(2)(a) In the event a metropolitan municipal corporation shall impose a sales and use tax pursuant to this chapter no city, county which has created an unincorporated transportation benefit area, public transportation benefit area authority, or county transportation authority wholly within such metropolitan municipal corporation shall be empowered to levy and/or collect taxes pursuant to RCW 35.58.273, 35.95.040, and/or 82.14.045, but nothing herein shall prevent such city or county from imposing sales and use taxes pursuant to any other authorization.

(b) In the event a county transportation authority shall impose a sales and use tax pursuant to this section, no city, county which has created an unincorporated transportation benefit area, public transportation benefit area, or metropolitan municipal corporation, located within the territory of the authority, shall be empowered to levy or collect taxes pursuant to RCW 35.58.273, 35.95.040, or 82.14.045.

(3) Any local sales and use tax revenue collected pursuant to this section by any city or by any county for transportation purposes pursuant to RCW 36.57.100 and 36.57.110 shall not be counted as locally generated tax revenues for the purposes of apportionment and distribution, in the manner prescribed by chapter 82.44 RCW, of the proceeds of the motor vehicle excise tax authorized pursuant to RCW 35.58.273.

Sec. 159. RCW 82.44.150 and 1990 c 42 s 308 are each amended to read as follows:

(1) The director of licensing shall, on the twenty-fifth day of February, May, August, and November of each year, advise the state treasurer of the total amount of motor vehicle excise taxes remitted to the department during the preceding calendar quarter ending on the last day of March, June, September, and December, respectively, except for those payable under RCW 82.44.030, from motor vehicle owners residing within each municipality which has levied a tax under RCW 35.58.273, which amount of excise taxes shall be determined by the director as follows:

The total amount of motor vehicle excise taxes remitted to the department, except those payable under RCW 82.44.030, from each county shall be multiplied by a fraction, the numerator of which is the population of the municipality residing in such county, and the denominator of which is the total population of the county in which such municipality or portion thereof is located. The product of this computation shall be the amount of excise taxes from motor vehicle owners residing within such municipality or portion thereof. Where the municipality levying a tax under RCW 35.58.273 is located in more than one county, the above computation shall be made by county, and the combined products shall provide the total amount of motor vehicle excise taxes from motor vehicle owners residing in the municipality as a whole. Population figures required for these computations shall be supplied to the director by the office of financial management, who shall adjust the fraction annually.

(2) On the first day of the months of January, April, July, and October of each year, the state treasurer based upon information provided by the department shall, from motor vehicle excise taxes deposited in the general fund, under RCW 82.44.110(7), make the following deposits:

(a) To the high capacity transportation account created in RCW 47.78.010, a sum equal to four and five-tenths percent of the special excise tax levied under RCW 35.58.273 by those municipalities authorized to levy a special excise tax within a ~~((class AA county, or within a class A county contiguous to a class AA county, or within a second class county contiguous to a class A county that is contiguous to a class AA county))~~ county with a population of one million or more, or within a county with a population of from two hundred ten thousand to less than one million bordering a county with a population of one million or more, or within a county with a population of from one hundred twenty-five thousand to less than two hundred thousand that both borders a county with a population of five hundred thousand or more and has a portion of its common boundary with that county intersected by an interstate highway;

(b) To the central Puget Sound public transportation account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within a ~~((class AA county or within a class A county contiguous to a class AA))~~ county with a population of one million or more and a county with a population of from two hundred thousand to less than one million bordering a county with a population of one million or more, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(b) applies; however, any transfer under this subsection (2)(b) must be greater than zero;

(c) To the public transportation systems account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within counties not described in (b) of this subsection, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(c) applies; however, any transfer under this subsection (2)(c) must be greater than zero; and

(d) To the transportation fund created in RCW 82.44.180, for revenues distributed after June 30, 1991, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent notwithstanding the requirements set forth in subsections (3) through (6) of this section, reduced by an amount equal to distributions made under (a), (b), and (c) of this subsection.

(3) On the first day of the months of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, shall remit motor vehicle excise tax revenues imposed and collected under RCW 35.58.273 as follows:

(a) The amount required to be remitted by the state treasurer to the treasurer of any municipality levying the tax shall not exceed in any calendar year the amount of locally-generated tax revenues, excluding the excise tax imposed under RCW 35.58.273 for the purposes of this section, which shall have been budgeted by the municipality to be

collected in such calendar year for any public transportation purposes including but not limited to operating costs, capital costs, and debt service on general obligation or revenue bonds issued for these purposes; and

(b) In no event may the amount remitted in a single calendar quarter exceed the amount collected on behalf of the municipality under RCW 35.58.273 during the calendar quarter next preceding the immediately preceding quarter.

(4) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (3) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year's budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (3) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (3) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year. At the time of the next fiscal audit of each municipality, the state auditor shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

(5) The motor vehicle excise taxes imposed under RCW 35.58.273 and required to be remitted under this section shall be remitted without legislative appropriation.

(6) Any municipality levying and collecting a tax under RCW 35.58.273 which does not have an operating, public transit system or a contract for public transportation services in effect within one year from the initial effective date of the tax shall return to the state treasurer all motor vehicle excise taxes received under subsection (3) of this section.

MESSAGE FROM THE SENATE

April 28, 1991

Mr. Speaker:

Under suspension of rules, the Senate has adopted the report of the Conference Committee on ENGROSSED SUBSTITUTE HOUSE BILL NO. 1341, and passed the bill as recommended by the Conference Committee, and the same is herewith transmitted.

W. D. Naismith, Deputy Secretary.

REPORT OF CONFERENCE COMMITTEE

ESHB 1341

April 27, 1991

Includes "New Item": YES

Promoting economic development.

Mr. President:

Mr. Speaker:

We of your Conference Committee, to whom was referred ENGROSSED SUBSTITUTE HOUSE BILL NO. 1341, Timber-dependent communities, have had the same under consideration and we recommend that:

The Senate floor amendment(s) be not adopted; and

That the following Conference Committee striking amendments be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that:

(1) Cutbacks in allowable sales of old growth timber in Washington state pose a substantial threat to the region and the state with massive layoffs, loss of personal income, and declines in state revenues;

(2) The timber impact areas are of critical significance to the state because of their leading role in the overall economic well-being of the state and their importance to the quality of life to all residents of Washington, and that these regions require a special state effort to diversify the local economy;

(3) There are key opportunities to broaden the economic base in the timber impact areas including agriculture, high-technology, tourism, and regional exports; and

(4) A coordinated state, local, and private sector effort offers the greatest potential to promote economic diversification and to provide support for new projects within the region.

The legislature further finds that if a special state effort does not take place the decline in allowable timber sales may result in a loss of six thousand logging and milling jobs; two hundred million dollars in direct wages and benefits; twelve thousand indirect jobs; and three hundred million dollars in indirect wages and benefits.

It is the intent of the legislature to develop comprehensive programs to provide diversified economic development and promote job creation and employment opportunities for the citizens of the timber impact areas.

(f) Provide biennial assessments of its performance. Project personnel shall work with the department of revenue and employment security department to confidentially track the performance of the project's clients in increasing tax revenues to the state, increasing gross sales revenues and volume of products destined to foreign clients, and in creating new jobs for Washington citizens. The president of the small business export finance assistance center may enter into negotiations with neighboring states to contract for delivery of the project's services. Final contracts for providing the project's counseling and services outside of the state of Washington on a permanent basis shall be subject to approval of the governor, appropriate legislative oversight committees, and the small business export finance assistance center's board of directors.

(6) The small business export finance assistance center may receive such gifts, grants, and endowments from public or private sources as may be made from time to time, in trust or otherwise, for the use and benefit of the purposes of the Pacific Northwest export assistance project and expend the same or any income therefrom according to the terms of the gifts, grants, or endowments.

(7) The president of the small business export finance assistance center, in consultation with the board of directors, may use the following formula in determining the number of clients that can be reasonably served by the Pacific Northwest export

assistance project relative to its appropriation. For the purposes of this calculation, and only for the first biennium of operation, the biennial marginal cost of adding each additional Pacific Northwest export assistance project client shall be fifty-seven thousand ninety-five dollars. The biennial marginal cost of adding each additional client after the first biennium of operation shall be established from the actual operating experience of the Pacific Northwest export assistance project.

Only the director of the department of trade and economic development or the director's designee may authorize expenditures from the fund. The director of the department of trade and economic development shall not withhold funds appropriated for the administration of the small business export finance assistance center and its projects, if the small business export finance assistance center complies with the provisions of its contract under RCW 43.210.050 and section 11 of this act. Funding appropriated by the state of Washington shall not be used to provide services to other states or provinces. The fund is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures.

Sec. 15. RCW 43.210.030 and 1985 c 231 s 3 are each amended to read as follows:

Sec. 16. RCW 43.210.050 and 1985 c 466 s 64 and 1985 c 231 s 5 are each reenacted and amended to read as follows:

The small business export finance assistance center formed under RCW 43.210.020 and 43.210.030 (~~is eligible to receive consideration for~~) shall enter into a contract under this chapter (~~from the~~) with the department of trade and economic development or its statutory successor. - (4) RCW 43.210.--- and 1991 c -- s 14 (section 14 of this act).

Sec. 19. RCW 43.168.020 and 1988 c 42 s 18 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

- (1) "Committee" means the Washington state development loan fund committee.
- (2) "Department" means the department of community development.
- (3) "Director" means the director of the department of community development.
- (4) "Distressed area" means: (a) A county which has an unemployment rate which is twenty percent above the state average for the immediately previous three years; (b) a metropolitan statistical area, as defined by the office of federal statistical policy and standards, United States department of commerce, in which the average level of unemployment for the calendar year immediately preceding the year in which an application is filed under this chapter exceeds the average state unemployment for such

calendar year by twenty percent. Applications under this subsection (4)(b) shall be filed by April 30, 1989; ((e)) (c) an area within a county, which area: (i) Is composed of contiguous census tracts; (ii) has a minimum population of five thousand persons; (iii) has at least seventy percent of its families and unrelated individuals with incomes below eighty percent of the county's median income for families and unrelated individuals; and (iv) has an unemployment rate which is at least forty percent higher than the county's unemployment rate; or (d) a county designated as a timber impact area under section 2 of this act if an application is filed by July 1, 1993. For purposes of this definition, "families and unrelated individuals" has the same meaning that is ascribed to that term by the federal department of housing and urban development in its regulations authorizing action grants for economic development and neighborhood revitalization projects.

(5) "Fund" means the Washington state development loan fund.

(6) "Local development organization" means a nonprofit organization which is organized to operate within an area, demonstrates a commitment to a long-standing effort for an economic development program, and makes a demonstrable effort to assist in the employment of unemployed or underemployed residents in an area.

(7) "Project" means the establishment of a new or expanded business in an area which when completed will provide employment opportunities. "Project" also means the retention of an existing business in an area which when completed will provide employment opportunities.

NEW SECTION. Sec. 20. A new section is added to chapter 43.168 RCW to read as follows:

Any funds appropriated by the legislature to the development loan fund for purposes of the timber recovery act shall be used for development loans in timber impact areas as defined in section 2 of this act.

Sec. 21. RCW 43.160.010 and 1989 c 431 s 61 are each amended to read as follows:

(1) The legislature finds that it is the public policy of the state of Washington to direct financial resources toward the fostering of economic development through the stimulation of investment and job opportunities and the retention of sustainable existing employment for the general welfare of the inhabitants of the state. Reducing unemployment and reducing the time citizens remain jobless is important for the economic welfare of the state. A valuable means of fostering economic development is the construction of public facilities which contribute to the stability and growth of the state's economic base. Strengthening the economic base through issuance of industrial development bonds, whether single or umbrella, further serves to reduce unemployment. Consolidating issues of industrial development bonds when feasible to reduce costs additionally advances the state's purpose to improve economic vitality. Expenditures made for these purposes as authorized in this chapter are declared to be in the public interest, and constitute a proper use of public funds. A community economic revitalization board is needed which shall aid the development of economic opportunities. The general objectives of the board should include:

(a) Strengthening the economies of areas of the state which have experienced or are expected to experience chronically high unemployment rates or below average growth in their economies;

(b) Encouraging the diversification of the economies of the state and regions within the state in order to provide greater seasonal and cyclical stability of income and employment;

(c) Encouraging wider access to financial resources for both large and small industrial development projects;

(d) Encouraging new economic development or expansions to maximize employment;

(e) Encouraging the retention of viable existing firms and employment; and

(f) Providing incentives for expansion of employment opportunities for groups of state residents that have been less successful relative to other groups in efforts to gain permanent employment.

(2) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to improve state highways in the vicinity of new industries considering locating in this state or existing industries that are considering significant expansion.

(a) The legislature finds it desirable to provide a process whereby the need for diverse public works improvements necessitated by planned economic development can be addressed in a timely fashion and with coordination among all responsible governmental entities.

(b) It is the intent of the legislature to create an economic development account within the motor vehicle fund from which expenditures can be made by the department of transportation for state highway improvements necessitated by planned economic development. All such improvements must first be approved by the state transportation commission and the community economic revitalization board in accordance with the procedures established by RCW 43.160.074 and 47.01.280. It is further the intent of the legislature that such improvements not jeopardize any other planned highway construction projects. The improvements are intended to be of limited size and cost, and to include such items as additional turn lanes, signalization, illumination, and safety improvements.

(3) The legislature also finds that the state's economic development efforts can be enhanced by providing funds to improve markets for those recyclable materials representing a large fraction of the waste stream. The legislature finds that public facilities which result in private construction of processing or remanufacturing facilities for recyclable materials are eligible for consideration from the board.

(4) The legislature finds that sharing economic growth state-wide is important to the welfare of the state. Timber impact areas do not share in the economic vitality of the Puget Sound region. Infrastructure is one of several ingredients that are critical for economic development. Timber impact areas generally lack the infrastructure necessary to diversify and revitalize their economies. It is, therefore, the intent of the legislature to increase the availability of funds to help provide infrastructure to timber impact areas.

Sec. 22. RCW 43.160.020 and 1985 c 466 s 58 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Board" means the community economic revitalization board.

(2) "Bond" means any bond, note, debenture, interim certificate, or other evidence of financial indebtedness issued by the board pursuant to this chapter.

(3) "Department" means the department of trade and economic development or its successor with respect to the powers granted by this chapter.

(4) "Financial institution" means any bank, savings and loan association, credit union, development credit corporation, insurance company, investment company, trust company, savings institution, or other financial institution approved by the board and maintaining an office in the state.

(5) "Industrial development facilities" means "industrial development facilities" as defined in RCW 39.84.020.

(6) "Industrial development revenue bonds" means tax-exempt revenue bonds used to fund industrial development facilities.

(7) "Local government" means any port district, county, city, or town.

(8) "Sponsor" means any of the following entities which customarily provide service or otherwise aid in industrial or other financing and are approved as a sponsor by the board: A bank, trust company, savings bank, investment bank, national banking association, savings and loan association, building and loan association, credit union,

insurance company, or any other financial institution, governmental agency, or holding company of any entity specified in this subsection.

(9) "Umbrella bonds" means industrial development revenue bonds from which the proceeds are loaned, transferred, or otherwise made available to two or more users under this chapter.

(10) "User" means one or more persons acting as lessee, purchaser, mortgagor, or borrower under a financing document and receiving or applying to receive revenues from bonds issued under this chapter.

(11) "Timber impact area" means a county having a population of less than five hundred thousand, or a city or town located within a county having a population of less than five hundred thousand, and meeting two of the following three criteria, as determined by the employment security department, for the most recent year such data is available: (a) A lumber and wood products employment location quotient at or above the state average; (b) projected or actual direct lumber and wood products job losses of one hundred positions or more, except counties having a population greater than two hundred thousand but less than five hundred thousand must have direct lumber and wood products job losses of one thousand positions or more; or (c) an annual unemployment rate twenty percent or more above the state average.

NEW SECTION. Sec. 23. A new section is added to chapter 43.160 RCW to read as follows:

(1) The economic development account is created within the public facilities construction loan revolving fund under RCW 43.160.080. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for the purposes of RCW 43.160.010(4) and this section. The account is subject to allotment procedures under chapter 43.88 RCW.

(2) Applications under this section for assistance from the economic development account are subject to all of the applicable criteria set forth under this chapter, as well as procedures and criteria established by the board, except as otherwise provided.

(3) Eligible applicants under this section are limited to political subdivisions of the state in timber impact areas that demonstrate, to the satisfaction of the board, the local economy's dependence on the forest products industry.

(4) Applicants must demonstrate that their request is part of an economic development plan consistent with applicable state planning requirements. Applicants must demonstrate that tourism projects have been approved by the local government and are part of a regional tourism plan approved by the local and regional tourism organizations. Industrial projects must be approved by the local government and the associate development organization.

(5) Publicly owned projects may be financed under this section upon proof by the applicant that the public project is a necessary component of, or constitutes in whole, a tourism project.

(6) Applications must demonstrate local match and participation. Such match may include: Land donation, other public or private funds or both, or other means of local commitment to the project.

(7) Board financing for feasibility studies shall not exceed twenty-five thousand dollars per study. Board funds for feasibility studies may be provided as a grant and require a dollar for dollar match with up to one-half in-kind match allowed.

(8) Board financing for tourism projects shall not exceed two hundred fifty thousand dollars. Other public facility projects under this section shall not exceed five hundred thousand dollars. Loans with flexible terms and conditions to meet the needs of the applicants shall be provided. Grants may also be authorized, but only when, and to the extent that, a loan is not reasonably possible, given the limited resources of the political subdivision.

(9) The board shall develop guidelines for allowable local match and feasibility studies.

(10) Applications under this section need not demonstrate evidence that specific private development or expansion is ready to occur or will occur if funds are provided.

(11) The board shall establish guidelines for making grants and loans under this section to ensure that the requirements of this chapter are complied with. The guidelines shall include:

(a) A process to equitably compare and evaluate applications from competing communities.

(b) Criteria to ensure that approved projects will have a high probability of success and are likely to provide long-term economic benefits to the community. The criteria shall include: (i) A minimum amount of local participation, determined by the board per application, to verify community support for the project; (ii) an analysis that establishes the project is feasible using standard economic principles; and (iii) an explanation from the applicant regarding how the project is consistent with the communities' economic strategy and goals.

(c) A method of evaluating the impact of the loans or grants on the economy of the community and whether the loans or grants achieved their purpose.

Sec. 24. RCW 43.160.076 and 1985 c 446 s 6 are each amended to read as follows:

(1) Except as authorized to the contrary under subsection (2) of this section, from all funds available to the board for loans and grants, the board shall spend at least ~~((twenty))~~ fifty percent for grants and loans for projects in distressed counties or timber impact areas. For purposes of this section, the term "distressed counties" includes any county, in which the average level of unemployment for the three years before the year in which an application for a loan or grant is filed, exceeds the average state employment for those years by twenty percent.

(2) If at any time during the last six months of a biennium the board finds that the actual and anticipated applications for qualified projects in distressed counties or timber impact areas are clearly insufficient to use up the ~~((twenty))~~ fifty percent allocation, then the board shall estimate the amount of the insufficiency and during the remainder of the biennium may use that amount of the allocation for loans and grants for projects not located in distressed counties or timber impact areas.

NEW SECTION. Sec. 25. A new section is added to chapter 43.160 RCW to read as follows:

(1) Except as authorized to the contrary under subsection (2) of this section, from all funds available to the board for loans and grants, the board shall spend at least twenty percent for grants and loans for projects in distressed counties. For purposes of this section, the term "distressed counties" includes any county, in which the average level of unemployment for the three years before the year in which an application for a loan or grant is filed, exceeds the average state employment for those years by twenty percent.

(2) If at any time during the last six months of a biennium the board finds that the actual and anticipated applications for qualified projects in distressed counties are clearly insufficient to use up the twenty percent allocation, then the board shall estimate the amount of the insufficiency and during the remainder of the biennium may use that amount of the allocation for loans and grants for projects not located in distressed counties.

NEW SECTION. Sec. 26. (1) For the period beginning July 1, 1991, and ending June 30, 1993, in timber impact areas the public works board may award low-interest or interest-free loans to local governments for construction of new public works facilities that stimulate economic growth or diversification.

(3) The loans may have a deferred payment of up to five years but shall be repaid within twenty years. The public works board may require other terms and conditions and may charge such rates of interest on its loans as it deems appropriate to carry out the purposes of this section. Repayments shall be made to the public works assistance account.

(4) The board may make such loans irrespective of the annual loan cycle and reporting required in RCW 43.155.070.

NEW SECTION. Sec. 27. (1) As authorized by section 26 of this act, the board shall establish criteria for awarding loans to local governments in timber impact areas including, but not limited to, the following:

(b) The local government must have in place a capital improvement plan meeting standards established by the board and an economic development plan meeting standards established by the department;

(c) The local economy must have experienced or be about to experience employment losses due to the timber economy;

(d) The proposed project must provide an opportunity to create or retain jobs within the local economy. Priority may be given to those projects that provide an opportunity to retain or create jobs for the pool of local workers affected by the timber economy;

(e) The local government must provide reasonable assurances of its ability to repay the debt; and

(f) The local government must meet any additional guidelines and criteria established by the board for awarding loan funds.

(2) Existing debt or other financial obligations of the local government shall not be refinanced under this section and section 26 of this act.

(3) The board shall award loans only to those projects that meet the criteria and will fulfill the purpose of this section and section 26 of this act. Any funds not obligated at the close of the biennium shall be returned to the public works assistance account.

MESSAGE FROM THE SENATE

April 28, 1991

Mr. Speaker:

Under suspension of rules, the Senate has adopted the report of the Conference Committee on ENGROSSED SUBSTITUTE HOUSE BILL NO. 2026, and passed the bill as recommended by the Conference Committee, and the same is herewith transmitted.

W. D. Naismith, Deputy Secretary.

REPORT OF CONFERENCE COMMITTEE

ESHB 2026

April 27, 1991

Includes "New Item": YES

Providing for comprehensive water resources management.

Mr. President:

Mr. Speaker:

We of your Conference Committee, to whom was referred ENGROSSED SUBSTITUTE HOUSE BILL NO. 2026, Water resources management, have had the same under consideration and we recommend that:

The Senate Committee on Agriculture and Water Resources amendment(s) be not adopted; and

That the following Conference Committee striking amendment(s) be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) It is the policy of the state of Washington to recognize and preserve water rights in accordance with RCW 90.03.010.

(2) The legislature finds that:

(a) The state of Washington is faced with a shortage of water with which to meet existing and future needs, particularly during the summer and fall months and in dry years when the demand is greatest;

(b) Consistent with RCW 90.54.180, conservation and water use efficiency programs, including storage, should be the preferred methods of addressing water uses because they can relieve current critical water situations, provide for presently unmet needs, and assist in meeting future water needs. Presently unmet needs or current needs includes the water required to increase the frequency of occurrence of base or minimum flow levels in streams of the state, the water necessary to satisfy existing water rights, or the water necessary to provide full supplies to existing water systems with current supply deficiencies; and

(c) The interests of the state will be served by developing programs and regional water resource plans, in cooperation with local governments, federally recognized tribal governments, appropriate federal agencies, private citizens, and the various water users and water interests in the state, that increase the overall ability to manage the state's waters in order to resolve conflicts and to better satisfy both present and future needs for water.

NEW SECTION. Sec. 2. The purposes of this act are to:

(1) Improve the ability of the state to work with the United States, local governments, federally recognized tribal governments, water right holders, water users,

and various water interests in water conservation and water use efficiency programs designed to satisfy existing rights, presently unmet needs, and future needs, both instream and out-of-stream;

(2) Establish new incentives, enhance existing incentives, and remove disincentives for efficient water use;

(3) Establish improved means to disseminate information to the public and provide technical assistance regarding ways to improve the efficiency of water use;

(4) Create a trust water rights mechanism for the acquisition of water rights on a voluntary basis to be used to meet presently unmet needs and future needs;

(5) Prohibit the sale of nonconforming plumbing fixtures and require the marking and labeling of fixtures meeting state standards;

(6) Reduce tax disincentives to water conservation, reuse, and improved water use efficiency; and

(7) Add achievement of water conservation as a factor to be considered by water supply utilities in setting water rates.

NEW SECTION. Sec. 3. A new section is added to chapter 90.54 RCW to read as follows:

(1) State funding of water resource, supply, and quality related capital programs, both current and future, shall, to the maximum extent possible within state or federal legal requirements, be directed to assist in the resolution of current conflicts and implementation of regional water resource plans with priority given to current needs over new requirements.

(2) Consistent with RCW 90.54.180, priority shall be given, to the maximum extent possible within state or federal legal requirements, to those water conservation projects funded by the state that will result in the greatest net water savings.

Sec. 4. RCW 90.54.045 and 1990 c 295 s 3 are each amended to read as follows:

(1) In the development and implementation of the comprehensive state water resources program required in RCW 90.54.040(1), the process described therein shall involve participation of appropriate state agencies, Indian tribes, local governments, and interested parties, and shall be applied on a regional basis pursuant to subsection (2) of this section.

(2) Prior to ((January)) July 1, 1991, the department, with advice from appropriate state agencies, Indian tribes, local government, and interested parties, shall identify regions and establish regional boundaries for water resource planning and shall designate two regions in which the process shall be initiated on a pilot basis. One region shall encompass an area within the Puget Sound basin in which critical water resource issues exist. A concurrent pilot process may encompass a region east of the Cascade mountains.

(3) The department shall report to the chairs of the appropriate legislative committees prior to July 1st each year summarizing the progress of the pilot process in the two regions. The pilot process in each region shall be completed and shall produce a regional water plan by December 31, 1993.

(4) Appropriate state agencies, Indian tribes, local governments, and interested parties in regions not selected for the pilot program are strongly encouraged to commence water resource planning within their regions.

NEW SECTION. Sec. 5. (1) The legislature finds that a need exists to develop and test a means to facilitate the voluntary transfer of water and water rights, including conserved water, to provide water for presently unmet needs and emerging needs. Further, the legislature finds that water conservation activities have the potential of affecting the quantity of return flow waters to which existing water right holders have a right to and rely upon. It is the intent of the legislature that persons holding rights to water, including return flows, not be adversely affected in the implementation of the provisions of this chapter.

The purpose of this chapter is to provide the mechanism for accomplishing this in a manner that will not impair existing rights to water and to test the mechanism in two pilot planning areas designated pursuant to RCW 90.54.045(2) and in the water resource inventory areas designated under subsection (2) of this section.

(2) The department may designate up to four water resource inventory areas west of the crest of the Cascade mountains and up to four water resource inventory areas east of the crest of the Cascade mountains, as identified pursuant to chapter 90.54 RCW. The areas designated shall contain critical water supply problems and shall provide an opportunity to test and evaluate a variety of applications of sections 5 through 13 of this act, including application to municipal, industrial, and agricultural use. The department shall seek advice from appropriate state agencies, Indian tribes, local governments, representatives of water right holders, and interested parties before identifying such water resource inventory areas.

(3) The department shall provide to the appropriate legislative committees by December 31, 1993, a written evaluation of the implementation of sections 5 through 13 of this act and recommendations for future application.

NEW SECTION. Sec. 6. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Department" means the department of ecology.

(2) "Net water savings" means the amount of water that is determined to be conserved and usable within a specified stream reach or reaches for other purposes without impairment or detriment to water rights existing at the time that a water conservation project is undertaken, reducing the ability to deliver water, or reducing the supply of water that otherwise would have been available to other existing water uses.

(3) "Trust water right" means any water right acquired by the state under this chapter for management in the state's trust water rights program.

(4) "Pilot planning areas" means the geographic areas designated under RCW 90.54.045(2).

(5) "Water conservation project" means any project or program that achieves physical or operational improvements that provide for increased water use efficiency in existing systems of diversion, conveyance, application, or use of water under water rights existing on the effective date of this section.

NEW SECTION. Sec. 7. (1) For purposes of this chapter, the state may enter into contracts to provide moneys to assist in the financing of water conservation projects located within pilot planning areas and in water resource inventory areas designated in accordance with section 5 of this act. In consideration for the financial assistance provided, the state shall obtain public benefits defined in guidelines developed under section 9 of this act.

(2) If the public benefits to be obtained require conveyance or modification of a water right, the recipient of funds shall convey to the state the recipient's interest in that part of the water right or claim constituting all or a portion of the resulting net water savings for deposit in the trust water rights program. The amount to be conveyed shall be finitely determined by the parties, in accordance with the guidelines developed under section 9 of this act, before the expenditure of state funds. Conveyance may consist of complete transfer, lease contracts, or other legally binding agreements. When negotiating for the acquisition of conserved water or net water savings, or a portion thereof, the state may require evidence of a valid water right.

(3) As part of the contract, the water right holder and the state shall specify the process to determine the amount of water the water right holder would continue to be entitled to once the water conservation project is in place.

(4) The state shall cooperate fully with the United States in the implementation of this chapter. Trust water rights may be acquired through expenditure of funds provided

by the United States and shall be treated in the same manner as trust water rights resulting from the expenditure of state funds.

(5) If water is proposed to be acquired by or conveyed to the state as a trust water right by an irrigation district, evidence of the district's authority to represent the water right holders shall be submitted to and for the satisfaction of the department.

(6) The state shall not contract with any person to acquire a water right served by an irrigation district without the approval of the board of directors of the irrigation district. Disapproval by a board shall be factually based on probable adverse effects on the ability of the district to deliver water to other members or on maintenance of the financial integrity of the district.

NEW SECTION. Sec. 8. (1) All trust water rights acquired by the state shall be placed in the state trust water rights program to be managed by the department. Trust water rights acquired by the state shall be held or authorized for use by the department for instream flows, irrigation, municipal, or other beneficial uses consistent with applicable regional plans for pilot planning areas, or to resolve critical water supply problems in water resource inventory areas designated in accordance with section 5 of this act.

(2) The department shall issue a water right certificate in the name of the state of Washington for each permanent trust water right conveyed to the state indicating the reach or reaches of the stream, the quantity, and the use or uses to which it may be applied. A superseding certificate shall be issued that specifies the amount of water the water right holder would continue to be entitled to as a result of the water conservation project. The superseding certificate shall retain the same priority date as the original right. For nonpermanent conveyances, the department shall issue certificates or such other instruments as are necessary to reflect the changes in purpose or place of use or point of diversion or withdrawal. Water rights for which such nonpermanent conveyances are arranged shall not be subject to relinquishment for nonuse.

(3) A trust water right retains the same priority date as the water right from which it originated, but as between them the trust right shall be deemed to be inferior in priority unless otherwise specified by an agreement between the state and the party holding the original right.

(4) Exercise of a trust water right may be authorized only if the department first determines that neither water rights existing at the time the trust water right is established, nor the public interest will be impaired. If impairment becomes apparent during the time a trust water right is being exercised, the department shall cease or modify the use of the trust water right to eliminate the impairment.

(5) Before any trust water right is created or modified, the department shall, at a minimum, require that a notice be published in a newspaper of general circulation published in the county or counties in which the storage, diversion, and use are to be made, and in other newspapers as the department determines is necessary, once a week for two consecutive weeks. At the same time the department shall send a notice containing pertinent information to all appropriate state agencies, potentially affected local governments and federally recognized tribal governments, and other interested parties.

(6) RCW 90.14.140 through 90.14.230 have no applicability to trust water rights held by the department under this chapter or exercised under this section.

(7) RCW 90.03.380 has no applicability to trust water rights acquired by the state through the funding of water conservation projects.

NEW SECTION. Sec. 9. The department, in cooperation with federally recognized Indian tribes, local governments, state agencies, and other interested parties, shall establish guidelines by July 1, 1992, governing the acquisition, administration, and management of trust water rights. The guidelines shall address at a minimum the following:

(1) Methods for determining the net water savings resulting from water conservation projects or programs carried out in accordance with this chapter, and other factors to be

considered in determining the quantity or value of water available for potential designation as a trust water right;

(2) Criteria for determining the portion of net water savings to be conveyed to the state under this chapter;

(3) Criteria for prioritizing water conservation projects;

(4) A description of potential public benefits that will affect consideration for state financial assistance in section 7 of this act;

(5) Procedures for providing notification to potentially interested parties;

(6) Criteria for the assignment of uses of trust water rights acquired in areas of the state not addressed in a regional water resource plan or critical area agreement; and

(7) Contracting procedures and other procedures not specifically addressed in this section.

These guidelines shall be submitted to the joint select committee on water resource policy before adoption.

NEW SECTION. Sec. 10. The policies and purposes of this chapter shall not be construed as replacing or amending the policies or the purposes for which funds available under chapter 43.83B or 43.99E RCW may be used.

NEW SECTION. Sec. 11. Nothing in this chapter authorizes the involuntary impairment of any existing water rights.

NEW SECTION. Sec. 12. (1) Within the pilot planning areas, and in water resource inventory areas designated in accordance with section 5 of this act, the state may acquire all or portions of existing water rights, by purchase, gift, or other appropriate means other than by condemnation, from any person or entity or combination of persons or entities. Once acquired, such rights are trust water rights.

(2) The department may enter into leases, contracts, or such other arrangements with other persons or entities as appropriate, to ensure that trust water rights acquired in accordance with this chapter may be exercised to the fullest possible extent.

(3) Trust water rights may be acquired by the state on a temporary or permanent basis.

(4) The provisions of RCW 90.03.380 and 90.03.390 apply to transfers of water rights under this section.

(5) No funds may be expended for the purchase of water rights by the state pursuant to this section unless specifically appropriated for this purpose by the legislature.

NEW SECTION. Sec. 13. It is the intent of the legislature that jurisdictional authorities that exist in law not be expanded, diminished, or altered in any manner whatsoever by this chapter.

NEW SECTION. Sec. 14. A new section is added to chapter 90.14 RCW to read as follows:

This chapter shall not apply to trust water rights held or exercised by the department of ecology under chapter 90.38 or 90.-- RCW (sections 1 and 5 through 13 of this act).

Sec. 15. RCW 90.03.380 and 1987 c 109 s 94 are each amended to read as follows:

The right to the use of water which has been applied to a beneficial use in the state shall be and remain appurtenant to the land or place upon which the same is used: PROVIDED, HOWEVER, That said right may be transferred to another or to others and become appurtenant to any other land or place of use without loss of priority of right theretofore established if such change can be made without detriment or injury to existing rights. The point of diversion of water for beneficial use or the purpose of use may be changed, if such change can be made without detriment or injury to existing rights. Before any transfer of such right to use water or change of the point of diversion of water or change of purpose of use can be made, any person having an interest in the transfer or change, shall file a written application therefor with the department, and said application shall not be granted until notice of said application shall be published as provided in RCW 90.03.280. If it shall appear that such transfer or such change may be

made without injury or detriment to existing rights, the department shall issue to the applicant a certificate in duplicate granting the right for such transfer or for such change of point of diversion or of use. The certificate so issued shall be filed and be made a record with the department and the duplicate certificate issued to the applicant may be filed with the county auditor in like manner and with the same effect as provided in the original certificate or permit to divert water.

If an application for change proposes to transfer water rights from one irrigation district to another, the department shall, before publication of notice, receive concurrence from each of the irrigation districts that such transfer or change will not adversely affect the ability to deliver water to other land owners or impair the financial integrity of either of the districts.

A change in place of use by an individual water user or users of water provided by an irrigation district need only receive approval for the change from the board of directors of the district if the use of water continues within the irrigation district.

This section shall not apply to trust water rights acquired by the state through the funding of water conservation projects under chapter 90.38 RCW or RCW 90.----- through 90.----- (sections 5 through 11 of this 1991 act).

Sec. 16. RCW 19.27.170 and 1989 c 348 s 8 are each amended to read as follows:

(1) The state building code council shall adopt rules under chapter 34.05 RCW that implement and incorporate the water conservation performance standards in subsections ~~((3))~~ (4) and ~~((4))~~ (5) of this section. These standards shall apply to all new construction and all remodeling involving replacement of plumbing fixtures in all residential, hotel, motel, school, industrial, commercial use, or other occupancies determined by the council to use significant quantities of water.

(2) The legislature recognizes that a phasing-in approach to these new standards is appropriate. Therefore, standards in subsection ~~((3))~~ (4) of this section shall take effect on July 1, 1990. The standards in subsection ~~((4))~~ (5) of this section shall take effect July 1, 1993.

(3) No individual, public or private corporation, firm, political subdivision, government agency, or other legal entity may, for purposes of use in this state, distribute, sell, offer for sale, import, install, or approve for installation any plumbing fixtures unless the fixtures meet the standards as provided for in this section.

(4) Standards for water use efficiency effective July 1, 1990.

(a) Standards for waterclosets. The guideline for maximum water use allowed in gallons per flush (gpf) for any of the following waterclosets is the following:

Tank-type toilets	3.5 gpf.
Flushometer-valve toilets	3.5 gpf.
Flushometer-tank toilets	3.5 gpf.
Electromechanical hydraulic toilets	3.5 gpf.

(b) Standard for urinals. The guideline for maximum water use allowed for any urinal is 3.0 gallons per flush.

(c) Standard for showerheads. The guideline for maximum water use allowed for any showerhead is 3.0 gallons per minute.

(d) Standard for faucets. The guideline for maximum water use allowed in gallons per minute (gpm) for any of the following faucets and replacement aerators is the following:

Bathroom faucets	3.0 gpm.
Lavatory faucets	3.0 gpm.
Kitchen faucets	3.0 gpm.
Replacement aerators	3.0 gpm.

(e) Except where designed and installed for use by the physically handicapped, lavatory faucets located in restrooms intended for use by the general public must be

equipped with a metering valve designed to close by spring or water pressure when left unattended (self-closing).

(f) No urinal or watercloset that operates on a continuous flow or continuous flush basis shall be permitted.

~~((4))~~ (5) Standards for water use efficiency effective July 1, 1993.

(a) Standards for waterclosets. The guideline for maximum water use allowed in gallons per flush (gpf) for any of the following waterclosets is the following:

Tank-type toilets	1.6 gpf.
Flushometer-tank toilets	1.6 gpf.
Electromechanical hydraulic toilets	1.6 gpf.

(b) Standards for urinals. The guideline for maximum water use allowed for any urinal is 1.0 gallons per flush.

(c) Standards for showerheads. The guideline for maximum water use allowed for any showerhead is 2.5 gallons per minute.

(d) Standards for faucets. The guideline for maximum water use allowed in gallons per minute for any of the following faucets and replacement aerators is the following:

Bathroom faucets	2.5 gpm.
Lavatory faucets	2.5 gpm.
Kitchen faucets	2.5 gpm.
Replacement aerators	2.5 gpm.

(e) Except where designed and installed for use by the physically handicapped, lavatory faucets located in restrooms intended for use by the general public must be equipped with a metering valve designed to close by water pressure when unattended (self-closing).

(f) No urinal or watercloset that operates on a continuous flow or continuous basis shall be permitted.

~~((5) The building code council shall make an assessment regarding the low volume fixtures required under subsection (4) of this section. The assessment shall consider the availability of low volume fixtures which are technologically feasible, will operate effectively, and are economically justified. The council shall also assess the potential impact on the necessary flow or water required to insure sewerage or septic lines and treatment plants will effectively operate.~~

~~The council shall submit a report to the chief clerk of the house of representatives and the secretary of the senate by October 30, 1992, setting forth its conclusions, and any recommendations for legislative action.)~~

(6) The building code council shall establish methods and procedures for testing and identifying fixtures that meet the standards established in subsection (5) of this section. The council shall use the testing standards designated as American national standards, written under American national standards institute procedures or other widely recognized national testing standards. The council shall either review test results from independent testing laboratories that are submitted by manufacturers of plumbing fixtures or accept data submitted to and evaluated by the international association of plumbing and mechanical officials. The council shall publish and widely distribute a current list of fixtures that meet the standards established in subsection (5) of this section.

(7) The building code council shall adopt rules for marking and labeling fixtures meeting the standards established in subsection (5) of this section.

(8) This section shall not apply to fixtures installed before the effective date of this section that are removed and relocated to another room or area of the same building after the effective date of this section, nor shall it apply to fixtures, as determined by the council, that in order to perform a specialized function, cannot meet the standards specified in this section.

(9) The water conservation performance standards shall supersede all local government codes. After July 1, 1990, cities, towns, and counties shall not amend the

code revisions and standards established under subsection (~~((3)-or)~~) (4) or (5) of this section.

Sec. 17. RCW 35.67.020 and 1965 c 7 s 35.67.020 are each amended to read as follows:

Every city and town may construct, condemn and purchase, acquire, add to, maintain, conduct, and operate systems of sewerage and systems and plants for refuse collection and disposal together with additions, extensions, and betterments thereto, within and without its limits, with full jurisdiction and authority to manage, regulate, and control them and to fix, alter, regulate, and control the rates and charges for the use thereof: PROVIDED, That the rates charged must be uniform for the same class of customers or service.

In classifying customers served or service furnished by such system of sewerage, the city or town legislative body may in its discretion consider any or all of the following factors: The difference in cost of service to the various customers; the location of the various customers within and without the city or town; the difference in cost of maintenance, operation, repair, and replacement of the various parts of the system; the different character of the service furnished various customers; the quantity and quality of the sewage delivered and the time of its delivery; the achievement of water conservation goals and the discouragement of wasteful water use practices; capital contributions made to the system, including but not limited to, assessments; and any other matters which present a reasonable difference as a ground for distinction.

Sec. 18. RCW 35.92.010 and 1985 c 445 s 4 and 1985 c 444 s 2 are each reenacted and amended to read as follows:

A city or town may construct, condemn and purchase, purchase, acquire, add to, alter, maintain and operate waterworks, within or without its limits, for the purpose of furnishing the city and its inhabitants, and any other persons, with an ample supply of water for all purposes, public and private, including water power and other power derived therefrom, with full power to regulate and control the use, distribution, and price thereof: PROVIDED, That the rates charged must be uniform for the same class of customers or service. Such waterworks may include facilities for the generation of electricity as a byproduct and such electricity may be used by the city or town or sold to an entity authorized by law to distribute electricity. Such electricity is a byproduct when the electrical generation is subordinate to the primary purpose of water supply.

In classifying customers served or service furnished, the city or town governing body may in its discretion consider any or all of the following factors: The difference in cost of service to the various customers; location of the various customers within and without the city or town; the difference in cost of maintenance, operation, repair, and replacement of the various parts of the system; the different character of the service furnished various customers; the quantity and quality of the water furnished; the time of its use; the achievement of water conservation goals and the discouragement of wasteful water use practices; capital contributions made to the system including, but not limited to, assessments; and any other matters which present a reasonable difference as a ground for distinction. No rate shall be charged that is less than the cost of the water and service to the class of customers served.

For such purposes any city or town may take, condemn and purchase, purchase, acquire, and retain water from any public or navigable lake or watercourse, surface or ground, and, by means of aqueducts or pipe lines, conduct it to the city or town; and it may erect and build dams or other works across or at the outlet of any lake or watercourse in this state for the purpose of storing and retaining water therein up to and above high water mark; and for all the purposes of erecting such aqueducts, pipe lines, dams, or waterworks or other necessary structures in storing and retaining water, or for any of the purposes provided for by this chapter, the city or town may occupy and use the beds and shores up to the high water mark of any such watercourse or lake, and

acquire the right by purchase, or by condemnation and purchase, or otherwise, to any water, water rights, easements or privileges named in this chapter, or necessary for any of said purposes, and the city or town may acquire by purchase or condemnation and purchase any properties or privileges necessary to be had to protect its water supply from pollution. Should private property be necessary for any such purposes or for storing water above high water mark, the city or town may condemn and purchase, or purchase and acquire such private property. For the purposes of waterworks which include facilities for the generation of electricity as a byproduct, nothing in this section may be construed to authorize a city or town that does not own or operate an electric utility system to condemn electric generating, transmission, or distribution rights or facilities of entities authorized by law to distribute electricity, or to acquire such rights or facilities without the consent of the owner.

Sec. 19. RCW 56.16.090 and 1974 ex.s. c 58 s 3 are each amended to read as follows:

The sewer commissioners of any sewer district, in the event that such sewer revenue bonds are issued, shall provide for revenues by fixing rates and charges for the furnishing of sewerage disposal service to those to whom such service is available. Such rates and charges may be combined for the furnishing of more than one type of sewer service such as but not limited to storm or surface water and sanitary. Such rates and charges are to be fixed as deemed necessary by such sewer commissioners, so that uniform charges will be made for the same class of customer or service.

In classifying customers served or service furnished by such system of sewerage, the board of commissioners may in its discretion consider any or all of the following factors: The difference in cost of service to the various customers; the location of the various customers within and without the district; the difference in cost of maintenance, operation, repair, and replacement of the various parts of the system; the different character of the service furnished various customers; the quantity and quality of the sewage delivered and the time of its delivery; the achievement of water conservation goals and the discouragement of wasteful water use practices; capital contributions made to the system including but not limited to assessments; and any other matters which present a reasonable difference as a ground for distinction. Such rates are to be made on a monthly basis and shall produce revenues sufficient to take care of the costs of maintenance and operation, revenue bond and warrant interest and principal amortization requirements, and all other charges necessary for efficient and proper operation of the system.

Sec. 20. RCW 57.20.020 and 1983 c 167 s 164 are each amended to read as follows:

(1) Whenever any issue or issues of water revenue bonds have been authorized in compliance with the provisions of RCW 57.16.010 through 57.16.040, said bonds shall be in bearer form or registered as to principal or interest or both, as provided in RCW 39.46.030, and may provide for conversion between registered and coupon bonds; shall be in such denominations, shall be numbered, shall bear such date, and shall be payable at such time or times up to a maximum period of not to exceed thirty years as shall be determined by the board of water commissioners of the district; shall bear interest at such rate or rates payable at such time or times as authorized by the board; shall be payable at the office of the county treasurer of the county in which the water district is located and may also be payable at such other place or places as the board of water commissioners may determine; shall be executed by the president of the board of water commissioners and attested and sealed by the secretary thereof, one of which signatures may, with the written permission of the signator whose facsimile signature is being used, be a facsimile; and may have facsimile signatures of said president or secretary imprinted on any interest coupons in lieu of original signatures.

The water district commissioners shall have power and are required to create a special fund or funds for the sole purpose of paying the interest and principal of such bonds into which special fund or funds the said water district commissioners shall obligate and bind the water district to set aside and pay a fixed proportion of the gross revenues of the water supply system or any fixed amount out of and not exceeding a fixed proportion of such revenues, or a fixed amount or amounts without regard to any fixed proportion and such bonds and the interest thereof shall be payable only out of such special fund or funds, but shall be a lien and charge against all revenues and payments received from any utility local improvement district or districts pledged to secure such bonds, subject only to operating and maintenance expenses.

In creating any such special fund or funds the water district commissioners of such water district shall have due regard to the cost of operation and maintenance of the plant or system as constructed or added to and to any proportion or part of the revenue previously pledged as a fund for the payment of bonds, warrants or other indebtedness, and shall not set aside into such special fund a greater amount or proportion of the revenue and proceeds than in their judgment will be available over and above such cost of maintenance and operation and the amount or proportion, if any, of the revenue so previously pledged. Any such bonds and interest thereon issued against any such fund as herein provided shall be a valid claim of the owner thereof only as against the said special fund and its fixed proportion or amount of the revenue pledged to such fund, and shall not constitute an indebtedness of such water district within the meaning of the constitutional provisions and limitations. Each such bond shall state upon its face that it is payable from a special fund, naming the said fund and the resolution creating it. Said bonds shall be sold in such manner, at such price and at such rate or rates of interest as the water district commissioners shall deem for the best interests of the water district, either at public or private sale, and the said commissioners may provide in any contract for the construction and acquirement of the proposed improvement (and for the refunding of outstanding local improvement district obligations, if any) that payment therefor shall be made in such bonds at par value thereof.

When any such special fund shall have been heretofore or shall be hereafter created and any such bonds shall have been heretofore or shall hereafter be issued against the same a fixed proportion or a fixed amount out of and not to exceed such fixed proportion, or a fixed amount or amounts without regard to any fixed proportion, of revenue shall be set aside and paid into said special fund as provided in the resolution creating such fund or authorizing such bonds, and in case any water district shall fail thus to set aside and pay said fixed proportion or amount as aforesaid, the owner of any bond payable from such special fund may bring suit or action against the water district and compel such setting aside and payment.

(2) Notwithstanding subsection (1) of this section, such bonds may be issued and sold in accordance with chapter 39.46 RCW.

(3) The water district commissioners of any water district, in the event that such water revenue bonds are issued, shall provide for revenues by fixing rates and charges for the furnishing of water supply to those receiving such service, such rates and charges to be fixed as deemed necessary by such water district commissioners, so that uniform charges will be made for the same class of customer or service.

In classifying customers served or service furnished by such water supply system, the board of water commissioners may in its discretion consider any or all of the following factors: The difference in cost of service to the various customers; the location of the various customers within and without the district; the difference in cost of maintenance, operation, repair and replacement of the various parts of the system; the different character of the service furnished various customers; the quantity and quality of the water furnished; the time of its use; the achievement of water conservation goals and the discouragement of wasteful practices; capital contributions made to the system

including but not limited to assessments; and any other matters which present a reasonable difference as a ground for distinction. Such rates shall be made on a monthly basis as may be deemed proper by such commissioners and as fixed by resolution and shall produce revenues sufficient to take care of the costs of maintenance and operation, revenue bond and warrant interest and principal amortization requirements and all other charges necessary for efficient and proper operation of the system.

Sec. 21. RCW 54.24.080 and 1959 c 218 s 9 are each amended to read as follows:

(1) The commission of each district which shall have revenue obligations outstanding shall have the power and shall be required to establish, maintain, and collect rates or charges for electric energy and water and other services, facilities, and commodities sold, furnished, or supplied by the district which shall be fair and nondiscriminatory and adequate to provide revenues sufficient for the payment of the principal of and interest on such revenue obligations for which the payment has not otherwise been provided and all payments which the district is obligated to set aside in any special fund or funds created for such purpose, and for the proper operation and maintenance of the public utility and all necessary repairs, replacements, and renewals thereof.

(2) In establishing rates or charges for water service, commissioners may in their discretion consider the achievement of water conservation goals and the discouragement of wasteful water use practices.

Sec. 22. RCW 80.28.010 and 1990 1st ex.s. c 1 s 5 are each amended to read as follows:

(1) All charges made, demanded or received by any gas company, electrical company or water company for gas, electricity or water, or for any service rendered or to be rendered in connection therewith, shall be just, fair, reasonable and sufficient.

(2) Every gas company, electrical company and water company shall furnish and supply such service, instrumentalities and facilities as shall be safe, adequate and efficient, and in all respects just and reasonable.

(3) All rules and regulations issued by any gas company, electrical company or water company, affecting or pertaining to the sale or distribution of its product, shall be just and reasonable.

(4) Until June 30, 1991:

(a) Utility service for residential space heating shall not be terminated between November 15 through March 15 if the customer:

(i) Notifies the utility of the inability to pay the bill, including a security deposit. This notice should be provided within five business days of receiving a payment overdue notice unless there are extenuating circumstances. If the customer fails to notify the utility within five business days and service is terminated, the customer can, by paying reconnection charges, if any, and fulfilling the requirements of this section, receive the protections of this chapter;

(ii) Provides self-certification of household income for the prior twelve months to a grantee of the department of community development which administers federally funded energy assistance programs. The grantee shall determine that the household income does not exceed the maximum allowed for eligibility under the state's plan for low-income energy assistance under 42 U.S.C. 8624 and shall provide a dollar figure that is seven percent of household income. The grantee may verify information provided in the self-certification;

(iii) Has applied for home heating assistance from applicable government and private sector organizations and certifies that any assistance received will be applied to the current bill and future utility bills;

(iv) Has applied for low-income weatherization assistance to the utility or other appropriate agency if such assistance is available for the dwelling;

(v) Agrees to a payment plan and agrees to maintain the payment plan. The plan will be designed both to pay the past due bill by the following October 15 and to pay for continued utility service. If the past due bill is not paid by the following October 15, the customer shall not be eligible for protections under this chapter until the past due bill is paid. The plan shall not require monthly payments in excess of seven percent of the customer's monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter during November 15 through March 15. A customer may agree to pay a higher percentage during this period, but shall not be in default unless payment during this period is less than seven percent of monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter. If assistance payments are received by the customer subsequent to implementation of the plan, the customer shall contact the utility to reformulate the plan; and

(vi) Agrees to pay the moneys owed even if he or she moves.

(b) The utility shall:

(i) Include in any notice that an account is delinquent and that service may be subject to termination, a description of the customer's duties in this section;

(ii) Assist the customer in fulfilling the requirements under this section;

(iii) Be authorized to transfer an account to a new residence when a customer who has established a plan under this section moves from one residence to another within the same utility service area;

(iv) Be permitted to disconnect service if the customer fails to honor the payment program. Utilities may continue to disconnect service for those practices authorized by law other than for nonpayment as provided for in this subsection. Customers who qualify for payment plans under this section who default on their payment plans and are disconnected can be reconnected and maintain the protections afforded under this chapter by paying reconnection charges, if any, and by paying all amounts that would have been due and owing under the terms of the applicable payment plan, absent default, on the date on which service is reconnected; and

(v) Advise the customer in writing at the time it disconnects service that it will restore service if the customer contacts the utility and fulfills the other requirements of this section.

(c) A payment plan implemented under this section is consistent with RCW 80.28.080.

(5) Every gas company and electrical company shall offer residential customers the option of a budget billing or equal payment plan. The budget billing or equal payment plan shall be offered low-income customers eligible under the state's plan for low-income energy assistance prepared in accordance with 42 U.S.C. 8624(C)(1) without limiting availability to certain months of the year, without regard to the length of time the customer has occupied the premises, and without regard to whether the customer is the tenant or owner of the premises occupied.

(6) Every gas company, electrical company and water company shall construct and maintain such facilities in connection with the manufacture and distribution of its product as will be efficient and safe to its employees and the public.

(7) An agreement between the customer and the utility, whether oral or written, shall not waive the protections afforded under this chapter.

(8) In establishing rates or charges for water service, water companies as defined in RCW 80.04.010 may consider the achievement of water conservation goals and the discouragement of wasteful water use practices.

Sec. 23. RCW 80.28.025 and 1980 c 149 s 2 are each amended to read as follows:

(1) In establishing rates for each gas and electric company regulated by this chapter, the commission shall adopt policies to encourage meeting or reducing energy demand through cogeneration as defined in RCW 82.35.020, measures which improve the efficiency of energy end use, and new projects which produce or generate energy from

renewable resources, such as solar energy, wind energy, hydroelectric energy, geothermal energy, wood, wood waste, municipal wastes, agricultural products and wastes, and end-use waste heat. These policies shall include but are not limited to allowing a return on investment in measures to improve the efficiency of energy end use, cogeneration, or projects which produce or generate energy from renewable resources which return is established by adding an increment of two percent to the rate of return on common equity permitted on the company's other investment. Measures or projects encouraged under this section are those for which construction or installation is begun after June 12, 1980, and before January 1, 1990, and which, at the time they are placed in the rate base, are reasonably expected to save, produce, or generate energy at a total incremental system cost per unit of energy delivered to end use which is less than or equal to the incremental system cost per unit of energy delivered to end use from similarly available conventional energy resources which utilize nuclear energy or fossil fuels and which the gas or electric company could acquire to meet energy demand in the same time period. The rate of return increment shall be allowed for a period not to exceed thirty years after the measure or project is first placed in the rate base.

(2) In establishing rates for water companies regulated by this chapter, the commission may consider the achievement of water conservation goals and the discouragement of wasteful water use practices.

NEW SECTION. Sec. 24. A new section is added to chapter 82.04 RCW to read as follows:

The tax imposed by RCW 82.04.240 shall not apply to the treatment or processing of effluent water purchased for commercial use directly from a sewage treatment facility operated by any county, city, town, political subdivision, or municipal or quasi-municipal corporation of this state. This section shall expire December 31, 1993, unless extended by the legislature.

Sec. 25. RCW 90.14.140 and 1987 c 125 s 1 are each amended to read as follows:

(1) For the purposes of RCW 90.14.130 through 90.14.180, "sufficient cause" shall be defined as the nonuse of all or a portion of the water by the owner of a water right for a period of five or more consecutive years where such nonuse occurs as a result of:

- (a) Drought, or other unavailability of water;
- (b) Active service in the armed forces of the United States during military crisis;
- (c) Nonvoluntary service in the armed forces of the United States;
- (d) The operation of legal proceedings;
- (e) Federal laws imposing land or water use restrictions either directly or through the voluntary enrollment of a landowner in a federal program implementing those laws, or acreage limitations, or production quotas.

(2) Notwithstanding any other provisions of RCW 90.14.130 through 90.14.180, there shall be no relinquishment of any water right:

(a) If such right is claimed for power development purposes under chapter 90.16 RCW and annual license fees are paid in accordance with chapter 90.16 RCW, or

(b) If such right is used for a standby or reserve water supply to be used in time of drought or other low flow period so long as withdrawal or diversion facilities are maintained in good operating condition for the use of such reserve or standby water supply, or

(c) If such right is claimed for a determined future development to take place either within fifteen years of July 1, 1967, or the most recent beneficial use of the water right, whichever date is later, or

(d) If such right is claimed for municipal water supply purposes under chapter 90.03 RCW, or

(e) If the nonuse occurs after the effective date of this section, where such right is claimed by an irrigation district for the benefit of lands lying within such district, or

(f) If such waters are not subject to appropriation under the applicable provisions of RCW 90.40.030 as now or hereafter amended.

NEW SECTION. Sec. 26. A new section is added to chapter 82.12 RCW to read as follows:

This chapter shall not apply with respect to the use of treated or processed effluent water purchased for commercial use directly from a sewage treatment facility operated by any county, city, town, political subdivision, or municipal or quasi-municipal corporation of this state. This section shall expire December 31, 1993, unless extended by the legislature.

NEW SECTION. Sec. 27. Sections 1 and 5 through 13 of this act shall constitute a new chapter in Title 90 RCW.

NEW SECTION. Sec. 28. Section 4 of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1991.

NEW SECTION. Sec. 29. If specific funding for the purposes of this act, referencing this act by bill number, is not provided by June 30, 1991, in the omnibus appropriations act, this act shall be null and void.

NEW SECTION. Sec. 30. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

SENATE AMENDMENTS TO HOUSE BILL

April 28, 1991

Mr. Speaker:

The Senate has passed HOUSE BILL NO. 1299 with the following amendments:

Strike everything after the enacting clause and insert the following:

Sec. 1. RCW 84.38.020 and 1984 c 220 s 20 are each amended to read as follows:

Unless a different meaning is plainly required by the context, the following words and phrases as hereinafter used in this chapter shall have the following meanings:

(1) "Claimant" means a person who (~~is receiving a property tax exemption under RCW 84.36.381 through 84.36.389 and who~~) either elects or is required under RCW 84.64.030 or 84.64.050 to defer payment of the special assessments and/or real property

taxes accrued on ~~((his))~~ the claimant's residence by filing a declaration to defer as provided by this chapter.

When two or more individuals of a household file or seek to file a declaration to defer, they may determine between them as to who the claimant shall be.

(2) "Department" means the state department of revenue.

(3) "Equity value" means the amount by which the fair market value of a residence as determined from the records of the county assessor exceeds the total amount of any liens or other obligations against the property.

(4) "Special assessment" means the charge or obligation imposed by a city, town, county, or other municipal corporation upon property specially benefited by a local improvement, including assessments under chapters 35.44, 36.88, 36.94, 53.08, 54.16, 56.20, 57.16, 86.09, and 87.03 RCW and any other relevant chapter.

(5) "Real property taxes" means ad valorem property taxes levied on a residence in this state in the preceding calendar year.

Sec. 2. RCW 84.38.030 and 1988 c 222 s 11 are each amended to read as follows:

A claimant may defer payment of special assessments and/or real property taxes on ~~((his property that is receiving an exemption under RCW 84.36.381 through 84.36.389 or))~~ up to eighty percent of the amount of ~~((his))~~ the claimant's equity value in ~~((said property))~~ the claimant's residence if the following conditions are met:

(1) The claimant must meet all requirements for an exemption for the residence under RCW 84.36.381, other than the income limits.

(2) The claimant must have a combined disposable income, as defined in RCW 84.36.383, of thirty thousand dollars or less.

(3) The claimant must have owned, at the time of filing, the residence on which the special assessment and/or real property taxes have been imposed. For purposes of this subsection, a residence owned by a marital community or owned by cotenants shall be deemed to be owned by each spouse or cotenant. A claimant who has only a share ownership in cooperative housing, a life estate, a lease for life, or a revocable trust does not satisfy the ownership requirement.

~~((2))~~ (4) The claimant must have and keep in force fire and casualty insurance in sufficient amount to protect the interest of the state in the claimant's equity value: PROVIDED, That if the claimant fails to keep fire and casualty insurance in force to the extent of the state's interest in the claimant's equity value, the amount deferred shall not exceed one hundred percent of the claimant's equity value in the land or lot only.

~~((3))~~ (5) In the case of special assessment deferral, the claimant must have opted for payment of such special assessments on the installment method if such method was available.

Sec. 3. RCW 84.36.381 and 1987 c 301 s 1 are each amended to read as follows:

A person shall be exempt from any legal obligation to pay all or a portion of the amount of excess and regular real property taxes due and payable in the year following the year in which a claim is filed, and thereafter, in accordance with the following:

(1) The property taxes must have been imposed upon a residence which was occupied by the person claiming the exemption as a principal place of residence as of January 1st of the year for which the exemption is claimed: PROVIDED, That any person who sells, transfers, or is displaced from his or her residence may transfer his or her exemption status to a replacement residence, but no claimant shall receive an exemption on more than one residence in any year: PROVIDED FURTHER, That confinement of the person to a hospital or nursing home shall not disqualify the claim of exemption if the residence is temporarily unoccupied or if the residence is occupied by a spouse and/or a person financially dependent on the claimant for support;

(2) The person claiming the exemption must have owned, at the time of filing, in fee, as a life estate, or by contract purchase, the residence on which the property taxes have been imposed or if the person claiming the exemption lives in a cooperative housing

association, corporation, or partnership, such person must own a share therein representing the unit or portion of the structure in which he or she resides. For purposes of this subsection, a residence owned by a marital community or owned by cotenants shall be deemed to be owned by each spouse or cotenant, and any lease for life shall be deemed a life estate;

(3) The person claiming the exemption must (~~(have been)~~) be sixty-one years of age or older on (~~(January 1st)~~) December 31st of the year in which the exemption claim is filed, or must have been, at the time of filing, retired from regular gainful employment by reason of physical disability: PROVIDED, That any surviving spouse of a person who was receiving an exemption at the time of the person's death shall qualify if the surviving spouse is fifty-seven years of age or older and otherwise meets the requirements of this section;

(4) The amount that the person shall be exempt from an obligation to pay shall be calculated on the basis of combined disposable income, as defined in RCW 84.36.383. If the person claiming the exemption was retired for two months or more of the preceding year, the combined disposable income of such person shall be calculated by multiplying the average monthly combined disposable income of such person during the months such person was retired by twelve.

(5) (a) A person who otherwise qualifies under this section and has a combined disposable income of eighteen thousand dollars or less shall be exempt from all excess property taxes; and

(b)(i) A person who otherwise qualifies under this section and has a combined disposable income of fourteen thousand dollars or less but greater than twelve thousand dollars shall be exempt from all regular property taxes on the greater of twenty-four thousand dollars or thirty percent of the valuation of his or her residence, but not to exceed forty thousand dollars of the valuation of his or her residence; or

(ii) A person who otherwise qualifies under this section and has a combined disposable income of twelve thousand dollars or less shall be exempt from all regular property taxes on the greater of twenty-eight thousand dollars or fifty percent of the valuation of his or her residence.

Sec. 4. RCW 84.36.383 and 1991 c __ s 1 (HB 1642) are each amended to read as follows:

(4) "Department" shall mean the state department of revenue.

(5) "Combined disposable income" means the disposable income of the person claiming the exemption, plus the disposable income of his or her spouse, and the disposable income of each cotenant occupying the residence for the preceding calendar year, less amounts paid by the person claiming the exemption or his or her spouse during the previous year for the treatment or care of either person received in the home or in a nursing home.

(6) "Disposable income" means adjusted gross income as defined in the federal internal revenue code, as amended prior to January 1, 1989, or such subsequent date as the director may provide by rule consistent with the purpose of this section, plus all of the following items to the extent they are not included in or have been deducted from adjusted gross income:

REPORT OF CONFERENCE COMMITTEE

ESSB 5555

April 28, 1991

Includes "New Item": YES

Mr. Speaker:

Mr. President:

We of your Conference Committee, to whom was referred ENGROSSED SUBSTITUTE SENATE BILL NO. 5555, providing assistance for timber harvesting areas, have had the same under consideration and we recommend that:

All previous amendments not be adopted, and the following striking amendment by the Conference Committee be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that:

(1) The economic health and well-being of timber-dependent communities is of substantial public concern. The significant reduction in annual timber harvest levels likely will result in reduced economic activity and persistent unemployment and underemployment over time, which would be a serious threat to the safety, health, and welfare of residents of the timber impact areas, decreasing the value of private investments and jeopardizing the sources of public revenue.

(2) Timber impact areas are most often located in areas that are experiencing little or no economic growth, creating an even greater risk to the health, safety, and welfare of these communities. The ability to remedy problems caused by the substantial reduction in harvest activity is beyond the power and control of the regulatory process and influence of the state, and the ordinary operations of private enterprise without additional governmental assistance are insufficient to adequately remedy the resulting problems of poverty and unemployment.

(3) To address these concerns, it is the intent of the legislature to increase training and retraining services accessible to timber impact areas, and provide for coordination of

noneconomic development services in timber impact areas as economic development efforts will not succeed unless social, housing, health, and other needs are addressed.

NEW SECTION. Sec. 2. (1) Coordination of the programs in this act shall be through the economic recovery coordination board created in section 6, chapter ____, Laws of 1991 (Engrossed Substitute House Bill No. 1341), the timber recovery coordinator created in section 3, chapter ____, Laws of 1991 (Engrossed Substitute House Bill No. 1341), and the agency timber task force created in section 4, chapter ____, Laws of 1991 (Engrossed Substitute House Bill No. 1341).

(2) This section shall expire June 30, 1993.

NEW SECTION. Sec. 3. (1) Subject to the availability of state or federal funds, the employment security department, as a member of the agency timber task force and in consultation with the economic recovery coordination board, shall consult with and may subcontract with local educational institutions, local businesses, local labor organizations, local associate development organizations, local private industry councils, local social service organizations, and local governments in carrying out a program of training and services, including training through the self-employment and enterprise development (SEED) program, for dislocated workers in timber impact areas.

(2) The department shall conduct a survey to determine the actual future employment needs and jobs skills in timber impact areas.

(3) The department shall coordinate the services provided in this section with all other services provided by the department and with the other economic recovery efforts undertaken by state and local government agencies on behalf of the timber impact areas.

(4) The department shall make every effort to procure additional federal and other moneys for the efforts enumerated in this section.

(5) For the purposes of this section, "timber impact area" means a county having a population of less than five hundred thousand, or a city or town located within a county having a population of less than five hundred thousand, and meeting two of the following three criteria, as determined by the employment security department, for the most recent year such data is available: (a) A lumber and wood products employment location quotient at or above the state average; (b) projected or actual direct lumber and wood products job losses of one hundred positions or more, except counties having a population greater than two hundred thousand but less than five hundred thousand must have direct lumber and wood products job losses of one thousand positions or more; or (c) an annual unemployment rate twenty percent or more above the state average.

NEW SECTION. Sec. 4. A new section is added to chapter 50.22 RCW to read as follows:

(1) An additional benefit period is established for counties identified under subsection (2) of this section beginning on the first Sunday after the effective date of this section and for the forest products industry beginning with the third week after the first Sunday after the effective date of this section. Benefits shall be paid as provided in subsection (3) of this section to exhaustees eligible under subsection (4) of this section.

(2) The additional benefit period applies to counties having a population of less than five hundred thousand beginning with the third week after a week in which the commissioner determines that a county meets two of the following three criteria, as determined by the department, for the most recent year in which such data is available: (a) A lumber and wood products employment location quotient at or above the state average; (b) projected or actual direct lumber and wood products job losses of one hundred positions or more, except counties having a population greater than two hundred thousand but less than five hundred thousand must have direct lumber and wood products job losses of one thousand positions or more; or (c) an annual unemployment rate twenty percent or more above the state average. The additional benefit period for a county may end no sooner than fifty-two weeks after the additional benefit period begins.

(3) Additional benefits shall be paid as follows:

(a) No new claims for additional benefits shall be accepted for weeks beginning after July 3, 1993, but for claims established on or before July 3, 1993, weeks of unemployment occurring after July 3, 1993, shall be compensated as provided in this section.

(b) The total additional benefit amount shall be fifty-two times the individual's weekly benefit amount, reduced by the total amount of regular benefits and extended benefits paid, or deemed paid, with respect to the benefit year. Additional benefits shall not be payable for weeks more than one year beyond the end of the benefit year of the regular claim, and shall be payable for up to five weeks following the completion of the training required by this section.

(c) The weekly benefit amount shall be calculated as specified in RCW 50.22.040.

(d) Benefits paid under this section shall be paid under the same terms and conditions as regular benefits and shall not be charged to the experience rating account of individual employers. The additional benefit period shall be suspended with the start of an extended benefit period, or any totally federally funded benefit program, with eligibility criteria and benefits comparable to the program established by this section, and shall resume the first week following the end of the federal program.

(4) An additional benefit eligibility period is established for any exhaustee who:

(a)(i) At the time of last separation from employment, resided in or was employed in a county identified under subsection (2) of this section; or

(ii) During his or her base year, earned wages in at least six hundred eighty hours in the forest products industry, which shall be determined by the department but shall include the industries assigned the major group standard industrial classification codes "24" and "26" and the industries involved in the harvesting and management of logs, transportation of logs and wood products, processing of wood products, and the manufacturing and distribution of wood processing and logging equipment. The commissioner may adopt rules further interpreting the industries covered under this subsection. For the purposes of this subsection, "standard industrial classification code" means the code identified in RCW 50.29.025(6)(c); and

(b) (i) Has received notice of termination or lay off; and

(ii) Is unlikely to return to employment in his or her principal occupation or previous industry because of a diminishing demand within his or her labor market for his or her skills in the occupation or industry; and

(c)(i) Is notified by the department of the requirements of this section and develops an individual training program that is submitted to the commissioner for approval not later than sixty days after the individual is notified of the requirements of this section, and enters the approved training program not later than ninety days after the date of the individual's termination or layoff, or ninety days after the effective date of this section, whichever is later, unless the department determines that the training is not available during the ninety-day period, in which case the individual shall enter training as soon as it is available; or

(ii) Is enrolled in training approved under this section on a full-time basis and maintains satisfactory progress in the training; and

(d) Does not receive a training allowance or stipend under the provisions of any federal or state law.

(5) For the purposes of this section:

(a) "Training program" means:

(i) A remedial education program determined to be necessary after counseling at the educational institution in which the individual enrolls pursuant to his or her approved training program; or

(ii) A vocational training program at an educational institution that:

(A) Is training for a labor demand occupation;

(B) Is likely to facilitate a substantial enhancement of the individual's marketable skills and earning power; and

(C) Does not include on-the-job training or other training under which the individual is paid by an employer for work performed by the individual during the time that the individual receives additional benefits under subsection (1) of this section.

(b) "Educational institution" means an institution of higher education as defined in RCW 28B.10.016 or an educational institution as defined in RCW 28C.04.410(3).

(c) "Training allowance or stipend" means discretionary use, cash-in-hand payments available to the individual to be used as the individual sees fit, but does not mean direct or indirect compensation for training costs, such as tuition or books and supplies.

(6) The commissioner shall adopt rules as necessary to implement this section.

NEW SECTION. Sec. 5. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Department" means the employment security department.

MOTION

Ms. Belcher moved that the House adopt the Report of Conference Committee on Engrossed Substitute Senate Bill No. 5555. The motion was carried.

POINT OF INQUIRY

Ms. Belcher yielded to question by Ms. Fraser:

Ms. Fraser: This bill establishes a five-year natural resources worker project to assist dislocated forest products workers. A goal of the program is to enable these workers to become eligible for permanent state employment with agencies, such as the Departments of Wildlife, Fisheries, Natural Resources and others. Does this bill provide that these workers will be guaranteed jobs with the state after they finish the program?

Ms. Belcher: No, Representative Fraser. These workers will receive training to help them qualify for state employment, but they will not receive any preferences as a result of participating in the program and they will be required to meet all the standard eligibility requirements for state employment.

Representatives Bowman and Sheldon spoke in favor of passage of the bill.

The Speaker stated the question before the House to be the Point of Order by Representative Padden regarding the scope and object of the Conference Committee amendments.

SPEAKER'S RULING

The Speaker: Engrossed Substitute House Bill No. 2026 is a measure dealing with water resources management--a comprehensive bill. It deals with a number of matters relating to resource management, conservation and water use efficiency.

MOTION

On motion of Mr. Wineberry, the 1991 Regular Session of the Fifty-Second Legislature was adjourned Sine Die.

JOSEPH E. KING, Speaker

ALAN THOMPSON, Chief Clerk

FIRST SPECIAL SESSION

FIRST DAY

MORNING SESSION

House Chamber, Olympia, Monday, June 10, 1991

The House was called to order at 10:00 a.m. by the Speaker (Mr. O'Brien presiding). The Clerk called the roll and all members were present.

The flag was escorted to the rostrum by a Sergeant at Arms Color Guard, Pages Tanu Frank and Anuhea Martin. Prayer was offered by Father Gary Zender, Minister of St. Michael's Parish of Olympia:

Holy God, as we begin this Special Session we acknowledge our total dependence on You. The fact that we are here reminds us of our weakness and our struggle to meet the needs of our children and of this world. We pray that Your spirit of unity may be in this session to guide these leaders who are dedicated to serving the needs of all our people. May the needs of the poor be served, so that their minds may be opened to education. May education be a priority for us all, so that poverty and its suffering may be eliminated.

We praise You for Your presence, O Holy God. Amen.

MESSAGE FROM THE SECRETARY OF STATE

The Honorable Speaker of the House of Representatives
Legislature of the State of Washington
Olympia, Washington
Mr. Speaker:

I have attached a full, true and correct copy of Proclamation No. 91-01 by the Governor calling a special session of the Washington State Legislature to be convened at 10:00 a.m. on June 10, 1991.

IN TESTIMONY WHEREOF, I have hereunto set my hand, and affixed the Seal of the State of Washington at Olympia, this 10th day of June 1991.

(Seal)

RALPH MUNRO, Secretary of State.

PROCLAMATION BY THE GOVERNOR

WHEREAS, in accordance with Article II, Section 12 (Amendment 68) the Legislature adjourned the 1991 Regular Session on April 28, 1991, without finishing its essential tasks; and

WHEREAS, it is therefore necessary for me to convene a Special Session for the purpose of adequately addressing those essential tasks not completed;

NOW, THEREFORE, I, Booth Gardner, Governor of the state of Washington, by virtue of the authority vested in me by Article II, Section 12 (Amendment 68) and Article III, Section 7 of the State Constitution, do hereby convene the Legislature of the state of Washington on Monday, the tenth day of June, 1991, at 10:00 a.m.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the State of Washington to be affixed at Olympia this 4th day of June, A.D., nineteen hundred and ninety-one.

(Seal)

BOOTH GARDNER, Governor.

MESSAGE FROM THE SECRETARY OF STATE

The Honorable Speaker of the House of Representatives
Legislature of the State of Washington
Olympia, Washington
Mr. Speaker:

We respectfully transmit for your consideration the following bills which have been vetoed by the Governor, together with the official veto messages of the Governor setting forth his objections to the bills as required by Article III, section 12, of the Washington State constitution:

Substitute House Bill No. 1525

Substitute House Bill No. 1821

IN TESTIMONY WHEREOF, I have hereunto set my hand, and affixed the Seal of the State of Washington at Olympia, this 10th day of June 1991.

(Seal)

RALPH MUNRO, Secretary of State.

MESSAGES FROM THE GOVERNOR

May 15, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute House Bill No. 1525 entitled:

"AN ACT Relating to government travel and subsistence rates for educational employees."

This bill allows local school districts and educational service districts to process travel payments through the Superintendent of Public Instruction for district travel costs in an attempt to share in the benefit of state negotiated travel rates. Districts would reimburse the Superintendent of Public Instruction for payments to the local district employees. The bill also requires the Department of General Administration to take all reasonable and necessary action to include educational service districts and school districts as direct beneficiaries in any future preferred travel, lodging or subsistence rates contract.

The Department of General Administration has tried to include political subdivisions in airfare contracts and the providers have not been amendable to including them. The current state contract specifically excludes political subdivisions. The Department of General Administration will work with cities, counties and school associations to assist them in developing a mechanism for negotiating as a unit with airfare providers for reduced rates. The mechanism presented in this bill, however, could violate the existing state contract. Since the bill cannot be implemented, it provides false hope for any savings.

For these reasons, I have vetoed Substitute House Bill No. 1525.

Respectfully submitted,
Booth Gardner, Governor.

May 21, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval Substitute House Bill No. 1821 entitled:

"AN ACT Relating to the fraudulent installation of fire protection sprinkler systems."

This act amends the criminal code, making it a gross misdemeanor for anyone to install, construct, or maintain a fire protection sprinkler system without first obtaining from the State of Washington, a fire sprinkler contractor's license.

In requiring a license for all personnel who work on sprinkler systems, in-house maintenance employees would be prohibited from performing responsibilities currently required by their employer. The drafters of this legislation note that they did not intend to eliminate the exemption for in-house employees which was enacted just last year.

The inadvertent impact of subsection two of this act requires a veto of the entire section, and thus the entire bill. However, because the stated goal of this legislation is laudable, I am directing the Department of Community Development to work with the proponents of this bill to prepare agency request legislation which will accomplish the stated goal without the unintended consequence of this act.

For the reason stated, I have vetoed Substitute House Bill No. 1821 in its entirety.

Respectfully submitted,
Booth Gardner, Governor.

RALPH MUNRO, Secretary of State.

MESSAGES FROM THE GOVERNOR

May 10, 1991

To the Honorable, the House
of Representatives of
the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 12, Substitute House Bill No. 1052 entitled:

"AN ACT Relating to clarification of existing public assistance statutes."

This bill contains important state policy regarding implementation of new federal laws. It was amended by legislative committees after thoughtful review and receipt of public testimony.

The programs referenced are contained in the Essential Requirements Level of my proposed budget, as well as in the proposed budgets of the House and Senate.

I am vetoing section 12, the null and void clause, which would negate this bill if specific funding, referencing this bill by number, is not provided in the final budget. There is no need for a specific reference to this bill by number in the budget.

For this reason, I have vetoed section 12 of Substitute House Bill No. 1052.

With the exception of Section 12, Substitute House Bill No. 1052 is approved.

Respectfully submitted,
Booth Gardner, Governor.

May 10, 1991

To the Honorable, the House
of Representatives of
the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 12, Substitute House Bill No. 1051 entitled:

"AN ACT Relating to international student exchange programs."

This bill takes a first step toward regulating organizations involved in international student exchange activities in Washington by requiring that these organizations register with the Office of the Secretary of State. In addition, the Superintendent of Public Instruction is required to notify school districts of the names of international student exchange organizations that have registered with the state. I concur with the need to provide greater accountability by establishing standards and providing public access to certain basic information regarding such organizations.

Section 12 of the bill requires the Secretary of State to establish a task force on international student exchange and requires the task force to examine a list of specific issues related to international student exchange programs. No funding was provided for the task force in either the House or Senate proposed budgets. Both the Secretary of State and the Superintendent of Public Instruction have authority to establish ad-hoc committees to study issues under their respective

jurisdictions. Should the task force actually receive funding in the coming biennium, either official has the capacity to respond by convening a group with the broad membership outlined in this section.

For the reasons stated above, I have vetoed section 12 of Substitute House Bill No. 1051.

With the exception of section 12, Substitute House Bill No. 1051 is approved.

Respectfully submitted,
Booth Gardner, Governor.

May 10, 1991

To the Honorable, the House
of Representatives of
the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 3, Engrossed House Bill No. 1883 entitled:

"AN ACT Relating to gasohol."

This bill extends the tax exemption for alcohol blended fuels. By so doing, this legislation serves to promote the use of gasohol. Its enactment will reduce dependency on imported oil, strengthen relevant agricultural markets, and reduce air pollution.

Section 3 of this bill, however, is duplicative of language referenced in the Clean Air Bill, Engrossed Substitute House Bill No. 1028, section 231. For this reason, I have vetoed section 3 of Engrossed House Bill No. 1883.

With the exception of section 3, Engrossed House Bill No. 1883 is approved.

Respectfully submitted,
Booth Gardner, Governor.

May 15, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 204 and 507, Engrossed Substitute House Bill No. 1028 entitled:

"AN ACT Relating to reducing air contaminant emissions and improving air quality."

Section 204 of this bill establishes a task force to recommend a program to assist persons with vehicles failing to comply with emission standards. The task force will be appointed by the Speaker of the House and the President of the Senate; it will consist of members from each House and will report to the appropriate standing committees of the Legislature.

Section 507 establishes a task force to encourage the removal of wood stoves which do not meet current emission standards and replace such stoves with a less polluting, certified wood stove or other source of heat. This task

force will also consist of members from each House and report back to the appropriate committees of the Legislature.

While these studies may provide useful information, the Legislature does not need statutory authorization to study these issues or authorization to report back to itself. For this reason I am vetoing sections 204 and 507 of the bill.

With the exception of sections 204 and 507, Engrossed Substitute House Bill No. 1028 is approved.

Respectfully submitted,
Booth Gardner, Governor.

May 15, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 306, 1005, and 1117, Engrossed Substitute House Bill No. 1027 entitled:

"AN ACT Relating to oil and hazardous substances."

Existing state law establishes penalties for any person who negligently discharges oil into Washington's waters. Section 306 of this bill qualifies this standard by stating that an employee shall be indemnified by the owner or operator of a facility or covered vessel for any penalty resulting from a negligent discharge of oil by the employee. I am vetoing this section for three reasons. First, this penalty provision has been state law for over 20 years. Current law should not be relaxed if no problems have been identified. Second, there is no valid policy reason to exempt from penalty an employee, including a pilot or ship captain, who negligently discharges oil. Third, this section creates a special class of individuals who get special protection under the law. Others who are not employees of facilities or vessels do not get the same special treatment and are liable for penalties for the negligent discharge of oil. The veto of section 306 restores current law.

Under existing state law, the master of a vessel certifies in writing that the vessel meets certain safety requirements. If the certification is made, the pilot countersigns the certificate. If the certification is not made, the pilot must refuse to take the ship in. Section 1005 changes this requirement. There appears to be no justification for this change. Without sufficient justification, current responsibilities of masters and pilots to ensure vessel safety should be maintained.

Section 1117 states that this bill is null and void unless specific funding is provided in the omnibus appropriations act. This section conflicts with Section 1119 which declares an emergency. There is much work to do to implement this important bill and to protect Washington's marine waters from the threat of oil spills. Agencies need to begin that work now.

With the exception of sections 306, 1005, and 1117, Engrossed Substitute House Bill No. 1027 is approved.

Respectfully submitted,
Booth Gardner, Governor.

May 15, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 21 and 23, Second Substitute House Bill No. 1671 entitled:

"AN ACT Relating to growth strategies."

This bill establishes two innovative approaches to dealing with some of the problems associated with the rapid growth in this state: highway access control and transportation demand management (TDM).

Motor vehicles generate over 40% of the air pollution in our state. For this reason, I included TDM as one of the key strategies in addressing the major sources of pollution in the clean air bill I submitted to the 1991 Legislature. Reducing the number of vehicles on our roads, particularly single-occupant vehicles, through TDM measures is an effective way to reduce automobile-related air pollution, traffic congestion, and energy use.

Examples of TDM measures include carpools, vanpools, employer-subsidized transit passes, parking fees at market rates, work-at-home options and alternative work schedules. This bill allows public and private employers to choose the options that best suit their particular work situation while working toward reducing the number of their employees who drive alone to work.

TDM generated considerable interest and support among a broad range of interests, including local governments, business and environmental organizations. This bill has the imprint of all these groups.

During the legislative process, the TDM provisions were separated from the clean air bill and incorporated in Second Substitute House Bill No. 1671. Due to an oversight, the appropriate linkages were not made between the two bills to provide funding for the TDM program. I am vetoing sections 21 (codification) and 23 (null and void) to ensure that the revenue raised in Engrossed Substitute House Bill No. 1028, the clean air bill, may be used for the TDM activities prescribed in this bill as intended.

Section 21 codifies the TDM provisions of this bill in Title 81 (Transportation). Funds intended for air pollution control activities, such as TDM, are provided in Engrossed Substitute House Bill No. 1028, section 228. However, section 228 permits expenditures only for the clean air bill, of which TDM was originally a part, and RCW Chapters 70.94 and 70.120.

In vetoing section 21, I am requesting the Code Reviser to place the TDM sections of this bill into RCW Chapter 70.94, Washington Clean Air Act. This would allow TDM activities to be funded from the revenues raised in Engrossed Substitute House Bill No. 1028 for air pollution control. This action is consistent with legislative intent and the purposes for which these revenues were originally intended.

I am vetoing section 23, the null and void clause, in order to protect the significant public policy established by this bill. While the 1991-93 biennium budget has not yet been adopted, funding for TDM activities has been included from the air pollution control account in previous versions of both the House and Senate budgets.

With the exception of sections 21 and 23, Second Substitute House Bill No. 1671 is approved.

Respectfully submitted,
Booth Gardner, Governor.

May 17, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 2, Substitute House Bill No. 1243 entitled:

"AN ACT Relating to teacher preparation programs."

This bill seeks to increase collaboration and interaction between teacher preparation programs in institutions of higher education and elementary and secondary schools. I heartily agree with this objective.

Section 2 of the bill, however, requires that governing boards of state universities and colleges with teacher preparation programs adopt salary policies to reward faculty that teach in elementary and secondary schools. While the provision of salary incentives is also a laudable objective, it is not appropriate for state government to dictate particular components of salary policy, nor should a particular method of ensuring increased faculty interaction with public schools be dictated.

For the reasons stated above, I have vetoed section 2 of Substitute House Bill No. 1243.

With the exception of section 2, Substitute House Bill No. 1243 is approved.

Respectfully submitted,
Booth Gardner, Governor.

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 5, Engrossed Substitute House Bill No. 1389 entitled:

"AN ACT Relating to aquatic plants."

This bill assesses an annual \$3.00 surcharge on boat trailers in order to fund a program to address the serious environmental damage and loss of recreational opportunities caused by freshwater aquatic weeds. These problem weeds are difficult to check because these plants are usually non-native and lack any natural biological controls. Boats and trailers have been identified as a source of the spread of such problem weeds and therefore the funding mechanism contained in this bill is appropriately user-fee based.

While the legislature provided the funding mechanism, it neglected to provide an appropriation for the expenditure of these funds. I believe that establishing and funding of the freshwater aquatic weeds account is an important

first step in addressing the damage caused by these weeds and will work with the legislature to provide the authority necessary to begin program operations. For this reason, I have vetoed section 5, the "null and void" clause, of Engrossed Substitute House Bill No. 1389.

With the exception of section 5, Engrossed Substitute House Bill No. 1389 is approved.

Respectfully submitted,
Booth Gardner, Governor.

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 3, Substitute House Bill No. 1137 entitled:

"AN ACT Relating to local government."

Substitute House Bill No. 1137 is intended to clarify the definition of "criminal justice purposes" and to establish a base year against which to judge supplanting prohibitions of Chapter 1, laws of 1990, 2nd Extraordinary Session. That measure provided financial assistance to local governments to address the critical needs of their criminal justice programs.

Apart from the direction that the financial assistance provided be used for criminal justice purposes and that it not replace existing funds, local governments were left with the discretion to use these funds where most needed in their communities. This principle of local determination is an important element in the effective use of these resources.

Section 3 of Substitute House Bill No. 1137 violates this principle by requiring the city of Seattle to enter into an agreement with the office of the administrator for the courts to link to the district and municipal court information system in order to receive funds from the municipal criminal justice assistance account. Although the efficient use of criminal justice information is a laudable goal, I cannot support withholding critically needed funds to effect an administrative agreement between a state agency and local government.

In addition, the Task Force on City and County Finances was given the mandate to examine "statutory or administrative changes that will promote efficiencies in local government, including multijurisdictional coordination of services". The extent to which criminal justice assistance funds should be used to promote specific activities at the local level is appropriately left to the task force to recommend.

By my veto of section 3, I do not intend to nullify the definitions provided for the appropriate uses of local government assistance authorized last year. However, the limitations of gubernatorial veto power to entire sections of legislation require that the whole of section 3 be vetoed. I urge the State Auditor to recognize the Legislature's intentions with respect to these definitions in reviewing the appropriate use of criminal justice funds by local governments.

With the exception of section 3, Substitute House Bill No. 1137 is approved.

Respectfully submitted,
Booth Gardner, Governor.

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 1, Engrossed Substitute House Bill No. 1881 entitled:

"AN ACT Relating to determining the number of district court judges."

This bill authorizes the use of the weighted caseload analysis as the basis for determining the number of full and part-time district court judges.

RCW 3.34.010 is amended in both section 1 of Engrossed Substitute House Bill No. 1881 and section 1 of House Bill No. 1467 which adds additional district court judges. If both of these sections became law, they would be in conflict. This would create confusion in the implementation of the weighted caseload method as well as jeopardizing the new district court judge positions.

I am assured that the enactment of section 1 of Engrossed Substitute House Bill No. 1881 is not necessary in order to facilitate the weighted caseload method. To insure that this new program can be implemented without legal confusion, I have vetoed section 1 of Engrossed Substitute House Bill No. 1881.

With the exception of section 1, Engrossed Substitute House Bill No. 1881 is approved.

Respectfully submitted,
Booth Gardner, Governor.

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 1, Substitute House Bill No. 1954 entitled:

"AN ACT Relating to agricultural nuisances."

This bill expands the list of agricultural activities which are included within the exemption to statutory nuisance provisions. Because of its importance as a message, I am going to sign section 2 of this legislation. I would hope that the agricultural community becomes more involved in advocating for strong growth management regulation. The problems addressed by this legislation could better be addressed by controlling growth and preserving agricultural lands for agricultural purposes. Limiting nuisance litigation does not prevent the intrusion of urban uses into prime agricultural areas. The conflicts will only continue to escalate.

However, I have vetoed section 1 primarily because of the ambiguity that it creates regarding other important regulatory programs. As originally drafted, the bill indicated that reasonable agricultural activities could not be restricted as

to "time of day." As the bill passed, it does not allow restrictions as to "time." This could mean time of day or it could mean a season. Although this section was intended to address local noise ordinances, there are other regulatory programs that occasionally restrict agricultural activities based on seasonal criteria. For example, some activities may be limited during specific months to protect juvenile salmon. To address concerns raised by this ambiguity, I have vetoed section 1.

With the exception of section 1, Substitute House Bill No. 1954 is approved.

Respectfully submitted,
Booth Gardner, Governor.

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 23, Engrossed Substitute House Bill No. 1136 entitled:

"AN ACT Relating to cosmetology."

Engrossed Substitute House Bill No. 1136 seeks to address certain inadequacies in current law and thereby protect consumers. Section 23 creates a July 1, 1991 effective date. The concerns addressed by this bill, however, are not so urgent as to warrant this provision. Further, the Department of Licensing has stated it will take between six months and one year to fully implement the bill. For this reason, I have vetoed this section.

With the exception of section 23, Engrossed Substitute House Bill No. 1136 is approved.

Respectfully submitted,
Booth Gardner, Governor.

May 21, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 1, 15, and 16, Engrossed Substitute House Bill No. 1608 entitled:

"AN ACT Relating to children's services."

Section 1 directs the Department of Social and Health Services (DSHS) to conduct an assessment of the children in its care in order to determine the appropriate level of residential and treatment services required. This study is not made contingent upon funding in the budget. Because of the budgetary constraints agencies face in the next biennium, I cannot accept placing unfunded responsibilities upon them.

Section 15 allows any client of DSHS, individual complainant, or foster parent who exhausts the department's complaint process and who is subjected to any reprisal or retaliatory action to seek judicial review. Individuals who are

treated unfairly by a state agency should be given the opportunity to seek redress. In many cases, statutes allow for appeal of agency actions, and where loss occurs, receipt of recompense. However, where the current authority to seek review is specific, protects appellants, and insulates the state from frivolous legal actions, this section is vague and does not offer sufficient definition to develop a meaningful system of judicial review of agency actions. Further attempts to develop such a system must provide greater specificity.

Section 16 would require DSHS to notify certain foster families in writing of a decision to move a child to another placement five days prior to doing so. Current statutes do not specify the means of notification. In addition, this section removes certain circumstances under which DSHS can waive this notification requirement.

While state agencies and child placing agencies should strive to provide written notification, current workloads for child welfare workers do not always allow for such notice. More importantly, this section constrains the department's ability to move children without five days notice when the child is being returned home or is residing in a group home. Where parents voluntarily place their children in foster care, the department should not be constrained in its ability to return them to their parents when the child's safety is not jeopardized.

For the above reasons, I have vetoed sections 1, 15 and 16 of Engrossed Substitute House Bill No. 1608.

With the exception of sections 1, 15, and 16, Engrossed Substitute House Bill No. 1608 is approved.

Respectfully submitted,
Booth Gardner, Governor.

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 35, Engrossed Substitute House Bill No. 1960 entitled:

"AN ACT Relating to health professions regulation."

Subsections (2) through (11) within section 35 of this bill repeal chapter 28B.102 RCW, the Future Teachers Conditional Scholarship Program. I understand this was done in error, and that the sponsor's intent to repeal chapter 28B.104 RCW, the Nurses Conditional Scholarship Program. I cannot veto these subsections without also vetoing the other subsections of this section, and I will not sign legislation which would repeal the Teachers Scholarship Program. While I must veto section 35, I recognize that such action will leave in law conflicting provisions regarding health professional loan repayment programs. Subsequent legislation will be needed to eliminate these conflicts.

With the exception of section 35, Engrossed Substitute House Bill No. 1960 is approved.

Respectfully submitted,
Booth Gardner, Governor.

May 21, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen: 1

I am returning herewith, without my approval as to sections 17 and 23, Substitute House Bill No. 1704 entitled:

"AN ACT Relating to motor vehicle special fuel taxes."

Section 17 of this bill proposes a new study of the costs and revenues related to vehicle licensing agents and subagents and the benefits provided to the public. A similar study has already been released by the Department of Licensing, entitled Taking The Title and Registration Process To The Customer, dated January, 1991. Additionally, the Legislative Transportation Committee intends to discuss policy questions relevant to this area. Thus, the proposed study under section 17 is redundant.

Section 23 relates to the state's implied consent law. Currently, if a suspected drunk driver is asked to take a blood or breath test and refuses, the person's driving privilege is revoked. This section would rescind that revocation if the basis for the suspicion is a nonalcohol or nondrug-related medical condition and the person is subsequently found not guilty of the offense.

I vetoed a similar provision last session. As I said in my veto message last year, the implied consent law "is the state's most effective tool to combat drunken driving." My belief has not changed. Section 23 erodes the implied consent law and is, therefore, unacceptable. Adequate safeguards exist under current law to protect drivers who experience difficulties because of medical conditions.

For the reasons stated, I have vetoed sections 17 and 23 of Substitute House Bill No. 1704.

With the exception of sections 17 and 23, Substitute House Bill No. 1704 is approved.

Respectfully submitted,
Booth Gardner, Governor.

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 25, Engrossed Substitute House Bill No. 2026 entitled:

"AN ACT Relating to water resource management."

Engrossed Substitute House Bill No. 2026 is the product of more than a year of work by many groups and individuals. First, as part of the Environment 2010 project, and secondly, as part of the Chelan Agreement. The bill is heading the state in the right direction regarding water use and conservation. This bill is good public policy because, among other things, it addresses inevitable water problems in advance of a crisis. Without some creative tools, such as the trust provisions contained in this bill, reallocation of waters may occur in the courts

or by federal actions. Hopefully, the tools contained in this bill will help resolve critical water situations by allowing those within the state to direct the future use and management of our precious water resource.

Numerous groups and individuals have invested a great deal of time and energy in developing, drafting, and supporting this legislation. During the legislative process, however, a provision was added which unnecessarily creates new legal issues and institutional barriers to water conservation. The provision I am vetoing needs more public dialogue and debate by the Joint Select Committee on Water Resource Policy.

Section 25 is troubling in that it exempts irrigation districts from one of the basic tenets of water law -- "use it or lose it." Although this amendment would have placed irrigation districts in the same category as municipal water supply purveyors, it does so without sufficient discussion as to its impact on water conservation. Additional concern has been raised that adding irrigation districts to the exemption list will only compound the problem of speculation in water rights.

Irrigation districts have a vast potential for water use efficiency improvements. As technological improvements become available, irrigation will require less water to meet the increased levels of production. By codifying outdated water requirements as a measure of a water right, this section would frustrate our efforts to encourage water conservation and to locate water for presently unmet and future needs. As such, this section deserves a more comprehensive review by the Joint Select Committee on Water Resources Policy.

For the reasons stated above, I have vetoed section 25 of Engrossed Substitute House Bill No. 2026.

With the exception of section 25, Engrossed Substitute House Bill No. 2026 is approved.

Respectfully submitted,
Booth Gardner, Governor.

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 3, Substitute House Bill No. 1886 entitled:

"AN ACT Relating to alcohol and drug evaluation and treatment for individuals convicted of vehicular homicide or vehicular assault."

Section 3 of this bill requires that an individual sentenced to the custody of the department of corrections for vehicular homicide or vehicular assault also be sentenced to the community placement program. RCW 9.94A.150 regulates the conversion of earned early release time to community custody for those offenders sentenced to this program. That statute is specific as to the offenses for which an individual can be denied earned early release and placed in community custody.

Substitute House Bill No. 1886 did not amend RCW 9.94A.150 to include vehicular homicide and vehicular assault in the list of eligible offenses. As a

result, the status of offenders who earn early release will be ambiguous at the time they are eligible for release from confinement. Because of this confusion, I am vetoing section 3.

With the exception of section 3, Substitute House Bill No. 1886 is approved.

Respectfully submitted,
Booth Gardner, Governor.

May 21, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 1, House Bill No. 1013 entitled:

"AN ACT Relating to cities and towns."

Current law states that where a vote on incorporation is held, if the vote in favor of incorporation is forty percent or less of the total vote, another election on the same issue cannot be held for three years. Section 1 of this bill seeks to change the forty percent requirement to thirty percent and to make this change applicable to elections held before the effective date of this Act.

Making the change retroactive shifts the rules on the electorate after the game. Voters have a right to vote for a governing structure according to laws existing at the time of the election. Retroactively redefining the rules in this manner will only serve to frustrate the electorate and undermine our democratic process. For this reason, I have vetoed section 1.

With the exception of section 1, House Bill No. 1013 is approved.

Respectfully submitted,
Booth Gardner, Governor.

May 21, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 2, House Bill No. 2082 entitled:

"AN ACT Relating to district courts."

Section 2 of this bill addresses the question of sick leave benefits for district court judges. There is confusion as to the scope of the benefit being allowed under current law.

Section 2 attempts to clarify sick leave policy for district court judges. I am not convinced, however, that the language used in section 2 achieves that purpose. In fact, I believe that it would add further ambiguity. Because of the financial implications associated with this issue, it is important that any change in the law be set forth with precision.

I suggest that county elected officials work with district court judges to clarify and resolve sick leave issues before additional legislation is proposed.

For the reasons state, I have vetoed section 2.

With the exception of section 2, House Bill No. 2082 is approved.

Respectfully submitted,
Booth Gardner, Governor.

May 21, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 42, 60, and 156, Substitute House Bill No. 1201 entitled:

"AN ACT Relating to local government."

Section 60 of Substitute House Bill No. 1201 requires all counties that plan and zone to authorize the siting of schools in all areas within their planning jurisdictions by either outright permitted uses or conditional use permits.

The inclusion of this section in the bill is motivated by good intentions -- to remove what some school districts consider as unreasonable county zoning restrictions that apply to school location decisions. School districts are legally obligated to meet the education needs of a growing student population. To meet those needs requires districts to make every effort to acquire land and locate new schools as economically as possible. That is becoming increasingly difficult. Districts are faced with zoning restrictions that are designed to prevent urban sprawl and preserve land for other critical uses. Often these restrictions conflict with the public facility and financial needs and constraints of school districts with growing student populations.

While I agree with and recognize these very legitimate needs and concerns, I am not convinced that the best solution is to exempt the siting of schools from county planning and zoning ordinances with a county's planning jurisdiction, as proposed in section 60.

First, section 60 conflicts with the spirit and intent of the 1990 Growth Management Act. That law gives certain urban counties the primary responsibility of establishing comprehensive plans, which must include regulation of land uses, the siting of public facilities, the location of public utilities, and the designation of rural areas where urban growth should not occur.

Under the Act, counties must also establish urban growth areas within which urban growth will occur and outside of which growth can occur only if it is not urban in nature. Such decisions and plans are to be made with the participation of other affected jurisdictions, including school districts.

To exempt decisions relating to the location of schools, particularly high schools, from such considerations would be to ignore the very real impacts that these large scale public facilities have on overall growth patterns. It would also create a precedent for future exemptions that could further undermine the primary purpose of the Growth Management Act, which I not only strongly support but believe should be strengthened.

Second, section 60 contains ambiguities that could arguably expend its impact beyond what the Legislature may have intended. By simply requiring that "schools" would be a permitted use, the language leaves open the possibility that

educational facilities, other than public schools, could also be afforded the same status. I do not think section 60 was designed to apply to proprietary schools, although that is a possible interpretation of the language.

Section 42 amends RCW 35.82.285 by making technical changes relating to county classes. That amendment would conflict with a substantive amendment to the same RCW section continued in section 3 of Engrossed House Bill No. 1740. It is therefore advisable to veto section 42 so that the substantive amendment can take effect without confusion.

Section 156 amends RCW 81.104.040 by making technical changes relating to county classes. An amendment to the same RCW section continuing identical technical changes also appears in Substitute House Bill No. 2151 (section 4). However, Substitute House Bill No. 2151 contains additional substantive amendatory language that cannot be merged with other language in section 156. It is therefore advisable to veto section 156 to avoid a double amendment and ensure that conflicting language does not appear in the code.

For these reasons, I have vetoed sections 42, 60, and 156 of Substitute House Bill No. 1201.

With the exception of sections 42, 60, and 156, Substitute House Bill No. 1201 is approved.

Respectfully submitted,
Booth Gardner, Governor.

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--MENTAL HEALTH PROGRAM

(1) COMMUNITY SERVICES

General Fund Appropriation--State	\$	((177,613,000))
		<u>176,113,000</u>

General Fund Appropriation--Local	\$	3,753,000
TOTAL APPROPRIATION	\$	((275,708,000))
		<u>274,208,000</u>

The appropriations in this subsection are subject to the following conditions and limitations:

(a) A maximum of \$35,212,000 of the general fund--state appropriation and \$17,127,000 of the general fund--federal appropriation are provided for approved regional network plans through contracts negotiated with the secretary of social and health services.

(i) It is the intent of the legislature to implement mental health reform on a multi-year schedule. Dramatic escalation of costs for new programs would impair the state's ability to proceed with subsequent expansion. The contracts shall contain a fiscal plan that will ensure that the increased cost of maintaining fiscal year 1991 programs in fiscal year 1992 will not unduly exceed the rate of inflation. Of the amounts provided in this subsection, a maximum of \$500,000 from the general fund--state appropriation may be used for planning and technical assistance grants to counties or regions wishing to form networks. The amounts in this subsection include moneys needed to implement the federal omnibus budget and reconciliation act of 1987 ("OBRA"). First priority for

necessary mental health services shall be given to individuals transferred from nursing homes because of OBRA. Such services shall be consistent with an individual's discharge plan and shall include residential services, if needed. Assumptions regarding the number of transfers from the nursing homes shall be incorporated into each contract and shall be consistent with the state-wide plan. The department shall coordinate OBRA transfers consistent with the provisions of each contract. The secretary shall negotiate contracts only with regional support networks that received recognition under chapter 205, Laws of 1989 as of January 1, 1990. Funding for the north sound and north central networks shall commence no sooner than January 1, 1991. Networks funded after January 1990 shall be subject to the same contracting process as networks funded in January 1990.

(ii) The department shall continue contracting directly for the Kitsap mental health services residential care alternative project until such time as Kitsap county becomes or joins a regional support network. The reimbursement rate per available bed-day shall not exceed \$206 in fiscal year 1990 and \$210 in fiscal year 1991. During the contract period, all eligible involuntary treatment referrals for Kitsap county residents shall be made to the project. No involuntary referrals shall be made to western state hospital unless the Kitsap residential treatment facility is filled to capacity and the mental health division and the Kitsap county mental health coordinator concur with the referral. Priority for referral to western state hospital shall be given to individuals under ninety-day or one hundred eighty-day commitments and individuals who have exhausted all community placement options.

(iii) The department may continue to contract directly with Chartley house until King county joins or becomes a regional support network.

(b) \$2,000,000 of the general fund--state appropriation is provided solely for a mental health housing reserve. The secretary of social and health services shall transfer funds from the reserve to the state hospitals in any quarter in which hospital census exceeds the December 1988 forecast adjusted to eliminate the bed contract assumption. Any amount remaining after March 1991 may be used for one-time grants. In making grants, the secretary shall give priority to proposals that facilitate network development, demonstrate integration with other mental health services, and are designed to reduce involuntary treatment.

(c) \$5,500,000 of the general fund--state appropriation is provided solely for increases for involuntary treatment act administration, including costs associated with involuntary medication hearings.

(d) \$2,200,000 of the general fund--state appropriation is provided solely for information system requirements associated with chapter 205, Laws of 1989. (f) \$1,400,000 of the general fund--state appropriation and \$500,000 of the general fund--federal appropriation are for community mental health services for children. Priority for the remaining moneys shall be given to maintaining Title XIX eligibility for children's outpatient services at risk of losing federal financial participation because of lack of state match.

(g) \$3,509,000 of the general fund--state appropriation and \$1,322,000 of the general fund--federal appropriation are for vendor rate increases for vendors providing services to the mental health program, as specified in section 202 of this act.

(h) \$165,000 of the general fund--state appropriation is provided solely for a pilot project on the delivery of children's mental health services. The amount provided in this subsection is contingent on receipt by the department of \$393,000 from private sources.

(i) \$1,500,000 of the general fund--state appropriation and \$720,000 of the general fund--federal appropriation are provided solely for the enhancement of children's mental health services. The department shall contract with networks and counties through separate performance-based contracts. Contracts shall include a provision expanding services for underserved or difficult-to-service children, including minorities. Applications from counties and networks shall include endorsements from affected school districts, child welfare agencies, juvenile court systems, and tribes. Of these amounts, \$200,000 is provided solely for the development of a state-wide action plan for children's mental health. The plan shall include strategies to reduce duplicate case management. It shall recommend changes, if necessary, to mental health statutes and other statutes to accommodate children's special needs and circumstances. It shall include proposals to increase access and availability of culturally relevant mental health services for minority children. It shall propose a protocol for client referrals from educational and social service agencies and a cross-system collaborative process for ranking those referrals. In developing the plan, the department shall involve representatives of the education, juvenile justice, child welfare, and mental health systems. The department shall present the plan by December 1, 1990, to the appropriate program and fiscal committees of the house of representatives and the senate.

(j) \$500,000 of the general fund--state appropriation is provided solely for a comprehensive community-based pilot program for the prevention of community violence:

(i) The pilot program shall be established through a competitive selection process and shall provide for coordination between local law enforcement agencies and courts, local government, domestic violence and victims' support programs, regional support networks, public health agencies, health care providers, schools, and relevant programs within state agencies. The program shall designate a lead agency and develop written interagency agreements to provide a coordinated continuum of services. The pilot program shall make every effort to preserve existing violence intervention programs and coordinate available funding for services related to community violence prevention and services to victims of violence.

(ii) The pilot program shall provide at least the following services: Services to family members who are victims of violence; services to victims of violent crime; case management services; specialized intervention programs for treatment of perpetrators of violence; parenting and caregiver training to families experiencing or at-risk of experiencing violence; and public education regarding community violence.

(iii) Twenty-five percent of the funding for the pilot program shall be provided in-kind or in cash by public or private entities in the community administering the pilot program.

(g) For districts operating no more than two high schools with enrollments of less than three hundred average annual full time equivalent students, for enrollment in grades nine through twelve in each such school, other than alternative schools:

(i) For remote and necessary schools enrolling students in any grades nine through twelve but no more than twenty-five average annual full time equivalent kindergarten through twelfth grade students, four and one-half certificated instructional staff units and one-quarter of a certificated administrative staff unit;

(3) Allocations for classified salaries for the 1989-90 and 1990-91 school years shall be calculated using formula-generated classified staff units determined as follows:

(a) For enrollments generating certificated staff unit allocations under subsections (2) (e) through (i) of this section, one classified staff unit for each three certificated staff units allocated under such subsections.

(b) For all other enrollment in grades kindergarten through twelve, including vocational but excluding handicapped full time equivalent enrollments, one classified staff unit for each sixty average annual full time equivalent students.

(c) For each nonhigh school district with an enrollment of more than fifty annual average full time equivalent students and less than one hundred eighty students, an additional one-half of a classified staff unit.

(4) Fringe benefit allocations shall be calculated at a rate of 19.80 percent in the 1989-90 school year and 19.85 percent in the 1990-91 school year of certificated salary allocations provided under subsection (2) of this section, and a rate of 17.32 percent in the 1989-90 school year and 17.37 percent in the 1990-91 school year of classified salary allocations provided under subsection (3) of this section.

(5) Insurance benefit allocations shall be calculated at the rates specified in section 505 of this act, based on:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full time equivalent.

(6)(a) For nonemployee related costs associated with each certificated staff unit allocated under subsection (2) (a), (b), (c), and (e) through (i) of this section, there shall be provided a maximum of \$6,355 per certificated staff unit in the 1989-90 school year and a maximum of \$6,654 per certificated staff unit in the 1990-91 school year.

(b) For nonemployee related costs associated with each certificated staff unit allocated under subsection (2)(d) of this section, there shall be provided a maximum of \$12,110 per certificated staff unit in the 1989-90 school year and a maximum of \$12,679 per certificated staff unit in the 1990-91 school year.

(7) Allocations for substitute costs for classroom teachers shall be distributed at a maximum rate of \$290 per year for allocated classroom teachers. Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported state-wide for the 1987-88 school year.

(8) The superintendent may distribute a maximum of ~~\$(9,925,000)~~ 9,829,000 outside the basic education formula during fiscal years 1990 and 1991 as follows:

(a) For fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW, a maximum of ~~\$(358,000)~~ 350,000 may be expended in fiscal year 1990 and a maximum of \$375,000 in fiscal year 1991.

(b) For summer vocational programs at skills centers, a maximum of \$1,321,000 may be expended in fiscal year 1990 and a maximum of \$1,599,000 may be expended in fiscal year 1991.

(c) A maximum of ~~\$(272,000)~~ 184,000 may be expended for school district emergencies.

(d) A maximum of \$6,000,000 is provided solely for the purchase of new and replacement vocational education equipment for use primarily in approved vocational-secondary and skill center programs. These moneys shall be allocated to school districts during the 1989-90 school year on the basis of full time equivalent enrollment in vocational programs.

(9) For the purposes of RCW 84.52.0531, the increase per full time equivalent student in state basic education appropriations provided under this act, including appropriations for salary and benefits increases, is 6.07 percent from the 1988-89 school year to the 1989-90 school year, and 7.0 percent from the 1989-90 school year to the 1990-91 school year.

(10)(a) The superintendent of public instruction shall revise personnel reporting systems to include information on grade level assignments of basic education certificated instructional staff, by grade level groupings of K-3, 4-6, and 7-12. The superintendent of public instruction shall collect such information from school districts beginning in the 1989-90 school year. School districts may submit supplemental information on changes in staffing levels after the initial personnel report for each school year. Staffing ratios calculated under this subsection may recognize additional staff reported, prorated by the number of months of employment during the academic year.

(b) For each school year, the funding provided under subsection (2)(a) of this section shall be based on a ratio of fifty-one certificated instructional staff per thousand students in kindergarten through grade three only if the district documents an actual ratio of at least fifty-one full time basic education certificated instructional staff per thousand full time equivalent students at those grade levels. For any school district documenting a lower ratio, the funding provided under this section shall be based on the district's actual K-3 ratio achieved in that school year, or the statutory minimum ratio established under RCW 28A.41.140(2)(c), if greater.

(c) School districts that had a ratio of fifty-one basic education certificated instructional staff per thousand students in kindergarten through grade three in the 1988-89 school year shall expand additional funding generated by the increase in staffing ratios provided in this section solely to improve staffing ratios in kindergarten through grade twelve.

(11) School districts shall use allocations for salaries and benefits generated under subsection (2)(b) of this section only to increase the district's ratio of basic education certificated instructional staff per thousand full time equivalent students in grades K-3 above fifty-one per thousand, or to employ classified instructional assistants assigned to K-3 basic education classrooms. However, a district that has achieved a ratio of fifty-three basic education certificated instructional staff per thousand full time equivalent students in grades K-3 may also use the allocation to employ additional basic education certificated instructional staff or classified instructional assistants in any grades K-12. School districts shall document to the superintendent of public instruction how the allocation was used and shall submit documentation on the number of classified instructional assistants employed in grades K-3 in the 1989-90 and 1990-91 school years. If a district uses moneys provided under subsection (2)(b) of this section for K-3 certificated instructional staff, these staff shall be excluded when determining the district's actual K-3 staffing ratio under subsection (10) of this section. A district shall be ineligible to receive allocations under subsection (2)(b) of this section unless the district documents to the superintendent of public instruction that its actual K-3 ratio under subsection (10) of this section for the 1990-91 school year is at least fifty-one full time basic education certificated instructional staff per thousand full time equivalent students. Districts may not use allocations provided under this subsection to supplant other moneys previously used to employ K-3 certificated instructional staff or K-3 classified instructional assistants. The superintendent of public instruction shall recover funding allocated under subsection (2)(b) of this section if the district does not submit documentation showing that the funding was used for the purposes specified.

(12) Subsection (11) of this section does not apply in the 1990-91 school year to any school district that experienced in the 1989-90 school year an enrollment decline of greater than 1,000 full time equivalent students as compared to the 1988-89 school year. However, such a school district shall use allocations for salaries and benefits generated under subsections (2)(a)(ii) and (2)(b) of this section only to increase the district's ratio of basic education certificated instructional staff per thousand full time equivalent students in grades K-12 above the district's actual K-12 staffing ratio in the 1988-89 school year. The superintendent of public instruction shall recover funding allocated under subsections

(2)(a)(ii) and (2)(b) of this section if the district does not submit documentation showing that the funding was used for the purposes specified in this subsection.

(13) The additional moneys allocated due to the increase in the vocational-secondary staff ratio provided in subsection (2)(d) of this section shall be expended solely for expanded vocational-secondary programs approved by the superintendent of public instruction. Funds provided may be expended for extended day contracts. The percentage rate of indirect charges to vocational-secondary programs, in total, shall not exceed the state-wide average percentage rates of indirect charges in all other state-funded categorical programs.

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(8) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters' degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules used by the superintendent of public instruction for salary allocations in the 1988-89 school year.

(e) "Credits" means college quarter hour credits and equivalent inservice credits computed in accordance with RCW 28A.71.110.

(9) The salary allocation schedules established in subsections (6) and (7) of this section are for allocation purposes only. However, it is the legislature's intent to respond

to salary needs of many senior teachers who have not been receiving salary increments on either state or local salary schedules. The legislature and the public recognize the need to provide salary growth for these senior teachers in order to encourage them to continue teaching. School districts should target moneys generated by the additional seniority steps provided for state salary funding in the 1990-91 school year to senior certification instructional staff. By December 1, 1990, each school district shall submit to the superintendent of public instruction a statement signed by the district's board of directors explaining how the moneys generated by the additional seniority steps were used and whether these moneys were targeted to senior staff.

NEW SECTION. Sec. 47. FOR THE ARTS COMMISSION--ART WORK ALLOWANCE POOLING.

One-half of one percent of moneys appropriated in this act for original construction of school plant facilities is provided solely for the purposes of RCW 28A.335.210. One-half of one percent of moneys appropriated in this act for original construction of any building by any college or university or for any major renovation or remodel work exceeding \$200,000 by any college or university is provided solely for the purposes of RCW 28B.10.027. One-half of one percent of moneys appropriated in this act for original construction of any other public building by a state agency as defined by RCW 43.17.200 is provided solely for the purposes of RCW 43.17.200.

NEW SECTION. Sec. 48. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts.

NEW SECTION. Sec. 49. "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining June 30, 1991, in the 1989-91 biennial appropriations for each project.

NEW SECTION. Sec. 50. To carry out the provisions of this act, the governor may assign responsibility for planning, engineering, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 51. As part of the annual update to the state facilities and capital plan, agencies shall provide information on lease development and lease purchase projects to the office of financial management.

NEW SECTION. Sec. 52. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate committee on ways and means and the house of representatives committee on capital facilities and financing.

NEW SECTION. Sec. 53. Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement under RCW 43.88.150 shall apply: Expenditure of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

NEW SECTION. Sec. 54. Notwithstanding any other provisions of law, for the 1991-93 biennium, transfers of reimbursement by the state treasurer to the general fund from the community college capital projects account for debt service payments made under Title 28B RCW shall occur only after such debt service payment has been made and only to the extent that funds are actually available in the account. Any unpaid reimbursements shall be a continuing obligation against the community college capital projects account until paid. The state board for community college education need not accumulate any specific balance in the community college capital projects account in anticipation of transfers to reimburse the general fund.

NEW SECTION. Sec. 55. Any capital improvements or capital project involving construction or major expansion of a state office facility, including district headquarters, detachment offices, and off-campus faculty offices, shall be reviewed by the department of general administration for possible consolidation and compliance with state office standards before allotment of funds. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

NEW SECTION. Sec. 56. The governor, through the director of financial management, may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer shall

be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account.

For purposes of this section, the governor may find that an amount is in excess of the amount required for the completion of a project only if (1) the project as defined in the notes to the budget document is substantially complete and there are funds remaining or (2) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated herein.

For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

A report of any transfer effected under this section shall be filed with the legislative fiscal committees of the senate and house of representatives by the director of financial management at least thirty days prior to the date the transfer is effected.

NEW SECTION. Sec. 57. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act referencing this section shall not be expended until the office of financial management has reviewed the agency's programmatic preplanning document and approved continuation of or made changes to the project. The program preplanning document shall include but not be limited to projected workload, site conditions, user requirements, current space available, and an overall budget and cost estimate breakdown in a form prescribed by the office of financial management. The office of financial management shall report to the house of representatives capital facilities committee, the senate ways and means committee, and the legislative transportation committee a listing of the program documents the office has reviewed and approved, changes made to the documents resulting from the review, and the estimated cost changes resulting from the review.

NEW SECTION. Sec. 58. The department of information services shall act as lead agency in coordinating video telecommunications services for state agencies. As lead agency, the department shall develop standards and common specifications for leased and purchased telecommunications equipment and assist state agencies in developing a video telecommunications expenditure plan. No agency may spend any portion of any appropriation in this act for new video telecommunication equipment, new video telecommunication transmission, or new video telecommunication programming, or for expanding current video telecommunication systems without first complying with chapter 43.105 RCW, including but not limited to RCW 43.105.041(2), and without first submitting a video telecommunications equipment expenditure plan, in accordance with the policies of the department of information services, for review and assessment by the department of information services under RCW 43.105.052. Before any such expenditure by a public school, a video telecommunications expenditure plan shall be approved by the superintendent of public instruction. The office of the superintendent of public instruction shall submit the plans to the department of information services in a form prescribed by the department. The office of the superintendent of public instruction shall coordinate the use of video telecommunications in public schools by providing educational information to local school districts and shall assist local school districts and educational service districts in telecommunications planning and curriculum development. Before any such expenditure by a public institution of postsecondary education, a telecommunications expenditure plan shall be approved by the higher education coordinating board. The higher education coordinating board shall coordinate the use of video telecommunications

for instruction and instructional support in postsecondary education, including the review and approval of instructional telecommunications course offerings.

To the extent that moneys are disbursed on a loan basis, the corresponding appropriation shall be reduced by the amount of loan moneys disbursed from the treasury during the 1991-93 biennium.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. This chapter is intended to provide the exclusive source of local government entity authority to individually or jointly self-insure risks, jointly purchase insurance or reinsurance, and to contract for risk management, claims, and administrative services. This chapter shall be liberally construed to grant local government entities maximum flexibility in self-insuring to the extent the self-insurance programs are operated in a safe and sound manner. This chapter is intended to require prior approval for the establishment of every individual local government self-insured employee health and welfare benefit program and every joint local government self-insurance program. In addition, this chapter is intended to require every local government entity that establishes a self-insurance program not subject to prior approval to notify the state of the existence of the program and to comply with the regulatory and statutory standards governing the management and operation of the programs as provided in this chapter. This chapter is not intended to authorize or regulate self-insurance of unemployment compensation under chapter 50.44 RCW, or industrial insurance under chapter 51.14 RCW.

NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Local government entity" or "entity" means every unit of local government, both general purpose and special purpose, and includes, but is not limited to, counties, cities, towns, port districts, public utility districts, water districts, sewer districts, school districts, fire protection districts, irrigation districts, metropolitan municipal corporations, conservation districts, and other political subdivisions, governmental subdivisions, municipal corporations, and quasi-municipal corporations.

(2) "Risk assumption" means a decision to absorb the entity's financial exposure to a risk of loss without the creation of a formal program of advance funding of anticipated losses.

(3) "Self-insurance" means a formal program of advance funding and management of entity financial exposure to a risk of loss that is not transferred through the purchase of an insurance policy or contract.

(4) "Health and welfare benefits" means a plan or program established by a local government entity or entities for the purpose of providing its employees and their dependents, and in the case of school districts, its district employees, students, directors, or any of their dependents, with health care, accident, disability, death, and salary protection benefits.

(5) "Property and liability risks" includes the risk of property damage or loss sustained by a local government entity and the risk of claims arising from the tortious or negligent conduct or any error or omission of the local government entity, its officers, employees, agents, or volunteers as a result of which a claim may be made against the local government entity.

(6) "State risk manager" means the state risk manager of the division of risk management within the department of general administration.

NEW SECTION. Sec. 3. (1) The governing body of a local government entity may individually self-insure, may join or form a self-insurance program together with other entities, and may jointly purchase insurance or reinsurance with other entities for

property and liability risks, and health and welfare benefits only as permitted under this chapter. In addition, the entity or entities may contract for or hire personnel to provide risk management, claims, and administrative services in accordance with this chapter.

(2) The agreement to form a joint self-insurance program shall be made under chapter 39.34 RCW.

(3) Every individual and joint self-insurance program is subject to audit by the state auditor.

(4) If provided for in the agreement or contract established under chapter 39.34 RCW, a joint self-insurance program may, in conformance with this chapter:

(a) Contract or otherwise provide for risk management and loss control services;

(b) Contract or otherwise provide legal counsel for the defense of claims and other legal services;

(c) Consult with the state insurance commissioner and the state risk manager;

(d) Jointly purchase insurance and reinsurance coverage in such form and amount as the program's participants agree by contract; and

(e) Possess any other powers and perform all other functions reasonably necessary to carry out the purposes of this chapter.

(5) A local government entity that has decided to assume a risk of loss must have available for inspection by the state auditor a written report indicating the class of risk or risks the governing body of the entity has decided to assume.

(6) Every joint self-insurance program governed by this chapter shall appoint the risk manager as its attorney to receive service of, and upon whom shall be served, all legal process issued against it in this state upon causes of action arising in this state.

(a) Service upon the risk manager as attorney shall constitute service upon the program. Service upon joint insurance programs subject to this act can be had only by service upon the risk manager. At the time of service, the plaintiff shall pay to the risk manager a fee to be set by the risk manager, taxable as costs in the action.

(b) With the initial filing for approval with the risk manager, each joint self-insurance program shall designate by name and address the person to whom the risk manager shall forward legal process so served upon him or her. The joint self-insurance program may change such person by filing a new designation.

(c) The appointment of the risk manager as attorney shall be irrevocable, shall bind any successor in interest or to the assets or liabilities of the joint self-insurance program, and shall remain in effect as long as there is in force in this state any contract made by the joint self-insurance program or liabilities or duties arising therefrom.

(d) The risk manager shall keep a record of the day and hour of service upon him or her of all legal process. A copy of the process, by registered mail with return receipt requested, shall be sent by the risk manager, to the person designated for the purpose by the joint self-insurance program in its most recent such designation filed with the risk manager. No proceedings shall be had against the joint self-insurance program, and the program shall not be required to appear, plead, or answer, until the expiration of forty days after the date of service upon the risk manager.

NEW SECTION. Sec. 4. (1) The property and liability advisory board is created, consisting of the insurance commissioner and the state risk manager, or their designees, as ex officio members and five members appointed by the governor on the basis of their experience and knowledge in matters pertaining to local government risk management, self-insurance, and management of joint self-insurance programs. The board shall include at least two representatives from individual property or liability self-insurance programs and at least two representatives from joint property or liability self-insurance programs.

Risk manager approval is not required for the establishment of an individual local government self-insurance program covering property or liability risks. The entity or entities proposing creation of a self-insurance program requiring prior approval shall submit a plan of management and operation to the state risk manager and the state auditor that provides at least the following information:

(12) Any other information required by rule of the state risk manager that is necessary to determine the probable financial and management success of the program or that is necessary to determine compliance with this chapter.

NEW SECTION. Sec. 8. A local government entity may participate in a joint self-insurance program covering property or liability risks with similar local government entities from other states if the program satisfies the following requirements:

(1) Only those local government entities of this state and similar entities of other states that are provided insurance by the program may have ownership interest in the program;

(2) The participating local government entities of this state and other states shall elect a board of directors to manage the program, a majority of whom shall be affiliated with one or more of the participating entities;

(3) The program must provide coverage through the delivery to each participating entity of one or more written policies effecting insurance of covered risks;

(4) The program shall be financed, including the payment of premiums and the contribution of initial capital, in accordance with the plan of management and operation submitted to the state risk manager in accordance with this chapter;

(5) The financial statements of the program shall be audited annually by the certified public accountants for the program, and such audited financial statements shall be delivered to the Washington state auditor and the state risk manager not more than one hundred twenty days after the end of each fiscal year of the program;

(6) The investments of the program shall be initiated only with financial institutions and/or broker-dealers doing business in those states in which participating entities are located, and such investments shall be audited annually by the certified public accountants for the program, and a list of such investments shall be delivered to the Washington state auditor not more than one hundred twenty days after the end of each fiscal year of the program;

(7) The treasurer of a multistate joint self-insurance program shall be designated by resolution of the program and such treasurer shall be located in the state of one of the participating entities;

(9) The program shall obtain approval from the state risk manager in accordance with this chapter and shall remain in compliance with the provisions of this chapter, except to the extent that such provisions are modified by or inconsistent with this section.

NEW SECTION. Sec. 9. (1) Within one hundred twenty days of receipt of a plan of management and operation, the state risk manager shall either approve or disapprove the formation of the self-insurance program after reviewing the plan to determine whether the proposed program complies with this chapter and all rules adopted in accordance with this chapter.

(2) If the state risk manager denies a request for approval, the state risk manager shall specify in detail the reasons for denial and the manner in which the program fails to meet the requirements of this chapter or any rules adopted in accordance with this chapter.

(3) Whenever the state risk manager determines that a joint self-insurance program covering property or liability risks or an individual or joint self-insured health and welfare benefits program is in violation of this chapter or is operating in an unsafe financial condition, the state risk manager may issue and serve upon the program an order to cease and desist from the violation or practice.

(a) The state risk manager shall deliver the order to the appropriate entity or entities directly or mail it to the appropriate entity or entities by registered mail with return receipt requested.

(b) If the program violates the order or has not taken steps to comply with the order after the expiration of twenty days after the cease and desist order has been received by the program, the program is deemed to be operating in violation of this chapter, and the state risk manager shall notify the state auditor and the attorney general of the violation.

(c) After hearing or with the consent of a program governed by this chapter and in addition to or in lieu of a continuation of the cease and desist order, the risk manager may levy a fine upon the program in an amount not less than three hundred dollars and not more than ten thousand dollars. The order levying such fine shall specify the period within which the fine shall be fully paid. The period within which such fines shall be paid shall not be less than fifteen nor more than thirty days from the date of such order. Upon failure to pay any such fine when due the risk manager shall request the attorney general to bring a civil action on the risk manager's behalf to collect the fine. The risk manager shall pay any fine so collected to the state treasurer for the account of the general fund.

(4) Each self-insurance program approved by the state risk manager shall annually file a report with the state risk manager and state auditor providing:

- (g) Such other information as required by rule of the state risk manager.

(5) No self-insurance program requiring the state risk manager's approval may engage in an act or practice that in any respect significantly differs from the management and operation plan that formed the basis for the state risk manager's approval of the program unless the program first notifies the state risk manager in writing and obtains the state risk manager's approval. The state risk manager shall approve or disapprove the proposed change within sixty days of receipt of the notice. If the state risk manager denies a requested change, the risk manager shall specify in detail the reasons for denial and the manner in which the program would fail to meet the requirements of this chapter or any rules adopted in accordance with this chapter.

NEW SECTION. Sec. 10. (1) All self-insurance programs governed by this chapter may provide for executive sessions in accordance with chapter 42.30 RCW to consider litigation and settlement of claims when it appears that public discussion of these matters would impair the program's ability to conduct its business effectively.

(2) Notwithstanding any provision to the contrary contained in the public disclosure act, chapter 42.17 RCW, in a claim or action against the state or a local government entity, no person is entitled to discover that portion of any funds or liability reserve established for purposes of satisfying a claim or cause of action, except that the reserve is discoverable in a supplemental or ancillary proceeding to enforce a judgment. All other records of individual or joint self-insurance programs are subject to disclosure in accordance with chapter 42.17 RCW.

(3) In accordance with chapter 42.17 RCW, bargaining groups representing local government employees shall have reasonable access to information concerning the experience and performance of any health and welfare benefits program established for the benefit of such employees.

NEW SECTION. Sec. 11. (1) The assets of a joint self-insurance program governed by this chapter may be invested only in accordance with the general investment authority that participating local government entities possess as a governmental entity.

(2) Except as provided in subsection (3) of this section, a joint self-insurance program may invest all or a portion of its assets by depositing the assets with the treasurer of a county within whose territorial limits any of its member local government entities lie, to be invested by the treasurer for the joint program.

(3) Local government members of a joint self-insurance program may by resolution of the program designate some other person having experience in financial or fiscal matters as treasurer of the program, if that designated treasurer is located in Washington state. The program shall, unless the program's treasurer is a county treasurer, require a bond obtained from a surety company authorized to do business in Washington in an amount and under the terms and conditions that the program finds will protect against loss arising from mismanagement or malfeasance in investing and managing program funds. The program may pay the premium on the bond.

All program funds must be paid to the treasurer and shall be disbursed by the treasurer only on warrants issued by the treasurer or a person appointed by the program and upon orders or vouchers approved by the program or as authorized under chapters 35A.40 and 42.24 RCW. The treasurer shall establish a program account, into which shall be recorded all program funds, and the treasurer shall maintain such special accounts

as may be created by the program into which the treasurer shall record all money as the program may direct by resolution.

(4) The treasurer of the joint program shall deposit all program funds in a qualified public depository or depositories as defined in RCW 39.58.010(2) and under the same restrictions, contracts, and security as provided for any participating local government entity, and such depository shall be designated by resolution of the program.

(5) All interest and earnings collected on joint program funds belong to the program and must be deposited to the program's credit in the proper program account.

(6) A joint program may require a reasonable bond from any person handling money or securities of the program and may pay the premium for the bond.

(7) Subsections (3) and (4) of this section do not apply to a multistate joint self-insurance program governed by section 8 of this act.

NEW SECTION. Sec. 12. (1) No employee or official of a local government entity may directly or indirectly receive anything of value for services rendered in connection with the operation and management of a self-insurance program other than the salary and benefits provided by his or her employer or the reimbursement of expenses reasonably incurred in furtherance of the operation or management of the program. No employee or official of a local government entity may accept or solicit anything of value for personal benefit or for the benefit of others under circumstances in which it can be reasonably inferred that the employee's or official's independence of judgment is impaired with respect to the management and operation of the program.

(2) No local government entity may participate in a joint self-insurance program in which local government entities do not retain complete governing control. This prohibition does not apply to local government contribution to a self-insured employee health and welfare benefits plan otherwise authorized and governed by state statute nor to local government participation in a multistate joint program where control is shared with local government entities from other states.

(3) Moneys made available and moneys expended by school districts and educational service districts for self-insurance under this chapter are subject to such rules of the superintendent of public instruction as the superintendent may adopt governing budgeting and accounting. However, the superintendent shall ensure that the rules are consistent with those adopted by the state risk manager for the management and operation of self-insurance programs.

(4) RCW 48.30.140, 48.30.150, 48.30.155, and 48.30.157 apply to the use of agents and brokers by local government self-insurance programs.

(5) Every individual and joint local government self-insured health and welfare benefits program that provides comprehensive coverage for health care services shall include mandated benefits that the state health care authority is required to provide under RCW 41.05.170 and 41.05.180. The state risk manager may adopt rules identifying the mandated benefits.

NEW SECTION. Sec. 13. Every local government entity that has established a self-insurance program not subject to the prior approval requirements of this chapter shall provide written notice to the state auditor of the existence of the program. The notice must identify the manager of the program and the class or classes of risk self-insured. The notice must also identify all investments and distribution of assets of the program, the current depository of assets and the program's designation of asset depository and investment agent as required by section 11 of this act. In addition, the local government entity shall notify the state auditor whenever the program covers a new class of risk or discontinues the self-insurance of a class of risk.

NEW SECTION. Sec. 14. Every joint self-insurance program covering liability or property risks shall provide for the contingent liability of participants in the program if assets of the program are insufficient to cover the program's liabilities, unless coverage

in the joint program is expressly limited to the available assets of the program and the limitation is expressly acknowledged or agreed upon by the local government entities.

NEW SECTION. Sec. 15. A joint self-insurance program approved in accordance with this chapter is exempt from insurance premium taxes, from fees assessed under chapter 48.02 RCW, from chapters 48.32 and 48.32A RCW, from business and occupations taxes imposed under chapter 82.04 RCW, and from any assigned risk plan or joint underwriting association otherwise required by law. This section does not apply to and no exemption is provided for insurance companies issuing policies to cover program risks.

NEW SECTION. Sec. 16. (1) The state risk manager shall establish and charge an investigation fee in an amount necessary to cover the costs for the initial review and approval of a self-insurance program. The fee must accompany the initial submission of the plan of operation and management.

(2) The costs of subsequent reviews and investigations shall be charged to the self-insurance program being reviewed or investigated in accordance with the actual time and expenses incurred in the review or investigation.

(3) After the formation of the two advisory boards, each board may calculate, levy, and collect from each joint property and liability self-insurance program and each individual and joint health and welfare benefit program regulated by this chapter a start-up assessment to pay initial expenses and operating costs of the boards and the risk manager's office in administering this chapter. Any program failing to remit its assessment when due is subject to denial of permission to operate or to a cease and desist order until the assessment is paid.

NEW SECTION. Sec. 17. (1) Any person who files reports or furnishes other information required under Title 48 RCW, required by the risk manager or the state auditor under authority granted by Title 48 RCW, or which is useful to the risk manager or the state auditor in the administration of Title 48 RCW, shall be immune from liability in any civil action or suit arising from the filing of any such report or furnishing such information to the risk manager or to the state auditor, unless actual malice, fraud, or bad faith is shown.

Willful false swearing in any such examination shall be perjury and punishable as such.

A report of such examination shall be made in triplicate, one copy to be filed in the office of the state auditor, one in the auditing department of the taxing district reported upon, and one in the office of the attorney general. If any such report discloses malfeasance, misfeasance, or nonfeasance in office on the part of any public officer or employee, within thirty days from the receipt of his copy of the report, the attorney

general shall institute, in the proper county, such legal action as is proper in the premises by civil process and prosecute the same to final determination to carry into effect the findings of the examination.

It shall be unlawful for the county commissioners or any board or officer to make a settlement or compromise of any claim arising out of such malfeasance, misfeasance, or nonfeasance, or any action commenced therefor, or for any court to enter upon any compromise or settlement of such action, without the written approval and consent of the attorney general and the state auditor.

In lieu of the fine, a court may permit the defendant to perform community service designated by the court)).~~ A person found to have committed such infraction shall be assessed a monetary penalty or community service in accordance with RCW 46.63.110 and 46.63.120.

(3) If a person cited for a violation of this section appears in person before the court and provides written evidence that at the time the person was cited, he or she was in compliance with this section, the citation shall be dismissed without cost. In lieu of personal appearance, a person cited for a violation of this section may, before the date scheduled for the person's appearance before the court, submit by mail to the court written evidence that at the time the person was cited, he or she was in compliance with this section, in which case the citation shall be dismissed without cost.

(3) A violation of subsection (1) or (2) of this section is not a traffic infraction. Failure to provide evidence of financial responsibility as required under subsection (1) or (2) of this section is reasonable cause for an investigating officer to believe that the person driving the motor vehicle is not insured or otherwise financially responsible as

required by RCW 46.30.020(1). The officer may cite the person for a traffic infraction under RCW 46.30.020.

SENATE AMENDMENTS TO HOUSE BILL

June 24, 1991

Mr. Speaker:

The Senate has passed HOUSE BILL NO. 1095 with the following amendments:

Strike everything after the enacting clause and insert the following:

"PART 1

SUBJECT MATTER AND DEFINITIONS"

NEW SECTION. Sec. 4A-101. SHORT TITLE. This Article may be cited as the Uniform Commercial Code--Funds Transfers.

NEW SECTION. Sec. 4A-102. SUBJECT MATTER. Except as otherwise provided in section 4A-108 of this act this Article applies to funds transfers defined in section 4A-104 of this act.

NEW SECTION. Sec. 4A-103. PAYMENT ORDER--DEFINITIONS. (1) In this Article:

(a) "Payment order" means an instruction of a sender to a receiving bank, transmitted orally, electronically, or in writing, to pay, or to cause another bank to pay, a fixed or determinable amount of money to a beneficiary if:

(i) The instruction does not state a condition of payment to the beneficiary other than time of payment;

(ii) The receiving bank is to be reimbursed by debiting an account of, or otherwise receiving payment from, the sender; and

(iii) The instruction is transmitted by the sender directly to the receiving bank or to an agent, funds-transfer system, or communication system for transmittal to the receiving bank.

(b) "Beneficiary" means the person to be paid by the beneficiary's bank.

(c) "Beneficiary's bank" means the bank identified in a payment order in which an account of the beneficiary is to be credited pursuant to the order or which otherwise is to make payment to the beneficiary if the order does not provide for payment to an account.

(d) "Receiving bank" means the bank to which the sender's instruction is addressed.

(e) "Sender" means the person giving the instruction to the receiving bank.

(2) If an instruction complying with subsection (1)(a) of this section is to make more than one payment to a beneficiary, the instruction is a separate payment order with respect to each payment.

(3) A payment order is issued when it is sent to the receiving bank.

NEW SECTION. Sec. 4A-104. FUNDS TRANSFER--DEFINITIONS. In this Article:

(1) "Funds transfer" means the series of transactions, beginning with the originator's payment order, made for the purpose of making payment to the beneficiary of the order. The term includes any payment order issued by the originator's bank or an intermediary bank intended to carry out the originator's payment order. A funds transfer is completed by acceptance by the beneficiary's bank of a payment order for the benefit of the beneficiary of the originator's payment order.

(2) "Intermediary bank" means a receiving bank other than the originator's bank or the beneficiary's bank.

(3) "Originator" means the sender of the first payment order in a funds transfer.

(4) "Originator's bank" means (a) the receiving bank to which the payment order of the originator is issued if the originator is not a bank, or (b) the originator if the originator is a bank.

NEW SECTION. Sec. 4A-105. OTHER DEFINITIONS. (1) In this Article:

(a) "Authorized account" means a deposit account of a customer in a bank designated by the customer as a source of payment orders issued by the customer to the bank. If a customer does not so designate an account, any account of the customer is an authorized account if payment of a payment order from that account is not inconsistent with a restriction on the use of the account.

(b) "Bank" means a person engaged in the business of banking and includes a savings bank, savings and loan association, credit union, and trust company. A branch or separate office of a bank is a separate bank for purposes of this Article.

(c) "Customer" means a person, including a bank, having an account with a bank or from whom a bank has agreed to receive payment orders.

(d) "Funds-transfer business day" of a receiving bank means the part of a day during which the receiving bank is open for the receipt, processing, and transmittal of payment orders and cancellations and amendments of payment orders.

(e) "Funds-transfer system" means a wire transfer network, automated clearing house, or other communication system of a clearing house or other association of banks through which a payment order by a bank may be transmitted to the bank to which the order is addressed.

(f) "Good faith" means honesty in fact and the observance of reasonable commercial standards of fair dealing.

(g) "Prove" with respect to a fact means to meet the burden of establishing the fact (RCW 62A.1-201(8)).

NEW SECTION. Sec. 4A-106. TIME PAYMENT ORDER IS RECEIVED. (1)

The time of receipt of a payment order or communication canceling or amending a payment order is determined by the rules applicable to receipt of a notice stated in RCW 62A.1-201(27). A receiving bank may fix a cut-off time or times on a funds-transfer business day for the receipt and processing of payment orders and communications canceling or amending payment orders. Different cut-off times may apply to payment orders, cancellations, or amendments, or to different categories of payment orders, cancellations, or amendments. A cut-off time may apply to senders generally or different cut-off times may apply to different senders or categories of payment orders. If a payment order or communication canceling or amending a payment order is received after the close of a funds-transfer business day or after the appropriate cut-off time on a funds-transfer business day, the receiving bank may treat the payment order or communication as received at the opening of the next funds-transfer business day.

(2) If this Article refers to an execution date or payment date or states a day on which a receiving bank is required to take action, and the date or day does not fall on a funds-transfer business day, the next day that is a funds-transfer business day is treated as the date or day stated, unless the contrary is stated in this Article.

NEW SECTION. Sec. 4A-107. FEDERAL RESERVE REGULATIONS AND OPERATING CIRCULARS. Regulations of the board of governors of the federal reserve system and operating circulars of the federal reserve banks supersede any inconsistent provision of this Article to the extent of the inconsistency.

NEW SECTION. Sec. 4A-108. EXCLUSION OF CONSUMER TRANSACTIONS GOVERNED BY FEDERAL LAW. This Article does not apply to a funds transfer any part of which is governed by the Electronic Fund Transfer Act of 1978 (Title XX, P.L. 95-630, 92 Stat. 3728, 15 U.S.C. Sec. 1693 et seq.) as amended from time to time.

"PART 2

ISSUE AND ACCEPTANCE OF PAYMENT ORDER"

NEW SECTION. Sec. 4A-201. SECURITY PROCEDURE. "Security procedure" means a procedure established by agreement of a customer and a receiving bank for the purpose of (1) verifying that a payment order or communication amending or canceling a payment order is that of the customer, or (2) detecting error in the transmission or the content of the payment order or communication. A security procedure may require the use of algorithms or other codes, identifying words or numbers, encryption, callback procedures, or similar security devices. Comparison of a signature on a payment order or communication with an authorized specimen signature of the customer is not by itself a security procedure.

NEW SECTION. Sec. 4A-202. AUTHORIZED AND VERIFIED PAYMENT ORDERS. (1) A payment order received by the receiving bank is the authorized order of the person identified as sender if that person authorized the order or is otherwise bound by it under the law of agency.

(2) If a bank and its customer have agreed that the authenticity of payment orders issued to the bank in the name of the customer as sender will be verified pursuant to a security procedure, a payment order received by the receiving bank is effective as the order of the customer, whether or not authorized, if (a) the security procedure is a commercially reasonable method of providing security against unauthorized payment orders, and (b) the bank proves that it accepted the payment order in good faith and in compliance with the security procedure and any written agreement or instruction of the customer restricting acceptance of payment orders issued in the name of the customer. The bank is not required to follow an instruction that violates a written agreement with the customer or notice of which is not received at a time and in a manner affording the bank a reasonable opportunity to act on it before the payment order is accepted.

(3) Commercial reasonableness of a security procedure is a question of law to be determined by considering the wishes of the customer expressed to the bank, the circumstances of the customer known to the bank, including the size, type, and frequency of payment orders normally issued by the customer to the bank, alternative security procedures offered to the customer, and security procedures in general use by customers and receiving banks similarly situated. A security procedure is deemed to be commercially reasonable if (a) the security procedure was chosen the customer after the bank offered, and the customer refused, a security procedure that was commercially reasonable for that customer, and (b) the customer expressly agreed in writing to be bound by any payment order, whether or not authorized, issued in its name, and accepted by the bank in compliance with the security procedure chosen by the customer.

(4) The term "sender" in this Article includes the customer in whose name a payment order is issued if the order is the authorized order of the customer under subsection (1) of this section, or it is effective as the order of the customer under subsection (2) of this section.

(5) This section applies to amendments and cancellations of payment orders to the same extent it applies to payment orders.

(6) Except as provided in this section and section 4A-203(1)(a) of this act, rights and obligations arising under this section or section 4A-203 of this act may not be varied by agreement.

NEW SECTION. Sec. 4A-203. UNENFORCEABILITY OF CERTAIN VERIFIED PAYMENT ORDERS. (1) If an accepted payment order is not, under section 4A-202(1) of this act, an authorized order of a customer identified as sender, but is effective as an order of the customer pursuant to section 4A-202(2) of this act, the following rules apply.

(a) By express written agreement, the receiving bank may limit the extent to which it is entitled to enforce or retain payment of the payment order.

(b) The receiving bank is not entitled to enforce or retain payment of the payment order if the customer proves that the order was not caused, directly or indirectly, by a person (i) entrusted at any time with duties to act for the customer with respect to payment orders or the security procedure, or (ii) who obtained access to transmitting facilities of the customer or who obtained, from a source controlled by the customer and without authority of the receiving bank, information facilitating breach of the security procedure, regardless of how the information was obtained or whether the customer was at fault. Information includes any access device, computer software, or the like.

(2) This section applies to amendments of payment orders to the same extent it applies to payment orders.

NEW SECTION. Sec. 4A-204. REFUND OF PAYMENT AND DUTY OF CUSTOMER TO REPORT WITH RESPECT UNAUTHORIZED PAYMENT ORDER.

(1) If a receiving bank accepts a payment order issued in the name of its customer as sender which is (a) not authorized and not effective as the order of the customer under section 4A-202 of this act, or (b) not enforceable, in whole or in part, against the customer under section 4A-203 of this act, the bank shall refund any payment of the payment order received from the customer to the extent the bank is not entitled to enforce payment and shall pay interest on the refundable amount calculated from the date the bank received payment to the date of the refund. However, the customer is not entitled to interest from the bank on the amount to be refunded if the customer fails to exercise ordinary care to determine that the order was not authorized by the customer and to notify the bank of the relevant facts within a reasonable time not exceeding ninety days after the date the customer received notification from the bank that the order was accepted or that the customer's account was debited with respect to the order. The bank is not entitled to any recovery from the customer on account of a failure by the customer to give notification as stated in this section.

(2) Reasonable time under subsection (1) of this section may be fixed by agreement as stated in RCW 62A.1-204(1), but the obligation of a receiving bank to refund payment as stated in subsection (1) may not otherwise be varied by agreement.

NEW SECTION. Sec. 4A-205. ERRONEOUS PAYMENT ORDERS. (1) If an accepted payment order was transmitted pursuant to a security procedure for the detection of error and the payment order (a) erroneously instructed payment to a beneficiary not intended by the sender, (b) erroneously instructed payment in an amount greater than the amount intended by the sender, or (c) was an erroneously transmitted duplicate of a payment order previously sent by the sender, the following rules apply:

(i) If the sender proves that the sender or a person acting on behalf of the sender pursuant to section 4A-206 of this act complied with the security procedure and that the error would have been detected if the receiving bank had also complied, the sender is not obliged to pay the order to the extent stated in (ii) and (iii) of this subsection.

(ii) If the funds transfer is completed on the basis of an erroneous payment order described in (b) or (c) of this subsection, the sender is not obliged to pay the order and the receiving bank is entitled to recover from the beneficiary any amount paid to the beneficiary to the extent allowed by the law governing mistake and restitution.

(iii) If the funds transfer is completed on the basis of a payment order described in (b) of this subsection, the sender is not obliged to pay the order to the extent the amount received by the beneficiary is greater than the amount intended by the sender. In that case, the receiving bank is entitled to recover from the beneficiary the excess amount received to the extent allowed by the law governing mistake and restitution.

(2) If (a) the sender of an erroneous payment order described in subsection (1) of this section is not obliged to pay all or part of the order, and (b) the sender receives notification from the receiving bank that the order was accepted by the bank or that the sender's account was debited with respect to the order, the sender has a duty to exercise ordinary care, on the basis of information available to the sender, to discover the error with respect to the order and to advise the bank of the relevant facts within a reasonable time, not exceeding ninety days, after the bank's notification was received by the sender. If the bank proves that the sender failed to perform that duty, the sender is liable to the bank for the loss the bank proves it incurred as a result of the failure, but the liability of the sender may not exceed the amount of the sender's order.

(3) This section applies to amendments to payment orders to the same extent it applies to payment orders.

NEW SECTION. Sec. 4A-206. **TRANSMISSION OF PAYMENT ORDER THROUGH FUNDS-TRANSFER OR OTHER COMMUNICATION SYSTEM.** (1) If a payment order addressed to a receiving bank is transmitted to a funds-transfer system or other third-party communication system for transmittal to the bank, the system is deemed to be an agent of the sender for the purpose of transmitting the payment order to the bank. If there is a discrepancy between the terms of the payment order transmitted to the system and the terms of the payment order transmitted by the system to the bank, the terms of the payment order of the sender are those transmitted by the system. This section does not apply to a funds-transfer system of the federal reserve banks.

(2) This section applies to cancellations and amendments of payment orders to the same extent it applies to payment orders.

NEW SECTION. Sec. 4A-207. **MISDESCRIPTION OF BENEFICIARY.** (1) Subject to subsection (2) of this section, if, in a payment order received by the beneficiary's bank, the name, bank account number, or other identification of the beneficiary refers to a nonexistent or unidentifiable person or account, no person has rights as a beneficiary of the order and acceptance of the order cannot occur.

(2) If a payment order received by the beneficiary's bank identifies the beneficiary both by name and by an identifying or bank account number and the name and number identify different persons, the following rules apply:

(a) Except as otherwise provided in subsection (3) of this section, if the beneficiary's bank does not know that the name and number refer to different persons, it may rely on the number as the proper identification of the beneficiary of the order. The beneficiary's bank need not determine whether the name and number refer to the same person.

(b) If the beneficiary's bank pays the person identified by name or knows that the name and number identify different persons, no person has rights as beneficiary except the person paid by the beneficiary's bank if that person was entitled to receive payment from the originator of the funds transfer. If no person has rights as beneficiary, acceptance of the order cannot occur.

(3) If (a) a payment order described in subsection (2) of this section is accepted, (b) the originator's payment order described the beneficiary inconsistently by name and number, and (c) the beneficiary's bank pays the person identified by number as permitted by subsection (2)(a) of this section, the following rules apply:

(i) If the originator is a bank, the originator is obliged to pay its order.

(ii) If the originator is not a bank and proves that the person identified by number was not entitled to receive payment from the originator, the originator is not obliged to

pay its order unless the originator's bank proves that the originator, before acceptance of the originator's order, had notice that payment of a payment order issued by the originator might be made by the beneficiary's bank on the basis of an identifying or bank account number even if it identifies a person different from the named beneficiary. Proof of notice may be made by any admissible evidence. The originator's bank satisfies the burden of proof if it proves that the originator, before the payment order was accepted, signed a writing stating the information to which the notice relates.

(4) In a case governed by subsection (2)(a) of this section, if the beneficiary's bank rightfully pays the person identified by number and that person was not entitled to receive payment from the originator, the amount paid may be recovered from that person to the extent allowed by the law governing mistake and restitution as follows:

(a) If the originator is obliged to pay its payment order as stated in subsection (3) of this section, the originator has the right to recover.

(b) If the originator is not a bank and is not obliged to pay its payment order, the originator's bank has the right to recover.

NEW SECTION. Sec. 4A-208. MISDESCRIPTION OF INTERMEDIARY BANK OR BENEFICIARY'S BANK. (1) This subsection applies to a payment order identifying an intermediary bank or the beneficiary's bank only by an identifying number.

(a) The receiving bank may rely on the number as the proper identification of the intermediary or beneficiary's bank and need not determine whether the number identifies a bank.

(b) The sender is obliged to compensate the receiving bank for any loss and expenses incurred by the receiving bank as a result of its reliance on the number in executing or attempting to execute the order.

(2) This subsection applies to a payment order identifying an intermediary bank or the beneficiary's bank both by name and an identifying number if the name and number identify different persons.

(a) If the sender is a bank, the receiving bank may rely on the number as the proper identification of the intermediary or beneficiary's bank if the receiving bank, when it executes the sender's order, does not know that the name and number identify different persons. The receiving bank need not determine whether the name and number refer to the same person or whether the number refers to a bank. The sender is obliged to compensate the receiving bank for any loss and expenses incurred by the receiving bank as a result of its reliance on the number in executing or attempting to execute the order.

(b) If the sender is not a bank and the receiving bank proves that the sender, before the payment order was accepted, had notice that the receiving bank might rely on the number as the proper identification of the intermediary or beneficiary's bank even if it identifies a person different from the bank identified by name, the rights and obligations of the sender and the receiving bank are governed by subsection (2)(a) of this section, as though the sender were a bank. Proof of notice may be made by any admissible evidence. The receiving bank satisfies the burden of proof if it proves that the sender, before the payment order was accepted, signed a writing stating the information to which the notice relates.

(c) Regardless of whether the sender is a bank, the receiving bank may rely on the name as the proper identification of the intermediary or beneficiary's bank if the receiving bank, at the time it executes the sender's order, does not know that the name and number identify different persons. The receiving bank need not determine whether the name and number refer to the same person.

(d) If the receiving bank knows that the name and number identify different persons, reliance on either the name or the number in executing the sender's payment order is a breach of the obligation stated in section 4A-302(1)(a) of this act.

NEW SECTION. Sec. 4A-209. ACCEPTANCE OF PAYMENT ORDER. (1) Subject to subsection (4) of this section, a receiving bank other than the beneficiary's bank accepts a payment order when it executes the order.

(2) Subject to subsections (3) and (4) of this section, a beneficiary's bank accepts a payment order at the earliest of the following times:

(a) When the bank (i) pays the beneficiary as stated in section 4A-405(1) or (2) of this act or (ii) notifies the beneficiary of receipt of the order or that the account of the beneficiary has been credited with respect to the order unless the notice indicates that the bank is rejecting the order or that funds with respect to the order may not be withdrawn or used until receipt of payment from the sender of the order;

(b) When the bank receives payment of the entire amount of the sender's order pursuant to section 4A-403(1)(a) or (b) of this act; or

(c) The opening of the next funds-transfer business day of the bank following the payment date of the order if, at that time, the amount of the sender's order is fully covered by a withdrawable credit balance in an authorized account of the sender or the bank has otherwise received full payment from the sender, unless the order was rejected before that time or is rejected within (i) one hour after that time, or (ii) one hour after the opening of the next business day of the sender following the payment date if that time is later. If notice of rejection is received by the sender after the payment date and the authorized account of the sender does not bear interest, the bank is obliged to pay interest to the sender on the amount of the order for the number of days elapsing after the payment date to the day the sender receives notice or learns that the order was not accepted, counting that day as an elapsed day. If the withdrawable credit balance during that period falls below the amount of the order, the amount of interest payable is reduced accordingly.

(3) Acceptance of a payment order cannot occur before the order is received by the receiving bank. Acceptance does not occur under subsection (2)(b) or (c) of this section if the beneficiary of the payment order does not have an account with the receiving bank, the account has been closed, or the receiving bank is not permitted by law to receive credits for the beneficiary's account.

(4) A payment order issued to the originator's bank cannot be accepted until the payment date if the bank is the beneficiary's bank, or the execution date if the bank is not the beneficiary's bank. If the originator's bank executes the originator's payment order before the execution date or pays the beneficiary of the originator's payment order before the payment date and the payment order is subsequently canceled pursuant to section 4A-211(2) of this act, the bank may recover from the beneficiary any payment received to the extent allowed by the law governing mistake and restitution.

NEW SECTION. Sec. 4A-210. REJECTION OF PAYMENT ORDER. (1) A payment order is rejected by the receiving bank by a notice of rejection transmitted to the sender orally, electronically, or in writing. A notice of rejection need not use any particular words and is sufficient if it indicates that the receiving bank is rejecting the order or will not execute or pay the order. Rejection is effective when the notice is given if transmission is by a means that is reasonable in the circumstances. If notice of rejection is given by a means that is not reasonable, rejection is effective when the notice is received. If an agreement of the sender and receiving bank establishes the means to be used to reject a payment order, (a) any means complying with the agreement is reasonable and (b) any means not complying is not reasonable unless no significant delay in receipt of the notice resulted from the use of the noncomplying means.

(2) This subsection applies if a receiving bank other than the beneficiary's bank fails to execute a payment order despite the existence on the execution date of a withdrawable credit balance in an authorized account of the sender sufficient to cover the order. If the sender does not receive notice of rejection of the order on the execution date and the authorized account of the sender does not bear interest, the bank is obliged to pay

interest to the sender on the amount of the order for the number of days elapsing after the execution date to the earlier of the day the order is canceled pursuant to section 4A-211(4) of this act or the day the sender receives notice or learns that the order was not executed, counting the final day of the period as an elapsed day. If the withdrawable credit balance during that period falls below the amount of the order, the amount of interest is reduced accordingly.

(3) If a receiving bank suspends payments, all unaccepted payment orders issued to it are deemed rejected at the time the bank suspends payments.

(4) Acceptance of a payment order precludes a later rejection of the order. Rejection of a payment order precludes a later acceptance of the order.

NEW SECTION. Sec. 4A-211. CANCELLATION AND AMENDMENT OF PAYMENT ORDER. (1) A communication of the sender of a payment order canceling or amending the order may be transmitted to the receiving bank orally, electronically, or in writing. If a security procedure is in effect between the sender and the receiving bank, the communication is not effective to cancel or amend the order unless the communication is verified pursuant to the security procedure or the bank agrees to the cancellation or amendment.

(2) Subject to subsection (1) of this section, a communication by the sender canceling or amending a payment order is effective to cancel or amend the order if notice of the communication is received at a time and in a manner affording the receiving bank a reasonable opportunity to act on the communication before the bank accepts the payment order.

(3) After a payment order has been accepted, cancellation or amendment of the order is not effective unless the receiving bank agrees or a funds-transfer system rule allows cancellation or amendment without agreement of the bank.

(a) With respect to a payment order accepted by a receiving bank other than the beneficiary's bank, cancellation or amendment is not effective unless a conforming cancellation or amendment of the payment order issued by the receiving bank is also made.

(b) With respect to a payment order accepted by the beneficiary's bank, cancellation or amendment is not effective unless the order was issued in execution of an unauthorized payment order, or because of a mistake by a sender in the funds transfer which resulted in the issuance of a payment order (i) that is a duplicate of a payment order previously issued by the sender, (ii) that orders payment to a beneficiary not entitled to receive payment from the originator, or (iii) that orders payment in an amount greater than the amount the beneficiary was entitled to receive from the originator. If the payment order is canceled or amended, the beneficiary's bank is entitled to recover from the beneficiary any amount paid to the beneficiary to the extent allowed by the law governing mistake and restitution.

(4) An unaccepted payment order is canceled by operation of law at the close of the fifth funds-transfer business day of the receiving bank after the execution date or payment date of the order.

(5) A canceled payment order cannot be accepted. If an accepted payment order is canceled, the acceptance is nullified and no person has any right or obligation based on the acceptance. Amendment of a payment order is deemed to be cancellation of the original order at the time of amendment and issue of a new payment order in the amended form at the same time.

(6) Unless otherwise provided in an agreement of the parties or in a funds-transfer system rule, if the receiving bank, after accepting a payment order, agrees to cancellation or amendment of the order by the sender or is bound by a funds-transfer system rule allowing cancellation or amendment without the bank's agreement, the sender, whether or not cancellation or amendment is effective, is liable to the bank for any loss and

expenses, including reasonable attorneys' fees, incurred by the bank as a result of the cancellation or amendment or attempted cancellation or amendment.

(7) A payment order is not revoked by the death or legal incapacity of the sender unless the receiving bank knows of the death or of an adjudication of incapacity by a court of competent jurisdiction and has reasonable opportunity to act before acceptance of the order.

(8) A funds-transfer system rule is not effective to the extent it conflicts with subsection (3)(b) of this section.

NEW SECTION. Sec. 4A-212. **LIABILITY AND DUTY OF RECEIVING BANK REGARDING UNACCEPTED PAYMENT ORDER.** If a receiving bank fails to accept a payment order that is obliged by express agreement to accept, the bank is liable for breach of the agreement to the extent provided in the agreement or in this Article, but does not otherwise have any duty to accept a payment order or, before acceptance, to take any action, or refrain from taking action, with respect to the order except as provided in this Article or by express agreement. Liability based on acceptance arises only when acceptance occurs as stated in section 4A-209 of this act and liability is limited to that provided in this Article. A receiving bank is not the agent of the sender or beneficiary of the payment order it accepts, or of any other party to the funds transfer, and the bank owes no duty to any party to the funds transfer except as provided in this Article or by express agreement.

"PART 3

EXECUTION OF SENDER'S PAYMENT ORDER BY RECEIVING BANK"

NEW SECTION. Sec. 4A-301. **EXECUTION AND EXECUTION DATE.** (1) A payment order is "executed" by the receiving bank when it issues a payment order intended to carry out the payment order received by the bank. A payment order received by the beneficiary's bank can be accepted but cannot be executed.

(2) "Execution date" of a payment order means the day on which the receiving bank may properly issue a payment order in execution of the sender's order. The execution date may be determined by instruction of the sender but cannot be earlier than the day the order is received and, unless otherwise determined, is the day the order is received. If the sender's instruction states a payment date, the execution date is the payment date or an earlier date on which execution is reasonably necessary to allow payment to the beneficiary on the payment date.

NEW SECTION. Sec. 4A-302. **OBLIGATIONS OF RECEIVING BANK IN EXECUTION OF PAYMENT ORDER.** (1) Except as provided in subsections (2) through (4) of this section, if the receiving bank accepts a payment order pursuant to section 4A-209(1) of this act, the bank has the following obligations in executing the order.

(a) The receiving bank is obliged to issue, on the execution date, a payment order complying with the sender's order and to follow the sender's instructions concerning (i) any intermediary bank or funds-transfer system to be used in carrying out the funds transfer, or (ii) the means by which payment orders are to be transmitted in the funds transfer. If the originator's bank issues a payment order to an intermediary bank, the originator's bank is obliged to instruct the intermediary bank according to the instruction of the originator. An intermediary bank in the funds transfer is similarly bound by an instruction given to it by the sender of the payment order it accepts.

(b) If the sender's instruction states that the funds transfer is to be carried out telephonically or by wire transfer or otherwise indicates that the funds transfer is to be carried out by the most expeditious means, the receiving bank is obliged to transmit its payment order by the most expeditious available means, and to instruct any intermediary bank accordingly. If a sender's instruction states a payment date, the receiving bank is obliged to transmit its payment order at a time and by means reasonably necessary to allow payment to the beneficiary on the payment date or as soon thereafter as is feasible.

(2) Unless otherwise instructed, a receiving bank executing a payment order may (a) use any funds-transfer system if use of that system is reasonable in the circumstances, and (b) issue a payment order to the beneficiary's bank or to an intermediary bank through which a payment order conforming to the sender's order can expeditiously be issued to the beneficiary's bank if the receiving bank exercises ordinary care in the selection of the intermediary bank. A receiving bank is not required to follow an instruction of the sender designating a funds-transfer system to be used in carrying out the funds transfer if the receiving bank, in good faith, determines that it is not feasible to follow the instruction or that following the instruction would unduly delay completion of the funds transfer.

(3) Unless subsection (1)(b) of this section applies or the receiving bank is otherwise instructed, the bank may execute a payment order by transmitting its payment order by first class mail or by any means reasonable in the circumstances. If the receiving bank is instructed to execute the sender's order by transmitting its payment order by a particular means, the receiving bank may issue its payment order by the means stated or by any means as expeditious as the means stated.

(4) Unless instructed by the sender, (a) the receiving bank may not obtain payment of its charges for services and expenses in connection with the execution of the sender's order by issuing a payment order in an amount equal to the amount of the sender's order less the amount of the charges, and (b) may not instruct a subsequent receiving bank to obtain payment of its charges in the same manner.

NEW SECTION. Sec. 4A-303. **ERRONEOUS EXECUTION OF PAYMENT ORDER.** (1) A receiving bank that (a) executes the payment order of the sender by issuing a payment order in an amount greater than the amount of the sender's order, or (b) issues a payment order in execution of the sender's order and then issues a duplicate order, is entitled to payment of the amount of the sender's order under section 4A-402(3) of this act if that subsection is otherwise satisfied. The bank is entitled to recover from the beneficiary of the erroneous order the excess payment received to the extent allowed by the law governing mistake and restitution.

(2) A receiving bank that executes the payment order of the sender by issuing a payment order in an amount less than the amount of the sender's order is entitled to payment of the amount of the sender's order under section 4A-402(3) of this act if (a) that subsection is otherwise satisfied and (b) the bank corrects its mistake by issuing an additional payment order for the benefit of the beneficiary of the sender's order. If the error is not corrected, the issuer of the erroneous order is entitled to receive or retain payment from the sender of the order it accepted only to the extent of the amount of the erroneous order. This subsection does not apply if the receiving bank executes the sender's payment order by issuing a payment order in an amount less than the amount of the sender's order for the purpose of obtaining payment of its charges for services and expenses pursuant to instruction of the sender.

(3) If a receiving bank executes the payment order of the sender by issuing a payment order to a beneficiary different from the beneficiary of the sender's order and the funds transfer is completed on the basis of that error, the sender of the payment order that was erroneously executed and all previous senders in the funds transfer are not obliged to pay the payment orders they issued. The issuer of the erroneous order is entitled to recover from the beneficiary of the order the payment received to the extent allowed by the law governing mistake and restitution.

NEW SECTION. Sec. 4A-304. **DUTY OF SENDER TO REPORT ERRONEOUSLY EXECUTED PAYMENT ORDER.** If the sender of a payment order that is erroneously executed as stated in section 4A-303 of this act receives notification from the receiving bank that the order was executed or that the sender's account was debited with respect to the order, the sender has a duty to exercise ordinary care to determine, on the basis of information available to the sender, that the order was

erroneously executed and to notify the bank of the relevant facts within a reasonable time not exceeding ninety days after the notification from the bank was received by the sender. If the sender fails to perform that duty, the bank is not obliged to pay interest on any amount refundable to the sender under section 4A-402(4) of this act for the period before the bank learns of the execution error. The bank is not entitled to any recovery from the sender on account of a failure by the sender to perform the duty stated in this section.

NEW SECTION. Sec. 4A-305. **LIABILITY FOR LATE OR IMPROPER EXECUTION OR FAILURE TO EXECUTE PAYMENT ORDER.** (1) If a funds transfer is completed but execution of a payment order by the receiving bank in breach of section 4A-302 of this act results in delay in payment to the beneficiary, the bank is obliged to pay interest to either the originator or the beneficiary of the funds transfer for the period of delay caused by the improper execution. Except as provided in subsection (3) of this section, additional damages are not recoverable.

(2) If execution of a payment order by a receiving bank in breach of section 4A-302 of this act results in (a) noncompletion of the funds transfer, (b) failure to use an intermediary bank designated by the originator, or (c) issuance of a payment order that does not comply with the terms of the payment order of the originator, the bank is liable to the originator for its expenses in the funds transfer and for incidental expenses and interest losses, to the extent not covered by subsection (1) of this section, resulting from the improper execution. Except as provided in subsection (3) of this section, additional damages are not recoverable.

(3) In addition to the amounts payable under subsections (1) and (2) of this section, damages, including consequential damages, are recoverable to the extent provided in an express written agreement of the receiving bank.

(4) If a receiving bank fails to execute a payment order it was obliged by express agreement to execute, the receiving bank is liable to the sender for its expenses in the transaction and for incidental expenses and interest losses resulting from the failure to execute. Additional damages, including consequential damages, are recoverable to the extent provided in an express written agreement of the receiving bank, but are not otherwise recoverable.

(5) Reasonable attorneys' fees are recoverable if demand for compensation under subsection (1) or (2) of this section is made and refused before an action is brought on the claim. If a claim is made for breach of an agreement under subsection (4) of this section and the agreement does not provide for damages, reasonable attorneys' fees are recoverable if demand for compensation under subsection (4) of this section is made and refused before an action is brought on the claim.

(6) Except as stated in this section, the liability of a receiving bank under subsections (1) and (2) of this section may not be varied by agreement.

"PART 4 PAYMENT"

NEW SECTION. Sec. 4A-401. **PAYMENT DATE.** "Payment date" of a payment order means the day on which the amount of the order is payable to the beneficiary by the beneficiary's bank. The payment date may be determined by instruction of the sender but cannot be earlier than the day the order is received by the beneficiary's bank and, unless otherwise determined, is the day the order is received by the beneficiary's bank.

NEW SECTION. Sec. 4A-402. **OBLIGATION OF SENDER TO PAY RECEIVING BANK.** (1) This section is subject to sections 4A-205 and 4A-207 of this act.

(2) With respect to a payment order issued to the beneficiary's bank, acceptance of the order by the bank obliges the sender to pay the bank the amount of the order, but payment is not due until the payment date of the order.

(3) This subsection is subject to subsection (5) of this section and to section 4A-303 of this act. With respect to a payment order issued to a receiving bank other than the

beneficiary's bank, acceptance of the order by the receiving bank obliges the sender to pay the bank the amount of the sender's order. Payment by the sender is not due until the execution date of the sender's order. The obligation of that sender to pay its payment order is excused if the funds transfer is not completed by acceptance by the beneficiary's bank of a payment order instructing payment to the beneficiary of that sender's payment order.

(4) If the sender of a payment order pays the order and was not obliged to pay all or part of the amount paid, the bank receiving payment is obliged to refund payment to the extent the sender was not obliged to pay. Except as provided in sections 4A-204 and 4A-304 of this act, interest is payable on the refundable amount from the date of payment.

(5) If a funds transfer is not completed as stated in this subsection and an intermediary bank is obliged to refund payment as stated in subsection (4) of this section but is unable to do so because not permitted by applicable law or because the bank suspends payments, a sender in the funds transfer that executed a payment order in compliance with an instruction, as stated in section 4A-302(1)(a) of this section, to route the funds transfer through that intermediary bank is entitled to receive or retain payment from the sender of the payment order that it accepted. The first sender in the funds transfer that issued an instruction requiring routing through that intermediary bank is subrogated to the right of the bank that paid the intermediary bank to refund as stated in subsection (4) of this section.

(6) The right of the sender of a payment order to be excused from the obligation to pay the order as stated in subsection (3) of this section or to receive refund under subsection (4) of this section may not be varied by agreement.

NEW SECTION. Sec. 4A-403. **PAYMENT BY SENDER TO RECEIVING BANK.** (1) Payment of the sender's obligation under section 4A-402 of this act to pay the receiving bank occurs as follows:

(a) If the sender is a bank, payment occurs when the receiving bank receives final settlement of the obligation through a federal reserve bank or through a funds-transfer system.

(b) If the sender is a bank and the sender (i) credited an account of the receiving bank with the sender, or (ii) caused an account of the receiving bank in another bank to be credited, payment occurs when the credit is withdrawn or, if not withdrawn, at midnight of the day on which the credit is withdrawable and the receiving bank learns of that fact.

(c) If the receiving bank debits an account of the sender with the receiving bank, payment occurs when the debit is made to the extent the debit is covered by a withdrawable credit balance in the account.

(2) If the sender and receiving bank are members of a funds-transfer system that nets obligations multilaterally among participants, the receiving bank receives final settlement when settlement is complete in accordance with the rules of the system. The obligation of the sender to pay the amount of a payment order transmitted through the funds-transfer system may be satisfied, to the extent permitted by the rules of the system, by setting off and applying against the sender's obligation the right of the sender to receive payment from the receiving bank of the amount of any other payment order transmitted to the sender by the receiving bank through the funds-transfer system. The aggregate balance of obligations owed by each sender to each receiving bank in the funds-transfer system may be satisfied, to the extent permitted by the rules of the system, by setting off and applying against that balance the aggregate balance of obligations owed to the sender by other members of the system. The aggregate balance is determined after the right of setoff stated in the second sentence of this subsection has been exercised.

(3) If two banks transmit payment orders to each other under an agreement that settlement of the obligations of each bank to the other under section 4A-402 of this act

will be made at the end of the day or other period, the total amount owed with respect to all orders transmitted by one bank shall be set off against the total amount owed with respect to all orders transmitted by the other bank. To the extent of the setoff, each bank has made payment to the other.

(4) In a case not covered by subsection (1) of this section, the time when payment of the sender's obligation under section 4A-402 (2) or (3) of this act occurs is governed by applicable principles of law that determine when an obligation is satisfied.

NEW SECTION. Sec. 4A-404. OBLIGATION OF BENEFICIARY'S BANK TO PAY AND GIVE NOTICE TO BENEFICIARY. (1) Subject to sections 4A-211(5), 4A-405(4), and 4A-405(5) of this act, if a beneficiary's bank accepts a payment order, the bank is obliged to pay the amount of the order to the beneficiary of the order. Payment is due on the payment date of the order, but if acceptance occurs on the payment date after the close of the funds-transfer business day of the bank, payment is due on the next funds-transfer business day. If the bank refuses to pay after demand by the beneficiary and receipt of notice of particular circumstances that will give rise to consequential damages as a result of nonpayment, the beneficiary may recover damages resulting from the refusal to pay to the extent the bank had notice of the damages, unless the bank proves that it did not pay because of a reasonable doubt concerning the right of the beneficiary to payment.

(2) If a payment order accepted by the beneficiary's bank instructs payment to an account of the beneficiary, the bank is obliged to notify the beneficiary of receipt of the order before midnight of the next funds-transfer business day following the payment date. If the payment order does not instruct payment to an account of the beneficiary, the bank is required to notify the beneficiary only if notice is required by the order. Notice may be given by first class mail or any other means reasonable in the circumstances. If the bank fails to give the required notice, the bank is obliged to pay interest to the beneficiary on the amount of the payment order from the day notice should have been given until the day the beneficiary learned of receipt of the payment order by the bank. No other damages are recoverable. Reasonable attorneys' fees are also recoverable if demand for interest is made and refused before an action is brought on the claim.

(3) The right of a beneficiary to receive payment and damages as stated in subsection (a) may not be varied by agreement or a funds-transfer system rule. The right of a beneficiary to be notified as stated in subsection (2) of this section may be varied by agreement of the beneficiary or by a funds-transfer system rule if the beneficiary is notified of the rule before initiation of the funds transfer.

NEW SECTION. Sec. 4A-405. PAYMENT BY BENEFICIARY'S BANK TO BENEFICIARY. (1) If the beneficiary's bank credits an account of the beneficiary of a payment order payment of the bank's obligation under section 4A-404(1) of this act occurs when and to the extent (a) the beneficiary is notified of the right to withdraw the credit, (b) the bank lawfully applies the credit to a debt of the beneficiary, or (c) funds with respect to the order are otherwise made available to the beneficiary by the bank.

(2) If the beneficiary's bank does not credit an account of the beneficiary of a payment order, the time when payment of the bank's obligation under section 4A-404(1) of this act occurs is governed by principles of law that determine when an obligation is satisfied.

(3) Except as stated in subsections (4) and (5) of this act, if the beneficiary's bank pays the beneficiary of a payment order under a condition to payment or agreement of the beneficiary giving the bank the right to recover payment from the beneficiary if the bank does not receive payment of the order, the condition to payment or agreement is not enforceable.

(4) A funds-transfer system rule may provide that payments made to beneficiaries of funds transfers made through the system are provisional until receipt of payment by the beneficiary's bank of the payment order it accepted. A beneficiary's bank that makes

a payment that is provisional under the rule is entitled to refund from the beneficiary if (a) the rule requires that both the beneficiary and the originator be given notice of the provisional nature of the payment before the funds transfer is initiated, (b) the beneficiary, the beneficiary's bank and the originator's bank agreed to be bound by the rule, and (c) the beneficiary's bank did not receive payment of the payment order that it accepted. If the beneficiary is obliged to refund payment to the beneficiary's bank, acceptance of the payment order by the beneficiary's bank is nullified and no payment by the originator of the funds transfer to the beneficiary occurs under section 4A-406 of this act.

(5) This subsection applies to a funds transfer that includes a payment order transmitted over a funds-transfer system that (a) nets obligations multilaterally among participants, and (b) has in effect a loss-sharing agreement among participants for the purpose of providing funds necessary to complete settlement of the obligations of one or more participants that do not meet their settlement obligations. If the beneficiary's bank in the funds transfer accepts a payment order and the system fails to complete settlement pursuant to its rules with respect to any payment order in the funds transfer, (i) the acceptance by the beneficiary's bank is nullified and no person has any right or obligation based on the acceptance, (ii) the beneficiary's bank is entitled to recover payment from the beneficiary, (iii) no payment by the originator to the beneficiary occurs under section 4A-406 of this act, and (iv) subject to section 4A-402(5), each sender in the funds transfer is excused from its obligation to pay its payment order under section 4A-402(5), each sender in the funds transfer is excused from its obligation to pay its payment order under section 4A-402(3) of this act because the funds transfer has not been completed.

NEW SECTION. Sec. 4A-406. **PAYMENT BY ORIGINATOR TO BENEFICIARY; DISCHARGE OF UNDERLYING OBLIGATION.** (1) Subject to sections 4A-211(5), 4A-405(4), and 4A-405(5) of this act, the originator of a funds transfer pays the beneficiary of the originator's payment order (a) at the time a payment order for the benefit of the beneficiary is accepted by the beneficiary's bank in the funds transfer and (b) in an amount equal to the amount of the order accepted by the beneficiary's bank, but not more than the amount of the originator's order.

(2) If payment under subsection (1) of this section is made to satisfy an obligation, the obligation is discharged to the same extent discharge would result from payment to the beneficiary of the same amount in money, unless (a) the payment under subsection (1) of this section was made by a means prohibited by the contract of the beneficiary with respect to the obligation, (b) the beneficiary, within a reasonable time after receiving notice of receipt of the order by the beneficiary's bank, notified the originator of the beneficiary's refusal of the payment, (c) funds with respect to the order were not withdrawn by the beneficiary or applied to a debt of the beneficiary, and (d) the beneficiary would suffer a loss that could reasonably have been avoided if payment had been made by a means complying with the contract. If payment by the originator does not result in discharge under this section, the originator is subrogated to the rights of the beneficiary to receive payment from the beneficiary's bank under section 4A-404(1) of this act.

(3) For the purpose of determining whether discharge of an obligation occurs under subsection (2) of this section, if the beneficiary's bank accepts a payment order in an amount equal to the amount of the originator's payment order less charges of one or more receiving banks in the funds transfer, payment to the beneficiary is deemed to be in the amount of the originator's order unless upon demand by the beneficiary the originator does not pay the beneficiary the amount of the deducted charges.

(4) Rights of the originator or of the beneficiary of a funds transfer under this section may be varied only by agreement of the originator and the beneficiary.

"PART 5
MISCELLANEOUS PROVISIONS"

NEW SECTION. Sec. 4A-501. VARIATION BY AGREEMENT AND EFFECT OF FUNDS-TRANSFER SYSTEM RULE. (1) Except as otherwise provided in this Article, the rights and obligations of a party to a funds transfer may be varied by agreement of the affected party.

(2) "Funds-transfer system rule" means a rule of an association of banks (a) governing transmission of payment orders by means of a funds-transfer system of the association or rights and obligations with respect to those orders, or (b) to the extent the rule governs rights and obligations between banks that are parties to a funds transfer in which a federal reserve bank, acting as an intermediary bank, sends a payment order to the beneficiary's bank. Except as otherwise provided in this Article, a funds-transfer system rule governing rights and obligations between participating banks using the system may be effective even if the rule conflicts with the Article and indirectly affects another party to the funds transfer who does not consent to the rule. A funds-transfer system rule may also govern rights and obligations of parties other than participating banks using the system to the extent stated in sections 4A-404(3), 4A-405(4), and 4A-507(3) of this act.

NEW SECTION. Sec. 4A-502. CREDITOR PROCESS SERVED ON RECEIVING BANK; SETOFF BY BENEFICIARY'S BANK. (1) As used in this section, "creditor process" means levy, attachment, garnishment, notice of lien, sequestration, or similar process issued by or on behalf of a creditor or other claimant with respect to an account.

(2) This subsection applies to creditor process with respect to an authorized account of the sender of a payment order if the creditor process is served on the receiving bank. For the purpose of determining rights with respect to the creditor process, if the receiving bank accepts the payment order the balance in the authorized account is deemed to be reduced by the amount of the payment order to the extent the bank did not otherwise receive payment of the order, unless the creditor process is served at the time and in a manner affording the bank a reasonable opportunity to act on it before the bank accepts the payment order.

(3) If a beneficiary's bank has received a payment order for payment to the beneficiary's account in the bank, the following rules apply:

(a) The bank may credit the beneficiary's account. The amount credited may be set off against an obligation owed by the beneficiary to the bank or may be applied to satisfy creditor process served on the bank with respect to the account.

(b) The bank may credit the beneficiary's account and allow withdrawal of the amount credited unless creditor process with respect to the account is served at the time and in a manner affording the bank a reasonable opportunity to act to prevent withdrawal.

(c) If creditor process with respect to the beneficiary's account has been served and the bank has had a reasonable opportunity to act on it, the bank may not reject the payment order except for a reason unrelated to the service of process.

(4) Creditor process with respect to a payment by the originator to the beneficiary pursuant to a funds transfer may be served only on the beneficiary's bank with respect to the debt owed by that bank to the beneficiary. Any other bank served with the creditor process is not obliged to act with respect to the process.

NEW SECTION. Sec. 4A-503. INJUNCTION OR RESTRAINING ORDER WITH RESPECT TO FUNDS TRANSFER. For proper cause and in compliance with applicable law, a court may restrain (1) a person from issuing a payment order to initiate a funds transfer, (2) an originator's bank from executing the payment order of the originator, or (3) the beneficiary's bank from releasing funds to the beneficiary or the beneficiary from withdrawing the funds. A court may not otherwise restrain a person from issuing a payment order, paying or receiving payment of a payment order, or otherwise acting with respect to a funds transfer.

NEW SECTION. Sec. 4A-504. ORDER IN WHICH ITEMS AND PAYMENT ORDERS MAY BE CHARGED TO ACCOUNT; ORDER OF WITHDRAWALS FROM

ACCOUNT. (1) If a receiving bank has received more than one payment order of the sender or one or more payment orders and other items that are payable from the sender's account, the bank may charge the sender's account with respect to the various orders and items in any sequence.

(2) In determining whether a credit to an account has been withdrawn by the holder of the account or applied to a debt of the holder of the account, credits first made to the account are first withdrawn or applied.

NEW SECTION. Sec. 4A-505. **PRECLUSION OF OBJECTION TO DEBIT OF CUSTOMER'S ACCOUNT.** If a receiving bank has received payment from its customer with respect to a payment order issued in the name of the customer as sender and accepted by the bank, and the customer received notification reasonably identifying the order, the customer is precluded from asserting that the bank is not entitled to retain the payment unless the customer notifies the bank of the customer's objection to the payment within one year after the notification was received by the customer.

NEW SECTION. Sec. 4A-506. **RATE OF INTEREST.** (1) If, under this Article, a receiving bank is obliged to pay interest with respect to a payment order issued to the bank, the amount payable may be determined (a) by agreement of the sender and receiving bank, or (b) by a funds-transfer system rule if the payment order is transmitted through a funds-transfer system.

(2) If the amount of interest is not determined by an agreement or rule as stated in subsection (1) of this section, the amount is calculated by multiplying the applicable federal funds rate by the amount on which interest is payable, and then multiplying the product by the number of days for which interest is payable. The applicable federal funds rate is the average of the federal funds rates published by the federal reserve bank of New York for each of the days for which interest is payable divided by three hundred sixty. The federal funds rate for any day on which a published rate is not available is the same as the published rate for the next preceding day for which there is a published rate. If a receiving bank that accepted a payment order is required to refund payment to the sender of the order because the funds transfer was not completed, but the failure to complete was not due to any fault by the bank, the interest payable is reduced by a percentage equal to the reserve requirement on deposits of the receiving bank.

NEW SECTION. Sec. 4A-507. **CHOICE OF LAW.** (1) The following rules apply unless the affected parties otherwise agree or subsection (3) of this section applies;

(a) The rights and obligations between the sender of a payment order and the receiving bank are governed by the law of the jurisdiction in which the receiving bank is located.

(b) The rights and obligations between the beneficiary's bank and the beneficiary are governed by the law of the jurisdiction in which the beneficiary's bank is located.

(c) The issue of when payment is made pursuant to a funds transfer by the originator to the beneficiary is governed by the law of the jurisdiction in which the beneficiary's bank is located.

(2) If the parties described in each paragraph of subsection (1) of this section have made an agreement selecting the law of a particular jurisdiction to govern rights and obligations between each other, the law of that jurisdiction governs those rights and obligations, whether or not the payment order or the funds transfer bears a reasonable relation to that jurisdiction.

(3) A funds-transfer system rule may select the law of a particular jurisdiction to govern (a) rights and obligations between participating banks with respect to payment orders transmitted or processed through the system, or (b) the rights and obligations of some or all parties to a funds transfer any part of which is carried out by means of the system. A choice of law made pursuant to (a) of this subsection is binding on participating banks. A choice of law made pursuant to (b) of this subsection is binding on the originator, other sender, or a receiving bank having notice that the funds-transfer

system might be used in the funds transfer and of the choice of law by the system when the originator, other sender, or receiving bank issued or accepted a payment order. The beneficiary of a funds transfer is bound by the choice of law if, when the funds transfer is initiated, the beneficiary has notice that the funds-transfer system might be used in the funds transfer and of the choice of law by the system. The law of a jurisdiction selected pursuant to this subsection may govern, whether or not that law bears a reasonable relation to the matter in issue.

(4) In the event of inconsistency between an agreement under subsection (2) of this section and a choice-of-law rule under subsection (3) of this section, the agreement under subsection (2) of this section prevails.

(5) If a funds transfer is made by use of more than one funds-transfer system and there is inconsistency between choice-of-law rules of the systems, the matter in issue is governed by the law of the selected jurisdiction that has the most significant relationship to the matter in issue.

NEW SECTION. Sec. 4A-508. Sections 4A-101 through 4A-507 of this act shall constitute a new Article in Title 62A RCW.

On page 1, line 1 of the title, after "transfer;" strike the remainder of the title and insert "and adding a new Article to Title 62A RCW." and the same is herewith transmitted.

SENATE AMENDMENTS TO HOUSE BILL

June 24, 1991

Mr. Speaker:

The Senate has passed HOUSE BILL NO. 2214 with the following amendments:

On page 3, after line 9, insert a new section to read as follows:

NEW SECTION. Sec. 2. A new section is added to chapter 82.14 RCW to read as follows:

Beginning in January 1, 1992, no city with a population in excess of four hundred thousand shall receive any distribution of moneys from the municipal justice assistance account until the city has entered an agreement with the office of court administrator regarding the utilization of the district and municipal court information system. The agreement shall require any municipal court system of such cities to be linked to the system and be fully capable of on-line use of the data contained therein. Mr. Anderson moved adoption of the following amendment by Representatives Anderson and McLean:

Strike everything after the enacting clause and insert the following:

Sec. 1. RCW 42.17.020 and 1990 c 139 s 2 are each amended to read as follows:

(1) "Agency" includes all state agencies and all local agencies. "State agency" includes every state office, department, division, bureau, board, commission, or other state agency. "Local agency" includes every county, city, town, municipal corporation, quasi-

municipal corporation, or special purpose district, or any office, department, division, bureau, board, commission, or agency thereof, or other local public agency.

(2) "Ballot proposition" means any "measure" as defined by RCW 29.01.110, or any initiative, recall, or referendum proposition proposed to be submitted to the voters of the state or any municipal corporation, political subdivision, or other voting constituency from and after the time when the proposition has been initially filed with the appropriate election officer of that constituency prior to its circulation for signatures.

(3) "Depository" means a bank designated by a candidate or political committee pursuant to RCW 42.17.050.

(4) "Treasurer" and "deputy treasurer" mean the individuals appointed by a candidate or political committee, pursuant to RCW 42.17.050, to perform the duties specified in that section.

(5) "Candidate" means any individual who seeks election to public office. An individual shall be deemed to seek election when he first:

(a) Receives contributions or makes expenditures or reserves space or facilities with intent to promote his candidacy for office; or

(b) Announces publicly or files for office.

(6) "Commercial advertiser" means any person who sells the service of communicating messages or producing printed material for broadcast or distribution to the general public or segments of the general public whether through the use of newspapers, magazines, television and radio stations, billboard companies, direct mail advertising companies, printing companies, or otherwise.

(7) "Commission" means the agency established under RCW 42.17.350.

(8) "Compensation" unless the context requires a narrower meaning, includes payment in any form for real or personal property or services of any kind: PROVIDED, That for the purpose of compliance with RCW 42.17.241, the term "compensation" shall not include per diem allowances or other payments made by a governmental entity to reimburse a public official for expenses incurred while the official is engaged in the official business of the governmental entity.

(9) "Continuing political committee" means a political committee that is an organization of continuing existence not established in anticipation of any particular election campaign.

(10) "Contribution" includes a loan, gift, deposit, subscription, forgiveness of indebtedness, donation, advance, pledge, payment, transfer of funds between political committees, or transfer of anything of value, including personal and professional services for less than full consideration, but does not include interest on moneys deposited in a political committee's account, ordinary home hospitality and the rendering of personal services of the sort commonly performed by volunteer campaign workers, or incidental expenses personally incurred by volunteer campaign workers not in excess of fifty dollars personally paid for by the worker. Volunteer services, for the purposes of this chapter, means services or labor for which the individual is not compensated by any person. For the purposes of this chapter, contributions other than money or its equivalents shall be deemed to have a money value equivalent to the fair market value of the contribution. Sums paid for tickets to fund-raising events such as dinners and parties are contributions; however, the amount of any such contribution may be reduced for the purpose of complying with the reporting requirements of this chapter, by the actual cost of consumables furnished in connection with the purchase of the tickets, and only the excess over the actual cost of the consumables shall be deemed a contribution.

(11) "Elected official" means any person elected at a general or special election to any public office, and any person appointed to fill a vacancy in any such office.

(12) "Election" includes any primary, general, or special election for public office and any election in which a ballot proposition is submitted to the voters: PROVIDED, That an election in which the qualifications for voting include other than those

requirements set forth in Article VI, section 1 (Amendment 63) of the Constitution of the state of Washington shall not be considered an election for purposes of this chapter.

(13) "Election campaign" means any campaign in support of or in opposition to a candidate for election to public office and any campaign in support of, or in opposition to, a ballot proposition.

(14) "Expenditure" includes a payment, contribution, subscription, distribution, loan, advance, deposit, or gift of money or anything of value, and includes a contract, promise, or agreement, whether or not legally enforceable, to make an expenditure. The term "expenditure" also includes a promise to pay, a payment, or a transfer of anything of value in exchange for goods, services, property, facilities, or anything of value for the purpose of assisting, benefiting, or honoring any public official or candidate, or assisting in furthering or opposing any election campaign. For the purposes of this chapter, agreements to make expenditures, contracts, and promises to pay may be reported as estimated obligations until actual payment is made. The term "expenditure" shall not include the partial or complete repayment by a candidate or political committee of the principal of a loan, the receipt of which loan has been properly reported.

(15) "Final report" means the report described as a final report in RCW 42.17.080(2).

The term "reasonable consideration" refers to the approximate range of consideration that exists in transactions not involving donative intent. However, the value of the gift of partaking in a single hosted reception shall be determined by dividing the total amount of the cost of conducting the reception by the total number of persons partaking in the reception. "Gift" for the purposes of RCW 42.17.170 and section 3 of this 1991 act does not include:

(a) A gift, other than a gift of partaking in a hosted reception, with a value of fifty dollars or less;

(e) A gift that is not used and that, within thirty days after receipt, is returned to the donor or delivered to a charitable organization. However, this exclusion from the definition does not apply if the recipient of the gift delivers the gift to a charitable organization and claims the delivery as a charitable contribution for tax purposes;

(f) A gift given under circumstances where it is clear beyond any doubt that the gift was not made as part of any design to gain or maintain influence in the governmental entity of which the recipient is an officer or official or with respect to any legislative matter or matters of that governmental entity; or

(g) A gift given prior to the effective date of this 1991 act.

(17) "Immediate family" includes the spouse, dependent children, and other dependent relatives, if living in the household.

((23)) (24) "Political advertising" includes any advertising displays, newspaper ads, billboards, signs, brochures, articles, tabloids, flyers, letters, radio or television presentations, or other means of mass communication, used for the purpose of appealing, directly or indirectly, for votes or for financial or other support in any election campaign.

((24)) (25) "Political committee" means any person (except a candidate or an individual dealing with his own funds or property) having the expectation of receiving contributions or making expenditures in support of, or opposition to, any candidate or any ballot proposition.

((27)) (28) "Surplus funds" mean, in the case of a political committee or candidate, the balance of contributions that remain in the possession or control of that committee or candidate subsequent to the election for which the contributions were received, and that are in excess of the amount necessary to pay remaining debts incurred by the committee or candidate prior to that election. In the case of a continuing political committee, "surplus funds" mean those contributions remaining in the possession or control of the committee that are in excess of the amount necessary to pay all remaining debts when it makes its final report under RCW 42.17.065.

((28)) (29) "Writing" means handwriting, typewriting, printing, photostating, photographing, and every other means of recording any form of communication or representation, including letters, words, pictures, sounds, or symbols, or combination thereof, and all papers, maps, magnetic or paper tapes, photographic films and prints, magnetic or punched cards, discs, drums, and other documents.

As used in this chapter, the singular shall take the plural and any gender, the other, as the context requires.

Sec. 2. RCW 42.17.170 and 1990 c 139 s 3 are each amended to read as follows:

(1) Any lobbyist registered under RCW 42.17.150 and any person who lobbies shall file with the commission periodic reports of his activities signed by the lobbyist. The

reports shall be made in the form and manner prescribed by the commission. They shall be due monthly and shall be filed within fifteen days after the last day of the calendar month covered by the report.

(2) Each such monthly periodic report shall contain:

(a) The totals of all expenditures for lobbying activities made or incurred by such lobbyist or on behalf of such lobbyist by the lobbyist's employer during the period covered by the report. Such totals for lobbying activities shall be segregated according to financial category, including compensation; food and refreshments; living accommodations; advertising; travel; contributions; and other expenses or services. Each individual expenditure of more than twenty-five dollars for entertainment shall be identified by date, place, amount, and the names of all persons in the group partaking in or of such entertainment including any portion thereof attributable to the lobbyist's participation therein ~~((but))~~, without allocating any portion of such expenditure to individual participants. However, if the expenditure for a single hosted reception is more than one hundred dollars per person partaking therein, the report shall specify the per person amount, which shall be determined by dividing the total amount of the expenditure by the total number of persons partaking in the reception.

Notwithstanding the foregoing, lobbyists are not required to report the following:

(i) Unreimbursed personal living and travel expenses not incurred directly for lobbying;

(ii) Any expenses incurred for his or her own living accommodations;

All contributions made to, or for the benefit of, any candidate, elected official, or officer or employee of any agency, or any political committee supporting or opposing any ballot proposition shall be identified by date, amount, and the name of the candidate, elected official, or officer or employee of any agency, or any political committee supporting or opposing any ballot proposition receiving, or to be benefited by each such contribution.

(d) The subject matter of proposed legislation or other legislative activity or rule-making under chapter 34.05 RCW, the state Administrative Procedure Act, and the state agency considering the same, which the lobbyist has been engaged in supporting or opposing during the reporting period.

(e) Such other information relevant to lobbying activities as the commission shall by rule prescribe. Information supporting such activities as are required to be reported is subject to audit by the commission.

(f) A listing of each gift, as defined in RCW 42.17.020, made to a state elected official or executive state officer or to a member of the immediate family of such an official or officer. Such a gift shall be separately identified by the date it was given, the approximate value of the gift, and the name of the recipient. However, for a hosted reception where the average per person amount is reported under (a) of this subsection, the approximate value for the gift of partaking in the event is such average per person amount. The commission shall adopt forms to be used for reporting the giving of gifts

under this subsection (2)(f). The forms shall be designed to permit a lobbyist to report on a separate form for each recipient the reportable gifts given to that recipient during the reporting period or, alternatively, to report on one form all reportable gifts given by the lobbyist during the reporting period.

(3) If a state elected official or a member of such an official's immediate family is identified by a lobbyist in such a report as having received from the lobbyist a gift, as defined in RCW 42.17.020, the lobbyist shall transmit to the official a copy of the completed form used to identify the gift in the report at the same time the report is filed with the commission.

The statement shall identify the nature of the gift, the date it was received, and the name of the donor. The commission may adopt a form for reporting the receipt of gifts under this section or may incorporate that reporting into the form or forms adopted by the commission for the statement of financial affairs.

Sec. 4. RCW 42.17.243 and 1977 ex.s. c 336 s 5 are each amended to read as follows:

Essential public facilities include those facilities that are typically difficult to site, such as airports, state education facilities and state or regional transportation facilities, state and local correctional facilities, solid waste handling facilities, and in-patient facilities including substance abuse facilities, mental health facilities, and group homes.

(2) The office of financial management shall maintain a list of those essential state public facilities that are required or likely to be built within the next six years. The office of financial management may at any time add facilities to the list. No local comprehensive plan or development regulation may preclude the siting of essential public facilities.

NEW SECTION. Sec. 2. COUNTY-WIDE PLANNING POLICIES. (1) The legislature recognizes that counties are regional governments within their boundaries, and cities are primary providers of urban governmental services within urban growth areas. For the purposes of this section, a "county-wide planning policy" is a written policy statement or statements used solely for establishing a county-wide framework from which county and city comprehensive plans are developed and adopted pursuant to this chapter. This framework shall ensure that city and county comprehensive plans are consistent as required in RCW 36.70A.100. Nothing in this section shall be construed to alter the land-use powers of cities.

(2) The legislative authority of a county that plans under RCW 36.70A.040 shall adopt a county-wide planning policy in cooperation with the cities located in whole or in part within the county as follows:

(a) No later than sixty calendar days from the effective date of this act, the legislative authority of the county shall convene a meeting with representatives of each city for the purpose of establishing a collaborative process that will provide a framework for the adoption of a county-wide planning policy;

(b) The process and framework for adoption of a county-wide planning policy specified in (a) of this subsection shall determine the manner in which the county and the cities agree to all procedures and provisions including but not limited to desired planning policies, deadlines, ratification of final agreements and demonstration thereof, and financing, if any, of all activities associated therewith;

(c) If a county fails for any reason to convene a meeting with representatives of cities as required in (a) of this subsection, the governor may immediately impose any appropriate sanction or sanctions on the county from those specified under section 26 of this act;

(d) If there is no agreement by October 1, 1991, the governor shall first inquire of the jurisdictions as to the reason or reasons for failure to reach an agreement. If the governor deems it appropriate, the governor may immediately request the assistance of the department of community development to mediate any disputes that preclude agreement. If mediation is unsuccessful in resolving all disputes that will lead to agreement, the governor may impose appropriate sanctions from those specified under

section 26 of this act on the county, city, or cities for failure to reach an agreement as provided in this section. The governor shall specify the reason or reasons for the imposition of any sanction; and

(e) No later than July 1, 1992, the legislative authority of the county shall adopt a county-wide planning policy according to the process provided under this section and that is consistent with the agreement pursuant to (b) of this subsection, and after holding a public hearing or hearings on the proposed county-wide planning policy.

In imposing a sanction or sanctions, the governor shall specify the reasons for failure to adopt a county-wide planning policy in order that any imposed sanction or sanctions are fairly and equitably related to the failure to adopt a county-wide planning policy.

(6) Cities and the governor may appeal an adopted county-wide planning policy to the growth planning hearings board within sixty days of the adoption of the county-wide planning policy.

(7) Multicounty planning policies shall be adopted by two or more counties, each with a population of four hundred fifty thousand or more, with contiguous urban areas and may be adopted by other counties, according to the process established under this section or other processes agreed to among the counties and cities within the affected counties throughout the multicounty region.

(2) Each member of a board shall be appointed for a term of six years. A vacancy shall be filled by appointment by the governor for the unexpired portion of the term in which the vacancy occurs. The terms of the first three members of a board shall be staggered so that one member is appointed to serve until July 1, 1994, one member until July 1, 1996, and one member until July 1, 1998.

NEW SECTION. Sec. 7. CONDUCT, PROCEDURE, AND COMPENSATION OF GROWTH PLANNING HEARINGS BOARDS. Each growth planning hearings board shall be governed by the following rules on conduct and procedure:

(1) Any board member may be removed for inefficiency, malfeasance, and misfeasance in office, under specific written charges filed by the governor. The governor shall transmit such written charges to the member accused and the chief justice of the supreme court. The chief justice shall thereupon designate a tribunal composed of three judges of the superior court to hear and adjudicate the charges. Removal of any member of a board by the tribunal shall disqualify such member for reappointment.

(2) Each board member shall receive reimbursement for travel expenses incurred in the discharge of his or her duties in accordance with RCW 43.03.050 and 43.03.060. If it is determined that the review boards shall operate on a full-time basis, each member shall receive an annual salary to be determined by the governor pursuant to RCW 43.03.040. If it is determined that a review board shall operate on a part-time basis, each member shall receive compensation pursuant to RCW 43.03.250, provided such amount shall not exceed the amount that would be set if they were a full-time board member. The principal office of each board shall be located by the governor within the jurisdictional boundaries of each board. The boards shall operate on either a part-time or full-time basis, as determined by the governor.

(3) Each board member shall not: (a) Be a candidate for or hold any other public office or trust; (b) engage in any occupation or business interfering with or inconsistent with his or her duty as a board member; and (c) for a period of one year after the termination of his or her board membership, act in a representative capacity before the board on any matter.

(4) A majority of each board shall constitute a quorum for making orders or decisions, adopting rules necessary for the conduct of its powers and duties, or transacting other official business, and may act even though one position of the board is vacant. One or more members may hold hearings and take testimony to be reported for action by the board when authorized by rule or order of the board. The board may also appoint as its authorized agents one or more hearing examiners to assist the board in the performance of its hearing function pursuant to the authority contained in the administrative procedure act, chapter 34.05 RCW. The findings of the hearing examiner shall not become final until they have been formally approved by the board. Such hearing examiners must have demonstrated knowledge of land use planning and law. The board shall perform all the powers and duties specified in this chapter or as otherwise provided by law.

(5) Each board shall make findings of fact and prepare a written decision in each case decided by it, and such findings and decision shall be effective upon being signed by two or more members of the board and upon being filed at the board's principal office, and shall be open for public inspection at all reasonable times.

(6) All proceedings before the board or any of its members shall be conducted in accordance with such administrative rules of practice and procedure as the boards jointly prescribe. All three boards shall jointly meet to develop and adopt joint rules of practice and procedure, including rules regarding expeditious and summary disposition of appeals. The boards shall publish such rules and arrange for the reasonable distribution of the rules. The administrative procedure act, chapter 34.05 RCW, shall govern the administrative rules of practice and procedure adopted by the boards.

(7) The members of the boards shall meet jointly on at least an annual basis with the objective of sharing information that promotes the goals and purposes of this chapter.

NEW SECTION. Sec. 8. COMPREHENSIVE PLANS--DEVELOPMENT REGULATIONS--TRANSMITTAL TO STATE. (1) Each county and city proposing adoption of a comprehensive plan or development regulations under this chapter shall notify the department of its intent to adopt such plan or regulations at least sixty days prior to final adoption. State agencies including the department may provide comments

to the county or city on the proposed comprehensive plan, or proposed development regulations, during the public review process prior to adoption.

(2) Each county and city planning under this chapter shall transmit a complete and accurate copy of its comprehensive plan or development regulations to the department within ten days after final adoption.

(3) Any amendments for permanent changes to a comprehensive plan or development regulation that are proposed by a county or city to its adopted plan or regulations shall be submitted to the department in the same manner as initial plans and development regulations under this section. Any amendments to a comprehensive plan or development regulations that are adopted by a county or city shall be transmitted to the department in the same manner as the initial plans and regulations under this section.

NEW SECTION. Sec. 9. MATTERS SUBJECT TO BOARD REVIEW. (1) A growth planning hearings board shall hear and determine only those petitions alleging either: (a) That a state agency, county, or city is not in compliance with the requirements of this chapter, or chapter 43.21C RCW as it relates to plans, regulations, and amendments thereto, adopted under RCW 36.70A.040; or (b) that the twenty-year growth management planning population projections adopted by the office of financial management pursuant to RCW 43.62.035 should be adjusted.

(2) A petition may be filed only by the state, a county or city that plans under this chapter, a person who has either appeared before the county or city regarding the matter on which a review is being requested or is certified by the governor within sixty days of filing the request with the board, or a person qualified pursuant to RCW 34.05.530.

(3) For purposes of this section "person" means any individual, partnership, corporation, association, governmental subdivision or unit thereof, or public or private organization or entity of any character.

(4) When considering a possible adjustment to a growth management planning population projection prepared by the office of financial management, a board shall consider the implications of any such adjustment to the population forecast for the entire state.

The rationale for any adjustment that is adopted by a board must be documented and filed with the office of financial management within ten working days after adoption.

If adjusted by a board, a county growth management planning population projection shall only be used for the planning purposes set forth in this chapter and shall be known as a "board adjusted population projection". None of these changes shall affect the official state and county population forecasts prepared by the office of financial management, which shall continue to be used for state budget and planning purposes.

NEW SECTION. Sec. 10. PETITIONS TO GROWTH PLANNING HEARINGS BOARDS--EVIDENCE TO BE CONSIDERED BY BOARD. (1) All requests for review to a growth planning hearings board shall be initiated by filing a petition that includes a detailed statement of issues presented for resolution by the board.

(2) All petitions relating to whether or not an adopted comprehensive plan, development regulation, or permanent amendment thereto, is in compliance with the goals and requirements of this chapter must be filed within sixty days after publication by the legislative bodies of the county or city. The date of publication for a city shall be the date the city publishes the ordinance, or summary of the ordinance, adopting the comprehensive plan or development regulations, or amendment thereto, as is required to be published. Promptly after adoption, a county shall publish a notice that it has adopted the comprehensive plan or development regulations, or amendment thereto. The date of publication for a county shall be the date the county publishes the notice that it has adopted the comprehensive plan or development regulations, or amendment thereto.

(3) Unless the board dismisses the petition as frivolous or finds that the person filing the petition lacks standing, the board shall, within ten days of receipt of the petition, set a time for hearing the matter.

(4) The board shall base its decision on the record developed by the city, county, or the state and supplemented with additional evidence if the board determines that such additional evidence would be necessary or of substantial assistance to the board in reaching its decision.

(5) The board, shall consolidate, when appropriate, all petitions involving the review of the same comprehensive plan or the same development regulation or regulations.

NEW SECTION. Sec. 11. **FINAL ORDERS.** (1) The board shall issue a final order within one hundred eighty days of receipt of the petition for review, or, when multiple petitions are filed, within one hundred eighty days of receipt of the last petition that is consolidated. Such a final order shall be based exclusively on whether or not a state agency, county, or city is in compliance with the requirements of this chapter, or chapter 43.21C RCW as it relates to plans, regulations, and amendments thereto, adopted under RCW 36.70A.040. In the final order, the board shall either: (a) Find that the state agency, county, or city is in compliance with the requirements of this chapter; or (b) find that the state agency, county, or city is not in compliance with the requirements of this chapter, in which case the board shall remand the matter to the affected state agency, county, or city and specify a reasonable time not in excess of one hundred eighty days within which the state agency, county, or city shall comply with the requirements of this chapter.

(2) Any party aggrieved by a final decision of the hearings board may appeal the decision to Thurston county superior court within thirty days of the final order of the board.

NEW SECTION. Sec. 12. **LIMITATIONS ON APPEAL BY THE STATE.** A request for review by the state to a growth planning hearings board may be made only by the governor, or with the governor's consent the head of an agency, or by the commissioner of public lands as relating to state trust lands, for the review of whether: (1) A county or city that is required or chooses to plan under RCW 36.70A.040 has failed to adopt a comprehensive plan or development regulations, or county-wide planning policies within the time limits established by this chapter; or (2) a county or city that is required or chooses to plan under this chapter has adopted a comprehensive plan, development regulations, or county-wide planning policies, that are not in compliance with the requirements of this chapter.

NEW SECTION. Sec. 13. **PRESUMPTION OF VALIDITY--BURDEN OF PROOF--PLANS AND REGULATIONS.** Comprehensive plans and development regulations, and amendments thereto, adopted under this chapter are presumed valid upon adoption. In any petition under this chapter, the board, after full consideration of the petition, shall determine whether there is compliance with the requirements of this chapter. In making its determination, the board shall consider the criteria adopted by the department under RCW 36.70A.190(4). The board shall find compliance unless it finds by a preponderance of the evidence that the state agency, county, or city erroneously interpreted or applied this chapter.

NEW SECTION. Sec. 14. **NONCOMPLIANCE.** (1) After the time set for complying with the requirements of this chapter under section 11(1)(b) of this act has expired, the board, on its own motion or motion of the petitioner, shall set a hearing for the purpose of determining whether the state agency, county, or city is in compliance with the requirements of this chapter.

(2) The board shall conduct a hearing and issue a finding of compliance or noncompliance. A hearing under this subsection shall be given the highest priority of business to be conducted by the board, and a finding shall be issued within forty-five days of the filing of the motion under subsection (1) of this section with the board.

(3) If the board finds that the state agency, county, or city is not in compliance, the board shall transmit its finding to the governor. The board may recommend to the governor that the sanctions authorized by this chapter be imposed.

NEW SECTION. Sec. 15. PHASING OF COMPREHENSIVE PLANS SUBMITTAL. The department may adopt a schedule to permit phasing of comprehensive plan submittal for counties and cities planning under RCW 36.70A.040. This schedule shall not permit a comprehensive plan to be submitted greater than one hundred eighty days past the date that the plan was required to be submitted and shall be used to facilitate expeditious review and interjurisdictional coordination of comprehensive plans and development regulations.

NEW SECTION. Sec. 16. NEW FULLY CONTAINED COMMUNITIES. A county required or choosing to plan under RCW 36.70A.040 may establish a process as part of its urban growth areas, that are designated under RCW 36.70A.110, for reviewing proposals to authorize new fully contained communities located outside of the initially designated urban growth areas.

(1) A new fully contained community may be approved in a county planning under this chapter if criteria including but not limited to the following are met:

(a) New infrastructure is provided for and impact fees are established consistent with the requirements of RCW 82.02.050;

(b) Transit-oriented site planning and traffic demand management programs are implemented;

(c) Buffers are provided between the new fully contained communities and adjacent urban development;

(d) A mix of uses is provided to offer jobs, housing, and services to the residents of the new community;

(e) Affordable housing is provided within the new community for a broad range of income levels;

(f) Environmental protection has been addressed and provided for;

(g) Development regulations are established to ensure urban growth will not occur in adjacent nonurban areas;

(h) Provision is made to mitigate impacts on designated agricultural lands, forest lands, and mineral resource lands;

(i) The plan for the new fully contained community is consistent with the development regulations established for the protection of critical areas by the county pursuant to RCW 36.70A.170.

(2) New fully contained communities may be approved outside established urban growth areas only if a county reserves a portion of the twenty-year population projection and offsets the urban growth area accordingly for allocation to new fully contained communities that meet the requirements of this chapter. Any county electing to establish a new community reserve shall do so no more often than once every five years as a part of the designation or review of urban growth areas required by this chapter. The new community reserve shall be allocated on a project-by-project basis, only after specific project approval procedures have been adopted pursuant to this chapter as a development regulation. When a new community reserve is established, urban growth areas designated pursuant to this chapter shall accommodate the unreserved portion of the twenty-year population projection.

Final approval of an application for a new fully contained community shall be considered an adopted amendment to the comprehensive plan prepared pursuant to RCW 36.70A.070 designating the new fully contained community as an urban growth area.

NEW SECTION. Sec. 17. NEW MASTER PLANNED RESORTS. Counties that are required or choose to plan under RCW 36.70A.040 may permit master planned resorts which may constitute urban growth outside of urban growth areas as limited by this section. A master planned resort means a self-contained and fully integrated planned unit development, in a setting of significant natural amenities, with primary focus on destination resort facilities consisting of short-term visitor accommodations associated with a range of developed on-site indoor or outdoor recreational facilities. A master

planned resort may include other residential uses within its boundaries, but only if the residential uses are integrated into and support the on-site recreational nature of the resort.

A master planned resort may be authorized by a county only if:

(1) The comprehensive plan specifically identifies policies to guide the development of master planned resorts;

(2) The comprehensive plan and development regulations include restrictions that preclude new urban or suburban land uses in the vicinity of the master planned resort, except in areas otherwise designated for urban growth under RCW 36.70A.110;

(3) The county includes a finding as a part of the approval process that the land is better suited, and has more long-term importance, for the master planned resort than for the commercial harvesting of timber or agricultural production, if located on land that otherwise would be designated as forest land or agricultural land under RCW 36.70A.170;

(4) The county ensures that the resort plan is consistent with the development regulations established for critical areas; and

(5) On-site and off-site infrastructure impacts are fully considered and mitigated.

NEW SECTION. Sec. 18. PROTECTION OF PRIVATE PROPERTY. (1) The state attorney general shall establish by October 1, 1991, an orderly, consistent process, including a checklist if appropriate, that better enables state agencies and local governments to evaluate proposed regulatory or administrative actions to assure that such actions do not result in an unconstitutional taking of private property. It is not the purpose of this section to expand or reduce the scope of private property protections provided in the state and federal Constitutions. The attorney general shall review and update the process at least on an annual basis to maintain consistency with changes in case law.

(2) Local governments that are required or choose to plan under RCW 36.70A.040 and state agencies shall utilize the process established by subsection (1) of this section to assure that proposed regulatory or administrative actions do not result in an unconstitutional taking of private property.

(3) The attorney general, in consultation with the Washington state bar association, shall develop a continuing education course to implement this section.

(4) The process used by government agencies shall be protected by attorney client privilege. Nothing in this section grants a private party the right to seek judicial relief requiring compliance with the provisions of this section.

NEW SECTION. Sec. 19. OPEN SPACE PROTECTION. When open space is to be protected for the purpose of public use and access, a county or city shall acquire sufficient interest to prevent its development. This acquisition requirement does not apply to the land areas needed to protect critical areas. County and city governments may utilize a variety of methods to limit the future use of, or otherwise conserve, selected open space including, but not limited to, incentive zoning, the acquisition by gift, purchase, grant, bequest, devise, lease, or otherwise, the fee simple interest or lesser interest, transfer of development right, easement, covenant, or other contractual right.

NEW SECTION. Sec. 20. ENVIRONMENTAL PLANNING PILOT PROJECTS. (1) The legislature intends to determine whether the environmental review process mandated under chapter 43.21C RCW may be enhanced and simplified, and coordination improved, when applied to comprehensive plans mandated by this chapter. The department of community development shall undertake pilot projects on environmental review to determine if the review process can be improved by fostering more coordination and eliminating duplicative environmental analysis which is made to assist decision makers approving comprehensive plans pursuant to this chapter. Such pilot projects should be designed and scoped to consider cumulative impacts resulting from plan decisions, plan impacts on environmental quality, impacts on adjacent jurisdictions, and

similar factors in sufficient depth to simplify the analysis of subsequent specific projects being carried out pursuant to the approved plan.

(2) The legislature hereby authorizes the department of community development to establish, in cooperation with business, industry, cities, counties, and other interested parties, at least two but not more than four pilot projects, one of which shall be with a county, on enhanced draft and final nonproject environmental analysis of comprehensive plans prepared pursuant to this chapter, for the purposes outlined in subsection (1) of this section. The department of community development may select appropriate geographic subareas within a comprehensive plan if that will best serve the purposes of this section and meet the requirements of chapter 43.21C RCW.

(3) An enhanced draft and final nonproject environmental analysis prepared pursuant to this section shall follow the rules adopted pursuant to chapter 43.21C RCW.

(4) Not later than December 31, 1993, the department of community development shall evaluate the overall effectiveness of the pilot projects under this section regarding preparing enhanced nonproject environmental analysis for the approval process of comprehensive plans and shall:

(a) Provide an interim report of its findings to the legislature with such recommendations as may be appropriate, including the need, if any, for further legislation;

(b) Consider adoption of any further rules or guidelines as may be appropriate to assist counties and cities in meeting requirements of chapter 43.21C RCW when considering comprehensive plans; and

(c) Prepare and circulate to counties and cities such instructional manuals or other information derived from the pilot projects as will assist all counties and cities in meeting the requirements and objectives of chapter 43.21C RCW in the most expeditious and efficient manner in the process of considering comprehensive plans pursuant to this chapter.

(5) The department of community development shall submit a final report to the legislature no later than December 31, 1995.

Sec. 21. RCW 36.70A.060 and 1990 1st ex.s. c 17 s 6 are each amended to read as follows:

FOREST, AGRICULTURE, AND MINERAL RESOURCE LANDS AND CRITICAL AREAS--DEVELOPMENT REGULATIONS. (1) Each county that is required or chooses to plan under RCW 36.70A.040, and each city within such county, shall adopt development regulations on or before September 1, 1991, to assure the conservation of agricultural, forest, and mineral resource lands designated under RCW 36.70A.170. Regulations adopted under this ~~((section))~~ subsection may not prohibit uses ~~((permitted))~~ legally existing on any parcel prior to their adoption and shall remain in effect until ~~((a))~~ the county or city adopts development regulations pursuant to RCW 36.70A.120. Such regulations shall assure that the use of lands adjacent to agricultural, forest, or mineral resource lands shall not interfere with the continued use, in the accustomed manner and in accordance with best management practices, of these designated lands for the production of food, agricultural products, or timber, or for the extraction of minerals. Counties and cities shall require that all plats, short plats, development permits, and building permits issued for development activities on, or within three hundred feet of, lands designated as agricultural lands, forest lands, or mineral resource lands, contain a notice that the subject property is within or near designated agricultural lands, forest lands, or mineral resource lands on which a variety of commercial activities may occur that are not compatible with residential development for certain periods of limited duration.

(2) Each county ~~((that is required or chooses to plan under RCW 36.70A.040,))~~ and ~~((each))~~ city ~~((within such county,))~~ shall adopt development regulations ~~((on or before September 1, 1991, precluding land uses or development))~~ that ~~((is incompatible with the))~~ protect critical areas that are required to be designated under RCW 36.70A.170. For

counties and cities that are required or choose to plan under RCW 36.70A.040, such development regulations shall be adopted on or before September 1, 1991. For the remainder of the counties and cities, such development regulations shall be adopted on or before March 1, 1992.

~~((2))~~ (3) Such counties and cities shall review these designations and development regulations when adopting their comprehensive plans under RCW 36.70A.040 and implementing development regulations under RCW 36.70A.120 and may alter such designations and development regulations to insure consistency.

(4) Forest land and agricultural land located within urban growth areas shall not be designated by a county or city as forest land or agricultural land of long-term commercial significance under RCW 36.70A.170 unless the city or county has enacted a program authorizing transfer or purchase of development rights.

NEW SECTION. Sec. 22. A new section is added to chapter 36.93 RCW to read as follows:

POWER TO DISBAND BOUNDARY REVIEW BOARD. When a county and the cities and towns within the county have adopted a comprehensive plan and consistent development regulations pursuant to the provisions of chapter 36.70A RCW, the county may, at the discretion of the county legislative authority, disband the boundary review board in that county.

Sec. 23. RCW 43.155.070 and 1990 1st ex.s. c 17 s 82 are each amended to read as follows:

BOARD TO CONSIDER WHETHER REGIONAL PLANS ARE ADOPTED WHEN MAKING LOANS. (1) To qualify for loans or pledges under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a long-term plan for financing public works needs; ~~((and))~~

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors; and

(d) A county, city, or town that is required or chooses to plan under RCW 36.70A.040 must have adopted a comprehensive plan in conformance with the requirements of chapter 36.70A RCW, after it is required that the comprehensive plan be adopted, and must have adopted development regulations in conformance with the requirements of chapter 36.70A RCW, after it is required that development regulations be adopted.

(2) The board shall develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board shall attempt to assure a geographical balance in assigning priorities to projects. The board shall consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(c) The cost of the project compared to the size of the local government and amount of loan money available;

(d) The number of communities served by or funding the project;

(e) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(f) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(g) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(h) Other criteria that the board considers advisable.

(3) Existing debt or financial obligations of local governments shall not be refinanced under this chapter. Each local government applicant shall provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(4) Before November 1 of each year, the board shall develop and submit to the chairs of the ways and means committees of the senate and house of representatives a description of the emergency loans made under RCW 43.155.065 during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list shall include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list shall also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(5) The board shall not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of public works projects. The legislature may remove projects from the list recommended by the board. The legislature shall not change the order of the priorities recommended for funding by the board.

(6) Subsections (4) and (5) of this section do not apply to loans made for emergency public works projects under RCW 43.155.065.

Sec. 24. RCW 70.146.070 and 1986 c 3 s 10 are each amended to read as follows:

When making grants or loans for water pollution control facilities, the department shall consider the following:

(1) The protection of water quality and public health;

(2) The cost to residential ratepayers if they had to finance water pollution control facilities without state assistance;

(3) Actions required under federal and state permits and compliance orders;

(4) The level of local fiscal effort by residential ratepayers since 1972 in financing water pollution control facilities;

(5) The extent to which the applicant county or city, or if the applicant is another public body, the extent to which the county or city in which the applicant public body is located, has established programs to mitigate nonpoint pollution of the surface or subterranean water sought to be protected by the water pollution control facility named in the application for state assistance; and

(6) The recommendations of the Puget Sound water quality authority and any other board, council, commission, or group established by the legislature or a state agency to study water pollution control issues in the state.

A county, city, or town that is required or chooses to plan under RCW 36.70A.040 may not receive a grant or loan for water pollution control facilities unless it has adopted a comprehensive plan in conformance with the requirements of chapter 36.70A RCW, after it is required that the comprehensive plan be adopted, or unless it has adopted

development regulations in conformance with the requirements of chapter 36.70A RCW, after it is required that development regulations be adopted.

NEW SECTION. Sec. 25. A new section is added to chapter 43.01 RCW to read as follows:

COUNTY-WIDE PLANNING POLICY INCENTIVES. Whenever a state agency is considering awarding grants or loans for a county, city, or town to finance public facilities, it shall consider whether the county, city, or town that is requesting the grant or loan is a party to a county-wide planning policy under section 2 of this act relating to the type of public facility for which the grant or loan is sought, and shall accord additional preference to the county, city, or town if such county-wide planning policy exists. Whenever a state agency is considering awarding grants or loans to a special district for public facilities, it shall consider whether the county, city, or town in whose planning jurisdiction the proposed facility is located is a party to a county-wide planning policy under section 2 of this act relating to the type of public facility for which the grant or loan is sought.

NEW SECTION. Sec. 26. **NONCOMPLIANCE AND SANCTIONS.** Upon receipt from the board of a finding that a state agency, county, or city is in noncompliance under section 14 of this act, or as a result of failure to meet the requirements of section 2 of this act, the governor may either:

(1) Notify and direct the director of the office of financial management to revise allotments in appropriation levels;

(2) Notify and direct the state treasurer to withhold the portion of revenues to which the county or city is entitled under one or more of the following: The motor vehicle fuel tax, as provided in chapter 82.36 RCW; the transportation improvement account, as provided in RCW 47.26.084; the urban arterial trust account, as provided in RCW 47.26.080; the rural arterial trust account, as provided in RCW 36.79.150; the sales and use tax, as provided in chapter 82.14 RCW; the liquor profit tax, as provided in RCW 66.08.190; and the liquor excise tax, as provided in RCW 82.08.170; or

(3) File a notice of noncompliance with the secretary of state and the county or city, which shall temporarily rescind the county or city's authority to collect the real estate excise tax under RCW 82.46.030 until the governor files a notice rescinding the notice of noncompliance.

Sec. 27. RCW 43.88.110 and 1987 c 502 s 5 are each amended to read as follows:

EXPENDITURE PROGRAMS--ALLOTMENTS--RESERVES. This section sets forth the expenditure programs and the allotment and reserve procedures to be followed by the executive branch for public funds. Allotments of an appropriation for any fiscal period shall conform to the terms, limits, or conditions of the appropriation.

(1) The director of financial management shall provide all agencies with a complete set of instructions for preparing a statement of proposed expenditures at least thirty days before the beginning of a fiscal period. The set of instructions need not include specific appropriation amounts for the agency.

(2) Within forty-five days after the beginning of the fiscal period or within forty-five days after the governor signs the omnibus biennial appropriations act, whichever is later, all agencies shall submit to the governor a statement of proposed expenditures at such times and in such form as may be required by the governor. If at any time during the fiscal period the governor projects a cash deficit as defined by RCW 43.88.050, the governor shall make across-the-board reductions in allotments so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods. Except for the legislative and judicial branches and other agencies headed by elective officials, the governor shall review the statement of proposed expenditures for reasonableness and conformance with legislative intent. Once the governor approves the statements of proposed expenditures, further revisions shall be made only at the beginning of the second fiscal year and must be initiated by the

governor. However, changes in appropriation level authorized by the legislature, changes required by across-the-board reductions mandated by the governor, ~~((and))~~ changes caused by executive increases to spending authority, and changes caused by executive decreases to spending authority for failure to comply with the provisions of chapter 36.70A RCW may require additional revisions. Revisions shall not be made retroactively. Revisions caused by executive increases to spending authority shall not be made after June 30, 1987. However, the governor may assign to a reserve status any portion of an agency appropriation withheld as part of across-the-board reductions made by the governor and any portion of an agency appropriation conditioned on a contingent event by the appropriations act. The governor may remove these amounts from reserve status if the across-the-board reductions are subsequently modified or if the contingent event occurs. The director of financial management shall enter approved statements of proposed expenditures into the state budgeting, accounting, and reporting system within forty-five days after receipt of the proposed statements from the agencies. If an agency or the director of financial management is unable to meet these requirements, the director of financial management shall provide a timely explanation in writing to the legislative fiscal committees.

(3) It is expressly provided that all agencies shall be required to maintain accounting records and to report thereon in the manner prescribed in this chapter and under the regulations issued pursuant to this chapter. Within ninety days of the end of the fiscal year, all agencies shall submit to the director of financial management their final adjustments to close their books for the fiscal year. Prior to submitting fiscal data, written or oral, to committees of the legislature, it is the responsibility of the agency submitting the data to reconcile it with the budget and accounting data reported by the agency to the director of financial management. The director of financial management shall monitor agency expenditures against the approved statement of proposed expenditures and shall provide the legislature with quarterly explanations of major variances.

(4) The director of financial management may exempt certain public funds from the allotment controls established under this chapter if it is not practical or necessary to allot the funds. Sec. 28. RCW 19.27.097 and 1990 1st ex.s. c 17 s 63 are each amended to read as follows:

Evidence may be in the form of a water right permit from the department of ecology, a letter from an approved water purveyor stating the ability to provide water, or another form sufficient to verify the existence of an adequate water supply. In addition to other authorities, the county or city may impose conditions on building permits requiring connection to an existing public water system where the existing system is willing and able to provide safe and reliable potable water to the applicant with reasonable economy and efficiency. An application for a water right shall not be sufficient proof of an adequate water supply.

(2) Within counties not required or not choosing to plan pursuant to RCW 36.70A.040, the county and the state may mutually determine those areas in the county in which the requirements of subsection (1) of this section shall not apply. The departments of health and ecology shall coordinate on the implementation of this section. Should the county and the state fail to mutually determine those areas to be designated pursuant to this subsection, the county may petition the department of community development to mediate or, if necessary, make the determination.

(3) Buildings that do not need potable water facilities are exempt from the provisions of this section. The department of ecology, after consultation with local governments, may adopt rules to implement this section, which may recognize differences between high-growth and low-growth counties.

Sec. 29. RCW 36.70A.110 and 1990 1st ex.s. c 17 s 11 are each amended to read as follows:

COMPREHENSIVE PLANS--URBAN GROWTH AREAS. (1) Each county that is required or chooses to adopt a comprehensive land use plan under RCW 36.70A.040 shall designate an urban growth area or areas within which urban growth shall be encouraged and outside of which growth can occur only if it is not urban in nature. Each city that is located in such a county shall be included within an urban growth area. An urban growth area may include more than a single city. An urban growth area may include territory that is located outside of a city only if such territory already is characterized by urban growth or is adjacent to territory already characterized by urban growth.

(2) Based upon the population (~~forecast~~) growth management planning population projection made for the county by the office of financial management, the urban growth areas in the county shall include areas and densities sufficient to permit the urban growth that is projected to occur in the county for the succeeding twenty-year period. Each urban growth area shall permit urban densities and shall include greenbelt and open space areas. Within one year of July 1, 1990, each county required to designate urban growth areas shall begin consulting with each city located within its boundaries and each city shall propose the location of an urban growth area. The county shall attempt to reach agreement with each city on the location of an urban growth area within which the city is located. If such an agreement is not reached with each city located within the urban growth area, the county shall justify in writing why it so designated the area an urban growth area. A city may object formally with the department over the designation of the urban growth area within which it is located. Where appropriate, the department shall attempt to resolve the conflicts, including the use of mediation services.

(3) Urban growth should be located first in areas already characterized by urban growth that have existing public facility and service capacities to serve such development, and second in areas already characterized by urban growth that will be served by a combination of both existing public facilities and services and any additional needed public facilities and services that are provided by either public or private sources. Further, it is appropriate that urban government services be provided by cities, and urban government services should not be provided in rural areas.

The office of financial management also shall determine the percentage increase in population for each county over the preceding ten-year period, as of April 1st, and shall file a certificate with the secretary of state by July 1st showing its determination. At least once every ten years the office of financial management shall prepare (~~(a)~~) twenty-year growth management planning population (~~forecast~~) projections required by RCW 36.70A.110 for each county that adopts a comprehensive plan under RCW 36.70A.040 and shall review these projections with such counties before final adoption.

The rules adopted by the board shall take into account, but shall not be limited to, the following factors: ~~((1))~~ (a) The financial effect of increasing the original allocation for the project upon other rural arterial projects either approved or requested; ~~((2))~~ (b) whether the project for which an additional allocation is requested can be reduced in scope while retaining a usable segment; ~~((3))~~ (c) whether the original cost of the project shown in the applicant's six-year program was based upon reasonable engineering estimates; and ~~((4))~~ (d) whether the requested additional allocation is to pay for an expansion in the scope of work originally approved.

ENGROSSED SUBSTITUTE SENATE BILL NO. 5996, by Senate Committee on Law & Justice (originally sponsored by Senators Nelson, Rasmussen and Johnson)

Making adjustments to child support guidelines.

Mr. Padden moved adoption of the following amendment:

On page 5, after line 27, insert the following sections:

Sec. 4. RCW 26.19.001 and 1988 c 275 s 1 are each amended

to read as follows:

The legislature intends, in establishing a child support schedule, to insure that child support orders are adequate to meet a child's basic needs and to provide additional child support commensurate with the parents' own income((r)) and resources((~~r~~ and standard of living)) while recognizing that all parties to a divorce may by necessity suffer a reduced standard of living as a result of the divorce. The legislature also intends that the child support obligation should be equitably apportioned between the parents.

The legislature finds that these goals will be best achieved by the adoption and use of a state-wide child support schedule. Use of a state-wide schedule will benefit children and their parents by:

- (1) Increasing the adequacy of child support orders through the use of economic data as the basis for establishing the child support schedule;
- (2) Increasing the equity of child support orders by providing for comparable orders in cases with similar circumstances; and
- (3) Reducing the adversarial nature of the proceedings by increasing voluntary settlements as a result of the greater predictability achieved by a uniform state-wide child support schedule.

Renumber the remaining sections consecutively and correct internal references accordingly.

The legislature recognizes the need to address issues remaining unresolved from the 1991 title and registration study required by the legislature and the governor. The intent of the legislature is to better align the fee structure with the costs associated with providing services for the state. Evidence from the 1991 study indicates inequities exist in cost recovery and/or profits realized between large and small county auditors and their subagents. Further, no policy exists regarding how counties treat excess revenues generated from providing this service. The Washington association of counties, the Washington association of county officials, representatives of the subagents, and the department of licensing, under the direction of the legislative transportation committee, shall report to the legislative transportation committee by December 1, 1991, their recommendations for resolving these policy issues and inequities.

(4) ~~((From July 1, 1989, through June 30, 1991, thirty three one hundredths of one percent of such funds shall be deducted monthly, as such funds accrue, and set aside for the use of the department of transportation for the purpose of funding the counties' share of the costs of highway jurisdiction studies and other studies. Any funds so retained and not expended shall be credited in the succeeding biennium to the counties in proportion to the deductions made;~~

(5)) The balance of such funds remaining to the credit of counties after such deductions shall be paid to the several counties monthly, as such funds accrue, in accordance with RCW 46.68.122 and 46.68.124.

NEW SECTION. Sec. 48. The motor vehicle fund revenues are received at a relatively even flow throughout the year. Expenditures exceed the revenue during the accelerated summer and fall highway construction season, creating a negative cash balance during the heavy construction season. Negative cash balances also may result from the use of state funds to finance federal advance construction projects prior to conversion to federal funding. The legislature recognizes that the department of transportation may require interfund loans or other short-term financing to meet temporary seasonal cash requirements and additional cash requirements to fund federal advance construction projects.

NEW SECTION. Sec. 49. In addition to such other appropriations as are made by this act, there is appropriated to the department of transportation from legally available bond proceeds in the respective construction or building accounts such amounts as are necessary to pay the expenses incurred by the state finance committee in the issuance and sale of the section bonds.

NEW SECTION. Sec. 50. FOR THE DEPARTMENT OF TRANSPORTATION--
TRANSFER

Motor Vehicle Fund--Highway Construction

Stabilization Account Transfer: For
transfer to the Motor Vehicle Fund \$ 100,000,000

The appropriation transfer in this section is provided for expenditures pursuant to RCW 46.68.200.

NEW SECTION. Sec. 51. The department of transportation is authorized to undertake federal advance construction projects under the provisions of 23 U.S.C. Sec. 115 in order to maintain progress in meeting approved highway construction and preservation objectives. The legislature recognizes that the use of state funds may be required to temporarily fund expenditures of the federal appropriations for the highway construction and preservation programs for federal advance construction projects prior to conversion to federal funding.

NEW SECTION. Sec. 52. (1) Any public agency including but not limited to transit agencies, cities, counties, and the state department of transportation, awarded contracts from counties or transit agencies for the construction of high occupancy vehicle lanes and related facilities shall use such moneys in addition to, and not as a substitute for, moneys currently used, or planned to be used, for high occupancy vehicle lanes by the public agency receiving the award.

(2) Cities, counties, transit agencies, and the state department of transportation having within their boundaries a portion of the existing or planned high occupancy vehicle system contained in the document dated March 1991, entitled "Puget Sound HOV Core Lane Needs: 2000", shall coordinate programming and operational decisions affecting the high occupancy vehicle system.

NEW SECTION. Sec. 53. To maximize the use of motor vehicle fund revenues, it is the intent of the legislature to encourage sharing of technology, information, and systems where appropriate between transportation agencies.

To facilitate this exchange, the Washington state department of transportation assistant secretary for finance and budget management; Washington state department of transportation chief for management information systems; the Washington state patrol deputy chief, chief of staff; Washington state patrol manager of the computer services division; the department of licensing deputy director and department of licensing assistant director for information systems will meet quarterly to share plans, discuss progress of key projects and to coordinate activities for the common good. Minutes of these meetings will be distributed to the respective agency heads and the legislative transportation

committee. Washington state department of transportation will provide staff support and meeting coordination.

NEW SECTION. Sec. 54. Agencies shall comply with the following requirements regarding information technology projects if directed to do so by specific appropriation proviso within this act. In addition to these provisos agencies shall comply with all department of information services requirements.

It is the intent of the legislature that information technology projects in state government be managed and completed successfully. Information technology projects should be divided into distinct phases. Each phase of a project should be successfully completed before subsequent phases are commenced, unless an alternative plan is approved by the department of information services, office of financial management, and legislative transportation committee. In addition to the post-implementation review, reviews using oversight and quality assurance measures are to be conducted throughout the project.

The legislature, with recommendations from department of information services and office of financial management, should evaluate each project's scope, duration, and risk in determining whether appropriations should be for a fiscal year or a biennium, and whether specific phases or the entire project can be accomplished within a specified time period.

Work shall not commence on any task in a subsequent phase of a project until the status report for the preceding key decision point has been approved by the department of information services, the office of financial management, and the legislative transportation committee as appropriate.

(1) Scoping process phase. Prior to requesting moneys from the legislature, or as a condition of receiving an appropriation for planning or development of information technology projects, an agency shall complete a project scoping process. The scoping process shall detail the key issues to be addressed by the information technology project. The scoping process shall precede the feasibility study.

The scoping process must define the project's scope; key issues, including business, management, technical and other issues; major objectives; project justifications; project approach; and answer by a test of reasonableness that the project is feasible. The purpose of the scoping process is to provide the legislature, office of financial management, and the department of information services with the high level information that is needed to grant approval to proceed with the project.

(2) The agency shall produce a feasibility study for each information systems project in accordance with published department of information services instructions. In addition to department of information services requirements such studies shall examine and evaluate the costs and benefits of maintaining the status quo, and of the proposed project. The study shall identify if and in what amounts any fiscal savings, costs, and benefits will occur, and what programs or fund sources will be affected. Benefits of information technology projects shall not be limited to fiscal savings, but may include improvements in service delivery by the agency to the citizens of the state. The feasibility study in this section shall be accompanied by the project management plan described in subsection (3) of this section.

(3) The project management plan shall document how the agency will manage the project identified in the feasibility study. The plan shall be an evolving document. Each subsequent phase of the project shall have an updated project management plan submitted as a prerequisite for approval to begin the next phase.

The project management plan shall cover all factors critical to the entire project and shall specifically address management plans for successfully completing the subsequent phase. The project management plan shall address all factors critical to the overall project, including, but not limited to, the following elements:

(a) Project organization: Define agency executive personnel accountable for project success; define oversight and management committee structures; identify key personnel including key positions that are not yet filled; address staffing requirements, including backfilling requirements; and other key resources needed for successful project implementation.

(b) A description of scope change and cost control procedures.

(c) A risk assessment and risk mitigation plan.

(d) A description of project oversight monitoring and quality assurance procedures.

(e) A project workplan: Explaining the appropriately defined phases, key management decision points, scheduling of other activities, and estimated costs for the next phase or phases to be conducted in a specified time period.

(4) Prior to reaching key decision points identified in the relevant project management plan a project status report shall be submitted to the department of information services, the office of financial management, and the legislative transportation committee for each project. Project status reports shall examine and evaluate project management, accomplishments, budget, action to address variances, risk management, cost and benefits analysis, and other aspects critical to completion of a project.

(5) In instances where a project review is requested in accordance with department of information services policies, the reviews shall examine and evaluate: System requirements specifications; scope; system architecture; change controls; documentation; user involvement; training; availability and capability of resources; programming languages and techniques; system inputs and outputs; plans for testing, conversion, implementation, and post-implementation; and other aspects critical to successful construction, integration, and implementation of information technology projects. Copies of written project review reports shall be forwarded to the office of financial management and the legislative transportation committee by the agency.

(6) The agency and the department of information services shall provide the legislative transportation committee and the office of financial management with a written bi-monthly project oversight and risk assessment report for each project that has a specific proviso under this section. The report shall include, but not be limited to, the following: Project name, agency undertaking the project, a description of the project, key project activities during the next sixty to ninety days, base-line cost data, costs to date, schedule to date, risk assessments, risk management, and recommendations.

(7) A written post-implementation review report shall be prepared by the agency for each information systems project in accordance with published department of information services instructions. In addition to the information requested pursuant to the department of information services instructions, post-implementation reports shall evaluate the degree to which a project accomplished its major objectives including, but not limited to, a comparison of original cost and benefit estimates to actual costs and benefits achieved. Copies of post-implementation review reports shall be provided to the department of information services, the office of financial management, and the legislative transportation committee.

(8) Where major variances in project scope, cost, or risk occur, the sponsoring agency shall inform the department of information services of the change. The director of the sponsoring agency and the director of the department of information services shall jointly report such findings in writing to the legislative transportation committee and office of financial management. A major variance is defined as a budget change in excess of \$1,000,000 or ten percent, whichever is lower; an increase in risk category to high; or a change in scope that could result in major change in budget or risk.

NEW SECTION. Sec. 55. The department of transportation shall identify and coordinate all growth management functions. Such functions shall cease to exist on June 30, 1995.

NEW SECTION. Sec. 56. The attorney general shall prepare by December 31 of each year, a report to the legislative transportation committee comprising a comprehensive summary of all cases involving tort claims against the department of transportation involving highways that were concluded and closed in the previous calendar year. The report shall include for each case closed:

- (1) A summary of the factual background of the case;
- (2) Identification of the attorneys representing the state and the opposing parties;
- (3) A synopsis of the legal theories asserted and the defenses presented;
- (4) Whether the case was tried, settled, or dismissed, and in whose favor;
- (5) The amount of any settlement or verdict reached, and the terms for payment;
- (6) A summary of all settlement offers made by the parties where a verdict was returned against the state;
- (7) The approximate number of attorney hours expended by the state on the case, together with the corresponding dollar amount billed therefore; and
- (8) Such other matters relating to the case as the attorney general deems relevant or appropriate, especially including any comments or recommendations for changes in statute law or agency practice that might effectively reduce the exposure of the state to such tort claims.

The department and state patrol shall explore alternative state services, such as vehicle emission testing, that would be feasible to colocate in these joint facilities. The department and state patrol shall reach agreement with the department of transportation for the purposes of offering department of transportation permits at these one-stop transportation centers. All services provided by the department or the state patrol at these transportation service facilities shall be provided at cost to the participating agencies.

In those instances where the community need or the agencies needs do not warrant colocation this proviso shall not apply.

NEW SECTION. Sec. 58. It is the intent of the legislature that a four range, or approximately ten percent, salary increase be effective July 1, 1991, for the transportation technician 2, transportation engineer 2, transportation engineer 5, and right-of-way agent 2 job classes, and all job classes directly indexed to one of those four benchmark job classes.

NEW SECTION. Sec. 59. A new section is added to chapter 46.68 RCW to read as follows:

The state patrol equipment account is created in the state treasury. The account shall be used solely to finance the acquisition and replacement of equipment to be used for state patrol highway-related activities.

(1) All equipment capitalized by the account shall be subject to annual use and depreciation costs in an amount that will recover a replacement value by the time the life cycle has expired for a particular piece of equipment. The account shall be an internal service fund subject to legislative appropriation.

(2) Use and depreciation costs shall be charged to all users of Washington State Patrol equipment, except in those circumstances where the chief of the state patrol deems it necessary to waive those charges.

(3) The state patrol shall propose a replacement schedule and the rate for use, for all equipment to be included in the account.

(4) The state patrol shall report to the legislative transportation committee and the office of financial management by December 1, 1991, on the alternatives for the inclusion of different types of equipment to be included in the state patrol equipment account and on financing alternatives.

NEW SECTION. Sec. 60. The speaker of the house of representatives and the president of the senate shall appoint a joint select committee composed of sixteen members of the legislature, to make recommendations to the legislature regarding the public safety and education account. Membership shall include four legislators from senate ways and means, two from house appropriations, two from house revenue, and four each from the senate and house transportation committees. Efforts shall be made to insure that appointments to the committee shall include members who also serve on the house judiciary committee and the senate law and justice committee. The joint select committee shall be chaired by the chair of the legislative transportation committee.

The committee shall, at a minimum, make recommendations as to the following issues: The percentages by which public safety and education account revenues shall be split between the general fund and transportation budgets; the programs that shall be eligible for public safety and education account appropriations; the budget from which each eligible program shall receive its public safety and education account funding, in particular, the superintendent of public instruction driver training program; and any new accounts into which revenue shall be deposited to accommodate the agreed upon revenue split. The committee may consider any other issues it deems appropriate. The committee's recommendations shall be drafted into legislation for approval in the 1992

legislative session and shall be submitted to the legislature by December 15, 1991. The recommendations contained in the legislation shall take effect on July 1, 1993.

Any public or private entity which originally donated funds to the department pursuant to RCW ((47.76.030)) 47.76.140 shall receive credit against the purchase price for the amount donated to the department, less management costs, in the event such public or private entity purchases the property from the department.

If no county rail district, county, port district, or other public or private entity authorized to operate rail service offers to purchase such property within six years after its acquisition by the department, the department may sell such property in the manner provided in RCW 47.76.050. Failing this, the department may sell or convey all such property in the manner provided in RCW 47.76.060 or 47.76.080.

Sec. 62. RCW 47.76.050 and 1985 c 432 s 4 are each amended to read as follows:

The state department of transportation and the local authorities are authorized to reserve all or any portion of any highway under their respective jurisdictions, including any designated lane or ramp, for the exclusive or preferential use of public transportation vehicles or private motor vehicles carrying no fewer than a specified number of passengers when such limitation will increase the efficient utilization of the highway or will aid in the conservation of energy resources. For lanes so designated on the main line of limited access freeways, the required number of occupants in private motor vehicles, other than motorcycles, will be two. If the operating condition of a restricted lane falls below level of service "C" during peak hours for a period of twelve continuous months, as verified by the department, the number of occupants required during peak hours shall be increased to maintain an operating condition of level of service "C". The department shall report any changes in vehicle occupancy requirements to the legislative transportation committee. There is hereby appropriated from the transportation fund--state to the department of transportation, program C for the period ending June 30, 1993, an additional \$15 million for the sole purpose of expediting completion of the HOV core lane system. Regulations authorizing such exclusive or preferential use of a highway facility may be declared to be effective at all times or at specified times of day or on specified days. The department shall evaluate the efficacy of the vehicle occupancy requirements and shall report to the legislative transportation committee by January 1, 1992.

Sec. 68. RCW 81.104.100 and 1991 c 318 s 9 are each amended to read as follows:

To assure development of an effective high capacity transportation system, local authorities shall follow the following planning process:

(1) Regional, multimodal transportation planning is the ongoing urban transportation planning process conducted in each urbanized area by its regional transportation planning organization. During this process, regional transportation goals are identified, travel patterns are analyzed, and future land use and travel are projected. The process provides a comprehensive view of the region's transportation needs but does not select specified modes to serve those needs. The process shall identify a priority corridor or corridors for further study of high capacity transportation facilities if it is deemed feasible by local officials.

(2) High capacity transportation system planning is the detailed evaluation of a range of high capacity transportation system options, including: Do nothing, low capital, and ranges of higher capital facilities. To the extent possible this evaluation shall take into account the urban mass transportation administration's requirements identified in subsection (3) of this section.

High capacity transportation system planning shall proceed as follows:

(a) Organization and management. The responsible local transit agency or agencies shall define roles for various local agencies, review background information, provide for public involvement, and develop a detailed work plan for the system planning process.

(b) Development of options. Options to be studied shall be developed to ensure an appropriate range of technologies and service policies can be evaluated. A do-nothing option and a low capital option that maximizes the current system shall be developed. Several higher capital options that consider a range of capital expenditures for several candidate technologies shall be developed.

(c) Analysis methods. The local transit agency shall develop reports describing the analysis and assumptions for the estimation of capital costs, operating and maintenance costs, methods for travel forecasting, a financial plan and an evaluation methodology.

(d) The system plan submitted to the voters pursuant to RCW ((81.04.140)) 81.04.140 shall address, but is not limited to the following issues:

(i) Identification of level and types of high capacity transportation services to be provided;

(ii) A plan of high occupancy vehicle lanes to be constructed;

(iii) Identification of route alignments and station locations with sufficient specificity to permit calculation of costs, ridership, and system impacts;

(iv) Performance characteristics of technologies in the system plan;

(v) Patronage forecasts;

(vi) A financing plan describing: Phasing of investments; capital and operating costs and expected revenues; cost-effectiveness represented by a total cost per system rider and new rider estimate; estimated ridership and the cost of service for each individual high capacity line; and identification of the operating revenue to operating expense ratio.

The financing plan shall specifically differentiate the proposed use of funds between high capacity transportation facilities, high occupancy vehicle facilities, and expanded local/feeder service;

(vii) Description of the relationship between the high capacity transportation system plan and adopted land use plans;

(viii) An assessment of social, economic, and environmental impacts; and

(ix) Mobility characteristics of the system presented, including but not limited to: Qualitative description of system/service philosophy and impacts; qualitative system reliability; travel time and number of transfers between selected residential, employment, and activity centers; and system and activity center mode splits.

(3) High capacity transportation project planning is the detailed identification of alignments, station locations, equipment and systems, construction schedules, environmental effects, and costs. High capacity transportation project planning shall proceed as follows: The local transit agency shall analyze and produce information

needed for the preparation of environmental impact statements. The impact statements shall address the impact that development of such a system will have on abutting or nearby property owners. The process of identification of alignments and station locations shall include notification of affected property owners by normal legal publication. At minimum, such notification shall include notice on the same day for at least three weeks in at least two newspapers of general circulation in the county where such project is proposed. Special notice of hearings by the conspicuous posting of notice, in a manner designed to attract public attention, in the vicinity of areas identified for station locations or transfer sites shall also be provided.

In order to increase the likelihood of future federal funding, the project planning processes shall follow the urban mass transportation administration's requirements as described in "Procedures and Technical Methods for Transit Project Planning", published by the United States department of transportation, urban mass transportation administration, September 1986, or the most recent edition. Nothing in this subsection shall be construed to preclude detailed evaluation of more than one corridor in the planning process.

The department of transportation shall provide system and project planning review and monitoring in cooperation with the expert review panel identified in RCW 81.104.110. In addition, the local transit agency shall maintain a continuous public involvement program and seek involvement of other government agencies.

NEW SECTION. Sec. 69. The appropriations of moneys and the designation of funds and accounts by this and other acts of the 1991 legislature shall be construed in a manner consistent with legislation enacted by the 1985, 1987, and 1989 legislatures to conform state funds and accounts with generally accepted accounting principles. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 70. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

On page 1, line 1 of the title, after "appropriations;" strike the remainder of the title and insert "amending RCW 46.68.110, 46.68.120, 47.76.040, 47.76.050, 47.76.060, 47.76.070, 47.76.080, 47.76.090, 46.61.165, and 81.104.100; adding a new section to chapter 46.68 RCW; creating new sections; and declaring an emergency." and the same is herewith transmitted.

W. D. Naismith, Deputy Secretary.

With consent of the House, the rules were suspended, the second reading considered the third, and the bill was placed on final passage.

The Speaker called on Mr. Wang to preside.

POINT OF INQUIRY

Mr. Appelwick yielded to question by Ms. Belcher.

Ms. Belcher: What is "significant time" for the purposes of residential credits?

Mr. Appelwick: "Significant time" is not defined in the legislation. It will be determined on a case-by-case basis. The section does reject the idea of the bright-line ninety day rule adopted by the commission. The majority of parenting plans still have a residential split between households in the eighty/twenty to sixty-five/thirty-five range. Presumably, residential time in excess of thirty-five percent and up to 49.9 percent would be significant time. Again, it is ultimately up to the court based upon the facts of the case.

POINT OF INQUIRY

Mr. Appelwick yielded to question by Ms. Miller.

Ms. Miller: Representative Appelwick, Section 6 subsection (d) deals with residential schedules and provides "the court cannot deviate the amount of child

support based on residential credits if deviation results in insufficient funds to meet the basic needs of the child in household receiving the support." Is it the intent of this section to create a "need standard" for child support in cases where residential credits are approved?

Mr. Appelwick: No. The intent of this section is not to create a need standard for support. Rather, the intent is to create a safety net so that the court should not deviate from a presumptive child support amount in order to grant residential credits, if the resulting support amount would be insufficient to meet the child's needs. "Basic needs" as used here is not intended to be a term of art.

POINT OF INQUIRY

Mr. Appelwick yielded to question by Ms. Spanel.

Ms. Spanel: Representative Appelwick, Section 7 of the bill deals with postsecondary child support and subsection (4) requires that the child shall "also make available all academic records and grades to both parents as a condition of receiving postsecondary educational support." Since the word "also" was used, is it the intent of this section that the automatic suspension of child support provided for in subsection (3) would also come into effect if the child did not provide grades in subsection (4)?

Mr. Appelwick: No. Making academic records and grades available is an additional requirement imposed upon adult children receiving support for postsecondary education. If the child failed to comply, the parent or parents are intended to have the right, by motion, to have support terminated. This is different from subsection (3) in which support is suspended automatically during periods of non-compliance and is automatically reactivated upon recompliance without having to return to the court.

Mr. Appelwick spoke in favor of passage of the bill, and Representatives Hargrove and Padden opposed it.

The Speaker resumed the Chair.

Sec. 15. RCW 82.14.200 and 1990 c 42 s 313 are each amended to read as follows:

There is created in the state treasury a special account to be known as the "county sales and use tax equalization account." Into this account shall be placed a portion of all motor vehicle excise tax receipts as provided in RCW 82.44.110~~((6))~~ (1)(f). Funds in this account shall be allocated by the state treasurer according to the following procedure:

(1) Prior to April 1st of each year the director of revenue shall inform the state treasurer of the total and the per capita levels of revenues for the unincorporated area of each county and the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties imposing the sales and use tax authorized under RCW 82.14.030(1) for the previous calendar year.

(2) At such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than one hundred fifty thousand dollars from the tax for the previous calendar year, an amount from the county sales and use tax equalization account sufficient, when added to the amount of revenues received the previous calendar year by the county, to equal one hundred fifty thousand dollars.

The department of revenue shall establish a governmental price index as provided in this subsection. The base year for the index shall be the end of the third quarter of 1982. Prior to November 1, 1983, and prior to each November 1st thereafter, the department of revenue shall establish another index figure for the third quarter of that year. The department of revenue may use the implicit price deflators for state and local government purchases of goods and services calculated by the United States department of commerce to establish the governmental price index. Beginning on January 1, 1984, and each January 1st thereafter, the one hundred fifty thousand dollar base figure in this subsection shall be adjusted in direct proportion to the percentage change in the

governmental price index from 1982 until the year before the adjustment. Distributions made under this subsection for 1984 and thereafter shall use this adjusted base amount figure.

(3) Subsequent to the distributions under subsection (2) of this section and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties as determined by the department of revenue under subsection (1) of this section, an amount from the county sales and use tax equalization account sufficient, when added to the per capita level of revenues for the unincorporated area received the previous calendar year by the county, to equal seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties determined under subsection (1) of this section, subject to reduction under subsections (6) and (7) of this section. When computing distributions under this section, any distribution under subsection (2) of this section shall be considered revenues received from the tax imposed under RCW 82.14.030(1) for the previous calendar year.

(4) Subsequent to the distributions under subsection (3) of this section and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (2) of this section, a third distribution from the county sales and use tax equalization account. The distribution to each qualifying county shall be equal to the distribution to the county under subsection (2) of this section, subject to the reduction under subsections (6) and (7) of this section. To qualify for the total distribution under this subsection, the county must impose the tax under RCW 82.14.030(2) for the entire calendar year. Counties imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(5) Subsequent to the distributions under subsection (4) of this section and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (3) of this section, a fourth distribution from the county sales and use tax equalization account. The distribution to each qualifying county shall be equal to the distribution to the county under subsection (3) of this section, subject to the reduction under subsections (6) and (7) of this section. To qualify for the distributions under this subsection, the county must impose the tax under RCW 82.14.030(2) for the entire calendar year. Counties imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(6) Revenues distributed under this section in any calendar year shall not exceed an amount equal to seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties during the previous calendar year. If distributions under subsections (3) through (5) of this section cannot be made because of this limitation, then distributions under subsections (3) through (5) of this section shall be reduced ratably among the qualifying counties.

(7) If inadequate revenues exist in the county sales and use tax equalization account to make the distributions under subsections (3) through (5) of this section, then the distributions under subsections (3) through (5) of this section shall be reduced ratably among

the qualifying counties. At such time during the year as additional funds accrue to the county sales and use tax equalization account, additional distributions shall be made under subsections (3) through (5) of this section to the counties.

(8) If the level of revenues in the county sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (5) of this section, then the additional revenues shall be credited and transferred to the state general fund.

(2) At such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each city not imposing the sales and use tax under RCW 82.14.030(2) an amount from the municipal sales and use tax equalization account equal to the amount distributed to the city under RCW 82.44.155, multiplied by thirty-five sixty-fifths.

(3) Subsequent to the distributions under subsection (2) of this section, and at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each city imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than seventy percent of the state-wide weighted average per capita level of revenues for all cities as determined by the department of revenue under subsection (1) of this section, an amount from the municipal sales and use tax equalization account sufficient, when added to the per capita level of revenues received the previous calendar year by the city, to equal seventy percent of the state-wide weighted average per capita level of revenues for all cities determined under subsection (1) of this section, subject to reduction under subsection (6) of this section.

(5) For a city with an official incorporation date after January 1, 1990, municipal sales and use tax equalization distributions shall be made according to the procedures in this subsection. Municipal sales and use tax equalization distributions to eligible new cities shall be made at the same time as distributions are made under subsections (3) and (4) of this section. The department of revenue shall follow the estimating procedures outlined in this subsection until the new city has received a full year's worth of revenues under RCW 82.14.030(1) as of the January municipal sales and use tax equalization distribution.

(i) Estimate the per capita amount of revenues from the tax authorized under RCW 82.14.030(1) that the new city would have received had the city received revenues from the tax the entire calendar year;

(ii) Calculate the amount provided under subsection (3) of this section based on the per capita revenues determined under (b)(i) of this subsection;

(iii) Prorate the amount determined under (b)(ii) of this subsection by the number of months the tax authorized under RCW 82.14.030(1) is imposed.

(c) A new city imposing the tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution calculated under (b) of this subsection shall receive another distribution from the municipal sales and use tax equalization account. (6) If inadequate revenues exist in the municipal sales and use tax equalization account to make the distributions under subsection (3), (4), or (5) of this section, then the distributions under subsections (3), (4), and (5) of this section shall be reduced ratably among the qualifying cities. At such time during the year as additional funds accrue to the municipal sales and use tax equalization account, additional distributions shall be made under subsections (3), (4), and (5) of this section to the cities.

(7) If the level of revenues in the municipal sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (5)

of this section, then the additional revenues shall be apportioned among the several cities within the state ratably on the basis of population as last determined by the office of financial management: PROVIDED, That no such distribution shall be made to those cities receiving a distribution under subsection (2) of this section.

There is created a landowner contingency forest fire suppression account (~~which shall be a separate account~~) in the state treasury. Moneys in the account may be spent only as provided in this section. Disbursements from the account shall be on authorization of the commissioner of public lands or the commissioner's designee. The account is subject to the allotment procedure provided under chapter 43.88 RCW, but no appropriation is required for disbursements.

The department may expend from this account such amounts as may be available and as it considers appropriate for the payment of emergency fire costs resulting from a participating landowner fire. The department may, when moneys are available from the landowner contingency forest fire suppression account, expend moneys for summarily abating, isolating, or reducing an extreme fire hazard under RCW 76.04.660. All moneys recovered as a result of the department's actions, from the owner or person responsible, under RCW 76.04.660 shall be deposited in the landowner contingency forest fire suppression account.

When a determination is made that the fire was started by other than a landowner operation, moneys expended from this account in the suppression of such fire shall be recovered from such general fund appropriations as may be available for emergency fire suppression costs. The department shall deposit in the landowner contingency forest fire suppression account any moneys paid out of the account which are later recovered, less reasonable costs of recovery.

This account shall be established and renewed by a special forest fire suppression account assessment paid by participating landowners at a rate to be established by the department, but not to exceed fifteen cents per acre per year for such period of years as may be necessary to establish and thereafter reestablish a balance in the account of three million dollars. The department may establish a minimum assessment for ownership parcels identified in RCW 76.04.610 as paying the minimum assessment. The maximum assessment for these parcels shall not exceed the fees levied on a thirty-acre parcel. There shall be no assessment on each parcel of privately owned lands of less than two acres. The assessments may differ to equitably distribute the assessment based on emergency fire suppression cost experience necessitated by landowner operations. Amounts assessed for this account shall be a lien upon the forest lands with respect to which the assessment is made and may be collected as directed by the department in the same manner as forest protection assessments. (~~This account shall be held by the state treasurer, who is authorized to invest so much of the account as is not necessary to meet current needs. Any interest earned on moneys from the account shall be deposited in and remain a part of the account and shall be computed as part of same in determining the balance thereof. Interfund loans to and from this account are authorized at the current rate of interest as determined by the state treasurer, provided that the effect of the loan is considered for purposes of determining the assessments.~~) Payment of emergency costs from this account shall in no way restrict the right of the department to recover costs pursuant to RCW 76.04.495 or other laws.

When the department determines that a forest fire was started in the course of or as a result of a landowner operation, it shall notify the forest fire advisory board of the determination. The determination shall be final, unless, within ninety days of the notification, the forest fire advisory board or any interested party serves a request for a hearing before the department. The hearing shall constitute an adjudicative proceeding under chapter 34.05 RCW, the administrative procedure act, and any appeal shall be in accordance with RCW 34.05.510 through 34.05.598.

The department of ecology may sublease to private or public entities all or a portion of the land for specific purposes or activities which are determined, after public hearing, to be in agreement with the terms of the lease and in the best interests of the citizens of the state consistent with any criteria that may be developed as a requirement by the legislature;

The fees shall be established by rule adopted under chapter 34.05 RCW and shall be an amount determined by the department of ecology to be necessary to defray the estimated liability of the state. The site closure account shall be exclusively available to reimburse, to the extent that moneys are available in the account, the site operator for its costs plus a reasonable profit as agreed by the operator and the state, or to reimburse the state licensing agency and any agencies under contract to the state licensing agency for their costs in final closure and decommissioning of the Hanford low-level radioactive waste disposal facility. If a balance remains in the account after satisfactory performance of closure and decommissioning, this balance shall be transferred to the perpetual surveillance and maintenance account. The costs of administering the user permit system shall be borne by the applicants for site use permits. The site use permit fee shall be set at a level that is sufficient to fund completely the executive and legislative participation in activities related to the Northwest Interstate Compact on Low-Level Radioactive Waste Management;

(5) To make application for or otherwise pursue any federal funds to which the state may be eligible, through the federal resource conservation and recovery act or any other federal programs, for the management, treatment or disposal, and any remedial actions, of wastes that are both radioactive and hazardous at all Hanford low-level radioactive waste disposal facilities; and

Sec. 12. RCW 74.46.380 and 1980 c 177 s 38 are each amended to read as follows:

(1) Where depreciable assets are disposed of through sale, trade-in, scrapping, exchange, theft, wrecking, or fire or other casualty, depreciation shall no longer be taken on the assets. No further depreciation shall be taken on permanently abandoned assets.

(2) Where an asset has been retired from active use but is being held for stand-by or emergency service, and the department has determined that it is needed and can be effectively used in the future, depreciation may be taken.

(3) If there is a sale of a nursing facility on or after July 1, 1991, that results in a gain on sale, the actual reimbursement for depreciation paid to the selling contractor through the medicaid reimbursement program shall be recovered by the department to the extent of any gain on sale. The purchaser is obligated to reimburse the department, whether or not the purchaser is a medicaid contractor. If the department is unable to collect from the purchaser, then the seller is responsible for reimbursing the department. The department may establish an appropriate repayment schedule to recover depreciation. If the purchaser is a medicaid contractor and the contractor does not comply with the repayment schedule established by the department, the department may deduct the recovery from the contractor's monthly medicaid payments. The department may adopt rules, as appropriate, to insure that the principles of this section are implemented with respect to leased assets, or with respect to sales of intangibles or specific assets only.

Sec. 13. RCW 74.46.660 and 1980 c 177 s 66 are each amended to read as follows:

In order to participate in the prospective cost-related reimbursement system established by this chapter, the person or legal organization responsible for operation of a facility shall:

(jj) Costs and fees otherwise allowable for legal services, whether purchased, allocated by a home office, regional office or management company, or performed by the contractor or employees of the contractor, in excess of the eighty-fifth percentile of such costs reported by all contractors for the most recent cost report period: PROVIDED, That this limit shall not apply if a contractor has not exceeded this percentile in any of the preceding three annual cost report periods;

(kk) Costs and fees otherwise allowable for accounting and bookkeeping services, whether purchased, allocated by a home office, regional office or management company, or performed by the contractor or employees of the contractor, in excess of the eighty-fifth percentile of such costs reported by all contractors for the most recent cost report period: PROVIDED, That this limit shall not apply if a contractor has not exceeded this percentile in any of the preceding three annual cost report periods;

(ll) Compensation paid for any purchased nursing care services, including registered nurse, licensed practical nurse, and nurse assistant services, obtained through service contract arrangement in excess of the amount of compensation paid for such hours of nursing care service had they been paid at the average hourly wage, including related taxes and benefits, for in-house nursing care staff of like classification at the same nursing facility, as reported in the most recent cost report period;

(mm) For all partial or whole rate periods after July 17, 1984, costs of land and depreciable assets that cannot be reimbursed under the Deficit Reduction Act of 1984 and implementing state statutory and regulatory provisions.

Sec. 16. RCW 74.46.481 and 1990 c 207 s 1 are each amended to read as follows:

(1) The nursing services cost center shall include all costs related to the direct provision of nursing and related care, including fringe benefits and payroll taxes for the nursing and related care personnel. For rates effective for state fiscal year 1984, the department shall adopt by administrative rule a definition of "related care" which shall incorporate, but not exceed services reimbursable as of June 30, 1983. For rates effective for state fiscal year 1985, the definition of related care shall include ancillary care. For rates effective after June 30, 1991, nursing services costs, as reimbursed within this chapter and as tested for reasonableness within this section, shall not include costs of any purchased nursing care services, including registered nurse, licensed practical nurse, and nurse assistant services, obtained through service contract arrangement in excess of the amount of compensation paid for such hours of nursing care service had they been paid at the average hourly wage, including related taxes and benefits, for in-house nursing care

staff of like classification at the same nursing facility, as reported in the most recent cost report period.

(2) The department shall adopt by administrative rules a method for establishing a nursing services cost center rate consistent with the principles stated in this section.

(3) Utilizing regression or other statistical technique, the department shall determine a reasonable limit on facility nursing staff taking into account facility patient characteristics. For purposes of this section, facility nursing staff refers to registered nurses, licensed practical nurses and nursing assistants employed by the facility or obtained through temporary labor contract arrangements. Effective January 1, 1988, the hours associated with the training of nursing assistants and the supervision of that training for nursing assistants shall not be included in the calculation of facility nursing staff. In selecting a measure of patient characteristics, the department shall take into account:

(a) The correlation between alternative measures and facility nursing staff; and

(b) The cost of collecting information for and computation of a measure.

If regression is used, the limit shall be set at predicted nursing staff plus 1.75 regression standard errors. If another statistical method is utilized, the limit shall be set at a level corresponding to 1.75 standard errors above predicted staffing computed according to a regression procedure.

(4) No facility shall receive reimbursement for nursing staff levels in excess of the limit, except that, if a facility was reimbursed for a nursing staff level in excess of the limit as of June 30, 1983, the facility may choose to continue to receive its June, 1983 nursing services rate plus any adjustments in rates, such as adjustments for economic trends, made available to all facilities. However, nursing staff levels established under subsection (3) of this section shall not apply to the nursing services cost center reimbursement rate for the pilot facility especially designed to meet the needs of persons living with AIDS as defined by RCW 70.24.017 and specifically authorized for this purpose under the 1989 amendment to the Washington state health plan [1989 1st ex.s. c 9]. The reasonableness limit established pursuant to this subsection shall remain in effect for the period July 1, 1983 through June 30, 1985. At that time the department may revise the measure of patient characteristics or method used to establish the limit.

(5) The department shall select an index of cost increase relevant to the nursing and related services cost area. In the absence of a more representative index, the department shall use the medical care component index as maintained by the United States bureau of labor statistics.

(6) If a facility's nursing staff level is below the limit specified in subsection (3) of this section, the department shall determine the percentage increase for all items included in the nursing services cost center between the facility's most recent cost reporting period and the next prior cost reporting period.

(a) If the percentage cost increase for a facility is below the increase in the selected index for the same time period, the facility's reimbursement rate in the nursing services cost center shall equal the facility's cost from the most recent cost reporting period plus any allowance for inflation provided by legislative appropriation.

(b) If the percentage cost increase for a facility exceeds the increase in the selected index, the department shall limit the cost used for setting the facility's rate in the nursing services cost area to a level reflecting the increase in the selected index.

(7) If the facility's nursing staff level exceeds the reasonableness limit established in subsection (3) of this section, the department shall determine the increase for all items included in the nursing services cost center between the facility's most recent cost reporting period and the next prior cost reporting period.

(a) If the percentage cost increase for a facility is below the increase in the index selected pursuant to subsection (5) of this section, the facility's reimbursement rate in the nursing cost center shall equal the facility's cost from the most recent cost reporting period adjusted downward to reflect the limit on nursing staff, plus any allowance for

inflation provided by legislative appropriation subject to the provisions of subsection (4) of this section.

(b) If the percentage cost increase for a facility exceeds the increase in the selected index, the department shall limit the cost used for setting the facility's rate in the nursing services cost center to a level reflecting the nursing staff limit and the cost increase limit, subject to the provisions of subsection (4) of this section, plus any allowance for inflation provided by legislative appropriation.

(8) Prospective rates for the nursing services cost center, for state fiscal year 1992 only, shall not be subject to the cost growth index lid in subsections (5), (6), and (7) of this section. The lid shall apply for state fiscal year 1991 rate setting and all state fiscal years subsequent to fiscal year 1992.

(9) The department is authorized to determine on a systematic basis facilities with unmet patient care service needs. The department may increase the nursing services cost center prospective rate for a facility beyond the level determined in accordance with subsection (6) of this section if the facility's actual and reported nursing staffing is one standard error or more below predicted staffing as determined according to the method selected pursuant to subsection (3) of this section and the facility has unmet patient care service needs: PROVIDED, That prospective rate increases authorized by this subsection shall be funded only from legislative appropriations made for this purpose and the increases shall be conditioned on specified improvements in patient care at such facilities.

~~((9))~~ (10) The department shall establish a method for identifying patients with exceptional care requirements and a method for establishing or negotiating on a consistent basis rates for such patients.

~~((10))~~ (11) The department, in consultation with interested parties, shall adopt rules to establish the criteria the department will use in reviewing any requests by a contractor for a prospective rate adjustment to be used to increase the number of nursing staff. These rules shall also specify the time period for submission and review of staffing requests: PROVIDED, That a decision on a staffing request shall not take longer than sixty days from the date the department receives such a complete request. In establishing the criteria, the department may consider, but is not limited to, the following:

- (a) Increases in acuity levels of contractors' residents;
- (b) Staffing patterns for similar facilities;
- (c) Physical plant of contractor; and,
- (d) Survey, inspection of care, and department consultation results.

Sec. 17. RCW 74.46.530 and 1985 c 361 s 17 are each amended to read as follows:

(1) The department shall establish for individual facilities return on investment allowances composed of two parts: A financing allowance and a variable return allowance.

(a) The financing allowance shall be determined by multiplying the net invested funds of each facility by ~~((11))~~ 10, and dividing by the contractor's total patient days. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total patient days used in computing the financing and variable return allowances shall be adjusted to the anticipated patient day level.

(b) In computing the portion of net invested funds representing the net book value of tangible fixed assets, the same assets, depreciation bases, lives, and methods referred to in RCW 74.46.330, 74.46.350, 74.46.360, ~~((and))~~ 74.46.370, and 74.46.380, including owned and leased assets, shall be utilized, except that the capitalized cost of land upon which the facility is located and such other contiguous land which is reasonable and necessary for use in the regular course of providing patient care shall also be included. Subject to provisions and limitations contained in this chapter, for land purchased by owners or lessors before July 18, 1984, capitalized cost of land shall be the buyer's capitalized cost. For all partial or whole rate periods after July 17, 1984, if the land is

purchased after July 17, 1984, capitalized cost shall be that of the owner of record on July 17, 1984, or buyer's capitalized cost, whichever is lower. In the case of leased facilities where the net invested funds are unknown or the contractor is unable to provide necessary information to determine net invested funds, the secretary shall have the authority to determine an amount for net invested funds based on an appraisal conducted according to RCW 74.46.360(1).

(c) In determining the variable return allowance:

(i) The department will first rank all facilities in numerical order from highest to lowest according to their average per diem allowable costs for the sum of the administration and operations and property cost centers for the previous cost report period.

(ii) The department shall then compute the variable return allowance by multiplying the appropriate percentage amounts, which shall not be less than one percent and not greater than four percent, by the total prospective rate for each facility, as determined in RCW 74.46.450 through 74.46.510. The percentage amounts will be based on groupings of facilities according to the rankings as established in ~~((subparagraph (1)(b)(4)))~~ ~~((section))~~ subsection (1)(c). Those groups of facilities with lower per diem costs shall receive higher percentage amounts than those with higher per diem costs.

(d) The sum of the financing allowance and the variable return allowance shall be the return on investment for each facility, and shall be added to the prospective rates of each contractor as determined in RCW 74.46.450 through 74.46.510.

(e) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, which continues to be leased under the same lease agreement, and for which the annualized lease payment, plus any interest and depreciation expenses associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center determined according to RCW 74.46.510, is more than the return on investment allowance determined according to subsection (1)(d) of this section, the following shall apply:

(i) The financing allowance shall be recomputed substituting the fair market value of the assets as of January 1, 1982, as determined by the department of general administration through an appraisal procedure, less accumulated depreciation on the lessor's assets since January 1, 1982, for the net book value of the assets in determining net invested funds for the facility. A determination by the department of general administration of fair market value shall be final unless the procedure used to make such determination is shown to be arbitrary and capricious.

(ii) The sum of the financing allowance computed under subsection (1)(e)(i) of this section and the variable allowance shall be compared to the annualized lease payment, plus any interest and depreciation expenses associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center rate determined according to RCW 74.46.510. The lesser of the two amounts shall be called the alternate return on investment allowance.

(iii) The return on investment allowance determined according to subsection (1)(d) of this section or the alternate return on investment allowance, whichever is greater, shall be the return on investment allowance for the facility and shall be added to the prospective rates of the contractor as determined in RCW 74.46.450 through 74.46.510.

(f) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, if the lease is renewed or extended pursuant to a provision of the lease, the treatment provided in subsection (1)(e) of this section shall be applied except that in the case of renewals or extensions made subsequent to April 1, 1985, reimbursement for the annualized lease payment shall be no greater than the reimbursement for the annualized lease payment for the last year prior to the renewal or extension of the lease.

(2) In the event that the department of health and human services disallows the application of the return on investment allowances to nonprofit facilities, the department shall modify the measurements of net invested funds used for computing individual facility return on investment allowances as follows: Net invested funds for each nonprofit facility shall be multiplied by one minus the ratio of equity funds to the net invested funds of all nonprofit facilities.

(3) Each biennium, beginning in 1985, the secretary shall review the adequacy of return on investment allowances in relation to anticipated requirements for maintaining, reducing, or expanding nursing care capacity. The secretary shall report the results of such review to the legislature and make recommendations for adjustments in the return on investment rates utilized in this section, if appropriate.

Sec. 18. RCW 74.46.360 and 1989 c 372 s 14 are each amended to read as follows:

(1) For all partial or whole rate periods after December 31, 1984, the cost basis of land and depreciation base of depreciable assets shall be the historical cost of the contractor or lessor, when the assets are leased by the contractor, in acquiring the asset in an arm's-length transaction and preparing it for use, less goodwill, and less accumulated depreciation, if applicable, which has been incurred during periods that the assets have been used in or as a facility by any contractor, such accumulated depreciation to be measured in accordance with subsections (2), (3), and (4) of this section and RCW 74.46.350 and 74.46.370. If the department challenges the historical cost of an asset, or if the contractor cannot or will not provide the historical costs, the department will have the department of general administration, through an appraisal procedure, determine the fair market value of the assets at the time of purchase. The cost basis of land and depreciation base of ~~(the)~~ depreciable assets will not exceed such fair market value.

(2) The historical cost of depreciable and nondepreciable donated assets, or of depreciable and nondepreciable assets received through testate or intestate distribution, shall be the lesser of:

(a) Fair market value at the date of donation or death; or

(b) The historical cost base of the owner last contracting with the department, if any.

(3) Estimated salvage value of acquired, donated, or inherited assets shall be deducted from historical cost where the straight-line or sum-of-the-years' digits method of depreciation is used.

(4) (a) Where land or depreciable assets are acquired that were used in the medical care program subsequent to January 1, 1980, the cost basis or depreciation base of the assets will not exceed the net book value which did exist or would have existed had the assets continued in use under the previous contract with the department; except that depreciation shall not be assumed to accumulate during periods when the assets were not in use in or as a facility.

(b) The provisions of (a) of this subsection shall not apply to the most recent arm's-length acquisition if it occurs at least ten years after the ownership of the assets has been previously transferred in an arm's-length transaction nor to the first arm's-length acquisition that occurs after January 1, 1980, for facilities participating in the medical care program prior to January 1, 1980. The new cost basis or depreciation base for such acquisitions shall not exceed the fair market value of the assets as determined by the department of general administration through an appraisal procedure. A determination by the department of general administration of fair market value shall be final unless the procedure used to make such determination is shown to be arbitrary and capricious. For all partial or whole rate periods after July 17, 1984, this subsection is inoperative for any transfer of ownership of any asset, depreciable or nondepreciable, occurring on or after July 18, 1984, leaving (a) of this subsection to apply alone to such transfers: PROVIDED, HOWEVER, That this subsection shall apply to transfers of ownership of assets occurring prior to January 1, 1985, if the costs of such assets have never been

reimbursed under medicaid cost reimbursement on an owner-operated basis or as a related-party lease: PROVIDED FURTHER, That for any contractor that can document in writing an enforceable agreement for the purchase of a nursing home dated prior to July 18, 1984, and submitted to the department prior to January 1, 1988, the cost basis of allowable land and the depreciation base of the nursing home, for rates established after July 18, 1984, shall not exceed the fair market value of the assets at the date of purchase as determined by the department of general administration through an appraisal procedure. For medicaid cost reimbursement purposes, an agreement to purchase a nursing home dated prior to July 18, 1984, is enforceable, even though such agreement contains no legal description of the real property involved, notwithstanding the statute of frauds or any other provision of law.

(c) In the case of land or depreciable assets leased by the same contractor since January 1, 1980, in an arm's-length lease, and purchased by the lessee/contractor, the lessee/contractor shall have the option:

(i) To have the provisions of subsection (b) of this section apply to the purchase; or

(ii) To have the reimbursement for property and return on investment continue to be calculated pursuant to the provisions contained in RCW 74.46.530(1) (e) and (f) based upon the provisions of the lease in existence on the date of the purchase, but only if the purchase date meets one of the following criteria:

(A) The purchase date is after the lessor has declared bankruptcy or has defaulted in any loan or mortgage held against the leased property;

(B) The purchase date is within one year of the lease expiration or renewal date contained in the lease;

(C) The purchase date is after a rate setting for the facility in which the reimbursement rate set pursuant to this chapter no longer is equal to or greater than the actual cost of the lease; or

(D) The purchase date is within one year of any purchase option in existence on January 1, 1988.

(d) For all rate periods past or future where land or depreciable assets are acquired from a related organization, the contractor's cost basis and depreciation base shall not exceed the base the related organization had or would have had under a contract with the department.

(e) Where the land or depreciable asset is a donation or distribution between related organizations, the cost basis or depreciation base shall be the lesser of (i) fair market value, less salvage value, or (ii) the cost basis or depreciation base the related organization had or would have had for the asset under a contract with the department.

Sec. 19. RCW 74.46.700 and 1980 c 177 s 70 are each amended to read as follows:

~~((1))~~ Each ~~((contractor))~~ nursing home shall establish and maintain, as a service to the ~~((medical care recipient))~~ resident, a bookkeeping system incorporated into the business records for all ~~((recipient))~~ resident moneys entrusted to the contractor and received by the facility for the ~~((recipient))~~ resident.

~~((2))~~ Such system will apply to a recipient who is:

~~(a) Incapable of handling his or her own money and the department or the recipient's guardian, relative, or physician makes written request of the facility to accept this responsibility; or~~

~~(b) Capable of handling his or her own money, but requests the facility in writing to accept this responsibility.~~

~~(3) The written requests provided in subsection (2) of this section shall be maintained by the contractor in the recipient's file.~~

~~(4) The recipient must be given at least a quarterly reporting of all financial transactions in his or her trust account. The representative payee, the guardian, and/or~~

other designated agents of the recipient must be sent a copy of said reporting on the same basis as the recipient.)

The department shall adopt rules to ensure that resident personal funds handled by the facility are maintained by each nursing home in a manner that is, at a minimum, consistent with federal requirements.

SENATE AMENDMENTS TO HOUSE BILL

June 28, 1991

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1907 with the following amendments:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. This chapter is intended to provide the exclusive source of local government entity authority to individually or jointly self-insure risks, jointly purchase insurance or reinsurance, and to contract for risk management, claims, and administrative services. This chapter shall be liberally construed to grant local government entities maximum flexibility in self-insuring to the extent the self-insurance programs are operated in a safe and sound manner. This chapter is intended to require prior approval for the establishment of every individual local government self-insured employee health and welfare benefit program and every joint local government self-insurance program. In addition, this chapter is intended to require every local government entity that establishes a self-insurance program not subject to prior approval to notify the state of the existence of the program and to comply with the regulatory and statutory standards governing the management and operation of the programs as provided in this

chapter. This chapter is not intended to authorize or regulate self-insurance of unemployment compensation under chapter 50.44 RCW, or industrial insurance under chapter 51.14 RCW.

NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Local government entity" or "entity" means every unit of local government, both general purpose and special purpose, and includes, but is not limited to, counties, cities, towns, port districts, public utility districts, water districts, sewer districts, school districts, fire protection districts, irrigation districts, metropolitan municipal corporations, conservation districts, and other political subdivisions, governmental subdivisions, municipal corporations, and quasi-municipal corporations.

(2) "Risk assumption" means a decision to absorb the entity's financial exposure to a risk of loss without the creation of a formal program of advance funding of anticipated losses.

(3) "Self-insurance" means a formal program of advance funding and management of entity financial exposure to a risk of loss that is not transferred through the purchase of an insurance policy or contract.

(4) "Health and welfare benefits" means a plan or program established by a local government entity or entities for the purpose of providing its employees and their dependents, and in the case of school districts, its district employees, students, directors, or any of their dependents, with health care, accident, disability, death, and salary protection benefits.

(5) "Property and liability risks" includes the risk of property damage or loss sustained by a local government entity and the risk of claims arising from the tortious or negligent conduct or any error or omission of the local government entity, its officers, employees, agents, or volunteers as a result of which a claim may be made against the local government entity.

(6) "State risk manager" means the state risk manager of the division of risk management within the department of general administration.

NEW SECTION. Sec. 3. (1) The governing body of a local government entity may individually self-insure, may join or form a self-insurance program together with other entities, and may jointly purchase insurance or reinsurance with other entities for property and liability risks, and health and welfare benefits only as permitted under this chapter. In addition, the entity or entities may contract for or hire personnel to provide risk management, claims, and administrative services in accordance with this chapter.

(2) The agreement to form a joint self-insurance program shall be made under chapter 39.34 RCW.

(3) Every individual and joint self-insurance program is subject to audit by the state auditor.

(4) If provided for in the agreement or contract established under chapter 39.34 RCW, a joint self-insurance program may, in conformance with this chapter:

(a) Contract or otherwise provide for risk management and loss control services;

(b) Contract or otherwise provide legal counsel for the defense of claims and other legal services;

(c) Consult with the state insurance commissioner and the state risk manager;

(d) Jointly purchase insurance and reinsurance coverage in such form and amount as the program's participants agree by contract; and

(e) Possess any other powers and perform all other functions reasonably necessary to carry out the purposes of this chapter.

(5) A local government entity that has decided to assume a risk of loss must have available for inspection by the state auditor a written report indicating the class of risk or risks the governing body of the entity has decided to assume.

(6) Every joint self-insurance program governed by this chapter shall appoint the risk manager as its attorney to receive service of, and upon whom shall be served, all legal process issued against it in this state upon causes of action arising in this state.

(a) Service upon the risk manager as attorney shall constitute service upon the program. Service upon joint insurance programs subject to this act can be had only by service upon the risk manager. At the time of service, the plaintiff shall pay to the risk manager a fee to be set by the risk manager, taxable as costs in the action.

(b) With the initial filing for approval with the risk manager, each joint self-insurance program shall designate by name and address the person to whom the risk manager shall forward legal process so served upon him or her. The joint self-insurance program may change such person by filing a new designation.

(c) The appointment of the risk manager as attorney shall be irrevocable, shall bind any successor in interest or to the assets or liabilities of the joint self-insurance program, and shall remain in effect as long as there is in force in this state any contract made by the joint self-insurance program or liabilities or duties arising therefrom.

NEW SECTION. Sec. 9. (1) Within one hundred twenty days of receipt of a plan of management and operation, the state risk manager shall either approve or disapprove

the formation of the self-insurance program after reviewing the plan to determine whether the proposed program complies with this chapter and all rules adopted in accordance with this chapter.

(2) If the state risk manager denies a request for approval, the state risk manager shall specify in detail the reasons for denial and the manner in which the program fails to meet the requirements of this chapter or any rules adopted in accordance with this chapter.

(3) Whenever the state risk manager determines that a joint self-insurance program covering property or liability risks or an individual or joint self-insured health and welfare benefits program is in violation of this chapter or is operating in an unsafe financial condition, the state risk manager may issue and serve upon the program an order to cease and desist from the violation or practice.

(a) The state risk manager shall deliver the order to the appropriate entity or entities directly or mail it to the appropriate entity or entities by registered mail with return receipt requested.

(b) If the program violates the order or has not taken steps to comply with the order after the expiration of twenty days after the cease and desist order has been received by the program, the program is deemed to be operating in violation of this chapter, and the state risk manager shall notify the state auditor and the attorney general of the violation.

(c) After hearing or with the consent of a program governed by this chapter and in addition to or in lieu of a continuation of the cease and desist order, the risk manager may levy a fine upon the program in an amount not less than three hundred dollars and not more than ten thousand dollars. The order levying such fine shall specify the period within which the fine shall be fully paid. The period within which such fines shall be paid shall not be less than fifteen nor more than thirty days from the date of such order. Upon failure to pay any such fine when due the risk manager shall request the attorney general to bring a civil action on the risk manager's behalf to collect the fine. The risk manager shall pay any fine so collected to the state treasurer for the account of the general fund.

(4) Each self-insurance program approved by the state risk manager shall annually file a report with the state risk manager and state auditor providing:

(a) Details of any changes in the articles of incorporation, bylaws, or interlocal agreement;

(b) Copies of all the insurance coverage documents;

(c) A description of the program structure, including participants' retention, program retention, and excess insurance limits and attachment point;

(d) An actuarial analysis, if required;

(e) A list of contractors and service providers;

(f) The financial and loss experience of the program; and

(g) Such other information as required by rule of the state risk manager.

(5) No self-insurance program requiring the state risk manager's approval may engage in an act or practice that in any respect significantly differs from the management and operation plan that formed the basis for the state risk manager's approval of the program unless the program first notifies the state risk manager in writing and obtains the state risk manager's approval. The state risk manager shall approve or disapprove the proposed change within sixty days of receipt of the notice. If the state risk manager denies a requested change, the risk manager shall specify in detail the reasons for denial and the manner in which the program would fail to meet the requirements of this chapter or any rules adopted in accordance with this chapter.

NEW SECTION. Sec. 10. (1) All self-insurance programs governed by this chapter may provide for executive sessions in accordance with chapter 42.30 RCW to consider litigation and settlement of claims when it appears that public discussion of these matters would impair the program's ability to conduct its business effectively.

(2) Notwithstanding any provision to the contrary contained in the public disclosure act, chapter 42.17 RCW, in a claim or action against the state or a local government entity, no person is entitled to discover that portion of any funds or liability reserve established for purposes of satisfying a claim or cause of action, except that the reserve is discoverable in a supplemental or ancillary proceeding to enforce a judgment. All other records of individual or joint self-insurance programs are subject to disclosure in accordance with chapter 42.17 RCW.

(3) In accordance with chapter 42.17 RCW, bargaining groups representing local government employees shall have reasonable access to information concerning the experience and performance of any health and welfare benefits program established for the benefit of such employees.

NEW SECTION. Sec. 11. (1) The assets of a joint self-insurance program governed by this chapter may be invested only in accordance with the general investment authority that participating local government entities possess as a governmental entity.

(2) Except as provided in subsection (3) of this section, a joint self-insurance program may invest all or a portion of its assets by depositing the assets with the treasurer of a county within whose territorial limits any of its member local government entities lie, to be invested by the treasurer for the joint program.

(3) Local government members of a joint self-insurance program may by resolution of the program designate some other person having experience in financial or fiscal matters as treasurer of the program, if that designated treasurer is located in Washington state. The program shall, unless the program's treasurer is a county treasurer, require a bond obtained from a surety company authorized to do business in Washington in an amount and under the terms and conditions that the program finds will protect against loss arising from mismanagement or malfeasance in investing and managing program funds. The program may pay the premium on the bond.

All program funds must be paid to the treasurer and shall be disbursed by the treasurer only on warrants issued by the treasurer or a person appointed by the program and upon orders or vouchers approved by the program or as authorized under chapters 35A.40 and 42.24 RCW. The treasurer shall establish a program account, into which shall be recorded all program funds, and the treasurer shall maintain such special accounts as may be created by the program into which the treasurer shall record all money as the program may direct by resolution.

(4) The treasurer of the joint program shall deposit all program funds in a qualified public depository or depositories as defined in RCW 39.58.010(2) and under the same restrictions, contracts, and security as provided for any participating local government entity, and such depository shall be designated by resolution of the program.

(5) All interest and earnings collected on joint program funds belong to the program and must be deposited to the program's credit in the proper program account.

(6) A joint program may require a reasonable bond from any person handling money or securities of the program and may pay the premium for the bond.

(7) Subsections (3) and (4) of this section do not apply to a multistate joint self-insurance program governed by section 8 of this act.

NEW SECTION. Sec. 12. (1) No employee or official of a local government entity may directly or indirectly receive anything of value for services rendered in connection with the operation and management of a self-insurance program other than the salary and benefits provided by his or her employer or the reimbursement of expenses reasonably incurred in furtherance of the operation or management of the program. No employee or official of a local government entity may accept or solicit anything of value for personal benefit or for the benefit of others under circumstances in which it can be reasonably inferred that the employee's or official's independence of judgment is impaired with respect to the management and operation of the program.

(2) No local government entity may participate in a joint self-insurance program in which local government entities do not retain complete governing control. This prohibition does not apply to local government contribution to a self-insured employee health and welfare benefits plan otherwise authorized and governed by state statute nor to local government participation in a multistate joint program where control is shared with local government entities from other states.

(3) Moneys made available and moneys expended by school districts and educational service districts for self-insurance under this chapter are subject to such rules of the superintendent of public instruction as the superintendent may adopt governing budgeting and accounting. However, the superintendent shall ensure that the rules are consistent with those adopted by the state risk manager for the management and operation of self-insurance programs.

(4) RCW 48.30.140, 48.30.150, 48.30.155, and 48.30.157 apply to the use of agents and brokers by local government self-insurance programs.

(5) Every individual and joint local government self-insured health and welfare benefits program that provides comprehensive coverage for health care services shall include mandated benefits that the state health care authority is required to provide under RCW 41.05.170 and 41.05.180. The state risk manager may adopt rules identifying the mandated benefits.

NEW SECTION. Sec. 13. Every local government entity that has established a self-insurance program not subject to the prior approval requirements of this chapter shall provide written notice to the state auditor of the existence of the program. The notice must identify the manager of the program and the class or classes of risk self-insured. The notice must also identify all investments and distribution of assets of the program, the current depository of assets and the program's designation of asset depository and investment agent as required by section 11 of this act. In addition, the local government entity shall notify the state auditor whenever the program covers a new class of risk or discontinues the self-insurance of a class of risk.

NEW SECTION. Sec. 14. Every joint self-insurance program covering liability or property risks shall provide for the contingent liability of participants in the program if assets of the program are insufficient to cover the program's liabilities, unless coverage in the joint program is expressly limited to the available assets of the program and the limitation is expressly acknowledged or agreed upon by the local government entities.

NEW SECTION. Sec. 15. A joint self-insurance program approved in accordance with this chapter is exempt from insurance premium taxes, from fees assessed under chapter 48.02 RCW, from chapters 48.32 and 48.32A RCW, from business and occupations taxes imposed under chapter 82.04 RCW, and from any assigned risk plan or joint underwriting association otherwise required by law. This section does not apply to and no exemption is provided for insurance companies issuing policies to cover program risks.

NEW SECTION. Sec. 16. (1) The state risk manager shall establish and charge an investigation fee in an amount necessary to cover the costs for the initial review and approval of a self-insurance program. The fee must accompany the initial submission of the plan of operation and management.

(2) The costs of subsequent reviews and investigations shall be charged to the self-insurance program being reviewed or investigated in accordance with the actual time and expenses incurred in the review or investigation.

(3) After the formation of the two advisory boards, each board may calculate, levy, and collect from each joint property and liability self-insurance program and each individual and joint health and welfare benefit program regulated by this chapter a start-up assessment to pay initial expenses and operating costs of the boards and the risk manager's office in administering this chapter. Any program failing to remit its

assessment when due is subject to denial of permission to operate or to a cease and desist order until the assessment is paid.

NEW SECTION. Sec. 17. (1) Any person who files reports or furnishes other information required under Title 48 RCW, required by the risk manager or the state auditor under authority granted by Title 48 RCW, or which is useful to the risk manager or the state auditor in the administration of Title 48 RCW, shall be immune from liability in any civil action or suit arising from the filing of any such report or furnishing such information to the risk manager or to the state auditor, unless actual malice, fraud, or bad faith is shown.

(2) The risk manager and the state auditor, and the agents and employees of each, are immune from liability in any civil action or suit arising from the publication of any report or bulletins or arising from dissemination of information related to the official activities of the risk manager, the advisory boards, or the state auditor, unless actual malice, fraud, or bad faith is shown.

(3) The immunity granted by this section is in addition to any common law or statutory privilege or immunity enjoyed by such person, and nothing in this section is intended to abrogate or modify in any way such common law or statutory privilege or immunity.

The port commission shall have authority by resolution to utilize and compensate agents for the purpose of paying, in the name and by the check of such agent or agents or otherwise, wages, salaries and other benefits to employees, or particular classifications thereof, and for the purpose of withholding payroll taxes and paying over tax moneys so withheld to appropriate government agencies, on a combined basis with the wages, salaries, benefits, or taxes of other employers or otherwise; to enter into such contracts and arrangements with and to transfer by warrant such funds from time to time to any such agent or agents so appointed as are necessary to accomplish such salary, wage, benefit, or tax payments as though the port district were a private employer, notwithstanding any other provision of the law to the contrary. every three years, and an examination of individual local government health and welfare benefit plans and joint local government self-insurance programs shall be made at least once every two years. The term "taxing districts" for purposes of RCW 43.09.190 through 43.09.285 includes but is not limited to all counties, cities, and other political subdivisions, municipal corporations, and quasi-municipal corporations, however denominated.

The state auditor shall establish a schedule to govern the auditing of taxing districts which shall include: A designation of the various classifications of taxing districts; a designation of the frequency for auditing each type of taxing district; and a description of events which cause a more frequent audit to be conducted.

On every such examination, inquiry shall be made as to the financial condition and resources of the taxing district; whether the Constitution and laws of the state, the ordinances and orders of the taxing district, and the requirements of the division of municipal corporations have been properly complied with; and into the methods and accuracy of the accounts and reports.

Sommers, Spanel, Sprenkle, Tate, Valle, Vance, Van Luven, Wang, Wilson, Winsley, Wood, Wynne and Zellinsky

WHEREAS, The House of Representatives finds that the lack of self-esteem is central to most personal and social issues plaguing our state and that self-esteem is the likeliest candidate for a social vaccine, something that empowers our citizens to live responsibly and inoculates our citizens against crime, violence, substance abuse, teen pregnancy, child abuse, chronic welfare dependency, and educational failure; and

WHEREAS, The House of Representatives adopts the following definition of self-esteem: Appreciating my own worth and importance and having the character to be accountable for myself and to act responsibly toward others; and

WHEREAS, Self-esteem is a causal factor in educational failure and that failure to learn can be catastrophic for the individual and staggering in its costs to society; and

WHEREAS, Families are the most crucial ingredient in nurturing the sense of self-esteem and schools are second only to families in nurturing the self-esteem necessary for personal and academic success; and

WHEREAS, Teachers are central figures in the lives of their students and prospective teachers should receive training regarding self-esteem both in teacher training programs in colleges and universities and as part of ongoing staff development;

NOW, THEREFORE, BE IT RESOLVED, By the House of Representatives of the State of Washington, That every school district and every institution of higher education in Washington are strongly encouraged to adopt the promotion of self-esteem and personal and social responsibility as a clearly stated goal, integrate self-esteem in their total curriculum, and inform all persons of their policies and operations; that school boards and the administration in the schools and institutions of higher education are strongly encouraged to establish policies and procedures that value staff members and students and serve to foster mutual respect, esteem, and cooperation; and that schools and school districts are strongly encouraged to derive school goals through consensus rather than impose them by administrative edict and to develop rules and disciplinary procedures in a collaborative manner among the administrators, teachers, parents, and students; and

BE IT FURTHER RESOLVED, That schools, school districts, and institutions of higher education are strongly encouraged to require course work in self-esteem for credentials and as a part of ongoing in-service training for all educators, including at least one course in the nature and development of self-esteem in one's self and in one's students as a requirement for credentials in teaching, counseling, or administration and for maintaining those credentials; and that school districts are strongly encouraged to develop and expand training in the development of self-esteem and personal and social responsibility as part of their ongoing staff development; and

BE IT FURTHER RESOLVED, That school districts and institutions of higher education are strongly encouraged to support and expand programs to enhance the self-esteem, character development, and academic success of all students, with special emphasis on those in greatest jeopardy of academic failure; and

BE IT FURTHER RESOLVED, That school districts are strongly encouraged to develop a real-life skills curriculum to include self-esteem and personal responsibility components, which curriculum shall provide instruction in basic living skills, such as developing and maintaining good character, positive self-esteem, conflict resolution, effective communication, goal setting and goal achievement, time and money management, creative problem-solving, leadership, stress management, and decision making, as well as basic values, such as responsibility, honesty, integrity, self-discipline, equity, and cooperation. School districts are strongly encouraged to make every effort as part of the real-life skills curriculum to promote respect for parental decision making regarding basic living skills and values of their children and to avoid interference with parental decision making in these areas by the school districts. School districts are strongly encouraged to convene a broadly representative group to develop this real-life skills curriculum, including university professors, curriculum development specialists, local high school district personnel, community and business leaders, students, and parents; and

BE IT FURTHER RESOLVED, That school districts are strongly encouraged to foster family-school partnerships to engage the support and involvement of parents in their children's education; that such a partnership should enlist parental input in school programs, procedures, and curriculum development and to assist teachers in the classroom and should help parents learn skills necessary to improve their children's academic achievement and sense of self-esteem and responsibility; and that the parent-school partnership should allow and encourage participation on the part of working parents as well as homemakers, fathers as well as mothers, and step-parents and other caretakers; and

BE IT FURTHER RESOLVED, That school districts are strongly encouraged to strive to reduce class sizes and in the meantime to use techniques that allow for more individualized attention despite large class sizes; and

BE IT FURTHER RESOLVED, That school districts are strongly encouraged to enhance growth in self-esteem by developing, supporting, and expanding peer counseling training programs for middle-level and senior high school students; and

BE IT FURTHER RESOLVED, That school districts are strongly encouraged to promote arts programs that stress creative growth as a means of strengthening students' self-esteem and responsibility; and

BE IT FURTHER RESOLVED, That schools and school districts are strongly encouraged to offer opportunities for students of all ages to do community service work programs; and

BE IT FURTHER RESOLVED, That school districts and institutions of higher education are strongly encouraged to institute effective programs for staff and students to ensure equality of treatment and opportunity for all and to teach and practice the principles of compassion, caring, and understanding, as well as responsible character development as part of their efforts to promote personal and social responsibility; and

BE IT FURTHER RESOLVED, That copies of this resolution be immediately transmitted by the Chief Clerk of the House of Representatives to the office of the superintendent of public instruction, the state board of education, the Washington state school directors' association, the Washington association of school administrators, the Washington education association, the association of Washington school principals, the Washington state parent-teacher association, the higher education coordinating board, the state board for community colleges, the presidents of all state and private institutions of higher education in this state, the Washington State University and the University of Washington student lobby directors and associated student body presidents, the director of each equal opportunity program at each institution of higher education in this state, and each counseling center at each institution of higher education in this state.

NEW SECTION. Sec. 26. FOR THE PARKS AND RECREATION COMMISSION: TIMBERLAND PURCHASES AND COMMON SCHOOL PURCHASES

The appropriation in this section is subject to the following conditions and limitations:

(1) This appropriation is provided to the state parks and recreation commission ("commission") solely to acquire trust lands that have been identified by the department of natural resources ("department") as appropriate for state park use and development. Except as specifically otherwise provided in this section, the commission shall acquire the following parcels:

- (a) Lord Hill, in Snohomish county, west of Monroe;
 - (b) Beacon Rock, in Skamania county, adjacent to Beacon Rock State Park;
 - (c) Larrabee Addition, (1 and 2) in Whatcom county, northeast of Larrabee State Park and Chuckanut Mountain;
 - (d) South Whidbey, in Island county, adjacent to South Whidbey State Park;

 - (g) Dugualia Bay property, in Island county, on the northeast shore of Whidbey Island;
 - (h) Rasar property, in Skagit county, west of Birdsvie, near the Skagit river;
 - (i) Wallace Falls Addition (Northwest) property, in Snohomish county, adjacent to the northwestern side of the designated park property;

 - (n) Skykomish river property, along Highway 2, near Index.
- (2) The commission may expend moneys from this appropriation for acquisition of the Skykomish river property under subsection (1)(n) of this section

only to the extent that moneys remain available after the commission has made all reasonable efforts to acquire the other properties identified in this subsection.

(3) To achieve the purposes of this section, intergrant exchanges between common school trust lands and parcels of noncommon school trust lands shall occur on an equal-value basis.

(4) Proceeds from the transfer of the timber shall be deposited by the department in the same manner as timber revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. The proceeds from the transfer of the land shall be used by the department to acquire timber land of equal value to be managed as common school trust land and to maintain a sustainable yield.

(5) The department shall attempt to maintain an aggregate ratio of approximately 85:15 timber-to-land value in these transactions. If the aggregate value of timber-to-land varies by more than plus or minus five percent of that ratio, individual land acquisitions may be dropped in order to maintain the approximate ratio.

(6) It is the intent of the legislature that, insofar as feasible, the full parcels identified in subsection (1) of this section be acquired for park purposes. However, to the extent authorized by the commission, the boundaries of the Diamond Point property under subsection (1)(m) of this section may vary from the property boundaries as described in the joint study conducted by the commission and the department under section 4, chapter 163, Laws of 1985.

One-half of one percent of moneys appropriated in this act for original construction of any building by any college or university or for any major renovation or remodel work exceeding \$200,000 by any college or university is provided solely for the purposes of RCW 28B.10.027. One-half of one percent of moneys appropriated in this act for original construction of any other public building by a state agency as defined by RCW 43.17.200 is provided solely for the purposes of RCW 43.17.200.

NEW SECTION. Sec. 49. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts.

NEW SECTION. Sec. 50. "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining June 30, 1991, in the 1989-91 biennial appropriations for each project.

NEW SECTION. Sec. 51. To carry out the provisions of this act, the governor may assign responsibility for planning, engineering, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 52. As part of the annual update to the State Facilities and Capital Plan, agencies shall provide information on lease development and lease purchase projects to the office of financial management.

NEW SECTION. Sec. 53. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate committee on ways and means and the house of representatives committee on capital facilities and financing.

NEW SECTION. Sec. 54. Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditure of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs. This section shall not apply to section 12(5) of this act.

NEW SECTION. Sec. 55. Notwithstanding any other provisions of law, for the 1991-93 biennium, transfers of reimbursement by the state treasurer to the general fund from the community college capital projects account for debt service payments made under Title 28B RCW shall occur only after such debt service payment has been made and only to the extent that funds are actually available in the account. Any unpaid reimbursements shall be a continuing obligation against the community college capital projects account until paid. The state board for community college education need not accumulate any specific balance in the community college capital projects account in anticipation of transfers to reimburse the general fund.

NEW SECTION. Sec. 56. Any capital improvements or capital project involving construction or major expansion of a state office facility, including district headquarters, detachment offices, and off-campus faculty offices, shall be reviewed by the department of general administration for possible consolidation and compliance with state office standards before allotment of funds. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

NEW SECTION. Sec. 57. The governor, through the director of financial management, may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer shall

be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account.

For purposes of this section, the governor may find that an amount is in excess of the amount required for the completion of a project only if (1) the project as defined in the notes to the budget document is substantially complete and there are funds remaining or (2) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated herein.

For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

A report of any transfer effected under this section except emergency projects or any transfer under \$250,000 shall be filed with the legislative fiscal committees of the senate and house of representatives by the director of financial management at least thirty days before the date the transfer is effected, and shall report all transfers within thirty days from the date of transfer.

Sec. 58. RCW 43.168.110 and 1985 c 164 s 11 are each amended to read as follows:

There is established the Washington state development loan fund which shall be an account in the state treasury. All loan payments of principal and interest which are transferred under RCW 43.168.050 shall be deposited into the account. Moneys in the account may be spent ~~((without))~~ only after legislative appropriation for loans under this chapter. ~~((However,))~~ Any expenditures of these moneys shall conform to federal law.

NEW SECTION. Sec. 59. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act referencing this section shall not be expended until the office of financial management has reviewed the agency's programmatic preplanning document and approved continuation of or made changes to the project. The program preplanning document shall include but not be limited to projected workload, site conditions, user requirements, current space available, and an overall budget and cost estimate breakdown in a form prescribed by the office of financial management. The office of financial management shall report to the house of representatives capital facilities committee, the senate ways and means committee, and the legislative transportation committee a listing of the program documents the office has reviewed and approved, changes made to the documents resulting from the review, and the estimated cost changes resulting from the review.

NEW SECTION. Sec. 60. The appropriations in sections 34 through 39 and 44 of this act are subject to the following requirements:

(1) Using a committee that includes one or more students, faculty, and staff with disabilities, each institution of higher education shall identify barriers to physical access on that institution's campuses.

(2) Beginning with its 1993-95 capital budget request, each institution shall incorporate into its capital budget process efforts to reduce physical barriers to access.

NEW SECTION. Sec. 61. The department of information services shall act as lead agency in coordinating video telecommunications services for state agencies. As lead agency, the department shall develop standards and common specifications for leased and purchased telecommunications equipment and assist state agencies in developing a video telecommunications expenditure plan. No agency may spend any portion of any appropriation in this act for new video telecommunication equipment, new video telecommunication transmission, or new video telecommunication programming, or for expanding current video telecommunication systems without first complying with chapter

43.105 RCW, including but not limited to RCW 43.105.041(2), and without first submitting a video telecommunications equipment expenditure plan, in accordance with the policies of the department of information services, for review and assessment by the department of information services under RCW 43.105.052. Before any such expenditure by a public school, a video telecommunications expenditure plan shall be approved by the superintendent of public instruction. The office of the superintendent of public instruction shall submit the plans to the department of information services in a form prescribed by the department. The office of the superintendent of public instruction shall submit the plans to the department of information services in a form prescribed by the department. The office of the superintendent of public instruction shall coordinate the use of video telecommunications in public schools by providing educational information to local school districts and shall assist local school districts and educational service districts in telecommunications planning and curriculum development. Before any such expenditure by a public institution of postsecondary education, a telecommunications expenditure plan shall be approved by the higher education coordinating board. The higher education coordinating board shall coordinate the use of video telecommunications for instruction and instructional support in postsecondary education, including the review and approval of instructional telecommunications course offerings.

NEW SECTION. Sec. 62. The appropriations contained in this act are maximum expenditure authorizations. Pursuant to RCW 43.88.037, moneys disbursed from the treasury on the basis of a formalized loan are to be recorded as loans receivable and not as expenditures for accounting purposes. To the extent that moneys are disbursed on a loan basis, the corresponding appropriation shall be reduced by the amount of loan moneys disbursed from the treasury during the 1991-93 biennium.

NEW SECTION. Sec. 63. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

RESOLUTION

HOUSE RESOLUTION NO. 91-4718, by Representative Appelwick

WHEREAS, The National Conference of Commissioners on Uniform State Laws is celebrating its one-hundredth anniversary, and it is appropriate upon this auspicious occasion that the achievements of the organization are highlighted and that its role in creating uniformity of the laws of the states, the District of Columbia, Puerto Rico, and the United States Virgin Islands are applauded; and

WHEREAS, As far back as 1881, the problems associated with wide variations in state laws were formally recognized by the Alabama State Bar Association, which took the first formal action to encourage development of "uniform" laws, and in August 1889, the American Bar Association (ABA) decided at its twelfth annual meeting to work for "uniformity of the laws" of the then forty-four states; and

WHEREAS, Within a year, the New York legislature authorized the governor to appoint three commissioners to explore the most effective manner in which to effect uniformity of law to ease problems developing between increasingly interdependent states; and the ABA endorse New York's action with the result that the first meeting of the Conference of State Boards of Commissioners on Promoting Uniformity of Law in the United States was held in Saratoga Springs, New York, on August 24, 1892, with commissioners for seven states in attendance (Delaware, Georgia, Massachusetts, Michigan, New York, New Jersey, and Pennsylvania); and

WHEREAS, In 1915, the organization officially became the National Conference of Commissioners on Uniform State Laws; and

WHEREAS, Since 1905 the state of Washington has been a member of the National Conference of Commissioners on Uniform State Laws and has served with distinction, making significant contributions to that conference; and

WHEREAS, Washington state has adopted into its statutes eighty-five or more of the uniform acts or amendments that have been promulgated by the National Conference of Commissioners on Uniform State Laws including the uniform commercial code, which is the underlying basis of the vast portion of the commerce that is the health of this state; and

WHEREAS, At the present time, more than three hundred practicing lawyers, judges, law professors, and government officials serve as Uniform Law Commissioners; and these state-appointed commissioners, selected for their wide

range of legal expertise and experience, provide an immeasurable resource for drafting "uniform" and "model" laws; and

WHEREAS, Commissioners, who donate hundreds and even thousands of hours of their time to the Conference, receive no salaries or fees for their work; and it is their extreme dedication and commitment to the principles of the Conference which has enabled the Conference to be credited with its resounding success and for the renown which it has earned throughout the country;

NOW, THEREFORE, BE IT RESOLVED, That the National Conference of Commissioners on Uniform State Laws be commended as it celebrates its one-hundredth anniversary, and applauded as a genuine confederation of state interests and for its brilliant leadership which it has displayed in effectuating uniformity of law and in providing states with legislation adaptable to their particular needs and concerns; and

THIRD READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1430, by House Committee on Capital Facilities & Financing (originally sponsored by Representative H. Sommers; by request of Governor Gardner)

Issuing general obligation and revenue bonds.

MOTION

On motion of Mr. Ebersole, the rules were suspended and Engrossed Substitute House Bill No. 1430 was returned to second reading for purpose of amendment.

On motion of Ms. H. Sommers, the following amendment was adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of one billion ninety-five million dollars, or so much thereof as may be required, to finance the projects described and authorized by the legislature in the capital and operating appropriations acts for the 1991-1993 fiscal biennium and subsequent fiscal biennia, and all costs incidental thereto.

Bonds authorized in this section shall be sold in such manner, at such time or times, in such amounts, and at such price as the state finance committee shall determine. No such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds. The state finance committee may obtain insurance, letters of credit, or other credit enhancements and may authorize the execution and delivery of agreements, promissory notes, and other obligations for the purpose of insuring the payment or enhancing the marketability of bonds authorized in this section. Promissory notes or other obligations issued pursuant to this section shall not constitute a debt or the contracting of indebtedness under any constitutional or statutory indebtedness limitation if their payment is conditioned upon the failure of the state to pay the principal of or interest on the bonds with respect to which the same relate.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued.

Small school enrollments in kindergarten through grade six shall generate funding under (a) of this subsection, and shall not generate allocations under (d) and (e)

of this subsection, if the staffing allocations generated under (a) of this subsection exceed those generated under (d) and (e) of this subsection. The certificated staffing allocations shall be as follows:

(c) On the basis of full time equivalent enrollment in vocational education programs and skill center programs approved by the superintendent of public instruction, 0.92 certificated instructional staff units and 0.08 certificated administrative staff units for each 16.67 full time equivalent vocational students;

(e) For specified enrollments in districts enrolling more than twenty-five but not more than one hundred average annual full time equivalent students in kindergarten through grade eight, and for small school plants within any school district which enroll more than twenty-five average annual full time equivalent kindergarten through eighth grade students and have been judged to be remote and necessary by the state board of education:

(i) For remote and necessary schools enrolling students in any grades nine through twelve but no more than twenty-five average annual full time equivalent kindergarten through twelfth grade students, four and one-half certificated instructional staff units and one-quarter of a certificated administrative staff unit;

(ii) For all other small high schools under this subsection, nine certificated instructional staff units and one-half of a certificated administrative staff unit for the first sixty average annual full time equivalent students, and additional staff units based on a ratio of 0.8732 certificated instructional staff units and 0.1268 certificated administrative staff units per each additional forty-three and one-half average annual full time equivalent students.

Units calculated under (f)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational and handicapped full time equivalent students.

(g) For each nonhigh school district having an enrollment of more than seventy annual average full time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit;

(5) Insurance benefit allocations shall be calculated at the rates specified in section 505 of this act, based on:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full time equivalent.

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2) (a), (b), and (d) through (h) of this section, there shall be provided a maximum of \$6,848 per certificated staff unit in the 1991-92 school year and a maximum of \$7,060 per certificated staff unit in the 1992-93 school year.

(7) Allocations for substitute costs for classroom teachers shall be distributed at a maximum rate of \$318 for the 1991-92 school year and \$318 per year for the 1992-93 school year for allocated classroom teachers. Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported state-wide for the 1990-91 school year.

(8) The superintendent may distribute a maximum of \$4,633,000 outside the basic education formula during fiscal years 1992 and 1993 as follows:

(a) For fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW, a maximum of \$386,000 may be expended in fiscal year 1992 and a maximum of \$398,000 may be expended in fiscal year 1993.

(b) For summer vocational programs at skills centers, a maximum of \$1,777,000 may be expended in fiscal year 1992 and a maximum of \$1,788,000 may be expended in fiscal year 1993.

(c) A maximum of \$284,000 may be expended for school district emergencies.

(9) For the purposes of RCW 84.52.0531, the increase per full time equivalent student in state basic education appropriations provided under this act, including appropriations for salary and benefits increases, is 5.6 percent from the 1990-91 school year to the 1991-92 school year, and 5.0 percent from the 1991-92 school year to the 1992-93 school year.

(10) A maximum of \$2,450,000 may be expended in the 1991-92 fiscal year and a maximum of \$2,450,000 may be expended in the 1992-93 fiscal year for high technology vocational equipment for secondary vocational education programs and skill centers.

(11)(a) Funds provided under subsection (2)(a)(ii) of this section in excess of the amount required to maintain the statutory minimum ratio established under RCW 28A.150.260(2)(c), shall be allocated only if the district documents an actual ratio equal to or greater than 54.3 certificated instructional staff per thousand full time equivalent students in grades K-3. For any school district documenting a lower certificated instructional staff ratio, the allocation shall be based on the district's actual K-3 certificated instructional staff ratio achieved in that school year, or the statutory minimum ratio established under RCW 28A.150.260(2)(c), if greater.

(b) Districts at or above 51.0 certificated instructional staff per one thousand full time equivalent students in grades K-3 may dedicate up to 1.3 of the 54.3 funding ratio to employ additional classified instructional assistants assigned to basic education classrooms in grades K-3. For purposes of documenting a district's staff ratio under subsection (11)(a) and (c) of this section, funds used by the district to employ additional classified instructional assistants shall be converted to a certificated staff equivalent and added to the district's actual certificated instructional staff ratio. Additional classified instructional assistants, for the purposes of this subsection, shall be determined using the 1989-90 school year as the base year.

Funds allocated under this section shall only be expended to reduce class size in grades K-6. No more than 1.3 of the certificated instructional funding ratio amount may be expended for provision of classified instructional assistants.

(12) The superintendent of public instruction shall study the rate of staff per student if current levels of certificated instructional staffing and paraprofessionals are counted

together as "classroom resources." A report identifying "classroom resource" per pupil rates shall be provided to the appropriate fiscal and policy committees of the house of representatives and senate by January 10, 1992.

Sommers, Spanel, Sprenkle, Tate, Valle, Vance, Van Luven, Wang, Wilson, Wineberry, Winsley, Wood and Wynne

WHEREAS, Adele Ferguson, the political correspondent for the Bremerton Sun, is celebrating her thirtieth year of skewering the high and mighty and deflating oversized egos in Olympia; and

WHEREAS, Adele Ferguson has been a free spirit and trailblazer all of her life: She was the first woman to become a regular political correspondent in Olympia; faced down the wrath of the male press corps; and even survived being forcibly ejected by the sergeant-at-arms for violating unwritten protocol by sitting in a Seattle Post-Intelligencer reporter's seat; and

WHEREAS, One of Adele Ferguson's most distinguishing trademarks is her brash, straightforward questioning style at news conferences. She quickly cuts to the heart of an issue, and never minces words. She believes in translating bureaucratese and political gobbledegook into plain English; and

WHEREAS, Ferguson's influence is felt around the state by way of her syndicated column that appears in daily newspapers in Aberdeen, Bremerton, Centralia, Ellensburg, Vancouver, and Yakima, and weeklies around the state; and

WHEREAS, She has covered the last five governors of this state, and is equally revered and feared by politicians of all political persuasions; and

WHEREAS, "A'dell," as she is known to everyone from the governor to the janitor, is a formidable figure in Olympia. A tall, handsome woman of

uncertain age, it is alleged that she can cuss like a logger, drink like a sailor, and tell a good joke or two, but Ferguson still firmly maintains that "A woman's weight, age, and salary are her own business";

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives recognize and honor Adele Ferguson, the Dean of the legislative press corps, for her thirty years of outstanding journalism in Olympia; and

BE IT FURTHER RESOLVED, That copies of this resolution be immediately transmitted by the Chief Clerk of the House of Representatives to Adele Ferguson.

Ms. Schmidt moved adoption of the resolution. Representatives Schmidt, Zellinsky, Heavey, R. Fisher, Edmondson, Ballard and O'Brien spoke in favor of the resolution.

**GOVERNOR'S MESSAGES ON HOUSE BILLS
VETOED AND PARTIALLY VETOED**

Fifty-Second Legislature
1991 Regular Session
1991 First Special Session

July 16, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 19,
Reengrossed Substitute House Bill No. 1025 entitled:

"AN ACT Relating to growth strategies."

I welcome this measure, and am pleased to sign it into law.

Passage of this legislation fulfills an important promise made to the
state's citizens. It is a success story that should strengthen the public's faith
in the democratic political process.

I commend the Legislature - and particularly the legislative leadership -
for keeping its commitment to Washington citizens, and for working hard to
ensure that this bill will effectively protect our quality of life.

Reengrossed Substitute House Bill No. 1025 builds on the landmark
growth management legislation passed last year, and on the recommendations
of the Growth Strategies Commission. Even more important, it builds trust:
trust between citizens and their elected representatives, trust between businesses
and local governments, and trust among the bipartisan group of legislators who
crafted it. That trust is, in the end, the key element necessary for effective
and sustained growth management.

While I welcome this legislation, I have determined that section 19 of this
bill is so ambiguous that it gives rise to numerous legal interpretations of its
meaning and invites litigation.

I am not alone in this belief. Among the many letters my office has
received on this bill, the overwhelming opinion is that because key terms are
left undefined, and because the language is vague, this section is likely to
result in significant court action. Such litigation could result in a reduction of
existing local authority to protect open space -- thus producing a consequence
that is the direct opposite of the section's intent. I intend to insist that we
take actions that ensure that the existing authority of local governments to
protect open space are not compromised in any way.

I support the intent of the negotiators to address the relationship between
open space designation and protection of private property rights, and I believe
that we can come to consensus on how to clarify this issue.

Clearly, it is better to negotiate than to litigate. And this issue is far too
important to leave to the uncertainties of the judicial system. If we want clear

and effective protection for open space, we have more work to do, and I am committed to working with legislators to make sure it gets done in the next legislative session.

With the exception of section 19, I am approving Reengrossed Substitute House Bill No. 1025.

Respectfully submitted,
Booth Gardner, Governor.

June 30, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 123 through 139, Reengrossed Substitute House Bell No. 1058, entitled:

"AN ACT Relating to treasurer-managed funds and accounts."

Sections 123-139 effectively negate the deposit interest changes contained in the rest of the bill by restoring existing RCW language at the end of the 1991-93 Biennium. Reengrossed Substitute House Bill No. 1058 was designed to improve consistency in the disposition of interest earnings for Treasury accounts and it makes little sense to abandon this more uniform approach after just two years.

Reengrossed Substitute House Bill No. 1058 also has budget implications by providing additional state General Fund revenue in support of the 1991-93 Omnibus Appropriations Act. These revenues are integral to the statewide balance of revenues and expenditures, and their elimination would unquestionably pose a significant problem to the 1993-95 budget.

The Legislature has the opportunity to reconsider enacted legislation at any time. I can't condone the administrative and budget upheaval that would be created by an automatic reversal of the deposit interest changes that were the original intention of Reengrossed Substitute House Bill No. 1058.

With the exception of sections 123 through 139, Reengrossed Substitute House Bill No. 1058 is approved.

Respectfully submitted,
Booth Gardner, Governor.

June 30, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 35, page 16, lines 13 through 22, 36(1), page 17, lines 12 through 15 beginning with the word "Upon" and ending with "implementation," 45, 54, 55, 56, 57(2), 58, 59, and section 67, page 44, line 28 beginning with the word "For" through page 45, line 8 ending with the word "committee" Engrossed Substitute House Bill No. 1231 entitled:

"AN ACT Relating to transportation appropriations."

My reasons for vetoing these sections are as follows:

Section 35, page 16, lines 13 through 22, Department of Personnel Study

Section 35, page 16 lines 13 through 22 directs a joint study conducted by the Office of Financial Management, the Department of Personnel, and the Department of Transportation. This study would determine if personnel training, education, recruitment, and retention services rendered to the Department of Transportation by the Department of Personnel are sufficient. A comprehensive evaluation of the Department of Personnel has already been initiated with the findings incorporated in the Work Force 2000 report. This legislation duplicates that ongoing evaluation of personnel services by the Office of Financial Management and the Department of Personnel. For several years, my executive request legislation proposing solutions to improving the personnel system has been ignored by the Legislature.

No funding for this study has been provided in either the transportation or operating budgets. I continue my commitment to an overall statewide solution and will direct the Office of Financial Management and Department of Personnel to attempt, to the extent possible within existing resources, to resolve the problems which have been identified.

Section 36(1), page 17, lines 12 through 15, the sentence beginning with the word "Upon" and ending with "implementation." Amtrak Service Improvements

When the transportation revenue bill was developed, there was an agreement that the transit residual was to be left in reserve until a review of priorities and efficiencies were completed. Specifically, the review included the following studies: (1) Programming a Prioritization Study; (2) Cost Responsibility Study; (3) Public Transportation Study. Further, it was envisioned that the results of the Growth Strategy Commission recommendations would be integrated into a multi-modal approach to transportation. The appropriations of the Transportation Fund contained in this section violate this agreement.

Section 36(1) gives the Legislative Transportation Committee the authority to require the Department of Transportation to submit to the committee a program to improve Amtrak service in Washington and to withhold expenditure of funds for program implementation until approval by the Legislative Transportation Committee.

In addition to violating the agreement regarding use of the Transportation Fund, I am vetoing this item because it is an inappropriate application of executive power by the Legislative Transportation Committee. It is inappropriate for the Legislature to delegate to a single committee the authority to adopt or reject a new program and allow it to exercise a legislative veto of these expenditures. Further, this would occur without opportunity for executive review or veto. Clearly, the Legislature and specific committees may require consultation in which clarification of legislative intent can be achieved, but it may not provide the discretion that combines both legislative and executive powers. To do so violates the concept of separation of powers.

Section 45, page 26, Revolving Funds

Section 45 requires that the Legislative Transportation Committee give prior approval for expenditures above what is "assumed" to be included in the transportation budget for services provided through revolving funds to the Washington State Patrol and the Department of Licensing. These services include those provided by the Department of Personnel, tort claim administrative costs and other legal costs, and audit services. This provision oversteps the boundary of legislative authority and would effectively create a legislative veto.

Section 54, pages 31 through 35, Information Technology Projects

Section 54 establishes significant additional requirements for agency information technology projects and increases agency workload without reducing existing reporting and planning requirements. The requirements for planning and reporting that would be established by the proviso overrule the existing process. These additional requirements do not improve the likelihood of project success. The proviso also has the result of establishing different standards for information projects in agencies receiving transportation funding from the standards applied to other agencies, which would increase the difficulty of establishing statewide information sharing. The proviso impinges upon the statutory responsibilities of the Office of Financial Management to conduct the budget process by interposing the Legislative Transportation Committee between an agency budget request and the Office of Financial Management. The establishment of a process by which a legislative committee encroaches upon the budgetary responsibilities of the executive branch is unacceptable.

Section 55, page 35 Growth Management Coordination

Section 55 requires the Department of Transportation to "...identify and coordinate all growth management functions." It further states that "Such functions shall cease to exist on June 30, 1995." This language is vague and the intent unclear.

Section 56, pages 35 and 36, Attorney General Tort Claims

Section 56 subsection (6) contains language that requires the Attorney General to submit in a yearly report to the Legislative Transportation Committee a summary of all settlement offers made by the parties where a verdict is rendered against the state. This provision makes the settlement offers public information. This provides a road map to the state's negotiating strategy which puts the state at a disadvantage against claimant's attorneys. While those who have legitimate tort claims against the state are entitled to reasonable compensation, the state also has an obligation to settle claims without unnecessary and unjustified costs to the taxpayers of the state.

The Attorney General's office has requested a veto of this section based on the concern noted above. The Attorney General's office has also stated its willingness to provide the Committee with a yearly report covering the elements in subsections (1) through (5) and, if additional resources are provided, cost data as specified in subsection (7).

Section 57(2), page 37, State Patrol Headquarters Design

This subsection is unnecessary because funding for this project is included in Engrossed Substitute House Bill No. 1427.

Section 58, page 39, Transportation Salary Increases

This section duplicates the language contained in Section 712(4) of Engrossed Substitute House Bill No. 1330. Unlike the provision in the operating budget, this section contains no funding.

Section 59, page 39 and 40, State Patrol Equipment Account

Section 59 would establish a State Patrol Equipment Account to finance and acquire equipment used for State Patrol highway-related purposes. In this account, users would be charged for depreciation and use of the equipment. The bill would also require the patrol to report to the Legislative Transportation Committee and the Office of Financial Management the kinds of equipment and the replacement schedules to be included in the account and financing alternatives.

Because the critical definitions are not established, this mechanism could result in increased user-fees in advance of a full understanding of the implications to users. These issues need to be worked out before changing state statutes.

Section 67, page 44, line 28 beginning with the word "For" through page 45, line 8 ending with the word "committee." High Occupancy Vehicle Requirement

Section 67 requires two persons as the minimum number of occupants per vehicle for HOV lane use on limited access freeways unless operating conditions in the lane fall below level of service "C" during peak hours over 12 continuous months. The current definition of carpools allowed to use HOV lanes is determined by evaluation of operating conditions. The definition and evaluation are appropriately performed by the Department of Transportation. The public is better served by allowing the Department of Transportation to retain flexibility in this area.

With the exception of sections 35, page 16, lines 13 through 22, 36(1), page 17, lines 12 through 15 beginning with the word "Upon" and ending with "implementation," 45, 54, 55, 56, 57(2), 58, 59, and section 67, page 44, line 28 beginning with the word "For" through page 45, line 8 ending with the word "committee" Engrossed Substitute House Bill No. 1231 is approved.

Respectfully submitted,
Booth Gardner, Governor.

June 30, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 126(1), (2), (4), 128(3), 148, lines 1 through 4, 201(3)(b), (c), (f), 202(14), 203(1)(b), 205(1)(a), (1)(b), (2)(a), (2)(c), 206, 212(2), 213(11), (12), 215(1), 216(6), (12), 219(4), 220(26), 227(3), 232(1), (4), (5), (8), (9), (10), (11), (12), 303(10), (17), 308(2), (5), (6), (10), 312(4), 313(7), 315(6), 402(1), 516(6), 517(13)(a), (20), 601(2), (5), (8), 905, 906, 907(5), and section 908 of Engrossed Substitute House Bill No. 1330, entitled:

"AN ACT Relating to fiscal matters; making appropriations and authorized expenditures for the operations of state agencies for the fiscal biennium beginning July 1, 1991, and ending June 30, 1993."

My reasons for vetoing these sections are as follows:

Section 126(1), page 11, Status of MWBE's Study

Subsection 1 requires the Office of Financial Management (OFM) to conduct, within the appropriations provided, a statewide study of the status of minority- and women-owned businesses. This subsection does not describe the intended uses of the study nor does it adequately define the scope of the study. Absent clearer direction regarding the scope of such a study and appropriations to support it, OFM cannot undertake this work.

Section 126(2), page 11, Commission on Student Learning

This subsection provides funding solely for costs related to the Commission on Student Learning. The education restructuring bill failed to pass the Legislature. However, during the 1991-93 Biennium the recently formed Governor's Council on Education Reform and Funding will require financial support which was not provided in this budget. It is important that the Office of Financial Management have flexibility in determining the relative priority of this task and the other ongoing work of OFM not supported by its appropriation.

Section 126(4), page 11, and section 128(3), page 12, Authorized FTE Positions

These subsections require the Office of Financial Management (OFM) and the Department of Personnel (DOP) to jointly reconcile the two agencies' lists of authorized FTE positions for each agency under the jurisdiction of the Department of Personnel, and report to the legislative fiscal committees by September 1, 1991. It is not clear what is meant by a "reconciliation" of lists of authorized FTE positions. OFM allocates and monitors the use of FTEs by agency, irrespective of the classes or percent of time for the positions that consume the FTEs. DOP, on the other hand, maintains the integrity of the classification system by ensuring that established positions are allocated to correct classes, that new positions are established in appropriated classes, and that classes that have become obsolete are removed from the system. There is no present expectation that DOP will have exactly one position established for each FTE consumed by an agency. I will ask that representatives from OFM and DOP meet with representatives from the fiscal committees to determine the intent of these subsections and satisfy that intent to the extent

that doing so is consistent with current practice and can be accommodated within budgetary constraints.

Section 148, lines 1 through 4, page 20, Cigarette Tax Enforcement

Lines 8 through 11 provide a portion of the Liquor Control Board appropriation for the purpose of implementing Senate Bill No. 5560 (cigarette tax enforcement). I have vetoed Senate Bill No. 5560, therefore, this language is moot. I will direct the Liquor Control Board to place \$2,847,000 in reserve.

The appropriations provided for the Department of Revenue in section 135 are adjusted downward \$742,000 on the assumption that Senate Bill No. 5560 would be enacted. Because the Department of Revenue must continue cigarette tax enforcement and the \$742,000 is the Department's minimal fixed cost for the activity, the Department will be required to reduce expenditures in other activities. This places stress on the Department's ability to generate the revenues needed to fund this budget. The Department, OFM, the Forecast Council, and my office will monitor the effects of this reduction carefully, and request corrective action if it becomes necessary.

Section 201(3)(b), page 23, Early Childhood Education and Assistance Program

Subsection 201(3)(b) provides \$6,200,000 from the federal child care and development block grant for the Early Childhood Education and Assistance Program (ECEAP) in the Department of Community Development. Federal statute and regulations governing these block grant funds set an amount to be spent for early childhood education services that appears to be approximately \$3,800,000. The remaining \$2,400,000 provided for ECEAP would have to meet all of the requirements in federal regulations for child care services which may be overly prescriptive for ECEAP. I am determined to ensure that ECEAP will be available for all eligible children and will, therefore, allow the transfer of \$3,800,000 to the Department of Community Development for ECEAP and direct the Department of Social and Health Services to allocate the \$2,400,000 according to priorities established in federal statute and regulations including ECEAP, if allowed.

Section 201(3)(c), page 23, Local Child Care Block Grants

Section 201(3)(c) provides \$4,901,000 from the federal child care and development block grant for block grants to communities for locally designated child care services. The Federal Block Grant Advisory Group I convened earlier this year also recommended that a portion of the federal block grant funds go towards this purpose. Since then, we have received interim federal regulations, which have set some very specific priorities for use of these block grant funds. While I continue to support the concept of local discretion, it is unclear that the federal regulations will allow this level of funding to be used for local block grants. Therefore, I am directing the Department of Social and Health Services to allocate these funds according to the priorities established in federal statute and regulations.

Section 201(3)(f), page 24, Resource and Referral Services

Section 201(3)(f) provides \$850,00 from the federal child care and development block grant for 50 percent matching grants to child care resource and referral programs. The proviso is overly prescriptive concerning what the resource and referral agencies must provide with these funds. Furthermore, it is unclear whether the 50 percent match requirement applies to an individual resource and referral agency or on a statewide basis. I am concerned that some distressed communities which need resource and referral services will be unable to meet the matching requirements as specified in this proviso. Therefore, I am directing the Department of Social and Health Services to use these funds for resource and referral purposes in a more flexible manner.

Section 202(14), page 28, Adoption Support Payment Prohibition

Section 202(14) prohibits the Department of Social and Health Services from continuing adoption support payments for children beyond the age of 18 years. I am vetoing this subsection for two reasons: it is not possible to discontinue existing agreements with adoptive parents and under some circumstances, it may be appropriate for the Department to continue adoption support payments.

Section 203(1)(b), page 29, Expand Option B Community Service

This subsection mandates \$1,501,000 for the Division of Juvenile Rehabilitation be expended solely for option B community services diversion. The expansion of community capacity is the backbone of the Division's ten-year plan and I fully support the concept and the funding incentives which drive its implementation. Even though the Department has been directed to aggressively pursue this option, the Division must retain flexibility in managing the offender population across a continuum of custody and treatment levels.

Section 205(1)(a), page 33, Developmental Disabilities Downsizing

Subsection 1(a) requires the Department of Social and Health Services (DSHS) to transfer at least 250 residents from the residential habilitation centers to community residential programs. By this action the Legislature is directing the agency to change its interpretation of the "Family Choice" statutes. To move this many clients with the funds provided appears very difficult and will require the Department to expedite placement planning. I am committed to good, safe, high quality placements for the developmentally disabled clients living at the institutions as well as in community settings.

Section 205(1)(b), page 33, Residential Services

Subsection 1(b) requires the Department of Social and Health Services to continue to contract with King County to administer community-based residential services. This contract, unique to King County, adds additional administrative expenses for both the state and the providers. The money provides a greater benefit if spent on the direct delivery of services to clients.

Section 205(2)(a), page 35, Temporary Staff

This subsection provides funds to the Department of Social and Health Services for costs related to hiring temporary staff at the residential habilitation centers. To ensure continued certification at these institutions, staff must be well-trained. To protect our investment in this training as well as ensure continued certification, some temporary staff may have to be made permanent. I am directing the Department to use temporary staff at the institutions to the maximum extent possible to the degree it does not risk continued federal certification of the residential habilitation centers. The agency will provide the appropriate committees of the Legislature with a thorough accounting of these funds as well as the status of the temporary and permanent staff employed at the residential habilitation centers.

Section 205(2)(c), page 35, Loss of Federal Financial Participation

Subsection 2(c) provides funds solely for residential habilitation center clients who risk causing the institutions to lose federal financial participation. I am directing the Department of Social and Health Services to use its discretion in how to best serve these residents and ensure continued federal certification. Any savings that may accrue as a result of these actions will be set aside and not be expended until reviewed and approved by the Office of Financial Management. The agency will notify the appropriate committees of the Legislature about the status of its efforts to maintain federal certification and how these funds have been expended.

Section 206, pages 36-37, Developmental Disabilities 10-Year Plan

This section provides funds for the Center for Disability Policy and Research of the University of Washington to complete a 10-year plan for the operation of state-funded services for the developmentally disabled. I feel strongly that this plan should be done, but it is the responsibility of the Department of Social and Health Services. I am directing the Department to develop this plan within their existing resources. In preparing this plan, I am directing the Department to involve representatives from community providers, institutional advocates, and other developmental disability advocacy groups.

Section 212(2), page 42, Intensive Inpatient Treatment Beds

The proviso language contained in this subsection is overly prescriptive in directing the Division of Alcohol and Substance Abuse to contract with a specific service provider. While I agree that additional adult intensive inpatient treatment beds may be needed in Pierce County, it is imperative that the Department of Social and Health Services be allowed to follow established administrative procedures in selecting and acquiring treatment resources. I will direct the Department to examine the treatment needs consistent with this proviso and act accordingly.

Section 213(11), page 45, Diabetic Services

Subsection 11 directs the Department of Social and Health Services to develop and put into effect medical assistance procedural codes and payment schedules for specific diabetic services. This proviso is unduly prescriptive in the limits it places on the Department's discretion to manage the medical

assistance program. The Department will pursue a review of diabetic services and will, on a case-by-case basis, determine the most cost-effective means of providing this care. These reviews will address the issue of whether, and when, in-home care as opposed to hospital care is appropriate. These actions will meet the intent of this subsection.

Section 213(12), page 45, Managed Care

This subsection requires the Department of Social and Health Services to increase total payments to managed care providers whenever the current rate is below the statewide average fee-for-service equivalent rate. The increased payments are to be made in the form of signing bonuses. No discretion is provided to the Department, it is simply mandated to increase rates uniformly for all managed care contractors. The cost of going from regional managed care rates with federal matching participation to the statewide average rate where the difference is all General Fund-State would be substantial and is not funded. Without the specific funding for this purpose, not only would the Department have to absorb this cost, but it would also lose the opportunity to gain federal matching funds. In making this veto, I am in no way implying a lessening of interest in managed health care. I am directing the Department to look for ways, within available funds, to promote equity and provide incentives to encourage current providers and new providers to participate to a greater degree in managed care programs.

Section 215(1), page 46, Local Impact Account

This subsection provides funds solely to mitigate the impact of state institutions on local communities. Rather than set aside these funds I am directing the Department of Social and Health Services to pay for these impacts as the bills are received.

Section 216(6), page 48, Evening and/or Weekend Service Hours

Subsection 6 requires the Department of Social and Health Services to deploy 20 percent of the local office staffing added for increased caseload to expand evening and/or weekend service hours. While the intent of this proviso is supported, it cannot be met without additional funding. The Community Services Administration program did not receive funding for a number of requirements it must meet in the 1991-93 Biennium. In addition to numerous policy reductions and an across-the-board 3 percent decrease, funding for outstationing of eligibility staff required by the federal Omnibus Reconciliation Act of 1990 was not provided. The cumulative effect of these unfunded requirements makes it impossible for the Department to meet the added requirements of this subsection.

Section 216(12), page 49, Grant Standard Increase

This subsection provisos funds for a grant standard increase in the Community Services Administration Program within the Department of Social and Health Services. The wording of the proviso addresses assistance programs while the funding is for additional staff associated with the increased caseload that comes with a grant standard increase. The wording is

misleading and is being vetoed to eliminate any possible discrepancy between the grant standard increase and staffing requirements in this program.

Section 219(4), pages 51-52, Study of Health Care Coverage

This subsection requires the Health Care Authority to conduct a study of health care coverage for retired and disabled state, local government, and public school employees. The study is to be completed by December 1, 1991. The study required is not funded and is too broad to be completed either by December 1, 1991, or by available staff.

Section 220(26), page 58, Grant Expenditure Notification

This subsection requires that the Department of Community Development notify the Legislature before reducing grants or contracts in assistance to units of government. While the Department will make every effort to adequately fund programs, this proviso unduly limits the agency's management prerogatives.

Section 227(3), page 64, Women, Infants, and Children Program

Subsection 227(3) purports to provide \$5,000,000 in General Fund-State specifically for enhancement of the Women, Infants, and Children (WIC) program. It is clear that the Department of Health is actually receiving only \$2,500,000 in additional General Fund-State authority. I am vetoing this subsection because we cannot provide \$5,000,000 General Fund-State for increased WIC services and I do not wish to mislead anyone into believing that the Department of Health has the available funding.

Section 232(1), page 68, Administration of Extended Unemployment Compensation Benefits

This subsection requires that the Employment Security Department (ESD) use \$1,278,000 of the Unemployment Compensation Administration Fund-Federal appropriation to perform several duties related to the administration of the extended benefits for timber workers set out in chapter 315, Laws of 1991 (Engrossed Substitute Senate Bill No. 5555). Use of this source of funds for purposes set out in sections 3, 5, and 9 of chapter 315 is inappropriate and would lead to adverse federal audit findings. Neither the extended benefits program or the delivery of services to timber workers are adversely affected by this veto.

Section 232(4), (5), (8), (9), and (10), pages 68-69, Administrative Contingency Fund

Subsections 2 through 10 direct the expenditure of \$7,829,000 of the Administrative Contingency Fund appropriation to specified purposes. Subsections 2, 3, 6, and 7 appropriate \$1,810,000 to essential elements of our state's assistance to timber-dependent communities and displaced timber workers. Funding of these four activities at the levels indicated is sufficiently important that I am letting these subsections stand. Because the total appropriation for this fund (page 67, line 21) of \$11,808,000 exceeds my understanding that only \$9,510,000 in revenue will be received by this fund,

however, I am vetoing subsections 4, 5, 8, 9, and 10 to increase the Employment Security Department's flexibility to absorb the \$2.3 million shortfall. Whereas it would have been necessary for ESD to make cuts averaging 71 percent in the \$5.3 million of nonprovisoed current level programs, these vetoes reduce the percentage cut which must be taken in the revised nonprovisoed base of \$11 million to 30 percent. I will require that ESD present its planned allocation of the unprovisoed balance to programs to me for my approval.

Section 232(11), pages 69-70, Administrative Contingency Fund

This subsection would require the Employment Security Department (ESD) to adhere to the program allocations specified in subsections 2 through 10 through all of Fiscal Year 1992. The Legislature would consider making up any revenue shortfall with supplemental appropriations for Fiscal Year 1993. In view of the fact that the appropriation for the Administrative Contingency Fund already exceeds estimated revenue by \$2.3 million, and to avoid the future consequences of spending more than is available in the short term, I must ask that less be expended in Fiscal Year 1992. My veto of subsections 4, 5, 8, 9, and 10 (see above), the veto of this subsection, and my earlier stated requirement that ESD submit a balanced expenditure plan to me for approval should ensure continuity in the delivery of services supported by this fund.

Section 232(12), page 70, Displaced Timber Worker Pilot Program

This subsection requires the Employment Security Department to make funds available from federal funds that have been received for a pilot program for dislocated timber worker training. The funds that would be used for this purpose have already been allocated to Service Delivery Areas, consistent with federal Department of Labor requirements. They are not available to implement a pilot program as specified in this subsection.

Section 303(10), page 75, Columbia Basin Irrigation Matching Funds

This subsection provides \$100,000 as state matching funds for the Columbia Basin Irrigation project. There are significant questions about the appropriateness, cost-effectiveness and economic justification for this project as a whole. Given the planning process currently underway, it would be inappropriate to support a large expansion of the Columbia River Reclamation project at this time.

Section 303(17), page 77, and Section 313(7), page 86, Wildlife Rehabilitation Center

Both of these subsections direct the Department of Wildlife to expend \$450,000 from the Coastal Protection Account for a marine mammal and bird rehabilitation center. Although the agencies support the concept and plan to develop such a center, this proviso conflicts with existing statute and fund obligations. Under RCW 90.48.142, expenditures from the Coastal Protection Account can only be authorized by a steering committee of natural resource agencies. In addition, the majority of funding available in the Coastal

Protection Account is derived from the settlement of the Nestucca Oil Spill. Although the settlement makes a provision for a rehabilitation center, only \$360,000 was designated for this purpose in the agreement. This proviso would be in conflict with the settlement agreement. Although I am vetoing these sections, the agencies will continue the development of a center.

Section 308(2), page 80, Washington Research Foundation

This subsection provides \$200,000 for the Washington Research Foundation. While I am supportive of encouraging greater commercialization of promising technologies developed in state research institutions, it is more appropriate that the Department of Trade and Economic Development contract directly with the appropriate university for services. If the university deems it appropriate, they may contract with the Washington Research Foundation.

Section 308(5), pages 80-81, Value Added Program

The language in this subsection is in conflict with the requirements stipulated in Engrossed Substitute House Bill No. 1341, timber-dependent communities. It provides for business contracts above the current level of expenditure, and unnecessarily restricts the flexibility of our highly successful value added program. I will require the Department of Trade and Economic Development to use a significant proportion of the funds for business contracts to promote value added manufacturing.

Section 308(6), page 81, Program Coordination

This subsection provides funding for coordination of the state timber response currently being done by the Governor's timber team. I will require that the Department of Trade and Economic Development enter into an interagency agreement with the Office of Financial Management (OFM). I am requiring OFM to expend these funds in compliance with Engrossed Substitute House Bill No. 1341. This appears to be a technical error.

Section 308(10), page 81, Grant Expenditure Notification

This subsection requires that the Department of Trade and Economic Development notify the Legislature before reducing grants or contracts in assistance to units of government. While the Department will make every effort to adequately fund programs, this proviso unduly limits the agency's management prerogatives.

Section 312(4), page 84, Coho Net Pens

This subsection provides \$785,000 in General Fund-State for increased coho salmon production through net pens and delayed release methods. While increasing the production of salmon is important, a project of this size is infeasible at this time. Further study is required to determine the role that such projects will have in artificial and natural production programs, to evaluate environmental consideration in siting net pens, and to ensure consistency with the Salmon 2000 Plan scheduled to be submitted to the Legislature in January 1992. Although I am vetoing the proviso, I am directing the Department of Fisheries to expend \$75,000 on developing a plan

for pen-rearing coho to be completed no later than July 1, 1992. The remaining funds will be placed in unallotted status until a specific plan for expenditures has been completed and submitted to the executive and the Legislature.

Section 315(6), page 91, Yakima Office - Livestock Marketing News

Subsection 6 directs that \$172,000 of the General Fund-State appropriation be maintained for this function out of the Yakima office. This proviso unreasonably restricts the Department from carrying out this function which will be maintained, as efficiently as possible, out of the Department's Olympia office. Furthermore, this provision would require the agency to reduce needed services in other areas due to other legislative cuts.

Section 402(1), page 93, Master License System

Subsection 402(1) requires that \$1,000,000 be transferred from nine state agencies to help fund the Department of Licensing's Master License System (MLS). No funding has been provided in any of the affected agencies budgets to fund this requirement. The appropriate role of fee support versus General Fund support for the Master License System has been a matter of controversy for several years. The time has come to resolve this matter. I believe the Master License System has proven itself to be a valuable service to business, greatly simplifying the time and effort required to meet the state's license, tax, and regulatory requirements. It is time for the Legislature to decide whether the MLS is a benefit to business worth additional fee support, a service provided by the state to business funded at least partially through the General Fund or not worth doing at all. In any case, requiring participating agencies to absorb the costs of the system is not an acceptable option.

Section 516(6), page 123, Drug Enforcement and Education Account

Subsection 6 provides \$10,300,000 to be provided to support school district substance abuse awareness programs. The funding is restricted in distribution to the same method used in the current biennium. Several districts, in a concentrated geographic region, received large grant amounts and other districts received no funding at all. By restricting the grants to the current districts, a true statewide impact on substance abuse education for our students cannot be achieved.

Section 517(13)(a), pages 126-127 Fair Start Program

Section 517(13)(a) requires that school districts and educational service districts receiving funding for early intervention and prevention services collaborate with regional support networks or counties for coordinated case management. Although this mandate is commendable, this language would require labeling of children before early intervention services could be offered. It would also preclude the purchase of services from some youth and family service agencies. Fair Start funds have provided schools the opportunity to assist children and their families before serious problems emerge. Children benefit from a variety of interventions, including, but not limited to approved mental health providers. Again, I commend the intent of this proviso, and

encourage continued collaboration between the schools and the mental health community.

Section 517(20), page 129, REACH for Excellence Program

Subsection 20 provides grant funding to local school districts to develop outcome-based educational programs and methods of assessing students' achievement. I am committed to a system that is performance oriented and emphasizes student results. However, it would be inefficient and a questionable policy to have this complex task undertaken by individual districts without benefit of state direction and technical assistance such as was envisioned in the education restructuring bill which failed to pass the Legislature. I will ask the Governor's Council on Education Reform and Funding to address these issues as part of its charge.

Section 601(2), page 136, HECB Recommendations on Expenditure Categories

This subsection requires the Higher Education Coordinating Board to define instructional support expenditures and indirect support expenditures, identify the rates of these expenditures in each higher education institution, and recommend guidelines for these categories of spending. This subsection is vetoed because it takes time from other important tasks assigned to the Higher Education Coordinating Board.

Section 601(5), page 140, Salary Increase Restrictions

This subsection prohibits salary increases over \$3,900 in 1992 and 1993 for any person in the higher education system with an annual salary over \$100,000. This subsection impedes recruitment and retention of qualified administrators and instructors and is therefore vetoed.

Section 601(8), page 142, Administrative Overhead

Subsection 601(8) stipulates that institutions of higher education shall not deduct more than 15 percent for administrative overhead from any amount received for services performed under an interagency contract new or renewed since June 30, 1990, unless a higher rate receives Office of Financial Management approval prior to execution of the agreement. This subsection conflicts with statutory law, RCW 39.34.130 and RCW 43.09.210, requiring state agencies to pay full costs for services performed on its behalf by other state agencies. I recommend the Office of Financial Management review administrative overhead cost recovery rates paid to institutions of higher education.

Section 905, pages 180-181, Publication Expenditures

Subsection 1 requires that all state publications be printed on recycled paper. I have already encouraged this practice and most state agencies actively support recycling efforts. However, universal access to recycled paper is not certain and some publications such as state maps cannot be reproduced on available quality paper. I prefer that state agencies have the flexibility to make the most cost effective choice in this matter without risking violation of the appropriations act.

Subsection 2, which requires recipient confirmation of their desire to be on a state mailing list, also makes a lot of sense from a broad policy perspective but could prove counterproductive in actual practice. Agencies may, for example, have a legal responsibility to provide information to specific clients, or find that surveying recipients poses additional costs.

Although I am vetoing this section in its entirety, I will instruct state agencies to initiate procedures which accomplish the general intentions of the Legislature.

Section 906, page 181, Personnel Recruitment

This section restricts agencies from obtaining outside assistance in filling vacancies except when granted a waiver by the Department of Personnel (DOP). Under this provision, agencies are encouraged to obtain these services from DOP. This provision is unreasonably restrictive. While the bill provides resources to DOP for doing executive searches, these are likely to be insufficient for the purpose intended. In any case, requiring waivers creates additional bureaucratic hurdles and represents an unacceptable incursion in the executive's authority. Finally, the Legislature failed to identify any criteria for granting waivers.

Section 907(5), pages 182-183, Limitations on Personal Service Contracts

I concur with strengthened management of the state's personal service contracting process embodied in this section. In fact I intend to go further in requiring executive agencies to provide information on all personal service contracts so that a complete database on activity in this area will be available.

Subsection 5 of section 907 requires the Office of Financial Management to ensure that statewide expenditures for personal service contracts in the 1991-93 allotments do not exceed personal service expenditures incurred during 1989-91. Object expenditures are dictated by specific budget policy decisions, not historical patterns. Personal service contracts tend to be project in nature and it would be arbitrary to stipulate that individual agency costs or statewide costs match the prior biennium.

In practical terms, this requirement could not be implemented until after the 1991-93 allotments were submitted since the Legislature does not appropriate at the object level of detail. This approach would require some executive-determined reduction to initial allotments if the statewide personal service contracts total exceeded 1989-91 estimates. The language also specifically includes judicial agencies over which the Governor has no allotment approval authority.

Section 908, pages 183-184, OFM Out-of-State Travel Expenditures

I support the concept of increased accountability for state employee travel and have recently issued tighter travel regulations requiring agency head approval for out-of-country travel, limiting overnight stays, increasing the personal accountability of all employees for their travel, and establishing centralized travel management practices. Section 908 creates another layer of reporting and approval requirements that are a cumbersome attempt at micro-management.

Since Subsection 1 applies to "executive branch" agencies, it could provide OFM with authority over statewide elected officials' delegation of travel approval authority. Subsection 2 requires that expenditures for out-of-state travel that involves five or more employees and more than \$1,000 per employee have prior approval of the Office of Financial Management (for executive agencies) or the agency head (for legislative and judicial agencies). Although I agree with the general policy of agency Director approval of certain out-of-state travel expenditures, I cannot accept a role for OFM that usurps the legal responsibility of agency directors and separately elected officials to make legitimate expenditures.

Subsection 3 requires agencies incurring out-of-state travel expenses for air transportation, for five or more persons, or in excess of \$500 per person, to report specific details of this travel to the Legislative Budget Committee on a quarterly basis.

It may be desirable to provide more visibility to certain levels of out-of-state travel, but there is also an administrative burden that is created by having to report detailed information about most trips. The cost to universities and other agencies that necessarily engage in out-of-state travel does not appear justified by the benefits.

With the exceptions of sections 126(1), (2), (4), 128(3), 148, lines 1 through 4, 201(3)(b), (c), (f), 202(14), 203(1)(b), 205(1)(a), (1)(b), (2)(a), (2)(c), 206, 212(2), 213(11), (12), 215(1), 216(6), (12), 219(4), 220(26), 227(3), 232(1), (4), (5), (8), (9), (10), (11), (12), 303(10), (17), 308(2), (5), (6), (10), 312(4), 313(7), 315(6), 402(1), 516(6), 517(13)(a), (20), 601(2), (5), (8), 905, 906, 907(5), and section 908 Engrossed Substitute House Bill No. 1330 is approved.

Booth Gardner, Governor.

June 30, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 5, 6(3)(b), (4)(d), 15(4), 19(62), 20(5), 24(17) line 8, page 105, (18) line 25, page 105, (22), line 23, page 106, 30(9)(b)(c)(d)(e), and section 58 of Engrossed Substitute House Bill No. 1427, entitled:

"AN ACT Adopting the capital budget."

My reasons for vetoing these sections are as follows:

Section 5, page 7, Office of the Administrator for the Courts

Section 5 provides for the replacement of the heating-ventilation-air conditioning system in the Olympia eastside building. This building is leased by the state and therefore it would be inappropriate to use bond money to correct building deficiencies.

Section 6(3)(b), page 8 and page 9, Asbestos Removal or Abatement Projects

Subsection 3(b) provides funding to the Office of Financial Management to be allocated to agencies and institutions for asbestos removal or abatement projects with conditions and limitations. While I agree with the Legislature's concern that funding asbestos projects needs a statewide, comprehensive approach, this language is unduly restrictive and does not allow for emergency situations. The federal law requirement applies only to school districts through the Asbestos Hazard Emergency Response Act (AHERA) program and this provision may unduly impact those institutions such as Developmentally Disabled facilities that do not fall within the AHERA requirements. The requirements for evaluation of asbestos projects is more appropriately established through administrative rule.

Section 6(4)(d), page 10, Higher Education Branch Campuses Site Acquisition and Development (90-5-002)

Subsection 4 provides funding for the acquisition and development of sites for branch campuses with conditions and limitations. Subsection (d) requires that the appropriation not be expended for land in the Spokane area until an environmental study indicates the property is free of toxic substances. While I concur with the Legislature that property acquired by the state not contain substances which exceed state and federal toxic standards, it is unreasonable to establish a standard which prohibits the state from acquiring property until it is "totally" free of toxic substance, as such a certification may be impossible for any property.

Section 15(4), page 56, Garfield Barracks

This subsection directs the Office of Financial Management to report to the legislature on the costs of constructing, maintaining, and operating Garfield Barracks using federal Veterans' Affairs funds compared to the cost of using Medicaid Nursing Home funding. This subsection also indicates funds cannot be expended until the agency has sought Medicaid Certification for its existing facilities. The federal Veterans' Administration has indicated that federal funds will not be released for projects with these kinds of provisos. Additionally, to seek Medicaid Certification for the existing facilities before a study has been completed is inappropriate. I am directing the Department of Veterans' Affairs to complete the study of funding alternatives.

Section 19(62), page 89, Olmstead Park

This subsection provides for the revenues generated from the lease of state lands at the park to be used exclusively for the improvements of this park. This language is unduly prescriptive and limits the Commission's discretion in efficiently administering the state park system.

Section 20(5), page 91, Clear Creek Dam

This subsection provides funding to rebuild the Clear Creek Dam in Yakima County. Although this project has strong local interest, because the benefits from the project are purely local they do not justify state funding.

Given the limited nature of state capital dollars this project does not warrant a \$1.75 million commitment of state funds.

Section 24(17) line 8, page 105 (18), line 25, page 105, (22), line 23, page 106, Wildlife Reimbursable Bonds

These sections make appropriations for capital projects for the Department of Wildlife and are funded through reimbursable bonds backed by the State Wildlife Account. While use of such funding may be an acceptable policy, it cannot be decided without determining the future amount of General Fund which will be used to fund the Department. The Wildlife Department cannot commit to debt service until there is a resolution to provide sufficient General Fund financing for their operating budget. I am therefore vetoing the appropriations from the Wildlife Reimbursable Construction Account. The agency will scale back these capital projects and complete them to the extent possible within existing funds.

Section 30(9)(b)(c)(d)(e), page 127, Public School Building Construction

Section 30(9) provides funding for school construction subject to conditions. These conditions would effectively gut the log export restriction recently enacted by Congress and implemented by my office. I believe it is a cruel hoax to encourage the export of raw logs overseas at a time we are facing an extreme raw log shortage within our own state. Last month, a judge shut down virtually all new timber sales on Federal lands in Washington state. Consequently, the only supply of logs left for those federally dependent mills will be from state lands. This budget proviso attempts to take that supply away from these mills as well. If successfully implemented, this proviso would effectively snatch thousands of jobs from Washington forest products workers and send those jobs to Japan.

I am vetoing the proviso requiring the Department of Natural Resources to rewrite the rules adopted by my office to implement the state log export restriction. The rules currently in force prohibit the practice of substitution. Substitution is a practice carried out by the large landowning, log-exporting companies of exporting logs from their own lands overseas and then running the export restricted logs through their mills. This practice effectively negates the impact of the export restriction and results in the state subsidizing the big log-exporting companies.

The Department of Natural Resources opposes the substitution prohibition and has expressed a desire to write rules which would allow the big log exporting companies to buy export restricted state logs.

I am vetoing this proviso for three reasons: 1) An effective export restriction is needed during this time of log shortages. 2) Changing the rules will not save the common school construction fund money. It is a federal law which prohibits exports not the state rules. Gutting the rules will merely ensure that the beneficiaries of the law are the big log exporting companies rather than the small and medium sized domestic processors. 3) This proviso is not legal under Federal law. The Federal log export restriction gives the Governor or the legislature the authority to write rules implementing the federal log export restrictions. This federal authority can only be promulgated

by the passage of specific authorizing legislation or by an issuance of rules by the Governor. Budget provisos are not a substitute for either of these actions.

Section 58, page 194 and 195, Development Loan Fund

This section amends the development loan fund statute to make principal and interest payments to the fund appropriated. The state appropriation of funds with federal status will not allow the program to comply with federal regulations.

With the exception of sections 5, 6(3)(b), (4)(d), 15(4), 19(62), 20(5), 24(17), line 8, page 105, (18), line 25, page 105, (22), line 23, page 106, 30(9)(b)(c)(d)(e), and section 58 of Engrossed Substitute House Bill No. 1427 is approved.

Respectfully submitted,
Booth Gardner, Governor.

July 2, 1991

To the Honorable, the House
of Representatives of the
State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 2, House Bill No. 2214 entitled:

"AN ACT Relating to the municipal criminal justice assistance account."

This bill was intended to rectify an ambiguity resulting from a partial veto of Chapter 311, Laws of 1991. That measure defined criminal justice purposes and established a base year for supplanting provisions of the local criminal justice assistance provided by the Legislature in 1990. Section 3 of Chapter 311, Laws of 1991, contained the same language as sections 1 and 2 of this bill.

I vetoed section 3 because I believe it to be inappropriate to withhold critically needed criminal justice funds to effect an administrative agreement between two public entities. For these same reasons, I am vetoing section 2 of House Bill No. 2214.

With the exception of section 2, House Bill No. 2214 is approved.

Respectfully submitted,
Booth Gardner, Governor.
