Sec. 29. RCW 75.20.050 and 1988 c 36 s 32 are each amended to read as follows:

It is the policy of this state that a flow of water sufficient to support game fish and food fish populations be maintained at all times in the streams of this state.

The director of ecology shall give the director (~~(of fisheries and the director of wildlife)~~) notice of each application for a permit to divert or store water. The director (~~(of fisheries and director of wildlife have)~~) has thirty days after receiving the notice to state (~~(their)~~) his or her objections to the application. The permit shall not be issued until the thirty-day period has elapsed.

The director of ecology may refuse to issue a permit if, in the opinion of the director (~~(of fisheries or director of wildlife)~~), issuing the permit might result in lowering the flow of water in a stream below the flow necessary to adequately support food fish and game fish populations in the stream.

The provisions of this section shall in no way affect existing water rights.

Sec. 30. RCW 75.20.100 and 1991 c 322 s 30 are each amended to read as follows:

In the event that any person or government agency desires to construct any form of hydraulic project or perform other work that will use, divert, obstruct, or change the natural flow or bed of any of the salt or fresh waters of the state, such person or government agency shall, before commencing construction or work thereon and to ensure the proper protection of fish life, secure the written approval of the department (~~(of fisheries or the department of wildlife)~~) as to the adequacy of the means proposed for the protection of fish life. This approval shall not be unreasonably withheld. Except as provided in RCW 75.20.1001 and 75.20.1002, the department (~~(of fisheries or the department of wildlife)~~) shall grant or deny approval within forty-five calendar days of the receipt of a complete application and notice of compliance with any applicable requirements of the state environmental policy act, made in the manner prescribed in this section. The applicant may document receipt of application by filing in person or by registered mail. A complete application for approval shall contain general plans for the overall project, complete plans and specifications of the proposed construction or work within the mean higher high water line in salt water or within the ordinary high water line in fresh water, and complete plans and specifications for the proper protection of fish life. The forty-five day requirement shall be suspended if (1) after ten working days of receipt of the application, the applicant remains unavailable or unable to arrange for a timely field evaluation of the proposed project; (2) the site is physically inaccessible for inspection; or (3) the applicant requests delay. Immediately upon determination that the forty-five day period is suspended, the department (~~(of fisheries or the department of wildlife)~~) shall notify the applicant in writing of the reasons for the delay. Approval is valid for a period of up to five years from date of issuance. The permittee must demonstrate substantial progress on construction of that portion of the project relating to the approval within two years of the date

of issuance. If ~~((either))~~ the department ~~((of fisheries or the department of wildlife))~~ denies approval, ~~((that))~~ the department shall provide the applicant, in writing, a statement of the specific reasons why and how the proposed project would adversely affect fish life. Protection of fish life shall be the only ground upon which approval may be denied or conditioned. Chapter 34.05 RCW applies to any denial of project approval, conditional approval, or requirements for project modification upon which approval may be contingent. If any person or government agency commences construction on any hydraulic works or projects subject to this section without first having obtained written approval of the department ~~((of fisheries or the department of wildlife))~~ as to the adequacy of the means proposed for the protection of fish life, or if any person or government agency fails to follow or carry out any of the requirements or conditions as are made a part of such approval, the person or director of the agency is guilty of a gross misdemeanor. If any such person or government agency is convicted of violating any of the provisions of this section and continues construction on any such works or projects without fully complying with the provisions hereof, such works or projects are hereby declared a public nuisance and shall be subject to abatement as such.

For the purposes of this section and RCW 75.20.103, "bed" shall mean the land below the ordinary high water lines of state waters. This definition shall not include irrigation ditches, canals, storm water run-off devices, or other artificial watercourses except where they exist in a natural watercourse that has been altered by man.

The phrase "to construct any form of hydraulic project or perform other work" shall not include the act of driving across an established ford. Driving across streams or on wetted stream beds at areas other than established fords requires approval. Work within the ordinary high water line of state waters to construct or repair a ford or crossing requires approval.

~~((For each application, the department of fisheries and the department of wildlife shall mutually agree on whether the department of fisheries or the department of wildlife shall administer the provisions of this section, in order to avoid duplication of effort. The department designated to act shall cooperate with the other department in order to protect all species of fish life found at the project site. If the department of fisheries or the department of wildlife receives an application concerning a site not in its jurisdiction, it shall transmit the application to the other department within three days and notify the applicant.))~~

In case of an emergency arising from weather or stream flow conditions or other natural conditions, the department ~~((of fisheries or department of wildlife))~~, through ~~((their))~~ its authorized representatives, shall issue immediately upon request oral approval for removing any obstructions, repairing existing structures, restoring stream banks, or to protect property threatened by the stream or a change in the stream flow without the necessity of obtaining a written approval prior to commencing work. Conditions of an oral approval shall be reduced to writing within thirty days and complied with as provided for in this section. Oral

approval shall be granted immediately upon request, for a stream crossing during an emergency situation.

This section shall not apply to the construction of any form of hydraulic project or other work which diverts water for agricultural irrigation or stock watering purposes authorized under or recognized as being valid by the state's water codes, or when such hydraulic project or other work is associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020. These irrigation or stock watering diversion and streambank stabilization projects shall be governed by RCW 75.20.103.

Sec. 31. RCW 75.20.1001 and 1991 c 322 s 12 are each amended to read as follows:

The department (~~(of fisheries and the department of wildlife)~~) shall process hydraulic project applications submitted under RCW 75.20.100 or 75.20.103 within thirty days of receipt of the application. This requirement is only applicable for the repair and reconstruction of legally constructed dikes, seawalls, and other flood control structures damaged as a result of flooding or windstorms that occurred in November and December 1990.

Sec. 32. RCW 75.20.103 and 1991 c 322 s 31 are each amended to read as follows:

In the event that any person or government agency desires to construct any form of hydraulic project or other work that diverts water for agricultural irrigation or stock watering purposes, or when such hydraulic project or other work is associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020, and when such diversion or streambank stabilization will use, divert, obstruct, or change the natural flow or bed of any river or stream or will utilize any waters of the state or materials from the stream beds, the person or government agency shall, before commencing construction or work thereon and to ensure the proper protection of fish life, secure a written approval from the department (~~(of fisheries or the department of wildlife)~~) as to the adequacy of the means proposed for the protection of fish life. This approval shall not be unreasonably withheld. Except as provided in RCW 75.20.1001 and 75.20.1002, the department (~~(of fisheries or the department of wildlife)~~) shall grant or deny the approval within forty-five calendar days of the receipt of a complete application and notice of compliance with any applicable requirements of the state environmental policy act, made in the manner prescribed in this section. The applicant may document receipt of application by filing in person or by registered mail. A complete application for an approval shall contain general plans for the overall project, complete plans and specifications of the proposed construction or work within ordinary high water line, and complete plans and specifications for the proper protection of fish life. The forty-five day requirement shall be suspended if (1) after ten working days of receipt of the application, the applicant remains unavailable or unable to arrange for a timely

field evaluation of the proposed project; (2) the site is physically inaccessible for inspection; or (3) the applicant requests delay.

Immediately upon determination that the forty-five day period is suspended, the department (~~(of fisheries or the department of wildlife)~~) shall notify the applicant in writing of the reasons for the delay.

An approval shall remain in effect without need for periodic renewal for projects that divert water for agricultural irrigation or stock watering purposes and that involve seasonal construction or other work. Approval for streambank stabilization projects shall remain in effect without need for periodic renewal if the problem causing the need for the streambank stabilization occurs on an annual or more frequent basis. The permittee must notify the appropriate agency before commencing the construction or other work within the area covered by the approval.

The permittee must demonstrate substantial progress on construction of that portion of the project relating to the approval within two years of the date of issuance. If ~~((either))~~ the department (~~(of fisheries or the department of wildlife)~~) denies approval, ~~((that))~~ the department shall provide the applicant, in writing, a statement of the specific reasons why and how the proposed project would adversely affect fish life. Protection of fish life shall be the only ground upon which approval may be denied or conditioned. Issuance, denial, conditioning, or modification shall be appealable to the hydraulic appeals board established in RCW 43.21B.005 within thirty days of the notice of decision. The burden shall be upon the department (~~(of fisheries or the department of wildlife)~~) to show that the denial or conditioning of an approval is solely aimed at the protection of fish life.

The department (~~(granting approval)~~) may, after consultation with the permittee, modify an approval due to changed conditions. The modifications shall become effective unless appealed to the hydraulic appeals board within thirty days from the notice of the proposed modification. The burden is on the department (~~(issuing the approval)~~) to show that changed conditions warrant the modification in order to protect fish life.

A permittee may request modification of an approval due to changed conditions. The request shall be processed within forty-five calendar days of receipt of the written request. A decision by the department (~~(that issued the approval)~~) may be appealed to the hydraulic appeals board within thirty days of the notice of the decision. The burden is on the permittee to show that changed conditions warrant the requested modification and that such modification will not impair fish life.

If any person or government agency commences construction on any hydraulic works or projects subject to this section without first having obtained written approval of the department (~~(of fisheries or the department of wildlife)~~) as to the adequacy of the means proposed for the protection of fish life, or if any person or government agency fails to follow or carry out any of the requirements or conditions as are made a part of such approval, the person or director of the

agency is guilty of a gross misdemeanor. If any such person or government agency is convicted of violating any of the provisions of this section and continues construction on any such works or projects without fully complying with the provisions hereof, such works or projects are hereby declared a public nuisance and shall be subject to abatement as such.

~~((For each application, the department of fisheries and the department of wildlife shall mutually agree on whether the department of fisheries or the department of wildlife shall administer the provisions of this section, in order to avoid duplication of effort. The department designated to act shall cooperate with the other department in order to protect all species of fish life found at the project site. If the department of fisheries or the department of wildlife receives an application concerning a site not in its jurisdiction, it shall transmit the application to the other department within three days and notify the applicant.))~~

In case of an emergency arising from weather or stream flow conditions or other natural conditions, the department ~~((of fisheries or department of wildlife)),~~ through ~~((their))~~ its authorized representatives, shall issue immediately upon request oral approval for removing any obstructions, repairing existing structures, restoring stream banks, or to protect property threatened by the stream or a change in the stream flow without the necessity of obtaining a written approval prior to commencing work. Conditions of an oral approval shall be reduced to writing within thirty days and complied with as provided for in this section.

For purposes of this chapter, "streambank stabilization" shall include but not be limited to log and debris removal, bank protection (including riprap, jetties, and groins), gravel removal and erosion control.

Sec. 33. RCW 75.20.104 and 1991 c 322 s 18 are each amended to read as follows:

Whenever the placement of woody debris is required as a condition of a hydraulic permit approval issued pursuant to RCW 75.20.100 or 75.20.103, the department ~~((of fisheries and the department of wildlife)),~~ upon request, shall invite comment regarding that placement from the local governmental authority, affected tribes, affected federal and state agencies, and the project applicant.

Sec. 34. RCW 75.20.1041 and 1991 c 322 s 19 are each amended to read as follows:

The department ~~((of fisheries, the department of wildlife,))~~ and the department of ecology will work cooperatively with the United States army corps of engineers to develop a memorandum of agreement outlining dike vegetation management guidelines so that dike owners are eligible for coverage under P.L. 84-99, and state requirements established pursuant to RCW 75.20.100 and 75.20.103 are met.

Sec. 35. RCW 75.20.106 and 1988 c 36 s 35 are each amended to read as follows:

The department ~~((of fisheries and the department of wildlife))~~ may ~~((each))~~ levy civil penalties of up to one hundred dollars per day for violation of any

provisions of RCW 75.20.100 or 75.20.103. The penalty provided shall be imposed by notice in writing, either by certified mail or personal service to the person incurring the penalty, from the director ~~((of the appropriate department))~~ or ~~((that))~~ the director's designee describing the violation. Any person incurring any penalty under this chapter may appeal the same under chapter 34.05 RCW to the director ~~((of the department levying the penalty))~~. Appeals shall be filed within thirty days of receipt of notice imposing any penalty. The penalty imposed shall become due and payable thirty days after receipt of a notice imposing the penalty unless an appeal is filed. Whenever an appeal of any penalty incurred under this chapter is filed, the penalty shall become due and payable only upon completion of all review proceedings and the issuance of a final order confirming the penalty in whole or in part.

If the amount of any penalty is not paid within thirty days after it becomes due and payable the attorney general, upon the request of the director ~~((of the department of fisheries or the department of wildlife))~~ shall bring an action in the name of the state of Washington in the superior court of Thurston county or of any county in which such violator may do business, to recover such penalty. In all such actions the procedure and rules of evidence shall be the same as an ordinary civil action. All penalties recovered under this section shall be paid into the state's general fund.

Sec. 36. RCW 75.20.110 and 1988 c 36 s 36 are each amended to read as follows:

(1) Except for the north fork of the Lewis river and the White Salmon river, all streams and rivers tributary to the Columbia river downstream from McNary dam are established as an anadromous fish sanctuary. This sanctuary is created to preserve and develop the food fish and game fish resources in these streams and rivers and to protect them against undue industrial encroachment.

(2) Within the sanctuary area:

(a) It is unlawful to construct a dam greater than twenty-five feet high within the migration range of anadromous fish as ~~((jointly))~~ determined by the director ~~((of fisheries and the director of wildlife))~~.

(b) Except by ~~((concurrent))~~ order of the director ~~((of fisheries and director of wildlife))~~, it is unlawful to divert water from rivers and streams in quantities that will reduce the respective stream flow below the annual average low flow, based upon data published in United States geological survey reports.

(3) The director ~~((of fisheries and the director of wildlife))~~ may acquire and abate a dam or other obstruction, or acquire any water right vested on a sanctuary stream or river, which is in conflict with the provisions of subsection (2) of this section.

(4) Subsection (2)(a) of this section does not apply to the sediment retention structure to be built on the North Fork Toutle river by the United States army corps of engineers.

Sec. 37. RCW 75.20.130 and 1989 c 175 s 160 are each amended to read as follows:

(1) There is hereby created within the environmental hearings office under RCW 43.21B.005 the hydraulic appeals board of the state of Washington.

(2) The hydraulic appeals board shall consist of three members: The director of the department of ecology or the director's designee, the director of the department of agriculture or the director's designee, and the director or the director's designee of the department whose action is appealed under subsection (6) of this section. A decision must be agreed to by at least two members of the board to be final.

(3) The board may adopt rules necessary for the conduct of its powers and duties or for transacting other official business.

(4) The board shall make findings of fact and prepare a written decision in each case decided by it, and that finding and decision shall be effective upon being signed by two or more board members and upon being filed at the hydraulic appeals board's principal office, and shall be open to public inspection at all reasonable times.

(5) The board has exclusive jurisdiction to hear appeals arising from the approval, denial, conditioning, or modification of a hydraulic approval issued by ~~((either))~~ the department ~~((of fisheries or the department of wildlife))~~ under the authority granted in RCW 75.20.103 for the diversion of water for agricultural irrigation or stock watering purposes or when associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020.

(6)(a) Any person aggrieved by the approval, denial, conditioning, or modification of a hydraulic approval pursuant to RCW 75.20.103 may seek review from the board by filing a request for the same within thirty days of notice of the approval, denial, conditioning, or modification of such approval.

(b) The review proceedings authorized in (a) of this subsection are subject to the provisions of chapter 34.05 RCW pertaining to procedures in adjudicative proceedings.

Sec. 38. RCW 75.20.300 and 1989 c 213 s 3 are each amended to read as follows:

(1) The legislature intends to expedite flood-control, acquisition of sites for sediment retention, and dredging operations in those rivers affected by the May 1980 eruption of Mt. St. Helens, while continuing to protect the fish resources of these rivers.

(2) The director ~~((of fisheries and director of wildlife))~~ shall process hydraulic project applications submitted under RCW 75.20.100 within fifteen working days of receipt of the application. This requirement is only applicable to flood control and dredging projects located in the Cowlitz river from mile 22 to the confluence with the Columbia, and in the Toutle river from the mouth to the North Fork Toutle sediment dam site at North Fork mile 12, and to river mile 3 on the South Fork Toutle river, and volcano-affected areas of the Columbia river.

(3) For the purposes of this section, the emergency provisions of RCW 75.20.100 may be initiated by the county legislative authority if the project is necessary to protect human life or property from flood hazards, including:

(a) Flood fight measures necessary to provide protection during a flood event; or

(b) Measures necessary to reduce or eliminate a potential flood threat when other alternative measures are not available or cannot be completed prior to the expected flood threat season; or

(c) Measures which must be initiated and completed within an immediate period of time and for which processing of the request through normal methods would cause a delay to the project and such delay would significantly increase the potential for damages from a flood event.

(4) This section does not apply to the sediment retention structure to be built on the North Fork Toutle river by the United States army corps of engineers.

(5) This section expires on June 30, 1995.

Sec. 39. RCW 75.20.310 and 1988 c 36 s 39 are each amended to read as follows:

The legislature recognizes the need to mitigate the effects of sedimentary build-up and resultant damage to fish population in the Toutle river resulting from the Mt. St. Helens eruption. The state has entered into a contractual agreement with the United States army corps of engineers designed to minimize fish habitat disruption created by the sediment retention structure on the Toutle river, under which the corps has agreed to construct a fish collection facility at the sediment retention structure site conditional upon the state assuming the maintenance and operation costs of the facility. The department ~~((of wildlife and the department of fisheries))~~ shall ~~((cooperatively))~~ operate and maintain a fish collection facility on the Toutle river. ~~((Each agency shall share in the cost of operating and maintaining the facility.))~~

Sec. 40. RCW 75.24.065 and 1985 c 256 s 2 are each amended to read as follows:

The legislature finds that current environmental and economic conditions warrant a renewal of the state's historical practice of actively cultivating and managing its oyster reserves in Puget Sound to produce the state's native oyster, the Olympia oyster. The department ~~((of fisheries))~~ shall reestablish dike cultivated production of Olympia oysters on such reserves on a trial basis as a tool for planning more comprehensive cultivation by the state.

Sec. 41. RCW 75.25.005 and 1989 c 305 s 1 are each amended to read as follows:

The following recreational fishing licenses are administered and issued by the department ~~((of fisheries))~~ under authority of the director ~~((of fisheries))~~:

- (1) Hood Canal shrimp license;
- (2) Razor clam license;
- (3) Personal use fishing license;

- (4) Salmon license; and
- (5) Sturgeon license.

Sec. 42. RCW 75.25.080 and 1989 c 305 s 4 are each amended to read as follows:

Sec. 45. RCW 75.50.010 and 1985 c 458 s 1 are each amended to read as follows:

Currently, many of the salmon stocks of Washington state are critically reduced from their sustainable level. The best interests of all fishing groups and the citizens as a whole are served by a stable and productive salmon resource. Immediate action is needed to reverse the severe decline of the resource and to insure its very survival. The legislature finds a state of emergency exists and that immediate action is required to restore its fishery.

Disagreement and strife have dominated the salmon fisheries for many years. Conflicts among the various fishing interests have only served to erode the resource. It is time for the state of Washington to make a major commitment to increasing productivity of the resource and to move forward with an effective rehabilitation and enhancement program. The department (~~(of fisheries)~~) is directed to dedicate its efforts (~~(to make increasing the productivity of the salmon resource a first priority and)~~) to seek resolution to the many conflicts that involve the resource.

Success of the enhancement program can only occur if projects efficiently produce salmon or restore habitat. The expectation of the program is to optimize the efficient use of funding on projects that will increase artificially and naturally produced salmon, restore and improve habitat, or identify ways to increase the survival of salmon. The full utilization of state resources and cooperative efforts with interested groups are essential to the success of the program.

Sec. 46. RCW 75.50.070 and 1989 c 426 s 1 are each amended to read as follows:

The legislature finds that it is in the best interest of the salmon resource of the state to encourage the development of regional fisheries enhancement groups. The accomplishments of one existing group, the Grays Harbor fisheries enhancement task force, have been widely recognized as being exemplary. The legislature recognizes the potential benefits to the state that would occur if each region of the state had a similar group of dedicated citizens working to enhance the salmon resource.

The legislature authorizes the formation of regional fisheries enhancement groups. These groups shall be eligible for state financial support and shall be actively supported by the department (~~(of fisheries)~~). The regional groups shall be operated on a strictly nonprofit basis, and shall seek to maximize the efforts of volunteer and private donations to improve the salmon resource for all citizens of the state.

Sec. 47. RCW 75.50.080 and 1989 c 426 s 4 are each amended to read as follows:

Regional fisheries enhancement groups, consistent with the long-term regional policy statements developed under RCW 75.50.020, shall seek to:

- (1) Enhance the salmon resource of the state;
- (2) Maximize volunteer efforts and private donations to improve the salmon resource for all citizens;
- (3) Assist the department in achieving the goal to double the state-wide salmon catch by the year 2000 under chapter 214, Laws of 1988; and
- (4) Develop projects designed to supplement the fishery enhancement capability of the department (~~(of fisheries)~~).

Sec. 48. RCW 75.50.130 and 1992 c 88 s 1 are each amended to read as follows:

The director (~~(of fisheries)~~) shall prepare a salmon recovery plan for the Skagit river. The plan shall include strategies for employing displaced timber workers to conduct salmon restoration and other tasks identified in the plan. The plan shall incorporate the best available technology in order to achieve maximum restoration of depressed salmon stocks. The plan must encourage the restoration of natural spawning areas and natural rearing of salmon but must not preclude the development of an active hatchery program.

Sec. 49. RCW 75.52.010 and 1988 c 36 s 41 are each amended to read as follows:

The fish and (~~(game)~~) wildlife resources of the state benefit by the contribution of volunteer recreational and commercial fishing organizations, schools, and other volunteer groups in cooperative projects under agreement with the department (~~(of fisheries or the department of wildlife)~~). These projects provide educational opportunities, improve the communication between the natural resources agencies and the public, and increase the fish and game resources of the state. In an effort to increase these benefits and realize the full potential of cooperative projects, the department (~~(of fisheries and the department of wildlife each)~~) shall administer a cooperative fish and wildlife enhancement program and enter agreements with volunteer groups relating to the operation of cooperative projects.

Sec. 50. RCW 75.52.020 and 1988 c 36 s 42 are each amended to read as follows:

The policy committee shall present a progress report to the senate and house of representatives natural resources and environment committees by January 1, 1990, and shall oversee the operation and evaluation of the spawning channel. The policy committee will continue its oversight until the policy committee concludes that the channel is meeting the production goals specified in RCW 75.52.120.

Sec. 54. RCW 75.52.160 and 1989 c 85 s 10 are each amended to read as follows:

NEW SECTION. **Sec. 82.** The legislature finds that recreational fishing opportunities for salmon and marine bottomfish have been dwindling in recent

years. It is important to restore diminished recreational fisheries and to enhance the salmon and marine bottomfish resource to assure sustained productivity. Investments made in recreational fishing programs will repay the people of the state many times over in increased economic activity and in an improved quality of life.

NEW SECTION. Sec. 83. There is created within the department of fish and wildlife the Puget Sound recreational salmon and marine fish enhancement program. The department of fish and wildlife shall identify a coordinator for the program who shall act as spokesperson for the program and shall:

(2) Provide reports as needed to the legislature and the public; and

(3) Work within and outside of the department to achieve the goals stated in this chapter.

NEW SECTION. Sec. 84. The department shall: Develop a short-term program of hatchery-based salmon enhancement using freshwater pond sites for the final rearing phase; solicit support from cooperative projects, regional enhancement groups, and other supporting organizations; conduct comprehensive research on resident and migratory salmon production opportunities; and conduct research on marine bottomfish production limitations and on methods for artificial propagation of marine bottomfish.

Long-term responsibilities of the department are to: Fully implement enhancement efforts for Puget Sound and Hood Canal resident salmon and marine bottomfish; identify opportunities to reestablish salmon runs into areas where they no longer exist; encourage naturally spawning salmon populations to develop to their fullest extent; and fully utilize hatchery programs to improve recreational fishing.

NEW SECTION. Sec. 85. The department shall seek recommendations from persons who are expert on the planning and operation of programs for enhancement of recreational fisheries. The department shall fully use the expertise of the University of Washington college of fisheries and the sea grant program to develop research and enhancement programs.

NEW SECTION. Sec. 86. The department shall develop new locations for the freshwater rearing of delayed-release chinook salmon. In calendar year 1994, at least one freshwater pond chinook salmon rearing site shall be developed and begin production in each of the following areas: South Puget Sound, central Puget Sound, north Puget Sound, and Hood Canal. Natural or artificial pond sites shall be preferred to net pens due to higher survival rates experienced from pond rearing. Rigorous predatory bird control measures shall be implemented. The goal of the program is to increase the production and planting of delayed release chinook salmon to a level of three million fish annually by the year 2000.

NEW SECTION. **Sec. 87.** The department shall conduct research, develop methods, and implement programs for the artificial rearing and release of marine bottomfish species. Lingcod, halibut, rockfish, and Pacific cod shall be the species of primary emphasis due to their importance in the recreational fishery.

NEW SECTION. **Sec. 88.** The department shall undertake additional research to more fully evaluate improved enhancement techniques, hooking mortality rates, methods of mass marking, improvement of catch models, and sources of marine bottomfish mortality. Research shall be designed to give the best opportunity to provide information that can be applied to real-world recreational fishing needs.

NEW SECTION. **Sec. 89.** The department shall work with the department of ecology, the department of wildlife, and local government entities to streamline the siting process for new enhancement projects. The department is encouraged to work with the legislature to develop statutory changes that enable expeditious processing and granting of permits for fish enhancement projects.

Economic benefits of the program shall be emphasized.

NEW SECTION. **Sec. 91.** The department shall increase efforts to document the effects of bird predators, harbor seals, sea lions, and predatory fish upon the salmon and marine fish resource. Every opportunity shall be explored to convince the federal government to amend the marine mammal protection act to allow for balanced management of predators, as well as to work with the United States fish and wildlife service to achieve workable control measures for predatory birds.

NEW SECTION. **Sec. 92.** Indian tribal fishing interests and non-Indian commercial fishing groups shall be invited to participate in development of plans for selective fisheries that target hatchery-produced fish and minimize catch of naturally spawned fish. In addition, talks shall be initiated on the feasibility of altering the rearing programs of department hatcheries to achieve higher survival and greater production of chinook and coho salmon.

NEW SECTION. **Sec. 93.** The department shall coordinate the sport fishing program with the wild stock initiative to assure that the two programs are compatible and potential conflicts are avoided.

NEW SECTION. **Sec. 94.** The department shall develop plans for increased recreational access to salmon and marine fish resources. Proposals for new boat launching ramps and pier fishing access shall be developed.

NEW SECTION. Sec. 95. The department shall contract with private consultants, aquatic farms, or construction firms, where appropriate, to achieve the highest benefit-to-cost ratio for recreational fishing projects.

***NEW SECTION.** Sec. 96. *The requirements and provisions of this chapter are to be performed in addition to and not at the expense of existing salmon programs of the department. Nothing in this chapter shall be construed to authorize the department to advocate or to improve recreational fishing at the expense of commercial fishing or to increase recreational enhancement to the detriment of commercial enhancement.*

*Sec. 96 was vetoed, see message at end of chapter.

NEW SECTION. Sec. 97. NEW SECTION. Sec. 106. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

Passed the House April 29, 1993.

Passed the Senate April 30, 1993.

Approved by the Governor May 28, 1993, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State May 28, 1993.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to section 96, Engrossed Substitute House Bill No. 2055 entitled:

"AN ACT Relating to the creation of the department of fish and wildlife;"

I congratulate the Legislature for passing Engrossed Substitute House Bill No. 2055. This bill, like other agency consolidation measures enacted this year, will have a major positive impact on how we organize work and serve the public in our state agencies. The merger of fisheries and wildlife functions will save money, result in more accountable and efficient management, and eliminate overlap and duplication of effort. By improving management, we will be better able to focus the combined resources of the two departments on protecting the valuable fish and wildlife resources and habitat of this state for future generations.

However, a portion of section 96 would limit the ability of the new agency to wisely manage the resource under the new recreational salmon and marine fisheries enhancement program. The second sentence in that section constrains the Department of Fisheries and the new combined department from making decisions that may adversely affect a particular interest group. While decisions adverse to any interest group are never the preferred choice of the department, responsible stewardship and wise use of the resource occasionally require difficult decisions. The Governor and the department must retain the authority to make those decisions.

In order to maintain the intent of the remainder of section 96, I am directing the department to implement new recreational fishing enhancement activities prescribed by this act in a manner that clearly differentiates these activities from existing salmon programs of the department.

With the exception of section 96, Engrossed Substitute House Bill No. 2055 is approved."

CHAPTER 3

[Engrossed Substitute Senate Bill 5966]

VETERANS' HOMES—REVISED PROVISIONS**Effective Date: 7/1/93**

AN ACT Relating to state institutions; amending RCW 72.36.020, 72.36.030, 72.36.035, 72.36.120, and 74.09.120; adding new sections to chapter 72.36 RCW; creating a new section; repealing RCW 72.36.080 and 72.36.130; providing an effective date; and declaring an emergency. Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. The legislature finds that continued operation of state veterans' homes is necessary to meet the needs of eligible veterans for shelter, personal and nursing care, and related services; that certain residents of veterans' homes or services provided to them may be eligible for participation in the state's medicaid reimbursement system; and that authorizing medicaid participation is appropriate to address the homes' long-term funding needs. The legislature also finds that it is important to maintain the dignity and self-respect of residents of veterans' homes, by providing for continued resident involvement in the homes' operation, and through retention of current law guaranteeing a minimum amount of allowable personal income necessary to meet the greater costs for these residents of transportation, communication, and participation in family and community activities that are vitally important to their maintenance and rehabilitation.

NEW SECTION. Sec. 2. A new section is added to chapter 72.36 RCW to read as follows:

Qualifying operations at state veterans' homes operated by the department of veterans affairs, may be provided under the state's medicaid reimbursement system as administered by the department of social and health services.

The department of veterans affairs may contract with the department of social and health services under the authority of RCW 74.09.120 but shall be exempt from RCW 74.46.660(6), and the provisions of RCW 74.46.420 through 74.46.590 shall not apply to the medicaid rate-setting and reimbursement systems. The nursing care operations at the state veterans' homes shall be subject to inspection by the department of social and health services. This includes every part of the state veterans' home's premises, an examination of all records, including financial records, methods of administration, general and special dietary programs, the disbursement of drugs, methods of supply, and any other records the department of social and health services deems relevant.

NEW SECTION. Sec. 3. A new section is added to chapter 72.36 RCW to read as follows:

The department of veterans affairs shall provide by rule for the annual election of a resident council for each state veterans' home. The council shall annually elect a chair from among its members, who shall call and preside at council meetings. The resident council shall serve in an advisory capacity to the director of the department of veterans affairs and to the superintendent in all

matters related to policy and operational decisions affecting resident care and life in the home.

By October 31, 1993, the department shall adopt rules that provide for specific duties and procedures of the resident council which create an appropriate and effective relationship between residents and the administration. These rules shall be adopted after consultation with the resident councils and the state long-term care ombuds, and shall include, but not be limited to the following:

- (1) Provision of staff technical assistance to the councils;
- (2) Provision of an active role for residents in developing choices regarding activities, foods, living arrangements, personal care, and other aspects of resident life;
- (3) A procedure for resolving resident grievances; and
- (4) The role of the councils in assuring that resident rights are observed.

The development of these rules should include consultation with all residents through the use of both questionnaires and group discussions.

The resident council for each state veterans' home shall annually review the proposed expenditures from the benefit fund that shall contain all private donations to the home, all bequeaths, and gifts. Disbursements from each benefit fund shall be for the benefit and welfare of the residents of the state veterans' homes. Disbursements from the benefits funds shall be on the authorization of the superintendent or his or her authorized representative after approval has been received from the home's resident council.

The superintendent or his or her designated representative shall meet with the resident council at least monthly. The director of the department of veterans affairs shall meet with each resident council at least three times each year.

The superintendent shall exercise management and control of the institution in accordance with either policies ~~((and/or))~~ or procedures promulgated by the director of the department of veterans affairs, or both, and rules and regulations of the department. In accordance with chapter 18.52 RCW, the individual appointed as superintendent for either state veterans' home shall be a licensed nursing home administrator. The department may request a waiver to, or seek an alternate method of compliance with, the federal requirement for a licensed on-site administrator during a transition phase from July 1, 1993, to June 30, 1994.

CHAPTER 4

[Second Engrossed Substitute House Bill 1309]

FISH AND WILDLIFE RESOURCE MANAGEMENT

Effective Date: 8/5/93

AN ACT Relating to fish and wildlife management; amending RCW 43.20.230, 90.03.360, and 90.42.010; adding a new section to chapter 75.28 RCW; adding a new section to chapter 79.01 RCW; adding a new section to chapter 77.12 RCW; adding a new section to chapter 43.20 RCW; adding a new section to chapter 90.54 RCW; adding a new section to chapter 90.22 RCW; adding a new chapter to Title 28A RCW; and creating new sections.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. The legislature finds that many wild stocks of salmonids in the state of Washington are in a state of decline. Stocks of salmon on the Columbia and Snake rivers have been listed under the federal endangered

species act, and the bull trout has been petitioned for listing. Some scientists believe that numerous other stocks of salmonids in the Pacific Northwest are in decline or possibly extinct. The legislature declares that to lose wild stocks is detrimental to the genetic diversity of the fisheries resource and the economy, and will represent the loss of a vital component of Washington's aquatic ecosystems. The legislature further finds that there is a continuing loss of habitat for fish and wildlife. The legislature declares that steps must be taken in the areas of wildlife and fish habitat management, water conservation, wild salmonid stock protection, and education to prevent further losses of Washington's fish and wildlife heritage from a number of causes including urban and rural subdivisions, shopping centers, industrial park, and other land use activities.

The legislature finds that the maintenance and restoration of Washington's rangelands and shrub-steppe vegetation is vital to the long-term benefit of the people of the state. The legislature finds that approximately one-fourth of the state is open range or open-canopied grazable woodland. The legislature finds that these lands provide forage for livestock, habitat for wildlife, and innumerable recreational opportunities including hunting, hiking, and fishing.

The legislature finds that the development of coordinated resource management plans, that take into consideration the needs of wildlife, fish, livestock, timber production, water quality protection, and rangeland conservation on all state-owned grazing lands will improve the stewardship of these lands and allow for the increased development and maintenance of fish and wildlife habitat and other multipurpose benefits the public derives from these lands.

The legislature finds that the state currently provides insufficient technical support for coordinated resource management plans to be developed for all state-owned lands and for many of the private lands desiring to develop such plans. As a consequence of this lack of technical assistance, our state grazing lands, including fish and wildlife habitat and other resources provided by these lands, are not achieving their potential. The legislature also finds that with many state lands being intermixed with private grazing lands, development of coordinated resource management plans on state-owned and managed lands provides an opportunity to improve the management and enhance the conditions of adjacent private lands.

A purpose of this act is to establish state grazing lands as the model in the state for the development and implementation of standards that can be used in coordinated resource management plans and to thereby assist the timely development of coordinated resource management plans for all state-owned grazing lands. Every lessee of state lands who wishes to participate in the development and implementation of a coordinated resource management plan shall have the opportunity to do so.

NEW SECTION. Sec. 2. By July 1, 1994, the departments of fisheries and wildlife jointly with the appropriate Indian tribes, shall each establish a wild salmonid policy. The policy shall ensure that department actions and programs

are consistent with the goals of rebuilding wild stock populations to levels that permit commercial and recreational fishing opportunities.

NEW SECTION. **Sec. 3.** By July 1, 1994, the department of fisheries and the department of wildlife shall jointly, with input from the Indian tribes and after coordination with California, Oregon, Idaho, Montana, Alaska, British Columbia, and appropriate federal agencies, report to the appropriate legislative committees on the feasibility of implementing selective marking techniques that can be used to minimize impacts of fishing on wild or natural stocks of salmonids. The report shall address costs, benefits, and risks associated with marking.

NEW SECTION. **Sec. 4.** A new section is added to chapter 75.28 RCW to read as follows:

The department of fisheries shall evaluate and recommend, in consultation with the Indian tribes, salmon fishery management strategies and gear types, as well as a schedule for implementation, that will minimize the impact of commercial and recreational fishing in the mixed stock fishery on critical and depressed wild stocks of salmonids. As part of this evaluation, the department, in conjunction with the commercial and recreational fishing industries, shall evaluate commercial and recreational salmon fishing gear types developed by these industries. The department of fisheries shall present status reports to the appropriate committees of the legislature by December 31 of each year in 1993, 1994, and 1995, and shall present the final evaluation and recommendations by December 31, 1996.

NEW SECTION. **Sec. 5.** A new section is added to chapter 79.01 RCW to read as follows:

(1) By December 31, 1993, the department of wildlife and the department of fisheries shall each develop goals for the wildlife and fish that these agencies respectively manage, to preserve, protect, and perpetuate wildlife and fish on shrub steppe habitat or on lands that are presently agricultural lands, rangelands, or grazable woodlands. These goals shall be consistent with the maintenance of a healthy ecosystem.

(2) By July 31, 1993, the conservation commission shall appoint a technical advisory committee to develop standards that achieve the goals developed in subsection (1) of this section. The committee members shall include but not be limited to technical experts representing the following interests: Agriculture, academia, range management, utilities, environmental groups, commercial and recreational fishing interests, the Washington rangelands committee, Indian tribes, the department of wildlife, the department of fisheries, the department of natural resources, the department of ecology, conservation districts, and the department of agriculture. A member of the conservation commission shall chair the committee.

(3) By December 31, 1994, the committee shall develop standards to meet the goals developed under subsection (1) of this section. These standards shall

not conflict with the recovery of wildlife or fish species that are listed or proposed for listing under the federal endangered species act. These standards shall be utilized to the extent possible in development of coordinated resource management plans to provide a level of management that sustains and perpetuates renewable resources, including fish and wildlife, riparian areas, soil, water, timber, and forage for livestock and wildlife. Furthermore, the standards are recommended for application to model watersheds designated by the Northwest power planning council in conjunction with the conservation commission. The maintenance and restoration of sufficient habitat to preserve, protect, and perpetuate wildlife and fish shall be a major component included in the standards and coordinated resource management plans. Application of standards to privately owned lands is voluntary and may be dependent on funds to provide technical assistance through conservation districts.

(4) The conservation commission shall approve the standards and shall provide them to the departments of natural resources and wildlife, each of the conservation districts, Washington State University cooperative extension service, and the appropriate committees of the legislature. The conservation districts shall make these standards available to the public and for coordinated resource management planning. Application to private lands is voluntary.

(5) The department of natural resources shall implement practices necessary to meet the standards developed pursuant to this section on department managed agricultural and grazing lands, consistent with the trust mandate of the Washington state Constitution and Title 79 RCW. The standards may be modified on a site-specific basis as needed to achieve the fish and wildlife goals, and as determined by the department of fisheries or wildlife, and the department of natural resources. Existing lessees shall be provided an opportunity to participate in any site-specific field review. Department agricultural and grazing leases issued after December 31, 1994, shall be subject to practices to achieve the standards that meet those developed pursuant to this section.

NEW SECTION. Sec. 6. A new section is added to chapter 77.12 RCW to read as follows:

The department of wildlife shall implement practices necessary to meet the standards developed under section 5 of this act on agency-owned and managed agricultural and grazing lands. The standards may be modified on a site-specific basis as necessary and as determined by the department of fisheries or wildlife, for species that these agencies respectively manage, to achieve the goals established under section 5(1) of this act. Existing lessees shall be provided an opportunity to participate in any site-specific field review. Department agricultural and grazing leases issued after December 31, 1994, shall be subject to practices to achieve the standards that meet those developed pursuant to section 5 of this act.

This section shall in no way prevent the department of wildlife from managing its lands to accomplish its statutory mandate pursuant to RCW

77.12.010, nor shall it prevent the department from managing its lands according to the provisions of RCW 77.12.210 or rules adopted pursuant to this chapter.

NEW SECTION. Sec. 7. Washington State University shall report to the appropriate legislative committees by December 31, 1993, on how to best integrate fish and wildlife considerations with the existing curriculum in the university's agriculture department and with the university cooperative extension service. The university shall also report on the feasibility and cost of creating a rotational assignment with the department of wildlife to accomplish cross-training in wildlife and fish habitat management and farm and grazing management.

NEW SECTION. Sec. 8. By July 1, 1993, the departments of fisheries and wildlife shall provide information on salmonid stock status, by individual stock, to the department of ecology, the Washington association of cities, the Washington state association of counties, and water purveyors.

Sec. 9. RCW 43.20.230 and 1989 c 348 s 12 are each amended to read as follows:

Consistent with the water resource planning process of the department of ecology, the department of ~~((social and))~~ health ~~((services))~~ shall ~~((contingent on the availability of funds))~~:

(1) Develop procedures and guidelines relating to water use efficiency, as defined in section 4(3) ~~((of this act))~~, chapter 348, Laws of 1989, to be included in the development and approval of cost-efficient water system plans required under RCW 43.20.050;

(2) Develop criteria, with input from technical experts, with the objective of encouraging the cost-effective reuse of greywater and other water recycling practices, consistent with protection of public health and water quality; ~~((and))~~

(3) Provide advice and technical assistance upon request in the development of water use efficiency plans; and

(4) Provide advice and technical assistance on request for development of model ~~((rate setting formulas))~~ conservation rate structures for public water systems. Subsections (1), (2), and (3) of this section are subject to the availability of funding.

NEW SECTION. Sec. 10. A new section is added to chapter 43.20 RCW to read as follows:

Water purveyors required to develop a water system plan pursuant to RCW 43.20.230 shall evaluate the feasibility of adopting and implementing water delivery rate structures that encourage water conservation. This information shall be included in water system plans submitted to the department of health for approval after July 1, 1993. The department shall evaluate the following:

(1) Rate structures currently used by public water systems in Washington; and

(2) Economic and institutional constraints to implementing conservation rate structures.

The department shall provide its findings to the appropriate committees of the legislature no later than December 31, 1995.

NEW SECTION. **Sec. 11.** A new section is added to chapter 90.54 RCW to read as follows:

The department, in cooperation with the Washington state water resources association, shall accomplish the following:

- (1) Determine and evaluate rate structures currently used by irrigation districts in the state of Washington;
- (2) Identify economic and institutional constraints to implementing conservation rate structures; and
- (3) Develop model conservation rate structures for consideration by irrigation districts.

The department shall provide its findings to the appropriate committees of the legislature no later than December 31, 1993.

Sec. 12. RCW 90.03.360 and 1989 c 348 s 6 are each amended to read as follows:

(1) The owner or owners of any ~~((ditch or canal))~~ water diversion shall maintain, to the satisfaction of the department of ecology, substantial controlling works~~(;)~~ and a measuring device ~~((at the point where the water is diverted, and these shall be so))~~ constructed and maintained ~~((as))~~ to permit accurate measurement and practical regulation of the flow of water diverted ~~((into said ditch or canal))~~. Every owner or manager of a reservoir for the storage of water shall construct and maintain, when required by the department, any measuring device necessary to ascertain the natural flow into and out of said reservoir.

Metering of diversions or measurement by other approved methods shall be required as a condition for all new surface water right permits, and except as provided in subsection (2) of this section, may be required as a condition for all ((new)) previously existing surface water ((right permits)) rights. The department may also require, as a condition for ~~((such permits))~~ all water rights, metering of diversions, and reports regarding such metered diversions as to the amount of water being diverted. Such reports shall be in a form prescribed by the department.

(2) Where water diversions are from waters in which the salmonid stock status is depressed or critical, as determined by the departments of fisheries and wildlife, or where the volume of water being diverted exceeds one cubic foot per second, the department shall require metering or measurement by other approved methods as a condition for all new and previously existing water rights or claims. The department shall attempt to integrate the requirements of this subsection into its existing compliance workload priorities, but shall prioritize the requirements of this subsection ahead of the existing compliance workload where a delay may cause the decline of wild salmonids. The department shall notify the departments of fisheries and wildlife of the status of fish screens associated with these diversions.

This subsection (2) shall not apply to diversions for public or private hatcheries or fish rearing facilities if the diverted water is returned directly to the waters from which it was diverted.

NEW SECTION. Sec. 13. A new section is added to chapter 90.22 RCW to read as follows:

By December 31, 1993, the department of ecology shall, in cooperation with the Indian tribes, and the departments of fisheries and wildlife, establish a state-wide list of priorities for evaluation of instream flows. In establishing these priorities, the department shall consider the achievement of wild salmonid production as its primary goal.

The priority list shall be presented to the appropriate legislative committees and to the water resources forum by December 31, 1993.

Sec. 14. RCW 90.42.010 and 1991 c 347 s 5 are each amended to read as follows:

(1) The legislature finds that a need exists to develop and test a means to facilitate the voluntary transfer of water and water rights, including conserved water, to provide water for presently unmet needs and emerging needs. Further, the legislature finds that water conservation activities have the potential of affecting the quantity of return flow waters to which existing water right holders have a right to and rely upon. It is the intent of the legislature that persons holding rights to water, including return flows, not be adversely affected in the implementation of the provisions of this chapter.

The purpose of this chapter is to provide the mechanism for accomplishing this in a manner that will not impair existing rights to water and to test the mechanism in two pilot planning areas designated pursuant to RCW 90.54.045(2) and in the water resource inventory areas designated under subsection (2) of this section.

(2) The department may designate up to four water resource inventory areas west of the crest of the Cascade mountains and up to four water resource inventory areas east of the crest of the Cascade mountains, as identified pursuant to chapter 90.54 RCW. The areas designated shall contain critical water supply problems and shall provide an opportunity to test and evaluate a variety of applications of RCW 90.42.010 through 90.42.090, including application to municipal, industrial, and agricultural use. The department shall seek advice from appropriate state agencies, Indian tribes, local governments, representatives of water right holders, and interested parties before identifying such water resource inventory areas.

(3) The department shall provide to the appropriate legislative committees by December 31, 1993, a written evaluation of the implementation of RCW 90.42.010 through 90.42.090 and recommendations for future application. Recommendations shall include methods of applying RCW 90.42.010 through 90.42.090 to the rivers that are designated as high priority by the department of

ecology under section 13 of this act in order to use net water savings to enhance stream flows.

NEW SECTION. **Sec. 15.** The governor's council on environmental education created in 1990 by executive order 90-06, shall accomplish the following:

(1) Raise and distribute public and private funds for the purpose of providing environmental education programs and projects in fish and wildlife preservation and management to public and private elementary and secondary schools, emphasizing the importance of species conservation and fish and wildlife as indicators of ecosystem health; and

(2) Support interdisciplinary programs that integrate fish and wildlife preservation and management with other areas of environmental education.

NEW SECTION. **Sec. 16.** Section 15 of this act shall constitute a new chapter in Title 28A RCW.

NEW SECTION. **Sec. 17.** (1) If specific funding for sections 1 through 6 and 8 through 15 of this act, referencing this act by bill and section numbers, is not provided by June 30, 1993, in the omnibus appropriations act, sections 1 through 6 and 8 through 15 of this act are null and void.

(2) If specific funding for section 7 of this act, referencing this act by bill and section number, is not provided by June 30, 1993, in the omnibus appropriations act, section 7 of this act is null and void.

Passed the House April 27, 1993.

Passed the Senate April 30, 1993.

Approved by the Governor May 28, 1993.

Filed in Office of Secretary of State May 28, 1993.

GROWTH MANAGEMENT ACT—REVISIONS AND
EXTENSION OF COMPLIANCE DATES

Effective Date: 6/1/93

AN ACT Relating to clarifying and extending dates established under the growth management act by no more than two years; amending RCW 36.70A.040, 36.70A.110, 36.70A.120, 36.70A.210, and 82.02.050; adding a new section to chapter 36.70A RCW; providing an effective date; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

Sec. 1. RCW 36.70A.040 and 1990 1st ex.s. c 17 s 4 are each amended to read as follows:

(1) Each county that has both a population of fifty thousand or more and has had its population increase by more than ten percent in the previous ten years, and the cities located within such county, and any other county regardless of its population that has had its population increase by more than twenty percent in the previous ten years, and the cities located within such county, shall ~~((adopt comprehensive land use plans and development regulations under))~~ conform with all of the requirements of this chapter. However, the county legislative authority of such a county with a population of less than fifty thousand population may adopt a resolution removing the county, and the cities located within the county, from the requirements of adopting comprehensive land use plans and development regulations under this chapter if this resolution is adopted and filed with the department by December 31, 1990, for counties initially meeting this set of criteria, or within sixty days of the date the office of financial management certifies that a county meets this set of criteria under subsection (5) of this section.

Once a county meets either of these sets of criteria, the requirement to conform with ~~((RCW 36.70A.040 through 36.70A.160))~~ all of the requirements of this chapter remains in effect, even if the county no longer meets one of these sets of criteria.

(2) The county legislative authority of any county that does not meet ~~((the requirements of))~~ either of the sets of criteria established under subsection (1) of this section may adopt a resolution indicating its intention to have subsection (1) of this section apply to the county. Each city, located in a county that chooses to plan under this subsection, shall ~~((adopt a comprehensive land use plan in accordance with))~~ conform with all of the requirements of this chapter. Once such a resolution has been adopted, the county ~~((cannot remove itself from))~~ and the cities located within the county remain subject to all of the requirements of this chapter.

(3) Any county or city that is initially required to ~~((adopt a comprehensive land use plan))~~ conform with all of the requirements of this chapter under subsection (1) of this section shall take actions under this chapter as follows: (a) The county legislative authority shall adopt a county-wide planning policy under

RCW 36.70A.210; (b) the county and each city located within the county shall designate critical areas, agricultural lands, forest lands, and mineral resource lands, and adopt development regulations conserving these designated agricultural lands, forest lands, and mineral resource lands and protecting these designated critical areas, under RCW 36.70A.170 and 36.70A.060; (c) the county shall designate and take other actions related to urban growth areas under RCW 36.70A.110; (d) if the county has a population of fifty thousand or more, the county and each city located within the county shall adopt ~~((the))~~ a comprehensive plan under this chapter and development regulations that are consistent with and implement the comprehensive plan on or before July 1, ~~((1993))~~ 1994, and if the county has a population of less than fifty thousand, the county and each city located within the county shall adopt a comprehensive plan under this chapter and development regulations that are consistent with and implement the comprehensive plan by January 1, 1995, but if the governor makes written findings that a county with a population of less than fifty thousand or a city located within such a county is not making reasonable progress toward adopting a comprehensive plan and development regulations the governor may reduce this deadline for such actions to be taken by no more than one hundred eighty days. Any county or city subject to this subsection may obtain an additional six months before it is required to have adopted its development regulations by submitting a letter notifying the department of community development of its need prior to the deadline for adopting both a comprehensive plan and development regulations.

~~(4)~~ Any county or city that is required to ~~((adopt a comprehensive land use plan))~~ conform with all the requirements of this chapter, as a result of the county legislative authority adopting its resolution of intention under subsection (2) of this section, shall take actions under this chapter as follows: (a) The county legislative authority shall adopt a county-wide planning policy under RCW 36.70A.210; (b) the county and each city that is located within the county shall adopt development regulations conserving agricultural lands, forest lands, and mineral resource lands it designated under RCW 36.70A.060 within one year of the date the county legislative authority adopts its resolution of intention; (c) the county shall designate and take other actions related to urban growth areas under RCW 36.70A.110; and (d) the county and each city that is located within the county shall adopt ~~((the))~~ a comprehensive plan and development regulations that are consistent with and implement the comprehensive plan not later than ~~((three))~~ four years from the date the county legislative ~~((body takes action as required by subsection (2) of this section))~~ authority adopts its resolution of intention, but a county or city may obtain an additional six months before it is required to have adopted its development regulations by submitting a letter notifying the department of community development of its need prior to the deadline for adopting both a comprehensive plan and development regulations.

~~((4))~~ (5) If the office of financial management certifies that the population of a county that previously had not been required to plan under subsection (1)

or (2) of this section has changed sufficiently to meet either of the ((requirements of)) sets of criteria specified under subsection (1) of this section, and where applicable, the county legislative authority has not adopted a resolution removing the county from these requirements as provided in subsection (1) of this section, the county and each city within such county shall ((adopt)) take actions under this chapter as follows: (a) The county legislative authority shall adopt a county-wide planning policy under RCW 36.70A.210; (b) the county and each city located within the county shall adopt development regulations under RCW 36.70A.060 conserving agricultural lands, forest lands, and mineral resource lands it designated within one year of the certification by the office of financial management; ((b)) (c) the county shall designate and take other actions related to urban growth areas under RCW 36.70A.110; and (d) the county and each city located within the county shall adopt a comprehensive land use plan ((under this chapter)) and development regulations that are consistent with and implement the comprehensive plan within ((three)) four years of the certification by the office of financial management((; and (e) development regulations pursuant to this chapter within one year of having adopted its comprehensive land use plan)), but a county or city may obtain an additional six months before it is required to have adopted its development regulations by submitting a letter notifying the department of community development of its need prior to the deadline for adopting both a comprehensive plan and development regulations.

(6) A copy of each document that is required under this section shall be submitted to the department at the time of its adoption.

Sec. 2. RCW 36.70A.110 and 1991 sp.s. c 32 s 29 are each amended to read as follows:

(1) Each county that is required or chooses to ~~((adopt a comprehensive land use))~~ plan under RCW 36.70A.040 shall designate an urban growth area or areas within which urban growth shall be encouraged and outside of which growth can occur only if it is not urban in nature. Each city that is located in such a county shall be included within an urban growth area. An urban growth area may include more than a single city. An urban growth area may include territory that is located outside of a city only if such territory already is characterized by urban growth or is adjacent to territory already characterized by urban growth.

(2) Based upon the population growth management planning population projection made for the county by the office of financial management, the urban growth areas in the county shall include areas and densities sufficient to permit the urban growth that is projected to occur in the county for the succeeding twenty-year period. Each urban growth area shall permit urban densities and shall include greenbelt and open space areas. Within one year of July 1, 1990, each county ~~((required to designate urban growth areas))~~ that as of June 1, 1991, was required or chose to plan under RCW 36.70A.040, shall begin consulting with each city located within its boundaries and each city shall propose the location of an urban growth area. Within sixty days of the date the county legislative authority of a county adopts its resolution of intention or of

certification by the office of financial management, all other counties that are required or choose to plan under RCW 36.70A.040 shall begin this consultation with each city located within its boundaries. The county shall attempt to reach agreement with each city on the location of an urban growth area within which the city is located. If such an agreement is not reached with each city located within the urban growth area, the county shall justify in writing why it so designated the area an urban growth area. A city may object formally with the department over the designation of the urban growth area within which it is located. Where appropriate, the department shall attempt to resolve the conflicts, including the use of mediation services.

(3) Urban growth should be located first in areas already characterized by urban growth that have existing public facility and service capacities to serve such development, and second in areas already characterized by urban growth that will be served by a combination of both existing public facilities and services and any additional needed public facilities and services that are provided by either public or private sources. Further, it is appropriate that urban government services be provided by cities, and urban government services should not be provided in rural areas.

(4) On or before October 1, 1993, each county that was initially required to plan under RCW 36.70A.040(1) shall adopt development regulations designating interim urban growth areas under this chapter. Within three years and three months of the date the county legislative authority of a county adopts its resolution of intention or of certification by the office of financial management, all other counties that are required or choose to plan under RCW 36.70A.040 shall adopt development regulations designating interim urban growth areas under this chapter. Adoption of the interim urban growth areas may only occur after public notice; public hearing; and compliance with the state environmental policy act, chapter 43.21C RCW, and RCW 36.70A.110. Such action may be appealed to the appropriate growth planning hearings board under RCW 36.70A.280. Final urban growth areas shall be adopted at the time of comprehensive plan adoption under this chapter.

(5) Each county shall include designations of urban growth areas in its comprehensive plan.

Sec. 3. RCW 36.70A.120 and 1990 1st ex.s. c 17 s 12 are each amended to read as follows:

~~((Within one year of the adoption of its comprehensive plan, each county and city that is required or chooses to plan under RCW 36.70A.040 shall enact development regulations that are consistent with and implement the comprehensive plan. These counties and cities))~~ Each county and city that is required or chooses to plan under RCW 36.70A.040 shall perform ((their)) its activities and make capital budget decisions in conformity with ((their)) its comprehensive plan((s)).

Sec. 4. RCW 36.70A.210 and 1991 sp.s. c 32 s 2 are each amended to read as follows:

(1) The legislature recognizes that counties are regional governments within their boundaries, and cities are primary providers of urban governmental services within urban growth areas. For the purposes of this section, a "county-wide planning policy" is a written policy statement or statements used solely for establishing a county-wide framework from which county and city comprehensive plans are developed and adopted pursuant to this chapter. This framework shall ensure that city and county comprehensive plans are consistent as required in RCW 36.70A.100. Nothing in this section shall be construed to alter the land-use powers of cities.

(2) The legislative authority of a county that plans under RCW 36.70A.040 shall adopt a county-wide planning policy in cooperation with the cities located in whole or in part within the county as follows:

(a) No later than sixty calendar days from July 16, 1991, the legislative authority of ~~((the))~~ each county that as of June 1, 1991, was required or chose to plan under RCW 36.70A.040 shall convene a meeting with representatives of each city located within the county for the purpose of establishing a collaborative process that will provide a framework for the adoption of a county-wide planning policy~~((;))~~. In other counties that are required or choose to plan under RCW 36.70A.040, this meeting shall be convened no later than sixty days after the date the county adopts its resolution of intention or was certified by the office of financial management.

(b) The process and framework for adoption of a county-wide planning policy specified in (a) of this subsection shall determine the manner in which the county and the cities agree to all procedures and provisions including but not limited to desired planning policies, deadlines, ratification of final agreements and demonstration thereof, and financing, if any, of all activities associated therewith~~((;))~~.

(c) If a county fails for any reason to convene a meeting with representatives of cities as required in (a) of this subsection, the governor may immediately impose any appropriate sanction or sanctions on the county from those specified under RCW 36.70A.340~~((;))~~.

(d) If there is no agreement by October 1, 1991, in a county that was required or chose to plan under RCW 36.70A.040 as of June 1, 1991, or if there is no agreement within one hundred twenty days of the date the county adopted its resolution of intention or was certified by the office of financial management in any other county that is required or chooses to plan under RCW 36.70A.040, the governor shall first inquire of the jurisdictions as to the reason or reasons for failure to reach an agreement. If the governor deems it appropriate, the governor may immediately request the assistance of the department of community development to mediate any disputes that preclude agreement. If mediation is unsuccessful in resolving all disputes that will lead to agreement, the governor may impose appropriate sanctions from those specified under RCW 36.70A.340

on the county, city, or cities for failure to reach an agreement as provided in this section. The governor shall specify the reason or reasons for the imposition of any sanction(~~(+and)~~).

(e) No later than July 1, 1992, the legislative authority of ~~((the))~~ each county that was required or chose to plan under RCW 36.70A.040 as of June 1, 1991, or no later than fourteen months after the date the county adopted its resolution of intention or was certified by the office of financial management the county legislative authority of any other county that is required or chooses to plan under RCW 36.70A.040, shall adopt a county-wide planning policy according to the process provided under this section and that is consistent with the agreement pursuant to (b) of this subsection, and after holding a public hearing or hearings on the proposed county-wide planning policy.

(3) A county-wide planning policy shall at a minimum, address the following:

- (a) Policies to implement RCW 36.70A.110;
- (b) Policies for promotion of contiguous and orderly development and provision of urban services to such development;
- (c) Policies for siting public capital facilities of a county-wide or state-wide nature;
- (d) Policies for county-wide transportation facilities and strategies;
- (e) Policies that consider the need for affordable housing, such as housing for all economic segments of the population and parameters for its distribution;
- (f) Policies for joint county and city planning within urban growth areas;
- (g) Policies for county-wide economic development and employment; and
- (h) An analysis of the fiscal impact.

(4) Federal agencies and Indian tribes may participate in and cooperate with the county-wide planning policy adoption process. Adopted county-wide planning policies shall be adhered to by state agencies.

(5) Failure to adopt a county-wide planning policy that meets the requirements of this section may result in the imposition of a sanction or sanctions on a county or city within the county, as specified in RCW 36.70A.340. In imposing a sanction or sanctions, the governor shall specify the reasons for failure to adopt a county-wide planning policy in order that any imposed sanction or sanctions are fairly and equitably related to the failure to adopt a county-wide planning policy.

(6) Cities and the governor may appeal an adopted county-wide planning policy to the growth planning hearings board within sixty days of the adoption of the county-wide planning policy.

(7) Multicounty planning policies shall be adopted by two or more counties, each with a population of four hundred fifty thousand or more, with contiguous urban areas and may be adopted by other counties, according to the process established under this section or other processes agreed to among the counties and cities within the affected counties throughout the multicounty region.

NEW SECTION. Sec. 5. A new section is added to chapter 36.70A RCW to read as follows:

The governor may impose a sanction or sanctions specified under RCW 36.70A.340 on: (1) A county or city that fails to designate critical areas, agricultural lands, forest lands, or mineral resource lands under RCW 36.70A.170 by the date such action was required to have been taken; (2) a county or city that fails to adopt development regulations under RCW 36.70A.060 protecting critical areas or conserving agricultural lands, forest lands, or mineral resource lands by the date such action was required to have been taken; (3) a county that fails to designate urban growth areas under RCW 36.70A.110 by the date such action was required to have been taken; and (4) a county or city that fails to adopt its comprehensive plan or development regulations when such actions are required to be taken.

Imposition of a sanction or sanctions under this section shall be preceded by written findings by the governor, that either the county or city is not proceeding in good faith to meet the requirements of the act; or that the county or city has unreasonably delayed taking the required action. The governor shall consult with and communicate his or her findings to the appropriate growth planning hearings board prior to imposing the sanction or sanctions. For those counties or cities that are not required to plan or have not opted in, the governor in imposing sanctions shall consider the size of the jurisdiction relative to the requirements of this chapter and the degree of technical and financial assistance provided.

Sec. 6. RCW 82.02.050 and 1990 1st ex.s. c 17 s 43 are each amended to read as follows:

(1) It is the intent of the legislature:

(a) To ensure that adequate facilities are available to serve new growth and development;

(b) To promote orderly growth and development by establishing standards by which counties, cities, and towns may require, by ordinance, that new growth and development pay a proportionate share of the cost of new facilities needed to serve new growth and development; and

(c) To ensure that impact fees are imposed through established procedures and criteria so that specific developments do not pay arbitrary fees or duplicative fees for the same impact.

(2) Counties, cities, and towns that are required or choose to plan under RCW 36.70A.040 are authorized to impose impact fees on development activity as part of the financing for public facilities, provided that the financing for system improvements to serve new development must provide for a balance between impact fees and other sources of public funds and cannot rely solely on impact fees.

(3) The impact fees:

(a) Shall only be imposed for system improvements that are reasonably related to the new development;

(b) Shall not exceed a proportionate share of the costs of system improvements that are reasonably related to the new development; and

(c) Shall be used for system improvements that will reasonably benefit the new development.

(4) Impact fees may be collected and spent only for the public facilities defined in RCW 82.02.090 which are addressed by a capital facilities plan element of a comprehensive land use plan adopted pursuant to the provisions of RCW 36.70A.070 or the provisions for comprehensive plan adoption contained in chapter 36.70, 35.63, or 35A.63 RCW. After ~~((July 1, 1993))~~ the date a county, city, or town is required to adopt its comprehensive plan and development regulations under chapter 36.70A RCW, continued authorization to collect and expend impact fees shall be contingent on the county, city, or town adopting or revising a comprehensive plan in compliance with RCW 36.70A.070, and on the capital facilities plan identifying:

(a) Deficiencies in public facilities serving existing development and the means by which existing deficiencies will be eliminated within a reasonable period of time;

(b) Additional demands placed on existing public facilities by new development; and

(c) Additional public facility improvements required to serve new development.

If the capital facilities plan of the county, city, or town is complete other than for the inclusion of those elements which are the responsibility of a special district, the county, city, or town may impose impact fees to address those public facility needs for which the county, city, or town is responsible.

NEW SECTION. **Sec. 7.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect June 1, 1993.

Passed the House May 3, 1993.

Passed the Senate April 30, 1993.

CHAPTER 7

[Substitute House Bill 1969]

WASHINGTON SERVES PROGRAM

Effective Date: 8/5/93

AN ACT Relating to the Washington serves program; adding new sections to chapter 50.65 RCW; and creating new sections.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. The legislature finds that:

(1) Budget constraints are causing severe gaps and reductions in vital services to local communities and citizens. Some of these gaps in services can be filled by citizen volunteers through an organized program to recruit and place volunteers and to expand opportunities for volunteers to serve their communities;

(2) The federal government is proposing expansion of national services programs. These programs may require significant matching resources from states. State funds supporting the Washington serves program can serve as a required matching source to leverage additional federal national service resources;

(3) Washington state has, through the Washington service corps, successfully offered service opportunities and meaningful work experience to young adults between the ages of eighteen and twenty-five years;

(4) The need exists to expand full-time volunteer opportunities to citizens age twenty-one and over, to encourage senior citizens, college graduates, professional and technically skilled persons, and other adult citizens, to contribute their critical expertise, experience, labor, and commitment to meeting the needs of their communities;

(5) It is appropriate and in the public's interest for Washington state to create opportunities for citizens to engage in full-time, meaningful volunteer service in governmental or private nonprofit agencies, institutions, programs, or activities that address the social, economic, educational, civic, cultural, or environmental needs of local communities;

(6) Through volunteer service, citizens apply their skills and knowledge to the resolution of critical problems or meeting unmet needs, gain valuable experience, refine or develop new skills, and instill a sense of civic pride and commitment to their community;

(7) There is a need to coordinate state and federally funded volunteer service programs that provide living allowances and other benefits to volunteers to maximize the benefits to volunteers and the organizations in which they serve.

It is therefore the legislature's desire to expand full-time volunteer opportunities for citizens age twenty-one and over and to provide appropriate incentives to those who serve. Such a program should be implemented state-wide and coordinated across programs.

NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Commissioner" means the commissioner of the employment security department.

(2) "Council" means the Washington council on volunteerism and citizen service authorized by chapter 43.150 RCW.

(3) "Department" means the employment security department.

(4) "Volunteer" means a person at least twenty-one years of age who, upon application and acceptance into the program, is placed in a governmental or private, nonprofit organization to perform full-time service for the benefit of the community, and who receives a living allowance and other benefits as authorized under this chapter.

NEW SECTION. Sec. 3. There is hereby created within the employment security department a program for full-time community service that shall be known and referred to as the Washington serves program. The department shall recruit, train, place, and evaluate applicants to the program. The department may accept applications and enter into agreements or contracts with any governmental or private nonprofit organization appropriate for placement of volunteers under this program. The commissioner, after consultation with the council, may adopt rules as needed to carry out the intent and purposes of this program. It is the intent of the legislature that the commissioner coordinate this program with all volunteer service programs, whether funded with state or federal dollars, in order to maximize the benefits to volunteers and the communities served under the program. It is also the legislature's intent that to the extent that state funds are paid directly to persons that participate in the program, whether to reimburse, support, assist, or provide other direct payment, no volunteer may have such reimbursement, support, assistance, or other payment reduced or withheld for having served in the program.

NEW SECTION. Sec. 4. (1) Applicants to the Washington serves program shall be at least twenty-one years of age and a resident of Washington state.

(2) Applicants may apply to serve for a period of service of one year, except that volunteers may serve for periods of service of less than one year if it is determined by the commissioner, on an individual basis, that a period of service of less than one year is necessary to meet a critical scarce skill or necessary to enable a person or organization to participate in the program.

(3) Volunteers may reapply for periods of service totaling not more than two additional years.

(4) Applicants to the program shall be committed to providing full-time service to the community.

NEW SECTION. Sec. 5. (1) Program volunteers shall be selected from among qualified individuals submitting applications for full-time service at such time, in such form, and containing such information as may be necessary to evaluate the suitability of each individual for service, and available placements. The commissioner or the commissioner's designee shall review the application of each individual who applies in conformance with selection criteria established

by the commissioner after consultation with the council, and who, on the basis of the information provided in the application, is determined to be suitable to serve as a volunteer under the Washington serves program.

(2) Within available funds, volunteers may be placed with any public or private nonprofit organization, program, or project that qualifies to accept program volunteers according to the rules and application procedures established by the commissioner. Work shall benefit the community or state at-large and may include but is not limited to programs, projects, or activities that:

(a) Address the problems of jobless, homeless, hungry, illiterate, or functionally illiterate persons, and low-income youths;

(b) Provide support and a special focus on those project activities that address the needs of the unemployed and those in need of job training or retraining;

(c) Address significant health care problems, including services to homeless individuals and other low-income persons, especially children, through prevention and treatment;

(d) Meet the health, education, welfare, or related needs of low-income persons, particularly children and low-income minority communities;

(e) Provide care or rehabilitation services to the mentally ill, developmentally disabled, or other persons with disabilities;

(f) Address the educational and education-related needs of children, youth, families, and young adults within public educational institutions or related programs;

(g) Address alcohol and drug abuse prevention, education, and related activities; and

(h) Seek to enhance, improve, or restore the environment or that educate or advocate for a sustainable environment.

(3) Every reasonable effort shall be made to place participants in programs, projects, or activities of their choice if the agencies, programs, or activities are consistent with the intent and purposes of the Washington serves program, if there is mutual agreement between the agency, program, or activity and the volunteer, and if the volunteer's service is consistent with the intent and purpose of the program and would benefit the community or the state as a whole.

NEW SECTION. Sec. 6. (1) Volunteers accepted into the Washington serves program and placed in an approved agency, program, or activity, shall be provided a monthly subsistence allowance in an amount determined by the commissioner taking into consideration the allowance given to VISTA, Washington service corps, and other similar service programs. For those persons who qualify and are granted a deferment of federal student loan payments while serving in the program, the rate of compensation shall be equal to but not greater than the monthly subsistence allowance granted Volunteers In Service To America (VISTA) serving in this state, as determined by the national ACTION agency or its successor, in accordance with section 105 (b)(2) of the Domestic Volunteer Service Act of 1973, P.L. 93-113, as amended.

(2) The commissioner or the commissioner's designee shall, within available funds, ensure that each volunteer has available support to enable the volunteer to perform the work to which the volunteer is assigned. Such support may include, but is not limited to, reimbursement for travel expenses, payment for education and training expenses, including preservice and on-the-job training necessary for the performance of duties, technical assistance, and other support deemed necessary and appropriate.

(3) At the end of each volunteer's period of service of not less than one year, each volunteer may receive a postservice stipend for each month of completed service in an amount determined by the commissioner. The postservice stipend for those persons who qualify and are granted a deferment of federal student loan payments while serving in this program shall be an amount equal to but not greater than the amount or rate determined by the national ACTION agency or its successor, in accordance with section 105(b)(2) of the Domestic Volunteer Service Act of 1973, P.L. 93-113 as amended, for Volunteers In Service To America (VISTA), who are providing services in this state. Volunteers under the Washington serves program may accrue the stipend for each month of their service period of not less than one year, including any month during which they were in training. The commissioner or the commissioner's designee may, on an individual basis, make an exception to provide a stipend to a volunteer who has served less than one year.

(4) Stipends shall be payable to the volunteer only upon completion of the period of service. Under circumstances determined by the commissioner, the stipend may be paid on behalf of the volunteer to members of the volunteer's family or others designated by the volunteer.

NEW SECTION. Sec. 7. Within available funds, medical aid coverage under chapter 51.36 RCW and medical insurance shall be provided to all volunteers under this program. The department shall give notice of medical aid coverage to the director of labor and industries upon acceptance of the volunteer into the program. The department shall not be deemed an employer of any volunteer under the Washington serves program for any other purpose. Other provisions of law relating to civil service, hours of work, rate of compensation, sick leave, unemployment compensation, old age, health and survivor's insurance, state retirement plans, and vacation leave do not apply to volunteers under this program.

NEW SECTION. Sec. 8. The assignment of volunteers under the Washington serves program shall not result in the displacement of currently employed workers, including partial displacement such as would result from a reduction in hours of nonovertime work, wages, or other employment benefits. Participating agencies, programs, or activities may not terminate, layoff, or reduce the working hours of any employee for the purpose of using volunteers under the Washington serves program. In circumstances where substantial efficiencies or a public purpose may result, participating agencies may use

volunteers to carry out essential agency work or contractual functions without displacing current employees.

NEW SECTION. Sec. 9. The services of volunteers placed with participating agencies described in chapter 50.44 RCW are not eligible for unemployment compensation coverage. Each volunteer shall be so advised by the commissioner or the commissioner's designee.

NEW SECTION. Sec. 10. The commissioner or the commissioner's designee may assist any volunteer serving full-time under the Washington serves program in obtaining a service deferment of federally funded student loan payments during his or her period of service.

NEW SECTION. Sec. 11. The commissioner or the commissioner's designee may provide or arrange for educational, vocational, or job counseling for program volunteers at the end of their period of service to (1) encourage volunteers to use the skills and experience which they have derived from their training and service, and (2) promote the development of appropriate opportunities for the use of such skills and experience, and the placement therein of such volunteers. The commissioner or the commissioner's designee may also assist volunteers in developing a plan for gainful employment.

The commissioner shall provide for an appropriate means of recognition or certification of volunteer service.

NEW SECTION. Sec. 12. The executive administrator of the Washington serves program shall recruit and develop service placements and may enter into work agreements or contracts as needed to implement the Washington serves program. The commissioner, after consultation with the council, may adopt rules for participating agencies which rules may include, but are not limited to: Supervision of volunteers, reasonable work space or other working environment conditions, ongoing training, the handling of grievances or disputes, performance evaluations, frequency of agency contacts, and liability insurance coverage. The commissioner shall determine financial support levels for organizations receiving volunteer placements that will provide matching funds for enrollees in service projects under work agreements.

NEW SECTION. Sec. 13. The department may receive such gifts, grants, and endowments from private or public sources that may be made from time to time, in trust or otherwise, for the use and benefit of the Washington serves program and spend the same or any income therefrom according to the terms of the gifts, grants, or endowments.

The department may also use funds appropriated for the purposes of this chapter as matching funds for federal or private source funds to accomplish the purposes of this chapter.

NEW SECTION. Sec. 14. If any part of this act is found to be in conflict with federal requirements which are prescribed conditions to the receipt of federal funds or participation in any federal program, such conflicting part of this

act is declared to be inoperative solely to the extent of the conflict, and such finding or determination shall not affect the operation of the remainder of the act. Rules adopted pursuant to this act shall meet federal requirements which are a necessary condition to the receipt of federal funds by the state.

NEW SECTION. **Sec. 15.** Sections 1 through 13 of this act may be known and cited as the Washington serves act.

NEW SECTION. **Sec. 16.** Sections 1 through 13 of this act are each added to chapter 50.65 RCW.

NEW SECTION. **Sec. 17.** The commissioner shall report to the appropriate committees of the legislature on the success and impact of the Washington serves program by January 1, 1996.

NEW SECTION. **Sec. 18.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. **Sec. 19.** If specific funding for the purposes of this act, referencing this act by bill number, is not provided by June 30, 1993, in the omnibus appropriations act, this act is null and void.

Sec. 11. RCW 74.46.470 and 1987 c 476 s 4 are each amended to read as follows:

(1) A contractor's reimbursement rates for medical care recipients will be determined utilizing net invested funds and desk-reviewed cost report data within the following cost centers:

- (a) Nursing services;
- (b) Food;
- (c) ~~((Administration and operations))~~ Administrative; ~~((and))~~
- (d) Operational; and
- (e) Property.

(2) There shall be for the time period January 1988 through June 1990 only an enhancement cost center established to reimburse contractors for specific legislatively authorized enhancements for nonadministrative wages and benefits to ensure that such enhancements are used exclusively for the legislatively authorized purposes. For purposes of settlement, funds appropriated to this cost center shall only be used for expenditures for which the legislative authorization is granted. Such funds may be used only in the following circumstances:

(a) The contractor has increased expenditures for which legislative authorization is granted to at least the highest level paid in any of the last three cost years, plus, beginning July 1, 1987, any percentage inflation adjustment as was granted each year under RCW 74.46.495; and

(b) All funds shifted from the enhancement cost center are shown to have been expended for legislatively authorized enhancements.

(3) If the contractor does not spend the amount appropriated to this cost center in the legislatively authorized manner, then the amounts not appropriately spent shall be recouped at preliminary or final settlement pursuant to RCW 74.46.160.

(4) For purposes of this section, "nonadministrative wages and benefits" means wages and payroll taxes paid with respect to, and the employer share of the cost of benefits provided to, employees in job classes specified in an appropriation, which may not include administrators, assistant administrators, or administrators in training.

(5) Amounts expended in the enhancement cost center in excess of the minimum wage established under RCW 74.46.430 are subject to all provisions contained in this chapter.

Sec. 12. RCW 74.46.481 and 1991 sp.s. c 8 s 16 are each amended to read as follows:

(1) The nursing services cost center shall include for reporting and audit purposes all costs related to the direct provision of nursing and related care, including fringe benefits and payroll taxes for the nursing and related care personnel, and the cost of nursing supplies. ~~((For rates effective for state fiscal year 1984,))~~ The department shall adopt by administrative rule a definition of "related care" ~~((which shall incorporate, but not exceed services reimbursable as of June 30, 1983. For rates effective for state fiscal year 1985, the definition of related care shall include ancillary care)).~~ For rates effective after June 30, 1991, nursing services costs, as reimbursed within this chapter ~~((and as tested for reasonableness within this section)),~~ shall not include costs of any purchased nursing care services, including registered nurse, licensed practical nurse, and nurse assistant services, obtained through service contract arrangement in excess of the amount of compensation paid for such hours of nursing care service had they been paid at the average hourly wage, including related taxes and benefits, for in-house nursing care staff of like classification at the same nursing facility, as reported in the most recent cost report period.

(2) The department shall adopt ~~((by))~~ through administrative rules a method for establishing a nursing services cost center rate consistent with the principles stated in this section.

(3) Utilizing regression or other statistical technique, the department shall determine a reasonable limit on facility nursing staff taking into account facility patient characteristics. For purposes of this section, facility nursing staff refers to registered nurses, licensed practical nurses and nursing assistants employed by the facility or obtained through temporary labor contract arrangements. Effective

January 1, 1988, the hours associated with the training of nursing assistants and the supervision of that training for nursing assistants shall not be included in the calculation of facility nursing staff. In selecting a measure of patient characteristics, the department shall take into account:

(a) The correlation between alternative measures and facility nursing staff; and

(b) The cost of collecting information for and computation of a measure.

If regression is used, the limit shall be set at predicted nursing staff plus 1.75 regression standard errors. If another statistical method is utilized, the limit shall be set at a level corresponding to 1.75 standard errors above predicted staffing computed according to a regression procedure. A regression calculated shall be effective for the entire biennium.

(4) No facility shall receive reimbursement for nursing staff levels in excess of the limit(~~(, except that, if a facility was reimbursed for a nursing staff level in excess of the limit as of June 30, 1983, the facility may chose [choose] to continue to receive its June, 1983 nursing services rate plus any adjustments in rates, such as adjustments for economic trends, made available to all facilities)).~~ However, nursing staff levels established under subsection (3) of this section shall not apply to the nursing services cost center reimbursement rate only for the pilot facility especially designed to meet the needs of persons living with AIDS as defined by RCW 70.24.017 and specifically authorized for this purpose under the 1989 amendment to the Washington state health plan. (~~The reasonableness limit established pursuant to this subsection shall remain in effect for the period July 1, 1983 through June 30, 1985. At that time the department may revise the measure of patient characteristics or method used to establish the limit.~~)

(5) (~~The department shall select an index of cost increase relevant to the nursing and related services cost area. In the absence of a more representative index, the department shall use the medical care component index as maintained by the United States bureau of labor statistics.~~) Every two years when rates are set at the beginning of each new biennium, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office and (b) those not located in such an area. The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per patient day adjusted nursing services cost from the prior report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Nursing services rates for facilities within each peer group for the first year of the biennium shall be set at the lower of the facility's adjusted per patient day nursing services cost from the prior report period or the median cost for the facility's peer group plus twenty-five percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420.

However, the per patient day peer group median cost plus twenty-five percent limit shall not apply to the nursing services cost center reimbursement rate only for the pilot facility especially designed to meet the needs of persons living with AIDS as defined by RCW 70.24.017 and specifically authorized for this purpose under the 1989 amendment to the Washington state health plan.

~~(6) (If a facility's nursing staff level is below the limit specified in subsection (3) of this section, the department shall determine the percentage increase for all items included in the nursing services cost center between the facility's most recent cost reporting period and the next prior cost reporting period.~~

~~(a) If the percentage cost increase for a facility is below the increase in the selected index for the same time period, the facility's reimbursement rate in the nursing services cost center shall equal the facility's cost from the most recent cost reporting period plus any allowance for inflation provided by legislative appropriation.~~

~~(b) If the percentage cost increase for a facility exceeds the increase in the selected index, the department shall limit the cost used for setting the facility's rate in the nursing services cost area to a level reflecting the increase in the selected index.~~

~~(7) If the facility's nursing staff level exceeds the reasonableness limit established in subsection (3) of this section, the department shall determine the increase for all items included in the nursing services cost center between the facility's most recent cost reporting period and the next prior cost reporting period.~~

~~(a) If the percentage cost increase for a facility is below the increase in the index selected pursuant to subsection (5) of this section, the facility's reimbursement rate in the nursing cost center shall equal the facility's cost from the most recent cost reporting period adjusted downward to reflect the limit on nursing staff, plus any allowance for inflation provided by legislative appropriation subject to the provisions of subsection (4) of this section.~~

~~(b) If the percentage cost increase for a facility exceeds the increase in the selected index, the department shall limit the cost used for setting the facility's rate in the nursing services cost center to a level reflecting the nursing staff limit and the cost increase limit, subject to the provisions of subsection (4) of this section, plus any allowance for inflation provided by legislative appropriation.~~

~~(8) Prospective rates for the nursing services cost center, for state fiscal year 1992 only, shall not be subject to the cost growth index lid in subsections (5), (6), and (7) of this section. The lid shall apply for state fiscal year 1991 rate setting and all state fiscal years subsequent to fiscal year 1992.~~

(9)) If a nursing facility is impacted by the limit authorized in subsection (5) of this section, it shall not receive a prospective rate in nursing services for July 1, 1993, less than the same facility's prospective rate in nursing services as of June 30, 1993, adjusted by any increase in the implicit price deflator for

personal consumption expenditures, IPD index, as measured over the period authorized by RCW 74.46.420(3).

(7) A nursing facility's rate in nursing services for the second year of each biennium shall be that facility's rate as of July 1 of the first year of that biennium reduced or inflated as authorized by RCW 74.46.420. The alternating procedures prescribed in this section for a facility's two July 1 nursing services rates occurring within each biennium shall be followed in the same order for each succeeding biennium.

(8) Median costs for peer groups shall be calculated initially as provided in this chapter on the basis of the most recent adjusted cost information available to the department prior to the calculation of the new rate for July 1 of the first fiscal year of each biennium, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31 of the first fiscal year of each biennium, and shall apply retroactively to the prior July 1 rate, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not.

(9) The department is authorized to determine on a systematic basis facilities with unmet patient care service needs. The department may increase the nursing services cost center prospective rate for a facility beyond the level determined in accordance with subsection (6) of this section if the facility's actual and reported nursing staffing is one standard error or more below predicted staffing as determined according to the method selected pursuant to subsection (3) of this section and the facility has unmet patient care service needs: PROVIDED, That prospective rate increases authorized by this subsection shall be funded only from legislative appropriations made for this purpose during the periods authorized by such appropriations or other laws and the increases shall be conditioned on specified improvements in patient care at such facilities.

(10) The department shall establish a method for identifying patients with exceptional care requirements and a method for establishing or negotiating on a consistent basis rates for such patients.

(11) The department, in consultation with interested parties, shall adopt rules to establish the criteria the department will use in reviewing any requests by a contractor for a prospective rate adjustment to be used to increase the number of nursing staff. These rules shall also specify the time period for submission and review of staffing requests: PROVIDED, That a decision on a staffing request shall not take longer than sixty days from the date the department receives such a complete request. In establishing the criteria, the department may consider, but is not limited to, the following:

(a) Increases in ((acuity)) debility levels of contractors' residents determined in accordance with the department's assessment and reporting procedures and requirements utilizing the minimum data set;

- (b) Staffing patterns for similar facilities in the same peer group;
- (c) Physical plant of contractor; and
- (d) Survey, inspection of care, and department consultation results.

Sec. 13. RCW 74.46.490 and 1983 1st ex.s. c 67 s 25 are each amended to read as follows:

(1) The food cost center shall include for reporting purposes all costs for bulk and raw food and beverages purchased for the dietary needs of medical care recipients.

(2) ~~((Reimbursement for the food cost center shall be at the January 1, 1983, reimbursement rate, adjusted annually for inflation.))~~ Every two years when rates are set at the beginning of each new biennium, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office and (b) those not located in such an area. The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per patient day adjusted food cost from the prior report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Food rates for facilities within each peer group for the first year of the biennium shall be set at the lower of the facility's adjusted per patient day food cost from the prior report period or the median cost for the facility's peer group plus twenty-five percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420.

(3) A nursing facility's food rate for the second year of each biennium shall be that facility's rate as of July 1 of the first year of that biennium reduced or inflated as authorized by RCW 74.46.420. The alternating procedures prescribed in this section for a facility's two July 1 food rates occurring within each biennium shall be followed in the same order for each succeeding biennium.

(4) Median costs for peer groups shall be calculated initially as provided in this chapter on the basis of the most recent adjusted cost information available to the department prior to the calculation of the new rate for July 1 of the first fiscal year of each biennium, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31 of the first fiscal year of each biennium, and shall apply retroactively to the prior July 1 rate, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not.

Sec. 14. RCW 74.46.500 and 1992 c 182 s 1 are each amended to read as follows:

(1) The ~~((administration and operations))~~ administrative cost center shall include ~~((all items not included in the cost centers of nursing services, food, and property.~~

~~(2) Subject to subsection (4) of this section, the administration and operations cost center reimbursement rate for each facility shall be based on the computation in this subsection and shall not exceed the eighty fifth percentile of (a) the rates of all reporting facilities derived from the computation below, or (b) reporting facilities grouped in accordance with subsection (3) of this section:~~

~~AR = TAC/TPD, where~~

~~AR = the administration and operations cost center reimbursement rate for a facility;~~

~~TAC = the total costs of the administration and operations cost center plus the retained savings from such cost center as provided in RCW 74.46.180 of a facility; and~~

~~TPD = the total patient days for a facility for the prior year.~~

~~(3) The secretary may group facilities based on factors which could reasonably influence cost requirements of this cost center, other than ownership or legal organization characteristics.~~

~~(4) In applying the eighty fifth percentile reimbursement limit authorized by subsection (2) of this section to the pilot facility specially designed to meet the needs of persons living with AIDS as defined by RCW 70.24.017, and specifically authorized for this purpose under the 1989 amendment to the Washington state health plan, the department shall exempt the cost of nursing supplies reported by the pilot facility in excess of the average of nursing supplies cost for medicaid nursing facilities state wide)) for cost reporting purposes all administrative, oversight, and management costs whether facility on-site or allocated in accordance with a department-approved joint-cost allocation methodology. Such costs shall be identical to the cost report line item costs categorized under "general and administrative" in the "administration and operations" combined cost center existing prior to January 1, 1993, except for nursing supplies and purchased medical records.~~

(2) Every two years when rates are set at the beginning of each new biennium, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office and (b) those not located in such an area. The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per patient day adjusted administrative cost from the prior report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Administrative rates for facilities within each peer group for the first year of the biennium shall be set at the lower of the facility's adjusted per patient day

administrative cost from the prior report period or the median cost for the facility's peer group plus ten percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420.

(3) A nursing facility's administrative rate for the second year of each biennium shall be that facility's rate as of July 1 of the first year of that biennium reduced or inflated as authorized by RCW 74.46.420. The alternating procedures prescribed in this section for a facility's two July 1 administrative rates occurring within each biennium shall be followed in the same order for each succeeding biennium.

(4) Median costs for peer groups shall be calculated initially as provided in this chapter on the basis of the most recent adjusted cost information available to the department prior to the calculation of the new rate for July 1 of the first fiscal year of each biennium, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31 of the first fiscal year of each biennium, and shall apply retroactively to the prior July 1 rate, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not.

NEW SECTION. Sec. 15. A new section is added to chapter 74.46 RCW to read as follows:

(1) The operational cost center shall include for cost reporting purposes all allowable costs of the daily operation of the facility not included in nursing services and related care, food, administrative, or property costs, whether such costs are facility on-site or allocated in accordance with a department-approved joint-cost allocation methodology.

(2) Every two years when rates are set at the beginning of each new biennium, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office and (b) those not located in such an area. The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per patient day adjusted operational cost from the prior report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Operational rates for facilities within each peer group for the first year of the biennium shall be set at the lower of the facility's adjusted per patient day operational cost from the prior report period or the median cost for the facility's peer group plus twenty-five percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420.

(3) A nursing facility's operational rate for the second year of each biennium shall be that facility's rate as of July 1 of the first year of that biennium reduced

or inflated as authorized by RCW 74.46.420. The alternating procedures prescribed in this section for a facility's two July 1 operational rates occurring within each biennium shall be followed in the same order for each succeeding biennium.

(4) Median costs for peer groups shall be calculated initially as provided in this chapter on the basis of the most recent adjusted cost information available to the department prior to the calculation of the new rate for July 1 of the first fiscal year of each biennium, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31 of the first fiscal year of each biennium, and shall apply retroactively to the prior July 1 rate, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not.

Sec. 16. RCW 74.46.510 and 1980 c 177 s 51 are each amended to read as follows:

(1) The property cost center rate for each facility shall be determined by dividing the sum of the reported allowable prior period actual depreciation (~~costs~~), subject to RCW 74.46.310 through 74.46.380, adjusted for any capitalized additions or replacements approved by the department, and the retained savings from such cost center, as provided in RCW 74.46.180, by the total patient days for the facility in the prior period. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total patient days used in computing the property cost center rate shall be adjusted to anticipated patient day level.

(2) A nursing facility's property rate shall be rebased annually, effective July 1, in accordance with this section regardless of whether the rate is for the first or second year of the biennium.

(3) When a certificate of need for a new facility is requested, the department, in reaching its decision, shall take into consideration per-bed land and building construction costs for the facility which shall not exceed a maximum to be established by the secretary.

Sec. 17. RCW 74.46.530 and 1991 sp.s. c 8 s 17 are each amended to read as follows:

(1) The department shall establish for ~~((individual facilities))~~ each medicaid nursing facility a return on investment ((allowances)) rate composed of two parts: A financing allowance and a variable return allowance. A facility's return on investment rate shall be rebased annually, effective July 1, in accordance with this section, regardless of whether the rate is for the first or second year of the biennium.

(a) The financing allowance shall be determined by multiplying the net invested funds of each facility by .10, and dividing by the contractor's total

patient days from the most recent cost report period. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total patient days used in computing the financing and variable return allowances shall be adjusted to the anticipated patient day level.

(b) In computing the portion of net invested funds representing the net book value of tangible fixed assets, the same assets, depreciation bases, lives, and methods referred to in RCW 74.46.330, 74.46.350, 74.46.360, 74.46.370, and 74.46.380, including owned and leased assets, shall be utilized, except that the capitalized cost of land upon which the facility is located and such other contiguous land which is reasonable and necessary for use in the regular course of providing patient care shall also be included. Subject to provisions and limitations contained in this chapter, for land purchased by owners or lessors before July 18, 1984, capitalized cost of land shall be the buyer's capitalized cost. For all partial or whole rate periods after July 17, 1984, if the land is purchased after July 17, 1984, capitalized cost shall be that of the owner of record on July 17, 1984, or buyer's capitalized cost, whichever is lower. In the case of leased facilities where the net invested funds are unknown or the contractor is unable to provide necessary information to determine net invested funds, the secretary shall have the authority to determine an amount for net invested funds based on an appraisal conducted according to RCW 74.46.360(1).

(c) In determining the variable return allowance:

(i) Every two years at the start of each new biennium, the department, without utilizing peer groups, will first rank all facilities in numerical order from highest to lowest according to their ((average per diem)) per patient day adjusted allowable costs for ((the sum of the administration and operations and property cost centers)) nursing services, food, administrative, and operational costs combined for the previous cost report period.

(ii) The department shall then compute the variable return allowance by multiplying the appropriate percentage amounts, which shall not be less than one percent and not greater than four percent, by the ((total prospective rate for each facility, as determined in RCW 74.46.450 through 74.46.510)) sum of the facility's nursing services, food, administrative, and operational rate components. The percentage amounts will be based on groupings of facilities according to the rankings ((as established)) prescribed in (i) of this subsection (1)(c). The percentages calculated and assigned will remain the same for the next variable return allowance paid in the second year of the biennium. Those groups of facilities with lower per diem costs shall receive higher percentage amounts than those with higher per diem costs.

(d) The sum of the financing allowance and the variable return allowance shall be the return on investment rate for each facility, and shall be added to the prospective rates of each contractor as determined in RCW 74.46.450 through 74.46.510.

(e) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, which continues to be leased under the same lease agreement, and for which the annualized lease payment, plus any interest and depreciation expenses associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center determined according to RCW 74.46.510, is more than the return on investment (~~(allowance)~~) rate determined according to subsection (1)(d) of this section, the following shall apply:

(i) The financing allowance shall be recomputed substituting the fair market value of the assets as of January 1, 1982, as determined by the department of general administration through an appraisal procedure, less accumulated depreciation on the lessor's assets since January 1, 1982, for the net book value of the assets in determining net invested funds for the facility. A determination by the department of general administration of fair market value shall be final unless the procedure used to make such determination is shown to be arbitrary and capricious.

(ii) The sum of the financing allowance computed under subsection (1)(e)(i) of this section and the variable allowance shall be compared to the annualized lease payment, plus any interest and depreciation (~~(expenses)~~) associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center rate determined according to RCW 74.46.510. The lesser of the two amounts shall be called the alternate return on investment (~~(allowance)~~) rate.

(iii) The return on investment (~~(allowance)~~) rate determined according to subsection (1)(d) of this section or the alternate return on investment (~~(allowance)~~) rate, whichever is greater, shall be the return on investment (~~(allowance)~~) rate for the facility and shall be added to the prospective rates of the contractor as determined in RCW 74.46.450 through 74.46.510.

(f) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, if the lease is renewed or extended pursuant to a provision of the lease, the treatment provided in subsection (1)(e) of this section shall be applied except that in the case of renewals or extensions made subsequent to April 1, 1985, reimbursement for the annualized lease payment shall be no greater than the reimbursement for the annualized lease payment for the last year prior to the renewal or extension of the lease.

~~(2) ((In the event that the department of health and human services disallows the application of the return on investment allowances to nonprofit facilities, the department shall modify the measurements of net invested funds used for computing individual facility return on investment allowances as follows: Net invested funds for each nonprofit facility shall be multiplied by one minus the ratio of equity funds to the net invested funds of all nonprofit facilities.~~

~~(3))~~ Each biennium, beginning in 1985, the secretary shall review the adequacy of return on investment (~~(allowances)~~) rates in relation to anticipated requirements for maintaining, reducing, or expanding nursing care capacity. The

secretary shall report the results of such review to the legislature and make recommendations for adjustments in the return on investment rates utilized in this section, if appropriate.

NEW SECTION. Sec. 18. By November 15, 1994, the legislative budget committee shall complete a study of the nursing home reimbursement system. The study shall include an assessment of the financial stability of the nursing home industry, to the extent sufficient information is available from the industry and other sources to make such an assessment; an evaluation of the adequacy of the nursing home reimbursement system for promoting cost-effective, quality care; and, if appropriate, recommendations for improving the reimbursement system's capacity to promote sufficient availability of efficient and quality care. In conducting the study, the legislative budget committee shall consult with the nursing home industry, consumer groups, health care professionals, and the department of social and health services.

NEW SECTION. Sec. 19. The following acts or parts of acts are each repealed:

- (1) RCW 74.46.260 and 1980 c 177 s 26; and
- (2) RCW 74.46.495 and 1983 1st ex.s. c 67 s 26.

****NEW SECTION. Sec. 20. The department of social and health services shall provide a prospective rate enhancement for nursing homes meeting all of the following conditions: (1) The nursing home entered into an arms-length agreement for a facility lease prior to January 1, 1980; (2) the lessee purchased the leased facility after January 1, 1980; (3) the lessor defaulted on its loan or mortgage for the assets of the facility; (4) the facility is located in a county with a 1989 population of less than 45,000 and an area more than 5,000 square miles. The rate enhancement increase shall be effective July 1, 1993. To the extent possible, the increase shall recognize the 1982 fair market value of the nursing home's assets as determined by an appraisal contracted by the department of general administration. If necessary, the increase shall be granted from state funds only. In no case shall the annual value of the rate increase exceed \$50,000. The rate adjustment in this section shall not be implemented if it jeopardizes federal matching funds for qualifying facilities or the long-term care program in general. Funds may be disbursed on a monthly basis.***

*Sec. 20 was vetoed, see message at end of chapter.

NEW SECTION. Sec. 21. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993.

Passed the Senate May 6, 1993.

Passed the House May 6, 1993.

Approved by the Governor May 28, 1993, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State May 28, 1993.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to section 20, Engrossed Substitute Senate Bill No. 5724, entitled:

"AN ACT Relating to nursing home auditing and reimbursement;"

Section 20 of Engrossed Substitute Senate Bill No. 5724 directs the Department of Social and Health Services to provide a prospective rate enhancement of \$50,000 per year to all nursing homes meeting four specific criteria.

Because this rate enhancement will be included in the reimbursement statute, it will become part of the state plan which must be submitted to the federal government. Since it has never been a part of the nursing home rate-setting mechanism, the enhancement jeopardizes federal matching funds and will ultimately be disallowed.

Additionally, I believe Washington's nursing home reimbursement system adequately reimburses facilities for their allowable expenses, and this rate enhancement creates an irreparable situation.

With the exception of section 20, Engrossed Substitute Senate Bill No. 5724 is approved."

COWLITZ COUNTY SUPERIOR COURT—ADDITIONAL JUDGE AUTHORIZED

Effective Date: 8/5/93

AN ACT Relating to superior courts; amending RCW 2.08.064; and creating new sections.

Be it enacted by the Legislature of the State of Washington:

Sec. 1. RCW 2.08.064 and 1992 c 189 s 4 are each amended to read as follows:

[Engrossed Second Substitute Senate Bill 5781]

HIGHER EDUCATION ENROLLMENT LEVEL POLICY

Effective Date: 7/1/93

AN ACT Relating to higher education; amending RCW 28B.15.515; adding new sections to chapter 28B.10 RCW; creating a new section; providing an effective date; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. The legislature finds that the proportion of the state budget dedicated to postsecondary educational programs has decreased for two decades. At the same time, major technological, economic, and demographic changes have exacerbated the need for improved training and education to maintain a high-quality, competitive work force, and a well-educated populace to meet the challenges of the twenty-first century. Therefore, the legislature finds that there is increasing need for postsecondary educational opportunities for citizens of the state of Washington.

The legislature declares that the policy of the state of Washington shall be to improve the access to, and the quality of, this state's postsecondary educational system. The budgetary policy of the state of Washington shall be to provide a level of protection and commitment to the state's postsecondary educational system commensurate with the responsibility of this state to the educational and professional improvement of its citizens and work force.

NEW SECTION. Sec. 2. It is the policy of the state of Washington that the essential requirements level budget calculation for institutions of higher education include enrollment levels necessary to maintain, by educational sector, the participation rate funded in the 1993 fiscal year. The participation rate shall be based on the state's estimated population ages seventeen and above by appropriate age groups.

NEW SECTION. Sec. 3. It is the policy of the state of Washington that, for new enrollments provided under section 2 of this act, the essential requirements level budget calculation for those enrollments shall, each biennium, at a minimum, include a funding level per full-time equivalent student that is equal to the rate assumed in the omnibus appropriations act for the last fiscal year of the previous biennium for the instructional, primary support, and library programs, plus an inflation factor. The inflation factor should be equivalent to the inflation factor used to calculate basic education in the common school system budget request submitted by the governor.

NEW SECTION. Sec. 4. It is the policy of the state of Washington that the essential requirements level budget calculation for state institutions of higher education include a funding level per full-time equivalent student that is, each biennium, at a minimum, equal to the general fund—state and tuition fund rate per student assumed in the omnibus appropriations act for the last fiscal year of the previous biennium for the state-funded programs, minus one-time expenditures and plus an inflation factor. The inflation factor should be equivalent to the inflation factor used to calculate basic education in the common school system budget request submitted by the governor.

NEW SECTION. Sec. 5. It is the policy of the state of Washington that higher education enrollments be increased in increments each biennium in order to achieve, by the year 2010, the goals, by educational sector, adopted by the higher education coordinating board in its enrollment plan entitled "Design for the 21st Century: Expanding Higher Education Opportunities in Washington," or subsequent revisions adopted by the board.

Per student costs for additional students to achieve this policy shall be at the same rate per student as enrollments mandated in section 2 of this act.

For each public college and university, and for the community and technical college system, budget documents generated by the governor and the legislature in the development and consideration of the biennial omnibus appropriations act shall display an enrollment target level. The enrollment target level is the biennial state-funded enrollment increase necessary to fulfill the state policy set forth in this section. The budget documents shall compare the enrollment target level with the state-funded enrollment increases contained in the biennial budget proposals of the governor and each house of the legislature. The information required by this section shall be set forth in the budget documents so that enrollment and cost information concerning the number of students and additional funds needed to reach the enrollment goals are prominently displayed and easily understood.

For the governor's budget request, the information required by this section shall be made available in the document entitled "Operating Budget Supporting Data" or its successor document.

NEW SECTION. Sec. 6. The participation rate used to calculate enrollment levels under sections 2 and 5 of this act shall be based on fall enrollment reported in the higher education enrollment report as maintained by the office of financial management, fall enrollment as reported in the management information system of the state board for community and technical colleges, and the corresponding fall population forecast by the office of financial management. Formal estimates of the state participation rates and enrollment levels necessary to fulfill the requirements of sections 2 and 5 of this act shall be determined by the office of financial management as part of its responsibility to develop and maintain student enrollment forecasts for colleges and universities under RCW 43.62.050. Formal estimates of the state participation rates and

enrollment levels required by this section shall be based on procedures and standards established by a technical work group consisting of staff from the higher education coordinating board, the public four-year institutions of higher education, the state board for community and technical colleges, the fiscal and higher education committees of the house of representatives and the senate, and the office of financial management. Formal estimates of the state participation rates and enrollment levels required by this section shall be submitted to the fiscal committees of the house of representatives and senate on or before November 15th of each even-numbered year. The higher education coordinating board shall periodically review the enrollment goals set forth in sections 2 and 5 of this act and submit recommendations concerning modification of these goals to the governor and to the higher education committees of the house of representatives and the senate.

NEW SECTION. Sec. 7. It is the policy of the state of Washington that financial need not be a barrier to participation in higher education. It is also the policy of the state of Washington that the essential requirements level budget calculation include funding for state student financial aid programs. The calculation should, at a minimum, include a funding level equal to the amount provided in the second year of the previous biennium in the omnibus appropriations act, adjusted for the percentage of needy resident students, by educational sector, likely to be included in any enrollment increases necessary to maintain, by educational sector, the participation rate funded in the 1993 fiscal year. The calculation should also be adjusted to reflect, by educational sector, any increases in cost of attendance. The cost of attendance figures should be calculated by the higher education coordinating board and provided to the office of financial management and appropriate legislative committees by June 30th of each even-numbered year.

Sec. 8. RCW 28B.15.515 and 1991 c 353 s 1 are each amended to read as follows:

(1) The boards of trustees of the community college districts may operate summer schools on either a self-supporting or a state-funded basis.

If summer school is operated on a self-supporting basis, the fees charged shall be retained by the colleges, and shall be sufficient to cover the direct costs, which are instructional salaries and related benefits, supplies, publications, and records.

Community colleges that have self-supporting summer schools shall continue to receive general fund state support for vocational programs that require that students enroll in a four quarter sequence of courses that includes summer quarter due to clinical or laboratory requirements and for ungraded courses limited to adult basic education, vocational apprenticeship, aging and retirement, small business management, industrial first aid, and parent education.

(2)((a)) The board of trustees of a community college district may permit the district's state-funded, full-time equivalent enrollment level, as provided in

the operating budget appropriations act, to vary ~~((by plus or minus two percent each fiscal year unless otherwise authorized in the operating budget appropriations act))~~. If the variance is above the state-funded level, the district may charge those students above the state-funded level a fee equivalent to the amount of tuition and fees that are charged students enrolled in state-funded courses. These fees shall be retained by the colleges.

~~((b) Any community college that in 1990-91 has an enrollment above the state-funded level but below the authorized variance may increase its excess enrollments to within the variance.~~

~~(c) Community colleges that currently have excess enrollments more than the authorized variance, by means of enrollments that would have otherwise been eligible for state funding, shall reduce those excess enrollments to within the authorized variance by September 1, 1995, in at least equal annual reductions, commencing with the 1991-92 fiscal year.~~

~~(d) Except as permitted by (c) of this subsection, should the number of student supported, full-time equivalent enrollments in any fiscal year fall outside the authorized variance, the college shall return by September 1st to the state general fund, an amount equal to the college's full average state appropriations per full-time equivalent student for such student-funded full-time equivalent outside the variance, unless otherwise provided in the operating budget appropriations act.)~~

(3) The state board for community and technical colleges ~~((education))~~ shall ensure compliance with this section.

NEW SECTION. **Sec. 9.** Sections 2 through 7 of this act are each added to chapter 28B.10 RCW.

NEW SECTION. **Sec. 10.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993.

Passed the Senate May 5, 1993.

Passed the House May 5, 1993.

Approved by the Governor May 28, 1993.

Filed in Office of Secretary of State May 28, 1993.

For the purposes of this tax, it shall be presumed that the occupancy of real property for a continuous period of one month or more constitutes a rental or lease of real property and not a mere license to use or to enjoy the same.

(2) No city may impose the special excise tax authorized in subsection (1) of this section during the time the city is imposing the tax under RCW 67.28.180, and no county may impose the special excise tax authorized in subsection (1) of this section until such time as those cities within the county containing at least one-half of the total incorporated population have imposed the tax.

"I am returning herewith, without my approval as to section 2, Engrossed Senate Bill No. 5925 entitled:

"AN ACT Relating to excise taxation of lodging;"

This bill relates to the assessment and usage of local option hotel/motel taxes.

Section 2 of this bill directs the Department of Revenue to collect the hotel/motel taxes addressed in the bill on behalf of the county and at no cost to the county. Section 2 is not necessary since revenue collection provisions of the hotel/motel tax were amended in Engrossed Substitute House Bill No. 1862 which I signed on May 15th. Engrossed Substitute House Bill No. 1862 contains a more comprehensive treatment of

hotel/motel tax collections and is designed to cover all applications of this tax. That bill contains the preferred wording for implementation of both bills.

With the exception of section 2, Engrossed Senate Bill No. 5925 is approved."

NEW SECTION. Sec. 42. A new section is added to chapter 75.28 RCW to read as follows:

~~((Unless adjusted by the director pursuant to the director's authority granted in RCW 75.28.065, the annual license fee is one hundred dollars.))~~ The annual license fee for a wholesale dealer is two hundred fifty dollars. A wholesale fish dealer's license is not required for persons engaged in the processing, wholesale selling, buying, or brokering of private sector cultured aquatic products as defined in RCW 15.85.020. However, if a means of identifying such products is required by rules adopted under RCW 15.85.060, the exemption from licensing requirements established by this subsection applies only if the aquatic products are identified in conformance with those rules.

Sec. 44. RCW 75.28.030 and 1983 1st ex.s. c 46 s 105 are each amended to read as follows:

(1) Except as otherwise provided in this title, the director shall issue commercial licenses and permits to a qualified person((;)) upon ((the receipt of an)) receiving a completed application accompanied by the required fee. ((Applications shall be submitted on forms provided by the department. Applicants for commercial licenses and permits shall indicate at the time of application the species of food fish or shellfish they intend to take and the type of gear they intend to use.))

(2) An application submitted to the department under this chapter shall contain the name and address of the applicant and any other information required by the department or this title. (3) An application submitted to the department under this chapter shall contain the applicant's declaration under penalty of perjury that the information on the application is true and correct.

(4) Upon issuing a commercial license under this chapter, the director shall assign the license a unique number that the license shall retain upon renewal.

The department shall use the number to record any commercial catch under the license. This does not preclude the department from using other, additional, catch record methods.

(5) The fee to replace a license that has been lost or destroyed is twenty dollars.

NEW SECTION. Sec. 45. A new section is added to chapter 75.28 RCW to read as follows:

This section applies to all commercial fishery licenses, delivery licenses, and charter licenses, except for emergency salmon delivery licenses.

(a) Surrenders the previously issued license to the department;

(b) Submits to the department an application that identifies the currently designated vessel, the vessel proposed to be designated, and any other information required by the department; and

(c) Pays to the department a fee of thirty-five dollars.

(2) Unless the license holder owns all vessels identified on the application described in subsection (1)(b) of this section, the following restrictions apply to changes in vessel designation:

(a) The department shall change the vessel designation on the license no more than four times per calendar year.

(b) The department shall change the vessel designation on the license no more than once in any seven-day period.

**Sec. 50 was vetoed, see message at end of chapter.*

***NEW SECTION.** Sec. 51. *A new section is added to chapter 75.28 RCW to read as follows:*

Effective January 1, 1994, it is unlawful to fish for coastal crab in Washington state waters or to deliver coastal crab to a port in the state if the crab is harvested with a vessel equipped with more than four hundred crab pots. This section shall not apply to deliveries that are necessary due to bona fide emergencies as determined by the director.

**Sec. 51 was vetoed, see message at end of chapter.*

NEW SECTION. Sec. 52. If the director of the department of fisheries develops proposed legislation as a result of its study on coastal crab pursuant to chapter 9, Laws of 1992, the director shall involve the commercial crab industry in the preparation of such legislation.

NEW SECTION. Sec. 53. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

Passed the Senate May 6, 1993.

Passed the House May 5, 1993.

Approved by the Governor May 28, 1993, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State May 28, 1993.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 33, 50, and 51 of Engrossed Substitute Senate Bill No. 5980, entitled:

"AN ACT Relating to fishing licenses:"

This bill provides important new revenues to the Department of Fisheries which will be used to maintain production at state salmon hatcheries, and other important programs of the Department. The bill also consolidates existing recreational fishing licenses. However, several sections of this legislation present potential problems.

Section 33 provides for the act to expire on January 1, 1998. Allowing this Act to expire would not only remove an important source of revenue for the Department, but would also require the Department to revert back to the current system of multiple recreational licenses. In order to remove an undue administrative burden on the Department of Fisheries and avoid consumer confusion, I am vetoing section 33.

Sections 50 and 51 establish a 400 crab pot limit for commercial fishers of coastal crab. The Department of Fisheries, in conjunction with Oregon, California, and the Pacific States Marine Fisheries Commission, is to complete a report on the economic viability of the coastal crab fishery. While I understand the concern of some segments of the commercial crab industry, establishing such a limit before a final report is completed is premature.

With the exception of sections 33, 50, and 51, Engrossed Substitute Senate Bill No. 5980 is approved."

Sec. 4. RCW 28B.15.012 and 1987 c 137 s 1 and 1987 c 96 s 1 are each reenacted and amended to read as follows:

Whenever used in chapter 28B.15 RCW:

(1) The term "institution" shall mean a public university, college, or community college within the state of Washington.

(2) The term "resident student" shall mean: (a) A financially independent student who has had a domicile in the state of Washington for the period of one year immediately prior to the time of commencement of the first day of the semester or quarter for which the student has registered at any institution and has in fact established a bona fide domicile in this state primarily for purposes other than educational; (b) a dependent student, if one or both of the student's parents or legal guardians have maintained a bona fide domicile in the state of Washington for at least one year immediately prior to commencement of the semester or quarter for which the student has registered at any institution; (c) a student classified as a resident based upon domicile by an institution on or before May 31, 1982, who was enrolled at a state institution during any term of the 1982-1983 academic year, so long as such student's enrollment (excepting summer sessions) at an institution in this state is continuous; ~~((or))~~ (d) any student who has spent at least seventy-five percent of both his or her junior and senior years in high schools in this state, whose parents or legal guardians have been domiciled in the state for a period of at least one year within the five-year period before the student graduates from high school, and who enrolls in a public institution of higher education within six months of leaving high school, for as long as the student remains continuously enrolled for three quarters or two semesters in any calendar year; or (e) a student who is the spouse or a dependent of a person who is on active military duty stationed in the state; **PROVIDED,** That a nonresident student enrolled for more than six hours per semester or quarter shall be considered as attending for primarily educational purposes, and for tuition and fee paying purposes only such period of enrollment shall not be

counted toward the establishment of a bona fide domicile of one year in this state unless such student proves that the student has in fact established a bona fide domicile in this state primarily for purposes other than educational.

(3) The term "nonresident student" shall mean any student who does not qualify as a "resident student" under the provisions of RCW (~~28B.15.011 through 28B.15.014 and 28B.15.015, each as now or hereafter amended~~) 28B.15.012 and 28B.15.013. A nonresident student shall include:

(4) The term "domicile" shall denote a person's true, fixed and permanent home and place of habitation. It is the place where the student intends to remain, and to which the student expects to return when the student leaves without intending to establish a new domicile elsewhere. The burden of proof that a student, parent or guardian has established a domicile in the state of Washington primarily for purposes other than educational lies with the student.

(5) The term "dependent" shall mean a person who is not financially independent. Factors to be considered in determining whether a person is financially independent shall be set forth in rules and regulations adopted by the higher education coordinating board and shall include, but not be limited to, the state and federal income tax returns of the person and/or the student's parents or legal guardian filed for the calendar year prior to the year in which application is made and such other evidence as the board may require.

These (~~articles and products~~) goods and services shall not be purchased from any other source unless, upon application

by the department or agency: (1) The department of general administration finds that the articles or products do not meet the reasonable requirements of the agency or department, (2) are not of equal or better quality, or (3) the price of the product or service is higher than that produced by the private sector. 28B.10.027, and 43.17.200 shall be spent solely for direct acquisition of works of art.

NEW SECTION. Sec. 1006. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts.

NEW SECTION. Sec. 1007. "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining June 30, 1993, in the 1991-93 biennial appropriations for each project.

NEW SECTION. Sec. 1008. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 1009. As part of the annual update to the state facilities and capital plan, agencies shall provide information on lease-development and lease-purchase projects to the office of financial management.

NEW SECTION. Sec. 1010. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with moneys available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate committee on ways and means and the house of representatives committee on capital budget.

NEW SECTION. Sec. 1011. Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

NEW SECTION. Sec. 1012. Notwithstanding any other provisions of law, for the 1993-95 biennium, transfers of reimbursement by the state treasurer to the general fund from the community college capital projects account for debt service payments made under Title 28B RCW shall occur only after such debt service payment has been made and only to the extent that funds are actually available to the account. Any unpaid reimbursements shall be a continuing obligation against the community college capital projects account until paid. The state board for community and technical colleges need not accumulate any specific balance in the community college capital projects account in anticipation of transfers to reimburse the general fund.

NEW SECTION. Sec. 1013. Any capital improvements or capital project involving construction or major expansion of a state office facility, including, but not limited to, district headquarters, detachment offices, and off-campus faculty

offices, shall be reviewed by the office of financial management and the department of general administration for possible consolidation, collocation, and compliance with state office standards before allotment of funds. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

NEW SECTION. **Sec. 1014.** The governor, through the director of financial management, may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account.

For purposes of this section, the governor may find that an amount is in excess of the amount required for the completion of a project only if (1) the project as defined in the notes to the budget document is substantially complete and there are funds remaining or (2) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

A report of any transfer effected under this section except emergency projects or any transfer under \$250,000 shall be filed with the legislative fiscal committees of the senate and house of representatives by the director of financial management at least thirty days before the date the transfer is effected, and shall report all transfers within thirty days from the date of transfer.

NEW SECTION. **Sec. 1015.** To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act referencing this section shall not be expended until the office of financial management has reviewed the agency's predesign and other documents and approved the project. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management.

The office of financial management shall provide to the house of representatives capital budget committee and the senate ways and means committee a list of the program documents the office has reviewed and approved, changes made to the documents resulting from the review, and the estimated cost changes resulting from the review.

Allotments for appropriations shall be provided in accordance with the capital project review requirements adopted by the office of financial management.

NEW SECTION. Sec. 1016. Appropriations for design and construction of facilities on higher education branch campuses shall be allotted to institutions of higher education on the basis of: (1) Comparable unit cost standards, as determined by the office of financial management in consultation with the higher education coordinating board; (2) costs consistent with other higher education teaching facilities in the state; and (3) student full-time equivalent enrollment levels as established by the office of financial management in consultation with the higher education coordinating board.

NEW SECTION. Sec. 1017. (1) Agencies shall expedite the expenditure of reappropriations and appropriations in order to: (a) Rehabilitate infrastructure in a timely manner and prevent further deterioration of public facilities and resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(2) In order to meet the goals of this section, the following conditions apply to appropriations which reference this section:

(a) To the extent feasible, agencies are directed to manage accelerated expenditure rates at the current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

(b) Reappropriations which reference this subsection (2)(b) shall lapse on June 30, 1994. In developing the 1995-97 capital budget, the office of financial management shall consider all project requests which have been an element of an appropriation which references this section as a request for a new appropriation.

(3) The office of financial management shall report the following to the appropriate fiscal committees of the legislature by January 30, 1995:

Passed the Senate May 6, 1993.

Passed the House May 6, 1993.

Approved by the Governor May 28, 1993, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State May 28, 1993.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 469(6)(b) and 1023 of Substitute Senate Bill No. 5717, entitled:

"AN ACT Relating to the capital budget;"

My reasons for vetoing these sections are as follows:

Section 469(6)(b), page 79, Washington Wildlife and Recreation Program (Interagency Committee for Outdoor Recreation)

Section 469(6)(b) removes a specific project acquiring habitat for the sharp-tailed grouse from the Washington Wildlife and Recreation Program's approved project list for 1993-95. Acquisition and preservation of habitat for this species is critical as increasing agricultural development is threatening critical habitat and breeding grounds. Too, this project has already received careful scrutiny by the Interagency Committee for Outdoor Recreation during the project evaluation phase. For this reason, I am vetoing subsection (6)(b) of section 469 and allowing this valuable project to move forward as planned.

Section 1023, page 176, Puget Sound Water Quality Authority

Section 1023 amends the enabling legislation for the Puget Sound Water Quality Authority by removing the requirement that the Authority be housed with the Department of Ecology in Lacey. The state has been actively pursuing opportunities for collocation in agency housing, particularly in those situations where agency missions are compatible. In order to ensure better coordination of the implementation of the Puget Sound Water Quality Authority Management Plan, it makes sense to consider collocation of the PSWQA and the Department of Ecology. Therefore, I am vetoing Section 1023.

For the reasons stated above, I have vetoed sections 469(6)(b) and 1023 of Substitute Senate Bill No. 5717.

With the exceptions of sections 469(6)(b) and 1023, Substitute Senate Bill No. 5717 is approved."

Every motor truck, truck tractor, and tractor exceeding 6,000 pounds empty scale weight registered under chapter 46.16, 46.87, or 46.88 RCW shall be licensed for not less than one hundred fifty percent of its empty weight unless the amount would be in excess of the legal limits prescribed for such a vehicle in RCW 46.44.041 or 46.44.042, in which event the vehicle shall be licensed for the maximum weight authorized for such a vehicle.

The following provisions apply when increasing gross or combined gross weight for a vehicle licensed under this section:

(a) The new license fee will be one-twelfth of the fee listed above for the new gross weight, multiplied by the number of months remaining in the period for which licensing fees have been paid, including the month in which the new gross weight is effective.

(b) Upon surrender of the current certificate of registration or cab card, the new licensing fees due shall be reduced by the amount of the licensing fees previously paid for the same period for which new fees are being charged.

(2) The proceeds from the fees collected under subsection (1) of this section shall be distributed in accordance with RCW 46.68.035.

Sec. 61. RCW 82.44.020 and 1993 c 123 s 2 are each amended to read as follows:

(1) An excise tax is imposed for the privilege of using in the state any motor vehicle, except those operated under reciprocal agreements, the provisions of RCW 46.16.160 as now or hereafter amended, or dealer's licenses. The annual amount of such excise tax shall be two percent of the value of such vehicle.

(2) An additional excise tax is imposed, in addition to any other tax imposed by this section, for the privilege of using in the state any such motor vehicle, and the annual amount of such additional excise shall be two-tenths of one percent of the value of such vehicle.

(3) Effective with October 1992 motor vehicle registration expirations, a clean air excise tax is imposed in addition to any other tax imposed by this section for the privilege of using in the state any motor vehicle as defined in RCW 82.44.010, except that farm vehicles as defined in RCW 46.04.181 shall not be subject to the tax imposed by this subsection. The annual amount of the additional excise tax shall be two dollars and twenty-five cents. Effective with July 1994 motor vehicle registration expirations, the annual amount of additional excise tax shall be two dollars.

(4) An additional excise tax is imposed on truck-type power units that are used in combination with a trailer to transport loads in excess of forty thousand pounds combined gross weight. The ~~(rate)~~ annual amount of such additional excise tax shall be fifty-eight one-hundredths of one percent of the value of the vehicle.

The department shall distribute the additional tax collected under this subsection as follows:

(a) For each trailing unit subject to subsection (5) of this section, an amount equal to the clean air excise tax prescribed in subsection (3) of this section shall be distributed in the manner prescribed in RCW 82.44.110(3);

(b) Of the remainder of the additional excise tax collected under this subsection, ten percent ~~((of the additional tax collected under this subsection))~~ shall be distributed in the manner prescribed in RCW 82.44.110(2)~~((The remainder of the excise tax collected under this subsection))~~ and ninety percent shall be distributed in the manner prescribed in RCW 82.44.110(1). This tax shall not apply to power units used exclusively for hauling logs.

(5) The excise taxes imposed by subsections (1) through (3) of this section shall not apply to trailing units which are used in combination with a power unit subject to the additional excise tax imposed by subsection (4) of this section. This subsection shall not apply to trailing units used for hauling logs. ~~((The department of licensing is authorized to adopt rules to implement subsection (4) of this section and this subsection to assure that total motor vehicle excise tax revenue is not affected.))~~

(6) In no case shall the total tax be less than two dollars except for proportionally registered vehicles.

(7) Washington residents, as defined in RCW 46.16.028, who license motor vehicles in another state or foreign country and avoid Washington motor vehicle excise taxes are liable for such unpaid excise taxes. The department of revenue may assess and collect the unpaid excise taxes under chapter 82.32 RCW, including the penalties and interest provided therein.

Sec. 62. RCW 81.112.030 and 1992 c 101 s 3 are each amended to read as follows:

Two or more contiguous counties each having a population of four hundred thousand persons or more may establish a regional transit authority to develop and operate a high capacity transportation system as defined in chapter 81.104 RCW.

The authority shall be formed in the following manner:

(1) The joint regional policy committee created pursuant to RCW 81.104.040 shall adopt a system and financing plan, including the definition of the service area. This action shall be completed by September 1, 1992, contingent upon satisfactory completion of the planning process defined in RCW 81.104.100. The final system plan shall be adopted no later than June 30, 1993. In addition to the requirements of RCW 81.104.100, the plan for the proposed system shall provide explicitly for a minimum portion of new tax revenues to be allocated to local transit agencies for interim express services. Upon adoption the joint regional policy committee shall immediately transmit the plan to the county legislative authorities within the adopted service area.

(2) The legislative authorities of the counties within the service area shall decide by resolution whether to participate in the authority. This action shall be completed within forty-five days following receipt of the adopted plan or by August 13, 1993, whichever comes first.

~~(3) ((If any of the counties does not opt to participate in the authority, the joint regional policy committee shall, within forty-five days, redefine the system and financing plan and resubmit the adopted redefined plan to the remaining county legislative authorities for their decision as to whether to participate. This action shall be completed within forty-five days following receipt of the redefined plan.~~

(4)) Each county that chooses to participate in the authority shall appoint its board members as set forth in RCW 81.112.040 and shall submit its list of members to the secretary of the Washington state department of transportation. These actions must be completed within thirty days following each county's decision to participate in the authority.

~~((5))~~ (4) The secretary shall call the first meeting of the authority, to be held within thirty days following receipt of the appointments. At its first meeting, the authority shall elect officers and provide for the adoption of rules and other operating procedures.

~~((6))~~ (5) The authority is formally constituted at its first meeting and the board shall begin taking steps toward implementation of the system and financing plan adopted by the joint regional policy committee. If the joint regional policy committee fails to adopt a plan by June 30, 1993, the authority shall proceed to do so based on the work completed by that date by the joint regional policy committee. Upon formation of the authority, the joint regional policy committee shall cease to exist. The authority may make minor modifications to the plan as deemed necessary and shall at a minimum review local transit agencies' plans to ensure feeder service/high capacity transit service integration, ensure fare integration, and ensure avoidance of parallel competitive services. The authority shall also conduct a minimum thirty-day public comment period.

~~((7))~~ (6) If the authority determines that major modifications to the plan are necessary before being submitted to the voters, the authority may make those modifications with a favorable vote of two-thirds of the entire membership. Any such modification shall be subject to the review process set forth in RCW 81.104.110. The modified plan shall be transmitted to the legislative authorities of the participating counties. The legislative authorities shall have forty-five days following receipt to confirm or rescind their continued participation in the authority.

(7) If any county opts to not participate in the authority, but two or more contiguous counties do choose to continue to participate, the authority's board shall be revised accordingly. The authority shall, within forty-five days, redefine the system and financing plan to reflect elimination of one or more counties, and submit the redefined plan to the legislative authorities of the remaining counties for their decision as to whether to continue to participate. This action shall be completed within forty-five days following receipt of the redefined plan.

(8) The authority shall place on the ballot within two years of the authority's formation, a single ballot proposition to ~~((ratify formation of the authority,))~~ approve the system and finance plan~~((s))~~ and authorize the imposition of the taxes to support the plan within its service area. In addition to the system plan requirements contained in RCW 81.104.100(2)(d), the system plan submitted to voters shall contain an equity element which:

(a) Identifies revenues anticipated to be generated by corridor and by county within the authority's boundaries;

(b) Identifies the phasing of construction and operation of high capacity system facilities, services, and benefits in each corridor. Phasing decisions should give priority to jurisdictions which have adopted transit-supportive land use plans; and

(c) Identifies the degree to which revenues generated within each county will benefit the residents of that county, and identifies when such benefits will accrue.

A simple majority of those voting within the boundaries of the authority is required for approval. If the vote is affirmative, the authority shall begin implementation of the plan. However, the authority may not submit any authorizing proposition for voter-approved taxes prior to July 1, 1993; nor may

the authority issue bonds or form any local improvement district prior to July 1, 1993.

((8)) (9) If the vote fails, the board may redefine the system and financing plan, make changes to the authority boundaries, and make corresponding changes to the composition of the board. If the composition of the board is changed, the participating counties shall revise the membership of the board accordingly. The board may then submit the revised plan to voters. No single system and financing plan may be submitted to the voters more than twice.

If the authority is unable to achieve a positive vote within two years from the date of the first election on a system plan, the board may, by resolution, reconstitute the authority as a single-county body. With a two-thirds vote of the entire membership of the voting members, the board may also dissolve the authority.

Sec. 63. RCW 43.89.010 and 1965 ex.s. c 60 s 2 are each amended to read as follows:

The chief of the Washington state patrol is hereby authorized to establish a teletypewriter communications network which will inter-connect the law enforcement agencies of the state and its political subdivisions into a unified written communications system. The chief of the Washington state patrol is authorized to lease or purchase such facilities and equipment as may be necessary to establish and maintain such teletypewriter communications network.

(1) The communications network shall be used exclusively for the official business of the state, and the official business of any city, county, city and county, or other public agency.

(2) This section does not prohibit the occasional use of the state's communications network by any other state or public agency thereof when the messages transmitted relate to the enforcement of the criminal laws of the state.

(3) The chief of the Washington state patrol shall fix the monthly operational charge to be paid by any department or agency of state government, or any city, county, city and county, or other public agency participating in the communications network: **PROVIDED**, That in computing charges to be made against a city, county, or city and county the state shall bear at least fifty percent of the costs of such service as its share in providing a modern unified communications network to the law enforcement agencies of the state. Of the fees collected pursuant to this section, one-half shall be deposited in the motor vehicle fund and one-half shall be deposited in the transportation fund.

(4) The chief of the Washington state patrol is authorized to arrange for the connection of the communications network with the law enforcement communications system of any adjacent state, or the Province of British Columbia, Canada.

Sec. 64. RCW 82.44.180 and 1991 c 199 s 224 are each amended to read as follows:

(1) The transportation fund is created in the state treasury. Revenues under RCW 82.44.020 (1) and (2), 82.44.110, 82.44.150, and the surcharge under RCW 82.50.510 shall be deposited into the fund as provided in those sections.

Moneys in the fund may be spent only after appropriation. Expenditures from the fund may be used only for transportation purposes and activities and operations of the Washington state patrol not directly related to the policing of public highways and that are not authorized under Article II, section 40 of the state Constitution.

(2) There is hereby created the central Puget Sound public transportation account within the transportation fund. Moneys deposited into the account under RCW 82.44.150(2)(b) shall be expended within the three county region from which the funds are derived, solely for:

(a) Development of high capacity transportation systems as defined in RCW ~~((81.104.010))~~ 81.104.015;

(b) Development of high occupancy vehicle lanes and related facilities as defined in RCW 81.100.020; and

(c) Public transportation system contributions required to fund projects approved by the transportation improvement board.

(3) There is hereby created the public transportation systems account within the transportation fund. Moneys deposited into the account under RCW 82.44.150(2)(c) shall be available to the public transportation system from which the funds are derived, solely for:

(a) Development of high capacity transportation systems as defined in RCW ~~((81.104.010))~~ 81.104.015;

(b) Development of high occupancy vehicle lanes and related facilities as defined in RCW 81.100.020;

(c) Other public transportation system-related roadway projects on state highways, county roads, or city streets; and

(d) Public transportation system contributions required to fund projects approved by the transportation improvement board.

NEW SECTION. Sec. 65. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately except for sections 60 and 61, which shall take effect January 1, 1994.

NEW SECTION. Sec. 66. Chapter 102, Laws of 1993 and chapter 123, Laws of 1993 each take effect January 1, 1994.

Passed the Senate May 5, 1993.

Passed the House May 5, 1993.

Approved by the Governor May 28, 1993, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State May 28, 1993.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 1, page 2, lines 1 through 4; 2(2); 2(3); 25(2), page 13, lines 24 through 27; 34, page 17, line 35 through page 18, line 21; and 53, page 25 and 26 of Second Engrossed Substitute Senate Bill No. 5972 entitled:

"AN ACT Relating to transportation appropriations;"

My reasons for vetoing these sections are as follows:

Section 1, page 2 lines 1 through 4, Expenditure Prohibition

This provision prohibits funds appropriated in the transportation budget from being used for legislation that was not heard by either of the transportation committees. I am concerned that this administrative restriction creates a bad precedent, and that several essential bills would meet this criteria. For example, because Substitute Senate Bill No. 5968, the omnibus budget bill, and Engrossed Substitute Senate Bill No. 5888, the retirement system bill, were not heard before either of the transportation committees, it is possible that none of the funding provided in the transportation budget bill could be used for State Patrol retirement and other transportation agency health benefits. This would cause an unacceptable disruption in retirement and health system funding for transportation agencies.

In addition, this language would keep the Department of Licensing from implementing the provisions of Substitute House Bill No. 1741, which toughen the penalties against people who ignore traffic tickets. This veto will permit the Department of Licensing to operate the program with existing funds until a supplemental can be considered next session.

Section 2(2), Abolishment of the Traffic Safety Commission

Section 2(2) would abolish the Traffic Safety Commission as of July 1, 1994 and place the Commission's responsibilities into an existing transportation agency. The Traffic Safety Commission provides a valuable multidisciplinary approach to addressing the state's traffic safety issues. Placing the agency into an existing transportation agency would risk losing the independence and broad vision that make the Commission an effective force in reducing traffic fatalities and injuries. Traffic safety is a multidimensional problem, and the current structure of the Commission helps bring together the Department of Transportation's engineering knowledge, the State Patrol's enforcement experience, the Department of Licensing's testing and record keeping activities, the Superintendent of Public Instruction's curriculum guidance, and the Department of Health's data on injuries and fatalities. Having an independent commission unencumbered by a single agency perspective contributes to the effectiveness of the Commission's activities.

Section 2(3), Proviso for \$175,000 Highway Safety Fund-Federal To Be Spent For The Law and Justice Program And Move The Activity From The Department of Licensing To The Traffic Safety Commission.

Section 2(3) moves the Department of Licensing's law and justice program to the Traffic Safety Commission which, in turn, would be slated for elimination under the transportation budget. The program coordinates driver information, such as DWI suspensions and changes in traffic laws, between law enforcement agencies and the courts.

I am vetoing Section 2(3) for several reasons. First, the program belongs in the Department of Licensing and not in the Traffic Safety Commission or, if not for the veto of Section 2(2), within yet another transportation agency in the second half of the 1993-95 Biennium. Second, the amount of funds provided is a full biennial amount, yet the

bill calls for its expenditure in one year. This would be a waste of money that could otherwise be used to address critical traffic safety needs of the state. Third, because the activity began as a federally funded pilot project, the proviso is a clear supplantation of federal funds. Finally, the directive is counter to the federally prescribed priority-setting process for the identification of traffic safety problems.

Section 25(2), page 13 beginning on line 24 through line 27, WSDOT - Highway Management and Facilities

This subsection calls for Legislative Transportation Committee approval of a study on the current environmental efforts used at the Department of Transportation and implementation of the study recommendations, including any suggested organizational changes, to maximize the effectiveness of the agency's environmental activities. I support the study, but implementation of the study recommendations is the responsibility of the Transportation Commission and the Secretary of Transportation. Giving administrative responsibility to the Legislative Transportation Committee to control implementation of the study findings would blur the lines of executive responsibility and legislative oversight. This veto maintains the study but gives the implementation authority back to the Department. I recommend that the Transportation Commission present the final report and implementation recommendations for review to the Office of Financial Management and to the Legislative Transportation Committee no later than December 15, 1993.

Section 34, page 17 starting on line 35 through line 21 on page 18, Charges From Other Agencies

Section 34 includes an overall appropriation for revolving fund changes and nine provisos that specify line item appropriations for the individual revolving fund charges to the Department of Transportation. The total appropriation amount is sufficient to meet all the estimated obligations; however, the line items provide too much money for some revolving fund agencies and too little for others. The individual line item provisos are overly cumbersome and limit the Department of Transportation's flexibility to meet all anticipated obligations in 1993-95 Biennium.

Section 53, page 25 and 26, Efficiency Commission Study of Revolving Fund Charges

This section calls for a Washington State Efficiency and Accountability in Government Commission study of revolving fund charges to transportation agencies. No funding has been provided in either the transportation or the operating budgets. I am committed to an overall statewide understanding of the revolving fund services and billing procedures. A study of revolving fund services and billing methodology to only transportation agencies is too limiting. To the extent possible within existing resources, I will direct the Office of Financial Management to review the operation of revolving funds across state government.

With the exceptions of sections 1, page 2, lines 1 through 4; 2(2); 2(3); 25(2), page 13, lines 24 through 27; 34, page 17, line 35 through page 18, line 21; and 53, page 25 and 26, Second Engrossed Substitute Senate Bill No. 5972 is approved."

(2) For the 1995-96 school year and thereafter and unless modified under subsection (4) of this section, the superintendent of public instruction shall make use of data derived from the basic skills tests in determining the amount of funds for which a district may be eligible. Funds shall be distributed according to the district's total full-time equivalent enrollment in kindergarten through grade nine and the percentage of the district's students taking the basic skills tests who scored in the lowest quartile as compared with national norms. In making this calculation, the superintendent of public instruction may use an average over the immediately preceding five or fewer years of the district's percentage scoring in the lowest quartile. The superintendent of public instruction shall also deduct the number of students at these age levels who are identified as specific learning disabled and are generating state funds for special education programs conducted pursuant to RCW 28A.155.010 through 28A.155.100, in distributing state funds for learning assistance.

(3) The distribution formula in this section is for allocation purposes only.

The superintendent may request a delay in development of the new allocation formula

if the commission's assessment system is not available for use in the 1995-97 biennium.

Temporary services and fees may be negotiated by the small business export finance assistance center's president subject to approval of the board of directors. The president of the small business export finance assistance center may enter into negotiations with neighboring states to contract for delivery of the project's services. Final contracts for providing the project's counseling and services outside of the state of Washington on a permanent basis shall be subject to approval of the governor, appropriate legislative oversight committees, and the small business export finance assistance center's board of directors.

(6) The small business export finance assistance center may receive such gifts, grants, and endowments from public or private sources as may be made from time to time, in trust or otherwise, for the use and benefit of the purposes of the Pacific Northwest export assistance project and expend the same or any income therefrom according to the terms of the gifts, grants, or endowments.

(7) The president of the small business export finance assistance center, in consultation with the board of directors, may use the following formula in determining the number of clients that can be reasonably served by the Pacific Northwest export assistance project relative to its appropriation. Divide the amount appropriated for administration of the Pacific Northwest export assistance project by the marginal cost of adding each additional Pacific Northwest export assistance project client. For the purposes of this calculation, and only for the first biennium of operation, the biennial marginal cost of adding each additional Pacific Northwest export assistance project client shall be fifty-seven thousand ninety-five dollars. The biennial marginal cost of adding each additional client after the first biennium of operation shall be established from the actual operating experience of the Pacific Northwest export assistance project.

(8) All receipts from the Pacific Northwest export assistance project shall be deposited into the general fund. However, during the 1993-95 fiscal biennium, the receipts of the project shall be deposited into the small business export finance assistance center fund under RCW 43.210.070.

Water pollution control facilities include all equipment, utilities, structures, real property, and interests in and improvements on real property necessary for or incidental to such purpose. Water pollution control facilities also include such facilities, equipment, and collection systems as are necessary to protect federally designated sole source aquifers.

(5) "Water pollution control activities" means actions taken by a public body for the following purposes: (a) To prevent or mitigate pollution of underground water; (b) to control nonpoint sources of water pollution; (c) to restore the water quality of fresh water lakes; and (d) to maintain or improve water quality through the use of water pollution control facilities or other means. During the 1993-1995 fiscal biennium, "water pollution control activities" includes activities by state agencies to protect public drinking water supplies and sources.

(6) "Public body" means the state of Washington or any agency, county, city or town, conservation district, other political subdivision, municipal corporation, quasi-municipal corporation, and those Indian tribes now or hereafter recognized as such by the federal government.

(7) "Water pollution" means such contamination, or other alteration of the physical, chemical, or biological properties of any waters of the state, including change in temperature, taste, color, turbidity, or odor of the waters, or such discharge of any liquid, gaseous, solid, radioactive, or other substance into any waters of the state as will or is likely to create a nuisance or render such waters harmful, detrimental, or injurious to the public health, safety, or welfare, or to

domestic, commercial, industrial, agricultural, recreational, or other legitimate beneficial uses, or to livestock, wild animals, birds, fish, or other aquatic life.

(8) "Nonpoint source water pollution" means pollution that enters any waters of the state from any dispersed water-based or land-use activities, including, but not limited to, atmospheric deposition, surface water runoff from agricultural lands, urban areas, and forest lands, subsurface or underground sources, and discharges from boats or other marine vessels.

(9) "Sole source aquifer" means the sole or principal source of public drinking water for an area designated by the administrator of the environmental protection agency pursuant to Public Law 93-523, Sec. 1424(b).

Sec. 924. RCW 70.146.080 and 1991 sp.s. c 16 s 923 are each amended to read as follows:

Within thirty days after June 30, 1987, and within thirty days after each succeeding fiscal year thereafter, the state treasurer shall determine the tax receipts deposited into the water quality account for the preceding fiscal year. If the tax receipts deposited into the account in each of the fiscal years 1988 and 1989 are less than forty million dollars, the state treasurer shall transfer sufficient moneys from general state revenues into the water quality account to bring the total receipts in each fiscal year up to forty million dollars.

For the biennium ending June 30, 1991, if the tax receipts deposited into the water quality account and the earnings on investment of balances credited to the account are less than ninety million dollars, the treasurer shall transfer sufficient moneys from general state revenues into the water quality account to bring the total revenue up to ninety million dollars. The determination and transfer shall be made by July 31, 1991.

For fiscal (~~year 1992~~) years 1992 and 1993 and for fiscal year 1996 and thereafter, if the tax receipts deposited into the water quality account for each fiscal year are less than forty-five million dollars, the treasurer shall transfer sufficient moneys from general state revenues into the water quality account to bring the total revenue up to forty-five million dollars. Determinations and transfers shall be made by July 31 for the preceding fiscal year.

Sec. 925. RCW 70.170.080 and 1991 sp.s. c 13 s 71 are each amended to read as follows:

The basic expenses for the hospital data collection and reporting activities of this chapter shall be financed by an assessment against hospitals of no more than four one-hundredths of one percent of each hospital's gross operating costs, to be levied and collected from and after that date, upon which the similar assessment levied under chapter 70.39 RCW is terminated, for the provision of hospital services for its last fiscal year ending on or before June 30th of the preceding calendar year. Budgetary requirements in excess of that limit must be financed by a general fund appropriation by the legislature. All moneys collected under this section shall be deposited by the state treasurer in the hospital data collection account which is hereby created in the state treasury. The department

may also charge, receive, and dispense funds or authorize any contractor or outside sponsor to charge for and reimburse the costs associated with special studies as specified in RCW 70.170.050.

During the 1993-1995 fiscal biennium, moneys in the hospital data collection account may be expended, pursuant to appropriation, for hospital data analysis and the administration of the health information program.

Any amounts raised by the collection of assessments from hospitals provided for in this section which are not required to meet appropriations in the budget act for the current fiscal year shall be available to the department in succeeding years.

Sec. 926. RCW 74.20A.030 and 1989 c 360 s 14 are each amended to read as follows:

(1) The department shall be subrogated to the right of any dependent child or children or person having the care, custody, and control of said child or children, if public assistance money is paid to or for the benefit of the child, to prosecute or maintain any support action or execute any administrative remedy existing under the laws of the state of Washington to obtain reimbursement of moneys expended, based on the support obligation of the responsible parent established by a superior court order or RCW 74.20A.055. Distribution of any support moneys shall be made in accordance with 42 U.S.C. Sec. 657.

(2) The department may initiate, continue, maintain, or execute an action to establish, enforce, and collect a support obligation, including establishing paternity and performing related services, under this chapter and chapter 74.20 RCW, or through the attorney general or prosecuting attorney under chapter 26.09, 26.18, 26.20, 26.21, 26.23, or 26.26 RCW or other appropriate statutes or the common law of this state, for so long as and under such conditions as the department may establish by regulation.

(3) Public assistance moneys shall be exempt from collection action under this chapter except as provided in RCW 74.20A.270.

(4) No collection action shall be taken against parents of children eligible for admission to, or children who have been discharged from a residential habilitation center as defined by RCW 71A.10.020(7). For the period July 1, 1993, through June 30, 1995, a collection action may be taken against parents of children with developmental disabilities who are placed in community-based residential care. The amount of support the department may collect from the parents shall not exceed one-half of the parents' support obligation accrued while the child was in community-based residential care. The child support obligation shall be calculated pursuant to chapter 26.19 RCW.

Sec. 927. RCW 79.24.580 and 1987 c 350 s 1 are each amended to read as follows:

After deduction for management costs as provided in RCW 79.64.040 and payments to towns under RCW 79.92.110(2), all moneys received by the state from the sale or lease of state-owned aquatic lands and from the sale of valuable

material from state-owned aquatic lands shall be distributed as follows: (1) To the state building bond redemption fund such amounts necessary to retire bonds issued pursuant to RCW 79.24.630 through 79.24.647 prior to January 1, 1987, and for which tide and harbor area revenues have been pledged, and (2) all moneys not deposited for the purposes of subsection (1) of this section shall be deposited in the aquatic lands enhancement account which is hereby created in the state treasury. After appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public purposes; for providing and improving access to such lands; and for volunteer cooperative fish and game projects. During the fiscal biennium ending June 30, 1995, the funds may be appropriated for shellfish management, enforcement, and enhancement and for developing and implementing plans for population monitoring and restoration of native wild salmon stock.

Sec. 928. RCW 86.26.007 and 1991 sp.s. c 13 s 24 are each amended to read as follows:

The flood control assistance account is hereby established in the state treasury. At the beginning of the 1995-97 fiscal biennium and each biennium thereafter the state treasurer shall transfer from the general fund to the flood control assistance account an amount of money which, when combined with money remaining in the account from the previous biennium, will equal four million dollars. Moneys in the flood control assistance account may be spent only after appropriation for purposes specified under this chapter. To the extent that moneys in the flood control assistance account are not appropriated during the 1993-95 fiscal biennium for flood control assistance, the legislature may direct their transfer to the state general fund.

Sec. 929. RCW 20.01.130 and 1986 c 178 s 8 are each amended to read as follows:

All fees and other moneys received by the department under the provisions of this chapter shall be paid to the director and shall be used solely for the purpose of carrying out the provisions of this chapter and rules adopted hereunder or for departmental administrative expenses during the 1993-95 biennium. All civil fines received by the courts as the result of notices of infractions issued by the director shall be paid to the director, less any mandatory court costs and assessments.

NEW SECTION. Sec. 930. MINORITY AND WOMEN'S BUSINESS ENTERPRISES. Chapter . . . (House Bill No. 1800), Laws of 1993 is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993.

NEW SECTION. Sec. 931. LICENSING OF FUNERAL DIRECTORS AND EMBALMERS. Chapter 43 (Substitute Senate Bill No. 5026), Laws of 1993 is necessary for the immediate preservation of the public peace, health, or

safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993.

NEW SECTION. Sec. 932. SEVERABILITY. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 933. EMERGENCY CLAUSE. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993, except for section 308(5) of this act which shall take effect immediately.

Passed the Senate May 6, 1993.

Passed the House May 5, 1993.

Approved by the Governor May 28, 1993, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State May 28, 1993.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 121(2); 125(1), (2); 202(7); 204(2)(d); 205(4)(a)(iii), (4)(b)(lines 12-17), (4)(b)(iii), (4)(b)(iv); 207(2), (3); 209(10); 217(1), (3), (4), (7), (8), (9); 226 lines 22-24; 229(16); 305(1); 308(1), (2), (4), (9); 501(1)(d); 707 line 14; 904; and 905(1) of Substitute Senate Bill No. 5968, entitled:

"AN ACT Relating to fiscal matters;"

My reasons for vetoing these sections are as follows:

Section 121(2), page 7, Performance Audits, (State Auditor)

Section 121(2) provides \$200,000 in appropriation authority from the Audit Services Revolving Account for the State Auditor to cover the costs of that agency's involvement in the three performance audits required in Section 904. Since I am also vetoing Section 904, I will ask the State Auditor to place these funds in reserve in recognition of this veto.

Section 125(1), page 9, Report on Implementation of Reductions (Office of Financial Management)

This subsection requires the Office of Financial Management to compile agency reports relating to implementation of budget reductions and efficiencies, and to submit those reports to the Legislature by December 1, 1993. Although I understand the Legislature's interest in these issues, the proviso as written is vague as to the intent and content of these reports. The existing allotment process represents the agencies' spending plan under the new budget and will be available long before the December deadline. I am willing to work with the Legislature to see that their interest for budget implementation formation is met, but I'm reluctant to impose a significant workload on agencies without more specific objectives.

Section 125(2), page 9, Administrative Cost Reporting System (Office of Financial Management)

Subsection 125(2) requires OFM to develop and implement a state-wide reporting system in support of the administrative detail required in section 904 (Performance Audits). Since I am vetoing section 904, the specific reason for this reporting system requirement in OFM is eliminated.

I do, however, share the Legislature's interest in uniform accounting practices and a more consistent approach to the reporting of administrative costs. I will instruct the Office of Financial Management to review our existing reporting structure and to work with legislative staff on possible improvements.

Section 202(7), page 19, Child Care Rates (Children and Family Services, Department of Social and Health Services)

This subsection requires the Department of Social and Health Services to reimburse child care providers at the 75th percentile of the 1992 market rate on a phased-in basis beginning on December 1, 1993. I am vetoing this subsection because there is a technical error in the proviso language. It should read "at the 75th percentile or the provider's usual rate, whichever is lower...." I am directing the Department of Social and Health Services to comply with the intent of the proviso to implement changes in child care rates beginning December 1, 1993.

Section 204(2)(d), page 23, Stop-Loss Arrangement (Mental Health, Department of Social and Health Services)

This subsection directs the Department of Social and Health Services to establish contractual relationships with the Regional Support Networks that protect against increased admissions to state hospitals of clients who are eligible for services from other programs in the agency. If the client population exceeds 110 percent of the 1991-93 average level, these other programs must bear the cost of care. I recognize the issue of dually diagnosed clients is troublesome and must be addressed; however, these programs have not been funded at levels sufficient to meet the stop-loss requirement without reducing services to current clients. I am vetoing this subsection, but I am directing DSHS to strengthen the existing collaborative agreements with the Regional Support Networks to ensure the client census is maintained at less than 110 percent of the average utilization during Fiscal Year 1993.

Section 205(4)(a)(ii) page 24, Client Assessments (Developmental Disabilities, Department of Social and Health Services)

This subsection requires the Department of Social and Health Services to assess each Residential Habilitation Center client to determine the level of support necessary to meet the client's needs. There are insufficient time and resources to complete this requirement, and it is unnecessarily duplicative of existing assessment tools. I am vetoing this subsection, but I am directing the Department to complete an independent assessment for each individual who is being moved into the community.

Section 205(4)(b)(lines 12-17), (4)(b)(iii), and (4)(b)(iv), page 25, Community Residential Services Reconfiguration (Division of Developmental Disabilities, Department of Social and Health Services)

This subsection requires the Department of Social and Health Services to reduce the per capita costs of community residential services programs by 6.7 percent during the last 18 months of the 1993-95 Biennium below the amount expended during the last quarter of the current biennium. While I acknowledge these savings must be achieved, subsection (b) and sub-subsections (b)(iii) and (b)(iv) are overly cumbersome, limit the Department's flexibility to manage its resources, and do not provide sufficient time to accomplish their purpose. I am vetoing lines 12 through 17 and 25 through 32, but in order to ensure these savings are maintained consistent with legislative intent, I am directing the Department to explore other means to achieve this reduction, such as implementing the reduction on an earlier date.

Section 207(2), page 27, State Supplementary Income Payments (Income Assistance, Department of Social and Health Services)

This subsection would reduce state supplementary payments to 80,000 blind, disabled, and elderly Washington residents. The current fiscal situation has forced us to make very difficult choices, many of which directly affect people who rely on state services. Nonetheless, I cannot in good conscience approve a measure to reduce state support for these individuals, who are truly our most vulnerable residents. Furthermore, it would be extremely difficult to administer these payments in such a way as to maintain the current spending level while the caseload increases without jeopardizing all federal Title XIX funds. I have therefore directed the Department of Social and Health Services to allocate these funds in accordance with current policy.

Section 207(3), page 27, Public Assistance (Income Assistance, Department of Social and Health Services)

This section would require that the Department of Social and Health Services eliminate the "100-hour rule" for two-parent families receiving aid to families with dependent children. Since this rule acts as a disincentive for families to work, I fully

support the intent of this subsection. However, funds for the implementation of this rule change are not included in the budget. Therefore, I am vetoing this subsection and directing the Department to pursue a federal waiver of this rule. I intend to recommend funding in the 1994 legislative session to eliminate the "100-hour rule."

Section 209(10), page 30, Chiropractic Services (Medical Assistance, Department of Social and Health Services)

This proviso earmarks \$3,372,000 General Fund-State to provide chiropractic services for Medical Assistance clients. I am vetoing this subsection because no additional funding has been provided for these services. The Department of Social and Health Services cannot reinstate these services within appropriated funding.

Section 217(1), (3), (4), (8), and (9), page 34-36, General-Fund State Appropriations (Department of Community Development)

Subsections 1, 3, 4, 8, and 9 restrict use of 38 percent of the Department's General Fund-state budget. The language for each of these subsections was intended to allow the Department flexibility to manage the nonspecific General Fund-State budget reductions. However, conflicting legal interpretations of the language make a veto necessary to ensure the needed flexibility. I am directing the Department to honor the purpose of the proviso language for each subsection by allocating the nonspecific reductions as uniformly as possible. Therefore, I am directing the Department to provide substantially similar funding levels for emergency food assistance, food stamp outreach, the Seattle Children's Museum, emergency medical support for Mt. St. Helens' National Monument, emergency shelter assistance, and growth management grants.

Section 217(7), page 36, Federal and Private Grant Assistance (Department of Community Development)

Subsection 7 requires the Department to use existing staff resources to research the availability of economic development grants. In addition the Department is required to assist state and local organizations to research the availability of these grants. The economic development budget at the Department has been reduced by 20 percent. At the same time, the expectation is for the economic development program to provide essentially the current service level to federal timber dependent communities, to implement the requirements of House Bill 1493 pertaining to women and minority owned businesses, and to maintain a statewide program. Although the Community Finance staff attempt to maximize the use of all resources for economic development, the proviso places an undue burden on the existing resources and sets up expectations that will be difficult to meet. Although I am vetoing this proviso, the Department is directed, within available resources, to provide assistance as required by this proviso.

Section 226, lines 22-24, page 43, (Department of Corrections)

This proviso requires the Department to address the mental health needs of inmates within existing resources. I believe this is an unrealistic expectation. My budget recommendation would have provided \$2,900,000 to begin the expansion of mental health services for offenders. There are an estimated 1,100 mentally ill offenders in Washington's prison system. These offenders generally receive longer sentences, serve more of their total sentence, receive more infractions, and are housed under a higher security level than the rest of the inmate population and are therefore much more expensive to house. If we wish to slow the growth in our prison costs, we must invest the required funding for this program. In vetoing this proviso I am urging the Legislature to recognize these needs with actual funding in future sessions.

Section 229(16), page 45, (Employment Security Department)

This proviso earmarks \$2,000,000 (Employment and Training Trust Fund) for operation of 13 job service centers located in community and technical college campuses. I am vetoing this subsection to maximize the Employment Security Department's flexibility to use its resources to provide a broad range of services across the state and meet the legislative intent contained in Engrossed Substitute House Bill 1988. I will ask that seven co-located Job Service Centers be established in the 1993-95 Biennium.

Section 305(1), page 50, Puget Sound Water Quality Management Plan (State Parks and Recreation Commission)

A technical error was made in the proviso language in this section. The Legislature has provided funding to the State Parks and Recreation Commission for its Plan-related activities out of the Aquatic Lands Enhancement Account (ALEA). This section incorrectly provisos General Fund-State moneys for this purpose. Although I am vetoing this proviso, the \$189,000 in ALEA funds must be spent for Plan activities.

Section 308(1), (2), and (4), page 52, European Trade Office, Washington Technology Center, and the Clean Washington Center (Department of Trade and Economic Development)

I strongly believe that these programs are valuable, productive elements of the state's economic development program. However, the budget for the Department passed by the Legislature will force a reevaluation of all economic development programs and a reprioritization of currently available funding. The programs specified in this section represent approximately one-third of the Department's total budget. I have vetoed these sections not because I believe the programs specified herein should necessarily suffer further budget reductions, but because I believe that they should not be protected or excluded from the comprehensive program and budget evaluation which the Department must conduct. I am directing the Department to honor the purpose of the proviso language for the European Trade Office, the Clean Washington Center, and the Washington Technology Center within this context.

Section 308(9), page 53, Engrossed Substitute House Bill 1493 — Minority and Women-Owned Businesses (Department of Trade and Economic Development)

The Legislature intended to fund the programs established in Engrossed Substitute House Bill 1493 using federal dollars transferred from the Washington Economic Development Finance Authority (WEDFA) account. The transfer from WEDFA to the General Fund-Federal account was not included in the appropriation bill and the proviso language in this section incorrectly specifies General Fund-State to implement ESHB 1493. I will seek a supplemental budget change to correct this error and make the federal funds available for these programs.

Section 501(1)(d), page 63, Demonstration Project (Superintendent of Public Instruction)

I am vetoing this proviso because it would require the Superintendent of Public Instruction to spend federal Chapter 2 funds in a manner inconsistent with federal government rules and statutes by supplanting state funds that previously funded special education demonstration projects. The Superintendent of Public Instruction has indicated that other available funds have been identified to meet the needs of the special services demonstration projects this proviso was intended to satisfy.

Section 707, page 97, line 14, Basic Data Account Transfer to the Tort Claims Revolving Fund

A transfer of \$16,000 is made from the Basic Data Account into the Tort Claims Revolving Fund. The inclusion of the Basic Data Account in the funds that will be

transferred into the Tort Claims Revolving Fund was an error. The transfer should have been from the Lottery Administration Account. Transfer from the correct fund will need to be made in the 1994 supplemental budget.

Section 904, page 113, Performance Audits.

On May 15, 1993, I signed into law the Accountability in Government Act of 1993 (Engrossed Substitute House Bill 1372). That new law starts Washington down the road toward performance-based government. It requires agencies to identify measurable, outcome-based objectives for each major program. It also directs the Office of Financial Management to prepare a plan for determining how well agencies are meeting those objectives. I strongly support performance-based government; my office worked directly with the Legislature in the development of this legislation. OFM will involve the Legislature and executive agencies in implementing ESHB 1372.

Section 904 is directly tied to ESHB 1372. But the work required by the bill must be completed before the three audits mandated by Section 904 can be carried out. OFM and state agencies need time to develop reliable program objectives and the plan to apply those objectives to tangible products, like performance audits, as envisioned in ESHB 1372. The audit requirements of Section 904 are, therefore, premature. For this reason, I have vetoed Section 904.

Section 905(1), page 114, Lease/Purchase Financing Agreements

Section 905(1) would require that the Office of Financial Management review all agency requests for the acquisition of equipment by lease/purchase financing agreements to ensure that 1) the method of acquisition offers a significant financial advantage to the state, and 2) the term of the installment contract does not exceed the useful life of the item being purchased. I am vetoing this subsection because under current procedures, the Office of State Treasurer (OST) reviews all agency requests for lease/purchase to ensure that the purchases meet these criteria. I will direct OFM to work with the OST and to manage the allocation of the \$35 million limit on lease/purchases from the General Fund, as was done during the 1991-93 Biennium.

Although this concludes my list of vetoes, I want to register concerns with two sections that I have signed with reservation:

Section 715 directs payment of an industrial insurance death benefit. While I am in sympathy with the facts of this particular case, I am strongly opposed to using the relief process as a way to pay denied industrial insurance claims. I hope that in the future the legislature will not use the sundry claims process to reserve final decisions of this type, but rather will address the underlying question of whether changes in industrial insurance laws and appeals procedures are needed.

Section 924 eliminates the General Fund-State transfer to the Water Quality Account for the 1993-95 Biennium. I believe clean water is vitally important. I also believe it is important to have a stable level of state funding that will enable local governments to dedicate sizable portions of their own resources to clean water efforts and to achieve mandated state and federal water quality requirements. I have signed this section because of the impact that vetoing it would have on the fund balance for the state General Fund and because removal of the General Fund transfer is for the 1993-95 Biennium only.

With the exceptions of sections 121(2); 125(1), (2); 202(7); 204(2)(d); 205(4)(a)(iii), (4)(b)(lines 12-17), (4)(b)(iii), (4)(b)(iv); 207(2), (3); 209(10); 217(1), (3), (4), (7), (8), (9), 226 lines 22-24; 229(16); 305(1), 308(1), (2), (4), (9), 501(1)(d); 707 line 14; 904; and 905(1), Substitute Senate Bill No. 5968 is approved."

NEW SECTION. Sec. 307. FINDING—PRESCRIPTION DRUGS. The legislature finds that prevention is a significant element in the reduction of health care costs. NEIGHBORHOOD REINVESTMENT AREA—APPLICATION. (1) The department, in cooperation with the department of revenue, the employment security department, and the office of financial management, shall approve applications submitted by local governments for designation as a neighborhood reinvestment area under this section. The application shall be in the form and

manner and contain such information as the department may prescribe, provided that the application for designation shall:

(a) Contain information sufficient for the director to determine if the criteria established in section 402 of this act have been met.

(b) Be submitted on behalf of the local government by its chief elected official, or, if none, by the governing body of the local government.

(c) Contain a five-year neighborhood reinvestment plan that describes the proposed designated neighborhood reinvestment area's community development needs and present a strategy for meeting those needs. The plan shall address the following categories: Housing needs; public infrastructure needs, such as transportation, water, sanitation, energy, and drainage/flood control; other public facilities needs, such as neighborhood facilities or facilities for provision of health, education, recreation, public safety, or other services; community economic development needs, such as commercial/industrial revitalization, job creation and retention considering the unemployment and underemployment of area residents, accessibility to financial resources by area residents and businesses, investment within the area, or other related components of community economic development; and social service needs.

The local government is required to provide a description of its strategy for meeting the needs identified in this subsection (1)(c). As part of the strategy, the local government is required to identify the needs for which specific plans are currently in place and the source of funds expected to be used. For the balance of the area's needs, the local government must identify the source of funds expected to become available during the next two-year period and actions the local government will take to acquire those funds.

(d) Certify that neighborhood residents were given the opportunity to participate in the development of the five-year neighborhood reinvestment strategy required under (c) of this subsection.

(2) No local government shall submit more than two neighborhoods to the department for possible designation as a designated neighborhood reinvestment area under this section.

(3)(a) Within ninety days after January 1, 1994, the director may designate up to six designated neighborhood reinvestment areas from among the applications eligible for designation as a designated neighborhood reinvestment area under this section. The director shall make determinations of designated neighborhood reinvestment areas on the basis of the following factors:

(i) The strength and quality of the local government commitments to meet the needs identified in the five-year neighborhood reinvestment plan required under this section.

(ii) The level of private commitments by private entities of additional resources and contribution to the designated neighborhood reinvestment area.

(iii) The potential for reinvestment in the area as a result of designation as a designated neighborhood reinvestment area.

(iv) Other factors the director of the department of community development deems necessary.

(b) The determination of the director as to the areas designated as neighborhood reinvestment areas shall be final.

NEW SECTION. Sec. 402. A new section is added to chapter 43.63A RCW to read as follows:

(b) The area must have at least fifty-one percent of the households in the area with incomes at or below eighty percent of the county's median income, adjusted for household size;

(c) The average unemployment rate for the area, for the most recent twelve-month period for which data is available must be at least one hundred twenty percent of the average unemployment rate of the county; and

(d) A five-year neighborhood reinvestment plan for the area that meets the requirements of section 401(1)(c) of this act and as further defined by the director must be adopted.

(2) The director may establish, by rule, such other requirements as the director may reasonably determine necessary and appropriate to assure that the purposes of this section are satisfied.

(3) In determining if an area meets the requirements of this section, the director may consider data provided by the United States bureau of the census from the most recent census or any other reliable data that the director determines to be acceptable for the purposes for which the data is used.

**PART V
REAL ESTATE EXCISE TAX**

NEW SECTION. Sec. 501. FINDINGS—INTENT. (1) The legislature finds that transfers of ownership of entities may be essentially equivalent to the sale of real property held by the entity. The legislature further finds that all transfers of possession or use of real property should be subject to the same excise tax burdens.

(2) The legislature intends to apply the real estate excise tax of chapter 82.45 RCW to transfers of entity ownership when the transfer of entity ownership is comparable to the sale of real property. The legislature intends to equate the excise tax burdens on all sales of real property and transfers of entity ownership essentially equivalent to a sale of real property under chapter 82.45 RCW.

Sec. 502. RCW 82.45.010 and 1981 c 93 s 1 are each amended to read as follows:

SALE—DEFINED. (1) As used in this chapter, the term "sale" shall have its ordinary meaning and shall include any conveyance, grant, assignment, quitclaim, or transfer of the ownership of or title to real property, including standing timber, or any estate or interest therein for a valuable consideration, and any contract for such conveyance, grant, assignment, quitclaim, or transfer, and any lease with an option to purchase real property, including standing timber, or any estate or interest therein or other contract under which possession of the property is given to the purchaser, or any other person (~~by his~~) at the purchaser's direction, ((which)) and title to the property is retained by the vendor as security for the payment of the purchase price. The term also includes the grant, assignment, quitclaim, sale, or transfer of improvements constructed upon leased land.

(2) The term "sale" also includes the transfer or acquisition within any twelve-month period of a controlling interest in any entity with an interest in real property located in this state for a valuable consideration. For purposes of this subsection, all acquisitions of persons acting in concert shall be aggregated for purposes of determining whether a transfer or acquisition of a controlling interest has taken place. The department of revenue shall adopt standards by rule to determine when persons are acting in concert. In adopting a rule for this purpose, the department shall consider the following:

(a) Persons shall be treated as acting in concert when they have a relationship with each other such that one person influences or controls the actions of another through common ownership; and

(b) When persons are not commonly owned or controlled, they shall be treated as acting in concert only when the unity with which the purchasers have negotiated and will consummate the transfer of ownership interests supports a finding that they are acting as a single entity. If the acquisitions are completely

independent, with each purchaser buying without regard to the identity of the other purchasers, then the acquisitions shall be considered separate acquisitions.

(3) The term "sale" shall not include:

(a) A transfer by gift, devise, or inheritance((?)).

(b) A transfer of any leasehold interest other than of the type mentioned above((?)).

(c) A cancellation or forfeiture of a vendee's interest in a contract for the sale of real property, whether or not such contract contains a forfeiture clause, or deed in lieu of foreclosure of a mortgage (~~or the assumption by a grantee of the balance owing on an obligation which is secured by a mortgage or deed in lieu of forfeiture of the vendee's interest in a contract of sale where no consideration passes otherwise or~~).

(d) The partition of property by tenants in common by agreement or as the result of a court decree(~~, any transfer, conveyance, or~~).

(e) The assignment of property or interest in property from one spouse to the other in accordance with the terms of a decree of divorce or in fulfillment of a property settlement agreement (~~(incident thereto)~~).

(f) The assignment or other transfer of a vendor's interest in a contract for the sale of real property, even though accompanied by a conveyance of the vendor's interest in the real property involved((?)).

(g) Transfers by appropriation or decree in condemnation proceedings brought by the United States, the state or any political subdivision thereof, or a municipal corporation((?)).

(h) A mortgage or other transfer of an interest in real property merely to secure a debt, or the assignment thereof((?)).

(i) Any transfer or conveyance made pursuant to a deed of trust or an order of sale by the court in any mortgage, deed of trust, or lien foreclosure proceeding or upon execution of a judgment, or deed in lieu of foreclosure to satisfy a mortgage((?) or deed of trust.

(j) A conveyance to the federal housing administration or veterans administration by an authorized mortgagee made pursuant to a contract of insurance or guaranty with the federal housing administration or veterans administration(~~(, nor)~~).

(k) A transfer in compliance with the terms of any lease or contract upon which the tax as imposed by this chapter has been paid or where the lease or contract was entered into prior to the date this tax was first imposed(~~(, nor)~~).

(l) The sale of any grave or lot in an established cemetery(~~(, nor)~~).

(m) A sale by (~~or to~~) the United States, this state or any political subdivision thereof, or a municipal corporation of this state.

~~(The term sale shall further not include)~~ (n) A transfer of real property, however effected, if it consists of a mere change in identity or form of ownership of an entity where there is no change in the beneficial ownership. These include transfers to a corporation or partnership which is wholly owned by the transferor and/or the transferor's spouse or children: PROVIDED, That if thereafter such

transferee corporation or partnership voluntarily transfers such real property, or such transferor, spouse, or children voluntarily transfer stock in the transferee corporation or interest in the transferee partnership capital, as the case may be, to other than (1) the transferor and/or the transferor's spouse or children, (2) a trust having the transferor and/or the transferor's spouse or children as the only beneficiaries at the time of the transfer to the trust, or (3) a corporation or partnership wholly owned by the original transferor and/or the transferor's spouse or children, within ~~((five))~~ three years of the original transfer to which this exemption applies, and the tax on the subsequent transfer has not been paid within sixty days of becoming due, excise taxes shall become due and payable on the original transfer as otherwise provided by law.

(o) A transfer that for federal income tax purposes does not involve the recognition of gain or loss for entity formation, liquidation or dissolution, and reorganization, including but not limited to nonrecognition of gain or loss because of application of section 332, 337, 351, 368(a)(1), 721, or 731 of the Internal Revenue Code of 1986, as amended.

Sec. 503. RCW 82.45.030 and 1969 ex.s. c 223 s 28A.45.030 are each amended to read as follows:

SELLING PRICE—DEFINED. (1) As used in this chapter, the term "selling price" means the ~~((consideration, including))~~ true and fair value of the property conveyed. If property has been conveyed in an arm's length transaction between unrelated persons for a valuable consideration, a rebuttable presumption exists that the selling price is equal to the total consideration paid or contracted to be paid to the transferor, or to another for the transferor's benefit.

(2) If the sale is a transfer of a controlling interest in an entity with an interest in real property located in this state, the selling price shall be the true and fair value of the real property owned by the entity and located in this state. If the true and fair value of the real property located in this state cannot reasonably be determined, the selling price shall be determined according to subsection (4) of this section.

(3) As used in this section, "total consideration paid or contracted to be paid" includes money or anything of value, paid or delivered or contracted to be paid or delivered in return for the ~~((transfer of the real property or estate or interest in real property))~~ sale, and shall include the amount of any lien, mortgage, contract indebtedness, or other incumbrance, either given to secure the purchase price, or any part thereof, or remaining unpaid on such property at the time of sale.

~~((The term))~~ Total consideration shall not include the amount of any outstanding lien or incumbrance in favor of the United States, the state, or a municipal corporation for ~~((the))~~ taxes, special benefits, or improvements.

(4) If the total consideration for the sale cannot be ascertained or the true and fair value of the property to be valued at the time of the sale cannot reasonably be determined, the market value assessment for the property

maintained on the county property tax rolls at the time of the sale shall be used as the selling price.

Sec. 504. RCW 82.45.032 and 1986 c 211 s 1 are each amended to read as follows:

REAL ESTATE—REAL PROPERTY—DEFINED. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

The term includes used mobile homes ~~((and))~~, used floating homes, and improvements constructed upon leased land.

(2) "Used mobile home" means a mobile home which has been previously sold at retail and has been subjected to tax under chapter 82.08 RCW, or which has been previously used and has been subjected to tax under chapter 82.12 RCW, and which has substantially lost its identity as a mobile unit at the time of sale by virtue of its being fixed in location upon land owned or leased by the owner of the mobile home and placed on a foundation (posts or blocks) with fixed pipe connections with sewer, water, and other utilities.

(3) "Mobile home" means a mobile home as defined by RCW 46.04.302, as now or hereafter amended.

CONTROLLING INTEREST—DEFINED. As used in this chapter, the term "controlling interest" has the following meaning:

(1) In the case of a corporation, either fifty percent or more of the total combined voting power of all classes of stock of the corporation entitled to vote, or fifty percent of the capital, profits, or beneficial interest in the voting stock of the corporation; and

(2) In the case of a partnership, association, trust, or other entity, fifty percent or more of the capital, profits, or beneficial interest in such partnership, association, trust, or other entity.

Sec. 506. RCW 82.45.090 and 1991 c 327 s 6 are each amended to read as follows:

SALE OF BENEFICIAL INTEREST IN REAL PROPERTY—NO RECORDED INSTRUMENT. (1) Except for a sale of a beneficial interest in real property where no instrument evidencing the sale is recorded in the official

In collecting the tax the treasurer (~~(acting)~~) shall act as agent for the state. The county treasurer shall cause a stamp evidencing satisfaction of the lien to be affixed to the instrument of sale or conveyance prior to its recording or to the real estate excise tax affidavit in the case of used mobile home sales and used floating home sales. (2) For a sale of a beneficial interest in real property where a tax is due under this chapter and where no instrument is recorded in the official real property records of the county in which the property is located, the sale shall be reported to the department of revenue within five days from the date of the sale on such returns or forms and according to such procedures as the department may prescribe. Such forms or returns shall be signed by both the transferor and the transferee and shall be accompanied by payment of the tax due. Any person who intentionally makes a false statement on any return or form required to be filed with the department under this chapter shall be guilty of perjury.

Sec. 507. RCW 82.45.100 and 1988 c 286 s 5 are each amended to read as follows:

LIABILITY FOR TAX NOT RECEIVED—EXCEPTIONS. (1) The tax imposed under this chapter is due and payable immediately at the time of sale, and if not paid within thirty days thereafter shall bear interest at the rate of one percent per month from the time of sale until the date of payment.

(2) In addition to the interest described in subsection (1) of this section, if the payment of any tax is not received by the county treasurer or the department of revenue, as the case may be, within thirty days of the date due, there shall be assessed a penalty of five percent of the amount of the tax; if the tax is not received within sixty days of the date due, there shall be assessed a total penalty of ten percent of the amount of the tax; and if the tax is not received within ninety days of the date due, there shall be assessed a total penalty of twenty percent of the amount of the tax. The payment of the penalty described in this subsection shall be collectible from the seller only, and RCW 82.45.070 does not apply to the penalties described in this subsection.

(3) If the tax imposed under this chapter is not received by the due date, the transferee shall be personally liable for the tax, along with any interest as provided in subsection (1) of this section, unless:

(b) Either the transferor or transferee notifies the department of revenue in writing of the occurrence of the sale within thirty days following the date of the sale.

(4) If upon examination of any affidavits or from other information obtained by the department or its agents it appears that all or a portion of the tax is unpaid, the department shall assess against the taxpayer the additional amount found to be due plus interest and penalties as provided in subsections (1) and (2) of this section. If the department finds that all or any part of the deficiency resulted from an intent to evade the tax payable under this chapter, an additional penalty of fifty percent of the additional tax found to be due shall be added.

~~((4))~~ (5) No assessment or refund may be made by the department more than four years after the date of sale except upon a showing of:

(a) Fraud or ((øf)) misrepresentation of a material fact by the taxpayer ((øf));

(b) A failure by the taxpayer to record documentation of a sale or otherwise report the sale to the county treasurer; or

(c) A failure of the transferor or transferee to report the sale under RCW 82.45.090(2).

(2) Each taxpayer shall pay a tax on or before the first day of March of each year to the state treasurer through the insurance commissioner's office. The tax shall be equal to the total amount of all premiums and prepayments for health care services received by the taxpayer during the preceding calendar year multiplied by the rate of two percent.

(3) Taxpayers shall prepay their tax obligations under this section. The minimum amount of the prepayments shall be percentages of the taxpayer's tax obligation for the preceding calendar year recomputed using the rate in effect for the current year. For the prepayment of taxes due during the first calendar year, the minimum amount of the prepayments shall be percentages of the taxpayer's

tax obligation that would have been due had the tax been in effect during the previous calendar year. The tax prepayments shall be paid to the state treasurer through the commissioner's office by the due dates and in the following amounts:

- (a) On or before June 15, forty-five percent;
- (b) On or before September 15, twenty-five percent;

(6) The taxes imposed in this section do not apply to:

(b) Amounts received by any health care service contractor, as defined in RCW 48.44.010, as prepayments for health care services included within the definition of practice of dentistry under RCW 18.32.020. This exemption does not apply to amounts received under a certified health plan certified under RCW 48.— (section 434, chapter . . . (Engrossed Second Substitute Senate Bill No. 5304), Laws of 1993).

Sec. 602. RCW 48.14.080 and 1993 c . . . (Engrossed Second Substitute Senate Bill No. 5304) s 302 are each amended to read as follows:

PREMIUM TAX IN LIEU OF OTHER FORMS. As to insurers, other than title insurers and taxpayers under section 601 of this act, the taxes imposed by this title shall be in lieu of all other taxes, except taxes on real and tangible personal property, excise taxes on the sale, purchase or use of such property, and the tax imposed in RCW 82.04.260(15).

PART VII RESALE CERTIFICATE ABUSE CURTAILED

Sec. 701. RCW 82.04.470 and 1983 2nd ex.s. c 3 s 29 are each amended to read as follows:

RESALE CERTIFICATES. (1) Unless a seller has taken from the ~~((purchaser))~~ buyer a resale certificate ~~((signed by, and bearing the name and address and registration number of the purchaser to the effect that the property or service was purchased for resale, or unless the nature of the transaction is clearly shown as a sale at wholesale by the books and records of the taxpayer in such other manner as the department of revenue shall by regulation provide)),~~ the burden of proving that a sale of tangible personal property, or of ~~((telephone))~~ services ~~((as defined in RCW 82.04.065)),~~ was not a sale at retail shall be upon the person who made it.

(2) If a seller does not receive a resale certificate at the time of the sale, have a resale certificate on file at the time of the sale, or obtain a resale certificate from the buyer within a reasonable time after the sale, the seller shall remain liable for the tax as provided in RCW 82.08.050, unless the seller can demonstrate facts and circumstances according to rules adopted by the department of revenue that show the sale was properly made without payment of sales tax.

(3) Resale certificates shall be valid for a period of four years from the date the certificate is provided to the seller.

(4) The department may provide by rule for suggested forms for resale certificates or equivalent documents containing the information that will be accepted as resale certificates. The department shall provide by rule the categories of items or services that must be specified on resale certificates and the business classifications that may use a blanket resale certificate.

(5) As used in this section, "resale certificate" means documentation provided by a buyer to a seller stating that the purchase is for resale in the regular course of business, or that the buyer is exempt from retail sales tax, and containing the following information:

- (a) The name and address of the buyer;
- (b) The uniform business identifier or revenue registration number of the buyer, if the buyer is required to registered;
- (c) The type of business engaged in;
- (d) The categories of items or services to be purchased for resale or that are exempt, unless the buyer is in a business classification that may present a blanket resale certificate as provided by the department by rule;
- (e) The date on which the certificate was provided;

(f) A statement that the items or services purchased either: (i) Are purchased for resale in the regular course of business; or (ii) are exempt from tax pursuant to statute;

(g) A statement that the buyer acknowledges that the buyer is solely responsible for purchasing within the categories specified on the certificate and that misuse of the resale or exemption privilege claimed on the certificate subjects the buyer to a penalty of fifty percent of the tax due, in addition to the tax, interest, and any other penalties imposed by law;

(h) The name of the individual authorized to sign the certificate, printed in a legible fashion;

(i) The signature of the authorized individual; and

(j) The name of the seller.

NEW SECTION. Sec. 702. A new section is added to chapter 82.08 RCW to read as follows:

RESALE CERTIFICATE—PURCHASE AND RESALE. If a buyer normally is engaged in both consuming and reselling certain types of articles of tangible personal property and is not able to determine at the time of purchase whether the particular property acquired will be consumed or resold, the buyer may use a resale certificate for the entire purchase if the buyer principally resells the articles according to the general nature of the buyer's business. The buyer shall account for the value of any articles purchased with a resale certificate that are used by the buyer and remit the sales tax on the articles to the department.

A buyer who pays a tax on all purchases and subsequently resells an article at retail, without intervening use by the buyer, shall collect the tax from the purchaser as otherwise provided by law and is entitled to a deduction on the buyer's tax return equal to the cost to the buyer of the property resold upon which retail sales tax has been paid. The deduction is allowed only if the taxpayer keeps and preserves records that show the names of the persons from whom the articles were purchased, the date of the purchase, the type of articles, the amount of the purchase, and the tax that was paid. The department shall provide by rule for the refund or credit of retail sales tax paid by a buyer for purchases that are later sold at wholesale without intervening use by the buyer.

NEW SECTION. Sec. 703. A new section is added to chapter 82.32 RCW to read as follows:

PENALTY. Any person who uses a resale certificate to purchase items or services without payment of sales tax and who is not entitled to use the certificate for the purchase shall be assessed a penalty of fifty percent of the tax due, in addition to all other taxes, penalties, and interest due, on the improperly purchased item or service. The department may waive the penalty imposed under this section if it finds that the use of the certificate was due to circumstances beyond the taxpayer's control or if the certificate was properly used for purchases for dual purposes. The department shall define by rule what circumstances are considered to be beyond the taxpayer's control.

Sec. 704. RCW 82.08.050 and 1992 c 206 s 2 are each amended to read as follows:

SELLER TO COLLECT TAX. The tax hereby imposed shall be paid by the buyer to the seller, and each seller shall collect from the buyer the full amount of the tax payable in respect to each taxable sale in accordance with the schedule of collections adopted by the department pursuant to the provisions of RCW 82.08.060. The tax required by this chapter, to be collected by the seller, shall be deemed to be held in trust by the seller until paid to the department, and any seller who appropriates or converts the tax collected to his or her own use or to any use other than the payment of the tax to the extent that the money required to be collected is not available for payment on the due date as prescribed in this chapter shall be guilty of a gross misdemeanor.

In case any seller fails to collect the tax herein imposed or having collected the tax, fails to pay it to the department in the manner prescribed by this chapter, whether such failure is the result of his or her own acts or the result of acts or conditions beyond his or her control, he or she shall, nevertheless, be personally liable to the state for the amount of the tax, unless the seller has taken from the buyer in good faith a properly executed resale certificate under RCW 82.04.470.

The amount of tax, until paid by the buyer to the seller or to the department, shall constitute a debt from the buyer to the seller and any seller who fails or refuses to collect the tax as required with intent to violate the provisions of this chapter or to gain some advantage or benefit, either direct or indirect, and any buyer who refuses to pay any tax due under this chapter shall be guilty of a misdemeanor. The tax required by this chapter to be collected by the seller shall be stated separately from the selling price in any sales invoice or other instrument of sale. On all retail sales through vending machines, the tax need not be stated separately from the selling price or collected separately from the buyer. For purposes of determining the tax due from the buyer to the seller and from the seller to the department it shall be conclusively presumed that the selling price quoted in any price list, sales document, contract or other agreement between the parties does not include the tax imposed by this chapter, but if the seller advertises the price as including the tax or that the seller is paying the tax, the advertised price shall not be considered the selling price.

Where a buyer has failed to pay to the seller the tax imposed by this chapter and the seller has not paid the amount of the tax to the department, the department may, in its discretion, proceed directly against the buyer for collection of the tax, in which case a penalty of ten percent may be added to the amount of the tax for failure of the buyer to pay the same to the seller, regardless of when the tax may be collected by the department; and all of the provisions of chapter 82.32 RCW, including those relative to interest and penalties, shall apply in addition; and, for the sole purpose of applying the various provisions of chapter 82.32 RCW, the twenty-fifth day of the month following the tax period in which the purchase was made shall be considered as the due date of the tax.

PART VIII**BUSINESS & OCCUPATION AND PUBLIC UTILITY TAX
DEDUCTIONS FOR CAPITAL CONTRIBUTIONS REPEALED**

NEW SECTION. Sec. 801. EXEMPTION OF AMOUNTS PAID TO POLITICAL SUBDIVISIONS FOR CAPITAL FACILITIES. RCW 82.04.417 and 1969 ex.s. c 156 s 1 are each repealed.

PART IX**REPEAL OF INSURANCE PREMIUMS TAX CREDIT FOR
PAYMENTS TO GUARANTY ASSOCIATIONS**

Sec. 901. RCW 48.32.145 and 1977 ex.s. c 183 s 1 are each amended to read as follows:

CREDIT AGAINST PREMIUM TAX. Every member insurer (~~which during any calendar year~~) that prior to April 1, 1993, shall have paid one or more assessments levied pursuant to RCW 48.32.060(1)(c) (~~as now or hereafter amended~~) shall be entitled to take, as a credit against any premium tax falling due under RCW 48.14.020, one-fifth of the aggregate amount of such aggregate assessments during such calendar year for each of the five consecutive calendar years beginning with the calendar year following the calendar year in which such assessments are paid(~~— PROVIDED, That~~). Whenever an assessment or uncredited portion ((thereof)) of an assessment is or becomes less than one thousand dollars, the entire amount may be credited against the premium tax at the next time the premium tax is paid.

This section shall expire January 1, 1999.

Sec. 902. RCW 48.32A.090 and 1990 c 51 s 6 are each amended to read as follows:

CERTIFICATES OF CONTRIBUTION. (1) The association shall issue to each insurer paying an assessment under this chapter certificates of contribution, in appropriate form and terms as prescribed or approved by the commissioner, for the amounts so paid into the respective funds. All outstanding certificates against a particular fund shall be of equal dignity and priority without reference to amounts or dates of issue.

(2) An outstanding certificate of contribution issued prior to April 1, 1993, shall be shown by the insurer in its financial statements as an admitted asset for such amount and period of time as the commissioner may approve(~~— PROVIDED, That~~). Unless a longer period has been allowed by the commissioner the insurer shall in any event at its option have the right to so show a certificate of contribution as an admitted asset at percentages of original face amount for calendar years as follows:

- 100% for the calendar year of issuance;
- 80% for the first calendar year after the year of issuance;
- 60% for the second calendar year after the year of issuance;
- 40% for the third calendar year after the year of issuance;

20% for the fourth calendar year after the year of issuance; and
0% for the fifth and subsequent calendar years after the year of issuance.

Notwithstanding the foregoing, if the value of a certificate of contribution is or becomes less than one thousand dollars, the entire amount may be written off by the insurer in that year.

(3) The insurer shall offset the amount written off by it in a calendar year under subsection (2) of this section against its premium tax liability to this state accrued with respect to business transacted in such year.

(4) Any sums recovered by the association representing sums which have theretofore been written off by contributing insurers and offset against premium taxes as provided in subsection (3) of this section, shall be paid by the association to the commissioner and (~~by him~~) then deposited with the state treasurer for credit to the general fund of the state of Washington.

(5) No distribution to stockholders, if any, of a liquidating insurer shall be made unless and until the total amount of assessments levied by the association with respect to such insurer have been fully recovered by the association.

PART X MISCELLANEOUS

***NEW SECTION. Sec. 1001. TRANSFER TO BUDGET STABILIZATION ACCOUNT.** *If the revenues generated under this act during the biennium exceed the amounts projected to be generated, the department of revenue shall certify the excess to the state treasurer as soon as the excess is known and the state treasurer shall transfer an amount equal to the excess from the general fund to the budget stabilization account.*

*Sec. 1001 was vetoed, see message at end of chapter.

NEW SECTION. Sec. 1002. SEVERABILITY. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 1003. EFFECTIVE DATES. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993, except:

- (1) Sections 901 and 902 of this act take effect immediately.
- (2) Sections 601 through 603 of this act take effect January 1, 1994.

NEW SECTION. Sec. 1004. PART HEADINGS AND CAPTIONS. Part headings and captions as used in this act constitute no part of the law.

Passed the Senate May 6, 1993.

Passed the House May 6, 1993.

Approved by the Governor May 28, 1993, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State May 28, 1993.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 306, 405, 406, 407, and 1001, Second Engrossed Substitute Senate Bill No. 5967 entitled:

"AN ACT Relating to taxation;"

Section 306 amends current law which provides a sales tax exemption for property purchased for use outside this state by nonresidents of Washington who live in a state or Canadian province with a sales tax rate of less than three percent by adding the requirement that the beneficiary state be "contiguous to the state of Washington." This would effectively limit the exemption to only Oregon residents.

This amendment presents a constitutional problem, since there does not appear to be a rational basis for distinguishing between residents of noncontiguous states and residents of contiguous states. If a successful class action lawsuit was brought on behalf of all affected parties, the state's costs for administering any payout to members of the class could be substantial.

While I agree that amending current law is necessary, I have vetoed this section because I am concerned with the possible unconstitutionality of this amendment and the consequences of potential lawsuits. Therefore, I will ask the Department of Revenue to develop legislation which addresses the proponents concerns and avoids the constitutional problems for consideration during the 1994 Legislative Session.

Sections 405, 406, and 407 extend the sales and use tax deferral program of chapter 82.61 RCW to include any pulp and paper products plant in operation prior to 1960 and located in a county with a population between 40,000 and 70,000. It was the intent of the sales tax deferral program to encourage new business locations in the state, not to provide a tax break for existing businesses. These sections were not intended to benefit the pulp and paper products industry generally; rather, these criteria were very carefully drawn in order to limit availability of the deferral program to a single taxpayer.

However, the impact could be significantly greater because several taxpayers potentially qualify for the program. Counties that are eligible based on the population range of 40,000 to 70,000 are Chelan, Clallam, Grant, Grays Harbor, Island, Lewis, and Walla Walla. At least four pulp and paper products companies located in these counties where in operation prior to 1960. In addition, there are 21 other pulp and paper products companies that were established prior to 1960, but which are headquartered in non-eligible counties. If any of these 21 other companies also have a plant in an eligible county, they could potentially qualify.

For these reasons, I have vetoed section 405, 406, and 407.

Section 1001 requires the Department of Revenue to determine the amount of revenue generated in excess of projections during the biennium as a result of this act. The State Treasurer would transfer the excess revenue from the general fund to the budget stabilization account. If actual revenue collections exceed the forecast, the Legislature can always choose to make transfers to the budget stabilization account. Therefore, it is not clear why this section is needed.

In addition, this section would require costly and burdensome accounting procedures for the Department of Revenue and would require the department to make unreasonable, and in some cases impossible requests for information from taxpayers. The Department of Revenue already has the capability to measure these and other revenues by other means which are less costly to administer and do not place unreasonable burdens on taxpayers.

For these reasons, I have vetoed section 1001. However, in line with the intent of this section, I am directing the Department of Revenue to report quarterly how well estimates for all of these revenue sources are tracking.

With the exception of sections 306, 405, 406, 407, and 1001, Second Engrossed Substitute Senate Bill No. 5967 is approved."

INITIATIVE TO THE LEGISLATURE NO. 24 (Limiting Dams in Fish Sanctuaries)—Measure filed September 18, 1956. Signature petitions containing approximately 85,600 signatures filed January 3, 1957. However, attorney general ruled that provisions of the 30th amendment to the state constitution approved by the voters at the 1956 state general election applied at the time signatures were presented. This amendment provided that the number of signatures necessary to validate an initiative must be equal to at least 8% of the votes cast on the position of governor at the last preceding gubernatorial election. This computation set the necessary number as 90,319 valid signatures. Sponsors appealed to the State Supreme Court which held that the attorney general was correct. REFERENDUM MEASURE NO. 34 (Chapter 37, Laws of 1963, Mechanical Devices, Salesboards, Cardrooms, Bingo)—Filed April 11, 1963 by Dr. Homer W. Humiston of Tacoma, Washington. Since said act contained an emergency clause making the law effective upon the approval of the Governor it was necessary for Dr. Humiston to initiate court action to determine whether or not emergency clause was valid. As of April 11, 1963 the State Supreme Court setting en banc ruled that the emergency clause was not valid and directed the Secretary of State to accept and file papers relative to the referendum (Case No. 36998).

Dr. Humiston, as sponsor of Referendum Measure No. 34, filed signature petition sheets containing a total of 82,995 signatures supporting Referendum Measure No. 34, during the period June 3 through June 12, 1963.

As of June 24, 1963, it was discovered that all such signature petition sheets had been stolen. However, two days later (June 26, 1963), Secretary of State Victor A. Meyers certified Referendum Measure No. 34 to the respective county auditors with direction that said measure appear upon the November 3, 1964 state general election ballot in spite of the fact that the signatures had been stolen. Such action was justified upon the grounds that the sponsor of said referendum had filed 82,995 signatures when only 48,630 valid signatures were needed. On July 22, 1963 the Amusement Association of Washington brought court action against the Secretary of State challenging the certification of Referendum Measure No. 34.

On July 22, 1963, the Thurston County Superior Court ruled that the Secretary of State had acted properly under the circumstances. On March 26, 1964, the State Supreme Court sustained the Thurston County Superior Court by likewise ruling that the Secretary of State's certification was valid.

Measure then submitted to the voters at the state general election held on November 3, 1964. *Failed to pass by the following vote: For—505,633 Against—622,987. As a consequence, Chapter 37, Laws of 1963 did not become law.
