All receipts from the taxes imposed under RCW 82.14.0494 and distributions under RCW 67.70.240~~((5))~~ (1)(d) shall be deposited into the account. Only the director of the office of financial management or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW. An appropriation is not required for expenditures from this account.

(2) Until bonds are issued under RCW 43.99N.020, up to five million dollars per year beginning January 1, 1999, shall be used for the purposes of subsection (3)(b) of this section, all remaining moneys in the account shall be transferred to the public stadium authority, created under RCW 36.102.020, to be used for public stadium authority operations and development of the stadium and exhibition center.

(3) After bonds are issued under RCW 43.99N.020, all moneys in the stadium and exhibition center account shall be used exclusively for the following purposes in the following priority:

(a) On or before June 30th of each year, the office of financial management shall accumulate in the stadium and exhibition center account an amount at least equal to the amount required in the next succeeding twelve months for the payment of principal of and interest on the bonds issued under RCW 43.99N.020;

(b) An additional reserve amount not in excess of the expected average annual principal and interest requirements of bonds issued under RCW 43.99N.020 shall be accumulated and maintained in the account, subject to withdrawal by the state treasurer at any time if necessary to meet the requirements of (a) of this subsection, and, following any withdrawal, reaccumulated from the first tax revenues and other amounts deposited in the account after meeting the requirements of (a) of this subsection; and

In the 2009-2011 biennium, if there are not enough project applications submitted in a category within the account to meet the requirement of equal distribution of funds to each category, the director of the recreation and conservation office may distribute any remaining funds to other categories within the account. (a) Seventy percent of amounts appropriated to the authority from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The authority, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the authority to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the authority from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The authority shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, and substance use disorder treatment providers. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The submitted plan should incorporate current evidence-based practices in substance use disorder treatment. The funds shall be used solely to provide approved alcohol and substance use disorder treatment pursuant to RCW 71.24.560 and treatment support services. No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) If a region or county uses criminal justice treatment account funds to support a therapeutic court, the therapeutic court must allow the use of all medications approved by the federal food and drug administration for the treatment of opioid use disorder as deemed medically appropriate for a participant by a medical professional. If appropriate medication-assisted treatment resources are not available or accessible within the jurisdiction,

the health care authority's designee for assistance must assist the court with acquiring the resource.

(10) Counties must meet the criteria established in RCW 2.30.030(3).

(11) The authority shall annually review and monitor the expenditures made by any county or group of counties that receives appropriated funds distributed under this section. Counties shall repay any funds that are not spent in accordance with the requirements of its contract with the authority.

Sec. 971. RCW 74.13.715 and 2020 c 33 s 2 are each amended to read as follows:

(1) Beginning September 1, 2020, the department shall contract with an external organization or organizations with experience serving youth or families receiving out-of-home care services to implement and operate the family connections program, which facilitates interaction between a parent of a child found to be dependent pursuant to chapter 13.34 RCW and in out-of-home care and the individual with whom the child is placed.

(2) The external organization or organizations contracted to implement and operate the family connections program shall implement and operate the family connections program in one location west of the crest of the Cascade mountains, and one location east of the crest of the Cascade mountains.

(3) Families may be referred to the family connections program by a caseworker, an attorney, a guardian ad litem as defined in RCW 13.34.030, a parent ally, an office of public defense social worker, or the court.

(4) After receiving a referral, the family connections program shall determine whether an in-person meeting between a parent of a child found to be dependent pursuant to chapter 13.34 RCW and in out-of-home care and the individual with whom the child is placed is appropriate. If the family connections program determines that such a meeting is appropriate, the family connections program shall then determine whether:

(a) The parent of a child found to be dependent pursuant to chapter 13.34 RCW and in out-of-home care and the individual with whom the child is placed are willing to participate in an in-person meeting; and

(b) Safety concerns exist such that an in-person meeting should not occur.

(5) If the family connections program determines that an in-person meeting should occur following the analysis required by subsection (4) of this section, the family connections program shall provide a referral to the family connections program team. The family connections program team shall include a parent ally and an experienced caregiver. After receiving a referral, the family connections program team shall:

(a) Ensure that the parent ally contact the parent to prepare for an in-person meeting between the parent and caregiver;

(b) Ensure that the experienced caregiver contact the caregiver to prepare for an in-person meeting between the parent and caregiver;

(c) Convene an in-person meeting between the parent and caregiver; and

(d) Provide ongoing support to the parent and caregiver following the in-person meeting.

(6) If the family connections program determines that an in-person meeting should not occur following the analysis required under subsection (4) of this section, the family connections program team shall facilitate the exchange of information between the parent and caregiver in an appropriate manner that does not include an in-person meeting. The format of this exchange of information may include written messages, phone calls, or videoconferencing. The family connections program shall routinely reevaluate whether an in-person meeting should

2021 REGULAR SESSION

occur using the analysis required under subsection (4) of this section.

(7) The department shall collect data and measure outcomes for families engaging in the family connections program. By September 1, 2021, and in compliance with RCW 43.01.036, the department shall submit a report to the relevant committees of the legislature that details:

- (a) Data collected for the family connections program;
- (b) Outcomes for families engaging in the family connections program; and
- (c) The department's plan on how to expand the family connections program statewide.

(8) The definitions in this subsection apply throughout this section:

- (a) "Experienced caregiver" means:
 - (i) An individual who is or has received a foster-family home license pursuant to chapter 74.15 RCW or an equivalent license from another state; or
 - (ii) An individual who cared for a child who was removed from his or her parent pursuant to chapter 13.34 RCW and who has a kin relationship to that child pursuant to RCW 74.13.600.

(b) "Parent ally" has the same meaning as provided in RCW 2.70.060.

(9) This section expires June 30, (~~2022~~) 2023.

Sec. 972. RCW 74.46.485 and 2017 c 286 s 1 are each amended to read as follows:

(1) The legislature recognizes that staff and resources needed to adequately care for individuals with cognitive or behavioral impairments is not limited to support for activities of daily living. Therefore, the department shall:

(a) Employ the resource utilization group IV case mix classification methodology. The department shall use the fifty-seven group index maximizing model for the resource utilization group IV grouper version MDS 3.05, but in the 2021-2023 biennium the department may revise or update the (~~classification~~) methodology used to establish case mix classifications to reflect advances or refinements in resident assessment or classification, (~~subject to federal requirements~~) as made available by the federal government. The department may adjust by no more than thirteen percent the case mix index for resource utilization group categories beginning with PA1 through PB2 to any case mix index that aids in achieving the purpose and intent of RCW 74.39A.007 and cost-efficient care, excluding behaviors, and allowing for exceptions for limited placement options; and

(b) Implement minimum data set 3.0 under the authority of this section. The department must notify nursing home contractors twenty-eight days in advance the date of implementation of the minimum data set 3.0. In the notification, the department must identify for all semiannual rate settings following the date of minimum data set 3.0 implementation a previously established semiannual case mix adjustment established for the semiannual rate settings that will be used for semiannual case mix calculations in direct care until minimum data set 3.0 is fully implemented.

(2) The department is authorized to adjust upward the weights for resource utilization groups BA1-BB2 related to cognitive or behavioral health to ensure adequate access to appropriate levels of care.

(3) A default case mix group shall be established for cases in which the resident dies or is discharged for any purpose prior to completion of the resident's initial assessment. The default case mix group and case mix weight for these cases shall be designated by the department.

(4) A default case mix group may also be established for cases in which there is an untimely assessment for the resident. The default case mix group and case mix weight for these cases shall be designated by the department.

Sec. 973. RCW 74.46.501 and 2016 c 131 s 5 are each amended to read as follows:

(1) From individual case mix weights for the applicable quarter, the department shall determine two average case mix indexes for each medicaid nursing facility, one for all residents in the facility, known as the facility average case mix index, and one for medicaid residents, known as the medicaid average case mix index.

(2)(a) In calculating a facility's two average case mix indexes for each quarter, the department shall include all residents or medicaid residents, as applicable, who were physically in the facility during the quarter in question based on the resident assessment instrument completed by the facility and the requirements and limitations for the instrument's completion and transmission (January 1st through March 31st, April 1st through June 30th, July 1st through September 30th, or October 1st through December 31st).

(b) The facility average case mix index shall exclude all default cases as defined in this chapter. However, the medicaid average case mix index shall include all default cases.

(3) Both the facility average and the medicaid average case mix indexes shall be determined by multiplying the case mix weight of each resident, or each medicaid resident, as applicable, by the number of days, as defined in this section and as applicable, the resident was at each particular case mix classification or group, and then averaging.

(4) In determining the number of days a resident is classified into a particular case mix group, the department shall determine a start date for calculating case mix grouping periods as specified by rule.

(5) The cutoff date for the department to use resident assessment data, for the purposes of calculating both the facility average and the medicaid average case mix indexes, and for establishing and updating a facility's direct care component rate, shall be one month and one day after the end of the quarter for which the resident assessment data applies.

(6)(a) Although the facility average and the medicaid average case mix indexes shall both be calculated quarterly, the cost-rebasing period facility average case mix index will be used throughout the applicable cost-rebasing period in combination with cost report data as specified by RCW 74.46.561, to establish a facility's allowable cost per case mix unit. To allow for the transition to minimum data set 3.0 and implementation of resource utilization group IV for July 1, 2015, through June 30, 2016, the department shall calculate rates using the medicaid average case mix scores effective for January 1, 2015, rates adjusted under RCW 74.46.485(1)(a), and the scores shall be increased each six months during the transition period by one-half of one percent. The July 1, 2016, direct care cost per case mix unit shall be calculated by utilizing 2014 direct care costs, patient days, and 2014 facility average case mix indexes based on the minimum data set 3.0 resource utilization group IV grouper 57. Otherwise, a facility's medicaid average case mix index shall be used to update a nursing facility's direct care component rate semiannually.

(b) (~~The~~) Except during the 2021-2023 fiscal biennium, the facility average case mix index used to establish each nursing facility's direct care component rate shall be based on an average of calendar quarters of the facility's average case mix indexes from the four calendar quarters occurring during the cost report

period used to rebase the direct care component rate allocations as specified in RCW 74.46.561.

(c) ~~((The))~~ Except during the 2021-2023 fiscal biennium, the medicaid average case mix index used to update or recalibrate a nursing facility's direct care component rate semiannually shall be from the calendar six-month period commencing nine months prior to the effective date of the semiannual rate. For example, July 1, 2010, through December 31, 2010, direct care component rates shall utilize case mix averages from the October 1, 2009, through March 31, 2010, calendar quarters, and so forth.

(d) The department shall establish a methodology to use the case mix to set the direct care component in the 2021-2023 fiscal biennium.

Sec. 974. RCW 74.46.561 and 2020 c 357 s 918 are each amended to read as follows:

(1) The legislature adopts a new system for establishing nursing home payment rates beginning July 1, 2016. Any payments to nursing homes for services provided after June 30, 2016, must be based on the new system. The new system must be designed in such a manner as to decrease administrative complexity associated with the payment methodology, reward nursing homes providing care for high acuity residents, incentivize quality care for residents of nursing homes, and establish minimum staffing standards for direct care.

(2) The new system must be based primarily on industry-wide costs, and have three main components: Direct care, indirect care, and capital.

(3) The direct care component must include the direct care and therapy care components of the previous system, along with food, laundry, and dietary services. Direct care must be paid at a fixed rate, based on one hundred percent or greater of statewide case mix neutral median costs, but for fiscal year 2023 shall be ((set)) capped so that a nursing home provider's direct care rate does not exceed one hundred ~~((eighteen))~~ thirty percent of its base year's direct care allowable costs except if the provider is below the minimum staffing standard established in RCW 74.42.360(2). The legislature intends to remove the cap on direct care rates by June 30, 2027. Direct care must be performance-adjusted for acuity every six months, using case mix principles. Direct care must be regionally adjusted using countywide wage index information available through the United States department of labor's bureau of labor statistics. There is no minimum occupancy for direct care. The direct care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(4) The indirect care component must include the elements of administrative expenses, maintenance costs, and housekeeping services from the previous system. A minimum occupancy assumption of ninety percent must be applied to indirect care. Indirect care must be paid at a fixed rate, based on ninety percent or greater of statewide median costs. The indirect care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(5) ~~The~~ capital component must use a fair market rental system to set a price per bed. The capital component must be adjusted for the age of the facility, and must use a minimum occupancy assumption of ninety percent.

(a) Beginning July 1, 2016, the fair rental rate allocation for each facility must be determined by multiplying the allowable nursing home square footage in (c) of this subsection by the RSMeans rental rate in (d) of this subsection and by the number of licensed beds yielding the gross unadjusted building value. An equipment allowance of ten percent must be added to the unadjusted building value. The sum of the unadjusted building value and equipment allowance must then be reduced by the average age of the facility as determined by (e) of this subsection

using a depreciation rate of one and one-half percent. The depreciated building and equipment plus land valued at ten percent of the gross unadjusted building value before depreciation must then be multiplied by the rental rate at seven and one-half percent to yield an allowable fair rental value for the land, building, and equipment.

(b) The fair rental value determined in (a) of this subsection must be divided by the greater of the actual total facility census from the prior full calendar year or imputed census based on the number of licensed beds at ninety percent occupancy.

(c) For the rate year beginning July 1, 2016, all facilities must be reimbursed using four hundred square feet. For the rate year beginning July 1, 2017, allowable nursing facility square footage must be determined using the total nursing facility square footage as reported on the medicaid cost reports submitted to the department in compliance with this chapter. The maximum allowable square feet per bed may not exceed four hundred fifty.

(d) Each facility must be paid at eighty-three percent or greater of the median nursing facility RSMeans construction index value per square foot. The department may use updated RSMeans construction index information when more recent square footage data becomes available. The statewide value per square foot must be indexed based on facility zip code by multiplying the statewide value per square foot times the appropriate zip code based index. For the purpose of implementing this section, the value per square foot effective July 1, 2016, must be set so that the weighted average fair rental value rate is not less than ten dollars and eighty cents per patient day. The capital component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(e) The average age is the actual facility age reduced for significant renovations. Significant renovations are defined as those renovations that exceed two thousand dollars per bed in a calendar year as reported on the annual cost report submitted in accordance with this chapter. For the rate beginning July 1, 2016, the department shall use renovation data back to 1994 as submitted on facility cost reports. Beginning July 1, 2016, facility ages must be reduced in future years if the value of the renovation completed in any year exceeds two thousand dollars times the number of licensed beds. The cost of the renovation must be divided by the accumulated depreciation per bed in the year of the renovation to determine the equivalent number of new replacement beds. The new age for the facility is a weighted average with the replacement bed equivalents reflecting an age of zero and the existing licensed beds, minus the new bed equivalents, reflecting their age in the year of the renovation. At no time may the depreciated age be less than zero or greater than forty-four years.

(f) A nursing facility's capital component rate allocation must be rebased annually, effective July 1, 2016, in accordance with this section and this chapter.

(g) For the purposes of this subsection (5), "RSMeans" means building construction costs data as published by Gordian.

(6) A quality incentive must be offered as a rate enhancement beginning July 1, 2016.

(a) An enhancement no larger than five percent and no less than one percent of the statewide average daily rate must be paid to facilities that meet or exceed the standard established for the quality incentive. All providers must have the opportunity to earn the full quality incentive payment.

(b) The quality incentive component must be determined by calculating an overall facility quality score composed of four to six quality measures. For fiscal year 2017 there shall be four quality measures, and for fiscal year 2018 there shall be six quality measures. Initially, the quality incentive component must be based on minimum data set quality measures for the percentage

NINETY FOURTH DAY, APRIL 14, 2021

2021 REGULAR SESSION

of long-stay residents who self-report moderate to severe pain, the percentage of high-risk long-stay residents with pressure ulcers, the percentage of long-stay residents experiencing one or more falls with major injury, and the percentage of long-stay residents with a urinary tract infection. Quality measures must be reviewed on an annual basis by a stakeholder work group established by the department. Upon review, quality measures may be added or changed. The department may risk adjust individual quality measures as it deems appropriate.

(c) The facility quality score must be point based, using at a minimum the facility's most recent available three-quarter average centers for medicare and medicaid services quality data. Point thresholds for each quality measure must be established using the corresponding statistical values for the quality measure point determinants of eighty quality measure points, sixty quality measure points, forty quality measure points, and twenty quality measure points, identified in the most recent available five-star quality rating system technical user's guide published by the center[s] for medicare and medicaid services.

(d) Facilities meeting or exceeding the highest performance threshold (top level) for a quality measure receive twenty-five points. Facilities meeting the second highest performance threshold receive twenty points. Facilities meeting the third level of performance threshold receive fifteen points. Facilities in the bottom performance threshold level receive no points. Points from all quality measures must then be summed into a single aggregate quality score for each facility.

(e) Facilities receiving an aggregate quality score of eighty percent of the overall available total score or higher must be placed in the highest tier (tier V), facilities receiving an aggregate score of between seventy and seventy-nine percent of the overall available total score must be placed in the second highest tier (tier IV), facilities receiving an aggregate score of between sixty and sixty-nine percent of the overall available total score must be placed in the third highest tier (tier III), facilities receiving an aggregate score of between fifty and fifty-nine percent of the overall available total score must be placed in the fourth highest tier (tier II), and facilities receiving less than fifty percent of the overall available total score must be placed in the lowest tier (tier I).

(f) The tier system must be used to determine the amount of each facility's per patient day quality incentive component. The per patient day quality incentive component for tier IV is seventy-five percent of the per patient day quality incentive component for tier V, the per patient day quality incentive component for tier III is fifty percent of the per patient day quality incentive component for tier V, and the per patient day quality incentive component for tier II is twenty-five percent of the per patient day quality incentive component for tier V. Facilities in tier I receive no quality incentive component.

(g) Tier system payments must be set in a manner that ensures that the entire biennial appropriation for the quality incentive program is allocated.

(h) Facilities with insufficient three-quarter average centers for medicare and medicaid services quality data must be assigned to the tier corresponding to their five-star quality rating. Facilities with a five-star quality rating must be assigned to the highest tier (tier V) and facilities with a one-star quality rating must be assigned to the lowest tier (tier I). The use of a facility's five-star quality rating shall only occur in the case of insufficient centers for medicare and medicaid services minimum data set information.

(i) The quality incentive rates must be adjusted semiannually on July 1 and January 1 of each year using, at a minimum, the

most recent available three-quarter average centers for medicare and medicaid services quality data.

(j) Beginning July 1, 2017, the percentage of short-stay residents who newly received an antipsychotic medication must be added as a quality measure. The department must determine the quality incentive thresholds for this quality measure in a manner consistent with those outlined in (b) through (h) of this subsection using the centers for medicare and medicaid services quality data.

(k) Beginning July 1, 2017, the percentage of direct care staff turnover must be added as a quality measure using the centers for medicare and medicaid services' payroll-based journal and nursing home facility payroll data. Turnover is defined as an employee departure. The department must determine the quality incentive thresholds for this quality measure using data from the centers for medicare and medicaid services' payroll-based journal, unless such data is not available, in which case the department shall use direct care staffing turnover data from the most recent medicaid cost report.

(7) Reimbursement of the safety net assessment imposed by chapter 74.48 RCW and paid in relation to medicaid residents must be continued.

(8)(a) The direct care and indirect care components must be rebased in even-numbered years, beginning with rates paid on July 1, 2016. Rates paid on July 1, 2016, must be based on the 2014 calendar year cost report. On a percentage basis, after rebasing, the department must confirm that the statewide average daily rate has increased at least as much as the average rate of inflation, as determined by the skilled nursing facility market basket index published by the centers for medicare and medicaid services, or a comparable index. If after rebasing, the percentage increase to the statewide average daily rate is less than the average rate of inflation for the same time period, the department is authorized to increase rates by the difference between the percentage increase after rebasing and the average rate of inflation.

(b) It is the intention of the legislature that direct and indirect care rates paid in fiscal year 2022 will be rebased using the calendar year 2019 cost reports. For fiscal year 2021, in addition to the rates generated by (a) of this subsection, an additional adjustment is provided as established in this subsection (8)(b). Beginning May 1, 2020, and through June 30, 2021, the calendar year costs must be adjusted for inflation by a twenty-four month consumer price index, based on the most recently available monthly index for all urban consumers, as published by the bureau of labor statistics. It is also the intent of the legislature that, starting in fiscal year 2022, a facility-specific rate add-on equal to the inflation adjustment that facilities received solely in fiscal year 2021, must be added to the rate.

(c) To determine the necessity of regular inflationary adjustments to the nursing facility rates, by December 1, 2020, the department shall provide the appropriate policy and fiscal committees of the legislature with a report that provides a review of rates paid in 2017, 2018, and 2019 in comparison to costs incurred by nursing facilities.

(9) The direct care component provided in subsection (3) of this section is subject to the reconciliation and settlement process provided in RCW 74.46.022(6). Beginning July 1, 2016, pursuant to rules established by the department, funds that are received through the reconciliation and settlement process provided in RCW 74.46.022(6) must be used for technical assistance, specialized training, or an increase to the quality enhancement established in subsection (6) of this section. The legislature intends to review the utility of maintaining the reconciliation and settlement process under a price-based payment methodology,

and may discontinue the reconciliation and settlement process after the 2017-2019 fiscal biennium.

(10) Compared to the rate in effect June 30, 2016, including all cost components and rate add-ons, no facility may receive a rate reduction of more than one percent on July 1, 2016, more than two percent on July 1, 2017, or more than five percent on July 1, 2018. To ensure that the appropriation for nursing homes remains cost neutral, the department is authorized to cap the rate increase for facilities in fiscal years 2017, 2018, and 2019.

Sec. 975. RCW 79.64.040 and 2019 c 415 s 984 are each amended to read as follows:

(1) The board shall determine the amount deemed necessary in order to achieve the purposes of this chapter and shall provide by rule for the deduction of this amount from the moneys received from all leases, sales, contracts, licenses, permits, easements, and rights-of-way issued by the department and affecting state lands and aquatic lands, except as provided in RCW 79.64.130, provided that no deduction shall be made from the proceeds from agricultural college lands.

(2) Moneys received as deposits from successful bidders, advance payments, and security under RCW 79.15.100, 79.15.080, and 79.11.150 prior to December 1, 1981, which have not been subjected to deduction under this section are not subject to deduction under this section.

(3) Except as otherwise provided in subsection (5) of this section, the deductions authorized under this section shall not exceed twenty-five percent of the moneys received by the department in connection with any one transaction pertaining to state lands and aquatic lands other than second-class tide and shore lands and the beds of navigable waters, and fifty percent of the moneys received by the department pertaining to second-class tide and shore lands and the beds of navigable waters.

(4) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys received subject to this section are the net proceeds from the contract harvesting sale.

(5) During the 2015-2017, 2017-2019, ~~(and)~~ 2019-2021, and 2021-2023 fiscal biennia, the board may increase the twenty-five percent limitation up to thirty-two percent.

Sec. 976. RCW 79.64.110 and 2019 c 415 s 985 and 2019 c 309 s 1 are each reenacted and amended to read as follows:

(1) Any moneys derived from the lease of state forestlands or from the sale of valuable materials, oils, gases, coal, minerals, or fossils from those lands, except as provided in RCW 79.64.130, or the appraised value of these resources when transferred to a public agency under RCW 79.22.060, except as provided in RCW 79.22.060(4), must be distributed as follows:

(a) For state forestlands acquired through RCW 79.22.040 or by exchange for lands acquired through RCW 79.22.040:

(i) The expense incurred by the state for administration, reforestation, and protection, not to exceed twenty-five percent, which rate of percentage shall be determined by the board, must be returned to the forest development account created in RCW 79.64.100. During the 2017-2019 ~~(and)~~, 2019-2021, and 2021-2023 fiscal biennia, the board may increase the twenty-five percent limitation up to twenty-seven percent.

(ii) Any balance remaining must be paid to the county in which the land is located or, for counties participating in a land pool created under RCW 79.22.140, to each participating county proportionate to its contribution of asset value to the land pool as determined by the board. Payments made under this subsection are to be paid, distributed, and prorated, except as otherwise provided in this section, to the various funds in the same manner as general taxes are paid and distributed during the year of payment. However, in order to test county flexibility in distributing state forestland revenue, a county may in its

discretion pay, distribute, and prorate payments made under this subsection of moneys derived from state forestlands acquired by exchange between July 28, 2019, and June 30, 2020, for lands acquired through RCW 79.22.040, within the same county, in the same manner as general taxes are paid and distributed during the year of payment for the former state forestlands that were subject to the exchange.

(iii) Any balance remaining, paid to a county with a population of less than sixteen thousand, must first be applied to the reduction of any indebtedness existing in the current expense fund of the county during the year of payment.

(iv) With regard to moneys remaining under this subsection (1)(a), within seven working days of receipt of these moneys, the department shall certify to the state treasurer the amounts to be distributed to the counties. The state treasurer shall distribute funds to the counties four times per month, with no more than ten days between each payment date.

(b) For state forestlands acquired through RCW 79.22.010 or by exchange for lands acquired through RCW 79.22.010, except as provided in RCW 79.64.120:

(i) Fifty percent shall be placed in the forest development account.

(2) The department is authorized to assess administration charges as a portion of the debt service for loans issued under the water pollution control revolving fund created in RCW 90.50A.020. The sole purpose of assessing administration charges is to predictably and adequately fund the department's costs of administering the water pollution control revolving fund loan program, as identified in subsection (5) of this section. The department must assess administration charges on each water pollution control revolving fund loan at the point the loan enters repayment status, after July 28, 2013, and rule changes are adopted to implement the administration charge. Loans that are at an interest rate below the established administration charge rate are exempt from the administration charge.

(3) The water pollution control revolving administration account consists of:

(c) Find that there is an excess balance in the revolving administration account, and that the excess must be transferred to the water pollution control revolving fund to be used for loans; or

(d) Find that there is no need for any rate adjustments or balance transfers.

(8) At the point where the water pollution control revolving administration account adequately covers the program administration costs, the department may no longer use the federal administration allowance. Sec. 1101. 2020 c 357 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. By October 31, 2019, the coalition must submit a report to the governor and the legislature that describes the coalition's plan for projects affecting the coalition organizations. The report must include any information technology projects impacting coalition organizations and, in collaboration with the office of the chief information officer, provide: (a) The status of any information technology projects currently being developed or implemented that affect the coalition; (b) funding needs of these current and future information technology projects; and (c) next steps for the coalition's information technology projects. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that the development of projects identified in this report are planned for in a manner that ensures the efficient use of state resources and maximizes federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in section 701 of this act.

(8)(a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, ~~((2020))~~ 2021, unless prohibited by this act, the department may transfer general fund—state appropriations for fiscal year ~~((2020))~~ 2021 among programs and subprograms after approval by the director of the office of financial management. However, the department may not transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year ~~((2020))~~ 2021 in response to the COVID-19 pandemic or caseload forecasts and utilization assumptions in the long-term care, developmental disabilities, and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose. The department may not transfer funds, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the

objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the legislature in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(c) The department may not transfer appropriations from any other program or subprogram to the mental health program. Within the mental health program, the department may transfer appropriations that are provided solely for a specified purpose as needed to fund actual expenditures through the end of fiscal year ~~((2020))~~ 2021.

(d) The department may not transfer appropriations for the developmental disabilities program to any other program or subprograms of the department of social and health services.

By December 15, 2019, the authority in collaboration with each accountable community of health shall demonstrate how it will be self-sustaining by the end of the demonstration waiver period, including sources of outside funding, and provide this reporting to the joint select committee on health care oversight. If by the third year of the demonstration waiver there are not measurable, improved patient outcomes and financial returns, the Washington state institute for public policy will conduct an audit of the accountable communities of health, in addition to the process set in place through the independent evaluation required by the agreement with centers for medicare and medicaid services.

payments will not count against initiative 1 of the medicaid transformation demonstration waiver spending limit and are excluded from the waiver's budget neutrality calculation. Apple health managed care organizations and their partnering providers will receive medicaid quality improvement program payments as they meet designated milestones. Partnering providers and apple health managed care organizations will work together to achieve medicaid quality improvement program goals according to the performance period timelines and reporting deadlines as set forth by the authority. The authority shall only utilize the medicaid quality improvement program to support the transformation waiver and shall not pursue its use for other purposes. Any programs created or funded by the medicaid quality improvement program do not create an entitlement. The authority shall not increase general fund—state, federal, or local expenditures under this program. The director shall report to the joint select committee on health care oversight not less than quarterly on financial and health outcomes. The director shall report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(4) Annually, no later than November 1st, the authority shall report to the governor and appropriate committees of the legislature: (a) Savings attributed to behavioral and physical integration in areas that are scheduled to integrate in the following calendar year, and (b) savings attributed to behavioral and physical health integration and the level of savings achieved in areas that have integrated behavioral and physical health.

(5) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(6) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(7) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(8) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(9) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(10) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(11) \$4,261,000 of the general fund—state appropriation for fiscal year 2020, ~~(\$4,261,000)~~ \$3,733,000 of the general fund—state appropriation for fiscal year 2021, and ~~(\$8,522,000)~~ \$9,050,000 of the general fund—federal appropriation are

provided solely for low-income disproportionate share hospital payments.

(12) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(13)(a) \$7,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(b) The authority, in consultation with the department of social and health services and the nursing homes operated by public hospitals in (a) of this subsection, must develop a plan with recommendations for an upper payment limit calculation and the supplemental payment model for nursing homes operated by a public hospital district. The group must consider how to restructure payments under (a) of this subsection, taking into consideration alternate upper payment limit calculation. If upon completion of the plan, the authority determines it can implement the recommendations of the group within the amounts provided in (a) of this subsection, the authority must submit a state plan amendment, if necessary, and submit a report to the fiscal committees of the legislature no later than September 30, 2020.

(c) \$193,000 of the general fund—state appropriation for fiscal year 2020 is provided solely for the authority to provide a one-time grant to a standalone skilled nursing facility operated by a public hospital district in Grant county. This grant is provided as a one-time offset to address the impact of the recoupment requirements of this subsection (13).

(14) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2019-2021 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2020, and by November 1, 2021, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2020 and fiscal year 2021, hospitals in the program

shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2019-2021 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$759,000 of the general fund—state appropriation for fiscal year 2020 and ~~(\$740,000)~~ \$698,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for state grants for the participating hospitals.

(16) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(17) The authority shall submit reports to the governor and the legislature by September 15, 2020, and no later than September 15, 2021, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not

limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(18) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(25) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the classic medicaid benefit plan.

(26) The authority shall use revenue appropriated from the dedicated marijuana fund for contracts with community health centers under RCW 69.50.540 in lieu of general fund—state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(27) Beginning no later than January 1, 2018, for any service eligible under the medicaid state plan for encounter payments, managed care organizations at the request of a rural health clinic shall pay the full published encounter rate directly to the clinic. At no time will a managed care organization be at risk for or have any right to the supplemental portion of the claim. Payments will be reconciled on at least an annual basis between the managed care organization and the authority, with final review and approval by the authority.

TOTAL APPROPRIATION.....	((\$3,422,791,000))
	<u>\$3,542,472,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) For the purposes of this section, "behavioral health entities" means managed care organizations and administrative services organizations in regions where the authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380, and behavioral health organizations in regions that have not yet transitioned to fully integrated managed care.

(2) Within the amounts appropriated in this section, funding is provided for implementation of the settlement agreement under *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. In addition to amounts provided solely for implementation of the settlement agreement, class members must have access to supports and services funded throughout this section for which they meet eligibility and medical necessity requirements. The authority must include language in contracts that requires regional behavioral health entities to develop and implement plans for improving access to timely and appropriate treatment for individuals with behavioral health needs and current or prior criminal justice involvement who are eligible for services under these contracts.

(3) \$15,605,000 of the general fund—state appropriation for fiscal year 2020, ((~~\$15,754,000~~)) \$15,861,000 of the general fund—state appropriation for fiscal year 2021, and \$4,789,000 of the general fund—federal appropriation are provided solely for the phase-in of the settlement agreement under *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. The department, in collaboration with the health care authority and the criminal justice training commission, must implement the provisions of the settlement

agreement pursuant to the timeline and implementation plan provided for under the settlement agreement. This includes implementing provisions related to competency evaluations, competency restoration, crisis diversion and supports, education and training, and workforce development.

(4) \$7,657,000 of the general fund—state appropriation for fiscal year 2020, \$11,544,000 of the general fund—state appropriation for fiscal year 2021, and \$20,197,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health entities to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health entities with PACT teams, the authority shall consider the differences between behavioral health entities in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (7) of this section. The authority and behavioral health entities shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(5) \$7,071,000 of the general fund—state appropriation for fiscal year 2021 is provided solely for increased state costs for exceptional behavioral health personal care services. From ((~~the~~)) these amounts and the other general fund—state appropriations in this section, the authority shall assure that behavioral health entities reimburse the department of social and health services aging and long term support administration for the general fund—state cost of exceptional medicaid personal care services that enrolled behavioral health entity consumers use because of their psychiatric disability.

(6) \$3,520,000 of the general fund—federal appropriation is provided solely for the authority to maintain a pilot project to incorporate peer bridging staff into behavioral health regional teams that provide transitional services to individuals returning to their communities.

(7) \$81,930,000 of the general fund—state appropriation for fiscal year 2020 and \$85,122,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health entity spending must be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health entities as follows:

(a) Of the amount provided for fiscal year 2020, seventy percent must be distributed to behavioral health administrative service organizations and thirty percent to managed care organizations. The percentage of funding provided to each behavioral health administrative services organization must be proportionate to the fiscal year 2019 regional allocation of flexible nonmedicaid funds.

(b) \$3,939,000 of the fiscal year 2021 amounts must be distributed to behavioral health administrative service organizations. Of the remaining amount for fiscal year 2021, eighty percent must be distributed to behavioral health administrative service organizations and twenty percent to managed care organizations. The percentage of funding provided to each behavioral health administrative services organization must be proportionate to the fiscal year 2020 regional allocation of flexible nonmedicaid funds.

NINETY FOURTH DAY, APRIL 14, 2021

2021 REGULAR SESSION

(c) The authority must include the following language in medicaid contracts with behavioral health entities unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(8) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health entities for children's long-term inpatient facility services.

(9) \$1,204,000 of the general fund—state appropriation for fiscal year 2020 and \$1,204,000 of the general fund—state appropriation for fiscal year 2021 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting one hundred eighty-day commitment hearings at the state psychiatric hospitals.

(10) Behavioral health entities may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (7) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(11) \$2,291,000 of the general fund—state appropriation for fiscal year 2020 and \$2,291,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must collect information from the behavioral health entities on their plan for using these funds, the numbers of individuals served, and the types of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(12) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(13) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization and administrative services organization contracts and include contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health organization and administrative services organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health organization or administrative services organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization or administrative services organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the

contract. These reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan.

(14) During the 2019-2021 fiscal biennium, any amounts provided in this section that are used for case management services for pregnant and parenting women must be contracted directly between the authority and providers rather than through contracts with behavioral health organizations.

(15) Within the amounts appropriated in this section, the authority may contract with the University of Washington and community-based providers for the provision of the parent-child assistance program or other specialized chemical dependency case management providers for pregnant, post-partum, and parenting women. For all contractors: (a) Service and other outcome data must be provided to the authority by request; and (b) indirect charges for administering the program must not exceed ten percent of the total contract amount.

(16) \$3,500,000 of the general fund—federal appropriation (from the substance abuse prevention and treatment federal block grant) is provided solely for the continued funding of existing county drug and alcohol use prevention programs.

(17) Within the amounts provided in this section, behavioral health entities must provide outpatient chemical dependency treatment for offenders enrolled in the medicaid program who are supervised by the department of corrections pursuant to a term of community supervision. Contracts with behavioral health entities must require that behavioral health entities include in their provider network specialized expertise in the provision of manualized, evidence-based chemical dependency treatment services for offenders. The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

(18) The criminal justice treatment account—state appropriation is provided solely for treatment and treatment support services for offenders with a substance use disorder pursuant to RCW 71.24.580. The authority must offer counties the option to administer their share of the distributions provided for under RCW 71.24.580(5)(a). If a county is not interested in administering the funds, the authority shall contract with behavioral health entities to administer these funds consistent with the plans approved by local panels pursuant to RCW 71.24.580(5)(b). The authority must provide a report to the office of financial management and the appropriate committees of the legislature which identifies the distribution of criminal justice treatment account funds by September 30, 2019.

(19) No more than (~~(\$27,844,000)~~) \$15,358,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the authority or its providers or third party administrator. The department and the authority in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed

necessary within an identified limit per individual. The authority shall not increase general fund—state expenditures under this initiative. The secretary in collaboration with the director of the authority shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The secretary in cooperation with the director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(20) \$6,858,000 of the general fund—state appropriation for fiscal year 2020, \$6,858,000 of the general fund—state appropriation for fiscal year 2021, and \$8,046,000 of the general fund—federal appropriation are provided solely to maintain new crisis triage or stabilization centers. Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support, medication management, education, and referral assistance. The authority shall monitor each center's effectiveness at lowering the rate of state psychiatric hospital admissions.

(21) \$1,125,000 of the general fund—federal appropriation is provided solely for the authority to develop a memorandum of understanding with the department of health for implementation of chapter 297, Laws of 2017 (opioid treatment programs). The authority must use these amounts to reimburse the department of health for costs incurred through the implementation of the bill.

(22) \$6,655,000 of the general fund—state appropriation for fiscal year 2020, (~~(\$10,015,000)~~) \$9,074,000 of the general fund—state appropriation for fiscal year 2021, and (~~(\$12,965,000)~~) \$12,024,000 of the general fund—federal appropriation are provided solely for the operation of secure withdrawal management and stabilization facilities. The authority may not use any of these amounts for services in facilities that are subject to federal funding restrictions that apply to institutions for mental diseases, unless they have received a waiver that allows for full federal participation in these facilities. Within these amounts, funding is provided to increase the fee for service rate for these facilities up to \$650 per day. The authority must require in contracts with behavioral health entities that, beginning in calendar year 2020, they pay no lower than the fee for service rate. The authority must coordinate with regional behavioral health entities to identify and implement purchasing strategies or regulatory changes that increase access to services for individuals with complex behavioral health needs at secure withdrawal management and stabilization facilities.

(23) \$23,090,000 of the general fund—state appropriation for fiscal year 2020, \$23,090,000 of the general fund—state appropriation for fiscal year 2021, and \$92,444,000 of the general fund—federal appropriation are provided solely to maintain the enhancement of community-based behavioral health services that was funded in fiscal year 2019. Twenty percent of the general fund—state appropriation amounts for each regional service area must be contracted to the behavioral health administrative services organizations and used to increase their nonmedicaid funding and the remainder must be used to increase medicaid rates above FY 2018 levels. Effective January 2020, the medicaid funding is intended to increase rates for behavioral health services provided by licensed and certified community behavioral health agencies as defined by the department of health. This funding must be allocated to the managed care organizations proportionate to their medicaid enrollees. The authority must require the managed care organizations to provide a report on their implementation of this funding. The authority must submit a report to the legislature by December 1, 2020, summarizing how this funding was used and provide information for future options of increasing behavioral health provider rates through directed payments. The report must identify different mechanisms for

implementing directed payment for behavioral health providers including but not limited to minimum fee schedules, across the board percentage increases, and value-based payments. The report must provide a description of each of the mechanisms considered, the timeline that would be required for implementing the mechanism, and whether and how the mechanism is expected to have a differential impact on different providers. The report must also summarize the information provided by managed care organizations in implementing the funding provided under this section.

(24) \$27,917,000 of the general fund—state appropriation for fiscal year 2020, (~~(\$36,095,000)~~) \$21,366,000 of the general fund—state appropriation for fiscal year 2021, and (~~(\$46,889,000)~~) \$35,451,000 of the general fund—federal appropriation are provided solely for the department to contract with community hospitals or freestanding evaluation and treatment centers to provide long-term inpatient care beds as defined in RCW 71.24.025. Within these amounts, the authority must meet the requirements for reimbursing counties for the judicial services for patients being served in these settings in accordance with RCW 71.05.730. The authority must coordinate with the department of social and health services in developing the contract requirements, selecting contractors, and establishing processes for identifying patients that will be admitted to these facilities.

(a) Sufficient amounts are provided in fiscal year 2020 for the authority to reimburse community hospitals serving medicaid clients in long-term inpatient care beds as defined in RCW 71.24.025 at a rate of \$1,171 per day, or the hospital's current psychiatric inpatient per diem rate, whichever is higher. In fiscal year 2020, the rate paid to hospitals in this subsection cannot exceed one-hundred percent of the hospitals eligible costs based on their most recently completed medicare cost report.

(b) Sufficient amounts are provided in fiscal year 2021 for the authority to reimburse providers serving medicaid clients in long-term inpatient care beds as defined in RCW 71.24.025 as follows: (i) Community hospitals whose costs exceed their current rates based on their most recently filed medicare cost report at one hundred percent of the hospital's eligible costs documented in the most recently filed medicare cost report; (ii) community hospitals that do not have a filed medicare cost report on file with the authority at the statewide average rate based on the average of provider specific long-term inpatient care rates or the provider's current per diem rate, whichever is higher; (iii) community hospitals whose costs do not exceed their current rates based on their most recently filed medicare cost report at a rate of \$940 per day; and (iv) nonhospital residential treatment centers certified to provide long-term inpatient care beds as defined in RCW 71.24.025 at a rate that reflects a five percent increase from their fiscal year 2020 rate for serving medicaid clients in long-term inpatient care beds as defined in RCW 71.24.025.

~~((e))~~ (c) The authority in collaboration with the Washington state hospital association must convene a work group to further refine the methodology for reimbursing community hospitals serving these clients. The authority must provide a report to the appropriate committees of the legislature by December 1, 2020. The report must include options for incorporating additional factors into future rate adjustments and identify where there may be overlap within the different options. The report must include the following areas and provide a description of the option and the methodology and implementation costs associated with each option:

(i) Acuity adjustments for providers serving individuals with higher levels of behavioral health or physical health care needs;

(ii) Retroactive reconciliation adjustments for providers whose total costs for serving clients under this subsection are higher or

Behavioral health organization reserves may not be used to pay for services to be provided beyond the end of a behavioral health organization's contract or for startup costs in full integration regions except as provided in this subsection. The authority must ensure that any increases in expenditures in behavioral health reserve spend-down plans are required for the operation of services during the contract period and do not result in overpayment to providers. If the nonfederal share of reserves returned during fiscal year 2020 exceeds \$35,000,000, the authority shall use some of the amounts in excess of \$35,000,000 to support the final regions transitioning to full integration of physical and behavioral health care. These amounts must be distributed proportionate to the population of each regional area covered. The maximum amount allowed per region is \$3,175 per 1,000 residents. (32) \$1,256,000 of the general fund—state appropriation for fiscal year 2021 and \$1,686,000 of the general fund—federal appropriation are provided solely for the authority to increase the number of residential beds for pregnant and parenting women. The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations in this section are provided solely for expenditure into the information technology investment revolving account created in RCW 43.41.433. Funds in the account are provided solely for the information technology projects shown in LEAP omnibus documents IT-2019, dated April 25, 2019, and IT-2020, dated March 9, 2020, which is hereby incorporated by reference. To facilitate the transfer of moneys from other funds and accounts that are associated with projects contained in LEAP omnibus documents IT-2019, dated April 25, 2019, and IT-2020, dated March 9, 2020, the state

treasurer is directed to transfer moneys from other funds and accounts to the information technology investment revolving account in accordance with schedules provided by the office of financial management. To facilitate transfer of unused moneys originally from other funds and accounts that were deposited into the information technology revolving account as associated with these same projects, and that are not expended by June 30, 2021, the state treasurer is directed to transfer money from other funds and accounts out of the information technology investment revolving account and deposit into the fund or account of origin in accordance with schedules provided by the office of financial management. However, restricted federal funds and qualified employee benefit and pension funds may be transferred only to the extent permitted by law, and will otherwise remain outside the information technology investment account. The projects affected remain subject to the other provisions of this section.

(2) Agencies must apply to the office of financial management and the office of the chief information officer to receive funding from the information technology investment revolving account. The office of financial management must notify the fiscal committees of the legislature of the receipt of each application and may not approve a funding request for ten business days from the date of notification.

(3) Allocations and allotments of information technology investment revolving account must be made for discrete stages of projects as determined by the technology budget approved by the office of the state chief information officer and office of financial management. Fifteen percent of total funding allocated by the office of financial management, or another amount as defined jointly by the office of financial management and the office of the state chief information officer, will be retained in the account, but remain allocated to that project. The retained funding will be released to the agency only after successful completion of that stage of the project. For the military department enhanced 911 next generation project and the one Washington project, the amount retained is increased to at least twenty percent of total funding allocated for any stage of that project.

(4)(a) Each project must have a technology budget. The technology budget must use a method similar to the state capital budget, identifying project costs, each fund source, and anticipated deliverables through each stage of the entire project investment and across fiscal periods and biennia from project onset through implementation and close out.

(b) As part of the development of a technology budget and at each request for funding, the agency shall submit detailed financial information to the office of financial management and the office of the state chief information officer. The technology budget must describe the total cost of the project by fiscal month to include and identify:

- (i) Fund sources;
- (ii) Full time equivalent staffing level to include job classification assumptions;
- (iii) A discreet appropriation index and program index;
- (iv) Object and subobject codes of expenditures; and
- (v) Anticipated deliverables.

(c) If a project technology budget changes and a revised technology budget is completed, a comparison of the revised technology budget to the last approved technology budget must be posted to the dashboard, to include a narrative rationale on what changed, why, and how that impacts the project in scope, budget, and schedule.

(5)(a) Each project must have an investment plan that includes:

- (i) An organizational chart of the project management team that identifies team members and their roles and responsibilities;

(ii) The office of the state chief information officer staff assigned to the project;

(iii) An implementation schedule covering activities, critical milestones, and deliverables at each stage of the project for the life of the project at each agency affected by the project;

(iv) Performance measures used to determine that the project is on time, within budget, and meeting expectations for quality of work product;

(v) Ongoing maintenance and operations cost of the project post implementation and close out delineated by agency staffing, contracted staffing, and service level agreements; and

(vi) Financial budget coding to include at least discreet program index and subobject codes.

(6) Projects with estimated costs greater than one hundred million dollars from initiation to completion and implementation may be divided into discrete subprojects as determined by the office of the state chief information officer, except for the one Washington project which must be divided into the following discrete subprojects: Core financials, expanding financials and procurement, budget, and human resources. Each subproject must have a technology budget and investment plan as provided in this section.

(7)(a) The office of the state chief information officer shall maintain an information technology project dashboard that provides updated information each fiscal month on projects subject to this section. This includes, at least:

- (i) Project changes each fiscal month;
- (ii) Noting if the project has a completed market requirements document;
- (iii) Financial status of information technology projects under oversight;
- (iv) Coordination with agencies;
- (v) Monthly quality assurance reports, if applicable;
- (vi) Monthly office of the state chief information officer status reports;
- (vii) Historical project budget and expenditures through fiscal year 2019;
- (viii) Budget and expenditures each fiscal month; and
- (ix) Estimated annual maintenance and operations costs by fiscal year.

(b) The dashboard must retain a roll up of the entire project cost, including all subprojects, that can be displayed the subproject detail.

(8) If the project affects more than one agency:

(a) A separate technology budget and investment plan must be prepared for each agency; and

(b) The dashboard must contain a statewide project technology budget roll up that includes each affected agency at the subproject level.

(9) For any project that exceeds two million dollars in total funds to complete, requires more than one biennium to complete, or is financed through financial contracts, bonds, or other indebtedness:

(a) Quality assurance for the project must report independently to the office of the chief information officer;

(b) The office of the chief information officer must review, and, if necessary, revise the proposed project to ensure it is flexible and adaptable to advances in technology;

(c) The technology budget must specifically identify the uses of any financing proceeds. No more than thirty percent of the financing proceeds may be used for payroll-related costs for state employees assigned to project management, installation, testing, or training;

(d) The agency must consult with the office of the state treasurer during the competitive procurement process to evaluate

early in the process whether products and services to be solicited and the responsive bids from a solicitation may be financed; and

(e) The agency must consult with the contracting division of the department of enterprise services for a review of all contracts and agreements related to the project's information technology procurements.

(10) The office of the state chief information officer must evaluate the project at each stage and certify whether the project is planned, managed, and meeting deliverable targets as defined in the project's approved technology budget and investment plan.

(11) The office of the state chief information officer may suspend or terminate a project at any time if it determines that the project is not meeting or not expected to meet anticipated performance and technology outcomes. Once suspension or termination occurs, the agency shall unallot any unused funding and shall not make any expenditure for the project without the approval of the office of financial management. The office of the state chief information officer must report on July 1 and December 1 each calendar year, beginning July 1, 2020, any suspension or termination of a project in the previous six month period to the legislative fiscal committees.

(12) The office of the state chief information officer, in consultation with the office of financial management, may identify additional projects to be subject to this section, including projects that are not separately identified within an agency budget. The office of the state chief information officer must report on July 1 and December 1 each calendar year, beginning July 1, 2020, any additional projects to be subjected to this section that were identified in the previous six month period to the legislative fiscal committees.

(13) Any cost to administer or implement this section for projects listed in subsection (1) of this section, must be paid from the information technology investment revolving account. For any other information technology project made subject to the conditions, limitations, and review of this section, the cost to implement this section must be paid from the funds for that project.

NEW SECTION. Sec. 205. FOR THE TRANSPORTATION COMMISSION

Motor Vehicle Account—State Appropriation	\$2,332,000
Interstate 405 and state Route Number 167 Express Toll Lanes Account—State Appropriation.....	\$127,000
State Route Number 520 Corridor Account—State Appropriation.....	\$276,000
Tacoma Narrows Toll Bridge Account—State Appropriation.....	\$180,000
Alaskan Way Viaduct Replacement Project Account—State Appropriation.....	\$172,000
TOTAL APPROPRIATION	\$3,087,000

The appropriations in this section are subject to the following conditions and limitations:

(1) \$127,000 of the Interstate 405 and state route number 167 express toll lanes account—state appropriation, \$276,000 of the state route number 520 corridor account—state appropriation, \$180,000 of the Tacoma Narrows toll bridge account—state appropriation, and \$172,000 of the Alaskan Way viaduct replacement project account—state appropriation are provided solely for the transportation commission's proportional share of time spent supporting tolling operations for the respective tolling facilities.

(2) The commission shall identify and measure how a road usage charge could be adjusted so that vehicles of comparable efficiency pay the same rate regardless of their means of propulsion and examine options for indexing to stabilize revenue as vehicle fleets become more efficient over time.

(3)(a) The transportation budget is currently reliant on vehicle and driver related fees. Motor vehicle registrations, driver licenses, tolls, and the motor vehicle fuel tax provide the primary revenues for the transportation budget. These user revenues no longer adequately support the transportation system's needs. Many of the transportation modes have no or little ability to generate revenue, yet are important elements of a functioning transportation network. Providing transportation options that do not involve passenger vehicles is critical. The tax burden in the transportation budget falls on people that own and drive vehicles. It fails to provide the money needed for the system quality that the people of Washington want.

NINETY FOURTH DAY, APRIL 14, 2021

2021 REGULAR SESSION

(b) Therefore, the commission is directed to evaluate, identify, and consider agencies, programs, and activities that are currently funded in the transportation budget that provide a public good that might be paid for using other revenues. The commission is directed to make recommendations for potential changes to funding sources for the transportation system with the goal of providing funding to maintain existing transportation assets in a state of good repair without exclusively relying on vehicle owners or drivers as the revenue source. Preliminary findings must be presented to the Joint Transportation Committee by September 30, 2022, and a final report issued to the appropriate committees of the legislature by December 1, 2022.

This reimbursement to the motor vehicle fund is intended to address any possibility that the termination of this agreement could be determined to result in the unconstitutional use of 18th amendment designated funds for nonhighway purposes under the constitution of the state of Washington; however, this transfer is not intended to indicate that the incidental use of this infrastructure by these properties necessarily requires such reimbursement under the state Constitution.

(5) \$1,550,000 of the highway safety account—state appropriation is provided solely for the department to provide an interagency transfer to the department of social and health services, children's administration division for the purpose of providing driver's license support to a larger population of foster youth than is already served within existing resources. (b) As part of this pilot program, the owner of a for hire nonemergency medical transportation vehicle may apply to the department, county auditor or other agent, or subagent appointed by the director, for a high occupancy vehicle exempt decal for a for hire nonemergency medical transportation vehicle. The high occupancy vehicle exempt decal allows the for hire nonemergency medical transportation vehicle to use a high occupancy vehicle lane as specified in RCW 46.61.165 and 47.52.025 during the 2021-2023 fiscal biennium.

(c) For the exemption in this subsection to apply to a for hire nonemergency medical transportation vehicle, the decal:

(g) A high occupancy vehicle exempt decal may not be renewed and expires upon the termination of the pilot program established elsewhere in this act. The status as an exempt vehicle continues until suspended or revoked for misuse, or when the vehicle is no longer used as a for hire nonemergency medical transportation vehicle, or when the pilot program established elsewhere in this act is terminated.

(h) The department may adopt rules to implement this subsection.

(11) The department must place personal and company data elements in separate data fields to allow the department to select discrete data elements when providing information or data to persons or entities outside the department. Pursuant to the restrictions in federal and state law, a person's photo, social security number, or medical information must not be made available through public disclosure or data being provided under RCW 46.12.630 or 46.12.635.

(12) The department must work with any regional transit authority pursuant to RCW 82.44.135 to determine cost allocations that are based on actual costs and that would result in full cost recovery for administration and collection of the taxes.

The department must report actual cost allocations to the transportation committees of the legislature by January 1, 2022.

The request for proposals and subsequent competitive procurement must incorporate elements that prioritize the overall goal of lowering costs per transaction for the facility, such as incentives for innovative approaches which result in lower transactional costs, requests for efficiencies on the part of the bidder that lower operational costs, and incorporation of technologies such as self-serve credit card machines or other point-of-payment technologies that lower costs or improve operational efficiencies.

(5) \$20,001,000 of the Alaskan Way viaduct replacement project account—state appropriation is provided solely for the new state route number 99 tunnel toll facility's expected share of collecting toll revenues, operating customer services, and maintaining toll collection systems. Multimodal Transportation Account—State Appropriation	\$258,000
TOTAL APPROPRIATION	\$61,031,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The legislature recognizes that the trail known as the Rocky Reach Trail, and its extensions, serve to separate motor vehicle traffic from pedestrians and bicyclists, increasing motor vehicle safety on state route number 2 and the coincident section of state route number 97. Consistent with chapter 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that transferring portions of WSDOT Inventory Control (IC) No. 2-09-04686 containing the trail and associated buffer areas to the Washington state parks and recreation commission is consistent with the public interest. Prior to completing the transfer, the department shall also ensure that provisions, by fair market assessment, are made to accommodate other private and public utilities and any facilities that have been legally allowed by permit or other instrument.

(c) The department may sell any adjoining property that is not necessary to support the Rocky Reach Trail and adjacent buffer areas only after the transfer of trail-related property to the Washington state parks and recreation commission is complete. Adjoining property owners must be given the first opportunity to acquire such property that abuts their property, and applicable boundary line or other adjustments must be made to the legal descriptions for recording purposes.

(2) With respect to Parcel 12 of the real property conveyed by the state of Washington to the city of Mercer Island under that certain quitclaim deed, dated April 19, 2000, recorded in King county under recording no. 20000425001234, the requirement in the deed that the property be used for road/street purposes only will be deemed satisfied by the department of transportation so long as commuter parking, as part of the vertical development of the property, is one of the significant uses of the property.

(3) During the 2021-2023 biennium, if the department takes possession of the property situated in the City of Edmonds for which a purchase agreement was executed between Unocal and the department in 2005 (Tax Parcel Number 262703-2-003-0009), and if the department confirms that the property is still no longer needed for transportation purposes, the department shall provide the City of Edmonds with the right of first purchase in accordance with RCW 47.12.063(3) for the city's intended use of the property to rehabilitate near-shore habitat for salmon and related species.

(2) \$2,400,000 of the multimodal transportation account—state appropriation is provided solely for the pilot program established under RCW 47.04.355, to provide clean alternative fuel vehicle use opportunities to underserved communities and low to moderate income members of the workforce not readily served by transit or located in transportation corridors with emissions that exceed federal or state emissions standards.

(3)(a)(i) \$133,000 of the multimodal transportation account—state appropriation is provided solely for the purpose of conducting an assessment of options for the development, including potential features and costs, for a publicly available mapping and forecasting tool that provides locations and essential information of charging and refueling infrastructure to support forecasted levels of electric vehicle adoption, travel, and usage across Washington state as described in chapter . . . (Engrossed Substitute House Bill No. 1287), Laws of 2021 (preparedness for a zero emissions transportation future).

(ii) The assessment must include a review of existing infrastructure needs assessments, mapping and forecasting tools, environmental health disparity resources, and related modeling. It must be performed in consultation with the department of ecology, department of commerce, and office of equity, and include a stakeholder process to address community, public agency, and relevant public and private utility needs to determine the resources needed to facilitate statewide and local transportation electrification efforts to drive emission reductions consistent with RCW 70A.45.020.

The department must develop a strategy for grant award selection based on maximizing public benefits by: Facilitating residents' and businesses' ability to purchase and lease clean alternative fuel vehicles through increased access to public electric vehicle charging and refueling, facilitating a decline in vehicle emissions that would otherwise contribute to pollution and greenhouse gas emissions, and increasing equity of access to clean alternative fuel vehicles. The department shall use proposed grant matching funds as a criterion for selecting grant award recipients. When the publicly available mapping and forecasting tool in (a) of this subsection has been developed and is available to be used for this purpose, strategy development for grant award selection must include analysis of the information provided by the tool.

(2)(a) During the 2021-2023 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle: (i) Auto transportation company vehicles regulated under chapter 81.68 RCW; (ii) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (iii) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (iv) private employer transportation service vehicles. However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section 601 of this act.

(2) Except as provided otherwise in this section, the entire motor vehicle account—state appropriation and motor vehicle account—federal appropriation are provided solely for the projects and activities listed in LEAP Transportation Document 2021-2 ALL PROJECTS as developed March 22, 2021, Program - Highway Improvements Program (I). Any federal funds gained through efficiencies, adjustments to the federal funds forecast, additional congressional action not related to a specific project or purpose, or the federal funds redistribution process must then be applied to highway and bridge preservation activities or fish passage barrier corrections (0B14001).

(3) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer funds between programs I and P, except for funds that are otherwise restricted in this act. Ten days prior to any transfer, the department must submit its request to the office of financial management and the transportation committees of the legislature and consider any concerns raised. The department shall submit a report on fiscal year funds transferred in the prior fiscal year using this subsection as part of the department's annual budget submittal.

It is the intent of the legislature that any legal damages paid to the state as a result of a lawsuit related to contractual provisions for construction and delivery of the Alaskan Way

viaduct replacement project be used to repay project cost increases paid from the transportation partnership account—state funds.

(8) \$193,699,000 of the connecting Washington account—state appropriation is provided solely for the US 395 North Spokane Corridor project (M00800R).

(9) \$14,827,000 of the Interstate 405 and state route number 167 express toll lanes account—state appropriation is provided solely for the I-405/SR 522 to I-5 Capacity Improvements project (L2000234) for activities related to adding capacity on Interstate 405 between state route number 522 and Interstate 5, with the goals of increasing vehicle throughput and aligning project completion with the implementation of bus rapid transit in the vicinity of the project.

(10)(a) \$492,349,000 of the connecting Washington account—state appropriation and \$355,000 of the motor vehicle account—private/local appropriation are provided solely for the SR 520 Seattle Corridor Improvements - West End project (M00400R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state route number 167 and state route number 509 in collaboration with affected stakeholders. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(c) It is the legislature's intent that the department shall construct a full single-point urban interchange at the junction of state route number 161 (Meridian avenue) and state route number 167 and a full single-point urban interchange at the junction of state route number 509 and 188th Street. If the department receives additional funds from an outside source for this project after the base project is fully funded, the funds must first be applied toward the completion of these two full single-point urban interchanges.

(d) Of the amounts provided in this subsection, \$2,300,000 of the multimodal transportation account—state appropriation is provided solely for the design phase of the Puyallup to Tacoma multiuse trail along the SR 167 right-of-way acquired for the project to connect a network of new and existing trails from Mount Rainier to Point Defiance Park.

(12) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(13) Any advisory group that the department convenes during the 2021-2023 fiscal biennium must consider the interests of the entire state of Washington.

(14) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system. To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70.95.805, the legislature reaffirms its determination that recycled concrete aggregate and other transportation building materials are natural resource construction materials that are too valuable to be wasted and landfilled, and are a commodity as defined in WAC 173-350-100.

Further, the legislature determines construction aggregate and recycled concrete materials substantially meet widely recognized international, national, and local standards and specifications referenced in American society for testing and materials, American concrete institute, Washington state department of transportation, Seattle department of transportation, American public works association, federal aviation administration, and federal highway administration specifications, and are described as necessary and desirable products for recycling and reuse by state and federal agencies.

As these recyclable materials have well established markets, are substantially a primary or secondary product of necessary construction processes and production, and are managed as an item of commercial value, construction aggregate and recycled concrete materials are exempt from chapter 173-350 WAC.

(15)(a) \$26,928,000 of the motor vehicle account—state appropriation and \$1,671,000 of the motor vehicle account—private/local appropriation are provided solely for supporting a project office and the continued work towards replacement of the Interstate 5 bridge across the Columbia river (G2000088).

(b) The work of this project office includes, but is not limited to, the reevaluation of the purpose and need identified for the project previously known as the Columbia river crossing, the reevaluation of permits and development of a finance plan, the reengagement of key stakeholders and the public, and the reevaluation of scope, schedule, and budget for a reinvigorated bistate effort for replacement of the Interstate 5 Columbia river bridge. When reevaluating the finance plan for the project, the department shall assume that some costs of the new facility may be covered by tolls. The project office must also study the possible different governance structures for a bridge authority that would provide for the joint administration of the bridges over the Columbia river between Oregon and Washington. As part of this study, the project office must examine the feasibility and necessity of an interstate compact in conjunction with the national center for interstate compacts.

(c) During the 2021-2023 biennium the department shall have as a goal to:

(i) Conduct all work necessary to prepare and publish a draft SEIS;

(ii) Coordinate with regulatory agencies to begin the process of obtaining environmental approvals and permits;

(iii) Identify a locally preferred alternative; and

(iv) Begin preparing a final SEIS.

The department shall aim to provide progress reports on these activities to the governor and the transportation committees of the

Once available, these amounts must be applied prior to other amounts provided for this purpose (0BI4001). These water infrastructure projects are intended to meet compliance requirements with the federal *U.S. v. Washington* court injunction by 2030.

(19)(a) The Washington state department of transportation is directed to pursue compliance with the *U.S. v. Washington* permanent injunction by delivering culvert corrections within the injunction area guided by the principle of providing the greatest fisheries habitat gain at the earliest time and considering the following factors: Opportunity to bundle projects, tribal priorities, ability to leverage investments by others, presence of other barriers, project readiness, culvert condition, other transportation projects in the area, and transportation impacts.

(b) The department and Brian Abbott fish barrier removal board must provide updates on the implementation of the statewide culvert remediation plan to the legislature by November 1, 2021, and June 1, 2022.

The department shall also provide quarterly reports to the technology services board on project progress.

(5) \$5,000,000 of the motor vehicle account—state appropriation is provided solely for extraordinary costs incurred from litigation awards, settlements, or dispute mitigation activities not eligible for funding from the self-insurance fund. The amount provided in this subsection must be held in unallotted status until the department submits a request to the office of financial management that includes documentation detailing litigation-related expenses. (8) Within the connecting Washington account—state appropriation, the department may transfer funds from Highway System Preservation (L1100071) to other preservation projects listed in the LEAP transportation document identified in subsection (1) of this section, if it is determined necessary for completion of these high priority preservation projects. The department's next budget submittal after using this subsection must appropriately reflect the transfer.

(8) \$152,453,000 of the capital vessel replacement account—state appropriation is provided solely for the acquisition of a 144-car hybrid-electric vessel. The commencement of construction of new vessels for the ferry system is important not only for safety reasons, but also to keep skilled marine construction jobs in the Puget Sound region and to sustain the capacity of the region to meet the ongoing construction and preservation needs of the ferry system fleet of vessels. The legislature has determined that the current vessel procurement process must move forward with all due speed, balancing the interests of both the taxpayers and shipyards. To accomplish construction of vessels in accordance with RCW 47.60.810, the prevailing shipbuilder, for vessels initially funded after July 1, 2020, is encouraged to follow the historical practice of subcontracting the construction of ferry superstructures to a separate nonaffiliated contractor located within the Puget Sound region, that is qualified in accordance with RCW 47.60.690.

The value of the public benefit of this project is expected to meet or exceed the cost of this project in: Shipper savings on transportation costs; jobs saved in rail-dependent industries; and/or reduced future costs to repair wear and tear on state and local highways due to fewer annual truck trips (reduced vehicle miles traveled). Sec. 713. RCW 34.05.350 and 2011 1st sp.s. c 2 s 1 are each amended to read as follows:

(1) If an agency for good cause finds:

(a) That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest;

(b) That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule; or

(c) In order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, or in an omnibus transportation appropriations act for the 2021-2023 biennium related to setting toll rates, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency,

the agency may dispense with those requirements and adopt, amend, or repeal the rule on an emergency basis. The agency's finding and a concise statement of the reasons for its finding shall be incorporated in the order for adoption of the emergency rule or amendment filed with the office of the code reviser under RCW 34.05.380 and with the rules review committee.

(2) An emergency rule adopted under this section takes effect upon filing with the code reviser, unless a later date is specified in the order of adoption, and may not remain in effect for longer than one hundred twenty days after filing. Identical or substantially similar emergency rules may not be adopted in sequence unless conditions have changed or the agency has filed

notice of its intent to adopt the rule as a permanent rule, and is actively undertaking the appropriate procedures to adopt the rule as a permanent rule. This section does not relieve any agency from compliance with any law requiring that its permanent rules be approved by designated persons or bodies before they become effective.

(3) Within seven days after the rule is adopted, any person may petition the governor requesting the immediate repeal of a rule adopted on an emergency basis by any department listed in RCW 43.17.010. Within seven days after submission of the petition, the governor shall either deny the petition in writing, stating his or her reasons for the denial, or order the immediate repeal of the rule. In ruling on the petition, the governor shall consider only whether the conditions in subsection (1) of this section were met such that adoption of the rule on an emergency basis was necessary. If the governor orders the repeal of the emergency rule, any sanction imposed based on that rule is void. This subsection shall not be construed to prohibit adoption of any rule as a permanent rule.

(d) Underlying congestion measurements, that is, speeds, that are being used to generate the summary graphs provided, to be made available in a digital file format.

(3)(a) \$2,114,000 of the Interstate 405 and state route number 167 express toll lanes account—state appropriation, \$4,920,000 of the state route number 520 corridor account—state appropriation, \$2,116,000 of the Tacoma Narrows toll bridge account—state appropriation, and \$2,776,000 of the Alaskan Way viaduct replacement project account—state appropriation are provided solely for the department to finish implementing a new tolling customer service toll collection system, and are subject to the conditions, limitations, and review provided in section 701 ~~((of this act))~~, chapter 219, Laws of 2020.

(b) The department shall continue to work with the office of financial management, office of the chief information officer, and the transportation committees of the legislature on the project management plan that includes a provision for independent verification and validation of contract deliverables from the successful bidder and a provision for quality assurance that includes reporting independently to the office of the chief information officer on an ongoing basis during system implementation.

(4) The department shall make detailed quarterly reports to the transportation committees of the legislature and the public on the department's web site on the following:

(6) In calendar year 2021, toll equipment on the Tacoma Narrows Bridge will have reached the end of its operational life. During the 2019-2021 fiscal biennium, the department plans to issue a request for proposals as the first stage of a competitive procurement process that will replace the toll equipment and select a new tolling operator for the Tacoma Narrows Bridge. The request for proposals and subsequent competitive procurement must incorporate elements that prioritize the overall goal of lowering costs per transaction for the facility, such as incentives for innovative approaches which result in lower transactional costs, requests for efficiencies on the part of the bidder that lower operational costs, and incorporation of technologies such as self-serve credit card machines or other point-of-payment technologies that lower costs or improve operational efficiencies.

(7) ~~(\$18,840,000)~~ \$17,082,000 of the Alaskan Way viaduct replacement project account—state appropriation is provided solely for the new state route number 99 tunnel toll facility's expected share of collecting toll revenues, operating customer services, and maintaining toll collection systems. The legislature expects to see appropriate reductions to the other toll facility accounts once tolling on the new state route number 99 tunnel toll facility commences and any previously incurred costs for start-up of the new facility are charged back to the Alaskan Way viaduct replacement project account. The office of financial management shall closely monitor the application of the cost allocation model and ensure that the new state route number 99 tunnel toll facility is adequately sharing costs and the other toll facility accounts are not being overspent or subsidizing the new state route number 99 tunnel toll facility.

(8) \$608,000 of the Interstate 405 and state route number 167 express toll lanes account—state appropriation are provided solely for increased levels of service from the Washington state patrol for enforcement of toll lane violations on the Interstate 405 and state route number 167 express toll lanes. The department shall provide this data in a report to the transportation committees of the legislature on at least a calendar quarterly basis.

(9) The department shall develop an ongoing cost allocation method to assign appropriate costs to each of the toll funds for services provided by each Washington state department of transportation program and all relevant transportation agencies, including the Washington state patrol and the transportation commission. This method should update the toll cost allocation method used in the 2020 supplemental transportation appropriations act. By December 1, 2020, a report with the recommended method and any changes or potential impacts to toll rates shall be submitted to the transportation committees of the legislature and the office of financial management.

TOTAL APPROPRIATION ((\$60,546,000))
	<u>\$59,401,000</u>

The appropriations in this section are subject to the following conditions and limitations:

Consistent with chapter 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that transferring portions of WSDOT Inventory Control (IC) No. 2-09-04686 containing the trail and associated buffer areas to the Washington state parks and recreation commission is consistent with the public interest. The legislature directs the department to transfer the property to the Washington state parks and recreation commission.

(a) The department must be paid fair market value for any portions of the transferred real property that is later abandoned, vacated, or ceases to be publicly maintained for trail purposes.

(b) Prior to completing the transfer in this subsection (1), the department must ensure that provisions are made to accommodate private and public utilities and any facilities that predate the department's acquisition of the property, at no cost to those entities. Prior to completing the transfer, the department shall also ensure that provisions, by fair market assessment, are made to accommodate other private and public utilities and any facilities that have been legally allowed by permit or other instrument.

(c) The department may sell any adjoining property that is not necessary to support the Rocky Reach Trail and adjacent buffer areas only after the transfer of trail-related property to the Washington state parks and recreation commission is complete. (2) With respect to Parcel 12 of the real property conveyed by the state of Washington to the city of Mercer Island under that certain quitclaim deed, dated April 19, 2000, recorded in King county under recording no. 20000425001234, the requirement in the deed that the property be used for road/street purposes only will be deemed satisfied by the department of transportation so long as commuter parking, as part of the vertical development of the property, is one of the significant uses of the property.

(3) \$1,600,000 of the motor vehicle account—state appropriation is provided solely for real estate services activities. Consistent with RCW 47.12.120 and during the 2019-2021 fiscal biennium, when initiating, extending, or renewing any rent or

(4)(a) \$100,000 of the motor vehicle account—state appropriation is provided solely for the department to:

(i) Determine the real property owned by the state of Washington and under the jurisdiction of the department in King county that is surplus property located in an area encompassing south of Dearborn Street in Seattle, south of Newcastle, west of SR 515, and north of South 216th to SR 515; and

To receive a grant, the transit agency must, to the greatest extent practicable, have a maintenance of effort for special needs transportation that is no less than the previous year's maintenance of effort for special needs transportation. Grants for transit agencies must be prorated based on the amount expended for demand response service and route deviated service in calendar year 2017 as reported in the "Summary of Public Transportation - 2017" published by the department of transportation. This includes reporting after the 2020 legislative session on the measurable results of an early pilot initiative, "Telework Tuesday," beginning in January 2020.

(b) Capitol campus state agency management is directed to fully participate in this work, which aims to reduce greenhouse gases, require less office space and parking investments; provide low cost congestion relief on I-5 during peak periods, US 101, and the local transportation network; and improve retention and recruitment of public employees. The agencies should actively: Encourage employees qualified to telework to participate in this program and increase the number of employees who qualify for mobile work and schedule shifts.

(c) If measurable success is achieved, the capitol campus state agencies shall provide options to expand the project to other jurisdictions concentrated with large employers. Expansion and encouragement of telework will help reduce demand on the transportation system, reduce traffic during peak hours, and reduce greenhouse gas emissions.

(ii) The ultra high-speed ground transportation corridor advisory group must include legislative membership.

(iii) "Ultra high-speed" means a maximum testing speed of at least two hundred fifty miles per hour.

(b) The study must consist of the following:

(i) Development of proposed corridor governance, general powers, operating structure, legal instruments, and contracting requirements, in the context of the roles of relevant jurisdictions, including federal, state, provincial, and local governments;

(ii) Development of a long-term funding and financing strategy for project initiation, development, construction, and program administration of the high-speed corridor, building on the funding and financing chapter of the 2019 business case analysis and aligned with the recommendations of (b)(i) of this subsection; and

(iii) Development of recommendations for a department-led ultra-high speed corridor engagement plan for policy leadership from elected officials.

(c) This study must build on the results of the 2018 Washington state ultra high-speed ground transportation business case analysis and the 2019 Washington state ultra high-speed ground transportation study findings report. The department shall consult with the transportation committees of the legislature regarding all issues related to proposed corridor governance.

(d) The development work referenced in (b) of this subsection is intended to identify and make recommendations related to specific entities, including interjurisdictional entities, policies, and processes required for the purposes of furthering preliminary analysis efforts for the ultra high-speed ground transportation corridor. This development work is not intended to authorize one or more entities to assume decision making authority for the design, construction, or operation of an ultra high-speed rail corridor.

(e) By December 1, 2020, the department shall provide to the governor and the transportation committees of the legislature a report of the study's findings regarding the three elements noted in this subsection. Annual credits from Amtrak to the department including, but not limited to, credits due to higher ridership, reduced level of service, and fare or fare schedule adjustments, must be used to offset corresponding amounts of the multimodal transportation account—state appropriation, which must be placed in reserve.

TOTAL APPROPRIATION.....	((\$3,284,027,000))
	<u>\$2,464,702,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire connecting Washington account—state appropriation and the entire transportation partnership account—state appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document ((~~2020~~)) 2021-1 as developed March ((~~11, 2020~~)) 22, 2021, Program - Highway Improvements Program (I). However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section 601 ((~~of this act~~)), chapter 219, Laws of 2020.

(2) Except as provided otherwise in this section, the entire motor vehicle account—state appropriation and motor vehicle account—federal appropriation are provided solely for the projects and activities listed in LEAP Transportation Document ((~~2020~~)) 2021-2 ALL PROJECTS as developed March ((~~11, 2020~~)) 22, 2021, Program - Highway Improvements Program (I). Any federal funds gained through efficiencies, adjustments to the federal funds forecast, additional congressional action not related to a specific project or purpose, or the federal funds redistribution process must then be applied to highway and bridge preservation activities or fish passage barrier corrections (0B14001).

(3) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer funds between programs I and P, except for funds that are otherwise restricted in this act. Ten days prior to any transfer, the department must submit its request to the office of financial management and the transportation committees of the legislature and consider any concerns raised. The department shall submit a report on fiscal year funds transferred in the prior fiscal year using this subsection as part of the department's annual budget submittal.

(4) The connecting Washington account—state appropriation includes up to ((~~\$1,835,325,000~~)) \$1,085,325,000 in proceeds from the sale of bonds authorized in RCW 47.10.889.

(5) The special category C account—state appropriation includes up to ((~~\$24,910,000~~)) \$19,911,000 in proceeds from the sale of bonds authorized in RCW 47.10.812.

(6) The transportation partnership account—state appropriation includes up to ((~~\$162,658,000~~)) \$175,140,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

(7) The Alaskan Way viaduct replacement project account—state appropriation includes up to \$77,956,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

(8) ((~~\$168,757,000~~)) \$162,005,000 of the transportation partnership account—state appropriation, ((~~\$19,790,000~~)) \$17,898,000 of the motor vehicle account—private/local appropriation, \$3,384,000 of the transportation 2003 account (nickel account)—state appropriation, \$77,956,000 of the Alaskan Way viaduct replacement project account—state appropriation, and ((~~\$1,838,000~~)) \$854,000 of the multimodal transportation account—state appropriation are provided solely for the SR 99/Alaskan Way Viaduct Replacement project (809936Z). It is the intent of the legislature that the \$25,000,000 increase in funding provided in the 2021-2023 fiscal biennium be covered by any legal damages paid to the state as a result of a lawsuit related to contractual provisions for construction and delivery of the Alaskan Way viaduct replacement project. The legislature intends that the \$25,000,000 of the transportation partnership account—state funds be repaid when those damages are recovered.

(9) \$3,000,000 of the multimodal transportation account—state appropriation is provided solely for transit mitigation for the SR 99/Viaduct Project - Construction Mitigation project (809940B).

(10) (~~(\$168,655,000)~~) \$148,097,000 of the connecting Washington account—state appropriation, \$1,052,000 of the special category C account—state appropriation, and (~~(\$738,000)~~) \$1,338,000 of the motor vehicle account—private/local appropriation are provided solely for the US 395 North Spokane Corridor project (M00800R).

(11) (~~(\$82,991,000)~~) \$29,187,000 of the Interstate 405 and state route number 167 express toll lanes account—state appropriation is provided solely for the I-405/SR 522 to I-5 Capacity Improvements project (L2000234) for activities related to adding capacity on Interstate 405 between state route number 522 and Interstate 5, with the goals of increasing vehicle throughput and aligning project completion with the implementation of bus rapid transit in the vicinity of the project.

(12)(a) (~~(\$422,099,000)~~) \$356,007,000 of the connecting Washington account—state appropriation and (~~(\$456,000)~~) \$400,000 of the motor vehicle account—private/local appropriation are provided solely for the SR 520 Seattle Corridor Improvements - West End project (M00400R).

(b) Recognizing that the department of transportation requires full possession of parcel number 1-23190 to complete the Montlake Phase of the West End project, the department is directed to:

(i) Work with the operator of the Montlake boulevard market located on parcel number 1-23190 to negotiate a lease allowing continued operations up to January 1, 2020. After that time, the department shall identify an area in the vicinity of the Montlake property for a temporary market or other food service to be provided during the period of project construction. Should the current operator elect not to participate in providing that temporary service, the department shall then develop an outreach plan with the city to solicit community input on the food services provided, and then advertise the opportunity to other potential vendors. Further, the department shall work with the city of Seattle and existing permit processes to facilitate vendor access to and use of the area in the vicinity of the Montlake property.

(ii) Upon completion of the Montlake Phase of the West End project (current anticipated contract completion of 2023), WSDOT shall sell that portion of the property not used for permanent transportation improvements and initiate a process to convey that surplus property to a subsequent owner.

(c) \$60,000 of the motor vehicle account—state appropriation is provided solely for grants to nonprofit organizations located in a city with a population exceeding six hundred thousand persons and that empower artists through equitable access to vital expertise, opportunities, and business services. Funds may be used only for the purpose of preserving, commemorating, and sharing the history of the city of Seattle's freeway protests and making the history of activism around the promotion of more integrated transportation and land use planning accessible to current and future generations through the preservation of Bent 2 of the R. H. Thompson freeway ramp.

(13) It is the intent of the legislature that for the I-5 JBLM Corridor Improvements project (M00100R), the department shall actively pursue \$50,000,000 in federal funds to pay for this project to supplant state funds in the future. \$50,000,000 in connecting Washington account funding must be held in unallotted status during the 2021-2023 fiscal biennium. These funds may only be used after the department has provided notice to the office of financial management that it has exhausted all efforts to secure federal funds from the federal highway administration and the department of defense.

(14) (~~(\$310,469,000)~~) \$172,911,000 of the connecting Washington account—state appropriation (~~(is)~~), \$12,599,000 of the motor vehicle account—private/local appropriation, \$2,500,000 of the motor vehicle account—state appropriation, and \$1,500,000 of the motor vehicle account—federal appropriation are provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) Proceeds from the sale of any surplus real property acquired for the purpose of building the SR 167/SR 509 Puget Sound Gateway (M00600R) project must be deposited into the motor vehicle account for the purpose of constructing the project.

(c) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state route number 167 and state route number 509 in collaboration with affected stakeholders. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(d) It is the legislature's intent that the department shall construct a full single-point urban interchange at the junction of state route number 161 (Meridian avenue) and state route number 167 and a full single-point urban interchange at the junction of state route number 509 and 188th Street. If the department receives additional funds from an outside source for this project after the base project is fully funded, the funds must first be applied toward the completion of these two full single-point urban interchanges.

(e) In designing the state route number 509/state route number 516 interchange component of the SR 167/SR 509 Puget Sound Gateway project (M00600R), the department shall make every effort to utilize the preferred "4B" design.

(f) The department shall explore the development of a multiuse trail for bicyclists, pedestrians, skateboarders, and similar users along the SR 167 right-of-way acquired for the project to connect a network of new and existing trails from Mount Rainier to Point Defiance Park.

(g) If sufficient bonding authority to complete this project is not provided within chapter 421, Laws of 2019 (addressing tolling), or within a bond authorization act referencing chapter 421, Laws of 2019 by June 30, 2019, it is the intent of the legislature to return the Puget Sound Gateway project (M00600R) to its previously identified construction schedule by moving \$128,900,000 in connecting Washington account—state appropriation back to the 2027-2029 biennium from the 2023-2025 biennium on the list referenced in subsection (2) of this section. If sufficient bonding authority is provided, it is the intent of the legislature to advance the project to allow for earlier completion and inflationary savings.

(15) It is the intent of the legislature that, for the I-5/North Lewis County Interchange project (L2000204), the department develop and design the project with the objective of significantly improving access to the industrially zoned properties in north Lewis county. The design must consider the county's process of investigating alternatives to improve such access from Interstate 5 that began in March 2015.

(16) (~~(\$1,029,000)~~) \$1,030,000 of the transportation partnership account—state appropriation is provided solely for the U.S. 2 Trestle IJR project (L1000158).

(17) The department shall itemize all future requests for the construction of buildings on a project list and submit them

NINETY FOURTH DAY, APRIL 14, 2021

2021 REGULAR SESSION

through the transportation executive information system as part of the department's annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(18) Any advisory group that the department convenes during the 2019-2021 fiscal biennium must consider the interests of the entire state of Washington.

(19) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Before the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2021, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(20)(a) For connecting Washington projects that have already begun and are eligible for the authority granted in section 601 (~~of this act~~), chapter 219, Laws of 2020, the department shall prioritize advancing the following projects if expected reappropriations become available:

- (i) SR 14/I-205 to SE 164th Ave - Auxiliary Lanes (L2000102);
- (ii) SR 305 Construction - Safety Improvements (N30500R);
- (iii) SR 14/Bingen Underpass (L2220062);
- (iv) I-405/NE 132nd Interchange - Totem Lake (L1000110);
- (v) US Hwy 2 Safety (N00200R);
- (vi) US-12/Walla Walla Corridor Improvements (T20900R);
- (vii) I-5 JBLM Corridor Improvements (M00100R);
- (viii) I-5/Slater Road Interchange - Improvements (L1000099);
- (ix) SR 510/Yelm Loop Phase 2 (T32700R); or
- (x) SR 520/124th St Interchange (Design and Right of Way) (L1000098).

(b) To the extent practicable, the department shall use the flexibility and authority granted in this section and in section 601 of this act to minimize the amount of reappropriations needed each biennium.

(c) The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2021-2023 fiscal biennium.

(21) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system. To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70.95.805, the legislature reaffirms its determination that recycled concrete aggregate and other transportation building materials are natural resource construction materials that are too valuable to be wasted and landfilled, and are a commodity as defined in WAC 173-350-100.

Further, the legislature determines construction aggregate and recycled concrete materials substantially meet widely recognized international, national, and local standards and specifications referenced in American society for testing and materials, American concrete institute, Washington state department of transportation, Seattle department of transportation, American public works association, federal aviation administration, and federal highway administration specifications, and are described as necessary and desirable products for recycling and reuse by state and federal agencies.

As these recyclable materials have well established markets, are substantially a primary or secondary product of necessary

construction processes and production, and are managed as an item of commercial value, construction aggregate and recycled concrete materials are exempt from chapter 173-350 WAC.

(22)(a) (~~(\$17,500,000)~~) \$8,072,000 of the motor vehicle account—state appropriation (~~(is)~~) and \$7,329,000 of the motor vehicle account—private/local appropriation are provided solely for staffing of a project office to replace the Interstate 5 bridge across the Columbia river (G2000088). If at least a \$9,000,000 transfer is not authorized in section 406(29), chapter 416, Laws of 2019, then \$9,000,000 of the motor vehicle account—state appropriation lapses.

~~(b) (Of the amount provided in this subsection, \$7,780,000 of the motor vehicle account—state appropriation must be placed in unallotted status by the office of financial management until the department develops a detailed plan for the work of this project office in consultation with the chairs and ranking members of the transportation committees of the legislature. The director of the office of financial management shall consult with the chairs and ranking members of the transportation committees of the legislature prior to making a decision to allot these funds.~~

~~(e))~~ The work of this project office includes, but is not limited to, the reevaluation of the purpose and need identified for the project previously known as the Columbia river crossing, the reevaluation of permits and development of a finance plan, the reengagement of key stakeholders and the public, and the reevaluation of scope, schedule, and budget for a reinvigorated bistate effort for replacement of the Interstate 5 Columbia river bridge. When reevaluating the finance plan for the project, the department shall assume that some costs of the new facility may be covered by tolls. The project office must also study the possible different governance structures for a bridge authority that would provide for the joint administration of the bridges over the Columbia river between Oregon and Washington. As part of this study, the project office must examine the feasibility and necessity of an interstate compact in conjunction with the national center for interstate compacts.

~~((d))~~ (c) Within the amount provided in this subsection, the department must implement chapter 137, Laws of 2019 (projects of statewide significance).

~~((e))~~ (d) The department shall have as a goal to:

- (i) Reengage project stakeholders and reevaluate the purpose and need and environmental permits by July 1, 2020;
- (ii) Develop a finance plan by December 1, 2020; and

MESSAGE FROM THE HOUSE

April 7, 2021

MR. PRESIDENT:

The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5128 with the following amendment(s): 5128-S2.E AMH ED H1314.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature recognizes that the COVID-19 pandemic has significantly changed the delivery of education across the state, as school districts transition to remote learning environments to protect the health of students and staff. The legislature also recognizes that the role of transportation services has evolved alongside remote learning programs to help students equitably access the instructional program of basic education. As permitted by emergency proclamation, many school districts have adapted to remote learning by transporting meals, learning materials, and technology supports directly to students' homes or neighborhoods. Other school districts have used transportation resources to bring students to learning centers or other agencies where support services are provided.

This flexibility has allowed school districts to creatively use the resources at their disposal to equitably address the needs of students during an ongoing emergency.

With this act, the legislature intends to preserve this principle of flexibility for qualifying transportation services during a future local, state, or national emergency.

NINETY FOURTH DAY, APRIL 14, 2021

2021 REGULAR SESSION

NEW SECTION. Sec. 2. A new section is added to chapter 28A.160 RCW to read as follows:

(1) If a school or school district is providing full remote or partial remote instruction under the authority of RCW 28A.150.290 due to a local, state, or national emergency that causes a substantial disruption to full in-person instruction then, in addition to the transportation services allowed under this chapter, the district may use student transportation allocations to provide the following expanded services to students, regardless of whether those students would qualify as eligible students under RCW 28A.160.160:

(a) Delivery of educational services necessary to provide students with the opportunity to equitably access educational services during the period of remote instruction. Delivery of educational services include the transportation of materials, hardware, and other supports that assist students in accessing remote instruction, internet connectivity, or the curriculum;

(b) Delivery of meals to students;

(c) Providing for the transportation of students to and from learning centers or other public or private agencies where educational and support services are being provided to students during the period of remote instruction. "Providing for" includes the provision of payments to allow students to use public transit to access the educational and support services; and

(d) Providing for the transportation of students to and from interscholastic and extracurricular activities.

(2) Nothing in this section is intended to limit a district's ability to use transportation allocations to pay for fixed transportation costs, such as school bus maintenance and basic administrative, regulatory, safety, or operational expenses.

(3) If a district provides expanded services under subsection (1) of this section, the district must track by a separate accounting code the expenditures incurred by the district in providing such services. This data must be included in the report required under RCW 28A.160.170(2).

Sec. 3. RCW 28A.160.160 and 2009 c 548 s 305 are each amended to read as follows:

For purposes of RCW 28A.160.150 through 28A.160.190, except where the context shall clearly indicate otherwise, the following definitions apply:

(1) "Eligible student" means any student served by the transportation program of a school district or compensated for individual transportation arrangements authorized by RCW 28A.160.030 whose route stop is outside the walk area for a student's school, except if the student to be transported is disabled under RCW 28A.155.020 and is either not ambulatory or not capable of protecting his or her own welfare while traveling to or from the school or agency where special education services are provided, in which case no mileage distance restriction applies.

(2) "Superintendent" means the superintendent of public instruction.

(3) "To and from school" means the transportation of students for the following purposes:

(a) Transportation to and from route stops and schools;

(b) Transportation to and from schools pursuant to an interdistrict agreement pursuant to RCW 28A.335.160;

(c) Transportation of students between schools and learning centers for instruction specifically required by statute; ~~(and)~~

(d) Transportation of students with disabilities to and from schools and agencies for special education services; and

(e) Transportation of students to and from interscholastic and extracurricular activities under section 2 of this act.

Academic extended day transportation for the instructional program of basic education under RCW 28A.150.220 shall be considered part of transportation of students "to and from school"

for the purposes of this section. Transportation for field trips may not be considered part of transportation of students "to and from school" under this section.

(4) "Transportation services" for students living within the walk area includes the coordination of walk-to-school programs, the funding of crossing guards, and matching funds for local and state transportation projects intended to mitigate hazardous walking conditions. Priority for transportation services shall be given to students in grades kindergarten through five.

(5) As used in this section, "walk area" means that area around a school with an adequate roadway configuration to provide students access to school with a walking distance of less than one mile. Mileage must be measured along the shortest roadway or maintained public walkway where hazardous conditions do not exist. The hazardous conditions must be documented by a process established in rule by the superintendent of public instruction and must include roadway, environmental, and social conditions. Each elementary school shall identify walk routes within the walk area.

Sec. 4. RCW 28A.160.170 and 2009 c 548 s 306 are each amended to read as follows:

Each district shall submit three times each year to the superintendent of public instruction during October, February, and May of each year a report containing the following:

(1)(a) The number of eligible students transported to and from school as provided for in RCW 28A.160.150, along with identification of stop locations and school locations, and (b) the number of miles driven for pupil transportation services as authorized in RCW 28A.160.150 the previous school year; and

(2) Other operational data and descriptions as required by the superintendent to determine allocation requirements for each district. The superintendent shall require that districts separate the costs of operating the program for the transportation of eligible students to and from school as defined by RCW 28A.160.160(3) ~~((from))~~, non-to-and-from-school pupil transportation costs, and costs to provide expanded services under section 2(1) of this act in the annual financial statement. The cost, quantity, and type of all fuel purchased by school districts for use in to-and-from-school transportation shall be included in the annual financial statement.

Each district shall submit the information required in this section on a timely basis as a condition of the continuing receipt of school transportation moneys.

NEW SECTION. Sec. 5. A new section is added to chapter 28A.710 RCW to read as follows:

Section 2 of this act governs school operation and management under RCW 28A.710.040 and applies to charter schools established under this chapter.

NEW SECTION. Sec. 6. A new section is added to chapter 28A.715 RCW to read as follows:

Section 2 of this act governs school operation and management under RCW 28A.715.020 and applies to state-tribal compact schools established under this chapter.

NEW SECTION. Sec. 7. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

Correct the title.

and the same are herewith transmitted.

MESSAGE FROM THE HOUSE

April 8, 2021

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5408 with the following amendment(s): 5408-S.E AMH FIN H1468.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the homestead exemption is intended to protect the homeowner's equity in a home against unsecured creditors. The legislature finds that changes to the homestead exemption are necessary to modernize the law and to address the case of *Wilson v. Rigby*, 909 F.3d 306 (2018) and to adopt the reasoning in *In re Good*, 588 B.R. 573 (Bankr. W.D. Wash. 2018).

Sec. 2. RCW 6.13.010 and 1999 c 403 s 1 are each amended to read as follows:

(1) The homestead consists of real or personal property that the owner ~~or a dependent of the owner~~ uses as a residence. In the case of a dwelling house or mobile home, the homestead consists of the dwelling house or the mobile home in which the owner resides or intends to reside, with appurtenant buildings, and the land on which the same are situated and by which the same are surrounded, or improved or unimproved land, regardless of area, owned with the intention of placing a house or mobile home thereon and residing thereon. A mobile home may be exempted under this chapter whether or not it is permanently affixed to the underlying land and whether or not the mobile home is placed upon a lot owned by the mobile home owner or a dependent of the owner. Property included in the homestead must be actually intended or used as the principal home for the owner.

(2) As used in this chapter (~~(, the term "owner")~~):

(a) "Owner" includes but is not limited to a purchaser under a deed of trust, mortgage, or real estate contract.

~~((3) As used in this chapter, the term "net")~~ (b) "Net value" means market value less all liens and encumbrances senior to the judgment being executed upon and not including the judgment being executed upon.

(c) "Forced sale" includes any sale of homestead property in a bankruptcy proceeding under Title 11 of the United States Code. The reinvestment provisions of RCW 6.13.070 do not apply to the proceeds.

(d) "Dependent" has the meaning given in Title 11 U.S.C. Sec. 522(a)(1).

Sec. 3. RCW 6.13.030 and 2007 c 429 s 1 are each amended to read as follows:

~~(A homestead may consist of lands, as described in RCW 6.13.010, regardless of area, but the homestead exemption amount shall not exceed the lesser of (1) the total net value of the lands, manufactured homes, mobile home, improvements, and other personal property, as described in RCW 6.13.010, or (2) the~~

~~sum of one hundred twenty-five thousand dollars in the case of lands, manufactured homes, mobile home, and improvements, or the sum of fifteen thousand dollars in the case of other personal property described in RCW 6.13.010, except where)) (1) The homestead exemption amount is the greater of:~~

~~(a) \$125,000;~~

~~(b) The county median sale price of a single-family home in the preceding calendar year; or~~

~~(c) Where the homestead is subject to execution, attachment, or seizure by or under any legal process whatever to satisfy a judgment in favor of any state for failure to pay that state's income tax on benefits received while a resident of the state of Washington from a pension or other retirement plan, ((in which event there shall be)) no dollar limit ((on the value of the exemption)).~~

~~(2) In determining the county median sale price of a single-family home in the preceding year, a court shall use data from the Runstad department of real estate at the University of Washington or, if the Runstad department no longer provides the data, a successor entity designated by the office of financial management.~~

Sec. 4. RCW 6.13.060 and 2008 c 6 s 634 are each amended to read as follows:

The homestead of a spouse or domestic partner cannot be conveyed or encumbered unless the instrument by which it is conveyed or encumbered is executed and acknowledged by both spouses or both domestic partners, except that either spouse or both or either domestic partner or both jointly may make and execute powers of attorney for the conveyance or encumbrance of the homestead. The conveyance or encumbrance of the homestead does not require that any dependent of the owner who is not a spouse or domestic partner execute and acknowledge the instrument by which it is conveyed or encumbered.

Sec. 5. RCW 6.13.070 and 1987 c 442 s 207 are each amended to read as follows:

(1) Except as provided in RCW 6.13.080, the homestead is exempt from attachment and from execution or forced sale for the debts of the owner up to the amount specified in RCW 6.13.030.

(2) In a bankruptcy case, the debtor's exemption shall be determined on the date the bankruptcy petition is filed. If the value of the debtor's interest in homestead property on the petition date is less than or equal to the amount that can be exempted under RCW 6.13.030, then the debtor's entire interest in the property, including the debtor's right to possession and interests of no monetary value, is exempt. Any appreciation in the value of the debtor's exempt interest in the property during the bankruptcy case is also exempt, even if in excess of the amounts in RCW 6.13.030(1).

(3) The proceeds of the voluntary sale of the homestead in good faith for the purpose of acquiring a new homestead, and proceeds from insurance covering destruction of homestead property held for use in restoring or replacing the homestead property, up to the amount specified in RCW 6.13.030, shall likewise be exempt for one year from receipt, and also such new homestead acquired with such proceeds.

~~((2))~~ (4) Every homestead created under this chapter is presumed to be valid to the extent of all the property claimed exempt, until the validity thereof is contested in a court of general jurisdiction in the county or district in which the homestead is situated.

Sec. 6. RCW 6.13.080 and 2019 c 238 s 215 are each amended to read as follows:

The homestead exemption is not available against an execution or forced sale in satisfaction of judgments obtained:

(1) On debts secured by mechanic's, laborer's, construction, maritime, automobile repair, material supplier's, or vendor's liens

NINETY FOURTH DAY, APRIL 14, 2021

arising out of and against the particular property claimed as a homestead;

(2) On debts secured;

(a) ~~((by))~~ By security agreements describing as collateral the property that is claimed as a homestead; or

(b) ~~((by))~~ By mortgages or deeds of trust on the premises that have been executed and acknowledged by both spouses or both domestic partners or by any claimant not married or in a state registered domestic partnership. The execution and acknowledgment of a mortgage or deed of trust by a dependent who is not a spouse or domestic partner is not required;

(3) On one spouse's or one domestic partner's or the community's debts existing at the time of that spouse's or that domestic partner's bankruptcy filing where (a) bankruptcy is filed by both spouses or both domestic partners within a six-month period, other than in a joint case or a case in which their assets are jointly administered, and (b) the other spouse or other domestic partner exempts property from property of the estate under the bankruptcy exemption provisions of 11 U.S.C. Sec. 522(d);

(4) On debts arising from a lawful court order or decree or administrative order establishing a child support obligation or obligation to pay maintenance;

(5) On debts owing to the state of Washington for recovery of medical assistance correctly paid on behalf of an individual consistent with 42 U.S.C. Sec. 1396p;

(6) On debts secured by a condominium, homeowners', or common interest community association's lien; or

(7) On debts owed for taxes collected under chapters 82.08, 82.12, and 82.14 RCW but not remitted to the department of revenue.

Sec. 7. RCW 61.24.100 and 1998 c 295 s 12 are each amended to read as follows:

(1) Except to the extent permitted in this section for deeds of trust securing commercial loans, a deficiency judgment shall not be obtained on the obligations secured by a deed of trust against any borrower, grantor, or guarantor after a trustee's sale under that deed of trust.

(2)(a) Nothing in this chapter precludes an action against any person liable on the obligations secured by a deed of trust or any guarantor prior to a notice of trustee's sale being given pursuant to this chapter or after the discontinuance of the trustee's sale.

(b) No action under (a) of this subsection precludes the beneficiary from commencing a judicial foreclosure or trustee's sale under the deed of trust after the completion or dismissal of that action.

(3) This chapter does not preclude any one or more of the following after a trustee's sale under a deed of trust securing a commercial loan executed after June 11, 1998:

(a)(i) To the extent the fair value of the property sold at the trustee's sale to the beneficiary or an affiliate of the beneficiary is less than the unpaid obligation secured by the deed of trust immediately prior to the trustee's sale, an action for a deficiency judgment against the borrower or grantor, if such person or persons was timely given the notices under RCW 61.24.040, for (A) any decrease in the fair value of the property caused by waste to the property committed by the borrower or grantor, respectively, after the deed of trust is granted, and (B) the wrongful retention of any rents, insurance proceeds, or condemnation awards by the borrower or grantor, respectively, that are otherwise owed to the beneficiary.

(ii) This subsection (3)(a) does not apply to any property that is occupied by the borrower as its principal residence as of the date of the trustee's sale;

(b) Any judicial or nonjudicial foreclosures of any other deeds of trust, mortgages, security agreements, or other security

interests or liens covering any real or personal property granted to secure the obligation that was secured by the deed of trust foreclosed; or

(c) Subject to this section, an action for a deficiency judgment against a guarantor if the guarantor is timely given the notices under RCW 61.24.042.

(4) Any action referred to in subsection (3)(a) and (c) of this section shall be commenced within one year after the date of the trustee's sale, or a later date to which the liable party otherwise agrees in writing with the beneficiary after the notice of foreclosure is given, plus any period during which the action is prohibited by a bankruptcy, insolvency, moratorium, or other similar debtor protection statute. If there occurs more than one trustee's sale under a deed of trust securing a commercial loan or if trustee's sales are made pursuant to two or more deeds of trust securing the same commercial loan, the one-year limitation in this section begins on the date of the last of those trustee's sales.

(5) In any action against a guarantor following a trustee's sale under a deed of trust securing a commercial loan, the guarantor may request the court or other appropriate adjudicator to determine, or the court or other appropriate adjudicator may in its discretion determine, the fair value of the property sold at the sale and the deficiency judgment against the guarantor shall be for an amount equal to the sum of the total amount owed to the beneficiary by the guarantor as of the date of the trustee's sale, less the fair value of the property sold at the trustee's sale or the sale price paid at the trustee's sale, whichever is greater, plus interest on the amount of the deficiency from the date of the trustee's sale at the rate provided in the guaranty, the deed of trust, or in any other contracts evidencing the debt secured by the deed of trust, as applicable, and any costs, expenses, and fees that are provided for in any contract evidencing the guarantor's liability for such a judgment. If any other security is sold to satisfy the same debt prior to the entry of a deficiency judgment against the guarantor, the fair value of that security, as calculated in the manner applicable to the property sold at the trustee's sale, shall be added to the fair value of the property sold at the trustee's sale as of the date that additional security is foreclosed. This section is in lieu of any right any guarantor would otherwise have to establish an upset price pursuant to RCW 61.12.060 prior to a trustee's sale.

(6) A guarantor granting a deed of trust to secure its guaranty of a commercial loan shall be subject to a deficiency judgment following a trustee's sale under that deed of trust only to the extent stated in subsection (3)(a)(i) of this section. If the deed of trust encumbers the guarantor's principal residence, the guarantor shall be entitled to receive an amount up to ~~((the homestead exemption set forth in RCW 6.13.030))~~ \$125,000, without regard to the effect of RCW 6.13.080(2), from the bid at the foreclosure or trustee's sale accepted by the sheriff or trustee prior to the application of the bid to the guarantor's obligation.

(7) A beneficiary's acceptance of a deed in lieu of a trustee's sale under a deed of trust securing a commercial loan exonerates the guarantor from any liability for the debt secured thereby except to the extent the guarantor otherwise agrees as part of the deed in lieu transaction.

(8) This chapter does not preclude a beneficiary from foreclosing a deed of trust in the same manner as a real property mortgage and this section does not apply to such a foreclosure.

(9) Any contract, note, deed of trust, or guaranty may, by its express language, prohibit the recovery of any portion or all of a deficiency after the property encumbered by the deed of trust securing a commercial loan is sold at a trustee's sale.

(10) A trustee's sale under a deed of trust securing a commercial loan does not preclude an action to collect or enforce

any obligation of a borrower or guarantor if that obligation, or the substantial equivalent of that obligation, was not secured by the deed of trust.

(11) Unless the guarantor otherwise agrees, a trustee's sale shall not impair any right or agreement of a guarantor to be reimbursed by a borrower or grantor for a deficiency judgment against the guarantor.

(12) Notwithstanding anything in this section to the contrary, the rights and obligations of any borrower, grantor, and guarantor following a trustee's sale under a deed of trust securing a commercial loan or any guaranty of such a loan executed prior to June 11, 1998, shall be determined in accordance with the laws existing prior to June 11, 1998.

NEW SECTION. **Sec. 8.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

Correct the title.

INTRODUCTION AND FIRST READING

SJM 8005 by Senators Liias, Kuderer, Hunt and Wellman
Concerning statehood for Washington, D.C.

Referred to Committee on State Government & Elections.

MOTIONS

On motion of Senator Liias, all measures listed on the Introduction and First Reading report were referred to the committees as designated.

At 1:10 p.m., on motion of Senator Liias, the Senate was declared to be at ease subject to the call of the President.

Senator Hasegawa announced a meeting of the Democratic Caucus.

Senator Rivers announced a meeting of the Republican Caucus.

The Senate was called to order at 3:18 p.m. by President Heck.

PERSONAL PRIVILEGE

Senator Liias: "Yes, Thank you Mr. President. It is my sad duty to inform our friends here in the Senate the passing of my predecessor in the Senate, Senator Paull Shin. Describing him as my predecessor doesn't capture all that Paull was to me. He was a friend and a mentor. Someone who helped guide our community. He also was an incredible trailblazer in his own life. He was an orphan, left abandoned by his parents on the streets of Korea during the Korean War, who was adopted by a G.I. who was serving in Korea and brought him here to the United States. And, Paull would share the simple phrase that his life was, he first learned his ABCs, then he got his GED, and then he got his Ph.D. He embodied the American dream in his own career. And throughout his life, faced so much challenge and hardship. When Paull and Donna met, they actually couldn't get married in the state that they fell in love in because of anti-miscegenation laws that were on the books. So, all throughout his life overcoming obstacle after obstacle after obstacle, ending up as the first Korean American here in the Senate. And I take special privilege in having the opportunity to follow in Paull's footsteps. I actually, the 2014 session would have been Paull's last, and he had to leave

us early because of illness, and I filled his final term. And, Paull taught me, and he used the phrase a lot with our constituents, that his service in the Legislature was payback time for all that our country had given him. And when I think about the opportunity to fill that final year of Paull's term, to me that was payback time to my friend for all that he had given to our community. It's incredibly difficult but on behalf of the Senate and all of our colleagues, we express our sadness to Donna, and to the Shin family, to the community who loved him so much. And Mr. President, I will long remember his contributions he made here and am eternally grateful for the opportunity to follow in his footsteps and serve alongside him and learn from him on this journey."

REMARKS BY THE PRESIDENT

President Heck: "Thank you Senator Liias, very well said. The President would like to note that he knew Senator Shin. He was a friend. He was a good Senator in every meaning of that phrase. And he was a good man. Thank you again Senator Liias.

MOTION

On motion of Senator Nguyen, the Senate reverted to the fourth order of business.

MR. PRESIDENT:

The House passed SUBSTITUTE SENATE BILL NO. 5381 with the following amendment(s): 5381-S AMH ENVI H1302.1

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 77.55.181 and 2020 c 166 s 1 are each amended to read as follows:

(1)(a) In order to receive the permit review and approval process created in this section, a fish habitat enhancement project must meet the criteria under this section and must be a project to accomplish one or more of the following tasks:

(i) Elimination of human-made or caused fish passage barriers, including:

(A) Culvert repair and replacement; and

(B) Fish passage barrier removal projects that comply with the forest practices rules, as the term "forest practices rules" is defined in RCW 76.09.020;

(ii) Restoration of an eroded or unstable stream bank employing the principle of bioengineering, including limited use of rock as a stabilization only at the toe of the bank, and with primary emphasis on using native vegetation to control the erosive forces of flowing water;

(iii) Placement of woody debris or other instream structures that benefit naturally reproducing fish stocks; or

(iv) Restoration of native kelp and eelgrass beds and restoring native oysters.

(b) The department shall develop size or scale threshold tests to determine if projects accomplishing any of these tasks should be evaluated under the process created in this section or under other project review and approval processes. A project proposal shall not be reviewed under the process created in this section if the department determines that the scale of the project raises concerns regarding public health and safety.

(c) A fish habitat enhancement project must be approved in one of the following ways in order to receive the permit review and approval process created in this section:

(i) By the department pursuant to chapter 77.95 or 77.100 RCW;

(ii) By the sponsor of a watershed restoration plan as provided in chapter 89.08 RCW;

(iii) By the department as a department-sponsored fish habitat enhancement or restoration project;

(iv) Through the review and approval process for the jobs for the environment program;

(v) By conservation districts as conservation district-sponsored fish habitat enhancement or restoration projects;

(vi) Through a formal grant program established by the legislature or the department for fish habitat enhancement or restoration;

(vii) By federally recognized tribes as tribally sponsored fish habitat enhancement projects or restoration projects;

(viii) Through the department of transportation's environmental retrofit program as a stand-alone fish passage barrier correction project, or the fish passage barrier correction portion of a larger transportation project;

~~((viii))~~ (ix) Through a local, state, or federally approved fish barrier removal grant program designed to assist local governments in implementing stand-alone fish passage barrier corrections;

~~((ix))~~ (x) By a city or county for a stand-alone fish passage barrier correction project funded by the city or county;

~~((x))~~ (xi) Through the approval process established for forest practices hydraulic projects in chapter 76.09 RCW; or

~~((xi))~~ (xii) Through other formal review and approval processes established by the legislature.

(2) Fish habitat enhancement projects meeting the criteria of subsection (1) of this section are expected to result in beneficial impacts to the environment. Decisions pertaining to fish habitat enhancement projects meeting the criteria of subsection (1) of this section and being reviewed and approved according to the provisions of this section are not subject to the requirements of RCW 43.21C.030(2)(c).

(3)(a) A permit is required for projects that meet the criteria of subsection (1) of this section and are being reviewed and approved under this section. An applicant shall use a joint aquatic resource permit application form developed by the office of regulatory assistance to apply for approval under this chapter. The department of transportation shall use the department's online permit application system or a joint aquatic resource permit application form developed by the office of regulatory assistance to apply for approval under this chapter. On the same day, the applicant shall provide copies of the completed application form to the department and to each appropriate local government. Applicants for a forest practices hydraulic project that are not otherwise required to submit a joint aquatic resource permit application must submit a copy of their forest practices application to the appropriate local government on the same day that they submit the forest practices application to the department of natural resources.

(b) Local governments shall accept the application identified in this section as notice of the proposed project. A local government shall be provided with a ~~((fifteen-day))~~ 15-day comment period during which it may transmit comments regarding environmental impacts to the department or, for forest practices hydraulic projects, to the department of natural resources.

~~(c)(i)~~ (c)(i) Except for forest practices hydraulic projects, the department shall, within 45 days, either issue a permit, with or without conditions, deny approval, or make a determination that

the review and approval process created by this section is not appropriate for the proposed project (~~within forty five days~~). The department shall base this determination on identification during the comment period of adverse impacts that cannot be mitigated by the conditioning of a permit. Permitting decisions over forest practices hydraulic approvals must be made consistent with chapter 76.09 RCW.

(ii) For department of transportation fish passage barrier correction projects, the department of fish and wildlife shall, within 30 days, either issue a permit, with or without conditions, deny approval, or make a determination that the review and approval process created by this section is not appropriate for the proposed project.

(d) If the department determines that the review and approval process created by this section is not appropriate for the proposed project, the department shall notify the applicant and the appropriate local governments of its determination. The applicant may reapply for approval of the project under other review and approval processes.

(e) Any person aggrieved by the approval, denial, conditioning, or modification of a permit other than a forest practices hydraulic project under this section may appeal the decision as provided in RCW 77.55.021(8). Appeals of a forest practices hydraulic project may be made as provided in chapter 76.09 RCW.

(4) No local government may require permits or charge fees for fish habitat enhancement projects that meet the criteria of subsection (1) of this section and that are reviewed and approved according to the provisions of this section, except that, pursuant to chapter 86.16 RCW, a local government may impose such requirements, or charge such fees, or both, only as may be necessary in order for the local government to administer the national flood insurance program regulation requirements.

(5) No civil liability may be imposed by any court on the state or its officers and employees for any adverse impacts resulting from a fish enhancement project permitted by the department or the department of natural resources under the criteria of this section except upon proof of gross negligence or willful or wanton misconduct.

Sec. 2. RCW 90.58.147 and 2019 c 150 s 2 are each amended to read as follows:

(1) A public or private project that is designed to improve fish or wildlife habitat or fish passage shall be exempt from the substantial development permit requirements of this chapter when all of the following apply:

(a) The project has been approved by the department of fish and wildlife or, for forest practices hydraulic projects within the scope of RCW 77.55.181, the department of natural resources if the local government notification provisions of RCW 77.55.181 are satisfied;

(b) The project has received hydraulic project approval by the department of fish and wildlife pursuant to chapter 77.55 RCW or approval of a forest practices hydraulic project within the scope of RCW 77.55.181 from the department of natural resources if the local government notification provisions of RCW 77.55.181 are satisfied; and

(c) The local government has determined that the project is substantially consistent with the local shoreline master program. The local government shall make such determination in a timely manner and provide it by letter to the project proponent.

(2) Fish habitat enhancement projects that conform to the provisions of RCW 77.55.181 are determined to be consistent with local shoreline master programs.

(3) Public projects for the primary purpose of fish passage improvement or fish passage barrier removal are exempt from the substantial development permit requirements of this chapter.

Sec. 3. RCW 47.85.020 and 2015 3rd sp.s. c 17 s 3 are each amended to read as follows:

The department must streamline the permitting process by developing and maintaining positive relationships with the regulatory agencies and the Indian tribes. The department can reduce the time it takes to obtain permits by incorporating impact avoidance and minimization measures into project design and by developing complete permit applications. To streamline the permitting process, the department must:

(1) Implement a multiagency permit program, commensurate with program funding levels, consisting of appropriate regulatory agency staff with oversight and management from the department.

(a) The multiagency permit program must provide early project coordination, expedited project review, project status updates, technical and regulatory guidance, and construction support to ensure compliance.

(b) The multiagency permit program staff must assist department project teams with developing complete biological assessments and permit applications, provide suggestions for how the project can avoid and minimize impacts, and provide input regarding mitigation for unavoidable impacts;

(2) Establish, implement, and maintain programmatic agreements and permits with federal and state agencies to expedite the process of ensuring compliance with the endangered species act, section 106 of the national historic preservation act, hydraulic project approvals, the clean water act, and other federal acts as appropriate;

(3) Collaborate with permitting staff from the United States army corps of engineers, Seattle district, department of ecology, and department of fish and wildlife to develop, implement, and maintain complete permit application guidance. The guidance must identify the information that is required for agencies to consider a permit application complete; ~~(and)~~

(4) Perform internal quality assurance and quality control to ensure that permit applications are complete before submitting them to the regulatory agencies; and

(5) Implement a multiagency effort, in coordination with the department of ecology and the department of fish and wildlife, and work with the relevant federal environmental permitting agencies to streamline the acquisition of commonly needed environmental permits and approvals for department of transportation fish passage barrier correction projects. Expected results include developing programmatic permit options that simplify the application process, reduce paperwork, and reduce the amount of time and cost it takes to acquire these permits and approvals."

(1) The Washington advanced college tuition payment program shall be administered by the committee on advanced tuition payment which shall be chaired by the director of the office. The committee shall be supported by staff of the office.

(2)(a) The Washington advanced college tuition payment program shall consist of the sale of tuition units, which may be redeemed by the beneficiary at a future date for an equal number of tuition units regardless of any increase in the price of tuition, that may have occurred in the interval, except as provided in subsections ~~((7))~~ (9) and ~~((8))~~ (10) of this section.

(b) Each purchase shall be worth a specific number of or fraction of tuition units at each state institution of higher education as determined by the governing body, except as provided in subsections ~~((7))~~ (9) and ~~((8))~~ (10) of this section.

(c) The number of tuition units necessary to pay for a full year's, full-time undergraduate tuition and fee charges at a state

NINETY FIFTH DAY, APRIL 15, 2021

2021 REGULAR SESSION

institution of higher education shall be set by the governing body at the time a purchaser enters into a tuition unit contract, except as provided in subsections ~~((7))~~ (9) and ~~((8))~~ (10) of this section.

(d) The governing body may limit the number of tuition units purchased by any one purchaser or on behalf of any one beneficiary, however, no limit may be imposed that is less than that necessary to achieve four years of full-time, undergraduate tuition charges at a state institution of higher education. The governing body also may, at its discretion, limit the number of participants, if needed, to ensure the actuarial soundness and integrity of the program.

(e) While the Washington advanced college tuition payment program is designed to help all citizens of the state of Washington, the governing body may determine residency requirements for eligible purchasers and eligible beneficiaries to ensure the actuarial soundness and integrity of the program.

(3)(a) No tuition unit may be redeemed until two years after the purchase of the unit.

(b) Units may be redeemed for enrollment at any institution of higher education that is recognized by the internal revenue service under chapter 529 of the internal revenue code. Units may also be redeemed to pay for dual credit fees.

(c) Units redeemed at a nonstate institution of higher education or for graduate enrollment shall be redeemed at the rate for state public institutions in effect at the time of redemption.

(4) The governing body shall determine the conditions under which the tuition benefit may be transferred to another family member. In permitting such transfers, the governing body may not allow the tuition benefit to be bought, sold, bartered, or otherwise exchanged for goods and services by either the beneficiary or the purchaser.

(5) The governing body shall administer the Washington advanced college tuition payment program in a manner reasonably designed to be actuarially sound, such that the assets of the trust will be sufficient to defray the obligations of the trust including the costs of administration. The governing body may, at its discretion, discount the minimum purchase price for certain kinds of purchases such as those from families with young children, as long as the actuarial soundness of the account is not jeopardized.

(6) The governing body shall annually determine current value of a tuition unit.

(7) The governing body shall adopt a unit price of no more than 10 percent, including administrative fees, above the current unit payout value if:

(a) The best estimate funded status of the program provided by the state actuary is in excess of at least 120 percent as of July 1st of each year; and

(b) Tuition and fee increases for the academic year immediately following the July 1st best estimate funded status will be no more than the average annual percentage growth rate in the median hourly wage for Washington for the previous 14 years as the wage is determined by the federal bureau of labor statistics.

(8) For units purchased at the 2020-21 unit price, the governing body shall grant additional units to each account holder equivalent to the difference between the 2020-21 unit price and the 2020-21 unit payout value, after adjusting the unit payout value 10 percent above the current price, including administrative fees, as determined by the governing body.

(9) For the 2015-16 and 2016-17 academic years only, the governing body shall set the payout value for units redeemed during that academic year only at one hundred seventeen dollars and eighty-two cents per unit. For academic years after the 2016-

17 academic year, the governing body shall make program adjustments it deems necessary and appropriate to ensure that the total payout value of each account on October 9, 2015, is not decreased or diluted as a result of the initial application of any changes in tuition under section 3, chapter 36, Laws of 2015 3rd sp. sess. In the event the committee or governing body provides additional units under chapter 36, Laws of 2015 3rd sp. sess., the committee and governing body shall also increase the maximum number of units that can be redeemed in any year to mitigate the reduction in available account value during any year as a result of chapter 36, Laws of 2015 3rd sp. sess. The governing body must notify holders of tuition units after the adjustment in this subsection is made and must include a statement concerning the adjustment.

~~((8))~~ (10) The governing body shall allow account owners who purchased units before July 1, 2015, to redeem such units at the unit cash value price provided that all the redeemed funds are deposited immediately into an eligible Washington college savings program account established by the governing body. Within ninety days of April 15, 2018, the committee, in consultation with the state actuary and state investment board, shall:

(a) Establish a period that is not less than ninety days during which eligible purchasers may redeem units at the unit cash value price for the purposes of this subsection and provide at least thirty days' notice prior to the ninety-day window to all eligible account holders about the redemption option; and

(b) Establish the unit cash value price. The committee, in consultation with the state actuary and the state investment board, may revalue the unit cash value price established in this subsection ~~((8))~~ (10)(b) up to three times during the ninety-day period in which eligible purchasers may redeem units for the unit cash value price.

~~((9))~~ (11)(a) After the governing body completes the requirements of subsection ~~((8))~~ (10) of this section, the governing body shall adjust, by March 1, 2019, all remaining unredeemed units purchased before July 1, 2015, as follows:

(i) First, the governing body shall take the difference between the average unit purchase price in each individual's account and the 2016-17 unit payout value and increase the number of units in each individual's account by a number of units of equivalent total value at the 2017-18 unit purchase price, if the average unit purchase price is more than the 2016-17 unit payout value; and

(ii) Second, after (a)(i) of this subsection is completed, the governing body, with assistance from the state actuary, shall grant an additional number of units to each account holder with unredeemed and purchased units before July 1, 2015, in order to lower the best-estimate funded status of the program to one hundred twenty-five percent, subject to a limit of an increase of fifteen percent of unredeemed and purchased units per account holder. The state actuary shall select the measurement date, assumptions, and methods necessary to perform an actuarial measurement consistent with the purpose of this subsection.

(b) For the purpose of this subsection ~~((9))~~ (11), and for account holders with uncompleted custom monthly contracts, the governing body shall only include purchased and unredeemed units before July 1, 2015.

~~((4))~~ (12) The governing body shall collect an amortization fee as a component of each future unit sold whenever the governing body determines amortization fees are necessary to increase the best-estimate funded status of the program.

~~((1))~~ (13) The governing body shall promote, advertise, and publicize the Washington advanced college tuition payment program. Materials and online publications advertising the Washington advanced college tuition payment program shall

MESSAGE FROM THE HOUSE

April 7, 2021

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5295 with the following amendment(s): 5295-S.E AMH ENGR H1406.E

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) To provide clarity and certainty to stakeholders on the details of performance-based regulation, the utilities and transportation commission is directed to conduct a proceeding to develop a policy statement addressing alternatives to traditional cost of service rate making, including performance measures or goals, targets, performance incentives, and penalty mechanisms. As part of such a proceeding, the utilities and transportation commission must consider factors including, but not limited to, lowest reasonable cost planning, affordability, increases in energy burden, cost of service, customer satisfaction and engagement, service reliability, clean energy or renewable procurement, conservation acquisition, demand side management expansion, rate stability, timely

execution of competitive procurement practices, attainment of state energy and emissions reduction policies, rapid integration of renewable energy resources, and fair compensation of utility employees.

(2) In developing its policy statement, the utilities and transportation commission must in its proceeding allow for participation and consultation with regulated utilities, the attorney general's office, and other interested stakeholders including, but not limited to, residential, industrial, commercial, and low-income customers and organizations, as well as environmental or community organizations and stakeholders.

(3) By January 1, 2022, the utilities and transportation commission shall notify the chairs and ranking members of the appropriate committees of the legislature of the process to date, the expected duration of, and work plan associated with this proceeding.

NEW SECTION. Sec. 2. A new section is added to chapter 80.28 RCW to read as follows:

(1) Beginning January 1, 2022, every general rate case filing of a gas or electrical company must include a proposal for a multiyear rate plan as provided in this chapter. The commission may, by order after an adjudicative proceeding as provided by chapter 34.05 RCW, approve, approve with conditions, or reject, a multiyear rate plan proposal made by a gas or electrical company or an alternative proposal made by one or more parties, or any combination thereof. The commission's consideration of a proposal for a multiyear rate plan is subject to the same standards applicable to other rate filings made under this title, including the public interest and fair, just, reasonable, and sufficient rates. In determining the public interest, the commission may consider such factors including, but not limited to, environmental health and greenhouse gas emissions reductions, health and safety concerns, economic development, and equity, to the extent such factors affect the rates, services, and practices of a gas or electrical company regulated by the commission.

(2) The commission may approve, disapprove, or approve with modifications any proposal to recover from ratepayers up to five percent of the total revenue requirement approved by the commission for each year of a multiyear rate plan for tariffs that reduce the energy burden of low-income residential customers including, but not limited to: (a) Bill assistance programs; or (b) one or more special rates. For any multiyear rate plan approved under this section resulting in a rate increase, the commission must approve an increase in the amount of low-income bill assistance to take effect in each year of the rate plan where there is a rate increase. At a minimum, the amount of such low-income assistance increase must be equal to double the percentage increase, if any, in the residential base rates approved for each year of the rate plan. The commission may approve a larger increase to low-income bill assistance based on an appropriate record.

(3)(a) If it approves a multiyear rate plan, the commission shall separately approve rates for each of the initial rate year, the second rate year and, if applicable, the third rate year, and the fourth rate year.

(b) The commission shall ascertain and determine the fair value for rate-making purposes of the property of any gas or electrical company that is or will be used and useful under RCW 80.04.250 for service in this state by or during each rate year of the multiyear rate plan. For the initial rate year, the commission shall, at a minimum, ascertain and determine the fair value for rate-making purposes of the property of any gas or electrical company that is used and useful for service in this state as of the rate effective date. The commission may order refunds to customers if property expected to be used and useful by the rate effective date when the

commission approves a multiyear rate plan is in fact not used and useful by such a date.

(c) The commission shall ascertain and determine the revenues and operating expenses for rate-making purposes of any gas or electrical company for each rate year of the multiyear rate plan.

(d) In ascertaining and determining the fair value of property of a gas or electrical company pursuant to (b) of this subsection and projecting the revenues and operating expenses of a gas or electrical company pursuant to (c) of this subsection, the commission may use any standard, formula, method, or theory of valuation reasonably calculated to arrive at fair, just, reasonable, and sufficient rates.

(e) If the commission approves a multiyear rate plan with a duration of three or four years, then the electrical company must update its power costs as of the rate effective date of the third rate year. The proceeding to update the electrical company's power costs is subject to the same standards that apply to other rate filings made under this title.

(4) Subject to subsection (5) of this section, the commission may by order establish terms, conditions, and procedures for a multiyear rate plan and ensure that rates remain fair, just, reasonable, and sufficient during the course of the plan.

(5) Notwithstanding subsection (4) of this section, a gas or electrical company is bound by the terms of the multiyear rate plan approved by the commission for each of the initial rate year and the second rate year. A gas or electrical company may file a new multiyear rate plan in accordance with this section for the third rate year and fourth rate year, if any, of a multiyear rate plan.

(6) If the annual commission basis report for a gas or electrical company demonstrates that the reported rate of return on rate base of the company for the 12-month period ending as of the end of the period for which the annual commission basis report is filed is more than .5 percent higher than the rate of return authorized by the commission in the multiyear rate plan for such a company, the company shall defer all revenues that are in excess of .5 percent higher than the rate of return authorized by the commission for refunds to customers or another determination by the commission in a subsequent adjudicative proceeding. If a multistate electrical company with fewer than 250,000 customers in Washington files a multiyear rate plan that provides for no increases in base rates in consecutive years beyond the initial rate year, the commission shall waive the requirements of this subsection provided that such a waiver results in just and reasonable rates.

(7) The commission must, in approving a multiyear rate plan, determine a set of performance measures that will be used to assess a gas or electrical company operating under a multiyear rate plan. These performance measures may be based on proposals made by the gas or electrical company in its initial application, by any other party to the proceeding in its response to the company's filing, or in the testimony and evidence admitted in the proceeding. In developing performance measures, incentives, and penalty mechanisms, the commission may consider factors including, but not limited to, lowest reasonable cost planning, affordability, increases in energy burden, cost of service, customer satisfaction and engagement, service reliability, clean energy or renewable procurement, conservation acquisition, demand side management expansion, rate stability, timely execution of competitive procurement practices, attainment of state energy and emissions reduction policies, rapid integration of renewable energy resources, and fair compensation of utility employees.

(8) Nothing in this section precludes any gas or electrical company from making filings required or permitted by the commission.

NINETY FIFTH DAY, APRIL 15, 2021

2021 REGULAR SESSION

(9) The commission shall align, to the extent practical, the timing of approval of a multiyear rate plan of an electrical company submitted pursuant to this section with the clean energy implementation plan of the electrical company filed pursuant to RCW 19.405.060.

(10) The provisions of this section may not be construed to limit the existing rate-making authority of the commission.

Sec. 3. RCW 80.28.068 and 2009 c 32 s 1 are each amended to read as follows:

~~((Upon))~~ (1) Upon its own motion, or upon request by an electrical or gas company, or other party to a general rate case hearing, or other proceeding to set rates, the commission may approve rates, charges, services, and/or physical facilities at a discount, or through grants, for low-income senior customers and low-income customers. Expenses and lost revenues as a result of these discounts, grants, or other low-income assistance programs shall be included in the company's cost of service and recovered in rates to other customers. Each gas or electrical company must propose a low-income assistance program comprised of a discount rate for low-income senior customers and low-income customers as well as grants and other low-income assistance programs. The commission shall approve, disapprove, or approve with modifications each gas or electrical company's low-income assistance discount rate and grant program. The gas or electrical company must use reasonable and good faith efforts to seek approval for low-income program design, eligibility, operation, outreach, and funding proposals from its low-income and equity advisory groups in advance of filing such proposals with the commission. In order to remove barriers and to expedite assistance, low-income discounts or grants approved under this section must be provided in coordination with community-based organizations in the gas or electrical company's service territory including, but not limited to, grantees of the department of commerce, community action agencies, and community-based nonprofit organizations. Nothing in this section may be construed as limiting the commission's authority to approve or modify tariffs authorizing low-income discounts or grants.

(2) Eligibility for a low-income discount rate or grant established in this section may be established upon verification of a low-income customer's receipt of any means-tested public benefit, or verification of eligibility for the low-income home energy assistance program, or its successor program, for which eligibility does not exceed the low-income definition set by the commission pursuant to RCW 19.405.020. The public benefits may include, but are not limited to, assistance that provides cash, housing, food, or medical care including, but not limited to, temporary assistance for needy families, supplemental security income, emergency assistance to elders, disabled, and children, supplemental nutrition assistance program benefits, public housing, federally subsidized or state-subsidized housing, the low-income home energy assistance program, veterans' benefits, and similar benefits.

(3) Each gas or electrical company shall conduct substantial outreach efforts to make the low-income discounts or grants available to eligible customers and must provide annual reports to the commission as to the gas or electrical company's outreach activities and results. Such outreach: (a) Shall be made at least semiannually to inform customers of available rebates, discounts, credits, and other cost-saving mechanisms that can help them lower their monthly bills for gas or electrical service; and (b) may be in the form of any customary and usual methods of communication or distribution including, without limitation, widely broadcast communications with customers, direct mailing, telephone calls, electronic communications, social media postings, in-person contacts, websites of the gas or electrical

company, press releases, and print and electronic media, that are designed to increase access to and participation in bill assistance programs.

(4) Outreach may include establishing an automated program of matching customer accounts with lists of recipients of the means-tested public benefit programs and, based on the results of the matching program, to presumptively offer a low-income discount rate or grant to eligible customers so identified. However, the gas or electrical company must within 60 days of the presumptive enrollment inform such a low-income customer of the presumptive enrollment and all rights and obligations of a customer under the program, including the right to withdraw from the program without penalty.

(5) A residential customer eligible for a low-income discount rate must receive the service on demand.

(6) A residential customer may not be charged for initiating or terminating low-income discount rates, grants, or any other form of energy assistance.

(7) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Energy burden" has the same meaning as defined in RCW 19.405.020.

(b) "Low-income" has the same meaning as defined in RCW 19.405.020.

(c) "Physical facilities" includes, but may not be limited to, a community solar project as defined in RCW 80.28.370.

NEW SECTION. Sec. 4. A new section is added to chapter 80.28 RCW to read as follows:

(1) A gas company or electrical company shall, upon request, enter into one or more written agreements with organizations that represent broad customer interests in regulatory proceedings conducted by the commission, subject to commission approval in accordance with subsection (2) of this section, including but not limited to organizations representing low-income, commercial, and industrial customers, vulnerable populations, or highly impacted communities. The agreement must govern the manner in which financial assistance may be provided to the organization. More than one gas company, electrical company, or organization representing customer interests may join in a single agreement. Any agreement entered into under this section must be approved, approved with modifications, or rejected by the commission. The commission must consider whether the agreement is consistent with a reasonable allocation of financial assistance provided to organizations pursuant to this section among classes of customers of the gas or electrical company.

(2) Before administering an agreement entered into under subsection (1) of this section, the commission shall, by rule or order, determine:

(a) The amount of financial assistance, if any, that may be provided to any organization;

(b) The manner in which the financial assistance is distributed;

(c) The manner in which the financial assistance is recovered in the rates of the gas company or electrical company under subsection (3) of this section; and

(d) Other matters necessary to administer the agreement.

(3) The commission shall allow a gas company or electrical company that provides financial assistance under this section to recover the amounts provided in rates. The commission shall allow a gas company or electrical company to defer inclusion of those amounts in rates if the gas company or electrical company so elects. An agreement under this section may not provide for payment of any amounts to the commission.

(4) Organizations representing vulnerable populations or highly impacted communities must be prioritized for funding under this section.

Sec. 5. RCW 80.28.074 and 1988 c 166 s 1 are each amended to read as follows:

The legislature declares it is the policy of the state to:

- (1) Preserve affordable (~~((natural gas and electric))~~) energy services to the residents of the state;
- (2) Maintain and advance the efficiency and availability of (~~((natural gas and electric))~~) energy services to the residents of the state of Washington;
- (3) Ensure that customers pay only reasonable charges for (~~((natural gas and electric service))~~) energy services;
- (4) Permit flexible pricing of (~~((natural gas and electric))~~) energy services.

NEW SECTION. Sec. 6. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

MESSAGE FROM THE HOUSE

April 5, 2021

MR. PRESIDENT:

The House passed SENATE BILL NO. 5299 with the following amendment(s): 5299 AMH ED H1398.1

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 28A.230.300 and 2019 c 180 s 2 are each amended to read as follows:

(1) Beginning no later than the 2022-23 school year, each school district that operates a high school must, at a minimum, provide an opportunity to access an elective computer science course that is available to all high school students. School districts are encouraged to consider community-based or public-private partnerships in establishing and administering a course, but any course offered in accordance with this section must be aligned to the state learning standards for computer science or mathematics.

(2) In accordance with the requirements of this section, beginning in the 2019-20 school year, school districts may award academic credit for computer science to students based on student completion of a competency examination that is aligned with the state learning standards for computer science or mathematics and course equivalency requirements adopted by the office of the superintendent of public instruction to implement this section. Each school district board of directors in districts that award credit under this subsection shall develop a written policy for awarding such credit that includes:

- (a) A course equivalency approval procedure;
- (b) Procedures for awarding competency-based credit for skills learned partially or wholly outside of a course; and
- (c) An approval process for computer science courses taken before attending high school under RCW 28A.230.090 (4) and (5).

(3) Prior to the use of any competency examination under this section that may be used to award academic credit to students, the office of the superintendent of public instruction must review the examination to ensure its alignment with:

(a) The state learning standards for computer science or mathematics; and

(b) Course equivalency requirements adopted by the office of the superintendent of public instruction to implement this section.

(4)(a) For purposes of meeting graduation requirements under RCW 28A.230.090, a student may substitute a computer science course aligned to state computer science learning standards as an alternative to a third year mathematics or third year science course if:

(i) Prior to the substitution, the school counselor provides the student and the student's parent or guardian with written notification of the consequences of the substitution on postsecondary opportunities;

(ii) The student, the student's parent or guardian, and the student's school counselor or principal agree to the substitution; and

(iii) The substitution is aligned with the student's high school and beyond plan.

(b) A substitution permitted under this subsection (4) may only be used once per student.

Sec. 2. RCW 28A.230.090 and 2020 c 307 s 6 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and 28A.655.250 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of

2021 REGULAR SESSION

the American Indian peoples who were the first inhabitants of the state.

(b) Except as provided otherwise in this subsection, the certificate of academic achievement requirements under RCW 28A.655.061 or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation. The requirement to earn a certificate of academic achievement to qualify for graduation from a public high school concludes with the graduating class of 2019. The obligation of qualifying students to earn a certificate of individual achievement as a prerequisite for graduation from a public high school concludes with the graduating class of 2021.

(c)(i) Each student must have a high school and beyond plan to guide the student's high school experience and inform course taking that is aligned with the student's goals for education or training and career after high school.

(ii)(A) A high school and beyond plan must be initiated for each student during the seventh or eighth grade. In preparation for initiating that plan, each student must first be administered a career interest and skills inventory.

(B) For students with an individualized education program, the high school and beyond plan must be developed in alignment with their individualized education program. The high school and beyond plan must be developed in a similar manner and with similar school personnel as for all other students.

(iii)(A) The high school and beyond plan must be updated to reflect high school assessment results in RCW 28A.655.070(3)(b) and to review transcripts, assess progress toward identified goals, and revised as necessary for changing interests, goals, and needs. The plan must identify available interventions and academic support, courses, or both, that are designed for students who are not on track to graduate, to enable them to fulfill high school graduation requirements. Each student's high school and beyond plan must be updated to inform junior year course taking.

(B) For students with an individualized education program, the high school and beyond plan must be updated in alignment with their school to postschool transition plan. The high school and beyond plan must be updated in a similar manner and with similar school personnel as for all other students.

(iv) School districts are encouraged to involve parents and guardians in the process of developing and updating the high school and beyond plan, and the plan must be provided to the students' parents or guardians in their native language if that language is one of the two most frequently spoken non-English languages of students in the district. Nothing in this subsection (1)(c)(iv) prevents districts from providing high school and beyond plans to parents and guardians in additional languages that are not required by this subsection.

(v) All high school and beyond plans must, at a minimum, include the following elements:

(A) Identification of career goals, aided by a skills and interest assessment;

(B) Identification of educational goals;

(C) Identification of dual credit programs and the opportunities they create for students, including eligibility for automatic enrollment in advanced classes under RCW 28A.320.195, career and technical education programs, running start programs, AP courses, international baccalaureate programs, and college in the high school programs;

(D) Information about the college bound scholarship program established in chapter 28B.118 RCW;

(E) A four-year plan for course taking that:

(I) Includes information about options for satisfying state and local graduation requirements;

(II) Satisfies state and local graduation requirements;

(III) Aligns with the student's secondary and postsecondary goals, which can include education, training, and career;

(IV) Identifies course sequences to inform academic acceleration, as described in RCW 28A.320.195 that include dual credit courses or programs and are aligned with the student's goals; and

(V) Includes information about the college bound scholarship program, the Washington college grant, and other scholarship opportunities;

(F) Evidence that the student has received the following information on federal and state financial aid programs that help pay for the costs of a postsecondary program:

(I) Information about the documentation necessary for completing the applications; application timeliness and submission deadlines; the importance of submitting applications early; information specific to students who are or have been in foster care; information specific to students who are, or are at risk of being, homeless; information specific to students whose family member or guardians will be required to provide financial and tax information necessary to complete applications; and

(II) Opportunities to participate in sessions that assist students and, when necessary, their family members or guardians, fill out financial aid applications; and

(G) By the end of the twelfth grade, a current resume or activity log that provides a written compilation of the student's education, any work experience, and any community service and how the school district has recognized the community service pursuant to RCW 28A.320.193.

(d) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level. Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation. A district may establish additional, local requirements for a high school and beyond plan to serve the needs and interests of its students and the purposes of this section.

(e)(i) The state board of education shall adopt rules to implement the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019 or as otherwise provided in this subsection (1)(e). The rules must include authorization for a school district to waive up to two credits for individual students based on a student's circumstances, provided that none of the waived credits are identified as mandatory core credits by the state board of education. School districts must adhere to written policies authorizing the waivers that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student's interests and high school and beyond plan with agreement of the student's parent or guardian or agreement of the school counselor or principal, or as provided in RCW 28A.230.300(4).

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)(e) to an

applying school district at the next subsequent meeting of the board after receiving an application.

(iii) A school district must update the high school and beyond plans for each student who has not earned a score of level 3 or level 4 on the middle school mathematics assessment identified in RCW 28A.655.070 by ninth grade, to ensure that the student takes a mathematics course in both ninth and tenth grades. This course may include career and technical education equivalencies in mathematics adopted pursuant to RCW 28A.230.097.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements.

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) Unless requested otherwise by the student and the student's family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit."

MESSAGE FROM THE HOUSE

March 24, 2021

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5229 with the following amendment(s): 5229-S.E AMH HCW H1297.1

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** The legislature finds that:

(1) Healthy Washingtonians contribute to the economic and social welfare of their families and communities, and access to health services and improved health outcomes allows all Washington families to enjoy productive and satisfying lives;

(2) The COVID-19 pandemic has further exposed that health outcomes are experienced differently by different people based on discrimination and bias by the health care system. Research shows that health care resources are distributed unevenly by intersectional categories including, but not limited to, race, gender, ability status, religion, sexual orientation, socioeconomic status, and geography; and

(3) These inequities have permeated health care delivery, deepening adverse outcomes for marginalized communities. This bill aims to equip health care workers with the skills to recognize and reduce these inequities in their daily work. In addition to their

NINETY FIFTH DAY, APRIL 15, 2021

2021 REGULAR SESSION

individual impact, health care workers need the skills to address systemic racism and bias.

NEW SECTION. Sec. 2. A new section is added to chapter 43.70 RCW to read as follows:

(1) By January 1, 2024, the rule-making authority for each health profession licensed under Title 18 RCW subject to continuing education requirements must adopt rules requiring a licensee to complete health equity continuing education training at least once every four years.

(2) Health equity continuing education courses may be taken in addition to or, if a rule-making authority determines the course fulfills existing continuing education requirements, in place of other continuing education requirements imposed by the rule-making authority.

(3)(a) The secretary and the rule-making authorities must work collaboratively to provide information to licensees about available courses. The secretary and rule-making authorities shall consult with patients or communities with lived experiences of health inequities or racism in the health care system and relevant professional organizations when developing the information and must make this information available by July 1, 2023. The information should include a course option that is free of charge to licensees. It is not required that courses be included in the information in order to fulfill the health equity continuing education requirement.

(b) By January 1, 2023, the department, in consultation with the boards and commissions, shall adopt model rules establishing the minimum standards for continuing education programs meeting the requirements of this section. The department shall consult with patients or communities with lived experience of health inequities or racism in the health care system, relevant professional organizations, and the rule-making authorities in the development of these rules.

(c) The minimum standards must include instruction on skills to address the structural factors, such as bias, racism, and poverty, that manifest as health inequities. These skills include individual-level and system-level intervention, and self-reflection to assess how the licensee's social position can influence their relationship with patients and their communities. These skills enable a health care professional to care effectively for patients from diverse cultures, groups, and communities, varying in race, ethnicity, gender identity, sexuality, religion, age, ability, socioeconomic status, and other categories of identity. The courses must assess the licensee's ability to apply health equity concepts into practice. Course topics may include, but are not limited to:

(i) Strategies for recognizing patterns of health care disparities on an individual, institutional, and structural level and eliminating factors that influence them;

(ii) Intercultural communication skills training, including how to work effectively with an interpreter and how communication styles differ across cultures;

(iii) Implicit bias training to identify strategies to reduce bias during assessment and diagnosis;

(iv) Methods for addressing the emotional well-being of children and youth of diverse backgrounds;

(v) Ensuring equity and antiracism in care delivery pertaining to medical developments and emerging therapies;

(vi) Structural competency training addressing five core competencies:

(A) Recognizing the structures that shape clinical interactions;

(B) Developing an extraclinical language of structure;

(C) Rearticulating "cultural" formulations in structural terms;

(D) Observing and imagining structural interventions; and

(E) Developing structural humility; and

(vii) Cultural safety training.

(4) The rule-making authority may adopt rules to implement and administer this section, including rules to establish a process to determine if a continuing education course meets the health equity continuing education requirement established in this section.

(5) For purposes of this section the following definitions apply:

(a) "Rule-making authority" means the regulatory entities identified in RCW 18.130.040 and authorized to establish continuing education requirements for the health care professions governed by those regulatory entities.

(b) "Structural competency" means a shift in medical education away from pedagogic approaches to stigma and inequalities that emphasize cross-cultural understandings of individual patients, toward attention to forces that influence health outcomes at levels above individual interactions. Structural competency reviews existing structural approaches to stigma and health inequities developed outside of medicine and proposes changes to United States medical education that will infuse clinical training with a structural focus.

(c) "Cultural safety" means an examination by health care professionals of themselves and the potential impact of their own culture on clinical interactions and health care service delivery. This requires individual health care professionals and health care organizations to acknowledge and address their own biases, attitudes, assumptions, stereotypes, prejudices, structures, and characteristics that may affect the quality of care provided. In doing so, cultural safety encompasses a critical consciousness where health care professionals and health care organizations engage in ongoing self-reflection and self-awareness and hold themselves accountable for providing culturally safe care, as defined by the patient and their communities, and as measured through progress towards achieving health equity. Cultural safety requires health care professionals and their associated health care organizations to influence health care to reduce bias and achieve equity within the workforce and working environment.

Sec. 3. RCW 43.70.615 and 2006 c 237 s 2 are each amended to read as follows:

(1) For the purposes of this section, "multicultural health" means the provision of health care services with the knowledge and awareness of the causes and effects of the determinants of health that lead to disparities in health status between different genders and racial and ethnic populations and the practice skills necessary to respond appropriately.

(2) The department, in consultation with the disciplining authorities as defined in RCW 18.130.040, shall establish, within available department general funds, an ongoing multicultural health awareness and education program as an integral part of its health professions regulation. The purpose of the education program is to raise awareness and educate health care professionals regarding the knowledge, attitudes, and practice skills necessary to care for diverse populations to achieve a greater understanding of the relationship between culture and health. ~~((The disciplining authorities having the authority to offer continuing education may provide training in the dynamics of providing culturally competent, multicultural health care to diverse populations.))~~ Any such education shall be developed in collaboration with education programs that train students in that health profession. ~~((A disciplining authority may require that instructors of continuing education or continuing competency programs integrate multicultural health into their curricula when it is appropriate to the subject matter of the instruction.))~~ No funds from the health professions account may be utilized to fund activities under this section unless the disciplining authority authorizes expenditures from its proportions of the account. ~~((A disciplining authority may defray costs by authorizing a fee to be~~

charged for participants or materials relating to any sponsored program.)

(3) By July 1, 2008, each education program with a curriculum to train health professionals for employment in a profession credentialed by a disciplining authority under chapter 18.130 RCW shall integrate into the curriculum instruction in multicultural health as part of its basic education preparation curriculum. The department may not deny the application of any applicant for a credential to practice a health profession on the basis that the education or training program that the applicant successfully completed did not include integrated multicultural health curriculum as part of its basic instruction."

The court may not reduce, waive, or suspend the additional penalty unless the court finds the offender to be indigent. If a court authorized community restitution program for offenders is available in the jurisdiction, the court shall allow offenders to offset all or a part of the penalty due under this subsection (8) by participation in the court authorized community restitution program.

(b) ~~((Eight dollars and fifty cents))~~ \$12.50 of the additional penalty under (a) of this subsection shall be remitted to the state treasurer. The remaining revenue from the additional penalty
