LEOFF 1 seems to be doing reasonably well on its own. Why damage it by attempting to merge it with flawed and failed plans like TRS 1 or LEOFF 2?

4. If the Legislature proposed a plan merger, what CONCERNS would you like to see addressed?

1. Managed not by appointed patronage persons.
2. Investments remain within the separate entities with voting rights t by the membership.
3. Automatic fiscal support for any underfunding
4. Bankruptcy insurance.

5. If the Legislature proposed a plan merger, what GENERAL COMMENTS would you have?

NO, NO, NO

6. (Optional) Extra space for additional comments if needed.

As proposed for study, the concentration of all funds is dangerous especially given the lack of oversight of Wall Street and the many cases of bankruptcies by local governments. We already have a candidate on the Federal level stating he would entertain defaulting loans, such as is the present political and economic operations are to say the least untrustworthy. Governors, legislators and their appointees are changing and should ~~think~~ think with our pensions. We have seen new pension plans that are less disirable when they should be maintaining what others fought long and hard for instead of creating divisions between employees-unions etc.

My confidence in the collective wisdom of the legislature is at an all time low-since they readily fund toll roads, tunnels etc. but cannot agree upon funding adequately the mentally ill- and rather pay fines than legislate. That is an good indicator of a negligent handling of state funds.

LEOFF I was set up for retired law enforcement officers and fire-fighters. NOT teachers. Teachers do not fit into the group in any way. If its changed in any way it will open the door for many changes.
Please, NO CHANGES.
