Washington State University Building Account, the Eastern Washington State College Capital Projects Account, the Central Washington State College Capital Projects Account, and the Western Washington State College Projects Account shall take effect immediately.

Passed the Senate April 21, 1965.

Passed the House April 20, 1965.

Approved by the Governor April 28, 1965, with the exception of a certain item in Section 10 which was vetoed.

Veto message. NOTE: Governor's explanation of partial veto is as follows:

"I have no objection to the appropriations contained in this bill, but I am concerned that it should take effect on July 1, 1965 when the next biennium commences.

"This bill contains appropriations and reappropriations for capital improvement projects. The allotment of funds pursuant to this bill is intended to occur during the biennium commencing July 1, 1965; however with the exception of certain projects at the state universities and state colleges which take effect immediately, this bill will not take effect until ninety days after adjournment of this legislative session. It is difficult to predict the effective date of the bill; however it is obvious that it will be a month or more after the commencement of the next biennium.

"This delay in making funds available could work a hardship with respect to projects previously authorized for which reappropriations have been made in this bill. It is unfortunate that the emergency clause in section 10 was not expanded to make all portions of the bill effective no later than July 1, 1965. However, to relieve this problem, I have vetoed the language in section 10 which restricts the operation of the emergency clause to appropriations from the building and capital projects accounts of the state universities and state colleges. By striking this language the entire act will become effective immediately. However, this does not mean that funds will be expended prior to the time intended by the legislature. Under section 3 of the bill the Budget Director, with the approval of the Governor, must allot funds before any project can begin or any obligation can be incurred. The power to make such allotments can be used to give effect to the legislative intent that appropriations from the building and capital projects accounts of the state universities and colleges shall take effect immediately and that other appropriations shall take effect July 1, 1965.

"With the exception of a certain item in section 10, which I have vetoed for the reasons stated above, the remainder of the bill is approved."

DANIEL J. EVANS, Governor.
