NEW SECTION. Sec. 330. FOR THE DEPARTMENT OF ECOLOGY Watershed Plan Implementation and Flow Achievement (06-2-003)

The appropriation in this section is subject to the following conditions and limitations: \$12,000,000 of the appropriation is provided solely for projects and water right acquisitions to support watershed planning efforts and achieving instream flows subject to the following project types, conditions, and limitations:

(1) Up to \$1,353,172 of the appropriation is provided to improve irrigation efficiency and to achieve associated flow improvements in the Twisp and Methow rivers by providing for cleaning and lining and/or piping of 30,943 linear feet of the irrigation canal within the lower (downstream) seven miles of the Methow Valley irrigation district's west canal. Of this amount, up to \$100,000 is provided for a neutral independent consultant to provide management assistance to the Methow Valley irrigation district for purposes of identifying structural and operational improvements to increase overall system water use efficiency.

(2) Up to \$200,000 of the appropriation is provided for a portion of the costs of the project level environmental impact statement for the Ahtanum creek watershed restoration program, including construction of the Pine Hollow reservoir, provided there is

agreement among the Yakama nation, Ahtanum irrigation district, and other jurisdictional federal, state, and local agencies and entities to proceed with the environmental impact statement.

(3) Up to \$75,000 of the appropriation is provided to formalize the Ahtanum creek watershed restoration program, including identification of site specific habitat improvement projects and determination of the most appropriate restoration program alternative to implement.

(4) Up to \$1,500,000 of the appropriation is provided to reduce diversions from the Dungeness river through pipeline projects identified in the Dungeness river comprehensive irrigation district management plan. For at least one year from the effective date of this section, while the parties seek resolution of the court action filed in Thurston county superior court, No. 04-2-00078-2, none of these funds may be allocated to any projects in the Dungeness river basin that are within the area that is the zone of contribution for ground and surface water infiltration to the existing Graysmarsh wetland.

(5) \$100,000 of the appropriation is provided solely to the city of Normandy Park to implement the basin plan for the Miller/Walker and Salmon creek basins.

(6) Water storage grants for the development of plans, engineering and financing reports, acquiring lands and facilities, and other preconstruction activities associated with the development of water storage and groundwater storage and recovery projects. Proposed projects should be consistent with the recommendations of the water storage task force. The department of ecology would issue grants in consultation with the departments of agriculture and fish and wildlife.

(7) Infrastructure improvement projects and other water management actions that benefit stream flows and enhance water supply to resolve conflicts among water needs for municipal water supply, agriculture water supply, and fish restoration. The stream flow improvements and other public benefits secured from these projects should be commensurate with the investment of state funds.

(8) Projects for planning, acquisition, construction, and improvement of agriculture water supply facilities and achieving water conservation and water use efficiency improvements.

(9) Financial assistance to purchase and install water measuring devices at points of diversion and withdrawal. Preference would be given to fish-critical basins, to areas participating in the department of fish and wildlife fish screening and cooperative compliance programs, and to basins where watershed planning has determined additional water diversion and withdrawal information is needed.

(10) Funding for acquisition of either water or water rights, or both, for instream flow achievement and establishment of water accounts. The appropriation is provided for either the purchase or lease, or both, of water rights. It is also provided for the purpose of improving stream and river flows in fish critical basins under the trust water rights program under chapters 90.42 and 90.38 RCW.

(11) The department shall provide small grants to watershed councils that have completed watershed plans. The grants are intended to support periodic meetings of the councils so that they can monitor the implementation of watershed plans.

be appraised at fair market value both with and without the imposition of the easement/lease. (7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) Except as provided in subsection (11) of this section, the department shall execute trust land transfers and easements/leases such that, after the deduction of reasonable costs as provided in subsection (4) of this section, eighty percent of the appropriation in this section is deposited in the common school construction fund. To achieve the 80:20 ratio, the department may offset transfers of property with low timber-to-land ratios with easements/leases on other properties.

(9) On June 30, 2007, the state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction fund and the appropriations in this section shall be reduced by an equivalent amount.

The appropriation in this section is subject to the following conditions and limitations: The appropriation is provided solely for the Washington state institute for public policy to study options to stabilize future prison population. To do this, the legislature finds that sentencing options need to be examined in conjunction with prevention and intervention programs. The legislature finds that existing and current research underway by the Washington state institute for public policy can be synthesized to develop these options, in conjunction with sentencing options that will be developed by the sentencing guidelines commission. The Washington state institute for public policy shall build on the study required by chapter . . . The institute shall use the results from its 2004 report on cost-beneficial prevention and early intervention programs and its work on effective adult corrections programs to project total fiscal impacts under alternative implementation scenarios. The study shall also include a comparison to services provided in public schools; recommend how the schools could configure service delivery to complement and support school district programs; and examine which state agency should have responsibility for governance and oversight of the schools. PART 6 MISCELLANEOUS AND SUPPLEMENTAL PROVISIONS

MISCELLANEOUS PROVISIONS

NEW SECTION. Sec. 901. The estimated debt service costs impacting future general fund expenditures related solely to new capital appropriations within this act are \$19,503,912 during the 2005-2007 fiscal period; \$128,151,322 during the 2007-2009 fiscal period; \$200,451,220 during the 2009-2011 fiscal period; \$207,686,311 during the 2011-2013 fiscal period; and \$210,558,739 during the 2013-2015 period.

NEW SECTION. Sec. 902. (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management. The office of financial management shall notify the house of representatives capital budget committee and the senate ways and means committee of allotment releases based on review by the office of financial management. No expenditure may be incurred or obligation entered into for appropriations in this act until the office of financial management has given final approval to the allotment of the funds to be expended or encumbered. For allotments under this act, the allotment process includes, in addition to the statement of proposed expenditures for the current biennium, a category or categories for any reserve amounts and amounts expected to be expended in future biennia. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110. Contracts shall not be executed that call for expenditures in excess of the approved allotment, and the total amount shown in such contracts for the cost of future work that has not been appropriated shall not exceed the amount identified for such work in the level of funding approved by the office of financial management at the completion of predesign.

(2) The legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

NEW SECTION. Sec. 903. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of \$5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign and other documents, and approved an allotment for the project that includes specific authorization to enter into a contract to expend or encumber funds. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

NEW SECTION. Sec. 904. Appropriations in this act for design and construction of facilities on higher education campuses shall be expended only after funds are allotted to institutions of higher education on the basis of: (1) Comparable unit cost standards, as determined by the office of financial management in consultation with the higher education coordinating board; (2) costs consistent with other higher education teaching facilities in the state; and (3) student full-time equivalent enrollment levels as established by the

office of financial management in consultation with the higher education coordinating board.

NEW SECTION. Sec. 905. (1) To ensure that minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management and the office of financial management has formally approved the lists. Proposed revisions to the lists must be filed with and approved by the office of financial management before funds may be expended on the revisions.

(2)(a) Minor works projects are single line appropriations that include multiple projects valued between \$25,000 and \$1,000,000 each that are of a similar nature and can generally be completed within two years of the appropriation with the funding provided. Minor works categories include (i) health, safety, and code requirements; (ii) facility preservation; (iii) infrastructure preservation; and (iv) program improvement or expansion. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(3) The office of financial management shall forward copies of these project lists and revised lists to the house of representatives capital budget committee and the senate ways and means committee. No expenditure may be incurred or obligation entered into for minor works appropriations until the office of financial management has approved the allotment of the funds to be expended. The office of financial management shall encourage state agencies to incorporate accessibility planning and improvements into the normal and customary capital program.

(4) It is generally not intended to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

NEW SECTION. Sec. 906. (1) The governor, through the office of financial management, may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher

education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) For purposes of this section, the governor may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) Transfers of funds to an agency's infrastructure savings appropriation are subject to review and approval by the office of financial management. Expenditures from an infrastructure savings appropriation are limited to projects that have a primary purpose to correct infrastructure deficiencies or conditions that: (a) Adversely affect the ability to utilize the infrastructure for its current programmatic use; (b) reduce the life expectancy of the infrastructure; or (c) increase the operating costs of the infrastructure for its current programmatic use. Eligible infrastructure projects may include structures and surface improvements, site amenities, utility systems outside building footprints and natural environmental changes or requirements as part of an environmental regulation, a declaration of emergency for an infrastructure issue in conformance with RCW 43.88.250, or infrastructure planning as part of a facility master plan.

(5) A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. Sec. 907. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

(4) The office of financial management shall report the following to the appropriate fiscal committees of the legislature by January 30, 2007: (a) A listing of reappropriations in the governor's 2007-2009 capital budget recommendation that will be reappropriated more than once and have ten percent or more of the original appropriation unexpended; and (b) an explanation of why the appropriation remains unexpended.

NEW SECTION. Sec. 908. The legislature finds that the state's public four-year institutions and the higher education coordinating board have made substantial progress in developing a process to create a single prioritized list of capital project requests as required under RCW 28B.76.220. The legislature also recognizes that continuing work by the institutions and the board is needed to refine the methodology for determining the ranking of project requests, and that this work will benefit from additional legislative guidance. Therefore, the higher education coordinating board and the public four-year institutions, in developing and submitting the single prioritized project list of capital project requests under RCW 28B.76.220, shall use the following additional guidelines:

(1) Representatives of the board shall participate in the process of scoring projects using the criteria in the board's biennial budget guidelines. Representatives of the board shall also review the preliminary project list to verify the scoring and ranking of projects. As required under RCW 28B.76.210, institutions must submit the preliminary project list to the board by August 1st of each even-numbered year to enable this review. Any disagreements over project scorings or rankings shall be resolved as provided under RCW 28B.76.220(4).

(2) The board's biennial budget guidelines and the prioritization process shall place a greater emphasis on early critical review of project proposals at the pre-design phase, rather than deferring critical review and prioritization to the design or construction phases of a project.

(3) When projects are aggregated into single line-item requests, each project must meet the definition of minor works according to the capital budget instructions issued by the office of financial management. All major projects must be listed and ranked as individual line-item requests.

(4) The scoring and ranking of projects shall not be based on assigning an equal number of overall points to each public four-year institution, but shall reflect an assignment of points to individual projects based on the priorities and criteria in this section and in the board's biennial budget guidelines.

(5) Projects shall not be ranked on the basis of a project funding source.

(6) In consultation with the appropriate fiscal and policy committees of the legislature, the board shall identify statewide priorities for higher education capital investments and incorporate those priorities into its biennial budget guidelines. The statewide priorities shall address the need for higher education capital projects to:

(a) Implement a specific legislatively authorized program or planning priority;

(b) Reduce the backlog of deferred building or system preservation, renewal, or replacement;

(c) Provide additional capacity or adaptation of space for high demand instructional or research programs;

(d) Provide additional instructional program capacity for underserved geographic regions or populations; and

(e) Reflect institutional planning priorities and areas of emphasis.

(7) The board's biennial budget guidelines shall include a quantitative method for scoring projects on the identified priorities. The quantitative method shall include use of the facility condition index developed by the joint legislative audit and review committee for assessing building or system condition, and use of the board's space utilization and allocation standards for assessing the need for additional capacity.

NEW SECTION. Sec. 909. ACQUISITION OF PROPERTIES AND FACILITIES THROUGH FINANCIAL CONTRACTS. The following agencies may enter into financial contracts, paid from any funds of an agency, appropriated or nonappropriated, for the purposes indicated and in not more than the principal amounts indicated, plus financing expenses and required reserves pursuant to chapter 39.94 RCW. NEW SECTION. **Sec. 910.** FOR THE ARTS COMMISSION--ART WORK ALLOWANCE POOLING. (1) One-half of one percent of moneys appropriated in this act for original construction of school plant facilities is provided solely for the purposes of RCW 28A.335.210. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the superintendent of public instruction and representatives of school district boards.

(2) One-half of one percent of moneys appropriated in this act for original construction or any major renovation or remodel work exceeding two hundred thousand dollars by colleges or universities is provided solely for the purposes of RCW 28B.10.027. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the board of regents or trustees.

(3) One-half of one percent of moneys appropriated in this act for original construction of any public building by a state agency as defined in RCW 43.17.020 is provided solely for the purposes of RCW 43.17.200. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the state agency.

(4) At least eighty-five percent of the moneys spent by the Washington state arts commission during the 2005-2007 biennium for the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended solely for direct acquisition of works of art. The commission may use up to \$100,000 of this amount to contract for service to conserve or maintain existing pieces in the state art collection pursuant to chapter . . . (House Bill No. 2188 (funding the conservation of the state art collection)), Laws of 2005.

NEW SECTION. **Sec. 911.** The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia"

amount is an estimate of what may be appropriated for the project or program in the 2007-09 biennium and the following four biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

NEW SECTION. Sec. 912. "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2005, from the 2003-2005 biennial appropriations for each project.

NEW SECTION. Sec. 913. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 914. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate ways and means committee and the house of representatives capital budget committee.

NEW SECTION. Sec. 915. (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

NEW SECTION. Sec. 916. Any capital improvements or capital projects involving construction or major expansion of a state office facility, including, but not limited to, district headquarters, detachment offices, and off-campus faculty offices, must be reviewed by the department of general administration for possible consolidation, colocation, and compliance with state office standards before allotment of funds. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

NEW SECTION. Sec. 917. The military department shall file quarterly progress reports in addition to the annual project progress reporting requirement of RCW 43.88.160(3). These reports must contain local, state, and federal funding reconciliation and balance sheets for all appropriated readiness center projects and detail any federal intentions on future readiness centers and other facilities.

NEW SECTION. Sec. 918. NONTAXABLE AND TAXABLE BOND PROCEEDS. Portions of the appropriation authority granted by this act from the state building construction account, or any other account receiving bond proceeds, may be transferred to the state taxable building construction account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond

proceeds. The state treasurer shall submit written notification to the director of financial management if it is determined that a shift of appropriation authority from the state building construction account, or any other account receiving bond proceeds, to the state taxable building construction account is necessary.

NEW SECTION. Sec. 919. The office of financial management, in consultation with the department of general administration, shall identify capital projects that may benefit from an energy analysis to determine whether there are alternate, more economical, and energy efficient means of completing the work. The office of financial management shall hold appropriations in allotment reserve on the following types of capital projects until this analysis can be completed: Heating, ventilation, and air conditioning modifications, chiller plants, steam plants, boilers, chilled water or steam lines, building control systems, lighting improvements, or other major energy using systems that may warrant additional analysis. Agencies receiving appropriations for such projects are encouraged to utilize energy performance contracts or alternative financing for equipment in lieu of state appropriated funds. The office of financial management may transfer funds remaining in allotment reserve to infrastructure savings projects within the agency that has realized savings from energy efficiency alternatives.

Sec. 920. RCW 43.135.045 and 2003 1st sp.s. c 25 s 920 are each amended to read as follows:

(1) The emergency reserve fund is established in the state treasury. During each fiscal year, the state treasurer shall deposit in the emergency reserve fund all general fund--state revenues in excess of the state expenditure limit for that fiscal year. Deposits shall be made at the end of each fiscal quarter based on projections of state revenues and the state expenditure limit. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues and the expenditure limit for fiscal year 2000 and thereafter.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

(3) The emergency reserve fund balance shall not exceed five percent of annual general fund--state revenues as projected by the official state revenue forecast. Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer as follows: Seventy-five percent to the student achievement fund hereby created in the state treasury and twenty-five percent to the general fund balance. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues for fiscal year 2000 and thereafter. When per-student state funding for the maintenance and operation of K-12 education meets a level of no less than ninety percent of the national average of total funding from all sources per student as determined by the most recent published data from the national center for education statistics of the United States department of education, as calculated by the office of financial management, further deposits to the student achievement fund shall be required only to the extent necessary to maintain the ninety-percent level. Remaining funds are part of the general fund balance and these funds are subject to the expenditure limits of this chapter.

(4) The education construction fund is hereby created in the state treasury.

(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education

construction. During the fiscal years beginning July 1, 2005, and ending June 30, 2007, funds may also be used for higher education facilities preservation and maintenance.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Funds from the student achievement fund shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district.

(6) Earnings of the emergency reserve fund under RCW 43.84.092(4)(a) shall be transferred quarterly to the multimodal transportation account, except for those earnings that are in excess of thirty-five million dollars each fiscal year. Within thirty days following any fiscal year in which earnings transferred to the multimodal transportation account under this subsection did not total thirty-five million dollars, the state treasurer shall transfer from the emergency reserve fund an amount necessary to bring the total deposited in the multimodal transportation account under this subsection to thirty-five million dollars. The revenues to the multimodal transportation account reflected in this subsection provide ongoing support for the transportation programs of the state. However, it is the intent of the legislature that any new long-term financial support that may be subsequently provided for transportation programs will be used to replace and supplant the revenues reflected in this subsection, thereby allowing those revenues to be returned to the purposes to which they were previously dedicated. No transfers from the emergency reserve fund to the multimodal fund shall be made during the 2003-05 fiscal biennium.

Sec. 921. RCW 43.88.032 and 1997 c 96 s 5 are each amended to read as follows:

(1) Normal maintenance costs, except for funds appropriated for facility preservation of state institutions of higher education, shall be programmed in the operating budget rather than in the capital budget.

(2) All debt-financed pass-through money to local governments shall be programmed and separately identified in the budget document.

Sec. 922. RCW 28B.50.360 and 2004 c 277 s 910 are each amended to read as follows:

Within thirty-five days from the date of start of each quarter all collected building fees of each such community and technical college shall be paid into the state treasury, and shall be credited as follows:

(1) On or before June 30th of each year the college board if issuing bonds payable out of building fees shall certify to the state treasurer the amounts required in the ensuing twelve-month period to pay and secure the payment of the principal of and interest on such bonds. The state treasurer shall thereupon deposit the amounts so certified in the community and technical college capital projects account. Such amounts of the funds deposited in the community and technical college capital projects account as are necessary to pay and secure the payment of the principal of and interest on the building bonds issued by the college board as authorized by this chapter shall be exclusively devoted to that purpose. If in any twelve-month period it shall appear that the amount certified by the college board is insufficient to pay and secure the payment of the principal of and

interest on the outstanding building bonds, the state treasurer shall notify the college board and such board shall adjust its certificate so that all requirements of moneys to pay and secure the payment of the principal and interest on all such bonds then outstanding shall be fully met at all times.

(2) The community and technical college capital projects account is hereby created in the state treasury. The sums deposited in the capital projects account shall be appropriated and expended exclusively to pay and secure the payment of the principal of and interest on bonds payable out of the building fees and for the construction, reconstruction, erection, equipping, maintenance, demolition and major alteration of buildings and other capital assets owned by the state board for community and technical colleges in the name of the state of Washington, and the acquisition of sites, rights-of-way, easements, improvements or appurtenances in relation thereto, ~~((and, during the 2003-05 biennium,))~~ engineering and architectural services provided by the department of general administration, and for the payment of principal of and interest on any bonds issued for such purposes.

NEW SECTION. Sec. 923. The department of general administration shall not sell or otherwise dispose of the Tacoma Rhodes building without legislative approval. The department shall submit a business plan for the building, to include an assessment of whether this building is surplus to the state's needs and whether other state agency tenants might be housed in the building, by December 1, 2005, to the appropriate committees of the legislature.

NEW SECTION. Sec. 924. In accordance with the recommendation of the joint legislative audit and review committee report "Performance Audit of Capital Budget Processes," the office of financial management shall develop a plan, in consultation with legislative fiscal committees, to address weaknesses identified in that report in the oversight of facility projects. The report shall address, but not be limited to:

- (1) Aligning resources to program workload;
 - (2) Identifying and institutionalizing best practices;
 - (3) Creating easily accessible and reliable information systems;

(xii) Development and demonstration of alternative management technologies designed to carry out the top two hazardous waste management priorities of RCW 70.105.150.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(5) One percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. However, during the 1999-2001 fiscal biennium, funding may not be granted to entities engaged in lobbying activities, and applicants may not be awarded grants if their cumulative grant awards under this section exceed two hundred thousand dollars. (2) Property transferred under this section shall be appraised and transferred at fair market value. The value of the timber transferred shall be deposited by the department to the common school construction account in the same manner as timber revenues from other common school trust lands. These funds shall be expended by the department for the exclusive purpose of acquiring commercial real property of equal value to be managed as common school trust land.

(3) Property subject to easement/lease agreements under this section shall be appraised at fair market value both with and without the imposition of the easement/lease. The entire difference in appraised value shall be deposited by the department to the common school construction fund in the same manner as lease revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040.

(b) There is an indication in the poll book that the voter has requested an absentee ballot, but the voter wishes to vote at the polling place;

(1) Printed on colored paper; or

(2) Imprinted with a bar code for the purpose of identifying the ballot as a provisional or absentee ballot. The bar code must not identify the voter.

Provisional and absentee ballots must be incapable of being tabulated by poll-site counting devices.

Sec. 4. RCW 29A.40.091 and 2004 c 271 s 135 are each amended to read as follows:

The county auditor shall send each absentee voter a ballot, a security envelope in which to seal the ballot after voting, a larger envelope in which to return the security envelope, and instructions on how to mark the ballot and how to return it to the county auditor. The instructions that accompany an absentee ballot for a partisan primary must include instructions for voting the applicable ballot style, as provided in chapter 29A.36 RCW. The absentee voter's name and address must be printed on the larger return envelope, which must also contain a declaration by the absentee voter reciting his or her qualifications and stating that he or she has not voted in any other jurisdiction at this election, together with a summary of the penalties for any violation of any of the provisions of this chapter. The declaration must clearly inform the voter that it is illegal to vote if he or she is not a United States citizen; it is illegal to vote if he or she has been convicted of a felony and has not had his or her voting rights restored; and, except as otherwise provided by law, it is illegal to cast a ballot or sign an absentee envelope on behalf of another voter. The return envelope must provide space for the voter to indicate the date on which the ballot was voted and for the voter to sign the oath. It must also contain a space that the voter may include a telephone number. A summary of the applicable penalty provisions of this chapter must be printed on the return envelope immediately adjacent to the space for the voter's signature. The signature of the voter on the return envelope must affirm and attest to the statements regarding the qualifications of that voter and to the validity of the ballot. The return envelope must also have a secrecy flap that the voter may seal that will cover the voter's signature and optional telephone number. For out-of-state voters, overseas voters, and service voters, the signed declaration on the return envelope constitutes the equivalent of a voter registration for the election or primary for which the ballot has been issued. The voter must be instructed to either return the ballot to the county auditor by whom it was issued or attach sufficient first class postage, if applicable, and mail the ballot to the appropriate county auditor no later than the day of the election or primary for which the ballot was issued.

If the county auditor chooses to forward absentee ballots, he or she must include with the ballot a clear explanation of the qualifications necessary to vote in that election and must also advise a voter with questions about his or her eligibility to contact the

county auditor. This explanation may be provided on the ballot envelope, on an enclosed insert, or printed directly on the ballot itself. If the information is not included, the envelope must clearly indicate that the ballot is not to be forwarded and that return postage is guaranteed.

Sec. 5. RCW 29A.40.110 and 2003 c 111 s 1011 are each amended to read as follows:

(1) The opening and subsequent processing of return envelopes for any primary or election may begin ~~((on or after the tenth day before the primary or election))~~ upon receipt. The tabulation of absentee ballots must not commence until after 8:00 p.m. on the day of the primary or election.

(2) All received absentee return envelopes must be placed in secure locations from the time of delivery to the county auditor until their subsequent opening. After opening the return envelopes, the county canvassing board shall place all of the ballots in secure storage until after 8:00 p.m. of the day of the primary or election. Absentee ballots that are to be tabulated on an electronic vote tallying system may be taken from the inner envelopes and all the normal procedural steps may be performed to prepare these ballots for tabulation.

(3) Before opening a returned absentee ballot, the canvassing board, or its designated representatives, shall examine the postmark, statement, and signature on the return envelope that contains the security envelope and absentee ballot. They shall verify that the voter's signature on the return envelope is the same as the signature of that voter in the registration files of the county. For registered voters casting absentee ballots, the date on the return envelope to which the voter has attested determines the validity, as to the time of voting for that absentee ballot if the postmark is missing or is illegible. For out-of-state voters, overseas voters, and service voters stationed in the United States, the date on the return envelope to which the voter has attested determines the validity as to the time of voting for that absentee ballot. For any absentee ballot, a variation between the signature of the voter on the return envelope and the signature of that voter in the registration files due to the substitution of initials or the use of common nicknames is permitted so long as the surname and handwriting are clearly the same.

NEW SECTION. Sec. 6. A new section is added to chapter 29A.44 RCW to read as follows:

Provisional ballots must be issued, along with a provisional ballot outer envelope and a security envelope, to voters as appropriate under RCW 29A.04.008. The provisional ballot outer envelope must include a place for the voter's name; registered address, both present and former if applicable; date of birth; reason for the provisional ballot; the precinct number and the precinct polling location at which the voter has voted; and a space for the county auditor to list the disposition of the provisional ballot. The provisional ballot outer envelope must also contain a declaration as required for absentee ballot outer envelopes under RCW 29A.40.091; a place for the voter to sign the oath; and a summary of the applicable penalty provisions of this chapter. The voter shall vote the provisional ballot in secrecy and, when done, place the provisional ballot in the security envelope, then place the security envelope into the outer envelope, and return it to the precinct election official. The election official shall ensure that the required information is completed on the outer envelope, have the voter sign it in the appropriate space, and place the envelope in a secure container. The official shall then give the voter written information advising the voter how to ascertain whether the vote was counted and, if applicable, the reason why the vote was not counted.

NEW SECTION. Sec. 7. A new section is added to chapter 29A.44 RCW to read as follows:

Any person desiring to vote at any primary or election is required to provide identification to the election officer before signing the poll book. The identification required in this section can be satisfied by providing a valid photo identification, such as a driver's license or state identification card, student identification card, or tribal identification card, a voter's voter identification issued by a county elections officer, or a copy of a current utility bill, bank statement, paycheck, or government check or other government document. Any individual who desires to vote in person but cannot provide identification as required by this section shall be issued a provisional ballot.

The secretary of state may adopt rules to carry out this section.

NEW SECTION. Sec. 8. A new section is added to chapter 29A.60 RCW to read as follows:

(1) If the voter neglects to sign the outside envelope of an absentee or provisional ballot, the auditor shall notify the voter by telephone and advise the voter of the correct procedures for completing the unsigned affidavit. If the auditor is not able to provide the information personally to the voter by telephone, then the voter must be contacted by first class mail and advised of the correct procedures for completing the unsigned affidavit. Leaving a voice mail message for the voter is not to be considered as personally contacting the voter. In order for the ballot to be counted, the voter must either:

(a) Appear in person and sign the envelope no later than the day before the certification of the primary or election; or

(b) Sign a copy of the envelope provided by the auditor, and return it to the auditor no later than the day before the certification of the primary or election.

(2)(a) If the handwriting of the signature on an absentee or provisional ballot envelope is not the same as the handwriting of the signature on the registration file, the auditor shall notify the voter by telephone and advise the voter of the correct procedures for updating his or her signature on the voter registration file. If the auditor is not able to provide the information personally to the voter by telephone, then the voter must be contacted by first class mail and advised of the correct procedures for completing the unsigned affidavit. Leaving a voice mail message for the voter is not to be considered as personally contacting the voter. In order for the ballot to be counted, the voter must either:

(i) Appear in person and sign a new registration form no later than the day before the certification of the primary or election; or

(ii) Sign a copy of the affidavit provided by the auditor and return it to the auditor no later than the day before the certification of the primary or election. If the signature on the copy of the affidavit does not match the signature on file, the voter must appear in person and sign a new registration form no later than the day before the certification of the primary or election in order for the ballot to be counted.

(b) If the signature on an absentee or provisional ballot envelope is not the same as the signature on the registration file because the name is different, the ballot may be counted as long as the handwriting is clearly the same. The auditor shall send the voter a change-of-name form under RCW 29A.08.440 and direct the voter to complete the form.

(c) If the signature on an absentee or provisional ballot envelope is not the same as the signature on the registration file because the voter used initials or a common nickname, the ballot may be counted as long as the surname and handwriting are clearly the same.

(3) A voter may not cure a missing or mismatched signature for purposes of counting the ballot in a recount.

(4) A record must be kept of all ballots with missing and mismatched signatures. The record must contain the date on which the voter was contacted or the notice was mailed, as well as the date on which the voter signed the envelope, a copy of the envelope, a new registration form, or a change-of-name form. That record is a public record under chapter 42.17 RCW and may be disclosed to interested parties on written request.

NEW SECTION. Sec. 9. A new section is added to chapter 29A.60 RCW to read as follows:

Before certification of the primary or election, the county auditor must examine and investigate all received provisional ballots to determine whether the ballot can be counted. The auditor shall provide the disposition of the provisional ballot and, if the ballot was not counted, the reason why it was not counted, on a free access system such as a toll-free telephone number, web site, mail, or other means. The auditor must notify the voter in accordance with section 8 of this act when the envelope is unsigned or when the signatures do not match.

NEW SECTION. Sec. 10. A new section is added to chapter 29A.60 RCW to read as follows:

If inspection of the ballot reveals a physically damaged ballot or ballot that may be otherwise unreadable or uncountable by the tabulating system, the county auditor may refer the ballot to the county canvassing board or duplicate the ballot if so authorized by the county canvassing board. The voter's original ballot may not be altered. A ballot may be duplicated only if the intent of the voter's marks on the ballot is clear and the electronic voting equipment might not otherwise properly tally the ballot to reflect the intent of the voter. Ballots must be duplicated by teams of two or more people working together. When duplicating ballots, the county auditor shall take the following steps to create and maintain an audit trail of the action taken:

(1) Each original ballot and duplicate ballot must be assigned the same unique control number, with the number being marked upon the face of each ballot, to ensure that each duplicate ballot may be tied back to the original ballot;

(2) A log must be kept of the ballots duplicated, which must at least include:

(a) The control number of each original ballot and the corresponding duplicate ballot;

(b) The initials of at least two people who participated in the duplication of each ballot; and

(c) The total number of ballots duplicated.

Original and duplicate ballots must be sealed in secure storage at all times, except during duplication, inspection by the canvassing board, or tabulation.

NEW SECTION. Sec. 11. A new section is added to chapter 29A.60 RCW to read as follows:

(1) The county auditor shall prepare, make publicly available at the auditor's office or on the auditor's web site, and submit at the time of certification an election reconciliation report that discloses the following information:

(a) The number of registered voters;

(b) The number of ballots counted;

(c) The number of provisional ballots issued;

(d) The number of provisional ballots counted;

(e) The number of provisional ballots rejected;

(f) The number of absentee ballots issued;

(g) The number of absentee ballots counted;

(h) The number of absentee ballots rejected;

(i) The number of federal write-in ballots counted;

(j) The number of out-of-state, overseas, and service ballots issued;

(k) The number of out-of-state, overseas, and service ballots counted; and

(l) The number of out-of-state, overseas, and service ballots rejected.

(2) The county auditor shall prepare and make publicly available at the auditor's office or on the auditor's web site within thirty days of certification a final election reconciliation report that discloses the following information:

(a) The number of registered voters;

(b) The total number of voters credited with voting;

(c) The number of poll voters credited with voting;

(d) The number of provisional voters credited with voting;

(e) The number of absentee voters credited with voting;

(f) The number of federal write-in voters credited with voting;

(g) The number of out-of-state, overseas, and service voters credited with voting;

(h) The total number of voters credited with voting even though their ballots were postmarked after election day and were not counted; and

(i) Any other information the auditor deems necessary to reconcile the number of ballots counted with the number of voters credited with voting.

(3) The county auditor may also prepare such reports for jurisdictions located, in whole or in part, in the county.

Sec. 12. RCW 29A.60.021 and 2004 c 271 s 147 are each amended to read as follows:

(1) For any office at any election or primary, any voter may write in on the ballot the name of any person for an office who has filed as a write-in candidate for the office in the manner provided by RCW 29A.24.311 and such vote shall be counted the same as if the name had been printed on the ballot and marked by the voter. ~~((For a partisan primary in a jurisdiction using the physically separate ballot format, a voter may write in on a party ballot only the names of write-in candidates who affiliate with that major political party.))~~ No write-in vote made for any person who has not filed a declaration of candidacy pursuant to RCW 29A.24.311 is valid if that person filed for the same office, either as a regular candidate or a write-in candidate, at the preceding primary. Any abbreviation used to designate office~~(s)~~ or position~~(s) or political party shall~~) will be accepted if the canvassing board can determine, to ~~((their))~~ its satisfaction, the voter's intent.

(2) The number of write-in votes cast for each office must be recorded and reported with the canvass for the election.

(3) A write-in vote for an individual candidate for an office whose name appears on the ballot for that same office is a valid vote for that candidate as long as the candidate's name is clearly discernible, even if other requirements of RCW 29A.24.311 are not satisfied and even if the voter also marked a vote for that candidate such as to register an overvote. These votes need not be tabulated unless: (a) The difference between the number of votes cast for the candidate apparently qualified to appear on the general election ballot or elected and the candidate receiving the next highest number of votes is less than the sum of the total number of write-in votes cast for the office plus the overvotes and undervotes recorded by the voter

tabulating system; or (b) a manual recount is conducted for that office.

~~(4) Write-in votes cast for an individual candidate for an office whose name does not appear on the ballot need not be tallied ((ff) unless the total number of write-in votes and undervotes recorded by the vote tabulation system for the office is ((not)) greater than the number of votes cast for the candidate apparently ((nominated)) qualified to appear on the general election ballot or elected (-and the write-in votes could not have altered the outcome of the primary or election. In the case of write-in votes for statewide office or for any office whose jurisdiction encompasses more than one county, write-in votes for an individual candidate must be tallied whenever the county auditor is notified by either the office of the secretary of state or another auditor in a multicounty jurisdiction that it appears that the write-in votes could alter the outcome of the primary or election).~~

~~((4)) (5) In the case of write-in votes for a statewide office((s)) or any office whose jurisdiction((s that)) encompasses more than one county, ((if the total number of write-in votes and undervotes recorded by the vote tabulation system for an office within a county is greater than the number of votes cast for a candidate apparently nominated or elected in a primary or election, the auditor shall tally all write-in votes for individual candidates for that office and notify the office of the secretary of state and the auditors of the other counties within the jurisdiction, that the write-in votes for individual candidates should be tallied)) write-in votes for an individual candidate must be tallied when the county auditor is notified by either the secretary of state or another county auditor in the multicounty jurisdiction that it appears that the write-in votes must be tabulated under the terms of this section. In all other cases, the county auditor determines when write-in votes must be tabulated. Any abstract of votes must be modified to reflect the tabulation and certified by the canvassing board. Tabulation of write-in votes may be performed simultaneously with a recount.~~

Sec. 13. RCW 29A.60.050 and 2003 c 111 s 1505 are each amended to read as follows:

Whenever the precinct election officers or the counting center personnel have a question about the validity of a ballot or the votes for an office or issue that they are unable to resolve, they shall prepare and sign a concise record of the facts in question or dispute. These ballots shall be delivered to the canvassing board for processing. A ballot is not considered rejected until the canvassing board has rejected the ballot individually, or the ballot was included in a batch or on a report of ballots that was rejected in its entirety by the canvassing board. All ballots shall be preserved in the same manner as valid ballots for that primary or election.

Sec. 14. RCW 29A.60.070 and 2003 c 111 s 1507 are each amended to read as follows:

The county auditor shall produce cumulative and precinct returns for each primary and election and deliver them to the canvassing board for verification and certification. The precinct and cumulative returns of any primary or election are public records under chapter 42.17 RCW.

Cumulative returns for state offices, judicial offices, the United States senate, and congress must be electronically transmitted to the secretary of state immediately.

Sec. 15. RCW 29A.60.160 and 2003 c 111 s 1516 are each amended to read as follows:

~~((At least every third day after a primary or election and before certification of the election results.))~~ Except Sundays and legal

holidays, the county auditor, as delegated by the county canvassing board, shall process absentee ballots and canvass the votes cast at that primary or election on a daily basis in counties with a population of seventy-five thousand or more, or at least every third day for counties with a population of less than seventy-five thousand, if the county auditor is in possession of more than twenty-five ballots that have yet to be canvassed. The county auditor, as delegated by the county canvassing board, may use his or her discretion in determining when to process the remaining absentee ballots and canvass the votes during the final four days before the certification of election results in order to protect the secrecy of any ballot. In counties where this process has not been delegated to the county auditor, the county auditor shall convene the county canvassing board to process absentee ballots and canvass the votes cast at the primary or election as set forth in this section.

Each absentee ballot previously not canvassed that was received by the county auditor two days or more before processing absentee ballots and canvassing the votes as delegated by or processed by the county canvassing board, that either was received by the county auditor before the closing of the polls on the day of the primary or election for which it was issued, or that bears a postmark on or before the primary or election for which it was issued, must be processed at that time. The tabulation of votes that results from that day's canvass must be made available to the general public immediately upon completion of the canvass.

Sec. 16. RCW 29A.60.190 and 2004 c 266 s 18 are each amended to read as follows:

~~(1) ((On the tenth day after a special election or primary and on the fifteenth day))~~ Ten days after a primary or special election and twenty-one days after a general election, the county canvassing board shall complete the canvass and certify the results. Each absentee ballot that was returned before the closing of the polls on the date of the primary or election for which it was issued, and each absentee ballot with a postmark on or before the date of the primary or election for which it was issued and received on or before the date on which the primary or election is certified, must be included in the canvass report.

(2) At the request of a caucus of the state legislature, the county auditor shall transmit copies of all unofficial returns of state and legislative primaries or elections prepared by or for the county canvassing board to either the secretary of the senate or the chief clerk of the house of representatives.

Sec. 17. RCW 29A.60.210 and 2003 c 111 s 1521 are each amended to read as follows:

Whenever the canvassing board finds during the initial counting process, or during any subsequent recount thereof, that there is an apparent discrepancy or an inconsistency in the returns of a primary or election, or that election staff has made an error regarding the treatment or disposition of a ballot, the board may recanvass the ballots or voting devices in any precincts of the county. The canvassing board shall conduct any necessary recanvass activity on or before the last day to certify or recertify the results of the primary ~~((or))~~ election, or subsequent recount and correct any error and document the correction of any error that it finds.

Sec. 18. RCW 29A.60.250 and 2003 c 111 s 1525 are each amended to read as follows:

As soon as the returns have been received from all the counties of the state, but not later than the thirtieth day after the election, the secretary of state shall ~~((make a))~~ canvass ~~((of such of the returns as~~

~~are not required to be canvassed by the legislature and make out a statement thereof, file it in his or her office, and transmit a certified copy to the governor)) and certify the returns of the general election as to candidates for state offices, the United States senate, congress, and all other candidates whose districts extend beyond the limits of a single county. The secretary of state shall transmit a copy of the certification to the governor, president of the senate, and speaker of the house of representatives.~~

Sec. 19. RCW 29A.64.021 and 2004 c 271 s 178 are each amended to read as follows:

(1) If the official canvass of all of the returns for any office at any primary or election reveals that the difference in the number of votes cast for a candidate apparently nominated or elected to any office and the number of votes cast for the closest apparently defeated opponent is less than two thousand votes and also less than one-half of one percent of the total number of votes cast for both candidates, the county canvassing board shall conduct a recount of all votes cast on that position.

(a) Whenever such a difference occurs in the number of votes cast for candidates for a position the declaration of candidacy for which was filed with the secretary of state, the secretary of state shall, within three business days of the day that the returns of the primary or election are first certified by the canvassing boards of those counties, direct those boards to recount all votes cast on the position.

(b)(i) For statewide elections, if the difference in the number of votes cast for the apparent winner and the closest apparently defeated opponent is less than one (hundred fifty) thousand votes and also less than one-fourth of one percent of the total number of votes cast for both candidates, the votes shall be recounted manually or as provided in subsection (3) of this section.

(ii) For elections not included in (b)(i) of this subsection, if the difference in the number of votes cast for the apparent winner and the closest apparently defeated opponent is less than one hundred fifty votes and also less than one-fourth of one percent of the total number of votes cast for both candidates, the votes shall be recounted manually or as provided in subsection (3) of this section.

(2) A mandatory recount shall be conducted in the manner provided by RCW 29A.64.030, 29A.64.041, and 29A.64.061. No cost of a mandatory recount may be charged to any candidate.

(3) The apparent winner and closest apparently defeated opponent for an office for which a manual recount is required under subsection (1)(b) of this section may select an alternative method of conducting the recount. To select such an alternative, the two candidates shall agree to the alternative in a signed, written statement filed with the election official for the office. The recount shall be conducted using the alternative method if: It is suited to the balloting system that was used for casting the votes for the office; it involves the use of a vote tallying system that is approved for use in this state by the secretary of state; and the vote tallying system is readily available in each county required to conduct the recount. If more than one balloting system was used in casting votes for the office, an alternative to a manual recount may be selected for each system.

Sec. 20. RCW 29A.64.030 and 2003 c 111 s 1603 are each amended to read as follows:

An application for a recount shall state the office for which a recount is requested and whether the request is for all or only a portion of the votes cast in that jurisdiction of that office. The person filing an application for a manual recount shall, at the same time, deposit with the county canvassing board or secretary of state, in cash or by certified check, a sum equal to twenty-five cents for each ballot

cast in the jurisdiction or portion of the jurisdiction for which the recount is requested as security for the payment of any costs of conducting the recount. If the application is for a machine recount, the deposit must be equal to fifteen cents for each ballot. These charges shall be determined by the county canvassing board or boards under RCW (~~29A.64.080~~) 29A.64.081.

The county canvassing board shall determine ~~((a))~~ the date, time, and ~~((a))~~ place or places at which the recount will be conducted. ~~((This time shall be less than three business days after the day upon which: The application was filed with the board; the request for a recount or directive ordering a recount was received by the board from the secretary of state; or the returns are certified which indicate that a recount is required under RCW 29A.64.020 for an issue or office voted upon only within the county;))~~ Not less than two days before the date of the recount, the county auditor shall mail a notice of the time and place of the recount to the applicant or affected parties and, if the recount involves an office, to any person for whom votes were cast for that office. The county auditor shall also notify the affected parties by either telephone, fax, e-mail, or other electronic means at the time of mailing. At least three attempts must be made over a two-day period to notify the affected parties or until the affected parties have received the notification. Each attempt to notify affected parties must request a return response indicating that the notice has been received. Each person entitled to receive notice of the recount may attend, witness the recount, and be accompanied by counsel.

Proceedings of the canvassing board are public under chapter 42.30 RCW. Subject to reasonable and equitable guidelines adopted by the canvassing board, all interested persons may attend and witness a recount.

Sec. 21. RCW 29A.64.061 and 2004 c 271 s 180 are each amended to read as follows:

Upon completion of the canvass of a recount, the canvassing board shall prepare and certify an amended abstract showing the votes cast in each precinct for which the recount was conducted. Copies of the amended abstracts must be transmitted to the same officers who received the abstract on which the recount was based.

If the nomination, election, or issue for which the recount was conducted was submitted only to the voters of a county, the canvassing board shall file the amended abstract with the original results of that election or primary.

If the nomination, election, or issue for which a recount was conducted was submitted to the voters of more than one county, the secretary of state shall canvass the amended abstracts and shall file an amended abstract with the original results of that election. The secretary of state may require that the amended abstracts be certified by each canvassing board on a uniform date. An amended abstract certified under this section supersedes any prior abstract of the results for the same offices or issues at the same primary or election.

Sec. 22. RCW 29A.68.011 and 2004 c 271 s 182 are each amended to read as follows:

Any justice of the supreme court, judge of the court of appeals, or judge of the superior court in the proper county shall, by order, require any person charged with error, wrongful act, or neglect to forthwith correct the error, desist from the wrongful act, or perform the duty and to do as the court orders or to show cause forthwith why the error should not be corrected, the wrongful act desisted from, or the duty or order not performed, whenever it is made to appear to such justice or judge by affidavit of an elector that:

(1) An error or omission has occurred or is about to occur in printing the name of any candidate on official ballots; or

(2) An error other than as provided in subsections (1) and (3) of this section has been committed or is about to be committed in printing the ballots; or

(3) The name of any person has been or is about to be wrongfully placed upon the ballots; or

(4) A wrongful act other than as provided for in subsections (1) and (3) of this section has been performed or is about to be performed by any election officer; or

(5) Any neglect of duty on the part of an election officer other than as provided for in subsections (1) and (3) of this section has occurred or is about to occur; or

(6) An error or omission has occurred or is about to occur in the issuance of a certificate of election.

An affidavit of an elector under subsections (1) and (3) ~~((above))~~ of this section when relating to a primary election must be filed with the appropriate court no later than the second Friday following the closing of the filing period for nominations for such office and shall be heard and finally disposed of by the court not later than five days after the filing thereof. An affidavit of an elector under subsections (1) and (3) of this section when relating to a general election must be filed with the appropriate court no later than three days following the official certification of the primary election returns and shall be heard and finally disposed of by the court not later than five days after the filing thereof. An affidavit of an elector under subsection (6) of this section shall be filed with the appropriate court no later than ten days following the ~~((issuance of a certificate of election))~~ official certification of the election as provided in RCW 29A.60.190, 29A.60.240, or 29A.60.250 or, in the case of a recount, ten days after the official certification of the amended abstract as provided in RCW 29A.64.061.

NEW SECTION. Sec. 23. A new section is added to chapter 29A.84 RCW to read as follows:

A person who knowingly destroys, alters, defaces, conceals, or discards a completed voter registration form or signed absentee or provisional ballot signature affidavit is guilty of a gross misdemeanor. This section does not apply to (1) the voter who completed the voter registration form, or (2) a county auditor or registration assistant who acts as authorized by voter registration law.

Sec. 24. RCW 29A.84.650 and 2003 c 111 s 2131 are each amended to read as follows:

(1) Any person who intentionally votes or attempts to vote in this state more than once at any ~~((primary or general or special))~~ election, or who intentionally votes or attempts to vote in both this state and another state at any election, is guilty of a ~~((gross misdemeanor, punishable to the same extent as a gross misdemeanor that is punishable under RCW 9A.20.021))~~ class C felony.

(2) Any person who recklessly or negligently violates this section commits a class I civil infraction as provided in RCW 7.80.120.

NEW SECTION. Sec. 25. The secretary of state shall study the feasibility of requiring that the names of the top two vote-getters in primary elections of justices of the state supreme court, judges of the courts of appeals, superior courts, and district courts, and the superintendent of public instruction shall appear on the general election ballot. The study shall include a survey of how many times a judicial candidate and a candidate for superintendent of public instruction have appeared without opposition on the general election

ballot from 1985 to present; the number of voters voting for these races in the primary election as opposed to voting for the same races in the general election; and if the differences in the numbers of voters voting at the primary and voting at the general election may have resulted in a different election result. The study shall also include a financial analysis of the proposed changes. The secretary of state shall report the results of the study to the appropriate committees of the legislature no later than January 31, 2006."

"NEW SECTION. Sec. 1. A new section is added to chapter 10.64 RCW to read as follows:

When a person is convicted of a felony, the court shall require the defendant to sign a statement acknowledging that:

- (1) The defendant's right to vote has been lost due to the felony conviction;
- (2) If the defendant is registered to vote, the voter registration will be canceled;

Sec. 2. RCW 29A.08.010 and 2004 c 267 s 102 are each amended to read as follows:

As used in this chapter: "Information required for voter registration" means the minimum information provided on a voter registration application that is required by the county auditor in order to place a voter registration applicant on the voter registration rolls. This information includes ~~((the applicant's))~~:

- (1) Name~~((complete residence))~~;
- (2) Residential address~~((;))~~;
- (3) Date of birth~~((;))~~;

If the individual does not have a driver's license, state identification card, or Social Security number, the registrant must be issued a unique voter registration number ~~((and))~~ in order to be placed on the voter registration rolls. All other information supplied is ancillary and not to be used as grounds for not registering an applicant to vote. Modification of the language of the official Washington state voter registration form by the voter will not be accepted and will cause the rejection of the registrant's application.

Sec. 3. RCW 29A.08.030 and 2004 c 267 s 104 are each amended to read as follows:

The definitions set forth in this section apply throughout this chapter, unless the context clearly requires otherwise.

(1) "Verification notice" means a notice sent by the county auditor or secretary of state to a voter registration applicant and is used to verify or collect information about the applicant in order to complete the registration. The verification notice must be designed to include a postage prepaid, preaddressed return form by which the applicant may verify or send information.

(2) "Acknowledgement notice" means a notice sent by nonforwardable mail by the county auditor or secretary of state to a registered voter to acknowledge a voter registration transaction, which can include initial registration, transfer, or reactivation of an inactive registration. An acknowledgement notice may be a voter registration card.

(3) "Confirmation notice" means a notice sent to a registered voter by first class forwardable mail at the address indicated on the voter's permanent registration record and to any other address at which the county auditor or secretary of state could reasonably expect mail to be received by the voter in order to confirm the voter's residence address. The confirmation notice must be designed ~~((so that the voter may update his or her current residence address))~~ to include a postage prepaid, preaddressed return form by which the registrant may verify the address information.

Sec. 4. RCW 29A.08.107 and 2004 c 267 s 106 are each amended to read as follows:

(1) The secretary of state must review the information provided by each voter registration applicant to ensure that ~~((either))~~ the provided driver's license number, state identification card number, or ~~((the))~~ last four digits of the Social Security number match the information maintained by the Washington department of licensing or the Social Security administration. If a match cannot be made, the secretary of state or county auditor must correspond with the applicant to resolve the discrepancy.

(2) If the applicant fails to respond to any correspondence required in this section to confirm information provided on a voter registration application~~((;))~~ within ~~((thirty))~~ forty-five days, the applicant will not be registered to vote. The secretary of state shall forward the application to the appropriate county auditor for document storage.

(3) Only after the secretary of state has confirmed that ~~((an applicant's))~~ the provided driver's license number, state identification card number, or ~~((the))~~ last four digits of the applicant's Social Security number match existing records with the Washington department of licensing or the Social Security administration, or determined that the applicant does not have ~~((either))~~ a driver's license number, state identification card number, or Social Security number may the applicant be placed on the official list of registered voters.

(4) In order to prevent duplicate registration records, all complete voter registration applications must be screened against existing voter registration records in the official statewide voter registration list. If a match of an existing record is found in the official list, the record must be updated with the new information provided on the application. If the new information indicates that the voter has changed his or her county of residence, the application must be forwarded to the voter's new county of residence for processing.

Sec. 5. RCW 29A.08.110 and 2004 c 267 s 107 are each amended to read as follows:

~~(1) ((On receipt of an application for voter registration, the county auditor shall review the application to determine whether the information supplied is complete.))~~ An application is considered complete only if it contains the applicant's name, complete valid residence address, date of birth, ~~((and))~~ signature attesting to the truth of the information provided, a mark in the check-off box confirming United States citizenship, and an indication ~~((the license information))~~ that the provided driver's license number, state identification card number, or Social Security number has been confirmed by the secretary of state. If it is not complete, the auditor shall promptly mail a verification notice of the deficiency to the applicant. This verification notice shall require the applicant to provide the missing information. If the verification notice is not returned by the applicant within forty-five days or is returned as undeliverable ~~((the auditor shall not place)),~~ the name of the applicant shall not be placed on the ((county voter)) official list of registered voters. If the applicant provides the required verified information, the applicant shall be registered to vote as of the original date of mailing ~~((of the original voter registration application))~~ or date of delivery, whichever is applicable.

~~(2) ((In order to prevent duplicate registration records, all complete voter registration applications must be screened against existing voter registration records in the official statewide voter registration list. If a match of an existing record is found in the official list the record must be updated with the new information provided on the application. If the new information indicates that the voter has changed his or her county of residence, the application must be forwarded to the voter's new county of residence for processing. If the new information indicates that the voter remains in the same county of residence or if the applicant is a new voter the application must be processed by the county of residence.~~

~~—((3))~~ If the information required in subsection (1) of this section is complete, the applicant is considered to be registered to vote as of the original date of mailing or date of delivery, whichever is applicable. The auditor shall record the appropriate precinct identification, taxing district identification, and date of registration on the voter's record in the state voter registration list. Within forty-five days after the receipt of an application but no later than seven days before the next primary, special election, or general election, the auditor shall send to the applicant, by first class mail, an acknowledgement notice identifying the registrant's precinct and containing such other information as may be required by the secretary of state. The postal service shall be instructed not to forward a voter registration card to any other address and to return to the auditor any card which is not deliverable. ~~((If the registrant has indicated on the form that he or she is registered to vote within the county but has provided a new address within the county that is for voter registration purposes, the auditor shall transfer the voter's registration.~~

~~—((4))~~ (3) If an acknowledgement notice card is properly mailed as required by this section to the address listed by the voter as being the voter's mailing address and the notice is subsequently returned to

the auditor by the postal service as being undeliverable to the voter at that address, the auditor shall promptly send the voter a confirmation notice. The auditor shall place the voter's registration on inactive status pending a response from the voter to the confirmation notice.

NEW SECTION. Sec. 6. A new section is added to chapter 29A.08 RCW to read as follows:

No person registering to vote, who meets all the qualifications of a registered voter in the state of Washington, shall be disqualified because of a nontraditional address being used as a residence address. Voters using such an address will be registered and assigned to a precinct based on the location provided. Voters without a traditional address will be registered at the county courthouse, city hall, or other public building near the area that the voter considers his or her residence. Registering at a nontraditional address will not disqualify a voter from requesting ongoing absentee voter status if the voter designates a valid mailing address.

For the purposes of this section, "nontraditional address" includes shelters, parks, or other identifiable locations that the voter deems to be his or her residence.

NEW SECTION. Sec. 7. A new section is added to chapter 29A.08 RCW to read as follows:

(1) If a voter who registered by mail indicates on the voter registration form that he or she does not have a Washington state driver's license, Washington state identification card, or Social Security number, he or she must provide one of the following forms of identification the first time he or she votes after registering:

- (a) Valid photo identification;
- (b) A valid enrollment card of a federally recognized Indian tribe in Washington state;
- (c) A copy of a current utility bill;
- (d) A current bank statement;
- (e) A copy of a current government check;
- (f) A copy of a current paycheck; or
- (g) A government document that shows both the name and address of the voter.

(2) If the voter fails to provide one of the above forms of identification prior to or at the time of voting, the ballot must be treated as a provisional ballot regardless of whether the voter is voting at a poll site or by mail. The ballot may only be counted if the voter's signature on the outside envelope matches the signature in the voter registration records.

(3) The requirements of this section do not apply to an out-of-state, overseas, or service voter who registers to vote by signing the return envelope of the absentee ballot.

Sec. 8. RCW 29A.08.115 and 2004 c 267 s 108 are each amended to read as follows:

A person or organization collecting voter registration application forms must transmit the forms to the secretary of state or a ~~((designee))~~ county auditor at least once weekly. The registration date on such forms will be the date they are received by the secretary of state or county auditor.

Sec. 9. RCW 29A.08.125 and 2004 c 267 s 110 are each amended to read as follows:

(1) Each county auditor shall maintain a computer file containing a copy of each record of all registered voters within the county contained on the official statewide voter registration list for that county.

(2) The secretary of state shall at least quarterly review and update the records of all registered voters on the official statewide voter registration data base to make additions and corrections.

(3) The computer file must include, but not be limited to, each voter's last name, first name, middle initial, date of birth, residence address, gender, date of registration, applicable taxing district and precinct codes, and the last date on which the individual voted.

(4) The county auditor shall subsequently record each consecutive date upon which the individual has voted and retain all such consecutive dates.

Sec. 10. RCW 29A.08.145 and 2004 c 267 s 113 are each amended to read as follows:

This section establishes a special procedure which an elector may use to register to vote or transfer a voter registration by changing his or her address during the period beginning after the closing of registration for voting at the polls under RCW 29A.08.140 and ending on the fifteenth day before a primary, special election, or general election. A qualified elector in the state may register to vote or change his or her registration address in person in the office of the county auditor of the county in which the applicant resides, or at a voter registration location specifically designated for this purpose by the county auditor ((of the county in which the applicant resides)) or secretary of state, and apply for an absentee ballot for that primary or election. The auditor or registration assistant shall register that individual in the manner provided in this chapter. The application for an absentee ballot executed by the newly registered or transferred voter for the primary or election that follows the execution of the registration shall be promptly transmitted to the auditor with the completed voter registration form.

Sec. 11. RCW 29A.08.210 and 2003 c 111 s 216 are each amended to read as follows:

An applicant for voter registration shall complete an application providing the following information concerning his or her qualifications as a voter in this state:

(1) The address of the last former registration of the applicant as a voter in the state;

(2) The applicant's full name;

(3) The applicant's date of birth;

(4) The address of the applicant's residence for voting purposes;

(5) The mailing address of the applicant if that address is not the same as the address in subsection (4) of this section;

(6) The sex of the applicant;

(7) The applicant's Washington state driver's license number or Washington state identification card number, or the last four digits of the applicant's Social Security number if he or she does not have a Washington state driver's license or Washington state identification card;

(8) A check box for the applicant to indicate that he or she does not have a Washington state driver's license, Washington state identification card, or Social Security number;

(9) A check box allowing the applicant to indicate that he or she is a member of the armed forces, national guard, or reserves, or that he or she is an overseas voter;

(10) A check box allowing the applicant to confirm that he or she is at least eighteen years of age;

(11) Clear and conspicuous language, designed to draw the applicant's attention, stating that the applicant must be a United States citizen in order to register to vote;

(12) A check box and declaration confirming that the applicant is a citizen of the United States;

~~((8))~~ (13) The following warning:

"If you knowingly provide false information on this voter registration form or knowingly make a false declaration about your qualifications for voter registration you will have committed a class C felony that is punishable by imprisonment for up to five years, a fine of up to ten thousand dollars, or both."

(14) The following affirmation by the applicant:

"By signing this document, I hereby assert, under penalty of perjury, that I am legally eligible to vote. If I am found to have voted illegally, I may be prosecuted and/or fined for this illegal act. In addition, I hereby acknowledge that my name and last known address will be forwarded to the appropriate state and/or federal authorities if I am found to have voted illegally."

(15) The oath required by RCW 29A.08.230 and a space for the applicant's signature; and

~~((9))~~ (16) Any other information that the secretary of state determines is necessary to establish the identity of the applicant and prevent duplicate or fraudulent voter registrations.

This information shall be recorded on a single registration form to be prescribed by the secretary of state.

If the applicant fails to provide the information required for voter registration, the auditor shall send the applicant a verification notice. The ~~((auditor shall not register the))~~ applicant may not be registered until the required information is provided. If a verification notice is returned as undeliverable or the applicant fails to respond to the notice within forty-five days, the ~~((auditor shall not register the))~~ applicant shall not be registered to vote.

~~((The following warning shall appear in a conspicuous place on the voter registration form:~~

~~"If you knowingly provide false information on this voter registration form or knowingly make a false declaration about your qualifications for voter registration you will have committed a class C felony that is punishable by imprisonment for up to five years, or by a fine of up to ten thousand dollars, or both imprisonment and fine.")~~

NEW SECTION. Sec. 12. A new section is added to chapter 29A.08 RCW to read as follows:

(1) When a felony offender has completed all the requirements of his or her sentence, the county clerk shall immediately transmit this information to the secretary of state along with information about the county where the conviction occurred and the county that is the last known residence of the offender. The secretary of state shall maintain such records as part of the elections data base.

(2) If the offender has completed all the requirements of all of his or her sentences for all of his or her felony convictions, the secretary of state shall transmit information about the restoration of the former felon's voting rights to the county auditor where the conviction took place and, if different, the county where the felon was last known to reside.

Sec. 13. RCW 29A.08.250 and 2004 c 267 s 117 are each amended to read as follows:

The secretary of state shall furnish registration forms necessary to carry out the registration of voters as provided by this chapter without cost to the respective counties. ~~((All voter registration forms must include clear and conspicuous language, designed to draw an applicant's attention, stating that the applicant must be a United States citizen in order to register to vote. Voter registration application forms must also contain a space for the applicant to provide his or her driver's license number or the last four digits of his~~

or her social security number as well as check boxes intended to allow the voter to indicate age and United States citizenship eligibility under the Help America Vote Act of 2002 (P.L. 107-252);))

Sec. 14. RCW 29A.08.330 and 2003 c 111 s 224 are each amended to read as follows:

(1) The secretary of state shall prescribe the method of voter registration for each designated agency. The agency shall use either the state voter registration by mail form with a separate declination form for the applicant to indicate that he or she declines to register at this time, or the agency may use a separate form approved for use by the secretary of state.

(2) The person providing service at the agency shall offer voter registration services to every client whenever he or she applies for service or assistance and with each renewal, recertification, or change of address. The person providing service shall give the applicant the same level of assistance with the voter registration application as is offered to fill out the agency's forms and documents, including information about age and citizenship requirements for voter registration.

(3) The person providing service at the agency shall determine if the prospective applicant wants to register to vote or transfer his or her voter registration by asking the following question:

"Do you want to register to vote or transfer your voter registration?"

If the applicant chooses to register or transfer a registration, the service agent shall ask the following:

(a) "Are you a United States citizen?"

(b) "Are you or will you be eighteen years of age on or before the next election?"

If the applicant answers in the affirmative to both questions, the agent shall then provide the applicant with a voter registration form and instructions and shall record that the applicant has requested to register to vote or transfer a voter registration. If the applicant answers in the negative to either question, the agent shall not provide the applicant with a voter registration form.

(4) If an agency uses a computerized application process, it may, in consultation with the secretary of state, develop methods to capture simultaneously the information required for voter registration during a person's computerized application process.

~~((+))~~ (5) Each designated agency shall provide for the voter registration application forms to be collected from each agency office at least once each week. The agency shall then forward the application forms to the secretary of state each week. The secretary of state shall forward the forms to the county in which the applicant has registered to vote no later than ten days after the date on which the forms were received by the secretary of state.

Sec. 15. RCW 29A.08.520 and 2004 c 267 s 126 are each amended to read as follows:

(1) Upon receiving official notice of a person's conviction of a felony in either state or federal court, if the convicted person is a registered voter in the county, the county auditor shall cancel the defendant's voter registration. Additionally, the secretary of state in conjunction with the department of corrections, the Washington state patrol, the office of the administrator for the courts, and other appropriate state agencies shall arrange for a ~~((periodic))~~ quarterly

comparison of a list of known felons with the statewide voter registration list. If a person is found on ~~((the department of corrections))~~ a felon list and the statewide voter registration list, the secretary of state or county auditor shall confirm the match through a date of birth comparison and ~~((cancel))~~ suspend the voter registration from the official state voter registration list. The canceling authority shall send ~~((notice of the proposed cancellation))~~ notice of the proposed cancellation and an explanation of the requirements for restoring the right to vote once all terms of sentencing have been completed. If the person does not respond within thirty days, the registration must be canceled.

(2) The right to vote may be restored by, for each felony conviction, one of the following:

(a) A certificate of discharge issued by the sentencing court, as provided in RCW 9.94A.637;

(b) A court order restoring the right, as provided in RCW 9.92.066;

(c) A final order of discharge issued by the indeterminate sentence review board, as provided in RCW 9.96.050; or

(d) A certificate of restoration issued by the governor, as provided in RCW 9.96.020.

Sec. 16. RCW 29A.08.651 and 2004 c 267 s 101 are each amended to read as follows:

(1) The office of the secretary of state shall create and maintain a statewide voter registration data base. This data base must be a single, uniform, official, centralized, interactive computerized statewide voter registration list defined, maintained, and administered at the state level that contains the name and registration information of every legally registered voter in the state and assigns a unique identifier to each legally registered voter in the state.

(2) The computerized list must serve as the single system for storing and maintaining the official list of registered voters throughout the state.

(3) The computerized list must contain the name and registration information of every legally registered voter in the state.

(4) Under the computerized list, a unique identifier is assigned to each legally registered voter in the state.

(5) The computerized list must be coordinated with other agency data bases within the state, including but not limited to the department of corrections, the department of licensing, ~~((and))~~ the department of health, the Washington state patrol, and the office of the administrator for the courts. The computerized list may also be coordinated with the data bases of election officials in other states.

(6) Any election officer in the state, including any local election officer, may obtain immediate electronic access to the information contained in the computerized list.

(7) All voter registration information obtained by any local election officer in the state must be electronically entered into the computerized list on an expedited basis at the time the information is provided to the local officer.

(8) The chief state election officer shall provide support, as may be required, so that local election officers are able to enter information as described in subsection (3) of this section.

(9) The computerized list serves as the official voter registration list for the conduct of all elections.

(10) The secretary of state has data authority on all voter registration data.

(11) The voter registration data base must be designed to accomplish at a minimum, the following:

(a) Comply with the Help America Vote Act of 2002 (P.L. 107-252);

(b) Identify duplicate voter registrations;

(c) Identify suspected duplicate voters;

(d) Screen against the department of corrections, the Washington state patrol, and other appropriate state agency data bases to aid in the cancellation of voter registration of felons, of persons who have declined to serve on juries by virtue of not being citizens of the United States, and of persons determined to be legally incompetent to vote;

(e) Provide up-to-date signatures of voters for the purposes of initiative signature checking;

(f) Provide for a comparison between the voter registration data base and the department of licensing change of address data base;

(g) Provide online access for county auditors with the goal of real time duplicate checking and update capabilities; and

(h) Provide for the cancellation of voter registration for persons who have moved to other states and surrendered their Washington state drivers' licenses.

(12) In order to maintain the statewide voter registration data base, the secretary of state may, upon agreement with other appropriate jurisdictions, screen against data bases maintained by election officials in other states and data bases maintained by federal agencies including, but not limited to, the federal bureau of investigation, the federal court system, the federal bureau of prisons, and the bureau of citizenship and immigration services.

(13) The secretary of state shall retain information regarding previous successful appeals of proposed cancellations of registrations in order to avoid repeated cancellations for the same reason.

(14) The secretary of state must review and update the records of all registered voters on the computerized list on a quarterly basis to make additions and corrections.

Sec. 17. RCW 29A.08.710 and 2004 c 267 s 133 are each amended to read as follows:

(1) The county auditor shall have custody of the original voter registration records for each county. The original voter registration form must be filed without regard to precinct and is considered confidential and unavailable for public inspection and copying. An automated file of all registered voters must be maintained pursuant to RCW 29A.08.125. An auditor may maintain the automated file in lieu of filing or maintaining the original voter registration forms if the automated file includes all of the information from the original voter registration forms including, but not limited to, a retrievable facsimile of each voter's signature.

(2) The following information contained in voter registration records or files regarding a voter or a group of voters is available for public inspection and copying, except as provided in RCW 40.24.060: The voter's name, address, political jurisdiction, gender, date of birth, voting record, date of registration, and registration number. ((The address and political jurisdiction of a registered voter are available for public inspection and copying except as provided by chapter 40.24 RCW-)) No other information from voter registration records or files is available for public inspection or copying.

Sec. 18. RCW 29A.08.720 and 2004 c 266 s 9 are each amended to read as follows:

(1) In the case of voter registration records received through the department of licensing, the identity of the office at which any particular individual registered to vote is not available for public inspection and shall not be disclosed to the public. In the case of voter registration records received through an agency designated

under RCW 29A.08.310, the identity of the agency at which any particular individual registered to vote is not available for public inspection and shall not be disclosed to the public. Any record of a particular individual's choice not to register to vote at an office of the department of licensing or a state agency designated under RCW 29A.08.310 is not available for public inspection and any information regarding such a choice by a particular individual shall not be disclosed to the public.

(2) ~~((AH))~~ Subject to the restrictions of RCW 29A.08.710, poll books ((or)), precinct lists, and current lists of registered voters ((except original voter registration forms or their images, shall be)) are public records and must be made available for public inspection and copying under such reasonable rules and regulations as the county auditor or secretary of state may prescribe. The county auditor or secretary of state shall promptly furnish current lists ((or mailing labels)) of registered voters in his or her possession, at actual reproduction cost, to any person requesting such information. The lists ((and labels)) shall not be used for the purpose of mailing or delivering any advertisement or offer for any property, establishment, organization, product, or service or for the purpose of mailing or delivering any solicitation for money, services, or anything of value. However, the lists and labels may be used for any political purpose. The county auditor or secretary of state must provide a copy of RCW 29A.08.740 to the person requesting the material that is released under this section.

Sec. 19. RCW 29A.08.740 and 2003 c 111 s 249 and 2003 c 53 s 176 are each reenacted and amended to read as follows:

(1) Any person who uses registered voter data furnished under RCW 29A.08.720 ~~((or 29A.08.730))~~ for the purpose of mailing or delivering any advertisement or offer for any property, establishment, organization, product, or service or for the purpose of mailing or delivering any solicitation for money, services, or anything of value is guilty of a class C felony punishable by imprisonment in a state correctional facility for a period of not more than five years or a fine of not more than ten thousand dollars or both such fine and imprisonment, and is liable to each person provided such advertisement or solicitation, without the person's consent, for the nuisance value of such person having to dispose of it, which value is herein established at five dollars for each item mailed or delivered to the person's residence. However, a person who mails or delivers any advertisement, offer, or solicitation for a political purpose is not liable under this section unless the person is liable under subsection (2) of this section. For purposes of this subsection, two or more attached papers or sheets or two or more papers that are enclosed in the same envelope or container or are folded together are one item. Merely having a mailbox or other receptacle for mail on or near the person's residence is not an indication that the person consented to receive the advertisement or solicitation. A class action may be brought to recover damages under this section, and the court may award a reasonable attorney's fee to any party recovering damages under this section.

(2) Each person furnished data under RCW 29A.08.720 ~~((or 29A.08.730))~~ shall take reasonable precautions designed to assure that the data is not used for the purpose of mailing or delivering any advertisement or offer for any property, establishment, organization, product, or service or for the purpose of mailing or delivering any solicitation for money, services, or anything of value. However, the data may be used for any political purpose. Where failure to exercise due care in carrying out this responsibility results in the data being used for such purposes, then such person is jointly and severally liable for damages under subsection (1) of this section along with any

other person liable under subsection (1) of this section for the misuse of such data.

Sec. 20. RCW 29A.08.775 and 2004 c 267 s 136 are each amended to read as follows:

Only voters who appear on the official statewide voter registration list are eligible to participate in elections. Each county shall maintain a copy of that county's portion of the state list. The county must ensure that data used for the production of poll lists and other lists and mailings done in the administration of each election are ~~((drawn from))~~ the same as the official statewide voter registration list.

Sec. 21. RCW 29A.40.091 and 2004 c 271 s 135 are each amended to read as follows:

The county auditor shall send each absentee voter a ballot, a security envelope in which to seal the ballot after voting, a larger envelope in which to return the security envelope, and instructions on how to mark the ballot and how to return it to the county auditor. The instructions that accompany an absentee ballot for a partisan primary must include instructions for voting the applicable ballot style, as provided in chapter 29A.36 RCW. The absentee voter's name and address must be printed on the larger return envelope, which must also contain a declaration by the absentee voter reciting his or her qualifications and stating that he or she has not voted in any other jurisdiction at this election, together with a summary of the penalties for any violation of any of the provisions of this chapter. The declaration must clearly inform the voter that it is illegal to vote if he or she is not a United States citizen; it is illegal to vote if he or she has been convicted of a felony and has not had his or her voting rights restored; and, except as otherwise provided by law, it is illegal to cast a ballot or sign an absentee envelope on behalf of another voter. The return envelope must provide space for the voter to indicate the date on which the ballot was voted and for the voter to sign the oath. It must also contain a space so that the voter may include a telephone number. A summary of the applicable penalty provisions of this chapter must be printed on the return envelope immediately adjacent to the space for the voter's signature. The signature of the voter on the return envelope must affirm and attest to the statements regarding the qualifications of that voter and to the validity of the ballot. The return envelope must also have a secrecy flap that the voter may seal that will cover the voter's signature and optional telephone number. For out-of-state voters, overseas voters, and service voters, the signed declaration on the return envelope constitutes the equivalent of a voter registration for the election or primary for which the ballot has been issued. The voter must be instructed to either return the ballot to the county auditor by whom it was issued or attach sufficient first class postage, if applicable, and mail the ballot to the appropriate county auditor no later than the day of the election or primary for which the ballot was issued.

If the county auditor chooses to forward absentee ballots, he or she must include with the ballot a clear explanation of the qualifications necessary to vote in that election and must also advise a voter with questions about his or her eligibility to contact the county auditor. This explanation may be provided on the ballot envelope, on an enclosed insert, or printed directly on the ballot itself. If the information is not included, the envelope must clearly indicate that the ballot is not to be forwarded and that return postage is guaranteed.

Sec. 22. RCW 29A.84.140 and 2003 c 111 s 2108 are each amended to read as follows:

A person who knows that he or she does not possess the legal qualifications of a voter and who registers to vote is guilty of a ~~((misdemeanor punishable under RCW 9A.20.021))~~ class C felony.

Sec. 23. RCW 46.20.118 and 1990 c 250 s 37 are each amended to read as follows:

The department shall maintain a negative file. It shall contain negatives of all pictures taken by the department of licensing as authorized by RCW 46.20.070 through 46.20.119. Negatives in the file shall not be available for public inspection and copying under chapter 42.17 RCW. The department may make the file available to official governmental enforcement agencies to assist in the investigation by the agencies of suspected criminal activity. The department shall make the file available to the office of the secretary of state, at the expense of the secretary of state, to assist in maintenance of the statewide voter registration data base. The department may also provide a print to the driver's next of kin in the event the driver is deceased.

Sec. 24. RCW 46.20.155 and 2004 c 249 s 7 are each amended to read as follows:

(1) Before issuing an original license or identicard or renewing a license or identicard under this chapter, the licensing agent shall determine if the applicant wants to register to vote or transfer his or her voter registration by asking the following question:

"Do you want to register to vote or transfer your voter registration?"

REPORT OF CONFERENCE COMMITTEE

April 21, 2005

Mr. Speaker:

We of your Conference Committee, to whom was referred ENGROSSED SUBSTITUTE HOUSE BILL NO. 1903, providing funds to stimulate community and economic development, have had the same under consideration and we recommend that:

All previous amendments not be adopted and that the attached striking amendment (H-3158.7/05) be adopted

and that the bill do pass as recommended by the Conference Committee.

Senator Brown Representative Linville
Senator Fraser Representative Ericks
Senator Pflug

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature has and continues to recognize the vital importance of economic development to the health and prosperity of Washington state as indicated in RCW 43.160.010, 43.155.070(4)(g), 43.163.005, and 43.168.010. The legislature finds that current economic development programs and funding, which are primarily low-interest loan programs, can be enhanced by creating a grant program to assist with public infrastructure projects that directly stimulate community and economic development by supporting the creation of new jobs or the retention of existing jobs.

NEW SECTION. Sec. 2. A new section is added to chapter 43.160 RCW to read as follows:

(1) The job development fund program is created to provide grants for public infrastructure projects that will stimulate job creation or assist in job retention. The program is to be administered by the board. The board shall establish a competitive process to request and prioritize proposals and make grant awards.

(2) For the purposes of this act, "public infrastructure projects" has the same meaning as "public facilities" as defined in RCW 43.160.020(11).

(3) The board shall conduct a statewide request for project applications. The board shall apply the following criteria for evaluation and ranking of applications:

(a) The relative benefits provided to the community by the jobs the project would create, including, but not limited to: (i) The total number of jobs; (ii) the total number of full-time, family wage jobs; (iii) the unemployment rate in the area; and (iv) the increase in employment in comparison to total community population;

(b) The present level of economic activity in the community and the existing local financial capacity to increase economic activity in the community;

(c) The rate of return of the state's investment, that includes the expected increase in state and local tax revenues associated with the project;

(d) The lack of another timely source of funding available to finance the project which would likely prevent the proposed community or economic development, absent the financing available under this act;

(e) The ability of the project to improve the viability of existing business entities in the project area;

(f) Whether or not the project is a partnership of multiple jurisdictions;

(g) Demonstration that the requested assistance will directly stimulate community and economic development by facilitating the creation of new jobs or the retention of existing jobs; and

(h) The availability of existing assets that applicants may apply to projects.

(4) Job development fund program grants may only be awarded to those applicants that have entered into or expect to enter into a contract with a private developer relating to private investment that will result in the creation or retention of jobs upon completion of the project. Job development fund program grants shall not be provided for any project where:

(a) The funds will not be used within the jurisdiction or jurisdictions of the applicants; or

(b) Evidence exists that the project would result in a development or expansion that would displace existing jobs in any other community in the state.

(5) The board shall, with the joint legislative audit and review committee, develop performance criteria for each grant and evaluation criteria to be used to evaluate both how well successful applicants met the community and economic development objectives stated in their applications, and how well the job development fund program performed in creating and retaining jobs.

NEW SECTION. Sec. 3. A new section is added to chapter 43.160 RCW to read as follows:

The maximum grant from the job development fund for any one project is ten million dollars. Grant assistance from the job development fund may not exceed thirty-three percent of the total cost of the project. The nonstate portion of the total project cost may include cash, the value of real property when acquired solely for the purpose of the project, and in-kind contributions.

Sec. 4. RCW 43.155.050 and 2001 c 131 s 2 are each amended to read as follows:

(1) The public works assistance account is hereby established in the state treasury. Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and to give financial guarantees to local governments for public works projects.

Moneys in the account may also be appropriated to provide for state match requirements under federal law for projects and activities conducted and financed by the board under the drinking water assistance account. Not more than fifteen percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated for preconstruction loans, emergency loans, or loans for capital facility planning under this chapter; of this amount, not more than ten percent of the biennial capital budget appropriation may be expended for emergency loans and not more than one percent of the biennial capital budget appropriation may be expended for capital facility planning loans.

(2) The job development fund is hereby established in the state treasury. Up to fifty million dollars each biennium from the public works assistance account may be transferred into the job development fund. Money in the job development fund may be used solely for job development fund program grants, administrative expenses related to the administration of the job development fund program created in section 2 of this act, and for the report prepared by the joint legislative audit and review committee pursuant to section 5(2) of this act. Moneys in the job development fund may be spent only after appropriation. The board shall prepare a prioritized list of proposed projects of up to fifty million dollars as part of the department's 2007-09 biennial budget request. The board may provide an additional alternate job development fund project list of up to ten million dollars. The legislature may remove projects from the list recommended by the board. The legislature may not change the prioritization of projects recommended for funding by the board, but may add projects from the alternate list in order of priority, as long as the total funding does not exceed fifty million dollars.

NEW SECTION. Sec. 5. (1) The joint legislative audit and review committee shall conduct an inventory of all state public infrastructure programs and funds. The inventory shall identify: The public infrastructure state programs and funds and the purposes each serve; how the program or fund is implemented; the types of public infrastructure projects supported by the program or fund; the dollar amount of the projects funded by each program or fund; the balance of a fund, if applicable; and the geographic distribution of projects supported by a program or fund. Where applicable, the inventory shall identify overlaps or gaps in types of public infrastructure projects supported through state programs or funds. Where appropriate, the inventory shall evaluate the return on investment for economic development infrastructure programs. The inventory shall be delivered to the appropriate committees of the legislature by December 1, 2006.

(2) By September 1, 2010, the joint legislative audit and review committee shall submit a report on the outcomes of the job development fund program to the appropriate committees of the legislature. The report shall apply the performance and evaluation criteria developed by the community economic revitalization board and the committee and shall include a project by project review detailing how the funds were used and whether the performance measures were met. The report shall also include impacts to the availability of low-interest and interest-free loans to local governments under RCW 43.155.055, 43.155.060, 43.155.065, and 43.155.068, resulting from appropriations to the job development fund. Information in the report shall include, but not be limited to:

(a) The total funds appropriated from the public works assistance account to the job development account;

(b) The ratio of loan requests submitted to the public works board as compared to actual money available for loans in the public works assistance account since the effective date of this act;

(c) The total amount that would have been available for loans from the public works assistance account had this act not taken effect;

(d) Identification of specific loan requests that would have qualified for funding under chapter 43.155 RCW had money been available in the public works assistance account;

(e) Assessment of increased costs for otherwise qualifying projects where local governments were compelled to seek alternate funding sources.

NEW SECTION. Sec. 6. This act expires June 30, 2011.

NEW SECTION. Sec. 7. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

On page 1, line 1 of the title, after "fund;" strike the remainder of the title and insert "amending RCW 43.155.050; adding new sections to chapter 43.160 RCW; creating new sections; and providing an expiration date."
