WARNING ORDER – Operation Cold Reality

Time Zone Used Throughout: Pacific Standard

Weather: Drifting snow and winter weather conditions with intentional road closures.

1. SITUATION

A. Government - Currently the FBI has assumed operational control and is on location in Harney County, Oregon. A "swift resolution" is the intent of government forces. It is likely that the government will dramatically escalate the situation tomorrow 4 Jan 16 and then allow a standoff during this week. The President's agenda this week is gun control and the actions of those on the ground currently in Burns will be used to further that agenda. The government's after action review following Bundy Ranch indicate that they will not allow another Patriot success and the likelihood of violence on the part of the government is high. ORNG has been activated. The government is trying to use current weather conditions to limit access to the area.

B. Bundy - Currently there are about a dozen patriots occupying the wildlife refuge with the intent to continue doing so indefinitely. Government workers are expected to go to work there tomorrow 4 Jan 16. They have stated they will "use all force necessary."

C. Three Percent Movement (National) - Has told its members to stand down and prepare to fight locally in their own respective areas. Mike V. has called for a team of negotiators to go to Burns.

D. Oathkeepers (National) - Has told its members to stand down. Some are ignoring that order.

E. Coalition of Western States/AmRRON/LWWA/LFA - Currently has no deployed elements to the area but intelligence assets are on site providing real time intelligence.

2. MISSION - Be prepared to deploy a COWS/AmRRON/LWWA/LFA negotiating team to Burns, Oregon, on two hours notice in order to facilitate a peaceful resolution to the situation.

3. EXECUTION

Intent – Conclude a peaceful resolution to the situation and re-establish legitimate Patriot leadership over the movement. Force the BLM to address its utter failure as an agency and embolden people at the state and local level to reclaim ground for liberty.

Strategy –

1. Establish continual prayer over this endeavor.
2. Put pressure on federal, state, & local officials to address BLM tyranny.
3. Expose them as tyrants, by making them act like tyrants.
4. Establish real-time communications with redundancy.
5. Confront and highlight illegal government action at every turn.
6. Place blame squarely with BLM.
7. Go on offense in media, court, and political arena.
8. Throw up as many obstacles to violent action by the government as possible.

Goals –

1. Peaceful resolution. No one hurt. Prevent government from doing something stupid.
2. BLM stands down, issues an apology for all abusive actions.
3. Public opinion swayed to our side.
4. Citizens emboldened and educated to rally to change and organize on local level.
5. Re-establish legitimate leadership over Patriot Movement.
