(1) The authority shall not accept or expend any federal funds received under a medicaid transformation waiver under healthier Washington except as described in subsections (2) through (5) of this section until specifically approved and appropriated by the legislature. To ensure compliance with legislative directive budget requirements and terms and conditions of the waiver, the authority shall implement the waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall: (a) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness; (b) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings; (c) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and (d) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration,

(2) No more than \$243,047,000 of the general fund—federal appropriation and no more than \$99,274,000 of the general fund—local appropriation may be expended for the medicaid quality improvement program. Under federal regulations, the medicaid quality improvement program is authorized and allows states to design quality improvement programs for the medicaid population in ways that support the state's quality goals. Medicaid quality improvement program payments will not count against initiative 1 of the medicaid transformation demonstration waiver spending limit and are excluded from the waiver's budget neutrality calculation. Apple health managed care organizations and their partnering providers will receive medicaid quality improvement program payments as they meet designated milestones. Partnering providers and apple health managed care organizations will work together to achieve medicaid quality improvement program goals according to the performance period timelines and reporting deadlines as set forth by the authority. The authority shall only utilize the medicaid quality improvement program to support the transformation waiver and shall not pursue its use for other purposes. Any programs created or funded by the medicaid quality improvement program do not create an entitlement. The authority shall not increase general fund—state, federal, or local expenditures under this program. The director shall report to the joint select committee on health care oversight not less than quarterly on financial and health outcomes. The director shall report to the fiscal committees of the legislature all of the

expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(3) No more than \$63,052,000 of the general fund—federal appropriation and no more than \$50,840,000 of the general fund—local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration wavier under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. Under this initiative, the authority shall take into account local input regarding community needs. The authority shall not increase general fund—state expenditures under this initiative. The director shall also report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(4) No more than \$26,837,000 of the general fund—federal appropriation and \$26,839,000 of the general fund—local appropriation may be expended for the medicaid quality improvement program for tailored support for older adults and medicaid alternative care described in initiative 2 of the medicaid transformation demonstration waiver under healthier Washington. The authority shall contract and provide funding to the department of social and health services to administer initiative 2. (7) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(8) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(9) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to

reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(10) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(11) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(12) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(13) \$3,997,000 of the general fund—state appropriation for fiscal year 2022, \$4,261,000 of the general fund—state appropriation for fiscal year 2023, and \$8,786,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(14) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(15) \$7,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be

disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(16) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2021-2023 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2021, and by November 1, 2022, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2022 and fiscal year 2023, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be

determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2021-2023 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$702,000 of the general fund-state appropriation for fiscal year 2022 and \$649,000 of the general fund-state appropriation for fiscal year 2023 are provided solely for state grants for the participating hospitals.

(17) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(18) The health care authority shall target funding for maternity support

services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(19) The authority shall submit reports to the governor and the legislature by September 15, 2021, and no later than September 15, 2022, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(21) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

(22) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(23) To facilitate a single point of entry across public and medical assistance programs, and to maximize the

use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(24) \$90,000 of the general fund-state appropriation for fiscal year 2022, \$90,000 of the general fund-state appropriation for fiscal year 2023, and \$180,000 of the general fund-federal appropriation are provided solely to continue operation by a nonprofit organization of a toll-free hotline that assists families to learn about and enroll in the apple health for kids program.

(25) Within the amounts appropriated in this section, the authority shall reimburse for primary care services provided by naturopathic physicians.

(27) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the classic medicaid benefit plan.

(28) The authority shall use revenue appropriated from the dedicated marijuana fund for contracts with community health centers under RCW 69.50.540 in lieu of general fund-state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(29) Beginning no later than January 1, 2018, for any service eligible under the medicaid state plan for encounter payments, managed care organizations at the request of a rural health clinic shall pay the full published encounter

rate directly to the clinic. At no time will a managed care organization be at risk for or have any right to the supplemental portion of the claim. Payments will be reconciled on at least an annual basis between the managed care organization and the authority, with final review and approval by the authority.

Appropriations made that constitute supplementation of home and community-based services as defined in section 9817 of ARPA are listed in the LEAP omnibus document HCBS-2021.

(34) During the 2021-2023 fiscal biennium, sufficient amounts are provided in this section for the authority to provide services identical to those services covered by the Washington state family planning waiver program as of August 2018 to individuals who:

- (c) Are not covered by other public or private insurance; and
- (d) Need family planning services and are not currently covered by or eligible for another medical assistance program for family planning.

(35) Sufficient amounts are appropriated within this section for the authority to incorporate the expected

outcomes and criteria to measure the performance of service coordination organizations as provided in chapter 70.320 RCW into contracts with managed care organizations that provide services to clients. The authority is directed to:

(a) Contract with an external quality improvement organization to annually analyze the performance of managed care organizations providing services to clients under this chapter based on seven performance measures. The analysis required under this subsection must:

(i) Measure managed care performance in four common measures across each managed care organization, including:

(A) At least one common measure must be weighted towards having the potential to impact managed care costs; and

(B) At least one common measure must be weighted towards population health management, as defined by the measure; and

(ii) Measure managed care performance in an additional three quality focus performance measures specific to a managed care organization. Quality focus performance measures chosen by the authority must:

(A) Be chosen from the statewide common measure set;

(B) Reflect specific measures where a managed care organization has poor performance; and

(C) Be substantive and clinically meaningful in promoting health status.

(b) The authority shall set the four common measures to be analyzed across all managed care organizations.

(c) The authority shall set three quality focus performance measures specific to each managed care organization. The authority must determine performance measures for each managed care organization based on the criteria established in (a)(ii) of this subsection.

(e) Two percent of the total plan year funding appropriated to each managed care organization that provides services to

clients under chapter 70.320 RCW shall be withheld. At least seventy-five percent of the withhold shall be held contingent on each managed care organization's performance on the seven performance measures identified in this section. Each managed care organization may earn back the annual withhold if the external quality improvement organization finds that the managed care organization:

(i) Made statistically significant improvement in the seven performance measures as compared to the preceding plan year; or

(ii) Scored in the top national medicaid quartile of the performance measures.

(f) The amount of withhold annually paid to each managed care organization shall be proportional to findings of statistically significant improvement or top national medicaid quartile scoring by a managed care organization.

(g) For no more than two of the four quality focus performance measures, the authority may use an alternate methodology to approximate top national medicaid quartile performance where top quartile performance data is unavailable.

(h) For the purposes of this subsection, "external quality improvement organization" means an organization that meets the competence and independence requirements under 42 C.F.R. Sec. 438.354, as it existed on the effective date of this section.

The authority is directed to:

(a) Organize all program integrity activities into a centralized unit or under a common protocol addressing provider enrollment, fraud and abuse detection, investigations, and law enforcement referrals that is more reflective of industry standards;

(b) Ensure appropriate resources, including the 10 full-time employees allocated to achieve this end, are dedicated to prevention, detection, investigation, and suspected provider

In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health entities with PACT teams, the authority shall consider the differences between behavioral health entities in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (6) of this section. The authority and behavioral health entities shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(5) \$3,520,000 of the general fund—federal appropriation is provided solely for the authority to maintain a pilot project to incorporate peer bridging staff into behavioral health regional teams that provide transitional services to individuals returning to their communities.

(ii) The authority shall assure that managed care organizations reimburse the department of social and health services aging and long term support administration for the general fund—state cost of exceptional behavioral health personal care services for medicaid enrolled individuals who require these because of a psychiatric disability. Funding for the federal share of these services is separately appropriated to the department of social and health services.

(c) The authority shall coordinate with the department of social and health services to develop and submit to the centers for medicare and medicaid services an application to provide a 1915(i) state plan home and community-based services benefit. The application shall be developed to allow for the delivery of wraparound supportive behavioral health services for individuals with mental illnesses who also have a personal care need. (8) \$1,204,000 of the general fund—state appropriation for fiscal year 2022 and \$1,204,000 of the general fund—state appropriation for fiscal year 2023 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting one hundred eighty-day commitment hearings at the state psychiatric hospitals.

(9) Behavioral health entities may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (6) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

settlement agreement in *T.R. v. Dreyfus and Porter*.

(12) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health administrative service organization contracts and include contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health administrative service organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health administrative service organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health administrative service organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan.

(13) During the 2021-2023 fiscal biennium, any amounts provided in this section that are used for case management services for pregnant and parenting women must be contracted directly between the authority and pregnant and parenting women case management providers.

county drug and alcohol use prevention programs.

(16) Within the amounts provided in this section, behavioral health entities must provide outpatient chemical dependency treatment for offenders enrolled in the medicaid program who are supervised by the department of corrections pursuant to a term of community supervision. Contracts with behavioral health entities must require that behavioral health entities include in their provider network specialized expertise in the provision of manualized, evidence-based chemical dependency treatment services for offenders. The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

(17) The criminal justice treatment account—state appropriation is provided solely for treatment and treatment support services for offenders with a substance use disorder pursuant to RCW 71.24.580. The authority must offer counties the option to administer their share of the distributions provided for under RCW 71.24.580(5)(a). Within these amounts, funding is provided to increase the fee for service rate for these facilities up to \$650 per day. The authority must require in contracts with behavioral health entities that, beginning in calendar year 2020, they pay no lower than the fee for service rate. The authority must coordinate with regional behavioral health entities to identify and implement purchasing strategies or regulatory changes that increase access to services for individuals with complex behavioral health needs at secure withdrawal management and stabilization facilities.

(5) The legislature recognizes that the federal government has provided substantial additional funding through the coronavirus response and relief supplemental appropriations act, P.L. 116-260, division M., and the American rescue plan act of 2021. The purpose of the additional federal funding was to ensure access to affordable child care and to stabilize and support child care providers from the effects of the COVID-19 pandemic. The legislature intends with the passage of Engrossed Second Substitute House Bill No. 1213 to implement these federal purposes by expanding eligibility for subsidized child care, reducing parent copayments, increasing provider base rates to recognize increased costs, and to provide other financial support to stabilize the child care sector to remain open or to reopen. The legislature finds that the state lacked the fiscal capacity to make these investments and the additional federal funding has provided the opportunity to supplement state funding to expand and accelerate child care access, affordability, and provider support as the state navigates the COVID-19 pandemic and its aftermath.

(6) \$20,110,000 of the general fund—state appropriation in fiscal year 2022, \$45,748,000 of the general fund—state appropriation in fiscal year 2023, \$283,375,000 of the general fund—federal appropriation, \$36,501,000 of the general fund—federal appropriation (CARES), \$63,835,000 of the general fund—federal appropriation (CRRSA), and \$103,321,000 of the general fund—federal appropriation (ARPA) are provided solely for the working connections child care program under RCW 43.216.135. (a) The department of children, youth, and families shall work in collaboration with the department of social and health services to determine the appropriate amount of state expenditures for the working connections child care program to claim towards the state's maintenance of effort for the temporary assistance for needy families program. The departments will also collaborate to track the average monthly child care subsidy caseload and expenditures by fund type, including child care development fund, general fund—state appropriation, and temporary assistance for needy families for the purpose of estimating the annual temporary assistance for needy families reimbursement from the department of social and health services to the department of children, youth, and families. Effective December 1, 2022, and annually thereafter, the department of children, youth, and families must report to the governor and the appropriate fiscal and policy committees of the legislature the total state contribution for the working connections child care program claimed the previous fiscal year towards the state's maintenance of effort for the temporary assistance for needy families program and the total temporary assistance for needy families reimbursement from the department of social and health services for the previous fiscal year.

The state and the representative for family child care providers must enter into bargaining over the implementation of subsidy rate increases, and apply those increases consistent with the terms of this proviso and the agreement reached between the parties.

(e) \$6,879,000 of the general fund—federal appropriation (CRRSA) and \$13,978,000 of the general fund—federal appropriation (ARPA) are provided solely to expand eligibility for the working connections child care program to households at or below 60 percent of state median income.

(A) Have reapplied for subsidies; and

(B) Have household income of sixty percent of the state median income or below; and

(viii) All other eligible families.

(i) On July 1, 2021, and July 1, 2022, the department, in collaboration with the department of social and health services, must report to the governor and the appropriate fiscal and policy committees of the legislature on the status of overpayments in the working connections child care program. (ii) For each fiscal year, the legislature must appropriate a minimum of five hundred eleven thousand dollars to the office of the superintendent of public instruction under this subsection (2)(f); and

(g) At the end of each fiscal year, the treasurer must transfer any amounts in the dedicated marijuana account that are not appropriated pursuant to subsection (1) of this section and this subsection (2) into the general fund, except as provided in (g)(i) of this subsection (2).

(i) Beginning in fiscal year 2018, if marijuana excise tax collections deposited into the general fund in the prior fiscal year exceed twenty-five million dollars, then each fiscal year the legislature must appropriate an amount equal to thirty percent of all marijuana excise taxes deposited into the general fund the prior fiscal year to the treasurer for distribution to counties, cities, and towns as follows:

(A) Thirty percent must be distributed to counties, cities, and towns where licensed marijuana retailers are

physically located. Each jurisdiction must receive a share of the revenue distribution under this subsection (2)(g)(i)(A) based on the proportional share of the total revenues generated in the individual jurisdiction from the taxes collected under RCW 69.50.535, from licensed marijuana retailers physically located in each jurisdiction. For purposes of this subsection (2)(g)(i)(A), one hundred percent of the proportional amount attributed to a retailer physically located in a city or town must be distributed to the city or town.

(B) Seventy percent must be distributed to counties, cities, and towns ratably on a per capita basis. Counties must receive sixty percent of the distribution, which must be disbursed based on each county's total proportional population. Funds may only be distributed to jurisdictions that do not prohibit the siting of any state licensed marijuana producer, processor, or retailer.

(ii) Distribution amounts allocated to each county, city, and town must be distributed in four installments by the last day of each fiscal quarter.

(iii) By September 15th of each year, the board must provide the state treasurer the annual distribution amount, if any, for each county and city as determined in (g)(i) of this subsection (2).

(iv) The total share of marijuana excise tax revenues distributed to counties and cities in (g)(i) of this subsection (2) may not exceed fifteen million dollars in fiscal years ~~((2018, 2019, 2020, and))~~ 2021, 2022, and 2023, and twenty million dollars per fiscal year thereafter. It is the intent of the legislature that the policy for the maximum distributions in the subsequent fiscal biennia will be no more than fifteen million dollars per fiscal year.

**Sec. 969.** RCW 70A.305.180 and 2020 c 20 s 1319 are each amended to read as follows:

(3) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in model toxics control operating account may be spent only after appropriation by statute.

(4) One percent of the moneys collected under RCW 82.21.030 must be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation that are not expended at the close of any biennium revert to the model toxics control operating account.

(5) The department must adopt rules for grant or loan issuance and performance.

**Sec. 970.** RCW 71.24.580 and 2020 c 357 s 917 are each amended to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be expended solely for: (a) Substance use disorder treatment and treatment support services for offenders with a substance use disorder that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of substance use disorder treatment services and treatment support services for nonviolent offenders within a drug court program; and (c) the administrative and overhead costs associated with the operation of a drug court. Amounts provided in this subsection must be used for treatment and recovery support services for criminally involved offenders and authorization of these services shall not be subject to determinations of medical necessity. ~~((During the 2017-2019 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to~~

~~the state general fund.))~~ During the 2019-2021 and 2021-2023 fiscal ~~((biennium))~~ biennia, the legislature may appropriate from the account for municipal drug courts and increased treatment options ~~((, and))~~. During the 2019-2021 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the home security fund account created in RCW 43.185C.060. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:

(a) "Treatment" means services that are critical to a participant's successful completion of his or her substance use disorder treatment program, including but not limited to the recovery support and other programmatic elements outlined in RCW 2.30.030 authorizing therapeutic courts; and

(b) "Treatment support" includes transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant's ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(4) (a) For the fiscal year beginning July 1, 2005, and each subsequent fiscal year, the state treasurer shall transfer eight million two hundred fifty thousand dollars from the general fund to the criminal justice treatment account, divided into four equal quarterly payments. For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the department for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the authority from the criminal justice treatment account shall be distributed as specified in this subsection. The

authority may retain up to three percent of the amount appropriated under subsection (4)(b) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the authority from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The authority, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the authority to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the authority from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The authority shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, and substance use disorder treatment providers. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal

defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The submitted plan should incorporate current evidence-based practices in substance use disorder treatment. The funds shall be used solely to provide approved alcohol and substance use disorder treatment pursuant to RCW 71.24.560 and treatment support services. No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) If a region or county uses criminal justice treatment account funds to support a therapeutic court, the therapeutic court must allow the use of all medications approved by the federal food and drug administration for the treatment of opioid use disorder as deemed medically appropriate for a participant by a medical professional. If appropriate medication-assisted treatment resources are not available or accessible within the jurisdiction, the health care authority's designee for assistance must assist the court with acquiring the resource.

(10) Counties must meet the criteria established in RCW 2.30.030(3).

(11) The authority shall annually review and monitor the expenditures made by any county or group of counties that receives appropriated funds distributed under this section. Counties shall repay any funds that are not spent in accordance with the requirements of its contract with the authority.

**Sec. 971.** RCW 74.13.715 and 2020 c 33 s 2 are each amended to read as follows:

(1) Beginning September 1, 2020, the department shall contract with an external organization or organizations with experience serving youth or families receiving out-of-home care services to implement and operate the family connections program, which facilitates interaction between a parent of a child found to be dependent pursuant to chapter 13.34 RCW and in out-of-home care and the individual with whom the child is placed.

(2) The external organization or organizations contracted to implement and operate the family connections program shall implement and operate the family connections program in one location west of the crest of the Cascade mountains, and one location east of the crest of the Cascade mountains.

(3) Families may be referred to the family connections program by a caseworker, an attorney, a guardian ad litem as defined in RCW 13.34.030, a parent ally, an office of public defense social worker, or the court.

(4) After receiving a referral, the family connections program shall determine whether an in-person meeting between a parent of a child found to be dependent pursuant to chapter 13.34 RCW and in out-of-home care and the individual with whom the child is placed is appropriate. If the family connections program determines that such a meeting is appropriate, the family connections program shall then determine whether:

(a) The parent of a child found to be dependent pursuant to chapter 13.34 RCW and in out-of-home care and the individual with whom the child is placed are willing to participate in an in-person meeting; and

(b) Safety concerns exist such that an in-person meeting should not occur.

(5) If the family connections program determines that an in-person meeting should occur following the analysis required by subsection (4) of this section, the family connections program shall provide a referral to the family connections program team. The family connections program team shall include a parent ally and an experienced caregiver. After receiving a referral, the family connections program team shall:

(a) Ensure that the parent ally contact the parent to prepare for an in-person meeting between the parent and caregiver;

(b) Ensure that the experienced caregiver contact the caregiver to prepare for an in-person meeting between the parent and caregiver;

(c) Convene an in-person meeting between the parent and caregiver; and

(d) Provide ongoing support to the parent and caregiver following the in-person meeting.

(6) If the family connections program determines that an in-person meeting should not occur following the analysis required under subsection (4) of this section, the family connections program team shall facilitate the exchange of information between the parent and caregiver in an appropriate manner that does not include an in-person meeting. The format of this exchange of information may include written messages, phone calls, or videoconferencing. The family connections program shall routinely reevaluate whether an in-person meeting should occur using the analysis required under subsection (4) of this section.

(7) The department shall collect data and measure outcomes for families engaging in the family connections program. By September 1, 2021, and in compliance with RCW 43.01.036, the department shall submit a report to the relevant committees of the legislature that details:

(a) Data collected for the family connections program;

(b) Outcomes for families engaging in the family connections program; and

(c) The department's plan on how to expand the family connections program statewide.

(8) The definitions in this subsection apply throughout this section:

(a) "Experienced caregiver" means:

(i) An individual who is or has received a foster-family home license pursuant to chapter 74.15 RCW or an equivalent license from another state; or

(ii) An individual who cared for a child who was removed from his or her parent pursuant to chapter 13.34 RCW and who has a kin relationship to that child pursuant to RCW 74.13.600.

(b) "Parent ally" has the same meaning as provided in RCW 2.70.060.

(9) This section expires June 30, ((2022)) 2023.

**Sec. 972.** RCW 74.46.485 and 2017 c 286 s 1 are each amended to read as follows:

(1) The legislature recognizes that staff and resources needed to adequately care for individuals with cognitive or behavioral impairments is not limited to support for activities of daily living. Therefore, the department shall:

(a) Employ the resource utilization group IV case mix classification methodology. The department shall use the fifty-seven group index maximizing model for the resource utilization group IV grouper version MDS 3.05, but in the 2021-2023 biennium the department may revise or update the ((classification)) methodology used to establish case mix classifications to reflect advances or refinements in resident assessment or classification, ((subject to federal requirements)) as made available by the federal government. The department may adjust by no more than thirteen percent the case mix index for resource utilization group categories beginning with PA1 through PB2 to any case mix index that aids in achieving the purpose and intent of RCW 74.39A.007 and cost-efficient care, excluding behaviors, and allowing for exceptions for limited placement options; and

(b) Implement minimum data set 3.0 under the authority of this section. The department must notify nursing home contractors twenty-eight days in advance the date of implementation of the minimum data set 3.0. In the notification, the department must identify for all semiannual rate settings following the date of minimum data set 3.0 implementation a previously established semiannual case mix adjustment established for the semiannual rate settings that will be used for semiannual case mix calculations in direct care until minimum data set 3.0 is fully implemented.

(2) The department is authorized to adjust upward the weights for resource utilization groups BA1-BB2 related to cognitive or behavioral health to ensure adequate access to appropriate levels of care.

(3) A default case mix group shall be established for cases in which the resident dies or is discharged for any purpose prior to completion of the

resident's initial assessment. The default case mix group and case mix weight for these cases shall be designated by the department.

(4) A default case mix group may also be established for cases in which there is an untimely assessment for the resident. The default case mix group and case mix weight for these cases shall be designated by the department.

**Sec. 973.** RCW 74.46.501 and 2016 c 131 s 5 are each amended to read as follows:

(1) From individual case mix weights for the applicable quarter, the department shall determine two average case mix indexes for each medicaid nursing facility, one for all residents in the facility, known as the facility average case mix index, and one for medicaid residents, known as the medicaid average case mix index.

(2) (a) In calculating a facility's two average case mix indexes for each quarter, the department shall include all residents or medicaid residents, as applicable, who were physically in the facility during the quarter in question based on the resident assessment instrument completed by the facility and the requirements and limitations for the instrument's completion and transmission (January 1st through March 31st, April 1st through June 30th, July 1st through September 30th, or October 1st through December 31st).

(b) The facility average case mix index shall exclude all default cases as defined in this chapter. However, the medicaid average case mix index shall include all default cases.

(3) Both the facility average and the medicaid average case mix indexes shall be determined by multiplying the case mix weight of each resident, or each medicaid resident, as applicable, by the number of days, as defined in this section and as applicable, the resident was at each particular case mix classification or group, and then averaging.

(4) In determining the number of days a resident is classified into a particular case mix group, the department shall determine a start date for calculating case mix grouping periods as specified by rule.

(5) The cutoff date for the department to use resident assessment data, for the

purposes of calculating both the facility average and the medicaid average case mix indexes, and for establishing and updating a facility's direct care component rate, shall be one month and one day after the end of the quarter for which the resident assessment data applies.

(6)(a) Although the facility average and the medicaid average case mix indexes shall both be calculated quarterly, the cost-rebasing period facility average case mix index will be used throughout the applicable cost-rebasing period in combination with cost report data as specified by RCW 74.46.561, to establish a facility's allowable cost per case mix unit. To allow for the transition to minimum data set 3.0 and implementation of resource utilization group IV for July 1, 2015, through June 30, 2016, the department shall calculate rates using the medicaid average case mix scores effective for January 1, 2015, rates adjusted under RCW 74.46.485(1)(a), and the scores shall be increased each six months during the transition period by one-half of one percent. The July 1, 2016, direct care cost per case mix unit shall be calculated by utilizing 2014 direct care costs, patient days, and 2014 facility average case mix indexes based on the minimum data set 3.0 resource utilization group IV grouper 57. Otherwise, a facility's medicaid average case mix index shall be used to update a nursing facility's direct care component rate semiannually.

(b) ~~(The)~~ Except during the 2021-2023 fiscal biennium, the facility average case mix index used to establish each nursing facility's direct care component rate shall be based on an average of calendar quarters of the facility's average case mix indexes from the four calendar quarters occurring during the cost report period used to rebase the direct care component rate allocations as specified in RCW 74.46.561.

(c) ~~(The)~~ Except during the 2021-2023 fiscal biennium, the medicaid average case mix index used to update or recalibrate a nursing facility's direct care component rate semiannually shall be from the calendar six-month period commencing nine months prior to the effective date of the semiannual rate. For example, July 1, 2010, through December 31, 2010, direct care component rates shall utilize case mix averages

from the October 1, 2009, through March 31, 2010, calendar quarters, and so forth.

(d) The department shall establish a methodology to use the case mix to set the direct care component in the 2021-2023 fiscal biennium.

**Sec. 974.** RCW 74.46.561 and 2020 c 357 s 918 are each amended to read as follows:

(1) The legislature adopts a new system for establishing nursing home payment rates beginning July 1, 2016. Any payments to nursing homes for services provided after June 30, 2016, must be based on the new system. The new system must be designed in such a manner as to decrease administrative complexity associated with the payment methodology, reward nursing homes providing care for high acuity residents, incentivize quality care for residents of nursing homes, and establish minimum staffing standards for direct care.

(2) The new system must be based primarily on industry-wide costs, and have three main components: Direct care, indirect care, and capital.

(3) The direct care component must include the direct care and therapy care components of the previous system, along with food, laundry, and dietary services. Direct care must be paid at a fixed rate, based on one hundred percent or greater of statewide case mix neutral median costs, but for fiscal year 2023 shall be ~~(set)~~ capped so that a nursing home provider's direct care rate does not exceed one hundred ~~((eighteen))~~ thirty percent of its base year's direct care allowable costs except if the provider is below the minimum staffing standard established in RCW 74.42.360(2). The legislature intends to remove the cap on direct care rates by June 30, 2027. Direct care must be performance-adjusted for acuity every six months, using case mix principles. Direct care must be regionally adjusted using countywide wage index information available through the United States department of labor's bureau of labor statistics. There is no minimum occupancy for direct care. The direct care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(4) The indirect care component must include the elements of administrative expenses, maintenance costs, and

housekeeping services from the previous system. A minimum occupancy assumption of ninety percent must be applied to indirect care. Indirect care must be paid at a fixed rate, based on ninety percent or greater of statewide median costs. The indirect care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(5) The capital component must use a fair market rental system to set a price per bed. The capital component must be adjusted for the age of the facility, and must use a minimum occupancy assumption of ninety percent.

(a) Beginning July 1, 2016, the fair rental rate allocation for each facility must be determined by multiplying the allowable nursing home square footage in (c) of this subsection by the RSMean rental rate in (d) of this subsection and by the number of licensed beds yielding the gross unadjusted building value. An equipment allowance of ten percent must be added to the unadjusted building value. The sum of the unadjusted building value and equipment allowance must then be reduced by the average age of the facility as determined by (e) of this subsection using a depreciation rate of one and one-half percent. The depreciated building and equipment plus land valued at ten percent of the gross unadjusted building value before depreciation must then be multiplied by the rental rate at seven and one-half percent to yield an allowable fair rental value for the land, building, and equipment.

(b) The fair rental value determined in (a) of this subsection must be divided by the greater of the actual total facility census from the prior full calendar year or imputed census based on the number of licensed beds at ninety percent occupancy.

(c) For the rate year beginning July 1, 2016, all facilities must be reimbursed using four hundred square feet. For the rate year beginning July 1, 2017, allowable nursing facility square footage must be determined using the total nursing facility square footage as reported on the medicaid cost reports submitted to the department in compliance with this chapter. The maximum allowable square feet per bed may not exceed four hundred fifty.

(d) Each facility must be paid at ninety-three percent or greater of the

median nursing facility RSMean construction index value per square foot. The department may use updated RSMean construction index information when more recent square footage data becomes available. The statewide value per square foot must be indexed based on facility zip code by multiplying the statewide value per square foot times the appropriate zip code based index. For the purpose of implementing this section, the value per square foot effective July 1, 2016, must be set so that the weighted average fair rental value rate is not less than ten dollars and eighty cents per patient day. The capital component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(e) The average age is the actual facility age reduced for significant renovations. Significant renovations are defined as those renovations that exceed two thousand dollars per bed in a calendar year as reported on the annual cost report submitted in accordance with this chapter. For the rate beginning July 1, 2016, the department shall use renovation data back to 1994 as submitted on facility cost reports. Beginning July 1, 2016, facility ages must be reduced in future years if the value of the renovation completed in any year exceeds two thousand dollars times the number of licensed beds. The cost of the renovation must be divided by the accumulated depreciation per bed in the year of the renovation to determine the equivalent number of new replacement beds. The new age for the facility is a weighted average with the replacement bed equivalents reflecting an age of zero and the existing licensed beds, minus the new bed equivalents, reflecting their age in the year of the renovation. At no time may the depreciated age be less than zero or greater than forty-four years.

(f) A nursing facility's capital component rate allocation must be rebased annually, effective July 1, 2016, in accordance with this section and this chapter.

(g) For the purposes of this subsection (5), "RSMean" means building construction costs data as published by Gordian.

(6) A quality incentive must be offered as a rate enhancement beginning July 1, 2016.

(a) An enhancement no larger than five percent and no less than one percent of the statewide average daily rate must be paid to facilities that meet or exceed the standard established for the quality incentive. All providers must have the opportunity to earn the full quality incentive payment.

(b) The quality incentive component must be determined by calculating an overall facility quality score composed of four to six quality measures. For fiscal year 2017 there shall be four quality measures, and for fiscal year 2018 there shall be six quality measures. Initially, the quality incentive component must be based on minimum data set quality measures for the percentage of long-stay residents who self-report moderate to severe pain, the percentage of high-risk long-stay residents with pressure ulcers, the percentage of long-stay residents experiencing one or more falls with major injury, and the percentage of long-stay residents with a urinary tract infection. Quality measures must be reviewed on an annual basis by a stakeholder work group established by the department. Upon review, quality measures may be added or changed. The department may risk adjust individual quality measures as it deems appropriate.

(c) The facility quality score must be point based, using at a minimum the facility's most recent available three-quarter average centers for medicare and medicaid services quality data. Point thresholds for each quality measure must be established using the corresponding statistical values for the quality measure point determinants of eighty quality measure points, sixty quality measure points, forty quality measure points, and twenty quality measure points, identified in the most recent available five-star quality rating system technical user's guide published by the center[s] for medicare and medicaid services.

(d) Facilities meeting or exceeding the highest performance threshold (top level) for a quality measure receive twenty-five points. Facilities meeting the second highest performance threshold receive twenty points. Facilities meeting the third level of performance threshold receive fifteen points. Facilities in the bottom performance threshold level receive no points. Points from all quality measures must then be

summed into a single aggregate quality score for each facility.

(e) Facilities receiving an aggregate quality score of eighty percent of the overall available total score or higher must be placed in the highest tier (tier V), facilities receiving an aggregate score of between seventy and seventy-nine percent of the overall available total score must be placed in the second highest tier (tier IV), facilities receiving an aggregate score of between sixty and sixty-nine percent of the overall available total score must be placed in the third highest tier (tier III), facilities receiving an aggregate score of between fifty and fifty-nine percent of the overall available total score must be placed in the fourth highest tier (tier II), and facilities receiving less than fifty percent of the overall available total score must be placed in the lowest tier (tier I).

(f) The tier system must be used to determine the amount of each facility's per patient day quality incentive component. The per patient day quality incentive component for tier IV is seventy-five percent of the per patient day quality incentive component for tier V, the per patient day quality incentive component for tier III is fifty percent of the per patient day quality incentive component for tier V, and the per patient day quality incentive component for tier II is twenty-five percent of the per patient day quality incentive component for tier V. Facilities in tier I receive no quality incentive component.

(g) Tier system payments must be set in a manner that ensures that the entire biennial appropriation for the quality incentive program is allocated.

(h) Facilities with insufficient three-quarter average centers for medicare and medicaid services quality data must be assigned to the tier corresponding to their five-star quality rating. Facilities with a five-star quality rating must be assigned to the highest tier (tier V) and facilities with a one-star quality rating must be assigned to the lowest tier (tier I). The use of a facility's five-star quality rating shall only occur in the case of insufficient centers for medicare and medicaid services minimum data set information.

(i) The quality incentive rates must be adjusted semiannually on July 1 and

January 1 of each year using, at a minimum, the most recent available three-quarter average centers for medicare and medicaid services quality data.

(j) Beginning July 1, 2017, the percentage of short-stay residents who newly received an antipsychotic medication must be added as a quality measure. The department must determine the quality incentive thresholds for this quality measure in a manner consistent with those outlined in (b) through (h) of this subsection using the centers for medicare and medicaid services quality data.

(k) Beginning July 1, 2017, the percentage of direct care staff turnover must be added as a quality measure using the centers for medicare and medicaid services' payroll-based journal and nursing home facility payroll data. Turnover is defined as an employee departure. The department must determine the quality incentive thresholds for this quality measure using data from the centers for medicare and medicaid services' payroll-based journal, unless such data is not available, in which case the department shall use direct care staffing turnover data from the most recent medicaid cost report.

(7) Reimbursement of the safety net assessment imposed by chapter 74.48 RCW and paid in relation to medicaid residents must be continued.

(8)(a) The direct care and indirect care components must be rebased in even-numbered years, beginning with rates paid on July 1, 2016. Rates paid on July 1, 2016, must be based on the 2014 calendar year cost report. On a percentage basis, after rebasing, the department must confirm that the statewide average daily rate has increased at least as much as the average rate of inflation, as determined by the skilled nursing facility market basket index published by the centers for medicare and medicaid services, or a comparable index. If after rebasing, the percentage increase to the statewide average daily rate is less than the average rate of inflation for the same time period, the department is authorized to increase rates by the difference between the percentage increase after rebasing and the average rate of inflation.

(b) It is the intention of the legislature that direct and indirect care rates paid in fiscal year 2022 will be

rebased using the calendar year 2019 cost reports. For fiscal year 2021, in addition to the rates generated by (a) of this subsection, an additional adjustment is provided as established in this subsection (8)(b). Beginning May 1, 2020, and through June 30, 2021, the calendar year costs must be adjusted for inflation by a twenty-four month consumer price index, based on the most recently available monthly index for all urban consumers, as published by the bureau of labor statistics. It is also the intent of the legislature that, starting in fiscal year 2022, a facility-specific rate add-on equal to the inflation adjustment that facilities received solely in fiscal year 2021, must be added to the rate.

(c) To determine the necessity of regular inflationary adjustments to the nursing facility rates, by December 1, 2020, the department shall provide the appropriate policy and fiscal committees of the legislature with a report that provides a review of rates paid in 2017, 2018, and 2019 in comparison to costs incurred by nursing facilities.

(9) The direct care component provided in subsection (3) of this section is subject to the reconciliation and settlement process provided in RCW 74.46.022(6). Beginning July 1, 2016, pursuant to rules established by the department, funds that are received through the reconciliation and settlement process provided in RCW 74.46.022(6) must be used for technical assistance, specialized training, or an increase to the quality enhancement established in subsection (6) of this section. The legislature intends to review the utility of maintaining the reconciliation and settlement process under a price-based payment methodology, and may discontinue the reconciliation and settlement process after the 2017-2019 fiscal biennium.

(10) Compared to the rate in effect June 30, 2016, including all cost components and rate add-ons, no facility may receive a rate reduction of more than one percent on July 1, 2016, more than two percent on July 1, 2017, or more than five percent on July 1, 2018. To ensure that the appropriation for nursing homes remains cost neutral, the department is authorized to cap the rate increase for facilities in fiscal years 2017, 2018, and 2019.

**Sec. 975.** RCW 79.64.040 and 2019 c 415 s 984 are each amended to read as follows:

section must be deposited in the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only in a manner consistent with this section.

(2) The department is authorized to assess administration charges as a portion of the debt service for loans issued under the water pollution control revolving fund created in RCW 90.50A.020. The sole purpose of assessing administration charges is to predictably and adequately fund the department's costs of administering the water pollution control revolving fund loan program, as identified in subsection (5) of this section. The department must assess administration charges on each water pollution control revolving fund loan at the point the loan enters repayment status, after July 28, 2013, and rule changes are adopted to implement the administration charge. Loans that are at an interest rate below the established administration charge rate are exempt from the administration charge.

(3) The water pollution control revolving administration account consists of:

In its submittal to the office of financial management, the department may:

(b) Find that the projected administration charge income exceeds what is needed to fund the cost of administering the program, and that the rate of the charge must be decreased;

(c) Find that there is an excess balance in the revolving administration account, and that the excess must be transferred to the water pollution control revolving fund to be used for loans; or

(d) Find that there is no need for any rate adjustments or balance transfers.

(8) At the point where the water pollution control revolving administration account adequately covers the program administration costs, the department may no longer use the federal administration allowance. If a federal capitalization grant is awarded after that point, all federal capitalization dollars must be used for making loans.

(9) By December 1, 2018, the department must submit to the appropriate legislative fiscal committees a report on implementation of the administration charge, including information on: The amount of income the administration charge has produced since its inception;

the uses and adequacy of the income for administrative costs; any excess balances that have been transferred to the water pollution control revolving fund; and any additional sources that the department is using for program administration.

**Sec. 983.** RCW 43.70.--- and 2021 c 3 s 19 are each amended to read as follows:

(1) The COVID-19 public health response account is created in the custody of the state treasurer. The account shall consist of funds appropriated by the legislature and grants received by the department of health for activities in response to the coronavirus pandemic (COVID-19). Only the secretary, or the secretary's designee, may authorize expenditures from the account for costs related to the public health response to COVID-19, subject to any limitations imposed by grant funding deposited into the account. The COVID-19 public health response account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2)(a) The legislature finds that a safe, efficient, and effective delivery of vaccinations is of the utmost importance for restoring societal and economic functions. As we learn more about the virus, the vaccine, and challenges to vaccine allocation and distribution, it is anticipated that the state's COVID-19 vaccination distribution plan will evolve. To that end, the legislature has provided flexibility by funding ~~((vaccine expenditure))~~ expenditures for testing, contact tracing, mitigation activities, vaccine administration and distribution, and other allowable uses for the state, local health jurisdictions, and tribes at the discretion of the secretary, without an appropriation. However, to maintain fiscal control and to ensure spending priorities align, the department is required to collaborate and communicate with the chairs and ranking members of the health care and fiscal committees of the legislature and local health jurisdictions in advance of any significant revision of the state's COVID-19 vaccination plan and to provide

regular updates on its implementation and spending.

(b) As part of the public health response to COVID-19, the expenditures from the account must be used to effectively administer the vaccine for COVID-19 and conduct testing and contact tracing. The department must ensure that COVID-19 outreach is accessible, culturally and linguistically appropriate, and that it includes community-driven partnerships and strategies.

(c) When making expenditures for administering the vaccine for COVID-19, the department must focus on identifying persons for vaccination, prioritizing underserved, underrepresented, and hard-to-reach communities, making the vaccine accessible, and providing support to schools for safe reopening. Strategies for vaccine distribution shall include the establishment and expansion of community vaccination centers, mobile vaccination units, reporting enhancements, and transportation of individuals to vaccination sites.

(d) When making expenditures regarding testing and contact tracing, the department must provide equitable access, prioritize underserved, underrepresented, and hard-to-reach communities, and provide support and resources to facilitate the safe reopening of schools while minimizing community spread of the virus.

(3) When making expenditures from the account, the department must include an emphasis on public communication regarding the availability and accessibility of the vaccine and testing, and the importance of vaccine and testing availability to the safe reopening of the state.

(4)(a) The department must report to the fiscal and health care committees of the legislature on a monthly basis regarding its COVID-19 response.

(b) To the extent that it is available, the report must include data regarding vaccine distribution, testing, and contact tracing, as follows:

(i) The number of vaccines administered per day, including regional data regarding the location and age groups of persons receiving the vaccine, specifically identifying hard-to-reach communities in which vaccines were administered; and

(ii) The number of tests conducted per week, including data specifically addressing testing conducted in hard-to-reach communities.

(c) The first monthly report is due no later than one month from the effective date of this section. Monthly reports are no longer required upon the department's determination that the remaining balance of the COVID-19 response account is less than \$100,000.

NEW SECTION. Sec. 984. (1) The office of financial management shall conduct a feasibility study and make recommendations regarding the establishment of a system for streamlining the vacation of criminal conviction records. The office of financial management may contract with an independent expert to assist with the feasibility study. The study must consider and make recommendations regarding, but not limited to, the following:

(a) Requiring the Washington state patrol to conduct state and national criminal background checks to determine individuals who may be eligible for the vacation of a criminal record, either under:

(i) Current eligibility requirements; or

(ii) Under other streamlined requirements that could consider, for example, eligibility to vacate only a certain category of offenses with reduced requirements, including but not limited to such as having no other convictions in the Washington state patrol's criminal history database for a certain number of years;

(b) Creating a database and online portal system that would assess eligibility and subsequently notify respective persons eligible for a vacation of a criminal record;

(c) Developing the online portal system that, upon such person's consent, prepopulates the petition and forwards the petition to the respective sentencing court and local public defender's office in the local jurisdiction of that court;

(d) Determining the appropriate state entity to operate and have oversight of the database and online portal system for streamlining the vacation of criminal conviction records;

(e) Consulting with the administrative office of the courts, county clerks and court administrators, judges, prosecuting attorneys, defense attorneys, the department of corrections, and county and city departments to make additional recommendations as deemed appropriate and necessary for implementation of the database and online portal system;

(f) Determining what information technology and support would be needed to be developed and maintained to administer a streamlining process most effectively and efficiently for the vacation of criminal conviction records in Washington; and

(g) The approximate cost to establish a system for streamlining the vacation of criminal conviction records with an online portal in Washington, and the approximate annual cost to operate such a system.

**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES**

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the

geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6) (a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department

of social and health services, the department of health, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. The appropriations to the health care authority in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, (~~2020~~) 2021, unless prohibited by this act, the authority may transfer general fund—state appropriations for fiscal year (~~2020~~) 2021 among programs after approval by the director of the office of financial management. To the extent that appropriations in sections 211 through 215 are insufficient to fund actual expenditures in excess of caseload forecast and utilization assumptions or for expenses in response to the COVID-19 pandemic, the authority may transfer general fund—state appropriations for fiscal year (~~2020~~) 2021 that are provided solely for a specified purpose. The authority may also transfer general fund—state appropriations for fiscal year 2020 that are provided solely for a specified purpose within section 215 of this act to cover any deficits in section 215 of this act resulting from assumptions related to the return of \$35,000,000 in general fund—state behavioral health organization reserves in fiscal year 2020 or for expenses in response to the COVID-19 pandemic in fiscal year 2021. The authority may not transfer funds, and the director of the office of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the legislature in writing seven days prior to approving any allotment modifications or transfers under this section. The written notification must include a narrative explanation and justification of changes, along with expenditures and allotments by budget unit and

The appropriations in this section are subject to the following conditions and limitations:

(1) The authority shall not accept or expend any federal funds received under a medicaid transformation waiver under healthier Washington except as described in subsections (2) and (3) of this section until specifically approved and appropriated by the legislature. To ensure compliance with legislative directive budget requirements and terms and conditions of the waiver, the authority shall implement the waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall: (a) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness; (b) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings; (c) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and (d) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval. By federal standard, the medicaid transformation demonstration waiver shall not exceed the duration originally granted by the centers for medicare and medicaid

services and any programs created or funded by this waiver do not create an entitlement. Beginning May 15, 2019, and continuing through December 15, 2019, by the 15th of each month, the director in consultation with the secretary shall report to the fiscal chair of the appropriate committees of the legislature in the manner and form requested the status of the medicaid transformation waiver, including any anticipated or proposed changes to accruals or expenditures.

(2) No more than (~~(\$153,357,000)~~) \$165,082,000 of the general fund—federal appropriation and no more than (~~(\$86,190,000)~~) \$112,949,000 of the general fund—local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration wavier under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. Under this initiative, the authority shall take into account local input regarding community needs. In order to ensure transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not increase general fund—state expenditures under this initiative. The director shall also report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees. By December 15, 2019, the authority in collaboration with each accountable community of health shall demonstrate how it will be self-sustaining by the end of the demonstration waiver period, including sources of outside funding, and provide this reporting to the joint select committee on health care oversight. If by the third year of the demonstration waiver there are not measurable, improved patient outcomes and financial returns, the Washington state institute for public policy will conduct an audit of the accountable communities of health, in addition to the process set in place through the independent evaluation required by the agreement with centers for medicare and medicaid services.

(3) (a) No more than (~~(\$79,829,000)~~) \$67,896,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third party administrator. The authority and the department in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not increase general fund—state expenditures under this initiative. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(b) No more than (~~(\$89,476,000)~~) \$105,283,000 of the general fund—federal appropriation and no more than (~~(\$36,548,000)~~) \$43,004,000 of the general fund—local appropriation may be expended for the medicaid quality improvement program. Under federal regulations, the medicaid quality improvement program is authorized and allows states to design quality improvement programs for the medicaid population in ways that support the state's quality goals. Medicaid quality improvement program payments will not count against initiative 1 of the medicaid transformation demonstration waiver spending limit and are excluded from the waiver's budget neutrality calculation. Apple health managed care organizations and their partnering providers will receive medicaid quality improvement program payments as they meet designated milestones. Partnering providers and apple health managed care organizations will work together to achieve medicaid quality improvement program goals according to the performance period timelines and reporting deadlines as set forth by the authority. The authority shall only

utilize the medicaid quality improvement program to support the transformation waiver and shall not pursue its use for other purposes. Any programs created or funded by the medicaid quality improvement program do not create an entitlement. The authority shall not increase general fund—state, federal, or local expenditures under this program. The director shall report to the joint select committee on health care oversight not less than quarterly on financial and health outcomes. The director shall report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(4) Annually, no later than November 1st, the authority shall report to the governor and appropriate committees of the legislature: (a) Savings attributed to behavioral and physical integration in areas that are scheduled to integrate in the following calendar year, and (b) savings attributed to behavioral and physical health integration and the level of savings achieved in areas that have integrated behavioral and physical health.

(5) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(6) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(7) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to

reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(8) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(9) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(10) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(11) \$4,261,000 of the general fund—state appropriation for fiscal year 2020, (~~(\$4,261,000)~~) \$3,733,000 of the general fund—state appropriation for fiscal year 2021, and (~~(\$8,522,000)~~) \$9,050,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(12) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(13) (a) \$7,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments

under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(b) The authority, in consultation with the department of social and health services and the nursing homes operated by public hospitals in (a) of this subsection, must develop a plan with recommendations for an upper payment limit calculation and the supplemental payment model for nursing homes operated by a public hospital district. The group must consider how to restructure payments under (a) of this subsection, taking into consideration alternate upper payment limit calculation. If upon completion of the plan, the authority determines it can implement the recommendations of the group within the amounts provided in (a) of this subsection, the authority must submit a state plan amendment, if necessary, and submit a report to the fiscal committees of the legislature no later than September 30, 2020.

(c) \$193,000 of the general fund—state appropriation for fiscal year 2020 is provided solely for the authority to provide a one-time grant to a standalone skilled nursing facility operated by a public hospital district in Grant county. This grant is provided as a one-time offset to address the impact of the recoupment requirements of this subsection (13).

(14) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2019-2021 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals

or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2020, and by November 1, 2021, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2020 and fiscal year 2021, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2019-2021 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the

fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$759,000 of the general fund-state appropriation for fiscal year 2020 and ~~(\$740,000)~~ \$698,000 of the general fund-state appropriation for fiscal year 2021 are provided solely for state grants for the participating hospitals.

(16) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(17) The authority shall submit reports to the governor and the legislature by September 15, 2020, and no later than September 15, 2021, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should

be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(18) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(19) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

(20) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(21) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(25) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the classic medicaid benefit plan.

(26) The authority shall use revenue appropriated from the dedicated marijuana fund for contracts with community health centers under RCW 69.50.540 in lieu of general fund—state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(27) Beginning no later than January 1, 2018, for any service eligible under the medicaid state plan for encounter payments, managed care organizations at the request of a rural health clinic shall pay the full published encounter rate directly to the clinic. At no time will a managed care organization be at risk for or have any right to the supplemental portion of the claim. Payments will be reconciled on at least an annual basis between the managed care organization and the authority, with final review and approval by the authority.

~~(28) ((Sufficient funds are provided for the authority to remove payment and billing limitations identified during the review process required for implementation of chapter 226, Laws of 2017 (behavioral health care — primary care integration) for health and behavior codes, psychotherapy codes, and to continue to offer face-to-face tobacco cessation counseling only for pregnant individuals. The appropriations in this section are subject to the following conditions and limitations:

(1) For the purposes of this section, "behavioral health entities" means managed care organizations and administrative services organizations in regions where the authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380, and behavioral health organizations in regions that have not yet transitioned to fully integrated managed care.

(2) Within the amounts appropriated in this section, funding is provided for implementation of the settlement agreement under *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. In addition to amounts provided solely for implementation of the settlement agreement, class members must have access to supports and services funded throughout this section for which they meet eligibility and medical necessity requirements. The authority must include language in contracts that requires regional behavioral health entities to develop and implement plans for improving access to timely and appropriate treatment for individuals with behavioral health needs and current or prior criminal justice involvement who are eligible for services under these contracts.

(3) \$15,605,000 of the general fund—state appropriation for fiscal year 2020, (~~(\$15,754,000)~~) \$15,861,000 of the general fund—state appropriation for fiscal year 2021, and \$4,789,000 of the general fund—federal appropriation are provided solely for the phase-in of the settlement agreement under *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. The department, in collaboration with the health care authority and the criminal justice training commission, must implement the provisions of the settlement agreement pursuant to the timeline and implementation plan provided for under the settlement agreement. This includes implementing provisions related to competency

(4) \$7,657,000 of the general fund—state appropriation for fiscal year 2020, \$11,544,000 of the general fund—state appropriation for fiscal year 2021, and \$20,197,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health entities to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health entities with PACT teams, the authority shall consider the differences between behavioral health entities in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (7) of this section. The authority and behavioral health entities shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(5) \$7,071,000 of the general fund—state appropriation for fiscal year 2021 is provided solely for increased state costs for exceptional behavioral health personal care services. From ~~((the))~~ these amounts and the other general fund—state appropriations in this section, the authority shall assure that behavioral health entities reimburse the department of social and health services aging and long term support administration for the general fund—state cost of exceptional medicaid personal care services that enrolled behavioral health entity consumers use because of their psychiatric disability.

(6) \$3,520,000 of the general fund—federal appropriation is provided solely for the authority to maintain a pilot project to incorporate peer bridging staff into behavioral health regional teams that provide transitional services to individuals returning to their communities.

(7) \$81,930,000 of the general fund—state appropriation for fiscal year 2020

and \$85,122,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health entity spending must be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health entities as follows:

(a) Of the amount provided for fiscal year 2020, seventy percent must be distributed to behavioral health administrative service organizations and thirty percent to managed care organizations. The percentage of funding provided to each behavioral health administrative services organization must be proportionate to the fiscal year 2019 regional allocation of flexible nonmedicaid funds.

(b) \$3,939,000 of the fiscal year 2021 amounts must be distributed to behavioral health administrative service organizations. Of the remaining amount for fiscal year 2021, eighty percent must be distributed to behavioral health administrative service organizations and twenty percent to managed care organizations. The percentage of funding provided to each behavioral health administrative services organization must be proportionate to the fiscal year 2020 regional allocation of flexible nonmedicaid funds.

(c) The authority must include the following language in medicaid contracts with behavioral health entities unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(8) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health entities for children's long-term inpatient facility services.

(9) \$1,204,000 of the general fund—state appropriation for fiscal year 2020 and \$1,204,000 of the general fund—state appropriation for fiscal year 2021 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting one hundred eighty-day commitment hearings at the state psychiatric hospitals.

(10) Behavioral health entities may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (7) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(11) \$2,291,000 of the general fund—state appropriation for fiscal year 2020 and \$2,291,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must collect information from the behavioral health entities on their plan for using these funds, the numbers of individuals served, and the types of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(12) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(13) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization and administrative services organization contracts and

include contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health organization and administrative services organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health organization or administrative services organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization or administrative services organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan.

(14) During the 2019-2021 fiscal biennium, any amounts provided in this section that are used for case management services for pregnant and parenting women must be contracted directly between the authority and providers rather than through contracts with behavioral health organizations.

(15) Within the amounts appropriated in this section, the authority may contract with the University of Washington and community-based providers for the provision of the parent-child assistance program or other specialized chemical dependency case management providers for pregnant, post-partum, and parenting women. For all contractors: (a) Service and other outcome data must be provided to the authority by request; and (b) indirect charges for administering the program must not exceed ten percent of the total contract amount.

(16) \$3,500,000 of the general fund—federal appropriation (from the substance abuse prevention and treatment federal block grant) is provided solely for the continued funding of existing county drug and alcohol use prevention programs.

(17) Within the amounts provided in this section, behavioral health entities must provide outpatient chemical dependency treatment for offenders enrolled in the medicaid program who are supervised by the department of corrections pursuant to a term of community supervision. Contracts with behavioral health entities must require that behavioral health entities include in their provider network specialized expertise in the provision of manualized, evidence-based chemical dependency treatment services for offenders. The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

(18) The criminal justice treatment account—state appropriation is provided solely for treatment and treatment support services for offenders with a substance use disorder pursuant to RCW 71.24.580. The authority must offer counties the option to administer their share of the distributions provided for under RCW 71.24.580(5)(a). If a county is not interested in administering the funds, the authority shall contract with behavioral health entities to administer these funds consistent with the plans approved by local panels pursuant to RCW 71.24.580(5)(b). The authority must provide a report to the office of financial management and the appropriate committees of the legislature which identifies the distribution of criminal justice treatment account funds by September 30, 2019.

(19) No more than ~~((\$27,844,000))~~ \$15,358,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that

allowable and necessary services are provided to eligible clients as identified by the authority or its providers or third party administrator. The department and the authority in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not increase general fund—state expenditures under this initiative. The secretary in collaboration with the director of the authority shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The secretary in cooperation with the director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

Within these amounts, funding is provided to increase the fee for service rate for these facilities up to \$650 per day. The authority must require in contracts with behavioral health entities that, beginning in calendar year 2020, they pay no lower than the fee for service rate. The authority must coordinate with regional behavioral health entities to identify and implement purchasing strategies or regulatory changes that increase access to services for individuals with complex behavioral health needs at secure withdrawal management and stabilization facilities.

Twenty percent of the general fund—state appropriation amounts for each regional service area must be contracted to the behavioral health administrative services organizations and used to increase their nonmedicaid funding and the remainder must be used to increase medicaid rates above FY 2018 levels. Effective January 2020, the medicaid funding is intended to increase rates for behavioral health services provided by licensed and certified community behavioral health agencies as defined by the department of health. This funding must be allocated to the managed care organizations proportionate to their medicaid enrollees. The authority must require the managed care organizations to provide a report on their implementation of this funding. The authority must submit a report to the legislature by December 1, 2020, summarizing how this funding was used and provide information for future options of increasing behavioral health provider rates through directed payments. The report must identify different mechanisms for implementing directed payment for behavioral health providers including but not limited to minimum fee schedules, across the board percentage increases,

and value-based payments. The report must provide a description of each of the mechanisms considered, the timeline that would be required for implementing the mechanism, and whether and how the mechanism is expected to have a differential impact on different providers. The report must also summarize the information provided by managed care organizations in implementing the funding provided under this section.
