Companion Bill: 5828

Limiting disclosure of information about the religious affiliation of individuals.

(DIGEST AS ENACTED)

Prohibits employers, state or local government agencies or public employees, and state and local law enforcement agencies from providing, collecting, disclosing, and/or requiring an employee to disclose his or her sincerely held religious belief, practice, or affiliation of an individual.

Exempts the following from disclosure under the public records act: Records that relate to or contain personally identifying information about an individual's religious beliefs, practices, or affiliation.

VETO MESSAGE ON EHB 2097

March 28, 2018

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 6, Engrossed House Bill No. 2097 entitled:

"AN ACT Relating to limiting disclosure of information about the religious affiliation of individuals."

Engrossed House Bill 2097 prohibits employers, state or local governments from providing, collecting, and/or disclosing an individual's religious belief, practice or affiliation. In a time

when divisive rhetoric is used and our liberties are threatened from a national level, I stand with you and will not allow for the government or employers to begin collecting religious information on our residents. We have seen governments collect individuals' religious information before and we know what happens next, but it will certainly not happen on our watch.

Our country was founded by people who came to this country in search of religious freedom, a fundamental value of our democracy. The establishment and free exercise clauses of the First Amendment prevents the government from promoting religion in any way, provides you with the right to worship (or not) as you wish, and prohibits the government from penalizing you for your religious beliefs. The separation of church and state is one of the very reasons why individuals have sought refuge by immigrating to this country.

The intent section of the bill eloquently outlines these values and I believe its codification is necessary so that the horrors of the past will not be repeated. I am, therefore, vetoing Section 6 of the bill, which will enable the Code Reviser to codify the intent language in Section 1. A veto of Section 6 does not impact the bill's policy; rather it strengthens the bill by celebrating the rich cultural heritage and diversity of our residents and reminding us that the freedom of religion is one of the founding ideals of the nation.

In signing this bill, I want to make it clear that it is our duty as public servants to ensure that we are not only meeting the letter of the law, but the spirit as well. It is my intent that this law be implemented fully and consistently by all public agencies across the state. Accordingly, I am directing the Office of Financial Management, in consultation with key legislators and others, to prepare guidance for use by public agencies and institutions, consistent with the following interpretations of the bill:

Section 3(3) prohibits state and local governments and public employees from sharing personally identifiable information with any entity that is investigating or enforcing a government program that compiles a list based on religion, national origin, or ethnicity for law enforcement or immigration purposes. In practice, any personally identifiable information of individuals based on religion, national origin, or ethnicity shall not be shared with any government agency that is compiling a list or database for law enforcement or immigration purposes.

Section 4(2) prohibits state and local law enforcement agencies from using public resources to investigate, enforce, or assist in the investigation or enforcement of any requirement that individuals register with the federal government or any federal agency based on religion. Our state and local law enforcement agencies shall not assist the federal government in any attempt to require individuals to register based on religion. As specified in Section 4(1)(a) of the bill, this prohibition does not apply when assisting an investigation of an individual based on reasonable suspicion that the individual has engaged in criminal activity, and when there is a nexus between the criminal activity and the specific information collected about religious belief, practice, or affiliation.

Section 5 requires the termination of any portion of an agreement that shares any state or local government information or databases in conflict with this new law. In this context, agreements are not limited to only accords, memorandum of understandings, and contracts, but include any understanding, even those without a legal obligation. Agreements that violate this law shall be identified and the terms renegotiated to bring the agreement into compliance with the law.

I thank you for your unanimous support for this bill.

For these reasons I have vetoed Section 6 of Engrossed House Bill No. 2097.

With the exception of Section 6, Engrossed House Bill No. 2097 is approved.

Respectfully submitted,
Jay Inslee
Governor

HB 2242 by Representatives Sullivan, Harris, Lytton, and Taylor

Funding fully the state's program of basic education by providing equitable education opportunities through reform of state and local education contributions.

(DIGEST AS ENACTED)

States that in chapter 548, Laws of 2009 and chapter 236, Laws of 2010 the state established a comprehensive plan for enhancing the state's program of basic education.

Declares an intent, with this act, to realize the promise of these reforms and to improve student outcomes by increasing state allocations for school staff salaries, revising state and local education funding contributions, and improving transparency and accountability of education funding.

Creates the school employees' benefits board within the state health care authority to design and approve insurance benefit plans for school employees and establish eligibility criteria for participation in the plans.

Requires the superintendent of public instruction to convene a technical work group to review the staffing enrichments to the program of basic education.

Creates the school employees' insurance account, the school employees' insurance administrative account, and the school employees' benefits board medical benefits administration account.

VETO MESSAGE ON EHB 2242

July 6, 2017

To the Honorable Speaker and Members,
 The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 106, 607, 819, and 1003, Engrossed House Bill No. 2242 entitled:

"AN ACT Relating to funding fully the state's program of basic education by providing equitable education opportunities through reform of state and local education contributions."

Section 106 limits school districts' use of late start and early release days to seven occurrences each school year. Educators use this time to develop new competencies, collaborate with other educators, receive mentoring from senior teachers, and analyze student data to inform instructional practices. Research shows that this time for job-embedded professional learning and collaboration is linked to student success. Limiting practices that improve student achievement goes against the intent of this bill and our goals.

Section 607 requires the Caseload Forecast Council (Council) to convene a technical working group to determine the feasibility of developing a model to aid in school district four-year budget plans. Timely data does not exist to predict school district-level enrollments that factor in business growth and other local factors. The work required in this section is outside the scope of expertise for the Council. No funding is provided in the 2017-19 omnibus appropriations act; therefore, the Council is unable to contract for this work.

Section 819 ends reporting requirements for school employee health insurance benefits, effective December 1, 2018. House Bill 1042, which I am signing today, removes these reporting requirements. Moreover, funding to support these requirements was not included in the budget, so the Office of the Insurance Commissioner will be unable to produce the report.

Section 1003 repeals, among other things, the statutes that govern approved training and continuing education clock hours for the purpose of credit on the salary schedule, effective for the 2017-18 school year. These statutes are essential to compensation in the upcoming school year.

For these reasons I have vetoed Sections 106, 607, 819, and 1003 of Engrossed House Bill No. 2242.

With the exception of Sections 106, 607, 819, and 1003, Engrossed House Bill No. 2242 is approved.

Respectfully submitted,
Jay Inslee
Governor

Requires the commissioner of public lands to appoint a marbled murrelet advisory committee to assist the department in developing and providing the report.

HB 2777 by Representative Jinkins

Improving and updating administrative provisions related to the board of tax appeals.

(DIGEST AS ENACTED)

Changes the composition of the board of tax appeals and updates the administrative provisions of the board.

VETO MESSAGE ON EHB 2777

March 22, 2018

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 6, 8, 11, 17, and 18, Engrossed House Bill No. 2777 entitled:

"AN ACT Relating to improving and updating administrative provisions related to the board of tax appeals."

Section 6 mandates the number of tax referees the Board must maintain. I have concerns that mandating the Board to hire a specific number of staff could change the Board's ability to be flexible with future budgetary decisions needed to reduce the backlog.

Section 8 requires the Board to hold regular meetings on both sides of the Cascade[s]. Although I agree with providing this access, we must continue to work towards using technology to find other ways of convening and providing access to all citizens.

Section 11 requires the Department of Revenue to adhere to precedential rulings by the Board of Tax Appeals, but does not differentiate between formal and informal proceedings. This leaves open the possibility for precedential rulings handed down by the Board of Tax Appeals that are exempt from appeals.

Section 17 mandates settlement conferences and providing a mediation process. I have concerns with the practical application of requiring attendance at a settlement conference. The Board of Tax Appeals is able to offer voluntary mediation services, per stakeholder demands, without requiring legislation.

Section 18 requires the Board to award attorneys' fees and costs. Typically, the authority to grant attorneys' fees and costs is limited to courts and not given to one executive agency with respect to another. There also appears to be an unintended drafting error that would require local boards of equalization to pay attorneys' fees and expenses rather than the county assessor which is party to the action.

Finally, the Department of Revenue and Office of the Attorney General will have a fiscal impact of \$1.2 million in fiscal year 2019 and \$2.2 million in the 2019-21 biennium. Both agencies did not receive the funding needed to fulfill the duties of this bill in the 2018 Supplemental Budget.

For these reasons I have vetoed Sections 6, 8, 11, 17, and 18 of Engrossed House Bill No. 2777.

With the exception of Sections 6, 8, 11, 17, and 18, Engrossed House Bill No. 2777 is approved.

VETO MESSAGE ON ESHB 2938

March 28, 2018

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 9 and 10, Engrossed Substitute House Bill No. 2938 entitled:

"AN ACT Relating to campaign finance law enforcement and reporting."

Section 9 addresses independent expenditure reporting requirements. Due to an inadvertent drafting error, Section 9 does not provide clear guidance regarding independent expenditure reporting requirements for ballot measures. I understand that the changes in this section were intended to eliminate the need to adjust disclosure thresholds for inflation in the future, and I appreciate that this unintended consequence was brought to my attention by the Attorney General and the proponents of the legislation. By vetoing Section 9, current law, which does provide adequate guidance regarding independent expenditure reporting requirements for ballot measures, will remain in place. I look forward to working with the Legislature on this issue in the next legislative session. For these reasons, I am vetoing Section 9.

Section 10 addresses special reporting requirements for large contributions. I understand that the intent of this section was to simplify reporting requirements that shine a light on last minute large contributions. However, due to an inadvertent drafting error, proposed changes in this section could result in delayed reporting of some large expenditures made close to election day. Again, I appreciate that this drafting error was brought to my attention, and I understand that stakeholders will continue to work on this issue and propose a solution in the next legislative session. For these reasons, I am vetoing Section 10.

I encourage the Public Disclosure Commission to work closely with the Legislature and the Attorney General's Office (AGO) over the interim to clarify the role of the AGO as it relates to large and significant cases, to adopt rules that allow for expedited referrals to the AGO, and to draft agency-request legislation to be introduced next session that will make necessary improvements to the new statute.

For these reasons I have vetoed Sections 9 and 10 of Engrossed Substitute House Bill No. 2938.

With the exception of Sections 9 and 10, Engrossed Substitute House Bill No. 2938 is approved.

Respectfully submitted,
Jay Inslee
Governor
