

unanticipated non-federal receipts are unrestricted and can be used for any purpose is erroneous. To require that increases in certain forms of revenue, such as patient fees, be available to an institution only if an equivalent amount of state General Fund money is placed in reserve, is not reasonable. This requirement effectively limits the capability of an agency to accommodate unanticipated increases in workload and associated revenue. In addition, this proposed restriction inhibits institutions from taking advantage of various non-federal grants that were not anticipated in the budget development process and thus tends to eliminate benefits that might otherwise accrue to the state.

With the exception of the foregoing sections and items which I have vetoed for the reasons stated, the remainder of Substitute Senate Bill No. 3109 is approved."
