(3) The corporation shall identify with specificity those facilities of the state convention and trade center that are to be financed with proceeds of general obligation bonds, the interest on which is intended to be excluded from gross income for federal income tax purposes. The corporation shall not permit the extent or manner of private business use of those bond-financed facilities to be inconsistent with treatment of such bonds as governmental bonds under applicable provisions of the Internal Revenue Code of 1986, as amended:

(4) In order to ensure consistent treatment of bonds authorized under RCW 67.40.030 with applicable provisions of the Internal Revenue Code of 1986, as amended, and notwithstanding RCW 43.84.092, investment earnings on bond proceeds deposited in the state convention and trade center account in the state treasury shall be retained in the account, and shall be expended by the corporation for the purposes authorized under chapter 386, Laws of 1995 and in a manner consistent with applicable provisions of the Internal Revenue Code of 1986, as amended:

(5) Subject to the conditions in subsection (6) of this section, starting in fiscal year 2008, and except for the 2009-2011 fiscal biennium in which no transfers shall be made, the state treasurer shall transfer:

(6)(a) Funds required for debt service payments and reserves for bonds issued under RCW 67.40.030; for debt service authorized under RCW 67.40.170; and for the issuance and sale of financial instruments associated with the acquisition, design, construction, and retrofit of the museum of history and industry museum property or for other future expansions of the center, as approved by the legislature, shall be maintained within the state convention and trade center account.

(b) Except for during the 2009-2011 fiscal biennium, during which no reserve shall be retained, no less than six million one hundred fifty thousand dollars per year shall be retained in the state convention and trade center account for funding capital maintenance as required by the center's long-term capital plan, facility enhancements, unanticipated replacements, and operating reserves for the convention center operation. This amount shall be escalated annually as follows:

(i) Four percent for annual inflation for capital maintenance, repairs, and replacement;

(ii) An additional two percent for enhancement to the facility; and

(iii) An additional three percent for growth in expenditure due to aging of the facility and the need to maintain an operating reserve.

(c) Sufficient funds shall be reserved within the state convention and trade center account to fund operating appropriations for the annual operation of the convention center.

Sec. 949. RCW 67.70.190 and 2005 c 427 s 2 are each amended to read as follows:

Unclaimed prizes shall be retained in the state lottery account for the person entitled thereto for one hundred eighty days after the drawing in which the prize is won, or after the official end of the game for instant prizes. If no claim is made for the prize within this time, all rights to the prize shall be extinguished, and the prize shall be retained in the state lottery fund for further use as prizes, except that one-third of all unclaimed prize money shall be deposited in the economic development strategic reserve account created in RCW 43.330.250.

On July 1, 2009, June 30, 2010, and June 30, 2011, all unclaimed prize money retained in the state lottery fund in excess of three million dollars, excluding amounts distributed to the economic development strategic reserve account, shall be transferred into the state general fund.

Sec. 950. RCW 70.93.180 and 2005 c 518 s 939 are each amended to read as follows:

(1) There is hereby created an account within the state treasury to be known as the "waste reduction, recycling, and litter control account". Moneys in the account may be spent only after appropriation. Expenditures from the waste reduction, recycling, and litter control account shall be used as follows:

(a) Fifty percent to the department of ecology, for use by the departments of ecology, natural resources, revenue, transportation, and corrections, and the parks and recreation commission, for use in litter collection programs, to be distributed under RCW 70.93.220. The amount to the department of ecology shall also be used for a central coordination function for litter control efforts statewide, for the biennial litter survey under RCW 70.93.200(8), and for statewide public awareness programs under RCW 70.93.200(7). The amount to the department shall also be used to defray the costs of administering the funding, coordination, and oversight of local government programs for waste reduction, litter control, and recycling, so that local governments can apply one hundred percent of their funding to achieving program goals. The amount to the department of revenue shall be used to enforce compliance with the litter tax imposed in chapter 82.19 RCW;

(b) Twenty percent to the department for local government funding programs for waste reduction, litter control, and recycling activities by cities and counties under RCW 70.93.250, to be administered by the department of ecology; and

(c) Thirty percent to the department of ecology for waste reduction and recycling efforts.

(2) All taxes imposed in RCW 82.19.010 and fines and bail forfeitures collected or received pursuant to this chapter shall be deposited in the waste reduction, recycling, and litter control account and used for the programs under subsection (1) of this section.

(3) Not less than five percent and no more than ten percent of the amount appropriated into the waste reduction, recycling, and litter control account every biennium shall be reserved for capital needs, including the purchase of vehicles for transporting crews and for collecting litter and solid waste. Capital funds shall be distributed among state agencies and local governments according to the same criteria provided in RCW 70.93.220 for the remainder of the funds, so that the most effective waste reduction, litter control, and recycling programs receive the most funding. The intent of this subsection is to provide funds for the purchase of equipment that will enable the department to account for the greatest return on investment in terms of reaching a zero litter goal.

(4) During the ~~((2005-2007))~~ 2009-2011 fiscal biennium, the legislature may transfer from the waste reduction, recycling, and litter control account to the state general fund such amounts as reflect the excess fund balance of the account. For purposes of subsection (1) of this section, this transfer shall be treated as an expenditure for litter collection.

Sec. 951. RCW 70.105D.070 and 2008 c 329 s 921, 2008 c 329 s 920, 2008 c 329 s 919, and 2008 c 328 s 6009 are each reenacted and amended to read as follows:

(xii) Development and demonstration of alternative management technologies designed to carry out the hazardous waste management priorities of RCW 70.105.150; and

(xiii) During the 2009-2011 fiscal biennium, shoreline update technical assistance.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority:

(i) Remedial actions;

(ii) Hazardous waste plans and programs under chapter 70.105 RCW;

(v) Cleanup and disposal of hazardous substances from abandoned or derelict vessels, defined for the purposes of this section as vessels that have little or no value and either have no identified owner or have an identified owner lacking financial resources to clean up and dispose of the vessel, that pose a threat to human health or the environment.

(b) Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW, except that any applicant that is a Puget Sound partner, as defined in RCW 90.71.010, along with any project that is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, shall, except as conditioned by RCW 70.105D.120, receive priority for any available funding for any grant or funding programs or sources that use a competitive bidding process. During the 2007-2009 fiscal biennium, moneys in the account may also be used for grants to local governments to retrofit public sector diesel equipment and for storm water planning and implementation activities.

~~(c) ((Funds may also be appropriated to the department of health to implement programs to reduce testing requirements under the federal safe drinking water act for public water systems. ~~((d))~~ To expedite cleanups throughout the state, the department shall partner with local communities and liable parties for cleanups. The department is authorized to use the following additional strategies in order to ensure a healthful environment for future generations:

(i) The director may alter grant-matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of vacant, orphaned, or abandoned property under RCW 70.105D.040(5) that would not otherwise occur;

(ii) The use of outside contracts to conduct necessary studies;

(iii) The purchase of remedial action cost-cap insurance, when necessary to expedite multiparty clean-up efforts.

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) ~~Except during the 2009-2011 fiscal biennium, one percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. ((However, during the 1999-2001 fiscal biennium, funding may not be granted to entities engaged in lobbying activities, and applicants may not be awarded grants if their cumulative grant awards under this section exceed two hundred thousand dollars.))~~ No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation, or, after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(7) The department shall adopt rules for grant or loan issuance and performance.

(8) During the 2007-2009 and 2009-2011 fiscal ~~((biennium))~~ biennia, the legislature may transfer from the local toxics control account to ~~((the state toxics control))~~ either the state general fund or the oil spill prevention account, or both such amounts as reflect excess fund balance in the account.

(9) During the ~~((2007-2009))~~ 2009-2011 fiscal biennium, the local toxics control account may also be used for a standby rescue tug at Neah Bay, local government shoreline update grants, private and public sector diesel equipment retrofit, and oil spill prevention, preparedness, and response activities.

(10) During the 2009-2011 fiscal biennium, the legislature may transfer from the state toxics control account to the state general fund such amounts as reflect the excess fund balance in the account.

Sec. 952. RCW 71.24.310 and 2006 c 333 s 107 are each amended to read as follows:

The legislature finds that administration of chapter 71.05 RCW and this chapter can be most efficiently and effectively implemented as part of the regional support network defined in RCW 71.24.025. For this reason, the legislature intends that the department and the regional support networks shall work together to implement chapter 71.05 RCW as follows:

(1) By June 1, 2006, regional support networks shall recommend to the department the number of state hospital beds that should be allocated for use by each regional support network. The statewide total allocation shall not exceed the number of state hospital beds offering long-term inpatient care, as defined in this chapter, for which funding is provided in the biennial appropriations act.

(2) If there is consensus among the regional support networks regarding the number of state hospital beds that should be allocated for use by each regional support network, the department shall contract with each regional support network accordingly.

(3) If there is not consensus among the regional support networks regarding the number of beds that should be allocated for use by each regional support network, the department shall establish by emergency rule the number of state hospital beds that are available for use by each regional support network. The emergency rule shall be effective September 1, 2006. The primary factor used in the allocation shall be the estimated number of ~~((acutely and chronically mentally ill))~~ adults with acute and chronic mental illness in each regional support network area, based upon population-adjusted incidence and utilization.

(4) The allocation formula shall be updated at least every three years to reflect demographic changes, and new evidence regarding the incidence of acute and chronic mental illness and the need for long-term inpatient care. In the updates, the statewide total allocation shall include (a) all state hospital beds offering long-term inpatient care for which funding is provided in the biennial appropriations act; plus (b) the estimated equivalent number of beds or comparable diversion services contracted in accordance with subsection (5) of this section.

(5) The department is encouraged to enter performance-based contracts with regional support networks to provide some or all of the regional support network's allocated long-term inpatient treatment capacity in the community, rather than in the state hospital. The performance contracts shall specify the number of patient days of care available for use by the regional support network in the state hospital.

(6) If a regional support network uses more state hospital patient days of care than it has been allocated under subsection (3) or (4) of this section, or than it has contracted to use under subsection (5) of this section, whichever is less, it shall reimburse the department for that care. The reimbursement rate per day shall be the hospital's total annual budget for long-term inpatient care, divided by the total patient days of care assumed in development of that budget.

(7) One-half of any reimbursements received pursuant to subsection (6) of this section shall be used to support the cost of operating the state hospital and, during calendar year 2009, implementing new services that will enable a regional support network to reduce its utilization of the state hospital. The department shall distribute the remaining half of such reimbursements among regional support networks that have used less than their allocated or contracted patient days of care at that hospital, proportional to the number of patient days of care not used.

Sec. 953. RCW 74.08A.340 and 2008 c 329 s 922 are each amended to read as follows:

The department of social and health services shall operate the Washington WorkFirst program authorized under RCW 74.08A.200 through 74.08A.330, 43.330.145, 43.215.545, and 74.25.040, and chapter 74.12 RCW within the following constraints:

(1) The full amount of the temporary assistance for needy families block grant, plus qualifying state expenditures as appropriated in the biennial operating budget, shall be appropriated to the department each year in the biennial appropriations act to carry out the provisions of the program authorized in RCW 74.08A.200 through 74.08A.330, 43.330.145, 43.215.545, and 74.25.040, and chapter 74.12 RCW.

(2)(a) The department may expend funds defined in subsection (1) of this section in any manner that will effectively accomplish the outcome measures defined in RCW 74.08A.410 with the following exception: Beginning with the 2007-2009 biennium, funds that constitute the working connections child care program, child care quality programs, and child care licensing functions.

(b) Beginning in the 2007-2009 fiscal biennium, the legislature shall appropriate and the departments of early learning and social and health services shall expend funds defined in subsection (1) of this section that constitute the working connections child care program, child care quality programs, and child care licensing functions in a manner that is consistent with the outcome measures defined in RCW 74.08A.410.

(c) No more than fifteen percent of the amount provided in subsection (1) of this section may be spent for administrative purposes. For the purpose of this subsection, "administrative purposes" does not include expenditures for information technology and computerization needed for tracking and monitoring required by P.L. 104-193. The department shall not increase grant levels to recipients of the program authorized in RCW 74.08A.200 through 74.08A.330 and 43.330.145 and chapter 74.12 RCW, except as authorized in the omnibus appropriations act for the ~~((2007-2009))~~ 2009-2011 biennium.

(3) The department shall implement strategies that accomplish the outcome measures identified in RCW 74.08A.410 that are within the funding constraints in this section. Specifically, the department shall implement strategies that will cause the number of cases in the program authorized in RCW 74.08A.200 through 74.08A.330 and 43.330.145 and chapter 74.12 RCW to decrease by at least fifteen percent during the

1997-99 biennium and by at least five percent in the subsequent biennium. The department may transfer appropriation authority between funding categories within the economic services program in order to carry out the requirements of this subsection.

(4) The department shall monitor expenditures against the appropriation levels provided for in subsection (1) of this section. The department shall quarterly make a determination as to whether expenditure levels will exceed available funding and communicate its finding to the legislature. If the determination indicates that expenditures will exceed funding at the end of the fiscal year, the department shall take all necessary actions to ensure that all services provided under this chapter shall be made available only to the extent of the availability and level of appropriation made by the legislature.

Sec. 954. RCW 74.13.621 and 2005 c 439 s 1 are each amended to read as follows:

(1) Within existing resources, the department shall establish an oversight committee to monitor, guide, and report on kinship care recommendations and implementation activities. The committee shall:

(a) Draft a kinship care definition that is restricted to persons related by blood, marriage, or adoption, including marriages that have been dissolved, or for a minor defined as an "Indian child" under the federal Indian child welfare act (25 U.S.C. Sec. 1901 et seq.), the definition of "extended family member" under the federal Indian child welfare act, and a set of principles. If the committee concludes that one or more programs or services would be more efficiently and effectively delivered under a different definition of kin, it shall state what definition is needed, and identify the program or service in the report. It shall also provide evidence of how the program or service will be more efficiently and effectively delivered under the different definition. The department shall not adopt rules or policies changing the definition of kin without authorizing legislation;

(b) Monitor and provide consultation on the implementation of recommendations contained in the 2002 kinship care report, including but not limited to the recommendations relating to legal and respite care services and resources;

(c) Partner with nonprofit organizations and private sector businesses to guide a public education awareness campaign; and

(d) Assist with developing future recommendations on kinship care issues.

(2) The department shall consult with the oversight committee on its efforts to better collaborate and coordinate services to benefit kinship care families.

(3) The oversight committee must consist of a minimum of thirty percent kinship caregivers, who shall represent a diversity of kinship families. Statewide representation with geographic, ethnic, and gender diversity is required. Other members shall include representatives of the department, representatives of relevant state agencies, representatives of the private nonprofit and business sectors, child advocates, representatives of Washington state Indian tribes as defined under the federal Indian welfare act (25 U.S.C. Sec. 1901 et seq.), and representatives of the legal or judicial field. Birth parents, foster parents, and others who have an interest in these issues may also be included.

(4) To the extent funding is available, the department may reimburse nondepartmental members of the oversight committee for costs incurred in participating in the meetings of the oversight committee.

(5) The kinship care oversight committee shall update the legislature and governor annually on committee activities, with the first update due by January 1, 2006.

(6) This section expires (~~January 1, 2010~~) June 30, 2011.

Sec. 955. RCW 77.12.820 and 1997 c 422 s 5 are each amended to read as follows:

Moneys in the account are subject to legislative appropriation and shall be used for the purpose of funding the eastern Washington pheasant enhancement program. The department may use moneys from the account to improve pheasant habitat or to purchase or produce pheasants. Except as otherwise provided in the omnibus appropriations act for the 2009-2011 fiscal biennium, not less than eighty percent of expenditures from the account must be used to purchase or produce pheasants. The eastern Washington pheasant enhancement account funds must not be used for the purchase of land. The account may be used to offer grants to improve pheasant habitat on public or private lands that are open to public hunting. The department may enter partnerships with private landowners, nonprofit corporations, cooperative groups, and federal or state agencies for the purposes of pheasant habitat enhancement in areas that will be available for public hunting.

Sec. 956. RCW 77.32.010 and 2008 c 329 s 923 are each amended to read as follows:

Sec. 957. RCW 79.64.040 and 2007 c 522 s 958 are each amended to read as follows:

(4) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys received subject to this section are the net proceeds from the contract harvesting sale.

(5) During the (~~2007-2009~~) 2009-2011 fiscal biennium, the twenty-five percent limitation on deductions set in subsection (3) of this section may be increased up to thirty percent by the board (~~provided the total amount deducted does not exceed the total appropriations in the operating and capital budgets for the fiscal period. At the end of the fiscal period, any amounts deducted in excess of the appropriations shall be transferred to the appropriate beneficiary distribution accounts~~).

Sec. 958. RCW 79A.25.080 and 2007 c 241 s 44 are each amended to read as follows:

(1) Moneys transferred to the recreation resource account from the marine fuel tax refund account may be used when appropriated by the legislature, as well as any federal or other funds now or hereafter available, to pay the office and necessary administrative and coordinative costs of the recreation and conservation funding board established by RCW 79A.25.110. All moneys so transferred, except those appropriated as aforesaid, shall be divided into two equal shares and shall be used to benefit watercraft recreation in this state as follows:

~~((+))~~ (2) For the purposes of this section "periodic dredging" is limited to dredging of materials that have been deposited in a channel due to unforeseen events. This dredging should extend the expected usefulness of the facility for at least five years.

(3) During the 2009-2011 fiscal biennium, the legislature may appropriate such amounts as reflect the excess fund balance in the recreation resource account to the state parks and recreation commission for maintenance and operation of parks and to improve accessibility for boaters and off-road vehicle users. This appropriation is not required to follow the specific distribution specified in subsection (1)(a) and (b) of this section.

technology infrastructure through an integrated business portal approach. Grant awards may not exceed \$100,000 per local government agency per fiscal year. The funding must be used to acquire and implement permit tracking systems that can support and are compatible with a multijurisdictional, integrated approach. Prior to granting funds, the office of regulatory assistance shall ensure that the proposed systems and technology are based on open-industry standards, allow for future integration of processes and sharing of data, and are extendable.

(8) \$474,000 of the general fund--state appropriation for fiscal year 2008 and \$331,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the implementation of sections 50 through 57 (health resources strategy) of Engrossed Second Substitute Senate Bill No. 5930 (blue ribbon commission on health care). If the bill is not enacted by June 2007, the amounts provided in this subsection shall lapse.

(11) \$250,000 of the general fund--state appropriation for fiscal year 2008 is provided solely for the office of financial management to establish and provide staff support for the Washington citizens' work group on health care reform, pursuant to Engrossed Substitute Senate Bill No. 6333.

(12) \$11,372,000 of the general fund--state appropriation for fiscal year 2009 is provided solely for the development and implementation of the Washington assessment of student learning (WASL) and related activities and is in addition to the funding amounts provided in section 511 of this act. The funding provided in this subsection is subject to the following conditions and limitations: The office of financial management shall develop an interagency agreement with the office of the superintendent of public instruction for the expenditure of these funds based on a quarterly allotment schedule. Before releasing funds to the office of the superintendent of public instruction each quarter, the office of financial management shall ensure compliance with this subsection. Effective with the 2009 administration of the Washington assessment of student learning, while maintaining the reliability and validity of the assessment, the office of the superintendent of public instruction shall redesign the assessment in the content areas of reading, mathematics, and science in all grades except high school by shortening test administration, reducing the number of short answer and extended response questions, and potentially decreasing the number of items utilized in the assessment, particularly in grades tested under the requirements of the federal no child left behind act. In selecting and developing the new contractual obligations for the assessment contractor beginning in fiscal year 2009, the office of the superintendent of public instruction shall preserve legislative authority to set the student learning assessment policy and potentially make minor or significant changes to that policy in the future with the least amount of adverse fiscal and other impacts to the state as possible. In doing this, the office of the superintendent of public instruction shall advise and consult with the appropriate policy and fiscal committees of the legislature and the Washington assessment of student learning work group created in this subsection. Within the amounts appropriated in this subsection, a legislative work group on the Washington assessment of student learning is established. The work group will consist of a maximum of nine members. Legislative members shall be appointed by the president of the senate and the speaker of the house of representatives and shall represent the two largest caucuses of both the senate and the house of representatives. The purpose of this work group is to review and evaluate the current assessment system by January 1, 2009, and potentially make recommendations to improve it. Of the amount provided in this section, \$150,000 is provided solely for costs associated with hiring independent technical experts to advise the Washington assessment of student learning work group created in this subsection.

(13) Through prior legislation, many state activities that protect the general public by safeguarding health, safety, employees, and consumers are supported by fees assessed on items such as licensing, registration, certification, and inspections. Moreover, higher education, workforce training, and a number of other government services are supported at least in part by fees assessed on those who participate in these programs. Therefore, the office of financial management shall conduct a review and analysis of all fees for which the legislature has delegated to state agencies and institutions of higher education the ability to establish and determine the amount, either upon initial establishment or subsequent increases. Fees, as used in this subsection, has the same meaning as used in RCW 43.135.055. The objective of the review and analysis is to document the level of fees paid over the past five years, the cost of those programs over that same time period, and, to the extent available, the effectiveness of the activity in meeting its performance targets. The review and analysis shall include the following information:

(a) Information about the program, including the statutory authority for the program, date enacted, and the parties that benefit from the program; and

(b) Information about the program fees, including name and description of the fees, the parties that bear the cost of the fees, the methodology for determining the fees, and whether the fees directly fund the program; and

(c) Financial related information, including an assessment of the program's fee amount assessed over the past five years, the scope of the program and related costs over the past 5 years, and whether the program's expenditures are subject to appropriation or allotment procedures under chapter 43.88 RCW; and

(d) To the extent available, information on the program activities and related performance measures that may assist in assessing the effectiveness of the program in achieving its goals.

The office of financial management shall report its findings to the governor and the fiscal committees of the legislature by October 1, 2008.

(14) In addition to other reductions, the reduced appropriations in this section reflect an additional \$305,000 reduction in administrative costs required by Engrossed Substitute Senate Bill No. 5460 (reducing state government administrative costs). These administrative reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

**PART XI
HUMAN SERVICES**

Sec. 1101. 2008 c 329 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES. (1) Appropriations made in this act to the department of social

and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(4) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP), the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county, during the 2007-2009 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot project, times the number of clients enrolled in the pilot project. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(5)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, ~~((2008))~~ 2009, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year ~~((2008))~~ 2009 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year ~~((2008))~~ 2009 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoption support, and child support

programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds, provided the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

TOTAL APPROPRIATION	(\$8,376,726,000)
	<u>\$8,498,862,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(4) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is at least equivalent to the benefit provided in the 2003-05 biennium.

(5) In accordance with RCW 74.46.625, \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate- setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(6) \$1,111,000 of the health services account appropriation for fiscal year 2008, \$1,110,000 of the health services account appropriation for fiscal year 2009, \$5,402,000 of the general fund-- federal appropriation, \$1,590,000 of the general fund--state appropriation for fiscal year 2008, and \$1,591,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) \$10,546,000 of the health services account appropriation for fiscal year 2008, \$10,546,000 of the health services account--state appropriation for fiscal year 2009, and \$19,725,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2007-2009 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2007, and by November 1, 2008, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2008 and fiscal year 2009, hospitals in the program shall be paid and shall retain (a) one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance; and (b) one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program, and (b) disproportionate share hospital payment

amounts paid to and retained by each hospital during fiscal year 2005 that pertain to fiscal year 2005. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed within two years after the end of the related fiscal year. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$61,728,000 of the general fund--state appropriation for fiscal year 2008, of which \$6,570,000 is appropriated in section 204(1) of this act and the balance in this section, and (~~(\$47,745,000)~~) \$46,490,000 of the general fund--state appropriation for fiscal year 2009, of which \$6,570,000 is appropriated in section 204(1) of this act and the balance in this section, are provided solely for state grants for the participating hospitals.

The amounts are conditioned on the department satisfying the requirements of section 902 of this act.

(10) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(11) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

(12) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(13) The department shall, within available resources, continue operation of the medical care services care management pilot project for clients receiving general assistance benefits in King and Pierce counties. (14) \$1,688,000 of the general fund--state appropriation for fiscal year 2008 and \$1,689,000 of the general fund--state appropriation for fiscal year 2009 are provided solely to incorporate a mental health service component to the pilot project established pursuant to subsection (13) of this section. Addition of the mental health service component authorized in this subsection is contingent upon the managed care contractor or the participating counties providing, alone or in combination, matching funds in cash or in kind, in an amount equal to one-ninth of the amounts appropriated in this subsection. The mental health service component may include care coordination, mental health services, and integrated medical and mental health service delivery for general assistance clients with mental health disorders, as well as primary care provider training and education. The department shall provide a report to the appropriate committees of the legislature by January 1, 2009, on costs, savings, and any outcomes or quality measures associated with the pilot projects during calendar year 2007 and 2008. To the extent possible, the report shall address any impact that the mental health services component has had upon clients' use of medical services, including but not limited to primary care physician's visits, emergency room utilization, and prescription drug utilization.

(15) \$341,000 of the health services account appropriation for fiscal year 2008, \$1,054,000 of the health services account appropriation for fiscal year 2009, and \$1,461,000 of the general fund--federal appropriation are provided solely to implement Second Substitute House Bill No. 1201 (foster care youth medical). If the bill is not enacted by June 30, 2007, the amounts provided in this subsection shall lapse.

(16) \$6,728,000 of the general fund--state appropriation for fiscal year 2008 and \$8,563,000 of the general fund--state appropriation for fiscal year 2009 are provided solely to provide full benefit dual eligible beneficiaries with medicare part D prescription drug copayment coverage in accordance with chapter 3, Laws of 2007 (part D copayment drug program).

(17) The department shall conduct a study to determine the financial impact associated with continuing to cover brand name medications versus the same medication in its generic form. The study shall account for all rebates paid to the state on each product studied up until the point where the generic form is less expensive, net of federally required rebates. The department shall submit its report to the legislative fiscal committees by December 1, 2007.

(18) \$198,000 of the general fund--state appropriation for fiscal year 2008 and \$134,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the first two years of a four-year project by the Seattle-King county health department to improve management of symptoms and reduce complications related to asthma among medicaid eligible children. The department shall contract with the Seattle-King county health department to have trained community health workers visit medicaid eligible children in their homes to identify and reduce exposure to asthma triggers, improve clients' self-management skills, and coordinate clients' care with their primary care and specialty providers. The contract shall include an evaluation of the impact of the services provided under the contract on urgent physician's visits, emergency room utilization, and inpatient hospitalization.

(19) \$1,529,000 of the general fund--state appropriation for fiscal year 2008 and \$1,624,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for development and implementation of an outreach program as provided in chapter 5, Laws of 2007 (Second Substitute Senate Bill No. 5093, health services for children).

(a) By December 15, 2007, the department shall provide a report to the appropriate committees of the legislature on the progress of implementing the following activities:

- (i) Feasibility study and implementation plan to develop online application capability that is integrated with the department's automated client eligibility system;
- (ii) Development of data linkages with the office of superintendent of public instruction for free and reduced-price lunch enrollment information and the department of early learning for child care subsidy program enrollment information;

(b)(i) Within the amounts provided under this subsection (19), sufficient funding is provided to the department to develop and implement in conjunction with the employment security department a plan that would:

(A) Allow applicants and recipients of unemployment insurance to request assistance with obtaining health coverage for household members; and

(B) Authorize the exchange of information between the employment security department and the department of social and health services to more efficiently determine eligibility for health coverage under chapter 74.09 RCW.

(ii) The plan developed in (b)(i) of this subsection should address permissible uses of federal employment security funding and infrastructure, identification of any necessary statutory changes, and cost information. The department shall submit the plan in a report to the governor and the appropriate committees of the legislature by November 15, 2008.

(20) \$640,000 of the general fund--state appropriation for fiscal year 2008 and \$616,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for a medicare advantage program. The department shall:

(a) Pay the premiums associated with enrollment in a medicare advantage plan for those full benefit dual eligible beneficiaries, as defined in RCW 74.09.010, who were enrolled on or before November 14, 2006 in a medicare advantage plan sponsored by an entity accredited by the national committee for quality assurance and for whom the department had been paying Part C premium as of November 2006; and

(b) Undertake, directly or by contract, a study to determine the cost-effectiveness of paying premiums for enrollment of full benefit dual eligible beneficiaries in medicare advantage plans in lieu of paying full benefit dual eligible beneficiaries' medicare cost-sharing. The study shall compare the cost and health outcomes experience, including rates of nursing home placement and costs for groups of full benefit dual eligible beneficiaries who are enrolled in medicare advantage plans, in medicare special needs plan or in medicare fee-for-service. The study shall compare the health status and utilization of health and long-term care services for the three groups, and the impact of access to a medical home and specialty care, over a period of two years to determine any differences in health status, health outcomes, and state expenditures that result. The department shall submit the results of the study to the governor and the legislature by June 30, 2009. The department is authorized to accept private cash and in-kind donations and grants to support the study and evaluation.

(c) Track enrollment and expenditures for this population on department monthly management reports.

(21) The department may not transition to managed care delivery any population that has been primarily served under fee-for-service delivery unless the department first conducts a cost-effectiveness evaluation of the transition, including an evaluation of historical data on utilization patterns, and finds that the transition would result in a more effective and cost-efficient form of service delivery, pursuant to RCW 74.09.470. Any such finding must be provided to the governor and the legislature no less than ninety days before the transition begins.

(5) Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504(2) of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of \$9,703 per certificated staff unit in the 2007-08 school year and a maximum of \$10,178 per certificated staff unit in the 2008-09 school year.

Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported statewide for the prior school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

The funds shall be allocated at a rate not to exceed \$500 per full-time equivalent student enrolled in those programs; and

(e) ~~(\$9,373,000)~~ \$9,387,000 of the education legacy trust account appropriation is provided solely for allocations for equipment replacement in vocational programs and skills centers. (13) The appropriation levels in part V of this act assume implementation of the reimbursement provisions of Senate Bill No. 6450 (school district reimbursement of performance audits).

(2) A maximum of \$848,000 of this fiscal year 2008 appropriation and a maximum of \$878,000 of the fiscal year 2009 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

(3) \$5,000 of the fiscal year 2008 appropriation and \$5,000 of the fiscal year 2009 appropriation are provided solely for the transportation of students enrolled in "choice" programs. Transportation shall be limited to low-income students who are transferring to "choice" programs solely for educational reasons.

(4) Allocations for transportation of students shall be based on reimbursement rates of \$44.84 per weighted mile in the 2007-08 school year and \$45.68 per weighted mile in the 2008-09 school year exclusive of salary and benefit adjustments provided in section 504 of this act. (6) The office of the superintendent of public instruction shall provide reimbursement funding to a school district only after the superintendent of public instruction determines that the school bus was purchased from the list established pursuant to RCW 28A.160.195(2) or a comparable competitive bid process based on the lowest price quote based on similar bus categories to those used to establish the list pursuant to RCW 28A.160.195.

(7) The superintendent of public instruction shall base depreciation payments for school district buses on the five-year average of lowest bids in the appropriate category of bus. In the final year on the depreciation schedule, the depreciation payment shall be based on the lowest bid in the appropriate bus category for that school year.

Sec. 1405. 2008 c 329 s 506 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION—FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2008)	\$543,469,000
General Fund--State Appropriation (FY 2009)	(\$581,925,000)
	<u>\$580,312,000</u>
General Fund--Federal Appropriation	(\$435,692,000)
	<u>\$438,852,000</u>
Education Legacy Trust Account--State Appropriation	\$14,561,000
TOTAL APPROPRIATION	(\$1,575,647,000)
	<u>\$1,577,194,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall ensure that:

- (i) Special education students are basic education students first;
- (ii) As a class, special education students are entitled to the full basic education allocation; and
- (iii) Special education students are basic education students for the entire school day.

(b) The superintendent of public instruction shall adopt the full cost method of excess cost accounting, as designed by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006, and ensure that all school districts adopt the method beginning in the 2007-08 school year.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: (a) The first category includes (i) children birth through age two who are eligible for the optional program for special education eligible developmentally delayed infants and toddlers, and (ii) students eligible for the mandatory special education program and who are age three or four, or five and not yet enrolled in kindergarten; and (b) the second category includes students who are eligible for the mandatory special education program and who are age five and enrolled in kindergarten and students age six through 21.

(5)(a) For the 2007-08 and 2008-09 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, ~~(\$53,926,000)~~ \$56,553,000 of the general fund--state appropriation and \$29,574,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in this subsection (8) in any fiscal year, the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards. In the determination of need, the committee shall require that districts demonstrate

that they are maximizing their eligibility for all state and federal revenues related to services for special education-eligible students. Awards associated with (b) and (c) of this subsection shall not exceed the total of a district's specific determination of need.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services. The safety net awards to school districts shall be adjusted to reflect amounts awarded under (b) of this subsection.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999. The state safety net oversight committee shall ensure that safety net documentation and awards are based on current medicaid revenue amounts.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) The office of the superintendent of public instruction shall review and streamline the application process to access safety net funds, provide technical assistance to school districts, and annually survey school districts regarding improvement to the process.

(12) A maximum of \$678,000 may be expended from the general fund-- state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) A maximum of \$1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(14) \$50,000 of the general fund--state appropriation for fiscal year 2008, \$50,000 of the general fund--state appropriation for fiscal 2009, and \$100,000 of the general fund--federal appropriation shall be expended to support a special education ombudsman program within the office of superintendent of public instruction. The purpose of the program is to provide support to parents, guardians, educators, and students with disabilities. The program will provide information to help families and educators understand state laws, rules, and regulations, and access training and support, technical information services, and mediation services. The ombudsman program will provide data, information, and appropriate recommendations to the office of superintendent of public instruction, school districts, educational service districts, state need projects, and the parent and teacher information center. Within the appropriations in this section there is sufficient funding provided to also provide at least a half-time support staff position for the special education ombudsman program.

(15) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high- cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(16) A maximum of \$1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services.

(17) The superintendent, consistent with the new federal IDEA reauthorization, shall continue to educate school districts on how to implement a birth-to-three program and review the cost effectiveness and learning benefits of early intervention.

(18) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

(19) \$262,000 of the general fund--state appropriation for fiscal year 2008 and \$251,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for two additional full-time equivalent staff to support the work of the safety net committee and to provide training and support to districts applying for safety net awards.

Sec. 1810. RCW 71.24.310 and 2006 c 333 s 107 are each amended to read as follows:

The legislature finds that administration of chapter 71.05 RCW and this chapter can be most efficiently and effectively implemented as part of the regional support network defined in RCW 71.24.025. For this reason, the legislature intends that the department and the regional support networks shall work together to implement chapter 71.05 RCW as follows:

(1) By June 1, 2006, regional support networks shall recommend to the department the number of state hospital beds that should be allocated for use by each regional support network. The statewide total allocation shall not exceed the number of state hospital beds offering long-term inpatient care, as defined in this chapter, for which funding is provided in the biennial appropriations act.

(2) If there is consensus among the regional support networks regarding the number of state hospital beds that should be allocated for use by each regional support network, the department shall contract with each regional support network accordingly.

(3) If there is not consensus among the regional support networks regarding the number of beds that should be allocated for use by each regional support network, the department shall establish by emergency rule the number of state hospital beds that are available for use by each regional support network. The emergency rule shall be effective September 1, 2006. The primary factor used in the allocation shall be the estimated number of ~~((acutely and chronically mentally ill))~~ adults with acute and chronic mental illness in each regional support network area, based upon population-adjusted incidence and utilization.

(4) The allocation formula shall be updated at least every three years to reflect demographic changes, and new evidence regarding the incidence of acute and chronic mental illness and the need for long-term inpatient care. In the updates, the statewide total allocation shall include (a) all state hospital beds offering long-term inpatient care for which funding is provided in the biennial appropriations act; plus (b) the estimated equivalent number of beds or comparable diversion services contracted in accordance with subsection (5) of this section.

(5) The department is encouraged to enter performance-based contracts with regional support networks to provide some or all of the regional support network's allocated long-term inpatient treatment capacity in the community, rather than in the state hospital. The performance contracts shall specify the number of patient days of care available for use by the regional support network in the state hospital.

(6) If a regional support network uses more state hospital patient days of care than it has been allocated under subsection (3) or (4) of this section, or than it has contracted to use under subsection (5) of this section, whichever is less, it shall reimburse the department for that care. The reimbursement rate per day shall be the hospital's total annual budget for long-term inpatient care, divided by the total patient days of care assumed in development of that budget.

(7) One-half of any reimbursements received pursuant to subsection (6) of this section shall be used to support the cost of operating the state hospital and, during the 2007-2009 fiscal biennium, implementing new services that will enable a regional support network to reduce its utilization of the state hospital. The department shall distribute the remaining half of such reimbursements among regional support networks that have used less than their allocated or contracted patient days of care at that hospital, proportional to the number of patient days of care not used.

NEW SECTION. Sec. 1811. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 1812. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

 Puget Sound Initiative - Nearshore Salmon Restoration (20062001)

The reappropriations in this section are subject to the following conditions and limitations:

(1) The reappropriations are provided solely for efforts to restore nearshore habitat and estuaries in Puget Sound. The department of fish and wildlife must focus on restoring natural nearshore processes, including protection and restoration of beach sediments and removal of existing bulkheads.

(2) The department of fish and wildlife shall provide the Puget Sound partnership, as created by chapter 341, Laws of 2007 the opportunity to review and provide comment on proposed projects and activities recommended for funding. This review must be consistent with the funding schedule for the program.

(3) Funded projects require a nonstate match or in-kind contributions. The department of fish and wildlife must seek to maximize the amount of nonstate match from local, state, tribal, and federal partners. Individual projects require a minimum 33 percent cash or in-kind match.

(4) Eligible projects must be within Puget Sound and identified by a salmon recovery lead entity or marine resource committee and identified in a current salmon recovery, watershed, or nearshore habitat restoration and protection plan.

(5) Project evaluation criteria must be developed by the Puget Sound nearshore steering committee. The criteria must be consistent with the technical guidance developed by the Puget Sound nearshore science team and shall be coordinated with the salmon recovery funding board to ensure that project funding and matching requirements are maximized to the greatest extent possible.

(6) The department of fish and wildlife must not utilize any amount of these reappropriations to support administration or overhead. Funding to support the administration of the funds and the implementation of selected projects must be obtained from the department of fish and wildlife's operating budget.

(7) In recognition of the urgent need to complete the Puget Sound nearshore ecosystem restoration project general investigation, up to \$1,446,000 of these reappropriations may be used to match federal funds implementing the cost-share agreement between the department and the United States army corps of engineers.

(8) Up to \$2,061,735 of the reappropriations are provided solely for the following projects:

Land Bank (30000050)

The appropriation in this section is subject to the following conditions and limitations: The appropriation is provided solely for acquisition of working forest lands at risk of conversion to nonforest uses and working natural resource lands that will protect and enhance the value of trust land holdings. The legislature finds that the chronic loss of working forest lands threatens the long-term prospects of the timber products and other natural resource industries, which in turn threatens the long-term economic return for the beneficiaries of state trust lands. Acquisition of these lands is intended to help stabilize the primary source of revenue to trust land beneficiaries. The department shall submit a report to the appropriate committees of the legislature by October 1, 2010, and every two years thereafter, indicating the lands purchased under this section, showing the locations, acres, purchase price, and within that purchase price, the value of the property attributed to the future value of timber harvests given an expected rate of return for timber lands, and the value of the property attributed to future development of the property. It is the intent of the legislature to lease the development rights of these conversion lands and retain them as long-term working natural resource lands under the sustainable harvest plan. Working forest lands acquired under this section shall be managed at a level equal to or greater than seventy-five percent of the expected harvest under the sustainable harvest plan.

Trust Land Transfer (30000066)

The appropriation in this section is subject to the following conditions and limitations:

(1) The total appropriation is provided to the department solely to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, housing and essential government services, or recreation purposes. The approved list of properties for lease or transfer is identified in the LEAP capital document No. 2009-2a, developed April 23, 2009.

(2) Property transferred under this section must be appraised and transferred at fair market value. The value of the timber transferred must be deposited by the department to the common school construction account in the same manner as timber revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. The value of the land transferred must be deposited in the natural resources real property replacement account.

(3) Property subject to lease agreements under this section must be appraised at fair market value. Lease terms must be fifty years with options to renew for an additional fifty years. Lease payments must be lump sum payments for the entire term of the lease at the beginning of the lease. The department shall calculate such lump sum payments using professional appraisal standards. These lease payments may not

exceed the fee simple purchase price based on current fair market value and must be deposited by the department to the common school construction account in the same manner as lease revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040.

(4) All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs and shall not exceed one and nine-tenths percent of the appropriation.

(5) Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer and lease agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the original intended public purpose and the department and legislature approves such uses.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) The department shall execute trust land transfers that, after the deduction of reasonable costs as provided in subsection (4) of this section, eighty percent of the total value of transferred property is timber value and is deposited in the common school construction account. To achieve the eighty percent requirement, the department may choose to lease properties originally intended as transfers.

(9) \$4,189,000 of the amount appropriated is provided solely for fifty-year leases of development rights from timber lands at risk of conversion to non-timber land uses purchased from appropriations in the 2007-2009 fiscal period.

(10) On June 30, 2011, the state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction account and the appropriations in this section shall be reduced by an equivalent amount.

 Higher Education Cost Escalation (20082850)

The reappropriation in this section is subject to the following conditions and limitations: The reappropriation is provided solely for the state board for community and technical colleges to assist public community and technical colleges to manage unanticipated cost escalation for projects bid during the 2007-09 biennium. Not more than \$750,000 shall be made available to any single project and amounts provided for this purpose must be matched equally from other resources. The state board for community and technical colleges shall manage the distribution of funds to ensure that the requesting college has managed its project within the current appropriation through preparation of bid documents and that the scope of the project is no greater than was originally specified in the design. Prior to the office of financial management approving use of a minor works appropriation as a match, and its transfer to the project with unanticipated cost escalation, the state board for community and technical colleges shall require the college to describe what it has done to identify and develop alternative resources for a match, and the specific minor works projects that would be deferred as a result of the transfer. The state board for community and technical colleges will report to the office of financial management and the appropriate fiscal committees of the legislature on the use of these funds.

PART 6
MISCELLANEOUS AND SUPPLEMENTAL PROVISIONS

NEW SECTION. Sec. 6001. (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management and in compliance with RCW 43.88.110. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110.

(2) Each project is defined as proposed in the legislative budget notes or in the governor's budget document.

NEW SECTION. Sec. 6002. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of \$5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

NEW SECTION. Sec. 6003. (1) To ensure minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior lists before funds may be expended on the revisions.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between \$25,000 and \$1,000,000 each, with the exception of higher education minor works projects that may be valued up to \$2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed \$1,000,000, or \$2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(3) It is generally not the intent of the legislature to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

NEW SECTION. Sec. 6004. (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) Transfers of funds to an agency's infrastructure savings appropriation are subject to review and approval by the office of financial management. Expenditures from an infrastructure savings appropriation are limited to projects that have a primary purpose to correct infrastructure deficiencies or conditions that: (a) Adversely affect the ability to utilize the infrastructure for its current programmatic use; (b) reduce the life expectancy of the infrastructure; or (c) increase the operating costs of the infrastructure for its current programmatic use. Eligible infrastructure projects may include structures and surface improvements, site amenities, utility systems outside building footprints and natural environmental changes or requirements as part of an environmental regulation, a declaration of emergency for an infrastructure issue in conformance with RCW 43.88.250, or infrastructure planning as part of a facility master plan.

(5) A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. Sec. 6005. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

NEW SECTION. Sec. 6012. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of

what may be appropriated for the project or program in the 2011-2013 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

NEW SECTION. Sec. 6013. (1) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2009, from the 2007-2009 biennial appropriations for each project.

(2) "Reappropriations" in sections 5126, 5130, and 5131 of this act shall be reduced in this act to the unexpended balance remaining as of the end of fiscal year 2009 for the 2007-09 biennial appropriations in sections 1085, 1086, and 5145, chapter 520, Laws of 2007.

NEW SECTION. Sec. 6014. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 6015. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate ways and means committee and the house of representatives capital budget committee.

NEW SECTION. Sec. 6016. (2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

NEW SECTION. Sec. 6017. NONTAXABLE AND TAXABLE BOND PROCEEDS. Portions of the appropriation authority granted by this act from the state building construction account, or any other account receiving bond proceeds, may be transferred to the state taxable building construction account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. Portions of the general obligation bond proceeds authorized by chapter . . . , Laws of 2009 for deposit into the state taxable building construction account that are in excess of amounts required to comply with the federal internal revenue service rules and regulations shall be deposited into the state building construction account. The state treasurer shall submit written notification to the director of financial management if it is determined that a shift of appropriation authority between the state building construction account, or any other account receiving bond proceeds, and the state taxable building construction account is necessary.

NEW SECTION. Sec. 6018. The office of financial management, in consultation with the fiscal committees of the legislature, may select capital projects that have completed predesign to undergo a budget evaluation study. The office of financial management shall select the budget evaluation team members, contract for the study, and report the results to the legislature and agencies in a timely manner following the study. Funds from the project appropriation must be used by the office of financial management through an interagency agreement with the affected agencies to cover the cost of the study.

During the 2009-2011 biennium, sums credited to the Washington State University building account shall also be used for routine facility maintenance and utility costs. Expenditures so made shall be accounted for in accordance with existing law and shall not be expended until appropriated by the legislature.

The amounts so certified by each regional university and The Evergreen State College shall be a prior lien and charge against all building fees and above described normal school fund revenues of such institution. The state treasurer shall thereupon deposit the amounts so certified in the Eastern Washington University

Under the program, capital and technical assistance grants may be made to nonprofit organizations for acquiring, constructing, or rehabilitating facilities used for the delivery of nonresidential community services, including social service centers and multipurpose community centers, including those serving a distinct or ethnic population. Such facilities must be located in a distressed community or serve a substantial number of low-income or disadvantaged persons.

(2) The department shall establish a competitive process to solicit, ~~(and)~~ evaluate, and rank applications for the building communities fund program as follows:

(a) The department shall conduct a statewide solicitation of project applications from nonprofit organizations.

(b) The department shall evaluate and rank applications in consultation with a citizen advisory committee using objective criteria. To be considered qualified, applicants must demonstrate that the proposed project:

(i) Will increase the range, efficiency, or quality of the services provided to citizens;

(ii) Will be located in a distressed community or will serve a substantial number of low-income or disadvantaged persons;

(iii) Will offer three or more distinct activities that meet a single community service objective or a diverse set of activities that meet multiple community service objectives, including but not limited to: Providing social services; expanding employment opportunities for or increasing the employability of community residents; or offering educational or recreational opportunities separate from the public school system or private schools, as long as recreation is not the sole purpose of the facility;

(iv) Reflects a long-term vision for the development of the community, shared by residents, businesses, leaders, and partners;

(v) Requires state funding to accomplish a discrete, usable phase of the project;

(vi) Is ready to proceed and will make timely use of the funds;

(vii) Is sponsored by one or more entities that have the organizational and financial capacity to fulfill the terms of the grant agreement and to maintain the project into the future;

(viii) Fills an unmet need for community services;

(ix) Will achieve its stated objectives; and

(x) Is a community priority as shown through tangible commitments of existing or future assets made to the project by community residents, leaders, businesses, and government partners.

(c) The evaluation process shall also include an examination of existing assets that applicants may apply to projects. Grant assistance under this section shall not exceed twenty-five percent of the total cost of the project, except, under exceptional circumstances, the department may reduce the amount of nonstate match required. The nonstate portion of the total project cost may include cash, the value of real property when acquired solely for the purpose of the project, and in-kind contributions.

(d) The department may not set a monetary limit to funding requests.

(e) No more than ten percent of the total granted amount may be awarded to qualified eligible projects that meet the definition of exceptional circumstances defined in this subsection. For purposes of this subsection, exceptional circumstances include but are not limited to: Natural disasters affecting projects; emergencies beyond an applicant's control, such as a fire or an unanticipated loss of a lease where services are currently provided; a delay that could result in a threat to public health or safety; or instances where a local community could quantifiably demonstrate that they had exhausted all possible fund-raising efforts.

(3) The department shall submit (~~(annually)~~) biennially to the governor and the legislature in the department's capital budget request (~~(an unranked)~~) a ranked list of the qualified eligible projects for which applications were received. The list must include a description of each project, its total cost, and the amount of state funding requested. The appropriate fiscal committees of the legislature shall use this list to determine building communities fund projects that may receive funding in the capital budget. The total amount of state capital funding available for all projects on the (~~(annual)~~) biennial list shall be determined by the capital budget beginning with the 2009- 2011 biennium and thereafter. In addition, if cash funds have been appropriated, up to three million dollars may be used for technical assistance grants. The department shall not sign contracts or otherwise financially obligate funds under this section until the legislature has approved a specific list of projects.

(4) In addition to the list of ranked qualified eligible projects, the department shall submit to the appropriate fiscal committees of the legislature a summary report that describes the solicitation and evaluation processes, including but not limited to the number of applications received, the total amount of funding requested, issues encountered, if any, and any recommendations for process improvements.

(5) After the legislature has approved a specific list of projects in law, the department shall develop and manage appropriate contracts with the selected applicants; monitor project expenditures and grantee performance; report project and contract information; and exercise due diligence and other contract management responsibilities as required.

(6) In contracts for grants authorized under this section the department shall include provisions which require that capital improvements shall be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities shall be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant.

- (f) Acquire any other lands when such exchange is determined by the board to be in the best interest of the trust for which the state land is held.

(2) Land exchanged under this section shall not be used to reduce the publicly owned forest land base.

(3) The board shall determine that each land exchange is in the best interest of the trust for which the land is held prior to authorizing the land exchange.

(4) During the biennium ending June 30, (~~(2009)~~) 2011, for the purposes of maintaining working farm and forest landscapes or acquiring natural resource lands at risk of development, the department, with approval of the board of natural resources, may exchange any state land and any timber thereon for any land and proceeds of equal value, when it can be demonstrated that the trust fiduciary obligations can be better fulfilled after an exchange is completed. Proceeds may be in the form of cash or services in order to achieve the purposes established in this section. Any cash received as part of an exchange transaction shall be deposited in the resource management cost account to pay for administrative expenses incurred in carrying out an exchange transaction. These administrative expenses include road maintenance and abandonment expenses. The amount of proceeds received from the exchange partner may not exceed five percent of the total value of the exchange. The receipt of proceeds shall not change the character of the transaction from an exchange to a sale.

(5) Prior to executing an exchange under this section, and in addition to the public notice requirements set forth in RCW 79.17.050, the department shall consult with legislative members, other state and federal agencies, local governments, tribes, local stakeholders, conservation groups, and any other interested parties to identify and address cultural resource issues and the potential of the state lands proposed for exchange to be used for open space, park, school, or critical habitat purposes.

(2) During the biennium ending June 30, (~~(2009)~~) 2011, for the purposes of maintaining working farm and forest landscapes or acquiring natural resource lands at risk of development, the department, with approval of the board of natural resources, may exchange any state land and any timber thereon for any land and proceeds of equal value, when it can be demonstrated that the trust fiduciary obligations can be better fulfilled after an exchange is completed. Proceeds may be in the form of cash or services in order to achieve the purposes established in this section. Any cash received as part of an exchange transaction shall be deposited in the forest development account to pay for administrative expenses incurred in carrying out an exchange transaction. The amount of proceeds received from the exchange partner may not exceed five percent of the total value of the exchange. The receipt of proceeds shall not change the character of the transaction from an exchange to a sale.

(3) Prior to executing an exchange under this section, and in addition to the public notice requirements set forth in RCW 79.17.050, the department shall consult with legislative members, other state and federal agencies, local governments, tribes, local stakeholders, conservation groups, and any other interested parties to identify and address cultural resource issues, and the potential of the state lands proposed for exchange to be used for open space, park, school, or critical habitat purposes.

Sec. 6026. RCW 43.99N.060 and 2008 c 328 s 6017 are each amended to read as follows:

Only the director of the office of financial management or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW. An appropriation is not required for expenditures from this account.

(2) Until bonds are issued under RCW 43.99N.020, up to five million dollars per year beginning January 1, 1999, shall be used for the purposes of subsection (3)(b) of this section, all remaining moneys in the account shall be transferred to the public stadium authority, created under RCW 36.102.020, to be used for public stadium authority operations and development of the stadium and exhibition center.

(3) After bonds are issued under RCW 43.99N.020, all moneys in the stadium and exhibition center account shall be used exclusively for the following purposes in the following priority:

(a) On or before June 30th of each year, the office of financial management shall accumulate in the stadium and exhibition center account an amount at least equal to the amount required in the next succeeding twelve months for the payment of principal of and interest on the bonds issued under RCW 43.99N.020;

(b) An additional reserve amount not in excess of the expected average annual principal and interest requirements of bonds issued under RCW 43.99N.020 shall be accumulated and maintained in the account, subject to withdrawal by the state treasurer at any time if necessary to meet the requirements of (a) of this subsection, and, following any withdrawal, reaccumulated from the first tax revenues and other amounts deposited in the account after meeting the requirements of (a) of this subsection; and

(c) The balance, if any, shall be transferred to the youth athletic facility account under subsection (4) of this section.

Any revenues derived from the taxes authorized by RCW 36.38.010(5) and 36.38.040 or other amounts that if used as provided under (a) and (b) of this subsection would cause the loss of any tax exemption under federal law for interest on bonds issued under RCW 43.99N.020 shall be deposited in and used exclusively for the purposes of the youth athletic facility account and shall not be used, directly or indirectly, as a source of payment of principal of or interest on bonds issued under RCW 43.99N.020, or to replace or reimburse other funds used for that purpose.

(4) Any moneys in the stadium and exhibition center account not required or permitted to be used for the purposes described in subsection (3)(a) and (b) of this section shall be deposited in the youth athletic facility account hereby created in the state treasury. Expenditures from the account may be used only for purposes of grants or loans to cities, counties, and qualified nonprofit organizations for community outdoor athletic facilities. ~~((For the 2005-2007 biennium, moneys in the account may also be used for a recreation level of service study for local and regional active recreation facilities.))~~ Only the director of the recreation and conservation office or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. The athletic facility grants or loans may be used for acquiring, developing, equipping, maintaining, and improving community outdoor athletic facilities. Funds shall be divided equally between the development of new community outdoor athletic facilities, the improvement of existing community outdoor athletic facilities, and the maintenance of existing community outdoor athletic facilities. Cities, counties, and qualified nonprofit organizations must submit proposals for grants or loans from the account. To the extent that funds are available, cities, counties, and qualified nonprofit organizations must meet eligibility criteria as established by the director of the recreation and conservation office. The grants and loans shall be awarded on a competitive application process and the amount of the grant or loan shall be in proportion to the population of the city or county for where the community outdoor athletic facility is located. Grants or loans awarded in any one year need not be distributed in that year. In the ~~((2007-2009))~~ 2009-2011 biennium, if there are not enough project applications submitted in a category within the account to meet the requirement of equal distribution of funds to each category, the director of the recreation and conservation office may distribute any remaining funds to other categories within the account. The director of the recreation and conservation office may expend up to one and one-half percent of the moneys deposited in the account created in this subsection for administrative purposes.

NEW SECTION. Sec. 218. FOR THE DEPARTMENT OF TRANSPORTATION-- TRAFFIC OPERATIONS--PROGRAM Q--OPERATING

Motor Vehicle Account--State Appropriation	\$51,526,000
Motor Vehicle Account--Federal Appropriation	\$2,050,000
Motor Vehicle Account--Private/Local Appropriation	\$127,000
TOTAL APPROPRIATION	\$53,703,000

The appropriations in this section are subject to the following conditions and limitations:

- (1) \$2,400,000 of the motor vehicle account--state appropriation is provided solely for low-cost enhancements. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. The department shall prioritize low-cost enhancement projects on a statewide rather than regional basis. By September 1st of each even-numbered year, the department shall provide a report to the legislature listing all low-cost enhancement projects prioritized on a statewide rather than regional basis completed in the prior year.
- (2) The department, in consultation with the Washington state patrol, may continue a pilot program for the patrol to issue infractions based on information from automated traffic safety cameras in roadway construction zones on state highways. For the purpose of this pilot program, during the 2009-11 fiscal biennium, a roadway construction zone includes areas where public employees or private contractors are not present but where a driving condition exists that would make it unsafe to drive at higher speeds, such as, when the department is redirecting or realigning lanes on any public roadway pursuant to ongoing construction. The department shall use the following guidelines to administer the program:
 - (a) Automated traffic safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle;
 - (b) The department shall plainly mark the locations where the automated traffic safety cameras are used by placing signs on locations that clearly indicate to a driver that he or she is entering a roadway construction zone where traffic laws are enforced by an automated traffic safety camera;
 - (c) Notices of infractions must be mailed to the registered owner of a vehicle within fourteen days of the infraction occurring;
 - (d) The owner of the vehicle is not responsible for the violation if the owner of the vehicle, within fourteen days of receiving notification of the violation, mails to the patrol, a declaration under penalty of perjury, stating that the vehicle involved was, at the time, stolen or in the care, custody, or control of some person other than the registered owner, or any other extenuating circumstances;

(e) For purposes of the 2009-11 fiscal biennium pilot program, infractions detected through the use of automated traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras must be processed in the same manner as parking infractions for the purposes of RCW 3.50.100, 35.20.220, 46.16.216, and 46.20.270(3). However, the amount of the fine issued under this subsection (2) for an infraction generated through the use of an automated traffic safety camera is one hundred thirty-seven dollars. The court shall remit thirty-two dollars of the fine to the state treasurer for deposit into the state patrol highway account; and

(f) If a notice of infraction is sent to the registered owner and the registered owner is a rental car business, the infraction must be dismissed against the business if it mails to the patrol, within fourteen days of receiving the notice, a declaration under penalty of perjury of the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred. If the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred, the business must sign a declaration under penalty of perjury to this effect. The declaration must be mailed to the patrol within fourteen days of receiving the notice of traffic infraction. Timely mailing of this declaration to the issuing agency relieves a rental car business of any liability under this section for the notice of infraction. A declaration form suitable for this purpose must be included with each automated traffic infraction notice issued, along with instructions for its completion and use.

(3) The department shall implement a pilot project to evaluate the benefits of using electronic traffic flagging devices. Electronic traffic flagging devices must be tested by the department at multiple sites and reviewed for efficiency and safety. Special Category C Account--State Appropriation	\$24,549,000
Transportation 2003 Account (Nickel Account)--State Appropriation	\$703,708,000
Freight Mobility Multimodal Account--State Appropriation	\$4,422,000
Tacoma Narrows Toll Bridge Account--State Appropriation	\$788,000
State Route Number 520 Corridor Account--State Appropriation	\$106,000,000
TOTAL APPROPRIATION	\$3,119,872,000

The appropriations in this section are subject to the following conditions and limitations:

- (1) Except as provided otherwise in this section, the entire transportation 2003 account (nickel account) appropriation and the entire transportation partnership account appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document 2009-1 as developed April 24, 2009, Program - Highway Improvement Program (I). However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section 603 of this act.

(2) As a result of economic changes since the initial development of the improvement program budget for the 2009-11 fiscal biennium, the department has received bids on construction contracts over the last several months that are favorable with respect to current estimates of project costs. National economic forecasts indicate that inflationary pressures are likely to remain lower than previously expected for the next several years. As a result, the nominal project cost totals shown in LEAP Transportation Document 2009-1 in aggregate for the 2009-11 fiscal biennium and the 2011-13 fiscal biennium are expected to exceed the likely amount necessary to deliver the projects listed within those biennia by \$63,500,000 in the 2009-11 fiscal biennium and \$52,700,000 in the 2011-13 fiscal biennium. The appropriations provided in this section for the projects in those biennia are therefore \$63,500,000 less in the 2009-11 fiscal biennium and \$52,700,000 less in the 2011-13 fiscal biennium than the aggregate total of project costs listed. It is the intent of the legislature that the department shall deliver the projects listed in LEAP Transportation Document 2009-1 within the time, scope, and budgets identified in that document, provided that the prices of commodities used in transportation projects do not differ significantly from those assumed for the 2009-11 and 2011-13 fiscal biennia in the March 2009 forecast of the economic and revenue forecast council.

(3) \$162,900,000 of the transportation partnership account--state appropriation and \$106,000,000 of the state route number 520 corridor account--state appropriation are provided solely for the state route number 520 bridge replacement and HOV project. The department shall submit an application for the eastside transit and HOV project to the supplemental discretionary grant program for regionally significant projects as provided in the American Recovery and Reinvestment Act of 2009. Eastside state route number 520 improvements shall be designed and constructed to accommodate a future full interchange at 124th Avenue Northeast. Concurrent with the eastside transit and HOV project, the department shall conduct engineering design of a full interchange at 124th Avenue Northeast. The amount provided in this subsection is contingent on the enactment of (a) Engrossed Substitute House Bill No. 2211 and (b) either Engrossed Substitute House Bill No. 2326 or other legislation authorizing bonds for the state route number 520 corridor projects. If the conditions of this subsection are not satisfied, the state route number 520 corridor account--state appropriation shall lapse.

(4) As required under section 305(6), chapter 518, Laws of 2007, the department shall report by January 2010 to the transportation committees of the legislature on the findings of the King county noise reduction solutions pilot project.

(5) Funding allocated for mitigation costs is provided solely for the purpose of project impact mitigation, and shall not be used to develop or otherwise participate in the environmental assessment process.

(6) The department shall apply for surface transportation program (STP) enhancement funds to be expended in lieu of or in addition to state funds for eligible costs of projects in Programs I and P including, but not limited to, the SR 518, SR 520, Columbia river crossing, and Alaskan Way viaduct projects.

(7) The department shall, on a quarterly basis beginning July 1, 2009, provide to the office of financial management and the legislature reports providing the status on each active project funded in part or whole by the transportation 2003 account (nickel account) or the transportation partnership account. Funding provided at a programmatic level for transportation partnership account and transportation 2003 account (nickel account) projects relating to bridge rail, guard rail, fish passage barrier removal, and roadside safety projects should be reported on a programmatic basis. Projects within this programmatic level funding should be completed on a priority basis and scoped to be completed within the current programmatic budget. The department shall work with the office of financial management and the transportation committees of the legislature to agree on report formatting and elements. Elements must include, but not be limited to, project scope, schedule, and costs. For new construction contracts valued at fifteen million dollars or more, the department must also use an earned value method of project monitoring. The department shall also provide the information required under this subsection on a quarterly basis via the transportation executive information systems (TEIS).

(8) The transportation 2003 account (nickel account)--state appropriation includes up to \$628,000,000 in proceeds from the sale of bonds authorized by RCW 47.10.861.

(9) The transportation partnership account--state appropriation includes up to \$1,360,528,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

(11) The motor vehicle account--state appropriation includes up to \$31,500,000 in proceeds from the sale of bonds authorized in RCW 47.10.843.

(a) Evaluate the potential diversion of traffic from Interstate 5 to other parts of the transportation system when tolls are implemented on Interstate 5 in the vicinity of the Columbia river;

(b) Evaluate the most advanced tolling technology to maintain travel time speed and reliability for users of the Interstate 5 bridge;

(c) Evaluate available active traffic management technology to determine the most effective options for technology that could maintain travel time speed and reliability on the Interstate 5 bridge;

(d) Confer with the project sponsor's council, as well as local and regional governing bodies adjacent to the Interstate 5 Columbia river crossing corridor and the Interstate 205 corridor regarding the implementation of tolls, the impacts that the implementation of tolls might have on the operation of the corridors, the diversion of traffic to local streets, and potential mitigation measures;

(e) Regularly report to the Washington transportation commission regarding the progress of the study for the purpose of guiding the commission's potential toll setting on the facility;

(f) Research and evaluate options for a potential toll-setting framework between the Oregon and Washington transportation commissions;

(g) Conduct public work sessions and open houses to provide information to citizens, including users of the bridge and business and freight interests, regarding implementation of tolls on the Interstate 5 and to solicit citizen views on the following items:

(i) Funding a portion of the Columbia river crossing project with tolls;

(ii) Implementing variable tolling as a way to reduce congestion on the facility; and

Expenditure of these funds is for safety projects on state route number 2 between Monroe and Gold Bar, which may include median rumble strips, traffic cameras, and electronic message signs.

(15) Expenditures for the state route number 99 Alaskan Way viaduct replacement project must be made in conformance with Engrossed Substitute Senate Bill No. 5768.

(16) The department shall conduct a public outreach process to identify and respond to community concerns regarding the Belfair bypass. The process must include representatives from Mason county, the legislature, area businesses, and community members. The department shall use this process to consider and develop design alternatives that alter the project's scope so that the community's needs are met within the project budget. The department shall provide a report on the process and outcomes to the legislature by June 30, 2010.

(17) The legislature is committed to the timely completion of R8A which supports the construction of sound transit's east link. The department shall evaluate whether a deep bore culvert will be a less costly alternative than a traditional culvert since a traditional culvert would require extensive road detours during construction.

(25) Project number 330215A in the LEAP transportation document described in subsection (1) of this section is expanded to include safety and congestion improvements from the Key Peninsula Highway to the vicinity of Purdy. (vii) Coordination with required United States coast guard dry dockings;

(viii) A method for comparing how proposed projects relate to the service requirements of the route on which the vessel normally operates; and

(ix) A method for evaluating the ongoing maintenance and preservation costs associated with proposed improvement projects; and

(c) Be based on the service plan in the capital plan, recognizing that vessel preservation and improvement needs may vary by route.

(14) \$247,000 of the Puget Sound capital construction account-- state appropriation is provided solely for the Washington state ferries to review and update its vessel life-cycle cost model and report the results to the house of representatives and senate transportation committees of the legislature by December 1, 2009. (15) The department shall work with the department of archaeology and historic preservation to ensure that the cultural resources investigation is properly conducted on all large ferry terminal projects. These projects must be conducted with active archaeological management. Additionally, the department shall establish a scientific peer review of independent archaeologists that are knowledgeable about the region and its cultural resources.

The department shall report its cost benefit evaluation of the prospective rail project, as well as the department's best estimate of an appropriate construction schedule and total project costs, to the office of financial management and the transportation committees of the legislature.

If the department receives any federal funding, the department is authorized to obligate and spend the federal funds in accordance with federal law. State funds may be redirected only upon consultation with the transportation committees of the legislature and the office of financial management, and approval by the director of the office of financial management. The department shall spend the federal funds before the state funds, and shall consult the office of financial management and the transportation committees of the legislature regarding project scope changes.

(5) The department shall provide quarterly reports to the office of financial management and the transportation committees of the legislature regarding applications that the department submits for federal funds, the status of such applications, and the status of projects identified on the list referenced in subsection (1)(a) of this section. (2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

- System refurbishment, acquisitions, and development efforts;
- Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
- Assessment of overall information processing performance, resources, and capabilities;
- Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
- Progress toward enabling electronic access to public information.

Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of digital government as maintained by the information services board.

(4) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its

visibility, and the consequences of doing nothing; (d) the impact on agency and statewide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(6) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. (7) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

(8) Quality assurance status reports shall be submitted to the department of information services, the office of financial management, and legislative fiscal committees at intervals specified in the project's quality assurance plan.

NEW SECTION. Sec. 602. Transportation agencies shall consider some or all of the following strategies to achieve savings on information technology expenditures: (a) Holistic virtualization strategies; (b) wide-area network optimization strategies; (c) replacement of traditional telephone communications systems with alternatives; and (d) migration of external voice mail systems to internal voice mail systems. Agencies shall select an experienced firm from the prequalified contractors on the department of information services ITPS master agreement to develop a consolidated strategy and plan to achieve these strategies. By December 1, 2009, agencies shall report findings, including anticipated savings for the 2010 supplemental omnibus transportation appropriations act, to the office of financial management and the transportation committees of the legislature.

NEW SECTION. Sec. 603. FUND TRANSFERS. (1) The transportation 2003 projects or improvements and the 2005 transportation partnership projects or improvements are listed in LEAP Transportation Document 2009-1 as developed April 24, 2009, which consists of a list of specific projects by fund source and amount over a sixteen year period. Current fiscal biennium funding for each project is a line item appropriation, while the outer year funding allocations represent a sixteen year plan. The department is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account and transportation 2003 (nickel) account projects on the LEAP lists referenced in this act. For the 2009-11 project appropriations, unless otherwise provided in this act, the director of financial management may authorize a transfer of appropriation authority between projects funded with transportation 2003 account (nickel account) appropriations, transportation partnership account appropriations, or multimodal transportation account appropriations, in order to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;

(b) Transfers from a project may not be made as a result of the reduction of the scope of a project, nor shall a transfer be made to support increases in the scope of a project;

(c) Each transfer between projects may only occur if the director of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature. Until the legislature reconvenes to consider the 2010 supplemental budget, any unexpended 2007-09 appropriation balance as approved by the office of financial management, in consultation with the legislative staff of the house of representatives and senate transportation committees, may be considered when transferring funds between projects;

(d) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed to complete the project;

(e) Transfers may not occur to projects not identified on the applicable project list, except for those projects that were expected to be completed in the 2007-09 fiscal biennium; and

(f) Transfers may not be made while the legislature is in session.

(2) At the time the department submits a request to transfer funds under this section a copy of the request shall be submitted to the transportation committees of the legislature.

(3) The office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers.

(4) The office of financial management shall document approved transfers and/or schedule changes in the transportation executive information system (TEIS), compare changes to the legislative baseline funding and schedules identified by project identification number identified in the LEAP lists adopted in this act, and transmit revised project lists to chairs of the transportation committees of the legislature on a quarterly basis.

NEW SECTION. Sec. 604. Executive Order number 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions that issue grants or loans for capital projects shall comply with the requirements set forth in this executive order.

Sec. 701. RCW 46.68.170 and 2007 c 518 s 701 are each amended to read as follows:

There is hereby created in the motor vehicle fund the RV account. All moneys hereafter deposited in said account shall be used by the department of transportation for the construction, maintenance, and operation of recreational vehicle sanitary disposal systems at safety rest areas in accordance with the department's highway system plan as prescribed in chapter 47.06 RCW. During the (~~2005-2007 and~~) 2007-2009

and 2009-2011 fiscal biennia, the legislature may transfer from the RV account to the motor vehicle fund such amounts as reflect the excess fund balance of the RV account to accomplish the purposes identified in this section.

Sec. 702. RCW 47.29.170 and 2007 c 518 s 702 are each amended to read as follows:

Before accepting any unsolicited project proposals, the commission must adopt rules to facilitate the acceptance, review, evaluation, and selection of unsolicited project proposals. These rules must include the following:

- (1) Provisions that specify unsolicited proposals must meet predetermined criteria;
- (2) Provisions governing procedures for the cessation of negotiations and consideration;
- (3) Provisions outlining that unsolicited proposals are subject to a two-step process that begins with concept proposals and would only advance to the second step, which are fully detailed proposals, if the commission so directed;
- (4) Provisions that require concept proposals to include at least the following information: Proposers' qualifications and experience; description of the proposed project and impact; proposed project financing; and known public benefits and opposition; and
- (5) Provisions that specify the process to be followed if the commission is interested in the concept proposal, which must include provisions:
 - (a) Requiring that information regarding the potential project would be published for a period of not less than thirty days, during which time entities could express interest in submitting a proposal;
 - (b) Specifying that if letters of interest were received during the thirty days, then an additional sixty days for submission of the fully detailed proposal would be allowed; and
 - (c) Procedures for what will happen if there are insufficient proposals submitted or if there are no letters of interest submitted in the appropriate time frame.

The commission may adopt other rules as necessary to avoid conflicts with existing laws, statutes, or contractual obligations of the state.

The commission may not accept or consider any unsolicited proposals before July 1, ~~((2009))~~ 2011.

NEW SECTION. Sec. 703. To the extent that any appropriation authorizes expenditures of state funds from the motor vehicle account, special category C account, Tacoma Narrows toll bridge account, transportation 2003 account (nickel account), transportation partnership account, transportation improvement account, Puget Sound capital construction account, multimodal transportation account, or other transportation capital project account in the state treasury for a state transportation program that is specified to be funded with proceeds from the sale of bonds authorized in chapter 47.10 RCW, the legislature declares that any such expenditures made prior to the issue date of the applicable transportation bonds for that state transportation program are intended to be reimbursed from proceeds of those transportation bonds in a maximum amount equal to the amount of such appropriation.

Sec. 704. RCW 46.16.685 and 2007 c 518 s 704 are each amended to read as follows:

The license plate technology account is created in the state treasury. All receipts collected under RCW 46.01.140(4)(e)(ii) must be deposited into this account. Expenditures from this account must support current and future license plate technology and systems integration upgrades for both the department and correctional industries. Moneys in the account may be spent only after appropriation. Additionally, the moneys in this account may be used to reimburse the motor vehicle account for any appropriation made to implement the digital license plate system. During the 2007-2009 and 2009-2011 fiscal ~~((biennium))~~ biennia, the legislature may transfer from the license plate technology account to the ~~((multimodal transportation))~~ highway safety account such amounts as reflect the excess fund balance of the license plate technology account.

Sec. 705. RCW 47.01.380 and 2006 c 311 s 26 are each amended to read as follows:

The department shall not commence construction on any part of the state route number 520 bridge replacement and HOV project until a record of decision has been reached providing reasonable assurance that project impacts will be avoided, minimized, or mitigated as much as practicable to protect against further adverse impacts on neighborhood environmental quality as a result of repairs and improvements made to the state route number 520 bridge and its connecting roadways, and that any such impacts will be addressed through engineering design choices, mitigation measures, or a combination of both. The requirements of this section shall not apply to off-site pontoon construction supporting the state route number 520 bridge replacement and HOV project. The requirements of this section shall not apply during the 2009-2011 fiscal biennium.

Sec. 706. RCW 47.01.390 and 2007 c 518 s 705 are each amended to read as follows:

(1) Prior to commencing construction on either project, the department of transportation must complete all of the following requirements for both the Alaskan Way viaduct and Seattle Seawall replacement project, and the state route number 520 bridge replacement and HOV project: (a) In accordance with the national environmental policy act, the department must designate the preferred alternative, prepare a substantial project mitigation plan, and complete a comprehensive cost estimate review using the department's cost estimate validation process, for each project; (b) in accordance with all applicable federal highway administration planning and project management requirements, the department must prepare a project finance plan for each project that clearly identifies secured and anticipated fund sources, cash flow timing requirements, and project staging and phasing plans if applicable; and (c) the department must report these results for each project to the joint transportation committee.

(2) The requirements of this section shall not apply to (a) utility relocation work, and related activities, on the Alaskan Way viaduct and Seattle Seawall replacement project and (b) off-site pontoon construction supporting the state route number 520 bridge replacement and HOV project.

(3) The requirements of subsection (1) of this section shall not apply during the 2007-2009 fiscal biennium.

(4) The requirements of subsection (1) of this section shall not apply during the 2009-2011 fiscal biennium.

Sec. 707. RCW 47.60.395 and 2007 c 512 s 15 are each amended to read as follows:

(1) The joint legislative audit and review committee shall assess and report as follows:

(a) Audit the implementation of the cost allocation methodology evaluated under [section 205,] chapter 518, Laws of 2007, as it exists on July 22, 2007, assessing whether actual costs are allocated consistently with the methodology, whether there are sufficient internal controls to ensure proper allocation, and the adequacy of staff training; and

(b) Review the assignment of preservation costs and improvement costs for fiscal year 2009 to determine whether:

- (i) The costs are capital costs;
- (ii) The costs meet the statutory requirements for preservation activities and for improvement activities; and
- (iii) Improvement costs are within the scope of legislative appropriations.

- (2) The report on the evaluations in this section is due by January 31, 2010.
 (3) This section expires December 31, 2010.
 (4) The requirements of this section shall not apply during the 2009-2011 fiscal biennium.

Sec. 708. RCW 88.16.090 and 2008 c 128 s 4 are each amended to read as follows:

(1) A person may pilot any vessel subject to this chapter on waters covered by this chapter only if licensed to pilot such vessels on such waters under this chapter.

(2)(a) A person is eligible to be licensed as a pilot or a pilot trainee if the person:

- (i) Is a citizen of the United States;
 (ii) Is over the age of twenty-five years and under the age of seventy years;

(iii)(A) Holds at the time of application, as a minimum, a United States government license as master of steam or motor vessels of not more than one thousand six hundred gross register tons (three thousand international tonnage convention tons) upon oceans, near coastal waters, or inland waters; or the then most equivalent federal license as determined by the board; any such license to have been held by the applicant for a period of at least two years before application;

(B) Holds at the time of licensure as a pilot, after successful completion of the board-required training program, a first class United States endorsement without restrictions on the United States government license for the pilotage district in which the pilot applicant desires to be licensed; however, all applicants for a pilot examination scheduled to be given before July 1, 2008, must have the United States pilotage endorsement at the time of application; and

(C) The board may require that applicants and pilots have federal licenses and endorsements as it deems appropriate; and

(iv) Successfully completes a board-specified training program.

(b) In addition to the requirements of (a) of this subsection, a pilot applicant must meet such other qualifications as may be required by the board.

(c) A person applying for a license under this section shall not have been convicted of an offense involving drugs or the personal consumption of alcohol in the twelve months prior to the date of application. This restriction does not apply to license renewals under this section.

(3) The board may establish such other training license and pilot license requirements as it deems appropriate.

(4) Pilot applicants shall be evaluated and may be ranked for entry into a board-specified training program in a manner specified by the board based on their performance on a written examination or examinations established by the board, performance on other evaluation exercises as may be required by the board, and other criteria or qualifications as may be set by the board.

When the board determines that the demand for pilots requires entry of an applicant into the training program it shall issue a training license to that applicant, but under no circumstances may an applicant be issued a training license more than four years after taking the written entry examination. The training license authorizes the trainee to do such actions as are specified in the training program.

After the completion of the training program the board shall evaluate the trainee's performance and knowledge. The board, as it deems appropriate, may then issue a pilot license, delay the issuance of the pilot license, deny the issuance of the pilot license, or require further training and evaluation.

(5) The board may (a) appoint a special independent committee or (b) contract with private or governmental entities knowledgeable and experienced in the development, administration, and grading of licensing examinations or simulator evaluations for marine pilots, or (c) do both. Active, licensed pilots designated by the board may participate in the development, administration, and grading of examinations and other evaluation exercises. If the board does appoint a special examination or evaluation development committee, it is authorized to pay the members of the committee the same compensation and travel expenses as received by members of the board. Any person who willfully gives advance knowledge of information contained on a pilot examination or other evaluation exercise is guilty of a gross misdemeanor.

(6) This subsection applies to the review of a pilot applicant's written examinations and evaluation exercises to qualify to be placed on a waiting list to become a pilot trainee. Failure to comply with the process set forth in this subsection renders the results of the pilot applicant's written examinations and evaluation exercises final. A pilot applicant may seek board review, administrative review, and judicial review of the results of the written examinations and evaluation exercises in the following manner:

(a) A pilot applicant who seeks a review of the results of his or her written examinations or evaluation exercises must request from the board-appointed or board-designated examination committee an administrative review of the results of his or her written examinations or evaluation exercises as set forth by board rule.

(b) The determination of the examination committee's review of a pilot applicant's examination results becomes final after thirty days from the date of service of written notification of the committee's determination unless a full adjudicative hearing before an administrative law judge has been requested by the pilot applicant before the thirty-day period has expired, as set forth by board rule.

(c) When a full adjudicative hearing has been requested by the pilot applicant, the board shall request the appointment of an administrative law judge under chapter 34.12 RCW who has sufficient experience and familiarity with pilotage matters to be able to conduct a fair and impartial hearing. The hearing shall be governed by chapter 34.05 RCW. The administrative law judge shall issue an initial order.

(d) The initial order of the administrative law judge is final unless within thirty days of the date of service of the initial order the board or pilot applicant requests review of the initial order under chapter 34.05 RCW.

(e) The board may appoint a person to review the initial order and to prepare and enter a final order as governed by chapter 34.05 RCW and as set forth by board rule. The person appointed by the board under this subsection (6)(e) is called the board reviewing officer.

(7) Pilots are licensed under this section for a term of five years from and after the date of the issuance of their respective state licenses. Licenses must thereafter be renewed as a matter of course, unless the board withholds the license for good cause. Each pilot shall pay to the state treasurer an annual license fee in an amount set by the board by rule. Pursuant to RCW 43.135.055, the fees established under this subsection may be increased (in excess of the fiscal growth factor as provided in RCW 43.135.055) through the fiscal year ending June 30, ((2009)) 2011. The fees must be deposited in the pilotage account. The board may assess partially active or inactive pilots a reduced fee.

(8) All pilots and pilot trainees are subject to an annual physical examination by a physician chosen by the board. The physician shall examine the pilot's or pilot trainee's heart, blood pressure, circulatory system, lungs and respiratory system, eyesight, hearing, and such other items as may be prescribed by the board. After consultation with a physician and the United States coast guard, the board shall establish minimum health standards to ensure that pilots and pilot trainees licensed by the state are able to perform their duties. Within ninety days of the date of each annual physical examination, and after review of the physician's report, the board shall make a determination of whether the pilot or pilot trainee is fully able to carry out the duties of a pilot or pilot trainee under this chapter. The board may in its discretion check with the appropriate authority for any convictions of or information regarding offenses by a licensed pilot or pilot trainee involving drugs or the personal consumption of alcohol in the prior twelve months.

(9) The board may require vessel simulator training for a pilot trainee and shall require vessel simulator training for a licensed pilot subject to RCW 88.16.105. The board shall also require vessel simulator training in the first year of active duty for a new pilot and at least once every five years for all active pilots.

(10) The board shall prescribe, pursuant to chapter 34.05 RCW, such reporting requirements and review procedures as may be necessary to assure the accuracy and validity of license and service claims. Willful misrepresentation of such required information by a pilot applicant shall result in disqualification of the pilot applicant.

Sec. 709. RCW 47.12.244 and 2007 c 518 s 707 are each amended to read as follows:

There is created the "advance right-of-way revolving fund" in the custody of the treasurer, into which the department is authorized to deposit directly and expend without appropriation:

(1) An initial deposit of ten million dollars from the motor vehicle fund included in the department of transportation's 1991-93 budget;

(2) All moneys received by the department as rental income from real properties that are not subject to federal aid reimbursement, except moneys received from rental of capital facilities properties as defined in chapter 47.13 RCW; and

(3) Any federal moneys available for acquisition of right-of-way for future construction under the provisions of section 108 of Title 23, United States Code.

~~((4))~~ During the ~~((2007-09))~~ 2007-2009 and 2009-2011 fiscal ~~((biennium))~~ biennia, the legislature may transfer from the advance right-of-way revolving fund to the motor vehicle account amounts as reflect the excess fund balance of the advance right-of-way revolving fund.

Sec. 710. RCW 46.16.725 and 2008 c 72 s 2 are each amended to read as follows:

(1) The creation of the board does not in any way preclude the authority of the legislature to independently propose and enact special license plate legislation.

(2) The board must review and either approve or reject special license plate applications submitted by sponsoring organizations.

(3) Duties of the board include but are not limited to the following:

(a) Review and approve the annual financial reports submitted by sponsoring organizations with active special license plate series and present those annual financial reports to the senate and house transportation committees;

(b) Report annually to the senate and house transportation committees on the special license plate applications that were considered by the board;

(c) Issue approval and rejection notification letters to sponsoring organizations, the department, the chairs of the senate and house of representatives transportation committees, and the legislative sponsors identified in each application. The letters must be issued within seven days of making a determination on the status of an application;

(d) Review annually the number of plates sold for each special license plate series created after January 1, 2003. The board may submit a recommendation to discontinue a special plate series to the chairs of the senate and house of representatives transportation committees;

(e) Provide policy guidance and directions to the department concerning the adoption of rules necessary to limit the number of special license plates that an organization or a governmental entity may apply for.

(4) Except as provided in chapter 72, Laws of 2008, in order to assess the effects and impact of the proliferation of special license plates, the legislature declares a temporary moratorium on the issuance of any additional plates until July 1, ~~((2009))~~ 2011. During this period of time, the special license plate review board created in RCW 46.16.705 and the department of licensing are prohibited from accepting, reviewing, processing, or approving any applications. Additionally, no special license plate may be enacted by the legislature during the moratorium, unless the proposed license plate has been approved by the board before February 15, 2005.

Sec. 711. RCW 46.68.060 and 2007 c 518 s 714 are each amended to read as follows:

There is hereby created in the state treasury a fund to be known as the highway safety fund to the credit of which shall be deposited all moneys directed by law to be deposited therein. This fund shall be used for carrying out the provisions of law relating to driver licensing, driver improvement, financial responsibility, cost of furnishing abstracts of driving records and maintaining such case records, and to carry out the purposes set forth in RCW 43.59.010. During the ~~((2005-2007 and))~~ 2007-2009 and 2009-2011 fiscal biennia, the legislature may transfer from the highway safety fund to the motor vehicle fund and the multimodal transportation account such amounts as reflect the excess fund balance of the highway safety fund.

Sec. 712. RCW 46.68.220 and 2009 c 8 s 503 are each amended to read as follows:

The department of licensing services account is created in the motor vehicle fund. All receipts from service fees received under RCW 46.01.140(4)(b) shall be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for information and service delivery systems for the department, and for reimbursement of county licensing activities. During the 2007-2009 and 2009-2011 fiscal ~~((biennium))~~ biennia, the legislature may transfer from the department of licensing services account such amounts as reflect the excess fund balance of the account.

Sec. 713. RCW 46.61.527 and 1994 c 141 s 1 are each amended to read as follows:

(1) The secretary of transportation shall adopt standards and specifications for the use of traffic control devices in roadway construction zones on state highways. A roadway construction zone is an area where construction, repair, or maintenance work is being conducted by public employees or private contractors, on or adjacent to any public roadway. For the purpose of the pilot program referenced in section 218(2) of this act, during the 2009-2011 fiscal biennium, a roadway construction zone includes areas where public employees or private contractors are not present but where a driving condition exists that would make it unsafe to drive at higher speeds, such as, when the department is redirecting or realigning lanes on or adjacent to any public roadway pursuant to ongoing construction.

(2) No person may drive a vehicle in a roadway construction zone at a speed greater than that allowed by traffic control devices.

(3) A person found to have committed any infraction relating to speed restrictions in a roadway construction zone shall be assessed a monetary penalty equal to twice the penalty assessed under RCW 46.63.110. This penalty may not be waived, reduced, or suspended.

(4) A person who drives a vehicle in a roadway construction zone in such a manner as to endanger or be likely to endanger any persons or property, or who removes, evades, or intentionally strikes a traffic safety or control device is guilty of reckless endangerment of roadway workers. A violation of this subsection is a gross misdemeanor punishable under chapter 9A.20 RCW.

(5) The department shall suspend for sixty days the license or permit to drive or a nonresident driving privilege of a person convicted of reckless endangerment of roadway workers.

Sec. 714. RCW 46.63.170 and 2007 c 372 s 3 are each amended to read as follows:

(1) The use of automated traffic safety cameras for issuance of notices of infraction is subject to the following requirements:

(a) The appropriate local legislative authority must first enact an ordinance allowing for their use to detect one or more of the following: Stoplight, railroad crossing, or school speed zone violations. At a minimum, the local ordinance must contain the restrictions described in this section and provisions for public notice and signage. Cities and counties using automated traffic safety cameras before July 24, 2005, are subject to the restrictions described in this section, but are not required to enact an authorizing ordinance.

(b) Use of automated traffic safety cameras is restricted to two-arterial intersections, railroad crossings, and school speed zones only.

(c) During the 2009-2011 fiscal biennium, automated traffic safety cameras may be used to detect speed violations for the purposes of section 201(2) of this act if the local legislative authority first enacts an ordinance authorizing the use of cameras to detect speed violations.

(d) Automated traffic safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle.

~~((e))~~ (e) A notice of infraction must be mailed to the registered owner of the vehicle within fourteen days of the violation, or to the renter of a vehicle within fourteen days of establishing the renter's name and address under subsection (3)(a) of this section. The law enforcement officer issuing the notice of infraction shall include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, or electronic images produced by an automated traffic safety camera, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, microphotographs, or electronic images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction. A person receiving a notice of infraction based on evidence detected by an automated traffic safety camera may respond to the notice by mail.

~~((f))~~ (f) The registered owner of a vehicle is responsible for an infraction under RCW 46.63.030(1)(e) unless the registered owner overcomes the presumption in RCW 46.63.075, or, in the case of a rental car business, satisfies the conditions under subsection (3) of this section. If appropriate under the circumstances, a renter identified under subsection (3)(a) of this section is responsible for an infraction.

~~((g))~~ (g) Notwithstanding any other provision of law, all photographs, microphotographs, or electronic images prepared under this section are for the exclusive use of law enforcement in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this section. No photograph, microphotograph, or electronic image may be used for any purpose other than enforcement of violations under this section nor retained longer than necessary to enforce this section.

~~((h))~~ (h) All locations where an automated traffic safety camera is used must be clearly marked by placing signs in locations that clearly indicate to a driver that he or she is entering a zone where traffic laws are enforced by an automated traffic safety camera.

~~((i))~~ (i) If a county or city has established an authorized automated traffic safety camera program under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system, and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment.

(2) Infractions detected through the use of automated traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras under this section shall be processed in the same manner as parking infractions, including for the purposes of RCW ~~((3-46-120))~~ 3.50.100, 35.20.220, 46.16.216, and 46.20.270(3). However, the amount of the fine issued for an infraction generated through the use of an automated traffic safety camera shall not exceed the amount of a fine issued for other parking infractions within the jurisdiction.

(3) If the registered owner of the vehicle is a rental car business, the law enforcement agency shall, before a notice of infraction being issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within eighteen days of receiving the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty.

Timely mailing of this statement to the issuing law enforcement agency relieves a rental car business of any liability under this chapter for the notice of infraction.

(4) Nothing in this section prohibits a law enforcement officer from issuing a notice of traffic infraction to a person in control of a vehicle at the time a violation occurs under RCW 46.63.030(1) (a), (b), or (c).

(5) For the purposes of this section, "automated traffic safety camera" means a device that uses a vehicle sensor installed to work in conjunction with an intersection traffic control system, a railroad grade crossing control system, or a speed measuring device, and a camera synchronized to automatically record one or more sequenced photographs, microphotographs, or electronic images of the rear of a motor vehicle at the time the vehicle fails to stop when facing a steady red traffic control signal or an activated railroad grade crossing control signal, or exceeds a speed limit in a school speed zone as detected by a speed measuring device. During the 2009-2011 fiscal biennium, an automated traffic safety camera includes a camera used to detect speed violations for the purposes of section 201(2) of this act.

(6) During the 2009-2011 fiscal biennium, this section does not apply to automated traffic safety cameras for the purposes of section 218(2) of this act.

Sec. 715. RCW 47.12.080 and 1984 c 7 s 121 are each amended to read as follows:

(1) Except as provided otherwise in this section, the secretary of transportation may transfer and convey to the United States, its agencies or instrumentalities, to any other state agency, to any county or city or port district of this state, or to any public utility company, any unused state-owned real property under the jurisdiction of the department of transportation when, in the judgment of the secretary of transportation and the attorney general, the transfer and conveyance is consistent with public interest. Whenever the secretary makes an agreement for any such transfer or conveyance, and the attorney general concurs therein, the secretary shall execute and deliver unto the grantee a deed of conveyance, easement, or other instrument, duly acknowledged, as shall be necessary to fulfill the terms of the aforesaid agreement. All moneys paid to the state of Washington under any of the provisions hereof shall be deposited in the motor vehicle fund.

(2) Through the end of the 2009-2011 fiscal biennium, the legislature may designate property under the jurisdiction of the department as unused state-owned real property and may further designate the transfer and conveyance of the property as consistent with the public interest. Once designated under this subsection, the legislature may direct the transfer and conveyance of the property to any entity described in subsection (1) of this section for adequate consideration as deemed such by the legislature, and need not require fair market value in exchange for the property.

Sec. 716. RCW 43.19.642 and 2007 c 348 s 201 are each amended to read as follows:

(1) Effective June 1, 2006, for agencies complying with the ultra- low sulfur diesel mandate of the United States environmental protection agency for on-highway diesel fuel, agencies shall use biodiesel as an additive to ultra-low sulfur diesel for lubricity, provided that the use of a lubricity additive is warranted and that the use of biodiesel is comparable in performance and cost with other available lubricity additives. The amount of biodiesel added to the ultra-low sulfur diesel fuel shall be not less than two percent.

(2) Effective June 1, 2009, state agencies are required to use a minimum of twenty percent biodiesel as compared to total volume of all diesel purchases made by the agencies for the operation of the agencies' diesel-powered vessels, vehicles, and construction equipment.

(3) All state agencies using biodiesel fuel shall, beginning on July 1, 2006, file biannual reports with the department of general administration documenting the use of the fuel and a description of how any problems encountered were resolved.

(4) For the 2009-2011 fiscal biennium, the Washington state ferries is required to use a minimum of five percent biodiesel as compared to total volume of all diesel purchases made by the Washington state ferries for the operation of the Washington state ferries diesel- powered vessels so long as the per gallon price of diesel containing a five percent biodiesel blend level does not exceed the per gallon price of diesel by more than five percent. If the per gallon price of diesel containing a five percent biodiesel blend level exceeds the per gallon price of diesel by more than five percent, the requirements of this section do not apply to vessel fuel purchases by the Washington state ferries.

(5) By December 1, 2009, the department of general administration shall:

(a) Report to the legislature on the average true price differential for biodiesel by blend and location; and

(b) Examine alternative fuel procurement methods that work to address potential market barriers for in-state biodiesel producers and report these findings to the legislature.

Sec. 717. RCW 43.19.534 and 1993 sp.s. c 20 s 1 are each amended to read as follows:

(1) State agencies, the legislature, and departments shall purchase for their use all goods and services required by the legislature, agencies, or departments that are produced or provided in whole or in part from class II inmate work programs operated by the department of corrections through state contract. These goods and services shall not be purchased from any other source unless, upon application by the department or agency: ~~((+))~~ (a) The department of general administration finds that the articles or products do not meet the reasonable requirements of the agency or department, ~~((+))~~ (b) are not of equal or better quality, or ~~((+))~~ (c) the price of the product or service is higher than that produced by the private sector. However, the criteria contained in ~~((+))~~ (a), ~~((+))~~ (b), and ~~((+))~~ (c) of this section for purchasing goods and services from sources other than correctional industries do not apply to goods and services produced by correctional industries that primarily replace goods manufactured or services obtained from outside the state. The department of corrections and department of general administration shall adopt administrative rules that implement this section.

(2) During the 2009-2011 fiscal biennium, and in conformance with section 223(11) of this act, this section does not apply to the purchase of uniforms by the Washington state ferries.

Sec. 718. RCW 47.68.090 and 1980 c 67 s 1 are each amended to read as follows:

The department of transportation may make available its engineering and other technical services, with or without charge, to any municipality or person desiring them in connection with the planning, acquisition, construction, improvement, maintenance or operation of airports or air navigation facilities.

The department may render financial assistance by grant or loan or both to any municipality or municipalities acting jointly in the planning, acquisition, construction, improvement, maintenance, or operation of an airport owned or controlled, or to be owned or controlled by such municipality or municipalities, or to any Indian tribe recognized as such by the federal government or such tribes acting jointly in the planning, acquisition, construction, improvement, maintenance or operation of an airport, owned or controlled, or to be owned or controlled by such tribe or tribes and to be held available for the general use of the public, out of appropriations made by the legislature for such purposes. Such financial assistance may be furnished in connection with federal or other financial aid for the same purposes: PROVIDED, That no grant or loan or both shall be in excess of two hundred fifty thousand dollars, or five hundred thousand dollars during the 2009-2011 fiscal biennium, for any one project: PROVIDED FURTHER, That no grant or loan or both shall be granted unless the municipality or municipalities acting jointly, or the tribe or tribes acting jointly shall from their own funds match any funds made available by the department upon such ratio as the department may prescribe.

The department is authorized to act as agent of any municipality or municipalities acting jointly or any tribe or tribes acting jointly, upon the request of such municipality or municipalities, or such tribe or tribes in accepting, receiving, receipting for and disbursing federal moneys, and other moneys public or private, made available to finance, in whole or in part, the planning, acquisition, construction, improvement, maintenance or operation of an airport or air navigation facility; and if requested by such municipality or municipalities, or tribe or tribes, may act as its or their agent in contracting for and supervising such planning, acquisition, construction, improvement, maintenance, or operation; and all municipalities and tribes are authorized to designate the department as their agent for the foregoing purposes. The department, as principal on behalf of the state, and any municipality on its own behalf, may enter into any contracts, with each other or with the United States or with any person, which may be required in connection with a grant or loan of federal moneys for airport or air navigation facility purposes. All federal moneys accepted under this section shall be accepted and transferred or expended by the department upon such terms and conditions as are prescribed by the United States. All moneys received by the department pursuant to this section shall be deposited in the state treasury, and, unless otherwise prescribed by the authority from which such moneys were received, shall be kept in separate funds designated according to the purposes for which the moneys were made available, and held by the state in trust for such purposes. All such moneys are hereby appropriated for the purposes for which the same were made available, to be disbursed or expended in accordance with the terms and conditions upon which they were made available: PROVIDED, That any landing fee or charge imposed by any Indian tribe or tribes for the privilege of use of an airport facility planned, acquired, constructed, improved, maintained, or operated with financial assistance from the department pursuant to this section must apply equally to tribal and nontribal members: PROVIDED FURTHER, That in the event any municipality or municipalities or Indian tribe or tribes, or any distributor of aircraft fuel as defined by RCW 82.42.020 which operates in any airport facility which has received financial assistance pursuant to this section, fails to collect the aircraft fuel excise tax as specified in chapter 82.42 RCW, all funds or value of technical assistance given or paid to such municipality or municipalities or Indian tribe or tribes under the provisions of this section shall revert to the department, and shall be due and payable to the department immediately.

MESSAGE FROM THE SENATE

April 23, 2009

Mr. Speaker:

The Senate receded from its amendment to SUBSTITUTE HOUSE BILL NO. 1332. Under suspension of the rules, the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** A new section is added to chapter 39.34 RCW to read as follows:

(1) As limited in subsection (3) of this section, a watershed management partnership formed or qualified under the authority of RCW 39.34.200 and 39.34.210, including the separate legal entity established by such a partnership under RCW 39.34.030(3)(b) to conduct the cooperative undertaking of the partnership under the same statutory authority, may exercise the power of eminent domain as provided in chapter 8.12 RCW.

(2) The eminent domain authority granted under subsection (1) of this section may be exercised only for those utility purposes for which the watershed partnership was formed and is limited solely to providing water services to its customers.

(3) Subsection (1) of this section applies only to a watershed management partnership that:

(a) Was formed or qualified before July 1, 2006, under the authority of RCW 39.34.200 and 39.34.210;

(b) Is not engaged in planning or in implementing a plan for a water resource inventory area under the terms of chapter 90.82 RCW;

(c) Is composed entirely of cities and water-sewer districts authorized to exercise the power of eminent domain in the manner provided by chapter 8.12 RCW; and

(d) Is governed by a board of directors consisting entirely of elected officials from the cities and water-sewer districts that constitute the watershed management partnership.

(4) A watershed management partnership exercising authority under this section shall:

(a) Comply with the notice requirements of RCW 8.25.290;

(b) Provide notice to the city, town, or county with jurisdiction over the subject property by certified mail thirty days prior to the partnership board authorizing condemnation; and

(c) With any city that is not a member of the watershed management partnership and that has water or sewer service areas within one-half mile of Lake Tapps or water or sewer service areas within five miles upstream from Lake Tapps along the White river, enter into an interlocal agreement to allow eminent domain within that city prior to exercising eminent domain authority under this section.

(5) The legislature is currently unaware of any information suggesting that the expected use by the watershed management partnership of the Lake Tapps water supply will have a significantly adverse effect on surrounding communities. However, if the watershed management partnership's Lake Tapps water supply operations result in a negative impact to the water supplies of a city that is not a member of the watershed management partnership and the city has water or sewer service areas within one-half mile of Lake Tapps or water or sewer service areas within five miles upstream from Lake Tapps along the White river, the city claiming a negative impact under this subsection must notify the watershed management partnership of their claim and give the partnership at least sixty days to resolve the claimed impact. If the watershed management partnership fails to resolve the claimed negative impact or disputes that the negative impact exists, the city claiming the negative impact under this subsection may pursue existing legal remedies in accordance with state and federal law. If a court determines that a negative impact has occurred as provided under this subsection, the watershed management partnership shall implement a remedy acceptable to the claiming city. If the affected city or cities and the watershed management partnership cannot agree on the terms required under this subsection, the court shall establish the terms for the remedy required under this subsection."

The rate of tax shall not exceed 0.09 percent of the selling price in the case of a sales tax or value of the article used in the case of a use tax, except that for rural counties with population densities between sixty and one hundred persons per

square mile, the rate shall not exceed 0.04 percent before January 1, 2000.

(2) The tax imposed under subsection (1) of this section shall be deducted from the amount of tax otherwise required to be collected or paid over to the department of revenue under chapter 82.08 or 82.12 RCW. The department of revenue shall perform the collection of such taxes on behalf of the county at no cost to the county.

(3)(a) Moneys collected under this section shall only be used to finance public facilities serving economic development purposes in rural counties and finance personnel in economic development offices. Any projects financed prior to June 10, 2004, from the proceeds of obligations to which the tax imposed under subsection (1) of this section has been pledged shall not be deemed to be new projects under this subsection. No new projects funded with money collected under this section may be for justice system facilities.

(c) The definitions in this section apply throughout this section.

(i) "Public facilities" means bridges, roads, domestic and industrial water facilities, sanitary sewer facilities, earth stabilization, storm sewer facilities, railroad, electricity, natural gas, buildings, structures, telecommunications infrastructure, transportation infrastructure, or commercial infrastructure, and port facilities in the state of Washington.

SUBSTITUTE HOUSE BILL NO. 1751, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

MESSAGE FROM THE SENATE

April 24, 2009

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2211 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. It is the intent of the legislature that the state authorize early tolling on the state route number 520 corridor in order to secure the authority to spend federal grant moneys provided to Washington state as part of the urban partnership grant program.

It is further the intent of the legislature to impose tolls on the state route number 520 floating bridge subject to section 2 of this act, to help finance construction of the replacement state route number 520 floating bridge and necessary landings.

It is further the intent of the legislature to expedite the replacement of the floating bridge and necessary landings in a manner that does not preclude local design options on either side of the state route number 520 corridor. For all projects in the state route number 520 corridor program, the legislature intends that the total cost will be no more than four billion six hundred fifty million dollars.

It is further the intent of the legislature that if the tolls on the state route number 520 corridor significantly alter the performance of nearby facilities, the legislature will reconsider the tolling policy for the corridor.

It is further the intent of the legislature that the department of transportation applies for federal stimulus funds for projects in the corridor.

NEW SECTION. Sec. 2. A new section is added to chapter 47.56 RCW under the subchapter heading "toll facilities created after July 1, 2008" to read as follows:

(1) The initial imposition of tolls on the state route number 520 corridor is authorized, the state route number 520 corridor is designated an eligible toll facility, and toll revenue generated in the corridor must only be expended as allowed under RCW 47.56.820.

(2) The state route number 520 corridor consists of that portion of state route number 520 between the junctions of Interstate 5 and state route number 202. The toll imposed by this section shall be charged only for travel on the floating bridge portion of the state route number 520 corridor.

(3)(a) In setting the toll rates for the corridor pursuant to RCW 47.56.850, the tolling authority shall set a variable schedule of toll rates to maintain travel time, speed, and reliability on the corridor and generate the necessary revenue as required under (b) of this subsection.

(b) The tolling authority shall initially set the variable schedule of toll rates, which the tolling authority may adjust at least annually to reflect inflation as measured by the consumer price index or as necessary to meet the redemption of bonds and interest payments on the bonds, to generate revenue sufficient to provide for:

(i) The issuance of general obligation bonds first payable from toll revenue and then excise taxes on motor vehicle and special fuels pledged for the payment of those bonds in the amount necessary to fund the replacement state route number 520 floating bridge and necessary landings, subject to subsection (4) of this section; and

(ii) Costs associated with the project designated in subsection (4) of this section that are eligible under RCW 47.56.820.

(4) The proceeds of the bonds designated in subsection (3)(b)(i) of this section, which together with other appropriated and identified state and federal funds is sufficient to pay for the replacement of the floating bridge segment and necessary landings of state route number 520, must be used only to fund the construction of the replacement state route number 520 floating bridge and necessary landings.

(5) The department may carry out the construction and improvements designated in subsection (4) of this section and administer the tolling program on the state route number 520 corridor.

NEW SECTION. Sec. 3. A new section is added to chapter 47.56 RCW to read as follows:

(1)(a) The state route number 520 work group is created. The work group shall consist of the following members:

(i) The legislators from the forty-third legislative district;

(ii) The legislators from the forty-eighth legislative district;

(iii) The secretary of transportation;

(iv) Two legislators from each of the forty-sixth and forty-fifth legislative districts as jointly determined by the speaker of the house of representatives and the president of the senate;

(v) The chairs of the transportation committees of the legislature, who may each appoint one additional legislator from the joint transportation committee representing a legislative district outside of the state route number 520 corridor; and

(vi) The member of the transportation commission representing King county.

(b) The work group members shall elect two cochairs to consist of one legislative member representing the east side of the state route number 520 corridor and one legislative member representing the west side of the state route number 520 corridor. The work group shall conduct at least three meetings consisting of an initial meeting, a midcourse meeting, and a final meeting.

(2) The state route number 520 work group must:

(a) Review and recommend a financing strategy, in conjunction with the department, to fund the projects in the state route number 520 corridor that reflects the design options recommended under (b) of this subsection. The financing strategy must be based on a total

cost of all the intended projects in the state route number 520 corridor that does not exceed four billion six hundred fifty million dollars;

(b) Recommend design options that provide for a full state route number 520 corridor project, including projects in the corridor for which the department applies for federal stimulus funds provided in the American recovery and reinvestment act of 2009, that meets the needs of the region's transportation system while providing appropriate mitigation for the neighborhood and communities in the area directly impacted by the project; and

(c) Present a final report with recommendations on financing and design options to the legislature and the governor by January 1, 2010. The recommendations will inform the supplemental draft environmental impact statement process for the state route number 520 corridor. The process must continue through 2009.

(3) All design options considered or recommended by the state route number 520 work group must adhere to RCW 47.01.408.

(4) The state route number 520 work group shall form a westside subgroup to conduct a detailed review and make recommendations on design options on the west side of the corridor, which extends from the west end of the floating bridge to Interstate 5. The westside subgroup shall consult with neighborhood and community groups impacted by the potential design options. The work group may form an eastside subgroup to review current design options on the east side of the corridor, which extends from the east end of the floating bridge to state route number 202.

(5) The state route number 520 work group shall consult with the governor and legislators representing the primary users of the state route number 520 corridor.

(6) The department shall provide staff support to the state route number 520 work group.

NEW SECTION. Sec. 4. A new section is added to chapter 47.56 RCW under the subchapter heading "toll facilities created after July 1, 2008" to read as follows:

A special account to be known as the state route number 520 corridor account is created in the state treasury.

(1) Deposits to the account must include:

(a) All proceeds of bonds issued for construction of the replacement state route number 520 floating bridge and necessary landings, including any capitalized interest;

(b) All of the tolls and other revenues received from the operation of the state route number 520 corridor as a toll facility, to be deposited at least monthly;

(c) Any interest that may be earned from the deposit or investment of those revenues;

(d) Notwithstanding RCW 47.12.063, proceeds from the sale of any surplus real property acquired for the purpose of building the replacement state route number 520 floating bridge and necessary landings; and

(e) All damages, liquidated or otherwise, collected under any contract involving the construction of the replacement state route number 520 floating bridge and necessary landings.

(2) Subject to the covenants made by the state in the bond proceedings authorizing the issuance and sale of bonds for the replacement state route number 520 floating bridge and necessary landings, toll charges, other revenues, and interest received from the operation of the state route number 520 corridor as a toll facility may be used to:

(a) Pay any required costs allowed under RCW 47.56.820; and

(b) Repay amounts to the motor vehicle fund as required.

(3) When repaying the motor vehicle fund, the state treasurer shall transfer funds from the state route number 520 corridor account to the motor vehicle fund on or before each debt service date for bonds issued for the replacement state route number 520 floating bridge project and necessary landings in an amount sufficient to repay the motor vehicle fund for amounts transferred from that fund to the highway bond retirement fund to provide for any bond principal and interest due on that date. The state treasurer may establish subaccounts for the purpose of segregating toll charges, bond sale proceeds, and other revenues.

Sec. 5. RCW 43.84.092 and 2008 c 128 s 19 and 2008 c 106 s 4 are each reenacted and amended to read as follows:

(1) All earnings of investments of surplus balances in the state treasury shall be deposited to the treasury income account, which account is hereby established in the state treasury.

(2) The treasury income account shall be utilized to pay or receive funds associated with federal programs as required by the federal cash management improvement act of 1990. The treasury income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for refunds or allocations of interest earnings required by the cash management improvement act. Refunds of interest to the federal treasury required under the cash management improvement act fall under RCW 43.88.180 and shall not require appropriation. The office of financial management shall determine the amounts due to or from the federal government pursuant to the cash management improvement act. Reducing the amount of petroleum pollution in storm water.

The bill was read the second time.

SUBSTITUTE HOUSE BILL NO. 1614 was read the second time.

With the consent of the House, amendments (869) and (890) were withdrawn. Amendment (883), which was drafted to amendment (869), was ruled out of order.

Representative Ormsby moved the adoption of amendment (889):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that contaminated storm water runoff is a major water pollution problem in the state creating a significant burden on the rivers, aquifers, lakes, and streams across Washington. In addition, mitigating the burdens of storm water and storm water pollution is one of the Puget Sound partnership's top strategic priorities for Puget Sound recovery.

(2) The legislature recognizes that the burden of storm water pollution is a function of both increased volumes of storm water runoff due to the expansion of impervious surfaces and the toxic substances that pollute the runoff. Local governments may address the burdens created by increased impervious surface through storm water utility fees, but it has been difficult to regulate the toxic substances that contaminate storm water runoff and result in nonpoint source pollution.

(3) The legislature finds that contamination from one category of toxic substances, petroleum products, accounts for a significant portion of the total pollution load in Puget Sound and other areas in the state.

(4) The legislature finds that, although future expenditures for required storm water remediation have not been fully quantified, existing information shows that near-term costs for storm water permit compliance and retrofit projects are in excess of one billion dollars. To meet federal storm water permit requirements and complete other storm water projects necessary to meet water quality recovery goals, more than two hundred fifty million dollars will need to be spent by cities, counties, ports, and the state department of transportation every year. The fee imposed in section 3 of this act on petroleum products, which account for between forty-five percent and sixty-five percent of storm water pollution, will generate less than half of the minimum of the annual costs of necessary storm water remediation projects.

(5) The legislature finds that the burden of storm water pollution from petroleum products is difficult to offset because the source of pollution is not a single physical point, but occurs wherever the petroleum products are purchased, consumed, or used. Nonpoint pollution sources like petroleum and petroleum byproducts contaminate storm water through a multitude of pathways. Combustion of gasoline, diesel, residual fuel oil, and other petroleum products emit pollutants such as hydrocarbons, polycyclic aromatic hydrocarbons, zinc, and arsenic, which then disperse and deposit on the ground. Petroleum-based chemicals leach from substances like paving asphalt. Oil and grease drip from vehicles and equipment onto roads and parking lots. When rainwater flows across impervious surfaces, these contaminants are mobilized and transported to water bodies.

(6) The legislature finds that the possession of petroleum and petroleum byproducts such as asphalt and road oil, lubricants, motor vehicle fuel, and motor diesel fuel directly contributes to storm water contamination because once these products are present in the state, the immediate, foreseeable, and unavoidable consequences of their distribution and use are emissions that significantly contribute to storm water pollution.

(7) The legislature finds that the federal government and the state of Washington have identified remediation of storm water runoff through national pollutant discharge elimination system phase I and II as a requirement for the state and local jurisdictions. Impacts from the polluted storm water may be mitigated through retrofit projects for existing infrastructure.

(8) The legislature finds that resources needed to offset the direct burdens of storm water polluted by these substances are insufficient to meet existing needs. Existing funding is raised largely by local governments and is disproportionately borne by fees levied on individual developers and property owners.

(9) Finally, the legislature finds that imposing a fee on the first in-state possession of petroleum products that contribute to nonpoint storm water pollution is the most administratively feasible method of regulation that proportionally allocates the costs of offsetting the burdens that these products place on the environment. The legislature therefore authorizes a fee to regulate nonpoint source pollution from petroleum products and offset the burdens that such nonpoint pollution places on the environment and the waters of the state.

NEW SECTION. Sec. 2. A new section is added to chapter 90.48 RCW to read as follows:

(1) The water pollution account is created in the state treasury. All fees collected under section 3 of this act must be deposited in the account. Moneys in the account may be spent only after appropriation. Expenditures from the account must be used on activities or capital projects that mitigate or prevent storm water pollution by petroleum products or storm water pollution associated with petroleum products.

(2) After deducting the department's administrative costs associated with collecting the fees and administering a competitive grant process:

(a) Approximately forty percent of the moneys must be allocated through the grant process to local governments to fund activities or capital projects that address petroleum contamination of storm water through the implementation of the national pollutant discharge elimination system programs permitted under this chapter. To be eligible, local governments must provide fifty percent of project or activity costs from other nonstate fund sources. To qualify for funding, applicants must also demonstrate the following:

(i) A clear relationship between petroleum products that contribute to storm water pollution and the project's or activity's outcomes; and

(ii) For project proposals, that the project is an identified priority based on an analysis of ecological or water quality needs throughout the jurisdiction, basin, or watershed.

(b) Approximately forty percent of the moneys must be allocated through the grant process to local governments for retrofit projects that address petroleum contamination of storm water. The moneys must be prioritized for projects that utilize low-impact development retrofit strategies, but moneys may be awarded for other retrofit projects if the site does not lend itself to low-impact development techniques. After December 31, 2012, in order to qualify for funding, applicants must demonstrate the following:

(i) A clear relationship between petroleum products that contribute to storm water pollution and the project's outcomes; and

(ii) That the project is an identified priority based on an analysis of ecological or water quality needs throughout the jurisdiction, basin, or watershed.

(c) Approximately ten percent of the money must be allocated as grants to the department of transportation to fund activities or capital projects that address petroleum contamination of storm water related to existing transportation infrastructure through the implementation of the department of transportation's national pollutant discharge elimination system programs permitted under this chapter. To qualify for funding, the department must demonstrate the following:

(i) A clear relationship between petroleum products that contribute to storm water pollution and the project's or activity's outcomes; and

(ii) For project proposals, that the project is an identified priority based on an analysis of ecological or water quality needs throughout the jurisdiction, basin, or watershed.

(d) Approximately ten percent of the money must be allocated through either existing storm water grant programs or the grant process to projects under (a) or (b) of this subsection and to the highest priority projects based upon ecological and water quality benefits determined by the department. For projects qualifying under this subsection (2)(d), moneys may be allocated to meet the matching requirements under (a) of this subsection to jurisdictions that demonstrate economic hardship in meeting the matching requirement. To qualify for funding, applicants must also demonstrate the following:

(i) A clear relationship between petroleum products that contribute to storm water pollution and the project's outcomes; and
 (ii) That the project is an identified priority based on an analysis of ecological or water quality needs throughout the jurisdiction, basin, or watershed.

(3) The department shall develop criteria for administering the program and ranking projects for funding. In developing criteria applicable to projects in the Puget Sound basin, the department shall consult with the Puget Sound partnership. All projects approved for funding must demonstrate the potential to achieve clear ecological or water quality benefits. The department shall endeavor to distribute the moneys within each geographic region of the state in proportion to the severity of impacts on the state's waters from petroleum contamination.

(4) Administration of the grant program, including the collection of fees under section 3 of this act, must be paid for out of the water pollution account. Notwithstanding program implementation costs, no more than three percent of the moneys from the account may be used to administer the grant program on a continuing basis.

(5) The department shall initiate the grant application process by July 1, 2010.

(6) By December 1, 2011, and every two years thereafter, the department shall report to the governor and the appropriate committees of the legislature on the progress of the program and the suitability of the percentage allocations specified in subsection (2)(a) through (d) of this section.

(7) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Low-impact development" means a storm water management and land development strategy applied at the parcel and subdivision level that emphasizes conservation and use of on-site natural features integrated with engineered, small-scale hydrologic controls to more closely mimic predevelopment hydrologic functions.

(b) "Retrofit" means the renovation of existing development to improve or eliminate storm water problems associated with the site.

(c) "Capital project" means the capital project, including the construction and associated costs, described in capital budget instructions issued by the office of financial management.

NEW SECTION. Sec. 3. A new section is added to chapter 90.48 RCW to read as follows:

(1) Effective January 1, 2010, a fee is imposed on the first possession of petroleum products that contribute to storm water pollution, as defined in subsection (6) of this section, for the purpose of offsetting the burden caused by petroleum pollution of storm water in this state. The fee is one dollar and fifty cents per barrel of petroleum product that contributes to storm water pollution.

(2) Fees collected under this section must be deposited in the water pollution account created in section 2 of this act and applied solely for the pollution prevention and mitigation purposes permitted under section 2 of this act and for the administration of the program required under section 2 of this act.

(3) The fee must be collected by the department. No later than January 1, 2010, the department shall adopt rules governing the collection of the fees. The department may enter into agreements with other state agencies to facilitate the most efficient collection system.

(4) It is the intent of this section to impose a fee only once for petroleum products that contribute to storm water pollution that are possessed in this state. Accordingly, the fee is imposed on the first possession of such products. The fee is not imposed on the possession of small amounts of petroleum products that is first possessed by a consumer or by a retailer for the purpose of sale to ultimate consumers.

(5) Petroleum products exported from or sold for export from the state are not subject to the fee imposed under this section.

(6) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Barrel" means a unit of measurement of volume equal to forty-two United States gallons of petroleum product.

(b) "Control" means the power to sell or use the petroleum product or to authorize the sale or use by another.

(c) "Petroleum products that contribute to storm water pollution" means asphalt and road oil, lubricants, motor vehicle fuel, motor diesel fuel, and residual fuel oil, and any other petroleum substance that the department determines contributes to storm water pollution in the state. The term does not include crude oil, aviation gasoline, jet fuel, home heating oil, dyed special fuel, or clear special fuel used for agricultural purposes.

(d) "Possession" means the act of taking control of the petroleum product located within this state, whether the person taking control does so by bringing, receiving, creating, or extracting the petroleum product in this state, and includes both actual and constructive possession. "Actual possession" occurs when the person with control obtains physical possession. "Constructive possession" occurs when the person with control does not obtain physical possession."

Correct the title.

Representative Ormsby moved the adoption of amendment (891) to amendment (889):

On page 3, line 35 of the striking amendment, after "techniques." strike "After December 31, 2012, in order to" and insert "To"

Representative Ormsby spoke in favor of the adoption of the amendment to amendment (889).

Representative Warnick spoke against the adoption of the amendment to amendment (889).

Amendment (891) to amendment (889) was adopted.

Amendment (889) as amended was adopted. The bill was ordered engrossed.

There being no objection, the rules were suspended, the second reading considered the third and the bill was placed on final passage.

Representative Ormsby spoke in favor of the passage of the bill.

POINT OF PARLIAMENTARY INQUIRY

Representative Ross: "Mr. Speaker, as you know, simply calling an extraction a "fee" does not exempt it from the 2/3 vote requirement under Initiative 960.

House Bill 1614 imposes a \$1.50 per barrel "fee" on the first possession of petroleum products. The money is deposited in the newly created Water Pollution Account for the purpose of mitigating or preventing storm water pollution from petroleum products.

While this language would appear to tie this "fee" to a specific purpose, there does not appear to be a sufficient connection between those paying the fee and the benefits of mitigating or preventing storm water pollution from petroleum products. In fact, the Department of Ecology has identified at least 14 different sources of storm water contamination, petroleum being one of them. It appears that the money from this new account could also go toward the cleanup of the remaining 13 non-petroleum storm water pollutants.

I believe the benefits of mitigating or preventing storm water pollution benefit the general public, not just those paying this fee, suggesting that House Bill 1614 is actually a tax.

Mr. Speaker, does House Bill 1614 require a 2/3 vote under Initiative 960? Thank you."

SPEAKER'S RULING

Mr. Speaker (Representative Morris presiding): "In ruling upon the point of inquiry whether Substitute House Bill No. 1614 requires a two-thirds vote on final passage under statutes enacted by Initiative 960 because it "raises taxes", the Speaker finds and rules as follows:

Determining whether a revenue measure requires a simple majority or a 2/3 vote can be a difficult challenge. To be considered a fee, there must be a relationship between the source of the revenue and the purposes for which the proceeds may be used. The more direct the connection between the money collected and the narrow purpose for which it may be spent, the more likely it is a fee.

Substitute House Bill 1614 raises revenue by imposing a \$1.50 charge on the first possession of each barrel of petroleum products that contribute to storm water pollution. The revenue raised may only be used to fund projects that mitigate storm water pollution and that demonstrate a clear relationship between these petroleum products and project outcomes.

While revenue raised by the charge is substantial, other significant funding sources finance storm water remediation and retrofit projects. The bill includes a legislative finding that to meet federal storm water permit requirements and complete other storm water projects necessary to meet water quality recovery goals, more than two hundred fifty million dollars will need to be spent by cities, counties, ports, and the state department of transportation every year.

The bill also includes a legislative finding that petroleum products account for forty-five to sixty-five percent of the pollution in storm water. The charge imposed in Substitute House Bill 1614 will generate less than half of the minimum of the annual costs of necessary storm water remediation projects, and thus will mitigate only a portion of the burden that the covered petroleum products place on the environment through nonpoint storm water pollution.

Substitute House Bill 1614 is narrowly tailored to fund projects that address the specific impacts of these petroleum products in storm water. The Speaker finds that the revenue source is sufficiently limited so as to be considered a fee for a dedicated purpose. For these reasons, the Speaker finds that the measure will take only a simple majority for final passage."

Representative Nelson spoke in favor of the passage of the bill.

POINT OF ORDER

Representative Ericksen: "I urge the good gentle lady from District 34th to contain her comments to the bill in front of us."

SPEAKER'S RULING

Mr. Speaker (Representative Morris presiding): "Thank you for your point of order, Representative Ericksen. The Speaker believes that the remarks of the good lady from the 34th District are in regard to her expressing her thoughts in regard to the industry to whom the fees are being placed on to be able to absorb or afford these costs. The Speaker would also agree that the examples in question are getting close to inflaming debate not engendering it and would caution the good lady to pick her words carefully.

Your point is partially well taken, Mr. Ericksen."

Representatives Nelson (again), Upthegrove, Finn, Campbell, McCoy, Chase, Lias and Appleton spoke in favor of the passage of the bill.

Representatives Orcutt, Warnick, Hinkle, Johnson, DeBolt, Angel and Haler spoke against the passage of the bill.

POINT OF PARLIAMENTARY INQUIRY

Representative Simpson: "Under Rule 22 of the House anyone can appeal the decision of the Speaker but I believe it disrespectful to the Speaker and indecorous to the House and institution, to continually assert that the Speaker's ruling was incorrect. This is a fee, not a tax."

SPEAKER'S RULING

Mr. Speaker (Representative Morris presiding): "Thank you for your point of order, Mr. Simpson. Your point is well taken. The Speaker has ruled on a point of parliamentary inquiry on the question of a fee or tax. The Speaker would ask the members to confine their remarks to the policy question in the bill before us."

Representatives Haler (again), Taylor, Kretz, Smith, Klippert, Ross and Ericksen spoke against the passage of the bill.

The Speaker (Representative Morris presiding) stated the question before the House to be the final passage of Engrossed Substitute House Bill No. 1614.

MOTION

On motion of Representative Hinkle, Representative Roach was excused.

"NEW SECTION. Sec. 1. Intent. One of the key roles of advisory boards, committees, and commissions is to provide input, advice and recommendations from stakeholders, other interested parties, and the public to state agencies. Some advisory boards, committees, and commissions may be abolished without detriment to the mission of the agency each supports. Most of the advisory functions of some boards, committees, and commissions can be performed without the administrative costs of maintaining formal organizations. In the interest of building a leaner, more efficient, and more responsible government, this vital communications conduit must be maintained for the benefit of the state and its citizens, through the use of modern communication technology. It is the intent of the legislature this interim to identify criteria to evaluate those advisory boards, committees, and commissions that may be eliminated or consolidated, and for agencies to identify new, less costly, and more effective opportunities to ensure a broad range of citizen participation is provided and that all reasonable efforts are made to ensure that channels are maintained for vital input from the citizens of Washington.

(1) The department may exercise the following powers in addition to any other powers granted by law:

(a) Investigate, provide for investigating, or require potentially liable persons to investigate any releases or threatened releases of hazardous substances, including but not limited to inspecting, sampling, or testing to determine the nature or extent of any release or threatened release. If there is a reasonable basis to believe that a release or threatened release of a hazardous substance may exist, the department's authorized employees, agents, or contractors may enter upon any property and conduct investigations. The department shall give reasonable notice before entering property unless an emergency prevents such notice. The department may by subpoena require the attendance or testimony of witnesses and the production of documents or other information that the department deems necessary;

(b) Conduct, provide for conducting, or require potentially liable persons to conduct remedial actions (including investigations under (a) of this subsection) to remedy releases or threatened releases of hazardous substances. In carrying out such powers, the department's authorized employees, agents, or contractors may enter upon property. The department shall give reasonable notice before entering property unless an emergency prevents such notice. In conducting, providing for, or requiring remedial action, the department shall give preference to permanent solutions to the maximum extent practicable and shall provide for or require adequate monitoring to ensure the effectiveness of the remedial action;

(c) Indemnify contractors retained by the department for carrying out investigations and remedial actions, but not for any contractor's reckless or willful misconduct;

(d) Carry out all state programs authorized under the federal cleanup law and the federal resource, conservation, and recovery act, 42 U.S.C. Sec. 6901 et seq., as amended;

(e) Classify substances as hazardous substances for purposes of RCW 70.105D.020 and classify substances and products as hazardous substances for purposes of RCW 82.21.020(1);

(f) Issue orders or enter into consent decrees or agreed orders that include, or issue written opinions under (i) of this subsection that may be conditioned upon, environmental covenants where necessary to protect human health and the environment from a release or threatened release of a hazardous substance from a facility. Prior to establishing an environmental covenant under this subsection, the department shall consult with and seek comment from a city or county department with land use planning authority for real property subject to the environmental covenant;

(g) Enforce the application of permanent and effective institutional controls that are necessary for a remedial action to be protective of human health and the environment and the notification requirements established in RCW 70.105D.110, and impose penalties for violations of that section consistent with RCW 70.105D.050;

(h) Require holders to conduct remedial actions necessary to abate an imminent or substantial endangerment pursuant to RCW 70.105D.020(17)(b)(ii)(C);

(i) Provide informal advice and assistance to persons regarding the administrative and technical requirements of this chapter. This may include site-specific advice to persons who are conducting or otherwise interested in independent remedial actions. Any such advice or assistance shall be advisory only, and shall not be binding on the department. As a part of providing this advice and assistance for independent remedial actions, the department may prepare written opinions regarding whether the independent remedial actions or proposals for those actions meet the substantive requirements of this chapter or whether the department believes further remedial action is necessary at the facility. Nothing in this chapter may be construed to preclude the department from issuing a written opinion on whether further remedial action is necessary at any portion of the real property located within a facility, even if further remedial action is still necessary elsewhere at the same facility. Such a written opinion

on a portion of a facility must also provide an opinion on the status of the facility as a whole. The department may collect, from persons requesting advice and assistance, the costs incurred by the department in providing such advice and assistance; however, the department shall, where appropriate, waive collection of costs in order to provide an appropriate level of technical assistance in support of public participation. The state, the department, and officers and employees of the state are immune from all liability, and no cause of action of any nature may arise from any act or omission in providing, or failing to provide, informal advice and assistance; and

(j) Take any other actions necessary to carry out the provisions of this chapter, including the power to adopt rules under chapter 34.05 RCW.

(2) The department shall immediately implement all provisions of this chapter to the maximum extent practicable, including investigative and remedial actions where appropriate. The department shall adopt, and thereafter enforce, rules under chapter 34.05 RCW to:

(a) Provide for public participation, including at least (i) public notice of the development of investigative plans or remedial plans for releases or threatened releases and (ii) concurrent public notice of all compliance orders, agreed orders, enforcement orders, or notices of violation;

(b) Establish a hazard ranking system for hazardous waste sites;

(c) Provide for requiring the reporting by an owner or operator of releases of hazardous substances to the environment that may be a threat to human health or the environment within ninety days of discovery, including such exemptions from reporting as the department deems appropriate, however this requirement shall not modify any existing requirements provided for under other laws;

(d) Establish reasonable deadlines not to exceed ninety days for initiating an investigation of a hazardous waste site after the department receives notice or otherwise receives information that the site may pose a threat to human health or the environment and other reasonable deadlines for remedying releases or threatened releases at the site;

(e) Publish and periodically update minimum cleanup standards for remedial actions at least as stringent as the cleanup standards under section 121 of the federal cleanup law, 42 U.S.C. Sec. 9621, and at least as stringent as all applicable state and federal laws, including health-based standards under state and federal law; and

(f) Apply industrial clean-up standards at industrial properties. Rules adopted under this subsection shall ensure that industrial properties cleaned up to industrial standards cannot be converted to nonindustrial uses without approval from the department. The department may require that a property cleaned up to industrial standards is cleaned up to a more stringent applicable standard as a condition of conversion to a nonindustrial use. Industrial clean-up standards may not be applied to industrial properties where hazardous substances remaining at the property after remedial action pose a threat to human health or the environment in adjacent nonindustrial areas.

(3) To achieve and protect the state's long-term ecological health, the department shall prioritize sufficient funding to clean up hazardous waste sites and prevent the creation of future hazards due to improper disposal of toxic wastes, and create financing tools to clean up large-scale hazardous waste sites requiring multiyear commitments. To effectively monitor toxic accounts expenditures, the department shall develop a comprehensive ten-year financing report that identifies long-term remedial action project costs, tracks expenses, and projects future needs.

(4) Before December 20th of each even-numbered year, the department shall:

(a) Develop a comprehensive ten-year financing report in coordination with all local governments with clean-up responsibilities that identifies the projected biennial hazardous waste site remedial action needs that are eligible for funding from the local toxics control account;

(b) Work with local governments to develop working capital reserves to be incorporated in the ten-year financing report;

(c) Identify the projected remedial action needs for orphaned, abandoned, and other clean-up sites that are eligible for funding from the state toxics control account;

(d) Project the remedial action need, cost, revenue, and any recommended working capital reserve estimate to the next biennium's long-term remedial action needs from both the local toxics control account and the state toxics control account, and submit this information to the appropriate standing fiscal and environmental committees of the senate and house of representatives. This submittal must also include a ranked list of such remedial action projects for both accounts; and

(e) Provide the legislature and the public each year with an accounting of the department's activities supported by appropriations from the state and local toxics control accounts, including a list of known hazardous waste sites and their hazard rankings, actions taken and planned at each site, how the department is meeting its waste management priorities under RCW 70.105.150, and all funds expended under this chapter.

~~(5) ((The department shall establish a scientific advisory board to render advice to the department with respect to the hazard ranking system, cleanup standards, remedial actions, deadlines for remedial actions, monitoring, the classification of substances as hazardous substances for purposes of RCW 70.105D.020 and the classification of substances or products as hazardous substances for purposes of RCW 82.21.020(1). The board shall consist of five independent members to serve staggered three-year terms. No members may be employees of the department. Members shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.~~

~~—(6))~~ The department shall establish a program to identify potential hazardous waste sites and to encourage persons to provide information about hazardous waste sites.

~~((7))~~ (6) For all facilities where an environmental covenant has been required under subsection (1)(f) of this section, including all facilities where the department has required an environmental covenant under an order, agreed order, or consent decree, or as a condition of a written opinion issued under the authority of subsection (1)(i) of this section, the department shall periodically review the environmental covenant for effectiveness. Except as otherwise provided in (c) of this subsection, the department shall conduct a review at least once every five years after an environmental covenant is recorded.

(a) The review shall consist of, at a minimum:

(i) A review of the title of the real property subject to the environmental covenant to determine whether the environmental covenant was properly recorded and, if applicable, amended or terminated;

(ii) A physical inspection of the real property subject to the environmental covenant to determine compliance with the environmental covenant, including whether any development or redevelopment of the real property has violated the terms of the environmental covenant; and

(iii) A review of the effectiveness of the environmental covenant in limiting or prohibiting activities that may interfere with the integrity of the remedial action or that may result in exposure to or migration of hazardous substances. This shall include a review of available monitoring data.

(b) If an environmental covenant has been amended or terminated without proper authority, or if the terms of an environmental covenant have been violated, or if the environmental covenant is no longer effective in limiting or prohibiting activities that may interfere with the integrity of the remedial action or that may result in exposure to or migration of hazardous substances, then the department shall take any and all appropriate actions necessary to ensure compliance with the environmental covenant and the policies and requirements of this chapter.

(c) For facilities where an environmental covenant required by the department under subsection (1)(f) of this section was required before July 1, 2007, the department shall:

(i) Enter all required information about the environmental covenant into the registry established under RCW 64.70.120 by June 30, 2008;

(ii) For those facilities where more than five years has elapsed since the environmental covenant was required and the department

has yet to conduct a review, conduct an initial review according to the following schedule:

(A) By December 30, 2008, fifty facilities;

(B) By June 30, 2009, fifty additional facilities; and

(C) By June 30, 2010, the remainder of the facilities;

(iii) Once this initial review has been completed, conduct subsequent reviews at least once every five years.

"NEW SECTION. Sec. 1. The legislature recognizes that cities and counties have moratoria authority granted through constitutional and statutory provisions and that this authority, when properly exercised, is an important aspect of complying with environmental stewardship and protection requirements.

Recognizing the fundamental role and value of properly exercised moratoria, the legislature intends to establish new moratoria procedures and to affirm moratoria authority that local governments have and may exercise when implementing the shoreline management act, while recognizing the legitimate interests of existing shoreline related developments during the period of interim moratoria.

NEW SECTION. Sec. 2. A new section is added to chapter 90.58 RCW to read as follows:

(iv) Provide that all lawfully existing uses, structures, or other development shall continue to be deemed lawful conforming uses and may continue to be maintained, repaired, and redeveloped, so long as the use is not expanded, under the terms of the land use and shoreline rules and regulations in place at the time of the moratorium.

(b) The public hearing required by this section must be held within sixty days of the adoption of the moratorium or control.

(3) A moratorium or control adopted under this section may be effective for up to six months if a detailed work plan for remedying the issues and circumstances necessitating the moratorium or control is developed and made available for public review. A moratorium or control may be renewed for two six-month periods if the local government complies with subsection (2)(a) of this section before each renewal. If a moratorium or control is in effect on the date a proposed master program or amendment is submitted to the department, the moratorium or control must remain in effect until the department's final action under RCW 90.58.090; however, the moratorium expires six months after the date of submittal if the department has not taken final action.

(4) Nothing in this section may be construed to modify county and city moratoria powers conferred outside this chapter."

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1619, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

MESSAGE FROM THE SENATE

April 25, 2009

Mr. Speaker:

The Senate receded from its amendment to ENGROSSED SUBSTITUTE HOUSE BILL NO. 1782. Under suspension of the rules, the bill was returned to second reading for purpose of

amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"NEW SECTION, Sec. 1. The legislature finds that when children have been found dependent and placed in out-of-home care, the likelihood of reunification with their parents diminishes significantly after fifteen months. The legislature also finds that early and consistent parental engagement in services and participation in appropriate parent-child contact and visitation increases the likelihood of successful reunifications. The legislature intends to promote greater awareness among parents in dependency cases of the importance of active participation in services, visitation, and case planning for the child, and the risks created by failure to participate in their child's case over the long term.

Sec. 2. RCW 13.34.062 and 2007 c 413 s 4 and 2007 c 409 s 5 are each reenacted and amended to read as follows:

(1)(a) Whenever a child is taken into custody by child protective services pursuant to a court order issued under RCW 13.34.050 or when child protective services is notified that a child has been taken into custody pursuant to RCW 26.44.050 or 26.44.056, child protective services shall make reasonable efforts to inform the parent, guardian, or legal custodian of the fact that the child has been taken into custody, the reasons why the child was taken into custody, and their legal rights under this title, including the right to a shelter care hearing, as soon as possible. Notice must be provided in an understandable manner and take into consideration the parent's, guardian's, or legal custodian's primary language, level of education, and cultural issues.

(b) In no event shall the notice required by this section be provided to the parent, guardian, or legal custodian more than twenty- four hours after the child has been taken into custody or twenty-four hours after child protective services has been notified that the child has been taken into custody.

(2)(a) The notice of custody and rights may be given by any means reasonably certain of notifying the parents including, but not limited to, written, telephone, or in person oral notification. If the initial notification is provided by a means other than writing, child protective services shall make reasonable efforts to also provide written notification.

(b) The written notice of custody and rights required by this section shall be in substantially the following form:

"NOTICE

Your child has been placed in temporary custody under the supervision of Child Protective Services (or other person or agency). You have important legal rights and you must take steps to protect your interests.

1. A court hearing will be held before a judge within 72 hours of the time your child is taken into custody excluding Saturdays, Sundays, and holidays. You should call the court at (insert appropriate phone number here) for specific information about the date, time, and location of the court hearing.

2. You have the right to have a lawyer represent you at the hearing. Your right to representation continues after the shelter care hearing. You have the right to records the department intends to rely upon. A lawyer can look at the files in your case, talk to child protective services and other agencies, tell you about the law, help you understand your rights, and help you at hearings. If you cannot afford a lawyer, the court will appoint one to represent you. To get a court-appointed lawyer you must contact: (explain local procedure).

3. At the hearing, you have the right to speak on your own behalf, to introduce evidence, to examine witnesses, and to receive a decision based solely on the evidence presented to the judge.

4. If your hearing occurs before a court commissioner, you have the right to have the decision of the court commissioner reviewed by a superior court judge. To obtain that review, you must, within ten days after the entry of the decision of the court commissioner, file with the court a motion for revision of the decision, as provided in RCW 2.24.050.

You should be present at any shelter care hearing. If you do not come, the judge will not hear what you have to say.

You may call the Child Protective Services' caseworker for more information about your child. The caseworker's name and telephone number are: (insert name and telephone number).

5. You have a right to a case conference to develop a written service agreement following the shelter care hearing. The service agreement may not conflict with the court's order of shelter care. You may request that a multidisciplinary team, family group conference, or prognostic staffing be convened for your child's case. You may participate in these processes with your counsel present.

6. If your child is placed in the custody of the department of social and health services or other supervising agency, immediately following the shelter care hearing, the court will enter an order granting the department or other supervising agency the right to inspect and copy all health, medical, mental health, and education records of the child, directing health care providers to release such information without your further consent, and granting the department or supervising agency or its designee the authority and responsibility, where applicable, to:

- (1) Notify the child's school that the child is in out-of-home placement;
- (2) Enroll the child in school;
- (3) Request the school transfer records;
- (4) Request and authorize evaluation of special needs;
- (5) Attend parent or teacher conferences;
- (6) Excuse absences;
- (7) Grant permission for extracurricular activities;
- (8) Authorize medications which need to be administered during school hours and sign for medical needs that arise during school hours; and
- (9) Complete or update school emergency records.

7. If the court decides to place your child in the custody of the department of social and health services or other supervising agency, the department or agency will create a permanency plan for your child, including a primary placement goal and secondary placement goal. The department or agency also will recommend that the court order services for your child and for you, if needed. The department or agency is required to make reasonable efforts to provide you with services to address your parenting problems, and to provide you with visitation with your child according to court orders. Failure to promptly engage in services or to maintain contact with your child may lead to the filing of a petition to terminate your parental rights.

8. Primary and secondary permanency plans are intended to run at the same time so that your child will have a permanent home as quickly as possible. Absent good cause, and when appropriate, the department or other supervising agency must follow the wishes of a natural parent regarding placement of a child. You should tell your lawyer and the court where you wish your child placed immediately, including whether you want your child placed with you, with a relative, or with another suitable person. You also should tell your lawyer and the court what services you feel are necessary and your wishes regarding visitation with your child. Even if you want another parent or person to be the primary placement choice for your child, you should tell your lawyer, the department or other supervising agency, and the court if you want to be a secondary placement option, and you should comply with court orders for services and participate in visitation with your child. Early and consistent involvement in your child's case plan is important for the well-being of your child.

9. A dependency petition begins a judicial process, which, if the court finds your child dependent, could result in substantial restrictions including, the entry or modification of a parenting plan or residential schedule, nonparental custody order or decree, guardianship order, or permanent loss of your parental rights."

Upon receipt of the written notice, the parent, guardian, or legal custodian shall acknowledge such notice by signing a receipt prepared by child protective services. If the parent, guardian, or legal custodian does not sign the receipt, the reason for lack of a signature shall be written on the receipt. The receipt shall be made a part of the court's file in the dependency action.

If after making reasonable efforts to provide notification, child protective services is unable to determine the whereabouts of the parents, guardian, or legal custodian, the notice shall be delivered or sent to the last known address of the parent, guardian, or legal custodian.

(3) If child protective services is not required to give notice under this section, the juvenile court counselor assigned to the matter shall make all reasonable efforts to advise the parents, guardian, or legal custodian of the time and place of any shelter care hearing, request that they be present, and inform them of their basic rights as provided in RCW 13.34.090.

(4) Reasonable efforts to advise and to give notice, as required in this section, shall include, at a minimum, investigation of the whereabouts of the parent, guardian, or legal custodian. If such reasonable efforts are not successful, or the parent, guardian, or legal custodian does not appear at the shelter care hearing, the petitioner shall testify at the hearing or state in a declaration:

- (a) The efforts made to investigate the whereabouts of, and to advise, the parent, guardian, or (~~legal~~) custodian; and
- (b) Whether actual advice of rights was made, to whom it was made, and how it was made, including the substance of any oral communication or copies of written materials used.

Sec. 3. RCW 13.34.065 and 2008 c 267 s 2 are each amended to read as follows:

(1)(a) When a child is taken into custody, the court shall hold a shelter care hearing within seventy-two hours, excluding Saturdays, Sundays, and holidays. The primary purpose of the shelter care hearing is to determine whether the child can be immediately and safely returned home while the adjudication of the dependency is pending.

(b) Any parent, guardian, or legal custodian who for good cause is unable to attend the shelter care hearing may request that a subsequent shelter care hearing be scheduled. The request shall be made to the clerk of the court where the petition is filed prior to the initial shelter care hearing. Upon the request of the parent, the court shall schedule the hearing within seventy-two hours of the request, excluding Saturdays, Sundays, and holidays. The clerk shall notify all other parties of the hearing by any reasonable means.

(2)(a) The department of social and health services shall submit a recommendation to the court as to the further need for shelter care in all cases in which it is the petitioner. In all other cases, the recommendation shall be submitted by the juvenile court probation counselor.

(b) All parties have the right to present testimony to the court regarding the need or lack of need for shelter care.

(c) Hearsay evidence before the court regarding the need or lack of need for shelter care must be supported by sworn testimony, affidavit, or declaration of the person offering such evidence.

(3)(a) At the commencement of the hearing, the court shall notify the parent, guardian, or custodian of the following:

- (i) The parent, guardian, or custodian has the right to a shelter care hearing;
- (ii) The nature of the shelter care hearing, the rights of the parents, and the proceedings that will follow; and
- (iii) If the parent, guardian, or custodian is not represented by counsel, the right to be represented. If the parent, guardian, or custodian is indigent, the court shall appoint counsel as provided in RCW 13.34.090; and

(b) If a parent, guardian, or legal custodian desires to waive the shelter care hearing, the court shall determine, on the record and with the parties present, whether such waiver is knowing and voluntary. A parent may not waive his or her right to the shelter care hearing unless he or she appears in court and the court determines that the waiver is knowing and voluntary. Regardless of whether the court accepts the parental waiver of the shelter care hearing, the court must provide notice to the parents of their rights required under (a) of this subsection and make the finding required under subsection (4) of this section.

(4) At the shelter care hearing the court shall examine the need for shelter care and inquire into the status of the case. The paramount consideration for the court shall be the health, welfare, and safety of the child. At a minimum, the court shall inquire into the following:

(a) Whether the notice required under RCW 13.34.062 was given to all known parents, guardians, or legal custodians of the child. The court shall make an express finding as to whether the notice required under RCW 13.34.062 was given to the parent, guardian, or legal custodian. If actual notice was not given to the parent, guardian, or legal custodian and the whereabouts of such person is known or can be ascertained, the court shall order the supervising agency or the department of social and health services to make reasonable efforts to advise the parent, guardian, or legal custodian of the status of the case, including the date and time of any subsequent hearings, and their rights under RCW 13.34.090;

(b) Whether the child can be safely returned home while the adjudication of the dependency is pending;

(c) What efforts have been made to place the child with a relative;

(d) What services were provided to the family to prevent or eliminate the need for removal of the child from the child's home;

(e) Is the placement proposed by the agency the least disruptive and most family-like setting that meets the needs of the child;

(f) Whether it is in the best interest of the child to remain enrolled in the school, developmental program, or child care the child was in prior to placement and what efforts have been made to maintain the child in the school, program, or child care if it would be in the best interest of the child to remain in the same school, program, or child care;

(g) Appointment of a guardian ad litem or attorney;

(h) Whether the child is or may be an Indian child as defined in 25 U.S.C. Sec. 1903, whether the provisions of the Indian child welfare act apply, and whether there is compliance with the Indian child welfare act, including notice to the child's tribe;

(i) Whether, as provided in RCW 26.44.063, restraining orders, or orders expelling an allegedly abusive household member from the home of a nonabusive parent, guardian, or legal custodian, will allow the child to safely remain in the home;

(j) Whether any orders for examinations, evaluations, or immediate services are needed. The court may not order a parent to undergo examinations, evaluation, or services at the shelter care hearing unless the parent agrees to the examination, evaluation, or service;

(k) The terms and conditions for parental, sibling, and family visitation.

(5)(a) The court shall release a child alleged to be dependent to the care, custody, and control of the child's parent, guardian, or legal custodian unless the court finds there is reasonable cause to believe that:

(i) After consideration of the specific services that have been provided, reasonable efforts have been made to prevent or eliminate the need for removal of the child from the child's home and to make it possible for the child to return home; and

(ii)(A) The child has no parent, guardian, or legal custodian to provide supervision and care for such child; or

(B) The release of such child would present a serious threat of substantial harm to such child, notwithstanding an order entered pursuant to RCW 26.44.063; or

(C) The parent, guardian, or custodian to whom the child could be released has been charged with violating RCW 9A.40.060 or 9A.40.070.

(b) If the court does not release the child to his or her parent, guardian, or legal custodian, the court shall order placement with a relative, unless there is reasonable cause to believe the health, safety, or welfare of the child would be jeopardized or that the efforts to reunite the parent and child will be hindered. The relative must be willing and available to:

(i) Care for the child and be able to meet any special needs of the child;

(ii) Facilitate the child's visitation with siblings, if such visitation is part of the supervising agency's plan or is ordered by the court; and

(iii) Cooperate with the department in providing necessary background checks and home studies.

(c) If the child was not initially placed with a relative, and the court does not release the child to his or her parent, guardian, or legal custodian, the supervising agency shall make reasonable efforts to

locate a relative pursuant to RCW 13.34.060(1). In determining placement, the court shall weigh the child's length of stay and attachment to the current provider in determining what is in the best interest of the child.

(d) If a relative is not available, the court shall order continued shelter care or order placement with another suitable person, and the court shall set forth its reasons for the order. If the court orders placement of the child with a person not related to the child and not licensed to provide foster care, the placement is subject to all terms and conditions of this section that apply to relative placements.

(e) Any placement with a relative, or other person approved by the court pursuant to this section, shall be contingent upon cooperation with the agency case plan and compliance with court orders related to the care and supervision of the child including, but not limited to, court orders regarding parent-child contacts, sibling contacts, and any other conditions imposed by the court. Noncompliance with the case plan or court order is grounds for removal of the child from the home of the relative or other person, subject to review by the court.

(f) Uncertainty by a parent, guardian, legal custodian, relative, or other suitable person that the alleged abuser has in fact abused the child shall not, alone, be the basis upon which a child is removed from the care of a parent, guardian, or legal custodian under (a) of this subsection, nor shall it be a basis, alone, to preclude placement with a relative under (b) of this subsection or with another suitable person under (d) of this subsection.

(6)(a) A shelter care order issued pursuant to this section shall include the requirement for a case conference as provided in RCW 13.34.067. However, if the parent is not present at the shelter care hearing, or does not agree to the case conference, the court shall not include the requirement for the case conference in the shelter care order.

(b) If the court orders a case conference, the shelter care order shall include notice to all parties and establish the date, time, and location of the case conference which shall be no later than thirty days before the fact-finding hearing.

(c) The court may order another conference, case staffing, or hearing as an alternative to the case conference required under RCW 13.34.067 so long as the conference, case staffing, or hearing ordered by the court meets all requirements under RCW 13.34.067, including the requirement of a written agreement specifying the services to be provided to the parent.

(7)(a) A shelter care order issued pursuant to this section may be amended at any time with notice and hearing thereon. The shelter care decision of placement shall be modified only upon a showing of change in circumstances. No child may be placed in shelter care for longer than thirty days without an order, signed by the judge, authorizing continued shelter care.

(b)(i) An order releasing the child on any conditions specified in this section may at any time be amended, with notice and hearing thereon, so as to return the child to shelter care for failure of the parties to conform to the conditions originally imposed.

(ii) The court shall consider whether nonconformance with any conditions resulted from circumstances beyond the control of the parent, guardian, or legal custodian and give weight to that fact before ordering return of the child to shelter care.

(8)(a) If a child is returned home from shelter care a second time in the case, or if the supervisor of the caseworker deems it necessary, the multidisciplinary team may be reconvened.

(b) If a child is returned home from shelter care a second time in the case a law enforcement officer must be present and file a report to the department.

Sec. 4. RCW 13.34.145 and 2008 c 152 s 3 are each amended to read as follows:

(1) The purpose of a permanency planning hearing is to review the permanency plan for the child, inquire into the welfare of the child and progress of the case, and reach decisions regarding the permanent placement of the child.

(a) A permanency planning hearing shall be held in all cases where the child has remained in out-of-home care for at least nine months and an adoption decree, guardianship order, or permanent custody order has not previously been entered. The hearing shall

take place no later than twelve months following commencement of the current placement episode.

(b) Whenever a child is removed from the home of a dependency guardian or long-term relative or foster care provider, and the child is not returned to the home of the parent, guardian, or legal custodian but is placed in out-of-home care, a permanency planning hearing shall take place no later than twelve months, as provided in this section, following the date of removal unless, prior to the hearing, the child returns to the home of the dependency guardian or long-term care provider, the child is placed in the home of the parent, guardian, or legal custodian, an adoption decree, guardianship order, or a permanent custody order is entered, or the dependency is dismissed. Every effort shall be made to provide stability in long-term placement, and to avoid disruption of placement, unless the child is being returned home or it is in the best interest of the child.

(c) Permanency planning goals should be achieved at the earliest possible date, preferably before the child has been in out-of-home care for fifteen months. In cases where parental rights have been terminated, the child is legally free for adoption, and adoption has been identified as the primary permanency planning goal, it shall be a goal to complete the adoption within six months following entry of the termination order.

(2) No later than ten working days prior to the permanency planning hearing, the agency having custody of the child shall submit a written permanency plan to the court and shall mail a copy of the plan to all parties and their legal counsel, if any.

(3) At the permanency planning hearing, the court shall conduct the following inquiry:

(a) If a goal of long-term foster or relative care has been achieved prior to the permanency planning hearing, the court shall review the child's status to determine whether the placement and the plan for the child's care remain appropriate.

(b) In cases where the primary permanency planning goal has not been achieved, the court shall inquire regarding the reasons why the primary goal has not been achieved and determine what needs to be done to make it possible to achieve the primary goal. The court shall review the permanency plan prepared by the agency and make explicit findings regarding each of the following:

(i) The continuing necessity for, and the safety and appropriateness of, the placement;

(ii) The extent of compliance with the permanency plan by the agency and any other service providers, the child's parents, the child, and the child's guardian, if any;

(iii) The extent of any efforts to involve appropriate service providers in addition to agency staff in planning to meet the special needs of the child and the child's parents;

(iv) The progress toward eliminating the causes for the child's placement outside of his or her home and toward returning the child safely to his or her home or obtaining a permanent placement for the child;

(v) The date by which it is likely that the child will be returned to his or her home or placed for adoption, with a guardian or in some other alternative permanent placement; and

(vi) If the child has been placed outside of his or her home for fifteen of the most recent twenty-two months, not including any period during which the child was a runaway from the out-of-home placement or the first six months of any period during which the child was returned to his or her home for a trial home visit, the appropriateness of the permanency plan, whether reasonable efforts were made by the agency to achieve the goal of the permanency plan, and the circumstances which prevent the child from any of the following:

(A) Being returned safely to his or her home;

(B) Having a petition for the involuntary termination of parental rights filed on behalf of the child;

(C) Being placed for adoption;

(D) Being placed with a guardian;

(E) Being placed in the home of a fit and willing relative of the child; or

(F) Being placed in some other alternative permanent placement, including independent living or long-term foster care.

At this hearing, the court shall order the department to file a petition seeking termination of parental rights if the child has been in out-of-home care for fifteen of the last twenty-two months since the date the dependency petition was filed unless the court makes a good cause exception as to why the filing of a termination of parental rights petition is not appropriate. Any good cause finding shall be reviewed at all subsequent hearings pertaining to the child. For purposes of this section, "good cause exception" includes but is not limited to the following: The child is being cared for by a relative; the department has not provided to the child's family such services as the court and the department have deemed necessary for the child's safe return home; or the department has documented in the case plan a compelling reason for determining that filing a petition to terminate parental rights would not be in the child's best interests.

(c)(i) If the permanency plan identifies independent living as a goal, the court shall make a finding that the provision of services to assist the child in making a transition from foster care to independent living will allow the child to manage his or her financial, personal, social, educational, and nonfinancial affairs prior to approving independent living as a permanency plan of care.

(ii) The permanency plan shall also specifically identify the services that will be provided to assist the child to make a successful transition from foster care to independent living.

(iii) The department shall not discharge a child to an independent living situation before the child is eighteen years of age unless the child becomes emancipated pursuant to chapter 13.64 RCW.

(d) If the child has resided in the home of a foster parent or relative for more than six months prior to the permanency planning hearing, the court shall also enter a finding regarding whether the foster parent or relative was informed of the hearing as required in RCW 74.13.280, 13.34.215(5), and 13.34.096.

(4) In all cases, at the permanency planning hearing, the court shall:

(a)(i) Order the permanency plan prepared by the agency to be implemented; or

(ii) Modify the permanency plan, and order implementation of the modified plan; and

(b)(i) Order the child returned home only if the court finds that a reason for removal as set forth in RCW 13.34.130 no longer exists; or

(ii) Order the child to remain in out-of-home care for a limited specified time period while efforts are made to implement the permanency plan.

(5) Following the first permanency planning hearing, the court shall hold a further permanency planning hearing in accordance with this section at least once every twelve months until a permanency planning goal is achieved or the dependency is dismissed, whichever occurs first.

(6) Prior to the second permanency planning hearing, the agency that has custody of the child shall consider whether to file a petition for termination of parental rights.

(7) If the court orders the child returned home, casework supervision shall continue for at least six months, at which time a review hearing shall be held pursuant to RCW 13.34.138, and the court shall determine the need for continued intervention.

(8) The juvenile court may hear a petition for permanent legal custody when: (a) The court has ordered implementation of a permanency plan that includes permanent legal custody; and (b) the party pursuing the permanent legal custody is the party identified in the permanency plan as the prospective legal custodian. During the pendency of such proceeding, the court shall conduct review hearings and further permanency planning hearings as provided in this chapter. At the conclusion of the legal guardianship or permanent legal custody proceeding, a juvenile court hearing shall be held for the purpose of determining whether dependency should be dismissed. If a guardianship or permanent custody order has been entered, the dependency shall be dismissed.

(9) Continued juvenile court jurisdiction under this chapter shall not be a barrier to the entry of an order establishing a legal guardianship or permanent legal custody when the requirements of subsection (8) of this section are met.

(10) Nothing in this chapter may be construed to limit the ability of the agency that has custody of the child to file a petition for termination of parental rights or a guardianship petition at any time following the establishment of dependency. Upon the filing of such a petition, a fact-finding hearing shall be scheduled and held in accordance with this chapter unless the agency requests dismissal of the petition prior to the hearing or unless the parties enter an agreed order terminating parental rights, establishing guardianship, or otherwise resolving the matter.

(11) The approval of a permanency plan that does not contemplate return of the child to the parent does not relieve the supervising agency of its obligation to provide reasonable services, under this chapter, intended to effectuate the return of the child to the parent, including but not limited to, visitation rights. The court shall consider the child's relationships with siblings in accordance with RCW 13.34.130.

(12) Nothing in this chapter may be construed to limit the procedural due process rights of any party in a termination or guardianship proceeding filed under this chapter.

Sec. 5. RCW 13.34.180 and 2001 c 332 s 4 are each amended to read as follows:

(1) A petition seeking termination of a parent and child relationship may be filed in juvenile court by any party to the dependency proceedings concerning that child. Such petition shall conform to the requirements of RCW 13.34.040, shall be served upon the parties as provided in RCW 13.34.070(8), and shall allege all of the following unless subsection (2) or (3) of this section applies:

(a) That the child has been found to be a dependent child;

(b) That the court has entered a dispositional order pursuant to RCW 13.34.130;

(c) That the child has been removed or will, at the time of the hearing, have been removed from the custody of the parent for a period of at least six months pursuant to a finding of dependency;

(d) That the services ordered under RCW 13.34.136 have been expressly and understandably offered or provided and all necessary services, reasonably available, capable of correcting the parental deficiencies within the foreseeable future have been expressly and understandably offered or provided;

(e) That there is little likelihood that conditions will be remedied so that the child can be returned to the parent in the near future. A parent's failure to substantially improve parental deficiencies within twelve months following entry of the dispositional order shall give rise to a rebuttable presumption that there is little likelihood that conditions will be remedied so that the child can be returned to the parent in the near future. The presumption shall not arise unless the petitioner makes a showing that all necessary services reasonably capable of correcting the parental deficiencies within the foreseeable future have been clearly offered or provided. In determining whether the conditions will be remedied the court may consider, but is not limited to, the following factors:

(i) Use of intoxicating or controlled substances so as to render the parent incapable of providing proper care for the child for extended periods of time or for periods of time that present a risk of imminent harm to the child, and documented unwillingness of the parent to receive and complete treatment or documented multiple failed treatment attempts; ~~(or)~~

(ii) Psychological incapacity or mental deficiency of the parent that is so severe and chronic as to render the parent incapable of providing proper care for the child for extended periods of time or for periods of time that present a risk of imminent harm to the child, and documented unwillingness of the parent to receive and complete treatment or documentation that there is no treatment that can render the parent capable of providing proper care for the child in the near future; or

(iii) Failure of the parent to have contact with the child for an extended period of time after the filing of the dependency petition if the parent was provided an opportunity to have a relationship with the child by the department or the court and received documented notice of the potential consequences of this failure, except that the actual inability of a parent to have visitation with the child including, but not limited to, mitigating circumstances such as a parent's incarceration or service in the military does not in and of itself constitute failure to have contact with the child; and

(f) That continuation of the parent and child relationship clearly diminishes the child's prospects for early integration into a stable and permanent home.

(2) In lieu of the allegations in subsection (1) of this section, the petition may allege that the child was found under such circumstances that the whereabouts of the child's parent are unknown and no person has acknowledged paternity or maternity and requested custody of the child within two months after the child was found.

(3) In lieu of the allegations in subsection (1)(b) through (f) of this section, the petition may allege that the parent has been convicted of:

(a) Murder in the first degree, murder in the second degree, or homicide by abuse as defined in chapter 9A.32 RCW against another child of the parent;

(b) Manslaughter in the first degree or manslaughter in the second degree, as defined in chapter 9A.32 RCW against another child of the parent;

(c) Attempting, conspiring, or soliciting another to commit one or more of the crimes listed in (a) or (b) of this subsection; or

(d) Assault in the first or second degree, as defined in chapter 9A.36 RCW, against the surviving child or another child of the parent.

(4) Notice of rights shall be served upon the parent, guardian, or legal custodian with the petition and shall be in substantially the following form:

"NOTICE

MESSAGE FROM THE SENATE

April 25, 2009

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 2346 with the following amendment:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 13.32A.130 and 2000 c 162 s 13 and 2000 c 123 s 15 are each reenacted and amended to read as follows:

(1) A child admitted to a secure facility located in a juvenile detention center shall remain in the facility for at least twenty-four hours after admission but for not more than five consecutive days. ~~((If the child admitted under this section is transferred between secure and semi-secure facilities, the aggregate length of time spent in all such centers or facilities may not exceed five consecutive days per admission.))~~ A child admitted to a secure facility not located in a juvenile detention center or a semi-secure facility may remain for not more than fifteen consecutive days. If a child is transferred between a secure and semi-secure facility, the aggregate length of time a child may remain in both facilities shall not exceed fifteen consecutive days per admission, and in no event may a child's stay in a secure facility located in a juvenile detention center exceed five days per admission.

(2)(a)(i) The facility administrator shall determine within twenty-four hours after a child's admission to a secure facility whether the child is likely to remain in a semi-secure facility and may transfer the child to a semi-secure facility or release the child to the department. The determination shall be based on: (A) The need for continued assessment, protection, and treatment of the child in a secure facility; and (B) the likelihood the child would remain at a semi-secure facility until his or her parents can take the child home or a petition can be filed under this title.

(ii) In making the determination the administrator shall consider the following information if known: (A) The child's age and maturity; (B) the child's condition upon arrival at the center; (C) the circumstances that led to the child's being taken to the center; (D) whether the child's behavior endangers the health, safety, or welfare of the child or any other person; (E) the child's history of running away; and (F) the child's willingness to cooperate in the assessment.

(b) If the administrator of a secure facility determines the child is unlikely to remain in a semi-secure facility, the administrator shall keep the child in the secure facility pursuant to this chapter and in order to provide for space for the child may transfer another child who has been in the facility for at least seventy-two hours to a semi-secure facility. The administrator shall only make a transfer of a

child after determining that the child who may be transferred is likely to remain at the semi-secure facility.

(c) A crisis residential center administrator is authorized to transfer a child to a crisis residential center in the area where the child's parents reside or where the child's lawfully prescribed residence is located.

(d) An administrator may transfer a child from a semi-secure facility to a secure facility whenever he or she reasonably believes that the child is likely to leave the semi-secure facility and not return and after full consideration of all factors in (a)(i) and (ii) of this subsection.

(3) If no parent is available or willing to remove the child during the first seventy-two hours following admission, the department shall consider the filing of a petition under RCW 13.32A.140.

(4) Notwithstanding the provisions of subsection (1) of this section, the parents may remove the child at any time (~~during the five-day period~~) unless the staff of the crisis residential center has reasonable cause to believe that the child is absent from the home because he or she is abused or neglected or if allegations of abuse or neglect have been made against the parents. The department or any agency legally charged with the supervision of a child may remove a child from a crisis residential center at any time after the first twenty-four-hour period after admission has elapsed and only after full consideration by all parties of the factors in subsection (2)(a) of this section.

(5) Crisis residential center staff shall make reasonable efforts to protect the child and achieve a reconciliation of the family. If a reconciliation and voluntary return of the child has not been achieved within forty-eight hours from the time of admission, and if the administrator of the center does not consider it likely that reconciliation will be achieved within ~~((the five-day period))~~ five days of the child's admission to the center, then the administrator shall inform the parent and child of: (a) The availability of counseling services; (b) the right to file a child in need of services petition for an out-of-home placement, the right of a parent to file an at-risk youth petition, and the right of the parent and child to obtain assistance in filing the petition; (c) the right to request the facility administrator or his or her designee to form a multidisciplinary team; (d) the right to request a review of any out-of-home placement; (e) the right to request a mental health or chemical dependency evaluation by a county-designated professional or a private treatment facility; and (f) the right to request treatment in a program to address the child's at-risk behavior under RCW 13.32A.197.

(6) At no time shall information regarding a parent's or child's rights be withheld. The department shall develop and distribute to all law enforcement agencies and to each crisis residential center administrator a written statement delineating the services and rights. The administrator of the facility or his or her designee shall provide every resident and parent with a copy of the statement.

(7) A crisis residential center and any person employed at the center acting in good faith in carrying out the provisions of this section are immune from criminal or civil liability for such actions.

Sec. 2. RCW 74.13.0321 and 1995 c 312 s 61 are each amended to read as follows:

No contract may provide reimbursement or compensation to:

(1) ~~A ((crisis residential center's)) secure facility located in a juvenile detention center for any service delivered or provided to a resident child after five consecutive days of residence; or~~

(2) A secure facility not located in a juvenile detention center or a semi-secure crisis residential center facility for any service delivered or provided to a resident child after fifteen consecutive days of residence.

Sec. 3. RCW 74.13.033 and 2000 c 162 s 16 are each amended to read as follows:

(1) If a resident of a crisis residential center becomes by his or her behavior disruptive to the facility's program, such resident may be immediately removed to a separate area within the facility and counseled on an individual basis until such time as the child regains his or her composure. The department may set rules and regulations establishing additional procedures for dealing with severely disruptive children on the premises.

(2) When the juvenile resides in this facility, all services deemed necessary to the juvenile's reentry to normal family life shall be made

available to the juvenile as required by chapter 13.32A RCW. In assessing the child and providing these services, the facility staff shall:

(a) Interview the juvenile as soon as possible;

(b) Contact the juvenile's parents and arrange for a counseling interview with the juvenile and his or her parents as soon as possible;

(c) Conduct counseling interviews with the juvenile and his or her parents, to the end that resolution of the child/parent conflict is attained and the child is returned home as soon as possible;

(d) Provide additional crisis counseling as needed, to the end that placement of the child in the crisis residential center will be required for the shortest time possible, but not to exceed ~~((five))~~ fifteen consecutive days; and

(e) Convene, when appropriate, a multidisciplinary team.

(3) Based on the assessments done under subsection (2) of this section the ~~((facility))~~ center staff may refer any child who, as the result of a mental or emotional disorder, or intoxication by alcohol or other drugs, is suicidal, seriously assaultive, or seriously destructive toward others, or otherwise similarly evidences an immediate need for emergency medical evaluation and possible care, for evaluation pursuant to chapter 71.34 RCW, to a mental health professional pursuant to chapter 71.05 RCW, or to a chemical dependency specialist pursuant to chapter 70.96A RCW whenever such action is deemed appropriate and consistent with law.

(4) A juvenile taking unauthorized leave from a facility shall be apprehended and returned to it by law enforcement officers or other persons designated as having this authority as provided in RCW 13.32A.050. If returned to the facility after having taken unauthorized leave for a period of more than twenty-four hours a juvenile shall be supervised by such a facility for a period, pursuant to this chapter, which, unless where otherwise provided, may not exceed ~~((five))~~ fifteen consecutive days ~~((on the premises))~~. Costs of housing juveniles admitted to crisis residential centers shall be assumed by the department for a period not to exceed ~~((five))~~ fifteen consecutive days.

Sec. 4. RCW 74.13.034 and 2000 c 162 s 17 are each amended to read as follows:

(1) A child taken into custody and taken to a crisis residential center established pursuant to RCW 74.13.032 may, if the center is unable to provide appropriate treatment, supervision, and structure to the child, be taken at department expense to another crisis residential center, the nearest regional secure crisis residential center, or a secure facility with which it is collocated under RCW 74.13.032. Placement in both locations shall not exceed ~~((five))~~ fifteen consecutive days from the point of intake as provided in RCW 13.32A.130.

(2) A child taken into custody and taken to a crisis residential center established by this chapter may be placed physically by the department or the department's designee and, at departmental expense and approval, in a secure juvenile detention facility operated by the county in which the center is located for a maximum of forty-eight hours, including Saturdays, Sundays, and holidays, if the child has taken unauthorized leave from the center and the person in charge of the center determines that the center cannot provide supervision and structure adequate to ensure that the child will not again take unauthorized leave. Juveniles placed in such a facility pursuant to this section may not, to the extent possible, come in contact with alleged or convicted juvenile or adult offenders.

(3) Any child placed in secure detention pursuant to this section shall, during the period of confinement, be provided with appropriate treatment by the department or the department's designee, which shall include the services defined in RCW 74.13.033(2). If the child placed in secure detention is not returned home or if an alternative living arrangement agreeable to the parent and the child is not made within twenty-four hours after the child's admission, the child shall be taken at the department's expense to a crisis residential center. Placement in the crisis residential center or centers plus placement in juvenile detention shall not exceed five consecutive days from the point of intake as provided in RCW 13.32A.130.

(4) Juvenile detention facilities used pursuant to this section shall first be certified by the department to ensure that juveniles placed in the facility pursuant to this section are provided with living conditions suitable to the well-being of the child. Where space is available, juvenile courts, when certified by the department to do so,

shall provide secure placement for juveniles pursuant to this section, at department expense.

NEW SECTION. Sec. 5. A new section is added to chapter 13.32A RCW to read as follows:

The department may take a runaway youth to a secure facility after attempting to notify the parent of the child's whereabouts. The department may not take a child to a secure facility if the department has reasonable cause to believe that the reason for the child's runaway status is the result of abuse or neglect."

On page 1, line 1 of the title, after "centers;" strike the remainder of the title and insert "amending RCW 74.13.0321, 74.13.033, and 74.13.034; reenacting and amending RCW 13.32A.130; and adding a new section to chapter 13.32A RCW."

Mr. Speaker:

Thomas Hoemann, Secretary

HOUSE AMENDMENT TO SENATE BILL

There being no objection, the House receded from its amendment to SUBSTITUTE SENATE BILL NO. 5510. Under suspension of the rules, the bill was returned to second reading for the purpose of amendment.

SECOND READING

Regarding notification in dependency matters.

Representative Kagi moved the adoption of amendment (888):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 13.34 RCW to read as follows:

(1) After entry of a dispositional order pursuant to RCW 13.34.130 ordering placement of a child in out-of-home care, the department shall continue to encourage the parent, guardian, or custodian of the child to engage in services and maintain contact with the child, which shall be accomplished by attaching a standard notice to the services and safety plan to be provided in advance of hearings conducted pursuant to RCW 13.34.138.

(2) The notice shall be photocopied on contrasting paper to distinguish it from the services and safety plan to which it is attached, and shall be in substantially the following form:

"NOTICE

If you have not been maintaining consistent contact with your child in out-of-home care, your ability to reunify with your child may be jeopardized. If this is your situation, you need to be aware that you have important legal rights and must take steps to protect your interests.

1. The department of social and health services (or other supervising agency) and the court have created a permanency plan for your child, including a primary placement plan and a secondary placement plan, and recommending services needed before your child can be placed in the primary or secondary placement. If you want the court to order that your child be reunified with you, you should notify your lawyer and the department, and you should carefully comply with court orders for services and participate regularly in visitation with your child. Failure to promptly engage in services or to maintain contact with your child may lead to the filing of a petition to terminate your rights as a parent.

2. Primary and secondary permanency plans are intended to run at the same time so that your child will have a permanent home as quickly as possible. Even if you want another parent or person to be the primary placement choice for your child, you should tell your lawyer, the department, and the court if you want to be the secondary placement option, and you should comply with any court orders for services and participate in visitation with your child. Early and consistent involvement in your child's case plan is important for the well-being of your child.

3. Dependency review hearings, and all other dependency case hearings, are legal proceedings with potentially serious consequences. Failure to participate, respond, or comply with court orders may lead to the loss of your parental rights."

"Sec. 1. RCW 41.45.010 and 2005 c 370 s 4 are each amended to read as follows:

It is the intent of the legislature to provide a dependable and systematic process for funding the benefits provided to members and retirees of the public employees' retirement system, chapter 41.40 RCW; the teachers' retirement system, chapter 41.32 RCW; the law enforcement officers' and firefighters' retirement systems, chapter 41.26 RCW; the school employees' retirement system, chapter 41.35 RCW; the public safety employees' retirement system, chapter 41.37 RCW; and the Washington state patrol retirement system, chapter 43.43 RCW.

((The legislature finds that the funding status of the state retirement systems has improved dramatically since 1989. Because of the big reduction in unfunded pension liabilities, it is now prudent to adjust the long-term economic assumptions that are used in the actuarial studies conducted by the state actuary. The legislature finds that it is reasonable to increase the salary growth assumption in light of Initiative Measure No. 732, to increase the investment return assumption in light of the asset allocation policies and historical returns of the state investment board, and to reestablish June 30, 2024, as the target date to achieve full funding of all liabilities in the public employees' retirement system plan 1, the teachers' retirement system plan 1, and the law enforcement officers' and firefighters' retirement system plan 1.))

The funding process established by this chapter is intended to achieve the following goals:

(1) To fully fund the public employees' retirement system plans 2 and 3, the teachers' retirement system plans 2 and 3, the school employees' retirement system plans 2 and 3, the public safety employees' retirement system plan 2, and the law enforcement officers' and firefighters' retirement system plan 2 as provided by law;

(2) To fully amortize the total costs of the public employees' retirement system plan 1, the teachers' retirement system plan 1, and the law enforcement officers' and firefighters' retirement system plan 1, not later than June 30, ~~((2024))~~2020;

(3) To establish long-term employer contribution rates which will remain a relatively predictable proportion of the future state budgets; and

(4) To fund, to the extent feasible, benefit increases for plan 1 members and all benefits for plan 2 and 3 members over the working lives of those members so that the cost of those benefits are paid by the taxpayers who receive the benefit of those members' service."

Representatives Alexander, Ericksen, Condotta and Orcutt spoke in favor of the adoption of amendment (945).

SPEAKER'S RULING

Mr. Speaker (Representative Morris presiding): "Representative Orcutt, the Speaker would like you to come back to the amendment at hand. There was a reference to possible federal funding. I think that it is allowable and relevant to talk about whether we should or should not accept that federal funding but you need to link it back to the indefinite postponement of this program underneath."

Representatives Orcutt (again), Bailey, Shea and Hinkle spoke in favor of the adoption of the amendment.

POINT OF ORDER

Representative Hudgins: "I would like to ask if you would interpret the gentleman's remarks as being to the indefinite or later date that the amendment before us is addressing or not?"

SPEAKER'S RULING

Mr. Speaker (Representative Morris presiding): "Thank you, Representative Hudgins. Representative Hinkle, as I previously ruled with Representative Orcutt, I think comments are relevant to the bill about whether we should or should not take federal funding because it was brought up by the good gentleman from the 29th District. I want to clarify again the slippery slope I am trying to avoid here which is when we start to get off subject about the federal deficit that it opens up the floor debate to what may have caused that deficit, how that occurred and so forth. I would rather not go there in this debate. So I ask that we keep to the amendment here at hand which is whether or not we should delay this program indefinitely and whether federal funds should be used or not. It would be much appreciated by the Speaker. Please continue."

Representative Hinkle (again) spoke in favor of the adoption of amendment (945).

Representatives Dickerson and Conway spoke against the adoption of amendment (945).

An electronic roll call was requested.

Amendment (945) was not adopted.

With the consent of the House, amendment (944) was withdrawn.

There being no objection, the rules were suspended, the second reading considered the third and the bill, as amended by the House, was placed on final passage.

Representatives Dickerson, Conway, Flannigan, Ericks and Takko spoke in favor of the passage of the bill.

Representatives Condotta, Herrera, Orcutt, Ross, Short, Hinkle and Angel spoke against the passage of the bill.

POINT OF ORDER

Representative Dickerson: "Mr. Speaker, the underlying bill is the suspension of family leave for the birth of babies and the adoption of new babies. It has nothing to do with other kinds of family leave. The gentle lady's remarks are not on the bill."

SPEAKER'S RULING

Mr. Speaker (Representative Morris presiding): "Thank you. Your point is well taken. If we can confine our remarks to the actual policy limitations to implement them or not implement them in the question before us, it would be much appreciated. Please continue."

Representative Angel (again) spoke against the passage of the bill.

The Speaker (Representative Morris presiding) stated the question before the House to be the final passage of Engrossed Senate Bill No. 6158.

MESSAGE FROM THE SENATE

April 26, 2009

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1062 with the following amendment:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 82.16.0421 and 2004 c 240 s 1 are each amended to read as follows:

(1) For the purposes of this section:

(a) "Chlor-alkali electrolytic processing business" means a person who is engaged in a business that uses more than ten average megawatts of electricity per month in a chlor-alkali electrolytic process to split the electrochemical bonds of sodium chloride and water to make chlorine and sodium hydroxide. A "chlor-alkali electrolytic processing business" does not include direct service industrial customers or their subsidiaries that contract for the purchase of power from the Bonneville power administration as of June 10, 2004.

(b) "Sodium chlorate electrolytic processing business" means a person who is engaged in a business that uses more than ten average megawatts of electricity per month in a sodium chlorate electrolytic process to split the electrochemical bonds of sodium chloride and water to make sodium chlorate and hydrogen. A "sodium chlorate electrolytic processing business" does not include direct service industrial customers or their subsidiaries that contract for the purchase of power from the Bonneville power administration as of June 10, 2004.

(2) Effective July 1, 2004, the tax levied under this chapter does not apply to sales of electricity made by a light and power business to a chlor-alkali electrolytic processing business or a sodium chlorate electrolytic processing business for the electrolytic process if the

contract for sale of electricity to the business contains the following terms:

(a) The electricity to be used in the electrolytic process is separately metered from the electricity used for general operations of the business;

(b) The price charged for the electricity used in the electrolytic process will be reduced by an amount equal to the tax exemption available to the light and power business under this section; and

(c) Disallowance of all or part of the exemption under this section is a breach of contract and the damages to be paid by the chlor-alkali electrolytic processing business or the sodium chlorate electrolytic processing business are the amount of the tax exemption disallowed.

(3) The exemption provided for in this section does not apply to amounts received from the remarketing or resale of electricity originally obtained by contract for the electrolytic process.

(4) In order to claim an exemption under this section, the chlor-alkali electrolytic processing business or the sodium chlorate electrolytic processing business must provide the light and power business with an exemption certificate in a form and manner prescribed by the department.

(5)(a) This section does not apply to sales of electricity made after December 31, ~~((2010))~~ 2018.

(b) This section expires June 30, ~~((2011))~~ 2019.

Sec. 2. RCW 82.32.560 and 2004 c 240 s 2 are each amended to read as follows:

(1) For the purposes of this section, "electrolytic processing business tax exemption" means the exemption and preferential tax rate under RCW 82.16.0421.

(2) The legislature finds that accountability and effectiveness are important aspects of setting tax policy. In order to make policy choices regarding the best use of limited state resources, the legislature needs information to evaluate whether the stated goals of legislation were achieved.

(3) The goals of the electrolytic processing business tax exemption are:

(a) To retain family wage jobs by enabling electrolytic processing businesses to maintain production of chlor-alkali and sodium chlorate at a level that will preserve at least seventy-five percent of the jobs that were on the payroll effective January 1, 2004; and

(b) To allow the electrolytic processing industries to continue production in this state ~~((through 2011))~~ so that the industries will remain competitive and be positioned to preserve and create new jobs ~~((when the anticipated reduction of energy costs occur)).~~

(4)(a) A person who receives the benefit of an electrolytic processing business tax exemption shall make an annual report to the department detailing employment, wages, and employer-provided health and retirement benefits per job at the manufacturing site. The report is due by March 31st following any year in which a tax exemption is claimed or used. The report shall not include names of employees. The report shall detail employment by the total number of full-time, part-time, and temporary positions. The report shall indicate the quantity of product produced at the plant during the time period covered by the report. The first report filed under this subsection shall include employment, wage, and benefit information for the twelve-month period immediately before first use of a tax exemption. Employment reports shall include data for actual levels of employment and identification of the number of jobs affected by any employment reductions that have been publicly announced at the time of the report. Information in a report under this section is not subject to the confidentiality provisions of RCW 82.32.330 and may be disclosed to the public upon request.

(b) If a person fails to submit an annual report under (a) of this subsection by the due date of the report, the department shall declare the amount of taxes exempted for that year to be immediately due and payable. Public utility taxes payable under this subsection are subject to interest but not penalties, as provided under this chapter. This information is not subject to the confidentiality provisions of RCW 82.32.330 and may be disclosed to the public upon request.

(5) ~~((By December 1, 2007, and by December 1, 2010, the fiscal committees of the house of representatives and the senate, in consultation with the department, shall report to the legislature on the~~

effectiveness of the tax incentive under RCW 82.16.0421. The report shall measure)) Pursuant to chapter 43.136 RCW, the citizen commission for performance measurement of tax preferences must schedule the electrolytic processing business tax exemption under RCW 82.16.0421 for a tax preference review by the joint legislative audit and review committee. In addition to any of the factors in RCW 43.136.055(1), the committee must also study and report on the effect of the incentive on job retention for Washington residents, and other factors as the committee(s) selects. The report shall also discuss expected trends or changes to electricity prices as they affect the industries that benefit from the incentives.

NEW SECTION. Sec. 3. If chapter . . . , Laws of 2009 (Substitute House Bill No. 1597 (H-2475/09)) is enacted, section 2, chapter . . . , Laws of 2009 (section 2 of this act) is null and void."

MESSAGE FROM THE SENATE

April 26, 2009

Mr. Speaker:

The Senate receded from its amendment to ENGROSSED SUBSTITUTE HOUSE BILL NO. 2125. Under suspension of the rules, the bill was returned to second reading for purpose of

amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 43.167.010 and 2007 c 501 s 3 are each amended to read as follows:

(1) The residents, property owners, employees, or business owners of an impacted community may propose formation of a community preservation and development authority. The proposal to form a community preservation and development authority must be presented in writing to the appropriate legislative committee in both the house of representatives and the senate. The proposal must contain proposed general geographic boundaries that will be used to define the community for the purposes of the authority. Proposals presented after January 1, 2008, must identify in its proposal one or more stable revenue sources that (a) have a nexus with the multiple publicly funded facilities that have adversely impacted the community, and (b) can be used to support future operating or capital projects that will be identified in the strategic plan required under RCW 43.167.030.

(2) Formation of the community preservation and development authority is subject to legislative authorization by statute. The legislature must find that (a) the area within the proposal's geographic boundaries meets the definition of "impacted community" contained in section 2(4) of this act and (b) those persons that have brought forth the proposal are members of the community as defined in section 2(1) of this act and, if the authority were approved, would meet the definition of constituency contained in section 2(3) of this act. For proposals brought after January 1, 2008, the legislature must also find that the community has identified one or more stable revenue sources as required in subsection (1) of this section. The legislature may then act to authorize the establishment of the community preservation and development authority in law.

(3) The affairs of a community preservation and development authority shall be managed by a board of directors, consisting of the following members:

(a) Two members who own, operate, or represent businesses within the community;

(b) Two members who reside in the community;

(c) Two members who are involved in providing nonprofit community or social services within the community;

~~((f))~~ (e) Two members with knowledge of the community's culture and history; ~~and~~

~~((g))~~ (f) One member who is involved in a nonprofit or public planning organization that directly serves the impacted community; and

(a) Board members elected to positions one through five shall serve two-year terms, and if reelected, may serve no more than one additional two-year term.

(b) Board members initially elected to positions six through ~~((nine))~~ thirteen shall serve a three-year term only.

(c) Board members elected to positions six through ~~((nine))~~ thirteen after the initial three-year term shall serve two-year terms, and if reelected, may serve no more than one additional two-year term.

(5) With respect to an authority's initial board of directors: The state legislative delegation and those proposing formation of the authority shall jointly establish a committee to develop a list of candidates to stand for election once the authority has received legislative approval as established in subsection (2) of this section. For the purpose of developing the list and identifying those persons who meet the criteria in subsection (3)(a) through (e) of this section, community shall mean the proposed geographic boundaries as set out in the proposal. The board of directors shall be elected by the

constituency during a meeting convened for that purpose by the state legislative delegation.

(6) With respect to subsequent elections of an authority's board of directors: A list of candidates shall be developed by the authority's existing board of directors and the election shall be held during the annual local town hall meeting as required in RCW 43.167.030.

Sec. 2. RCW 43.167.020 and 2007 c 501 s 4 are each amended to read as follows:

(1) A community preservation and development authority shall have the power to:

(a) Accept gifts, grants, loans, or other aid from public or private entities; ~~(and~~

~~(b) Exercise such additional powers as may be authorized by law))~~

(b) Employ and appoint such agents, attorneys, officers, and employees as may be necessary to implement the purposes and duties of an authority;

(c) Contract and enter into partnerships with individuals, associations, corporations, and local, state, and federal governments;

(e) Hold in trust, improve, and develop land;

(f) Invest, deposit, and reinvest its funds;

(g) Incur debt in furtherance of its mission; and

(h) Lend its funds, property, credit, or services for corporate purposes.

(2) A community preservation and development authority ~~(shall have))~~ has no power of eminent domain nor any power to levy taxes or special assessments.

(3) A community preservation and development authority that accepts public funds under subsection (1)(a) of this section:

(b) May not use the funds to support or oppose a candidate, ballot proposition, political party, or political committee.

Thomas Hoemann, Secretary

CONFERENCE COMMITTEE REPORT

April 25, 2009

Second Substitute Senate Bill No. 5433

Includes "New Item": YES

Mr. Speaker:

We of your Conference Committee, to whom was referred SECOND SUBSTITUTE SENATE BILL NO. 5433, modifying provisions of local option taxes, have had the same under consideration and we recommend that:

all previous amendments not be adopted and that the attached striking amendment (H-3442.2/09) be adopted.

and that the bill do pass as recommended by the Conference Committee:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 82.14.450 and 2007 c 380 s 1 are each amended to read as follows:

(1) A county legislative authority may submit an authorizing proposition to the county voters at a primary or general election and, if the proposition is approved by a majority of persons voting, impose a sales and use tax in accordance with the terms of this chapter. The title of each ballot measure must clearly state the purposes for which the proposed sales and use tax will be used. Funds raised under this

tax shall not supplant existing funds used for these purposes, except as follows: Up to one hundred percent may be used to supplant existing funding in calendar year 2010; up to eighty percent may be used to supplant existing funding in calendar year 2011; up to sixty percent may be used to supplant existing funding in calendar year 2012; up to forty percent may be used to supplant existing funding in calendar year 2013; and up to twenty percent may be used to supplant existing funding in calendar year 2014. For purposes of this subsection, existing funds means the actual operating expenditures for the calendar year in which the ballot measure is approved by voters. Actual operating expenditures excludes lost federal funds, lost or expired state grants or loans, extraordinary events not likely to reoccur, changes in contract provisions beyond the control of the county or city receiving the services, and major nonrecurring capital expenditures. The rate of tax under this section (~~shall~~) may not exceed three-tenths of one percent of the selling price in the case of a sales tax, or value of the article used, in the case of a use tax.

(2) The tax authorized in this section is in addition to any other taxes authorized by law and (~~shall~~) must be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the county.

(3) The retail sale or use of motor vehicles, and the lease of motor vehicles for up to the first thirty-six months of the lease, are exempt from tax imposed under this section.

(4) One-third of all money received under this section (~~shall~~) must be used solely for criminal justice purposes, fire protection purposes, or both. For the purposes of this subsection, "criminal justice purposes" (~~means additional police protection, mitigation of congested court systems, or relief of overcrowded jails or other local correctional facilities~~) has the same meaning as provided in RCW 82.14.340.

(5) Money received under this section (~~shall~~) must be shared between the county and the cities as follows: Sixty percent (~~shall~~) must be retained by the county and forty percent (~~shall~~) must be distributed on a per capita basis to cities in the county.

Sec. 2. RCW 82.14.460 and 2008 c 157 s 2 are each amended to read as follows:

(1) A county legislative authority may authorize, fix, and impose a sales and use tax in accordance with the terms of this chapter.

(2) The tax authorized in this section shall be in addition to any other taxes authorized by law and shall be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the county. The rate of tax shall equal one-tenth of one percent of the selling price in the case of a sales tax, or value of the article used, in the case of a use tax.

(3) Moneys collected under this section shall be used solely for the purpose of providing for the operation or delivery of (~~new or expanded~~) chemical dependency or mental health treatment programs and services and for the operation or delivery of (~~new or expanded~~) therapeutic court programs and services. For the purposes of this section, "programs and services" includes, but is not limited to, treatment services, case management, and housing that are a component of a coordinated chemical dependency or mental health treatment program or service.

(4) All moneys collected under this section must be used solely for the purpose of providing new or expanded programs and services as provided in this section, except a portion of moneys collected under this section (~~shall not~~) may be used to supplant existing funding for these purposes (~~provided that~~) in any county as follows: Up to fifty percent may be used to supplant existing funding in calendar year 2010; up to forty percent may be used to supplant existing funding in calendar year 2011; up to thirty percent may be used to supplant existing funding in calendar year 2012; up to twenty percent may be used to supplant existing funding in calendar year 2013; and up to ten percent may be used to supplant existing funding in calendar year 2014.

(5) Nothing in this section (~~shall~~) may be interpreted to prohibit the use of moneys collected under this section for the replacement of lapsed federal funding previously provided for the operation or delivery of services and programs as provided in this section.

Sec. 3. RCW 84.55.050 and 2008 c 319 s 1 are each amended to read as follows:

(1) Subject to any otherwise applicable statutory dollar rate limitations, regular property taxes may be levied by or for a taxing district in an amount exceeding the limitations provided for in this chapter if such levy is authorized by a proposition approved by a majority of the voters of the taxing district voting on the proposition at a general election held within the district or at a special election within the taxing district called by the district for the purpose of submitting such proposition to the voters. Any election held pursuant to this section shall be held not more than twelve months prior to the date on which the proposed levy is to be made, except as provided in subsection (2) of this section. The ballot of the proposition shall state the dollar rate proposed and shall clearly state the conditions, if any, which are applicable under subsection (4) of this section.

(2)(a) Subject to statutory dollar limitations, a proposition placed before the voters under this section may authorize annual increases in levies for multiple consecutive years, up to six consecutive years, during which period each year's authorized maximum legal levy shall be used as the base upon which an increased levy limit for the succeeding year is computed, but the ballot proposition must state the dollar rate proposed only for the first year of the consecutive years and must state the limit factor, or a specified index to be used for determining a limit factor, such as the consumer price index, which need not be the same for all years, by which the regular tax levy for the district may be increased in each of the subsequent consecutive years. Elections for this purpose must be held at a primary or general election. The title of each ballot measure must state the limited purposes for which the proposed annual increases during the specified period of up to six consecutive years shall be used ~~(, and funds raised under the levy shall not supplant existing funds used for these purposes)~~.

(b)(i) Except as otherwise provided in this subsection (2)(b), funds raised by a levy under this subsection may not supplant existing funds used for the limited purpose specified in the ballot title. For purposes of this subsection, existing funds means the actual operating expenditures for the calendar year in which the ballot measure is approved by voters. Actual operating expenditures excludes lost federal funds, lost or expired state grants or loans, extraordinary events not likely to reoccur, changes in contract provisions beyond the control of the taxing district receiving the services, and major nonrecurring capital expenditures.

(ii) The supplanting limitations in (b)(i) of this subsection do not apply to levies approved by the voters in calendar years 2009, 2010, and 2011, in any county with a population of one million five hundred thousand or more. This subsection (2)(b)(ii) only applies to levies approved by the voters after the effective date of this act.

(iii) The supplanting limitations in (b)(i) of this subsection do not apply to levies approved by the voters in calendar year 2009 and thereafter in any county with a population less than one million five hundred thousand. This subsection (2)(b)(iii) only applies to levies approved by the voters after the effective date of this act.

(3) After a levy authorized pursuant to this section is made, the dollar amount of such levy may not be used for the purpose of computing the limitations for subsequent levies provided for in this chapter, unless the ballot proposition expressly states that the levy made under this section will be used for this purpose.

(4) If expressly stated, a proposition placed before the voters under subsection (1) or (2) of this section may:

(a) Use the dollar amount of a levy under subsection (1) of this section, or the dollar amount of the final levy under subsection (2) of this section, for the purpose of computing the limitations for subsequent levies provided for in this chapter;

(b) Limit the period for which the increased levy is to be made under (a) of this subsection;

(c) Limit the purpose for which the increased levy is to be made under (a) of this subsection, but if the limited purpose includes making redemption payments on bonds, the period for which the increased levies are made shall not exceed nine years;

(d) Set the levy or levies at a rate less than the maximum rate allowed for the district; or

(e) Include any combination of the conditions in this subsection.

(5) Except as otherwise expressly stated in an approved ballot measure under this section, subsequent levies shall be computed as if:

(a) The proposition under this section had not been approved; and

(b) The taxing district had made levies at the maximum rates which would otherwise have been allowed under this chapter during the years levies were made under the proposition.

Sec. 4. RCW 36.54.130 and 2007 c 223 s 6 are each amended to read as follows:

(1) To carry out the purposes for which ferry districts are created, the governing body of a ferry district may levy each year an ad valorem tax on all taxable property located in the district not to exceed seventy-five cents per thousand dollars of assessed value, except a ferry district in a county with a population of one million five hundred thousand or more may not levy at a rate that exceeds seven and one-half cents per thousand dollars of assessed value. The levy must be sufficient for the provision of ferry services as shown to be required by the budget prepared by the governing body of the ferry district.

(2) A tax imposed under this section may be used only for:

(a) Providing ferry services, including the purchase, lease, or rental of ferry vessels and dock facilities;

(b) The operation, maintenance, and improvement of ferry vessels and dock facilities;

(c) Providing shuttle services between the ferry terminal and passenger parking facilities, and other landside improvements directly related to the provision of passenger-only ferry service; and

(d) Related personnel costs.

NEW SECTION. Sec. 5. A new section is added to chapter 84.52 RCW to read as follows:

(1) A county with a population of one million five hundred thousand or more may impose an additional regular property tax levy in an amount not to exceed seven and one-half cents per thousand dollars of the assessed value of property in the county in accordance with the terms of this section.

(2) Any tax imposed under this section shall be used as follows:

(a) The first one cent for expanding transit capacity along state route number 520 by adding core and other supporting bus routes;

(b) The remainder for transit-related expenditures.

(3) The limitations in RCW 84.52.043 do not apply to the tax authorized in this section.

(4) The limitation in RCW 84.55.010 does not apply to the first tax levy imposed under this section.

Sec. 6. RCW 84.52.043 and 2005 c 122 s 3 are each amended to read as follows:

Within and subject to the limitations imposed by RCW 84.52.050 as amended, the regular ad valorem tax levies upon real and personal property by the taxing districts hereafter named shall be as follows:

(1) Levies of the senior taxing districts shall be as follows: (a) The levy by the state shall not exceed three dollars and sixty cents per thousand dollars of assessed value adjusted to the state equalized value in accordance with the indicated ratio fixed by the state department of revenue to be used exclusively for the support of the common schools; (b) the levy by any county shall not exceed one dollar and eighty cents per thousand dollars of assessed value; (c) the levy by any road district shall not exceed two dollars and twenty-five cents per thousand dollars of assessed value; and (d) the levy by any city or town shall not exceed three dollars and thirty-seven and one-half cents per thousand dollars of assessed value. However any county is hereby authorized to increase its levy from one dollar and eighty cents to a rate not to exceed two dollars and forty-seven and one-half cents per thousand dollars of assessed value for general county purposes if the total levies for both the county and any road district within the county do not exceed four dollars and five cents per thousand dollars of assessed value, and no other taxing district has its levy reduced as a result of the increased county levy.

(2) The aggregate levies of junior taxing districts and senior taxing districts, other than the state, shall not exceed five dollars and ninety cents per thousand dollars of assessed valuation. The term "junior taxing districts" includes all taxing districts other than the state, counties, road districts, cities, towns, port districts, and public

utility districts. The limitations provided in this subsection shall not apply to: (a) Levies at the rates provided by existing law by or for any port or public utility district; (b) excess property tax levies authorized in Article VII, section 2 of the state Constitution; (c) levies for acquiring conservation futures as authorized under RCW 84.34.230; (d) levies for emergency medical care or emergency medical services imposed under RCW 84.52.069; (e) levies to finance affordable housing for very low-income housing imposed under RCW 84.52.105; (f) the portions of levies by metropolitan park districts that are protected under RCW 84.52.120; (g) levies imposed by ferry districts under RCW 36.54.130; (h) levies for criminal justice purposes under RCW 84.52.135; ~~((and))~~ (i) the portions of levies by fire protection districts that are protected under RCW 84.52.125; and (j) levies by counties for transit-related purposes under section 5 of this act.

Sec. 7. RCW 84.52.010 and 2007 c 54 s 26 are each amended to read as follows:

Except as is permitted under RCW 84.55.050, all taxes shall be levied or voted in specific amounts.

The rate percent of all taxes for state and county purposes, and purposes of taxing districts coextensive with the county, shall be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the county, as shown by the completed tax rolls of the county, and the rate percent of all taxes levied for purposes of taxing districts within any county shall be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the taxing districts respectively.

When a county assessor finds that the aggregate rate of tax levy on any property, that is subject to the limitations set forth in RCW 84.52.043 or 84.52.050, exceeds the limitations provided in either of these sections, the assessor shall recompute and establish a consolidated levy in the following manner:

(1) The full certified rates of tax levy for state, county, county road district, and city or town purposes shall be extended on the tax rolls in amounts not exceeding the limitations established by law; however any state levy shall take precedence over all other levies and shall not be reduced for any purpose other than that required by RCW 84.55.010. If, as a result of the levies imposed under RCW 36.54.130, 84.34.230, 84.52.069, 84.52.105, the portion of the levy by a metropolitan park district that was protected under RCW 84.52.120, 84.52.125, ~~((and))~~ 84.52.135, and section 5 of this act, the combined rate of regular property tax levies that are subject to the one percent limitation exceeds one percent of the true and fair value of any property, then these levies shall be reduced as follows:

(a) The levy imposed by a county under section 5 of this act shall be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or shall be eliminated;

(b) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a fire protection district that is protected under RCW 84.52.125 shall be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or shall be eliminated;

~~((c))~~ (c) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a county under RCW 84.52.135 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

~~((d))~~ (d) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a ferry district under RCW 36.54.130 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

~~((e))~~ (e) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a metropolitan park district that is protected under RCW 84.52.120 shall be reduced until the combined rate no longer exceeds one

percent of the true and fair value of any property or shall be eliminated;

~~((f))~~ (f) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the levies imposed under RCW 84.34.230, 84.52.105, and any portion of the levy imposed under RCW 84.52.069 that is in excess of thirty cents per thousand dollars of assessed value, shall be reduced on a pro rata basis until the combined rate no longer exceeds one percent of the true and fair value of any property or shall be eliminated; and

~~((g))~~ (g) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the thirty cents per thousand dollars of assessed value of tax levy imposed under RCW 84.52.069 shall be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or eliminated.

(2) The certified rates of tax levy subject to these limitations by all junior taxing districts imposing taxes on such property shall be reduced or eliminated as follows to bring the consolidated levy of taxes on such property within the provisions of these limitations:

(a) First, the certified property tax levy rates of those junior taxing districts authorized under RCW 36.68.525, 36.69.145, 35.95A.100, and 67.38.130 shall be reduced on a pro rata basis or eliminated;

(b) Second, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of flood control zone districts shall be reduced on a pro rata basis or eliminated;

(c) Third, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of all other junior taxing districts, other than fire protection districts, regional fire protection service authorities, library districts, the first fifty cent per thousand dollars of assessed valuation levies for metropolitan park districts, and the first fifty cent per thousand dollars of assessed valuation levies for public hospital districts, shall be reduced on a pro rata basis or eliminated;

(d) Fourth, if the consolidated tax levy rate still exceeds these limitations, the first fifty cent per thousand dollars of assessed valuation levies for metropolitan park districts created on or after January 1, 2002, shall be reduced on a pro rata basis or eliminated;

(e) Fifth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized to fire protection districts under RCW 52.16.140 and 52.16.160 and regional fire protection service authorities under RCW 52.26.140(1) (b) and (c) shall be reduced on a pro rata basis or eliminated; and

(f) Sixth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized for fire protection districts under RCW 52.16.130, regional fire protection service authorities under RCW 52.26.140(1)(a), library districts, metropolitan park districts created before January 1, 2002, under their first fifty cent per thousand dollars of assessed valuation levy, and public hospital districts under their first fifty cent per thousand dollars of assessed valuation levy, shall be reduced on a pro rata basis or eliminated.

The bill was read the second time.

There being no objection, the committee amendment by the Committee on Ways & Means was not adopted. (For committee amendment, see Journal, Day 104, April 25, 2009.)

With the consent of the House, amendment (998) was withdrawn.

Representative Hunt moved the adoption of amendment (999):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. Intent. One of the key roles of advisory boards, committees, and commissions is to provide input, advice and recommendations from stakeholders, other interested parties, and the public to state agencies. Some advisory boards, committees, and commissions may be abolished without detriment to the mission of the agency each supports. Most of the advisory functions of some boards, committees, and commissions can be performed without the administrative costs of maintaining formal organizations. In the interest of building a leaner, more efficient, and more responsible government, this vital communications conduit must be maintained for the benefit of the state and its citizens, through the use of modern communication technology. It is the intent of the legislature this interim to identify criteria to evaluate those advisory boards, committees, and commissions that may be eliminated or consolidated, and for agencies to identify new, less costly, and more effective opportunities to ensure a broad range of citizen participation is provided and that all reasonable efforts are made to ensure that channels are maintained for vital input from the citizens of Washington.

The purposes of a temporary management program are as follows:

(a) To mitigate dislocation and transfer trauma of residents while the department and licensee may pursue dispute resolution or appeal of a summary suspension of license;

(b) To facilitate the continuity of safe and appropriate resident care and services;

(c) To preserve a residential option that meets a specialized service need and/or is in a geographical area that has a lack of available providers; and

(3) The temporary management shall contract with the licensee as an independent contractor and is responsible for ensuring that all minimum licensing requirements are met. The temporary management shall protect the health, safety, and well-being of the residents for the duration of the temporary management and shall perform all acts reasonably necessary to ensure that residents' needs are met. (5) The temporary management period under this section concludes twenty-eight days after issuance of the formal notification of enforcement action or conclusion of administrative proceedings, whichever date is later. Nothing in this section precludes the department from revoking its approval of the temporary management and/or exercising its licensing enforcement authority under this chapter. The department's decision whether to approve or to revoke a temporary management arrangement is not subject to the administrative procedure act, chapter 34.05 RCW.

(6) The department is authorized to adopt rules implementing this section. In implementing this section, the department shall consult with consumers, advocates, ~~((the adult family home advisory committee established under chapter 18.48 RCW,))~~ and organizations representing adult family homes. (1) The department may exercise the following powers in addition to any other powers granted by law:

(a) Investigate, provide for investigating, or require potentially liable persons to investigate any releases or threatened releases of hazardous substances, including but not limited to inspecting, sampling, or testing to determine the nature or extent of any release or threatened release. If there is a reasonable basis to believe that a release or threatened release of a hazardous substance may exist, the department's authorized employees, agents, or contractors may enter upon any property and conduct investigations. The department shall give reasonable notice before entering property unless an emergency prevents such notice. The department may by subpoena require the attendance or testimony of witnesses and the production of documents or other information that the department deems necessary;

(b) Conduct, provide for conducting, or require potentially liable persons to conduct remedial actions (including investigations under (a) of this subsection) to remedy releases or threatened releases of hazardous substances. In carrying out such powers, the department's authorized employees, agents, or contractors may enter upon property. The department shall give reasonable notice before entering property unless an emergency prevents such notice. In conducting, providing for, or requiring remedial action, the department shall give preference to permanent solutions to the maximum extent practicable and shall provide for or require adequate monitoring to ensure the effectiveness of the remedial action;

(c) Indemnify contractors retained by the department for carrying out investigations and remedial actions, but not for any contractor's reckless or willful misconduct;

(d) Carry out all state programs authorized under the federal cleanup law and the federal resource, conservation, and recovery act, 42 U.S.C. Sec. 6901 et seq., as amended;

(e) Classify substances as hazardous substances for purposes of RCW 70.105D.020 and classify substances and products as hazardous substances for purposes of RCW 82.21.020(1);

(f) Issue orders or enter into consent decrees or agreed orders that include, or issue written opinions under (i) of this subsection that may be conditioned upon, environmental covenants where necessary to protect human health and the environment from a release or threatened release of a hazardous substance from a facility. Prior to establishing an environmental covenant under this subsection, the department shall consult with and seek comment from a city or county department with land use planning authority for real property subject to the environmental covenant;

(g) Enforce the application of permanent and effective institutional controls that are necessary for a remedial action to be protective of human health and the environment and the notification requirements established in RCW 70.105D.110, and impose penalties for violations of that section consistent with RCW 70.105D.050;

(h) Require holders to conduct remedial actions necessary to abate an imminent or substantial endangerment pursuant to RCW 70.105D.020(17)(b)(ii)(C);

(i) Provide informal advice and assistance to persons regarding the administrative and technical requirements of this chapter. This may include site-specific advice to persons who are conducting or otherwise interested in independent remedial actions. Any such advice or assistance shall be advisory only, and shall not be binding on the department. As a part of providing this advice and assistance for independent remedial actions, the department may prepare written opinions regarding whether the independent remedial actions or proposals for those actions meet the substantive requirements of this chapter or whether the department believes further remedial action is necessary at the facility. Nothing in this chapter may be construed to preclude the department from issuing a written opinion on whether further remedial action is necessary at any portion of the real property located within a facility, even if further remedial action is still necessary elsewhere at the same facility. Such a written opinion on a portion of a facility must also provide an opinion on the status of the facility as a whole. The department may collect, from persons requesting advice and assistance, the costs incurred by the department in providing such advice and assistance; however, the department shall, where appropriate, waive collection of costs in order to provide an appropriate level of technical assistance in support of public participation. The state, the department, and officers and employees of the state are immune from all liability, and no cause of action of any nature may arise from any act or omission in providing, or failing to provide, informal advice and assistance; and

(j) Take any other actions necessary to carry out the provisions of this chapter, including the power to adopt rules under chapter 34.05 RCW.

(2) The department shall immediately implement all provisions of this chapter to the maximum extent practicable, including investigative and remedial actions where appropriate. The department shall adopt, and thereafter enforce, rules under chapter 34.05 RCW to:

(a) Provide for public participation, including at least (i) public notice of the development of investigative plans or remedial plans for releases or threatened releases and (ii) concurrent public notice of all compliance orders, agreed orders, enforcement orders, or notices of violation;

(b) Establish a hazard ranking system for hazardous waste sites;

(c) Provide for requiring the reporting by an owner or operator of releases of hazardous substances to the environment that may be a threat to human health or the environment within ninety days of discovery, including such exemptions from reporting as the department deems appropriate, however this requirement shall not modify any existing requirements provided for under other laws;

(d) Establish reasonable deadlines not to exceed ninety days for initiating an investigation of a hazardous waste site after the department receives notice or otherwise receives information that the site may pose a threat to human health or the environment and other reasonable deadlines for remedying releases or threatened releases at the site;

(e) Publish and periodically update minimum cleanup standards for remedial actions at least as stringent as the cleanup standards under section 121 of the federal cleanup law, 42 U.S.C. Sec. 9621, and at least as stringent as all applicable state and federal laws, including health-based standards under state and federal law; and

(f) Apply industrial clean-up standards at industrial properties. Rules adopted under this subsection shall ensure that industrial properties cleaned up to industrial standards cannot be converted to nonindustrial uses without approval from the department. The department may require that a property cleaned up to industrial standards is cleaned up to a more stringent applicable standard as a condition of conversion to a nonindustrial use. Industrial clean-up standards may not be applied to industrial properties where hazardous substances remaining at the property after remedial action pose a threat to human health or the environment in adjacent nonindustrial areas.

(3) To achieve and protect the state's long-term ecological health, the department shall prioritize sufficient funding to clean up

hazardous waste sites and prevent the creation of future hazards due to improper disposal of toxic wastes, and create financing tools to clean up large-scale hazardous waste sites requiring multiyear commitments. To effectively monitor toxic accounts expenditures, the department shall develop a comprehensive ten-year financing report that identifies long-term remedial action project costs, tracks expenses, and projects future needs.

(4) Before December 20th of each even-numbered year, the department shall:

(a) Develop a comprehensive ten-year financing report in coordination with all local governments with clean-up responsibilities that identifies the projected biennial hazardous waste site remedial action needs that are eligible for funding from the local toxics control account;

(b) Work with local governments to develop working capital reserves to be incorporated in the ten-year financing report;

(c) Identify the projected remedial action needs for orphaned, abandoned, and other clean-up sites that are eligible for funding from the state toxics control account;

(d) Project the remedial action need, cost, revenue, and any recommended working capital reserve estimate to the next biennium's long-term remedial action needs from both the local toxics control account and the state toxics control account, and submit this information to the appropriate standing fiscal and environmental committees of the senate and house of representatives. This submittal must also include a ranked list of such remedial action projects for both accounts; and

(e) Provide the legislature and the public each year with an accounting of the department's activities supported by appropriations from the state and local toxics control accounts, including a list of known hazardous waste sites and their hazard rankings, actions taken and planned at each site, how the department is meeting its waste management priorities under RCW 70.105.150, and all funds expended under this chapter.

~~(5) ((The department shall establish a scientific advisory board to render advice to the department with respect to the hazard ranking system, cleanup standards, remedial actions, deadlines for remedial actions, monitoring, the classification of substances as hazardous substances for purposes of RCW 70.105D.020 and the classification of substances or products as hazardous substances for purposes of RCW 82.21.020(1). The board shall consist of five independent members to serve staggered three-year terms. No members may be employees of the department. Members shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.~~

~~(6))~~ (6)) The department shall establish a program to identify potential hazardous waste sites and to encourage persons to provide information about hazardous waste sites.

~~((7))~~ (6) For all facilities where an environmental covenant has been required under subsection (1)(f) of this section, including all facilities where the department has required an environmental covenant under an order, agreed order, or consent decree, or as a condition of a written opinion issued under the authority of subsection (1)(i) of this section, the department shall periodically review the environmental covenant for effectiveness. Except as otherwise provided in (c) of this subsection, the department shall conduct a review at least once every five years after an environmental covenant is recorded.

(a) The review shall consist of, at a minimum:

(i) A review of the title of the real property subject to the environmental covenant to determine whether the environmental covenant was properly recorded and, if applicable, amended or terminated;

(ii) A physical inspection of the real property subject to the environmental covenant to determine compliance with the environmental covenant, including whether any development or redevelopment of the real property has violated the terms of the environmental covenant; and

(iii) A review of the effectiveness of the environmental covenant in limiting or prohibiting activities that may interfere with the integrity of the remedial action or that may result in exposure to or migration of hazardous substances. This shall include a review of available monitoring data.

(b) If an environmental covenant has been amended or terminated without proper authority, or if the terms of an environmental covenant have been violated, or if the environmental covenant is no longer effective in limiting or prohibiting activities that may interfere with the integrity of the remedial action or that may result in exposure to or migration of hazardous substances, then the department shall take any and all appropriate actions necessary to ensure compliance with the environmental covenant and the policies and requirements of this chapter.

(c) For facilities where an environmental covenant required by the department under subsection (1)(f) of this section was required before July 1, 2007, the department shall:

(i) Enter all required information about the environmental covenant into the registry established under RCW 64.70.120 by June 30, 2008;

appropriation section of the biennial budget between the prior school year and the current school year and divided by fifty-five percent. A district's levy base shall not include local school district property tax levies or other local revenues, or state and federal allocations not identified in (a) through (c) of this subsection.

(a) The district's basic education allocation as determined pursuant to RCW 28A.150.250, 28A.150.260, and 28A.150.350;

(b) State and federal categorical allocations for the following programs:

(a) The difference between the allocation the district would have received in the current school year ~~((had RCW 84.52.068 not been amended by chapter 19, Laws of 2003 1st sp. sess.))~~ using the Initiative 728 base and the allocation the district received in the current school year pursuant to RCW 84.52.068 ~~((The office of the superintendent of public instruction shall offset the amount added to a district's levy base pursuant to this subsection (4)(a) by any additional per student allocations included in a district's levy base pursuant to the enactment of an initiative to the people subsequent to June 10, 2004)); and~~

(5) A district's maximum levy percentage shall be twenty-two percent in 1998 and twenty-four percent in 1999 and every year thereafter, except as provided in subsection (6) of this section; plus, for qualifying districts, the grandfathered percentage determined as follows:

(b) For 1998 and thereafter, the percentage calculated as follows:

(i) Multiply the grandfathered percentage for the prior year times the district's levy base determined under subsection (3) of this section;

(ii) Reduce the result of (b)(i) of this subsection by any levy reduction funds as defined in subsection ~~((6))~~ (7) of this section that are to be allocated to the district for the current school year;

(iii) Divide the result of (b)(ii) of this subsection by the district's levy base; and

(iv) Take the greater of zero or the percentage calculated in (b)(iii) of this subsection.

(6) The maximum levy percentages provided in subsection (5) of this section shall be increased by four percentage points not to exceed a maximum levy percentage of thirty-five percent for levies approved by voters in 2009 after the effective date of this section through December 31, 2011.

(7) "Levy reduction funds" shall mean increases in state funds from the prior school year for programs included under subsections (3) and (4) of this section: (a) That are not attributable to enrollment changes, compensation increases, or inflationary adjustments; and (b) that are or were specifically identified as levy reduction funds in the

appropriations act. If levy reduction funds are dependent on formula factors which would not be finalized until after the start of the current school year, the superintendent of public instruction shall estimate the total amount of levy reduction funds by using prior school year data in place of current school year data. Levy reduction funds shall not include moneys received by school districts from cities or counties.

~~((7) For the purposes of this section,))~~ (8) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Prior school year" means the most recent school year completed prior to the year in which the levies are to be collected.

~~((8) For the purposes of this section,))~~ (b) "Current school year" means the year immediately following the prior school year.

(c) "Initiative 728 base" means the allocation to the student achievement fund for the prior year that would have been made under chapter 3, Laws of 2001, as approved by the voters, if all annual adjustments to the initial 2001 allocation had been made in previous years and in each subsequent year as provided for under chapter 3, Laws of 2001.

(d) "Initiative 732 base" means the prior year's annual salary cost-of-living increases as they would have been calculated under chapter 4, Laws of 2001, as approved by the voters, if each annual cost-of-living increase had been made in previous years and in each subsequent year as provided for under chapter 4, Laws of 2001.

(9) Funds collected from transportation vehicle fund tax levies shall not be subject to the levy limitations in this section.

(10) The superintendent of public instruction shall develop rules ~~((and regulations))~~ and inform school districts of the pertinent data necessary to carry out the provisions of this section.

(11) For calendar year 2009, the office of the superintendent of public instruction shall recalculate school district levy authority to reflect levy rates certified by school districts for calendar year 2009.

NEW SECTION. Sec. 3. A new section is added to chapter 84.52 RCW to read as follows:

The legislature recognizes that school districts request voter approval for two-year through four-year levies based on their projected levy capacities at the time that the levies are submitted to the voters. It is the intent of the legislature to permit school districts with voter-approved maintenance and operation levies to seek an additional approval from the voters, if subsequently enacted legislation would permit a higher levy.

Sec. 4. RCW 84.52.053 and 2007 c 129 s 3 are each amended to read as follows:

(1) The limitations imposed by RCW 84.52.050 through 84.52.056, and 84.52.043 shall not prevent the levy of taxes by school districts, when authorized so to do by the voters of such school district in the manner and for the purposes and number of years allowable under Article VII, section 2(a) of the Constitution of this state. Elections for such taxes shall be held in the year in which the levy is made or, in the case of propositions authorizing two-year through four-year levies for maintenance and operation support of a school district, authorizing two-year levies for transportation vehicle funds established in RCW 28A.160.130, or authorizing two-year through six-year levies to support the construction, modernization, or remodeling of school facilities, which includes the purposes of RCW 28A.320.330(2)(f), in the year in which the first annual levy is made.

(2) Once additional tax levies have been authorized for maintenance and operation support of a school district for a two-year through four-year period as provided under subsection (1) of this section, no further additional tax levies for maintenance and operation support of the district for that period may be authorized, except for additional levies to provide for subsequently enacted increases affecting the district's levy base or maximum levy percentage. For the purpose of applying the limitation of this subsection, a two-year through six-year levy to support the construction, modernization, or remodeling of school facilities shall not be deemed to be a tax levy for maintenance and operation support of a school district.

(3) A special election may be called and the time therefor fixed by the board of school directors, by giving notice thereof by publication in the manner provided by law for giving notices of general elections, at which special election the proposition

authorizing such excess levy shall be submitted in such form as to enable the voters favoring the proposition to vote "yes" and those opposed thereto to vote "no".

Sec. 5. 2006 c 119 s 3 (uncodified) is amended to read as follows:

This act expires January 1, ~~((2012))~~ 2015.

Sec. 6. 2009 c 4 s 909 (uncodified) is amended to read as follows:

Section 908 of this act expires January 1, ~~((2012))~~ 2015.

NEW SECTION. Sec. 7. State grant funding for the 21st century after-school program is suspended during the 2009-2011 fiscal period.

NEW SECTION. Sec. 1. For the purpose of providing funds to finance the projects described and authorized by the legislature in the capital and operating appropriations acts for the 2007-2009 and 2009-2011 fiscal bienniums, and all costs incidental thereto, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of two billion two hundred nineteen million dollars, or as much thereof as may be required, to finance these projects and all costs incidental thereto. Bonds authorized in this section may be sold at such price as the state finance committee shall determine. No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION. Sec. 2. The proceeds from the sale of the bonds authorized in section 1 of this act shall be deposited in the state building construction account created by RCW 43.83.020. The proceeds shall be transferred as follows:

(1) One billion nine hundred forty-seven million dollars to remain in the state building construction account created by RCW 43.83.020;

(2) Twenty-seven million dollars to the outdoor recreation account created by RCW 79A.25.060;

(3) Twenty-seven million dollars to the habitat conservation account created by RCW 79A.15.020;

(4) Six million dollars to the riparian protection account created by RCW 79A.15.120;

(5) Ten million dollars to the farmlands preservation account created by RCW 79A.15.130;

(6) One hundred fifty-nine million dollars to the state taxable building construction account. All receipts from taxable bond issues are to be deposited into the account. If the state finance committee deems it necessary or advantageous to issue more than the amount specified in this subsection (6) as taxable bonds in order to comply with federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds or in order to reduce the total financing costs for bonds issued, the proceeds of such additional taxable bonds shall be transferred to the state taxable building construction account in lieu of any transfer otherwise provided by this section. The state treasurer shall submit written notice to the director of financial management if it is determined that any such additional transfer to the state taxable building construction account is necessary. Moneys in the account may be spent only after appropriation.

These proceeds shall be used exclusively for the purposes specified in this section and for the payment of expenses incurred in the issuance and sale of the bonds issued for the purposes of this section, and shall be administered by the office of financial management subject to legislative appropriation.

NEW SECTION. Sec. 3. (1) The debt-limit general fund bond retirement account shall be used for the payment of the principal of and interest on the bonds authorized in section 2 (1), (2), (3), (4), (5), and (6) of this act.

(2) The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements on the bonds authorized in section 2 (1), (2), (3), (4), (5), and (6) of this act.

(3) On each date on which any interest or principal and interest payment is due on bonds issued for the purposes of section 2 (1), (2), (3), (4), (5), and (6) of this act the state treasurer shall withdraw from any general state revenues received in the state treasury and deposit in the debt-limit general fund bond retirement account an amount equal to the amount certified by the state finance committee to be due on the payment date.

NEW SECTION. Sec. 4. (1) Bonds issued under sections 1 through 3 of this act shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay the principal and interest as the same shall become due.

(2) The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section.

NEW SECTION. Sec. 5. The legislature may provide additional means for raising moneys for the payment of the principal of and interest on the bonds authorized in section 1 of this act, and sections 2 and 3 of this act shall not be deemed to provide an exclusive method for the payment.

Sec. 6. RCW 47.10.867 and 2003 c 147 s 7 are each amended to read as follows:

For the purpose of providing funds for the planning, design, construction, reconstruction, and other necessary costs for transportation projects, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of ~~((three))~~ two hundred forty-nine million five hundred thousand dollars, or as much thereof as may be required, to finance these projects and all costs incidental thereto. Bonds authorized in this section may be sold at such price as the state finance committee shall determine. No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION. Sec. 7. Sections 1 through 5 of this act constitute a new chapter in Title 43 RCW.

NEW SECTION. Sec. 8. In order to provide funds necessary for the location, design, right-of-way, and construction of the state route number 520 corridor projects, as allowed in section 2, chapter . . . (Engrossed Substitute House Bill No. 2211), Laws of 2009, there shall be issued and sold upon the request of the department of transportation a total of one billion nine hundred fifty million dollars of general obligation bonds of the state of Washington first payable from toll revenue and excise taxes on motor vehicle and special fuels in accordance with section 12 of this act.

NEW SECTION. Sec. 9. Upon the request of the department of transportation, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by this act in accordance with chapter 39.42 RCW. Bonds authorized by this act shall be sold in the manner, at time or times, in amounts, and at the price as the state finance committee shall determine. No bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION. Sec. 10. The proceeds from the sale of bonds authorized by this act shall be deposited in the state route number 520 corridor account created under chapter . . . (Engrossed Substitute House Bill No. 2211), Laws of 2009, and shall be available only for the purposes enumerated in section 8 of this act, for the payment of bond anticipation notes or other interim financing, if any, capitalizing interest on the bonds, and for the payment of bond issuance costs, including the costs of underwriting.

NEW SECTION. Sec. 11. The toll facility bond retirement account is created in the state treasury for the purpose of payment of the principal of and interest and premium on bonds. Both principal of and interest on the bonds issued for the purposes of this act shall be payable from the toll facility bond retirement account. The state finance committee may provide that special subaccounts be created

in the account to facilitate payment of the principal of and interest on the bonds. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings.

NEW SECTION. Sec. 12. Bonds issued under the authority of this section and sections 8, 13, and 14 of this act shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal of and interest on the bonds shall be first payable in the manner provided in this section and sections 8, 13, and 14 of this act from toll revenue and then from proceeds of excise taxes on motor vehicle and special fuels to the extent toll revenue is not available for that purpose. Toll revenue and the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW are hereby pledged to the payment of any bonds and the interest thereon issued under the authority of this section and sections 8, 13, and 14 of this act, and the legislature agrees to continue to impose these toll charges on the state route number 520 corridor, and on any other eligible toll facility designated by the legislature and on which the imposition of tolls is authorized by the legislature in respect of the bonds, and excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of this section and sections 8, 13, and 14 of this act.

NEW SECTION. Sec. 13. For bonds issued under the authority of this section and sections 8, 12, and 14 of this act, the state treasurer shall first withdraw toll revenue from the state route number 520 corridor account created under chapter . . . (Engrossed Substitute House Bill No. 2211), Laws of 2009, and, to the extent toll revenue is not available, excise taxes on motor vehicle and special fuels in the motor vehicle fund and deposit in the toll facility bond retirement account, or a special subaccount in the account, such amounts, and at such times, as are required by the bond proceedings.

Any excise taxes on motor vehicle and special fuels required for bond retirement or interest on the bonds authorized by this section and sections 8, 12, and 14 of this act shall be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and which is, or may be, appropriated to the department for state highway purposes. Funds required shall never constitute a charge against any other allocations of motor vehicle fuel and special fuel tax revenues to the state, counties, cities, and towns unless the amount arising from excise taxes on motor vehicle and special fuels distributed to the state in the motor vehicle fund proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

Any payments for bond retirement or interest on the bonds taken from other revenues from the motor vehicle fuel or special fuel taxes that are distributable to the state, counties, cities, and towns shall be repaid from available toll revenue in the manner provided in the bond proceedings or, if toll revenue is not available for that purpose, from the first excise taxes on motor vehicle and special fuels distributed to the motor vehicle fund not required for bond retirement or interest on the bonds. Any excise taxes on motor vehicle and special fuels required for bond retirement or interest on the bonds authorized by this section and sections 8, 12, and 14 of this act shall be reimbursed to the motor vehicle fund from toll revenue in the manner and with the priority specified in the bond proceedings.

NEW SECTION. Sec. 14. Bonds issued under the authority of sections 8, 12, and 13 of this act and this section and any other general obligation bonds of the state of Washington that have been or that may be authorized and that pledge motor vehicle and special fuels excise taxes for the payment of principal and interest thereon shall be an equal charge against the revenues from such motor vehicle and special fuels excise taxes.

Sec. 15. RCW 47.56.850 and 2008 c 122 s 7 are each amended to read as follows:

(1) Unless these powers are otherwise delegated by the legislature, the transportation commission is the tolling authority for the state. The tolling authority shall:

(a) Set toll rates, establish appropriate exemptions, if any, and make adjustments as conditions warrant on eligible toll facilities;

(b) Review toll collection policies, toll operations policies, and toll revenue expenditures on the eligible toll facilities and report annually on this review to the legislature.

(2) The tolling authority, in determining toll rates, shall consider the policy guidelines established in RCW 47.56.830.

(3) Unless otherwise directed by the legislature, in setting and periodically adjusting toll rates, the tolling authority must ensure that toll rates will generate revenue sufficient to:

(a) Meet the operating costs of the eligible toll facilities, including necessary maintenance, preservation, renewal, replacement, administration, and toll enforcement by public law enforcement;

(b) Meet obligations for the ~~((repayment))~~ timely payment of debt ((and interest on the)) service on bonds issued for eligible toll facilities, and any other associated financing costs including, but not limited to, required reserves, minimum debt coverage or other appropriate contingency funding, ((and)) insurance, and compliance with all other financial and other covenants made by the state in the bond proceedings; ((and))

(c) Meet obligations to reimburse the motor vehicle fund for excise taxes on motor vehicle and special fuels applied to the payment of bonds issued for eligible toll facilities; and

(d) Meet any other obligations of the tolling authority to provide its proportionate share of funding contributions for any projects or operations of the eligible toll facilities.

(4) The established toll rates may include variable pricing, and should be set to optimize system performance, recognizing necessary trade-offs to generate revenue for the purposes specified in subsection (3) of this section. Tolls may vary for type of vehicle, time of day, traffic conditions, or other factors designed to improve performance of the system.

(5) In fixing and adjusting toll rates under this section, the only toll revenue to be taken into account must be toll revenue pledged to bonds that includes toll receipts, and the only debt service requirements to be taken into account must be debt service on bonds payable from and secured by toll revenue that includes toll receipts.

(6) The legislature pledges to appropriate toll revenue as necessary to carry out the purposes of this section. When the legislature has specifically identified and designated an eligible toll facility and authorized the issuance of bonds for the financing of the eligible toll facility that are payable from and secured by a pledge of toll revenue, the legislature further agrees for the benefit of the owners of outstanding bonds issued by the state for eligible toll facilities to continue in effect and not to impair or withdraw the authorization of the tolling authority to fix and adjust tolls as provided in this section. The state finance committee shall pledge the state's obligation to impose and maintain tolls, together with the application of toll revenue as described in this section, to the owners of any bonds.

NEW SECTION. Sec. 16. If and to the extent that the state finance committee determines, in consultation with the department of transportation and the tolling authority, that it will be beneficial for the state to issue any bonds authorized in sections 8 and 12 through 14 of this act as toll revenue bonds rather than as general obligation bonds, the state finance committee is authorized to issue and sell, upon the request of the department of transportation, such bonds as toll revenue bonds and not as general obligation bonds. Notwithstanding section 12 of this act, each such bond shall contain a recital that payment or redemption of the bond and payment of the interest and any premium thereon is payable solely from and secured solely by a direct pledge, charge, and lien upon toll revenue and is not a general obligation of the state to which the full faith and credit of the state is pledged.

Toll revenue is hereby pledged to the payment of any bonds and the interest thereon issued under the authority of this section, and the legislature agrees to continue to impose these toll charges on the state route number 520 corridor, and on any other eligible toll facility designated by the legislature and on which the imposition of tolls is authorized by the legislature in respect of the bonds, in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of this section.

NEW SECTION. Sec. 17. The state finance committee may determine and include in any resolution authorizing the issuance of any bonds under this act, such terms, provisions, covenants, and conditions as it may deem appropriate in order to assist with the marketing and sale of the bonds, confer rights upon the owners of bonds, and safeguard rights of the owners of bonds including, among other things:

(1) Provisions regarding the maintenance and operation of eligible toll facilities;

(2) The pledges, uses, and priorities of application of toll revenue;

(3) Provisions that bonds shall be payable from and secured solely by toll revenue as provided by section 16 of this act, or shall be payable from and secured by both toll revenue and by a pledge of excise taxes on motor vehicle and special fuels and the full faith and credit of the state as provided in sections 8 and 12 through 14 of this act;

(4) In consultation with the department of transportation and the tolling authority, financial covenants requiring that the eligible toll facilities must produce specified coverage ratios of toll revenue to debt service on bonds;

(5) The purposes and conditions that must be satisfied prior to the issuance of any additional bonds that are to be payable from and secured by any toll revenue on an equal basis with previously issued and outstanding bonds payable from and secured by toll revenue;

(6) Provisions that bonds for which any toll revenue are pledged, or for which a pledge of any toll revenue may be reserved, may be structured on a senior, parity, subordinate, or special lien basis in relation to any other bonds for which toll revenue is pledged, with respect to toll revenue only; and

(7) Provisions regarding reserves, credit enhancement, liquidity facilities, and payment agreements with respect to bonds.

Notwithstanding the foregoing, covenants and conditions detailing the character of management, maintenance, and operation of eligible toll facilities, insurance for eligible toll facilities, financial management of toll revenue, and disposition of eligible toll facilities must first be approved by the department of transportation.

The owner of any bond may by mandamus or other appropriate proceeding require and compel performance of any duties imposed upon the tolling authority and the department of transportation and their respective officials, including any duties imposed upon or undertaken by them or by their respective officers, agents, and employees, in connection with the construction, maintenance, and operation of eligible toll facilities and in connection with the collection, deposit, investment, application, and disbursement of the proceeds of the bonds and toll revenue.

NEW SECTION. Sec. 18. (1) For the purposes of this act, "toll revenue" means all toll receipts, all interest income derived from the investment of toll receipts, and any gifts, grants, or other funds received for the benefit of eligible toll facilities. However, for the purpose of any pledge of toll revenue to the payment of particular bonds issued under this act, "toll revenue" means and includes only such toll revenue or portion thereof that is pledged to the payment of those bonds in the resolution authorizing the issuance of such bonds. Toll revenue constitutes "fees and revenues derived from the ownership or operation of any undertaking, facility, or project" as that phrase is used in Article VIII, section 1(c)(1) of the state Constitution.

(2) For the purposes of this act, "tolling authority" has the same meaning as in RCW 47.56.810.

NEW SECTION. Sec. 19. Sections 8 through 14 and 16 through 18 of this act are each added to chapter 47.10 RCW.

NEW SECTION. Sec. 20. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 21. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

(1) School district employees shall be provided an annual salary cost-of-living increase in accordance with this section.

(a) The cost-of-living increase shall be calculated by applying the rate of the yearly increase in the cost-of-living index to any state-funded salary base used in state funding formulas for teachers and other school district employees. Beginning with the 2001-02 school year, and for each subsequent school year, except for the ~~((2003-04))~~ 2009-10 and ~~((2004-05))~~ 2010-11 school years, each school district shall be provided a cost-of-living allocation sufficient to grant this cost-of-living increase.

(b) A school district shall distribute its cost-of-living allocation for salaries and salary-related benefits in accordance with the district's salary schedules, collective bargaining agreements, and compensation policies. No later than the end of the school year, each school district shall certify to the superintendent of public instruction that it has spent funds provided for cost-of-living increases on salaries and salary-related benefits.

(c) Any funded cost-of-living increase shall be included in the salary base used to determine cost-of-living increases for school employees in subsequent years. For teachers and other certificated instructional staff, the rate of the annual cost-of-living increase funded for certificated instructional staff shall be applied to the base salary used with the statewide salary allocation schedule established under RCW 28A.150.410 and to any other salary models used to recognize school district personnel costs.

(d) During the 2011-2013 and 2013-2015 fiscal biennia, in addition to cost-of-living allocations required by (a) of this subsection, school districts shall receive additional cost-of-living allocations in equal increments such that by the end of the 2014-15 school year school district employee base salaries used with the statewide salary allocation schedule established under RCW 28A.150.410 and any other state salary models used to recognize school district personnel costs are, at a minimum, equal to what they would have been if cost-of-living allocations had not been suspended during the 2009-10 or 2010-11 school years.

(2) For the purposes of this section, "cost-of-living index" means, for any school year, the previous calendar year's annual average consumer price index, using the official current base, compiled by the bureau of labor statistics, United States department of labor for the state of Washington. If the bureau of labor statistics develops more than one consumer price index for areas within the state, the index covering the greatest number of people, covering areas exclusively within the boundaries of the state, and including all items shall be used for the cost-of-living index in this section.

(c) The college board shall include any funded cost-of-living increase in the salary base used to determine cost-of-living increases for academic employees in subsequent years.

(d) Beginning with the 2001-2002 fiscal year, and for each subsequent fiscal year except for the ~~((2003-04))~~ 2009-2010 and ~~((2004-05))~~ 2010-2011 fiscal years, the state shall fully fund the cost-of-living increase set forth in this section.

This section applies to only those classified employees under the jurisdiction of chapter 41.56 RCW.

(a) Beginning with the 2001-2002 fiscal year, and for each subsequent fiscal year, except as provided in (d) of this subsection,

each technical college board of trustees shall receive a cost-of-living allocation sufficient to increase classified employee salaries, including mandatory salary-related benefits, by the rate of the yearly increase in the cost-of-living index.

No later than the end of the fiscal year, each technical college shall certify to the college board that it has spent funds provided for cost-of-living increases on salaries and salary-related benefits.

(c) The college board shall include any funded cost-of-living increase in the salary base used to determine cost-of-living increases for technical college classified employees in subsequent years.

GOVERNOR'S VETO MESSAGES

Sixty First Legislature
2009 Regular Session

April 30, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 4, Engrossed Substitute House Bill 1002 entitled:

"AN ACT Relating to allowing a certificate of discharge to be issued when an existing order excludes or prohibits an offender from having contact with a specified person or business, or coming within a set distance of any specified location."

Section 4 contains an emergency clause. An emergency clause is to be used where it is necessary for the immediate preservation of the public peace, health or safety or whenever it is essential for the support of state government. I do not believe an emergency clause is needed to implement this legislation. "

For this reason, I have vetoed Section 4 of Engrossed Substitute House Bill 1002.

With the exception of Section 4, Engrossed Substitute House Bill 1002 is approved.

Respectfully submitted,
Christine Gregoire

April 13, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 3, Substitute House Bill 1011 entitled:

"AN ACT Relating to regulating the use of identification devices."

Section 3 places a requirement on the Attorney General to make annual recommendations to the Legislature with respect to potentially invasive technologies which may warrant further action by the Legislature. This requirement is unfunded and will require the Attorney General's Office to divert its scarce financial resources away from other higher priority activities. Additionally, a presumptive label as "personally invasive" may stifle emerging technologies with high potential in the research and commercial fields.

For these reasons, I have vetoed Section 3 of Substitute House Bill No. 1011.

With the exception of Section 3, Substitute House Bill No. 1011 is approved.

Respectfully submitted,
Christine Gregoire

May 6, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Sections 1 and 3, Engrossed House Bill 1087 entitled:

"AN ACT Relating to improving the effectiveness of the office of minority and women's business enterprises."

Engrossed House Bill 1087 requires the Office of Financial Management (OFM), in consultation with the Office of Minority and Women's Business Enterprises (OMWBE), to develop a strategic plan to improve the effectiveness of all state agencies in carrying out the purposes of Chapter 39.19 RCW.

I agree with the intended purpose of this bill, which is to provide for increased participation by minority and women-owned and controlled businesses in public works projects and in providing goods and services to state government. However, OFM was not provided the financial resources necessary to carry-out requirements of Section 1 of this bill. Therefore, I am vetoing Section 1.

Section 3 prescribes the structure of advisory committees that may be established by OMWBE. The proposed language is unnecessarily prescriptive. In fact OMWBE has established an advisory committee that meets the criteria outlined in Section 3. The committee has been meeting since September 2008. As a result, I am also vetoing Section 3.

While I am vetoing Sections 1 and 3 of this bill, I am signing Section 2 because it supports my efforts to achieve supplier diversity. I am also directing OFM to assist OMWBE in identifying ways of increasing participating of minority and women-owned and controlled business in providing services to the state.

For these reasons, I have vetoed sections 1 and 3 of Engrossed House Bill 1087. With the exception of Sections 1 and 3, Engrossed House Bill 1087 is approved.

Respectfully submitted,
Christine Gregoire

May 7, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Sections 1 and 2, Engrossed House Bill 1167 entitled:

"AN ACT Relating to the linked deposit program."

Sections 1 and 2 would have created a new obligation to produce a report by the Office of Minority and Women's Business Enterprises. While I support the aim of identifying ways the linked deposit program can be improved and how small businesses can access capital more readily, this bill places a large, unfunded financial burden on a small agency during very tough budget times. For this reason, I have vetoed Sections 1 and 2 of Engrossed House Bill 1167.

With the exception of Sections 1 and 2, Engrossed House Bill 1167 is approved.

Respectfully submitted,
Christine Gregoire

May 15, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Sections 2063, page 70, lines 12 through 15; 6028; 6029; 6030; and 6049 of Substitute House Bill 1216 entitled:
"AN ACT Relating to the capital budget."

Section 2063, page 70, lines 12 through 15, Department of Corrections

This proviso requires the Office of Financial Management to undertake a budget evaluation study of the project to expand the reception center at the Washington Corrections Center. Because no funding was provided to continue this project, the study is unnecessary at this time. Therefore, I am vetoing this section.

Section 6028, pages 239-240, Superintendent of Public Instruction

Section 6029, pages 240-241, Universities and Colleges

Section 6030, page 241, State Agencies

These sections direct the Washington State Arts Commission to restrict the purchase of artwork to artists residing in Washington State for projects involving state-assisted K-12 school construction, state colleges and universities, and all state agencies. This restriction could have negative impacts on Washington artists who may be performing work on public works projects in other states. Therefore, I have vetoed these sections.

Section 6049, page 257, Puget Sound Partnership

I am vetoing this section because it is duplicative of Section 6010 on page 225.

For these reasons, I have vetoed Sections 2063, page 70, lines 12 through 15; 6028; 6029; 6030; and 6049. With the exception of Sections 2063, page 70, lines 12 through 15; 6028; 6029; 6030; and 6049, Substitute House Bill 1216 is approved.

Respectfully submitted,
Christine O. Gregoire

May 19, 2009

The Honorable Speaker and Members
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 103(6); 105(3); 105(5); 117(2); 117(4); 117(5); 124(3); 126(5); 128(7); 128(11); 128(15); 128(17); 128(24); 137(4); 148(5); 152, page 39, lines 20-26; 153, page 39, lines 34-36 and page 40, lines 1-4; 204(4)(a); 205(1)(h); 205(1)(q); 207(4); 209(10); 209(11); 209(14); 209(15); 209(33); 218(12); 218(13); 218(14); 222(3); 222(20); 223(2)(b); 223(2)(f); 302 page 104, lines

18 and 19; 302(11); 302(18); 303(2); 303(4); 307(5); 309(4); 309(5); 401, page 120, lines 7, 17 and 18; 401(3); 402(3); 614(1); 616(8); 805, page 205, lines 29-31; 805, page 206, lines 33-35; 936; 948; 955; 1104(1); 1104(2); and 1105(1) of Engrossed Substitute House Bill 1244 entitled:

"AN ACT Relating to fiscal matters."

I have vetoed the following appropriation items because of concerns with policy or technical issues relating to the legislative provisions:

Section 105(3), page 6, Office of the State Actuary, University of Washington Medical Center and Harborview Medical Center Financial Reporting

Funding is provided from the Department of Retirement Systems Expense Account for the Office of the State Actuary to assist the University of Washington Medical Center and Harborview Medical Center with the financial reporting of their postretirement benefits liabilities. Because the University of Washington will reimburse the State Actuary for its assistance, no appropriation is needed for this purpose. For this reason, I have vetoed Section 105(3).

Section 105(5), page 6, Office of the State Actuary, Health Benefits Study

The Legislature provided \$735,000 for the State Actuary to conduct an actuarial study comparing the cost of providing health benefits to employees of the Washington state retirement systems and the cost paid by employees and employers for those benefits. The study cannot be completed with the funding provided, nor is it an authorized use of the Health Care Authority Administrative Account. For these reasons, I have vetoed Section 105(5).

I recognize that this approach was intended to reflect the intentions of Second Substitute Senate Bill 5491, which did not pass. This measure would have required the Health Care Authority to develop a strategy to reduce the cost of providing health benefits for K-12 employees. This is an appropriate goal and I will work with the Legislature and the Office of the Superintendent of Public Instruction on this goal.

Section 117(2), (4) and (5), pages 13-15, Office of the Governor, Coal-Fired Energy Plants

These provisos require convening of a joint legislative and executive task force on coal-fired energy plants to evaluate alternatives for how existing plants can meet the greenhouse gas emissions performance standards mandated by Engrossed Second Substitute Senate Bill 5735. While I support the goal of reducing greenhouse gas emissions and am committed to working toward that end with the owners of the state's remaining coal-fired plant, this measure did not pass and I have therefore vetoed Section 117(2),(4), and (5).

Section 124(3), page 18, State Auditor, Performance Audit Reporting

The State Auditor is required to report to the Legislature on state expenditure savings achieved from the implementation of performance audits, with legislative intent to reduce the scheduled transfer from the Performance Audits of Government Account to the General Fund when actual savings are demonstrated. Because the Auditor's Office cannot require agencies to implement performance audit recommendations, the appropriation should not be based on savings the Auditor cannot direct. Therefore, I have vetoed Section 124(3).

Section 126(5), pages 19-20, Attorney General, Human Trafficking Violations

Funding is provided for the Attorney General's Office to implement Section 4 of Engrossed Second Substitute Senate Bill 5850. On May 14, 2009, I vetoed Section 4 of this measure, thus eliminating the need for the Attorney General's Office to engage in this effort. For this reason, I have vetoed Section 126(5).

Section 128(7), page 23, Department of Community, Trade and Economic Development, Associate Development Organizations

This proviso requires associate development organizations receiving funding from the Department of Community, Trade and Economic Development to coordinate workforce and economic development activities with community and technical colleges, and to identify clusters of related industries. While I am supportive of these coordination efforts, the proviso is in conflict with Substitute House Bill 1323, which assigns responsibility for identification and alignment of industry clusters to the Workforce Training and Education Coordinating Board and local Workforce Development Councils. For this reason, I have vetoed Section 128(7).

Section 128(15), pages 24-25, Department of Community, Trade and Economic Development, County Life-Cycle Cost Analysis

This proviso requires counties receiving certain state affordable housing funds to include life-cycle cost analysis as a criterion in housing award decisions and to submit annual reports to the state on distribution of funds. Two bills with similar provisions did not pass the Legislature during the 2009 Session. While I encourage analytical tools like life-cycle cost analysis, I do not believe the budget bill is an appropriate vehicle for these policy provisions. For this reason, I have vetoed Section 128(15).

Section 128(17), page 25, Department of Community, Trade and Economic Development, Economic Development Commission Study

This proviso requires the Economic Development Commission to conduct a review of state infrastructure programs and deliver a report on policy and funding options to the Legislature and the . No funding was provided to the Economic Development Commission for this work. Additionally, I would expect that such a review would occur within the Department of Community, Trade and Economic Development's work to develop recommendations for its core mission and programs as the Department of Commerce. For these reasons, I have vetoed Section 128(17).

Section 148(5), page 37, Liquor Control Board, Increasing Appropriations

This proviso would increase funding to the Liquor Control Board in the event that Senate Bill 6065 was not passed by the Legislature. That bill did not pass. I remain committed to reorganizing the agency so that it is administered by a single director, with a voluntary board providing policy oversight. Therefore, I do not believe it is appropriate to increase its funding at this time. For this reason, I have vetoed Section 148(5).

Section 204(4)(a), pages 57-58, Department of Social and Health Services, Report on Competency Evaluations

The Department of Social and Health Services is required to report on the waiting periods experienced for competency evaluations and competency restoration treatment. No funding was provided for these activities. For this reason, I have vetoed Section 204(4)(a).

Section 205(1)(h), page 61, Department of Social and Health Services, New Freedom Waiver Program

This proviso allows the Department of Social and Health Services to expand the New Freedom Waiver Program. However, the program is administered in the Long Term Care Program, and identical language is included in that program's section of the budget. For this reason, I have vetoed Section 205(1)(h).

Section 205(1)(q), page 63, Department of Social and Health Services, Developmental Disabilities Employment and Day Services

The Department of Social and Health Services is directed to establish a minimum number of service hours for employment and day services offered as part of a Medicaid waiver program. This requirement creates a potential conflict with federal requirements that a client's individual assessed need is the only determinant for the number of authorized service hours. For this reason, I have vetoed Section 205(1)(q).

Section 207(4), page 72, Department of Social and Health Services, Refugee and Immigrant Assistance Reorganization Report

This proviso requires the Department of Social and Health Services to provide detailed reports on outcomes of reorganizing the Office of Refugee and Immigrant Assistance. No funding was provided for these reports. For this reason, I have vetoed Section 207(4). The Department will keep the Legislature fully apprised of the progress of the reorganization.

Section 209(10), page 77, Department of Social and Health Services, Funds for Podiatry Services

This proviso declares that sufficient funds exist within Medical Assistance appropriations for the delivery of podiatry services as a part of the state's medical program. While there currently are sufficient funds, we need to allow the Department of Social and Health Services the widest range of fiscal flexibility to administer its programs should revenues continue to decline. For this reason, I have vetoed Section 209(10).

Section 209(11), page 77, Department of Social and Health Services, Funds for Adult Dental Services

This proviso declares that sufficient funds exist within Medical Assistance appropriations for the delivery of adult dental services as a part of the state's medical program. While there currently are sufficient funds, we need to allow the Department of Social and Health Services the widest range of fiscal flexibility to administer its programs should revenues continue to decline. For this reason, I have vetoed Section 209(11).

Section 209(14), page 77, Department of Social and Health Services, Funds for Family Planning Nurses

This proviso declares that sufficient funds exist within Medical Assistance appropriations for the staffing of family planning nurses in the state's community service offices as a part of the state's medical program. While there currently are sufficient funds, we need to allow the Department of Social and Health Services the widest range of fiscal flexibility to administer its programs should revenues continue to decline. For this reason, I have vetoed Section 209(14).

Section 209(15), page 77, Department of Social and Health Services, Analysis of Home Dialysis

The Department of Social and Health Services is directed to conduct an analysis of potential savings that may be generated by using home-based kidney dialysis. The state already provides this service when appropriate. Additionally, no funding was provided for this analysis. For these reasons, I have vetoed Section 209(15).

Section 209(33), page 81, Department of Social and Health Services, Graduate Medical Education payments

This proviso requires the Department of Social and Health Services to direct payments for the federal Graduate Medical Education Program (GME) to graduate programs that focus on primary care training. While I commend the effort to increase the level of primary care training, the method proposed by the proviso is not feasible. The University of Washington Medical Center and Harborview Medical Center are the only two participating GME programs. GME program payments are included as a part of their reimbursement for inpatient hospital services provided to state clients. There is no way for the Department to direct the payments exclusively to primary care training. For this reason, I have vetoed Section 209(33).

Section 222(3), page 94, Department of Health, Pesticide Incident Report and Review Panel

The Department of Health is required to continue the operations of the Pesticide Incident Report and Review Panel. The budget includes a 50 percent reduction in funding for this activity and for human pesticide exposure and poisoning programs. It is inappropriate to prioritize the activity of the panel over other activities and programs administered by the Department. For this reason, I have vetoed Section 222(3).

Section 222(20), page 96, Department of Health, Health Care Workforce Survey

This proviso declares that sufficient funds are provided for the continuation of the Health Care Workforce survey. Like all state agencies, the Department of Health is being asked to make significant service reductions. We need to allow the agency the widest range of fiscal flexibility to administer its programs should revenues continue to decline. For this reason, I have vetoed Section 222(20).

Section 223(2)(b), page 97, Department of Corrections, Pet Partnership Program at Women's Corrections Center

While this program has demonstrated benefits, the agency should have flexibility to prioritize its expenditures to accommodate the significant reductions reflected in this budget. For this reason, I have vetoed Section 223(2)(b).

Section 223(2)(f), page 98, Department of Corrections, Correction Savings Bills

This statement on bills that generated budget savings includes two bills that did not pass, Engrossed Senate Bill 6183 (Illegal Immigrant Offenders) and Substitute Senate Bill 6160 (Criminal Justice Sentencing). Therefore, I have vetoed Section 223(2)(f).

Section 302, page 104, lines 18-19, Department of Ecology, Emissions Reduction Assistance Account Appropriation

This section includes an appropriation from the Emissions Reduction Assistance Account, a new account created in Engrossed Second Substitute Senate Bill 5735 (Reducing Greenhouse Gas Emissions), a bill that did not pass. For this reason, I have vetoed this appropriation.

Section 303(4), page 110, State Parks and Recreation Commission, Actively Pursue Transfers of State Parks

This proviso would require the State Parks and Recreation Commission to actively pursue transferring ownership of state parks to local governments, tribes, or other entities. It also would require biennial updates of this effort to the Office of Financial Management and the appropriate fiscal committees of the Legislature. The Commission is already pursuing the transfer of certain state parks that are inconsistent with its long-range strategic Centennial plan. For this reason, I have vetoed section 303(4). However, I encourage the Commission to pursue the transfer of parks to other operators when it is appropriate and mutually beneficial and to provide updates to OFM and the appropriate fiscal committees of the Legislature no later than September 1, 2009.

Section 309(4), page 118, Department of Agriculture, Milk Price Stabilization Work Group and Report

This proviso requires the Department of Agriculture, within existing funds, to convene a meeting of dairy industry members to consider methods to stabilize milk prices, and to report findings to the Legislature. No funding was provided for these activities. For this reason, I have vetoed Section 309(4). I encourage the Department to work with the dairy industry to develop strategies to pursue with our congressional delegation.

Section 401, page 120, lines 7, 17 and 18, Cemetery Account and Funeral Directors and Embalmers Account

Funds from the Cemetery Account and the Funeral Directors and Embalmers Account are appropriated to the Department of Licensing. These accounts were repealed on April 15, 2009, when I signed Engrossed Substitute House Bill 2126, the Cemetery and Funeral Directors Boards bill. For this reason, I have vetoed Section 401, lines 7, 17, and 18.

Section 402(3), page 122, Washington State Patrol, King Air Cost Recovery

The State Patrol will continue to charge other agencies for the use of its planes, but State Patrol security responsibilities have historically been funded in the agency's aviation budget. For this reason, I have vetoed Section 402(3).

Section 614(1), pages 186-187, Workforce Training and Education Coordinating Board

This proviso attempts to direct the 's discretionary Workforce Investment Act (WIA) funds to the Workforce Training and Education Coordinating Board to begin work on the Opportunity Internship Program. While I am committed to the success of this new effort, the Board does not control the federal WIA funds, and it is inappropriate to direct the 's flexible pool in this manner. I will work with the Board to find a solution that will enable this important work to begin, but have vetoed Section 614(1).

Section 805, page 205, lines 29-31, Transfers from the State Convention and Trade Center Account to the State General Fund

This appropriation implements the transfer from the State Convention and Trade Center Account to the State General Fund authorized in Section 948. Since I have vetoed that authorization, I have also vetoed Section 805, lines 29-31.

Section 805, page 206, lines 33-35, Transfer from the Performance Audits of Government Account to the State General Fund

Although the Performance Audits of Government Account has accumulated a surplus fund balance during initiation of the State Auditor's program, a transfer of \$29.24 million would significantly detract from the state's ability to conduct performance audits in the future. However, because all of state government must make reductions in these tough economic times, the Auditor has committed to a \$15 million transfer that can be accomplished in the next legislative session. For these reasons, I have vetoed Section 805, lines 33-35.

Section 936, pages 231-232, Savings Incentive Program Report

This section amends RCW 43.79.460 and Section 902, Chapter 4, Laws of 2009, delaying the requirement for the annual Savings Incentive Report until December 2010. Engrossed Substitute House Bill 2327 amends the same statute, but eliminates the report permanently, causing conflicting language. To eliminate conflicting amendments, I have vetoed Section 936.

Section 948, pages 246-248, State Convention and Trade Center Account

Section 948 amends RCW 67.40.040 and Section 917, Chapter 329, Laws of 2008 and Section 6011, Chapter 328, Laws of 2008, defining eligible uses of funds in the State Convention and Trade Center Account, and suspends for the 2009-11 Biennium the retention requirement and transfers to tourism accounts. With the 2010 Olympics being held in Vancouver, British Columbia, we have a unique opportunity to attract tourists to the state of Washington in the next fiscal year. Tourism spending in Washington directly supports nearly 150,000 jobs for our residents -- jobs that are vital to our economic recovery. In addition, while I believe the Fiscal Year 2009 transfer can be accomplished, it may

be called into question because of the language in this proviso. This would adversely affect the 2009 supplemental budget. A clean transfer of funds can be accomplished in the 2010 supplemental budget. For these reasons, I have vetoed Section 948.

Section 955, pages 258-259, Department of Fish and Wildlife, Eastern Washington Pheasant Enhancement Account

This section requires that no less than 80 percent of the funds from the Eastern Washington Pheasant Enhancement Account are to be used to purchase or produce pheasants. Substitute House Bill 1778 which I signed on May 5, 2009, removes the 80 percent requirement, which allows the Department more flexibility for habitat development and other long-term actions to improve pheasant production. For this reason, I have vetoed Section 955.

Section 1104(1), page 302, lines 14-15, Department of Social and Health Services, Mental Health Services

Section 1104(2), page 306, lines 22-23, Department of Social and Health Services, Mental Health Services

Section 1105(1), page 310, lines 3-4, Department of Social and Health Services, Developmental Disabilities Community Services

These reductions to Fiscal Year 2009 appropriation are vetoed in order to retain a total of \$32.276 million to ensure that the Department of Social and Health Services has sufficient resources to cover caseload and related costs in Medical Assistance. For this reason, I have vetoed Section 1104(1), lines 14-15; Section 1104(2), lines 22-23; and Section 1105(1), lines 3 and 4.

A number of appropriations in Engrossed Substitute House Bill 1244 are contingent upon separate legislation, with legislative direction that the appropriations will lapse if the bills are not enacted. The following vetoes relate to bills that did not pass:

Section 103(6), page 4, Joint Legislative Audit and Review Committee, Engrossed Substitute House Bill 2338, (Growth Management Hearings Board)

Section 128(11), pages 23-24, Department of Community, Trade and Economic Development, Engrossed Substitute Senate Bill 5840, (Energy Independence)

Section 128(24), page 26, Department of Community, Trade and Economic Development, Second Substitute House Bill 1797, (Rural and Resource Lands Study)

Section 137(4), page 33, Department of Revenue, Substitute House Bill 1597, (Tax Administration)

Section 152, page 39, lines 20-26, Public Employment Relations Commission, Substitute House Bill 1329, (Child Care Center Collective Bargaining)

Christine O. Gregoire

May 6, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Section 1, Second Substitute House Bill 1484 entitled:

"AN ACT Relating to habitat open space."

I am vetoing Section 1 of this bill, regarding the use of the riparian open space program to protect critical habitat for threatened or endangered species. The language in Section 1 of this bill is identical to language adopted into law when I signed SSB 5401 earlier this session. For this reason, I have vetoed Section 1 of Second Substitute House Bill 1484.

With the exception of Section 1, Second Substitute House Bill 1484 is approved.

Respectfully submitted,
Christine Gregoire

April 21, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute House Bill 1518 entitled:

"AN ACT Relating to prohibited practices in accountancy."

This bill is identical to Substitute Senate Bill 5434 which I signed on April 16, 2009. Because the provisions of that identical bill are already law, I am vetoing Substitute House Bill 1518 to avoid duplication and confusion.

For this reason I have vetoed Substitute House Bill 1518 in its entirety.

Respectfully submitted,
Christine Gregoire

May 18, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

I am returning, without my approval, House Bill 1527 entitled:

"AN ACT Relating to Medicaid payment rates for boarding homes."

This bill requires that prior to adjusting boarding home Medicaid rates, the Department of Social and Health Services (Department) must convene at least one public hearing to inform boarding home providers how the adjustments were calculated and to review all factors considered in implementing the adjustments.

With such a hearing already required under the Administrative Procedures Act, this bill would lead to confusion, unnecessary duplication, and additional costs. There are better ways for the Department to improve communication regarding the boarding home reimbursement system, and I have directed them to undertake such communication efforts in lieu of placing this requirement in statute.

For this reason, I have vetoed House Bill 1527 in its entirety.

Respectfully submitted,
Christine O. Gregoire

May 5, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Section 53, Substitute House Bill 1778 entitled:

"AN ACT Relating to modernizing certain provisions in Title 77 RCW regarding fish and wildlife."

Section 53 provides the legislative intent and findings for the wildlife interactions portion of this bill. I am concerned that this section of the bill is overly broad and may lead to unintended consequences regarding expectations of the wildlife interaction program modified by this act. I do not believe that vetoing this section will in any way hinder the implementation of this program. For these reasons, I have vetoed Section 53 of Substitute House Bill 1778.

With the exception of Section 53, Substitute House Bill 1778 is approved.

Respectfully submitted,
Christine Gregoire

April 25, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 11, Engrossed Second Substitute House Bill 2021 entitled:

"AN ACT Relating to revitalizing student financial aid."

Section 11 duplicates changes to the State Work-Study Program made in Substitute Senate Bill 5044 which I signed on April 22, 2009. I agree with the policy, but as the other bill amends the same statute in the same way, there is no need for this section.

For this reason, I have vetoed Section 11 of Engrossed Second Substitute House Bill 2021.

With the exception of Section 11, Engrossed Second Substitute House Bill number 2021 is approved.

Respectfully submitted,
Christine Gregoire

April 13, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, Substitute House Bill 2071 entitled:

"AN ACT Relating to increasing the earning potential of parents of needy families."

I am vetoing the intent section, Section 1 of the bill, because it is broader than the substantive language in the bill. The substantive language of the bill was changed during the legislative process and the language of Section 1 reflects the content of the original bill, rather than the substitute. The intent section could cause unintended consequences and might result in increased liability for the state. Vetoing the intent section does not impede implementation of the bill.

For these reasons, I have vetoed Section 1 of Substitute House Bill 2071.

With the exception of Section 1, Substitute House Bill 2071 is approved.

Respectfully submitted,
Christine Gregoire

May 15, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Sections 2, 5, 6, 7 and 19, Engrossed Substitute House Bill 2072 entitled:

"AN ACT Relating to advancing effective transportation for persons with special transportation needs."

Section 19 of the bill makes the provisions of the legislation null and void if sufficient funding to implement the legislation is not included in the 2009-11 Transportation Budget. The 2009-11 Transportation Budget does include sufficient funding to implement portions of the legislation, but not the entire bill. I have decided to veto Sections 2, 5, 6 and 7 of the legislation that do not have sufficient funding for implementation, as well as the null and void clause in Section 19. As a result, we will be able to move forward with providing special needs transportation services in a more coordinated and efficient manner, without imposing unfunded mandates on state agencies.

For these reasons, I have vetoed Sections 2, 5, 6, 7 and 19 of Engrossed Substitute House Bill 2072.

With the exception of Sections 2, 5, 6, 7 and 19, Engrossed Substitute House Bill 2072 is approved.

Respectfully submitted,
Christine Gregoire

May 19, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Sections 1, 14 and 19, Second Substitute House Bill 2106 entitled:

"AN ACT Relating to improving child welfare outcomes through the phased implementation of strategic and proven reforms."

Section 1 of the bill is an intent section and includes a sentence that says "It is the duty of the state to provide children at risk of out-of-home placement and their families with reasonable opportunities to access supportive services that enhance their safety and well-being." The bill does not define the term "children at risk of out-of-home placement," but does define "child welfare services" broadly. This section may be interpreted as creating a broad new entitlement that I do not believe was intended.

Section 14 amends RCW 74.15.030 to specify that unfounded allegations of child abuse or neglect shall be disclosed to supervising agencies. This language is in direct conflict with existing statutory language in RCW 26.44.031(4) which specifies that an unfounded, screened-out, or inconclusive report may not be disclosed to any licensed provider.

Section 19 directs the Department of Social and Health Services (Department) to, "within existing resources...develop a curriculum to train child protective services staff in forensic techniques used for investigating allegations of child abuse and neglect." The Department cannot absorb costs associated with unfunded new activities at this time. I agree with the goal of ensuring the quality of our investigations and the local investigation protocols involving the Department, law enforcement and prosecutors are an existing mechanism that can be used to further this goal.

For these reasons, I have vetoed Sections 1, 14 and 19 of Second Substitute House Bill 2106.

With the exception of sections 1, 14 and 19, Second Substitute House Bill 2106 is approved.

Respectfully submitted,
Christine O. Gregoire

May 12, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Section 3, Engrossed Substitute House Bill 2128 entitled:

"AN ACT Relating to meeting the goal of all children in Washington having health care coverage by 2010."

Section 3 requires the Department of Social and Health Services to identify a staff position as the single point of contact and coordination for the Apple Health for Kids program. While I appreciate the intent of this section, I believe it inappropriate to direct in statute how an agency must staff a particular program. Especially in this difficult economic time, agencies must have the flexibility to allocate limited staff resources in the way which best suits all of their activities. Nonetheless, I will direct the Department to appoint someone to oversee this program.

For this reason, I have vetoed Section 3 of Engrossed Substitute House Bill 2128.

With the exception of Section 3, Engrossed Substitute House Bill 2128 is approved.

Respectfully submitted,
Christine O. Gregoire

May 11, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Section 4, House Bill 2129 entitled:

"AN ACT Relating to the greenhouse gas emissions performance standard under chapter 80.80 RCW."

Section 4 allows the governing boards of public utilities to exempt themselves from performance standards if they find "extraordinary cost impacts on utility ratepayers." I am vetoing this section because there is no clear definition of what these impacts may be on ratepayers, no process by which other parties would have the opportunity to present evidence and argument opposing a proposed exemption, and no clear legal framework that assures transparency and accountability.

For these reasons, I have vetoed Section 4 of House Bill 2129.

With the exception of Section 4, House Bill No. 2129 is approved.

Respectfully submitted,
Christine Gregoire

May 18, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Sections 1, 3, 5, 6, 7, 13, 14 and 16, Engrossed Second Substitute House Bill 2227 entitled:

"AN ACT Relating to green jobs."

The Evergreen Jobs Act is another important step toward Washington's leadership in the emerging green economy.

The bill provides for improved information about employer needs and builds on the Employment Security Department's great effort around defining and forecasting green jobs. The bill promotes the development of green job training programs and more effective utilization of apprenticeships in filling green job employment demands. Finally, the bill creates the Evergreen Jobs Training Account which lays the foundation for future investments in workers and skills in this key segment of the economy.

In addition to these important steps forward, the bill includes some administrative provisions and other requirements that were not funded in the final budget. As a result, the intent sections in Section 1; the leadership team, duties, and related definitions in Sections 3, 5 and 6; requirements around training development that are not consistent with federal timelines in Section 7; and some technical provisions in Sections 13, 14 and 16 are vetoed.

Although the reporting requirements of Section 4 are not being vetoed, they have raised concerns about data availability, duplication of effort, and staff burden. Section 4 is retained with the understanding that the sponsor, the Department, and others will work together to identify appropriate measures and reporting.

Having vetoed the specific requirements around procedures, task forces, and reports, it must be noted that the goal of a more unified strategy for green jobs and some necessary, immediate steps forward are retained from this bill. Although some of the mechanisms in the bill are removed by veto, the state commitment to developing world class curricula and promoting green jobs remains vital and the sections of the Evergreen Jobs Act that are retained are a significant contribution to that effort.

For these reasons, I have vetoed Sections 1, 3, 5, 6, 7, 13, 14 and 16 of Engrossed Second Substitute House Bill 2227.

With the exception of Sections 1, 3, 5, 6, 7, 13, 14, and 16 Engrossed Second Substitute House Bill 2227 is approved.

Respectfully submitted,
Christine O. Gregoire

May 19, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Section 56, Engrossed House Bill 2242 entitled:

"AN ACT Relating to creating a department of commerce."

Section 56 inadvertently removes the State Energy Program from the Revised Code of Washington. De-codifying the Energy Office was not the intent of this executive request legislation. I, therefore, have vetoed Section 56.

For these reasons, I have vetoed Section 56 of Engrossed House Bill 2242.

With the exception of Section 56, Engrossed House Bill 2242 is approved.

Respectfully submitted,
Christine O. Gregoire

May 19, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Sections 115 and 709, Engrossed Substitute House Bill 2261 entitled:

"AN ACT Relating to education."

In this legislation a number of programs and formulae are to be developed to expand our state's definition of basic education. Section 115 initiates the development of an early learning program for at-risk three- and four-year olds. The bill indicates that this program is to become part of the definition of basic education. If early childhood education is to become part of our definition of basic education it cannot be made available only to at-risk children. I am deeply and personally committed to providing quality early learning programs for all of our children and will continue to work to develop an early learning program worthy of our earliest learners. I am asking Superintendent of Public Instruction Randy Dom and Department of Early Learning Director Betty Hyde to work together to bring a proposal forward that ensures all Washington children have the benefit of early childhood education.

One of the several tasks in Engrossed Substitute House Bill 2261 is the creation of funding formulas to support the program components of a new definition of basic education and to develop a timeline for the implementation of the funding formulas along with programmatic changes. Section 709 requires the state to provide a safety net of resources for students identified by school districts as meeting local requirements for participation in a highly capable program, but for which the allocation does not provide enough support.

Section 709 is not necessary because Section 708 of the bill makes it clear that the highly capable program is not intended to be an entitlement to individual students. This section also has two troubling features: First, local school districts make the determination as to the qualifications for their highly capable programs and the types of programs offered, and by this language locally defined costs are forwarded to the state for payment without regard to other basic education program or other funding needs. Second, the state is required to provide a highly capable program safety net.

As the basic education definition evolves in this legislation, the timeline for implementation of various programs and formulae is left to the Quality Education Council. This specific provision makes the highly capable program the first task for funding, in essence prioritizing this program over all other aspects of basic education funding under consideration. Much work is left to be done to establish standards, guidelines and definitions for what constitutes a highly capable program and what the funding level should be for such a program.

For these reasons I am vetoing Sections 115 and 709 of Engrossed Substitute House Bill 2261.

With the exception of Sections 115 and 709, Engrossed Substitute House Bill 2261 is approved.

Respectfully submitted,
Christine O. Gregoire

May 15, 2009

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Section 7, Engrossed Substitute House Bill 2327 entitled:

"AN ACT Relating to eliminating or reducing the frequency of reports prepared by state agencies."

Section 7 of Engrossed Substitute House Bill 2327 conflicts with Section 13 of Substitute Senate Bill 6171 that I signed on May 14, 2009. Section 7 eliminates a report on adverse events and incidents at medical facilities because there is no funding for this task. However, Section 13 of Substitute Senate Bill 6171 clarifies that this report is contingent on available funding.

For this reason, I have vetoed Section 7 of Engrossed Substitute House Bill 2327.

With the exception of Section 7, Engrossed Substitute House Bill 2327 is approved.

Respectfully submitted,
Christine O. Gregoire
