PART V

DEPARTMENT OF FISHERIES

NEW SECTION. Sec. 501. FOR THE DEPARTMENT OF FISHERIES

The legislature recognizes that the local economies of many communities are heavily dependent on the timber and fishing industries of the state and that the current economic recession has created extraordinarily high rates of unemployment in these communities. Therefore, it is the intent of section 501 of this act to direct the director, department of fisheries, to undertake and implement projects, including the administrative costs thereof,

which will create employment opportunities for those unemployed as a result of the depressed timber and fishing industries and which:

- (1) Enhance the natural salmon stocks in those rivers and streams which determine the ocean salmon quota and which, therefore, control the harvest opportunities for commercial and recreational ocean salmon fisheries;
- (2) Improve the streams and rivers of this state which are important to the success of the natural stocks of salmon;
- (3) Enhance the maximum utilization of existing salmon stocks; and
- (4) Develop mini-modular mobile hatchery complexes on rehabilitated rivers and streams.

The director shall submit quarterly reports, beginning October 1, 1983, to the chairmen of the ways and means committees of the house of representatives and the senate containing:

- (a) The projects initiated;
- (b) The projects completed;
- (c) The unduplicated counts of unemployed persons gaining employment because of this program;
- (d) Department FTE involved; and
- (e) Administrative costs.

To continue salmon enhancement projects and provide stream and river improvements for natural salmon stocks.

No such transfer shall be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects which are funded from the same fund or account.

A report of any transfer effected under this section shall be filed with the legislative auditor by the director of financial management within thirty days of the date the transfer is effected. The legislative auditor shall review and compile these filings and periodically report thereon to the legislative budget committee and the appropriate standing committees of the senate and house of representatives.
