MOTION

Senator Tom moved that the following committee

amendment by the Committee on Ways & Means to the committee striking amendment by the Committee on Transportation be adopted.

Beginning on page 1, line 3 of the striking amendment, strike all material through page 20, line 10, and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 47.06B RCW to read as follows:

(1) In 2007, the legislature directed the joint transportation committee to conduct a study of special needs transportation to examine and evaluate the effectiveness of special needs transportation in the state. A particular goal of the study was to explore opportunities to enhance coordination of special needs transportation programs to ensure that they are delivered efficiently and result in improved access and increased mobility options for their clients. It is the intent of the legislature to further consider some of the recommendations, and to implement many of these recommendations in the form of two pilot projects that will test the potential for applying these recommendations statewide in the future.

(2) The legislature is aware that the department of social and health services submitted an application in December of 2008 to the federal centers for medicare and medicaid services, seeking approval to use the medical match system, a federal funding system that has different requirements from the federal administrative match system currently used by the department. It is the intent of the legislature to advance the goals of this act and the recommendations of the study identified in subsection (1) of this section without jeopardizing the application made by the department.

(3) By August 15, 2009, the agency council on coordinated transportation shall appoint a work group for the purpose of identifying relevant federal requirements related to special needs transportation, and identifying solutions to streamline the requirements and increase efficiencies in transportation services provided for persons with special transportation needs. To advance its purpose, the work group shall work with relevant federal representatives and agencies to identify and address various challenges and barriers.

(4) Membership of the work group must include, but not be limited to, one or more representatives from:

(a) The departments of transportation, veterans affairs, health, and social and health services;

(b) Medicaid nonemergency medical transportation brokers;

(c) Public transit agencies;

(d) Regional and metropolitan transportation planning organizations, including a representative of the regional transportation planning organization or organizations that provide staff support to the local coordinating coalition established under section 9 of this act;

(e) Indian tribes;

(f) The agency council on coordinated transportation;

(g) The local coordinating coalitions established under section 9 of this act; and

(h) The office of the superintendent of public instruction.

(5) The work group shall elect one or more of its members to service as chair or cochairs.

(6) The work group shall immediately contact representatives of the federal congressional delegation for Washington state and the relevant federal agencies and coordinating authorities including, but not limited to, the federal transit administration, the United States department of health and human services, and the interagency transportation coordinating council on access and mobility, and invite the federal representatives to work collaboratively to:

(a) Identify transportation definitions and terminology used in the various relevant state and federal programs, and establish consistent transportation definitions and terminology. For purposes of this subsection, relevant state definitions exclude

terminology that requires a medical determination, including whether a trip or service is medically necessary;

(b) Identify restrictions or barriers that preclude federal, state, and local agencies from sharing client lists or other client information, and make progress towards removing any restrictions or barriers;

(c) Identify relevant state and federal performance and cost reporting systems and requirements, and work towards establishing consistent and uniform performance and cost reporting systems and requirements; and

(d) Explore, subject to federal approval, opportunities to test cost allocation models, including the pilot projects established in section 11 of this act, that:

(i) Allow for cost sharing among public paratransit and medicaid nonemergency medical trips; and

(ii) Capture the value of medicaid trips provided by public transit agencies for which they are not currently reimbursed with a funding match by federal medicaid dollars.

(7) By December 1, 2009, the work group shall submit a report to the joint transportation committee that explains the progress made towards the goals of this section and identifies any necessary legislative action that must be taken to implement all the provisions of this section. A second progress report must be submitted to the joint transportation committee by June 1, 2010, and a final report must be submitted to the joint transportation committee by December 1, 2010.

NEW SECTION. **Sec. 2.** A new section is added to chapter 47.06B RCW to read as follows:

(1) By August 15, 2009, the agency council on coordinated transportation shall appoint a work group to consider certain recommendations resulting from the study identified in section 1(1) of this act. In conducting its analysis, the work group must consult with the appropriate federal agencies, including the federal transit administration, the United States department of health and human services, and the interagency transportation coordinating council on access and mobility.

(2) The work group must be chaired by a representative of the agency council on coordinated transportation, and members must include one or more representatives of:

(a) Regional and metropolitan planning organizations;

(b) Transit agencies;

(c) Brokerages providing nonemergency medical transportation services; and

(d) The department of social and health services.

(3) The work group may consider any recommendation resulting from the study identified in section 1(1) of this act, and shall specifically consider the study's recommendations regarding the procurement and designation of community access managers, including:

(a) The most appropriate agency to make those designations;

(b) The preferred geographic regions in which to establish community access managers;

(c) The duties and responsibilities of community access managers; and

(d) Any study recommendations that may interfere with the department's application as described in section 1(2) of this act, and potential solutions to those issues.

(4) The work group may also develop an alternative to the community access manager model proposed in the 2009 special needs transportation study recommendations, as described in section 1(1) of this act, as a recommendation to be considered by the joint transportation committee. Any proposed alternative model must build upon the work conducted in the pilot projects under section 11 of this act and the work completed in the 2009 study, and must be consistent with the goals of the 2009 study.

(5) Subject to available funds, the work group may consult with other agencies and organizations as needed.

(6) By December 1, 2009, the agency council on coordinated transportation shall submit a report to the joint

transportation committee describing the work group's findings and recommendations for implementing the study recommendations. If the work group finds that additional time is needed to complete its analysis, a second progress report must be submitted to the joint transportation committee by June 1, 2010.

Sec. 3. RCW 47.06B.010 and 2007 c 421 s 1 are each amended to read as follows:

The legislature finds that transportation systems for persons with special needs are not operated as efficiently as possible. In too many cases, programs established by the legislature to assist persons with special needs can not be accessed due to these inefficiencies and coordination barriers.

The legislature further finds that the transportation needs of each community are unique, and that transportation services may be improved by establishing a system of statewide oversight that seeks input, collaboration, and cooperation from and among all local service providers, including public agencies, private organizations, and community-based groups.

It is the intent of the legislature that public transportation agencies, pupil transportation programs, private nonprofit transportation providers, and other public agencies sponsoring programs that require transportation services coordinate those transportation services. Through coordination of transportation services, programs will achieve increased efficiencies and will be able to provide more rides to a greater number of persons with special needs.

Sec. 4. RCW 47.06B.020 and 2007 c 421 s 2 are each amended to read as follows:

(1) The agency council on coordinated transportation is created. The purpose of the council is to advance and improve accessibility to and coordination of special needs transportation services statewide. The council is composed of ~~((ten))~~ fourteen voting members and four nonvoting, legislative members.

(2) The ~~((ten))~~ fourteen voting members are the superintendent of public instruction or a designee, the secretary of transportation or a designee, the secretary of the department of social and health services or a designee, and ~~((seven))~~ eleven members appointed by the governor as follows:

(a) One representative from the office of the governor;

(b) Three persons who are consumers of special needs transportation services, which must include:

(i) One person designated by the executive director of the governor's committee on disability issues and employment; and

"**Sec. 1.** RCW 46.25.060 and 2007 c 418 s 1 are each amended to read as follows:

(1)(a) No person may be issued a commercial driver's license unless that person is a resident of this state, has successfully completed a course of instruction in the operation of a commercial motor vehicle that has been approved by the director or has been certified by an employer as having the skills and training necessary to operate a commercial motor vehicle safely, and has passed a knowledge and skills test for driving a commercial motor vehicle that complies with minimum federal standards established by federal regulation enumerated in 49 C.F.R. part 383, subparts G and H, and has satisfied all other requirements of the CMVSA in addition to other requirements imposed by state law or federal regulation. The tests must be prescribed and conducted by the department. In addition to the fee charged for issuance or renewal of any license, the applicant shall pay a fee of no more than ten dollars for each classified knowledge examination, classified endorsement knowledge examination, or any combination of classified license and endorsement knowledge examinations. The applicant shall pay a fee of no more than one hundred dollars for each classified skill examination or combination of classified skill examinations conducted by the department.

(b) The department may authorize a person, including an agency of this or another state, an employer, a private driver training facility, or other private institution, or a department, agency, or instrumentality of local government, to administer the skills test specified by this section under the following conditions:

(i) The test is the same which would otherwise be administered by the state;

(ii) The third party has entered into an agreement with the state that complies with the requirements of 49 C.F.R. part 383.75; and

(iii) The director has adopted rules as to the third party testing program and the development and justification for fees charged by any third party.

(c) If the applicant's primary use of a commercial driver's license is for any of the following, then the applicant shall pay a fee of no more than seventy-five dollars for each classified skill

examination or combination of classified skill examinations whether conducted by the department or a third-party tester:

(i) Public benefit not-for-profit corporations that are federally supported head start programs; or

(ii) Public benefit not-for-profit corporations that support early childhood education and assistance programs as described in RCW 43.215.405(4).

(2) The department shall work with the office of the superintendent of public instruction to develop modified P1 and P2 skill examinations that also include the skill examination components required to obtain an "S" endorsement. In no event may a new applicant for an "S" endorsement be required to take two separate examinations to obtain an "S" endorsement and either a P1 or P2 endorsement, unless that applicant is upgrading his or her existing commercial driver's license to include an "S" endorsement. The combined P1/S or P2/S skill examination must be offered to the applicant at the same cost as a regular P1 or P2 skill examination.

(3)(a) The department may waive the skills test and the requirement for completion of a course of instruction in the operation of a commercial motor vehicle specified in this section for a commercial driver's license applicant who meets the requirements of 49 C.F.R. part 383.77.

By January 1, 2010, the department shall submit recommendations regarding the continuance of this exemption to the transportation committees of the legislature. (ii) Agricultural inputs, such as seed, feed, fertilizer, and crop protection products;

(iii) Unprocessed agricultural commodities, as defined in RCW 17.21.020, where such commodities are produced by farmers, ranchers, vineyardists, or orchardists; or

(iv) Any combination of (b)(i) through (iii) of this subsection.

(4) A commercial driver's license or commercial driver's instruction permit may not be issued to a person while the person is subject to a disqualification from driving a commercial motor vehicle, or while the person's driver's license is suspended, revoked, or canceled in any state, nor may a commercial driver's license be issued to a person who has a commercial driver's license issued by any other state unless the person first surrenders all such licenses, which must be returned to the issuing state for cancellation.

(5)(a) The department may issue a commercial driver's instruction permit to an applicant who is at least eighteen years of age and holds a valid Washington state driver's license and who has submitted a proper application, passed the general knowledge examination required for issuance of a commercial driver's license under subsection (1) of this section, and paid the appropriate fee for the knowledge examination and an application fee of ten dollars.

(b) A commercial driver's instruction permit may not be issued for a period to exceed six months. Only one renewal or reissuance may be granted within a two-year period.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1002, by House Committee on Judiciary (originally sponsored by Representatives Appleton and Hasegawa)

Allowing a certificate of discharge to be issued when an existing order excludes or prohibits an offender from having contact with a specified person or business, or coming within a set distance of any specified location.

The measure was read the second time.

MOTION

Senator Regala moved that the following committee striking amendment by the Committee on Human Services & Corrections be adopted.

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** The legislature finds that restoration of the right to vote and serve on a jury, for individuals who have satisfied every other obligation of their sentence, best serves to reintegrate them into society, even if a no-contact order exists. Therefore, the legislature further finds clarification of the existing statute is desirable to provide clarity to the courts that a certificate of discharge shall be issued, while the no-contact order remains in effect, once other obligations are completed.

Sec. 2. RCW 9.94A.637 and 2007 c 171 s 1 are each amended to read as follows:

(1)(a) When an offender has completed all requirements of the sentence, including any and all legal financial obligations, and while under the custody and supervision of the department, the secretary or the secretary's designee shall notify the

sentencing court, which shall discharge the offender and provide the offender with a certificate of discharge by issuing the certificate to the offender in person or by mailing the certificate to the offender's last known address.

(b)(i) When an offender has reached the end of his or her supervision with the department and has completed all the requirements of the sentence except his or her legal financial obligations, the secretary's designee shall provide the county clerk with a notice that the offender has completed all nonfinancial requirements of the sentence.

(ii) When the department has provided the county clerk with notice that an offender has completed all the requirements of the sentence and the offender subsequently satisfies all legal financial obligations under the sentence, the county clerk shall notify the sentencing court, including the notice from the department, which shall discharge the offender and provide the offender with a certificate of discharge by issuing the certificate to the offender in person or by mailing the certificate to the offender's last known address.

(c) When an offender who is subject to requirements of the sentence in addition to the payment of legal financial obligations either is not subject to supervision by the department or does not complete the requirements while under supervision of the department, it is the offender's responsibility to provide the court with verification of the completion of the sentence conditions other than the payment of legal financial obligations. When the offender satisfies all legal financial obligations under the sentence, the county clerk shall notify the sentencing court that the legal financial obligations have been satisfied. When the court has received both notification from the clerk and adequate verification from the offender that the sentence requirements have been completed, the court shall discharge the offender and provide the offender with a certificate of discharge by issuing the certificate to the offender in person or by mailing the certificate to the offender's last known address.

(2)(a) For purposes of this subsection (2), a no-contact order is not a requirement of the offender's sentence. An offender who has completed all requirements of the sentence, including any and all legal financial obligations, is eligible for a certificate of discharge even if the offender has an existing no-contact order that excludes or prohibits the offender from having contact with a specified person or business or coming within a set distance of any specified location.

(b) In the case of an eligible offender who has a no-contact order as part of the judgment and sentence, the offender may petition the court to issue a certificate of discharge and a separate no-contact order by filing a petition in the sentencing court and paying the appropriate filing fee associated with the petition for the separate no-contact order. This filing fee does not apply to an offender seeking a certificate of discharge when the offender has a no-contact order separate from the judgment and sentence.

(i)(A) The court shall issue a certificate of discharge and a separate no-contact order under this subsection (2) if the court determines that the offender has completed all requirements of the sentence, including all legal financial obligations. The court shall reissue the no-contact order separately under a new civil cause number for the remaining term and under the same conditions as contained in the judgment and sentence.

(B) The clerk of the court shall send a copy of the new no-contact order to the individuals protected by the no-contact order, along with an explanation of the reason for the change, if there is an address available in the court file. If no address is available, the clerk of the court shall forward a copy of the order to the prosecutor, who shall send a copy of the no-contact order

NINETY-SECOND DAY, APRIL 13, 2009

2009 REGULAR SESSION

with an explanation of the reason for the change to the last known address of the protected individuals.

(ii) Whenever an order under this subsection (2) is issued, the clerk of the court shall forward a copy of the order to the appropriate law enforcement agency specified in the order on or before the next judicial day. The clerk shall also include a cover sheet that indicates the case number of the judgment and sentence that has been discharged. Upon receipt of the copy of the order and cover sheet, the law enforcement agency shall enter the order into any computer-based criminal intelligence information system available in this state used by law enforcement agencies to list outstanding warrants. The order shall remain in this system until it expires. The new order, and case number of the discharged judgment and sentence, shall be linked in the criminal intelligence information system for purposes of enforcing the no-contact order.

(iii) A separately issued no-contact order may be enforced under chapter 26.50 RCW.

(iv) A separate no-contact order issued under this subsection (2) is not a modification of the offender's sentence.

(3) Every signed certificate and order of discharge shall be filed with the county clerk of the sentencing county. In addition, the court shall send to the department a copy of every signed certificate and order of discharge for offender sentences under the authority of the department. The county clerk shall enter into a database maintained by the administrator for the courts the names of all felons who have been issued certificates of discharge, the date of discharge, and the date of conviction and offense.

~~((3))~~ (4) An offender who is not convicted of a violent offense or a sex offense and is sentenced to a term involving community supervision may be considered for a discharge of sentence by the sentencing court prior to the completion of community supervision, provided that the offender has completed at least one-half of the term of community supervision and has met all other sentence requirements.

~~((4) Except as provided in subsection (5) of this section,))~~

(5) The discharge shall have the effect of restoring all civil rights lost by operation of law upon conviction, and the certificate of discharge shall so state. Nothing in this section prohibits the use of an offender's prior record for purposes of determining sentences for later offenses as provided in this chapter. Nothing in this section affects or prevents use of the offender's prior conviction in a later criminal prosecution either as an element of an offense or for impeachment purposes. A certificate of discharge is not based on a finding of rehabilitation.

~~((5))~~ (6) Unless otherwise ordered by the sentencing court, a certificate of discharge shall not terminate the offender's obligation to comply with an order ~~((issued under chapter 10.99 RCW))~~ that excludes or prohibits the offender from having contact with a specified person or coming within a set distance of any specified location that was contained in the judgment and sentence. An offender who violates such an order after a certificate of discharge has been issued shall be subject to prosecution according to the chapter under which the order was originally issued.

~~((6))~~ (7) Upon release from custody, the offender may apply to the department for counseling and help in adjusting to the community. This voluntary help may be provided for up to one year following the release from custody.

Sec. 3. RCW 26.50.110 and 2007 c 173 s 2 are each amended to read as follows:

(1)(a) Whenever an order is granted under this chapter, chapter 7.90, 9.94A, 10.99, 26.09, 26.10, 26.26, or 74.34 RCW,

or there is a valid foreign protection order as defined in RCW 26.52.020, and the respondent or person to be restrained knows of the order, a violation of any of the following provisions of the order is a gross misdemeanor, except as provided in subsections (4) and (5) of this section:

(i) The restraint provisions prohibiting acts or threats of violence against, or stalking of, a protected party, or restraint provisions prohibiting contact with a protected party;

(ii) A provision excluding the person from a residence, workplace, school, or day care;

(iii) A provision prohibiting a person from knowingly coming within, or knowingly remaining within, a specified distance of a location; or

(iv) A provision of a foreign protection order specifically indicating that a violation will be a crime.

(b) Upon conviction, and in addition to any other penalties provided by law, the court may require that the respondent submit to electronic monitoring. The court shall specify who shall provide the electronic monitoring services, and the terms under which the monitoring shall be performed. The order also may include a requirement that the respondent pay the costs of the monitoring. The court shall consider the ability of the convicted person to pay for electronic monitoring.

(2) A peace officer shall arrest without a warrant and take into custody a person whom the peace officer has probable cause to believe has violated an order issued under this chapter, chapter 7.90, 9.94A, 10.99, 26.09, 26.10, 26.26, or 74.34 RCW, or a valid foreign protection order as defined in RCW 26.52.020, that restrains the person or excludes the person from a residence, workplace, school, or day care, or prohibits the person from knowingly coming within, or knowingly remaining within, a specified distance of a location, if the person restrained knows of the order. Presence of the order in the law enforcement computer-based criminal intelligence information system is not the only means of establishing knowledge of the order.

(3) A violation of an order issued under this chapter, chapter 7.90, 9.94A, 10.99, 26.09, 26.10, 26.26, or 74.34 RCW, or of a valid foreign protection order as defined in RCW 26.52.020, shall also constitute contempt of court, and is subject to the penalties prescribed by law.

(4) Any assault that is a violation of an order issued under this chapter, chapter 7.90, 9.94A, 10.99, 26.09, 26.10, 26.26, or 74.34 RCW, or of a valid foreign protection order as defined in RCW 26.52.020, and that does not amount to assault in the first or second degree under RCW 9A.36.011 or 9A.36.021 is a class C felony, and any conduct in violation of such an order that is reckless and creates a substantial risk of death or serious physical injury to another person is a class C felony.

(5) A violation of a court order issued under this chapter, chapter 7.90, 9.94A, 10.99, 26.09, 26.10, 26.26, or 74.34 RCW, or of a valid foreign protection order as defined in RCW 26.52.020, is a class C felony if the offender has at least two previous convictions for violating the provisions of an order issued under this chapter, chapter 7.90, 9.94A, 10.99, 26.09, 26.10, 26.26, or 74.34 RCW, or a valid foreign protection order as defined in RCW 26.52.020. The previous convictions may involve the same victim or other victims specifically protected by the orders the offender violated.

(6) Upon the filing of an affidavit by the petitioner or any peace officer alleging that the respondent has violated an order granted under this chapter, chapter 7.90, 9.94A, 10.99, 26.09, 26.10, 26.26, or 74.34 RCW, or a valid foreign protection order as defined in RCW 26.52.020, the court may issue an order to the respondent, requiring the respondent to appear and show

cause within fourteen days why the respondent should not be found in contempt of court and punished accordingly. The hearing may be held in the court of any county or municipality in which the petitioner or respondent temporarily or permanently resides at the time of the alleged violation.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1123, by House Committee on Health Care & Wellness (originally sponsored by Representatives Campbell, Morrell, Hunter, Pedersen, Chase, Ormsby, Simpson, Wood and Conway)

Reducing the spread of multidrug resistant organisms.

The measure was read the second time.

MOTION

Senator Keiser moved that the following committee striking amendment by the Committee on Health & Long-Term Care be adopted.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 70.41 RCW to read as follows:

(1) Each hospital licensed under this chapter shall, by January 1, 2010, adopt a policy regarding methicillin-resistant staphylococcus aureus. The policy shall, at a minimum, contain the following elements:

(a) A requirement to test any patient for methicillin-resistant staphylococcus aureus who is a member of a patient population identified as appropriate to test based on the hospital's risk assessment for methicillin-resistant staphylococcus aureus;

(b) A requirement that a patient in the hospital's adult or pediatric, but not neonatal, intensive care unit be tested for methicillin-resistant staphylococcus aureus within twenty-four hours of admission unless the patient has been previously tested during that hospital stay or has a known history of methicillin-resistant staphylococcus aureus;

(c) Appropriate procedures to help prevent patients who test positive for methicillin-resistant staphylococcus aureus from transmitting to other patients. For purposes of this subsection, "appropriate procedures" include, but are not limited to, isolation or cohorting of patients colonized or infected with methicillin-resistant staphylococcus aureus. In a hospital where patients, whose methicillin-resistant staphylococcus aureus status is either unknown or uncolonized, may be roomed with colonized or infected patients, patients must be notified they may be roomed with patients who have tested positive for methicillin-resistant staphylococcus aureus; and

(d) A requirement that every patient who has a methicillin-resistant staphylococcus aureus infection receive oral and written instructions regarding aftercare and precautions to prevent the spread of the infection to others.

(2) A hospital that has identified a hospitalized patient who has a diagnosis of methicillin-resistant staphylococcus aureus shall report the infection to the department using the department's comprehensive hospital abstract reporting system. When making its report, the hospital shall use codes used by the United States centers for medicare and medicaid services, when available.

Sec. 2. RCW 43.70.056 and 2007 c 261 s 2 are each amended to read as follows:

(1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Health care-associated infection" means a localized or systemic condition that results from adverse reaction to the presence of an infectious agent or its toxins and that was not present or incubating at the time of admission to the hospital.

(b) "Hospital" means a health care facility licensed under chapter 70.41 RCW.

(2)(a) A hospital shall collect data related to health care-associated infections as required under this subsection (2) on the following:

(i) Beginning July 1, 2008, central line-associated bloodstream infection in the intensive care unit;

(ii) Beginning January 1, 2009, ventilator-associated pneumonia; and

NINETY-SECOND DAY, APRIL 13, 2009

2009 REGULAR SESSION

(iii) Beginning January 1, 2010, surgical site infection for the following procedures:

(A) Deep sternal wound for cardiac surgery, including coronary artery bypass graft;

(B) Total hip and knee replacement surgery; and

(C) Hysterectomy, abdominal and vaginal.

(b) Until required otherwise under (c) of this subsection, a hospital must routinely collect and submit the data required to be collected under (a) of this subsection to the national healthcare safety network of the United States centers for disease control and prevention in accordance with national healthcare safety network definitions, methods, requirements, and procedures.

(c)(i) With respect to any of the health care-associated infection measures for which reporting is required under (a) of this subsection, the department must, by rule, require hospitals to collect and submit the data to the centers for medicare and medicaid services according to the definitions, methods, requirements, and procedures of the hospital compare program, or its successor, instead of to the national healthcare safety network, if the department determines that:

(A) The measure is available for reporting under the hospital compare program, or its successor, under substantially the same definition; and

(B) Reporting under this subsection (2)(c) will provide substantially the same information to the public.

(ii) If the department determines that reporting of a measure must be conducted under this subsection (2)(c), the department must adopt rules to implement such reporting. The department's rules must require reporting to the centers for medicare and medicaid services as soon as practicable, but not more than one hundred twenty days, after the centers for medicare and medicaid services allow hospitals to report the respective measure to the hospital compare program, or its successor. However, if the centers for medicare and medicaid services allow infection rates to be reported using the centers for disease control and prevention's national healthcare safety network, the department's rules must require reporting that reduces the burden of data reporting and minimizes changes that hospitals must make to accommodate requirements for reporting.

(d) Data collection and submission required under this subsection (2) must be overseen by a qualified individual with the appropriate level of skill and knowledge to oversee data collection and submission.

(e)(i) A hospital must release to the department, or grant the department access to, its hospital-specific information contained in the reports submitted under this subsection (2), as requested by the department.

(ii) The hospital reports obtained by the department under this subsection (2), and any of the information contained in them, are not subject to discovery by subpoena or admissible as evidence in a civil proceeding, and are not subject to public disclosure as provided in RCW 42.56.360.

(3) The department shall:

(a) Provide oversight of the health care-associated infection reporting program established in this section;

(b) By January 1, 2011, submit a report to the appropriate committees of the legislature based on the recommendations of the advisory committee established in subsection (5) of this section for additional reporting requirements related to health care-associated infections, considering the methodologies and practices of the United States centers for disease control and prevention, the centers for medicare and medicaid services, the joint commission, the national quality forum, the institute for healthcare improvement, and other relevant organizations;

(c) Delete, by rule, the reporting of categories that the department determines are no longer necessary to protect public health and safety;

(d) By December 1, 2009, and by each December 1st thereafter, prepare and publish a report on the department's web site that compares the health care-associated infection rates at individual hospitals in the state using the data reported in the previous calendar year pursuant to subsection (2) of this section. The department may update the reports quarterly. In developing a methodology for the report and determining its contents, the department shall consider the recommendations of the advisory committee established in subsection (5) of this section. The report is subject to the following:

(i) The report must disclose data in a format that does not release health information about any individual patient; and

(ii) The report must not include data if the department determines that a data set is too small or possesses other characteristics that make it otherwise unrepresentative of a hospital's particular ability to achieve a specific outcome; and

(e) Evaluate, on a regular basis, the quality and accuracy of health care-associated infection reporting required under subsection (2) of this section and the data collection, analysis, and reporting methodologies.

(4) The department may respond to requests for data and other information from the data required to be reported under subsection (2) of this section, at the requestor's expense, for special studies and analysis consistent with requirements for confidentiality of patient records.

(5)(a) The department shall establish an advisory committee which may include members representing infection control professionals and epidemiologists, licensed health care providers, nursing staff, organizations that represent health care providers and facilities, health maintenance organizations, health care payers and consumers, and the department. The advisory committee shall make recommendations to assist the department in carrying out its responsibilities under this section, including making recommendations on allowing a hospital to review and verify data to be released in the report and on excluding from the report selected data from certified critical access hospitals. Annually, beginning January 1, 2011, the advisory committee shall also make a recommendation to the department as to whether current science supports expanding presurgical screening for methicillin-resistant staphylococcus aureus prior to open chest cardiac, total hip, and total knee elective surgeries.

(b) In developing its recommendations, the advisory committee shall consider methodologies and practices related to health care-associated infections of the United States centers for disease control and prevention, the centers for medicare and medicaid services, the joint commission, the national quality forum, the institute for healthcare improvement, and other relevant organizations.

(6) The department shall adopt rules as necessary to carry out its responsibilities under this section.

NEW SECTION. Sec. 3. A new section is added to chapter 70.58 RCW to read as follows:

In completing a certificate of death in compliance with this chapter, a physician, physician assistant, or advanced registered nurse practitioner must note the presence of methicillin-resistant staphylococcus aureus, if it is a cause or contributing factor in the patient's death."

PERSONAL PRIVILEGE

Senator Schoesler: "Thank you Mr. President. It's come to my attention through a scientific process known as carbon dating that a senior member has a birthday today. It's believed that with this technology we now have found a member that was here at statehood, here at the repeal of prohibition and someone we all love dearly from the Fourth Legislative District. We know that he's truthful in his bio about his age unlike other senior members, and we'd like to wish Senator McCaslin a Happy Birthday today."

PERSONAL PRIVILEGE

Senator McCaslin: "Well, this is a scientist and you're way off on your carbon dating. My birthday is April, the 20th. Now, I expect a lot of accolades on the 20th of April. You the only other famous person, if I'm famous is Adolf Hitler and I'm serious about that. He was born April 20. Not the same year Mr. President. Could we hold all these congratulatory messages until my actual birthday?"

PERSONAL PRIVILEGE

Senator Schoesler: "My deepest apologies to the Senator from the Fourth District. I had my Mondays confused and I really hope he is here with us next Monday."

PERSONAL PRIVILEGE

Senator McCaslin: "I wish you'd smile once in awhile when I get up. You look like a previous President that frowned every time he saw me move. I just want to point out to the body that's not the only thing Senator Schoesler confused on."

PERSONAL PRIVILEGE

Senator Parlette: "Thank you Mr. President. Well, today is a birthday for somebody in my family. It happens to be my father's birthday and my dad is eighty-six years old today. So, I have to tell you a funny little story. First of all a little background, my father is a World War II Marine and September this year, September 3, will be married to my mother sixty-five years. Last week they just purchased their seasons pass for skiing at Mission Ridge for next year. I'm a very lucky person to have parents in such good health. But, here's something interesting that happened yesterday at church in Chelan. Of course, we honored my father for his eighty-sixth birthday but we also honored another gentleman who stood up because he happens to be ninety-seven years old today and he said to my father, whose nick name is Toad, 'You are just a whipper snapper.' So, to all those people in their eighties, including the good Senator from the Fourth District next week, you are all just whipper snappers."

 SECOND READING

2009 REGULAR SESSION

SECOND SUBSTITUTE HOUSE BILL NO. 2119, by House Committee on Ways & Means (originally sponsored by Representatives Wallace, Carlyle, Sullivan, Morrell, Quall, Santos and Ormsby)

Expanding dual credit opportunities.

The measure was read the second time.

MOTION

Senator McAuliffe moved that the following committee striking amendment by the Committee on Ways & Means be not adopted.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that the economy of the state of Washington requires a well-prepared workforce. To meet the need, more Washington students need to be prepared for postsecondary education and training. Further, the personal enrichment and success of Washington citizens increasingly relies on their ability to use the state's postsecondary education and training system. To accomplish those ends, the legislature desires to increase the number of students who begin earning college credits while still in high school.

(2) The legislature further finds that dual credit programs introduce students to college-level work, provide a jump start on getting a college degree, and, perhaps most importantly, show students that they can succeed in college. Dual credit programs also provide another avenue of student financial aid, since many programs are offered for little or no cost to students.

(3) The legislature also finds that students must be provided a choice when selecting a dual credit program that is right for them. Options should be available for the student who wants to learn on a college campus and the student who wants to stay at the high school and take college-level courses. Options must also be available for the hands-on learner who seeks to complete an apprenticeship program.

(4) The legislature intends to blur the line between high school and college by articulating a vision to dramatically increase participation in dual credit programs. It is for this reason that the legislature should call on all education stakeholders to come together to coordinate resources, track outcomes, and improve program availability.

(5) The legislature further intends to provide high schools, colleges, and universities with a set of tools for growing and coordinating dual credit programs. Institutions should be given some flexibility in determining the best methods to secure long-term, ample financial support for these programs, while students should be given some help in offsetting instructional costs.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.600 RCW to read as follows:

(1) The office of the superintendent of public instruction, in collaboration with the state board for community and technical colleges, the Washington state apprenticeship and training council, the workforce training and education coordinating board, the higher education coordinating board, and the public baccalaureate institutions, shall report by September 1, 2010, and annually thereafter to the education and higher education committees of the legislature regarding participation in dual credit programs. The report shall include:

(a) Data about student participation rates and academic performance including but not limited to running start, college

in the high school, tech prep, international baccalaureate, advanced placement, and running start for the trades;

(b) Data on the total unduplicated head count of students enrolled in at least one dual credit program course; and

(c) The percentage of students who enrolled in at least one dual credit program as percent of all students enrolled in grades nine through twelve.

(2) Data on student participation shall be disaggregated by race, ethnicity, gender, and receipt of free or reduced-price lunch.

NEW SECTION. Sec. 3. A new section is added to chapter 28A.600 RCW to read as follows:

(1) The superintendent of public instruction, the state board for community and technical colleges, the higher education coordinating board, and the public baccalaureate institutions shall jointly develop and each adopt rules governing the college in the high school program. The association of Washington school principals shall be consulted during the rules development. The rules shall be written to encourage the maximum use of the program and may not narrow or limit the enrollment options.

(2) College in the high school programs shall each be governed by a local contract between the district and the institution of higher education, in compliance with the guidelines adopted by the superintendent of public instruction, the state board for community and technical colleges, and the public baccalaureate institutions.

(3) The college in the high school program must include the provisions in this subsection.

(a) The high school and institution of higher education together shall define the criteria for student eligibility. The institution of higher education may charge tuition fees to participating students.

(b) School districts shall report no student for more than one full-time equivalent including college in the high school courses.

(c) The funds received by the institution of higher education may not be deemed tuition or operating fees and may be retained by the institution of higher education.

(d) Enrollment information on persons registered under this section must be maintained by the institution of higher education separately from other enrollment information and may not be included in official enrollment reports, nor may such persons be considered in any enrollment statistics that would affect higher education budgetary determinations.

(e) A school district must grant high school credit to a student enrolled in a program course if the student successfully completes the course. If no comparable course is offered by the school district, the school district superintendent shall determine how many credits to award for the course. The determination shall be made in writing before the student enrolls in the course. The credits shall be applied toward graduation requirements and subject area requirements. Evidence of successful completion of each program course shall be included in the student's secondary school records and transcript.

(f) An institution of higher education must grant college credit to a student enrolled in a program course if the student successfully completes the course. The college credit shall be applied toward general education requirements or major requirements. If no comparable course is offered by the college, the institution of higher education at which the teacher of the program course is employed shall determine how many credits to award for the course and whether the course fulfills general education or major requirements. Evidence of successful

NINETY-SECOND DAY, APRIL 13, 2009

completion of each program course must be included in the student's college transcript.

(g) Eleventh and twelfth grade students or students who have not yet received a high school diploma or its equivalent and are eligible to be in the eleventh or twelfth grades may participate in the college in the high school program.

(h) Participating school districts must provide general information about the college in the high school program to all students in grades ten, eleven, and twelve and to the parents and guardians of those students.

(i) Full-time and part-time faculty at institutions of higher education, including adjunct faculty, are eligible to teach program courses.

(4) The definitions in this subsection apply throughout this section.

(a) "Institution of higher education" has the meaning in RCW 28B.10.016 and also includes a public tribal college located in Washington and accredited by the Northwest commission on colleges and universities or another accrediting association recognized by the United States department of education.

(b) "Program course" means a college course offered in a high school under the college in the high school program.

NEW SECTION. Sec. 4. A new section is added to chapter 28A.600 RCW to read as follows:

The superintendent of public instruction and the higher education coordinating board shall develop advising guidelines to assure that students and parents understand that college credits earned in high school dual credit programs may impact eligibility for financial aid.

Sec. 5. RCW 28A.225.290 and 1990 1st ex.s. c 9 s 207 are each amended to read as follows:

(1) The superintendent of public instruction shall prepare and annually distribute an information booklet outlining parents' and guardians' enrollment options for their children.

(2) Before the 1991-92 school year, the booklet shall be distributed to all school districts by the office of the superintendent of public instruction. School districts shall have a copy of the information booklet available for public inspection at each school in the district, at the district office, and in public libraries.

(3) The booklet shall include:

(a) Information about enrollment options and program opportunities, including but not limited to programs in RCW 28A.225.220, 28A.185.040, 28A.225.200 through 28A.225.215, 28A.225.230 through 28A.225.250, ~~((28A.175.090,))~~ 28A.340.010 through 28A.340.070 (small high school cooperative projects), and 28A.335.160.

(b) Information about the running start ~~((community college or vocational-technical institute))~~ choice program under RCW 28A.600.300 through ~~((28A.600.395))~~ 28A.600.400; and

(c) Information about the seventh and eighth grade choice program under RCW 28A.230.090.

Sec. 6. RCW 28A.600.160 and 1998 c 225 s 2 are each amended to read as follows:

Any middle school, junior high school, or high school using educational pathways shall ensure that all participating students will continue to have access to the courses and instruction necessary to meet admission requirements at baccalaureate institutions. Students shall be allowed to enter the educational pathway of their choice. Before accepting a student into an educational pathway, the school shall inform the student's parent of the pathway chosen, the opportunities available to the student through the pathway, and the career objectives the student will have exposure to while pursuing the pathway. Parents and

students dissatisfied with the opportunities available through the selected educational pathway shall be provided with the opportunity to transfer the student to any other pathway provided in the school. Schools may not develop educational pathways that retain students in high school beyond the date they are eligible to graduate, and may not require students who transfer between pathways to complete pathway requirements beyond the date the student is eligible to graduate. Educational pathways may include, but are not limited to, programs such as ~~((work-based))~~ worksite learning, ~~((school-to-work transition))~~ internships, tech prep, ~~((vocational+))~~ career and technical education, running start, college in the high school, running start for the trades, and preparation for technical college, community college, or university education.

Sec. 7. RCW 28A.600.300 and 2005 c 207 s 5 are each amended to read as follows:

(1) The program established in this section through RCW 28A.600.400 shall be known as the running start program.

(2) For the purposes of RCW 28A.600.310 through 28A.600.400, "participating institution of higher education" or "institution of higher education" means:

~~((+))~~ (a) A community or technical college as defined in RCW 28B.50.030;

~~((+))~~ (b) A public tribal college located in Washington and accredited by the northwest commission on colleges and universities or another accrediting association recognized by the United States department of education; and

~~((+))~~ (c) Central Washington University, Eastern Washington University, Washington State University, and The Evergreen State College, if the institution's governing board decides to participate in the program in RCW 28A.600.310 through 28A.600.400.

Sec. 8. RCW 28A.600.310 and 2005 c 125 s 1 are each amended to read as follows:

(1) Eleventh and twelfth grade students or students who have not yet received the credits required for the award of a high school diploma and are eligible to be in the eleventh or twelfth grades may apply to a participating institution of higher education to enroll in courses or programs offered by the institution of higher education. A student receiving home-based instruction enrolling in a public high school for the sole purpose of participating in courses or programs offered by institutions of higher education shall not be counted by the school district in any required state or federal accountability reporting if the student's parents or guardians filed a declaration of intent to provide home-based instruction and the student received home-based instruction during the school year before the school year in which the student intends to participate in courses or programs offered by the institution of higher education. Students receiving home-based instruction under chapter 28A.200 RCW and students attending private schools approved under chapter 28A.195 RCW shall not be required to meet the student learning goals, obtain a certificate of academic achievement or a certificate of individual achievement to graduate from high school, or to master the essential academic learning requirements. However, students are eligible to enroll in courses or programs in participating universities only if the board of directors of the student's school district has decided to participate in the program. Participating institutions of higher education, in consultation with school districts, may establish admission standards for these students. If the institution of higher education accepts a secondary school pupil for enrollment under this section, the institution of higher education shall send written notice to the pupil and the pupil's school

district within ten days of acceptance. The notice shall indicate the course and hours of enrollment for that pupil.

(2) In lieu of tuition and fees, as defined in RCW 28B.15.020 and 28B.15.041, running start students shall pay to the community or technical college all other mandatory fees as established by each community or technical college; and all other institutions of higher education operating a running start program may charge technology fees. The fees charged shall be prorated based on credit load.

(3) The institutions of higher education must make available fee waivers for low-income running start students. Each institution must establish a written policy for the determination of low-income students before offering the fee waiver. A student shall be considered low income and eligible for a fee waiver upon proof that the student is currently qualified to receive free or reduced-price lunch. Acceptable documentation of low-income status may also include, but is not limited to, documentation that a student has been deemed eligible for free or reduced-price lunches in the last five years, or other criteria established in the institution's policy.

(4) The pupil's school district shall transmit to the institution of higher education an amount per each full-time equivalent college student at statewide uniform rates for vocational and nonvocational students. The superintendent of public instruction shall separately calculate and allocate moneys appropriated for basic education under RCW 28A.150.260 to school districts for purposes of making such payments and for granting school districts seven percent thereof to offset program related costs. The calculations and allocations shall be based upon the estimated statewide annual average per full-time equivalent high school student allocations under RCW 28A.150.260, excluding small high school enhancements, and applicable rules adopted under chapter 34.05 RCW. The superintendent of public instruction, the higher education coordinating board, and the state board for community and technical colleges shall consult on the calculation and distribution of the funds. ~~((The institution of higher education shall not require the pupil to pay any other fees.))~~ The funds received by the institution of higher education from the school district shall not be deemed tuition or operating fees and may be retained by the institution of higher education. A student enrolled under this subsection shall not be counted for the purpose of ~~((determining any))~~ meeting enrollment ~~((restrictions imposed by the state on the institution of higher education))~~ targets established in the omnibus appropriations act. However, such students may be counted for purposes of meeting enrollment targets established for the individual colleges by the state board for community and technical colleges."

On page 1, line 1 of the title, after "opportunities;" strike the remainder of the title and insert "amending RCW 28A.225.290, 28A.600.160, 28A.600.300, and 28A.600.310; adding new sections to chapter 28A.600 RCW; and creating a new section."

The President declared the question before the Senate to be the motion by Senator McAuliffe to not adopt the committee striking amendment by the Committee on Ways & Means to Second Substitute House Bill No. 2119.

The motion by Senator McAuliffe carried and the committee striking amendment was not adopted by voice vote.

A student receiving home-based instruction enrolling in a public high school for the sole purpose of participating in courses or programs offered by institutions of higher education shall not be counted by the school district in any required state or federal accountability reporting if the student's parents or guardians filed a declaration of intent to provide home-based instruction and the student received home-based instruction during the school year before the school year in which the student intends to participate in courses or programs offered by the institution of higher education. The fees charged shall be prorated based on credit load.

(3) The institutions of higher education must make available fee waivers for low-income running start students. Each institution must establish a written policy for the determination of low-income students before offering the fee waiver. A student shall be considered low income and eligible for a fee waiver upon proof that the student is currently qualified to receive free or reduced-price lunch. Such alternatives shall include but are not limited to student tuition, increased support from local school districts, and reallocation of existing state financial support among the community and technical college system to account for differential running start enrollment levels and impacts. (1) When real property is divided in accordance with chapter 58.17 RCW, the assessor shall carefully investigate and ascertain the true and fair value of each lot and assess each lot on that same basis, unless specifically provided otherwise by law. For purposes of this section, "lot" has the same definition as in RCW 58.17.020.

(a) For each lot on which an advance tax deposit has been paid in accordance with RCW 58.08.040, the assessor shall

establish the true and fair value by October 30th of the year following the recording of the plat, replat, or altered plat. The value established shall be the value of the lot as of January 1st of the year the original parcel of real property was last revalued. An additional property tax shall not be due on the land until the calendar year following the year for which the advance tax deposit was paid if the deposit was sufficient to pay the full amount of the taxes due on the property.

(b) For each lot on which an advance tax deposit has not been paid, the assessor shall establish the true and fair value not later than the calendar year following the recording of the plat, map, subdivision, or replat. For purposes of this section, "subdivision" means a division of land into two or more lots.

(c) For each subdivision, all current year and delinquent taxes and assessments on the entire tract must be paid in full in accordance with RCW 58.17.160 and 58.08.030 except when property is being acquired by a government for public use. (2) When the assessor is required by law to segregate any part or parts of real property, assessed before or after July 27, 1997, as one parcel or when the assessor is required by law to combine parcels of real property assessed before or after July 27, 1997, as two or more parcels, the assessor shall carefully investigate and ascertain the true and fair value of each part or parts of the real property and each combined parcel and assess each part or parts or each combined parcel on that same basis.

MOTION

Senator Swecker moved that the following amendment by Senators Swecker and Fairley to the committee striking amendment be adopted.

On page 9, after line 29 of the amendment, insert the following:

"Sec. 10. RCW 84.34.037 and 1992 c 69 s 6 are each amended to read as follows:

(1) Applications for classification or reclassification under RCW 84.34.020(1) shall be made to the county legislative authority. An application made for classification or reclassification of land under RCW 84.34.020(1) (b) and (c) which is in an area subject to a comprehensive plan shall be acted upon in the same manner in which an amendment to the comprehensive plan is processed. Application made for classification of land which is in an area not subject to a comprehensive plan shall be acted upon after a public hearing and after notice of the hearing shall have been given by one publication in a newspaper of general circulation in the area at least ten days before the hearing: PROVIDED, That applications for classification of land in an incorporated area shall be acted upon by: (a) A granting authority composed of three members of the county legislative body and three members of the city legislative body in which the land is located in a meeting where members may be physically absent but participating through telephonic connection; or (b) separate affirmative acts by both the county and city legislative bodies where both bodies affirm the entirety of an application without modification or both bodies affirm an application with identical modifications.

(2) In determining whether an application made for classification or reclassification under RCW 84.34.020(1) (b) and (c) should be approved or disapproved, the granting authority may take cognizance of the benefits to the general welfare of preserving the current use of the property which is the subject of application, and shall consider:

- (a) The resulting revenue loss or tax shift;
- (b) Whether granting the application for land applying under RCW 84.34.020(1)(b) will (i) conserve or enhance natural, cultural, or scenic resources, (ii) protect streams, stream corridors, wetlands, natural shorelines and aquifers, (iii) protect soil resources and unique or critical wildlife and native plant habitat, (iv) promote conservation principles by example or by offering educational opportunities, (v) enhance the value of abutting or neighboring parks, forests, wildlife preserves, nature reservations, sanctuaries, or other open spaces, (vi) enhance recreation opportunities, (vii) preserve historic and archaeological sites, (viii) preserve visual quality along highway, road, and street corridors or scenic vistas, (ix) affect any other factors relevant in weighing benefits to the general welfare of preserving the current use of the property; and
- (c) Whether granting the application for land applying under RCW 84.34.020(1)(c) will (i) either preserve land previously classified under RCW 84.34.020(2) or preserve land that is traditional farmland and not classified under chapter 84.33 or 84.34 RCW, (ii) preserve land with a potential for returning to commercial agriculture, and (iii) affect any other factors relevant in weighing benefits to the general welfare of preserving the current use of property.

(3) If a public benefit rating system is adopted under RCW 84.34.055, the county legislative authority shall rate property for which application for classification has been made under RCW 84.34.020(1) (b) and (c) according to the public benefit rating system in determining whether an application should be approved or disapproved, but when such a system is adopted, open space properties then classified under this chapter which do not qualify under the system shall not be removed from classification but may be rated according to the public benefit rating system.

(4) The granting authority may approve the application with respect to only part of the land which is the subject of the application. If any part of the application is denied, the applicant may withdraw the entire application. The granting authority in approving in part or whole an application for land classified or reclassified pursuant to RCW 84.34.020(1) may also require that certain conditions be met, including but not limited to the granting of easements. As a condition of granting open space classification, the legislative body may not require public access on land classified under RCW 84.34.020(1)(b)(iii) for the purpose of promoting conservation of wetlands.

(5) The granting or denial of the application for current use classification or reclassification is a legislative determination and shall be reviewable only for arbitrary and capricious actions.

Sec. 11. RCW 84.34.041 and 2002 c 315 s 2 are each amended to read as follows:

An application for current use classification or reclassification under RCW 84.34.020(3) shall be made to the county legislative authority.

(1) The application shall be made upon forms prepared by the department of revenue and supplied by the granting authority and shall include the following elements that constitute a timber management plan:

(a) A legal description of, or assessor's parcel numbers for, all land the applicant desires to be classified as timber land;

(b) The date or dates of acquisition of the land;

(c) A brief description of the timber on the land, or if the timber has been harvested, the owner's plan for restocking;

(d) Whether there is a forest management plan for the land;

(e) If so, the nature and extent of implementation of the plan;

(f) Whether the land is used for grazing;

(g) Whether the land has been subdivided or a plat filed with respect to the land;

(h) Whether the land and the applicant are in compliance with the restocking, forest management, fire protection, insect and disease control, weed control, and forest debris provisions of Title 76 RCW or applicable rules under Title 76 RCW;

(i) Whether the land is subject to forest fire protection assessments pursuant to RCW 76.04.610;

(j) Whether the land is subject to a lease, option, or other right that permits it to be used for a purpose other than growing and harvesting timber;

(k) A summary of the past experience and activity of the applicant in growing and harvesting timber;

(l) A summary of current and continuing activity of the applicant in growing and harvesting timber;

(m) A statement that the applicant is aware of the potential tax liability involved when the land ceases to be classified as timber land.

(2) An application made for classification of land under RCW 84.34.020(3) shall be acted upon after a public hearing and after notice of the hearing is given by one publication in a newspaper of general circulation in the area at least ten days before the hearing. Application for classification of land in an incorporated area shall be acted upon by: (a) A granting authority composed of three members of the county legislative body and three members of the city legislative body in which the land is located in a meeting where members may be physically absent but participating through telephonic connection; or (b) separate affirmative acts by both the county and city legislative bodies where both bodies affirm the entirety of an application without modification or both bodies affirm an application with identical modifications.

(3) The granting authority shall act upon the application with due regard to all relevant evidence and without any one or more items of evidence necessarily being determinative, except that the application may be denied for one of the following reasons, without regard to other items:

(a) The land does not contain a stand of timber as defined in chapter 76.09 RCW and applicable rules, except this reason shall not alone be sufficient to deny the application (i) if the land has been recently harvested or supports a growth of brush or noncommercial type timber, and the application includes a plan for restocking within three years or the longer period necessitated by unavailability of seed or seedlings, or (ii) if only isolated areas within the land do not meet minimum standards due to rock outcroppings, swamps, unproductive soil, or other natural conditions;

(b) The applicant, with respect to the land, has failed to comply with a final administrative or judicial order with respect to a violation of the restocking, forest management, fire protection, insect and disease control, weed control, and forest debris provisions of Title 76 RCW or applicable rules under Title 76 RCW;

(c) The land abuts a body of salt water and lies between the line of ordinary high tide and a line paralleling the ordinary high tide line and two hundred feet horizontally landward from the high tide line.

(4) The timber management plan must be filed with the county legislative authority either: (a) When an application for classification under this chapter is submitted; (b) when a sale or transfer of timber land occurs and a notice of continuance is signed; or (c) within sixty days of the date the application for reclassification under this chapter or from designated forest land is received. The application for reclassification shall be accepted, but shall not be processed until the timber management plan is received. If the timber management plan is not received within sixty days of the date the application for reclassification is received, the application for reclassification shall be denied.

If circumstances require it, the county assessor may allow in writing an extension of time for submitting a timber management plan when an application for classification or reclassification or notice of continuance is filed. When the assessor approves an extension of time for filing the timber management plan, the county legislative authority may delay processing an application until the timber management plan is received. If the timber management plan is not received by the date set by the assessor, the application or the notice of continuance shall be denied.

The granting authority may approve the application with respect to only part of the land that is described in the application, and if any part of the application is denied, the applicant may withdraw the entire application. The granting authority, in approving in part or whole an application for land classified pursuant to RCW 84.34.020(3), may also require that certain conditions be met.

Granting or denial of an application for current use classification is a legislative determination and shall be reviewable only for arbitrary and capricious actions. The granting authority may not require the granting of easements for land classified pursuant to RCW 84.34.020(3).

The granting authority shall approve or disapprove an application made under this section within six months following the date the application is received."

MOTION

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** (1) The legislature finds that many persons who are released from involuntary mental health treatment in an inpatient setting would benefit from an order for less restrictive treatment in order to provide the structure and support necessary to facilitate long-term stability and success in the community.

(2) The legislature intends to make it easier to renew orders for less restrictive treatment following a period of inpatient commitment in cases in which a person has been involuntarily committed more than once and is likely to benefit from a renewed order for less restrictive treatment.

(3) The legislature finds that public safety is enhanced when a designated mental health professional is able to file a petition

NINETY-SECOND DAY, APRIL 13, 2009

2009 REGULAR SESSION

to revoke an order for less restrictive treatment under RCW 71.05.340 before a person who is the subject of the petition becomes ill enough to present a likelihood of serious harm.

Sec. 2. RCW 71.05.320 and 2008 c 213 s 9 are each amended to read as follows:

(1) If the court or jury finds that grounds set forth in RCW 71.05.280 have been proven and that the best interests of the person or others will not be served by a less restrictive treatment which is an alternative to detention, the court shall remand him or her to the custody of the department or to a facility certified for ninety day treatment by the department for a further period of intensive treatment not to exceed ninety days from the date of judgment(~~(: PROVIDED, That (a))~~). If the grounds set forth in RCW 71.05.280(3) are the basis of commitment, then the period of treatment may be up to but not exceed one hundred eighty days from the date of judgment in a facility certified for one hundred eighty day treatment by the department.

~~((b) If the committed person has a developmental disability and has been determined incompetent pursuant to RCW 10.77.086(4), and the best interests of the person or others will not be served by a less restrictive treatment which is an alternative to detention, the court shall remand him or her to the custody of the department or to a facility certified for one hundred eighty-day treatment by the department. When appropriate and subject to available funds, treatment and training of such persons must be provided in a program specifically reserved for the treatment and training of persons with developmental disabilities. A person so committed shall receive habilitation services pursuant to an individualized service plan specifically developed to treat the behavior which was the subject of the criminal proceedings. The treatment program shall be administered by developmental disabilities professionals and others trained specifically in the needs of persons with developmental disabilities. The department may limit admissions to this specialized program in order to ensure that expenditures for services do not exceed amounts appropriated by the legislature and allocated by the department for such services. The department may establish admission priorities in the event that the number of eligible persons exceeds the limits set by the department. An order for treatment less restrictive than involuntary detention may include conditions, and if such conditions are not adhered to, the designated mental health professional or developmental disabilities professional may order the person apprehended under the terms and conditions of RCW 71.05.340.))~~

(2) If the court or jury finds that grounds set forth in RCW 71.05.280 have been proven, but finds that treatment less restrictive than detention will be in the best interest of the person or others, then the court shall remand him or her to the custody of the department or to a facility certified for ninety day treatment by the department or to a less restrictive alternative for a further period of less restrictive treatment not to exceed ninety days from the date of judgment(~~(: PROVIDED, That)~~). If the grounds set forth in RCW 71.05.280(3) are the basis of commitment, then the period of treatment may be up to but not exceed one hundred eighty days from the date of judgment.

(3) The person shall be released from involuntary treatment at the expiration of the period of commitment imposed under subsection (1) or (2) of this section unless the superintendent or professional person in charge of the facility in which he or she is confined, or in the event of a less restrictive alternative, the designated mental health professional (~~or developmental disabilities professional~~), files a new petition for involuntary treatment on the grounds that the committed person(~~(:)~~):

(a) During the current period of court ordered treatment: (i) Has threatened, attempted, or inflicted physical harm upon the person of another, or substantial damage upon the property of another, and (ii) as a result of mental disorder or developmental disability presents a likelihood of serious harm; or

(b) Was taken into custody as a result of conduct in which he or she attempted or inflicted serious physical harm upon the person of another, and continues to present, as a result of mental disorder or developmental disability a likelihood of serious harm; or

(c) Is in custody pursuant to RCW 71.05.280(3) and as a result of mental disorder or developmental disability presents a substantial likelihood of repeating similar acts considering the charged criminal behavior, life history, progress in treatment, and the public safety; or

(d) Continues to be gravely disabled.

If the conduct required to be proven in (b) and (c) of this subsection was found by a judge or jury in a prior trial under this chapter, it shall not be necessary to (~~reprove that element~~) prove such conduct again. (~~Such~~)

(4) For a person committed under subsection (2) of this section who has been remanded to a period of less restrictive treatment, in addition to the grounds specified in subsection (3) of this section, the designated mental health professional may file a new petition for continued less restrictive treatment if:

(a) The person was previously committed by a court to detention for involuntary mental health treatment during the thirty-six months that preceded the person's initial detention date during the current involuntary commitment cycle, excluding any time spent in a mental health facility or in confinement as a result of a criminal conviction;

(b) In view of the person's treatment history or current behavior, the person is unlikely to voluntarily participate in outpatient treatment without an order for less restrictive treatment; and

(c) Outpatient treatment that would be provided under a less restrictive treatment order is necessary to prevent a relapse, decompensation, or deterioration that is likely to result in the person presenting a likelihood of serious harm or the person becoming gravely disabled within a reasonably short period of time.

(5) A new petition for involuntary treatment filed under subsection (3) or (4) of this section shall be filed and heard in the superior court of the county of the facility which is filing the new petition for involuntary treatment unless good cause is shown for a change of venue. The cost of the proceedings shall be borne by the state.

(6) The hearing shall be held as provided in RCW 71.05.310, and if the court or jury finds that the grounds for additional confinement as set forth in this (~~subsection~~) section are present, the court may order the committed person returned for an additional period of treatment not to exceed one hundred eighty days from the date of judgment. At the end of the one hundred eighty day period of commitment, the committed person shall be released unless a petition for another one hundred eighty day period of continued treatment is filed and heard in the same manner as provided in this (~~subsection~~) section. Successive one hundred eighty day commitments are permissible on the same grounds and pursuant to the same procedures as the original one hundred eighty day commitment. However, a commitment is not permissible under subsection (4) of this section if thirty-six months have passed since the last date of discharge from detention for inpatient treatment that preceded the current less restrictive alternative order, nor shall a commitment under subsection (4) of this section be permissible

NINETY-SECOND DAY, APRIL 13, 2009

2009 REGULAR SESSION

if the likelihood of serious harm in subsection (4)(c) of this section is based solely on harm to the property of others.

((4)) (7) No person committed as provided in this section may be detained unless a valid order of commitment is in effect. No order of commitment can exceed one hundred eighty days in length.

NEW SECTION. Sec. 3. A new section is added to chapter 71.05 RCW to read as follows:

When appropriate and subject to available funds, the treatment and training of a person with a developmental disability who is committed to the custody of the department or to a facility certified for ninety day treatment by the department for a further period of intensive treatment under RCW 71.05.320 must be provided in a program specifically reserved for the treatment and training of persons with developmental disabilities. A person so committed shall receive habilitation services pursuant to an individualized service plan specifically developed to treat the behavior which was the subject of the criminal proceedings. The treatment program shall be administered by developmental disabilities professionals and others trained specifically in the needs of persons with developmental disabilities. The department may limit admissions to this specialized program in order to ensure that expenditures for services do not exceed amounts appropriated by the legislature and allocated by the department for such services. The department may establish admission priorities in the event that the number of eligible persons exceeds the limits set by the department."

certificate, or degree in green industry occupations as established in chapter 14, Laws of 2008(~~, and other high demand occupations, which are occupations where data show that employer demand for workers exceeds the supply of qualified job applicants throughout the state or in a specific region, and where training capacity is underutilized~~);

(2) To be eligible for retraining, an individual must have a long-term attachment to the labor force;

(3) Training must enhance the individual's marketable skills and earning power; and

(4) Retraining must be targeted to ~~((those industries or skills that are in high demand within the labor market))~~ high-demand occupations.

Individuals unemployed as a result of structural changes in the economy and technological advances rendering their skills obsolete must receive the highest priority for participation in this program. It is the further intent of the legislature that individuals for whom suitable employment is available are not eligible for additional benefits while participating in training.

The legislature further intends that funding for this program be limited by a specified maximum amount each fiscal year.

Sec. 4. RCW 50.22.150 and 2009 c 3 s 5 are each amended to read as follows:

(1) This section applies to claims with an effective date before April 5, 2009.

(a) Is a dislocated worker as defined in RCW 50.04.075;

(b) Except as provided under subsection (3) of this section, has demonstrated, through a work history, sufficient tenure in an occupation or in work with a particular skill set. This screening will take place during the assessment process;

(c) Is, after assessment of demand for the individual's occupation or skills in the individual's labor market, determined to need job-related training to find suitable employment in his or her labor market. Beginning July 1, 2001, the assessment of demand for the individual's occupation or skill sets must be substantially based on declining occupation or skill sets identified in local labor market areas by the local workforce development councils, in cooperation with the employment security department and its labor market information division, under subsection (1) of this section;

(d) Develops an individual training program that is submitted to the commissioner for approval within sixty days

after the individual is notified by the employment security department of the requirements of this section;

(e) Enters the approved training program by ninety days after the date of the notification, unless the employment security department determines that the training is not available during the ninety-day period, in which case the individual enters training as soon as it is available; and

(f) Is enrolled in training approved under this section on a full-time basis as determined by the educational institution, and is making satisfactory progress in the training as certified by the educational institution.

(3) Until June 30, 2002, the following individuals who meet the requirements of subsection (2) of this section may, without regard to the tenure requirements under subsection (2)(b) of this section, receive training benefits as provided in this section:

(a) An exhaustee who has base year employment in the aerospace industry assigned the standard industrial classification code "372" or the North American industry classification system code "336411";

(b) An exhaustee who has base year employment in the forest products industry, determined by the department, but including the industries assigned the major group standard industrial classification codes "24" and "26" or any equivalent codes in the North American industry classification system code, and the industries involved in the harvesting and management of logs, transportation of logs and wood products, processing of wood products, and the manufacturing and distribution of wood processing and logging equipment; or

(c) An exhaustee who has base year employment in the fishing industry assigned the standard industrial classification code "0912" or any equivalent codes in the North American industry classification system code.

(5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(c) "Training benefits" means additional benefits paid under this section.

(d) "Training program" means:

must be substantially based on labor market and employment information developed by local workforce development councils, in cooperation with the employment security department and its labor market information division, under subsection (11) of this section;

(B) That is likely to enhance the individual's marketable skills and earning power; and

(C) That meets the criteria for performance developed by the workforce training and education coordinating board for the purpose of determining those training programs eligible for funding under Title I of P.L. 105-220.

"Training program" does not include any course of education primarily intended to meet the requirements of a baccalaureate or higher degree, unless the training meets specific requirements for certification, licensing, or for specific skills necessary for the occupation.

(6) Benefits shall be paid as follows:

(a)(i) Except as provided in (a)(iii) of this subsection, for exhautees who are eligible under subsection (2) of this section, the total training benefit amount shall be fifty-two times the individual's weekly benefit amount, reduced by the total amount of regular benefits and extended benefits paid, or deemed paid, with respect to the benefit year; or

(ii) For exhautees who are eligible under subsection (3) of this section, for claims filed before June 30, 2002, the total training benefit amount shall be seventy-four times the individual's weekly benefit amount, reduced by the total amount of regular benefits and extended benefits paid, or deemed paid, with respect to the benefit year; or

(iii) For exhautees eligible under subsection (2) of this section from industries listed under subsection (3)(a) of this section, for claims filed on or after June 30, 2002, but before January 5, 2003, the total training benefit amount shall be seventy-four times the individual's weekly benefit amount, reduced by the total amount of regular benefits and extended benefits paid, or deemed paid, with respect to the benefit year.

(b) The weekly benefit amount shall be the same as the regular weekly amount payable during the applicable benefit year and shall be paid under the same terms and conditions as regular benefits. The training benefits shall be paid before any extended benefits but not before any similar federally funded program.

(c) Training benefits are not payable for weeks more than two years beyond the end of the benefit year of the regular claim.

(7) The requirement under RCW 50.22.010(10) relating to exhausting regular benefits does not apply to an individual otherwise eligible for training benefits under this section when the individual's benefit year ends before his or her training benefits are exhausted and the individual is eligible for a new benefit year. These individuals will have the option of remaining on the original claim or filing a new claim.

(8)(a) Except as provided in (b) of this subsection, individuals who receive training benefits under this section or under any previous additional benefits program for training are not eligible for training benefits under this section for five years from the last receipt of training benefits under this section or under any previous additional benefits program for training.

(b) With respect to claims that are filed before January 5, 2003, an individual in the aerospace industry assigned the standard industrial code "372" or the North American industry classification system code "336411" who received training benefits under this section, and who had been making satisfactory progress in a training program but did not complete the program, is eligible, without regard to the five-year

limitation of this section and without regard to the requirement of subsection (2)(b) of this section, if applicable, to receive training benefits under this section in order to complete that training program. The total training benefit amount that applies to the individual is seventy-four times the individual's weekly benefit amount, reduced by the total amount of regular benefits paid, or deemed paid, with respect to the benefit year in which the training program resumed and, if applicable, reduced by the amount of training benefits paid, or deemed paid, with respect to the benefit year in which the training program commenced.

(9) An individual eligible to receive a trade readjustment allowance under chapter 2 of Title II of the Trade Act of 1974, as amended, shall not be eligible to receive benefits under this section for each week the individual receives such trade readjustment allowance. An individual eligible to receive emergency unemployment compensation, so called, under any federal law, shall not be eligible to receive benefits under this section for each week the individual receives such compensation.

(10) All base year employers are interested parties to the approval of training and the granting of training benefits.

(11) By July 1, 2001, each local workforce development council, in cooperation with the employment security department and its labor market information division, must identify ~~((occupations and skill sets that are declining and occupations and skill sets that are in))~~ high-demand occupations and occupations in declining employer demand. For the purposes of RCW 50.22.130 through 50.22.150 and section 9, chapter 2, Laws of 2000, "high-demand occupation" means ~~((demand for employment that exceeds the supply of qualified workers for occupations or skill sets in a labor market area))~~ an occupation with a substantial number of current or projected employment opportunities. Local workforce development councils must use state and locally developed labor market information. Thereafter, each local workforce development council shall update this information annually or more frequently if needed.

(12) The commissioner shall adopt rules as necessary to implement this section.

Sec. 5. RCW 51.32.099 and 2007 c 72 s 2 are each amended to read as follows:

(1)(a) The legislature intends to create improved vocational outcomes for Washington state injured workers and employers through legislative and regulatory change under a pilot program for the period of January 1, 2008, through June 30, 2013. This pilot vocational system is intended to allow opportunities for eligible workers to participate in meaningful retraining in high-demand occupations, improve successful return to work and achieve positive outcomes for workers, reduce the incidence of repeat vocational services, increase accountability and responsibility, and improve cost predictability. To facilitate the study and evaluation of the results of the proposed changes, the department shall establish the temporary funding of certain state fund vocational costs through the medical aid account to ensure the appropriate assessments to employers for the costs of their claims for vocational services in accordance with RCW 51.32.0991.

(b) An independent review and study of the effects of the pilot program shall be conducted to determine whether it has achieved the appropriate outcomes at reasonable cost to the system. The review shall include, at a minimum, a report on the department's performance with regard to the provision of vocational services, the skills acquired by workers who receive retraining services, the types of training programs approved, whether the workers are employed, at what jobs and wages after

completion of the training program and at various times subsequent to their claim closure, the number and demographics of workers who choose the option provided in subsection (4)(b) of this section, and their employment and earnings status at various times subsequent to claim closure. The department may adopt rules, in collaboration with the subcommittee created under (c)(iii) of this subsection, to further define the scope and elements of the required study. Reports of the independent researcher are due on December 1, 2010, December 1, 2011, and December 1, 2012.

(c) In implementing the pilot program, the department shall:

(i) Establish a vocational initiative project that includes participation by the department as a partner with WorkSource, the established state system that administers the federal workforce investment act of 1998. As a partner, the department shall place vocational professional full-time employees at pilot WorkSource locations; refer some workers for vocational services to these vocational professionals; and work with employers in work source pilot areas to market the benefits of on-the-job training programs and with community colleges to reserve slots in high employer demand programs of study as defined in RCW 28B.50.030. These on-the-job training programs and community college slots may be considered by both department and private sector vocational professionals for vocational plan development. The department will also assist stakeholders in developing additional vocational training programs in various industries, including but not limited to agriculture and construction. These programs will expand the choices available to injured workers in developing their vocational training plans with the assistance of vocational professionals.

(ii) Develop and maintain a register of state fund and self-insured workers who have been retrained or have selected any of the vocational options described in this section for at least the duration of the pilot program.

(iii) Create a vocational rehabilitation subcommittee made up of members appointed by the director for at least the duration of the pilot program. This subcommittee shall provide the business and labor partnership needed to maintain focus on the intent of the pilot program, as described in this section, and provide consistency and transparency to the development of rules and policies. The subcommittee shall report to the director at least annually and recommend to the director and the legislature any additional statutory changes needed, which may include extension of the pilot period. The subcommittee shall provide input and oversight with the department concerning the study required under (b) of this subsection. The subcommittee shall provide recommendations for additional changes or incentives for injured workers to return to work with their employer of injury.

(iv) The department shall develop an annual report concerning Washington's workers' compensation vocational rehabilitation system to the legislature and to the subcommittee by December 1, 2009, and annually thereafter with the final report due by December 1, 2012. The annual report shall include the number of workers who have participated in more than one vocational training plan beginning with plans approved on January 1, 2008, and in which industries those workers were employed. The final report shall include the department's assessment and recommendations for further legislative action, in collaboration with the subcommittee.

(2)(a) For the purposes of this section, the day the worker commences vocational plan development means the date the department or self-insurer notifies the worker of his or her eligibility for plan development services.

(b) When vocational rehabilitation is both necessary and likely to make the worker employable at gainful employment, he or she shall be provided with services necessary to develop a vocational plan that, if completed, would render the worker employable. The vocational professional assigned to the claim shall, at the initial meeting with the worker, fully inform the worker of the return-to-work priorities set forth in RCW 51.32.095(2) and of his or her rights and responsibilities under the workers' compensation vocational system. The department shall provide tools to the vocational professional for communicating this and other information required by RCW 51.32.095 and this section to the worker.

(c) On the date the worker commences vocational plan development, the department shall also inform the employer in writing of the employer's right to make a valid return-to-work offer during the first fifteen days following the commencement of vocational plan development. To be valid, the offer must be for bona fide employment with the employer of injury, consistent with the worker's documented physical and mental restrictions as provided by the worker's health care provider. When the employer makes a valid return-to-work offer, the vocational plan development services and temporary total disability compensation shall be terminated effective ~~((on))~~ on the starting date for the job without regard to whether the worker accepts the return-to-work offer. Following the fifteen-day period, the employer may still provide, and the worker may accept, any valid return-to-work offer. The worker's acceptance of such an offer shall result in the termination of vocational plan development or implementation services and temporary total disability compensation effective the day the employment begins.

(3)(a) All vocational plans must contain an accountability agreement signed by the worker detailing expectations regarding progress, attendance, and other factors influencing successful participation in the plan. Failure to abide by the agreed expectations shall result in suspension of vocational benefits pursuant to RCW 51.32.110.

(b) Any formal education included as part of the vocational plan must be for an accredited or licensed program or other program approved by the department. The department shall develop rules that provide criteria for the approval of nonaccredited or unlicensed programs.

(c) The vocational plan for an individual worker must be completed and submitted to the department within ninety days of the day the worker commences vocational plan development. The department may extend the ninety days for good cause. Criteria for good cause shall be provided in rule. The frequency and reasons for good cause extensions shall be reported to the subcommittee created under subsection (1)(c)(iii) of this section.

(d) Costs for the vocational plan may include books, tuition, fees, supplies, equipment, child or dependent care, training fees for on-the-job training, the cost of furnishing tools and other equipment necessary for self-employment or reemployment, and other necessary expenses in an amount not to exceed twelve thousand dollars. This amount shall be adjusted effective July 1 of each year for vocational plans or retraining benefits available under subsection (4)(b) of this section approved on or after this date but before June 30 of the next year based on the average percentage change in tuition for the next fall quarter for all Washington state community colleges.

(e) The duration of the vocational plan shall not exceed two years from the date the plan is implemented. The worker shall receive temporary total disability compensation under RCW 51.32.090 and the cost of transportation while he or she is actively and successfully participating in a vocational plan.

NINETY-SECOND DAY, APRIL 13, 2009

2009 REGULAR SESSION

(f) If the worker is required to reside away from his or her customary residence, the reasonable cost of board and lodging shall also be paid.

(4) Vocational plan development services shall be completed within ninety days of commencing. During vocational plan development the worker shall, with the assistance of a vocational professional, participate in vocational counseling and occupational exploration to include, but not be limited to, identifying possible job goals, training needs, resources, and expenses, consistent with the worker's physical and mental status. A vocational rehabilitation plan shall be developed by the worker and the vocational professional and submitted to the department or self-insurer. Following this submission, the worker shall elect one of the following options:

(a) Option 1: The department or self-insurer implements and the worker participates in the vocational plan developed by the vocational professional and approved by the worker and the department or self-insurer. For state fund claims, the department must review and approve the vocational plan before implementation may begin. If the department takes no action within fifteen days, the plan is deemed approved. The worker may, within fifteen days of approval of the plan by the department, elect option 2.

(i) Following successful completion of the vocational plan, any subsequent assessment of whether vocational rehabilitation is both necessary and likely to enable the injured worker to become employable at gainful employment under RCW 51.32.095(1) shall include consideration of transferable skills obtained in the vocational plan.

(ii) If a vocational plan is successfully completed on a claim which is thereafter reopened as provided in RCW 51.32.160, the cost and duration available for any subsequent vocational plan is limited to that in subsection (3)(d) and (e) of this section, less that previously expended.

(b) Option 2: The worker declines further vocational services under the claim and receives an amount equal to six months of temporary total disability compensation under RCW 51.32.090. The award is payable in biweekly payments in accordance with the schedule of temporary total disability payments, until such award is paid in full. These payments shall not include interest on the unpaid balance. However, upon application by the worker, and at the discretion of the department, the compensation may be converted to a lump sum payment. The vocational costs defined in subsection (3)(d) of this section shall remain available to the worker, upon application to the department or self-insurer, for a period of five years. The vocational costs shall, if expended, be available for programs or courses at any accredited or licensed institution or program from a list of those approved by the department for tuition, books, fees, supplies, equipment, and tools, without department or self-insurer oversight. The department shall issue an order as provided in RCW 51.52.050 confirming the option 2 election, setting a payment schedule, and terminating temporary total disability benefits. The department shall thereafter close the claim.

(i) If within five years from the date the option 2 order becomes final, the worker is subsequently injured or suffers an occupational disease or reopens the claim as provided in RCW 51.32.160, and vocational rehabilitation is found both necessary and likely to enable the injured worker to become employable at gainful employment under RCW 51.32.095(1), the duration of any vocational plan under subsection (3)(e) of this section shall not exceed eighteen months.

(ii) If the available vocational costs are utilized by the worker, any subsequent assessment of whether vocational

rehabilitation is both necessary and likely to enable the injured worker to become employable at gainful employment under RCW 51.32.095(1) shall include consideration of the transferable skills obtained.

(iii) If the available vocational costs are utilized by the worker and the claim is thereafter reopened as provided in RCW 51.32.160, the cost available for any vocational plan is limited to that in subsection (3)(d) of this section less that previously expended.

(iv) Option 2 may only be elected once per worker.

(c) The director, in his or her sole discretion, may provide the worker vocational assistance not to exceed that in subsection (3) of this section, without regard to the worker's prior option selection or benefits expended, where vocational assistance would prevent permanent total disability under RCW 51.32.060.

(5)(a) As used in this section, "vocational plan interruption" means an occurrence which disrupts the plan to the extent the employability goal is no longer attainable. "Vocational plan interruption" does not include institutionally scheduled breaks in educational programs, occasional absence due to illness, or modifications to the plan which will allow it to be completed within the cost and time provisions of subsection (3)(d) and (e) of this section.

(b) When a vocational plan interruption is beyond the control of the worker, the department or self-insurer shall recommence plan development. If necessary to complete vocational services, the cost and duration of the plan may include credit for that expended prior to the interruption. A vocational plan interruption is considered outside the control of the worker when it is due to the closure of the accredited institution, when it is due to a death in the worker's immediate family, or when documented changes in the worker's accepted medical conditions prevent further participation in the vocational plan.

(c) When a vocational plan interruption is the result of the worker's actions, the worker's entitlement to benefits shall be suspended in accordance with RCW 51.32.110. If plan development or implementation is recommenced, the cost and duration of the plan shall not include credit for that expended prior to the interruption. A vocational plan interruption is considered a result of the worker's actions when it is due to the failure to meet attendance expectations set by the training or educational institution, failure to achieve passing grades or acceptable performance review, unaccepted or postinjury conditions that prevent further participation in the vocational plan, or the worker's failure to abide by the accountability agreement per subsection (3)(a) of this section.

Strike everything after the enacting clause and insert the following:

Sec. 1. RCW 31.45.073 and 2003 c 86 s 8 are each amended to read as follows:

(1) No licensee may engage in the business of making small loans without first obtaining a small loan endorsement to its license from the director in accordance with this chapter. An endorsement will be required for each location where a licensee engages in the business of making small loans, but a small loan endorsement may authorize a licensee to make small loans at a location different than the licensed locations where it cashes or sells checks. A licensee may have more than one endorsement.

(2) The termination date of a small loan may not exceed the origination date of that same small loan by more than forty-five days, including weekends and holidays, unless the term of the loan is extended by agreement of both the borrower and the licensee and no additional fee or interest is charged. The maximum principal amount of any small loan, or the outstanding principal balances of all small loans made by ((a)) all licensees to a single borrower at any one time, may not exceed seven hundred dollars or thirty percent of the gross monthly income of the borrower, whichever is lower.

(3) A licensee that has obtained the required small loan endorsement may charge interest or fees for small loans not to exceed in the aggregate fifteen percent of the first five hundred dollars of principal. If the principal exceeds five hundred dollars, a licensee may charge interest or fees not to exceed in the aggregate ten percent of that portion of the principal in excess of five hundred dollars. If a licensee makes more than one loan to a single borrower, and the aggregated principal of all loans made to that borrower exceeds five hundred dollars at any one time, the licensee may charge interest or fees not to exceed in the aggregate ten percent on that portion of the aggregated principal of all loans at any one time that is in excess of five hundred dollars. The director may determine by rule which fees, if any, are not subject to the interest or fee limitations described in this section. It is a violation of this chapter for any licensee to knowingly loan to a single borrower at any one time, in a single loan or in the aggregate, more than the maximum principal amount described in this section.

(4) In connection with making a small loan, a licensee may advance moneys on the security of a postdated check. The licensee may not accept any other property, title to property, or other evidence of ownership of property as collateral for a small loan. The licensee may accept only one postdated check per loan as security for the loan. A licensee may permit a borrower to

2009 REGULAR SESSION

redeem a postdated check with a payment of cash or the equivalent of cash. The licensee may disburse the proceeds of a small loan in cash, in the form of a check, or in the form of the electronic equivalent of cash or a check.

(5) No person may at any time cash or advance any moneys on a postdated check or draft in excess of the amount of goods or services purchased without first obtaining a small loan endorsement to a check casher or check seller license.

NEW SECTION. Sec. 2. A new section is added to chapter 31.45 RCW to read as follows:

(1) The director must, by contract with a vendor or service provider or otherwise, develop and implement a system by means of which a licensee may determine:

(a) Whether a consumer has an outstanding small loan;

(b) The number of small loans the consumer has outstanding;

(c) Whether the borrower is eligible for a loan under RCW 31.45.073;

(d) Whether the borrower is in a payment plan; and

(e) Any other information necessary to comply with chapter 31.45 RCW.

(2) The director may specify the form and contents of the system by rule. Any system must provide that the information entered into or stored by the system is:

(a) Accessible to and usable by licensees and the director from any location in this state; and

(b) Secured against public disclosure, tampering, theft, or unauthorized acquisition or use.

(3) If the system described in subsection (1) of this section is developed and implemented, a licensee making small loans under chapter 31.45 RCW must enter or update the required information in subsection (1) of this section at the time that the small loan transaction is conducted by the licensee.

(4) A licensee must continue to enter and update all required information for any loans subject to chapter 31.45 RCW that are outstanding or have not yet expired after the date on which the licensee no longer has the license or small loan endorsement required by this chapter. Within ten business days after ceasing to make loans subject to chapter 31.45 RCW, the licensee must submit a plan for continuing compliance with this subsection to the director for approval. The director must promptly approve or disapprove the plan and may require the licensee to submit a new or modified plan that ensures compliance with this subsection.

(5) If the system described in subsection (1) of this section is developed and implemented, the director shall adopt rules to set the fees licensees shall pay to the vendor or service provider for the operation and administration of the system and the administration of this chapter by the department.

(6) The director shall adopt rules establishing standards for the retention, archiving, and deletion of information entered into or stored by the system described in subsection (1) of this section.

(7) The information in the system described in subsection (1) of this section is not subject to public inspection or disclosure under chapter 42.56 RCW.

Sec. 3. RCW 42.56.230 and 2008 c 200 s 5 are each amended to read as follows:

The following personal information is exempt from public inspection and copying under this chapter:

(1) Personal information in any files maintained for students in public schools, patients or clients of public institutions or public health agencies, or welfare recipients;

(2) Personal information in files maintained for employees, appointees, or elected officials of any public agency to the extent that disclosure would violate their right to privacy;

(3) Information required of any taxpayer in connection with the assessment or collection of any tax if the disclosure of the information to other persons would (a) be prohibited to such persons by RCW 84.08.210, 82.32.330, 84.40.020, or 84.40.340

or (b) violate the taxpayer's right to privacy or result in unfair competitive disadvantage to the taxpayer;

(4) Credit card numbers, debit card numbers, electronic check numbers, card expiration dates, or bank or other financial account numbers, except when disclosure is expressly required by or governed by other law; ~~((and))~~

(5) Personal and financial information related to a small loan or any system of authorizing a small loan in section 1 of this act; and

(6) Documents and related materials and scanned images of documents and related materials used to prove identity, age, residential address, social security number, or other personal information required to apply for a driver's license or identicaid.

NEW SECTION. Sec. 4. The director or the director's designee may take the actions necessary to ensure this act is implemented on its effective date.

NEW SECTION. Sec. 5. This act takes effect January 1, 2010.

Renumber the sections consecutively and correct any internal references accordingly.

Regarding industrial insurance death benefits for the surviving spouses of members of the law enforcement officers' and firefighters' retirement system and the state patrol retirement system.

MOTION

Senator Kohl-Welles moved that the following committee striking amendment by the Committee on Labor, Commerce & Consumer Protection be adopted.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that the current system of stopping payment of industrial insurance death benefits to surviving spouses upon the remarriage of the surviving spouse may be based on archaic notions that are not in-line with modern society. Many pension programs, including the law enforcement officers' and firefighters' retirement system, have removed the remarriage prohibition and allow surviving spouses to continue to receive benefits after remarriage. The legislature further finds that some surviving spouses of law enforcement officers' and firefighters' retirement system members have expressed concerns that terminating benefits upon remarriage penalizes the spouse for moving on with his or her life. The legislature declares that it is time to study the policy of terminating industrial insurance death benefits upon remarriage of the surviving spouse and determine whether changes need to be made to the workers' compensation system.

(2) The workers' compensation advisory committee must study the current practice of terminating industrial insurance death benefits upon remarriage of the surviving spouse of a law enforcement officers' and firefighters' retirement system member. The study must address the following:

(a) The reasons behind the policy of terminating death benefits upon remarriage of the surviving spouse;

(b) Potential costs to the workers' compensation system if industrial insurance death benefits are continued after remarriage of the surviving spouse of a law enforcement officers' and firefighters' retirement system member, and potential costs if this policy were applied to all workers;

(c) Methods to offset potential costs, including providing a reduced benefit if the surviving spouse chooses to receive benefits for life;

(d) How workers' compensation death benefits are administered in other states and whether any state continues these benefits after remarriage; and

(e) Such other items the workers' compensation advisory committee deems necessary.

(3) The workers' compensation advisory committee must report its findings to the appropriate committees of the legislature by December 1, 2010.

(4) This section expires January 1, 2011."

SECOND READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1033, by House Committee on Environmental Health (originally sponsored by Representatives Campbell, Morrell, Hudgins, Hunt, Chase, Wood and Dickerson)

Requiring the use of alternatives to lead wheel weights.

The measure was read the second time.

MOTION

Senator Rockefeller moved that the following committee striking amendment by the Committee on Environment, Water & Energy be adopted.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

(1) Environmental health hazards associated with lead wheel weights are a preventable problem. People are exposed to lead fragments and dust when lead wheel weights fall from motor vehicles onto Washington roadways and are then abraded and pulverized by traffic. Lead wheel weights on and alongside roadways can contribute to soil, surface, and groundwater contamination and pose hazards to downstream aquatic life.

(2) Lead negatively affects every bodily system. While it is injurious to people of all ages, lead is especially harmful to fetuses, children, and adults of childbearing age. Effects of lead on a child's cognitive, behavioral, and developmental abilities may necessitate large expenditures of public funds for health care and special education. Irreversible damage to children and subsequent expenditures could be avoided if exposure to lead is reduced.

(3) There are no federal regulatory controls governing use of lead wheel weights. The legislature recognizes the state's need to protect the public from exposure to lead hazards.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Department" means the department of ecology.

(2) "Environmentally preferred wheel weight" means any wheel weight used for balancing motor vehicle wheels that do not include more than 0.5 percent by weight of any chemical, group of chemicals, or metal of concern identified by rule under chapter 173-333 WAC.

(3) "Lead wheel weight" means any externally affixed or attached wheel weight used for balancing motor vehicle wheels and composed of greater than 0.1 percent lead by weight.

(4) "Person" includes any individual, firm, association, partnership, corporation, governmental entity, organization, or joint venture.

(5) "Vehicle" means any motor vehicle registered in Washington with a wheel diameter of less than 19.5 inches or a gross vehicle weight of fourteen thousand pounds or less.

NINETY-SECOND DAY, APRIL 13, 2009

2009 REGULAR SESSION

NEW SECTION. Sec. 3. (1) On and after January 1, 2011, a person who replaces or balances motor vehicle tires must replace lead wheel weights with environmentally preferred wheel weights on all vehicles when they replace or balance tires in Washington. However, the person may use alternatives to lead wheel weights that are determined by the department to not qualify as environmentally preferred wheel weights for up to two years following the date of that determination, but must thereafter use environmentally preferred wheel weights.

(2) A person who is subject to the requirement in subsection (1) of this section must recycle the lead wheel weights that they remove.

(3) A person who fails to comply with subsection (1) of this section is subject to penalties prescribed in section 5 of this act. A violation of subsection (1) of this section occurs with respect to each vehicle for which lead wheel weights are not replaced in compliance with subsection (1) of this section.

(4) An owner of a vehicle is not subject to any requirement in this section.

NEW SECTION. Sec. 4. (1) The department shall achieve compliance with section 3 of this act through the enforcement scheme specified in this section.

(2) To provide assistance in identifying environmentally preferred wheel weights, the department shall, by October 1, 2010, prepare and distribute information regarding this chapter to the maximum extent practicable to:

(a) Persons that replace or balance motor vehicle tires in Washington; and

(b) Persons generally in the motor vehicle tire and wheel weight manufacturing, distribution, wholesale, and retail industries.

(3) The department shall issue a warning letter to a person who fails to comply with section 3 of this act and offer information or other appropriate assistance. If the person does not comply with section 3(1) of this act within one year of the department's issuance of the warning letter, the department may assess civil penalties under section 5 of this act.

NEW SECTION. Sec. 5. (1) An initial violation of section 3(1) of this act is punishable by a civil penalty not to exceed five hundred dollars. Subsequent violations of section 3(1) of this act are punishable by civil penalties not to exceed one thousand dollars for each violation.

(2) Penalties collected under this section must be deposited in the state toxics control account created in RCW 70.105D.070.

NEW SECTION. Sec. 6. The department may adopt rules to fully implement this chapter.

NEW SECTION. Sec. 7. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 8. Sections 1 through 7 of this act constitute a new chapter in Title 70 RCW."

SECOND READING

SUBSTITUTE HOUSE BILL NO. 1329, by House Committee on Ways & Means (originally sponsored by Representatives Pettigrew, Conway, Kagi, Hunt, Seaquist, Sells, Priest, Kenney, Ormsby, Wood, Haigh, White, Chase, Herrera, Morrell, Liias, Green, Cody, Appleton, Hasegawa, Carlyle, Simpson, McCoy, Sullivan, Orwall, Goodman, Campbell, Hudgins, Moeller, Nelson and Santos)

Providing collective bargaining for child care center directors and workers.

The measure was read the second time.

MOTION

Senator Kohl-Welles moved that the following committee striking amendment by the Committee on Ways & Means be adopted.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that, as of 2009, the challenges posed by low wages and lack of training that the legislature identified in enacting the child care career and wage ladder persist, and the availability of quality child care in the state continues to suffer. The legislature intends to address these problems by creating the possibility for a new

relationship between child care center directors and workers and the state. Child care center directors and workers are to be given the opportunity to work collectively to improve standards in their profession and to expand opportunities for educational advancement to ensure continuous quality improvement in the delivery of early learning services. Family child care providers in the state have recently been given a similar opportunity, and the results of their efforts have improved standards and quality for that segment of the child care industry.

The legislature intends to create a new type of collective bargaining for these directors and workers whereby they can come together and bargain with the state over matters within the state's purview to improve the quality of child care for the state's families. Unlike traditional collective bargaining, this new approach will afford these directors and workers the opportunity to bargain with the state only over the state's support for child care centers, a matter of common concern to both directors and workers. Specific terms and conditions of employment at individual centers, which are the subjects of traditional collective bargaining between employers and their employees, fall outside the limited scope of bargaining defined by this act. Accordingly, traditional policy concerns over supervisors and employees being organized into a common bargaining unit are inapplicable. Sharing a community of interest in the subjects of bargaining enables directors and workers to work side by side in the same bargaining unit for common goals.

All child care center directors and workers will equally be able to maintain full membership in the organization that represents them in their efforts to improve the quality of child care they provide to the state's children. This new bargaining relationship does not intrude in any manner upon those relationships governed by the national labor relations act (29 U.S.C. Sec. 151 et seq.). Child care center directors and workers do not forfeit their rights under the national labor relations act by becoming members of an organization that represents them in their dealings with the state. Under the national labor relations act, an organization that represents child care center directors and workers in bargaining with the state under this act is precluded from representing workers seeking to engage in traditional collective bargaining with their employer over specific terms and conditions of employment at individual child care centers.

Nothing in this act is intended to create any unfunded mandates or financial obligations on child care centers covered by this act.

Sec. 2. RCW 41.56.028 and 2007 c 278 s 2 are each amended to read as follows:

(1) In addition to the entities listed in RCW 41.56.020, this chapter applies to the governor with respect to family child care providers and to child care center directors and workers. Solely for the purposes of collective bargaining and as expressly limited under subsections (2) and (3) of this section, the governor is the public employer of family child care providers and of child care center directors and workers who, solely for the purposes of collective bargaining, are public employees. The public employer shall be represented for bargaining purposes by the governor or the governor's designee appointed under chapter 41.80 RCW.

(2) This chapter governs the collective bargaining relationship between the governor and family child care providers and between the governor and child care center directors and workers, except as follows:

(a) ~~(A statewide unit of all family child care providers is)~~ The only units appropriate for purposes of collective bargaining under RCW 41.56.060 are:

(i) A statewide unit for family child care providers; and

(ii) The units for child care center directors and workers determined by the commission which shall conform to the unit requested in the application for certification as the bargaining representative if consistent with the terms of this act. In determining the units, the commission shall include in the same unit all child care center directors and workers employed at child care centers located in department of social and health services regions existing on the effective date of this section, and may group together regions to minimize the number of units.

(b) The exclusive bargaining representative of family child care providers or of child care center directors and workers in the units specified in (a) of this subsection shall be the representative chosen in an election conducted pursuant to RCW 41.56.070, except that:

(i) In the initial election conducted under chapter 54, Laws of 2006, or this act, if more than one labor organization is on the ballot and none of the choices receives a majority of the votes cast, a run-off election shall be held;

(ii) To show at least thirty percent representation within a unit to accompany a request for an initial election under this act, the written proof of representation is valid only if collected not more than two years prior to the date the request is filed with the commission; and

(iii) The initial election may not occur before July 1, 2010.

(c) For the exclusive bargaining representatives certified by the commission to represent units of child care center directors and workers, negotiations of a collective bargaining agreement shall be conducted jointly by all certified representatives. The representatives shall bargain for one collective bargaining agreement covering all of the represented child care center directors and workers.

(d)(i) Notwithstanding the definition of "collective bargaining" in RCW 41.56.030(4), the scope of collective bargaining for family child care providers under this section shall be limited solely to: ~~((+))~~ (A) Economic compensation, such as manner and rate of subsidy and reimbursement, including tiered reimbursements; ~~((++))~~ (B) health and welfare benefits; ~~((+++))~~ (C) professional development and training; ~~((++++))~~ (D) labor-management committees; ~~((+))~~ (E) grievance procedures; and ~~((+))~~ (F) other economic matters. Retirement benefits shall not be subject to collective bargaining. By such obligation neither party shall be compelled to agree to a proposal or be required to make a concession unless otherwise provided in this chapter.

~~((+))~~ (ii) Notwithstanding the definition of "collective bargaining" in RCW 41.56.030(4), the matters subject to bargaining under this section shall be within the purview of the state and within the community of interest of child care center directors and workers. The public employer is: (A) Required to bargain over the manner and rate of subsidy and reimbursement, so long as any agreement is consistent with the provisions of any quality rating and improvement system; (B) permitted, but not required, to bargain over: (I) Funding for professional development and training; (II) mechanisms and funding to improve the access of child care centers to health care insurance and other benefit programs; (III) other economic support for child care centers; and (IV) grievance procedures to resolve disputes arising out of the interpretation or application of the collective bargaining agreement; and (C) prohibited from bargaining over retirement benefits. By such obligation neither party shall be compelled to agree to a proposal or be required to make a concession unless otherwise provided in this chapter.

If the director of financial management does not certify those provisions of the decision as feasible financially for the state, those provisions of the decision are not binding on the governor. To the extent that the decision is not binding on the governor, RCW 41.56.480 does not apply.

WITHDRAWAL OF AMENDMENT

On motion of Senator Rockefeller, the amendment by Senators Rockefeller and Zarelli on page 1, line 5 to the committee striking amendment to Substitute House Bill No. 1329 was withdrawn.

MOTION

Senator Rockefeller moved that the following amendment by Senators Rockefeller and Zarelli to the committee striking amendment be adopted.

Beginning on page 1, line 5 of the amendment, after "persist" strike all material through "centers" on page 2, line 17 and insert ". The legislature intends to address these problems by creating the possibility for a new relationship between child care center directors and workers and the state. Child care center directors and workers are to be given the opportunity to work collectively to improve standards in their profession and to expand opportunities for educational advancement to ensure continuous quality improvement in the delivery of early learning services. Family child care providers in the state have recently been given a similar opportunity, and the results of their efforts have improved standards and quality for that segment of the child care industry.

The legislature intends to create a new type of collective bargaining for these directors and workers whereby they can come together and bargain with the state over matters within the state's purview to improve the quality of child care for the state's families. Unlike traditional collective bargaining, this new approach will afford these directors and workers the opportunity to bargain with the state only over the state's support for child care centers, a matter of common concern to both directors and workers. Specific terms and conditions of employment at individual centers, which are the subjects of traditional collective bargaining between employers and their employees, fall outside the limited scope of bargaining defined by this act. Accordingly, traditional policy concerns over supervisors and employees being organized into a common bargaining unit are inapplicable. Sharing a community of interest in the subjects of bargaining enables directors and workers to work side by side in the same bargaining unit for common goals.

This new approach to collective bargaining is available only to center directors and workers who file a notice of intent to

participate in the initial opt in phase under section 4 of this act. This new bargaining relationship does not intrude in any manner upon those relationships governed by the national labor relations act (29 U.S.C. Sec. 151 et seq.). Child care center directors and workers do not forfeit their rights under the national labor relations act by becoming members of an organization that represents them in their dealings with the state. Under the national labor relations act, an organization that represents child care center directors and workers in bargaining with the state under this act is precluded from representing workers seeking to engage in traditional collective bargaining with their employer over specific terms and conditions of employment at individual child care centers."

On page 2, line 24 of the amendment, after "workers" insert "who choose to opt in under section 4 of this act"

On page 3, line 4 of the amendment, after "(ii)" strike all material through "units" on line 12 and insert "A statewide unit for child care center directors and workers"

Senator Hatfield moved that the following amendment by Senator Hatfield and others to the committee striking amendment be adopted.

On page 1, line 7 of the amendment, after "suffer." strike all material through "chapter." On page 7, line 33 and insert the following:

"Recognizing that family child care providers have been granted the ability to collectively bargain with the state to improve standards in their profession and to expand opportunities for educational advancement to ensure continuous quality improvement in the delivery of early learning services, it has been suggested that the legislature grant similar bargaining rights to child care center directors and workers. However, because of current economic realities, it is difficult to award such rights before thoroughly studying whether this will, in fact, improve the working conditions of child care center directors and workers.

The legislature intends, therefore, to study the effects of the family child care provider system and whether providing equivalent collective bargaining opportunities to child care center directors and workers will lead to better training and opportunities for child care workers and better early learning opportunities for the children in their care. The legislature further intends that the results of this study be delivered to a joint legislative task force which will investigate methods to raise the subsidy through legislation.

NEW SECTION. Sec. 2. (1) The department of early learning must study issues relating to increasing the child care subsidy and reimbursement rates for child care centers licensed under chapter 43.125 RCW. The study must:

NINETY-SECOND DAY, APRIL 13, 2009

This must include whether this has resulted in increased economic compensation, health and welfare benefits, professional development and training, and other economic matters to these providers;

(b) Be made in consultation with child care center directors and workers as well as other interested stakeholders. Directors and workers must be consulted in several areas of the state, including centers located in eastern Washington and western Washington;

(c) Review alternative methods of raising the child care subsidy rate;

(d) Review alternative methods to provide training to child care center directors and workers;

(e) Review methods to retain child care center workers and otherwise reduce employee turnover; and

(f) Include other items the department determines necessary to study in order to increase educational opportunities for children in child care centers.

(2) The study required under this subsection must be completed by August 1, 2010, and delivered to the joint legislative task force on child care center subsidy and reimbursement rates established in section 3 of this act.

(3) This section expires December 31, 2010.

NEW SECTION. Sec. 3. (1) The joint legislative task force on child care center subsidy and reimbursement rates is established. The task force shall consist of the following members:

(a) The chair and the ranking minority member of the senate labor, commerce and consumer protection committee;

(b) The chair and the ranking minority member of the house of representatives commerce and labor committee;

(d) The director of the department of early learning, or the director's designee.

(2) The task force must review the results of the study conducted under section 2 of this act and must develop proposed legislation that is intended to increase the child care subsidy and reimbursement rates. In developing proposed legislation, the task force must consider previous legislative attempts to raise the subsidy rate including SB 5506, which was proposed during the 2009 legislative session.

(3) The task force must submit its proposed legislation to the senate labor commerce and consumer protection committee, the senate early learning and K-12 education committee, the house of representatives commerce and labor committee, and the house of representatives early learning and children's services committee by December 1, 2011.

POINT OF ORDER

Senator Rockefeller: "Thank you Mr. President. Mr. President, the amendment number 358 that's before us attempts to amend page 1 and line 7 of the Ways & Means amendment that we have just amended. That provision was amended when we adopted the preceding amendment number 357 and therefore as a result it seems to me that this amendment is an amendment to an amendment to an amendment which is clearly barred by Roberts Rules of Order and I therefore ask that this amendment be found out of order."

President Owen: "The President doesn't believe that he raised the issue as a striking amendment. He raised the issued a double...an amendment to an amendment to an amendment. The President will look at this and see."

President Owen: "In responding to Senator Rockefeller's point of order. Senator Rockefeller, in order for this to have been an amendment to the amendment to the amendment Senator Hatfield's amendment would've had to been drafted to your amendment with the attempt to amend it. It was not, therefore your point is not well taken. Senator Hatfield's amendment is in order."

Senators Holmquist, Hobbs and King spoke in favor of adoption of the amendment to the committee striking amendment.

Strike everything after the enacting clause and insert the following:

"Sec. 1. CW 35.92.360 and 2002 c 276 s 2 are each amended to read as follows:

(1) Any city or town engaged in the generation, sale, or distribution of energy is hereby authorized, within limits established by the Constitution of the state of Washington, to assist the owners of structures or equipment in financing the acquisition and installation of materials and equipment, for compensation or otherwise, for the conservation or more efficient use of energy in such structures or equipment pursuant to an energy conservation plan adopted by the city or town if the cost per unit of energy saved or produced by the use of such materials and equipment is less than the cost per unit of energy produced by the next least costly new energy resource which the city or town could acquire to meet future demand. Any financing authorized under this chapter shall only be used for conservation purposes in existing structures, and such financing shall not be used for any purpose which results in a conversion from one energy source to another. For the purposes of this section, "conservation purposes in existing structures" may include projects to allow a municipal electric utility's customers to generate all or a portion of their own electricity through the on-site installation of a distributed electricity generation system

that uses as its fuel solar, wind, geothermal, or hydropower, or other renewable resource that is available on-site and not from a commercial source. Such projects shall not be considered "a conversion from one energy source to another" which is limited to the change or substitution of one commercial energy supplier for another commercial energy supplier. Except where otherwise authorized, such assistance shall be limited to:

((1)) (a) Providing an inspection of the structure or equipment, either directly or through one or more inspectors under contract, to determine and inform the owner of the estimated cost of purchasing and installing conservation materials and equipment for which financial assistance will be approved and the estimated life cycle savings in energy costs that are likely to result from the installation of such materials or equipment;

recommendations on management practices to conserve, protect, and develop oyster reserve lands. The advisory committees may make recommendations regarding the management practices on oyster reserve lands, in particular to ensure that they are managed in a manner that will: (a) Increase revenue through production of high-value shellfish; (b) not be detrimental to the market for shellfish grown on nonreserve lands; and (c) avoid negative impacts to existing shellfish populations. The advisory committees may also make recommendation on the distribution of funds in RCW 77.60.160(2)(a). The department shall attempt to structure each advisory committee to include equal representation between shellfish growers that participate in reserve sales and shellfish growers that do not.

~~(3) (The department shall submit a brief progress report on the status of the pilot programs to the appropriate standing committees of the legislature by January 7, 2003.~~

~~(4))~~ The department of natural resources, in consultation with the department of fish and wildlife, shall administer the leases for oyster reserves entered into under this chapter. In administering the leases, the department of natural resources shall exercise its authority under RCW ~~((79.96.090))~~ 79.135.300. Vacation of state oyster reserves by the department ~~((of fish and wildlife))~~ shall not be a requirement for the department of natural resources to lease any oyster reserves under this section. The department of natural resources may recover reasonable costs directly associated with the administration of the leases for oyster reserves entered into under this chapter. All administrative fees collected by the department of natural resources pursuant to this section shall be deposited into the resource management cost account established in RCW 79.64.020. other means to achieve salmon recovery without converting farmland. The proposal shall include methods to increase fish passage and otherwise enhance intertidal habitat on public lands pursuant to subsection (2) of this section, voluntary methods to increase fish passage on private lands, a priority list of intertidal salmon enhancement projects, and recommendations for funding of high priority projects. The task force also may propose pilot projects that will be designed to test and measure the success of various proposed strategies.

(2) In conjunction with other public landowners and the appropriate task force formed under RCW 77.85.220, the department shall develop an initial salmon intertidal habitat enhancement plan for public lands in the county. The initial plan shall include a list of public properties in the intertidal zone that could be enhanced for salmon, a description of how those properties could be altered to support salmon, a description of costs and sources of funds to enhance the property, and a strategy and schedule for prioritizing the enhancement of public lands for intertidal salmon habitat. This initial plan shall be submitted to the appropriate task force at least six months before the deadline established in subsection (3) of this section.

(3) The final intertidal salmon enhancement plan shall be completed within two years from the date the task force is formed under RCW 77.85.220 and funding has been secured. No project included on a habitat project list shall be considered mandatory in nature and no private landowner may be forced or coerced into participation in any respect. The lead entity may be a county, city, conservation district, special district, tribal government, regional recovery organization, or other entity.

(b) The lead entity shall establish a committee that consists of representative interests of counties, cities, conservation districts, tribes, environmental groups, business interests, landowners, citizens, volunteer groups, regional fish enhancement groups, and other habitat interests. The purpose of the committee is to provide a citizen-based evaluation of the projects proposed to promote salmon habitat.

(c) The committee shall compile a list of habitat projects, establish priorities for individual projects, define the sequence for project implementation, and submit these activities as the habitat project list. The committee shall also identify potential federal, state, local, and private funding sources.

(2) The area covered by the habitat project list must be based, at a minimum, on a WRIA, combination of WRIs, or any other area as agreed to by the counties, cities, and tribes in resolutions or in letters of support meeting the requirements of this subsection. Preference will be given to projects in an area that contain a salmon species that is listed or proposed for listing under the federal endangered species act.

(3) The lead entity shall submit the habitat project list to the ~~((salmon recovery funding))~~ salmon recovery funding board in accordance with procedures adopted by the board.

Sec. 26. RCW 77.120.030 and 2007 c 350 s 10 are each amended to read as follows:

(1) The owner or operator in charge of any vessel covered by this chapter is required to ensure that the vessel under their ownership or control does not discharge ballast water into the waters of the state except as authorized by this section.

(2) Discharge of ballast water into waters of the state is authorized only if there has been an open sea exchange, or if the

NINETY-THIRD DAY, APRIL 14, 2009

2009 REGULAR SESSION

vessel has treated its ballast water, to meet standards set by the department consistent with applicable state and federal laws.

(3) The department, in consultation with ~~((the ballast water work group, or similar))~~ a collaborative forum, shall adopt by rule standards for the discharge of ballast water into the waters of the state and their implementation timelines. The standards are intended to ensure that the discharge of ballast water poses minimal risk of introducing nonindigenous species. In developing these standards, the department shall consider the extent to which the requirement is technologically and practically feasible. Where practical and appropriate, the standards must be compatible with standards set by the United States coast guard, the federal clean water act (33 U.S.C. Sec. 1251-1387), or the international maritime organization.

(4) The master, operator, or person in charge of a vessel is not required to conduct an open sea exchange or treatment of ballast water if the master, operator, or person in charge of a vessel determines that the operation would threaten the safety of the vessel, its crew, or its passengers, because of adverse weather, vessel design limitations, equipment failure, or any other extraordinary conditions. A master, operator, or person in charge of a vessel who relies on this exemption must file documentation defined by the department, subject to: (a) Payment of a fee not to exceed five thousand dollars; (b) discharging only the minimal amount of ballast water operationally necessary; (c) ensuring that ballast water records accurately reflect any reasons for not complying with the mandatory requirements; and (d) any other requirements identified by the department by rule as provided in subsections (3) and (6) of this section.

(5) For treatment technologies requiring shipyard modification, the department may enter into a compliance plan with the vessel owner. The compliance plan must include a timeline consistent with drydock and shipyard schedules for completion of the modification. The department shall adopt rules for compliance plans under this subsection.

(6) For an exemption claimed in subsection (4) of this section, the department shall adopt rules for defining exemption conditions, requirements, compliance plans, or alternative ballast water management strategies to meet the intent of this section.

(7) The department shall make every effort to align ballast water standards with adopted international and federal standards while ensuring that the goals of this chapter are met.

(8) The requirements of this section do not apply to a vessel discharging ballast water or sediments that originated solely within the waters of Washington ~~((state))~~, the Columbia river system, or the internal waters of British Columbia south of latitude fifty degrees north, including the waters of the Straits of Georgia and Juan de Fuca.

(9) Open sea exchange is an exchange that occurs fifty or more nautical miles offshore. If the United States coast guard requires a vessel to conduct an exchange further offshore, then that distance is the required distance for purposes of compliance with this chapter.

Sec. 27. RCW 77.120.110 and 2007 c 350 s 14 are each amended to read as follows:

(1) The ballast water management account is created in the state treasury. All receipts from legislative appropriations, gifts, grants, donations, penalties, and fees received under this chapter must be deposited into the account.

Unless already held by, sold, destroyed, or disposed of by the department, the court shall order such fish or wildlife to be delivered to the department. Where delay will cause loss to the value of the property and a ready wholesale buying market exists, the department may sell property to a wholesale buyer at a fair market value.

(2) When seized property is forfeited to the department, the department may retain it for official use unless the property is required to be destroyed, or upon application by any law enforcement agency of the state, release the property to the agency for the use of enforcing this title, or sell such property and deposit the proceeds into the ~~(state wildlife fund)~~ fish and wildlife enforcement reward account established under RCW ~~((77.12.170))~~ 77.15.425. Charter boat or guide operators issuing temporary short-term charter stamp licenses shall affix the stamp to each catch record card issued before fishing commences. Catch record cards issued with a temporary short-term charter stamp are valid for one day.

(4) The department shall include provisions for recording marked and unmarked salmon in catch record cards issued after March 31, 2004.

Proceeds from the sale of the decal must be deposited into the state wildlife ~~((fund))~~ account created in RCW 77.12.170 and must be dedicated to the support of the department's watchable wildlife activities. The department may also use proceeds from the sale of the decal for marketing the decal and for marketing watchable wildlife activities in the state.

NEW SECTION. Sec. 44. Whenever any personal property comes into the possession of the officers of the department in connection with the official performance of their duties and the personal property remains unclaimed or not taken away for a period of sixty days from the date of written notice to the owner thereof, if known, which notice shall inform the owner of the disposition that may be made of the property under this section and the time that the owner has to claim the property and in all other cases for a period of sixty days from the time the property came into the possession of the department, unless the property has been held as evidence in any court, then, in that event, after sixty days from date when the case has been finally disposed of and the property released as evidence by order of the court, the department may:

(2) Retain the property for the use of the department subject to giving notice in the manner prescribed in RCW 63.35.030 and the right of the owner, or the owner's legal representative, to reclaim the property within one year after receipt of notice, without compensation for ordinary wear and tear if, in the opinion of the director, the property consists of firearms or other items specifically usable in law enforcement work. At the end of each calendar year during which there has been such a retention, the department shall provide the office of financial management and retain for public inspection a list of such retained items and an estimation of each item's replacement value;

(3) Destroy an item of personal property at the discretion of the director if the director determines that the following circumstances have occurred:

(5) At the end of one year, any unclaimed firearm must be disposed of pursuant to RCW 9.41.098(2). Any other item that is not unsafe or illegal to possess or sell, but has been, or may be used, in the judgment of the director, in a manner that is illegal, may be destroyed.

NEW SECTION. Sec. 45. Before the personal property shall be sold, a notice of such a sale fixing the time and place thereof which shall be at a suitable place, which will be noted in the advertisement for sale, and containing a description of the property to be sold must be published at least once in a newspaper of general circulation in the county in which the property is to be sold at least ten days prior to the date fixed for the auction. The notice must be signed by the director. If the owner fails to reclaim the property prior to the time fixed for the sale in such a notice, the director shall conduct the sale and sell the property described in the notice at public auction to the highest and best bidder for cash, and upon payment of the amount of the bid shall deliver the property to the bidder.

NEW SECTION. Sec. 47. NEW SECTION. Sec. 49. In addition to any other method of disposition of unclaimed property provided under this chapter, the department may donate unclaimed personal property to nonprofit charitable organizations. A nonprofit charitable organization receiving personal property donated under this section must use the property, or its proceeds, to benefit needy persons. The charitable organization must qualify for tax-exempt status under 26 U.S.C. Sec. 501(c)(3) of the federal internal revenue code.

NEW SECTION. Sec. 50. Sections 44 through 49 of this act constitute a new chapter in Title 77 RCW.

NEW SECTION. Sec. 51. RCW 77.12.065 (Wildlife viewing tourism) and 2003 c 183 s 1 are each repealed.

Sec. 52. RCW 77.12.820 and 1997 c 422 s 5 are each amended to read as follows:

The eastern Washington pheasant enhancement account is created in the custody of the state treasurer. All receipts under RCW 77.12.810 must be deposited in the account. The account may be used to offer grants to improve pheasant habitat on public or private lands that are open to public hunting. The department shall submit an

NINETY-THIRD DAY, APRIL 14, 2009

2009 REGULAR SESSION

annual report to the appropriate committees of the legislature by December 1st regarding the department's eastern Washington pheasant activities.

NEW SECTION. Sec. 53. (1) The legislature finds that healthy wildlife populations are a valuable and treasured public resource to the people of the state of Washington. However, the legislature also finds that as the human population increases and encroaches on wildlife habitat, interactions between humans and wildlife will become more frequent.

(2) The legislature further finds that interactions between humans and wildlife can have significant financial impacts on the affected landowner. Although the resulting wildlife damage is felt most closely by the landowner, the general public, as beneficiaries and stewards of healthy wildlife populations, should bear some responsibility, as outlined in and limited by this act, for providing a measure of restitution to the impacted landowner, provided that the landowner has exhausted all legal, practicable self-help methods available to prevent wildlife damage from occurring.

(3) The legislature further finds that the commercial agriculture, horticulture, and livestock industries are important components of the state economy that can be negatively impacted by interactions with wildlife. However, the legislature also finds that other landowners, both commercial and residential, may be faced with wildlife interactions that result in property damage. It is the intent of the legislature to craft a solution whereby all property owners have a potential avenue to petition the state for some mitigation of the damages caused by wildlife.

(4) The legislature further finds that it is in the best interests of the state for the department of fish and wildlife to respond quickly to wildlife damage complaints and to work with those affected to prevent and minimize negative interactions while maintaining healthy wildlife populations.

(5) The legislature further finds that negative wildlife interactions can be best reduced by encouraging landowners to contribute, through their land management practices, to healthy wildlife populations and to provide access for related recreation.

Sec. 54. RCW 77.36.010 and 1996 c 54 s 2 are each amended to read as follows:

~~((Unless otherwise specified,))~~ ~~The ((following))~~ definitions in this section apply throughout this chapter ~~((+))~~ unless the context clearly requires otherwise.

(1) "Claim" means an application to the department for compensation under this chapter.

(2) "Commercial crop" means a ~~((commercially raised))~~ horticultural ~~((and/or))~~ or agricultural product ~~((and includes))~~, including the growing or harvested product ~~((but does not include livestock))~~. For the purposes of this chapter all parts of horticultural trees shall be considered a commercial crop and shall be eligible for claims.

~~((2))~~ "Emergency" means an unforeseen circumstance beyond the control of the landowner or tenant that presents a real and immediate threat to crops, domestic animals, or fowl.

(3) "Commercial livestock" means cattle, sheep, and horses held or raised by a person for sale.

(4) "Compensation" means a cash payment, materials, or service.

(5) "Damage" means economic losses caused by wildlife interactions.

(6) "Immediate family member" means spouse, state registered domestic partner, brother, sister, grandparent, parent, child, or grandchild.

(7) "Owner" means a person who has a legal right to commercial crops, commercial livestock, or other property that was damaged during a wildlife interaction.

(8) "Wildlife interaction" means the negative interaction and the resultant damage between wildlife and commercial crops, commercial livestock, or other property.

NEW SECTION. Sec. 55. A new section is added to chapter 77.36 RCW to read as follows:

(1)(a) Except as limited by RCW 77.36.070 and 77.36.080, the department shall offer to distribute money appropriated to pay claims to the owner of commercial crops for damage caused by wild deer or elk or to the owners of commercial livestock that has been killed by bears, wolves, or cougars, or injured by bears, wolves, or cougars to such a degree that the market value of the commercial livestock has been diminished. Payments for claims for damage to commercial livestock are not subject to the limitations of RCW 77.36.070 and 77.36.080, but may not exceed the total amount specifically appropriated therefor.

(b) Owners of commercial crops or commercial livestock are only eligible for a claim under this subsection if:

(i) The owner satisfies the definition of "eligible farmer" in RCW 82.08.855;

(ii) The conditions of section 56 of this act have been satisfied; and

(iii) The damage caused to the commercial crop or commercial livestock satisfies the criteria for damage established by the commission under this subsection.

(c) The commission shall adopt and maintain by rule criteria that clarifies the damage to commercial crops and commercial livestock qualifying for compensation under this subsection. An owner of a commercial crop or commercial livestock must satisfy the criteria prior to receiving compensation under this subsection. The criteria for damage adopted under this subsection must include, but not be limited to, a required minimum economic loss to the owner of the commercial crop or commercial livestock, which may not be set at a value of less than five hundred dollars.

(2)(a) The department may offer to provide noncash compensation only to offset wildlife interactions to a person who applies to the department for compensation for damage to property other than commercial crops or commercial livestock that is the result of a mammalian or avian species of wildlife on a case-specific basis if the conditions of section 56 of this act have been satisfied and if the damage satisfies the criteria for damage established by the commission under this subsection.

(b) The commission shall adopt and maintain by rule criteria for damage to property other than a commercial crop or commercial livestock that is damaged by wildlife and may be eligible for compensation under this subsection, including criteria for filing a claim for compensation under this subsection.

(3)(a) To prevent or offset wildlife interactions, the department may offer materials or services to a person who applies to the department for assistance in providing mitigating actions designed to reduce wildlife interactions if the actions are designed to address damage that satisfies the criteria for damage established by the commission under this subsection.

(b) The commission shall adopt and maintain by rule criteria for mitigating actions designed to address wildlife interactions that may be eligible for materials and services under this section, including criteria for submitting an application under this section.

(4) An owner who files a claim under this section may appeal the decision of the department pursuant to rules adopted by the commission if the claim:

(a) Is denied; or

(b) Is disputed by the owner and the owner disagrees with the amount of compensation determined by the department.

NEW SECTION. Sec. 56. A new section is added to chapter 77.36 RCW to read as follows:

(1) No owner may receive compensation for wildlife interactions under this chapter unless the owner has, as determined by the department, first:

(a) Utilized applicable legal and practicable self-help preventive measures available to prevent the damage, including

the use of nonlethal methods and department-provided materials and services when available under section 55 of this act; and

(b) Exhausted all available compensation options available from nonprofit organizations that provide compensation to private property owners due to financial losses caused by wildlife interactions.

(2) In determining if the requirements of this section have been satisfied, the department may recognize and consider the following:

(a) Property losses may occur without future or anticipated knowledge of potential problems resulting in an owner being unable to take preemptive measures.

(b) Normal agricultural practices, animal husbandry practices, recognized standard management techniques, and other industry-recognized management practices may represent adequate preventative efforts.

(c) Under certain circumstances, as determined by the department, wildlife may not logistically or practicably be managed by nonlethal efforts.

(d) Not all available legal preventative efforts are cost-effective for the owner to practicably employ.

(e) There are certain effective preventative control options not available due to federal or state restrictions.

(f) Under certain circumstances, as determined by the department, permitting public hunting may not be a practicable self-help method due to the size and nature of the property, the property's setting, or the ability of the landowner to accommodate public access.

(3) An owner is not eligible to receive compensation if the damages are covered by insurance.

(4) The commission shall adopt rules implementing this section, including requirements that owners document nonlethal preventive efforts undertaken and all permits issued by the department under RCW 77.12.240 and 77.12.150.

NEW SECTION. Sec. 57. A new section is added to chapter 77.36 RCW to read as follows:

The department shall establish:

(1) The form of affidavits or proof required to accompany all claims under this chapter;

(2) The process, time, and methods used to identify and assess damage, including the anticipated timeline for the initiation and conclusion of department action;

(3) How claims will be prioritized when available funds for reimbursement are limited;

(4) Timelines after the discovery of damage by which an owner must file a claim or notify the department;

(5) Protocols for an owner to follow if the owner wishes to undertake activities that would complicate the determination of damages, such as harvesting damaged crops;

(6) The process for determining damage assessments, including the role and selection of professional damage assessors and the responsibility for reimbursing third-party assessors for their services;

(7) Timelines for a claimant to accept, reject, or appeal a determination made by the department;

(8) The identification of instances when an owner would be ineligible for compensation;

(9) An appeals process for an owner eligible for compensation under section 55 of this act who is denied a claim or feels the compensation is insufficient; and

(10) Other policies necessary for administering this chapter.

NEW SECTION. Sec. 58. A new section is added to chapter 77.36 RCW to read as follows:

(1) Except as otherwise provided in this section and as limited by section 55 of this act and RCW 77.36.070 and 77.36.080, the cash compensation portion of each claim by the department under this chapter is limited to the lesser of:

(a) The value of the damage to the property by wildlife reduced by the amount of compensation provided to the

claimant by any nonprofit organizations that provide compensation to private property owners due to financial losses caused by wildlife interactions, except that, subject to appropriation to pay compensation for damage to commercial livestock, the value of killed or injured commercial livestock may be no more than two hundred dollars per sheep, one thousand five hundred dollars per head of cattle, and one thousand five hundred dollars per horse; or

(b) Ten thousand dollars.

(2) The department may offer to pay a claim for an amount in excess of ten thousand dollars to the owners of commercial crops or commercial livestock filing a claim under section 55 of this act only if the outcome of an appeal filed by the claimant under section 55 of this act determines a payment higher than ten thousand dollars.

(3) All payments of claims by the department under this chapter must be paid to the owner of the damaged property and may not be assigned to a third party.

(4) The burden of proving all property damage, including damage to commercial crops and commercial livestock, belongs to the claimant.

Sec. 59. RCW 77.36.070 and 1996 c 54 s 8 are each amended to read as follows:

The department may pay no more than one hundred twenty thousand dollars per fiscal year from the state wildlife ((fund)) account created in RCW 77.12.170 for claims ((under RCW 77.36.040 and for assessment costs and compromise of claims. Such money shall be used to pay animal damage claims only if the claim meets the conditions of RCW 77.36.040 and the damage occurred in a place where the opportunity to hunt was not restricted or prohibited by a county, municipality, or other public entity during the season prior to the occurrence of the damage)) and assessment costs for damage to commercial crops caused by wild deer or elk submitted under section 55 of this act.

Sec. 60. RCW 77.36.080 and 1996 c 54 s 9 are each amended to read as follows:

Such money shall be used to pay animal damage claims only if the claim meets the conditions of RCW 77.36.040 and the damage occurred in a place where the opportunity to hunt was restricted or prohibited by a county, municipality, or other public entity during the season prior to the occurrence of the damage)) and assessment costs for damage to commercial crops caused by wild deer or elk submitted under section 55 of this act.

((It))

(b) After an emergency declaration, the department may pay as much as may be subsequently appropriated, in addition to the funds authorized under subsection (1) of this section, for claims and assessment costs under ((RCW 77.36.040 and for assessment and compromise of claims)) section 55 of this act. Such money shall be used to pay ((animal damage)) wildlife interaction claims only if the claim meets the conditions of ((RCW 77.36.040)) section 55 of this act and the department has expended all funds authorized under RCW 77.36.070 or subsection (1) of this section.

The director may delegate, in writing, to department personnel the duties and powers necessary for efficient operation and administration of the department.

(4) Only persons having general knowledge of the fisheries and wildlife resources and of the commercial and recreational fishing industry in this state are eligible for appointment as director. The director shall not have a financial interest in the fishing industry or a directly related industry.

(5) The director shall receive the salary fixed by the governor under RCW 43.03.040.

(6) The director is the ex officio secretary of the commission and shall attend its meetings and keep a record of its business.

Sec. 76. RCW 77.04.055 and 2000 c 107 s 204 are each amended to read as follows:

(1) In establishing policies to preserve, protect, and perpetuate wildlife, fish, and wildlife and fish habitat, the commission shall meet annually with the governor to:

(b) Review the performance of the department in implementing fish and wildlife policies.

The commission shall maximize fishing, hunting, and outdoor recreational opportunities compatible with healthy and diverse fish and wildlife populations.

Sec. 77. RCW 77.04.013 and 1995 1st sp.s. c 2 s 1 are each amended to read as follows:

The legislature supports the recommendations of the state fish and wildlife commission with regard to the commission's responsibilities in the merged department of fish and wildlife. It is the intent of the legislature that, beginning July 1, 1996, the commission assume regulatory authority for food fish and shellfish in addition to its existing authority for game fish and wildlife. It is also the intent of the legislature to provide to the commission the authority to review and approve department agreements, to review and approve the department's budget proposals, to adopt rules for the department, ~~((and))~~ to select commission staff, and to advise the governor regarding appointment of the director of the department.

The legislature finds that all fish, shellfish, and wildlife species should be managed under a single comprehensive set of goals, policies, and objectives, and that the decision-making authority should rest with the fish and wildlife commission. The commission acts in an open and deliberative process that encourages public involvement and increases public confidence in department decision making.

NEW SECTION. Sec. 78. A new section is added to chapter 77.04 RCW to read as follows:

The commission must provide an opportunity for the public to provide oral and written comments at any regular or special meeting of the commission held pursuant to RCW 77.04.060. Additionally, at any open public meeting convened pursuant to chapter 42.30 RCW or any gathering open to the public for purposes of providing information to the public or accepting public input, the commission, department, or both must provide the public an opportunity to: Provide written comments; and provide oral comments to the commission, department, or both, while addressing all in attendance.

commission. A transaction fee on recreational documents issued through an automated licensing system may be set by the commission and collected from licensees. The department may authorize all or part of such fee to be paid directly to a contractor providing automated licensing system services. Fees retained by dealers shall be uniform throughout the state. The department shall authorize dealers to collect and retain dealer fees of at least two dollars for purchase of a standard hunting or fishing recreational license document, except that the commission may set a lower dealer fee for issuance of tags or when a licensee buys a license that involves a stamp or display card format rather than a standard department licensing document form.

(2) For the 2009-2011 biennium, the department may authorize an additional transaction fee on recreational documents of no greater than ten percent of the cost of a recreational document issued under this section, including a recreational license, permit, tag, stamp, or raffle ticket. The transaction fees shall be deposited into the state wildlife account as created in RCW 77.12.170.

NEW SECTION. Sec. 80. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

Senator Jacobsen spoke in favor of adoption of the committee striking amendment.

POINT OF ORDER

Senator Zarelli: "Thank you Mr. President. I rise to a point of order that senate amendment 2921.1 is beyond the scope and object of the bill. The substitute bill that passed the House dealt with enforcement and licensing issues governing the Department of Fish & Wildlife including some of the following: rules of the Fish & Wildlife Commission in the list of civulant fractions that can give rise to license revocation; changing the name, scope and jurisdiction of salmon guide licenses; allowing the use of two fishing poles per license holder for use on selected waters. The scope of this amendment that goes into 1778 goes far beyond dealing with enforcement and licensing issues and instead makes substantial changes to the structure of the Fish & Wildlife Commission itself by reducing the number and length of terms of commissioners, changing the geographical residency requirements of the commissioners and transferring the authority to appoint the director from the Commission to the Governor.

The idea of changing the structure of the Commission may seem familiar to this body at it was similar to language including in Senate Bill No. 5127 that did not pass House committee deadline. Altering the structure of the Fish & Wildlife Commission however is an entirely different subject from the Department of Fish & Wildlife enforcement or licensing authority as a result 5127 was inappropriately revived in this amendment. Mr. President, to change the structure of the Commission in this amendment is beyond the scope and object of Substitute House Bill No. 1778 and I respectfully request that you rule accordingly."

REMARKS BY SENATOR JACOBSEN

Senator Jacobsen: "Thank you Mr. President. I assert the striking amendment to Substitute House Bill No. 1778 is squarely within the scope and object of the underlying bill. The underlying bill is an omnibus bill designed to modernize provisions of Title 77 regarding Fish & Wildlife. When this bill came over from the House the bill dealt broadly with fish & wildlife resource management and the operation of Department of Fish & Wildlife including, I'll be glad to submit all the options in writing, and that such as the underlying omnibus substitute house bill makes changes throughout the fish & wildlife statutes that dealt with the very duties of the department as well as the operation. The striking amendment deals with the management of fish & wildlife resources and the operations of Department of Fish & Wildlife like the underlying bill. Therefore, I respectfully request that you rule the striking amendment within the scope and object of the underlying bill. Thank you Mr. President."

MOTION

On motion of Senator Eide, further consideration of Substitute House Bill No. 1778 was deferred and the bill held its place on the second reading calendar.

SECOND READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1379, by House Committee on Local Government & Housing (originally sponsored by Representatives Seaquist, Angel and Liias)

Regarding moratoria and other interim official controls adopted under the shoreline management act.

The measure was read the second time.

MOTION

Senator Fraser moved that the following committee striking amendment be adopted by the Committee on Government Operations & Elections be adopted.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature recognizes that cities and counties have moratoria authority granted through constitutional and statutory provisions and that this authority, when properly exercised, is an important aspect of complying with environmental stewardship and protection requirements.

Recognizing the fundamental role and value of properly exercised moratoria, the legislature intends to establish new moratoria procedures and to affirm moratoria authority that local governments have and may exercise and when implementing the shoreline management act.

NEW SECTION. Sec. 2. A new section is added to chapter 90.58 RCW to read as follows:

(1) Local governments may adopt moratoria or other interim official controls as necessary and appropriate to implement this chapter.

(2)(a) A local government adopting a moratorium or control under this section must:

(i) Hold a public hearing on the moratorium or control;

(ii) Adopt detailed findings of fact that include, but are not limited to justifications for the proposed or adopted actions and explanations of the desired and likely outcomes;

(iii) Notify the department of the moratorium or control immediately after its adoption. The notification must specify the time, place, and date of any public hearing required by this subsection.

(b) The public hearing required by this section must be held within sixty days of the adoption of the moratorium or control.

(3) A moratorium or control adopted under this section may be effective for up to six months if a detailed work plan for remedying the issues and circumstances necessitating the moratorium or control is developed and made available for public review. A moratorium or control may be renewed for two six-month periods if the local government complies with subsection (2)(a) of this section before each renewal. If a moratorium or control is in effect on the date a proposed master program or amendment is submitted to the department, the moratorium or control must remain in effect until the department's final action under RCW 90.58.090; however, the moratorium expires six months after the date of submittal if the department has not taken final action.

(4) Nothing in this section may be construed to modify county and city moratoria powers conferred outside this chapter."

Senator Fraser spoke in favor of adoption of the committee striking amendment.

MOTION

Senator Fraser moved that the following amendment by Senator Fraser and others to the committee striking amendment be adopted.

On page 1, beginning on line 3 of the amendment, after "**Sec. 1.**" strike all material through "requirements." on line 7 and insert "The legislature recognizes that the state, counties, and cities have moratoria authority granted through constitutional and statutory provisions and that this authority, when properly exercised, is an important aspect of complying with environmental stewardship and protection requirements."

On page 2, after line 14 of the amendment, insert the following:

"NEW SECTION. Sec. 3. (1) The legislature finds that a special height moratorium is necessary along the shoreline known as the "Olympia Isthmus" located in the city of Olympia between Capitol Lake and Budd Inlet, which should hereinafter be designated a "shoreline of statewide significance."

(2) The legislature further finds that:

(a) The shoreline along Capitol Lake is part of the Heritage park area of the state capitol campus, in which the state of Washington has invested millions of dollars to improve and make available for statewide public use, education, and appreciation. It is also an important element of the scenic, historic vista northward from the capitol campus, in which the state of Washington and nonprofit organizations have invested millions of dollars to construct excellent public viewing opportunities of the north capitol campus and other sights of both statewide and national significance;

(b) The state of Washington is continuing to invest millions of dollars in water quality improvements along both Capitol Lake and Budd Inlet shorelines;

(c) The Olympia Isthmus as a whole is historically significant, fragile, and a major contributor to significant

changes to the natural estuary area of the area. The Olympia Isthmus was constructed by fill in early 1911, with the reflecting lake created in the 1950s when the dam was constructed at what is now called the Deschutes spillway;

(d) The vista is an integral part of the design of the state capitol campus. The state's founders sited the capitol campus in its location principally to take advantage of this expansive vista. The vista: Is representative of much of the physical characteristics of very large areas of the state; provides a visual and physical connection between the capitol and the Puget Sound; is inspirational; and promotes an appreciation of the scenic grandeur and rich natural resources of our state; and

(e) The Washington state capitol, together with its spectacular location, is a state and national treasure that has been passed down from one generation to another.

(3) The legislature intends that the Olympia Isthmus be declared to be a shoreline of statewide significance through the shoreline management act to advance the public interest and to protect public investments.

(4) This state and national treasure has been passed down from one generation to another. It includes public vistas of Budd Inlet, south Puget Sound, the Olympic mountains, and a broad range of forested hills.

(5) Therefore, it is the intent of the legislature to take steps to protect this state and national scenic and historic asset.

(i) Any county or city may determine that portion of a one-hundred-year-flood plain to be included in its master program as long as such portion includes, as a minimum, the floodway and the adjacent land extending landward two hundred feet therefrom.

(ii) Any city or county may also include in its master program land necessary for buffers for critical areas, as defined in chapter 36.70A RCW, that occur within shorelines of the state, provided that forest practices regulated under chapter 76.09 RCW, except conversions to nonforest land use, on lands subject to the provisions of this subsection (2)(f)(ii) are not subject to additional regulations under this chapter;

(3) Procedural terms:

(a) "Guidelines" means those standards adopted to implement the policy of this chapter for regulation of use of the shorelines of the state prior to adoption of master programs. Such standards shall also provide criteria to local governments and the department in developing master programs;

(b) "Master program" shall mean the comprehensive use plan for a described area, and the use regulations together with maps, diagrams, charts, or other descriptive material and text, a statement of desired goals, and standards developed in accordance with the policies enunciated in RCW 90.58.020;

(viii) Operation, maintenance, or construction of canals, waterways, drains, reservoirs, or other facilities that now exist or are hereafter created or developed as a part of an irrigation system for the primary purpose of making use of system waters, including return flow and artificially stored groundwater for the irrigation of lands;

~~(a) Either (i) identify each person or entity owning real property situated within the area to be adjudicated but outside the boundaries of a city, town, or special purpose district that provides water to property within its service area; (ii) identify all known persons claiming a right to the water sought to be determined; or (iii) identify both; and~~

~~(b) Include a brief statement of the facts in relation to such water, and the necessity for a determination of the rights thereto.~~

~~(2) Prior to filing an adjudication under this chapter, the department shall:~~

~~(a) Consult with the administrative office of the courts to determine whether sufficient judicial resources are available to commence and to prosecute the adjudication in a timely manner; and~~

~~(b) Report to the appropriate committees of the legislature on the estimated budget needs for the court and the department to conduct the adjudication.~~

Sec. 2. RCW 90.03.120 and 1987 c 109 s 73 are each amended to read as follows:

(1) Upon the filing of the statement and map as provided in RCW 90.03.110 the judge of such superior court shall make an order directing summons to be issued, and fixing the return day thereof, which shall be not less than ~~((sixty))~~ one hundred nor more than ~~((ninety))~~ one hundred thirty days, after the making of such order: PROVIDED, That for good cause, the court, at the request of the department, may modify said time period.

(2) A summons issued under this section shall ~~((thereupon))~~ be issued out of said superior court, signed and attested by the clerk thereof, in the name of the state of Washington, as plaintiff, against all known persons ~~((claiming the right to divert the water involved and also all persons unknown claiming the right to divert the water involved, which said))~~ identified by the department under RCW 90.03.110. The summons shall contain a brief statement of the objects and purpose of the proceedings and shall require the defendants to appear on the return day thereof, and make and file ~~((a statement of))~~ an adjudication claim to, or interest in, the water involved and a statement that unless they appear at the time and place fixed and assert such right, judgment will be entered determining their rights according to the evidence: PROVIDED, HOWEVER, That any persons claiming the right to ((the use of)) water by virtue of a contract with a claimant to the right to divert the same, shall not be necessary parties to the proceeding.

(3) To the extent consistent with court rules and subject to the availability of funds provided either by direct appropriation or funded through the administrative office of the courts for this specific adjudicative proceeding, the court is encouraged to conduct the water rights adjudication employing innovative practices and technologies appropriate to large scale and complex cases, such as: (a) Electronic filing of documents, including notice and claims; (b) appearance via teleconferencing; (c) prefiling of testimony; and (d) other practices and technologies consistent with court rules and emerging technologies.

NEW SECTION. Sec. 3. A new section is added to chapter 90.03 RCW to read as follows:

(1) A judge in a water right adjudication filed under this chapter may be partially or fully disqualified from hearing the adjudication. Partial disqualification means disqualification from hearing specified claims. Full disqualification means disqualification from hearing any aspect of the adjudication.

(a) A judge is partially disqualified when the judge's impartiality might reasonably be questioned and the apparent or actual partiality is limited to specified claims.

(b) A judge is fully disqualified when the judge's impartiality might reasonably be questioned and the apparent or actual partiality extends beyond limited claims such that the judge should not hear any part of the adjudication.

(2) A judge may recuse himself or herself under this section or a party may file a motion for disqualification. A motion for disqualification must state whether the remedy being sought is full or partial disqualification.

(3)(a) For parties who are named in the original pleadings, a motion for disqualification is timely if it is filed before the judge issues a discretionary order or ruling in the adjudication.

(b) For a party who is joined in the adjudication after the original pleadings have been filed, a motion for disqualification is timely if it is filed within the earliest of either (i) thirty days of being joined in the adjudication; or (ii) after the joinder of the party, before the judge issues a discretionary order or ruling relating to the joined party.

(c) When a motion for disqualification is untimely filed under this subsection (3), the motion will be granted only when necessary to correct a substantial injustice.

(d) For purposes of this section, "discretionary order or ruling" has the same meaning as "order or ruling involving discretion" in RCW 4.12.050.

(4) A party filing a motion for disqualification under this section has the burden of proving by a preponderance of the evidence that the judge should be disqualified under the standards of subsection (1) of this section.

(5) The motion for disqualification may not be heard by the judge against whom the motion is filed. Subject to this limitation, the court may assign the disqualification motion to any superior court judge of the judicial district in which the adjudication was filed or to a visiting superior court judge under RCW 2.56.040.

(6) Except as stated in subsection (3)(d) of this section, RCW 4.12.040 and 4.12.050, which otherwise govern the disqualification of superior court judges, do not apply to water right adjudications filed under this chapter. The standards set forth in RCW 2.28.030, which govern the disqualification of judicial officers generally, may be grounds for disqualification under this section.

NEW SECTION. Sec. 4. A new section is added to chapter 90.03 RCW to read as follows:

Upon expiration of the filing period established under RCW 90.03.120(2), the department shall file a motion for default against defendants who have been served but who have failed to file an adjudication claim under RCW 90.03.140. A party in default may file a late claim under the same circumstances the party could respond or defend under court rules on default judgments.

NEW SECTION. Sec. 5. A new section is added to chapter 90.03 RCW to read as follows:

If an adjudication claim is for a use for which a statement of claim was required to be filed under chapter 90.14 RCW and no such claim was filed, the department may move that the adjudication claim be denied. The court shall grant the department's motion unless the claimant shows good cause why the motion should not be granted.

Sec. 6. RCW 90.03.130 and 1987 c 109 s 74 are each amended to read as follows:

Service of said summons shall be made in the same manner and with the same force and effect as service of summons in civil actions commenced in the superior courts of the state: PROVIDED, That ~~((for good cause, the court, at the request of the department, as an alternative to personal service, may authorize service of summons to be))~~ as an alternative to personal service, service may be made by certified mail, with return receipt signed and dated by defendant, a spouse of a defendant, or another person authorized to accept service. If the defendants, or either of them, cannot be found within the state of

For summons by certified mail, completion of service occurs upon the date of receipt by the defendant.

NEW SECTION. Sec. 8. A new section is added to chapter 90.03 RCW to read as follows:

Within the date set by the court for filing evidence, each claimant shall file with the court evidence to support the claimant's adjudication claims. The court is encouraged to set a date for filing evidence that is reasonable and fair for the timely processing of the adjudication. The evidence may include, without limitation, permits or certificates of water right, statements of claim made under chapter 90.14 RCW, deeds, documents related to issuance of a land patent, aerial photographs, decrees of previous water rights adjudications, crop records, records of livestock purchases and sales, records of power use, metering records, declarations containing testimonial evidence, records of diversion, withdrawal or storage and delivery by irrigation districts or ditch companies, and any other evidence to support that a water right was obtained and was not thereafter abandoned or relinquished. The evidence filed may include matters that are outside the original adjudication claim filed, and within the date set by the court for filing evidence, the claimant may amend the adjudication claim to conform to the evidence filed. Thereafter, except for good cause shown, a claimant may not file additional evidence to support the claim.

NEW SECTION. Sec. 9. A new section is added to chapter 90.03 RCW to read as follows:

(1) Upon the receipt of adjudication claims and the filing of claimants' evidence, the department shall conduct a preliminary investigation for the purpose of examining:

The claimants and the department are encouraged to confer as may be beneficial to clarify the factual and legal basis for the claim. To the extent consistent with court rules, the court may deem it appropriate to encourage claimants and the department to work closely together to reach agreement on a claimed water right that may result in timely settlement of water rights, reduced costs for the parties, greater equity and general public service, and better information that may be used for overall water management.

(3) The department shall file with the court the department's report of findings as to each adjudication claim filed timely under RCW 90.03.140. The department may divide its report of findings into two or more segments, covering particular drainages, uses, or other appropriate bases for dividing the report on adjudication claims. Based on the evidence filed by claimants and the department's report of findings, the department shall file with the superior court either or both of the following motions:

(a) A motion for a partial decree in favor of all stated claims under RCW 90.03.140 that the department finds to be substantiated with factual evidence; or

Objections must include specific information in regard to the particular disposition against which the objection is being made. Objections must also state the underlying basis of the objection being made, including general information about the forms of evidence that support the~~

objection. Any party may file testimony with the court and serve it on other parties. If a party intends to cross-examine a claimant or witness based on another party's prefiled testimony, the party intending to cross-examine shall file a notice of intent to cross-examine no later than fifteen days in advance of the hearing. NEW SECTION. Sec. 11. A new section is added to chapter 90.03 RCW to read as follows:

(1) The legislature finds that early settlement of contested claims is needed for a fair and efficient adjudication of water rights. Therefore, the department and other parties should identify opportunities for settlement following the date set by the court for filing evidence for all parties. To the extent consistent with court rules, the court as it deems beneficial is encouraged to urge as many parties to the adjudication as possible to reach timely agreement on claimed water rights in a manner that limits costs to the public, claimants, counties, courts, and the department. Further, at appropriate times throughout the process the court as it deems beneficial is encouraged to direct parties to utilize alternative methods of dispute resolution, including informal meetings, negotiation, mediation, or other methods to reach agreement on disputed claims.

(2) Any time after the filing of all claims under RCW 90.03.140, the department or another party may move the superior court to allow parties to meet for settlement discussions for a set length of time, either before an appointed mediator or without a mediator. For good cause shown, the court may extend the length of time for settlement discussions. The costs of mediation must be equitably borne by the parties to the mediation.

(3) If the department and a claimant reach agreement on settlement, the department shall file a motion to approve the settlement pursuant to section 9(3)(a) of this act and shall disclose the terms of the settlement to other parties to the adjudication. Sec. 14. RCW 90.03.210 and 2001 c 220 s 5 are each amended to read as follows:

(1) During the pendency of such adjudication proceedings prior to judgment or upon review by an appellate court, the stream or other water involved shall be regulated or partially regulated according to the schedule of rights specified in the department's report upon an order of the court authorizing such regulation: PROVIDED, Any interested party may file a bond and obtain an order staying the regulation of said stream as to him, in which case the court shall make such order regarding the regulation of the stream or other water as he may deem just. The bond shall be filed within five days following the service of notice of appeal in an amount to be fixed by the court and with sureties satisfactory to the court, conditioned to perform the judgment of the court.

On page 12, line 26, after "thereof.", insert "The court issuing a final decree shall retain continuing jurisdiction to administer the decree."

Senator Honeyford spoke in favor of adoption of the amendment to the committee striking amendment.

Senator Honeyford demanded a roll call.

The President declared that one-sixth of the members supported the demand and the demand was sustained.

MOTION

On motion of Senator Eide, further consideration of Engrossed Substitute House Bill No. 1571 was deferred and the bill held its place on the second reading calendar.

RULING BY THE PRESIDENT

President Owen: "In ruling upon the point of order raised by Senator Zarelli as to the scope and object of the Ways & Means Committee striking amendment to Substitute House Bill 1778, the President finds and rules as follows:

Substitute House Bill 1778 as it came over from the House of Representatives is a bill that contains multiple topics, but it is fair to characterize them as all being related to various enforcement and licensing matters, including associated infractions and accounts.

While the committee amendment contains these same provisions, it also adds new provisions that restructure the governance of the Fish & Wildlife Commission. These governance provisions go well beyond the original subject matter related to licensing and enforcement.

For these reasons, the President finds that Senator Zarelli's point is well-taken. The committee amendment is beyond the scope and object of the underlying bill and not properly before the body for consideration.

MOTION

On motion of Senator Eide, further consideration of Substitute House Bill No. 1778 was deferred and the bill held its place on the second reading calendar.

MOTION

On motion of Senator Marr, Senator Brown was excused.

(2) No grant shall be made for any project which does not qualify for and receive a grant of federal funds under the provisions of the Federal Water Pollution Control Act as now or hereafter amended: PROVIDED, That this restriction shall not apply to state grants made in any biennium over and above the amount of such grants required to match all federal funds allocated to the state for such biennium. As such, grants may be made for the planning, design, and construction of any publicly owned wastewater treatment facilities, including publicly owned industrial wastewater treatment facilities that relieve a city of the burden of processing industrial wastewater.

(3) No grant shall be made to any municipal or public corporation, or political subdivision for any project located within a drainage basin unless the department shall have previously adopted a comprehensive water pollution control and abatement plan and unless the project is found by the department to conform with such basin comprehensive plan: PROVIDED, That the requirement for a project to conform to a comprehensive water pollution control and abatement plan may be waived by the department for any grant application filed with the department prior to July 1, 1974, in those situations where the department finds the public interest would be served better by approval of any grant application made prior to adoption of such plan than by its denial.

(4) Recipients of grants shall meet such qualifications and follow such procedures in applying for grants as shall be established by the department.

(5) Grants may be made to reimburse recipients for expenditures made after July 1, 1967, for projects which meet the requirements of this section and were commenced after the recipient had filed a grant application with the department."

MOTION

NINETY-THIRD DAY, APRIL 14, 2009

2009 REGULAR SESSION

Senator Honeyford moved that the following amendment by Senator Honeyford and others to the committee striking amendment be adopted.

On page 8, after line 16, insert the following:

"Sec. 7. RCW 90.48.260 and 2007 c 341 s 55 are each amended to read as follows:

(1) The department of ecology is hereby designated as the state water pollution control agency for all purposes of the federal clean water act as it exists on February 4, 1987, and is hereby authorized to participate fully in the programs of the act as well as to take all action necessary to secure to the state the benefits and to meet the requirements of that act. With regard to the national estuary program established by section 320 of that act, the department shall exercise its responsibility jointly with the Puget Sound partnership, created in RCW 90.71.210. The department of ecology may delegate its authority under this chapter, including its national pollutant discharge elimination permit system authority and duties regarding animal feeding operations and concentrated animal feeding operations, to the department of agriculture through a memorandum of understanding. Until any such delegation receives federal approval, the department of agriculture's adoption or issuance of animal feeding operation and concentrated animal feeding operation rules, permits, programs, and directives pertaining to water quality shall be accomplished after reaching agreement with the director of the department of ecology. Adoption or issuance and implementation shall be accomplished so that compliance with such animal feeding operation and concentrated animal feeding operation rules, permits, programs, and directives will achieve compliance with all federal and state water pollution control laws. The powers granted herein include, among others, and notwithstanding any other provisions of chapter 90.48 RCW or otherwise, the following:

((+)) (a) Complete authority to establish and administer a comprehensive state point source waste discharge or pollution discharge elimination permit program which will enable the department to qualify for full participation in any national waste discharge or pollution discharge elimination permit system and will allow the department to be the sole agency issuing permits required by such national system operating in the state of Washington subject to the provisions of RCW 90.48.262(2). Program elements authorized herein may include, but are not limited to: ((+)) (i) Effluent treatment and limitation requirements together with timing requirements related thereto; ((+)) (ii) applicable receiving water quality standards requirements; ((+)) (iii) requirements of standards of performance for new sources; ((+)) (iv) pretreatment requirements; ((+)) (v) termination and modification of permits for cause; ((+)) (vi) requirements for public notices and opportunities for public hearings; ((+)) (vii) appropriate relationships with the secretary of the army in the administration of his responsibilities which relate to anchorage and navigation, with the administrator of the environmental protection agency in the performance of his duties, and with other governmental officials under the federal clean water act; ((+)) (viii) requirements for inspection, monitoring, entry, and reporting; ((+)) (ix) enforcement of the program through penalties, emergency powers, and criminal sanctions; ((+)) (x) a continuing planning process; and ((+)) (xi) user charges.

((+)) (b) The power to establish and administer state programs in a manner which will insure the procurement of moneys, whether in the form of grants, loans, or otherwise; to assist in the construction, operation, and maintenance of various water pollution control facilities and works; and the administering of various state water pollution control management, regulatory, and enforcement programs.

((+)) (c) The power to develop and implement appropriate programs pertaining to continuing planning processes, area-wide waste treatment management plans, and basin planning.

(2) The governor shall have authority to perform those actions required of him or her by the federal clean water act.

(3) Redevelopment, as defined in the 2005 western Washington storm water management manual, is not subject to the forested condition flow control requirements of the 2005 western Washington storm water management manual.

POINT OF ORDER

Senator Rockefeller: "Mr. President, I respectfully request that you rule that amendment 367 to Engrossed Substitute House Bill No. 2116 is beyond the scope and object of the bill. Engrossed Substitute House Bill No. 2116 is a measure that revises our state's water pollution control revolving fund to do one thing: It would add grants and forgiveness of principal and negative interests to allowable uses of the fund. In order to allow our state to take full advantage of federal stimulus funding, I believe some sixty-five million dollars in total, that's now available to our state for water quality purposes. The floor amendment does not in any manner address the state fund or the criteria for administering the fund. Instead, it would declare that certain activities are not subject to certain requirements in the administrative manual of the Department of Ecology issued for guidance in the control of storm water and, therefore, Mr. President, it would appear that this amendment is well beyond the scope of the bill and I respectfully request that you so rule."

RULING BY THE PRESIDENT

President Owen: "Senator Rockefeller, in, relative to your point of order, the arguments you make are quite clear that this amendment is well beyond the scope and object of the bill and I don't believe it's necessary for the President to go into great detail on that. It's so far beyond the scope. Point is well taken."

The President declared the question before the Senate to be the adoption of the committee striking amendment by the Committee on Environment, Water & Energy as amended to Engrossed Substitute House Bill No. 2116.

The motion by Senator Rockefeller carried and the committee striking amendment as amended was adopted by voice vote.

MOTION

There being no objection, the following title amendments were adopted:

On page 8, line 24 of the title amendment, after "90.50A.060," strike "and 90.48.110" and insert "90.48.110, 70.146.070, and 90.48.290"

MOTION

On motion of Senator Rockefeller, the rules were suspended, Engrossed Substitute House Bill No. 2116 as amended by the Senate was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Senators Rockefeller and Honeyford spoke in favor of passage of the bill.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 2222, by House Committee on Agriculture & Natural Resources (originally sponsored by Representatives Blake, Kretz, Short, Eddy, Smith, Takko, Hinkle, Hudgins, Springer, Herrera, Morris, Warnick, Williams and Chandler)

Concerning construction and industrial storm water general permits. Revised for 1st Substitute: Creating a technical assistance program for industrial and construction storm water permit permittees. (REVISED FOR ENGROSSED: Regarding conditioning industrial storm water general discharge permits.)

The measure was read the second time.

MOTION

Senator Rockefeller moved that the following committee striking amendment by the Committee on Environment, Water & Energy be adopted.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 90.48.555 and 2004 c 225 s 2 are each amended to read as follows:

The provisions of this section apply to the construction and industrial storm water general permits issued by the department pursuant to the federal clean water act, 33 U.S.C. Sec. 1251 et seq., and this chapter.

(1) Effluent limitations shall be included in construction and industrial storm water general permits as required under the federal clean water act, 33 U.S.C. Sec. 1251 et seq., and its implementing regulations. In accordance with federal clean water act requirements, pollutant specific, water quality-based effluent limitations shall be included in construction and industrial storm water general permits if there is a reasonable potential to cause or contribute to an excursion of a state water quality standard.

(2) Subject to the provisions of this section, both technology and water quality-based effluent limitations may be expressed as:

(a) Numeric effluent limitations;

(b) Narrative effluent limitations; or

(c) A combination of numeric and narrative effluent discharge limitations.

(3) The department must condition storm water general permits for industrial and construction activities issued under the national pollutant discharge elimination system of the federal clean water act to require compliance with numeric effluent discharge limits when such discharges are subject to:

(a) Numeric effluent limitations established in federally adopted, industry-specific effluent guidelines;

(b) State developed, industry-specific performance-based numeric effluent limitations;

(c) Numeric effluent limitations based on a completed total maximum daily load analysis or other pollution control measures; or

(d) A determination by the department that:

(i) The discharges covered under either the construction or industrial storm water general permits have a reasonable potential to cause or contribute to violation of state water quality standards; and

(ii) Effluent limitations based on nonnumeric best management practices are not effective in achieving compliance with state water quality standards.

(4) In making a determination under subsection (3)(d) of this section, the department shall use procedures that account for:

(a) Existing controls on point and nonpoint sources of pollution;

(b) The variability of the pollutant or pollutant parameter in the storm water discharge; and

(c) As appropriate, the dilution of the storm water in the receiving waters.

(5) Narrative effluent limitations requiring both the implementation of best management practices, when designed to satisfy the technology and water quality-based requirements of the federal clean water act, 33 U.S.C. Sec. 1251 et seq., and compliance with water quality standards, shall be used for construction and industrial storm water general permits, unless the provisions of subsection (3) of this section apply.

(6) Compliance with water quality standards shall be presumed, unless discharge monitoring data or other site specific information demonstrates that a discharge causes or contributes to violation of water quality standards, when the permittee is:

(a) In full compliance with all permit conditions, including planning, sampling, monitoring, reporting, and recordkeeping conditions; and

(b)(i) Fully implementing storm water best management practices contained in storm water technical manuals approved by the department, or practices that are demonstrably equivalent to practices contained in storm water technical manuals approved by the department, including the proper selection, implementation, and maintenance of all applicable and appropriate best management practices for on-site pollution control.

(ii) For the purposes of this section, "demonstrably equivalent" means that the technical basis for the selection of all storm water best management practices are documented within a storm water pollution prevention plan. The storm water pollution prevention plan must document:

(A) The method and reasons for choosing the storm water best management practices selected;

(B) The pollutant removal performance expected from the practices selected;

(C) The technical basis supporting the performance claims for the practices selected, including any available existing data concerning field performance of the practices selected;

(D) An assessment of how the selected practices will comply with state water quality standards; and

(E) An assessment of how the selected practices will satisfy both applicable federal technology-based treatment requirements and state requirements to use all known, available, and reasonable methods of prevention, control, and treatment.

(7)(a) By November 1, 2009, the department shall modify or reissue the industrial storm water general permit to require compliance ((by May 1, 2009;)) with appropriately derived numeric water quality-based effluent limitations for existing discharges to water bodies listed as impaired according to 33 U.S.C. Sec. 1313(d) (Sec. 303(d) of the federal clean water act, 33 U.S.C. Sec. 1251 et seq.).

(b) ((No later than September 1, 2008;)) The industrial storm water general permit must require permittees to comply

NINETY-THIRD DAY, APRIL 14, 2009

2009 REGULAR SESSION

with appropriately derived numeric water quality-based effluent limitations in the permit, as described in (a) of this subsection, by no later than six months after the effective date of the modified or reissued industrial storm water general permit.

(c) For permittees that the department determines are unable to comply with the numeric water quality-based effluent limitations required by (a) of this subsection, within the timeline established in (b) of this subsection, the department shall establish a compliance schedule as follows:

(i) Any compliance schedule provided by the department must require compliance as soon as possible, and must require compliance by no later than twenty-four months, or two wet seasons, after the effective date of the industrial storm water general permit. For purposes of this subsection (7)(c)(i), "wet seasons" means October 1st through June 30th.

(ii) The department shall post on its web site the name, location, industrial storm water permit number, and the reason for requesting a compliance schedule for each permittee who requests a compliance schedule according to this subsection (7)(c). The department shall post this information no later than thirty days after receiving a permittee's request for a compliance schedule under this subsection (7)(c). The department shall also prepare a list of organizations and individuals seeking to be notified when such requests for compliance schedules are made, and notify them within thirty days after receiving a permittee's request for a compliance schedule. Notification under this subsection may be accomplished electronically.

(d) The department shall report to the appropriate committees of the legislature specifying how the numeric effluent limitation in (a) of this subsection would be implemented. The report shall identify the number of dischargers to impaired water bodies and provide an assessment of anticipated compliance with the numeric effluent limitation established by (a) of this subsection.

(8)(a) Construction and industrial storm water general permits issued by the department shall include an enforceable adaptive management mechanism that includes appropriate monitoring, evaluation, and reporting. The adaptive management mechanism shall include elements designed to result in permit compliance and shall include, at a minimum, the following elements:

(i) An adaptive management indicator, such as monitoring benchmarks;

(ii) Monitoring;

(iii) Review and revisions to the storm water pollution prevention plan;

(iv) Documentation of remedial actions taken; and

(v) Reporting to the department.

(b) Construction and industrial storm water general permits issued by the department also shall include the timing and mechanisms for implementation of treatment best management practices.

(9) Construction and industrial storm water discharges authorized under general permits must not cause or have the reasonable potential to cause or contribute to a violation of an applicable water quality standard. Where a discharge has already been authorized under a national pollutant discharge elimination system storm water permit and it is later determined to cause or have the reasonable potential to cause or contribute to the violation of an applicable water quality standard, the department may notify the permittee of such a violation.

(10) Once notified by the department of a determination of reasonable potential to cause or contribute to the violation of an applicable water quality standard, the permittee must take all necessary actions to ensure future discharges do not cause or contribute to the violation of a water quality standard and document those actions in the storm water pollution prevention plan and a report timely submitted to the department. If violations remain or recur, coverage under the construction or

industrial storm water general permits may be terminated by the department, and an alternative general permit or individual permit may be issued. Compliance with the requirements of this subsection does not preclude any enforcement activity provided by the federal clean water act, 33 U.S.C. Sec. 1251 et seq., for the underlying violation.

(11) Receiving water sampling shall not be a requirement of an industrial or construction storm water general permit except to the extent that it can be conducted without endangering the health and safety of persons conducting the sampling.

(12) The department may authorize mixing zones only in compliance with and after making determinations mandated by the procedural and substantive requirements of applicable laws and regulations.

NEW SECTION. Sec. 2. A new section is added to chapter 90.48 RCW to read as follows:

(1) As funding to do so becomes available, the department shall create a storm water technical resource center in partnership with a university, nonprofit organization, or other public or private entity to provide tools for storm water management. The center shall use its authority to support the duties listed in this subsection through research, development, technology demonstration, technology transfer, education, outreach, recognition, and training programs. The center may:

(a) Review and evaluate emerging storm water technologies;

(b) Research and develop innovative and cost-effective technical solutions to remove pollutants from runoff and to reduce or eliminate storm water discharges;

(c) Conduct pilot projects to test technical solutions;

(d) Serve as a clearinghouse and outreach center for information on storm water technology;

(e) Assist in the development of storm water control methods to better protect water quality, including source control, product substitution, pollution prevention, and storm water treatment;

(f) Coordinate with federal, state, and local agencies and private organizations in administering programs related to storm water control measures; and

(g) Collaborate with existing storm water outreach programs.

(2) The department shall consult with an advisory committee in the development of the storm water technical resource center. The advisory committee must include representatives from relevant state agencies, local governments, the business community, the environmental community, tribes, and the building and development industry.

(3) The department, in consultation with the storm water technical resource center advisory committee, shall identify a funding strategy for funding the storm water technical resource center.

(4) The department shall encourage all interested parties to help and support the technical resource center with in-kind services.

(5) The department shall prepare and submit a biennial progress report to the legislature.

NEW SECTION. Sec. 3. Section 1 of this act expires January 1, 2015."

(2) Funds in the aquatic invasive species prevention account may be appropriated to the department to develop an aquatic invasive species prevention program for recreational and commercial watercraft. Funds must be expended as follows:

(a) To inspect recreational and commercial watercraft;

(b) To educate general law enforcement officers on how to enforce state laws relating to preventing the spread of aquatic invasive species;

(c) To evaluate and survey the risk posed by recreational and commercial watercraft in spreading aquatic invasive species into Washington state waters;

(d) To evaluate the risk posed by float planes in spreading aquatic invasive species into Washington state waters; and

(e) To implement an aquatic invasive species early detection and rapid response plan. The plan must address the treatment and immediate response to the introduction to Washington waters of aquatic invasive species. Agency and public review of the plan must be conducted under chapter 43.21C RCW, the state environmental policy act. If the implementation measures or actions would have a probable significant adverse environmental impact, a detailed statement under chapter 43.21C RCW must be prepared on the plan.

(3) Funds in the aquatic invasive species enforcement account created in RCW 43.43.400 may be appropriated to the department and Washington state patrol to develop an aquatic invasive species enforcement program for recreational and commercial watercraft. The department shall provide training to Washington state patrol employees working at port of entry weigh stations, and other local law enforcement employees, on how to inspect recreational and commercial watercraft for the presence of aquatic invasive species. A person who enters Washington transporting any commercial or recreational watercraft that has been used in any designated aquatic invasive species state or foreign country as defined by rule of the department must have in his or her possession valid documentation that the watercraft has been inspected and found free of aquatic invasive species. The department is authorized to require persons transporting recreational and commercial watercraft to stop at check stations. (2) The department shall form one advisory committee each for the Willapa Bay oyster reserve lands and the Puget Sound oyster reserve lands. The advisory committees shall make recommendations on management practices to conserve, protect, and develop oyster reserve lands. The advisory committees may make recommendations regarding the management practices on oyster reserve lands, in particular to ensure that they are managed in a manner that will: (a) Increase revenue through production of high-value shellfish; (b) not be detrimental to the market for shellfish grown on nonreserve lands; and (c) avoid negative impacts to existing shellfish populations. The advisory committees may also make recommendation on the distribution of funds in RCW 77.60.160(2)(a). The department shall attempt to structure each advisory committee to include equal representation between shellfish growers that participate in reserve sales and shellfish growers that do not.

~~(3) ((The department shall submit a brief progress report on the status of the pilot programs to the appropriate standing committees of the legislature by January 7, 2007.~~

~~((4))~~ The department of natural resources, in consultation with the department of fish and wildlife, shall administer the leases for oyster reserves entered into under this chapter. In administering the leases, the department of natural resources shall exercise its authority under RCW ~~((79.96.090))~~ 79.135.300. Vacation of state oyster reserves by the department ~~((of fish and wildlife))~~ shall not be a requirement for the department of natural resources to lease any oyster reserves under this section. reservoir functions between tides; the effect of saturated soils on production of crops; the characteristics of properly functioning intertidal fish habitat; a map of agricultural lands designated by the county as having long-term commercial significance and the effect of that designation; and the economic impacts to existing land uses for various alternatives for tide gate alteration; and

(c) A long-term plan for intertidal salmon habitat enhancement to meet the goals of salmon recovery and protection of agricultural lands. The proposal shall consider all other means to achieve salmon recovery without converting farmland. The proposal shall include methods to increase fish passage and otherwise enhance intertidal habitat on public lands pursuant to subsection (2) of this section, voluntary methods to increase fish passage on private lands, a priority list of intertidal salmon enhancement projects, and recommendations for funding of high priority projects. The task force also may propose pilot projects that will be designed to test and measure the success of various proposed strategies.

(2) In conjunction with other public landowners and the appropriate task force formed under RCW 77.85.220, the department shall develop an initial salmon intertidal habitat enhancement plan for public lands in the county. The initial plan shall include a list of public properties in the intertidal zone that could be enhanced for salmon, a description of how those properties could be altered to support salmon, a description of costs and sources of funds to enhance the property, and a strategy and schedule for prioritizing the enhancement of public lands for intertidal salmon habitat. This initial plan shall be submitted to the appropriate task force at least six months before the deadline established in subsection (3) of this section.

(3) The final intertidal salmon enhancement plan shall be completed within two years from the date the task force is formed under RCW 77.85.220 and funding has been secured. The lead entity may be a county, city, conservation district, special district, tribal government, regional recovery organization, or other entity.

(b) The lead entity shall establish a committee that consists of representative interests of counties, cities, conservation districts, tribes, environmental groups, business interests, landowners, citizens, volunteer groups, regional fish enhancement groups, and other habitat interests. The purpose of the committee is to provide a citizen-based evaluation of the projects proposed to promote salmon habitat.

(c) The committee shall compile a list of habitat projects, establish priorities for individual projects, define the sequence for project implementation, and submit these activities as the habitat project list. The committee shall also identify potential federal, state, local, and private funding sources.

(2) The area covered by the habitat project list must be based, at a minimum, on a WRIA, combination of WRIs, or any other area as agreed to by the counties, cities, and tribes in resolutions or in letters of support meeting the requirements of this subsection. Preference will be given to projects in an area that contain a salmon species that is listed or proposed for listing under the federal endangered species act.

(3) The lead entity shall submit the habitat project list to the ~~((salmon recovery funding))~~ salmon recovery funding board in accordance with procedures adopted by the board.

Sec. 26. RCW 77.120.030 and 2007 c 350 s 10 are each amended to read as follows:

(1) The owner or operator in charge of any vessel covered by this chapter is required to ensure that the vessel under their ownership or control does not discharge ballast water into the waters of the state except as authorized by this section.

(2) Discharge of ballast water into waters of the state is authorized only if there has been an open sea exchange, or if the vessel has treated its ballast water, to meet standards set by the department consistent with applicable state and federal laws.

(3) The department, in consultation with ~~((the ballast water work group, or similar))~~ a collaborative forum, shall adopt by rule standards for the discharge of ballast water into the waters of the state and their implementation timelines. The standards are intended to ensure that the discharge of ballast water poses minimal risk of introducing nonindigenous species. In developing these standards, the department shall consider the extent to which the requirement is technologically and practically feasible. Where practical and appropriate, the standards must be compatible with standards set by the United States coast guard, the federal clean water act (33 U.S.C. Sec. 1251-1387), or the international maritime organization.

(4) The master, operator, or person in charge of a vessel is not required to conduct an open sea exchange or treatment of ballast water if the master, operator, or person in charge of a vessel determines that the operation would threaten the safety of the vessel, its crew, or its passengers, because of adverse weather, vessel design limitations, equipment failure, or any other extraordinary conditions. A master, operator, or person in charge of a vessel who relies on this exemption must file documentation defined by the department, subject to: (a) Payment of a fee not to exceed five thousand dollars; (b) discharging only the minimal amount of ballast water operationally necessary; (c) ensuring that ballast water records accurately reflect any reasons for not complying with the mandatory requirements; and (d) any other requirements identified by the department by rule as provided in subsections (3) and (6) of this section.

(5) For treatment technologies requiring shipyard modification, the department may enter into a compliance plan with the vessel owner. The compliance plan must include a timeline consistent with drydock and shipyard schedules for completion of the modification. The department shall adopt rules for compliance plans under this subsection.

(6) For an exemption claimed in subsection (4) of this section, the department shall adopt rules for defining exemption conditions, requirements, compliance plans, or alternative ballast water management strategies to meet the intent of this section.

(7) The department shall make every effort to align ballast water standards with adopted international and federal standards while ensuring that the goals of this chapter are met.

(8) The requirements of this section do not apply to a vessel discharging ballast water or sediments that originated solely within the waters of Washington ~~((state))~~, the Columbia river system, or the internal waters of British Columbia south of latitude fifty degrees north, including the waters of the Straits of Georgia and Juan de Fuca.

(9) Open sea exchange is an exchange that occurs fifty or more nautical miles offshore. If the United States coast guard requires a vessel to conduct an exchange further offshore, then that distance is the required distance for purposes of compliance with this chapter.

Sec. 27. RCW 77.120.110 and 2007 c 350 s 14 are each amended to read as follows:

(1) The commission in consultation with the director may authorize hunting of big game animals and wild turkeys through auction. The department may conduct the auction for the hunt or contract with a nonprofit wildlife conservation organization to conduct the auction for the hunt.

(2) The commission in consultation with the director may authorize hunting of up to a total of ~~((fifteen))~~ thirty big game animals and wild turkeys per year through raffle. The department may conduct raffles or contract with a nonprofit wildlife conservation organization to conduct raffles for hunting these animals. In consultation with the gambling commission, the director may adopt rules for the implementation of raffles involving hunting.

(5) The department's share of revenues from auctions and raffles shall be deposited in the state wildlife ~~((fund))~~ account created in RCW 77.12.170. (6) A nonprofit wildlife conservation organization may petition the commission to authorize an auction or raffle for a special hunt for big game animals and wild turkeys.

Sec. 42. RCW 77.32.560 and 2003 c 317 s 2 are each amended to read as follows:

Proceeds from the sale of the decal must be deposited into the state wildlife ~~((fund))~~ account created in RCW 77.12.170 and must be dedicated to the support of the department's watchable wildlife activities. The department may also use proceeds from the sale of the decal for marketing the decal and for marketing watchable wildlife activities in the state.

(2) The term "watchable wildlife activities" includes but is not limited to: Initiating partnerships with communities to jointly develop watchable wildlife projects, building infrastructure to serve wildlife viewers, assisting and training communities in conducting wildlife watching events, developing destination wildlife viewing corridors and trails, tours, maps, brochures, and travel aides, and offering grants to assist rural

communities in identifying key wildlife attractions and ways to protect and promote them.

(3) The commission must adopt by rule the cost of the watchable wildlife decal. A person may, at their discretion, contribute more than the cost as set by the commission by rule for the watchable wildlife decal in order to support watchable wildlife activities. A person who purchases a watchable wildlife decal must be issued one vehicle use permit free of charge.

Sec. 43. RCW 77.44.050 and 1999 c 235 s 1 are each amended to read as follows:

The warm water game fish account is hereby created in the state wildlife ~~((fund))~~ account created in RCW 77.12.170. NEW SECTION. Sec. 44. Whenever any personal property comes into the possession of the officers of the department in connection with the official performance of their duties and the personal property remains unclaimed or not taken away for a period of sixty days from the date of written notice to the owner thereof, if known, which notice shall inform the owner of the disposition that may be made of the property under this section and the time that the owner has to claim the property and in all other cases for a period of sixty days from the time the property came into the possession of the department, unless the property has been held as evidence in any court, then, in that event, after sixty days from date when the case has been finally disposed of and the property released as evidence by order of the court, the department may:

(1) At any time thereafter sell the personal property at public auction to the highest and best bidder for cash in the manner hereinafter provided;

(2) Retain the property for the use of the department subject to giving notice in the manner prescribed in RCW 63.35.030 and the right of the owner, or the owner's legal representative, to reclaim the property within one year after receipt of notice, without compensation for ordinary wear and tear if, in the opinion of the director, the property consists of firearms or other items specifically usable in law enforcement work. At the end of each calendar year during which there has been such a retention, the department shall provide the office of financial management and retain for public inspection a list of such retained items and an estimation of each item's replacement value;

(3) Destroy an item of personal property at the discretion of the director if the director determines that the following circumstances have occurred:

(a) The property has no substantial commercial value or the probable cost of sale exceeds the value of the property;

(b) The item has been unclaimed by any person after notice procedures have been met, as prescribed in this section; and

(c) The director has determined that the item is illegal to possess or sell or unsafe and unable to be made safe for use by any member of the general public;

(4) If the item is not unsafe or illegal to possess or sell, such item, after satisfying the notice requirements as prescribed in this section may be offered by the director to bona fide dealers, in trade for law enforcement equipment, which equipment must

NINETY-THIRD DAY, APRIL 14, 2009

be treated as retained property for the purpose of annual listing requirements of subsection (2) of this section; or

(5) At the end of one year, any unclaimed firearm must be disposed of pursuant to RCW 9.41.098(2). Any other item that is not unsafe or illegal to possess or sell, but has been, or may be used, in the judgment of the director, in a manner that is illegal, may be destroyed.

NEW SECTION. Sec. 45. Before the personal property shall be sold, a notice of such a sale fixing the time and place thereof which shall be at a suitable place, which will be noted in the advertisement for sale, and containing a description of the property to be sold must be published at least once in a newspaper of general circulation in the county in which the property is to be sold at least ten days prior to the date fixed for the auction. The notice must be signed by the director. If the owner fails to reclaim the property prior to the time fixed for the sale in such a notice, the director shall conduct the sale and sell the property described in the notice at public auction to the highest and best bidder for cash, and upon payment of the amount of the bid shall deliver the property to the bidder.

NEW SECTION. Sec. 46. The moneys arising from sales under the provisions of this chapter must be first applied to the payment of the costs and expenses of the sale and then to the payment of lawful charges and expenses for the keep of the personal property and the balance, if any, must be forwarded to the state treasurer to be deposited into the fish and wildlife enforcement reward account under RCW 77.15.425.

NEW SECTION. Sec. 47. If the owner of the personal property so sold, or the owner's legal representative, shall, at any time within three years after the money has been deposited in the fish and wildlife enforcement reward account, furnish satisfactory evidence to the state treasurer of the ownership of the personal property, the owner or the owner's legal representative is entitled to receive from the fish and wildlife enforcement reward account the amount so deposited, with interest.

NEW SECTION. Sec. 48. (1) Chapter 63.24 RCW, unclaimed property in hands of bailee, does not apply to personal property in the possession of the department.

(2) The uniform unclaimed property act, chapter 63.29 RCW, does not apply to personal property in the possession of the department.

NEW SECTION. Sec. 49. In addition to any other method of disposition of unclaimed property provided under this chapter, the department may donate unclaimed personal property to nonprofit charitable organizations. A nonprofit charitable organization receiving personal property donated under this section must use the property, or its proceeds, to benefit needy persons. The charitable organization must qualify for tax-exempt status under 26 U.S.C. Sec. 501(c)(3) of the federal internal revenue code.

NEW SECTION. Sec. 50. Sections 44 through 49 of this act constitute a new chapter in Title 77 RCW.

NEW SECTION. Sec. 51. RCW 77.12.065 (Wildlife viewing tourism) and 2003 c 183 s 1 are each repealed.

Sec. 52. RCW 77.12.820 and 1997 c 422 s 5 are each amended to read as follows:

The eastern Washington pheasant enhancement account is created in the custody of the state treasurer. All receipts under RCW 77.12.810 must be deposited in the account. Moneys in the account are subject to legislative appropriation and shall be used for the purpose of funding the eastern Washington pheasant enhancement program. The department may use moneys from the account to improve pheasant habitat or to purchase or produce pheasants. ~~(Not less than eighty percent of expenditures from the account must be used to purchase or produce pheasants.)~~ The department must continue to release rooster pheasants in eastern Washington. The eastern Washington pheasant enhancement account funds must not be

used for the purchase of land. The account may be used to offer grants to improve pheasant habitat on public or private lands that are open to public hunting. The department may enter partnerships with private landowners, nonprofit corporations, cooperative groups, and federal or state agencies for the purposes of pheasant habitat enhancement in areas that will be available for public hunting. The department shall submit an annual report to the appropriate committees of the legislature by December 1st regarding the department's eastern Washington pheasant activities.

NEW SECTION. Sec. 53. (1) The legislature finds that healthy wildlife populations are a valuable and treasured public resource to the people of the state of Washington. However, the legislature also finds that as the human population increases and encroaches on wildlife habitat, interactions between humans and wildlife will become more frequent.

(2) The legislature further finds that interactions between humans and wildlife can have significant financial impacts on the affected landowner. Although the resulting wildlife damage is felt most closely by the landowner, the general public, as beneficiaries and stewards of healthy wildlife populations, should bear some responsibility, as outlined in and limited by this act, for providing a measure of restitution to the impacted landowner, provided that the landowner has exhausted all legal, practicable self-help methods available to prevent wildlife damage from occurring.

(3) The legislature further finds that the commercial agriculture, horticulture, and livestock industries are important components of the state economy that can be negatively impacted by interactions with wildlife. However, the legislature also finds that other landowners, both commercial and residential, may be faced with wildlife interactions that result in property damage. It is the intent of the legislature to craft a solution whereby all property owners have a potential avenue to petition the state for some mitigation of the damages caused by wildlife.

(4) The legislature further finds that it is in the best interests of the state for the department of fish and wildlife to respond quickly to wildlife damage complaints and to work with those affected to prevent and minimize negative interactions while maintaining healthy wildlife populations.

(5) The legislature further finds that negative wildlife interactions can be best reduced by encouraging landowners to contribute, through their land management practices, to healthy wildlife populations and to provide access for related recreation.

Sec. 54. RCW 77.36.010 and 1996 c 54 s 2 are each amended to read as follows:

NEW SECTION. Sec. 55. A new section is added to chapter 77.36 RCW to read as follows:

(1)(a) Except as limited by RCW 77.36.070 and 77.36.080, the department shall offer to distribute money appropriated to pay claims to the owner of commercial crops for damage caused by wild deer or elk or to the owners of commercial livestock that has been killed by bears, wolves, or cougars, or injured by bears, wolves, or cougars to such a degree that the market value of the commercial livestock has been diminished. Payments for claims for damage to commercial livestock are not subject to the limitations of RCW 77.36.070 and 77.36.080, but may not exceed the total amount specifically appropriated therefor.

(b) Owners of commercial crops or commercial livestock are only eligible for a claim under this subsection if:

(i) The owner satisfies the definition of "eligible farmer" in RCW 82.08.855;

(ii) The conditions of section 56 of this act have been satisfied; and

(iii) The damage caused to the commercial crop or commercial livestock satisfies the criteria for damage established by the commission under this subsection.

(c) The commission shall adopt and maintain by rule criteria that clarifies the damage to commercial crops and commercial livestock qualifying for compensation under this subsection. An owner of a commercial crop or commercial livestock must satisfy the criteria prior to receiving compensation under this subsection. The criteria for damage adopted under this subsection must include, but not be limited to, a required minimum economic loss to the owner of the commercial crop or commercial livestock, which may not be set at a value of less than five hundred dollars.

(2)(a) The department may offer to provide noncash compensation only to offset wildlife interactions to a person who applies to the department for compensation for damage to property other than commercial crops or commercial livestock that is the result of a mammalian or avian species of wildlife on a case-specific basis if the conditions of section 56 of this act have been satisfied and if the damage satisfies the criteria for damage established by the commission under this subsection.

(b) The commission shall adopt and maintain by rule criteria for damage to property other than a commercial crop or commercial livestock that is damaged by wildlife and may be eligible for compensation under this subsection, including criteria for filing a claim for compensation under this subsection.

(3)(a) To prevent or offset wildlife interactions, the department may offer materials or services to a person who applies to the department for assistance in providing mitigating actions designed to reduce wildlife interactions if the actions are designed to address damage that satisfies the criteria for damage established by the commission under this subsection.

(b) The commission shall adopt and maintain by rule criteria for mitigating actions designed to address wildlife interactions that may be eligible for materials and services under this section, including criteria for submitting an application under this section.

(4) An owner who files a claim under this section may appeal the decision of the department pursuant to rules adopted by the commission if the claim:

(a) Is denied; or

(b) Is disputed by the owner and the owner disagrees with the amount of compensation determined by the department.

NEW SECTION. Sec. 56. A new section is added to chapter 77.36 RCW to read as follows:

(1) No owner may receive compensation for wildlife interactions under this chapter unless the owner has, as determined by the department, first:

(a) Utilized applicable legal and practicable self-help preventive measures available to prevent the damage, including the use of nonlethal methods and department-provided materials and services when available under section 55 of this act; and

(b) Exhausted all available compensation options available from nonprofit organizations that provide compensation to private property owners due to financial losses caused by wildlife interactions.

(2) In determining if the requirements of this section have been satisfied, the department may recognize and consider the following:

(a) Property losses may occur without future or anticipated knowledge of potential problems resulting in an owner being unable to take preemptive measures.

(b) Normal agricultural practices, animal husbandry practices, recognized standard management techniques, and other industry-recognized management practices may represent adequate preventative efforts.

(c) Under certain circumstances, as determined by the department, wildlife may not logistically or practicably be managed by nonlethal efforts.

(d) Not all available legal preventative efforts are cost-effective for the owner to practicably employ.

(e) There are certain effective preventative control options not available due to federal or state restrictions.

(f) Under certain circumstances, as determined by the department, permitting public hunting may not be a practicable self-help method due to the size and nature of the property, the property's setting, or the ability of the landowner to accommodate public access.

(3) An owner is not eligible to receive compensation if the damages are covered by insurance.

(4) The commission shall adopt rules implementing this section, including requirements that owners document nonlethal preventative efforts undertaken and all permits issued by the department under RCW 77.12.240 and 77.12.150.

NEW SECTION. Sec. 57. A new section is added to chapter 77.36 RCW to read as follows:

The department shall establish:

(1) The form of affidavits or proof required to accompany all claims under this chapter;

(3) How claims will be prioritized when available funds for reimbursement are limited;

(4) Timelines after the discovery of damage by which an owner must file a claim or notify the department;

(5) Protocols for an owner to follow if the owner wishes to undertake activities that would complicate the determination of damages, such as harvesting damaged crops;

(6) The process for determining damage assessments, including the role and selection of professional damage assessors and the responsibility for reimbursing third-party assessors for their services;

(7) Timelines for a claimant to accept, reject, or appeal a determination made by the department;

(8) The identification of instances when an owner would be ineligible for compensation;

(9) An appeals process for an owner eligible for compensation under section 55 of this act who is denied a claim or feels the compensation is insufficient; and

NINETY-THIRD DAY, APRIL 14, 2009

(10) Other policies necessary for administering this chapter.

NEW SECTION. Sec. 58. A new section is added to chapter 77.36 RCW to read as follows:

(1) Except as otherwise provided in this section and as limited by section 55 of this act and RCW 77.36.070 and 77.36.080, the cash compensation portion of each claim by the department under this chapter is limited to the lesser of:

(a) The value of the damage to the property by wildlife reduced by the amount of compensation provided to the claimant by any nonprofit organizations that provide compensation to private property owners due to financial losses caused by wildlife interactions, except that, subject to appropriation to pay compensation for damage to commercial livestock, the value of killed or injured commercial livestock may be no more than two hundred dollars per sheep, one thousand five hundred dollars per head of cattle, and one thousand five hundred dollars per horse; or

(b) Ten thousand dollars.

(2) The department may offer to pay a claim for an amount in excess of ten thousand dollars to the owners of commercial crops or commercial livestock filing a claim under section 55 of this act only if the outcome of an appeal filed by the claimant under section 55 of this act determines a payment higher than ten thousand dollars.

(3) All payments of claims by the department under this chapter must be paid to the owner of the damaged property and may not be assigned to a third party.

(4) The burden of proving all property damage, including damage to commercial crops and commercial livestock, belongs to the claimant.

Sec. 59. RCW 77.36.070 and 1996 c 54 s 8 are each amended to read as follows:

The department may pay no more than one hundred twenty thousand dollars per fiscal year from the state wildlife ~~((fund))~~ account created in RCW 77.12.170 for claims ~~((under RCW 77.36.040 and for assessment costs and compromise of claims. Such money shall be used to pay animal damage claims only if the claim meets the conditions of RCW 77.36.040 and the damage occurred in a place where the opportunity to hunt was not restricted or prohibited by a county, municipality, or other public entity during the season prior to the occurrence of the damage))~~ and assessment costs for damage to commercial crops caused by wild deer or elk submitted under section 55 of this act.

Sec. 60. RCW 77.36.080 and 1996 c 54 s 9 are each amended to read as follows:

Such money shall be used to pay animal damage claims only if the claim meets the conditions of RCW 77.36.040 and the damage occurred in a place where the opportunity to hunt was restricted or prohibited by a county, municipality, or other public entity during the season prior to the occurrence of the damage)) and assessment costs for damage to commercial crops caused by wild deer or elk submitted under section 55 of this act.

((fn))

(b) After an emergency declaration, the department may pay as much as may be subsequently appropriated, in addition to the funds authorized under subsection (1) of this section, for claims and assessment costs under ((RCW 77.36.040 and for assessment and compromise of claims)) section 55 of this act.

Such money shall be used to pay ~~((animal damage))~~ wildlife interaction claims only if the claim meets the conditions of ~~((RCW 77.36.040))~~ section 55 of this act and the department has expended all funds authorized under RCW 77.36.070 or subsection (1) of this section.

(c) A long-term plan for intertidal salmon habitat enhancement to meet the goals of salmon recovery and protection of agricultural lands. The proposal shall consider all other means to achieve salmon recovery without converting farmland. The proposal shall include methods to increase fish passage and otherwise enhance intertidal habitat on public lands pursuant to subsection (2) of this section, voluntary methods to increase fish passage on private lands, a priority list of intertidal salmon enhancement projects, and recommendations for funding of high priority projects. The task force also may propose pilot projects that will be designed to test and measure the success of various proposed strategies.

(2) In conjunction with other public landowners and the appropriate task force formed under RCW 77.85.220, the department shall develop an initial salmon intertidal habitat enhancement plan for public lands in the county. The initial plan shall include a list of public properties in the intertidal zone that could be enhanced for salmon, a description of how those properties could be altered to support salmon, a description of costs and sources of funds to enhance the property, and a strategy and schedule for prioritizing the enhancement of public lands for intertidal salmon habitat. This initial plan shall be submitted to the appropriate task force at least six months before the deadline established in subsection (3) of this section.

(3) The final intertidal salmon enhancement plan shall be completed within two years from the date the task force is formed under RCW 77.85.220 and funding has been secured. A final plan shall be submitted by the appropriate task force to the

Sec. 25. RCW 77.85.050 and 2005 c 309 s 6 are each amended to read as follows:

(1)(a) Counties, cities, and tribal governments must jointly designate, by resolution or by letters of support, the area for which a habitat project list is to be developed and the lead entity that is to be responsible for submitting the habitat project list. No project included on a habitat project list shall be considered mandatory in nature and no private landowner may be forced or coerced into participation in any respect. The lead entity may be a county, city, conservation district, special district, tribal government, regional recovery organization, or other entity.

(b) The lead entity shall establish a committee that consists of representative interests of counties, cities, conservation districts, tribes, environmental groups, business interests, landowners, citizens, volunteer groups, regional fish enhancement groups, and other habitat interests. The purpose of the committee is to provide a citizen-based evaluation of the projects proposed to promote salmon habitat.

(c) The committee shall compile a list of habitat projects, establish priorities for individual projects, define the sequence for project implementation, and submit these activities as the habitat project list. The committee shall also identify potential federal, state, local, and private funding sources.

(2) The area covered by the habitat project list must be based, at a minimum, on a WRIA, combination of WRIs, or any other area as agreed to by the counties, cities, and tribes in resolutions or in letters of support meeting the requirements of this subsection. Preference will be given to projects in an area that contain a salmon species that is listed or proposed for listing under the federal endangered species act.

(3) The lead entity shall submit the habitat project list to the ~~(salmon recovery funding)~~ salmon recovery funding board in accordance with procedures adopted by the board.

Sec. 26. RCW 77.120.030 and 2007 c 350 s 10 are each amended to read as follows:

(1) The owner or operator in charge of any vessel covered by this chapter is required to ensure that the vessel under their ownership or control does not discharge ballast water into the waters of the state except as authorized by this section.

(2) Discharge of ballast water into waters of the state is authorized only if there has been an open sea exchange, or if the vessel has treated its ballast water, to meet standards set by the department consistent with applicable state and federal laws.

(3) The department, in consultation with ~~(the ballast water work group, or similar)~~ a collaborative forum, shall adopt by rule standards for the discharge of ballast water into the waters of the state and their implementation timelines. The standards are intended to ensure that the discharge of ballast water poses minimal risk of introducing nonindigenous species. In developing these standards, the department shall consider the extent to which the requirement is technologically and practically feasible. Where practical and appropriate, the standards must be compatible with standards set by the United States coast guard, the federal clean water act (33 U.S.C. Sec. 1251-1387), or the international maritime organization.

(4) The master, operator, or person in charge of a vessel is not required to conduct an open sea exchange or treatment of ballast water if the master, operator, or person in charge of a vessel determines that the operation would threaten the safety of the vessel, its crew, or its passengers, because of adverse weather, vessel design limitations, equipment failure, or any other extraordinary conditions. A master, operator, or person in charge of a vessel who relies on this exemption must file documentation defined by the department, subject to: (a) Payment of a fee not to exceed five thousand dollars; (b) discharging only the minimal amount of ballast water operationally necessary; (c) ensuring that ballast water records accurately reflect any reasons for not complying with the mandatory requirements; and (d) any other requirements identified by the department by rule as provided in subsections (3) and (6) of this section.

(5) For treatment technologies requiring shipyard modification, the department may enter into a compliance plan

with the vessel owner. The compliance plan must include a timeline consistent with drydock and shipyard schedules for completion of the modification. The department shall adopt rules for compliance plans under this subsection.

(6) For an exemption claimed in subsection (4) of this section, the department shall adopt rules for defining exemption conditions, requirements, compliance plans, or alternative ballast water management strategies to meet the intent of this section.

(7) The department shall make every effort to align ballast water standards with adopted international and federal standards while ensuring that the goals of this chapter are met.

(8) The requirements of this section do not apply to a vessel discharging ballast water or sediments that originated solely within the waters of Washington ~~(state)~~, the Columbia river system, or the internal waters of British Columbia south of latitude fifty degrees north, including the waters of the Straits of Georgia and Juan de Fuca.

(9) Open sea exchange is an exchange that occurs fifty or more nautical miles offshore. If the United States coast guard requires a vessel to conduct an exchange further offshore, then that distance is the required distance for purposes of compliance with this chapter.

Sec. 27. RCW 77.120.110 and 2007 c 350 s 14 are each amended to read as follows:

(1) The ballast water management account is created in the state treasury. All receipts from legislative appropriations, gifts, grants, donations, penalties, and fees received under this chapter must be deposited into the account.

(2) Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only to carry out the purposes of this chapter or support the goals of this chapter through research and monitoring except:

(a) Expenditures may not be used for the salaries of permanent department employees; and

Where delay will cause loss to the value of the property and a ready wholesale buying market exists, the department may sell property to a wholesale buyer at a fair market value.

(2) When seized property is forfeited to the department, the department may retain it for official use unless the property is required to be destroyed, or upon application by any law enforcement agency of the state, release the property to the agency for the use of enforcing this title, or sell such property and deposit the proceeds into the ~~((state wildlife fund))~~ fish and wildlife enforcement reward account established under RCW ~~((77.12.170))~~ 77.15.425. legislature also finds that as the human population increases and encroaches on wildlife habitat, interactions between humans and wildlife will become more frequent.

(2) The legislature further finds that interactions between humans and wildlife can have significant financial impacts on the affected landowner. Although the resulting wildlife damage is felt most closely by the landowner, the general public, as beneficiaries and stewards of healthy wildlife populations, should bear some responsibility, as outlined in and limited by this act, for providing a measure of restitution to the impacted landowner, provided that the landowner has exhausted all legal, practicable self-help methods available to prevent wildlife damage from occurring.

(3) The legislature further finds that the commercial agriculture, horticulture, and livestock industries are important components of the state economy that can be negatively impacted by interactions with wildlife. However, the legislature also finds that other landowners, both commercial and residential, may be faced with wildlife interactions that result in property damage. It is the intent of the legislature to craft a solution whereby all property owners have a potential avenue to petition the state for some mitigation of the damages caused by wildlife.

(4) The legislature further finds that it is in the best interests of the state for the department of fish and wildlife to respond quickly to wildlife damage complaints and to work with those affected to prevent and minimize negative interactions while maintaining healthy wildlife populations.

(5) The legislature further finds that negative wildlife interactions can be best reduced by encouraging landowners to contribute, through their land management practices, to healthy wildlife populations and to provide access for related recreation.

Payments for claims for damage to commercial livestock are not subject to the limitations of RCW 77.36.070 and 77.36.080, but may not exceed the total amount specifically appropriated therefor.

(b) Owners of commercial crops or commercial livestock are only eligible for a claim under this subsection if:

(i) The owner satisfies the definition of "eligible farmer" in RCW 82.08.855;

(ii) The conditions of section 56 of this act have been satisfied; and

(iii) The damage caused to the commercial crop or commercial livestock satisfies the criteria for damage established by the commission under this subsection.

(c) The commission shall adopt and maintain by rule criteria that clarifies the damage to commercial crops and commercial livestock qualifying for compensation under this subsection. An owner of a commercial crop or commercial livestock must satisfy the criteria prior to receiving compensation under this subsection. The criteria for damage adopted under this subsection must include, but not be limited to, a required minimum economic loss to the owner of the commercial crop or commercial livestock, which may not be set at a value of less than five hundred dollars.

(2)(a) The department may offer to provide noncash compensation only to offset wildlife interactions to a person who applies to the department for compensation for damage to property other than commercial crops or commercial livestock that is the result of a mammalian or avian species of wildlife on a case-specific basis if the conditions of section 56 of this act have been satisfied and if the damage satisfies the criteria for damage established by the commission under this subsection.

(b) The commission shall adopt and maintain by rule criteria for damage to property other than a commercial crop or commercial livestock that is damaged by wildlife and may be eligible for compensation under this subsection, including criteria for filing a claim for compensation under this subsection.

(3)(a) To prevent or offset wildlife interactions, the department may offer materials or services to a person who applies to the department for assistance in providing mitigating actions designed to reduce wildlife interactions if the actions are designed to address damage that satisfies the criteria for damage established by the commission under this subsection.

(b) The commission shall adopt and maintain by rule criteria for mitigating actions designed to address wildlife interactions that may be eligible for materials and services under this section, including criteria for submitting an application under this section.

(4) An owner who files a claim under this section may appeal the decision of the department pursuant to rules adopted by the commission if the claim:

(a) Is denied; or

(b) Is disputed by the owner and the owner disagrees with the amount of compensation determined by the department.

NEW SECTION. Sec. 56. A new section is added to chapter 77.36 RCW to read as follows:

(1) No owner may receive compensation for wildlife interactions under this chapter unless the owner has, as determined by the department, first:

(a) Utilized applicable legal and practicable self-help preventive measures available to prevent the damage, including the use of nonlethal methods and department-provided materials and services when available under section 55 of this act; and

(b) Exhausted all available compensation options available from nonprofit organizations that provide compensation to private property owners due to financial losses caused by wildlife interactions.

(2) In determining if the requirements of this section have been satisfied, the department may recognize and consider the following:

(a) Property losses may occur without future or anticipated knowledge of potential problems resulting in an owner being unable to take preemptive measures.

(b) Normal agricultural practices, animal husbandry practices, recognized standard management techniques, and other industry-recognized management practices may represent adequate preventative efforts.

NINETY-THIRD DAY, APRIL 14, 2009

2009 REGULAR SESSION

(c) Under certain circumstances, as determined by the department, wildlife may not logistically or practicably be managed by nonlethal efforts.

(d) Not all available legal preventative efforts are cost-effective for the owner to practicably employ.

(e) There are certain effective preventative control options not available due to federal or state restrictions.

(f) Under certain circumstances, as determined by the department, permitting public hunting may not be a practicable self-help method due to the size and nature of the property, the property's setting, or the ability of the landowner to accommodate public access.

(3) An owner is not eligible to receive compensation if the damages are covered by insurance.

(4) The commission shall adopt rules implementing this section, including requirements that owners document nonlethal preventative efforts undertaken and all permits issued by the department under RCW 77.12.240 and 77.12.150.

NEW SECTION. Sec. 57. A new section is added to chapter 77.36 RCW to read as follows:

The department shall establish:

(1) The form of affidavits or proof required to accompany all claims under this chapter;

(7) Timelines for a claimant to accept, reject, or appeal a determination made by the department;

(9) An appeals process for an owner eligible for compensation under section 55 of this act who is denied a claim or feels the compensation is insufficient; and

(10) Other policies necessary for administering this chapter.

NEW SECTION. Sec. 58. A new section is added to chapter 77.36 RCW to read as follows:

(1) Except as otherwise provided in this section and as limited by section 55 of this act and RCW 77.36.070 and 77.36.080, the cash compensation portion of each claim by the department under this chapter is limited to the lesser of:

(a) The value of the damage to the property by wildlife reduced by the amount of compensation provided to the claimant by any nonprofit organizations that provide compensation to private property owners due to financial losses caused by wildlife interactions, except that, subject to appropriation to pay compensation for damage to commercial livestock, the value of killed or injured commercial livestock may be no more than two hundred dollars per sheep, one thousand five hundred dollars per head of cattle, and one thousand five hundred dollars per horse; or

(b) Ten thousand dollars.

(2) The department may offer to pay a claim for an amount in excess of ten thousand dollars to the owners of commercial crops or commercial livestock filing a claim under section 55 of this act only if the outcome of an appeal filed by the claimant under section 55 of this act determines a payment higher than ten thousand dollars.

(3) All payments of claims by the department under this chapter must be paid to the owner of the damaged property and may not be assigned to a third party.

(4) The burden of proving all property damage, including damage to commercial crops and commercial livestock, belongs to the claimant.

Sec. 59. RCW 77.36.070 and 1996 c 54 s 8 are each amended to read as follows:

Such money shall be used to pay ((animal damage)) wildlife interaction claims only if the claim meets the conditions of ((RCW 77.36.040)) section 55 of this act and the department has expended all funds authorized under RCW 77.36.070 or subsection (1) of this section.

Senator Benton: "Thank you Mr. President. We've just come out of caucus and we found a one seventy-five page

amendment on our desk and it's right here before us to vote on. I would suggest and I would like to ask that we set the bill aside for a few minutes so we have a chance to read. We all know what trouble we're in in this country, passing bills without reading them and I'd sure like a chance to read this rather large amendment that's just been dropped on my desk in the last five minutes. To come out of caucus immediately and be asked to vote on an amendment this size on an important piece of legislation like this, I don't think it's prudent and I'd like to suggest that we resist that for a few moments and give us a chance to absorb this amendment."

Senator Prentice spoke in favor of passage of the bill.

POINT OF ORDER

Senator Schoesler: "Thank you Mr. President. In the past you have ruled whether or not different bills were an expansion of gambling and therefore took a two-thirds vote to pass it. Therefore I would ask that Substitute Senate Bill No. 6108 comprise an expansion of gambling that would require two-thirds vote for passage."

REPLY BY THE PRESIDENT

President Owen: "Senator Schoesler, the President has rulings on points specifically on this issue and he believes that this is not considered an expansion of gambling. It would take a simple majority."

POINT OF ORDER

Senator Benton: "Thank you Mr. President, I rise to a point of order. Not to challenge you at all sir but I believe this may be have a little different twist. Maybe you've already looked at this particular one. This is not a multi-state lottery issue. This, the way I understand, it will allow us to enter into an agreement with other states to sell their lottery tickets in our state and visa versa. If that's the case we'll be offering lottery games that are offered from other states. That would seem to be that would indeed constitute an expansion of gambling in Washington State. So, again different, maybe a little different twist, we're hoping you might have a different ruling on this particular bill."

RULING BY THE PRESIDENT

President Owen: "I would not. Senator Benton, the President does not wish to elaborate because once I've made my ruling, I've made my ruling and so I do not go back and elaborate on the ruling once that's been done."

MOTION

On motion of Senator Marr, Senators Brown and Hargrove were excused.

Revitalizing student financial aid.

The measure was read the second time.

MOTION

Senator Kilmer moved that the following committee striking amendment by the Committee on Higher Education & Workforce Development be adopted.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that a myriad of financial aid programs exist for students at the federal, state, local, community, and institutional levels. These programs enable thousands of students across Washington to access all sectors of higher education, from apprenticeship programs to public and private four and two-year institutions of higher education. The legislature further finds that Washington state is a national leader in the distribution of financial aid to increase college access and affordability, ranking fourth in the nation in 2007 in terms of state student grant aid funding per capita.

It is the intent of the legislature to promote and expand access to state financial aid programs by determining which programs provide the greatest value to the largest number of students, and by fully supporting those programs. Furthermore, it is the intent of the legislature to designate all existing financial aid an opportunity pathway, with the effect of providing students with a clear understanding of available resources to pay for postsecondary education, thereby increasing access to postsecondary education and meeting the needs of local business and industry.

It is the intent of the legislature that the higher education coordinating board, the state board for community and technical colleges, the office of the superintendent of public instruction, the workforce training and education coordinating board, and institutions of higher education coordinate the development of outreach tools, such as a web-based portal for information on all opportunity pathway aid programs. The information should be communicated in a format and manner that provides an ease of understanding for students and their families and include other pertinent information on institutions of higher education, costs, and academic programs. It is also the intent of the legislature for institutions of higher education to incorporate this information in promotional materials to prospective and current students and their families.

NEW SECTION. Sec. 2. A new section is added to chapter 28B.101 RCW to read as follows:

(1) The legislature intends to consolidate the educational opportunity grant program over a period of two years. As of August 1, 2009, no new educational opportunity grants may be made. Persons who have been selected by the higher education coordinating board to receive a grant before August 1, 2009, shall receive the full amount of their award, not to exceed two thousand five hundred dollars per academic year for a maximum of two years. All persons awarded an educational opportunity grant before August 1, 2009, must complete using the award before August 1, 2011. For these recipients, eligibility for the grant is forfeited after this period.

(2) This section expires August 1, 2011.

NEW SECTION. Sec. 3. A new section is added to chapter 28B.92 RCW to read as follows:

(1) To the extent funds are appropriated for this purpose and within overall appropriations for the state need grant, enhanced need grants are provided for persons who meet all of the following criteria:

- (a) Are needy students as defined in RCW 28B.92.030;
- (b) Are placebound students as defined in RCW 28B.92.030; and
- (c) Have completed the associate of arts or the associate of science degree, or its equivalent.

(2) The enhanced need grants established in this section are provided to this specific group of students in addition to the base state need grant, as defined by rule of the board.

Sec. 4. RCW 28B.92.060 and 2007 c 404 s 2 are each amended to read as follows:

In awarding need grants, the board shall proceed substantially as follows: PROVIDED, That nothing contained herein shall be construed to prevent the board, in the exercise of its sound discretion, from following another procedure when the best interest of the program so dictates:

(1) The board shall annually select the financial aid award recipients from among Washington residents applying for student financial aid who have been ranked according to:

- (a) Financial need as determined by the amount of the family contribution; and
- (b) Other considerations, such as whether the student is a former foster youth, or is a placebound student who has completed an associate of arts or associate of science degree or its equivalent.

(2) The financial need of the highest ranked students shall be met by grants depending upon the evaluation of financial need until the total allocation has been disbursed. Funds from grants which are declined, forfeited or otherwise unused shall be reawarded until disbursed, except that eligible former foster youth shall be assured receipt of a grant.

(3) A student shall be eligible to receive a state need grant for up to five years, or the credit or clock hour equivalent of five years, or up to one hundred twenty-five percent of the published length of time of the student's program. A student may not start a new associate degree program as a state need grant recipient until at least five years have elapsed since earning an associate degree as a need grant recipient, except that a student may earn two associate degrees concurrently. Qualifications for renewal will include maintaining satisfactory academic progress toward completion of an eligible program as determined by the board. Should the recipient terminate his or her enrollment for any reason during the academic year, the unused portion of the grant shall be returned to the state educational grant fund by the institution according to the institution's own policy for issuing refunds, except as provided in RCW 28B.92.070.

(4) In computing financial need, the board shall determine a maximum student expense budget allowance, not to exceed an amount equal to the total maximum student expense budget at the public institutions plus the current average state appropriation per student for operating expense in the public institutions. Any child support payments received by students who are parents attending less than half-time shall not be used in computing financial need.

(5)(a) A student who is enrolled in three to six credit-bearing quarter credits, or the equivalent semester credits, may receive a grant for up to one academic year before beginning a program that leads to a degree or certificate.

(b) An eligible student enrolled on a less-than-full-time basis shall receive a prorated portion of his or her state need grant for any academic period in which he or she is enrolled on a less-than-full-time basis, as long as funds are available.

(c) An institution of higher education may award a state need grant to an eligible student enrolled in three to six credit-bearing quarter credits, or the semester equivalent, on a provisional basis if:

(i) The student has not previously received a state need grant from that institution;

(ii) The student completes the required free application for federal student aid;

(iii) The institution has reviewed the student's financial condition, and the financial condition of the student's family if the student is a dependent student, and has determined that the student is likely eligible for a state need grant; and

(iv) The student has signed a document attesting to the fact that the financial information provided on the free application for federal student aid and any additional financial information provided directly to the institution is accurate and complete, and that the student agrees to repay the institution for the grant amount if the student submitted false or incomplete information.

(6) As used in this section, "former foster youth" means a person who is at least eighteen years of age, but not more than twenty-four years of age, who was a dependent of the department of social and health services at the time he or she attained the age of eighteen.

Sec. 5. RCW 28B.92.030 and 2004 c 275 s 35 are each amended to read as follows:

As used in this chapter:

(1) "Institution" or "institutions of higher education" means:

(a) Any public university, college, community college, or technical college operated by the state of Washington or any political subdivision thereof; or

(b) Any other university, college, school, or institute in the state of Washington offering instruction beyond the high school level which is a member institution of an accrediting association recognized by rule of the board for the purposes of this section: PROVIDED, That any institution, branch, extension or facility operating within the state of Washington which is affiliated with an institution operating in another state must be a separately accredited member institution of any such accrediting association, or a branch of a member institution of an accrediting association recognized by rule of the board for purposes of this section, that is eligible for federal student financial aid assistance and has operated as a nonprofit college or university delivering on-site classroom instruction for a minimum of twenty consecutive years within the state of Washington, and has an annual enrollment of at least seven hundred full-time equivalent students: PROVIDED FURTHER, That no institution of higher education shall be eligible to participate in a student financial aid program unless it agrees to and complies with program rules and regulations adopted pursuant to RCW 28B.92.150.

(2) "Financial aid" means loans and/or grants to needy students enrolled or accepted for enrollment as a student at institutions of higher education.

(3) "Needy student" means a post high school student of an institution of higher education who demonstrates to the board the financial inability, either through the student's parents, family and/or personally, to meet the total cost of board, room, books, and tuition and incidental fees for any semester or quarter.

(4) "Disadvantaged student" means a post high school student who by reason of adverse cultural, educational, environmental, experiential, familial or other circumstances is unable to qualify for enrollment as a full time student in an institution of higher education, who would otherwise qualify as a needy student, and who is attending an institution of higher education under an established program designed to qualify the student for enrollment as a full time student.

(5) "Board" means the higher education coordinating board.

(6) "Placebound student" means a student who (a) is unable to complete a college program because of family or employment commitments, health concerns, monetary inability, or other similar factors; and (b) may be influenced by the receipt of an

~~((+))~~ (c) The difference between the amounts for the full cost of instruction and the student tuition and fees~~((,-(noting)))~~

(2) The tuition billing statement shall note that the difference between the cost and tuition under subsection (1)(c) of this section was paid by state tax funds and other moneys.

(3) Beginning in the 2010-11 academic year, the amount determined in subsection (1)(c) of this section shall be labeled an "opportunity pathway" on the tuition billing statement.

(4) Beginning in the 2010-11 academic year, institutions of higher education shall label financial aid awarded to resident undergraduate students as an "opportunity pathway" on the tuition billing statement or financial aid award notification. Aid granted to students outside of the financial aid package provided through the institution of higher education and loans provided by the federal government are not subject to the labeling provisions in this subsection. All other aid from all sources including federal, state, and local governments, local communities, nonprofit and for-profit organizations, and institutions of higher education must be included. The disclosure requirements specified in this section do not change the source, award amount, student eligibility, or student obligations associated with each award. Institutions of higher education retain the ability to customize their tuition billing statements to inform students of the assistance source, amount, and type so long as provisions of this section are also fulfilled.

(5) The tuition billing statement disclosures shall be in twelve-point type and boldface type where appropriate.

Sec. 7. RCW 28B.76.500 and 1985 c 370 s 23 are each amended to read as follows:

(1) The board shall administer any state program or state-administered federal program of student financial aid now or hereafter established.

(2) Each of the student financial aid programs administered by the board shall be labeled an "opportunity pathway." Loans provided by the federal government and aid granted to students outside of the financial aid package provided through institutions of higher education are not subject to the labeling provisions in this subsection. All communication materials, including, but not limited to, printed materials, presentations, and web content, shall include the "opportunity pathway" label.

(3) If the board develops a one-stop college information web-based portal that includes financial, academic, and career planning information, the portal shall display all available student financial aid programs, except federal student loans and aid granted to students outside of the financial aid package provided through institutions of higher education, under the "opportunity pathway" label.

(4) The labeling requirements in this section do not change the source, eligibility requirements, or student obligations associated with each program. The board shall customize its communications to differentiate between programs, eligibility requirements, and student obligations, so long as the reporting provisions of this chapter are also fulfilled.

NEW SECTION. Sec. 8. A new section is added to chapter 28B.15 RCW to read as follows:

As used in this chapter, "dual credit program" means a program, administered by either an institution of higher education or a high school, through which high school students

in the eleventh or twelfth grade who have not yet received the credits required for the award of a high school diploma apply to a participating institution of higher education to enroll in courses or programs offered by the institution of higher education and simultaneously earn high school and college credit.

Sec. 9. RCW 28B.15.820 and 2007 c 404 s 4 are each amended to read as follows:

(1) Each institution of higher education, including technical colleges, shall deposit a minimum of three and one-half percent of revenues collected from tuition and services and activities fees in an institutional financial aid fund that is hereby created and which shall be held locally. Moneys in the fund shall be used only for the following purposes: (a) To make guaranteed long-term loans to eligible students as provided in subsections (3) through (8) of this section; (b) to make short-term loans as provided in subsection (9) of this section; ~~((or))~~ (c) to provide financial aid to needy students as provided in subsection (10) of this section; or (d) to provide financial aid to students as provided in subsection (11) of this section.

(2) An "eligible student" for the purposes of subsections (3) through (8) and (10) of this section is a student registered for at least three credit hours or the equivalent, who is eligible for resident tuition and fee rates as defined in RCW 28B.15.012 and 28B.15.013, and who is a "needy student" as defined in RCW 28B.92.030.

(3) The amount of the guaranteed long-term loans made under this section shall not exceed the demonstrated financial need of the student. Each institution shall establish loan terms and conditions which shall be consistent with the terms of the guaranteed loan program established by 20 U.S. Code Section 1071 et seq., as now or hereafter amended. All loans made shall be guaranteed by the Washington student loan guaranty association or its successor agency. Institutions are hereby granted full authority to operate as an eligible lender under the guaranteed loan program.

(4) Before approving a guaranteed long-term loan, each institution shall analyze the ability of the student to repay the loan based on factors which include, but are not limited to, the student's accumulated total education loan burdens and the employment opportunities and average starting salary characteristics of the student's chosen fields of study. The institution shall counsel the student on the advisability of acquiring additional debt, and on the availability of other forms of financial aid.

(5) Each institution is responsible for collection of guaranteed long-term loans made under this section and shall exercise due diligence in such collection, maintaining all necessary records to insure that maximum repayments are made. Institutions shall cooperate with other lenders and the Washington student loan guaranty association, or its successor agency, in the coordinated collection of guaranteed loans, and shall assure that the guarantability of the loans is not violated. Collection and servicing of guaranteed long-term loans under this section shall be performed by entities approved for such servicing by the Washington student loan guaranty association or its successor agency: PROVIDED, That institutions be permitted to perform such servicing if specifically recognized to do so by the Washington student loan guaranty association or its successor agency. Collection and servicing of guaranteed long-term loans made by community colleges under subsection (1) of this section shall be coordinated by the state board for community and technical colleges and shall be conducted under procedures adopted by the state board.

(6) Receipts from payment of interest or principal or any other subsidies to which institutions as lenders are entitled, that are paid by or on behalf of borrowers of funds under subsections (3) through (8) of this section, shall be deposited in each institution's financial aid fund and shall be used to cover the

NINETY-THIRD DAY, APRIL 14, 2009

costs of making the guaranteed long-term loans under this section and maintaining necessary records and making collections under subsection (5) of this section: PROVIDED, That such costs shall not exceed five percent of aggregate outstanding loan principal. Institutions shall maintain accurate records of such costs, and all receipts beyond those necessary to pay such costs, shall be deposited in the institution's financial aid fund.

(7) The governing boards of the state universities, the regional universities, and The Evergreen State College, and the state board for community and technical colleges, on behalf of the community colleges and technical colleges, shall each adopt necessary rules and regulations to implement this section.

(8) First priority for any guaranteed long-term loans made under this section shall be directed toward students who would not normally have access to educational loans from private financial institutions in Washington state, and maximum use shall be made of secondary markets in the support of loan consolidation.

(9) Short-term loans, not to exceed one year, may be made from the institutional financial aid fund to students enrolled in the institution. No such loan shall be made to any student who is known by the institution to be in default or delinquent in the payment of any outstanding student loan. A short-term loan may be made only if the institution has ample evidence that the student has the capability of repaying the loan within the time frame specified by the institution for repayment.

(10) Any moneys deposited in the institutional financial aid fund that are not used in making long-term or short-term loans may be used by the institution for locally administered financial aid programs for needy students, such as need-based institutional employment programs or need-based tuition and fee scholarship or grant programs. These funds shall be used in addition to and not to replace institutional funds that would otherwise support these locally administered financial aid programs. First priority in the use of these funds shall be given to needy students who have accumulated excessive educational loan burdens. An excessive educational loan burden is a burden that will be difficult to repay given employment opportunities and average starting salaries in the student's chosen fields of study. Second priority in the use of these funds shall be given to needy single parents, to assist these students with their educational expenses, including expenses associated with child care and transportation.

(11) Any moneys deposited in the institutional financial aid fund may be used by the institution for a locally administered financial aid program for high school students enrolled in dual credit programs. If institutions use funds in this manner, the governing boards of the state universities, the regional universities, The Evergreen State College, and the state board for community and technical colleges shall each adopt necessary rules to implement this subsection. Moneys from this fund may be used for all educational expenses related to a student's participation in a dual credit program including but not limited to tuition, fees, course materials, and transportation.

NEW SECTION. Sec. 10. A new section is added to chapter 28B.92 RCW to read as follows:

Institutions of higher education are encouraged to review their policies and procedures regarding financial aid for students enrolled in dual credit programs as defined in section 8 of this act. Institutions of higher education are further encouraged to implement policies and procedures providing students enrolled in dual credit programs with the same access to institutional aid, including all educational expenses, as provided to resident undergraduate students.

Sec. 11. RCW 28B.12.060 and 2005 c 93 s 4 are each amended to read as follows:

(c) Shall not take place in any manner that would replace classified positions reduced due to lack of funds or work; and

SECOND READING

HOUSE BILL NO. 1589, by Representatives Green, Dickerson and O'Brien

Addressing venue for hearings to modify or revoke an order for conditional release.

The measure was read the second time.

MOTION

Senator Regala moved that the following committee striking amendment by the Committee on Human Services & Corrections be adopted.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 71.05.340 and 2000 c 94 s 8 are each amended to read as follows:

(1)(a) When, in the opinion of the superintendent or the professional person in charge of the hospital or facility providing involuntary treatment, the committed person can be appropriately served by outpatient treatment prior to or at the expiration of the period of commitment, then such outpatient care may be required as a term of conditional release for a period which, when added to the inpatient treatment period, shall not exceed the period of commitment. If the hospital or facility designated to provide outpatient treatment is other than the facility providing involuntary treatment, the outpatient facility so designated must agree in writing to assume such responsibility. A copy of the terms of conditional release shall be given to the patient, the ((~~county~~)) designated mental health professional in the county in which the patient is to receive outpatient treatment, and to the court of original commitment.

(b) Before a person committed under grounds set forth in RCW 71.05.280(3) or 71.05.320((2)) (3)(c) is conditionally released under (a) of this subsection, the superintendent or professional person in charge of the hospital or facility providing involuntary treatment shall in writing notify the prosecuting attorney of the county in which the criminal charges against the committed person were dismissed, of the decision to conditionally release the person. Notice and a copy of the terms of conditional release shall be provided at least thirty days before the person is released from inpatient care. Within twenty days after receiving notice, the prosecuting attorney may petition the court in the county that issued the commitment order to hold a hearing to determine whether the person may be conditionally released and the terms of the conditional release. The prosecuting attorney shall provide a copy of the petition to the superintendent or professional person in charge of the hospital or facility providing involuntary treatment, the attorney, if any, and guardian or conservator of the committed person, and the court of original commitment. If the county in which the committed person is to receive outpatient treatment is the same county in which the criminal charges against the committed person were dismissed, then the court shall, upon the motion of

the prosecuting attorney, transfer the proceeding to the court in that county. The court shall conduct a hearing on the petition within ten days of the filing of the petition. The committed person shall have the same rights with respect to notice, hearing, and counsel as for an involuntary treatment proceeding, except as set forth in this subsection and except that there shall be no right to jury trial. The issue to be determined at the hearing is whether or not the person may be conditionally released without substantial danger to other persons, or substantial likelihood of committing criminal acts jeopardizing public safety or security. If the court disapproves of the conditional release, it may do so only on the basis of substantial evidence. Pursuant to the determination of the court upon the hearing, the conditional release of the person shall be approved by the court on the same or modified conditions or the person shall be returned for involuntary treatment on an inpatient basis subject to release at the end of the period for which he or she was committed, or otherwise in accordance with the provisions of this chapter.

(2) The hospital or facility designated to provide outpatient care or the secretary may modify the conditions for continued release when such modification is in the best interest of the person. Notification of such changes shall be sent to all persons receiving a copy of the original conditions.

(3)(a) If the hospital or facility designated to provide outpatient care, the ((~~county~~)) designated mental health professional, or the secretary determines that:

(i) A conditionally released person is failing to adhere to the terms and conditions of his or her release;

(ii) Substantial deterioration in a conditionally released person's functioning has occurred;

(iii) There is evidence of substantial decompensation with a reasonable probability that the decompensation can be reversed by further inpatient treatment; or

(iv) The person poses a likelihood of serious harm.

Upon notification by the hospital or facility designated to provide outpatient care, or on his or her own motion, the ((~~county~~)) designated mental health professional or the secretary may order that the conditionally released person be apprehended and taken into custody and temporarily detained in an evaluation and treatment facility in or near the county in which he or she is receiving outpatient treatment.

(b) The hospital or facility designated to provide outpatient treatment shall notify the secretary or ((~~county~~)) designated mental health professional when a conditionally released person fails to adhere to terms and conditions of his or her conditional release or experiences substantial deterioration in his or her condition and, as a result, presents an increased likelihood of serious harm. The ((~~county~~)) designated mental health professional or secretary shall order the person apprehended and temporarily detained in an evaluation and treatment facility in or near the county in which he or she is receiving outpatient treatment.

(c) A person detained under this subsection (3) shall be held until such time, not exceeding five days, as a hearing can be scheduled to determine whether or not the person should be returned to the hospital or facility from which he or she had been conditionally released. The ((~~county~~)) designated mental health professional or the secretary may modify or rescind such order at any time prior to commencement of the court hearing.

(d) The court that originally ordered commitment shall be notified within two judicial days of a person's detention under the provisions of this section, and the ((~~county~~)) designated mental health professional or the secretary shall file his or her petition and order of apprehension and detention with the court that originally ordered commitment or with the court in the county in which the person is detained and serve them upon the person detained. His or her attorney, if any, and his or her guardian or conservator, if any, shall receive a copy of such papers as soon as possible. Such person shall have the same

NINETY-THIRD DAY, APRIL 14, 2009

rights with respect to notice, hearing, and counsel as for an involuntary treatment proceeding, except as specifically set forth in this section and except that there shall be no right to jury trial. The venue for proceedings regarding a petition for modification or revocation of an order for conditional release shall be in the county in which the petition was filed. The issues to be determined shall be: (i) Whether the conditionally released person did or did not adhere to the terms and conditions of his or her conditional release; (ii) that substantial deterioration in the person's functioning has occurred; (iii) there is evidence of substantial decompensation with a reasonable probability that the decompensation can be reversed by further inpatient treatment; or (iv) there is a likelihood of serious harm; and, if any of the conditions listed in this subsection (3)(d) have occurred, whether the terms of conditional release should be modified or the person should be returned to the facility.

(e) Pursuant to the determination of the court upon such hearing, the conditionally released person shall either continue to be conditionally released on the same or modified conditions or shall be returned for involuntary treatment on an inpatient basis subject to release at the end of the period for which he or she was committed for involuntary treatment, or otherwise in accordance with the provisions of this chapter. Such hearing may be waived by the person and his or her counsel and his or her guardian or conservator, if any, but shall not be waivable unless all such persons agree to waive, and upon such waiver the person may be returned for involuntary treatment or continued on conditional release on the same or modified conditions.

(4) The proceedings set forth in subsection (3) of this section may be initiated by the ((county)) designated mental health professional or the secretary on the same basis set forth therein without requiring or ordering the apprehension and detention of the conditionally released person, in which case the court hearing shall take place in not less than five days from the date of service of the petition upon the conditionally released person. The petition may be filed in the court that originally ordered commitment or with the court in the county in which the person is present. The venue for the proceedings regarding the petition for modification or revocation of an order for conditional release shall be in the county in which the petition was filed.

Upon expiration of the period of commitment, or when the person is released from outpatient care, notice in writing to the court which committed the person for treatment shall be provided.

(5) The grounds and procedures for revocation of less restrictive alternative treatment shall be the same as those set forth in this section for conditional releases.

(6) In the event of a revocation of a conditional release, the subsequent treatment period may be for no longer than the actual period authorized in the original court order."

Senator Regala spoke in favor of adoption of the committee striking amendment.

"Sec. 1. RCW 9.94A.505 and 2008 c 231 s 25 are each amended to read as follows:

(8) As a part of any sentence, the court may impose and enforce crime-related prohibitions and affirmative conditions as provided in this chapter.

(9) In any sentence of partial confinement, the court may require the offender to serve the partial confinement in work release, in a program of home detention, on work crew, or in a combined program of work crew and home detention.

"Sec. 1. RCW 29A.08.520 and 2005 c 246 s 15 are each amended to read as follows:

(1) ~~(Upon receiving official notice of a person's conviction of a felony in either state or federal court, if the convicted person is a registered voter in the county, the county auditor shall cancel the defendant's voter registration. Additionally, the secretary of state in conjunction with the department of corrections, the Washington state patrol, the office of the administrator for the courts, and other appropriate state agencies shall arrange for a quarterly comparison of a list of known felons with the statewide voter registration list. If a person is found on a felon list and the statewide voter registration list)) For a felony conviction in a Washington state court, the right to vote is provisionally restored as long as the person is not under the authority of the department of corrections. For a felony conviction in a federal court or any state court other than a Washington state court, the right to vote is restored as long as the person is no longer incarcerated.~~

~~(2)(a) Once the right to vote has been provisionally restored, the sentencing court may revoke the provisional restoration of voting rights if the sentencing court determines that a person has willfully failed to comply with the terms of his or her order to pay legal financial obligations.~~

~~(b) If the person has failed to make three payments in a twelve-month period and the county clerk or restitution recipient requests, the prosecutor shall seek revocation of the provisional restoration of voting rights from the court.~~

~~(c) To the extent practicable, the prosecutor and county clerk shall inform a restitution recipient of the recipient's right to ask for the revocation of the provisional restoration of voting rights.~~

~~(3) If the court revokes the provisional restoration of voting rights, the revocation shall remain in effect until, upon motion by the person whose provisional voting rights have been revoked, the person shows that he or she has made a good faith effort to pay as defined in RCW 10.82.090.~~

~~(4) The county clerk shall enter into a database maintained by the administrator for the courts the names of all persons~~

(5) At least twice a year, the secretary of state shall compare the list of registered voters to a list of felons who are not eligible to vote as provided in subsections (1) and (3) of this section. If a registered voter is not eligible to vote as provided in this section, the secretary of state or county auditor shall confirm the match through a date of birth comparison and suspend the voter registration from the official state voter registration list. The ~~((canceling authority))~~ secretary of state or county auditor shall send to the person at his or her last known voter registration address and at the department of corrections, if the person is under the authority of the department, a notice of the proposed cancellation and an explanation of the requirements for provisionally and permanently restoring the right to vote ~~((once all terms of sentencing have been completed))~~ and reregistering. ~~((If the person does not respond within thirty days, the registration must be canceled.))~~ To the extent possible, the secretary of state shall time the comparison required by this subsection to allow notice and cancellation of voting rights for ineligible voters prior to a primary or general election.

~~((2))~~ (6) The right to vote may be permanently restored by ~~(= for each felony conviction;))~~ one of the following for each felony conviction:

(a) A certificate of discharge issued by the sentencing court, as provided in RCW 9.94A.637;

(b) A court order restoring the right, as provided in RCW 9.92.066;

(c) A final order of discharge issued by the indeterminate sentence review board, as provided in RCW 9.96.050; or

(d) A certificate of restoration issued by the governor, as provided in RCW 9.96.020.

(7) For the purposes of this section, a person is under the authority of the department of corrections if the person is:

(a) Serving a sentence of confinement in the custody of the department of corrections; or

(b) Subject to community custody as defined in RCW 9.94A.030.

Sec. 2. RCW 9.92.066 and 2003 c 66 s 2 are each amended to read as follows:

(1) Upon termination of any suspended sentence under RCW 9.92.060 or 9.95.210, such person may apply to the court for restoration of his or her civil rights not already restored by RCW 29A.08.520. Thereupon the court may in its discretion enter an order directing that such defendant shall thereafter be released from all penalties and disabilities resulting from the offense or crime of which he or she has been convicted.

(2)(a) Upon termination of a suspended sentence under RCW 9.92.060 or 9.95.210, the person may apply to the sentencing court for a vacation of the person's record of conviction under RCW 9.94A.640. The court may, in its discretion, clear the record of conviction if it finds the person has met the equivalent of the tests in RCW 9.94A.640(2) as those tests would be applied to a person convicted of a crime committed before July 1, 1984.

(b) The clerk of the court in which the vacation order is entered shall immediately transmit the order vacating the conviction to the Washington state patrol identification section and to the local police agency, if any, which holds criminal history information for the person who is the subject of the conviction. The Washington state patrol and any such local police agency shall immediately update their records to reflect the vacation of the conviction, and shall transmit the order vacating the conviction to the federal bureau of investigation. A conviction that has been vacated under this section may not be disseminated or disclosed by the state patrol or local law enforcement agency to any person, except other criminal justice enforcement agencies.

Sec. 3. RCW 9.94A.637 and 2007 c 171 s 1 are each amended to read as follows:

(1)(a) When an offender has completed all requirements of the sentence, including any and all legal financial obligations, and while under the custody and supervision of the department, the secretary or the secretary's designee shall notify the sentencing court, which shall discharge the offender and provide the offender with a certificate of discharge by issuing the certificate to the offender in person or by mailing the certificate to the offender's last known address.

(b)(i) When an offender has reached the end of his or her supervision with the department and has completed all the requirements of the sentence except his or her legal financial obligations, the secretary's designee shall provide the county clerk with a notice that the offender has completed all nonfinancial requirements of the sentence.

(ii) When the department has provided the county clerk with notice that an offender has completed all the requirements of the sentence and the offender subsequently satisfies all legal financial obligations under the sentence, the county clerk shall notify the sentencing court, including the notice from the department, which shall discharge the offender and provide the offender with a certificate of discharge by issuing the certificate to the offender in person or by mailing the certificate to the offender's last known address.

(c) When an offender who is subject to requirements of the sentence in addition to the payment of legal financial obligations either is not subject to supervision by the department or does not complete the requirements while under supervision of the department, it is the offender's responsibility to provide the court with verification of the completion of the sentence conditions other than the payment of legal financial obligations. When the offender satisfies all legal financial obligations under the sentence, the county clerk shall notify the sentencing court that the legal financial obligations have been satisfied. When the court has received both notification from the clerk and adequate verification from the offender that the sentence requirements have been completed, the court shall discharge the offender and provide the offender with a certificate of discharge by issuing the certificate to the offender in person or by mailing the certificate to the offender's last known address.

(2) Every signed certificate and order of discharge shall be filed with the county clerk of the sentencing county. In addition, the court shall send to the department a copy of every signed certificate and order of discharge for offender sentences under the authority of the department. The county clerk shall enter into a database maintained by the administrator for the courts the names of all felons who have been issued certificates of discharge, the date of discharge, and the date of conviction and offense.

(3) An offender who is not convicted of a violent offense or a sex offense and is sentenced to a term involving community supervision may be considered for a discharge of sentence by the sentencing court prior to the completion of community supervision, provided that the offender has completed at least one-half of the term of community supervision and has met all other sentence requirements.

(4) Except as provided in subsection (5) of this section, the discharge shall have the effect of restoring all civil rights ~~((lost by operation of law upon conviction))~~ not already restored by RCW 29A.08.520, and the certificate of discharge shall so state. Nothing in this section prohibits the use of an offender's prior record for purposes of determining sentences for later offenses as provided in this chapter. Nothing in this section affects or prevents use of the offender's prior conviction in a later criminal prosecution either as an element of an offense or for impeachment purposes. A certificate of discharge is not based on a finding of rehabilitation.

(5) Unless otherwise ordered by the sentencing court, a certificate of discharge shall not terminate the offender's obligation to comply with an order issued under chapter 10.99

NINETY-FOURTH DAY, APRIL 15, 2009

RCW that excludes or prohibits the offender from having contact with a specified person or coming within a set distance of any specified location that was contained in the judgment and sentence. An offender who violates such an order after a certificate of discharge has been issued shall be subject to prosecution according to the chapter under which the order was originally issued.

(6) Upon release from custody, the offender may apply to the department for counseling and help in adjusting to the community. This voluntary help may be provided for up to one year following the release from custody.

Sec. 4. RCW 9.96.050 and 2007 c 363 s 4 and 2007 c 171 s 2 are each reenacted and amended to read as follows:

(1)(a) When an offender on parole has performed all obligations of his or her release, including any and all legal financial obligations, for such time as shall satisfy the indeterminate sentence review board that his or her final release is not incompatible with the best interests of society and the welfare of the paroled individual, the board may make a final order of discharge and issue a certificate of discharge to the offender.

(b) The board retains the jurisdiction to issue a certificate of discharge after the expiration of the offender's or parolee's maximum statutory sentence. If not earlier granted and any and all legal financial obligations have been paid, the board shall issue a final order of discharge three years from the date of parole unless the parolee is on suspended or revoked status at the expiration of the three years.

(c) The discharge, regardless of when issued, shall have the effect of restoring all civil rights (~~lost by operation of law upon conviction~~) not already restored by RCW 29A.08.520, and the certification of discharge shall so state.

(d) This restoration of civil rights shall not restore the right to receive, possess, own, or transport firearms.

(e) The board shall issue a certificate of discharge to the offender in person or by mail to the offender's last known address.

(2) The board shall send to the department of corrections a copy of every signed certificate of discharge for offender sentences under the authority of the department of corrections.

(3) The discharge provided for in this section shall be considered as a part of the sentence of the convicted person and shall not in any manner be construed as affecting the powers of the governor to pardon any such person.

Sec. 5. RCW 10.64.140 and 2005 c 246 s 1 are each amended to read as follows:

(1) When a person is convicted of a felony, the court shall require the defendant to sign a statement acknowledging that:

~~(e) The provisional right to vote may be revoked if the defendant fails to comply with all the terms of his or her legal financial obligations or an agreement for the payment of legal financial obligations;~~

~~(f) The right to vote may be permanently restored by one of the following for each felony conviction:~~

~~((a))~~ (i) A certificate of discharge issued by the sentencing court, as provided in RCW 9.94A.637;

~~((b))~~ (ii) A court order issued by the sentencing court restoring the right, as provided in RCW 9.92.066;

~~((c))~~ (iii) A final order of discharge issued by the indeterminate sentence review board, as provided in RCW 9.96.050; or

~~((d))~~ (iv) A certificate of restoration issued by the governor, as provided in RCW 9.96.020; and

2009 REGULAR SESSION

~~((+))~~ (g) Voting before the right is restored is a class C felony under RCW 29A.84.660.

(2) For the purposes of this section, a person is under the authority of the department of corrections if the person is:

(a) Serving a sentence of confinement in the custody of the department of corrections; or

(b) Subject to community custody as defined in RCW 9.94A.030.

Sec. 6. RCW 9.94A.885 and 1999 c 323 s 3 are each amended to read as follows:

(1) The clemency and pardons board shall receive petitions from individuals, organizations, and the department for review and commutation of sentences and pardoning of offenders in extraordinary cases, and shall make recommendations thereon to the governor.

(2) The board shall receive petitions from individuals or organizations for the restoration of civil rights lost by operation of state law as a result of convictions for federal offenses or out-of-state felonies. The board may issue certificates of restoration limited to ~~((the elective rights to vote and to engage))~~ engaging in political office. Any certifications granted by the board must be filed with the secretary of state to be effective. In all other cases, the board shall make recommendations to the governor.

(3) The board shall not recommend that the governor grant clemency under subsection (1) of this section until a public hearing has been held on the petition. The prosecuting attorney of the county where the conviction was obtained shall be notified at least thirty days prior to the scheduled hearing that a petition has been filed and the date and place at which the hearing on the petition will be held. The board may waive the thirty-day notice requirement in cases where it determines that waiver is necessary to permit timely action on the petition. A copy of the petition shall be sent to the prosecuting attorney. The prosecuting attorney shall make reasonable efforts to notify victims, survivors of victims, witnesses, and the law enforcement agency or agencies that conducted the investigation, of the date and place of the hearing. Information regarding victims, survivors of victims, or witnesses receiving this notice are confidential and shall not be available to the offender. The board shall consider written, oral, audio, or videotaped statements regarding the petition received, personally or by representation, from the individuals who receive notice pursuant to this section. This subsection is intended solely for the guidance of the board. Nothing in this section is intended or may be relied upon to create a right or benefit, substantive or procedural, enforceable at law by any person.

SECOND READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 2128, by House Committee on Health Care & Wellness (originally sponsored by Representatives Seaquist and Simpson)

Concerning health care coverage for children.

The measure was read the second time.

MOTION

Senator Keiser moved that the following committee striking amendment by the Committee on Health & Long-Term Care be adopted.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that substantial progress has been made toward achieving the equally important goals set in 2007 that all children in Washington state have health care coverage by 2010 and that child health outcomes improve. The legislature also finds that continued steps are necessary to reach the goals that all children in Washington state shall have access to the health services they need to be healthy and ready to learn and that key measures of child health outcomes will show year by year improvement. The legislature further finds that reaching these goals is integral to the state's ability to weather the current economic crisis. The recent reauthorization of the federal children's health insurance program provides additional opportunities for the state to reach these goals. In view of these important objectives, the legislature intends that the apple health for kids program be managed actively across administrations in the department of social and health services, and across state and local agencies, with clear accountability for achieving the intended program outcomes. The legislature further intends that the department continue the implementation of the apple health for kids program with a commitment to fully utilizing the new program identity with appropriate materials.

Sec. 2. RCW 74.09.470 and 2007 c 5 s 2 are each amended to read as follows:

(1) Consistent with the goals established in RCW 74.09.402, through the apple health for kids program authorized in this section, the department shall provide affordable health care coverage to children under the age of nineteen who reside in Washington state and whose family income at the time of enrollment is not greater than two hundred fifty percent of the federal poverty level as adjusted for family size and determined annually by the federal department of health and human services, and effective January 1, 2009, and only to the extent that funds are specifically appropriated therefor, to children whose family income is not greater than three hundred percent of the federal poverty level. In administering the program, the department shall take such actions as may be necessary to ensure the receipt of federal financial participation under the medical assistance program, as codified at Title XIX of the federal social security act, the state children's health insurance program, as codified at Title XXI of the federal social security act, and any

2009 REGULAR SESSION

other federal funding sources that are now available or may become available in the future. The department and the caseload forecast council shall estimate the anticipated caseload and costs of the program established in this section.

(2) The department shall accept applications for enrollment for children's health care coverage; establish appropriate minimum-enrollment periods, as may be necessary; and determine eligibility based on current family income. The department shall make eligibility determinations within the time frames for establishing eligibility for children on medical assistance, as defined by RCW 74.09.510. The application and annual renewal processes shall be designed to minimize administrative barriers for applicants and enrolled clients, and to minimize gaps in eligibility for families who are eligible for coverage. If a change in family income results in a change in ~~((program eligibility))~~ the source of funding for coverage, the department shall transfer the family members to the appropriate ~~((programs))~~ source of funding and notify the family with respect to any change in premium obligation, without a break in eligibility. The department shall use the same eligibility redetermination and appeals procedures as those provided for children on medical assistance programs. The department shall modify its eligibility renewal procedures to lower the percentage of children failing to annually renew. ~~((The department shall report to the appropriate committees of the legislature on its progress in this regard by December 2007.))~~ The department shall manage its outreach, application, and renewal procedures with the goals of: (a) Achieving year by year improvements in enrollment, enrollment rates, renewals, and renewal rates; (b) maximizing the use of existing program databases to obtain information related to earned and unearned income for purposes of eligibility determination and renewals, including, but not limited to, the basic food program, the child care subsidy program, federal social security administration programs, and the employment security department wage database; (c) streamlining renewal processes to rely primarily upon data matches, online submissions, and telephone interviews; and (d) implementing any other eligibility determination and renewal processes to allow the state to receive an enhanced federal matching rate and additional federal outreach funding available through the federal children's health insurance program reauthorization act of 2009 by January 2010. The department shall advise the governor and the legislature regarding the status of these efforts by September 30, 2009. The information provided should include the status of the department's efforts, the anticipated impact of those efforts on enrollment, and the costs associated with that enrollment.

(3) To ensure continuity of care and ease of understanding for families and health care providers, and to maximize the efficiency of the program, the amount, scope, and duration of health care services provided to children under this section shall be the same as that provided to children under medical assistance, as defined in RCW 74.09.520.

(4) The primary mechanism for purchasing health care coverage under this section shall be through contracts with managed health care systems as defined in RCW 74.09.522 ~~((except when utilization patterns suggest that fee-for-service purchasing could produce equally effective and cost-efficient care)).~~ However, the department shall make every effort within available resources to purchase health care coverage for uninsured children whose families have access to dependent coverage through an employer-sponsored health plan or another source when it is cost-effective for the state to do so, and the purchase is consistent with requirements of Title XIX and Title XXI of the federal social security act. To the extent allowable

under federal law, the department shall require families to enroll in available employer-sponsored coverage, as a condition of participating in the program established under ~~((chapter 5, Laws of 2007))~~ this section, when it is cost-effective for the state to do so. Families who enroll in available employer-sponsored coverage under ~~((chapter 5, Laws of 2007))~~ this section shall be accounted for separately in the annual report required by RCW 74.09.053.

(5)(a) To reflect appropriate parental responsibility, the department shall develop and implement a schedule of premiums for children's health care coverage due to the department from families with income greater than two hundred percent of the federal poverty level. For families with income greater than two hundred fifty percent of the federal poverty level, the premiums shall be established in consultation with the senate majority and minority leaders and the speaker and minority leader of the house of representatives. Premiums shall be set at a reasonable level that does not pose a barrier to enrollment. The amount of the premium shall be based upon family income and shall not exceed the premium limitations in Title XXI of the federal social security act. Premiums shall not be imposed on children in households at or below two hundred percent of the federal poverty level as articulated in RCW 74.09.055.

(b) Beginning no later than January 1, ~~((2009))~~ 2010, the department shall offer families whose income is greater than three hundred percent of the federal poverty level the opportunity to purchase health care coverage for their children through the programs administered under this section without ~~((a))~~ an explicit premium subsidy from the state. The design of the health benefit package offered to these children should provide a benefit package substantially similar to that offered in the apple health for kids program, and may differ with respect to cost-sharing, and other appropriate elements from that provided to children under subsection (3) of this section including, but not limited to, application of preexisting conditions, waiting periods, and other design changes needed to offer affordable coverage. The amount paid by the family shall be in an amount equal to the rate paid by the state to the managed health care system for coverage of the child, including any associated and administrative costs to the state of providing coverage for the child.

(6) The department shall undertake and continue a proactive, targeted outreach and education effort with the goal of enrolling children in health coverage and improving the health literacy of youth and parents. The department shall collaborate with the department of health, local public health jurisdictions, the office of ~~((the))~~ the superintendent of public instruction, the department of early learning, health educators, health care providers, health carriers, community-based organizations, and parents in the design and development of this effort. The outreach and education effort shall include the following components:

(a) Broad dissemination of information about the availability of coverage, including media campaigns;

(b) Assistance with completing applications, and community-based outreach efforts to help people apply for coverage. Community-based outreach efforts should be targeted to the populations least likely to be covered;

(c) Use of existing systems, such as enrollment information from the free and reduced-price lunch program, the department of early learning child care subsidy program, the department of health's women, infants, and children program, and the early childhood education and assistance program, to identify children who may be eligible but not enrolled in coverage;

NINETY-FOURTH DAY, APRIL 15, 2009

(d) Contracting with community-based organizations and government entities to support community-based outreach efforts to help families apply for coverage. These efforts should be targeted to the populations least likely to be covered. The department shall provide informational materials for use by government entities and community-based organizations in their outreach activities, and should identify any available federal matching funds to support these efforts;

(e) Development and dissemination of materials to engage and inform parents and families statewide on issues such as: The benefits of health insurance coverage; the appropriate use of health services, including primary care provided by health care practitioners licensed under chapters 18.71, 18.57, 18.36A, and 18.79 RCW, and emergency services; the value of a medical home, well-child services and immunization, and other preventive health services with linkages to department of health child profile efforts; identifying and managing chronic conditions such as asthma and diabetes; and the value of good nutrition and physical activity;

(f) An evaluation of the outreach and education efforts, based upon clear, cost-effective outcome measures that are included in contracts with entities that undertake components of the outreach and education effort;

(g) ~~((A feasibility study and))~~ An implementation plan to develop online application capability that is integrated with the department's automated client eligibility system, and to develop data linkages with the office of ~~((the))~~ the superintendent of public instruction for free and reduced-price lunch enrollment information and the department of early learning for child care subsidy program enrollment information. ~~((The department shall submit a feasibility study on the implementation of the requirements in this subsection to the governor and legislature by July 2008.))~~

(7) The department shall take action to increase the number of primary care physicians providing dental disease preventive services including oral health screenings, risk assessment, family education, the application of fluoride varnish, and referral to a dentist as needed.

(8) The department shall monitor the rates of substitution between private-sector health care coverage and the coverage provided under this section and shall report to appropriate committees of the legislature by December 2010.

NEW SECTION. Sec. 3. The department must identify, within existing resources, a staff position as the single point of contact and coordination for the apple health for kids program. The position must ensure planning and coordination of all aspects of the apple health for kids program across all the involved agencies and with the various stakeholders, facilitate the collection, reporting, and analysis of the outcome data required in section 4 of this act, and facilitate the collection and reporting of the data required in section 2 of this act. The position must strive to provide transparency and accountability for the apple health for kids program and provide public reporting of the data required in sections 2 and 4 of this act.

Sec. 4. RCW 74.09.480 and 2007 c 5 s 4 are each amended to read as follows:

(1) The department, in collaboration with the department of health, health carriers, local public health jurisdictions, children's health care providers including pediatricians, family practitioners, and pediatric subspecialists, community and migrant health centers, parents, and other purchasers, shall ((identify explicit performance measures that indicate that a child has an established and effective medical home, such as)) establish a concise set of explicit performance measures that can indicate whether children enrolled in the program are receiving

health care through an established and effective medical home, and whether the overall health of enrolled children is improving. Such indicators may include, but are not limited to:

(a) Childhood immunization rates;

(b) Well child care utilization rates, including the use of behavioral and oral health screening, and validated, structured developmental ~~((assessment tools that include behavioral and oral health screening))~~ screens using tools, that are consistent with nationally accepted pediatric guidelines and recommended administration schedule, once funding is specifically appropriated for this purpose;

(c) Care management for children with chronic illnesses;

(d) Emergency room utilization; ~~((and))~~

(e) Visual acuity and eye health;

(f) Preventive oral health service utilization; and

(g) Children's mental health status. In defining these measures the department shall be guided by the measures provided in RCW 71.36.025.

Performance measures and targets for each performance measure must be ~~((reported to the appropriate committees of the senate and house of representatives by December 1, 2007))~~ established and monitored each biennium, with a goal of achieving measurable, improved health outcomes for the children of Washington state each biennium.

(2) Beginning in calendar year 2009, targeted provider rate increases shall be linked to quality improvement measures established under this section. The department, in conjunction with those groups identified in subsection (1) of this section, shall develop parameters for determining criteria for increased payment, alternative payment methodologies, or other incentives for those practices and health plans that incorporate evidence-based practice and improve and achieve sustained improvement with respect to the measures ~~((in both fee for service and managed care)).~~

(3) The department shall provide ~~((an annual))~~ a report to the governor and the legislature related to provider performance on these measures, beginning in September 2010 for 2007 through 2009 and ((annually)) biennially thereafter. "Sec. 1. RCW 44.04.280 and 2004 c 175 s 1 are each amended to read as follows:

(1) The legislature recognizes that language used in reference to individuals with disabilities shapes and reflects society's attitudes towards people with disabilities. Many of the terms currently used diminish the humanity and natural condition of having a disability. Certain terms are demeaning and create an invisible barrier to inclusion as equal community members. We landed at Travis Air Force Base and were disembarked, whatever that means, and I found out that my civilian flight was just about ready to leave so I jumped in a cab, rushed to the civilian airport, ran down the concourse, they waved me through, I ran down the causeway into the aircraft, now remember I'm carrying a AK-47, I have a black beret on, I haven't shaved for three days and I had a set of wrinkled khaki uniform on. The legislature recognizes that school districts request voter approval for two-year through four-year levies based on their projected levy capacities at the time that the levies are submitted

to the voters. It is the intent of the legislature to permit school districts with voter-approved maintenance and operation levies to seek an additional approval from the voters, if subsequently enacted legislation would permit a higher levy.

Sec. 3. RCW 84.52.053 and 2007 c 129 s 3 are each amended to read as follows:

(1) The limitations imposed by RCW 84.52.050 through 84.52.056, and 84.52.043 shall not prevent the levy of taxes by school districts, when authorized so to do by the voters of such school district in the manner and for the purposes and number of years allowable under Article VII, section 2(a) of the Constitution of this state. Elections for such taxes shall be held in the year in which the levy is made or, in the case of propositions authorizing two-year through four-year levies for maintenance and operation support of a school district, authorizing two-year levies for transportation vehicle funds established in RCW 28A.160.130, or authorizing two-year through six-year levies to support the construction, modernization, or remodeling of school facilities, which includes the purposes of RCW 28A.320.330(2)(f), in the year in which the first annual levy is made.

(2) Once additional tax levies have been authorized for maintenance and operation support of a school district for a two-year through four-year period as provided under subsection (1) of this section, no further additional tax levies for maintenance and operation support of the district for that period may be authorized, except for additional levies to provide for subsequently enacted increases affecting the district's levy base or maximum levy percentage. For the purpose of applying the limitation of this subsection, a two-year through six-year levy to support the construction, modernization, or remodeling of school facilities shall not be deemed to be a tax levy for maintenance and operation support of a school district.

(3) A special election may be called and the time therefor fixed by the board of school directors, by giving notice thereof by publication in the manner provided by law for giving notices of general elections, at which special election the proposition authorizing such excess levy shall be submitted in such form as to enable the voters favoring the proposition to vote "yes" and those opposed thereto to vote "no".

PERSONAL PRIVILEGE

Senator Benton: "Thank you Mr. President, ladies and gentlemen of the Senate. Today is a very special day. It is the birthday of a very unique person. An individual that has given a lot to this state and quite frankly I don't think it would be appropriate to let the day go without recognizing her. April 16, 1823, she was born in a farm house near St. Elser, Quebec. In 1856, thirty-three years later at the age of thirty-three, Mother Joseph led a group of five nuns to the Pacific Northwest Territories. In 1858, just two years later she opened the first hospital, St. Joseph's hospital in Vancouver, WA. One tiny room with four beds and benches all carved by her. She was a fantastic wood working expert. I mean, she was a construction expert as well. It's said that Mother Joseph would inspect construction of the hospitals, the eleven hospitals that she ultimately was responsible for building, would inspect the construction and when she identified faulty construction would rip it out herself and actually many times quite remarkably repair the faulty construction herself. This is an incredible woman and today is her birthday and I had breakfast with a dear friend this morning from Vancouver who reminded me, who happens to serve on the Board of Directors of the Southwest Washington Medical Center which, of course, started out as St. Joseph's and he reminded me that today is the birthday of Mother Joseph. You know, she's the only individual in the entire United States who's statue both graces the Capitol of her state and graces the Capitol of the United States as well. Her statue appears in Statuary Hall in the United States Congress and it also appears down here on our second floor. I went down this morning because I promised my friend that I would say a little prayer in front of St. Joseph's statue this morning remembering her and remembering her incredible contributions to this state and I wanted to just bring this to everyone else's attention. Eleven hospitals, seven academies, five Indian schools and two orphanages, not just here in Washington but throughout what was then the Northwest Territories, Oregon, Idaho, and of course, Washington State. Just an incredible person, even parts of Montana at that time, a stickler for details she was. A stickler for detail and I'm told an incredible fund raiser, an incredible fund raiser. So, I just wanted to remind people. Yes, it is personal because it touches it in Vancouver and I think it touches the rest of us in this state. The legacy that this woman has left for us has been incredible and so please let's take a moment to remember the contribution of Mother Joseph's to our great state and to our nation. Thank you Mr. President."

SECOND READING

SECOND SUBSTITUTE HOUSE BILL NO. 1946, by House Committee on Education Appropriations (originally sponsored by Representatives Carlyle, Anderson, Wallace, Angel, White, Schmick, Hasegawa, Goodman, Sullivan, Haigh, Hudgins, Kenney and Maxwell)

Regarding higher education online technology.

The measure was read the second time.

MOTION

Senator Kilmer moved that the following committee striking amendment by the Committee on Ways & Means be adopted.

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** The legislature recognizes that the state must educate more people to higher levels to adapt to the economic and social needs of the future. While our public

NINETY-FIFTH DAY, APRIL 16, 2009

2009 REGULAR SESSION

colleges and universities have realized great success in helping students achieve their dreams, the legislature also recognizes that much more must be done to prepare current and future students for a twenty-first century economy. To raise the levels of skills and knowledge needed to sustain the state's economic prosperity and competitive position in a global environment, the public higher education system must reach out to every prospective student and citizen in unprecedented ways, with unprecedented focus.

To reach out to these citizens, the state must dismantle the barriers of geographic isolation, cost, and competing demands of work and family life. The state must create a more nimble system of learning that is student-centric, more welcoming of nontraditional and underserved students, easier to access and use, and more tailored to today's student needs and expectations.

Technology can play a key role in helping achieve this systemic goal. While only a decade ago access to personal computers was widely viewed a luxury, today computers, digital media, electronic information, and content have changed the nature of how students learn and instructors teach. This presents a vast, borderless opportunity to extend the reach and impact of the state's public educational institutions and educate more people to higher levels.

Each higher education institution and workforce program serves a unique group of students and as such, has customized its own technology solutions to meet its emerging needs. While local solutions may have served institutions of higher education in the past, paying for and operating multiple technology solutions, platforms, systems, models, agreements, and operational functionality for common applications and support services no longer serves students or the state.

Today's students access education differently. Rather than enrolling in one institution of higher education, staying two to four years and graduating, today's learners prefer a cafeteria approach; they often enroll in and move among multiple institutions - sometimes simultaneously. Rather than sitting in lecture halls taking notes, they may listen to podcasts of a lecture while grocery shopping or hold a virtual study group with classmates on a video chat room. They may prefer hybrid courses where part of their time is spent in the classroom and part is spent online. They prefer online access for commodity administrative services such as financial aid, admissions, transcript services, and more.

Institutions of higher education not only must rethink teaching and learning in a digital-networked world, but also must tailor their administrative and student services technologies to serve the mobile student who requires dynamic, customized information online and in real time. Because these relationships are changing so fast and so fundamentally, it is incumbent on the higher education system to transform its practices just as profoundly.

Therefore, the legislature intends to both study and implement its findings regarding how the state's public institutions of higher education can share core resources in instructional, including library, resources, student services, and administrative information technology resources, user help desk services, faculty professional development, and more. The study will examine how public institutions of higher education can pursue a strategy of implementing single, shared, statewide commonly needed standards-based software, web hosting and support service solutions that are cost-effective, easily integrated, user-friendly, flexible, and constantly improving. The full range of applications that serve students, faculty, and administration shall be included. Expensive, proprietary, nonstandards-based customized applications, databases and

services, and other resources that do not allow for the transparent sharing of information across institutions, agencies, and educational levels, including K-12, are inconsistent with the state's objective of educating more people to higher levels.

NEW SECTION. Sec. 2. A new section is added to chapter 28B.10 RCW to read as follows:

All institutions of higher education are encouraged to use common online learning technologies including, but not limited to, existing learning management and web conferencing systems currently managed and governed by the state board for community and technical colleges; and share professional development materials and activities related to effective use of these tools. The state board for community and technical colleges may adjust existing vendor licenses to accommodate and provide enterprise services for any interested institutions of higher education. The common learning management system shall be designed in a way that allows for easy sharing of courses, learning objects, and other digital content among the institutions of higher education. Institutions of higher education may begin migration to these common systems immediately. The state board for community and technical colleges shall convene representatives from each four-year institution of higher education to develop a shared fee structure.

NEW SECTION. Sec. 3. (1) The higher education coordinating board shall convene a higher education technology transformation task force to improve the efficiency, effectiveness, and quality of education relative to the strategic and operational use of technology in public education.

(2) The task force shall be composed of one member from each public four-year institution of higher education; six members from the community and technical colleges; two faculty members from four-year institutions of higher education, at least one of whom is selected by statewide bargaining representatives; two faculty members from community or technical colleges, at least one of whom is selected by statewide bargaining representatives; and one member each from the state board for community and technical colleges; the higher education coordinating board; the workforce training and education coordinating board; the department of information services; and the council of presidents. The task force shall select a chair from its membership.

(3) The task force shall prepare a report that includes a plan to improve the efficiency, effectiveness, and quality of public higher education relative to the strategic and operational use of technology in higher education.

(4) In developing the plan, the institutions of higher education and their partners, identified in this section, shall take the following actions:

(a) Investigate similar efforts, strategies, programs, and options in other states, of private providers of higher education in the state, and global consortia related to:

(i) Online learning technologies including but not limited to: Learning management, ePortfolio, web conferencing systems, and other education applications;

(ii) Personalized online student services including but not limited to: Recruitment, admissions, retention, advising, academic planning, course catalogs, transfer, and financial aid management;

(iii) Integrated online administrative tools including but not limited to: Student information management; financial management; payroll; human resources; and data collection, reporting, and analysis;

(iv) Sharing library resources including but not limited to: Copyrighted physical and e-books, and consolidated electronic journals and research database licensing and other models;

(v) Methods and open licensing options for effectively sharing digital content including but not limited to: Open courseware, open textbooks, open journals, and open learning objects;

(vi) Methods for pooling, coordinating, and otherwise more efficiently managing enrollments so colleges with extra enrollment space in online courses can easily and efficiently make those spaces available to students at other colleges, or to high school students through existing dual-credit programs, without economic, governance, or institutional penalty or disincentive from the provider or recipient institution;

(vii) Methods for ensuring online courses meet agreed upon instructional guidelines, policies, and quality, and methods for sharing these best practices to improve traditional courses' quality;

(b) Develop a process and timeline for the implementation of a statewide approach based on the investigation in (a) of this subsection;

(c) Focus on statewide capability and standards that enable the efficient use of common applications, web hosting services, user support, staff training, and consolidated software licenses and open educational resources;

(d) Identify the metrics that can be used to gauge success;

(e) Conduct a comprehensive audit of existing resources used by public institutions of higher education or agencies including but not limited to technology-related: Employees; infrastructure; application licenses and costs; web hosting facilities and services; digital content licenses; student, faculty, and administrative applications and services; and the amounts and uses of technology fees charged to students. The failure of the individual public institution of higher education or agency to fully, accurately, and thoroughly account for these resources and fees in detail shall expressly be stated in the task force report;

(f) Recommend strategies and specific tactics to: (i) Reduce duplication of applications, web hosting, and support services; (ii) effectively and efficiently use technology to share costs, data, and faculty professional development; (iii) improve the quality of instruction; and (iv) increase student access, transfer capability, and the quality of student, faculty, and administration services; and

(g) Recommend governance models, funding models, and accountability measures to achieve these and related objectives.

(5) Subject to funds for this specific purpose, the higher education coordinating board shall engage an independent expert to conduct an independent technical analysis of the findings of the comprehensive technology audits outlined in subsection (4)(e) of this section.

(6) The public institutions of higher education and their partners shall jointly report their findings and recommendations to the appropriate committees of the legislature by December 1, 2010. A preliminary report shall be delivered to appropriate committees of the legislature by December 1, 2009.

NEW SECTION. Sec. 4. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2009, in the omnibus appropriations act, this act is null and void."

MOTION

Senator Kastama moved that the following committee striking amendment by the Committee on Ways & Means be not adopted.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that the deployment and adoption of high-speed internet services and technology advancements enhance economic development and public safety for the state's communities. Such deployment also offers improved health care, access to consumer and legal services, increased educational and civic participation opportunities, and a better quality of life for the state's residents. The legislature further finds that improvements in the deployment and adoption of high-speed internet services and the strategic inclusion of technology advancements and technology education are critical to ensuring that Washington remains competitive and continues to provide a skilled workforce, attract businesses, and stimulate job growth.

(2) The legislature intends to support strategic partnerships of public, private, nonprofit, and community-based sectors in the continued growth and development of high-speed internet services and information technology. The legislature further intends to ensure that all Washington citizens, businesses, schools, and organizations are able to obtain and utilize broadband fully, regardless of location, economic status, literacy level, age, disability, structure, or size. In addition, the legislature intends that a statewide assessment of the availability, location, service levels, and other characteristics of high-speed internet services and other advanced telecommunications services in the state be conducted.

(3) In recognition of the importance of broadband deployment and adoption to the economy, health, safety, and welfare of the people of Washington, it is the purpose of this act to make high-speed internet service more readily available

throughout the state, especially in areas with a low utilization rate.

NEW SECTION. Sec. 2. (1) The broadband mapping account is established in the custody of the state treasurer. The department shall deposit into the account such funds received from legislative appropriation, federal grants authorized under the federal broadband data improvement act, P.L. 110-385, Title I, and donated funds from private and public sources. Expenditures from the account may be used only for the purposes of sections 3 through 5 of this act. Only the director of the department or the director's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) The department of information services is the single eligible entity in the state for purposes of the federal broadband data improvement act, P.L. 110-385, Title I.

(3) Funding received by the department under the federal broadband data improvement act, P.L. 110-385, Title I, must be used in accordance with the requirements of that act and, subject to those requirements, may be distributed by the department on a competitive basis to other entities in the state to achieve the purposes of that act.

(4) The department of information services shall consult with the department of community, trade, and economic development or its successor agency, the office of financial management, and the utilities and transportation commission in coordinating broadband mapping activities. In carrying out any broadband mapping activities, the provisions of P.L. 110-385, Title I, regarding trade secrets, commercial or financial information, and privileged or confidential information submitted by the federal communications commission or a broadband provider are deemed to encompass the consulted agencies.

NEW SECTION. Sec. 3. (1) Subject to the availability of federal or state funding, the department may:

(a) Develop an interactive web site to allow residents to self-report whether high-speed internet is available at their home or residence and at what speed; and

(b) Conduct a detailed survey of all high-speed internet infrastructure owned or leased by state agencies and creating a geographic information system map of all high-speed internet infrastructure owned or leased by the state.

(2) State agencies responding to a survey request from the department under subsection (1)(b) of this section shall respond in a reasonable and timely manner, not to exceed one hundred twenty days. The department shall request of state agencies, at a minimum:

(a) The total bandwidth of high-speed internet infrastructure owned or leased;

(b) The cost of maintaining that high-speed internet infrastructure, if owned, or the price paid for the high-speed internet infrastructure, if leased; and

(c) The leasing entity, if applicable.

(3) The department may adopt rules as necessary to carry out the provisions of this section.

(4) For purposes of this section, "state agency" includes every state office, department, division, bureau, board, commission, or other state agency.

NEW SECTION. Sec. 4. (1) The department is authorized, through a competitive bidding process, to procure on behalf of the state a geographic information system map detailing high-speed internet infrastructure, service availability, and adoption. This geographic information system map may include adoption information, availability information, type of high-speed internet

deployment technology, and available speed tiers for high-speed internet based on any publicly available data.

(2) The department may procure this map either by:

(a) Contracting for and purchasing a completed map from a third party; or

(b) Working directly with the federal communications commission to accept publicly available data.

(3) The department shall establish an accountability and oversight structure to ensure that there is transparency in the bidding and contracting process and full financial and technical accountability for any information or actions taken by a third-party contractor creating this map.

(4) In contracting for purchase of the map in subsection (2)(a) of this section, the department may take no action, nor impose any condition on the third party, that causes any record submitted by a public or private broadband service provider to the third party to meet the standard of a public record as defined in RCW 42.56.010. This prohibition does not apply to any records delivered to the department by the third party as a component of the completed map. For the purpose of RCW 42.56.010(2), the purchase by the department of a completed map may not be deemed use or ownership by the department of the underlying information used by the third party to complete the map.

(5) Data or information that is publicly available as of the effective date of this section will not cease to be publicly available due to any provision of this act.

(c) A determination of how nonfederal sources may be utilized to achieve the purposes of broadband mapping, deployment, and adoption activities in the state.

(2) To the greatest extent possible, the initial report should be based upon the information identified in the geographic system maps developed under the requirements of this chapter.

(3) The initial report should be delivered to the appropriate committees of the legislature as soon as feasible, but no later than January 18, 2010.

(4) Future reports based upon the requirements of subsection (1) of this section should be delivered to the appropriate committees of the legislature by January 15th of each year.

strategic inclusion of technology advancements and technology education are critical to ensuring that Washington remains competitive and continues to provide a skilled workforce, attract businesses, and stimulate job growth.

(2) The legislature intends to support strategic partnerships of public, private, nonprofit, and community-based sectors in the continued growth and development of high-speed internet services and information technology. The legislature further intends to ensure that all Washington citizens, businesses, schools, and organizations are able to obtain and utilize broadband fully, regardless of location, economic status, literacy level, age, disability, structure, or size. In addition, the legislature intends that a statewide assessment of the availability, location, service levels, and other characteristics of high-speed internet services and other advanced telecommunications services in the state be conducted.

(3) In recognition of the importance of broadband deployment and adoption to the economy, health, safety, and welfare of the people of Washington, it is the purpose of this act to make high-speed internet service more readily available throughout the state, especially in areas and for populations with a low utilization rate.

NEW SECTION. Sec. 2. (1) The broadband mapping account is established in the custody of the state treasurer. The department shall deposit into the account such funds received from legislative appropriation, federal grants authorized under the federal broadband data improvement act, P.L. 110-385, Title I, and donated funds from private and public sources. Expenditures from the account may be used only for the purposes of sections 3 through 5 of this act. (3) Funding received by the department under the federal broadband data improvement act, P.L. 110-385, Title I, must be used in accordance with the requirements of that act and, subject to those requirements, may be distributed by the department on a competitive basis to other entities in the state to achieve the purposes of that act.

(4) The department of information services shall consult with the department of community, trade, and economic development or its successor agency, the office of financial management, and the utilities and transportation commission in coordinating broadband mapping activities. In carrying out any broadband mapping activities, the provisions of P.L. 110-385, Title I, regarding trade secrets, commercial or financial information, and privileged or confidential information submitted by the federal communications commission or a broadband provider are deemed to encompass the consulted agencies.

NEW SECTION. Sec. 3. (1) Subject to the availability of federal or state funding, the department may:

(b) The cost of maintaining that high-speed internet infrastructure, if owned, or the price paid for the high-speed internet infrastructure, if leased; and

(c) The leasing entity, if applicable.

(3) The department may adopt rules as necessary to carry out the provisions of this section.

(4) For purposes of this section, "state agency" includes every state office, department, division, bureau, board, commission, or other state agency.

This geographic information system map may include adoption information, availability information, type of high-speed internet deployment technology, and available speed tiers for high-speed internet based on any publicly available data.

(2) The department may procure this map either by:

(a) Contracting for and purchasing a completed map from a third party; or

(b) Working directly with the federal communications commission to accept publicly available data.

(3) The department shall establish an accountability and oversight structure to ensure that there is transparency in the bidding and contracting process and full financial and technical accountability for any information or actions taken by a third-party contractor creating this map.

(4) In contracting for purchase of the map in subsection (2)(a) of this section, the department may take no action, nor impose any condition on the third party, that causes any record submitted by a public or private broadband service provider to the third party to meet the standard of a public record as defined in RCW 42.56.010. This prohibition does not apply to any records delivered to the department by the third party as a component of the completed map. For the purpose of RCW 42.56.010(2), the purchase by the department of a completed map may not be deemed use or ownership by the department of the underlying information used by the third party to complete the map.

(5) Data or information that is publicly available as of the effective date of this section will not cease to be publicly available due to any provision of this act.

(2) To the greatest extent possible, the initial report should be based upon the information identified in the geographic system maps developed under the requirements of this chapter.

(3) The initial report should be delivered to the appropriate committees of the legislature as soon as feasible, but no later than January 18, 2010.

(4) Future reports based upon the requirements of subsection (1) of this section should be delivered to the appropriate committees of the legislature by January 15th of each year.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 2261, by House Committee on Education Appropriations (originally sponsored by Representatives Sullivan, Priest, Hunter, Anderson, Maxwell, White, Quall, Lias, Dammeier, Rodne, Wallace, Pedersen, Kelley, Goodman, Springer, Hope, Nelson, Miloscia, Carlyle, Hunt, Morris, Morrell, Probst, Pettigrew, Eddy, Simpson, Kenney, Moeller, Smith, Condotta, McCoy, Kagi, Chase, Rolfes, Clibborn, Ormsby, Haler and Cox)

Concerning the state's education system.

The measure was read the second time.

MOTION

Senator McAuliffe moved that the following committee striking amendment by the Committee on Ways & Means be not adopted.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** (1) Public education in Washington state has evolved since the enactment of the Washington basic education act of 1977. Decisions by the courts have played a part in this evolution, as have studies and research about education practices and education funding. The legislature finds ample evidence of a need for continuing to refine the program of basic education that is funded by the state and delivered by school districts.

(2) The legislature reaffirms the work of Washington Learns and other educational task forces that have been convened over the past four years and their recommendations to make bold

reforms to the entire educational system in order to educate all students to a higher level; to focus on the individualized instructional needs of students; to strive towards closing the achievement gap and reducing dropout rates; and to prepare students for a constantly evolving workforce and increasingly demanding global economy. In enacting this legislation, the legislature intends to continue to review, evaluate, and revise the definition and funding of basic education in order to continue to fulfill the state obligation under Article IX of the state Constitution. The legislature also intends to continue to strengthen and modify the structure of the entire K-12 educational system, including nonbasic education programmatic elements, in order to build the capacity to anticipate and support potential future enhancements to basic education as the educational needs of our citizens continue to evolve.

(3) The legislature recognizes that the first step in revising the definition and funding of basic education is to create a transparent funding system for both allocations and expenditures so that not only policymakers and educators understand how the state supports basic education but also taxpayers understand this. An adequate data system that enables the legislature to make rational, data-driven decisions on what educational programs impact student learning in order to more effectively and efficiently deliver the resources necessary to provide an ample program of basic education is also a necessity. A new prototypical funding system will allow the legislature to better understand how current resources are being used. A more complete and accurate educational data system will allow the legislature to understand whether current basic education programs are supporting student learning. Only with both of these systems in place can the legislature make informed decisions on how to best implement a dynamic and evolving system of basic education.

(4) For practical and educational reasons, major changes of the program of basic education and the funding formulas to support it cannot occur instantaneously. The legislature intends to build upon the previous efforts of the legislature and the basic education task force in order to develop a realistic implementation strategy for a new instructional program after technical experts develop the details of the prototypical schools funding formulas and data and reporting system that will support a new instructional program. The legislature also intends to establish a formal structure for ongoing monitoring of the capacity of the system to implement enhancements to basic education that is evidence-based and has been proven to have positive impacts on student learning. With this information the legislature can begin a schedule for implementation of a redefined program of basic education and the resources necessary to support it. It is the legislature's intent that when the system has the capacity to fully implement future reforms and enhancements they will be included in a definition and funding of basic education.

(5) It is the further intent of the legislature to also address additional issues that are of importance to the legislature but are not part of basic education.

NEW SECTION. **Sec. 2.** It is the intent of the legislature that the policies and allocation formulas adopted under this act will constitute the legislature's definition of basic education under Article IX of the state Constitution once fully implemented. The legislature intends, however, to continue to review and revise the formulas and schedules and may make additional revisions, including revisions for technical purposes and consistency in the event of mathematical or other technical errors.

PART I**PROGRAM AND FUNDING OF BASIC EDUCATION**

In exceptional cases, people of unusual competence but without certification may teach students so long as a certificated person exercises general supervision, but the hiring of such classified employees shall not occur during a labor dispute, and such classified employees shall not be hired to replace certificated employees during a labor dispute.

(8) "Instructional program of basic education" means the minimum program required to be provided by school districts and includes instructional hour requirements and other components under RCW 28A.150.220.

(9) "Program of basic education" means the overall program under RCW 28A.150.200 and deemed by the legislature to comply with the requirements of Article IX, section 1 of the state Constitution.

(10) "School day" means each day of the school year on which pupils enrolled in the common schools of a school district are engaged in academic and career and technical instruction planned by and under the direction of the school.

(11) "School year" includes the minimum number of school days required under RCW 28A.150.220 and begins on the first day of September and ends with the last day of August, except that any school district may elect to commence the annual school term in the month of August of any calendar year and in such case the operation of a school district for such period in August shall be credited by the superintendent of public instruction to the succeeding school year for the purpose of the allocation and distribution of state funds for the support of such school district.

(12) "Teacher planning period" means a period of a school day as determined by the administration and board of the directors of the district that may be used by teachers for instruction-related activities including but not limited to preparing instructional materials; reviewing student performance; recording student data; consulting with other teachers, instructional assistants, mentors, instructional coaches, administrators, and parents; or participating in professional development.

Sec. 103. RCW 28A.150.210 and 2007 c 400 s 1 are each amended to read as follows:

~~((The goal of the basic education act for the schools of the state of Washington set forth in this chapter shall be)) A basic education is an evolving program of instruction that is intended to provide students with the opportunity to become responsible and respectful global citizens, to contribute to their economic well-being and that of their families and communities, to explore and understand different perspectives, and to enjoy productive and satisfying lives. Additionally, the state of Washington intends to provide for a public school system that is able to evolve and adapt in order to better focus on strengthening the educational achievement of all students, which includes high expectations for all students and gives all students~~

2009 REGULAR SESSION

the opportunity to achieve personal and academic success. To these ends, the goals of each school district, with the involvement of parents and community members, shall be to provide opportunities for every student to develop the knowledge and skills essential to:

(1) Read with comprehension, write effectively, and communicate successfully in a variety of ways and settings and with a variety of audiences;

(2) Know and apply the core concepts and principles of mathematics; social, physical, and life sciences; civics and history, including different cultures and participation in representative government; geography; arts; and health and fitness;

(3) Think analytically, logically, and creatively, and to integrate different experiences and knowledge to form reasoned judgments and solve problems; and

(4) Understand the importance of work and finance and how performance, effort, and decisions directly affect future career and educational opportunities.

Sec. 104. RCW 28A.150.220 and 1993 c 371 s 2 are each amended to read as follows:

(1) Satisfaction of the basic education (~~(program requirements)~~) goal identified in RCW 28A.150.210 (~~(shall be considered)~~) is intended to be implemented by the following minimum instructional program:

(a) Each school district shall make available to students enrolled in kindergarten at least a total instructional offering of four hundred fifty hours. The program shall include instruction in the essential academic learning requirements under RCW (~~(28A.630.885)~~) 28A.655.070 and such other subjects and such activities as the school district shall determine to be appropriate for the education of the school district's students enrolled in such program;

(b) Each school district shall make available to students enrolled in grades one through twelve, at least a district-wide annual average total instructional hour offering of one thousand hours. The annual average total instructional hour offering shall be increased to at least one thousand eighty instructional hours for students enrolled in each of grades seven through twelve and at least one thousand instructional hours for students in each of grades one through six according to an implementation schedule adopted by the legislature and only as the capacity of the educational system is adequate to support such an increase in instructional hours. The state board of education may define alternatives to classroom instructional time for students in grades nine through twelve enrolled in alternative learning experiences. The state board of education shall establish rules to determine annual average instructional hours for districts including fewer than twelve grades. The program shall include the essential academic learning requirements under RCW (~~(28A.630.885)~~) 28A.655.070 and such other subjects and such activities as the school district shall determine to be appropriate for the education of the school district's students enrolled in such group;

(c) If the essential academic learning requirements include a requirement of languages other than English, the requirement may be met by students receiving instruction in one or more American Indian languages;

(d) Supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065;

(e) Supplemental instruction and services for eligible and enrolled students whose primary language is other than English through the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080;

(f) The opportunity for an appropriate education at public expense as defined by RCW 28A.155.020 for all eligible students with disabilities as defined in RCW 28A.155.020; and

(g) The opportunity to complete the high school coursework necessary to meet state-established high school graduation requirements.

(2) Nothing contained in subsection (1) of this section shall be construed to require individual students to attend school for any particular number of hours per day or to take any particular courses.

(3) Each school district's kindergarten through twelfth grade basic educational program shall be accessible to all students who are five years of age, as provided by RCW 28A.225.160, and less than twenty-one years of age and shall consist of a minimum of one hundred eighty school days per school year in such grades as are conducted by a school district, and one hundred eighty half-days of instruction, or equivalent, in kindergarten(~~(PROVIDED, That)~~). However, effective May 1, 1979, a school district may schedule the last five school days of the one hundred and eighty day school year for noninstructional purposes in the case of students who are graduating from high school, including, but not limited to, the observance of graduation and early release from school upon the request of a student, and all such students may be claimed as a full-time equivalent student to the extent they could otherwise have been so claimed for the purposes of RCW 28A.150.250 and 28A.150.260.

(4) The state board of education shall adopt rules to implement and ensure compliance with the program requirements imposed by this section, RCW 28A.150.250 and 28A.150.260, and such related supplemental program approval requirements as the state board may establish.

(5) Nothing in this section precludes a school district from enriching the instructional program of basic education, such as offering additional instruction or providing additional services, programs, or activities that the school district determines to be appropriate for the education of the school district's students.

Sec. 105. RCW 28A.150.250 and 1990 c 33 s 107 are each amended to read as follows:

(1) From those funds made available by the legislature for the current use of the common schools, the superintendent of public instruction shall distribute annually as provided in RCW 28A.510.250 to each school district of the state operating a basic education instructional program approved by the state board of education an amount based on the formulas provided in RCW 28A.150.260, 28A.150.390, and section 108 of this act which, when combined with an appropriate portion of such locally available revenues, other than receipts from federal forest revenues distributed to school districts pursuant to RCW 28A.520.010 and 28A.520.020, as the superintendent of public instruction may deem appropriate for consideration in computing state equalization support, excluding excess property tax levies, will constitute a basic education allocation in dollars for each annual average full-time equivalent student enrolled(~~(; based upon one full school year of one hundred eighty days, except that for kindergartens one full school year shall be one hundred eighty half days of instruction, or the equivalent as provided in RCW 28A.150.220)~~).

(2) The instructional program of basic education shall be considered to be fully funded by those amounts of dollars appropriated by the legislature pursuant to RCW (~~(28A.150.250 and)~~) 28A.150.260, 28A.150.390, and section 108 of this act to fund those program requirements identified in RCW 28A.150.220 in accordance with the formula (~~(and ratios)~~) provided in RCW 28A.150.260 and those amounts of dollars

appropriated by the legislature to fund the salary requirements of RCW ((28A.150.100 and)) 28A.150.410.

~~((Operation of a program approved by the state board of education, for the purposes of this section, shall include a finding that the ratio of students per classroom teacher in grades kindergarten through three is not greater than the ratio of students per classroom teacher in grades four and above for such district. PROVIDED, That for the purposes of this section, "classroom teacher" shall be defined as an instructional employee possessing at least a provisional certificate, but not necessarily employed as a certificated employee, whose primary duty is the daily educational instruction of students. PROVIDED FURTHER, That the state board of education shall adopt rules and regulations to insure compliance with the student/teacher ratio provisions of this section, and such rules and regulations shall allow for exemptions for those special programs and/or school districts which may be deemed unable to practicably meet the student/teacher ratio requirements of this section by virtue of a small number of students.))~~

(3) If a school district's basic education program fails to meet the basic education requirements enumerated in RCW ((28A.150.250;)) 28A.150.260(3) and 28A.150.220, the state board of education shall require the superintendent of public instruction to withhold state funds in whole or in part for the basic education allocation until program compliance is assured(~~(:—PROVIDED, That)~~). However, the state board of education may waive this requirement in the event of substantial lack of classroom space.

Sec. 106. RCW 28A.150.260 and 2006 c 263 s 322 are each amended to read as follows:

~~((The basic education allocation for each annual average full time equivalent student shall be determined in accordance with the following procedures))~~ The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula (~~(based on a ratio of students to staff))~~ for the distribution of a basic education instructional allocation for each ~~((annual average full time equivalent student enrolled in a))~~ common school district. ~~((The distribution formula shall have the primary objective of equalizing educational opportunities and shall provide appropriate recognition of the following costs among the various districts within the state:~~

- ~~— (a) Certificated instructional staff and their related costs;~~
- ~~— (b) Certificated administrative staff and their related costs;~~
- ~~— (c) Classified staff and their related costs;~~
- ~~— (d) Nonsalary costs;~~
- ~~— (e) Extraordinary costs, including school facilities, of remote and necessary schools as judged by the superintendent of public instruction, with recommendations from the school facilities citizen advisory panel under RCW 28A.525.025, and small high schools, including costs of additional certificated and classified staff; and~~
- ~~— (f) The attendance of students pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district.))~~

~~(2)((a))~~ The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.165, 28A.180, or 28A.155 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this

section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

~~(3)(a) To the extent the technical details of the formula have been adopted by the legislature, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.~~

~~(b) For the purposes of this section, prototypical schools are defined as follows:~~

~~(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;~~

~~(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and~~

~~(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.~~

~~(c) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on an average class size as specified in the omnibus appropriations act. The omnibus appropriations act shall at a minimum specify:~~

~~(i) Basic average class size;~~

~~(ii) Basic average class size in schools where more than fifty percent of the students are eligible for free and reduced-price meals; and~~

~~(iii) Average class size in grades kindergarten through three.~~

~~(d) The minimum allocation for each level of prototypical school shall include allocations for staff in addition to classroom teachers.~~

~~(4) The minimum allocation for each school district shall include allocations per annual average full-time equivalent student for the following materials, supplies, and operating costs: Student technology; utilities; curriculum, textbooks, library materials, and instructional supplies; instructional professional development; other building-level costs including maintenance, custodial, and security; and central office administration.~~

~~(5) The allocations provided under subsections (3) and (4) of this section shall be enhanced as follows to provide additional~~

2009 REGULAR SESSION

allocations for classroom teachers and maintenance, supplies, and operating costs:

(a) To provide supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065, allocations shall be based on the percent of students in each school who are eligible for free and reduced-price meals. The minimum allocation for the learning assistance program shall provide an extended school day and extended school year for each level of prototypical school and a per student allocation for maintenance, supplies, and operating costs.

(b) To provide supplemental instruction and services for students whose primary language is other than English, allocations shall be based on the number of students in each school who are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall provide for supplemental instruction based on percent of the school day a student is assumed to receive supplemental instruction and a per student allocation for maintenance, supplies, and operating costs.

(6) The allocations under subsections (3)(b), (c)(i), and (d), (4), and (7) of this section shall be enhanced as provided under RCW 28A.150.390 on an excess cost basis to provide supplemental instructional resources for students with disabilities.

(7) The distribution formula shall include allocations to school districts to support staffing of central office administration. The minimum allocation shall be calculated as a percentage, identified in the omnibus appropriations act, of the total allocations for staff under subsection (3) of this section for all schools in the district.

(8) For the purposes of allocations for prototypical high schools and middle schools under subsections (3) and (5) of this section that are based on the percent of students in the school who are eligible for free and reduced-price meals, the actual percent of such students in a school shall be adjusted by a factor identified in the omnibus appropriations act to reflect underreporting of free and reduced-price meal eligibility among middle and high school students.

(9)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to approval, amendment or rejection by the legislature. ((The formula shall be for allocation purposes only. While the legislature intends that the allocations for additional instructional staff be used to increase the ratio of such staff to students, nothing in this section shall require districts to reduce the number of administrative staff below existing levels.

(b) The formula adopted by the legislature shall reflect the following ratios at a minimum: (i) Forty-nine certificated instructional staff to one thousand annual average full-time equivalent students enrolled in grades kindergarten through three; (ii) forty-six certificated instructional staff to one thousand annual average full-time equivalent students in grades four through twelve; (iii) four certificated administrative staff to one thousand annual average full-time equivalent students in grades kindergarten through twelve; and (iv) sixteen and sixty-seven one-hundredths classified personnel to one thousand annual average full-time equivalent students enrolled in grades kindergarten through twelve.

(c)) (b) In the event the legislature rejects the distribution formula recommended by the governor, without adopting a new distribution formula, the distribution formula for the previous school year shall remain in effect((~~PROVIDED, That the~~

~~distribution formula developed pursuant to this section shall be for state apportionment and equalization purposes only and shall not be construed as mandating specific operational functions of local school districts other than those program requirements identified in RCW 28A.150.220 and 28A.150.100).~~

(c) The enrollment of any district shall be the annual average number of full-time equivalent students and part-time students as provided in RCW 28A.150.350, enrolled on the first school day of each month ((and shall exclude full-time equivalent students with disabilities recognized for the purposes of allocation of state funds for programs under RCW 28A.155.010 through 28A.155.100)), including students who are in attendance pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district. The definition of full-time equivalent student shall be determined by rules of the superintendent of public instruction((~~PROVIDED, That the definition~~)) and shall be included as part of the superintendent's biennial budget request((~~PROVIDED, FURTHER, That~~)). The definition shall be based on the minimum instructional hour offerings required under RCW 28A.150.220. Any revision of the present definition shall not take effect until approved by the house ((appropriations)) ways and means committee and the senate ways and means committee((~~PROVIDED, FURTHER, That~~)).

(d) The office of financial management shall make a monthly review of the superintendent's reported full-time equivalent students in the common schools in conjunction with RCW 43.62.050.

((3)(a) Certificated instructional staff shall include those persons employed by a school district who are nonsupervisory employees within the meaning of RCW 41.59.020(8): PROVIDED, That in exceptional cases, people of unusual competence but without certification may teach students so long as a certificated person exercises general supervision: PROVIDED, FURTHER, That the hiring of such classified people shall not occur during a labor dispute and such classified people shall not be hired to replace certificated employees during a labor dispute.

(b) Certificated administrative staff shall include all those persons who are chief executive officers, chief administrative officers, confidential employees, supervisors, principals, or assistant principals within the meaning of RCW 41.59.020(4):))

Sec. 107. RCW 28A.150.390 and 1995 c 77 s 6 are each amended to read as follows:

(1) The superintendent of public instruction shall submit to each regular session of the legislature during an odd-numbered year a programmed budget request for special education programs for students with disabilities. Funding for programs operated by local school districts shall be on an excess cost basis from appropriations provided by the legislature for special education programs for students with disabilities and shall take account of state funds accruing through RCW ((28A.150.250;)) 28A.150.260(;) (3) through (5) and federal medical assistance and private funds accruing under RCW 74.09.5249 through 74.09.5253 and 74.09.5254 through 74.09.5256((~~and other state and local funds, excluding special excess levies~~)).

(2) The excess cost allocation to school districts shall be based on the following:

(a) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten who are eligible for and enrolled in special education, multiplied by the district's base allocation per full-time equivalent student, multiplied by 1.15; and

(b) A district's annual average full-time equivalent basic education enrollment, multiplied by the district's funded

NINETY-FIFTH DAY, APRIL 16, 2009

2009 REGULAR SESSION

enrollment percent, multiplied by the district's base allocation per full-time equivalent student, multiplied by 0.9309.

(3) As used in this section:

(a) "Base allocation" means the total state allocation to all schools in the district generated by the distribution formula under RCW 28A.150.260 (3) (b), (c)(i), and (d), (4), and (7), to be divided by the district's full-time equivalent enrollment.

(b) "Basic education enrollment" means enrollment of resident students including nonresident students enrolled under RCW 28A.225.225 and students from nonhigh districts enrolled under RCW 28A.225.210 and excluding students residing in another district enrolled as part of an interdistrict cooperative program under RCW 28A.225.250.

(c) "Enrollment percent" means the district's resident special education annual average enrollment, excluding students ages birth through four and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

(d) "Funded enrollment percent" means the lesser of the district's actual enrollment percent or twelve and seven-tenths percent.

NEW SECTION. Sec. 108. (1) To the extent necessary, funds shall be made available for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided through the special education funding formula under RCW 28A.150.390. If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in any fiscal year, then the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider additional funds for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards. In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state and federal revenues related to services for special education students.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services. Safety net awards under this subsection (1)(c) shall be adjusted to reflect amounts awarded under (b) of this subsection.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent of public instruction in accordance with chapter 318, Laws of 1999.

(f) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(2) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Before revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature. In adopting and revising the rules, the superintendent shall ensure the application process to access safety net funding is streamlined, timelines for submission are not in conflict, feedback to school districts is timely and provides sufficient information to allow school districts to understand how to correct any deficiencies in a safety net application, and that there is consistency between awards approved by school district and by application period. The office of the superintendent of public instruction shall also provide technical assistance to school districts in preparing and submitting special education safety net applications.

(3) On an annual basis, the superintendent shall survey districts regarding their satisfaction with the safety net process and consider feedback from districts to improve the safety net process. Each year by December 1st, the superintendent shall prepare and submit a report to the office of financial management and the appropriate policy and fiscal committees of the legislature that summarizes the survey results and those changes made to the safety net process as a result of the school district feedback.

(4) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff member from the office of the superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

Sec. 109. RCW 28A.150.380 and 2001 c 3 s 10 are each amended to read as follows:

(1) The state legislature shall, at each regular session in an odd-numbered year, appropriate ~~((from the state general fund))~~ for the current use of the common schools such amounts as needed for state support to ~~((the common schools))~~ school districts during the ensuing biennium ((as provided in this chapter, RCW 28A.160.150 through 28A.160.210, 28A.300.170, and 28A.500.010)) for the program of basic education under RCW 28A.150.200.

(2) In addition to those state funds provided to school districts for basic education, the legislature may appropriate funds to be distributed to school districts for other factors and for other special programs to enhance or enrich the program of basic education.

(3) The state legislature shall also, at each regular session in an odd-numbered year, appropriate from the student achievement fund and education construction fund solely for the purposes of and in accordance with the provisions of the student achievement act during the ensuing biennium.

Sec. 110. RCW 28A.230.090 and 2006 c 114 s 3 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except those equivalencies established by local high schools or school districts under RCW 28A.230.097.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of the American Indian peoples who were the first inhabitants of the state.

NINETY-FIFTH DAY, APRIL 16, 2009

2009 REGULAR SESSION

(b) The certificate of academic achievement requirements under RCW 28A.655.061 or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation.

(c) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements. ~~((The board shall reports [report] its findings and recommendations for additional flexibility in graduation requirements, if necessary, to the legislature by December 1, 2007-))~~

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review and to the quality education council established under section 113 of this act. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation. In making proposed changes to the high school graduation requirements, the state board and the legislature shall take into account the capacity of the educational system to implement those changes and if necessary shall establish an implementation schedule that reflects the capacity needs.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) If requested by the student and his or her family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is

similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit.

NEW SECTION. Sec. 111. (1) The legislature intends to continue to redefine the instructional program of education under RCW 28A.150.220 that fulfills the obligations and requirements of Article IX of the state Constitution. The funding formulas under RCW 28A.150.260 to support the instructional program shall be implemented beginning in the 2011-12 school year to the extent the technical details of the formula have been established and according to an implementation schedule to be adopted by the legislature. The object of the schedule is to assure that any increases in funding allocations are timely, predictable, and occur concurrently with any increases in program or instructional requirements. It is the intent of the legislature that no increased programmatic or instructional expectations be imposed upon schools or school districts without an accompanying increase in resources as necessary to support those increased expectations.

(2) The office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to recommend the details of the funding formulas and a concurrent implementation schedule.

(3) In addition to any other details the technical working group deems necessary, the technical working group shall:

(a) Based on the intent established in RCW 28A.150.260, determine how to adjust the actual allocations to school districts from the school prototypes and what additional data might be necessary to allow adjustments based on the actual number of full-time equivalent students in each grade level at each school in the district;

~~((c))~~ (d) Annually provide to the K-12 data governance group a list of data elements and data quality improvements that

are necessary to answer the research and policy questions identified by the education data center and have been identified by the legislative committees in (c) of this subsection. Within three months of receiving the list, the K-12 data governance group shall develop and transmit to the education data center a feasibility analysis of obtaining or improving the data, including the steps required, estimated time frame, and the financial and other resources that would be required. Based on the analysis, the education data center shall submit, if necessary, a recommendation to the legislature regarding any statutory changes or resources that would be needed to collect or improve the data;

(e) Monitor and evaluate the education data collection systems of the organizations and agencies represented in the education data center ensuring that data systems are flexible, able to adapt to evolving needs for information, and to the extent feasible and necessary, include data that are needed to conduct the analyses and provide answers to the research and policy questions identified in (a) of this subsection;

Private, nonprofit institutions of higher education that provide programs of education beyond the high school level leading at least to the baccalaureate degree and are accredited by the Northwest association of schools and colleges or their peer accreditation bodies may also develop data-sharing and research agreements with the education data center, consistent with applicable security and confidentiality requirements. The education data center shall make data from collaborative analyses available to the education agencies and institutions that contribute data to the education data center to the extent allowed by federal and state security and confidentiality requirements applicable to the data of each contributing agency or institution.

NEW SECTION. Sec. 202. A new section is added to chapter 43.41 RCW to read as follows:

(1) It is the legislature's intent to establish a comprehensive K-12 education data improvement system for financial, student, and educator data. The objective of the system is to monitor student progress, have information on the quality of the educator workforce, monitor and analyze the costs of programs, provide for financial integrity and accountability, and have the capability to link across these various data components by student, by class, by teacher, by school, by district, and statewide. Education data systems must be flexible and able to adapt to evolving needs for information, but there must be an objective and orderly data governance process for determining when

NINETY-FIFTH DAY, APRIL 16, 2009

changes are needed and how to implement them. It is the further intent of the legislature to provide independent review and evaluation of a comprehensive K-12 education data improvement system by assigning the review and monitoring responsibilities to the education data center and the legislative evaluation and accountability program committee.

(2) It is the intent that the data system specifically service reporting requirements for teachers, parents, superintendents, school boards, the legislature, the office of the superintendent of public instruction, and the public.

(3) It is the legislature's intent that the K-12 education data improvement system used by school districts and the state include but not be limited to the following information and functionality:

(a) Comprehensive educator information, including grade level and courses taught, building or location, program, job assignment, years of experience, the institution of higher education from which the educator obtained his or her degree, compensation, class size, mobility of class population, socioeconomic data of class, number of languages and which languages are spoken by students, general resources available for curriculum and other classroom needs, and number and type of instructional support staff in the building;

(b) The capacity to link educator assignment information with educator certification information such as certification number, type of certification, route to certification, certification program, and certification assessment or evaluation scores;

(c) Common coding of secondary courses and major areas of study at the elementary level or standard coding of course content;

(d) Robust student information, including but not limited to student characteristics, course and program enrollment, performance on statewide and district summative and formative assessments to the extent district assessments are used, and performance on college readiness tests;

(e) A subset of student information elements to serve as a dropout early warning system;

(f) The capacity to link educator information with student information;

(g) A common, standardized structure for reporting the costs of programs at the school and district level with a focus on the cost of services delivered to students;

(h) Separate accounting of state, federal, and local revenues and costs;

(i) Information linking state funding formulas to school district budgeting and accounting, including procedures:

(i) To support the accuracy and auditing of financial data; and

(ii) Using the prototypical school model for school district financial accounting reporting;

(j) The capacity to link program cost information with student performance information to gauge the cost-effectiveness of programs;

(k) Information that is centrally accessible and updated regularly; and

(l) An anonymous, nonidentifiable replicated copy of data that is updated at least quarterly, and made available to the public by the state.

(4) It is the legislature's goal that all school districts have the capability to collect state-identified common data and export it in a standard format to support a statewide K-12 education data improvement system under this section.

(5) It is the legislature's intent that the K-12 education data improvement system be developed to provide the capability to make reports as required under section 203 of this act available.

(6) It is the legislature's intent that school districts collect and report new data elements to satisfy the requirements of RCW 43.41.400, this section, and section 203 of this act, only to the extent funds are available for this purpose.

NEW SECTION. Sec. 203. A new section is added to chapter 28A.300 RCW to read as follows:

(1) A K-12 data governance group shall be established within the office of the superintendent of public instruction to assist in the design and implementation of a K-12 education data improvement system for financial, student, and educator data. It is the intent that the data system reporting specifically serve requirements for teachers, parents, superintendents, school boards, the office of the superintendent of public instruction, the legislature, and the public.

(2) The K-12 data governance group shall include representatives of the education data center, the office of the superintendent of public instruction, the legislative evaluation and accountability program committee, the professional educator standards board, the state board of education, and school district staff, including information technology staff. Additional entities with expertise in education data may be included in the K-12 data governance group.

(3) The K-12 data governance group shall:

(a) Identify the critical research and policy questions that need to be addressed by the K-12 education data improvement system;

(b) Identify reports and other information that should be made available on the internet in addition to the reports identified in subsection (5) of this section;

(c) Create a comprehensive needs requirement document detailing the specific information and technical capacity needed by school districts and the state to meet the legislature's expectations for a comprehensive K-12 education data improvement system as described under section 202 of this act;

(d) Conduct a gap analysis of current and planned information compared to the needs requirement document, including an analysis of the strengths and limitations of an education data system and programs currently used by school districts and the state, and specifically the gap analysis must look at the extent to which the existing data can be transformed into canonical form and where existing software can be used to meet the needs requirement document;

(e) Focus on financial and cost data necessary to support the new K-12 financial models and funding formulas, including any necessary changes to school district budgeting and accounting, and on assuring the capacity to link data across financial, student, and educator systems; and

(f) Define the operating rules and governance structure for K-12 data collections, ensuring that data systems are flexible and able to adapt to evolving needs for information, within an objective and orderly data governance process for determining when changes are needed and how to implement them. Strong consideration must be made to the current practice and cost of migration to new requirements. The operating rules should delineate the coordination, delegation, and escalation authority for data collection issues, business rules, and performance goals for each K-12 data collection system, including:

(i) Defining and maintaining standards for privacy and confidentiality;

(ii) Setting data collection priorities;

(iii) Defining and updating a standard data dictionary;

(iv) Ensuring data compliance with the data dictionary;

(v) Ensuring data accuracy; and

(vi) Establishing minimum standards for school, student, financial, and teacher data systems. Data elements may be

2009 REGULAR SESSION

specified "to the extent feasible" or "to the extent available" to collect more and better data sets from districts with more flexible software. Nothing in RCW 43.41.400, this section, or section 202 of this act should be construed to require that a data dictionary or reporting should be hobbled to the lowest common set. The work of the K-12 data governance group must specify which data are desirable. Districts that can meet these requirements shall report the desirable data. Funding from the legislature must establish which subset data are absolutely required.

(4)(a) The K-12 data governance group shall provide updates on its work as requested by the education data center and the legislative evaluation and accountability program committee.

(b) The work of the K-12 data governance group shall be periodically reviewed and monitored by the educational data center and the legislative evaluation and accountability program committee.

(5) To the extent data is available, the office of the superintendent of public instruction shall make the following minimum reports available on the internet. The reports must either be run on demand against current data, or, if a static report, must have been run against the most recent data:

(a) The percentage of data compliance and data accuracy by school district;

(b) The magnitude of spending per student, by student estimated by the following algorithm and reported as the detailed summation of the following components:

(i) An approximate, prorated fraction of each teacher or human resource element that directly serves the student. Each human resource element must be listed or accessible through online tunneling in the report;

(ii) An approximate, prorated fraction of classroom or building costs used by the student;

(iii) An approximate, prorated fraction of transportation costs used by the student; and

(iv) An approximate, prorated fraction of all other resources within the district. District-wide components should be disaggregated to the extent that it is sensible and economical;

(c) The cost of K-12 basic education, per student, by student, by school district, estimated by the algorithm in (b) of this subsection, and reported in the same manner as required in (b) of this subsection;

(d) The cost of K-12 special education services per student, by student receiving those services, by school district, estimated by the algorithm in (b) of this subsection, and reported in the same manner as required in (b) of this subsection;

(e) Improvement on the statewide assessments computed as both a percentage change and absolute change on a scale score metric by district, by school, and by teacher that can also be filtered by a student's length of full-time enrollment within the school district;

(f) Number of K-12 students per classroom teacher on a per teacher basis;

(g) Number of K-12 classroom teachers per student on a per student basis;

(h) Percentage of a classroom teacher per student on a per student basis; and

(i) The cost of K-12 education per student by school district sorted by federal, state, and local dollars.

(6) The superintendent of public instruction shall submit a preliminary report to the legislature by November 15, 2009, including the analyses by the K-12 data governance group under subsection (3) of this section and preliminary options for addressing identified gaps. A final report, including a proposed

phase-in plan and preliminary cost estimates for implementation of a comprehensive data improvement system for financial, student, and educator data shall be submitted to the legislature by September 1, 2010.

(7) All reports and data referenced in this section, RCW 43.41.400, and section 202 of this act shall be made available in a manner consistent with the technical requirements of the legislative evaluation and accountability program committee and the education data center so that selected data can be provided to the legislature, governor, school districts, and the public.

(8) Reports shall contain data to the extent it is available. All reports must include documentation of which data are not available or are estimated. Reports must not be suppressed because of poor data accuracy or completeness. Reports may be accompanied with documentation to inform the reader of why some data are missing or inaccurate or estimated.

NEW SECTION. Sec. 204. A new section is added to chapter 43.41 RCW to read as follows:

The education data center and the superintendent of public instruction shall take all actions necessary to secure federal funds to implement sections 201 through 203 of this act.

PART III OTHER EDUCATIONAL PROVISIONS

NEW SECTION. Sec. 301. A new section is added to chapter 28A.500 RCW to read as follows:

(1) The legislature finds that while the state has the responsibility to provide for a general and uniform system of public schools, there is also a need for some diversity in the public school system. A successful system of public education must permit some variation among school districts outside the basic education provided for by the state to respond to and reflect the unique desires of local communities. The opportunity for local communities to invest in enriched education programs promotes support for local public schools. Further, the ability of local school districts to experiment with enriched programs can inform the legislature's long-term evolution of the definition of basic education. Therefore, local levy authority remains an important component of the overall finance system in support of the public schools even though it is outside the state's obligation for basic education.

(2) However, the value of permitting local levies must be balanced with the value of equity and fairness to students and to taxpayers, neither of whom should be unduly disadvantaged due to differences in the tax bases used to support local levies. Equity and fairness require both an equitable basis for supplemental funding outside basic education and a mechanism for property tax-poor school districts to fairly access supplemental funding. As such, local effort assistance, while also outside the state's obligation for basic education, is another important component of school finance.

NEW SECTION. Sec. 302. (1) Beginning July 1, 2010, the office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to develop options for a new system of supplemental school funding through local school levies and local effort assistance.

(2) The working group shall consider the impact on overall school district revenues of the new basic education funding system established under this act and shall recommend a phase-in plan that ensures that no school district suffers a decrease in funding from one school year to the next due to implementation of the new system of supplemental funding.

NINETY-FIFTH DAY, APRIL 16, 2009

(3) The working group shall be composed of representatives from the department of revenue, the legislative evaluation and accountability program committee, school district and educational service district financial managers, and representatives of the Washington association of school business officers, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with expertise in education finance. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(4) The local funding working group shall be monitored and overseen by the legislature and by the quality education council created in section 113 of this act. The working group shall report to the legislature December 1, 2011.

Sec. 303. RCW 28A.195.010 and 2004 c 19 s 106 are each amended to read as follows:

The legislature hereby recognizes that private schools should be subject only to those minimum state controls necessary to insure the health and safety of all the students in the state and to insure a sufficient basic education to meet usual graduation requirements. The state, any agency or official thereof, shall not restrict or dictate any specific educational or other programs for private schools except as hereinafter in this section provided.

Principals of private schools or superintendents of private school districts shall file each year with the state superintendent of public instruction a statement certifying that the minimum requirements hereinafter set forth are being met, noting any deviations. After review of the statement, the state superintendent will notify schools or school districts of those deviations which must be corrected. In case of major deviations, the school or school district may request and the state board of education may grant provisional status for one year in order that the school or school district may take action to meet the requirements. The state board of education shall not require private school students to meet the student learning goals, obtain a certificate of academic achievement, or a certificate of individual achievement to graduate from high school, to master the essential academic learning requirements, or to be assessed pursuant to RCW 28A.655.061. However, private schools may choose, on a voluntary basis, to have their students master these essential academic learning requirements, take the assessments, and obtain a certificate of academic achievement or a certificate of individual achievement. Minimum requirements shall be as follows:

(1) The minimum school year for instructional purposes shall consist of no less than one hundred eighty school days or the equivalent in annual minimum ~~((program)) instructional hour offerings ((as prescribed in RCW 28A.150.220)), with a school-wide annual average total instructional hour offering of one thousand hours for students enrolled in grades one through twelve, and at least four hundred fifty hours for students enrolled in kindergarten.~~

(2) The school day shall be the same as ~~((that required in RCW 28A.150.030 and 28A.150.220, except that the percentages of total program hour offerings as prescribed in RCW 28A.150.220 for basic skills, work skills, and optional subjects and activities shall not apply to private schools or private sectarian schools)) defined in section 102 of this act.~~

(3) All classroom teachers shall hold appropriate Washington state certification except as follows:

(a) Teachers for religious courses or courses for which no counterpart exists in public schools shall not be required to obtain a state certificate to teach those courses.

(b) In exceptional cases, people of unusual competence but without certification may teach students so long as a certified person exercises general supervision. Annual written statements shall be submitted to the office of the superintendent of public instruction reporting and explaining such circumstances.

(4) An approved private school may operate an extension program for parents, guardians, or persons having legal custody of a child to teach children in their custody. The extension program shall require at a minimum that:

(a) The parent, guardian, or custodian be under the supervision of an employee of the approved private school who is certified under chapter 28A.410 RCW;

(b) The planning by the certified person and the parent, guardian, or person having legal custody include objectives consistent with this subsection and subsections (1), (2), (5), (6), and (7) of this section;

(c) The certified person spend a minimum average each month of one contact hour per week with each student under his or her supervision who is enrolled in the approved private school extension program;

(d) Each student's progress be evaluated by the certified person; and

(e) The certified employee shall not supervise more than thirty students enrolled in the approved private school's extension program.

(5) Appropriate measures shall be taken to safeguard all permanent records against loss or damage.

(6) The physical facilities of the school or district shall be adequate to meet the program offered by the school or district: PROVIDED, That each school building shall meet reasonable health and fire safety requirements. A residential dwelling of the parent, guardian, or custodian shall be deemed to be an adequate physical facility when a parent, guardian, or person having legal custody is instructing his or her child under subsection (4) of this section.

(7) Private school curriculum shall include instruction of the basic skills of occupational education, science, mathematics, language, social studies, history, health, reading, writing, spelling, and the development of appreciation of art and music, all in sufficient units for meeting state board of education graduation requirements.

(8) Each school or school district shall be required to maintain up-to-date policy statements related to the administration and operation of the school or school district.

All decisions of policy, philosophy, selection of books, teaching material, curriculum, except as in subsection (7) of this section provided, school rules and administration, or other matters not specifically referred to in this section, shall be the responsibility of the administration and administrators of the particular private school involved.

Sec. 304. RCW 28A.160.150 and 1996 c 279 s 1 are each amended to read as follows:

Funds allocated for transportation costs, except for funds provided for transportation and transportation services to and from school shall be in addition to the basic education allocation. The distribution formula developed in RCW 28A.160.150 through 28A.160.180 shall be for allocation purposes only and shall not be construed as mandating specific levels of pupil transportation services by local districts. Operating costs as determined under RCW 28A.160.150 through 28A.160.180 shall be funded at one hundred percent or as close thereto as reasonably possible for transportation of an

eligible student to and from school as defined in RCW 28A.160.160(3). In addition, funding shall be provided for transportation services for students living within one radius mile from school as determined under RCW 28A.160.180(2).

Sec. 305. RCW 28A.150.315 and 2007 c 400 s 2 are each amended to read as follows:

(1) Beginning with the 2007-08 school year, funding for voluntary all-day kindergarten programs shall be phased-in beginning with schools with the highest poverty levels, defined as those schools with the highest percentages of students qualifying for free and reduced-price lunch support in the prior school year. Once a school receives funding for the all-day kindergarten program, that school shall remain eligible for funding in subsequent school years regardless of changes in the school's percentage of students eligible for free and reduced-price lunches as long as other program requirements are fulfilled. Additionally, schools receiving all-day kindergarten program support shall agree to the following conditions:

(a) Provide at least a one thousand-hour instructional program;

(b) Provide a curriculum that offers a rich, varied set of experiences that assist students in:

(i) Developing initial skills in the academic areas of reading, mathematics, and writing;

(ii) Developing a variety of communication skills;

(iii) Providing experiences in science, social studies, arts, health and physical education, and a world language other than English;

(iv) Acquiring large and small motor skills;

(v) Acquiring social and emotional skills including successful participation in learning activities as an individual and as part of a group; and

(vi) Learning through hands-on experiences;

(c) Establish learning environments that are developmentally appropriate and promote creativity;

(d) Demonstrate strong connections and communication with early learning community providers; and

(e) Participate in kindergarten program readiness activities with early learning providers and parents.

(2) Subject to funds appropriated for this purpose, the superintendent of public instruction shall designate one or more school districts to serve as resources and examples of best practices in designing and operating a high-quality all-day kindergarten program. Designated school districts shall serve as lighthouse programs and provide technical assistance to other school districts in the initial stages of implementing an all-day kindergarten program. Examples of topics addressed by the technical assistance include strategic planning, developing the instructional program and curriculum, working with early learning providers to identify students and communicate with parents, and developing kindergarten program readiness activities.

(3) Any funds allocated to support all-day kindergarten programs under this section shall not be considered as basic education funding. Once all-day kindergarten is fully implemented statewide, the quality education council created in section 113 of this act shall review the performance data of the schools and students and make recommendations to the legislature as to whether all-day kindergarten should be included in the definition of basic education. As the programs are phased-in, school districts that are not receiving state funding for all-day kindergarten may charge a copay from families to help support a district-provided all-day kindergarten. Copay waivers must be available to families who are low income.

School districts must adopt a policy that clearly defines "low income," the use of a copay, and a copay waiver.

NEW SECTION. Sec. 306. A new section is added to chapter 43.79 RCW to read as follows:

(1) The education stabilization account is created in the state treasury. Moneys in the account may be spent only after appropriation and only for K-12 educational purposes. All receipts from subsections (2) and (3) of this section shall be deposited into the account.

(2) By September 30, 2011, and by September 30th of each odd-numbered year thereafter, all general state revenues that exceed the state revenues from the previous fiscal biennium, up to a maximum of five percent over the previous fiscal biennium, shall be transferred to the education stabilization account such that the amount transferred to the education stabilization account is the amount needed to maintain the previous fiscal biennium's percentage of general state revenue spent on all of K-12 education.

(3) If the amount of revenue growth is greater than five percent over the previous fiscal biennium, by September 30, 2011, and by September 30th of each odd-numbered year thereafter, an amount equal to fifty percent of the increase over five percent shall be transferred to the education stabilization account.

(4) For the purposes of this section, "general state revenues" shall be as defined by Article VIII, section 1 of the state Constitution.

PART IV CERTIFICATION AND PROFESSIONAL DEVELOPMENT

NEW SECTION. Sec. 401. The legislature recognizes that the key to providing all students the opportunity to achieve the basic education goal is effective teaching and leadership. Teachers, principals, and administrators must be provided with access to the opportunities they need to gain the knowledge and skills that will enable them to be increasingly successful in their classroom and schools. A system that clearly defines, supports, measures, and recognizes effective teaching and leadership is one of the most important investments to be made.

NEW SECTION. Sec. 402. A new section is added to chapter 28A.410 RCW to read as follows:

(1)(a) By January 1, 2010, the professional educator standards board shall adopt a set of articulated teacher knowledge, skill, and performance standards for effective teaching that are evidence-based, measurable, meaningful, and documented in high quality research as being associated with improved student learning. The standards shall be calibrated for each level of certification and along the entire career continuum. In developing the standards, the board shall, to the extent possible, incorporate standards for cultural competency along the entire continuum. For the purposes of this subsection, "cultural competency" includes knowledge of student cultural histories and contexts, as well as family norms and values in different cultures; knowledge and skills in accessing community resources and community and parent outreach; and skills in adapting instruction to students' experiences and identifying cultural contexts for individual students.

(b) By January 1, 2010, the professional educator standards board shall adopt a definition of master teacher, with a comparable level of increased competency between professional certification level and master level as between professional certification level and national board certification. Within the definition established by the professional educator standards

NINETY-FIFTH DAY, APRIL 16, 2009

board, teachers certified through the national board for professional teaching standards shall be considered master teachers.

(2) By January 1, 2010, the professional educator standards board shall submit to the governor and the education and fiscal committees of the legislature:

(a) An update on the status of implementation of the professional certificate external and uniform assessment authorized in RCW 28A.410.210;

(b) A proposal for a uniform, statewide, valid, and reliable classroom-based means of evaluating teacher effectiveness as a culminating measure at the preservice level that is to be used during the student-teaching field experience. This assessment shall include multiple measures of teacher performance in classrooms, evidence of positive impact on student learning, and shall include review of artifacts, such as use of a variety of assessment and instructional strategies, and student work. The proposal shall establish a timeline for when the assessment will be required for successful completion of a Washington state-approved teacher preparation program. The timeline shall take into account the capacity of the K-12 education and higher education systems to accommodate the new assessment. The proposal and timeline shall also address how the assessment will be included in state-reported data on preparation program quality; and

(c) A recommendation on the length of time that a residency certificate issued to a teacher is valid and within what time period a teacher must meet the minimum level of performance for and receive a professional certificate in order to continue being certified as a teacher. In developing this recommendation, the professional educator standards board shall consult with interested stakeholders including the Washington education association, the Washington association of school administrators, association of Washington school principals, and the Washington state school directors' association and shall include with its recommendation a description of each stakeholder's comments on the recommendation.

(3) The update and proposal in subsection (2)(a) and (b) of this section shall include, at a minimum, descriptions of:

(a) Estimated costs and statutory authority needed for further development and implementation of these assessments;

(b) A common and standardized rubric for determining whether a teacher meets the minimum level of performance of the assessments; and

(c) Administration and management of the assessments.

(4) To the extent that funds are appropriated for this purpose and in accordance with the timeline established in subsection (2) of this section, recognizing the capacity limitations of the education systems, the professional educator standards board shall develop the system and process as established in subsections (1), (2), and (3) of this section throughout the remainder of the 2010-11 and 2011-12 school years.

(5) Beginning no earlier than September 1, 2011, award of a professional certificate shall be based on a minimum of two years of successful teaching experience as defined by the board and on the results of the evaluation authorized under RCW 28A.410.210(14) and under this section, and may not require candidates to enroll in a professional certification program.

(6) Beginning July 1, 2011, educator preparation programs approved to offer the residency teaching certificate shall be required to demonstrate how the program produces effective teachers as evidenced by the measures established under this section and other criteria established by the professional educator standards board.

Sec. 403. RCW 28A.415.360 and 2007 c 402 s 9 are each amended to read as follows:

(1) Subject to funds appropriated for this purpose, targeted professional development programs, to be known as learning improvement days, are authorized to further the development of outstanding mathematics, science, and reading teaching and learning opportunities in the state of Washington. The intent of this section is to provide guidance for the learning improvement days in the omnibus appropriations act. The learning improvement days authorized in this section shall not be considered part of the definition of basic education.

(2) ~~((The expected outcomes of these programs are))~~ A school district is eligible to receive funding for learning improvement days that are limited to specific activities related to student learning that contribute to the following outcomes:

(a) Provision of meaningful, targeted professional development for all teachers in mathematics, science, or reading;

(b) Increased knowledge and instructional skill for mathematics, science, or reading teachers;

(c) Increased use of curriculum materials with supporting diagnostic and supplemental materials that align with state standards;

(d) Skillful guidance for students participating in alternative assessment activities;

(e) Increased rigor of course offerings especially in mathematics, science, and reading;

(f) Increased student opportunities for focused, applied mathematics and science classes;

(g) Increased student success on state achievement measures; and

(h) Increased student appreciation of the value and uses of mathematics, science, and reading knowledge and exploration of related careers.

(3) School districts receiving resources under this section shall submit reports to the superintendent of public instruction ~~((regarding the use of the funds;))~~ documenting how the use of the funds ~~((is associated with))~~ contributes to measurable improvement in the ~~((expected))~~ outcomes described under subsection (2) of this section; and how other professional development resources and programs authorized in statute or in the omnibus appropriations act contribute to the expected outcomes. The superintendent of public instruction and the office of financial management shall collaborate on required report content and format.

PART V

SHARED ACCOUNTABILITY FOR SCHOOL AND DISTRICT IMPROVEMENT

NEW SECTION. **Sec. 501.** (1)(a) The legislature intends to develop a system in which the state and school districts share accountability for achieving state educational standards and supporting continuous school improvement. The legislature recognizes that comprehensive education finance reform and the increased investment of public resources necessary to implement that reform must be accompanied by a new mechanism for clearly defining the relationships and expectations for the state, school districts, and schools. It is the legislature's intent that this be accomplished through the development of a proactive, collaborative accountability system that focuses on a school improvement system that engages the local school board, parents, students, staff in the schools and districts, and the community. The improvement system shall be based on progressive levels of support, with a goal of continuous

2009 REGULAR SESSION

improvement in student achievement and alignment with the federal system of accountability.

(b) The legislature further recognizes that it is the state's responsibility to provide schools and districts with the tools and resources necessary to improve student achievement. These tools include the necessary accounting and data reporting systems, assessment systems to monitor student achievement, and a system of general support, targeted assistance, recognition, and, if necessary, state intervention.

(2) The legislature has already charged the state board of education to develop criteria to identify schools and districts that are successful, in need of assistance, and those where students persistently fail, as well as to identify a range of intervention strategies and a performance incentive system. The legislature finds that the state board of education should build on the work that the board has already begun in these areas. As development of these formulas, processes, and systems progresses, the legislature should monitor the progress.

Sec. 502. RCW 28A.305.130 and 2008 c 27 s 1 are each amended to read as follows:

The purpose of the state board of education is to provide advocacy and strategic oversight of public education; implement a standards-based accountability ~~((system))~~ framework that creates a unified system of increasing levels of support for schools in order to improve student academic achievement; provide leadership in the creation of a system that personalizes education for each student and respects diverse cultures, abilities, and learning styles; and promote achievement of the goals of RCW 28A.150.210. In addition to any other powers and duties as provided by law, the state board of education shall:

(1) Hold regularly scheduled meetings at such time and place within the state as the board shall determine and may hold such special meetings as may be deemed necessary for the transaction of public business;

(2) Form committees as necessary to effectively and efficiently conduct the work of the board;

(3) Seek advice from the public and interested parties regarding the work of the board;

(4) For purposes of statewide accountability:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics, by subject and grade level, once assessments in these subjects are required statewide; academic and technical skills, as appropriate, in secondary career and technical education programs; and student attendance, as the board deems appropriate to improve student learning. The goals shall be consistent with student privacy protection provisions of RCW 28A.655.090(7) and shall not conflict with requirements contained in Title I of the federal elementary and secondary education act of 1965, or the requirements of the Carl D. Perkins vocational education act of 1998, each as amended. The goals may be established for all students, economically disadvantaged students, limited English proficient students, students with disabilities, and students from disproportionately academically underachieving racial and ethnic backgrounds. The board may establish school and school district goals addressing high school graduation rates and dropout reduction goals for students in grades seven through twelve. The board shall adopt the goals by rule. However, before each goal is implemented, the board shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b) Identify the scores students must achieve in order to meet the standard on the Washington assessment of student

learning and, for high school students, to obtain a certificate of academic achievement. The board shall also determine student scores that identify levels of student performance below and beyond the standard. The board shall consider the incorporation of the standard error of measurement into the decision regarding the award of the certificates. The board shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose. The initial performance standards and any changes recommended by the board in the performance standards for the tenth grade assessment shall be presented to the education committees of the house of representatives and the senate by November 30th of the school year in which the changes will take place to permit the legislature to take statutory action before the changes are implemented if such action is deemed warranted by the legislature. The legislature shall be advised of the initial performance standards and any changes made to the elementary level performance standards and the middle school level performance standards;

~~(c) ((Adopt objective, systematic criteria to identify successful schools and school districts and recommend to the superintendent of public instruction schools and districts to be recognized for two types of accomplishments, student achievement and improvements in student achievement. Recognition for improvements in student achievement shall include consideration of one or more of the following accomplishments:~~

~~— (i) An increase in the percent of students meeting standards. The level of achievement required for recognition may be based on the achievement goals established by the legislature and by the board under (a) of this subsection;~~

~~— (ii) Positive progress on an improvement index that measures improvement in all levels of the assessment; and~~

~~— (iii) Improvements despite challenges such as high levels of mobility, poverty, English as a second language learners, and large numbers of students in special populations as measured by either the percent of students meeting the standard, or the improvement index. When determining the baseline year or years for recognizing individual schools, the board may use the assessment results from the initial years the assessments were administered, if doing so with individual schools would be appropriate;~~

~~— (d) Adopt objective, systematic criteria to identify schools and school districts in need of assistance and those in which significant numbers of students persistently fail to meet state standards. In its deliberations, the board shall consider the use of all statewide mandated criterion-referenced and norm-referenced standardized tests;~~

~~— (e) Identify schools and school districts in which state intervention measures will be needed and a range of appropriate intervention strategies after the legislature has authorized a set of intervention strategies. After the legislature has authorized a set of intervention strategies, at the request of the board, the superintendent shall intervene in the school or school district and take corrective actions. This chapter does not provide additional authority for the board or the superintendent of public instruction to intervene in a school or school district;~~

~~— (f) Identify performance incentive systems that have improved or have the potential to improve student achievement;~~

~~— (g)) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the~~

superintendent of public instruction of any improvements needed to the system; and

~~((h))~~ (d) Include in the biennial report required under RCW 28A.305.035, information on the progress that has been made in achieving goals adopted by the board;

(5) Accredite, subject to such accreditation standards and procedures as may be established by the state board of education, all private schools that apply for accreditation, and approve, subject to the provisions of RCW 28A.195.010, private schools carrying out a program for any or all of the grades kindergarten through twelve: PROVIDED, That no private school may be approved that operates a kindergarten program only: PROVIDED FURTHER, That no private schools shall be placed upon the list of accredited schools so long as secret societies are knowingly allowed to exist among its students by school officials;

(6) Articulate with the institutions of higher education, workforce representatives, and early learning policymakers and providers to coordinate and unify the work of the public school system;

(7) Hire an executive director and an administrative assistant to reside in the office of the superintendent of public instruction for administrative purposes. Any other personnel of the board shall be appointed as provided by RCW 28A.300.020. The board may delegate to the executive director by resolution such duties as deemed necessary to efficiently carry on the business of the board including, but not limited to, the authority to employ necessary personnel and the authority to enter into, amend, and terminate contracts on behalf of the board. The executive director, administrative assistant, and all but one of the other personnel of the board are exempt from civil service, together with other staff as now or hereafter designated as exempt in accordance with chapter 41.06 RCW; and

(8) Adopt a seal that shall be kept in the office of the superintendent of public instruction.

NEW SECTION. Sec. 503. A new section is added to chapter 28A.305 RCW to read as follows:

(1) The state board of education shall continue to refine the development of an accountability framework that creates a unified system of support for challenged schools, that aligns with basic education, increases the level of support based upon the magnitude of need, and uses data for decisions.

(2) The state board of education shall develop an accountability index to identify schools and districts for recognition and for additional state support. The index shall be based on criteria that are fair, consistent, and transparent. Performance shall be measured using multiple outcomes and indicators including, but not limited to, graduation rates and results from statewide assessments. The index shall be developed in such a way as to be easily understood by both employees within the schools and districts, as well as parents and community members. It is the legislature's intent that the index provide feedback to schools and districts to self-assess their progress, and enable the identification of schools with exemplary student performance and those that need assistance to overcome challenges in order to achieve exemplary student performance. Once the accountability index has identified schools that need additional help, a more thorough analysis will be done to analyze specific conditions in the district including but not limited to the level of state resources a school or school district receives in support of the basic education system, achievement gaps for different groups of students, and community support.

(3) Based on the accountability index and in consultation with the superintendent of public instruction, the state board of

education shall develop a proposal and timeline for implementation of a comprehensive system of voluntary support and assistance for schools and districts. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.

(4)(a) The state board of education shall develop a proposal and implementation timeline for a more formalized comprehensive system improvement targeted to challenged schools and districts that have not demonstrated sufficient improvement through the voluntary system. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. The proposal and timeline shall be submitted to the education committees of the legislature by December 1, 2009, and shall include recommended legislation and recommended resources to implement the system according to the timeline developed.

(b) The proposal shall outline a process for addressing performance challenges that will include the following features: (i) An academic performance audit using peer review teams of educators that considers school and community factors in addition to other factors in developing recommended specific corrective actions that should be undertaken to improve student learning; (ii) a requirement for the local school board plan to develop and be responsible for implementation of corrective action plan taking into account the audit findings, which plan must be approved by the state board of education at which time the plan becomes binding upon the school district to implement; and (iii) monitoring of local district progress by the office of the superintendent of public instruction. The proposal shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.

(5) In coordination with the superintendent of public instruction, the state board of education shall seek approval from the United States department of education for use of the accountability index and the state system of support, assistance, and intervention, to replace the federal accountability system under P.L. 107-110, the no child left behind act of 2001.

(6) The state board of education shall work with the education data center established within the office of financial management and the technical working group established in section 111 of this act to determine the feasibility of using the prototypical funding allocation model as not only a tool for allocating resources to schools and districts but also as a tool for schools and districts to report to the state legislature and the state board of education on how the state resources received are being used.

PART VI COMPENSATION

NEW SECTION. Sec. 601. A new section is added to chapter 43.41 RCW to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers,

NINETY-FIFTH DAY, APRIL 16, 2009

2009 REGULAR SESSION

administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of financial management shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

- (a) How to reduce the number of tiers within the existing salary allocation model;
- (b) How to account for labor market adjustments;
- (c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;
- (d) The role of and types of bonuses available;
- (e) Ways to accomplish salary equalization over a set number of years; and
- (f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

- (a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;
- (b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and

(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the department of personnel, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature and the quality education council created in section 113 of this act. The working group shall make an initial report to the legislature by December 1, 2012, and shall include

in its report recommendations for whether additional further work of the group is necessary.

The funds shall be appropriated for the learning assistance program in accordance with RCW 28A.150.260 and the ((biennial)) omnibus appropriations act. The distribution formula is for school district allocation purposes only, but funds appropriated for the learning assistance program must be expended for the purposes of RCW 28A.165.005 through 28A.165.065. ((The distribution formula shall be based on one or more family income factors measuring economic need.

The legislature finds that there are large numbers of children who come from homes where the primary language is other than English. The legislature finds that a transitional bilingual education program can meet the needs of these children. Pursuant to the policy of this state to insure equal educational opportunity to every child in this state, it is the purpose of RCW 28A.180.010 through 28A.180.080 to provide for the implementation of transitional bilingual education programs in the public schools(~~(, and to provide supplemental financial assistance to school districts to meet the extra costs of these programs)).~~

The President declared the question before the Senate to be the motion by Senator Pflug that Engrossed Substitute House Bill No. 2261 be deferred and hold its place on the second reading calendar.

The motion by Senator Pflug was not carried by a voice vote.

MOTION

Senator McAuliffe moved that the following striking amendment by Senator McAuliffe and others be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) Public education in Washington state has evolved since the enactment of the Washington basic education act of 1977. Decisions by the courts have played a part in this evolution, as have studies and research about education practices and education funding. The legislature finds ample evidence of a need for continuing to refine the program of basic education that is funded by the state and delivered by school districts.

(2) The legislature reaffirms the work of Washington Learns and other educational task forces that have been convened over the past four years and their recommendations to make bold reforms to the entire educational system in order to educate all students to a higher level; to focus on the individualized instructional needs of students; to strive towards closing the achievement gap and reducing dropout rates; and to prepare students for a constantly evolving workforce and increasingly demanding global economy. In enacting this legislation, the legislature intends to continue to review, evaluate, and revise the definition and funding of basic education in order to continue to fulfill the state obligation under Article IX of the state Constitution. The legislature also intends to continue to strengthen and modify the structure of the entire K-12 educational system, including nonbasic education programmatic elements, in order to build the capacity to anticipate and support potential future enhancements to basic education as the educational needs of our citizens continue to evolve.

(3) The legislature recognizes that the first step in revising the definition and funding of basic education is to create a transparent funding system for both allocations and expenditures so that not only policymakers and educators understand how the state supports basic education but also taxpayers. An adequate data system that enables the legislature to make rational, data-driven decisions on which educational programs impact student learning in order to more effectively and efficiently deliver the resources necessary to provide an ample program of basic education is also a necessity. A new prototypical funding system will allow the legislature to better understand how current resources are being used. A more complete and accurate

educational data system will allow the legislature to understand whether current basic education programs are supporting student learning. Only with both of these systems in place can the legislature make informed decisions on how to best implement a dynamic and evolving system of basic education.

(4) For practical and educational reasons, major changes of the program of basic education and the funding formulas to support it cannot occur instantaneously. The legislature intends to build upon the previous efforts of the legislature and the basic education task force in order to develop a realistic implementation strategy for a new instructional program after technical experts develop the details of the prototypical schools funding formulas and the data and reporting system that will support a new instructional program. The legislature also intends to establish a formal structure for monitoring the implementation by the legislature of an evolving program of basic education and the financing necessary to support such a program. The legislature intends that the redefined program of basic education and funding for the program be fully implemented by 2018.

(5) It is the further intent of the legislature to also address additional issues that are of importance to the legislature but are not part of basic education.

NEW SECTION. Sec. 2. It is the intent of the legislature that specified policies and allocation formulas adopted under this act will constitute the legislature's definition of basic education under Article IX of the state Constitution once fully implemented. The legislature intends, however, to continue to review and revise the formulas and schedules and may make additional revisions, including revisions for technical purposes and consistency in the event of mathematical or other technical errors.

PART I

Basic education by necessity is an evolving program of instruction intended to reflect the changing educational opportunities that are needed to equip students for their role as productive citizens and includes the following:

Sec. 103. RCW 28A.150.210 and 2007 c 400 s 1 are each amended to read as follows:

~~((The goal of the basic education act for the schools of the state of Washington set forth in this chapter shall be))~~ A basic education is an evolving program of instruction that is intended to provide students with the opportunity to become responsible and respectful global citizens, to contribute to their economic well-being and that of their families and communities, to explore and understand different perspectives, and to enjoy productive and satisfying lives. Additionally, the state of Washington intends to provide for a public school system that is able to evolve and adapt in order to better focus on strengthening the educational achievement of all students, which includes high expectations for all students and gives all students the opportunity to achieve personal and academic success. To these ends, the goals of each school district, with the involvement of parents and community members, shall be to provide opportunities for every student to develop the knowledge and skills essential to:

(1) From those funds made available by the legislature for the current use of the common schools, the superintendent of public instruction shall distribute annually as provided in RCW 28A.510.250 to each school district of the state operating a basic education instructional program approved by the state board of education an amount based on the formulas provided in RCW 28A.150.260, 28A.150.390, and section 109 of this act which, when combined with an appropriate portion of such locally available revenues, other than receipts from federal forest revenues distributed to school districts pursuant to RCW 28A.520.010 and 28A.520.020, as the superintendent of public instruction may deem appropriate for consideration in computing state equalization support, excluding excess property tax levies, will constitute a basic education allocation in dollars for each annual average full-time equivalent student enrolled(~~(-- based upon one full school year of one hundred eighty days, except that for kindergartens one full school year shall be one hundred eighty half days of instruction, or the equivalent as provided in RCW 28A.150.220)).~~

(2) The instructional program of basic education shall be considered to be fully funded by those amounts of dollars appropriated by the legislature pursuant to RCW ((28A.150.250 and)) 28A.150.260, 28A.150.390, and section 109 of this act to fund those program requirements identified in RCW 28A.150.220 in accordance with the formula ((and ratios)) provided in RCW 28A.150.260 and those amounts of dollars appropriated by the legislature to fund the salary requirements of RCW ((28A.150.100 and)) 28A.150.410.

PROVIDED FURTHER, That the state board of education shall adopt rules and regulations to insure compliance with the student/teacher ratio provisions of this section, and such rules and regulations shall allow for exemptions for those special programs and/or school districts which may be deemed unable to practicably meet the student/teacher ratio requirements of this section by virtue of a small number of students.))~~

(3) If a school district's basic education program fails to meet the basic education requirements enumerated in RCW ((28A.150.250;)) 28A.150.260((-)) and 28A.150.220, the state board of education shall require the superintendent of public instruction to withhold state funds in whole or in part for the basic education allocation until program compliance is assured((- PROVIDED, That)). However, the state board of education may waive this requirement in the event of substantial lack of classroom space.

Sec. 106. RCW 28A.150.260 and 2006 c 263 s 322 are each amended to read as follows:

~~((The basic education allocation for each annual average full time equivalent student shall be determined in accordance with the following procedures)) The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:~~

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula (~~based on a ratio of students to staff~~) for the distribution of a basic education instructional allocation for each ((annual average full

NINETY-FIFTH DAY, APRIL 16, 2009

time equivalent student enrolled in a) common school district. ((The distribution formula shall have the primary objective of equalizing educational opportunities and shall provide appropriate recognition of the following costs among the various districts within the state:

— (a) Certificated instructional staff and their related costs;
 — (b) Certificated administrative staff and their related costs;
 — (c) Classified staff and their related costs;
 — (d) Nonsalary costs;
 — (e) Extraordinary costs, including school facilities, of remote and necessary schools as judged by the superintendent of public instruction, with recommendations from the school facilities citizen advisory panel under RCW 28A.525.025, and small high schools, including costs of additional certificated and classified staff; and

— (f) The attendance of students pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district.)

(2)((a)) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.165, 28A.180, or 28A.155 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;

(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and

(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

(c) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on an average class size as specified in the omnibus appropriations act. The omnibus appropriations act shall at a minimum specify:

(i) Basic average class size;

2009 REGULAR SESSION

(ii) Basic average class size in schools where more than fifty percent of the students are eligible for free and reduced-price meals;

(iii) Average class size for exploratory and preparatory career and technical education, laboratory science, advanced placement, and international baccalaureate courses; and

(iv) Average class size in grades kindergarten through three.

(d) The minimum allocation for each level of prototypical school shall include allocations for the following types of staff in addition to classroom teachers:

(i) Principals, including assistant principals, and other certificated building-level administrators;

(ii) Teacher librarians, performing functions including information literacy, technology, and media to support school library media programs;

(iii) Student health services, a function that includes school nurses, whether certificated instructional or classified employee, and social workers;

(iv) Guidance counselors, performing functions including parent outreach and graduation advisor;

(v) Professional development coaches;

(vi) Teaching assistance, which includes any aspect of educational instructional services provided by classified employees;

(vii) Office support, technology support, and other noninstructional aides;

(viii) Custodians, warehouse, maintenance, laborer, and professional and technical education support employees; and

(ix) Classified staff providing student and staff safety.

(4)(a) The minimum allocation for each school district shall include allocations per annual average full-time equivalent student for the following materials, supplies, and operating costs: Student technology; utilities; curriculum, textbooks, library materials, and instructional supplies; instructional professional development for both certificated and classified staff; other building-level costs including maintenance, custodial, and security; and central office administration.

(b) The annual average full-time equivalent student amounts in (a) of this subsection shall be enhanced based on full-time equivalent student enrollment in exploratory career and technical education courses for students in grades seven through twelve; laboratory science courses for students in grades nine through twelve; preparatory career and technical education courses for students in grades nine through twelve offered in a high school; and preparatory career and technical education courses for students in grades eleven and twelve offered through a skill center.

(5) The allocations provided under subsections (3) and (4) of this section shall be enhanced as follows to provide additional allocations for classroom teachers and maintenance, supplies, and operating costs:

(a) To provide supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065, allocations shall be based on the percent of students in each school who are eligible for free and reduced-price meals. The minimum allocation for the learning assistance program shall provide an extended school day and extended school year for each level of prototypical school and a per student allocation for maintenance, supplies, and operating costs.

(b) To provide supplemental instruction and services for students whose primary language is other than English, allocations shall be based on the number of students in each school who are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall provide for supplemental instruction based on percent of the school day a student is assumed to receive supplemental instruction and a per student allocation for maintenance, supplies, and operating costs.

NINETY-FIFTH DAY, APRIL 16, 2009

2009 REGULAR SESSION

(6) The allocations provided under subsections (3) and (4) of this section shall be enhanced to provide additional allocations to support programs for highly capable students under RCW 28A.185.010 through 28A.185.030, based on two and three hundred fourteen one-thousandths percent of each school district's full-time equivalent enrollment. The minimum allocation for the programs shall provide an extended school day and extended school year for each level of prototypical school and a per student allocation for maintenance, supplies, and operating costs.

(7) The allocations under subsections (3)(b), (c)(i), and (d), (4), and (8) of this section shall be enhanced as provided under RCW 28A.150.390 on an excess cost basis to provide supplemental instructional resources for students with disabilities.

(8) The distribution formula shall include allocations to school districts to support certificated and classified staffing of central office administration. The minimum allocation shall be calculated as a percentage, identified in the omnibus appropriations act, of the total allocations for staff under subsections (3) and (6) of this section for all schools in the district.

(9)(a) For the purposes of allocations for prototypical high schools and middle schools under subsections (3) and (5) of this section that are based on the percent of students in the school who are eligible for free and reduced-price meals, the actual percent of such students in a school shall be adjusted by a factor identified in the omnibus appropriations act to reflect underreporting of free and reduced-price meal eligibility among middle and high school students.

(b) Allocations or enhancements provided under subsections (3) and (4) of this section for exploratory and preparatory career and technical education courses shall be provided only for courses approved by the office of the superintendent of public instruction under chapter 28A.700 RCW.

(10)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to approval, amendment or rejection by the legislature. ((The formula shall be for allocation purposes only. While the legislature intends that the allocations for additional instructional staff be used to increase the ratio of such staff to students, nothing in this section shall require districts to reduce the number of administrative staff below existing levels.

(b) The formula adopted by the legislature shall reflect the following ratios at a minimum: (i) Forty-nine certificated instructional staff to one thousand annual average full time equivalent students enrolled in grades kindergarten through three; (ii) forty-six certificated instructional staff to one thousand annual average full time equivalent students in grades four through twelve; (iii) four certificated administrative staff to one thousand annual average full time equivalent students in grades kindergarten through twelve; and (iv) sixteen and sixty-seven one-hundredths classified personnel to one thousand annual average full time equivalent students enrolled in grades kindergarten through twelve.

(c) In the event the legislature rejects the distribution formula recommended by the governor, without adopting a new distribution formula, the distribution formula for the previous school year shall remain in effect((~~PROVIDED, That the distribution formula developed pursuant to this section shall be for state apportionment and equalization purposes only and shall not be construed as mandating specific operational functions of local school districts other than those program requirements identified in RCW 28A.150.220 and 28A.150.100~~)).

(d) The enrollment of any district shall be the annual average number of full-time equivalent students and part-time students as provided in RCW 28A.150.350, enrolled on the first school day of each month ((and shall exclude full time equivalent students with disabilities recognized for the purposes of allocation of state funds for programs under RCW 28A.155.010

~~through 28A.155.100)), including students who are in attendance pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district. The definition of full-time equivalent student shall be determined by rules of the superintendent of public instruction((~~PROVIDED, That the definition~~)) and shall be included as part of the superintendent's biennial budget request((~~PROVIDED, FURTHER, That~~)). The definition shall be based on the minimum instructional hour offerings required under RCW 28A.150.220. Any revision of the present definition shall not take effect until approved by the house ((appropriations)) ways and means committee and the senate ways and means committee((~~PROVIDED, FURTHER, That~~)).~~

(d) The office of financial management shall make a monthly review of the superintendent's reported full-time equivalent students in the common schools in conjunction with RCW 43.62.050.

~~((3)(a) Certificated instructional staff shall include those persons employed by a school district who are nonsupervisory employees within the meaning of RCW 41.59.020(8). PROVIDED, That in exceptional cases, people of unusual competence but without certification may teach students so long as a certificated person exercises general supervision. PROVIDED, FURTHER, That the hiring of such classified people shall not occur during a labor dispute and such classified people shall not be hired to replace certificated employees during a labor dispute.~~

~~(b) Certificated administrative staff shall include all those persons who are chief executive officers, chief administrative officers, confidential employees, supervisors, principals, or assistant principals within the meaning of RCW 41.59.020(4)).~~

Sec. 107. RCW 28A.150.315 and 2007 c 400 s 2 are each amended to read as follows:

(1) Beginning with the 2007-08 school year, funding for voluntary all-day kindergarten programs shall be phased-in beginning with schools with the highest poverty levels, defined as those schools with the highest percentages of students qualifying for free and reduced-price lunch support in the prior school year. Once a school receives funding for the all-day kindergarten program, that school shall remain eligible for funding in subsequent school years regardless of changes in the school's percentage of students eligible for free and reduced-price lunches as long as other program requirements are fulfilled. Additionally, schools receiving all-day kindergarten program support shall agree to the following conditions:

- (a) Provide at least a one thousand-hour instructional program;
- (b) Provide a curriculum that offers a rich, varied set of experiences that assist students in:
 - (i) Developing initial skills in the academic areas of reading, mathematics, and writing;
 - (ii) Developing a variety of communication skills;
 - (iii) Providing experiences in science, social studies, arts, health and physical education, and a world language other than English;
 - (iv) Acquiring large and small motor skills;
 - (v) Acquiring social and emotional skills including successful participation in learning activities as an individual and as part of a group; and
 - (vi) Learning through hands-on experiences;
- (c) Establish learning environments that are developmentally appropriate and promote creativity;
- (d) Demonstrate strong connections and communication with early learning community providers; and
- (e) Participate in kindergarten program readiness activities with early learning providers and parents.

(2) Subject to funds appropriated for this purpose, the superintendent of public instruction shall designate one or more school districts to serve as resources and examples of best practices in designing and operating a high-quality all-day kindergarten program. Designated school districts shall serve as

lighthouse programs and provide technical assistance to other school districts in the initial stages of implementing an all-day kindergarten program. Examples of topics addressed by the technical assistance include strategic planning, developing the instructional program and curriculum, working with early learning providers to identify students and communicate with parents, and developing kindergarten program readiness activities.

~~((3) Any funds allocated to support all-day kindergarten programs under this section shall not be considered as basic education funding.))~~

Sec. 108. RCW 28A.150.390 and 1995 c 77 s 6 are each amended to read as follows:

(1) The superintendent of public instruction shall submit to each regular session of the legislature during an odd-numbered year a programmed budget request for special education programs for students with disabilities. Funding for programs operated by local school districts shall be on an excess cost basis from appropriations provided by the legislature for special education programs for students with disabilities and shall take account of state funds accruing through RCW ~~((28A.150.250,))~~ 28A.150.260(3) (b), (c)(i), and (d), (4), and (8) and federal medical assistance and private funds accruing under RCW 74.09.5249 through 74.09.5253 and 74.09.5254 through 74.09.5256 ~~(, and other state and local funds, excluding special excess levies)).~~

(2) The excess cost allocation to school districts shall be based on the following:

(a) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten who are eligible for and enrolled in special education, multiplied by the district's base allocation per full-time equivalent student, multiplied by 1.15; and

(b) A district's annual average full-time equivalent basic education enrollment, multiplied by the district's funded enrollment percent, multiplied by the district's base allocation per full-time equivalent student, multiplied by 0.9309.

(3) As used in this section:

(a) "Base allocation" means the total state allocation to all schools in the district generated by the distribution formula under RCW 28A.150.260 (3) (b), (c)(i), and (d), (4), and (8), to be divided by the district's full-time equivalent enrollment.

(b) "Basic education enrollment" means enrollment of resident students including nonresident students enrolled under RCW 28A.225.225 and students from nonhigh districts enrolled under RCW 28A.225.210 and excluding students residing in another district enrolled as part of an interdistrict cooperative program under RCW 28A.225.250.

(c) "Enrollment percent" means the district's resident special education annual average enrollment, excluding students ages birth through four and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

(d) "Funded enrollment percent" means the lesser of the district's actual enrollment percent or twelve and seven-tenths percent.

NEW SECTION. Sec. 109. (1) To the extent necessary, funds shall be made available for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided through the special education funding formula under RCW 28A.150.390. If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in any fiscal year, then the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider additional funds for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the

committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards. In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state revenues related to services for special education-eligible students and all federal revenues from federal impact aid, medicaid, and the individuals with disabilities education act-Part B and appropriate special projects. Awards associated with (b) and (c) of this subsection shall not exceed the total of a district's specific determination of need.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services, which may include consideration of proximity to group homes, military bases, and regional hospitals. Safety net awards under this subsection (1)(c) shall be adjusted to reflect amounts awarded under (b) of this subsection.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent of public instruction in accordance with chapter 318, Laws of 1999.

(f) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(2) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Before revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature. In adopting and revising the rules, the superintendent shall ensure the application process to access safety net funding is streamlined, timelines for submission are not in conflict, feedback to school districts is timely and provides sufficient information to allow school districts to understand how to correct any deficiencies in a safety net application, and that there is consistency between awards approved by school district and by application period. The office of the superintendent of public instruction shall also provide technical assistance to school districts in preparing and submitting special education safety net applications.

(3) On an annual basis, the superintendent shall survey districts regarding their satisfaction with the safety net process and consider feedback from districts to improve the safety net process. Each year by December 1st, the superintendent shall prepare and submit a report to the office of financial management and the appropriate policy and fiscal committees of the legislature that summarizes the survey results and those changes made to the safety net process as a result of the school district feedback.

(4) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff member from the office of the superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

Sec. 110. RCW 28A.150.380 and 2001 c 3 s 10 are each amended to read as follows:

NINETY-FIFTH DAY, APRIL 16, 2009

2009 REGULAR SESSION

(1) The state legislature shall, at each regular session in an odd-numbered year, appropriate ~~((from the state general fund))~~ for the current use of the common schools such amounts as needed for state support to ~~((the common schools))~~ school districts during the ensuing biennium ~~((as provided in this chapter, RCW 28A.160.150 through 28A.160.210, 28A.300.170, and 28A.500.010))~~ for the program of basic education under RCW 28A.150.200.

(2) In addition to those state funds provided to school districts for basic education, the legislature may appropriate funds to be distributed to school districts for other factors and for other special programs to enhance or enrich the program of basic education.

(3) The state legislature shall also, at each regular session in an odd-numbered year, appropriate from the student achievement fund and education construction fund solely for the purposes of and in accordance with the provisions of the student achievement act during the ensuing biennium.

Sec. 111. RCW 28A.230.090 and 2006 c 114 s 3 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except those equivalencies established by local high schools or school districts under RCW 28A.230.097.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of the American Indian peoples who were the first inhabitants of the state.

(b) The certificate of academic achievement requirements under RCW 28A.655.061 or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation.

(c) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements. ~~((The board shall reports [report] its findings and recommendations for additional flexibility in graduation requirements, if necessary, to the legislature by December 1, 2007.))~~

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review and to the quality education council established under section 114 of this act. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school

graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) If requested by the student and his or her family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit.

NEW SECTION. Sec. 112. (1) The legislature intends to continue to redefine the instructional program of education under RCW 28A.150.220 that fulfills the obligations and requirements of Article IX of the state Constitution. The funding formulas under RCW 28A.150.260 to support the instructional program shall be implemented to the extent the technical details of the formula have been established and according to an implementation schedule to be adopted by the legislature. The object of the schedule is to assure that any increases in funding allocations are timely, predictable, and occur concurrently with any increases in program or instructional requirements. It is the intent of the legislature that no increased programmatic or instructional expectations be imposed upon schools or school districts without an accompanying increase in resources as necessary to support those increased expectations.

(2) The office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to:

(a) Develop the details of the funding formulas under RCW 28A.150.260;

(b) Recommend to the legislature an implementation schedule for phasing-in any increased program or instructional requirements concurrently with increases in funding for adoption by the legislature; and

(c) Examine possible sources of revenue to support increases in funding allocations and present options to the legislature and the quality education council created in section 114 of this act for consideration.

(3) The working group shall include representatives of the legislative evaluation and accountability program committee, school district and educational service district financial managers, the Washington association of school business officers, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with expertise in education finance. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(4) The working group shall be monitored and overseen by the legislature and the quality education council established in

NINETY-FIFTH DAY, APRIL 16, 2009

section 114 of this act. The working group shall submit its recommendations to the legislature by December 1, 2009.

NEW SECTION. Sec. 113. A new section is added to chapter 28A.300 RCW to read as follows:

(1) As part of the estimates and information submitted to the governor by the superintendent of public instruction under RCW 28A.300.170, the superintendent of public instruction shall biennially make determinations on the educational system's capacity to accommodate increased resources in relation to the elements in the prototypical funding allocation model. In areas where there are specific and significant capacity limitations to providing enhancements to a recommended element, the superintendent of public instruction shall identify those limitations and make recommendations on how to address the issue.

(2) The legislature shall:

(a) Review the recommendations of the superintendent of public instruction submitted under subsection (1) of this section; and

(b) Use the information as it continues to review, evaluate, and revise the definition and funding of basic education in a manner that serves the educational needs of the citizen's of Washington; continues to fulfill the state's obligation under Article IX of the state Constitution and ensures that no enhancements are imposed on the educational system that cannot be accommodated by the existing system capacity.

(3) "System capacity" for purposes of this section includes, but is not limited to, the ability of schools and districts to provide the capital facilities necessary to support a particular instructional program, the staffing levels necessary to support an instructional program both in terms of actual numbers of staff as well as the experience level and types of staff available to fill positions, the higher education systems capacity to prepare the next generation of educators, and the availability of data and a data system capable of helping the state allocate its resources in a manner consistent with evidence-based practices that are shown to improve student learning.

(4) The office of the superintendent of public instruction shall report to the legislature on a biennial basis beginning December 1, 2010.

NEW SECTION. Sec. 114. (1) The quality education council is created to recommend and inform the ongoing implementation by the legislature of an evolving program of basic education and the financing necessary to support such program. The council shall develop strategic recommendations on the program of basic education for the common schools. The council shall take into consideration the capacity report produced under section 113 of this act and the availability of data and progress of implementing the data systems required under section 202 of this act. Any recommendations for modifications to the program of basic education shall be based on evidence that the programs effectively support student learning. The council shall update the statewide strategic recommendations every four years. The recommendations of the council are intended to:

(a) Inform future educational policy and funding decisions of the legislature and governor;

(b) Identify measurable goals and priorities for the educational system in Washington state for a ten-year time period, including the goals of basic education and ongoing strategies for coordinating statewide efforts to eliminate the achievement gap and reduce student dropout rates; and

(c) Enable the state of Washington to continue to implement an evolving program of basic education.

(2) The council may request updates and progress reports from the office of the superintendent of public instruction, the state board of education, the professional educator standards board, and the department of early learning on the work of the agencies as well as educational working groups established by the legislature.

(3) The chair of the council shall be selected from the councilmembers. The council shall be composed of the following members:

(a) Four members of the house of representatives, with two members representing each of the major caucuses and appointed by the speaker of the house of representatives;

(5)(a) The council shall submit an initial report to the governor and the legislature by January 1, 2010, detailing its recommendations, including recommendations for resolving issues or decisions requiring legislative action during the 2010 legislative session, and recommendations for any funding necessary to continue development and implementation of chapter . . . , Laws of 2009 (this act).

(b) The initial report shall, at a minimum, include:

(i) Consideration of how to establish a statewide beginning teacher mentoring and support system;

(ii) Recommendations for a program of early learning for at-risk children;

(iii) A recommended schedule for the concurrent phase-in of the changes to the instructional program of basic education and the implementation of the funding formulas and allocations to support the new instructional program of basic education as established under chapter . . . , Laws of 2009 (this act). The phase-in schedule shall have full implementation completed by September 1, 2018; and

(7) Legislative members of the council shall serve without additional compensation but may be reimbursed for travel expenses in accordance with RCW 44.04.120 while attending sessions of the council or on official business authorized by the council. Nonlegislative members of the council may be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 115. (1) The legislature finds that a critical factor in the eventual successful outcome of a K-12 education is for students to begin school ready, both intellectually and socially, to learn. The legislature also finds that, due to a variety of factors, disadvantaged young children need supplemental instruction in preschool to assure that they have the opportunity to meaningfully participate and reach the necessary levels of achievement in the regular program of basic education. Therefore the legislature intends to establish a program of early learning for at-risk children and intends to include this program within the overall program of basic education.

(2) The office of the superintendent of public instruction, with the support and assistance from the department of early learning, shall convene a working group to develop the basic education program of early learning. The early learning working group shall be composed of representatives from head start and early childhood education and assistance program

providers, school districts, thrive by five Washington, and other stakeholders with expertise in early learning. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(3) The early learning working group shall continue the preliminary work of the department of early learning under RCW 43.215.125 to develop a proposal for a statewide Washington head start program. The working group shall:

(a) Recommend student eligibility criteria that focus on children age three and four considered most at-risk;

(b) Develop options for a service delivery system that includes school districts, educational service districts, community and technical colleges, and public and private nonsectarian organizations;

(e) Continue development of a statewide kindergarten assessment process.

(4) The early learning working group shall be monitored and overseen by the quality education council established in section 114 of this act and shall submit progress reports to the council by September 1, 2010, and September 1, 2011, with a final report by September 1, 2012.

**PART II
EDUCATION DATA IMPROVEMENT SYSTEM**

Sec. 201. RCW 43.41.400 and 2007 c 401 s 3 are each amended to read as follows:

(1) An education data center shall be established in the office of financial management. The education data center shall jointly, with the legislative ~~((education [evaluation]))~~ evaluation and accountability program committee, conduct collaborative analyses of early learning, K-12, and higher education programs and education issues across the P-20 system, which includes the department of early learning, the superintendent of public instruction, the professional educator standards board, the state board of education, the state board for community and technical colleges, the workforce training and education coordinating board, the higher education coordinating board, public and private nonprofit four-year institutions of higher education, and the employment security department. compiled and analyzed to ensure that legislative interests are served;

~~((c))~~ (d) Annually provide to the K-12 data governance group a list of data elements and data quality improvements that are necessary to answer the research and policy questions identified by the education data center and have been identified by the legislative committees in (c) of this subsection. Within three months of receiving the list, the K-12 data governance group shall develop and transmit to the education data center a feasibility analysis of obtaining or improving the data, including the steps required, estimated time frame, and the financial and other resources that would be required. Based on the analysis, the education data center shall submit, if necessary, a recommendation to the legislature regarding any statutory changes or resources that would be needed to collect or improve the data;

(e) Monitor and evaluate the education data collection systems of the organizations and agencies represented in the education data center ensuring that data systems are flexible, able to adapt to evolving needs for information, and to the extent feasible and necessary, include data that are needed to conduct the analyses and provide answers to the research and policy questions identified in (a) of this subsection;

(3) The department of early learning, superintendent of public instruction, professional educator standards board, state board of education, state board for community and technical colleges, workforce training and education coordinating board, higher education coordinating board, public four-year institutions of higher education, and employment security department shall work with the education data center to develop data-sharing and research agreements, consistent with applicable security and confidentiality requirements, to facilitate the work of the center. Private, nonprofit institutions of higher education that provide programs of education beyond the high school level leading at least to the baccalaureate degree and are accredited by the Northwest association of schools and colleges or their peer accreditation bodies may also develop data-sharing and research agreements with the education data center, consistent with applicable security and confidentiality requirements. The education data center shall make data from collaborative analyses available to the education agencies and institutions that contribute data to the education data center to the extent allowed by federal and state security and confidentiality requirements applicable to the data of each contributing agency or institution.

NEW SECTION. Sec. 202. A new section is added to chapter 28A.655 RCW to read as follows:

(1) It is the legislature's intent to establish a comprehensive K-12 education data improvement system for financial, student, and educator data. The objective of the system is to monitor student progress, have information on the quality of the educator workforce, monitor and analyze the costs of programs, provide for financial integrity and accountability, and have the capability to link across these various data components by student, by class, by teacher, by school, by district, and statewide. Education data systems must be flexible and able to adapt to evolving needs for information, but there must be an objective and orderly data governance process for determining when changes are needed and how to implement them. It is the further intent of the legislature to provide independent review and

NINETY-FIFTH DAY, APRIL 16, 2009

evaluation of a comprehensive K-12 education data improvement system by assigning the review and monitoring responsibilities to the education data center and the legislative evaluation and accountability program committee.

(2) It is the intent that the data system specifically service reporting requirements for teachers, parents, superintendents, school boards, the legislature, the office of the superintendent of public instruction, and the public.

(3) It is the legislature's intent that the K-12 education data improvement system used by school districts and the state include but not be limited to the following information and functionality:

(a) Comprehensive educator information, including grade level and courses taught, building or location, program, job assignment, years of experience, the institution of higher education from which the educator obtained his or her degree, compensation, class size, mobility of class population, socioeconomic data of class, number of languages and which languages are spoken by students, general resources available for curriculum and other classroom needs, and number and type of instructional support staff in the building;

(b) The capacity to link educator assignment information with educator certification information such as certification number, type of certification, route to certification, certification program, and certification assessment or evaluation scores;

(c) Common coding of secondary courses and major areas of study at the elementary level or standard coding of course content;

(d) Robust student information, including but not limited to student characteristics, course and program enrollment, performance on statewide and district summative and formative assessments to the extent district assessments are used, and performance on college readiness tests;

(e) A subset of student information elements to serve as a dropout early warning system;

(f) The capacity to link educator information with student information;

(g) A common, standardized structure for reporting the costs of programs at the school and district level with a focus on the cost of services delivered to students;

(h) Separate accounting of state, federal, and local revenues and costs;

(i) Information linking state funding formulas to school district budgeting and accounting, including procedures:

(i) To support the accuracy and auditing of financial data; and

(ii) Using the prototypical school model for school district financial accounting reporting;

(j) The capacity to link program cost information with student performance information to gauge the cost-effectiveness of programs;

(k) Information that is centrally accessible and updated regularly; and

(l) An anonymous, nonidentifiable replicated copy of data that is updated at least quarterly, and made available to the public by the state.

(4) It is the legislature's goal that all school districts have the capability to collect state-identified common data and export it in a standard format to support a statewide K-12 education data improvement system under this section.

(5) It is the legislature's intent that the K-12 education data improvement system be developed to provide the capability to make reports as required under section 203 of this act available.

(6) It is the legislature's intent that school districts collect and report new data elements to satisfy the requirements of RCW 43.41.400, this section, and section 203 of this act, only to the extent funds are available for this purpose.

NEW SECTION. Sec. 203. A new section is added to chapter 28A.300 RCW to read as follows:

(1) A K-12 data governance group shall be established within the office of the superintendent of public instruction to

assist in the design and implementation of a K-12 education data improvement system for financial, student, and educator data. It is the intent that the data system reporting specifically serve requirements for teachers, parents, superintendents, school boards, the office of the superintendent of public instruction, the legislature, and the public.

(2) The K-12 data governance group shall include representatives of the education data center, the office of the superintendent of public instruction, the legislative evaluation and accountability program committee, the professional educator standards board, the state board of education, and school district staff, including information technology staff. Additional entities with expertise in education data may be included in the K-12 data governance group.

(3) The K-12 data governance group shall:

(a) Identify the critical research and policy questions that need to be addressed by the K-12 education data improvement system;

(b) Identify reports and other information that should be made available on the internet in addition to the reports identified in subsection (5) of this section;

(c) Create a comprehensive needs requirement document detailing the specific information and technical capacity needed by school districts and the state to meet the legislature's expectations for a comprehensive K-12 education data improvement system as described under section 202 of this act;

(d) Conduct a gap analysis of current and planned information compared to the needs requirement document, including an analysis of the strengths and limitations of an education data system and programs currently used by school districts and the state, and specifically the gap analysis must look at the extent to which the existing data can be transformed into canonical form and where existing software can be used to meet the needs requirement document;

(e) Focus on financial and cost data necessary to support the new K-12 financial models and funding formulas, including any necessary changes to school district budgeting and accounting, and on assuring the capacity to link data across financial, student, and educator systems; and

(f) Define the operating rules and governance structure for K-12 data collections, ensuring that data systems are flexible and able to adapt to evolving needs for information, within an objective and orderly data governance process for determining when changes are needed and how to implement them. Strong consideration must be made to the current practice and cost of migration to new requirements. The operating rules should delineate the coordination, delegation, and escalation authority for data collection issues, business rules, and performance goals for each K-12 data collection system, including:

(i) Defining and maintaining standards for privacy and confidentiality;

(ii) Setting data collection priorities;

(iii) Defining and updating a standard data dictionary;

(iv) Ensuring data compliance with the data dictionary;

(v) Ensuring data accuracy; and

(vi) Establishing minimum standards for school, student, financial, and teacher data systems. Data elements may be specified "to the extent feasible" or "to the extent available" to collect more and better data sets from districts with more flexible software. Nothing in RCW 43.41.400, this section, or section 202 of this act should be construed to require that a data dictionary or reporting should be hobbled to the lowest common set. The work of the K-12 data governance group must specify which data are desirable. Districts that can meet these requirements shall report the desirable data. Funding from the legislature must establish which subset data are absolutely required.

(4)(a) The K-12 data governance group shall provide updates on its work as requested by the education data center and the legislative evaluation and accountability program committee.

NINETY-FIFTH DAY, APRIL 16, 2009

2009 REGULAR SESSION

(b) The work of the K-12 data governance group shall be periodically reviewed and monitored by the educational data center and the legislative evaluation and accountability program committee.

(5) To the extent data is available, the office of the superintendent of public instruction shall make the following minimum reports available on the internet. The reports must either be run on demand against current data, or, if a static report, must have been run against the most recent data:

(a) The percentage of data compliance and data accuracy by school district;

(b) The magnitude of spending per student, by student estimated by the following algorithm and reported as the detailed summation of the following components:

(i) An approximate, prorated fraction of each teacher or human resource element that directly serves the student. Each human resource element must be listed or accessible through online tunneling in the report;

(ii) An approximate, prorated fraction of classroom or building costs used by the student;

(iii) An approximate, prorated fraction of transportation costs used by the student; and

(iv) An approximate, prorated fraction of all other resources within the district. District-wide components should be disaggregated to the extent that it is sensible and economical;

(c) The cost of K-12 basic education, per student, by student, by school district, estimated by the algorithm in (b) of this subsection, and reported in the same manner as required in (b) of this subsection;

(d) The cost of K-12 special education services per student, by student receiving those services, by school district, estimated by the algorithm in (b) of this subsection, and reported in the same manner as required in (b) of this subsection;

(e) Improvement on the statewide assessments computed as both a percentage change and absolute change on a scale score metric by district, by school, and by teacher that can also be filtered by a student's length of full-time enrollment within the school district;

(f) Number of K-12 students per classroom teacher on a per teacher basis;

(g) Number of K-12 classroom teachers per student on a per student basis;

(h) Percentage of a classroom teacher per student on a per student basis; and

(i) The cost of K-12 education per student by school district sorted by federal, state, and local dollars.

(6) The superintendent of public instruction shall submit a preliminary report to the legislature by November 15, 2009, including the analyses by the K-12 data governance group under subsection (3) of this section and preliminary options for addressing identified gaps. A final report, including a proposed phase-in plan and preliminary cost estimates for implementation of a comprehensive data improvement system for financial, student, and educator data shall be submitted to the legislature by September 1, 2010.

(7) All reports and data referenced in this section, RCW 43.41.400, and section 202 of this act shall be made available in a manner consistent with the technical requirements of the legislative evaluation and accountability program committee and the education data center so that selected data can be provided to the legislature, governor, school districts, and the public.

(8) Reports shall contain data to the extent it is available. All reports must include documentation of which data are not available or are estimated. Reports must not be suppressed because of poor data accuracy or completeness. Reports may be accompanied with documentation to inform the reader of why some data are missing or inaccurate or estimated.

NEW SECTION. Sec. 204. A new section is added to chapter 43.41 RCW to read as follows:

The education data center and the superintendent of public instruction shall take all actions necessary to secure federal funds to implement sections 201 through 203 of this act.

**PART III
OTHER EDUCATIONAL PROVISIONS**

NEW SECTION. Sec. 301. A new section is added to chapter 28A.500 RCW to read as follows:

(1) The legislature finds that while the state has the responsibility to provide for a general and uniform system of public schools, there is also a need for some diversity in the public school system. A successful system of public education must permit some variation among school districts outside the basic education provided for by the state to respond to and reflect the unique desires of local communities. The opportunity for local communities to invest in enriched education programs promotes support for local public schools. Further, the ability of local school districts to experiment with enriched programs can inform the legislature's long-term evolution of the definition of basic education. Therefore, local levy authority remains an important component of the overall finance system in support of the public schools even though it is outside the state's obligation for basic education.

(2) However, the value of permitting local levies must be balanced with the value of equity and fairness to students and to taxpayers, neither of whom should be unduly disadvantaged due to differences in the tax bases used to support local levies. Equity and fairness require both an equitable basis for supplemental funding outside basic education and a mechanism for property tax-poor school districts to fairly access supplemental funding. As such, local effort assistance, while also outside the state's obligation for basic education, is another important component of school finance.

NEW SECTION. Sec. 302. (1) Beginning July 1, 2010, the office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to develop options for a new system of supplemental school funding through local school levies and local effort assistance.

(2) The working group shall consider the impact on overall school district revenues of the new basic education funding system established under this act and shall recommend a phase-in plan that ensures that no school district suffers a decrease in funding from one school year to the next due to implementation of the new system of supplemental funding.

(3) The working group shall be composed of representatives from the department of revenue, the legislative evaluation and accountability program committee, school district and educational service district financial managers, and representatives of the Washington association of school business officers, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with expertise in education finance. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(4) The local funding working group shall be monitored and overseen by the legislature and by the quality education council created in section 114 of this act. The working group shall report to the legislature December 1, 2011.

Sec. 303. RCW 28A.195.010 and 2004 c 19 s 106 are each amended to read as follows:

The legislature hereby recognizes that private schools should be subject only to those minimum state controls necessary to insure the health and safety of all the students in the state and to insure a sufficient basic education to meet usual graduation requirements. The state, any agency or official thereof, shall not restrict or dictate any specific educational or

NINETY-FIFTH DAY, APRIL 16, 2009

other programs for private schools except as hereinafter in this section provided.

Principals of private schools or superintendents of private school districts shall file each year with the state superintendent of public instruction a statement certifying that the minimum requirements hereinafter set forth are being met, noting any deviations. After review of the statement, the state superintendent will notify schools or school districts of those deviations which must be corrected. In case of major deviations, the school or school district may request and the state board of education may grant provisional status for one year in order that the school or school district may take action to meet the requirements. The state board of education shall not require private school students to meet the student learning goals, obtain a certificate of academic achievement, or a certificate of individual achievement to graduate from high school, to master the essential academic learning requirements, or to be assessed pursuant to RCW 28A.655.061. However, private schools may choose, on a voluntary basis, to have their students master these essential academic learning requirements, take the assessments, and obtain a certificate of academic achievement or a certificate of individual achievement. Minimum requirements shall be as follows:

(1) The minimum school year for instructional purposes shall consist of no less than one hundred eighty school days or the equivalent in annual minimum ~~((program)) instructional~~ hour offerings ~~((as prescribed in RCW 28A.150.220)), with a school-wide annual average total instructional hour offering of one thousand hours for students enrolled in grades one through twelve, and at least four hundred fifty hours for students enrolled in kindergarten.~~

(2) The school day shall be the same as ~~((that required in RCW 28A.150.030 and 28A.150.220, except that the percentages of total program hour offerings as prescribed in RCW 28A.150.220 for basic skills, work skills, and optional subjects and activities shall not apply to private schools or private sectarian schools)) defined in section 102 of this act.~~

(3) All classroom teachers shall hold appropriate Washington state certification except as follows:

(a) Teachers for religious courses or courses for which no counterpart exists in public schools shall not be required to obtain a state certificate to teach those courses.

(b) In exceptional cases, people of unusual competence but without certification may teach students so long as a certified person exercises general supervision. Annual written statements shall be submitted to the office of the superintendent of public instruction reporting and explaining such circumstances.

(4) An approved private school may operate an extension program for parents, guardians, or persons having legal custody of a child to teach children in their custody. The extension program shall require at a minimum that:

(a) The parent, guardian, or custodian be under the supervision of an employee of the approved private school who is certified under chapter 28A.410 RCW;

(b) The planning by the certified person and the parent, guardian, or person having legal custody include objectives consistent with this subsection and subsections (1), (2), (5), (6), and (7) of this section;

(c) The certified person spend a minimum average each month of one contact hour per week with each student under his or her supervision who is enrolled in the approved private school extension program;

(d) Each student's progress be evaluated by the certified person; and

(e) The certified employee shall not supervise more than thirty students enrolled in the approved private school's extension program.

(5) Appropriate measures shall be taken to safeguard all permanent records against loss or damage.

(6) The physical facilities of the school or district shall be adequate to meet the program offered by the school or district:

2009 REGULAR SESSION

PROVIDED, That each school building shall meet reasonable health and fire safety requirements. A residential dwelling of the parent, guardian, or custodian shall be deemed to be an adequate physical facility when a parent, guardian, or person having legal custody is instructing his or her child under subsection (4) of this section.

(7) Private school curriculum shall include instruction of the basic skills of occupational education, science, mathematics, language, social studies, history, health, reading, writing, spelling, and the development of appreciation of art and music, all in sufficient units for meeting state board of education graduation requirements.

(8) Each school or school district shall be required to maintain up-to-date policy statements related to the administration and operation of the school or school district.

All decisions of policy, philosophy, selection of books, teaching material, curriculum, except as in subsection (7) of this section provided, school rules and administration, or other matters not specifically referred to in this section, shall be the responsibility of the administration and administrators of the particular private school involved.

Sec. 304. RCW 28A.160.150 and 1996 c 279 s 1 are each amended to read as follows:

Funds allocated for transportation costs, except for funds provided for transportation and transportation services to and from school shall be in addition to the basic education allocation. The distribution formula developed in RCW 28A.160.150 through 28A.160.180 shall be for allocation purposes only and shall not be construed as mandating specific levels of pupil transportation services by local districts. Operating costs as determined under RCW 28A.160.150 through 28A.160.180 shall be funded at one hundred percent or as close thereto as reasonably possible for transportation of an eligible student to and from school as defined in RCW 28A.160.160(3). In addition, funding shall be provided for transportation services for students living within ~~((one radius mile from school))~~ the walk area as determined under RCW ~~((28A.160.180(2)))~~ 28A.160.160(5).

Sec. 305. RCW 28A.160.160 and 1996 c 279 s 2 are each amended to read as follows:

For purposes of RCW 28A.160.150 through 28A.160.190, except where the context shall clearly indicate otherwise, the following definitions apply:

(1) "Eligible student" means any student served by the transportation program of a school district or compensated for individual transportation arrangements authorized by RCW 28A.160.030 whose route stop is ~~((more than one radius mile from the))~~ outside the walk area for a student's school, except if the student to be transported is disabled under RCW 28A.155.020 and is either not ambulatory or not capable of protecting his or her own welfare while traveling to or from the school or agency where special education services are provided, in which case no mileage distance restriction applies.

(2) "Superintendent" means the superintendent of public instruction.

(3) "To and from school" means the transportation of students for the following purposes:

(a) Transportation to and from route stops and schools;

(b) Transportation to and from schools pursuant to an interdistrict agreement pursuant to RCW 28A.335.160;

(c) Transportation of students between schools and learning centers for instruction specifically required by statute; and

(d) Transportation of students with disabilities to and from schools and agencies for special education services.

Academic extended day transportation for the instructional program of basic education under RCW 28A.150.220 shall ((not)) be considered part of transportation of students "to and from school" for the purposes of ((chapter 61, Laws of 1983 1st ex. sess)) this section. Transportation for field trips may not be considered part of transportation of students "to and from school" under this section.

NINETY-FIFTH DAY, APRIL 16, 2009

2009 REGULAR SESSION

(4) "Transportation services" for students living within ~~((one radius mile from school means school transportation services including the use of buses;))~~ the walk area includes the coordination of walk-to-school programs, the funding of crossing guards, and matching funds for local and state transportation projects intended to mitigate hazardous walking conditions. Priority for transportation services shall be given to students in grades kindergarten through five.

(5) As used in this section, "walk area" means that area around a school with an adequate roadway configuration to provide students access to school with a walking distance of less than one mile. Mileage must be measured along the shortest roadway or maintained public walkway where hazardous conditions do not exist. The hazardous conditions must be documented by a process established in rule by the superintendent of public instruction and must include roadway, environmental, and social conditions. Each elementary school shall identify walk routes within the walk area.

Sec. 306. RCW 28A.160.170 and 2007 c 139 s 1 are each amended to read as follows:

Each district shall submit three times each year to the superintendent of public instruction during October, February, and May of each year a report containing the following:

(1)(a) The number of eligible students transported to and from school as provided for in RCW 28A.160.150 ((for the current school year and the number of miles estimated to be driven for pupil transportation services)), along with ((a map describing student route)) identification of stop locations and school locations, and (b) the number of miles driven for pupil transportation services as authorized in RCW 28A.160.150 the previous school year; and

(2) Other operational data and descriptions as required by the superintendent to determine allocation requirements for each district. The superintendent shall require that districts separate the costs of operating the program for the transportation of eligible students to and from school as defined by RCW 28A.160.160(3) from non-to-and-from-school pupil transportation costs in the annual financial statement. The cost, quantity, and type of all fuel purchased by school districts for use in to-and-from-school transportation shall be included in the annual financial statement.

Each district shall submit the information required in this section on a timely basis as a condition of the continuing receipt of school transportation moneys.

Sec. 307. RCW 28A.160.180 and 1996 c 279 s 3 are each amended to read as follows:

Each district's annual student transportation allocation shall be ~~((based on differential rates))~~ determined by the superintendent of public instruction in the following manner:

(1) The superintendent shall annually calculate ((a standard student mile allocation rate for determining)) the transportation allocation for those services provided for in RCW 28A.160.150. (("Standard student mile allocation rate," as used in this chapter, means the per mile allocation rate for transporting an eligible student.)) The ((standard student mile)) allocation ((rate)) formula may be adjusted to include such additional differential factors as ~~((distance, restricted))~~ basic and special passenger ((load, circumstances that require use of special types of transportation vehicles, student with disabilities load, and small fleet maintenance)) counts as defined by the superintendent of public instruction, average distance to school, and number of locations served.

(2) ~~((For transportation services for students living within one radius mile from school;))~~ The allocation shall be based on a regression analysis of the number of basic and special students ((in grades kindergarten through five living within one radius mile as specified in the biennial appropriations act)) transported and as many other site characteristics that are identified as being statistically significant.

(3) ~~((The superintendent of public instruction shall annually calculate allocation rate(s), which shall include vehicle~~

~~amortization, for determining))~~ The transportation allocation for transporting students in district-owned passenger cars, as defined in RCW 46.04.382, pursuant to RCW 28A.160.010 for services provided for in RCW 28A.160.150 if a school district deems it advisable to use such vehicles after the school district board of directors has considered the safety of the students being transported as well as the economy of utilizing a district-owned passenger car in lieu of a school bus is the private vehicle reimbursement rate in effect on September 1st of each school year. Students transported in district-owned passenger cars must be included in the corresponding basic or special passenger counts.

(4) Prior to June 1st of each year the superintendent shall submit to the office of financial management, and the education and fiscal committees ((on education and ways and means of the senate and house of representatives)) of the legislature, a report outlining the methodology and rationale used in determining the statistical coefficients for each site characteristic used to determine the allocation ((rates to be used)) for the following year.

Sec. 308. RCW 28A.160.190 and 1990 c 33 s 145 are each amended to read as follows:

The superintendent shall notify districts of their student transportation allocation before January 15th. ~~((If the number of eligible students in a school district changes ten percent or more from the October report, and the change is maintained for a period of twenty consecutive school days or more, the district may submit revised eligible student data to the superintendent of public instruction.))~~ The superintendent shall ((to the extent funds are available,)) recalculate and prorate the district's allocation for the transportation of pupils to and from school.

The superintendent shall make the student transportation allocation in accordance with the apportionment payment schedule in RCW 28A.510.250. Such allocation payments may be based on ~~((estimated amounts))~~ the prior school year's ridership report for payments to be made in September, October, November, December, and January.

NEW SECTION. Sec. 309. A new section is added to chapter 28A.160 RCW to read as follows:

The superintendent of public instruction shall ensure that the allocation formula results in adequate appropriation for low enrollment districts, nonhigh districts, districts involved in cooperative transportation agreements, and cooperative special transportation services operated by educational service districts. If necessary, the superintendent shall develop a separate process to adjust the allocation of the districts.

NEW SECTION. Sec. 310. A new section is added to chapter 28A.160 RCW to read as follows:

(1) The superintendent of public instruction shall encourage efficient use of state resources by providing a linear programming process that compares school district transportation operations. If a school district's operation is calculated to be less than ninety percent efficient, the regional transportation coordinators shall provide an individual review to determine what measures are available to the school district to improve efficiency. The evaluation shall include such measures as:

- (a) Efficient routing of buses;
- (b) Efficient use of vehicle capacity; and
- (c) Reasonable controls on compensation costs.

(2) The superintendent shall submit to the fiscal and education committees of the legislature no later than December 1st of each year a report summarizing the efficiency reviews and the resulting changes implemented by school districts in response to the recommendations of the regional transportation coordinators.

NEW SECTION. Sec. 311. A new section is added to chapter 28A.160 RCW to read as follows:

(1) The superintendent of public instruction shall phase-in the implementation of the distribution formula under this chapter for allocating state funds to school districts for the

NINETY-FIFTH DAY, APRIL 16, 2009

transportation of students to and from school. The phase-in shall be according to the implementation schedule adopted by the legislature and shall begin no later than the 2013-14 school year.

(a) The formula must be developed and revised on an ongoing basis using the major cost factors in student transportation, including basic and special student loads, school district land area, average distance to school, roadway miles, and number of locations served. Factors must include all those site characteristics that are statistically significant after analysis of the data required by the revised reporting process.

(b) The formula must allocate funds to school districts based on the average predicted costs of transporting students to and from school, using a regression analysis.

(2) During the phase-in period, funding provided to school districts for student transportation operations shall be distributed on the following basis:

(a) Annually, each school district shall receive the lesser of the previous school year's pupil transportation operations allocation, or the total of allowable pupil transportation expenditures identified on the previous school year's final expenditure report to the state plus district indirect expenses using the state recovery rate identified by the superintendent; and

(b) Annually, any funds appropriated by the legislature in excess of the maintenance level funding amount for student transportation shall be distributed among school districts on a prorated basis using the difference between the amount identified in (a) of this subsection and the amount determined under the formula in RCW 28A.160.180.

(3) The superintendent shall develop, implement, and provide a copy of the rules specifying the student transportation reporting requirements to the legislature and school districts no later than December 1, 2009.

(4) Beginning in December 2009, and continuing until December 2014, the superintendent shall provide quarterly updates and progress reports to the fiscal committees of the legislature on the implementation and testing of the distribution formula.

PART IV CERTIFICATION AND PROFESSIONAL DEVELOPMENT

NEW SECTION. Sec. 401. The legislature recognizes that the key to providing all students the opportunity to achieve the basic education goal is effective teaching and leadership. Teachers, principals, and administrators must be provided with access to the opportunities they need to gain the knowledge and skills that will enable them to be increasingly successful in their classroom and schools. A system that clearly defines, supports, measures, and recognizes effective teaching and leadership is one of the most important investments to be made.

NEW SECTION. Sec. 402. A new section is added to chapter 28A.410 RCW to read as follows:

(1)(a) By January 1, 2010, the professional educator standards board shall adopt a set of articulated teacher knowledge, skill, and performance standards for effective teaching that are evidence-based, measurable, meaningful, and documented in high quality research as being associated with improved student learning. The standards shall be calibrated for each level of certification and along the entire career continuum. In developing the standards, the board shall, to the extent possible, incorporate standards for cultural competency along the entire continuum. For the purposes of this subsection, "cultural competency" includes knowledge of student cultural histories and contexts, as well as family norms and values in different cultures; knowledge and skills in accessing community resources and community and parent outreach; and skills in adapting instruction to students' experiences and identifying cultural contexts for individual students.

2009 REGULAR SESSION

(b) By January 1, 2010, the professional educator standards board shall adopt a definition of master teacher, with a comparable level of increased competency between professional certification level and master level as between professional certification level and national board certification. Within the definition established by the professional educator standards board, teachers certified through the national board for professional teaching standards shall be considered master teachers.

(2) By January 1, 2010, the professional educator standards board shall submit to the governor and the education and fiscal committees of the legislature:

(a) An update on the status of implementation of the professional certificate external and uniform assessment authorized in RCW 28A.410.210;

(b) A proposal for a uniform, statewide, valid, and reliable classroom-based means of evaluating teacher effectiveness as a culminating measure at the preservice level that is to be used during the student-teaching field experience. This assessment shall include multiple measures of teacher performance in classrooms, evidence of positive impact on student learning, and shall include review of artifacts, such as use of a variety of assessment and instructional strategies, and student work. The proposal shall establish a timeline for when the assessment will be required for successful completion of a Washington state-approved teacher preparation program. The timeline shall take into account the capacity of the K-12 education and higher education systems to accommodate the new assessment. The proposal and timeline shall also address how the assessment will be included in state-reported data on preparation program quality; and

(c) A recommendation on the length of time that a residency certificate issued to a teacher is valid and within what time period a teacher must meet the minimum level of performance for and receive a professional certificate in order to continue being certified as a teacher. In developing this recommendation, the professional educator standards board shall consult with interested stakeholders including the Washington education association, the Washington association of school administrators, association of Washington school principals, and the Washington state school directors' association and shall include with its recommendation a description of each stakeholder's comments on the recommendation.

(3) The update and proposal in subsection (2)(a) and (b) of this section shall include, at a minimum, descriptions of:

(a) Estimated costs and statutory authority needed for further development and implementation of these assessments;

(b) A common and standardized rubric for determining whether a teacher meets the minimum level of performance of the assessments; and

(c) Administration and management of the assessments.

(4) To the extent that funds are appropriated for this purpose and in accordance with the timeline established in subsection (2) of this section, recognizing the capacity limitations of the education systems, the professional educator standards board shall develop the system and process as established in subsections (1), (2), and (3) of this section throughout the remainder of the 2010-11 and 2011-12 school years.

(5) Beginning no earlier than September 1, 2011, award of a professional certificate shall be based on a minimum of two years of successful teaching experience as defined by the board and on the results of the evaluation authorized under RCW 28A.410.210(14) and under this section, and may not require candidates to enroll in a professional certification program.

(6) Beginning July 1, 2011, educator preparation programs approved to offer the residency teaching certificate shall be required to demonstrate how the program produces effective teachers as evidenced by the measures established under this section and other criteria established by the professional educator standards board.

**PART V
SHARED ACCOUNTABILITY FOR SCHOOL AND
DISTRICT IMPROVEMENT**

NEW SECTION. **Sec. 501.** (1)(a) The legislature intends to develop a system in which the state and school districts share accountability for achieving state educational standards and supporting continuous school improvement. The legislature recognizes that comprehensive education finance reform and the increased investment of public resources necessary to implement that reform must be accompanied by a new mechanism for clearly defining the relationships and expectations for the state, school districts, and schools. It is the legislature's intent that this be accomplished through the development of a proactive, collaborative accountability system that focuses on a school improvement system that engages and serves the local school board, parents, students, staff in the schools and districts, and the community. The improvement system shall be based on progressive levels of support, with a goal of continuous improvement in student achievement and alignment with the federal system of accountability.

(b) The legislature further recognizes that it is the state's responsibility to provide schools and districts with the tools and resources necessary to improve student achievement. These tools include the necessary accounting and data reporting systems, assessment systems to monitor student achievement,

and a system of general support, targeted assistance, recognition, and, if necessary, state intervention.

(2) The legislature has already charged the state board of education to develop criteria to identify schools and districts that are successful, in need of assistance, and those where students persistently fail, as well as to identify a range of intervention strategies and a performance incentive system. The legislature finds that the state board of education should build on the work that the board has already begun in these areas. As development of these formulas, processes, and systems progresses, the legislature should monitor the progress.

Sec. 502. RCW 28A.305.130 and 2008 c 27 s 1 are each amended to read as follows:

The purpose of the state board of education is to provide advocacy and strategic oversight of public education; implement a standards-based accountability ~~((system))~~ framework that creates a unified system of increasing levels of support for schools in order to improve student academic achievement; provide leadership in the creation of a system that personalizes education for each student and respects diverse cultures, abilities, and learning styles; and promote achievement of the goals of RCW 28A.150.210. In addition to any other powers and duties as provided by law, the state board of education shall:

(1) Hold regularly scheduled meetings at such time and place within the state as the board shall determine and may hold such special meetings as may be deemed necessary for the transaction of public business;

(2) Form committees as necessary to effectively and efficiently conduct the work of the board;

(3) Seek advice from the public and interested parties regarding the work of the board;

(4) For purposes of statewide accountability:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics, by subject and grade level, once assessments in these subjects are required statewide; academic and technical skills, as appropriate, in secondary career and technical education programs; and student attendance, as the board deems appropriate to improve student learning. The goals shall be consistent with student privacy protection provisions of RCW 28A.655.090(7) and shall not conflict with requirements contained in Title I of the federal elementary and secondary education act of 1965, or the requirements of the Carl D. Perkins vocational education act of 1998, each as amended. The goals may be established for all students, economically disadvantaged students, limited English proficient students, students with disabilities, and students from disproportionately academically underachieving racial and ethnic backgrounds. The board may establish school and school district goals addressing high school graduation rates and dropout reduction goals for students in grades seven through twelve. The board shall adopt the goals by rule. However, before each goal is implemented, the board shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b) Identify the scores students must achieve in order to meet the standard on the Washington assessment of student learning and, for high school students, to obtain a certificate of academic achievement. The board shall also determine student scores that identify levels of student performance below and beyond the standard. The board shall consider the incorporation of the standard error of measurement into the decision regarding the award of the certificates. The board shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose. The initial performance standards and any changes recommended by the board in the performance standards for the tenth grade assessment shall be presented to the education committees of the

NINETY-FIFTH DAY, APRIL 16, 2009

house of representatives and the senate by November 30th of the school year in which the changes will take place to permit the legislature to take statutory action before the changes are implemented if such action is deemed warranted by the legislature. The legislature shall be advised of the initial performance standards and any changes made to the elementary level performance standards and the middle school level performance standards;

~~(c) ((Adopt objective, systematic criteria to identify successful schools and school districts and recommend to the superintendent of public instruction schools and districts to be recognized for two types of accomplishments, student achievement and improvements in student achievement. Recognition for improvements in student achievement shall include consideration of one or more of the following accomplishments:~~

~~(i) An increase in the percent of students meeting standards. The level of achievement required for recognition may be based on the achievement goals established by the legislature and by the board under (a) of this subsection;~~

~~(ii) Positive progress on an improvement index that measures improvement in all levels of the assessment; and~~

~~(iii) Improvements despite challenges such as high levels of mobility, poverty, English as a second language learners, and large numbers of students in special populations as measured by either the percent of students meeting the standard, or the improvement index. When determining the baseline year or years for recognizing individual schools, the board may use the assessment results from the initial years the assessments were administered, if doing so with individual schools would be appropriate;~~

~~(d) Adopt objective, systematic criteria to identify schools and school districts in need of assistance and those in which significant numbers of students persistently fail to meet state standards. In its deliberations, the board shall consider the use of all statewide mandated criterion-referenced and norm-referenced standardized tests;~~

~~(e) Identify schools and school districts in which state intervention measures will be needed and a range of appropriate intervention strategies after the legislature has authorized a set of intervention strategies. After the legislature has authorized a set of intervention strategies, at the request of the board, the superintendent shall intervene in the school or school district and take corrective actions. This chapter does not provide additional authority for the board or the superintendent of public instruction to intervene in a school or school district;~~

~~(f) Identify performance incentive systems that have improved or have the potential to improve student achievement;~~

~~(g)) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the superintendent of public instruction of any improvements needed to the system; and~~

~~((h)) (d) Include in the biennial report required under RCW 28A.305.035, information on the progress that has been made in achieving goals adopted by the board;~~

(5) Accredit, subject to such accreditation standards and procedures as may be established by the state board of education, all private schools that apply for accreditation, and approve, subject to the provisions of RCW 28A.195.010, private schools carrying out a program for any or all of the grades kindergarten through twelve: PROVIDED, That no private school may be approved that operates a kindergarten program only: PROVIDED FURTHER, That no private schools shall be placed upon the list of accredited schools so long as secret societies are knowingly allowed to exist among its students by school officials;

(6) Articulate with the institutions of higher education, workforce representatives, and early learning policymakers and

providers to coordinate and unify the work of the public school system;

(7) Hire an executive director and an administrative assistant to reside in the office of the superintendent of public instruction for administrative purposes. Any other personnel of the board shall be appointed as provided by RCW 28A.300.020. The board may delegate to the executive director by resolution such duties as deemed necessary to efficiently carry on the business of the board including, but not limited to, the authority to employ necessary personnel and the authority to enter into, amend, and terminate contracts on behalf of the board. The executive director, administrative assistant, and all but one of the other personnel of the board are exempt from civil service, together with other staff as now or hereafter designated as exempt in accordance with chapter 41.06 RCW; and

(8) Adopt a seal that shall be kept in the office of the superintendent of public instruction.

NEW SECTION. Sec. 503. A new section is added to chapter 28A.305 RCW to read as follows:

(1) The state board of education shall continue to refine the development of an accountability framework that creates a unified system of support for challenged schools, that aligns with basic education, increases the level of support based upon the magnitude of need, and uses data for decisions.

(2) The state board of education shall develop an accountability index to identify schools and districts for recognition and for additional state support. The index shall be based on criteria that are fair, consistent, and transparent. Performance shall be measured using multiple outcomes and indicators including, but not limited to, graduation rates and results from statewide assessments. The index shall be developed in such a way as to be easily understood by both employees within the schools and districts, as well as parents and community members. It is the legislature's intent that the index provide feedback to schools and districts to self-assess their progress, and enable the identification of schools with exemplary student performance and those that need assistance to overcome challenges in order to achieve exemplary student performance. Once the accountability index has identified schools that need additional help, a more thorough analysis will be done to analyze specific conditions in the district including but not limited to the level of state resources a school or school district receives in support of the basic education system, achievement gaps for different groups of students, and community support.

(3) Based on the accountability index and in consultation with the superintendent of public instruction, the state board of education shall develop a proposal and timeline for implementation of a comprehensive system of voluntary support and assistance for schools and districts. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.

(4)(a) The state board of education shall develop a proposal and implementation timeline for a more formalized comprehensive system improvement targeted to challenged schools and districts that have not demonstrated sufficient improvement through the voluntary system. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. The proposal and timeline shall be submitted to the education committees of the legislature by December 1, 2009, and shall include recommended legislation and recommended resources to implement the system according to the timeline developed.

(b) The proposal shall outline a process for addressing performance challenges that will include the following features:

(i) An academic performance audit using peer review teams of educators that considers school and community factors in

NINETY-FIFTH DAY, APRIL 16, 2009

2009 REGULAR SESSION

addition to other factors in developing recommended specific corrective actions that should be undertaken to improve student learning; (ii) a requirement for the local school board plan to develop and be responsible for implementation of corrective action plan taking into account the audit findings, which plan must be approved by the state board of education at which time the plan becomes binding upon the school district to implement; and (iii) monitoring of local district progress by the office of the superintendent of public instruction. The proposal shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.

(5) In coordination with the superintendent of public instruction, the state board of education shall seek approval from the United States department of education for use of the accountability index and the state system of support, assistance, and intervention, to replace the federal accountability system under P.L. 107-110, the no child left behind act of 2001.

(6) The state board of education shall work with the education data center established within the office of financial management and the technical working group established in section 112 of this act to determine the feasibility of using the prototypical funding allocation model as not only a tool for allocating resources to schools and districts but also as a tool for schools and districts to report to the state legislature and the state board of education on how the state resources received are being used.

**PART VI
COMPENSATION**

NEW SECTION. Sec. 601. A new section is added to chapter 43.41 RCW to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of financial management shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

- (a) How to reduce the number of tiers within the existing salary allocation model;
- (b) How to account for labor market adjustments;
- (c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;
- (d) The role of and types of bonuses available;
- (e) Ways to accomplish salary equalization over a set number of years; and
- (f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district

employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;

(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and

(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the department of personnel, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature and the quality education council created in section 114 of this act. The working group shall make an initial report to the legislature by December 1, 2012, and shall include in its report recommendations for whether additional further work of the group is necessary.

**PART VII
GENERAL PROVISIONS--PROGRAM OF BASIC
EDUCATION**

Sec. 701. RCW 28A.165.005 and 2004 c 20 s 1 are each amended to read as follows:

~~((The learning assistance program requirements in))~~ This chapter ~~((are))~~ is designed to: (1) Promote the use of assessment data when developing programs to assist underachieving students; and (2) guide school districts in providing the most effective and efficient practices when implementing ~~((programs))~~ supplemental instruction and services to assist underachieving students. ~~((Further, this chapter provides the means by which a school district becomes eligible for learning assistance program funds and the distribution of those funds.))~~

Sec. 702. RCW 28A.165.015 and 2004 c 20 s 2 are each amended to read as follows:

Unless the context clearly indicates otherwise the definitions in this section apply throughout this chapter.

(1) "Approved program" means a program submitted to and approved by the office of the superintendent of public instruction and conducted pursuant to the plan that addresses the required elements as provided for in this chapter.

(2) "Basic skills areas" means reading, writing, and mathematics as well as readiness associated with these skills.

(3) "Participating student" means a student in kindergarten through grade ~~((eleven who scores below standard for his or her grade level on the statewide assessments and who is identified in the approved plan to receive services. Beginning with the 2007-2008 school year, "participating student" means a student in kindergarten through grade))~~ twelve who scores below standard for his or her grade level on the statewide assessments and who is identified in the approved plan to receive services.

NINETY-FIFTH DAY, APRIL 16, 2009

(4) "Statewide assessments" means one or more of the several basic skills assessments administered as part of the state's student assessment system, and assessments in the basic skills areas administered by local school districts.

(5) "Underachieving students" means students with the greatest academic deficits in basic skills as identified by the statewide assessments.

Sec. 703. RCW 28A.165.055 and 2008 c 321 s 10 are each amended to read as follows:

~~((+))~~ Each school district with an approved program is eligible for state funds provided for the learning assistance program. The funds shall be appropriated for the learning assistance program in accordance with RCW 28A.150.260 and the ((biennial)) omnibus appropriations act. The distribution formula is for school district allocation purposes only, but funds appropriated for the learning assistance program must be expended for the purposes of RCW 28A.165.005 through 28A.165.065. ~~((The distribution formula shall be based on one or more family income factors measuring economic need.~~

~~(2) In addition to the funds allocated to eligible school districts on the basis of family income factors, enhanced funds shall be allocated for school districts where more than twenty percent of students are eligible for and enrolled in the transitional bilingual instruction program under chapter 28A.180 RCW as provided in this subsection. The enhanced funding provided in this subsection shall take effect beginning in the 2008-09 school year.~~

~~(a) If, in the prior school year, a district's percent of October headcount student enrollment in grades kindergarten through twelve who are enrolled in the transitional bilingual instruction program, based on an average of the program headcount taken in October and May, exceeds twenty percent, twenty percent shall be subtracted from the district's percent transitional bilingual instruction program enrollment and the resulting percent shall be multiplied by the district's kindergarten through twelve annual average full-time equivalent enrollment for the prior school year.~~

~~(b) The number calculated under (a) of this subsection shall be the number of additional funded students for purposes of this subsection, to be multiplied by the per-funded student allocation rates specified in the omnibus appropriations act.~~

~~(c) School districts are only eligible for the enhanced funds under this subsection if their percentage of October headcount enrollment in grades kindergarten through twelve eligible for free or reduced-price lunch exceeded forty percent in the prior school year.)~~

Sec. 704. RCW 28A.180.010 and 1990 c 33 s 163 are each amended to read as follows:

RCW 28A.180.010 through 28A.180.080 shall be known and cited as "the transitional bilingual instruction act." The legislature finds that there are large numbers of children who come from homes where the primary language is other than English. The legislature finds that a transitional bilingual education program can meet the needs of these children. Pursuant to the policy of this state to insure equal educational opportunity to every child in this state, it is the purpose of RCW 28A.180.010 through 28A.180.080 to provide for the implementation of transitional bilingual education programs in the public schools ~~((and to provide supplemental financial assistance to school districts to meet the extra costs of these programs))~~.

Sec. 705. RCW 28A.180.080 and 1995 c 335 s 601 are each amended to read as follows:

~~((The superintendent of public instruction shall prepare and submit biennially to the governor and the legislature a budget request for bilingual instruction programs.))~~ Moneys appropriated by the legislature for the purposes of RCW 28A.180.010 through 28A.180.080 shall be allocated by the superintendent of public instruction to school districts for the sole purpose of operating an approved bilingual instruction program ~~((priorities for funding shall exist for the early~~

~~elementary grades. No moneys shall be allocated pursuant to this section to fund more than three school years of bilingual instruction for each eligible pupil within a district. PROVIDED, That such moneys may be allocated to fund more than three school years of bilingual instruction for any pupil who fails to demonstrate improvement in English language skills adequate to remove impairment of learning when taught only in English. The superintendent of public instruction shall set standards and approve a test for the measurement of such English language skills)).~~

Sec. 706. RCW 28A.225.200 and 1990 c 33 s 234 are each amended to read as follows:

(1) A local district may be authorized by the educational service district superintendent to transport and educate its pupils in other districts for one year, either by payment of a compensation agreed upon by such school districts, or under other terms mutually satisfactory to the districts concerned when this will afford better educational facilities for the pupils and when a saving may be effected in the cost of education ~~((PROVIDED, That))~~. Notwithstanding any other provision of law, the amount to be paid by the state to the resident school district for apportionment purposes and otherwise payable pursuant to RCW ~~((28A.150.100;))~~ 28A.150.250 through 28A.150.290, 28A.150.350 through 28A.150.410, 28A.160.150 through 28A.160.200, ~~((28A.160.220))~~ 28A.300.035, and 28A.300.170 ~~((and 28A.500.010))~~ shall not be greater than the regular apportionment for each high school student of the receiving district. Such authorization may be extended for an additional year at the discretion of the educational service district superintendent.

(2) Subsection (1) of this section shall not apply to districts participating in a cooperative project established under RCW 28A.340.030 which exceeds two years in duration.

Sec. 707. RCW 28A.185.010 and 1984 c 278 s 12 are each amended to read as follows:

Pursuant to rules ~~((and regulations))~~ adopted by the superintendent of public instruction for the administration of this chapter, the superintendent of public instruction shall carry out a program for highly capable students. Such program may include conducting, coordinating and aiding in research (including pilot programs), disseminating information to local school districts, providing statewide staff development, and allocating to school districts supplementary funds for additional costs of district programs, as provided by RCW ~~((28A.185.020))~~ 28A.150.260.

Sec. 708. RCW 28A.185.020 and 1990 c 33 s 168 are each amended to read as follows:

(1) The legislature finds that, for highly capable students, access to accelerated learning and enhanced instruction is access to a basic education. There are multiple definitions of highly capable, from intellectual to academic to artistic. The research literature strongly supports using multiple criteria to identify highly capable students, and therefore, the legislature does not intend to prescribe a single method. Instead, the legislature intends to allocate funding based on two and three hundred fourteen one-thousandths percent of each school district's population and authorize school districts to identify through the use of multiple, objective criteria those students most highly capable and eligible to receive accelerated learning and enhanced instruction in the program offered by the district. Access to accelerated learning and enhanced instruction through the program for highly capable students does not constitute an individual entitlement for any particular student.

(2) Supplementary funds (as may be) provided by the state for ((this program, in accordance with RCW 28A.150.370;)) the program for highly capable students under RCW 28A.150.260 shall be categorical funding ((on an excess cost basis based upon a per student amount not to exceed three percent of any district's full-time equivalent enrollment)) to provide services to highly capable students as determined by a school district under RCW 28A.185.030.

(2) The funding formulas shall be based on minimum staff and nonstaff costs deemed necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act."

POINT OF INQUIRY

Senator Holmquist: "Would Senator McAuliffe yield to a question? Thank you Madam Chair. I was just wondering, I see that in this section where we're creating this quality education council that there are costs in regards to travel reimbursement and expenses and you can see that right in section 114, subsection 7, etc. So these are going to be additional cost to the tax payers to form this new layer of bureaucracy. So, my question to you Madam Chair; 'How much is this going to cost?' We just got this striking amendment earlier today. We haven't had time to get a fiscal note. Do you have any idea how much this is going to cost for the tax payers?"

Senator McAuliffe: "Yes. This is within existing funds. The people who are serving on this task force are currently funded within their agencies to do the work. We have legislators that are serving that will be serving with much of their own time and very little travel time. So, there is money in our final budgets to fund the work groups, to fund this bill but for this quality education council there is no funding at this point because there is no need."

Senator Holmquist: "Just reading from subsection 7, it says right there that they will be reimbursed for travel expenses in accordance with RCW. I mean this is the same plate language we have for every task force. It costs money so I don't think that is an accurate answer. I do appreciate you doing your best but this is going to cost money and it's right there in the bill. Thank you."

2009 REGULAR SESSION

((Commencing with calendar year 2000;)) In addition to a school district's other general fund allocations, each eligible district shall be provided local effort assistance funds. The purpose of these funds is to mitigate the effect that above average property tax rates might have on the ability of a school district to raise local revenues to supplement the state's basic program of education. These funds serve to equalize the property tax rates that individual taxpayers would pay for such levies and to provide tax relief to taxpayers in high tax rate school districts. Such funds are ~~((not))~~ part of the district's basic education allocation."

provided through the highly capable funding formula under RCW 28A.150.260 and 28A.185.020. Safety net funds shall be awarded by the state safety net oversight committee subject to the conditions and limitations in subsections (1) through (4) of this section.

PERSONAL PRIVILEGE

Senator Brown: "Thank you Mr. President. I'd like to point out that an incredible amount of work went into the legislation that just passed including the members of the Basic Education Task Force that served all during the interim chaired by Dan Grimm and including former Superintendent Bergeson, several members of the public including a couple of great superintendents and several members of the legislature. Roxanne Leib of the Institute for Public Policy and amazing staff work as well from both the House and the Senate, Heather and Mary, thank you so much for the incredible work you did. There was quite an amazing group of bipartisan House and Senate members that came together and met frequently outside of the

task force to hash through the details of how to make progress. This is like any piece of major legislation. There were steps forward and steps backward and tons of frustration also through the legislative process but amazing amount of work went into collaboration and pulling it back together again. In particular there were members of our caucus who, not even appointed to the task force, and yet showed up almost every single time. I think more than I did. Senator Oemig and Senator McAuliffe were not members of the task force and yet they attended religiously and faithfully and put a lot of work into this. So, Mr. President, I just wanted to acknowledge, as we all know with any piece of legislation, incredible work on part of the public and staff and members and a special word for me to some folks back home in Spokane who inspired me every step of the way and, of course that is the Spokane Library Moms, Lisa, Susan and Denett have done an amazing job and made national coverage with the work that they've done to keep librarians and important work of school libraries on the map. So thanks to everyone who participated in this effort."

person is registered under chapter 18.27 RCW and report violations to the department of labor and industries. The department of licensing shall conduct the verification for cities that participate in the master license system.

NEW SECTION. Sec. 4. A new section is added to chapter 36.01 RCW to read as follows:

A county that issues a business license to a person required to be registered under chapter 18.27 RCW may verify that the person is registered under chapter 18.27 RCW and report violations to the department of labor and industries.

Sec. 5. RCW 60.28.011 and 2007 c 494 s 504 and 2007 c 218 s 92 are each reenacted and amended to read as follows:

(1) Public improvement contracts shall provide, and public bodies shall reserve, a contract retainage not to exceed five percent of the moneys earned by the contractor as a trust fund for the protection and payment of: (a) The claims of any person arising under the contract; and (b) the state with respect to taxes imposed pursuant to Titles 50, 51, and 82 RCW which may be due from such contractor.

(2) Every person performing labor or furnishing supplies toward the completion of a public improvement contract shall have a lien upon moneys reserved by a public body under the provisions of a public improvement contract. However, the notice of the lien of the claimant shall be given within forty-five days of completion of the contract work, and in the manner provided in RCW 39.08.030.

(3) The contractor at any time may request the contract retainage be reduced to one hundred percent of the value of the work remaining on the project.

(a) After completion of all contract work other than landscaping, the contractor may request that the public body release and pay in full the amounts retained during the performance of the contract, and sixty days thereafter the public body must release and pay in full the amounts retained (other than continuing retention of five percent of the moneys earned for landscaping) subject to the provisions of chapters 39.12 and 60.28 RCW.

(b) Sixty days after completion of all contract work the public body must release and pay in full the amounts retained during the performance of the contract subject to the provisions of chapters 39.12 and 60.28 RCW.

(4) The moneys reserved by a public body under the provisions of a public improvement contract, at the option of the contractor, shall be:

(a) Retained in a fund by the public body;

(b) Deposited by the public body in an interest bearing account in a bank, mutual savings bank, or savings and loan association. Interest on moneys reserved by a public body under the provision of a public improvement contract shall be paid to the contractor;

(c) Placed in escrow with a bank or trust company by the public body. When the moneys reserved are placed in escrow, the public body shall issue a check representing the sum of the moneys reserved payable to the bank or trust company and the contractor jointly. This check shall be converted into bonds and securities chosen by the contractor and approved by the public body and the bonds and securities shall be held in escrow. Interest on the bonds and securities shall be paid to the contractor as the interest accrues.

(5) The contractor or subcontractor may withhold payment of not more than five percent from the moneys earned by any subcontractor or sub-subcontractor or supplier contracted with by the contractor to provide labor, materials, or equipment to the public project. Whenever the contractor or subcontractor reserves funds earned by a subcontractor or sub-subcontractor or

supplier, the contractor or subcontractor shall pay interest to the subcontractor or sub-subcontractor or supplier at a rate equal to that received by the contractor or subcontractor from reserved funds.

(6) A contractor may submit a bond for all or any portion of the contract retainage in a form acceptable to the public body and from a bonding company meeting standards established by the public body. The public body shall accept a bond meeting these requirements unless the public body can demonstrate good cause for refusing to accept it. This bond and any proceeds therefrom are subject to all claims and liens and in the same manner and priority as set forth for retained percentages in this chapter. The public body shall release the bonded portion of the retained funds to the contractor within thirty days of accepting the bond from the contractor. Whenever a public body accepts a bond in lieu of retained funds from a contractor, the contractor shall accept like bonds from any subcontractors or suppliers from which the contractor has retained funds. The contractor shall then release the funds retained from the subcontractor or supplier to the subcontractor or supplier within thirty days of accepting the bond from the subcontractor or supplier.

(7) If the public body administering a contract, after a substantial portion of the work has been completed, finds that an unreasonable delay will occur in the completion of the remaining portion of the contract for any reason not the result of a breach thereof, it may, if the contractor agrees, delete from the contract the remaining work and accept as final the improvement at the stage of completion then attained and make payment in proportion to the amount of the work accomplished and in this case any amounts retained and accumulated under this section shall be held for a period of sixty days following the completion. In the event that the work is terminated before final completion as provided in this section, the public body may thereafter enter into a new contract with the same contractor to perform the remaining work or improvement for an amount equal to or less than the cost of the remaining work as was provided for in the original contract without advertisement or bid. The provisions of this chapter are exclusive and shall supersede all provisions and regulations in conflict herewith.

(8) Whenever the department of transportation has contracted for the construction of two or more ferry vessels, sixty days after completion of all contract work on each ferry vessel, the department must release and pay in full the amounts retained in connection with the construction of the vessel subject to the provisions of RCW 60.28.020 and chapter 39.12 RCW. However, the department of transportation may at its discretion condition the release of funds retained in connection with the completed ferry upon the contractor delivering a good and sufficient bond with two or more sureties, or with a surety company, in the amount of the retained funds to be released to the contractor, conditioned that no taxes shall be certified or claims filed for work on the ferry after a period of sixty days following completion of the ferry; and if taxes are certified or claims filed, recovery may be had on the bond by the department of revenue, the employment security department, the department of labor and industries, and the material suppliers and laborers filing claims.

(9) Except as provided in subsection (1) of this section, reservation by a public body for any purpose from the moneys earned by a contractor by fulfilling its responsibilities under public improvement contracts is prohibited.

(10) Contracts on projects funded in whole or in part by farmers home administration and subject to farmers home administration regulations are not subject to subsections (1) through (9) of this section.

(11) This subsection applies only to a public body that has contracted for the construction of a facility using the general contractor/construction manager procedure, as defined under RCW 39.10.210. If the work performed by a subcontractor on the project has been completed within the first half of the time provided in the general contractor/construction manager contract for completing the work, the public body may accept the completion of the subcontract. The public body must give public notice of this acceptance. After a forty-five day period for giving notice of liens, and compliance with the retainage release procedures in RCW 60.28.021, the public body may release that portion of the retained funds associated with the subcontract. Claims against the retained funds after the forty-five day period are not valid.

(12) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Contract retainage" means an amount reserved by a public body from the moneys earned by a person under a public improvement contract.

(b) "Person" means a person or persons, mechanic, subcontractor, or material person who performs labor or provides materials for a public improvement contract, and any other person who supplies the person with provisions or supplies for the carrying on of a public improvement contract.

(c) "Public body" means the state, or a county, city, town, district, board, or other public body.

(d) "Public improvement contract" means a contract for public improvements or work, other than for professional services, or a work order as defined in RCW 39.10.210.

Sec. 6. RCW 60.28.021 and 2007 c 218 s 94 are each amended to read as follows:

After the expiration of the forty-five day period for giving notice of lien provided in RCW 60.28.011(2), and after receipt of the ~~((department of revenue's))~~ certificates of the department of revenue, the employment security department, and the department of labor and industries, and the public body is satisfied that the taxes certified as due or to become due by the department of revenue, the employment security department, and the department of labor and industries are discharged, and the claims of material suppliers and laborers who have filed their claims, together with a sum sufficient to defray the cost of foreclosing the liens of such claims, and to pay attorneys' fees, have been paid, the public body may withhold from the remaining retained amounts for claims the public body may have against the contractor and shall pay the balance, if any, to the contractor the fund retained by it or release to the contractor the securities and bonds held in escrow.

If such taxes have not been discharged or the claims, expenses, and fees have not been paid, the public body shall either retain in its fund, or in an interest bearing account, or retain in escrow, at the option of the contractor, an amount equal to such unpaid taxes and unpaid claims together with a sum sufficient to defray the costs and attorney fees incurred in foreclosing the lien of such claims, and shall pay, or release from escrow, the remainder to the contractor.

Sec. 7. RCW 60.28.040 and 1985 c 80 s 1 are each amended to read as follows:

(2) Subject to subsection (5) of this section, after payment of all taxes, increases, and penalties due or to become due under Title 82 RCW, from a contractor or the contractor's successors or assignees with respect to a public improvement contract wherein the contract price is twenty thousand dollars or more, the amount of all other taxes, increases, and penalties under Title 82 RCW, due and owing from the contractor, shall be a lien prior to all other liens upon the amount of the retained percentage withheld by the disbursing officer under such contract.

(3) Subject to subsection (5) of this section, after payment of all taxes, increases, and penalties due or to become due under Title 82 RCW, the amount of all taxes, increases, and penalties due or to become due under Titles 50 and 51 RCW from the contractor or the contractor's successors or assignees with respect to a public improvement contract wherein the contract price is twenty thousand dollars or more shall be a lien prior to all other liens upon the amount of the retained percentage withheld by the disbursing officer under such contract.

(4) Subject to subsection (5) of this section, the amount of all other taxes, increases, and penalties due and owing from the contractor shall be a lien upon the balance of such retained percentage remaining in the possession of the disbursing officer after all other statutory lien claims have been paid.

(5) The employees of a contractor or the contractor's successors or assignees who have not been paid the prevailing wage under such a public improvement contract shall have a first priority lien against the bond or retainage prior to all other liens. ~~((The amount of all other taxes, increases and penalties due and owing from the contractor shall be a lien upon the balance of such retained percentage remaining in the possession of the disbursing officer after all other statutory lien claims have been paid.))~~

Sec. 8. RCW 60.28.051 and 2007 c 210 s 2 are each amended to read as follows:

Upon completion of a contract, the state, county, or other municipal officer charged with the duty of disbursing or authorizing disbursement or payment of such contracts shall forthwith notify the department of revenue, the employment security department, and the department of labor and industries of the completion of contracts over thirty-five thousand dollars. Such officer shall not make any payment from the retained percentage fund or release any retained percentage escrow account to any person, until he or she has received from the department of revenue ~~((a)),~~ the employment security department, and the department of labor and industries certificates that all taxes, increases, and penalties due from the contractor, and all taxes due and to become due with respect to such contract have been paid in full or that they are, in ~~((the))~~ each department's opinion, readily collectible without recourse to the state's lien on the retained percentage.

Sec. 9. RCW 60.28.060 and 1967 ex.s. c 26 s 25 are each amended to read as follows:

If within thirty days after receipt of notice by the department of revenue, the employment security department, and the department of labor and industries of the completion of the contract, the amount of all taxes, increases and penalties due from the contractor or any of his successors or assignees or to become due with respect to such contract have not been paid, the department of revenue, the employment security department, and the department of labor and industries may certify to the disbursing officer the amount of all taxes, increases and penalties due from the contractor, together with the amount of all taxes due and to become due with respect to the contract and may request payment thereof ~~((to the department of revenue))~~ in

If the contractor owes no taxes imposed pursuant to Titles 50, 51, and 82 RCW, the department of revenue, the employment security department, and the department of labor and industries shall so certify to the disbursing officer.

NEW SECTION. Sec. 10. A new section is added to chapter 51.04 RCW to read as follows:

The department shall conduct education and outreach to employers on workers' compensation requirements and premium responsibilities, including independent contractor issues. The department shall work with new employers on an individual basis and also establish mass education campaigns.

Sec. 11. RCW 50.12.070 and 2008 c 120 s 7 are each amended to read as follows:

(1)(a) Each employing unit shall keep true and accurate work records, containing such information as the commissioner may prescribe. Such records shall be open to inspection and be subject to being copied by the commissioner or his or her authorized representatives at any reasonable time and as often as may be necessary. The commissioner may require from any employing unit any sworn or unsworn reports with respect to persons employed by it, which he or she deems necessary for the effective administration of this title.

(b) An employer who contracts with another person or entity for work subject to chapter 18.27 or 19.28 RCW shall obtain and preserve a record of the unified business identifier account number for and compensation paid to the person or entity performing the work. In addition to the penalty in subsection (3) of this section, failure to obtain or maintain the record is subject to RCW 39.06.010 ((and to a penalty determined by the commissioner, but not to exceed two hundred fifty dollars, to be collected as provided in RCW 50.24.120)).

(2)(a) Each employer shall register with the department and obtain an employment security account number. Registration must include the names and social security numbers of the owners, partners, members, or corporate officers of the business, as well as their mailing addresses and telephone numbers and other information the commissioner may by rule prescribe. such other information as the commissioner may by regulation prescribe.

(c) If the employing unit fails or has failed to report the number of hours in a reporting period for which a worker worked, such number will be computed by the commissioner and given the same force and effect as if it had been reported by the employing unit. In computing the number of such hours worked, the total wages for the reporting period, as reported by the employing unit, shall be divided by the dollar amount of the state's minimum wage in effect for such reporting period and the quotient, disregarding any remainder, shall be credited to the worker: PROVIDED, That although the computation so made will not be subject to appeal by the employing unit, monetary entitlement may be redetermined upon request if the department is provided with credible evidence of the actual hours worked. Benefits paid using computed hours are not considered an overpayment and are not subject to collections when the correction of computed hours results in an invalid or reduced claim; however:

(i) A contribution paying employer who fails to report the number of hours worked will have its experience rating account charged for all benefits paid that are based on hours computed under this subsection; and

(ii) An employer who reimburses the trust fund for benefits paid to workers and fails to report the number of hours worked shall reimburse the trust fund for all benefits paid that are based on hours computed under this subsection.

(3) Any employer who fails to keep and preserve records required by this section shall be subject to a penalty determined by the commissioner but not to exceed two hundred fifty dollars or two hundred percent of the quarterly tax for each offense, whichever is greater.

Addressing claims for damages against the state and local governmental entities.

MOTION

Senator Fairley moved that the following committee striking amendment by the Committee on Government Operations & Elections be not adopted.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 4.96.020 and 2006 c 82 s 3 are each amended to read as follows:

(1) The provisions of this section apply to claims for damages against all local governmental entities and their officers, employees, or volunteers, acting in such capacity, except that claims involving injuries from health care are governed solely by the procedures set forth in chapter 7.70 RCW and are exempt from this section.

(2) The governing body of each local governmental entity shall appoint an agent to receive any claim for damages made under this chapter. The identity of the agent and the address where he or she may be reached during the normal business hours of the local governmental entity are public records and shall be recorded with the auditor of the county in which the entity is located. All claims for damages against a local governmental entity, or against any local governmental entity's officers, employees, or volunteers, acting in such capacity, shall be presented to the agent within the applicable period of limitations within which an action must be commenced. Presentation is accomplished by delivery to the agent or other person designated to accept delivery at the agent's office, by registered mail, or by certified mail, return receipt requested. The failure of a local governmental entity to comply with the requirements of this section precludes that local governmental entity from raising a defense under this chapter.

(3) ~~(All claims for damages arising out of tortious conduct must locate and describe the conduct and circumstances which~~

~~brought about the injury or damage, describe the injury or damage, state the time and place the injury or damage occurred, state the names of all persons involved, if known, and shall contain the amount of damages claimed, together with a statement of the actual residence of the claimant at the time of presenting and filing the claim and for a period of six months immediately prior to the time the claim arose. If the claimant is incapacitated from verifying, presenting, and filing the claim in the time prescribed or if the claimant is a minor, or is a nonresident of the state absent therefrom during the time within which the claim is required to be filed, the claim may be verified, presented, and filed on behalf of the claimant by any relative, attorney, or agent representing the claimant.) All claims for damages must be presented on the standard tort claim form, maintained by the risk management division of the office of financial management and on its web site, and be adopted by the local government, and must: Describe the conduct and the circumstances that brought about the injury or damage; describe the injury or damage; state the time and place that the injury or damage occurred; state the names of all persons involved, if known; and contain the amount of damages claimed, together with a statement of the actual residence of the claimant at the time of presenting the claim and at the time the claim arose. The claim form must not list the claimant's social security number and must not require information not specified under this section. The claim must be signed: (a) By the party making the claim; (b) by the claimant's parent, guardian, or personal representative; (c) by a person with a written power of attorney; or (d) by an attorney admitted to practice in Washington state on the claimant's behalf. Local governmental entities must make available the standard tort claim form with instructions on how the form is to be presented, as well as the name, address, and business hours of the agent of the local governmental entity. If the claim form provided by the local governmental entity fails to seek the information specified in this section or incorrectly lists the agent with whom the claim is to be filed, the local governmental entity is deemed to have waived any defense related to the failure to provide that specific information or to file with the proper designated agent. The amount of damages stated on the claim form is not admissible at trial.~~

(4) No action shall be commenced against any local governmental entity, or against any local governmental entity's officers, employees, or volunteers, acting in such capacity, for damages arising out of tortious conduct until sixty calendar days have elapsed after the claim has first been presented to ~~((and filed with))~~ the governing body thereof. The applicable period of limitations within which an action must be commenced shall be tolled during the sixty(+) calendar day period. An action commenced within five business days after the sixty calendar day period has elapsed will be deemed timely.

(5) With respect to the content of claims under this section and all procedural requirements in this section, this section must be liberally construed so that substantial compliance will be deemed satisfactory.

Sec. 2. RCW 4.92.100 and 2006 c 82 s 1 are each amended to read as follows:

(1) All claims against the state, or against the state's officers, employees, or volunteers, acting in such capacity, for damages arising out of tortious conduct, except for claims involving injuries from health care, which are governed solely by the procedures set forth in chapter 7.70 RCW and are exempt from this section, shall be presented to ~~((and filed with))~~ the risk management division. ~~((All such claims shall be verified and shall accurately describe the conduct and circumstances which brought about the injury or damage, describe the injury or~~

damage, state the time and place the injury or damage occurred; state the names of all persons involved, if known, and shall contain the amount of damages claimed, together with a statement of the actual residence of the claimant at the time of presenting and filing the claim and for a period of six months immediately prior to the time the claim arose. If the claimant is incapacitated from verifying, presenting, and filing the claim or if the claimant is a minor, or is a nonresident of the state, the claim may be verified, presented, and filed on behalf of the claimant by any relative, attorney, or agent representing the claimant.) Presentation is accomplished by delivery to the risk management division, by registered mail, or by certified mail, return receipt requested. All claims for damages must be presented on the standard tort claim form, maintained by the risk management division and on its web site, and must: Describe the conduct and the circumstances that brought about the injury or damage; describe the injury or damage; state the date, time, and place that the injury or damage occurred; state the names of all persons involved, if known; and contain the amount of damages claimed, together with a statement of the actual residence of the claimant at the time of presenting the claim and at the time the claim arose. The claim form must not list the claimant's social security number and must not require information not specified under this section. The claim must be signed: (a) By the party making the claim; (b) by the claimant's parent, guardian, or personal representative; (c) by a person with a written power of attorney; or (d) by an attorney admitted to practice in Washington state on the claimant's behalf. The amount of damages stated on the claim form is not admissible at trial.

(2) The state shall make available the standard tort claim form with instructions on how the form is to be presented, as well as the name, address, and business hours of the risk management division.

MOTION

Senator Fairley moved that the following striking amendment by Senator Fairley be adopted:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 4.96.020 and 2006 c 82 s 3 are each amended to read as follows:

(1) The provisions of this section apply to claims for damages against all local governmental entities and their officers, employees, or volunteers, acting in such capacity, except that claims involving injuries from health care are governed solely by the procedures set forth in chapter 7.70 RCW and are exempt from this chapter.

(2) The governing body of each local governmental entity shall appoint an agent to receive any claim for damages made under this chapter. The identity of the agent and the address where he or she may be reached during the normal business hours of the local governmental entity are public records and shall be recorded with the auditor of the county in which the entity is located. All claims for damages against a local governmental entity, or against any local governmental entity's officers, employees, or volunteers, acting in such capacity, shall be presented to the agent within the applicable period of limitations within which an action must be commenced. A claim is deemed presented when the claim form is delivered in person or is received by the agent by regular mail, registered mail, or certified mail, with return receipt requested, to the agent or other person designated to accept delivery at the agent's office. The failure of a local governmental entity to comply with the requirements of this section precludes that local governmental entity from raising a defense under this chapter.

(3) ((All claims for damages arising out of tortious conduct must locate and describe the conduct and circumstances which brought about the injury or damage, describe the injury or damage, state the time and place the injury or damage occurred; state the names of all persons involved, if known, and shall contain the amount of damages claimed, together with a statement of the actual residence of the claimant at the time of presenting and filing the claim and for a period of six months immediately prior to the time the claim arose. If the claimant is incapacitated from verifying, presenting, and filing the claim in the time prescribed or if the claimant is a minor, or is a nonresident of the state absent therefrom during the time within which the claim is required to be filed, the claim may be verified, presented, and filed on behalf of the claimant by any relative, attorney, or agent representing the claimant.)) For claims for damages presented after the effective date of this section, all claims for damages must be presented on the standard tort claim form that is maintained by the risk management division of the office of financial management, except as allowed under (c) of this subsection. The standard tort claim form must be posted on the office of financial management's web site.

(a) The standard tort claim form must, at a minimum, require the following information:

(i) The claimant's name, date of birth, and contact information;

(ii) A description of the conduct and the circumstances that brought about the injury or damage;

(iii) A description of the injury or damage;

(iv) A statement of the time and place that the injury or damage occurred;

(v) A listing of the names of all persons involved and contact information, if known;

(vi) A statement of the amount of damages claimed; and

(vii) A statement of the actual residence of the claimant at the time of presenting the claim and at the time the claim arose.

(b) The standard tort claim form must be signed either:

(i) By the claimant, verifying the claim;

(ii) Pursuant to a written power of attorney, by the attorney in fact for the claimant;

(iii) By an attorney admitted to practice in Washington state on the claimant's behalf; or

NINETY-FIFTH DAY, APRIL 16, 2009

2009 REGULAR SESSION

(iv) By a court-approved guardian or guardian ad litem on behalf of the claimant.

(c) Local governmental entities shall make available the standard tort claim form described in this section with instructions on how the form is to be presented and the name, address, and business hours of the agent of the local governmental entity. If a local governmental entity chooses to also make available its own tort claim form in lieu of the standard tort claim form, the form:

(i) May require additional information beyond what is specified under this section, but the local governmental entity may not deny a claim because of the claimant's failure to provide that additional information;

(ii) Must not require the claimant's social security number; and

(iii) Must include instructions on how the form is to be presented and the name, address, and business hours of the agent of the local governmental entity appointed to receive the claim.

(d) If any claim form provided by the local governmental entity fails to require the information specified in this section, or incorrectly lists the agent with whom the claim is to be filed, the local governmental entity is deemed to have waived any defense related to the failure to provide that specific information or to present the claim to the proper designated agent.

(e) Presenting either the standard tort claim form or the local government tort claim form satisfies the requirements of this chapter.

(f) The amount of damages stated on the claim form is not admissible at trial.

(4) No action subject to the claim filing requirements of RCW 4.92.100 shall be commenced against any local governmental entity, or against any local governmental entity's officers, employees, or volunteers, acting in such capacity, for damages arising out of tortious conduct until sixty calendar days have elapsed after the claim has first been presented to ~~((and filed with))~~ the agent of the governing body thereof. The applicable period of limitations within which an action must be commenced shall be tolled during the sixty(=) calendar day period. For the purposes of the applicable period of limitations, an action commenced within five court days after the sixty calendar day period has elapsed is deemed to have been presented on the first day after the sixty calendar day period elapsed.

(5) With respect to the content of claims under this section and all procedural requirements in this section, this section must be liberally construed so that substantial compliance will be deemed satisfactory.

Sec. 2. RCW 4.92.100 and 2006 c 82 s 1 are each amended to read as follows:

(1) All claims against the state, or against the state's officers, employees, or volunteers, acting in such capacity, for damages arising out of tortious conduct, except for claims involving injuries from health care, shall be presented to ~~((and filed with))~~ the risk management division. ~~((All such claims shall be verified and shall accurately describe the conduct and circumstances which brought about the injury or damage, describe the injury or damage, state the time and place the injury or damage occurred, state the names of all persons involved, if known, and shall contain the amount of damages claimed, together with a statement of the actual residence of the claimant at the time of presenting and filing the claim and for a period of six months immediately prior to the time the claim arose. A claim is deemed presented when the claim form is delivered in person or by

For claims for damages presented after the effective date of this section, all claims for damages must be presented on the standard tort claim form that is maintained by the risk management division. (iii) A description of the injury or damage;

(iii) By an attorney admitted to practice in Washington state on the claimant's behalf; or

(iv) By a court-approved guardian or guardian ad litem on behalf of the claimant.

(3) With respect to the content of ~~((such))~~ claims under this section and all procedural requirements in this section, this section ~~((shall))~~ must be liberally construed so that substantial compliance will be deemed satisfactory.

Sec. 3. RCW 4.92.110 and 2006 c 82 s 2 are each amended to read as follows:

Regarding public works involving off-site prefabrication.

NINETY-FIFTH DAY, APRIL 16, 2009

2009 REGULAR SESSION

The measure was read the second time.

MOTION

Senator Kohl-Welles moved that the following committee striking amendment by the Committee on Labor, Commerce & Consumer Protection be adopted.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1 A new section is added to chapter 39.12 RCW to read as follows:

(1)(a) On public works projects estimated to cost over one million dollars, all contracts for the production of off-site, prefabricated, nonstandard, project-specific items entered into by the contractor or any subcontractor with any contractor or employer who is located out of state and is not required to register under chapter 18.27 RCW must contain a provision requiring the out-of-state contractor or employer to submit a certified list of any off-site, prefabricated, nonstandard, project-specific items produced under the terms of each respective contract outside Washington. The list must be submitted to the awarding agency and to the department of labor and industries within ten days of delivery under the respective contract. The list must provide:

(i) A general description of the item;

(ii) The name and address of the in-state contractor, subcontractor, or employer;

(iii) The name, address, and federal employer identification number of the out-of-state contractor, subcontractor, or employer that produced the item.

(b) If the awarding agency is aware of incidences of noncompliance with the requirement to submit a list under (a) of this subsection, the awarding agency must report such incidences to the department of labor and industries. The failure to file a certified list required under (a) of this subsection constitutes the failure to file a record required to be filed under this chapter and subjects the out-of-state contractor or employer to the penalties in RCW 39.12.050. However, no penalty may be imposed for a first violation if the contractor or employer files the certified list within a reasonable time as determined by the department of labor and industries.

(c) The in-state contractor or subcontractor that contracted for the off-site, prefabricated, nonstandard, project-specific item produced outside Washington must notify the awarding agency when reasonably possible upon receipt of the item.

(2)(a) On public works projects estimated to cost over one million dollars, all contracts for the production of off-site, prefabricated, nonstandard, project-specific items entered into by the contractor or any subcontractor with any contractor or employer who is located out of state and is not required to register under chapter 18.27 RCW must contain a provision requiring the out-of-state contractor or employer to produce certified copies of payroll records as provided in subsection (3) of this section. The contract must also state that the contractor or employer producing the item consents to the jurisdiction of Washington for the enforcement of subsection (3) of this section.

(b) If the director of the department of labor and industries determines after a hearing under chapter 34.05 RCW that an in-state contractor or subcontractor has failed to comply with this subsection, the contractor or subcontractor is subject to a civil penalty of one thousand dollars for each second or subsequent failure to comply. Civil penalties shall be deposited into the public works administration account. The civil penalty does not

apply to a violation determined by the director to be an inadvertent error.

(3) Within ten days of receipt of a request by an interested party, contractors and employers producing the items identified in subsection (2)(a) of this section outside Washington must file with the awarding agency and the department of labor and industries certified copies of payroll records. The payroll records must contain the number of labor hours expended producing the items and the hourly rate of wages paid to the workers in each trade or occupation used in producing the items. If the awarding agency is aware of incidences of noncompliance with the requirement to submit payroll records under this subsection, the awarding agency must report such incidences to the department of labor and industries. The failure to produce the certified copies constitutes the failure to file a record required to be filed under this chapter and subjects the contractor or employer to the penalties in RCW 39.12.050.

(4) This section does not apply to entities responsible for supplying the materials to the manufacturers, fabricators, or employers that will be used to complete, construct, or assemble the items prior to their delivery to the public works site.

(5)(a) The required lists, payroll records, and certifications under this section must be submitted on forms made available by the department of labor and industries.

(b) The department of general administration shall develop standard contract language to meet the requirements of subsections (1)(a) and (2)(a) of this section and make the language available on its web site.

(6) For purposes of this section, "off-site, prefabricated, nonstandard, project-specific items" means products or items that are: (a) Made primarily of architectural or structural precast concrete, fabricated steel, pipe and pipe systems, or sheet metal and sheet metal duct work; (b) produced specifically for the public work and not considered to be regularly available shelf items; (c) produced or manufactured by labor expended to assemble or modify standard items; and (d) produced at an off-site location.

(7) Upon request, the department of labor and industries must submit any data collected under this act to the appropriate committees of the legislature for review.

(8) This section applies to contracts entered into on or after September 1, 2009, and expires December 31, 2011.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 13.34.065 and 2008 c 267 s 2 are each amended to read as follows:

(1)(a) When a child is taken into custody, the court shall hold a shelter care hearing within seventy-two hours, excluding Saturdays, Sundays, and holidays. The primary purpose of the shelter care hearing is to determine whether the child can be immediately and safely returned home while the adjudication of the dependency is pending.

(b) Any parent, guardian, or legal custodian who for good cause is unable to attend the shelter care hearing may request that a subsequent shelter care hearing be scheduled. The request shall be made to the clerk of the court where the petition is filed prior to the initial shelter care hearing. Upon the request of the parent, the court shall schedule the hearing within seventy-two hours of the request, excluding Saturdays, Sundays, and holidays. The clerk shall notify all other parties of the hearing by any reasonable means.

(2)(a) The department of social and health services shall submit a recommendation to the court as to the further need for shelter care in all cases in which it is the petitioner. In all other cases, the recommendation shall be submitted by the juvenile court probation counselor.

(b) All parties have the right to present testimony to the court regarding the need or lack of need for shelter care.

(c) Hearsay evidence before the court regarding the need or lack of need for shelter care must be supported by sworn testimony, affidavit, or declaration of the person offering such evidence.

(3)(a) At the commencement of the hearing, the court shall notify the parent, guardian, or custodian of the following:

(i) The parent, guardian, or custodian has the right to a shelter care hearing;

(ii) The nature of the shelter care hearing, the rights of the parents, and the proceedings that will follow; and

(iii) If the parent, guardian, or custodian is not represented by counsel, the right to be represented. If the parent, guardian, or custodian is indigent, the court shall appoint counsel as provided in RCW 13.34.090; and

(b) If a parent, guardian, or legal custodian desires to waive the shelter care hearing, the court shall determine, on the record and with the parties present, whether such waiver is knowing and voluntary. A parent may not waive his or her right to the shelter care hearing unless he or she appears in court and the court determines that the waiver is knowing and voluntary. Regardless of whether the court accepts the parental waiver of the shelter care hearing, the court must provide notice to the parents of their rights required under (a) of this subsection and make the finding required under subsection (4) of this section.

(4) At the shelter care hearing the court shall examine the need for shelter care and inquire into the status of the case. The paramount consideration for the court shall be the health, welfare, and safety of the child. At a minimum, the court shall inquire into the following:

(a) Whether the notice required under RCW 13.34.062 was given to all known parents, guardians, or legal custodians of the

child. The court shall make an express finding as to whether the notice required under RCW 13.34.062 was given to the parent, guardian, or legal custodian. If actual notice was not given to the parent, guardian, or legal custodian and the whereabouts of such person is known or can be ascertained, the court shall order the supervising agency or the department of social and health services to make reasonable efforts to advise the parent, guardian, or legal custodian of the status of the case, including the date and time of any subsequent hearings, and their rights under RCW 13.34.090;

(b) Whether the child can be safely returned home while the adjudication of the dependency is pending;

(c) What efforts have been made to place the child with a relative. The court shall ask the parents whether the department discussed with them the placement of the child with a relative and shall determine whether the department has made efforts in this regard;

(d) What services were provided to the family to prevent or eliminate the need for removal of the child from the child's home;

(e) Is the placement proposed by the agency the least disruptive and most family-like setting that meets the needs of the child;

(f) Whether it is in the best interest of the child to remain enrolled in the school, developmental program, or child care the child was in prior to placement and what efforts have been made to maintain the child in the school, program, or child care if it would be in the best interest of the child to remain in the same school, program, or child care;

(g) Appointment of a guardian ad litem or attorney;

(h) Whether the child is or may be an Indian child as defined in 25 U.S.C. Sec. 1903, whether the provisions of the Indian child welfare act apply, and whether there is compliance with the Indian child welfare act, including notice to the child's tribe;

(i) Whether, as provided in RCW 26.44.063, restraining orders, or orders expelling an allegedly abusive household member from the home of a nonabusive parent, guardian, or legal custodian, will allow the child to safely remain in the home;

(j) Whether any orders for examinations, evaluations, or immediate services are needed. The court may not order a parent to undergo examinations, evaluation, or services at the shelter care hearing unless the parent agrees to the examination, evaluation, or service;

(k) The terms and conditions for parental, sibling, and family visitation.

(5)(a) The court shall release a child alleged to be dependent to the care, custody, and control of the child's parent, guardian, or legal custodian unless the court finds there is reasonable cause to believe that:

(i) After consideration of the specific services that have been provided, reasonable efforts have been made to prevent or eliminate the need for removal of the child from the child's home and to make it possible for the child to return home; and

(ii)(A) The child has no parent, guardian, or legal custodian to provide supervision and care for such child; or

(B) The release of such child would present a serious threat of substantial harm to such child, notwithstanding an order entered pursuant to RCW 26.44.063; or

(C) The parent, guardian, or custodian to whom the child could be released has been charged with violating RCW 9A.40.060 or 9A.40.070.

(b) If the court does not release the child to his or her parent, guardian, or legal custodian, the court shall order placement with a relative, unless there is reasonable cause to believe the

health, safety, or welfare of the child would be jeopardized or that the efforts to reunite the parent and child will be hindered. The relative must be willing and available to:

(i) Care for the child and be able to meet any special needs of the child;

(ii) Facilitate the child's visitation with siblings, if such visitation is part of the supervising agency's plan or is ordered by the court; and

(iii) Cooperate with the department in providing necessary background checks and home studies.

(c) If the child was not initially placed with a relative, and the court does not release the child to his or her parent, guardian, or legal custodian, the supervising agency shall make reasonable efforts to locate a relative pursuant to RCW 13.34.060(1).

(d) If a relative is not available, the court shall order continued shelter care or order placement with another suitable person, and the court shall set forth its reasons for the order, including why placement with a relative is not appropriate at this time. If the court orders placement of the child with a person not related to the child and not licensed to provide foster care, the placement is subject to all terms and conditions of this section that apply to relative placements.

(e) Any placement with a relative, or other person approved by the court pursuant to this section, shall be contingent upon cooperation with the agency case plan and compliance with court orders related to the care and supervision of the child including, but not limited to, court orders regarding parent-child contacts, sibling contacts, and any other conditions imposed by the court. Noncompliance with the case plan or court order is grounds for removal of the child from the home of the relative or other person, subject to review by the court.

(f) Uncertainty by a parent, guardian, legal custodian, relative, or other suitable person that the alleged abuser has in fact abused the child shall not, alone, be the basis upon which a child is removed from the care of a parent, guardian, or legal custodian under (a) of this subsection, nor shall it be a basis, alone, to preclude placement with a relative under (b) of this subsection or with another suitable person under (d) of this subsection.

(6)(a) A shelter care order issued pursuant to this section shall include the requirement for a case conference as provided in RCW 13.34.067. However, if the parent is not present at the shelter care hearing, or does not agree to the case conference, the court shall not include the requirement for the case conference in the shelter care order.

(b) If the court orders a case conference, the shelter care order shall include notice to all parties and establish the date, time, and location of the case conference which shall be no later than thirty days before the fact-finding hearing.

(c) The court may order another conference, case staffing, or hearing as an alternative to the case conference required under RCW 13.34.067 so long as the conference, case staffing, or hearing ordered by the court meets all requirements under RCW 13.34.067, including the requirement of a written agreement specifying the services to be provided to the parent.

(7)(a) A shelter care order issued pursuant to this section may be amended at any time with notice and hearing thereon. The shelter care decision of placement shall be modified only upon a showing of change in circumstances. No child may be placed in shelter care for longer than thirty days without an order, signed by the judge, authorizing continued shelter care.

(b)(i) An order releasing the child on any conditions specified in this section may at any time be amended, with notice and hearing thereon, so as to return the child to shelter

care for failure of the parties to conform to the conditions originally imposed.

(ii) The court shall consider whether nonconformance with any conditions resulted from circumstances beyond the control of the parent, guardian, or legal custodian and give weight to that fact before ordering return of the child to shelter care.

(8)(a) If a child is returned home from shelter care a second time in the case, or if the supervisor of the caseworker deems it necessary, the multidisciplinary team may be reconvened.

(b) If a child is returned home from shelter care a second time in the case a law enforcement officer must be present and file a report to the department.

Sec. 2. RCW 13.34.130 and 2007 c 413 s 6 and 2007 c 412 s 2 are each reenacted and amended to read as follows:

If, after a fact-finding hearing pursuant to RCW 13.34.110, it has been proven by a preponderance of the evidence that the child is dependent within the meaning of RCW 13.34.030 after consideration of the social study prepared pursuant to RCW 13.34.110 and after a disposition hearing has been held pursuant to RCW 13.34.110, the court shall enter an order of disposition pursuant to this section.

(1) The court shall order one of the following dispositions of the case:

(a) Order a disposition other than removal of the child from his or her home, which shall provide a program designed to alleviate the immediate danger to the child, to mitigate or cure any damage the child has already suffered, and to aid the parents so that the child will not be endangered in the future. In determining the disposition, the court should choose those services, including housing assistance, that least interfere with family autonomy and are adequate to protect the child.
