

government and its existing public institutions, and shall take effect July 1, 1987.

Passed the House April 23, 1987.

Passed the Senate April 17, 1987.

Approved by the Governor May 19, 1987, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State May 19, 1987.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to a portion of section 1(1), Second Substitute House Bill No. 813, entitled:

"AN ACT Relating to the governor's commission on children;"

I heartily support the establishment of a Governor's Commission on Children to develop a long-term strategy for an effective, comprehensive children's services delivery system. The bill, however, requires the commission to be composed of more legislators than citizens and requires that a legislator serve as chair of the commission. When commissions are established in the Office of the Governor, their composition is made up predominantly of citizens because the executive office should reflect the views of the public.

Therefore, it is my intention to appoint a commission whose composition is similar to what was outlined in the original version of House Bill 813. For this reason, I have vetoed the portion of section 1(1) that describes the commission's membership.

With the exception of a portion of section 1(1), Second Substitute House Bill No. 813 is approved."

CHAPTER 474

[Substitute Senate Bill No. 6061]

COMMUNITY DOCKS—SHORELINE MANAGEMENT SUBSTANTIAL DEVELOPMENT EXEMPTION

AN ACT Relating to exempting certain community docks from the substantial development requirements of the shoreline management act; and amending RCW 90.58.030.

Be it enacted by the Legislature of the State of Washington:

Sec. 1. Section 3, chapter 286, Laws of 1971 ex. sess. as last amended by section 1, chapter 292, Laws of 1986 and RCW 90.58.030 are each amended to read as follows:

As used in this chapter, unless the context otherwise requires, the following definitions and concepts apply:

(1) Administration:

(a) "Department" means the department of ecology;

(b) "Director" means the director of the department of ecology;

(c) "Local government" means any county, incorporated city, or town which contains within its boundaries any lands or waters subject to this chapter;

(d) "Person" means an individual, partnership, corporation, association, organization, cooperative, public or municipal corporation, or agency of the state or local governmental unit however designated;

(e) "Hearing board" means the shoreline hearings board established by this chapter.

(2) Geographical:

(a) "Extreme low tide" means the lowest line on the land reached by a receding tide;

(b) "Ordinary high water mark" on all lakes, streams, and tidal water is that mark that will be found by examining the bed and banks and ascertaining where the presence and action of waters are so common and usual, and so long continued in all ordinary years, as to mark upon the soil a character distinct from that of the abutting upland, in respect to vegetation as that condition exists on June 1, 1971, as it may naturally change thereafter, or as it may change thereafter in accordance with permits issued by a local government or the department: PROVIDED, That in any area where the ordinary high water mark cannot be found, the ordinary high water mark adjoining salt water shall be the line of mean higher high tide and the ordinary high water mark adjoining fresh water shall be the line of mean high water;

(c) "Shorelines of the state" are the total of all "shorelines" and "shorelines of state-wide significance" within the state;

(d) "Shorelines" means all of the water areas of the state, including reservoirs, and their associated wetlands, together with the lands underlying them; except (i) shorelines of state-wide significance; (ii) shorelines on segments of streams upstream of a point where the mean annual flow is twenty cubic feet per second or less and the wetlands associated with such upstream segments; and (iii) shorelines on lakes less than twenty acres in size and wetlands associated with such small lakes;

(e) "Shorelines of state-wide significance" means the following shorelines of the state:

(i) The area between the ordinary high water mark and the western boundary of the state from Cape Disappointment on the south to Cape Flattery on the north, including harbors, bays, estuaries, and inlets;

(ii) Those areas of Puget Sound and adjacent salt waters and the Strait of Juan de Fuca between the ordinary high water mark and the line of extreme low tide as follows:

(A) Nisqually Delta—from DeWolf Bight to Tatsolo Point,

(B) Birch Bay—from Point Whitehorn to Birch Point,

(C) Hood Canal—from Tala Point to Foulweather Bluff,

(D) Skagit Bay and adjacent area—from Brown Point to Yokeko Point, and

(E) Padilla Bay—from March Point to William Point;

(iii) Those areas of Puget Sound and the Strait of Juan de Fuca and adjacent salt waters north to the Canadian line and lying seaward from the line of extreme low tide;

(iv) Those lakes, whether natural, artificial, or a combination thereof, with a surface acreage of one thousand acres or more measured at the ordinary high water mark;

(v) Those natural rivers or segments thereof as follows:

(A) Any west of the crest of the Cascade range downstream of a point where the mean annual flow is measured at one thousand cubic feet per second or more,

(B) Any east of the crest of the Cascade range downstream of a point where the annual flow is measured at two hundred cubic feet per second or more, or those portions of rivers east of the crest of the Cascade range downstream from the first three hundred square miles of drainage area, whichever is longer;

(vi) Those wetlands associated with (i), (ii), (iv), and (v) of this subsection (2)(e);

(f) "Wetlands" or "wetland areas" means those lands extending landward for two hundred feet in all directions as measured on a horizontal plane from the ordinary high water mark; floodways and contiguous floodplain areas landward two hundred feet from such floodways; and all marshes, bogs, swamps, and river deltas associated with the streams, lakes, and tidal waters which are subject to the provisions of this chapter; the same to be designated as to location by the department of ecology: PROVIDED, That any county or city may determine that portion of a one-hundred-year-flood plain to be included in its master program as long as such portion includes, as a minimum, the floodway and the adjacent land extending landward two hundred feet therefrom;

(g) "Floodway" means those portions of the area of a river valley lying streamward from the outer limits of a watercourse upon which flood waters are carried during periods of flooding that occur with reasonable regularity, although not necessarily annually, said floodway being identified, under normal condition, by changes in surface soil conditions or changes in types or quality of vegetative ground cover condition. The floodway shall not include those lands that can reasonably be expected to be protected from flood waters by flood control devices maintained by or maintained under license from the federal government, the state, or a political subdivision of the state.

(3) Procedural terms:

(a) "Guidelines" means those standards adopted to implement the policy of this chapter for regulation of use of the shorelines of the state prior to adoption of master programs. Such standards shall also provide criteria to local governments and the department in developing master programs;

(b) "Master program" shall mean the comprehensive use plan for a described area, and the use regulations together with maps, diagrams, charts, or other descriptive material and text, a statement of desired goals,

and standards developed in accordance with the policies enunciated in RCW 90.58.020;

(c) "State master program" is the cumulative total of all master programs approved or adopted by the department of ecology;

(d) "Development" means a use consisting of the construction or exterior alteration of structures; dredging; drilling; dumping; filling; removal of any sand, gravel, or minerals; bulkheading; driving of piling; placing of obstructions; or any project of a permanent or temporary nature which interferes with the normal public use of the surface of the waters overlying lands subject to this chapter at any state of water level;

(e) "Substantial development" shall mean any development of which the total cost or fair market value exceeds two thousand five hundred dollars, or any development which materially interferes with the normal public use of the water or shorelines of the state; except that the following shall not be considered substantial developments for the purpose of this chapter:

(i) Normal maintenance or repair of existing structures or developments, including damage by accident, fire, or elements;

(ii) Construction of the normal protective bulkhead common to single family residences;

(iii) Emergency construction necessary to protect property from damage by the elements;

(iv) Construction and practices normal or necessary for farming, irrigation, and ranching activities, including agricultural service roads and utilities on wetlands, and the construction and maintenance of irrigation structures including but not limited to head gates, pumping facilities, and irrigation channels: PROVIDED, That a feedlot of any size, all processing plants, other activities of a commercial nature, alteration of the contour of the wetlands by leveling or filling other than that which results from normal cultivation, shall not be considered normal or necessary farming or ranching activities. A feedlot shall be an enclosure or facility used or capable of being used for feeding livestock hay, grain, silage, or other livestock feed, but shall not include land for growing crops or vegetation for livestock feeding and/or grazing, nor shall it include normal livestock wintering operations;

(v) Construction or modification of navigational aids such as channel markers and anchor buoys;

(vi) Construction on wetlands by an owner, lessee, or contract purchaser of a single family residence for his own use or for the use of his family, which residence does not exceed a height of thirty-five feet above average grade level and which meets all requirements of the state agency or local government having jurisdiction thereof, other than requirements imposed pursuant to this chapter;

(vii) Construction of a dock, including a community dock, designed for pleasure craft only, for the private noncommercial use of the owner, lessee,

or contract purchaser of ((~~α~~)) single and multiple family residences, the cost of which does not exceed two thousand five hundred dollars;

(viii) Operation, maintenance, or construction of canals, waterways, drains, reservoirs, or other facilities that now exist or are hereafter created or developed as a part of an irrigation system for the primary purpose of making use of system waters, including return flow and artificially stored ground water for the irrigation of lands;

(ix) The marking of property lines or corners on state owned lands, when such marking does not significantly interfere with normal public use of the surface of the water;

(x) Operation and maintenance of any system of dikes, ditches, drains, or other facilities existing on September 8, 1975, which were created, developed, or utilized primarily as a part of an agricultural drainage or diking system;

(xi) Any action commenced prior to December 31, 1982, pertaining to (A) the restoration of interim transportation services as may be necessary as a consequence of the destruction of the Hood Canal bridge, including, but not limited to, improvements to highways, development of park and ride facilities, and development of ferry terminal facilities until a new or reconstructed Hood Canal bridge is open to traffic; and (B) the reconstruction of a permanent bridge at the site of the original Hood Canal bridge.

Passed the Senate March 18, 1987.

Passed the House April 16, 1987.

Approved by the Governor May 19, 1987.

Filed in Office of Secretary of State May 19, 1987.

CHAPTER 475

[Engrossed Substitute House Bill No. 844]

DEPENDENT CARE PROGRAM—STATE EMPLOYEES' SALARY REDUCTION PLAN

AN ACT Relating to dependent care; amending RCW 41.04.260; and adding new sections to chapter 41.04 RCW.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. (1) The state of Washington may enter into salary reduction agreements with employees pursuant to the Internal Revenue Code, 26 U.S.C. Sec. 125 for the purpose of making it possible for employees to select on a "before-tax basis" certain taxable and nontaxable benefits pursuant to 26 U.S.C. Sec. 125. The purpose of the salary reduction plan established in this chapter is to attract and retain individuals in governmental service by permitting them to enter into agreements with the state to provide for benefits pursuant to 26 U.S.C. Sec. 129.

(2) Nothing in the salary reduction plan constitutes an employment agreement between the participant and the state, and nothing contained in
