (EPA/600/R-12/572), no rare earth element mining has been conducted in the United States since 1995, and a legacy of environmental destruction has been left in countries where rare earth elements are mined. The same environmental protection agency report notes that recovering rare earth elements from state-of-the-art recycling processes is far more efficient than smelting metals from ores, generates only a fraction of the carbon emissions, and has significant benefits compared to mining in terms of land use and hazardous emissions. The environmental protection report stresses the need for additional research in alternative materials to rare earth materials as well as recycling innovation.

The legislature acknowledges that the people of Washington desire to leave behind a cleaner planet, and to lead the world in the research and innovations to make that possible. Setting aggressive, renewable energy and clean technology standards at home that result in exporting the environmental harms of improper mineral extraction to other nations is not an acceptable strategy. Fortunately, Washington is home to some of the world's leading researchers who have core competencies in developing material substitutes and extracting rare earth elements for recycling.

Leading research institutions have indicated that a program to accelerate the development of next generation clean energy and transportation technologies using earth-abundant materials would fit within their strategic vision and core mission to increase and coordinate their efforts with the private industry and implement this talent and research to work in accelerating the deployment of clean energy and cleaner transportation solutions. The goal is to develop materials to use in the manufacturing process that can be reliably accessed and acquired in environmentally responsible processes. A joint center established for this purpose can bridge the gap between institutions, encourage private-public partnerships, and increase the ability to compete for federal grants.

The legislature recognizes the opportunity for Washington to lead in these areas of research and innovation, fostering true sustainability environmental stewardship, and providing supply reliability and resiliency in next generation technologies. Doing so will contribute to the preservation of national security by increasing energy independence. Therefore, the legislature intends to fund research of earth-abundant materials that can substitute effectively in manufacturing for rare earth elements or other critical materials, with great potential to increase efficiency or reduce emissions in the transportation or energy sector, and to fund research into the recycling of rare earth elements from existing consumer products. The legislature intends to accomplish this by establishing the joint center for deployment and research in earth abundant materials, or JCDREAM, to attract academic talent and research funding to our state, and develop a workforce for manufacturing next generation earth-abundant technologies. [2015 3rd sp.s. c 20 § 1.]

28B.156.010 Joint center for deployment and research in earth-abundant materials. The joint center for

deployment and research in earth-abundant materials is created to:

(1) Establish a transformative program in earth-abundant materials to accelerate the development of next generation clean energy and transportation technologies in Washington;

(2) Establish a coordinated framework and deploy resources that can facilitate and promote multi-institution collaborations to drive research, development, and deployment efforts in the use of earth-abundant materials for manufactured clean technologies or recycling of advanced materials used in clean technologies; and

(3) Promote environmentally responsible processes in the areas of manufacturing and recycling of advanced materials used in clean technologies. [2015 3rd sp.s. c 20 § 2.]

28B.156.020 Operation and administration of joint center. The joint center for deployment and research in earth-abundant materials must be operated and administered as a multi-institutional education and research center, conducting research and development programs in various locations within Washington under the joint authority of the University of Washington and Washington State University. The initial administrative offices of the center shall be west of the crest of the Cascade mountains. In order to meet industry needs, the facilities and resources of the center must be made available to all four-year institutions of higher education. Resources include internships, on-the-job training, and research opportunities for undergraduate and graduate students and faculty. [2015 3rd sp.s. c 20 § 3.]

28B.156.030 Board of directors—Membership—Powers and duties—Executive director—Operating plan—Report. (1)(a) The powers of the joint center for deployment and research in earth-abundant materials are vested in and shall be exercised by a board of directors consisting of ten voting members and a chair, appointed by the governor, who shall not vote, except as provided in (c) of this subsection.

(b) Of the ten voting members, one member must be the dean of Washington State University, one member must be the dean of the University of Washington, one member must represent Pacific Northwest National Laboratory, one member must represent an energy institute at a regional university, one member must represent the community colleges engaged in training of the next generation workforce in the relevant areas, one member must represent large industry companies, one member must represent medium industry companies, one member must represent small industry companies, one member must have professional experience in the fields of national security and energy policy, and one member shall have professional experience in innovation and development of policy to address environmental challenges.

(c) In the event of a tie vote among the voting members, the chair may vote to break the tie.

(d) The terms of the initial members must be staggered.

(2) The board shall hire an executive director. The executive director shall hire such staff as the board deems necessary to operate the joint center for deployment and research in earth-abundant materials. Staff support may be provided from among the cooperating institutions through cooperative agreements to the extent funds are available. The executive

director may enter into cooperative agreements for programs and research with public and private organizations including state and nonstate agencies consistent with policies of the participating institutions.

(3) The board shall:

(a) Work with the clean technology and transportation industry associations and firms of all sizes to identify the research areas that will benefit the intermediate and long-term economic vitality of Washington's clean technology and transportation industries;

(b) Identify entrepreneurial researchers to join or lead research teams in the research areas specified in (a) of this subsection and the steps the University of Washington and Washington State University will take to recruit and retain such researchers;

(c) Assist firms to integrate existing technologies into their operations and align the activities of the joint center for deployment and research in earth-abundant materials with those of impact Washington to enhance services available to clean technology and transportation firms;

(d) Develop internships, on-the-job training, research, and other opportunities and ensure that all undergraduate and graduate students enrolled in programs for clean technology and earth-abundant research and deployment-related curriculum have direct experience with the industry;

(e) Assist researchers and firms in safeguarding intellectual property while advancing industry innovation;

(f) Develop and strengthen university-industry relationships through promotion of faculty collaboration with industry and sponsor at least one annual symposium focusing on clean energy earth-abundant research and deployment in the state of Washington;

(g) Encourage a full range of projects from small research projects that meet the specific needs of a smaller company to large scale, multipartner projects;

(h) Develop nonstate support of the center's research activities through leveraging dollars from federal and private for-profit and nonprofit sources;

(i) Leverage its financial impact through joint support arrangements on a project-by-project basis as appropriate;

(j) Establish mechanisms for soliciting and evaluating proposals and for making awards and reporting on technological progress, financial leverage, and other measures of impact;

(k) Allocate appropriated seed funds for at least one of the following purposes:

(i) Collaboration on research and product development that would further the commercialization of renewable energy and battery storage technologies that use earth-abundant materials in place of critical materials or rare earth elements;

(ii) Collaboration on research for joining dissimilar materials in a way that minimizes titanium content by employing earth-abundant materials for advanced manufacturing commercialization;

(iii) Collaboration on research and deployment of technologies and processes that facilitate reclamation and recycling of rare-earth elements from existing products; and

(iv) Providing assistance to community colleges and trade schools in program development and equipment for training the skilled workforce necessary for the successful

commercialization and integration of earth-abundant technologies, as the workforce training needs are defined by forthcoming deployment opportunities;

(l)(i) By December 1, 2015, develop an operating plan that includes the specific processes, methods, or mechanisms the center will use to accomplish each of its duties as set out in this subsection (3);

(ii) The operating plan must also include appropriate performance metrics to measure total research dollars leveraged, total researchers involved, total workforce trained, and total number of products or processes that have progressed to commercialization and private sector deployment; and

(m)(i) Report biennially to the legislature and the governor about the impact of the center's work on the state's economy and the development of next generation clean energy and transportation technologies in Washington using earth-abundant materials. The report must include performance metrics results, projections of future impact, indicators of its current impact, and ideas for enhancing benefits to the state.

Intent—2002 c 43: "The legislature finds that there are conflicting interpretations as to the intent of the legislature in the enactment of chapter 305, Laws of 1999. The purpose of this act is to make statutory changes that further clarify this intent.

It is the intent of the legislature that elections of conservation district supervisors continue to be conducted under procedures in the conservation district statutes, chapter 89.08 RCW, and that such elections not be conducted under the general election laws contained in Title 29 RCW. Further, it is the intent of the legislature that there be no change made with regard to applicability of the public disclosure act, *chapter 42.17 RCW, to conservation district supervisors from those that existed before the enactment of chapter 305, Laws of 1999." 30A.08.025 Limited liability company—Organization or conversion—Approval of director—Conditions—Application of chapter 25.15 RCW—Definitions. (*Effective January 1, 2016.*) (1) Notwithstanding any other provision of this title, if the conditions of this section are met, a bank or a holding company of a bank may be organized as, or convert to, a limited liability company under the Washington limited liability company act, chapter 25.15 RCW. As used in this section, "bank" includes an applicant to become a bank or holding company of a bank and "holding company" means a holding company of a bank.

(2)(a) Before a bank or holding company may organize as, or convert to, a limited liability company, the bank or holding company must obtain approval of the director.

(b)(i) To obtain approval under this section from the director, the bank or holding company must file a request for

approval with the director at least ninety days before the day on which the bank or holding company becomes a limited liability company.

(ii) If the director does not disapprove the request for approval within ninety days from the day on which the director receives the request, the request is considered approved.

(iii) When taking action on a request for approval filed under this section, the director may:

(A) Approve the request;

(B) Approve the request subject to terms and conditions the director considers necessary; or

(C) Disapprove the request.

(3) To approve a request for approval, the director must find that the bank or holding company:

(a) Will operate in a safe and sound manner; and

(b) Has the following characteristics:

(i) The certificate of formation and limited liability company require or set forth that the duration of the limited liability company is perpetual;

(ii) The bank or holding company is not otherwise subject to automatic termination, dissolution, or suspension upon the happening of some event other than the passage of time;

(iii) The exclusive authority to manage the bank, trust company, or holding company is vested in a board of managers or directors that:

(A) Is elected or appointed by the owners;

(B) Is not required to have owners of the bank, trust company, or holding company included on the board;

(C) Possesses adequate independence and authority to supervise the operation of the bank, trust company, or holding company; and

(D) Operates with substantially the same rights, powers, privileges, duties, and responsibilities as the board of directors of a corporation;

(iv) Neither state law, nor the bank's or holding company's operating agreement, bylaws, or other organizational documents provide that an owner of the bank or holding company is liable for the debts, liabilities, and obligations of the bank or holding company in excess of the amount of the owner's investment;

(v) Neither state law, nor the bank's or holding company's operating agreement, bylaws, or other organizational documents require the consent of any other owner of the bank or holding company in order for any owner to transfer an ownership interest in the bank or holding company, including voting rights;

(vi) The bank or holding company is able to obtain new investment funding if needed to maintain adequate capital;

(vii) The bank or holding company is able to comply with all legal and regulatory requirements for a federally insured depository bank or holding company of a federally insured depository bank, under applicable federal and state law; and

(viii) A bank or holding company that is organized as a limited liability company shall maintain the characteristics listed in this subsection (3)(b) during such time as it is authorized to conduct business under this title as a limited liability company.

(4)(a) All rights, privileges, powers, duties, and obligations of a bank or holding company, that is organized as a limited liability company, and its members and managers are

governed by the Washington limited liability company act, chapter 25.15 RCW, except:

(i) To the extent chapter 25.15 RCW is in conflict with federal law or regulation respecting the organization of a federally insured depository institution as a limited liability company, such federal law or regulation supersedes the conflicting provisions contained in chapter 25.15 RCW in relation to a bank or holding company organized as a limited liability company pursuant to this section; and

(ii) Without limitation, the following are inapplicable to a bank or holding company organized as a limited liability company:

(A) Permitting automatic dissolution or suspension of a limited liability company as set forth in RCW 25.15.265(1), pursuant to a statement of limited duration which, though impermissible under subsection (3)(b)(i) of this section, has been provided for in a certificate of formation;

(B) Permitting automatic dissolution or suspension of a limited liability company, pursuant to the limited liability company agreement, as set forth in RCW 25.15.265(2);

(C) Permitting dissolution of the limited liability company agreement based upon agreement of all the members, as set forth in RCW 25.15.265(3);

(D) Permitting dissociation of all the members of the limited liability company, as set forth in RCW 25.15.265(4); and

(E) Permitting automatic dissolution or suspension of a limited liability company, pursuant to operation of law, as otherwise set forth in chapter 25.15 RCW.

(b) Notwithstanding (a) of this subsection:

(i) For purposes of transferring a member's interests in the bank or holding company, a member's interest in the bank or holding company is treated like a share of stock in a corporation; and

(ii) If a member's interest in the bank or holding company is transferred voluntarily or involuntarily to another person, the person who receives the member's interest obtains the member's entire rights associated with the member's interest in the bank or holding company including all economic rights and all voting rights.

(c) A bank or holding company may not by agreement or otherwise change the application of (a) of this subsection to the bank or holding company.

(5)(a) Notwithstanding any provision of chapter 25.15 RCW or this section to the contrary, all voting members remain liable and responsible as fiduciaries of a bank or holding company organized as a limited liability company, regardless of resignation, dissociation, or disqualification, to the same extent that directors of a bank or holding company organized as a corporation would be or remain liable or responsible to the department and applicable federal banking regulators; and

(b) If death, incapacity, or disqualification of all members of the limited liability company would result in a complete dissociation of all members, then the bank, holding company, or both, as applicable is deemed nonetheless to remain in existence for purposes of the department or an applicable federal regulator, or both, having standing under RCW 30A.44.270 or applicable federal law, or both, to exercise the powers and authorities of a receiver for the bank or holding company.

(6) For the purposes of this section, and unless the context clearly requires otherwise, for the purpose of applying chapter 25.15 RCW to a bank or holding company organized as a limited liability company:

(a) "Articles of incorporation" includes a limited liability company's certificate of formation, as that term is used in RCW 25.15.006 and 25.15.071, and a limited liability company agreement as that term is used in RCW 25.15.006;

31.04.015 Definitions. The definitions set forth in this section apply throughout this chapter unless the context clearly requires a different meaning.

(1) "Add-on method" means the method of precomputing interest payable on a loan whereby the interest to be earned is added to the principal balance and the total plus any charges allowed under this chapter is stated as the loan amount, without further provision for the payment of interest except for failure to pay according to loan terms. The director may adopt by rule a more detailed explanation of the meaning and use of this method.

"Mortgage loan originator" does not include any individual who performs purely administrative or clerical tasks; and does not include a person or entity solely involved in extensions of credit relating to timeshare plans, as that term is defined in section 101(53D) of Title 11, United States Code. For the purposes of this definition, administrative or clerical tasks means the receipt, collection, and distribution of information common for the processing of a loan in the mortgage industry and communication with a consumer to obtain information necessary for the processing of a residential mortgage loan.

(b) "Mortgage loan originator" also includes an individual who for direct or indirect compensation or gain performs residential mortgage loan modification services or holds himself or herself out as being able to perform residential mortgage loan modification services.

(c) "Mortgage loan originator" does not include a person or entity that only performs real estate brokerage activities and is licensed or registered in accordance with applicable state law, unless the person or entity is compensated by a lender, a mortgage broker, or other mortgage loan originator or by any agent of such a lender, mortgage broker, or other mortgage loan originator. For the purposes of chapter 120, Laws of 2009, the term "real estate brokerage activity" means any activity that involves offering or providing real estate brokerage services to the public, including:

(i) Acting as a real estate agent or real estate broker for a buyer, seller, lessor, or lessee of real property;

(ii) Bringing together parties interested in the sale, purchase, lease, rental, or exchange of real property;

(iii) Negotiating, on behalf of any party, any portion of a contract relating to the sale, purchase, lease, rental, or exchange of real property, other than in connection with providing financing with respect to such a transaction;

(iv) Engaging in any activity for which a person engaged in the activity is required to be registered or licensed as a real estate agent or real estate broker under any applicable law; and

(v) Offering to engage in any activity, or act in any capacity, described in (c)(i) through (iv) of this subsection.

(d) This subsection does not apply to employees of a housing counseling agency approved by the United States department of housing and urban development unless the employees of a housing counseling agency are required under federal law to be individually licensed as mortgage loan originators.

(18) "Nationwide mortgage licensing system" means a licensing system developed and maintained by the conference of state bank supervisors for licensing and registration.

(19) "Officer" means an official appointed by the company for the purpose of making business decisions or corporate decisions.

(20) "Person" includes individuals, partnerships, associations, limited liability companies, limited liability partnerships, trusts, corporations, and all other legal entities.

(21) "Principal" means any person who controls, directly or indirectly through one or more intermediaries, alone or in concert with others, a ten percent or greater interest in a partnership; company; association or corporation; or a limited liability company, and the owner of a sole proprietorship.

(22) "Registered mortgage loan originator" means any individual who meets the definition of mortgage loan originator and is an employee of a depository institution; a subsidiary that is owned and controlled by a depository institution and regulated by a federal banking agency; or an institution regulated by the farm credit administration and is registered with, and maintains a unique identifier through, the nationwide mortgage licensing system.

(23) "Residential mortgage loan" means any loan primarily for personal, family, or household use that is secured by a mortgage, deed of trust, or other consensual security interest on a dwelling, as defined in the truth in lending act, or residential real estate upon which is constructed or intended to be constructed a dwelling.

(24) "Residential mortgage loan modification" means a change in one or more of a residential mortgage loan's terms or conditions. Changes to a residential mortgage loan's terms

or conditions include but are not limited to forbearances; repayment plans; changes in interest rates, loan terms, or loan types; capitalizations of arrearages; or principal reductions.

(25) "Residential mortgage loan modification services" includes negotiating, attempting to negotiate, arranging, attempting to arrange, or otherwise offering to perform a residential mortgage loan modification for compensation or gain. "Residential mortgage loan modification services" also includes the collection of data for submission to an entity performing mortgage loan modification services.

(26) "S.A.F.E. act" means the secure and fair enforcement for mortgage licensing act of 2008, Title V of the housing and economic recovery act of 2008 ("HERA"), P.L. 110-289, effective July 30, 2008.

(27) "Senior officer" means an officer of a licensee at the vice president level or above.

(28) "Service or servicing a loan" means on behalf of the lender or investor of a residential mortgage loan: (a) Collecting or receiving payments on existing obligations due and owing to the lender or investor, including payments of principal, interest, escrow amounts, and other amounts due; (b) collecting fees due to the servicer; (c) working with the borrower and the licensed lender or servicer to collect data and make decisions necessary to modify certain terms of those obligations either temporarily or permanently; (d) otherwise finalizing collection through the foreclosure process; or (e) servicing a reverse mortgage loan.

(29) "Service or servicing a reverse mortgage loan" means, pursuant to an agreement with the owner of a reverse mortgage loan: Calculating, collecting, or receiving payments of interest or other amounts due; administering advances to the borrower; and providing account statements to the borrower or lender.

(30) "Simple interest method" means the method of computing interest payable on a loan by applying the annual percentage interest rate or its periodic equivalent to the unpaid balances of the principal of the loan outstanding for the time outstanding.

(a) On a nonresidential loan each payment is applied first to any unpaid penalties, fees, or charges, then to accumulated interest, and the remainder of the payment applied to the unpaid balance of the principal until paid in full. In using such method, interest must not be payable in advance nor compounded. The prohibition on compounding interest does not apply to reverse mortgage loans made in accordance with the Washington state reverse mortgage act. The director may adopt by rule a more detailed explanation of the meaning and use of this method.

(b) On a residential mortgage loan payments are applied as determined in the security instrument.

(31) "Third-party residential mortgage loan modification services" means residential mortgage loan modification services offered or performed by any person other than the owner or servicer of the loan.

(32) "Third-party service provider" means any person other than the licensee or a mortgage broker who provides goods or services to the licensee or borrower in connection with the preparation of the borrower's loan and includes, but is not limited to, credit reporting agencies, real estate brokers or salespersons, title insurance companies and agents,

appraisers, structural and pest inspectors, or escrow companies.

(33) "Unique identifier" means a number or other identifier assigned by protocols established by the nationwide mortgage licensing system. [2015 c 229 § 19; 2013 c 29 § 1; 2010 c 35 § 1. Prior: 2009 c 149 § 12; 2009 c 120 § 2; 2001 c 81 § 1; 1994 c 92 § 161; 1991 c 208 § 2.]

Reviser's note: The definitions in this section have been alphabetized pursuant to RCW 1.08.015(2)(k).

Findings—Declarations—2009 c 120: "The legislature finds and declares that accessibility to credit is vital to the citizens of this state. The legislature declares that it is essential for the protection of citizens of this state and the stability of the state's economy that standards for licensing and regulation of the business practices of lenders be imposed. The legislature further finds that the activities of lenders and mortgage loan originators and the origination or offering of financing for residential real property have a direct, valuable, and immediate impact upon this state's consumers, this state's economy, the neighborhoods and communities of this state, and the housing and real estate industry. The legislature therefore declares that this act is necessary to encourage responsible lending in all credit transactions, to protect borrowers, and to preserve access to credit in the residential real estate lending market." [2009 c 120 § 1.]

(c) If the applicant is a corporation, the name, residence address, and telephone number of each officer and director;

(d) The street address, county, and municipality from which business is to be conducted; and

(e) Such other information as the director may require by rule.

(2) As part of or in connection with an application for any license under this section, or periodically upon license renewal, each officer, director, and owner applicant must furnish information concerning his or her identity, including fingerprints for submission to the Washington state patrol, the federal bureau of investigation, or any governmental agency or entity authorized to receive this information for a state and national criminal history background check; personal history; experience; business record; purposes; and other pertinent facts, as the director may reasonably require. As part of or in connection with an application for a license under this chapter, or periodically upon license renewal, the director is authorized to receive criminal history record information that includes nonconviction data as defined in RCW 10.97.030. The department may only disseminate nonconviction data

obtained under this section to criminal justice agencies. This section does not apply to financial institutions regulated under chapters 31.12 and 31.13 RCW and Titles 30A, 32, and 33 RCW.

(3) At the time of filing an application for a license under this chapter, each applicant shall pay to the director or through the nationwide mortgage licensing system and registry an investigation fee and the license fee in an amount determined by rule of the director to be sufficient to cover the director's costs in administering this chapter.

(4) Each applicant must file and maintain a surety bond, approved by the director, executed by the applicant as obligor and by a surety company authorized to do a surety business in this state as surety, whose liability as such surety must not exceed in the aggregate the penal sum of the bond. The penal sum of the bond must be a minimum of thirty thousand dollars and based on the annual dollar amount of loans originated or residential mortgage loans serviced. The bond must run to the state of Washington as obligee for the use and benefit of the state and of any person or persons who may have a cause of action against the obligor under this chapter. The bond must be conditioned that the obligor as licensee will faithfully conform to and abide by this chapter and all the rules adopted under this chapter. The bond will pay to the state and any person or persons having a cause of action against the obligor all moneys that may become due and owing to the state and those persons under and by virtue of this chapter. The bond must be continuous and may be canceled by the surety upon the surety giving written notice to the director of its intent to cancel the bond. The cancellation is effective forty-five days after the notice is received by the director. In lieu of a surety bond, if the applicant is a Washington business corporation, the applicant may maintain unimpaired capital, surplus, and long-term subordinated debt in an amount that at any time its outstanding promissory notes or other evidences of debt (other than long-term subordinated debt) in an aggregate sum do not exceed three times the aggregate amount of its unimpaired capital, surplus, and long-term subordinated debt. The director may define qualifying "long-term subordinated debt" for purposes of this section.

Effective date—2009 c 120 § 5: "In order to facilitate an orderly transition to licensing and minimize disruption in the mortgage marketplace, section 5 of this act takes effect January 1, 2010." [2009 c 120 § 32.]

Findings—Declaration—2009 c 120: See note following RCW 31.04.015.

31.04.075 Licensee—Place of business. The licensee may not maintain more than one place of business under the same license, but the director may issue more than one license to the same licensee upon application by the licensee in a form and manner established by the director.

Whenever a licensee wishes to change the place of business to a street address other than that reported in the nationwide mortgage licensing system and registry, the licensee must give prior written notice to the director, pay the fee, and

obtain the director's approval. [2015 c 229 § 23; 2001 c 81 § 6; 1994 c 92 § 164; 1991 c 208 § 8.]

31.04.093 Licensing—Applications—Regulation of licensees—Director's duties and authority—Fines—Orders—Statute of limitations. (1) The director must enforce all laws and rules relating to the licensing and regulation of licensees and persons subject to this chapter.

(2) The director may deny applications for licenses for:

(a) Failure of the applicant to demonstrate within its application for a license that it meets the requirements for licensing in RCW 31.04.045 and 31.04.055;

(b) Violation of an order issued by the director under this chapter or another chapter administered by the director, including but not limited to cease and desist orders and temporary cease and desist orders;

(c) Revocation or suspension of a license to conduct lending or residential mortgage loan servicing, or to provide settlement services associated with lending or residential mortgage loan servicing, by this state, another state, or by the federal government within five years of the date of submittal of a complete application for a license; or

(d) Filing an incomplete application when that incomplete application has been filed with the department for sixty or more days, provided that the director has given notice to the licensee that the application is incomplete, informed the applicant why the application is incomplete, and allowed at least twenty days for the applicant to complete the application.

(3) The director may condition, suspend, or revoke a license issued under this chapter if the director finds that:

(a) The licensee has failed to pay any fee due the state of Washington, has failed to maintain in effect the bond or permitted substitute required under this chapter, or has failed to comply with any specific order or demand of the director lawfully made and directed to the licensee in accordance with this chapter;

(b) The licensee, either knowingly or without the exercise of due care, has violated any provision of this chapter or any rule adopted under this chapter;

(c) A fact or condition exists that, if it had existed at the time of the original application for the license, clearly would have allowed the director to deny the application for the original license; or

(d) The licensee failed to comply with any directive, order, or subpoena issued by the director under this chapter. The director may condition, revoke, or suspend only the particular license with respect to which grounds for conditioning, revocation, or suspension may occur or exist or the director may condition, revoke, or suspend all of the licenses issued to the licensee.

(4) The director may impose fines of up to one hundred dollars per day, per violation, upon the licensee, its employee or loan originator, or other person subject to this chapter for:

(a) Any violation of this chapter; or

(b) Failure to comply with any directive, order, or subpoena issued by the director under this chapter.

(5) The director may issue an order directing the licensee, its employee or loan originator, or other person subject to this chapter to:

(a) Cease and desist from conducting business in a manner that is injurious to the public or violates any provision of this chapter;

(b) Take such affirmative action as is necessary to comply with this chapter;

(c) Make a refund or restitution to a borrower or other person who is damaged as a result of a violation of this chapter;

(d) Refund all fees received through any violation of this chapter.

(6) The director may issue an order removing from office or prohibiting from participation in the affairs of any licensee, or both, any officer, principal, employee or mortgage loan originator, or any person subject to this chapter for:

(a) False statements or omission of material information from an application for a license that, if known, would have allowed the director to deny the original application for a license;

(b) Conviction of a gross misdemeanor involving dishonesty or financial misconduct or a felony;

(c) Suspension or revocation of a license to engage in lending or residential mortgage loan servicing, or perform a settlement service related to lending or residential mortgage loan servicing, in this state or another state;

(d) Failure to comply with any order or subpoena issued under this chapter;

(e) A violation of RCW 31.04.027, 31.04.102, 31.04.155, or 31.04.221; or

(f) Failure to obtain a license for activity that requires a license.

(7) Except to the extent prohibited by another statute, the director may engage in informal settlement of complaints or enforcement actions including, but not limited to, payment to the department for purposes of financial literacy and education programs authorized under RCW 43.320.150. If any person subject to this chapter makes a payment to the department under this section, the person may not advertise such payment.

(8) Whenever the director determines that the public is likely to be substantially injured by delay in issuing a cease and desist order, the director may immediately issue a temporary cease and desist order. The order may direct the licensee to discontinue any violation of this chapter, to take such affirmative action as is necessary to comply with this chapter, and may include a summary suspension of the licensee's license and may order the licensee to immediately cease the conduct of business under this chapter. The order becomes effective at the time specified in the order. Every temporary cease and desist order must include a provision that a hearing will be held upon request to determine whether the order will become permanent. Such hearing must be held within fourteen days of receipt of a request for a hearing unless otherwise specified in chapter 34.05 RCW.

(9) A licensee may surrender a license by delivering to the director written notice of surrender, but the surrender does not affect the licensee's civil or criminal liability, if any, for acts committed before the surrender, including any administrative action initiated by the director to suspend or revoke a license, impose fines, compel the payment of restitution to borrowers or other persons, or exercise any other authority under this chapter. The statute of limitations on

actions not subject to RCW 4.16.160 that are brought under this chapter by the director is five years.

(10) The revocation, suspension, or surrender of a license does not impair or affect the obligation of a preexisting lawful contract between the licensee and a borrower.

(11) Every license issued under this chapter remains in force and effect until it has been surrendered, revoked, or suspended in accordance with this chapter. However, the director may on his or her own initiative reinstate suspended licenses or issue new licenses to a licensee whose license or licenses have been revoked if the director finds that the licensee meets all the requirements of this chapter.

(12) A license issued under this chapter expires upon the licensee's failure to comply with the annual assessment requirements in RCW 31.04.085, and the rules. The department must provide notice of the expiration to the address of record provided by the licensee. On the 15th day after the department provides notice, if the assessment remains unpaid, the license expires. The licensee must receive notice prior to expiration and have the opportunity to stop the expiration as set forth in rule. [2015 c 229 § 24; 2014 c 36 § 6; 2013 c 29 § 5; 2012 c 17 § 4; 2010 c 35 § 6; 2001 c 81 § 8; 1994 c 92 § 166; 1991 c 208 § 10.]

31.04.102 Loans secured, or not secured, by lien on real property—Licensee's obligations—Disclosure of fees and costs to borrower—Time limits. (1) For all loans made by a licensee that are not secured by a lien on real property, the licensee must make disclosures in compliance with the truth in lending act, 15 U.S.C. Sec. 1601 and regulation Z, 12 C.F.R. Part 1026, and all other applicable federal laws and regulations.

(2) For all loans made by a licensee that are secured by a lien on real property, the licensee must provide to each borrower within three business days following receipt of a loan application a written disclosure containing an itemized estimation and explanation of all fees and costs that the borrower is required to pay in connection with obtaining a loan from the licensee. A good faith estimate of a fee or cost must be provided if the exact amount of the fee or cost is not available when the disclosure is provided. Disclosure in a form which complies with the requirements of the truth in lending act, 15 U.S.C. Sec. 1601 and regulation Z, 12 C.F.R. Part 1026, the real estate settlement procedures act and regulation X, 24 C.F.R. Part 1024, and all other applicable federal laws and regulations, as now or hereafter amended, constitutes compliance with this disclosure requirement. Each licensee must comply with all other applicable federal and state laws and regulations.

(3) In addition, for all loans made by the licensee that are secured by a lien on real property, the licensee must provide to the borrower an estimate of the annual percentage rate on the loan and a disclosure of whether or not the loan contains a prepayment penalty within three days of receipt of a loan application. The annual percentage rate must be calculated in compliance with the truth in lending act, 15 U.S.C. Sec. 1601 and regulation Z, 12 C.F.R. Part 1024. If a licensee provides the borrower with a disclosure in compliance with the requirements of the truth in lending act within three business days of receipt of a loan application, then the licensee has complied with this subsection. If the director determines that

the federal government has required a disclosure that substantially meets the objectives of this subsection, then the director may make a determination by rule that compliance with this federal disclosure requirement constitutes compliance with this subsection.

(4) In addition for all consumer loans made by the licensee that are secured by a lien on real property, the licensee must comply with RCW 19.144.020. [2015 c 229 § 27; 2013 c 29 § 6; 2009 c 120 § 6; 2002 c 346 § 1; 2001 c 81 § 9.]

Findings—Declaration—2009 c 120: See note following RCW 31.04.015.

31.04.105 Licensee—Powers—Restrictions. Every licensee may:

(1) Lend money at a rate that does not exceed twenty-five percent per annum as determined by the simple interest method of calculating interest owed;

(2) In connection with the making of a loan, charge the borrower a nonrefundable, prepaid, loan origination fee not to exceed four percent of the first twenty thousand dollars and two percent thereafter of the principal amount of the loan advanced to or for the direct benefit of the borrower, which fee may be included in the principal balance of the loan;

(3) Agree with the borrower for the payment of fees to third parties other than the licensee who provide goods or services to the licensee in connection with the preparation of the borrower's loan, including, but not limited to, credit reporting agencies, title companies, appraisers, structural and pest inspectors, and escrow companies, when such fees are actually paid by the licensee to a third party for such services or purposes and may include such fees in the amount of the loan. However, no charge may be collected unless a loan is made, except for reasonable fees properly incurred for a credit report and in connection with the appraisal of property by a qualified, independent, professional, third-party appraiser selected by the borrower and approved by the lender or in the absence of borrower selection, selected by the lender;

(4) In connection with the making of a loan secured by real estate, when the borrower actually obtains a loan, agree with the borrower to pay a fee to a mortgage broker that is not owned by the licensee or under common ownership with the licensee and that performed services in connection with the origination of the loan. A licensee may not receive compensation as a mortgage broker in connection with any loan made by the licensee;

(5) Collect at the time of the loan closing up to but not exceeding forty-five days of prepaid interest;

(6) Charge and collect a penalty of not more than ten percent of any installment payment delinquent ten days or more;

(7) Collect from the debtor reasonable attorneys' fees, actual expenses, and costs incurred in connection with the collection of a delinquent debt, a repossession, or a foreclosure when a debt is referred for collection to an attorney who is not a salaried employee of the licensee;

(8) Make open-end loans as provided in this chapter;

(9) Charge and collect a fee for dishonored checks in an amount approved by the director; and

(10) In accordance with Title 48 RCW, sell insurance covering real and personal property, covering the life or disability or both of the borrower, and covering the involuntary

unemployment of the borrower. [2015 c 229 § 28; 2013 c 29 § 7; 2009 c 120 § 7; 2001 c 81 § 10; 1998 c 28 § 1; 1994 c 92 § 167; 1993 c 190 § 1; 1991 c 208 § 11.]

Findings—Declaration—2009 c 120: See note following RCW 31.04.015.

31.04.145 Investigations and examinations—Director's duties and powers—Production of information—Costs. (1) For the purpose of discovering violations of this chapter or securing information lawfully required under this chapter, the director may at any time, either personally or by designees, investigate or examine the loans and business and, wherever located, the books, accounts, records, papers, documents, files, and other information used in the business of every licensee and of every person who is engaged in the business making or assisting in the making of loans at interest rates authorized by this chapter, whether the person acts or claims to act as principal or agent, or under or without the authority of this chapter. The director or designated representative:

(a) Must have free access to the employees, offices, and places of business, books, accounts, papers, documents, other information, records, files, safes, and vaults of all such persons during normal business hours;

(b) May require the attendance of and examine under oath all persons whose testimony may be required about the loans or the business or the subject matter of any investigation, examination, or hearing and may require such person to produce books, accounts, papers, records, files, and any other information the director or designated persons deem relevant to the inquiry;

If any payment is received and not credited, or treated as credited, the borrower must be notified of the disposition of the payment within ten business days by mail at the borrower's last known address. (d) The servicer must make reasonable attempts to comply with a borrower's request for information about the residential mortgage loan account and to respond to any dispute initiated by the borrower about the loan account. The servicer:

(i) Must maintain written or electronic records of each written request for information regarding a dispute or error involving the borrower's account until the residential mortgage loan is paid in full, sold, or otherwise satisfied; and

The period of the account history must cover at a minimum the two-year period prior to the date of the receipt of the request for information. (3) If a licensee's liquidity, operating reserves, or tangible net worth fall below the amount required under subsection (1) or (2) of this section, the director or the director's designee may initiate an action. [2015 c 229 § 25.]

(2)(a) If a supervisory committee member is absent from more than one-third of the committee meetings in any twelve-month period in a term without being reasonably excused by the committee, the member shall no longer serve as a member of the committee for the period remaining in the term.

(b) The supervisory committee shall promptly notify the member that he or she shall no longer serve as a committee

member. Failure to provide notice does not affect the termination of the member's service under (a) of this subsection.

(3) A supervisory committee member must be a natural person and a member of the credit union. If a member of the supervisory committee ceases to be a member of the credit union, the member shall no longer serve as a committee member. The chairperson of the supervisory committee may not serve as a board officer.

(4) Except as provided in subsection (5) of this section, any vacancy on the committee must be filled by an interim member appointed by the committee, unless the interim member would serve a term of fewer than ninety days. Interim members appointed to fill vacancies created by expansion of the committee will serve until the next annual meeting of members. Other interim members may serve out the unexpired term of the former member, unless provided otherwise by the credit union's bylaws. However, if all positions on the committee are vacant at the same time, the board may appoint interim members to serve until the next annual membership meeting.

(5) In the case of a merger between two credit unions pursuant to RCW 31.12.461, a supervisory committee member of the merging credit union may continue to serve as a supervisory committee member of the continuing credit union for a period not to exceed the equivalent of the duration of his or her unexpired term on the supervisory committee of the merging credit union, provided that the approved plan of merger or other agreement approved by the director provides for such service on the continuing credit union's supervisory committee with a corresponding expansion in the size of the continuing credit union's supervisory committee.

(6) No operating officer or employee of a credit union may serve on the credit union's supervisory committee. No more than one director may be a member of the supervisory committee at the same time, unless provided otherwise by the credit union's bylaws. No member of the supervisory committee may serve on the credit committee or investment committee of the credit union while serving on the supervisory committee. [2015 c 114 § 5; 2001 c 83 § 10; 1997 c 397 § 22; 1984 c 31 § 34.]

31.12.345 Suspension of members of a committee or members of the board by supervisory committee—For cause. (1) The supervisory committee may, by unanimous vote, for cause, suspend a member of the board, until a special membership meeting called for that purpose is held in accordance with the requirements of RCW 31.12.195. The membership meeting must be held within ninety days after the suspension. The members participating in that meeting shall vote whether to remove the suspended person or persons.

(2) For purposes of this section, "cause" includes demonstrated financial irresponsibility, a breach of fiduciary duty to the credit union, or activities which, in the judgment of the supervisory committee, threaten the safety and soundness of the credit union. [2015 c 114 § 6; 1997 c 397 § 24; 1984 c 31 § 36.]

31.12.365 Directors and supervisory committee members—Compensation—Reimbursement—Rules. (1) A credit union may pay to its directors and supervisory com-

mittee members reasonable compensation for their service as directors and supervisory committee members. Irrespective of whether it pays compensation to its directors or supervisory committee members, a credit union may provide to its directors and supervisory committee members:

- (a) Gifts of minimal value;
- (b) Insurance coverage or incidental services, available to employees generally; and
- (c) Reimbursement for reasonable expenses incurred on behalf of themselves and their spouses in the performance of the directors' and supervisory committee members' duties.

(2) The director may adopt rules to interpret this section. [2015 c 123 § 2; 2013 c 34 § 6; 2001 c 83 § 12; 1997 c 397 § 25; 1984 c 31 § 38.]

31.12.367 Risk—Bond coverage—Notice to director—Timing. (1) Each credit union must be adequately insured against risk. In addition, each director, officer, committee member, and employee of a credit union must be adequately bonded.

(2) When a credit union receives notice that its fidelity bond coverage will be suspended or terminated, the credit union shall notify the director in writing not less than thirty-five days prior to the effective date of the suspension or termination. [2015 c 114 § 7; 2001 c 83 § 13; 1997 c 397 § 26; 1994 c 92 § 191; 1984 c 31 § 32. Formerly RCW 31.12.306.]

31.12.372 Director may suspend any person, reason—Notice—Injunctions. (1) The director may issue and serve written notice of charges under RCW 31.12.575 to suspend a person from further participation in any manner in the conduct of the affairs of a credit union if the director determines that such an action is necessary for the protection of the credit union or the interests of the credit union's members.

(2) Any suspension notice issued by the director is effective upon service and, unless the superior court of the county in which the primary place of business of the credit union is located issues a stay of the notice, remains in effect and enforceable until:

- (a) The director dismisses the charges contained in the notice served on the person; or
- (b) The effective date of a final order for removal of the person pursuant to administrative proceedings under RCW 31.12.625.

(3) With the suspension notice, the director shall serve a notice of intent to remove or prohibit under RCW 31.12.575.

(4) Within ten days after the person has been served with the suspension notice, the person may apply to the superior court of the county in which the primary place of business of the credit union is located for an injunction setting aside, limiting, or holding in abeyance the suspension notice pending the completion of the administrative proceedings under the notice issued under subsection (3) of this section.

(5) In the case of a violation or threatened violation of a suspension notice, the director may apply to the superior court of the county in which the primary place of business of the credit union is located for an injunction to enforce the notice, and the court shall issue an injunction if it determines that there has been a violation or threatened violation.

(6) For the purposes of this section, the principal place of business of a foreign or out-of-state credit union is Thurston county. [2015 c 114 § 8; 2010 c 87 § 17.]

31.12.404 Additional powers—Powers conferred on federal credit union—Authority of director. (1) Notwithstanding any other provision of law, and in addition to all powers and authorities, express or implied, that a credit union has under the laws of this state, a credit union has the powers and authorities that a federal credit union had on December 31, 1993, or a subsequent date not later than July 24, 2015.

(2) Notwithstanding any other provision of law, and in addition to the powers and authorities, express or implied, that a credit union has under subsection (1) of this section, a credit union has the powers and authorities that a federal credit union has, and an out-of-state credit union operating a branch in Washington has, subsequent to July 24, 2015, if the director finds that the exercise of the power and authority serves the convenience and advantage of members of credit unions, and maintains the fairness of competition and parity between credit unions and federal or out-of-state credit unions. However, a credit union:

- (a) Must still comply with RCW 31.12.408; and
- (b) Is not granted the field of membership powers or authorities of any out-of-state credit union operating a branch in Washington.

(3) The restrictions, limitations, and requirements applicable to specific powers or authorities of federal or out-of-state credit unions apply to credit unions exercising those powers or authorities permitted under this section but only insofar as the restrictions, limitations, and requirements relate to the specific exercise of the powers or authorities granted credit unions solely under this section.

(4) As used in this section, "powers and authorities" include, but are not limited to, powers and authorities in corporate governance matters. [2015 c 114 § 9; 2001 c 83 § 15; 1997 c 397 § 31. Prior: 1994 c 256 § 75; 1994 c 92 § 187; 1987 c 338 § 1; 1984 c 31 § 15. Formerly RCW 31.12.136.]

Findings—Construction—1994 c 256: See RCW 43.320.007.

31.12.413 Low-income credit unions—Director's approval required—Powers—Rules. (1) A credit union may apply in writing to the director for designation as a low-income credit union. The criteria for approval of this designation are as follows:

 - (iv) Subordinate to other creditors.
- (3) The director may adopt rules for the organization and operation of low-income credit unions including, but not limited to, rules concerning secondary capital accounts and requiring disclosures to the purchasers of the accounts. [2015 c 114 § 10; 2001 c 83 § 16.]

31.12.418 Dividends. Dividends may be paid from current undivided earnings which remain after deduction of expenses and the amounts required for reserves, or from the undivided earnings that remain from preceding periods. [2015 c 123 § 3; 1997 c 397 § 33; 1984 c 31 § 50. Formerly RCW 31.12.485.]

31.12.436 Investment of funds—When investment later becomes impermissible (as amended by 2015 c 114). (1) A credit union may invest its funds in any of the following, as long as the investments are deemed prudent by the board:

- (b) Bonds, securities, or other investments that are fully guaranteed as to principal and interest by the United States government, and general obligations of this state and its political subdivisions;
- (c) Obligations issued by corporations designated under 31 U.S.C. - (f) Common trust or mutual funds whose investment portfolios consist of securities issued or guaranteed by the federal government or an agency of the government;

Reviser's note: RCW 31.12.436 was amended twice during the 2015 legislative session, each without reference to the other. For rule of construction concerning sections amended more than once during the same legislative session, see RCW 1.12.025.

31.12.461 Mergers. (1) For purposes of this section, a "merging credit union" is a credit union whose charter ceases to exist upon merger with the continuing credit union, and a "continuing credit union" is a credit union whose charter continues upon merger with the merging credit union.

(2) A credit union may be merged with another credit union with the approval by the director of a plan of merger or in accordance with requirements the director may otherwise prescribe. The merger must be approved by a majority vote of the board of each credit union and a majority vote of those members of the merging credit union voting on the merger at a membership meeting. The requirement of approval by the members of the merging credit union may be waived by the director if the merging credit union is in imminent danger of insolvency.

(3) The property, rights, and interests of the merging credit union transfer to and vest in the continuing credit union without deed, endorsement, or instrument of transfer, although instruments of transfer may be used if their use is deemed appropriate. The debts and obligations of the merging credit union that are known or reasonably should be known are assumed by the continuing credit union.

(4) The continuing credit union shall cause to be published notice of merger once a week for three consecutive weeks in a newspaper of general circulation in the county in which the principal place of business of the merging credit union is located.

(5) The notice of merger must also inform creditors of the merging credit union how to make a claim on the continuing credit union, and that if a claim is not made upon the continuing credit union within thirty days of the last date of publication, creditors' claims that are not known by the continuing credit union are thereafter barred.

(6) Except for claims filed as requested by the notice, or debts or obligations that are known or reasonably should be known by the continuing credit union, the debts and obligations of the merging credit union are discharged.

(7) Upon merger, the charter of the merging credit union ceases to exist.

(8) Mergers are effective after the thirty-day notice period to creditors and all regulatory waiting periods have expired, and upon filing of the credit union's articles of merger by the secretary of state, or a later date stated in the articles, which in no event may be later than ninety days after the articles are filed. [2015 c 114 § 12; 2014 c 8 § 1; 2013 c 34 § 10; 2001 c 83 § 21; 1997 c 397 § 40. Prior: 1994 c 256 § 91; 1994 c 92 § 220; 1987 c 338 § 8; 1984 c 31 § 71. Formerly RCW 31.12.695.]

Findings—Construction—1994 c 256: See RCW 43.320.007.

31.12.464 Merger or conversion of state into federal, out-of-state, or foreign credit union, or other type of financial institution. (1) A credit union may merge or convert into a federal credit union as authorized by the federal credit union act. The merger or conversion must be approved

by a majority vote of those credit union members voting at a membership meeting, unless the credit union prescribes in its bylaws a higher percentage approval vote than a simple majority.

(2) If the merger or conversion is approved by the members, a copy of the resolution certified by the secretary must be filed with the director within ten days of approval. The board may effect the merger or conversion upon terms agreed by the board and the federal regulator.

(3) A certified copy of the federal credit union charter or authorization issued by the federal regulator must be filed with the director and thereupon the credit union ceases to exist except for the purpose of winding up its affairs and prosecuting or defending any litigation by or against the credit union. For all other purposes, the credit union is merged or converted into a federal credit union and the credit union may execute, acknowledge, and deliver to the successor federal credit union the instruments of transfer, conveyance, and assignment that are necessary or desirable to complete the merger or conversion, and the property, tangible or intangible, and all rights, titles, and interests that are agreed to by the board and the federal regulator.

(4) Mergers and conversions are effective after all applicable regulatory waiting periods have expired and upon filing of the credit union's articles of merger or articles of conversion, as appropriate, by the secretary of state, or a later date stated in the articles, which in no event may be later than ninety days after the articles are filed.

(5) Procedures, similar to those contained in subsections (1) through (4) of this section, prescribed by the director must be followed when a credit union merges or converts into an out-of-state or foreign credit union, or other type of financial institution. [2015 c 114 § 13; 2001 c 83 § 22; 1997 c 397 § 41; 1994 c 92 § 221; 1984 c 31 § 72. Formerly RCW 31.12.705.]

(b) A credit union organized and operating under this chapter is permitted to do business in the state or foreign jurisdiction in which the credit union is organized;

(c) The interest rate charged by the credit union on loans made to members residing in this state does not exceed the maximum interest rate permitted in the state or jurisdiction in which the credit union is organized, or exceed the maximum interest rate that a credit union organized and operating under this chapter is permitted to charge on similar loans, whichever is lower;

(d) The credit union has secured surety bond and fidelity bond coverages satisfactory to the director;

(e) The credit union's share and deposit accounts are insured under the federal share insurance program or an equivalent share insurance program in compliance with RCW 31.12.408;

(g) The credit union has not had its authority to do business in another state or foreign jurisdiction suspended or revoked;

(h) The credit union complies with:

(i) The provisions concerning field of membership in this chapter and rules adopted by the director; and

(ii) Such other provisions of this chapter and rules adopted by the director, as determined by the director; and

(i) In addition, if the credit union is a foreign credit union:

(i) A treaty or agreement between the United States and the jurisdiction where the credit union is organized requires the director to permit the credit union to operate a branch in Washington; and

(ii) The director determines that the credit union has substantially the same characteristics as a credit union organized and operating under this chapter.

(2) The director shall deny an application filed under this section or, upon notice and an opportunity for hearing, suspend or revoke the approval of an application, if the director finds that the standards of organization, operation, and regulation of the applicant do not reasonably conform with the standards under this chapter. In considering the standards of organization, operation, and regulation of the applicant, the director may consider the laws of the state or foreign jurisdiction in which the applicant is organized. A decision under this subsection may be appealed under chapter 34.05 RCW.

(3) In implementing this section, the director may cooperate with credit union regulators in other states or jurisdictions and may share with the regulators the information received in the administration of this chapter.

(4) The director may enter into supervisory agreements with outofstate and foreign credit unions and their regulators to prescribe the applicable laws governing the powers and authorities of Washington branches of the out-of-state or foreign credit unions. The director may also enter into supervisory agreements with the credit union regulators in other states or foreign jurisdictions to prescribe the applicable laws governing the powers and authorities of out-of-state or foreign branches and other facilities of credit unions. The agreements may address, but are not limited to, corporate governance and operational matters. The agreements may resolve any conflict of laws, and specify the manner in which the examination, supervision, and application processes must be coordinated with the regulators.

(5) A person, other than a credit union, out-of-state credit union, or foreign credit union, may not hold itself out in this state as engaging in the business of a credit union unless it is a credit union under this chapter, a federal credit union, an out-of-state credit union, or a foreign credit union.

(6) A person, wherever domiciled and regardless of the location or mode of its business, may not designate itself as or use the term "credit union" to refer to itself in any communication for purpose of conducting credit union business with a resident of the state of Washington, unless such person is a credit union under this chapter, federal credit union, out-of-state credit union, or foreign credit union.

(7) The director may adopt rules for the periodic examination and investigation of the affairs of an out-of-state credit union or foreign credit union operating a branch in this state. [2015 c 114 § 14; 2001 c 83 § 24; 1997 c 397 § 43. Prior:

(3) The director has the power to commence and prosecute actions and proceedings against and enjoin violations of this chapter and chapter 31.13 RCW by any person holding itself out to be a credit union, federal credit union, out-of-state credit union, foreign credit union, or corporate credit union. (7) The director may by rule provide appropriate relief for small credit unions from requirements under this chapter or rules of the director. However, small credit unions must still comply with RCW 31.12.408.

(8) The director shall have the power and broad administrative discretion to administer and interpret the provisions of this chapter and chapter 31.13 RCW, to facilitate the delivery of financial services to the members of a credit union.

(9) Nonfederally insured credit unions, nonfederally insured out-of-state credit unions, and nonfederally insured foreign credit unions operating in this state as permitted by RCW 31.12.408 and 31.12.471, as applicable, must comply with safety and soundness requirements established by the director.

(10) The director may charge fees to credit unions and other persons subject to examination and investigation under this chapter and chapter 31.13 RCW, and to other parties where the division contracts out its services, in order to cover the costs of the operation of the division of credit unions, and to establish a reasonable reserve for the division. The director may waive all or a portion of the fees. [2015 c 114 § 15; 2010 c 87 § 4; 2001 c 83 § 26; 1997 c 397 § 45; 1994 c 92 § 204; 1984 c 31 § 53.]

31.12.545 Examinations and investigations—Reports—Access to records—Oaths—Subpoenas. (1) The director shall make an examination and investigation into the affairs of each credit union at least once every eighteen months, unless the director determines with respect to a credit union, that a less frequent examination schedule will satisfactorily protect the financial stability of the credit union

and will satisfactorily assure compliance with the provisions of this chapter.

(2) In regard to credit unions, and out-of-state and foreign credit unions permitted to operate a branch in Washington pursuant to RCW 31.12.471, the director:

(a) Shall have full access to the credit union's books and records and files, including but not limited to computer files;

(f) A sole proprietorship or organization primarily in the business of managing one or more credit unions;

(g) A person providing electronic data processing services to a credit union or to a credit union service organization; or

(h) A corporation or other business entity that provides alternative share insurance in accordance with RCW 31.12.408.

(1) A notice under RCW 31.12.575 must contain a statement of the facts that constitute grounds for removal or prohibition and must fix a time and place at which a hearing will be held. If the notice under RCW 31.12.575 is accompanied by a notice of suspension under RCW 31.12.372, the notice of suspension must reference the statement of facts in the notice under RCW 31.12.575 as the basis for its issuance.

(2) The hearing must be set not earlier than ten days after the date of service of the notice or later than thirty days after the date of service of the notice unless an earlier or later date is set by the director at the request of the credit union director, supervisory committee member, officer, or employee for good cause shown or of the attorney general of the state.

(3) Unless the credit union director, supervisory committee member, officer, or employee, after being served with the notice, appears at the hearing personally or by a duly authorized representative, the person is deemed to have consented to the issuance of an order of removal or prohibition or both. In the event of such consent or if upon the record made at the hearing the director finds that any of the grounds specified in the notice have been established, the director may issue such orders of removal from office or prohibition from participation in the conduct of the affairs of the credit union or any other depository institution, trust company, bank holding company, thrift holding company, or financial holding company doing business in Washington state as the director may consider appropriate.

(4) An order becomes effective at the expiration of ten days after service upon the credit union and the credit union director, supervisory committee member, officer, or employee concerned, except that an order issued upon consent becomes effective at the time specified in the order.

(5) An order remains effective except to the extent it is stayed, modified, terminated, or set aside by the director or a reviewing court. [2015 c 114 § 18.]

31.12.585 Prohibited acts—Notice—Cease and desist order. (1) The director may issue and serve any person regulated by this chapter with a written notice of charges and intent to issue a cease and desist order if, in the opinion of the director, the person has committed or is about to commit:

- (a) A material violation of law; or
- (b) An unsafe or unsound practice.

(2) Upon taking effect, the order may require the person and its directors, supervisory committee members, officers, employees, and agents to cease and desist from the violation or practice and may require them to take affirmative action to correct the conditions resulting from the violation or practice. [2015 c 114 § 19; 2010 c 87 § 9; 2001 c 83 § 33; 1997 c 397 § 53; 1994 c 92 § 211; 1984 c 31 § 60.]

31.12.595 Temporary cease and desist order—Notice—Principal place of business—Superior court. (1) If the director determines that the violation or practice specified in RCW 31.12.585 is likely to cause an unsafe or unsound condition at a credit union or a credit union service organization, or the public is likely to be substantially injured by delay in issuing a cease and desist order, the director may immediately issue and serve a temporary cease and desist order upon the credit union, credit union service organization, or other applicable person identified in RCW 31.12.545(3). The order may require the credit union, credit union service organization, or other applicable person under RCW 31.12.545(3), and its directors, supervisory committee members, officers, employees, and agents, to cease and desist from the violation or practice and may require them to take affirmative action to correct the conditions resulting from the violation or practice.

(2) With the temporary order, the director shall serve a notice of charges and intent to issue a cease and desist order under RCW 31.12.585 in the matter.

(3) The temporary order becomes effective upon service on the person and remains effective until completion of the administrative proceedings under the notice issued under subsection (2) of this section.

(4) Within ten days after a person has been served with a temporary order, the credit union may apply to the superior court in the county of its principal place of business for an injunction setting aside, limiting, or suspending the order pending the completion of the administrative proceedings under the notice issued under subsection (2) of this section.

(5) In the case of a violation or threatened violation of a temporary order, the director may apply to the superior court of the county of the principal place of business of the person for an injunction to enforce the order, and the court shall issue an injunction if it determines that there has been a violation or threatened violation.

(6) For the purposes of this section, the principal place of business of a foreign or out-of-state credit union, out-of-state credit union service organization, or other out-of-state person under RCW 31.12.545(3) is Thurston county. [2015 c 114 § 20; 2010 c 87 § 10; 2001 c 83 § 34; 1997 c 397 § 54; 1994 c 92 § 212; 1984 c 31 § 61.]

31.12.674 Director's orders—Notice to director of hearing—Hearing—Principal place of business—Superior court. (1) Within ten days after the director issues an

order of involuntary liquidation of a credit union pursuant to RCW 31.12.664(2) or order appointing a receiver for a credit union pursuant to RCW 31.12.671, the credit union may serve a notice upon the director to appear at a hearing before the superior court of the county in which the principal place of business of the credit union is located and at a time to be fixed by the court, which may not be less than five or more than fifteen days from the date of the service of the notice. At the hearing, the credit union has the burden to show cause why the director's action ordering involuntary liquidation or appointing a receiver should not be affirmed.

(2) The court shall summarily hear and dismiss the complaint if it finds that the order of involuntary liquidation or order appointing receiver was issued for cause. However, if the court finds that no cause existed for the order of involuntary liquidation or order appointing receiver, the court shall require the director to restore the credit union to possession of its assets and enjoin the director from involuntary liquidation of the credit union or further appointment of a receiver for the credit union without cause.

(3) Failure of the credit union to serve notice of show cause hearing on the director as required under subsection (1) of this section bars a credit union from any judicial review of a director's order of involuntary liquidation under RCW 31.12.664(2) or of a director's appointment of receiver under RCW 31.12.671.

(4) For the purposes of this section, the principal place of business of a foreign or out-of-state credit union is Thurston county. [2015 c 114 § 21; 2010 c 87 § 14; 1997 c 397 § 71.]

32.08.025 Limited liability company—Organization or conversion—Approval of director—Conditions—Application of chapter 25.15 RCW—Definitions. (*Effective January 1, 2016.*) (1) Notwithstanding any other provision of this title, if the conditions of this section are met, a savings bank, or a holding company of a savings bank, may be organized as, or convert to, a limited liability company under the Washington limited liability company act, chapter 25.15 RCW. As used in this section, "savings bank" includes an applicant to become a savings bank or holding company of a savings bank, and "holding company" means a holding company of a savings bank.

(2)(a) Before a savings bank or holding company may organize as, or convert to, a limited liability company, the savings bank or holding company must obtain approval of the director.

(b)(i) To obtain approval under this section from the director, the savings bank or holding company must file a request for approval with the director at least ninety days before the day on which the savings bank or holding company becomes a limited liability company.

(ii) If the director does not disapprove the request for approval within ninety days from the day on which the director receives the request, the request is considered approved.

(iii) When taking action on a request for approval filed under this section, the director may:

(A) Approve the request;

(B) Approve the request subject to terms and conditions the director considers necessary; or

(C) Disapprove the request.

(3) To approve a request for approval, the director must find that the savings bank or holding company:

(a) Will operate in a safe and sound manner; and

(b) Has the following characteristics:

(i) The certificate of formation and limited liability company require or set forth that the duration of the limited liability company is perpetual;

(ii) The savings bank or holding company is not otherwise subject to automatic termination, dissolution, or suspension upon the happening of some event other than the passage of time;

(iii) The exclusive authority to manage the savings bank or holding company is vested in a board of managers or directors that:

(A) Is elected or appointed by the owners;

(B) Is not required to have owners of the savings bank or holding company included on the board;

(C) Possesses adequate independence and authority to supervise the operation of the savings bank or holding company; and

(D) Operates with substantially the same rights, powers, privileges, duties, and responsibilities as the board of directors of a corporation;

(iv) Neither state law, nor the savings bank's or holding company's operating agreement, bylaws, or other organizational documents provide that an owner of the savings bank or holding company is liable for the debts, liabilities, and obligations of the savings bank or holding company in excess of the amount of the owner's investment;

(v) Neither state law, nor the savings bank's or holding company's operating agreement, bylaws, or other organizational documents require the consent of any other owner of the savings bank or holding company in order for any owner to transfer an ownership interest in the savings bank or holding company, including voting rights;

(vi) The savings bank or holding company is able to obtain new investment funding if needed to maintain adequate capital;

(vii) The savings bank or holding company is able to comply with all legal and regulatory requirements for a federally insured depository bank, or holding company of a federally insured depository bank, under applicable federal and state law; and

(viii) A savings bank or holding company that is organized as a limited liability company shall maintain the characteristics listed in this subsection (3)(b) during such time as

it is authorized to conduct business under this title as a limited liability company.

(4)(a) All rights, privileges, powers, duties, and obligations of a savings bank or holding company, that is organized as a limited liability company, and its members and managers are governed by the Washington limited liability company act, chapter 25.15 RCW, except:

(i) To the extent chapter 25.15 RCW is in conflict with federal law or regulation respecting the organization of a federally insured depository institution as a limited liability company, such federal law or regulation supersedes the conflicting provisions contained in chapter 25.15 RCW in relation to a savings bank or holding company organized as a limited liability company pursuant to this section; and

(ii) Without limitation, the following are inapplicable to a savings bank or holding company organized as a limited liability company:

(A) Permitting automatic dissolution or suspension of a limited liability company as set forth in RCW 25.15.265(1), pursuant to a statement of limited duration which, though impermissible under subsection (3)(b)(i) of this section, has been provided for in a certificate of formation;

(B) Permitting automatic dissolution or suspension of a limited liability company, pursuant to the limited liability company agreement, as set forth in RCW 25.15.265(2);

(C) Permitting dissolution of the limited liability company agreement based upon agreement of all the members, as set forth in RCW 25.15.265(3);

(D) Permitting dissociation of all the members of the limited liability company, as set forth in RCW 25.15.265(4); and

(E) Permitting automatic dissolution or suspension of a limited liability company, pursuant to operation of law, as otherwise set forth in chapter 25.15 RCW.

(b) Notwithstanding (a) of this subsection:

(i) For purposes of transferring a member's interests in the savings bank or holding company, a member's interest in the savings bank or holding company is treated like a share of stock in a corporation; and

(ii) If a member's interest in the savings bank or holding company is transferred voluntarily or involuntarily to another person, the person who receives the member's interest obtains the member's entire rights associated with the member's interest in the savings bank or holding company including all economic rights and all voting rights.

(c) A savings bank or holding company may not by agreement or otherwise change the application of (a) of this subsection to the savings bank or holding company.

(5)(a) Notwithstanding any provision of chapter 25.15 RCW or this section to the contrary, all voting members remain liable and responsible as fiduciaries of a savings bank or holding company organized as a limited liability company, regardless of resignation, dissociation, or disqualification, to the same extent that directors of a savings bank or holding company organized as a corporation would be or remain liable or responsible to the department and applicable federal banking regulators; and

(b) If death, incapacity, or disqualification of all members of the limited liability company would result in a complete dissociation of all members, then the savings bank or holding company, or both, as applicable is deemed nonethe-

less to remain in existence for purposes of the department or an applicable federal regulator, or both, having standing under RCW 32.24.090 or applicable federal law, or both, to exercise the powers and authorities of a receiver for the savings bank or holding company.

(6) For the purposes of this section, and unless the context clearly requires otherwise, for the purpose of applying chapter 25.15 RCW to a savings bank or holding company organized as a limited liability company:

(a) "Articles of incorporation" includes a limited liability company's certificate of formation, as that term is used in RCW 25.15.006 and 25.15.071, and a limited liability company agreement as that term is used in RCW 25.15.006;

(b) "Board of directors" includes one or more persons who have, with respect to a savings bank or holding company described in subsection (1) of this section, authority that is substantially similar to that of a board of directors of a corporation;

(c) "Bylaws" includes a limited liability company agreement as that term is defined in RCW 25.15.006;

(d) "Corporation" includes a limited liability company organized under chapter 25.15 RCW;

(e) "Director" includes any of the following of a limited liability company:

(j) "Stockholder" or "shareholder" includes an owner of an equity interest in a savings bank or holding company, including a member as defined in RCW 25.15.006 and 25.15.116. [2015 c 188 § 120; 2006 c 48 § 3.]

35.02.078 Elections—Question of incorporation—Nomination and election of officers. An election shall be held in the area proposed to be incorporated to determine whether the proposed city or town shall be incorporated when the boundary review board takes action on the proposal other than disapproving the proposal, or if the county legislative authority does not disapprove the proposal as provided in RCW 35.02.070. Voters at this election shall determine if the area is to be incorporated.

The initial election on the question of incorporation shall be held at the next special election date specified in RCW 29A.04.330 that occurs sixty or more days after the final public hearing by the county legislative authority or authorities, or action by the boundary review board or boards. The county legislative authority or authorities shall call for this election and, if the incorporation is approved, shall call for other elections to elect the elected officials as provided in this section. If the vote in favor of the incorporation receives forty percent or less of the total vote on the question of incorporation, no new election on the question of incorporation for the area or any portion of the area proposed to be incorporated may be held for a period of three years from the date of the election in which the incorporation failed.

If the incorporation is authorized as provided by RCW 35.02.120, separate elections shall be held to nominate and elect persons to fill the various elective offices prescribed by law for the population and type of city or town, and to which it will belong. The primary election to nominate candidates for these elective positions shall be held at the next special election date, as specified in RCW 29A.04.330, that occurs sixty or more days after the election on the question of incorporation. The election to fill these elective positions shall be held at the next special election date, as specified in RCW 29A.04.330, that occurs thirty or more days after certification of the results of the primary election. 35.13A.115 Assumption resolution or ordinance—Referendum. (1) Except as provided otherwise by subsection (4) of this section, a resolution or ordinance adopted by the legislative body of a city to assume jurisdiction of all or part of a water-sewer district under this chapter is subject to a referendum. Any referendum petition to repeal the assumption resolution or ordinance must be filed with the county auditor within ten days of passage of the resolution or ordinance. Within ten days of the filing of a petition, the county auditor must confer with the petitioner concerning the form and style of the petition and issue a petition identification number. The ballot title must be prepared by the applicable city attorney in accordance with this section and RCW 29A.36.071, and the question posed to the voters must be written so that an affirmative answer to the question and a majority affirmative vote on the measure results in approval of the proposed assumption, and a negative answer to the question and a majority negative vote on the measure results in the assumption being barred. The petitioner must be notified of the identification number and ballot title within this ten-day period. After this notification, the petitioner has forty-five days in which to secure on petition forms the signatures of at least ten percent of the number of voters residing in the part of the water-sewer district subject to the assumption resolution or ordinance who voted in the most recent general election, and file the signed petitions with the county auditor. Each petition form must contain the ballot title and full text of the measure to be referred. The county auditor must verify the sufficiency of the signatures on the petitions.

(2) If sufficient valid signatures on the petitions are properly submitted, the county auditor must submit the referendum measure to the registered voters residing in the part of the water-sewer district subject to the assumption resolution or ordinance in a general or special election no later than one hundred twenty days after the signed petition has been filed with the county auditor. Elections must be conducted in accordance with general election law, and the cost of the election must be borne by the city seeking approval to assume jurisdiction of all or part of the water-sewer district.

[2015 RCW Supp—page 396]

(3) When a referendum petition is filed with the county auditor, the assumption resolution or ordinance sought to be referred to the voters, and any proceedings before a boundary review board under chapter 36.93 RCW, are suspended from taking effect. Such suspension terminates when: (a) There is a final determination of insufficiency or untimeliness of the referendum petition; or (b) the assumption resolution or ordinance so referred is approved by the voters at a referendum election.

(4) If a city legislative authority assumes jurisdiction of all or part of a water-sewer district through a contract with a water-sewer district, or through an interlocal agreement with a water-sewer district under chapter 39.34 RCW, the provisions of this section do not apply. [2015 c 172 § 1.]

35.13A.120 Assumption resolution or ordinance—Effective date. A resolution or ordinance adopted by a city in accordance with this chapter to assume jurisdiction of all or part of a district may not take effect until ninety or more days after its adoption. [2015 c 172 § 2.]

35.18.020 Number of councilmembers—Wards, districts—Terms—Vacancies. (1) The number of councilmembers in a city or town operating with a council-manager plan of government shall be based upon the latest population of the city or town that is determined by the office of financial management as follows:

(a) A city or town having not more than two thousand inhabitants, five councilmembers; and

(b) A city or town having more than two thousand, seven councilmembers.

(2) Except for the initial staggering of terms, councilmembers shall serve for four-year terms of office. All councilmembers shall serve until their successors are elected and qualified and assume office in accordance with RCW 29A.60.280. Councilmembers may be elected on a citywide or townwide basis, or from wards or districts, or any combination of these alternatives. Candidates shall run for specific positions. Wards or districts shall be redrawn as provided in chapter 29A.76 RCW. Wards or districts shall be used as follows: (a) Only a resident of the ward or district may be a candidate for, or hold office as, a councilmember of the ward or district; and (b) only voters of the ward or district may vote at a primary to nominate candidates for a councilmember of the ward or district. Voters of the entire city or town may vote at the general election to elect a councilmember of a ward or district, unless the city or town had prior to January 1, 1994, limited the voting in the general election for any or all council positions to only voters residing within the ward or district associated with the council positions. If a city or town had so limited the voting in the general election to only voters residing within the ward or district, then the city or town shall be authorized to continue to do so.

(3) When a city or town has qualified for an increase in the number of councilmembers from five to seven by virtue of the next succeeding population determination made by the office of financial management, two additional council positions shall be filled at the next municipal general election with the person elected to one of the new council positions receiving the greatest number of votes being elected for a four-year term of office and the person elected to the other additional council position being elected for a two-year term of office. The two additional councilmembers shall assume office immediately when qualified in accordance with RCW 29A.04.133, but the term of office shall be computed from the first day of January after the year in which they are elected. Their successors shall be elected to four-year terms of office.

Prior to the election of the two new councilmembers, the city or town council shall fill the additional positions by appointment not later than forty-five days following the release of the population determination, and each appointee shall hold office only until the new position is filled by election.

(4) When a city or town has qualified for a decrease in the number of councilmembers from seven to five by virtue

of the next succeeding population determination made by the office of financial management, two council positions shall be eliminated at the next municipal general election if four council positions normally would be filled at that election, or one council position shall be eliminated at each of the next two succeeding municipal general elections if three council positions normally would be filled at the first municipal general election after the population determination. The council shall by ordinance indicate which, if any, of the remaining positions shall be elected at-large or from wards or districts.

(5) Vacancies on a council shall occur and shall be filled as provided in chapter 42.12 RCW. [2015 c 53 § 32; 1994 c 223 § 12; 1981 c 260 § 7. The expenses paid by the city or town may include costs associated with an appeal of the decision rendered by the superior court concerning the sufficiency of the recall charge. [2015 c 53 § 34; 1989 c 250 § 2.]

35.21.779 Fire protection services for state-owned facilities—Contracts with the department of commerce—Consolidation of negotiations with multiple state agencies—Arbitration. (1) In cities or towns where the estimated value of state-owned facilities constitutes ten percent or more of the total assessed valuation, the state agency or institution owning the facilities shall contract with the city or town to pay an equitable share for fire protection services. The contract shall be negotiated as provided in subsections (2) through (6) of this section and shall provide for payment by the agency or institution to the city or town.

(2) A city or town seeking to enter into fire protection contract negotiations shall provide written notification to the department of commerce and the state agencies or institutions that own property within the jurisdiction, of its intent to contract for fire protection services. Where there are multiple

state agencies located within a single jurisdiction, a city may choose to notify only the department of commerce, which in turn shall notify the agencies or institution that own property within the jurisdiction of the city's intent to contract for fire protection services. Any such notification shall be based on the valuation procedures, based on commonly accepted standards, adopted by the department of commerce in consultation with the department of enterprise services and the association of Washington cities.

(3) The department of commerce shall review any such notification to ensure that the valuation procedures and results are accurate. The department will notify each affected city or town and state agency or institution of the results of their review within thirty days of receipt of notification.

(4) The parties negotiating fire protection contracts under this section shall conduct those negotiations in good faith. Whenever there are multiple state agencies located within a single jurisdiction, every effort shall be made by the state to consolidate negotiations on behalf of all affected agencies.

(5) In the event of notification by one of the parties that an agreement cannot be reached on the terms and conditions of a fire protection contract, the director of the department of commerce shall mediate a resolution of the disagreement. In the event of a continued impasse, the director of the department of commerce shall recommend a resolution.

(6) If the parties reject the recommendation of the director and an impasse continues, the director shall direct the parties to arbitration. The parties shall agree on a neutral arbitrator, and the fees and expenses of the arbitrator shall be shared equally between the parties. The arbitration shall be a final offer, total arbitration, with the arbitrator empowered only to pick the final offer of one of the parties or the recommended resolution by the director of the department of commerce. The decision of the arbitrator shall be final, binding, and non-appealable on the parties.

(7) The provisions of this section shall not apply if a city or town and a state agency or institution have contracted pursuant to RCW 35.21.775.

(8) The provisions of this section do not apply to cities and towns not meeting the conditions in subsection (1) of this section. Cities and towns not meeting the conditions of subsection (1) of this section may enter into contracts pursuant to RCW 35.21.775. [2015 c 225 § 29; 1995 c 399 § 39; 1992 c 117 § 6.]

35.21.900 Authority to transfer real property. Cities are authorized to transfer real property pursuant to RCW 43.83.400 and 43.83.410. [2015 1st sp.s. c 4 § 27; 2006 c 35 § 10.]

Findings—2006 c 35: See note following RCW 43.83.400.

35.21.930 Community assistance referral and education services program. (1) Any fire department may develop a community assistance referral and education services program to provide community outreach and assistance to residents of its jurisdiction in order to improve population health and advance injury and illness prevention within its community. The program should identify members of the community who use the 911 system or emergency depart-

ment for low acuity assistance calls (calls that are nonemergency or nonurgent) and connect them to their primary care providers, other health care professionals, low-cost medication programs, and other social services. The program may partner with hospitals to reduce readmissions. The program may also provide nonemergency contact information in order to provide an alternative resource to the 911 system. The program may hire or contract with health care professionals as needed to provide these services, including emergency medical technicians certified under chapter 18.73 RCW and advanced emergency medical technicians and paramedics certified under chapter 18.71 RCW. The services provided by emergency medical technicians, advanced emergency medical technicians, and paramedics must be under the responsible supervision and direction of an approved medical program director. Nothing in this section authorizes an emergency medical technician, advanced emergency medical technician, or paramedic to perform medical procedures they are not trained and certified to perform.

(2) A participating fire department may seek grant opportunities and private gifts in order to support its community assistance referral and education services program.

(3) In developing a community assistance referral and education services program, a fire department may consult with the health workforce council to identify health care professionals capable of working in a nontraditional setting and providing assistance, referral, and education services.

(4) Community assistance referral and education services programs implemented under this section must, at least annually, measure any reduction of repeated use of the 911 emergency system and any reduction in avoidable emergency room trips attributable to implementation of the program. Results of findings under this subsection must be reportable to the legislature or other local governments upon request. Findings should include estimated amounts of medicaid dollars that would have been spent on emergency room visits had the program not been in existence.

(5) For purposes of this section, "fire department" includes city and town fire departments, fire protection districts organized under Title 52 RCW, regional fire protection service authorities organized under chapter 52.26 RCW, providers of emergency medical services that levy a tax under RCW 84.52.069, and federally recognized Indian tribes. [2015 c 93 § 1; 2013 c 247 § 1.]

35.21.935 Warrant officers—Training requirements—Authority. (1) Any city or town may establish the position of warrant officer.

(2) If any city or town establishes the position of warrant officer, the position shall be maintained by the city or town within the city or town police department. The number and qualifications of warrant officers shall be fixed by ordinance and their compensation shall be paid by the city or town. The chief of police of the city or town must establish training requirements consistent with the job description of warrant officer established in that city or town. Training requirements must be approved by the criminal justice training commission.

(3) Warrant officers shall be vested only with the special authority identified in ordinance, which may include the

authority to make arrests authorized by warrants and other authority related to service of civil and criminal process.

(4) Process issuing from any court that is directed to a police department in which a warrant officer position is maintained may be served or enforced by the warrant officer, if within the warrant officer's authority as identified in ordinance.

(5) Warrant officers shall not be entitled to death, disability, or retirement benefits pursuant to chapter 41.26 RCW on the basis of service as a warrant officer as described in this section. [2015 c 288 § 1.]

35.21.940 Failing septic systems—Connection to public sewer systems—Appeals process. (1) A city with an ordinance or resolution requiring, upon the failure of an on-site septic system, connection to a public sewer system must, in accordance with this section, provide an administrative appeals process to consider denials of permit applications to repair or replace the septic system. The administrative appeals process required by this section applies only to requests to repair or replace existing, failing on-site septic systems that:

(a) Were made for a single-family residence by its owner or owners;

(b) Were denied solely because of a law, regulation, or ordinance requiring connection to a public sewer system; and

(c) Absent the applicable law, regulation, or ordinance requiring connection to a public sewer system upon which the denial was based, would be approved.

(2) If the city has an administrative appeals process, the city may, subject to the requirements of this section, use that process. The administrative appeals process required by this section, however, must be presided over by the legislative body of the city or by an administrative hearings officer.

(3) The administrative appeals process required by this section must, at a minimum, consider whether:

(a) It is cost-prohibitive to require the property owner to connect to the public sewer system. In complying with this subsection (3)(a), the city must consider the estimated cost to repair or replace the on-site septic system compared to the estimated cost to connect to the public sewer system;

(b) There are public health or environmental considerations related to allowing the property owner to repair or replace the on-site septic system. In complying with this subsection (3)(b), the city must consider whether the repaired or replaced on-site septic system contributes to the pollution of surface waters or groundwater;

(c) There are public sewer system performance or financing considerations related to allowing the property owner to repair or replace the on-site septic system; and

(d) There are financial assistance programs or latecomer agreements offered by the city or state that may impact a decision of the property owner to repair or replace the on-site septic system.

(4) If the city, following the appeals process required by this section, determines that the property owner must connect the residence to the public sewer system, the property owner may, in complying with the determination and subject to approval of appropriate permits, select and hire contractors at his or her own expense to perform the work necessary to connect the residence to the public sewer system.

[2015 RCW Supp—page 400]

(5) Unless otherwise required by law, a city determination requiring the owner of a single-family residence with a failing on-site septic system to connect a residence to a public sewer system is not subject to appeal.

(6) For purposes of this section, "city" means a city or town. [2015 c 297 § 1.]

35.21.945 Water storage asset management services—Procurement. (1) Any municipality may elect to contract for asset management service of its water storage assets in accordance with this section. If a municipality elects to contract under this subsection for all, some, or one component of water storage asset management services for its water storage assets, each municipality shall publish notice of its requirements to procure asset management service of its water storage assets. The announcement must concisely state the scope and nature of the water storage asset management service for which a contract is required and encourage firms to submit proposals to meet these requirements. If a municipality chooses to negotiate a water storage asset management service contract under this section, no otherwise applicable statutory procurement requirement applies.

(2) The municipality may negotiate a fair and reasonable water storage asset management service contract with the firm that submits the best proposal based on criteria that is established by the municipality.

(3) If the municipality is unable to negotiate a satisfactory water storage asset management service contract with the firm that submits the best proposal, negotiations with that firm must formally be terminated and the municipality may select another firm in accordance with this section and continue negotiation until a water storage asset management service contract is reached or the selection process is terminated.

(4) For the purposes of this section:

(a) "Water storage asset management services" means the financing, designing, improving, operating, maintaining, repairing, testing, inspecting, cleaning, administering, or managing, or any combination thereof, of a water storage asset.

(b) "Water storage asset" means water storage structures and associated distribution systems, such as the water tank, tower, well, meter, or water filter. [2015 c 187 § 1.]

35.21.950 Final determination on state highway project permits. A city or town must comply with the requirements of RCW 47.01.485 in making a final determination on a permit as part of a project on a state highway as defined in RCW 46.04.560. [2015 3rd sp.s. c 15 § 3.]

- 35.23.051 Elections—Terms of office—Positions and wards.
- 35.23.805 Code city retaining former second-class city plan—Elections—Terms of office.
- 35.23.850 Code city retaining former second-class city plan—Wards—Division of city into.

35.23.051 Elections—Terms of office—Positions and wards. General municipal elections in second-class cities shall be held biennially in the odd-numbered years and shall be subject to general election law.

The terms of office of the mayor, city attorney, clerk, and treasurer shall be four years and until their successors are elected and qualified and assume office in accordance with RCW 29A.60.280: PROVIDED, That if the offices of city attorney, clerk, and treasurer are made appointive, the city attorney, clerk, and treasurer shall not be appointed for a definite term: PROVIDED FURTHER, That the term of the elected treasurer shall not commence in the same biennium in which the term of the mayor commences, nor in which the terms of the city attorney and clerk commence if they are elected.

Council positions shall be numbered in each secondclass city so that council position seven has a two-year term of office and council positions one through six shall each have four-year terms of office. Each councilmember shall remain in office until a successor is elected and qualified and assumes office in accordance with RCW 29A.60.280.

In its discretion the council of a secondclass city may divide the city by ordinance, into a convenient number of wards, not exceeding six, fix the boundaries of the wards, and change the ward boundaries from time to time and as provided in RCW 29A.76.010. No change in the boundaries of any ward shall be made within one hundred twenty days next before the date of a general municipal election, nor within twenty months after the wards have been established or altered. However, if a boundary change results in one ward being represented by more councilmembers than the number

to which it is entitled, those having the shortest unexpired terms shall be assigned by the council to wards where there is a vacancy, and the councilmembers so assigned shall be deemed to be residents of the wards to which they are assigned for purposes of determining whether those positions are vacant.

Whenever such city is so divided into wards, the city council shall designate by ordinance the number of councilmembers to be elected from each ward, apportioning the same in proportion to the population of the wards. Thereafter the councilmembers so designated shall be elected by the voters resident in such ward, or by general vote of the whole city as may be designated in such ordinance. Council position seven shall not be associated with a ward and the person elected to that position may reside anywhere in the city and voters throughout the city may vote at a primary to nominate candidates for position seven, when a primary is necessary, and at a general election to elect the person to council position seven. Additional territory that is added to the city shall, by act of the council, be annexed to contiguous wards without affecting the right to redistrict at the expiration of twenty months after last previous division. The removal of a councilmember from the ward for which he or she was elected shall create a vacancy in such office.

Wards shall be redrawn as provided in chapter 29A.76 RCW. Wards shall be used as follows: (1) Only a resident of the ward may be a candidate for, or hold office as, a councilmember of the ward; and (2) only voters of the ward may vote at a primary to nominate candidates for a councilmember of the ward. Voters of the entire city may vote at the general election to elect a councilmember of a ward, unless the city had prior to January 1, 1994, limited the voting in the general election for any or all council positions to only voters residing within the ward associated with the council positions. If a city had so limited the voting in the general election to only voters residing within the ward, then the city shall be authorized to continue to do so. The elections for the remaining council position or council positions that are not associated with a ward shall be conducted as if the wards did not exist. In any city initially classified as a second-class city prior to January 1, 1993, that retained its second-class city plan of government when the city reorganized as a noncharter code city, the city council may divide the city into wards, not exceeding six in all, or change the boundaries of existing wards at any time less than one hundred twenty days before a municipal general election. No change in the boundaries of wards shall affect the term of any councilmember, and councilmembers shall serve out their terms in the wards of their residences at the time of their elections. However, if these boundary changes result in one ward being represented by more councilmembers than the number to which it is entitled, those having the shortest unexpired terms shall be assigned by the council to wards where there is a vacancy, and the councilmembers so assigned shall be deemed to be residents of the wards to which they are assigned for purposes of determining whether those positions are vacant.

The representation of each ward in the city council shall be in proportion to the population as nearly as is practicable.

Wards shall be redrawn as provided in chapter 29A.76 RCW. Wards shall be used as follows: (1) Only a resident of the ward may be a candidate for, or hold office as, a councilmember of the ward; and (2) only voters of the ward may vote at a primary to nominate candidates for a councilmember of the ward. 35.61.030 Election—Review by boundary review board—Question stated. (1) Except as provided in subsection (2) of this section for review by a boundary review board, the ballot proposition authorizing creation of a metropolitan park district that is submitted to voters for their approval or rejection shall appear on the ballot of the next general election or at the next special election date specified under RCW 29A.04.330 occurring sixty or more days after the last resolution proposing the creation of the park district is adopted or the date the county auditor certifies that the petition proposing the creation of the park district contains sufficient valid signatures. Where the petition or copy thereof is filed with two or more county auditors in the case of a proposed district in two or more counties, the county auditors shall confer and issue a joint certification upon finding that the required number of signatures on the petition has been obtained.

(2) Where the proposed district is located wholly or in part in a county in which a boundary review board has been created, notice of the proposal to create a metropolitan park district shall be filed with the boundary review board as provided under RCW 36.93.090 and the special election at which a ballot proposition authorizing creation of the park district shall be held on the special election date specified under RCW 29A.04.330 that is sixty or more days after the date the boundary review board is deemed to have approved the proposal, approves the proposal, or modifies and approves the proposal. The creation of a metropolitan park district is not subject to review by a boundary review board if the proposed district only includes one or more cities and in such cases the special election at which a ballot proposition authorizing creation of the park district shall be held as if a boundary review board does not exist in the county or counties.

(3) The petition proposing the creation of a metropolitan park district, or the resolution submitting the question to the voters, shall choose and describe the composition of the initial board of commissioners of the district that is proposed

under RCW 35.61.050 and shall choose a name for the district. The proposition shall include the following terms:

□ "For the formation of a metropolitan park district to be governed by [insert board composition described in ballot proposition]."

□ "Against the formation of a metropolitan park district."

35.61.050 Composition of board—Election of commissioners—Terms—Vacancies. (1) The resolution or petition submitting the ballot proposition shall designate the composition of the board of metropolitan park commissioners from among the alternatives provided under subsections (2) through (4) of this section. The ballot proposition shall clearly describe the designated composition of the board.

(2) The commissioners of the district may be selected by election, in which case at the same election at which the proposition is submitted to the voters as to whether a metropolitan park district is to be formed, five park commissioners shall be elected. The election of park commissioners shall be null and void if the metropolitan park district is not created. Candidates shall run for specific commission positions. No primary shall be held to nominate candidates. The person receiving the greatest number of votes for each position shall be elected as a commissioner. The staggering of the terms of office shall occur as follows: (a) The two persons who are elected receiving the two greatest numbers of votes shall be elected to six-year terms of office if the election is held in an odd-numbered year or five-year terms of office if the election is held in an even-numbered year; (b) the two persons who are elected receiving the next two greatest numbers of votes shall be elected to four-year terms of office if the election is held in an odd-numbered year or three-year terms of office if the election is held in an even-numbered year; and (c) the other person who is elected shall be elected to a two-year term of office if the election is held in an odd-numbered year or a one-year term of office if the election is held in an even-numbered year. The initial commissioners shall take office immediately when they are elected and qualified, and for purposes of computing their terms of office the terms shall be assumed to commence on the first day of January in the year after they are elected. Thereafter, all commissioners shall be elected to six-year terms of office. All commissioners shall serve until their respective successors are elected and qualified and assume office in accordance with RCW 29A.60.280. Vacancies shall occur and shall be filled as provided in chapter 42.12 RCW.

(3) In a district wholly located within a city or within the unincorporated area of a county, the governing body of such city or legislative authority of such county may be designated to serve in an ex officio capacity as the board of metropolitan park commissioners, provided that when creation of the district is proposed by citizen petition, the city or county approves by resolution such designation.

(4) Where the proposed district is located within more than one city, more than one county, or any combination of cities and counties, each city governing body and county leg-

islative authority may be designated to collectively serve ex officio as the board of metropolitan park commissioners through selection of one or more members from each to serve as the board, provided that when creation of the district is proposed by citizen petition, each city governing body and county legislative authority approve by resolution such designation. Within six months of the date of certification of election results approving creation of the district, the size and membership of the board shall be determined through interlocal agreement of each city and county. The interlocal agreement shall specify the method for filling vacancies on the board.

(5) Metropolitan park districts created by a vote of the people prior to June 13, 2002, may not change the composition and method of selection of their governing authority without approval of the voters. Should such a change be desired, the board of park commissioners shall submit a ballot proposition to the voters of the metropolitan park district. The board of park commissioners by resolution shall fix a time for the holding of the election to determine the question of annexation, and in addition to the notice required by RCW 29A.52.355 shall give notice thereof by causing notice to be published once a week for two consecutive weeks in a newspaper of general circulation in the park district, and by posting notices in five public places within the territory proposed to be annexed in the district.

MUNICIPAL WATER AND SEWER FACILITIES ACT

Sections

35.91.060 Assessment reimbursement areas for water or sewer facilities—Requirements—Boundaries—Reimbursement of costs.

35.91.060 Assessment reimbursement areas for water or sewer facilities—Requirements—Boundaries—Reimbursement of costs. (1) As an alternative to the procedures provided in RCW 35.91.020 for financing the construction or improvement of water or sewer facilities, a municipality may create an assessment reimbursement area on its own initiative, without the participation of a private property owner, finance all of the costs associated with the construction or improvement, and become the sole beneficiary of reimbursements.

(a) A municipality may only establish an assessment reimbursement area in locations where a municipality's ordinances require water or sewer facilities to be improved or constructed as a prerequisite to further property development or redevelopment.

(b) The boundaries of an assessment reimbursement area must be formulated by the municipality based upon a determination of which parcels in the proposed area would require construction or improvement of water or sewer facilities upon development or redevelopment, or would be allowed connection to or usage of constructed or improved water or sewer facilities.

(c) A preliminary determination of the assessment reimbursement area boundaries and assessments, along with a description of property owners' rights and options, must be sent by certified mail to each owner of record of real property within the proposed assessment reimbursement area. Owners of property within the proposed area may request a public hearing by submitting a written request to the municipality within twenty days of the preliminary determination's mailing. If a written request is submitted, the legislative authority of the municipality must hold a public hearing on the assessment reimbursement area. Notice of the hearing must be provided to all affected property owners. Any rulings of the legislative authority of the municipality are determinative and final, subject to judicial review.

(d) The final determination of the assessment reimbursement area boundaries and assessments must be recorded in the county auditor's office of the county in which the area is situated.

(2) A municipality may be reimbursed in accordance with this section only for the costs associated with construc-

tion or improvements that benefit property that will be connected to, and property owners who will use, the water or sewer facilities within the assessment reimbursement area. Reimbursement may only occur when a property is developed or redeveloped in a manner requiring connection to or use of the water or sewer facilities, or when a property is requesting connection to or use of the water or sewer facilities. The reimbursement assessment may be no greater than a property's pro rata share of costs associated with construction of the water or sewer facilities required to meet utility service and fire suppression standards. The municipality must determine the reimbursement share of each property owner by using a method of cost apportionment that is based on the benefit to the property owner from the project and that is consistent with the method used to determine the cost and reimbursement share under RCW 35.91.020(1) (a) and (b). However, the municipality's administrative and legal costs are not subject to reimbursement. A municipality may not receive reimbursement of costs for the portion of construction or improvements that benefit the general public, which means that portion of the water or sewer facilities that only benefit property outside of the assessment reimbursement area.

(3) For the purposes of this section, administrative costs do not include engineering and construction management costs. [2015 c 96 § 1.]

(2) The limitation in RCW 84.55.010 does not apply to the first levy imposed under this section following the approval of the levies by the voters under subsection (1) of this section. [2015 c 53 § 46; 2002 c 248 § 11.]

The number and qualifications of warrant officers shall be fixed by ordinance, and their compensation shall be paid by the city. The chief of police of the city must establish training requirements consistent with the job description of warrant officer established in that city. Training requirements must be approved by the criminal justice training commission.

(3) Warrant officers shall be vested only with the special authority identified in ordinance, which may include the authority to make arrests authorized by warrants and other authority related to service of civil and criminal process.

The administrative appeals process required by this section applies only to requests to repair or replace existing, failing on-site septic systems that:

(a) Were made for a single-family residence by its owner or owners;

(b) Were denied solely because of a law, regulation, or ordinance requiring connection to a public sewer system; and

(c) Absent the applicable law, regulation, or ordinance requiring connection to a public sewer system upon which the denial was based, would be approved.

(2) If the city has an administrative appeals process, the city may, subject to the requirements of this section, use that process. The administrative appeals process required by this section, however, must be presided over by the legislative body of the city or by an administrative hearings officer.

(b) There are public health or environmental considerations related to allowing the property owner to repair or replace the on-site septic system. In complying with this subsection (3)(b), the city must consider whether the repaired or replaced on-site septic system contributes to the pollution of surface waters or groundwater;

(c) There are public sewer system performance or financing considerations related to allowing the property owner to repair or replace the on-site septic system; and

(d) There are financial assistance programs or latecomer agreements offered by the city or state that may impact a decision of the property owner to repair or replace the on-site septic system.

(4) If the city, following the appeals process required by this section, determines that the property owner must connect the residence to the public sewer system, the property owner may, in complying with the determination and subject to approval of appropriate permits, select and hire contractors at his or her own expense to perform the work necessary to connect the residence to the public sewer system.

(5) Unless otherwise required by law, a city determination requiring the owner of a single-family residence with a failing on-site septic system to connect a residence to a public sewer system is not subject to appeal.

(6) For purposes of this section, "city" means a "code city" as defined in RCW 35A.01.035. [2015 c 297 § 2.]

Chapter 36.35 RCW TAX TITLE LANDS

Sections

36.35.120 Sales of tax-title property—Reservations—Notices—Installment contracts—Separate sale of reserved resources.

36.35.120 Sales of tax-title property—Reservations—Notices—Installment contracts—Separate sale of reserved resources. (1) Real property acquired by any county of this state by foreclosure of delinquent taxes may be sold by order of the county legislative authority when in the judgment of the county legislative authority it is deemed in the county's best interests to sell the real property.

(2) When the county legislative authority desires to sell any such property it may, if deemed advantageous to the county, combine any or all of the several lots and tracts of the property in one or more units, and reserve from sale coal, oil, gas, gravel, minerals, ores, fossils, timber, or other resources on or in the lands, and the right to mine for and remove the same. It must then enter an order on its records fixing the unit or units in which the property will be sold, the minimum price for each of the units, and whether the sale will be for cash or

whether a contract will be offered, and reserving from sale the resources as it may determine and from which units the reservations will apply, and directing the county treasurer to sell the property in the unit or units and at not less than the price or prices and subject to the reservations so fixed by the county legislative authority. The order is subject to the approval of the county treasurer if several lots or tracts of land are combined in one unit.

(3) Except in cases where the sale is to be by direct negotiation as provided in RCW 36.35.150, the county treasurer must, upon receipt of the order, publish once a week for three consecutive weeks a notice of the sale of the property in a newspaper of general circulation in the county where the land is situated. The notice must describe the property to be sold, the unit or units, the reservations, and the minimum price fixed in the order, together with the time and place and terms of sale, in the same manner as foreclosure sales as provided by RCW 84.64.080. If a public auction sale by electronic media is conducted pursuant to RCW 36.16.145, notice must conform to requirements for a public auction sale by electronic media.

(4) The person making the bid must state whether he or she will pay cash for the amount of his or her bid or accept a real estate contract of purchase in accordance with the provisions hereinafter contained. If a public auction sale by electronic media is conducted pursuant to RCW 36.16.145, the county may require payment by electronic funds transfer.

(5) The person making the highest bid will become the purchaser of the property. If the highest bidder is a contract bidder the purchaser must pay thirty percent of the total purchase price at the time of the sale and enter into a contract with the county as vendor and the purchaser as vendee. The contract must obligate and require the purchaser to pay the balance of the purchase price in ten equal annual installments commencing November 1st and each year following the date of the sale, and require the purchaser to pay twelve percent interest on all deferred payments, interest to be paid at the time the annual installment is due. The contract may contain a provision authorizing the purchaser to make payment in full at any time of any balance due on the total purchase price plus accrued interest on the balance. The contract must contain a provision requiring the purchaser to pay before delinquency all subsequent taxes and assessments that may be levied or assessed against the property subsequent to the date of the contract. The contract must contain a provision that time is of the essence of the contract, and that in the event of a failure of the vendee to make payments at the time and in the manner required and to keep and perform the covenants and conditions therein required of him or her, the contract may be forfeited and terminated at the election of the vendor, and that in event of the election all sums theretofore paid by the vendee will be forfeited as liquidated damages for failure to comply with the provisions of the contract. The contract must also require the vendor to execute and deliver to the vendee a deed of conveyance covering the property upon the payment in full of the purchase price, plus accrued interest.

(6) The county legislative authority may, by order entered in its records, direct that the coal, oil, gas, gravel, minerals, ores, timber, or other resources be sold apart from the land, such sale to be conducted in the manner hereinabove prescribed for the sale of the land. Any such reserved miner-

als or resources not exceeding two hundred dollars in value may be sold, when the county legislative authority deems it advisable, either with or without such publication of the notice of sale, and in such manner as the county legislative authority may determine will be most beneficial to the county. - 36.57A.222 Passenger-only ferry service districts—Authorized—Investment plan—Dissolution.
 36.57A.224 Passenger-only ferry service districts—Revenue.
 36.57A.226 Passenger-only ferry service districts—Issuance of bonds.

36.57A.222 Passenger-only ferry service districts—Authorized—Investment plan—Dissolution. (1) A governing body of a public transportation benefit area, located in a county that only borders the western side of Puget Sound with a population of more than two hundred thousand and contains one or more Washington state ferries terminals, may establish one or more passenger-only ferry service districts within all or a portion of the boundaries of the public transportation benefit area establishing the passenger-only ferry service district. A passenger-only ferry service district may include all or a portion of a city or town as long as all or a portion of the city or town boundaries are within the boundaries of the establishing public transportation benefit area. The members of the public transportation benefit area governing body proposing to establish the passenger-only ferry service district, acting ex officio and independently, constitutes the governing body of the passenger-only ferry service district.

(2) A passenger-only ferry service district may establish, finance, and provide passenger-only ferry service, and associated services to support and augment passenger-only ferry service operation, within its boundaries in the same manner as authorized for public transportation benefit areas under this chapter.

(3) A passenger-only ferry service district constitutes a body corporate and possesses all the usual powers of a corporation for public purposes as well as all other powers that may be conferred by statute including, but not limited to, the authority to hire employees, staff, and services, to enter into

contracts, to acquire, hold, and dispose of real and personal property, and to sue and be sued. Public works contract limits applicable to the public transportation benefit area that established the passenger-only ferry service district apply to the district. For purposes of this section, "passenger-only ferry service district" means a quasi-municipal corporation and independent taxing authority within the meaning of Article VII, section 1 of the state Constitution, and a taxing district within the meaning of Article VII, section 2 of the state Constitution, created by the legislative body of a public transportation benefit area.

(4) Before a passenger-only ferry service district may provide passenger-only ferry service, it must develop a passenger-only ferry investment plan, including elements: To operate or contract for the operation of passenger-only ferry services; to purchase, lease, or rent ferry vessels and dock facilities for the provision of transit service; and to identify other activities necessary to implement the plan. The plan must set forth terminal locations to be served, projected costs of providing services, and revenues to be generated from tolls, locally collected tax revenues, and other revenue sources. The plan must ensure that services provided under the plan are for the benefit of the residents of the passenger-only ferry service district. The passenger-only ferry service district may use any of its powers to carry out this purpose, unless otherwise prohibited by law. In addition, the passenger-only ferry service district may enter into: Contracts and agreements to operate passenger-only ferry service; public-private partnerships; and design-build, general contractor/construction management, or other alternative procurement processes substantially consistent with chapter 39.10 RCW.

(5) A passenger-only ferry service district may be dissolved by a majority vote of the governing body when all obligations under any general obligation bonds issued by the passenger-only ferry service district have been discharged and any other contractual obligations of the passenger-only ferry service district have either been discharged or assumed by another governmental entity. [2015 3rd sp.s. c 44 § 313.]

Effective date—2015 3rd sp.s. c 44: See note following RCW 46.68.395.

36.57A.224 Passenger-only ferry service districts—Revenue. (1) A passenger-only ferry service district may, as part of a passenger-only ferry investment plan, recommend some or all of the following revenue sources as provided in this chapter:

- (a) A sales and use tax, as authorized in RCW 82.14.445;
- (b) A parking tax, as authorized in RCW 82.80.035;
- (c) Tolls for passengers, packages, and, where applicable, parking; and
- (d) Charges or licensing fees for advertising, leasing space for services to ferry passengers, and other revenue generating activities.

(2) Taxes may not be imposed without an affirmative vote of the majority of the voters within the boundaries of the passenger-only ferry service district voting on a single ballot proposition to both approve a passenger-only ferry investment plan and to approve taxes to implement the plan. Revenues from these taxes and fees may be used only to implement the plan and must be used for the benefit of the residents

of the passenger-only ferry service district. A district must contract with the department of revenue for the administration and collection of a sales and use tax as authorized in RCW 82.14.445. A district may contract with other appropriate entities for the administration and collection of any of the other taxes or charges authorized in this section. [2015 3rd sp.s. c 44 § 314.]

(1) To carry out the purposes of this chapter, a passenger-only ferry service district may issue general obligation bonds, not to exceed an amount, together with any other outstanding nonvoter-approved general obligation indebtedness, equal to one and one-half percent of the value of the taxable property within the area, as the term "value of the taxable property" is defined in RCW 39.36.015. A passenger-only ferry service district may also issue general obligation bonds for capital purposes only, together with any outstanding general obligation indebtedness, not to exceed an amount equal to five percent of the value of the taxable property within the area, as the term "value of the taxable property" is defined in RCW 39.36.015, when authorized by the voters of the area pursuant to Article VIII, section 6 of the state Constitution.

(2) General obligation bonds with a maturity in excess of twenty-five years may not be issued. The governing body of the passenger-only ferry service district must by resolution determine for each general obligation bond issue the amount, date, terms, conditions, denominations, maximum fixed or variable interest rate or rates, maturity or maturities, redemption rights, registration privileges, manner of execution, manner of sale, callable provisions, if any, covenants, and form, including registration as to principal and interest, registration as to principal only, or bearer. Registration may include, but not be limited to: (a) A book entry system of recording the ownership of a bond whether or not physical bonds are issued, or (b) recording the ownership of a bond together with the requirement that the transfer of ownership may only be effected by the surrender of the old bond and either the reissuance of the old bond or the issuance of a new bond to the new owner. Facsimile signatures may be used on the bonds and any coupons. Refunding general obligation bonds may be issued in the same manner as general obligation bonds are issued.

(3) Whenever general obligation bonds are issued to fund specific projects or enterprises that generate revenues, charges, user fees, or special assessments, the passenger-only ferry service district may specifically pledge all or a portion of the revenues, charges, user fees, or special assessments to refund the general obligation bonds. The passenger-only ferry service district may also pledge any other revenues that may be available to the district.

(4) In addition to general obligation bonds, a passenger-only ferry service district may issue revenue bonds to be issued and sold in accordance with chapter 39.46 RCW. [2015 3rd sp.s. c 44 § 317.]

36.70A.070 Comprehensive plans—Mandatory elements. (*Effective September 1, 2016.*)

The comprehensive plan of a county or city that is required or chooses to plan under RCW 36.70A.040 shall consist of a map or maps, and descriptive text covering objectives, principles, and standards used to develop the comprehensive plan. The plan shall be an internally consistent document and all elements shall be consistent with the future land use map. A comprehensive plan shall be adopted and amended with public participation as provided in RCW 36.70A.140. Each comprehensive plan shall include a plan, scheme, or design for each of the following:

(1) A land use element designating the proposed general distribution and general location and extent of the uses of land, where appropriate, for agriculture, timber production, housing, commerce, industry, recreation, open spaces, general aviation airports, public utilities, public facilities, and other land uses. The land use element shall include population densities, building intensities, and estimates of future population growth. The land use element shall provide for protection of the quality and quantity of groundwater used for public water supplies. Wherever possible, the land use element should consider utilizing urban planning approaches that promote physical activity. Where applicable, the land use element shall review drainage, flooding, and storm water runoff in the area and nearby jurisdictions and provide guidance for corrective actions to mitigate or cleanse those discharges that pollute waters of the state, including Puget Sound or waters entering Puget Sound.

(2) A housing element ensuring the vitality and character of established residential neighborhoods that: (a) Includes an inventory and analysis of existing and projected housing needs that identifies the number of housing units necessary to manage projected growth; (b) includes a statement of goals, policies, objectives, and mandatory provisions for the preservation, improvement, and development of housing, including single-family residences; (c) identifies sufficient land for housing, including, but not limited to, government-assisted housing, housing for low-income families, manufactured housing, multifamily housing, and group homes and foster care facilities; and (d) makes adequate provisions for existing and projected needs of all economic segments of the community.

(3) A capital facilities plan element consisting of: (a) An inventory of existing capital facilities owned by public entities, showing the locations and capacities of the capital facilities; (b) a forecast of the future needs for such capital facilities; (c) the proposed locations and capacities of expanded or new capital facilities; (d) at least a six-year plan that will finance such capital facilities within projected funding capacities and clearly identifies sources of public money for such purposes; and (e) a requirement to reassess the land use ele-

ment if probable funding falls short of meeting existing needs and to ensure that the land use element, capital facilities plan element, and financing plan within the capital facilities plan element are coordinated and consistent. Park and recreation facilities shall be included in the capital facilities plan element.

(4) A utilities element consisting of the general location, proposed location, and capacity of all existing and proposed utilities, including, but not limited to, electrical lines, telecommunication lines, and natural gas lines.

(5) Rural element. Counties shall include a rural element including lands that are not designated for urban growth, agriculture, forest, or mineral resources. The following provisions shall apply to the rural element:

(a) Growth management act goals and local circumstances. Because circumstances vary from county to county, in establishing patterns of rural densities and uses, a county may consider local circumstances, but shall develop a written record explaining how the rural element harmonizes the planning goals in RCW 36.70A.020 and meets the requirements of this chapter.

(b) Rural development. The rural element shall permit rural development, forestry, and agriculture in rural areas. The rural element shall provide for a variety of rural densities, uses, essential public facilities, and rural governmental services needed to serve the permitted densities and uses. To achieve a variety of rural densities and uses, counties may provide for clustering, density transfer, design guidelines, conservation easements, and other innovative techniques that will accommodate appropriate rural densities and uses that are not characterized by urban growth and that are consistent with rural character.

(c) Measures governing rural development. The rural element shall include measures that apply to rural development and protect the rural character of the area, as established by the county, by:

(i) Containing or otherwise controlling rural development;

(ii) Assuring visual compatibility of rural development with the surrounding rural area;

(iii) Reducing the inappropriate conversion of undeveloped land into sprawling, low-density development in the rural area;

(iv) Protecting critical areas, as provided in RCW 36.70A.060, and surface water and groundwater resources; and

(v) Protecting against conflicts with the use of agricultural, forest, and mineral resource lands designated under RCW 36.70A.170.

(d) Limited areas of more intensive rural development. Subject to the requirements of this subsection and except as otherwise specifically provided in this subsection (5)(d), the rural element may allow for limited areas of more intensive rural development, including necessary public facilities and public services to serve the limited area as follows:

(i) Rural development consisting of the infill, development, or redevelopment of existing commercial, industrial, residential, or mixed-use areas, whether characterized as shoreline development, villages, hamlets, rural activity centers, or crossroads developments.

(A) A commercial, industrial, residential, shoreline, or mixed-use area are subject to the requirements of (d)(iv) of this subsection, but are not subject to the requirements of (c)(ii) and (iii) of this subsection.

(B) Any development or redevelopment other than an industrial area or an industrial use within a mixed-use area or an industrial area under this subsection (5)(d)(i) must be principally designed to serve the existing and projected rural population.

(C) Any development or redevelopment in terms of building size, scale, use, or intensity shall be consistent with the character of the existing areas. Development and redevelopment may include changes in use from vacant land or a previously existing use so long as the new use conforms to the requirements of this subsection (5);

(ii) The intensification of development on lots containing, or new development of, small-scale recreational or tourist uses, including commercial facilities to serve those recreational or tourist uses, that rely on a rural location and setting, but that do not include new residential development. A small-scale recreation or tourist use is not required to be principally designed to serve the existing and projected rural population. Public services and public facilities shall be limited to those necessary to serve the recreation or tourist use and shall be provided in a manner that does not permit low-density sprawl;

(iii) The intensification of development on lots containing isolated nonresidential uses or new development of isolated cottage industries and isolated small-scale businesses that are not principally designed to serve the existing and projected rural population and nonresidential uses, but do provide job opportunities for rural residents. Rural counties may allow the expansion of small-scale businesses as long as those small-scale businesses conform with the rural character of the area as defined by the local government according to RCW 36.70A.030(15). Rural counties may also allow new small-scale businesses to utilize a site previously occupied by an existing business as long as the new small-scale business conforms to the rural character of the area as defined by the local government according to RCW 36.70A.030(15). Public services and public facilities shall be limited to those necessary to serve the isolated nonresidential use and shall be provided in a manner that does not permit low-density sprawl;

(iv) A county shall adopt measures to minimize and contain the existing areas or uses of more intensive rural development, as appropriate, authorized under this subsection. Lands included in such existing areas or uses shall not extend beyond the logical outer boundary of the existing area or use, thereby allowing a new pattern of low-density sprawl. Existing areas are those that are clearly identifiable and contained and where there is a logical boundary delineated predominately by the built environment, but that may also include undeveloped lands if limited as provided in this subsection. The county shall establish the logical outer boundary of an area of more intensive rural development. In establishing the logical outer boundary, the county shall address (A) the need to preserve the character of existing natural neighborhoods and communities, (B) physical boundaries, such as bodies of water, streets and highways, and land forms and contours, (C) the prevention of abnormally irregular boundaries, and (D)

the ability to provide public facilities and public services in a manner that does not permit low-density sprawl;

(v) For purposes of (d) of this subsection, an existing area or existing use is one that was in existence:

(A) On July 1, 1990, in a county that was initially required to plan under all of the provisions of this chapter;

(B) On the date the county adopted a resolution under RCW 36.70A.040(2), in a county that is planning under all of the provisions of this chapter under RCW 36.70A.040(2); or

(C) On the date the office of financial management certifies the county's population as provided in RCW 36.70A.040(5), in a county that is planning under all of the provisions of this chapter pursuant to RCW 36.70A.040(5).

(e) Exception. This subsection shall not be interpreted to permit in the rural area a major industrial development or a master planned resort unless otherwise specifically permitted under RCW 36.70A.360 and 36.70A.365.

(6) A transportation element that implements, and is consistent with, the land use element.

(a) The transportation element shall include the following subelements:

(i) Land use assumptions used in estimating travel;

(ii) Estimated traffic impacts to state-owned transportation facilities resulting from land use assumptions to assist the department of transportation in monitoring the performance of state facilities, to plan improvements for the facilities, and to assess the impact of land-use decisions on state-owned transportation facilities;

(iii) Facilities and services needs, including:

(A) An inventory of air, water, and ground transportation facilities and services, including transit alignments and general aviation airport facilities, to define existing capital facilities and travel levels as a basis for future planning. This inventory must include state-owned transportation facilities within the city or county's jurisdictional boundaries;

(B) Level of service standards for all locally owned arterials and transit routes to serve as a gauge to judge performance of the system. These standards should be regionally coordinated;

(C) For state-owned transportation facilities, level of service standards for highways, as prescribed in chapters 47.06 and 47.80 RCW, to gauge the performance of the system. The purposes of reflecting level of service standards for state highways in the local comprehensive plan are to monitor the performance of the system, to evaluate improvement strategies, and to facilitate coordination between the county's or city's six-year street, road, or transit program and the office of financial management's ten-year investment program. The concurrency requirements of (b) of this subsection do not apply to transportation facilities and services of statewide significance except for counties consisting of islands whose only connection to the mainland are state highways or ferry routes. In these island counties, state highways and ferry route capacity must be a factor in meeting the concurrency requirements in (b) of this subsection;

(D) Specific actions and requirements for bringing into compliance locally owned transportation facilities or services that are below an established level of service standard;

(E) Forecasts of traffic for at least ten years based on the adopted land use plan to provide information on the location, timing, and capacity needs of future growth;

(F) Identification of state and local system needs to meet current and future demands. Identified needs on state-owned transportation facilities must be consistent with the statewide multimodal transportation plan required under chapter 47.06 RCW;

(iv) Finance, including:

(A) An analysis of funding capability to judge needs against probable funding resources;

(B) A multiyear financing plan based on the needs identified in the comprehensive plan, the appropriate parts of which shall serve as the basis for the six-year street, road, or transit program required by RCW 35.77.010 for cities, RCW 36.81.121 for counties, and RCW 35.58.2795 for public transportation systems. The multiyear financing plan should be coordinated with the ten-year investment program developed by the office of financial management as required by RCW 47.05.030;

(C) If probable funding falls short of meeting identified needs, a discussion of how additional funding will be raised, or how land use assumptions will be reassessed to ensure that level of service standards will be met;

(v) Intergovernmental coordination efforts, including an assessment of the impacts of the transportation plan and land use assumptions on the transportation systems of adjacent jurisdictions;

(vi) Demand-management strategies;

(vii) Pedestrian and bicycle component to include collaborative efforts to identify and designate planned improvements for pedestrian and bicycle facilities and corridors that address and encourage enhanced community access and promote healthy lifestyles.

(b) After adoption of the comprehensive plan by jurisdictions required to plan or who choose to plan under RCW 36.70A.040, local jurisdictions must adopt and enforce ordinances which prohibit development approval if the development causes the level of service on a locally owned transportation facility to decline below the standards adopted in the transportation element of the comprehensive plan, unless transportation improvements or strategies to accommodate the impacts of development are made concurrent with the development. These strategies may include increased public transportation service, ride sharing programs, demand management, and other transportation systems management strategies. For the purposes of this subsection (6), "concurrent with the development" means that improvements or strategies are in place at the time of development, or that a financial commitment is in place to complete the improvements or strategies within six years. If the collection of impact fees is delayed under RCW 82.02.050(3), the six-year period required by this subsection (6)(b) must begin after full payment of all impact fees is due to the county or city.

(c) The transportation element described in this subsection (6), the six-year plans required by RCW 35.77.010 for cities, RCW 36.81.121 for counties, and RCW 35.58.2795 for public transportation systems, and the ten-year investment program required by RCW 47.05.030 for the state, must be consistent.

(7) An economic development element establishing local goals, policies, objectives, and provisions for economic growth and vitality and a high quality of life. The element shall include: (a) A summary of the local economy such as

population, employment, payroll, sectors, businesses, sales, and other information as appropriate; (b) a summary of the strengths and weaknesses of the local economy defined as the commercial and industrial sectors and supporting factors such as land use, transportation, utilities, education, workforce, housing, and natural/cultural resources; and (c) an identification of policies, programs, and projects to foster economic growth and development and to address future needs. A city that has chosen to be a residential community is exempt from the economic development element requirement of this subsection.

(8) A park and recreation element that implements, and is consistent with, the capital facilities plan element as it relates to park and recreation facilities. The element shall include: (a) Estimates of park and recreation demand for at least a ten-year period; (b) an evaluation of facilities and service needs; and (c) an evaluation of intergovernmental coordination opportunities to provide regional approaches for meeting park and recreational demand.

(9) It is the intent that new or amended elements required after January 1, 2002, be adopted concurrent with the scheduled update provided in RCW 36.70A.130. Requirements to incorporate any such new or amended elements shall be null and void until funds sufficient to cover applicable local government costs are appropriated and distributed by the state at least two years before local government must update comprehensive plans as required in RCW 36.70A.130. (c)(i) A district solely comprised of a city or cities may not impose the fees or charges identified in (a) of this subsection within one hundred eighty days after July 22, 2007, unless the county in which the city or cities reside, by resolution, declares that it will not impose the fees or charges identified in (a) of this subsection within the one hundred eighty-day period; or

(ii) A district solely comprised of a city or cities identified in RCW 36.73.020(6)(b) may not impose the fees or charges until after May 22, 2008, unless the county in which the city or cities reside, by resolution, declares that it will not impose the fees or charges identified in (a) of this subsection through May 22, 2008.

(5) If the interlocal agreement in RCW 82.80.140(2)(a) cannot be reached, a district that includes only the unincorporated territory of a county may impose by a majority vote of the governing body of the district up to: (a) Twenty dollars of the vehicle fee authorized in RCW 82.80.140, (b) forty dollars of the vehicle fee authorized in RCW 82.80.140 if a fee of twenty dollars has been imposed for at least twenty-four months, or (c) fifty dollars of the vehicle fee authorized in RCW 82.80.140 if a vehicle fee of forty dollars has been imposed for at least twenty-four months and a district has met the requirements of subsection (6) of this section.

(6) If a district intends to impose a vehicle fee of more than forty dollars by a majority vote of the governing body of the district, the governing body must publish notice of this intention, in one or more newspapers of general circulation

within the district, by April 1st of the year in which the vehicle fee is to be imposed. If within ninety days of the date of publication a petition is filed with the county auditor containing the signatures of eight percent of the number of voters registered and voting in the district for the office of the governor at the last preceding gubernatorial election, the county auditor must canvass the signatures in the same manner as prescribed in RCW 29A.72.230 and certify their sufficiency to the governing body within two weeks. The proposition to impose the vehicle fee must then be submitted to the voters of the district at a special election, called for this purpose, no later than the date on which a primary election would be held under RCW 29A.04.311. The vehicle fee may then be imposed only if approved by a majority of the voters of the district voting on the proposition. Chapter 36.79 RCW ROADS AND BRIDGES— RURAL ARTERIAL PROGRAM

Sections

36.79.140 Expenditures from rural arterial trust account—Approval by board.

36.79.140 Expenditures from rural arterial trust account—Approval by board. At the time the board reviews the six-year program of each county each even-num-

bered year, it shall consider and shall approve for inclusion in its recommended budget, as required by RCW 36.79.130, the portion of the rural arterial construction program scheduled to be performed during the biennial period beginning the following July 1st. Subject to the appropriations actually approved by the legislature, the board shall as soon as feasible approve rural arterial trust account funds to be spent during the ensuing biennium for preliminary proposals in priority sequence as established pursuant to RCW 36.79.090. Only those counties that during the preceding twelve months have spent all revenues collected for road purposes only for such purposes, including removal of barriers to fish passage and accompanying streambed and stream bank repair as specified in RCW 36.82.070, and including traffic law enforcement, as are allowed to the state by Article II, section 40 of the state Constitution or RCW 36.82.070(2) are eligible to receive funds from the rural arterial trust account, except that: (1) Counties with a population of less than eight thousand are exempt from this eligibility restriction; (2) counties expending revenues collected for road purposes only on other governmental services after authorization from the voters of that county under RCW 84.55.050 are also exempt from this eligibility restriction; and (3) this restriction shall not apply to any moneys diverted from the road district levy under chapter 39.89 RCW. The board shall authorize rural arterial trust account funds for the construction project portion of a project previously authorized for a preliminary proposal in the sequence in which the preliminary proposal has been completed and the construction project is to be placed under contract. At such time the board may reserve rural arterial trust account funds for expenditure in future years as may be necessary for completion of preliminary proposals and construction projects to be commenced in the ensuing biennium.

The board may, within the constraints of available rural arterial trust funds, consider additional projects for authorization upon a clear and conclusive showing by the submitting county that the proposed project is of an emergent nature and that its need was unable to be anticipated at the time the six-year program of the county was developed. The proposed projects shall be evaluated on the basis of the priority rating factors specified in RCW 36.79.080. [2015 c 223 § 2. Prior: 2001 c 221 § 2; 2001 c 212 § 26; 1997 c 81 § 6; 1991 c 363 § 84; 1990 c 42 § 104; 1984 c 113 § 1; 1983 1st ex.s. c 49 § 14.]

Purpose—Intent—2001 c 221: "The legislature recognizes that projects that remove impediments to fish passage can greatly increase access to spawning and rearing habitat for depressed, threatened, and endangered fish stocks. Although counties are authorized to use county road funds to replace culverts and other barriers to fish passage, and may conduct streambed and stream bank restoration and stabilization work in conjunction with removal of these fish barriers, counties are reluctant to spend county road funds beyond the county right-of-way because it is unclear whether the use of road funds for this purpose is authorized. The purpose of this act is to clarify that streambed and stream bank restoration and stabilization activities conducted in conjunction with removal of existing barriers to fish passage within county rights-of-way constitute a county road purpose even if this work extends beyond the county right-of-way. The legislature intends this act to be permissive legislation. Nothing in this act is intended to create or impose a legal duty upon counties for salmon recovery work beyond the county right-of-way." 36.82.070 Purpose for which road fund can be used.

36.82.070 Purpose for which road fund can be used.

(1) Any money paid to any county road fund may be used for the construction, alteration, repair, improvement, or maintenance of county roads and bridges thereon and for wharves necessary for ferriage of motor vehicle traffic, and for ferries, and for the acquiring, operating, and maintaining of machinery, equipment, quarries, or pits for the extraction of materials, and for the cost of establishing county roads, acquiring rights-of-way therefor, and expenses for the operation of the county engineering office, and for any of the following programs when directly related to county road purposes: (a) Insurance; (b) self-insurance programs; and (c) risk management programs; and for any other proper county road purpose. Such expenditure may be made either independently or in conjunction with the state or any city, town, or tax district within the county. County road purposes include the construction, maintenance, or improvement of park and ride lots. County road purposes also include the removal of barriers to fish passage related to county roads, and include, but are not limited to, the following activities associated with the removal of these barriers: Engineering and technical services; stream bank stabilization; streambed restoration; the placement of weirs, rock, or woody debris; planting; and channel modification. County road funds may be used beyond the county right-of-way for activities clearly associated with removal of fish passage barriers that are the responsibility of the county. Activities related to the removal of barriers to fish passage performed beyond the county right-of-way must not exceed twenty-five percent of the total cost of activities related to fish barrier removal on any one project, and the total annual cost of activities related to the removal of barriers to fish passage performed beyond the county rights-of-way must not exceed one-half of one percent of a county's annual road construction budget. The use of county road funds beyond the county right-of-way for activities associated with the removal of fish barriers is permissive, and wholly within the discretion of the county legislative authority. The use of county road funds beyond the county right-of-way for such activities does not create or impose a legal duty upon a county for salmon recovery work beyond the county right-of-way.

(2) For counties that consist entirely of islands, county road purposes also include marine uses relating to navigation and moorage. Such a county may deposit revenue collected under RCW 84.52.043 and 36.82.040, in the amount or percentage determined by the county, into a subaccount within the county road fund to be used for marine facilities, including mooring buoys, docks, and aids to navigation. 36.94.150 Lien for delinquent charges. (1) All counties operating a system of sewerage and/or water shall have a lien for delinquent connection charges and charges for the availability of sewerage and/or water service, together with interest fixed by resolution at eight percent per annum from the date due until paid. Penalties of not more than ten percent of the amount due may be imposed in case of failure to pay the charges at times fixed by resolution. The lien shall be for all charges, interest, penalties, and lien recording and release fees, and shall attach to the premises to which the services were available. The lien shall be superior to all other liens and encumbrances, except general taxes and local and special assessments of the county.

(2) The county department established in RCW 36.94.120 shall certify periodically the delinquencies to the auditor of the county at which time the lien shall attach.

(3) In lieu of the procedure provided in subsection (2) of this section, a county may, by resolution or ordinance, adopt the alternative procedure applicable to cities and towns set forth in RCW 35.67.210, 35.67.215, and 35.67.290.

(4) Upon the expiration of sixty days after the attachment of the lien, the county may bring suit in foreclosure by civil action in the superior court of the county where the property is located. Costs associated with the foreclosure of the lien, including but not limited to advertising, title report, and personnel costs, shall be added to the lien upon filing of the foreclosure action. In addition to the costs and disbursements provided by statute, the court may allow the county a reasonable attorney's fee. The lien shall be foreclosed in the same manner as the foreclosure of real property tax liens. [2015 c 41 § 1; 1997 c 393 § 9; 1975 1st ex.s. c 188 § 3; 1967 c 72 § 15.]

PUBLIC FACILITIES DISTRICTS

36.100.190 Purchases and sales—Procedures.

36.100.040 Lodging tax authorized—Annual payment amount—Payment of obligations—Application of other tax provisions. (1) A public facilities district may impose an excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises having fewer than forty lodging units. Except for any tax imposed under subsection (4) or (5) of this section, if a public facilities district has not imposed such an excise tax prior to December 31, 1995, the public facilities district may only impose the excise tax if a ballot proposition authorizing the imposition of the tax has been approved by a simple majority vote of voters of the public facilities district voting on the proposition.

[2015 RCW Supp—page 430]

(2) The rate of the tax may not exceed two percent and the proceeds of the tax may only be used for the acquisition, design, construction, remodeling, maintenance, equipping, reequipping, repairing, and operation of its public facilities. This excise tax may not be imposed until the district has approved the proposal to acquire, design, and construct the public facilities.

(3) Except for a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center, a public facilities district may not impose the tax authorized in this section if, after the tax authorized in this section was imposed, the effective combined rate of state and local excise taxes, including sales and use taxes and excise taxes on lodging, imposed on the sale of or charge made for furnishing of lodging in any jurisdiction in the public facilities district exceeds eleven and one-half percent.

(4) To replace the tax authorized by *RCW 67.40.090, a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center may impose an excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises: (a) Having fewer than sixty lodging units; or (b) classified as a hostel. The rate of the tax may not exceed seven percent within the portion of the district that corresponds to the boundaries of the largest city within the public facilities district and may not exceed 2.8 percent in the remainder of the district. The tax imposed under this subsection (4) may not be collected prior to the transfer date defined in RCW 36.100.230.

(5) To replace the tax authorized by *RCW 67.40.130, a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center may impose an additional excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises: (a) Having fewer than sixty lodging units; or (b) classified as a hostel. The rate of the additional excise tax may not exceed two percent and may be imposed only within the portion of the district that corresponds to the boundaries of the largest city within the public facilities district and may not be imposed in the remainder of the district. The tax imposed under this subsection (5) may not be collected prior to the transfer date specified in RCW 36.100.230. The tax imposed under this subsection (5) must be credited against the amount of the tax otherwise due to the state from those same taxpayers under chapter 82.08 RCW. The tax under this subsection (5) may be imposed only for the purpose of paying or securing the payment of the principal of and interest on obligations issued or incurred by the public facilities district and paying annual payment amounts to the state under subsection (6)(a) of this section. The authority to impose the additional excise tax under this subsection (5) expires on the date that is the earlier of (a)[(i)] July 1, 2029, or (b)[(ii)] the date on which all obligations issued or incurred by the public facilities district to implement any redemption,

prepayment, or legal defeasance of outstanding obligations under RCW 36.100.230(3)(a) are no longer outstanding.

(6)(a) Commencing with the first full fiscal year of the state after the transfer date defined in RCW 36.100.230 and for so long as a public facilities district imposes a tax under subsection (5) of this section, the public facilities district must transfer to the state of Washington on June 30th of each state fiscal year an annual payment amount.

(b) For the purposes of this subsection (6), "annual payment amount" means an amount equal to revenues received by the public facilities district in the fiscal year from the additional excise tax imposed under subsection (5) of this section plus an interest charge calculated on one-half the annual payment amount times an interest rate equal to the average annual rate of return for the prior calendar year in the Washington state local government investment pool created in chapter 43.250 RCW.

(c)(i) If the public facilities district in any fiscal year is required to apply additional lodging excise tax revenues to the payment of principal and interest on obligations it issues or incurs, and the public facilities district is unable to pay all or any portion of the annual payment amount to the state, the deficiency is deemed to be a loan from the state to the public facilities district for the purpose of assisting the district in paying such principal and interest and must be repaid by the public facilities district to the state after providing for the payment of the principal of and interest on obligations issued or incurred by the public facilities district, all on terms established by an agreement between the state treasurer and the public facilities district executed prior to the transfer date. Any agreement between the state treasurer and the public facilities district must specify the term for the repayment of the deficiency in the annual payment amount with an interest rate equal to the twenty bond general obligation bond buyer index plus one percentage point.

(ii) Outstanding obligations to repay any loans deemed to have been made to the public facilities district as provided in any such agreements between the state treasurer and the public facilities district survive the expiration of the additional excise tax under subsection (5) of this section.

(iii) For the purposes of this subsection (6)(c), "additional lodging excise tax revenues" mean the tax revenues received by the public facilities district under subsection (5) of this section.

(7) A public facilities district is authorized to pledge any of its revenues, including without limitation revenues from the taxes authorized in this section, to pay or secure the payment of obligations issued or incurred by the public facilities district, subject to the terms established by the board of directors of the public facilities district. So long as a pledge of the taxes authorized under this section is in effect, the legislature may not withdraw or modify the authority to levy and collect the taxes at the rates permitted under this section and may not increase the annual payment amount to be transferred to the state under subsection (6) of this section.

(8) The department of revenue must perform the collection of such taxes on behalf of the public facilities district at no cost to the district, and the state treasurer must distribute those taxes as available on a monthly basis to the district or, upon the direction of the district, to a fiscal agent, paying

agent, or trustee for obligations issued or incurred by the district.

(9) Except as expressly provided in this chapter, all of the provisions contained in RCW 82.08.050 and 82.08.060 and chapter 82.32 RCW have full force and application with respect to taxes imposed under the provisions of this section.

(10) In determining the effective combined rate of tax for purposes of the limit in subsection (3) of this section, the tax rate under RCW 82.14.530 is not included.

(11) The taxes imposed in this section do not apply to sales of temporary medical housing exempt under RCW 82.08.997.

(12)(a) For the purposes of this section, "hostel" means a structure or facility where a majority of the rooms for sleeping accommodations are hostel dormitories containing a minimum of four standard beds designed for single-person occupancy within the facility. Hostel accommodations are supervised and must include at least one common area and at least one common kitchen for guest use.

(b) For the purpose of this subsection, "hostel dormitory" means a single room, containing four or more standard beds designed for single-person occupancy, used exclusively as nonprivate communal sleeping quarters, generally for unrelated persons, where such persons independently acquire the right to occupy individual beds, with the operator supervising and determining which bed each person will occupy. However, the election of the initial community councilmembers shall be null and void if the ballot proposition

authorizing the creation of the community council is not approved.

No primary election shall be held to nominate candidates for initial council positions. The initial community council shall consist of the candidate for each council position who receives the greatest number of votes for that council position. Staggering of terms of office shall be accomplished by having the majority of the winning candidates who receive the greatest number of votes being elected to four-year terms of office, and the remaining winning candidates being elected to two-year terms of office, if the election was held in an even-numbered year, or the majority of the winning candidates who receive the greatest number of votes being elected to three-year terms of office, and the remaining winning candidates being elected to one-year terms of office, if the election was held in an odd-numbered year, with the term computed from the first day of January in the year following the election. Initial councilmembers shall take office immediately when qualified in accordance with RCW 29A.04.133.

However, where the county operates under a charter providing for the election of members of the county legislative authority in odd-numbered years, the terms of office of the initial councilmembers shall be four years and two years, if the election of the initial councilmembers was held on an odd-numbered year, or three years and one year, if the election of the initial councilmembers was held on an even-numbered year. 36.160.010 Findings—Intent. (1) The legislature finds that:

(a) Many Washington cities and counties and their residents are experiencing the lingering effects of the recession. While there are many residents who have been able to successfully weather the economic downturn, unfortunately there are still individuals, families, and valued community organizations who have not. Local governments also have not been immune to this situation. Local government revenues have continued to lag behind economic growth, leaving local communities unable to make adequate and necessary investments in infrastructure and services their residents rely on and benefit from. Additional fiscal tools that provide funding for facilities, services, housing, and programs benefiting vulnerable populations as well as cultural organizations will

enable local communities and their residents to choose to invest in their local institutional and human infrastructure to the benefit of the public.

(b) There is a demonstrated need for facilities and services in the community to help people with mental illness, individuals with developmental disabilities, and other vulnerable populations, including foster children, homeless families, veterans, and others in critical need. The need includes, but is not limited to, funding for mental health services, evaluation and treatment facilities, housing, and other projects and services for those in need.

(c) There is also a need to provide public and educational benefits and economic support for cultural organizations. Providing local support for the state's cultural organizations is in the public interest and will serve multiple public purposes including, among others, enhancing and extending the education reach and offerings of cultural organizations; ensuring continued and expanded access to the facilities and programs of cultural organizations by economically and geographically underserved populations; and providing financial stability to the organizations to continue and extend the numerous public benefits they provide.

(2) It is the intent of the legislature to provide local governments and the communities they serve the fiscal tools needed to provide these important services. [2015 3rd sp.s. c 24 § 101.]

36.160.020 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Administrative costs" means all operating, administrative, and maintenance expenses for a program, a designated public agency, or a designated entity.

(2) "Attendance" means the total number of visits by persons in physical attendance during a year at cultural organization facilities located or cultural organization programs provided within the county creating a program, including attendance for which admission was paid, discounted, or free, consistent with and verifiable under guidelines adopted by the appropriate program.

(3) "Cultural organization" means a nonprofit corporation incorporated under the laws of the state of Washington and recognized by the internal revenue service as described in section 501(c)(3) of the internal revenue code of 1986, as amended, with its principal location or locations and conducting a majority of its activities within the state, not including: Any agency of the state or any of its political subdivisions; any municipal corporation; any organization that raises funds for redistribution to multiple cultural organizations; or any radio or television broadcasting network or station, cable communications system, internet-based communications venture or service, newspaper, or magazine. The primary purpose of the organization must be the advancement and preservation of science or technology, the visual or performing arts, zoology, botany, anthropology, heritage, or natural history and any organization must directly provide programming or experiences available to the general public. Any organization with the primary purpose of advancing and preserving zoology such as zoos and aquariums must be or sup-

port a facility that is accredited by the association of zoos and aquariums or its functional successor. A state-related cultural organization may be a cultural organization.

(4) "Designated entity" means the entity designated by the legislative authority of a county creating the program, as required under RCW 36.160.110(1)(d). The entity may be a public agency, including the state arts commission established under chapter 43.46 RCW, or a Washington nonprofit corporation that is not a cultural organization eligible for funding under this chapter.

(5) "Designated public agency" means the public agency designated by the legislative authority of a county creating the program, as required under RCW 36.160.110(2)(h).

(6) "Program" means a cultural access program established by a county by ordinance.

(7) "Revenues" means revenues from all sources generated by a cultural organization, consistent with generally accepted accounting practices and any program guidelines, excluding: (a) Revenues associated with capital projects other than major maintenance projects including, but not limited to, capital campaign expenses; (b) funds provided under this chapter; (c) revenue that would be considered unrelated business taxable income under the internal revenue code of 1986, as amended; and (d) with respect to a state-related cultural organization, state funding received by it or for the institution it supports. Revenues include transfers from an organization's endowment or reserves and may include the value of in-kind goods and services to the extent permitted under any program guidelines.

(8) "State-related cultural organization" means an organization incorporated as a nonprofit corporation under the laws of the state of Washington and recognized by the internal revenue service as described in section 501(c)(3) of the internal revenue code of 1986, as amended, with a primary purpose and directly providing programming or experiences available to the general public consistent with the requirements for recognition as a cultural organization under this chapter operating in a facility owned and supported by the state, a state agency, or state educational institution. 36.160.030 Cultural access program—Creation. (1) Any county legislative authority may create a cultural access program by ordinance.

(2) Any contiguous group of counties may create a program by entering into an interlocal agreement under chapter 39.34 RCW, approved by resolution of the county legislative authorities.

(3) A city may create a cultural access program if the county legislative authority in which the city is located adopts a resolution stating that the county forfeits its option to create a program or does not place a proposition before the people to create such a program by June 30, 2017. In the event the exception in this subsection occurs, all references in this chapter to a county must include a city that has exercised its authority under this subsection, unless the context clearly requires otherwise. [2015 3rd sp.s. c 24 § 301.]

Construction—2015 3rd sp.s. c 24: "The provisions of this act must be liberally construed to effectuate the policies and purposes of this act." [2015 3rd sp.s. c 24 § 804.]

36.160.040 Cultural access program—Start-up funding and conditional formation. (1) The county creating a program may advance to the program funding for its administrative costs, including the cost of informing the public about the formation of the program, how it is proposed to be funded, and the public benefits to be realized if it is successful. However, this subsection does not authorize the preparation and distribution of information to the general public for the purpose of influencing the outcome of any election called for voter authorization of a proposed tax to support a program.

(2) The county creating a program may provide for repayment of any start-up funding advanced to a program from the proceeds of taxes authorized under RCW 36.160.080, 82.14.525, and 84.52.821 and approved by voters after the taxes are first collected. The funds may be repaid to such county with interest at the internal rate of return on the invested funds of such county. [2015 3rd sp.s. c 24 § 302.]

Construction—2015 3rd sp.s. c 24: See note following RCW 36.160.030.

36.160.050 Cultural access program—Nonsupplantation. In creating a program under this chapter, any county creating the program must affirm that any funding such county usually and customarily provides to cultural organizations similar to funding that would be available to those organizations under this chapter may not be replaced or materially diminished as a result of funding becoming available under this chapter. If an organization designated to receive funds under this chapter is a state-related cultural organization, the funds received under this chapter may not replace or materially diminish any funding usually or customarily provided by the state. [2015 3rd sp.s. c 24 § 303.]

Construction—2015 3rd sp.s. c 24: See note following RCW 36.160.030.

36.160.060 Cultural access program—Advisory councils. Each county creating a program under this chapter may establish an advisory council, the membership of which must include citizen representatives of constituencies and organizations with interests relevant to the work of the program including, but not limited to, leaders in the business, educational, and cultural communities. Advisory council members should be residents of the county creating the program. Policies concerning the size and operation of any advisory council must be established by the county that creates the program. [2015 3rd sp.s. c 24 § 304.]

Construction—2015 3rd sp.s. c 24: See note following RCW 36.160.030.

36.160.070 Cultural access program—Alternative administrative arrangements. A county with a population of less than one million five hundred thousand may contract with the state arts commission formed under for the provision of consulting, management, or other administrative services to be provided to its program created under this chapter. Any county creating a program may elect to consolidate

administration of such a program with that of the entity or public agency designated by the county creating such a program to perform the functions required under RCW 36.160.110. [2015 3rd sp.s. c 24 § 305.]

Construction—2015 3rd sp.s. c 24: See note following RCW 36.160.030.

36.160.080 Funding—Local tax authority. (1)(a)

Except as provided in (b) of this section, a county creating a program under this chapter may impose sales and use taxes under RCW 82.14.525 or additional regular property tax levies under RCW 84.52.821 for the purposes authorized under this chapter.

(b) A county with a population of one million five hundred thousand or more may not impose additional regular property tax levies under RCW 84.52.821.

(2) If a county imposes sales and use taxes under RCW 82.14.525, the county may not impose an additional regular property tax levy under RCW 84.52.821 so long as such sales and use taxes are in effect.

(3) If a county imposes an additional regular property tax levy under RCW 84.52.821, the county may not impose sales and use taxes under RCW 82.14.525 so long as such property tax levy is in effect.

(4) All revenue from taxes imposed under this chapter must be credited to a special fund in the treasury of the county imposing such tax and used solely for the purpose of paying all or any part of the cost of cultural access programs as provided in this chapter. [2015 3rd sp.s. c 24 § 401.]

Construction—2015 3rd sp.s. c 24: See note following RCW 36.160.030.

36.160.090 Public benefits. (1) A program created

under this chapter must provide or continue to provide funding authorized under this chapter only to cultural organizations that provide discernible public benefits. Each program created under this chapter must identify a range of public benefits that cultural organizations may provide or continue to provide in satisfaction of this requirement for eligibility to receive funding authorized under this chapter. The public benefits include, without limitation: Reasonable opportunities for access to facilities, programs, and services on a reduced or no admission fee basis, particularly for diverse and underserved populations and communities; providing, through technological and other means, services or programs in locations other than an organization's own facilities; providing educational programs and experiences both at an organization's own facilities and in schools and other venues; broadening cultural programs, performances, and exhibitions for the enlightenment and entertainment of the public; supporting collaborative relationships with other cultural organizations in order to extend the reach and impact of the collaborating organizations for the benefit of the public; and, in the case of community-based cultural organizations, organizational capacity-building projects or activities that an organization can demonstrate, to the reasonable satisfaction of the designated entity, will enhance the ability of the organization to provide or continue to provide meaningful public benefits not otherwise achievable.

(2) Each program created under this chapter must adopt guidelines establishing a baseline standard of continuous per-

[2015 RCW Supp—page 434]

formance with respect to the provision of public benefits required under this chapter and for evaluating the eligibility of any cultural organization to receive funds under this chapter based on the continuous performance of the organization in the provision of the public benefits. The guidelines must include: (a) Procedures for notifying any organization at risk of losing its eligibility to receive funds under this chapter for failure to achieve the program's baseline standard of performance with respect to the continuous provision of public benefits; and (b) measures or procedures available to the organization for either retaining or recovering eligibility, as appropriate. [2015 3rd sp.s. c 24 § 501.]

Construction—2015 3rd sp.s. c 24: See note following RCW 36.160.030.

36.160.100 Public school cultural access program.

(1) A program created under this chapter must develop and provide a public school cultural access program, as provided in RCW 36.160.110.

(2) To the extent practicable consistent with available resources, the public school cultural access element of a program of a county described in RCW 36.160.110(2) must include the following attributes:

(a) Provide benefits designed to increase public school student access to the programming offered and facilities operated by regional and community-based cultural organizations receiving funding under this chapter, giving priority to the activities in the order described in (c) of this subsection;

(b) Offer benefits to every public school in the county while scaling the range of benefits available to and the frequency of opportunities to participate by any particular school to coincide with the relative percentage of students attending the school who participate in the national free or reduced-price school meals program;

(c) Benefits provided under the public school cultural access program must include, without limitation:

(i) Providing directly or otherwise funding and arranging for transportation for all public school students at participating schools to attend and participate annually in the age-appropriate programs and activities offered by such organizations;

(ii) Should funding available under this program for student transportation be inadequate in any one year due to more demand for student transportation than can be funded, increasing the subsequent annual percentage allocation to the public school cultural access program up to two percent so as to provide sufficient funds to ensure adequate funding of student transportation;

(iii) Establishing and operating, within funding provided to support the public school cultural access program under this subsection, of a centralized service available to regional and community-based cultural organizations receiving funding under this chapter and public schools in the county to coordinate opportunities for public school student access to the programs and activities offered by the organizations both at the facilities and venues operated by the organizations and through programs and experiences provided by the organizations at schools and elsewhere;

(iv) In consultation with cultural organizations located within the county, preparing and maintaining a readily acces-

sible and current guide cataloging access opportunities and facilitating scheduling;

(v) Coordinating closely with cultural organizations to maximize student utilization of available opportunities in a cost-efficient manner including possible scheduling on a single day opportunities for different grade levels at any one school and participation in multiple programs or activities in the same general area for which program-funded transportation is provided;

(vi) Supporting the development of tools, materials, and media by cultural organizations to ensure that school access programs and activities correlate with school curricula and extend the reach of access programs and activities for classroom use with or without direct on-site participation, to the extent practicable;

(vii) Building meaningful partnerships with public schools and cultural organizations in order to maximize participation in school access programs and activities and ensure their relevance and effectiveness;

(d) When a program determines that its program element required under (c)(i) through (vii) of this subsection has achieved sufficient scale and participation among public schools located within its boundaries and that it has resources remaining to devote to additional public school cultural access programs without diminishing such participation, the county may develop and financially support other public school cultural access activities in conjunction with cultural organizations receiving funds under this chapter; public school districts; and other public or nonprofit organizations that support cultural access. Any funding for development and support of such activities provided to cultural organizations receiving funds under this subsection must only be used to supplement the public benefits provided by such organizations as required under this chapter and may not be used by such organizations to replace or diminish funding for such required public benefits;

(e) Preparation of an annual public school cultural access plan for review and adoption prior to implementation; and

(f) Compilation of an annual report documenting the reach and evaluating the effectiveness of program-funded public school cultural access efforts, including information about the numbers and types of students who participated in the program and recommendations to the county for improvements. [2015 3rd sp.s. c 24 § 502.]

Construction—2015 3rd sp.s. c 24: See note following RCW 36.160.030.

36.160.110 Use of funds—Allocation. (1) A program in a county with a population of less than one million five hundred thousand must allocate the proceeds of taxes authorized under RCW 82.14.525 and 84.52.821 as follows:

(a) If any start-up funding has been provided to the program under RCW 36.160.040 with the expectation that the funding will be repaid, the program must annually reserve from total funds available funding sufficient to provide for repayment of such start-up funding until any such start-up funding has been fully repaid;

(b) The funding determined by the county forming such a program to be reserved for program costs, including direct administrative costs, and repaying any start-up funding provided under RCW 36.160.040. Information disclosing the

amount of funding to be reserved for program administrative costs must be included in any proposition submitted to voters under RCW 82.14.525 or 84.52.821;

(c) The county must determine the percentage of total funds available annually to be reserved for a public school cultural access program established and managed by the county to increase access to cultural activities and programming for public school students resident in the county. The activities and programming need not be located or provided within the county. In developing its program, the county may consider the attributes prescribed for a public school cultural access program required to be undertaken under RCW 36.160.100(2) and may also consider providing funding for music and arts education in public schools that is in addition to that provided for in the program of basic education funding;

(d) Remaining funds available annually, including all funds not initially reserved under (a), (b), and (c) of this subsection as well as funds not distributed by the county from the reserved funds must be distributed by the county to the entity designated by the legislative authority of the county creating the program. The county must determine:

(i) Guidelines, consistent with the requirements of this chapter, it deems necessary or appropriate for determining the eligibility of cultural organizations to receive funding under this chapter;

(ii) Criteria for the award of funds to eligible cultural organizations, including the public benefits to be derived from projects submitted for funding;

(iii) The amount of funding to be allocated to support designated entity administrative costs;

(iv) Criteria for the identification by the county or, if so directed by the county, by the designated entity of any cultural organization or organizations that would receive annual distributions of funds in such amounts determined by the county or, if so directed by the county, the designated entity; and

(v) Procedures to be used by the designated entity in awarding funding to other cultural organizations that may, but are not required to include a periodic competitive process for awarding funds for particular purposes or projects proposed by eligible cultural organizations;

(e) In evaluating requests for funding authorized under this chapter, the designated entity responsible for the distribution of the funds must consider the public benefits that any cultural organizations represented will be derived from proposed projects. At the conclusion of a project approved for funding, such organization is required to report to the designated entity on the public benefits realized;

(f) Funds distributed to cultural organizations may be used to support cultural and educational activities, programs, and initiatives; public benefits and communications; and basic operations. Funds may also be used for: (i) Capital expenditures or acquisitions including, but not limited to, the acquisition of or construction of improvements to real property; and (ii) technology, equipment, and supplies reasonably related to or necessary for a project otherwise eligible for funding under this chapter. Program guidelines may also determine the circumstances under which funds may be used to fund start-up expenses of new community-based cultural organizations;

(g) If the county or designated entity determine the eligibility of a cultural organization to receive funding or the relative magnitude of the funding it receives on the basis of its budget, revenues, or expenses, any determination with respect to a qualifying state-related cultural organization must exclude any state funding received by the organization or for the institution it supports.

(2) A county with a population of more than one million five hundred thousand must allocate the proceeds of the taxes authorized under RCW 82.14.525 as follows:

(a) If any start-up funding has been provided to the program under RCW 36.160.040 with the expectation that the funding will be repaid, the program must annually reserve from total funds available annually funding sufficient to provide for repayment of such start-up funding until any such start-up funding has been fully repaid;

(b) After allocating any funds as required in (a) of this subsection, up to one and one-fourth percent of total funds available annually may be used for program administrative costs;

(c) After allocating funds as required in (a) and (b) of this subsection, ten percent of remaining funds available annually must be used to fund a public school cultural access program to be administered by the program, subject to RCW 36.160.100(2);

(d) Seventy percent of total remaining funds available annually excluding funds initially reserved under (a), (b), and (c) of this subsection must be reserved for distribution by the program to regional cultural organizations that are cultural organizations that own, operate, or support cultural facilities or provide performances, exhibits, educational programs, experiences, or entertainment that widely benefit and are broadly attended by the public, subject to further definition under guidelines adopted by the program. A regional cultural organization may also generally be characterized under program guidelines as a financially stable, substantial organization with full-time support and program staff, maintaining a broad-based membership, having year-round or enduring seasonal operations, being a substantial financial contributor to the development, operation, and maintenance of the organization's principal venue or venues, and providing substantial public benefits. The funding must be provided only to those regional cultural organizations that the program determines, on an annual basis, to have met the following guidelines:

(i) For at least the preceding three years, the organization has been continuously in good standing as a nonprofit corporation under the laws of the state of Washington;

(ii) The organization has its principal location or locations and conducts the majority of its activities within the county area primarily for the benefit of county residents;

(iii) The organization has not declared bankruptcy or suspended or substantially curtailed operations for a period longer than six months during the preceding two years;

(iv) The organization provided to the program audited annual financial statements for at least its two most recent fiscal years;

(v) Over the three preceding years, the organization has minimum average annual revenues of at least one million two hundred fifty thousand dollars. The program must annually and cumulatively adjust the minimum revenues by the annual

percentage change in the consumer price index for the prior year for the Seattle-Tacoma-Bellevue, Washington metropolitan statistical area for all urban consumer, all goods, as published by the United States department of labor, bureau of labor statistics. The minimum revenues requirement, adjusted for inflation as provided in this section, remains effective through the date on which the initial tax authorized by the voters under RCW 82.14.525 or 84.52.821 expires. Thereafter, the program must, at the beginning of each subsequent period of funding as approved by the voters, establish initial minimum average annual revenues of not less than the amount of the minimum revenues required during the final year of the immediately preceding period of funding;

(vi) For purposes of determining the eligibility of a regional organization to receive funding or the relative magnitude of the funding it receives on the basis of its revenues, any determination with respect to a qualifying state-related cultural organization must exclude any state funding received by the organization or for the institution it supports; and

(vii) Any additional guidelines, consistent with RCW 36.160.020 and this section, as the program deems necessary or appropriate for determining the eligibility of prospective regional cultural organizations to receive funding under this section and for establishing the amount of funding any organization may receive;

(e) Funds available under (d) of this subsection must be distributed among eligible regional cultural organizations based on an annual ranking of eligible organizations by the combined size of their average annual revenues and their average annual attendance, both over the three preceding years. However, an organization's attendance must have twice the weight of the organization's revenues in determining its relative ranking. Available funds must be distributed proportionally among eligible organizations, consistent with the ranking, such that the organization with the largest combined revenues and weighted attendance would receive the most funding and the organization with the smallest combined revenues and weighted attendance would receive the least funding. However, no organization may receive funds in excess of fifteen percent of its average annual revenues over the three preceding years;

(f) Funds distributed to regional cultural organizations under (d) of this subsection must be used to support cultural and educational activities, programs and initiatives, public benefits and communications, and basic operations.

(i) At least twenty percent of funds distributed to any regional cultural organizations under (d) of this subsection must be used to participate in the program's public school cultural access program required under RCW 36.160.100. The regional cultural organizations must provide or continue to provide public benefits under this section in addition to participating in the public school cultural access program.

(ii) No funds distributed to regional cultural organizations under (d) of this subsection may be used for capital expenditures or acquisitions including, but not limited to, the acquisition of or the construction of improvements to real property;

(g) Prior to December 31st of each year, each regional cultural organization receiving funds authorized under this chapter pursuant to a program allocation formula must provide a report to the program, including:

(i) A preview of the public benefits the organization plans to provide or continue to provide in the following year;

(ii) A preview of the organization's public school cultural access program participation in the following year; and

(iii) A report on public benefits it provided, and its participation in the public school cultural access program, during the current year;

(h) Remaining funds available annually, including funds not initially reserved under (a) through (d) of this subsection as well as funds not distributed by the program from the reserved funds must be distributed by the program to the public agency designated by the legislative authority of the county creating such a program;

(i) Funds distributed by the designated public agencies under (h) of this subsection must be applied as follows:

(i) Not more than eight percent of such funds must be used for administrative costs of the public agency designated by a county creating the program; and

(ii) The balance must be used to fund community-based cultural organizations that are cultural organizations or a community preservation and development authority formed under chapter 43.167 RCW prior to January 1, 2011, that primarily function, focus their activities, and are supported or patronized within a local community and are not a regional cultural organization, subject to further definition under guidelines adopted by the designated public agency. Designated public agencies must adopt:

(A) Guidelines, consistent with the requirements of this chapter, it deems necessary or appropriate for determining the eligibility of community-based cultural organizations to receive funding under this chapter and for establishing the amount of funding any organization may receive;

(B) Criteria for the award of funds to eligible community-based cultural organizations, including the public benefits to be derived from projects submitted for funding; and

(C) Procedures for conducting, at least annually, a competitive process for the award of available funding;

(j) Funds distributed to community-based cultural organizations may be used to support cultural and educational activities, programs, and initiatives; public benefits and communications; and basic operations. Funds may also be used for: (i) Capital expenditures or acquisitions including, but not limited to, the acquisition of or construction of improvements to real property; and (ii) technology, equipment, and supplies reasonably related to or necessary for a project otherwise eligible for funding under this chapter. Program guidelines may also determine the circumstances under which funds may be used to fund start-up expenses of new community-based cultural organizations. [2015 3rd sp.s. c 24 § 601.]

36.160.800 Attacks prohibited. No direct or collateral attack on any program purported to be authorized or created in conformance with this chapter may be commenced more than thirty days after creation. [2015 3rd sp.s. c 24 § 801.]

However, "emergency management" or "comprehensive emergency management" does not mean preparation for emergency evacuation or relocation of residents in anticipation of nuclear attack.

(5)(a) "Emergency or disaster" as used in all sections of this chapter except RCW 38.52.430 shall mean an event or set of circumstances which: (i) Demands immediate action to preserve public health, protect life, protect public property, or to provide relief to any stricken community overtaken by such occurrences, or (ii) reaches such a dimension or degree of destructiveness as to warrant the governor declaring a state of emergency pursuant to RCW 43.06.010.

(b) "Emergency" as used in RCW 38.52.430 means an incident that requires a normal police, coroner, fire, rescue, emergency medical services, or utility response as a result of a violation of one of the statutes enumerated in RCW 38.52.430.

(8) "Executive head" and "executive heads" means the county executive in those charter counties with an elective office of county executive, however designated, and, in the case of other counties, the county legislative authority. In the case of cities and towns, it means the mayor in those cities and towns with mayor-council or commission forms of government, where the mayor is directly elected, and it means the city manager in those cities and towns with council manager forms of government. Reasonable costs shall include the costs of providing police, coroner, firefighting, rescue, emergency medical services, or utility response at the scene of the incident, as well as the salaries of the personnel responding to the incident.

(10) "Incident command system" means: (a) An all-hazards, on-scene functional management system that establishes common standards in organization, terminology, and procedures; provides a means (unified command) for the establishment of a common set of incident objectives and strategies during multiagency/multijurisdiction operations while maintaining individual agency/jurisdiction authority, responsibility, and accountability; and is a component of the national interagency incident management system; or (b) an

All receipts from the state enhanced 911 excise taxes imposed by RCW 82.14B.030 must be deposited into the account. Moneys in the account must be used only to support the statewide coordination and management of the enhanced 911 system, for the implementation of wireless enhanced 911 statewide, for the modernization of enhanced 911 emergency communications systems statewide, and to help supplement, within available funds, the operational costs of the system, including adequate funding of counties to enable implementation of wireless enhanced 911 service and reimbursement of radio communications service companies for costs incurred in providing wireless enhanced 911 service pursuant to negotiated contracts between the counties or their agents and the radio communications service companies. For the 2013-2015 and the 2015-2017 fiscal biennia, the account may be used for a criminal history system upgrade in the Washington state patrol and for activities and programs in the military department. A county must show just cause, including but not limited to a true and accurate accounting of the funds expended, for any inability to provide reimbursement to radio communications service companies of costs incurred in providing enhanced 911 service.

(2) Funds generated by the enhanced 911 excise tax imposed by RCW 82.14B.030(5) may not be distributed to any county that has not imposed the maximum county enhanced 911 excise tax allowed under RCW 82.14B.030(1). Funds generated by the enhanced 911 excise tax imposed by RCW 82.14B.030(6) may not be distributed to any county that has not imposed the maximum county enhanced 911 excise tax allowed under RCW 82.14B.030(2).

(3) The state enhanced 911 coordinator, with the advice and assistance of the enhanced 911 advisory committee, is authorized to enter into statewide agreements to improve the efficiency of enhanced 911 services for all counties and shall specify by rule the additional purposes for which moneys, if available, may be expended from this account. 39.04.155 Small works roster contract procedures—Limited public works process—Definition. (1) This section provides uniform small works roster provisions to award contracts for construction, building, renovation, remodeling, alteration, repair, or improvement of real property that may be used by state agencies and by any local government that is expressly authorized to use these provisions. These provisions may be used in lieu of other procedures to award contracts for such work with an estimated cost of three hundred thousand dollars or less. The small works roster process includes the limited public works process authorized under subsection (3) of this section and any local government authorized to award contracts using the small works roster process under this section may award contracts using the limited public works process under subsection (3) of this section.

(2)(a) A state agency or authorized local government may create a single general small works roster, or may create

a small works roster for different specialties or categories of anticipated work. Where applicable, small works rosters may make distinctions between contractors based upon different geographic areas served by the contractor. The small works roster or rosters shall consist of all responsible contractors who have requested to be on the list, and where required by law are properly licensed or registered to perform such work in this state. A state agency or local government establishing a small works roster or rosters may require eligible contractors desiring to be placed on a roster or rosters to keep current records of any applicable licenses, certifications, registrations, bonding, insurance, or other appropriate matters on file with the state agency or local government as a condition of being placed on a roster or rosters. At least once a year, the state agency or local government shall publish in a newspaper of general circulation within the jurisdiction a notice of the existence of the roster or rosters and solicit the names of contractors for such roster or rosters. In addition, responsible contractors shall be added to an appropriate roster or rosters at any time they submit a written request and necessary records. Master contracts may be required to be signed that become effective when a specific award is made using a small works roster.

(b) A state agency establishing a small works roster or rosters shall adopt rules implementing this subsection. A local government establishing a small works roster or rosters shall adopt an ordinance or resolution implementing this subsection. Procedures included in rules adopted by the department of enterprise services in implementing this subsection must be included in any rules providing for a small works roster or rosters that is adopted by another state agency, if the authority for that state agency to engage in these activities has been delegated to it by the department of enterprise services under chapter 43.19 RCW. An interlocal contract or agreement between two or more state agencies or local governments establishing a small works roster or rosters to be used by the parties to the agreement or contract must clearly identify the lead entity that is responsible for implementing the provisions of this subsection.

(c) Procedures shall be established for securing telephone, written, or electronic quotations from contractors on the appropriate small works roster to assure that a competitive price is established and to award contracts to the lowest responsible bidder, as defined in RCW 39.04.010. Invitations for quotations shall include an estimate of the scope and nature of the work to be performed as well as materials and equipment to be furnished. However, detailed plans and specifications need not be included in the invitation. This subsection does not eliminate other requirements for architectural or engineering approvals as to quality and compliance with building codes. Quotations may be invited from all appropriate contractors on the appropriate small works roster. As an alternative, quotations may be invited from at least five contractors on the appropriate small works roster who have indicated the capability of performing the kind of work being contracted, in a manner that will equitably distribute the opportunity among the contractors on the appropriate roster. However, if the estimated cost of the work is from one hundred fifty thousand dollars to three hundred thousand dollars, a state agency or local government that chooses to solicit bids from less than all the appropriate contractors on the appropri-

ate small works roster must also notify the remaining contractors on the appropriate small works roster that quotations on the work are being sought. The government has the sole option of determining whether this notice to the remaining contractors is made by: (i) Publishing notice in a legal newspaper in general circulation in the area where the work is to be done; (ii) mailing a notice to these contractors; or (iii) sending a notice to these contractors by facsimile or other electronic means. For purposes of this subsection (2)(c), "equitably distribute" means that a state agency or local government soliciting bids may not favor certain contractors on the appropriate small works roster over other contractors on the appropriate small works roster who perform similar services.

(d) A contract awarded from a small works roster under this section need not be advertised.

(e) Immediately after an award is made, the bid quotations obtained shall be recorded, open to public inspection, and available by telephone inquiry.

(3) In lieu of awarding contracts under subsection (2) of this section, a state agency or authorized local government may award a contract for work, construction, alteration, repair, or improvement projects estimated to cost less than thirty-five thousand dollars using the limited public works process provided under this subsection. Public works projects awarded under this subsection are exempt from the other requirements of the small works roster process provided under subsection (2) of this section and are exempt from the requirement that contracts be awarded after advertisement as provided under RCW 39.04.010.

For limited public works projects, a state agency or authorized local government shall solicit electronic or written quotations from a minimum of three contractors from the appropriate small works roster and shall award the contract to the lowest responsible bidder as defined under RCW 39.04.010. After an award is made, the quotations shall be open to public inspection and available by electronic request. A state agency or authorized local government shall attempt to distribute opportunities for limited public works projects equitably among contractors willing to perform in the geographic area of the work. A state agency or authorized local government shall maintain a list of the contractors contacted and the contracts awarded during the previous twenty-four months under the limited public works process, including the name of the contractor, the contractor's registration number, the amount of the contract, a brief description of the type of work performed, and the date the contract was awarded. For limited public works projects, a state agency or authorized local government may waive the payment and performance bond requirements of chapter 39.08 RCW and the retainage requirements of chapter 60.28 RCW, thereby assuming the liability for the contractor's nonpayment of laborers, mechanics, subcontractors, materialpersons, suppliers, and taxes imposed under Title 82 RCW that may be due from the contractor for the limited public works project, however the state agency or authorized local government shall have the right of recovery against the contractor for any payments made on the contractor's behalf.

(4) The breaking of any project into units or accomplishing any projects by phases is prohibited if it is done for the purpose of avoiding the maximum dollar amount of a con-

tract that may be let using the small works roster process or limited public works process.

(5)(a) A state agency or authorized local government may use the limited public works process of subsection (3) of this section to solicit and award small works roster contracts to small businesses that are registered contractors with gross revenues under one million dollars annually as reported on their federal tax return.

(b) A state agency or authorized local government may adopt additional procedures to encourage small businesses that are registered contractors with gross revenues under two hundred fifty thousand dollars annually as reported on their federal tax returns to submit quotations or bids on small works roster contracts.

(6) As used in this section, "state agency" means the department of enterprise services, the state parks and recreation commission, the department of natural resources, the department of fish and wildlife, the department of transportation, any institution of higher education as defined under RCW 28B.10.016, and any other state agency delegated authority by the department of enterprise services to engage in construction, building, renovation, remodeling, alteration, improvement, or repair activities. [2015 c 225 § 33; 2009 c 74 § 1; 2008 c 130 § 17. Prior: 2007 c 218 § 87; 2007 c 210 § 1; 2007 c 133 § 4; 2001 c 284 § 1; 2000 c 138 § 101; 1998 c 278 § 12; 1993 c 198 § 1; 1991 c 363 § 109.]

39.04.190 Purchase contract process—Other than formal sealed bidding. (1) This section provides a uniform process to award contracts for the purchase of any materials, equipment, supplies, or services by those municipalities that are authorized to use this process in lieu of the requirements for formal sealed bidding. The state statutes governing a specific type of municipality shall establish the maximum dollar thresholds of the contracts that can be awarded under this process, and may include other matters concerning the awarding of contracts for purchases, for the municipality.

(2) At least twice per year, the municipality shall publish in a newspaper of general circulation within the jurisdiction a notice of the existence of vendor lists and solicit the names of vendors for the lists. Municipalities shall by resolution establish a procedure for securing telephone or written quotations, or both, from at least three different vendors whenever possible to assure that a competitive price is established and for awarding the contracts for the purchase of any materials, equipment, supplies, or services to the lowest responsible bidder as defined in chapter 39.26 RCW. Immediately after the award is made, the bid quotations obtained shall be recorded, open to public inspection, and shall be available by telephone inquiry. A contract awarded pursuant to this section need not be advertised. [2015 c 79 § 4; 1993 c 198 § 2; 1991 c 363 § 110.]

Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.

39.04.220 Correctional facilities construction and repair—Use of general contractor/construction manager method for awarding contracts—Demonstration projects. (1) In addition to currently authorized methods of public works contracting, and in lieu of the requirements of RCW 39.04.010 and 39.04.020 through 39.04.060, capital projects funded for over ten million dollars authorized by the legislature for the department of corrections to construct or repair facilities may be accomplished under contract using the general contractor/construction manager method described in this section. In addition, the general contractor/construction manager method may be used for up to two demonstration projects under ten million dollars for the department of corrections. Each demonstration project shall aggregate capital projects authorized by the legislature at a single site to total no less than three million dollars with the approval of the office of financial management. The department of enterprise services shall present its plan for the aggregation of projects under each demonstration project to the oversight advisory committee established under subsection (2) of this section prior to soliciting proposals for general contractor/construction manager services for the demonstration project.

(2) For the purposes of this section, "general contractor/construction manager" means a firm with which the department of enterprise services has selected and negotiated a maximum allowable construction cost to be guaranteed by the firm, after competitive selection through a formal advertisement, and competitive bids to provide services during the design phase that may include life-cycle cost design considerations, value engineering, scheduling, cost estimating, constructability, alternative construction options for cost savings, and sequencing of work, and to act as the construction manager and general contractor during the construction phase. The department of enterprise services shall establish an independent oversight advisory committee with representatives of interest groups with an interest in this subject area, the department of corrections, and the private sector, to review selection and contracting procedures and contracting documents. The oversight advisory committee shall discuss and review the progress of the demonstration projects. The general contractor/construction manager method is limited to projects authorized on or before July 1, 1997.

(3) Contracts for the services of a general contractor/construction manager awarded under the authority of this section shall be awarded through a competitive process requiring the public solicitation of proposals for general contractor/construction manager services. Minority and women enterprise total project goals shall be specified in the bid instructions to the general contractor/construction manager finalists. The director of enterprise services is authorized to include an incentive clause in any contract awarded under this section for savings of either time or cost or both from that originally negotiated. No incentives granted shall exceed five percent of the maximum allowable construction cost. The director of enterprise services or his or her designee shall establish a committee to evaluate the proposals considering such factors as: Ability of professional personnel; past performance in negotiated and complex projects; ability to meet time and

budget requirements; location; recent, current, and projected workloads of the firm; and the concept of their proposal. After the committee has selected the most qualified finalists, these finalists shall submit sealed bids for the percent fee, which is the percentage amount to be earned by the general contractor/construction manager as overhead and profit, on the estimated maximum allowable construction cost and the fixed amount for the detailed specified general conditions work. The maximum allowable construction cost may be negotiated between the department of enterprise services and the selected firm after the scope of the project is adequately determined to establish a guaranteed contract cost for which the general contractor/construction manager will provide a performance and payment bond. The guaranteed contract cost includes the fixed amount for the detailed specified general conditions work, the negotiated maximum allowable construction cost, the percent fee on the negotiated maximum allowable construction cost, and sales tax. If the department of enterprise services is unable to negotiate a satisfactory maximum allowable construction cost with the firm selected that the department of enterprise services determines to be fair, reasonable, and within the available funds, negotiations with that firm shall be formally terminated and the department of enterprise services shall negotiate with the next low bidder and continue until an agreement is reached or the process is terminated. If the maximum allowable construction cost varies more than fifteen percent from the bid estimated maximum allowable construction cost due to requested and approved changes in the scope by the state, the percent fee shall be renegotiated. All subcontract work shall be competitively bid with public bid openings. Specific contract requirements for women and minority enterprise participation shall be specified in each subcontract bid package that exceeds ten percent of the department's estimated project cost. All subcontractors who bid work over two hundred thousand dollars shall post a bid bond and the awarded subcontractor shall provide a performance and payment bond for their contract amount if required by the general contractor/construction manager. A low bidder who claims error and fails to enter into a contract is prohibited from bidding on the same project if a second or subsequent call for bids is made for the project. Bidding on subcontract work by the general contractor/construction manager or its subsidiaries is prohibited. The general contractor/construction manager may negotiate with the low-responsive bidder only in accordance with RCW 39.04.015 or, if unsuccessful in such negotiations, rebid.

(4) If the project is completed for less than the agreed upon maximum allowable construction cost, any savings not otherwise negotiated as part of an incentive clause shall accrue to the state. If the project is completed for more than the agreed upon maximum allowable construction cost, excepting increases due to any contract change orders approved by the state, the additional cost shall be the responsibility of the general contractor/construction manager.

(5) The powers and authority conferred by this section shall be construed as in addition and supplemental to powers or authority conferred by any other law, and nothing contained in this section may be construed as limiting any other powers or authority of the department of enterprise services. However, all actions taken pursuant to the powers and authority granted to the director or the department of enter-

prise services under this section may only be taken with the concurrence of the department of corrections. [2015 c 225 § 34; 1996 c 18 § 5; 1994 c 80 § 2; 1991 c 130 § 2.]

39.04.290 Contracts for building engineering systems. (1) A state agency or local government may award contracts of any value for the design, fabrication, and installation of building engineering systems by: (a) Using a competitive bidding process or request for proposals process where bidders are required to provide final specifications and a bid price for the design, fabrication, and installation of building engineering systems, with the final specifications being approved by an appropriate design, engineering, and/or public regulatory body; or (b) using a competitive bidding process where bidders are required to provide final specifications for the final design, fabrication, and installation of building engineering systems as part of a larger project with the final specifications for the building engineering systems portion of the project being approved by an appropriate design, engineering, and/or public regulatory body. The provisions of chapter 39.80 RCW do not apply to the design of building engineering systems that are included as part of a contract described under this section.

(2) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Building engineering systems" means those systems where contracts for the systems customarily have been awarded with a requirement that the contractor provide final approved specifications, including fire alarm systems, building sprinkler systems, pneumatic tube systems, extensions of heating, ventilation, or air conditioning control systems, chlorination and chemical feed systems, emergency generator systems, building signage systems, pile foundations, and curtain wall systems.

(b) "Local government" means any county, city, town, school district, or other special district, municipal corporation, or quasi-municipal corporation.

(c) "State agency" means the department of enterprise services, the state parks and recreation commission, the department of fish and wildlife, the department of natural resources, any institution of higher education as defined under RCW 28B.10.016, and any other state agency delegated authority by the department of enterprise services to engage in building, renovation, remodeling, alteration, improvement, or repair activities. [2015 c 225 § 35; 2001 c 34 § 1.]

(2) Awarding entities may adjust the requirements of this section for a specific project for the following reasons:

(a) The demonstrated lack of availability of apprentices in specific geographic areas;

(b) A disproportionately high ratio of material costs to labor hours, which does not make feasible the required minimum levels of apprentice participation;

(c) Participating contractors have demonstrated a good faith effort to comply with the requirements of RCW 39.04.300 and 39.04.310 and this section; or

(d) Other criteria the awarding entity deems appropriate, which are subject to review by the office of the governor.

(b) The department of labor and industries shall include requests for the information about off-site, prefabricated, nonstandard, project specific items produced outside Washington on the affidavit of wages paid form required under RCW 39.12.040.

(c) The department of enterprise services shall develop standard contract language to meet the requirements of subsection (1) of this section and make the language available on its web site.

(1) The department of enterprise services must conduct a survey and compile the results into a list of which states provide a bidding preference on public works contracts for their resident contractors. The list must include details on the type of preference, the amount of the preference, and how the preference is applied. The list must be updated periodically as needed. The initial survey must be completed by November 1, 2011, and by December 1, 2011, the department must submit a report to the appropriate committees of the legislature on the results of the survey. The report must include the list and recommendations necessary to implement the intent of this section and section 2, chapter 345, Laws of 2011.

(2) The department of enterprise services must distribute the report, along with the requirements of this section and section 2, chapter 345, Laws of 2011, to all state and local agencies with the authority to procure public works. The department may adopt rules and procedures to implement the reciprocity requirements in subsection (3) of this section.

However, subsection (3) of this section does not take effect until the department of enterprise services has adopted the rules and procedures for reciprocity under this subsection or announced that it will not be issuing rules or procedures pursuant to this section.

(3) In any bidding process for public works in which a bid is received from a nonresident contractor from a state that provides a percentage bidding preference, a comparable percentage disadvantage must be applied to the bid of that nonresident contractor. This subsection does not apply until the department of enterprise services has adopted the rules and procedures for reciprocity under subsection (2) of this section, or has determined and announced that rules are not necessary for implementation.

(4) A nonresident contractor from a state that provides a percentage bid preference means a contractor that:

(a) Is from a state that provides a percentage bid preference to its resident contractors bidding on public works contracts; and

(b) At the time of bidding on a public works project, does not have a physical office located in Washington.

(5) The state of residence for a nonresident contractor is the state in which the contractor was incorporated or, if not a corporation, the state where the contractor's business entity was formed.

Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state or local authority." [2011 c 345 § 2.]

39.04.390 Repealed. See Supplementary Table of Disposition of Former RCW Sections, this volume.

39.04.400 Repair or replacement of structurally deficient bridges. The repair or replacement of a city, town, or county bridge deemed structurally deficient, as defined in RCW 43.21C.470, may use the contracting process available under RCW 47.28.170. [2015 c 144 § 3.]

Chapter 39.10 RCW

ALTERNATIVE PUBLIC WORKS CONTRACTING PROCEDURES

Sections

39.10.440 Job order procedure—Contract requirements.

39.10.440 Job order procedure—Contract requirements. (1) The maximum total dollar amount that may be awarded under a job order contract is four million dollars per year for a maximum of three years. The maximum total dollar amount that may be awarded under a job order contract for the department of enterprise services, counties with a population of more than one million, and cities with a population of

[2015 RCW Supp—page 448]

more than four hundred thousand is six million dollars per year for a maximum of three years.

(2) Job order contracts may be executed for an initial contract term of not to exceed two years, with the option of extending or renewing the job order contract for one year. All extensions or renewals must be priced as provided in the request for proposals. The extension or renewal must be mutually agreed to by the public body and the job order contractor.

(3) A public body may have no more than two job order contracts in effect at any one time, with the exception of the department of enterprise services, which may have six job order contracts in effect at any one time.

(4) At least ninety percent of work contained in a job order contract must be subcontracted to entities other than the job order contractor. The job order contractor must distribute contracts as equitably as possible among qualified and available subcontractors including minority and woman-owned subcontractors to the extent permitted by law.

(5) The job order contractor shall publish notification of intent to perform public works projects at the beginning of each contract year in a statewide publication and in a legal newspaper of general circulation in every county in which the public works projects are anticipated.

(6) Job order contractors shall pay prevailing wages for all work that would otherwise be subject to the requirements of chapter 39.12 RCW. Prevailing wages for all work performed pursuant to each work order must be the rates in effect at the time the individual work order is issued.

(7) If, in the initial contract term, the public body, at no fault of the job order contractor, fails to issue the minimum amount of work orders stated in the public request for proposals, the public body shall pay the contractor an amount equal to the difference between the minimum work order amount and the actual total of the work orders issued multiplied by an appropriate percentage for overhead and profit contained in the contract award coefficient for services as specified in the request for proposals. This is the contractor's sole remedy.

(8) All job order contracts awarded under this section must be signed before July 1, 2021; however the job order contract may be extended or renewed as provided for in this section.

(9) Public bodies may amend job order contracts awarded prior to July 1, 2007, in accordance with this chapter. [2015 c 173 § 1; 2013 c 222 § 19; 2007 c 494 § 403.]

(1) State agencies, the legislature, and departments shall purchase for their use all goods and services required by the legislature, agencies, or departments that are produced or provided in whole or in part from class II inmate work programs operated by the department of corrections through state contract. These goods and services shall not be purchased from any other source unless, upon application by the department or agency: (a) The department finds that the articles or products do not meet the reasonable requirements of the agency or department, (b) are not of equal or better quality, or (c) the price of the product or service is higher than that produced by the private sector. However, the criteria contained in (a), (b), and (c) of this subsection for purchasing goods and services from sources other than correctional industries do not apply to goods and services produced by correctional industries that primarily replace goods manufactured or services obtained from outside the state. The department of corrections and department shall adopt administrative rules that implement this section.

(2) Effective July 1, 2012, this section does not apply to the purchase of uniforms for correctional officers employed with the Washington state department of corrections. 39.26.255 Preferences—Purchase of products containing recycled material—Directory of suppliers—Rules. (1) The director shall develop specifications and adopt rules for the purchase of products which will provide for preferential purchase of products containing recycled material by:

(a) The use of a weighting factor determined by the amount of recycled material in a product, where appropriate and known in advance to potential bidders, to determine the lowest responsible bidder. The actual dollars bid shall be the contracted amount. If the department determines, according to criteria established by rule that the use of this weighting factor does not encourage the use of more recycled material, the department shall consider and award bids without regard to the weighting factor. In making this determination, the department shall consider but not be limited to such factors as adequate competition, economics or environmental constraints, quality, and availability.

(b) Requiring a written statement of the percentage range of recycled content from the bidder providing products containing recycled material. The range may be stated in five percent increments.

(2) The director shall develop a directory of businesses that have a master contract with the department that supply products containing significant quantities of recycled materials. This directory may be combined with and made accessible through the database of recycled content products to be developed under RCW 43.19A.060.

(3) The director shall encourage all parties using the state purchasing office to purchase products containing recycled materials.

(4) The rules, specifications, and bid evaluation shall be consistent with recycled content standards adopted under RCW 43.19A.020. [2015 c 79 § 8; 2011 1st sp.s. c 43 § 228; 1991 c 297 § 5; 1988 c 175 § 2; 1987 c 505 § 26; 1982 c 61 § 2. Formerly RCW 43.19.538.]

39.26.271 Rules for reciprocity in bidding. The director shall adopt and apply rules designed to provide for some reciprocity in bidding between Washington and those states having statutes or regulations on the list under RCW 39.26.270. The director shall have broad discretionary power in developing these rules and the rules shall provide for reciprocity only to the extent and in those instances where the director considers it appropriate. For the purpose of determining the lowest responsible bidder pursuant to RCW 39.26.160, such rules shall (1) require the director to impose a reciprocity increase on bids when appropriate under the rules and (2) establish methods for determining the amount of the increase. In no instance shall such increase, if any, be paid to a vendor whose bid is accepted. [2015 c 79 § 9; 2011 1st sp.s. c 43 § 241; 1983 c 183 § 3. Formerly RCW 43.19.704.]

39.34.030 Joint powers—Agreements for joint or cooperative action, requisites, effect on responsibilities of component agencies—Joint utilization of architectural or engineering services—Financing of joint projects. (1) Any power or powers, privileges or authority exercised or capable of exercise by a public agency of this state may be exercised and enjoyed jointly with any other public agency of this state having the power or powers, privilege or authority, and jointly with any public agency of any other state or of the United States to the extent that laws of such other state or of the United States permit such joint exercise or enjoyment. Any agency of the state government when acting jointly with any public agency may exercise and enjoy all of the powers, privileges and authority conferred by this chapter upon a public agency.

(2) Any two or more public agencies may enter into agreements with one another for joint or cooperative action pursuant to the provisions of this chapter, except that any such joint or cooperative action by public agencies which are educational service districts and/or school districts shall comply with the provisions of RCW 28A.320.080. Appropriate action by ordinance, resolution or otherwise pursuant to law of the governing bodies of the participating public agencies shall be necessary before any such agreement may enter into force.

(3) Any such agreement shall specify the following:

(a) Its duration;

(b) The precise organization, composition and nature of any separate legal or administrative entity created thereby together with the powers delegated thereto, provided such entity may be legally created. Such entity may include a non-profit corporation organized pursuant to chapter 24.03 or 24.06 RCW whose membership is limited solely to the participating public agencies or a partnership organized pursuant to chapter 25.04 or 25.05 RCW whose partners are limited solely to participating public agencies, or a limited liability company organized under chapter 25.15 RCW whose membership is limited solely to participating public agencies, and

the funds of any such corporation, partnership, or limited liability company shall be subject to audit in the manner provided by law for the auditing of public funds;

(c) Its purpose or purposes;

(d) The manner of financing the joint or cooperative undertaking and of establishing and maintaining a budget therefor;

(e) The permissible method or methods to be employed in accomplishing the partial or complete termination of the agreement and for disposing of property upon such partial or complete termination; and

(f) Any other necessary and proper matters.

(4) In the event that the agreement does not establish a separate legal entity to conduct the joint or cooperative undertaking, the agreement shall contain, in addition to provisions specified in subsection (3)(a), (c), (d), (e), and (f) of this section, the following:

(a) Provision for an administrator or a joint board responsible for administering the joint or cooperative undertaking. In the case of a joint board, public agencies that are party to the agreement shall be represented; and

(b) The manner of acquiring, holding and disposing of real and personal property used in the joint or cooperative undertaking. Any joint board is authorized to establish a special fund with a state, county, city, or district treasurer servicing an involved public agency designated "Operating fund of joint board."

(5) No agreement made pursuant to this chapter relieves any public agency of any obligation or responsibility imposed upon it by law except that:

(a) To the extent of actual and timely performance thereof by a joint board or other legal or administrative entity created by an agreement made pursuant to this chapter, the performance may be offered in satisfaction of the obligation or responsibility; and

(b) With respect to one or more public agencies purchasing or otherwise contracting through a bid, proposal, or contract awarded by another public agency or by a group of public agencies, any statutory obligation to provide notice for bids or proposals that applies to the public agencies involved is satisfied if the public agency or group of public agencies that awarded the bid, proposal, or contract complied with its own statutory requirements and either (i) posted the bid or solicitation notice on a web site established and maintained by a public agency, purchasing cooperative, or similar service provider, for purposes of posting public notice of bid or proposal solicitations, or (ii) provided an access link on the state's web portal to the notice.

(6)(a) Any two or more public agencies may enter into a contract providing for the joint utilization of architectural or engineering services if:

(i) The agency contracting with the architectural or engineering firm complies with the requirements for contracting for such services under chapter 39.80 RCW; and

(b) Any agreement providing for the joint utilization of architectural or engineering services under this subsection must be executed for a scope of work specifically detailed in

the agreement and must be entered into prior to commencement of procurement of such services under chapter 39.80 RCW.

(7) Financing of joint projects by agreement shall be as provided by law. [2015 c 232 § 1; 2009 c 202 § 6. Prior: 2008 c 198 § 2; 2004 c 190 § 1; 1992 c 161 § 4; 1990 c 33 § 568; 1981 c 308 § 2; 1972 ex.s. c 81 § 1; 1967 c 239 § 4.]

Finding—2008 c 198: "The legislature finds that it is in the public interest for public utility districts to develop renewable energy projects to meet requirements enacted by the people in Initiative Measure No. 937 and goals of diversifying energy resource portfolios. By developing more efficient and cost-effective renewable energy projects, public utility districts will keep power costs as low as possible for their customers. Consolidating and clarifying statutory provisions governing various aspects of public utility district renewable energy project development will reduce planning time and expense to meet these objectives." ENERGY CONSERVATION IN DESIGN OF PUBLIC FACILITIES

Sections

39.35.010	Legislative finding.
39.35.020	Legislative declaration.
39.35.030	Definitions.
39.35.040	Facility design to include life-cycle cost analysis.
39.35.060	Life-cycle cost analysis—Review fees.

39.35.010 Legislative finding. The legislature hereby finds:

(1) That major publicly owned or leased facilities have a significant impact on our state's consumption of energy;

(2) That energy conservation practices including energy management systems, combined heat and power systems, and renewable energy systems adopted for the design, construction, and utilization of such facilities will have a beneficial effect on our overall supply of energy;

(3) That the beneficial effect of the electric output from combined heat and power systems includes both energy and capacity value;

(4) That the cost of the energy consumed by such facilities over the life of the facilities shall be considered in addition to the initial cost of constructing such facilities;

(5) That the cost of energy is significant and major facility designs shall be based on the total life-cycle cost, including the initial construction cost, and the cost, over the economic life of a major facility, of the energy consumed, and of the operation and maintenance of a major facility as they affect energy consumption; and

(6) That the use of energy systems in these facilities which utilize combined heat and power or renewable resources such as solar energy, wood or wood waste, or other nonconventional fuels, and which incorporate energy management systems, shall be considered in the design of all publicly owned or leased facilities. [2015 3rd sp.s. c 19 § 2; 2001 c 214 § 15; 1982 c 159 § 1; 1975 1st ex.s. c 177 § 1.]

Finding—Intent—2015 3rd sp.s. c 19: "The legislature finds that it is in the public interest to encourage and foster the development of a thermal

standard and to encourage combined heat and power (cogeneration) systems throughout the state. Combined heat and power systems can help the state achieve energy independence and comply with new federal electric energy emission efficiency standards by generating both electric power and useful thermal energy from a single fuel source, thereby increasing energy efficiency and decreasing grid-based emissions. It is the intent of the legislature to promote the deployment of combined heat and power by requiring consideration of combined heat and power systems in the construction of new critical governmental facilities, incorporating reports on combined heat and power facilities in integrated resource plans, and streamlining the process by which combined heat and power facilities obtain permits." [2015 3rd sp.s. c 19 § 1.]

Findings—2001 c 214: "(1) The legislature hereby finds that:

(a) The economy of the state and the health, safety, and welfare of its citizens are threatened by the current energy supply and price instabilities;

(b) Many energy efficiency programs for public buildings launched during the 1970s and 1980s were not maintained during the subsequent sustained period of low energy costs and abundant supply; and

(c) Conservation programs originally established in the 1970s and 1980s can be improved or updated. New programs drawing on recently developed technologies, including demand-side energy management systems, can materially increase the efficiency of energy use by the public sector.

(2) It is the policy of the state of Washington that:

(a) State government is committed to achieving significant gains in energy efficiency. Conventional conservation programs will be reviewed and updated in light of experience gained since their commencement;

(b) State government must play a leading role in demonstrating updated and new energy efficiency technologies. New programs or measures made possible by technological advances, such as demand-side response measures and energy management systems, shall be treated in the same manner as conventional conservation programs and will be integrated into the state's energy efficiency programs." [2001 c 214 § 14.]

39.35.020 Legislative declaration. The legislature declares that it is the public policy of this state to ensure that energy conservation practices and renewable energy systems are employed in the design of major publicly owned or leased facilities and that the use of at least one renewable energy or combined heat and power system is considered. To this end the legislature authorizes and directs that public agencies analyze the cost of energy consumption of each major facility and each critical governmental facility to be planned and constructed or renovated after September 8, 1975. [2015 3rd sp.s. c 19 § 3; 1982 c 159 § 2; 1975 1st ex.s. c 177 § 2.]

39.35.040 Facility design to include life-cycle cost analysis. Whenever a public agency determines that any major facility or a critical governmental facility is to be constructed or renovated, such agency shall cause to be included in the design phase of such construction or renovation a provision that requires a life-cycle cost analysis conforming with the guidelines developed in RCW 39.35.050 to be prepared for such facility. Such analysis shall be approved by the agency prior to the commencement of actual construction or renovation. A public agency may accept the facility design if the agency is satisfied that the life-cycle cost analysis provides for an efficient energy system or systems based on the economic life of the facility.

Nothing in this section prohibits the construction or renovation of major facilities or critical governmental facilities that utilize renewable energy or combined heat and power systems. [2015 3rd sp.s. c 19 § 5; 1994 c 242 § 2; 1982 c 159 § 4; 1975 1st ex.s. c 177 § 4.]

41.04.340 State employee attendance incentive program—Sick leave records to be kept—Remuneration or benefits for unused sick leave—Medical expense plan in lieu of remuneration. (1) An attendance incentive program is established for all eligible employees. As used in this section the term "eligible employee" means any employee of the state, other than eligible employees of the community and technical colleges and the state board for community and technical colleges identified in RCW 28B.50.553, and teaching and research faculty at the state and regional universities and The Evergreen State College, entitled to accumulate sick leave and for whom accurate sick leave records have been maintained. No employee may receive compensation under this section for any portion of sick leave accumulated at a rate in excess of one day per month. The state and regional universities and The Evergreen State College shall maintain complete and accurate sick leave records for all teaching and research faculty.

(2) In January of the year following any year in which a minimum of sixty days of sick leave is accrued, and each January thereafter, any eligible employee may receive remuneration for unused sick leave accumulated in the previous year at a rate equal to one day's monetary compensation of the employee for each four full days of accrued sick leave in excess of sixty days. Sick leave for which compensation has been received shall be deducted from accrued sick leave at the rate of four days for every one day's monetary compensation.

From July 1, 2011, through June 29, 2013, the rate of monetary compensation for the purposes of this subsection shall not be reduced by any temporary salary reduction.

(3) At the time of separation from state service due to retirement or death, an eligible employee or the employee's estate may elect to receive remuneration at a rate equal to one day's current monetary compensation of the employee for each four full days of accrued sick leave. From July 1, 2011, through June 29, 2013, the rate of monetary compensation for the purposes of this subsection shall not be reduced by any temporary salary reduction.

(4) Remuneration or benefits received under this section shall not be included for the purpose of computing a retirement allowance under any public retirement system in this state.

(5) Except as provided in subsections (7) through (9) of this section for employees not covered by chapter 41.06 RCW, this section shall be administered, and rules shall be adopted to carry out its purposes, by the director of financial management for persons subject to chapter 41.06 RCW.

(6) Should the legislature revoke any remuneration or benefits granted under this section, no affected employee shall be entitled thereafter to receive such benefits as a matter of contractual right.

(7) In lieu of remuneration for unused sick leave at retirement as provided in subsection (3) of this section, an agency head or designee may with equivalent funds, provide eligible employees with a benefit plan that provides for reimbursement for medical expenses. This plan shall be implemented only after consultation with affected groups of employees. For eligible employees covered by chapter 41.06 RCW, procedures for the implementation of these plans shall be adopted by the director of the state health care authority. For eligible employees exempt from chapter 41.06 RCW, implementation procedures shall be adopted by an agency head having jurisdiction over the employees.

(8) Implementing procedures adopted by the director of the state health care authority or agency heads shall require that each medical expense plan authorized by subsection (7) of this section apply to all eligible employees in any one of the following groups: (a) Employees in an agency; (b) employees in a major organizational subdivision of an agency; (c) employees at a major operating location of an agency; (d) exempt employees under the jurisdiction of an elected or appointed Washington state executive; (e) employees of the Washington state senate; (f) employees of the Washington state house of representatives; (g) classified employees in a bargaining unit established by the public employment relations commission; or (h) other group of employees defined by an agency head that is not designed to provide an individual-employee choice regarding participation in a medical expense plan. However, medical expense plans for eligible employees in any of the groups under (a) through (h) of this subsection who are covered by a collective bargaining agreement shall be implemented only by written agreement with the bargaining unit's exclusive representative and a separate medical expense plan may be provided for unrepresented employees.

(9) Medical expense plans authorized by subsection (7) of this section must require as a condition of participation in the plan that employees in the group affected by the plan sign an agreement with the employer. The agreement must include a provision to hold the employer harmless should the United States government find that the employer or the employee is

in debt to the United States as a result of the employee not paying income taxes due on the equivalent funds placed into the plan, or as a result of the employer not withholding or deducting a tax, assessment, or other payment on the funds as required by federal law. The agreement must also include a provision that requires an eligible employee to forfeit remuneration under subsection (3) of this section if the employee belongs to a group that has been designated to participate in the medical expense plan permitted under this section and the employee refuses to execute the required agreement. (e) The employee has abided by agency rules regarding:

(i) Sick leave use if he or she qualifies under (a)(i) or (iv) of this subsection; or

(ii) Military leave if he or she qualifies under (a)(ii) of this subsection; and

(f) The employee has diligently pursued and been found to be ineligible for benefits under chapter 51.32 RCW if he or she qualifies under (a)(i) of this subsection.

(2) The agency head shall determine the amount of leave, if any, which an employee may receive under this section. However, an employee shall not receive a total of more than five hundred twenty-two days of leave, except that, a supervisor may authorize leave in excess of five hundred twenty-two days in extraordinary circumstances for an employee qualifying for the shared leave program because he or she is suffering from an illness, injury, impairment, or physical or mental condition which is of an extraordinary or severe nature. Shared leave received under the uniformed service shared leave pool in RCW 41.04.685 is not included in this total.

(3) An employee may transfer annual leave, sick leave, and his or her personal holiday, as follows:

(a) An employee who has an accrued annual leave balance of more than ten days may request that the head of the agency for which the employee works transfer a specified amount of annual leave to another employee authorized to receive leave under subsection (1) of this section. In no event may the employee request a transfer of an amount of leave that would result in his or her annual leave account going below ten days. For purposes of this subsection (3)(a), annual leave does not accrue if the employee receives compensation in lieu of accumulating a balance of annual leave.

(b) An employee may transfer a specified amount of sick leave to an employee requesting shared leave only when the donating employee retains a minimum of one hundred seventy-six hours of sick leave after the transfer.

(c) An employee may transfer, under the provisions of this section relating to the transfer of leave, all or part of his or her personal holiday, as that term is defined under RCW 1.16.050, or as such holidays are provided to employees by agreement with a school district's board of directors if the leave transferred under this subsection does not exceed the amount of time provided for personal holidays under RCW 1.16.050.

(4) An employee of an institution of higher education under RCW 28B.10.016, school district, or educational service district who does not accrue annual leave but does accrue sick leave and who has an accrued sick leave balance of more than twenty-two days may request that the head of the agency for which the employee works transfer a specified

amount of sick leave to another employee authorized to receive leave under subsection (1) of this section. In no event may such an employee request a transfer that would result in his or her sick leave account going below twenty-two days. Transfers of sick leave under this subsection are limited to transfers from employees who do not accrue annual leave. Under this subsection, "sick leave" also includes leave accrued pursuant to RCW 28A.400.300(1)(b) or 28A.310.240(1) with compensation for illness, injury, and emergencies.

(5) Transfers of leave made by an agency head under subsections (3) and (4) of this section shall not exceed the requested amount.

(6) Leave transferred under this section may be transferred from employees of one agency to an employee of the same agency or, with the approval of the heads of both agencies, to an employee of another state agency.

(7) While an employee is on leave transferred under this section, he or she shall continue to be classified as a state employee and shall receive the same treatment in respect to salary, wages, and employee benefits as the employee would normally receive if using accrued annual leave or sick leave.

(a) All salary and wage payments made to employees while on leave transferred under this section shall be made by the agency employing the person receiving the leave. The value of leave transferred shall be based upon the leave value of the person receiving the leave.

(b) In the case of leave transferred by an employee of one agency to an employee of another agency, the agencies involved shall arrange for the transfer of funds and credit for the appropriate value of leave.

(i) Pursuant to rules adopted by the office of financial management, funds shall not be transferred under this section if the transfer would violate any constitutional or statutory restrictions on the funds being transferred.

(ii) The office of financial management may adjust the appropriation authority of an agency receiving funds under this section only if and to the extent that the agency's existing appropriation authority would prevent it from expending the funds received.

(iii) Where any questions arise in the transfer of funds or the adjustment of appropriation authority, the director of financial management shall determine the appropriate transfer or adjustment.

(8) Leave transferred under this section shall not be used in any calculation to determine an agency's allocation of full time equivalent staff positions.

(9) The value of any leave transferred under this section which remains unused shall be returned at its original value to the employee or employees who transferred the leave when the agency head finds that the leave is no longer needed or will not be needed at a future time in connection with the illness or injury for which the leave was transferred or for any other qualifying condition. Before the agency head makes a determination to return unused leave in connection with an illness or injury, or any other qualifying condition, he or she must receive from the affected employee a statement from the employee's doctor verifying that the illness or injury is resolved. To the extent administratively feasible, the value of unused leave which was transferred by more than one employee shall be returned on a pro rata basis.

(10) An employee who uses leave that is transferred to him or her under this section may not be required to repay the value of the leave that he or she used.

(11) The director of financial management may adopt rules as necessary to implement subsection (2) of this section. [2015 3rd sp.s. c 1 § 312; 2011 1st sp.s. c 43 § 435. The office of financial management and other personnel authorities shall adopt rules or policies governing the accumulation and use of sick leave for state agency and department employees, expressly for the establishment of a plan allowing participating employees to pool sick leave and allowing any sick leave thus pooled to be used by any participating employee who has used all of the sick leave, annual leave, and compensatory leave that has been personally accrued by him or her. Each department or agency of the state may allow employees to participate in a sick leave pool established by the office of financial management and other personnel authorities.

(1) For purposes of calculating maximum sick leave that may be donated or received by any one employee, pooled sick leave:

(2) The office of financial management and other personnel authorities, except the personnel authorities for higher education institutions, shall adopt rules which provide:

(a) That employees are eligible to participate in the sick leave pool after one year of employment with the state or agency of the state if the employee has accrued a minimum amount of unused sick leave, to be established by rule;

(b) That participation in the sick leave pool shall, at all times, be voluntary on the part of the employees;

(c) That any sick leave pooled shall be removed from the personally accumulated sick leave balance of the employee contributing the leave;

(d) That any sick leave in the pool that is used by a participating employee may be used only for the employee's personal illness, accident, or injury;

(e) That a participating employee is not eligible to use sick leave accumulated in the pool until all of his or her per-

sonally accrued sick, annual, and compensatory leave has been used;

(f) A maximum number of days of sick leave in the pool that any one employee may use;

(g) That a participating employee who uses sick leave from the pool is not required to recontribute such sick leave to the pool, except as otherwise provided in this section;

(h) That an employee who cancels his or her membership in the sick leave pool is not eligible to withdraw the days of sick leave contributed by that employee to the pool;

(i) That an employee who transfers from one position in state government to another position in state government may transfer from one pool to another if the eligibility criteria of the pools are comparable and the administrators of the pools have agreed on a formula for transfer of credits;

(j) That alleged abuse of the use of the sick leave pool shall be investigated, and, on a finding of wrongdoing, the employee shall repay all of the sick leave credits drawn from the sick leave pool and shall be subject to such other disciplinary action as is determined by the agency head;

(k) That sick leave credits may be drawn from the sick leave pool by a part-time employee on a pro rata basis; and

(l) That each department or agency shall maintain accurate and reliable records showing the amount of sick leave which has been accumulated and is unused by employees, in accordance with guidelines established by the office of financial management.

(3) Personnel authorities for higher education institutions shall adopt policies consistent with the needs of the employees under their respective jurisdictions. [2015 3rd sp.s. c 1 § 313; 2011 1st sp.s. c 43 § 437; 2006 c 356 § 1.]

However, liability insurance shall not be made available to dependents.

(2) The board shall develop employee benefit plans that include comprehensive health care benefits for employees. In developing these plans, the board shall consider the following elements:

(a) Methods of maximizing cost containment while ensuring access to quality health care;

(b) Development of provider arrangements that encourage cost containment and ensure access to quality care, including but not limited to prepaid delivery systems and prospective payment methods;

(c) Wellness incentives that focus on proven strategies, such as smoking cessation, injury and accident prevention, reduction of alcohol misuse, appropriate weight reduction, exercise, automobile and motorcycle safety, blood cholesterol reduction, and nutrition education;

(d) Utilization review procedures including, but not limited to a cost-efficient method for prior authorization of services, hospital inpatient length of stay review, requirements for use of outpatient surgeries and second opinions for surgeries, review of invoices or claims submitted by service providers, and performance audit of providers;

(e) Effective coordination of benefits; and

(f) Minimum standards for insuring entities.

(3) To maintain the comprehensive nature of employee health care benefits, benefits provided to employees shall be substantially equivalent to the state employees' health bene-

fits plan in effect on January 1, 1993. Nothing in this subsection shall prohibit changes or increases in employee point-of-service payments or employee premium payments for benefits or the administration of a high deductible health plan in conjunction with a health savings account. The board may establish employee eligibility criteria which are not substantially equivalent to employee eligibility criteria in effect on January 1, 1993.

(4) Except if bargained for under chapter 41.80 RCW, the board shall design benefits and determine the terms and conditions of employee and retired employee participation and coverage, including establishment of eligibility criteria subject to the requirements of this chapter. Employer groups obtaining benefits through contractual agreement with the authority for employees defined in RCW 41.05.011(6) (a) through (d) may contractually agree with the authority to benefits eligibility criteria which differs from that determined by the board. The eligibility criteria established by the board shall be no more restrictive than the following:

(a) Except as provided in (b) through (e) of this subsection, an employee is eligible for benefits from the date of employment if the employing agency anticipates he or she will work an average of at least eighty hours per month and for at least eight hours in each month for more than six consecutive months. An employee determined ineligible for benefits at the beginning of his or her employment shall become eligible in the following circumstances:

(i) An employee who works an average of at least eighty hours per month and for at least eight hours in each month and whose anticipated duration of employment is revised from less than or equal to six consecutive months to more than six consecutive months becomes eligible when the revision is made.

(ii) An employee who works an average of at least eighty hours per month over a period of six consecutive months and for at least eight hours in each of those six consecutive months becomes eligible at the first of the month following the six-month averaging period.

(b) A seasonal employee is eligible for benefits from the date of employment if the employing agency anticipates that he or she will work an average of at least eighty hours per month and for at least eight hours in each month of the season. A seasonal employee determined ineligible at the beginning of his or her employment who works an average of at least eighty hours per month over a period of six consecutive months and at least eight hours in each of those six consecutive months becomes eligible at the first of the month following the six-month averaging period. A benefits-eligible seasonal employee who works a season of less than nine months shall not be eligible for the employer contribution during the off season, but may continue enrollment in benefits during the off season by self-paying for the benefits. A benefits-eligible seasonal employee who works a season of nine months or more is eligible for the employer contribution through the off season following each season worked.

(c) Faculty are eligible as follows:

(i) Faculty who the employing agency anticipates will work half-time or more for the entire instructional year or equivalent nine-month period are eligible for benefits from the date of employment. Eligibility shall continue until the beginning of the first full month of the next instructional

year, unless the employment relationship is terminated, in which case eligibility shall cease the first month following the notice of termination or the effective date of the termination, whichever is later.

(ii) Faculty who the employing agency anticipates will not work for the entire instructional year or equivalent nine-month period are eligible for benefits at the beginning of the second consecutive quarter or semester of employment in which he or she is anticipated to work, or has actually worked, half-time or more. Such an employee shall continue to receive uninterrupted employer contributions for benefits if the employee works at least half-time in a quarter or semester. Faculty who the employing agency anticipates will not work for the entire instructional year or equivalent nine-month period, but who actually work half-time or more throughout the entire instructional year, are eligible for summer or off-quarter or off-semester coverage. Faculty who have met the criteria of this subsection (4)(c)(ii), who work at least two quarters or two semesters of the academic year with an average academic year workload of half-time or more for three quarters or two semesters of the academic year, and who have worked an average of half-time or more in each of the two preceding academic years shall continue to receive uninterrupted employer contributions for benefits if he or she works at least half-time in a quarter or semester or works two quarters or two semesters of the academic year with an average academic workload each academic year of half-time or more for three quarters or two semesters. Eligibility under this section ceases immediately if this criteria is not met.

(iii) Faculty may establish or maintain eligibility for benefits by working for more than one institution of higher education. When faculty work for more than one institution of higher education, those institutions shall prorate the employer contribution costs, or if eligibility is reached through one institution, that institution will pay the full employer contribution. Faculty working for more than one institution must alert his or her employers to his or her potential eligibility in order to establish eligibility.

(iv) The employing agency must provide written notice to faculty who are potentially eligible for benefits under this subsection (4)(c) of their potential eligibility.

(v) To be eligible for maintenance of benefits through averaging under (c)(ii) of this subsection, faculty must provide written notification to his or her employing agency or agencies of his or her potential eligibility.

(vi) For the purposes of this subsection (4)(c):

(A) "Academic year" means summer, fall, winter, and spring quarters or summer, fall, and spring semesters;

(B) "Half-time" means one-half of the full-time academic workload as determined by each institution; except that for community and technical college faculty, half-time academic workload is calculated according to RCW 28B.50.489.

(d) A legislator is eligible for benefits on the date his or her term begins. All other elected and full-time appointed officials of the legislative and executive branches of state government are eligible for benefits on the date his or her term begins or they take the oath of office, whichever occurs first.

(e) A justice of the supreme court and judges of the court of appeals and the superior courts become eligible for benefits on the date he or she takes the oath of office.

(f) Except as provided in (c)(i) and (ii) of this subsection, eligibility ceases for any employee the first of the month following termination of the employment relationship.

(g) In determining eligibility under this section, the employing agency may disregard training hours, standby hours, or temporary changes in work hours as determined by the authority under this section.

(h) Insurance coverage for all eligible employees begins on the first day of the month following the date when eligibility for benefits is established. If the date eligibility is established is the first working day of a month, insurance coverage begins on that date.

(i) Eligibility for an employee whose work circumstances are described by more than one of the eligibility categories in (a) through (e) of this subsection shall be determined solely by the criteria of the category that most closely describes the employee's work circumstances.

(j) Except for an employee eligible for benefits under (b) or (c)(ii) of this subsection, an employee who has established eligibility for benefits under this section shall remain eligible for benefits each month in which he or she is in pay status for eight or more hours, if (i) he or she remains in a benefits-eligible position and (ii) leave from the benefits-eligible position is approved by the employing agency. A benefits-eligible seasonal employee is eligible for the employer contribution in any month of his or her season in which he or she is in pay status eight or more hours during that month. Eligibility ends if these conditions are not met, the employment relationship is terminated, or the employee voluntarily transfers to a non-eligible position.

(k) For the purposes of this subsection, the board shall define "benefits-eligible position."

(5) The board may authorize premium contributions for an employee and the employee's dependents in a manner that encourages the use of cost-efficient managed health care systems.

(6)(a) For any open enrollment period following August 24, 2011, the board shall offer a health savings account option for employees that conforms to section 223, Part VII of subchapter B of chapter 1 of the internal revenue code of 1986. The board shall comply with all applicable federal standards related to the establishment of health savings accounts.

(b) By November 30, 2015, and each year thereafter, the authority shall submit a report to the relevant legislative policy and fiscal committees that includes the following:

(i) Public employees' benefits board health plan cost and service utilization trends for the previous three years, in total and for each health plan offered to employees;

(ii) For each health plan offered to employees, the number and percentage of employees and dependents enrolled in the plan, and the age and gender demographics of enrollees in each plan;

(iii) Any impact of enrollment in alternatives to the most comprehensive plan, including the high deductible health plan with a health savings account, upon the cost of health benefits for those employees who have chosen to remain enrolled in the most comprehensive plan.

(7) Notwithstanding any other provision of this chapter, for any open enrollment period following August 24, 2011, the board shall offer a high deductible health plan in conjunction with a health savings account developed under subsection (6) of this section.

(8) Employees shall choose participation in one of the health care benefit plans developed by the board and may be permitted to waive coverage under terms and conditions established by the board.

(9) The board shall review plans proposed by insuring entities that desire to offer property insurance and/or accident and casualty insurance to state employees through payroll deduction. The board may approve any such plan for payroll deduction by insuring entities holding a valid certificate of authority in the state of Washington and which the board determines to be in the best interests of employees and the state. The board shall adopt rules setting forth criteria by which it shall evaluate the plans.

(10) Before January 1, 1998, the public employees' benefits board shall make available one or more fully insured long-term care insurance plans that comply with the requirements of chapter 48.84 RCW. Such programs shall be made available to eligible employees, retired employees, and retired school employees as well as eligible dependents which, for the purpose of this section, includes the parents of the employee or retiree and the parents of the spouse of the employee or retiree. Employees of local governments, political subdivisions, and tribal governments not otherwise enrolled in the public employees' benefits board sponsored medical programs may enroll under terms and conditions established by the administrator, if it does not jeopardize the financial viability of the public employees' benefits board's long-term care offering.

(a) Participation of eligible employees or retired employees and retired school employees in any long-term care insurance plan made available by the public employees' benefits board is voluntary and shall not be subject to binding arbitration under chapter 41.56 RCW. Participation is subject to reasonable underwriting guidelines and eligibility rules established by the public employees' benefits board and the health care authority.

(b) The employee, retired employee, and retired school employee are solely responsible for the payment of the premium rates developed by the health care authority. The health care authority is authorized to charge a reasonable administrative fee in addition to the premium charged by the long-term care insurer, which shall include the health care authority's cost of administration, marketing, and consumer education materials prepared by the health care authority and the office of the insurance commissioner.

(c) To the extent administratively possible, the state shall establish an automatic payroll or pension deduction system for the payment of the long-term care insurance premiums.

(d) The public employees' benefits board and the health care authority shall establish a technical advisory committee to provide advice in the development of the benefit design and establishment of underwriting guidelines and eligibility rules. The committee shall also advise the board and authority on effective and cost-effective ways to market and distribute the long-term care product. The technical advisory committee shall be comprised, at a minimum, of representatives

of the office of the insurance commissioner, providers of long-term care services, licensed insurance agents with expertise in long-term care insurance, employees, retired employees, retired school employees, and other interested parties determined to be appropriate by the board.

(e) The health care authority shall offer employees, retired employees, and retired school employees the option of purchasing long-term care insurance through licensed agents or brokers appointed by the long-term care insurer. The authority, in consultation with the public employees' benefits board, shall establish marketing procedures and may consider all premium components as a part of the contract negotiations with the long-term care insurer.

(f) In developing the long-term care insurance benefit designs, the public employees' benefits board shall include an alternative plan of care benefit, including adult day services, as approved by the office of the insurance commissioner.

(g) The health care authority, with the cooperation of the office of the insurance commissioner, shall develop a consumer education program for the eligible employees, retired employees, and retired school employees designed to provide education on the potential need for long-term care, methods of financing long-term care, and the availability of long-term care insurance products including the products offered by the board.

(11) The board may establish penalties to be imposed by the authority when the eligibility determinations of an employing agency fail to comply with the criteria under this chapter. A certificate of domestic partnership qualified under the provisions of RCW 26.60.030 shall be recognized as evidence of a qualified domestic partnership fulfilling all necessary eligibility criteria for the partner of the employee to receive benefits. Nothing in this section affects the requirements of domestic partners to complete documentation related to federal tax status that may currently be required by the board for employees choosing to make premium payments on a pretax basis. 41.05.074 Public employees—Prior authorization standards and criteria—Health plan requirements—Def-

initions. (Effective January 1, 2017.) (1) A health plan offered to public employees and their covered dependents under this chapter that imposes different prior authorization standards and criteria for a covered service among tiers of contracting providers of the same licensed profession in the same health plan shall inform an enrollee which tier an individual provider or group of providers is in by posting the information on its web site in a manner accessible to both enrollees and providers.

(2) The health plan may not require prior authorization for an evaluation and management visit or an initial treatment visit with a contracting provider in a new episode of chiropractic, physical therapy, occupational therapy, East Asian medicine, massage therapy, or speech and hearing therapies. Notwithstanding RCW 48.43.515(5) this section may not be interpreted to limit the ability of a health plan to require a referral or prescription for the therapies listed in this section.

(3) The health care authority shall post on its web site and provide upon the request of a covered person or contracting provider any prior authorization standards, criteria, or information the health plan uses for medical necessity decisions.

(4) A health care provider with whom the administrator of the health plan consults regarding a decision to deny, limit, or terminate a person's covered health care services must hold a license, certification, or registration, in good standing and must be in the same or related health field as the health care provider being reviewed or of a specialty whose practice entails the same or similar covered health care service.

(5) The health plan may not require a provider to provide a discount from usual and customary rates for health care services not covered under the health plan, policy, or other agreement, to which the provider is a party.

(6) For purposes of this section:

(a) "New episode of care" means treatment for a new or recurrent condition for which the enrollee has not been treated by the provider within the previous ninety days and is not currently undergoing any active treatment.

(b) "Contracting provider" does not include providers employed within an integrated delivery system operated by a carrier licensed under chapter 48.44 or 48.46 RCW. [2015 c 251 § 1.]

Effective date—2015 c 251: "This act takes effect January 1, 2017." [2015 c 251 § 3.]

(b) Separated employees may continue their participation in insurance plans and contracts if participation is selected immediately upon separation from employment;

(2) Rates charged surviving spouses and surviving state registered domestic partners of emergency service personnel killed in the line of duty, retired or disabled employees, separated employees, spouses, or dependent children who are not eligible for parts A and B of medicare shall be based on the experience of the community rated risk pool established under RCW 41.05.022.

(3) Rates charged to surviving spouses and surviving state registered domestic partners of emergency service personnel killed in the line of duty, retired or disabled employees, separated employees, spouses, or children who are eligible for parts A and B of medicare shall be calculated from a separate experience risk pool comprised only of individuals eligible for parts A and B of medicare; however, the premiums charged to medicare-eligible retirees and disabled employees shall be reduced by the amount of the subsidy provided under RCW 41.05.085.

(4) Surviving spouses, surviving state registered domestic partners, and dependent children of emergency service personnel killed in the line of duty and retired or disabled and separated employees shall be responsible for payment of premium rates developed by the authority which shall include the cost to the authority of providing insurance coverage including any amounts necessary for reserves and administration in accordance with this chapter. (6) The plan may subject coverage of a telemedicine or store and forward technology health service under subsection (1) of this section to all terms and conditions of the plan, including, but not limited to, utilization review, prior authorization, deductible, copayment, or coinsurance requirements that are applicable to coverage of a comparable health care service provided in person.

Therefore, nothing in this act prohibits a plan from adopting the requirements of sections 2 through 4 of this act prior to January 1, 2017." [2015 c 23 § 8.]

Intent—2015 c 23: "It is the intent of the legislature to recognize the application of telemedicine as a reimbursable service by which an individual receives medical services from a health care provider without in-person con-

41.05.730 Ground emergency medical transportation services—Medicaid reimbursement—Calculation—Federal approval—Department's duties. (1) An eligible provider, as described in subsection (2) of this section, must, in addition to the rate of payment that the provider would otherwise receive for medicaid ground emergency medical transportation services, receive supplemental medicaid reimbursement to the extent provided by law.

(2) A provider is eligible for supplemental reimbursement only if the provider has all of the following characteristics continuously during a state fiscal year:

(a) Provides ground emergency medical transportation services to medicaid beneficiaries;

(b) Is a provider that is enrolled as a medicaid provider for the period being claimed;

(c) Is owned or operated by the state, a city, county, fire protection district, community services district, health care district, federally recognized Indian tribe or any unit of government as defined in 42 C.F.R. Sec. 433.50;

(3) An eligible provider's supplemental reimbursement pursuant to this section must be calculated and paid as follows:

(a) The supplemental reimbursement to an eligible provider, as described in subsection (2) of this section, must be equal to the amount of federal financial participation received as a result of the claims submitted pursuant to subsection (6)(b) of this section;

(b) In no instance may the amount certified pursuant to subsection (5)(a) of this section, when combined with the amount received from all other sources of reimbursement from the medicaid program, exceed one hundred percent of actual costs, as determined pursuant to the medicaid state plan, for ground emergency medical transportation services;

(c) The supplemental medicaid reimbursement provided by this section must be distributed exclusively to eligible providers under a payment methodology based on ground emergency medical transportation services provided to medicaid beneficiaries by eligible providers on a per-transport basis or other federally permissible basis. The authority shall obtain approval from the federal centers for medicare and medicaid services for the payment methodology to be utilized, and may not make any payment pursuant to this section prior to obtaining that approval.

(4)(a) It is the legislature's intent in enacting this section to provide the supplemental reimbursement described in this section without any expenditure from the general fund. An eligible provider, as a condition of receiving supplemental reimbursement pursuant to this section, shall enter into, and maintain, an agreement with the authority for the purposes of implementing this section and reimbursing the department for the costs of administering this section.

(b) The nonfederal share of the supplemental reimbursement submitted to the federal centers for medicare and medicaid services for purposes of claiming federal financial participation shall be paid only with funds from the governmental entities described in subsection (2)(c) of this section and

certified to the state as provided in subsection (5) of this section.

(5) Participation in the program by an eligible provider described in this section is voluntary. If an applicable governmental entity elects to seek supplemental reimbursement pursuant to this section on behalf of an eligible provider owned or operated by the entity, as described in subsection (2)(c) of this section, the governmental entity shall do all of the following:

(a) Certify, in conformity with the requirements of 42 C.F.R. Sec. 433.51, that the claimed expenditures for the ground emergency medical transportation services are eligible for federal financial participation;

(b) Provide evidence supporting the certification as specified by the department;

(c) Submit data as specified by the department to determine the appropriate amounts to claim as expenditures qualifying for federal financial participation;

(d) Keep, maintain, and have readily retrievable, any records specified by the department to fully disclose reimbursement amounts to which the eligible provider is entitled, and any other records required by the federal centers for medicare and medicaid services.

(6) The department shall promptly seek any necessary federal approvals for the implementation of this section. The department may limit the program to those costs that are allowable expenditures under Title XIX of the federal social security act (42 U.S.C. Sec. 1396 et seq.). If federal approval is not obtained for implementation of this section, this section may not be implemented.

(a) The department shall submit claims for federal financial participation for the expenditures for the services described in subsection (5) of this section that are allowable expenditures under federal law.

(b) The department shall, on an annual basis, submit any necessary materials to the federal government to provide assurances that claims for federal financial participation will include only those expenditures that are allowable under federal law.

(7) If either a final judicial determination is made by any court of appellate jurisdiction or a final determination is made by the administrator of the federal centers for medicare and medicaid services that the supplemental reimbursement provided for in this section must be made to any provider not described in this section, the director shall execute a declaration stating that the determination has been made and on that date this section becomes inoperative. [2015 c 147 § 1.]

41.05.735 Ground emergency medical transportation services—Medicaid reimbursement—Intergovernmental transfer program—Federal approval—Authority's duties. (2) A provider is eligible for increased reimbursement pursuant to this section only if the provider meets both of the following conditions in an applicable state fiscal year:

(a) Provides ground emergency medical transport services to medicaid managed care enrollees pursuant to a contract or other arrangement with a medicaid managed care plan.

(b) Is owned or operated by the state, a city, county, fire protection district, special district, community services district, health care district, federally recognized Indian tribe or unit of government as defined in 42 C.F.R. Sec. 433.50.

41.80.020 Scope of bargaining.

41.80.020 Scope of bargaining. (1) Except as otherwise provided in this chapter, the matters subject to bargaining include wages, hours, and other terms and conditions of employment, and the negotiation of any question arising under a collective bargaining agreement.

(2) The employer is not required to bargain over matters pertaining to:

(a) Health care benefits or other employee insurance benefits, except as required in subsection (3) of this section;

(b) Any retirement system or retirement benefit; or

(c) Rules of the director of financial management, the director of enterprise services, or the Washington personnel resources board adopted under RCW 41.06.157.

(3) Matters subject to bargaining include the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits. However, except as provided otherwise in this subsection for institutions of higher education, negotiations regarding the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits shall be conducted between the employer and one coalition of all the exclusive bargaining representatives subject to this chapter. The exclusive bargaining representatives for employees that are subject to chapter 47.64 RCW shall bargain the dollar amount expended on behalf of each employee for health care benefits with the employer as part of the coalition under this subsection. Any such provision agreed to by the employer and the coalition shall be included in all master collective bargaining agreements negotiated by the parties. For institutions of higher education, promotional preferences and the number of names to be certified for vacancies shall be bargained under the provisions of RCW 41.80.010(4). For agreements covering the 20132015 fiscal biennium, any agreement between the employer and the coalition regarding the dollar amount expended on behalf of each employee for health care benefits is a separate agreement and shall not be included in the master collective bargaining agreements negotiated by the parties.

(4) The employer and the exclusive bargaining representative shall not agree to any proposal that would prevent the implementation of approved affirmative action plans or that would be inconsistent with the comparable worth agreement that provided the basis for the salary changes implemented beginning with the 1983-1985 biennium to achieve comparable worth.

(5) The employer and the exclusive bargaining representative shall not bargain over matters pertaining to management rights established in RCW 41.80.040.

(6) Except as otherwise provided in this chapter, if a conflict exists between an executive order, administrative rule, or agency policy relating to wages, hours, and terms and conditions of employment and a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail. A provision of a collective bargaining agreement that conflicts with the terms of a statute is invalid and unenforceable.

(7) This section does not prohibit bargaining that affects contracts authorized by RCW 41.06.142. [2015 3rd sp.s. c 1 § 318; 2013 2nd sp.s. c 4 § 972. Prior: 2011 1st sp.s. c 50 § 939; 2011 1st sp.s. c 43 § 445; 2010 c 283 § 16; 2002 c 354 § 303.]

The report filed seven days before the election shall report all contributions received and expenditures made as of the end of one business day before the date of the report. Reports filed on the tenth day of the month shall report all contributions received and expenditures made from the closing date of the last report filed through the last day of the month preceding the date of the current report.

(c) A treasurer may refuse to show the books of account to any person who does not make an appointment or provide the required identification.

(5) Copies of all reports filed pursuant to this section shall be readily available for public inspection by appointment, pursuant to subsection (4) of this section, at the principal headquarters or, if there is no headquarters, at the address of the treasurer or such other place as may be authorized by the commission.

Finding—Intent—Short title—2015 3rd sp.s. c 20: See RCW 28B.156.005 and 28B.156.900.

Effective date—2011 c 60: See RCW 42.17A.919.

Findings—2006 c 5: "The legislature finds that due to the massive devastation inflicted on the city of New Orleans by hurricane Katrina on August 29, 2005, the city of New Orleans will not be able to meet its obligation to host the national lieutenant governors' association's annual conference scheduled for July 17 through July 19, 2006. As a result of this unfortunate situation, the members of the national lieutenant governors' association officially pressed to have Washington state host the next annual conference in Seattle, Washington, and lieutenant governor Brad Owen has agreed to do so. The legislature further finds, in recognition of the unprecedented situation created by this natural disaster, the high national visibility of this important event, and due to the limited amount of time remaining for planning and fund-raising, it is necessary to initiate fund-raising activities for this national conference as soon as possible." [2006 c 5 § 1.]

Effective date—2006 c 5: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [February 7, 2006]." [2006 c 5 § 4.]

Findings—2003 c 153: See note following RCW 43.330.090.

42.52.821 Exemption—Solicitation to host conference of a national association. When soliciting gifts, grants, or donations to host an official conference within the state of Washington of a national association as approved by the state treasurer, the treasurer and designated employees are presumed not to be in violation of the solicitation and receipt of gift provisions in this chapter. [2015 c 45 § 1.]

security of the system following discovery or notification of the breach in the security of the data to any resident of this state whose personal information was, or is reasonably believed to have been, acquired by an unauthorized person and the personal information was not secured. Notice is not required if the breach of the security of the system is not reasonably likely to subject consumers to a risk of harm. The breach of secured personal information must be disclosed if the information acquired and accessed is not secured during a security breach or if the confidential process, encryption key, or other means to decipher the secured information was acquired by an unauthorized person.

(b) For purposes of this section, "agency" means the same as in RCW 42.56.010.

(2) Any agency that maintains data that includes personal information that the agency does not own shall notify the owner or licensee of the information of any breach of the security of the data immediately following discovery, if the personal information was, or is reasonably believed to have been, acquired by an unauthorized person.

(3) The notification required by this section may be delayed if the data owner or licensee contacts a law enforcement agency after discovery of a breach of the security of the system and a law enforcement agency determines that the notification will impede a criminal investigation. **43.01.090 Departments to share occupancy costs—
Capital projects surcharge.** The director of enterprise ser-
vices may assess a charge or rent against each state board,
commission, agency, office, department, activity, or other
occupant or user for payment of a proportionate share of costs
for occupancy of buildings, structures, or facilities including
but not limited to all costs of acquiring, constructing, operat-
ing, and maintaining such buildings, structures, or facilities
and the repair, remodeling, or furnishing thereof and for the
rendering of any service or the furnishing or providing of any
supplies, equipment, historic furnishings, or materials.

The director of enterprise services may recover the full
costs including appropriate overhead charges of the forego-
ing by periodic billings as determined by the director includ-

ing but not limited to transfers upon accounts and advancements into the enterprise services account. Charges related to the rendering of real estate services under RCW 43.82.010 and to the operation and maintenance of public and historic facilities at the state capitol, as defined in RCW 79.24.710, shall be allocated separately from other charges assessed under this section. Rates shall be established by the director of enterprise services after consultation with the director of financial management. The director of enterprise services may allot, provide, or furnish any of such facilities, structures, services, equipment, supplies, or materials to any other public service type occupant or user at such rates or charges as are equitable and reasonably reflect the actual costs of the services provided: PROVIDED, HOWEVER, That the legislature, its duly constituted committees, interim committees and other committees shall be exempted from the provisions of this section.

Upon receipt of such bill, each entity, occupant, or user shall cause a warrant or check in the amount thereof to be drawn in favor of the department of enterprise services which shall be deposited in the state treasury to the credit of the enterprise services account unless the director of financial management has authorized another method for payment of costs.

Beginning July 1, 1995, the director of enterprise services shall assess a capital projects surcharge upon each agency or other user occupying a facility owned and managed by the department of enterprise services in Thurston county, excluding state capitol public and historic facilities, as defined in RCW 79.24.710. The capital projects surcharge does not apply to agencies or users that agree to pay all future repairs, improvements, and renovations to the buildings they occupy and a proportional share, as determined by the office of financial management, of all other campus repairs, installations, improvements, and renovations that provide a benefit to the buildings they occupy or that have an agreement with the department of enterprise services that contains a charge for a similar purpose, including but not limited to RCW 43.01.091, in an amount greater than the capital projects surcharge. Beginning July 1, 2002, the capital projects surcharge does not apply to department of services for the blind vendors who operate cafeteria services in facilities owned and managed by the department of enterprise services; the department shall consider this space to be a common area for purposes of allocating the capital projects surcharge to other building tenants beginning July 1, 2003. The director, after consultation with the director of financial management, shall adopt differential capital project surcharge rates to reflect the differences in facility type and quality. The initial payment structure for this surcharge shall be one dollar per square foot per year. The surcharge shall increase over time to an amount that when combined with the facilities and service charge equals the market rate for similar types of lease space in the area or equals five dollars per square foot per year, whichever is less. The capital projects surcharge shall be in addition to other charges assessed under this section. Proceeds from the capital projects surcharge shall be deposited into the Thurston county capital facilities account created in RCW 43.19.501. Findings—Purpose—1994 c 219: "The legislature finds that there is inequitable distribution among state programs of capital costs associated with maintaining and rehabilitating state facilities. The legislature finds that there are insufficient available resources to support even minor capital improvements other than debt financing. The legislature further finds that little attention is focused on efficient facility management because in many cases capital costs are not factored into the ongoing process of allocating state resources. The purpose of sections 16 through 18, chapter 219, Laws of 1994 is to create a mechanism to distribute capital costs among the agencies and programs occupying facilities owned and managed by the *department of general administration in Thurston county that will foster increased accountability for facility decisions and more efficient use of the facilities." [1994 c 219 § 15.]

***Reviser's note:** The department of general administration was renamed the department of enterprise services by 2011 1st sp.s. c 43 § 107.

43.01.091 Departments to share debt service costs. It is hereby declared to be the policy of the state of Washington that each agency or other occupant of newly constructed or substantially renovated facilities owned and operated by the department of enterprise services in Thurston county shall proportionally share the debt service costs associated with the original construction or substantial renovation of the facility. Beginning July 1, 1995, each state agency or other occupant of a facility constructed or substantially renovated after July 1, 1992, and owned and operated by the department of enterprise services in Thurston county, shall be assessed a charge to pay the principal and interest payments on any bonds or other financial contract issued to finance the construction or renovation or an equivalent charge for similar projects financed by cash sources. In recognition that full payment of debt service costs may be higher than market rates for similar types of facilities or higher than existing agreements for similar charges entered into prior to June 9, 1994, the initial charge may be less than the full cost of principal and interest payments. The charge shall be assessed to all occupants of the facility on a proportional basis based on the amount of occupied space or any unique construction requirements. The office of financial management, in consultation with the department of enterprise services, shall develop procedures to implement this section and report to the legislative fiscal committees, by October 1994, their recommendations for implementing this section. The office of financial management shall separately identify in the budget document all payments and the documentation for determining the payments required by this section for each agency and fund source during the current and the two past and future fiscal biennia. The charge authorized in this section is subject to annual audit by the state auditor. [2015 c 225 § 57; 1994 c 219 § 19.]

Finding—1994 c 219: See note following RCW 43.88.030.

Budget document: RCW 43.88.030.

Enterprise services: RCW 43.19.500.

43.01.240 State agency parking account—Parking rental fees—Employee parking, limitations. (1) There is hereby established an account in the state treasury to be known as the state agency parking account. All parking income collected from the fees imposed by state agencies on parking spaces at state-owned or leased facilities, including the capitol campus, shall be deposited in the state agency parking account. Only the office of financial management may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures. No agency may receive an allotment greater than the amount of revenue deposited into the state agency parking account.

(2) An agency may, as an element of the agency's commute trip reduction program to achieve the goals set forth in RCW 70.94.527, impose parking rental fees at state-owned and leased properties. These fees will be deposited in the state agency parking account. Each agency shall establish a committee to advise the agency director on parking rental fees, taking into account the market rate of comparable, privately owned rental parking in each region. The agency shall solicit representation of the employee population including, but not limited to, management, administrative staff, production workers, and state employee bargaining units. Funds shall be used by agencies to: (a) Support the agencies' commute trip reduction program under RCW 70.94.521 through 70.94.551; (b) support the agencies' parking program; or (c) support the lease or ownership costs for the agencies' parking facilities.

(3) In order to reduce the state's subsidization of employee parking, after July 1997 agencies shall not enter into leases for employee parking in excess of building code requirements, except as authorized by the director of enterprise services. In situations where there are fewer parking spaces than employees at a worksite, parking must be allocated equitably, with no special preference given to managers. [2015 c 225 § 58; 1998 c 245 § 46; 1995 c 215 § 3.]

43.01.250 Electric vehicles—State purchase of power at state office locations—Report. (1) It is in the state's interest and to the benefit of the people of the state to encourage the use of electrical vehicles in order to reduce emissions and provide the public with cleaner air. This section expressly authorizes the purchase of power at state expense to recharge privately and publicly owned plug-in electrical vehicles at state office locations where the vehicles are used for state business, are commute vehicles, or where the vehicles are at the state location for the purpose of conducting business with the state.

(2) The director of the department of enterprise services may report to the governor and the appropriate committees of the legislature, as deemed necessary by the director, on the estimated amount of state-purchased electricity consumed by plug-in electrical vehicles if the director of enterprise services determines that the use has a significant cost to the state, and on the number of plug-in electric vehicles using state office locations. The report may be combined with the report under section 401, chapter 348, Laws of 2007. [2015 c 225 § 59; 2007 c 348 § 206.]

Findings—Part headings not law—2007 c 348: See RCW 43.325.005 and 43.325.903.

43.01.900 Terminated entity—Transfer of assets—Reversion of funds—Contractual rights—Rules and pending business—2010 1st sp.s. c 7. (1) All documents and papers, equipment, or other tangible property in the possession of the terminated entity shall be delivered to the custody of the entity assuming the responsibilities of the terminated entity or if such responsibilities have been eliminated, documents and papers shall be delivered to the state archivist and equipment or other tangible property to the department of enterprise services.

(2) All funds held by, or other moneys due to, the terminated entity shall revert to the fund from which they were appropriated, or if that fund is abolished to the general fund.

(3) All contractual rights and duties of an entity shall be assigned or delegated to the entity assuming the responsibilities of the terminated entity, or if there is none to such entity as the governor shall direct.

(4) All rules and all pending business before any terminated entity shall be continued and acted upon by the entity assuming the responsibilities of the terminated entity. [2015 c 225 § 60; 2010 1st sp.s. c 7 § 140.]

Effective date—2010 1st sp.s. c 26; 2010 1st sp.s. c 7: See note following RCW 43.03.027.

Effective date—Purpose—2011 1st sp.s. c 43: See notes following RCW 43.19.003.

43.06.485 Senior policy advisor to the governor—State lead for economic development relating to the outdoor recreation sector of the state's economy. (1) Subject to the availability of amounts appropriated for this specific purpose, the governor must maintain a senior policy advisor to the governor to serve as a state lead on economic development issues relating to the outdoor recreation sector of the state's economy. The advisor must focus on promoting, increasing participation in, and increasing opportunities for outdoor recreation in Washington, with a particular focus on achieving economic development and job growth through outdoor recreation.

(2) The success of the advisor must be based on measurable results relating to economic development strategies that more deliberately grow employment and outdoor recreation businesses, including:

(a) Strategies for increasing the number of new jobs directly or indirectly related to outdoor recreation, with a short-term goal of increasing employment in the sector by ten percent above the one hundred ninety-nine thousand jobs estimated to be connected to outdoor recreation as of 2015; and

(b) Strategies for increasing the twenty-one billion dollars of consumer spending in Washington, and the four and one-half billion dollars of spending from out-of-state visitors, estimated to be connected to outdoor recreation as of 2015. [2015 c 245 § 2.]

43.06.490 Marijuana agreements—Federally recognized Indian tribes—Tribal marijuana tax—Tax exemption. (1) The governor may enter into agreements with federally recognized Indian tribes concerning marijuana. Marijuana agreements may address any marijuana-related issue that involves both state and tribal interests or otherwise has an impact on tribal-state relations. Such agreements may include, but are not limited to, the following provisions and subject matter:

- (a) Criminal and civil law enforcement;
- (b) Regulatory issues related to the commercial production, processing, sale, and possession of marijuana, and processed marijuana products, for both recreational and medical purposes;
- (c) Medical and pharmaceutical research involving marijuana;
- (d) Taxation in accordance with subsection (2) of this section;
- (e) Any tribal immunities or preemption of state law regarding the production, processing, or marketing of marijuana; and
- (f) Dispute resolution, including the use of mediation or other nonjudicial process.

(2)(a) Each marijuana agreement adopted under this section must provide for a tribal marijuana tax that is at least one hundred percent of the state marijuana excise tax imposed under RCW 69.50.535 and state and local sales and use taxes on sales of marijuana. Marijuana agreements apply to sales in which tribes, tribal enterprises, or tribal member-owned businesses (i) deliver or cause delivery to be made to or receive delivery from a marijuana producer, processor, or retailer licensed under chapter 69.50 RCW or (ii) physically transfer possession of the marijuana from the seller to the buyer within Indian country.

(b) The tribe may allow an exemption from tax for sales to the tribe, tribal enterprises, tribal member-owned businesses, or tribal members[,] on marijuana grown, produced, or processed within its Indian country, or for activities to the extent they are exempt under state or federal law from the state marijuana excise tax imposed under RCW 69.50.535 or state and local sales or use taxes on sales of marijuana. Medical marijuana products used in the course of medical treatments by a clinic, hospital, or similar facility owned and operated by a federally recognized Indian tribe within its Indian country may be exempted from tax under the terms of an agreement entered into under this section.

(3) Any marijuana agreement relating to the production, processing, and sale of marijuana in Indian country, whether for recreational or medical purposes, must address the following issues:

- (a) Preservation of public health and safety;
 - (b) Ensuring the security of production, processing, retail, and research facilities; and
 - (c) Cross-border commerce in marijuana.
- (4) The governor may delegate the power to negotiate marijuana agreements to the *state liquor control board. In conducting such negotiations, the *state liquor control board must, when necessary, consult with the governor and/or the department of revenue.

(5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Indian country" has the same meaning as in RCW 82.24.010.

(b) "Indian tribe" or "tribe" means a federally recognized Indian tribe located within the geographical boundaries of the state of Washington.

(c) "Marijuana" means "marijuana," "marijuana concentrates," "marijuana-infused products," and "useable marijuana," as those terms are defined in RCW 69.50.101. [2015 c 207 § 2.]

***Reviser's note:** The "state liquor control board" was renamed the "state liquor and cannabis board" by 2015 c 70 § 3.

Intent—Finding—2015 c 207: "The legislature intends to further the government-to-government relationship between the state of Washington and federally recognized Indian tribes in the state of Washington by authorizing the governor to enter into agreements concerning the regulation of marijuana. Such agreements may include provisions pertaining to: The lawful commercial production, processing, sale, and possession of marijuana for both recreational and medical purposes; marijuana-related research activities; law enforcement, both criminal and civil; and taxation. The legislature finds that these agreements will facilitate and promote a cooperative and mutually beneficial relationship between the state and the tribes regarding matters relating to the legalization of marijuana, particularly in light of the fact that federal Indian law precludes the state from enforcing its civil regulatory laws in Indian country. Such cooperative agreements will enhance public health and safety, ensure a lawful and well-regulated marijuana market, encourage economic development, and provide fiscal benefits to both the tribes and the state." 43.17.400 Disposition of state-owned land—Definitions—Notice. (1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Disposition" means sales, exchanges, or other actions resulting in a transfer of land ownership.

(b) "State agencies" includes:

(i) The department of natural resources established in chapter 43.30 RCW;

(ii) The department of fish and wildlife established in chapter 43.300 RCW;

(iii) The department of transportation established in chapter 47.01 RCW;

(iv) The parks and recreation commission established in chapter 79A.05 RCW; and

(v) The department of enterprise services established in this chapter.

(2) State agencies proposing disposition of state-owned land must provide written notice of the proposed disposition to the legislative authorities of the counties, cities, and towns in which the land is located at least sixty days before entering into the disposition agreement.

(3) The requirements of this section are in addition and supplemental to other requirements of the laws of this state. [2015 c 225 § 64; 2007 c 62 § 2.]

Finding—Intent—2007 c 62: "The legislature recognizes that state agencies dispose of state-owned lands when these lands cannot be advantageously used by the agency or when dispositions are beneficial to the public's interest. The legislature also recognizes that dispositions of state-owned land can create opportunities for counties, cities, and towns wishing to purchase or otherwise acquire the lands, and citizens wishing to enjoy the lands for recreational or other purposes. However, the legislature finds that absent a specific requirement obligating state agencies to notify affected local governments of proposed land dispositions, occasions for governmental acquisition and public enjoyment of certain lands can be permanently lost.

Therefore, the legislature intends to enact an express and supplemental requirement obligating state agencies to notify local governments of proposed land dispositions." [2007 c 62 § 1.]

Severability—2007 c 62: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2007 c 62 § 13.]

43.19.1919 Surplus personal property—Sale, exchange—Exceptions and limitations—Transferring ownership of department-owned vessel. (1) The department shall sell or exchange personal property belonging to the state for which the agency, office, department, or educational institution having custody thereof has no further use, at public or private sale, and cause the moneys realized from the sale of any such property to be paid into the fund from which such property was purchased or, if such fund no longer exists, into the state general fund. This requirement is subject to the following exceptions and limitations:

(a) This section does not apply to property under RCW 27.53.045, 28A.335.180, or 43.19.1920;

(b) Sales of capital assets may be made by the department and a credit established for future purchases of capital items as provided for in chapter 39.26 RCW;

(c) Personal property, excess to a state agency, including educational institutions, shall not be sold or disposed of prior to reasonable efforts by the department to determine if other state agencies have a requirement for such personal property. Such determination shall follow sufficient notice to all state agencies to allow adequate time for them to make their needs known. Surplus items may be disposed of without prior notification to state agencies if it is determined by the director to be in the best interest of the state. The department shall main-

tain a record of disposed surplus property, including date and method of disposal, identity of any recipient, and approximate value of the property;

(d) This section does not apply to personal property acquired by a state organization under federal grants and contracts if in conflict with special title provisions contained in such grants or contracts;

(e) A state agency having a surplus personal property asset with a fair market value of less than five hundred dollars may transfer the asset to another state agency without charging fair market value. A state agency conducting this action must maintain adequate records to comply with agency inventory procedures and state audit requirements.

(2)(a) Prior to transferring ownership of a department-owned vessel, the department shall conduct a thorough review of the physical condition of the vessel, the vessel's operating capability, and any containers and other materials that are not fixed to the vessel.

(b) If the department determines that the vessel is in a state of advanced deterioration or poses a reasonably imminent threat to human health or safety, including a threat of environmental contamination, the department may: (i) Not transfer the vessel until the conditions identified under this subsection have been corrected; or (ii) permanently dispose of the vessel by landfill, deconstruction, or other related method. Effective date—Purpose—2011 1st sp.s. c 43: See notes following RCW 43.19.003.

Findings—1991 c 216: "The legislature finds that (1) there are an increasing number of persons who are unable to meet their basic needs relating to shelter, clothing, and nourishment; (2) there are many nonprofit organizations and units of local government that provide shelter and other assistance to these persons but that these organizations are finding it difficult to meet the increasing demand for such assistance; and (3) the numerous agencies and institutions of state government generate a significant quantity of surplus, tangible personal property that would be of great assistance to homeless persons throughout the state. Therefore, the legislature finds that it is in the best interest of the state to provide for the donation of state-owned, surplus, tangible property to assist the homeless in meeting their basic needs." 43.19.622 Passenger motor vehicles owned or operated by state agencies—Duty to establish policies as to acquisition, operation, authorized use—Strategies to reduce fuel consumption and vehicle emissions—Implementation of fuel economy standards—Reports—Definitions. (1) The director of financial management, after consultation with other interested or affected state agencies, shall

establish overall policies governing the acquisition, operation, management, maintenance, repair, and disposal of all motor vehicles owned or operated by any state agency. These policies shall include but not be limited to a definition of what constitutes authorized use of a state owned or controlled passenger motor vehicle and other motor vehicles on official state business. The definition shall include, but not be limited to, the use of state-owned motor vehicles for commuter ride sharing so long as the entire capital depreciation and operational expense of the commuter ride-sharing arrangement is paid by the commuters. Any use other than such defined use shall be considered as personal use.

(2)(a) By June 15, 2010, the director of the *department of general administration, in consultation with the office and other interested or affected state agencies, shall develop strategies to assist state agencies in reducing fuel consumption and emissions from all classes of vehicles.

(b) In an effort to achieve lower overall emissions for all classes of vehicles, state agencies should, when financially comparable over the vehicle's useful life, consider purchasing or converting to ultra-low carbon fuel vehicles.

(3) State agencies shall phase in fuel economy standards for motor pools and leased petroleum-based fuel vehicles to achieve an average fuel economy standard of thirty-six miles per gallon for passenger vehicle fleets by 2015.

(4) After June 15, 2010, state agencies shall:

(a) When purchasing new petroleum-based fuel vehicles for vehicle fleets: (i) Achieve an average fuel economy of forty miles per gallon for light duty passenger vehicles; and (ii) achieve an average fuel economy of twenty-seven miles per gallon for light duty vans and sports [sport] utility vehicles; or

(b) Purchase ultra-low carbon fuel vehicles.

(5) State agencies must report annually on the progress made to achieve the goals under subsections (3) and (4) of this section beginning October 31, 2011.

(6) The *department of general administration, in consultation with the office and other affected or interested agencies, shall develop a separate fleet fuel economy standard for all other classes of petroleum-based fuel vehicles and report the progress made toward meeting the fuel consumption and emissions goals established by this section to the governor and the relevant legislative committees by December 1, 2012.

(7) The following vehicles are excluded from the average fuel economy goals established in subsections (3) and (4) of this section: Emergency response vehicles, passenger vans with a gross vehicle weight of eight thousand five hundred pounds or greater, vehicles that are purchased for off-pavement use, ultra-low carbon fuel vehicles, and vehicles that are driven less than two thousand miles per year.

(8) Average fuel economy calculations used under this section for petroleum-based fuel vehicles must be based upon the current United States environmental protection agency composite city and highway mile per gallon rating.

(9) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Petroleum-based fuel vehicle" means a vehicle that uses, as a fuel source, more than ten percent gasoline or diesel fuel.

(b) "Ultra-low carbon fuel vehicle" means a vehicle that uses, as a fuel source, at least ninety percent natural gas,

hydrogen, biomethane, or electricity. [2010 c 159 § 1; 2009 c 519 § 6; 1982 c 163 § 13; 1980 c 169 § 1; 1979 c 111 § 12; 1975 1st ex.s. c 167 § 5. Formerly RCW 43.41.130.]

43.19.642 Biodiesel fuel blends—Use by agencies—Biannual report. (1) Effective June 1, 2006, for agencies complying with the ultra-low sulfur diesel mandate of the United States environmental protection agency for on-highway diesel fuel, agencies shall use biodiesel as an additive to ultra-low sulfur diesel for lubricity, provided that the use of a lubricity additive is warranted and that the use of biodiesel is comparable in performance and cost with other available lubricity additives. The amount of biodiesel added to the ultra-low sulfur diesel fuel shall be not less than two percent.

(2) Except as provided in subsection (5) of this section, effective June 1, 2009, state agencies are required to use a minimum of twenty percent biodiesel as compared to total volume of all diesel purchases made by the agencies for the operation of the agencies' dieselpowered vessels, vehicles, and construction equipment.

(3) All state agencies using biodiesel fuel shall, beginning on July 1, 2006, file biannual reports with the department of enterprise services documenting the use of the fuel and a description of how any problems encountered were resolved.

(4) By December 1, 2009, the department of enterprise services shall:

(a) Report to the legislature on the average true price differential for biodiesel by blend and location; and

(b) Examine alternative fuel procurement methods that work to address potential market barriers for in-state biodiesel producers and report these findings to the legislature.

(5) During the 2011-2013, 2013-2015, and 2015-2017 fiscal biennia, the Washington state ferries is required to use a minimum of five percent biodiesel as compared to total volume of all diesel purchases made by the Washington state ferries for the operation of the Washington state ferries diesel-

powered vessels, as long as the price of a B5 biodiesel blend does not exceed the price of conventional diesel fuel by five percent or more. [2015 1st sp.s. c 10 § 701; 2013 c 306 § 701; 2012 c 86 § 802; 2010 c 247 § 701; 2009 c 470 § 716; 2007 c 348 § 201; 2006 c 338 § 10; 2003 c 17 § 2.]

Findings—2003 c 17: "The legislature recognizes that:

- (1) Biodiesel is less polluting than petroleum diesel;
- (2) Using biodiesel in neat form or blended with petroleum diesel significantly reduces air toxics and cancer-causing compounds as well as the soot associated with petroleum diesel exhaust;
- (3) Biodiesel degrades much faster than petroleum diesel;
- (4) Biodiesel is less toxic than petroleum fuels;
- (5) The United States environmental protection agency's new emission standards for petroleum diesel that take effect June 1, 2006, will require the addition of a lubricant to ultra-low sulfur diesel to counteract premature wear of injection pumps;
- (6) Biodiesel provides the needed lubricity to ultra-low sulfur diesel;
- (7) Biodiesel use in state-owned diesel-powered vehicles provides a means for the state to comply with the alternative fuel vehicle purchase requirements of the energy policy act of 1992, P.L. 102-486; and
- (8) The state is in a position to set an example of large scale use of biodiesel in diesel-powered vehicles and equipment." [2003 c 17 § 1.]

43.19.647 Purchase of biofuels and biofuel blends—Contracting authority. (1) In order to allow the motor vehicle fuel needs of state and local government to be satisfied by Washington-produced biofuels as provided in this chapter, the department of enterprise services as well as local governments may contract in advance and execute contracts with public or private producers, suppliers, or other parties, for the purchase of appropriate biofuels, as that term is defined in RCW 43.325.010, and biofuel blends. Contract provisions may address items including, but not limited to, fuel standards, price, and delivery date.

(2) The department of enterprise services may combine the needs of local government agencies, including ports, special districts, school districts, and municipal corporations, for the purposes of executing contracts for biofuels and to secure a sufficient and stable supply of alternative fuels. 43.19.651 Fuel cells and renewable or alternative energy sources. (1) When planning for the capital construction or renovation of a state facility, state agencies shall consider the utilization of fuel cells and renewable or alternative

energy sources as a primary source of power for applications that require an uninterrupted power source.

(2) When planning the purchase of back-up or emergency power systems and remote power systems, state agencies shall consider the utilization of fuel cells and renewable or alternative energy sources instead of batteries or internal combustion engines.

(3) The director of enterprise services shall develop criteria by which state agencies can identify, evaluate, and develop potential fuel cell applications at state facilities.

(4) For the purposes of this section, "fuel cell" means an electrochemical reaction that generates electric energy by combining atoms of hydrogen and oxygen in the presence of a catalyst. [2015 c 225 § 66; 2003 c 340 § 1.]

43.19.670 Energy conservation—Definitions. As used in RCW 43.19.670 through 43.19.685, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "Energy audit" means a determination of the energy consumption characteristics of a facility which consists of the following elements:

(a) An energy consumption survey which identifies the type, amount, and rate of energy consumption of the facility and its major energy systems. This survey shall be made by the agency responsible for the facility.

(b) A walk-through survey which determines appropriate energy conservation maintenance and operating procedures and indicates the need, if any, for the acquisition and installation of energy conservation measures and energy management systems. This survey shall be made by the agency responsible for the facility if it has technically qualified personnel available. The director of enterprise services shall provide technically qualified personnel to the responsible agency if necessary.

(c) An investment grade audit, which is an intensive engineering analysis of energy conservation and management measures for the facility, net energy savings, and a cost-effectiveness determination.

(2) "Cost-effective energy conservation measures" means energy conservation measures that the investment grade audit concludes will generate savings sufficient to finance project loans of not more than ten years.

(3) "Energy conservation measure" means an installation or modification of an installation in a facility which is primarily intended to reduce energy consumption or allow the use of an alternative energy source, including:

(a) Insulation of the facility structure and systems within the facility;

(b) Storm windows and doors, multiglazed windows and doors, heat absorbing or heat reflective glazed and coated windows and door systems, additional glazing, reductions in glass area, and other window and door system modifications;

(c) Automatic energy control systems;

(d) Equipment required to operate variable steam, hydraulic, and ventilating systems adjusted by automatic energy control systems;

(e) Solar space heating or cooling systems, solar electric generating systems, or any combination thereof;

(f) Solar water heating systems;

(g) Furnace or utility plant and distribution system modifications including replacement burners, furnaces, and boilers which substantially increase the energy efficiency of the heating system; devices for modifying flue openings which will increase the energy efficiency of the heating system; electrical or mechanical furnace ignitions systems which replace standing gas pilot lights; and utility plant system conversion measures including conversion of existing oil- and gas-fired boiler installations to alternative energy sources;

(h) Caulking and weatherstripping;

(i) Replacement or modification of lighting fixtures which increase the energy efficiency of the lighting system;

(j) Energy recovery systems;

(k) Energy management systems; and

(l) Such other measures as the director finds will save a substantial amount of energy.

(4) "Energy conservation maintenance and operating procedure" means modification or modifications in the maintenance and operations of a facility, and any installations within the facility, which are designed to reduce energy consumption in the facility and which require no significant expenditure of funds.

(5) "Energy management system" has the definition contained in RCW 39.35.030.

(6) "Energy savings performance contracting" means the process authorized by chapter 39.35C RCW by which a company contracts with a state agency to conduct no-cost energy audits, guarantee savings from energy efficiency, provide financing for energy efficiency improvements, install or implement energy efficiency improvements, and agree to be paid for its investment solely from savings resulting from the energy efficiency improvements installed or implemented.

(7) "Energy service company" means a company or contractor providing energy savings performance contracting services.

(8) "Facility" means a building, a group of buildings served by a central energy distribution system, or components of a central energy distribution system.

(9) "Implementation plan" means the annual tasks and budget required to complete all acquisitions and installations necessary to satisfy the recommendations of the energy audit. [2015 c 225 § 67; 2001 c 214 § 25; 1982 c 48 § 1; 1980 c 172 § 3.]

43.19.691 Municipalities—Energy audits and efficiency. (1) Municipalities may conduct energy audits and implement cost-effective energy conservation measures among multiple government entities.

(2) All municipalities shall report to the department if they implemented or did not implement, during the previous biennium, cost-effective energy conservation measures

aggregated among multiple government entities. The reports must be submitted to the department by September 1, 2007, and by September 1, 2009. In collecting the reports, the department shall cooperate with the appropriate associations that represent municipalities.

(3) The department shall prepare a report summarizing the reports submitted by municipalities under subsection (2) of this section and shall report to the committee by December 31, 2007, and by December 31, 2009.

(4) For the purposes of this section, the following definitions apply:

(a) "Committee" means the joint committee on energy supply and energy conservation in chapter 44.39 RCW.

43.19.782 Loss prevention review team—Appointment—Duties. (1) The director shall appoint a loss prevention review team when the death of a person, serious injury to a person, or other substantial loss is alleged or suspected to be caused at least in part by the actions of a state agency, unless the director in his or her discretion determines that the incident does not merit review. A loss prevention review team may also be appointed when any other substantial loss occurs as a result of agency policies, litigation or defense practices, or other management practices. When the director decides not to appoint a loss prevention review team he or she shall issue a statement of the reasons for the director's decision. The statement shall be made available on the department's web site. The director's decision pursuant to this section to appoint or not appoint a loss prevention review team shall not be admitted into evidence in a civil or administrative proceeding.

(2) A loss prevention review team shall consist of at least three but no more than five persons, and may include independent consultants, contractors, or state employees, but it shall not include any person employed by the agency involved in the loss or risk of loss giving rise to the review, nor any person with testimonial knowledge of the incident to be reviewed. At least one member of the review team shall have expertise relevant to the matter under review.

(3) The loss prevention review team shall review the death, serious injury, or other incident and the circumstances surrounding it, evaluate its causes, and recommend steps to reduce the risk of such incidents occurring in the future. The loss prevention review team shall accomplish these tasks by

reviewing relevant documents, interviewing persons with relevant knowledge, and reporting its recommendations in writing to the director and the director of the agency involved in the loss or risk of loss within the time requested by the director. The final report shall not disclose the contents of any documents required by law to be kept confidential.

(4) Pursuant to guidelines established by the director, state agencies must notify the department immediately upon becoming aware of a death, serious injury, or other substantial loss that is alleged or suspected to be caused at least in part by the actions of the state agency. State agencies shall provide the loss prevention review team ready access to relevant documents in their possession and ready access to their employees. [2011 1st sp.s. c 43 § 508; 2002 c 333 § 2. Formerly RCW 43.41.370.]

Effective date—Purpose—2011 1st sp.s. c 43: See notes following RCW 43.19.003.

Intent—2002 c 333: "The legislature intends that when the death of a person, serious injury to a person, or other substantial loss is alleged or suspected to be caused at least in part by the actions of a state agency, a loss prevention review shall be conducted. The legislature recognizes the tension inherent in a loss prevention review and the need to balance the prevention of harm to the public with state agencies' accountability to the public. The legislature intends to minimize this tension and to foster open and frank discussions by granting members of the loss prevention review teams protection from having to testify, and by declaring a general rule that the work product of these teams is inadmissible in civil actions or administrative proceedings." [2002 c 333 § 1.]

43.19.783 Loss prevention review team—Final report—Use of report and testimony limited—Response report. (1) The final report from a loss prevention review team to the director shall be made public by the director promptly upon receipt, and shall be subject to public disclosure. The final report shall be subject to discovery in a civil or administrative proceeding. However, the final report shall not be admitted into evidence or otherwise used in a civil or administrative proceeding except pursuant to subsection (2) of this section.

(2) The relevant excerpt or excerpts from the final report of a loss prevention review team may be used to impeach a fact witness in a civil or administrative proceeding only if the party wishing to use the excerpt or excerpts from the report first shows the court by clear and convincing evidence that the witness, in testimony provided in deposition or at trial in the present proceeding, has contradicted his or her previous statements to the loss prevention review team on an issue of fact material to the present proceeding. In that case, the party may use only the excerpt or excerpts necessary to demonstrate the contradiction. This section shall not be interpreted as expanding the scope of material that may be used to impeach a witness.

(3) No member of a loss prevention review team may be examined in a civil or administrative proceeding as to (a) the work of the loss prevention review team, (b) the incident under review, (c) his or her statements, deliberations, thoughts, analyses, or impressions relating to the work of the loss prevention review team or the incident under review, or (d) the statements, deliberations, thoughts, analyses, or impressions of any other member of the loss prevention review team, or any person who provided information to it, relating to the work of the loss prevention review team or the incident under review.

(4) Any document that exists prior to the appointment of a loss prevention review team, or that is created independently of such a team, does not become inadmissible merely because it is reviewed or used by the loss prevention review team. A person does not become unavailable as a witness merely because the person has been interviewed by or has provided a statement to a loss prevention review team. However, if called as a witness, the person may not be examined regarding the person's interactions with the loss prevention review team, including without limitation whether the loss prevention review team interviewed the person, what questions the loss prevention review team asked, and what answers the person provided to the loss prevention review team. This section shall not be construed as restricting the person from testifying fully in any proceeding regarding his or her knowledge of the incident under review.

(5) Documents prepared by or for the loss prevention review team are inadmissible and may not be used in a civil or administrative proceeding, except that excerpts may be used to impeach the credibility of a witness under the same circumstances that excerpts of the final report may be used pursuant to subsection (2) of this section.

(6) The restrictions set forth in this section shall not apply in a licensing or disciplinary proceeding arising from an agency's effort to revoke or suspend the license of any licensed professional based in whole or in part upon allegations of wrongdoing in connection with the death, injury, or other incident reviewed by the loss prevention review team.

(7) Within one hundred twenty days after completion of the final report of a loss prevention review team, the agency under review shall issue to the department a response to the report. The response will indicate (a) which of the report's recommendations the agency hopes to implement, (b) whether implementation of those recommendations will require additional funding or legislation, and (c) whatever other information the director may require. This response shall be considered part of the final report and shall be subject to all provisions of this section that apply to the final report, including without limitation the restrictions on admissibility and use in civil or administrative proceedings and the obligation of the director to make the final report public.

(8) Nothing in *RCW 43.41.370 or this section is intended to limit the scope of a legislative inquiry into or review of an incident that is the subject of a loss prevention review.

(9) Nothing in *RCW 43.41.370 or in this section affects chapter 70.41 RCW and application of that chapter to state-owned or managed hospitals licensed under chapter 70.41 RCW. [2011 1st sp.s. c 43 § 509; 2002 c 333 § 3. Formerly RCW 43.41.380.]

(3) An agent or employee of an entity described by subsection (1) or (2) of this section, for purposes of official public business;

(4) Any other person or entity engaged in matters of official public business, however, such certificates shall be limited only to matters of official public business. The department may issue certificates to such persons or entities only if after issuing a request for proposals from certification authorities licensed under chapter 19.34 RCW and review of the submitted proposals, makes a determination that such private services are not sufficient to meet the department's published requirements. The department must set forth in writing the basis of any such determination and provide procedures for challenge of the determination as provided by the state procurement requirements; or

43.19.805 Inventory of state land resources—Developing and maintaining—Summaries.

The office of financial management shall provide by administrative regulation for the maintenance of an inventory of all state owned or controlled land resources by all state agencies owning or controlling land. That office shall cooperate with the state departments and agencies charged with administering state owned or controlled land resources to assist them in developing and maintaining land resources inventories that will permit their respective inventories to be summarized into meaningful reports for the purposes of providing executive agencies with information for planning, budgeting, and managing state owned or administered land resources and to provide the legislature, its members, committees, and staff with data needed for formulation of public policy.

Such departments or agencies shall maintain and make available such summary inventory information as may be prescribed by the rules of the office of financial management. That office shall give each affected department or agency specific written notice of hearings for consideration, adoption, or modification of such rules. All information submitted to that office under this section are a matter of public record

and shall be available from said agency upon request. [1981 c 157 § 5. Formerly RCW 43.41.150.]

(1) All state agencies shall purchase one hundred percent recycled content white cut sheet bond paper used in office printers and copiers. State agencies are encouraged to give priority to purchasing from companies that produce paper in facilities that generate energy from a renewable energy source.

(2) State agencies that utilize office printers and copiers that, after reasonable attempts, cannot be calibrated to utilize such paper referenced in subsection (1) of this section, must for those models of equipment:

(a) Purchase paper at the highest recycled content that can be utilized efficiently by the copier or printer;

(b) At the time of lease renewal or at the end of the life-cycle, either lease or purchase a model that will efficiently utilize one hundred percent recycled content white cut sheet bond paper.

(3) Printed projects that require the use of high volume production inserters or high-speed digital devices, such as those used by the department of enterprise services, are not required to meet the one hundred percent recycled content white cut sheet bond paper standard, but must utilize the highest recycled content that can be utilized efficiently by such equipment and not impede the business of agencies.

(1) Subject to the availability of amounts appropriated for this specific purpose, the department of ecology shall provide grants to emergency responders to assist with oil spill and hazardous materials response and firefighting equipment and resources needed to meet the requirements of chapter 274, Laws of 2015.

(2) For the purposes of determining grant allocations, the department of ecology, in consultation with emergency first responders, oil spill response cooperatives, representatives from the oil and rail industries, and businesses that are recipients of liquid bulk crude oil shall: (a) Conduct an evaluation of oil spill and hazardous materials response and firefighting equipment and resources currently available for oil spill and hazardous materials response activities throughout the state; (b) review the local emergency management coordinating efforts for oil spill and hazardous materials response; (c) determine the need for additional, new, or updated equipment and resources; and (d) identify areas or regions of the state that are in greatest need of resources and oil spill and hazardous materials response and firefighting equipment.

(3) The department of ecology, in consultation with emergency first responders, oil spill response cooperatives, representatives from the oil and rail industries, and businesses that are recipients of liquid bulk crude oil shall review grant applications to prioritize grant awards using the evaluation of availability of oil spill and hazardous materials response and firefighting equipment and resources as determined in subsection (2) of this section.

(a) The application review must include evaluation of equipment and resource requests, funding requirements, and coordination with existing equipment and resources in the area.

(b) Funding must be prioritized for applicants from areas where the need for firefighting and oil spill and hazardous materials response equipment is the greatest as determined in subsection (2) of this section.

43.21C.480 Repair or replacement of structurally deficient state bridges exempt from chapter.

43.21C.470 Categorical exemption for structurally deficient bridges—Definition. (1) The department [of ecology] must amend the categorical exemption available to Washington department of transportation projects under WAC 197-11-800(26) as of July 24, 2015, so that the same categorical exemption applies to structurally deficient city, town, or county bridge repair or replacement projects.

(2) For purposes of this section, "structurally deficient" means a bridge that is classified as in poor condition under the state bridge condition rating system and is reported by the state to the national bridge inventory as having a deck, superstructure, or substructure rating of four or below. Structurally deficient bridges are characterized by deteriorated conditions of significant bridge elements and potentially reduced load-carrying capacity. Bridges deemed structurally deficient typically require significant maintenance and repair to remain in service, and require major rehabilitation or replacement to address the underlying deficiency. [2015 c 144 § 1.]

43.21C.480 Repair or replacement of structurally deficient state bridges exempt from chapter. The repair or replacement of a state bridge deemed structurally deficient, as defined in RCW 47.04.010, is exempt from compliance with this chapter as long as the action occurs within the existing right-of-way, except that the repair or replacement may occur outside the existing right-of-way as needed to meet current engineering standards or state or local environmental permit requirements for highway construction as long as the repair or replacement does not result in additional lanes for automobiles. The issuance of applicable state and local agency permits or approvals associated with the repair or replacement of such bridges is also included in this exemption from compliance with this chapter. [2015 3rd sp.s. c 10 § 2.]

Effective date—2015 3rd sp.s. c 10: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [July 6, 2015]." [2015 3rd sp.s. c 10 § 5.]

Findings—Intent—2015 3rd sp.s. c 10: "The legislature finds that, as of November 2014, there were one hundred thirty state-owned bridges classified as structurally deficient. The legislature further finds that a span of the Skagit river bridge on Interstate 5, the Trooper Sean M. O'Connell Jr. Memorial bridge, recently collapsed when an oversized load struck the trusses that supported the bridge. Although the Skagit river bridge was not considered structurally deficient, this event underscores the importance of remedying bridge structural deficiencies as efficiently and expeditiously as possible. Thus, it is the intent of the legislature to provide for expedited permitting and contracting for state bridges identified as structurally deficient by the Washington state department of transportation." (1) By January 31st of each year, state agencies employing one hundred or more people must submit the report described in subsection (2) of this section to the human resources director, with copies to the director of the department of social and health services' division of vocational rehabilitation and the governor's disability employment task force.

(2) The report must include the following information:

(a) The number of employees from the previous calendar year;

(b) The number of employees classified as individuals with disabilities;

(c) The number of employees that separated from the state agency the previous year;

(d) The number of employees that were hired by the state agency the previous year;

(e) The number of employees hired from the division of vocational rehabilitation services and from the department of the services for the blind the previous year;

(f) The number of planned hires for the current year; and

(g) Opportunities for internships for the department of social and health services' division of vocational rehabilitation and developmental disabilities administration, and the department of the services for the blind client placement, leading to an entry-level position placement upon successful completion for the current year. [2015 c 204 § 3.]

Short title—2015 c 204: "This act may be known and cited as the state disability employment parity act." [2015 c 204 § 1.]

Findings—Intent—2015 c 204: The legislature finds that eleven percent of working age adults and thirteen percent of the state's total population consists of persons with disabilities, that persons with disabilities suffer significantly higher rates of unemployment and underemployment than in the general population, and that representation of disabled persons in the state

workforce has declined in recent years, but has increased during the last year. The legislature further finds that there is no policy similar to Schedule A in the federal civil service system for priority hiring of persons with disabilities. Therefore, the legislature intends to increase the hiring of persons with disabilities in the state workforce." [2015 c 204 § 2.]

43.43.285 Special death benefit—Course of employment—Occupational disease or infection—Annual adjustment. (1) A two hundred fourteen thousand dollar death benefit shall be paid to the member's estate, or such person or persons, trust or organization as the member shall have nominated by written designation duly executed and filed with the department. If there be no such designated person or persons still living at the time of the member's death, such member's death benefit shall be paid to the member's surviving spouse or domestic partner as if in fact such spouse or domestic partner had been nominated by written designation, or if there be no such surviving spouse or domestic partner, then to such member's legal representatives.

(2)(a) The benefit under this section shall be paid only where death occurs as a result of (i) injuries sustained in the course of employment; or (ii) an occupational disease or infection that arises naturally and proximately out of employment covered under this chapter. The determination of eligibility for the benefit shall be made consistent with Title 51 RCW by the department of labor and industries. The department of labor and industries shall notify the department of retirement systems by order under RCW 51.52.050.

(b) The retirement allowance paid to the spouse or domestic partner and dependent children of a member who is killed in the course of employment, as set forth in RCW 41.05.011(5), shall include reimbursement for any payments of premium rates to the Washington state health care authority under RCW 41.05.080.

(3)(a) Beginning July 1, 2010, and every year thereafter, the department shall determine the following information:

(i) The index for the 2008 calendar year, to be known as "index A";

(ii) The index for the calendar year prior to the date of determination, to be known as "index B"; and

(iii) The ratio obtained when index B is divided by index A.

(b) The value of the ratio obtained shall be the annual adjustment to the original death benefit and shall be applied beginning every July 1st. In no event, however, shall the annual adjustment:

(i) Produce a benefit which is lower than two hundred fourteen thousand dollars;

(ii) Exceed three percent in the initial annual adjustment; or

(iii) Differ from the previous year's annual adjustment by more than three percent.

(c) For the purposes of this section, "index" means, for any calendar year, that year's average consumer price index — Seattle, Washington area for urban wage earners and clerical workers, all items, compiled by the bureau of labor statistics, United States department of labor.

(4) In addition to the survivor benefit payable under RCW 43.43.270 or 43.43.271, if the surviving spouse or domestic partner of a member whose death occurs as a result of (a) injuries sustained in the course of employment; or (b) an occupational disease or infection that arises naturally and proximately out of employment covered under this chapter is not eligible to receive industrial insurance payments pursuant to RCW 51.32.050 due to remarriage, the surviving spouse or domestic partner shall receive an amount equal to the benefit they would receive pursuant to RCW 51.32.050 but for the remarriage. This subsection applies to surviving spouses whose benefits under RCW 51.32.050 were suspended or terminated due to remarriage prior to July 24, 2015. The monthly payments to any surviving spouse or domestic partner who received a lump sum payment pursuant to RCW 51.32.050 shall be actuarially reduced to reflect the amount of the lump sum payment. [2015 c 78 § 2; 2010 c 261 § 7; 2009 c 522 § 7. Prior: 2007 c 488 § 1; 2007 c 487 § 9; 1996 c 226 § 2.]

Application—2010 c 261: See note following RCW 41.26.048.

Short title—2007 c 488: "This act shall be known as "The Steve Frink and Jim Saunderson's Law" in honor of Steve Frink and Jim Saunders, Washington state patrol officers who were killed in the line of duty." [2007 c 488 § 5.]

43.43.315 Optional actuarially equivalent life annuity benefit. (1) At the time of retirement, members may purchase an optional actuarially equivalent life annuity benefit from the Washington state patrol retirement fund established in RCW 43.43.130. A minimum payment of twenty-five thousand dollars is required.

[2015 RCW Supp—page 512]

(2) Subject to rules adopted by the department, a member purchasing an annuity under this section must pay all of the cost with an eligible rollover, direct rollover, or trustee-to-trustee transfer from an eligible retirement plan.

(a) The department shall adopt rules to ensure that all eligible rollovers and transfers comply with the requirements of the internal revenue code and regulations adopted by the internal revenue service. The rules adopted by the department may condition the acceptance of a rollover or transfer from another plan on the receipt of information necessary to enable the department to determine the eligibility of any transferred funds for tax-free rollover treatment or other treatment under federal income tax law.

(b) "Eligible retirement plan" means a tax qualified plan offered by a governmental employer. [2015 c 111 § 1.]

43.43.395 Ignition interlock devices—Standards—Compliance. (1) The state patrol shall by rule provide standards for the certification, installation, repair, maintenance, monitoring, inspection, and removal of ignition interlock devices, as defined under RCW 46.04.215, and equipment as outlined under this section, and may inspect the records and equipment of manufacturers and vendors during regular business hours for compliance with statutes and rules and may suspend or revoke certification for any noncompliance.

(2)(a) When a certified service provider or individual installer of ignition interlock devices is found to be out of compliance, the installation privileges of that certified service provider or individual installer may be suspended or revoked until the certified service provider or individual installer comes into compliance. During any suspension or revocation period, the certified service provider or individual installer is responsible for notifying affected customers of any changes in their service agreement.

(b) A certified service provider or individual installer whose certification is suspended or revoked for noncompliance has a right to an administrative hearing under chapter 34.05 RCW to contest the suspension or revocation, or both. For the administrative hearing, the procedure and rules of evidence are as specified in chapter 34.05 RCW, except as otherwise provided in this chapter. Any request for an administrative hearing must be made in writing and must be received by the state patrol within twenty days after the receipt of the notice of suspension or revocation.

(3)(a) An ignition interlock device must employ:

(i) Fuel cell technology. For the purposes of this subsection, "fuel cell technology" consists of the following electrochemical method: An electrolyte designed to oxidize the alcohol and release electrons to be collected by an active electrode; a current flow is generated within the electrode proportional to the amount of alcohol oxidized on the fuel cell surface; and the electrical current is measured and reported as breath alcohol concentration. Fuel cell technology is highly specific for alcohols;

(ii) Technology capable of taking a photo identification of the user giving the breath sample and recording on the photo the time the breath sample was given; and

(iii) Technology capable of providing the global positioning coordinates at the time of each test sequence. Such coordinates must be displayed within the data log that is downloaded by the manufacturer and must be made available

to the state patrol to be used for circumvention and tampering investigations.

(b) To be certified, an ignition interlock device must:

(i) Meet or exceed the minimum test standards according to rules adopted by the state patrol. Only a notarized statement from a laboratory that is accredited and certified under the current edition of ISO (the international organization of standardization) 17025 standard for testing and calibration laboratories and is capable of performing the tests specified will be accepted as proof of meeting or exceeding the standards. The notarized statement must include the name and signature of the person in charge of the tests under the certification statement. The state patrol must adopt by rule the required language of the certification statement that must, at a minimum, outline that the testing meets or exceeds all specifications listed in the federal register adopted in rule by the state patrol; and

(ii) Be maintained in accordance with the rules and standards adopted by the state patrol. [2015 2nd sp.s. c 3 § 11; 2013 2nd sp.s. c 35 § 9; 2012 c 183 § 16; 2010 c 268 § 2.]

Finding—Intent—2015 2nd sp.s. c 3: See note following RCW 10.21.055.

Effective date—2012 c 183: See note following RCW 2.28.175.

43.43.690 Crime laboratory analysis fee—Court imposition—Collection. (1) When an adult offender has been adjudged guilty of violating any criminal statute of this state and a crime laboratory analysis was performed by a state crime laboratory, in addition to any other disposition, penalty, or fine imposed, the court shall levy a crime laboratory analysis fee of one hundred dollars for each offense for which the person was convicted. Upon a verified petition by the person assessed the fee, the court may suspend payment of all or part of the fee if it finds that the person does not have the ability to pay the fee.

(2) All crime laboratory analysis fees assessed under this section shall be collected by the clerk of the court and forwarded to the state general fund, to be used only for crime laboratories. The clerk may retain five dollars to defray the costs of collecting the fees. [2015 c 265 § 30; 1992 c 129 § 2.]

Finding—Intent—2015 c 265: See note following RCW 13.50.010.

43.43.754 DNA identification system—Biological samples—Collection, use, testing—Scope and application of section. (1) A biological sample must be collected for purposes of DNA identification analysis from:

(a) Every adult or juvenile individual convicted of a felony, or any of the following crimes (or equivalent juvenile offenses):

Assault in the fourth degree with sexual motivation (RCW 9A.36.041, 9.94A.835)

Communication with a minor for immoral purposes (RCW 9.68A.090)

Custodial sexual misconduct in the second degree (RCW 9A.44.170)

Failure to register (*RCW 9A.44.130 for persons convicted on or before June 10, 2010, and RCW 9A.44.132 for persons convicted after June 10, 2010)

Harassment (RCW 9A.46.020)

Patronizing a prostitute (RCW 9A.88.110)

Sexual misconduct with a minor in the second degree (RCW 9A.44.096)

Stalking (RCW 9A.46.110)

Violation of a sexual assault protection order granted under chapter 7.90 RCW; and

(b) Every adult or juvenile individual who is required to register under RCW 9A.44.130.

(2) If the Washington state patrol crime laboratory already has a DNA sample from an individual for a qualifying offense, a subsequent submission is not required to be submitted.

(3) Biological samples shall be collected in the following manner:

(a) For persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense who do not serve a term of confinement in a department of corrections facility, and do serve a term of confinement in a city or county jail facility, the city or county shall be responsible for obtaining the biological samples.

(b) The local police department or sheriff's office shall be responsible for obtaining the biological samples for:

(i) Persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense who do not serve a term of confinement in a department of corrections facility, and do not serve a term of confinement in a city or county jail facility; and

(ii) Persons who are required to register under RCW 9A.44.130.

(c) For persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense, who are serving or who are to serve a term of confinement in a department of corrections facility or a department of social and health services facility, the facility holding the person shall be responsible for obtaining the biological samples. For those persons incarcerated before June 12, 2008, who have not yet had a biological sample collected, priority shall be given to those persons who will be released the soonest.

(4) Any biological sample taken pursuant to RCW 43.43.752 through 43.43.758 may be retained by the forensic laboratory services bureau, and shall be used solely for the purpose of providing DNA or other tests for identification analysis and prosecution of a criminal offense or for the identification of human remains or missing persons. Nothing in this section prohibits the submission of results derived from the biological samples to the federal bureau of investigation combined DNA index system.

(5) The forensic laboratory services bureau of the Washington state patrol is responsible for testing performed on all biological samples that are collected under subsection (1) of this section, to the extent allowed by funding available for this purpose. The director shall give priority to testing on samples collected from those adults or juveniles convicted of a felony or adjudicated guilty of an equivalent juvenile offense that is defined as a sex offense or a violent offense in RCW 9.94A.030. Known duplicate samples may be excluded from testing unless testing is deemed necessary or advisable by the director.

(6) This section applies to:

(a) All adults and juveniles to whom this section applied prior to June 12, 2008;

(b) All adults and juveniles to whom this section did not apply prior to June 12, 2008, who:

(i) Are convicted on or after June 12, 2008, of an offense listed in subsection (1)(a) of this section; or

(ii) Were convicted prior to June 12, 2008, of an offense listed in subsection (1)(a) of this section and are still incarcerated on or after June 12, 2008; and

(c) All adults and juveniles who are required to register under RCW 9A.44.130 on or after June 12, 2008, whether convicted before, on, or after June 12, 2008.

(7) This section creates no rights in a third person. No cause of action may be brought based upon the noncollection or nonanalysis or the delayed collection or analysis of a biological sample authorized to be taken under RCW 43.43.752 through 43.43.758.

(8) The detention, arrest, or conviction of a person based upon a database match or database information is not invalidated if it is determined that the sample was obtained or placed in the database by mistake, or if the conviction or juvenile adjudication that resulted in the collection of the biological sample was subsequently vacated or otherwise altered in any future proceeding including but not limited to posttrial or postfact-finding motions, appeals, or collateral attacks.

(9) A person commits the crime of refusal to provide DNA if the person has a duty to register under RCW 9A.44.130 and the person willfully refuses to comply with a legal request for a DNA sample as required under this section. The refusal to provide DNA is a gross misdemeanor. [2015 c 261 § 10; 2008 c 97 § 2; 2002 c 289 § 2; 1999 c 329 § 2; 1994 c 271 § 402; 1990 c 230 § 3; 1989 c 350 § 4.]

***Reviser's note:** 2010 c 267 removed from RCW 9A.44.130 provisions relating to the crime of "failure to register" as a sex offender or kidnapping offender, and placed similar provisions in RCW 9A.44.132.

Findings—1999 c 329: "The legislature finds it necessary to expand the current pool of convicted offenders who must have a blood sample drawn for purposes of DNA identification analysis. The legislature further finds that there is a high rate of recidivism among certain types of violent and sex offenders and that drawing blood is minimally intrusive. Creating an expanded DNA data bank bears a rational relationship to the public's interest in enabling law enforcement to better identify convicted violent and sex offenders who are involved in unsolved crimes, who escape to reoffend, and who reoffend after release." [1999 c 329 § 1.]

Finding—1994 c 271: "The legislature finds that DNA identification analysis is an accurate and useful law enforcement tool for identifying and prosecuting sexual and violent offenders. The legislature further finds no compelling reason to exclude juvenile sexual and juvenile violent offenders from DNA identification analysis." [1994 c 271 § 401.]

Purpose—Severability—1994 c 271: See notes following RCW 9A.28.020.

Finding—Funding limitations—1989 c 350: See notes following RCW 43.43.752.

43.43.7541 DNA identification system—Collection of biological samples—Fee. Every sentence imposed for a crime specified in RCW 43.43.754 must include a fee of one hundred dollars. The fee is a court-ordered legal financial obligation as defined in RCW 9.94A.030 and other applicable law. For a sentence imposed under chapter 9.94A RCW, the fee is payable by the offender after payment of all other legal financial obligations included in the sentence has been completed. For all other sentences, the fee is payable by the offender in the same manner as other assessments imposed. The clerk of the court shall transmit eighty percent of the fee

collected to the state treasurer for deposit in the state DNA database account created under RCW 43.43.7532, and shall transmit twenty percent of the fee collected to the agency responsible for collection of a biological sample from the offender as required under RCW 43.43.754. This fee shall not be imposed on juvenile offenders if the state has previously collected the juvenile offender's DNA as a result of a prior conviction. [2015 c 265 § 31; 2011 c 125 § 1; 2008 c 97 § 3; 2002 c 289 § 4.]

Finding—Intent—2015 c 265: See note following RCW 13.50.010.

43.43.839 Fingerprint identification account. The fingerprint identification account is created in the custody of the state treasurer. All receipts from incremental charges of fingerprint checks requested for noncriminal justice purposes and electronic background requests shall be deposited in the account. Receipts for fingerprint checks by the federal bureau of investigation may also be deposited in the account. Expenditures from the account may be used only for the cost of record checks. Only the chief of the state patrol or the chief's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW. No appropriation is required for expenditures prior to July 1, 1997. After June 30, 1997, the account shall be subject to appropriation. During the 2009-2011 fiscal biennium, the legislature may transfer from the fingerprint identification account to the state general fund such amounts as reflect the excess fund balance of the account. During the 2013-2015 fiscal biennium, funds in the account may be used for expenditures that support the criminal records management division of the state patrol. During the 2015-2017 fiscal biennium, funds in the account may be used for expenditures related to the upgrade of the state patrol's criminal history system. 43.43.934 Director of fire protection—Duties. The director of fire protection shall:

(1)(a)(i) With the state board for community and technical colleges, provide academic, vocational, and field training programs for the fire service; and (ii) with the state colleges and universities, provide instructional programs requiring advanced training, especially in command and management skills;

(b) Cooperate with the common schools, technical and community colleges, institutions of higher education, and any department or division of the state, or of any county or municipal corporation in establishing and maintaining instruction in fire service training and education in accordance with any act of congress and legislation enacted by the legislature in pursuance thereof and in establishing, building, and operating training and education facilities.

Industrial fire departments and private fire investigators may participate in training and education programs under this chapter for a reasonable fee established by rule;

(c) Develop and adopt a master plan for constructing, equipping, maintaining, and operating necessary fire service training and education facilities subject to the provisions of *chapter 43.19 RCW;

(d) Develop and adopt a master plan for the purchase, lease, or other acquisition of real estate necessary for fire service training and education facilities in a manner provided by law; and

(e)(i) Develop and adopt a plan for the Washington state patrol fire training academy to deliver basic firefighter training and testing to all city fire departments, fire protection districts, regional fire protection service authorities, and other public fire agencies in the state. The plan required by this subsection (1)(e) must specify that the delivery of training and testing services will be provided:

(A) To recipients in the following order of priority:

(I) Volunteer departments;

(II) Combination departments; and

(III) Fire agencies that employ only career firefighters and fire officers; and

(B) By personnel of the fire training academy, either at the academy's facilities in North Bend, Washington, or regionally at local fire agencies.

(ii)(A) In lieu of receiving training and testing services from the fire training academy, city fire departments, fire protection districts, regional fire protection service authorities, and other public fire agencies in the state may seek reimbursement for their firefighter I training expenses. The amount of reimbursement will be calculated on a per capita basis. The per capita amount is equal to the three-year statewide firefighter per capita average for the regional direct delivery of training by the fire training academy. The three-year statewide firefighter per capita average is calculated by dividing the number of firefighters trained using the regional direct delivery program during the three-year period into the total cost of providing regional direct delivery during the same three-year period. The regional direct delivery costs used for the basis of these calculations does not include the costs of the fire training academy personnel used to coordinate the direct delivery programs, the state's indirect costs, or any other indirect costs.

(B) Prior to the implementation of the reimbursement provisions in (e)(ii)(A) of this subsection, the amount of reimbursement for city fire departments, fire protection districts, regional fire protection service authorities, and other public fire agencies must be not less than three dollars for every one hour of firefighter I training, and may not exceed two hundred hours.

(iii) Subject to approval by the director of fire protection, and in accordance with the plan required by this subsection (1)(e), the fire training academy facilities and programs must be made available at no cost to fire service youth programs. The goal of making these facilities and programs available is to increase enrollment of volunteer firefighters, and to improve gender, cultural, and ethnic diversity within the fire service.

(iv) For purposes of this subsection (1)(e), the following definitions apply:

(A) "Basic firefighter training and testing" means training and testing for firefighters that is up to and includes the requirements of firefighter I, as identified by the national fire protection association standard 1001;

(B) "Combination department" means a fire department with emergency service personnel comprising less than eighty-five percent of either volunteer or career membership;

(C) "Delivery of training" includes all resources, personnel, and equipment necessary to deliver training at the fire academy in North Bend, Washington, or regionally at local fire agencies; and

(D) "Volunteer department" means a fire department with volunteer emergency service personnel comprising eighty-five percent or greater of its department membership.

(2)(a) Promote mutual aid and disaster planning for fire services in this state;

(b) Assure the dissemination of information concerning the amount of fire damage including that damage caused by arson, and its causes and prevention; and

(c) Implement any legislation enacted by the legislature to meet the requirements of any acts of congress that apply to this section.

(3) In carrying out its statutory duties, the office of the state fire marshal shall give particular consideration to the appropriate roles to be played by the state and by local jurisdictions with fire protection responsibilities. Any determinations on the division of responsibility shall be made in consultation with local fire officials and their representatives.

To the extent possible, the office of the state fire marshal shall encourage development of regional units along compatible geographic, population, economic, and fire risk dimensions. Such regional units may serve to: (a) Reinforce coordination among state and local activities in fire service training, reporting, inspections, and investigations; (b) identify areas of special need, particularly in smaller jurisdictions with inadequate resources; (c) assist the state in its oversight responsibilities; (d) identify funding needs and options at both the state and local levels; and (e) provide models for building local capacity in fire protection programs. (1) "All risk resources" means those resources regularly provided by fire departments, fire districts, and regional fire

protection service authorities required to respond to natural or man-made incidents, including but not limited to:

- (a) Wild land fires;
- (b) Landslides;
- (c) Earthquakes;
- (d) Floods; and
- (e) Contagious diseases.

(2) "Chief" means the chief of the Washington state patrol.

(3) "Fire chief" includes the chief officer of a statutorily authorized fire agency, or the fire chief's authorized representative. Also included are the department of natural resources fire control chief, and the department of natural resources regional managers.

(4) "Jurisdiction" means state, county, city, fire district, regional fire protection service authority, or port district units, or other units covered by this chapter.

(5) "Mobilization" means that all risk resources regularly provided by fire departments, fire districts, and regional fire protection service authorities beyond those available through existing agreements will be requested and, when available, sent in response to an emergency or disaster situation that has exceeded the capabilities of available local resources. During a large scale emergency, mobilization includes the redistribution of regional or statewide risk resources to either direct emergency incident assignments or to assignment in communities where resources are needed. Fire department resources may not be mobilized to assist law enforcement with police activities during a civil protest or demonstration, however, fire departments, fire districts, and regional fire protection service authorities are not restricted from providing medical care or aid and firefighting when mobilized for any purpose.

When mobilization is declared and authorized as provided in this chapter, all risk resources regularly provided by fire departments, fire districts, and regional fire protection service authorities including those of the host fire protection authorities, i.e. incident jurisdiction, shall be deemed as mobilized under this chapter, including those that responded earlier under existing mutual aid or other agreement. All non-host fire protection authorities providing resources in response to a mobilization declaration shall be eligible for expense reimbursement as provided by this chapter from the time of the mobilization declaration.

This chapter shall not reduce or suspend the authority or responsibility of the department of natural resources under chapter 76.04 RCW.

(6) "Mutual aid" means emergency interagency assistance provided without compensation under an agreement between jurisdictions under chapter 39.34 RCW.

(7) "State fire marshal" means the director of fire protection in the Washington state patrol. [2015 c 181 § 2; 2003 c 405 § 1; 1997 c 49 § 8. Prior: 1995 c 391 § 5; 1995 c 369 § 10; 1992 c 117 § 9. Formerly RCW 38.54.010.]

43.43.961 State fire service mobilization—Legislative declaration and intent. (Effective until July 1, 2019.) Because of the possibility of the occurrence of disastrous fires or other disasters of unprecedented size and destructiveness, the need to insure that the state is adequately prepared to respond to such a fire or disaster, the need to establish a mechanism and a procedure to provide for reimbursement to state agencies and local agencies that respond to help others in time of need or to a host fire district that experiences expenses beyond the resources of the fire district, and generally to protect the public peace, health, safety, lives, and property of the people of Washington, it is hereby declared necessary to:

(1) Provide the policy and organizational structure for large scale mobilization of all risk resources in the state through creation of the Washington state fire services mobilization plan;

(2) Confer upon the chief the powers provided herein;

(3) Provide a means for reimbursement to state agencies and local fire jurisdictions that incur expenses when mobilized by the chief under the Washington state fire services mobilization plan; and

(4) Provide for reimbursement of the host fire department or fire protection district when it has: (a) Exhausted all of its resources; and (b) invoked its local mutual aid network and exhausted those resources. Upon implementation of state fire mobilization, the host district resources shall become state fire mobilization resources consistent with the fire mobilization plan.

It is the intent of the legislature that mutual aid and other interlocal agreements providing for enhanced emergency response be encouraged as essential to the public peace, safety, health, and welfare, and for the protection of the lives and property of the people of the state of Washington. If possible, mutual aid agreements should be without stated limitations as to resources available, time, or area. Nothing in this chapter shall be construed or interpreted to limit the eligibility of any nonhost fire protection authority for reimbursement of expenses incurred in providing all risk resources for mobilization provided that the mobilization must meet the requirements identified in the Washington state fire service mobilization plan. [2015 c 181 § 3; 2003 c 405 § 2; 1997 c 49 § 9; 1995 c 391 § 6; 1992 c 117 § 10. Formerly RCW 38.54.020.]

43.43.965 State fire service mobilization—Plan use for purposes other than fire suppression—Annual report. (Expires July 1, 2019.) The chief of the Washington state patrol must report on an annual basis the following information for each emergency or disaster in which the Washington state fire service mobilization plan was used for purposes other than fire suppression, and reimbursement was made under RCW 43.43.961:

(1) The type and nature of the disaster or emergency;

(2) The reasons why the host jurisdiction and mutual aid resources were exhausted;

(3) The additional risk resources provided under the mobilization plan;

(4) The cost incurred by the state patrol;

(5) The amount of reimbursement made under RCW 43.43.961 to the host jurisdiction and to each nonhost jurisdiction providing all risk resources; and

(6) An assessment and any recommendations of actions that can be taken by the host jurisdiction and its mutual aid network to prevent future use of the fire mobilization plan for similar disasters or emergencies. [2015 c 181 § 4.]

Intent—2015 c 181: "The legislature recognizes the vital role that our state's fire service personnel play in responding not just to fires but to disasters of varying types and kinds. The legislature further recognizes that the fire service mobilization plan may be a more effective tool for use in all emergencies and disasters to which fire departments, fire districts, and regional fire protection service authorities typically respond. It is the intent of the legislature that state fire service mobilization be allowed in all incidents to which fire departments, fire districts, and regional fire protection service authorities typically respond, so long as the mobilization meets the requirements identified in the Washington state fire service mobilization plan. It is the intent of the legislature to review the use of the fire mobilization plan for emergencies and disasters other than fire suppression to determine if this policy should continue or be modified." [2015 c 181 § 1.]

Expiration date—2015 c 181: "This act expires July 1, 2019." [2015 c 181 § 5.]

(*Expires June 30, 2019.*) (1) Within amounts appropriated to the traffic safety commission, the commission must convene a pedestrian safety advisory council comprised of stakeholders who have a unique interest or expertise in pedestrian and road safety.

(2) The purpose of the council is to review and analyze data related to pedestrian fatalities and serious injuries to identify points at which the transportation system can be improved and to identify patterns in pedestrian fatalities and serious injuries.

(3)(a) The council may include, but is not limited to:

(i) A representative from the commission;

(ii) A coroner from the county in which the most pedestrian deaths have occurred;

(iii) A representative from the Washington association of sheriffs and police chiefs;

(iv) Multiple members of law enforcement who have investigated pedestrian fatalities;

(v) A traffic engineer;

(vi) A representative from the department of transportation;

(vii) A representative of cities, and up to two stakeholders, chosen by the council, who represent municipalities in which at least one pedestrian fatality has occurred in the previous three years; and

(viii) A representative from a pedestrian advocacy group.

(b) The commission may invite other representatives of stakeholder groups to participate in the council as deemed appropriate by the commission. Additionally, the commission may invite a victim or family member of a victim to participate in the council.

(4) The council must meet at least quarterly. By December 31st of each year, the council must issue an annual report detailing any findings and recommendations to the governor and the transportation committees of the legislature. The commission must provide the annual report electronically to all municipal governments and state agencies that participated in the council during that calendar year. Additionally, the council must report any budgetary or fiscal recommendations to the office of financial management and the legislature by August 1st on a biennial basis.

(5) As part of the review of pedestrian fatalities and serious injuries that occur in Washington, the council may review any available information, including accident information maintained in existing databases; statutes, rules, policies, or ordinances governing pedestrians and traffic related to the incidents; and any other relevant information. The council may make recommendations regarding changes in statutes, ordinances, rules, and policies that could improve pedestrian safety. Additionally, the council may make recommendations on how to improve traffic fatality and serious injury data quality.

(6)(a) Documents prepared by or for the council are inadmissible and may not be used in a civil or administrative proceeding, except that any document that exists before its use or consideration in a review by the council, or that is created independently of such review, does not become inadmissible merely because it is reviewed or used by the council. For confidential information, such as personally identifiable information and medical records, which are obtained by the council, neither the commission nor the council may publicly disclose such confidential information. No person who was in attendance at a meeting of the council or who participated in the creation, retention, collection, or maintenance of information or documents specifically for the commission or the council shall be permitted to testify in any civil action as to the content of such proceedings or of the documents and information prepared specifically as part of the activities of the council. However, recommendations from the council and the commission generally may be disclosed without personal identifiers.

(b) The council may review, only to the extent otherwise permitted by law or court rule when determined to be relevant and necessary: Any law enforcement incident documenta-

tion, such as incident reports, dispatch records, and victim, witness, and suspect statements; any supplemental reports, probable cause statements, and 911 call taker's reports; and any other information determined to be relevant to the review. The commission and the council must maintain the confidentiality of such information to the extent required by any applicable law.

(7) If acting in good faith, without malice, and within the parameters of and protocols established under this chapter, representatives of the commission and the council are immune from civil liability for an activity related to reviews of particular fatalities and serious injuries.

(8) This section must not be construed to provide a private civil cause of action.

(9)(a) The council may receive gifts, grants, or endowments from public or private sources that are made from time to time, in trust or otherwise, for the use and benefit of the purposes of the council and spend the gifts, grants, or endowments from the public or private sources according to their terms, unless the receipt of the gifts, grants, or endowments violates RCW 42.17A.560.

(b) Subject to the appropriation of funds for this specific purpose, the council may provide grants targeted at improving pedestrian safety in accordance with recommendations made by the council.

(10) By December 1, 2018, the council must report to the transportation committees of the legislature on the strategies that have been deployed to improve pedestrian safety by the council and make a recommendation as to whether the council should be continued and if there are any improvements the legislature can make to improve the council.

(b) A professional listed in (a) of this subsection must complete the one-time training by the end of the first full continuing education reporting period after January 1, 2016, or

during the first full continuing education reporting period after initial licensure, whichever is later. Training completed between June 12, 2014, and January 1, 2016, that meets the requirements of this section, other than the timing requirements of this subsection (5)(b), must be accepted by the disciplining authority as meeting the one-time training requirement of this subsection (5).

(c) The training required by this subsection must be at least six hours in length, unless a disciplining authority has determined, under subsection (9)(b) of this section, that training that includes only screening and referral elements is appropriate for the profession in question, in which case the training must be at least three hours in length.

(d) Beginning July 1, 2017, the training required by this subsection must be on the model list developed under subsection (6) of this section. Nothing in this subsection (5)(d) affects the validity of training completed prior to July 1, 2017.

(6)(a) The secretary and the disciplining authorities shall work collaboratively to develop a model list of training programs in suicide assessment, treatment, and management.

(b) The secretary and the disciplining authorities shall update the list at least once every two years.

(c) By June 30, 2016, the department shall adopt rules establishing minimum standards for the training programs included on the model list. The minimum standards must require that six-hour trainings include content specific to veterans and the assessment of issues related to imminent harm via lethal means or self-injurious behaviors. When adopting the rules required under this subsection (6)(c), the department shall:

- (i) Consult with the affected disciplining authorities, public and private institutions of higher education, educators, experts in suicide assessment, treatment, and management, the Washington department of veterans affairs, and affected professional associations; and
- (ii) Consider standards related to the best practices registry of the American foundation for suicide prevention and the suicide prevention resource center.

(d) Beginning January 1, 2017:

- (i) The model list must include only trainings that meet the minimum standards established in the rules adopted under (c) of this subsection and any three-hour trainings that met the requirements of this section on or before July 24, 2015;
- (ii) The model list must include six-hour trainings in suicide assessment, treatment, and management, and three-hour trainings that include only screening and referral elements; and

(iii) A person or entity providing the training required in this section may petition the department for inclusion on the model list. The department shall add the training to the list only if the department determines that the training meets the minimum standards established in the rules adopted under (c) of this subsection.

(7) The department shall provide the health profession training standards created in this section to the professional education [educator] standards board as a model in meeting the requirements of RCW 28A.410.226 and provide technical assistance, as requested, in the review and evaluation of educator training programs. The educator training programs

approved by the professional educator standards board may be included in the department's model list.

(8) Nothing in this section may be interpreted to expand or limit the scope of practice of any profession regulated under chapter 18.130 RCW.

(9) The secretary and the disciplining authorities affected by this section shall adopt any rules necessary to implement this section.

(10) For purposes of this section:

(a) "Disciplining authority" has the same meaning as in RCW 18.130.020.

(b) "Training in suicide assessment, treatment, and management" means empirically supported training approved by the appropriate disciplining authority that contains the following elements: Suicide assessment, including screening and referral, suicide treatment, and suicide management. However, the disciplining authority may approve training that includes only screening and referral elements if appropriate for the profession in question based on the profession's scope of practice. The board of occupational therapy may also approve training that includes only screening and referral elements if appropriate for occupational therapy practitioners based on practice setting.

(11) A state or local government employee is exempt from the requirements of this section if he or she receives a total of at least six hours of training in suicide assessment, treatment, and management from his or her employer every six years. For purposes of this subsection, the training may be provided in one six-hour block or may be spread among shorter training sessions at the employer's discretion.

(12) An employee of a community mental health agency licensed under chapter 71.24 RCW or a chemical dependency program certified under chapter 70.96A RCW is exempt from the requirements of this section if he or she receives a total of at least six hours of training in suicide assessment, treatment, and management from his or her employer every six years. For purposes of this subsection, the training may be provided in one six-hour block or may be spread among shorter training sessions at the employer's discretion. [2015 c 249 § 1; 2014 c 71 § 2. Prior: 2013 c 78 § 1; 2013 c 73 § 6; 2012 c 181 § 2.]

Findings—Intent—2014 c 71; 2012 c 181: "(1) The legislature finds that:

(a) According to the centers for disease control and prevention:

(i) In 2008, more than thirty-six thousand people died by suicide in the United States, making it the tenth leading cause of death nationally.

(ii) During 2007-2008, an estimated five hundred sixty-nine thousand people visited hospital emergency departments with self-inflicted injuries in the United States, seventy percent of whom had attempted suicide.

(iii) During 2008-2009, the average percentages of adults who thought, planned, or attempted suicide in Washington were higher than the national average.

(b) According to a national study, veterans face an elevated risk of suicide as compared to the general population, more than twice the risk among male veterans. Another study has indicated a positive correlation between posttraumatic stress disorder and suicide.

(i) Washington state is home to more than sixty thousand men and women who have deployed in support of the wars in Iraq and Afghanistan.

(ii) Research continues on how the effects of wartime service and injuries, such as traumatic brain injury, posttraumatic stress disorder, or other service-related conditions, may increase the number of veterans who attempt suicide.

(iii) As more men and women separate from the military and transition back into civilian life, community mental health providers will become a vital resource to help these veterans and their families deal with issues that may arise.

(c) Suicide has an enormous impact on the family and friends of the victim as well as the community as a whole.

(d) Approximately ninety percent of people who die by suicide had a diagnosable psychiatric disorder at the time of death, such as depression. Most suicide victims exhibit warning signs or behaviors prior to an attempt.

(e) Improved training and education in suicide assessment, treatment, and management has been recommended by a variety of organizations, including the United States department of health and human services and the institute of medicine.

(2) It is therefore the intent of the legislature to help lower the suicide rate in Washington by requiring certain health professionals to complete training in suicide assessment, treatment, and management as part of their continuing education, continuing competency, or recertification requirements.

(3) The legislature does not intend to expand or limit the existing scope of practice of any health professional affected by this act." [2014 c 71 § 1; 2012 c 181 § 1.]

43.82.010 Acquisition, lease, and disposal of real estate for state agencies—Long-range planning—Use of lease as collateral or security—Colocation and consolidation—Studies—Delegation of functions—Exemptions.

(1) The director of enterprise services, on behalf of the agency involved and after consultation with the office of financial management, shall purchase, lease, lease purchase, rent, or otherwise acquire all real estate, improved or unimproved, as may be required by elected state officials, institutions, departments, commissions, boards, and other state agencies, or federal agencies where joint state and federal activities are undertaken and may grant easements and transfer, exchange, sell, lease, or sublease all or part of any surplus real estate for those state agencies which do not otherwise have the specific authority to dispose of real estate. This section does not transfer financial liability for the acquired property to the department of enterprise services.

(2) Except for real estate occupied by federal agencies, the director shall determine the location, size, and design of any real estate or improvements thereon acquired or held pursuant to subsection (1) of this section. Facilities acquired or held pursuant to this chapter, and any improvements thereon, shall conform to standards adopted by the director and approved by the office of financial management governing facility efficiency unless a specific exemption from such standards is provided by the director of enterprise services. The director of enterprise services shall report to the office of financial management and the appropriate committees of the legislature annually on any exemptions granted pursuant to this subsection.

(3) Except for leases permitted under subsection (4) of this section, the director of enterprise services may fix the

terms and conditions of each lease entered into under this chapter, except that no lease shall extend greater than twenty years in duration. The director of enterprise services may enter into a long-term lease greater than ten years in duration upon a determination by the director of the office of financial management that the long-term lease provides a more favorable rate than would otherwise be available, it appears to a substantial certainty that the facility is necessary for use by the state for the full length of the lease term, and the facility meets the standards adopted pursuant to subsection (2) of this section. The director of enterprise services may enter into a long-term lease greater than ten years in duration if an analysis shows that the life-cycle cost of leasing the facility is less than the life-cycle cost of purchasing or constructing a facility in lieu of leasing the facility.

(4) The director of enterprise services may fix the terms of leases for property under the department of enterprise services' control at the former Northern State Hospital site for up to sixty years.

(5) Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a public offering. Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a private placement without the prior written approval of the state treasurer. However, this limitation shall not prevent a lessor from assigning or encumbering its interest in a lease as security for the repayment of a promissory note provided that the transaction would otherwise be an exempt transaction under RCW 21.20.320. The state treasurer shall adopt rules that establish the criteria under which any such approval may be granted. In establishing such criteria the state treasurer shall give primary consideration to the protection of the state's credit rating and the integrity of the state's debt management program. If it appears to the state treasurer that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection, then he or she may recommend that the governor cause such lease to be terminated. The department of enterprise services shall promptly notify the state treasurer whenever it may appear to the department that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection.

(6) It is the policy of the state to encourage the colocation and consolidation of state services into single or adjacent facilities, whenever appropriate, to improve public service delivery, minimize duplication of facilities, increase efficiency of operations, and promote sound growth management planning.

(7) The director of enterprise services shall provide coordinated long-range planning services to identify and evaluate opportunities for collocating and consolidating state facilities. Upon the renewal of any lease, the inception of a new lease, or the purchase of a facility, the director of enterprise services shall determine whether an opportunity exists for collocating the agency or agencies in a single facility with other agencies located in the same geographic area. If a colocation opportunity exists, the director of enterprise services shall consult with the affected state agencies and the office of financial

management to evaluate the impact colocation would have on the cost and delivery of agency programs, including whether program delivery would be enhanced due to the centralization of services. The director of enterprise services, in consultation with the office of financial management, shall develop procedures for implementing colocation and consolidation of state facilities.

(8) The director of enterprise services is authorized to purchase, lease, rent, or otherwise acquire improved or unimproved real estate as owner or lessee and to lease or sublet all or a part of such real estate to state or federal agencies. The director of enterprise services shall charge each using agency its proportionate rental which shall include an amount sufficient to pay all costs, including, but not limited to, those for utilities, janitorial and accounting services, and sufficient to provide for contingencies; which shall not exceed five percent of the average annual rental, to meet unforeseen expenses incident to management of the real estate.

(9) If the director of enterprise services determines that it is necessary or advisable to undertake any work, construction, alteration, repair, or improvement on any real estate acquired pursuant to subsection (1) or (8) of this section, the director shall cause plans and specifications thereof and an estimate of the cost of such work to be made and filed in his or her office and the state agency benefiting thereby is hereby authorized to pay for such work out of any available funds: PROVIDED, That the cost of executing such work shall not exceed the sum of twenty-five thousand dollars. Work, construction, alteration, repair, or improvement in excess of twenty-five thousand dollars, other than that done by the owner of the property if other than the state, shall be performed in accordance with the public works law of this state.

(10) In order to obtain maximum utilization of space, the director of enterprise services shall make space utilization studies, and shall establish standards for use of space by state agencies. Such studies shall include the identification of opportunities for colocation and consolidation of state agency office and support facilities.

(11) The director of enterprise services may construct new buildings on, or improve existing facilities, and furnish and equip, all real estate under his or her management. Prior to the construction of new buildings or major improvements to existing facilities or acquisition of facilities using a lease purchase contract, the director of enterprise services shall conduct an evaluation of the facility design and budget using life-cycle cost analysis, value-engineering, and other techniques to maximize the long-term effectiveness and efficiency of the facility or improvement.

(12) All conveyances and contracts to purchase, lease, rent, transfer, exchange, or sell real estate and to grant and accept easements shall be approved as to form by the attorney general, signed by the director of enterprise services or the director's designee, and recorded with the county auditor of the county in which the property is located.

(13) The director of enterprise services may delegate any or all of the functions specified in this section to any agency upon such terms and conditions as the director deems advisable. By January 1st of each year, beginning January 1, 2008, the department shall submit an annual report to the office of financial management and the appropriate committees of the legislature on all delegated leases.

(14) This section does not apply to the acquisition of real estate by:

(a) The state college and universities for research or experimental purposes;

(b) The state liquor control board for liquor stores and warehouses;

(c) The department of natural resources, the department of fish and wildlife, the department of transportation, and the state parks and recreation commission for purposes other than the leasing of offices, warehouses, and real estate for similar purposes; and

(d) The department of commerce for community college health career training programs, offices for the department of commerce or other appropriate state agencies, and other non-profit community uses, including community meeting and training facilities, where the real estate is acquired during the 20132015 fiscal biennium.

(15) Notwithstanding any provision in this chapter to the contrary, the department of enterprise services may negotiate ground leases for public lands on which property is to be acquired under a financing contract pursuant to chapter 39.94 RCW under terms approved by the state finance committee.

(16) The department of enterprise services shall report annually to the office of financial management and the appropriate fiscal committees of the legislature on facility leases executed for all state agencies for the preceding year, lease terms, and annual lease costs. The report must include leases executed under RCW 43.82.045 and subsection (13) of this section. [2015 c 99 § 1; 2013 2nd sp.s. c 4 § 981; 2007 c 506 § 8; 2004 c 277 § 906; 1997 c 117 § 1. 43.82.035 Predesign process for requests to lease, purchase, or build facilities for state programs—Approval of plans for major leased facilities.

(1) The office of financial management shall design and implement a modified predesign process for any space request to lease, purchase, or build facilities that involve (a) the housing of new state programs, (b) a major expansion of existing state programs, or (c) the relocation of state agency programs. This includes the consolidation of multiple state agency tenants into one facility. The office of financial management shall define facilities that meet the criteria described in (a) and (b) of this subsection.

(2) State agencies shall submit modified predesigns to the office of financial management and the legislature. Modified predesigns must include a problem statement, an analysis of alternatives to address programmatic and space require-

ments, proposed locations, and a financial assessment. For proposed projects of twenty thousand gross square feet or less, the agency may provide a cost-benefit analysis, rather than a life-cycle cost analysis, as determined by the office of financial management.

(3) Projects that meet the capital requirements for pre-design on major facility projects with an estimated project cost of five million dollars or more pursuant to chapter 43.88 RCW shall not be required to prepare a modified pre-design.

(4) The office of financial management shall require state agencies to identify plans for major leased facilities as part of the ten-year capital budget plan. State agencies shall not enter into new or renewed leases of more than one million dollars per year unless such leases have been approved by the office of financial management except when the need for the lease is due to an unanticipated emergency. The regular termination date on an existing lease does not constitute an emergency. The department of enterprise services shall notify the office of financial management and the appropriate legislative fiscal committees if an emergency situation arises.

(5) For project proposals in which there are estimates of operational savings, the office of financial management shall require the agency or agencies involved to provide details including but not limited to fund sources and timelines. [2015 c 225 § 75; 2007 c 506 § 4.]

Findings—Intent—2007 c 506: "The legislature finds that the capital stock of facilities owned and leased by state agencies represents a significant financial investment by the citizens of the state of Washington. Capital construction projects funded in the state's capital budget require diligent analysis and approval by the governor and the legislature. In some cases, long-term leases obligate state agencies to a larger financial commitment than some capital construction projects without a comparable level of diligence. State facility analysis and portfolio management can be strengthened through greater oversight and support from the office of financial management and the legislature and with input from stakeholders.

The legislature finds that the state lacks specific policies and standards on conducting life-cycle cost analysis to determine the cost-effectiveness of owning or leasing state facilities and lacks clear guidance on when and how to use it. Further, there is limited oversight and review of the results of life-cycle cost analyses in the capital project review process. Unless decision makers are provided a thorough economic analysis, they cannot identify the most cost-effective alternative or identify opportunities for improving the cost-effectiveness of state facility alternatives.

The legislature finds that the statewide accounting system limits the ability of the office of financial management and the legislature to analyze agency expenditures that include only leases for land, buildings, and structures. Additionally, other statewide data systems that track state-owned and leased facility information are limited, onerous, and inflexible.

Therefore, it is the intent of the legislature to strengthen the office of financial management's oversight role in state facility analysis and decision making. Further, it is the intent of the legislature to support the office of financial management's and the *department of general administration's need for technical expertise and data systems to conduct thorough analysis, long-term planning, and state facility portfolio management by providing adequate resources in the capital and operating budgets." [2007 c 506 § 1.]

***Reviser's note:** The "department of general administration" was renamed the "department of enterprise services" by 2011 1st sp.s. c 43 § 107.

43.82.055 Long-term facility needs—Six-year facility plan—Efficient use of state facilities. The office of financial management shall:

(1) Work with the department of enterprise services and all other state agencies to determine the long-term facility needs of state government;

(2) Develop and submit a six-year facility plan to the legislature by January 1st of every odd-numbered year that

includes state agency space requirements and other pertinent data necessary for cost-effective facility planning. The department of enterprise services shall assist with this effort as required by the office of financial management; and

(3) Establish and enforce policies and workplace strategies that promote the efficient use of state facilities. [2015 3rd sp.s. c 1 § 301; 2015 c 225 § 76; 2007 c 506 § 6.]

Findings—Intent—2007 c 506: See note following RCW 43.82.035.

43.82.130 Powers and duties of director. The director of the department of enterprise services is authorized to do all acts and things necessary or convenient to carry out the powers and duties expressly provided in this chapter. [2015 c 225 § 77; 1965 c 8 § 43.82.130. Prior: 1959 c 255 § 13.]

43.82.150 Inventory of state-owned or leased facilities—Report. (1) The office of financial management shall develop and maintain an inventory system to account for all facilities owned or leased by state government. At a minimum, the inventory system must include the facility owner, location, type, condition, use data, and size of each facility. In addition, for owned facilities, the inventory system must include the date and cost of original construction and the cost of any major remodeling or renovation. The inventory must be updated by all agencies, departments, boards, commissions, and institutions by June 30th of each year. The office of financial management shall publish a report summarizing information contained in the inventory system for each agency by October 1st of each year, beginning in 2010 and shall submit this report to the appropriate fiscal committees of the legislature.

(2) The inventory required under this subsection must be submitted in a standard format prescribed by the office of financial management.

(3) For the purposes of this section, "facilities" means buildings and other structures with walls and a roof. "Facilities" does not mean roads, bridges, parking areas, utility systems, and other similar improvements to real property. [2015 3rd sp.s. c 1 § 302; 2007 c 506 § 7; 1997 c 96 § 2; 1993 c 325 § 1.]

Findings—Intent—2007 c 506: See note following RCW 43.82.035.

Findings—Purpose—1997 c 96: "The legislature finds that the capital stock of facilities owned by state agencies represents a significant financial investment by the citizens of the state of Washington, and that providing agencies with the tools and incentives needed to adequately maintain state facilities is critically important to realizing the full value of this investment. The legislature also finds that ongoing reporting of facility inventory, condition, and maintenance information by agencies will improve accountability and assist in the evaluation of budget requests and facility management by the legislature and governor. The purpose of this act is to ensure that recent enhancements to facility and maintenance reporting systems implemented by the office of financial management, and a new program created by the *department of general administration to provide maintenance information and technical assistance to state and local agencies, are sustained into the future." [1997 c 96 § 1.]

***Reviser's note:** The department of general administration was renamed the department of enterprise services by 2011 1st sp.s. c 43 § 107.

For purposes of this section, "transfer" may include lease renewals. The nonprofit corporation shall use the real property and facilities for the purpose of providing the following limited programs as designated by the department of social and health services: Nonprofit community centers, close-to-home living units, employment and independent living training centers, vocational rehabilitation centers, developmental disabilities training centers, and community homes for individuals with mental illness.

Reviser's note: This section has been recodified pursuant to RCW 1.08.015(2)(h).

Findings—2006 c 35: "The legislature finds that protecting the public health, safety, and welfare by providing services to needy or vulnerable persons is a fundamental purpose of government. The legislature further finds that private nonprofit corporations fill an important public purpose in providing these types of health, safety, and welfare services to our state's residents. Acting through partnerships with governmental entities, these private sector providers are able to increase the amount and quality of these services available to state residents. The legislature finds that ensuring continued provision of these services in the private sector confers a valuable benefit on the public that constitutes consideration for transfer of certain public property and facilities to eligible private nonprofit corporations, subject to restrictions that provide continued protection of the public interest." [2006 c 35 § 1.]

43.83.410 Transfers of real property and facilities to nonprofit corporations. (1) Public bodies may transfer without further consideration real property and facilities acquired, constructed, or otherwise improved under the social and health services facilities 1972 bond issue to nonprofit corporations organized to provide individuals with social and health services, in exchange for the promise to continually operate services benefiting the public on the site, subject to all the conditions in this section. For purposes of this section, "transfer" may include lease renewals. The nonprofit corporation shall use the real property and facilities for the purpose of providing the following programs as designated by the department of social and health services: Facilities for social services, adult and juvenile correction or detention, child welfare, day care, drug abuse and alcoholism treatment, mental health, public health, developmental disabilities, and vocational rehabilitation.

(2) The deed transferring the property in subsection (1) of this section must provide for immediate reversion back to the public body if the nonprofit corporation ceases to use the property for the purposes described in subsection (1) of this section.

(3) The nonprofit corporation is authorized to sell the property transferred to it pursuant to subsection (1) of this section only if all of the following conditions are satisfied: (a) Any such sale must be subject to prior written approval by the

department of social and health services; (b) all proceeds from such a sale must be applied to the purchase price of a different property or properties of equal or greater value than the original property; (c) any new property or properties must be used for the purposes stated in subsection (1) of this section; (d) the new property or properties must be available for use within one year of sale; and (e) the nonprofit corporation must enter into an agreement with the public entity to reimburse the public entity for the value of the original property at the time of the sale if the nonprofit corporation ceases to use the new property for the purposes described in subsection (1) of this section.

(4) If the nonprofit corporation ceases to use the property for the purposes described in subsection (1) of this section, the property and facilities revert immediately to the public body. The public body shall then determine if the property, or the reimbursed amount in the case of a reimbursement under subsection (3)(e) of this section, may be used by another program as designated by the department of social and health services. These programs have priority in obtaining the property to ensure that the purposes specified in the social and health services facilities 1972 bond issue are carried out.

(5) As used in this section, the term "public body" means the state of Washington, or any agency, political subdivision, taxing district, or municipal corporation thereof, and those Indian tribes now or hereafter recognized as such by the federal government for participation in the federal land and water conservation program and which may constitutionally receive grants or loans from the state of Washington. Findings—Part headings not law—Severability—2003 c 361: See notes following RCW 82.36.025.

Findings—Intent—2003 c 150; 2002 c 242: "The legislature finds that the community economic revitalization board plays a valuable and unique role in stimulating and diversifying local economies, attracting private investment, creating new jobs, and generating additional state and local tax revenues by investing in public facilities projects that result in new or expanded economic development. The legislature also finds that it is in the best interest of the state and local communities to secure a stable and dedi-

cated source of funds for the community economic revitalization board. It is the intent of the legislature to establish an ongoing funding source for the community economic revitalization board that will be used exclusively to advance economic development infrastructure. This act provides a partial funding solution by directing that beginning July 1, 2005, the interest earnings generated by the public works assistance account shall be used to fund the community economic revitalization board's financial assistance programs. These funds are not for use other than for the stated purpose and goals of the community economic revitalization board." [2003 c 150 § 1; 2002 c 242 § 1.]

Finding—Intent—2002 c 114: See RCW 47.46.011.

Purpose—2001 c 141: "This act is needed to comply with federal law, which is the source of funds in the drinking water assistance account, used to fund the Washington state drinking water loan program as part of the federal safe drinking water act." [2001 c 141 § 1.]

Findings—Intent—2001 c 80: See note following RCW 43.70.040.

Legislative finding—1999 c 94: "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 § 1.]

It is the intent of the legislature to establish an ongoing funding source for the community economic revitalization board that will be used exclusively to advance economic development infrastructure. This act provides a partial funding solution by directing that beginning July 1, 2005, the interest earn-

ings generated by the public works assistance account shall be used to fund the community economic revitalization board's financial assistance programs. Legislative finding—1999 c 94: "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 § 1.]

43.88.090 Development of budget—Detailed estimates—Mission statement, measurable goals, quality and productivity objectives—Integration of strategic plans and performance assessment procedures—Reviews by office of financial management and consolidated technology services agency—Governor-elect input. (1) For purposes of developing budget proposals to the legislature, the governor shall have the power, and it shall be the governor's duty, to require from proper agency officials such detailed estimates and other information in such form and at such times as the governor shall direct. The governor shall communicate statewide priorities to agencies for use in developing biennial budget recommendations for their agency and

shall seek public involvement and input on these priorities. The estimates for the legislature and the judiciary shall be transmitted to the governor and shall be included in the budget without revision. The estimates for state pension contributions shall be based on the rates provided in chapter 41.45 RCW. Copies of all such estimates shall be transmitted to the standing committees on ways and means of the house and senate at the same time as they are filed with the governor and the office of financial management.

The estimates shall include statements or tables which indicate, by agency, the state funds which are required for the receipt of federal matching revenues. The estimates shall be revised as necessary to reflect legislative enactments and adopted appropriations and shall be included with the initial biennial allotment submitted under RCW 43.88.110. The estimates must reflect that the agency considered any alternatives to reduce costs or improve service delivery identified in the findings of a performance audit of the agency by the joint legislative audit and review committee. Nothing in this subsection requires performance audit findings to be published as part of the budget.

(2) Each state agency shall define its mission and establish measurable goals for achieving desirable results for those who receive its services and the taxpayers who pay for those services. Each agency shall also develop clear strategies and timelines to achieve its goals. This section does not require an agency to develop a new mission or goals in place of identifiable missions or goals that meet the intent of this section. The mission and goals of each agency must conform to statutory direction and limitations.

(3) For the purpose of assessing activity performance, each state agency shall establish quality and productivity objectives for each major activity in its budget. The objectives must be consistent with the missions and goals developed under this section. The objectives must be expressed to the extent practicable in outcome-based, objective, and measurable form unless an exception to adopt a different standard is granted by the office of financial management and approved by the legislative committee on performance review. Objectives must specifically address the statutory purpose or intent of the program or activity and focus on data that measure whether the agency is achieving or making progress toward the purpose of the activity and toward statewide priorities. The office of financial management shall provide necessary professional and technical assistance to assist state agencies in the development of strategic plans that include the mission of the agency and its programs, measurable goals, strategies, and performance measurement systems.

(4) Each state agency shall adopt procedures for and perform continuous self-assessment of each activity, using the mission, goals, objectives, and measurements required under subsections (2) and (3) of this section. The assessment of the activity must also include an evaluation of major information technology systems or projects that may assist the agency in achieving or making progress toward the activity purpose and statewide priorities. The evaluation of proposed major information technology systems or projects shall be in accordance with the standards and policies established by the technology services board. Agencies' progress toward the mission, goals, objectives, and measurements required by subsections (2)

and (3) of this section is subject to review as set forth in this subsection.

(a) The office of financial management shall regularly conduct reviews of selected activities to analyze whether the objectives and measurements submitted by agencies demonstrate progress toward statewide results.

(b) The office of financial management shall consult with: (i) The four-year institutions of higher education in those reviews that involve four-year institutions of higher education; and (ii) the state board for community and technical colleges in those reviews that involve two-year institutions of higher education.

(c) The goal is for all major activities to receive at least one review each year.

(d) The consolidated technology services agency shall review major information technology systems in use by state agencies periodically.

(5) It is the policy of the legislature that each agency's budget recommendations must be directly linked to the agency's stated mission and program, quality, and productivity goals and objectives. Consistent with this policy, agency budget proposals must include integration of performance measures that allow objective determination of an activity's success in achieving its goals. When a review under subsection (4) of this section or other analysis determines that the agency's objectives demonstrate that the agency is making insufficient progress toward the goals of any particular program or is otherwise underachieving or inefficient, the agency's budget request shall contain proposals to remedy or improve the selected programs. The office of financial management shall develop a plan to merge the budget development process with agency performance assessment procedures. The plan must include a schedule to integrate agency strategic plans and performance measures into agency budget requests and the governor's budget proposal over three fiscal biennia. The plan must identify those agencies that will implement the revised budget process in the 1997-1999 biennium, the 1999-2001 biennium, and the 2001-2003 biennium. In consultation with the legislative fiscal committees, the office of financial management shall recommend statutory and procedural modifications to the state's budget, accounting, and reporting systems to facilitate the performance assessment procedures and the merger of those procedures with the state budget process. The plan and recommended statutory and procedural modifications must be submitted to the legislative fiscal committees by September 30, 1996.

(6) In reviewing agency budget requests in order to prepare the governor's biennial budget request, the office of financial management shall consider the extent to which the agency's activities demonstrate progress toward the statewide budgeting priorities, along with any specific review conducted under subsection (4) of this section.

(7) In the year of the gubernatorial election, the governor shall invite the governor-elect or the governor-elect's designee to attend all hearings provided in RCW 43.88.100; and the governor shall furnish the governor-elect or the governor-elect's designee with such information as will enable the governor-elect or the governor-elect's designee to gain an understanding of the state's budget requirements. The governor-elect or the governor-elect's designee may ask such questions during the hearings and require such information as the gov-

ernor-elect or the governor-elect's designee deems necessary and may make recommendations in connection with any item of the budget which, with the governor-elect's reasons therefor, shall be presented to the legislature in writing with the budget document. Copies of all such estimates and other required information shall also be submitted to the standing committees on ways and means of the house and senate. 43.88.092 Information technology budget detail—Information technology plan—Accounting method for information technology. (1) As part of the biennial budget process, the office of financial management shall collect from agencies, and agencies shall provide, information to produce reports, summaries, and budget detail sufficient to allow review, analysis, and documentation of all current and proposed expenditures for information technology by state agencies. Information technology budget detail must be included as part of the budget submittal documentation required pursuant to RCW 43.88.030.

(2) The office of financial management must collect, and present as part of the biennial budget documentation, information for all existing information technology projects as defined by technology services board policy. The office of financial management must work with the office of the state chief information officer to maximize the ability to draw this information from the information technology portfolio management data collected by the consolidated technology services agency. Connecting project information collected through the portfolio management process with financial data developed under subsection (1) of this section provides transparency regarding expenditure data for existing technology projects.

(3) The director of the consolidated technology services agency shall evaluate proposed information technology expenditures and establish priority ranking categories of the proposals. No more than one-third of the proposed expenditures shall be ranked in the highest priority category.

(4) The biennial budget documentation submitted by the office of financial management pursuant to RCW 43.88.030 must include an information technology plan and a technology budget for the state identifying current baseline funding for information technology, proposed and ongoing major information technology projects, and their associated costs. This plan and technology budget must be presented using a method similar to the capital budget, identifying project costs through stages of the project and across fiscal periods and biennia from project initiation to implementation. This information must be submitted electronically, in a format to be

determined by the office of financial management and the legislative evaluation and accountability program committee.

(5) The office of financial management shall also institute a method of accounting for information technology-related expenditures, including creating common definitions for what constitutes an information technology investment.

(6) For the purposes of this section, "major information technology projects" includes projects that have a significant anticipated cost, complexity, or are of statewide significance, such as enterprise-level solutions, enterprise resource planning, and shared services initiatives. 43.88.160 Fiscal management—Powers and duties of officers and agencies. This section sets forth the major fiscal duties and responsibilities of officers and agencies of the executive branch. The regulations issued by the governor pursuant to this chapter shall provide for a comprehensive, orderly basis for fiscal management and control, including efficient accounting and reporting therefor, for the executive branch of the state government and may include, in addition, such requirements as will generally promote more efficient public management in the state.

(1) Governor; director of financial management. The governor, through the director of financial management, shall devise and supervise a modern and complete accounting system for each agency to the end that all revenues, expenditures, receipts, disbursements, resources, and obligations of the state shall be properly and systematically accounted for. The accounting system shall include the development of accurate, timely records and reports of all financial affairs of the state. The system shall also provide for central accounts in the office of financial management at the level of detail deemed necessary by the director to perform central financial management. The director of financial management shall adopt and periodically update an accounting procedures manual. Any agency maintaining its own accounting and reporting system shall comply with the updated accounting procedures manual and the rules of the director adopted under this chapter. An agency may receive a waiver from complying with this requirement if the waiver is approved by the director. Waivers expire at the end of the fiscal biennium for which they are granted. The director shall forward notice of waivers granted to the appropriate legislative fiscal committees. The director of financial management may require such financial, statistical, and other reports as the director deems necessary from all agencies covering any period.

(2) Except as provided in chapter 43.88C RCW, the director of financial management is responsible for quarterly reporting of primary operating budget drivers such as applicable workloads, caseload estimates, and appropriate unit cost data. These reports shall be transmitted to the legislative fiscal committees or by electronic means to the legislative evaluation and accountability program committee. Quarterly reports shall include actual monthly data and the variance between actual and estimated data to date. The reports shall

also include estimates of these items for the remainder of the budget period.

(3) The director of financial management shall report at least annually to the appropriate legislative committees regarding the status of all appropriated capital projects, including transportation projects, showing significant cost overruns or underruns. If funds are shifted from one project to another, the office of financial management shall also reflect this in the annual variance report. Once a project is complete, the report shall provide a final summary showing estimated start and completion dates of each project phase compared to actual dates, estimated costs of each project phase compared to actual costs, and whether or not there are any outstanding liabilities or unsettled claims at the time of completion.

(4) In addition, the director of financial management, as agent of the governor, shall:

(a) Develop and maintain a system of internal controls and internal audits comprising methods and procedures to be adopted by each agency that will safeguard its assets, check the accuracy and reliability of its accounting data, promote operational efficiency, and encourage adherence to prescribed managerial policies for accounting and financial controls. The system developed by the director shall include criteria for determining the scope and comprehensiveness of internal controls required by classes of agencies, depending on the level of resources at risk.

(i) For those agencies that the director determines internal audit is required, the agency head or authorized designee shall be assigned the responsibility and authority for establishing and maintaining internal audits following professional audit standards including generally accepted government auditing standards or standards adopted by the institute of internal auditors, or both.

(ii) For those agencies that the director determines internal audit is not required, the agency head or authorized designee may establish and maintain internal audits following professional audit standards including generally accepted government auditing standards or standards adopted by the institute of internal auditors, or both, but at a minimum must comply with policies as established by the director to assess the effectiveness of the agency's systems of internal controls and risk management processes;

(b) Make surveys and analyses of agencies with the object of determining better methods and increased effectiveness in the use of manpower and materials; and the director shall authorize expenditures for employee training to the end that the state may benefit from training facilities made available to state employees;

(c) Establish policies for allowing the contracting of child care services;

(d) Report to the governor with regard to duplication of effort or lack of coordination among agencies;

(e) Review any pay and classification plans, and changes thereunder, developed by any agency for their fiscal impact: PROVIDED, That none of the provisions of this subsection shall affect merit systems of personnel management now existing or hereafter established by statute relating to the fixing of qualifications requirements for recruitment, appointment, or promotion of employees of any agency. The director shall advise and confer with agencies including appropriate

standing committees of the legislature as may be designated by the speaker of the house and the president of the senate regarding the fiscal impact of such plans and may amend or alter the plans, except that for the following agencies no amendment or alteration of the plans may be made without the approval of the agency concerned: Agencies headed by elective officials;

(f) Fix the number and classes of positions or authorized employee years of employment for each agency and during the fiscal period amend the determinations previously fixed by the director except that the director shall not be empowered to fix the number or the classes for the following: Agencies headed by elective officials;

(g) Adopt rules to effectuate provisions contained in (a) through (f) of this subsection.

(5) The treasurer shall:

(a) Receive, keep, and disburse all public funds of the state not expressly required by law to be received, kept, and disbursed by some other persons: PROVIDED, That this subsection shall not apply to those public funds of the institutions of higher learning which are not subject to appropriation;

(b) Receive, disburse, or transfer public funds under the treasurer's supervision or custody;

(c) Keep a correct and current account of all moneys received and disbursed by the treasurer, classified by fund or account;

(d) Coordinate agencies' acceptance and use of credit cards and other payment methods, if the agencies have received authorization under RCW 43.41.180;

(e) Perform such other duties as may be required by law or by regulations issued pursuant to this law.

It shall be unlawful for the treasurer to disburse public funds in the treasury except upon forms or by alternative means duly prescribed by the director of financial management. These forms or alternative means shall provide for authentication and certification by the agency head or the agency head's designee that the services have been rendered or the materials have been furnished; or, in the case of loans or grants, that the loans or grants are authorized by law; or, in the case of payments for periodic maintenance services to be performed on state owned equipment, that a written contract for such periodic maintenance services is currently in effect; and the treasurer shall not be liable under the treasurer's surety bond for erroneous or improper payments so made. When services are lawfully paid for in advance of full performance by any private individual or business entity other than equipment maintenance providers or as provided for by RCW 42.24.035, such individual or entity other than central stores rendering such services shall make a cash deposit or furnish surety bond coverage to the state as shall be fixed in an amount by law, or if not fixed by law, then in such amounts as shall be fixed by the director of the department of enterprise services but in no case shall such required cash deposit or surety bond be less than an amount which will fully indemnify the state against any and all losses on account of breach of promise to fully perform such services. No payments shall be made in advance for any equipment maintenance services to be performed more than twelve months after such payment except that institutions of higher education as defined in RCW 28B.10.016 and the consolidated technology services agency created in RCW 43.105.006 may make payments in

advance for equipment maintenance services to be performed up to sixty months after such payment. Any such bond so furnished shall be conditioned that the person, firm or corporation receiving the advance payment will apply it toward performance of the contract. The responsibility for recovery of erroneous or improper payments made under this section shall lie with the agency head or the agency head's designee in accordance with rules issued pursuant to this chapter. Nothing in this section shall be construed to permit a public body to advance funds to a private service provider pursuant to a grant or loan before services have been rendered or material furnished.

(6) The state auditor shall:

(a) Report to the legislature the results of current post audits that have been made of the financial transactions of each agency; to this end the auditor may, in the auditor's discretion, examine the books and accounts of any agency, official, or employee charged with the receipt, custody, or safekeeping of public funds. Where feasible in conducting examinations, the auditor shall utilize data and findings from the internal control system prescribed by the office of financial management. The current post audit of each agency may include a section on recommendations to the legislature as provided in (c) of this subsection.

(b) Give information to the legislature, whenever required, upon any subject relating to the financial affairs of the state.

(c) Make the auditor's official report on or before the thirty-first of December which precedes the meeting of the legislature. The report shall be for the last complete fiscal period and shall include determinations as to whether agencies, in making expenditures, complied with the laws of this state. The state auditor is authorized to perform or participate in performance verifications and performance audits as expressly authorized by the legislature in the omnibus biennial appropriations acts or in the performance audit work plan approved by the joint legislative audit and review committee. The state auditor, upon completing an audit for legal and financial compliance under chapter 43.09 RCW or a performance verification, may report to the joint legislative audit and review committee or other appropriate committees of the legislature, in a manner prescribed by the joint legislative audit and review committee, on facts relating to the management or performance of governmental programs where such facts are discovered incidental to the legal and financial audit or performance verification. The auditor may make such a report to a legislative committee only if the auditor has determined that the agency has been given an opportunity and has failed to resolve the management or performance issues raised by the auditor. If the auditor makes a report to a legislative committee, the agency may submit to the committee a response to the report. This subsection (6) shall not be construed to authorize the auditor to allocate other than de minimis resources to performance audits except as expressly authorized in the appropriations acts or in the performance audit work plan. The results of a performance audit conducted by the state auditor that has been requested by the joint legislative audit and review committee must only be transmitted to the joint legislative audit and review committee.

(d) Be empowered to take exception to specific expenditures that have been incurred by any agency or to take exception to other practices related in any way to the agency's financial transactions and to cause such exceptions to be made a matter of public record, including disclosure to the agency concerned and to the director of financial management. It shall be the duty of the director of financial management to cause corrective action to be taken within six months, such action to include, as appropriate, the withholding of funds as provided in RCW 43.88.110. The director of financial management shall annually report by December 31st the status of audit resolution to the appropriate committees of the legislature, the state auditor, and the attorney general. The director of financial management shall include in the audit resolution report actions taken as a result of an audit including, but not limited to, types of personnel actions, costs and types of litigation, and value of recouped goods or services.

(e) Promptly report any irregularities to the attorney general.

(f) Investigate improper governmental activity under chapter 42.40 RCW.

In addition to the authority given to the state auditor in this subsection (6), the state auditor is authorized to conduct performance audits identified in RCW 43.09.470. Nothing in this subsection (6) shall limit, impede, or restrict the state auditor from conducting performance audits identified in RCW 43.09.470.

(7) The joint legislative audit and review committee may:

(a) Make post audits of the financial transactions of any agency and management surveys and program reviews as provided for in chapter 44.28 RCW as well as performance audits and program evaluations. To this end the joint committee may in its discretion examine the books, accounts, and other records of any agency, official, or employee.

(b) Give information to the legislature or any legislative committee whenever required upon any subject relating to the performance and management of state agencies.

(c) Make a report to the legislature which shall include at least the following:

(i) Determinations as to the extent to which agencies in making expenditures have complied with the will of the legislature and in this connection, may take exception to specific expenditures or financial practices of any agencies; and

(ii) Such plans as it deems expedient for the support of the state's credit, for lessening expenditures, for promoting frugality and economy in agency affairs, and generally for an improved level of fiscal management. 43.101.220 Training for corrections personnel. (1) The corrections personnel of the state and all counties and municipal corporations initially employed on or after January 1, 1982, shall engage in basic corrections training which complies with standards adopted by the commission. The training shall be successfully completed during the first six months of employment of the personnel, unless otherwise extended or waived by the commission, and shall be requisite to the continuation of employment.

(2) The commission shall provide the training required in this section, together with facilities, supplies, materials, and

the room and board for noncommuting attendees, except during the 2013-2015 and 2015-2017 fiscal biennia, when the employing county, municipal corporation, or state agency shall reimburse the commission for twenty-five percent of the cost of training its personnel.

(3)(a) Subsections (1) and (2) of this section do not apply to the Washington state department of corrections prisons division. The Washington state department of corrections is responsible for identifying training standards, designing curricula and programs, and providing the training for those corrections personnel employed by it. In doing so, the secretary of the department of corrections shall consult with staff development experts and correctional professionals both inside and outside of the agency, to include soliciting input from labor organizations.

(b) The commission and the department of corrections share the responsibility of developing and defining training standards and providing training for community corrections officers employed within the community corrections division of the department of corrections. [2015 3rd sp.s. c 4 § 958; 2014 c 221 § 918; 2009 c 146 § 2; 2007 c 382 § 1; 1981 c 136 § 26.]

Effective dates—2015 3rd sp.s. c 4: See note following RCW 28B.15.069.

Effective date—2014 c 221: See note following RCW 28A.710.260.

Intent—2009 c 146: "The intent of the legislature is that all corrections personnel employed by the Washington department of corrections are prepared to carry out the demands of their position that they are likely to encounter during their daily duties. The protection of the public, department employees, and inmates are a primary reason to ensure that everyone is adequately trained and knowledgeable in routine and emergency procedures.

To best carry out this mission it is necessary for the Washington state department of corrections to have the authority, discretion, and ability to design and conduct mandatory training that best meets the needs of its changing offender population." [2009 c 146 § 1.]

43.101.270 Sexual assault—Training for investigating and prosecuting. (1) Each year the criminal justice training commission shall offer an intensive, integrated training session on investigating and prosecuting sexual assault cases. The training shall place particular emphasis on the development of professionalism and sensitivity towards the victim and the victim's family.

(2) The commission shall seek advice from the Washington association of prosecuting attorneys, the Washington defender association, the Washington association of sheriffs and police chiefs, and the Washington coalition of sexual assault programs.

(3) The training shall be an integrated approach to sexual assault cases so that prosecutors, law enforcement, defenders, and victim advocates can all benefit from the training.

(4) The training shall be self-supporting through fees charged to the participants of the training.

(5) The training shall include a reference to the possibility that a court may allow children under the age of fourteen to testify in a room outside the presence of the defendant and the jury pursuant to RCW 9A.44.150. [2015 c 286 § 2; 1991 c 267 § 2.]

Findings—Intent—2015 c 286: "(1) The legislature finds that RCW 9A.44.150, which allows testimony of child victims by closed-circuit television in certain cases, helps protect certain child witnesses. During the prosecution of many child abuse cases, child victims may suffer serious emotional

and mental trauma from exposure to the abuser. Some of these child victims are unable to testify at all in the presence of the abuser. For these reasons, the legislature found it a compelling state interest to allow for remote testimony in certain cases to enhance the truth-seeking process and to shield child victims from trauma.

(2) The legislature further finds that while there is a possibility for certain child victims to testify remotely in some cases, this procedure is rarely used. The legislature intends to raise awareness regarding this procedure by including it in training materials for investigating and prosecuting sexual assault cases." [2015 c 286 § 1.]

Findings—1991 c 267: "The safety of all children is enhanced when sexual assault cases are properly investigated and prosecuted. The victim of the sexual assault and the victim's family have a right to be treated with sensitivity and professionalism, which also increases the likelihood of their continued cooperation with the investigation and prosecution of the case. The legislature finds the sexual assault cases, particularly those involving victims who are children, are difficult to prosecute successfully. The cooperation of a victim and the victim's family through the investigation and prosecution of the sexual assault case is enhanced and the trauma associated with the investigation and prosecution is reduced when trained victim advocates assist the victim and the victim's family through the investigation and prosecution of the case. Trained victim advocates also assist law enforcement, prosecutors, and defense attorneys, by relieving some of the burden of explaining the investigation and prosecution process and possible delays to the victim and accompanying the victim during interviews by the police, prosecutor, and defense attorney, and accompanying the victim during hearings and the trial.

The legislature finds that counties should give priority to the successful prosecution of sexual assault cases, especially those that involve children, by ensuring that prosecutors, investigators, defense attorneys, and victim advocates are properly trained and available. Therefore, the legislature intends to establish a mechanism to provide the necessary training of prosecutors, law enforcement investigators, defense attorneys, and victim advocates and ensure the availability of victim advocates for victims of sexual assault and their families." [1991 c 267 § 1.]

43.101.427 Crisis intervention training—Rules. (1) The commission shall provide crisis intervention training to every new full-time law enforcement officer employed after July 1, 2017, by a general authority Washington law enforcement agency. The training shall consist of not less than eight hours and shall be incorporated into the basic training academy as provided in RCW 43.101.200.

(2) The commission must ensure that:

(a) All full-time, general authority Washington peace officers who are certified after July 1, 2017, complete a two-hour online crisis intervention course as part of the annual training required by the commission for all full-time, general authority Washington peace officers employed by a general authority Washington law enforcement agency.

(b) Each full-time general authority Washington peace officer certified before July 1, 2017, receives crisis intervention training by July 1, 2021. The training shall consist of not less than eight hours and shall be substantially similar in hours and content to the training offered through the basic training academy. Each attendee of the program shall be required to obtain written proof of completion of the program as provided by rules of the commission.

(3) The commission shall make efforts to provide enhanced crisis intervention training for at least twenty-five percent of all full-time, general authority Washington peace officers assigned to patrol duties. The enhanced training may be (a) comprised of forty hours of commission-certified training and (b) accomplished within any funds remaining after appropriation is made for purposes of this section.

(4) By July 1, 2017, the commission shall establish by rule:

(a) A program and standards to certify organizations, other than the commission, that may provide crisis intervention training as required under this section. Certified organizations must use a commission-certified training or curriculum to facilitate the training. The commission shall consider geographic training needs when considering programs and standards. The commission shall provide grants to general authority Washington law enforcement agencies to reimburse those law enforcement agencies for the cost of sending officers to crisis intervention training;

(b) Standards for successful completion of the annual two hours of crisis intervention training as provided in subsection (2) of this section. The standards shall include, at a minimum, the requirement of successful completion of a written exam.

(5) For the purposes of this section, "crisis intervention training" means training designed to provide tools and resources to full-time, general authority Washington peace officers in order to respond effectively to individuals who may be experiencing an emotional, mental, physical, behavioral, or chemical dependency crisis, distress, or problem and that are designed to increase the safety of both law enforcement and individuals in crisis.

(6) This section is subject to the availability of amounts appropriated for this specific purpose. [2015 c 87 § 1.]

Short title—2015 c 87: "This act may be known and cited as the Douglas M. Ostling act." [2015 c 87 § 2.]

43.101.435 Washington internet crimes against children account. The Washington internet crimes against children account is created in the custody of the state treasurer. All receipts from legislative appropriations, donations, gifts, grants, and funds from federal or private sources must be deposited into the account. Expenditures from the account must be used exclusively by the Washington internet crimes against children task force and its affiliate agencies for combating internet-facilitated crimes against children, promoting education on internet safety to the public and to minors, and rescuing child victims from abuse and exploitation. Only the criminal justice training commission or the commission's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. The commission may enter into agreements with the Washington association of sheriffs and police chiefs to administer grants and other activities funded by the account and be paid an administrative fee not to exceed three percent of expenditures. [2015 c 84 § 2.]

Findings—Intent—2015 c 84: "(1) The legislature finds that the internet crimes against children task force program, through the United States department of justice, helps state and local law enforcement agencies develop an effective response to technology-facilitated child sexual exploitation and internet crimes against children. This help encompasses forensic and investigative components, training and technical assistance, victim services, and community education. The program is a national network of sixty-one coordinated task forces representing over three thousand five hundred federal, state, and local law enforcement and prosecutorial agencies. In 2013, the program's investigations contributed to the arrests of more than seven thousand four hundred individuals and task forces conducted over sixty thousand forensic examinations. Additionally, the program trained over thirty thousand law enforcement personnel, over three thousand five hundred prosecutors, and more than five thousand three hundred other professionals working in the program's field.

(2) The legislature finds that there is a lack of dedicated state resources to combat internet-facilitated crimes against children. As a result, many of the cases involving internet-facilitated crimes are not adequately investigated. The legislature further finds that a minimum of fifteen full-time affiliate investigators and three forensic examiners are currently needed to just investigate the very worst of these cases in Washington. It is the intent of the legislature to create an account dedicated to combating internet-facilitated crimes against children, promoting education on internet safety to the public and to minors, and rescuing child victims from abuse and exploitation." [2015 c 84 § 1.]

43.101.440 Testimony of children under age fourteen—Remote testimony—Number of child sexual abuse cases referred for prosecution and number prosecuted—Annual survey—Reports to the legislature. The criminal justice training commission shall annually survey law enforcement and prosecuting agencies regarding, with respect to the preceding year: (1) The frequency of cases where children under the age of fourteen have elected not to testify, including the reasons for the election not to testify; (2) the number of cases where remote testimony pursuant to RCW 9A.44.150 was used and whether those cases resulted in conviction; and (3) the total number of child sexual abuse cases referred for prosecution and the number of those cases that were prosecuted. The results of the survey described in this section must be reported every other year to the appropriate committees of the legislature with an initial reporting date of December 1, 2015. [2015 c 286 § 3.]

Findings—Intent—2015 c 286: See note following RCW 43.101.270.

43.105.007 Purpose. Information technology is a tool used by state agencies to improve their ability to deliver public services efficiently and effectively. Advances in information technology, including advances in hardware, software, and business processes for implementing and managing these resources, offer new opportunities to improve the level of support provided to citizens and state agencies and to reduce the per-transaction cost of these services. These advances are one component in the process of reengineering how government delivers services to citizens.

To fully realize the service improvements and cost efficiency from the effective application of information technology to its business processes, state government must establish decision-making structures that connect business processes and information technology in an operating model. Many of these business practices transcend individual agency processes and should be worked at the enterprise level. To do this requires an effective partnership of executive management, business processes owners, and providers of support functions necessary to efficiently and effectively deliver services to citizens.

To maximize the potential for information technology to contribute to government business process reengineering, the state must establish clear central authority to plan, set enterprise policies and standards, and provide project oversight and management analysis of the various aspects of a business process.

Establishing a state chief information officer as the director of the consolidated technology services agency will provide state government with the cohesive structure necessary to develop improved operating models with agency directors and reengineer business process to enhance service delivery while capturing savings.

To achieve maximum benefit from advances in information technology, the state establishes a centralized provider and procurer of certain information technology services as an agency to support the needs of public agencies. This agency shall be known as the consolidated technology services agency. To ensure maximum benefit to the state, state agencies shall rely on the consolidated technology services agency for those services with a business case of broad use, uniformity, scalability, and price sensitivity to aggregation and volume.

To successfully meet public agency needs and meet its obligation as the primary service provider for these services, the consolidated technology services agency must offer high quality services at the best value. It must be able to attract an adaptable and competitive workforce, be authorized to procure services where the business case justifies it, and be

accountable to its customers for the efficient and effective delivery of critical business services.

The consolidated technology services agency is established with clear accountability to the agencies it serves and to the public. This accountability will come through enhanced transparency in the agency's operation and performance. The agency is also established with broad flexibility to adapt its operations and service catalog to address the needs of customer agencies, and to do so in the most cost-effective ways. The office shall submit recommendations for funding all or part of such requests to the director of financial management. The office shall also submit recommendations regarding consolidation and coordination of similar proposals or other efficiencies it finds in reviewing proposals.

(2) The office shall establish criteria, consistent with portfolio-based information technology management, for the evaluation of agency budget requests under this section. (a) Funding of a project under terms and conditions mutually agreed to by the director, the director of financial management, and the head of the agency proposing the project. However, the office of financial management may require incremental funding of a project on a phase-by-phase basis whereby funds for a given phase of a project may be released only when the office of financial management determines, with the advice of the director, that the previous phase is satisfactorily completed; and

(b) Other elements deemed necessary by the office of financial management. [2015 3rd sp.s. c 1 § 208; 2011 1st sp.s. c 43 § 712. Formerly RCW 43.41A.055.]

tions; and (3) analysis of the effect of proposed information technology investments on the state's information technology infrastructure. [1999 c 80 § 2. Formerly RCW 43.41A.110, 43.105.172.]

43.105.342 Consolidated technology services revolving account—Independent technical and financial analysis of proposed projects by the board. (1) The consolidated technology services revolving account is created in the custody of the state treasurer. All receipts from agency fees and charges for services collected from public agencies must be deposited into the account. The account must be used for the:

(a) Acquisition of equipment, software, supplies, and services; and

(b) Payment of salaries, wages, and other costs incidental to the acquisition, development, maintenance, operation, and administration of: (i) Information services; (ii) telecommunications; (iii) systems; (iv) software; (v) supplies; and (vi) equipment, including the payment of principal and interest on debt by the agency and other users as determined by the office of financial management.

(2) The director or the director's designee, with the approval of the technology services board, is authorized to expend up to one million dollars per fiscal biennium for the technology services board to conduct independent technical and financial analysis of proposed information technology projects.

(3) Only the director or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures except as provided in subsection (4) of this section.

(4) Expenditures for the strategic planning and policy component of the agency are subject to appropriation. [2015 3rd sp.s. c 1 § 501.]

43.105.351 Electronic access to public records—Findings—Intent. Based upon the recommendations of the public information access policy task force, the legislature finds that government records and information are a vital resource to both government operations and to the public that government serves. Broad public access to state and local government records and information has potential for expanding citizen access to that information and for improving government services. Electronic methods for locating and transferring information can improve linkages between and among citizens, organizations, businesses, and governments. Information must be managed with great care to meet the objectives of citizens and their governments.

It is the intent of the legislature to encourage state and local governments to develop, store, and manage their public records and information in electronic formats to meet their missions and objectives. Further, it is the intent of the legislature for state and local governments to set priorities for making public records widely available electronically to the public. [1996 c 171 § 1. Formerly RCW 43.41A.115, 43.105.250.]

43.105.355 Electronic access to public records—Costs and fees. Funding to meet the costs of providing access, including the building of the necessary information systems, the digitizing of information, developing the ability to mask nondisclosable information, and maintenance and upgrade of information access systems should come primarily from state and local appropriations, federal dollars, grants, private funds, cooperative ventures among governments, nonexclusive licensing, and public/private partnerships.

State agencies and local governments are encouraged to pool resources and to form cooperative ventures to provide electronic access to government records and information. State agencies are encouraged to seek federal and private grants for projects that provide increased efficiency and improve government delivery of information and services. [2015 3rd sp.s. c 1 § 217; 1996 c 171 § 12. Formerly RCW 43.41A.130, 43.105.280.]

43.105.359 Electronic access to public records—Government information locator service pilot project. The state library, with the assistance of the office and the state archives, shall establish a pilot project to design and test an electronic information locator system, allowing members of the public to locate and access electronic public records. In designing the system, the following factors shall be considered: (1) Ease of operation by citizens; (2) access through multiple technologies, such as direct dial and toll-free numbers, kiosks, and the internet; (3) compatibility with private online services; and (4) capability of expanding the electronic public records included in the system. The pilot project may restrict the type and quality of electronic public records that are included in the system to test the feasibility of making electronic public records and information widely available to the public. State agencies and local governments that collect and enter information concerning individuals into electronic records and information systems that will be widely accessible by the public under RCW 42.56.010 shall ensure the accuracy of this information to the extent possible. To the extent possible, information must be collected directly from, and with the consent of, the individual who is the subject of the data. State agencies shall establish procedures for correcting inaccurate information, including establishing mechanisms for individuals to review information about themselves and recommend changes in information they believe to be inaccurate. The inclusion of personal information in electronic public records that is widely available to the public should include information on the date when the database was created or most recently updated. If personally identifiable information is included in electronic public records that are made widely available to the public, state agencies must follow retention and archival schedules in

accordance with chapter 40.14 RCW, retaining personally identifiable information only as long as needed to carry out the purpose for which it was collected. At least once every five years, each agency that collects information must review the information collected and justify why it is being collected and for what purpose. STATE EXPENDITURES LIMITATIONS

Sections

- 43.135.010 Findings—Intent.
43.135.025 General fund expenditure limit—Computation—Annual limit adjustment—Definitions—Emergency exception—State treasurer duty, penalty—State expenditure limit committee.

- 43.135.034 Tax legislation—Two-thirds approval—Referral to voters—Conditions and restrictions—Ballot title—Declarations of emergency—Taxes on intangible property—Expenditure limit to reflect program cost shifting or fund transfer.
43.135.060 Prohibition of new or extended programs without full reimbursement—Transfer of programs—Determination of costs.

43.135.010 Findings—Intent. The people of the state of Washington hereby find and declare:

(1) The continuing increases in our state tax burden and the corresponding growth of state government is contrary to the interest of the people of the state of Washington.

(2) It is necessary to limit the rate of growth of state government while assuring adequate funding of essential services, and ample funding of basic education as defined by the legislature in chapter 548, Laws of 2009 and chapter 236, Laws of 2010 and as required by the state supreme court opinion and subsequent orders in *McCleary v. State*.

(3) The current budgetary system in the state of Washington lacks stability. The system encourages crisis budgeting and results in cutbacks during lean years and overspending during surplus years.

(4) It is therefore the intent of this chapter to:

(a) Establish a limit on state expenditures that will assure that the growth rate of state expenditures does not exceed the growth rate in Washington personal income once the state has fully implemented its Article IX funding obligations;

(b) Assure that local governments are provided funds adequate to render those services deemed essential by their citizens;

(c) Assure that the state does not impose responsibility on local governments for new programs or increased levels of service under existing programs unless the costs thereof are paid by the state;

(d) Provide for adjustment of the limit when costs of a program are transferred between the state and another political entity;

(e) Establish a procedure for exceeding this limit in emergency situations;

(f) Provide for voter approval of tax increases; and

(g) Avoid overfunding and underfunding state programs by providing stability, consistency, and long-range planning. [2015 3rd sp.s. c 29 § 2; 2005 c 72 § 3; 1994 c 2 § 1 (Initiative Measure No. 601, approved November 2, 1993); 1980 c 1 § 1 (Initiative Measure No. 62, approved November 6, 1979).]

Effective date—Findings—2015 3rd sp.s. c 29: See notes following RCW 43.135.025.

Findings—2005 c 72: "The legislature finds that the citizens of the state benefit from a state expenditure limit that ensures that the state budget operates with stability and predictability, while encouraging the establishment of budget priorities and a periodic review of state programs and the delivery of state services. A state expenditure limit can prevent budgeting crises that can occur because of increased spending levels during periods of revenue surplus followed by drastic reductions in state services in lean years. The citizens of the state are best served by an expenditure limit that keeps pace with the growth in the state's economy yet ensures budget discipline and taxpayer protection. For these reasons, the legislature finds that modifications to the state expenditure limit, after ten years of experience following the initial implementation of Initiative Measure No. 601, will recognize the economic productivity of the state's economy and better balance the needs of the citizens for essential government services with the obligation of the legislature for strict spending accountability and protection of its taxpayers." [2005 c 72 § 1.]

Effective dates—2005 c 72: "(1) Sections 1 and 2 of this act are necessary for the immediate preservation of the public peace, health, or safety, or

support of the state government and its existing public institutions, and take effect immediately [April 18, 2005].

(2) Sections 3 through 6 of this act take effect July 1, 2007." [2005 c 72 § 7.]

43.135.025 General fund expenditure limit—Computation—Annual limit adjustment—Definitions—Emergency exception—State treasurer duty, penalty—State expenditure limit committee. (1) Beginning July 1, 2021, the state shall not expend from the general fund during any fiscal year state moneys in excess of the state expenditure limit established under this chapter.

(2) Except pursuant to an appropriation under RCW 43.135.045(2), the state treasurer shall not issue or redeem any check, warrant, or voucher that will result in a state general fund expenditure for any fiscal year in excess of the state expenditure limit established under this chapter. A violation of this subsection constitutes a violation of RCW 43.88.290 and shall subject the state treasurer to the penalties provided in RCW 43.88.300.

(3) The state expenditure limit for any fiscal year shall be the previous fiscal year's state expenditure limit increased by a percentage rate that equals the fiscal growth factor.

(4) For purposes of computing the state expenditure limit for the fiscal year beginning July 1, 2021, the phrase "the previous fiscal year's state expenditure limit" means the total state expenditures from the state general fund for the fiscal year beginning July 1, 2020, plus the fiscal growth factor.

(5) A state expenditure limit committee is established for the purpose of determining and adjusting the state expenditure limit as provided in this chapter. The members of the state expenditure limit committee are the director of financial management, the attorney general or the attorney general's designee, and the chairs and ranking minority members of the senate committee on ways and means and the house of representatives committee on ways and means. All actions of the state expenditure limit committee taken pursuant to this chapter require an affirmative vote of at least four members.

(6) Each November, the state expenditure limit committee shall adjust the expenditure limit for the preceding fiscal year based on actual expenditures and known changes in the fiscal growth factor and then project an expenditure limit for the next two fiscal years. If, by November 30th, the state expenditure limit committee has not adopted the expenditure limit adjustment and projected expenditure limit as provided in subsection (5) of this section, the attorney general or his or her designee shall adjust or project the expenditure limit, as necessary.

(7) "Fiscal growth factor" means the average growth in state personal income for the prior ten fiscal years.

(8) "General fund" means the state general fund. [2015 3rd sp.s. c 29 § 3; 2009 c 479 § 35; 2005 c 72 § 4; (2006 c 56 § 7 expired July 1, 2007); 2000 2nd sp.s. c 2 § 1; 1994 c 2 § 2 (Initiative Measure No. 601, approved November 2, 1993).]

Effective date—2015 3rd sp.s. c 29: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [July 6, 2015]." [2015 3rd sp.s. c 29 § 5.]

Findings—2015 3rd sp.s. c 29: "The legislature finds that under the state supreme court's decision and subsequent orders in *McCleary v. State*, the state has an Article IX constitutional obligation to make significant enhancements to the program of basic education over the next biennia. The legislature further finds that the state expenditure limit was first enacted in

1993 as part of Initiative Measure No. 601, and that Washington has undergone many changes in the intervening years, including a recession during which state general fund revenues and expenditures actually declined despite population growth and increased demands for public services. Finally, the legislature finds that the new state requirements for a four-year balanced budget and budget outlook process provide a better tool for balancing and controlling the state budget while fulfilling constitutional requirements than does the state expenditure limit process. For these reasons, during the biennia in which the legislature is phasing in its Article IX obligations and for the ensuing biennium, the legislature is temporarily suspending the state expenditure limit." Effective date—2009 c 479: See note following RCW 2.56.030.

Expiration date—2006 c 56 §§ 7 and 8: "Sections 7 and 8 of this act expire July 1, 2007." [2006 c 56 § 12.]

43.135.034 Tax legislation—Two-thirds approval—Referral to voters—Conditions and restrictions—Ballot title—Declarations of emergency—Taxes on intangible property—Expenditure limit to reflect program cost shifting or fund transfer. (1)(a) Any action or combination of actions by the legislature that raises taxes may be taken only if approved by a two-thirds vote in both the house of representatives and the senate. Pursuant to the referendum power set forth in Article II, section 1(b) of the state Constitution, tax increases may be referred to the voters for their approval or rejection at an election.

(b) For the purposes of this chapter, "raises taxes" means any action or combination of actions by the state legislature that increases state tax revenue deposited in any fund, budget, or account, regardless of whether the revenues are deposited into the general fund.

(2)(a) If the legislative action under subsection (1) of this section will result in expenditures in excess of the state expenditure limit, then the action of the legislature may not take effect until approved by a vote of the people at a November general election. The state expenditure limit committee must adjust the state expenditure limit by the amount of additional revenue approved by the voters under this section. This adjustment may not exceed the amount of revenue generated by the legislative action during the first full fiscal year in which it is in effect. The state expenditure limit must be adjusted downward upon expiration or repeal of the legislative action.

(b) The ballot title for any vote of the people required under this section must be substantially as follows:

"Shall taxes be imposed on in order to allow a spending increase above last year's authorized spending adjusted for personal income growth?"

(3)(a) The state expenditure limit may be exceeded upon declaration of an emergency for a period not to exceed twentyfour months by a law approved by a two-thirds vote of each house of the legislature and signed by the governor. The law must set forth the nature of the emergency, which is limited to natural disasters that require immediate government action to alleviate human suffering and provide humanitarian assistance. The state expenditure limit may be exceeded for no more than twentyfour months following the declaration of the

emergency and only for the purposes contained in the emergency declaration.

(b) Additional taxes required for an emergency under this section may be imposed only until thirty days following the next general election, unless an extension is approved at that general election. The additional taxes expire upon expiration of the declaration of emergency. The legislature may not impose additional taxes for emergency purposes under this subsection unless funds in the education construction fund have been exhausted.

(c) The state or any political subdivision of the state may not impose any tax on intangible property listed in RCW 84.36.070 as that statute exists on January 1, 1993.

(4) If the cost of any state program or function is shifted from the state general fund to another source of funding, or if moneys are transferred from the state general fund to another fund or account, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), must lower the state expenditure limit to reflect the shift. For the purposes of this section, a transfer of money from the state general fund to another fund or account includes any state legislative action taken that has the effect of reducing revenues from a particular source, where such revenues would otherwise be deposited into the state general fund, while increasing the revenues from that particular source to another state or local government account. This subsection does not apply to: (a) The dedication or use of lottery revenues under RCW 67.70.240(1)(c), in support of education or education expenditures; (b) a transfer of moneys to, or an expenditure from, the budget stabilization account; or (c) a transfer of money to, or an expenditure from, the connecting Washington account established in RCW 46.68.395.

(5) If the cost of any state program or function and the ongoing revenue necessary to fund the program or function are shifted to the state general fund on or after January 1, 2007, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), must increase the state expenditure limit to reflect the shift unless the shifted revenue had previously been shifted from the general fund. 43.135.060 Prohibition of new or extended programs without full reimbursement—Transfer of programs—Determination of costs. (1) After July 1, 1995, the legislature shall not impose responsibility for new programs or increased levels of service under existing programs on any political subdivision of the state unless the subdivision is fully reimbursed by the state for the costs of the new programs or increases in service levels. Reimbursement by the state may be made by: (a) A specific appropriation; or (b) increases in state distributions of revenue to political subdivisions occurring after January 1, 1998.

(2) If by order of any court, or legislative enactment, the costs of a federal or local government program are transferred to or from the state, the otherwise applicable state expenditure limit shall be increased or decreased, as the case may be, by the dollar amount of the costs of the program.

(3) The legislature, in consultation with the office of financial management or its successor agency, shall determine the costs of any new programs or increased levels of service under existing programs imposed on any political subdivision or transferred to or from the state.

(4) Subsection (1) of this section does not apply to the costs incurred for voting devices or machines under RCW 29A.12.150. 43.155.050 Public works assistance account. The public works assistance account is hereby established in the state treasury. Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and to give financial guarantees to local governments for public works projects. Moneys in the account may also be appropriated to provide for state match requirements under federal law for projects and activities conducted and financed by the board under the drinking water assistance account. Not more than fifteen percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated for preconstruction loans, emergency loans, or loans for capital facility planning under this chapter; of this amount, not more than ten percent of the biennial capital budget appropriation may be expended for emergency loans and not more than one percent of the biennial capital budget appropriation may be expended for capital facility planning loans. During the 2015-2017 fiscal biennium, the legislature may transfer from the public works assistance account to the general fund, the water pollution control revolving account, and the drinking water assistance account such amounts as reflect the excess fund balance of the account. During the 2013-2015 fiscal biennium, the legislature may transfer from the public works assistance account to the education legacy trust account such amounts as specified by the legislature. During the 2015-2017 fiscal biennium, the legislature may appropriate moneys from the account for activities related to the growth management act and the voluntary stewardship program. During the 2015-2017 fiscal biennium, the legislature may transfer from the public works assistance account to the state general fund such amounts as specified by the legislature. In the 2017-2019 fiscal biennium the legislature intends to allocate seventy-three million dollars of future loan repayments paid into the public works assistance account to support basic education. 43.155.070 Eligibility, priority, limitations, and exceptions. (1) To qualify for financial assistance under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a capital facility plan; and

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city,

or town planning under RCW 36.70A.040 may not receive financial assistance under this chapter unless it has adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving financial assistance under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 that has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 may apply for and receive financial assistance under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before executing a contractual agreement for financial assistance with the board.

(3) In considering awarding financial assistance for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board must consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

(4) The board must develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board must attempt to assure a geographical balance in assigning priorities to projects. The board must consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Except as otherwise conditioned by RCW 43.155.110, whether the entity receiving assistance is a Puget Sound partner, as defined in RCW 90.71.010;

(c) Whether the project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310;

(d) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(e) Whether the applicant's permitting process has been certified as streamlined by the office of regulatory assistance;

(f) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007;

(g) The cost of the project compared to the size of the local government and amount of loan money available;

(h) The number of communities served by or funding the project;

(i) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(j) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(k) Except as otherwise conditioned by RCW 43.155.120, and effective one calendar year following the development of model evergreen community management plans and ordinances under RCW 35.105.050, whether the entity receiving assistance has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030;

(l) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(m) Other criteria that the board considers advisable.

(5) For the 2015-2017 fiscal biennium, in place of the criteria, ranking, and submission processes for construction loan lists provided in subsections (4) and (7) of this section:

(a) The board must develop a process for numerically ranking applications for construction loans submitted by local governments. The board must consider, at a minimum and in any order, the following factors in assigning a numerical ranking to a project:

(i) Whether the project is critical in nature and would affect the health and safety of many people;

(ii) The extent to which the project leverages nonstate funds;

(iii) The extent to which the project is ready to proceed to construction;

(iv) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(v) Whether the project promotes the sustainable use of resources and environmental quality;

(vi) Whether the project consolidates or regionalizes systems;

(vii) Whether the project encourages economic development through mixed-use and mixed income development consistent with chapter 36.70A RCW;

(viii) Whether the system is being well-managed in the present and for long-term sustainability;

(ix) Achieving equitable distribution of funds by geography and population;

(x) The extent to which the project meets the following state policy objectives:

(A) Efficient use of state resources;

(B) Preservation and enhancement of health and safety;

(C) Abatement of pollution and protection of the environment;

(D) Creation of new, family wage jobs, and avoidance of shifting existing jobs from one Washington state community to another;

(E) Fostering economic development consistent with chapter 36.70A RCW;

(F) Efficiency in delivery of goods and services, public transit, and transportation;

(G) Avoidance of additional costs to state and local governments that adversely impact local residents and small businesses; and

(H) Reduction of the overall cost of public infrastructure; and

(xi) Other criteria that the board considers necessary to achieve the purposes of this chapter.

(b) Before November 1, 2016, the board must develop and submit to the appropriate fiscal committees of the senate and house of representatives a ranked list of qualified public works projects which have been evaluated by the board and are recommended for funding by the legislature. The maximum amount of funding that the board may recommend for any jurisdiction is ten million dollars per biennium. For each project on the ranked list, as well as for eligible projects not recommended for funding, the board must document the numerical ranking that was assigned.

(6) Existing debt or financial obligations of local governments may not be refinanced under this chapter. Each local government applicant must provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(7) Before November 1st of each even-numbered year, the board must develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans made under RCW 43.155.065, 43.155.068, and subsection (10) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list must include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list must also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(8) The board may not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of public works projects. The legislature may remove projects from the list recommended by the board. The legislature may not change the order of the priorities recommended for funding by the board.

(9) Subsection (8) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (10) of this section.

(10) Loans made for the purpose of capital facilities plans are exempted from subsection (8) of this section.

(11) To qualify for loans or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

(12) After January 1, 2010, any project designed to address the effects of storm water or wastewater on Puget Sound may be funded under this section only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(13) During the 2015-2017 fiscal biennium, for projects involving repair, replacement, or improvement of a wastewa-

ter treatment plant or other public works facility for which an investment grade efficiency audit is obtainable, the public works board must require as a contract condition that the project sponsor undertake an investment grade efficiency audit. The project sponsor may finance the costs of the audit as part of its public works assistance account program loan.

(14)(a) For public works assistance account application rounds conducted during the 2015-2017 fiscal biennium, the board must implement policies and procedures designed to maximize local government use of federal funds to finance local infrastructure including, but not limited to, drinking water and clean water state revolving funds operated by the state departments of health and ecology. Projects that are eligible for the drinking water and clean water state revolving funds may receive public works board preconstruction loans. Projects that are eligible for the drinking water and clean water state revolving funds are not eligible for public works board construction loans. For purposes of this subsection "eligible for drinking water and clean water state revolving funds" means:

(i) Projects that have applied to the state revolving funds and are awaiting a funding decision;

(ii) Projects that have been rejected for funding solely due to not meeting readiness requirements; and

(iii) Projects that have not applied, but would likely be eligible if the project applied and met the project readiness requirements.

(b) For all construction loan projects proposed to the legislature for funding during the 2015-2017 fiscal biennium, the board must base interest rates on the average daily market interest rate for taxexempt municipal bonds as published in the bond buyer's index for the period from sixty to thirty days before the start of the application cycle. For projects with a repayment period between five and twenty years, the rate must be sixty percent of the market rate. For projects with a repayment period under five years, the rate must be thirty percent of the market rate. The board must also provide reduced interest rates, extended repayment periods, or forgivable principal loans for projects that meet financial hardship criteria as measured by the affordability index or similar standard measure of financial hardship. Severability—Effective date—2007 c 341: See RCW 90.71.906 and 90.71.907.

Findings—Recommendations—Reports encouraged—2007 c 231: "(1) The legislature finds that permit programs have been legislatively established to protect the health, welfare, economy, and environment of Washington's citizens and to provide a fair, competitive opportunity for business innovation and consumer confidence. The legislature also finds that uncertainty in government processes to permit an activity by a citizen of Washington state is undesirable and erodes confidence in government. The legislature further finds that in the case of projects that would further economic development in the state, information about the permitting process is critical for an

applicant's planning and financial assessment of the proposed project. The legislature also finds that applicants have a responsibility to provide complete and accurate information.

(2) The legislature recommends that applicants be provided with the following information when applying for a development permit from a city, county, or state agency:

(a) The minimum and maximum time an agency will need to make a decision on a permit, including public comment requirements;

(b) The minimum amount of information required for an agency to make a decision on a permit;

(c) When an agency considers an application complete for processing;

(d) The minimum and maximum costs in agency fees that will be incurred by the permit applicant; and

(e) The reasons for a denial of a permit in writing.

New information provided by the applicant subsequent to the agency estimates may change the information provided by an agency per subsection (2) of this section. Project modifications by an applicant may result in more time, more information, or higher fees being required for permit processing.

(4) This section does not create an independent cause of action, affect any existing cause of action, or establish time limits for purposes of RCW 64.40.020.

(5) City, county, and state agencies issuing development permits are encouraged to track the progress in providing the information to applicants per subsection (2) of this section by preparing an annual report of its performance for the preceding fiscal year. The report should be posted on its web site [and] made available and provided to the appropriate standing committees of the senate and house of representatives." [2007 c 231 § 1.]

43.185.070 Notice of grant and loan application period—Priorities—Criteria for evaluation. (*Effective until April 1, 2016.*) (1) During each calendar year in which funds from the housing trust fund or other legislative appropriations are available for use by the department for the housing assistance program, the department must announce to all known interested parties, and through major media throughout the state, a grant and loan application period of at least ninety days' duration. This announcement must be made as often as the director deems appropriate for proper utilization of resources. The department must then promptly grant as many applications as will utilize available funds less appropriate administrative costs of the department as provided in RCW 43.185.050.

(2) In awarding funds under this chapter, the department must:

(a) Provide for a geographic distribution on a statewide basis; and

(b) Until June 30, 2013, consider the total cost and per-unit cost of each project for which an application is submitted for funding under RCW 43.185.050(2) (a) and (j), as compared to similar housing projects constructed or renovated within the same geographic area.

(3) The department, with advice and input from the affordable housing advisory board established in RCW 43.185B.020, or a subcommittee of the affordable housing

advisory board, must report recommendations for awarding funds in a cost-effective manner. The report must include an implementation plan, timeline, and any other items the department identifies as important to consider to the legislature by December 1, 2012.

(4) The department must give first priority to applications for projects and activities which utilize existing privately owned housing stock including privately owned housing stock purchased by nonprofit public development authorities and public housing authorities as created in chapter 35.82 RCW. As used in this subsection, privately owned housing stock includes housing that is acquired by a federal agency through a default on the mortgage by the private owner. Such projects and activities must be evaluated under subsection (5) of this section. Second priority must be given to activities and projects which utilize existing publicly owned housing stock. All projects and activities must be evaluated by some or all of the criteria under subsection (5) of this section, and similar projects and activities shall be evaluated under the same criteria.

(5) The department must give preference for applications based on some or all of the criteria under this subsection, and similar projects and activities must be evaluated under the same criteria:

(a) The degree of leveraging of other funds that will occur;

(b) The degree of commitment from programs to provide necessary habilitation and support services for projects focusing on special needs populations;

(c) Recipient contributions to total project costs, including allied contributions from other sources such as professional, craft and trade services, and lender interest rate subsidies;

(d) Local government project contributions in the form of infrastructure improvements, and others;

(e) Projects that encourage ownership, management, and other project-related responsibility opportunities;

(f) Projects that demonstrate a strong probability of serving the original target group or income level for a period of at least twenty-five years;

(g) The applicant has the demonstrated ability, stability and resources to implement the project;

(h) Projects which demonstrate serving the greatest need;

(i) Projects that provide housing for persons and families with the lowest incomes;

(j) Projects serving special needs populations which are under statutory mandate to develop community housing;

(k) Project location and access to employment centers in the region or area;

(l) Projects that provide employment and training opportunities for disadvantaged youth under a youthbuild or youthbuild-type program as defined in RCW 50.72.020;

(m) Project location and access to available public transportation services; and

(n) Projects involving collaborative partnerships between local school districts and either public housing authorities or nonprofit housing providers, that help children of low-income families succeed in school. To receive this preference, the local school district must provide an opportunity for community members to offer input on the proposed

project at the first scheduled school board meeting following submission of the grant application to the department.

(6) The department may only approve applications for projects for persons with mental illness that are consistent with a regional support network six-year capital and operating plan. [2015 c 155 § 1; 2013 c 145 § 3; 2012 c 235 § 1. Prior: 2005 c 518 § 1802; 2005 c 219 § 2; 1994 sp.s. c 3 § 9; prior: 1991 c 356 § 5; 1991 c 295 § 2; 1988 c 286 § 1; 1986 c 298 § 8.]

43.185C.040 Homeless housing strategic plan—Program outcomes and performance measures and goals—Statewide data gathering instrument—Reports. (1) Six months after the first Washington homeless census, the department shall, in consultation with the interagency council on homelessness and the affordable housing advisory board,

prepare and publish a ten-year homeless housing strategic plan which shall outline statewide goals and performance measures and shall be coordinated with the plan for homeless families with children required under RCW 43.63A.650. To guide local governments in preparation of their first local homeless housing plans due December 31, 2005, the department shall issue by October 15, 2005, temporary guidelines consistent with this chapter and including the best available data on each community's homeless population. Local governments' ten-year homeless housing plans shall not be substantially inconsistent with the goals and program recommendations of the temporary guidelines and, when amended after 2005, the state strategic plan.

(2) Program outcomes and performance measures and goals shall be created by the department and reflected in the department's homeless housing strategic plan as well as interim goals against which state and local governments' performance may be measured, including:

(a) By the end of year one, completion of the first census as described in RCW 43.185C.030;

(b) By the end of each subsequent year, goals common to all local programs which are measurable and the achievement of which would move that community toward housing its homeless population; and

(c) By July 1, 2015, reduction of the homeless population statewide and in each county by fifty percent.

(3) The department shall develop a consistent statewide data gathering instrument to monitor the performance of cities and counties receiving grants in order to determine compliance with the terms and conditions set forth in the grant application or required by the department.

The department shall, in consultation with the inter-agency council on homelessness and the affordable housing advisory board, report biennially to the governor and the appropriate committees of the legislature an assessment of the state's performance in furthering the goals of the state ten-year homeless housing strategic plan and the performance of each participating local government in creating and executing a local homeless housing plan which meets the requirements of this chapter. The annual report may include performance measures such as:

(a) The reduction in the number of homeless individuals and families from the initial count of homeless persons;

(b) The reduction in the number of unaccompanied homeless youth. "Unaccompanied homeless youth" has the same meaning as in RCW 43.330.702;

(c) The number of new units available and affordable for homeless families by housing type;

(d) The number of homeless individuals identified who are not offered suitable housing within thirty days of their request or identification as homeless;

(e) The number of households at risk of losing housing who maintain it due to a preventive intervention;

(f) The transition time from homelessness to permanent housing;

(g) The cost per person housed at each level of the housing continuum;

(h) The ability to successfully collect data and report performance;

(i) The extent of collaboration and coordination among public bodies, as well as community stakeholders, and the level of community support and participation;

(j) The quality and safety of housing provided; and

(k) The effectiveness of outreach to homeless persons, and their satisfaction with the program.

(4) Based on the performance of local homeless housing programs in meeting their interim goals, on general population changes and on changes in the homeless population recorded in the annual census, the department may revise the performance measures and goals of the state homeless housing strategic plan, set goals for years following the initial ten-year period, and recommend changes in local governments' plans. [2015 c 69 § 25; 2009 c 518 § 17; 2005 c 484 § 7.]

43.185C.061 Home security fund account—Exemptions from set aside. Home security fund account funds appropriated to carry out the activities of RCW 43.330.700 through 43.330.715, 43.330.911, 43.185C.010, 43.185C.250 through 43.185C.320, and 43.330.167 are not subject to the set aside under RCW 36.22.179(1)(b). [2015 c 69 § 27.]

Short title—2015 c 69: See RCW 43.330.911.

43.185C.220 Essential needs and housing support program—Distribution of funds. (1) The department shall distribute funds for the essential needs and housing support program established under this section in a manner consistent with the requirements of this section and the biennial operating budget. The first distribution of funds must be completed by September 1, 2011. Essential needs or housing support is only for persons found eligible for such services under RCW 74.04.805 and is not considered an entitlement.

(2) The department shall distribute funds appropriated for the essential needs and housing support program in the form of grants to designated essential needs support and housing support entities within each county. The department shall not distribute any funds until it approves the expenditure plan submitted by the designated essential needs support and housing support entities. The amount of funds to be distributed pursuant to this section shall be designated in the biennial operating budget. For the sole purpose of meeting the initial distribution of funds date, the department may distribute partial funds upon the department's approval of a preliminary expenditure plan. The department shall not distribute the remaining funds until it has approved a final expenditure plan.

(3)(a) During the 2011-2013 biennium, in awarding housing support that is not funded through the contingency fund in this subsection, the designated housing support entity shall provide housing support to clients who are homeless persons as defined in RCW 43.185C.010. As provided in the biennial operating budget for the 2011-2013 biennium, a contingency fund shall be used solely for those clients who are at substantial risk of losing stable housing or at substantial risk of losing one of the other services defined in RCW 74.62.010(6). For purposes of this chapter, "substantial risk" means the client has provided documentation that he or she will lose his or her housing within the next thirty days or that the services will be discontinued within the next thirty days.

(b) After July 1, 2013, the designated housing support entity shall give first priority to clients who are homeless persons as defined in RCW 43.185C.010 and second priority to clients who would be at substantial risk of losing stable housing without housing support.

(4) For each county, the department shall designate an essential needs support entity and a housing support entity that will begin providing these supports to medical care services program recipients on November 1, 2011. Essential needs and housing support entities are not required to provide assistance to every person referred to the local entity or who meets the priority standards in subsection (3) of this section.

(a) Each designated entity must be a local government or communitybased organization, and may administer the funding for essential needs support, housing support, or both. Designated entities have the authority to subcontract with qualified entities. Upon request, and the approval of the department, two or more counties may combine resources to more effectively deliver services.

(b) The department's designation process must include a review of proficiency in managing housing or human services programs when designating housing support entities.

(c) Within a county, if the department directly awards separate grants to the designated housing support entity and the designated essential needs support entity, the department shall determine the amount allocated for essential needs support as directed in the biennial operating budget.

(5)(a) Essential needs and housing support entities must use funds distributed under this section as flexibly as is practicable to provide essential needs items and housing support to recipients of the essential needs and housing support program, subject to the requirements of this section.

(b) Benefits provided under the essential needs and housing support program shall not be provided to recipients in the form of cash assistance.

(c) The department may move funds between entities or between counties to reflect actual caseload changes. In doing so, the department must: (i) Develop a process for reviewing the caseload of designated essential needs and housing support entities, and for redistributing grant funds from those entities experiencing reduced actual caseloads to those with increased actual caseloads; and (ii) inform all designated entities of the redistribution process. Savings resulting from program caseload attrition from the essential needs and housing support program shall not result in increased perclient expenditures.

(d) Essential needs and housing support entities must partner with other public and private organizations to maximize the beneficial impact of funds distributed under this section, and should attempt to leverage other sources of public and private funds to serve essential needs and housing support recipients. Funds appropriated in the operating budget for essential needs and housing support must be used only to serve persons eligible to receive services under that program.

(6) The department shall use no more than five percent of the funds for administration of the essential needs and housing support program. Each essential needs and housing support entity shall use no more than seven percent of the funds for administrative expenses.

(7) The department shall:

(a) Require housing support entities to enter data into the homeless client management information system;

(b) Require essential needs support entities to report on services provided under this section;

(c) In collaboration with the department of social and health services, submit a report annually to the relevant policy and fiscal committees of the legislature. A preliminary report shall be submitted by December 31, 2011, and must include (c)(i), (iii), and (v) of this subsection. Annual reports must be submitted beginning December 1, 2012, and must include:

(i) A description of the actions the department has taken to achieve the objectives of chapter 36, Laws of 2011 1st sp. sess.;

(ii) The amount of funds used by the department to administer the program;

(iii) Information on the housing status of essential needs and housing support recipients served by housing support entities, and individuals who have requested housing support but did not receive housing support;

(iv) Grantee expenditure data related to administration and services provided under this section; and

(v) Efforts made to partner with other entities and leverage sources or public and private funds;

(d) Review the data submitted by the designated entities, and make recommendations for program improvements and administrative efficiencies. The department has the authority to designate alternative entities as necessary due to performance or other significant issues. Such change must only be made after consultation with the department of social and health services and the impacted entity.

(8) The department, counties, and essential needs and housing support entities are not civilly or criminally liable and may not have any penalty or cause of action of any nature arise against them related to decisions regarding: (a) The provision or lack of provision of housing or essential needs support; or (b) the type of housing arrangement supported with funds allocated under this section, when the decision was made in good faith and in the performance of the powers and duties under this section. However, this section does not prohibit legal actions against the department, county, or essential needs or housing support entity to enforce contractual duties or obligations. 43.185C.240 Document recording surcharge funds—Use—Local government obligations—Washington state quality award program—Department's duties—Definitions. (Expires June 30, 2019.) (1) As a means of efficiently and cost-effectively providing housing assistance to very-low income and homeless households:

(a) Any local government that has the authority to issue housing vouchers, directly or through a contractor, using document recording surcharge funds collected pursuant to RCW 36.22.178, 36.22.179, or 36.22.1791 must:

(i)(A) Maintain an interested landlord list, which at a minimum, includes information on rental properties in buildings with fewer than fifty units;

(B) Update the list at least once per quarter;

(C) Distribute the list to agencies providing services to individuals and households receiving housing vouchers;

(D) Ensure that a copy of the list or information for accessing the list online is provided with voucher paperwork; and

(E) Communicate and interact with landlord and tenant associations located within its jurisdiction to facilitate development, maintenance, and distribution of the list to private rental housing landlords. The department must make reasonable efforts to ensure that local providers conduct outreach to private rental housing landlords each calendar quarter regarding opportunities to provide rental housing to the homeless and the availability of funds;

(ii) Using cost-effective methods of communication, convene, on a semiannual or more frequent basis, landlords represented on the interested landlord list and agencies providing services to individuals and households receiving vouchers to identify successes, barriers, and process improvements. The local government is not required to reimburse any participants for expenses related to attendance;

(iii) Produce data, limited to document recording fee uses and expenditures, on a calendar year basis in consultation with landlords represented on the interested landlord list and agencies providing services to individuals and households receiving housing vouchers, that include the following: Total amount expended from document recording fees; amount expended on, number of households that received, and number of housing vouchers issued in each of the private, public, and nonprofit markets; amount expended on, number of households that received, and number of housing placement payments provided in each of the private, public, and nonprofit markets; amount expended on and number of eviction prevention services provided in the private market; amount expended on and number of other tenant-based rent assistance services provided in the private market; and amount expended on and number of services provided to unaccompanied homeless youth. If these data elements are not readily available, the reporting government may request the department to use the sampling methodology established pursuant to (c)(iii) of this subsection to obtain the data; and

(iv) Annually submit the calendar year data to the department by October 1st, with preliminary data submitted by October 1, 2012, and full calendar year data submitted beginning October 1, 2013.

(b) Any local government receiving more than three million five hundred thousand dollars during the previous calendar year from document recording surcharge funds collected pursuant to RCW 36.22.178, 36.22.179, and 36.22.1791, must apply to the Washington state quality award program, or similar Baldrige assessment organization, for an independent assessment of its quality management, accountability, and performance system. The first assessment may be a lite assessment. After submitting an application, a local government is required to reapply at least every two years.

(c) The department must:

(i) Require contractors that provide housing vouchers to distribute the interested landlord list created by the appropri-

ate local government to individuals and households receiving the housing vouchers;

(ii) Convene a stakeholder group by March 1, 2017, consisting of landlords, homeless housing advocates, real estate industry representatives, cities, counties, and the department to meet to discuss long-term funding strategies for homeless housing programs that do not include a surcharge on document recording fees. The stakeholder group must provide a report of its findings to the legislature by December 1, 2017;

(iii) Develop a sampling methodology to obtain data required under this section when a local government or contractor does not have such information readily available. The process for developing the sampling methodology must include providing notification to and the opportunity for public comment by local governments issuing housing vouchers, landlord association representatives, and agencies providing services to individuals and households receiving housing vouchers;

(iv) Develop a report, limited to document recording fee uses and expenditures, on a calendar year basis that may include consultation with local governments, landlord association representatives, and agencies providing services to individuals and households receiving housing vouchers, that includes the following: Total amount expended from document recording fees; amount expended on, number of households that received, and number of housing vouchers issued in each of the private, public, and nonprofit markets; amount expended on, number of households that received, and number of housing placement payments provided in each of the private, public, and nonprofit markets; amount expended on and number of eviction prevention services provided in the private market; the total amount of funds set aside for private rental housing payments as required in RCW 36.22.179(1)(b); and amount expended on and number of other tenant-based rent assistance services provided in the private market. The information in the report must include data submitted by local governments and data on all additional document recording fee activities for which the department contracted that were not otherwise reported. The data, samples, and sampling methodology used to develop the report must be made available upon request and for the audits required in this section;

(v) Annually submit the calendar year report to the legislature by December 15th, with a preliminary report submitted by December 15, 2012, and full calendar year reports submitted beginning December 15, 2013; and

(vi) Work with the Washington state quality award program, local governments, and any other organizations to ensure the appropriate scheduling of assessments for all local governments meeting the criteria described in subsection (1)(b) of this section.

(d) The office of financial management must secure an independent audit of the department's data and expenditures of state funds received under RCW 36.22.179(1)(b) on an annual basis. The independent audit must review a random sample of local governments, contractors, and housing providers that is geographically and demographically diverse. The independent auditor must meet with the department and a landlord representative to review the preliminary audit and provide the department and the landlord representative with the opportunity to include written comments regarding the

findings that must be included with the audit. The first audit of the department's data and expenditures will be for calendar year 2014 and is due July 1, 2015. Each audit thereafter will be due July 1st following the department's submission of the report to the legislature. If the independent audit finds that the department has failed to set aside at least forty-five percent of the funds received under RCW 36.22.179(1)(b) after June 12, 2014, for private rental housing payments, the independent auditor must notify the department and the office of financial management of its finding. In addition, the independent auditor must make recommendations to the office of financial management and the legislature on alternative means of distributing the funds to meet the requirements of RCW 36.22.179(1)(b).

(e) The office of financial management must contract with an independent auditor to conduct a performance audit of the programs funded by document recording surcharge funds collected pursuant to RCW 36.22.178, 36.22.179, and 36.22.1791. The audit must provide findings to determine if the funds are being used effectively, efficiently, and for their intended purpose. The audit must review the department's performance in meeting all statutory requirements related to document recording surcharge funds including, but not limited to, the data the department collects, the timeliness and quality of required reports, and whether the data and required reports provide adequate information and accountability for the use of the document recording surcharge funds. The audit must include recommendations for policy and operational improvements to the use of document recording surcharges by counties and the department. The performance audit must be submitted to the legislature by December 1, 2016.

(a) If a law enforcement agency has been contacted by the parent of the child that the child is absent from parental custody without consent; or

(b) If a law enforcement officer reasonably believes, considering the child's age, the location, and the time of day, that a child is in circumstances which constitute a danger to the child's safety or that a child is violating a local curfew ordinance; or

(c) If an agency legally charged with the supervision of a child has notified a law enforcement agency that the child has run away from placement; or

(d) If a law enforcement agency has been notified by the juvenile court that the court finds probable cause exists to believe that the child has violated a court placement order issued under this chapter or chapter 13.34 RCW or that the court has issued an order for law enforcement pick-up of the child under this chapter or chapter 13.34 RCW.

(2) Law enforcement custody shall not extend beyond the amount of time reasonably necessary to transport the child to a destination authorized by law and to place the child at that destination. Law enforcement custody continues until the law enforcement officer transfers custody to a person, agency, or other authorized entity under this chapter, or releases the child because no placement is available. Transfer of custody is not complete unless the person, agency, or entity to whom the child is released agrees to accept custody.

(3) If a law enforcement officer takes a child into custody pursuant to either subsection (1)(a) or (b) of this section and transports the child to a crisis residential center, the officer shall, within twenty-four hours of delivering the child to

the center, provide to the center a written report detailing the reasons the officer took the child into custody. The center shall provide the department of social and health services with a copy of the officer's report.

(5) Nothing in this section affects the authority of any political subdivision to make regulations concerning the conduct of minors in public places by ordinance or other local law.

(6) If a law enforcement officer has a reasonable suspicion that a child is being unlawfully harbored in violation of RCW 13.32A.080, the officer shall remove the child from the custody of the person harboring the child and shall transport the child to one of the locations specified in RCW 43.185C.265.

(a) Transport the child to his or her home or to a parent at his or her place of employment, if no parent is at home. The parent may request that the officer take the child to the home of an adult extended family member, responsible adult, crisis residential center, the department of social and health services, or a licensed youth shelter. In responding to the request of the parent, the officer shall take the child to a requested place which, in the officer's belief, is within a reasonable distance of the parent's home. The officer releasing a child into the custody of a parent, an adult extended family member, responsible adult, or a licensed youth shelter shall inform the person receiving the child of the reason for taking the child into custody and inform all parties of the nature and location of appropriate services available in the community; or

(b) After attempting to notify the parent, take the child to a designated crisis residential center's secure facility or a center's semi-secure facility if a secure facility is full, not available, or not located within a reasonable distance if:

(i) The child expresses fear or distress at the prospect of being returned to his or her home which leads the officer to

believe there is a possibility that the child is experiencing some type of abuse or neglect;

(ii) It is not practical to transport the child to his or her home or place of the parent's employment; or

(iii) There is no parent available to accept custody of the child; or

(c) After attempting to notify the parent, if a crisis residential center is full, not available, or not located within a reasonable distance, request the department of social and health services to accept custody of the child. If the department of social and health services determines that an appropriate placement is currently available, the department of social and health services shall accept custody and place the child in an out-of-home placement. Upon accepting custody of a child from the officer, the department of social and health services may place the child in an out-of-home placement for up to seventy-two hours, excluding Saturdays, Sundays, and holidays, without filing a child in need of services petition, obtaining parental consent, or obtaining an order for placement under chapter 13.34 RCW. Upon transferring a child to the department of social and health services' custody, the officer shall provide written documentation of the reasons and the statutory basis for taking the child into custody. If the department of social and health services declines to accept custody of the child, the officer may release the child after attempting to take the child to the following, in the order listed: The home of an adult extended family member; a responsible adult; or a licensed youth shelter. The officer shall immediately notify the department of social and health services if no placement option is available and the child is released.

(2) An officer taking a child into custody under RCW 43.185C.260(1) (c) or (d) shall inform the child of the reason for custody. An officer taking a child into custody under RCW 43.185C.260(1)(c) may release the child to the supervising agency, or shall take the child to a designated crisis residential center's secure facility. If the secure facility is not available, not located within a reasonable distance, or full, the officer shall take the child to a semi-secure crisis residential center. An officer taking a child into custody under RCW 43.185C.260(1)(d) may place the child in a juvenile detention facility as provided in RCW 43.185C.270 or a secure facility, except that the child shall be taken to detention whenever the officer has been notified that a juvenile court has entered a detention order under this chapter or chapter 13.34 RCW.

(3) Every officer taking a child into custody shall provide the child and his or her parent or parents or responsible adult with a copy of the statement specified in RCW 43.185C.290(6).

(4) Whenever an officer transfers custody of a child to a crisis residential center or the department of social and health services, the child may reside in the crisis residential center or may be placed by the department of social and health services in an out-of-home placement for an aggregate total period of time not to exceed seventy-two hours excluding Saturdays, Sundays, and holidays. Thereafter, the child may continue in out-of-home placement only if the parents have consented, a child in need of services petition has been filed, or an order for placement has been entered under chapter 13.34 RCW.

(5) The department of social and health services shall ensure that all law enforcement authorities are informed on a regular basis as to the location of all designated secure and semi-secure facilities within centers in their jurisdiction, where children taken into custody under RCW 43.185C.260 may be taken. 43.185C.290 Youth services—Child admitted to secure facility—Maximum hours of custody—Evaluation for semi-secure facility or release to department of social and health services—Parental right to remove child—Reconciliation effort—Information to parent and child—Written statement of services and rights—Crisis residential center immunity from liability. (1) A child admitted to a secure facility located in a juvenile detention center shall remain in the facility for at least twenty-four hours after admission but for not more than five consecutive days. A child admitted to a secure facility not located in a juvenile detention center or a semi-secure facility may remain for not more than fifteen consecutive days. If a child is transferred between a secure and semi-secure facility, the aggregate length of time a child may remain in both facilities shall not exceed fifteen consecutive days per admission, and in no event may a child's stay in a secure facility located in a juvenile detention center exceed five days per admission.

(2)(a)(i) The facility administrator shall determine within twenty-four hours after a child's admission to a secure facility whether the child is likely to remain in a semi-secure facility and may transfer the child to a semi-secure facility or release the child to the department of social and health services. The determination shall be based on: (A) The need for continued assessment, protection, and treatment of the child in a secure facility; and (B) the likelihood the child would remain at a semi-secure facility until his or her parents can take the child home or a petition can be filed under this title.

(ii) In making the determination the administrator shall consider the following information if known: (A) The child's age and maturity; (B) the child's condition upon arrival at the center; (C) the circumstances that led to the child's being taken to the center; (D) whether the child's behavior endangers the health, safety, or welfare of the child or any other person; (E) the child's history of running away; and (F) the child's willingness to cooperate in the assessment.

(b) If the administrator of a secure facility determines the child is unlikely to remain in a semi-secure facility, the administrator shall keep the child in the secure facility pursuant to this chapter and in order to provide for space for the child may transfer another child who has been in the facility for at least seventy-two hours to a semi-secure facility. The administrator shall only make a transfer of a child after determining that the child who may be transferred is likely to remain at the semi-secure facility.

(c) A crisis residential center administrator is authorized to transfer a child to a crisis residential center in the area where the child's parents reside or where the child's lawfully prescribed residence is located.

(d) An administrator may transfer a child from a semi-secure facility to a secure facility whenever he or she reasonably believes that the child is likely to leave the semi-secure

facility and not return and after full consideration of all factors in (a)(i) and (ii) of this subsection.

(3) If no parent is available or willing to remove the child during the first seventy-two hours following admission, the department of social and health services shall consider the filing of a petition under RCW 13.32A.140.

(4) Notwithstanding the provisions of subsection (1) of this section, the parents may remove the child at any time unless the staff of the crisis residential center has reasonable cause to believe that the child is absent from the home because he or she is abused or neglected or if allegations of abuse or neglect have been made against the parents. The department of social and health services or any agency legally charged with the supervision of a child may remove a child from a crisis residential center at any time after the first twenty-four-hour period after admission has elapsed and only after full consideration by all parties of the factors in subsection (2)(a) of this section.

(5) Crisis residential center staff shall make reasonable efforts to protect the child and achieve a reconciliation of the family. If a reconciliation and voluntary return of the child has not been achieved within forty-eight hours from the time of admission, and if the administrator of the center does not consider it likely that reconciliation will be achieved within five days of the child's admission to the center, then the administrator shall inform the parent and child of: (a) The availability of counseling services; (b) the right to file a child in need of services petition for an out-of-home placement, the right of a parent to file an at-risk youth petition, and the right of the parent and child to obtain assistance in filing the petition; (c) the right to request the facility administrator or his or her designee to form a multidisciplinary team; (d) the right to request a review of any out-of-home placement; (e) the right to request a mental health or chemical dependency evaluation by a county-designated professional or a private treatment facility; and (f) the right to request treatment in a program to address the child's at-risk behavior under RCW 13.32A.197.

(6) At no time shall information regarding a parent's or child's rights be withheld. The department shall develop and distribute to all law enforcement agencies and to each crisis residential center administrator a written statement delineating the services and rights. The administrator of the facility or his or her designee shall provide every resident and parent with a copy of the statement.

(7) A crisis residential center and any person employed at the center acting in good faith in carrying out the provisions of this section are immune from criminal or civil liability for such actions. (1) A child taken into custody and taken to a crisis residential center established pursuant to RCW 43.185C.295 may, if the center is unable to provide appropriate treatment, supervision, and structure to the child, be taken at department expense to another crisis residential center, the nearest regional secure crisis residential center, or a secure facility with which it is collocated under RCW 43.185C.295. Placement in both locations shall not exceed fifteen consecutive days from the point of intake as provided in RCW 43.185C.290.

(2) A child taken into custody and taken to a crisis residential center established by this chapter may be placed physically by the department of social and health services' designee and, at their departmental expense and approval, in a secure juvenile detention facility operated by the county in which the center is located for a maximum of forty-eight hours, including Saturdays, Sundays, and holidays, if the child has taken unauthorized leave from the center and the person in charge of the center determines that the center cannot provide supervision and structure adequate to ensure that the child will not again take unauthorized leave. Juveniles placed in such a facility pursuant to this section may not, to the extent possible, come in contact with alleged or convicted juvenile or adult offenders.

(3) Any child placed in secure detention pursuant to this section shall, during the period of confinement, be provided with appropriate treatment by the department of social and health services or the department's designee, which shall include the services defined in RCW 43.185C.305(2). If the child placed in secure detention is not returned home or if an alternative living arrangement agreeable to the parent and the child is not made within twenty-four hours after the child's admission, the child shall be taken at the department's expense to a crisis residential center. 43.185C.315 Youth services—HOPE centers—Establishment—Requirements. The department shall establish HOPE centers that provide no more than seventy-five beds across the state and may establish HOPE centers by contract, within funds appropriated by the legislature specifically for this purpose. HOPE centers shall be operated in a manner to reasonably assure that street youth placed there will not run away. Street youth may leave a HOPE center during the course of the day to attend school or other necessary appointments, but the street youth must be accompanied by an administrator or an administrator's designee. The street youth must provide the administration with specific information regarding his or her destination and expected time of return to the HOPE center. Any street youth who runs away from a HOPE center shall not be readmitted unless specifically authorized by the street youth's placement and liaison specialist, and the placement and liaison specialist shall document with specific factual findings an appropriate basis for readmitting any street youth to a HOPE center. HOPE centers are required to have the following:

(1) A license issued by the department of social and health services;

(2) A professional with a master's degree in counseling, social work, or related field and at least one year of experience working with street youth or a bachelor of arts degree in social work or a related field and five years of experience working with street youth. This professional staff person may be contractual or a part-time employee, but must be available to work with street youth in a HOPE center at a ratio of one to every fifteen youth staying in a HOPE center. This professional shall be known as a placement and liaison specialist. Preference shall be given to those professionals cross-credentialed in mental health and chemical dependency. The placement and liaison specialist shall:

(a) Conduct an assessment of the street youth that includes a determination of the street youth's legal status regarding residential placement;

(b) Facilitate the street youth's return to his or her legally authorized residence at the earliest possible date or initiate processes to arrange legally authorized appropriate placement. Any street youth who may meet the definition of dependent child under RCW 13.34.030 must be referred to the department of social and health services. The department of social and health services shall determine whether a dependency petition should be filed under chapter 13.34 RCW. A shelter care hearing must be held within seventy-two hours to authorize out-of-home placement for any youth the department of social and health services determines is appropriate for out-of-home placement under chapter 13.34 RCW. All of the provisions of chapter 13.32A RCW must be followed for children in need of services or at-risk youth;

(c) Interface with other relevant resources and system representatives to secure long-term residential placement and other needed services for the street youth;

(d) Be assigned immediately to each youth and meet with the youth within eight hours of the youth receiving HOPE center services;

(e) Facilitate a physical examination of any street youth who has not seen a physician within one year prior to resi-

dence at a HOPE center and facilitate evaluation by a county-designated mental health professional, a chemical dependency specialist, or both if appropriate; and

(f) Arrange an educational assessment to measure the street youth's competency level in reading, writing, and basic mathematics, and that will measure learning disabilities or special needs;

(3) Staff trained in development needs of street youth as determined by the department, including an administrator who is a professional with a master's degree in counseling, social work, or a related field and at least one year of experience working with street youth, or a bachelor of arts degree in social work or a related field and five years of experience working with street youth, who must work with the placement and liaison specialist to provide appropriate services on site;

(4) A data collection system that measures outcomes for the population served, and enables research and evaluation that can be used for future program development and service delivery. Data collection systems must have confidentiality rules and protocols developed by the department;

(5) Notification requirements that meet the notification requirements of chapter 13.32A RCW. The youth's arrival date and time must be logged at intake by HOPE center staff. The staff must immediately notify law enforcement and dependency caseworkers if a street youth runs away from a HOPE center. A child may be transferred to a secure facility as defined in RCW 13.32A.030 whenever the staff reasonably believes that a street youth is likely to leave the HOPE center and not return after full consideration of the factors set forth in RCW 43.185C.290(2)(a) (i) and (ii). The street youth's temporary placement in the HOPE center must be authorized by the court or the secretary of the department of social and health services if the youth is a dependent of the state under chapter 13.34 RCW or the department of social and health services is responsible for the youth under chapter 13.32A RCW, or by the youth's parent or legal custodian, until such time as the parent can retrieve the youth who is returning to home;

(6) HOPE centers must identify to the department of social and health services any street youth it serves who is not returning promptly to home. The department of social and health services then must contact the missing children's clearinghouse identified in chapter 13.60 RCW and either report the youth's location or report that the youth is the subject of a dependency action and the parent should receive notice from the department of social and health services;

(7) Services that provide counseling and education to the street youth; and

(8) The department shall award contracts for the operation of HOPE center beds with the goal of facilitating the coordination of services provided for youth by such programs and those services provided by secure and semi-secure crisis residential centers. 43.185C.320 Youth services—HOPE centers—Eligibility—Minors. Youth may also self-refer to a HOPE center. Payment for a HOPE center bed is not contingent upon prior approval by the department; however, approval from the department of social and health services is needed if the youth is dependent under chapter 13.34 RCW. 43.215.100 Early achievers program—Quality rating and improvement system. (1) The department, in collaboration with tribal governments and community and statewide partners, shall implement a quality rating and improvement system, called the early achievers program. The early achievers program provides a foundation of quality for the early care and education system. The early achievers program is applicable to licensed or certified child care centers and homes and early learning programs such as working connections child care and early childhood education and assistance programs.

(2) The objectives of the early achievers program are to:

(a) Improve short-term and long-term educational outcomes for children as measured by assessments including, but not limited to, the Washington kindergarten inventory of developing skills in RCW 28A.655.080;

(b) Give parents clear and easily accessible information about the quality of child care and early education programs;

(c) Support improvement in early learning and child care programs throughout the state;

(d) Increase the readiness of children for school;

(e) Close the disparities in access to quality care;

(f) Provide professional development and coaching opportunities to early child care and education providers; and

(g) Establish a common set of expectations and standards that define, measure, and improve the quality of early learning and child care settings.

(3)(a) Licensed or certified child care centers and homes serving nonschool-age children and receiving state subsidy payments must participate in the early achievers program by the required deadlines established in RCW 43.215.135.

(b) Approved early childhood education and assistance program providers receiving state-funded support must participate in the early achievers program by the required deadlines established in RCW 43.215.415.

(c) Participation in the early achievers program is voluntary for:

(i) Licensed or certified child care centers and homes not receiving state subsidy payments; and

(ii) Early learning programs not receiving state funds.

(d) School-age child care providers are exempt from participating in the early achievers program. By July 1, 2017, the department and the office of the superintendent of public instruction shall jointly design a plan to incorporate school-age child care providers into the early achievers program or other appropriate quality improvement system. To test imple-

mentation of the early achievers system for school-age child care providers the department and the office of the superintendent of public instruction shall implement a pilot program.

(4) There are five levels in the early achievers program. Participants are expected to actively engage and continually advance within the program.

(5) The department has the authority to determine the rating cycle for the early achievers program. The department shall streamline and eliminate duplication between early achievers standards and state child care rules in order to reduce costs associated with the early achievers rating cycle and child care licensing.

(a) Early achievers program participants may request to be rated at any time after the completion of all level 2 activities.

(b) The department shall provide an early achievers program participant an update on the participant's progress toward completing level 2 activities after the participant has been enrolled in the early achievers program for fifteen months.

(c) The first rating is free for early achievers program participants.

(d) Each subsequent rating within the established rating cycle is free for early achievers program participants.

(6)(a) Early achievers program participants may request to be rerated outside the established rating cycle.

(b) The department may charge a fee for optional rerating requests made by program participants that are outside the established rating cycle.

(c) Fees charged are based on, but may not exceed, the cost to the department for activities associated with the early achievers program.

(7)(a) The department must create a single source of information for parents and caregivers to access details on a provider's early achievers program rating level, licensing history, and other indicators of quality and safety that will help parents and caregivers make informed choices.

(b) The department shall publish to the department's web site, or offer a link on its web site to, the following information:

(i) By November 1, 2015, early achievers program rating levels 1 through 5 for all child care programs that receive state subsidy, early childhood education and assistance programs, and federal head start programs in Washington; and

(ii) New early achievers program ratings within thirty days after a program becomes licensed or certified, or receives a rating.

(c) The early achievers program rating levels shall be published in a manner that is easily accessible to parents and caregivers and takes into account the linguistic needs of parents and caregivers.

(d) The department must publish early achievers program rating levels for child care programs that do not receive state subsidy but have voluntarily joined the early achievers program.

(e) Early achievers program participants who have published rating levels on the department's web site or on a link on the department's web site may include a brief description of their program, contingent upon the review and approval by the department, as determined by established marketing standards.

(8)(a) The department shall create a professional development pathway for early achievers program participants to obtain a high school diploma or equivalency or higher education credential in early childhood education, early childhood studies, child development, or an academic field related to early care and education.

(b) The professional development pathway must include opportunities for scholarships and grants to assist early achievers program participants with the costs associated with obtaining an educational degree.

(c) The department shall address cultural and linguistic diversity when developing the professional development pathway.

(9) The early achievers quality improvement awards shall be reserved for participants offering programs to an enrollment population consisting of at least five percent of children receiving a state subsidy.

(10) In collaboration with tribal governments, community and statewide partners, and the early achievers review subcommittee created in RCW 43.215.090, the department shall develop a protocol for granting early achievers program participants an extension in meeting rating level requirement timelines outlined for the working connections child care program and the early childhood education and assistance program.

(a) The department may grant extensions only under exceptional circumstances, such as when early achievers program participants experience an unexpected life circumstance.

(b) Extensions shall not exceed six months, and early achievers program participants are only eligible for one extension in meeting rating level requirement timelines.

(c) Extensions may only be granted to early achievers program participants who have demonstrated engagement in the early achievers program.

(11)(a) The department shall accept national accreditation that meets the requirements of this subsection (11) as a qualification for the early achievers program ratings.

(b) Each national accreditation agency will be allowed to submit its most current standards of accreditation to establish potential credit earned in the early achievers program. The department shall grant credit to accreditation bodies that can demonstrate that their standards meet or exceed the current early achievers program standards.

(c) Licensed child care centers and child care home providers must meet national accreditation standards approved by the department for the early achievers program in order to be granted credit for the early achievers program standards. Eligibility for the early achievers program is not subject to bargaining, mediation, or interest arbitration under RCW 41.56.028, consistent with the legislative reservation of rights under RCW 41.56.028(4)(d).

(13) A child care or early learning program that is operated by a federally recognized tribe and receives state funds shall participate in the early achievers program. The tribe may choose to participate through an interlocal agreement between the tribe and the department. The interlocal agree-

ment must reflect the government-to-government relationship between the state and the tribe, including recognition of tribal sovereignty. The interlocal agreement must provide that:

(a) Tribal child care facilities and early learning programs may volunteer, but are not required, to be licensed by the department;

(b) Tribal child care facilities and early learning programs are not required to have their early achievers program rating level published to the department's web site or through a link on the department's web site; and

(c) Tribal child care facilities and early learning programs must provide notification to parents or guardians who apply for or have been admitted into their program that early achievers program rating level information is available and provide the parents or guardians with the program's early achievers program rating level upon request.

(14) The department shall consult with the early achievers review subcommittee on all substantial policy changes to the early achievers program.

(15) Nothing in this section changes the department's responsibility to collectively bargain over mandatory subjects or limits the legislature's authority to make programmatic modifications to licensed child care and early learning programs under RCW 41.56.028(4)(d). [2015 3rd sp.s. c 7 § 2; 2013 c 323 § 6; 2007 c 394 § 4.]

Finding—Intent—2015 3rd sp.s. c 7: "(1) The legislature finds that quality early care and education builds the foundation for a child's success in school and in life. The legislature acknowledges that a quality framework is necessary for the early care and education system in Washington. The legislature recognizes that empirical evidence supports the conclusion that high quality programs consistently yield more positive outcomes for children, with the strongest positive impacts on the most vulnerable children. The legislature acknowledges that critical developmental windows exist in early childhood, and low quality child care has damaging effects for children. The legislature further understands that the proper dosage, duration of programming, and stability of care are critical to enhancing program quality and improving child outcomes. The legislature acknowledges that the early care and education system should strive to address the needs of Washington's culturally and linguistically diverse populations. The legislature understands that parental choice and provider diversity are guiding principles for early learning programs.

(2) The legislature intends to prioritize the integration of child care and preschool in an effort to promote full day programming. The legislature further intends to reward quality and create incentives for providers to participate in a quality rating and improvement system that will also provide valuable information to parents regarding the quality of care available in their communities." (a) Analyze the reasons providers in the affected counties or zip codes have not attained the required rating levels; and

(b) Develop a plan to mitigate the effect on the children and families served by these providers. The plan must be submitted to the legislature as part of the annual progress report along with any recommendations for legislative action to address the needs of the providers and the children and families they serve. 43.215.135 Working connections child care program—Subsidy requirements—Tiered reimbursements—Copayments. (1) The department shall establish and implement policies in the working connections child care program to promote stability and quality of care for children from low-income households. These policies shall focus on supporting school readiness for young learners. Policies for the expenditure of funds constituting the working connections child care program must be consistent with the outcome measures defined in RCW 74.08A.410 and the standards established in this section intended to promote stability, quality, and continuity of early care and education programming.

(2) As recommended by Public Law 113-186, authorizations for the working connections child care subsidy shall be effective for twelve months beginning July 1, 2016, unless an earlier date is provided in the omnibus appropriations act.

(4) Effective July 1, 2016, a new child care provider serving nonschool-age children and receiving state subsidy payments must complete the following activities to be eligible to receive a state subsidy under this section:

(b) Complete level 2 activities in the early achievers program within twelve months of enrollment; and

(c) Rate at a level 3 or higher in the early achievers program within thirty months of enrollment. If a child care provider rates below a level 3 within thirty months from enrollment into the early achievers program, the provider must complete remedial activities with the department, and rate at a level 3 or higher within six months of beginning remedial activities.

(5) If a child care provider does not rate at a level 3 or higher following the remedial period, the provider is no longer eligible to receive state subsidy under this section.

(7) The department shall implement tiered reimbursement for early achievers program participants in the working connections child care program rating at level 3, 4, or 5.

(8) The department shall account for a child care copayment collected by the provider from the family for each contracted slot and establish the copayment fee by rule. [2015 3rd sp.s. c 7 § 6; 2013 c 323 § 9. Prior: 2012 c 253 § 5; 2012 c 251 § 1; 2011 1st sp.s. c 42 § 11; 2010 c 273 § 2.]

Effective date—2012 c 251: See note following RCW 43.215.135.

43.215.137 Working connections child care program—Contracted child care slots and vouchers. (1) The department may employ a combination of vouchers and con-

tracted slots for the subsidized child care programs in RCW 43.215.135. Child care vouchers preserve parental choice. Child care contracted slots promote access to continuous quality care for children, provide parents and caregivers stable child care that supports employment, and allow providers to have predictable funding. Any contracted slots the department may create under this section must meet the requirements in subsections (2) through (6) of this section.

(2) Only child care providers who participate in the early achievers program and rate at a level 3, 4, or 5 are eligible to be awarded a contracted slot.

(3)(a) The department is required to use data to calculate a set number of targeted contracted slots. In calculating the number, the department must take into account a balance of family home and center child care programs and the overall geographic distribution of child care programs in the state and the distribution of slots between ages zero and five.

(b) The targeted contracted slots are reserved for programs meeting both of the following conditions:

- (i) Programs in low-income neighborhoods; and
- (ii) Programs that consist of at least fifty percent of children receiving subsidy pursuant to RCW 43.215.135.

(c) Until August 1, 2017, the department shall assure an even distribution of contracted slots for children birth to age five.

(4) The department shall award the remaining contracted slots via a competitive process and prioritize child care programs with at least one of the following characteristics:

- (c) Programs serving children involved in the child welfare system; or
- (d) Programs serving children diagnosed with a special need.

(5) The department shall pay a provider for each contracted slot, unless a contracted slot is not used for thirty days.

(6) The department shall include the number of contracted slots that use both early childhood education and assistance program funding and working connections child care program funding in the annual report to the legislature required under RCW 43.215.102. [2015 3rd sp.s. c 7 § 14.]

Finding—Intent—2015 3rd sp.s. c 7: See note following RCW 43.215.100.

43.215.195 Early start account. The early start account is created in the state treasury. Revenues in the account shall consist of appropriations by the legislature and all other sources deposited into the account. Moneys in the account may only be used after appropriation. Expenditures from the account may be used only to improve the quality of early care and education programming. The department oversees the account. [2015 3rd sp.s. c 7 § 17.]

Finding—Intent—2015 3rd sp.s. c 7: See note following RCW 43.215.100.

43.215.200 Director's licensing duties. (Effective July 1, 2016.) It shall be the director's duty with regard to licensing:

(1) In consultation and with the advice and assistance of persons representative of the various type agencies to be licensed, to designate categories of child care facilities for which separate or different requirements shall be developed as may be appropriate whether because of variations in the ages and other characteristics of the children served, variations in the purposes and services offered or size or structure of the agencies to be licensed, or because of any other factor relevant thereto;

(2)(a) In consultation with the state fire marshal's office, the director shall use an interagency process to address health and safety requirements for child care programs that serve school-age children and are operated in buildings that contain public or private schools that safely serve children during times in which school is in session;

(b) Any requirements in (a) of this subsection as they relate to the physical facility, including outdoor playgrounds, do not apply to before-school and after-school programs that serve only school-age children and operate in the same facilities used by public or private schools;

(3) In consultation and with the advice and assistance of parents or guardians, and persons representative of the various type agencies to be licensed, to adopt and publish minimum requirements for licensing applicable to each of the various categories of agencies to be licensed under this chapter;

(4) In consultation with law enforcement personnel, the director shall investigate the conviction record or pending charges of each agency and its staff seeking licensure or relicensure, and other persons having unsupervised access to children in care;

(5) To satisfy the shared background check requirements provided for in RCW 43.215.215 and 43.20A.710, the department of early learning and the department of social and health services shall share federal fingerprint-based background check results as permitted under the law. The purpose of this provision is to allow both departments to fulfill their joint background check responsibility of checking any individual who may have unsupervised access to vulnerable adults, children, or juveniles. Neither department may share the federal background check results with any other state agency or person;

(6) To issue, revoke, or deny licenses to agencies pursuant to this chapter. Licenses shall specify the category of care that an agency is authorized to render and the ages and number of children to be served;

(7) To prescribe the procedures and the form and contents of reports necessary for the administration of this chapter and to require regular reports from each licensee;

(8) To inspect agencies periodically to determine whether or not there is compliance with this chapter and the requirements adopted under this chapter;

(9) To review requirements adopted under this chapter at least every two years and to adopt appropriate changes after consultation with affected groups for child day care requirements; and

(10) To consult with public and private agencies in order to help them improve their methods and facilities for the care and early learning of children. [2015 3rd sp.s. c 7 § 4. Prior: 2011 c 359 § 2; 2011 c 253 § 3; 2007 c 415 § 3; 2006 c 265 § 301.]

Effective date—2015 3rd sp.s. c 7 § 4: "Section 4 of this act takes effect July 1, 2016." [2015 3rd sp.s. c 7 § 23.]

Finding—Intent—2015 3rd sp.s. c 7: See note following RCW 43.215.100.

Finding—Intent—2011 c 359: "(1) The legislature finds that some licensed child care centers seeking to operate in public schools incur substantial costs to renovate spaces that are considered safe for children to use for the purpose of education. Consequently, families are forced to seek before or after school child care outside of the school building, resulting in additional transitions for students.

(2) It is the legislature's intent to allow licensed child care centers that serve school-age children to operate in facilities that provide a safe and healthy environment for children to use for the purpose of education. With respect to section 2(2) of this act, the legislature intends that the development of any related child care licensing requirements shall:

- (a) Ensure safe and healthy environments for children;
- (b) Utilize existing rule-making processes and resources;
- (c) Utilize existing requirements as a starting point rather than create an entirely new set of requirements; and
- (d) Give due consideration to the burdens imposed by inconsistent licensing requirements." [2011 c 359 § 1.]

Captions not law—2007 c 415: See note following RCW 43.215.005.

43.215.201 Licensing standards. (1) No later than November 1, 2016, the department shall implement a single set of licensing standards for child care and the early childhood education and assistance program. The department shall produce the single set of licensing standards within the department's available appropriations. The new licensing standards must:

- (a) Provide minimum health and safety standards for child care and preschool programs;
- (b) Rely on the standards established in the early achievers program to address quality issues in participating early childhood programs;
- (c) Take into account the separate needs of family care providers and child care centers; and
- (d) Promote the continued safety of child care settings.

(2) Private schools that operate early learning programs and do not receive state subsidy payments shall be subject only to the minimum health and safety standards in subsection (1)(a) of this section and the requirements necessary to assure a sufficient early childhood education to meet usual requirements needed for transition into elementary school. The state, and any agency thereof, shall not restrict or dictate any specific educational or other programs for early learning programs operated by private schools except for programs that receive state subsidy payments. [2015 3rd sp.s. c 7 § 3.]

Finding—Intent—2015 3rd sp.s. c 7: See note following RCW 43.215.100.

(a) Enroll in the early achievers program by October 1, 2015;

(b) Rate at a level 4 or 5 in the early achievers program by March 1, 2016. If an early childhood education and assistance program provider rates below a level 4 by March 1, 2016, the provider must complete remedial activities with the department, and rate at a level 4 or 5 within six months of beginning remedial activities.

(5) Effective October 1, 2015, a new early childhood education and assistance program provider must complete the requirements in this subsection (5) to be eligible to receive state-funded support under the early childhood education and assistance program:

(a) Enroll in the early achievers program within thirty days of the start date of the early childhood education and assistance program contract;

(b)(i) Except as provided in (b)(ii) of this subsection, rate at a level 4 or 5 in the early achievers program within twelve months of enrollment. (ii) Licensed or certified child care centers and homes that administer an early childhood education and assistance program shall rate at a level 4 or 5 in the early achievers program within eighteen months of the start date of the early childhood education and assistance program contract. If an early childhood education and assistance program provider rates below a level 4 within eighteen months, the provider must complete remedial activities with the department, and rate at a level 4 or 5 within six months of beginning remedial activities.

(6)(a) If an early childhood education and assistance program provider has successfully completed all of the required early achievers program activities and is waiting to be rated by the deadline provided in this section, the provider may continue to participate in the early achievers program as an approved early childhood education and assistance program provider and receive state subsidy pending the successful completion of a level 4 or 5 rating.

(b) To avoid disruption, the department may allow for early childhood education and assistance program providers who have rated below a level 4 after completion of the six-month remedial period to continue to provide services until the current school year is finished.

(7) The department shall collect data periodically to determine the demand for full-day programming for early childhood education and assistance program providers. The department shall analyze this demand by geographic region and shall include the findings in the annual report required under RCW 43.215.102.

(8) By December 1, 2015, the department shall develop a pathway for licensed or certified child care centers and homes to administer an early childhood education and assistance program. The pathway shall include an accommodation for these providers to rate at a level 4 or 5 in the early achievers program according to the timelines and standards established in subsection (5)(b)(ii) of this section. Approved early childhood education and assistance programs shall conduct needs assessments of their service area and identify any targeted groups of children, to include but not be limited to children of seasonal and migrant farmworkers and native American populations living either on or off reservation. Approved early childhood education and assistance programs shall provide to the department a service delivery plan, to the extent practicable, that addresses these targeted populations.

(2) The department, in developing rules for the early childhood education and assistance program, shall consult with the early learning advisory council, and shall consider such factors as coordination with existing head start and other early childhood programs, the preparation necessary for instructors, qualifications of instructors, adequate space and equipment, and special transportation needs. The rules shall specifically require the early childhood programs to provide for parental involvement in participation with their child's program, in local program policy decisions, in development and revision of service delivery systems, and in parent education and training.

(3) By January 1, 2016, the department shall adopt rules requiring early childhood education and assistance program employees who have access to children to submit to a fingerprint background check. Fingerprint background check procedures for the early childhood education and assistance program shall be the same as the background check procedures in RCW 43.215.215. Intent—1994 c 166; 1987 c 518: "The long-term social, community welfare, and economic interests of the state will be served by an investment in our children. Conclusive studies and experiences show that providing children with developmental experiences and providing parents with effective parental partnership, empowerment, opportunities for involvement with their

child's developmental learning, and expanding parenting skills, learning, and training can greatly improve children's performance in school as well as increase the likelihood of children's success as adults. National studies have also confirmed that special attention to, and educational assistance for, children, their school environment, and their families are the most effective ways in which to meet the state's social and economic goals.

The legislature intends to enhance the readiness to learn of certain children and students by: Providing for an expansion of the state early childhood education and assistance program for children from low-income families and establishing an adult literacy program for certain parents; assisting school districts to establish elementary counseling programs; instituting a program to address learning problems due to drug and alcohol use and abuse; and establishing a program directed at students who leave school before graduation.

The legislature intends further to establish programs that will allow for parental, business, and community involvement in assisting the school systems throughout the state to enhance the ability of children to learn." [1994 c 166 § 7; 1987 c 518 § 1.]

(c) Accountability and adherence to performance standards.

43.215.490 Child fatality reviews. (1) For the purposes of this section, "near fatality" means an act that, as certified by a physician, places the child in serious or critical condition.

(2)(a) The department shall conduct a child fatality review if a child fatality occurs in an early learning program described in RCW 43.215.400 through 43.215.450 or a licensed child care center or a licensed child care home.

(b) The department shall convene a child fatality review committee and determine the membership of the review committee. The department shall invite one parent or guardian for membership on the child fatality review committee who has had a child die in a child care setting. The department shall ensure that the fatality review team is made up of individuals who had no previous involvement in the case.

(c) The department shall allow the parents or guardians whose child's death is being reviewed to testify before the child fatality review committee.

(d) The primary purpose of the fatality review shall be the development of recommendations to the department and legislature regarding changes in licensing requirements, practice, or policy to prevent fatalities and strengthen safety and health protections for children.

(e) Upon conclusion of a child fatality review required pursuant to this section, the department shall, within one hundred eighty days following the fatality, issue a report on the results of the review, unless an extension has been granted by the governor. (3) The department shall consult with the office of the family and children's ombuds to determine if a review should be conducted in the case of a near child fatality that occurs in an early learning program described in RCW 43.215.400 through 43.215.450 or licensed child care center or licensed child care home.

(4) In any review of a child fatality or near fatality, the department and the fatality review team must have access to all records and files regarding the child or that are otherwise relevant to the review and that have been produced or retained by the early education and assistance program provider or licensed child care center or licensed family home provider.

(5) The child fatality review committee shall coordinate with local law enforcement to ensure that the fatality or near fatality review does not interfere with any ongoing or potential criminal investigation.

(6)(a) A child fatality or near fatality review completed pursuant to this section is subject to discovery in a civil or administrative proceeding, but may not be admitted into evidence or otherwise used in a civil or administrative proceeding except pursuant to this section.

(b) A department employee responsible for conducting a child fatality or near fatality review, or member of a child fatality or near fatality review team, may not be examined in a civil or administrative proceeding regarding the following:

HOMELESS YOUTH PREVENTION AND PROTECTION ACT

43.330.700 Findings—Homeless youth. (1) The legislature finds that every night thousands of homeless youth in Washington go to sleep without the safety, stability, and support of a family or a home. This population is exposed to an

increased level of violence, human trafficking, and exploitation resulting in a higher incidence of substance abuse, illness, and death. The prevention and reduction of youth and young adult homelessness and protection of homeless youth is of key concern to the state. Nothing in chapter 69, Laws of 2015 is meant to diminish the work accomplished by the implementation of Becca legislation but rather, the intent of the legislature is to further enhance the state's efforts in working with unaccompanied homeless youth and runaways to encourage family reconciliation or permanent housing and support through dependency when family reconciliation is not a viable alternative.

(2) Successfully addressing youth and young adult homelessness ensures that homeless youth and young adults in our state have the support they need to thrive and avoid involvement in the justice system, human trafficking, long-term, avoidable use of public benefits, and extended adult homelessness.

(3) Providing appropriate, relevant, and readily accessible services is critical for addressing one-time, episodic, or longer-term homelessness among youth and young adults, and keeping homeless youth and young adults safe, housed, and connected to family.

(4) The coordination of statewide programs to combat youth and young adult homelessness should include programs addressing both youth and young adults. However, the legislature acknowledges that current law and best practices mandate that youth programs and young adult programs be segregated in their implementation. The legislature further finds that the differing needs of these populations should be considered when assessing which programs are relevant and appropriate.

(5) To successfully reduce and prevent youth and young adult homelessness, it is the goal of the legislature to have the following key components available and accessible:

(a) **Stable housing:** It is the goal of the legislature to provide a safe and healthy place for homeless youth to sleep each night until permanency can be reached. Every homeless young adult in our state deserves access to housing that gives them a safe, healthy, and supported launching pad to adulthood. Every family in crisis should have appropriate support as they work to keep their children housed and safe. It is the goal of the legislature that every homeless youth discharged from a public system of care in our state will not be discharged into homelessness.

(b) **Family reconciliation:** All homeless youth should have access to services that support reunification with immediate family. When reunification is not possible for homeless youth, youth should be placed in the custody of the department of social and health services.

(c) **Permanent connections:** Every homeless young adult should have opportunities to establish positive, healthy relationships with adults, including family members, employers, landlords, teachers, and community members, with whom they can maintain connections and from whom they can receive ongoing, long-term support to help them develop the skills and experiences necessary to achieve a successful transition to adulthood.

(d) **Education and employment:** Every homeless young adult in our state deserves the opportunity and support they need to complete their high school education and pursue

additional education and training. It is the goal of the legislature that every homeless young adult in our state will have the opportunity to engage in employment training and be able to access employment. With both education and employment support and opportunities, young adults will have the skills they need to become self-sufficient, self-reliant, and independent.

(e) Social and emotional well-being: Every homeless youth and young adult in our state should have access to both behavioral health care and physical health care. Every state-funded program for homeless youth and young adults must endeavor to identify, encourage, and nurture each youth's strengths and abilities and demonstrate a commitment to youth-centered programming. [2015 c 69 § 4.]

WASHINGTON SMALL BUSINESS RETIREMENT MARKETPLACE

43.330.730 Finding—2015 c 296. The legislature finds that there is a retirement savings access gap in Washington; that Americans reach the median salary four years later than they did in 1980 and therefore have four fewer years of savings opportunities; and that one in six Americans retire in poverty. Employees who are unable to effectively build their retirement savings risk living on low incomes in their elderly years and are more likely to become dependent on state services. Further, small businesses, which employ more than forty percent of private sector employees in Washington, often choose not to offer retirement plans to employees due to concerns about costs, administrative burdens, and potential liability that they believe such plans would place on their business. In response, the legislature recognizes the work of the federal government in addressing these issues by establishing the myRA program: A safe, affordable, and accessible retirement vehicle designed to remove barriers to retirement savings. In addition, the legislature recognizes that many private financial services firms in Washington currently offer high quality retirement options for small businesses and their employees.

The Washington small business retirement marketplace will remove barriers to entry into the retirement market for small businesses by educating small employers on plan availability and promoting, without mandated participation, qualified, low-cost, low-burden retirement savings vehicles and myRA. The marketplace furthers greater retirement plan access for the residents of Washington while ensuring that individuals participating in these retirement plans will have all the protections offered by the employee retirement income security act. Further, the Washington small business retirement marketplace will not pose any significant financial burden upon taxpayers. The Washington small business retirement marketplace will be the best way for Washington to close the retirement savings access gap, protect the fiscal stability of the state and its citizens well into the future, and further cement its place as a national leader in retirement and investor promotion and protection. The marketplace will educate and promote retirement saving among employees and in particular market to small employers with fifty or fewer employees. [2015 c 296 § 1.]

program—Definitions. (1) The department of commerce, in consultation with the department of enterprise services and the Washington State University energy program, shall administer the jobs act.

(2) The department of enterprise services must develop guidelines that are consistent with national and international energy savings performance standards for the implementation of energy savings performance contracting projects by the energy savings performance contractors by December 31, 2010.

(3) The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(a) "Cost-effectiveness" means that the present value to higher education institutions and school districts of the energy reasonably expected to be saved or produced by a facility, activity, measure, or piece of equipment over its useful life, including any compensation received from a utility or the Bonneville power administration, is greater than the net present value of the costs of implementing, maintaining, and operating such facility, activity, measure, or piece of equipment over its useful life, when discounted at the cost of public borrowing.

(b) "Energy cost savings" means savings realized in expenses for energy use and expenses associated with water, wastewater, or solid waste systems.

(c) "Energy equipment" means energy management systems and any equipment, materials, or supplies that are expected, upon installation, to reduce the energy use or energy cost of an existing building or facility, and the services associated with the equipment, materials, or supplies, including but not limited to design, engineering, financing, installation, project management, guarantees, operations, and maintenance. Reduction in energy use or energy cost may also include reductions in the use or cost of water, wastewater, or solid waste.

(d) "Energy savings performance contracting" means the process authorized by chapter 39.35C RCW by which a company contracts with a public agency to conduct energy audits and guarantee energy savings from energy efficiency.

(e) "Innovative measures" means advanced or emerging technologies, systems, or approaches that may not yet be in common practice but improve energy efficiency, accelerate deployment, or reduce energy usage, and become widely commercially available in the future if proven successful in demonstration programs without compromising the guaranteed performance or measurable energy and operational cost savings anticipated. Examples of innovative measures include, but are not limited to, advanced energy and systems operations monitoring, diagnostics, and controls systems for buildings; novel heating, cooling, ventilation, and water heating systems; advanced windows and insulation technologies, highly efficient lighting technologies, designs, and controls; and integration of renewable energy sources into buildings, and energy savings verification technologies and solutions.

(f) "Operational cost savings" means savings realized from parts, service fees, capital renewal costs, and other measurable annual expenses to maintain and repair systems. This definition does not mean labor savings related to existing facility staff.

(g) "Public facilities" means buildings, building components, and major equipment or systems owned by public

school districts and public higher education institutions. [2015 c 225 § 94; 2010 1st sp.s. c 35 § 301.]

Contingent effective date—2010 1st sp.s. c 35: "This act takes effect if *Second Engrossed Substitute Senate Bill No. 6143 is enacted by the legislature during the 2010 1st special session." [2010 1st sp.s. c 35 § 601.]

***Reviser's note:** Second Engrossed Substitute Senate Bill No. 6143 became chapter 23, Laws of 2010 1st sp. sess.

43.331.050 Competitive grant process—Audit—Administrative fees—Reports to the legislature. (1) Within appropriations specifically provided for the purposes of this chapter, the department of commerce, in consultation with the department of enterprise services, and the Washington State University energy program shall establish a competitive process to solicit and evaluate applications from public school districts, public higher education institutions, and other state agencies. Final grant awards shall be determined by the department of commerce.

(2) Grants must be awarded in competitive rounds, based on demand and capacity, with at least five percent of each grant round awarded to small public school districts with fewer than one thousand full-time equivalent students, based on demand and capacity.

(3) Within each competitive round, projects must be weighted and prioritized based on the following criteria and in the following order:

(a) Leverage ratio: In each round, the higher the leverage ratio of nonstate funding sources to state jobs act grant, the higher the project ranking.

(b) Energy savings: In each round, the higher the energy savings, the higher the project ranking. Applicants must submit documentation that demonstrates energy and operational cost savings resulting from the installation of the energy equipment and improvements. The energy savings analysis must be performed by a licensed engineer and documentation must include but is not limited to the following:

(i) A description of the energy equipment and improvements;

(ii) A description of the energy and operational cost savings; and

(iii) A description of the extent to which the project employs collaborative and innovative measures and encourages demonstration of new and emerging technologies with high energy savings or energy cost reductions.

(c) Expediency of expenditure: Project readiness to spend funds must be prioritized so that the legislative intent to expend funds quickly is met.

(4) Projects that do not use energy savings performance contracting must: (a) Verify energy and operational cost savings, as defined in RCW 43.331.040, for ten years or until the energy and operational costs savings pay for the project, whichever is shorter; (b) follow the department of enterprise services' energy savings performance contracting project guidelines developed pursuant to RCW 43.331.040; and (c) employ a licensed engineer for the energy audit and construction. The department of commerce may require third-party verification of savings if a project is not implemented by an energy savings performance contractor selected by the department of enterprise services through the request of qualifications process. Third-party verification must be conducted either by an energy savings performance contractor

selected by the department of enterprise services through a request for qualifications, a licensed engineer specializing in energy conservation, or by a project resource conservation manager or educational service district resource conservation manager.

(5) To intensify competition, the department of commerce may only award funds to the top eighty-five percent of projects applying in a round until the department of commerce determines a final round is appropriate. Projects that do not receive a grant award in one round may reapply in subsequent rounds.

(6) To match federal grants and programs that require state matching funds and produce significantly higher efficiencies in operations and utilities, the level of innovation criteria may be increased for the purposes of weighted scoring to capture those federal dollars for selected projects that require a higher level of innovation and regional collaboration.

(7) Grant amounts awarded to each project must allow for the maximum number of projects funded with the greatest energy and cost benefit.

(8)(a) The department of commerce must use bond proceeds to pay one-half of the preliminary audit, up to five cents per square foot, if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. School districts and higher education institutions must pay the other one-half of the cost of the preliminary audit if the project does not meet their predetermined cost-effectiveness criteria.

(b) The energy savings performance contractor may not charge for an investment grade audit if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. School districts and higher education institutions must pay the full price of an investment grade audit if they do not proceed with a project that meets the school district's and higher education institution's predetermined cost-effectiveness criteria.

(9) The department of commerce may charge projects administrative fees and may pay the department of enterprise services and the Washington State University energy program administration fees in an amount determined through a memorandum of understanding.

(10) The department of commerce and the department of enterprise services must submit a joint report to the appropriate committees of the legislature and the office of financial management on the timing and use of the grant funds, program administrative function, compliance with apprenticeship utilization requirements in RCW 39.04.320, compliance with prevailing wage requirements, and administration fees by the end of each fiscal year, until the funds are fully expended and all savings verification requirements are fulfilled. [2015 c 225 § 95; 2010 1st sp.s. c 35 § 302.]

Contingent effective date—2010 1st sp.s. c 35: See note following RCW 43.331.040.

(b) Establish a cancer research endowment fund to be known as the CARE fund. The CARE fund must be a separate private account outside the state treasury into which grants and contributions received from public and private sources as well as state matching funds must be deposited, and from which funds for grants awarded by the authority must be disbursed. Once moneys in the cancer research endowment fund match transfer account are subject to an agreement under RCW 43.348.080(6) and are deposited in the CARE fund under this section, the moneys in the CARE fund are not considered state money, common cash, or revenue to the state;

Grant agreements must set forth the terms and conditions of the grant and must include, but not be limited to: (i) Deliverables to be provided by the recipient pursuant to the grant; (ii) the circumstances under which the grant amount would be required to be repaid or the circumstances under which royalty, sales, or licensing revenue, or other commercialization-related revenue would be required to be shared; and (iii) indemnification, dispute resolution, and any other terms and conditions as are customary for grant agreements or are deemed reasonable by the board. The program administrator may negotiate with any grantee the costs associated with performing scientific activities funded by grants.

(2) Periodically, but not less often than every three years, the authority and the department must conduct a request for proposals and retain the services of an independent auditor with experience in performance auditing of research granting entities similar to the authority. The independent auditor must review the authority's strategic plan, program, and program administrator and publish a report assessing their performance and providing recommendations for improvement. The authority must hold at least one public hearing at which the results of each audit are presented and discussed. [2015 3rd sp.s. c 34 § 7.]

Reviser's note: The definitions in this section have been alphabetized pursuant to RCW 1.08.015(2)(k).

Finding—2014 c 223: See note following RCW 41.05.800.

43.371.020 Statewide all-payer health care claims database—Selection and duties of lead organization—Certification as qualified entity pursuant to 42 C.F.R. Sec. 401.703(a)—Contract with data vendor. (1) The office shall establish a statewide all-payer health care claims database to support transparent public reporting of health care information. The database must improve transparency to: Assist patients, providers, and hospitals to make informed choices about care; enable providers, hospitals, and communities to improve by benchmarking their performance against that of others by focusing on best practices; enable purchasers to identify value, build expectations into their purchasing strategy, and reward improvements over time; and promote competition based on quality and cost. The database must systematically collect all medical claims and pharmacy claims from private and public payers, with data from all settings of care that permit the systematic analysis of health care delivery.

(2) The office shall use a competitive procurement process, in accordance with chapter 39.26 RCW, to select a lead organization from among the best potential bidders to coordinate and manage the database.

(a) Due to the complexities of the all payer claims database and the unique privacy, quality, and financial objectives, the office must award extra points in the scoring evaluation for the following elements: (i) The bidder's degree of experience in health care data collection, analysis, analytics, and security; (ii) whether the bidder has a long-term self-sustainable financial model; (iii) the bidder's experience in convening and effectively engaging stakeholders to develop reports; (iv) the bidder's experience in meeting budget and timelines for report generations; and (v) the bidder's ability to combine cost and quality data.

(b) By December 31, 2017, the successful lead organization must apply to be certified as a qualified entity pursuant to 42 C.F.R. Sec. 401.703(a) by the centers for medicare and medicaid services.

(3) As part of the competitive procurement process in subsection (2) of this section, the lead organization shall enter into a contract with a data vendor to perform data collection, processing, aggregation, extracts, and analytics. The data vendor must:

(a) Establish a secure data submission process with data suppliers;

(b) Review data submitters' files according to standards established by the office;

(c) Assess each record's alignment with established format, frequency, and consistency criteria;

(d) Maintain responsibility for quality assurance, including, but not limited to: (i) The accuracy and validity of data suppliers' data; (ii) accuracy of dates of service spans; (iii) maintaining consistency of record layout and counts; and (iv) identifying duplicate records;

(e) Assign unique identifiers, as defined in RCW 43.371.010, to individuals represented in the database;

(f) Ensure that direct patient identifiers, indirect patient identifiers, and proprietary financial information are released only in compliance with the terms of this chapter;

(g) Demonstrate internal controls and affiliations with separate organizations as appropriate to ensure safe data collection, security of the data with state of the art encryption methods, actuarial support, and data review for accuracy and quality assurance;

(h) Store data on secure servers that are compliant with the federal health insurance portability and accountability act and regulations, with access to the data strictly controlled and limited to staff with appropriate training, clearance, and background checks; and

(i) Maintain state of the art security standards for transferring data to approved data requestors.

(4) The lead organization and data vendor must submit detailed descriptions to the office of the chief information officer to ensure robust security methods are in place. The office of the chief information officer must report its findings to the office and the appropriate committees of the legislature.

(5) The lead organization is responsible for internal governance, management, funding, and operations of the data-

base. At the direction of the office, the lead organization shall work with the data vendor to:

(a) Collect claims data from data suppliers as provided in RCW 43.371.030;

(b) Design data collection mechanisms with consideration for the time and cost incurred by data suppliers and others in submission and collection and the benefits that measurement would achieve, ensuring the data submitted meet quality standards and are reviewed for quality assurance;

(c) Ensure protection of collected data and store and use any data in a manner that protects patient privacy and complies with this section. All patient-specific information must be deidentified with an up-to-date industry standard encryption algorithm;

(d) Consistent with the requirements of this chapter, make information from the database available as a resource for public and private entities, including carriers, employers, providers, hospitals, and purchasers of health care;

(e) Report performance on cost and quality pursuant to RCW 43.371.060 using, but not limited to, the performance measures developed under RCW 41.05.690;

(f) Develop protocols and policies, including prerelease peer review by data suppliers, to ensure the quality of data releases and reports;

(g) Develop a plan for the financial sustainability of the database as self-sustaining and charge fees for reports and data files as needed to fund the database. Any fees must be approved by the office and should be comparable, accounting for relevant differences across data requests and uses. The lead organization may not charge providers or data suppliers fees other than fees directly related to requested reports; and

(h) Convene advisory committees with the approval and participation of the office, including: (i) A committee on data policy development; and (ii) a committee to establish a data release process consistent with the requirements of this chapter and to provide advice regarding formal data release requests. The advisory committees must include in-state representation from key provider, hospital, public health, health maintenance organization, large and small private purchasers, consumer organizations, and the two largest carriers supplying claims data to the database.

(6) The lead organization governance structure and advisory committees for this database must include representation of the third-party administrator of the uniform medical plan. A payer, health maintenance organization, or third-party administrator must be a data supplier to the all-payer health care claims database to be represented on the lead organization governance structure or advisory committees. [2015 c 246 § 2; 2014 c 223 § 10.]

Finding—2014 c 223: See note following RCW 41.05.800.

43.371.030 Submission of claims data to database—Annual status report. (1) The state medicaid program, public employees' benefits board programs, all health carriers operating in this state, all third-party administrators paying claims on behalf of health plans in this state, and the state labor and industries program must submit claims data to the database within the time frames established by the director in rule and in accordance with procedures established by the lead organization. The director may expand this requirement by rule to include any health plans or health benefit plans

defined in RCW 48.43.005(26) (a) through (i) to accomplish the goals of this chapter set forth in RCW 43.371.020(1). Employer-sponsored self-funded health plans and Taft-Hartley trust health plans may voluntarily provide claims data to the database within the time frames and in accordance with procedures established by the lead organization.

(2) Any data supplier used by an entity that voluntarily participates in the database must provide claims data to the data vendor upon request of the entity.

(3) The lead organization shall submit an annual status report to the office regarding compliance with this section. [2015 c 246 § 3; 2014 c 223 § 11.]

Finding—2014 c 223: See note following RCW 41.05.800.

43.371.040 Claims data and database—Exempt from public disclosure—Not subject to subpoena or compulsory process. (1) The claims data provided to the database, the database itself, including the data compilation, and any raw data received from the database are not public records and are exempt from public disclosure under chapter 42.56 RCW.

(2) Claims data obtained, distributed, or reported in the course of activities undertaken pursuant to or supported under this chapter are not subject to subpoena or similar compulsory process in any civil or criminal, judicial, or administrative proceeding, nor may any individual or organization with lawful access to data under this chapter be compelled to provide such information pursuant to subpoena or testify with regard to such data, except that data pertaining to a party in litigation may be subject to subpoena or similar compulsory process in an action brought by or on behalf of such individual to enforce any liability arising under this chapter. [2015 c 246 § 4; 2014 c 223 § 12.]

Finding—2014 c 223: See note following RCW 41.05.800.

43.371.050 Availability of claims or data for retrieval—Confidentiality of claims or data—Duties of the lead organization and the data vendor. (1) Except as otherwise required by law, claims or other data from the database shall only be available for retrieval in processed form to public and private requesters pursuant to this section and shall be made available within a reasonable time after the request. Each request for claims data must include, at a minimum, the following information:

(a) The identity of any entities that will analyze the data in connection with the request;

(b) The stated purpose of the request and an explanation of how the request supports the goals of this chapter set forth in RCW 43.371.020(1);

(c) A description of the proposed methodology;

(d) The specific variables requested and an explanation of how the data is necessary to achieve the stated purpose described pursuant to (b) of this subsection;

(e) How the requester will ensure all requested data is handled in accordance with the privacy and confidentiality protections required under this chapter and any other applicable law;

(f) The method by which the data will be stored, destroyed, or returned to the lead organization at the conclusion of the data use agreement;

(g) The protections that will be utilized to keep the data from being used for any purposes not authorized by the requester's approved application; and

(h) Consent to the penalties associated with the inappropriate disclosures or uses of direct patient identifiers, indirect patient identifiers, or proprietary financial information adopted under RCW 43.371.070(1).

(2) The lead organization may decline a request that does not include the information set forth in subsection (1) of this section that does not meet the criteria established by the lead organization's data release advisory committee, or for reasons established by rule.

(3) Except as otherwise required by law, the office shall direct the lead organization and the data vendor to maintain the confidentiality of claims or other data it collects for the database that include proprietary financial information, direct patient identifiers, indirect patient identifiers, or any combination thereof. Any entity that receives claims or other data must also maintain confidentiality and may only release such claims data or any part of the claims data if:

(a) The claims data does not contain proprietary financial information, direct patient identifiers, indirect patient identifiers, or any combination thereof; and

(b) The release is described and approved as part of the request in subsection (1) of this section.

(4) The lead organization shall, in conjunction with the office and the data vendor, create and implement a process to govern levels of access to and use of data from the database consistent with the following:

(a) Claims or other data that include proprietary financial information, direct patient identifiers, indirect patient identifiers, unique identifiers, or any combination thereof may be released only to the extent such information is necessary to achieve the goals of this chapter set forth in RCW 43.371.020(1) to researchers with approval of an institutional review board upon receipt of a signed data use and confidentiality agreement with the lead organization. A researcher or research organization that obtains claims data pursuant to this subsection must agree in writing not to disclose such data or parts of the data set to any other party, including affiliated entities, and must consent to the penalties associated with the inappropriate disclosures or uses of direct patient identifiers, indirect patient identifiers, or proprietary financial information adopted under RCW 43.371.070(1).

(b) Claims or other data that do not contain direct patient identifiers, but that may contain proprietary financial information, indirect patient identifiers, unique identifiers, or any combination thereof may be released to:

(i) Federal, state, and local government agencies upon receipt of a signed data use agreement with the office and the lead organization. Federal, state, and local government agencies that obtain claims data pursuant to this subsection are prohibited from using such data in the purchase or procurement of health benefits for their employees; and

(ii) Any entity when functioning as the lead organization under the terms of this chapter.

(c) Claims or other data that do not contain proprietary financial information, direct patient identifiers, or any combination thereof, but that may contain indirect patient identifiers, unique identifiers, or a combination thereof may be released to agencies, researchers, and other entities as

approved by the lead organization upon receipt of a signed data use agreement with the lead organization.

(d) Claims or other data that do not contain direct patient identifiers, indirect patient identifiers, proprietary financial information, or any combination thereof may be released upon request.

(5) Reports utilizing data obtained under this section may not contain proprietary financial information, direct patient identifiers, indirect patient identifiers, or any combination thereof. Nothing in this subsection (5) may be construed to prohibit the use of geographic areas with a sufficient population size or aggregate gender, age, medical condition, or other characteristics in the generation of reports, so long as they cannot lead to the identification of an individual.

(6) Reports issued by the lead organization at the request of providers, facilities, employers, health plans, and other entities as approved by the lead organization may utilize proprietary financial information to calculate aggregate cost data for display in such reports. The office shall approve by rule a format for the calculation and display of aggregate cost data consistent with this chapter that will prevent the disclosure or determination of proprietary financial information. In developing the rule, the office shall solicit feedback from the stakeholders, including those listed in RCW 43.371.020(5)(h), and must consider, at a minimum, data presented as proportions, ranges, averages, and medians, as well as the differences in types of data gathered and submitted by data suppliers.

(7) Recipients of claims or other data under subsection (4) of this section must agree in a data use agreement or a confidentiality agreement to, at a minimum:

(a) Take steps to protect data containing direct patient identifiers, indirect patient identifiers, proprietary financial information, or any combination thereof as described in the agreement;

(b) Not redisclose the claims data except pursuant to subsection (3) of this section;

(c) Not attempt to determine the identity of any person whose information is included in the data set or use the claims or other data in any manner that identifies any individual or their family or attempt to locate information associated with a specific individual;

(d) Destroy or return claims data to the lead organization at the conclusion of the data use agreement; and

(e) Consent to the penalties associated with the inappropriate disclosures or uses of direct patient identifiers, indirect patient identifiers, or proprietary financial information adopted under RCW 43.371.070(1). [2015 c 246 § 5; 2014 c 223 § 13.]

Finding—2014 c 223: See note following RCW 41.05.800.

43.371.060 Health care data reports—Public comment period—Preparation—Contents—Publication or release of reports. (1)(a) Under the supervision of and through contract with the office, the lead organization shall prepare health care data reports using the database and the statewide health performance and quality measure set. Prior to the lead organization releasing any health care data reports that use claims data, the lead organization must submit the reports to the office for review.

(b) By October 31st of each year, the lead organization shall submit to the director a list of reports it anticipates producing during the following calendar year. The director may establish a public comment period not to exceed thirty days, and shall submit the list and any comment to the appropriate committees of the legislature for review.

(2)(a) Health care data reports that use claims data prepared by the lead organization for the legislature and the public should promote awareness and transparency in the health care market by reporting on:

(i) Whether providers and health systems deliver efficient, high quality care; and

(ii) Geographic and other variations in medical care and costs as demonstrated by data available to the lead organization.

(b) Measures in the health care data reports should be stratified by demography, income, language, health status, and geography when feasible with available data to identify disparities in care and successful efforts to reduce disparities.

(c) Comparisons of costs among providers and health care systems must account for differences in the case mix and severity of illness of patients and populations, as appropriate and feasible, and must take into consideration the cost impact of subsidization for uninsured and government-sponsored patients, as well as teaching expenses, when feasible with available data.

(3) The lead organization may not publish any data or health care data reports that:

(a) Directly or indirectly identify individual patients;

(b) Disclose a carrier's proprietary financial information;

or

(c) Compare performance in a report generated for the general public that includes any provider in a practice with fewer than four providers.

(4) The lead organization may not release a report that compares and identifies providers, hospitals, or data suppliers unless:

(a) It allows the data supplier, the hospital, or the provider to verify the accuracy of the information submitted to the data vendor, comment on the reasonableness of conclusions reached, and submit to the lead organization and data vendor any corrections of errors with supporting evidence and comments within thirty days of receipt of the report;

(b) It corrects data found to be in error within a reasonable amount of time; and

(c) The report otherwise complies with this chapter.

(5) The office and the lead organization may use claims data to identify and make available information on payers, providers, and facilities, but may not use claims data to recommend or incentivize direct contracting between providers and employers.

(6)(a) The lead organization shall distinguish in advance to the office when it is operating in its capacity as the lead organization and when it is operating in its capacity as a private entity. Where the lead organization acts in its capacity as a private entity, it may only access data pursuant to RCW 43.371.050(4) (c) or (d).

(b) Except as provided in RCW 43.371.050(4), claims or other data that contain direct patient identifiers or proprietary financial information must remain exclusively in the custody

of the data vendor and may not be accessed by the lead organization. [2015 c 246 § 6; 2014 c 223 § 14.]

Finding—2014 c 223: See note following RCW 41.05.800.

(a) Definitions of claim and data files that data suppliers must submit to the database, including: Files for covered medical services, pharmacy claims, and dental claims; member eligibility and enrollment data; and provider data with necessary identifiers;

(b) Deadlines for submission of claim files;

(c) Penalties for failure to submit claim files as required;

(d) Procedures for ensuring that all data received from data suppliers are securely collected and stored in compliance with state and federal law;

(e) Procedures for ensuring compliance with state and federal privacy laws;

(f) Procedures for establishing appropriate fees;

(g) Procedures for data release; and

(h) Penalties associated with the inappropriate disclosures or uses of direct patient identifiers, indirect patient identifiers, and proprietary financial information.

(2) The director may not adopt rules, policies, or procedures beyond the authority granted in this chapter. [2015 c 246 § 7; 2014 c 223 § 15.]

Finding—2014 c 223: See note following RCW 41.05.800.

43.371.080 Database development and implementation—Cost, performance, and effectiveness of database and performance of lead organization—Reports to the legislature. (1) By December 1st of 2016 and 2017, the office shall report to the appropriate committees of the legislature regarding the development and implementation of the database, including but not limited to budget and cost detail, technical progress, and work plan metrics.

(2) Every two years commencing two years following the year in which the first report is issued or the first release of data is provided from the database, the office shall report to the appropriate committees of the legislature regarding the cost, performance, and effectiveness of the database and the performance of the lead organization under its contract with the office. Using independent economic expertise, subject to appropriation, the report must evaluate whether the database has advanced the goals set forth in RCW 43.371.020(1), as well as the performance of the lead organization. The report must also make recommendations regarding but not limited to how the database can be improved, whether the contract for the lead organization should be modified, renewed, or terminated, and the impact the database has had on competition between and among providers, purchasers, and payers.

(3) Beginning July 1, 2015, and every six months thereafter, the office shall report to the appropriate committees of the legislature regarding any additional grants received or extended. [2015 c 246 § 8.]

46.04.126 Collector vehicle. (*Effective January 1, 2017.*) "Collector vehicle" means any motor vehicle or travel trailer that is at least thirty years old. [2015 c 200 § 4; 2009 c 142 § 2.]

Effective date—2015 c 200: See note following RCW 46.16A.428.

46.04.1695 Electric personal assistive mobility device (EPAMD). "Electric personal assistive mobility device" (EPAMD) means (1) a self-balancing device with two wheels not in tandem, designed to transport only one person by an electric propulsion system with an average power of seven hundred fifty watts (one horsepower) having a maximum speed on a paved level surface, when powered solely by such a propulsion system while ridden by an operator weighing one hundred seventy pounds, of less than twenty miles per hour or (2) a self-balancing device with one wheel designed to transport only one person by an electric propulsion system with an average power of two thousand watts (two and two-thirds horsepower) having a maximum speed on a paved level surface, when powered solely by such a propulsion system, of less than twenty miles per hour. [2015 c 145 § 2; 2002 c 247 § 1.]

Finding—2015 c 145: "The legislature finds that at least two companies in Washington have developed a one-wheeled device for people to use to travel from place to place. These devices are unregulated and can travel wherever and however they like. By adding these devices to the definition of an electric personal assistive mobility device, they become regulated and local communities can determine locations that are appropriate for their use." (1) It is unlawful for any public officer having charge of any vehicle owned or controlled by any county, city, town, or public body in this state other than the state of Washington and used in public business to operate the same upon the public highways of this state unless and until there shall be displayed upon such automobile or other motor vehicle in letters of contrasting color not less than one and one-quarter inches in height in a conspicuous place on the right and left sides thereof, the name of such county, city, town, or other public body, together with the name of the department or office upon the business of which the said vehicle is used. This section shall not apply to vehicles of a sheriff's office, local police department, or any vehicles used by local peace officers under public authority for special undercover or confidential investigative purposes. This subsection shall not apply to: (a) Any municipal transit vehicle operated for pur-

poses of providing public mass transportation; (b) any vehicle governed by the requirements of subsection (4) of this section; nor to (c) any motor vehicle on loan to a school district for driver training purposes. Such insignia shall be in a color or colors contrasting with the vehicle to which applied for maximum visibility. The name of the public body owning or operating the vehicle shall also be included as part of or displayed above such approved insignia in colors contrasting with the vehicle in letters not less than one and one-quarter inches in height. Immediately below the lettering identifying the public entity and agency operating the vehicle or below an approved insignia shall appear the words "for official use only" in letters at least one inch high in a color contrasting with the color of the vehicle. The appropriate governing body may provide by rule or ordinance for marking of passenger motor vehicles as prescribed in subsection (2) of this section or for exceptions to the marking requirements for local governmental agencies for the same purposes and under the same circumstances as permitted for state agencies under subsection (3) of this section.

(2) Except as provided by subsections (3) and (4) of this section, passenger motor vehicles owned or controlled by the state of Washington, and purchased after July 1, 1989, must be plainly and conspicuously marked on the lower left-hand corner of the rear window with the name of the operating agency or institution or the words "state motor pool," as appropriate, the words "state of Washington — for official use only," and the seal of the state of Washington or the appropriate agency or institution insignia, approved by the department of enterprise services. Markings must be on a transparent adhesive material and conform to the standards established by the department of enterprise services. For the purposes of this section, "passenger motor vehicles" means sedans, station wagons, vans, light trucks, or other motor vehicles under ten thousand pounds gross vehicle weight.

(3) Subsection (2) of this section shall not apply to vehicles used by the Washington state patrol for general undercover or confidential investigative purposes. Traffic control vehicles of the Washington state patrol may be exempted from the requirements of subsection (2) of this section at the discretion of the chief of the Washington state patrol. The department of enterprise services shall adopt general rules permitting other exceptions to the requirements of subsection (2) of this section for other vehicles used for law enforcement, confidential public health work, and public assistance fraud or support investigative purposes, for vehicles leased or rented by the state on a casual basis for a period of less than ninety days, and those provided for in RCW 46.08.066. The exceptions in this subsection, subsection (4) of this section, and those provided for in RCW 46.08.066 shall be the only exceptions permitted to the requirements of subsection (2) of this section.

(*Contingent expiration date.*) (1) From time to time, but at least once each year, the state treasurer shall refund from the motor vehicle fund one percent of the motor vehicle fuel tax revenues collected under chapter 82.36 RCW, based on: (a) A tax rate of: (i) Nineteen cents per gallon of motor vehicle fuel from July 1, 2003, through June 30, 2005; (ii) twenty cents per gallon of motor vehicle fuel from July 1, 2005, through June 30, 2007; (iii) twenty-one cents per gallon of motor vehicle fuel from July 1, 2007, through June 30, 2009; (iv) twenty-two cents per gallon of motor vehicle fuel from July 1, 2009, through June 30, 2011; (v) twenty-three cents per gallon of motor vehicle fuel from July 1, 2011, through July 31, 2015; (vi) thirty cents per gallon of motor vehicle fuel from August 1, 2015, through June 30, 2016; and (vii) thirty-four and nine-tenths cents per gallon of motor vehicle fuel from July 1, 2016, through June 30, 2031; and (b) beginning July 1, 2031, and thereafter, the state's motor vehicle fuel tax rate in existence at the time of the fuel purchase, less proper deductions for refunds and costs of collection as provided in RCW 46.68.090.

(2) The treasurer shall place these funds in the general fund as follows:

(a) Thirty-six percent shall be credited to the ORV and nonhighway vehicle account and administered by the depart-

ment of natural resources solely for acquisition, planning, development, maintenance, and management of ORV, non-motorized, and nonhighway road recreation facilities, and information programs and maintenance of nonhighway roads;

(b) Three and one-half percent shall be credited to the ORV and nonhighway vehicle account and administered by the department of fish and wildlife solely for the acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities and the maintenance of nonhighway roads;

(c) Two percent shall be credited to the ORV and nonhighway vehicle account and administered by the parks and recreation commission solely for the acquisition, planning, development, maintenance, and management of ORV, non-motorized, and nonhighway road recreation facilities; and

(d) Fifty-eight and one-half percent shall be credited to the nonhighway and off-road vehicle activities program account to be administered by the board for planning, acquisition, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities and for education, information, and law enforcement programs. The funds under this subsection shall be expended in accordance with the following limitations:

(i) Not more than thirty percent may be expended for education, information, and law enforcement programs under this chapter;

(ii) Not less than seventy percent may be expended for ORV, nonmotorized, and nonhighway road recreation facilities. Except as provided in (d)(iii) of this subsection, of this amount:

(A) Not less than thirty percent, together with the funds the board receives under RCW 46.68.045, may be expended for ORV recreation facilities;

(B) Not less than thirty percent may be expended for nonmotorized recreation facilities. Funds expended under this subsection (2)(d)(ii)(B) shall be known as Ira Spring outdoor recreation facilities funds; and

(C) Not less than thirty percent may be expended for nonhighway road recreation facilities;

(iii) The board may waive the minimum percentage cited in (d)(ii) of this subsection due to insufficient requests for funds or projects that score low in the board's project evaluation. Funds remaining after such a waiver must be allocated in accordance with board policy.

(3) On a yearly basis an agency may not, except as provided in RCW 46.68.045, expend more than ten percent of the funds it receives under this chapter for general administration expenses incurred in carrying out this chapter.

(4) During the 2009-2011 fiscal biennium, the legislature may appropriate such amounts as reflect the excess fund balance in the NOVA account to the department of natural resources to install consistent off-road vehicle signage at department-managed recreation sites, and to implement the recreation opportunities on department-managed lands in the Reiter block and Ahtanum state forest, and to the state parks and recreation commission. The legislature finds that the appropriation of funds from the NOVA account during the 2009-2011 fiscal biennium for maintenance and operation of state parks or to improve accessibility for boaters and off-road vehicle users at state parks will benefit boaters and off-

road vehicle users and others who use nonhighway and non-motorized recreational facilities. The appropriations under this subsection are not required to follow the specific distribution specified in subsection (2) of this section. [2015 3rd sp.s. c 44 § 109. (B) Not less than thirty percent may be expended for nonmotorized recreation facilities. Funds expended under this subsection (2)(d)(ii)(B) are known as Ira Spring outdoor recreation facilities funds; and

(C) Not less than thirty percent may be expended for nonhighway road recreation facilities;

(iii) The board may waive the minimum percentage cited in (d)(ii) of this subsection due to insufficient requests for funds or projects that score low in the board's project evaluation. Funds remaining after such a waiver must be allocated in accordance with board policy.

(3) On a yearly basis an agency may not, except as provided in RCW 46.68.045, expend more than ten percent of the funds it receives under this chapter for general administration expenses incurred in carrying out this chapter.

(4) During the 2009-2011 fiscal biennium, the legislature may appropriate such amounts as reflect the excess fund balance in the NOVA account to the department of natural resources to install consistent off-road vehicle signage at department-managed recreation sites, and to implement the recreation opportunities on department-managed lands in the Reiter block and Ahtanum state forest, and to the state parks and recreation commission. The legislature finds that the appropriation of funds from the NOVA account during the 2009-2011 fiscal biennium for maintenance and operation of state parks or to improve accessibility for boaters and off-road vehicle users at state parks will benefit boaters and off-road vehicle users and others who use nonhighway and nonmotorized recreational facilities. The appropriations under this subsection are not required to follow the specific distri-

bution specified in subsection (2) of this section. [2015 3rd sp.s. c 44 § 110. Findings—Intent—2015 2nd sp.s. c 9: "The legislature finds that through statutory mechanisms and voter-approved initiatives, a longstanding commitment has been in place to direct refunds from fuel tax purchases made by boaters, off-road and nonhighway vehicle riders and drivers, and snowmobilers into dedicated nonhighway-purpose accounts that provide infrastructure grants and operating assistance to those nonhighway users.

The legislature finds that the state departed from its commitment in 2003 and 2005 when motor vehicle fuel tax increases of five cents and nine and one-half cents contained no statutory direction to dedicate the refund percentage from the fourteen and one-half cents of fuel tax purchases made by boaters, off-road and nonhighway vehicle riders and drivers, and snowmobilers into the appropriate nonhighway-purpose user accounts.

The legislature intends to remedy this problem by fully restoring the refund percentages into nonhighway-purpose accounts established to benefit nonhighway users of fuel. The legislature also intends to honor its commitment when the refund amounts from nonhighway-purpose fuel tax purchases are no longer necessary to repay bonded debt associated with the 2003 and 2005 motor vehicle fuel tax increases. The legislature also intends to specify that as of July 1, 2031, the state will apply the total percentage of nonhighway-purpose fuel tax refunds into the proper nonhighway user accounts for boaters, off-road and nonhighway vehicle riders and drivers, and snowmobilers." 46.20.270 Driving offenses—Procedures—Definitions. (1) Every court having jurisdiction over offenses committed under this chapter, or any other act of this state or municipal ordinance adopted by a local authority regulating the operation of motor vehicles on highways, or any federal authority having jurisdiction over offenses substantially the same as those set forth in this title which occur on federal installations within this state, shall immediately forward to the department a forfeiture of bail or collateral deposited to secure the defendant's appearance in court, a payment of a fine, penalty, or court cost, a plea of guilty or nolo contendere or a finding of guilt, or a finding that any person has committed a traffic infraction an abstract of the court record in the form prescribed by rule of the supreme court, showing the conviction of any person or the finding that any person has committed a traffic infraction in said court for a violation of any said laws other than regulations governing standing, stopping, parking, and pedestrian offenses.

(2) Every state agency or municipality having jurisdiction over offenses committed under this chapter, or under any other act of this state or municipal ordinance adopted by a state or local authority regulating the operation of motor vehicles on highways, may forward to the department within ten days of failure to respond, failure to pay a penalty, failure to appear at a hearing to contest the determination that a violation of any statute, ordinance, or regulation relating to standing, stopping, parking, or civil penalties issued under RCW 46.63.160 has been committed, or failure to appear at a hearing to explain mitigating circumstances, an abstract of the citation record in the form prescribed by rule of the department, showing the finding by such municipality that two or more violations of laws governing standing, stopping, and parking or one or more civil penalties issued under RCW 46.63.160 have been committed and indicating the nature of the defendant's failure to act. Such violations or infractions may not have occurred while the vehicle is stolen from the registered owner. The department may enter into agreements of reciprocity with the duly authorized representatives of the states for reporting to each other violations of laws governing standing, stopping, and parking.

(3) For the purposes of this title and except as defined in RCW 46.25.010, "conviction" means a final conviction in a state or municipal court or by any federal authority having jurisdiction over offenses substantially the same as those set forth in this title which occur on federal installations in this state, an unvacated forfeiture of bail or collateral deposited to secure a defendant's appearance in court, the payment of a fine or court cost, a plea of guilty or nolo contendere, or a finding of guilt on a traffic law violation charge, regardless of whether the imposition of sentence or sanctions are deferred or the penalty is suspended, but not including entry into a deferred prosecution agreement under chapter 10.05 RCW.

(4) Perfection of a notice of appeal shall stay the execution of the sentence pertaining to the withholding of the driving privilege.

(5) For the purposes of this title, "finding that a traffic infraction has been committed" means a failure to respond to a notice of infraction or a determination made by a court pursuant to this chapter. Payment of a monetary penalty made pursuant to RCW 46.63.070(2) is deemed equivalent to such a finding. 46.20.308 Implied consent—Test refusal—Procedures. (1) Any person who operates a motor vehicle within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of his or her breath for the purpose of determining the alcohol concentration in his or her breath if arrested for any offense where, at

the time of the arrest, the arresting officer has reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was in violation of RCW 46.61.503.

(2) The test or tests of breath shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or the person to have been driving or in actual physical control of a motor vehicle while having alcohol in a concentration in violation of RCW 46.61.503 in his or her system and being under the age of twenty-one. Prior to administering a breath test pursuant to this section, the officer shall inform the person of his or her right under this section to refuse the breath test, and of his or her right to have additional tests administered by any qualified person of his or her choosing as provided in RCW 46.61.506. The officer shall warn the driver, in substantially the following language, that:

(a) If the driver refuses to take the test, the driver's license, permit, or privilege to drive will be revoked or denied for at least one year; and

(b) If the driver refuses to take the test, the driver's refusal to take the test may be used in a criminal trial; and

(c) If the driver submits to the test and the test is administered, the driver's license, permit, or privilege to drive will be suspended, revoked, or denied for at least ninety days if:

(i) The driver is age twenty-one or over and the test indicates either that the alcohol concentration of the driver's breath is 0.08 or more; or

(ii) The driver is under age twenty-one and the test indicates either that the alcohol concentration of the driver's breath is 0.02 or more; or

(iii) The driver is under age twenty-one and the driver is in violation of RCW 46.61.502 or 46.61.504; and

(d) If the driver's license, permit, or privilege to drive is suspended, revoked, or denied the driver may be eligible to immediately apply for an ignition interlock driver's license.

(3) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested exercises the right, granted herein, by refusing upon the request of a law enforcement officer to submit to a test or tests of his or her breath, no test shall be given except as otherwise authorized by law.

(4) Nothing in subsection (1), (2), or (3) of this section precludes a law enforcement officer from obtaining a person's blood to test for alcohol, marijuana, or any drug, pursuant to a search warrant, a valid waiver of the warrant requirement, when exigent circumstances exist, or under any other authority of law. Any blood drawn for the purpose of determining the person's alcohol, marijuana levels, or any drug, is drawn pursuant to this section when the officer has reasonable grounds to believe that the person is in physical control or driving a vehicle under the influence or in violation of RCW 46.61.503.

(5) If, after arrest and after any other applicable conditions and requirements of this section have been satisfied, a test or tests of the person's blood or breath is administered and the test results indicate that the alcohol concentration of the person's breath or blood is 0.08 or more, or the THC con-

centration of the person's blood is 5.00 or more, if the person is age twenty-one or over, or that the alcohol concentration of the person's breath or blood is 0.02 or more, or the THC concentration of the person's blood is above 0.00, if the person is under the age of twenty-one, or the person refuses to submit to a test, the arresting officer or other law enforcement officer at whose direction any test has been given, or the department, where applicable, if the arrest results in a test of the person's blood, shall:

(a) Serve notice in writing on the person on behalf of the department of its intention to suspend, revoke, or deny the person's license, permit, or privilege to drive as required by subsection (6) of this section;

(b) Serve notice in writing on the person on behalf of the department of his or her right to a hearing, specifying the steps he or she must take to obtain a hearing as provided by subsection (7) of this section;

(c) Serve notice in writing that the license or permit, if any, is a temporary license that is valid for sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or until the suspension, revocation, or denial of the person's license, permit, or privilege to drive is sustained at a hearing pursuant to subsection (7) of this section, whichever occurs first. No temporary license is valid to any greater degree than the license or permit that it replaces; and

(d) Immediately notify the department of the arrest and transmit to the department within seventy-two hours, except as delayed as the result of a blood test, a sworn report or report under a declaration authorized by RCW 9A.72.085 that states:

(i) That the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or was under the age of twenty-one years and had been driving or was in actual physical control of a motor vehicle while having an alcohol or THC concentration in violation of RCW 46.61.503;

(ii) That after receipt of any applicable warnings required by subsection (2) of this section the person refused to submit to a test of his or her breath, or a test was administered and the results indicated that the alcohol concentration of the person's breath or blood was 0.08 or more, or the THC concentration of the person's blood was 5.00 or more, if the person is age twenty-one or over, or that the alcohol concentration of the person's breath or blood was 0.02 or more, or the THC concentration of the person's blood was above 0.00, if the person is under the age of twenty-one; and

(iii) Any other information that the director may require by rule.

(6) The department of licensing, upon the receipt of a sworn report or report under a declaration authorized by RCW 9A.72.085 under subsection (5)(d) of this section, shall suspend, revoke, or deny the person's license, permit, or privilege to drive or any nonresident operating privilege, as provided in RCW 46.20.3101, such suspension, revocation, or denial to be effective beginning sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or

when sustained at a hearing pursuant to subsection (7) of this section, whichever occurs first.

(7) A person receiving notification under subsection (5)(b) of this section may, within twenty days after the notice has been given, request in writing a formal hearing before the department. The person shall pay a fee of three hundred seventy-five dollars as part of the request. If the request is mailed, it must be postmarked within twenty days after receipt of the notification. Upon timely receipt of such a request for a formal hearing, including receipt of the required three hundred seventy-five dollar fee, the department shall afford the person an opportunity for a hearing. The department may waive the required three hundred seventy-five dollar fee if the person is an indigent as defined in RCW 10.101.010. Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the department shall be stayed, and any valid temporary license under subsection (5) of this section extended, if the person is otherwise eligible for licensing. For the purposes of this section, the scope of the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more, or THC in his or her system in a concentration above 0.00, if the person was under the age of twenty-one, whether the person was placed under arrest, and (a) whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered pursuant to a search warrant, a valid waiver of the warrant requirement, when exigent circumstances exist, or under any other authority of law as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person's breath or blood was 0.08 or more, or the THC concentration of the person's blood was 5.00 or more, if the person was age twenty-one or over at the time of the arrest, or that the alcohol concentration of the person's breath or blood was 0.02 or more, or the THC concentration of the person's blood was above 0.00, if the person was under the age of twenty-one at the time of the arrest. Where a person is found to be in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was under the age of twenty-one at the time of the arrest and was in physical control of a motor vehicle while having alcohol in his or her system in a concentration of 0.02 or THC concen-

tration above 0.00, the person may petition the hearing officer to apply the affirmative defense found in RCW 46.61.504(3) and 46.61.503(2). The driver has the burden to prove the affirmative defense by a preponderance of the evidence. The sworn report or report under a declaration authorized by RCW 9A.72.085 submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more, or THC in his or her system in a concentration above 0.00, and was under the age of twenty-one and that the officer complied with the requirements of this section.

A hearing officer shall conduct the hearing, may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under a declaration authorized by RCW 9A.72.085 of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, or denial either be rescinded or sustained.

(8) If the suspension, revocation, or denial is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, or denied has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the same manner as an appeal from a decision of a court of limited jurisdiction. Notice of appeal must be filed within thirty days after the date the final order is served or the right to appeal is waived. Notwithstanding RCW 46.20.334, RALJ 1.1, or other statutes or rules referencing de novo review, the appeal shall be limited to a review of the record of the administrative hearing. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer. The filing of the appeal does not stay the effective date of the suspension, revocation, or denial. A petition filed under this subsection must include the petitioner's grounds for requesting review. Upon granting petitioner's request for review, the court shall review the department's final order of suspension, revocation, or denial as expeditiously as possible. The review must be limited to a determination of whether the department has committed any errors of law. The superior court shall accept those factual determinations supported by substantial evidence in the record: (a) That were expressly made by the department; or (b) that may reasonably be inferred from the final order of the department. The superior court may reverse, affirm, or modify the decision of the department or remand the case back to the department for further proceedings. The decision of the superior court must be in writing and filed in the clerk's office with the other papers in the case. The court

shall state the reasons for the decision. If judicial relief is sought for a stay or other temporary remedy from the department's action, the court shall not grant such relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury. If the court stays the suspension, revocation, or denial it may impose conditions on such stay.

(9)(a) If a person whose driver's license, permit, or privilege to drive has been or will be suspended, revoked, or denied under subsection (6) of this section, other than as a result of a breath test refusal, and who has not committed an offense for which he or she was granted a deferred prosecution under chapter 10.05 RCW, petitions a court for a deferred prosecution on criminal charges arising out of the arrest for which action has been or will be taken under subsection (6) of this section, or notifies the department of licensing of the intent to seek such a deferred prosecution, then the license suspension or revocation shall be stayed pending entry of the deferred prosecution. The stay shall not be longer than one hundred fifty days after the date charges are filed, or two years after the date of the arrest, whichever time period is shorter. If the court stays the suspension, revocation, or denial, it may impose conditions on such stay. If the person is otherwise eligible for licensing, the department shall issue a temporary license, or extend any valid temporary license under subsection (5) of this section, for the period of the stay. If a deferred prosecution treatment plan is not recommended in the report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary license or extension of a temporary license issued under this subsection.

(b) A suspension, revocation, or denial imposed under this section, other than as a result of a breath test refusal, shall be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is terminated, the stay shall be lifted and the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled.

(c) The provisions of (b) of this subsection relating to a stay of a suspension, revocation, or denial and the cancellation of any suspension, revocation, or denial do not apply to the suspension, revocation, denial, or disqualification of a person's commercial driver's license or privilege to operate a commercial motor vehicle.

(10) When it has been finally determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license. Finding—Intent—2004 c 68: "The legislature finds that previous attempts to curtail the incidence of driving while intoxicated have been inadequate. The legislature further finds that property loss, injury, and death caused by drinking drivers continue at unacceptable levels. This act is intended to convey the seriousness with which the legislature views this problem. To that end the legislature seeks to ensure swift and certain consequences for those who drink and drive.

To accomplish this goal, the legislature adopts standards governing the admissibility of tests of a person's blood or breath. These standards will provide a degree of uniformity that is currently lacking, and will reduce the delays caused by challenges to various breath test instrument components and maintenance procedures. Such challenges, while allowed, will no longer go to admissibility of test results. Instead, such challenges are to be considered by the finder of fact in deciding what weight to place upon an admitted blood or breath test result.

The legislature's authority to adopt standards governing the admissibility of evidence involving alcohol is well established by the Washington Supreme Court. See generally *State v. Long*, 113 Wn.2d 266, 778 P.2d 1027 (1989); *State v. Sears*, 4 Wn.2d 200, 215, 103 P.2d 337 (1940) (the legislature has the power to enact laws which create rules of evidence); *State v. Pavelich*, 153 Wash. 379, 279 P. 1102 (1929) ("rules of evidence are substantive law"). [2004 c 68 § 1.]

Legislative finding, intent—1983 c 165: "The legislature finds that previous attempts to curtail the incidence of driving while intoxicated have been inadequate. The legislature further finds that property loss, injury, and death caused by drinking drivers have reached unacceptable levels. This act is intended to convey the seriousness with which the legislature views this problem. To that end the legislature seeks to insure swift and certain punishment for those who drink and drive. The legislature does not intend to discourage or deter courts and other agencies from directing or providing treatment for problem drinkers. However, it is the intent that such treatment, where appropriate, be in addition to and not in lieu of the sanctions to be applied to all those convicted of driving while intoxicated."
