(8) The vessel's country or state of registration and registration number.

Provides that, beginning June 30, 2007, and on the last day of March, June, September, and December of each year thereafter until July 1, 2010, the state treasurer shall transfer five hundred thousand dollars to the derelict vessel removal account created under RCW 79.100.100.

Declares that, in order to address the significant backlog of derelict vessels that have accumulated in our state's waters that pose a threat to the health and safety of the people and to our environment, the legislature intends to collect a derelict vessel removal surcharge, until the backlog as it exists on the effective date of this act has been eliminated.

Requires the department of natural resources to submit a list that identifies the backlog of derelict vessels as of the effective date of this act to the appropriate policy and fiscal committees of the legislature. Upon completion of the elimination of the backlog, the department of natural resources shall notify the appropriate policy and fiscal committees of the legislature and the department of licensing, in writing, to suspend collection of the surcharge at the end of the fiscal year in which the backlog has been eliminated. Upon receipt of the notice to suspend collection of the surcharge, the department of licensing shall cease collection at the end of the fiscal year in which the notice is received.

Requires the department of natural resources and the department of revenue to examine the costs and benefits of extending the derelict vessel removal fees and surcharges to the vessels that are not subject to RCW 88.02.050 in order to provide for more equity in the derelict vessel removal program and the fees that support the program. The departments shall submit a report of the findings to the appropriate policy and fiscal committees of the legislature by November 1, 2007.

SB 6044-S by Senate Committee on Natural Resources, Ocean & Recreation (originally sponsored by Senators Rockefeller and Swecker)

(SUBSTITUTED FOR - SEE 2ND SUB)

Provides that a marina that leases permanent moorage to vessels must require the following information from the lessee as a condition of leasing moorage space: (1) The name of the legal owner of the vessel;

(2) A local contact person, if different than the owner;

(3) The owner's address and telephone number;

(4) The vessel's hull identification number;

(5) The vessel's coast guard registration, if applicable;

(6) The vessel's home port;

(7) The date on which the moorage lease began; and

(8) The vessel's country or state of registration and registration number.

Provides that, beginning June 30, 2007, and on the last day of March, June, September, and December of each year thereafter until July 1, 2010, the state treasurer shall transfer five hundred thousand dollars to the derelict vessel removal account created under RCW 79.100.100.

Declares that, in order to address the significant backlog of derelict vessels that have accumulated in our state's waters that pose a threat to the health and safety of the people and to our environment, the legislature intends to collect a derelict vessel

removal surcharge, until the backlog as it exists on the effective date of this act has been eliminated.

SB 6044-S2 by Senate Committee on Ways & Means (originally sponsored by Senators Rockefeller and Swecker)

(DIGEST AS ENACTED)

Authorizes a marina owner to contract with a local government for the purpose of participating in the derelict vessel removal program. The local government shall serve as the authorized public entity for the removal of the derelict vessel from the marina owner's property. The contract must provide for the marina owner to be financially responsible for the removal costs that are not reimbursed by the department as provided under RCW 79.100.100, and any additional reasonable administrative costs incurred by the local government during the removal of the derelict vessel. Prior to the commencement of any removal which will seek reimbursement from the derelict vessel removal program, the contract and the proposed vessel removal shall be submitted to the department for review and approval. The local government shall use the procedure specified under RCW 79.100.100(6).

Declares that, in order to address the significant backlog of derelict vessels that have accumulated in our state's waters that pose a threat to the health and safety of the people and to our environment, the legislature intends to collect a derelict vessel removal surcharge.

Provides that, in addition to the fees collected under RCW 88.02.050, the department shall collect an annual derelict vessel removal surcharge of one dollar. The revenue generated from the derelict vessel surcharge must be deposited into the derelict vessel removal account established under RCW 79.100.100.

Expires January 1, 2014.

Requires the department of natural resources, in consultation with the department of revenue, the department of licensing, and other appropriate stakeholder groups, to examine: (1) The costs and benefits of extending a derelict vessel removal fee or surcharges to vessels that are not subject to RCW 88.02.050; and

(2) The use of alternative revenue sources, such as the watercraft excise tax, in order to more equitably distribute the financial responsibility of supporting the cost of the derelict vessel program. The departments shall submit a report of the findings to the appropriate policy and fiscal committees of the legislature by November 1, 2007.

Directs the department of natural resources, the department of ecology, representatives from the ship demolition industry, and representatives from the environmental community to convene a work group to discuss operations and permitting requirements surrounding the demolition and disposal of large abandoned and derelict vessels. The department of natural resources shall consider the findings of the work group when updating the guidelines for the derelict vessel program.

Companion Bill: 2321

Regarding student privacy rights.

Declares an intent, in the interest of student confidentiality,
that school districts minimize the release of student telephone
numbers and other directory information in the absence of express
parental consent. The legislature finds that the nondisclosure of
student telephone numbers and other directory information
reduces the possibility of harassment of students and their
families by organizations that received student information.

Provides that, by September 1, 2007, each school district
shall provide separate written notice to every public high school
student and his or her parent or legal guardian informing the
students, parents, and guardians: (1) Of their right to request,
pursuant to 20 U.S.C. Sec. 7908(a)(2), that the student's directory
information not be released to recruiters without the prior written
consent of the student's parent or guardian or the student;

(2) That if they do not request that the student's directory
information be withheld from some or all recruiters by the
thirtieth day of the new school year, the school may release the
student's directory information if requested to do so by a
recruiter; and

(3) Of the obligation of all males between the ages of eighteen
and twenty-five years to register with selective services within
thirty days of their eighteenth birthday and information regarding
how to register.

Provides that, in a prosecution for theft in the first or second
degree, the prosecution may file a special allegation of
disproportionate impact when sufficient admissible evidence
exists, which, when considered with the most plausible,
reasonably foreseeable defense that could be raised under the
evidence, would justify a finding by a reasonable and objective
fact-finder that the damage to the victim greatly exceeds the value
of the stolen property.

Provides that an additional twelve months and one day shall

SB 6053 by Senators Spanel, Jacobsen, Haugen, Hargrove, Hatfield, Morton, Murray, Fairley, and Kohl-Welles
Regarding the management of the state's food fish and shellfish resources.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that the state's food fish and shellfish resources are of great cultural and economic value to the state, providing benefits to commercial and recreational fishers, resource-based

communities, the tourism industry, and all the citizens of Washington.

Finds that management of this precious resource is a challenging task that requires constant attention to issues including habitat, biology, harvest, water quality and quantity, and monitoring. Food fish and shellfish management also requires regular discussions and negotiations with local, regional, national, international, and tribal entities.

Declares that, in order to achieve the long-term sustainability of Washington's food fish and shellfish resource, the state must have a mechanism to evaluate and hold the manager of this resource accountable for those rules and policies adopted or foregone. The legislature finds that it is in the best interest of both Washington and the resource to provide management authority over food fish and shellfish to an individual who has expertise in fisheries issues, who is available full time to respond to matters involving the resource, and who may readily be held accountable to the people of the state, to the legislature, and to the governor.

Declares an intent for the director of fish and wildlife to manage the state's food fish and shellfish resources. Further, the legislature intends for the director to exercise all authorities and rule-making power provided to the department regarding: Management and harvest of food fish and shellfish; licensing and management of the state's commercial fisheries; aquatic animal species infestations; hydraulic project approvals and fishways; salmon enhancement and recovery activities; aquaculture disease control; ballast water management; and marine fin fish aquaculture programs.

Declares that this act transfers management authority and rule-making power over food fish, shellfish, and other specified matters from the fish and wildlife commission to the director of the department of fish and wildlife. No substantive fish and wildlife policy changes are intended.

Declares that the transfer of management authority and rule-making power from the fish and wildlife commission to the director of the department of fish and wildlife provided for in this act does not invalidate policies or rules adopted under the authority of the fish and wildlife commission prior to the effective date of this act.

SB 6053-S by Senate Committee on Natural Resources, Ocean & Recreation (originally sponsored by Senators Spanel, Jacobsen, Haugen, Hargrove, Hatfield, Morton, Murray, Fairley, and Kohl-Welles)

Creating a legislative task force on the structure of the department of fish and wildlife.

(AS OF SENATE 2ND READING 3/14/2007)

Establishes a legislative task force on the structure of the department of fish and wildlife, with members as provided in this act.

Requires the task force to report its findings and recommendations to the governor, the fish and wildlife commission, the director of fish and wildlife, and the appropriate committees of the legislature by December 1, 2007. Final recommendations shall be officially adopted according to rules agreed to by a majority of the legislators or the task force.

Requiring a study to evaluate the use of sugar beets for the production of biofuel.

Requires the Washington State University agricultural research center for bioproducts and bioenergy to conduct a study that includes the potential and suitability of growing sugar beets for biofuel production that evaluates the following factors: (1) Current and potential availability of sugar beet feedstock sources in the state;

(2) Suitability of growing conditions in various regions of the state;

(3) Expected fuel yield per acre, in relation to other potential biofuel feedstocks;

(4) Technological feasibility of converting sugar beets into fuel;

(5) Economic feasibility of growing sugar beets for production of biofuel;

(6) A description of the infrastructure needed including processing plants and machinery;

(7) The opportunity to produce coproducts and by-products such as an alternative feed source for livestock; and

(8) Potential contributions to rural economic development.

Requires that, by December 1, 2009, the Washington State University agricultural research center for bioproducts and bioenergy shall provide a written report to the chief clerk of the house of representatives and to the secretary of the senate containing the findings and conclusions of its study.

Appropriates the sum of one hundred twenty-five thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2008, from the general fund to the Washington State University agricultural research center for bioproducts and bioenergy for the purposes of this act.

SB 6057 by Senators Schoesler, Franklin, Carrell, Keiser, Regala, Marr, Fairley, Shin, Rasmussen, and Roach

Companion Bill: 2187

Improving safety conditions in state hospitals.

Finds that the continuing number of assaults in state hospitals have made conditions for both patients and staff unacceptable. The legislature further finds that appropriate nurse staffing levels will result in improved patient and staff safety and a reduction in the number of workplace injuries. Therefore, to improve safety conditions in the state hospitals, the legislature intends that minimum patient assignment limits and nurse staffing ratios and

other safety measures be implemented as an urgent public policy priority.

Requires that, by January 1, 2008, the department must establish, after considering the recommendations of the staffing committee: (1) Patient assignment limits by nursing personnel classification; and

(2) A staffing ratio for each patient care unit at a state hospital.

Requires each state hospital to ensure that all nursing personnel are equipped with a properly functioning personal alarm at all times that the employee is on duty.

Requires each state hospital to provide staff with protective safety equipment. The state hospital and the safety committee must determine within six months of the effective date of this act: (1) The types of equipment needed;

(2) The proper locations to store the equipment;

(3) The quantities of equipment necessary to ensure that all staff are equipped with or have easy access to personal protective equipment; and

(4) Policies on the effective use of the equipment.

Requires the department of labor and industries to inspect the state hospitals every six months to determine whether the provisions of this act are being followed. The department of labor and industries shall report to the legislature by November 25, 2007, with annual reports due by December 15th thereafter.

SB 6060 by Senator Kline

Regarding unlawful detainer action proceedings and notice for nonpayment of rent.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares an intent to create a clear, efficient, and fair process for both tenants and landlords in the determination of unlawful detainer actions. Landlord-tenant laws and proceedings are often complex and confusing. Tenants and landlords are insufficiently educated about the law and are often unrepresented by counsel in legal proceedings that determine possession of a home. The legislature has created a special process for those proceedings where nonpayment of rent is alleged. Because of the short timelines in those proceedings and the important property rights at stake, the legislature intends that this process be clarified in terms of the notice provided to tenants by landlords who utilize this special proceeding in evicting a tenant for nonpayment of rent.

SB 6061 by Senators Tom, Weinstein, Kohl-Welles, Prentice,
and Poulsen

Concerning the confinement of a caged egg laying hen.

Declares that a person is guilty of restrictive confinement of a caged egg laying hen if he or she confines any caged egg laying hen, for all hours or the majority of the day, to a living space that does not allow each caged egg laying hen sufficient space to fully extend both wings without touching the sides of the living space or other birds.

Applies to commercial egg production and operations that are required to be licensed under chapter 69.25 RCW.

SB 6081-S by Senate Committee on Ways & Means (originally sponsored by Senators Parlette, Poulsen, Honeyford, and Rasmussen)

(AS OF SENATE 2ND READING 3/13/2007)

Provides that, in counties that do not contain any nonattainment or maintenance areas designated under the federal clean air act for pollutants emitted by outdoor burning, such burning may continue to be allowed until July 1, 2008, within the urban growth areas, as defined in RCW 36.70A.030, for cities having a population of less than two thousand five hundred people, as determined by the office of financial management, if the city legislative authority, after public hearing and due public involvement process, through majority vote, decides to allow burning to continue. Cities electing to continue burning must submit vegetative waste management plans to the department by June 30, 2008, that identify adopted alternative practices to burning and begin implementing alternative practices by July 1, 2008.

Directs the department to convene a work group with representatives of affected stakeholders to assess opportunities, other than burning, to manage vegetative solid waste and recommend best management practices, consistent with good solid waste management practices, that work for smaller communities. The work group recommendations must be completed by December 31, 2007. The department shall provide the recommendations to the cities electing to continue burning and to the appropriate standing committees of the legislature.

Addressing unemployment insurance for employees who voluntarily quit work.

(SEE ALSO PROPOSED 1ST SUB)

Finds that the changes in chapter 4, Laws of 2003 2nd sp. sess. to the voluntary quit portions of the state's unemployment compensation laws have disproportionately affected women.

Finds that the December 2006 report by the employment security department on their review of unemployment claims filed from July 1, 2004, through June 30, 2005, indicates that the three categories of reasons why people who were denied benefits left their jobs was due to factors such as reduction in hours or wages; domestic or marital responsibilities; and illness or disability of the claimant or an immediate family member. Of these categories, domestic or marital responsibility showed the most significant disparity along gender lines. The legislature finds that more than seventy-one percent of all denials in this category were women.

Declares that the previous changes to the voluntary quit provisions had an unexpected gender impact and that this impact should be remedied.

Ensuring valid voter signatures on petitions count.

Declares an intent to require that valid voter signatures on initiative and referendum petitions be counted by the secretary of state. To disenfranchise a valid voter signature solely because of a signature gatherer's conduct is inconsistent with our state Constitution, as expounded by the Washington supreme court in *Sudduth v. Chapman*, 88 Wn.2d 274, 558 P.2d 806 (1977). If the voter's signature on a petition matches the signature on the voter's registration, then the valid voter's signature must be counted.

Provides that every person who gathers signatures for this petition is warned that, under chapter 29A.84 RCW, forgery of signatures on this petition constitutes a class C felony, and that offering any consideration or gratuity to any person to induce them to sign a petition is a gross misdemeanor, such violations being punishable by fine or imprisonment or both. Every person who interferes with the signature gathering process is warned that, under RCW 9A.46.020, any conduct constituting harassment against a petition signature gatherer is a gross misdemeanor, such violations being punishable by fine or imprisonment or both. This penalty does not preclude the victim from seeking any other remedy otherwise available under law.

Provides that initiative and referendum petitions shall not require the signature gatherer to put their name, address, city, state, and zip code on the petition to ensure the safety of those individuals and to protect them from, and make them less susceptible to, intimidation, retaliation, or harassment.

SB 6088 by Senators Jacobsen, Morton, Fraser, Brandland, Hargrove, and Rasmussen

Revising state trust land management policies.

Finds that state demographic, economic, environmental, and climate trends result in a need to change management policies of state lands. Recent studies indicate that a continuing loss of working timber lands may threaten the long-term outlook for the state's timber products industry. The majority of revenues from state lands are derived from the harvest of timber. The economic activity and jobs in the timber products industry also produce other tax revenues important to local communities and the beneficiaries of income from state lands. Continuation of this primary source of revenue is dependent on the continued viability of the state's timber products industry.

Finds that long-term growth in state population and pressures from environmental and climate changes will create important new values derived from state natural resource lands. In addition to income from the sustainable harvest of timber, these lands also provide water storage, improved water quality, carbon sequestration, habitat, and recreation. These additional values are likely to yield very significant long-term investment returns to the beneficiaries of state lands and to all the people of the state.

Declares that the long-term stewardship of state lands requires a planning and investment horizon that considers demographic, economic, environmental, and climate trends of fifty to one hundred years or more. Long-term stewardship of state lands balances the need for short-term income with an equal focus on long-term benefits from state lands for future generation.

Declares an intent to preserve and enhance state land holdings of working natural resource lands to achieve a sustained and perpetual return for current and future generations of beneficiaries of state lands. The long-term stewardship of state lands will also benefit the communities that depend on these lands, and all the people of the state.

Provides that the department shall not acquire additional commercial properties as state lands after the effective date of this act. The department, in cooperation with the state investment board, shall develop a plan to transition commercial properties to the state investment board or to land-holding firms on behalf of the state investment board, or to dispose of the commercial properties and reinvest the proceeds in working natural resource lands that are at high risk of conversion out of working timber land status. The department shall evaluate the investment return for these natural resource lands at risk of conversion by also including the value of leasing development rights as permitted in chapter 79.13 RCW. The legislature intends that this transition will be complete by June 30, 2013. The department shall submit the transition plan to the appropriate committees of the legislature

by December 1, 2008, and shall submit progress reports showing implementation of the plan by December 1, 2010, and December 1, 2012.

Companion Bill: 2136

Creating the improving core subject instruction for all students pilot program.

Declares that the purpose of the program in this act is to continue support to the existing pilot districts and to encourage other school districts to participate as pilot districts to improve the implementation of high quality general education research-based core instructional programs to meet the needs of students struggling academically, while reducing the number of students inappropriately referred and placed in special education under the specific learning disability eligibility category because of ineffective instructional practices. This will allow special education programs to concentrate specially designed instruction on students who truly require special education services. The goal of this assistance is to effectively address reading, written language, and mathematics difficulties resulting in a substantially greater proportion of students meeting the progressively increasing performance standards for both the aggregate and disaggregated subgroups under federal law.

Provides that seven school districts may participate in the special services pilot program, including two school districts already participating and five additional school districts. The special services pilot program shall begin in the 2007-08 school year and conclude in the 2010-11 school year.

Requires that, by December 15, 2010, the superintendent of public instruction shall submit a report to the governor and appropriate committees of the legislature that summarizes the effectiveness of the pilot program in this act. The report shall also include a recommendation as to whether or not the pilot program should be continued, expanded, or otherwise modified.

Hiring a mediator to help the department of transportation develop a state route number 520 expansion impact plan.

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires that, as soon as practicable after the effective date of this act, the department shall hire a mediator, and appropriate planning staff, including urban, transportation, and neighborhood planners, to assist the department in developing a state route number 520 expansion impact plan for addressing the impacts of the state route number 520 bridge replacement and HOV project on Seattle neighborhoods, parks, and institutions of higher education, and the city of Seattle.

Requires the state route number 520 expansion impact plan to be submitted to the commission, which shall oversee the development of the plan. The commission shall approve the plan sixty days before the propositions required under RCW 36.120.070(2) and 81.112.030(10) are submitted to regional voters at the 2007 general election, or before the beginning of the 2008 regular legislative session.

SB 6099-S by Senate Committee on Transportation (originally sponsored by Senator Murray)

Hiring a mediator to help the department of transportation develop a state route number 520 expansion impact plan. (REVISED FOR ENGROSSED: Addressing the state route number 520 bridge replacement and HOV project.) (REVISED FOR PASSED LEGISLATURE: Regarding the state route number 520 bridge replacement and HOV project.)

(DIGEST AS ENACTED)

Requires that, as soon as practicable after the effective date of this act, the department shall hire a mediator, and appropriate planning staff, including urban, transportation, and neighborhood planners, to assist the department in developing a state route number 520 expansion impact plan for addressing the impacts of the state route number 520 bridge replacement and HOV project

on Seattle neighborhoods, parks, and institutions of higher education, and the city of Seattle.

Provides that, until December 1, 2008, the mediator must provide periodic reports to the joint transportation committee and the governor regarding the status of the project impact plan development process. The mediator must submit a progress report to the joint transportation committee and the governor by August 1, 2007. The mediator must submit a final project impact plan to the governor and legislature by December 1, 2008.

Requires that, as part of the state route number 520 bridge replacement and HOV project, the governor's office shall work with the department, sound transit, King county metro, and the University of Washington, to plan for high capacity transportation in the state route number 520 corridor. The parties shall jointly develop a multimodal transportation plan that ensures the effective and efficient coordination of bus services and light rail services throughout the state route number 520 corridor. The plan shall include alternatives for a multimodal transit station that serves the state route number 520 - Montlake interchange vicinity, and mitigation of impacts on affected parties. The high capacity transportation planning work must be closely coordinated with the state route number 520 bridge replacement and HOV project's environmental planning process, and must be completed within the current funding for the project. A draft plan must be submitted to the governor and the joint transportation committee by October 1, 2007. A final plan must be submitted to the governor and the joint transportation committee by December 2008.

Provides that the state route number 520 bridge replacement and HOV project finance plan must include state funding, federal funding, at least one billion dollars in regional contributions, and revenue from tolling. The department must provide a proposed finance plan to be tied to the estimated cost of the recommended project solutions, as provided under this act, to the governor and the joint transportation committee by January 1, 2008.

VETO MESSAGE ON ESSB 6099

May 15, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 4 and 5, Engrossed Substitute Senate Bill 6099 entitled:

"AN ACT Relating to the state route number 520 bridge replacement and HOV project."

This bill is an important step in making progress on the replacement of the State Route 520 bridge. The bill declares that the bridge should be replaced with four general purpose lanes and two high occupancy vehicle lanes. It also creates a mediation process for resolving concerns regarding community impacts caused by the bridge replacement.

Section 4 of this bill permits the project's mediator to ask an engineering firm to conduct an independent review of tubes and tunnels under Lake Washington, a partial tunnel from Interstate 5 to the west end of the SR 520 bridge, and a proposal to move SR 520 from its current alignment through the Arboretum. The bill requires that the mediator submit a report to the Joint Transportation Committee and the Governor regarding the results of the independent review by September 1, 2007.

I have decided to veto Section 4 due to the permissive nature of the bill language and the insufficient amount of time available to conduct the independent design review. Instead, the contract for the mediator will require the mediator to ask an engineering firm to conduct an independent review of the three alternative designs for the project, rather than simply permitting the mediator to conduct the review. Additionally, the contract will require completion of the independent review by December 1, 2007.

Mandating the review while providing additional time for the work will provide sufficient time for an engineering firm to perform a thorough review of the proposed alternative designs.

Section 5 of the legislation prohibits any on-site construction of the SR520 project. This section has good intentions, but could inadvertently prevent the Department of Transportation (Department) from moving forward on projects outside of the actual bridge replacement. While I have vetoed Section 5, I am directing the Department not to commence any bridge construction until the mitigation and finance plans are submitted to the Governor and Legislature by 2008.

For these reasons, I have vetoed Sections 4 and 5 of Engrossed Substitute Senate Bill 6099.

With the exception of Sections 4 and 5, Engrossed Substitute Senate Bill 6099 is approved.

Respectfully submitted,
Christine O. Gregoire
Governor

SB 6104 by Senators Kline and Weinstein

Enforcing health and environmental laws.

Declares it is the policy of the state of Washington that laws enacted to protect public health, natural resources, and the environment be enforced. Limitations on governmental abilities to enforce those laws, due to the high volume of activities to which health and environmental standards apply and the finite nature of governmental resources, are recognized. The purpose of this act is to empower citizens to supplement government enforcement of those laws.

Authorizes the court, upon finding violation of an environmental or public health standard or requirement, to assess a civil penalty against the violator in an amount not to exceed ten thousand dollars per violation per day of violation unless justice so requires. In determining an appropriate penalty, the court shall consider the seriousness of the violations, any good faith efforts or lack of good faith efforts to, the duration of the violations, the economic benefit of the violations to the violator, and such other matters as justice may require. Unless injustice would result, the court shall assess a civil penalty greater than the economic benefit of the violations to the violator.

SB 6106 by Senators Spanel, Kohl-Welles, Clements, and Keiser

Establishing guidelines for the regulation of certain trades by the department of labor and industries.

(SEE ALSO PROPOSED 1ST SUB)

Declares that the purpose of this act is to establish guidelines for the regulation of construction trades or construction-related trades generally overseen in some capacity by the department of labor and industries. This act applies when a trade seeks legislation to substantially increase its scope of practice or the level of regulation of the trade, and for the regulation of construction trades or construction-related trades not licensed or regulated on July 1, 2007. This act also applies when a legislator or a legislative committee requests that the department determine whether a trade should be regulated by the state.

Declares that this act is not intended and shall not be construed to: (1) Apply to any regulatory entity created prior to July 1, 2007, except as provided in this act;

(2) Affect the powers and responsibilities of the superintendent of public instruction or Washington professional educator standards board under RCW 28A.410.210 and 28A.410.010;

(3) Apply to or interfere in any way with the practice of religion or to any kind of treatment by prayer;

(4) Apply to any remedial or technical amendments to any statutes that licensed or regulated activity before July 1, 2007; and

(5) Apply to proposals relating solely to continuing education.

Declares that all individuals should be permitted to enter into a profession unless there is an overwhelming need for the state to protect the interests of the public by restricting entry into the profession. When such a need is identified, the regulation adopted by the state should be set at the least restrictive level consistent with the public interest to be protected.

Requires the department to hold a public hearing during which the department will receive public comment on whether a trade should be regulated by the state. At least twenty days before the public hearing, the department shall file a notice of hearing with the code reviser for publication in the Washington State Register. The notice must include: (1) The trades for which information is sought;

(2) The information requested under this act; and

(3) When, where, and how members of the general public may present information about the trade.

Requires that, after the department has conducted its review under this act, it shall submit a report with the details of its review as well as its recommendations about regulating the trade to the legislative committees of reference. It shall also post the report on its web site.

Companion Bill: 2206

Reviewing pipeline capacity and distribution in southwest Washington.

(AS OF SENATE 2ND READING 3/9/2007)

Requires the energy facility site evaluation council to review the status of pipeline utility corridor capacity and distribution for natural gas, petroleum, and biofuels in the southwest region of the state. In conducting this study, the council shall, at a minimum, review the following: (1) Whether pipeline utility corridor constraints exist, and if so, to what extent;

(2) Whether there is adequate pipeline utility corridor capacity in the state to meet existing demand; and

(3) Whether the current pipeline utility corridor system is expected to meet projected demand growth in the southwest region of the state.

Authorizes the council to also examine pipeline utility corridor capacity and distribution in other areas of the state to the extent that it has an impact on supply to southwest Washington.

Requires the council to submit its findings and recommendations to the legislature by December 1, 2007.

(2) To gather and disseminate, and where practicable archive, in the most cost-effective manner possible, all climate and weather information that is or could be of value to policy and decision makers in the state;

(3) To act as the representative of the state in all climatological and meteorological matters, both within and outside of the state, when requested by the legislative or executive branches of the state government;

(4) To prepare, publish, and disseminate climate summaries for those individuals, agencies, and organizations whose activities are related to the welfare of the state and are affected by climate and weather;

(5) To supply critical information for drought preparedness and emergency response as needed to implement the state's drought contingency response plan maintained by the department of ecology under RCW 43.83B.410, and to serve as a member of the state's drought water supply and emergency response committees as may be formed in response to a drought event;

(6) To conduct and report on studies of climate and weather phenomena of significant socioeconomic importance to the state; and

(7) To evaluate the significance of natural and man-made changes in important features of the climate affecting the state, and to report this information to those agencies and organizations in the state who are likely to be affected by these changes.

 Concerning electricity generation from tidal and wave energy.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that tidal and wave energy is a renewable energy resource, and that Washington's coastal areas and estuaries provide an abundance of potential resources for this emerging technology for the generation of electrical power. The legislature further finds that state assistance to this emerging technology is appropriate and should be comparable to assistance provided to other renewable energy technologies, including wind and solar power.

Requires the center with oversight by the department, to provide a report from the stakeholders and agencies, together with any recommendations for administrative or legislative changes, to the governor and appropriate committees of the senate and house of representatives by December 31, 2007.

SB 6111-S by Senate Committee on Natural Resources, Ocean & Recreation (originally sponsored by Senators Hobbs, Poulsen, Jacobsen, and Tom)

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that tidal and wave energy is a renewable energy resource, and that Washington's coastal areas and estuaries provide an abundance of potential resources for this emerging technology for the generation of electrical power. The legislature further finds that state assistance to this emerging technology is appropriate and should be comparable to assistance provided to other renewable energy technologies, including wind and solar power.

Requires the department of ecology to contract with the William D. Ruckelshaus policy consensus center to organize and facilitate a stakeholder review of issues relating to the siting and operation of tidal and wave energy projects. Included within the review should be each state agency with regulatory or proprietary jurisdiction over the projects or sites on which projects are located, federal agencies with such jurisdiction, tribes, project sponsors, utilities purchasing power from or sponsoring such projects, nongovernmental organizations concerned with

environmental quality and ocean resources, citizens, and local governments. The review must consider and build on the efforts of the interagency work group that has been examining these issues over the past year.

Requires the center with oversight by the department, to provide a report from the stakeholders and agencies, together with any recommendations for administrative or legislative changes, to the governor and appropriate committees of the senate and house of representatives by December 31, 2008.

SB 6111-S2 by Senate Committee on Ways & Means (originally sponsored by Senators Hobbs, Poulsen, Jacobsen, and Tom)

Creating a wave and tidal energy work group. (REVISED FOR ENGROSSED: Concerning generating electricity from tidal and wave energy.)

(DIGEST AS ENACTED)

Requires the department of community, trade, and economic development and the energy facility site evaluation council to convene and cochair a work group to develop the Washington state center for excellence in hydrokinetic energy and to explore mechanisms to streamline and make more efficient current permitting processes for wave and tidal power projects.

VETO MESSAGE ON E2SSB 6111

April 1, 2008

To the Honorable President and Members,
 The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 5, 6, 8, 9, and 11, Engrossed Second Substitute Senate Bill 6111 entitled:

"AN ACT Relating to generating electricity from tidal and wave energy."

Washington State is currently working with tidal and wave energy project proponents and federal agencies to identify what will need to take place to specify potential environmental impacts and Engrossed Second Substitute Senate Bill 6111 establishes a workgroup to further this inquiry.

Sections 5 and 6 require that a public-private entity be created to support hydrokinetic energy development, and that a report to the Legislature be submitted in December 2008. I believe that this work is premature until we understand the potential impact on Puget Sound and our ocean resources.

Sections 8 and 9 exempt machinery and equipment used in generating tidal or wave energy from state and local retail sales and use taxes and public utility taxes. Such tax exemptions are more appropriately considered once commercial production of tidal turbines is viable.

Section 11 is a null and void clause which, due to the veto of Sections 5 and 6, is unnecessary.

For these reasons, I have vetoed Sections 5, 6, 8, 9 and 11 of Engrossed Second Substitute Senate Bill 6111.

With the exception of Sections 5, 6, 8, 9, and 11, Engrossed Second Substitute Senate Bill 6111 is approved.

Respectfully submitted,
 Christine Gregoire
 Governor

Regarding reclaimed water.

(SUBSTITUTED FOR - SEE 2ND SUB)

Declares an intent to: (1) Effectuate and reinvigorate the original intent behind the reclaimed water act to expand the use of reclaimed water for nonpotable uses throughout the state;

(2) Restate and emphasize the use of reclaimed water as a matter of water resource management policy;

(3) Address current barriers to the use of reclaimed water, where changes in state law will resolve such issues;

(4) Develop information from the state agencies responsible for promoting the use of reclaimed water and address regulatory, financial, planning, and other barriers to the expanded use of reclaimed water, relying on state agency expertise and experience with reclaimed water;

(5) Facilitate achieving state, regional, and local objectives through use of reclaimed water for water supply purposes in high priority areas of the state, and in regional and local watershed and water planning;

(6) Provide planning tools to local governments to incorporate reclaimed water and related water conservation into land use plans, consistent with water planning;

(7) Expand the scope of work of the advisory committee established under chapter 279, Laws of 2006 to identify other reclaimed water issues that should be addressed; and

(8) Provide initial funding, and evaluate options for providing additional direct state funding, for reclaimed water projects.

Provides that, by January 1, 2008, the department of health shall file a brief report with the appropriate committees of the legislature on the general status of: (1) Development of permit fees for industrial and commercial uses of reclaimed water as required by RCW 90.46.030;

(2) Development of standards and guidelines for greywater use as required by RCW 90.46.140; and

(3) Permitting of greywater use by local health officers and plumbing officials in accordance with standards and guidelines developed pursuant to RCW 90.46.140.

Requires the report to also identify: (1) A general description of the number, type, and location of reclaimed water opportunities included in water supply and coordinated water system plans since 2003, as required by RCW 90.46.140;

(2) The best information currently available regarding potential public health risks associated with reclaimed water, if any, any known occurrences of any public health incidents associated with reclaimed water use, the approaches to reclaimed water-related public health issues taken in other states, and resource needs of the department to evaluate any known public health risks; and

(3) A description of a basic public information and public acceptance program necessary to generate public support for the beneficial use of reclaimed water.

Finds that the state should take a lead in increasing the visibility of the use of reclaimed water.

Directs the department of general administration to develop a proposal to provide a comprehensive campus-wide plan for the use of nonpotable water in lieu of the use of potable water to serve as a demonstration project for the use of reclaimed water. The department of general administration shall work with LOTT alliance to provide a report to the legislature by December 1, 2007, of the needed infrastructure, cost, and potential funding sources for the project.

SB 6117-S2 by Senate Committee on Ways & Means (originally sponsored by Senators Fraser, Poulsen, Rockefeller, Marr, Kohl-Welles, and Kline)

(DIGEST AS ENACTED)

Declares that, since the 1992 enactment of the reclaimed water act, the value of reclaimed water as a new source of supply has received increasing recognition across the state and across the nation. New information on the matters in this act has increased awareness of the need to better manage, protect, and conserve water resources and to use reclaimed water in that process.

Declares an intent to: (1) Effectuate and reinvigorate the original intent behind the reclaimed water act to expand the use of reclaimed water for nonpotable uses throughout the state;

(2) Restate and emphasize the use of reclaimed water as a matter of water resource management policy;

(8) Provide initial funding, and evaluate options for providing additional direct state funding, for reclaimed water projects.

Provides that, beginning with the December 1, 2007, report, and then every two years thereafter, the director shall include in each report the extent to which reclaimed water has been identified in the watershed plans as potential sources or strategies to meet future water needs, and provisions in any watershed implementation plans that discuss barriers to implementation of the water reuse elements of those plans. The department's report shall include an estimate of the potential cost of reclaimed water facilities and identification of potential sources of funding for them.

Provides that, by January 1, 2008, the department of health shall file a brief report with the appropriate committees of the legislature on the general status of: (1) Development of permit fees for industrial and commercial uses of reclaimed water as required by RCW 90.46.030;

VETO MESSAGE ON E2SSB 6117

May 11, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 4, Engrossed Second Substitute Senate Bill 6117 entitled:

"AN ACT Relating to reclaimed water."

Section 4 of this bill would establish procedures for determining when a water reuse project would impair existing water rights, and would change the standard for mitigating any such impairment. Based on legal advice, I believe this section could have unintended consequences to existing water rights. The remainder of Section 4 of the bill would also create a new task force to address the state's water reuse program, including water right impairment issues.

I have vetoed Section 4 of Engrossed Second Substitute Senate Bill 6117 because of that portion of it that changes the standard for mitigating impairment of existing water rights.

Section 3 of the bill establishes new requirements for considering reclaimed water during watershed planning and land use decisions, which will eventually need to be harmonized with other statutes in order to ensure effective implementation. I believe this work is still needed and important to accomplish. Accordingly, I am directing the Department of Ecology to work with legislative leadership to address water right impairment from water reuse projects, reclaimed water planning and other issues raised in Sections 3 and 4 of the bill and to provide a report and recommendations to the Governor and appropriate standing committees of the legislature by December 31, 2007.

With the exception of Section 4, Engrossed Second Substitute Senate Bill 6117 is approved.

Respectfully submitted,
Christine O. Gregoire
Governor

SB 6120 by Senators Marr, Swecker, Oemig, Haugen, Rockefeller, Kauffman, Berkey, Murray, Spanel, Eide, Kilmer, Poulsen, Delvin, Regala, Jacobsen, Fraser, Kohl-Welles, and Rasmussen

Addressing rail and freight infrastructure.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that, to the extent that state funds are used to improve rail infrastructure, the legislature declares that it is the policy of the state of Washington to examine the cost of any rail infrastructure improvement as compared to the public benefits to be gained by making the improvement according to the following priorities, in order of relative importance: (1) Economic, safety, or environmental advantages of freight movement by rail compared to alternative modes;

(2) Self-sustaining economic development that creates family-wage jobs;

(3) Preservation of transportation corridors that would otherwise be lost;

(4) Increased access to efficient and cost-effective transport to market for Washington's agricultural and industrial products;

(5) Better integration and cooperation within the regional, national, and international systems of freight distribution; and

(6) Mitigation of impacts of increased rail traffic on communities. In all cases, state investment in rail infrastructure should be allocated to leverage the greatest amount of partnership funding possible, and should only be considered when there is a demonstrably lower likelihood of obtaining the benefits specified in this act without at least some state funding of the infrastructure improvement.

SB 6120-S by Senate Committee on Transportation (originally sponsored by Senators Marr, Swecker, Oemig, Haugen, Rockefeller, Kauffman, Berkey, Murray, Spanel, Eide, Kilmer, Poulsen, Delvin, Regala, Jacobsen, Fraser, Kohl-Welles, and Rasmussen)

(AS OF SENATE 2ND READING 3/12/2007)

Provides that, to the extent that state funds are used to improve rail infrastructure, the legislature declares that it is the policy of the state of Washington to examine the cost of any rail infrastructure improvement as compared to the public benefits to be gained by making the improvement according to the following priorities, in order of relative importance: (1) Economic, safety, or environmental advantages of freight movement by rail compared to alternative modes;

Requires, by December 15th each year, the transportation commission to report to the transportation committees of the house of representatives and senate the commission's concurrence or disagreement with the advisability of the actions and projects recommended by the department of transportation in the plan developed by the department under this act. The commission shall base its determinations on the priorities identified in this act, and an evaluation of each action or project according to the methodology developed as part of the statewide rail capacity and needs study finalized in December 2006. If the commission finds that certain actions or projects do not appear within the department's plan, but warrant consideration, then the commission shall report its own analysis of the action or project to the transportation committees of the house of representatives and senate.

Companion Bill: 1028

Establishing a state report card for education.

Finds that accountability for meeting high standards of student achievement should be expected from individual students, schools, school districts, and educators, as well as state officials and the legislature.

Finds that the state and the overall system of public schools should be expected to demonstrate that the necessary instruction, support, and resources are being provided to students to enable them to meet the higher standards before consequences are imposed on individual students.

Declares an intent to create the Washington state report card for education based on statewide goals for improving academic achievement, increasing high school graduation, reducing the achievement gap, increasing per pupil funding, and reducing class size. The Washington state report card for education will serve as a mechanism to hold the state and the system of public schools accountable for their performance on the statewide goals, each of which must be reached before students are held individually accountable for their performance on the Washington assessment of student learning.

Regarding state ferries.

(SUBSTITUTED FOR - SEE 1ST SUB)

Directs the commission to, with the involvement of the department, conduct a market survey to gather information on ferry users to help inform level of service, operational, pricing, planning, and investment decisions. The survey must include, but is not limited to: (1) Current and forecasted recreational use;

(2) Current and forecasted vehicle customer use;

(3) Current and forecasted freight and goods movement demand; and

(4) Reactions to potential operational and pricing strategies described under this act and RCW 47.60.290.

Requires the market survey to be updated at least annually.

Requires the department to develop, and the commission to review, operational strategies to ensure existing assets are fully utilized and to guide future investment decisions.

Requires the department to annually review fares and pricing strategies applicable to the operation of the Washington state ferries.

Provides that fares and pricing strategies must be adopted by rule, under chapter 34.05 RCW, by the commission, according to the following schedule: (1) Each year the department shall provide the commission a report of its review of fares and pricing strategies, with recommendations for the revision of fares for the ensuing year;

(2) By October 1st of each year, beginning in 2007, the commission shall adopt as a rule, a schedule of fares for the ensuing year.

Requires the department to maintain a life-cycle cost model on capital assets such that: (1) Available industry standards are used for estimated life;

(2) Standard estimated life is adjusted for asset condition when inspections are made; and

(3) Systems and structures that do not have standard life cycles are not included.

Requires the joint legislative audit and review committee to assess and report as follows: (1) Audit the implementation of the cost allocation methodology evaluated under chapter . . . (House Bill No. 1094), Laws of 2007, as it exists on the effective date of this act, assessing whether actual costs are allocated consistently with the methodology, whether there are sufficient internal controls to ensure proper allocation, and the adequacy of staff training; and

(2) Review the assignment of preservation costs and improvement costs for fiscal year 2009 to determine whether: (a) the costs are capital costs; (b) the costs meet the statutory requirements for preservation activities and for improvement activities; and (c) improvement costs are within the scope of legislative appropriations.

Provides that the report on the evaluations in this act is due by January 31, 2010.

Repeals RCW 47.60.150 and 47.60.326.

SB 6130 by Senators Pflug and Parlette

Reforming the health care system in Washington state.

Finds that: (1) The people of Washington have expressed strong concerns about health care costs and access to needed health services. Even if currently insured, they are not confident that they will continue to have health insurance coverage in the future and feel that they are getting less, but spending more.

(2) Many employers, especially small employers, struggle with the cost of providing employer-sponsored health insurance coverage to their employees, while others are unable to offer employer-sponsored health insurance due to its high cost.

Declares an intent through the public/private partnership reflected in this act, to improve our current health care system so that: (1) Health insurance coverage is more affordable for employers, employees, self-employed people, and other individuals;

(2) The process of choosing and purchasing health insurance coverage is well-informed, clearer, and simpler;

(3) Prevention, chronic care management, wellness, and improved quality of care are a fundamental part of our health care system;

(4) Administrative costs at every level are reduced;

(5) As a result of these changes, more people in Washington state have access to affordable health insurance coverage and health outcomes in Washington state are improved; and

(6) More insurance coverage choices are available to all health consumers.

Prioritizing funding for special category C projects.

Recognizes the importance of investing in the state transportation infrastructure and, in particular, the importance of completing corridor improvements in congested areas. The public receives the greatest benefit when full corridor program improvements are completed, alleviating safety concerns and congestion at a systematic level. Category C funding is eligible to be used for substantial completion of the corridor projects listed in priority order in RCW 46.68.090. It is the intent of the legislature that such funding be allocated first towards substantial completion of these projects and then to complete other corridor needs as appropriate.

Declares that the following projects, listed in order of priority, are eligible for funding from the special category C account: (1) State route number 395, north Spokane corridor;

(2) State route number 18; and

(3) State route number 99, First Avenue South bridge.

Expanding provisions affecting forest health.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that Washington currently faces forest health threats. In response to these threats, the legislature intends to create a comprehensive forest health program for the state.

SB 6141-S by Senate Committee on Natural Resources,
Ocean & Recreation (originally sponsored by
Senators Jacobsen and Morton)

Regarding forest health.

(DIGEST AS ENACTED)

Finds as follows: (1) Washington faces serious forest health problems, primarily in eastern Washington, where forests are overcrowded or trees lack sufficient resilience to insects, diseases, wind, ice storms, and fire. The causes of and contributions to these conditions include fire suppression, past timber harvesting and silvicultural practices, altered species composition and stand structure, and the amplified risks that occur when the urban interface penetrates forest land.

(2) There is a private and public interest in addressing uncharacteristic outbreaks of native, naturalized, and nonnative insects and diseases, and reducing the risk of significant loss due to ice storms, wind storms, and uncharacteristic fire. The public interest is in protecting forest productivity on forests managed for commodity production; restoring and maintaining forest ecosystem vitality and natural forest processes and functions; reducing the cost of fire suppression and the resulting public expenditures; protecting, restoring, and enhancing fish and wildlife habitat, including the habitat of threatened or endangered species; and protecting drinking water supplies and water quality.

(3) Well managed forests are the first line of defense in reducing the likelihood of uncharacteristic fire, insect, and disease events, and supporting conservation and restoration of desired plants and animals. Active management of forests, consistent with landowner objectives and the protection of public resources, is the most economical and effective way to promote forest health and protect communities. Fire, native insects, and diseases perform important ecological functions when their occurrence does not present a material threat to long-term forest productivity and increase the likelihood of uncharacteristic fire.

(4) Forest health problems may exist on forest land regardless of ownership, and the state should pursue collaboration with the federal government to address common health deficiencies.

SB 6148 by Senator Benton

Providing for life science learning centers.

Declares an intent to develop and fund the construction and operation of life science learning centers in strategic communities in Washington state. These centers, like current education skill centers, must be community-based and demonstrate multiple local partnerships, including local public school districts and community colleges, to assure community connectedness. These centers must also offer geographic and natural resource uniqueness to assure that the physical locations of these centers foster educational opportunities and stimulation. It is also necessary to provide an articulated education program at life science learning centers that will include the educational interaction between students of all ages with each other and with established life science professionals to assure the transfer of knowledge, the encouragement of younger people to enter life sciences fields, as well as networking and mentoring. Special consideration should be given to communities that also have a four-year public institution of higher education that has an emphasis on life sciences, natural sciences, or both.

Declares that life science learning centers should receive unique and enriched capital and operational funds.

Appropriates the sum of thirteen million two hundred ninety thousand dollars, or as much thereof as may be necessary, for the biennium ending June 30, 2009, from the state building construction account to the office of the superintendent of public instruction for the construction of the Columbia Springs environmental education center located in Vancouver, Washington.

Appropriates the sum of eighteen thousand seven hundred fifty dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2007, from the general fund to the office of the superintendent of public instruction for operational expenses of the Columbia Springs environmental education center located in Vancouver, Washington. It is the intent of the legislature that enhanced operational funding will be made available upon completion of the project.

(DIGEST AS ENACTED)

Provides that the residents, property owners, employees, or business owners of an impacted community may propose formation of a community preservation and development authority. The proposal to form a community preservation and development authority must be presented in writing to the appropriate legislative committee in both the house of representatives and the senate. The proposal must contain proposed general geographic boundaries that will be used to define the community for the purposes of the authority. Proposals presented after January 1, 2008, must identify in its proposal one or more stable revenue sources that: (1) Have a nexus with the multiple publicly funded facilities that have adversely impacted the community; and

(2) Can be used to support future operating or capital projects that will be identified in the strategic plan required under this act.

Authorizes the establishment of the Pioneer Square-International District community preservation and development authority, which boundaries are those contained in the Pioneer Square-International District within the city of Seattle.

Provides that, prior to making siting, design, and construction decisions for future major public facilities, public works projects, or capital projects with significant public funding, state and local government agencies may: (1) Communicate and consult with the community preservation and development authority and impacted community, including assessing the compatibility of the proposed project with the strategic plan adopted by the authority; and

(2) Make reasonable efforts to ensure that negative, cumulative effects of multiple projects upon the impacted community are minimized.

VETO MESSAGE ON SSB 6156

May 15, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 1 and 2, Substitute Senate Bill 6156 entitled:

"AN ACT relating to State Government."

This bill allows for the creation of Community Preservation and Development Authorities, specifically creates a Pioneer Square-

International District Community Preservation and Development Authority within the city of Seattle, and establishes a method for creating additional such authorities. I strongly support the efforts of local communities to influence development of their own areas and believe this is one good way to accomplish that.

Sections 1 and 2 provide the legislative intent and findings in addition to the definitions for this act. I am concerned that these sections of the bill are overly broad and may lead to unintended consequences regarding public projects across our state. I do not believe that vetoing these sections will in any way hinder the creation of the Pioneer Square-International District Community Preservation and Development Authority provided for in Section 8. If the Legislature chooses to revisit this legislation with an eye toward expanding it beyond the Pioneer Square-International District Community Preservation and Development Authority, then I will work with interested members of the Legislature to improve this act.

For these reasons, I have vetoed Sections 1 and 2 of Substitute Senate Bill 6156.

With the exception of Sections 1 and 2, Substitute Senate Bill 6156 is approved.

Respectfully submitted,
Christine O. Gregoire
Governor

Changing provisions affecting offenders who are leaving confinement.

(DIGEST AS ENACTED)

Finds that the people of the state of Washington expect to live in safe communities in which the threat of crime is minimized. Attempting to keep communities safe by building more prisons and paying the costs of incarceration has proven to be expensive to taxpayers. Incarceration is a necessary consequence for some offenders, however, the vast majority of those offenders will eventually return to their communities. Many of these former offenders will not have had the opportunity to address the deficiencies that may have contributed to their criminal behavior. Persons who do not have basic literacy and job skills, or who are ill-equipped to make the behavioral changes necessary to successfully function in the community, have a high risk of reoffense. Recidivism represents serious costs to victims, both financial and nonmonetary in nature, and also burdens state and local governments with those offenders who recycle through the criminal justice system.

Declares a belief that recidivism can be reduced and a substantial cost savings can be realized by utilizing evidence-based, research-based, and promising programs to address offender deficits, developing and better coordinating the reentry efforts of state and local governments and local communities. Research shows that if quality assurances are adhered to, implementing an optimal portfolio of evidence-based programming options for offenders who are willing to take advantage of such programs can have a notable impact on recidivism.

Recognizes that recidivism cannot be eliminated and that a significant number of offenders are unwilling or unable to work to develop the tools necessary to successfully reintegrate into society, the interests of the public overall are better served by better preparing offenders while incarcerated, and continuing those efforts for those recently released from prison or jail, for successful, productive, and healthy transitions to their communities. Educational, employment, and treatment opportunities should be designed to address individual deficits and ideally give offenders the ability to function in society. In order to foster reintegration, this act recognizes the importance of a strong partnership between the department of corrections, local governments, law enforcement, social service providers, and interested members of communities across our state.

Appropriates the sum of three hundred thousand dollars of the general fund--state appropriation for fiscal year 2008 and three hundred thousand dollars of the general fund--state appropriation for fiscal year 2009 solely to the department of corrections for the purposes of section 305(2) and (4) of this act.

Appropriates the sum of nine hundred thousand dollars of the general fund--state appropriation for fiscal year 2008 and nine hundred thousand dollars of the general fund--state appropriation for fiscal year 2009 solely to the department of corrections for the purposes of section 304(1)(b)(ii)(D) and (E) of this act.

Appropriates the sum of one hundred thousand dollars of the general fund--state appropriation for fiscal year 2008 and one hundred thousand dollars of the general fund--state appropriation for fiscal year 2009 solely for the department of corrections for the purposes of section 307 of this act.

Finds that most small and midsize manufacturers do not have the resources that will allow them to easily access modernization technical assistance and the skills training needed to make them globally competitive. Because of the statewide public benefit to be gained from increasing the availability of modernization services, it is the intent of the legislature to create a new mechanism in a manner that reduces the up-front costs of these services for small and midsize manufacturing firms. It is further the intent of the legislature that Washington state increase its support for the manufacturing extension program, to expand the delivery of modernization services to small and midsize Washington manufacturers, and to leverage federal funding and private resources devoted to such efforts.

SB 6205 by Senators Franklin, Pflug, Keiser, Kastama, Regala, Kohl-Welles, Prentice, Murray, and Kline

Companion Bill: 3196

Creating the joint select committee on sickle cell disease.

Finds that sickle cell disease is a lifelong hereditary red blood cell disorder that predominantly affects African-Americans, and that Washington state screens newborn infants for sickle cell disease at birth but that this information is not adequately communicated between people who may not have the disease, but carry the genetic trait for it.

Creates the joint select committee on sickle cell disease.

Provides that the committee shall review current practices for screening, diagnosis, treatment, and education about sickle cell disease in Washington state, and also review issues related to access to appropriate treatment, dissemination of information related to the disease and family risk, insurance coverage for treatment, and morbidity and mortality rates.

Declares that the committee shall make recommendations to the legislature by December 1, 2008.

SB 6206 by Senators Zarelli, Pflug, Hargrove, and Stevens

Modifying child fatality and near fatality reviews and reports.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds the children of the state of Washington are the state's greatest resource, and that governmental authorities must make the prevention of child abuse and neglect a foremost priority.

Recognizes that preventable child fatalities and near fatalities represent the greatest failure of the child protection system but also the most meaningful opportunity for reform.

Requires unexpected child fatalities or near fatalities occurring within one year of the child receiving child welfare services be reviewed.

Provides that in the event of a child whose fatality or near fatality is the result of apparent abuse by his or her parent of caretaker, or upon the recommendation of the office of the family and children's ombudsman, the review team shall be comprised of individuals who had no involvement in the case but whose professional expertise is pertinent to the dynamics of the case.

Defines "child" and "near fatality."

Declares that reports issued shall be distributed to the appropriate committees of the legislature, and the department of social and health services shall create a public web site where all child fatality and near fatality review reports required shall be posted and maintained.

Asserts that within thirty days after a child fatality or near fatality review report is issued in response to a child's death or near fatality that resulted from abuse by the child's parent or

caretaker, the appropriate committees of the legislature shall hold a joint public hearing to consider the findings.

Calls for the office of the family and children's ombudsman to issue an annual report to the legislature on the status of the implementation of child fatality and near fatality review recommendations.

SB 6206-S by Senate Committee on Human Services & Corrections (originally sponsored by Senators Zarelli, Pflug, Hargrove, and Stevens)

Concerning agency reviews and reports regarding child abuse, neglect, and near fatalities.

(SUBSTITUTED FOR - SEE 2ND SUB)

Provides, in the event of a child whose fatality or near fatality is the result of apparent abuse by his or her parent or caregiver, the review team shall be comprised of individuals who had no involvement in the case but whose professional expertise is pertinent to the dynamics of the case.

Provides, upon conclusion of a child fatality or near fatality review required under RCW 74.13.640, the department shall issue a report on the results of the review within one hundred eighty days following the unexpected death or near fatality of the child, unless an extension has been granted by the governor.

Requires the office of the family and children's ombudsman to issue an annual report to the legislature on the status of the implementation of child fatality and near fatality review recommendations.

Provides, if a report of alleged abuse or neglect is founded and constitutes the third founded report received by the department within the last twelve months involving the same child or family, the department shall promptly notify the office of the family and children's ombudsman of the contents of the report. The department shall also notify the ombudsman of the disposition of the report.

Provides, upon receiving a report of alleged abuse or neglect involving a child under the court's jurisdiction under chapter 13.34 RCW, the department shall promptly notify the child's guardian ad litem of the report's contents. The department shall also notify the guardian ad litem of the disposition of the report.

Requires the ombudsman to review all referrals made by mandated reporters during 2006 and 2007 and report to the appropriate committees of the legislature on the following: The number and types of referrals from mandated reporters; the disposition of the referrals by category of mandated reporters; how many referrals resulted in the filing of dependency actions; any patterns established by the department in how it dealt with such referrals; whether the history of fatalities in 2006 and 2007 showed referrals by mandated reporters; and any other information the ombudsman deems relevant. The report is due no later than December 31, 2008.

SB 6206-S2 by Senate Committee on Ways & Means (originally sponsored by Senators Zarelli, Pflug, Hargrove, and Stevens)

(DIGEST AS ENACTED)

Provides, in the event of a child whose fatality or near fatality is the result of apparent abuse by his or her parent or caregiver, the review team shall be comprised of individuals who had no involvement in the case but whose professional expertise is pertinent to the dynamics of the case.

SB 6209 by Senators Zarelli, Pflug, Prentice, Hargrove, and Stevens

Requiring notification of office of family and children's ombudsman in cases involving multiple reports of child abuse or neglect.

Recognizes the paramount importance of ensuring the safety and well-being of children in this state, and that one of the largest warning signs are children who are the subject of multiple abuse and neglect referrals.

Intends to require the department of social and health services to notify the office of the family and children's ombudsman when a third or more report of abuse or neglect has been made concerning a child.

Declares that if a report of alleged abuse or neglect constitutes the third or more report received by the department involving a child, the department shall promptly notify the office of the family and children's ombudsman of the contents of the report and also provide additional notification at the time of the disposition of the report.

Concerning historic vessels.

(SEE ALSO PROPOSED 1ST SUB)

Declares the intent to encourage responsible participation in the hobby of collecting, preserving, restoring, and maintaining vessels of historic and special interest, a hobby that contributes to the enjoyment of Washington citizens and the preservation of Washington's classic boat memorabilia.

Provides that "collector" means the owner of one or more vessels who collects, purchases, acquires, trades, or disposes of the vessels or their parts for the collector's personal use, to preserve, restore, and maintain the boat for hobby or historical purposes and "historic vessel" means any vessel that is at least forty years old, except for vessels that are used for commercial or rental purposes.

Requires that for each historic vessel, the department of licensing shall create and issue a decal separate from the decals issued to other vessels.

Provides that a historic vessel registered with the department may only be used for participation in club activities, exhibitions, tours, parades, and occasional pleasure boating.

Declares that the annual amount of the excise tax for any historic vessel as defined in this act is one-quarter of one percent of fair market value, as determined under this act, or five dollars, whichever is greater.

SB 6220 by Senators Keiser, Parlette, Pflug, Prentice, and Kohl-Welles

Allowing the delegation of nursing tasks to care for persons with diabetes.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that Washington state has developed a strong community-based long-term care system in an effort to honor the desire of elderly persons and persons with disabilities to live in their own home or other home-like settings and to provide long-term care services in a cost-effective manner. More than fifteen percent of adults over age sixty-five in Washington state have diabetes. Current nurse delegation statutes limit the ability of elderly and disabled persons with diabetes to remain in their own homes or in other home-like long-term care settings.

Declares the intent to modify nurse delegation statutes to the extent needed to enable elderly persons and persons with disabilities who have diabetes to continue to reside in their own home or other home-like settings.

Provides that in community-based or in-home care settings, the tasks of diabetic insulin device set up and verbal verification of insulin dosage for sight-impaired individuals is not required to be delegated from a registered nurse to a registered or certified nursing assistant.

Declares that the administration of insulin by injection to certified nursing assistants for the purpose of caring for individuals with diabetes may be delegated. When delegating insulin injections, the registered nurse delegator must supervise and evaluate the individual performing the delegated task weekly during the first four weeks of delegation of insulin injections. If the registered nurse delegator determines that the individual is competent to perform the injection properly and safely, supervision and evaluation shall occur at least every ninety days thereafter.

Provides that before commencing the care of individuals with diabetes that involves administration of insulin by injection, the certified nursing assistant must provide to the delegating nurse a

certificate of completion issued by the department of social and health services indicating completion of specialized diabetes nurse delegation training.

SB 6220-S by Senate Committee on Health & Long-Term Care (originally sponsored by Senators Keiser, Parlette, Pflug, Prentice, and Kohl-Welles)

(SUBSTITUTED FOR - SEE 2ND SUB)

SB 6220-S2 by Senate Committee on Ways & Means (originally sponsored by Senators Keiser, Parlette, Pflug, Prentice, and Kohl-Welles)

(AS OF SENATE 2ND READING 2/19/2008)

Declares the intent to modify nurse delegation statutes to the extent needed to enable elderly persons and persons with disabilities who have diabetes to continue to reside in their own home or other home-like settings.

Provides that in community-based or in-home care settings, the tasks of diabetic insulin device set up and verbal verification of insulin dosage for sight-impaired individuals is not required to be delegated from a registered nurse to a registered or certified nursing assistant.

Declares that the administration of insulin by injection to certified nursing assistants for the purpose of caring for individuals with diabetes may be delegated.

Provides that when delegating insulin injections under this act, the registered nurse delegator must instruct the individual regarding proper injection procedures and the use of insulin, demonstrate proper injection procedures, and must supervise and evaluate the individual performing the delegated task weekly during the first four weeks of delegation of insulin injections.

Provides that before commencing the care of individuals with diabetes that involves administration of insulin by injection, the certified nursing assistant must provide to the delegating nurse a certificate of completion issued by the department of social and health services indicating completion of specialized diabetes nurse delegation training.

SB 6221 by Senators Keiser and Kohl-Welles

Establishing the Washington health partnership.

Finds that rising costs of health care are seriously threatening the physical and fiscal well-being of Washingtonians, the ability of Washington businesses to compete globally, farms to thrive, government to provide needed services, schools to educate, and local citizens to form new and successful business ventures.

Establishes the Washington health partnership as a public-private entity to provide comprehensive health coverage to all residents of the state of Washington. The Washington health partnership shall seek to attain the following goals: (1) By 2012, every resident of this state shall have access to affordable, comprehensive health care services;

(2) Services shall be provided through the private health care sector;

(3) The plan shall maintain and improve choice of health care providers and high quality health care services in this state; and

(4) The plan shall include cost-containment strategies that retain and assure affordable coverage for all Washingtonians.

Provides that the Washington health partnership is governed by a board composed of members nominated by the governor, with the advice and consent of the senate, and appointed for staggered six-year terms.

Provides that a person and the members of the person's immediate family are eligible to participate in the partnership if the person satisfies all of the following criteria: (1) The person has maintained his or her place of permanent residence in this state for at least twelve months;

(2) The person maintains a substantial presence in this state; and

(3) The person is not: (a) eligible for health care coverage from a foreign government or the federal government, including medicare and medicaid; (b) an inmate of a state correctional institution; or (c) placed or confined in, or committed to, an institution for the mentally ill or developmentally disabled.

Provides eligibility in the partnership, regardless of other requirements, to children under age eighteen and pregnant women residing in the state, public employees, and certain people

receiving health coverage under a collective bargaining agreement.

Requires that the partnership shall implement outreach and education efforts to facilitate informed enrollment.

Declares that the partnership shall establish a health care program that will take effect on January 1, 2010. The program shall provide a standardized set of covered services.

Provides that the partnership shall annually solicit sealed premium bids from competing networks for the purpose of offering health care coverage to enrollees in the Washington health partnership.

Jan 14 First reading, referred to Health & Long-Term Care.

Jan 21 Public hearing in the Senate Committee on Health & Long-Term Care at 1:30 PM.

SB 6222 by Senators Keiser, Kohl-Welles, and Franklin

Companion Bill: 2668

Expanding programs for persons needing long-term care.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that Washingtonians sixty-five years of age and older will nearly double in the next twenty years, from eleven percent of our population today to almost twenty percent of our population in 2025. Younger people with disabilities will also require supportive long-term care services.

Finds that to address this increasing need, the long-term care system should: support autonomy and self-determination, and support the role of informal caregivers and families; promote personal planning and savings combined with public support; include culturally appropriate, high quality information, services, and supports delivered in a cost-effective and efficient manner; and utilize evidence-based practices for the prevention and management of chronic disease to improve the general health of Washingtonians over their lifetime and reduce health care and long-term care costs related to ineffective chronic care management.

Requires that agencies conducting family caregiver long-term care information and support services develop an evidence-based tailored caregiver assessment and referral tool and provide the option of a one-time voucher benefit per caregiver screened to meet the needs critical to health or safety of either the adult care recipient or the caregiver.

Provides that the community based services for low-income eligible persons shall include long-term care planning and options counseling, information and crisis intervention, and streamlined assistance to access a wide array of public and private community-based services.

Requires that the department of health shall develop a statewide fall prevention program to include networking community services, identifying service gaps, making affordable senior-based, evaluated exercise programs more available, providing consumer education to older adults, their adult children, and the community at large, and conducting professional education on fall risk identification and reduction.

Requires additional support for residents in community settings who exhibit challenging behaviors that put them at risk for institutional placement.

Establishes two seniors dental access projects.

Provides that if specific funding for the purposes of this act is not provided by June 30, 2008, this act is null and void.

SB 6222-S by Senate Committee on Health & Long-Term Care (originally sponsored by Senators Keiser, Kohl-Welles, and Franklin)

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that the long-term care system should utilize evidence-based practices for the prevention and management of chronic disease to improve the general health of Washingtonians over

their lifetime and reduce health care and long-term care costs related to ineffective chronic care management.

Provides that when a facility provides respite care, before or at the time of admission, the facility must obtain certain information to meet the individual's anticipated needs.

Requires that agencies conducting family caregiver long-term care information and support services develop an evidence-based tailored caregiver assessment and referral tool and provide the option of a one-time voucher benefit per caregiver screened to meet the needs critical to health or safety of either the adult care recipient or the caregiver.

Provides that the community based services for low-income eligible persons shall include long-term care planning and options counseling.

Requires that the department of health shall develop a statewide fall prevention program.

Requires additional support for residents in community settings who exhibit challenging behaviors that put them at risk for institutional placement.

Establishes two seniors dental access projects.

SB 6222-S2 by Senate Committee on Ways & Means (originally sponsored by Senators Keiser, Kohl-Welles, and Franklin)

(AS OF SENATE 2ND READING 2/15/2008)

Finds that the long-term care system should utilize evidence-based practices for the prevention and management of chronic disease to improve the general health of Washingtonians over their lifetime and reduce health care and long-term care costs related to ineffective chronic care management.

Provides that when a facility provides respite care, before or at the time of admission, the facility must obtain certain information to meet the individual's anticipated needs.

SB 6223 by Senators Keiser, Pflug, Parlette, Kohl-Welles, and Franklin

Authorizing emergency medical technicians to administer glucagon in emergency situations.

(AS OF SENATE 2ND READING 1/25/2008)

Finds that hypoglycemia is a severe medical problem for people with diabetes. Rapid and appropriate administration of oral glucose can counteract a severe hypoglycemic episode, and may make the difference between life and death.

Finds that the administration of oral glucose is not indicated in certain situations, and the administration of glucagon is the preferred method of treatment. Some situations may arise when glucagon must be administered by injection to save a person's life. Emergency response personnel should receive appropriate training on the use of emergency glucagon pens to treat severe hypoglycemia.

Declares the purpose of this act is to authorize emergency medical technicians to administer glucagon in emergency situations and to have glucagon emergency kits available in their emergency care supplies.

Requires that all of the state's ambulance and aid services shall make glucagon emergency kits available to their emergency medical technicians in their emergency care supplies. The emergency medical technician may administer glucagon.

Requires a specialized forest products permit to sell raw or unprocessed huckleberries.

SB 6232-S by Senate Committee on Natural Resources, Ocean & Recreation (originally sponsored by Senator Jacobsen)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Requires a specialized forest products permit to sell raw or unprocessed huckleberries.

Requires that the specialized forest practices permit for the sale of huckleberries: (1) May be obtained from the department of natural resources or the sheriff of any county in the state;

(2) Must contain information relating to where the huckleberries were, or plan to be, harvested, and the approximate amount of huckleberries that are going to be offered for sale; and

(3) Must include a statement designed to inform the possessor that permission from the landowner is still required prior to the harvesting of huckleberries.

Provides that possession of a specialized forest products permit does not create a right or privilege to harvest huckleberries. Huckleberries may be harvested only with the permission of the landowner and under the terms and conditions established between the landowner and the harvester.

Companion Bill: 2874

Addressing funding for certain transportation benefit district highway projects.

Authorizes a transportation benefit district to impose a sales and use tax for a period exceeding ten years if the transportation benefit district is located in a county that borders another state and has a population of more than four hundred thousand, and a portion of the sales tax is used to fund initial construction on a highway of statewide significance within the county.

Declares the tax imposed and collected under chapters 82.08 and 82.12 RCW, less any credits allowed under chapter 82.14 RCW, on initial construction for a highway of statewide

significance to be constructed by a transportation benefit district in a county that borders another state and has a population of more than four hundred thousand, must be transferred to the highway project to defray the costs or pay debt service on that project. In the case of a toll project, this transfer or credit must be used to lower the overall cost of the project and thereby the corresponding tolls.

SB 6310 by Senator Hargrove

Correcting obsolete references concerning chapter 10.77 RCW.

(DIGEST AS ENACTED)

Corrects obsolete references concerning chapter 10.77 RCW.

VETO MESSAGE ON SB 6310

March 27, 2008

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 15, Senate Bill 6310 entitled:

"AN ACT Relating to correcting obsolete references concerning chapter 10.77 RCW."

Section 15 is an emergency clause. An emergency clause is to be used where it is necessary for the immediate preservation of the public peace, health or safety or whenever it is essential for the support of state government. This bill makes technical corrections to existing law by deleting obsolete terms and correcting references. I do not believe that an emergency clause is warranted.

For this reason, I have vetoed Section 15 of Senate Bill 6310.

With the exception of Section 15, Senate Bill 6310 is approved.

Respectfully submitted,
Christine Gregoire
Governor

SB 6314 by Senators McAuliffe, Kline, Fairley, Franklin, Kohl-Welles, McDermott, Weinstein, and Rasmussen

Companion Bill: 2500

Providing for arts education funding.

(SEE ALSO PROPOSED 1ST SUB)

Intends to provide resources to help improve arts-infused curriculum and integration into schools and transform the teaching, learning, and school environments in Washington through the use of the arts.

Provides that the executive director of the Washington state arts commission shall designate a school arts programs account committee.

Provides that beginning with the 2012-13 school year, the school arts programs account committee shall establish an annual grant process to institute and sustain arts-infused curriculum, programs, and projects in public schools, which could include professional development for classroom teachers, specialist teachers, and principals in order to continue the curriculum, programs, and projects in the future.

Provides that curriculum, programs, and projects funded through the school arts programs account committee shall assist students to make connections within and across the arts to other disciplines, to learn about other cultures, and to strengthen communities through the use of the arts.

Provides that the school arts programs account is created in the custody of the state treasurer.

Provides that the Washington state lottery is the source of state arts programs account funds for all grant programs and projects in all state arts programs account committee and Washington state arts commission publications including, but not limited to, grant solicitations and brochures, advertising, and press releases.

SB 6314-S by Senate Committee on Early Learning & K-12 Education (originally sponsored by Senators McAuliffe, Kline, Fairley, Franklin, Kohl-Welles, McDermott, Weinstein, and Rasmussen)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that beginning with the 2012-13 school year and each school year thereafter, the office of the superintendent of public instruction shall distribute a per student allocation to school districts based on the number of full-time equivalent students. This funding is intended to allow school districts to institute and sustain arts instruction, arts-infused curriculum, and related arts programs and projects in public schools, which could include professional development for classroom teachers, specialist teachers, and principals in order to continue the curriculum, programs, and projects in the future.

Requires curriculum, programs, and projects funded by school districts with their per student allocation provided in this act to be developed in alignment with the state essential academic learning requirements in the arts, and to assist students to make connections within and across the arts to other disciplines, to learn about other cultures, and to strengthen communities through the use of the arts.

Creates the school arts programs account in the state treasury. Receipts from the state lottery, as provided in RCW 67.70.240(6) must be deposited in the account.

Requires by December 1, 2012, the office of the superintendent of public instruction to submit a report to the appropriate policy and fiscal committees of the legislature on the amounts of per student allocations from this act to school districts for art programs, summary information on how school districts utilized the per student allocations, and the impact of the programs and activities resulting from these allocations on student outcomes.

SB 6341 by Senators Kauffman, Delvin, and Marr
Concerning electronic data recorders in motor vehicles.
(SUBSTITUTED FOR - SEE 1ST SUB)

Regulates electronic data recorders in motor vehicles used to capture data for retrieval after a crash.

SB 6341-S by Senate Committee on Consumer Protection & Housing (originally sponsored by Senators Kauffman, Delvin, and Marr)
(AS OF SENATE 2ND READING 2/18/2008)

Requires a manufacturer of a new motor vehicle that is sold or leased in this state and is equipped with an electronic data recorder to disclose that the motor vehicle is equipped with an electronic data recorder in the owner's manual for the motor vehicle including the types of data that the electronic data recorder records.

Provides that information recorded or transmitted by an electronic data recorder may not be retrieved, downloaded, or otherwise accessed by a person other than the owner of the motor vehicle in which the recording device is installed except under certain conditions.

Prohibits an insurer from refusing to renew a motor vehicle insurance policy solely because a motor vehicle owner refuses to provide access to recorded data from an electronic data recorder.

Companion Bill: 2480

Concerning public transportation fares.

(SEE ALSO PROPOSED 1ST SUB)

Provides that persons traveling on public transportation operated by a metropolitan municipal corporation shall pay the fare established by the metropolitan municipal corporation. Persons traveling on public transportation operated by a public transportation benefit area shall pay the fare established by the public transportation benefit area. Such persons shall produce proof of payment when requested by a person designated to monitor fare payment.

Declares that the following constitute civil infractions punishable according to the schedule of fines and penalties established by either a metropolitan municipal corporation or a public transportation benefit area under this act: (1) Failure to pay the required fare;

(2) Failure to display proof of payment when requested to do so by a person designated to monitor fare payment; and

(3) Failure to depart the bus or other mode of public transportation when requested to do so by a person designated to monitor fare payment.

Provides that a metropolitan municipal corporation or public transportation benefit area may establish, by resolution, a schedule of fines and penalties for civil infractions established in this act. A metropolitan municipal corporation or public transportation benefit area may designate persons who are equivalent to, and are authorized to exercise all the powers of, an enforcement officer and may take the following actions: (1) Monitor fare payment;

(2) Request proof of payment from passengers;

(3) Request personal identification from a passenger who does not produce proof of payment when requested;

(4) Issue a citation; and

(5) Request that a passenger leave the bus or other mode of public transportation when the passenger has not produced proof of payment after being asked to do so by a person designated to monitor fare payment.

Declares that law enforcement authorities are not prevented from prosecuting for theft, trespass, or other charges by any individual who: (1) Fails to pay the required fare on more than one occasion within a twelve-month period;

(2) Fails to timely select one of the options for responding to the notice of civil infraction after receiving a statement of the options for responding to the notice of infraction and the procedures necessary to exercise these options; or

(3) Fails to depart the bus or other mode of public transportation when requested to do so by a person designated to monitor fare payment.

Defines "proof of payment" to mean evidence of fare prepayment authorized by a metropolitan municipal corporation for the use of buses or other modes of public transportation.

SB 6353-S by Senate Committee on Transportation (originally sponsored by Senator Haugen)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Requires persons traveling on public transportation operated by a metropolitan municipal corporation, a city-owned transit system, or a public transportation benefit area to pay the fare established by the metropolitan municipal corporation, the city-owned transit system, or the public transportation benefit area.

Authorizes a metropolitan municipal corporation, a city-owned transit system, and a public transportation benefit area to establish, by resolution, a schedule of fines and penalties for civil infractions based on nonpayment of fares.

Reserves the authority to impose tolls on any state transportation route or facility for the legislature.

SB 6355-S by Senate Committee on Transportation (originally sponsored by Senator Haugen)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Establishes a policy that is intended to guide subsequent legislation and decisions regarding the tolling of specific facilities and corridors.

Reserves the authority to impose tolls on any state transportation route or facility for the legislature.

Provides that unless otherwise delegated, only the legislature may authorize the imposition of tolls on eligible toll facilities. All revenue from an eligible toll facility must be used only to construct, improve, preserve, maintain, manage, or operate the eligible toll facility on or in which the revenue is collected.

Provides that unless these powers are otherwise delegated by the legislature, the transportation commission is the tolling authority for the state. The tolling authority shall: (1) Set toll rates, establish appropriate exemptions, if any, and make adjustments as conditions warrant on eligible toll facilities; and

(2) Review toll collection policies, toll operations policies, and toll revenue expenditures on the eligible toll facilities and report annually on this review to the legislature.

Provides that certain tolls, including any change in an existing toll rate, must first be reviewed and approved by the tolling authority if the tolls, or change in toll rate, would have a significant impact, as determined by the tolling authority, on the operation of any state facility.

Companion Bill: 2622

Changing rules concerning admissibility of evidence in sex offense cases.

Finds that in sex crime cases generally, and in child molestation cases in particular, the offense often is committed in the absence of any independent witnesses. Prior acts of similar misconduct, as opposed to other types of misconduct, are deemed to be highly probative. Adult-victim sexual assault cases are also distinctive, and often turn on difficult credibility determinations.

Recognizes the practical effect of the federal rules of evidence related to sex crime cases is to put evidence of uncharged offenses in sexual assault and child molestation cases on the same footing as other types of relevant evidence that are not subject to a special exclusionary rule. Eight states enacted similar rules to protect the public from rapists and child molesters.

Adopts an exception to Evidence Rule 404(b).

Regarding the basic education funding allocation for certificated instructional staff.

Finds that the purpose of this act is to improve public education by enabling learner-focused education through smaller class sizes in the early grades.

Declares that the state's long-term goal is to reduce class size in grades kindergarten through three to no more than seventeen students per teacher in a class by the 2013-14 school year.

Provides that in addition to the base allocation, additional certificated instructional staff shall be allocated only if the district documents an actual ratio in grades kindergarten through three equal to or greater than the sum of the base allocation and any allocation provided for the applicable year.

Provides that additional funds allocated under this act may be used to provide improvements or additions to facilities directly related to class size reductions in grades kindergarten through three.

VETO MESSAGE ON 2SSB 6377

March 26, 2008

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 204 and 307, Second Substitute Senate Bill 6377 entitled:

"AN ACT Relating to secondary career and technical education."

Section 204 provides for three-year grants to high schools and skills centers for implementing integrated work skills, basic skills and English skills programs. The Legislature did not allocate funding for Section 204 of this bill in either the supplemental operating budget or in Engrossed Second Substitute Senate Bill 6673, which specified the purposes of the appropriations for this legislation. Instead, the Legislature allocated funding in the supplemental operating budget for program development and plans for implementing integrated programs at five skills centers. I look forward to receiving the report on these efforts in November. This will guide future program development in this area.

Section 307 creates a new program, the In-Demand Scholars Program, to be administered by the Workforce Training and Education Board. The Legislature did not allocate funding for this new program in either the supplemental operating budget or in Engrossed Second Substitute Senate Bill 6673, which specified the purposes of the appropriations for this bill.

For these reasons, I have vetoed Sections 204 and 307 of Second Substitute Senate Bill 6377.

With the exception of Sections 204 and 307, Second Substitute Senate Bill 6377 is approved.

Respectfully submitted,
Christine Gregoire
Governor

Companion Bill: 2476

Authorizing tribal police officers to act as general authority Washington state peace officers.

Defines "general authority Washington peace officer" to mean an officer authorized to enforce the criminal and traffic laws of the state of Washington generally and "tribal police officer" to mean any person in the employ of one of the federally recognized sovereign tribal governments, whose traditional lands and territories lie within the borders of the state of Washington, to enforce the criminal laws of that government.

Provides that tribal police officers under this act are authorized to act as general authority Washington peace officers and have the same powers as any other general authority Washington peace officer to enforce state laws in Washington, including the power to make arrests for violations of state laws. This authority is subject to the appropriate sovereign tribal nation submitting to the office of financial management proof of public liability and property damage insurance for vehicles operated by the peace officers, police professional liability insurance, and training requirements for each tribal police officer.

Requires that a copy of any citation or notice of infraction issued, or any incident report taken, by a tribal police officer must be submitted within three days to the police chief or sheriff within whose jurisdiction the action was taken. The citation shall be to a Washington court, except that any citation issued to Indians within the exterior boundaries of an Indian reservation may be cited to a tribal court.

Provides that for purposes of civil liability, a tribal police officer shall not be considered an employee of the state of Washington.

Addressing the impacts of climate change through the growth management act.

(SUBSTITUTED FOR - SEE 1ST SUB)

Mitigates the impacts of climate change through the growth management act.

SB 6580-S by Senate Committee on Government Operations & Elections (originally sponsored by Senators Marr, Weinstein, Pridemore, Kauffman, Keiser, McAuliffe, Hobbs, Regala, Kline, Kohl-Welles, Fairley, Oemig, Rockefeller, Prentice, and McDermott)

(DIGEST AS ENACTED)

Requires the department of community, trade, and economic development to develop and provide advisory climate change response methodologies, computer modeling programs, and estimates to counties and cities that include a range of methodologies and estimates.

Establishes a local government global warming mitigation and adaptation program to assist counties and cities that are addressing climate change through their land use and transportation planning, and those that aspire to do so but lack necessary resources.

Requires the department of community, trade, and economic development to present a report to the legislature regarding climate change recommendations and assessments.

VETO MESSAGE ON ESSB 6580

April 1, 2008

To the Honorable President and Members,
 The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 7, 8, 9 and 10, Engrossed Substitute Senate Bill 6580 entitled:

"AN ACT Relating to mitigating the impacts of climate change through the growth management act."

Section 2 requires the Department of Community, Trade and Economic Development to develop advisory methods for how counties and cities can evaluate and respond to climate change. In my view, this section of the bill does not create a new mandate for local governments, and does not provide grounds for new litigation under the Growth Management Act. The section appropriately recognizes the differences between our urban and rural settings, and requires the Department to follow the

recommendations of the policy committee created in Section 4 of the bill. The bill directs the committee, which will include legislators, county and city officials, tribes, state agencies, business, agriculture, forestry, land use and other interests, to develop recommendations for whether and how climate change could be addressed in the GMA. Any further action on this topic is subject to future decisions by the Legislature. In addition, Section 6 of the bill ensures that the ongoing Ruckelshaus Center process related to agriculture and land use is not affected.

Section 3 establishes a voluntary pilot global warming mitigation and adaptation program for up to three counties and up to six cities. The Department is required to provide grants and technical assistance to local governments who are addressing climate change through their land use plans. Only partial funding was provided for the pilot program -- enough for the Department to provide limited technical assistance, but not enough to provide state grant funds to the pilot jurisdictions. I ask the Department to encourage local jurisdictions that have their own resources to begin, on a voluntary basis, to address the role of land use and transportation planning in mitigating climate change. However, given the state's budget forecast, I strongly believe that additional state funding for the pilots will not be available next biennium.

Section 7 is an emergency clause to allow the bill to take effect immediately. An emergency clause is to be used where it is necessary for the immediate preservation of the public peace, health or safety or whenever it is essential for the support of state government. The clause would allow the Department to promptly convene a committee and begin work on a report due later this year. However, there was no supplemental funding provided to implement the bill in fiscal year 2008. As a result, the emergency clause is not needed.

Section 8 would declare this act null and void if funding were not provided specifically for Section 2 of the bill (advisory methods) in the omnibus appropriations act. Section 9 would declare this act null and void if funding were not provided specifically for Section 3 of the bill (pilot program) in the omnibus appropriations act. Section 10 of the bill would declare this act null and void if funding were not provided specifically for this measure in the omnibus appropriations act. Funding for this bill, including Sections 2 and 3, was included in the omnibus appropriations act. As a result, the null and void clauses are not needed.

For these reasons, I have vetoed Sections 7, 8, 9 and 10 of Engrossed Substitute Senate Bill 6580.

With the exception of Sections 7, 8, 9 and 10, Engrossed Substitute Senate Bill 6580 is approved.

Respectfully submitted,
Christine O. Gregoire
Governor

SB 6589-S by Senate Committee on Labor, Commerce, Research & Development (originally sponsored by Senators Spanel, Kohl-Welles, Brandland, and Delvin)

Regarding financial negotiations between civil service unions and institutions of higher education following October 1st.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that in the case of a bargaining unit of employees in which the exclusive bargaining representative is certified by the public employment relations commission after the October 1st deadline and for which there is no existing master agreement, the legislature may act upon the compensation and fringe benefit provisions of the unit's collective bargaining agreement if those provisions are agreed upon and submitted to the office of financial management no fewer than thirty-five days or fifty days before the end of session depending on the length of session. The office of financial management submits the compensation and fringe benefit provisions of the agreement to the fiscal committees of the legislature within the same periods of time. If the deadline for submittal to the office of financial management is not met, the governor shall submit the request for funds necessary to implement the compensation and fringe benefit provisions in the agreement in the next budget request submitted to the legislature.

SB 6604 by Senators Murray, Holmquist, Kohl-Welles, Prentice, King, and Marr

Companion Bill: 2496

Enhancing the mobility of certified public accountants.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds the multiple state licensing and registering requirements for certified public accountants to be cumbersome and an unnecessary constraint on the consumers of professional certified public accountant services. In order to serve their various client needs, certified public accountants must often delay service while they first spend countless hours and dollars to register with regulators in the jurisdiction of the client.

Declares an intent to eliminate the requirement for out-of-state certified public accountants to notify the Washington state board of accountancy of intent to practice and pay a fee, unless these individuals or firms are providing audit or opinion-type services.

Modifies the requirements for entities that must hold a license to practice as a CPA firm.

Provides that an individual whose principal place of business is not in this state shall be presumed to have qualifications substantially equivalent to this state's requirements and shall have all the privileges of licensees of this state without the need to obtain a license under RCW 18.04.105 if the individual: (1) Holds a valid license as a certified public accountant from any state that requires, as a condition of licensure, that an individual: (a) have at least one hundred fifty semester hours of college education; (b) achieve a passing grade on the uniform certified public accountant examination; and (c) possess at least one year of experience including service or advice involving the use of accounting, attest, compilation, management advisory, financial advisory, tax, or consulting skills, all of which was verified by a licensee; or

(2) Holds a valid license as a certified public accountant from any state that does not meet the requirements of (1) of this subsection, but such individual's CPA qualifications are substantially equivalent to those requirements.

Companion Bill: 2767

Exempting specialty agricultural structures from building code requirements.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides chapter 19.27 RCW does not apply to specialty agricultural buildings constructed on a commercial agricultural operation.

SB 6609-S by Senate Committee on Government Operations & Elections (originally sponsored by Senators Fairley, Rasmussen, Haugen, Jacobsen, Marr, Shin, and Roach)

Limiting the charge for permits for specialty agricultural buildings.

(AS OF SENATE 2ND READING 2/16/2008)

Limits the charge under the building code for permits for specialty agricultural buildings constructed on a commercial agricultural operation to seventy-five dollars or less.

Defines specialty agricultural structures as those that are designed and constructed to house farm equipment, hay, grain, poultry, livestock, or other horticultural products. Human habitation, public use, and employment where agricultural products are processed, treated, or packaged are not permitted uses of a specialty agricultural building. For the purposes of this act, "commercial agricultural operation" means an operation that generates an average of at least ten thousand dollars gross income per year from the sale of agricultural products.

Companion Bill: 2784

Regarding the intensive case management and integrated crisis response pilot programs.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides, during state fiscal year 2009, contracts for pilot programs under RCW 70.96B.020 must be limited to those counties that have contracted with the department to act as a regional support network.

SB 6665-S by Senate Committee on Human Services & Corrections (originally sponsored by Senators Hargrove, Stevens, and Marr)

(DIGEST AS ENACTED)

Requires the Washington state institute for public policy to evaluate the pilot programs and make preliminary reports to appropriate committees of the legislature by December 1, 2007, and June 30, 2008, and a final report by June 30, 2010.

Requires a person detained for fourteen days of involuntary chemical dependency treatment under RCW 70.96B.090 to be released from involuntary treatment at the expiration of the period of commitment unless the professional staff of the agency or facility files a petition for additional period of involuntary treatment under RCW 70.96A.140, or files a petition for sixty days less restrictive treatment under RCW 70.96B.100.

Provides that the court may impose a sixty-day less restrictive order if the evidence shows that the respondent, as a result of a chemical dependency, presents a likelihood of serious harm or is gravely disabled, and that continued treatment pursuant to a less restrictive order is in the best interest of the respondent or others.

VETO MESSAGE ON ESSB 6665

April 1, 2008

To the Honorable President and Members,
 The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 4, Engrossed Substitute Senate Bill 6665 entitled:

"AN ACT Relating to the intensive case management and integrated response pilot programs."

This bill extends the life of two pilot programs authorized by the Legislature in 2005, the Intensive Case Management and the

Integrated Crisis Response pilots. Section 4 provides the Department of Social and Health Services with the authority to expand the number of intensive crisis response pilots. Vetoing this section allows time for the Washington State Institute for Public Policy to adequately study the effectiveness of these programs prior to making a determination on whether to expand their availability.

For these reasons, I have vetoed Section 4 of Engrossed Substitute Senate Bill 6665.

With the exception of Section 4, Engrossed Substitute Senate Bill 6665 is approved.

Respectfully submitted,
 Christine Gregoire
 Governor

Lorraine Wojahn dyslexia pilot reading program regarding effective assessment and intervention programs to help students with dyslexia or characteristics of dyslexia, best practices for professional development, and strategies to build capacity and sustainability among teaching staff.

Requires the professional educator standards board to convene a work group to develop recommendations for increasing teacher knowledge, skills, and competencies to address the needs of English language learner students.

VETO MESSAGE ON E2SSB 6673

April 1, 2008

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 6, 11, 12 and 13, Engrossed Second Substitute Senate Bill 6673 entitled:

"AN ACT Relating to learning opportunities to assist students to obtain a high school diploma."

Engrossed Second Substitute Senate Bill 6673 provides support for students in need of additional time or assistance to meet state academic standards and graduation requirements. Key components of this bill enhance the Learning Assistance Program, assure parent notification of student progress, and explore on-line curriculum support in languages other than English and build teacher instructional capacity. This bill also creates a number of new programs.

Section 6 creates a new duty for school districts to provide all tenth graders enrolled in the district the option of taking the PSAT at no cost to the student. While this test may provide students some information regarding their readiness for the SAT and college preparedness, there has not been coordination with the other college readiness assessment work already in progress, specifically work being done in mathematics.

Section 11 directs Educational Service Districts to develop and provide a program of outreach to community-based programs and organizations that are serving non-English speaking segments of the population as well as those programs that target groups of students who are struggling academically. This is an idea that should be considered within the context of the several studies, due this December, that will analyze and make recommendations on how to close the achievement gap.

Section 12 directs the Office of the Superintendent of Public Instruction to allocate grant funds to school districts to provide summer school funding for all middle and high school students to explore career opportunities rich in math, science, and technology. School districts and skills centers should be finding ways to engage students in learning and career exploration as part of their basic missions. One exciting opportunity initiated in 2006 is the Washington Aerospace Scholars, a statewide partnership through the Washington Aerospace Scholars Foundation with The Museum of Flight, schools and business partners. The program gives high school students the opportunity to participate in hands-on engineering activities; tour facilities at Boeing, the University of Washington, Microsoft, and Battelle; receive mentoring from astronauts, pilots, engineers, and scientists; and conduct a project on Mars exploration. Future funds need to support targeted programs that have been proven effective.

Section 13 directs the Office of the Superintendent of Public Instruction to contract with a national organization to establish and operate an endowment for the promotion of geography education. There are no funds provided for the creation of the endowment program.

For these reasons, I am vetoing Sections 6, 11, 12 and 13 of Engrossed Second Substitute Senate Bill 6673.

With the exception of Sections 6, 11, 12 and 13, Engrossed Second Substitute Senate Bill 6673 is approved.

Respectfully submitted,
Christine Gregoire
Governor

Implementing the recommendations of the joint legislative task force on the underground economy in the construction industry.

(SUBSTITUTED FOR - SEE 2ND SUB)

Requires the department of labor and industries to deny an application for registration for contractors and suspend an active registration if the department determines that the applicant has falsified information on the application, unless the error was

inadvertent, or the applicant does not have an active and valid certificate of registration with the department of revenue.

Provides that a contractor shall not be allowed to bid on any public works contract for one year from the date of a final determination that the contractor has committed certain violations or infractions within a five-year period.

Requires three staff members, one being a working supervisor, to be added to the department of labor and industries' fraud audit infraction and revenue contractor fraud team.

Requires the department of labor and industries to create an expanded social marketing campaign using currently available materials and newly created materials as needed for consumers and warn them of the risks and potential consequences of hiring unregistered contractors or otherwise assisting in the furtherance of the underground economy.

Declares that a pilot project must be established between the department of labor and industries and certain local jurisdictions to explore ways to improve the collection and sharing of building permit information.

VETO MESSAGE ON 2SSB 6732

March 21, 2008

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 11 and 13, Second Substitute Senate Bill 6732 entitled:

"AN ACT Relating to implementing the recommendations of the joint legislative task force on the underground economy in the construction industry."

This bill provides precise tools to both the Department of Labor and Industries and the Employment Security Department to crack down on the underground construction economy. This legislation strengthens the ability of the two departments to enforce the statutes most frequently violated by unregistered contractors. It also provides the enforcement staff and the penalties necessary to make an impact on the underground construction economy.

Section 11 directs the Department of Labor and Industries to hire three staff members, including a working supervisor. While it is understandable that the Legislature wishes to make clear its intent regarding the Department's enforcement staff, specific reporting relationships and staffing levels are decisions best left to the Department and its management. The underlying strategies and tools described in the bill as a whole depend upon increased staffing in the Department's fraud audit infraction and revenue team. Therefore, I am directing the Department of Labor and Industries to hire investigative staff, consistent with the legislative appropriation provided for implementation of this bill, to carry out the activities and functions necessary to curb the activities of the underground construction economy.

Section 13 directs the Department of Labor and Industries to establish a pilot program with local jurisdictions surrounding the collection and sharing of building permit information. The intent and makeup of this study is unclear and the language provides little direction as to the nature of the pilot project. Since the pilot was intended to run until the end of 2014, I believe the legislature can revisit this idea in the next session.

For these reasons, I have vetoed Sections 11 and 13 of Second Substitute Senate Bill 6732.

With the exception of Sections 11 and 13, Second Substitute Senate Bill 6732 is approved.

Respectfully submitted,
Christine Gregoire
Governor

"AN ACT Relating to autism awareness instruction for teachers of students with autism."

This bill provides for training and guidelines for teachers of students with autism.

Section 1 includes an extensive listing of items for an autism guidebook that is being developed by the Caring for Washington Individuals with Autism Task Force with staff support from the Department of Health. These items are very specific regarding possible strategies and activities that could be included to support children with autism in our public schools.

The OSPI already has a guide developed as a resource for both educators and parents, produced by the Autism Outreach Project, which maintains an informational web site as well as an e-mail address for communication with individuals with specific questions and concerns. I believe that this guide is the most appropriate document to address the many issues raised in Section 1.

SB 6743 by Senators Rasmussen, McAuliffe, Tom, and Shin

Companion Bill: 3152

Regarding training and guidelines for teachers of students with autism.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that the professional educator standards board shall develop autism awareness and training policy guidelines for schools to ensure that teachers responsible for autistic children are well-prepared and up-to-date on the most effective methods of teaching children with autism.

SB 6743-S by Senate Committee on Early Learning & K-12 Education (originally sponsored by Senators Rasmussen, McAuliffe, Tom, and Shin)

Regarding training and guidelines for teachers of students with autism. (REVISED FOR PASSED LEGISLATURE: Regarding educational guidelines for parents and educators of students with autism.)

(DIGEST AS ENACTED)

Requires the office of the superintendent of public instruction, in collaboration with the department of health, the department of social and health services, educational service districts, local school districts, the autism center at the University of Washington, and the autism society of Washington, to distribute information on child find responsibilities under Part B and Part C of the federal individuals with disabilities education act, as amended, to agencies, districts, and schools that participate in the location, evaluation, and identification of children who may be eligible for early intervention services or special education services.

Requires the office of the superintendent of public instruction, in collaboration with the department of health and the department of social and health services, to develop posters to be distributed to medical offices and clinics, grocery stores, and other public places with information on autism and how parents can gain access to the diagnosis and identification of autism and contact information for services and support.

VETO MESSAGE ON SSB 6743

March 28, 2008

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 1, Substitute Senate Bill 6743 entitled:

Therefore, I have asked the OSPI to update its guide and to emphasize tools for parents to use. I have also asked that this updated guide be distributed to educational service districts, school districts, appropriate school employees and parent advocacy groups.

Additionally, I have asked the Professional Educator Standards Board and the OSPI to develop recommendations for autism awareness instruction and methods of teaching students with autism that will strengthen learning for students. The recommendations will address appropriate content in teacher preparation and professional development. These reports will be completed by December 1, 2008.

For these reasons, I am vetoing Section 1 of Substitute Senate Bill 6743.

With the exception of Section 1, Substitute Senate Bill 6743 is approved.

Respectfully submitted,
Christine Gregoire
Governor

SB 6744 by Senators Fraser and Fairley

Concerning homeowners' associations.

(AS OF SENATE 2ND READING 2/18/2008)

Requires, by December 10, 2008, the department of community, trade, and economic development to conduct a study of improved dispute resolution processes for homeowners' association members and boards of directors. The study shall evaluate the feasibility of creating either state or local appeals boards or state or local ombudsman offices to provide dispute resolution services and information to homeowners' association members and boards of directors about their rights and duties under chapter 64.38 RCW.

Requires the department of community, trade, and economic development to appoint an advisory committee of up to twelve members to assist with the study.

Requires the department of community, trade, and economic development to create a task force of up to thirteen members to provide recommendations on model declarations and a method for distributing information on homeowners' associations to prospective buyers.

SB 6744-S by Senate Committee on Consumer Protection & Housing (originally sponsored by Senators Fraser and Fairley)

(NOT SUBSTITUTED FOR - SEE ORIGINAL BILL)

Orders the department of community, trade, and economic development to conduct a study to determine the efficacy of creating a state agency run homeowners' association ombudsman office, which would provide dispute resolution services and information to homeowners about their rights and duties under chapter 64.38 RCW.

Creates the homeowners' association declarations task force with ten members as provided in this provision.

Declares the task force shall conduct a review of declarations that have been used to form homeowners' associations in Washington state and other states and draft model declarations, which declarants may appropriate to form homeowners' associations.

Concerning regional transportation governance.

Changes the legal designation of each "regional transit
 authority" to "regional transportation authority," and any existing
 regional transit authority shall, within ninety days of the effective
 date of this act, by resolution of its board change its legal
 designation to a "regional transportation authority."

Authorizes a regional transportation authority to be created in
 an area within the boundaries of a county or counties.

Requires a regional transportation authority to prepare, adopt,
 and implement a comprehensive and integrated corridor-based
 multimodal regional mobility investment plan that plans,
 prioritizes, and finances improvements to highways, streets,
 roads, and public transportation that will serve the residents of the
 region, and to amend the plan to meet changed conditions and
 requirements.

Provides that a regional transportation authority shall work
 cooperatively, and in a coordinated fashion, with the department
 of transportation's administrative region serving the authority
 area, and with the regional transportation planning organization
 serving the authority area. The authority shall establish a
 negotiated process with the department of transportation, and
 other applicable local planning offices, that ensures the respective
 agencies are planning for a comprehensive and integrated
 corridor-based multimodal regional transportation system.

Modifies relevant tax provisions concerning regional
 transportation authorities.

Eliminates regional transportation investment districts and

Requires, by December 1, 2014, the state board for community and technical colleges to file a report with the capital budget and higher education committees of the legislature regarding the pilot program created in this act.

VETO MESSAGE ON SSB 6804

March 21, 2008

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval, Substitute Senate Bill 6804 entitled:

"AN ACT Relating to capital grants for integrated long-term care worker training labs in the community and technical college system."

If it had been funded, this bill would have established a capital grant program for up to four long-term care worker training labs in the community and technical college system. However, the bill includes a clause stating that the proposed pilot grant program is null and void unless funding for the program is included in the 2008 supplemental budget. The Legislature did not include funding in either the operating or capital supplemental budgets. By simultaneously including the null and void clause in the bill while not appropriating funding, the Legislature did not intend the bill to become effective.

For these reasons, I have vetoed Substitute Senate Bill 6804 in its entirety.

Respectfully submitted,
Christine Gregoire
Governor

Provides that if a boarding home voluntarily withdraws from
 participation in a state medicaid program for residential care and
 services under chapter 74.39A RCW, but continues to provide
 services of the type provided by boarding homes, the facility's
 voluntary withdrawal from participation is not an acceptable basis
 for the transfer or discharge of residents of the facility who were
 receiving medicaid on the day before the effective date of the
 withdrawal or who have been paying the facility privately for at
 least two years and who become eligible for medicaid within one
 hundred eighty days of the date of withdrawal.

Requires a boarding home that has withdrawn from the state
 medicaid program for residential care and services under chapter
 74.39A RCW to provide appropriate oral and written notices to
 prospective residents.

Requires a boarding home that is providing residential care
 and services under chapter 74.39A RCW to give the department
 and its residents sixty days' advance notice of the facility's intent
 to withdraw from participation in the medicaid program.

VETO MESSAGE ON SSB 6807

March 28, 2008

To the Honorable President and Members,
 The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 2, Substitute
 Senate Bill 6807 entitled:

"AN ACT Relating to discharge of long-term care
 residents."

Substitute Senate Bill 6807 prohibits a boarding home from
 transferring or discharging a current resident on the basis that it is
 voluntarily withdrawing from the Medicaid program.

Section 2 requires all long-term care facilities to disclose in
 writing to any potential resident prior to admission the facility
 policy on accepting Medicaid as a payment source. Upon
 admission, the disclosure will be considered a legally binding
 contract between the resident and the facility.

I am concerned that this section is impossible to implement
 retroactively, and there is no recourse for those who would be in
 violation of this bill the moment it becomes effective. In addition,
 Washington's administrative code already requires the disclosure
 contemplated in Section 2.

For these reasons, I have vetoed Section 2 of Substitute Senate
 Bill 6807.

With the exception of Section 2, Substitute Senate Bill 6807 is
 approved.

Respectfully submitted,
 Christine Gregoire
 Governor

SB 6818 by Senators Oemig, Brandland, Tom, Zarelli, Kastama, Weinstein, Kilmer, Keiser, and Kohl-Welles

Promoting transparency in state expenditures.

(DIGEST AS ENACTED)

Requires, by January 1, 2009, in collaboration with the office of financial management, using existing databases and structures currently shared, the office of the legislative evaluation and accountability program committee to establish and make available to the public a searchable state expenditure information web site.

Requires the office of financial management to make electronically available to the public a database of state agency contracts for personal services required to be filed with the office of financial management under chapter 39.29 RCW.

Requires, upon the release of each proposed omnibus appropriations act and final enacted budget, the legislative evaluation and accountability committee to prepare and cause to be posted on a publicly accessible web site a presentation consisting of potential examples of the types and levels of educational programs and services supported by funding provided in the proposed or enacted omnibus appropriations act under specified allocations for the support of common schools.

VETO MESSAGE ON SB 6818

April 1, 2008

To the Honorable President and Members,
 The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 4, Senate Bill 6818 entitled:

"AN ACT Relating to transparency in state expenditures."

Section 4 of this bill would have the Legislative Evaluation and Accountability Program prepare and post to the web a presentation about school funding programs and categories. The Joint Task Force on Basic Education is currently reviewing basic education funding, and will produce a recommendation for a new K-12 funding framework for consideration by the Legislature during the 2009 session. One of the criteria for the new funding system is that it be more transparent. Because the categories and cost allocations specified in Section 4 will be outdated and need to be changed very soon, I am concerned that this provision could cause more, rather than less, confusion about how the state funds K-12 education.

For these reasons, I have vetoed Section 4 of Senate Bill 6818.

With the exception of Section 4, Senate Bill 6818 is approved.

Respectfully submitted,

Christine Gregoire
Governor

SB 6818-S by Senate Committee on Ways & Means (originally sponsored by Senators Oemig, Brandland, Tom, Zarelli, Kastama, Weinstein, Kilmer, Keiser, and Kohl-Welles)

(NOT SUBSTITUTED FOR - SEE ORIGINAL BILL)

Requires, by January 1, 2009, the office of financial management to establish and make available to the public a state expenditure information web site to contain certain information for the prior fiscal year, with the data in each of the categories linked to the other categories.

Provides that the office of financial management, in conjunction with the public disclosure commission, shall establish a database that links the database of state agency contracts for personal services and purchased services required to be filed with the office of financial management and the database of campaign contributions required to be reported to the public disclosure commission.

VETO MESSAGE ON 2SSB 6855

April 1, 2008

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 10 and 12, Second Substitute Senate Bill 6855 entitled:

"AN ACT Relating to dedicated funding for jobs,
economic development, and local capital projects."

This bill expands upon the existing Community Services Facilities program by creating the Building Communities Fund Account in the State Treasury. I am very supportive of the policy underlying this bill.

Section 10 gives responsibility to the Economic Development Commission that it already has and this is not something the Commission requested. Reiterating it in this legislation is unnecessary. Therefore, I am vetoing Section 10 to avoid any expectations about requirements either on the Community Economic Development Board or the Economic Development Commission.

I support the concept of expanding the existing Community Services Facilities Program, but it is unnecessary to outline legislative findings in this legislation. Therefore, I am vetoing Section 12.

For these reasons, I have vetoed Sections 10 and 12 of Second Substitute Senate Bill 6855.

With the exception of Sections 10 and 12, Second Substitute Senate Bill 6855 is approved.

Respectfully submitted,
Christine Gregoire
Governor

Regarding Columbia river water delivery.

(SUBSTITUTED FOR - SEE 2ND SUB)

Creates the Columbia river water delivery account in the state treasury.

Provides, on July 1, 2008, and each July 1st thereafter for the duration of the agreements described in this act, the state treasurer

shall transfer funds from the general fund into the Columbia river water delivery account in the amounts described in this act.

Appropriations are made for distribution to affected counties to mitigate for negative impacts caused by releases of Lake Roosevelt water; and to retain a contractor to perform an independent analysis of legislative options to protect rural communities in northeast Washington from disproportionate economic, agricultural, and environmental impacts when upstream water rights are purchased and transferred for use, or idled and used as mitigation, in a downstream watershed or county.

SB 6874-S2 by Senate Committee on Ways & Means (originally sponsored by Senators Brown, Rockefeller, Kauffman, and Rasmussen; by request of Governor Gregoire)

(DIGEST AS ENACTED)

Creates the Columbia river water delivery account in the state treasury.

Provides, on July 1, 2008, and each July 1st thereafter for the duration of the agreements described in this act, the state treasurer shall transfer moneys from the general fund into the Columbia river water delivery account in the amounts described in this act.

Provides, subject to appropriations, on July 1, 2008, and each July 1st thereafter, the state treasurer shall distribute moneys from the Columbia river water delivery account as specified in this act.

Requires the department of ecology to, by November 15, 2009: (1) Conduct an assessment of the potential impacts, including recommendations for mitigation, and report to appropriate committees of the legislature; and

(2) Establish a process for identifying and reporting on future impacts on the affected counties, and for making recommendations for mitigation.

Requires the department of ecology to: (1) Provide technical assistance to help affected counties identify and develop competitive project applications to benefit both instream and out-of-stream uses;

(2) Assist affected counties in exploring options to ensure water resources are available for their current and future needs. Such options include pursuing a memorandum of understanding with the affected counties that is consistent with RCW 90.90.005 to effectuate the purposes of this act. The memorandum of understanding shall be available for public comment for a period of thirty days before being signed by the department; and

(3) Consider regional equity when making funding decisions on water supply applications.
