(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

- (i) Credits earned since receiving the masters degree; and
- (ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

- (a) "BA" means a baccalaureate degree.
- (b) "MA" means a masters degree.
- (c) "PHD" means a doctorate degree.
- (d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.
- (e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

- (a) The employee has a masters degree; or
- (b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 2 and the salary schedules in subsection (4)(a) of this section include two learning improvement days. A school district is eligible for the learning improvement day funds only if the learning improvement days have been added to the 180- day contract year. If fewer days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be limited to specific activities identified in the state required school improvement plan related to improving student learning that are consistent with education reform implementation, and shall not be considered part of basic education. The principal in each school shall assure that the days are used to provide the necessary school- wide, all staff professional development that is tied directly to the school improvement plan. The school principal and the district superintendent shall maintain documentation as to their approval of these activities. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2) and subsection (7) of this section.

- (i) Special education students are basic education students first;
- (ii) As a class, special education students are entitled to the full basic education allocation; and
- (iii) Special education students are basic education students for the entire school day.

(b) The superintendent of public instruction shall adopt the full cost method of excess cost accounting, as designed by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006, and ensure that all school districts adopt the method beginning in the 2007-08 school year.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: (a) The first category includes (i) children birth through age two who are eligible for the optional program for special education eligible developmentally delayed infants and toddlers, and (ii) students eligible for the mandatory special education program and who are age three or four, or five and not yet enrolled in kindergarten; and (b) the second category includes students who are eligible for the mandatory special education program and who are age five and enrolled in kindergarten and students age six through 21.

(5)(a) For the 2007-08 and 2008-09 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, (~~(\$30,690,000)~~) \$53,926,000 of the general fund--state appropriation and \$29,574,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If the federal safety net awards based on the federal eligibility threshold exceed the (~~amount appropriated~~) federal appropriation in this subsection (8) in any fiscal year, the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards. In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state and federal revenues related to services for special education-eligible students. Awards associated with (b) and (c) of this subsection shall not exceed the total of a district's specific determination of need.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services. The safety net awards to school districts shall be adjusted to reflect amounts awarded under (b) of this subsection.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999. The state safety net oversight committee shall ensure that safety net documentation and awards are based on current medicaid revenue amounts.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) The office of the superintendent of public instruction shall review and streamline the application process to access safety net funds, provide technical assistance to school districts, and annually survey school districts regarding improvement to the process.

(12) A maximum of \$678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) A maximum of \$1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(14) \$50,000 of the general fund--state appropriation for fiscal year 2008, \$50,000 of the general fund--state appropriation for fiscal 2009, and \$100,000 of the general fund--federal appropriation shall be expended to support a special education ombudsman program within the office of superintendent of public instruction. The purpose of the program is to provide support to parents, guardians, educators, and students with disabilities. The program will provide information to help families and educators understand state laws, rules, and regulations, and access training and support, technical information services, and mediation services. The ombudsman program will provide data, information, and appropriate recommendations to the office of superintendent of public instruction, school districts, educational service districts, state need projects, and the parent and teacher information center. Within the appropriations in this section there is sufficient funding provided to also provide at least a half-time support staff position for the special education ombudsman program.

(15) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(16) A maximum of \$1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services.

(17) The superintendent, consistent with the new federal IDEA reauthorization, shall continue to educate school districts on how to implement a birth-to-three program and review the cost effectiveness and learning benefits of early intervention.

(18) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

(19) \$262,000 of the general fund--state appropriation for fiscal year 2008 and \$251,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for two additional full-time equivalent staff to support the work of the safety net committee and to provide training and support to districts applying for safety net awards.

WHEREAS, Helen Sommers can just as easily contrast alternative state pension funding methodologies as she can different geological eras -- in Spanish or English, no less; and

WHEREAS, Many generations of Washington students owe a debt of gratitude to Helen for her unwavering belief in the benefits of a good education; and

WHEREAS, Over her many years in the Legislature, various members have used many varying terms when describing their relationship with Helen including trepidation, intimidation, fear, love, but most often respect; and

WHEREAS, Helen has, when faced with being blamed for many things throughout her illustrious career, merely shrugged it off with the comment, "What's another stripe to a tiger"; and

WHEREAS, Woe be to the staff person who handed Helen a document without the pages numbered; and

WHEREAS, Helen, pound for pound, packs more power than any other person on campus--yet she remains a font of common sense; and

WHEREAS, Although the intricacies of pension law confound many public policy experts, her persistent dedication to the sometimes obscure principles of pension funding has ensured a stable, well-funded pension system for the taxpayers and public employees of the state; and

WHEREAS, Helen saw to the nutritional needs of her fellow appropriations committee members by pulling endless bags and boxes of Trader Joe's snacks out of her bottom drawer, thereby theoretically eliminating our need for a real dinner break; and

WHEREAS, The greatest joy for some members of her committee was to see her smile and watch her laugh at some of the worst jokes from the minority party; and

WHEREAS, Helen Sommers is the inspirational compost-turning champion of the 36th District; and

WHEREAS, Helen Sommers would never approve of a resolution honoring Helen Sommers; and

WHEREAS, Helen Sommers would ask that this resolution briefly conclude its remarks as there are a lot more bills to get through on today's agenda; and

WHEREAS, Helen has decided that 36 years of legislating is quite enough, thank you; and

WHEREAS, The Washington State Legislature will not be the same without her;

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives celebrate and commemorate the distinguished legislative, professional, and, most of all, personal career of Washington State Representative Helen Sommers; and

BE IT FURTHER RESOLVED, That copies of this resolution be immediately transmitted by the Chief Clerk of the House of Representatives to Washington State Representative Helen Sommers.

Representative Kessler moved the adoption of the resolution.

#### **SPEAKER'S PRIVILEGE**

Mr. Speaker: "On a personal level, I would like you to think about a couple of things. One is that about the time Helen started in the Legislature, I was a student at the University of Washington. Think about the numbers – 36 years of service, millions of our fellow Washingtonians have gone through higher education in this State. The greatest advocate higher education has had in this State has been Helen Sommers. I am a proud recipient of that great advocacy over the years having gone through the University of Washington myself. Thank you, Helen for all that great work. Millions owe you a debt of gratitude."

HOUSE RESOLUTION NO. 4717 was adopted.

**GOVERNOR'S VETO MESSAGES**

Sixtieth Legislature  
2008 Legislative Session

March 25, 2008

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 40,  
Fourth Substitute House Bill 1103 entitled:

"AN ACT Relating to health professions."

This bill ensures that all health care providers in  
Washington State are well-qualified by strengthening the  
state's standards for credentialing and disciplining providers.

Section 40 is an emergency clause. Fourth Substitute  
House Bill 1103 increases the authority of regulators to  
remove health care practitioners who pose a risk to the public  
but does not necessitate an emergency clause. An emergency  
clause is to be used where it is necessary for the immediate  
preservation of the public peace, health or safety or whenever  
it is essential for the support of state government. I do not  
believe that an emergency clause is needed.

For this reason, I have vetoed Section 40 of Fourth  
Substitute House Bill 1103.

With the exception of Section 40, Fourth Substitute  
House Bill 1103 is approved.

Respectfully submitted,  
Christine O. Gregoire

March 28, 2008

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 16,  
Third Substitute House Bill 1741 entitled:

"AN ACT Relating to the oral history program."

Sections 1 through 15 of this bill transfer the legislative  
portion of the Oral History Program, now called the  
Legislative Oral History Project, from the Office of the  
Secretary of State to the Legislature. The Secretary of State  
will continue to conduct and record histories of the  
Washington state executive and judicial branches, the state's  
congressional delegation, and other citizens who have  
participated in the political history of the state under a new  
program called the Washington State Legacy Project.

Section 16 would declare this act null and void if funding  
were not provided specifically for this measure in the omnibus  
appropriations act. The bill provides for funding for legislative  
oral history projects to come from proceeds from the  
Legislative Gift Center. The scope of oral history projects  
conducted can vary depending upon the resources available.

In order to preserve the policy in the bill, I am vetoing  
Section 16 to permit the bill to become law even if the money  
is removed from the budget.

For this reason, I have vetoed Section 16 of Third  
Substitute House Bill 1741.

With the exception of Section 16, Third Substitute House  
Bill 1741 is approved.

Respectfully submitted,  
Christine O. Gregoire

March 17, 2008

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 2,  
Engrossed Substitute House Bill 1865 entitled:

"AN ACT Relating to limiting the obligations of landlords  
under writs of restitution."

Section 2 is an emergency clause. An emergency clause  
is to be used where it is necessary for the immediate  
preservation of the public peace, health or safety or whenever  
it is necessary for the support of state government. Engrossed  
Substitute House Bill 1865 clarifies the rights and obligations  
of landlords and tenants, while including new rights for  
tenants. Consequently, I do not believe that an emergency  
clause is necessary.

For this reason, I have vetoed Section 2 of Engrossed  
Substitute House Bill 1865.

With the exception of Section 2, Engrossed Substitute  
House Bill 1865 is approved.

Respectfully submitted,  
Christine O. Gregoire

March 14, 2008

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval, Substitute House  
Bill 2496 entitled:

"AN ACT Relating to enhancing the mobility of certified  
public accountants."

This bill is a duplicate of Substitute Senate Bill 6604,  
which I am signing today. Substitute House Bill 2496 is  
therefore redundant.

For these reasons, I have vetoed Substitute House Bill  
2496 in its entirety.

Respectfully submitted,

Christine O. Gregoire

April 1, 2008

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 1 and Section 8, Engrossed Second Substitute House Bill 2647 entitled:

"AN ACT Relating to the children's safe products act."

Section 1 is an intent section that affirms the importance of regulating toxic chemicals in children's products. However, this section could be read to create obligations that are beyond what state government can deliver.

Section 8 requires the Department of Ecology to adopt a rule that identifies chemicals of high concern for children by January 1, 2010. This section is premature and preempts the process identified in Section 4. Section 4 directs the Department of Ecology to identify these chemicals and report to the Legislature on policy options for addressing the chemicals by January 1, 2009. The Legislature should have the benefit of this report before the state proceeds to rulemaking to impose additional reporting and testing requirements.

For these reasons, I have vetoed Section 1 and Section 8 of Engrossed Second Substitute House Bill 2647.

Without careful implementation, this bill could adversely affect the availability of safe toys in our state, including important educational toys. To address this concern, I will establish an advisory group to work with the Departments of Ecology and Health to make sure we implement the bill with common sense, and to work on needed legislative fixes for next session. I will ask both large and small toymakers and children's products retailers, children's health experts, and public interest representatives to work together on these tasks, and I will invite state legislators to participate.

Section 2 applies the new standards in this bill to all components found in children's car seats, beginning in July 2009. Limited testing to date shows that children's car seats will meet the standards in the bill, and most seats are made with few metal components. Nonetheless, we must be absolutely certain this bill will not reduce the safety of car seats. I will ask the advisory group to take a close look at this issue and recommend rules and changes in law as needed.

I will ask the group to look at standards for both the outer surface of toys and the inside of toys, and to consider the timelines needed for the industry to implement these new standards. I will ask them to develop recommendations for legislation to ensure safe products in a manner that is practical and achievable for the industry.

Section 3 of the bill could be misinterpreted to prohibit toys with internal electronic components. I believe the bill does not prohibit these internal components, and was not intended to do so. Therefore, I direct the Department of Ecology, working with the advisory group, to conduct expedited rulemaking this year to clarify the effect of the bill

accordingly.

Section 4 directs Ecology to develop a list of chemicals with potential adverse effects on children. The language in this section could result in a long list of chemicals, and future reporting requirements beyond those needed to ensure the safety of children's products. The department's fiscal analysis of the bill assumed no more than fifty chemicals would be identified, and the Legislature has funded their work accordingly. I ask the Department to focus on the highest priority chemicals, considering good science on the effects of chemicals on the health of children, and those chemicals likely to be found in children's products. The Department should rely on safety testing conducted in the European Union and California, to the extent they provide a reasonable assurance of safety, in order to help establish a degree of consistency for the industry.

Section 5 requires manufacturers to report on the chemicals found in their children's products. I have retained this portion of the bill, as a future tool for ensuring the safety of our children, as needed. By my veto of Section 8, as described above, I have removed the bill's 2010 deadline to begin mandatory reporting. This will give us time to review the extent of reporting, consider duplication with other testing currently done by the industry, and determine how to most efficiently implement these new requirements. It will also allow us to determine whether or not proprietary information should be reported and, if so, how we can ensure that protected trade secrets are not disclosed.

With the exception of Section 1 and Section 8, Engrossed Second Substitute House Bill 2647 is approved.

Respectfully submitted,  
Christine O. Gregoire

March 25, 2008

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 6 and 9, Engrossed Second Substitute House Bill 2668 entitled:

"AN ACT Relating to long-term care."

This bill includes the policy recommendations from the Governor's Long-Term Care Task Force designed to meet increased demands for long-term care that supports autonomy and self-determination in people's homes and in community settings rather than institutions.

Sections 6 and 9 were not funded by the legislature in the budget, and are therefore null and void pursuant to Section 15 of this bill. For these reasons, I have vetoed Sections 6 and 9 of Engrossed Second Substitute House Bill 2668.

With the exception of Sections 6 and 9, Engrossed Second Substitute House Bill 2668 is approved.

Respectfully submitted,  
Christine O. Gregoire

April 1, 2008

To the Honorable Speaker and Members,

House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 1, 3, 4 and 6, Substitute House Bill 2679 entitled:

"AN ACT Relating to improving educational outcomes for students in foster care."

This bill relates to projects to improve educational outcomes for students in foster care.

Section 1 creates a foster care program supervisor at the Puget Sound Educational Service District.

Section 3 directs the Puget Sound Educational Service District to create a grant program for school districts to improve stability and educational outcomes for students in foster care.

Section 4 directs the Children's Administration to fund two school district-based foster care recruitment pilots.

While it is important to provide services to students in foster care, these services should be informed by effective practice and formulated in a coordinated manner. In 2007, the Legislature created the Building Bridges grant program (HB 1573) which funds partnerships of schools, families, and communities to build a comprehensive dropout prevention, intervention and retrieval system. These grants will serve at-risk middle and high school students; targeted student populations include youth in foster care. The Children's Administration, in the Department of Social and Health Services, currently has educational advocacy coordinators. In addition, the supplemental budget enhances funding for the Children's Administration to provide Child Health Education and Tracking (CHET) screenings for all children who are in out-of-home care for 30 days or longer. Before new pilot programs are initiated, we need to evaluate the effectiveness of current programs and consider the best approach to coordinating services.

Section 6 of Substitute House Bill 2679 makes the act null and void if specific funding for this act is not provided in the omnibus appropriations act. The funding in the budget was specifically for Sections 1, 3, and 4. To retain the policies in Sections 2 and 5, this null and void section must be vetoed.

For these reasons, I am vetoing Sections 1, 3, 4, and 6 of Substitute House Bill 2679.

With the exception of Sections 1, 3, 4, and 6, Substitute House Bill 2679 is approved.

Respectfully submitted,  
Christine O. Gregoire

House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 103(14); 113(2); 114(2); 123(6); 123(12); 125(41); 125(62);

"AN ACT Relating to fiscal matters."

I am vetoing the following sections because I disagree with the overall policy or direction, or for technical reasons that include alignment with vetoed bills, or bills that did not pass, drafting errors, and conflicts with existing statutes.

Section 114(2), page 16, Office of the Governor, Implementation of SB 6313 (disability history)

Funds were added to implement Senate Bill 6313, but the bill does not add duties to the Office of the Governor.

Section 123(12), pages 26-27, Attorney General, SSB 6385 (real property)

This proviso funds implementation of Substitute Senate Bill 6385 pertaining to real property, and stipulates that the appropriation shall lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 125(84), page 48, Department of Community, Trade and Economic Development, Implementation of ESSB 5959 (Transitional Housing)

The proviso provides funds to administer the Transitional Housing Operating and Rent program if certain sections of Engrossed Substitute Senate Bill 5959 are enacted. The referenced sections were not included in the final version of the bill.

Section 127(11), page 52, Office of Financial Management, Implementation of E2SHB 2631 (Office of Regulatory Assistance)

This proviso funds the implementation of Engrossed Second Substitute House Bill 2631. The Legislature did not pass the bill.

Section 127(12), page 52, Office of Financial Management, Tracking I-960 Costs

The proviso requires the Office of Financial Management (OFM) to track all expenditures and FTE utilization in state government related to the responsibilities of Initiative 960, and to report to the fiscal committees of the Legislature by November 1, 2008. Although OFM is tracking its own expenditures, the majority of work in other agencies has already taken place so an additional expense of recreating records would be incurred throughout government.

Section 206(21), page 116, Department of Social and Health Services Aging and Adult Services, Long Term Care Worker Certification and Training

This proviso funds Engrossed Substitute House Bill 2693 relating to long-term care worker certification and training, and stipulates that the appropriation will lapse if the bill is not

enacted. The Legislature did not pass the bill.

Section 211, page 135, lines 30-35, Department of Social and Health Service Special Commitment Center Program, Commitment Center Calls

This proviso funds implementation of Substitute House Bill 2756, pertaining to commitment center calls, and stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 216, page 143, lines 20-27, Board of Industrial Insurance Appeals, E2SHB 3139 (industrial insurance benefits on appeal)

The proviso funds the Board of Industrial Insurance Appeals to implement Engrossed Second Substitute House Bill 3139. However, the proviso requires the funds be used solely for the payment of benefits. The Board of Industrial Insurance Appeals adjudicates appeals but does not pay benefits, so it will be unable to use these funds to implement the bill.

Section 218(19), page 151, Department of Labor and Industries, ESSB 5831 (HVAC and refrigeration)

The proviso funds the Department of Labor and Industries to implement Engrossed Substitute Senate Bill 5831. However, the final version of the bill requires no additional money.

Section 218(20), page 151, Department of Labor and Industries, E2SHB 3139 (industrial insurance benefits on appeal)

The proviso funds the Department of Labor and Industries to implement Engrossed Second Substitute House Bill 3139. However, the funds are from the appropriated accident and medical aid accounts and the proviso requires the funds be used solely for the payment of benefits. The appropriated accident and medical aid accounts are the administrative accounts the Department uses for its industrial insurance operations and not for the payment of benefits. Benefits are paid from the non-appropriated portion of the accident and medical aid funds, so the department will be unable to use the funds provided to implement the bill.

Section 222(53), pages 165-166, Department of Health, Long Term Care Worker Certification and Training

This proviso funds Engrossed Substitute House Bill 2693, relating to long-term care worker certification and training, and stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 224(1)(h), pages 168-169, Department of Corrections Administration and Support Services, Advisory Committee

This proviso requires the Department of Corrections to establish the offenders in families advisory committee. The Department currently has voluntary family committees at each institution, making this requirement unnecessary.

Section 224(1)(i), pages 169-170, Department of Corrections Administration and Support Services, McNeil Island Corrections Center Closure Evaluation

This proviso requires the Department of Corrections to study the costs and benefits of closing McNeil Island Corrections Complex, but no funding is provided.

Section 302(32), page 189, Department of Ecology, E2SHB 3186, Beach Management Districts

I have vetoed the portion of Engrossed Second Substitute House Bill 3186 that places new requirements on state agencies for technical assistance, coordination, monitoring and assessment. Therefore, the funds will not be needed.

Section 302(33), page 189, Department of Ecology, 2SHB 3227, Hood Canal Water Quality

This proviso funds implementation of Second Substitute House Bill 3227, pertaining to Hood Canal Water Quality. The Legislature did not pass this bill.

Section 302(37), page 190, Department of Ecology, E2SSB 6502, Release of Mercury

This proviso funds implementation of Engrossed Second Substitute Senate Bill 6502 pertaining to Release of Mercury, and stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 302(39), page 190, Department of Ecology, ESSB 6308, Climate Change Research, Preparation, and Adaptation

This proviso funds implementation of Engrossed Substitute Senate Bill 6308, pertaining to Climate Change Research, Preparation, and Adaptation, and stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 307(31), pages 204-205, Department of Fish and Wildlife, E2SHB 3186, Beach Management Districts

I have vetoed the portion of Engrossed Second Substitute House Bill 3186 that places new requirements on state agencies for technical assistance, coordination, monitoring and assessment. Therefore, the funding is not needed.

Section 307(32), page 205, Department of Fish and Wildlife, Damage to Livestock by Wildlife

This proviso requires the Department of Fish and Wildlife to compensate commercial livestock owners for damage caused by wildlife. While I appreciate the financial needs of livestock owners, the Department has no statutory authority to provide this type of compensation.

Section 307(44), pages 206-207, Department of Fish and Wildlife, SSB 6307, Puget Sound Marine Managed Areas

This proviso funds implementation of Substitute Senate Bill 6307 pertaining to Puget Sound Marine Managed Areas. It stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 308(27), page 213, Department of Natural Resources, E2SHB 3186, Beach Management Districts

I have vetoed the portion of Engrossed Second Substitute House Bill 3186 that places new requirements on state agencies for technical assistance, coordination, monitoring and assessment so the funding is not needed.

Section 311(5), page 218, Puget Sound Partnership, SSB 6307, Puget Sound Marine Managed Areas

This proviso funds implementation of Substitute Senate Bill 6307 pertaining to Puget Sound Marine Managed Areas. It stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 501(2)(a)(x), pages 235-236, Superintendent of Public Instruction, E2SHB 2712 (Criminal Street Gangs)

Engrossed Second Substitute House Bill 2712 pertaining to criminal street gangs does not include provisions requiring

the Office of the Superintendent of Public Instruction (OSPI) to create a brochure based on the recommendations of the task force on gangs. Therefore, OSPI does not need \$180,000 for development, translation, and printing of brochures.

Section 501(2)(c)(xvi), pages 239-240, Superintendent of Public Instruction, PSAT

This appropriation provides reimbursement to school districts for costs associated with offering the Preliminary Scholastic Aptitude Test (PSAT) to tenth grade students. While this test may provide students some information about their readiness for the SAT and college preparedness, it is a new approach that has not been tested in Washington. There are other efforts already under way, such as the mathematics college readiness assessment, which has shown promising results in Washington schools to influence students' course-taking decisions and preparedness for college-level work.

Section 501(2)(c)(xviii), page 240, Superintendent of Public Instruction, Dual Credit Workgroup

This proviso adds funding for the Office of Superintendent of Public Instruction (OSPI) to convene a multi-agency workgroup regarding statewide coordination of dual credit programs, such as Running Start and Advanced Placement. Because this is a fundamental responsibility of all agencies involved in dual credit programming, they do not require additional funding to conduct this planning and analysis. I am asking that OSPI, the State Board for Community and Technical Colleges, representatives from public four-year institutions of higher education, the Workforce Training and Education Coordinating Board, the Council of Presidents, and the Higher Education Coordinating Board work together, with input from local programs, to develop a statewide coordinated plan for dual credit programs.

Section 507(4), page 264, Superintendent of Public Instruction--Educational Service Districts, Reading Improvement Specialist, pursuant to E2SSB 6673 (Student Learning Opportunities)

This proviso adds \$876,000 for reading improvement specialists at the Educational Service Districts. Reading was an early focus for school improvement efforts. A number of programs and services continue to focus on improving reading achievement, such as Reading First federal grants; Reading Corps; and district-focused activities with federal Title I, state Learning Assistance Program, and other sources. The Office of the Superintendent of Public Instruction also has used federal Title II funds to provide targeted professional development in reading instruction for secondary schools.

Section 507(5), page 264, Superintendent of Public Instruction--Educational Service Districts, Outreach to Community-Based Organizations, pursuant to E2SSB 6673 (Student Learning Opportunities)

This proviso appropriates funds to Educational Service Districts to develop and provide a program of outreach to community-based programs and organizations that are serving non-English speaking segments of the population, as well as those programs that target groups of students that are struggling academically. This idea should be considered within the context of the studies, funded in other parts of this budget and due this December, that will analyze and make recommendations on how to close the achievement gap.

Section 511(46), page 285, Superintendent of Public Instruction--Education Reform, Career Opportunities pursuant

to E2SSB 6673 (student learning opportunities)

This proviso appropriates funding for a grant program to school districts to provide summer school funding for middle and high school students to explore career opportunities in math, science, and technology. Similar programs are already offered by school districts, skills centers and private organizations. One exciting opportunity initiated in 2006 is the Washington Aerospace Scholars, a statewide partnership through the Washington Aerospace Scholars Foundation with The Museum of Flight, schools, and business partners. The program gives high school students the opportunity to participate in hands-on engineering activities, tour facilities at Boeing, the University of Washington, Microsoft and Battelle, receive mentoring from astronauts, pilots, engineers and scientists, and conduct a project on Mars exploration.

Section 601(2), pages 296-297, Higher Education, Salary Increases at Institutions of Higher Education

There is a drafting error in this section, which could result in a policy change the Legislature did not consider.

Child Care for Students

Section 605(14), page 309, State Board for Community and Technical Colleges, and Section 613(9), page 343, Higher Education Coordinating Board

Substitute House Bill 2582 takes the first step toward the goal of expanding child care by laying out a new matching grant procedure and allowing student governments at each college to raise funds through private donations. However, expanding the combined two- and four-year programs from \$100,000 per year to .1 million per year should be evaluated in the biennial budget process when it can be reviewed in context with existing child care programs.

Section 605(23), page 311, State Board for Community and Technical Colleges, Adult Literacy Education

This proviso directs the State Board for Community and Technical Colleges to convene a one-day summit on adult literacy and to conduct a media campaign to inform citizens about the availability of adult literacy programs and services. The Board should consider making adult literacy a feature of its media campaigns and convening a summit to inform the public on the status of its adult literacy programs within existing appropriations.

Mental Health Staffing

Last year, I asked each higher education institution what campus safety issues were most important to them. We learned from national experts' recommendations following the Virginia Tech shooting. We learned more following the tragedy at Northern Illinois. My budget proposal funded critical equipment and technology to warn students at all campuses.

Instead, these provisos fund one mental health counselor for each institution, regardless of size. The community and technical colleges, home to the majority of our higher education enrollment, is excluded entirely. If an institution

determines that a mental health counselor is the best investment for the institution, it can direct its own resources to this program. As part of their work pursuant to Second Substitute House Bill 2507 and Substitute Senate Bill 6328, I ask each four-year institution and the State Board for Community and Technical Colleges to develop prioritized lists of possible investments and any legislation required to make student safety a priority in the 2009 Session.

Section 606(24), page 319, University of Washington, Biota Impacts from Low Dissolved Oxygen in Hood Canal

Since 2003, Congressman Norm Dicks has sounded the alarm about the health of Hood Canal, securing federal funding to study the low dissolved oxygen content in Hood Canal. This allowed the University of Washington (UW) to create the Hood Canal Dissolved Oxygen program, which investigates the causes of the problem and, along with the Puget Sound Partnership, attempts to find a solution. Given the extensive work under way by the Partnership and the UW, we need to ensure that all funding for this problem works together, and that we do not duplicate efforts.

Section 610(18), page 334, The Evergreen State College, Examine Data Gathered Through Sex Offender Address Verification Activities

The Washington Association of Sheriffs and Police Chiefs (WASPC) is overseeing a program to verify the address and residency of all registered sex offenders and kidnapping offenders. As part of this program, WASPC will collect performance data from all participating jurisdictions to evaluate the efficiency and effectiveness of the address and residency verification program. In addition, the Institute for Public Policy at The Evergreen State College was tasked with assessing the prevalence of sex offenders who register as homeless as a means to avoid disclosing their residence. This analysis can be completed by WASPC in its administration of the program and assessment of its effectiveness.

Section 612(8), page 340, Higher Education Coordinating Board, E2SHB 2783 (Education Transfer Articulation)

Engrossed Second Substitute House Bill 2783 creates work groups and outlines tasks to improve student credit transferability among community and technical colleges and four-year institutions of higher education. While this focuses on the right problems, efforts already exist at the Higher Education Coordinating Board (HECB) and State Board for Community and Technical Colleges (SBCTC) in this area. I am asking the agencies to continue their work to develop ways to inform students, in clear language, about the transfer process and to address barriers to student transfers, especially for those transferring from technical programs or career schools. I also ask the HECB, SBCTC, and Washington Student Lobby to present proposals on transfer issues to the P-20 Council. Finally, I also want the HECB and SBCTC to refine and combine their plans for a web-based advising system.

Section 612(9), page 340, Higher Education Coordinating Board, Prior Learning Work Group

A barrier to the smooth transition from work to post-secondary education and training is how institutions evaluate and give credit for prior learning. The Higher Education Coordinating Board, State Board for Community and Technical Colleges, and Workforce Training and Education Coordinating Board have been working on this issue for years, and the State Board's prior learning assessment guidelines for

colleges are an outgrowth of that work. I want these three agencies to continue working to ensure that prior learning is evaluated and utilized effectively at each campus, in each sector within existing resources.

Section 906, page 376, Washington State Gambling Commission, Gambling Revolving Fund

This section directs both the Gambling Commission and Office of Financial Management to address cash flow issues pursuant to RCW 43.88.050. However, the correct statutory reference is 43.88.260(2)(b).

Thoughtful choices and fiscal discipline are the keys to delivering what is most important to Washington's citizens. Saving money now will help Washington's students, families and seniors count on these investments being there for them in the future. A top priority for this budget must be maintaining a significant reserve. While the budget passed by the Legislature already left a notably high reserve of \$835 million, I have identified a number of items that, although valuable, are not essential to do right now. These are instances where there are additions to existing programs or new programs that are started that we may not be able to sustain. Vetoing these items now will help build an even bigger reserve, and has an important impact on future budgets. That is why I am vetoing:

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 1019, line 22; 1027; 1030; 1032; 1037; 3028 (5); and 3040, Engrossed Substitute House Bill 2765 entitled:

"AN ACT Relating to the capital budget."

Section 1019, page 27, line 22, Department of Community, Trade and Economic Development, Burley Mountain Lodge

This item is one of two appropriations for the same project. Because the Burley Mountain Lodge and the Cispus Environmental Learning Center are the same, I am vetoing the one referred to as Burley Mountain Lodge.

Section 1027, pages 36-37, Department of General Administration, Statewide Infrastructure: Preservation Minor Works

Infrastructure preservation is important for maintaining state facilities in good working order. This section reduces funding for these activities by \$100,000. This veto restores funding levels to the original amount in the underlying budget so that drainage, lighting, and benches can be repaired at Heritage Park.

Section 1030, page 38, Department of General Administration, Minor Works -- Infrastructure Preservation

This item reduces funding for infrastructure preservation by \$204,000. I am vetoing this section to restore funding so that Capitol Campus water and sewer projects and Cascades Gateway Center Campus sewer, water, and storm water projects can proceed.

Section 1032, page 39, Department of General Administration, Minor Works -- Program

This item reduces funding for infrastructure preservation

by \$110,000. I am vetoing this section so that Centennial Park sidewalks and the Interpretive Center restroom roof and interior tiles can be replaced.

Section 1037, page 42, Department of Personnel, Thurston County Childcare Needs Assessment -- Predesign

This item directs the Department of Personnel and Department of General Administration to do a predesign to determine childcare needs of state employees in Thurston County; existing licensed childcare capacity; preferred and alternate locations based on that need and capacity; optimum size of childcare space; and project costs for these locations. This work is to be completed by September 15, 2008. I am vetoing this section because this comprehensive analysis cannot be completed within this time frame with the resources provided.

Section 3028(5), page 68, Recreation and Conservation Funding Board, High Speed Watercraft Report

This proviso directs the Recreation and Conservation Funding Board to research hazards to the public from personal high-speed watercraft, such as jet skis, and to prepare a report with recommendations for increasing public enjoyment and safety when personal high-speed watercraft and other forms of motorized and non-motorized water recreation take place together. However, because funding for this research was not provided, I am vetoing this requirement.

Section 3040, pages 75-76, Department of Natural Resources, Recreation Capital Renovations

This proviso would – with a number of exceptions – prohibit the Department of Natural Resources from constructing or expanding facilities or trails for off-road recreation vehicles on state land until after June 30, 2009. I am vetoing this proviso because the Department of Natural Resources' planning process includes public input and considers all users and uses for recreation on state-managed lands. In keeping with Substitute House Bill 2472 that I signed, the Department of Natural Resources will also convene a workgroup to improve recreation on state-managed lands and promote safe, sustainable recreation. I will appoint a representative from my office to participate in this collaborative effort and am confident the group will examine funding mechanisms, liability, and site-specific planning issues.

For these reasons, I have vetoed Sections 1019, line 22; 1027; 1030; 1032; 1037; 3028 (5); and 3040 of Engrossed Substitute House Bill 2765.

With the exception of Sections 1019, line 22; 1027; 1030; 1032; 1037; 3028 (5); and 3040, Engrossed Substitute House Bill 2765 is approved.

Respectfully submitted,

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval, Engrossed Second Substitute House Bill 2783 entitled:

"AN ACT Relating to transfer and articulation between institutions of higher education."

Engrossed Second Substitute House Bill 2783 creates work groups and outlines tasks to improve student credit transferability among community and technical colleges and four-year institutions of higher education. In addition, a list of student rights is to be developed. While this legislation focuses on the right problems, efforts already exist at the Higher Education Coordinating Board (HECB) and the State Board for Community and Technical Colleges (SBCTC) in this area. I am concerned that setting up another work group may actually distract us from the work already underway.

To assure that all interested parties are aware of current efforts, I am taking the following actions. First, I am directing the HECB and the SBCTC to continue working on transfer issues through the Joint Access Oversight Group. I request that these agencies develop ways to inform students, in clear language, about the transfer process and the information they need to continue their educational careers. I also ask that the remaining barriers, especially for students transferring from technical programs or career schools be addressed.

Second, I am also directing the HECB and the SBCTC to refine and combine their plans for a web-based advising system. A single, unified proposal should review and build upon the Joint Access Oversight Group's focus group work, the SBCTC program plan, and other work.

I am also directing that the solution, products, and recommendations from the above efforts be presented to the P-20 Council. I am looking forward to this report.

For these reasons, I have vetoed Engrossed Second Substitute House Bill No. 2783 in its entirety.

Respectfully submitted,  
Christine O. Gregoire

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 4, House Bill 2835 entitled:

"AN ACT Relating to requiring federal name-based criminal history record checks when a child is placed in out-of-home care in an emergency situation."

Section 4 is an emergency clause providing the bill with an immediate effective date. The Federal Bureau of Investigation has notified the State that it will extend provisional access to its name/descriptor criminal background check database until this bill takes effect. An emergency clause is therefore unnecessary.

For this reason, I have vetoed Section 4 of House Bill 2835.

With the exception of Section 4, House Bill 2835 is

approved.

Respectfully submitted,  
Christine O. Gregoire

April 1, 2008

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 1, Engrossed Second Substitute House Bill 2844 entitled:

"AN ACT Relating to preventing air and water pollution through urban forestry partnerships."

Section 1 is an unnecessarily prescriptive and detailed intent section. For this reason, I have vetoed Section 1 of Engrossed Second Substitute House Bill 2844

I must note that the legislative budget only partially funds this bill. The Department of Community Trade and Economic Development (CTED) received funds for developing the Evergreen Communities grant program, model ordinances and plans. The Department of Natural Resources (DNR) is partially funded to provide CTED with technical expertise, to develop an urban forest inventory implementation plan, and to conduct two pilot inventories.

The highest priorities for these limited dollars are for DNR to (1) provide technical expertise to CTED and local governments, (2) develop the urban forest inventory implementation plan – focusing on the use of existing data and current inventory technologies, and (3) then to begin the pilot projects.

Conducting the community and urban forest inventories statewide is premature until DNR develops and tests an efficient inventory process. Funding for subsequent inventories should be considered as a separate policy decision in the future.

With the exception of Section 1, Engrossed Second Substitute House Bill 2844 is approved.

Respectfully submitted,  
Christine O. Gregoire

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 102(6), 206(6), 212(2), 224(12), 224(14), 306(16), 306(17), 407(12), and 602, Engrossed Substitute House Bill 2878 entitled:

"AN ACT Relating to transportation funding and appropriations."

Section 102(6), page 3, Office of Financial Management – Development of Future Budget Proposals

I share the Legislature's expectation that the Office of Financial Management will work with the Legislature so that

future budget proposals reflect criteria for performance excellence, include measures of earned value, and are aligned with the state's transportation goals. Even though I am vetoing Section 102(6), I direct the Office of Financial Management to continue its work with the Legislature and the state's transportation agencies to align budget proposals with the state's transportation goals and performance measure.

Section 206(6), page 10, Transportation Commission – Cost Reductions for Toll Operations

I appreciate the need to carefully control the costs associated with tolling so we will have efficient and effective tolling operations. Accountability regarding the use of toll revenue is essential. This proviso requires the Transportation Commission -- not the Department of Transportation -- to develop benchmarks and recommendations to reduce and control tolling operation costs. The Transportation Commission's role is to establish toll rates while the Department of Transportation's role is to evaluate and direct operations.

Although I am vetoing Section 206(6), the Office of Financial Management will work with the Department of Transportation, the Transportation Commission and others to evaluate toll operating costs on the Tacoma Narrows Bridge and SR 167 in comparison to other tolled facilities across the country to develop toll operating cost benchmarks. In addition, tolling operations issues will be examined in future Government Management Accountability & Performance sessions.

Section 212(2), page 18, Washington State Department of Transportation – Cost Reductions for Toll Operations

The proviso requires the Department of Transportation to develop incentives to reduce and control tolling operations costs, and to provide a report to the Transportation Commission. As a cabinet agency, the department is accountable to the Governor and it is not the role of the Transportation Commission to evaluate and direct the department's operations.

Although I am vetoing Section 212(2), the Department of Transportation will provide a report on incentives to reduce toll operating costs to the Office of Financial Management and the Legislature by December 1, 2008.

Section 224(12), pages 38-39, Washington State Department of Transportation -- Ferries -- Pilot Car Sharing Program in San Juan Islands

The proviso states that Washington State Ferries may investigate implementation of a car-sharing program in the San Juan Islands but also provides that Washington State Ferries shall submit a report to the Legislature by November 15, 2008. Because no funding is provided for the research and report, I am vetoing Section 224(12) but want the Department of Transportation's Commute Trip Reduction program to examine how a car-sharing program could work in the San Juan Islands.

Section 224(14), page 39, Washington State Department of Transportation – Ferries – Summer Schedule on Port Townsend/Keystone Route

The proviso includes an appropriation of \$357,000 for two additional sailings per day on the Port Townsend/Keystone route from May 19, 2008 to September 8, 2008. Unfortunately, these dates do not correspond with the

already established summer sailing schedule for the Washington State Ferries that runs from June 15 to September 20. As a result, this will add operating costs beyond the \$357,000 that is appropriated.

Although I am vetoing Section 224(14), the Department of Transportation and the Office of Financial Management will work with House and Senate Transportation Committee chairs to find options that fit within the amount of money provided and that also can meet the intent of the Legislature to provide additional service during the summer on this route.

Section 306(16), page 50, Transportation Account 2003 bond proceed appropriation

The proviso includes appropriation authority to spend up to \$825,000,000 in proceeds from the sale of 2003 nickel account bonds. Due to a technical error, this amount excluded the extra money the state gets from bond premiums which can limit the funds available to support important projects already underway. Therefore, I am vetoing this section so that the ending fund balance in the nickel account will not be adversely affected.

Section 306(17), page 50, Transportation Partnership Account 2003 bond proceed appropriation

Similar to section 306(16), this proviso includes appropriation authority to spend up to \$740,000,000 in proceeds from the sale of transportation partnership account bonds but this amount also excluded the bond premiums. Because this can adversely impact the ending fund balance in the transportation partnership account, I am vetoing this section.

Section 407(12), page 72, Administrative Transfer of Federal Funds

An administrative transfer of million in federal funds is made from the multimodal account-federal to the transportation infrastructure account-federal. The State Treasurer does not transfer federal funds within the Department of Transportation programs. Transfers of this sort are done internally at the Department of Transportation, so I am vetoing this section.

Section 602, page 76, Government Accounting Standards Board Asset Valuation

The Department of Transportation is already in full compliance with Government Accounting Standards Board (GASB) Statement 34 as it pertains to asset valuation of the state's highway systems, including the maintenance of an infrastructure asset inventory and regular assessments of the condition of assets. This critical information is already used to support strategic long-term investment decision-making in transportation capital project management and to set appropriate levels of asset maintenance and preservation.

Section 602 requires the Department to exceed the requirements of GASB 34 but does not provide additional funding. I vetoed similar language in 2005 and in 2007, and am vetoing this section.

For these reasons, I have vetoed Sections 102(6), 206(6), 212(2), 224(12), 224(14), 306(16), 306(17), 407(12), and 602 of Engrossed Substitute House Bill 2878.

With the exception of Sections 102(6), 206(6), 212(2), 224(12), 224(14), 306(16), 306(17), 407(12) and 602,

Engrossed Substitute House Bill 2878 is approved.

Respectfully submitted,  
Christine O. Gregoire

April 1, 2008

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 29 and 30, Engrossed Second Substitute House Bill 3186 entitled:

"AN ACT Relating to beach management districts."

This bill allows cities and counties to create Beach Management Districts, in order to raise funds for the improvement and maintenance of beaches with their boundaries.

Notwithstanding the existing authority provided to Lake Management Districts, Section 29 directs the Department of Ecology to provide technical assistance to Beach Management Districts in consultation with the Puget Sound Partnership. Since the Puget Sound Partnership is developing its first action agenda, the activities contemplated in Section 29 should be considered in relation to all other priorities for the clean up of Puget Sound.

Section 30 is a null and void clause and is unneeded.

For these reasons, I have vetoed Sections 29 and 30 of Engrossed Second Substitute House Bill 3186.

With the exception of Sections 29 and 30, Engrossed Second Substitute House Bill 3186 is approved.

Respectfully submitted,  
Christine O. Gregoire

March 31, 2008

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 18, Engrossed Second Substitute House Bill 3254 entitled:

"AN ACT Relating to accountability for persons driving under the influence of intoxicating liquor or drugs."

Prevention of driving under the influence (DUI) collisions is a priority of my administration. The Ignition Interlock Driver's License will further our state's efforts to prevent DUI related fatalities on our roadways. The use of ignition interlocks has been proven to reduce future incidents of DUI among individuals who have been required to have the devices installed in their cars. However, I am concerned about potential unintended consequences of Section 18.

Section 18 allows first time offenders to receive a deferred prosecution, even if they are found not to have a drug or alcohol addiction. Current law only allows for deferred prosecution if a person is assessed to have a drug or alcohol addiction and agrees to receive treatment for their addiction.

This section presents a change in public policy, which may well promote public safety, but I believe further review is necessary before making this change. Therefore, I am vetoing this section and encourage stakeholders to consider the merits of this change over the interim. I am also directing the Division of Alcohol and Substance Abuse to review the current treatment assessment process to make sure we are getting accurate assessments. I also want them to determine if alternatives to treatment such as the one proposed in Section 18 might be a more cost-effective approach to public safety in certain instances involving first time DUI offenders.

For these reasons, I have vetoed Section 18 of Engrossed Second Substitute House Bill 3254.

With the exception of Section 18 of Engrossed Second Substitute House Bill 3254 is approved.

Respectfully submitted,  
Christine O. Gregoire
