Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 48.43 RCW to read as follows:

(1) Every health carrier, insurer, and other organization engaged in the business of creating provider networks shall comply with the provisions of this section in selecting and contracting with health care providers. For the purpose of this section, "contractor" refers to health carriers, insurers, and other organizations engaged in the business of creating provider networks.

(2) Contractors may not discriminate against various classes of health care practitioners by adopting health care network selection and credentialing standards that permit selection and credentialing of clinics of only one or certain classes of practitioners. For example and not as a limitation of this subsection, if a contractor permits a clinic comprising physicians and nurses to contract on a clinic rather than upon an individual basis, the contractor must permit a clinic comprising chiropractors and licensed massage therapists to contract on a clinic rather than upon an individual basis.

(3) Contractors may not refuse to contract with a provider or providers who purchase the practice of an existing contracted provider if the purchasing provider or providers otherwise meet the credentialing standards of the contractor and agree to comply with the terms and conditions of the provider contract, including provisions related to quality assurance and utilization review.

(4) Contractors may not refuse to contract with a provider who works as an employee of a contracted provider if the employee otherwise meets the credentialing standards of the contractor and agrees to comply with the terms and conditions of the provider contract, including provisions related to quality assurance and utilization review.

(5) A contractor may not directly or indirectly require a health care provider to participate in any arrangement that is not a health plan as a condition for participating in any of the contractor's health plans.

(6) For purposes of this section, "health plan" includes a health plan as defined in RCW 48.43.005 and medical coverage programs administered by the health care authority.

NEW SECTION. Sec. 2. The insurance commissioner may adopt rules necessary to implement this act."

(2) The department of natural resources and the department of ecology shall work with a statewide association of counties and other participants in the process leading to the forests and fish law to determine how the current laws and processes regulating forest practices and conversion of forest land to a nonforestry use could be improved by clarifying roles and responsibilities, eliminating duplicative regulation of the same activity, making any needed adjustments to regulatory requirements, and simplifying pathways leading to regulatory decisions while maintaining current standards of environmental protection.

(3) The evaluation required by this section must include specific examination of laws and administrative processes governing:

(a) Interactions among the department of natural resources, the department of ecology, and local governments in situations where both the state and local governments have regulatory responsibilities related to the same forestry-related activity;

Jurisdiction is hereby conferred on the county board of equalization to hear these appeals;

(d) Determination by the assessor, after giving the owner written notice and an opportunity to be heard, that all or a portion of the land no longer meets the criteria for classification under this chapter. The criteria for classification pursuant to this chapter continue to apply after classification has been granted.

The granting authority, upon request of an assessor, shall provide reasonable assistance to the assessor in making a determination whether the land continues to meet the qualifications of RCW 84.34.020 (1) or (3). The assistance shall be provided within thirty days of receipt of the request.

(2) Land may not be removed from classification because of:

(a) The creation, sale, or transfer of forestry riparian easements under RCW 76.13.120; or

(b) The creation, sale, or transfer of a fee interest or a conservation easement for the riparian open space program under RCW 76.09.040.

(3) Within thirty days after such removal of all or a portion of the land from current use classification, the assessor shall notify the owner in writing, setting forth the reasons for the removal. The seller, transferor, or owner may appeal the removal to the county board of equalization in accordance with the provisions of RCW 84.40.038.

(4) Unless the removal is reversed on appeal, the assessor shall revalue the affected land with reference to its true and fair value on January 1st of the year of removal from classification. Both the assessed valuation before and after the removal of classification shall be listed and taxes shall be allocated according to that part of the year to which each assessed valuation applies. Except as provided in subsection (6) of this section, an additional tax, applicable interest, and penalty shall be imposed which shall be due and payable to the treasurer thirty days after the owner is notified of the amount of the additional tax. As soon as possible, the assessor shall compute the amount of additional tax, applicable interest, and penalty and the treasurer shall mail notice to the owner of the amount thereof and the

date on which payment is due. The amount of the additional tax, applicable interest, and penalty shall be determined as follows:

(a) The amount of additional tax shall be equal to the difference between the property tax paid as "open space land", "farm and agricultural land", or "timber land" and the amount of property tax otherwise due and payable for the seven years last past had the land not been so classified;

(b)(i) The amount of applicable interest shall be equal to the interest upon the amounts of the additional tax paid (~~at the same statutory rate charged on delinquent property taxes~~) from the dates on which the additional tax could have been paid without penalty if the land had been assessed at a value without regard to this chapter. The interest rate shall be determined as follows:

(A) The same statutory rate charged on delinquent property taxes for land classified under RCW 84.34.020 (1) and (3) and for land classified under RCW 84.34.020(2) not meeting the requirements of (b)(i)(B) or (C) of this subsection;

(B) An annual rate of eight percent for land classified under RCW 84.34.020(2) if the land has been classified for seven years or more but less than twenty years and at least a fifty percent ownership interest in the land has been maintained by the owner or the owner's spouse for the entire period the land has been classified under RCW 84.34.020(2); and

(C) An annual rate of five percent for land classified under RCW 84.34.020(2) if the land has been classified under RCW 84.34.020(2) for twenty years or more and at least a fifty percent ownership interest in the land has been maintained by the owner or the owner's spouse for the entire period the land has been classified under RCW 84.34.020(2), except as provided in (b)(ii) of this subsection.

(ii) No interest shall be imposed for land classified under RCW 84.34.020(2) if the land has been classified under RCW 84.34.020(2) for thirty years or more and at least a fifty percent ownership interest in the land has been maintained by the owner or the owner's spouse for the entire period the land has been classified under RCW 84.34.020(2);

(c) The amount of the penalty shall be as provided in RCW 84.34.080. The penalty shall not be imposed if the removal satisfies the conditions of RCW 84.34.070.

(5) Additional tax, applicable interest, and penalty, shall become a lien on the land which shall attach at the time the land is removed from classification under this chapter and shall have priority to and shall be fully paid and satisfied before any recognizance, mortgage, judgment, debt, obligation or responsibility to or with which the land may become charged or liable. This lien may be foreclosed upon expiration of the same period after delinquency and in the same manner provided by law for foreclosure of liens for delinquent real property taxes as provided in RCW 84.64.050 now or as hereafter amended. Any additional tax unpaid on its due date shall thereupon become delinquent. From the date of delinquency until paid, interest shall be charged at the same rate applied by law to delinquent ad valorem property taxes.

(6) The additional tax, applicable interest, and penalty specified in subsection (4) of this section shall not be imposed if the removal of classification pursuant to subsection (1) of this section resulted solely from:

(a) Transfer to a government entity in exchange for other land located within the state of Washington;

(b)(i) A taking through the exercise of the power of eminent domain, or (ii) sale or transfer to an entity having the power of eminent domain in anticipation of the exercise of such power, said entity having manifested its intent in writing or by other official action;

(c) A natural disaster such as a flood, windstorm, earthquake, or other such calamity rather than by virtue of the act of the landowner changing the use of the property;

(d) Official action by an agency of the state of Washington or by the county or city within which the land is located which disallows the present use of the land;

(e) Transfer of land to a church when the land would qualify for exemption pursuant to RCW 84.36.020;

(f) Acquisition of property interests by state agencies or agencies or organizations qualified under RCW 84.34.210 and 64.04.130 for the purposes enumerated in those sections. At such time as these

property interests are not used for the purposes enumerated in RCW 84.34.210 and 64.04.130 the additional tax specified in subsection (4) of this section shall be imposed;

(g) Removal of land classified as farm and agricultural land under RCW 84.34.020(2)(e);

(h) Removal of land from classification after enactment of a statutory exemption that qualifies the land for exemption and receipt of notice from the owner to remove the land from classification;

(i) The creation, sale, or transfer of forestry riparian easements under RCW 76.13.120;

(j) The creation, sale, or transfer of a fee interest or a conservation easement for the riparian open space program under RCW 76.09.040;

(k) The sale or transfer of land within two years after the death of the owner of at least a fifty percent interest in the land if the land has been assessed and valued as classified forest land, designated as forest land under chapter 84.33 RCW, or classified under this chapter continuously since 1993. The date of death shown on a death certificate is the date used for the purposes of this subsection (6)(k); or

(l) The sale or transfer of land after the death of the owner of at least a fifty percent interest in the land if the land has been assessed and valued as classified forest land, designated as forest land under chapter 84.33 RCW, or classified under this chapter continuously since 1993 and the sale or transfer takes place after July 22, 2001, and on or before July 22, 2003, and the death of the owner occurred after January 1, 1991. No two members shall come from the same county. The secretary shall establish policies and procedures for conducting the selection by lot.

(2) The remaining seven of the fourteen commission members, all residents of this state, shall be selected jointly by the speaker of the house of representatives and the president of the senate. All members shall serve four-year terms and the names of the seven persons selected in this subsection for appointment to the commission shall be forwarded to the governor no later than July 1st every two years.

(3) No person may be appointed to more than two terms. No member of the commission may be removed during his or her term of office unless for cause of incapacity, incompetence, neglect of duty, or malfeasance in office, or for a disqualifying change of residence. The unexcused absence of any person who is a member of the commission from two consecutive meetings of the commission shall constitute the relinquishment of that person's membership on the commission. Such a relinquishment creates a vacancy in that person's position on the commission. A member's absence may be excused by the chair of the commission upon the member's written request if the chair believes there is just cause for the absence. Such a request must be received by the chair before the meeting for which the absence is to be excused. A member's absence from a meeting of the commission may also be excused during the meeting for which the member is absent by the affirmative vote of a majority of the members of the commission present at the meeting.

(4) No state official, public employee, or lobbyist, or immediate family member of the official, employee, or lobbyist, subject to the registration requirements of chapter 42.17 RCW, is eligible for membership on the commission. As used in this subsection, the phrase "immediate family" means the parents, spouse, siblings, children, or dependent relative of the official, employee, or lobbyist whether or not living in the household of the official, employee, or lobbyist.

(5) Upon a vacancy in any position on the commission, a successor shall be selected and appointed to fill the unexpired term. The selection and appointment shall be concluded within thirty days of the date the position becomes vacant and shall be conducted in the same manner as originally provided.

NEW SECTION. Sec. 3. (1) The commission shall adopt a schedule of campaign contribution limits for:

- (a) Candidates for state legislative office;
 - (b) Candidates for state office other than state legislative office;
 - (c) Candidates for county office in a county that has over two hundred thousand registered voters;
 - (d) Candidates for special purpose district office if that district is authorized to provide freight and passenger transfer and terminal facilities and that district has over two hundred thousand registered voters;
 - (e) Persons holding an office in (a) through (d) of this subsection against whom recall charges have been filed or to a political committee having the expectation of making expenditures in support of the recall of a person holding the office;
 - (f) Caucus political committees;
 - (g) Bona fide political parties;
 - (h) Candidates for the state supreme court and court of appeals.
- (2) Members of the commission shall receive no compensation for their services, but shall be eligible to receive a subsistence allowance and travel expenses pursuant to RCW 43.03.050 and 43.03.060.

(3) The members of the commission shall elect a chair from among their number. The commission shall set a schedule of campaign contribution limits by an affirmative vote of not less than eight members of the commission.

(4) The commission shall file its initial schedule of campaign contribution limits for individuals included in subsection (1) of this section with the secretary of state no later than October 1, 2006, and shall file a schedule biennially thereafter. Each schedule shall be filed in legislative bill form, shall be assigned a chapter number and published with the session laws of the legislature, and shall be codified by the statute law committee. The signature of the chair of the commission shall be affixed to each schedule submitted to the secretary of state. The chair shall certify that the schedule has been adopted in accordance with the provisions of state law and with the rules, if any, of the commission. The schedules shall become effective ninety days after the filing thereof.

(5) Before the filing of any campaign contribution limit schedule, the commission shall first develop a proposed schedule and then hold no fewer than four regular meetings as defined by chapter 42.30 RCW to take public testimony on the proposed schedule within the four months immediately preceding the filing. At the last public hearing that is held as a regular meeting on the proposed schedule, the commission shall adopt the schedule as originally proposed or as amended at that meeting that will be filed with the secretary of state.

(6) All meetings, actions, hearings, and business of the commission shall be subject in full to the open public meetings act under chapter 42.30 RCW.

(7) The campaign contribution limits filed by the commission shall take effect on January 1, 2007, and shall continue until modified by the commission under this section."

On page 3, after line 7, insert the following:

"Sec. 3. RCW 29A.44.240 and 2003 c 111 s 1123 are each amended to read as follows:

(1) Voting shall be secret except to the extent necessary to assist sensory or physically disabled voters, or voters who require language interpretation.

(2) If any voter declares in the presence of the election officers that because of sensory or physical disability he or she is unable to

register or record his or her vote, he or she may designate a person of his or her choice or two election officers from opposite political parties to enter the voting machine booth with him or her and record his or her vote as he or she directs.

(3) Any voter who requires interpretation assistance may designate a person of his or her choice to enter the voting machine booth with him or her to provide language interpretation and to assist the voter in recording his or her vote. A person who assists with language interpretation under this subsection may not be the voter's employer or be associated with the voter's union.

(4) A person violating this section is guilty of a misdemeanor.

Sec. 4. RCW 29A.44.410 and 2003 c 111 s 1134 are each amended to read as follows:

(1) At least ten days prior to any primary or election, general or special, the county auditor shall appoint one inspector and two judges of election for each precinct (or each combination of precincts temporarily consolidated as a single precinct for that primary or election), other than those precincts designated as vote-by-mail precincts pursuant to RCW 29A.48.010. Except as provided in subsection (3) of this section, the persons appointed shall be among those whose names are contained on the lists furnished under RCW 29A.44.430 by the chairpersons of the county central committees of the political parties entitled to representation thereon. Such precinct election officers, whenever possible, should be residents of the precinct in which they serve.

(2) The county auditor may delete from the lists of names submitted to the auditor by the chairpersons of the county central committees under RCW 29A.44.430: (a) The names of those persons who indicate to the auditor that they cannot or do not wish to serve as precinct election officers for the primary or election or who otherwise cannot so serve; and (b) the names of those persons who lack the ability to conduct properly the duties of an inspector or judge of election after training in that proper conduct has been made available to them by the auditor. The lists which are submitted to the auditor in a timely manner under RCW 29A.44.430, less the deletions authorized by this subsection, constitute the official nomination lists for inspectors and judges of election.

(3) If the number of persons whose names are on the official nomination list for a political party is not sufficient to satisfy the requirements of subsection (4) of this section as it applies to that political party or is otherwise insufficient to provide the number of precinct election officials required from that political party, the auditor shall notify the chair of the party's county central committee regarding the deficiency. The chair may, within five business days of being notified by the auditor, add to the party's nomination list the names of additional persons belonging to that political party who are qualified to serve on the election boards. To the extent that, following this procedure, the number of persons whose names appear on the official nomination lists of the political parties is insufficient to provide the number of election inspectors and judges required for a primary or election, the auditor may appoint a properly trained person whose name does not appear on such a list as an inspector or judge of election for a precinct. The auditor must make reasonable efforts to appoint staff and poll workers who are bilingual. Available bilingual poll workers must be assigned to poll sites based on the language spoken by the poll worker and the population speaking that language in the county.

(4) The county auditor shall designate the inspector and one judge in each precinct from that political party which polled the highest number of votes in the county for its candidate for president at the last preceding presidential election and one judge from that political party polling the next highest number of votes in the county for its candidate for president at the same election. The provisions of this subsection apply only if the number of names on the official nomination list for inspectors and judges of election for a political party is sufficient to satisfy the requirements imposed by this subsection.

(5) Except as provided in RCW 29A.44.440 for the filling of vacancies, this shall be the exclusive method for the appointment of inspectors and judges to serve as precinct election officers at any primary or election, general or special, and shall supersede the

provisions of any and all other statutes, whether general or special in nature, having different requirements."

Such funds must be deposited in the capital fund of the county, city, or town.

Sec. 2. RCW 35.91.020 and 1999 c 153 s 38 are each amended to read as follows:

(1)Except as provided under subsection (2) of this section, the governing body of any city, town, county, water-sewer district, or drainage district, hereinafter referred to as a "municipality" may contract with owners of real estate for the construction of storm, sanitary, or combination sewers, pumping stations, and disposal plants, water mains, hydrants, reservoirs, or appurtenances, hereinafter called "water or sewer facilities," within their boundaries or (except for counties) within ten miles from their corporate limits connecting with the public water or sewerage system to serve the area in which the real estate of such owners is located, and to provide for a period of not to exceed fifteen years for the reimbursement of such owners and their assigns by any owner of real estate who did not contribute to the original cost of such water or sewer facilities and who subsequently tap onto or use the same of a fair pro rata share of the cost of the construction of said water or sewer facilities, including not only those directly connected thereto, but also users connected to laterals or branches connecting thereto, subject to such reasonable rules and regulations as the governing body of such municipality may provide or contract, and notwithstanding the provisions of any other law.

(2)(a)The contract may provide for an extension of the fifteen-year reimbursement period for a time not to exceed the duration of any moratorium, phasing ordinance, concurrency designation, or other governmental action that prevents making applications for, or the approval of, any new development within the benefit area for a period of six months or more.

(b)Upon the extension of the reimbursement period pursuant to subsection (2)(a) of this section, the contract must specify the duration of the contract extension and must be filed and recorded with the county auditor. Property owners who are subject to the reimbursement obligations under subsection (1) of this section shall be notified by the contracting municipality of the extension filed under this subsection.

(3)Each contract shall include a provision requiring that every two years from the date the contract is executed a property owner entitled to reimbursement under this section provide the contracting municipality with information regarding the current contract name, address, and telephone number of the person, company, or partnership that originally entered into the contract. If the property owner fails to comply with the notification requirements of this subsection within sixty days of the specified time, then the contracting municipality may collect any reimbursement funds owed to the property owner under the contract. Such funds must be deposited in the capital fund of the municipality.

(4) To the extent it may require in the performance of such contract, such municipality may install said water or sewer facilities in and along the county streets in the area to be served as hereinabove provided, subject to such reasonable requirements as to the manner of occupancy of such streets as the county may by resolution provide. The provisions of such contract shall not be effective as to any owner of real estate not a party thereto unless such contract has been recorded in the office of the county auditor of the county in which the real estate of such owner is located prior to the time such owner taps into or connects to said water or sewer facilities.

Sec. 3. RCW 57.22.020 and 1996 c 230 s 802 are each amended to read as follows:

(1) Except as otherwise provided in subsection (2) of this section, the contract shall also provide, subject to the terms and conditions in this section, for the reimbursement to the owner or the owner's assigns for a period not to exceed fifteen years of a portion of the costs of the facilities constructed pursuant to such contract from connection charges received by the district from other property owners who subsequently connect to or use the facilities within the ~~(fifteen-year)~~ period of time that the contract is effective and who did not contribute to the original cost of such facilities.

(2)(a)The contract may provide for an extension of the fifteen-year reimbursement period for a time not to exceed the duration of any moratorium, phasing ordinance, concurrency designation, or other governmental action that prevents making applications for, or the approval of, any new development for a period of six months or more within the benefit area of the system extensions authorized under this chapter.

(b)Upon the extension of the reimbursement period pursuant to subsection (2)(a) of this section, the contract must specify the duration of the contract extension and must be filed and recorded with the county auditor. Property owners who are subject to the reimbursement obligations under subsection (1) of this section shall be notified by the water-sewer district of the extension filed under this subsection.

(3)Each contract shall include a provision requiring that every two years from the date the contract is executed a property owner entitled to reimbursement under this section provide the water-sewer district with information regarding the current contract name, address, and telephone number of the person, company, or partnership that originally entered into the contract. If the property owner fails to comply with the notification requirements of this subsection within sixty days of the specified time, then the water-sewer district may collect any reimbursement funds owed to the property owner under the contract. Such funds must be deposited in the capital fund of the water-sewer district."

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that a key priority of water resource management in the Columbia river basin is the development of new water supplies that includes storage and conservation in order to meet the economic and community development needs of people and the instream flow needs of fish.

(2) The legislature therefore declares that a Columbia river basin water supply development program is needed, and directs the department of ecology to aggressively pursue the development of water supplies to benefit both instream and out-of-stream uses.

NEW SECTION. Sec. 2. (1) The Columbia river basin water supply development account is created in the state treasury. The account may receive direct appropriations from the legislature, receipts of any funds pursuant to sections 3 and 4 of this act, or funds from any other sources.

(2)(a) Expenditures from the Columbia river basin water supply development account may be used to assess, plan, and develop new storage, improve or alter operations of existing storage facilities, implement conservation projects, or any other actions designed to provide access to new water supplies within the Columbia river basin for both instream and out-of-stream uses. Except for the development of new storage projects, there shall be no expenditures from this account for water acquisition or transfers from one water resource inventory area to another without specific legislative authority.

(b) Two-thirds of the funds placed in the account shall be used to support the development of new storage facilities; the remaining one-third shall be used for the other purposes listed in this section.

(3)(a) Funds may not be expended from this account for the construction of a new storage facility until the department of ecology evaluates the following:

- (i) Water uses to be served by the facility;
- (ii) The quantity of water necessary to meet those uses;
- (iii) The benefits and costs to the state of meeting those uses, including short-term and long-term economic, cultural, and environmental effects; and
- (iv) Alternative means of supplying water to meet those uses, including the costs of those alternatives and an analysis of the extent

to which long-term water supply needs can be met using these alternatives.

(b) The department of ecology may rely on studies and information developed through compliance with other state and federal permit requirements and other sources. The department shall compile its findings and conclusions, and provide a summary of the information it reviewed.

(c) Before finalizing its evaluation under the provisions of this section, the department of ecology shall make the preliminary evaluation available to the public. Public comment may be made to the department within thirty days of the date the preliminary evaluation is made public.

(4) Net water savings achieved through conservation measures funded by the account shall be placed in trust in proportion to the state funding provided to implement a project.

(5) Net water savings achieved through conservation measures funded by the account developed within the boundaries of the federal Columbia river reclamation project and directed to the Odessa subarea to reduce the use of ground water for existing irrigation is exempt from the provisions of subsection (4) of this section.

(6) Moneys in the Columbia river basin water supply development account created in this section may be spent only after appropriation.

(7) Interest earned by deposits in the account will be retained in the account.

NEW SECTION. Sec. 3. (1)(a) Water supplies secured through the development of new storage facilities made possible with funding from the Columbia river basin water supply development account shall be allocated as follows:

(i) Two-thirds of active storage shall be available for appropriation for out-of-stream uses; and

(ii) One-third of active storage shall be available to augment instream flows and shall be managed by the department of ecology. The timing of releases of this water shall be determined by the department of ecology, in cooperation with the department of fish and wildlife and fisheries comanagers, to maximize benefits to salmon and steelhead populations.

(b) Water available for appropriation under (a)(i) of this subsection but not yet appropriated shall be temporarily available to augment instream flows to the extent that it does not impair existing water rights.

(2) Water developed under the provisions of this section to offset out-of-stream uses and for instream flows is deemed adequate mitigation for the issuance of new water rights provided for in subsection (1)(a) of this section and satisfies all consultation requirements under state law related to the issuance of new water rights.

(3) The department of ecology shall focus its efforts to develop water supplies for the Columbia river basin on the following needs:

(a) Alternatives to ground water for agricultural users in the Odessa subarea aquifer;

(b) Sources of water supply for pending water right applications;

(c) A new uninterrupted supply of water for the holders of interruptible water rights on the Columbia river mainstem that are subject to instream flows or other mitigation conditions to protect stream flows; and

(d) New municipal, domestic, industrial, and irrigation water needs within the Columbia river basin.

(4) The one-third/two-thirds allocation of water resources between instream and out-of-stream uses established in this section does not apply to applications for changes or transfers of existing water rights in the Columbia river basin.

NEW SECTION. Sec. 4. (1) The department of ecology may enter into voluntary regional agreements for the purpose of providing new water for out-of-stream use, streamlining the application process, and protecting instream flow.

(2) Such agreements shall ensure that:

(a) For water rights issued from the Columbia river mainstem, there is no negative impact on Columbia river mainstem instream flows in the months of July and August as a result of the new appropriations issued under the agreement;

(b) For water rights issued from the lower Snake river mainstem, there is no negative impact on Snake river mainstem instream flows from April through August as a result of the new appropriations issued under the agreement; and

(c) Efforts are made to harmonize such agreements with watershed plans adopted under the authority of chapter 90.82 RCW that are applicable to the area covered by the agreement.

(3) The protection of instream flow as set forth in subsection (2) of this section is adequate for purposes of mitigating instream flow impacts resulting from any appropriations for out-of-stream use made under a voluntary regional agreement, and the only applicable consultation provisions under state law regarding instream flow impacts shall be those set forth in subsection (4) of this section.

(4) Before executing a voluntary agreement under this section, the department of ecology shall:

(a) Provide a sixty-day period for consultation with county legislative authorities and watershed planning groups with jurisdiction over the area where the water rights included in the agreement are located, the department of fish and wildlife, and affected tribal governments, and federal agencies. The department of fish and wildlife shall provide written comments within that time period. The consultation process for voluntary regional agreements developed under the provisions of this section is deemed adequate for the issuance of new water rights provided for in this section and satisfies all consultation requirements under state law related to the issuance of new water rights; and

(b) Provide a thirty-day public review and comment period for a draft agreement, and publish a summary of any public comments received. The thirty-day review period shall not begin until after the department of ecology has concluded its consultation under (a) of this subsection and the comments that have been received by the department are made available to the public.

(5) The provisions of subsection (4) of this section satisfy all applicable consultation requirements under state law.

(6) The provisions of this section and any voluntary regional agreements developed under such provisions may not be relied upon by the department of ecology as a precedent, standard, or model that must be followed in any other voluntary regional agreements.

(7) Nothing in this section may be interpreted or administered in a manner that precludes the processing of water right applications under chapter 90.03 or 90.44 RCW that are not included in a voluntary regional agreement.

(8) Nothing in this section may be interpreted or administered in a manner that impairs or diminishes a valid water right or a habitat conservation plan approved for purposes of compliance with the federal endangered species act.

(9) The department of ecology shall monitor and evaluate the water allocated to instream and out-of-stream uses under this section, evaluate the program, and provide an interim report to the appropriate committees of the legislature by June 30, 2008. A final report shall be provided to the appropriate committees of the legislature by June 30, 2011.

(10) If the department of ecology executes a voluntary agreement under this section that includes water rights appropriated from the lower Snake river mainstem, the department shall develop aggregate data in accordance with the provisions of section 6 of this act for the lower Snake river mainstem.

(11) Any agreement entered into under this section shall remain in full force and effect through the term of the agreement regardless of the expiration of this section.

(12) The definitions in this subsection apply to this section and section 6 of this act, and may only be used for purposes of implementing these sections.

(a) "Columbia river mainstem" means all water in the Columbia river within the ordinary high water mark of the main channel of the Columbia river between the border of the United States and Canada and the Bonneville dam, and all ground water within one mile of the high water mark.

(b) "Lower Snake river mainstem" means all water in the lower Snake river within the ordinary high water mark of the main channel of the lower Snake river from the head of Ice Harbor pool to the confluence of the Snake and Columbia rivers, and all ground water within one mile of the high water mark.

(13) This section expires June 30, 2012.

NEW SECTION. Sec. 5. (1) To support the development of new water supplies in the Columbia river and to protect instream flow, the department of ecology shall work with all interested parties, including interested county legislative authorities and watershed planning groups, adjacent to the Columbia river, and affected tribal governments, to develop a Columbia river water supply inventory and a long-term water supply and demand forecast. The inventory must include:

(a) A list of conservation projects that have been implemented under this chapter and the amount of water conservation they have achieved; and

(b) A list of potential water supply and storage projects in the Columbia river basin, including estimates of:

- (i) Cost per acre-foot;
- (ii) Benefit to fish and other instream needs;
- (iii) Benefit to out-of-stream needs; and
- (iv) Environmental and cultural impacts.

(2) The department of ecology shall complete the first Columbia river water supply inventory by November 15, 2006, and shall update the inventory annually thereafter.

(3) The department of ecology shall complete the first Columbia river long-term water supply and demand forecast by November 15, 2006, and shall update the report every five years thereafter.

NEW SECTION. Sec. 6. (1) In order to better understand current water use and instream flows in the Columbia river mainstem, the department of ecology shall establish and maintain a Columbia river mainstem water resources information system that provides the information necessary for effective mainstem water resource planning and management.

(2) To accomplish the objective in subsection (1) of this section, the department of ecology shall use information compiled by existing local watershed planning groups, federal agencies, the Bonneville power administration, irrigation districts, conservation districts in the basin, and other available sources. The information shall include:

(a) The total aggregate quantity of water rights issued under state permits and certificates and filed under state claims on the Columbia river mainstem and for ground water within one mile of the mainstem; and

(b) The total aggregate volume of current water use under these rights as metered and reported by water users under current law.

(3) The department of ecology shall publish the aggregate data on the department's web site no later than June 30, 2009, and shall periodically update the data.

(4) For purposes of this section, the definition of Columbia river mainstem in section 4(12) of this act shall apply and the use of the definition is solely limited to the purpose of collecting data to meet the information requirements of this section.

Sec. 7. 2005 c 488 s 332 (uncodified) is amended to read as follows:

"NEW SECTION, Sec. 1. Major public facilities, public works, and capital projects with significant public funding generally aim to accrue broad benefits to the people of Washington. However, frequently overlooked or inadequately addressed is the interest of the stakeholder community that bears the disproportionate cost of the broad public benefit by absorbing a deleterious impact upon itself. These impacts may include dislocation, displacement, and the overall disintegration of an identifiable existing community and its historical and cultural character. The legislature finds that the preservation and restoration of the character of such a community, and the community's historical and cultural character, are important public

policy goals that can be achieved through the creation of community preservation authorities.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Community" means a group of people who reside or work in a well-defined geographic area and who currently or historically share a distinct cultural identity or local history.

(2) "Community preservation authority" means an authority created by members of an impacted community.

(3) "Impacted community" means a community that has been or has the potential to be adversely impacted by the construction of, or ongoing operation of, multiple major public facilities, public works, and capital projects with significant public funding.

(4) "Major public facilities project, public works project, or capital project with significant public funding" means any capital project whose total cost exceeds ten million dollars.

(5) "Single point of contact" means a cabinet-level state agency directed by the legislature to work with community preservation authorities to ensure communication and consultation among state and local governments and communities that may be impacted by future major public facilities, public works, or capital projects with significant public funding.

NEW SECTION. Sec. 3. (1) Community preservation authorities are hereby created to restore or enhance the health, safety, and well-being of communities adversely impacted by the construction of, or ongoing operation of, multiple major public facilities, public works, and capital projects with significant public funding.

(2) Community preservation authorities have the following purposes:

(a) To revitalize, enhance, and preserve the unique character of impacted communities;

(b) To mitigate the adverse effects of multiple major public facilities projects, public works projects, or capital projects with significant public funding, or a secure community transition facility as defined in RCW 71.09.020(14);

(c) To restore a local area's sense of community;

(d) To reduce the displacement of community members and businesses;

(e) To stimulate the community's economic vitality;

(f) To enhance public service provisions;

(g) To improve the standard of living of community members;

(h) To preserve historic buildings or areas by returning them to economically productive uses that are compatible with or enhance their historic character; and

(i) To raise the visibility of the consequences of public policy decisions and actions.

NEW SECTION. Sec. 4. (1) Members of an impacted community may propose formation of a community preservation authority to the state legislative delegation representing the area in which the community is located.

(2) The affairs of a community preservation authority must be managed by a board of directors, including the following members:

(a) Two members who own, operate, or represent businesses within the community;

(b) Two members who are involved in providing nonprofit community or social services within the community;

(c) Two members who are involved in the arts and entertainment within the community;

(d) Two members with significant knowledge of the community's culture and history; and

(e) One member who is involved in a nonprofit or public planning organization that directly serves the impacted community.

(3) In appointing members to the board of directors, preference will be given to candidates who reside within the impacted community.

NEW SECTION. Sec. 5. Once constituted, a community preservation authority shall:

(1) Solicit input from members of its community and develop a capital projects plan to restore or enhance the health, safety, and well-being of the impacted community and to preserve and recapture its cultural and historical identity;

(2) Include within the plan a prioritized list of projects identified and supported by the community, including capital or operating components that address one or more of the purposes under section 3 of this act;

(3) Work in partnership with a designated state agency to assist organizations that serve the impacted community to identify and successfully compete for local, state, federal, and private funding to carry out projects that will benefit the impacted area; and

(4) Work with the single point of contact to ensure that state and local government officials communicate and consult fully with the impacted community and with each other prior to making siting, design, and construction decisions for future public facilities, public works projects, and capital projects with significant public funding. The single point of contact must make every effort to ensure that the cumulative effects of multiple projects upon the impacted community are considered.

NEW SECTION. Sec. 6. The community preservation authority account is created in the state treasury. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for projects under this chapter.

NEW SECTION. Sec. 7. By November 15, 2006, the department of community, trade, and economic development shall develop and report to the appropriate committees of the legislature recommendations for a community preservation authorities program. The department shall develop the recommendations within existing resources and shall consult with at least one community that has an interest in forming such an authority. The recommendations must include statutory and budgetary elements needed to support the program and must address operational issues, including: (1) The appointing authority and process by which community preservation authority board members are named; (2) state agencies that should be considered for designation as the single point of contact; (3) the means for establishing the authorities' eligibility for grant and loan programs; (4) how the community preservation authorities program should address the potential impacts of major public facilities, public works, and capital projects sited within and adjacent to the community's geographic boundaries; and (5) any other issues that must be resolved in order to operate the program.

On page 2, beginning on line 10, strike all material through "housing" on page 4, line 10, and insert the following:

"(1)(a) Any city or county planning under RCW 36.70A.040 may enact or expand affordable housing incentive programs providing for the development of low-income housing units through development regulations. An affordable housing incentive program may include, but is not limited to:

- (i) Density bonuses within the urban growth area;
- (ii) Height bonuses;
- (iii) Fee waivers or exemptions;
- (iv) Parking reductions; or
- (v) Expedited permitting, conditioned on provision of low-income housing units.

(b) The city or county may enact or expand such programs whether or not the programs may impose a tax, fee, or charge on the development or construction of property.

(c) A city, county, or town may not condition, deny, or delay the issuance of a permit or development approval based on the provisions in this chapter due to the absence of participation in a program adopted under this section.

(2) Affordable housing incentive programs enacted or expanded under this section or section 3 of this act shall comply with the following:

(a) The incentives or bonuses shall provide for the construction of low-income housing units;

(b) Jurisdictions shall establish standards for low-income renter or owner occupancy housing, including income guidelines consistent with local housing needs, to assist low-income households that cannot afford market-rate housing. Low-income households are defined for renter and owner occupancy program purposes as follows:

(i) Rental housing units to be developed shall be affordable to and occupied by households with an income of fifty percent or less of the county median family income, adjusted for family size; and

(ii) Owner occupancy housing units shall be affordable to and occupied by households with an income of eighty percent or less of the county median family income, adjusted for family size. The legislative authority of a jurisdiction, after holding a public hearing, may establish lower income levels. The legislative authority of a jurisdiction, after holding a public hearing, may also establish higher income levels for rental housing or for owner occupancy housing upon finding that higher income levels are needed to address local housing market conditions. The higher income level for rental housing may not exceed eighty percent of the county area median family income. The higher income level for owner occupancy housing may not exceed one hundred percent of the county area median family income. These established higher income levels must be considered "low-income" for the purposes of this section;

(c) The jurisdiction shall establish a maximum rent level or sales price for each low-income housing unit developed under the terms of a program and may adjust these levels or prices based on the average size of the household expected to occupy the unit. For renter-occupied housing units, the total housing costs, including basic utilities as determined by the jurisdiction, may not exceed thirty percent of the income limit for the low-income housing unit;

(d) Low-income housing units shall be provided in a range of sizes comparable to those units that are available to other residents. To the extent practicable, the number of bedrooms in low-income units must be in the same proportion as the number of bedrooms in units within the entire building. The low-income units shall generally be distributed throughout the building, except that units may be provided in an adjacent building. The low-income units shall have substantially the same equipment and amenities, excluding luxury amenities such as fireplaces and spa bathtubs, as the other units in the building or buildings;

(e) Low-income housing units developed under an affordable housing incentive program shall be committed to continuing affordability for at least fifty years. A local government, however, may accept payments in lieu of continuing affordability. The program shall include measures to enforce continuing affordability and income standards applicable to low-income units constructed under this section that may include, but are not limited to, covenants,

options, or other agreements to be executed and recorded by owners and developers;

(f) Programs authorized under subsection (1) of this section may apply to part or all of a jurisdiction and different standards may be applied to different areas within a jurisdiction. Programs authorized under this section may be modified to meet local needs and may include provisions not expressly provided in this section or section 3 of this act; and

(g) Required low-income housing units are encouraged to be provided within market-rate housing developments for which a bonus or incentive is provided. However, programs may allow units to be provided in an adjacent building and may allow payments of money or property in lieu of low-income housing units if the payment equals the approximate cost of developing the same number and quality of housing units that would otherwise be developed. Any city or county may use these funds or property to support the development of low-income housing, including support provided through loans or grants to public or private owners or developers of housing.

(3) Affordable housing incentive programs enacted or expanded under this section may be applied within the jurisdiction to address the need for increased residential development, consistent with local growth management and housing policies, as follows:

(a) The jurisdiction shall identify certain land use designations within a geographic area where increased residential development will assist in achieving local growth management and housing policies;

(b) The jurisdiction shall provide increased residential development capacity through zoning changes, bonus densities, height increases, parking reductions, or other regulatory changes or other incentives;

(c) The jurisdiction shall determine that increased residential development capacity or other incentives can be achieved within the identified area, subject to consideration of other regulatory controls on development; and

(d) The jurisdiction may establish a minimum amount of affordable housing that must be provided by all residential developments being built under the revised regulations, consistent with the requirements of this section"

"**NEW SECTION. Sec. 1.** The legislature finds that expanding activity in educational research, educational restructuring, and educational improvement initiatives has produced and continues to produce much valuable information. The legislature finds that such information should be shared with the citizens and educational community of the state as widely as possible. The legislature further finds that students and schools benefit from increased parental, guardian, and community knowledge of and input regarding the delivery of public education. The legislature further finds that increased knowledge of and input regarding the public education system is particularly needed in low-income and ethnic minority communities.

The legislature finds that the center for the improvement of student learning, created by the legislature in 1993 under the auspices of the superintendent of public instruction, has not been allocated funding since the 2001-2003 biennium, and in effect no longer exists. It is the intent of the legislature to reactivate the center for the improvement of student learning, and to create an educational ombudsman to serve as a resource for parents and students and as an advocate for students in the public education system.

Strike everything after the enacting clause and insert the following:

**"PART I
INTENT AND DEFINITIONS**

NEW SECTION. Sec. 101. INTENT. The legislature recognizes that the state as a whole benefits from investment in public infrastructure because it promotes community and economic

development. Public investment stimulates business activity and helps create jobs; stimulates the redevelopment of brownfields and blighted areas in the inner city; lowers the cost of housing; and promotes efficient land use. The legislature finds that these activities generate revenue for the state and that it is in the public interest to invest in these projects through a credit against the state sales and use tax and an allocation of property tax revenue to those sponsoring local governments that can demonstrate the expected returns to the state.

NEW SECTION. Sec. 102. DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Annual state contribution limit" means five million dollars statewide per fiscal year.

(2) "Assessed value" means the valuation of taxable real property as placed on the last completed assessment roll.

(3) "Base year" means the first calendar year following the creation of a revenue development area.

(4) "Department" means the department of revenue.

(5) "Demonstration project" means one of the following projects:

(a) Port of Walla Walla RailEx infrastructure project;

(b) Bellingham waterfront redevelopment project;

(c) Covington elementary school redevelopment project;

(d) Grays Harbor biomass plant project;

(e) Gig Harbor St. Anthony's hospital and retail area infrastructure project;

(f) Bothell gateway project.

(6) "Fiscal year" means the twelve-month period beginning July 1st and ending the following June 30th.

(7) "Local excise taxes" means local revenues derived from the imposition of sales and use taxes authorized in RCW 82.14.030 at the tax rate that was in effect at the time the revenue development area was created.

(8) "Local excise tax allocation revenue" means the amount of local excise taxes received by the local government during the measurement year from taxable activity within the revenue development area over and above the amount of local excise taxes received by the local government during the base year from taxable activity within the revenue development area, except that:

(a) If a sponsoring local government creates a revenue development area and reasonably determines that no activity subject to tax under chapters 82.08 and 82.12 RCW occurred in the twelve months immediately preceding the creation of the revenue development area within the boundaries of the area that became the revenue development area, "local excise tax allocation revenue" means the entire amount of local excise taxes received by the sponsoring local government during a calendar year period beginning with the calendar year immediately following the creation of the revenue development area and continuing with each measurement year thereafter; and

(b) For revenue development areas created in calendar year 2006 that do not meet the requirements in (a) of this subsection, "local excise tax allocation revenue" means the amount of local excise taxes received by the sponsoring local government during the measurement year from taxable activity within the revenue development area over and above an amount of local excise taxes received by the sponsoring local government during the 2007 base year adjusted by the department for any estimated impacts from retail sales and use tax sourcing changes effective July 1, 2007. The amount of base year adjustment determined by the department is final.

(9) "Local government" means any city, town, county, port district, and for the purpose of this chapter any federally recognized Indian tribe.

(10) "Local infrastructure financing" means the use of revenues received from local excise tax allocation revenues, local property tax allocation revenues, dedicated revenues from local public sources, and revenues received from the local option sales and use tax authorized in section 202 of this act to pay the principal and interest on bonds authorized under section 501 of this act.

(11) "Local property tax allocation revenue" means those tax revenues derived from the receipt of regular property taxes levied on the property tax allocation revenue value and used for local infrastructure financing.

(12) "Local public sources" means federal and private monetary contributions, and amounts of local excise tax allocation revenues dedicated by participating local governments and local property tax allocation revenues dedicated by participating taxing districts.

The public hearing may be held by either the governing body of the sponsoring local government, or by a committee of that governing body that includes at least a majority of the whole governing body. The public hearing is subject to the notice requirements in section 207 of this act.

(1) Notice of the public hearing must be published in a legal newspaper of general circulation within the proposed revenue development area at least ten days before the public hearing and posted in at least six conspicuous public places located in the proposed revenue development area.

(2) Notice must also be sent by United States mail to the property owners, all identifiable community-based organizations with involvement in the proposed revenue development area, and the business enterprises located within the proposed revenue development area at least thirty days prior to the hearing. In implementing provisions under this chapter, the local governing body may also consult with community-based groups, business organizations, including the local chamber of commerce, and the office of minority and women's business enterprises to assist with providing appropriate notice to business enterprises and property owners for whom English is a second language.

(3) Notices must describe the contemplated public improvements, estimate the public improvement costs, describe the portion of the public improvement costs to be borne by local infrastructure financing, describe any other sources of revenue to finance the public improvements, describe the boundaries of the proposed revenue development area, estimate the impact that the public improvements will have on small businesses and low-income housing, and estimate the period during which local infrastructure financing is contemplated to be used.

(4) Notices must inform the public where to obtain the information that shows how the limitations, conditions, and findings required in sections 203 through 205 of this act are met.

(5) The sponsoring local government shall deliver a certified copy of the proposed ordinance to the county treasurer, the governing body of each participating local government within which the revenue development area is located, and the department.

PART III TAX ALLOCATION REVENUES

NEW SECTION. Sec. 301. LOCAL EXCISE TAX ALLOCATION REVENUES. (1) A sponsoring local government or participating local government may use annually its local excise tax allocation revenues to finance public improvements in the revenue development area financed in whole or in part by local infrastructure financing. The use of local excise tax allocation revenues dedicated by participating local governments must cease when such allocation revenues are no longer necessary or obligated to pay bonds issued to finance the public improvements in the revenue development area. Any participating taxing authority is authorized to dedicate local excise tax allocation revenues to the sponsoring local government as authorized in section 205(1) of this act.

(2) A sponsoring local government shall provide the department accurate information describing the geographical boundaries of the revenue development area at the time of application. The information shall be provided in an electronic format or manner as prescribed by the department. The sponsoring local government shall ensure that the boundary information provided to the department is kept current.

(3) In the event a city annexes a county area located within a county-sponsored revenue development area, the city shall remit to the county the portion of the local excise tax allocation revenue that the county would have received had the area not been annexed to the county. The city shall remit such revenues until such time as the bonds issued under section 501 of this act are retired.

NEW SECTION. Sec. 302. LOCAL PROPERTY TAX ALLOCATION REVENUES. (1) Commencing in the second calendar year following the passage of the ordinance creating a revenue development area and authorizing the use of local infrastructure financing, the county treasurer shall distribute receipts from regular taxes imposed on real property located in the revenue development area as follows:

(a) Each participating taxing district and the sponsoring local government shall receive that portion of its regular property taxes produced by the rate of tax levied by or for the taxing district on the property tax allocation revenue base value for that local infrastructure financing project in the taxing district, or upon the total assessed value of real property in the taxing district, whichever is smaller; and

(b) The sponsoring local government shall receive an additional portion of the regular property taxes levied by it and by or for each participating taxing district upon the property tax allocation revenue value within the revenue development area. However, if there is no property tax allocation revenue value, the sponsoring local government shall not receive any additional regular property taxes under this subsection (1)(b). The sponsoring local government may agree to receive less than the full amount of the additional portion of regular property taxes under this subsection (1)(b) as long as bond debt service, reserve, and other bond covenant requirements are satisfied, in which case the balance of these tax receipts shall be allocated to the participating taxing districts that levied regular property taxes, or have regular property taxes levied for them, in the revenue development area for collection that year in proportion to their regular tax levy rates for collection that year. The sponsoring local government may request that the treasurer transfer this additional portion of the property taxes to its designated agent. The portion of the tax receipts distributed to the sponsoring local government or its agent under this subsection (1)(b) may only be expended to finance public improvement costs associated with the public improvements financed in whole or in part by local infrastructure financing.

(2) The county assessor shall allocate any increase in the assessed value of real property occurring in the revenue development

area to the property tax allocation revenue value and property tax allocation revenue base value as appropriate. This section does not authorize revaluations of real property by the assessor for property taxation that are not made in accordance with the assessor's revaluation plan under chapter 84.41 RCW or under other authorized revaluation procedures.

(3) The apportionment of increases in assessed valuation in a revenue development area, and the associated distribution to the sponsoring local government of receipts from regular property taxes that are imposed on the property tax allocation revenue value, must cease when property tax allocation revenues are no longer necessary or obligated to pay the costs of the public improvements. Any excess local property tax allocation revenues derived from regular property taxes and earnings on these tax allocation revenues, remaining at the time the apportionment of tax receipts terminates, must be returned to the county treasurer and distributed to the participating taxing districts that imposed regular property taxes, or had regular property taxes imposed for it, in the revenue development area for collection that year, in proportion to the rates of their regular property tax levies for collection that year.

NEW SECTION. Sec. 401. A new section is added to chapter 82.14 RCW to read as follows:

SALES AND USE TAX. (1) A sponsoring local government that has been approved by the department to use local infrastructure financing may impose a sales and use tax in accordance with the terms of this chapter and subject to the criteria set forth in this section. Except as provided in this section, the tax is in addition to other taxes authorized by law and shall be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the taxing jurisdiction of the sponsoring local government. The rate of tax shall not exceed the rate provided in RCW 82.08.020(1), less the aggregate rates of any other local sales and use taxes imposed on the same taxable events that are credited against the state sales and use taxes imposed under chapters 82.08 and 82.12 RCW. The rate of tax may be changed only on the first day of a fiscal year as needed. Notice of rate changes must be provided to the department on the first day of March to be effective on July 1st of the next fiscal year.

(2) The tax authorized under subsection (1) of this section shall be credited against the state taxes imposed under chapter 82.08 or 82.12 RCW. The department shall perform the collection of such taxes on behalf of the sponsoring local government at no cost to the sponsoring local government and shall remit the taxes as provided in RCW 82.14.060.

(3) No tax may be imposed under this section before July 1, 2008, and before approval by the department under section 202 of this act. Before imposing a tax under this section, the sponsoring local government shall first have received both local excise tax allocation revenues and local property tax allocation revenues during the preceding calendar year. The tax imposed under this section shall expire when the bonds issued under the authority of section 501 of this act are retired, but not more than twenty-five years after the tax is first imposed.

(4) An ordinance adopted by the legislative authority of a sponsoring local government imposing a tax under this section shall provide that:

- (a) The tax shall first be imposed on the first day of a fiscal year;
- (b) The amount of tax received by the sponsoring local government in any fiscal year shall not exceed the amount of the state contribution;
- (c) The tax shall cease to be distributed for the remainder of any fiscal year in which either:
 - (i) The amount of tax received by the sponsoring local government equals the amount of the state contribution;
 - (ii) The amount of revenue from taxes imposed under this section by all cities and counties equals the annual state contribution limit; or

(iii) The amount of tax received by the sponsoring local government equals the amount of project award granted in the approval notice described in section 202 of this act;

(d) Neither the local excise tax allocation revenues nor the local property tax allocation revenues can be more than eighty percent of the total local funds used to earn the state contribution;

(e) The tax shall be distributed again, should it cease to be distributed for any of the reasons provided in (c) of this subsection, at the beginning of the next fiscal year, subject to the restrictions in this section; and

(f) Any revenue generated by the tax in excess of the amounts specified in (c) of this subsection shall belong to the state of Washington.

(5) If a county and city cosponsor a revenue development area, the combined rates of tax shall not exceed the rate provided in RCW 82.08.020(1), less the aggregate rates of any other local sales and use taxes imposed on the same taxable events that are credited against the state sales and use taxes imposed under chapters 82.08 and 82.12 RCW.

(6) The department shall determine the amount of tax receipts distributed to each sponsoring local government imposing sales and use tax under this section and shall advise a sponsoring local government when tax distributions for the fiscal year equal the amount of state contribution for that fiscal year as provided in subsection (8) of this section. Determinations by the department of the amount of tax distributions attributable to each sponsoring local government are final and shall not be used to challenge the validity of any tax imposed under this section. The department shall remit any tax receipts in excess of the amounts specified in subsection (4)(c) of this section to the state treasurer who shall deposit the money in the general fund.

(7) If a sponsoring local government fails to comply with section 403 of this act, no tax may be distributed in the subsequent fiscal year until such time as the sponsoring local government complies and the department calculates the state contribution amount for such fiscal year.

(8) Each year, the amount of taxes approved by the department for distribution to a sponsoring local government in the next fiscal year shall be the lesser of the amount of the project award in the approval notice described in section 202 of this act or the amount equal to the state contribution. The department shall consider information from reports described in section 403 of this act when determining the amount of state contributions for each fiscal year. A sponsoring local government shall not receive, in any fiscal year, more revenues from taxes imposed under the authority of this section than the amount approved annually by the department. The department shall not approve the receipt of more distributions of sales and use tax under this section to a sponsoring local government than is authorized under subsection (3) of this section.

(9) The amount of tax distributions received from taxes imposed under the authority of this section by all sponsoring local governments is limited annually to not more than five million dollars. The tax distributions shall be available to the sponsoring local government imposing a tax under this section only as long as the sponsoring local government has outstanding indebtedness under section 501 of this act.

(10) The definitions in section 102 of this act apply to this section unless the context clearly requires otherwise.

NEW SECTION. Sec. 402. USE OF FUNDS. Money collected from the taxes imposed under section 401 of this act shall be used only for the purpose of principal and interest payments on bonds issued under the authority of section 501 of this act.

(2) The department shall make a report available to the public and the legislature by June 1st of each year. The report shall include a list of public improvements undertaken by sponsoring local governments and financed in whole or in part with local infrastructure financing and it shall also include a summary of the information provided to the department by sponsoring local governments under subsection (1) of this section.

(b) A local government that issues bonds under this section shall not pledge any money received from the state of Washington for the payment of such bonds, other than the local sales and use taxes imposed under the authority of section 401 of this act and collected by the department.

(3) In addition to the requirements in subsection (1) of this section, a local government designating a revenue development area and authorizing the use of local infrastructure financing may require the nonpublic participant to provide adequate security to protect the public investment in the public improvement within the revenue development area.

(4) Bonds issued under this section shall be authorized by ordinance of the local governing body and may be issued in one or more series and shall bear such date or dates, be payable upon demand or mature at such time or times, bear interest at such rate or rates, be in such denomination or denominations, be in such form either coupon or registered as provided in RCW 39.46.030, carry such conversion or registration privileges, have such rank or priority, be executed in such manner, be payable in such medium of payment, at such place or places, and be subject to such terms of redemption with or without premium, be secured in such manner, and have such other characteristics, as may be provided by such ordinance or trust indenture or mortgage issued pursuant thereto.

(5) The local government may annually pay into a fund to be established for the benefit of bonds issued under this section a fixed proportion or a fixed amount of any local excise tax allocation revenues and local property tax allocation revenues derived from property or business activity within the revenue development area containing the public improvements funded by the bonds, such payment to continue until all bonds payable from the fund are paid in full. The local government may also annually pay into the fund established in this section a fixed proportion or a fixed amount of any revenues derived from taxes imposed under section 401 of this act, such payment to continue until all bonds payable from the fund are paid in full. Revenues derived from taxes imposed under section 401 of this act are subject to the use restriction in section 402 of this act.

(6) In case any of the public officials of the local government whose signatures appear on any bonds or any coupons issued under this chapter shall cease to be such officials before the delivery of such bonds, such signatures shall, nevertheless, be valid and sufficient for all purposes, the same as if such officials had remained in office until such delivery. Any provision of any law to the contrary notwithstanding, any bonds issued under this chapter are fully negotiable.

(7) Notwithstanding subsections (4) through (6) of this section, bonds issued under this section may be issued and sold in accordance with chapter 39.46 RCW.

NEW SECTION. Sec. 502. USE OF TAX REVENUE FOR BOND REPAYMENT. A sponsoring local government that issues bonds under section 501 of this act to finance public improvements may pledge for the payment of such bonds all or part of any local excise tax allocation revenues and all or part of any local property tax allocation revenues dedicated by the sponsoring local government, any participating taxing authority, or participating taxing district. The local government may also pledge all or part of any revenues derived from taxes imposed under section 401 of this act and held in connection with the public improvements. All of such tax revenues are subject to the use restrictions in sections 202 through 204 of this act, and the process requirements in section 205(1) of this act.

NEW SECTION. Sec. 503. BONDS ISSUED NOT AN OBLIGATION OF THE STATE OF WASHINGTON. The bonds issued by a sponsoring local government under section 501 of this act to finance public improvements shall not constitute an obligation of the state of Washington, either general or special.

NEW SECTION. Sec. 504. GENERAL INDEBTEDNESS--SECURITY. (1) A sponsoring local government designating a revenue development area and authorizing the use of local infrastructure financing may incur general indebtedness, and issue general obligation bonds, to finance the public improvements and retire the indebtedness in whole or in part from local excise tax allocation revenues and local property tax allocation revenues it receives, subject to the following requirements:

(a) The ordinance adopted by the sponsoring local government creating the revenue development area and authorizing the use of local infrastructure financing indicates an intent to incur this indebtedness and the maximum amount of this indebtedness that is contemplated; and

(b) The sponsoring local government includes this statement of the intent in all notices required by sections 204 and 205 of this act.

(2) The general indebtedness incurred under subsection (1) of this section may be payable from other tax revenues, the full faith and credit of the sponsoring local government, and nontax income, revenues, fees, and rents from the public improvements, as well as contributions, grants, and nontax money available to the sponsoring local government for payment of costs of the public improvements or associated debt service on the general indebtedness.

(3) In addition to the requirements in subsection (1) of this section, a sponsoring local government designating a revenue development area and authorizing the use of local infrastructure financing may require the nonpublic participant to provide adequate security to protect the public investment in the public improvement within the revenue development area.

NEW SECTION. Sec. 505. REVENUE BONDS. (1) A sponsoring local government may issue revenue bonds to fund revenue-generating public improvements, or portions of public improvements, that are located within a revenue development area. Whenever revenue bonds are to be issued, the legislative authority of the sponsoring local government shall create or have created a special fund or funds from which, along with any reserves created pursuant to RCW 39.44.140, the principal and interest on these revenue bonds shall exclusively be payable. The legislative authority of the sponsoring local government may obligate the sponsoring local government to set aside and pay into the special fund or funds a fixed proportion or a fixed amount of the revenues from the public improvements that are funded by the revenue bonds. This amount or proportion is a lien and charge against these revenues, subject only to operating and maintenance expenses. The sponsoring local government shall have due regard for the cost of operation and maintenance of the public improvements that are funded by the revenue bonds, and shall not set aside into the special fund or funds a greater amount or proportion of the revenues than in its judgment will be available over and above the cost of maintenance and operation and the amount or proportion, if any, of the revenue previously pledged. The sponsoring local government may also provide that revenue bonds payable out of the same source or sources of revenue may later be issued on a parity with any revenue bonds being issued and sold.

(2) Revenue bonds issued pursuant to this section are not an indebtedness of the sponsoring local government issuing the bonds, and the interest and principal on the bonds shall only be payable from the revenues lawfully pledged to meet the principal and interest requirements and any reserves created pursuant to RCW 39.44.140. The owner or bearer of a revenue bond or any interest coupon issued pursuant to this section shall not have any claim against the sponsoring local government arising from the bond or coupon except for payment from the revenues lawfully pledged to meet the principal and interest requirements and any reserves created pursuant to RCW 39.44.140. The substance of the limitations included in this subsection shall be plainly printed, written, or engraved on each bond issued pursuant to this section.

(3) Revenue bonds with a maturity in excess of twenty-five years shall not be issued. The legislative authority of the sponsoring local government shall by resolution determine for each revenue bond issue the amount, date, form, terms, conditions, denominations, maximum fixed or variable interest rate or rates, maturity or maturities, redemption rights, registration privileges, manner of execution, manner of sale, callable provisions, if any, and covenants including the refunding of existing revenue bonds. Facsimile signatures may be used on the bonds and any coupons. Refunding revenue bonds may be issued in the same manner as revenue bonds are issued.

PART VI JOINT LEGISLATIVE AUDIT AND REVIEW COMMITTEE REPORTS

NEW SECTION. Sec. 601. JOINT LEGISLATIVE AUDIT AND REVIEW COMMITTEE REPORTS. Beginning September 1, 2013, and continuing every five years thereafter, the joint legislative audit and review committee shall submit a report to the appropriate committees of the legislature. The report shall, at a minimum, evaluate the effectiveness of the local infrastructure financing tool program, including a project by project review. The report shall include a comparison of the local infrastructure financing revenues received to the incremental improvements in assessed value of the real property located within the revenue development area. The report that is due September 1, 2028, should also include any recommendations regarding whether or not the program should be expanded statewide and what impact the expansion would have on economic development in Washington.

PART VII MISCELLANEOUS

(2) As a condition to imposing a sales and use tax under section 301 of this act, a city, town, or county must apply to the board at least one hundred fifty days before the effective date of any such tax. The application shall be in a form and manner prescribed by the board and shall include but is not limited to information establishing that the applicant is eligible to impose such a tax, the anticipated effective date for imposing the tax, the estimated number of years that the tax will be imposed, and the estimated amount of tax revenue to be received in each fiscal year that the tax will be imposed. For purposes of this section, "fiscal year" means the year beginning July 1st and ending the following June 30th. The board shall make available forms to be used for this purpose. As part of the application, a city, town, or county must provide to the board a copy of the ordinance creating the revenue development area as required in section 206 of this act. No new applications shall be considered by the board after the thirtieth day of September of the third year following the year in which the first application was received by the board.

(3) The board shall establish a competitive process to prioritize applications and shall approve any tax that may be imposed under section 401 of this act. The board shall consult with the department of revenue in approving a proposed tax.

(4) The board shall apply the following criteria for evaluation and ranking of applications:

(a) The relative benefits provided to the community by the proposed economic or community development, including employment;

(b) The present level of economic activity in the community and the existing local financial capacity to increase economic activity in the community;

(c) The rate of return of the state's investment, that includes the expected increase in state and local tax revenues associated with the project;

(g) Demonstration that the requested assistance will directly stimulate community and economic development by facilitating the creation of new jobs or the retention of existing jobs; and

(h) The availability of existing assets that applicants may apply to projects.

(5)(a) A proposed tax may not be approved unless the applicant has entered into or expects to enter into a contract with a private developer relating to private investment that will result in the creation or retention of jobs upon completion of the project; and

(b) A proposed tax may not be approved if the expected development will result in the relocation of jobs from another part of the state into the revenue development area, as defined in section 102 of this act.

(6) As a part of the approval of applications under this section, the board shall approve the project award, the amount of tax under section 401 of this act, that an applicant may impose. The board shall consult with the department of revenue in determining the amount. The amount of tax approved by the board shall not exceed the lesser of one million dollars or the average amount of tax revenue that the applicant estimates that it will receive in all fiscal years through the imposition of a sales and use tax under section 401 of this act. A city, town, or county shall not receive, in any fiscal year, more revenues from taxes imposed under section 401 of this act than the amount approved by the board. The board shall not approve the receipt of more credit against the state sales and use tax than is authorized under subsection (7) of this section.

(7) No more than five million dollars of credit against the state sales and use tax may be received by all cities, towns, and counties in any fiscal year.

(8) The credit against the state sales and use tax shall be available to any city, town, or county imposing a tax under section 401 of this act only as long as the city, town, or county has outstanding indebtedness under section 501 of this act."

POINT OF PERSONAL PRIVILEGE

Representative DeBolt: "Thank you very much. I just want to say that a lot of us were here late last night and can't be with our spouses today. I am very fortunate that my spouse is up in the gallery with her class and they will be introduced in a minute. It looks like we all got new ties because I got a new tie today too. I really want to thank our spouses for all that they do for us because without them we could not be here today. We do not have the opportunity always to thank them on Valentine's Day because we are working. So on behalf of my caucus and the floor, I would like to thank everyone's significant others who make it possible for us to be here and support us.

Thank you."

(1) "Commercial decabromodiphenylether" means the chemical mixture of decabromodiphenylether, including associated polybrominated diphenyl ether impurities not intentionally added. No single polybrominated diphenyl ether impurity shall exceed one percent by mass of the mixture and the combination of all polybrominated diphenyl ether impurities shall not exceed four percent by mass of the mixture.

(3) "Electronic enclosure" means the plastic housing that encloses the components of electronic products, including but not limited to televisions and computers.

(4) "Manufacturer" includes any person, firm, association, partnership, corporation, governmental entity, organization, or joint venture that produces a product containing polybrominated diphenyl ethers or an importer or domestic distributor of a noncombustible product containing polybrominated diphenyl ethers. A manufacturer does not include a retailer:

(a) Of a private label brand or cobranding; or

(b) Who assembles components to create a single electronic product based on an individual consumer preference.

(5) "Polybrominated diphenyl ethers" means chemical forms that consist of diphenyl ethers bound with bromine atoms. Polybrominated diphenyl ethers include, but are not limited to, the three primary forms of the commercial mixtures known as pentabromodiphenylether (penta-bde), octabromodiphenylether (octa-bde), and decabromodiphenylether (deca-bde).

(6) "Retailer" means a person who offers a product for sale at retail through any means including, but not limited to, remote offerings such as sales outlets, catalogs, or the internet, but does not include a sale that is a wholesale transaction with a distributor or a retailer. A retailer does not include a person, firm, association, partnership, corporation, governmental entity, organization, or joint venture that both manufactures and sells a product at retail.

(7) "Technically feasible alternative that is available at a reasonable cost" means an alternative that is available at a cost and in sufficient quantity to permit the manufacturer or user to maintain an economically viable product.

(8) "Transportation vehicle" means any mechanized vehicle that is used to transport goods or people including, but not limited to, airplanes, automobiles, motorcycles, trucks, buses, trains, boats, ships, streetcars, or monorail cars.

(9) "Used product" means any product that has been previously owned, purchased, or sold in commerce. "Used product" does not include any product manufactured after January 1, 2007.

NEW SECTION. Sec. 2. (1) Except as provided in subsection (2) of this section and sections 3 and 4 of this act, after January 1, 2007, no person may manufacture, knowingly sell, offer for sale, distribute for sale, or distribute for use in this state noncombustible products containing polybrominated diphenyl ethers.

(2) Subsection (1) of this section does not apply to:

(a) Products containing decabromodiphenylether except as provided in section 4 of this act;

(b) The sale or distribution of any used transportation vehicle with component parts containing polybrominated diphenyl ethers;

(c) The sale of any used transportation vehicle parts, or new transportation vehicle parts manufactured before January 1, 2007, that contain polybrominated diphenyl ethers;

(d) The manufacture, sale, repair, distribution, maintenance, refurbishment, or modification of equipment containing polybrominated diphenyl ethers and used primarily for military or federally funded space program applications. This exemption does not cover consumer-based goods with broad applicability;

(e) The sale or distribution by a business, charity, or private party of any used product containing polybrominated diphenyl ethers; or

(f) Medical devices.

(3) In-state retailers in possession of products on January 1, 2007, that are banned for sale under subsection (1) of this section may exhaust their stock through sales to the public.

NEW SECTION. Sec. 3. A manufacturer or user of safety systems required by the federal aviation administration may apply for an exemption for a specific use of penta-bde or octa-bde by filing a written petition with the department. Such uses may include the repair or replacement by a manufacturer or user of safety systems required by the federal aviation administration. The exemption may be granted for a term not to exceed eighteen months and may be renewed upon written application if the department finds that the specific use of penta-bde or octa-bde continues to meet the criteria of this section and the manufacturer or other persons comply with the conditions of its original approval. The department may grant an exemption for a specified use of penta-bde or octa-bde with or without conditions upon finding that the petitioner has demonstrated that:

(1) A technically feasible alternative to the use of penta-bde or octa-bde is not available at reasonable cost; or

(2) The potential harm to public health and the environment directly posed by a technically feasible and available alternative is greater than the potential harm posed by penta-bde or octa-bde.

NEW SECTION. Sec. 4. (1) Except as provided in subsection (3) of this section and section 5 of this act, after July 1, 2010, no person may manufacture, knowingly sell, offer for sale, distribute for sale, or distribute for use in this state any television or computer that has an electronic enclosure that contains commercial decabromodiphenylether.

(2) Except as provided in subsection (3) of this section and section 5 of this act, after July 1, 2012, no person may manufacture, knowingly sell, offer for sale, distribute for sale, or distribute for use in this state any of the following products:

(a) Upholstered furniture intended for indoor use in a home or other residential occupancy that contains commercial decabromodiphenylether; or

(b) Mattresses and mattress pads that contain commercial decabromodiphenylether.

(3) The following are exempt from subsections (1) and (2) of this section:

(a) The manufacture, sale, repair, distribution, maintenance, refurbishment, or modification of any raw material or component part used in a transportation vehicle or any new transportation vehicle with component parts, including original parts and spare parts, containing commercial decabromodiphenylether;

(b) The use of commercial decabromodiphenylether in the maintenance, refurbishment, or modification of transportation equipment; or

(c) The manufacture, sale, or distribution of any new product or product component consisting of recycled or used materials containing commercial decabromodiphenylether.

NEW SECTION. Sec. 5. If the department and the department of health, in consultation with the director of fire protection, find that a safer technically feasible alternative to the use of commercial decabromodiphenylether is not available at reasonable cost, the department and the department of health may jointly by rule grant an exemption to allow for the manufacture, sale, or distribution of products prohibited from manufacture, sale, or distribution under section 4 of this act between July 1, 2010, and July 1, 2012. The department and the department of health may jointly by rule renew the exemption for an additional period of two years if the department and the department of health find that a safer technically feasible alternative to the use of commercial decabromodiphenylether is not available at reasonable cost.

NEW SECTION. Sec. 6. Before adoption of a final rule by the department and the department of health in section 5 of this act, the governor shall review the proposed rule to ensure that a safer technically feasible alternative to the use of commercial decabromodiphenylether is not available at reasonable cost. In reviewing the proposed rule, the governor shall consider the

important balance between the needs for continuing the use of commercial decabromodiphenylether and protecting public health. Any final rule adopted under section 5 of this act by the departments requires the signature of the governor.

NEW SECTION. Sec. 7. By December 15, 2008, the department, the director of fire protection, and the department of health must report to the appropriate committees of the legislature on the availability of safer, technically feasible alternatives for those products prohibited from the manufacture, sale, or distribution under section 4 of this act and any additional evidence of the potential harm posed by commercial decabromodiphenylether.

NEW SECTION. Sec. 8. Nothing in this chapter restricts the ability of a manufacturer, importer, or distributor from transporting products containing polybrominated diphenyl ethers through the state, or storing such products in the state for later distribution outside the state.

NEW SECTION. Sec. 9. After January 1, 2007, a manufacturer of products containing a polybrominated diphenyl ether that has been restricted under this chapter must notify persons that sell the manufacturer's products about this chapter.

NEW SECTION. Sec. 10. (1) The department and the department of health must review additional uses of commercial decabromodiphenylether.

(2) The department and the department of health must report their findings and recommendations to the appropriate committees of the legislature by December 15, 2007.

NEW SECTION. Sec. 11. (1) By January 1, 2007, the department of general administration shall:

(a) Give priority and preference to the purchase of equipment, supplies, and other products that do not contain polybrominated diphenyl ethers; and

(b) Make available for purchase and use by all state agencies only equipment, supplies, and other products that do not contain polybrominated diphenyl ethers.

(2) The department of general administration shall, by January 1, 2007, revise its rules, policies, and guidelines to implement this chapter.

NEW SECTION. Sec. 12. (1) Retailers who unknowingly sell products banned under sections 2 and 4 of this act are not liable under this chapter.

(2) In-state retailers in possession of products on January 1, 2010, that are banned for sale under section 4(1) of this act or are in possession of products on January 1, 2012, that are banned for sale under section 4(2) of this act may exhaust their stock through sales to the public.

(3) The department must develop a program to assist in-state retailers in identifying potential products containing polybrominated diphenyl ethers in their inventory before the effective date of product bans under sections 2 and 4 of this act.

(4) If a retailer unknowingly possesses products that are banned for sale under sections 2 and 4 of this act and the manufacturer does not recall the products, the retailer may exhaust its existing stock through sales to the public; however, no additional banned stock may be sold or offered for sale.

NEW SECTION. Sec. 13. (1) Enforcement of this chapter shall rely heavily on notification and information exchange between the department and manufacturers. The department shall achieve compliance with this chapter using the following enforcement sequence:

(a) Before the effective date of the product bans in sections 2 and 4 of this act, the department must prepare and distribute information to in-state manufacturers and out-of-state manufacturers, to the maximum extent practicable, to assist them in identifying products prohibited for manufacture, sale, or distribution under this chapter;

(b) The department may request a certificate of compliance from a manufacturer. A certificate of compliance attests that a manufacturer's product or products meets the requirements of this chapter;

(c) The department must issue a warning letter to a manufacturer that produces, sells, or distributes banned products in violation of this chapter. The department shall offer information or other appropriate assistance to the manufacturer in complying with this chapter. If after one year, compliance is not achieved, penalties must be assessed under subsection (3) of this section.

(2) A manufacturer that produces, sells, or distributes a product prohibited from manufacture, sale, or distribution under this chapter shall recall such products and reimburse the retailer or any other purchaser for the product and any applicable postage and handling for returning the products.

(3) A manufacturer of products containing polybrominated diphenyl ethers in violation of this chapter is punishable by a civil penalty not to exceed one thousand dollars for each violation in the case of a first offense. Manufacturers who are repeat violators are liable for a civil penalty not to exceed five thousand dollars for each repeat offense. Penalties collected under this section must be deposited in the state toxics control account created in RCW 70.105D.070.

NEW SECTION. Sec. 14. Sections 1 through 13 of this act constitute a new chapter in Title 70 RCW."

The legislature finds and declares that there has been an ongoing controversy over the costs and benefits of existing health care coverage statutory requirements and their effect on health care insurance costs. It is for this reason that an unbiased, independent analysis of existing health care coverage statutory requirements needs to be conducted. It is not the intent of the legislature to take any actions in relation to the findings of the study until they can be reviewed and analyzed by the legislature, in consultation with the office of the insurance commissioner, health care providers, health carriers, health care purchasers, and health care consumers.

NEW SECTION. Sec. 2. The office of the insurance commissioner shall contract for an analysis of existing health care coverage statutory requirements. The office of the insurance commissioner shall:

(1)(a) Contract with a qualified independent and impartial entity that has not taken a public position in the past on the merits or consequences of the adoption of health care coverage statutory requirements; and

(b) Conduct the analysis in two phases:

(i) The first phase of the analysis shall review statutes that mandate that health carriers provide benefits for certain conditions or services, and that require health carriers to offer certain services as an option for individuals or groups purchasing a health benefit plan. For each mandate or requirement, the analysis must address:

(A) The cost of including the mandate or requirement in health benefit plans, and the impact that covering the mandate or requirement has on the utilization of other health services, expressed as a net premium cost or savings per member per month;

(B) A review of available evidence related to the clinical and cost-effectiveness of the mandate or requirement; and

(C) An assessment of whether market demand has already resulted in inclusion of the mandate or requirement in a significant number of health benefit plans in states that do not have such a mandate or requirement; and

(ii) The second phase of the analysis must analyze a sample of at least ten health conditions or chronic illnesses that are prevalent among residents of Washington state. For each health condition or chronic illness, the analysis must include an assessment of the comparative cost and treatment outcomes of treatment provided by health care providers for whom primary treatment of the condition or illness is within their scope of practice.

(2) Submit an interim report on the first phase of the analysis to the governor and appropriate committees of the legislature by December 1, 2006, and a final report by December 1, 2007. The report may include recommendations related to additional issues that should be addressed in the second phase of the analysis.

RESOLUTION

HOUSE RESOLUTION NO. 2006-4701, By Representatives Santos and Hasegawa

WHEREAS, On February 19, 1942, President Franklin D. Roosevelt issued Executive Order 9066, which authorized the forced assembly, evacuation, and internment of approximately 12,000 Japanese-Americans residing in the state of Washington; and

WHEREAS, The order for assembly and detention at Camp Harmony in Puyallup, Washington, prior to evacuation and subsequent internment, caused Japanese-Americans from the state of Washington to lose millions of dollars in property and assets, to suffer immeasurable physical and psychological damage, and to be deprived of their constitutional liberties without due process of law; and

WHEREAS, The alleged purpose of this drastic course of action was to prevent Japanese-Americans, all of whom were deemed disloyal and untrustworthy, from committing acts of espionage and sabotage against the United States during its involvement in World War II; and

WHEREAS, An overwhelming number of Japanese-Americans from the state of Washington responded to questions of their loyalty and patriotism by volunteering from within barbed wire camps to serve in the United States Military Intelligence Service and the United States Army's 442nd Regimental Combat Team, the latter of which became the most decorated unit of its size in American history with seven Presidential Unit Citations, 21 Congressional Medals of Honor, 52 Distinguished Service Crosses, 1 Distinguished Service Medal, 588 Silver Stars, 4,000 Bronze Stars, 9,486 Purple Hearts, and a total of 18 decorations from France and Italy; and

WHEREAS, A few equally patriotic Japanese-Americans, such as Gordon Hirabayashi, then a student at the University of Washington, were willing to face imprisonment to seek justice by challenging the constitutionality of the evacuation and internment orders; and

WHEREAS, Through the fact-finding work of the Commission on Wartime Relocation and Internment of Civilians, the United States Congress later found that "there was no military or security reason for the internment" of

individuals of Japanese ancestry and that the internment "was caused by racial prejudice, war hysteria, and a failure of political leadership"; and

WHEREAS, Japanese-American internees from the state of Washington endured economic, physical, and psychological hardship and suffered in silence for more than forty years before the state of Washington provided monetary redress and reparations to municipal and state employees;

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives, along with the people of Washington, pause to acknowledge the sixty-fourth anniversary of the signing of Executive Order 9066, to recognize the Japanese-American internees and WWII veterans from the state of Washington, to honor their patience, heroism, sacrifice, and patriotic loyalty, and to remember the lessons and blessings of liberty and justice for all; and

BE IT FURTHER RESOLVED, That copies of this resolution be immediately transmitted by the Chief Clerk of the House of Representatives to the Nisei Veterans Committee, the Military Intelligence Service - Northwest Association, the Japanese-American Citizens League, and the Japanese-American Cultural & Community Center.

WHEREAS, The children of Washington State should always know that they are valued members of our society, and that their opinions and ideas are welcome and respected; and

HOUSE RESOLUTION NO. 4705 was adopted.

HOUSE RESOLUTION NO. 2006-4704, By Representative Roberts

WHEREAS, Washington is the only state named for an American president, George Washington, the father of our country, and as such, we Washingtonians hold the presidency and presidents in especially high regard; and

WHEREAS, For many years our state and nation have set aside the third Monday in February to celebrate Presidents' Day, which honors former presidents of the United States of America; and

WHEREAS, Both February 12th, the actual birthday of President Abraham Lincoln, and February 22nd, the actual birthday of President George Washington, were kept and observed, until 1971, as the anniversaries of the births of these two great American presidents; and

WHEREAS, Presidents' Day, for many citizens, remains as a time for specifically honoring the accomplishments of Washington, the first American president, and Lincoln, the sixteenth American president; and

WHEREAS, It was in 1968 when federal legislation, the "Monday Holidays Act," was passed to install the Presidents' Day celebration that we have come to know and respect; and

WHEREAS, Although traditionalists cling to the notion that Presidents' Day remains a time for celebrating the specific legacies of Presidents Washington and Lincoln, nontraditionalists are very welcome to embrace the fact that former Presidents John Adams, Thomas Jefferson, John Quincy Adams, Martin Van Buren, Andrew Johnson, Ulysses Grant, James Garfield, and Teddy Roosevelt, as well as the presidents of later decades, are honored in numerous commemorations across the country; and

WHEREAS, In 1985, the Washington state legislature singled out the third Monday in February as a day for commemorating the births of Presidents Washington and Lincoln; and

WHEREAS, It is recognized that this diverse, wonderful land of ours has been fashioned into a priceless, multicultural quilt, thanks to the tireless efforts of our forefathers, especially George Washington and Abraham Lincoln; and

WHEREAS, The first eight American presidents, comprising almost a fifth of our forty-three presidents to date, did not begin their lives as Americans because there was no America when they were born, thus instilling a valuing and honoring of cooperation through diversity; and

WHEREAS, No Presidents' Day celebration would be complete without appropriate recognition for the invaluable service of the first ladies in our American presidential history; and

WHEREAS, The first ladies of our nation have not only provided citizens with role models who exemplify what it means to be an American, such as icons Dolly Madison, Eleanor Roosevelt, and Jacqueline Kennedy, but have served as an infallible backbone to a nation of strong-minded, ambitious, and driven individuals who value freedom and independence;

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives of the state of Washington salute and celebrate Presidents' Day 2006, a time for recognizing and paying tribute to the tireless dedication of our former presidents and first ladies; and

BE IT FURTHER RESOLVED, That copies of this resolution be immediately transmitted by the Chief Clerk of the House of Representatives to the Office of the Superintendent of Public Instruction for effective distribution among the schools of the state of Washington to help our young people, any one of whom, male or female, could grow up to be President of the United States of America, strengthen their knowledge of our presidents and first ladies.

Representative Roberts moved the adoption of the resolution.

Representatives Roberts, Buri and Nixon spoke in favor of the adoption of the resolution.

The Statewide elected officials arrived and were escorted to the Rostrum. The President introduced Secretary of State Sam Reed; Superintendent of Public Instruction Terry Bergeson; Insurance Commissioner Mike Kreidler; and Commissioner of Public Lands Doug Sutherland.

Her Excellency Governor Christine Gregoire arrived and was escorted to the Rostrum.

The Medal of Valor honorees arrived and were escorted to the Rostrum. The President introduced Greg Meinhold, Jim Swett, Dennis Kinsey and Travis Jackson.

The Flags were escorted to the Rostrum by the Washington State Patrol Honor Guard, composed of Troopers Chad Hoff, Brian Dorsey, Peterson Stock, Jon Ladines and Melissa Braaten, and Sergeants Zach Elmore and Albert Escalera. The President led the Chamber in the Pledge of Allegiance. The National Anthem was sung by Jasmine Coates. The prayer was offered by Chaplain George Albertson, chaplain for the Washington State Patrol and the Thurston County Sheriff's Office.

President Owen: "The purpose of the joint session is to present Medal of Valor Awards, honoring four deserving citizens. It is now my pleasure to present Governor Christine Gregoire."

Governor Gregoire: "Thank you, Mr. President, Mr. Speaker, Secretary Reed, Chief Justice Alexander, members of the Washington State Legislature.

We gather this morning to award our state's Medal of Valor to four of our citizens who risked series injury or death to save or attempt to save the life of another. These four citizens – emblematic of "do unto others" – have set the bar for citizen heroism. They have blessed us with their courage and their example. They have renewed our faith that, in the heat of the moment, citizens will step up and act with astonishing courage regardless of the sacrifice.

A real hero understands that there are forces greater than self: Courage is grace under pressure, President Kennedy said, quoting Ernest Hemmingway. These citizens we honor today not only illustrate grace under pressure, they went above and beyond to demonstrate a willingness to pay the ultimate price to save a fellow citizen.

There is a common thread that binds each of our awardees: they were the faces in the crowd that did more than stare. They stepped up and helped when others would not. Thank God for them, and for those rare among us like them.

Our Washington State Medal of Valor was created in 1990, but today marks the first time it has been awarded. The medal reads, "For exceptionally valorous service, given in the act of saving the life of another."

Thank you for humbling us, thank you for making us proud to be Washingtonians."

Secretary of State Sam Reed: "The decoration of the state medal of valor is .999 pure silver and consists of the seal of the state of Washington, surrounded by a raised laurel wreath and suspended from a silver bar device inscribed "For Valor" which is suspended from a ring attached by a dark green ribbon, bordered by silver. The reverse of the decoration within the raised laurel wreath is inscribed with the recipient's name and the words: "For exceptionally valorous service, given in the act of saving the life of another."

The certificate accompanying the medal will prominently display the title, "Washington State Medal of Valor", the recipient's name, and the phrase, "For exceptionally valorous service, given in the act of saving the life of another." A seven-line citation will also be included on the certificate."

TRAVIS JACKSON

DENNIS KINSEY

President Owen: "Madame Governor, it is my pleasure to introduce Travis Jackson and Dennis Kinsey.

These two Clark County men were driving home from work the night of January 18, 2005, when they came upon a fiery car crash. Both of them stopped to assist. Both of them saved a life. Travis Jackson actually witnessed the horrible accident: a Jeep careened over a curb on State Highway 500 at 112th Avenue in Orchards, crashed into a guardrail, slammed into a concrete signpost and burst into flames.

After calling 9-1-1, Jackson emptied the entire contents of a fire extinguisher to diminish the flames. The driver's door jammed into the rear door, Jackson used his bare hands to pry apart the metal and open the door, out of which black smoke poured. With the assistance of Dennis Kinsey, Jackson grabbed the driver under his arms and hauled him out of the vehicle – just in time. Fire swallowed up the Jeep just as Kinsey and Jackson placed the driver on the road.

Kinsey, a former volunteer emergency management technician, used his expertise on the scene. He knew to carefully cradle the driver's neck and keep him perfectly still until emergency crews arrived. The driver suffered a broken nose, internal injuries and cuts to his face – but thanks to the bravery and swift response of Jackson and Kinsey, he survived.

A firefighter spokesperson on the scene said that once notified, it took crews less than five minutes to get to the scene, but that they could not have saved the driver if he had still been in the Jeep.

Madame Governor – Travis Jackson and Dennis Kinsey."

The Governor awarded Travis Jackson and Dennis Kinsey the Medal of Valor.

GREG MEINHOLD

Chief Justice Gerry Alexander: "On November 23, 2001, Greg Meinhold was on his way to pick up his dry cleaning, when he found himself distracted. As he drove along Everett's 19th Street, he noticed a canoe – whose only passenger was a dog – floating in the middle of Silver Lake. Suspicious, he got out of his car and walked to the fishing dock along the shore. That's when he saw a man thrashing in the water.

Finding nothing buoyant near the dock, Meinhold drove to a nearby restaurant, where he remembered seeing canoes. He found one – a display model – but no paddles or oars. So, the former Boy Scout who once had taught canoeing improvised: He grabbed an 18-by-24-inch cookie sheet from the restaurant's kitchen.

Meinhold used it to row out one-quarter of a mile to the man who'd been in the frigid water for 20 minutes. Employing a wrestling move he learned in high school, Meinhold was able to get not only the drowning man into the canoe, but his 60-pound Labrador, Sara, too – without capsizing. Medics arrived, and the man survived.

Concerned that the city wouldn't be prepared to deal with similar situations in the future, Meinhold developed a plan for quick water rescue response on Silver Lake – so that other citizens wouldn't have to risk their own lives to rescue someone.

Asked why he felt compelled to rescue the man while others merely watched: "It's a human life. You just pray to God somebody would do it for you or someone you cared about," Meinhold said.

The Governor awarded Greg Meinhold the Medal of Valor.

JIM SWETT

Representative Lovick: "On December 15, 2004, after delivering flowers and plants to a local nursery, trucker Jim Swett found himself in the middle of a scene described by one onlooker as "a house fire in the middle of the freeway." A southbound truck crossed a freeway median and slammed into two other vehicles as they traveled northbound on Interstate 5 near Smokey Point.

Without regard for his own safety, Swett saved three lives that day. A window and the taillights of one of the cars, a Suburban, had already melted from the intense heat created by nearby vehicles when Swett smashed one of its windows and helped a woman escape. Fearing that flames would ignite the Suburban, he attached a tow strap to his semitruck, pulled the melting vehicle to safety, pried open a door with a crowbar, and rescued two terrified children who sat in the back seat crying.

Even after emergency officials arrived on the scene, Swett, then 68 years old, wouldn't rest. He was so focused on helping the survivors of the accident that he didn't realize his arms had been burned by the heat until he returned home.

His selfless decision to risk his own life saved the lives of others. Swett attributes his heroism to his 15-year-old grandson, Brandon, who died in a rollover accident four years earlier. He said the two children in the back of the SUV reminded him of his grandson—all three had red hair."

The Governor awarded Jim Swett the Medal of Valor.

The Sergeant at Arms escorted the Medal of Valor recipients from the Chambers.

ESSB 5305 Prime Sponsor, Senate Committee On Health & Long-Term Care: Prohibiting vaccinating pregnant women and children with mercury-containing vaccines. Reported by Committee on Health Care

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature finds that vaccinations and immunizations are among the most important public health innovations of the last one hundred years. The centers for disease control and prevention placed vaccinations at the top of its list of the ten greatest public health achievements of the twentieth century. In its efforts to improve public health in the world's poorest countries, the Bill and Melinda Gates foundation has identified childhood immunization as a cost-effective method of improving public health and saving the lives of millions of children around the world.

Fortunately, in Washington, safe and cost-effective vaccinations against childhood diseases are widely available through both public and private resources. The vaccines that the Washington state department of health provides to meet the requirements for the recommended childhood vaccination schedule through its universal childhood vaccine program are screened for thimerosal and preference is given toward the purchase of thimerosal-free products. The department of health currently provides thimerosal-free products for all routinely recommended childhood vaccines. Regardless of the absence of thimerosal in childhood vaccines in Washington, scientifically reputable organizations such as the centers for disease

control and prevention, the national institute of medicine, the American academy of pediatrics, the food and drug administration, and the world health organization have all determined that there is no credible evidence that the use of thimerosal in vaccines poses a threat to the health and safety of children.

Notwithstanding these assurances of the safety of the vaccine supply, the legislature finds that where there is public concern over the safety of vaccines, vaccination rates may be reduced to the point that deadly, vaccine-preventable, childhood diseases return. This measure is being enacted to maintain public confidence in vaccine programs, so that the public will continue to seek vaccinations and their health benefits may continue to protect the people of Washington.

NEW SECTION. Sec. 2. A new section is added to chapter 70.95M RCW to read as follows:

(1) Beginning July 1, 2007, a person who is known to be pregnant or who is under three years of age shall not be vaccinated with a mercury-containing vaccine or injected with a mercury-containing product that contains more than 0.5 micrograms of mercury per 0.5 milliliter dose.

(2) Notwithstanding subsection (1) of this section, an influenza vaccine may contain up to 1.0 micrograms of mercury per 0.5 milliliter dose.

(3) The secretary of the department of health may, upon declaration of a public health emergency, suspend the requirements of this section for the duration of the emergency."

Signed by Representatives Cody, Chairman; Campbell, Vice Chairman; Hinkle, Ranking Minority Member; Curtis, Assistant Ranking Minority Member; Alexander; Appleton; Bailey; Clibborn; Condotta; Green; Moeller; Morrell; Schual-Berke and Skinner.

SSB 5318 Prime Sponsor, Senate Committee On Health & Long-Term Care: Improving patient safety practices. Reported by Committee on Health Care

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that:

(a) Thousands of patients are injured each year in the United States as a result of medical errors, and that a comprehensive approach is needed to effectively reduce the incidence of medical errors in our health care system. Implementation of proven patient safety strategies can reduce medical errors, and thereby potentially reduce the need for disciplinary actions against licensed health care professionals and facilities, and the frequency and severity of medical malpractice claims; and

(b) Health care providers, health care facilities, and health carriers can and should be supported in their efforts to improve patient safety and reduce medical errors by encouraging health care facilities and providers to communicate openly with patients regarding medical errors that have occurred and steps that can be taken to prevent errors from occurring in the future, encouraging health care facilities and providers to work cooperatively in their patient safety efforts, and increasing funding available to implement proven patient safety strategies.

(2) Through the adoption of this act, the legislature intends to positively influence the safety and quality of care provided in Washington state's health care system.

Sec. 2. RCW 43.70.110 and 2005 c 268 s 2 are each amended to read as follows:

(1) The secretary shall charge fees to the licensee for obtaining a license. After June 30, 1995, municipal corporations providing emergency medical care and transportation services pursuant to chapter 18.73 RCW shall be exempt from such fees, provided that such other emergency services shall only be charged for their pro rata share of the cost of licensure and inspection, if appropriate. The secretary may waive the fees when, in the discretion of the secretary, the fees would not be in the best interest of public health and safety, or when the fees would be to the financial disadvantage of the state.

(2) Except as provided in RCW 18.79.202(c) until June 30, 2013, and except as provided in section 4 of this act, fees charged shall be based on, but shall not exceed, the cost to the department for the licensure of the activity or class of activities and may include costs of necessary inspection.

(3) Department of health advisory committees may review fees established by the secretary for licenses and comment upon the appropriateness of the level of such fees.

Sec. 3. RCW 43.70.250 and 2005 c 268 s 3 are each amended to read as follows:

It shall be the policy of the state of Washington that the cost of each professional, occupational, or business licensing program be fully borne by the members of that profession, occupation, or business. The secretary shall from time to time establish the amount of all application fees, license fees, registration fees, examination fees, permit fees, renewal fees, and any other fee associated with licensing or regulation of professions, occupations, or businesses administered by the department. In fixing said fees, the secretary shall set the fees for each program at a sufficient level to defray the costs of administering that program and the patient safety fee established in section 4 of this act, except as provided in RCW 18.79.202 until June 30, 2013. All such fees shall be fixed by rule adopted by the secretary in accordance with the provisions of the administrative procedure act, chapter 34.05 RCW.

NEW SECTION. Sec. 4. A new section is added to chapter 43.70 RCW to read as follows:

(1) The secretary shall increase the licensing fee established under RCW 43.70.110 by two dollars for the health care professionals designated in subsection (2) of this section and by two dollars per licensed bed for the health care facilities designated in subsection (2) of this section. Proceeds of the patient safety fee must be deposited into the patient safety account in section 8 of this act and dedicated to patient safety and medical error reduction efforts that have been proven to improve, or have a substantial likelihood of improving the quality of care provided by health care professionals and facilities.

(2) The health care professionals and facilities subject to the patient safety fee are:

(a) The following health care professionals licensed under Title 18 RCW:

(i) Registered nurses and licensed practical nurses licensed under chapter 18.79 RCW;

(ii) Chiropractors licensed under chapter 18.25 RCW;

(iii) Dentists licensed under chapter 18.32 RCW;

(iv) Midwives licensed under chapter 18.50 RCW;

(v) Naturopaths licensed under chapter 18.36A RCW;

(vi) Optometrists licensed under chapter 18.53 RCW;

(vii) Osteopathic physicians licensed under chapter 18.57 RCW;

(viii) Osteopathic physicians' assistants licensed under chapter 18.57A RCW;

(ix) Pharmacists and pharmacies licensed under chapter 18.64 RCW;

(x) Physicians licensed under chapter 18.71 RCW;

(xi) Physician assistants licensed under chapter 18.71A RCW;

(xiii) Psychologists licensed under chapter 18.83 RCW; and

(b) Hospitals licensed under chapter 70.41 RCW and psychiatric hospitals licensed under chapter 71.12 RCW.

NEW SECTION. Sec. 5. A new section is added to chapter 7.70 RCW to read as follows:

(1) One percent of all attorneys' fees received for representation of claimants or defendants in actions brought under this chapter that result in payment to a claimant shall be paid as a patient safety set aside. Proceeds of the patient safety set aside will be distributed by the department of health in the form of grants, loans, or other appropriate arrangements to support strategies that have been proven to reduce medical errors and enhance patient safety, or have a substantial likelihood of reducing medical errors and enhancing patient safety, as provided in section 4 of this act.

(2) A patient safety set aside shall be transmitted to the secretary of the department of health by the attorney who receives fees under subsection (1) of this section for deposit into the patient safety account established in section 8 of this act.

(3) The Washington state supreme court shall by rule adopt procedures to implement this section.

NEW SECTION. Sec. 6. A new section is added to chapter 43.70 RCW to read as follows:

(1)(a) Patient safety fee and set aside proceeds shall be administered by the department, after seeking input from health care providers engaged in direct patient care activities, health care facilities, health care provider organizations, and other interested parties. In developing criteria for the award of grants, loans, or other appropriate arrangements under this section, the department shall rely primarily upon evidence-based practices to improve patient safety that have been identified and recommended by governmental and private organizations, including, but not limited to:

(i) The federal agency for health care quality and research;

(ii) The institute of medicine of the national academy of sciences;

(iii) The joint commission on accreditation of health care organizations; and

(iv) The national quality forum.

(b) The department shall award grants, loans, or other appropriate arrangements for at least two strategies that are designed to meet the goals and recommendations of the federal institute of medicine's report, "Keeping Patients Safe: Transforming the Work Environment of Nurses."

(2) Projects that have been proven to reduce medical errors and enhance patient safety shall receive priority for funding over those that are not proven, but have a substantial likelihood of reducing medical errors and enhancing patient safety. All project proposals must include specific performance and outcome measures by which to evaluate the effectiveness of the project. Project proposals that do not propose to use a proven patient safety strategy must include, in addition to performance and outcome measures, a detailed description of the anticipated outcomes of the project based upon any available related research and the steps for achieving those outcomes.

(3) The department may use a portion of the patient safety fee proceeds for the costs of administering the program.

NEW SECTION. Sec. 7. A new section is added to chapter 43.70 RCW to read as follows:

The secretary may solicit and accept grants or other funds from public and private sources to support patient safety and medical error reduction efforts under this act. Any grants or funds received may be used to enhance these activities as long as program standards established by the secretary are followed.

NEW SECTION. Sec. 8. A new section is added to chapter 43.70 RCW to read as follows:

The patient safety account is created in the state treasury. All receipts from the fees and set asides created in sections 4 and 5 of this act must be deposited into the account. Expenditures from the account may be used only for the purposes of this act. Moneys in the account may be spent only after appropriation.

NEW SECTION. Sec. 9. A new section is added to chapter 43.70 RCW to read as follows:

By December 1, 2009, the department shall report the following information to the governor and the health policy and fiscal committees of the legislature:

(1) The amount of patient safety fees and set asides deposited to date in the patient safety account;

(2) The criteria for distribution of grants, loans, or other appropriate arrangements under this act; and

(3) A description of the medical error reduction and patient safety grants and loans distributed to date, including the stated performance measures, activities, timelines, and detailed information regarding outcomes for each project.

NEW SECTION. Sec. 10. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 11. Section 4 of this act takes effect January 1, 2007."

(f)(i) All persons receiving their initial license under this chapter on or after January 1, 2007, must be certified under (a), (b), (c), and (d) of this subsection.

(ii) All persons licensed under this chapter on or after January 1, 2009, must be certified under (a) and (b) of this subsection.

(iii) All persons licensed under this chapter on or after January 1, 2011, must be certified under (a), (b), (c), and (d) of this subsection.

(3) The board shall establish a list of topical drugs for diagnostic and treatment purposes limited to the practice of optometry, and no person licensed pursuant to this chapter shall prescribe, dispense, purchase, possess, or administer drugs except as authorized and to the extent permitted by the board.

(4) The board must establish a list of oral Schedule III through V controlled substances and any oral legend drugs, with the approval of and after consultation with the board of pharmacy. No person licensed under this chapter may use, prescribe, dispense, purchase, possess, or administer these drugs except as authorized and to the extent permitted by the board. No optometrist may use, prescribe, dispense, or administer oral corticosteroids.

(a) The board, with the approval of and in consultation with the board of pharmacy, must establish, by rule, specific guidelines for the prescription and administration of drugs by optometrists, so that licensed optometrists and persons filling their prescriptions have a clear understanding of which drugs and which dosages or forms are included in the authority granted by this section.

(b) An optometrist may not:

(i) Prescribe, dispense, or administer a controlled substance for more than seven days in treating a particular patient for a single trauma, episode, or condition or for pain associated with or related to the trauma, episode, or condition; or

(ii) Prescribe an oral drug within ninety days following ophthalmic surgery unless the optometrist consults with the treating ophthalmologist.

(d) The prescription or administration of drugs as authorized in this section is specifically limited to those drugs appropriate to treatment of diseases or conditions of the human eye and the adnexa that are within the scope of practice of optometry. The prescription or administration of drugs for any other purpose is not authorized by this section.

(5) The board shall develop a means of identification and verification of optometrists certified to use therapeutic drugs for the purpose of issuing prescriptions as authorized by this section.

(6) Nothing in this chapter may be construed to authorize the use, prescription, dispensing, purchase, possession, or administration of any Schedule I or II controlled substance. The provisions of this subsection must be strictly construed.

(7) With the exception of the administration of epinephrine by injection for the treatment of anaphylactic shock, no injections or infusions may be administered by an optometrist.

(8) Nothing in this chapter may be construed to authorize optometrists to perform ophthalmic surgery. Ophthalmic surgery is defined as any invasive procedure in which human tissue is cut, ablated, or otherwise penetrated by incision, injection, laser, ultrasound, or other means, in order to: Treat human eye diseases; alter or correct refractive error; or alter or enhance cosmetic appearance. Nothing in this chapter limits an optometrist's ability to use diagnostic instruments utilizing laser or ultrasound technology. Ophthalmic surgery, as defined in this subsection, does not include removal of superficial ocular foreign bodies, epilation of misaligned eyelashes, placement of punctal or lacrimal plugs, diagnostic dilation and irrigation of the lacrimal system, orthokeratology, prescription and fitting of contact lenses with the purpose of altering refractive error, or other similar procedures within the scope of practice of optometry.

NEW SECTION. Sec. 2. A new section is added to chapter 18.53 RCW to read as follows:

The optometry board may adopt rules under this section authorizing an inactive license status.

(1) An individual licensed under this chapter may place his or her license on inactive status. The holder of an inactive license must not practice optometry in this state without first activating the license.

(2) The inactive renewal fee must be established by the secretary under RCW 43.70.250. Failure to renew an inactive license shall result in cancellation of the inactive license in the same manner as an active license.

(3) An inactive license may be placed in an active status upon compliance with rules established by the optometry board.

(4) Provisions relating to disciplinary action against a person with a license are applicable to a person with an inactive license, except that when disciplinary proceedings against a person with an inactive license have been initiated, the license will remain inactive until the proceedings have been completed."

2ESB 5714 Prime Sponsor, Senator Keiser: Establishing an early detection breast and cervical cancer screening program. Reported by Committee on Health Care

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 43.70 RCW to read as follows:

(1) The legislature finds that Washington state has the highest incidence of breast cancer in the nation. Despite this, mortality rates from breast cancer have declined due largely to early screening and detection. Invasive cervical cancer is the most preventable type of cancer. The Pap test, used to detect early signs of this disease, has been called "medicine's most successful screening test." Applied consistently, invasive cervical cancer could nearly be eliminated. The legislature further finds that increasing access to breast and cervical cancer screening is critical to reducing incidence and mortality rates, and eliminating the disparities of this disease in women in Washington state. Furthermore, the legislature finds there is a need for a permanent program providing early detection and screening to the women and families of Washington state.

It is the intent of the legislature to establish an early detection breast and cervical cancer screening program as a voluntary screening program directed at reducing mortalities through early detection to be offered to eligible women only as funds are available.

(2) As used in this section:

(a) "Eligible woman" means a woman who is age forty to sixty-four, and whose income is at or below two hundred fifty percent of the federal poverty level, as published annually by the federal department of health and human services. Priority enrollment shall be given to women as defined by the federal national breast and cervical cancer early detection program, under P.L. 101-354.

(b) "Approved providers" means those state-supported health providers, radiology facilities, and cytological laboratories that are recognized by the department as meeting the minimum program policies and procedures adopted by the department to qualify under the federal national breast and cervical cancer early detection program, and are designated as eligible for funding by the department.

(c) "Comprehensive" means a screening program that focuses on breast and cervical cancer screening as a preventive health measure, and includes diagnostic and case management services.

(3) The department of health is authorized to administer a state-supported early detection breast and cervical cancer screening program to assist eligible women with preventive health services. To the extent of available funding, eligible women may be enrolled in the early detection breast and cervical cancer screening program and additional eligible women may be enrolled to the extent that grants and contributions from community sources provide sufficient funds for expanding the program.

(4) Funds appropriated for the state program shall be used only to operate early detection breast and cervical cancer screening programs that have been approved by the department, or to increase access to existing state-approved programs, and shall not supplant federally supported breast and cervical cancer early detection programs.

(5) Enrollment in the early detection breast and cervical cancer screening program shall not result in expenditures that exceed the amount that has been appropriated for the program in the operating budget. If it appears that continued enrollment will result in expenditures exceeding the appropriated level for a particular fiscal year, the department may freeze new enrollment in the program. Nothing in this section prevents the department from continuing enrollment in the program if there are adequate private or public funds in addition to those appropriated in the biennial budget to support the cost of such enrollment.

(6) The department shall establish a medical advisory committee composed of interested medical professionals and consumer liaisons with expertise in a variety of areas relevant to breast and cervical

health to provide expert medical advice and guidance. The medical advisory committee shall address national, state, and local concerns regarding best practices in the field of early prevention and detection for breast and cervical cancer and assist the early detection breast and cervical cancer screening program in implementing program policy that follows the best practices of high quality health care for clinical, diagnostic, pathologic, radiological, and oncology services."

"Sec. 1. RCW 42.17.030 and 1987 c 295 s 18 are each amended to read as follows:

The provisions of this chapter relating to the financing of election campaigns shall apply in all election campaigns other than (1) for precinct committee officer; (2) for a federal elective office; and (3) for an office of a political subdivision of the state that does not encompass a whole county and that contains fewer than five thousand registered voters as of the date of the most recent general election in the subdivision, unless required by RCW 42.17.405 (2) through (5) and (7).

Sec. 2. RCW 42.17.405 and 1986 c 12 s 3 are each amended to read as follows:

(1) Except as provided in subsections (2) (~~and~~), (3), and (7) of this section, the reporting provisions of this chapter do not apply to candidates, elected officials, and agencies in political subdivisions with less than one thousand registered voters as of the date of the most recent general election in the jurisdiction, to political committees formed to support or oppose candidates or ballot propositions in such political subdivisions, or to persons making independent expenditures in support of or opposition to such ballot propositions.

(2) The reporting provisions of this chapter apply in any exempt political subdivision from which a "petition for disclosure" containing the valid signatures of fifteen percent of the number of registered voters, as of the date of the most recent general election in the political subdivision, is filed with the commission. The commission shall by rule prescribe the form of the petition. After the signatures are gathered, the petition shall be presented to the auditor or elections officer of the county, or counties, in which the political subdivision is located. The auditor or elections officer shall verify the signatures and certify to the commission that the petition contains no less than the required number of valid signatures. The commission, upon receipt of a valid petition, shall order every known affected person in the political subdivision to file the initially required statement and reports within fourteen days of the date of the order.

(3) The reporting provisions of this chapter apply in any exempt political subdivision that by ordinance, resolution, or other official action has petitioned the commission to make the provisions applicable to elected officials and candidates of the exempt political subdivision. A copy of the action shall be sent to the commission. If the commission finds the petition to be a valid action of the appropriate governing body or authority, the commission shall order every known affected person in the political subdivision to file the initially required statement and reports within fourteen days of the date of the order.

(4) The commission shall void any order issued by it pursuant to subsection (2) or (3) of this section when, at least four years after issuing the order, the commission is presented a petition or official action so requesting from the affected political subdivision. Such petition or official action shall meet the respective requirements of subsection (2) or (3) of this section.

(5) Any petition for disclosure, ordinance, resolution, or official action of an agency petitioning the commission to void the exemption in RCW 42.17.030(3) shall not be considered unless it has been filed with the commission:

(a) In the case of a ballot measure, at least sixty days before the date of any election in which campaign finance reporting is to be required;

(b) In the case of a candidate, at least sixty days before the first day on which a person may file a declaration of candidacy for any election in which campaign finance reporting is to be required.

(6) Any person exempted from reporting under this chapter may at his or her option file the statement and reports.

SUBSTITUTE HOUSE BILL NO. 2871 was read the second time.

Representative Murray moved the adoption of amendment (860):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that effective transportation planning in urbanized regions requires stronger and clearer lines of responsibility and accountability.

The legislature further finds that integrated, multimodal transportation planning will help reduce transportation congestion and improve safety, and that streamlined decision making will help reduce political congestion.

The legislature further finds that coordinated planning of, investment in, and operation of transportation systems will have significant benefit to the citizens of Washington, and that it is the will of the people to fund regional transportation solutions, including improving transit service in urbanized areas and among existing, fragmented transit agencies in the region. Although equity considerations must be respected, transportation problems are broader and deeper than the sum of geographic subareas.

It is therefore the policy of the state of Washington to create a regional transportation commission to develop a proposal for a regional transportation governing entity more directly accountable to the public, and to develop a comprehensive regional transportation finance plan for the citizens of the Puget Sound metropolitan region.

NEW SECTION. Sec. 2. (1) The regional transportation commission is established.

(2) The commission shall consist of nine commissioners. Three of the nine commissioners shall comprise the county executives of each of those contiguous counties of the Puget Sound metropolitan region comprising a county with a population over one million five hundred thousand persons and the immediately adjacent counties each with a population over five hundred thousand persons. The remaining six commissioners shall be appointed by the governor by June 1, 2006. Appointments of commissioners shall reflect geographical balance and diversity of populations within the Puget Sound region and, to the extent possible, include commissioners with special expertise in relevant fields such as funding, planning, and construction of transportation improvement projects and operation of transportation systems. Vacancies for any appointed commission seat shall be filled in the same manner as the original appointments were made.

(3) Each person appointed by the governor shall hold office until the commission dissolves under section 6 of this act or until a successor is appointed and qualified as set forth in subsection (4) of this section, whichever is earlier.

(4) The term of office for a commissioner begins seven days following appointment by the governor. A commissioner must be a qualified elector under the state Constitution when his or her term of office begins.

(5) The commission chair presides over the commission and sets the commission agenda subject to general rules established by the commission. Except as provided otherwise in this chapter, the commission chair appoints all members of the committees, councils, and boards created by the rules of the commission. The commission chair shall be designated by the governor from among the six commissioners appointed under subsection (2) of this section.

(6) Each member of the commission is eligible to receive compensation in an amount not to exceed two hundred fifty dollars for each day during which the member attends an official meeting of the group or performs statutorily prescribed duties approved by the chair. A person shall not receive compensation for a day of service under this section if the person (a) occupies a position normally

regarded as full time in nature, in any agency of the federal government, Washington state government, or Washington state local government, and (b) receives any compensation from such government for working that day. A commissioner may be compensated under this subsection only if the compensation is necessarily incurred in the course of authorized business, consistent with the responsibilities of the commission established by this chapter.

(7) The commission may be entitled to state funding, as appropriated by the legislature, to pay for expenses incurred by the commission and the department of transportation and through contracts in carrying out the duties authorized in this chapter.

NEW SECTION. Sec. 3. The commission has the following duties:

(1) Evaluate transportation governance in the central Puget Sound area within the jurisdiction of the Puget Sound regional council. This evaluation must include an assessment of the current roles of regional transportation agencies, including regional transportation and metropolitan planning organizations, the regional transit authority, regional transportation investment districts, county and municipal agencies operating transit services, and cities, counties, and other public agencies providing transportation services or facilities. The commission shall assess and develop recommendations for what steps should be taken to:

(a) Consolidate governance among agencies, including changes in institutional powers, structures, and relationships and governance needed to improve accountability for transportation decisions, while enhancing the regional focus for transportation decisions and maintaining equity among citizens in the region;

(b) Improve coordination in the planning of transportation investments and services;

(c) Improve investment strategies;

(d) Coordinate transportation planning and investments with adopted land use policies within the region;

(e) Enhance efficiency and coordination in the delivery of services provided;

(f) Adjust boundaries for agencies or functions within the region to address existing and future transportation and land use issues; and

(g) Improve coordination between regional investments and federal funds, and state funding, including those administered by the transportation improvement board, the county road administration board, and the freight mobility strategic investment board;

(2) Develop a regional transportation governance proposal that includes, at a minimum, the formation of a regional transportation governing entity, of which all or a majority of its members must be directly elected, the revenue sources that will be available to such entity, and the scope of planning authority of such entity;

(3) Publicize the commission's proposal referenced in subsection (2) of this section by November 15, 2006, and provide at least fifteen days for public comment;

(4) Adopt the proposal referenced in subsection (2) of this section and submit it to the legislature by January 1, 2007;

(5) Develop a comprehensive, integrated transportation finance plan for the metropolitan Puget Sound region to be submitted to the affected voters by the regional transportation governing entity;

(6) Conduct public meetings to assure active public participation in the development of the recommendations, proposal, and finance plan under this section.

NEW SECTION. Sec. 4. The department of transportation shall provide staff support to the commission and, upon request of the commission, contract with other parties for staff support to the commission.

NEW SECTION. Sec. 5. (1) The governing body of a city with a population of five hundred sixty thousand or more, in which a city transportation authority has been formed under chapter 35.95A RCW, may set and impose any tax authorized under chapter 35.95A RCW, but only (a) for funding nonmonorail transit within the city; (b) after the debt and obligations, including judgments, of the city transportation authority have been satisfied; and (c) if the grant of such taxing authority is contained in the integrated regional

transportation finance plan developed by the regional transportation commission and approved by the voters as part of an integrated regional transportation ballot measure.

(2) The transit projects and services funded under subsection (1) of this section must be consistent with the metropolitan transportation plan adopted under RCW 35.58.240 and any integrated transportation finance plan developed by the commission under section 3 of this act.

(3) For purposes of subsection (1)(b) of this section, the debt and obligations of the city transportation authority are satisfied upon receipt, by the governing body of the city, of a letter from the governing body of the authority certifying that: (a) The debt is retired; and (b) a contingency account has been funded in an amount determined by the governing body of the authority to be sufficient to resolve any existing and reasonably foreseeable legal claims against the authority.

NEW SECTION. Sec. 6. Upon such time as the regional transportation governing entity established by the legislature pursuant to the commission's recommendations becomes fully operational: (1) All of the powers, functions, and duties of the commission shall be transferred to the regional transportation governing entity; (2) the commission shall take such additional actions as needed to wind up its affairs; and (3) the commission shall dissolve.

Sec. 7. RCW 35.58.250 and 1965 c 7 s 35.58.250 are each amended to read as follows:

Except for a regional transit authority constructing or operating a high capacity transportation service by contract under RCW 35.58.260(2) or in accordance with an agreement made as provided herein, upon the effective date on which the metropolitan municipal corporation commences to perform the metropolitan transportation function, no person or private corporation shall operate a local public passenger transportation service within the metropolitan area with the exception of taxis, busses owned or operated by a school district or private school, and busses owned or operated by any corporation or organization solely for the purposes of the corporation or organization and for the use of which no fee or fare is charged.

An agreement may be entered into between the metropolitan municipal corporation and any person or corporation legally operating a local public passenger transportation service wholly within or partly within and partly without the metropolitan area and on said effective date under which such person or corporation may continue to operate such service or any part thereof for such time and upon such terms and conditions as provided in such agreement. Where any such local public passenger transportation service will be required to cease to operate within the metropolitan area, the commission may agree with the owner of such service to purchase the assets used in providing such service, or if no agreement can be reached, the commission shall condemn such assets in the manner provided herein for the condemnation of other properties.

Wherever a privately owned public carrier operates wholly or partly within a metropolitan municipal corporation, the Washington utilities and transportation commission shall continue to exercise jurisdiction over such operation as provided by law.

Sec. 8. RCW 35.58.260 and 1965 c 7 s 35.58.260 are each amended to read as follows:

(1) Subject to subsection (2) of this section, if a metropolitan municipal corporation shall be authorized to perform the metropolitan transportation function, it shall, upon the effective date of the assumption of such power, have and exercise all rights with respect to the construction, acquisition, maintenance, operation, extension, alteration, repair, control, and management of passenger transportation which any component city shall have been previously empowered to exercise and such powers shall not thereafter be exercised by such component cities without the consent of the metropolitan municipal corporation: PROVIDED, That any city owning and operating a public transportation system on such effective date may continue to operate such system within such city until such system shall have been acquired by the metropolitan municipal corporation and a metropolitan municipal corporation may not acquire such system without the consent of the city council of such city.

(2) The governing body of a city with a population of five hundred sixty thousand or more that sets and imposes any tax under section 5 of this act may plan and direct the expenditure of revenues from such tax through contracting with a metropolitan municipal corporation or a regional transit authority for the construction, acquisition, maintenance, operation, extension, alteration, repair, control, and management of those transit projects and services for which tax revenues may be spent under section 5 of this act. If the city exercises such authority under this subsection, neither the metropolitan municipal corporation nor the regional transit authority shall, as a result, reduce the hours of transit service it provides within the corporate limits of the city.

Sec. 9. RCW 36.120.020 and 2002 c 56 s 102 are each amended to read as follows:

Sec. 10. RCW 36.120.030 and 2002 c 56 s 103 are each amended to read as follows:

Regional transportation investment district planning committees are advisory entities that are created, convened, and empowered as follows:

(1) A county with a population over one million five hundred thousand persons and any adjoining counties with a population over five hundred thousand persons may create a regional transportation investment district and shall convene a regional transportation investment district planning committee.

(a) The boundaries of the district should include at least the contiguous areas within the regional transit authority serving the counties. A city must be entirely within or entirely outside district boundaries. The boundaries must be proposed by the district and approved by the county legislative authorities by ordinance before or in conjunction with approval of a regional transportation investment plan. Boundaries must follow contiguous parcels of land. However, any portion of a county that is located on a peninsula may be exempt from a regional transportation investment district in which more than one county is included if (i) the portion of the county located on the peninsula is connected to the other portion of the county by a bridge improved under chapter 47.46 RCW, and (ii) the county has a national park and a population of more than five hundred thousand persons, but less than one million five hundred thousand persons.

(b) After voters within the district boundaries have approved a plan under RCW 36.120.070, elections to add areas to the district boundaries may be called by a resolution of the board, after consultation with the regional transportation planning organization and affected transit agencies and with the concurrence of the legislative authority of the city or town if the area is incorporated or with the concurrence of the county legislative authority if the area is unincorporated. The election may include a single ballot measure providing annexation to the district, approval of the plan, and approval of revenue sources necessary to finance the plan. The electorate are the voters voting within the proposed area to be annexed. A simple majority of the persons voting on the single ballot measure is required for approval of the measure. This option for annexation applies to areas within the counties initially establishing a district and also to areas within a county having a population over two hundred thirty thousand persons and whose boundaries abut three counties eligible to form a district under this subsection.

(2) The members of the legislative authorities participating in planning under this chapter shall serve as the district planning committee. Members of the planning committee receive no compensation, but may be reimbursed for travel and incidental expenses as the planning committee deems appropriate.

The secretary of transportation, or the appropriate regional administrator of the department, as named by the secretary, shall serve on the committee as a nonvoting member.

(3) A regional transportation investment district planning committee may be entitled to state funding, as appropriated by the legislature, for start-up funding to pay for salaries, expenses, overhead, supplies, and similar expenses ordinarily and necessarily incurred in selecting transportation projects and funding for those transportation projects under this chapter. Upon creation of a regional transportation investment district, the district shall within one year reimburse the state for any sums advanced for these start-up costs from the state.

(4) The planning committee shall conduct its affairs and formulate a regional transportation investment plan as provided under RCW 36.120.040, except that it shall elect an executive board of seven members to discharge the duties of the planning committee and formulate a regional transportation investment plan, subject to the approval of the full committee.

(5) At its first meeting, a regional transportation investment district planning committee may elect officers and provide for the adoption of rules and other operating procedures.

(6) Governance of and decisions by a regional transportation investment district planning committee must be by a sixty-percent weighted majority vote of the total membership.

(7) The planning committee may dissolve itself at any time by a two-thirds weighted majority vote of the total membership of the planning committee.

Sec. 11. RCW 36.120.040 and 2003 c 194 s 1 are each amended to read as follows:

(1) A regional transportation investment district planning committee shall adopt a regional transportation investment plan providing for the development, construction, and financing of transportation projects. The planning committee may consider the following factors in formulating its plan:

(a) Land use planning criteria;

(b) The input of cities located within a participating county; and

(c) The input of regional transportation planning organizations ~~((of))~~ of which a participating county is ~~((located))~~ a member. A regional transportation planning organization in which a participating county is located shall review its adopted regional transportation plan and submit, for the planning committee's consideration, its list of transportation improvement priorities.

(2) The planning committee may coordinate its activities with the department, which shall provide services, data, and personnel to assist in this planning as desired by the planning committee. In addition, the planning committee may coordinate its activities with affected cities, towns, and other local governments, including any regional transit authority existing within the participating counties' boundaries, that engage in transportation planning.

(3) The planning committee shall:

(a) Conduct public meetings that are needed to assure active public participation in the development of the plan;

(b) Adopt a plan proposing the:

(i) Creation of a regional transportation investment district, including district boundaries; and

(ii) Construction of transportation projects to improve mobility within each county and within the region. Operations, maintenance, and preservation of facilities or systems may ~~((not))~~ be part of the plan;

(c) Recommend sources of revenue authorized by RCW 36.120.050 and a financing plan to fund selected transportation projects. The overall plan of the district must leverage the district's financial contributions so that the federal, state, local, and other revenue sources continue to fund major congestion relief and transportation capacity improvement projects in each county and the district. A combination of local, state, and federal revenues may be necessary to pay for transportation projects, and the planning

committee shall consider all of these revenue sources in developing a plan.

(4) The plan must use tax revenues and related debt for projects that generally benefit a participating county in proportion to the general level of tax revenues generated within that participating county. This equity principle applies to all modifications to the plan, appropriation of contingency funds not identified within the project estimate, and future phases of the plan. During implementation of the plan, the board shall retain the flexibility to manage distribution of revenues, debt, and project schedules so that the district may effectively implement the plan. Nothing in this section should be interpreted to prevent the district from pledging district-wide tax revenues for payment of any contract or debt entered into under RCW 36.120.130.

(5) Before adopting the plan, the planning committee, with assistance from the department, shall work with the lead agency to develop accurate cost forecasts for transportation projects. This project costing methodology must be integrated with revenue forecasts in developing the plan and must at a minimum include estimated project costs in constant dollars as well as year of expenditure dollars, the range of project costs reflected by the level of project design, project contingencies, identification of mitigation costs, the range of revenue forecasts, and project and plan cash flow and bond analysis. The plan submitted to the voters must provide cost estimates for each project, including reasonable contingency costs. Plans submitted to the voters must provide that the maximum amount possible of the funds raised will be used to fund projects in the plan, including environmental improvements and mitigation, and that administrative costs be minimized. If actual revenue exceeds actual plan costs, the excess revenues must be used to retire any outstanding debt associated with the plan.

(6) If a county opts not to adopt the plan or participate in the regional transportation investment district, but two or more contiguous counties do choose to continue to participate, then the planning committee may, within ninety days, redefine the regional transportation investment plan and the ballot measure to be submitted to the people to reflect elimination of the county, and submit the redefined plan to the legislative authorities of the remaining counties for their decision as to whether to continue to adopt the redefined plan and participate. This action must be completed within sixty days after receipt of the redefined plan.

(7) Once adopted by the planning committee, the plan must be forwarded to the participating county legislative authorities to initiate the election process under RCW 36.120.070. The planning committee shall at the same time provide notice to each city and town within the district, the governor, the chairs of the transportation committees of the legislature, the secretary of transportation, and each legislator whose legislative district is partially or wholly within the boundaries of the district.

(8) If the ballot measure is not approved, the planning committee may redefine the selected transportation projects, financing plan, and the ballot measure. The county legislative authorities may approve the new plan and ballot measure, and may then submit the revised proposition to the voters at the next election or a special election. If no ballot measure is approved by the voters by the third vote, the planning committee is dissolved.

Sec. 12. RCW 36.120.070 and 2002 c 56 s 107 are each amended to read as follows:

Beginning no sooner than the 2007 general election, and subject to the approval of the regional transportation commission established in section 2 of this act, or its successor entity, two or more contiguous county legislative authorities, upon receipt of the regional transportation investment plan under RCW 36.120.040, may (certify the plan to the ballot, including identification of the tax options) submit to the voters of the proposed district a single ballot measure that approves formation of the district, approves the regional transportation investment plan, and approves the revenue sources necessary to (fund) finance the plan. ((County legislative authorities)) For a county to participate in the plan, the county legislative authorities shall, within ninety days after receiving the plan, adopt an ordinance indicating the county's participation. The planning committee may draft ((a ballot title:)) the ballot measure on

behalf of the county legislative authorities, and the county legislative authorities may give notice as required by law for ballot measures, and perform other duties as required to ((put the plan before)) submit the measure to the voters of the proposed district for their approval or rejection ((as a single ballot measure that both approves formation of the district and approves the plan)). Counties may negotiate interlocal agreements necessary to implement the plan. The electorate will be the voters voting within the boundaries of the ((participating counties)) proposed district. A simple majority of the total persons voting on the single ballot measure ((to approve the plan, establish the district, and approve the taxes and fees)) is required for approval.

Sec. 13. RCW 29A.36.071 and 2004 c 271 s 169 are each amended to read as follows:

(1) Except as provided to the contrary in RCW 82.14.036, 82.46.021, or 82.80.090, the ballot title of any referendum filed on an enactment or portion of an enactment of a local government and any other question submitted to the voters of a local government consists of three elements: (a) An identification of the enacting legislative body and a statement of the subject matter; (b) a concise description of the measure; and (c) a question. The ballot title must conform with the requirements and be displayed substantially as provided under RCW 29A.72.050, except that the concise description must not exceed seventy-five words; however, a concise description submitted on behalf of a regional transportation investment district may exceed seventy-five words. If the local governmental unit is a city or a town, the concise statement shall be prepared by the city or town attorney. If the local governmental unit is a county, the concise statement shall be prepared by the prosecuting attorney of the county. If the unit is a unit of local government other than a city, town, or county, the concise statement shall be prepared by the prosecuting attorney of the county within which the majority area of the unit is located.

(2) A referendum measure on the enactment of a unit of local government shall be advertised in the manner provided for nominees for elective office.

(3) Subsection (1) of this section does not apply if another provision of law specifies the ballot title for a specific type of ballot question or proposition.

Sec. 14. RCW 36.120.080 and 2002 c 56 s 108 are each amended to read as follows:

If the voters approve the plan, including creation of a regional transportation investment district and imposition of taxes and fees, the district will be declared formed. The county election officials of participating counties shall, within fifteen days of the final certification of the election results, publish a notice in a newspaper or newspapers of general circulation in the district declaring the district formed, and mail copies of the notice to the governor, the secretary of transportation, the executive director of the regional transit authority in which any part of the district is located, and the executive director of the regional transportation planning organization in which any part of the district is located. A party challenging the procedure or the formation of a voter-approved district must file the challenge in writing by serving the prosecuting attorney of the participating counties and the attorney general within thirty days after the final certification of the election. Failure to challenge within that time forever bars further challenge of the district's valid formation.

Sec. 15. RCW 36.120.110 and 2002 c 56 s 111 are each amended to read as follows:

(1) The governing board of the district is responsible for the execution of the voter-approved plan. The board shall:

- (a) Impose taxes and fees authorized by district voters;
- (b) Enter into agreements with state, local, and regional agencies and departments as necessary to accomplish district purposes and protect the district's investment in transportation projects;
- (c) Accept gifts, grants, or other contributions of funds that will support the purposes and programs of the district;
- (d) Monitor and audit the progress and execution of transportation projects to protect the investment of the public and annually make public its findings;

(e) Pay for services and enter into leases and contracts, including professional service contracts;

(f) Hire no more than ten employees, including a director or executive officer, a treasurer or financial officer, a project manager or engineer, a project permit coordinator, and clerical staff; and

(g) Coordinate its activities with affected cities, towns, and other local governments, including any regional transit authority existing either partially or entirely within the district area, that engage in transportation planning; and

(h) Exercise other powers and duties as may be reasonable to carry out the purposes of the district.

(2) It is the intent of the legislature that existing staff resources of lead agencies be used in implementing this chapter. A district may coordinate its activities with the department, which shall provide services, data, and personnel to assist as desired by the regional transportation investment district. Lead agencies for transportation projects that are not state facilities shall also provide staff support for the board.

(3) A district may not acquire, hold, or dispose of real property.

(4) Except as provided in section 9(8)(e) of this act, a district may not own, operate, or maintain an ongoing facility, road, or transportation system.

(5) A district may accept and expend or use gifts, grants, or donations.

(6) It is the intent of the legislature that administrative and overhead costs of a regional transportation investment district be minimized. For transportation projects costing up to fifty million dollars, administrative and overhead costs may not exceed three percent of the total construction and design project costs per year. For transportation projects costing more than fifty million dollars, administrative and overhead costs may not exceed three percent of the first fifty million dollars in costs, plus an additional one-tenth of one percent of each additional dollar above fifty million. These limitations apply only to the district, and do not limit the administration or expenditures of the department.

(7) A district may use the design-build procedure for transportation projects developed by it. As used in this section "design-build procedure" means a method of contracting under which the district contracts with another party for that party to both design and build the structures, facilities, and other items specified in the contract. The requirements and limitations of RCW 47.20.780 and 47.20.785 do not apply to the transportation projects under this chapter.

Sec. 16. RCW 81.112.030 and 1994 c 44 s 1 are each amended to read as follows:

Two or more contiguous counties each having a population of four hundred thousand persons or more may establish a regional transit authority to develop and operate a high capacity transportation system as defined in chapter 81.104 RCW.

The authority shall be formed in the following manner:

(1) The joint regional policy committee created pursuant to RCW 81.104.040 shall adopt a system and financing plan, including the definition of the service area. This action shall be completed by September 1, 1992, contingent upon satisfactory completion of the planning process defined in RCW 81.104.100. The final system plan shall be adopted no later than June 30, 1993. In addition to the requirements of RCW 81.104.100, the plan for the proposed system shall provide explicitly for a minimum portion of new tax revenues to be allocated to local transit agencies for interim express services. Upon adoption the joint regional policy committee shall immediately transmit the plan to the county legislative authorities within the adopted service area.

(2) The legislative authorities of the counties within the service area shall decide by resolution whether to participate in the authority. This action shall be completed within forty-five days following receipt of the adopted plan or by August 13, 1993, whichever comes first.

(3) Each county that chooses to participate in the authority shall appoint its board members as set forth in RCW 81.112.040 and shall submit its list of members to the secretary of the Washington state department of transportation. These actions must be completed

within thirty days following each county's decision to participate in the authority.

(4) The secretary shall call the first meeting of the authority, to be held within thirty days following receipt of the appointments. At its first meeting, the authority shall elect officers and provide for the adoption of rules and other operating procedures.

(5) The authority is formally constituted at its first meeting and the board shall begin taking steps toward implementation of the system and financing plan adopted by the joint regional policy committee. If the joint regional policy committee fails to adopt a plan by June 30, 1993, the authority shall proceed to do so based on the work completed by that date by the joint regional policy committee. Upon formation of the authority, the joint regional policy committee shall cease to exist. The authority may make minor modifications to the plan as deemed necessary and shall at a minimum review local transit agencies' plans to ensure feeder service/high capacity transit service integration, ensure fare integration, and ensure avoidance of parallel competitive services. The authority shall also conduct a minimum thirty-day public comment period.

(6) If the authority determines that major modifications to the plan are necessary before the initial ballot proposition is submitted to the voters, the authority may make those modifications with a favorable vote of two-thirds of the entire membership. Any such modification shall be subject to the review process set forth in RCW 81.104.110. The modified plan shall be transmitted to the legislative authorities of the participating counties. The legislative authorities shall have forty-five days following receipt to act by motion or ordinance to confirm or rescind their continued participation in the authority.

(7) If any county opts to not participate in the authority, but two or more contiguous counties do choose to continue to participate, the authority's board shall be revised accordingly. The authority shall, within forty-five days, redefine the system and financing plan to reflect elimination of one or more counties, and submit the redefined plan to the legislative authorities of the remaining counties for their decision as to whether to continue to participate. This action shall be completed within forty-five days following receipt of the redefined plan.

(8) The authority shall place on the ballot within two years of the authority's formation, a single ballot proposition to authorize the imposition of taxes to support the implementation of an appropriate phase of the plan within its service area. In addition to the system plan requirements contained in RCW 81.104.100(2)(d), the system plan approved by the authority's board before the submittal of a proposition to the voters shall contain an equity element which:

(a) Identifies revenues anticipated to be generated by corridor and by county within the authority's boundaries;

(b) Identifies the phasing of construction and operation of high capacity system facilities, services, and benefits in each corridor. Phasing decisions should give priority to jurisdictions which have adopted transit-supportive land use plans; and

(c) Identifies the degree to which revenues generated within each county will benefit the residents of that county, and identifies when such benefits will accrue.

A simple majority of those voting within the boundaries of the authority is required for approval. If the vote is affirmative, the authority shall begin implementation of the projects identified in the proposition. However, the authority may not submit any authorizing proposition for voter-approved taxes prior to July 1, 1993; nor may the authority issue bonds or form any local improvement district prior to July 1, 1993.

(9) If the vote on a proposition fails, the board may redefine the proposition, make changes to the authority boundaries, and make corresponding changes to the composition of the board. If the composition of the board is changed, the participating counties shall revise the membership of the board accordingly. The board may then submit the revised proposition or a different proposition to the voters. No single proposition may be submitted to the voters more than twice.

(10) Beginning no sooner than the 2007 general election, and subject to the approval of the regional transportation commission established in section 2 of this act, or its successor entity, the authority may place

additional propositions on the ballot to impose taxes to support additional phases of plan implementation. In conjunction with RCW 36.120.070, the proposition may be submitted to the voters as a common ballot measure along with a proposed regional transportation investment plan.

(1) If the authority is unable to achieve a positive vote on a proposition within two years from the date of the first election on a proposition, the board may, by resolution, reconstitute the authority as a single-county body. With a two-thirds vote of the entire membership of the voting members, the board may also dissolve the authority.

Sec. 17. RCW 35.95A.080 and 2002 c 248 s 9 are each amended to read as follows:

(1) Every authority has the power to levy and collect a special excise tax not exceeding two and one-half percent on the value of every motor vehicle owned by a resident of the authority area for the privilege of using a motor vehicle. ~~((Before utilization of any excise tax money collected under this section for acquisition of right of way or construction of a public monorail transportation facility on a separate right of way, the authority must adopt rules affording the public an opportunity for corridor public hearings and design public hearings, which provide in detail the procedures necessary for public participation in the following instances: (a) Prior to adoption of location and design plans having a substantial social, economic, or environmental effect upon the locality upon which they are to be constructed; or (b) on the public transportation facilities operating on a separate right of way whenever a substantial change is proposed relating to location or design in the adopted plan. In adopting rules the authority must adhere to the provisions of the administrative procedure act.~~

~~(2) A "corridor public hearing" is a public hearing that: (a) Is held before the authority is committed to a specific route proposal for the public transportation facility, and before a route location is established; (b) is held to afford an opportunity for participation by those interested in the determination of the need for, and the location of, the public transportation facility; and (c) provides a public forum that affords a full opportunity for presenting views on the public transportation facility route location, and the social, economic, and environmental effects on that location and alternate locations. However, the hearing is not deemed to be necessary before adoption of a transportation plan as provided in section 7 of this act or a vote of the qualified electors under subsection (5) of this section.~~

~~(3) A "design public hearing" is a public hearing that: (a) Is held after the location is established but before the design is adopted; (b) is held to afford an opportunity for participation by those interested in the determination of major design features of the public monorail transportation facility; and (c) provides a public forum to afford a full opportunity for presenting views on the public transportation system design, and the social, economic, and environmental effects of that design and alternate designs, including people-mover technology.~~

~~(4) An authority imposing a tax under subsection (1) of this section may also impose a sales and use tax, in addition to any tax authorized by RCW 82.14.030, upon retail car rentals within the city that are taxable by the state under chapters 82.08 and 82.12 RCW. The rate of tax must not exceed 1.944 percent of the base of the tax. The base of the tax will be the selling price in the case of a sales tax or the rental value of the vehicle used in the case of a use tax. The revenue collected under this subsection will be distributed in the same manner as sales and use taxes under chapter 82.14 RCW.~~

~~(5) Before any authority may impose any of the taxes authorized under this section, the authorization for imposition of the taxes must be approved by the qualified electors of the authority area.) An authority shall not decrease the tax rate levied as of January 1, 2006, and shall not levy or collect the special excise tax under this section once the debt and obligations, including judgments, of the authority have been satisfied.~~

(2) After the debt and obligations, including judgments, of the city transportation authority have been satisfied as determined under section 5 of this act: (a) The governing body of the authority shall send to the governing body of the city with a population of five hundred sixty thousand or more in which the authority is wholly

located a letter certifying that the debt is retired and a contingency account has been funded in an amount determined by the governing body of the authority to be sufficient to resolve any existing and reasonably foreseeable legal claims against the authority; and (b) the governing body of a city with a population of five hundred sixty thousand or more may, upon approval by the voters as part of an integrated regional transportation ballot measure, levy and collect a special excise tax not exceeding two and one-half percent on the value of every motor vehicle owned by a resident of the authority area for the privilege of using a motor vehicle.

Sec. 18. RCW 35.95A.110 and 2002 c 248 s 12 are each amended to read as follows:

(1) All taxes and fees levied and collected by an authority must be used solely for the purpose of paying all or any part of ((the cost of acquiring, designing, constructing, equipping, maintaining, or operating public monorail transportation facilities or contracting for the services thereof, or to pay or secure the payment of all or part of)) the principal of or interest on any general obligation bonds or revenue bonds issued for authority purposes. ((Until expended, money accumulated in the funds and accounts of an authority may be invested in the manner authorized by the governing body of the authority, consistent with state law.))

If any of the revenue from any tax or fee authorized to be levied by an authority has been pledged by the authority to secure the payment of any bonds as herein authorized, then as long as that pledge is in effect the legislature will not withdraw from the authority the authorization to levy and collect the tax or fee.

(2) All taxes and fees levied and collected by a city under section 5 of this act must be used for funding nonmonorail transit within the city.

Sec. 19. RCW 36.120.050 and 2003 c 350 s 4 are each amended to read as follows:

(1) A regional transportation investment district planning committee may, as part of a regional transportation investment plan, recommend the imposition of some or all of the following revenue sources, which a regional transportation investment district may impose upon approval of the voters as provided in this chapter:

(a) A regional sales and use tax, as specified in RCW 82.14.430, of up to ~~((0.5))~~ 0.1 percent of the selling price, in the case of a sales tax, or value of the article used, in the case of a use tax, upon the occurrence of any taxable event in the regional transportation investment district;

(b) A local option vehicle license fee, as specified under RCW 82.80.100, of up to one hundred dollars per vehicle registered in the district. As used in this subsection, "vehicle" means motor vehicle as defined in RCW 46.04.320. Certain classes of vehicles, as defined under chapter 46.04 RCW, may be exempted from this fee;

(c) A parking tax under RCW 82.80.030;

(d) A local motor vehicle excise tax under RCW 81.100.060 and chapter 81.104 RCW;

(e) A local option fuel tax under RCW 82.80.120;

(f) An employer excise tax under RCW 81.100.030; and

(g) Vehicle tolls on new or reconstructed ~~((facilities.))~~ local or regional arterials or state or federal highways within the boundaries of the district, if the following conditions are met:

(i) Any such toll must be approved by the transportation commission or its successor;

(ii) The regional transportation investment plan must identify the facilities that may be tolled; and

(iii) Unless otherwise specified by law, the department shall administer the collection of vehicle tolls on designated facilities, and the state transportation commission, or its successor, shall be the tolling authority.

(2) Taxes, fees, and tolls may not be imposed without an affirmative vote of the majority of the voters within the boundaries of the district voting on a ballot proposition as set forth in RCW 36.120.070. Revenues from these taxes and fees may be used only to implement the plan as set forth in this chapter. A district may contract with the state department of revenue or other appropriate entities for administration and collection of any of the taxes or fees authorized in this section.

(3) Existing statewide motor vehicle fuel and special fuel taxes, at the distribution rates in effect on January 1, 2001, are not intended to be altered by this chapter.

Sec. 20. RCW 81.100.080 and 1990 c 43 s 19 are each amended to read as follows:

Funds collected under RCW 81.100.030 or 81.100.060 and any investment earnings accruing thereon shall be used by the county or the regional transportation investment district in a manner consistent with the regional transportation plan only for costs of collection, costs of preparing, adopting, and enforcing agreements under RCW 81.100.030(3), for construction of high occupancy vehicle lanes and related facilities, mitigation of environmental concerns that result from construction or use of high occupancy vehicle lanes and related facilities, by an investment district for projects contained in a plan developed under chapter 36.120 RCW, payment of principal and interest on bonds issued for the purposes of this section, for high occupancy vehicle programs as defined in RCW 81.100.020(5), and for commuter rail projects in accordance with RCW 81.104.120. Except for funds raised by an investment district, no funds collected under RCW 81.100.030 or 81.100.060 after June 30, 2000, may be pledged for the payment or security of the principal or interest on any bonds issued for the purposes of this section. Not more than ten percent of the funds may be used for transit agency high occupancy vehicle programs.

Priorities for construction of high occupancy vehicle lanes and related facilities shall be as follows:

(1)(a) To accelerate construction of high occupancy vehicle lanes on the interstate highway system, as well as related facilities;

(b) To finance or accelerate construction of high occupancy vehicle lanes on the noninterstate state highway system, as well as related facilities.

(2) To finance construction of high occupancy vehicle lanes on local arterials, as well as related facilities.

Moneys received by ~~((an agency))~~ a county under this chapter shall be used in addition to, and not as a substitute for, moneys currently used by the ~~((agency))~~ county for the purposes specified in this section.

Counties and investment districts may contract with cities or the state department of transportation for construction of high occupancy vehicle lanes and related facilities, and may issue general obligation bonds to fund such construction and use funds received under this chapter to pay the principal and interest on such bonds.

Sec. 21. RCW 81.100.060 and 2002 c 56 s 411 are each amended to read as follows:

A county with a population of one million or more and a county with a population of from two hundred ten thousand to less than one million that is adjoining a county with a population of one million or more, having within their boundaries existing or planned high-occupancy vehicle lanes on the state highway system, or a regional transportation investment district ~~((for capital improvements))~~, but only to the extent that the surcharge has not already been imposed by the county, may, with voter approval, impose a local surcharge of not more than three-tenths of one percent in the case of a county, or six-tenths of one percent in the case of a regional transportation investment district, of the value on vehicles registered to a person residing within the county or investment district and not more than 13.64 percent on the state sales and use taxes paid under the rate in RCW 82.08.020(2) on retail car rentals within the county or investment district. A county may impose the surcharge only to the extent that it has not been imposed by the district. No surcharge may be imposed on vehicles licensed under RCW 46.16.070 except vehicles with an unladen weight of six thousand pounds or less, RCW 46.16.079, 46.16.085, or 46.16.090.

Counties or investment districts imposing a tax under this section shall contract, before the effective date of the resolution or ordinance imposing a surcharge, administration and collection to the state department of licensing, and department of revenue, as appropriate, which shall deduct ~~((am))~~ a percentage amount, as provided by contract, not to exceed two percent of the taxes, for administration and collection expenses incurred by the department. All administrative provisions in chapters 82.03, 82.32, and 82.44

RCW shall, insofar as they are applicable to motor vehicle excise taxes, be applicable to surcharges imposed under this section. A local sales and use tax change shall take effect no sooner than seventy-five days after the department of revenue receives notice of the change and only on the first day of January, April, July, or October. Notice includes providing the department of revenue with the digital mapping and legal descriptions of areas in which the tax will be collected. All administrative provisions in chapters 82.03, 82.08, 82.12, and 82.32 RCW shall, insofar as they are applicable to state sales and use taxes, be applicable to surcharges imposed under this section.

If the tax authorized in RCW 81.100.030 is also imposed, the total proceeds from tax sources imposed under this section and RCW 81.100.030 each year shall not exceed the maximum amount which could be collected under this section.

Sec. 22. RCW 82.14.430 and 2002 c 56 s 405 are each amended to read as follows:

(1) If approved by the majority of the voters within its boundaries voting on the ballot proposition, a regional transportation investment district may impose a sales and use tax of up to ~~((0.5))~~ 0.1 percent of the selling price or value of the article used in the case of a use tax. The tax authorized by this section is in addition to the tax authorized by RCW 82.14.030 and must be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the taxing district. Motor vehicles are exempt from the sales and use tax imposed under this subsection.

(2) If approved by the majority of the voters within its boundaries voting on the ballot proposition, a regional transportation investment district may impose a tax on the use of a motor vehicle within a regional transportation investment district. The tax applies to those persons who reside within the regional transportation investment district. The rate of the tax may not exceed ~~((0.5))~~ 0.1 percent of the value of the motor vehicle. The tax authorized by this subsection is in addition to the tax authorized under RCW 82.14.030 and must be imposed and collected at the time a taxable event under RCW 82.08.020(1) or 82.12.020 takes place. All revenue received under this subsection must be deposited in the local sales and use tax account and distributed to the regional transportation investment district according to RCW 82.14.050. The following provisions apply to the use tax in this subsection:

(a) Where persons are taxable under chapter 82.08 RCW, the seller shall collect the use tax from the buyer using the collection provisions of RCW 82.08.050.

(b) Where persons are taxable under chapter 82.12 RCW, the use tax must be collected using the provisions of RCW 82.12.045.

SB 6541 Prime Sponsor, Senator Prentice: Regarding appeal bond requirements against signatories of the tobacco master settlement agreement. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION, **Sec. 1.** (1) The legislature finds that:

(a) Over the past five years, Washington has received more than seven hundred million dollars from the tobacco master settlement agreement;

(b) While the state has securitized a portion of the moneys it was promised under the master settlement agreement, the remainder of the master settlement agreement payments is used to fund important

health programs such as the state's basic health plan, children's health insurance, childhood vaccines, and public health;

(c) Litigation now pending in the state or filed in the future could result in damage awards against master settlement agreement signatories or their successors or affiliates that are so large that the defendants could obtain a stay of the execution of the judgment while they appeal only by declaring bankruptcy, rather than posting an appeal bond under state law;

(d) Should a master settlement agreement signatory declare bankruptcy, issues might be raised about whether that disrupts or jeopardizes the payments that fund important state programs;

(e) The legislature has the substantive obligation to raise revenue and to protect the financial well-being of the state and its citizens. Pursuant to that obligation, it is the legislature's responsibility to ensure the continued receipt of master settlement agreement funds to the maximum extent possible.

(2) Therefore, the legislature intends to place a maximum limit on the appeal bond a master settlement agreement signatory or a successor or affiliate of a master settlement agreement signatory can be required to post in litigation in order to stay execution of the judgment without being forced into bankruptcy while it exercises its right to appeal an adverse judgment.

NEW SECTION. Sec. 2. A new section is added to chapter 43.340 RCW to read as follows:

(1) Except as provided in subsection (2) of this section, in order to secure and protect the moneys to be received as a result of the master settlement agreement in civil litigation under any legal theory involving a signatory, a successor of a signatory, or any affiliate of a signatory to the master settlement agreement, the supersedeas bond to be furnished in order to stay the execution of the judgment during the entire course of appellate review shall be set in accordance with applicable laws or court rules, except that the total bond that is required of all appellants collectively shall not exceed one hundred million dollars, regardless of the value of the judgment.

(2) If an appellee proves by a preponderance of the evidence that an appellant is dissipating assets outside the ordinary course of business to avoid the payment of a judgment, a court may require the appellant to post a bond in an amount up to the amount of the judgment.

NEW SECTION. Sec. 3. This act applies to all actions pending on or filed on or after the effective date of this section."

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature finds that:

(1) The land, water, and other resources of Washington are being severely impacted by the invasion of an increasing number of harmful invasive plant and animal species.

(2) These impacts are resulting in damage to Washington's environment and causing economic hardships.

(3) The multitude of public and private organizations with an interest in controlling and preventing the spread of harmful invasive species in Washington need a mechanism for cooperation, communication, collaboration, and developing a statewide plan of action to meet these threats.

NEW SECTION. **Sec. 2.** (1) There is created the Washington invasive species council to exist until December 31, 2011. Staff support to the council shall be provided by the committee and from the agencies represented on the council. For administrative purposes, the council shall be located within the committee.

(2) The purpose of the council is to provide policy level direction, planning, and coordination for combating harmful invasive species throughout the state and preventing the introduction of others that may be potentially harmful.

(3) The council is a joint effort between local, tribal, state, and federal governments, as well as the private sector and nongovernmental interests. The purpose of the council is to foster cooperation, communication, and coordinated approaches that support local, state, and regional initiatives for the prevention and control of invasive species.

(4) For the purposes of this chapter, "invasive species" include nonnative organisms that cause economic or environmental harm and are capable of spreading to new areas of the state. "Invasive species" does not include domestic livestock, intentionally planted agronomic crops, or nonharmful exotic organisms.

NEW SECTION. **Sec. 3.** (1) Membership in the council includes a representative from the following entities:

(a) The department of agriculture, represented by the director or the director's designee;

(b) The department of fish and wildlife, represented by the director or the director's designee;

(c) The department of ecology, represented by the director or the director's designee;

(2) The councilmembers may add members to the council as the councilmembers deem appropriate to accomplish its goals.

(3) The council must invite one representative each from the United States department of agriculture, the United States fish and

wildlife service, the United States environmental protection agency, and the United States coast guard to participate on the council in a nonvoting, ex officio capacity.

(4) A representative of the office of the governor must convene the first meeting of the council and serve as chair until the council selects a chair. At the first meeting of the council, the council shall address issues including, but not limited to, voting methods, meeting schedules, and the need for and use of advisory and technical committees.

NEW SECTION. Sec. 4. The council's goals are to:

(1) Minimize the effects of harmful invasive species on Washington's citizens and ensure the economic and environmental well-being of the state;

(2) Serve as a forum for identifying and understanding invasive species issues from all perspectives;

(3) Serve as a forum to facilitate the communication, cooperation, and coordination of local, tribal, state, federal, private, and nongovernmental entities for the prevention, control, and management of nonnative invasive species;

(4) Serve as an avenue for public outreach and for raising public awareness of invasive species issues;

(5) Develop and implement a statewide invasive species strategic plan as described in this chapter;

(6) Review the current funding mechanisms and levels for state agencies to manage noxious weeds on the lands under their authority;

(7) Make recommendations for legislation necessary to carry out the purposes of this chapter;

(8) Establish criteria for the prioritization of invasive species response actions and projects; and

(9) Utilizing the process described in subsection (8) of this section, select at least one project per year from the strategic plan for coordinated action by the Washington invasive species councilmember entities.

NEW SECTION. Sec. 5. (1) The council shall develop and periodically update a statewide strategic plan for addressing invasive species. The strategic plan should incorporate the reports and activities of the aquatic nuisance species committee, the state noxious weed control board, and other appropriate reports and activities. In addition, the council must coordinate with the biodiversity council created in Executive Order 04-02 to ensure that a statewide strategy for the control of invasive species is integrated into the thirty-year strategy for biodiversity conservation that the biodiversity council must submit to the legislature in 2007.

(2) The strategic plan must, at a minimum, address:

(a) Statewide coordination and intergovernmental cooperation;

(b) Prevention of new biological invasions through deliberate or unintentional introduction;

(c) Inventory and monitoring of invasive species;

(d) Early detection of and rapid response to new invasions;

(e) Control, management, and eradication of established populations of invasive species;

(f) Projects that can be implemented during the period covered by the strategic plan for the control, management, and eradication of new or established populations of invasive species;

(g) Revegetation, reclamation, or restoration of native species following control or eradication of invasive species;

(h) Tools that can be made available to assist state agencies that are responsible for managing public land to control invasive noxious weeds and recommendations as to how the agencies should be held responsible for the failure to control invasive noxious weeds;

(i) Research and public education;

(j) Funding and resources available for invasive species prevention, control, and management; and

(k) Recommendations for legislation necessary to carry out the purposes of this chapter.

The council shall complete the initial strategic plan within two years of the effective date of this section.

(4) Each state department and agency named to the council shall, consistent with state law, make best efforts to implement elements of the completed plan that are applicable to the department or agency.

NEW SECTION. Sec. 6. (1) The council shall submit an annual report of its activities to the governor and the relevant policy committees of the senate and house of representatives by December 15th of each year. The annual report must include an evaluation of progress made in the preceding year to implement or carry out the strategic plan and an identification of projects from the strategic plan that will be a focus for the following year.

(2) Prior to the start of the 2011 legislative session, the council must prepare a report to the appropriate committees of the legislature that makes recommendations as to the extension or modification of the council.

NEW SECTION. Sec. 7. The council may establish advisory and technical committees that it considers necessary to aid and advise the council in the performance of its functions. The committees may be continuing or temporary committees. The council shall determine the representation, membership, terms, and organization of the committees and appoint their members.

NEW SECTION. Sec. 8. The invasive species council account is created in the custody of the state treasurer. All receipts from appropriations, gifts, grants, and donations must be deposited into the account. Expenditures from the account may be used only to carry out the purposes of the council. The account is subject to allotment procedures under chapter 43.88 RCW and the approval of the director of the committee is required for expenditures. The definition of insurance fraud is for illustrative purposes only under this chapter to describe the nature of the behavior to be reported and investigated, and is not intended in any manner to create or modify the definition of any existing criminal acts nor to create or modify the burdens of proof in any criminal prosecution brought as a result of an investigation under this chapter.

(2) "Insurer" means an insurance company authorized under chapter 48.05 RCW, a health care service contractor registered under chapter 48.44 RCW, and a health care maintenance organization registered under chapter 48.46 RCW.

NEW SECTION. Sec. 4. The annual cost of operating the fraud program is funded from the insurance commissioner's regulatory account under RCW 48.02.190 subject to appropriation by the legislature.

NEW SECTION. Sec. 5. (1) The commissioner may:

(a) Employ and train personnel to achieve the purposes of this chapter and to employ legal counsel, investigators, auditors, and clerical support personnel and other personnel as the commissioner

"NEW SECTION. Sec. 1. Each student needs active involvement from parents and at least one supportive adult in the school who knows the student well and cares about the student's progress and future. Students, parents, and teachers also need the benefit of immediate feedback and accurate diagnosis of students' academic strengths and weaknesses to inform the students' short-term and long-term plans. To empower and motivate all students and parents to take a greater role in charting the students' own educational experiences, the legislature intends to strengthen schools' guidance and planning programs.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.600 RCW to read as follows:

(2) A comprehensive guidance and planning program is a program that contains at least the following components:

(a) A curriculum intended to provide the skills and knowledge students need to select courses, explore options, plan for their future, and take steps to implement their plans. The curriculum may include such topics as analysis of students' test results; diagnostic assessments of students' academic strengths and weaknesses; use of assessment results in developing students' short-term and long-term plans; assessments of student interests and aptitude; goal-setting skills; planning for high school course selection; independent living skills; and postsecondary options and how to access them;

(b) Regular meetings between each student and a teacher who serves as an advisor throughout the student's enrollment at the school;

(d) Data collection that allows schools to monitor students' progress.

NEW SECTION. Sec. 3. (1) Subject to the availability of funds appropriated for this purpose, the superintendent of public instruction shall:

(d) Develop and conduct regional training seminars for teachers on the curriculum and on guidance and mentoring skills;

(e) Monitor and evaluate implementation of the program during the fall of 2006 in order to revise and improve the curriculum by the spring of 2007; and

(f) Allocate grants to selected schools for the purpose of implementing the program. The superintendent shall develop and publish the grant selection criteria, number of awards, and award amounts. The first round of at least twenty-five grant recipients shall be selected and notified by September 2006. The second round of at least seventy-five grant recipients shall be selected and notified by January 2007. (2) By January 1, 2009, the superintendent of public instruction shall report to the education committees of the legislature regarding the impact of comprehensive guidance and planning programs on student performance.

(1)(a) The appropriation is provided solely for low-interest loans to political subdivisions for renewable energy projects including the development of biofuel oilseed crushers, supporting infrastructure, and facilities. The political subdivision may negotiate an appropriate agreement with the bioenergy industry for the use of the oilseed crushers, supporting infrastructure, and facilities.

(b) For purposes of this section, political subdivision means any port district, county, city, town, special purpose district, and any other municipal corporations or quasi-municipal corporations in the state.

(3) All agreements negotiated between the political subdivision and the bioenergy industry for use of the oilseed crushers, supporting infrastructure, or facilities funded in this section must provide for at least a fifty percent match by the industry partner. The industry match may include, but is not limited to, investments in rail, buildings, refining capacity, or seed stock.

(4) All other project funds must be disbursed prior to energy freedom loans, except where required on a matching basis by other federal or state programs.

(5) The department shall disburse loans to the political subdivision on a reimbursement basis only.

(6) The department may defer loan repayment for up to twenty-four months or until the projects start to receive revenue from operations, whichever is sooner.

(7) Upon written notice to the political subdivision, the department may suspend or cancel its loans if any of the following occur:

(9) Future loan repayments shall be deposited into the energy freedom account created in section 3 of this act.

(10) Chapter 39.12 RCW applies to the renewable energy projects funded in whole or in part by the appropriation in this section.

(11) It is the intent of the legislature to provide loans for the development of a Washington state biodiesel industry based on Washington grown oilseed. The legislature also understands the realities of weather and market conditions in this process. The conversion to maximum Washington grown oilseed must be accomplished as quickly as possible. The political subdivision shall: (a) Develop a plan for outreach to local growers and an estimate of when maximum Washington state oilseed-based production will be reached; (b) develop a goal for the political subdivision to return a portion of the biofuel to local oilseed producers; and (c) report this information to the department of community, trade, and economic development by December 1, 2006. Sec. 200. 2005 c 488 s 905 (uncodified) is amended to read as follows:

(1) To ensure that minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management ((and the office of financial management has formally approved the lists. Proposed revisions)), the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with ((and approved by)) the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior list before funds may be expended on the revisions.

(2)(a) Minor works projects are single line appropriations that shall include multiple projects valued between \$25,000 and \$1,000,000 each that are of a similar nature and can ((generally)) be completed within two years of the appropriation with the funding provided. These projects cannot be combined with or be a part of an overall project, that if combined over a continuous period of time, would exceed \$1,000,000. Minor works categories include (i) health, safety, and code requirements; (ii) facility preservation; (iii) infrastructure preservation; and (iv) program improvement or expansion. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(3) The ((office of financial management)) agency shall ((forward)) provide copies of these project lists and revised lists to the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. No expenditure may be incurred or obligation entered into for minor works appropriations until the office of financial management has approved the allotment of the funds to be expended. The office of financial management shall encourage state agencies to incorporate accessibility planning and improvements into the normal and customary capital program.

(4) It is generally not intended to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

NEW SECTION. Sec. 204. A new section is added to 2005 c 488 (uncodified) to read as follows:

The legislature finds that the January 23, 2006, report on 63-20 capital projects financing submitted by the state treasurer raised significant issues that could benefit from additional exploration and analysis. The legislature further finds that financing costs are only one important dimension to consider when analyzing and comparing the use of conventional bonds with other capital project financing mechanisms in the development of major public facilities. Other factors that must be considered include total project and life-cycle costs, long-term costs of capital, scheduling, generally accepted accounting principles, transfer of risk, project management, project complexity, public works contracting procedures, and applicability of private sector strategies or practices in the development and ongoing maintenance of public facilities.

The office of financial management and the department of general administration, in consultation with legislative staff from the appropriate policy and fiscal committees of the legislature shall:

(1) Research models and best practices used by other governments and private industry to provide major facility and infrastructure information for budgeting purposes, including the updated joint legislative audit and review committee life-cycle cost model in section 102 of this act. The analysis must include total cost of capital and long-term forecasting information for facility preservation, major facility or system replacement, and new capacity to result in more effective investment decisions for major public facilities and infrastructure.

(2) Develop recommendations that incorporate best practices in the state's capital budgeting process and public works contracting procedures, including lessons learned from 63-20 financing projects entered into by state agencies or local governments.

(3) Develop recommendations for appropriate uses of alternative capital project financing instruments and a corresponding decision making process.

(4) Develop a strategy to manage risk and reduce the potential for claims and litigation associated with state construction projects. This strategy must include the enumeration of best practices for the management of project risk and conflicts, in order to minimize future expenses related to construction claims.

(5) Coordinate with the capital projects advisory review board created in chapter 377, Laws of 2005 to evaluate public capital project construction processes and policies related to alternative public works delivery methods.

(6) Submit report findings and recommendations to the appropriate fiscal committees of the legislature by September 1, 2007.

Sec. 205. RCW 79.17.010 and 2003 1st sp.s. c 25 s 939 and 2003 c 334 s 452 are each reenacted and amended to read as follows:

(c) Acquire lands having commercial recreational leasing potential;

(e) Acquire urban property which has greater income potential or which could be more efficiently managed by the department in exchange for state urban lands as defined in RCW 79.19.100; or

(f) Acquire any other lands when such exchange is determined by the board to be in the best interest of the trust for which the state land is held.

(2) Land exchanged under this section shall not be used to reduce the publicly owned forest land base.

(3) The board shall determine that each land exchange is in the best interest of the trust for which the land is held prior to authorizing the land exchange.

(4) During the biennium ending June 30, ~~((2005))~~ 2007, the department, with approval of the board, may exchange any state land and any timber thereon for any land and proceeds of equal value. Proceeds may be used to acquire or design a facility on or adjacent to the Riverpoint higher education campus for the university's Spokane-based program offerings. Eastern Washington University must report to the office of financial management and the appropriate fiscal committees of the legislature upon sale of the center as well as expenditure of the proceeds.

Sec. 207. RCW 43.99N.060 and 2000 c 137 s 1 are each amended to read as follows:

(1) The stadium and exhibition center account is created in the custody of the state treasurer. All receipts from the taxes imposed under RCW 82.14.0494 and distributions under RCW 67.70.240(5) shall be deposited into the account. Only the director of the office of financial management or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW. An appropriation is not required for expenditures from this account.

(2) Until bonds are issued under RCW 43.99N.020, up to five million dollars per year beginning January 1, 1999, shall be used for the purposes of subsection (3)(b) of this section, all remaining moneys in the account shall be transferred to the public stadium authority, created under RCW 36.102.020, to be used for public stadium authority operations and development of the stadium and exhibition center.

(3) After bonds are issued under RCW 43.99N.020, all moneys in the stadium and exhibition center account shall be used exclusively for the following purposes in the following priority:

(a) On or before June 30th of each year, the office of financial management shall accumulate in the stadium and exhibition center account an amount at least equal to the amount required in the next succeeding twelve months for the payment of principal of and interest on the bonds issued under RCW 43.99N.020;

(b) An additional reserve amount not in excess of the expected average annual principal and interest requirements of bonds issued under RCW 43.99N.020 shall be accumulated and maintained in the account, subject to withdrawal by the state treasurer at any time if necessary to meet the requirements of (a) of this subsection, and, following any withdrawal, reaccumulated from the first tax revenues and other amounts deposited in the account after meeting the requirements of (a) of this subsection; and

(c) The balance, if any, shall be transferred to the youth athletic facility account under subsection (4) of this section.

Any revenues derived from the taxes authorized by RCW 36.38.010(5) and 36.38.040 or other amounts that if used as provided under (a) and (b) of this subsection would cause the loss of any tax exemption under federal law for interest on bonds issued under RCW 43.99N.020 shall be deposited in and used exclusively for the purposes of the youth athletic facility account and shall not be used, directly or indirectly, as a source of payment of principal of or interest on bonds issued under RCW 43.99N.020, or to replace or reimburse other funds used for that purpose.

(4) Any moneys in the stadium and exhibition center account not required or permitted to be used for the purposes described in subsection (3)(a) and (b) of this section shall be deposited in the youth athletic facility account hereby created in the state treasury. Expenditures from the account may be used only for purposes of grants or loans to cities, counties, and qualified nonprofit organizations for community outdoor athletic facilities. For the 2005-2007 biennium, moneys in the account may also be used for the recreation level of service study for local and regional active recreation facilities identified in section 165 of this act. Only the director of the interagency committee for outdoor recreation or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88

RCW, but an appropriation is not required for expenditures. The athletic facility grants or loans may be used for acquiring, developing, equipping, maintaining, and improving community outdoor athletic facilities. Funds shall be divided equally between the development of new community outdoor athletic facilities, the improvement of existing community outdoor athletic facilities, and the maintenance of existing community outdoor athletic facilities. Cities, counties, and qualified nonprofit organizations must submit proposals for grants or loans from the account. To the extent that funds are available, cities, counties, and qualified nonprofit organizations must meet eligibility criteria as established by the director of the interagency committee for outdoor recreation. The grants and loans shall be awarded on a competitive application process and the amount of the grant or loan shall be in proportion to the population of the city or county for where the community outdoor athletic facility is located. Grants or loans awarded in any one year need not be distributed in that year. The director of the interagency committee for outdoor recreation may expend up to one and one-half percent of the moneys deposited in the account created in this subsection for administrative purposes.

Sec. 201. 2005 c 518 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.

(1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2006, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2006 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2006 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoption support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose, other than family support appropriations for the developmental disabilities program in section 205(1)(c) of this act, after approval by the director of financial management.

(c) The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(4) The department is authorized to expend up to \$13,500,000 of its general fund--state appropriation for fiscal year 2007 for any reductions in federal funding in fiscal year 2006 for targeted case management services for children who are in the care of the state. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications under this subsection.

(5) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage Medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP) the department may combine and transfer such Medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons during the 2005-2007 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot, times the number of clients enrolled in the pilot. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

~~((4))~~ (6) In accordance with RCW 74.39A.300, the appropriations to the department of social and health services in this act are sufficient to implement the compensation and fringe benefits of the collective bargaining agreement reached between the governor and the exclusive bargaining representative of individual providers of home care services.

If this can be accomplished, additional clients may be served with excess funds if the total projected carry-forward expenditures do not exceed the amounts estimated. General Fund--State Appropriation (FY 2007)	(\$1,596,101,000)

<u>Pension Funding Stabilization Account--State Appropriation</u>	<u>\$123,000</u>
TOTAL APPROPRIATION	(\$7,767,870,000)
	\$7,703,665,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) The department shall continue to extend medicaid eligibility to children through age 18 residing in households with incomes below 200 percent of the federal poverty level.

(3) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(4) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(5) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is equivalent to the benefit provided in the 2003-05 biennium.

(6) In accordance with RCW 74.46.625, \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments.

(7) (~~(\$1,660,000)~~) \$2,221,000 of the health services account appropriation, (~~(\$4,361,000)~~) \$5,402,000 of the general fund--federal appropriation, (~~(\$1,350,000)~~) \$1,590,000 of the general fund--state appropriation for fiscal year 2006, and (~~(\$1,351,000)~~) \$1,591,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) (~~(\$22,081,000)~~) \$21,092,000 of the health services account appropriation and (~~(\$20,714,000)~~) \$19,725,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(9) In response to the federal directive to eliminate intergovernmental transfer transactions effective June 30, 2005, the department is directed to implement the inpatient hospital certified public expenditures program for the 2005-07 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. Hospitals in the program shall be paid and shall retain (a) one hundred percent of the federal portion of each medicaid inpatient fee-for-service claim payable by the medical assistance administration; and (b) one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Medicaid fee-for-service claim amounts shall be established by applying the department's ratio of costs to charges payment methodology. The department shall provide participating hospitals with the information and instructions needed by the hospital to certify the public expenditures required to qualify for the federal portions of both the medicaid inpatient fee-for-service payments and the disproportionate share hospital payments. In the event that any part of the program including, but not limited to, allowable certified public expenditures, is disallowed by the federal government, the department shall not seek recoupment of payments from the hospitals, provided the hospitals have complied with the directions of the department for participation in the program. The legislature intends that hospitals in the program receive no less in combined state and federal payments than they would have received under the methodology that was in place during fiscal year 2005. The department shall therefore make additional grant payments, not to exceed the amounts (~~provided~~) specified in this subsection, to hospitals whose total payments under the program would otherwise be less than the total state and federal payments they would have received under the methodology in effect during fiscal year 2005. (~~(\$37,034,000 of the general fund--state appropriation for fiscal year 2006, \$37,552,000 of the general fund--state appropriation for fiscal year 2007, \$8,300,000 of the emergency medical services and trauma care systems trust account--state appropriation, and \$45,450,000 of the general fund--federal appropriation are provided solely for new state grant and upper payment limit programs for the participating hospitals:)~~) Payments under these new state grant and upper payment limit programs shall not exceed \$53,159,000 from general fund--state appropriations in fiscal year 2006, of which \$5,600,000 is appropriated in section 204(1) of this 2006 act and the balance in this section; \$46,548,000 from general fund--state appropriations in fiscal year 2007, of which \$5,600,000 is appropriated in section 204(1) of this 2006 act and the balance in this section; and \$11,328,000 from the general fund--federal appropriations in this section.

(10) (~~(\$4,372,000)~~) \$4,077,000 of the general fund--state appropriation for fiscal year 2006, (~~(\$4,014,000)~~) \$4,847,000 of the general fund--state appropriation for fiscal year 2007, and (~~(\$65,112,000)~~) \$70,100,000 of the general fund--federal appropriation are provided solely for development and implementation of a replacement system for the existing medicaid management information system.

(11) (~~(\$150,000)~~) \$188,000 of the general fund--state appropriation for fiscal year 2006, (~~(\$75,000)~~) \$37,000 of the general fund--state appropriation for fiscal year 2007, and \$225,000 of the general fund--federal appropriation are provided solely for the department to contract

for an independent analysis of the medical assistance administration's current system for establishing hospital inpatient payment rates, and for recommendations on a new or updated system. The department shall submit an interim report of study findings by December 1, 2005, and a final report by November 15, 2006. The interim report shall include a comparison of the strengths and weaknesses of the current rate-setting system relative to those used by other state, federal, and private payers. The final report shall include recommendations on the design and implementation of a new or updated system that will promote equity among hospitals, access to quality care and improved health outcomes for patients, and cost-control and efficiency for taxpayers. The study should make use of complete and current cost data from a wide variety of hospitals, recognize unique aspects of hospital service delivery structures and medicaid payment systems in Washington, recognize impacts on productivity and quality of care that may result from hospital compensation, recruitment, and retention policies, and provide opportunities for comment and participation by key interest groups in the identification and assessment of alternatives.

(12) Payment rates for hospital inpatient and outpatient services shall be increased by an average of 1.3 percent effective July 1, 2005, and by an average of an additional 1.3 percent effective July 1, 2006. The inpatient increases shall be provided only on the portion of a hospital's rate that excludes medical education and outlier costs, and shall be allocated so that hospitals with lower costs of care (excluding medical education and outlier costs) receive larger percentage increases than those with higher costs of care. The inpatient increases shall be allocated in three percentage increments, with the lowest-cost hospitals receiving the largest percentage rate increase, highest-cost hospitals receiving the smallest percentage increase, and medium-cost hospitals receiving the average of the highest and the lowest percentage rate increase. Increases shall not be provided to those hospitals that are certified as critical access. Sufficient funds are appropriated in this section for Healthy Options contractors to increase hospital payment rates commensurate with the increases in fee-for-service payment rates.

(13) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(14) The medical assistance administration is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the administration determines it is cost-effective to do so.

(15) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(16) By October 1, 2005, the department shall recommend to the governor and legislature at least two pilot project designs which seem likely to reduce avoidable emergency room utilization at no net cost to the state within the projects' first eighteen months of operation.

(17) Within funds appropriated in this section, the department shall participate in the health technology assessment program required in section 213(6) of this act.

(18) The department is also required to participate in the joint health purchasing project described in section 213(7) of this act.

(19) The department shall, within available resources, continue operation of the medical care services care management pilot project for clients receiving general assistance benefits in King and Pierce counties. The project may use a full or partial capitation model that includes a mechanism for shared savings. The department shall provide a report to the appropriate committees of the legislature by January 1, 2006, on costs, savings, and any outcomes or quality measures associated with the pilot programs during the first year of operation.

(20) By October 1, 2005, the department shall report to the appropriate committees of the legislature on the potential fiscal and programmatic costs and benefits associated with an expansion of managed care pilot programs to SSI and other eligible medicaid elderly and disabled persons.

~~((22))~~ (21) By November 15, 2006, the department of social and health services, in consultation with the department of revenue and the health care authority, shall report to the health care and fiscal committees of the legislature on options for providing financial incentives for private practice physicians to serve uninsured, medicare, and medicaid patients. The report shall include an assessment of the relative costs and effectiveness of strategies including, but not limited to, tax credits and payment rate increases. The report shall further suggest alternative mechanisms and thresholds for varying tax credits and payment enhancements according to the extent to which a provider serves uninsured, medicare, and medicaid patients.

(22) The department is directed to pursue all available administrative remedies to dispute and reverse recent large retroactive charges by the federal medicare program for payment of medicare part B premiums on behalf of medicaid recipients, to the extent that such premiums are for periods when medicare coverage was in fact never provided the beneficiaries, and their care was instead fully covered by the state medicaid program. The department shall report to the fiscal committees of the legislature by December 1, 2006, on the actions it has taken to dispute and reverse these charges.

(23) \$132,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to implement Second Substitute House Bill No. 2002 (foster care support services). If the bill is not enacted by June 30, 2006, the amount provided in this subsection shall lapse.

(24) \$255,000 of the general fund--state appropriation for fiscal year 2007 and \$2,107,000 of the general fund--federal appropriation are provided solely to increase the availability of family planning services at the department of social and health services' community service offices. Resources will be prioritized for those offices where pregnancy rates are higher than the statewide average.

(25) \$23,000 of the general fund--state appropriation for fiscal year 2006, \$137,000 of the general fund--state appropriation for fiscal year 2007, and \$79,000 of the general fund--federal appropriation are provided solely for conducting a study of the employment status of enrollees in the basic health plan and the medical assistance program, pursuant to Engrossed Substitute House Bill No. 3079 (health care services). If the bill is not enacted by June 30, 2006, the amounts provided in this subsection shall lapse.

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

- (i) Credits earned since receiving the masters degree; and
- (ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

- (a) "BA" means a baccalaureate degree.
- (b) "MA" means a masters degree.
- (c) "PHD" means a doctorate degree.
- (d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.
- (e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

- (a) The employee has a masters degree; or
- (b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 12E and the salary schedules in subsection

(4)(a) of this section include two learning improvement days for the 2005-06 school year and two learning improvement days for 2006-07 school year. A school district is eligible for the learning improvement day funds only if the learning improvement days have been added to the 180-day contract year. If fewer days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be limited to specific activities identified in the state required school improvement plan related to improving student learning that are consistent with education reform implementation, and shall not be considered part of basic education. The principal in each school shall assure that the days are used to provide the necessary school-wide, all staff professional development that is tied directly to the school improvement plan. The school principal and the district superintendent shall maintain documentation as to their approval of these activities. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2) and subsection (7) of this section.

General Fund--State Appropriation (FY 2007)	(\$248,575,000)
	<u>\$252,607,000</u>
TOTAL APPROPRIATION	(\$490,745,000)
	<u>\$500,148,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2) A maximum of \$796,000 of this fiscal year 2006 appropriation and a maximum of (~~(\$812,000)~~) \$828,000 of the fiscal year 2007 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

(3) \$5,000 of the fiscal year 2006 appropriation and \$5,000 of the fiscal year 2007 appropriation are provided solely for the transportation of students enrolled in "choice" programs. Transportation shall be limited to low-income students who are transferring to "choice" programs solely for educational reasons.

(4) Allocations for transportation of students shall be based on reimbursement rates of (~~(\$41.51)~~) \$42.52 per weighted mile in the 2005-06 school year and (~~(\$42.01)~~) \$42.11 per weighted mile in the 2006-07 school year exclusive of salary and benefit adjustments provided in section 504 of this act. Included in the 2005-06 school year rate is a one-time increase of \$1.12 to offset extraordinary increases in the price of diesel fuel. Allocations for transportation of students transported more than one radius mile shall be based on weighted miles as determined by superintendent of public instruction multiplied by the per mile reimbursement rates for the school year pursuant to the formulas adopted by the superintendent of public instruction. Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

(5) For busses purchased between July 1, 2005, and June 30, 2007, the office of superintendent of public instruction shall provide reimbursement funding to a school district only after the superintendent of public instruction determines that the school bus was purchased from

the list established pursuant to RCW 28A.160.195(2) or a comparable competitive bid process based on the lowest price quote based on similar bus categories to those used to establish the list pursuant to RCW 28A.160.195. The competitive specifications shall meet federal motor vehicle safety standards, minimum state specifications as established by rule by the superintendent, and supported options as determined by the superintendent in consultation with the regional transportation coordinators of the educational service districts.

(6) Beginning with the 2005-06 school year, the superintendent of public instruction shall base depreciation payments for school district buses on the five-year average of lowest bids in the appropriate category of bus. In the final year on the depreciation schedule, the depreciation payment shall be based on the current state price. The superintendent may include a weighting or other adjustment factor in the averaging formula to ease the transition from the current-price depreciation system to the average depreciation system. Prior to making any depreciation payment in the 2005-06 school year, the superintendent shall notify the office of financial management and the fiscal committees of the legislature of the specific depreciation formula to be used. The replacement cost shall be based on the lowest bid in the appropriate bus category for that school year. A maximum of \$50,000 of the fiscal year 2006 appropriation may be expended for software programming costs associated with the implementation of this subsection.

Sec. 506. 2005 c 518 s 506 (uncodified) is amended to read as follows:

The appropriations in this section are subject to the following conditions and limitations:

- (1) \$3,000,000 of the general fund--state appropriation for fiscal year 2006 and \$3,000,000 of the general fund--state appropriation for fiscal year 2007 are provided for state matching money for federal child nutrition programs.

If House Bill No. 1771 is not enacted by June 30, 2005, the amounts provided in this subsection shall lapse.

Sec. 507. 2005 c 518 s 507 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION—FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2006)	(\$460,032,000)
	\$466,686,000
General Fund--State Appropriation (FY 2007)	(\$471,961,000)
	\$480,522,000
General Fund--Federal Appropriation	(\$435,464,000)
	\$435,634,000
TOTAL APPROPRIATION	(\$1,367,457,000)
	<u>\$1,382,842,000</u>

The appropriations in this section are subject to the following conditions and limitations:

- (1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.
- (2)(a) The superintendent of public instruction shall use the excess cost methodology developed and implemented for the 2001-02 school year using the S-275 personnel reporting system and all related accounting requirements to ensure that:
 - (i) Special education students are basic education students first;
 - (ii) As a class, special education students are entitled to the full basic education allocation; and
 - (iii) Special education students are basic education students for the entire school day.
- (b) The S-275 and accounting changes in effect since the 2001-02 school year shall supercede any prior excess cost methodologies and shall be required of all school districts.
- (3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.
- (4) The superintendent of public instruction shall distribute state and federal funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.
- (5)(a) For the 2005-06 and 2006-07 school years, the superintendent shall make allocations to each district based on the sum of:
 - (i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and
 - (ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.
- (b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.
- (6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, \$18,940,000 of the general fund--state appropriation and (~~\$28,698,000~~) \$29,081,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If safety net awards exceed the amount appropriated in this subsection (8), the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) A maximum of \$678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(12) A maximum of \$1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

 (e) For purposes of this subsection (19), "staffed residential home" means a home licensed by the department of social and health services to provide twenty-four hour care for six or fewer children or expectant mothers, which employs staff to care for them.

(5) A school district may carry over from one year to the next up to 10 percent of the general fund--state or education legacy trust funds allocated under this program; however, carryover funds shall be expended for the learning assistance program.

(6) School districts are encouraged to coordinate the use of these funds with other federal, state, and local sources to serve students who are below grade level and to make efficient use of resources in meeting the needs of students with the greatest academic deficits.

NEW SECTION. Sec. 515. A new section is added to 2005 c 518 (uncodified) to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--PROMOTING ACADEMIC SUCCESS

General Fund--State Appropriation (FY 2006)	\$4,056,000
General Fund--State Appropriation (FY 2007)	\$26,201,000
TOTAL APPROPRIATION	\$30,257,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The amounts appropriated in this section are provided solely for remediation for students who have not met standard in one or more content areas of the WASL in the spring of their tenth grade year and on each retake thereafter. The funds may be used for extended learning activities, including summer school, before and after school, Saturday classes, skill seminars, assessment preparation, and in-school or out-of-school tutoring. Extended learning activities may occur on the school campus, via the internet, or at other locations and times that meet student needs. Funds allocated under this section shall not be considered basic education funding. Amounts allocated under this section shall fund new extended learning opportunities, and shall not supplant funding for existing programs and services.

(2) School district allocations for promoting academic success programs shall be calculated as follows:

(a) A portion of the district's student units shall be the number of content area assessments (reading, writing, and mathematics) on which students were more than one standard error of measurement from meeting standard on the Washington assessment of student learning for the current class of eleventh grade students.

(b) The other portion of the district's student units shall be the number of content area assessments (reading, writing, and mathematics) on which students were less than one standard error of measurement from meeting standard but did not meet standard on the Washington assessment of student learning for the current class of eleventh grade students. Districts with at least one but less than 20 student units combining the student units generated from this subsection and (a) of this subsection shall be counted as having 20 student units for the purposes of the allocations in (c) and (d)(A) of this subsection.

(c) Allocations for certificated instructional staff salaries and benefits shall be determined using formula-generated staff units calculated pursuant to this subsection. Ninety-four hours of certificated instructional staff units are allocated per 13.0 student units as calculated under (a) of this subsection and thirty-four hours of certificated instructional staff units are allocated per 13.0 student units as calculated under (b) of this subsection. Allocations for salaries and benefits for the staff units calculated under this subsection shall be calculated in the same manner as provided under section 503 of this act. Salary and benefit increase funding for staff units generated under this section is included in section 504 of this act.

(d) The legislature recognizes that some students in the class of 2007 may wish to retake the WASL even though it is not a graduation requirement. Accordingly, funding in this section provides certificated instructional staff units as described in (c) of this subsection for all students in the class of 2007 who register to retake the WASL and want remedial assistance.

(e) The legislature recognizes that professional development and planning for teachers is an important component of high quality extended learning activities. Accordingly, a one-time funding amount equal to 20 hours of certificated instructional staff units per 13.0 student units, as calculated in (a) and (b) of this subsection, is provided in this section to insure that extended learning activities are of high quality and aligned to the state's essential academic learning requirements.

(f) The following additional allocations are provided per student unit, as calculated in (a) of this subsection:

- (A) \$12.50 for maintenance, operations, and transportation;
- (B) \$12.00 for pre- and post-remediation assessments;
- (C) \$17.00 per reading remediation student unit;
- (D) \$8.00 per mathematics remediation student unit; and
- (E) \$8.00 per writing remediation student unit.

(g) Funding shall be provided for students served in promoting academic success programs beginning July 2006.

(h) The superintendent of public instruction shall distribute school year allocations according to the monthly apportionment schedule defined in RCW 28A.510.250.

(3) School districts shall report annually to the office of the superintendent of public instruction on the use of these funds, including the types of assistance selected by students, the number of students receiving each type of assistance, and the impact on WASL test scores.

(4) \$1,500,000 of the general fund--state appropriation for fiscal year 2007 is provided for competitive innovation grants awarded to schools and school districts for implementing high school remediation programs that are unique in program delivery, program accessibility, program content, or a combination of these factors and that serve students who have not achieved success on the tenth grade WASL.

(5) School districts may carry over from one year to the next up to 20 percent of funds allocated under this program; however, carryover funds shall be expended for promoting academic success programs, and may be used to provide extended learning programs for students beyond their eleventh grade year who want continued remedial assistance to pass the WASL.

Therefore, the management and leadership responsibility for consortium operations are assigned to Everett community college. Everett community college shall collaborate with community and business leaders, other local community colleges, the public four-year institutions of higher education, and the higher education coordinating board to develop an educational plan for the North Snohomish, Island, and Skagit county region based on the university center model.

(9) \$2,250,000 of the education legacy trust appropriation for fiscal year 2006 and \$2,250,000 of the education legacy trust appropriation for fiscal year 2007 are provided solely to increase salaries and related benefits for part-time faculty. A college district may match the state funds with local revenue. The board shall report by January 30, 2006, to the office of financial management and the appropriate fiscal and policy committees of the legislature on (a) the distribution of state funds, and (b) wage adjustments for part-time faculty.

(10) \$2,250,000 of the education legacy trust appropriation for fiscal year 2006 and \$2,250,000 of the education legacy trust appropriation for fiscal year 2007 are provided solely for faculty salary increments and associated benefits and may be used in combination with salary and benefit savings from faculty turnover to provide salary increments and associated benefits for faculty who qualify through professional development and training. (13) \$156,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for three community and technical college partnerships with universities as authorized in RCW 28B.50.820. The appropriations in this section are subject to the following conditions and limitations:

ESSB 6475 Prime Sponsor, Senate Committee On Early Learning, K-12 & Higher Education: Authorizing alternative methods of assessment and appeal processes for the certificate of academic achievement. Reported by Committee on Education

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 28A.655 RCW to read as follows:

(1) The legislature has made a commitment to rigorous academic standards for receipt of a high school diploma. The primary way that students will demonstrate that they meet the standards in reading, writing, mathematics, and science is through the Washington assessment of student learning. Only objective assessments that are comparable in rigor to the state assessment are authorized as an alternative assessment. Before seeking an alternative assessment, the legislature expects students to make a genuine effort to meet state standards, through retaking the Washington assessment of student

learning; regular and consistent attendance at school; and participation in extended learning and other assistance programs.

(2) Under RCW 28A.655.061, beginning in the 2006-07 school year, the superintendent of public instruction shall implement three objective alternative assessment methods as provided in this section for students to demonstrate achievement of the state standards in content areas in which the student has not yet met the standard on the high school Washington assessment of student learning. A student may access an alternative if the student meets applicable eligibility criteria in RCW 28A.655.061 and other eligibility criteria established by the superintendent of public instruction, including but not limited to a ninety-five percent minimum attendance criterion and required participation in the remediation or supplemental instruction contained in the student learning plan developed under RCW 28A.655.061. A school district may waive the attendance and remediation requirement for special, unavoidable circumstances.

(3) For the purposes of this section, "applicant" means a student seeking to use one of the alternative assessment methods in this section.

(4) The primary alternative assessment method shall be a combination of the applicant's grades in applicable courses and the applicant's highest score on the high school Washington assessment of student learning, as provided in this subsection.

(a) Using guidelines prepared by the superintendent of public instruction, a school district shall identify the group of students in the same school as the applicant who took the same high school courses as the applicant in the applicable content area. From the group of students identified in this manner, the district shall select the comparison cohort that shall be those students who met or slightly exceeded the state standard on the Washington assessment of student learning.

(b) The district shall compare the applicant's grades in high school courses in the applicable content area to the grades of students in the comparison cohort for the same high school courses. If the applicant's grades are above the median grades of the comparison cohort, the applicant shall be deemed to have met the state standard on the alternative assessment.

(c) An applicant may not use the alternative assessment under this subsection (4) if there are fewer than six students in the comparison cohort.

(5) The superintendent of public instruction shall also develop an alternative assessment method that shall be an evaluation of a collection of work samples prepared and submitted by the applicant, as provided in this subsection and, for career and technical applicants, the additional requirements of subsection (6) of this section. The collection of work samples may be implemented as an alternative assessment if there are fewer than six students in the applicant's comparison cohort under subsection (4) of this section or if the applicant is enrolled in a career and technical program approved under section 2 of this act. The collection of work samples may be implemented as an alternative assessment for other applicants only if formally approved by the legislature through the omnibus appropriations act, statute, or concurrent resolution.

(a) The superintendent of public instruction shall develop guidelines for the types and number of work samples in each content area that may be submitted as a collection of evidence that the applicant has met the state standard in that content area. Work samples may be collected from academic, career and technical, or remedial courses and may include performance tasks as well as written products.

(b) The superintendent shall develop protocols for submission of the collection of work samples that include affidavits from the applicant's teachers and school district that the samples are the work of the applicant and a requirement that a portion of the samples be prepared under the direct supervision of a classroom teacher.

(c) The superintendent shall develop uniform scoring criteria for evaluating the collection of work samples. Collections shall be scored at the state level or regionally by a panel of educators selected and trained by the superintendent to ensure objectivity, reliability, and rigor in the evaluation. An educator may not score work samples submitted by applicants from the educator's school district. If the panel awards an applicant's collection of work samples the minimum

required score, the applicant shall be deemed to have met the state standard on the alternative assessment.

(6)(a) For students enrolled in a career and technical education program approved under section 2 of this act, the superintendent of public instruction shall develop guidelines for a collection of work samples that evidences that the collection:

(i) Is relevant to the student's particular career and technical program;

(ii) Focuses on the application of academic knowledge and skills within the program;

(iii) Includes completed activities or projects where demonstration of academic knowledge is inferred; and

(iv) Is related to the essential academic learning requirements and state standards that students must meet to earn a certificate of academic achievement or certificate of individual achievement, but also represents the knowledge and skills that successful individuals in the career and technical field of the approved program are expected to possess.

(b) To meet the state standard on the alternative assessment under this subsection (6), an applicant must also attain the state or nationally recognized certificate or credential associated with the approved career and technical program.

(c) The superintendent shall consult with community and technical colleges, employers, the work force training and education coordinating board, apprenticeship programs, and other regional and national experts in career and technical education to create an appropriate collection of work samples and other evidence of a career and technical student's knowledge and skills on the state academic standards.

(7) The superintendent of public instruction shall study the feasibility of using existing mathematics assessments in languages other than English as an additional alternative assessment option. The study shall include an estimation of the cost of translating the tenth grade mathematics assessment into other languages and scoring the assessments should they be implemented.

(8) The superintendent of public instruction shall implement:

(a) By June 1, 2006, a process for students to appeal the score they received on the high school assessments; and

(b) By January 1, 2007, guidelines and appeal processes for waiving specific requirements in RCW 28A.655.061 pertaining to the certificate of academic achievement and to the certificate of individual achievement for students who: (i) Transfer to a Washington public school in their junior or senior year with the intent of obtaining a public high school diploma, or (ii) have special, unavoidable circumstances.

(9) The superintendent of public instruction may adopt rules to implement this section.

NEW SECTION. Sec. 2. A new section is added to chapter 28C.04 RCW to read as follows:

The superintendent of public instruction shall develop a list of approved career and technical education programs that qualify for the objective alternative assessment for career and technical students developed under section 1 of this act. Programs on the list must meet the following minimum criteria:

(1) Lead to a certificate or credential that is state or nationally recognized by trades, industries, or other professional associations as necessary for employment or advancement in that field;

(2) Require a sequenced progression of multiple courses, both exploratory and preparatory, that are vocationally intensive and rigorous; and

(3) Have a high potential for providing the program completer with gainful employment or entry into a postsecondary work force training program.

NEW SECTION. Sec. 3. By September 2006, the superintendent of public instruction shall report the following, in detail, to the education committees of the legislature:

(1) Results of the pilot testing of the alternative assessments authorized under section 1 of this act;

(2) The proposed guidelines, protocols, and procedures to be used by the superintendent in implementing the alternative assessments, particularly the collection of evidence;

(3) A description of the training to be provided for school districts, educators serving on scoring panels, and teachers assisting students with collections of evidence;

(4) Preliminary results of the feasibility study in section 1(7) of this act; and

(5) Updated estimates of the number of students likely to be eligible or apply for either alternative assessment method.

Sec. 4. RCW 28A.655.061 and 2004 c 19 s 101 are each amended to read as follows:

(1) The high school assessment system shall include but need not be limited to the Washington assessment of student learning, opportunities for a student to retake the content areas of the assessment in which the student was not successful, and if approved by the legislature pursuant to subsection ~~((++))~~ (10) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning for each content area.

(2) Subject to the conditions in this section, a certificate of academic achievement shall be obtained by most students at about the age of sixteen, and is evidence that the students have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3) Beginning with the graduating class of 2008, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the reading, writing, and mathematics content areas of the high school Washington assessment of student learning shall earn a certificate of academic achievement. If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area up to four times at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection ~~((++))~~ (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has retaken the Washington assessment of student learning at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement. ~~((The student's transcript shall note whether the certificate of academic achievement was acquired by means of the Washington assessment of student learning or by an alternative assessment.))~~

(4) Beginning with the graduating class of 2010, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the Washington assessment of student learning and the objective alternative assessments in order to earn a certificate of academic achievement.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6) A student may retain and use the highest result from each successfully completed content area of the high school assessment.

~~((Beginning with the graduating class of 2006, the highest scale score and level achieved in each content area on the high school Washington assessment of student learning shall be displayed on a student's transcript. In addition, beginning with the graduating class of 2008, each student shall receive a scholar's designation on his or her transcript for each content area in which the student achieves level four the first time the student takes that content area assessment.))~~

~~((8))~~ Beginning in 2006, school districts must make available to students the following options:

(a) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or

(b) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

~~((9))~~ (8) Students who achieve the standard in a content area of the high school assessment but who wish to improve their results shall pay for retaking the assessment, using a uniform cost determined by the superintendent of public instruction.

~~((10))~~ (9) Subject to available funding, the superintendent shall pilot opportunities for retaking the high school assessment beginning in the 2004-05 school year. Beginning no later than September 2006, opportunities to retake the assessment at least twice a year shall be available to each school district.

~~((11))~~ (10)(a) The office of the superintendent of public instruction shall develop options for implementing objective alternative assessments, which may include an appeals process, for students to demonstrate achievement of the state academic standards. The objective alternative assessments shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning and be objective in its determination of student achievement of the state standards. Before any objective alternative assessments in addition to those authorized in (b) of this subsection are used by a student to demonstrate that the student has met the state standards in a content area required to obtain a certificate, the legislature shall formally approve the use of any objective alternative assessments through the omnibus appropriations act or by statute or concurrent resolution.

~~((12))~~ (b) After formal approval by the legislature of the score required for this purpose, a student's score on the mathematics portion of the preliminary scholastic assessment test (PSAT), the scholastic assessment test (SAT), or the American college test (ACT) may be used as an objective alternative assessment under this section for demonstrating that a student has met the mathematics standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the mathematics portion of the PSAT, SAT, or ACT to meet the state standard for mathematics and shall submit the proposed scores, along with any subsequent revisions, to the legislature for formal approval through the appropriations act or by statute or concurrent resolution. The state board of education shall submit the first proposed scores to the legislature by December 1, 2006.

(11) By December 15, 2004, the house of representatives and senate education committees shall obtain information and conclusions from recognized, independent, national assessment experts regarding the validity and reliability of the high school Washington assessment of student learning for making individual student high school graduation determinations.

~~((13))~~ (12) To help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district shall prepare plans for students as provided in this subsection ~~((13))~~ (12).

(a) Student learning plans are required for eighth through twelfth grade students who were not successful on any or all of the content areas of the Washington assessment for student learning during the previous school year. The plan shall include the courses, competencies, and other steps needed to be taken by the student to meet state academic standards and stay on track for graduation. This requirement shall be phased in as follows:

(i) Beginning no later than the 2004-05 school year ninth grade students as described in this subsection ~~((13))~~ (12)(a) shall have a plan.

(ii) Beginning no later than the 2005-06 school year and every year thereafter eighth grade students as described in this subsection ~~((13))~~ (12)(a) shall have a plan.

(iii) The parent or guardian shall be notified, preferably through a parent conference, of the student's results on the Washington

assessment of student learning, actions the school intends to take to improve the student's skills in any content area in which the student was unsuccessful, strategies to help them improve their student's skills, and the content of the student's plan.

(iv) Progress made on the student plan shall be reported to the student's parents or guardian at least annually and adjustments to the plan made as necessary.

(b) Beginning with the 2005-06 school year and every year thereafter, all fifth grade students who were not successful in one or more of the content areas of the fourth grade Washington assessment of student learning shall have a student learning plan.

(i) The parent or guardian of a student described in this subsection ~~((13))~~ (12)(b) shall be notified, preferably through a parent conference, of the student's results on the Washington assessment of student learning, actions the school intends to take to improve the student's skills in any content area in which the student was unsuccessful, and provide strategies to help them improve their student's skills.

(ii) Progress made on the student plan shall be reported to the student's parents or guardian at least annually and adjustments to the plan made as necessary.

NEW SECTION. Sec. 5. A new section is added to chapter 28A.655 RCW to read as follows:

Subject to the availability of funds appropriated for this purpose, school districts shall reimburse students for the cost of taking the tests in RCW 28A.655.061(10)(b) when the students take the tests for the purpose of using the mathematics results as an objective alternative assessment.

Sec. 6. RCW 28A.305.220 and 2004 c 19 s 108 are each amended to read as follows:

(1) The state board of education shall develop for use by all public school districts a standardized high school transcript. The state board of education shall establish clear definitions for the terms "credits" and "hours" so that school programs operating on the quarter, semester, or trimester system can be compared.

(2) The standardized high school transcript shall include ~~((the following information:~~

~~— (a) The highest scale score and level achieved in each content area on the high school Washington assessment of student learning or other high school measures successfully completed by the student as provided by RCW 28A.655.061 and 28A.155.045;~~

~~— (b) All scholar designations as provided by RCW 28A.655.061;~~

~~— (c) a notation of whether the student has earned a certificate of individual achievement or a certificate of academic achievement ((by means of the Washington assessment of student learning or by an alternative assessment)).~~

(3) Transcripts are important documents to students who will apply for admission to postsecondary institutions of higher education. Transcripts are also important to students who will seek employment upon or prior to graduation from high school. It is recognized that student transcripts may be the only record available to employers in their decision-making processes regarding prospective employees. The superintendent of public instruction shall require school districts to inform annually all high school students that prospective employers may request to see transcripts and that the prospective employee's decision to release transcripts can be an important part of the process of applying for employment.

NEW SECTION. Sec. 7. If specific funding for the purposes of this act and section 5 of this act, referencing this act and section 5 of this act by bill or chapter number and section number, is not provided by June 30, 2006, in the omnibus appropriations act, section 5 of this act is null and void."

ESSB 6501 Prime Sponsor, Senate Committee On Water, Energy & Environment: Creating the Washington bioenergy assistance program. Reported by Committee on Technology, Energy & Communications

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

(1) Washington's dependence on energy supplied from outside the state and volatile energy markets makes our economy and citizens vulnerable to unpredictable and high energy prices;

(2) Washington's dependence on petroleum-based fuels increases energy costs for citizens and businesses;

(3) Experts tell us that the global oil shortage will only worsen, making the three dollars per gallon gasoline of the summer of 2005 seem affordable;

(4) Each year, citizens and businesses in Washington state spend nine billion dollars on gasoline and diesel, with those funds drained from the state economy;

(5) Diesel soot from diesel engines ranks as the highest toxic air pollutant in Washington, leading to hundreds of premature deaths and increasing rates of asthma and other lung-related diseases;

(6) The use of biodiesel results in significantly less air pollution than traditional diesel fuels and can help our citizens and businesses conserve energy;

(7) Improper disposal and treatment of organic waste from farms and livestock operations can have a significant negative impact on water quality;

(8) Washington has abundant supplies of organic wastes from farms that can be used for energy production and abundant farmland where crops could be grown to supplement or supplant petroleum-based fuels;

(9) Instead of leaving our economy at the mercy of global events, and the policies of foreign nations, Washington state should adopt a policy of energy independence;

(10) The energy freedom program is meant to lead Washington state towards energy independence;

(11) Producing more energy here means cleaner, renewable energy that includes, but is not limited to, biofuels, solar power, and wind power;

(12) The biofuels industry is a new and developing industry now limited by the availability of capital for construction of facilities for converting farm and forest products into energy and fuels; and

(13) For biofuels to be economically viable in Washington, it will be necessary to grow dedicated crops, construct crushers near farms, and build refineries to create fuel.

Therefore, the legislature finds it is in the public interest to reduce Washington's dependence on imported oil, expand renewable fuel production and use in Washington, conserve energy, improve use of renewable energy and energy efficiency measures, and promote sustainable rural economic development by creating new jobs and stimulating business and economic activity in local communities across Washington.

To accomplish this, the energy freedom program is established to stimulate strategic investment in facilities, infrastructure, technologies, and research and development that will advance Washington's move toward energy independence.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Board" means the energy freedom board.

(2) "Department" means the department of community, trade, and economic development.

(3) "Political subdivision" means any port district, county, city, town, special purpose district, and any other municipal corporations or quasi-municipal corporations in the state.

NEW SECTION. Sec. 3. (1) The energy freedom board is created to exercise the powers granted under this chapter.

(2) The board consists of thirteen members as follows:

(a) One member shall be the director of the department of agriculture or the director's designated representative;

(b) One member shall be the director of the department of community, trade, and economic development or the director's designated representative from the department's energy policy division;

(c) Four of the members shall be appointed as follows: Two members from the house of representatives committee that has jurisdiction over energy issues, one from each of the two major caucuses, to be appointed by the speaker of the house of representatives; two members from the senate committee that has jurisdiction over energy issues, one from each of the two major caucuses, to be appointed by the president of the senate; and

(d) Seven of the members shall be appointed by the governor: One recognized expert in renewable energy; one representative from Washington State University; one Washington state grower; one producer of alternative fuels; one public fleet manager; one public buildings manager; and one sustainable society advocate.

(3) The members appointed under subsection (2)(c) and (d) of this section must initially be appointed to terms as follows: Three members for two-year terms, four members for three-year terms, and four members for four-year terms which includes the chair. Thereafter, each succeeding term is four years. Appointees may be reappointed to serve more than one term.

(4) The governor must select one of the members to serve as the chair of the board. The members of the board shall elect one of their members to serve as vice chair.

(5) The department must provide staff support to the board.

(6) Members of the board receive no compensation but shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 4. In addition to other applicable provisions of law pertaining to conflicts of interest of public officials, no board member, appointive or otherwise, may participate in any decision on any board contract in which the board member has any interests, direct or indirect, with any entity that would be the recipient of any aid under this chapter.

NEW SECTION. Sec. 5. The board may:

(1) Accept from any federal agency loans or grants for the planning or financing of any project and enter into agreements with such an agency concerning the loans or grants;

(2) Accept any gifts, grants, or loan of funds, property, or financial or other aid in any form from any other source on any terms and conditions that are not in conflict with this chapter;

(3) Adopt rules under chapter 34.05 RCW as necessary to carry out the purposes of this chapter; and

(4) Perform all acts and functions as necessary or convenient to carry out the powers expressly granted or implied under this chapter.

NEW SECTION. Sec. 6. The board shall:

(1) Establish a competitive process to solicit proposals for and prioritize project applications for potential funding;

(2) Adopt rules governing project eligibility and evaluation criteria;

(3) Establish a peer review committee to include board members, renewable energy specialists, energy conservation specialists, scientists, and individuals with specific recognized expertise. The peer review committee shall provide to the board an independent peer review of all grant proposals submitted by Washington public research institutions for the purposes specified in section 7(3) (a) and (c) of this act that are determined to be competitive for a grant award. The board shall review the findings

of the peer review committee when making final grant allocation decisions;

(4) Develop the prioritized list through open and public meetings;

(5) Establish performance measures against which the program will be evaluated;

(6) Aggressively seek federal and other grant moneys;

(7) Report annually to the appropriate standing committees of the legislature on the implementation of this chapter. The report must include, but is not limited to: Information on the number of applications for financial assistance; the grant or loan amount awarded each project; a description of each project; the status of each funded project, including the agricultural and environmental benefits of each project, as well as the progress made by each project in creating jobs and moving towards energy independence; the documentation of nonstate funds to be used for each project; and progress against performance measures developed under this chapter. The first report must be submitted by December 31, 2006, to committees in the house of representatives and senate with jurisdiction over energy issues.

NEW SECTION. Sec. 7. (1) The board is authorized to make low-interest loans to political subdivisions of the state for the purposes of assisting political subdivisions in financing the cost of new and renewable energy and biofuel development projects and activities. A grant may also be authorized for purposes designated in this chapter, but only when, and to the extent that, a loan is not reasonably possible, given the limited resources of the political subdivision and the finding by the board that financial circumstances require grant assistance to enable the project to move forward. Up to ten percent of all financial assistance provided to political subdivisions by the board may consist of grants. Political subdivisions applying for loans and grants shall identify nonstate matching funds available for the project, and shall specify deliverables to be achieved by proposed projects and activities, including evidence that the proposed project will result in a positive net energy output, if applicable.

(2) Applications for loans and grants must be made in the form and manner as the board may prescribe.

(3) The board may provide financial assistance for the following types of projects and activities including, but not limited to:

(a) Research and development of new and renewable energy and biofuel sources including but not limited to biomass and associated biofuel gases;

(b) Renewable energy and biofuel development infrastructure and facilities;

(c) Research and development to develop markets for alternative fuel byproducts; and

(d) Loans for small commercial energy audits and retrofits.

(4) Applications must be prioritized based on the following criteria:

(a) The extent to which the project will contribute to the establishment of a viable bioenergy production capacity in Washington;

(b) The benefits to Washington's agricultural producers;

(c) The extent to which the project will help conserve energy and reduce dependence on petroleum fuels and imported energy, either directly or indirectly;

(d) The extent to which the project will reduce air and water pollution, either directly or indirectly;

(e) The number and quality of jobs, as well as the economic benefits, created by the project;

(f) The extent to which the investment shows a direct link to commercialization either by indirectly supporting the commercialization of bioenergy intellectual property into a commercialized project, or by directly assisting in moving a commercially viable project into the marketplace for use by Washington state citizens; and

(g) The extent to which private funds have been leveraged.

(5) The board may approve an application that results in loans of up to five million dollars. In no circumstances shall a loan approved under this section constitute more than fifty percent of total project funding.

(6) Financial assistance awarded to political subdivisions is one time only and may not be used for ongoing operational expenses.

(7) Before any financial assistance application is approved, the political subdivision must demonstrate to the board that no other timely source of funding is available to it at costs reasonably similar to financing available from the board.

(8) A responsible official of the political subdivision must be present during board deliberations and provide information that the board requests.

(9) The board may not approve an application if it fails to provide for adequate reporting or disclosure of financial and employment data to the board. The board may require an annual or other periodic audit of the project books.

(10) The board may defer loan repayment for up to twenty-four months or until the projects start to receive revenue from operations, whichever is sooner.

(11) Upon receiving financial assistance, a political subdivision must enter into appropriate contracts with any industry partners that may be involved in the use of the facilities, infrastructure, or equipment.

(12) Upon written notice to the political subdivision, the board may suspend or cancel its loans or grants if any of the following occur:

(a) The political subdivision fails to make satisfactory and reasonable progress to complete the project, or the board concludes the political subdivision will be unable to complete the project or any portion of it; or

(b) The political subdivision or industry partners have made misrepresentations in any information furnished to the board in connection with the project.

(13) In the event that any portion of the loan or grant has been paid to the political subdivision under this section at the time of breach, or failure of the political subdivision to satisfactorily perform, the board may require that the full amount of the loan or grant, or a portion thereof, be repaid within a period specified by the board.

(14) The board is authorized to award grants to Washington public research institutions for the purposes specified in subsection (3)(a) and (c) of this section.

NEW SECTION. Sec. 8. The energy freedom account is created in the state treasury. All receipts from appropriations made to the account, proceeds from other lawful sources, and loan payments of principal and interest derived from loans made under this chapter must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for loans and grants to political subdivisions for renewable energy and biofuel development projects and activities authorized under this chapter.

NEW SECTION. Sec. 9. In accordance with Article VIII, sections 5 and 7 of the state Constitution, the credit of the state and counties, cities, towns, and other municipal corporations shall not in any manner be given or loaned to any individual, association, company, or corporation in the administration of the grant and loan program established in this chapter.

Sec. 10. RCW 82.16.020 and 1996 c 150 s 2 are each amended to read as follows:

(1) There is levied and there shall be collected from every person a tax for the act or privilege of engaging within this state in any one or more of the businesses herein mentioned. The tax shall be equal to the gross income of the business, multiplied by the rate set out after the business, as follows:

(a) Express, sewerage collection, and telegraph businesses: Three and six-tenths percent;

(b) Light and power business: Three and sixty-two one-hundredths percent;

(c) Gas distribution business: Three and six-tenths percent;

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. In 1993 the Washington legislature laid out a vision of a revitalized school system in Washington state. Envisioned was a comprehensive assessment system committed to high academic standards for all of its students. The Washington assessment of student learning was created as a tool to measure whether students were reaching the high academic standards. The legislature continues to support this assessment as a part of a comprehensive assessment system. Recently some alternative assessments have been developed. The legislature finds that there is interest in exploring why some students have not been able to meet the state standards and whether additional alternative methods, options, procedures, or performance measures could be used to augment the current system.

NEW SECTION. Sec. 2. (1) The Washington state institute for public policy shall conduct a study to explore options to augment the current system of assessments to provide additional opportunities for students to demonstrate that they have met the state learning standards. The study is limited to:

(a) A review and statistical analysis of Washington assessment of student learning data to increase understanding of the students who did not meet the standard in one or more areas of assessment, identify the characteristics of those students, and identify possible barriers to student success or possible causes of the lack of success;

(b) A review and identification of additional alternative assessment options that could be used to augment the current assessment system. In identifying the alternative assessment options, the institute shall include a review of alternative assessments used in other states as well as those that have been developed and those that have been proposed in Washington. The institute shall examine the use of national tests as well as career skill certification exams in their review of possible alternative assessment options. For each of the identified alternative assessment options, the study shall at a minimum include:

(i) An estimation of the costs for implementation;

(ii) A review of the cultural appropriateness;

(iii) Whether the alternative assessment reliably measures a student's ability to meet state learning standards in one or more of the required content areas;

(iv) Whether the alternative assessment is in compliance with RCW 28A.655.061(1); and

(v) Any challenges to implementation for each of the identified alternative assessment options, including any legislative action necessary for implementation;

(c) A review and identification of additional alternative methods, procedures, or combinations of performance measures, including those proposed in Washington, to assess whether students have met the state learning standards. For each of the identified alternative methods, procedures, or performance measures, the study shall at a minimum include:

(i) An estimation of the costs for implementation;

(ii) A review of the cultural appropriateness;

(iii) Whether the method, procedure, or performance measure reliably measures a student's ability to meet state learning standards in one or more of the required content areas;

(iv) Whether the method, procedure, or performance measure is in compliance with RCW 28A.655.061(1);

(v) Any challenges to implementation for each of the identified methods, procedures, or performance measures, including any legislative action necessary for implementation; and

(vi) Whether the procedures or methods could be standardized across the state.

(2) The Washington state institute for public policy shall provide an interim report to the legislature by December 1, 2006, and a final report by December 1, 2007. The interim report shall include a preliminary statistical analysis of the information required under subsection (1)(a) of this section and shall include recommendations on at least two alternative assessment options, alternative methods, procedures, or performance measures that were reviewed under subsection (1)(b) and (c) of this section. The final study shall include suggestions for any follow-up studies that the legislature could undertake to continue to build on the information obtained in this study.

(3) The institute shall consult, at a minimum, with nationally recognized experts on assessments including representatives from nationally recognized centers for multicultural education, representatives of the office of the superintendent of public instruction, educators, counselors, parents, the business community, classified employees, career and technical organizations, representatives of federally recognized Washington tribes, representatives of cultural, linguistic, and racial minority groups, and the community of persons with disabilities in developing the initial list of possible alternative assessment options, alternative assessment methods, procedures, or performance measures to be reviewed under subsection (1)(b) and (c) of this section.

(4) The office of the superintendent of public instruction and school districts shall provide the institute with access to all necessary data to conduct the studies in this act.

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 79.100 RCW to read as follows:

A person who causes a vessel to become abandoned or derelict upon aquatic lands is guilty of a misdemeanor.

Sec. 2. RCW 79.100.010 and 2002 c 286 s 2 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Abandoned vessel" means the vessel's owner is not known or cannot be located, or if the vessel's owner is known and located but is unwilling to take control of the vessel, and the vessel has been left, moored, or anchored in the same area without the express consent, or contrary to the rules, of the owner, manager, or lessee of the aquatic lands below or on which the vessel is located for either a period of more than thirty consecutive days or for more than a total of ninety days in any three hundred sixty-five day period. For the purposes of this subsection (1) only, "in the same area" means within a radius of five miles of any location where the vessel was previously moored or anchored on aquatic lands.

(2) "Aquatic lands" means all tidelands, shorelands, harbor areas, and the beds of navigable waters, including lands owned by the state and lands owned by other public or private entities.

(3) "Authorized public entity" includes any of the following: The department of natural resources; the department of fish and wildlife; the parks and recreation commission; a metropolitan park district; a port district; and any city, town, or county with ownership,

management, or jurisdiction over the aquatic lands where an abandoned or derelict vessel is located.

(4) "Department" means the department of natural resources.

(5) "Derelict vessel" means the vessel's owner is known and can be located, and exerts control of a vessel that:

(a) Has been moored, anchored, or otherwise left in the waters of the state or on public property contrary to RCW ((79.01.760)) 79.02.300 or rules adopted by an authorized public entity;

(b) Has been left on private property without authorization of the owner; or

(c) Has been left for a period of seven consecutive days, and:

(i) Is sunk or in danger of sinking;

(ii) Is obstructing a waterway; or

(iii) Is endangering life or property.

(6) "Owner" means any natural person, firm, partnership, corporation, association, government entity, or organization that has a lawful right to possession of a vessel by purchase, exchange, gift, lease, inheritance, or legal action whether or not the vessel is subject to a security interest.

(7) "Vessel" has the same meaning as defined in RCW 53.08.310.

Sec. 3. RCW 79.100.040 and 2002 c 286 s 5 are each amended to read as follows:

(1) Prior to exercising the authority granted in RCW 79.100.030, the authorized public entity must first obtain custody of the vessel. To do so, the authorized public entity must:

(a) Mail notice of its intent to obtain custody, at least twenty days prior to taking custody, to the last known address of the previous owner to register the vessel in any state or with the federal government and to any lien holders or secured interests on record. A notice need not be sent to the purported owner or any other person whose interest in the vessel is not recorded with a state or federal agency;

(b) Post notice of its intent clearly on the vessel for thirty days and publish its intent at least once, more than ten days but less than twenty days prior to taking custody, in a newspaper of general circulation for the county in which the vessel is located; and

(c) Post notice of its intent on the department's internet web site on a page specifically designated for such notices. If the authorized public entity is not the department, the department must facilitate the internet posting.

(2) All notices sent, posted, or published in accordance with this section must, at a minimum, explain the intent of the authorized public entity to take custody of the vessel, the rights of the authorized public entity after taking custody of the vessel as provided in RCW 79.100.030, the procedures the owner must follow in order to avoid custody being taken by the authorized public entity, the procedures the owner must follow in order to reclaim possession after custody is taken by the authorized public entity, and the financial liabilities that the owner may incur as provided for in RCW 79.100.060.

(3) If a vessel is in immediate danger of sinking, breaking up, or blocking navigational channels, and the owner of the vessel cannot be located or is unwilling or unable to assume immediate responsibility for the vessel, ((~~an~~) any) authorized public entity may tow, beach, or otherwise take temporary possession of the vessel. Before taking temporary possession of the vessel, the authorized public entity must make reasonable attempts to consult with the department ((~~and~~) or) the United States coast guard to ensure that other remedies are not available. The basis for taking temporary possession of the vessel must be set out in writing by the authorized public entity within seven days of taking action and be submitted to the owner, if known, as soon thereafter as is reasonable. If the authorized public entity has not already provided the required notice, immediately after taking possession of the vessel, the authorized public entity must initiate the notice provisions in subsection (1) of this section. The authorized public entity must complete the notice requirements of subsection (1) of this section before using or disposing of the vessel as authorized in RCW 79.100.050.

Sec. 4. RCW 79.100.060 and 2002 c 286 s 7 are each amended to read as follows:

(1) The owner of an abandoned or derelict vessel is responsible for reimbursing an authorized public entity for all reasonable and auditable costs associated with the removal or disposal of the owner's vessel under this chapter. These costs include, but are not limited to, costs incurred exercising the authority granted in RCW 79.100.030, all administrative costs incurred by the authorized public entity during the procedure set forth in RCW 79.100.040, removal and disposal costs, and costs associated with environmental damages directly or indirectly caused by the vessel. An authorized public entity that has taken temporary possession of a vessel may require that all reasonable and auditable costs associated with the removal of the vessel be paid before the vessel is released to the owner.

(2) Reimbursement for costs may be sought from an owner who is identified subsequent to the vessel's removal and disposal.

(3) If the full amount of all costs due to the authorized public entity under this chapter is not paid to the authorized public entity within thirty days after first notifying the responsible parties of the amounts owed, the authorized public entity or the department may bring an action in any court of competent jurisdiction to recover the costs, plus reasonable attorneys' fees and costs incurred by the authorized public entity.

NEW SECTION. Sec. 5. A new section is added to chapter 79.100 RCW to read as follows:

(1) A person seeking to contest an authorized public entity's decision to take temporary possession or custody of a vessel under this chapter, or to contest the amount of reimbursement owed to an authorized public entity under this chapter, may request a hearing in accordance with this section.

(2)(a) If the contested decision or action was undertaken by a state agency, a written request for a hearing related to the decision or action must be filed with the aquatic resources division of the department within twenty days of the date the authorized public entity acquires custody of the vessel under RCW 79.100.040, or if the vessel is redeemed before the authorized public entity acquires custody, the date of redemption, or the right to a hearing is deemed waived and the vessel's owner is liable for any costs owed the authorized public entity. In the event of litigation, the prevailing party is entitled to reasonable attorneys' fees and costs.

(b) Upon receipt of a timely hearing request, the department shall proceed to hear and determine the validity of the decision to take the vessel into temporary possession or custody and the reasonableness of any towing, storage, or other charges permitted under this chapter. Within five business days after the request for a hearing is filed, the department shall notify the vessel owner requesting the hearing and the authorized public entity of the date, time, and location for the hearing. Unless the vessel is redeemed before the request for hearing is filed, the department shall set the hearing on a date that is within ten business days of the filing of the request for hearing. If the vessel is redeemed before the request for hearing is filed, the department shall set the hearing on a date that is within sixty days of the filing of the request for hearing.

(3)(a) If the contested decision or action was undertaken by a metropolitan park district, port district, city, town, or county, which has adopted rules or procedures for contesting decisions or actions pertaining to derelict or abandoned vessels, those rules or procedures must be followed in order to contest a decision to take temporary possession or custody of a vessel, or to contest the amount of reimbursement owed.

(b) If the metropolitan park district, port district, city, town, or county has not adopted rules or procedures for contesting decisions or actions pertaining to derelict or abandoned vessels, then a person requesting a hearing under this section must follow the procedure established in RCW 53.08.320(5) for contesting the decisions or actions of moorage facility operators.

Sec. 6. RCW 79.100.100 and 2002 c 286 s 11 are each amended to read as follows:

(1) The derelict vessel removal account is created in the state treasury. All receipts from RCW 79.100.050 and 79.100.060 and those moneys specified in RCW 88.02.030 and 88.02.050 must be deposited into the account. The account is authorized to receive gifts, grants, and endowments from public or private sources as may be

made from time to time, in trust or otherwise, for the use and benefit of the purposes of this chapter and expend the same or any income according to the terms of the gifts, grants, or endowments provided those terms do not conflict with any provisions of this section or any guidelines developed to prioritize reimbursement of removal projects associated with this chapter. Moneys in the account may only be spent after appropriation. Expenditures from the account shall be used by the department to reimburse authorized public entities for ~~((seventy-five))~~ up to ninety percent of the total reasonable and auditable administrative, removal, disposal, and environmental damage costs of abandoned or derelict vessels when the previous owner is either unknown after a reasonable search effort or insolvent. ~~((During the 2001-2003 biennium, up to forty percent of the expenditures from the account may be used for administrative expenses of the department of licensing and department of natural resources in implementing this chapter.))~~ Costs associated with removal and disposal of an abandoned or derelict vessel under the authority granted in RCW 53.08.320 also qualify for reimbursement from the derelict vessel removal account. In each ~~((subsequent))~~ biennium, up to twenty percent of the expenditures from the account may be used for administrative expenses of the department of licensing and department of natural resources in implementing this chapter.

(2) If the balance of the account reaches one million dollars as of March 1st of any year, the department must notify the department of licensing and the collection of any fees associated with this account must be suspended for the following fiscal year.

(3) Priority for use of this account is for the removal of derelict and abandoned vessels that are in danger of sinking, breaking up, or blocking navigation channels, or that present environmental risks such as leaking fuel or other hazardous substances. The department must develop criteria, in the form of informal guidelines, to prioritize removal projects associated with this chapter, but may not consider whether the applicant is a state or local entity when prioritizing. The guidelines must also include guidance to the authorized public entities as to what removal activities and associated costs are reasonable and eligible for reimbursement.

(4) The department must keep all authorized public entities apprized of the balance of the derelict vessel removal account and the funds available for reimbursement. The guidelines developed by the department must also be made available to the other authorized public entities. This subsection (4) must be satisfied by utilizing the least costly method, including maintaining the information on the department's internet web site, or any other cost-effective method.

(5) An authorized public entity may contribute its ~~((twenty-five))~~ ten percent of costs that are not eligible for reimbursement by using in-kind services, including the use of existing staff, equipment, and volunteers.

(6) This chapter does not guarantee reimbursement for an authorized public entity. Authorized public entities seeking certainty in reimbursement prior to taking action under this chapter may first notify the department of their proposed action and the estimated total costs. Upon notification by an authorized public entity, the department must make the authorized public entity aware of the status of the fund and the likelihood of reimbursement being available. The department may offer technical assistance and assure reimbursement for up to two years following the removal action if an assurance is appropriate given the balance of the fund and the details of the proposed action.

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

(1) Carbon monoxide is a potentially deadly gas that can lead to brain injury and death.

(2) Marine engines are not subject to the same federal and state-mandated emission controls as automobiles and, therefore, can emit dangerously high concentrations of carbon monoxide into the atmosphere, increasing the chance of exposure to potentially lethal amounts of carbon monoxide.

(3) Federal agencies have found that carbon monoxide can gather in deadly concentrations behind ski boats and cabin cruisers.

(4) Dangerous levels of carbon monoxide can accumulate around vessel swim decks and areas at the stern of the boat where occupants frequently sit or swim because the exhaust ports for both propulsion engines and generators are located nearby.

NEW SECTION. Sec. 2. A new section is added to chapter 79A.60 RCW to read as follows:

(1) It is unlawful for a person to operate a motor driven boat or vessel, other than a personal watercraft, or have the engine of a vessel run idle, when an individual is engaged in stern deck recreation.

(2) A violation of this subsection is an infraction punishable by a fine of up to one hundred dollars.

Sec. 3. RCW 79A.60.630 and 2005 c 392 s 3 are each amended to read as follows:

(1) The commission shall establish and implement by rule a program to provide required boating safety education. The boating safety education program shall include training on preventing the spread of aquatic invasive species. The program shall be phased in so that all boaters not exempted under RCW 79A.60.640(3) are required to obtain a boater education card by January 1, 2016. To obtain a boater education card, a boater shall provide a certificate of accomplishment issued by a boating educator for taking and passing an accredited boating safety education course, or pass an equivalency exam, or provide proof of completion of a course that meets the standard adopted by the commission.

(2) As part of the boating safety education program, the commission shall:

(a) Establish a program to be phased over eleven years starting July 1, 2005, with full implementation by January 1, 2016. The period July 1, 2005, through December 31, 2007, will be program development, boater notification of the new requirements for mandatory education, and processing cards to be issued to individuals having taken an accredited course prior to January 1, 2008. The schedule for phase-in of the mandatory education requirement by age group is as follows:

January 1, 2008 - All boat operators twenty years old and younger;
January 1, 2009 - All boat operators twenty-five years old and younger;

January 1, 2010 - All boat operators thirty years old and younger;
January 1, 2011 - All boat operators thirty-five years old and younger;

January 1, 2012 - All boat operators forty years old and younger;
January 1, 2013 - All boat operators fifty years old and younger;
January 1, 2014 - All boat operators sixty years old and younger;
January 1, 2015 - All boat operators seventy years old and younger;
January 1, 2016 - All boat operators;

(b) Establish a minimum standard of boating safety education accomplishment. The standard must be consistent with the applicable standard established by the national association of state boating law administrators;

(c) Adopt minimum standards for boating safety education course of instruction and examination that ensures compliance with the national association of state boating law administrators minimum standards;

(d) Approve and provide accreditation to boating safety education courses operated by volunteers, or commercial or nonprofit organizations, including, but not limited to, courses given by the United States coast guard auxiliary and the United States power squadrons;

(e) Include information about the dangers of carbon monoxide poisoning at the stern of a vessel and how to prevent such poisoning;

(f) Develop an equivalency examination that may be taken as an alternative to the boating safety education course;

~~((f))~~ (g) Establish a fee of ten dollars for the boater education card to fund all commission activities related to the boating safety education program created by chapter 392, Laws of 2005, including the initial costs of developing the program. Any surplus funds resulting from the fees received shall be distributed by the commission as grants to local marine law enforcement programs approved by the commission as provided in RCW 88.02.040;

~~((g))~~ (h) Establish a fee for the replacement of the boater education card that covers the cost of replacement;

~~((h))~~ (i) Consider and evaluate public agency and commercial opportunities to assist in program administration with the intent to keep administrative costs to a minimum;

"NEW SECTION. Sec. 1. The legislature finds that a convenient, safe, and environmentally sound system for the collection, transportation, and recycling of covered electronic products must be established. The legislature further finds that the system must encourage the design of electronic products that are less toxic and more recyclable. The legislature further finds that the responsibility for this system must be shared among all stakeholders, with manufacturers financing the collection, transportation, and recycling system.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Authority" means the Washington materials management and financing authority created under section 28 of this act.

(2) "Authorized party" means a manufacturer who submits an individual independent plan or the entity authorized to submit an independent plan for more than one manufacturer.

(3) "Board" means the board of directors of the Washington materials management and financing authority created under section 29 of this act.

(4) "Collector" means an entity licensed to do business in the state that gathers unwanted covered electronic products from households, small businesses, school districts, small governments, and charities for the purpose of recycling and meets minimum standards that may be developed by the department.

(5) "Contract for services" means an instrument executed by the authority and one or more persons or entities that delineates collection, transportation, and recycling services, in whole or in part, that will be provided to the citizens of the state within service areas as described in the approved standard plan.

(6) "Covered electronic product" includes a cathode ray tube or flat panel computer monitor having a viewable area greater than four inches when measured diagonally, a desktop computer, a laptop or a portable computer, or a cathode ray tube or flat panel television having a viewable area greater than four inches when measured diagonally that has been used in the state by any covered entity regardless of original point of purchase. "Covered electronic product" does not include: (a) A motor vehicle or replacement parts for use in motor vehicles or aircraft, or any computer, computer monitor, or television that is contained within, and is not separate from, the motor vehicle or aircraft; (b) monitoring and control instruments or systems; (c) medical devices; (d) products including materials intended for use as ingredients in those products as defined

in the federal food, drug, and cosmetic act (21 U.S.C. Sec. 301 et seq.) or the virus-serum-toxin act of 1913 (21 U.S.C. (16) "Orphan product" means a covered electronic product that lacks a manufacturer's brand or for which the manufacturer is no longer in business and has no successor in interest.

(17) "Plan's equivalent share" means the weight in pounds of covered electronic products for which a plan is responsible. A plan's equivalent share is equal to the sum of the equivalent shares of each manufacturer participating in that plan.

NEW SECTION. Sec. 3. (1) A manufacturer must participate in an independent plan or the standard plan to implement and finance the collection, transportation, and recycling of covered electronic products.

(2) An independent plan or the standard plan must be implemented and fully operational no later than January 1, 2009.

(3) The manufacturers participating in an approved plan are responsible for covering all administrative and operational costs associated with the collection, transportation, and recycling of their plan's equivalent share of covered electronic products. If costs are passed on to consumers, it must be done without any fees at the time

the unwanted electronic product is delivered or collected for recycling. However, this does not prohibit collectors providing premium or curbside services from charging customers a fee for the additional collection cost of providing this service, when funding for collection provided by an independent plan or the standard plan does not fully cover the cost of that service.

(4) Nothing in this chapter changes or limits the authority of the Washington utilities and transportation commission to regulate collection of solid waste in the state of Washington, including curbside collection of residential recyclable materials, nor does this chapter change or limit the authority of a city or town to provide such service itself or by contract pursuant to RCW 81.77.020.

(5) Manufacturers are encouraged to collaborate with electronic product retailers, certificated waste haulers, processors, recyclers, charities, and local governments within the state in the development and implementation of their plans.

NEW SECTION. Sec. 4. (1) By January 1, 2007, and annually thereafter, each manufacturer must register with the department.

(2) A manufacturer must submit to the department with each registration or annual renewal a fee to cover the administrative costs of this chapter as determined by the department under section 23 of this act.

(3) The department shall review the registration or renewal application and notify the manufacturer if their registration does not meet the requirements of this section. Within thirty days of receipt of such a notification from the department, the manufacturer must file with the department a revised registration addressing the requirements noted by the department.

(4) The registration must include the following information:

(a) The name and contact information of the manufacturer submitting the registration;

(b) The manufacturer's brand names of covered electronic products, including all brand names sold in the state in the past, all brand names currently being sold in the state, and all brand names for which the manufacturer has legal responsibility under section 10 of this act;

(c) The method or methods of sale used in the state; and

(d) Whether the registrant will be participating in the standard plan or submitting an independent plan to the department for approval.

(5) The registrant shall submit any changes to the information provided in the registration to the department within fourteen days of such change.

(6) The department shall identify, using all reasonable means, manufacturers that are in business or that are no longer in business but that have a successor in interest by examining best available return share data and other pertinent data. The department shall notify manufacturers that have been identified and for whom an address has been found of the requirements of this chapter, including registration and plan requirements under this section and section 5 of this act.

NEW SECTION. Sec. 5. (1) A manufacturer must participate in the standard plan administered by the authority, unless the manufacturer obtains department approval for an independent plan for the collection, transportation, and recycling of unwanted electronic products.

(2) An independent plan may be submitted by an individual manufacturer or by a group of manufacturers, provided that:

(a) Each independent plan represents at least a five percent return share of covered electronic products; and

(b) The manufacturer is not a new entrant or a white box manufacturer.

(3) An individual manufacturer submitting an independent plan to the department is responsible for collecting, transporting, and recycling its equivalent share of covered electronic products.

(4)(a) Manufacturers collectively submitting an independent plan are responsible for collecting, transporting, and recycling the sum of the equivalent shares of each participating manufacturer.

(b) Each group of manufacturers submitting an independent plan must designate a party authorized to file the plan with the department on their behalf. A letter of certification from each of the

manufacturers designating the authorized party must be submitted to the department together with the plan.

(5) Each manufacturer in the standard plan or in an independent plan retains responsibility and liability under this chapter in the event that the plan fails to meet the manufacturer's obligations under this chapter.

NEW SECTION. Sec. 6. (1) All initial independent plans and the initial standard plan required under section 5 of this act must be submitted to the department by February 1, 2008. The department shall review each independent plan and the standard plan.

(2) The authority submitting the standard plan and each authorized party submitting an independent plan to the department must pay a fee to the department to cover the costs of administering and implementing this chapter. The department shall set the fees as described under section 23 of this act.

(3) The fees in subsection (2) of this section apply to the initial plan submission and plan updates and revisions required in section 7 of this act.

(4) Within ninety days after receipt of a plan, the department shall determine whether the plan complies with this chapter. If the plan is approved, the department shall send a letter of approval. If a plan is rejected, the department shall provide the reasons for rejecting the plan to the authority or authorized party. The authority or authorized party must submit a new plan within sixty days after receipt of the letter of disapproval.

(5) An independent plan and the standard plan must contain the following elements:

(a) Contact information for the authority or authorized party and a comprehensive list of all manufacturers participating in the plan and their contact information;

(b) A description of the collection, transportation, and recycling systems and service providers used, including a description of how the authority or authorized party will:

(i) Seek to use businesses within the state, including retailers, charities, processors, and collection and transportation services; and

(ii) Fairly compensate collectors for providing collection services;

(c) The method or methods for the reasonably convenient collection of all product types of covered electronic products in rural and urban areas throughout the state, including how the plan will provide for collection services in each county of the state and for a minimum of one collection site or alternate collection service for each city or town with a population greater than ten thousand. A collection site for a county may be the same as a collection site for a city or town in the county;

(d) A description of how the plan will provide service to small businesses, small governments, charities, and school districts in Washington;

(e) The processes and methods used to recycle covered electronic products including a description of the processing that will be used and the facility location;

(f) Documentation of audits of each processor used in the plan and compliance with processing standards established under section 25 of this act;

(g) A description of the accounting and reporting systems that will be employed to track progress toward the plan's equivalent share;

(h) A timeline describing startup, implementation, and progress towards milestones with anticipated results;

(i) A public information campaign to inform consumers about how to recycle their covered electronic products at the end of the product's life.

(6) The standard plan shall address how it will incorporate and fairly compensate registered collectors providing curbside or premium services such that they are not compensated at a lower rate for collection costs than the compensation offered other collectors providing drop-off collection sites in that geographic area.

(7) All transporters and collectors used to fulfill the requirements of this section must be registered as described in section 24 of this act.

NEW SECTION. Sec. 7. (1) An independent plan and the standard plan must be updated at least every five years and as required in (a) and (b) of this subsection.

(a) If the program fails to provide service in each county in the state or meet other plan requirements, the authority or authorized party shall submit to the department within sixty days of failing to provide service an updated plan addressing how the program will be adjusted to meet the program geographic coverage and collection service requirements established in section 9 of this act.

(b) The authority or authorized party shall notify the department of any modification to the plan. If the department determines that the authority or authorized party has significantly modified the program described in the plan, the authority or authorized party shall submit a revised plan describing the changes to the department within sixty days of notification by the department.

(2) Within sixty days after receipt of a revised plan, the department shall determine whether the revised plan complies with this chapter. If the revised plan is approved, the department shall send a letter of approval. If the revised plan is rejected, the department shall provide the reasons for rejecting the plan to the authority or authorized party. The authority or authorized party must submit a new plan revision within sixty days after receipt of the letter of disapproval.

(3) The authority or authorized parties may buy and sell collected covered electronic products with other programs without submitting a plan revision for review.

NEW SECTION. Sec. 8. (1) A manufacturer participating in an independent plan may join the standard plan by notifying the authority and the department of its intention at least five months prior to the start of the next program year.

(2) Manufacturers may not change from one plan to another plan during a program year.

(3) A manufacturer participating in the standard plan wishing to implement or participate in an independent plan may do so by complying with rules adopted by the department under section 23 of this act.

NEW SECTION. Sec. 9. (1) A program must provide collection services for covered electronic products of all product types that are reasonably convenient and available to all citizens of the state residing within its geographic boundaries, including both rural and urban areas. Each program must provide collection service in every county of the state. A program may provide collection services jointly with another plan or plans.

(a) For any city or town with a population of greater than ten thousand, each program shall provide a minimum of one collection site or alternate collection service described in subsection (3) of this section or a combination of sites and alternate service that together provide at least one collection opportunity for all product types. A collection site for a county may be the same as a collection site for a city or town in the county.

(b) Collection sites may include electronics recyclers and repair shops, recyclers of other commodities, reuse organizations, charities, retailers, government recycling sites, or other suitable locations.

(c) Collection sites must be staffed, open to the public at a frequency adequate to meet the needs of the area being served, and on an on-going basis.

(2) A program may limit the number of covered electronic products or covered electronic products by product type accepted per customer per day or per delivery at a collection site or service. All covered entities may use a collection site as long as the covered entities adhere to any restrictions established in the plans.

(3) A program may provide collection services in forms different than collection sites, such as curbside services, if those alternate services provide equal or better convenience to citizens and equal or increased recovery of unwanted covered electronic products.

(4) For rural areas without commercial centers or areas with widely dispersed population, a program may provide collection at the nearest commercial centers or solid waste sites, collection events, mail-back systems, or a combination of these options.

(5) For small businesses, small governments, charities, and school districts that may have large quantities of covered electronic

products that cannot be handled at collection sites or curbside services, a program may provide alternate services. At a minimum, a program must provide for processing of these large quantities of covered electronic products at no charge to the small businesses, small governments, charities, and school districts.

NEW SECTION. Sec. 10. Any person acquiring a manufacturer, or who has acquired a manufacturer, shall have all responsibility for the acquired company's covered electronic products, including covered electronic products manufactured prior to the effective date of this section, unless that responsibility remains with another entity per the purchase agreement and the acquiring manufacturer provides the department with a letter from the other entity accepting responsibility for the covered electronic products. Cobranding manufacturers may negotiate with retailers for responsibility for those products and must notify the department of the results of their negotiations.

NEW SECTION. Sec. 11. (1) An independent plan and the standard plan must implement and finance an auditable, statistically significant sampling of covered electronic products entering its program every program year. The information collected must include a list of the brand names of covered electronic products by product type, the number of covered electronic products by product type, the weight of covered electronic products that are identified for each brand name or that lack a manufacturer's brand, the total weight of the sample by product type, and any additional information needed to assign return share.

(2) The sampling must be conducted in the presence of the department or a third-party organization approved by the department. The department may, at its discretion, audit the methodology and the results.

(3) After the fifth program year, the department may reassess the sampling required in this section. The department may adjust the frequency at which manufacturers must implement the sampling or may adjust the frequency at which manufacturers must provide certain information from the sampling. Prior to making any changes, the department shall notify the public, including all registered manufacturers, and provide a comment period. The department shall notify all registered manufacturers of any such changes.

NEW SECTION. Sec. 12. (1) An independent plan and the standard plan must inform covered entities about where and how to reuse and recycle their covered electronic products at the end of the product's life, including providing a web site or a toll-free telephone number that gives information about the recycling program in sufficient detail to educate covered entities regarding how to return their covered electronic products for recycling.

(2) The department shall promote covered electronic product recycling by:

(a) Posting information describing where to recycle unwanted covered electronic products on its web site;

(b) Providing information about recycling covered electronic products through a toll-free telephone service; and

(c) Developing and providing artwork for use in flyers and signage to retailers upon request.

(3) Local governments shall promote covered electronic product recycling, including listings of local collection sites and services, through existing educational methods typically used by each local government.

(4) A retailer who sells new covered electronic products shall provide information to consumers describing where and how to recycle covered electronic products and opportunities and locations for the convenient collection or return of the products. This requirement can be fulfilled by providing the department's toll-free telephone number and web site. Remote sellers may include the information in a visible location on their web site as fulfillment of this requirement.

(5) Manufacturers, state government, local governments, retailers, and collection sites and services shall collaborate in the development and implementation of the public information campaign.

NEW SECTION. Sec. 13. (1) The electronic products recycling account is created in the custody of the state treasurer. All payments resulting from plans not reaching their equivalent share, as described in section 22 of this act, shall be deposited into the account. Any moneys collected for manufacturer registration fees, fees associated with reviewing and approving plans and plan revisions, and penalties levied under this chapter shall be deposited into the account.

(2) Only the director of the department or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(3) Moneys in the account may be used solely by the department for the purposes of fulfilling department responsibilities specified in this chapter and for expenditures to the authority and authorized parties resulting from plans exceeding their equivalent share, as described in section 22 of this act. Funds in the account may not be diverted for any purpose or activity other than those specified in this section.

NEW SECTION. Sec. 14. (1) By March 1st of the second program year and each program year thereafter, the authority and each authorized party shall file with the department an annual report for the preceding program year.

(2) The annual report must include the following information:

(a) The total weight in pounds of covered electronic products collected and recycled, by county, during the preceding program year including documentation verifying collection and processing of that material. The total weight in pounds includes orphan products. The report must also indicate and document the weight in pounds received from each nonprofit charitable organization primarily engaged in the business of reuse and resale used by the plan. The report must document the weight in pounds that were received in large quantities from small businesses, small governments, charities and school districts as described in section 9(5) of this act;

(b) The collection services provided in each county and for each city with a population over ten thousand including a list of all collection sites and services operating in the state in the prior program year and the parties who operated them;

(c) A list of processors used, the weight of covered electronic products processed by each direct processor, and a description of the processes and methods used to recycle the covered electronic products including a description of the processing and facility locations. The report must also include a list of subcontractors who further processed or recycled unwanted covered electronic products, electronic components, or electronic scrap described in section 25(1)(b) of this act, including facility locations;

(d) Other documentation as established under section 25(1)(d) of this act;

(e) Educational and promotional efforts that were undertaken;

(f) The results of sampling and sorting as required in section 11 of this act, including a list of the brand names of covered electronic products by product type, the number of covered electronic products by product type, the weight of covered electronic products that are identified for each brand name or that lack a manufacturer's brand, and the total weight of the sample by product type;

(g) The list of manufacturers that are participating in the standard plan; and

(h) Any other information deemed necessary by the department.

(3) The department shall review each report within ninety days of its submission and shall notify the authority or authorized party of any need for additional information or documentation, or any deficiency in its program.

(4) All reports submitted to the department must be available to the general public through the internet. Proprietary information submitted to the department under this chapter is exempt from public disclosure under RCW 42.56.270.

NEW SECTION. Sec. 15. Nonprofit charitable organizations that qualify for a taxation exemption under section 501(c)(3) of the internal revenue code of 1986 (26 U.S.C. Sec. 501(c)(3)) that are primarily engaged in the business of reuse and resale and that are used by a plan to collect covered electronic products shall file a report with the department by March 1st of the second program year

and each program year thereafter. The report must indicate and document the weight of covered electronic products sent for recycling during the previous program year attributed to each plan that the charitable organization is participating in.

NEW SECTION. Sec. 16. (1) Beginning January 1, 2007, no person may sell or offer for sale an electronic product to any person in the state unless the electronic product is labeled with the manufacturer's brand. The label must be permanently affixed and readily visible.

(2) In-state retailers in possession of unlabeled products on January 1, 2007, may exhaust their stock through sales to the public.

NEW SECTION. Sec. 17. No person may sell or offer for sale a covered electronic product to any person in this state unless the manufacturer of the covered electronic product has filed a registration with the department under section 4 of this act and is participating in an approved plan under section 5 of this act. A person that sells or offers for sale a covered electronic product in the state shall consult the department's web site for lists of manufacturers with registrations and approved plans prior to selling a covered electronic product in the state. A person is considered to have complied with this section if on the date the product was ordered from the manufacturer or its agent, the manufacturer was listed as having registered and having an approved plan on the department's web site.

NEW SECTION. Sec. 18. (1) The department shall maintain on its web site the following information:

(a) The names of the manufacturers and the manufacturer's brands that are registered with the department under section 4 of this act;

(b) The names of the manufacturers and the manufacturer's brands that are participating in an approved plan under section 5 of this act;

(c) The names and addresses of the collectors and transporters that are listed in registrations filed with the department under section 24 of this act;

(d) The names and addresses of the processors used to fulfill the requirements of the plans;

(e) Return and equivalent shares for all manufacturers.

(2) The department shall update this web site information promptly upon receipt of a registration or a report.

NEW SECTION. Sec. 19. (1) The department shall determine the return share for each manufacturer in the standard plan or an independent plan by dividing the weight of covered electronic products identified for each manufacturer by the total weight of covered electronic products identified for all manufacturers in the standard plan or an independent plan, then multiplying the quotient by one hundred.

(2) For the first program year, the department shall determine the return share for such manufacturers using all reasonable means and based on best available information regarding return share data from other states and other pertinent data.

(3) For the second and each subsequent program year, the department shall determine the return share for such manufacturers using all reasonable means and based on the most recent sampling of covered electronic products conducted in the state under section 11 of this act.

NEW SECTION. Sec. 20. (1) The department shall determine the total equivalent share for each manufacturer in the standard plan or an independent plan by dividing the return share percentage for each manufacturer by one hundred, then multiplying the quotient by the total weight in pounds of covered electronic products collected for that program year, allowing as needed for the additional credit authorized in subsection (3) of this section.

(2)(a) By June 1st of each program year, the department shall notify each manufacturer of the manufacturer's equivalent share of covered electronic products to be applied to the previous program year. The department shall also notify each manufacturer of how its equivalent share was determined.

(b) By June 1st of each program year, the department shall bill any authorized party or authority that has not attained its plan's equivalent share as determined under section 22 of this act. The authorized party or authority shall remit payment to the department within sixty days from the billing date.

(c) By September 1st of each program year, the department shall pay any authorized party or authority that exceeded its plan's equivalent share.

(3) Plans that utilize the collection services of nonprofit charitable organizations that qualify for a taxation exemption under section 501(c)(3) of the internal revenue code of 1986 (26 U.S.C. Sec. 501(c)(3)) that are primarily engaged in the business of reuse and resale must be given an additional five percent credit to be applied toward a plan's equivalent share for pounds that are received for recycling from those organizations. The department may adjust the percentage of credit annually.

NEW SECTION. Sec. 21. (1) By June 1, 2007, the department shall notify each manufacturer of its preliminary return share of covered electronic products for the first program year.

(2) Preliminary return share of covered electronic products must be announced annually by June 1st of each program year for the next program year.

(3) Manufacturers may challenge the preliminary return share by written petition to the department. The petition must be received by the department within thirty days of the date of publication of the preliminary return shares.

(4) The petition must contain a detailed explanation of the grounds for the challenge, an alternative calculation, and the basis for such a calculation, documentary evidence supporting the challenge, and complete contact information for requests for additional information or clarification.

(5) Sixty days after the publication of the preliminary return share, the department shall make a final decision on return share, having fully taken into consideration any and all challenges to its preliminary calculations.

(6) A written record of challenges received and a summary of the bases for the challenges, as well as the department's response, must be published at the same time as the publication of the final return share.

(7) By August 1, 2007, the department shall publish the final return shares for the first program year. By August 1st of each program year, the department shall publish the final return shares for use in the coming program year.

NEW SECTION. Sec. 22. (1) For an independent plan and the standard plan, if the total weight in pounds of covered electronic products collected during a program year is less than the plan's equivalent share of covered electronic products for that year, then the authority or authorized party shall submit to the department a payment equal to the weight in pounds of the deficit multiplied by the reasonable collection, transportation, and recycling cost for covered electronic products and an administrative fee. Moneys collected by the department must be deposited in the electronic products recycling account.

(2) For an independent plan and the standard plan, if the total weight in pounds of covered electronic products collected during a program year is more than the plan's equivalent share of covered electronic products for that year, then the department shall submit to the authority or authorized party, a payment equal to the weight in pounds of the surplus multiplied by the reasonable collection, transportation, and recycling cost for covered electronic products.

(3) For purposes of this section, the initial reasonable collection, transportation, and recycling cost for covered electronic products is forty-five cents per pound and the administrative fee is five cents per pound.

(4) Fees assessed to the authority and manufacturers participating in the standard plan must include the costs associated with the department's determination of market share as described in section 30 of this act.

(5) The department may annually adjust the reasonable collection, transportation, and recycling cost for covered electronic products and the administrative fee described in this section. Prior

to making any changes in the fees described in this section, the department shall notify the public, including all registered manufacturers, and provide a comment period. The department shall notify all registered manufacturers of any changes to the reasonable collection, transportation, and recycling cost or the administrative fee by January 1st of the program year in which the change is to take place.

NEW SECTION. Sec. 23. (1) The department shall adopt rules to determine the process for manufacturers to change plans under section 8 of this act.

(2) The department shall establish annual registration and plan review fees for administering this chapter. An initial fee schedule must be established by rule and be adjusted no more often than once every two years. All fees charged must be based on factors relating to administering this chapter and be based on a sliding scale that is representative of annual sales of covered electronic products in the state. Fees must be established in amounts to fully recover and not to exceed expenses incurred by the department to implement this chapter.

(3) The department shall establish an annual process for local governments and local communities to report their satisfaction with the services provided by plans under this chapter. This information must be used by the department in reviewing plan updates and revisions.

(4) The department may adopt rules as necessary for the purpose of implementing, administering, and enforcing this chapter.

NEW SECTION. Sec. 24. Each collector and transporter of covered electronic products in the state must register annually with the department. The registration must include all identification requirements for licensure in the state and the geographic area of the state that they serve. The department shall develop a single form for registration of both collectors and transporters.

NEW SECTION. Sec. 25. (1)(a) The authority and each authorized party shall ensure that each processor used directly by the authority or the authorized party to fulfill the requirements of their respective standard plan or independent plan has provided the authority or the authorized party a written statement that the processor will comply with the requirements of this section.

(b) The international export of any unwanted covered electronic products or electronic components or electronic scrap derived from such products destined for disposal or recycling that are capable of leaching lead, cadmium, mercury, hexavalent chromium, or selenium or selenium compounds in concentrations above the limits listed in 40 C.F.R. Sec. 261.24 as of the effective date of this act shall be prohibited except for exports to:

(i) Countries that are members of the organization for economic cooperation and development;

(ii) Countries that are members of the European community; or

(iii) Countries that have entered into an agreement with the United States that allows for such exports.

(c) Any unwanted electronic products or electronic components derived from such products that are capable of leaching lead, cadmium, mercury, hexavalent chromium, or selenium or selenium compounds in concentrations exceeding the levels established in 40 C.F.R. Sec. 261.24 as of the effective date of this act and exported to countries that are not members of the organization for economic cooperation and development or the European community or with whom the United States has not entered into an agreement for such export for reuse, must be tested and labeled as fully functional or needing only repairs that do not result in the replacement of components capable of leaching these substances in concentrations exceeding the levels established in 40 C.F.R. Sec. 261.24 as of the effective date of this act.

(d) The department shall establish rules to implement this section, including any requirements necessary to ensure that full compliance is adequately documented.

(2) The department shall establish by rule performance standards for environmentally sound management for processors directly used to fulfill the requirements of an independent plan or the standard plan. Performance standards may include financial assurance to

ensure proper closure of facilities consistent with environmental standards.

(3) The department shall establish by rule guidelines regarding nonrecycled residual that may be properly disposed after covered electronic products have been processed.

(4) The department may audit processors that are utilized to fulfill the requirements of an independent plan or the standard plan.

(5) No plan or program required under this chapter may include the use of federal or state prison labor for processing.

NEW SECTION. Sec. 26. (1) No manufacturer may sell or offer for sale a covered electronic product in or into the state unless the manufacturer of the covered electronic product is participating in an approved plan. The department shall send a written warning to a manufacturer that does not have an approved plan or is not participating in an approved plan as required under section 5 of this act. The written warning must inform the manufacturer that it must participate in an approved plan within thirty days of the notice. Any violation after the initial written warning shall be assessed a penalty of up to ten thousand dollars for each violation.

(2) If the authority or any authorized party fails to implement their approved plan, the department must assess a penalty of up to five thousand dollars for the first violation along with notification that the authority or authorized party must implement its plan within thirty days of the violation. After thirty days, the authority or any authorized party failing to implement their approved plan must be assessed a penalty of up to ten thousand dollars for the second and each subsequent violation.

(3) Any person that does not comply with manufacturer registration requirements under section 4 of this act, education and outreach requirements under section 12 of this act, reporting requirements under section 14 of this act, labeling requirements under section 16 of this act, retailer responsibility requirements under section 17 of this act, collector or transporter registration requirements under section 24 of this act, or requirements under section 25 of this act, must first receive a written warning including a copy of the requirements under this chapter and thirty days to correct the violation. After thirty days, a person must be assessed a penalty of up to one thousand dollars for the first violation and up to two thousand dollars for the second and each subsequent violation.

(4) All penalties levied under this section must be deposited into the electronic products recycling account created under section 13 of this act.

(5) The department shall enforce this section.

NEW SECTION. Sec. 27. By December 31, 2012, the department shall provide a report to the appropriate committees of the legislature that includes the following information:

(2) The performance of each plan in meeting its equivalent share, and payments received from and disbursed to each plan from the electronic products recycling account;

(3) A description of the various collection programs used to collect covered electronic products in the state;

(4) An evaluation of how the pounds per capita recycled of covered electronic products in the state compares to programs in other states;

(5) Comments received from local governments and local communities regarding satisfaction with the program, including accessibility and convenience of services provided by the plans;

(6) Recommendations on how to improve the statewide collection, transportation, and recycling system for convenient, safe, and environmentally sound recycling of electronic products; and

(7) An analysis of whether and in what amounts unwanted electronic products and electronic components and electronic scrap exported from Washington have been exported to countries that are not members of the organization for economic cooperation and development or the European union, and recommendations for addressing such exports.

NEW SECTION. Sec. 28. (1) The Washington materials management and financing authority is established as a public body corporate and politic, constituting an instrumentality of the state of Washington exercising essential governmental functions.

(2) The authority shall plan and implement a collection, transportation, and recycling program for manufacturers that have registered with the department their intent to participate in the standard program as required under section 4 of this act.

(3) Membership in the authority is comprised of registered participating manufacturers. Any manufacturer who does not qualify or is not approved to submit an independent plan, or whose independent plan has not been approved by the department, is a member of the authority.

(4) The authority shall act as a business management organization on behalf of the citizens of the state to manage financial resources and contract for services for collection, transportation, and recycling of covered electronic products.

(5) The authority's standard plan is responsible for collecting, transporting, and recycling the sum of the equivalent shares of each participating manufacturer. All new entrants and white box manufacturers must participate in the standard plan.

(6) The authority shall accept into the standard program covered electronic products from any registered collector who meets the requirements of this chapter. The authority shall compensate registered collectors for the reasonable costs associated with collection, but is not required to compensate nor restricted from compensating the additional collection costs resulting from the additional convenience offered to customers through premium and curbside services.

(7) Except as specifically allowed in this chapter, the authority shall operate without using state funds or lending the credit of the state or local governments.

(8) The authority shall develop innovative approaches to improve materials management efficiency in order to ensure and increase the use of secondary material resources within the economy.

NEW SECTION. Sec. 29. (1)(a) The authority is governed by a board of directors. The board of directors is comprised of eleven participating manufacturers, appointed by the director of the department. Five board positions are reserved for representatives of the top ten brand owners by return share of covered electronic products, and six board positions are reserved for representatives of other brands, including at least one board position reserved for a manufacturer who is also a retailer selling their own private label. The return share of covered electronic products used to determine the top ten brand owners for purposes of electing the board must be determined by the department by January 1, 2007.

(b) The board must have representation from both television and computer manufacturers.

(2) The board shall select from its membership the chair of the board and such other officers as it deems appropriate.

(3) A majority of the board constitutes a quorum.

(4) The directors of the department of community, trade, and economic development and the department of ecology, and the state treasurer serve as ex officio members. The state agency directors and the state treasurer serving in ex officio capacity may each designate an employee of their respective departments to act on their behalf in all respects with regard to any matter to come before the authority. Ex officio designations must be made in writing and communicated to the authority director.

(5) The board shall create its own bylaws in accordance with the laws of the state of Washington.

(6) Any member of the board may be removed for misfeasance, malfeasance, or willful neglect of duty after notice and a public hearing, unless the notice and hearing are expressly waived in writing by the affected member.

(7) The members of the board serve without compensation but are entitled to reimbursement, solely from the funds of the authority, for expenses incurred in the discharge of their duties under this chapter.

NEW SECTION. Sec. 30. (1) Manufacturers participating in the standard plan shall pay the authority to cover all administrative

and operational costs associated with the collection, transportation, and recycling of covered electronic products within the state of Washington incurred by the standard program operated by the authority to meet the standard plan's equivalent share obligation as described in section 28(5) of this act.

(2) The authority shall assess charges on each manufacturer participating in the standard plan and collect funds from each participating manufacturer for the manufacturer's share of the costs in subsection (1) of this section. Such shares must be based on current market share as determined by the department. The department shall use statistically valid methodologies to determine market share for those participating in the standard plan. The department shall include the cost of determining current market share in the fees charged to the authority and manufacturers participating in the standard plan as described in section 23(4) of this act. The authority's assignment of shares to manufacturers participating in the standard plan may not include nor be based on electronic products imported through the state and subsequently exported outside the state. Charges assessed under this section must not be formulated in such a way as to create incentives to divert imported electronic products to ports or distribution centers in other states. The authority shall adjust the charges to manufacturers participating in the standard plan as necessary in order to ensure that all costs associated with the identified activities are covered.

(3) Any manufacturer participating in the standard plan may appeal the determination of current market share by written petition to the director of the department. The petition must be received by the director of the department within thirty days of the publication of market share and must contain a detailed explanation and documentary evidence of the grounds for the appeal. Within sixty days of the publication of market share, the director of the department or the director's designee, shall review all appeals and shall make a final determination of market share having fully taken into consideration any and all challenges to its initial determination.

(4) Nothing in this section authorizes the authority to assess fees or levy taxes directly on the sale or possession of electronic products.

(5) If a manufacturer has not met its financial obligations as determined by the authority under this section, the authority shall notify the department that the manufacturer is no longer participating in the standard plan.

(6) The authority shall submit its plan for assessing charges on manufacturers participating in the standard plan to the department for review and approval along with the standard plan as provided in section 6 of this act.

(7) Any manufacturer participating in the standard plan may appeal an assessment of charges levied by the authority under this section to the director of the department. The director of the department or the director's designee shall review all appeals and shall reverse any assessments of charges if the director finds that the authority's determination was an arbitrary administrative decision or an abuse of administrative discretion. If the director of the department reverses an assessment of charges, the authority must redetermine the assessment.

NEW SECTION. Sec. 31. (1) The authority shall use any funds legally available to it for any purpose specifically authorized by this chapter to:

(a) Contract and pay for collecting, transporting, and recycling of covered electronic products and education and other services as identified in the standard plan;

(b) Pay for the expenses of the authority including, but not limited to, salaries, benefits, operating costs and consumable supplies, equipment, office space, and other expenses related to the costs associated with operating the authority;

(c) Pay into the electronic products recycling account amounts billed by the department to the authority for any deficit in reaching the standard plan's equivalent share as required under section 22 of this act; and

(d) Pay the department for the fees for submitting the standard plan and any plan revisions.

(2) If practicable, the authority shall avoid creating new infrastructure already available through private industry in the state.

(3) The authority may not receive an appropriation of state funds, other than:

(a) Funds that may be provided as a one-time loan to cover administrative costs associated with start up of the authority, such as electing the board of directors and conducting the public hearing for the operating plan, provided that no appropriated funds may be used to pay for collection, transportation, or recycling services; and

(b) Funds received from the department from the electronic products recycling account for exceeding the standard plan's equivalent share.

(4) The authority may receive additional sources of funding that do not obligate the state to secure debt.

(5) All funds collected by the authority under this chapter, including interest, dividends, and other profits, are and must remain under the complete control of the authority and its board of directors, be fully available to achieve the intent of this chapter, and be used for the sole purpose of achieving the intent of this chapter.

NEW SECTION. Sec. 32. (1) The board shall adopt a general operating plan of procedures for the authority. The board shall also adopt operating procedures for collecting funds from participating covered electronic manufacturers and for providing funding for contracted services. These operating procedures must be adopted by resolution prior to the authority operating the applicable programs.

(2) The general operating plan must include, but is not limited to: (a) Appropriate minimum reserve requirements to secure the authority's financial stability; and (b) appropriate standards for contracting for services.

(3) The board shall conduct at least one public hearing on the general operating plan prior to its adoption. The authority shall provide and make public a written response to all comments received by the public.

(4) The general operating plan must be adopted by resolution of the board. The board may periodically update the general operating plan as necessary, but must update the plan no less than once every four years. The general operating plan or updated plan must include a report on authority activities conducted since the commencement of authority operation or since the last reported general operating plan, whichever is more recent, including a statement of results achieved under the purposes of this chapter and the general operating plan. Upon adoption, the authority shall conduct its programs in observance of the objectives established in the general operating plan.

NEW SECTION. Sec. 33. (1) The authority shall employ a chief executive officer, appointed by the board, and a chief financial officer, as well as professional, technical, and support staff, appointed by the chief executive officer, necessary to carry out its duties.

(2) Employees of the authority are not classified employees of the state. Employees of the authority are exempt from state service rules and may receive compensation only from the authority at rates competitive with state service.

(3) The authority may retain its own legal counsel.

(4) The departments of ecology and community, trade, and economic development shall provide staff to assist in the creation of the authority. If requested by the authority, the departments of ecology and community, trade, and economic development shall also provide start-up support staff to the authority for its first twelve months of operation, or part thereof, to assist in the quick establishment of the authority. Staff expenses must be paid through funds collected by the authority and must be reimbursed to the departments from the authority's financial resources within the first twenty-four months of operation.

(5) In addition to accomplishing the activities specifically authorized in this chapter, the authority may:

(a) Maintain an office or offices;

(b) Make and execute all manner of contracts, agreements, and instruments and financing documents with public and private parties as the authority deems necessary, useful, or convenient to accomplish its purposes;

(c) Make expenditures as appropriate for paying the administrative costs and expenses of the authority in carrying out the provisions of this chapter;

(d) Give assistance to private and public bodies contracted to provide collection, transportation, and recycling services by providing information, guidelines, forms, and procedures for implementing their programs;

(e) Delegate, through contract, any of its powers and duties if consistent with the purposes of this chapter; and

(f) Exercise any other power the authority deems necessary, useful, or convenient to accomplish its purposes and exercise the powers expressly granted in this chapter.

NEW SECTION. Sec. 34. This chapter is void if a federal law, or a combination of federal laws, takes effect that establishes a national program for the collection and recycling of covered electronic products that substantially meets the intent of this chapter, including the creation of a financing mechanism for collection, transportation, and recycling of all covered electronic products from households, small businesses, school districts, small governments, and charities in the United States.

NEW SECTION. Sec. 35. A new section is added to chapter 43.19 RCW to read as follows:

(1) The department of general administration shall establish purchasing and procurement policies that establish a preference for electronic products that meet environmental performance standards relating to the reduction or elimination of hazardous materials.

(2) The department of general administration shall ensure that their surplus electronic products, other than those sold individually to private citizens, are managed only by registered transporters and by processors meeting the requirements of section 25 of this act.

(3) The department of general administration shall ensure that their surplus electronic products are directed to legal secondary materials markets by requiring a chain of custody record that documents to whom the products were initially delivered through to the end use manufacturer.

ESB 6433 Prime Sponsor, Senator Kastama: Establishing the emergency management, preparedness, and assistance account. Reported by Committee on State Government Operations & Accountability

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that recent events, including the 9/11 terrorist acts, the tsunami in southeast Asia, Hurricanes Katrina and Rita in the gulf coast, outbreaks of avian flu, and the earthquake in Pakistan, have demonstrated the need for a coordinated, comprehensive all-hazards disaster plan involving citizens, industry, local governments, and the state. Washington state's topography, geography, location, and strategic and economic interests place the state at particular risk from both natural disasters and man-made disasters. In response, Washington state and its local governments have implemented nationally recognized all-hazards emergency management and disaster response plans. However, recent studies have revealed the lack of a secure funding source for resolving impediments to the ability of state and local programs to integrate and coordinate comprehensive disaster preparedness. In addition, local programs suffer disparities in funding and expertise, leaving troublesome gaps in a well-coordinated statewide all-hazards emergency management system.

Recognizing that all disasters are local disasters, the legislature therefore intends to strengthen state and local emergency response, mitigation, preparation, and coordination by establishing a stable source of funding with the intent that Washington state become the nationally recognized leader in emergency management. The funding will be dedicated to the development and coordination of state and local government emergency management programs by supporting joint training exercises, citizen and industry coordination with emergency management efforts, public education, and relationship building among local and state emergency management officials.

NEW SECTION. Sec. 2. The emergency management, preparedness, and assistance account is created in the state treasury. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only as provided in section 3 of this act.

NEW SECTION. Sec. 3. (1)(a) The department must use twenty percent of the funds appropriated from the emergency management, preparedness, and assistance account for the department's administration of this section, and to: Fund the department's assessment required by section 4 of this act; fund state agency activities, including military department activities, that develop and coordinate comprehensive emergency management plans; train elected and appointed state officials on state laws, disaster command and response structures, and the roles and responsibilities of officials before, during, and after a disaster; administer periodic joint emergency management training exercises involving the military department and other state agencies; and implement state agency projects that will strengthen emergency response, mitigation, preparation, and coordination.

(b) From the remaining funds, the department shall pay for the study required in section 5 of this act, and the remainder must be allocated for grants to regional agencies, local governments, tribal governments, regional incident management teams, and private organizations to: Develop and coordinate comprehensive emergency management plans; train elected and appointed officials on state laws, ordinances, disaster command and response structures, and the roles and responsibilities of officials before, during, and after a disaster;

administer periodic joint emergency management training exercises; and implement projects that will strengthen emergency response, mitigation, preparation, and coordination.

(2) Projects funded under this section must include, but need not be limited to, projects that will promote statewide and neighborhood level public education on disaster preparedness and recovery issues, situate all weather radios in public buildings, enhance coordination of public sector and private sector relief efforts, and improve the training and operations capabilities of agencies assigned lead or support responsibilities in the state comprehensive emergency management plan.

(3) Grant funding may also be used as seed money to establish a dedicated, full-time emergency management director in every county that does not have such a director as of the effective date of this section.

(4) The department must establish criteria and procedures for competitive allocation of these funds by rule. At a minimum, the rules must:

(a) Establish preferential funding for projects and exercises addressing needs and recommendations identified by the department in the assessment conducted under section 4 of this act;

(b) Specify a formula that establishes a base grant allocation and weighted factors for funds to be allocated over the base grant amount for regional agencies, local governments, tribal governments, regional incident management teams, and private organizations with existing emergency management and preparedness programs that are located in a part of the state where the risk of exposure to disasters is deemed by the department to be particularly acute;

(c) Specify match requirements; and

(d) Include requirements that, at a minimum, a local emergency management agency have: A comprehensive emergency management plan or be a member of a joint local organization for emergency management; and a local director who works at least forty hours a week in that capacity, or have designated by ordinance or resolution an emergency management coordinator who works at least fifteen hours a week in that capacity.

(5) No more than five percent of any award made under subsection (1)(b) of this section may be used for administrative expenses.

(6) The distribution formula provided in this section may be adjusted proportionally when necessary to meet any matching requirements imposed as a condition of receiving federal disaster relief assistance or planning funds.

(7) Local governments and other recipients of funds under this section may not use the funds to supplant existing funding.

NEW SECTION. Sec. 4. Beginning in January 2008 and biennially thereafter, the department must conduct in conjunction with the emergency management council a strategic assessment of, and issue a report on, the ability of state, local, and tribal emergency management organizations to effectively provide for all phases of comprehensive emergency management. The assessment must:

(1) Evaluate state, local, and tribal emergency management capabilities and needs;

(2) Evaluate the ability of state, local, and tribal emergency management organizations to provide emergency management mitigation, preparedness, response, and recovery;

(3) Evaluate the effectiveness of the emergency management structure at the state, local, and tribal levels;

(4) Provide findings and make recommendations that increase the ability of state, local, and tribal emergency management organizations to meet current and future risks; and

(5) Detail where and for what purpose funds under section 3(1)(b) of this act have been distributed.

NEW SECTION. Sec. 5. The joint legislative audit and review committee must study and review the performance of programs implemented under this act. The committee must examine at least the following factors: The number and type of joint exercises conducted under section 3 of this act; the number of programs receiving grant money and the status of those programs; the coordination of comprehensive emergency management plans between state and local jurisdictions; the number of training programs administered; the

number of comprehensive emergency management or safety plans created using funds distributed under section 3 of this act; and the number of emergency preparedness officials created and trained with funds distributed under this act. The committee must provide a final report on this review by December 2008. Funds from the emergency management, preparedness, and assistance account may be provided to the committee for the purposes of conducting the study.

NEW SECTION. Sec. 6. Sections 2 through 4 of this act are each added to chapter 38.52 RCW."

Correct the title.

SSB 6439 Prime Sponsor, Senate Committee On Natural Resources, Ocean & Recreation: Concerning coastal crab fisheries licenses. Reported by Committee on Natural Resources, Ecology & Parks

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 77.70.350 and 1994 c 260 s 10 are each amended to read as follows:

(1) The following restrictions apply to vessel designations and substitutions on Dungeness crab-coastal fishery licenses (~~and Dungeness crab-coastal class B fishery licenses~~):

(a) The holder of the license may not:

(i) Designate on the license a vessel the hull length of which exceeds ninety-nine feet (~~nor may the holder~~); or

(ii) Change vessel designation if the hull length of the vessel proposed to be designated exceeds the hull length (~~of the currently designated vessel~~) designated on the license on the effective date of this section by more than ten feet. However, if such vessel designation is the result of an emergency transfer, the applicable vessel length would be the most recent permanent vessel designation on the license prior to the effective date of this section;

(b) If the hull length of the vessel proposed to be designated is comparable to or exceeds by up to one foot the hull length of the currently designated vessel, the department may change the vessel designation no more than once in any two consecutive Washington state coastal crab seasons unless the currently designated vessel is lost or in disrepair such that it does not safely operate, in which case the department may allow a change in vessel designation;

(c) If the hull length of the vessel proposed to be designated exceeds by between one and ten feet the hull length of the (~~currently~~) designated vessel on the effective date of this section, the department may change the vessel designation no more than once ((in any five consecutive Washington state coastal crab seasons)) on or after the effective date of this section, unless a request is made by the license holder during a Washington state coastal crab season for an emergency change in vessel designation. If such an emergency request is made, the director may allow a temporary change in designation to another vessel, if the hull length of the other vessel does not exceed by more than ten feet the hull length of the currently designated vessel.

(2) For the purposes of this section, "hull length" means the length overall of a vessel's hull as shown by (~~United States coast guard documentation or~~) marine survey(;) or (~~for vessels that do not require United States coast guard documentation;~~) by manufacturer's specifications (~~or marine survey~~).

(3) By December 31, 2010, the department must, in cooperation with the coastal crab fishing industry, evaluate the effectiveness of this section and, if necessary, recommend any statutory changes to the appropriate committees of the senate and house of representatives."

ESSB 6508 Prime Sponsor, Senate Committee On Water, Energy & Environment: Developing minimum renewable fuel content requirements and fuel quality standards in an alternative fuels market. Reported by Committee on Technology, Energy & Communications

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that it is in the public interest to establish a market for alternative fuels in Washington. By requiring a growing percentage of our fuel supply to be renewable biofuel that meets appropriate fuel quality standards, we will reduce our dependence on imports of foreign oil, improve the health and quality of life for Washingtonians, and stimulate the creation of a new industry that benefits our farmers and rural communities. The legislature finds that it is in the public interest for the state to play a central role in spurring the market by purchasing an increasing amount of alternative fuels. The legislature agrees with national leaders that we must act now, and that the more than two years before the requirements of this act take effect is sufficient time

for feedstock and fuel providers to prepare for successful implementation.

NEW SECTION. Sec. 2. A new section is added to chapter 19.112 RCW to read as follows:

(1) Special fuel licensees under chapter 82.38 RCW, other than international fuel tax agreement licensees and special fuel distributors, shall provide evidence to the department of licensing that at least two percent of total annual diesel fuel sales are biodiesel fuel sales, six months after the director determines that feedstock grown in Washington state can satisfy a two-percent requirement, or the date November 30, 2008, has passed.

(2) Special fuel licensees under chapter 82.38 RCW, other than international fuel tax agreement licensees and special fuel distributors, shall provide evidence to the department of licensing that at least five percent of total annual diesel fuel sales are biodiesel fuel sales, six months after the director determines that both in-state oil seed crushing capacity and feedstock grown in Washington state can satisfy a three-percent requirement.

(3) For the purposes of this chapter, "biodiesel fuel" has the meaning provided in RCW 82.29A.135.

(4) The director and the director of licensing shall adopt rules for enforcing and carrying out the purposes of this section.

NEW SECTION. Sec. 3. A new section is added to chapter 19.112 RCW to read as follows:

(1) Beginning December 1, 2008, all gasoline sold or offered for sale in Washington shall contain at least two percent denatured ethanol by volume.

(2) If the director of ecology determines that ethanol content greater than two percent will not jeopardize continued attainment of the federal clean air act's national ambient air quality standard for ozone pollution in Washington and the director of agriculture determines that sufficient raw materials are available within Washington to support economical production of ethanol at higher levels, the director of agriculture may require by rule that all gasoline sold or offered for sale in Washington shall contain up to a maximum of ten percent of denatured ethanol by volume. The director of agriculture shall allow six months to meet the new minimum content requirement under this subsection.

(3) The director of agriculture shall adopt rules for enforcing and carrying out the purposes of this section.

Sec. 4. RCW 19.112.020 and 1990 c 102 s 3 are each amended to read as follows:

(1) This chapter shall be administered by the director or his or her authorized agent. ~~((For the purpose of administering this chapter:))~~

(2) The director, by rule, shall adopt standards for motor fuel and for biodiesel fuel or fuel blended with biodiesel fuel by adopting all or part of the standards set forth in the Annual Book of ASTM Standards and supplements ((thereto, and revisions thereof, are adopted)), amendments, or revisions thereof, all or part of the standards set forth in the National Institute of Standards and Technology (NIST) Handbook 130, Uniform Laws and Regulations in the areas of legal metrology and engine fuel quality rules, and any supplements, amendments, or revisions thereof, together with applicable federal environmental protection agency standards. If a conflict exists between federal environmental protection agency standards, ASTM standards, or ((state)) NIST standards, for purposes of uniformity, federal environmental protection agency standards shall take precedence over ASTM and NIST standards. ((Any state standards adopted must be consistent with federal environmental protection agency standards and ASTM standards not in conflict with federal environmental protection agency standards.)) The department of agriculture shall not exceed ASTM standards for diesel.

(3) The director may establish a fuel testing laboratory or may contract with a laboratory for testing. The director may also adopt rules on false and misleading advertising, labeling and posting of prices, and the standards for, and identity of, motor fuels. The director shall require fuel pumps offering biodiesel and ethanol blends to be identified by a label stating the percentage of biodiesel or ethanol.

NEW SECTION. Sec. 5. A new section is added to chapter 19.112 RCW to read as follows:

The director shall establish a biofuels advisory committee to advise the director on implementing or suspending the minimum renewable fuel content requirements. The committee shall advise the director on applicability to all users; logistical, technical, and economic issues of implementation, including the potential for credit trading, compliance and enforcement provisions, and tracking and reporting requirements; and how the use of renewable fuel blends greater than two percent for ethanol could achieve the goals of this act. The director shall make recommendations to the legislature and the governor on the implementation or suspension of this act by September 1, 2007.

Sec. 6. RCW 43.19.642 and 2003 c 17 s 2 are each amended to read as follows:

(1) All state agencies are encouraged to use a fuel blend of twenty percent biodiesel and eighty percent petroleum diesel for use in diesel-powered vehicles and equipment.

(2) Effective June 1, 2006, for agencies complying with the ultra-low sulfur diesel mandate of the United States environmental protection agency for on-highway diesel fuel, agencies shall use biodiesel as an additive to ultra-low sulfur diesel for lubricity, provided that the use of a lubricity additive is warranted and that the use of biodiesel is comparable in performance and cost with other available lubricity additives. The amount of biodiesel added to the ultra-low sulfur diesel fuel shall be not less than two percent.

(3) Effective June 1, 2009, all state agencies are required to use a minimum of twenty percent biodiesel as compared to total volume of all diesel purchases made by the agencies for the operation of the agencies' diesel-powered vessels, vehicles, and construction equipment.

(4) All state agencies using biodiesel fuel shall, beginning on July 1, 2006, file quarterly reports with the department of general administration documenting any problems encountered with the use of the fuel and a description of how the problems were resolved.

NEW SECTION. Sec. 7. A new section is added to chapter 43.19 RCW to read as follows:

(1) The department of general administration must assist state agencies seeking to meet the biodiesel fuel mandates in RCW 43.19.642 by coordinating the purchase and delivery of biodiesel if requested by any state agency. The department may use long-term contracts of up to ten years to secure a sufficient and stable supply of biodiesel for use by state agencies.

(2) The department shall compile and analyze the reports submitted under RCW 43.19.642(4) and report its findings and recommendations to the governor and legislature within thirty days from the end of each reporting period. The governor shall consider these reports in determining whether to temporarily suspend minimum renewable fuel content requirements as authorized under section 8 of this act.

NEW SECTION. Sec. 8. A new section is added to chapter 19.112 RCW to read as follows:

The governor, by executive order, may suspend all or portions of the minimum renewable fuel content requirements in section 2 or 3 of this act, or both, based on a determination that such requirements are temporarily technically or economically infeasible.

NEW SECTION. Sec. 9. A new section is added to chapter 19.112 RCW to read as follows:

(1) By November 30, 2008, the director shall determine whether the state's diesel fuel supply is comprised of at least ten percent biodiesel made predominantly from Washington feedstock, and whether the goals of section 2 of this act have been achieved.

(2) By November 30, 2008, the director shall determine whether the state's gasoline fuel supply is comprised of at least twenty percent ethanol made predominantly from Washington feedstock, without jeopardizing continued attainment of the federal clean air act's national ambient air quality standard for ozone pollution, and whether the goals of section 3 of this act have been achieved.

(3) By December 1, 2008, the director shall notify the governor and the legislature of the findings in subsections (1) and (2) of this section.

(4) If the findings from the director indicate that the goals of subsections (1) and (2) of this section, or both, have been achieved, then the governor shall issue an executive order declaring that section 2 or 3 of this act, or both, are no longer applicable.

NEW SECTION. Sec. 10. A new section is added to chapter 19.112 RCW to read as follows:

(1) If either or both of the goals in section 9 of this act are not achieved by November 30, 2008, the director shall monitor the state's diesel and gasoline fuel supply until such time as either or both of the goals are met.

(2) The director shall report to the governor and the legislature by November 30th of the year in which a goal is met.

(3) Following notification under this section that a goal has been met, the governor shall prepare executive request legislation repealing section 2 or 3 of this act, or both, as applicable.

NEW SECTION. Sec. 11. A new section is added to chapter 19.112 RCW to read as follows:

For the purposes of this chapter, "diesel" means special fuel as defined in RCW 82.38.020, and dyed special fuel as defined in 26 C.F.R. Sec. 48.4082-1T as of October 24, 2005.

NEW SECTION. Sec. 12. A new section is added to chapter 19.112 RCW to read as follows:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

Sec. 2. RCW 9A.44.130 and 2005 c 380 s 1 are each amended to read as follows:

by the first business day after commencing work at the institution, whichever is earlier, notify the sheriff for the county of the person's residence of the person's employment by the institution; or

(iv) Whose enrollment or employment at a public or private institution of higher education is terminated shall, within ten days of such termination, notify the sheriff for the county of the person's residence of the person's termination of enrollment or employment at the institution.

(c) Persons required to register under this section who are enrolled in a public or private institution of higher education on June 11, 1998, or a public or private school regulated under Title 28A RCW or chapter 72.40 RCW on September 1, 2006, must notify the county sheriff immediately.

(d) The sheriff shall notify the school's principal or institution's department of public safety and shall provide that department with the same information provided to a county sheriff under subsection (3) of this section.

(e)(i) A principal receiving notice under this subsection must disclose the information received from the sheriff under (b) of this subsection as follows:

(ii) Any information received by a principal or school personnel under this subsection is confidential and may not be further disseminated except as provided in RCW 28A.225.330, other statutes or case law, and the family and educational and privacy rights act of 1994, 20 U.S.C. Sec. 1232g et seq.

(2) This section may not be construed to confer any powers pursuant to RCW (~~4.24.500~~) 4.24.550 upon the public safety department of any public or private school or institution of higher education.

(3)(a) The person shall provide the following information when registering: (i) Name; (ii) address; (iii) date and place of birth; (iv) place of employment; (v) crime for which convicted; (vi) date and place of conviction; (vii) aliases used; (viii) social security number; (ix) photograph; and (x) fingerprints.

(4)(a) Offenders shall register with the county sheriff within the following deadlines. For purposes of this section the term "conviction" refers to adult convictions and juvenile adjudications for sex offenses or kidnapping offenses:

(i) OFFENDERS IN CUSTODY. (A) Sex offenders who committed a sex offense on, before, or after February 28, 1990, and who, on or after July 28, 1991, are in custody, as a result of that offense, of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility, and (B) kidnapping offenders who on or after July 27, 1997, are in custody of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility, must register at the time of release from custody with an official designated by the agency that has jurisdiction over the offender. The agency shall within three days forward the registration information to the county sheriff for the county of the offender's anticipated residence. The offender must also register within twenty-four hours from the time of release with the county sheriff for the county of the person's residence, or if the person is not a resident of Washington, the county of the person's school, or place of employment or vocation. The agency that has jurisdiction over the offender shall provide notice to the offender of the duty to register.

Failure to register at the time of release and within twenty-four hours of release constitutes a violation of this section and is punishable as provided in subsection (10) of this section.

When the agency with jurisdiction intends to release an offender with a duty to register under this section, and the agency has knowledge that the offender is eligible for developmental disability services from the department of social and health services, the agency shall notify the division of developmental disabilities of the release. Notice shall occur not more than thirty days before the offender is to be released. The agency and the division shall assist the offender in meeting the initial registration requirement under this section. Failure to provide such assistance shall not constitute a defense for any violation of this section.

(ii) OFFENDERS NOT IN CUSTODY BUT UNDER STATE OR LOCAL JURISDICTION. Sex offenders who, on July 28, 1991, are not in custody but are under the jurisdiction of the indeterminate sentence review board or under the department of corrections' active supervision, as defined by the department of corrections, the state department of social and health services, or a local division of youth services, for sex offenses committed before, on, or after February 28, 1990, must register within ten days of July 28, 1991. Kidnapping offenders who, on July 27, 1997, are not in custody but are under the jurisdiction of the indeterminate sentence review board or under the department of corrections' active supervision, as defined by the department of corrections, the state department of social and health services, or a local division of youth services, for kidnapping offenses committed before, on, or after July 27, 1997, must register within ten days of July 27, 1997. A change in supervision status of a sex offender who was required to register under this subsection (4)(a)(ii) as of July 28, 1991, or a kidnapping offender required to register as of July 27, 1997, shall not relieve the offender of the duty to register or to reregister following a change in residence. The obligation to register shall only cease pursuant to RCW 9A.44.140.

(iii) OFFENDERS UNDER FEDERAL JURISDICTION. Sex offenders who, on or after July 23, 1995, and kidnapping offenders who, on or after July 27, 1997, as a result of that offense are in the custody of the United States bureau of prisons or other federal or military correctional agency for sex offenses committed before, on, or after February 28, 1990, or kidnapping offenses committed on, before, or after July 27, 1997, must register within twenty-four hours from the time of release with the county sheriff for the county of the person's residence, or if the person is not a resident of Washington, the county of the person's school, or place of employment or vocation. Sex offenders who, on July 23, 1995, are not in custody but are under the jurisdiction of the United States bureau of prisons, United States courts, United States parole commission, or military parole board for sex offenses committed before, on, or after February 28, 1990, must register within ten days of July 23, 1995. Kidnapping offenders who, on July 27, 1997, are not in custody but are under the jurisdiction of the United States bureau of prisons, United States courts, United States parole commission, or military parole board for kidnapping offenses committed before, on, or after July 27, 1997, must register within ten days of July 27, 1997. A change in supervision status of a sex offender who was required to register under this subsection (4)(a)(iii) as of July 23, 1995, or a kidnapping offender required to register as of July 27, 1997 shall not relieve the offender of the duty to register or to reregister following a change in residence, or if the person is not a resident of Washington, the county of the person's school, or place of employment or vocation. The obligation to register shall only cease pursuant to RCW 9A.44.140.

(iv) OFFENDERS WHO ARE CONVICTED BUT NOT CONFINED. Sex offenders who are convicted of a sex offense on or after July 28, 1991, for a sex offense that was committed on or after February 28, 1990, and kidnapping offenders who are convicted on or after July 27, 1997, for a kidnapping offense that was committed on or after July 27, 1997, but who are not sentenced to serve a term of confinement immediately upon sentencing, shall report to the county sheriff to register immediately upon completion of being sentenced.

(v) OFFENDERS WHO ARE NEW RESIDENTS OR RETURNING WASHINGTON RESIDENTS. Sex offenders and kidnapping offenders who move to Washington state from another state or a foreign country that are not under the jurisdiction of the

state department of corrections, the indeterminate sentence review board, or the state department of social and health services at the time of moving to Washington, must register within ~~((thirty))~~ three business days of establishing residence or reestablishing residence if the person is a former Washington resident. The duty to register under this subsection applies to sex offenders convicted under the laws of another state or a foreign country, federal or military statutes for offenses committed before, on, or after February 28, 1990, or Washington state for offenses committed before, on, or after February 28, 1990, and to kidnapping offenders convicted under the laws of another state or a foreign country, federal or military statutes, or Washington state for offenses committed before, on, or after July 27, 1997. Sex offenders and kidnapping offenders from other states or a foreign country who, when they move to Washington, are under the jurisdiction of the department of corrections, the indeterminate sentence review board, or the department of social and health services must register within twenty-four hours of moving to Washington. The agency that has jurisdiction over the offender shall notify the offender of the registration requirements before the offender moves to Washington.

When an offender registers under this subsection (4)(a)(v), the county sheriff shall provide written notice to the offender that he or she is subject to Washington law for any new felony he or she commits within the state. The county sheriff shall require that the offender sign the notice and shall retain the signed copy of the notice as verification that the offender has received it. The county sheriff shall give a copy of the signed notice to the offender for his or her retention. The fact that an offender has or has not received the notice required under this subsection does not prohibit, or in any way limit, the ability of Washington or any other jurisdiction to prosecute the offender for any crimes committed in this state. The notice must be in at least ten point type and must be in substantially the following form:

NOTICE

AS A NEW OR RETURNING RESIDENT OF WASHINGTON STATE, YOU ARE SUBJECT TO WASHINGTON LAW FOR ANY NEW FELONY YOU COMMIT WITHIN THE STATE. ANY PRIOR CONVICTIONS YOU HAVE FROM OTHER JURISDICTIONS MAY AFFECT THE MANNER IN WHICH YOU ARE SENTENCED IN WASHINGTON. FOR EXAMPLE, YOUR SENTENCE FOR A NEW FELONY COMMITTED IN WASHINGTON COULD BE LIFE WITHOUT THE POSSIBILITY OF PAROLE IF YOUR CRIMINAL HISTORY INCLUDES A CONVICTION FROM WASHINGTON OR ANY OTHER JURISDICTION THAT WOULD BE CONSIDERED A "STRIKE" UNDER WASHINGTON'S PERSISTENT OFFENDER LAW. A LIST OF STRIKE OFFENSES MAY BE FOUND IN THE DEFINITION OF "PERSISTENT OFFENDER" IN RCW 9.94A.030.

(vi) OFFENDERS FOUND NOT GUILTY BY REASON OF INSANITY. Any adult or juvenile who has been found not guilty by reason of insanity under chapter 10.77 RCW of (A) committing a sex offense on, before, or after February 28, 1990, and who, on or after July 23, 1995, is in custody, as a result of that finding, of the state department of social and health services, or (B) committing a kidnapping offense on, before, or after July 27, 1997, and who on or after July 27, 1997, is in custody, as a result of that finding, of the state department of social and health services, must register within twenty-four hours from the time of release with the county sheriff for the county of the person's residence. The state department of social and health services shall provide notice to the adult or juvenile in its custody of the duty to register. Any adult or juvenile who has been found not guilty by reason of insanity of committing a sex offense on, before, or after February 28, 1990, but who was released before July 23, 1995, or any adult or juvenile who has been found not guilty by reason of insanity of committing a kidnapping offense but who was released before July 27, 1997, shall be required to register within

twenty-four hours of receiving notice of this registration requirement. The state department of social and health services shall make reasonable attempts within available resources to notify sex offenders who were released before July 23, 1995, and kidnapping offenders who were released before July 27, 1997. Failure to register within twenty-four hours of release, or of receiving notice, constitutes a violation of this section and is punishable as provided in subsection (10) of this section.

(vii) OFFENDERS WHO LACK A FIXED RESIDENCE. Any person who lacks a fixed residence and leaves the county in which he or she is registered and enters and remains within a new county for twenty-four hours is required to register with the county sheriff not more than twenty-four hours after entering the county and provide the information required in subsection (3)(b) of this section.

(viii) OFFENDERS WHO LACK A FIXED RESIDENCE AND WHO ARE UNDER SUPERVISION. Offenders who lack a fixed residence and who are under the supervision of the department shall register in the county of their supervision.

(ix) OFFENDERS WHO MOVE TO, WORK, CARRY ON A VOCATION, OR ATTEND SCHOOL IN ANOTHER STATE. Offenders required to register in Washington, who move to another state, or who work, carry on a vocation, or attend school in another state shall register a new address, fingerprints, and photograph with the new state within ten days after establishing residence, or after beginning to work, carry on a vocation, or attend school in the new state. The person must also send written notice within ten days of moving to the new state or to a foreign country to the county sheriff with whom the person last registered in Washington state. The county sheriff shall promptly forward this information to the Washington state patrol.

(b) Failure to register within the time required under this section constitutes a per se violation of this section and is punishable as provided in subsection (10) of this section. The county sheriff shall not be required to determine whether the person is living within the county.

(c) An arrest on charges of failure to register, service of an information, or a complaint for a violation of this section, or arraignment on charges for a violation of this section, constitutes actual notice of the duty to register. Any person charged with the crime of failure to register under this section who asserts as a defense the lack of notice of the duty to register shall register immediately following actual notice of the duty through arrest, service, or arraignment. Failure to register as required under this subsection (4)(c) constitutes grounds for filing another charge of failing to register. Registering following arrest, service, or arraignment on charges shall not relieve the offender from criminal liability for failure to register prior to the filing of the original charge.

(d) The deadlines for the duty to register under this section do not relieve any sex offender of the duty to register under this section as it existed prior to July 28, 1991.

(5)(a) If any person required to register pursuant to this section changes his or her residence address within the same county, the person must send written notice of the change of address to the county sheriff within seventy-two hours of moving. If any person required to register pursuant to this section moves to a new county, the person must send written notice of the change of address at least fourteen days before moving to the county sheriff in the new county of residence and must register with that county sheriff within twenty-four hours of moving. The person must also send written notice within ten days of the change of address in the new county to the county sheriff with whom the person last registered. The county sheriff with whom the person last registered shall promptly forward the information concerning the change of address to the county sheriff for the county of the person's new residence. Upon receipt of notice of change of address to a new state, the county sheriff shall promptly forward the information regarding the change of address to the agency designated by the new state as the state's offender registration agency.

(b) It is an affirmative defense to a charge that the person failed to send a notice at least fourteen days in advance of moving as required under (a) of this subsection that the person did not know the location of his or her new residence at least fourteen days before moving. The defendant must establish the defense by a

preponderance of the evidence and, to prevail on the defense, must also prove by a preponderance that the defendant sent the required notice within twenty-four hours of determining the new address.

(6)(a) Any person required to register under this section who lacks a fixed residence shall provide written notice to the sheriff of the county where he or she last registered within forty-eight hours excluding weekends and holidays after ceasing to have a fixed residence. The notice shall include the information required by subsection (3)(b) of this section, except the photograph and fingerprints. The county sheriff may, for reasonable cause, require the offender to provide a photograph and fingerprints. The sheriff shall forward this information to the sheriff of the county in which the person intends to reside, if the person intends to reside in another county.

(b) A person who lacks a fixed residence must report weekly, in person, to the sheriff of the county where he or she is registered. The weekly report shall be on a day specified by the county sheriff's office, and shall occur during normal business hours. The county sheriff's office may require the person to list the locations where the person has stayed during the last seven days. The lack of a fixed residence is a factor that may be considered in determining an offender's risk level and shall make the offender subject to disclosure of information to the public at large pursuant to RCW 4.24.550.

(c) If any person required to register pursuant to this section does not have a fixed residence, it is an affirmative defense to the charge of failure to register, that he or she provided written notice to the sheriff of the county where he or she last registered within forty-eight hours excluding weekends and holidays after ceasing to have a fixed residence and has subsequently complied with the requirements of subsections (4)(a)(vii) or (viii) and (6) of this section. To prevail, the person must prove the defense by a preponderance of the evidence.

(7) A sex offender subject to registration requirements under this section who applies to change his or her name under RCW 4.24.130 or any other law shall submit a copy of the application to the county sheriff of the county of the person's residence and to the state patrol not fewer than five days before the entry of an order granting the name change. No sex offender under the requirement to register under this section at the time of application shall be granted an order changing his or her name if the court finds that doing so will interfere with legitimate law enforcement interests, except that no order shall be denied when the name change is requested for religious or legitimate cultural reasons or in recognition of marriage or dissolution of marriage. A sex offender under the requirement to register under this section who receives an order changing his or her name shall submit a copy of the order to the county sheriff of the county of the person's residence and to the state patrol within five days of the entry of the order.

(8) The county sheriff shall obtain a photograph of the individual and shall obtain a copy of the individual's fingerprints.

(9) For the purpose of RCW 9A.44.130, 10.01.200, 43.43.540, 70.48.470, and 72.09.330:

(v) Any gross misdemeanor that is, under chapter 9A.28 RCW, a criminal attempt, criminal solicitation, or criminal conspiracy to commit an offense that is classified as a sex offense under RCW 9.94A.030 or this subsection.

the laws of this state would be classified as a kidnapping offense under this subsection (9)(b).

(c) "Employed" or "carries on a vocation" means employment that is full-time or part-time for a period of time exceeding fourteen days, or for an aggregate period of time exceeding thirty days during any calendar year. A person is employed or carries on a vocation whether the person's employment is financially compensated, volunteered, or for the purpose of government or educational benefit.

(d) "Student" means a person who is enrolled, on a full-time or part-time basis, in any public or private educational institution. An educational institution includes any secondary school, trade or professional institution, or institution of higher education.

(10)(a) A person who knowingly fails to register with the county sheriff or notify the county sheriff, or who changes his or her name without notifying the county sheriff and the state patrol, as required by this section is guilty of a class C felony if the crime for which the individual was convicted was a felony sex offense as defined in subsection (9)(a) of this section or a federal or out-of-state conviction for an offense that under the laws of this state would be a felony sex offense as defined in subsection (9)(a) of this section.

(b) If the crime for which the individual was convicted was other than a felony or a federal or out-of-state conviction for an offense that under the laws of this state would be other than a felony, violation of this section is a gross misdemeanor.

(11)(a) A person who knowingly fails to register or who moves within the state without notifying the county sheriff as required by this section is guilty of a class C felony if the crime for which the individual was convicted was a felony kidnapping offense as defined in subsection (9)(b) of this section or a federal or out-of-state conviction for an offense that under the laws of this state would be a felony kidnapping offense as defined in subsection (9)(b) of this section.

(b) If the crime for which the individual was convicted was other than a felony or a federal or out-of-state conviction for an offense that under the laws of this state would be other than a felony, violation of this section is a gross misdemeanor.

(12) Except as may otherwise be provided by law, nothing in this section shall impose any liability upon a peace officer, including a county sheriff, or law enforcement agency, for failing to release information authorized under this section.

A person who knowingly possesses visual or printed matter depicting a minor engaged in sexually explicit conduct is guilty of a class ((E)) B felony.
- Sec. 4.** RCW 9.94A.030 and 2005 c 436 s 1 are each amended to read as follows:
Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.
(1) "Board" means the indeterminate sentence review board created under chapter 9.95 RCW.
(2) "Collect," or any derivative thereof, "collect and remit," or "collect and deliver," when used with reference to the department, means that the department, either directly or through a collection agreement authorized by RCW 9.94A.760, is responsible for monitoring and enforcing the offender's sentence with regard to the legal financial obligation, receiving payment thereof from the offender, and, consistent with current law, delivering daily the entire payment to the superior court clerk without depositing it in a departmental account.
(3) "Commission" means the sentencing guidelines commission.
(4) "Community corrections officer" means an employee of the department who is responsible for carrying out specific duties in supervision of sentenced offenders and monitoring of sentence conditions.
(5) "Community custody" means that portion of an offender's sentence of confinement in lieu of earned release time or imposed pursuant to RCW 9.94A.505(2)(b), 9.94A.650 through 9.94A.670, 9.94A.690, 9.94A.700 through 9.94A.715, or 9.94A.545, served in the community subject to controls placed on the offender's movement and activities by the department. For offenders placed on community custody for crimes committed on or after July 1, 2000, the department shall assess the offender's risk of reoffense and may establish and modify conditions of community custody, in addition to those imposed by the court, based upon the risk to community safety.
(6) "Community custody range" means the minimum and maximum period of community custody included as part of a sentence under RCW 9.94A.715, as established by the commission or the legislature under RCW 9.94A.850, for crimes committed on or after July 1, 2000.
(7) "Community placement" means that period during which the offender is subject to the conditions of community custody and/or postrelease supervision, which begins either upon completion of the term of confinement (postrelease supervision) or at such time as the offender is transferred to community custody in lieu of earned release. Community placement may consist of entirely community custody, entirely postrelease supervision, or a combination of the two.
(8) "Community protection zone" means the area within eight hundred eighty feet of the facilities and grounds of a public or private school.
(9) "Community restitution" means compulsory service, without compensation, performed for the benefit of the community by the offender.

(10) "Community supervision" means a period of time during which a convicted offender is subject to crime-related prohibitions and other sentence conditions imposed by a court pursuant to this chapter or RCW 16.52.200(6) or 46.61.524. Where the court finds that any offender has a chemical dependency that has contributed to his or her offense, the conditions of supervision may, subject to available resources, include treatment. For purposes of the interstate compact for out-of-state supervision of parolees and probationers, RCW 9.95.270, community supervision is the functional equivalent of probation and should be considered the same as probation by other states.

(11) "Confinement" means total or partial confinement.

(12) "Conviction" means an adjudication of guilt pursuant to Titles 10 or 13 RCW and includes a verdict of guilty, a finding of guilty, and acceptance of a plea of guilty.

(13) "Crime-related prohibition" means an order of a court prohibiting conduct that directly relates to the circumstances of the crime for which the offender has been convicted, and shall not be construed to mean orders directing an offender affirmatively to participate in rehabilitative programs or to otherwise perform affirmative conduct. However, affirmative acts necessary to monitor compliance with the order of a court may be required by the department.

(14) "Criminal history" means the list of a defendant's prior convictions and juvenile adjudications, whether in this state, in federal court, or elsewhere.

(a) The history shall include, where known, for each conviction (i) whether the defendant has been placed on probation and the length and terms thereof; and (ii) whether the defendant has been incarcerated and the length of incarceration.

(b) A conviction may be removed from a defendant's criminal history only if it is vacated pursuant to RCW 9.96.060, 9.94A.640, 9.95.240, or a similar out-of-state statute, or if the conviction has been vacated pursuant to a governor's pardon.

(c) The determination of a defendant's criminal history is distinct from the determination of an offender score. A prior conviction that was not included in an offender score calculated pursuant to a former version of the sentencing reform act remains part of the defendant's criminal history.

(15) "Day fine" means a fine imposed by the sentencing court that equals the difference between the offender's net daily income and the reasonable obligations that the offender has for the support of the offender and any dependents.

(16) "Day reporting" means a program of enhanced supervision designed to monitor the offender's daily activities and compliance with sentence conditions, and in which the offender is required to report daily to a specific location designated by the department or the sentencing court.

(17) "Department" means the department of corrections.

(18) "Determinate sentence" means a sentence that states with exactitude the number of actual years, months, or days of total confinement, of partial confinement, of community supervision, the number of actual hours or days of community restitution work, or dollars or terms of a legal financial obligation. The fact that an offender through earned release can reduce the actual period of confinement shall not affect the classification of the sentence as a determinate sentence.

(19) "Disposable earnings" means that part of the earnings of an offender remaining after the deduction from those earnings of any amount required by law to be withheld. For the purposes of this definition, "earnings" means compensation paid or payable for personal services, whether denominated as wages, salary, commission, bonuses, or otherwise, and, notwithstanding any other provision of law making the payments exempt from garnishment, attachment, or other process to satisfy a court-ordered legal financial obligation, specifically includes periodic payments pursuant to pension or retirement programs, or insurance policies of any type, but does not include payments made under Title 50 RCW, except as provided in RCW 50.40.020 and 50.40.050, or Title 74 RCW.

Upon conviction for vehicular assault while under the influence of intoxicating liquor or any drug, RCW 46.61.522(1)(b), or vehicular homicide while under the influence of intoxicating liquor or any drug, RCW 46.61.520(1)(a), legal financial obligations may also include payment to a public agency of the expense of an emergency response to the incident resulting in the conviction, subject to RCW 38.52.430.

Throughout this chapter, the terms "offender" and "defendant" are used interchangeably.

(32) "Partial confinement" means confinement for no more than one year in a facility or institution operated or utilized under contract by the state or any other unit of government, or, if home detention or work crew has been ordered by the court, in an approved residence, for a substantial portion of each day with the balance of the day spent in the community. legal financial obligation, receiving payment thereof from the offender, and, consistent with current law, delivering daily the entire payment to the superior court clerk without depositing it in a departmental account.

(3) "Commission" means the sentencing guidelines commission.

(4) "Community corrections officer" means an employee of the department who is responsible for carrying out specific duties in supervision of sentenced offenders and monitoring of sentence conditions.

For offenders placed on community custody for crimes committed on or after July 1, 2000, the department shall assess the offender's risk of reoffense and may establish and modify conditions of community custody, in addition to those imposed by the court, based upon the risk to community safety.

(6) "Community custody range" means the minimum and maximum period of community custody included as part of a sentence under RCW 9.94A.715, as established by the commission or the legislature under RCW 9.94A.850, for crimes committed on or after July 1, 2000.

Community placement may consist of entirely community custody, entirely postrelease supervision, or a combination of the two.

(8) "Community restitution" means compulsory service, without compensation, performed for the benefit of the community by the offender.

(9) "Community supervision" means a period of time during which a convicted offender is subject to crime-related prohibitions and other sentence conditions imposed by a court pursuant to this chapter or RCW 16.52.200(6) or 46.61.524. Where the court finds that any offender has a chemical dependency that has contributed to his or her offense, the conditions of supervision may, subject to available resources, include treatment. For purposes of the interstate compact for out-of-state supervision of parolees and probationers, RCW 9.95.270, community supervision is the functional equivalent of probation and should be considered the same as probation by other states.

2SSB 6193 Prime Sponsor, Senate Committee On Ways & Means: Requiring surveys of health professions work force supply and demographics. Reported by Committee on Health Care

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that people of color experience significant disparities from the general population in education, employment, healthy living conditions, access to health care, and other social determinants of health. The legislature intends to address barriers to gender-appropriate and culturally and linguistically appropriate health care and health education materials, including increasing the number of female and minority health care providers, through expanded recruiting, education, and retention programs. The legislature finds that before developing a work force that is representative of the diversity of the state's population, relevant and accurate data on health care professionals, students in health care professions, and recipients of health services must first be collected.

NEW SECTION. Sec. 2. A new section is added to chapter 43.70 RCW to read as follows:

(1) The department, in collaboration with the work force training and education coordinating board, shall distribute survey questions for the purpose of gathering data related to work force supply and demographics to all health care providers who hold a license to practice a health profession. The department shall adopt a schedule for distributing surveys by profession so that each profession is surveyed every two years. In developing the survey, the department shall seek advice from researchers that are likely to use the survey data.

(2)(a) At a minimum, the survey shall include questions related to understanding the following characteristics of individuals in the health care work force:

- (i) Specialty;
- (ii) Birthdate and gender;
- (iii) Race and ethnicity;
- (iv) Hours in practice per week;
- (v) Practice statistics, including hours spent in direct patient care;
- (vi) Zip codes of the location where the provider practices;
- (vii) Years in practice, years in practice in Washington, location and years in practice in other jurisdictions;
- (viii) Education and training background, including the location and types of education and training received; and
- (ix) Type of facilities where the provider practices.

(b) The department may approve proposals for the distribution of surveys containing additional data elements to selected health care professions if it determines that there is a legitimate research interest in obtaining the information, the additional burden on members of the health care profession is not unreasonable, the effect on survey response rates is not unreasonable, and there are funds available. The department may accept funds through contracts, grants, donations, or other forms of contributions to support more detailed surveys.

(3) The department must make a public data set available that meets the confidentiality requirements of subsection (5) of this section. The department may respond to requests for data and other information from the registry for special studies and analysis pursuant to a data-sharing agreement. Any use of the data by the requestor must comply with the confidentiality requirements of subsection (5) of this section. The department may require requestors to pay any or all of the reasonable costs associated with such requests that may be approved.

(4) The failure to complete or return the survey may not be grounds to withhold, fail to renew, or revoke a license or to impose any other disciplinary sanctions against a credentialed health care provider.

(5) The department must process the surveys that it receives in such a way that the identity of individual providers remains confidential. Data elements related to the identification of individual providers are confidential and are exempt from RCW 42.56.040 through 42.56.570 and 42.17.350 through 42.17.450, except as provided in a data-sharing agreement approved by the department pursuant to subsection (3) of this section.

"NEW SECTION. Sec. 1. The legislature finds that women and people of color experience significant disparities from the general population in education, employment, healthy living conditions, access to health care, and other social determinants of health. The legislature finds that it shall be a priority for the state to develop the knowledge, attitudes, and practice skills of health professionals and those working with diverse populations to achieve a greater understanding of the relationship between culture and health and gender and health.

NEW SECTION. Sec. 2. A new section is added to chapter 43.70 RCW to read as follows:

(1) For the purposes of this section, "multicultural health" means the provision of health care services with the knowledge and awareness of the causes and effects of the determinants of health that lead to disparities in health status between different genders and racial and ethnic populations and the practice skills necessary to respond appropriately.

(2) The department, in consultation with the disciplining authorities as defined in RCW 18.130.040, shall establish, within available department general funds, an ongoing multicultural health awareness and education program as an integral part of its health professions regulation. The purpose of the education program is to raise awareness and educate health care professionals regarding the knowledge, attitudes, and practice skills necessary to care for diverse populations to achieve a greater understanding of the relationship between culture and health. The disciplining authorities having the authority to offer continuing education may provide training in the dynamics of providing culturally competent, multicultural health care to diverse populations. Any such education shall be developed in collaboration with education programs that train students in that health profession. No funds from the health professions account may be utilized to fund activities under this section unless the disciplining authority authorizes expenditures from its proportions of the account. A disciplining authority may defray costs by authorizing a fee to be charged for participants or materials relating to any sponsored program.

(3) By July 1, 2008, each education program with a curriculum to train health professionals for employment in a profession credentialed by a disciplining authority under chapter 18.130 RCW

shall integrate into the curriculum instruction in multicultural health as part of its basic education preparation curriculum. The department may not deny the application of any applicant for a credential to practice a health profession on the basis that the education or training program that the applicant successfully completed did not include integrated multicultural health curriculum as part of its basic instruction."

2SSB 6197 Prime Sponsor, Senate Committee On Ways & Means: Creating the governor's interagency coordinating council on health disparities. Reported by Committee on Health Care

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 43.20 RCW to read as follows:

The legislature finds that women and people of color experience significant disparities from men and the general population in education, employment, healthful living conditions, access to health care, and other social determinants of health. The legislature finds that these circumstances coupled with lower, slower, and less culturally appropriate and gender appropriate access to needed medical care result in higher rates of morbidity and mortality for women and persons of color than observed in the general population. Health disparities are defined by the national institute of health as the differences in incidence, prevalence, mortality, and burden of disease and other adverse health conditions that exist among specific population groups in the United States.

It is the intent of the Washington state legislature to create the healthiest state in the nation by striving to eliminate health disparities in people of color and between men and women. In meeting the intent of this act, the legislature creates the governor's interagency coordinating council on health disparities. This council shall create an action plan and statewide policy to include health impact reviews that measure and address other social determinants of health that lead to disparities as well as the contributing factors of health that can have broad impacts on improving status, health literacy, physical activity, and nutrition.

The funds shall be used to provide additional support to counties for mental health or substance abuse treatment for persons with methamphetamine addiction. Local governments receiving funds under this section may not use the funds to supplant existing funding.

(2) Counties receiving funding shall: (a) Provide a financial plan for the expenditure of any potential funds prior to funds being awarded; (b) report annually to the appropriate committees of the legislature regarding the number of clients served, services provided, and a statement of expenditures; and (c) expend no more than ten percent for administrative costs or for information technology.

NEW SECTION. Sec. 102. A new section is added to chapter 72.09 RCW to read as follows:

(1) Through June 30, 2010, it is the intent of the legislature to provide one hundred additional placements for therapeutic drug and alcohol treatment in the state's correctional institutions, above the level of placements provided on January 1, 2006.

(2) This section expires June 30, 2010.

NEW SECTION. Sec. 103. It is the intent of the legislature to provide an annual combined level of state and federal funding for multijurisdictional drug task forces and local government drug prosecution assistance at a minimum of four million dollars.

NEW SECTION. Sec. 104. (1) It is the intent of the legislature to provide assistance for jurisdictions enforcing illegal drug laws that have historically been underserved by federally funded state narcotics task forces and are considered to be major transport areas of narcotics traffickers.

NEW SECTION. Sec. 105. Three pilot enforcement areas shall be established for a period of four fiscal years, beginning July 1, 2006, and ending June 30, 2010, with one in the southwestern region of the state, comprising of Pacific, Wahkiakum, Lewis, Grays Harbor, and Cowlitz counties; one in the southeastern region of the state, comprising of Walla Walla, Columbia, Garfield, and Asotin counties; and one in the northeastern part of the state, comprising of Stevens,

NEW SECTION. Sec. 106. It is the intent of the legislature to provide funding of no less than one million five hundred seventy-five thousand dollars annually. This funding is intended to provide a minimum of four additional sheriff deputies for each pilot area, two deputy prosecutors who will support the counties that are included in the pilot area, a court clerk, and clerical staff to serve the pilot area. It is the intent of the legislature that those counties that have not previously received significant federal narcotics task force funding shall be allocated funding for at least one additional sheriff's deputy. Counties are encouraged to utilize drug courts and treatment programs, and to share resources that operate in the region through the use of interlocal agreements. The funding appropriated for this purpose must not be used to supplant existing funding and cannot be used for any purpose other than the enforcement of illegal drug laws.

The criminal justice training commission shall allocate funds to the Washington association of prosecuting attorneys and the Washington association of sheriffs and police chiefs. The Washington association of prosecuting attorneys is responsible for administration of the funding and programs for the prosecution of crimes and court proceedings. PART III CRIMINAL SANCTIONS AND PROCEDURE

Sec. 301. RCW 9.94A.533 and 2003 c 53 s 58 are each amended to read as follows:

(1) The provisions of this section apply to the standard sentence ranges determined by RCW 9.94A.510 or 9.94A.517.

(2) For persons convicted of the anticipatory offenses of criminal attempt, solicitation, or conspiracy under chapter 9A.28 RCW, the standard sentence range is determined by locating the sentencing grid sentence range defined by the appropriate offender score and the seriousness level of the completed crime, and multiplying the range by seventy-five percent.

(3) The following additional times shall be added to the standard sentence range for felony crimes committed after July 23, 1995, if the offender or an accomplice was armed with a firearm as defined in

RCW 9.41.010 and the offender is being sentenced for one of the crimes listed in this subsection as eligible for any firearm enhancements based on the classification of the completed felony crime. If the offender is being sentenced for more than one offense, the firearm enhancement or enhancements must be added to the total period of confinement for all offenses, regardless of which underlying offense is subject to a firearm enhancement. If the offender or an accomplice was armed with a firearm as defined in RCW 9.41.010 and the offender is being sentenced for an anticipatory offense under chapter 9A.28 RCW to commit one of the crimes listed in this subsection as eligible for any firearm enhancements, the following additional times shall be added to the standard sentence range determined under subsection (2) of this section based on the felony crime of conviction as classified under RCW 9A.28.020:

(a) Five years for any felony defined under any law as a class A felony or with a statutory maximum sentence of at least twenty years, or both, and not covered under (f) of this subsection;

(b) Three years for any felony defined under any law as a class B felony or with a statutory maximum sentence of ten years, or both, and not covered under (f) of this subsection;

(c) Eighteen months for any felony defined under any law as a class C felony or with a statutory maximum sentence of five years, or both, and not covered under (f) of this subsection;

(d) If the offender is being sentenced for any firearm enhancements under (a), (b), and/or (c) of this subsection and the offender has previously been sentenced for any deadly weapon enhancements after July 23, 1995, under (a), (b), and/or (c) of this subsection or subsection (4)(a), (b), and/or (c) of this section, or both, all firearm enhancements under this subsection shall be twice the amount of the enhancement listed;

(e) Notwithstanding any other provision of law, all firearm enhancements under this section are mandatory, shall be served in total confinement, and shall run consecutively to all other sentencing provisions, including other firearm or deadly weapon enhancements, for all offenses sentenced under this chapter. However, whether or not a mandatory minimum term has expired, an offender serving a sentence under this subsection may be granted an extraordinary medical placement when authorized under RCW 9.94A.728(4);

(f) The firearm enhancements in this section shall apply to all felony crimes except the following: Possession of a machine gun, possessing a stolen firearm, drive-by shooting, theft of a firearm, unlawful possession of a firearm in the first and second degree, and use of a machine gun in a felony;

(g) If the standard sentence range under this section exceeds the statutory maximum sentence for the offense, the statutory maximum sentence shall be the presumptive sentence unless the offender is a persistent offender. If the addition of a firearm enhancement increases the sentence so that it would exceed the statutory maximum for the offense, the portion of the sentence representing the enhancement may not be reduced.

(4) The following additional times shall be added to the standard sentence range for felony crimes committed after July 23, 1995, if the offender or an accomplice was armed with a deadly weapon other than a firearm as defined in RCW 9.41.010 and the offender is being sentenced for one of the crimes listed in this subsection as eligible for any deadly weapon enhancements based on the classification of the completed felony crime. If the offender is being sentenced for more than one offense, the deadly weapon enhancement or enhancements must be added to the total period of confinement for all offenses, regardless of which underlying offense is subject to a deadly weapon enhancement. If the offender or an accomplice was armed with a deadly weapon other than a firearm as defined in RCW 9.41.010 and the offender is being sentenced for an anticipatory offense under chapter 9A.28 RCW to commit one of the crimes listed in this subsection as eligible for any deadly weapon enhancements, the following additional times shall be added to the standard sentence range determined under subsection (2) of this section based on the felony crime of conviction as classified under RCW 9A.28.020:

(a) Two years for any felony defined under any law as a class A felony or with a statutory maximum sentence of at least twenty years, or both, and not covered under (f) of this subsection;

(b) One year for any felony defined under any law as a class B felony or with a statutory maximum sentence of ten years, or both, and not covered under (f) of this subsection;

(c) Six months for any felony defined under any law as a class C felony or with a statutory maximum sentence of five years, or both, and not covered under (f) of this subsection;

(d) If the offender is being sentenced under (a), (b), and/or (c) of this subsection for any deadly weapon enhancements and the offender has previously been sentenced for any deadly weapon enhancements after July 23, 1995, under (a), (b), and/or (c) of this subsection or subsection (3)(a), (b), and/or (c) of this section, or both, all deadly weapon enhancements under this subsection shall be twice the amount of the enhancement listed;

(e) Notwithstanding any other provision of law, all deadly weapon enhancements under this section are mandatory, shall be served in total confinement, and shall run consecutively to all other sentencing provisions, including other firearm or deadly weapon enhancements, for all offenses sentenced under this chapter. However, whether or not a mandatory minimum term has expired, an offender serving a sentence under this subsection may be granted an extraordinary medical placement when authorized under RCW 9.94A.728(4);

(f) The deadly weapon enhancements in this section shall apply to all felony crimes except the following: Possession of a machine gun, possessing a stolen firearm, drive-by shooting, theft of a firearm, unlawful possession of a firearm in the first and second degree, and use of a machine gun in a felony;

(g) If the standard sentence range under this section exceeds the statutory maximum sentence for the offense, the statutory maximum sentence shall be the presumptive sentence unless the offender is a persistent offender. If the addition of a deadly weapon enhancement increases the sentence so that it would exceed the statutory maximum for the offense, the portion of the sentence representing the enhancement may not be reduced.

(5) The following additional times shall be added to the standard sentence range if the offender or an accomplice committed the offense while in a county jail or state correctional facility and the offender is being sentenced for one of the crimes listed in this subsection. If the offender or an accomplice committed one of the crimes listed in this subsection while in a county jail or state correctional facility, and the offender is being sentenced for an anticipatory offense under chapter 9A.28 RCW to commit one of the crimes listed in this subsection, the following additional times shall be added to the standard sentence range determined under subsection (2) of this section:

(a) Eighteen months for offenses committed under RCW 69.50.401(2) (a) or (b) or 69.50.410;

(b) Fifteen months for offenses committed under RCW 69.50.401(2) (c), (d), or (e);

(c) Twelve months for offenses committed under RCW 69.50.4013.

For the purposes of this subsection, all of the real property of a state correctional facility or county jail shall be deemed to be part of that facility or county jail.

(6) An additional twenty-four months shall be added to the standard sentence range for any ranked offense involving a violation of chapter 69.50 RCW if the offense was also a violation of RCW 69.50.435 or 9.94A.605. All enhancements under this subsection shall run consecutively to all other sentencing provisions, for all offenses sentenced under this chapter.

(7) An additional two years shall be added to the standard sentence range for vehicular homicide committed while under the influence of intoxicating liquor or any drug as defined by RCW 46.61.502 for each prior offense as defined in RCW 46.61.5055.

Sec. 302. RCW 9.94A.660 and 2005 c 460 s 1 are each amended to read as follows:

(1) An offender is eligible for the special drug offender sentencing alternative if:

(a) The offender is convicted of a felony that is not a violent offense or sex offense and the violation does not involve a sentence enhancement under RCW 9.94A.533 (3) or (4);

(b) The offender has no current or prior convictions for a sex offense at any time or violent offense within ten years before conviction of the current offense, in this state, another state, or the United States;

(c) For a violation of the Uniform Controlled Substances Act under chapter 69.50 RCW or a criminal solicitation to commit such a violation under chapter 9A.28 RCW, the offense involved only a small quantity of the particular controlled substance as determined by the judge upon consideration of such factors as the weight, purity, packaging, sale price, and street value of the controlled substance;

(d) The offender has not been found by the United States attorney general to be subject to a deportation detainer or order and does not become subject to a deportation order during the period of the sentence;

(e) The standard sentence range for the current offense is greater than one year; and

(f) The offender has not received a drug offender sentencing alternative more than once in the prior ten years before the current offense.

(2) A motion for a sentence under this section may be made by the court, the offender, or the state. If the sentencing court determines that the offender is eligible for this alternative, the court may order an examination of the offender. The examination shall, at a minimum, address the following issues:

(a) Whether the offender suffers from drug addiction;

(b) Whether the addiction is such that there is a probability that criminal behavior will occur in the future;

(c) Whether effective treatment for the offender's addiction is available from a provider that has been licensed or certified by the division of alcohol and substance abuse of the department of social and health services; and

(d) Whether the offender and the community will benefit from the use of the alternative.

(3) The examination report must contain:

(a) Information on the issues required to be addressed in subsection (2) of this section; and

(b) A proposed treatment plan that must, at a minimum, contain:

(i) A proposed treatment provider that has been licensed or certified by the division of alcohol and substance abuse of the department of social and health services;

(ii) The recommended frequency and length of treatment, including both residential chemical dependency treatment and treatment in the community;

(iii) A proposed monitoring plan, including any requirements regarding living conditions, lifestyle requirements, and monitoring by family members and others; and

(iv) Recommended crime-related prohibitions and affirmative conditions.

(4) After receipt of the examination report, if the court determines that a sentence under this section is appropriate, the court shall waive imposition of a sentence within the standard sentence range and impose a sentence consisting of either a prison-based alternative under subsection (5) of this section or a residential chemical dependency treatment-based alternative under subsection (6) of this section. The residential chemical dependency treatment-based alternative is only available if the midpoint of the standard range is twenty-four months or less.

(5) The prison-based alternative shall include:

(a) A period of total confinement in a state facility for one-half of the midpoint of the standard sentence range or twelve months, whichever is greater. During incarceration in the state facility, offenders sentenced under this subsection shall undergo a comprehensive substance abuse assessment and receive, within available resources, treatment services appropriate for the offender. The treatment services shall be designed by the division of alcohol and substance abuse of the department of social and health services, in cooperation with the department of corrections;

(b) The remainder of the midpoint of the standard range as a term of community custody which must include appropriate substance abuse treatment in a program that has been approved by the division of alcohol and substance abuse of the department of social and health services. If the department finds that conditions have been willfully violated, the offender may be reclassified to serve the

remaining balance of the original sentence. An offender who fails to complete the program or who is administratively terminated from the program shall be reclassified to serve the unexpired term of his or her sentence as ordered by the sentencing court;

(c) Crime-related prohibitions including a condition not to use illegal controlled substances;

(d) A requirement to submit to urinalysis or other testing to monitor that status; and

(e) A term of community custody pursuant to RCW 9.94A.715 to be imposed upon failure to complete or administrative termination from the special drug offender sentencing alternative program.

(6) The residential chemical dependency treatment-based alternative shall include:

(a) A term of community custody equal to one-half of the midpoint of the standard sentence range or two years, whichever is greater, conditioned on the offender entering and remaining in residential chemical dependency treatment certified under chapter 70.96A RCW for a period set by the court between three and six months. If the court imposes a term of community custody, the department shall, within available resources, make chemical dependency assessment and treatment services available to the offender during the term of community custody. The court shall impose, as conditions of community custody, treatment and other conditions as proposed in the plan under subsection (3)(b) of this section. The department may impose conditions and sanctions as authorized in RCW 9.94A.715 (2), (3), (6), and (7), 9.94A.737, and 9.94A.740. The court shall schedule a progress hearing during the period of residential chemical dependency treatment, and schedule a treatment termination hearing for three months before the expiration of the term of community custody;

(b) Before the progress hearing and treatment termination hearing, the treatment provider and the department shall submit written reports to the court and parties regarding the offender's compliance with treatment and monitoring requirements, and recommendations regarding termination from treatment. At the hearing, the court may:

(i) Authorize the department to terminate the offender's community custody status on the expiration date determined under (a) of this subsection; or

(ii) Continue the hearing to a date before the expiration date of community custody, with or without modifying the conditions of community custody; or

(iii) Impose a term of total confinement equal to one-half the midpoint of the standard sentence range, followed by a term of community custody under RCW 9.94A.715;

(c) If the court imposes a term of total confinement under (b)(iii) of this subsection, the department shall, within available resources, make chemical dependency assessment and treatment services available to the offender during the terms of total confinement and community custody.

(7) If the court imposes a sentence under this section, the court may prohibit the offender from using alcohol or controlled substances and may require that the monitoring for controlled substances be conducted by the department or by a treatment alternatives to street crime program or a comparable court or agency-referred program. The offender may be required to pay thirty dollars per month while on community custody to offset the cost of monitoring. In addition, the court may impose any of the following conditions:

(a) Devote time to a specific employment or training;

(b) Remain within prescribed geographical boundaries and notify the court or the community corrections officer before any change in the offender's address or employment;

(c) Report as directed to a community corrections officer;

(d) Pay all court-ordered legal financial obligations;

(e) Perform community restitution work;

(f) Stay out of areas designated by the sentencing court;

(g) Such other conditions as the court may require such as affirmative conditions.

(8)(a) The court may bring any offender sentenced under this section back into court at any time on its own initiative to evaluate the offender's progress in treatment or to determine if any violations of the conditions of the sentence have occurred.

(b) If the offender is brought back to court, the court may modify the terms of the community custody or impose sanctions under (c) of this subsection.

(c) The court may order the offender to serve a term of total confinement within the standard range of the offender's current offense at any time during the period of community custody if the offender violates the conditions of the sentence or if the offender is failing to make satisfactory progress in treatment.

(d) An offender ordered to serve a term of total confinement under (c) of this subsection shall receive credit for any time previously served under this section.

(9) If an offender sentenced to the prison-based alternative under subsection (5) of this section is found by the United States attorney general to be subject to a deportation order, a hearing shall be held by the department unless waived by the offender, and, if the department finds that the offender is subject to a valid deportation order, the department may administratively terminate the offender from the program and reclassify the offender to serve the remaining balance of the original sentence.

(10) An offender sentenced under this section shall be subject to all rules relating to earned release time with respect to any period served in total confinement.

(11) Costs of examinations and preparing treatment plans under subsections (2) and (3) of this section may be paid, at the option of the county, from funds provided to the county from the criminal justice treatment account under RCW 70.96A.350.

Sec. 303. RCW 9.94A.500 and 2000 c 75 s 8 are each amended to read as follows:

(1) Before imposing a sentence upon a defendant, the court shall conduct a sentencing hearing. The sentencing hearing shall be held within forty court days following conviction. Upon the motion of either party for good cause shown, or on its own motion, the court may extend the time period for conducting the sentencing hearing.

Except in cases where the defendant shall be sentenced to a term of total confinement for life without the possibility of release or, when authorized by RCW 10.95.030 for the crime of aggravated murder in the first degree, sentenced to death, the court may order the department to complete a risk assessment report. If available before sentencing, the report shall be provided to the court.

Unless specifically waived by the court, the court shall order the department to complete a chemical dependency screening report before imposing a sentence upon a defendant who has been convicted of a violation of the uniform controlled substances act under chapter 69.50 RCW ~~(or)~~, a criminal solicitation to commit such a violation under chapter 9A.28 RCW, or any felony where the court finds that the offender has a chemical dependency that has contributed to his or her offense. In addition, the court shall, at the time of plea or conviction, order the department to complete a presentence report before imposing a sentence upon a defendant who has been convicted of a felony sexual offense. The department of corrections shall give priority to presentence investigations for sexual offenders. If the court determines that the defendant may be a mentally ill person as defined in RCW 71.24.025, although the defendant has not established that at the time of the crime he or she lacked the capacity to commit the crime, was incompetent to commit the crime, or was insane at the time of the crime, the court shall order the department to complete a presentence report before imposing a sentence.

The court shall consider the risk assessment report and presentence reports, if any, including any victim impact statement and criminal history, and allow arguments from the prosecutor, the defense counsel, the offender, the victim, the survivor of the victim, or a representative of the victim or survivor, and an investigative law enforcement officer as to the sentence to be imposed.

If the court is satisfied by a preponderance of the evidence that the defendant has a criminal history, the court shall specify the convictions it has found to exist. All of this information shall be part of the record. Copies of all risk assessment reports and presentence reports presented to the sentencing court and all written findings of facts and conclusions of law as to sentencing entered by the court shall be sent to the department by the clerk of the court at the conclusion of the sentencing and shall accompany the offender if the offender is committed to the custody of the department. Court clerks

shall provide, without charge, certified copies of documents relating to criminal convictions requested by prosecuting attorneys.

Any person who otherwise is permitted to attend any hearing pursuant to chapter 7.69 or 7.69A RCW shall not be excluded from the hearing solely because the department intends to disclose or discloses information related to mental health services.

SSB 6322 Prime Sponsor, Senate Committee On Human Services & Corrections: Relating to electronic monitoring of sex offenders. Reported by Committee on Criminal Justice & Corrections

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 9.94A.713 and 2001 2nd sp.s. c 12 s 304 are each amended to read as follows:

(1) When an offender is sentenced under RCW 9.94A.712, the department shall assess the offender's risk of recidivism and shall recommend to the board any additional or modified conditions of the offender's community custody based upon the risk to community safety. In addition, the department shall make a recommendation with regard to, and the board may require the offender to participate in, rehabilitative programs, or otherwise perform affirmative conduct, and obey all laws. The department may recommend and the board may impose electronic monitoring as a condition of community custody for the offender. The department shall, with available resources, carry out any monitoring imposed under this section using the most appropriate technology given the individual circumstances of the offender. As used in this section, "electronic monitoring" means the monitoring of an offender using an electronic offender tracking system including, but not limited to, a system using radio frequency or active or passive global positioning technology. The board must consider and may impose department-recommended conditions.

(2) The department may not recommend and the board may not impose conditions that are contrary to those ordered by the court and may not contravene or decrease court-imposed conditions. The board shall notify the offender in writing of any such conditions or modifications.

(3) In setting, modifying, and enforcing conditions of community custody, the department shall be deemed to be performing a quasi-judicial function.

(4) If an offender violates conditions imposed by the court, the department, or the board during community custody, the board or the department may transfer the offender to a more restrictive confinement status and impose other available sanctions as provided in RCW 9.95.435.

(5) By the close of the next business day, after receiving notice of a condition imposed by the board or the department, an offender may request an administrative hearing under rules adopted by the board. The condition shall remain in effect unless the hearing examiner finds that it is not reasonably related to any of the following:

- (a) The crime of conviction;
- (b) The offender's risk of reoffending; or
- (c) The safety of the community.

(6) An offender released by the board under RCW 9.95.420 shall be subject to the supervision of the department until the expiration of the maximum term of the sentence. The department shall monitor the offender's compliance with conditions of community custody imposed by the court, department, or board, and promptly report any violations to the board. Any violation of conditions of community custody established or modified by the board shall be subject to the provisions of RCW 9.95.425 through 9.95.440.

(7) If the department finds that an emergency exists requiring the immediate imposition of conditions of release in addition to those set by the board under RCW 9.95.420 and subsection (1) of this section in order to prevent the offender from committing a crime, the department may impose additional conditions. The department may not impose conditions that are contrary to those set by the board or the court and may not contravene or decrease court-imposed or board-imposed conditions. Conditions imposed under this subsection shall take effect immediately after notice to the offender by personal service, but shall not remain in effect longer than seven working days unless approved by the board under subsection (1) of this section within seven working days.

Sec. 2. RCW 9.94A.715 and 2003 c 379 s 6 are each amended to read as follows:

(1) When a court sentences a person to the custody of the department for a sex offense not sentenced under RCW 9.94A.712, a violent offense, any crime against persons under RCW 9.94A.411(2), or a felony offense under chapter 69.50 or 69.52 RCW, committed on or after July 1, 2000, the court shall in addition to the other terms of the sentence, sentence the offender to community custody for the community custody range established under RCW 9.94A.850 or up to the period of earned release awarded pursuant to RCW 9.94A.728 (1) and (2), whichever is longer. The community custody shall begin: (a) Upon completion of the term of confinement; (b) at such time as the offender is transferred to community custody in lieu of earned release in accordance with RCW 9.94A.728 (1) and (2); or (c) with regard to offenders sentenced under RCW 9.94A.660, upon failure to complete or administrative termination from the special drug offender sentencing alternative program. Except as provided in RCW 9.94A.501, the department shall supervise any sentence of community custody imposed under this section.

(2)(a) Unless a condition is waived by the court, the conditions of community custody shall include those provided for in RCW 9.94A.700(4). The conditions may also include those provided for in RCW 9.94A.700(5). The court may also order the offender to participate in rehabilitative programs or otherwise perform affirmative conduct reasonably related to the circumstances of the offense, the offender's risk of reoffending, or the safety of the community, and the department shall enforce such conditions pursuant to subsection (6) of this section.

(b) As part of any sentence that includes a term of community custody imposed under this subsection, the court shall also require the offender to comply with any conditions imposed by the department under RCW 9.94A.720. The department shall assess the offender's risk of reoffense and may establish and modify additional conditions of the offender's community custody based upon the risk to community safety. In addition, the department may require the offender to participate in rehabilitative programs, or otherwise perform affirmative conduct, and to obey all laws. The department may impose electronic monitoring as a condition of community custody for an offender sentenced to a term of community custody under this section pursuant to a conviction for a sex offense. The department shall, with available resources, carry out any electronic

monitoring imposed under this section using the most appropriate technology given the individual circumstances of the offender. As used in this section, "electronic monitoring" means the monitoring of an offender using an electronic offender tracking system including, but not limited to, a system using radio frequency or active or passive global positioning system technology.

(c) The department may not impose conditions that are contrary to those ordered by the court and may not contravene or decrease court imposed conditions. The department shall notify the offender in writing of any such conditions or modifications. In setting, modifying, and enforcing conditions of community custody, the department shall be deemed to be performing a quasi-judicial function.

(3) If an offender violates conditions imposed by the court or the department pursuant to this section during community custody, the department may transfer the offender to a more restrictive confinement status and impose other available sanctions as provided in RCW 9.94A.737 and 9.94A.740.

(4) Except for terms of community custody under RCW 9.94A.670, the department shall discharge the offender from community custody on a date determined by the department, which the department may modify, based on risk and performance of the offender, within the range or at the end of the period of earned release, whichever is later.

(5) At any time prior to the completion or termination of a sex offender's term of community custody, if the court finds that public safety would be enhanced, the court may impose and enforce an order extending any or all of the conditions imposed pursuant to this section for a period up to the maximum allowable sentence for the crime as it is classified in chapter 9A.20 RCW, regardless of the expiration of the offender's term of community custody. If a violation of a condition extended under this subsection occurs after the expiration of the offender's term of community custody, it shall be deemed a violation of the sentence for the purposes of RCW 9.94A.631 and may be punishable as contempt of court as provided for in RCW 7.21.040. If the court extends a condition beyond the expiration of the term of community custody, the department is not responsible for supervision of the offender's compliance with the condition.

(6) Within the funds available for community custody, the department shall determine conditions and duration of community custody on the basis of risk to community safety, and shall supervise offenders during community custody on the basis of risk to community safety and conditions imposed by the court. The secretary shall adopt rules to implement the provisions of this subsection.

(7) By the close of the next business day after receiving notice of a condition imposed or modified by the department, an offender may request an administrative review under rules adopted by the department. The condition shall remain in effect unless the reviewing officer finds that it is not reasonably related to any of the following: (a) The crime of conviction; (b) the offender's risk of reoffending; or (c) the safety of the community.

NEW SECTION. Sec. 3. A new section is added to chapter 4.24 RCW to read as follows:

Local governments, their subdivisions and employees, the department of corrections and its employees, and the Washington association of sheriffs and police chiefs and its employees are immune from civil liability for damages arising from incidents involving offenders who are placed on electronic monitoring, unless it is shown that an employee acted with gross negligence or bad faith."

ESSB 6366 Prime Sponsor, Senate Committee On Ways & Means: Concerning preparation and response to pandemic influenza. Reported by Committee on Health Care

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that certain threats to public health do not respect the jurisdictional boundaries of local public health districts and departments. Such threats require an efficient, well-coordinated response by local health jurisdictions in order to protect the health of local residents as well as the health of all Washingtonians. These threats place demands on public health to be more vigilant than ever and to respond quickly and decisively. Rapid responses of substantial magnitude are no longer a goal for the future, but a necessity for preserving the health of society.

For over a decade, the public health improvement plan process has brought state and local health jurisdictions together to achieve a partnership that has produced standards of quality and best practices that are a national model. The standards developed by the public health improvement partnership have focused largely on formal documentation of administrative processes by state and local health jurisdictions. This is the necessary first step to measuring the performance of public health, but is not yet sufficient for measuring the outcomes of these improvements in public health operations. Performance measures are needed immediately to ascertain the extent to which the residents of the state of Washington have a consistent and adequate level of protection from communicable diseases including a pandemic disease outbreak.

The legislature recognizes the magnitude of the demands placed on public health in today's society and the strides that it has made toward holding itself accountable for the way in which it performs. The legislature finds that enhanced funding and enhanced performance measures are immediately necessary in order for public health to perform at levels that will protect all of the residents of Washington.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Department" means the department of health.

(2) "Local health jurisdiction" means a local health department as established under chapter 70.05 RCW, a combined city-county health department as established under chapter 70.08 RCW, or a health district established under chapter 70.05 or 70.46 RCW.

(3) "Performance measure" means a standard that establishes a benchmark against which a local health jurisdiction's performance can be measured that is as closely associated with a desired outcome as possible.

(4) "Secretary" means the secretary of health.

NEW SECTION. Sec. 3. The secretary shall:

(1) By June 15, 2006, establish a template, consistent with requirements and performance standards established by the United States department of health and human services, to define preparedness activities that should be undertaken prior to a pandemic disease outbreak or other communicable disease outbreak; describe the response, coordination, and decision-making structure among all local public health, health care, and response organizations; and define the roles and responsibilities of all local public health, health care, and response organizations during all phases of a pandemic disease outbreak or other communicable disease outbreak. The template shall be used by each local health jurisdiction to assess their capacity to respond to a pandemic disease outbreak or other communicable disease outbreak that poses a significant risk of a statewide health hazard. The template must include explicit criteria and performance or outcome measures related to the activities identified in section 5 of this act, and reflect the relative priorities among the activities for purposes of local health jurisdiction planning and implementation efforts. The performance measures included in the template must provide a means to assess operations of the department and each local health jurisdiction with respect to providing an adequate and consistent level of statewide protection for the residents of the state in the event of a pandemic disease outbreak or other communicable disease outbreak. In developing these measures, the secretary shall consider performance measures

developed by government agencies and private organizations. The secretary shall attempt to develop these performance measures in categories consistent with the process standards applicable to protection from communicable disease as identified in the public health improvement plan under RCW 43.70.520 and 43.70.580, to the extent that these measures are consistent with federal standards defined by the United States department of health and human services;

(2) Develop a process for assessing the compliance of the department and each local health jurisdiction with the performance measures developed under subsection (1) of this section at least biannually;

(3) Develop a process for distributing the funds provided in section 8(2) of this act on or before July 1, 2006, to local health jurisdictions for development of their pandemic flu and communicable disease outbreak preparedness and response plans, based upon a formula developed by the secretary;

(4) Develop a process for approving or rejecting pandemic flu and communicable disease outbreak preparedness and response plans developed by local health jurisdictions under section 5 of this act by November 30, 2006.

NEW SECTION. Sec. 4. Each local health jurisdiction must substantially comply with the performance measures established under section 3 of this act by July 1, 2007, and maintain such substantial compliance.

NEW SECTION. Sec. 5. By December 1, 2006, each jurisdiction shall submit a pandemic flu and communicable disease outbreak preparedness and response plan in consultation with appropriate public and private sector partners, including departments of emergency management, law enforcement, school districts, hospitals and medical professionals, tribal governments, and business organizations. The plan shall include the specific activities that it will undertake to meet the standards included in the template developed by the secretary under section 3 of this act by June 30, 2007, and a detailed explanation of the expenditures needed to implement the plan. At a minimum, each plan shall address:

(1) Public education and citizen preparedness, including improvements in the ability of the public to employ universal infectious disease prevention practices, maintain emergency supplies, and respond to a community public health emergency;

(2)(a) Disease surveillance, investigation, and rapid response, including health care provider compliance with reportable conditions requirements;

(b) Investigation and analysis of reported illness or outbreaks; and

(c) Disease control response;

(3) Communications systems, including improving effectiveness of communication, the availability of specialized communications equipment, and access by health officials and community leaders to mass media outlets;

(4) Medical system mobilization, including improving the linkages and coordination of emergency responses across health care organizations, contracts with community facilities to serve as emergency alternative sites during an emergency, availability of trained personnel, conducting practice drills and access to medical supplies and equipment, plans and protocols to rapidly administer vaccine to large populations and monitor vaccine effectiveness and safety, and guidelines for the appropriate use of medications to treat and prevent influenza or other communicable diseases;

(5) Community-level disease containment capability including increasing adherence to public health advisories, voluntary social isolation during disease outbreaks, and health officer orders related to quarantines;

(6) Maintenance of social order and essential public services, including improving linkages with the local emergency incident command structure and maintenance of essential service and the development of the legal documents necessary to facilitate and support the necessary government response.

Upon approval of a local health jurisdiction's pandemic flu and communicable disease outbreak preparedness and response plan by the secretary, the secretary shall distribute funds provided in section

8(3) of this act for implementation of the plan, based upon a formula developed by the secretary.

NEW SECTION. Sec. 6. The department shall provide implementation support and assistance to a local health jurisdiction when the secretary or the local health jurisdiction has significant concerns regarding a jurisdiction's progress toward implementing its plan. Nothing in this section is intended to limit the authority of the secretary to act under RCW 43.70.130(4).

NEW SECTION. Sec. 7. Sections 1 through 6 of this act constitute a new chapter in Title 70 RCW.

NEW SECTION. Sec. 8. (1) The sum of three hundred thousand dollars is appropriated for fiscal year 2007, from the general fund to the department of health for activities by the department necessary to implement this act.

(2) The sum of one million dollars is appropriated for the fiscal year 2007, from the general fund to the department of health for distribution to local health jurisdictions for development of pandemic flu and communicable disease outbreak preparedness and response plans approved by the department as provided in section 5 of this act.

(3) The sum of four million dollars is appropriated for the fiscal year 2007, from the general fund to the department of health for distribution to local health jurisdictions for implementation of spending plans approved by the department under section 4 of this act.

NEW SECTION. Sec. 9. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

SSB 6367 Prime Sponsor, Senate Committee On Government Operations & Elections: Requiring voluntary measures be included in critical area development regulations. Reported by Committee on Local Government

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that there is a broadly held ethic among the citizens of the state that includes appreciation of nature and environmental values, and that citizens are willing to voluntarily undertake activities to protect and enhance environmental values at their homes and gardens, on land on which they live or work, and in their communities. The legislature finds that voluntary activities can be invaluable toward achieving the overall goal of protecting and enhancing the environment and that such activities should be given recognition as highly valued endeavors.

The legislature finds that there are successful programs that can be used as models, such as the "Shore Stewards Guide for Shoreline Living" jointly prepared by university extension faculty and local

governments, that provide information on a broad array of actions that citizens can undertake that fits their unique conditions and interests. The legislature finds that better enabling citizens to undertake voluntary activities can result in improved protection for the environment and enhance environmental quality and our quality of life.

The purpose of this act is to encourage counties and cities to expand the availability and use of nonregulatory measures for existing and nonconforming uses as a component of ordinances under RCW 36.70A.130 adopted after the effective date of this section and to encourage an increase in the information and resources to the public to foster voluntary activities by citizens to improve their environment.

Sec. 2. RCW 36.70A.070 and 2005 c 360 s 2 are each amended to read as follows:

The comprehensive plan of a county or city that is required or chooses to plan under RCW 36.70A.040 shall consist of a map or maps, and descriptive text covering objectives, principles, and standards used to develop the comprehensive plan. The plan shall be an internally consistent document and all elements shall be consistent with the future land use map. A comprehensive plan shall be adopted and amended with public participation as provided in RCW 36.70A.140.

Each comprehensive plan shall include a plan, scheme, or design for each of the following:

(1) A land use element designating the proposed general distribution and general location and extent of the uses of land, where appropriate, for agriculture, timber production, housing, commerce, industry, recreation, open spaces, general aviation airports, public utilities, public facilities, and other land uses. The land use element shall include population densities, building intensities, and estimates of future population growth. The land use element shall provide for protection of the quality and quantity of ground water used for public water supplies. Wherever possible, the land use element should consider utilizing urban planning approaches that promote physical activity. Where applicable, the land use element shall review drainage, flooding, and storm water run-off in the area and nearby jurisdictions and provide guidance for corrective actions to mitigate or cleanse those discharges that pollute waters of the state, including Puget Sound or waters entering Puget Sound.

(2) A housing element ensuring the vitality and character of established residential neighborhoods that: (a) Includes an inventory and analysis of existing and projected housing needs that identifies the number of housing units necessary to manage projected growth; (b) includes a statement of goals, policies, objectives, and mandatory provisions for the preservation, improvement, and development of housing, including single-family residences; (c) identifies sufficient land for housing, including, but not limited to, government-assisted housing, housing for low-income families, manufactured housing, multifamily housing, and group homes and foster care facilities; and (d) makes adequate provisions for existing and projected needs of all economic segments of the community.

(3) A capital facilities plan element consisting of: (a) An inventory of existing capital facilities owned by public entities, showing the locations and capacities of the capital facilities; (b) a forecast of the future needs for such capital facilities; (c) the proposed locations and capacities of expanded or new capital facilities; (d) at least a six-year plan that will finance such capital facilities within projected funding capacities and clearly identifies sources of public money for such purposes; and (e) a requirement to reassess the land use element if probable funding falls short of meeting existing needs and to ensure that the land use element, capital facilities plan element, and financing plan within the capital facilities plan element are coordinated and consistent. Park and recreation facilities shall be included in the capital facilities plan element.

(4) A utilities element consisting of the general location, proposed location, and capacity of all existing and proposed utilities, including, but not limited to, electrical lines, telecommunication lines, and natural gas lines.

(5) Rural element. Counties shall include a rural element including lands that are not designated for urban growth, agriculture,

forest, or mineral resources. The following provisions shall apply to the rural element:

(a) Growth management act goals and local circumstances. Because circumstances vary from county to county, in establishing patterns of rural densities and uses, a county may consider local circumstances, but shall develop a written record explaining how the rural element harmonizes the planning goals in RCW 36.70A.020 and meets the requirements of this chapter.

(b) Rural development. The rural element shall permit rural development, forestry, and agriculture in rural areas. The rural element shall provide for a variety of rural densities, uses, essential public facilities, and rural governmental services needed to serve the permitted densities and uses. To achieve a variety of rural densities and uses, counties may provide for clustering, density transfer, design guidelines, conservation easements, and other innovative techniques that will accommodate appropriate rural densities and uses that are not characterized by urban growth and that are consistent with rural character.

(c) Measures governing rural development. The rural element shall include measures that apply to rural development and protect the rural character of the area, as established by the county, by:

(i) Containing or otherwise controlling rural development;

(ii) Assuring visual compatibility of rural development with the surrounding rural area;

(iii) Reducing the inappropriate conversion of undeveloped land into sprawling, low-density development in the rural area;

(iv) Protecting critical areas, as provided in RCW 36.70A.060, and surface water and ground water resources. Measures to protect critical areas should also include voluntary measures, incentives, and educational programs, to the extent to which such voluntary approaches can be effective; and

(v) Protecting against conflicts with the use of agricultural, forest, and mineral resource lands designated under RCW 36.70A.170.

(d) Limited areas of more intensive rural development. Subject to the requirements of this subsection and except as otherwise specifically provided in this subsection (5)(d), the rural element may allow for limited areas of more intensive rural development, including necessary public facilities and public services to serve the limited area as follows:

(i) Rural development consisting of the infill, development, or redevelopment of existing commercial, industrial, residential, or mixed-use areas, whether characterized as shoreline development, villages, hamlets, rural activity centers, or crossroads developments.

(A) A commercial, industrial, residential, shoreline, or mixed-use area shall be subject to the requirements of (d)(iv) of this subsection, but shall not be subject to the requirements of (c)(ii) and (iii) of this subsection.

(B) Any development or redevelopment other than an industrial area or an industrial use within a mixed-use area or an industrial area under this subsection (5)(d)(i) must be principally designed to serve the existing and projected rural population.

(C) Any development or redevelopment in terms of building size, scale, use, or intensity shall be consistent with the character of the existing areas. Development and redevelopment may include changes in use from vacant land or a previously existing use so long as the new use conforms to the requirements of this subsection (5);

(ii) The intensification of development on lots containing, or new development of, small-scale recreational or tourist uses, including commercial facilities to serve those recreational or tourist uses, that rely on a rural location and setting, but that do not include new residential development. A small-scale recreation or tourist use is not required to be principally designed to serve the existing and projected rural population. Public services and public facilities shall be limited to those necessary to serve the recreation or tourist use and shall be provided in a manner that does not permit low-density sprawl;

(iii) The intensification of development on lots containing isolated nonresidential uses or new development of isolated cottage industries and isolated small-scale businesses that are not principally designed to serve the existing and projected rural population and nonresidential uses, but do provide job opportunities for rural residents. Rural counties may allow the expansion of small-scale

businesses as long as those small-scale businesses conform with the rural character of the area as defined by the local government according to RCW 36.70A.030(~~((14))~~) (15). Rural counties may also allow new small-scale businesses to utilize a site previously occupied by an existing business as long as the new small-scale business conforms to the rural character of the area as defined by the local government according to RCW 36.70A.030(~~((14))~~) (15). Public services and public facilities shall be limited to those necessary to serve the isolated nonresidential use and shall be provided in a manner that does not permit low-density sprawl;
