

Federal Funds Expenditure

ESHB 2190 sec 204(8) directs the JTC to convene a study group to evaluate the effectiveness, transparency and priorities by which WSDOT spends federal transportation funds. The study group shall make recommendations to:

- Increase transparency in the programming of federal funds;
- Evaluate assumptions used to predict future federal funds from the different federal programs;
- Develop a process to link statewide priorities to distribution of federal funds from project savings and redistributed federal funds from other states; and
- Develop a process to incorporate legislative and OFM feedback in the development of federal grant and loan applications.

Study group members include representatives from WSDOT, the Office of Financial Management, a local representative from the Federal Highways Administration, and legislative staff.
