

Approved by the Governor March 22, 1963, with the exception of Section 9, Subsection (16) which was vetoed.

NOTE: Governor's explanation of partial veto is as follows:

"House Bill 89 provides for the registration of contractors doing business in the State of Washington. As originally introduced, the bill was a comprehensive act requiring that, with certain reasonable exceptions, all persons doing any work as a contractor must first be licensed by the Department of Licenses. Information supplied on the license application will be available for public inspection.

"An amendment to the bill, however, exempted from the operation of the act, all contractors on highway projects who had prequalified as required by laws relating to highway construction contracts. By removing a substantial group of contractors from the operation of the act, much of the intended protection is lost.

"While the present act provides minimum protection to the people of our state, by making available a centralized listing of all contractors meeting the standards indicated, prequalification for highway contracts serves only to provide information concerning bidders on highway projects and is not readily available to the general public. I find nothing inconsistent in requiring all contractors to be licensed, and in addition requiring that contractors on costly highway projects submit to further prequalification with the Highway Commission.

"With the exception of the foregoing item, which is vetoed, the remainder of House Bill 89 is approved."
