

**KING
RECOMMENDATIONS**

From: Curtis King [mailto:curtis@kbwood.com]

To: mungia.ingrid@leg.wa.gov.
Subject: HVAC

Ingrid: I know this is late but if you can still use it, here are my suggestions.

My answer for Items (topics) # 1, 2, 3, 4, and 5 is as follows:

We should retain and enforce the current laws and requirements. No additional requirements are needed.

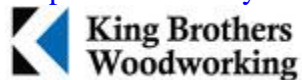

Topic #6: If we do as suggested above, this topic would not be required.

Topic #7 If we do as suggested above, there would be no need for a HVAC/R board.

My apologies for being late and if I am too late then so be it. It is no ones fault but mine. Thank you for all your efforts. I look forward to seeing you on Thursday.

Curtis King
